National Archives and Records Administration

A Special Edition of the Federal Register
Legal Status and Use of Seals and Logos

The seal of the National Archives and Records Administration (NARA) authenticates the Code of Federal Regulations (CFR) as the official codification of Federal regulations established under the Federal Register Act. Under the provisions of 44 U.S.C. 1507, the contents of the CFR, a special edition of the Federal Register, shall be judicially noticed. The CFR is prima facie evidence of the original documents published in the Federal Register (44 U.S.C. 1510).

It is prohibited to use NARA’s official seal and the stylized Code of Federal Regulations logo on any republication of this material without the express, written permission of the Archivist of the United States or the Archivist’s designee. Any person using NARA’s official seals and logos in a manner inconsistent with the provisions of 36 CFR part 1200 is subject to the penalties specified in 18 U.S.C. 506, 701, and 1017.

Use of ISBN Prefix

This is the Official U.S. Government edition of this publication and is herein identified to certify its authenticity. Use of the 0-16 ISBN prefix is for U.S. Government Printing Office Official Editions only. The Superintendent of Documents of the U.S. Government Printing Office requests that any reprinted edition clearly be labeled as a copy of the authentic work with a new ISBN.

Cite this Code: CFR

To cite the regulations in this volume use title, part and section number. Thus, 12 CFR 220.1 refers to title 12, part 220, section 1.
Explanation

The Code of Federal Regulations is a codification of the general and permanent rules published in the Federal Register by the Executive departments and agencies of the Federal Government. The Code is divided into 50 titles which represent broad areas subject to Federal regulation. Each title is divided into chapters which usually bear the name of the issuing agency. Each chapter is further subdivided into parts covering specific regulatory areas.

Each volume of the Code is revised at least once each calendar year and issued on a quarterly basis approximately as follows:

- Title 1 through Title 16 ..............................................................as of January 1
- Title 17 through Title 27 .................................................................as of April 1
- Title 28 through Title 41 .................................................................as of July 1
- Title 42 through Title 50 .............................................................as of October 1

The appropriate revision date is printed on the cover of each volume.

LEGAL STATUS

The contents of the Federal Register are required to be judicially noticed (44 U.S.C. 1507). The Code of Federal Regulations is prima facie evidence of the text of the original documents (44 U.S.C. 1510).

HOW TO USE THE CODE OF FEDERAL REGULATIONS

The Code of Federal Regulations is kept up to date by the individual issues of the Federal Register. These two publications must be used together to determine the latest version of any given rule.

To determine whether a Code volume has been amended since its revision date (in this case, January 1, 2009), consult the “List of CFR Sections Affected (LSA),” which is issued monthly, and the “Cumulative List of Parts Affected,” which appears in the Reader Aids section of the daily Federal Register. These two lists will identify the Federal Register page number of the latest amendment of any given rule.

EFFECTIVE AND EXPIRATION DATES

Each volume of the Code contains amendments published in the Federal Register since the last revision of that volume of the Code. Source citations for the regulations are referred to by volume number and page number of the Federal Register and date of publication. Publication dates and effective dates are usually not the same and care must be exercised by the user in determining the actual effective date. In instances where the effective date is beyond the cutoff date for the Code a note has been inserted to reflect the future effective date. In those instances where a regulation published in the Federal Register states a date certain for expiration, an appropriate note will be inserted following the text.

OMB CONTROL NUMBERS

The Paperwork Reduction Act of 1980 (Pub. L. 96–511) requires Federal agencies to display an OMB control number with their information collection request.
Many agencies have begun publishing numerous OMB control numbers as amendments to existing regulations in the CFR. These OMB numbers are placed as close as possible to the applicable recordkeeping or reporting requirements.

OBSOLETE PROVISIONS

Provisions that become obsolete before the revision date stated on the cover of each volume are not carried. Code users may find the text of provisions in effect on a given date in the past by using the appropriate numerical list of sections affected. For the period before January 1, 1986, consult either the List of CFR Sections Affected, 1949–1963, 1964–1972, or 1973–1985, published in seven separate volumes. For the period beginning January 1, 1986, a “List of CFR Sections Affected” is published at the end of each CFR volume.

INTEGRATION OF PUBLICATIONS

What is incorporation by reference?

Incorporation by reference was established by statute and allows Federal agencies to meet the requirement to publish regulations in the Federal Register by referring to materials already published elsewhere. For an incorporation to be valid, the Director of the Federal Register must approve it. The legal effect of incorporation by reference is that the material is treated as if it were published in full in the Federal Register (5 U.S.C. 552(a)). This material, like any other properly issued regulation, has the force of law.

What is a proper incorporation by reference? The Director of the Federal Register will approve an incorporation by reference only when the requirements of 1 CFR part 51 are met. Some of the elements on which approval is based are:

(a) The incorporation will substantially reduce the volume of material published in the Federal Register.

(b) The matter incorporated is in fact available to the extent necessary to afford fairness and uniformity in the administrative process.

(c) The incorporating document is drafted and submitted for publication in accordance with 1 CFR part 51.

What if the material incorporated by reference cannot be found? If you have any problem locating or obtaining a copy of material listed in the Finding Aids of this volume as an approved incorporation by reference, please contact the agency that issued the regulation containing that incorporation. If, after contacting the agency, you find the material is not available, please notify the Director of the Federal Register, National Archives and Records Administration, Washington DC 20408, or call 202-741-6010.

CFR INDEXES AND TABULAR GUIDES

A subject index to the Code of Federal Regulations is contained in a separate volume, revised annually as of January 1, entitled CFR INDEX AND FINDING AIDS. This volume contains the Parallel Table of Statutory Authorities and Agency Rules (Table I). A list of CFR titles, chapters, and parts and an alphabetical list of agencies publishing in the CFR are also included in this volume.

An index to the text of “Title 3—The President” is carried within that volume.

The Federal Register Index is issued monthly in cumulative form. This index is based on a consolidation of the “Contents” entries in the daily Federal Register.

A List of CFR Sections Affected (LSA) is published monthly, keyed to the revision dates of the 50 CFR titles.
REPUBLICATION OF MATERIAL

There are no restrictions on the republication of material appearing in the Code of Federal Regulations.

INQUIRIES

For a legal interpretation or explanation of any regulation in this volume, contact the issuing agency. The issuing agency’s name appears at the top of odd-numbered pages.

For inquiries concerning CFR reference assistance, call 202-741-6000 or write to the Director, Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408 or e-mail fedreg.info@nara.gov.

SALES

The Government Printing Office (GPO) processes all sales and distribution of the CFR. For payment by credit card, call toll-free, 866-512-1800, or DC area, 202-512-1800, M-F 8 a.m. to 4 p.m. e.s.t. or fax your order to 202-512-2250, 24 hours a day. For payment by check, write to: US Government Printing Office – New Orders, P.O. Box 979050, St. Louis, MO 63197-9000. For GPO Customer Service call 202-512-1803.

ELECTRONIC SERVICES

The Office of the Federal Register also offers a free service on the National Archives and Records Administration’s (NARA) World Wide Web site for public law numbers, Federal Register finding aids, and related information. Connect to NARA’s web site at www.archives.gov/federal-register. The NARA site also contains links to GPO Access.

Title 12—BANKS AND BANKING is composed of seven volumes. The parts in these volumes are arranged in the following order: parts 1–199, 200–219, 220–299, 300–499, 500–599, part 600–899, and 900-end. The first volume containing parts 1–199 is comprised of chapter I—Comptroller of the Currency, Department of the Treasury. The second and third volumes containing parts 200–299 are comprised of chapter II—Federal Reserve System. The fourth volume containing parts 300–499 is comprised of chapter III—Federal Deposit Insurance Corporation and chapter IV—Export-Import Bank of the United States. The fifth volume containing parts 500–599 is comprised of chapter V—Office of Thrift Supervision, Department of the Treasury. The sixth volume containing parts 600–899 is comprised of chapter VI—Farm Credit Administration, chapter VII—National Credit Union Administration, chapter VIII—Federal Financing Bank. The seventh volume containing part 900-end is comprised of chapter IX—Federal Housing Finance Board, chapter XI—Federal Financial Institutions Examination Council, chapter XIV—Farm Credit System Insurance Corporation, chapter XV—Department of the Treasury, chapter XVII—Office of Federal Housing Enterprise Oversight, Department of Housing and Urban Development and chapter XVIII—Community Development Financial Institutions Fund, Department of the Treasury. The contents of these volumes represent all of the current regulations codified under this title of the CFR as of January 1, 2009.

For this volume, Jonn Lilyea was Chief Editor. The Code of Federal Regulations publication program is under the direction of Michael L. White, assisted by Ann Worley.

290–299 [Reserved]

PART 220—CREDIT BY BROKERS AND DEALERS (REGULATION T)

Sec. 220.1 Authority, purpose, and scope.
220.2 Definitions.
220.3 General provisions.
220.4 Margin account.
220.5 Special memorandum account.
220.6 Good faith account.
220.7 Broker-dealer credit account.
220.8 Cash account.
220.9 Clearance of securities, options, and futures.
220.10 Borrowing and lending securities.
220.11 Requirements for the list of marginable OTC stocks and the list of foreign margin stocks.
220.12 Supplement; margin requirements.

INTERPRETATIONS

220.101 Transactions of customers who are brokers or dealers.
220.102 [Reserved]
220.103 Borrowing of securities.
220.104 [Reserved]
220.105 Ninety-day rule in special cash account.
220.106–220.107 [Reserved]
220.108 International Bank Securities.
220.109 [Reserved]
220.110 Assistance by Federal credit union to its members.
220.111 Arranging for extensions of credit to be made by a bank.
220.112 [Reserved]
220.113 Necessity for prompt payment and delivery in special cash accounts.
220.114–220.116 [Reserved]
220.117 Exception to 90-day rule in special cash account.
220.118 Time of payment for mutual fund shares purchased in a special cash account.
220.119 Applicability of margin requirements to credit extended to corporation in connection with retirement of stock.
220.120 [Reserved]
220.121 Applicability of margin requirements to joint account between two creditors.
220.122 “Deep in the money put and call options” as extensions of credit.
220.123 Partial delayed issue contracts covering nonconvertible bonds.
220.124 Installment sale of tax-shelter programs as “arranging” for credit.
220.125–220.126 [Reserved]
220.127 Independent broker/dealers arranging credit in connection with the sale of insurance premium funding programs.

220.128 Treatment of simultaneous long and short positions in the same margin account when put or call options or combinations thereof on such stock are also outstanding in the account.
220.129–220.130 [Reserved]
220.131 Application of the arranging section to broker-dealer activities under SEC Rule 144A.
220.132 Credit to brokers and dealers.

AUTHORITY: 15 U.S.C. 78c, 78q, 78u, and 78w.

EDITORIAL NOTE: A copy of each form referred to in this part is filed as a part of the original document. Copies are available upon request to the Board of Governors of the Federal Reserve System or any Federal Reserve Bank.

§ 220.1 Authority, purpose, and scope.

(a) Authority and purpose. Regulation T (this part) is issued by the Board of Governors of the Federal Reserve System (the Board) pursuant to the Securities Exchange Act of 1934 (the Act) (15 U.S.C.78a et seq.). Its principal purpose is to regulate extensions of credit by brokers and dealers; it also covers related transactions within the Board’s authority under the Act. It imposes, among other obligations, initial margin requirements and payment rules on certain securities transactions.

(b) Scope. (1) This part provides a margin account and four special purpose accounts in which to record all financial relations between a customer and a creditor. Any transaction not specifically permitted in a special purpose account shall be recorded in a margin account.

(2) This part does not preclude any exchange, national securities association, or creditor from imposing additional requirements or taking action for its own protection.

(3) This part does not apply to:

(i) Financial relations between a customer and a creditor to the extent that they comply with a portfolio margining system under rules approved or amended by the SEC;

(ii) Credit extended by a creditor based on a good faith determination that the borrower is an exempted borrower;
(iii) Financial relations between a customer and a broker or dealer registered only under section 15C of the Act; and

(iv) Financial relations between a foreign branch of a creditor and a foreign person involving foreign securities.

[Reg. T, 63 FR 2820, Jan. 16, 1998]

§ 220.2 Definitions.

The terms used in this part have the meanings given them in section 3(a) of the Act or as defined in this section as follows:

Affiliated corporation means a corporation of which all the common stock is owned directly or indirectly by the firm or general partners and employees of the firm, or by the corporation or holders of the controlling stock and employees of the corporation, and the affiliation has been approved by the creditor’s examining authority.

Cash equivalent means securities issued or guaranteed by the United States or its agencies, negotiable bank certificates of deposit, bankers acceptances issued by banking institutions in the United States and payable in the United States, or money market mutual funds.

Covered option transaction means any transaction involving options or warrants in which the customer’s risk is limited and all elements of the transaction are subject to contemporaneous exercise if:

(1) The amount at risk is held in the account in cash, cash equivalents, or via an escrow receipt; and

(2) The transaction is eligible for the cash account by the rules of the registered national securities exchange authorized to trade the option or warrant or by the rules of the creditor’s examining authority in the case of an unregistered option, provided that all such rules have been approved or amended by the SEC.

Credit balance means the cash amount due the customer in a margin account after debiting amounts transferred to the special memorandum account.

Creditor means any broker or dealer (as defined in sections 3(a)(4) and 3(a)(5) of the Act), any member of a national securities exchange, or any person associated with a broker or dealer (as defined in section 3(a)(18) of the Act), except for business entities controlling or under common control with the creditor.

Current market value of:

(1) A security means:

(i) Throughout the day of the purchase or sale of a security, the security’s total cost of purchase or the net proceeds of its sale including any commissions charged; or

(ii) At any other time, the closing sale price of the security on the preceding business day, as shown by any regularly published reporting or quotation service. If there is no closing sale price, the creditor may use any reasonable estimate of the market value of the security as of the close of business on the preceding business day.

(2) Any other collateral means a value determined by any reasonable method.

Customer excludes an exempted borrower and includes:

(1) Any person or persons acting jointly:

(i) To or for whom a creditor extends, arranges, or maintains any credit; or

(ii) Who would be considered a customer of the creditor according to the ordinary usage of the trade;

(2) Any partner in a firm who would be considered a customer of the firm absent the partnership relationship; and

(3) Any joint venture in which a creditor participates and which would be considered a customer of the creditor if the creditor were not a participant.

Debit balance means the cash amount owed to the creditor in a margin account after debiting amounts transferred to the special memorandum account.

Delivery against payment, Payment against delivery, or a C.O.D. transaction refers to an arrangement under which a creditor and a customer agree that the creditor will deliver to, or accept from, the customer, or the customer’s agent, a security against full payment of the purchase price.

Equity means the total current market value of security positions held in the margin account plus any credit balance less the debit balance in the margin account.
Escrow agreement means any agreement issued in connection with a call or put option under which a bank or any person designated as a control location under paragraph (c) of SEC Rule 15c3-3 (17 CFR 240.15c3-3(c)), holding the underlying asset or required cash or cash equivalents, is obligated to deliver to the creditor (in the case of a call option) or accept from the creditor (in the case of a put option) the underlying asset or required cash or cash equivalent against payment of the exercise price upon exercise of the call or put.

Examining authority means:
(1) The national securities exchange or national securities association of which a creditor is a member; or
(2) If a member of more than one self-regulatory organization, the organization designated by the SEC as the examining authority for the creditor.

Exempted borrower means a member of a national securities exchange or a registered broker or dealer, a substantial portion of whose business consists of transactions with persons other than brokers or dealers, and includes a borrower who:
(1) Maintains at least 1000 active accounts on an annual basis for persons other than brokers, dealers, and persons associated with a broker or dealer; and
(2) Earns at least $10 million in gross revenues on an annual basis from transactions with persons other than brokers, dealers, and persons associated with a broker or dealer; or
(3) Earns at least 10 percent of its gross revenues on an annual basis from transactions with persons other than brokers, dealers, and persons associated with a broker or dealer.

Exempted securities mutual fund means any security issued by an investment company registered under section 8 of the Investment Company Act of 1940 (15 U.S.C. 80a-8), provided the company has at least 95 percent of its assets continuously invested in exempted securities (as defined in section 3(a)(12) of the Act).

Foreign margin stock means a foreign security that is an equity security that:
(1) Appears on the Board's periodically published List of Foreign Margin Stocks; or
(2) Is deemed to have a “ready market” under SEC Rule 15c3-1 (17 CFR 240.15c3-1) or a “no-action” position issued thereunder.

Foreign person means a person other than a United States person as defined in section 7(f) of the Act.

Foreign security means a security issued in a jurisdiction other than the United States.

Good faith with respect to:
(1) Margin means the amount of margin which a creditor would require in exercising sound credit judgment;
(2) Making a determination or accepting a statement concerning a borrower means that the creditor is alert to the circumstances surrounding the credit, and if in possession of information that would cause a prudent person not to make the determination or accept the notice or certification without inquiry, investigates and is satisfied that it is correct.

Margin call means a demand by a creditor to a customer for a deposit of additional cash or securities to eliminate or reduce a margin deficiency as required under this part.

Margin deficiency means the amount by which the required margin exceeds the equity in the margin account.

Margin equity security means a margin security that is an equity security (as defined in section 3(a)(11) of the Act).

Margin excess means the amount by which the equity in the margin account exceeds the required margin. When the margin excess is represented by securities, the current value of the securities is subject to the percentages set forth in §220.12 (the Supplement).

Margin security means:
(1) Any security registered or having unlisted trading privileges on a national securities exchange;
(2) After January 1, 1999, any security listed on the Nasdaq Stock Market;
(3) Any non-equity security;
(4) Any security issued by either an open-end investment company or unit investment trust which is registered under section 8 of the Investment Company Act of 1940 (15 U.S.C. 80a–8); and
(5) Any foreign margin stock;
(6) Any debt security convertible into a margin security;
§ 220.3 General provisions.

(a) Records. The creditor shall maintain a record for each account showing the full details of all transactions.

(b) Separation of accounts—(1) In general. The requirements of one account may not be met by considering items in any other account. If withdrawals of cash or securities are permitted under this part, written entries shall be made when cash or securities are used for purposes of meeting requirements in another account.

(2) Exceptions. Notwithstanding paragraph (b)(1) of this section:

(i) For purposes of calculating the required margin for a security in a margin account, assets held in the good faith account pursuant to §220.6(e)(1)(i) or (ii) may serve in lieu of margin;

(ii) Transfers may be effected between the margin account and the special memorandum account pursuant to §§220.4 and 220.5.

(c) Maintenance of credit. Except as prohibited by this part, any credit initially extended in compliance with this part may be maintained regardless of:
§ 220.4 Margin account.

(a) Margin transactions. (1) All transactions not specifically authorized for inclusion in another account shall be recorded in the margin account.

(2) A creditor may establish separate margin accounts for the same person to:

(i) Clear transactions for other creditors where the transactions are introduced to the clearing creditor by separate creditors; or

(ii) Clear transactions through other creditors if the transactions are cleared by separate creditors; or

(iii) Clear transactions for other creditors where the transactions are introduced to the clearing creditor by separate creditors; or

(iv) Clear transactions through other creditors if the transactions are cleared by separate creditors; or

(v) Clear transactions for other creditors where the transactions are introduced to the clearing creditor by separate creditors; or

(vi) Clear transactions through other creditors if the transactions are cleared by separate creditors; or

(vii) Clear transactions for other creditors where the transactions are introduced to the clearing creditor by separate creditors; or

(viii) Clear transactions through other creditors if the transactions are cleared by separate creditors; or

(ix) Clear transactions for other creditors where the transactions are introduced to the clearing creditor by separate creditors; or

(x) Clear transactions through other creditors if the transactions are cleared by separate creditors; or

(xi) Clear transactions for other creditors where the transactions are introduced to the clearing creditor by separate creditors; or

(xii) Clear transactions through other creditors if the transactions are cleared by separate creditors; or

(xiii) Clear transactions for other creditors where the transactions are introduced to the clearing creditor by separate creditors; or

(xiv) Clear transactions through other creditors if the transactions are cleared by separate creditors; or

(xv) Clear transactions for other creditors where the transactions are introduced to the clearing creditor by separate creditors; or

(xvi) Clear transactions through other creditors if the transactions are cleared by separate creditors; or

(xvii) Clear transactions for other creditors where the transactions are introduced to the clearing creditor by separate creditors; or

(xviii) Clear transactions through other creditors if the transactions are cleared by separate creditors; or

(xix) Clear transactions for other creditors where the transactions are introduced to the clearing creditor by separate creditors; or

(xx) Clear transactions through other creditors if the transactions are cleared by separate creditors; or

(2) If a nonmargin, nonexempted security is acquired in exchange for a margin security, its retention, withdrawal, or sale within 60 days following its acquisition shall be treated as if the security is a margin security.

(g) Arranging for loans by others. A creditor may arrange for the extension or maintenance of credit to or for any customer by any person, provided the creditor does not willfully arrange credit that violates parts 221 or 224 of this chapter.

(h) Innocent mistakes. If any failure to comply with this part results from a mistake made in good faith in executing a transaction or calculating the amount of margin, the creditor shall not be deemed in violation of this part if, promptly after the discovery of the mistake, the creditor takes appropriate corrective action.

(i) Foreign currency. (1) Freely convertible foreign currency may be treated at its U.S. dollar equivalent, provided the currency is marked-to-market daily.

(2) A creditor may extend credit denominated in any freely convertible foreign currency.

(j) Exempted borrowers. (1) A member of a national securities exchange or a registered broker or dealer that has been in existence for less than one year may meet the definition of exempted borrower based on a six-month period.

(2) Once a member of a national securities exchange or registered broker or dealer ceases to qualify as an exempted borrower, it shall notify its lender of this fact before obtaining additional credit. Any new extensions of credit to such a borrower, including rollovers, renewals, and additional draws on existing lines of credit, are subject to the provisions of this part.

[Reg. T, 63 FR 2822, Jan. 16, 1998]
(iii) Provide one or more accounts over which the creditor or a third party investment adviser has investment discretion.

(b) Required margin—(1) Applicability. The required margin for each long or short position in securities is set forth in §220.12 (the Supplement) and is subject to the following exceptions and special provisions.

(2) Short sale against the box. A short sale “against the box” shall be treated as a long sale for the purpose of computing the equity and the required margin.

(3) When-issued securities. The required margin on a net long or net short commitment in a when-issued security is the margin that would be required if the security were an issued margin security, plus any unrealized loss on the commitment or less any unrealized gain.

(4) Stock used as cover. (i) When a short position held in the account serves in lieu of the required margin for a short put, the amount prescribed by paragraph (b)(1) of this section as the amount to be added to the required margin in respect of short sales shall be increased by any unrealized loss on the commitment or less any unrealized gain.

(5) Accounts of partners. If a partner of the creditor has a margin account with the creditor, the creditor shall disregard the partner’s financial relations with the firm (as shown in the partner’s capital and ordinary drawing accounts) in calculating the margin or equity of the partner’s margin account.

(6) Contribution to joint venture. If a margin account is the account of a joint venture in which the creditor participates, any interest of the creditor in the joint account in excess of the interest which the creditor would have on the basis of its right to share in the profits shall be treated as an extension of credit to the joint account and shall be margined as such.

(7) Transfer of accounts. (i) A margin account that is transferred from one creditor to another may be treated as if it had been maintained by the transferee from the date of its origin, if the transferee accepts, in good faith, a signed statement of the transferor (or, if that is not practicable, of the customer), that any margin call issued under this part has been satisfied.

(ii) A margin account that is transferred from one customer to another as part of a transaction, not undertaken to avoid the requirements of this part, may be treated as if it had been maintained for the transferee from the date of its origin, if the creditor accepts in good faith and keeps with the transferee a signed statement of the transferor describing the circumstances for the transfer.

(8) Sound credit judgment. In exercising sound credit judgment to determine the margin required in good faith pursuant to §220.12 (the Supplement), the creditor shall make its determination for a specified security position without regard to the customer’s other assets or securities positions held in connection with unrelated transactions.

(c) When additional margin is required—(1) Computing deficiency. All transactions on the same day shall be combined to determine whether additional margin is required by the creditor. For the purpose of computing equity in an account, security positions are established or eliminated and a credit or debit created on the trade date of a security transaction. Additional margin is required on any day when the day’s transactions create or increase a margin deficiency in the account and shall be for the amount of the margin deficiency so created or increased.

(2) Satisfaction of deficiency. The additional required margin may be satisfied by a transfer from the special memorandum account or by a deposit of cash, margin securities, exempted securities, or any combination thereof.

(3) Time limits. (i) A margin call shall be satisfied within one payment period after the margin deficiency was created or increased.

(ii) The payment period may be extended for one or more limited periods upon application by the creditor to its examining authority unless the examining authority believes that the creditor is not acting in good faith or that
Federal Reserve System

§ 220.5

the creditor has not sufficiently determined that exceptional circumstances warrant such action. Applications shall be filed and acted upon prior to the end of the payment period or the expiration of any subsequent extension.

(4) Satisfaction restriction. Any transaction, position, or deposit that is used to satisfy one requirement under this part shall be unavailable to satisfy any other requirement.

(d) Liquidation in lieu of deposit. If any margin call is not met in full within the required time, the creditor shall liquidate securities sufficient to meet the margin call or to eliminate any margin deficiency existing on the day such liquidation is required, whichever is less. If the margin deficiency created or increased is $1000 or less, no action need be taken by the creditor.

(e) Withdrawals of cash or securities.

(1) Cash or securities may be withdrawn from an account, except if:

(i) Additional cash or securities are required to be deposited into the account for a transaction on the same or a previous day; or

(ii) The withdrawal, together with other transactions, deposits, and withdrawals on the same day, would create or increase a margin deficiency.

(2) Margin excess may be withdrawn or may be transferred to the special memorandum account (§ 220.5) by making a single entry to that account which will represent a debit to the margin account and a credit to the special memorandum account.

(3) If a creditor does not receive a distribution of cash or securities which is payable with respect to any security in a margin account on the day it is payable and withdrawal would not be permitted under this paragraph (e), a withdrawal transaction shall be deemed to have occurred on the day the distribution is payable.

(f) Interest, service charges, etc.

(1) Without regard to the other provisions of this section, the creditor, in its usual practice, may debit the following items to a margin account if they are considered in calculating the balance of such account:

(i) Interest charged on credit maintained in the margin account;

(ii) Premiums on securities borrowed in connection with short sales or to effect delivery;

(iii) Dividends, interest, or other distributions due on borrowed securities;

(iv) Communication or shipping charges with respect to transactions in the margin account; and

(v) Any other service charges which the creditor may impose.

(2) A creditor may permit interest, dividends, or other distributions credited to a margin account to be withdrawn from the account if:

(i) The withdrawal does not create or increase a margin deficiency in the account; or

(ii) The current market value of any securities withdrawn does not exceed 10 percent of the current market value of the security with respect to which they were distributed.

[Reg. T, 63 FR 2823, Jan. 16, 1998]

§ 220.5 Special memorandum account.

(a) A special memorandum account (SMA) may be maintained in conjunction with a margin account. A single entry amount may be used to represent both a credit to the SMA and a debit to the margin account. A transfer between the two accounts may be effected by an increase or reduction in the entry. When computing the equity in a margin account, the single entry amount shall be considered as a debit in the margin account. A payment to the customer or on the customer’s behalf or a transfer to any of the customer’s other accounts from the SMA reduces the single entry amount.

(b) The SMA may contain the following entries:

(1) Dividend and interest payments;

(2) Cash not required by this part, including cash deposited to meet a maintenance margin call or to meet any requirement of a self-regulatory organization that is not imposed by this part;

(3) Proceeds of a sale of securities or cash no longer required on any expired or liquidated security position that may be withdrawn under § 220.4(e); and

(4) Margin excess transferred from the margin account under § 220.4(e)(2).

[Reg. T, 63 FR 2824, Jan. 16, 1998]
§ 220.6 Good faith account.

In a good faith account, a creditor may effect or finance customer transactions in accordance with the following provisions:

(a) Securities entitled to good faith margin—(1) Permissible transactions. A creditor may effect and finance transactions involving the buying, carrying, or trading of any security entitled to “good faith” margin as set forth in §220.12 (the Supplement).

(2) Required margin. The required margin is set forth in §220.12 (the Supplement).

(3) Satisfaction of margin. Required margin may be satisfied by a transfer from the special memorandum account or by a deposit of cash, securities entitled to “good faith” margin as set forth in §220.12 (the Supplement), any other asset that is not a security, or any combination thereof. An asset that is not a security shall have a margin value determined by the creditor in good faith.

(b) Arbitrage. A creditor may effect and finance for any customer bona fide arbitrage transactions. For the purpose of this section, the term “bona fide arbitrage” means:

(1) A purchase or sale of a security in one market together with an offsetting sale or purchase of the same security in a different market at nearly the same time as practicable for the purpose of taking advantage of a difference in prices in the two markets; or

(2) A purchase of a security which is, without restriction other than the payment of money, exchangeable or convertible within 90 calendar days of the purchase into a second security together with an offsetting sale of the second security at or about the same time, for the purpose of taking advantage of a concurrent disparity in the prices of the two securities.

(c) “Prime broker” transactions. A creditor may effect transactions for a customer as part of a “prime broker” arrangement in conformity with SEC guidelines.

(d) Credit to ESOPs. A creditor may extend and maintain credit to employee stock ownership plans without regard to the other provisions of this part.

(e) Nonpurpose credit. (1) A creditor may:

(i) Effect and carry transactions in commodities;

(ii) Effect and carry transactions in foreign exchange;

(iii) Extend and maintain secured or unsecured nonpurpose credit, subject to the requirements of paragraph (e)(2) of this section.

(2) Every extension of credit, except as provided in paragraphs (e)(1)(i) and (e)(1)(ii) of this section, shall be deemed to be purpose credit unless, prior to extending the credit, the creditor accepts in good faith from the customer a written statement that it is not purpose credit. The statement shall conform to the requirements established by the Board.

[Reg. T, 63 FR 2824, Jan. 16, 1998]

§ 220.7 Broker-dealer credit account.

(a) Requirements. In a broker-dealer credit account, a creditor may effect or finance transactions in accordance with the following provisions.

(b) Purchase or sale of security against full payment. A creditor may purchase any security from or sell any security to another creditor or person regulated by a foreign securities authority under a good faith agreement to promptly deliver the security against full payment of the purchase price.

(c) Joint back office. A creditor may effect or finance transactions of any of its owners if the creditor is a clearing and servicing broker or dealer owned jointly or individually by other creditors.

(d) Capital contribution. A creditor may extend and maintain credit to any partner or stockholder of the creditor for the purpose of making a capital contribution to, or purchasing stock of, the creditor, affiliated corporation or another creditor.

(e) Emergency and subordinated credit. A creditor may extend and maintain, with the approval of the appropriate examining authority:

(1) Credit to meet the emergency needs of any creditor; or

(2) Subordinated credit to another creditor for capital purposes, if the other creditor:

(i) Is an affiliated corporation or would not be considered a customer of
the lender apart from the subordinated loan; or
(ii) Will not use the proceeds of the loan to increase the amount of dealing in securities for the account of the creditor, its firm or corporation or an affiliated corporation.

(f) Omnibus credit (1) A creditor may effect and finance transactions for a broker or dealer who is registered with the SEC under section 15 of the Act and who gives the creditor written notice that:
(i) All securities will be for the account of customers of the broker or dealer; and
(ii) Any short sales effected will be short sales made on behalf of the customers of the broker or dealer other than partners.

(2) The written notice required by paragraph (f)(1) of this section shall conform to any SEC rule on the hypothecation of customers' securities by brokers or dealers.

(g) Special purpose credit. A creditor may extend the following types of credit with good faith margin:
(1) Credit to finance the purchase or sale of securities for prompt delivery, if the credit is to be repaid upon completion of the transaction.

(2) Credit to finance securities in transit or surrendered for transfer, if the credit is to be repaid upon completion of the transaction.

(3) Credit to enable a broker or dealer to pay for securities, if the credit is to be repaid on the same day it is extended.

(4) Credit to an exempted borrower.

(5) Credit to a member of a national securities exchange or registered broker or dealer to finance its activities as a market maker or specialist.

(6) Credit to a member of a national securities exchange or registered broker or dealer to finance its activities as an underwriter.

§ 220.8 Cash account.

(a) Permissible transactions. In a cash account, a creditor, may:

(1) Buy for or sell to any customer any security or other asset if:
(i) There are sufficient funds in the account; or
(ii) The creditor accepts in good faith the customer’s agreement that the customer will promptly make full cash payment for the security or asset before selling it and does not contemplate selling it prior to making such payment;
(2) Buy from or sell for any customer any security or other asset if:
(i) The security is held in the account; or
(ii) The creditor accepts in good faith the customer’s statement that the security is owned by the customer or the customer’s principal, and that it will be promptly deposited in the account;

(3) Issue, endorse, or guarantee, or sell an option for any customer as part of a covered option transaction; and

(4) Use an escrow agreement in lieu of the cash, cash equivalents or underlying asset position if:
(i) In the case of a short call or a short put, the creditor is advised by the customer that the required securities, assets or cash are held by a person authorized to issue an escrow agreement and the creditor independently verifies that the appropriate escrow agreement will be delivered by the person promptly; or
(ii) In the case of a call issued, endorsed, guaranteed, or sold on the same day the underlying asset is purchased in the account and the underlying asset is to be delivered to a person authorized to issue an escrow agreement, the creditor verifies that the appropriate escrow agreement will be delivered by the person promptly.

(b) Time periods for payment; cancellation or liquidation—(1) Full cash payment. A creditor shall obtain full cash payment for customer purchases:
(i) Within one payment period of the date:
(A) Any nonexempted security was purchased;
(B) Any when-issued security was made available by the issuer and the underlying asset is to be delivered to a person authorized to issue an escrow agreement, the creditor verifies that the appropriate escrow agreement will be delivered by the person promptly.
(C) Any “when distributed” security was distributed under a published plan;
(D) A security owned by the customer has matured or has been redeemed and a new refunding security of the same issuer has been purchased by the customer, provided:
(1) The customer purchased the new security no more than 35 calendar days prior to the date of maturity or redemption of the old security;

(2) The customer is entitled to the proceeds of the redemption; and

(3) The delayed payment does not exceed 103 percent of the proceeds of the old security.

(ii) In the case of the purchase of a foreign security, within one payment period of the trade date or within one day after the date on which settlement is required to occur by the rules of the foreign securities market, provided this period does not exceed the maximum time permitted by this part for delivery against payment transactions.

(2) \textbf{Delivery against payment.} If a creditor purchases for or sells to a customer a security in a delivery against payment transaction, the creditor shall have up to 35 calendar days to obtain payment if delivery of the security is delayed due to the mechanics of the transaction and is not related to the customer’s willingness or ability to pay.

(3) \textbf{Shipment of securities, extension.} If any shipment of securities is incidental to consummation of a transaction, a creditor may extend the payment period by the number of days required for shipment, but not by more than one additional payment period.

(4) \textbf{Cancellation; liquidation; minimum amount.} A creditor shall promptly cancel or otherwise liquidate a transaction or any part of a transaction for which the customer has not made full cash payment within the required time. A creditor may, at its option, disregard any sum due from the customer not exceeding $1000.

\textbf{90 day freeze.} (1) If a nonexempted security in the account is sold or delivered to another broker or dealer without having been previously paid for in full by the customer, the privilege of delaying payment beyond the trade date shall be withdrawn for 90 calendar days following the date of sale of the security. Cancellation of the transaction other than to correct an error shall constitute a sale.

(2) The 90 day freeze shall not apply if:

(i) Within the period specified in paragraph (b)(1) of this section, full payment is received or any check or draft in payment has cleared and the proceeds from the sale are not withdrawn prior to such payment or check clearance; or

(ii) The purchased security was delivered to another broker or dealer for deposit in a cash account which holds sufficient funds to pay for the security. The creditor may rely on a written statement accepted in good faith from the other broker or dealer that sufficient funds are held in the other cash account.

(d) \textbf{Extension of time periods; transfers.} (1) Unless the creditor’s examining authority believes that the creditor is not acting in good faith or that the creditor has not sufficiently determined that exceptional circumstances warrant such action, it may upon application by the creditor:

(i) Extend any period specified in paragraph (b) of this section; or

(ii) Authorize transfer to another account of any transaction involving the purchase of a margin or exempted security; or

(iii) Grant a waiver from the 90 day freeze.

(2) Applications shall be filed and acted upon prior to the end of the payment period, or in the case of the purchase of a foreign security within the period specified in paragraph (b)(1)(ii) of this section, or the expiration of any subsequent extension.

[Reg. T, 63 FR 2825, Jan. 16, 1998]
Federal Reserve System § 220.11

(i) Issues, guarantees performance on, or clears transactions in, any security (including options on any security, certificate of deposit, securities index or foreign currency); or

(ii) Guarantees performance of contracts for the purchase or sale of a commodity for future delivery or options on such contracts;

(2) The clearing agency is registered with the Securities and Exchange Commission or is the clearing agency for a contract market regulated by the Commodity Futures Trading Commission; and

(3) The deposit consists of any margin security and complies with the rules of the clearing agency that have been approved by the Securities and Exchange Commission or the Commodity Futures Trading Commission.

[Reg. T, 63 FR 2826, Jan. 16, 1998]

§ 220.10 Borrowing and lending securities.

(a) Without regard to the other provisions of this part, a creditor may borrow or lend securities for the purpose of making delivery of the securities in the case of short sales, failure to receive securities required to be delivered, or other similar situations. If a creditor reasonably anticipates a short sale or fail transaction, such borrowing may be made up to one standard settlement cycle in advance of trade date.

(b) A creditor may lend foreign securities to a foreign person (or borrow such securities for the purpose of re-lending them to a foreign person) for any purpose lawful in the country in which they are to be used.

(c) A creditor that is an exempted borrower may borrow securities without regard to the other provisions of this part and a creditor may borrow securities from an exempted borrower without regard to the other provisions of this part.

[Reg. T, 63 FR 2826, Jan. 16, 1998]

§ 220.11 Requirements for the list of marginable OTC stocks and the list of foreign margin stocks.

(a) Requirements for inclusion on the list of marginable OTC stocks. Except as provided in paragraph (f) of this section, OTC margin stock shall meet the following requirements:

(1) Four or more dealers stand willing to, and do in fact, make a market in such stock and regularly submit bona fide bids and offers to an automated quotations system for their own accounts;

(2) The minimum average bid price of such stock, as determined by the Board, is at least $5 per share;

(3) The stock is registered under section 12 of the Act, is issued by an insurance company subject to section 12(g)(2)(G) of the Act, is issued by a closed-end investment management company subject to registration pursuant to section 8 of the Investment Company Act of 1940 (15 U.S.C. 80a-8), is an American Depository Receipt (ADR) of a foreign issuer whose securities are registered under section 12 of the Act, or is a stock of an issuer required to file reports under section 15(d) of the Act;

(4) Daily quotations for both bid and asked prices for the stock are continuously available to the general public;

(5) The stock has been publicly traded for at least six months;

(6) The issuer has at least $4 million of capital, surplus, and undivided profits;

(7) There are 400,000 or more shares of such stock outstanding in addition to shares held beneficially by officers, directors or beneficial owners of more than 10 percent of the stock;

(8) There are 1,200 or more holders of record, as defined in SEC Rule 12g5–1 (17 CFR 240.12g5–1), of the stock who are not officers, directors or beneficial owners of 10 percent or more of the stock, or the average daily trading volume of such stock as determined by the Board, is at least 500 shares; and

(9) The issuer or a predecessor in interest has been in existence for at least three years.

(b) Requirements for continued inclusion on the list of marginable OTC stocks. Except as provided in paragraph (f) of this section, OTC margin stock shall meet the following requirements:

(1) Three or more dealers stand willing to, and do in fact, make a market in such stock and regularly submit
§220.11  12 CFR Ch. II (1–1–09 Edition)

bona fide bids and offers to an automated quotations system for their own accounts;
(2) The minimum average bid price of such stocks, as determined by the Board, is at least $2 per share;
(3) The stock is registered as specified in paragraph (a)(3) of this section;
(4) Daily quotations for both bid and asked prices for the stock are continuously available to the general public;
(5) The issuer has at least $1 million of capital, surplus, and undivided profits;
(6) There are 300,000 or more shares of such stock outstanding in addition to shares held beneficially by officers, directors, or beneficial owners of more than 10 percent of the stock; and
(7) There continue to be 800 or more holders of record, as defined in SEC Rule 12g5–1 (17 CFR 240.12g5–1), of the stock who are not officers, directors, or beneficial owners of 10 percent or more of the stock, or the average daily trading volume of such stock, as determined by the Board, is at least 300 shares.

(c) Requirements for inclusion on the list of foreign margin stocks. Except as provided in paragraph (f) of this section, a foreign security shall meet the following requirements before being placed on the List of Foreign Margin Stocks:

(1) The security is an equity security that is listed for trading on or through the facilities of a foreign securities exchange or a recognized foreign securities market and has been trading on such exchange or market for at least six months;
(2) Daily quotations for both bid and asked or last sale prices for the security provided by the foreign securities exchange or foreign securities market on which the security is traded are continuously available to creditors in the United States pursuant to an electronic quotation system;
(3) The aggregate market value of shares, the ownership of which is unrestricted, is not less than $1 billion;
(4) The average weekly trading volume of such security during the preceding six months is either at least 200,000 shares or $1 million; and
(5) The issuer or a predecessor in interest has been in existence for at least five years.

(d) Requirements for continued inclusion on the list of foreign margin stocks. Except as provided in paragraph (f) of this section, a foreign security shall meet the following requirements to remain on the List of Foreign Margin Stocks:

(1) The security continues to meet the requirements specified in paragraphs (c) (1) and (2) of this section;
(2) The aggregate market value of shares, the ownership of which is unrestricted, is not less than $500 million; and
(3) The average weekly trading volume of such security during the preceding six months is either at least 100,000 shares or $500,000.

(e) Removal from the list. The Board shall periodically remove from the lists any stock that:

(1) Ceases to exist or of which the issuer ceases to exist; or
(2) No longer substantially meets the provisions of paragraphs (b) or (d) of this section or the definition of OTC margin stock.

(f) Discretionary authority of Board. Without regard to other paragraphs of this section, the Board may add to, or omit or remove from the list of foreign margin stocks an equity security, if in the judgment of the Board, such action is necessary or appropriate in the public interest.

(g) Unlawful representations. It shall be unlawful for any creditor to make, or cause to be made, any representation to the effect that the inclusion of a security on the list of marginable OTC stocks or the list of foreign margin stocks is evidence that the Board or the SEC has in any way passed upon the merits of, or given approval to, such security or any transactions therein. Any statement in an advertisement or other similar communication containing a reference to the Board in connection with the lists or stocks on those lists shall be an unlawful representation.

[Reg. T, 63 FR 2826, Jan. 16, 1998]
§ 220.12 Supplement: margin requirements.

The required margin for each security position held in a margin account shall be as follows:

(a) Margin equity security, except for an exempted security, money market mutual fund or exempted securities mutual fund, warrant on a securities index or foreign currency or a long position in an option: 50 percent of the current market value of the security or the percentage set by the regulatory authority where the trade occurs, whichever is greater.

(b) Exempted security, non-equity security, money market mutual fund or exempted securities mutual fund: The margin required by the creditor in good faith or the percentage set by the regulatory authority where the trade occurs, whichever is greater.

(c) Short sale of a nonexempted security, except for a non-equity security:
   (1) 150 percent of the current market value of the security; or
   (2) 100 percent of the current market value if a security exchangeable or convertible within 90 calendar days without restriction other than the payment of money into the security sold short is held in the account, provided that any long call to be used as margin in connection with a short sale of the underlying security is an American-style option issued by a registered clearing corporation and listed or traded on a registered national securities exchange with an exercise price that does not exceed the price at which the underlying security was sold short.

(d) Short sale of an exempted security or non-equity security: 100 percent of the current market value of the security plus the margin required by the creditor in good faith.

(e) Nonmargin, nonexempted equity security: 100 percent of the current market value.

(f) Put or call on a security, certificate of deposit, securities index or foreign currency or a warrant on a securities index or foreign currency:
   (1) In the case of puts and calls issued by a registered clearing corporation and listed or traded on a registered national securities exchange or a registered securities association and registered warrants on a securities index or foreign currency, the amount, or other position specified by the rules of the registered national securities exchange or the registered securities association authorized to trade the option or warrant, provided that all such rules have been approved or amended by the SEC; or
   (2) In the case of all other puts and calls, the amount, or other position, specified by the maintenance rules of the creditor’s examining authority.

[Reg. T, 63 FR 2827, Jan. 16, 1998]

INTERPRETATIONS

§ 220.101 Transactions of customers who are brokers or dealers.

The Board has recently considered certain questions regarding transactions of customers who are brokers or dealers.

(a) The first question was whether delivery and payment under § 220.4(f)(3) must be exactly simultaneous (such as in sight draft shipments), or whether it is sufficient if the broker-dealer customer, “as promptly as practicable in accordance with the ordinary usage of the trade,” mails or otherwise delivers to the creditor a check in settlement of the transaction, the check being accompanied by instructions for transfer or delivery of the security. The Board ruled that the latter method of setting the transaction is permissible.

(b) The second question was, in effect, whether the limitations of § 220.4(c)(8) apply to the account of a customer who is himself a broker or dealer. The answer is that the provision applies to any “special cash account,” regardless of the type of customer.

(c) The third question was, in effect, whether a purchase and a sale of an unissued security under § 220.4(f)(3) may be offset against each other, or whether each must be settled separately by what would amount to delivery of the security to settle one transaction and its redelivery to settle the other. The answer is that it is permissible to offset the transactions against each other without physical delivery and redelivery of the security.

§ 220.102 [Reserved]

§ 220.103 Borrowing of securities.

(a) The Board of Governors has been asked for a ruling as to whether § 220.6(h), which deals with borrowing and lending of securities, applies to a borrower of securities if the lender is a private individual, as contrasted with a member of a national securities exchange or a broker or dealer.

(b) Section 220.6(h) does not require that the lender of the securities in such a case be a member of a national securities exchange or a broker or dealer. Therefore, a borrowing of securities may be able to qualify under the provision even though the lender is a private individual, and this is true whether the security is registered on a national securities exchange or is unregistered. In borrowing securities from a private individual under § 220.6(h), however, it becomes especially important to bear in mind two limitations that are contained in the section.

(c) The first limitation is that the section applies only if the broker borrows the securities for the purpose specified in the provision, that is, “for the purpose of making delivery of such securities in the case of short sales, failure to receive securities he is required to deliver, or other similar cases”. The present language of the provision does not require that the delivery for which the securities are borrowed must be on a transaction which the borrower has himself made, either as agent or as principal; he may borrow under the provision in order to relend to someone else for the latter person to make such a delivery. However, the borrowing must be related to an actual delivery of the type specified—a delivery in connection with a specific transaction that has already occurred or is in immediate prospect. The provision does not authorize a broker to borrow securities (or make the related deposit) merely in order that he or some other broker may have the securities “on hand” or may anticipate some need that may or may not arise in the future.

(d) The ruling in the 1940 Federal Reserve Bulletin, at page 647, is an example of a borrowing which, on the facts as given, did not meet the requirement. There, the broker wished to borrow stocks with the understanding that he “would offer to lend this stock in the ‘loan crowd’ on a national securities exchange.” There was no assurance that the stocks would be used for the purpose specified in § 220.6(h); they might be, or they might merely be held idle while the person lending the stocks had the use of the funds deposited against them. The ruling held in effect that since the borrowing could not qualify under § 220.6(h) it must comply with other applicable provisions of the regulation.

(e) The second requirement is that the deposit of cash against the borrowed securities must be “bona fide.” This requirement naturally cannot be spelled out in detail, but it requires at least that the purpose of the broker in making the deposit should be to obtain the securities for the specified purpose, and that he should not use the arrangement as a means of accommodating a customer who is seeking to obtain more funds than he could get in a general account.

(f) The Board recognizes that even with these requirements there is still some possibility that the provision may be misapplied. The Board is reluctant to impose additional burdens on legitimate transactions by tightening the provision. If there should be evidence of abuses developing under the provision, however, it would become necessary to consider making it more restricted.

[12 FR 5278, Aug. 2, 1947]

§ 220.104 [Reserved]

§ 220.105 Ninety-day rule in special cash account.

(a) Section 220.4(c)(8) places a limitation on a special cash account if a security other than an exempted security has been purchased in the account and “without having been previously paid for in full by the customer * * * has been * * * delivered out to any broker or dealer.” The limitation is that during the succeeding 90 days the customer may not purchase a security in the account other than an exempted security unless funds sufficient for the purpose are held in the account. In other words, the privilege of delayed
payment in such an account is withdrawn during the 90-day period.

(b) The Board recently considered a question as to whether the following situation makes an account subject to the 90-day disqualification: A customer purchases registered security ABC in a special cash account. The broker executes the order in good faith as a bona fide cash transaction, expecting to obtain full cash payment promptly. The next day, the customer sells registered security XYZ in the account, promising to deposit it promptly in the account. The proceeds of the sale are equal to or greater than the cost of security ABC. After both sale and purchase have been made, the customer requests the broker to deliver security ABC to a different broker, to receive security XYZ from that broker at about the same time, and to settle with the other broker—such settlement to be made either by paying the cost of security XYZ to the other broker and receiving from him the cost of security ABC, or by merely settling any difference between these amounts.

(c) The Board expressed the view that the account becomes subject to the 90-day disqualification in § 220.4(c)(8). In the instant case, unlike that described at 1940 Federal Reserve Bulletin 772, the security sold is not held in the account and is not to be deposited in it unconditionally. It is to be obtained only against the delivery to the other broker of the security which had been purchased. Hence payment can not be said to have been made prior to such delivery; the purchased security has been delivered out to a broker without previously having been paid for in full, and the account becomes subject to the 90-day disqualification.

[13 FR 2368, May 1, 1948]

§§ 220.106–220.107 [Reserved]

§ 220.108 International Bank Securities.

(a) Section 2 of the Act of June 29, 1949 (Pub. L. 142—81st Congress), amended the Bretton Woods Agreements Act by adding a new section numbered 15 providing, in part, that—

Any securities issued by International Bank for Reconstruction and Development (including any guaranty by the bank, whether or not limited in scope), and any securities guaranteed by the bank as to both principal and interest, shall be deemed to be exempted securities within the meaning of * * * paragraph (a)(12) of section 3 of the [Securities Exchange] Act of June 6, 1934, as amended (15 U.S.C. 78c). * * *.

(b) In response to inquiries with respect to the applicability of the margin requirements of this part to securities issued or guaranteed by the International Bank for Reconstruction and Development, the Board has replied that, as a result of this enactment, securities issued by the Bank are now classified as exempted securities under §220.2(e). Such securities are now in the same category under this part as are United States Government, State and municipal bonds. Accordingly, the specific percentage limitations prescribed by this part with respect to maximum loan value and margin requirements are no longer applicable thereto.

[14 FR 5505, Sept. 7, 1949]

§ 220.109 [Reserved]

§ 220.110 Assistance by Federal credit union to its members.

(a) An inquiry was presented recently concerning the application of this part or part 221 of this subchapter, to a plan proposed by a Federal credit union to aid its members in purchasing stock of a corporation whose subsidiary apparently was the employer of all the credit union’s members.

(b) From the information submitted, the plan appeared to contemplate that the Federal credit union would accept orders from its members for registered common stock of the parent corporation in multiples of 5 shares; that whenever orders had been so received for a total of 100 shares, the credit union, as agent for such members, would execute the orders through a brokerage firm with membership on a national securities exchange; that the brokerage firm would deliver certificates for the stock, registered in the names of the individual purchasers, to the credit union against payment by the credit union; that the credit union would prorate the total amount so paid, including the brokerage fee,
among the individual purchasers according to the number of shares purchased by them; and that a savings in brokerage fee resulting from the 100-lot purchases would be passed on by the credit union to the individual purchasers of the stock. However, amounts of the stock less than 100 shares would be purchased by the credit union through the brokerage firm for any members willing to forego such savings.

(c) It appeared further that the Federal credit union members for whom stock was so purchased would reimburse the credit union (1) by cash payment, (2) by the proceeds of withdrawn shares of the credit union, (3) by the proceeds of an installment loan from the credit union collateralized by the stock purchased, or by (4) by a combination of two or more of the above methods. To assist the collection of any such loan, the employer of the credit union members would provide payroll deductions. Apparently, sales by the credit union of any of the stock purchased by one of its members would occur only in satisfaction of a delinquent loan balance. In no case did it appear that the credit union would make a charge for arranging the execution of transactions in the stock for its members.

(d) The Board was of the view that, from the facts as presented, it did not appear that the Federal credit union should be regarded as the type of institution to which part 221 of this subchapter, in its present form, applied.

(e) With respect to this part, the question was whether the activities of the Federal credit union under the proposal, or otherwise, might be such as to bring it within the meaning of the terms “broker” or “dealer” as used in the part and the Securities Exchange Act of 1934. The Board observed that this, of course, was a question of fact that necessarily depended upon the circumstances of the particular case, including the manner in which the arrangement in question might be carried out in practice.

(f) On the basis of the information submitted, however, it did not appear to the Board that the Federal credit union should be regarded as being subject to this part as a “broker or dealer who transacts a business in securities through the medium of” a member firm solely because of its activities as contemplated by the proposal in question. The Board stated that the part rather clearly would not apply if there appeared to be nothing other than loans by the credit union to its members to finance purchases made directly by them of stock of the parent corporation of the employer of the member-borrowers. The additional fact that the credit union, as agent, would purchase such stock for its members (even though all such purchases might not be financed by credit union loans) was not viewed by the Board as sufficient to make the regulation applicable where, as from the facts presented, it did not appear that the credit union in any case was to make any charge or receive any compensation for assisting in such purchases or that the credit union otherwise was engaged in securities activities. However, the Board stated that matters of this kind must be examined closely for any variations that might suggest the inapplicability of the foregoing.

[18 FR 4592, Aug. 5, 1953]

§ 220.111 Arranging for extensions of credit to be made by a bank.

(a) The Board has recently had occasion to express opinions regarding the requirements which apply when a person subject to this part (for convenience, called here simply a broker) arranges for a bank to extend credit.

(b) The matter is treated generally in §220.7(a) and is also subject to the general rule of law that any person who aids or abets a violation of law by another is himself guilty of a violation. It may be stated as a general principle that any person who arranges for credit to be extended by someone else has a responsibility so to conduct his activities as not to be a participant in a violation of this part, which applies to brokers, or part 221 of this subchapter, which applies to banks.

(c) More specifically, in arranging an extension of credit that may be subject to part 221 of this subchapter, a broker must act in good faith and, therefore, must question the accuracy of any non-purpose statement (i.e., a statement that the loan is not for the purpose of...
purchasing or carrying registered stocks) given in connection with the
loan where the circumstances are such that the broker from any source knows
or has reason to know that the state-
ment is incomplete or otherwise inac-
curate as to the true purpose of the
credit. The requirement of “good
faith” is of vital importance. While the
application of the requirement will
necessarily vary with the facts of the
particular case, the broker, like the
bank for whom the loan is arranged to
be made, must be alert to the cir-
cumstances surrounding the loan.
Thus, for example, if a broker or dealer
is to deliver registered stocks to secure
the loan or is to receive the proceeds of
the loan, the broker arranging the loan
and the bank making it would be put
on notice that the loan would probably
be subject to part 221 of this sub-
chapter. In any such circumstances
they could not in good faith accept or
rely upon a statement to the contrary
without obtaining a reliable and satis-
factory explanation of the situation.
The foregoing, of course, applies the
principles contained in §221.101 of this
subchapter.

(d) In addition, when a broker is ap-
proached by another broker to arrange
extensions of credit for customers of
the approaching broker, the broker ap-
proached has a responsibility not to ar-
range any extension of credit which the
approaching broker could not himself
arrange. Accordingly, in such cases the
statutes and regulations forbid the ap-
proached broker to arrange extensions
of credit on unregistered securities for
the purpose of purchasing or carrying
either registered or unregistered securi-
ties. The approaching broker would
also be violating the applicable re-
quirements if he initiated or otherwise
participated in any such forbidden
transactions.

(e) The expression of views, set forth
in this section, to the effect that cer-
tain specific transactions are forbid-
den, of course, should not in any way
be understood to indicate approval of
any other transactions which are not
mentioned.

[18 FR 5505, Sept. 15, 1953]
will “promptly make full cash payment for the security, if funds sufficient for the purpose are not already in the account; and, subject to certain exceptions, §220.4(c)(2) provides that the creditor shall promptly cancel or liquidate the transaction if payment is not made by the customer within seven business days after the date of purchase. As indicated in the Board’s interpretation at 1940 Federal Reserve Bulletin 1172, a necessary part of the customer’s undertaking pursuant to §220.4(c)(1) is that he “should have the necessary means of payment readily available when he purchases a security in the special cash account. He should expect to pay for it immediately or in any event within the period (of not more than a very few days) that is as long as is usually required to carry through the ordinary securities transaction.”

(d) The arrangements for delayed delivery and payment in the case presented to the Board and outlined above clearly would be inconsistent with the requirement of §220.4(c)(1)(i) that the purchase be made in reliance upon an agreement accepted by the creditor in good faith that the customer will “promptly” make full cash payment for the security. Accordingly, the Board said that transactions of the kind in question would not qualify as a “bona fide cash transaction” and, therefore, could not properly be effected in a special cash account, unless a contrary conclusion would be justified by the exception in §220.4(c)(5).

(e) Section 220.4(c)(5) provides that if the creditor, “acting in good faith in accordance with” §220.4(c)(1), purchases a security for a customer “with the understanding that he is to deliver the security promptly to the customer, and the full cash payment is to be made promptly by the customer and is to be made against such delivery”, the creditor may at his option treat the transaction as one to which the period applicable under §220.4(c)(2) is not the seven days therein specified but 35 days after the date of such purchase. It will be observed that the application of §220.4(c)(5) is specifically conditioned on the creditor acting in good faith in accordance with §220.4(c)(1). As noted above, the existence of the arrangements for delayed delivery and payment in the case presented would prevent this condition from being met, since the customer could not be regarded as having agreed to make full cash payment “promptly”. Furthermore, such arrangements clearly would be inconsistent with the requirement of §220.4(c)(5) that the creditor “deliver the security promptly to the customer”.

(f) Section 220.4(c)(5) was discussed in the Board’s published interpretation, referred to above, which states that “it is not the purpose of (§220.4 (c)(5)) to allow additional time to customers for making payment. The ‘prompt delivery’ described in (§220.4 (c)(5)) is delivery which is to be made as soon as the broker or dealer can reasonably make it in view of the mechanics of the securities business and the bona fide usages of the trade. The provision merely recognizes the fact that in certain circumstances it is an established bona fide practice in the trade to obtain payment against delivery of the security to the customer, and the further fact that the mechanics of the trade, unrelated to the customer’s readiness to pay, may sometimes delay such delivery to the customer”.

(g) In the case presented, it appears that the only reason for the delay is related solely to the customer’s readiness to pay and is in no way attributable to the mechanics of the securities business. Accordingly, it is the Board’s view that the exception in §220.4(c)(5) should not be regarded as permitting the transactions in question to be effected in a special cash account.

§§ 220.114–220.116 [Reserved]

§ 220.117 Exception to 90-day rule in special cash account.

(a) The Board of Governors has recently interpreted certain of the provisions of §220.4(c)(8), with respect to the withdrawal of proceeds of a sale of stock in a “special cash account” when the stock has been sold out of the account prior to payment for its purchase.

(b) The specific factual situation presented may be summarized as follows:
Customer purchased stock in a special cash account with a member firm on Day 1. On Day 3 customer sold the same stock at a profit. On Day 8 customer delivered his check for the cost of the purchase to the creditor (member firm). On Day 9 the creditor mailed to the customer a check for the proceeds of the sale.

(c) Section 220.4(c)(8) prohibits a creditor, as a general rule, from effecting a purchase of a security in a customer’s special cash account if any security has been purchased in that account during the preceding 90 days and has then been sold in the account or delivered out to any broker or dealer without having been previously paid for in full by the customer. One exception to this general rule reads as follows:

* * * The creditor may disregard for the purposes of this subparagraph (§220.4(c)(8)) a sale without prior payment provided full cash payment is received within the period described by subparagraph (2) of this paragraph (seven days after the date of purchase) and the customer has not withdrawn the proceeds of sale or the day on which such payment (and also final payment of any check received in that connection) is received. * * *

(d) Final payment of customer’s check: (1) The first question is: When is the creditor to be regarded as having received “final payment of any check received” in connection with the purchase?

(2) The clear purpose of §220.4(c)(8) is to prevent the use of the proceeds of sale of a stock by a customer to pay for its purchase—i.e., to prevent him from trading on the creditor’s funds by being able to deposit the sale proceeds prior to presentation of his own check to the drawee bank. Thus, when a customer undertakes to pay for a purchase by check, that check does not constitute payment for the purchase, within the language and intent of the above-quoted exception in §220.4(c)(8), until it has been honored by the drawee bank, indicating the sufficiency of his account to pay the check.

(3) The phrase “final payment of any check” is interpreted as above notwithstanding §220.6(f), which provides that:

For the purposes of this part (Regulation T), a creditor may, at his option (1) treat the receipt in good faith of any check or draft drawn on a bank which in the ordinary course of business is payable on presentation, * * * as receipt of payment of the amount of such check, draft or order; * * *

This is a general provision substantially the same as language found in section 4(f) of Regulation T as originally promulgated in 1934. The language of the subject exception to the 90-day rule of §220.4(c)(8), i.e., the exception based expressly on final “payment of any check,” was added to the regulation in 1949 by an amendment directed at a specific type of situation. Because the exception is a special, more recent provision, and because §220.6(f), if controlling, would permit the exception to undermine, to some extent, the effectiveness of the 90-day rule, sound principles of construction require that the phrase “final payment of any check” be given its literal and intended effect.

(4) There is no fixed period of time from the moment of receipt by the payee, or of deposit, within which it is certain that any check will be paid by the drawee bank. Therefore, in the rare case where the operation of the subject exception to §220.4(c)(8) is necessary to avoid application of the 90-day rule, a creditor should ascertain (from his bank of deposit or otherwise) the fact of payment of a customer’s check given for the purchase. Having so determined the day of final payment, the creditor can permit withdrawal on any subsequent day.

(e) Mailing as “withdrawal”: (1) Also presented is the question whether the mailing to the customer of the creditor’s check for the sale proceeds constitutes a withdrawal of such proceeds by the customer at the time of mailing so that, if the check for the sale proceeds is mailed on or before the day on which the customer’s check for the purchase is finally paid, the 90-day rule applies. It may be that a check mailed one day will not ordinarily be received by the customer until the next. The Board is of the view, however, that when the check for sale proceeds is issued and released into the mails, the proceeds are to be regarded as withdrawn by the customer; a more liberal interpretation would open a way for circumvention. Accordingly, the creditor’s check should not be mailed nor the sale proceeds otherwise released to
the customer “on or before the day” on which payment for the purchase, including final payment of any check given for such payment, is received by the creditor, as determined in accordance with the principles stated herein.

(2) Applying the above principles to the schedule of transactions described in the second paragraph of this interpretation, the mailing of the creditor’s check on “Day 9” would be consistent with the subject exception to § 220.4(c)(8), as interpreted herein, only if the customer’s check was paid by the drawee bank on “Day 8”.

[27 FR 3511, Apr. 12, 1962]

§ 220.118 Time of payment for mutual fund shares purchased in a special cash account.

(a) The Board has recently considered the question whether, in connection with the purchase of mutual fund shares in a “special cash account” under the provisions of this part 220, the 7-day period with respect to liquidation for nonpayment is that described in §220.4(c)(2) or that described in §220.4(c)(3).

(b) Section 220.4(c)(2) provides as follows:

In case a customer purchases a security (other than an exempted security) in the special cash account and does not make full cash payment for the security within 7 days after the date on which the security is so purchased, the creditor shall, except as provided in subparagraphs (3)–(7) of this paragraph, promptly cancel or otherwise liquidate the transaction or the unsettled portion thereof.

Section 220.4(c)(3), one of the exceptions referred to, provides in relevant part as follows:

If the security when so purchased is an unissued security, the period applicable to the transaction under subparagraph (2) of this paragraph shall be 7 days after the date on which the security is made available by the issuer for delivery to purchasers.

(c) In the case presented, the shares of the mutual fund (open-end investment company) are technically not issued at the time they are sold by the underwriter and distributor. Several days may elapse from the date of sale before a certificate can be delivered by the transfer agent. The specific inquiry to the Board was, in effect, whether the 7-day period after which a purchase transaction must be liquidated or cancelled for nonpayment should run, in the case of mutual fund shares, from the time when a certificate for the purchased shares is available for delivery to the purchaser, instead of from the date of the purchase.

(d) Under the general rule of §220.4(c)(2) that is applicable to purchases of outstanding securities, the 7-day period runs from the date of purchase without regard to the time required for the mechanical acts of transfer of ownership and delivery of a certificate. This rule is based on the principles governing the use of special cash accounts in accordance with which, in the absence of special circumstances, payment is to be made promptly upon the purchase of securities.

(e) The purpose of §220.4(c)(3) is to recognize the fact that, when an issue of securities is to be issued at some fixed future date, a security that is a part of such issue can be purchased on a “when-issued” basis and that payment may reasonably be delayed until after such date of issue, subject to other basic conditions for transactions in a special cash account. Thus, unissued securities should be regarded as “made available for delivery to purchasers” on the date when they are substantially as available as outstanding securities are available upon purchase, and this would ordinarily be the designated date of issuance or, in the case of a stock dividend, the “payment date”. In any case, the time required for the mechanics of transfer and delivery of a certificate is not material under §220.4(c)(3) any more than it is under §220.4(c)(2).

(f) Mutual fund shares are essentially available upon purchase to the same extent as outstanding securities. The mechanics of their issuance and of the delivery of certificates are not significantly different from the mechanics of transfer and delivery of certificates for shares of outstanding securities, and the issuance of mutual fund shares is not a future event in a sense that would warrant the extension of the time for payment beyond that afforded in the case of outstanding securities. Consequently, the Board has concluded that a purchase of mutual fund shares
§ 220.119 Applicability of margin requirements to credit extended to corporation in connection with retirement of stock.

(a) The Board of Governors has been asked whether part 220 was violated when a dealer in securities transferred to a corporation 4,161 shares of the stock of such corporation for a consideration of $33,288, of which only 10 percent was paid in cash.

(b) If the transaction was of a kind that must be included in the corporation’s “general account” with the dealer (§220.3), it would involve an excessive extension of credit in violation of §220.3(b)(1). However, the transaction would be permissible if the transaction came within the scope of §220.4(f)(8), which permits a “creditor” (such as the dealer) to “Extend and maintain credit to or for any customer without collateral or on any collateral whatever for any purpose other than purchasing or carrying or trading in securities.” Accordingly, the crucial question is whether the corporation, in this transaction, was “purchasing” the 4,161 shares of its stock, within the meaning of that term as used in this part.

(c) Upon first examination, it might seem apparent that the transaction was a purchase by the corporation. From the viewpoint of the dealer the transaction was a sale, and ordinarily, at least a sale by one party connotes a purchase by the other. Furthermore, other indicia of a sale/purchase transaction were present, such as a transfer of property for a pecuniary consideration. However, when the underlying objectives of the margin regulations are considered, it appears that they do not encompass a transaction of this nature, where securities are transferred on credit to the issuer thereof for the purpose of retirement.

(d) Section 7(a) of the Securities Exchange Act of 1934 requires the Board of Governors to prescribe margin regulations “For the purpose of preventing the excessive use of credit for the purchase or carrying of securities.” Accordingly, the provisions of this part are not intended to prevent the use of credit where the transaction will not have the effect of increasing the volume of credit in the securities markets.

(e) It appears that the instant transaction would have no such effect. When the transaction was completed, the equity interest of the dealer was transmuted into a dollar-obligation interest; in lieu of its status as a stockholder of the corporation, the dealer became a creditor of that corporation. The corporation did not become the owner of any securities acquired through the use of credit; its outstanding stock was simply reduced by 4,161 shares.

(f) The meaning of “sale” and “purchase” in the Securities Exchange Act has been considered by the Federal courts in a series of decisions dealing with corporate “insiders” profits under section 16(b) of that Act. Although the statutory purpose sought to be effectuated in those cases is quite different from the purpose of the margin regulations, the decisions in question support the propriety of not regarding a transaction as a “purchase” where this accords with the probable legislative intent, even though, literally, the statutory definition seems to include the particular transaction. See Roberts v. Eaton (CA 2 1954) 212 F. 2d 82, and cases and other authorities there cited. The governing principle, of course, is to effectuate the purpose embodied in the statutory or regulatory provision being interpreted, even where that purpose may conflict with the literal words. U.S. v. Amer. Trucking Ass’ns, 310 U.S. 534, 543 (1940); 2 Sutherland, Statutory Construction (3d ed. 1943) ch. 45.

(g) There can be little doubt that an extension of credit to a corporation to enable it to retire debt securities would not be for the purpose of “purchasing * * * securities” and therefore would come within §220.4(f)(8), regardless of whether the retirement was obligatory (e.g., at maturity) or was a voluntary “call” by the issuer. This is true, it is difficult to see any valid distinction, for this purpose, between (1) voluntary retirement of an indebtedness security and (2) voluntary retirement of an equity security.
§ 220.120

(h) For the reasons indicated above, it is the opinion of the Board of Governors that the extension of credit here involved is not of the kind which the margin requirements are intended to regulate and that the transaction described does not involve an unlawful extension of credit as far as this part is concerned.

(i) The foregoing interpretation relates, of course, only to cases of the type described. It should not be regarded as governing any other situations; for example, the interpretation does not deal with cases where securities are being transferred to someone other than the issuer, or to the issuer for a purpose other than immediate retirement. Whether the margin requirements are inapplicable to any such situations would depend upon the relevant facts of actual cases presented.

[27 FR 12346, Dec. 13, 1962]

§ 220.121 Applicability of margin requirements to joint account between two creditors.

(a) The Board has recently been asked whether extensions of credit in a joint account between two brokerage firms, a member of a national securities exchange (“Firm X”) and a member of the National Association of Securities Dealers (“Firm Y”) are subject to the margin requirements of this part (Regulation T). It is understood that similar joint accounts are not uncommon, and it appears that the margin requirements of the regulation are not consistently applied to extensions of credit in the accounts.

(b) When the account in question was opened, Firm Y deposited $5,000 with Firm X and has made no further deposit in the account, except for the monthly settlement described below. Both firms have the privilege of buying and selling specified securities in the account, but it appears that Firm X initiates most of the transactions therein. Trading volume may run from half a million to a million dollars a month. Firm X carries the “official” ledger of the account and sends Firm Y a monthly statement with a complete record of all transactions effected during the month. Settlement is then made in accordance with the agreement between the two firms, which provides that profits and losses shall be shared equally on a fifty-fifty basis. However, all transactions are confirmed and reconfirmed between the two on a daily basis.

(c) Section 220.3(a) provides that

All financial relations between a creditor and a customer, whether recorded in one record or in more than one record, shall be included in and be deemed to be part of the customer’s general account with the creditor. * * * *

and § 220.2(c) defines the term “customer” to include

* * * any person, or any group of persons acting jointly, * * * to or for whom a creditor is extending or maintaining any credit * * *

In the course of a normal month’s operations, both Firm X and Firm Y are at one time or another extending credit to the joint account, since both make purchases for the account that are not “settled” until the month’s end. Consequently, the account would be a “customer” within the above definition.

(d) Section 220.6(b) provides, with respect to the account of a joint adventure in which a creditor participates, that

* * * the adjusted debit balance of the account shall include, in addition to the items specified in § 220.3(d), any amount by which the creditor’s contribution to the joint adventure exceeds the contribution which he would have made if he had contributed merely in proportion to his right to share in the profits of the joint adventure.

In addition, the final paragraph of § 220.2(c) states that the definition of “customer”

* * * includes any joint adventure in which a creditor participates and which would be considered a customer of the creditor if the creditor were not a participant.

(e) The above provisions clearly evince the Board’s intent that the regulation shall cover trading accounts in which a creditor participates. If additional confirmation were needed, it is supplied by the fact that the Board found it needful specifically to exempt from ordinary margin requirements
Federal Reserve System

§ 220.122 "Deep in the money put and call options" as extensions of credit.

(a) The Board of Governors has been asked to determine whether the business of selling instruments described as "deep in the money put and call options" would involve an extension of credit for the purposes of the Board’s regulations governing margin requirements for securities transactions. Most of such options would be of the "call" type, such as the following proposal that was presented to the Board for its consideration:

If X stock is selling at $100 per share, the customer would pay about $3,250 for a contract to purchase 100 shares of X at $70 per share within a 30-day period. The contract would be guaranteed by an exchange member, as are standard "puts" and "calls". When the contract is made with the customer, the seller, who will also be the writer of the contract, will immediately purchase 100 shares of X at $100 per share through the guarantor member firm in a margin account. If the customer exercises the option, the shares will be delivered to him; if the option is not exercised, the writer will sell the shares in the margin account to close out the transaction. As a practical matter, it is anticipated that the customer will exercise the option in almost every case.

(b) An ordinary "put" is an option given to a person to sell to the writer of the put a specified amount of securities at a stated price within a certain time. A "call" is an option given to a person to buy from the writer a specified amount of securities at a stated price within a certain time. To be freely saleable, options must be indorsed, or guaranteed, by a member firm of the exchange on which the security is registered. The guarantor charges a fee for this service.

(c) The option embodied in the normal put or call is exercisable either at the market price of the security at the time the option is written, or some "points away" from the market. The price of a normal option is modest by comparison with the margin required to take a position. Writers of normal options are persons who are satisfied with the current price of a security, and are prepared to purchase or sell at that price, with the small profit provided by the fee. Moreover, since a large proportion of all options are never exercised, a person who customarily writes normal options can anticipate that the fee would be clear profit in many cases, and he will not be obligated to buy or sell the stock in question.

(d) The stock exchanges require that the writer of an option deposit and maintain in his margin account with the indorser 30 percent of the current market price in the case of a call (unless he has a long position in the stock) and 25 percent in the case of a put (unless he has a short position in the stock). Many indorsing firms in fact require larger deposits. Under § 220.3(a) of Regulation T, all financial relations between a broker and his customer must be included in the customer’s general account, unless specifically eligible for one of the special accounts authorized by § 220.4. Accordingly, the writer, as a customer of the member firm, must make a deposit, which is included in his general account.

(e) In order to prevent the deposit from being available against other margin purchases, and in effect counted twice, § 220.3(d)(5) requires that in computing the customer’s adjusted debit balance, there shall be included "the amount of any margin customarily required by the creditor in connection with his endorsement or guarantee of any put, call, or other option". No other margin deposit is required in connection with a normal put or call option under Regulation T.

(f) Turning to the "deep in the money" proposed option contract described above, the price paid by the buyer can be divided into (1) a deposit of 30 percent of the current market
§ 220.122 12 CFR Ch. II (1–1–09 Edition)

value of the stock, and (2) an additional fixed charge, or fee. To the extent that the price of the stock rose during the 30 ensuing days the proposed instrument would produce results similar to those in the case of an ordinary profitable call, and the contract right would be exercised. But even if the price fell, unlike the situation with a normal option, the buyer would still be virtually certain to exercise his right to purchase before it expired, in order to minimize his loss. The result would be that the buyer would not have a genuine choice whether or not to buy. Rather, the instrument would have made it possible for him, in effect, to purchase stock as of the time the contract was written by depositing 30 percent of the stock’s current market price.

(g) It was suggested that the proposed contract is not unusual, since there are examples of ordinary options selling at up to 28 percent of current market value. However, such examples are of options running for 12 months, and reflect expectations of changes in the price of the stock over that period. The 30-day contracts discussed above are not comparable to such 12-month options, because instances of true expectations of price changes of this magnitude over a 30-day period would be exceedingly rare. And a contract that does not reflect such true expectations of price change, plus a reasonable fee for the services of the writer, is not an option in the accepted meaning of the term.

(h) Because of the virtual certainty that the contract right would be exercised under the proposal described above, the writer would buy the stock in a margin account with an indorsing firm immediately on writing the contract. The indorsing firm would extend credit in the amount of 20 percent of the current market price of the stock, the maximum permitted by the current § 220.8 (supplement to Regulation T). The writer would deposit the 30 percent supplied by the buyer, and furnish the remaining 50 percent out of his own working capital. His account with the indorsing firm would thus be appropriately margined.

(i) As to the buyer, however, the writer would function as a broker. In effect, he would purchase the stock for the account, or use, of the buyer, on what might be described as a deferred payment arrangement. Like an ordinary broker, the writer of the contract described above would put up funds to pay for the difference between the price of securities the customer wished to purchase and the customer’s own contribution. His only risk would be that the price of the securities would decline in excess of the customer’s contribution. True, he would be locked in, and could not liquidate the customer’s collateral for 30 days even if the market price should fall in excess of 30 percent, but the risk of such a decline is extremely slight.

(j) Like any other broker who extends credit in a margin account, the writer who was in the business of writing and selling such a contract would be satisfied with a fixed predetermined amount of return on his venture, since he would realize only the fee charged. Unlike a writer of ordinary puts and calls, he would not receive a substantial part of his income from fees on unexercised contract rights. The similarity of his activities to those of a broker, and the dissimilarity to a writer of ordinary options, would be underscored by the fact that his fee would be a fixed predetermined amount of return similar to an interest charge, rather than a fee arrived at individually for each transaction according to the volatility of the stock and other individual considerations.

(k) The buyer’s general account with the writer would in effect reflect a debit for the purchase price of the stock and, on the credit side, a deposit of cash in the amount of 30 percent of that price, plus an extension of credit for the remaining 70 percent, rather than the maximum permissible 20 percent.

(l) For the reasons stated above, the Board concluded that the proposed contracts would involve extensions of credit by the writer as broker in an amount exceeding that permitted by the current supplement to Regulation T. Accordingly, the writing of such contracts by a brokerage firm is presently prohibited by such regulation, and any brokerage firm that endorses such a contract would be arranging for
credit in an amount greater than the firm itself could extend, a practice that is prohibited by §220.7(a).

[35 FR 3280, Feb. 21, 1970]

§ 220.123 Partial delayed issue contracts covering nonconvertible bonds.

(a) During recent years, it has become customary for portions of new issues of nonconvertible bonds and preferred stocks to be sold subject to partial delayed issue contracts, which have customarily been referred to in the industry as “delayed delivery” contracts, and the Board of Governors has been asked for its views as to whether such transactions involve any violations of the Board’s margin regulations.

(b) The practice of issuing a portion of a debt (or equivalent) security issue at a date subsequent to the main underwriting has arisen where market conditions made it difficult or impossible, in a number of instances, to place an entire issue simultaneously. In instances of this kind, institutional investors (e.g., insurance companies or pension funds) whose cash flow is such that they expect to have funds available some months in the future, have been willing to subscribe to a portion, to be issued to them at a future date. The issuer has been willing to agree to issue the securities in two or more stages because it did not immediately need the proceeds to be realized from the deferred portion, because it could not raise funds on better terms, or because it preferred to have a certain portion of the issue taken down by an investor of this type.

(c) In the case of such a delayed issue contract, the underwriter is authorized to solicit from institutional customers offers to purchase from the issuer, pursuant to contracts of the kind described above, and the agreement becomes binding at the underwriters’ closing, subject to specified conditions. When securities are issued pursuant to the agreement, the purchase price includes accrued interest or dividends, and until they are issued to it, the purchaser does not, in the case of bonds, have rights under the trust indenture, or, in the case of preferred stocks, voting rights.

(d) Securities sold pursuant to such arrangements are high quality debt issues (or their equivalent). The purchasers buy with a view to investment and do not resell or otherwise dispose of the contract prior to its completion. Delayed issue arrangements are not acceptable to issuers unless a substantial portion of an issue, not less than 10 percent, is involved.

(e) Sections 3(a) (13) and (14) of the Securities Exchange Act of 1934 provide that an agreement to purchase is equivalent to a purchase, and an agreement to sell is a sale. The Board has hitherto expressed the view that credit is extended at the time when there is a firm agreement to extend such credit (1968 Federal Reserve Bulletin 328; 12 CFR 207.101; ¶6800 Published Interpretations of the Board of Governors). Accordingly, in instances of the kind described above, the issuer may be regarded as extending credit to the institutional purchaser at the time of the underwriters’ closing, when the obligations of both become fixed.

(f) Section 220.7(a) of the Board’s Regulation T (12 CFR 220.7(a)), with an exception not applicable here, forbids a creditor subject to that regulation to arrange for credit on terms on which the creditor could not itself extend the credit. Sections 220.4(c) (1) and (2) (12 CFR 220.4(c) (1) and (2)) provide that a creditor may not sell securities to a customer except in good faith reliance upon an agreement that the customer will promptly, and in no event in more than 7 full business days, make full cash payment for the securities. Since the underwriters in question are creditors subject to the regulation, unless some specific exception applies, they are forbidden to arrange for the credit described above. This result follows because payment is not made until more than 7 full business days have passed from the time the credit is extended.

(g) However, §220.4(c)(3) provides that:

If the security when so purchased is an unissued security, the period applicable to the transaction under subparagraph (2) of this paragraph shall be 7 days after the date on which the security is made available by the issuer for delivery to purchasers.
§ 220.124 Installment sale of tax-shelter programs as “arranging” for credit.

(a) The Board has been asked whether the sale by brokers and dealers of tax-shelter programs containing a provision that payment for the program may be made in installments would constitute “arranging” for credit in violation of this part 220. For the purposes of this interpretation, the term “tax-shelter program” means a program which is required to be registered pursuant to section 5 of the Securities Act of 1933 (15 U.S.C. section 77e), in which tax benefits, such as the ability to deduct substantial amounts of depreciation or oil exploration expenses, are made available to a person investing in the program. The programs may take various legal forms and can relate to a variety of industries including, but not limited to, oil and gas exploration programs, real estate syndications (except real estate investment trusts), citrus grove developments and cattle programs.

(b) The most common type of tax-shelter program takes the form of a limited partnership. In the case of the programs under consideration, the investor would commit himself to purchase and the partnership would commit itself to sell the interests. The investor would be entitled to the benefits, and become subject to the risks of ownership at the time the contract is made, although the full purchase price is not then required to be paid. The balance of the purchase price after the downpayment usually is payable in installments which range from 1 to 10 years depending on the program. Thus, the partnership would be extending credit to the purchaser until the time when the latter’s contractual obligation has been fulfilled and the final payment made.

(c) With an exception not applicable here, § 220.7(a) of Regulation T provides that:

A creditor [broker or dealer] may arrange for the extension or maintenance of credit to or for any customer of such creditor by any person upon the same terms and conditions as those upon which the creditor, under the provisions of this part, may himself extend or maintain such credit to such customer, but only such terms and conditions * * *
(d) In the case of credit for the purpose of purchasing or carrying securities (purpose credit), §220.8 of the regulation (the Supplement to Regulation T) does not permit any loan value to be given securities that are not registered on a national securities exchange, included on the Board’s OTC Margin List, or exempted by statute from the regulation.

(e) The courts have consistently held investment programs such as those described above to be “securities” for purpose of both the Securities Act of 1933 and the Securities Exchange Act of 1934. The courts have also held that the two statutes are to be construed together. Tax-shelter programs, accordingly, are securities for purposes of Regulation T. They also are not registered on a national securities exchange, included on the Board’s OTC Margin List, or exempted by statute from the regulation.

(f) Accordingly, the Board concludes that the sale by a broker/dealer of tax-shelter programs containing a provision that payment for the program may be made in installments would constitute “arranging” for the extension of credit to purchase or carry securities in violation of the prohibitions of §§220.7(a) and 220.8 of Regulation T.

[37 FR 6568, Mar. 31, 1972]

§ 220.125–220.126 [Reserved]

§ 220.127 Independent brokers/dealers arranging credit in connection with the sale of insurance premium funding programs.

(a) The Board’s September 5, 1972, clarifying amendment to §220.4(k) set forth that creditors who arrange credit for the acquisition of mutual fund shares and insurance are also permitted to sell mutual fund shares without insurance under the provisions of the special cash account. It should be understood, of course, that such account provides a relatively short credit period of up to 7 business days even with so-called cash transactions. This amendment was in accordance with the Board’s understanding in 1969, when the insurance premium funding provisions were adopted in §220.4(k), that firms engaged in a general securities business would not also be engaged in the sale and arranging of credit in connection with such insurance premium funding programs.

(b) The 1972 amendment eliminated from §220.4(k) the requirement that, to be eligible for the provisions of the section, a creditor had to be the issuer, or a subsidiary or affiliate of the issuer, of programs which combine the acquisition of both mutual fund shares and insurance. Thus the amendment permits an independent broker/dealer to sell such a program and to arrange for financing in that connection. In reaching such decision, the Board again relied upon the earlier understanding that independent broker/dealers who would sell such programs would not be engaged in transacting a general securities business.

(c) In response to a specific view recently expressed, the Board agrees that under Regulation T:

* * * a broker/dealer dealing in special insurance premium funding products can only extend credit in connection with such products or in connection with the sale of shares of registered investment companies under the cash accounts * * * (and) cannot engage in the general securities business or sell any securities other than shares * * * (in) registered investment companies through a cash account or any other manner involving the extension of credit.

(d) There is a way, of course, as has been indicated, that an independent broker/dealer might be able to sell other than shares of registered investment companies without creating any conflict with the regulation. Such sales could be executed on a “funds on hand” basis and in the case of payment by check, would have to include the collection of such check. It is understood from industry sources, however, that few if any independent broker/dealers engage solely in a “funds on hand” type of operation.

[38 FR 11066, May 4, 1973]

§ 220.128 Treatment of simultaneous long and short positions in the same margin account when put or call options or combinations thereof on such stock are also outstanding in the account.

(a) The Board was recently asked whether under Regulation T, “Credit by Brokers and Dealers” (12 CFR part
220. If there are simultaneous long and short positions in the same security in the same margin account (often referred to as a short sale “against the box”), such positions may be used to supply the place of the deposit of margin ordinarily required in connection with the guarantee by a creditor of a put or call option or combination thereof on such stock.

(b) The applicable provisions of regulation T are § 220.3(d)(3) and (5) and § 220.3(g)(4) and (5) which provide as follows:

(d) * * * the adjusted debit balance of a general account * * * shall be calculated by taking the sum of the following items:

* * * * * *

(3) The current market value of any securities (other than unissued securities) sold short in the general account plus, for each security (other than an exempted security), such amount as the board shall prescribe from time to time in § 220.8(d) (the supplement to regulation T) as the margin required for such short sales, except that such amount so prescribed in such § 220.8(d) need not be included when there are held in the general account * * * the same securities or securities exchangeable or convertible within 90 calendar days, without restriction other than the payment of money, into such securities sold short;

* * * * * *

(5) The amount of any margin customarily required by the creditor in connection with his endorsement or guarantee of any put, call, or other option;

* * * * * *

(g) * * * (4) Any transaction which serves to meet the requirements of paragraph (e) of this section or otherwise serves to permit any offsetting transaction in an account shall, to that extent, be unavailable to permit any other transaction in such account.

(f) For the purposes of this part (regulation T), if a security has maximum loan value under paragraph (c)(1) of this section in a general account, or under § 220.4(j) in a special convertible debt security account, the sale of the same security (even though not the same certificate) in such account shall be deemed to be a long sale and shall not be deemed to be or treated as a short sale.

(c) Rule 431 of the New York Stock Exchange requires that a creditor obtain a minimum deposit of 25 percent of the current market value of the optioned stock in connection with his issuance or guarantee of a put, and at least 30 percent in the case of a call (and that such position be “marked to the market”), but permits a short position in the stock to serve in lieu of the required deposit in the case of a put and a long position to serve in the case of a call. Thus, where the appropriate position is held in an account, that position may serve as the margin required by § 220.3(d)(5).

(d) In a short sale “against the box,” however, the customer is both long and short the same security. He may have established either position, properly margined, prior to taking the other, or he may have deposited fully paid securities in his margin account on the same day he makes a short sale of such securities. In either case, he will have directed his broker to borrow securities elsewhere in order to make delivery on the short sale rather than using his long position for this purpose (see also 17 CFR 240.3b–3).

(e) Generally speaking, a customer makes a short sale “against the box” for tax reasons. Regulation T, however, provides in § 220.3(g) that the two positions must be “netted out” for the purposes of the calculations required by the regulation. Thus, the board concludes that neither position would be available to serve as the deposit of margin required in connection with the endorsement by the creditor of an option.

(f) A similar conclusion obtains under § 220.3(d)(3). That section provides, in essence, that the margin otherwise required in connection with a short sale need not be included in the account if the customer has in the account a long position in the same security. In § 220.3(g) (4), however, it is provided that “[A]ny transaction which * * * serves to permit any offsetting transaction in an account shall, to that extent, be unavailable to permit any other transaction in such account.” Thus, if a customer has, for example, a long position in a security and that long position has been used to supply the margin required in connection with
§ 220.131 Application of the arranging section to broker-dealer activities under SEC Rule 144A.

(a) The Board has been asked whether the purchase by a broker-dealer of debt securities for resale in reliance on Rule 144A of the Securities and Exchange Commission (17 CFR 230.144A) may be considered an arranging of credit permitted as an “investment banking service” under §220.13(a) of Regulation T.

(b) SEC Rule 144A provides a safe harbor exemption from the registration requirements of the Securities Act of 1933 for resales of restricted securities to qualified institutional buyers, as defined in the rule. In general, a qualified institutional buyer is an institutional investor that in the aggregate owns and invests on a discretionary basis at least $100 million in securities of issuers that are not affiliated with the buyer. Registered broker-dealers need only own and invest on a discretionary basis at least $10 million of securities in order to purchase as principal under the rule. Section 4(2) of the Securities Act of 1933 provides an exemption from the registration requirements for “transactions by an issuer not involving any public offering.” Securities acquired in a transaction under section 4(2) cannot be resold without registration under the Act or an exemption therefrom. Rule 144A provides a safe harbor exemption for resales of such securities. Accordingly, broker-dealers that previously acted only as agents in intermediating between issuers and purchasers of privately-placed securities, due to the lack of such a safe harbor, now may purchase privately-placed securities from issuers as principal and resell such securities to “qualified institutional buyers” under Rule 144A.

(c) The Board has consistently treated the purchase of a privately-placed debt security as an extension of credit subject to the margin regulations. If the issuer uses the proceeds to buy securities, the purchase of the privately-placed debt security by a creditor represents an extension of “purpose credit” to the issuer. Section 7(c) of the Securities Exchange Act of 1934 prohibits the extension of purpose credit by a creditor if the credit is unsecured, secured by collateral other than securities, or secured by any security (other than an exempted security) in contravention of Federal Reserve regulations. If a debt security sold pursuant to Rule 144A represents purpose credit and is not properly collateralized by securities, the statute and Regulation T can be viewed as preventing the broker-dealer from taking the security into inventory in spite of the fact that the broker-dealer intends to immediately resell the debt security.

(d) Under §220.13 of Regulation T, a creditor may arrange credit it cannot itself extend if the arrangement is an “investment banking service” and the credit does not violate Regulations G and U. Investment banking services are defined to include, but not be limited to, “underwritings, private placements, and advice and other services in connection with exchange offers, mergers, or acquisitions,” except for

1 Rule 144A, 17 CFR 230.144A, was originally published in the Federal Register at 55 FR 17063, April 30, 1990.
§ 220.132 Credit to brokers and dealers.

For text of this interpretation, see § 221.125 of this subchapter.

PART 221—CREDIT BY BANKS AND PERSONS OTHER THAN BROKERS OR DEALERS FOR THE PURPOSE OF PURCHASING OR CARRYING MARGIN STOCK (REGULATION U)

Sec.
221.1 Authority, purpose, and scope.
221.2 Definitions.
221.3 General requirements.
221.4 Employee stock option, purchase, and ownership plans.

221.5 Special purpose loans to brokers and dealers.
221.6 Exempted transactions.
221.7 Supplement: Maximum loan value of margin stock and other collateral.

INTERPRETATIONS

221.101 Determination and effect of purpose of loan.
221.102 Application to committed credit where funds are disbursed thereafter.
221.103 Loans to brokers or dealers.
221.104 Federal credit unions.
221.105 Arranging for extensions of credit to be made by a bank.
221.106 Reliance in “good faith” on statement of purpose of loan.
221.107 Arranging loan to purchase open-end investment company shares.
221.108 Effect of registration of stock subsequent to making of loan.
221.109 Loan to open-end investment company.
221.110 Questions arising under this part.
221.111 Contribution to joint venture as extension of credit when the contribution is disproportionate to the contributor’s share in the venture’s profits or losses.
221.112 Loans by bank in capacity as trustee.
221.113 Loan which is secured indirectly by stock.
221.114 Bank loans to purchase stock of American Telephone and Telegraph Company under Employees’ Stock Plan.
221.115 Accepting a purpose statement through the mail without benefit of face-to-face interview.
221.116 Bank loans to replenish working capital used to purchase mutual fund shares.
221.117 When bank in “good faith” has not relied on stock as collateral.
221.118 Bank arranging for extension of credit by corporation.
221.119 Applicability of plan-lender provisions to financing of stock options and stock purchase rights qualified or restricted under Internal Revenue Code.
221.120 Allocation of stock collateral to purpose and nonpurpose credits to same customer.
221.121 Extension of credit in certain stock option and stock purchase plans.
221.122 Applicability of margin requirements to credit in connection with Insurance Premium Funding Programs.
221.123 Combined credit for exercising employee stock options and paying income taxes incurred as a result of such exercise.
221.124 Purchase of debt securities to finance corporate takeovers.
221.125 Credit to brokers and dealers.

AUTHORITY: 15 U.S.C. 78c, 78g, 78q, and 78w.
§ 221.1 Authority, purpose, and scope.

(a) Authority. Regulation U (this part) is issued by the Board of Governors of the Federal Reserve System (the Board) pursuant to the Securities Exchange Act of 1934 (the Act) (15 U.S.C. 78a et seq.).

(b) Purpose and scope. (1) This part imposes credit restrictions upon persons other than brokers or dealers (hereinafter lenders) that extend credit for the purpose of buying or carrying margin stock if the credit is secured directly or indirectly by margin stock. Lenders include “banks” (as defined in §221.2) and other persons who are required to register with the Board under §221.3(b). Lenders may not extend more than the maximum loan value of the collateral securing such credit, as set by the Board in §221.7 (the Supplement).

(2) This part does not apply to clearing agencies regulated by the Securities and Exchange Commission or the Commodity Futures Trading Commission that accept deposits of margin stock in connection with:
   (i) The issuance of, or guarantee of, or the clearance of transactions in, any security (including options on any security, certificate of deposit, securities index or foreign currency); or
   (ii) The guarantee of contracts for the purchase or sale of a commodity for future delivery or options on such contracts.

(3) This part does not apply to credit extended to an exempted borrower.

(c) Availability of forms. The forms referenced in this part are available from the Federal Reserve Banks.

§ 221.2 Definitions.

The terms used in this part have the meanings given them in section 3(a) of the Act or as defined in this section as follows:

Affiliate means:

(1) For banks:
   (i) Any bank holding company of which a bank is a subsidiary within the meaning of the Bank Holding Company Act of 1956, as amended (12 U.S.C. 1841(d));
   (ii) Any other subsidiary of such bank holding company; and
   (iii) Any other corporation, business trust, association, or other similar organization that is an affiliate as defined in section 2(b) of the Banking Act of 1933 (12 U.S.C. 221(a(c));

(2) For nonbank lenders, affiliate means any person who, directly or indirectly, through one or more intermediaries, controls, or is controlled by, or is under common control with the lender.

Bank—(1) Bank. Has the meaning given to it in section 3(a)(6) of the Act (15 U.S.C. 78c(a)(6)) and includes:
   (i) Any subsidiary of a bank;
   (ii) Any corporation organized under section 25(a) of the Federal Reserve Act (12 U.S.C. 611); and
   (iii) Any agency or branch of a foreign bank located within the United States.
   (2) Bank does not include:
   (i) Any savings and loan association;
   (ii) Any credit union;
   (iii) Any lending institution that is an instrumentality or agency of the United States; or
   (iv) Any member of a national securities exchange.

Carrying credit is credit that enables a customer to maintain, reduce, or retire indebtedness originally incurred to purchase a security that is currently a margin stock.

Current market value of:

(1) A security means:
   (i) If quotations are available, the closing sale price of the security on the preceding business day, as appearing on any regularly published reporting or quotation service; or
   (ii) If there is no closing sale price, the lender may use any reasonable estimate of the market value of the security as of the close of business on the preceding business day; or
   (iii) If the credit is used to finance the purchase of the security, the total cost of purchase, which may include any commissions charged.

(2) Any other collateral means a value determined by any reasonable method.

Customer excludes an exempted borrower and includes any person or persons acting jointly, to or for whom a lender extends or maintains credit.
Examining authority means:

(1) The national securities exchange or national securities association of which a broker or dealer is a member; or

(2) If a member of more than one self-regulatory organization, the organization designated by the Securities and Exchange Commission as the examining authority for the broker or dealer.

Exempted borrower means a member of a national securities exchange or a registered broker or dealer, a substantial portion of whose business consists of transactions with persons other than brokers or dealers, and includes a borrower who:

(1) Maintains at least 1000 active accounts on an annual basis for persons other than brokers, dealers, and persons associated with a broker or dealer; and

(2) Earns at least $10 million in gross revenues on an annual basis from transactions with persons other than brokers, dealers, and persons associated with a broker or dealer; or

(3) Earns at least 10 percent of its gross revenues on an annual basis from transactions with persons other than brokers, dealers, and persons associated with a broker-dealer.

Good faith with respect to:

(1) The loan value of collateral means that amount (not exceeding 100 percent of the current market value of the collateral) which a lender, exercising sound credit judgment, would lend, without regard to the customer’s other assets held as collateral in connection with unrelated transactions.

(2) Making a determination or accepting a statement concerning a borrower means that the lender or its duly authorized representative is alert to the circumstances surrounding the credit, and if in possession of information that would cause a prudent person not to make the determination or accept the notice or certification without inquiry, investigates and is satisfied that it is correct.

Indirectly secured. (1) Includes any arrangement with the customer under which:

(i) The customer’s right or ability to sell, pledge, or otherwise dispose of margin stock owned by the customer is in any way restricted while the credit remains outstanding; or

(ii) The exercise of such right is or may be cause for accelerating the maturity of the credit.

(2) Does not include such an arrangement if:

(i) After applying the proceeds of the credit, not more than 25 percent of the value (as determined by any reasonable method) of the assets subject to the arrangement is represented by margin stock;

(ii) It is a lending arrangement that permits accelerating the maturity of the credit as a result of a default or renegotiation of another credit to the customer by another lender that is not an affiliate of the lender;

(iii) The lender holds the margin stock only in the capacity of custodian, depositary, or trustee, or under similar circumstances, and, in good faith, has not relied upon the margin stock as collateral; or

(iv) The lender, in good faith, has not relied upon the margin stock as collateral in extending or maintaining the particular credit.

Lender means:

(1) Any bank; or

(2) Any person subject to the registration requirements of this part.

Margin stock means:

(1) Any equity security registered or having unlisted trading privileges on a national securities exchange;

(2) Any OTC security designated as qualified for trading in the National Market System under a designation plan approved by the Securities and Exchange Commission (NMS security);

(3) Any debt security convertible into a margin stock or carrying a warrant or right to subscribe to or purchase a margin stock;

(4) Any warrant or right to subscribe to or purchase a margin stock; or

(5) Any security issued by an investment company registered under section 8 of the Investment Company Act of 1940 (15 U.S.C. 80a–8), other than:
§ 221.3 General requirements.

(a) Extending, maintaining, and arranging credit—(1) Extending credit. No lender, except a plan-lender, as defined in §221.4(a), shall extend any purpose credit, secured directly or indirectly by margin stock, in an amount exceeding the maximum loan value of the collateral securing the credit.

(2) Maintaining credit. A lender may continue to maintain any credit initially extended in compliance with this part, regardless of:

(i) Reduction in the customer’s equity resulting from change in market prices;

(ii) Change in the maximum loan value prescribed by this part; or

(iii) Change in the status of the security (from nonmargin to margin) securing an existing purpose credit.

(3) Arranging credit. No lender may arrange for the extension or maintenance of any purpose credit, except upon the same terms and conditions under which the lender itself may extend or maintain purpose credit under this part.

(b) Registration of nonbank lenders; termination of registration; annual report—

(1) Registration. Every person other than a person subject to part 230 of this chapter or a bank who, in the ordinary course of business, extends or maintains credit secured, directly or indirectly, by any margin stock shall register on Federal Reserve Form FR G–1 (OMB control number 7100–0011) within 30 days after the end of any calendar quarter during which:

(i) The amount of credit extended equals $200,000 or more; or

(ii) The amount of credit outstanding at any time during that calendar quarter equals $500,000 or more.

(2) Deregistration. A registered nonbank lender may apply to terminate its registration, by filing Federal Reserve Form FR G–2 (OMB control number 7100–0011), if the lender has not, during the preceding six calendar months, had more than $200,000 of such credit outstanding. Registration shall be deemed terminated when the application is approved by the Board.

(3) Annual report. Every registered nonbank lender shall, within 30 days following June 30 of every year, file Form FR G–4 (OMB control number 7100–0011).

(4) Where to register and file applications and reports. Registration statements, applications to terminate registration, and annual reports shall be filed with the Federal Reserve Bank of the district in which the principal office of the lender is located.

(c) Purpose statement—(1) General rule—(i) Banks. Except for credit extended under paragraph (c)(2) of this section, whenever a bank extends credit secured directly or indirectly by any margin stock, in an amount exceeding $100,000, the bank shall require its customer to execute Form FR U–1 (OMB No. 7100–0115), which shall be signed and accepted by a duly authorized officer of the bank acting in good faith.

(ii) Nonbank lenders. Except for credit extended under paragraph (c)(2) of this section or §221.4, whenever a nonbank lender extends credit secured directly or indirectly by any margin stock, the
§ 221.3  12 CFR Ch. II (1–1–09 Edition)

nonbank lender shall require its customer to execute Form FR G–3 (OMB control number 7100–0018), which shall be signed and accepted by a duly authorized representative of the nonbank lender acting in good faith.

(2) Purpose statement for revolving-credit or multiple-draw agreements or financing of securities purchases on a payment-against-delivery basis—(i) Banks. If a bank extends credit, secured directly or indirectly by any margin stock, in an amount exceeding $100,000, under a revolving-credit or other multiple-draw agreement, Form FR U–1 must be executed at the time the credit arrangement is originally established and must be amended as described in paragraph (c)(2)(iv) of this section for each disbursement if all of the collateral for the agreement is not pledged at the time the agreement is originally established.

(ii) Nonbank lenders. If a nonbank lender extends credit, secured directly or indirectly by any margin stock, under a revolving-credit or other multiple-draw agreement, Form FR G–3 must be executed at the time the credit arrangement is originally established and must be amended as described in paragraph (c)(2)(iv) of this section for each disbursement if all of the collateral for the agreement is not pledged at the time the agreement is originally established.

(iii) Collateral. If a purpose statement executed at the time the credit arrangement is initially made indicates that the purpose is to purchase or carry margin stock, the credit will be deemed in compliance with this part if:

(A) The maximum loan value of the collateral at least equals the aggregate amount of funds actually disbursed; or

(B) At the end of any day on which credit is extended under the agreement, the lender calls for additional collateral sufficient to bring the credit into compliance with §221.7 (the Supplement).

(iv) Amendment of purpose statement. For any purpose credit disbursed under the agreement, the lender shall obtain and attach to the executed Form FR U–1 or FR G–3 a current list of collateral which adequately supports all credit extended under the agreement.

(d) Single credit rule. (1) All purpose credit extended to a customer shall be treated as a single credit, and all the collateral securing such credit shall be considered in determining whether or not the credit complies with this part, except that syndicated loans need not be aggregated with other unrelated purpose credit extended by the same lender.

(2) A lender that has extended purpose credit secured by margin stock may not subsequently extend unsecured purpose credit to the same customer unless the combined credit does not exceed the maximum loan value of the collateral securing the prior credit.

(3) If a lender extended unsecured purpose credit to a customer prior to the extension of purpose credit secured by margin stock, the credits shall be combined and treated as a single credit solely for the purposes of the withdrawal and substitution provision of paragraph (f) of this section.

(4) If a lender extends purpose credit secured by any margin stock and nonpurpose credit to the same customer, the lender shall treat the credits as two separate loans and may not rely upon the required collateral securing the purpose credit for the nonpurpose credit.

(e) Exempted borrowers. (1) An exempted borrower that has been in existence for less than one year may meet the definition of exempted borrower based on a six-month period.

(2) Once a member of a national securities exchange or registered broker or dealer ceases to qualify as an exempted borrower, it shall notify its lenders of this fact. Any new extensions of credit to such a borrower, including rollovers, renewals, and additional draws on existing lines of credit, are subject to the provisions of this part.

(f) Withdrawals and substitutions. (1) A lender may permit any withdrawal or substitution of cash or collateral by the customer if the withdrawal or substitution would not:

(i) Cause the credit to exceed the maximum loan value of the collateral; or

(ii) Increase the amount by which the credit exceeds the maximum loan value of the collateral.
(2) For purposes of this section, the maximum loan value of the collateral on the day of the withdrawal or substitution shall be used.

(g) Exchange offers. To enable a customer to participate in a reorganization, recapitalization or exchange offer that is made to holders of an issue of margin stock, a lender may permit substitution of the securities received. A nonmargin, nonexempted security acquired in exchange for a margin stock shall be treated as if it is margin stock for a period of 60 days following the exchange.

(h) Renewals and extensions of maturity. A renewal or extension of maturity of a credit need not be considered a new extension of credit if the amount of the credit is increased only by the addition of interest, service charges, or taxes with respect to the credit.

(i) Transfers of credit. (1) A transfer of a credit between customers or between lenders shall not be considered a new extension of credit if:

(i) The original credit was extended by a lender in compliance with this part or by a lender subject to part 207 of this chapter in effect prior to April 1, 1998, (See part 207 appearing in the 12 CFR parts 200 to 219 edition revised as of January 1, 1997), in a manner that would have complied with this part;

(ii) The transfer is not made to evade this part;

(iii) The amount of credit is not increased; and

(iv) The collateral for the credit is not changed.

(2) Any transfer between customers at the same lender shall be accompanied by a statement by the transferor customer describing the circumstances giving rise to the transfer and shall be accepted and signed by a representative of the lender acting in good faith. The lender shall keep such statement with its records of the transferee account.

(c) Credit to ESOPs. A nonbank lender may extend and maintain purpose credit without regard to the provisions of this part, except for §221.3(b)(1) and (b)(3), if such credit is extended to an employee stock ownership plan (ESOP) qualified under section 401 of the Internal Revenue Code, as amended (26 U.S.C. 401).
§ 221.5 Special purpose loans to brokers and dealers.

(a) Special purpose loans. A lender may extend and maintain purpose credit to brokers and dealers without regard to the limitations set forth in §§221.3 and 221.7, if the credit is for any of the specific purposes and meets the conditions set forth in paragraph (c) of this section.

(b) Written notice. Prior to extending credit for more than a day under this section, the lender shall obtain and accept in good faith a written notice or certification from the borrower as to the purposes of the loan. The written notice or certification shall be evidence of continued eligibility for the special credit provisions until the borrower notifies the lender that it is no longer eligible or the lender has information that would cause a reasonable person to question whether the credit is being used for the purpose specified.

(c) Types of special purpose credit. The types of credit that may be extended and maintained on a good faith basis are as follows:

(1) Hypothecation loans. Credit secured by hypothecated customer securities that, according to written notice received from the broker or dealer, may be hypothecated by the broker or dealer under Securities and Exchange Commission (SEC) rules.

(2) Temporary advances in payment-against-delivery transactions. Credit to finance the purchase or sale of securities for prompt delivery, if the credit is to be repaid upon completion of the transaction.

(3) Loans for securities in transit or transfer. Credit to finance securities in transit or surrendered for transfer, if the credit is to be repaid upon completion of the transaction.

(4) Intra-day loans. Credit to enable a broker or dealer to pay for securities, if the credit is to be repaid on the same day it is extended.

(5) Arbitrage loans. Credit to finance proprietary or customer bona fide arbitrage transactions. For the purpose of this section bona fide arbitrage means:

(i) Purchase or sale of a security in one market, together with an offsetting sale or purchase of the same security in a different market at nearly the same time as practicable, for the purpose of taking advantage of a difference in prices in the two markets; or

(ii) Purchase of a security that is, without restriction other than the payment of money, exchangeable or convertible within 90 calendar days of the purchase into a second security, together with an offsetting sale of the second security at or about the same time, for the purpose of taking advantage of a concurrent disparity in the price of the two securities.

(6) Market maker and specialist loans. Credit to a member of a national securities exchange or registered broker or dealer to finance its activities as a market maker or specialist.

(7) Underwriter loans. Credit to a member of a national securities exchange or registered broker or dealer to finance its activities as an underwriter.

(8) Emergency loans. Credit that is essential to meet emergency needs of the broker-dealer business arising from exceptional circumstances.

(9) Capital contribution loans. Capital contribution loans include:

(i) Credit that Board has exempted by order upon a finding that the exemption is necessary or appropriate in the public interest or for the protection of investors, provided the Securities Investor Protection Corporation certifies to the Board that the exemption is appropriate; or

(ii) Credit to a customer for the purpose of making a subordinated loan or capital contribution to a broker or dealer in conformity with the SEC’s net capital rules and the rules of the broker’s or dealer’s examining authority, provided:

(A) The customer reduces the credit by the amount of any reduction in the loan or contribution to the broker or dealer; and

(B) The credit is not used to purchase securities issued by the broker or dealer in a public distribution.

(10) Credit to clearing brokers or dealers. Credit to a member of a national securities exchange or registered broker or dealer whose nonproprietary business is limited to financing and carrying the accounts of registered market makers.
§ 221.6 Exempted transactions.
A bank may extend and maintain purpose credit without regard to the provisions of this part if such credit is extended:
(a) To any bank;
(b) To any foreign banking institution;
(c) Outside the United States;
(d) To an employee stock ownership plan (ESOP) qualified under section 401 of the Internal Revenue Code (26 U.S.C. 401);
(e) To any plan lender as defined in § 221.4(a) to finance an eligible plan as defined in § 221.4(b), provided the bank has no recourse to any securities purchased pursuant to the plan;
(f) To any customer, other than a broker or dealer, to temporarily finance the purchase or sale of securities for prompt delivery, if the credit is to be repaid in the ordinary course of business upon completion of the transaction and is not extended to enable the customer to pay for securities purchased in an account subject to part 220 of this chapter;
(g) Against securities in transit, if the credit is not extended to enable the customer to pay for securities purchased in an account subject to part 220 of this chapter; or
(h) To enable a customer to meet emergency expenses not reasonably foreseeable, and if the extension of credit is supported by a statement executed by the customer and accepted and signed by an officer of the bank acting in good faith. For this purpose, emergency expenses include expenses arising from circumstances such as the death or disability of the customer, or some other change in circumstances involving extreme hardship, not reasonably foreseeable at the time the credit was extended. The opportunity to realize monetary gain or to avoid loss is not a “change in circumstances” for this purpose.

§ 221.7 Supplement: Maximum loan value of margin stock and other collateral.
(a) Maximum loan value of margin stock. The maximum loan value of any margin stock is fifty per cent of its current market value.
(b) Maximum loan value of nonmargin stock and all other collateral. The maximum loan value of nonmargin stock and all other collateral except puts, calls, or combinations thereof is their good faith loan value.
(c) Maximum loan value of options. Except for options that qualify as margin stock, puts, calls, and combinations thereof have no loan value.

INTERPRETATIONS
§ 221.101 Determination and effect of purpose of loan.
(a) Under this part the original purpose of a loan is controlling. In other words, if a loan originally is not for the purpose of purchasing or carrying margin stock, changes in the collateral for the loan do not change its exempted character.
(b) However, a so-called increase in the loan is necessarily on an entirely different basis. So far as the purpose of the credit is concerned, it is a new loan, and the question of whether or not it is subject to this part must be determined accordingly.
(c) Certain facts should also be mentioned regarding the determination of the purpose of a loan. Section 221.3(c) provides in that whenever a lender is required to have its customer execute a “Statement of Purpose for an Extension of Credit Secured by Margin Stock,” the statement must be accepted by the lender “acting in good faith.” The requirement of “good faith” is of vital importance here. Its application will necessarily vary with the facts of the particular case, but it is clear that the bank must be alert to the circumstances surrounding the loan. For example, if the loan is to be made to a customer who is not a broker or dealer, the bank may accept the statement to the contrary without obtaining a reliable and satisfactory explanation of the situation.
(d) Furthermore, the purpose of a loan means just that. It cannot be altered by some temporary application of
the proceeds. For example, if a borrower is to purchase Government securities with the proceeds of a loan, but is soon thereafter to sell such securities and replace them with margin stock, the loan is clearly for the purpose of purchasing or carrying margin stock.

§ 221.102 Application to committed credit where funds are disbursed thereafter.

The Board has concluded that the date a commitment to extend credit becomes binding should be regarded as the date when the credit is extended, since:

(a) On that date the parties should be aware of law and facts surrounding the transaction; and

(b) Generally, the date of contract is controlling for purposes of margin regulations and Federal securities law, regardless of the delivery of cash or securities.

§ 221.103 Loans to brokers or dealers.

Questions have arisen as to the adequacy of statements received by lending banks under §221.3(c), “Purpose Statement,” in the case of loans to brokers or dealers secured by margin stock where the proceeds of the loans are to be used to finance customer transactions involving the purchasing or carrying of margin stock. While some such loans may qualify for exemption under §§221.1(b)(2), 221.4, 221.5 or 221.6, unless they do qualify for such an exemption they are subject to this part. For example, if a loan so secured is made to a broker to furnish cash working capital for the conduct of his brokerage business (i.e., for purchasing and carrying securities for the account of customers), the maximum loan value prescribed in §221.7 (the Supplement) would be applicable unless the loan should be of a kind exempted under this part. This result would not be affected by the fact that the margin stock given as security for the loan was or included margin stock owned by the brokerage firm. In view of the foregoing, the statement referred to in §221.3(c) which the lending bank must accept in good faith in determining the purpose of the loan would be inadequate if the form of statement accepted or used by the bank failed to call for answers which would indicate whether or not the loan was of the kind discussed elsewhere in this section.

§ 221.104 Federal credit unions.

For text of the interpretation on Federal credit unions, see 12 CFR 220.110.

§ 221.105 Arranging for extensions of credit to be made by a bank.

For text of the interpretation on Arranging for extensions of credit to be made by a bank, see 12 CFR 220.111.

§ 221.106 Reliance in “good faith” on statement of purpose of loan.

(a) Certain situations have arisen from time to time under this part wherein it appeared doubtful that, in the circumstances, the lending banks may have been entitled to rely upon the statements accepted by them in determining whether the purposes of certain loans were such as to cause the loans to be not subject to the part.

(b) The use by a lending bank of a statement in determining the purpose of a particular loan is, of course, provided for by §221.3(c). However, under that paragraph a lending bank may accept such statement only if it is “acting in good faith.” As the Board stated in the interpretation contained in §221.101, the “requirement of ‘good faith’ is of vital importance”; and, to fulfill such requirement, “it is clear that the bank must be alert to the circumstances surrounding the loan.”

(c) Obviously, such a statement would not be accepted by the bank in “good faith” if at the time the loan was made the bank had knowledge, from any source, of facts or circumstances which were contrary to the natural purport of the statement, or which were sufficient reasonably to put the bank on notice of the questionable reliability or completeness of the statement.

(d) Furthermore, the same requirement of “good faith” is to be applied whether the statement accepted by the bank is signed by the borrower or by an officer of the bank. In either case, “good faith” requires the exercise of special diligence in any instance in which the borrower is not personally
known to the bank or to the officer who processes the loan.

(e) The interpretation set forth in §221.101 contains an example of the application of the “good faith” test. There it was stated that “if the loan is to be made to a customer who is not a broker or dealer in securities, but such a broker or dealer is to deliver margin stock to secure the loan or is to receive the proceeds of the loan, the bank would be put on notice that the loan would probably be subject to this part. It could not accept in good faith a statement to the contrary without obtaining a reliable and satisfactory explanation of the situation”.

(f) Moreover, and as also stated by the interpretation contained in §221.101, the purpose of a loan, of course, “cannot be altered by some temporary application of the proceeds. For example, if a borrower is to purchase Government securities with the proceeds of a loan, but is soon thereafter to sell such securities and replace them with margin stock, the loan is clearly for the purpose of purchasing or carrying margin stock”. The purpose of a loan therefore, should not be determined upon a narrow analysis of the immediate use to which the proceeds of the loan are put. Accordingly, a bank acting in “good faith” should carefully scrutinize cases in which there is any indication that the borrower is concealing the true purpose of the loan, and there would be reason for special vigilance if margin stock is substituted for bonds or nonmargin stock soon after the loan is made, or on more than one occasion.

(g) Similarly, the fact that a loan made on the borrower’s signature only, for example, becomes secured by margin stock shortly after the disbursement of the loan usually would afford reasonable grounds for questioning the bank’s apparent reliance upon merely a statement that the purpose of the loan was not to purchase or carry margin stock.

(h) The examples in this section are, of course, by no means exhaustive. They simply illustrate the fundamental fact that no statement accepted by a lender is of any value for the purposes of this part unless the lender accepting the statement is “acting in good faith”, and that “good faith” requires, among other things, reasonable diligence to learn the truth.

§221.107 Arranging loan to purchase open-end investment company shares.

For text of the interpretation on Arranging loan to purchase open-end investment company shares, see 12 CFR 220.112.

§221.108 Effect of registration of stock subsequent to making of loan.

(a) The Board recently was asked whether a loan by a bank to enable the borrower to purchase a newly issued nonmargin stock during the initial over-the-counter trading period prior to the stock becoming registered (listed) on a national securities exchange would be subject to this part. The Board replied that, until such stock qualifies as margin stock, this would not be applicable to such a loan.

(b) The Board has now been asked what the position of the lending bank would be under this part if, after the date on which the stock should become registered, such bank continued to hold a loan of the kind just described. It is assumed that the loan was in an amount greater than the maximum loan value for the collateral specified in this part.

(c) If the stock should become registered, the loan would then be for the purpose of purchasing or carrying a margin stock, and, if secured directly or indirectly by any margin stock, would be subject to this part as from the date the stock was registered. Under this part, this does not mean that the bank would have to obtain reduction of the loan in order to reduce it to an amount no more than the specified maximum loan value. It does mean, however, that so long as the loan balance exceeded the specified maximum loan value, the bank could not permit any withdrawals or substitutions of collateral that would increase such excess; nor could the bank increase the amount of the loan balance unless there was provided additional collateral having a maximum loan value at least equal to the amount of the increase. In other words, as from the date the stock should become a
margin stock, the loan would be subject to this part in exactly the same way, for example, as a loan subject to this part that became under-margined because of a decline in the current market value of the loan collateral or because of a decrease by the Board in the maximum loan value of the loan collateral.

§ 221.109 Loan to open-end investment company.

In response to a question regarding a possible loan by a bank to an open-end investment company that customarily purchases stocks registered on a national securities exchange, the Board stated that in view of the general nature and operations of such a company, any loan by a bank to such a company should be presumed to be subject to this part as a loan for the purpose of purchasing or carrying margin stock. This would not be altered by the fact that the open-end company had used, or proposed to use, its own funds or proceeds of the loan to redeem some of its own shares, since mere application of the proceeds of a loan to some other use cannot prevent the ultimate purpose of a loan from being to purchase or carry registered stocks.

§ 221.110 Questions arising under this part.

(a) This part governs "any purpose credit" extended by a lender "secured directly or indirectly by margin stock" and defines "purpose credit" as "any credit for the purpose, whether immediate, incidental, or ultimate, of buying or carrying margin stock," with certain exceptions, and provides that the maximum loan value of such margin stock shall be a fixed percentage of its current market value.

(b) The Board of Governors has had occasion to consider the application of the language in paragraph (a) of this section to the two following questions:

(i) Loan secured by stock. First, is a loan to purchase or carry margin stock subject to this part where made in unsecured form, if margin stock is subsequently deposited as security with the lender, and surrounding circumstances indicate that the parties originally contemplated that the loan should be so secured? The Board answered that in a case of this kind, the loan would be subject to this part, for the following reasons:

1. The Board has long held, in the closely related purpose area, that the original purpose of a loan should not be determined upon a narrow analysis of the technical circumstances under which a loan is made. Instead, the fundamental purpose of the loan is considered to be controlling. Indeed, "the fact that a loan made on the borrower's signature only, for example, becomes secured by registered stock shortly after the disbursement of the loan" affords reasonable grounds for questioning whether the bank was entitled to rely upon the borrower's statement as to the purpose of the loan. 1953 Fed. Res. Bull. 951 (See, § 221.106).

2. Where security is involved, standards of interpretation should be equally searching. If, for example, the original agreement between borrower and lender contemplated that the loan should be secured by margin stock, and such stock is in fact delivered to the bank when available, the transaction must be regarded as fundamentally a secured loan. This view is strengthened by the fact that this part applies to a loan "secured directly or indirectly by margin stock."

(ii) Loan to acquire controlling shares.

1. The second question is whether this part governs a margin stock-secured loan made for the business purpose of purchasing a controlling interest in a corporation, or whether such a loan would be exempt on the ground that this part is directed solely toward purchases of stock for speculative or investment purposes. The Board answered that a margin stock-secured loan for the purpose of purchasing or carrying margin stock is subject to this part, regardless of the reason for which the purchase is made.

2. The answer is required, in the Board's view, since the language of this part is explicitly inclusive, covering "any purpose credit, secured directly or indirectly by margin stock." Moreover, the withdrawal in 1945 of the original section 2(e) of this part, which exempted "any loan for the purpose of purchasing a stock from or through a person who is not a member of a national securities exchange . . ." plainly
Federal Reserve System

§ 221.111 Contribution to joint venture as extension of credit when the contribution is disproportionate to the contributor's share in the venture's profits or losses.

(a) The Board considered the question whether a joint venture, structured so that the amount of capital contribution to the venture would be disproportionate to the right of participation in profits or losses, constitutes an “extension of credit” for the purpose of this part.

(b) An individual and a corporation plan to establish a joint venture to engage in the business of buying and selling securities, including margin stock. The individual would contribute 20 percent of the capital and receive 80 percent of the profits or losses; the corporate share would be the reverse. In computing profits or losses, each participant would first receive interest at the rate of 8 percent on his respective capital contribution. Although purchases and sales would be mutually agreed upon, the corporation could liquidate the joint portfolio if the individual’s share of the losses equaled or exceeded his 20 percent contribution to the venture. The corporation would hold the securities, and upon termination of the venture, the assets would first be applied to repayment of capital contributions.

(c) In general, the relationship of joint venture is created when two or more persons combine their money, property, or time in the conduct of some particular line of trade or some particular business and agree to share jointly, or in proportion to capital contributed, the profits and losses of the undertaking.

(d) The incidents of the joint venture described in paragraph (b) of this section, however, closely parallel those of an extension of margin credit, with the corporation as lender and the individual as borrower. The corporation supplies 80 percent of the purchase price of securities in exchange for a net return of 8 percent of the amount advanced plus 20 percent of any gain. Like a lender of securities credit, the corporation is insulated against loss by retaining the right to liquidate the collateral before the securities decline in price below the amount of its contribution. Conversely, the individual—like a customer who borrows to purchase securities—puts up only 20 percent of their cost, is entitled to the principal portion of any appreciation in their value, bears the principal risk of loss should that value decline, and does not stand to gain or lose except through a change in value of the securities purchased.

(e) The Board is of the opinion that where the right of an individual to share in profits and losses of such a joint venture is disproportionate to his contribution to the venture:

(1) The joint venture involves an extension of credit by the corporation to the individual;

(2) The extension of credit is to purchase or carry margin stock, and is collateralized by such margin stock; and

(3) If the corporation is not a broker or dealer subject to Regulation T (12 CFR part 220), the credit is of the kind described by § 221.3(a).

§ 221.112 Loans by bank in capacity as trustee.

(a) The Board’s advice has been requested whether a bank’s activities in connection with the administration of an employees’ savings plan are subject to this part.

(b) Under the plan, any regular, full-time employee may participate by authorizing the sponsoring company to deduct a percentage of his salary and wages and transmit the same to the bank as trustee. Voluntary contributions by the company are allocated among the participants. A participant may direct that funds held for him be invested by the trustee in insurance, annuity contracts, Series E Bonds, or in one or more of three specified securities which are listed on a stock exchange. Loans to purchase the stocks may be made to participants from funds of the trust, subject to approval of the administrative committee, which is composed of five participants, and of the trustee. The bank’s right to approve is said to be restricted to the
§ 221.113 Loan which is secured indirectly by stock.

(a) A question has been presented to the Board as to whether a loan by a bank to a mutual investment fund is "secured * * * indirectly by margin stock" within the meaning of §221.3(a), so that the loan should be treated as subject to this part.

(b) Briefly, the facts are as follows. Fund X, an open-end investment company, entered into a loan agreement with Bank Y, which was (and still is) custodian of the securities which comprise the portfolio of Fund X. The agreement includes the following terms, which are material to the question before the Board:

1. Fund X agrees to have an "asset coverage" (as defined in the agreements) of 400 percent of all its borrowings, including the proposed borrowing, at the time when it takes down any part of the loan.

2. Fund X agrees to maintain an "asset coverage" of at least 300 percent of its borrowings at all times.

3. Fund X agrees not to amend its custody agreement with Bank Y, or to substitute another custodian without Bank Y's consent.

4. Fund X agrees not to mortgage, pledge, or otherwise encumber any of its assets elsewhere than with Bank Y.

(c) In §221.109 the Board stated that "because of "the general nature and operations of such a company", any "loan by a bank to an open-end investment company that customarily purchases margin stock * * * should be presumed to be subject to this part as a loan for the purpose of purchasing or carrying margin stock" (purpose credit). The Board’s interpretation went on to say that: "this would not be altered by the fact that the open-end company had used, or proposed to use, its own funds or proceeds of the loan to redeem some of its own shares * * *.""

(d) Accordingly, the loan by Bank Y to Fund X was and is a "purpose credit". However, a loan by a bank is not subject to this part unless: it is a purpose credit; and it is "secured directly or indirectly by margin stock". In the present case, the loan is not "secured directly" by stock in the ordinary sense, since the portfolio of Fund X is not pledged to secure the credit from Bank Y. But the word "indirectly" must signify some form of security arrangement other than the "direct" security which arises from the ordinary "transaction that gives recourse against a particular chattel or land or against a third party on an obligation" described in the American Law Institute’s Restatement of the Law of Security, page 1. Otherwise the word "indirectly" would be superfluous, and a regulation, like a statute, must be construed if possible to give meaning to every word.
§ 221.114 Bank loans to purchase stock of American Telephone and Telegraph Company under Employees’ Stock Plan.

(a) The Board of Governors interpreted this part in connection with proposed loans by a bank to persons who are purchasing shares of stock of
(b) According to the current offering under the Plan, an employee of the AT&T system may purchase shares through regular deductions from his pay over a period of 24 months. At the end of that period, a certificate for the appropriate number of shares will be issued to the participating employee by AT&T. Each employee is entitled to purchase, as a maximum, shares that will cost him approximately three-fourths of his annual base pay. Since the program extends over two years, it follows that the payroll deductions for this purpose may be in the neighborhood of 38 percent of base pay and a larger percentage of "take-home pay." Deductions of this magnitude are in excess of the saving rate of many employees.

(c) Certain AT&T employees, who wish to take advantage of the current offering under the Plan, are the owners of shares of AT&T stock that they purchased under previous offerings. A bank proposed to receive such stock as collateral for a "living expenses" loan that will be advanced to the employee in monthly installments over the 24-month period, each installment being in the amount of the employee's monthly payroll deduction under the Plan. The aggregate amount of the advances over the 24-month period would be substantially greater than the maximum loan value of the collateral as prescribed in §221.7 (the Supplement).

(d) In the opinion of the Board of Governors, a loan of the kind described would violate this part if it exceeded the maximum loan value of the collateral. The regulation applies to any margin stock-secured loan for the purpose of purchasing or carrying margin stock (§221.3(a)). Although the proposed loan would purport to be for living expenses, it seems quite clear, in view of the relationship of the loan to the Employees' Stock Plan, that its actual purpose would be to enable the borrower to purchase AT&T stock, which is margin stock. At the end of the 24-month period the borrower would acquire a certain number of shares of that stock and would be indebted to the lending bank in an amount approximately equal to the amount he would pay for such shares. In these circumstances, the loan by the bank must be regarded as a loan "for the purpose of purchasing" the stock, and therefore it is subject to the limitations prescribed by this part. This conclusion follows from the provisions of this part, and it may also be observed that a contrary conclusion could largely defeat the basic purpose of the margin regulations.

(e) Accordingly, the Board concluded that a loan of the kind described may not be made in an amount exceeding the maximum loan value of the collateral, as prescribed by the current §221.7 (the Supplement).

§221.115 Accepting a purpose statement through the mail without benefit of face-to-face interview.

(a) The Board has been asked whether the acceptance of a purpose statement submitted through the mail by a lender subject to the provisions of this part will meet the good faith requirement of §221.3(c). Section 221.3(c) states that in connection with any credit secured by collateral which includes any margin stock, a nonbank lender must obtain a purpose statement executed by the borrower and accepted by the lender in good faith. Such acceptance requires that the lender be alert to the circumstances surrounding the credit and if further information suggests inquiry, he must investigate and be satisfied that the statement is truthful.

(b) The lender is a subsidiary of a holding company which also has another subsidiary which serves as underwriter and investment advisor to various mutual funds. The sole business of the lender will be to make "non-purpose" consumer loans to shareholders of the mutual funds, such loans to be collateralized by the fund shares. Most mutual funds shares are margin stock for purposes of this part. Solicitation and acceptance of these consumer loans will be done principally through the mail and the lender wishes to obtain the required purpose statement by mail rather than by a face-to-face interview. Personal interviews are not practicable for the lender because shareholders of the funds are scattered throughout the country. In order to
provide the same safeguards inherent in face-to-face interviews, the lender has developed certain procedures designed to satisfy the good faith acceptance requirement of this part.

(c) The purpose statement will be supplemented with several additional questions relevant to the prospective borrower’s investment activities such as purchases of any security within the last 6 months, dollar amount, and obligations to purchase or pay for previous purchases; present plans to purchase securities in the near future, participations in securities purchase plans, list of unpaid debts, and present income level. Some questions have been modified to facilitate understanding but no questions have been deleted. If additional inquiry is indicated by the answers on the form, a loan officer of the lender will interview the borrower by telephone to make sure the loan is “non-purpose”. Whenever the loan exceeds the “maximum loan value” of the collateral for a regulated loan, a telephone interview will be done as a matter of course.

(d) One of the stated purposes of Regulation X (12 CFR part 224) was to prevent the infusion of unregulated credit into the securities markets by borrowers falsely certifying the purpose of a loan. The Board is of the view that the existence of Regulation X, which makes the borrower liable for willful violations of the margin regulations, will allow a lender subject to this part to meet the good faith acceptance requirement of §221.3(c) without a face-to-face interview if the lender adopts a program, such as the one described in paragraph (c) of this section, which requires additional detailed information from the borrower and proper procedures are instituted to verify the truth of the information received. Lenders intending to embark on a similar program should discuss proposed plans with their district Federal Reserve Bank. Lenders may have existing or future loans with the prospective customers which could complicate the efforts to determine the true purpose of the loan.

§ 221.116 Bank loans to replenish working capital used to purchase mutual fund shares.

(a) In a situation considered by the Board of Governors, a business concern (X) proposed to purchase mutual fund shares, from time to time, with proceeds from its accounts receivable, then pledge the shares with a bank in order to secure working capital. The bank was prepared to lend amounts equal to 70 percent of the current value of the shares as they were purchased by X. If the loans were subject to this part, only 50 percent of the current market value of the shares could be lent.

(b) The immediate purpose of the loans would be to replenish X’s working capital. However, as time went on, X would be acquiring mutual fund shares at a cost that would exceed the net earnings it would normally have accumulated, and would become indebted to the lending bank in an amount approximately 70 percent of the prices of said shares.

(c) The Board held that the loans were for the purpose of purchasing the shares, and therefore subject to the limitations prescribed by this part. As pointed out in §221.114 with respect to a similar program for putting a high proportion of cash income into stock, the borrowing against the margin stock to meet needs for which the cash would otherwise have been required, a contrary conclusion could largely defeat the basic purpose of the margin regulations.

(d) Also considered was an alternative proposal under which X would deposit proceeds from accounts receivable in a time account for 1 year, before using those funds to purchase mutual fund shares. The Board held that this procedure would not change the situation in any significant way. Once the arrangement was established, the proceeds would be flowing into the time account at the same time that similar amounts were released to purchase the shares, and over any extended period of time the result would be the same. Accordingly, the Board concluded that bank loans made under the alternative proposal would similarly be subject to this part.
§ 221.117 When bank in “good faith” has not relied on stock as collateral.

(a) The Board has received questions regarding the circumstances in which an extension or maintenance of credit will not be deemed to be “indirectly secured” by stock as indicated by the phrase, “if the lender, in good faith, has not relied upon the margin stock as collateral,” contained in paragraph (2)(iv) of the definition of indirectly secured in § 221.2.

(b) In response, the Board noted that in amending this portion of the regulation in 1968, it was indicated that one of the purposes of the change was to make clear that the definition of indirectly secured does not apply to certain routine negative covenants in loan agreements. Also, while the question of whether or not a bank has relied upon particular stock as collateral is necessarily a question of fact to be determined in each case in the light of all relevant circumstances, some indication that the bank had not relied upon stock as collateral would seem to be afforded by such circumstances as the fact that:

(1) The bank had obtained a reasonably current financial statement of the borrower and this statement could reasonably support the loan; and

(2) The loan was not payable on demand or because of fluctuations in market value of the stock, but instead was payable on one or more fixed maturities which were typical of maturities applied by the bank to loans otherwise similar except for not involving any possible question of stock collateral.

§ 221.118 Bank arranging for extension of credit by corporation.

(a) The Board considered the questions whether:

(1) The guaranty by a corporation of an “unsecured” bank loan to exercise an option to purchase stock of the corporation is an “extension of credit” for the purpose of this part;

(2) Such a guaranty is given “in the ordinary course of business” of the corporation, as defined in § 221.2; and

(3) The bank involved took part in arranging for such credit on better terms than it could extend under the provisions of this part.

(b) The Board understood that any officer or employee included under the corporation’s stock option plan who wished to exercise his option could obtain a loan for the purchase price of the stock by executing an unsecured note to the bank. The corporation would issue to the bank a guaranty of the loan and hold the purchased shares as collateral to secure it against loss on the guaranty. Stock of the corporation is registered on a national securities exchange and therefore qualifies as “margin stock” under this part.

(c) A nonbank lender is subject to the registration and other requirements of this part if, in the ordinary course of his business, he extends credit on collateral that includes any margin stock in the amount of $200,000 or more in any calendar quarter, or has such credit outstanding in any calendar quarter in the amount of $500,000 or more. The Board understood that the corporation in question had sufficient guaranties outstanding during the applicable calendar quarter to meet the dollar thresholds for registration.

(d) In the Board’s judgment a person who guarantees a loan, and thereby becomes liable for the amount of the loan in the event the borrower should default, is lending his credit to the borrower. In the circumstances described, such a lending of credit must be considered an “extension of credit” under this part in order to prevent circumvention of the regulation’s limitation on the amount of credit that can be extended on the security of margin stock.

(e) Under § 221.2, the term in the ordinary course of business means “occurring or reasonably expected to occur in carrying on or furthering any business purpose.” * * * In general, stock option plans are designed to provide a company’s employees with a proprietary interest in the company in the form of ownership of the company’s stock. Such plans increase the company’s ability to attract and retain able personnel and, accordingly, promote the interest of the company and its shareholders, while at the same time providing the company’s employees with additional incentive to work toward
§ 221.120 Allocation of stock collateral to purpose and nonpurpose credits to same customer.

(a) A bank proposes to extend two credits (Credits A and B) to its customer. Although the two credits are proposed to be extended at the same time, each would be evidenced by a separate agreement. Credit A would be extended for the purpose of providing the customer with working capital (non-purpose credit), collateralized by margin stock. Credit B would be extended for the purpose of purchasing or carrying margin stock (purpose credit), without collateral or on collateral other than stock.

(b) This part allows a bank to extend purpose and nonpurpose credits simultaneously or successively to the same customer. This rule is expressed in §221.3(d)(4) which provides in substance that for any nonpurpose credit to the same customer, the lender shall in good faith require as much collateral
not already identified to the customer’s purpose credit as the lender would require if it held neither the purpose loan nor the identified collateral. This rule in §221.3(d)(4) also takes into account that the lender would not necessarily be required to hold collateral for the nonpurpose credit if, consistent with good banking practices, it would normally make this kind of nonpurpose loan without collateral.

(c) The Board views §221.3(d)(4), when read in conjunction with §221.3(c) and (f), as requiring that whenever a lender extends two credits to the same customer, one a purpose credit and the other nonpurpose, any margin stock collateral must first be identified with and attributed to the purpose loan by taking into account the maximum loan value of such collateral as prescribed in §221.7 (the Supplement).

(d) The Board is further of the opinion that under the foregoing circumstances Credit B would be indirectly secured by stock, despite the fact that there would be separate loan agreements for both credits. This conclusion flows from the circumstance that the lender would hold in its possession stock collateral to which it would have access with respect to Credit B, despite any ostensible allocation of such collateral to Credit A.

§ 221.121 Extension of credit in certain stock option and stock purchase plans.

Questions have been raised as to whether certain stock option and stock purchase plans involve extensions of credit subject to this part when the participant is free to cancel his participation at any time prior to full payment, but in the event of cancellation the participant remains liable for damages. It thus appears that the participant has the opportunity to gain and bears the risk of loss from the time the transaction is executed and payment is deferred. In some cases brought to the Board’s attention damages are related to the market price of the stock, but in others, there may be no such relationship. In either of these circumstances, it is the Board’s view that such plans involve extensions of credit. Accordingly, where the security being purchased is a margin security and the credit is secured, directly or indirectly, by any margin security, the creditor must register and the credit must conform with either the regular margin requirements of §221.3(a) or the special “plan-lender” provisions set forth in §221.4, whichever is applicable. This assumes, of course, that the amount of credit extended is such that the creditor is subject to the registration requirements of §221.3(b).

§ 221.122 Applicability of margin requirements to credit in connection with Insurance Premium Funding Programs.

(a) The Board has been asked numerous questions regarding purpose credit in connection with insurance premium funding programs. The inquiries are included in a set of guidelines in the format of questions and answers. (The guidelines are available pursuant to the Board’s Rules Regarding Availability of Information, 12 CFR part 261.) A glossary of terms customarily used in connection with insurance premium funding credit activities is included in the guidelines. Under a typical insurance premium funding program, a borrower acquires mutual fund shares for cash, or takes fund shares which he already owns, and then uses the loan value (currently 50 percent as set by the Board) to buy insurance. Usually, a funding company (the issuer) will sell both the fund shares and the insurance through either independent broker/dealers or subsidiaries or affiliates of the issuer. A typical plan may run for 10 or 15 years with annual insurance premiums due. To illustrate, assuming an annual insurance premium of $300, the participant is required to put up mutual fund shares equivalent to 250 percent of the premium or $600 ($600 × 50 percent loan value equals $300 the amount of the insurance premium which is also the amount of the credit extended).

(b) The guidelines referenced in paragraph (a) of this section also:

(1) Clarify an earlier 1969 Board interpretation to show that the public offering price of mutual fund shares (which includes the front load, or sales commission) may be used as a measure of their current market value when the shares serve as collateral on a purpose
§ 221.124 Purchase of debt securities to finance corporate takeovers.

(a) Petitions have been filed with the Board raising questions as to whether the margin requirements in this part apply to two types of corporate acquisitions in which debt securities are issued to finance the acquisition of margin stock of a target company.

(b) In the first situation, the acquiring company, Company A, controls a shell corporation that would make a tender offer for the stock of Company B, which is margin stock (as defined in §221.2). The shell corporation has virtually no operations, has no significant business function other than to acquire and hold the stock of Company B, and has substantially no assets other than the margin stock to be acquired. To finance the tender offer, the shell corporation would issue debt securities which, by their terms, would be unsecured. If the tender offer is successful, the shell corporation would seek to merge with Company B. However, the tender offer seeks to acquire fewer shares of Company B than is necessary under state law to effect a short form merger with Company B, which could be consummated without the approval of shareholders or the board of directors of Company B.

(c) The purchase of the debt securities issued by the shell corporation to finance the acquisition clearly involves purpose credit (as defined in §221.2). In addition, such debt securities would be purchased only by sophisticated investors in very large minimum denominations, so that the purchasers may be lenders for purposes of this part. See §221.3(b). Since the debt securities contain no direct security agreement involving the margin stock, applicability of the lending restrictions of this part turns on whether the arrangement constitutes an extension of credit that is secured indirectly by margin stock.

(d) As the Board has recognized, indirect security can encompass a wide variety of arrangements between lenders and borrowers with respect to margin stock collateral that serve to protect the lenders' interest in assuring that a credit is repaid where the lenders do not have a conventional direct security interest in the collateral. See §221.124. However, credit is not “indirectly secured” by margin stock if the lender in good faith has not relied on the margin stock as collateral extending or maintaining credit. See §221.2.

(e) The Board is of the view that, in the situation described in paragraph (b) of this section, the debt securities would be presumed to be indirectly secured by the margin stock to be acquired by the shell acquisition vehicle. The staff has previously expressed the view that nominally unsecured credit extended to an investment company, a substantial portion of whose assets consist of margin stock, is indirectly secured by the margin stock. See Federal Reserve Regulatory Service 5–917.12. (See 12 CFR 261.10(f) for information on how to obtain Board publications.) This opinion notes that the investment company has substantially no assets other than margin stock to
support indebtedness and thus credit could not be extended to such a company in good faith without reliance on the margin stock as collateral.

(f) The Board believes that this rationale applies to the debt securities issued by the shell corporation described in paragraph (b) of this section. At the time the debt securities are issued, the shell corporation has substantially no assets to support the credit other than the margin stock that it has acquired or intends to acquire and has no significant business function other than to hold the stock of the target company in order to facilitate the acquisition. Moreover, it is possible that the shell may hold the margin stock for a significant and indefinite period of time, if defensive measures by the target prevent consummation of the acquisition. Because of the difficulty in predicting the outcome of a contested takeover at the time that credit is committed to the shell corporation, the Board believes that the purchasers of the debt securities could not, in good faith, lend without reliance on the margin stock as collateral. The presumption that the debt securities are indirectly secured by margin stock would not apply if there is specific evidence that lenders could in good faith rely on assets other than margin stock as collateral, such as a guaranty of the debt securities by the shell corporation’s parent company or another company that has substantial non-margin stock assets or cash flow. This presumption would also not apply if there is a merger agreement between the acquiring and target companies entered into at the time the commitment is made to purchase the debt securities or in any event before loan funds are advanced. In addition, the presumption would not apply if the obligation of the purchasers of the debt securities to advance funds to the shell corporation is contingent on the shell’s acquisition of the minimum number of shares necessary under applicable state law to effect a merger between the acquiring and target companies without the approval of either the shareholders or directors of the target company. In these two situations where the merger will take place promptly, the Board believes the lenders could reasonably be presumed to be relying on the assets of the target for repayment.

(g) In addition, the Board is of the view that the debt securities described in paragraph (b) of this section are indirectly secured by margin stock because there is a practical limitation on the ability of the shell corporation to dispose of the margin stock of the target company. Indirectly secured is defined in §221.2 to include any arrangement under which the customer’s right or ability to sell, pledge, or otherwise dispose of margin stock owned by the customer is in any way restricted while the credit remains outstanding. The purchasers of the debt securities issued by a shell corporation to finance a takeover attempt clearly understand that the shell corporation intends to acquire the margin stock of the target company in order to effect the acquisition of that company. This understanding represents a practical restriction on the ability of the shell corporation to dispose of the target’s margin stock and to acquire other assets with the proceeds of the credit.

(h) In the second situation, Company C, an operating company with substantial assets or cash flow, seeks to acquire Company D, which is significantly larger than Company C. Company C establishes a shell corporation that together with Company C makes a tender offer for the shares of Company D, which is margin stock. To finance the tender offer, the shell corporation would obtain a bank loan that complies with the margin lending restrictions of this part and Company C would issue debt securities that would not be directly secured by any margin stock. The Board is of the opinion that these debt securities should not be presumed to be indirectly secured by the margin stock of Company D, since, as an operating business, Company C has substantial assets or cash flow without regard to the margin stock of Company D. Any presumption would not be appropriate because the purchasers of the debt securities may be relying on assets other than margin stock of Company D for repayment of the credit.
§ 221.125 Credit to brokers and dealers.

(a) The National Securities Markets Improvement Act of 1996 (Pub. L. 104–290, 110 Stat. 3416) restricts the Board’s margin authority by repealing section 8(a) of the Securities Exchange Act of 1934 (the Exchange Act) and amending section 7 of the Exchange Act (15 U.S.C. 79g) to exclude the borrowing by a member of a national securities exchange or a registered broker or dealer “a substantial portion of whose business consists of transactions with persons other than brokers or dealers” and borrowing by a member of a national securities exchange or a registered broker or dealer to finance its activities as a market maker or an underwriter. Notwithstanding this exclusion, the Board may impose such rules and regulations if it determines they are “necessary or appropriate in the public interest or for the protection of investors.”

(b) The Board has not found that it is necessary or appropriate in the public interest or for the protection of investors to impose rules and regulations regarding loans to brokers and dealers covered by the National Securities Markets Improvement Act of 1996.

PART 222—FAIR CREDIT REPORTING (REGULATION V)

Subpart A—General Provisions

Sec.
222.1 Purpose, scope, and effective dates.
222.2 Examples.
222.3 Definitions.

Subpart B [Reserved]

Subpart C—Affiliate Marketing

222.20 Coverage and definitions.
222.21 Affiliate marketing opt-out and exceptions.
222.22 Scope and duration of opt-out.
222.23 Contents of opt-out notice; consolidated and equivalent notices.
222.24 Reasonable opportunity to opt-out.
222.25 Effective date, compliance date, and prospective application.

Subpart D—Medical Information

222.30 Obtaining or using medical information in connection with a determination of eligibility for credit.
222.31 Limits on redisclosure of information.
222.32 Sharing medical information with affiliates.

Subparts E–H [Reserved]

Subpart I—Duties of Users of Consumer Reports Regarding Address Discrepancies and Records Disposal

222.80–222.81 [Reserved]
222.82 Duties of users regarding address discrepancies.
222.83 Disposal of consumer information.

Subpart J—Identity Theft Red Flags

222.90 Duties regarding the detection, prevention, and mitigation of identity theft.
222.91 Duties of card issuers regarding changes of address.

APPENDIX A TO PART 222 [RESERVED]
APPENDIX B TO PART 222—MODEL NOTICES OF FURNISHING NEGATIVE INFORMATION
APPENDIX C TO PART 222—MODEL FORMS FOR OPT-OUT NOTICES
APPENDIX D–I TO PART 222 [RESERVED]
APPENDIX J TO PART 222—INTERAGENCY GUIDELINES ON IDENTIFICATION, PREVENTION, AND MITIGATION

Subpart A—General Provisions

§ 222.1 Purpose, scope, and effective dates.

(a) Purpose. The purpose of this part is to implement the Fair Credit Reporting Act. This part generally applies to persons that obtain and use information about consumers to determine the consumer’s eligibility for products, services, or employment, share such information among affiliates, and furnish information to consumer reporting agencies.

(b) Scope. (1) [Reserved]

(2) Institutions covered. (i) Except as otherwise provided in this part, the regulations in this part apply to banks that are members of the Federal Reserve System (other than national banks) and their respective operating...
subsidiaries that are not functionally regulated within the meaning of section 5(c)(5) of the Bank Holding Company Act, as amended (12 U.S.C. 1844(c)(5)), branches and Agencies of foreign banks (other than Federal branches, Federal Agencies, and insured State branches of foreign banks), commercial lending companies owned or controlled by foreign banks, organizations operating under section 25 or 25A of the Federal Reserve Act (12 U.S.C. 601 et seq., and 611 et seq.), and bank holding companies and affiliates of such holding companies, but do not apply to affiliates of bank holding companies that are depository institutions regulated by another federal banking agency or to consumer reporting agencies.

(ii) For purposes of appendix B to this part, financial institutions as defined in section 509 of the Gramm-Leach-Bliley Act (12 U.S.C. 6809), may use the model notices in appendix B to this part to comply with the notice requirement in section 623(a)(7) of the Fair Credit Reporting Act (15 U.S.C. 1681s-2(a)(7)).

(c) Effective dates. The applicable provisions of the Fair and Accurate Credit Transactions Act of 2003 (FACT Act), Pub. L. 108–159, 117 Stat. 1952, shall be effective in accordance with the following schedule:

(1) Provisions effective December 31, 2003—(i) Sections 151(a)(2), 212(e), 214(c), 311(b), and 711, concerning the relation to state laws; and
(ii) Each of the provisions of the FACT Act that authorizes an agency to issue a regulation or to take other action to implement the applicable provision of the Fair Credit Reporting Act, as amended by the FACT Act, but only with respect to that agency’s authority to propose and adopt the implementing regulation or to take such other action.

(2) Provisions effective March 31, 2004—(i) Section 111, concerning the definitions;
(ii) Section 156, concerning the statute of limitations;
(iii) Sections 312(d), (e), and (f), concerning the furnisher liability exception, liability and enforcement, and rule of construction, respectively;
(iv) Section 313(a), concerning action regarding complaints;
(v) Section 611, concerning communications for certain employee investigations; and
(vi) Section 811, concerning clerical amendments.

(3) Provisions effective December 1, 2004—(i) Section 112, concerning fraud alerts and active duty alerts;
(ii) Section 114, concerning procedures for the identification of possible instances of identity theft;
(iii) Section 115, concerning truncation of the social security number in a consumer report;
(iv) Section 151(a)(1), concerning the summary of rights of identity theft victims;
(v) Section 152, concerning blocking of information resulting from identity theft;
(vi) Section 153, concerning the coordination of identity theft complaint investigations;
(vii) Section 154, concerning the prevention of repollution of consumer reports;
(viii) Section 155, concerning notice by debt collectors with respect to fraudulent information;
(ix) Section 211(c), concerning a summary of rights of consumers;
(x) Section 212(a)–(d), concerning the disclosure of credit scores;
(xi) Section 213(c), concerning enhanced disclosure of the means available to opt out of prescreened lists;
(xii) Section 217(a), concerning the duty to provide notice to a consumer;
(xiii) Section 311(a), concerning the risk-based pricing notice;
(xiv) Section 312(a)–(c), concerning procedures to enhance the accuracy and integrity of information furnished to consumer reporting agencies;
(xv) Section 314, concerning improved disclosure of the results of reinvestigation;
(xvi) Section 315, concerning reconciling addresses;
(xvii) Section 316, concerning notice of dispute through reseller; and
Section 317, concerning the duty to conduct a reasonable reinvestigation.

§ 222.2 Examples.
The examples in this part are not exclusive. Compliance with an example, to the extent applicable, constitutes compliance with this part. Examples in a paragraph illustrate only the issue described in the paragraph and do not illustrate any other issue that may arise in this part.

§ 222.3 Definitions.
For purposes of this part, unless explicitly stated otherwise:
(a) Act means the Fair Credit Reporting Act (15 U.S.C. 1681 et seq.).
(b) Affiliate means any company that is related by common ownership or common corporate control with another company.
(c) [Reserved]
(d) Company means any corporation, limited liability company, business trust, general or limited partnership, association, or similar organization.
(e) Consumer means an individual.
(f)–(h) [Reserved]
(i) Common ownership or common corporate control means a relationship between two companies under which:
(1) One company has, with respect to the other company:
   (i) Ownership, control, or power to vote 25 percent or more of the outstanding shares of any class of voting security of a company, directly or indirectly, or acting through one or more other persons;
   (ii) Control in any manner over the election of a majority of the directors, trustees, or general partners (or individuals exercising similar functions) of a company; or
   (iii) The power to exercise, directly or indirectly, a controlling influence over the management or policies of a company, as the Board determines; or
(2) Any other person has, with respect to both companies, a relationship described in paragraphs (i)(1)(i) through (i)(1)(iii) of this section.
(j) [Reserved]
(k) Medical information means:
(1) Information or data, whether oral or recorded, in any form or medium, created by or derived from a health care provider or the consumer, that relates to:
   (i) The past, present, or future physical, mental, or behavioral health or condition of an individual;
   (ii) The provision of health care to an individual; or
   (iii) The payment for the provision of health care to an individual.
(2) The term does not include:
   (i) The age or gender of a consumer;
   (ii) Demographic information about the consumer, including a consumer’s residence address or e-mail address;
   (iii) Any other information about a consumer that does not relate to the physical, mental, or behavioral health or condition of a consumer, including the existence or value of any insurance policy; or
   (iv) Information that does not identify a specific consumer.
(l) Person means any individual, partnership, corporation, trust, estate cooperative, association, government or governmental subdivision or agency, or other entity.

Subpart B [Reserved]

Subpart C—Affiliate Marketing

SOURCE: Reg. V, 72 FR 62955, Nov. 7, 2007, unless otherwise noted.

§ 222.20 Coverage and definitions.
(a) Coverage. Subpart C of this part applies to member banks of the Federal Reserve System (other than national banks) and their respective operating subsidiaries that are not functionally regulated within the meaning of section 5(c)(5) of the Bank Holding Company Act, as amended (12 U.S.C. 1844(c)(5)), branches and Agencies of foreign banks (other than Federal branches, Federal Agencies, and insured State branches of foreign banks), commercial lending companies owned or controlled by foreign banks, and organizations operating under section 25
or 25A of the Federal Reserve Act (12 U.S.C. 601 et seq., and 611 et seq.).

(b) Definitions. For purposes of this subpart:

(1) *Clear and conspicuous.* The term “clear and conspicuous” means reasonably understandable and designed to call attention to the nature and significance of the information presented.

(2) *Concise.*—(i) *In general.* The term “concise” means a reasonably brief expression or statement.

(ii) *Combination with other required disclosures.* A notice required by this subpart may be concise even if it is combined with other disclosures required or authorized by federal or state law.

(3) *Eligibility information.* The term “eligibility information” means any information the communication of which would be a consumer report if the exclusions from the definition of “consumer report” in section 603(d)(2)(A) of the Act did not apply. Eligibility information does not include aggregate or blind data that does not contain personal identifiers such as account numbers, names, or addresses.

(4) *Pre-existing business relationship.*—(i) *In general.* The term “pre-existing business relationship” means a relationship between a person, or a person’s licensed agent, and a consumer based on—

(A) A financial contract between the person and the consumer which is in force on the date on which the consumer is sent a solicitation covered by this subpart;

(B) The purchase, rental, or lease by the consumer of the person’s goods or services, or a financial transaction (including holding an active account or a policy in force or having another continuing relationship) between the consumer and the person, during the 18-month period immediately preceding the date on which the consumer is sent a solicitation covered by this subpart; or

(C) An inquiry or application by the consumer regarding a product or service offered by that person during the three-month period immediately preceding the date on which the consumer is sent a solicitation covered by this subpart.

(ii) *Examples of pre-existing business relationships.* (A) If a consumer has a time deposit account, such as a certificate of deposit, at a depository institution that is currently in force, the depository institution has a pre-existing business relationship with the consumer and can use eligibility information it receives from its affiliates to make solicitations to the consumer about its products or services.

(B) If a consumer obtained a certificate of deposit from a depository institution, but did not renew the certificate at maturity, the depository institution has a pre-existing business relationship with the consumer and can use eligibility information it receives from its affiliates to make solicitations to the consumer about its products or services for 18 months after the date of maturity of the certificate of deposit.

(C) If a consumer obtains a mortgage, the mortgage lender has a pre-existing business relationship with the consumer. If the mortgage lender sells the consumer’s entire loan to an investor, the mortgage lender has a pre-existing business relationship with the consumer and can use eligibility information it receives from its affiliates to make solicitations to the consumer about its products or services for 18 months after the date it sells the loan, and the investor has a pre-existing business relationship with the consumer upon purchasing the loan. If, however, the mortgage lender sells a fractional interest in the consumer’s loan to an investor but also retains an ownership interest in the loan, the mortgage lender continues to have a pre-existing business relationship with the consumer, but the investor does not have a pre-existing business relationship with the consumer. If the mortgage lender retains ownership of the loan, but sells ownership of the servicing rights to the consumer’s loan, the mortgage lender continues to have a pre-existing business relationship with the consumer. The purchaser of the servicing rights also has a pre-existing business relationship with the consumer as of the date it purchases ownership of the servicing rights, but only if it collects payments from or
otherwise deals directly with the consumer on a continuing basis.

(D) If a consumer applies to a depository institution for a product or service that it offers, but does not obtain a product or service from or enter into a financial contract or transaction with the institution, the depository institution has a pre-existing business relationship with the consumer and can therefore use eligibility information it receives from an affiliate to make solicitations to the consumer about its products or services for three months after the date of the application.

(E) If a consumer makes a telephone inquiry to a depository institution about its products or services and provides contact information to the institution, but does not obtain a product or service from or enter into a financial contract or transaction with the institution, the depository institution has a pre-existing business relationship with the consumer and can therefore use eligibility information it receives from an affiliate to make solicitations to the consumer about its products or services for three months after the date of the inquiry.

(F) If a consumer makes an inquiry to a depository institution by e-mail about its products or services, but does not obtain a product or service from or enter into a financial contract or transaction with the institution, the depository institution has a pre-existing business relationship with the consumer and can therefore use eligibility information it receives from an affiliate to make solicitations to the consumer about its products or services for three months after the date of the inquiry.

(G) If a consumer has an existing relationship with a depository institution that is part of a group of affiliated companies, makes a telephone call to the centralized call center for the group of affiliated companies to inquire about products or services offered by the insurance affiliate, and provides contact information to the call center, the call constitutes an inquiry to the insurance affiliate that offers those products or services. The insurance affiliate has a pre-existing business relationship with the consumer and can therefore use eligibility information it receives from its affiliated depository institution to make solicitations to the consumer about its products or services for three months after the date of the inquiry.

(iii) Examples where no pre-existing business relationship is created. (A) If a consumer makes a telephone call to a centralized call center for a group of affiliated companies to inquire about the consumer’s existing account at a depository institution, the call does not constitute an inquiry to any affiliate other than the depository institution that holds the consumer’s account and does not establish a pre-existing business relationship between the consumer and any affiliate of the account-holding depository institution.

(B) If a consumer who has a deposit account with a depository institution makes a telephone call to an affiliate of the institution to ask about the affiliate’s retail locations and hours, but does not make an inquiry about the affiliate’s products or services, the call does not constitute an inquiry and does not establish a pre-existing business relationship between the consumer and the affiliate. Also, the affiliate’s capture of the consumer’s telephone number does not constitute an inquiry and does not establish a pre-existing business relationship between the consumer and the affiliate.

(C) If a consumer makes a telephone call to a depository institution in response to an advertisement that offers a free promotional item to consumers who call a toll-free number, but the advertisement does not indicate that the depository institution’s products or services will be marketed to consumers who call in response, the call does not create a pre-existing business relationship between the consumer and the depository institution because the consumer has not made an inquiry about a product or service offered by the institution, but has merely responded to an offer for a free promotional item.

(5) Solicitation—(i) In general. The term “solicitation” means the marketing of a product or service initiated by a person to a particular consumer that is—

(A) Based on eligibility information communicated to that person by its affiliate as described in this subpart; and
§ 222.21 Affiliate marketing opt-out and exceptions.

(a) Initial notice and opt-out requirement—

(1) In general. You may not use eligibility information about a consumer that you receive from an affiliate to make a solicitation for marketing purposes to the consumer, unless—

(i) It is clearly and conspicuously disclosed to the consumer in writing or, if the consumer agrees, electronically, in a concise notice that you may use eligibility information about that consumer received from an affiliate to make solicitations for marketing purposes to the consumer;

(ii) The consumer is provided a reasonable opportunity and a reasonable and simple method to "opt out," or prohibit you from using eligibility information to make solicitations for marketing purposes to the consumer;

(iii) The consumer has not opted out.

(2) Example. A consumer has a homeowner’s insurance policy with an insurance company. The insurance company furnishes eligibility information about the consumer to its affiliated depository institution. Based on that eligibility information, the depository institution wants to make a solicitation to the consumer about its home equity loan products. The depository institution does not have a pre-existing business relationship with the consumer and none of the other exceptions apply. The depository institution is prohibited from using eligibility information received from its insurance affiliate to make solicitations to the consumer about its home equity loan products unless the consumer is given a notice and opportunity to opt out and the consumer does not opt out.

(3) Affiliates who may provide the notice. The notice required by this paragraph must be provided:

(i) By an affiliate that has or has previously had a pre-existing business relationship with the consumer; or

(ii) As part of a joint notice from two or more members of an affiliated group of companies, provided that at least one of the affiliates on the joint notice has or has previously had a pre-existing business relationship with the consumer.

(b) Making solicitations—

(1) In general. For purposes of this subpart, you make a solicitation for marketing purposes if—

(i) You receive eligibility information from an affiliate;

(ii) You use that eligibility information to do one or more of the following:

(A) Identify the consumer or type of consumer to receive a solicitation;

(B) Establish criteria used to select the consumer to receive a solicitation; or

(C) Decide which of your products or services to market to the consumer or tailor your solicitation to that consumer; and

(ii) The consumer is provided a reasonable opportunity and a reasonable and simple method to "opt out," or prohibit you from using eligibility information to make solicitations for marketing purposes to the consumer; and

(iii) The consumer has not opted out.

(2) Example. A consumer has a homeowner’s insurance policy with an insurance company. The insurance company furnishes eligibility information about the consumer to its affiliated depository institution. Based on that eligibility information, the depository institution wants to make a solicitation to the consumer about its home equity loan products. The depository institution does not have a pre-existing business relationship with the consumer and none of the other exceptions apply. The depository institution is prohibited from using eligibility information received from its insurance affiliate to make solicitations to the consumer about its home equity loan products unless the consumer is given a notice and opportunity to opt out and the consumer does not opt out.

(3) Receipt or use of eligibility information by your service provider. Except as provided in paragraph (b)(5) of this section, you receive or use an affiliate’s eligibility information if a service provider acting on your behalf (whether an affiliate or a nonaffiliated third party)
receives or uses that information in the manner described in paragraphs (b)(1)(i) or (b)(1)(ii) of this section. All relevant facts and circumstances will determine whether a person is acting as your service provider when it receives or uses an affiliate’s eligibility information in connection with marketing your products and services.

(4) Use by an affiliate of its own eligibility information. Unless you have used eligibility information that you receive from an affiliate in the manner described in paragraph (b)(1)(ii) of this section, you do not make a solicitation subject to this subpart if your affiliate:

(i) Uses its own eligibility information that it obtained in connection with a pre-existing business relationship it has or had with the consumer to market your products or services to the consumer; or

(ii) Directs its service provider to use the affiliate’s own eligibility information that it obtained in connection with a pre-existing business relationship it has or had with the consumer to market your products or services to the consumer, and you do not communicate directly with the service provider regarding that use.

(5) Use of eligibility information by a service provider—(i) In general. You do not make a solicitation subject to Subpart C of this part if a service provider (including an affiliated or third-party service provider that maintains or accesses a common database that you may access) receives eligibility information from your affiliate that your affiliate obtained in connection with a pre-existing business relationship it has or had with the consumer and uses that eligibility information to market your products or services to the consumer, so long as—

(A) Your affiliate controls access to and use of its eligibility information by the service provider (including the right to establish the specific terms and conditions under which the service provider may use such information to market your products or services);

(B) Your affiliate establishes specific terms and conditions under which the service provider may access and use the affiliate’s eligibility information to market your products and services (or those of affiliates generally) to the consumer, such as the identity of the affiliated companies whose products or services may be marketed to the consumer by the service provider, the types of products or services of affiliated companies that may be marketed, and the number of times the consumer may receive marketing materials, and periodically evaluates the service provider’s compliance with those terms and conditions;

(C) Your affiliate requires the service provider to implement reasonable policies and procedures designed to ensure that the service provider uses the affiliate’s eligibility information in accordance with the terms and conditions established by the affiliate relating to the marketing of your products or services;

(D) Your affiliate is identified on or with the marketing materials provided to the consumer; and

(E) You do not directly use your affiliate’s eligibility information in the manner described in paragraph (b)(1)(ii) of this section.

(ii) Writing requirements. (A) The requirements of paragraphs (b)(5)(i)(A) and (C) of this section must be set forth in a written agreement between your affiliate and the service provider; and

(B) The specific terms and conditions established by your affiliate as provided in paragraph (b)(5)(i)(B) of this section must be set forth in writing.

(6) Examples of making solicitations. (i) A consumer has a deposit account with a depository institution, which is affiliated with an insurance company. The insurance company receives eligibility information about the consumer from the depository institution. The insurance company uses that eligibility information to identify the consumer to receive a solicitation about insurance products, and, as a result, the insurance company provides a solicitation to the consumer about its insurance products. Pursuant to paragraph (b)(1) of this section, the insurance company has made a solicitation to the consumer.

(ii) The same facts as in the example in paragraph (b)(6)(i) of this section, except that after using the eligibility information to identify the consumer
to receive a solicitation about insurance products, the insurance company asks the depository institution to send the solicitation to the consumer and the depository institution does so. Pursuant to paragraph (b)(1) of this section, the insurance company has made a solicitation to the consumer because it used eligibility information about the consumer that it received from an affiliate to identify the consumer to receive a solicitation about its products or services, and, as a result, a solicitation was provided to the consumer about the insurance company’s products.

(iii) The same facts as in the example in paragraph (b)(6)(i) of this section, except that eligibility information about consumers that have deposit accounts with the depository institution is placed into a common database that all members of the affiliated group of companies may independently access and use. Without using the depository institution’s eligibility information, the insurance company develops selection criteria and provides those criteria, marketing materials, and related instructions to the depository institution. The depository institution reviews eligibility information about its own consumers using the selection criteria provided by the insurance company to determine which consumers should receive the insurance company’s marketing materials and sends marketing materials about the insurance company’s products to those consumers. Even though the insurance company has received eligibility information through the common database as provided in paragraph (b)(2) of this section, it did not use that information to identify consumers or establish selection criteria; instead, the depository institution used its own eligibility information. Therefore, pursuant to paragraph (b)(4)(i) of this section, the insurance company has not made a solicitation to the consumer.

(iv) The same facts as in the example in paragraph (b)(6)(iii) of this section, except that the depository institution provides the insurance company’s criteria to the depository institution’s service provider and directs the service provider to use the depository institution’s eligibility information to identify depository institution consumers who meet the criteria and to send the insurance company’s marketing materials to those consumers. The insurance company does not communicate directly with the service provider regarding the use of the depository institution’s information to market its products to the depository institution’s consumers. Pursuant to paragraph (b)(4)(ii) of this section, the insurance company has not made a solicitation to the consumer.

(v) An affiliated group of companies includes a depository institution, an insurance company, and a service provider. Each affiliate in the group places information about its consumers into a common database. The service provider has access to all information in the common database. The depository institution controls access to and use of its eligibility information by the service provider. This control is set forth in a written agreement between the depository institution and the service provider. The written agreement also requires the service provider to establish reasonable policies and procedures designed to ensure that the service provider uses the depository institution’s eligibility information in accordance with specific terms and conditions established by the depository institution relating to the marketing of the products and services of all affiliates, including the insurance company. In a separate written communication, the depository institution specifies the terms and conditions under which the service provider may use the depository institution’s eligibility information to market the insurance company’s products and services to the depository institution’s consumers. The specific terms and conditions are: A list of affiliated companies (including the insurance company) whose products or services may be marketed to the depository institution’s consumers by the service provider; the specific products or types of products that may be marketed to the depository institution’s consumers by the service provider; the categories of eligibility information that may be used by the service provider in marketing products.
or services to the depository institution’s consumers; the types or categories of the depository institution’s consumers to whom the service provider may market products or services of depository institution affiliates; the number and/or types of marketing communications that the service provider may send to the depository institution’s consumers; and the length of time during which the service provider may market the products or services of the depository institution’s affiliates to its consumers. The depository institution periodically evaluates the service provider’s compliance with these terms and conditions. The insurance company asks the service provider to market insurance products to certain consumers who have deposit accounts with the depository institution. Without using the depository institution’s eligibility information, the insurance company develops selection criteria and provides those criteria, marketing materials, and related instructions to the service provider. The service provider uses the depository institution’s eligibility information from the common database to identify the depository institution’s consumers to whom insurance products will be marketed. When the insurance company’s marketing materials are provided to the identified consumers, the name of the depository institution is displayed on the marketing materials, an introductory letter that accompanies the marketing materials, an account statement that accompanies the marketing materials, or the envelope containing the marketing materials. The requirements of paragraph (b)(5) of this section have been satisfied, and the insurance company has not made a solicitation to the consumer.

(vi) The same facts as in the example in paragraph (b)(6)(v) of this section, except that the terms and conditions permit the service provider to use the depository institution’s eligibility information to market the products and services of other affiliates to the depository institution’s consumers whenever the service provider deems it appropriate to do so. The service provider uses the depository institution’s eligibility information in accordance with the discretion afforded to it by the terms and conditions. Because the terms and conditions are not specific, the requirements of paragraph (b)(5) of this section have not been satisfied.

(c) Exceptions. The provisions of this subpart do not apply to you if you use eligibility information that you receive from an affiliate:

(1) To make a solicitation for marketing purposes to a consumer with whom you have a pre-existing business relationship;

(2) To facilitate communications to an individual for whose benefit you provide employee benefit or other services pursuant to a contract with an employer related to and arising out of the current employment relationship or status of the individual as a participant or beneficiary of an employee benefit plan;

(3) To perform services on behalf of an affiliate, except that this subparagraph shall not be construed as permitting you to send solicitations on behalf of an affiliate if the affiliate would not be permitted to send the solicitation as a result of the election of the consumer to opt out under this subpart;

(4) In response to a communication about your products or services initiated by the consumer;

(5) In response to an authorization or request by the consumer to receive solicitations; or

(6) If your compliance with this subpart would prevent you from complying with any provision of State insurance laws pertaining to unfair discrimination in any State in which you are lawfully doing business.

(d) Examples of exceptions—(1) Example of the pre-existing business relationship exception. A consumer has a deposit account with a depository institution. The consumer also has a relationship with the depository institution’s securities affiliate for management of the consumer’s securities portfolio. The depository institution receives eligibility information about the consumer from its securities affiliate and uses that information to make a solicitation to the consumer about the depository institution’s wealth management services. The depository institution may make this solicitation even if the consumer...
has not been given a notice and opportunity to opt out because the depository institution has a pre-existing business relationship with the consumer.

(2) Examples of service provider exception. (i) A consumer has an insurance policy issued by an insurance company. The insurance company furnishes eligibility information about the consumer to its affiliated depository institution. Based on that eligibility information, the depository institution wants to make a solicitation to the consumer about its deposit products. The depository institution does not have a pre-existing business relationship with the consumer and none of the other exceptions in paragraph (c) of this section apply. The consumer has been given an opt-out notice and has elected to opt out of receiving such solicitations. The depository institution asks a service provider to send the solicitation to the consumer on its behalf. The service provider may not send the solicitation on behalf of the depository institution because, as a result of the consumer's opt-out election, the depository institution is not permitted to make the solicitation.

(ii) The same facts as in paragraph (d)(2)(i) of this section, except the consumer has been given an opt-out notice, but has not elected to opt out. The depository institution asks a service provider to send the solicitation to the consumer on its behalf. The service provider may not send the solicitation on behalf of the depository institution because, as a result of the consumer's not opting out, the depository institution is permitted to make the solicitation.

(3) Examples of consumer-initiated communications. (i) A consumer who has a deposit account with a depository institution initiates a communication with the depository institution's credit card affiliate to request information about a credit card. The credit card affiliate may use eligibility information about the consumer it obtains from the depository institution or any other affiliate to make solicitations regarding credit card products in response to the consumer-initiated communication.

(ii) A consumer who has a deposit account with a depository institution contacts the institution to request information about how to save and invest for a child's college education without specifying the type of product in which the consumer may be interested. Information about a range of different products or services offered by the depository institution and one or more affiliates of the institution may be responsive to that communication. Such products or services may include the following: Mutual funds offered by the institution's mutual fund affiliate; section 529 plans offered by the institution, its mutual fund affiliate, or another securities affiliate; or trust services offered by a different financial institution in the affiliated group. Any affiliate offering investment products or services that would be responsive to the consumer's request for information about saving and investing for a child's college education may use eligibility information to make solicitations to the consumer in response to this communication.

(iii) A credit card issuer makes a marketing call to the consumer without using eligibility information received from an affiliate. The issuer leaves a voice-mail message that invites the consumer to call a toll-free number to apply for the issuer's credit card. If the consumer calls the toll-free number to inquire about the credit card, the call is a consumer-initiated communication about a product or service and the credit card issuer may now use eligibility information it receives from its affiliates to make solicitations to the consumer.

(iv) A consumer calls a depository institution to ask about retail locations and hours, but does not request information about products or services. The institution may not use eligibility information it receives from an affiliate to make solicitations to the consumer about its products or services because the consumer-initiated communication does not relate to the depository institution's products or services. Thus, the use of eligibility information received from an affiliate would not be responsive to the communication and the exception does not apply.

(v) A consumer calls a depository institution to ask about retail locations and hours. The customer service representative asks the consumer if there
is a particular product or service about which the consumer is seeking information. The consumer responds that the consumer wants to stop in and find out about certificates of deposit. The customer service representative offers to provide that information by telephone and mail additional information and application materials to the consumer. The consumer agrees and provides or confirms contact information for receipt of the materials to be mailed. The depository institution may use eligibility information it receives from an affiliate to make solicitations to the consumer about certificates of deposit because such solicitations would respond to the consumer-initiated communication about products or services.

(4) Examples of consumer authorization or request for solicitations. (i) A consumer who obtains a mortgage from a mortgage lender authorizes or requests information about homeowner’s insurance offered by the mortgage lender’s insurance affiliate. Such authorization or request, whether given to the mortgage lender or to the insurance affiliate, would permit the insurance affiliate to use eligibility information about the consumer it obtains from the mortgage lender or any other affiliate to make solicitations to the consumer about homeowner’s insurance.

(ii) A consumer completes an online application to apply for a credit card from a credit card issuer. The issuer’s online application contains a blank check box that the consumer may check to authorize or request information from the credit card issuer’s affiliates. The consumer checks the box. The consumer has authorized or requested solicitations from the card issuer’s affiliates.

(iii) A consumer completes an online application to apply for a credit card from a credit card issuer. The issuer’s online application contains a pre-selected check box indicating that the consumer authorizes or requests information from the issuer’s affiliates. The consumer does not deselect the check box. The consumer has not authorized or requested solicitations from the card issuer’s affiliates.

(iv) The terms and conditions of a credit card account agreement contain preprinted boilerplate language stating that by applying to open an account the consumer authorizes or requests to receive solicitations from the credit card issuer’s affiliates. The consumer has not authorized or requested solicitations from the card issuer’s affiliates.

(e) Relation to affiliate-sharing notice and opt-out. Nothing in this subpart limits the responsibility of a person to comply with the notice and opt-out provisions of section 603(d)(2)(A)(iii) of the Act where applicable.

§ 222.22 Scope and duration of opt-out.

(a) Scope of opt-out—(1) In general. Except as otherwise provided in this section, the consumer’s election to opt out prohibits any affiliate covered by the opt-out notice from using eligibility information received from another affiliate as described in the notice to make solicitations to the consumer.

(2) Continuing relationship—(i) In general. If the consumer establishes a continuing relationship with you or your affiliate, an opt-out notice may apply to eligibility information obtained in connection with—

(A) A single continuing relationship or multiple continuing relationships that the consumer establishes with you or your affiliates, including continuing relationships established subsequent to delivery of the opt-out notice, so long as the notice adequately describes the continuing relationships covered by the opt-out; or

(B) Any other transaction between the consumer and you or your affiliates as described in the notice.

(ii) Examples of continuing relationships. A consumer has a continuing relationship with you or your affiliate if the consumer—

(A) Opens a deposit or investment account with you or your affiliate;

(B) Obtains a loan for which you or your affiliate owns the servicing rights;

(C) Purchases an insurance product from you or your affiliate;

(D) Holds an investment product through you or your affiliate, such as when you act or your affiliate acts as a custodian for securities or for assets in an individual retirement arrangement;
(E) Enters into an agreement or understanding with you or your affiliate whereby you or your affiliate undertakes to arrange or broker a home mortgage loan for the consumer;

(F) Enters into a lease of personal property with you or your affiliate; or

(G) Obtains financial, investment, or economic advisory services from you or your affiliate for a fee.

(3) No continuing relationship—(i) In general. If there is no continuing relationship between a consumer and you or your affiliate, and you or your affiliate obtain eligibility information about a consumer in connection with a transaction with the consumer, such as an isolated transaction or a credit application that is denied, an opt-out notice provided to the consumer only applies to eligibility information obtained in connection with that transaction.

(ii) Examples of isolated transactions. An isolated transaction occurs if—

(A) The consumer uses your or your affiliate’s ATM to withdraw cash from an account at another financial institution; or

(B) You or your affiliate sells the consumer a cashier’s check or money order, airline tickets, travel insurance, or traveler’s checks in isolated transactions.

(4) Menu of alternatives. A consumer may be given the opportunity to choose from a menu of alternatives when electing to prohibit solicitations, such as by electing to prohibit solicitations from certain types of affiliates covered by the opt-out notice but not other types of affiliates covered by the notice, electing to prohibit solicitations based on certain types of eligibility information but not other types of eligibility information, or electing to prohibit solicitations by certain methods of delivery but not other methods of delivery. However, one of the alternatives must allow the consumer to prohibit all solicitations from all of the affiliates that are covered by the notice.

(5) Special rule for a notice following termination of all continuing relationships—(i) In general. A consumer must be given a new opt-out notice if, after all continuing relationships with you or your affiliate(s) are terminated, the consumer subsequently establishes another continuing relationship with you or your affiliate(s) and the consumer’s eligibility information is to be used to make a solicitation. The new opt-out notice must apply, at a minimum, to eligibility information obtained in connection with the new continuing relationship. Consistent with paragraph (b) of this section, the consumer’s decision not to opt out after receiving the new opt-out notice would not override a prior opt-out election by the consumer that applies to eligibility information obtained in connection with a terminated relationship, regardless of whether the new opt-out notice applies to eligibility information obtained in connection with the terminated relationship.

(ii) Example. A consumer has a checking account with a depository institution that is part of an affiliated group. The consumer closes the checking account. One year after closing the checking account, the consumer opens a savings account with the same depository institution. The consumer must be given a new notice and opportunity to opt out before the depository institution’s affiliates may make solicitations to the consumer using eligibility information obtained by the depository institution in connection with the new savings account relationship, regardless of whether the consumer opted out in connection with the checking account.

(b) Duration of opt-out. The election of a consumer to opt out must be effective for a period of at least five years (the “opt-out period”) beginning when the consumer’s opt-out election is received and implemented, unless the consumer subsequently revokes the opt-out in writing or, if the consumer agrees, electronically. An opt-out period of more than five years may be established, including an opt-out period that does not expire unless revoked by the consumer.

(c) Time of opt-out. A consumer may opt out at any time.
§ 222.23 Contents of opt-out notice; consolidated and equivalent notices.

(a) Contents of opt-out notice—(1) In general. A notice must be clear, conspicuous, and concise, and must accurately disclose:

(i) The name of the affiliate(s) providing the notice. If the notice is provided jointly by multiple affiliates and each affiliate shares a common name, such as “ABC,” then the notice may indicate that it is being provided by multiple companies with the ABC name or multiple companies in the ABC group or family of companies, for example, by stating that the notice is provided by “all of the ABC companies,” “the ABC banking, credit card, insurance, and securities companies,” or by listing the name of each affiliate providing the notice. But if the affiliates providing the joint notice do not all share a common name, then the notice must either separately identify each affiliate by name or identify each of the common names used by those affiliates, for example, by stating that the notice is provided by “all of the ABC and XYZ companies” or to “the ABC banking and credit card companies and the XYZ insurance companies”;

(ii) A general description of the types of eligibility information that may be used to make solicitations to the consumer;

(iv) That the consumer may elect to limit the use of eligibility information to make solicitations to the consumer;

(v) That the consumer’s election will apply for the specified period of time stated in the notice and, if applicable, that the consumer will be allowed to renew the election once that period expires;

(vi) If the notice is provided to consumers who may have previously opted out, such as if a notice is provided to consumers annually, that the consumer who has chosen to limit solicitations does not need to act again until the consumer receives a renewal notice; and

(vii) A reasonable and simple method for the consumer to opt out.

(2) Joint relationships. (i) If two or more consumers jointly obtain a product or service, a single opt-out notice may be provided to the joint consumers. Any of the joint consumers may exercise the right to opt out.

(ii) The opt-out notice must explain how an opt-out direction by a joint consumer will be treated. An opt-out direction by a joint consumer may be treated as applying to all of the associated joint consumers, or each joint consumer may be permitted to opt out separately. If each joint consumer is permitted to opt out separately, one of the joint consumers must be permitted to opt out on behalf of all of the joint consumers and the joint consumers must be permitted to exercise their separate rights to opt out in a single response.

(iii) It is impermissible to require all joint consumers to opt out before implementing any opt-out direction.

(3) Alternative contents. If the consumer is afforded a broader right to opt out of receiving marketing than is required by this subpart, the requirements of this section may be satisfied by providing the consumer with a clear, conspicuous, and concise notice that accurately discloses the consumer’s opt-out rights.
§ 222.24 Model notices. Model notices are provided in appendix C of this part.

(b) Coordinated and consolidated notices. A notice required by this subpart may be coordinated and consolidated with any other notice or disclosure required to be issued under any other provision of law by the entity providing the notice, including but not limited to the notice described in section 603(d)(2)(A)(iii) of the Act and the Gramm-Leach-Bliley Act privacy notice.

(c) Equivalent notices. A notice or other disclosure that is equivalent to the notice required by this subpart, and that is provided to a consumer together with disclosures required by any other provision of law, satisfies the requirements of this section.

§ 222.24 Reasonable opportunity to opt out.

(a) In general. You must not use eligibility information about a consumer that you receive from an affiliate to make a solicitation to the consumer about your products or services, unless the consumer is provided a reasonable opportunity to opt out, as required by §222.21(a)(1)(ii) of this part.

(b) Examples of a reasonable opportunity to opt out. The consumer is given a reasonable opportunity to opt out if:

(1) By mail. The opt-out notice is mailed to the consumer. The consumer is given 30 days from the date the notice is mailed to elect to opt out by any reasonable means.

(2) By electronic means. (i) The opt-out notice is provided electronically to the consumer, such as by posting the notice at an Internet Web site at which the consumer has obtained a product or service. The consumer acknowledges receipt of the electronic notice. The consumer is given 30 days after the date the consumer acknowledges receipt to elect to opt out by any reasonable means.

(3) At the time of a transaction. The opt-out notice is provided to the consumer at the time of an electronic transaction, such as a transaction conducted on an Internet Web site. The consumer is required to decide, as a necessary part of proceeding with the transaction, whether to opt out before completing the transaction. There is a simple process that the consumer may use to opt out at that time using the same mechanism through which the transaction is conducted.

(4) At the time of an in-person transaction. The opt-out notice is provided to the consumer in writing at the time of an in-person transaction. The consumer is required to decide, as a necessary part of proceeding with the transaction, whether to opt out before completing the transaction, and is not permitted to complete the transaction without making a choice. There is a simple process that the consumer may use during the course of the in-person transaction to opt out, such as completing a form that requires consumers to write a “yes” or “no” to indicate their opt-out preference or that requires the consumer to check one of two blank check boxes—one that allows consumers to indicate that they want to opt out and one that allows consumers to indicate that they do not want to opt out.

(5) By including in a privacy notice. The opt-out notice is included in a Gramm-Leach-Bliley Act privacy notice. The consumer is allowed to exercise the opt-out within a reasonable period of time and in the same manner as the opt-out under that privacy notice.

§ 222.25 Reasonable and simple methods of opting out.

(a) In general. You must not use eligibility information about a consumer that you receive from an affiliate to make a solicitation to the consumer about your products or services, unless the consumer is provided a reasonable and simple method to opt out, as required by §222.21(a)(1)(ii) of this part.

(b) Examples—(1) Reasonable and simple opt-out methods. Reasonable and simple methods for exercising the opt-out right include—

(i) Designating a check-off box in a prominent position on the opt-out form;
(ii) Including a reply form and a self-addressed envelope together with the opt-out notice;
(iii) Providing an electronic means to opt out, such as a form that can be electronically mailed or processed at an Internet Web site, if the consumer agrees to the electronic delivery of information;
(iv) Providing a toll-free telephone number that consumers may call to opt out; or
(v) Allowing consumers to exercise all of their opt-out rights described in a consolidated opt-out notice that includes the privacy opt-out under the Gramm-Leach-Bliley Act, 15 U.S.C. 6801 et seq., the affiliate sharing opt-out under the Act, and the affiliate marketing opt-out under the Act, by a single method, such as by calling a single toll-free telephone number.

(2) Opt-out methods that are not reasonable and simple. Reasonable and simple methods for exercising an opt-out right do not include—
(i) Requiring the consumer to write his or her own letter;
(ii) Requiring the consumer to call or write to obtain a form for opting out, rather than including the form with the opt-out notice;
(iii) Requiring the consumer who receives the opt-out notice in electronic form only, such as through posting at an Internet Web site, to opt out solely by paper mail or by visiting a different Web site without providing a link to that site.

(c) Specific opt-out means. Each consumer may be required to opt out through a specific means, as long as that means is reasonable and simple for that consumer.

§ 222.26 Delivery of opt-out notices.

(a) In general. The opt-out notice must be provided so that each consumer can reasonably be expected to receive actual notice. For opt-out notices provided electronically, the notice may be provided in compliance with either the electronic disclosure provisions in this subpart or the provisions in section 101 of the Electronic Signatures in Global and National Commerce Act, 15 U.S.C. 7001 et seq.

(b) Examples of reasonable expectation of actual notice. A consumer may reasonably be expected to receive actual notice if the affiliate providing the notice:

(1) Hand-delivers a printed copy of the notice to the consumer;
(2) Mails a printed copy of the notice to the last known mailing address of the consumer;
(3) Provides a notice by e-mail to a consumer who has agreed to receive electronic disclosures by e-mail from the affiliate providing the notice; or
(4) Posts the notice on the Internet Web site at which the consumer obtained a product or service electronically and requires the consumer to acknowledge receipt of the notice.

(c) Examples of no reasonable expectation of actual notice. A consumer may not reasonably be expected to receive actual notice if the affiliate providing the notice:

(1) Only posts the notice on a sign in a branch or office or generally publishes the notice in a newspaper;
(2) Sends the notice via e-mail to a consumer who has not agreed to receive electronic disclosures by e-mail from the affiliate providing the notice; or
(3) Posts the notice on an Internet Web site without requiring the consumer to acknowledge receipt of the notice.

§ 222.27 Renewal of opt-out.

(a) Renewal notice and opt-out requirement—

(1) In general. After the opt-out period expires, you may not make solicitations based on eligibility information you receive from an affiliate to a consumer who previously opted out, unless:

(i) The consumer has been given a renewal notice that complies with the requirements of this section and §§ 222.24 through 222.26 of this part, and a reasonable opportunity and a reasonable and simple method to renew the opt-out, and the consumer does not renew the opt-out; or
(ii) An exception in § 222.21(c) of this part applies.

(2) Renewal period. Each opt-out renewal must be effective for a period of at least five years as provided in §222.22(b) of this part.
(3) Affiliates who may provide the notice. The notice required by this paragraph must be provided:
   (i) By the affiliate that provided the previous opt-out notice, or its successor; or
   (ii) As part of a joint renewal notice from two or more members of an affiliated group of companies, or their successors, that jointly provided the previous opt-out notice.

(b) Contents of renewal notice. The renewal notice must be clear, conspicuous, and concise, and must accurately disclose:
   (1) The name of the affiliate(s) providing the notice. If the notice is provided jointly by multiple affiliates and each affiliate shares a common name, such as “ABC,” then the notice may indicate that it is being provided by multiple companies with the ABC name or multiple companies in the ABC group or family of companies, for example, by stating that the notice is provided by “all of the ABC companies,” “the ABC banking, credit card, insurance, and securities companies,” or by listing the name of each affiliate providing the notice. But if the affiliates providing the joint notice do not all share a common name, then the notice must either separately identify each affiliate by name or identify each of the common names used by those affiliates, for example, by stating that the notice applies to “all of the ABC and XYZ companies” or to “the ABC banking and credit card companies and the XYZ insurance companies”;
   (3) A general description of the types of eligibility information that may be used to make solicitations to the consumer;
   (4) That the consumer previously elected to limit the use of certain information to make solicitations to the consumer;
   (5) That the consumer’s election has expired or is about to expire;
   (6) That the consumer may elect to renew the consumer’s previous election;
   (7) If applicable, that the consumer’s election to renew will apply for the specified period of time stated in the notice and that the consumer will be allowed to renew the election once that period expires; and
   (8) A reasonable and simple method for the consumer to opt out.

(c) Timing of the renewal notice.—(1) In general. A renewal notice may be provided to the consumer either—
   (i) A reasonable period of time before the expiration of the opt-out period; or
   (ii) Any time after the expiration of the opt-out period but before solicitations that would have been prohibited by the expired opt-out are made to the consumer.
   (2) Combination with annual privacy notice. If you provide an annual privacy notice under the Gramm-Leach-Bliley Act, 15 U.S.C. 6801 et seq., providing a renewal notice with the last annual privacy notice provided to the consumer before expiration of the opt-out period is a reasonable period of time before expiration of the opt-out in all cases.
   (d) No effect on opt-out period. An opt-out period may not be shortened by sending a renewal notice to the consumer before expiration of the opt-out period, even if the consumer does not renew the opt out.
§ 222.28 Effective date, compliance date, and prospective application.

(a) Effective date. This subpart is effective January 1, 2008.

(b) Mandatory compliance date. Compliance with this subpart is required not later than October 1, 2008.

(c) Prospective application. The provisions of this subpart shall not prohibit you from using eligibility information that you receive from an affiliate to make solicitations to a consumer if you receive such information prior to October 1, 2008. For purposes of this section, you are deemed to receive eligibility information when such information is placed into a common database and is accessible by you.

Subpart D—Medical Information

SOURCE: 70 FR 70679, Nov. 22, 2005, unless otherwise noted.

§ 222.30 Obtaining or using medical information in connection with a determination of eligibility for credit.

(a) Scope. This section applies to

(1) Any of the following that participates as a creditor in a transaction—

(i) A bank that is a member of the Federal Reserve System (other than national banks) and its subsidiaries;

(ii) A branch or Agency of a foreign bank (other than Federal branches, Federal Agencies, and insured State branches of foreign banks) and its subsidiaries;

(iii) A commercial lending company owned or controlled by foreign banks;

(iv) An organization operating under section 25 or 25A of the Federal Reserve Act (12 U.S.C. 601 et seq., and 611 et seq.);

(v) A bank holding company and an affiliate of such holding company (other than depository institutions and consumer reporting agencies); or

(2) Any other person that participates as a creditor in a transaction involving a person described in paragraph (a)(1) of this section.

(b) General prohibition on obtaining or using medical information. (I) In general. A creditor may not obtain or use medical information pertaining to a consumer in connection with any determination of the consumer’s eligibility, or continued eligibility, for credit, except as provided in this section.

(2) Definitions. (i) Credit has the same meaning as in section 702 of the Equal Credit Opportunity Act, 15 U.S.C. 1691a.

(ii) Creditor has the same meaning as in section 702 of the Equal Credit Opportunity Act, 15 U.S.C. 1691a.

(iii) Eligibility, or continued eligibility, for credit means the consumer’s qualification or fitness to receive, or continue to receive, credit, including the terms on which credit is offered. The term does not include:

(A) Any determination of the consumer’s qualification or fitness for employment, insurance (other than a credit insurance product), or other non-credit products or services;

(B) Authorizing, processing, or documenting a payment or transaction on behalf of the consumer in a manner that does not involve a determination of the consumer’s eligibility, or continued eligibility, for credit;

(C) Maintaining or servicing the consumer’s account in a manner that does not involve a determination of the consumer’s eligibility, or continued eligibility, for credit.

(c) Rule of construction for obtaining and using unsolicited medical information—(1) In general. A creditor does not obtain medical information in violation of the prohibition if it receives medical information pertaining to a consumer in connection with any determination of the consumer’s eligibility, or continued eligibility, for credit without specifically requesting medical information.

(2) Use of unsolicited medical information. A creditor that receives unsolicited medical information in the manner described in paragraph (c)(1) of this section may use that information in connection with any determination of the consumer’s eligibility, or continued eligibility, for credit to the extent the creditor can rely on at least one of the exceptions in §222.30(d) or (e).

(3) Examples. A creditor does not obtain medical information in violation of the prohibition if, for example:

(i) In response to a general question regarding a consumer’s debts or expenses, the creditor receives information that the consumer owes a debt to a hospital.
(ii) In a conversation with the creditor’s loan officer, the consumer informs the creditor that the consumer has a particular medical condition.

(iii) In connection with a consumer’s application for an extension of credit, the creditor requests a consumer report from a consumer reporting agency and receives medical information in the consumer report furnished by the agency even though the creditor did not specifically request medical information from the consumer reporting agency.

(d) Financial information exception for obtaining and using medical information—

(1) In general. A creditor may obtain and use medical information pertaining to a consumer in connection with any determination of the consumer’s eligibility, or continued eligibility, for credit so long as:

(i) The information is the type of information routinely used in making credit eligibility determinations, such as information relating to debts, expenses, income, benefits, assets, collateral, or the purpose of the loan, including the use of proceeds;

(ii) The creditor uses the medical information in a manner and to an extent that is no less favorable than it would use comparable information that is not medical information in a credit transaction; and

(iii) The creditor does not take the consumer’s physical, mental, or behavioral health, condition or history, type of treatment, or prognosis into account as part of any such determination.

(2) Examples. (i) Examples of the types of information routinely used in making credit eligibility determinations. Paragraph (d)(1)(i) of this section permits a creditor, for example, to obtain and use information about:

(A) The dollar amount, repayment terms, repayment history, and similar information regarding medical debts to calculate, measure, or verify the repayment ability of the consumer, the use of proceeds, or the terms for granting credit;

(B) The value, condition, and lien status of a medical device that may serve as collateral to secure a loan;

(C) The dollar amount and continued eligibility for disability income, workers’ compensation income, or other benefits related to health or a medical condition that is relied on as a source of repayment; or

(D) The identity of creditors to whom outstanding medical debts are owed in connection with an application for credit, including but not limited to, a transaction involving the consolidation of medical debts.

(ii) Examples of uses of medical information consistent with the exception.

(A) A consumer includes on an application for credit information about two $20,000 debts. One debt is to a hospital; the other debt is to a retailer. The creditor contacts the hospital and the retailer to verify the amount and payment status of the debts. The creditor learns that both debts are more than 90 days past due. Any two debts of this size that are more than 90 days past due would disqualify the consumer under the creditor’s established underwriting criteria. The creditor denies the application on the basis that the consumer has a poor repayment history on outstanding debts. The creditor has used medical information in a manner and to an extent no less favorable than it would use comparable non-medical information.

(B) A consumer indicates on an application for a $200,000 mortgage loan that she receives $15,000 in long-term disability income each year from her former employer and has no other income. Annual income of $15,000, regardless of source, would not be sufficient to support the requested amount of credit. The creditor denies the application on the basis that the projected debt-to-income ratio of the consumer does not meet the creditor’s underwriting criteria. The creditor has used medical information in a manner and to an extent that is no less favorable than it would use comparable non-medical information.

(C) A consumer includes on an application for a $10,000 home equity loan that he has a $50,000 debt to a medical facility that specializes in treating a potentially terminal disease. The creditor contacts the medical facility to verify the debt and obtain the repayment history and current status of the loan. The creditor learns that the debt is current. The applicant meets the income and other requirements of the
creditor’s underwriting guidelines. The creditor grants the application. The creditor has used medical information in accordance with the exception.

(iii) Examples of uses of medical information inconsistent with the exception.

(A) A consumer applies for $25,000 of credit and includes on the application information about a $50,000 debt to a hospital. The creditor contacts the hospital to verify the amount and payment status of the debt, and learns that the debt is current and that the consumer has no delinquencies in her repayment history. If the existing debt were instead owed to a retail department store, the creditor would approve the application and extend credit based on the amount and repayment history of the outstanding debt. The creditor, however, denies the application because the consumer is indebted to a hospital. The creditor has used medical information, here the identity of the medical creditor, in a manner and to an extent that is less favorable than it would use comparable non-medical information.

(B) A consumer meets with a loan officer of a creditor to apply for a mortgage loan. While filling out the loan application, the consumer informs the loan officer orally that she has a potentially terminal disease. The consumer meets the creditor’s established requirements for the requested mortgage loan. The loan officer recommends to the credit committee that the consumer be denied credit because she has a potentially terminal disease. The credit committee agrees with the loan officer’s recommendation. The loan officer informs the consumer that the consumer must obtain a debt cancellation contract, debt suspension agreement, or credit insurance product from a nonaffiliated third party to qualify for the loan. The consumer obtains one of these products and the creditor approves the loan. The creditor has used medical information in a manner inconsistent with the exception by taking into account the consumer’s physical, mental, or behavioral health, condition, or history, type of treatment, or prognosis as part of a determination of eligibility or continued eligibility for credit.

(e) Specific exceptions for obtaining and using medical information—(1) In general. A creditor may obtain and use medical information pertaining to a consumer in connection with any determination of the consumer’s eligibility, or continued eligibility, for credit—

(i) To determine whether the use of a power of attorney or legal representative that is triggered by a medical condition or event is necessary and appropriate or whether the consumer has legal capacity to contract when a person seeks to exercise a power of attorney or act as legal representative for a consumer based on an asserted medical condition or event;

(ii) To comply with applicable requirements of local, state, or Federal laws;

(iii) To determine, at the consumer’s request, whether the consumer qualifies for a legally permissible special credit program or credit-related assistance program that is—

(A) Designed to meet the special needs of consumers with medical conditions; and
(B) Established and administered pursuant to a written plan that—

(1) Identifies the class of persons that the program is designed to benefit; and

(2) Sets forth the procedures and standards for extending credit or providing other credit-related assistance under the program;

(iv) To the extent necessary for purposes of fraud prevention or detection;

(v) In the case of credit for the purpose of financing medical products or services, to determine and verify the medical purpose of a loan and the use of proceeds;

(vi) Consistent with safe and sound practices, if the consumer or the consumer’s legal representative specifically requests that the creditor use medical information in determining the consumer’s eligibility, or continued eligibility, for credit, to accommodate the consumer’s particular circumstances, and such request is documented by the creditor;

(vii) Consistent with safe and sound practices, to determine whether the provisions of a forbearance practice or program that is triggered by a medical condition or event apply to a consumer;

(viii) To determine the consumer’s eligibility for, the triggering of, or the reactivation of a debt cancellation contract or debt suspension agreement if a medical condition or event is a triggering event for the provision of benefits under the contract or agreement; or

(ix) To determine the consumer’s eligibility for, the triggering of, or the reactivation of a credit insurance product if a medical condition or event is a triggering event for the provision of benefits under the product.

(2) Example of determining eligibility for a special credit program or credit assistance program. A not-for-profit organization establishes a credit assistance program pursuant to a written plan that is designed to assist disabled veterans in purchasing homes by subsidizing the down payment for the home purchase mortgage loans of qualifying veterans. The organization works through mortgage lenders and requires mortgage lenders to obtain medical information about the disability of any consumer that seeks to qualify for the program, use that information to verify the consumer’s eligibility for the program, and forward that information to the organization. A consumer who is a veteran applies to a creditor for a home purchase mortgage loan. The creditor informs the consumer about the credit assistance program for disabled veterans and the consumer seeks to qualify for the program. Assuming that the program complies with all applicable law, including applicable fair lending laws, the creditor may obtain and use medical information about the medical condition and disability, if any, of the consumer to determine whether the consumer qualifies for the credit assistance program.

(3) Examples of verifying the medical purpose of the loan or the use of proceeds.

(i) If a consumer applies for $10,000 of credit for the purpose of financing vision correction surgery, the creditor may verify with the surgeon that the procedure will be performed. If the surgeon reports that surgery will not be performed on the consumer, the creditor may use that medical information to deny the consumer’s application for credit, because the loan would not be used for the stated purpose.

(ii) If a consumer applies for $10,000 of credit for the purpose of financing cosmetic surgery, the creditor may confirm the cost of the procedure with the surgeon. If the surgeon reports that the cost of the procedure is $5,000, the creditor may use that medical information to offer the consumer only $5,000 of credit.

(iii) A creditor has an established medical loan program for financing particular elective surgical procedures. The creditor receives a loan application from a consumer requesting $10,000 of credit for the purpose of financing cosmetic surgery, the creditor may confirm the cost of the procedure with the surgeon. If the surgeon reports that the cost of the procedure is $5,000, the creditor may use that medical information to offer the consumer only $5,000 of credit.

(4) Examples of obtaining and using medical information at the request of the consumer.
consumer. (i) If a consumer applies for a loan and specifically requests that the creditor consider the consumer’s medical disability at the relevant time as an explanation for adverse payment history information in his credit report, the creditor may consider such medical information in evaluating the consumer’s willingness and ability to repay the requested loan to accommodate the consumer’s particular circumstances, consistent with safe and sound practices. The creditor may also decline to consider such medical information to accommodate the consumer, but may evaluate the consumer’s application in accordance with its otherwise applicable underwriting criteria. The creditor may not deny the consumer’s application or otherwise treat the consumer less favorably because the consumer specifically requested a medical accommodation, if the creditor would have extended the credit or treated the consumer more favorably under the creditor’s otherwise applicable underwriting criteria.

(ii) If a consumer applies for a loan by telephone and explains that his income has been and will continue to be interrupted on account of a medical condition and that he expects to repay the loan by liquidating assets, the creditor may, but is not required to, evaluate the application using the sale of assets as the primary source of repayment, consistent with safe and sound practices, provided that the creditor documents the consumer’s request by recording the oral conversation or making a notation of the request in the consumer’s file.

(iii) If a consumer applies for a loan and the application form provides a space where the consumer may provide any other information or special circumstances, whether medical or non-medical, that the consumer would like the creditor to consider in evaluating the consumer’s application, the creditor may use medical information provided by the consumer in that space on that application to accommodate the consumer’s application for credit, consistent with safe and sound practices, or may disregard that information.

(iv) If a consumer specifically requests that the creditor use medical information in determining the consumer’s eligibility, or continued eligibility, for credit and provides the creditor with medical information for that purpose, and the creditor determines that it needs additional information regarding the consumer’s circumstances, the creditor may request, obtain, and use additional medical information about the consumer as necessary to verify the information provided by the consumer or to determine whether to make an accommodation for the consumer. The consumer may decline to provide additional information, withdraw the request for an accommodation, and have the application considered under the creditor’s otherwise applicable underwriting criteria.

(v) If a consumer completes and signs a credit application that is not for medical purpose credit and the application contains boilerplate language that routinely requests medical information from the consumer or that indicates that by applying for credit the consumer authorizes or consents to the creditor obtaining and using medical information in connection with a determination of the consumer’s eligibility, or continued eligibility, for credit, the consumer has not specifically requested that the creditor obtain and use medical information to accommodate the consumer’s particular circumstances.

5 Example of a forbearance practice or program. After an appropriate safety and soundness review, a creditor institutes a program that allows consumers who are or will be hospitalized to defer payments as needed for up to three months, without penalty, if the credit account has been open for more than one year and has not previously been in default, and the consumer provides confirming documentation at an appropriate time. A consumer is hospitalized and does not pay her bill for a particular month. This consumer has had a credit account with the creditor for more than one year and has not previously been in default. The creditor attempts to contact the consumer and speaks with the consumer’s adult child, who is not the consumer’s legal representative. The adult child informs the creditor that the consumer is hospitalized and is unable to pay the bill.
§ 222.31 Limits on disclosure of medical information.

(a) Scope. This section applies to banks that are members of the Federal Reserve System (other than national banks) and their respective operating subsidiaries, branches and agencies of foreign banks (other than Federal branches, Federal Agencies, and insured State branches of foreign banks), commercial lending companies owned or controlled by foreign banks, organizations operating under section 25 or 25A of the Federal Reserve Act (12 U.S.C. 601 et seq., and 611 et seq.), and bank holding companies and affiliates of such holding companies (other than depository institutions and consumer reporting agencies).

(b) Limits on disclosure. If a person described in paragraph (a) of this section receives medical information about a consumer from a consumer reporting agency or its affiliate, the person must not disclose that information to any other person, except as necessary to carry out the purpose for which the information was initially disclosed, or as otherwise permitted by statute, regulation, or order.

§ 222.32 Sharing medical information with affiliates.

(a) Scope. This section applies to banks that are members of the Federal Reserve System (other than national banks) and their respective operating subsidiaries, branches and agencies of foreign banks (other than Federal branches, Federal Agencies, and insured State branches of foreign banks), commercial lending companies owned or controlled by foreign banks, organizations operating under section 25 or 25A of the Federal Reserve Act (12 U.S.C. 601 et seq., and 611 et seq.).

(b) In general. The exclusions from the term “consumer report” in section 603(d)(2) of the Act that allow the sharing of information with affiliates do not apply to a person described in paragraph (a) of this section if that person communicates to an affiliate:

(1) Medical information;

(2) An individualized list or description based on the payment transactions of the consumer for medical products or services; or

(3) An aggregate list of identified consumers based on payment transactions for medical products or services.

(c) Exceptions. A person described in paragraph (a) of this section may rely on the exclusions from the term “consumer report” in section 603(d)(2) of the Act to communicate the information in paragraph (b) of this section to an affiliate:

(1) In connection with the business of insurance or annuities (including the activities described in section 18B of the model Privacy of Consumer Financial and Health Information Regulation issued by the National Association of Insurance Commissioners, as in effect on January 1, 2003);

(2) For any purpose permitted without authorization under the regulations promulgated by the Department of Health and Human Services pursuant to the Health Insurance Portability and Accountability Act of 1996 (HIPAA);

(3) For any purpose referred to in section 1179 of HIPAA;

(4) For any purpose described in section 502(e) of the Gramm-Leach-Bliley Act;

(5) In connection with a determination of the consumer’s eligibility, or continued eligibility, for credit consistent with §222.30 of this part; or

(6) As otherwise permitted by order of the Board.

Subparts E–H [Reserved]
§ 222.80–222.81 [Reserved]

§ 222.82 Duties of users regarding address discrepancies.

(a) Scope. This section applies to a user of consumer reports (user) that receives a notice of address discrepancy from a consumer reporting agency, and that is a member bank of the Federal Reserve System (other than a national bank) and its respective operating subsidiaries, a branch or agency of a foreign bank (other than a Federal branch, Federal agency, or insured State branch of a foreign bank), commercial lending company owned or controlled by a foreign bank, and an organization operating under section 25 or 25A of the Federal Reserve Act (12 U.S.C. 601 et seq., and 611 et seq.).

(b) Definition. For purposes of this section, a notice of address discrepancy means a notice sent to a user by a consumer reporting agency pursuant to 15 U.S.C. 1681c(h)(1), that informs the user of a substantial difference between the address for the consumer that the user provided to request the consumer report and the address(es) in the agency’s file for the consumer.

(c) Reasonable belief—(1) Requirement to form a reasonable belief. A user must develop and implement reasonable policies and procedures designed to enable the user to form a reasonable belief that a consumer report relates to the consumer about whom it has requested the report, when the user receives a notice of address discrepancy.

(2) Examples of reasonable policies and procedures. (i) Comparing the information in the consumer report provided by the consumer reporting agency with information the user:
(A) Obtains and uses to verify the consumer’s identity in accordance with the requirements of the Customer Information Program (CIP) rules implementing 31 U.S.C. 5318(l) (31 CFR 103.121);
(B) Maintains in its own records, such as applications, change of address notifications, other customer account records, or retained CIP documentation; or
(C) Obtains from third-party sources; or
(ii) Verifying the information in the consumer report provided by the consumer reporting agency with the consumer:
(i) Can form a reasonable belief that the consumer report relates to the consumer about whom the user requested the report;
(ii) Establishes a continuing relationship with the consumer; and
(iii) Regularly and in the ordinary course of business furnishes information to the consumer reporting agency from which the notice of address discrepancy relating to the consumer was obtained.

(2) Examples of confirmation methods. The user may reasonably confirm an address is accurate by:
(i) Verifying the address with the consumer about whom it has requested the report;
(ii) Reviewing its own records to verify the address of the consumer;
(iii) Verifying the address through third-party sources; or
(iv) Using other reasonable means.

(3) Timing. The policies and procedures developed in accordance with paragraph (d)(1) of this section must provide that the user will furnish the consumer’s address that the user has reasonably confirmed is accurate to the consumer reporting agency as part of the information it regularly furnishes for the reporting period in which it establishes a relationship with the consumer.

[Reg. V, 72 FR 63756, Nov. 9, 2007]

§ 222.83 Disposal of consumer information.

(a) Definitions as used in this section.
(1) You means member banks of the Federal Reserve System (other than national banks) and their respective operating subsidiaries, branches and agencies of foreign banks (other than Federal branches, Federal agencies and insured State branches of foreign banks), commercial lending companies

77
owned or controlled by foreign banks, and organizations operating under section 25 or 25A of the Federal Reserve Act (12 U.S.C. 601 et seq., 611 et seq.).

(b) In general. You must properly dispose of any consumer information that you maintain or otherwise possess in accordance with the Interagency Guidelines Establishing Information Security Standards, as required under sections 208.3(d) (Regulation H), 211.5(1) and 211.24(i) (Regulation K) of this chapter, to the extent that you are covered by the scope of the Guidelines.

(c) Rule of construction. Nothing in this section shall be construed to:

(1) Require you to maintain or destroy any record pertaining to a consumer that is not imposed under any other law; or

(2) Alter or affect any requirement imposed under any other provision of law to maintain or destroy such a record.

Subpart J—Identity Theft Red Flags

SOURCE: Reg. V, 72 FR 63758, Nov. 9, 2007, unless otherwise noted.

§ 222.90 Duties regarding the detection, prevention, and mitigation of identity theft.

(a) Scope. This section applies to financial institutions and creditors that are member banks of the Federal Reserve System (other than national banks) and their respective operating subsidiaries, branches and agencies of foreign banks (other than Federal branches, Federal agencies, and insured State branches of foreign banks), commercial lending companies owned or controlled by foreign banks, and organizations operating under section 25 or 25A of the Federal Reserve Act (12 U.S.C. 601 et seq., and 611 et seq.).

(b) Definitions. For purposes of this section and appendix J, the following definitions apply:

(1) Account means a continuing relationship established by a person with a financial institution or creditor to obtain a product or service for personal, family, household or business purposes. Account includes:

(i) An extension of credit, such as the purchase of property or services involving a deferred payment; and

(ii) A deposit account.

(2) The term board of directors includes:

(i) In the case of a branch or agency of a foreign bank, the managing official in charge of the branch or agency; and

(ii) In the case of any other creditor that does not have a board of directors, a designated employee at the level of senior management.

(3) Covered account means:

(i) An account that a financial institution or creditor offers or maintains, primarily for personal, family, or household purposes, that involves or is designed to permit multiple payments or transactions, such as a credit card account, mortgage loan, automobile loan, margin account, cell phone account, utility account, checking account, or savings account; and

(ii) Any other account that the financial institution or creditor offers or maintains for which there is a reasonably foreseeable risk to customers or to the safety and soundness of the financial institution or creditor from identity theft, including financial, operational, compliance, reputation, or litigation risks.

(4) Credit has the same meaning as in 15 U.S.C. 1681a(r)(5).

(5) Creditor has the same meaning as in 15 U.S.C. 1681a(r)(5), and includes lenders such as banks, finance companies, automobile dealers, mortgage brokers, utility companies, and telecommunications companies.

(6) Customer means a person that has a covered account with a financial institution or creditor.

(7) Financial institution has the same meaning as in 15 U.S.C. 1681a(t).

(8) Identity theft has the same meaning as in 16 CFR 603.2(a).

(9) Red Flag means a pattern, practice, or specific activity that indicates the possible existence of identity theft.

(10) Service provider means a person that provides a service directly to the financial institution or creditor.

(c) Periodic Identification of Covered Accounts. Each financial institution or creditor must periodically determine whether it offers or maintains covered accounts. As a part of this determination, a financial institution or creditor
must conduct a risk assessment to determine whether it offers or maintains covered accounts described in paragraph (b)(3)(ii) of this section, taking into consideration:

(1) The methods it provides to open its accounts;
(2) The methods it provides to access its accounts; and
(3) Its previous experiences with identity theft.

(d) Establishment of an Identity Theft Prevention Program—(1) Program requirement. Each financial institution or creditor that offers or maintains one or more covered accounts must develop and implement a written Identity Theft Prevention Program (Program) that is designed to detect, prevent, and mitigate identity theft in connection with the opening of a covered account or any existing covered account. The Program must be appropriate to the size and complexity of the financial institution or creditor and the nature and scope of its activities.

(2) Elements of the Program. The Program must include reasonable policies and procedures to:

(i) Identify relevant Red Flags for the covered accounts that the financial institution or creditor offers or maintains, and incorporate those Red Flags into its Program;
(ii) Detect Red Flags that have been incorporated into the Program of the financial institution or creditor;
(iii) Respond appropriately to any Red Flags that are detected pursuant to paragraph (d)(2)(ii) of this section to prevent and mitigate identity theft; and
(iv) Ensure the Program (including the Red Flags determined to be relevant) is updated periodically, to reflect changes in risks to customers and to the safety and soundness of the financial institution or creditor from identity theft.

(e) Administration of the Program. Each financial institution or creditor that is required to implement a Program must provide for the continued administration of the Program and must:

(1) Obtain approval of the initial written Program from either its board of directors or an appropriate committee of the board of directors;
(2) Involve the board of directors, an appropriate committee thereof, or a designated employee at the level of senior management in the oversight, development, implementation and administration of the Program;
(3) Train staff, as necessary, to effectively implement the Program; and
(4) Exercise appropriate and effective oversight of service provider arrangements.

(f) Guidelines. Each financial institution or creditor that is required to implement a Program must consider the guidelines in appendix J of this part and include in its Program those guidelines that are appropriate.

§ 222.91 Duties of card issuers regarding changes of address.

(a) Scope. This section applies to a person described in §222.90(a) that issues a debit or credit card (card issuer).

(b) Definitions. For purposes of this section:

(1) Cardholder means a consumer who has been issued a credit or debit card.
(2) Clear and conspicuous means reasonably understandable and designed to call attention to the nature and significance of the information presented.
(c) Address validation requirements. A card issuer must establish and implement reasonable policies and procedures to assess the validity of a change of address if it receives notification of a change of address for a consumer’s debit or credit card account and, within a short period of time afterwards (during at least the first 30 days after it receives such notification), the card issuer receives a request for an additional or replacement card for the same account. Under these circumstances, the card issuer may not issue an additional or replacement card, until, in accordance with its reasonable policies and procedures and for the purpose of assessing the validity of the change of address, the card issuer:

(1)(i) Notifies the cardholder of the request: 
(A) At the cardholder’s former address; or
(B) By any other means of communication that the card issuer and the cardholder have previously agreed to use; and
(i) Provides to the cardholder a reasonable means of promptly reporting incorrect address changes; or

(2) Otherwise assesses the validity of the change of address in accordance with the policies and procedures the card issuer has established pursuant to §222.90 of this part.

(d) Alternative timing of address validation. A card issuer may satisfy the requirements of paragraph (c) of this section if it validates an address pursuant to the methods in paragraph (c)(1) or (c)(2) of this section when it receives an address change notification, before it receives a request for an additional or replacement card.

(e) Form of notice. Any written or electronic notice that the card issuer provides under this paragraph must be clear and conspicuous and provided separately from its regular correspondence with the cardholder.

APPENDIX A TO PART 222 [RESERVED]

APPENDIX B TO PART 222—MODEL NOTICES OF FURNISHING NEGATIVE INFORMATION

a. Although use of the model notices is not required, a financial institution that is subject to section 623(a)(7) of the FCRA shall be deemed to be in compliance with the notice requirement in section 623(a)(7) of the FCRA if the institution properly uses the model notices in this appendix (as applicable).

b. A financial institution may use Model Notice B-1 if the institution provides the notice prior to furnishing negative information to a nationwide consumer reporting agency.

c. A financial institution may use Model Notice B-2 if the institution provides the notice after furnishing negative information to a nationwide consumer reporting agency.

d. Financial institutions may make certain changes to the language or format of the model notices without losing the safe harbor that this appendix provides. Acceptable changes include, for example:

1. Rearranging the order of the references to “late payment(s),” or “missed payment(s)”.

2. Pluralizing the terms “credit bureau,” “credit report,” and “account”.

3. Specifying the particular type of account on which information may be furnished, such as “credit card account.”

4. Rearranging in Model Notice B-1 the phrases “information about your account” and “to credit bureaus” such that it would read “We may report to credit bureaus information about your account.”

Model Notice B-1
We may report information about your account to credit bureaus. Late payments, missed payments, or other defaults on your account may be reflected in your credit report.

Model Notice B-2
We have told a credit bureau about a late payment, missed payment or other default on your account. This information may be reflected in your credit report.

[69 FR 33285, June 15, 2004]

APPENDIX C TO PART 222—MODEL FORMS FOR OPT-OUT NOTICES

a. Although use of the model forms is not required, use of the model forms in this appendix (as applicable) complies with the requirement in section 624 of the Act for clear, conspicuous, and concise notices.

b. Certain changes may be made to the language or format of the model forms without losing the protection from liability afforded by use of the model forms. These changes may not be so extensive as to affect the substance, clarity, or meaningful sequence of the language in the model forms. Persons making such extensive revisions will lose the safe harbor that this appendix provides. Acceptable changes include, for example:

1. Rearranging the order of the references to “your income,” “your account history,” and “your credit score.”

2. Substituting other types of information for “income,” “account history,” or “credit score” for accuracy, such as “payment history,” “credit history,” “payoff status,” or “claims history.”

3. Substituting a clearer and more accurate description of the affiliates providing or covered by the notice for phrases such as the [ABC] group of companies, including without limitation a statement that the entity providing the notice recently purchased the consumer’s account.

4. Substituting other types of affiliates covered by the notice for “credit card,” “insurance,” or “securities” affiliates.

5. Omitting items that are not accurate or applicable. For example, if a person does not limit the duration of the opt-out period, the notice may omit information about the renewal notice.

6. Adding a statement informing consumers how much time they have to opt out.
Federal Reserve System

Pt. 222, App. C

before shared eligibility information may be used to make solicitations to them.

7. Adding a statement that the consumer may exercise the right to opt out at any time.

8. Adding the following statement, if accurate: “If you previously opted out, you do not need to do so again.”

9. Providing a place on the form for the consumer to fill in identifying information, such as his or her name and address

C–1 Model Form for Initial Opt-out Notice (Single-Affiliate Notice)
C–2 Model Form for Initial Opt-out Notice (Joint Notice)
C–3 Model Form for Renewal Notice (Single-Affiliate Notice)
C–4 Model Form for Renewal Notice (Joint Notice)
C–5 Model Form for Voluntary “No Marketing” Notice

C–1—Model Form for Initial Opt-out Notice (Single-Affiliate Notice)—[Your Choice To Limit Marketing][Marketing Opt-out]

• [Name of Affiliate] is providing this notice.

• [Optional: Federal law gives you the right to limit some but not all marketing from our affiliates. Federal law also requires us to give you this notice to tell you about your choice to limit marketing from our affiliates.]

• You may limit our affiliates in the [ABC group of companies], such as our [credit card, insurance, and securities] affiliates, from marketing their products or services to you based on your personal information that we collect and share with them. This information includes your [income], your [account history], and your [credit score].

• Your choice to limit marketing offers from our affiliates will apply [until you tell us to change your choice]/[for x years from when you tell us your choice]/[for at least 5 years from when you tell us your choice]. [Include if the opt-out period expires.] Once that period expires, you will receive a renewal notice that will allow you to continue to limit marketing offers from the [ABC companies] for [another x years]/[at least another 5 years].

• [Include, if applicable, in a subsequent notice, including an annual notice, for consumers who may have previously opted out.] If you have already made a choice to limit marketing offers from our affiliates, you do not need to act again until you receive the renewal notice.

To limit marketing offers, contact us [include all that apply]:

• By telephone: 1–877–###–####
• On the Web: www.---.com
• By mail: Check the box and complete the form below, and send the form to:

[Company address]

Do not allow your affiliates to use my personal information to market to me.

C–2—Model Form for Initial Opt-out Notice (Joint Notice)—[Your Choice To Limit Marketing][Marketing Opt-out]

• The [ABC group of companies] is providing this notice.

• [Optional: Federal law gives you the right to limit some but not all marketing from the [ABC companies]. Federal law also requires us to give you this notice to tell you about your choice to limit marketing from the [ABC companies].]

• You may limit the [ABC companies], such as the [ABC credit card, insurance, and securities] affiliates, from marketing their products or services to you based on your personal information that they receive from other [ABC companies]. This information includes your [income], your [account history], and your [credit score].

• Your choice to limit marketing offers from the [ABC companies] will apply [until you tell us to change your choice]/[for x years from when you tell us your choice]/[for at least 5 years from when you tell us your choice]. [Include if the opt-out period expires.] Once that period expires, you will receive a renewal notice that will allow you to continue to limit marketing offers from the [ABC companies] for [another x years]/[at least another 5 years].

• [Include, if applicable, in a subsequent notice, including an annual notice, for consumers who may have previously opted out.] If you have already made a choice to limit marketing offers from the [ABC companies], you do not need to act again until you receive the renewal notice.

To limit marketing offers, contact us [include all that apply]:

• By telephone: 1–877–###–####
• On the Web: www.---.com
• By mail: Check the box and complete the form below, and send the form to:

[Company name]

Do not allow any company [in the ABC group of companies] to use my personal information to market to me.

C–3—Model Form for Renewal Notice (Single-Affiliate Notice)—[Renewing Your Choice To Limit Marketing][Renewing Your Marketing Opt-Out]

• [Name of Affiliate] is providing this notice.

• [Optional: Federal law gives you the right to limit some but not all marketing from our affiliates. Federal law also requires us to give you this notice to tell you about your choice to limit marketing from our affiliates.]
To stop all marketing, contact us [include all that apply]:
• By telephone: 1-877-####-####
• On the Web: www.---.com
• By mail: Check the box and complete the form below, and send the form to:
  [Company name]
  [Company address]
  Do not market to me.

[72 FR 62962, Nov. 7, 2007]

APPENDIX J TO PART 222
[RESERVED]

APPENDIX J TO PART 222—INTERAGENCY GUIDELINES ON IDENTITY THEFT DETECTION, PREVENTION, AND MITIGATION

Section 222.90 of this part requires each financial institution and creditor that offers or maintains one or more covered accounts, as defined in §222.90(b)(3) of this part, to develop and provide for the continued administration of a written Program to detect, prevent, and mitigate identity theft in connection with the opening of a covered account or any existing covered account. These guidelines are intended to assist financial institutions and creditors in the formulation and maintenance of a Program that satisfies the requirements of §222.90 of this part.

I. The Program

In designing its Program, a financial institution or creditor may incorporate, as appropriate, its existing policies, procedures, and other arrangements that control reasonably foreseeable risks to customers or to the safety and soundness of the financial institution or creditor from identity theft.

II. Identifying Relevant Red Flags

(a) Risk Factors. A financial institution or creditor should consider the following factors in identifying relevant Red Flags for covered accounts, as appropriate:

(1) The types of covered accounts it offers or maintains;
(2) The methods it provides to open its covered accounts;
(3) The methods it provides to access its covered accounts; and
(4) Its previous experiences with identity theft.

(b) Sources of Red Flags. Financial institutions and creditors should incorporate relevant Red Flags from sources such as:

(1) Incidents of identity theft that the financial institution or creditor has experienced;
(2) Methods of identity theft that the financial institution or creditor has identified that reflect changes in identity theft risks; and

(3) [Additional sources as appropriate]
Federal Reserve System

(3) Applicable supervisory guidance.
(c) Categories of Red Flags. The Program should include relevant Red Flags from the following categories, as appropriate. Examples of Red Flags from each of these categories are appended as Supplement A to this appendix J.
1. Alerts, notifications, or other warnings received from consumer reporting agencies or service providers, such as fraud detection services;
2. The presentation of suspicious documents;
3. The presentation of suspicious personal identifying information, such as a suspicious address change;
4. The unusual use of, or other suspicious activity related to, a covered account; and
5. Notice from customers, victims of identity theft, law enforcement authorities, or other persons regarding possible identity theft in connection with covered accounts held by the financial institution or creditor.

III. Detecting Red Flags

The Program’s policies and procedures should address the detection of Red Flags in connection with the opening of covered accounts and existing covered accounts, such as by:
(a) Obtaining identifying information about, and verifying the identity of, a person opening a covered account, for example, using the policies and procedures regarding identification and verification set forth in the Customer Identification Program rules implementing 31 U.S.C. 5318(i) (31 CFR 103.121); and
(b) Authenticating customers, monitoring transactions, and verifying the validity of change of address requests, in the case of existing covered accounts.

IV. Preventing and Mitigating Identity Theft

The Program’s policies and procedures should provide for appropriate responses to the Red Flags the financial institution or creditor has detected that are commensurate with the degree of risk posed. In determining an appropriate response, a financial institution or creditor should consider aggravating factors that may heighten the risk of identity theft, such as a data security incident that results in unauthorized access to a customer’s account records held by the financial institution, creditor, or third party, or notice that a customer has provided information related to a covered account held by the financial institution or creditor to someone fraudulently claiming to represent the financial institution or creditor to or a fraudulent website. Appropriate responses may include the following:
(a) Monitoring a covered account for evidence of identity theft;
(b) Contacting the customer;
(c) Changing any passwords, security codes, or other security devices that permit access to a covered account;
(d) Reopening a covered account with a new account number;
(e) Not opening a new covered account;
(f) Closing an existing covered account;
(g) Not attempting to collect on a covered account or not selling a covered account to a debt collector;
(h) Notifying law enforcement; or
(i) Determining that no response is warranted under the particular circumstances.

V. Updating the Program

Financial institutions and creditors should update the Program (including the Red Flags determined to be relevant) periodically, to reflect changes in risks to customers or to the safety and soundness of the financial institution or creditor from identity theft, based on factors such as:
(a) The experiences of the financial institution or creditor with identity theft;
(b) Changes in methods of identity theft;
(c) Changes in methods to detect, prevent, and mitigate identity theft;
(d) Changes in the types of accounts that the financial institution or creditor offers or maintains; and
(e) Changes in the business arrangements of the financial institution or creditor, including mergers, acquisitions, alliances, joint ventures, and service provider arrangements.

VI. Methods for Administering the Program

(a) Oversight of Program. Oversight by the board of directors, an appropriate committee of the board, or a designated employee at the level of senior management should include:
(1) Assigning specific responsibility for the Program’s implementation;
(2) Reviewing reports prepared by staff regarding compliance by the financial institution or creditor with §222.60 of this part; and
(3) Approving material changes to the Program as necessary to address changing identity theft risks.
(b) Reports. (1) In general. Staff of the financial institution or creditor responsible for development, implementation, and administration of its Program should report to the board of directors, an appropriate committee of the board, or a designated employee at the level of senior management, at least annually, on compliance by the financial institution or creditor with §222.60 of this part.
(2) Contents of report. The report should address material matters related to the Program and evaluate issues such as: the effectiveness of the policies and procedures of the financial institution or creditor in addressing the risk of identity theft in connection with the opening of covered accounts and with respect to existing covered accounts;
service provider arrangements; significant incidents involving identity theft and management’s response; and recommendations for material changes to the Program.

(c) *Oversight of service provider arrangements.* Whenever a financial institution or creditor engages a service provider to perform an activity in connection with one or more covered accounts the financial institution or creditor should take steps to ensure that the activity of the service provider is conducted in accordance with reasonable policies and procedures designed to detect, prevent, and mitigate the risk of identity theft. For example, a financial institution or creditor could require the service provider by contract to have policies and procedures to detect relevant Red Flags that may arise in the performance of the service provider’s activities, and either report the Red Flags to the financial institution or creditor, or to take appropriate steps to prevent or mitigate identity theft.

VII. Other Applicable Legal Requirements

Financial institutions and creditors should be mindful of other related legal requirements that may be applicable, such as:

(a) For financial institutions and creditors that are subject to 31 U.S.C. 5318(g), filing a Suspicious Activity Report in accordance with applicable law and regulation;

(b) Implementing any requirements under 15 U.S.C. 1681c–1(h) regarding the circumstances under which credit may be extended when the financial institution or creditor detects a fraud or active duty alert;

(c) Implementing any requirements for furnishers of information to consumer reporting agencies under 15 U.S.C. 1681m, for example, to correct or update inaccurate or incomplete information, and to not report information that the furnisher has reasonable cause to believe is inaccurate; and

(d) Complying with the prohibitions in 15 U.S.C. 1681m on the sale, transfer, and placement for collection of certain debts resulting from identity theft.

Supplement A to Appendix J

In addition to incorporating Red Flags from the sources recommended in section II.b. of the Guidelines in appendix J of this part, each financial institution or creditor may consider incorporating into its Program, whether singly or in combination, Red Flags from the following illustrative examples in connection with covered accounts:

*Alerts, Notifications or Warnings from a Consumer Reporting Agency*

1. A fraud or active duty alert is included with a consumer report.

2. A consumer reporting agency provides a notice of credit freeze in response to a request for a consumer report.

3. A consumer reporting agency provides a notice of address discrepancy, as defined in §222.82(b) of this part.

4. A consumer report indicates a pattern of activity that is inconsistent with the history and usual pattern of activity of an applicant or customer, such as:

a. A recent and significant increase in the volume of inquiries;

b. An unusual number of recently established credit relationships;

c. A material change in the use of credit, especially with respect to recently established credit relationships; or

d. An account that was closed for cause or identified for abuse of account privileges by a financial institution or creditor.

*Suspicious Documents*

5. Documents provided for identification appear to have been altered or forged.

6. The photograph or physical description on the identification is not consistent with the appearance of the applicant or customer presenting the identification.

7. Other information on the identification is not consistent with information provided by the person opening a new covered account or customer presenting the identification.

8. Other information on the identification is not consistent with readily accessible information that is on file with the financial institution or creditor, such as a signature card or a recent check.

9. An application appears to have been altered or forged, or gives the appearance of having been destroyed and reassembled.

*Suspicious Personal Identifying Information*

10. Personal identifying information provided is inconsistent when compared against external information sources used by the financial institution or creditor. For example:

a. The address does not match any address in the consumer report; or

b. The Social Security Number (SSN) has not been issued, or is listed on the Social Security Administration’s Death Master File.

11. Personal identifying information provided by the customer is not consistent with other personal identifying information provided by the customer. For example, there is a lack of correlation between the SSN range and date of birth.

12. Personal identifying information provided is associated with known fraudulent activity as indicated by internal or third-party sources used by the financial institution or creditor. For example:

a. The address on an application is the same as the address provided on a fraudulent application; or

b. The phone number on an application is the same as the number provided on a fraudulent application.
Federal Reserve System

13. Personal identifying information provided is of a type commonly associated with fraudulent activity as indicated by internal or third-party sources used by the financial institution or creditor. For example:
   a. The address on an application is fictitious, a mail drop, or a prison; or
   b. The phone number is invalid, or is associated with a pager or answering service.
14. The SSN provided is the same as that submitted by other persons opening an account or other customers.
15. The address or telephone number provided is the same as or similar to the account number or telephone number submitted by an unusually large number of other persons opening accounts or other customers.
16. The person opening the covered account or the customer fails to provide all required personal identifying information on an application or in response to notification that the application is incomplete.
17. Personal identifying information provided is not consistent with personal identifying information that is on file with the financial institution or creditor.
18. For financial institutions and creditors that use challenge questions, the person opening the covered account or the customer cannot provide authenticating information beyond that which generally would be available from a wallet or consumer report.

Unusual Use of, or Suspicious Activity Related to, the Covered Account

19. Shortly following the notice of a change of address for a covered account, the institution or creditor receives a request for a new, additional, or replacement card or a cell phone, or for the addition of authorized users on the account.
20. A new revolving credit account is used in a manner commonly associated with known patterns of fraud patterns. For example:
   a. The majority of available credit is used for cash advances or merchandise that is easily convertible to cash (e.g., electronics equipment or jewelry); or
   b. The customer fails to make the first payment or makes an initial payment but no subsequent payments.
21. A covered account is used in a manner that is not consistent with established patterns of activity on the account. There is, for example:
   a. Nonpayment when there is no history of late or missed payments;
   b. A material increase in the use of available credit;
   c. A material change in purchasing or spending patterns;
   d. A material change in electronic fund transfer patterns in connection with a deposit account; or
   e. A material change in telephone call patterns in connection with a cellular phone account.
22. A covered account that has been inactive for a reasonably lengthy period of time is used (taking into consideration the type of account, the expected pattern of usage and other relevant factors).
23. Mail sent to the customer is returned repeatedly as undeliverable although transactions continue to be conducted in connection with the customer’s covered account.
24. The financial institution or creditor is notified that the customer is not receiving paper account statements.
25. The financial institution or creditor is notified of unauthorized charges or transactions in connection with a customer’s covered account.

Notice from Customers, Victims of Identity Theft, Law Enforcement Authorities, or Other Persons Regarding Possible Identity Theft in Connection with Covered Accounts Held by the Financial Institution or Creditor

26. The financial institution or creditor is notified by a customer, a victim of identity theft, a law enforcement authority, or any other person that it has opened a fraudulent account for a person engaged in identity theft.

[Reg. V. 72 FR 63758, Nov. 9, 2007]

PART 223—TRANSACTIONS BETWEEN MEMBER BANKS AND THEIR AFFILIATES (REGULATION W)

Subpart A—Introduction and Definitions

Sec.
223.1 Authority, purpose, and scope.
223.2 What is an “affiliate” for purposes of sections 23A and 23B and this part?
223.3 What are the meanings of the other terms used in sections 23A and 23B and this part?

Subpart B—General Provisions of Section 23A

223.11 What is the maximum amount of covered transactions that a member bank may enter into with any single affiliate?
223.12 What is the maximum amount of covered transactions that a member bank may enter into with all affiliates?
223.13 What safety and soundness requirement applies to covered transactions?
223.14 What are the collateral requirements for a credit transaction with an affiliate?
223.15 May a member bank purchase a low-quality asset from an affiliate?
§ 223.1 Authority, purpose, and scope.

(1) Authority. The Board of Governors of the Federal Reserve System (Board) has issued this part (Regulation W) under the authority of sections 23A(f) and 23B(e) of the Federal Reserve Act (12 U.S.C. 371c(f), 371c–1(e)).

(2) Purpose. Sections 23A and 23B of the Federal Reserve Act (12 U.S.C. 371c, 371c–1) establish certain quantitative limits and other prudential requirements for loans, purchases of assets, and certain other transactions between a member bank and its affiliates. This regulation implements sections 23A and 23B by defining terms used in the statute, explaining the statute’s requirements, and exempting certain transactions.

(3) Scope. Sections 23A and 23B and this regulation apply by their terms to “member banks”—that is, any national bank, State bank, trust company, or other institution that is a member of the Federal Reserve System. In addition, the Federal Deposit Insurance Act (12 U.S.C. 1828(j)) applies sections 23A and 23B to insured State nonmember banks in the same manner and to the same extent as if they were member banks. The Home Owners’ Loan Act (12 U.S.C. 1468(a)) also applies sections 23A and 23B to insured savings associations in the same manner and to
§ 223.2 What is an “affiliate” for purposes of sections 23A and 23B and this part?

(a) For purposes of this part and except as provided in paragraphs (b) and (c) of this section, “affiliate” with respect to a member bank means:

(1) **Parent companies.** Any company that controls the member bank;

(2) **Companies under common control by a parent company.** Any company, including any subsidiary of the member bank, that is controlled by a company that controls the member bank;

(3) **Companies under other common control.** Any company, including any subsidiary of the member bank, that is controlled, directly or indirectly, by trust or otherwise, by or for the benefit of shareholders who beneficially or otherwise control, directly or indirectly, by trust or otherwise, the member bank or any company that controls the member bank;

(4) **Companies with interlocking directorates.** Any company in which a majority of its directors, trustees, or general partners (or individuals exercising similar functions) constitute a majority of the persons holding any such office with the member bank or any company that controls the member bank;

(5) **Sponsored and advised companies.** Any company, including a real estate investment trust, that is sponsored and advised on a contractual basis by the member bank or an affiliate of the member bank;

(6) **Investment companies.** (i) Any investment company for which the member bank or any affiliate of the member bank serves as an investment adviser, as defined in section 2(a)(20) of the Investment Company Act of 1940 (15 U.S.C. 80a–2(a)(20)); and

(ii) Any other investment fund for which the member bank or any affiliate of the member bank serves as an investment advisor, if the member bank and its affiliates own or control in the aggregate more than 5 percent of any class of voting securities or of the equity capital of the fund;

(7) **Depository institution subsidiaries.** A depository institution that is a subsidiary of the member bank;

(8) **Financial subsidiaries.** A financial subsidiary of the member bank;

(9) **Companies held under merchant banking or insurance company investment authority.**—(i) **In general.** Any company in which a holding company of the member bank owns or controls, directly or indirectly, or acting through one or more other persons, 15 percent or more of the equity capital pursuant to section 4(k)(4)(H) or (I) of the Bank Holding Company Act (12 U.S.C. 1843(k)(4)(H) or (I)).

(ii) **General exemption.** A company will not be an affiliate under paragraph (a)(9)(i) of this section if the holding company presents information to the Board that demonstrates, to the Board’s satisfaction, that the holding company does not control the company.

(iii) **Specific exemptions.** A company also will not be an affiliate under paragraph (a)(9)(i) of this section if:

(A) No director, officer, or employee of the holding company serves as a director, trustee, or general partner (or individual exercising similar functions) of the company;

(B) A person that is not affiliated or associated with the holding company owns or controls a greater percentage of the equity capital of the company than is owned or controlled by the holding company, and no more than one officer or employee of the holding company serves as a director or trustee (or individual exercising similar functions) of the company; or

(C) A person that is not affiliated or associated with the holding company owns or controls more than 50 percent of the voting shares of the company, and officers and employees of the holding company do not constitute a majority of the directors or trustees (or individuals exercising similar functions) of the company.

(iv) **Application of rule to private equity funds.** A holding company will not be deemed to own or control the equity capital of a company for purposes of paragraph (a)(9)(i) of this section solely by virtue of an investment made by the holding company in a private equity funds.
§ 223.3

For purposes of this part:

(a) Aggregate amount of covered transactions means the amount of the covered transaction about to be engaged in added to the current amount of all outstanding covered transactions.

(b) Appropriate Federal banking agency with respect to a member bank or other depository institution has the same meaning as in section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813).

(c) “Bank holding company” has the same meaning as in 12 CFR 225.2.

(d) “Capital stock and surplus” means the sum of:

(1) Subsidiaries. Any company that is a subsidiary of the member bank, unless the company is:

   (i) A depository institution;

   (ii) A financial subsidiary;

   (iii) Directly controlled by:

   (A) One or more affiliates (other than depository institution affiliates) of the member bank; or

   (B) A shareholder that controls the member bank or a group of shareholders that together control the member bank;

   (iv) An employee stock option plan, trust, or similar organization that exists for the benefit of the shareholders, partners, members, or employees of the member bank or any of its affiliates; or

   (v) Any other company determined to be an affiliate under paragraph (a)(12) of this section;

   (2) Bank premises. Any company engaged solely in holding the premises of the member bank;

   (3) Safe deposit. Any company engaged solely in conducting a safe deposit business;

   (4) Government securities. Any company engaged solely in holding obligations of the United States or its agencies or obligations fully guaranteed by the United States or its agencies as to principal and interest; and

   (5) Companies held DPC. Any company where control results from the exercise of rights arising out of a bona fide debt previously contracted. This exclusion from the definition of “affiliate” applies only for the period of time specifically authorized under applicable State or Federal law or regulation or, in the absence of such law or regulation, for a period of two years from the date of the exercise of such rights. The Board may authorize, upon application and for good cause shown, extensions of time for not more than one year at a time, but such extensions in the aggregate will not exceed three years.

(c) For purposes of subpart F (implementing section 23B), “affiliate” with respect to a member bank also does not include any depository institution.

§ 223.3 What are the meanings of the other terms used in sections 23A and 23B and this part?

For purposes of this part:

(a) Aggregate amount of covered transactions means the amount of the covered transaction about to be engaged in added to the current amount of all outstanding covered transactions.

(b) Appropriate Federal banking agency with respect to a member bank or other depository institution has the same meaning as in section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813).

(c) “Bank holding company” has the same meaning as in 12 CFR 225.2.

(d) “Capital stock and surplus” means the sum of:
Federal Reserve System § 223.3

(1) A member bank’s tier 1 and tier 2 capital under the risk-based capital guidelines of the appropriate Federal banking agency, based on the member bank’s most recent consolidated Report of Condition and Income filed under 12 U.S.C. 1817(a)(3);

(2) The balance of a member bank’s allowance for loan and lease losses not included in its tier 2 capital under the risk-based capital guidelines of the appropriate Federal banking agency, based on the member bank’s most recent consolidated Report of Condition and Income filed under 12 U.S.C. 1817(a)(3); and

(3) The amount of any investment by a member bank in a financial subsidiary that counts as a covered transaction and is required to be deducted from the member bank’s capital for regulatory capital purposes.

(e) Carrying value with respect to a security means (unless otherwise provided) the value of the security on the financial statements of the member bank, determined in accordance with GAAP.

(f) Company means a corporation, partnership, limited liability company, business trust, association, or similar organization and, unless specifically excluded, includes a member bank and a depository institution.

(g) Control—(1) In general. ‘‘Control’’ by a company or shareholder over another company means that:

(i) The company or shareholder, directly or indirectly, or acting through one or more other persons, owns, controls, or has power to vote 25 percent or more of any class of voting securities of the other company;

(ii) The company or shareholder controls in any manner the election of a majority of the directors, trustees, or general partners (or individuals exercising similar functions) of the other company; or

(iii) The Board determines, after notice and opportunity for hearing, that the company or shareholder, directly or indirectly, exercises a controlling influence over the management or policies of the other company.

(2) Ownership or control of shares as fiduciary. Notwithstanding any other provision of this regulation, no company will be deemed to control another company by virtue of its ownership or control of shares in a fiduciary capacity, except as provided in paragraph (a)(3) of §223.2 or if the company owning or controlling the shares is a business trust.

(3) Ownership or control of securities by subsidiary. A company controls securities, assets, or other ownership interests owned or controlled, directly or indirectly, by any subsidiary (including a subsidiary depository institution) of the company.

(4) Ownership or control of convertible instruments. A company or shareholder that owns or controls instruments (including options or warrants) that are convertible or exercisable, at the option of the holder or owner, into securities, controls the securities, unless the company or shareholder presents information to the Board that demonstrates, to the Board’s satisfaction, that the company or shareholder should not be deemed to control the securities.

(5) Ownership or control of nonvoting securities. A company or shareholder that owns or controls 25 percent or more of the equity capital of another company controls the other company, unless the company or shareholder presents information to the Board that demonstrates, to the Board’s satisfaction, that the company or shareholder does not control the other company.

(h) Covered transaction with respect to an affiliate means:

(1) An extension of credit to the affiliate;

(2) A purchase of, or an investment in, a security issued by the affiliate;

(3) A purchase of an asset from the affiliate, including an asset subject to recourse or an agreement to repurchase, except such purchases of real and personal property as may be specifically exempted by the Board by order or regulation;

(4) The acceptance of a security issued by the affiliate as collateral for an extension of credit to any person or company; and

(5) The issuance of a guarantee, acceptance, or letter of credit, including an endorsement or standby letter of credit, on behalf of the affiliate, a confirmation of a letter of credit issued by
§ 223.3 12 CFR Ch. II (1–1–09 Edition)

the affiliate, and a cross-affiliate netting arrangement.

(i) Credit transaction with an affiliate means:

(1) An extension of credit to the affiliate;

(2) An issuance of a guarantee, acceptance, or letter of credit, including an endorsement or standby letter of credit, on behalf of the affiliate and a confirmation of a letter of credit issued by the affiliate; and

(3) A cross-affiliate netting arrangement.

(j) Cross-affiliate netting arrangement means an arrangement among a member bank, one or more affiliates of the member bank, and one or more nonaffiliates of the member bank in which:

(1) A nonaffiliate is permitted to deduct any obligations of an affiliate of the member bank to the nonaffiliate when settling the nonaffiliate's obligations to the member bank; or

(2) The member bank is permitted or required to add any obligations of its affiliate to a nonaffiliate when determining the member bank's obligations to the nonaffiliate.

(k) "Depository institution" means, unless otherwise noted, an insured depository institution (as defined in section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813)), but does not include any branch of a foreign bank. For purposes of this definition, an operating subsidiary of a depository institution is treated as part of the depository institution.

(l) "Derivative transaction" means any derivative contract listed in sections III.E.1.a. through d. of appendix A to 12 CFR part 225 and any similar derivative contract, including a credit derivative contract.

(m) "Eligible affiliated mutual fund securities" has the meaning specified in paragraph (c)(2) of § 223.24.

(n) "Equity capital" means:

(1) With respect to a corporation, preferred stock, common stock, capital surplus, retained earnings, and accumulated other comprehensive income, less treasury stock, plus any other account that constitutes equity of the corporation; and

(2) With respect to a partnership, limited liability company, or other company, equity accounts similar to those described in paragraph (n)(1) of this section.

(o) "Extension of credit" to an affiliate means the making or renewal of a loan, the granting of a line of credit, or the extending of credit in any manner whatsoever, including on an intraday basis, to an affiliate. An extension of credit to an affiliate includes, without limitation:

(1) An advance to an affiliate by means of an overdraft, cash item, or otherwise;

(2) A sale of Federal funds to an affiliate;

(3) A lease that is the functional equivalent of an extension of credit to an affiliate;

(4) An acquisition by purchase, discount, exchange, or otherwise of a note or other obligation, including commercial paper or other debt securities, of an affiliate;

(5) Any increase in the amount of, extension of the maturity of, or adjustment to the interest rate term or other material term of, an extension of credit to an affiliate; and

(6) Any other similar transaction as a result of which an affiliate becomes obligated to pay money (or its equivalent).

(p) "Financial subsidiary"

(1) In general. Except as provided in paragraph (p)(2) of this section, the term "financial subsidiary" means any subsidiary of a member bank that:

(i) Engages, directly or indirectly, in any activity that national banks are not permitted to engage in directly or that is conducted under terms and conditions that differ from those that govern the conduct of such activity by national banks; and

(ii) Is not a subsidiary that a national bank is specifically authorized to own or control by the express terms of a Federal statute (other than 12 U.S.C. 24a), and not by implication or interpretation.

(2) Exceptions. "Financial subsidiary" does not include:

(i) A subsidiary of a member bank that is considered a financial subsidiary under paragraph (p)(1) of this section solely because the subsidiary engages in the sale of insurance as agent or broker in a manner that is not permitted for national banks; and
(i) A subsidiary of a State bank (other than a subsidiary described in section 46(a) of the Federal Deposit Insurance Act (12 U.S.C. 1831w(a))) that is considered a financial subsidiary under paragraph (p)(1) of this section solely because the subsidiary engages in one or more of the following activities:

(A) An activity that the State bank may engage in directly under applicable Federal and State law and that is conducted under the same terms and conditions that govern the conduct of the activity by the State bank; and

(B) An activity that the subsidiary was authorized by applicable Federal and State law to engage in prior to December 12, 2002, and that was lawfully engaged in by the subsidiary on that date.

(3) Subsidiaries of financial subsidiaries. If a company is a financial subsidiary under paragraphs (p)(1) and (p)(2) of this section, any subsidiary of such a company is also a financial subsidiary.

(q) “Foreign bank” and an “agency,” “branch,” or “commercial lending company” of a foreign bank have the same meanings as in section 1(b) of the International Banking Act of 1978 (12 U.S.C. 3101).

(r) “GAAP” means U.S. generally accepted accounting principles.

(s) “General purpose credit card” has the meaning specified in paragraph (c)(4)(ii) of §223.16.

(t) In contemplation. A transaction between a member bank and a nonaffiliate is presumed to be “in contemplation” of the nonaffiliate becoming an affiliate of the member bank if the member bank enters into the transaction with the nonaffiliate after the execution of, or commencement of negotiations designed to result in, an agreement under the terms of which the nonaffiliate would become an affiliate.

(u) “Intraday extension of credit” has the meaning specified in paragraph (1)(2) of §223.42.

(v) “Low-quality asset” means:

(1) An asset (including a security) classified as “substandard,” “doubtful,” or “loss,” or treated as “special mention” or “other transfer risk problems,” either in the most recent report of examination or inspection of an affiliate prepared by either a Federal or State supervisory agency or in any internal classification system used by the member bank or the affiliate (including an asset that receives a rating that is substantially equivalent to “classified” or “special mention” in the internal system of the member bank or affiliate); and

(2) An asset in a nonaccrual status;

(3) An asset on which principal or interest payments are more than thirty days past due;

(4) An asset whose terms have been renegotiated or compromised due to the deteriorating financial condition of the obligor; and

(5) An asset acquired through foreclosure, repossession, or otherwise in satisfaction of a debt previously contracted, if the asset has not yet been reviewed in an examination or inspection.

(w) “Member bank” means any national bank, State bank, banking association, or trust company that is a member of the Federal Reserve System. For purposes of this definition, an operating subsidiary of a member bank is treated as part of the member bank.

(x) “Municipal securities” has the same meaning as in section 3(a)(29) of the Securities Exchange Act of 1934 (17 U.S.C. 78c(a)(29)).

(y) “Nonaffiliate” with respect to a member bank means any person that is not an affiliate of the member bank.

(z) “Obligations of, or fully guaranteed as to principal and interest by, the United States or its agencies” includes those obligations listed in 12 CFR 201.108(b) and any additional obligations as determined by the Board. The term does not include Federal Housing Administration or Veterans Administration loans.

(aa) “Operating subsidiary” with respect to a member bank or other depository institution means any subsidiary of the member bank or depository institution other than a subsidiary described in paragraphs (b)(1)(i) through (v) of §223.2.

(bb) “Person” means an individual, company, trust, joint venture, pool, syndicate, sole proprietorship, unincorporated organization, or any other form of entity.
§ 223.11 What is the maximum amount of covered transactions that a member bank may enter into with any single affiliate?

A member bank may not engage in a covered transaction with an affiliate (other than a financial subsidiary of the member bank) if the aggregate amount of the member bank’s covered transactions with that affiliate would exceed 10 percent of the capital stock and surplus of the member bank.

§ 223.12 What is the maximum amount of covered transactions that a member bank may enter into with all affiliates?

A member bank may not engage in a covered transaction with any affiliate if the aggregate amount of the member bank’s covered transactions with all affiliates would exceed 20 percent of the capital stock and surplus of the member bank.

§ 223.13 What safety and soundness requirement applies to covered transactions?

A member bank may not engage in any covered transaction, including any transaction exempt under this regulation, unless the transaction is on terms and conditions that are consistent with safe and sound banking practices.

§ 223.14 What are the collateral requirements for a credit transaction with an affiliate?

(a) Collateral required for extensions of credit and certain other covered transactions. A member bank must ensure that each of its credit transactions with an affiliate is secured by the amount of collateral required by paragraph (b) of this section at the time of the transaction.

(b) Amount of collateral required—(1) The rule. A credit transaction described in paragraph (a) of this section must be secured by collateral having a market value equal to at least:

(i) 100 percent of the amount of the transaction, if the collateral is:

(A) Obligations of the United States or its agencies;
(B) Obligations fully guaranteed by the United States or its agencies as to principal and interest;
(C) Notes, drafts, bills of exchange, or bankers' acceptances that are eligible for rediscount or purchase by a Federal Reserve Bank; or
(D) A segregated, earmarked deposit account with the member bank that is for the sole purpose of securing credit transactions between the member bank and its affiliates and is identified as such;
(ii) 110 percent of the amount of the transaction, if the collateral is obligations of any State or political subdivision of any State;
(iii) 120 percent of the amount of the transaction, if the collateral is other debt instruments, including loans and other receivables; or
(iv) 130 percent of the amount of the transaction, if the collateral is stock, leases, or other real or personal property.
(2) Example. A member bank makes a $1,000 loan to an affiliate. The affiliate posts as collateral for the loan $500 in U.S. Treasury securities, $480 in corporate debt securities, and $130 in real estate. The loan satisfies the collateral requirements of this section because $500 of the loan is 100 percent secured by obligations of the United States, $400 of the loan is 120 percent secured by debt instruments, and $100 of the loan is 130 percent secured by real estate.
(c) Ineligible collateral. The following items are not eligible collateral for purposes of this section:
(1) Low-quality assets;
(2) Securities issued by any affiliate;
(3) Equity securities issued by the member bank and debt securities issued by the member bank that represent regulatory capital of the member bank;
(4) Intangible assets (including servicing assets), unless specifically approved by the Board; and
(5) Guarantees, letters of credit, and other similar instruments.
(d) Perfection and priority requirements for collateral.—(1) Perfection. A member bank must maintain a security interest in collateral required by this section that is perfected and enforceable under applicable law, including in the event of default resulting from bankruptcy, insolvency, liquidation, or similar circumstances.
(2) Priority. A member bank either must obtain a first priority security interest in collateral required by this section or must deduct from the value of collateral obtained by the member bank the lesser of:
(i) The amount of any security interest in the collateral that is senior to that of the member bank; or
(ii) The amount of any credit secured by the collateral that is senior to that of the member bank.
(3) Example. A member bank makes a $2,000 loan to an affiliate. The affiliate grants the member bank a second priority security interest in a piece of real estate valued at $3,000. Another institution that previously lent $1,000 to the affiliate has a first priority security interest in the entire parcel of real estate. This transaction is not in compliance with the collateral requirements of this section. Due to the existence of the prior third-party lien on the real estate, the effective value of the real estate collateral for the member bank for purposes of this section is only $2,000—$600 less than the amount of real estate collateral required by this section for the transaction ($2,000 × 130 percent = $2,600).
(e) Replacement requirement for retired or amortized collateral. A member bank must ensure that any required collateral that subsequently is retired or amortized is replaced with additional eligible collateral as needed to keep the percentage of the collateral value relative to the amount of the outstanding credit transaction equal to the minimum percentage required at the inception of the transaction.
(f) Inapplicability of the collateral requirements to certain transactions. The collateral requirements of this section do not apply to the following transactions.
(1) Acceptances. An acceptance that already is fully secured either by attached documents or by other property that is involved in the transaction and has an ascertainable market value.
(2) The unused portion of certain extensions of credit. The unused portion of an extension of credit to an affiliate as long as the member bank does not have

93
any legal obligation to advance additional funds under the extension of credit until the affiliate provides the amount of collateral required by paragraph (b) of this section with respect to the entire used portion (including the amount of the requested advance) of the extension of credit.

(3) Purchases of affiliate debt securities in the secondary market. The purchase of a debt security issued by an affiliate as long as the member bank purchases the debt security from a nonaffiliate in a bona fide secondary market transaction.

§ 223.15 May a member bank purchase a low-quality asset from an affiliate?

(a) In general. A member bank may not purchase a low-quality asset from an affiliate unless, pursuant to an independent credit evaluation, the member bank had committed itself to purchase the asset before the time the asset was acquired by the affiliate.

(b) Exemption for renewals of loan participations involving problem loans. The prohibition contained in paragraph (a) of this section does not apply to the renewal of, or extension of additional credit with respect to, a member bank’s participation in a loan to a nonaffiliate that was originated by an affiliate if:

(1) The loan was not a low-quality asset at the time the member bank purchased its participation;

(2) The renewal or extension of additional credit is approved, as necessary to protect the participating member bank’s investment by enhancing the ultimate collection of the original indebtedness, by the board of directors of the participating member bank or, if the originating affiliate is a depository institution, by:

(i) An executive committee of the board of directors of the participating member bank; or

(ii) One or more senior management officials of the participating member bank,

(A) The board of directors of the member bank approves standards for the member bank’s renewals or extensions of additional credit described in this paragraph (b), based on the determination set forth in paragraph (b)(2) of this section;

(B) Each renewal or extension of additional credit described in this paragraph (b) meets the standards; and

(C) The board of directors of the member bank periodically reviews renewals and extensions of additional credit described in this paragraph (b) to ensure that they meet the standards and periodically reviews the standards to ensure that they continue to meet the criterion set forth in paragraph (b)(2) of this section;

(3) The participating member bank’s share of the renewal or extension of additional credit does not exceed its proportional share of the original transaction by more than 5 percent, unless the member bank obtains the prior written approval of its appropriate Federal banking agency; and

(4) The participating member bank provides its appropriate Federal banking agency with written notice of the renewal or extension of additional credit not later than 20 days after consummation.

§ 223.16 What transactions by a member bank with any person are treated as transactions with an affiliate?

(a) In general. A member bank must treat any of its transactions with any person as a transaction with an affiliate to the extent that the proceeds of the transaction are used for the benefit of, or transferred to, an affiliate.

(b) Certain agency transactions. (1) Except to the extent described in paragraph (b)(2) of this section, an extension of credit by a member bank to a nonaffiliate is not treated as an extension of credit to an affiliate under paragraph (a) of this section if:

(i) The proceeds of the extension of credit are used to purchase an asset through an affiliate of the member bank, and the affiliate is acting exclusively as an agent or broker in the transaction; and

(ii) The asset purchased by the nonaffiliate is not issued, underwritten, or sold as principal by any affiliate of the member bank.

(2) The interpretation set forth in paragraph (b)(1) of this section does not apply to the extent of any agency fee,
brokerage commission, or other compensation received by an affiliate from the proceeds of the extension of credit. The receipt of such compensation may qualify, however, for the exemption contained in paragraph (c)(2) of this section.

(c) Exemptions. Notwithstanding paragraph (a) of this section, the following transactions are not subject to the quantitative limits of §§223.11 and 223.12 or the collateral requirements of §223.14. The transactions are, however, subject to the safety and soundness requirement of §223.13 and the market terms requirement and other provisions of subpart F (implementing section 23B).

(1) Certain riskless principal transactions. An extension of credit by a member bank to a nonaffiliate, if:

(i) The proceeds of the extension of credit are used to purchase a security through a securities affiliate of the member bank, and the securities affiliate is acting exclusively as a riskless principal in the transaction;

(ii) The security purchased by the nonaffiliate is not issued, underwritten, or sold as principal (other than as riskless principal) by any affiliate of the member bank; and

(iii) Any riskless principal mark-up or other compensation received by the securities affiliate from the proceeds of the extension of credit meets the market terms standard set forth in paragraph (c)(2) of this section.

(2) Brokerage commissions, agency fees, and riskless principal mark-ups. An affiliate’s retention of a portion of the proceeds of an extension of credit described in paragraph (b) or (c)(1) of this section as a brokerage commission, agency fee, or riskless principal mark-up, if that commission, fee, or mark-up is substantially the same as, or lower than, those prevailing at the same time for comparable transactions with or involving other nonaffiliates, in accordance with the market terms requirement of §223.51.

(3) Preexisting lines of credit. An extension of credit by a member bank to a nonaffiliate, if:

(i) The proceeds of the extension of credit are used to purchase a security from or through a securities affiliate of the member bank; and

(ii) The extension of credit is made pursuant to, and consistent with any conditions imposed in, a preexisting line of credit that was not established in contemplation of the purchase of securities from or through an affiliate of the member bank.

(4) General purpose credit card transactions.

(i) In general. An extension of credit by a member bank to a nonaffiliate, if:

(A) The proceeds of the extension of credit are used by the nonaffiliate to purchase a product or service from an affiliate of the member bank; and

(B) The extension of credit is made pursuant to, and consistent with any conditions imposed in, a general purpose credit card issued by the member bank to the nonaffiliate.

(ii) Definition. “General purpose credit card” means a credit card issued by a member bank that is widely accepted by merchants that are not affiliates of the member bank for the purchase of products or services, if:

(A) Less than 25 percent of the total value of products and services purchased with the card by all cardholders are purchases of products and services from one or more affiliates of the member bank;

(B) All affiliates of the member bank would be permissible for a financial holding company (as defined in 12 U.S.C. 1841) under section 4 of the Bank Holding Company Act (12 U.S.C. 1843), and the member bank has no reason to believe that 25 percent or more of the total value of products and services purchased with the card by all cardholders are or would be purchases of products and services from one or more affiliates of the member bank; or

(C) The member bank presents information to the Board that demonstrates, to the Board’s satisfaction, that less than 25 percent of the total value of products and services purchased with the card by all cardholders are or would be purchases of products and services from one or more affiliates of the member bank.

(iii) Calculating compliance. To determine whether a credit card qualifies as a general purpose credit card under the standard set forth in paragraph (c)(4)(i)(A) of this section, a member bank must compute compliance on a
monthly basis, based on cardholder purchases that were financed by the credit card during the preceding 12 calendar months. If a credit card has qualified as a general purpose credit card for 3 consecutive months but then ceases to qualify in the following month, the member bank may continue to treat the credit card as a general purpose credit card for such month and three additional months (or such longer period as may be permitted by the Board).

(iv) Example of calculating compliance with the 25 percent test. A member bank seeks to qualify a credit card as a general purpose credit card under paragraph (c)(4)(ii)(A) of this section. The member bank assesses its compliance under paragraph (c)(4)(iii) of this section on the 15th day of every month (for the preceding 12 calendar months). The credit card qualifies as a general purpose credit card for at least three consecutive months. On June 15, 2005, however, the member bank determines that, for the 12-calendar-month period from June 1, 2004, through May 31, 2005, 27 percent of the total value of products and services purchased with the card by all cardholders were purchases of products and services from an affiliate of the member bank. Unless the credit card returns to compliance with the 25 percent limit by the 12-calendar-month period ending August 31, 2005, the card will cease to qualify as a general purpose credit card as of September 1, 2005. Any outstanding extensions of credit under the credit card that were used to purchase products or services from an affiliate of the member bank would become covered transactions at such time.

Subpart C—Valuation and Timing Principles Under Section 23A

§ 223.21 What valuation and timing principles apply to credit transactions?

(a) Valuation—(1) Initial valuation. Except as provided in paragraph (a)(2) or (3) of this section, a credit transaction with an affiliate initially must be valued at the greater of:

(i) The principal amount of the transaction;

(ii) The amount owed by the affiliate to the member bank under the transaction;

(iii) The sum of:

(A) The amount provided to, or on behalf of, the affiliate in the transaction; and

(B) Any additional amount that the member bank could be required to provide to, or on behalf of, the affiliate under the terms of the transaction.

(2) Initial valuation of certain acquisitions of a credit transaction. If a member bank acquires from a nonaffiliate a credit transaction with an affiliate, the covered transaction initially must be valued at the sum of:

(i) The total amount of consideration given (including liabilities assumed) by the member bank in exchange for the credit transaction; and

(ii) Any additional amount that the member bank could be required to provide to, or on behalf of, the affiliate under the terms of the transaction.

(3) Debt securities. The valuation principles of paragraphs (a)(1) and (2) of this section do not apply to a member bank’s purchase of or investment in a debt security issued by an affiliate, which is governed by §223.23.

(4) Examples. The following are examples of how to value a member bank’s credit transactions with an affiliate.

(i) Term loan. A member bank makes a loan to an affiliate that has a principal amount of $100. The affiliate pays $2 in up-front fees to the member bank, and the affiliate receives net loan proceeds of $98. The member bank must initially value the covered transaction at $100.

(ii) Revolving credit. A member bank establishes a $300 revolving credit facility for an affiliate. The affiliate has drawn down $100 under the facility. The member bank must value the covered transaction at $300 throughout the life of the facility.

(iii) Guarantee. A member bank has issued a guarantee to a nonaffiliate on behalf of an affiliate under which the member bank would be obligated to pay the nonaffiliate $500 if the affiliate defaults on an issuance of debt securities. The member bank must value the guarantee at $500 throughout the life of the guarantee.
(iv) **Acquisition of a loan to an affiliate.** A member bank purchases from a nonaffiliate a fixed-rate loan to an affiliate. The loan has an outstanding principal amount of $100 but, due to movements in the general level of interest rates since the time of the loan’s origination, the member bank is able to purchase the loan for $90. The member bank initially must value the credit transaction at $90 (and must ensure that the credit transaction complies with the collateral requirements of §223.14 at the time of its acquisition of the loan).

(b) **Timing.—(1) In general.** A member bank engages in a credit transaction with an affiliate at the time during the day that:

(i) The member bank becomes legally obligated to make an extension of credit to, issue a guarantee, acceptance, or letter of credit on behalf of, or confirm a letter of credit issued by, an affiliate; or

(ii) The member bank enters into a cross-affiliate netting arrangement; or

(iii) The member bank acquires an extension of credit to, or guarantee, acceptance, or letter of credit issued on behalf of, an affiliate.

(2) **Credit transactions by a member bank with a nonaffiliate that becomes an affiliate of the member bank.**

(i) **In general.** A credit transaction with a nonaffiliate becomes a covered transaction at the time that the nonaffiliate becomes an affiliate of the member bank. The member bank must treat the amount of any such credit transaction as part of the aggregate amount of the member bank’s covered transactions for purposes of determining compliance with the quantitative limits of §§223.11 and 223.12 in connection with any future covered transactions. Except as described in paragraph (b)(2)(ii) of this section, the member bank is not required to reduce the amount of its covered transactions with any affiliate because the nonaffiliate has become an affiliate. If the nonaffiliate becomes an affiliate less than one year after the member bank enters into the credit transaction with the nonaffiliate, the member bank also must ensure that the credit transaction complies with the collateral requirements of §223.14 promptly after the nonaffiliate becomes an affiliate.

(ii) **Credit transactions by a member bank with a nonaffiliate in contemplation of the nonaffiliate becoming an affiliate of the member bank.** Notwithstanding the provisions of paragraph (b)(2)(i) of this section, if a member bank engages in a credit transaction with a nonaffiliate in contemplation of the nonaffiliate becoming an affiliate of the member bank, the member bank must ensure that:

(A) The aggregate amount of the member bank’s covered transactions (including any such credit transaction with the nonaffiliate) would not exceed the quantitative limits of §223.11 or 223.12 at the time the nonaffiliate becomes an affiliate; and

(B) The credit transaction complies with the collateral requirements of §223.14 at the time the nonaffiliate becomes an affiliate.

(iii) **Example.** A member bank with capital stock and surplus of $1,000 and no outstanding covered transactions makes a $120 unsecured loan to a nonaffiliate. The member bank does not make the loan in contemplation of the nonaffiliate becoming an affiliate. Nine months later, the member bank’s holding company purchases all the stock of the nonaffiliate, thereby making the nonaffiliate an affiliate of the member bank. The member bank is not in violation of the quantitative limits of §223.11 or 223.12 at the time of the stock acquisition. The member bank is, however, prohibited from engaging in any additional covered transactions with the new affiliate at least until such time as the value of the loan transaction falls below 10 percent of the member bank’s capital stock and surplus. In addition, the member bank must bring the loan into compliance with the collateral requirements of §223.14 promptly after the stock acquisition.

§ 223.22 What valuation and timing principles apply to asset purchases?

(a) **Valuation.—(1) In general.** Except as provided in paragraph (a)(2) of this section, a purchase of an asset by a member bank from an affiliate must be valued initially at the total amount of consideration given (including liabilities assumed) by the member bank in exchange for the asset. The value of
§ 223.23 What valuation and timing principles apply to purchases of and investments in securities issued by an affiliate?

(a) Valuation—(1) In general. Except as provided in paragraph (b) of §223.32 with respect to financial subsidiaries, a member bank’s purchase of or investment in a security issued by an affiliate must be valued at the greater of:

(i) The total amount of consideration given (including liabilities assumed) by the member bank in exchange for the security, reduced to reflect amortization of the security to the extent consistent with GAAP; or

(ii) The carrying value of the security.

(2) Asset purchases by a member bank from a nonaffiliate in contemplation of the nonaffiliate becoming an affiliate, and asset purchases by a member bank from a nonaffiliate in contemplation of the nonaffiliate becoming an affiliate of the member bank, the asset purchase becomes a covered transaction at the time that the nonaffiliate becomes an affiliate of the member bank. In addition, the member bank must ensure that the aggregate amount of the member bank’s covered transactions (including any such transaction with the nonaffiliate) would not exceed the quantitative limits of §223.11 or 223.12 at the time the nonaffiliate becomes an affiliate.

(c) Examples. The following are examples of how to value a member bank’s purchase of an asset from an affiliate.

(1) Cash purchase of assets. A member bank purchases a pool of loans from an affiliate for $10 million. The member bank initially must value the covered transaction at $10 million. Going forward, if the borrowers repay $6 million of the principal amount of the loans, the member bank may value the covered transaction at $4 million.

(2) Purchase of assets through an assumption of liabilities. An affiliate of a member bank contributes real property with a fair market value of $200,000 to the member bank. The member bank pays the affiliate no cash for the property, but assumes a $50,000 mortgage on the property. The member bank has engaged in a covered transaction with the affiliate and initially must value the transaction at $50,000. Going forward, if the member bank retains the real property but pays off the mortgage, the member bank must continue to value the covered transaction at the time of the sale (regardless of the status of the mortgage).
§ 223.24 What valuation principles apply to extensions of credit secured by affiliate securities?

(a) Valuation of extensions of credit secured exclusively by affiliate securities. An extension of credit by a member bank to a nonaffiliate secured exclusively by securities issued by an affiliate of the member bank must be valued at the lesser of:

1. The total value of the extension of credit; or

2. The fair market value of the securities issued by an affiliate that are pledged as collateral, if the member bank verifies that such securities meet the market quotation standard contained in paragraph (e) of § 223.42 or the standards set forth in paragraphs (f)(1) and (5) of § 223.42.

(b) Valuation of extensions of credit secured by affiliate securities and other collateral. An extension of credit by a member bank to a nonaffiliate secured in part by securities issued by an affiliate of the member bank and in part by nonaffiliate collateral must be valued at the lesser of:

1. The total value of the extension of credit less the fair market value of the nonaffiliate collateral; or

2. The fair market value of the securities issued by an affiliate that are pledged as collateral, if the member bank verifies that such securities meet the market quotation standard contained in paragraph (e) of § 223.42 or the standards set forth in paragraphs (f)(1) and (5) of § 223.42.

(c) Exclusion of eligible affiliated mutual fund securities—(1) The exclusion. Eligible affiliated mutual fund securities are not considered to be securities issued by an affiliate, and are instead considered to be nonaffiliate collateral, for purposes of paragraphs (a) and (b) of this section, unless the member bank knows or has reason to know that the proceeds of the extension of credit will be used to purchase the eligible affiliated mutual fund securities collateral or will otherwise be used for the benefit of or transferred to an affiliate of the member bank.

(2) Definition. “Eligible affiliated mutual fund securities” with respect to a member bank are securities issued by an affiliate of the member bank that is

Federa.
§ 223.31 How does section 23A apply to a member bank's acquisition of an affiliate that becomes an operating subsidiary of the member bank after the acquisition?

(a) Certain acquisitions by a member bank of securities issued by an affiliate are treated as a purchase of assets from an affiliate. A member bank's acquisition of a security issued by a company that was an affiliate of the member bank before the acquisition is treated as a purchase of assets from an affiliate, if:

(1) As a result of the transaction, the company becomes an operating subsidiary of the member bank; and

(2) The company has liabilities, or the member bank gives cash or any other consideration in exchange for the security.

(b) Valuation.—(1) Initial valuation. A transaction described in paragraph (a) of this section must be valued initially at the greater of:

(i) The sum of:

(A) The total amount of consideration given by the member bank in exchange for the security; and

(B) The total liabilities of the company whose security has been acquired by the member bank, as of the time of the acquisition; or

(ii) The total value of all covered transactions (as computed under this part) acquired by the member bank as a result of the security acquisition.

(2) Ongoing valuation. The value of a transaction described in paragraph (a) of this section may be reduced after the initial transfer to reflect:

(i) Amortization or depreciation of the assets of the transferred company, to the extent that such reductions are consistent with GAAP; and

(ii) Sales of the assets of the transferred company.

(c) Valuation example. The parent holding company of a member bank contributes between 25 and 100 percent of the voting shares of a mortgage company to the member bank. The parent holding company retains no shares of the mortgage company. The member bank gives no consideration in exchange for the transferred shares. The mortgage company has total assets of $300,000 and total liabilities of $100,000. The mortgage company's assets do not include any loans to an affiliate of the member bank or any other asset that would represent a separate covered transaction for the member bank upon consummation of the share transfer. As a result of the transaction, the mortgage company becomes an operating subsidiary of the member bank. The transaction is treated as a purchase of the assets of the mortgage company by
the member bank from an affiliate under paragraph (a) of this section. The member bank initially must value the transaction at $100,000, the total amount of the liabilities of the mortgage company. Going forward, if the member bank pays off the liabilities, the member bank must continue to value the covered transaction at $100,000. If the member bank, however, sells $15,000 of the transferred assets of the mortgage company or if $15,000 of the transferred assets amortize, the member bank may value the covered transaction at $85,000.

(d) Exemption for step transactions. A transaction described in paragraph (a) of this section is exempt from the requirements of this regulation (other than the safety and soundness requirement of §223.13 and the market terms requirement of §223.51) if:

(1) The member bank acquires the securities issued by the transferred company within one business day (or such longer period, up to three months, as may be permitted by the member bank's appropriate Federal banking agency) after the company becomes an affiliate of the member bank;

(2) The member bank acquires all the securities of the transferred company that were transferred in connection with the transaction that made the company an affiliate of the member bank;

(3) The business and financial condition (including the asset quality and liabilities) of the transferred company does not materially change from the time the company becomes an affiliate of the member bank and the time the member bank acquires the securities issued by the company; and

(4) At or before the time that the member bank notifies its appropriate Federal banking agency and the Board of the member bank's intent to acquire the company.

(e) Example of step transaction. A bank holding company acquires 100 percent of the shares of an unaffiliated leasing company. At that time, the subsidiary member bank of the holding company notifies its appropriate Federal banking agency and the Board of its intent to acquire the leasing company from its holding company. On the day after consummation of the acquisition, the holding company transfers all of the shares of the leasing company to the member bank. No material change in the business or financial condition of the leasing company occurs between the time of the holding company's acquisition and the member bank's acquisition. The leasing company has liabilities. The leasing company becomes an operating subsidiary of the member bank at the time of the transfer. This transfer by the holding company to the member bank, although deemed an asset purchase by the member bank from an affiliate under paragraph (a) of this section, would qualify for the exemption in paragraph (d) of this section.

§ 223.32 What rules apply to financial subsidiaries of a member bank?

(a) Exemption from the 10 percent limit for covered transactions between a member bank and a single financial subsidiary. The 10 percent quantitative limit contained in §223.11 does not apply with respect to covered transactions between a member bank and a financial subsidiary of the member bank. The 20 percent quantitative limit contained in §223.12 does apply to such transactions.

(b) Valuation of purchases of or investments in the securities of a financial subsidiary—(1) General rule. A member bank's purchase of or investment in a security issued by a financial subsidiary of the member bank must be valued at the greater of:

(i) The total amount of consideration given (including liabilities assumed) by the member bank in exchange for the security, reduced to reflect amortization of the security to the extent consistent with GAAP; and

(ii) The carrying value of the security (adjusted so as not to reflect the member bank's pro rata portion of any earnings retained or losses incurred by the financial subsidiary after the member bank's acquisition of the security).

(2) Carrying value of an investment in a consolidated financial subsidiary. If a financial subsidiary is consolidated with its parent member bank under GAAP, the carrying value of the member bank's investment in securities issued
by the financial subsidiary shall be equal to the carrying value of the securities on parent-only financial statements of the member bank, determined in accordance with GAAP (adjusted so as not to reflect the member bank’s pro rata portion of any earnings retained or losses incurred by the financial subsidiary after the member bank’s acquisition of the securities).

(3) Examples of the valuation of purchases of and investments in the securities of a financial subsidiary. The following are examples of how a member bank must value its purchase of or investment in securities issued by a financial subsidiary of the member bank. Each example involves a securities underwriter that becomes a financial subsidiary of the member bank after the transactions described below.

   (i) Initial valuation. (A) Direct acquisition by a member bank. A member bank pays $500 to acquire 100 percent of the shares of a securities underwriter. The initial carrying value of the shares on the member bank’s parent-only GAAP financial statements is $500. The member bank initially must value the investment at $500.

   (B) Contribution of a financial subsidiary to a member bank. The parent holding company of a member bank acquires 100 percent of the shares of a securities underwriter in a transaction valued at $500, and immediately contributes the shares to the member bank. The member bank gives no consideration in exchange for the shares. The member bank initially must value the investment at the carrying value of the shares on the member bank’s parent-only GAAP financial statements, or $500.

   (ii) Carrying value not adjusted for earnings and losses of the financial subsidiary. A member bank and its parent holding company engage in the transactions described in paragraph (b)(3)(i)(B) of this section, and the member bank initially values the investment at $500. In the following year, the securities underwriter earns $25 in profit, which is added to its retained earnings. The member bank’s carrying value of the shares of the underwriter is not adjusted for purposes of this part, and the member bank must continue to value the investment at $500. If, however, the member bank contributes $100 of additional capital to the securities underwriter, the member bank must value the aggregate investment at $600.

   (c) Treatment of an affiliate’s investments in, and extensions of credit to, a financial subsidiary of a member bank—(1) Investments. Any purchase of, or investment in, the securities of a financial subsidiary of a member bank by an affiliate of the member bank is treated as a purchase of or investment in such securities by the member bank.

   (2) Extensions of credit that are treated as regulatory capital of the financial subsidiary. Any extension of credit to a financial subsidiary of a member bank by an affiliate of the member bank is treated as an extension of credit by the member bank to the financial subsidiary if the extension of credit is treated as capital of the financial subsidiary under any Federal or State law, regulation, or interpretation applicable to the subsidiary.

   (3) Other extensions of credit. Any other extension of credit to a financial subsidiary of a member bank by an affiliate of the member bank will be treated as an extension of credit by the member bank to the financial subsidiary, if the Board determines, by regulation or order, that such treatment is necessary or appropriate to prevent evasions of the Federal Reserve Act or the Gramm-Leach-Bliley Act.

§ 223.33 What rules apply to derivative transactions?

(a) Market terms requirement. Derivative transactions between a member bank and its affiliates (other than depository institutions) are subject to the market terms requirement of §223.51.

(b) Policies and procedures. A member bank must establish and maintain policies and procedures reasonably designed to manage the credit exposure arising from its derivative transactions with affiliates in a safe and sound manner. The policies and procedures must at a minimum provide for:

(1) Monitoring and controlling the credit exposure arising at any one time
from the member bank’s derivative transactions with each affiliate and all affiliates in the aggregate (through, among other things, imposing appropriate credit limits, mark-to-market requirements, and collateral requirements); and
(2) Ensuring that the member bank’s derivative transactions with affiliates comply with the market terms requirement of §223.51.

(c) Credit derivatives. A credit derivative between a member bank and a nonaffiliate in which the member bank provides credit protection to the nonaffiliate with respect to an obligation of an affiliate of the member bank is a guarantee by a member bank on behalf of an affiliate for purposes of this regulation. Such derivatives would include:
(1) An agreement under which the member bank, in exchange for a fee, agrees to compensate the nonaffiliate for any default of the underlying obligation of the affiliate; and
(2) An agreement under which the member bank, in exchange for payments based on the total return of the underlying obligation of the affiliate, agrees to pay the nonaffiliate a spread over funding costs plus any depreciation in the value of the underlying obligation of the affiliate.

Subpart E—Exemptions from the Provisions of Section 23A

§ 223.41 What covered transactions are exempt from the quantitative limits and collateral requirements?

The following transactions are not subject to the quantitative limits of §§223.11 and 223.12 or the collateral requirements of §223.14. The transactions are, however, subject to the safety and soundness requirement of §223.13 and the prohibition on the purchase of a low-quality asset of §223.15.

(a) Parent institution/subsidiary institution transactions. Transactions with a depository institution if the member bank controls 80 percent or more of the voting securities of the depository institution or the depository institution controls 80 percent or more of the voting securities of the member bank.

(b) Transactions between a member bank and a depository institution owned by the same holding company. Transactions with a depository institution if the same company controls 80 percent or more of the voting securities of the member bank and the depository institution.

(c) Certain loan purchases from an affiliated depository institution. Purchasing a loan on a nonrecourse basis from an affiliated depository institution.

(d) Internal corporate reorganization transactions. Purchasing assets from an affiliate (including in connection with a transfer of securities issued by an affiliate to a member bank described in paragraph (a) of §223.31), if:
(1) The asset purchase is part of an internal corporate reorganization of a holding company and involves the transfer of all or substantially all of the shares or assets of an affiliate or of a division or department of an affiliate;
(2) The member bank provides its appropriate Federal banking agency and the Board with written notice of the transaction before consummation, including a description of the primary business activities of the affiliate and an indication of the proposed date of the asset purchase;
(3) The member bank’s top-tier holding company commits to its appropriate Federal banking agency and the Board before consummation either:
(i) To make quarterly cash contributions to the member bank, for a two-year period following the member bank’s purchase, equal to the book value plus any write-downs taken by the member bank, of any transferred assets that have become low-quality assets during the quarter; or
(ii) To repurchase, on a quarterly basis for a two-year period following the member bank’s purchase, at a price equal to the book value plus any write-downs taken by the member bank, any transferred assets that have become low-quality assets during the quarter;
(4) The member bank’s top-tier holding company complies with the commitment made under paragraph (d)(3) of this section;
(5) A majority of the member bank’s directors reviews and approves the transaction before consummation;
(6) The value of the covered transaction (as computed under this part), when aggregated with the value of any...
other covered transactions (as computed under this part) engaged in by the member bank under this exemption during the preceding 12 calendar months, represents less than 10 percent of the member bank’s capital stock and surplus (or such higher amount, up to 25 percent of the member bank’s capital stock and surplus, as may be permitted by the member bank’s appropriate Federal banking agency after conducting a review of the member bank’s financial condition and the quality of the assets transferred to the member bank); and

(7) The holding company and all its subsidiary member banks and other subsidiary depository institutions are well capitalized and well managed and would remain well capitalized upon consummation of the transaction.

§ 223.42 What covered transactions are exempt from the quantitative limits, collateral requirements, and low-quality asset prohibition?

The following transactions are not subject to the quantitative limits of §§223.11 and 223.12, the collateral requirements of §223.14, or the prohibition on the purchase of a low-quality asset of §223.15. The transactions are, however, subject to the safety and soundness requirement of §223.13.

(a) Making correspondent banking deposits. Making a deposit in an affiliated depository institution (as defined in section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813)) or affiliated foreign bank that represents an ongoing, working balance maintained in the ordinary course of correspondent business.

(b) Giving credit for uncollected items. Giving immediate credit to an affiliate for uncollected items received in the ordinary course of business.

(c) Transactions secured by cash or U.S. government securities.

(1) In general. Engaging in a credit transaction with an affiliate to the extent that the transaction is and remains secured by:

(i) Obligations of the United States or its agencies;

(ii) Obligations fully guaranteed by the United States or its agencies as to principal and interest; or

(iii) A segregated, earmarked deposit account with the member bank that is for the sole purpose of securing credit transactions between the member bank and its affiliates and is identified as such.

(2) Example. A member bank makes a $100 non-amortizing term loan to an affiliate secured by U.S. Treasury securities with a market value of $50 and real estate with a market value of $75. The value of the covered transaction is $50. If the market value of the U.S. Treasury securities falls to $45 during the life of the loan, the value of the covered transaction would increase to $55.

(d) Purchasing securities of a servicing affiliate. Purchasing a security issued by any company engaged solely in providing services described in section 4(c)(1) of the Bank Holding Company Act (12 U.S.C. 1843(c)(3)).

(e) Purchasing certain liquid assets. Purchasing an asset having a readily identifiable and publicly available market quotation and purchased at or below the asset’s current market quotation. An asset has a readily identifiable and publicly available market quotation if the asset’s price is quoted routinely in a widely disseminated publication that is readily available to the general public.

(1) Purchasing certain marketable securities. Purchasing a security from a securities affiliate, if:

(1) The security has a “ready market,” as defined in 17 CFR 240.15c3-1(c)(11)(i);

(2) The security is eligible for a State member bank to purchase directly, subject to the same terms and conditions that govern the investment activities of a State member bank and the member bank records the transaction as a purchase of a security for purposes of its Call Report, consistent with the requirements for a State member bank;

(3) The security is not a low-quality asset;

(4) The member bank does not purchase the security during an underwriting, or within 30 days of an underwriting, if an affiliate is an underwriter of the security, unless the security is purchased as part of an issue of obligations of, or obligations fully
guaranteed as to principal and interest by the United States or its agencies;

(5) The security’s price is quoted routinely on an unaffiliated electronic service that provides indicative data from real-time financial networks, provided that:

(i) The price paid by the member bank is at or below the current market quotation for the security; and

(ii) The size of the transaction executed by the member bank does not cast material doubt on the appropriateness of relying on the current market quotation for the security; and

(6) The member bank maintains, for a period of two years, records and supporting information that are sufficient to enable the appropriate Federal banking agency to ensure the member bank’s compliance with the terms of this exemption.

(g) Purchasing municipal securities. Purchasing a municipal security from a securities affiliate if:

(1) The security is rated by a nationally recognized statistical rating organization or is part of an issue of securities that does not exceed $25 million;

(2) The security is eligible for purchase by a State member bank, subject to the same terms and conditions that govern the investment activities of a State member bank, and the member bank records the transaction as a purchase of a security for purposes of its Call Report, consistent with the requirements for a State member bank; and

(3)(i) The security’s price is quoted routinely on an unaffiliated electronic service that provides indicative data from real-time financial networks, provided that:

(A) The price paid by the member bank is at or below the current market quotation for the security; and

(B) The size of the transaction executed by the member bank does not cast material doubt on the appropriateness of relying on the current market quotation for the security; or

(ii) The price paid for the security can be verified by reference to two or more actual, current price quotes from unaffiliated broker-dealers on the exact security to be purchased or a security comparable to the security to be purchased, where:

(A) The price quotes obtained from the unaffiliated broker-dealers are based on a transaction similar in size to the transaction that is actually executed; and

(B) The price paid is no higher than the average of the price quotes; or

(iii) The price paid for the security can be verified by reference to the written summary provided by the syndicate manager to syndicate members that discloses the aggregate par values and prices of all bonds sold from the syndicate account, if the member bank:

(A) Purchases the municipal security during the underwriting period at a price that is at or below that indicated in the summary; and

(B) Obtains a copy of the summary from its securities affiliate and retains the summary for three years.

(h) Purchasing an extension of credit subject to a repurchase agreement. Purchasing from an affiliate an extension of credit that was originated by the member bank and sold to the affiliate subject to a repurchase agreement or with recourse.

(i) Asset purchases by a newly formed member bank. The purchase of an asset from an affiliate by a newly formed member bank, if the appropriate Federal banking agency for the member bank has approved the asset purchase in writing in connection with its review of the formation of the member bank.

(j) Transactions approved under the Bank Merger Act. Any merger or consolidation between a member bank and an affiliated depository institution or U.S. branch or agency of a foreign bank, or any acquisition of assets or assumption of deposit liabilities by a member bank from an affiliated depository institution or U.S. branch or agency of a foreign bank, if the transaction has been approved by the responsible Federal banking agency pursuant to the Bank Merger Act (12 U.S.C. 1828(c)).

(k) Purchasing an extension of credit from an affiliate. Purchasing from an affiliate, on a nonrecourse basis, an extension of credit, if:

(1) The extension of credit was originated by the affiliate;

(2) The member bank makes an independent evaluation of the creditworthiness of the borrower before the affiliate
makes or commits to make the extension of credit; 
(3) The member bank commits to purchase the extension of credit before the affiliate makes or commits to make the extension of credit;
(4) The member bank does not make a blanket advance commitment to purchase extensions of credit from the affiliate; and
(5) The dollar amount of the extension of credit, when aggregated with the dollar amount of all other extensions of credit purchased from the affiliate during the preceding 12 calendar months by the member bank and its depository institution affiliates, does not represent more than 50 percent (or such lower percent as is imposed by the member bank’s appropriate Federal banking agency) of the dollar amount of extensions of credit originated by the affiliate during the preceding 12 calendar months.

(1) Intraday extensions of credit—(1) In general. An intraday extension of credit to an affiliate, if the member bank:
(i) Has established and maintains policies and procedures reasonably designed to manage the credit exposure arising from the member bank’s intraday extensions of credit to affiliates in a safe and sound manner, including policies and procedures for:
(A) Monitoring and controlling the credit exposure arising at any one time from the member bank’s intraday extensions of credit to each affiliate and all affiliates in the aggregate; and
(B) Ensuring that any intraday extension of credit by the member bank to an affiliate complies with the market terms requirement of §223.51;
(ii) Has no reason to believe that the affiliate will have difficulty repaying the extension of credit in accordance with its terms; and
(iii) Ceases to treat any such extension of credit (regardless of jurisdiction) as an intraday extension of credit at the end of the member bank’s business day in the United States.
(2) Definition. Intraday extension of credit by a member bank to an affiliate means an extension of credit by a member bank to an affiliate that the member bank expects to be repaid, sold, or terminated, or to qualify for a complete exemption under this regulation, by the end of its business day in the United States.

(m) Riskless principal transactions. Purchasing a security from a securities affiliate of the member bank if:
(1) The member bank or the securities affiliate is acting exclusively as a riskless principal in the transaction; and
(2) The security purchased is not issued, underwritten, or sold as principal (other than as riskless principal) by any affiliate of the member bank.
(n) Securities financing transactions. (1) From September 15, 2008, until January 30, 2009 (unless further extended by the Board), securities financing transactions with an affiliate, if:
(i) The security or other asset financed by the member bank in the transaction is of a type that the affiliate financed in the U.S. tri-party repurchase agreement market at any time during the week of September 8–12, 2008;
(ii) The transaction is marked to market daily and subject to daily margin-maintenance requirements, and the member bank is at least as over-collateralized in the transaction as the affiliate’s clearing bank was over-collateralized in comparable transactions with the affiliate in the U.S. tri-party repurchase agreement market on September 12, 2008;
(iii) The aggregate risk profile of the securities financing transactions under this exemption is no greater than the aggregate risk profile of the securities financing transactions of the affiliate in the U.S. tri-party repurchase agreement market on September 12, 2008;
(iv) The member bank’s top-tier holding company guarantees the obligations of the affiliate under the securities financing transactions (or provides other security to the bank that is acceptable to the Board); and
(v) The member bank has not been specifically informed by the Board, after consultation with the member bank’s appropriate Federal banking agency, that the member bank may not use this exemption.
(2) For purposes of this exemption:
(i) Securities financing transaction means:
(A) A purchase by a member bank from an affiliate of a security or other
Federal Reserve System

§ 223.52

asset, subject to an agreement by the affiliate to repurchase the asset from the member bank;

(B) A borrowing of a security by a member bank from an affiliate on a collateralized basis; or

(C) A secured extension of credit by a member bank to an affiliate.

(ii) U.S. tri-party repurchase agreement market means the U.S. market for securities financing transactions in which the counterparties use custodial arrangements provided by JPMorgan Chase Bank or Bank of New York or another financial institution approved by the Board.

(o) Purchases of certain asset-backed commercial paper. Purchases of asset-backed commercial paper from an affiliated SEC-registered open-end investment company that holds itself out as a money market mutual fund under SEC Rule 2a–7 (17 CFR 270.2a–7), if the member bank:

(1) Purchases the asset-backed commercial paper between September 19, 2008, and January 30, 2009 (unless extended by the Board), pursuant to the asset-backed commercial paper lending facility established by the Board on September 19, 2008; and

(2) Has not been specifically informed by the Board, after consultation with the member bank’s appropriate Federal banking agency, that the member bank may not use this exemption.

§ 223.51 What is the market terms requirement of section 23B?

A member bank may not engage in a transaction described in §223.52 unless the transaction is:

(a) On terms and under circumstances, including credit standards, that are substantially the same, or at least as favorable to the member bank, as those prevailing at the time for comparable transactions with or involving nonaffiliates; or

(b) In the absence of comparable transactions, on terms and under circumstances, including credit standards, that in good faith would be offered to, or would apply to, nonaffiliates.

§ 223.52 What transactions with affiliates or others must comply with section 23B’s market terms requirement?

(a) The market terms requirement of §223.51 applies to the following transactions:

(1) Any covered transaction with an affiliate, unless the transaction is exempt under paragraphs (a) through (c) of §223.41 or paragraphs (a) through (e) or (h) through (j) of §223.42;

(2) The sale of a security or other asset to an affiliate, including an asset subject to an agreement to repurchase;

(3) The payment of money or the furnishing of a service to an affiliate under contract, lease, or otherwise;

(4) Any transaction in which an affiliate acts as an agent or broker or receives a fee for its services to the member bank or to any other person; and

(5) Any transaction or series of transactions with a nonaffiliate, if an affiliate:

(i) Has a financial interest in the nonaffiliate; or

(ii) Is financially or legally interrelated with the nonaffiliate, if the transaction is for the purpose of facilitating a transaction described in paragraph (a) of this section involving an affiliate.

(b) The Board may, at its discretion, by regulation or order, exempt transactions or relationships from the requirements of section 23B.

(c) The Board may grant an exemption under paragraph (b) of this section if it finds the transaction to be in the public interest and consistent with the purposes of section 23B.

§ 223.43 What are the standards under which the Board may grant additional exemptions from the requirements of section 23A?

(a) The standards. The Board may, at its discretion, by regulation or order, exempt transactions or relationships from the requirements of section 23A and subparts B, C, and D of this part if it finds such exemptions to be in the public interest and consistent with the purposes of section 23A.

(b) Procedure. A member bank may request an exemption from the requirements of section 23A and subparts B, C, and D of this part by submitting a written request to the General Counsel of the Board. Such a request must:

(1) Describe in detail the transaction or relationship for which the member bank seeks exemption;

(2) Justify why the Board should grant the exemption; and

(3) Explain how the exemption would be in the public interest and consistent with the purposes of section 23A.

§ 223.44 What transactions are exempt from the requirements of section 23B?

(a) The Board may, at its discretion, by regulation or order, exempt transactions or relationships from the requirements of section 23B.

(b) Procedure. A member bank may request an exemption from the requirements of section 23B and subparts B, C, and D of this part by submitting a written request to the General Counsel of the Board.
§ 223.53 What asset purchases are prohibited by section 23B?

(a) Fiduciary purchases of assets from an affiliate. A member bank may not purchase as fiduciary any security or other asset from any affiliate unless the purchase is permitted:

(i) Under the instrument creating the fiduciary relationship;

(ii) By court order; or

(iii) By law of the jurisdiction governing the fiduciary relationship.

(b) Purchase of a security underwritten by an affiliate. (1) A member bank, whether acting as principal or fiduciary, may not knowingly purchase or otherwise acquire, during the existence of any underwriting or selling syndicate, any security if a principal underwriter of that security is an affiliate of the member bank.

(2) Paragraph (b)(1) of this section does not apply if the purchase or acquisition of the security has been approved, before the security is initially offered for sale to the public, by a majority of the directors of the member bank based on a determination that the purchase is a sound investment for the member bank, or for the person on whose behalf the member bank is acting as fiduciary, as the case may be, irrespective of the fact that an affiliate of the member bank is a principal underwriter of the security.

(3) The approval requirement of paragraph (b)(2) of this section may be met if:

(i) A majority of the directors of the member bank approves standards for the member bank’s acquisitions of securities described in paragraph (b)(1) of this section, based on the determination set forth in paragraph (b)(2) of this section;

(ii) Each acquisition described in paragraph (b)(1) of this section meets the standards; and

(iii) A majority of the directors of the member bank periodically reviews acquisitions described in paragraph (b)(1) of this section to ensure that they meet the standards and periodically reviews the standards to ensure that they continue to meet the criterion set forth in paragraph (b)(2) of this section.

(4) A U.S. branch, agency, or commercial lending company of a foreign bank may comply with paragraphs (b)(2) and (b)(3) of this section by obtaining the approvals and reviews required by paragraphs (b)(2) and (b)(3) from either:

(i) A majority of the directors of the foreign bank; or

(ii) A majority of the senior executive officers of the foreign bank.

(c) Special definitions. For purposes of this section:

(1) “Principal underwriter” means any underwriter who, in connection with a primary distribution of securities:

(i) Is in privity of contract with the issuer or an affiliated person of the issuer;

(ii) Acting alone or in concert with one or more other persons, initiates or directs the formation of an underwriting syndicate; or

(iii) Is allowed a rate of gross commission, spread, or other profit greater than the rate allowed another underwriter participating in the distribution.

(2) “Security” has the same meaning as in section 3(a)(10) of the Securities Exchange Act of 1934 (15 U.S.C. 78c(a)(10)).

§ 223.54 What advertisements and statements are prohibited by section 23B?

(a) In general. A member bank and its affiliates may not publish any advertisement or enter into any agreement stating or suggesting that the member bank will in any way be responsible for the obligations of its affiliates.

(b) Guarantees, acceptances, letters of credit, and cross-affiliate netting arrangements subject to section 23A. Paragraph (a) of this section does not prohibit a member bank from:

(1) Issuing a guarantee, acceptance, or letter of credit on behalf of an affiliate, confirming a letter of credit...
issued by an affiliate, or entering into a cross-affiliate netting arrangement, to the extent such transaction satisfies the quantitative limits of §§223.11 and 223.12 and the collateral requirements of §223.14, and is otherwise permitted under this regulation; or

(2) Making reference to such a guarantee, acceptance, letter of credit, or cross-affiliate netting arrangement if otherwise required by law.

§ 223.55 What are the standards under which the Board may grant exemptions from the requirements of section 23B?

The Board may prescribe regulations to exempt transactions or relationships from the requirements of section 23B and subpart F of this part if it finds such exemptions to be in the public interest and consistent with the purposes of section 23B.

§ 223.56 What transactions are exempt from the market-terms requirement of section 23B?

The following transactions are exempt from the market-terms requirement of §223.51.

(a) Purchases of certain asset-backed commercial paper. Purchases of asset-backed commercial paper from an affiliated SEC-registered open-end investment company that holds itself out as a money market mutual fund under SEC Rule 2a–7 (17 CFR 270.2a–7), if the member bank:

(1) Purchases the asset-backed commercial paper between September 19, 2008, and January 30, 2009 (unless extended by the Board), pursuant to the asset-backed commercial paper lending facility established by the Board on September 19, 2008; and

(2) Has not been specifically informed by the Board, after consultation with the member bank’s appropriate Federal banking agency, that the member bank may not use this exemption.

(b) [Reserved]

[73 FR 55709, Sept. 26, 2008]
(2) A portfolio company (as defined in the merchant banking subpart of Regulation Y (12 CFR 225.177(c))) controlled by the foreign bank or an affiliate of the foreign bank or a company that would be an affiliate of the branch, agency, or commercial lending company of the foreign bank under paragraph (a)(9) of §223.2 if such branch, agency, or commercial lending company were a member bank; or

(3) A subsidiary of an affiliate described in paragraph (b)(1) or (2) of this section.

(c) Capital stock and surplus. For purposes of this subpart, the “capital stock and surplus” of a U.S. branch, agency, or commercial lending company of a foreign bank will be determined by reference to the capital of the foreign bank as calculated under its home country capital standards.

Subpart H—Miscellaneous Interpretations

§223.71 How do sections 23A and 23B apply to transactions in which a member bank purchases from one affiliate an asset relating to another affiliate?

(a) In general. In some situations in which a member bank purchases an asset from an affiliate, the asset purchase qualifies for an exemption under this regulation, but the member bank’s resulting ownership of the purchased asset also represents a covered transaction (which may or may not qualify for an exemption under this part). In these situations, the transaction engaged in by the member bank would qualify as two different types of covered transaction. Although an asset purchase exemption may suffice to exempt the member bank’s asset purchase from Affiliate A would be an exempt covered transaction under §223.42(e); but the member bank also would have acquired an investment in securities issued by Affiliate B, which would be a covered transaction between the member bank and Affiliate B under §223.3(b)(2) that does not qualify for the (d)(6) exemption. The (d)(6) exemption, by its terms, only exempts asset purchases by a member bank from an affiliate; hence, the (d)(6) exemption cannot exempt a member bank’s investment in securities issued by an affiliate (even if the securities would qualify for the (d)(6) exemption).

(2) The sister-bank exemption. A member bank purchases from Sister-Bank Affiliate A a loan to Affiliate B in a purchase that qualifies for the sister-bank exemption in section 23A. The member bank’s asset purchase from Sister-Bank Affiliate A would be an exempt covered transaction under §223.41(b); but the member bank also would have acquired an extension of credit to Affiliate B, which would be a covered transaction between the member bank and Affiliate B under §223.3(b)(1) that does not qualify for the sister-bank exemption. The sister-bank exemption, by its terms, only exempts transactions by a member bank with a sister-bank affiliate; hence, the sister-bank exemption cannot exempt a member bank’s extension of credit to an affiliate that is not a sister bank (even if the extension of credit was purchased from a sister bank).

PART 224—BORROWERS OF SECURITIES CREDIT (REGULATION X)

Sec.
224.1 Authority, purpose, and scope.
224.2 Definitions.
224.3 Margin regulations to be applied by nonexempted borrowers.

EDITORIAL NOTE: See the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and on GPO Access, for FR citations to Part 224 OTC Margin Stocks changes.
Federal Reserve System

§ 224.1 Authority, purpose, and scope.

(a) Authority and purpose. Regulation X (this part) is issued by the Board of Governors of the Federal Reserve System (the Board) under the Securities Exchange Act of 1934, as amended (the Act) (15 U.S.C. 78a et seq.). This part implements section 7(f) of the Act (15 U.S.C. 78g(f)), the purpose of which is to require that credit obtained within or outside the United States complies with the limitations of the Board’s Margin Regulations T and U (12 CFR parts 220 and 221, respectively).

(b) Scope and exemptions. The Act and this part apply the Board’s margin regulations to United States persons and foreign persons controlled by or acting on behalf of or in conjunction with United States persons (hereinafter borrowers), who obtain credit outside the United States to purchase or carry United States securities, or within the United States to purchase or carry any securities (both types of credit are hereinafter referred to as purpose credit). The following borrowers are exempt from the Act and this part:

1. Any borrower who obtains purpose credit within the United States, unless the borrower willfully causes the credit to be extended in contravention of Regulations T or U.

2. Any borrower whose permanent residence is outside the United States and who does not obtain or have outstanding, during any calendar year, a total of more than $100,000 in purpose credit obtained outside the United States; and

3. Any borrower who is exempt by Order upon terms and conditions set by the Board.

§ 224.2 Definitions.

The terms used in this part have the meanings given to them in sections 3(a) and 7(f) of the Act, and in Regulations T and U. Section 7(f) of the Act contains the following definitions:

(a) United States person includes a person which is organized or exists under the laws of any State or, in the case of a natural person, a citizen or resident of the United States; a domestic estate; or a trust in which one or more of the foregoing persons has a cumulative direct or indirect beneficial interest in excess of 50 per centum of the value of the trust.

(b) United States security means a security (other than an exempted security) issued by a person incorporated under the laws of any State, or whose principal place of business is within a State.

(c) Foreign person controlled by a United States person includes any noncorporate entity in which United States persons directly or indirectly have more than a 50 per centum beneficial interest, and any corporation in which one or more United States persons, directly or indirectly, own stock possessing more than 50 per centum of the total combined voting power of all classes of stock entitled to vote, or more than 50 per centum of the total value of shares of all classes of stock.

§ 224.3 Margin regulations to be applied by nonexempted borrowers.

(a) Credit transactions outside the United States. No borrower shall obtain purpose credit from outside the United States unless it conforms to the following margin regulations:

1. Regulation T (12 CFR part 220) if the credit is obtained from a foreign branch of a broker-dealer;

2. Regulation U (12 CFR part 221), as it applies to banks, if the credit is obtained from a foreign branch of a bank, except for the requirement of a purpose statement (12 CFR 221.3(c)(1)(i) and (c)(2)(i)); and

3. Regulation U (12 CFR part 221), as it applies to nonbank lenders, if the credit is obtained from any other lender outside the United States, except for the requirement of a purpose statement (12 CFR 221.3(c)(1)(ii) and (c)(2)(ii)).

(b) Credit transactions within the United States. Any borrower who willfully causes credit to be extended in contravention of Regulations T and U (12 CFR parts 220 and 221), and who, therefore, is not exempted by §224.1(b)(1), must conform the credit to
PART 225—BANK HOLDING COMPANIES AND CHANGE IN BANK CONTROL (REGULATION Y)

Subpart A—General Provisions

Sec.
225.1 Authority, purpose, and scope.
225.2 Definitions.
225.3 Administration.
225.4 Corporate practices.
225.5 Registration, reports, and inspections.
225.6 Penalties for violations.
225.7 Exceptions to tying restrictions.

Subpart B—Acquisition of Bank Securities or Assets

225.11 Transactions requiring Board approval.
225.12 Transactions not requiring Board approval.
225.13 Factors considered in acting on bank acquisition proposals.
225.14 Expedited action for certain bank acquisitions by well-run bank holding companies.
225.15 Procedures for other bank acquisition proposals.
225.16 Public notice, comments, hearings, and other provisions governing applications and notices.
225.17 Notice procedure for one-bank holding company formations.

Subpart C—Nonbanking Activities and Acquisitions by Bank Holding Companies

225.21 Prohibited nonbanking activities and acquisitions; exempt bank holding companies.
225.22 Exempt nonbanking activities and acquisitions.
225.23 Expedited action for certain nonbanking proposals by well-run bank holding companies.
225.24 Procedures for other nonbanking proposals.
225.25 Hearings, alteration of activities, and other matters.
225.26 Factors considered in acting on nonbanking proposals.
225.27 Procedures for determining scope of nonbanking activities.
225.28 List of permissible nonbanking activities.

Subpart D—Control and Divestiture Proceedings

225.31 Control proceedings.

Subpart E—Change in Bank Control

225.41 Transactions requiring prior notice.
225.42 Transactions not requiring prior notice.
225.43 Procedures for filing, processing, publishing, and acting on notices.
225.44 Reporting of stock loans.

Subpart F—Limitations on Nonbank Banks

225.52 Limitation on overdrafts.

Subpart G—Appraisal Standards for Federally Related Transactions

225.61 Authority, purpose, and scope.
225.62 Definitions.
225.63 Appraisals required; transactions requiring a State certified or licensed appraiser.
225.64 Minimum appraisal standards.
225.65 Appraiser independence.
225.66 Professional association membership; competency.
225.67 Enforcement.

Subpart H—Notice of Addition or Change of Directors and Senior Executive Officers

225.71 Definitions.
225.72 Director and officer appointments; prior notice requirement.
225.73 Procedures for filing, processing, and acting on notices; standards for disapproval; waiver of notice.

Subpart I—Financial Holding Companies

225.81 What is a financial holding company?
225.82 How does a bank holding company elect to become a financial holding company?
225.83 What are the consequences of failing to continue to meet applicable capital and management requirements?
225.84 What are the consequences of failing to maintain a satisfactory or better rating under the Community Reinvestment Act at all insured depository institution subsidiaries?
225.85 Is notice to or approval from the Board required prior to engaging in a financial activity?
225.86 What activities are permissible for any financial holding company?
225.87 Is notice to the Board required after engaging in a financial activity?
225.88 How to request the Board to determine that an activity is financial in nature or incidental to a financial activity?
225.89 How to request approval to engage in an activity that is complementary to a financial activity?
225.90 What are the requirements for a foreign bank to be treated as a financial holding company?
225.91 How may a foreign bank elect to be treated as a financial holding company?
225.92 How does an election by a foreign bank become effective?
225.93 What are the consequences of a foreign bank failing to continue to meet applicable capital and management requirements?
225.94 What are the consequences of an insured branch or depository institution failing to maintain a satisfactory or better rating under the Community Reinvestment Act?

**INTERPRETATIONS**

225.101 Bank holding company’s subsidiary banks owning shares of nonbanking companies.
225.102 Bank holding company indirectly owning nonbanking company through subsidiaries.
225.103 Bank holding company acquiring stock by dividends, stock splits or exercise of rights.
225.104 “Services” under section 4(c)(1) of Bank Holding Company Act.
225.107 Acquisition of stock in small business investment company.
225.109 “Services” under section 4(c)(1) of Bank Holding Company Act.
225.111 Limit on investment by bank holding company system in stock of small business investment companies.
225.112 Indirect control of small business concern through convertible debentures held by small business investment company.
225.113 Services under section 4(a) of Bank Holding Company Act.
225.115 Applicability of Bank Service Corporation Act in certain bank holding company situations.
225.119 Computer services for customers of subsidiary banks.
225.121 Acquisition of Edge corporation affiliate by State member banks of registered bank holding company.
225.122 Bank holding company ownership of mortgage companies.
225.123 Activities closely related to banking.
225.124 Foreign bank holding companies.
225.125 Investment adviser activities.
225.126 Activities not closely related to banking.
225.127 Investment in corporations or projects designed primarily to promote community welfare.
225.129 Activities closely related to banking.
225.130 Issuance and sale of short-term debt obligations by bank holding companies.
225.131 Activities closely related to banking.
225.132 Acquisition of assets.
225.133 Computation of amount invested in foreign corporations under general consent procedures.
225.136 Utilization of foreign subsidiaries to sell long-term debt obligations in foreign markets and to transfer the proceeds to their United States parent(s) for domestic purposes.
225.137 Acquisitions of shares pursuant to section 4(c)(b) of the Bank Holding Company Act.
225.138 Statement of policy concerning divestitures by bank holding companies.
225.139 Presumption of continued control under section (2)(g)(3) of the Bank Holding Company Act.
225.140 Disposition of property acquired in satisfaction of debts previously contracted.
225.141 Operations subsidiaries of a bank holding company.
225.142 Statement of policy concerning bank holding companies engaging in futures, forward and options contracts on U.S. Government and agency securities and money market instruments.
225.143 Policy statement on nonvoting equity investments by bank holding companies.
225.145 Limitations established by the Competitive Equality Banking Act of 1987 on the activities and growth of nonbank banks.

Subpart J—Merchant Banking Investments

225.170 What type of investments are permitted by this subpart, and under what conditions may they be made?
225.171 What are the limitations on managing or operating a portfolio company held as a merchant banking investment?
225.172 What are the holding periods permitted for merchant banking investments?
225.173 How are investments in private equity funds treated under this subpart?
225.174 What aggregate thresholds apply to merchant banking investments?
225.175 What risk management, record keeping, and reporting policies are required to make merchant banking investments?
225.176 How do the statutory cross marketing and sections 23A and B limitations apply to merchant banking investments?
225.177 Definitions.

REGULATIONS

Subpart A—General Provisions

§ 225.1 Authority, purpose, and scope.

(b) Purpose. The principal purposes of this part are to:

(1) Regulate the acquisition of control of banks by companies and individuals;

(2) Define and regulate the nonbanking activities in which bank holding companies and foreign banking organizations with United States operations may engage; and

(3) Set forth the procedures for securing approval for these transactions and activities.

(c) Scope—(1) Subpart A contains general provisions and definitions of terms used in this regulation.

(2) Subpart B governs acquisitions of bank or bank holding company securities and assets by bank holding companies or by any company that will become a bank holding company as a result of the acquisition.

(3) Subpart C defines and regulates the nonbanking activities in which bank holding companies and foreign banking organizations may engage directly or through a subsidiary. The Board’s Regulation K governs certain nonbanking activities conducted by foreign banking organizations and certain foreign activities conducted by bank holding companies (12 CFR part 211, International Banking Operations).

(4) Subpart D specifies situations in which a company is presumed to control voting securities or to have the power to exercise a controlling influence over the management or policies of a bank or other company; sets forth the procedures for making a control determination; and provides rules governing the effectiveness of divestitures by bank holding companies.

(5) Subpart E governs changes in bank control resulting from the acquisition by individuals or companies (other than bank holding companies) of voting securities of a bank holding company or state member bank of the Federal Reserve System.

(6) Subpart F specifies the limitations that govern companies that control so-
called nonbank banks and the activities of nonbank banks.

(7) Subpart G prescribes minimum standards that apply to the performance of real estate appraisals and identifies transactions that require state certified appraisers.

(8) Subpart H identifies the circumstances when written notice must be provided to the Board prior to the appointment of a director or senior officer of a bank holding company and establishes procedures for obtaining the required Board approval.

(9) Subpart I establishes the procedure by which a bank holding company may elect to become a financial holding company, enumerates the consequences if a financial holding company ceases to meet a requirement applicable to a financial holding company, lists the activities in which a financial holding company may engage, establishes the procedure by which a person may request the Board to authorize additional activities as financial in nature or incidental thereto, and establishes the procedure by which a financial holding company may seek approval to engage in an activity that is complementary to a financial activity.

(10) Subpart J governs the conduct of merchant banking investment activities by financial holding companies as permitted under section 4(k)(4)(H) of the Bank Holding Company Act (12 U.S.C. 1843(k)(4)(H)).

(11) Appendix A to the regulation contains the Board’s Risk-Based Capital Adequacy Guidelines for bank holding companies.

(12) Appendix B contains the Board’s Capital Adequacy Guidelines for measuring leverage for bank holding companies and state member banks.

(13) Appendix C contains the Board’s policy statement governing small bank holding companies.

(14) Appendix D contains the Board’s Capital Adequacy Guidelines for measuring tier 1 leverage for bank holding companies.

(15) Appendix E contains the Board’s Capital Adequacy Guidelines for measuring market risk of bank holding companies.

§ 225.2 Definitions.

Except as modified in this regulation or unless the context otherwise requires, the terms used in this regulation have the same meaning as set forth in the relevant statutes.

(a) Affiliate means any company that controls, is controlled by, or is under common control with, another company.

(b)(1) Bank means:

(i) An insured bank as defined in section 3(h) of the Federal Deposit Insurance Act (12 U.S.C. 1813(h)); or

(ii) An institution organized under the laws of the United States which both:

(A) Accepts demand deposits or deposits that the depositor may withdraw by check or similar means for payment to third parties or others; and

(B) Is engaged in the business of making commercial loans.

(2) Bank does not include those institutions qualifying under the exceptions listed in section 2(c)(2) of the BHC Act (12 U.S.C. 1841(c)(2)).

(c)(1) Bank holding company means any company (including a bank) that has direct or indirect control of a bank, other than control that results from the ownership or control of:

(i) Voting securities held in good faith in a fiduciary capacity (other than as provided in paragraphs (e)(2)(i) and (iii) of this section) without sole discretionary voting authority, or as otherwise exempted under section 2(a)(5)(A) of the BHC Act;

(ii) Voting securities acquired and held only for a reasonable period of time in connection with the underwriting of securities, as provided in section 2(a)(5)(B) of the BHC Act;

(iii) Voting rights to voting securities acquired for the sole purpose and in the course of participating in a proxy solicitation, as provided in section 2(a)(5)(C) of the BHC Act;
(iv) Voting securities acquired in satisfaction of debts previously contracted in good faith, as provided in section 2(a)(5)(D) of the BHC Act, if the securities are divested within two years of acquisition (or such later period as the Board may permit by order); or

(v) Voting securities of certain institutions owned by a thrift institution or a trust company, as provided in sections 2(a)(5)(E) and (F) of the BHC Act.

(2) Except for the purposes of §225.4(b) of this subpart and subpart E of this part, or as otherwise provided in this regulation, bank holding company includes a foreign banking organization. For the purposes of subpart B of this part, bank holding company includes a foreign banking organization only if it owns or controls a bank in the United States.

d)(1) Company includes any bank, corporation, general or limited partnership, association or similar organization, business trust, or any other trust unless by its terms it must terminate either within 25 years, or within 21 years and 10 months after the death of individuals living on the effective date of the trust.

(2) Company does not include any organization, the majority of the voting securities of which are owned by the United States or any state.

(3) Testamentary trusts exempt. Unless the Board finds that the trust is being operated as a business trust or company, a trust is presumed not to be a company if the trust:

(i) Terminates within 21 years and 10 months after the death of grantors or beneficiaries of the trust living on the effective date of the trust or within 25 years;

(ii) Is a testamentary or inter vivos trust established by an individual or individuals for the benefit of natural persons (or trusts for the benefit of natural persons) who are related by blood, marriage or adoption;

(iii) Contains only assets previously owned by the individual or individuals who established the trust;

(iv) Is not a Massachusetts business trust; and

(v) Does not issue shares, certificates, or any other evidence of ownership.

(4) Qualified limited partnerships exempt. Company does not include a qualified limited partnership, as defined in section 2(o)(10) of the BHC Act.

(e)(1) Control of a bank or other company means (except for the purposes of subpart E of this part):

(i) Ownership, control, or power to vote 25 percent or more of the outstanding shares of any class of voting securities of the bank or other company, directly or indirectly or acting through one or more other persons;

(ii) Control in any manner over the election of a majority of the directors, trustees, or general partners (or individuals exercising similar functions) of the bank or other company;

(iii) The power to exercise, directly or indirectly, a controlling influence over the management or policies of the bank or other company, as determined by the Board after notice and opportunity for hearing in accordance with §225.31 of subpart D of this part; or

(iv) Conditioning in any manner the transfer of 25 percent or more of the outstanding shares of any class of voting securities of a bank or other company upon the transfer of 25 percent or more of the outstanding shares of any class of voting securities of another bank or other company.

(2) A bank or other company is deemed to control voting securities or assets owned, controlled, or held, directly or indirectly:

(i) By any subsidiary of the bank or other company;

(ii) In a fiduciary capacity (including by pension and profit-sharing trusts) for the benefit of the shareholders, members, or employees (or individuals serving in similar capacities) of the bank or other company or any of its subsidiaries; or

(iii) In a fiduciary capacity for the benefit of the bank or other company or any of its subsidiaries.

(f) Foreign banking organization and qualifying foreign banking organization have the same meanings as provided in §211.21(n) and §211.23 of the Board’s Regulation K (12 CFR 211.21(n) and 211.23).

(g) Insured depository institution includes an insured bank as defined in
section 3(h) of the Federal Deposit Insurance Act (12 U.S.C. 1813(h)) and a savings association.

(h) Lead insured depository institution means the largest insured depository institution controlled by the bank holding company as of the quarter ending immediately prior to the proposed filing, based on a comparison of the average total risk-weighted assets controlled during the previous 12-month period by each insured depository institution subsidiary of the holding company.

(i) Management official means any officer, director (including honorary or advisory directors), partner, or trustee of a bank or other company, or any employee of the bank or other company with policy-making functions.

(j) Nonbank bank means any institution that:

1. Became a bank as a result of enactment of the Competitive Equality Amendments of 1987 (Pub. L. 100–86), on the date of enactment (August 10, 1987); and

2. Was not controlled by a bank holding company on the day before the enactment of the Competitive Equality Amendments of 1987 (August 9, 1987).

(k) Outstanding shares means any voting securities, but does not include securities owned by the United States or by a company wholly owned by the United States.

1. Person includes an individual, bank, corporation, partnership, trust, association, joint venture, pool, syndicate, sole proprietorship, unincorporated organization, or any other form of entity.

(m) Savings association means:

1. Any federal savings association or federal savings bank;

2. Any building and loan association, savings and loan association, homestead association, or cooperative bank if such association or cooperative bank is a member of the Savings Association Insurance Fund; and

3. Any savings bank or cooperative that is deemed by the director of the Office of Thrift Supervision to be a savings association under section 10(l) of the Home Owners Loan Act.

(n) Shareholder—(1) Controlling shareholder means a person that owns or controls, directly or indirectly, 25 percent or more of any class of voting securities of a bank or other company.

2. Principal shareholder means a person that owns or controls, directly or indirectly, 10 percent or more of any class of voting securities of a bank or other company, or any person that the Board determines has the power, directly or indirectly, to exercise a controlling influence over the management or policies of a bank or other company.

(o) Subsidiary means a bank or other company that is controlled by another company, and refers to a direct or indirect subsidiary of a bank holding company. An indirect subsidiary is a bank or other company that is controlled by a subsidiary of the bank holding company.

(p) United States means the United States and includes any state of the United States, the District of Columbia, any territory of the United States, Puerto Rico, Guam, American Samoa, and the Virgin Islands.

(q) Voting securities means shares of common or preferred stock, general or limited partnership shares or interests, or similar interests if the shares or interest, by statute, charter, or in any manner, entitle the holder:

1. To vote for or to select directors, trustees, or partners (or persons exercising similar functions of the issuing company); or

2. To vote on or to direct the conduct of the operations or other significant policies of the issuing company.

2. Nonvoting shares. Preferred shares, limited partnership shares or interests, or similar interests are not voting securities if:

1. Any voting rights associated with the shares or interest are limited solely to the type customarily provided by statute with regard to matters that would significantly and adversely affect the rights or preference of the security or other interest, such as the issuance of additional amounts or classes of senior securities, the modification of the terms of the security or interest, the dissolution of the issuing company, or the payment of dividends by the issuing company when preferred dividends are in arrears;
§ 225.2

(ii) The shares or interest represent an essentially passive investment or financing device and do not otherwise provide the holder with control over the issuing company; and

(iii) The shares or interest do not entitle the holder, by statute, charter, or in any manner, to select or to vote for the selection of directors, trustees, or partners (or persons exercising similar functions) of the issuing company.

(3) Class of voting shares. Shares of stock issued by a single issuer are deemed to be the same class of voting shares, regardless of differences in dividend rights or liquidation preference, if the shares are voted together as a single class on all matters for which the shares have voting rights other than matters described in paragraph (o)(2)(i) of this section that affect solely the rights or preferences of the shares.

(r) Well-capitalized—(1) Bank holding company. In the case of a bank holding company, well-capitalized means that:

(i) On a consolidated basis, the bank holding company maintains a total risk-based capital ratio of 10.0 percent or greater, as defined in appendix A of this part;

(ii) On a consolidated basis, the bank holding company maintains a Tier 1 risk-based capital ratio of 6.0 percent or greater, as defined in appendix A of this part; and

(iii) The bank holding company is not subject to any written agreement, order, capital directive, or prompt corrective action directive issued by the Board to meet and maintain a specific capital level for any capital measure.

(2) Insured and uninsured depository institution—(i) Insured depository institution. In the case of an insured depository institution, "well capitalized" means that the institution has and maintains at least the capital levels required to be well capitalized under the capital adequacy regulations or guidelines applicable to the institution that have been adopted by the appropriate Federal banking agency for the institution under section 38 of the Federal Deposit Insurance Act (12 U.S.C. 1831o).

(ii) Uninsured depository institution. In the case of a depository institution the deposits of which are not insured by the Federal Deposit Insurance Corporation, "well capitalized" means that the institution has and maintains at least the capital levels required for an insured depository institution to be well capitalized.

(3) Foreign banks—(i) Standards applied. For purposes of determining whether a foreign banking organization qualifies under paragraph (r)(1) of this section:

(A) A foreign banking organization whose home country supervisor, as defined in §211.21 of the Board’s Regulation K (12 CFR 211.21), has adopted capital standards consistent in all respects with the Capital Accord of the Basle Committee on Banking Supervision (Basle Accord) may calculate its capital ratios under the home country standard; and

(B) A foreign banking organization whose home country supervisor has not adopted capital standards consistent in all respects with the Basle Accord shall obtain a determination from the Board that its capital is equivalent to the capital that would be required of a U.S. banking organization under paragraph (r)(1) of this section.

(ii) Branches and agencies. For purposes of determining, under paragraph (r)(1) of this section, whether a branch or agency of a foreign banking organization is well-capitalized, the branch or agency shall be deemed to have the same capital ratios as the foreign banking organization.

(s) Well managed—(1) In general. Except as otherwise provided in this part, a company or depository institution is well managed if:

(i) At its most recent inspection or examination or subsequent review by the appropriate Federal banking agency for the company or institution (or the appropriate state banking agency in an examination described in section 10(d) of the Federal Deposit Insurance Act (12 U.S.C. 1820(d)), the company or institution received:
Federal Reserve System

§ 225.4 Corporate practices.

(a) Bank holding company policy and operations. (1) A bank holding company shall serve as a source of financial and managerial strength to its subsidiary...
banks and shall not conduct its operations in an unsafe or unsound manner.

(2) Whenever the Board believes an activity of a bank holding company or control of a nonbank subsidiary (other than a nonbank subsidiary of a bank) constitutes a serious risk to the financial safety, soundness, or stability of a subsidiary bank of the bank holding company and is inconsistent with sound banking principles or the purposes of the BHC Act or the Financial Institutions Supervisory Act of 1966, as amended (12 U.S.C. 1818(b) et seq.), the Board may require the bank holding company to terminate the activity or to terminate control of the subsidiary, as provided in section 5(e) of the BHC Act.

(b) Purchase or redemption by bank holding company of its own securities—

(1) Filing notice. Except as provided in paragraph (b)(6) of this section, a bank holding company shall give the Board prior written notice before purchasing or redeeming its equity securities if the gross consideration for the purchase or redemption, when aggregated with the net consideration paid by the company for all such purchases or redemptions during the preceding 12 months, is equal to 10 percent or more of the company's consolidated net worth. For the purposes of this section, "net consideration" is the gross consideration paid by the company for all of its equity securities purchased or redeemed during the period minus the gross consideration received for all of its equity securities sold during the period.

(2) Contents of notice. Any notice under this section shall be filed with the appropriate Reserve Bank and shall contain the following information:

(i) The purpose of the transaction, a description of the securities to be purchased or redeemed, the total number of each class outstanding, the gross consideration paid, and the terms and sources of funding for the transaction;

(ii) A description of all equity securities redeemed within the preceding 12 months, the net consideration paid, and the terms of any debt incurred in connection with those transactions; and

(iii) (A) If the bank holding company has consolidated assets of $500 million or more, consolidated pro forma risk-based capital and leverage ratio calculations for the bank holding company as of the most recent quarter, and, if the redemption is to be debt funded, a parent-only pro forma balance sheet as of the most recent quarter; or

(B) If the bank holding company has consolidated assets of less than $500 million, a pro forma parent-only balance sheet as of the most recent quarter, and, if the redemption is to be debt funded, one-year income statement and cash flow projections.

(3) Acting on notice. Within 15 calendar days of receipt of a notice under this section, the appropriate Reserve Bank shall either approve the transaction proposed in the notice or refer the notice to the Board for decision. If the notice is referred to the Board for decision, the Board shall act on the notice within 30 calendar days after the Reserve Bank receives the notice.

(4) Factors considered in acting on notice. (i) The Board may disapprove a proposed purchase or redemption if it finds that the proposal would constitute an unsafe or unsound practice, or would violate any law, regulation, Board order, directive, or any condition imposed by, or written agreement with, the Board.

(ii) In determining whether a proposal constitutes an unsafe or unsound practice, the Board shall consider whether the bank holding company's financial condition, after giving effect to the proposed purchase or redemption, meets the financial standards applied by the Board under section 3 of the BHC Act, including the Board's Capital Adequacy Guidelines (appendix A of this part) and the Board's Policy Statement for Small Bank Holding Companies (appendix C of this part).

(5) Disapproval and hearing. (i) The Board shall notify the bank holding company in writing of the reasons for a decision to disapprove any proposed purchase or redemption. Within 10 calendar days of receipt of a notice of disapproval by the Board, the bank holding company may submit a written request for a hearing.

(ii) The Board shall order a hearing within 10 calendar days of receipt of
Federal Reserve System

§ 225.4

the request if it finds that material facts are in dispute, or if it otherwise appears appropriate. Any hearing conducted under this paragraph shall be held in accordance with the Board’s Rules of Practice for Formal Hearings (12 CFR part 263).

(iii) At the conclusion of the hearing, the Board shall by order approve or disapprove the proposed purchase or redemption on the basis of the record of the hearing.

(6) Exception for well-capitalized bank holding companies. A bank holding company is not required to obtain prior Board approval for the redemption or purchase of its equity securities under this section provided:

(i) Both before and immediately after the redemption, the bank holding company is well-capitalized;

(ii) The bank holding company is well-managed; and

(iii) The bank holding company is not the subject of any unresolved supervisory issues.

(c) Deposit insurance. Every bank that is a bank holding company or a subsidiary of a bank holding company shall obtain Federal Deposit Insurance and shall remain an insured bank as defined in section 3(h) of the Federal Deposit Insurance Act (12 U.S.C. 1813(h)).

(d) Acting as transfer agent or clearing agent. A bank holding company or any nonbanking subsidiary that is a “bank,” as defined in section 3(a)(6) of the Securities Exchange Act of 1934 (15 U.S.C. 78c(a)(6)), and that is a transfer agent of securities, a clearing agency, or a participant in a clearing agency (as those terms are defined in section 3(a) of the Securities Exchange Act of 1934 (15 U.S.C. 78c(a)(6))), and that is a transfer agent of securities, a clearing agency, or a participant in a clearing agency as defined in section 3(a)(6) of the Securities Exchange Act of 1934 (15 U.S.C. 78c(a)(6)), shall be subject to §§208.31–208.33 of the Board’s Regulation H (12 CFR 208.31–208.33) as if it were a state member bank.

(e) Reporting requirement for credit secured by certain bank holding company stock. Each executive officer or director of a bank holding company the shares of which are not publicly traded shall report annually to the board of directors of the bank holding company the outstanding amount of any credit that was extended to the executive officer or director that is secured by shares of the bank holding company. For purposes of this paragraph, the terms “executive officer” and “director” shall have the meaning given in §215.2 of Regulation O (12 CFR 215.2).

(f) Suspicious activity report. A bank holding company or any nonbank subsidiary thereof, or a foreign bank that is subject to the BHC Act or any nonbank subsidiary of such foreign bank operating in the United States, shall file a suspicious activity report in accordance with the provisions of §208.62 of the Board’s Regulation H (12 CFR 208.62).

(g) Requirements for financial holding companies engaged in securities underwriting, dealing, or market-making activities. (1) Any intra-day extension of credit by a bank or thrift, or U.S. branch or agency of a foreign bank to an affiliated company engaged in underwriting, dealing in, or making a market in securities pursuant to section 4(k)(4)(E) of the Bank Holding Company Act (12 U.S.C. 1843(k)(4)(E)) must be on market terms consistent with section 23B of the Federal Reserve Act (12 U.S.C. 371c–1).

(2) A foreign bank that is or is treated as a financial holding company under this part shall ensure that:

(i) Any extension of credit by any U.S. branch or agency of such foreign bank to an affiliated company engaged in underwriting, dealing in, or making a market in securities pursuant to section 4(k)(4)(E) of the Bank Holding Company Act (12 U.S.C. 1843(k)(4)(E)), conforms to sections 23A and 23B of the Federal Reserve Act (12 U.S.C. 371c and 371c–1) as if the branch or agency were a member bank;

(ii) Any purchase by any U.S. branch or agency of such foreign bank, as principal or fiduciary, of securities for which a securities affiliate described in paragraph (g)(2)(i) of this section is a principal underwriter conforms to sections 23A and 23B of the Federal Reserve Act (12 U.S.C. 371c and 371c–1) as if the branch or agency were a member bank; and

(iii) Its U.S. branches and agencies not advertise or suggest that they are responsible for the obligations of a securities affiliate described in paragraph (g)(2)(i) of this section, consistent with section 23B(c) of the Federal Reserve Act (12 U.S.C. 371c–1(c)) as
§ 225.5 Registration, reports, and inspections.

(a) Registration of bank holding companies. Each company shall register within 180 days after becoming a bank holding company by furnishing information in the manner and form prescribed by the Board. A company that receives the Board’s prior approval under subpart B of this part to become a bank holding company may complete this registration requirement through submission of its first annual report to the Board as required by paragraph (b) of this section.

(b) Reports of bank holding companies. Each bank holding company shall furnish, in the manner and form prescribed by the Board, an annual report of the company’s operations for the fiscal year in which it becomes a bank holding company, and for each fiscal year during which it remains a bank holding company. Additional information and reports shall be furnished as the Board may require.

(c) Examinations and inspections. The Board may examine or inspect any bank holding company and each of its subsidiaries and prepare a report of their operations and activities. With respect to a foreign banking organization, the Board may also examine any branch or agency of a foreign bank in any state of the United States and may examine or inspect each of the organization’s subsidiaries in the United States and prepare reports of their operations and activities. The Board shall rely, as far as possible, on the reports of examination made by the primary federal or state supervisor of the subsidiary bank of the bank holding company or of the branch or agency of the foreign bank.

§ 225.6 Penalties for violations.

(a) Criminal and civil penalties. (1) Section 8 of the BHC Act provides criminal penalties for willful violation, and civil penalties for violation, by any company or individual, of the BHC Act or any regulation or order issued under it, or for making a false entry in any book, report, or statement of a bank holding company.

(2) Civil money penalty assessments for violations of the BHC Act shall be made in accordance with subpart C of the Board’s Rules of Practice for Hearings (12 CFR part 263, subpart C). For any willful violation of the Bank Control Act or any regulation or order issued under it, the Board may assess a civil penalty as provided in 12 U.S.C. 1817(j)(15).

(b) Cease-and-desist proceedings. For any violation of the BHC Act, the Bank Control Act, this regulation, or any order or notice issued thereunder, the Board may institute a cease-and-desist proceeding in accordance with the Financial Institutions Supervisory Act of 1966, as amended (12 U.S.C. 1818(b) et seq.).

§ 225.7 Exceptions to tying restrictions.

(a) Purpose. This section establishes exceptions to the anti-tying restrictions of section 106 of the Bank Holding Company Act Amendments of 1970 (12 U.S.C. 1971, 1972(1)). These exceptions are in addition to those in section 106. The section also restricts tying of electronic benefit transfer services by bank holding companies and their nonbank subsidiaries.

(b) Exceptions to statute. Subject to the limitations of paragraph (c) of this section, a bank may:

(1) Extension to affiliates of statutory exceptions preserving traditional banking relationships. Extend credit, lease or sell property of any kind, or furnish any service, or fix or vary the consideration for any of the foregoing, on the condition or requirement that a customer:
§ 225.11 Transactions requiring Board approval.

The following transactions require the Board’s prior approval under section 3 of the Bank Holding Company Act except as exempted under §225.12 or as otherwise covered by §225.17 of this subpart:

(a) Formation of bank holding company. Any action that causes a bank or other company to become a bank holding company.

(b) Acquisition of subsidiary bank. Any action that causes a bank to become a subsidiary of a bank holding company.

(c) Acquisition of control of bank or bank holding company securities. (1) The acquisition by a bank holding company of direct or indirect ownership or control of any voting securities of a bank or bank holding company, if the acquisition results in the company’s control of more than 5 percent of the outstanding shares of any class of voting securities of the bank or bank holding company.

(2) An acquisition includes the purchase of additional securities through the exercise of preemptive rights, but does not include securities received in a stock dividend or stock split that does not alter the bank holding company’s proportional share of any class of voting securities.

(d) Acquisition of bank assets. The acquisition by a bank holding company or by a subsidiary thereof (other than a bank) of all or substantially all of the assets of a bank.

(e) Merger of bank holding companies. The merger or consolidation of bank holding companies, including a merger...
through the purchase of assets and assumption of liabilities.

(f) Transactions by foreign banking organization. Any transaction described in paragraphs (a) through (e) of this section by a foreign banking organization that involves the acquisition of an interest in a U.S. bank or in a bank holding company for which application would be required if the foreign banking organization were a bank holding company.

§ 225.12 Transactions not requiring Board approval.

The following transactions do not require the Board’s approval under § 225.11 of this subpart:

(a) Acquisition of securities in fiduciary capacity. The acquisition by a bank or other company (other than a trust that is a company) of control of voting securities of a bank or bank holding company in good faith in a fiduciary capacity, unless:

(1) The acquiring bank or other company has sole discretionary authority to vote the securities and retains this authority for more than two years; or

(2) The acquisition is for the benefit of the acquiring bank or other company, or its shareholders, employees, or subsidiaries.

(b) Acquisition of securities in satisfaction of debts previously contracted. The acquisition by a bank or other company of control of voting securities of a bank or bank holding company in the regular course of securing or collecting a debt previously contracted in good faith, if the acquiring bank or other company divests the securities within two years of acquisition. The Board or Reserve Bank may grant requests for up to three one-year extensions.

(c) Acquisition of securities by bank holding company with majority control. The acquisition by a bank holding company of additional voting securities of a bank or bank holding company if more than 50 percent of the outstanding voting securities of the bank or bank holding company is lawfully controlled by the acquiring bank holding company prior to the acquisition.

(d) Acquisitions involving bank mergers and internal corporate reorganizations—

(1) Transactions subject to Bank Merger Act. The merger or consolidation of a subsidiary bank of a bank holding company with another bank, or the purchase of assets by the subsidiary bank, or a similar transaction involving subsidiary banks of a bank holding company, if the transaction requires the prior approval of a federal supervisory agency under the Bank Merger Act (12 U.S.C. 1828(c)) and does not involve the acquisition of shares of a bank. This exception does not include:

(i) The merger of a nonsubsidiary bank and a nonoperating subsidiary bank formed by a company for the purpose of acquiring the nonsubsidiary bank; or

(ii) Any transaction requiring the Board’s prior approval under §225.11(e) of this subpart.

The Board may require an application under this subpart if it determines that the merger or consolidation would have a significant adverse impact on the financial condition of the bank holding company, or otherwise requires approval under section 3 of the BHC Act.

(2) Certain acquisitions subject to Bank Merger Act. The acquisition by a bank holding company of shares of a bank or company controlling a bank or the merger of a company controlling a bank with the bank holding company, if the transaction is part of the merger or consolidation of the bank with a subsidiary bank (other than a nonoperating subsidiary bank) of the acquiring bank holding company, or is part of the purchase of substantially all of the assets of the bank by a subsidiary bank (other than a nonoperating subsidiary bank) of the acquiring bank holding company, and if:

(i) The bank merger, consolidation, or asset purchase occurs simultaneously with the acquisition of the shares of the bank or bank holding company or the merger of holding companies, and the bank is not operated by the acquiring bank holding company as a separate entity other than as the survivor of the merger, consolidation, or asset purchase;

(ii) The transaction requires the prior approval of a federal supervisory agency under the Bank Merger Act (12 U.S.C. 1828(c)).
Federal Reserve System § 225.13

(iii) The transaction does not involve the acquisition of any nonbank company that would require prior approval under section 4 of the BHC Act (12 U.S.C. 1843);

(iv) Both before and after the transaction, the acquiring bank holding company meets the Board’s Capital Adequacy Guidelines (appendices A, B, C, D, and E of this part);

(v) At least 10 days prior to the transaction, the acquiring bank holding company has provided to the Reserve Bank written notice of the transaction that contains:

(A) A copy of the filing made to the appropriate federal banking agency under the Bank Merger Act; and

(B) A description of the holding company’s involvement in the transaction, the purchase price, and the source of funding for the purchase price; and

(vi) Prior to expiration of the period provided in paragraph (d)(2)(v) of this section, the Reserve Bank has not informed the bank holding company that an application under §225.11 is required.

(3) Internal corporate reorganizations. (i) Subject to paragraph (d)(3)(ii) of this section, any of the following transactions performed in the United States by a bank holding company:

(A) The merger of holding companies that are subsidiaries of the bank holding company;

(B) The formation of a subsidiary holding company;

(C) The transfer of control or ownership of a subsidiary bank or a subsidiary holding company between one subsidiary holding company and another subsidiary holding company or the bank holding company.

(ii) A transaction described in paragraph (d)(3)(i) of this section qualifies for this exception if:

(A) The transaction represents solely a corporate reorganization involving companies and insured depository institutions that, both preceding and following the transaction, are lawfully controlled and operated by the bank holding company;

(B) The transaction does not involve the acquisition of additional voting shares of an insured depository institution that, prior to the transaction, was less than majority owned by the bank holding company;

(C) The bank holding company is not organized in mutual form; and

(D) Both before and after the transaction, the bank holding company meets the Board’s Capital Adequacy Guidelines (appendices A, B, C, D, and E of this part).

(e) Holding securities in escrow. The holding of any voting securities of a bank or bank holding company in an escrow arrangement for the benefit of an applicant pending the Board’s action on an application for approval of the proposed acquisition, if title to the securities and the voting rights remain with the seller and payment for the securities has not been made to the seller.

(f) Acquisition of foreign banking organization. The acquisition of a foreign banking organization where the foreign banking organization does not directly or indirectly own or control a bank in the United States, unless the acquisition is also by a foreign banking organization and otherwise subject to §225.11(f) of this subpart.

§ 225.13 Factors considered in acting on bank acquisition proposals.

(a) Factors requiring denial. As specified in section 3(c) of the BHC Act, the Board may not approve any application under this subpart if:

(1) The transaction would result in a monopoly or would further any combination or conspiracy to monopolize, or to attempt to monopolize, the business of banking in any part of the United States;

(2) The effect of the transaction may be substantially to lessen competition in any section of the country, tend to create a monopoly, or in any other manner be in restraint of trade, unless the Board finds that the transaction’s anti-competitive effects are clearly outweighed by its probable effect in meeting the convenience and needs of the community;

(3) The applicant has failed to provide the Board with adequate assurances that it will make available such
§ 225.14 Expedited action for certain bank acquisitions by well-run bank holding companies.

(a) Filing of notice—(1) Information required and public notice. As an alternative to the procedure provided in § 225.15, a bank holding company that meets the requirements of paragraph (c) of this section may satisfy the prior approval requirements of § 225.11 in connection with the acquisition of shares, assets or control of a bank, or a merger or consolidation between bank holding companies, by providing the appropriate Reserve Bank with a written notice containing the following:

(i) A certification that all of the criteria in paragraph (c) of this section are met;

(ii) A description of the transaction that includes identification of the companies and insured depository institutions involved in the transaction and the record of the applicant and its affiliates of fulfilling any commitments to, and any conditions imposed by, the Board in connection with prior applications.

(3) Convenience and needs of community. The convenience and needs of the communities to be served, including the record of performance under the Community Reinvestment Act of 1977 (12 U.S.C. 2901 et seq.) and regulations issued thereunder, including the Board’s Regulation BB (12 CFR part 228).

(c) Interstate transactions. The Board may approve any application or notice under this subpart by a bank holding company to acquire control of all or substantially all of the assets of a bank located in a state other than the home state of the bank holding company, without regard to whether the transaction is prohibited under the law of any state, if the transaction complies with the requirements of section 3(d) of the BHC Act (12 U.S.C. 1842(d)).

(d) Conditional approvals. The Board may impose conditions on any approval, including conditions to address competitive, financial, managerial, safety and soundness, convenience and needs, compliance or other concerns, to ensure that approval is consistent with the relevant statutory factors and other provisions of the BHC Act.

§ 225.14 Expedited action for certain bank acquisitions by well-run bank holding companies.

(1) Financial condition. Their financial condition and future prospects, including whether current and projected capital positions and levels of indebtedness conform to standards and policies established by the Board.

(2) Managerial resources. The competence, experience, and integrity of the officers, directors, and principal shareholders of the applicant, its subsidiaries, and the banks and bank holding companies concerned; their record of compliance with laws and regulations; and the record of the applicant and its affiliates of fulfilling any commitments to, and any conditions imposed by, the Board in connection with prior applications.

(3) Convenience and needs of community. The convenience and needs of the communities to be served, including the record of performance under the Community Reinvestment Act of 1977 (12 U.S.C. 2901 et seq.) and regulations issued thereunder, including the Board’s Regulation BB (12 CFR part 228).

(c) Interstate transactions. The Board may approve any application or notice under this subpart by a bank holding company to acquire control of all or substantially all of the assets of a bank located in a state other than the home state of the bank holding company, without regard to whether the transaction is prohibited under the law of any state, if the transaction complies with the requirements of section 3(d) of the BHC Act (12 U.S.C. 1842(d)).

(d) Conditional approvals. The Board may impose conditions on any approval, including conditions to address competitive, financial, managerial, safety and soundness, convenience and needs, compliance or other concerns, to ensure that approval is consistent with the relevant statutory factors and other provisions of the BHC Act.
CRA performance of any insured depository institution subsidiary that does not have at least a satisfactory CRA performance rating at the time of the transaction;

(iv) Evidence that notice of the proposal has been published in accordance with §225.16(b)(1);

(v)(A) If the bank holding company has consolidated assets of $500 million or more, an abbreviated consolidated pro forma balance sheet as of the most recent quarter showing credit and debit adjustments that reflect the proposed transaction, consolidated pro forma risk-based capital ratios for the acquiring bank holding company as of the most recent quarter, and a description of the purchase price and the terms and sources of funding for the transaction;

(B) If the bank holding company has consolidated assets of less than $500 million, a pro forma parent-only balance sheet as of the most recent quarter showing credit and debit adjustments that reflect the proposed transaction, and a description of the purchase price, the terms and sources of funding for the transaction, and the sources and schedule for retiring any debt incurred in the transaction;

(vi) If the bank holding company has consolidated assets of less than $300 million, a list of and biographical information regarding any directors or senior executive officers of the resulting bank holding company that are not directors or senior executive officers of the acquiring bank holding company or of a company or institution to be acquired;

(vii) For each insured depository institution whose Tier 1 capital, total capital, total assets or risk-weighted assets change as a result of the transaction, the total risk-weighted assets, total assets, Tier 1 capital and total capital of the institution on a pro forma basis; and

(viii) The market indexes for each relevant banking market reflecting the pro forma effect of the transaction.

(2) Waiver of unnecessary information. The Reserve Bank may reduce the information requirements in paragraph (a)(1)(v) through (viii) of this section as appropriate.

(b)(1) Action on proposals under this section. The Board or the appropriate Reserve Bank shall act on a proposal submitted under this section or notify the bank holding company that the transaction is subject to the procedure in §225.15 within 5 business days after the close of the public comment period. The Board and the Reserve Bank shall not approve any proposal under this section prior to the third business day following the close of the public comment period, unless an emergency exists that requires expedited or immediate action. The Board may extend the period for action under this section for up to 5 business days.

(2) Acceptance of notice in event expedited procedure not available. In the event that the Board or the Reserve Bank determines after the filing of a notice under this section that a bank holding company may not use the procedure in this section and must file an application under §225.15, the application shall be deemed accepted for purposes of §225.15 as of the date that the notice was filed under this section.

(c) Criteria for use of expedited procedure. The procedure in this section is available only if:

(1) Well-capitalized organization—(i) Bank holding company. Both at the time of and immediately after the proposed transaction, the acquiring bank holding company is well-capitalized;

(ii) Insured depository institutions. Both at the time of and immediately after the proposed transaction:

(A) The lead insured depository institution of the acquiring bank holding company is well-capitalized;

(B) Well-capitalized insured depository institutions control at least 80 percent of the total risk-weighted assets of insured depository institutions controlled by the holding company; and

(C) No insured depository institution controlled by the acquiring bank holding company is undercapitalized;

(2) Well managed organization—(i) Satisfactory examination ratings. At the time of the transaction, the acquiring bank holding company, its lead insured depository institution, and insured depository institutions that control at least 80 percent of the total risk-weighted assets of insured depository institutions controlled by the holding company are well managed and have
received at least a satisfactory rating for compliance at their most recent examination if such rating was given;

(ii) **No poorly managed institutions.** No insured depository institution controlled by the acquiring bank holding company has received 1 of the 2 lowest composite ratings at the later of the institution’s most recent examination or subsequent review by the appropriate federal banking agency for the institution;

(iii) **Recently acquired institutions excluded.** Any insured depository institution that has been acquired by the bank holding company during the 12-month period preceding the date on which written notice is filed under paragraph (a) of this section may be excluded for purposes of paragraph (c)(2)(ii) of this section if:

(A) The bank holding company has developed a plan acceptable to the appropriate federal banking agency for the institution to restore the capital and management of the institution; and

(B) All insured depository institutions controlled by the acquiring bank holding company during the 12-month period preceding the date on which written notice is filed under paragraph (a) of this section may be excluded for purposes of paragraph (c)(2)(ii) of this section if:

(5) **Competitive criteria.—**

(i) **Competitive screen.** Without regard to any divestitures proposed by the acquiring bank holding company, the acquisition does not cause:

(A) Insured depository institutions controlled by the acquiring bank holding company to control in excess of 35 percent of market deposits in any relevant banking market; or

(B) The Herfindahl-Hirschman index to increase by more than 200 points in any relevant banking market with a post-acquisition index of at least 1800; and

(ii) **Department of Justice.** The Department of Justice has not indicated to the Board that consummation of the transaction is likely to have a significantly adverse effect on competition in any relevant banking market;

(6) **Size of acquisition.—**

(i) **Limited Growth.** Except as provided in paragraph (c)(6)(ii) of this section, the sum of the aggregate risk-weighted assets to be acquired in the proposal and the aggregate risk-weighted assets acquired by the acquiring bank holding company in all other qualifying transactions does not exceed 35 percent of the consolidated risk-weighted assets of the acquiring bank holding company. For purposes of this paragraph other qualifying transactions means any transaction approved under this section or §225.23 during the 12 months prior to filing the notice under this section; and

(ii) **Small bank holding companies.** Paragraph (c)(6)(i)(A) of this section shall not apply if, immediately following consummation of the proposed transaction, the consolidated risk-weighted assets of the acquiring bank holding company are less than $300 million;

(7) **Supervisory actions.** During the 12-month period ending on the date on which the bank holding company proposes to consummate the proposed transaction, no formal administrative order, including a written agreement, cease and desist order, capital directive, prompt corrective action directive, asset maintenance agreement, or other formal enforcement action, is or
was outstanding against the bank holding company or any insured depository institution subsidiary of the holding company, and no formal administrative enforcement proceeding involving any such enforcement action, order, or directive is or was pending; 
(8) Interstate acquisitions. Board approval of the transaction is not prohibited under section 3(d) of the BHC Act; and 
(9) Other supervisory considerations. Board approval of the transaction is not prohibited under the informational sufficiency or comprehensive home country supervision standards set forth in section 3(c)(3) of the BHC Act; and 
(10) Notification. The acquiring bank holding company has not been notified by the Board, in its discretion, prior to the expiration of the period in paragraph (b)(1) of this section that an application under §225.15 is required in order to permit closer review of any financial, managerial, competitive, convenience and needs or other matter related to the factors that must be considered under this part.

(d) Comment by primary banking supervisor—(1) Notice. Upon receipt of a notice under this section, the appropriate Reserve Bank shall promptly furnish notice of the proposal and a copy of the information filed pursuant to paragraph (a) of this section to the primary banking supervisor of the insured depository institutions to be acquired.
(2) Comment period. The primary banking supervisor shall have 30 calendar days (or such shorter time as agreed to by the primary banking supervisor) from the date of the letter giving notice in which to submit its views and recommendations to the Board.
(3) Action subject to supervisor’s comment. Action by the Board or the Reserve Bank on a proposal under this section is subject to the condition that the primary banking supervisor not recommend in writing to the Board disapproval of the proposal prior to the expiration of the comment period described in paragraph (d)(2) of this section. In such event, any approval given under this section shall be revoked and, if required by section 3(b) of the BHC Act, the Board shall order a hearing on the proposal.
(4) Emergencies. Notwithstanding paragraphs (d)(2) and (d)(3) of this section, the Board may provide the primary banking supervisor with 10 calendar days’ notice of a proposal under this section if the Board finds that an emergency exists requiring expeditious action, and may act during the notice period or without providing notice to the primary banking supervisor if the Board finds that it must act immediately to prevent probable failure.
(5) Primary banking supervisor. For purposes of this section and §225.15(b), the primary banking supervisor for an institution is:
(i) The Office of the Comptroller of the Currency, in the case of a national banking association or District bank;
(ii) The appropriate supervisory authority for the State in which the bank is chartered, in the case of a State bank;
(iii) The Director of the Office of Thrift Supervision, in the case of a savings association.
(e) Branches and agencies of foreign banking organizations. For purposes of this section, a U.S. branch or agency of a foreign banking organization shall be considered to be an insured depository institution. A U.S. branch or agency of a foreign banking organization shall be subject to paragraph (c)(3)(ii) of this section only to the extent it is insured by the Federal Deposit Insurance Corporation in accordance with section 6 of the International Banking Act of 1978 (12 U.S.C. 3104).

§ 225.15 Procedures for other bank acquisition proposals.
(a) Filing application. Except as provided in §225.14, an application for the Board’s prior approval under this subpart shall be governed by the provisions of this section and shall be filed with the appropriate Reserve Bank on the designated form.
(b) Notice to primary banking supervisor. Upon receipt of an application under this subpart, the Reserve Bank shall promptly furnish notice and a copy of the application to the primary banking supervisor of each bank to be acquired. The primary supervisor shall
§ 225.16 Public notice, comments, hearings, and other provisions governing applications and notices.

(a) In general. The provisions of this section apply to all notices and applications filed under §225.14 and §225.15.

(b) Public notice—(1) Newspaper publication. In the case of each notice or application submitted under §225.14 or §225.15, the applicant shall publish a notice in a newspaper of general circulation, in the form and at the locations specified in §262.3 of the Rules of Procedure (12 CFR 262.3);

(ii) Contents of notice. A newspaper notice under this paragraph shall provide an opportunity for interested persons to comment on the proposal for a period of at least 30 calendar days;

(iii) Timing of publication. Each newspaper notice published in connection with a proposal under this paragraph shall be published no more than 15 calendar days before and no later than 7 calendar days following the date that a notice or application is filed with the appropriate Reserve Bank.

(2) Federal Register notice. (i) Publication by Board. Upon receipt of a notice or application under §225.14 or §225.15, the Board shall promptly publish notice of the proposal in the Federal Register and shall provide an opportunity for interested persons to comment on the proposal for a period of no more than 30 days;

(ii) Request for advance publication. A bank holding company may request that, during the 15-day period prior to filing a notice or application under §225.14 or §225.15, the Board publish notice of a proposal in the Federal Register. A request for advance Federal Register publication shall be made in writing to the appropriate Reserve Bank and shall contain the identifying information prescribed by the Board for Federal Register publication;

(iii) Waiver or shortening of notice. The Board may waive or shorten the required notice periods under this section if the Board determines that an emergency exists requiring expeditious action on the proposal, or if the Board finds that immediate action is necessary to prevent the probable failure of an insured depository institution.

(c) Public comment—(1) Timely comments. Interested persons may submit information and comments regarding a proposal filed under this subpart. A comment shall be considered timely for purposes of this subpart if the comment, together with all supplemental information, is submitted in writing in accordance with the Board’s Rules of Procedure and received by the Board or the appropriate Reserve Bank prior to the expiration of the latest public comment period provided in paragraph (b) of this section.
(2) Extension of comment period—(1) In general. The Board may, in its discretion, extend the public comment period regarding any proposal submitted under this subpart.

(ii) Requests in connection with obtaining application or notice. In the event that an interested person has requested a copy of a notice or application submitted under this subpart, the Board may, in its discretion and based on the facts and circumstances, grant such person an extension of the comment period for up to 15 calendar days.

(iii) Joint requests by interested person and acquiring company. The Board will grant a joint request by an interested person and the acquiring bank holding company for an extension of the comment period for a purpose related to the statutory factors the Board must consider under this subpart.

(3) Substantive comment. A comment will be considered substantive for purposes of this subpart unless it involves individual complaints, or raises frivolous, previously-considered or wholly unsubstantiated claims or irrelevant issues.

(d) Notice to Attorney General. The Board or Reserve Bank shall immediately notify the United States Attorney General of approval of any notice or application under §225.14 or §225.15.

(e) Hearings. As provided in section 3(b) of the BHC Act, the Board shall order a hearing on any application or notice under §225.15 if the Board receives from the primary supervisor of the bank to be acquired, within the 30-day period specified in §225.15(b), a written recommendation of disapproval of an application. The Board may order a formal or informal hearing or other proceeding on the application or notice, as provided in §262.3(i)(2) of the Board’s Rules of Procedure. Any request for a hearing (other than from the primary supervisor) shall comply with §262.3(e) of the Rules of Procedure (12 CFR 262.3(e)).

(f) Approval through failure to act—(1) Ninety-one day rule. An application or notice under §225.14 or §225.15 shall be deemed approved if the Board fails to act on the application or notice within 91 calendar days after the date of submission to the Board of the complete record on the application. For this purpose, the Board acts when it issues an order stating that the Board has approved or denied the application or notice, reflecting the votes of the members of the Board, and indicating that a statement of the reasons for the decision will follow promptly.

(2) Complete record. For the purpose of computing the commencement of the 91-day period, the record is complete on the latest of:

(i) The date of receipt by the Board of an application or notice that has been accepted by the Reserve Bank;

(ii) The last day provided in any notice for receipt of comments and hearing requests on the application or notice;

(iii) The date of receipt by the Board of the last relevant material regarding the application or notice that is needed for the Board’s decision, if the material is received from a source outside of the Federal Reserve System; or

(iv) The date of completion of any hearing or other proceeding.

(g) Exceptions to notice and hearing requirements—(1) Probable bank failure. If the Board finds it must act immediately on an application or notice in order to prevent the probable failure of a bank or bank holding company, the Board may modify or dispense with the notice and hearing requirements of this section.

(2) Emergency. If the Board finds that, although immediate action on an application or notice is not necessary, an emergency exists requiring expeditious action, the Board shall provide the primary supervisor 10 days to submit its recommendation. The Board may act on such an application or notice without a hearing and may modify or dispense with the notice and hearing requirements of this section.

(h) Waiting period. A transaction approved under §225.14 or §225.15 shall not be consummated until 30 days after the date of approval of the application, except that a transaction may be consummated:

(1) Immediately upon approval, if the Board has determined under paragraph (g) of this section that the application or notice involves a probable bank failure;
§ 225.17 Notice procedure for one-bank holding company formations.

(a) Transactions that qualify under this section. An acquisition by a company of control of a bank may be consummated 30 days after providing notice to the appropriate Reserve Bank in accordance with paragraph (b) of this section, provided that all of the following conditions are met:

(1) The shareholder or shareholders who control at least 67 percent of the shares of the bank will control, immediately after the reorganization, at least 67 percent of the shares of the holding company in substantially the same proportion, except for changes in shareholders’ interests resulting from the exercise of dissenting shareholders’ rights under state or federal law;

(2) No shareholder, or group of shareholders acting in concert, will, following the reorganization, own or control 10 percent or more of any class of voting shares of the bank holding company, unless that shareholder or group of shareholders was authorized, after review under the Change in Bank Control Act of 1978 (12 U.S.C. 1817(j)) by the appropriate federal banking agency for the bank, to own or control 10 percent or more of any class of voting shares of the bank;

(3) The bank is adequately capitalized (as defined in section 38 of the Federal Deposit Insurance Act (12 U.S.C. 1831o));

(4) The bank received at least a composite “satisfactory” rating at its most recent examination, in the event that the bank was examined;

(5) At the time of the reorganization, neither the bank nor any of its officers, directors, or principal shareholders is involved in any unresolved supervisory or enforcement matters with any appropriate federal banking agency;

(6) The company demonstrates that any debt that it incurs at the time of the reorganization, and the proposed means of retiring this debt, will not place undue burden on the holding company or its subsidiary on a pro forma basis;

(7) The holding company will not, as a result of the reorganization, acquire control of any additional bank or engage in any activities other than those of managing and controlling banks; and

(8) During this period, neither the appropriate Reserve Bank nor the Board objected to the proposal or required the filing of an application under §225.15 of this subpart.

(b) Contents of notice. A notice filed under this paragraph shall include:

(1) Certification by the notificant’s board of directors that the requirements of 12 U.S.C. 1842(a)(C) and this section are met by the proposal;

(2) A list identifying all principal shareholders of the bank prior to the reorganization and of the holding company following the reorganization, and specifying the percentage of shares held by each principal shareholder in the bank and proposed to be held in the new holding company;

(3) The board of directors of the bank holding company of the bank forming the new holding company certifies that the bank is not a bank holding company (other than the company in formation) to be required to register as a bank holding company. This procedure also is not available for the formation of a bank holding company organized in mutual form.

A shareholder of a bank in reorganization will be considered to have the same proportional interest in the holding company if the shareholder interest increases, on a pro rata basis, as a result of either the redemption of shares from dissenting shareholders by the bank or bank holding company, or the acquisition of shares of dissenting shareholders by the remaining shareholders.

This procedure is not available in cases in which the exercise of dissenting shareholders’ rights would cause a company that is not a bank holding company (other than the company in formation) to be required to register as a bank holding company. This procedure also is not available for the formation of a bank holding company organized in mutual form.
Federal Reserve System

§ 225.21 Prohibited nonbanking activities and acquisitions; exempt bank holding companies.

(a) Prohibited nonbanking activities and acquisitions. Except as provided in §225.22 of this subpart, a bank holding company or a subsidiary may not engage in, or acquire or control, directly or indirectly, voting securities or assets of a company engaged in, any activity other than:

(1) Banking or managing or controlling banks and other subsidiaries authorized under the BHC Act; and

(2) An activity that the Board determines to be so closely related to banking, or managing or controlling banks as to be a proper incident thereto, including any incidental activities that are necessary to carry on such an activity, if the bank holding company has obtained the prior approval of the Board for that activity in accordance with the requirements of this regulation.

(b) Exempt bank holding companies. The following bank holding companies are exempt from the provisions of this subpart:

(1) Family-owned companies. Any company that is a “company covered in 1970” (as defined in section 2(b) of the BHC Act), more than 85 percent of the voting securities of which was collectively owned on June 30, 1968, and continuously thereafter, by members of the same family (or their spouses) who are lineal descendants of common ancestors.

(2) Labor, agricultural, and horticultural organizations. Any company that was on January 4, 1977, both a bank holding company and a labor, agricultural, or horticultural organization exempt from taxation under section 501 of the Internal Revenue Code (26 U.S.C. 501(c)).

(3) Companies granted hardship exemption. Any bank holding company that has controlled only one bank since before July 1, 1968, and that has been granted an exemption by the Board under section 4(d) of the BHC Act, subject to any conditions imposed by the Board.

(4) Companies granted exemption on other grounds. Any company that acquired control of a bank before December 10, 1982, without the Board’s prior

Subpart—Nonbanking Activities and Acquisitions by Bank Holding Companies

approval under section 3 of the BHC Act, on the basis of a narrow interpretation of the term demand deposit or commercial loan, if the Board has determined that:

(i) Coverage of the company as a bank holding company under this subpart would be unfair or represent an unreasonable hardship; and

(ii) Exclusion of the company from coverage under this part is consistent with the purposes of the BHC Act and section 106 of the Bank Holding Company Act Amendments of 1970 (12 U.S.C. 1971, 1972(1)). The provisions of §225.4 of subpart A of this part do not apply to a company exempt under this paragraph.

§ 225.22 Exempt nonbanking activities and acquisitions.

(a) Certain de novo activities. A bank holding company may, either directly or indirectly, engage de novo in any nonbanking activity listed in §225.28(b) (other than operation of an insured depository institution) without obtaining the Board's prior approval if the bank holding company:

(1) Meets the requirements of paragraphs (c) (1), (2), and (6) of §225.23;

(2) Conducts the activity in compliance with all Board orders and regulations governing the activity; and

(3) Within 10 business days after commencing the activity, provides written notice to the appropriate Reserve Bank describing the activity, identifying the company or companies engaged in the activity, and certifying that the activity will be conducted in accordance with the Board’s orders and regulations and that the bank holding company meets the requirements of paragraphs (c) (1), (2), and (6) of §225.23.

(b) Servicing activities. A bank holding company may, without the Board’s prior approval under this subpart, furnish services to or perform services for, or establish or acquire a company that engages solely in servicing activities for:

(1) The bank holding company or its subsidiaries in connection with their activities as authorized by law, including services that are necessary to fulfill commitments entered into by the subsidiaries with third parties, if the bank holding company or servicing company complies with the Board’s published interpretations and does not act as principal in dealing with third parties; and

(2) The internal operations of the bank holding company or its subsidiaries. Services for the internal operations of the bank holding company or its subsidiaries include, but are not limited to:

(i) Accounting, auditing, and appraising;

(ii) Advertising and public relations;

(iii) Data processing and data transmission services, data bases, or facilities;

(iv) Personnel services;

(v) Courier services;

(vi) Holding or operating property used wholly or substantially by a subsidiary in its operations or for its future use;

(vii) Liquidating property acquired from a subsidiary;

(viii) Liquidating property acquired from any sources either prior to May 9, 1956, or the date on which the company became a bank holding company, whichever is later; and

(ix) Selling, purchasing, or underwriting insurance, such as blanket bond insurance, group insurance for employees, and property and casualty insurance.

(c) Safe deposit business. A bank holding company or nonbank subsidiary may, without the Board’s prior approval, conduct a safe deposit business, or acquire voting securities of a company that conducts such a business.

(d) Nonbanking acquisitions not requiring prior Board approval. The Board’s prior approval is not required under this subpart for the following acquisitions:

(1) DPC acquisitions. (i) Voting securities or assets, acquired by foreclosure or otherwise, in the ordinary course of collecting a debt previously contracted (DPC property) in good faith, if the DPC property is divested within two years of acquisition.

(ii) The Board may, upon request, extend this two-year period for up to three additional years. The Board may permit additional extensions for up to 5 years (for a total of 10 years), for shares, real estate or other assets.
where the holding company demonstrates that each extension would not be detrimental to the public interest and either the bank holding company has made good faith attempts to dispose of such shares, real estate or other assets or disposal of the shares, real estate or other assets during the initial period would have been detrimental to the company.

(iii) Transfers of DPC property within the bank holding company system do not extend any period for divestiture of the property.

(2) Securities or assets required to be divested by subsidiary. Voting securities or assets required to be divested by a subsidiary at the request of an examining federal or state authority (except by the Board under the BHC Act or this regulation), if the bank holding company divests the securities or assets within two years from the date acquired from the subsidiary.

(3) Fiduciary investments. Voting securities or assets acquired by a bank or other company (other than a trust that is a company) in good faith in a fiduciary capacity, if the voting securities or assets are:

(i) Held in the ordinary course of business; and

(ii) Not acquired for the benefit of the company or its shareholders, employees, or subsidiaries.

(4) Securities eligible for investment by national bank. Voting securities of the kinds and amounts explicitly eligible by federal statute (other than section 4 of the Bank Service Corporation Act, 12 U.S.C. 1864) for investment by a national bank, and voting securities acquired prior to June 30, 1971, in reliance on section 4(c)(5) of the BHC Act and interpretations of the Comptroller of the Currency under section 5136 of the Revised Statutes (12 U.S.C. 24(7)).

(5) Securities or property representing 5 percent or less of a company. Voting securities of a company or property that, in the aggregate, represent 5 percent or less of the outstanding shares of any class of voting securities of a company, or that represent a 5 percent interest or less in the property, subject to the provisions of 12 CFR 225.137.

(6) Securities of investment company. Voting securities of an investment company that is solely engaged in investing in securities and that does not own or control more than 5 percent of the outstanding shares of any class of voting securities of any company.

(7) Assets acquired in ordinary course of business. Assets of a company acquired in the ordinary course of business, subject to the provisions of 12 CFR 225.132, if the assets relate to activities in which the acquiring company has previously received Board approval under this regulation to engage.

(8) Asset acquisitions by lending company or industrial bank. Assets of an office(s) of a company, all or substantially all of which relate to making, acquiring, or servicing loans if:

(i) The acquiring company has previously received Board approval under this regulation or is not required to obtain prior Board approval under this regulation to engage in lending activities or industrial banking activities;

(ii) The assets acquired during any 12-month period do not represent more than 50 percent of the risk-weighted assets (on a consolidated basis) of the acquiring lending company or industrial bank, or more than $100 million, whichever amount is less;

(iii) The assets acquired do not represent more than 50 percent of the selling company’s consolidated assets that are devoted to lending activities or industrial banking business;

(iv) The acquiring company notifies the Reserve Bank of the acquisition within 30 days after the acquisition; and

(v) The acquiring company, after giving effect to the transaction, meets the Board’s Capital Adequacy Guidelines (appendix A of this part), and the Board has not previously notified the acquiring company that it may not acquire assets under the exemption in this paragraph.

(e) Acquisition of securities by subsidiary banks—(1) National bank. A national bank or its subsidiary may, without the Board’s approval under this subpart, acquire or retain securities on the basis of section 4(c)(5) of the BHC Act in accordance with the regulations of the Comptroller of the Currency.

(2) State bank. A state-chartered bank or its subsidiary may, insofar as federal law is concerned, and without the
A bank holding company may acquire voting securities or assets of a savings association or other insured depository institution that is not a bank by using the procedures in §225.14 of subpart B if the bank holding company and the proposal qualify under that section as if the savings association or other institution were a bank for purposes of that section.

(i) A certification that all of the criteria in paragraph (c) of this section are met;

(ii) A description of the transaction that includes identification of the companies involved in the transaction, the activities to be conducted, and a commitment to conduct the proposed activities in conformity with the Board’s regulations and orders governing the conduct of the proposed activity;

(iii) If the proposal involves an acquisition of a going concern:

(A) If the bank holding company has consolidated assets of $500 million or more, an abbreviated consolidated pro forma balance sheet for the acquiring bank holding company as of the most recent quarter showing credit and debit adjustments that reflect the proposed transaction, consolidated pro forma risk-based capital ratios for the acquiring bank holding company as of the most recent quarter, a description of the purchase price and the terms and sources of funding for the transaction, and the total revenue and net income of the company to be acquired;

(B) If the bank holding company has consolidated assets of less than $500 million, a parent-only balance sheet as of the most recent quarter showing credit and debit adjustments that reflect the proposed transaction, a description of the purchase price and the terms and sources of funding for the transaction, and the total assets, off-balance sheet

1A bank holding company may acquire voting securities or assets of a savings association or other insured depository institution that is not a bank by using the procedures in §225.14 of subpart B if the bank holding company and the proposal qualify under that section as if the savings association or other institution were a bank for purposes of that section.
(C) For each insured depository institution whose Tier 1 capital, total capital, total assets or risk-weighted assets change as a result of the transaction, the total risk-weighted assets, total assets, Tier 1 capital and total capital of the institution on a pro forma basis;

(iv) Identification of the geographic markets in which competition would be affected by the proposal, a description of the effect of the proposal on competition in the relevant markets, a list of the major competitors in that market in the proposed activity if the affected market is local in nature, and, if requested, the market indexes for the relevant market; and

(v) A description of the public benefits that can reasonably be expected to result from the transaction.

(2) Waiver of unnecessary information. The Reserve Bank may reduce the information requirements in paragraphs (a)(1)(iii) and (iv) of this section as appropriate.

(b)(1) Action on proposals under this section. The Board or the appropriate Reserve Bank shall act on a proposal submitted under this section, or notify the bank holding company that the transaction is subject to the procedure in §225.24, within 12 business days following the filing of all of the information required in paragraph (a) of this section.

(2) Acceptance of notice if expedited procedure not available. If the Board or the Reserve Bank determines, after the filing of a notice under this section, that a bank holding company may not use the procedure in this section and notify the bank holding company that the transaction is subject to the procedure in §225.24, within 12 business days following the filing of all of the information required in paragraph (a) of this section.

(c) Criteria for use of expedited procedure. The procedure in this section is available only if:

(1) Well-capitalized organization—(i) Bank holding company. Both at the time of and immediately after the proposed transaction, the acquiring bank holding company is well-capitalized;

(ii) Insured depository institutions. Both at the time of and immediately after the transaction:

(A) The lead insured depository institution of the acquiring bank holding company is well-capitalized;

(B) Well-capitalized insured depository institutions control at least 80 percent of the total risk-weighted assets of insured depository institutions controlled by the acquiring bank holding company; and

(C) No insured depository institution controlled by the acquiring bank holding company is undercapitalized;

(2) Well managed organization—(i) Satisfactory examination ratings. At the time of the transaction, the acquiring bank holding company, its lead insured depository institution, and insured depository institutions that control at least 80 percent of the total risk-weighted assets of insured depository institutions controlled by the holding company are well managed and have received at least a satisfactory rating for compliance at their most recent examination if such rating was given;

(ii) No poorly managed institutions. No insured depository institution controlled by the acquiring bank holding company has received 1 of the 2 lowest composite ratings at the later of the institution’s most recent examination or subsequent review by the appropriate federal banking agency for the institution.

(iii) Recently acquired institutions excluded. Any insured depository institution that has been acquired by the bank holding company during the 12-month period preceding the date on which written notice is filed under paragraph (a) of this section may be excluded for purposes of paragraph (c)(2)(ii) of this section if:

(A) The bank holding company has developed a plan acceptable to the appropriate federal banking agency for the institution to restore the capital and management of the institution; and

(B) All insured depository institutions excluded under this paragraph represent, in the aggregate, less than 10 percent of the aggregate total risk-weighted assets of all insured depository institutions controlled by the bank holding company;

(3) Permissible activity. (i) The Board has determined by regulation or order
§ 225.24 Procedures for other nonbanking proposals.

(a) Notice required for nonbanking activities. Except as provided in §225.22 and §225.23, a notice for the Board’s prior approval under §225.21(a) to engage in or acquire a company engaged in a nonbanking activity shall be filed by a bank holding company (including a company seeking to become a bank holding company) with the appropriate Reserve Bank in accordance with this section and the Board’s Rules of Procedure (12 CFR 262.3).

(1) Engaging de novo in listed activities. A bank holding company seeking to commence or to engage de novo, either directly or through a subsidiary, in a nonbanking activity listed in §225.28

that each activity proposed to be conducted is so closely related to banking, or managing or controlling banks, as to be a proper incident thereto; and

(ii) The Board has not indicated that proposals to engage in the activity are subject to the notice procedure provided in §225.24;

(4) Competitive criteria—(i) Competitive screen. In the case of the acquisition of a going concern, the acquisition, without regard to any divestitures proposed by the acquiring bank holding company, does not cause:

(A) The acquiring bank holding company to control in excess of 35 percent of the market share in any relevant market; or

(B) The Herfindahl-Hirschman index to increase by more than 200 points in any relevant market with a post-acquisition index of at least 1800; and

(ii) Other competitive factors. The Board has not indicated that the transaction is subject to close scrutiny on competitive grounds;

(5) Size of acquisition—(i) In general—

(A) Limited growth. Except as provided in paragraph (c)(5)(ii) of this section, the sum of aggregate risk-weighted assets to be acquired in the proposal and the aggregate risk-weighted assets acquired by the acquiring bank holding company in all other qualifying transactions does not exceed 35 percent of the consolidated risk-weighted assets of the acquiring bank holding company. For purposes of this paragraph, “other qualifying transactions” means any transaction approved under this section or §225.14 during the 12 months prior to filing the notice under this section;

(B) Consideration paid. The gross consideration to be paid by the acquiring bank holding company in the proposal does not exceed 15 percent of the consolidated Tier 1 capital of the acquiring bank holding company; and

(C) Individual size limitation. The total risk-weighted assets to be acquired do not exceed $7.5 billion;

(ii) Small bank holding companies. Paragraph (c)(5)(i)(A) of this section shall not apply if, immediately following consummation of the proposed transaction, the consolidated risk-weighted assets of the acquiring bank holding company are less than $300 million;

(6) Supervisory actions. During the 12-month period ending on the date on which the bank holding company proposes to consummate the proposed transaction, no formal administrative order, including a written agreement, cease and desist order, capital directive, prompt corrective action directive, asset maintenance agreement, or other formal enforcement order is or was outstanding against the bank holding company or any insured depository institution subsidiary of the holding company, and no formal administrative enforcement proceeding involving any such enforcement action, order, or directive is or was pending; and

(7) Notification. The bank holding company has not been notified by the Board, in its discretion, prior to the expiration of the period in paragraph (b) of this section that a notice under §225.24 is required in order to permit closer review of any potential adverse effect or other matter related to the factors that must be considered under this part.

(d) Branches and agencies of foreign banking organizations. For purposes of this section, a U.S. branch or agency of a foreign banking organization shall be considered to be an insured depository institution.

shall file a notice containing a description of the activities to be conducted and the identity of the company that will conduct the activity.

(2) Acquiring company engaged in listed activities. A bank holding company seeking to acquire or control voting securities or assets of a company engaged in a nonbanking activity listed in §225.28 shall file a notice containing the following:

(i) A description of the proposal, including a description of each proposed activity, and the effect of the proposal on competition among entities engaging in each proposed activity in each relevant market with relevant market indexes;

(ii) The identity of any entity involved in the proposal, and, if the notificant proposes to conduct the activity through an existing subsidiary, a description of the existing activities of the subsidiary;

(iii) A statement of the public benefits that can reasonably be expected to result from the proposal;

(iv) If the bank holding company has consolidated assets of $150 million or more:

(A) Parent company and consolidated pro forma balance sheets for the acquiring bank holding company as of the most recent quarter showing credit and debit adjustments that reflect the proposed transaction;

(B) Consolidated pro forma risk-based capital and leverage ratio calculations for the acquiring bank holding company as of the most recent quarter; and

(C) A description of the purchase price and the terms and sources of funding for the transaction;

(v) If the bank holding company has consolidated assets of less than $150 million:

(A) A pro forma parent-only balance sheet as of the most recent quarter showing credit and debit adjustments that reflect the proposed transaction; and

(B) A description of the purchase price and the terms and sources of funding for the transaction and, if the transaction is debt funded, one-year income statement and cash flow projections for the parent company, and the sources and schedule for retiring any debt incurred in the transaction;

(vi) For each insured depository institution whose Tier 1 capital, total capital, total assets or risk-weighted assets change as a result of the transaction, the total risk-weighted assets, total assets, Tier 1 capital and total capital of the institution on a pro forma basis; and

(vii) A description of the management expertise, internal controls and risk management systems that will be utilized in the conduct of the proposed activities; and

(viii) A copy of the purchase agreements, and balance sheet and income statements for the most recent quarter and year-end for any company to be acquired.

(b) Notice provided to Board. The Reserve Bank shall immediately send to the Board a copy of any notice received under paragraphs (a)(2) or (a)(3) of this section.

(c) Notice to public—(1) Listed activities and activities approved by order—(i) In a case involving an activity listed in §225.28 or previously approved by the Board by order, the Reserve Bank shall notify the Board for publication in the FEDERAL REGISTER immediately upon receipt by the Reserve Bank of:

(A) A notice under this section; or

(B) A written request that notice of a proposal under this section or §225.23 be published in the FEDERAL REGISTER. Such a request may request that FEDERAL REGISTER publication occur up to 15 calendar days prior to submission of a notice under this subpart.

(ii) The FEDERAL REGISTER notice published under this paragraph shall invite public comment on the proposal for a reasonable period of time, generally for 30 days.

(2) New activities—(i) In general. In the case of a notice under this subpart involving an activity that is not listed in §225.28 and that has not been previously approved by the Board by order, the Board shall send notice of the proposal to the FEDERAL REGISTER for publication, unless the Board determines that the notificant has not demonstrated that the activity is so closely related to banking or to managing or controlling banks as to be a proper incident thereto. The FEDERAL REGISTER notice shall invite public comment on the proposal for a reasonable period of time, generally for 30 days.
§ 225.25 Hearings, alteration of activities, and other matters.

(a) Hearings—(1) Procedure to request hearing. Any request for a hearing on a notice under this subpart shall comply with the provisions of 12 CFR 262.3(e).

(2) Determination to hold hearing. The Board may order a formal or informal hearing or other proceeding on a notice as provided in 12 CFR 262.3(i)(2). The Board shall order a hearing only if there are disputed issues of material fact that cannot be resolved in some other manner.

(3) Extension of period for hearing. The Board may extend the time for action on any notice for such time as is reasonably necessary to conduct a hearing and evaluate the hearing record. Such extension shall not exceed 91 calendar days after the date of submission to the Board of the complete record on the notice. The procedures for computation of the 91-day rule as set forth in §225.16(f) apply to notices under this subpart that involve hearings.
Federal Reserve System

§ 225.26

(b) Approval through failure to act. (1) Except as provided in paragraph (a) of this section or §225.24(d)(5), a notice under this subpart shall be deemed to be approved at the conclusion of the period that begins on the date the complete notice is received by the Reserve Bank or the Board and that ends 60 calendar days plus any applicable extension and tolling period thereafter.

(2) Complete notice. For purposes of paragraph (b)(1) of this section, a notice shall be deemed complete at such time as it contains all information required by this subpart and all other information requested by the Board or the Reserve Bank.

c) Notice to expand or alter nonbanking activities—(1) De novo expansion. A notice under this subpart is required to open a new office or to form a subsidiary to engage in, or to relocate an existing office engaged in, a nonbanking activity that the Board has previously approved for the bank holding company under this regulation, only if:

(i) The Board’s prior approval was limited geographically;

(ii) The activity is to be conducted in a country outside of the United States and the bank holding company has not previously received prior Board approval under this regulation to engage in the activity in that country; or

(iii) The Board or appropriate Reserve Bank has notified the company that a notice under this subpart is required.

(2) Activities outside United States. With respect to activities to be engaged in outside the United States that require approval under this subpart, the procedures of this section apply only to activities to be engaged in directly by a bank holding company that is not a qualifying foreign banking organization, or by a nonbank subsidiary of a bank holding company approved under this subpart. Regulation K (12 CFR part 211) governs other international operations of bank holding companies.

(3) Alteration of nonbanking activity. Unless otherwise permitted by the Board, a notice under this subpart is required to alter a nonbanking activity in any material respect from that considered by the Board in acting on the application or notice to engage in the activity.

(d) Emergency savings association acquisitions. In the case of a notice to acquire a savings association, the Board may modify or dispense with the public notice and hearing requirements of this subpart if the Board finds that an emergency exists that requires the Board to act immediately and the primary federal regulator of the institution concurs.

§225.26 Factors considered in acting on nonbanking proposals.

(a) In general. In evaluating a notice under §225.23 or §225.24, the Board shall consider whether the notificant’s performance of the activities can reasonably be expected to produce benefits to the public (such as greater convenience, increased competition, and gains in efficiency) that outweigh possible adverse effects (such as undue concentration of resources, decreased or unfair competition, conflicts of interest, and unsound banking practices).

(b) Financial and managerial resources. Consideration of the factors in paragraph (a) of this section includes an evaluation of the financial and managerial resources of the notificant, including its subsidiaries and any company to be acquired, the effect of the proposed transaction on those resources, and the management expertise, internal control and risk-management systems, and capital of the entity conducting the activity.

(c) Competitive effect of de novo proposals. Unless the record demonstrates otherwise, the commencement or expansion of a nonbanking activity de novo is presumed to result in benefits to the public through increased competition.

(d) Denial for lack of information. The Board may deny any notice submitted under this subpart if the notificant neglects, fails, or refuses to furnish all information required by the Board.

(e) Conditional approvals. The Board may impose conditions on any approval, including conditions to address permissibility, financial, managerial, safety and soundness, competitive, compliance, conflicts of interest, or
§ 225.27 Procedures for determining scope of nonbanking activities.

(a) Advisory opinions regarding scope of previously approved nonbanking activities—(1) Request for advisory opinion. Any person may submit a request to the Board for an advisory opinion regarding the scope of any permissible nonbanking activity. The request shall be submitted in writing to the Board and shall identify the proposed parameters of the activity, or describe the service or product that will be provided, and contain an explanation supporting an interpretation regarding the scope of the permissible nonbanking activity.

(2) Response to request. The Board shall provide an advisory opinion within 45 days of receiving a written request under this paragraph.

(b) Procedure for consideration of new activities—(1) Initiation of proceeding. The Board may, at any time, on its own initiative or in response to a written request from any person, initiate a proceeding to determine whether any activity is so closely related to banking or managing or controlling banks as to be a proper incident thereto.

(2) Requests for determination. Any request for a Board determination that an activity is so closely related to banking or managing or controlling banks as to be a proper incident thereto, shall be submitted to the Board in writing, and shall contain evidence that the proposed activity is so closely related to banking or managing or controlling banks as to be a proper incident thereto.

(3) Publication. The Board shall publish in the Federal Register notice that it is considering the permissibility of a new activity and invite public comment for a period of at least 30 calendar days. In the case of a request submitted under paragraph (b) of this section, the Board may determine not to publish notice of the request if the Board determines that the requester has provided no reasonable basis for a determination that the activity is so closely related to banking, or managing or controlling banks as to be a proper incident thereto, and notifies the requester of the determination.

(4) Comments and hearing requests. Any comment and any request for a hearing regarding a proposal under this section shall comply with the provisions of § 262.3(e) of the Board’s Rules of Procedure (12 CFR 262.3(e)).

§ 225.28 List of permissible nonbanking activities.

(a) Closely related nonbanking activities. The activities listed in paragraph (b) of this section are so closely related to banking or managing or controlling banks as to be a proper incident thereto, and may be engaged in by a bank holding company or its subsidiary in accordance with the requirements of this regulation.

(b) Activities determined by regulation to be permissible—(1) Extending credit and servicing loans. Making, acquiring, brokering, or servicing loans or other extensions of credit (including factoring, issuing letters of credit and accepting drafts) for the company’s account or for the account of others.

(2) Activities related to extending credit. Any activity usual in connection with making, acquiring, brokering or servicing loans or other extensions of credit, as determined by the Board. The Board has determined that the following activities are usual in connection with making, acquiring, brokering or servicing loans or other extensions of credit:

(i) Real estate and personal property appraising. Performing appraisals of real estate and tangible and intangible personal property, including securities.

(ii) Arranging commercial real estate equity financing. Acting as intermediary for the financing of commercial or industrial income-producing real estate by arranging for the transfer of the title, control, and risk of such a real estate project to one or more investors, if the bank holding company and its affiliates do not have an interest in, or participate in managing or developing, a real estate project for which it arranges equity financing, and do not promote or sponsor the development of the property.

(iii) Check-guaranty services. Authorizing a subscribing merchant to accept
(iv) Collection agency services. Collecting overdue accounts receivable, either retail or commercial.

(v) Credit bureau services. Maintaining information related to the credit history of consumers and providing the information to a credit grantor who is considering a borrower’s application for credit or who has extended credit to the borrower.

(vi) Asset management, servicing, and collection activities. Engaging under contract with a third party in asset management, servicing, and collection of assets of a type that an insured depository institution may originate and own, if the company does not engage in real property management or real estate brokerage services as part of these services.

(vii) Acquiring debt in default. Acquiring debt that is in default at the time of acquisition, if the company:

(A) Divests shares or assets securing debt in default that are not permissible investments for bank holding companies, within the time period required for divestiture of property acquired in satisfaction of a debt previously contracted under §225.12(b);2

(B) Stands only in the position of a creditor and does not purchase equity of obligors of debt in default (other than equity that may be collateral for such debt); and

(C) Does not acquire debt in default secured by shares of a bank or bank holding company.

(viii) Real estate settlement servicing. Providing real estate settlement services.

2 Asset management services include acting as agent in the liquidation or sale of loans and collateral for loans, including real estate and other assets acquired through foreclosure or in satisfaction of debts previously contracted.

3 For this purpose, the divestiture period for property begins on the date that the debt is acquired, regardless of when legal title to the property is acquired.

4 For purposes of this section, real estate settlement services do not include providing title insurance as principal, agent, or broker.

3 The requirement that the lease be on a nonoperating basis means that the bank holding company may not, directly or indirectly, engage in operating, servicing, maintaining, or repairing leased property during the lease term. For purposes of the leasing of automobiles, the requirement that the lease be on a nonoperating basis means that the bank holding company may not, directly or indirectly: (1) Provide servicing, repair, or maintenance of the leased vehicle during the lease term; (2) purchase parts and accessories in bulk or for an individual vehicle after the lessee has taken delivery of the vehicle; (3) provide the loan of an automobile during servicing of the leased vehicle; (4) purchase insurance for the lessee; or (5) provide for the renewal of the vehicle’s license merely as a service to the lessee where the lessee could renew the license without authorization from the lessor. The bank holding company may arrange for a third party to provide these services or products.
are permissible for bank holding companies under this subpart C.

(5) Trust company functions. Performing functions or activities that may be performed by a trust company (including activities of a fiduciary, agency, or custodial nature), in the manner authorized by federal or state law, so long as the company is not a bank for purposes of section 2(c) of the Bank Holding Company Act.

(6) Financial and investment advisory activities. Acting as investment or financial advisor to any person, including (without, in any way, limiting the foregoing):

(i) Serving as investment adviser (as defined in section 2(a)(20) of the Investment Company Act of 1940, 15 U.S.C. 80a–2(a)(20)), to an investment company registered under that act, including sponsoring, organizing, and managing a closed-end investment company;

(ii) Furnishing general economic information and advice, general economic statistical forecasting services, and industry studies;

(iii) Providing advice in connection with mergers, acquisitions, divestitures, investments, joint ventures, leveraged buyouts, recapitalizations, capital structurings, financing transactions and similar transactions, and conducting financial feasibility studies;

(iv) Providing information, statistical forecasting, and advice with respect to any transaction in foreign exchange, swaps, and similar transactions, commodities, and any forward contract, option, future, option on a future, and similar instruments;

(v) Providing educational courses, and instructional materials to consumers on individual financial management matters; and

(vi) Providing tax-planning and tax-preparation services to any person.

(7) Agency transactional services for customer investments—(i) Securities brokerage. Providing securities brokerage services (including securities clearing and/or securities execution services on an exchange), whether alone or in combination with investment advisory services, and incidental activities (including related securities credit activities and custodial services), if the securities brokerage services are restricted to buying and selling securities solely as agent for the account of customers and do not include securities underwriting or dealing.

(ii) Riskless principal transactions. Buying and selling in the secondary market all types of securities on the order of customers as a “riskless principal” to the extent of engaging in a transaction in which the company, after receiving an order to buy (or sell) a security from a customer, purchases (or sells) the security for its own account to offset a contemporaneous sale to (or purchase from) the customer. This does not include:

(A) Selling bank-ineligible securities at the order of a customer that is the issuer of the securities, or selling bank-ineligible securities in any transaction where the company has a contractual agreement to place the securities as agent of the issuer; or

(B) Acting as a riskless principal in any transaction involving a bank-ineligible security for which the company or any of its affiliates acts as underwriter (during the period of the underwriting or for 30 days thereafter) or dealer.

(iii) Private placement services. Acting as agent for the private placement of securities in accordance with the requirements of the Securities Act of 1933 (1933 Act) and the rules of the Securities and Exchange Commission, if the company engaged in the activity does not purchase or repurchase for its own account the securities being placed, or

(A) A bank-ineligible security is any security that a State member bank is not permitted to underwrite or deal in under 12 U.S.C. 24 and 335.

(B) A company or its affiliates may not enter quotes for specific bank-ineligible securities in any dealer quotation system in connection with the company’s riskless principal transactions; except that the company or its affiliates may enter “bid” or “ask” quotations, or publish “offering wanted” or “bid wanted” notices on trading systems other than NASDAQ or an exchange, if the company or its affiliate does not enter price quotations on different sides of the market for a particular security during any two-day period.

6Feasibility studies do not include assisting management with the planning or marketing for a given project or providing general operational or management advice.
hold in inventory unsold portions of issues of these securities.

(iv) Futures commission merchant. Acting as a futures commission merchant (FCM) for unaffiliated persons in the execution, clearance, or execution and clearance of any futures contract and option on a futures contract traded on an exchange in the United States or abroad if:

(A) The activity is conducted through a separately incorporated subsidiary of the bank holding company, which may engage in activities other than FCM activities (including, but not limited to, permissible advisory and trading activities); and

(B) The parent bank holding company does not provide a guarantee or otherwise become liable to the exchange or clearing association other than for those trades conducted by the subsidiary for its own account or for the account of any affiliate.

(v) Other transactional services. Providing to customers as agent transactional services with respect to swaps and similar transactions, any transaction described in paragraph (b)(8) of this section, any transaction that is permissible for a state member bank, and any other transaction involving a forward contract, option, futures, option on a futures or similar contract (whether traded on an exchange or not) relating to a commodity that is traded on an exchange.

(8) Investment transactions as principal—(i) Underwriting and dealing in government obligations and money market instruments. Underwriting and dealing in obligations of the United States, general obligations of states and their political subdivisions, and other obligations that state member banks of the Federal Reserve System may be authorized to underwrite and deal in under 12 U.S.C. 24 and 335, including banker’s acceptances and certificates of deposit, under the same limitations as would be applicable if the activity were performed by the bank holding company’s subsidiary member banks or its subsidiary nonmember banks as if they were member banks.

(ii) Investing and trading activities. Engaging as principal in:

(A) Foreign exchange; 

(B) Forward contracts, options, futures, options on futures, swaps, and similar contracts, whether traded on exchanges or not, based on any rate, price, financial asset (including gold, silver, platinum, palladium, copper, or any other metal approved by the Board), nonfinancial asset, or group of assets, other than a bank-ineligible security,9 if: 

(I) A state member bank is authorized to invest in the asset underlying the contract;

(2) The contract requires cash settlement;

(3) The contract allows for assignment, termination, or offset prior to delivery or expiration, and the company—

(i) Makes every reasonable effort to avoid taking or making delivery of the asset underlying the contract; or

(ii) Receives and instantaneously transfers title to the underlying asset, by operation of contract and without taking or making physical delivery of the asset; or

(4) The contract does not allow for assignment, termination, or offset prior to delivery or expiration and is based on an asset for which futures contracts or options on futures contracts have been approved for trading on a U.S. contract market by the Commodity Futures Trading Commission, and the company—

(i) Makes every reasonable effort to avoid taking or making delivery of the asset underlying the contract; or

(ii) Receives and instantaneously transfers title to the underlying asset, by operation of contract and without taking or making physical delivery of the asset.

(C) Forward contracts, options,10 futures, options on futures, swaps, and

---

9A bank-ineligible security is any security that a state member bank is not permitted to underwrite or deal in under 12 U.S.C. 24 and 335.

10This reference does not include acting as a dealer in options based on indices of bank-ineligible securities when the options are traded on securities exchanges. These options are securities for purposes of the federal securities laws and bank-ineligible securities for purposes of section 20 of the Glass-Steagall Act, 12 U.S.C. 337. Similarly, this reference does not include acting as a dealer.
similar contracts, whether traded on exchanges or not, based on an index of a rate, a price, or the value of any financial asset, nonfinancial asset, or group of assets, if the contract requires cash settlement.

(iii) Buying and selling bullion, and related activities. Buying, selling and storing bars, rounds, bullion, and coins of gold, silver, platinum, palladium, copper, and any other metal approved by the Board, for the company’s own account and the account of others, and providing incidental services such as arranging for storage, safe custody, assaying, and shipment.

(9) Management consulting and counseling activities—(i) Management consulting. (A) Providing management consulting advice: 11

11 In performing this activity, bank holding companies are not authorized to perform tasks or operations or provide services to client institutions either on a daily or continuing basis, except as necessary to instruct the client institution on how to perform such services for itself. See also the Board’s interpretation of bank management consulting advice (12 CFR 225.131).

(ii) Employee benefits consulting services. Providing consulting services to employee benefit, compensation and insurance plans, including designing plans, assisting in the implementation of plans, providing administrative services to plans, and developing employer communication programs for plans.

(iii) Career counseling services. Providing career counseling services to:

(A) A financial organization 12 and individuals currently employed by, or recently displaced from, a financial organization;

(B) Individuals who are seeking employment at a financial organization; and

(C) Individuals who are currently employed in or who seek positions in the finance, accounting, and audit departments of any company.

(10) Support services—(i) Courier services. Providing courier services for:

(A) Checks, commercial papers, documents, and written instruments (excluding currency or bearer-type negotiable instruments) that are exchanged among banks and financial institutions; and

(B) Audit and accounting media of a banking or financial nature and other business records and documents used in processing such media. 13

12 Financial organization refers to insured depository institution holding companies and their subsidiaries, other than nonbanking affiliates of diversified savings and loan holding companies that engage in activities not permissible under section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1842(c)(8)).

13 See also the Board’s interpretation on courier activities (12 CFR 225.129), which sets
(i) Printing and selling MICR-encoded items. Printing and selling checks and related documents, including corporate image checks, cash tickets, voucher checks, deposit slips, savings withdrawal packages, and other forms that require Magnetic Ink Character Recognition (MICR) encoding.

(11) Insurance agency and underwriting—(i) Credit insurance. Acting as principal, agent, or broker for insurance (including home mortgage redemption insurance) that is:
(A) Directly related to an extension of credit by the bank holding company or any of its subsidiaries; and
(B) Limited to ensuring the repayment of the outstanding balance due on the extension of credit in the event of the death, disability, or involuntary unemployment of the debtor.

(ii) Finance company subsidiary. Acting as agent or broker for insurance directly related to an extension of credit by a finance company that is a subsidiary of a bank holding company, if:
(A) The insurance is limited to ensuring repayment of the outstanding balance on such extension of credit in the event of loss or damage to any property used as collateral for the extension of credit; and
(B) The extension of credit is not more than $10,000, or $25,000 if it is to finance the purchase of a residential manufactured home and the credit is secured by the home; and
(C) The applicant commits to notify borrowers in writing that:

(1) They are not required to purchase such insurance from the applicant;
(2) Such insurance does not insure any interest of the borrower in the collateral; and
(3) The applicant will accept more comprehensive property insurance in place of such single-interest insurance.

(iii) Insurance in small towns. Engaging in any insurance agency activity in a place where the bank holding company or a subsidiary of the bank holding company has a lending office and that:
(A) Has a population not exceeding 5,000 (as shown in the preceding decennial census); or
(B) Has inadequate insurance agency facilities, as determined by the Board, after notice and opportunity for hearing.

(iv) Insurance-agency activities conducted on May 1, 1982. Engaging in any specific insurance-agency activity if the bank holding company, or subsidiary conducting the specific activity, conducted such activity on May 1, 1982, or received Board approval to conduct such activity on or before May 1, 1982. A bank holding company or subsidiary engaging in a specific insurance agency activity under this clause may:
(A) Engage in such specific insurance agency activity only at locations:
(I) In the state in which the bank holding company has its principal place of business (as defined in 12 U.S.C. 1842(d));
(II) In any state or states immediately adjacent to such state; and

14 Extension of credit includes direct loans to borrowers, loans purchased from other lenders, and leases of real or personal property so long as the leases are nonoperating and full-payout leases that meet the requirements of paragraph (b)(3) of this section.

15 Finance company includes all non-deposit-taking financial institutions that engage in a significant degree of consumer lending (excluding lending secured by first mortgages) and all financial institutions specifically defined by individual states as finance companies and that engage in a significant degree of consumer lending.

16 These limitations increase at the end of each calendar year, beginning with 1982, by the percentage increase in the Consumer Price Index for Urban Wage Earners and Clerical Workers published by the Bureau of Labor Statistics.

17 Nothing contained in this provision shall preclude a bank holding company subsidiary that is authorized to engage in a specific insurance-agency activity under this clause from continuing to engage in the particular activity after merger with an affiliate, if the merger is for legitimate business purposes and prior notice has been provided to the Board.

18 For the purposes of this paragraph, activities engaged in on May 1, 1982, include activities carried on subsequently as the result of an application to engage in such activities pending before the Board on May 1, 1982, and approved subsequently by the Board or as the result of the acquisition by such company pursuant to a binding written contract entered into on or before May 1, 1982, of another company engaged in such activities at the time of the acquisition.
§ 225.31  Control and Divestiture Proceedings

(a) Preliminary determination of control.

(i) The Board may issue a preliminary determination of control under the procedures set forth in this section in any case in which:

(ii) Advisory activities. Providing advisory and related services for programs designed primarily to promote community welfare.

(iii) Money orders, savings bonds, and traveler’s checks. The issuance and sale at retail of money orders and similar consumer-type payment instruments; the sale of U.S. savings bonds; and the issuance and sale of traveler’s checks.

(iv) Data processing. (i) Providing data processing, data storage and data transmission services, facilities (including data processing, data storage and data transmission hardware, software, documentation, or operating personnel), databases, advice, and access to such services, facilities, or databases by any technological means, if:

(A) The data to be processed, stored or furnished are financial, banking or economic; and

(B) The hardware provided in connection therewith is offered only in conjunction with software designed and marketed for the processing, storage and transmission of financial, banking, or economic data, and where the general purpose hardware does not constitute more than 30 percent of the cost of any packaged offering.

(12) Community development activities—

(i) Financing and investment activities. Making equity and debt investments in corporations or projects designed primarily to promote community welfare, such as the economic rehabilitation and development of low-income areas by providing housing, services, or jobs for residents.

(ii) Advisory activities. Providing advisory and related services for programs designed primarily to promote community welfare.

(13) Money orders, savings bonds, and traveler’s checks. The issuance and sale at retail of money orders and similar consumer-type payment instruments; the sale of U.S. savings bonds; and the issuance and sale of traveler’s checks.

(14) Data processing. (i) Providing data processing, data storage and data transmission services, facilities (including data processing, data storage and data transmission hardware, software, documentation, or operating personnel), databases, advice, and access to such services, facilities, or databases by any technological means, if:

(A) The data to be processed, stored or furnished are financial, banking or economic; and

(B) The hardware provided in connection therewith is offered only in conjunction with software designed and marketed for the processing, storage and transmission of financial, banking, or economic data, and where the general purpose hardware does not constitute more than 30 percent of the cost of any packaged offering.

(ii) A company conducting data processing, data storage, and data transmission activities may conduct data processing, data storage, and data transmission activities not described in paragraph (b)(14)(i) of this section if the total annual revenue derived from those activities does not exceed 49 percent of the company’s total annual revenues derived from data processing, data storage and data transmission activities.

(i) Any of the presumptions of control set forth in paragraph (d) of this section is present; or

(ii) It otherwise appears that a company has the power to exercise a controlling influence over the management or policies of a bank or other company.

(2) If the Board makes a preliminary determination of control under this section, the Board shall send notice to the controlling company containing a statement of the facts upon which the preliminary determination is based.

(b) Response to preliminary determination of control. Within 30 calendar days of issuance by the Board of a preliminary determination of control or such longer period permitted by the Board, the company against whom the determination has been made shall:

(1) Submit for the Board’s approval a specific plan for the prompt termination of the control relationship;

(2) File an application under subpart B or C of this regulation to retain the control relationship; or

(3) Contest the preliminary determination by filing a response, setting forth the facts and circumstances in support of its position that no control exists, and, if desired, requesting a hearing or other proceeding.

(c) Hearing and final determination. (1) The Board shall order a formal hearing or other appropriate proceeding upon the request of a company that contests a preliminary determination that the company has the power to exercise a controlling influence over the management or policies of a bank or other company, if the Board finds that material facts are in dispute. The Board may also in its discretion order a formal hearing or other proceeding with respect to a preliminary determination that the company controls voting securities of the bank or other company under the presumptions in paragraph (d)(1) of this section.

(2) At a hearing or other proceeding, any applicable presumptions established by paragraph (d) of this section shall be considered in accordance with the Federal Rules of Evidence and the Board’s Rules of Practice for Formal Hearings (12 CFR part 263).

(3) After considering the submissions of the company and other evidence, including the record of any hearing or other proceeding, the Board shall issue a final order determining whether the company controls voting securities, or has the power to exercise a controlling influence over the management or policies, of the bank or other company. If a control relationship is found, the Board may direct the company to terminate the control relationship or to file an application for the Board’s approval to retain the control relationship under subpart B or C of this regulation.

(d) Rebuttable presumptions of control. The following rebuttable presumptions shall be used in any proceeding under this section:

(1) Control of voting securities—(i) Securities convertible into voting securities. A company that owns, controls, or holds securities that are immediately convertible, at the option of the holder or owner, into voting securities of a bank or other company, controls the voting securities.

(ii) Option or restriction on voting securities. A company that enters into an agreement or understanding under which the rights of a holder of voting securities of a bank or other company are restricted in any manner controls the securities. This presumption does not apply where the agreement or understanding:

(A) Is a mutual agreement among shareholders granting to each other a right of first refusal with respect to their shares;

(B) Is incident to a bona fide loan transaction; or

(C) Relates to restrictions on transferability and continues only for the time necessary to obtain approval from the appropriate Federal supervisory authority with respect to acquisition by the company of the securities.

(2) Control over company—(i) Management agreement. A company that enters into any agreement or understanding with a bank or other company (other than an investment advisory agreement), such as a management contract, under which the first company or any of its subsidiaries directs or exercises significant influence over the general management or overall operations of the bank or other company controls the bank or other company.
§ 225.41

(ii) Shares controlled by company and associated individuals. A company that, together with its management officials or controlling shareholders (including members of the immediate families of either), owns, controls, or holds with power to vote 25 percent or more of the outstanding shares of any class of voting securities of a bank or other company controls the bank or other company, if the first company owns, controls, or holds with power to vote more than 5 percent of the outstanding shares of any class of voting securities of the bank or other company.

(iii) Common management officials. A company that has one or more management officials in common with a bank or other company controls the bank or other company, if the first company owns, controls, or holds with power to vote more than 5 percent of the outstanding shares of any class of voting securities of the bank or other company, and no other person controls as much as 5 percent of the outstanding shares of any class of voting securities of the bank or other company.

(iv) Shares held as fiduciary. The presumptions in paragraphs (d)(2)(ii) and (iii) of this section do not apply if the securities are held by the company in a fiduciary capacity without sole discretionary authority to exercise the voting rights.

(e) Presumption of non-control—(1) In any proceeding under this section, there is a presumption that any company that directly or indirectly owns, controls, or has power to vote less than 5 percent of the outstanding shares of any class of voting securities of a bank or other company does not have control over that bank or other company.

(2) In any proceeding under this section, or judicial proceeding under the BHC Act, other than a proceeding in which the Board has made a preliminary determination that a company has the power to control over the bank or other company, a company may not be held to have had control over the bank or other company at any given time, unless that company, at the time in question, directly or indirectly owned, controlled, or had power to vote 5 percent or more of the outstanding shares of any class of voting securities of the bank or other company, or had already been found to have control on the basis of the existence of a controlling influence relationship.

Subpart E—Change in Bank Control

§ 225.41 Transactions requiring prior notice.

(a) Prior notice requirement. Any person acting directly or indirectly, or through or in concert with one or more persons, shall give the Board 60 days' written notice, as specified in §225.43 of this subpart, before acquiring control of a state member bank or bank holding company, unless the acquisition is exempt under §225.42.

(b) Definitions. For purposes of this subpart:

(1) Acquisition includes a purchase, assignment, transfer, or pledge of voting securities, or an increase in percentage ownership of a state member bank or a bank holding company resulting from a redemption of voting securities.

(2) Acting in concert includes knowing participation in a joint activity or parallel action towards a common goal of acquiring control of a state member bank or bank holding company whether or not pursuant to an express agreement.

(3) Immediate family includes a person's father, mother, stepfather, stepmother, brother, sister, stepbrother, stepsister, son, daughter, stepson, stepdaughter, grandparent, grandson, granddaughter, father-in-law, mother-in-law, brother-in-law, mother-in-law, brother-in-law, sister-in-law, son-in-law, daughter-in-law, the spouse of any of the foregoing, and the person's spouse.

(c) Acquisitions requiring prior notice—(1) Acquisition of control. The acquisition of voting securities of a state member bank or bank holding company constitutes the acquisition of control under the Bank Control Act, requiring
prior notice to the Board, if immediately after the transaction, the acquiring person (or persons acting in concert) will own, control, or hold with power to vote 25 percent or more of any class of voting securities of the institution.

(2) Rebuttable presumption of control. The Board presume that an acquisition of voting securities of a state member bank or bank holding company constitutes the acquisition of control under the Bank Control Act, requiring prior notice to the Board, if, immediately after the transaction, the acquiring person (or persons acting in concert) will own, control, or hold with power to vote 25 percent or more of any class of voting securities of the institution, and if:

(i) The institution has registered securities under section 12 of the Securities Exchange Act of 1934 (15 U.S.C. 78l); or

(ii) No other person will own, control, or hold the power to vote a greater percentage of that class of voting securities immediately after the transaction.¹

(d) Rebuttable presumption of concerted action. The following persons shall be presumed to be acting in concert for purposes of this subpart:

(1) A company and any controlling shareholder, partner, trustee, or management official of the company, if both the company and the person own voting securities of the state member bank or bank holding company;

(2) An individual and the individual's immediate family;

(3) Companies under common control;

(4) Persons that are parties to any agreement, contract, understanding, relationship, or other arrangement, whether written or otherwise, regarding the acquisition, voting, or transfer of control of voting securities of a state member bank or bank holding company, other than through a revocable proxy as described in §225.42(a)(5) of this subpart;

(5) Persons that have made, or propose to make, a joint filing under sections 13 or 14 of the Securities Exchange Act of 1934 (15 U.S.C. 78m or 78n), and the rules promulgated thereunder by the Securities and Exchange Commission; and

(6) A person and any trust for which the person serves as trustee.

(e) Acquisitions of loans in default. The Board presumse an acquisition of a loan in default that is secured by voting securities of a state member bank or bank holding company to be an acquisition of the underlying securities for purposes of this section.

(f) Other transactions. Transactions other than those set forth in paragraph (c) of this section resulting in a person's control of less than 25 percent of a class of voting securities of a state member bank or bank holding company are not deemed by the Board to constitute control for purposes of the Bank Control Act.

(g) Rebuttal of presumptions. Prior notice to the Board is not required for any acquisition of voting securities under the presumption of control set forth in this section, if the Board finds that the acquisition will not result in control. The Board shall afford any person seeking to rebut a presumption in this section an opportunity to present views in writing or, if appropriate, orally before its designated representatives at an informal conference.

§ 225.42 Transactions not requiring prior notice.

(a) Exempt transactions. The following transactions do not require notice to the Board under this subpart:

(1) Existing control relationships. The acquisition of additional voting securities of a state member bank or bank holding company by a person who:

(i) Continuously since March 9, 1979 (or since the institution commenced business, if later), held power to vote 25 percent or more of any class of voting securities of the institution; or

(ii) Is presumed, under §225.41(c)(2) of this subpart, to have controlled the institution continuously since March 9, 1979, if the aggregate amount of voting securities held does not exceed 25 percent or more of any class of voting securities of the institution or, in other cases,

¹If two or more persons, not acting in concert, each propose to acquire simultaneously equal percentages of 10 percent or more of a class of voting securities of the state member bank or bank holding company, each person must file prior notice to the Board.
cases, where the Board determines that the person has controlled the bank continuously since March 9, 1979;

(2) Increase of previously authorized acquisitions. Unless the Board or the Reserve Bank otherwise provides in writing, the acquisition of additional shares of a class of voting securities of a state member bank or bank holding company by any person (or persons acting in concert) who has lawfully acquired and maintained control of the institution (for purposes of §225.41(c) of this subpart), after complying with the procedures and receiving approval to acquire voting securities of the institution under this subpart, or in connection with an application approved under section 3 of the BHC Act (12 U.S.C. 1842; §225.11 of subpart B of this part) or section 18(c) of the Federal Deposit Insurance Act (Bank Merger Act, 12 U.S.C. 1828(c));

(3) Acquisitions subject to approval under BHC Act or Bank Merger Act. Any acquisition of voting securities subject to approval under section 3 of the BHC Act (12 U.S.C. 1842; §225.11 of subpart B of this part) or section 18(c) of the Federal Deposit Insurance Act (Bank Merger Act, 12 U.S.C. 1828(c));

(4) Transactions exempt under BHC Act. Any transaction described in sections 2(a)(5), 3(a)(A), or 3(a)(B) of the BHC Act (12 U.S.C. 1841(a)(5), 1842(a)(A), and 1842(a)(B)), by a person described in those provisions;

(5) Proxy solicitation. The acquisition of the power to vote securities of a state member bank or bank holding company through receipt of a revocable proxy in connection with a proxy solicitation for the purposes of conducting business at a regular or special meeting of the institution, if the proxy terminates within a reasonable period after the meeting;

(6) Stock dividends. The receipt of voting securities of a state member bank or bank holding company through a stock dividend or stock split if the proportional interest of the recipient in the institution remains substantially the same; and

(7) Acquisition of foreign banking organization. The acquisition of voting securities of a qualifying foreign banking organization. (This exemption does not extend to the reports and information required under paragraphs 9, 10, and 12 of the Bank Control Act (12 U.S.C. 1817(j) (9), (10), and (12)) and §225.44 of this subpart.)

(b) Prior notice exemption. (1) The following acquisitions of voting securities of a state member bank or bank holding company, which would otherwise require prior notice under this subpart, are not subject to the prior notice requirements if the acquiring person notifies the appropriate Reserve Bank within 90 calendar days after the acquisition and provides any relevant information requested by the Reserve Bank:

(i) Acquisition of voting securities through inheritance;

(ii) Acquisition of voting securities as a bona fide gift; and

(iii) Acquisition of voting securities in satisfaction of a debt previously contracted (DPC) in good faith.

(2) The following acquisitions of voting securities of a state member bank or bank holding company, which would otherwise require prior notice under this subpart, are not subject to the prior notice requirements if the acquiring person does not reasonably have advance knowledge of the transaction, and provides the written notice required under section 225.43 to the appropriate Reserve Bank within 90 calendar days after the transaction occurs:

(i) Acquisition of voting securities resulting from a redemption of voting securities by the issuing bank or bank holding company; and

(ii) Acquisition of voting securities as a result of actions (including the sale of securities) by any third party that is not within the control of the acquiror;

(3) Nothing in paragraphs (b)(1) or (b)(2) of this section limits the authority of the Board to disapprove a notice pursuant to §225.43(h) of this subpart.

§225.43 Procedures for filing, processing, publishing, and acting on notices.

(a) Filing notice. (1) A notice required under this subpart shall be filed with the appropriate Reserve Bank and shall contain all the information required by paragraph 6 of the Bank Control Act (12 U.S.C. 1817(j)(6)), or prescribed in the designated Board form.
(2) The Board may waive any of the informational requirements of the notice if the Board determines that it is in the public interest.

(3) A notificant shall notify the appropriate Reserve Bank or the Board immediately of any material changes in a notice submitted to the Reserve Bank, including changes in financial or other conditions.

(4) When the acquiring person is an individual, or group of individuals acting in concert, the requirement to provide personal financial data may be satisfied by a current statement of assets and liabilities and an income summary, as required in the designated Board form, together with a statement of any material changes since the date of the statement or summary. The Reserve Bank or the Board, nevertheless, may request additional information, if appropriate.

(b) Acceptance of notice. The 60-day notice period specified in §225.41 of this subpart begins on the date of receipt of a complete notice. The Reserve Bank shall notify the person or persons submitting a notice under this subpart in writing of the date the notice is or was complete and thereby accepted for processing. The Reserve Bank or the Board may request additional relevant information at any time after the date of acceptance.

(c) Publication—(1) Newspaper Announcement. Any person(s) filing a notice under this subpart shall publish, in a form prescribed by the Board, an announcement soliciting public comment on the proposed acquisition. The announcement shall be published in a newspaper of general circulation in the community in which the head office of the state member bank to be acquired is located or, in the case of a proposed acquisition of a bank holding company, in the community in which its head office is located and in the community in which the head office of each of its subsidiary banks is located. The announcement shall be published no earlier than 15 calendar days before the filing of the notice with the appropriate Reserve Bank and no later than 10 calendar days after the filing date; and the publisher’s affidavit of a publication shall be provided to the appropriate Reserve Bank.

(2) Contents of newspaper announcement. The newspaper announcement shall state:

(i) The name of each person identified in the notice as a proposed acquiror of the bank or bank holding company;

(ii) The name of the bank or bank holding company to be acquired, including the name of each of the bank holding company’s subsidiary banks; and

(iii) A statement that interested persons may submit comments on the notice to the Board or the appropriate Reserve Bank for a period of 20 days, or such shorter period as may be provided, pursuant to paragraph (c)(5) of this section.

(3) Federal Register announcement. The Board shall, upon filing of a notice under this subpart, publish an announcement in the Federal Register of receipt of the notice. The Federal Register announcement shall contain the information required under paragraphs (c)(2)(i) and (c)(2)(ii) of this section and a statement that interested persons may submit comments on the proposed acquisition for a period of 15 calendar days, or such shorter period as may be provided, pursuant to paragraph (c)(5) of this section. The Board may waive publication in the Federal Register, if the Board determines that such action is appropriate.

(4) Delay of publication. The Board may permit delay in the publication required under paragraphs (c)(1) and (c)(3) of this section, for good cause shown, that it is in the public interest to grant such delay. Requests for delay of publication may be submitted to the appropriate Reserve Bank.

(5) Shortening or waiving notice. The Board may shorten or waive the public comment or newspaper publication requirements of this paragraph, or act on a notice before the expiration of a public comment period, if it determines in writing that an emergency exists, or that disclosure of the notice, solicitation of public comment, or delay until expiration of the public comment period would seriously threaten the safety or soundness of the bank or bank holding company to be acquired.
(6) Consideration of public comments. In acting upon a notice filed under this subpart, the Board shall consider all public comments received in writing within the period specified in the newspaper or FEDERAL REGISTER announcement, whichever is later. At the Board’s option, comments received after this period may, but need not, be considered.

(7) Standing. No person (other than the acquiring person) who submits comments or information on a notice filed under this subpart shall thereby become a party to the proceeding or acquire any standing or right to participate in the Board’s consideration of the notice or to appeal or otherwise contest the notice or the Board’s action regarding the notice.

(d) Time period for Board action—(1) Consumption of acquisition—(i) The notificant(s) may consummate the proposed acquisition 60 days after submission to the Reserve Bank of a complete notice under paragraph (a) of this section, unless within that period the Board disapproves the proposed acquisition or extends the 60-day period, as provided under paragraph (d)(2) of this section.

(ii) The notificant(s) may consummate the proposed transaction before the expiration of the 60-day period if the Board notifies the notificant(s) in writing of the Board’s intention not to disapprove the acquisition.

(2) Extensions of time period. (i) The Board may extend the 60-day period in paragraph (d)(1) of this section for an additional 30 days by notifying the acquiring person(s).

(ii) The Board may further extend the period during which it may disapprove a notice for two additional periods of not more than 45 days each, if the Board determines that:

(A) Any acquiring person has not furnished all the information required under paragraph (a) of this section;

(B) Any material information submitted is substantially inaccurate;

(C) The Board is unable to complete the investigation of an acquiring person because of inadequate cooperation or delay by that person; or

(D) Additional time is needed to investigate and determine that no acquiring person has a record of failing to comply with the requirements of the Bank Secrecy Act, subchapter II of Chapter 53 of Title 31, United States Code.

(iii) If the Board extends the time period under this paragraph, it shall notify the acquiring person(s) of the reasons therefor and shall include a statement of the information, if any, deemed incomplete or inaccurate.

(e) Advice to bank supervisory agencies. (1) Upon accepting a notice relating to acquisition of securities of a state member bank, the Reserve Bank shall send a copy of the notice to the appropriate state bank supervisor, which shall have 30 calendar days from the date the notice is sent in which to submit its views and recommendations to the Board. The Reserve Bank also shall send a copy of any notice to the Comptroller of the Currency, the Federal Deposit Insurance Corporation, and the Office of Thrift Supervision.

(2) If the Board finds that it must act immediately in order to prevent the probable failure of the bank or bank holding company involved, the Board may dispense with or modify the requirements for notice to the state supervisor.

(f) Investigation and report. (1) After receiving a notice under this subpart, the Board or the appropriate Reserve Bank shall conduct an investigation of the competence, experience, integrity, and financial ability of each person by and for whom an acquisition is to be made. The Board shall also make an independent determination of the accuracy and completeness of any information required to be contained in a notice under paragraph (a) of this section.

In investigating any notice accepted under this subpart, the Board or Reserve Bank may solicit information or views from any person, including any bank or bank holding company involved in the notice, and any appropriate state, federal, or foreign governmental authority.

(2) The Board or the appropriate Reserve Bank shall prepare a written report of its investigation, which shall contain, at a minimum, a summary of the results of the investigation.

(g) Factors considered in acting on notices. In reviewing a notice filed under this subpart, the Board shall consider
the information in the record, the views and recommendations of the appropriate bank supervisor, and any other relevant information obtained during any investigation of the notice.

(h) Disapproval and hearing—(1) Disapproval of notice. The Board may disapprove an acquisition if it finds adverse effects with respect to any of the factors set forth in paragraph 7 of the Bank Control Act (12 U.S.C. 1817(j)(7)) (i.e., competitive, financial, managerial, banking, or incompleteness of information).

(2) Disapproval notification. Within three days after its decision to issue a notice of intent to disapprove any proposed acquisition, the Board shall notify the acquiring person in writing of the reasons for the action.

(3) Hearing. Within 10 calendar days of receipt of the notice of the Board’s intent to disapprove, the acquiring person may submit a written request for a hearing. Any hearing conducted under this paragraph shall be in accordance with the Rules of Practice for Formal Hearings (12 CFR part 263). At the conclusion of the hearing, the Board shall, by order, approve or disapprove the proposed acquisition on the basis of the record of the hearing. If the acquiring person does not request a hearing, the notice of intent to disapprove becomes final and unappealable.

§ 225.44 Reporting of stock loans.

(a) Requirements. (1) Any foreign bank or affiliate of a foreign bank that has credit outstanding to any person or group of persons, in the aggregate, which is secured, directly or indirectly, by 25 percent or more of any class of voting securities of a state member bank, shall file a consolidated report with the appropriate Reserve Bank for the state member bank.

(2) The foreign bank or its affiliate also shall file a copy of the report with its appropriate Federal banking agency.

(3) Any shares of the state member bank held by the foreign bank or any affiliate of the foreign bank as principal must be included in the calculation of the number of shares in which the foreign bank or its affiliate has a security interest for purposes of paragraph (a) of this section.

(b) Definitions. For purposes of paragraph (a) of this section:

(1) Foreign bank shall have the same meaning as in section 1(b) of the International Banking Act of 1978 (12 U.S.C. 3101).

(2) Credit outstanding includes any loan or extension of credit; the issuance of a guarantee, acceptance, or letter of credit, including an endorsement or standby letter of credit; and any other type of transaction that extends credit or financing to the person or group of persons.

(3) Group of persons includes any number of persons that the foreign bank or any affiliate of a foreign bank has reason to believe:

(i) Are acting together, in concert, or with one another to acquire or control shares of the same insured depository institution, including an acquisition of shares of the same depository institution at approximately the same time under substantially the same terms; or

(ii) Have made, or propose to make, a joint filing under section 13 or 14 of the Securities Exchange Act of 1934 (15 U.S.C. 78m or 78n), and the rules promulgated thereunder by the Securities and Exchange Commission regarding ownership of the shares of the same insured depository institution.

(c) Exceptions. Compliance with paragraph (a) of this section is not required if:

(1) The person or group of persons referred to in that paragraph has disclosed the amount borrowed and the security interest therein to the Board or appropriate Reserve Bank in connection with a notice filed under §225.41 of this subpart, or another application filed with the Board or Reserve Bank as a substitute for a notice under §225.41 of this subpart, including an application filed under section 3 of the BHC Act (12 U.S.C. 1842) or section 18(c) of the Federal Deposit Insurance Act (Bank Merger Act, 12 U.S.C. 1829(c)), or an application for membership in the Federal Reserve System; or

(2) The transaction involves a person or group of persons that has been the owner or owners of record of the stock for a period of one year or more; or, if the transaction involves stock issued by a newly chartered bank, before the bank is opened for business.
(d) Report requirements. (1) The consolidated report shall indicate the number and percentage of shares securing each applicable extension of credit, the identity of the borrower, and the number of shares held as principal by the foreign bank and any affiliate thereof.

(2) A foreign bank, or any affiliate of a foreign bank, shall file the consolidated report in writing within 30 days of the date on which the foreign bank or affiliate first believes that the security for any outstanding credit consists of 25 percent or more of any class of voting securities of a state member bank.

(e) Other reporting requirements. A foreign bank, or any affiliate thereof, that is supervised by the System and is required to report credit outstanding that is secured by the shares of an insured depository institution to another Federal banking agency also shall file a copy of the report with the appropriate Reserve Bank.

Subpart F—Limitations on Nonbank Banks

§ 225.52 Limitation on overdrafts.

(a) Definitions. For purposes of this section—

(1) Account means a reserve account, clearing account, or deposit account as defined in the Board’s Regulation D (12 CFR 204.2(a)(1)(i)), that is maintained at a Federal Reserve Bank or nonbank bank.

(2) Cash item means (i) a check other than a check classified as a noncash item; or (ii) any other item payable on demand and collectible at par that the Federal Reserve Bank of the district in which the item is payable is willing to accept as a cash item.

(3) Discount window loan means any credit extended by a Federal Reserve Bank to a nonbank bank or industrial bank pursuant to the provisions of the Board’s Regulation A (12 CFR part 201).

(4) Industrial bank means an institution as defined in section 2(c)(2)(H) of the BHC Act (12 U.S.C. 1841(c)(2)(H)).

(5) Noncash item means an item handled by a Reserve Bank as a noncash item under the Reserve Bank’s “Collection of Noncash Items Operating Circular” (e.g., a maturing bankers’ acceptance or a maturing security, or a demand item, such as a check, with special instructions or an item that has not been preprinted or post-encoded).

(6) Other nonelectronic transactions include all other transactions not included as funds transfers, book-entry securities transfers, cash items, noncash items, automated clearing house transactions, net settlement entries, and discount window loans (e.g., original issue of securities or redemption of securities).

(7) An overdraft in an account occurs whenever the Federal Reserve Bank, nonbank bank, or industrial bank holding an account posts a transaction to the account of the nonbank bank, industrial bank, or affiliate that exceeds the aggregate balance of the accounts of the nonbank bank, industrial bank, or affiliate, as determined by the posting rules set forth in paragraphs (d) and (e) of this section and continues until the aggregate balance of the account is zero or greater.

(b) Restriction on overdrafts—(1) Affiliates. Neither a nonbank bank nor an industrial bank shall permit any affiliate to incur any overdraft in its account with the nonbank bank or industrial bank.

(2) Nonbank banks or industrial banks.

(i) No nonbank bank or industrial bank shall incur any overdraft in its account at a Federal Reserve Bank on behalf of an affiliate.

(ii) An overdraft by a nonbank bank or industrial bank in its account at a Federal Reserve Bank shall be deemed to be on behalf of an affiliate whenever:

(A) A nonbank bank or industrial bank holds an account for an affiliate from which third-party payments can be made; and

(B) When the posting of an affiliate’s transaction to the nonbank bank’s or industrial bank’s account at a Reserve Bank creates an overdraft in its account at a Federal Reserve Bank or increases the amount of an existing overdraft in its account at a Federal Reserve Bank.
Federal Reserve System § 225.52

(c) Permissible overdrafts. The following are permissible overdrafts not subject to paragraph (b) of this section:

(1) Inadvertent error. An overdraft in its account by a nonbank bank or its affiliate, or an industrial bank or its affiliate, that results from an inadvertent computer error or inadvertent accounting error, that was not reasonably foreseeable or could not have been prevented through the maintenance of procedures reasonably adopted by the nonbank bank or affiliate to avoid such overdraft; and

(2) Fully secured primary dealer affiliate overdrafts. (i) An overdraft incurred by an affiliate of a nonbank bank, which affiliate is recognized as a primary dealer by the Federal Reserve Bank of New York, in the affiliate’s account at the nonbank bank, or an overdraft incurred by a nonbank bank on behalf of its primary dealer affiliate in the nonbank bank’s account at a Federal Reserve Bank; provided: the overdraft is fully secured by bonds, notes, or other obligations which are direct obligations of the United States or on which the principal and interest are fully guaranteed by the United States or by securities and obligations eligible for settlement on the Federal Reserve book-entry system.

(ii) An overdraft by a nonbank bank in its account at a Federal Reserve Bank that is on behalf of a primary dealer affiliate is fully secured when that portion of its overdraft at the Federal Reserve Bank that corresponds to the transaction posted for an affiliate that caused or increased the nonbank bank’s overdraft is fully secured in accordance with paragraph (c)(2)(i) of this section.

(iii) An overdraft is fully secured under paragraph (c)(2)(i) when the nonbank bank can demonstrate that the overdraft is secured, at all times, by a perfected security interest in specific, identified obligations described in paragraph (c)(2)(i) with a market value that, in the judgment of the Reserve Bank holding the nonbank bank’s account, is sufficiently in excess of the amount of the overdraft to provide a margin of protection in a volatile market or in the event the securities need to be liquidated quickly.

(d) Posting by Federal Reserve Banks. For purposes of determining the balance of an account under this section, payments and transfers by nonbank banks and industrial banks processed by the Federal Reserve Banks shall be considered posted to their accounts at Federal Reserve Banks as follows:

(1) Funds transfers. Transfer items shall be posted:

(i) To the transferor’s account at the time the transfer is actually made by the transferor’s Federal Reserve Bank; and

(ii) To the transferee’s account at the time the transferee’s Reserve Bank sends the transfer item or sends or telephones the advice of credit for the item to the transferee, whichever occurs first.

(2) Book-entry securities transfers against payment. A book-entry securities transfer against payment shall be posted: (i) to the transferor’s account at the time the entry is made by the transferor’s Reserve Bank; and (ii) to the transferee’s account at the time the entry is made by the transferee’s Reserve Bank.

(3) Discount window loans. Credit for a discount window loan shall be posted to the account of a nonbank bank or industrial bank at the close of business on the day that it is made or such earlier time as may be specifically agreed to by the Federal Reserve Bank and the nonbank bank under the terms of the loan. Debit for repayment of a discount window loan shall be posted to the account of the nonbank bank or industrial bank as of the close of business on the day of maturity of the loan or such earlier time as may be agreed to by the Federal Reserve Bank and the nonbank bank or required by the Federal Reserve Bank under the terms of the loan.

(4) Other transactions. Total aggregate credits for automated clearing house transfers, cash items, noncash items, net settlement entries, and other non-electronic transactions shall be posted to the account of a nonbank bank or industrial bank as of the opening of business on settlement day. Total aggregate debits for these transactions and entries shall be posted to the account of a nonbank bank or industrial
§ 225.61 Authority, purpose, and scope.

(b) Purpose and scope. (1) Title XI provides protection for federal financial and public policy interests in real estate related transactions by requiring real estate appraisals used in connection with federally related transactions to be carried out by qualified appraisers and to meet certain standards and requirements. The Board has issued this subpart to ensure that such appraisals are performed in a manner consistent with the requirements of Title XI.

(2) The subpart applies to certain real estate related transactions, including those involving the purchase or sale of real property, the extension of mortgage credit, and the issuance of mortgage insurance. The subpart establishes standards and requirements for appraisals of real property, including the qualifications of appraisers, the standards to be applied in conducting appraisals, and the documentation to be maintained.

VerDate Nov<24>2008 13:02 Mar 12, 2009 Jkt 217037 PO 00000 Frm 00168 Fmt 8010 Sfmt 8010 Y:\SGML\217037.XXX 217037cprice-sewell on PRODPC61 with CFR
to be performed in writing, in accordance with uniform standards, by appraisers whose competency has been demonstrated and whose professional conduct will be subject to effective supervision. This subpart implements the requirements of title XI, and applies to all federally related transactions entered into by the Board or by institutions regulated by the Board (regulated institutions).

(2) This subpart:
(i) Identifies which real estate-related financial transactions require the services of an appraiser;
(ii) Prescribes which categories of federally related transactions shall be appraised by a State certified appraiser and which by a State licensed appraiser; and
(iii) Prescribes minimum standards for the performance of real estate appraisals in connection with federally related transactions under the jurisdiction of the Board.

§ 225.62 Definitions.

(a) Appraisal means a written statement independently and impartially prepared by a qualified appraiser setting forth an opinion as to the market value of an adequately described property as of a specific date(s), supported by the presentation and analysis of relevant market information.

(b) Appraisal Foundation means the Appraisal Foundation established on November 30, 1987, as a not-for-profit corporation under the laws of Illinois.

(c) Appraisal Subcommittee means the Appraisal Subcommittee of the Federal Financial Institutions Examination Council.

(d) Business loan means a loan or extension of credit to any corporation, general or limited partnership, business trust, joint venture, pool, syndicate, sole proprietorship, or other business entity.

(e) Complex 1-to-4 family residential property appraisal means one in which the property to be appraised, the form of ownership, or market conditions are atypical.

(f) Federally related transaction means any real estate-related financial transaction entered into on or after August 9, 1990, that:

(1) The Board or any regulated institution engages in or contracts for; and
(2) Requires the services of an appraiser.

(g) Market value means the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

(1) Buyer and seller are typically motivated;
(2) Both parties are well informed or well advised, and acting in what they consider their own best interests;
(3) A reasonable time is allowed for exposure in the open market;
(4) Payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and
(5) The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

(h) Real estate or real property means an identified parcel or tract of land, with improvements, and includes easements, rights of way, undivided or future interests, or similar rights in a tract of land, but does not include mineral rights, timber rights, growing crops, water rights, or similar interests severable from the land when the transaction does not involve the associated parcel or tract of land.

(i) Real estate-related financial transaction means any transaction involving:

(1) The sale, lease, purchase, investment in or exchange of real property, including interests in property, or the financing thereof; or
(2) The refinancing of real property or interests in real property; or
(3) The use of real property or interests in property as security for a loan or investment, including mortgage-backed securities.

(j) State certified appraiser means any individual who has satisfied the requirements for certification in a State
§ 225.63 Appraisals required; transactions requiring a State certified or licensed appraiser.

(a) Appraisals required. An appraisal performed by a State certified or licensed appraiser is required for all real estate-related financial transactions except those in which:

1. The transaction value is $250,000 or less;
2. A lien on real estate has been taken as collateral in an abundance of caution;
3. The transaction is not secured by real estate;
4. A lien on real estate has been taken for purposes other than the real estate’s value;
5. The transaction is a business loan that:
   (i) Has a transaction value of $1 million or less; and
   (ii) Is not dependent on the sale of, or rental income derived from, real estate as the primary source of repayment;
6. A lease of real estate is entered into, unless the lease is the economic equivalent of a purchase or sale of the leased real estate;
7. The transaction involves an existing extension of credit at the lending institution, provided that:
   (i) There has been no obvious and material change in market conditions or physical aspects of the property that threatens the adequacy of the institution’s real estate collateral protection after the transaction, even with the advancement of new monies; or
   (ii) There is no advancement of new monies, other than funds necessary to cover reasonable closing costs;
8. The transaction involves the purchase, sale, investment in, exchange of, or extension of credit secured by, a loan or interest in a loan, pooled loans, or interests in real property, including mortgaged-backed securities, and each loan or interest in a loan, pooled loan, or real property interest met Board regulatory requirements for appraisals at the time of origination;
9. The transaction is wholly or partially insured or guaranteed by a

(m) Transaction value means:

1. For loans or other extensions of credit, the amount of the loan or extension of credit;
2. For sales, leases, purchases, and investments in or exchange of real property, the market value of the real property interest involved; and
3. For the pooling of loans or interests in real property for resale or purchase, the amount of the loan or the market value of the real property calculated with respect to each such loan or interest in real property.

United States government agency or United States government sponsored agency:

(10) The transaction either:
   (i) Qualifies for sale to a United States government agency or United States government sponsored agency; or
   (ii) Involves a residential real estate transaction in which the appraisal conforms to the Federal National Mortgage Association or Federal Home Loan Mortgage Corporation appraisal standards applicable to that category of real estate;

(11) The regulated institution is acting in a fiduciary capacity and is not required to obtain an appraisal under other law;

(12) The transaction involves underwriting or dealing in mortgage-backed securities; or

(13) The Board determines that the services of an appraiser are not necessary in order to protect Federal financial and public policy interests in real estate-related financial transactions or to protect the safety and soundness of the institution.

(b) Evaluations required. For a transaction that does not require the services of a State certified or licensed appraiser under paragraph (a)(1), (a)(5) or (a)(7) of this section, the institution shall obtain an appropriate evaluation of real property collateral that is consistent with safe and sound banking practices.

(c) Appraisals to address safety and soundness concerns. The Board reserves the right to require an appraisal under this subpart whenever the agency believes it is necessary to address safety and soundness concerns.

(d) Transactions requiring a State certified appraiser—(1) All transactions of $1,000,000 or more. All federally related transactions having a transaction value of $1,000,000 or more shall require an appraisal prepared by a State certified appraiser.

(2) Nonresidential transactions of $250,000 or more. All federally related transactions having a transaction value of $250,000 or more, other than those involving appraisals of 1-to-4 family residential properties, shall require an appraisal prepared by a State certified appraiser.

(3) Complex residential transactions of $250,000 or more. All complex 1-to-4 family residential property appraisals rendered in connection with federally related transactions shall require a State certified appraiser if the transaction value is $250,000 or more. A regulated institution may presume that appraisals of 1-to-4 family residential properties are not complex, unless the institution has readily available information that a given appraisal will be complex. The regulated institution shall be responsible for making the final determination of whether the appraisal is complex. If during the course of the appraisal a licensed appraiser identifies factors that would result in the property, form of ownership, or market conditions being considered atypical, then either:
   (i) The regulated institution may ask the licensed appraiser to complete the appraisal and have a certified appraiser approve and co-sign the appraisal; or
   (ii) The institution may engage a certified appraiser to complete the appraisal.

(e) Transactions requiring either a State certified or licensed appraiser. All appraisals for federally related transactions not requiring the services of a State certified appraiser shall be prepared by either a State certified appraiser or a State licensed appraiser.

§ 225.64 Minimum appraisal standards.

For federally related transactions, all appraisals shall, at a minimum:

(a) Conform to generally accepted appraisal standards as evidenced by the Uniform Standards of Professional Appraisal Practice promulgated by the Appraisal Standards Board of the Appraisal Foundation, 1029 Vermont Ave., NW., Washington, DC 20005, unless principles of safe and sound banking require compliance with stricter standards;

(b) Be written and contain sufficient information and analysis to support the institution's decision to engage in the transaction;

(c) Analyze and report appropriate deductions and discounts for proposed construction or renovation, partially
leased buildings, non-market lease terms, and tract developments with unsold units;

(d) Be based upon the definition of market value as set forth in this subpart; and

(e) Be performed by State licensed or certified appraisers in accordance with requirements set forth in this subpart.

[Reg. Y, 59 FR 29501, June 7, 1994]

§ 225.65 Appraiser independence.

(a) Staff appraisers. If an appraisal is prepared by a staff appraiser, that appraiser must be independent of the lending, investment, and collection functions and not involved, except as an appraiser, in the federally related transaction, and have no direct or indirect interest, financial or otherwise, in the property. If the only qualified persons available to perform an appraisal are involved in the lending, investment, or collection functions of the regulated institution, the regulated institution shall take appropriate steps to ensure that the appraisers exercise independent judgment and that the appraisal is adequate. Such steps include, but are not limited to, prohibiting an individual from performing appraisals in connection with federally related transactions in which the appraiser is otherwise involved and prohibiting directors and officers from participating in any vote or approval involving assets on which they performed an appraisal.

(b) Fee appraisers. (1) If an appraisal is prepared by a fee appraiser, the appraiser shall be engaged directly by the regulated institution or its agent, and have no direct or indirect interest, financial or otherwise, in the property or the transaction.

(2) A regulated institution also may accept an appraisal that was prepared by an appraiser engaged directly by another financial services institution, if:

(i) The appraiser has no direct or indirect interest, financial or otherwise, in the property or the transaction; and

(ii) The regulated institution determines that the appraisal conforms to the requirements of this subpart and is otherwise acceptable.

Federal Reserve System

§ 225.73

(4) Has not been identified by the Board or Reserve Bank as a person who performs the functions of a director for purposes of this subpart.

(b) Regulated institution means a state member bank or a bank holding company.

(c) Senior executive officer means a person who holds the title or, without regard to title, salary, or compensation, performs the function of one or more of the following positions: president, chief executive officer, chief operating officer, chief financial officer, chief lending officer, or chief investment officer. Senior executive officer also includes any other person identified by the Board or Reserve Bank, whether or not hired as an employee, with significant influence over, or who participates in, major policymaking decisions of the regulated institution.

(d) Troubled condition for a regulated institution means an institution that:

(1) Has a composite rating, as determined in its most recent report of examination or inspection, of 4 or 5 under the Uniform Financial Institutions Rating System or under the Federal Reserve Bank Holding Company Rating System;

(2) Is subject to a cease-and-desist order or formal written agreement that requires action to improve the financial condition of the institution, unless otherwise informed in writing by the Board or Reserve Bank; or

(3) Is informed in writing by the Board or Reserve Bank that it is in troubled condition for purposes of the requirements of this subpart on the basis of the institution’s most recent report of condition or report of examination or inspection:

(1) The regulated institution is not in compliance with all minimum capital requirements applicable to the institution as determined on the basis of the institution’s most recent report of condition or report of examination or inspection;

(2) The regulated institution is in troubled condition; or

(3) The Board determines, in connection with its review of a capital restoration plan required under section 38 of the Federal Deposit Insurance Act or subpart B of the Board’s Regulation H, or otherwise, that such notice is appropriate.

(b) Prior notice by individual. The prior notice required by paragraph (a) of this section may be provided by an individual seeking election to the board of directors of a regulated institution.

§ 225.73 Procedures for filing, processing, and acting on notices; standards for disapproval; waiver of notice.

(a) Filing notice—(1) Content. The notice required in §225.72 shall be filed with the appropriate Reserve Bank and shall contain:

(i) The information required by paragraph 6(A) of the Change in Bank Control Act (12 U.S.C. 1817(j)(6)(A)) as may be prescribed in the designated Board form;

(ii) Additional information consistent with the Federal Financial Institutions Examination Council’s Joint Statement of Guidelines on Conducting Background Checks and Change in Control Investigations, as set forth in the designated Board form; and

(iii) Such other information as may be required by the Board or Reserve Bank.

(2) Modification. The Reserve Bank may modify or accept other information in place of the requirements of §225.73(a)(1) for a notice filed under this subpart.

(3) Acceptance and processing of notice. The 30-day notice period specified in §225.72 shall begin on the date all information required to be submitted by the notificant pursuant to §225.73(a)(1) is received by the appropriate Reserve Bank.

§ 225.72 Director and officer appointments; prior notice requirement.

(a) Prior notice by regulated institution. A regulated institution shall give the Board 30 days’ written notice, as specified in §225.73, before adding or replacing any member of its board of directors, employing any person as a senior executive officer of the institution, or changing the responsibilities of any senior executive officer so that the person would assume a different senior executive officer position, if:

(1) The regulated institution is not in compliance with all minimum capital requirements applicable to the institution as determined on the basis of the institution’s most recent report of condition or report of examination or inspection;

(2) The regulated institution is in troubled condition; or

(3) The Board determines, in connection with its review of a capital restoration plan required under section 38 of the Federal Deposit Insurance Act or subpart B of the Board’s Regulation H, or otherwise, that such notice is appropriate.
Bank. The Reserve Bank shall notify the regulated institution or individual submitting the notice of the date on which all required information is received and the notice is accepted for processing, and of the date on which the 30-day notice period will expire. The Board or Reserve Bank may extend the 30-day notice period for an additional period of not more than 60 days by notifying the regulated institution or individual filing the notice that the period has been extended and stating the reason for not processing the notice within the 30-day notice period.

(b) Commencement of service—(1) At expiration of period. A proposed director or senior executive officer may begin service after the end of the 30-day period and any extension as provided under paragraph (a)(3) of this section, unless the Board or Reserve Bank disapproves the notice before the end of the period.

(2) Prior to expiration of period. A proposed director or senior executive officer may begin service before the end of the 30-day period and any extension as provided under paragraph (a)(3) of this section, if the Board or the Reserve Bank notifies in writing the regulated institution or individual submitting the notice of the Board’s or Reserve Bank’s intention not to disapprove the notice.

(c) Notice of disapproval. The Board or Reserve Bank shall disapprove a notice under §225.72 if the Board or Reserve Bank finds that the competence, experience, character, or integrity of the individual with respect to whom the notice is submitted indicates that it would not be in the best interests of the depositors of the regulated institution or in the best interests of the public to permit the individual to be employed by, or associated with, the regulated institution. The notice of disapproval shall contain a statement of the basis for disapproval and shall be sent to the regulated institution and the disapproved individual.

(d) Appeal of a notice of disapproval. (1) A disapproved individual or a regulated institution that has submitted a notice that is disapproved under this section may appeal the disapproval to the Board within 15 days of the effective date of the notice of disapproval. An appeal shall be in writing and explain the reasons for the appeal and include all facts, documents, and arguments that the appealing party wishes to be considered in the appeal, and state whether the appealing party is requesting an informal hearing.

(2) Written notice of the final decision of the Board shall be sent to the appealing party within 60 days of the receipt of an appeal, unless the appealing party’s request for an informal hearing is granted.

(3) The disapproved individual may not serve as a director or senior executive officer of the state member bank or bank holding company while the appeal is pending.

(e) Informal hearing. (1) An individual or regulated institution whose notice under this section has been disapproved may request an informal hearing on the notice. A request for an informal hearing shall be in writing and shall be submitted within 15 days of a notice of disapproval. The Board may, in its sole discretion, order an informal hearing if the Board finds that oral argument is appropriate or necessary to resolve disputes regarding material issues of fact.

(2) An informal hearing shall be held within 30 days of a request, if granted, unless the requesting party agrees to a later date.

(3) Written notice of the final decision of the Board shall be given to the individual and the regulated institution within 60 days of the conclusion of any informal hearing ordered by the Board, unless the requesting party agrees to a later date.

(f) Waiver of notice—(1) Waiver requests. The Board or Reserve Bank may permit an individual to serve as a senior executive officer or director before the notice required under this subpart is provided, if the Board or Reserve Bank finds that:

(i) Delay would threaten the safety or soundness of the regulated institution or a bank controlled by a bank holding company;

(ii) Delay would not be in the public interest; or

(iii) Other extraordinary circumstances exist that justify waiver of prior notice.

(2) Automatic waiver. An individual may serve as a director upon election
Federal Reserve System

§ 225.82

to the board of directors of a regulated institution before the notice required under this subpart is provided if the individual:

(i) Is not proposed by the management of the regulated institution;

(ii) Is elected as a new member of the board of directors at a meeting of the regulated institution; and

(iii) Provides to the appropriate Reserve Bank all the information required in §225.73(a) within two (2) business days after the individual’s election.

(3) Effect on disapproval authority. A waiver shall not affect the authority of the Board or Reserve Bank to disapprove a notice within 30 days after a waiver is granted under paragraph (f)(1) of this section or the election of an individual who has filed a notice and is serving pursuant to an automatic waiver under paragraph (f)(2) of this section.

Subpart I—Financial Holding Companies

§ 225.81 What is a financial holding company?

(a) Definition. A financial holding company is a bank holding company that meets the requirements of this section.

(b) Requirements to be a financial holding company. In order to be a financial holding company:

(1) All depository institutions controlled by the bank holding company must be and remain well capitalized;

(2) All depository institutions controlled by the bank holding company must be and remain well managed; and

(3) The bank holding company must have made an effective election to become a financial holding company.

(c) Requirements for foreign banks that are or are owned by bank holding companies—(1) Foreign banks with U.S. branches or agencies that also own U.S. banks. A foreign bank that is a bank holding company and that operates a branch or agency or owns or controls a commercial lending company in the United States must comply with the requirements of this section, §225.82, and §§225.90 through 225.92 in order to be a financial holding company. After it becomes a financial holding company, a foreign bank described in this paragraph will be subject to the provisions of §§225.83, 225.84, 225.93, and 225.94.

(2) Bank holding companies that own foreign banks with U.S. branches or agencies. A bank holding company that owns a foreign bank that operates a branch or agency or owns or controls a commercial lending company in the United States must comply with the requirements of this section, §225.82, and §§225.90 through 225.92 in order to be a financial holding company. After it becomes a financial holding company, a bank holding company described in this paragraph will be subject to the provisions of §§225.83, 225.84, 225.93, and 225.94.

§ 225.82 How does a bank holding company elect to become a financial holding company?

(a) Filing requirement. A bank holding company may elect to become a financial holding company by filing a written declaration with the appropriate Reserve Bank. A declaration by a bank holding company is considered to be filed on the date that all information required by paragraph (b) of this section is received by the appropriate Reserve Bank.

(b) Contents of declaration. To be deemed complete, a declaration must:

(1) State that the bank holding company elects to be a financial holding company;

(2) Provide the name and head office address of the bank holding company and of each depository institution controlled by the bank holding company;

(3) Certify that each depository institution controlled by the bank holding company is well capitalized as of the close of the previous quarter for all relevant capital measures, as defined in section 38 of the Federal Deposit Insurance Act (12 U.S.C. 1831o), for each depository institution controlled by the company on the date the company submits its declaration; and

(4) Provide the capital ratios as of the close of the previous quarter for all relevant capital measures, as defined in section 38 of the Federal Deposit Insurance Act (12 U.S.C. 1831o), for each depository institution controlled by the company on the date the company submits its declaration; and
§ 225.82
12 CFR Ch. II (1–1–09 Edition)

(5) Certify that each depository institution controlled by the company is well managed as of the date the company submits its declaration.

(c) Effectiveness of election. An election by a bank holding company to become a financial holding company shall not be effective if, during the period provided in paragraph (e) of this section, the Board finds that, as of the date the declaration was filed with the appropriate Reserve Bank:

(1) Any insured depository institution controlled by the company (except an institution excluded under paragraph (d) of this section) has not achieved at least a rating of “satisfactory record of meeting community credit needs” under the Community Reinvestment Act at the institution’s most recent examination; or

(2) Any depository institution controlled by the bank holding company is not both well capitalized and well managed.

(d) Consideration of the CRA performance of a recently acquired insured depository institution. Except as provided in paragraph (f) of this section, an insured depository institution will be excluded for purposes of the review of the Community Reinvestment Act rating provisions of paragraph (c)(1) of this section if:

(1) The bank holding company acquired the insured depository institution during the 12-month period preceding the filing of an election under paragraph (a) of this section; and

(2) The bank holding company has submitted an affirmative plan to the appropriate Federal banking agency for the institution to take actions necessary for the institution to achieve at least a rating of “satisfactory record of meeting community credit needs” under the Community Reinvestment Act at the next examination of the institution; and

(3) The appropriate Federal banking agency for the institution has accepted the plan described in paragraph (d)(2) of this section.

(e) Effective date of election—(1) In general. An election filed by a bank holding company under paragraph (a) of this section is effective on the 31st calendar day after the date that a complete declaration was filed with the appropriate Reserve Bank, unless the Board notifies the bank holding company prior to that time that the election is ineffective.

(2) Earlier notification that an election is effective. The Board or the appropriate Reserve Bank may notify a bank holding company that its election to become a financial holding company is effective prior to the 31st day after the date that a complete declaration was filed with the appropriate Reserve Bank. Such a notification must be in writing.

(f) Requests to become a financial holding company submitted as part of an application to become a bank holding company—(1) In general. A company that is not a bank holding company and has applied for the Board’s approval to become a bank holding company under section 3(a)(1) of the BHC Act (12 U.S.C. 1842(a)(1)) may as part of that application submit a request to become a financial holding company.

(i) State that the company seeks to become a financial holding company on consummation of its proposal to become a bank holding company; and

(ii) Certify that each depository institution that would be controlled by the company on consummation of the proposal to become a bank holding company will be both well capitalized and well managed as of the date the company consummates the proposal.

(3) Request becomes a declaration and an effective election on date of consummation of bank holding company proposal. A complete request submitted by a company under this paragraph (f) becomes a complete declaration by a bank holding company for purposes of section 4(l) of the BHC Act (12 U.S.C. 1843(l)) and becomes an effective election for purposes of §225.81(b) on the date that the company lawfully consummates its proposal under section 3 of the BHC Act (12 U.S.C. 1842), unless the Board notifies the company at any time prior to consummation of the proposal that:

(i) Any depository institution that would be controlled by the company on consummation of the proposal will not
be both well capitalized and well managed on the date of consummation; or
(ii) Any insured depository institution that would be controlled by the company on consummation of the proposal has not achieved at least a rating of ‘satisfactory record of meeting community credit needs’ under the Community Reinvestment Act at the institution’s most recent examination.

(4) Limited exclusion for recently acquired institutions not available. Unless the Board determines otherwise, an insured depository institution that is controlled or would be controlled by the company as part of its proposal to become a bank holding company may not be excluded for purposes of evaluating the Community Reinvestment Act criterion described in this paragraph or in paragraph (d) of this section.

(g) Board’s authority to exercise supervisory authority over a financial holding company. An effective election to become a financial holding company does not in any way limit the Board’s statutory authority under the BHC Act, the Federal Deposit Insurance Act, or any other relevant Federal statute to take appropriate action, including imposing supervisory limitations, restrictions, or prohibitions on the activities and acquisitions of a bank holding company that has elected to become a financial holding company, or enforcing compliance with applicable law.

§ 225.83 What are the consequences of failing to continue to meet applicable capital and management requirements?

(a) Notice by the Board. If the Board finds that a financial holding company controls any depository institution that is not well capitalized or well managed, the Board will notify the company in writing that it is not in compliance with the applicable requirement(s) for a financial holding company and identify the area(s) of noncompliance. The Board may provide this notice at any time before or after receiving notice from the financial holding company under paragraph (b) of this section.

(b) Notification by a financial holding company required—(1) Notice to Board. A financial holding company must notify the Board in writing within 15 calendar days of becoming aware that any depository institution controlled by the company has ceased to be well capitalized or well managed. This notification must identify the depository institution involved and the area(s) of noncompliance.

(2) Triggering events for notice to the Board—(i) Well capitalized. A company becomes aware that a depository institution it controls is no longer well capitalized upon the occurrence of any material event that would change the category assigned to the institution for purposes of section 38 of the Federal Deposit Insurance Act (12 U.S.C. 1831o). See 12 CFR 6.3(b)–(c), 208.42(b)–(c), and 325.102(b)–(c).

(ii) Well managed. A company becomes aware that a depository institution it controls is no longer well managed at the time the depository institution receives written notice from the appropriate Federal or state banking agency that either its composite rating or its rating for management is not at least satisfactory.

(c) Execution of agreement acceptable to the Board—(1) Agreement required; time period. Within 45 days after receiving a notice from the Board under paragraph (a) of this section, the company must execute an agreement acceptable to the Board to comply with all applicable capital and management requirements.

(2) Extension of time for executing agreement. Upon request by a company, the Board may extend the 45-day period under paragraph (c)(1) of this section if the Board determines that granting additional time is appropriate under the circumstances. A request by a company for additional time must include an explanation of why an extension is necessary.

(3) Agreement requirements. An agreement required by paragraph (c)(1) of this section to correct a capital or management deficiency must:

(i) Explain the specific actions that the company will take to correct all areas of noncompliance;

(ii) Provide a schedule within which each action will be taken;

(iii) Provide any other information that the Board may require; and

(iv) Be acceptable to the Board.
(d) Limitations during period of non-compliance—Until the Board determines that a company has corrected the conditions described in a notice under paragraph (a) of this section:

(1) The Board may impose any limitations or conditions on the conduct or activities of the company or any of its affiliates as the Board finds to be appropriate and consistent with the purposes of the BHC Act; and

(2) The company and its affiliates may not commence any additional activity or acquire control or shares of any company under section 4(k) of the BHC Act without prior approval from the Board.

(e) Consequences of failure to correct conditions within 180 days—(1) Divestiture of depository institutions. If a company does not correct the conditions described in a notice under paragraph (a) of this section within 180 days of receipt of the notice or such additional time as the Board may permit, the Board may order the company to divest ownership or control of any depository institution owned or controlled by the company. Such divestiture must be done in accordance with the terms and conditions established by the Board.

(2) Alternative method of complying with a divestiture order. A company may comply with an order issued under paragraph (e)(1) of this section by ceasing to engage (both directly and through any subsidiary that is not a depository institution or a subsidiary of a depository institution) in any activity that may be conducted only under section 4(k), (n), or (o) of the BHC Act (12 U.S.C. 1843(k), (n), or (o)). The termination of activities must be completed within the time period referred to in paragraph (e)(1) of this section and in accordance with the terms and conditions acceptable to the Board.

(f) Consultation with other agencies. In taking any action under this section, the Board will consult with the relevant Federal and state regulatory authorities.

§ 225.84 What are the consequences of failing to maintain a satisfactory or better rating under the Community Reinvestment Act at all insured depository institution subsidiaries?

(a) Limitations on activities—(1) In general. Upon receiving a notice regarding performance under the Community Reinvestment Act in accordance with paragraph (a)(2) of this section, a financial holding company may not:

(i) Commence any additional activity under section 4(k) or 4(n) of the BHC Act (12 U.S.C. 1843(k) or (n)); or

(ii) Directly or indirectly acquire control, including all or substantially all of the assets, of a company engaged in any activity under section 4(k) or 4(n) of the BHC Act (12 U.S.C. 1843(k) or (n)).

(2) Notification. A financial holding company receives notice for purposes of this paragraph at the time that the appropriate Federal banking agency for any insured depository institution controlled by the company or the Board provides notice to the institution or company that the institution has received a rating of “needs to improve record of meeting community credit needs” or “substantial non-compliance in meeting community credit needs” in the institution’s most recent examination under the Community Reinvestment Act.

(b) Exceptions for certain activities—(1) Continuation of investment activities. The prohibition in paragraph (a) of this section does not prevent a financial holding company from continuing to make investments in the ordinary course of conducting merchant banking activities under section 4(k)(4)(I) of the BHC Act (12 U.S.C. 1843(k)(4)(I)) or insurance company investment activities under section 4(k)(4)(I) of the BHC Act (12 U.S.C. 1843(k)(4)(I)) if:

(i) The financial holding company lawfully was a financial holding company and commenced the merchant banking activity under section 4(k)(4)(H) of the BHC Act (12 U.S.C. 1843(k)(4)(H)) or insurance company investment activity under section 4(k)(4)(I) of the BHC Act (12 U.S.C. 1843(k)(4)(I)) prior to the time that an insured depository institution controlled by the financial holding company received a rating below “satisfactory record of meeting community credit needs” under the Community Reinvestment Act; and

(ii) The Board has not, in the exercise of its supervisory authority, advised the financial holding company that these activities must be restricted.
(2) Activities that are closely related to banking. The prohibition in paragraph (a) of this section does not prevent a financial holding company from commencing any additional activity or acquiring control of a company engaged in any activity under section 4(c) of the BHC Act (12 U.S.C. 1843(c)), if the company complies with the notice, approval, and other requirements of that section and section 4(j) of the BHC Act (12 U.S.C. 1843(j)).

(c) Duration of prohibitions. The prohibitions described in paragraph (a) of this section shall continue in effect until such time as each insured depository institution controlled by the financial holding company has achieved at least a rating of “satisfactory record of meeting community credit needs” under the Community Reinvestment Act at the most recent examination of the institution.

§ 225.85 Is notice to or approval from the Board required prior to engaging in a financial activity?

(a) No prior approval required generally—(1) In general. A financial holding company and any subsidiary (other than a depository institution or subsidiary of a depository institution) of the financial holding company may engage in any activity listed in § 225.86, or acquire shares or control of a company engaged exclusively in activities listed in § 225.86, without providing prior notice to or obtaining prior approval from the Board unless required under paragraph (c) of this section.

(2) Acquisitions by a financial holding company of a company engaged in other permissible activities. In addition to the activities listed in § 225.86, a company acquired or to be acquired by a financial holding company under paragraph (a)(1) of this section may engage in activities otherwise permissible for a financial holding company under this part in accordance with any applicable notice, approval, or other requirement.

(3) Acquisition by a financial holding company of a company engaged in limited nonfinancial activities—(1) Mixed acquisitions generally permitted. A financial holding company may under this subpart acquire more than 5 percent of the outstanding shares of any class of voting securities or control of a company that is not engaged exclusively in activities that are financial in nature, incidental to a financial activity, or otherwise permissible for the financial holding company under section 4(c) of the BHC Act (12 U.S.C. 1843(c)) if:

(A) The company to be acquired is substantially engaged in activities that are financial in nature, incidental to a financial activity, or otherwise permissible for the financial holding company under section 4(c) of the BHC Act (12 U.S.C. 1843(c));

(B) The financial holding company complies with the notice requirements of § 225.87, if applicable; and

(C) The company conforms, terminates, or divests, within 2 years of the date the financial holding company acquires shares or control of the company, all activities that are not financial in nature, incidental to a financial activity, or otherwise permissible for the financial holding company under section 4(c) (12 U.S.C. 1843(c)) of the BHC Act.

(b) Locations in which a financial holding company may conduct financial activities. A financial holding company may conduct any activity listed in § 225.86 at any location in the United States or at any location outside of the United States subject to the laws of the jurisdiction in which the activity is conducted.

(c) Circumstances under which prior notice to the Board is required—(1) Acquisition of more than 5 percent of the shares of a savings association. A financial holding company must obtain Board approval in accordance with section 4(j) of the BHC Act (12 U.S.C. 1843(j)).
§ 225.86 What activities are permissible for any financial holding company?

The following activities are financial in nature or incidental to a financial activity:

(a) Activities determined to be closely related to banking. (1) Any activity that the Board had determined by regulation prior to November 12, 1999, to be so closely related to banking as to be a proper incident thereto, subject to the terms and conditions contained in this part, unless modified by the Board. These activities are listed in §225.28.

(2) Any activity that the Board had determined by an order that was in effect on November 12, 1999, to be so closely related to banking as to be a proper incident thereto, subject to the terms and conditions contained in this part, unless modified by the Board. These activities are listed in §225.28.

(b) Activities determined to be usual in connection with the transaction of banking abroad. Any activity that the Board had determined by regulation in effect on November 11, 1999, to be usual in connection with the transaction of banking or other financial operations abroad (see §211.5(d) of this chapter), subject to the terms and conditions in part 211 and Board interpretations in effect on that date regarding the scope and conduct of the activity. In addition to the activities listed in paragraphs (a) and (c) of this section, these activities are:

(i) Providing management consulting services, including to any person with respect to nonfinancial matters, so long as the management consulting services are advisory and do not allow the financial holding company to control the person to which the services are provided;

(ii) Operating a travel agency in connection with financial services offered by the financial holding company or others; and

(iii) Organizing, sponsoring, and managing a mutual fund, so long as:

(I) The fund does not exercise managerial control over the entities in which the fund invests; and

(ii) The financial holding company reduces its ownership in the fund, if any, to less than 25 percent of the equity of the fund within one year of sponsoring the fund or such additional period as the Board permits.

and either §225.14 or §225.24, as appropriate, prior to acquiring control or more than 5 percent of the outstanding shares of any class of voting securities of a savings association or of a company that owns, operates, or controls a savings association.

(2) Supervisory actions. The Board may, if appropriate in the exercise of its supervisory or other authority, including under §225.82(g) or §225.83(d) or other relevant authority, require a financial holding company to provide notice to or obtain approval from the Board prior to engaging in any activity or acquiring shares or control of any company.

(vi) In connection with offering banking services, providing notary public services, selling postage stamps and postage-paid envelopes, providing vehicle registration services, and selling public transportation tickets and tokens (Popular, Inc., 84 Federal Reserve Bulletin 481 (1998)); and

(vii) Real estate title abstracting (The First National Company, 81 Federal Reserve Bulletin 805 (1995)).
(c) Activities permitted under section 4(k)(4) of the BHC Act (12 U.S.C. 1843(k)(4)). Any activity defined to be financial in nature under sections 4(k)(4)(A) through (E), (H) and (I) of the BHC Act (12 U.S.C. 1843(k)(4)(A) through (E), (H) and (I)).

(d) Activities determined to be financial in nature or incidental to financial activities by the Board—(1) Acting as a finder—Acting as a finder in bringing together one or more buyers and sellers of any product or service for transactions that the parties themselves negotiate and consummate.

(i) What is the scope of finder activities? Acting as a finder includes providing any or all of the following services through any means—

(A) Identifying potential parties, making inquiries as to interest, introducing and referring potential parties to each other, and arranging contacts between and meetings of interested parties;

(B) Conveying between interested parties expressions of interest, bids, offers, orders and confirmations relating to a transaction; and

(C) Transmitting information concerning products and services to potential parties in connection with the activities described in paragraphs (d)(1)(i)(A) and (B) of this section.

(ii) What are some examples of finder services? The following are examples of the services that may be provided by a finder when done in accordance with paragraphs (d)(1)(iii) and (iv) of this section. These examples are not exclusive.

(A) Hosting an electronic marketplace on the financial holding company’s Internet web site by providing hypertext or similar links to the web sites of third party buyers or sellers.

(B) Hosting on the financial holding company’s servers the Internet web site of—

(1) A buyer (or seller) that provides information concerning the buyer (or seller) and the products or services it seeks to buy (or sell) and allows sellers (or buyers) to submit expressions of interest, bids, offers, orders and confirmations relating to such products or services; or

(2) A government or government agency that provides information concerning the services or benefits made available by the government or government agency, assists persons in completing applications to receive such services or benefits from the government or agency, and allows persons to transmit their applications for services or benefits to the government or agency.

(C) Operating an Internet web site that allows multiple buyers and sellers to exchange information concerning the products and services that they are willing to purchase or sell, locate potential counterparties for transactions, aggregate orders for goods or services with those made by other parties, and enter into transactions between themselves.

(D) Operating a telephone call center that provides permissible finder services.

(iii) What limitations are applicable to a financial holding company acting as a finder? (A) A finder may act only as an intermediary between a buyer and a seller.

(B) A finder may not bind any buyer or seller to the terms of a specific transaction or negotiate the terms of a specific transaction on behalf of a buyer or seller, except that a finder may—

(1) Arrange for buyers to receive preferred terms from sellers so long as the terms are not negotiated as part of any individual transaction, are provided generally to customers or broad categories of customers, and are made available by the seller (and not by the financial holding company); and

(2) Establish rules of general applicability governing the use and operation of the finder service, including rules that—

(i) Govern the submission of bids and offers by buyers and sellers that use the finder service and the circumstances under which the finder service will match bids and offers submitted by buyers and sellers; and

(ii) Govern the manner in which buyers and sellers may bind themselves to the terms of a specific transaction.

(C) A finder may not—

(1) Take title to or acquire or hold an ownership interest in any product or service offered or sold through the finder service;
§ 225.87

(2) Provide distribution services for physical products or services offered or sold through the finder service;

(3) Own or operate any real or personal property that is used for the purpose of manufacturing, storing, transporting, or assembling physical products offered or sold by third parties; or

(4) Own or operate any real or personal property that serves as a physical location for the physical purchase, sale or distribution of products or services offered or sold by third parties.

(D) A finder may not engage in any activity that would require the company to register or obtain a license as a real estate agent or broker under applicable law.

(iv) What disclosures are required? A finder must distinguish the products and services offered by the financial holding company from those offered by a third party through the finder service.

(2) [Reserved]

(e) Activities permitted under section 4(k)(5) of the Bank Holding Company Act (12 U.S.C. 1843(k)(5)). (i) The following types of activities are financial in nature or incidental to a financial activity when conducted pursuant to a determination by the Board under paragraph (e)(2) of this section:

(i) Lending, exchanging, transferring, investing for others, or safeguarding financial assets other than money or securities;

(ii) Providing any device or other instrumentality for transferring money or other financial assets; and

(iii) Arranging, effecting, or facilitating financial transactions for the account of third parties.

(2) Review of specific activities—(1) Is a specific request required? A financial holding company that wishes to engage on the basis of paragraph (e)(1) of this section in an activity that is not otherwise permissible for a financial holding company must obtain a determination from the Board that the activity is permitted under paragraph (e)(1).

(i) Consultation with the Secretary of the Treasury. After receiving a request under this section, the Board will provide the Secretary of the Treasury with a copy of the request and consult with the Secretary in accordance with section 4(k)(2)(A) of the Bank Holding Company Act (12 U.S.C. 1843(k)(2)(A)).

(ii) Board action on requests. After consultation with the Secretary, the Board will promptly make a written determination regarding whether the specific activity described in the request is included in an activity category listed in paragraph (e)(1) of this section and is therefore either financial in nature or incidental to a financial activity.

(3) What factors will the Board consider? In evaluating a request made under this section, the Board will take into account the factors listed in section 4(k)(3) of the BHC Act (12 U.S.C. 1843(k)(3)) that it must consider when determining whether an activity is financial in nature or incidental to a financial activity.

(4) What information must the request contain? Any request by a financial holding company under this section must be in writing and must:

(i) Identify and define the activity for which the determination is sought, specifically describing what the activity would involve and how the activity would be conducted; and

(ii) Provide information supporting the requested determination, including information regarding how the proposed activity falls into one of the categories listed in paragraph (e)(1) of this section, and any other information required by the Board concerning the proposed activity.

§ 225.87 Is notice to the Board required after engaging in a financial activity?

(a) Post-transaction notice generally required to engage in a financial activity. A financial holding company that commences an activity or acquires shares of a company engaged in an activity listed in §225.86 must notify the appropriate Reserve Bank in writing within 30 calendar days after commencing the activity or consummating the acquisition by using the appropriate form.

(b) Cases in which notice to the Board is not required—(1) Acquisitions that do not involve control of a company. A notice under paragraph (a) of this section is not required in connection with the
acquisition of shares of a company if, following the acquisition, the financial holding company does not control the company.

(2) No additional notice required to engage de novo in an activity for which a financial holding company already has provided notice. After a financial holding company provides the appropriate Reserve Bank with notice that the company is engaged in an activity listed in §225.86, a financial holding company may, unless otherwise notified by the Board, commence the activity de novo through any subsidiary that the financial holding company is authorized to control without providing additional notice under paragraph (a) of this section.

(3) Conduct of certain investment activities. Unless required by paragraph (b)(4) of this section, a financial holding company is not required to provide notice under paragraph (a) of this section of any individual acquisition of shares of a company as part of the conduct by a financial holding company of securities underwriting, dealing, or market making activities as described in section 4(k)(4)(E) of the BHC Act (12 U.S.C. 1843(k)(4)(E)), merchant banking activities conducted pursuant to section 4(k)(4)(H) of the BHC Act (12 U.S.C. 1843(k)(4)(H)), or insurance company investment activities conducted pursuant to section 4(k)(4)(I) of the BHC Act (12 U.S.C. 1843(k)(4)(I)), if the financial holding company previously has notified the Board under paragraph (a) of this section that the company has commenced the relevant securities, merchant banking, or insurance company investment activities, as relevant.

(4) Notice of large merchant banking or insurance company investments. Notwithstanding paragraph (b)(1) or (b)(3) of this section, a financial holding company must provide notice under paragraph (a) of this section if:

(i) As part of a merchant banking activity conducted under section 4(k)(4)(H) of the BHC Act (12 U.S.C. 1843(k)(4)(H)), the financial holding company acquires more than 5 percent of the shares, assets, or ownership interests of any company at a total cost that exceeds the lesser of 5 percent of the financial holding company’s Tier 1 capital or $200 million;

(ii) As part of an insurance company investment activity conducted under section 4(k)(4)(I) of the BHC Act (12 U.S.C. 1843(k)(4)(I)), the financial holding company acquires more than 5 percent of the shares, assets, or ownership interests of any company at a total cost that exceeds the lesser of 5 percent of the financial holding company’s Tier 1 capital or $200 million; or

(iii) The Board in the exercise of its supervisory authority notifies the financial holding company that a notice is necessary.

§225.88 How to request the Board to determine that an activity is financial in nature or incidental to a financial activity?

(a) Requests regarding activities that may be financial in nature or incidental to a financial activity. A financial holding company or other interested party may request a determination from the Board that an activity not listed in §225.86 is financial in nature or incidental to a financial activity.

(b) Required information. A request submitted under this section must be in writing and must:

(1) Identify and define the activity for which the determination is sought, specifically describing what the activity would involve and how the activity would be conducted;

(2) Explain in detail why the activity should be considered financial in nature or incidental to a financial activity; and

(3) Provide information supporting the requested determination and any other information required by the Board concerning the proposed activity.

(c) Board procedures for reviewing requests—(1) Consultation with the Secretary of the Treasury. Upon receipt of the request, the Board will provide the Secretary of the Treasury a copy of the request and consult with the Secretary in accordance with section 4(k)(2)(A) of the BHC Act (12 U.S.C. 1843(k)(2)(A)).

(2) Public notice. The Board may, as appropriate and after consultation with the Secretary, publish a description of the proposal in the FEDERAL.
§ 225.89 How to request approval to engage in an activity that is complementary to a financial activity?

(a) **Prior Board approval is required.** A financial holding company that seeks to engage in or acquire more than 5 percent of the outstanding shares of any class of voting securities of a company engaged in an activity that the financial holding company believes is complementary to a financial activity must obtain prior approval from the Board in accordance with section 4(j) of the BHC Act (12 U.S.C. 1843(j)). The notice must be in writing and must:

(1) Identify and define the proposed complementary activity, specifically describing what the activity would involve and how the activity would be conducted;

(2) Identify the financial activity for which the proposed activity would be complementary and provide detailed information sufficient to support a finding that the proposed activity should be considered complementary to the identified financial activity;

(3) Describe the scope and relative size of the proposed activity, as measured by the percentage of the projected financial holding company revenues expected to be derived from and associated with conducting the activity;

(4) Discuss the risks that conducting the activity may reasonably be expected to pose to the safety and soundness of the subsidiary depository institutions of the financial holding company and to the financial system generally;

(5) Describe the potential adverse effects, including potential conflicts of interest, decreased or unfair competition, or other risks, that conducting the activity could raise, and explain the measures the financial holding company proposes to take to address those potential effects;

(6) Describe the potential benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that the proposal reasonably can be expected to produce; and

(7) Provide any information about the financial and managerial resources of the financial holding company and any other information requested by the Board.

(b) **Factors for consideration by the Board.** In evaluating a notice to engage in a complementary activity, the Board must consider whether:

(1) The proposed activity is complementary to a financial activity;

(2) The proposed activity would pose a substantial risk to the safety or soundness of depository institutions or the financial system generally; and

(3) The proposal could be expected to produce benefits to the public that outweigh possible adverse effects.

(c) **Board action.** The Board will inform the financial holding company in writing of the Board’s determination regarding the proposed activity within the period described in section 4(j) of the BHC Act (12 U.S.C. 1843(j)).
§ 225.90 What are the requirements for a foreign bank to be treated as a financial holding company?

(a) Foreign banks as financial holding companies. A foreign bank that operates a branch or agency or owns or controls a commercial lending company in the United States, and any company that owns or controls such a foreign bank, will be treated as a financial holding company if:

1. The foreign bank, any other foreign bank that maintains a U.S. branch, agency, or commercial lending company and is controlled by the foreign bank or company, and any U.S. depository institution subsidiary that is owned or controlled by the foreign bank or company, is and remains well capitalized and well managed; and

2. The foreign bank, and any company that owns or controls the foreign bank, has made an effective election to be treated as a financial holding company under this subpart.

(b) Standards for “well capitalized.” A foreign bank will be considered “well capitalized” if either:

1. (i) Its home country supervisor, as defined in §211.21 of the Board’s Regulation K (12 CFR 211.21), has adopted risk-based capital standards consistent with the Capital Accord of the Basel Committee on Banking Supervision (Basel Accord);

   (ii) The foreign bank maintains a Tier 1 capital to total risk-based assets ratio of 6 percent and a total capital to total risk-based assets ratio of 10 percent, as calculated under its home country standard; and

   (iii) The foreign bank’s capital is comparable to the capital required for a U.S. bank owned by a financial holding company; or

2. The foreign bank has obtained a determination from the Board under §225.91(c) that the foreign bank’s capital is otherwise comparable to the capital that would be required of a U.S. bank owned by a financial holding company.

(c) Standards for “well managed.” A foreign bank will be considered “well managed” if:

1. The foreign bank has received at least a satisfactory composite rating of its U.S. branch, agency, and commercial lending company operations at its most recent assessment;

2. The home country supervisor of the foreign bank consents to the foreign bank expanding its activities in the United States to include activities permissible for a financial holding company; and

3. The management of the foreign bank meets standards comparable to those required of a U.S. bank owned by a financial holding company.

§ 225.91 How may a foreign bank elect to be treated as a financial holding company?

(a) Filing requirement. A foreign bank that operates a branch or agency or owns or controls a commercial lending company in the United States, or a company that owns or controls such a foreign bank, may elect to be treated as a financial holding company by filing a written declaration with the appropriate Reserve Bank.

(b) Contents of declaration. The declaration must:

1. State that the foreign bank or the company elects to be treated as a financial holding company;

2. Provide the risk-based capital ratios and amount of Tier 1 capital and total assets of the foreign bank, and of each foreign bank that maintains a U.S. branch, agency, or commercial lending company and is controlled by the foreign bank or company, as of the close of the most recent quarter and as of the close of the most recent audited reporting period;

3. Certify that the foreign bank, and each foreign bank that maintains a U.S. branch, agency, or commercial lending company and is controlled by the foreign bank or company, meets the standards of well capitalized set out in §225.90(b)(1)(i) and (ii) or §225.90(b)(2) as of the date the foreign bank or company files its election;

4. Certify that the foreign bank, and each foreign bank that maintains a U.S. branch, agency, or commercial lending company and is controlled by the foreign bank or company, is well managed as defined in §225.90(c)(1) as of the date the foreign bank or company files its election;

5. Certify that all U.S. depository institution subsidiaries of the foreign bank...
§ 225.92 How does an election by a foreign bank become effective?

(a) In general. An election described in §225.91 is effective on the 31st day after the date that an election was received by the appropriate Federal Reserve Bank, unless the Board notifies the foreign bank or company prior to that time that:

(1) The election is ineffective; or

(2) The period is extended with the consent of the foreign bank or company making the election.

(b) Earlier notification that an election is effective. The Board or the appropriate Federal Reserve Bank may notify a foreign bank or company that its election to be treated as a financial holding company is effective prior to the 31st day after the election was filed with the appropriate Federal Reserve Bank. Such notification must be in writing.

(c) Under what circumstances will the Board find an election to be ineffective? An election to be treated as a financial holding company shall not be effective if, during the period provided in paragraph (a) of this section, the Board finds that:

(1) The foreign bank certificant, or any foreign bank that operates a branch or agency or owns or controls a commercial lending company in the United States and is controlled by a foreign bank or company certificant, is not both well capitalized and well managed;

(2) Any U.S. insured depository institution subsidiary of the foreign bank or company (except an institution excluded under paragraph (d) of this section) or any U.S. branch of a foreign bank that is insured by the Federal Deposit Insurance Corporation has not achieved at least a rating of “satisfactory record of meeting community needs” under the Community Reinvestment Act at the institution’s most recent examination;

(3) Any U.S. depository institution subsidiary of the foreign bank or company is not both well capitalized and well managed; or

(4) The Board does not have sufficient information to assess whether the foreign bank or company making the election meets the requirements of this subpart.

(d) How is CRA performance of recently acquired insured depository institutions considered? An insured depository institution will be excluded for purposes of the review of CRA ratings described in paragraph (c)(2) of this section consistent with the provisions of §225.82(d).

(ec) Factors used in the Board’s determination regarding comparability of capital and management—(1) In general. In determining whether a foreign bank is well capitalized and well managed in accordance with comparable capital and management standards, the Board will give due regard to national treatment and equality of competitive opportunity. In this regard, the Board may take into account the foreign bank’s composition of capital, Tier 1 capital to total assets leverage ratio, accounting standards, long-term debt ratings, reliance on government support to meet capital requirements, the foreign bank’s anti-money laundering procedures, whether the foreign bank is subject to comprehensive supervision or regulation on a consolidated basis,
§ 225.93 What are the consequences of a foreign bank failing to continue to meet applicable capital and management requirements?

(a) Notice by the Board. If a foreign bank or company has made an effective election to be treated as a financial holding company under this subpart and the Board finds that the foreign bank, any foreign bank that maintains a U.S. branch, agency, or commercial lending company and is controlled by the foreign bank or company, or any U.S. depository institution subsidiary controlled by the foreign bank or company, ceases to be well capitalized or well managed, the Board will notify the foreign bank and company, if any, in writing that it is not in compliance with the applicable requirement(s) for a financial holding company and identify the areas of noncompliance.

(b) Notification by a financial holding company required—(1) Notice to Board. Promptly upon becoming aware that the foreign bank, any foreign bank that maintains a U.S. branch, agency, or commercial lending company and is controlled by the foreign bank or company, or any U.S. depository institution subsidiary of the foreign bank or company, has ceased to be well capitalized or well managed, the foreign bank and company, if any, must notify the Board and identify the area of noncompliance.

(2) Triggering events for notice to the Board—(i) Well capitalized. A foreign bank becomes aware that it is no longer well capitalized at the time that the foreign bank or company is required to file a report of condition (or similar supervisory report) with its home country supervisor or the appropriate Federal Reserve Bank that indicates that the foreign bank no longer meets the well capitalized standards.

(ii) Well managed. A foreign bank becomes aware that it is no longer well managed at the time that the foreign bank receives written notice from the appropriate Federal Reserve Bank that the composite rating of its U.S. branch, agency, and commercial lending company operations is not at least satisfactory.

(c) Execution of agreement acceptable to the Board—(1) Agreement required; time period. Within 45 days after receiving a notice under paragraph (a) of this section, the foreign bank or company must execute an agreement acceptable to the Board to comply with all applicable capital and management requirements.

(2) Extension of time for executing agreement. Upon request by the foreign bank or company, the Board may extend the 45-day period under paragraph (c)(1) of this section if the Board determines that granting additional time is appropriate under the circumstances. A request by a foreign bank or company for additional time must include an explanation of why an extension is necessary.

(3) Agreement requirements. An agreement required by paragraph (c)(1) of this section to correct a capital or management deficiency must:

(i) Explain the specific actions that the foreign bank or company will take to correct all areas of noncompliance;

(ii) Provide a schedule within which each action will be taken;

(iii) Provide any other information that the Board may require; and

(iv) Be acceptable to the Board.

(d) Limitations during period of noncompliance—Until the Board determines that a foreign bank or company has corrected the conditions described in a notice under paragraph (a) of this section:
§ 225.94 What are the consequences of an insured branch or depository institution failing to maintain a satisfactory or better rating under the Community Reinvestment Act?

(a) Insured branch as an “insured depository institution.” A U.S. branch of a foreign bank that is insured by the Federal Deposit Insurance Corporation shall be treated as an “insured depository institution” for purposes of §225.84.

(b) Applicability. The provisions of §225.84, with the modifications contained in this section, shall apply to a foreign bank that operates an insured branch referred to in paragraph (a) of this section or an insured depository institution in the United States, and any company that owns or controls such a foreign bank, that has made an effective election under §225.92 in the same manner and to the same extent as they apply to a financial holding company.

INTERPRETATIONS

§ 225.101 Bank holding company’s subsidiary banks owning shares of nonbanking companies.

(a) The Board’s opinion has been requested on the following related matters under the Bank Holding Company Act of 1956.

(b) The question is raised as to whether shares in a nonbanking company which were acquired by a banking subsidiary of the bank holding company many years ago when their acquisition was lawful and are now held as investments, and which do not include more than 5 percent of the outstanding voting securities of such nonbanking company and do not have a value greater than 5 percent of the value of the bank holding company’s total assets, are exempted from the divestment requirements of the Act by the provisions of section 4(c)(5) of the Act.

(c) In the Board’s opinion, this exemption is as applicable to such shares when held by a banking subsidiary of a bank holding company as when held directly by the bank holding company itself. While the exemption specifically refers only to shares held or acquired by the bank holding company, the prohibition of the Act against retention of
Federal Reserve System

§ 225.102 Bank holding company indirectly owning nonbanking company through subsidiaries.

(a) The Board of Governors has been requested for an opinion regarding the exemptions contained in section 4(c)(5) of the Bank Holding Company Act of 1956. It is stated that Y Company is an investment company which is not a bank holding company and which is not engaged in any business other than investing in securities, which securities do not include more than 5 per centum of the outstanding voting securities of any company and do not include any asset having a value greater than 5 per centum of the value of the total assets of X Corporation, a bank holding company. It is stated that direct ownership by X Corporation of voting shares of Y Company would be exempt by reason of section 4(c)(5) from the prohibition of section 4 of the Act against ownership by bank holding companies of nonbanking assets.

(4) Secondly, question is raised as to whether shares in a nonbanking company acquired in satisfaction of debts previously contracted (d.p.c.) by a banking subsidiary of the bank holding company may be retained if such shares meet the conditions contained in section 4(c)(5) as to value and amount, notwithstanding the requirement of section 4(c)(2) that shares acquired d.p.c. be disposed of within two years after the date of their acquisition or the date of the Act, whichever is later. In the Board’s opinion, the 5 percent exemption provided by section 4(c)(5) covers any shares, including shares acquired d.p.c., that meet the conditions set forth in that exemption, and, consequently, d.p.c. shares held by a banking subsidiary of a bank holding company which meet such conditions are not subject to the two-year disposition requirement prescribed by section 4(c)(5), although any such shares would, of course, continue to be subject to such requirement for disposition as may be prescribed by provisions of any applicable banking laws or by the appropriate bank supervisory authorities.

§ 225.102 Bank holding company indirectly owning nonbanking company through subsidiaries.

(a) The Board of Governors has been requested for an opinion regarding the exemptions contained in section 4(c)(5) of the Bank Holding Company Act of 1956. It is stated that Y Company is an investment company which is not a bank holding company and which is not engaged in any business other than investing in securities, which securities do not include more than 5 per centum of the outstanding voting securities of any company and do not include any asset having a value greater than 5 per centum of the value of the total assets of X Corporation, a bank holding company. It is stated that direct ownership by X Corporation of voting shares of Y Company would be exempt by reason of section 4(c)(5) from the prohibition of section 4 of the Act against ownership by bank holding companies of nonbanking assets.
§ 225.103 Bank holding company acquiring stock by dividends, stock splits or exercise of rights.

(a) The Board of Governors has been asked whether a bank holding company may receive bank stock dividends or participate in bank stock splits without the Board's prior approval, and whether such a company may exercise, without the Board's prior approval, rights to subscribe to new stock issued by banks in which the holding company already owns stock.

(b) Neither a stock dividend nor a stock split results in any change in a stockholder's proportional interest in the issuing company or any increase in the assets of that company. Such a transaction would have no effect upon the extent of a holding company's control of the bank involved; and none of the factors required by the Bank Holding Company Act to be considered by the Board in approving a stock acquisition would seem to have any application. In view of the objectives and purposes of the act, the word “acquire” would not seem reasonably to include transactions of this kind.

(c) On the other hand, the exercise by a bank holding company of the right to subscribe to an issue of additional stock of a bank could result in an increase in the holding company’s proportional interest in the bank. The holding company would voluntarily pay additional funds for the extra shares and would “acquire” the additional stock even under a narrow meaning of that term. Moreover, the exercise of such rights would cause the assets of the issuing company to be increased and in a sense, therefore, the “size or extent” of the bank holding company system would be expanded.

(d) In the circumstances, it is the Board’s opinion that receipt of bank stock by means of a stock dividend or stock split, assuming no change in the class of stock, does not require the Board’s prior approval under the act, but that purchase of bank stock by a bank holding company through the exercise of rights does require the Board’s prior approval, unless one of the exceptions set forth in section 3(a) is applicable.

[22 FR 7461, Sept. 19, 1957. Redesignated at 36 FR 21666, Nov. 12, 1971]
§ 225.104 "Services" under section 4(c)(1) of Bank Holding Company Act.

(a) Section 4(c)(1) of the Bank Holding Company Act, among other things, exempts from the nonbanking divestment requirements of section 4(a) of the Act shares of a company engaged "solely in the business of furnishing services to or performing services for" its bank holding company or subsidiary banks thereof.

(b) The Board of Governors has had occasion to express opinions as to whether this section of law applies to the following two sets of facts:

(1) In the first case, Corporation X, a nonbanking subsidiary of a bank holding company (Holding Company A), was engaged in the business of purchasing installment paper suitable for investment by banking subsidiaries of Holding Company A. All installment paper purchased by Corporation X was sold by it to a bank which is a subsidiary of Holding Company A, without recourse, at a price equal to the cost of the installment paper to Corporation X, and with compensation to the latter based on the earnings from such paper remaining after certain reserves, expenses and charges. The subsidiary bank sold participations in such installment paper to the other affiliated banks of Holding Company A which desired to participate. Purchases by Corporation X consisted mainly of paper insured under Title I of the National Housing Act and, in addition, Corporation X purchased time payment contracts covering sales of appliances by dealers under contractual arrangements with utilities, as well as paper covering home improvements which was not insured. Pursuant to certain service agreements, Corporation X made all collections, enforced guarantees, filed claims under Title I insurance and performed other services for the affiliated banks. Also Corporation X rendered to banking subsidiaries of Holding Company A various accounting, statistical and advisory services such as payroll, life insurance and budget loan installment account.

(2) In the second case, Corporation Y, a nonbanking subsidiary of a bank holding company (Holding Company B, which was also a bank), solicited business on behalf of Holding Company B from dealers, throughout several adjoining or contiguous States, who made time sales and desired to convert their time sales paper into cash; but Corporation Y made no loans or purchases of sales contracts and did not discount or advance money for time sales obligations. Corporation Y investigated credit standings of purchasers obligated on time sale contracts to be acquired by Holding Company B. Corporation Y received from dealers the papers offered by them and inspected such papers to see that they were in order, and transmitted to Holding Company B for its determination to purchase, including, in some cases, issuance of drafts in favor of dealers in order to facilitate their prompt receipt of payment for installment paper purchased by Holding Company B. Corporation Y made collections of delinquent paper or delinquent installments, which sometimes involved repossession and resale of the automobile or other property which secured the paper. Also, upon request of purchasers obligated on paper held by Holding Company B, Corporation Y transmitted installment payments to Holding Company B. Holding Company B reimbursed Corporation Y for its actual costs and expenses in performing the services mentioned above, including the salaries and wages of all Corporation Y officers and employees.

(c) While the term "services" is sometimes used in a broad and general sense, the legislative history of the Bank Holding Company Act indicates that in section 4(c)(1) the word was meant to be somewhat more limited in its application. An early version of the bill specifically exempted companies engaged in serving the bank holding company and its subsidiary banks in "auditing, appraising, investment counseling". The statute as finally enacted does not expressly mention any specific type of servicing activity for exemption. In recommending the change, the Senate Banking and Currency Committee stated that the types of services contemplated are "in the fields of advertising, public relations, developing new business, organizations,
operations, preparing tax returns, personnel, and many others’”, which indicates that latitude should be given to the range of activities contemplated by this section beyond those specifically set forth in the early draft of the bill. (86th Cong., 2d Sess., Senate Report 1095, Part 2, p. 3.) It nevertheless seems evident that Congress intended such services to be types of activities generally comparable to those mentioned above from the early bill (“auditing, appraising, investment counseling”) and in the excerpt from the Committee Report on the later bill (“advertising, public relations, developing new business, organization, operations, preparing tax returns, personnel, and many others”). This legislative history and the context in which the term “services” is used in section 4(c)(1) seem to suggest that the term was in general intended to refer to servicing operations which a bank could carry on itself, but which the bank or its holding company chooses to have done through another organization. Moreover, the report of the Senate Banking and Currency Committee indicated that the types of servicing permitted under section 4(c)(1) are to be distinguished from activities of a “financial, fiduciary, or insurance nature”, such as those which might be considered for possible exemption under section 4(c)(6) of the Act.

(d) With respect to the first set of facts, the Board expressed the opinion that certain of the activities of Corporation X, such as the accounting, statistical and advisory services referred to above, may be within the range of servicing activities contemplated by section 4(c)(1), but that this would not appear to be the case with the main activity of Corporation X, which was the purchase of installment paper and the resale of such paper at cost, without recourse, to banking subsidiaries of Holding Company A. This latter and basic activity of Corporation X appeared to involve essentially a financial relationship between it and the banking subsidiaries of Holding Company A and appeared beyond the category of servicing exemptions contemplated by section 4(c)(1) of the Act. Accordingly, it was the Board’s view that Corporation X could not be regarded as qualifying under section 4(c)(1) as a company engaged “solely in the business of furnishing services to or performing services for” Holding Company A or subsidiary banks thereof.

(e) With respect to the second set of facts, the Board expressed the opinion that some of the activities engaged in by Corporation Y were clearly within the range of servicing activities contemplated by section 4(c)(1). There was some question as to whether or not some of the other activities of Corporation Y mentioned above could meet the test, but on balance, it seemed that all such activities probably were activities in which Holding Company B, which as already indicated was a bank, could themselves engage, at the present locations of Corporation Y, without being engaged in the operation of bank branches at those locations. In the circumstances, while the question was not free from doubt, the Board expressed the opinion that the activities of Corporation Y were those of a company engaged “solely in the business of furnishing services to or performing services for” Holding Company B within the meaning of section 4(c)(1) of the Act, and that, accordingly, the control of Holding Company B of shares in Corporation Y was exempted under that section.

[23 FR 2675, May 23, 1958. Redesignated at 36 FR 21666, Nov. 12, 1971]

§ 225.107 Acquisition of stock in small business investment company.

(a) A registered bank holding company requested an opinion by the Board of Governors with respect to whether that company and its banking subsidiaries may acquire stock in a small business investment company organized pursuant to the Small Business Investment Act of 1958.

(b) It is understood that the bank holding company and its subsidiary banks propose to organize and subscribe for stock in a small business investment company which would be chartered pursuant to the Small Business Investment Act of 1958 which provides for long-term credit and equity financing for small business concerns.
§ 225.109 "Services" under section 4(c)(1) of Bank Holding Company Act.

(a) The Board of Governors has been requested by a bank holding company for an interpretation under section 4(c)(1) of the Bank Holding Company Act which, among other things, exempts from the nonbanking divestment requirements of section 4(a) of the Act, shares of a company engaged “solely in the business of furnishing services to or performing services for” its bank holding company or subsidiary banks thereof.

(b) It is understood that a nonbanking subsidiary of the holding company engages in writing comprehensive automobile insurance (fire, theft, and collision) which is sold only to customers of a subsidiary bank of the holding company in connection with the bank’s retail installment loans; that when payment is made on a loan secured by a lien on a motor vehicle, renewal policies are not issued by the insurance company; and that the insurance company receives the usual agency commissions on all comprehensive automobile insurance written for customers of the bank.

(c) It is also understood that the insurance company writes credit life insurance for the benefit of the bank and its installment-loan customers; that each insured debtor is covered for an amount equal to the unpaid balance of his note to the bank, not to exceed $5,000; that as the note is reduced by regular monthly payments, the amount of insurance is correspondingly reduced so that at all times the debtor is insured for the unpaid balance of his note; that each insurance contract provides for payment in full of the entire...
loan balance upon the death or permanent disability of the insured borrower; and that this credit life insurance is written only at the request of, and solely for, the bank’s borrowing customers. It is further understood that the insurance company engages in no other activity.

(d) As indicated in §225.104 (23 FR 2675), the term “services,” while sometimes used in a broad and general sense, appears to be somewhat more limited in its application in section 4(c)(1) of the Bank Holding Company Act. Unlike an early version of the Senate bill (S. 2577, before amendment), the act as finally enacted does not expressly mention any type of servicing activity for exemption. The legislative history of the Act, however, as indicated in the relevant portion of the record of the Senate Banking and Currency Committee on amended S. 2577 (84th Cong., 2d Sess., Senate Report 1095, Part 2, p. 3) makes it evident that Congress had in mind the exemption of services comparable to the types of activities mentioned expressly in the early Senate bill (“auditing, appraising, investment counselling”) and in the Committee Report on the later bill (“advertising, public relations, developing new business, organization, operations, preparing tax returns, personnel, and many others”). Furthermore, this Committee Report expressly stated that the provision of section 4(c)(1) with respect to “furnishing services to or performing services for” was not intended to supplant the exemption contained under section 4(c)(6) of the Act.

(e) The only activity of the insurance company (writing comprehensive automobile insurance and credit life insurance) appears to involve an insurance relationship between it and a banking subsidiary of the holding company which the legislative history clearly indicates does not come within the meaning of the phrase “furnishing services to or performing services for” a bank holding company or its banking subsidiaries.

(f) Accordingly, it is the Board’s view that the insurance company could not be regarded as qualifying as a company engaged “solely in the business of furnishing services to or performing services for” the bank holding company or banks with respect to which the latter is a bank holding company.

[23 FR 9017, Nov. 20, 1958. Redesignated at 36 FR 21666, Nov. 12, 1971]

§ 225.111 Limit on investment by bank holding company system in stock of small business investment companies.

(a) Under the provisions of section 4(c)(5) of the Bank Holding Company Act, as amended (12 U.S.C. 1843), a bank holding company may acquire shares of nonbank companies “which are of the kinds and amounts eligible for investment” by national banks. Pursuant to section 302(b) of the Small Business Investment Act of 1958 (15 U.S.C. 682(b)), as amended by Title II of the Small Business Act Amendments of 1967 (Pub. L. 90–104, 81 Stat. 268, 270), a national bank may invest in stock of small business investment companies (SBICs) subject to certain restrictions.

(b) On the basis of the foregoing statutory provisions, it is the position of the Board that a bank holding company may acquire direct or indirect ownership or control of stock of an SBIC subject to the following limits:

(1) The total direct and indirect investments of a bank holding company in stock of SBICs may not exceed:

(i) With respect to all stock of SBICs owned or controlled directly or indirectly by a subsidiary bank, 5 percent of that bank’s capital and surplus;

(ii) With respect to all stock of SBICs owned directly by a bank holding company that is a bank, 5 percent of that bank’s capital and surplus;

(iii) With respect to all stock of SBICs otherwise owned or controlled directly or indirectly by a bank holding company, 5 percent of its proportionate interest in the capital and surplus of each subsidiary bank (that is, the holding company’s percentage of that bank’s stock times that bank’s capital and surplus) less that bank’s investment in stock of SBICs; and

(2) A bank holding company may not acquire direct or indirect ownership or control of 50 percent or more of the shares of any class of equity securities of an SBIC that have actual or potential voting rights.
§ 225.113 Services under section 4(a) of Bank Holding Company Act.

(a) The Board of Governors has been requested for an opinion as to whether the performance of certain functions by a bank holding company for four banks of which it owns less than 25 percent of the voting shares is in violation of section 4(a) of the Bank Holding Company Act.

(b) It is claimed that the holding company is engaged in “managing” four nonsubsidiary banks, for which services it receives “management fees.” Specifically, the company engages in the following activities for the four nonsubsidiary banks: (1) Establishment and supervision of loaning policies; (2) direction of the purchase and sale of investment securities; (3)
selection and training of officer personnel; (4) establishment and enforcement of operating policies; and (5) general supervision over all policies and practices.

(c) The question raised is whether these activities are prohibited by section 4(a)(2) of the Bank Holding Company Act, which permits a bank holding company to engage in only three categories of business: (1) Banking; (2) managing or controlling banks; and (3) furnishing services to or performing services for any bank of which the holding company owns or controls 25 percent or more of the voting shares.

(d) Clearly, the activities of the company with respect to the four nonsubsidiary banks do not constitute "banking." With respect to the business of "managing or controlling" banks, it is the Board's view that such business, within the purview of section 4(a)(2), is essentially the exercise of a broad governing influence of the sort usually exercised by bank stockholders, as distinguished from direct or active participation in the establishment or carrying out of particular policies or operations. The latter kinds of activities fall within the third category of businesses in which a bank holding company is permitted to engage. In the Board's view, the activities enumerated above fall in substantial part within that third category.

(e) Section 4(a)(2), like all other sections of the Holding Company Act, must be interpreted in the light of all of its provisions, as well as in the light of other sections of the Act. The expression "managing * * * banks," if it could be taken by itself, might appear to include activities of the sort enumerated. However, such an interpretation of those words would virtually nullify the last portion of section 4(a)(2), which permits a holding company to furnish services to or perform services for "any bank of which it owns or controls 25 per cent or more of the voting shares."

(f) Since Congress explicitly authorized the performance of services for banks that are at least 25 percent owned by a holding company, it obviously intended that the holding company should not perform services for banks in which it owns less than 25 percent of the voting shares. However, if the second category—"managing or controlling banks"—were interpreted to permit the holding company to perform services for any bank, including a bank in which it held less than 25 percent of the stock (or no stock whatsoever), the last clause of section 4(a)(2) would be meaningless.

(g) It is principally for this reason—that is, to give effective meaning to the final clause of section 4(a)(2)—that the Board interprets "managing or controlling banks" in that provision as referring to the exercise of a stockholder's management or control of banks, rather than direct and active participation in their operations. To repeat, such active participation in operations falls within the third category ("furnishing services to or performing services for any bank") and consequently may be engaged in only with respect to banks in which the holding company "owns or controls 25 per cent or more of the voting shares."

(h) Accordingly, it is the Board's conclusion that, in performing the services enumerated, the bank holding company is "furnishing services to or performing services for" the four banks referred to. Under the Act such furnishing or performing of services is permissible only if the holding company owns or controls 25 percent of the voting shares of each bank receiving such services, and, since the company owns less than 25 percent of the voting shares of these banks, it follows that these activities are prohibited by section 4(a)(2).

(i) While this conclusion is required, in the Board's opinion, by the language of the statute, it may be noted further that any other conclusion would make it possible for bank holding company or any other corporation, through arrangements for the "managing" of banks in the manner here involved, to acquire effective control of banks without acquiring bank stocks and thus to evade the underlying objectives of section 3 of the Act.

§ 225.115 Applicability of Bank Service Corporation Act in certain bank holding company situations.

(a) Questions have been presented to the Board of Governors regarding the applicability of the recently enacted Bank Service Corporation Act (Pub. L. 87–856, approved October 23, 1962) in cases involving service corporations that are subsidiaries of bank holding companies under the Bank Holding Company Act of 1956. In addition to being charged with the administration of the latter Act, the Board is named in the Bank Service Corporation Act as the Federal supervisory agency with respect to the performance of bank services for State member banks.

(b) Holding company-owned corporation serving only subsidiary banks. (1) One question is whether the Bank Service Corporation Act is applicable in the case of a corporation, wholly owned by a bank holding company, which is engaged in performing "bank services", as defined in section 1(b) of the Act, exclusively for subsidiary banks of the holding company.

(2) Except as noted below with respect to section 5 thereof, the Bank Service Corporation Act is not applicable in this case. This is true because none of the stock of the corporation performing the services is owned by any bank and the corporation, therefore, is not a "bank service corporation" as defined in section 1(c) of the Act. A corporation cannot meet that definition unless part of its stock is owned by two or more banks. The situation clearly is unaffected by section 2(b) of the Act which permits a corporation that fell within the definition initially to continue to function as a bank service corporation although subsequently only one of the banks remains as a stockholder in the corporation.

(3) However, although it is not a bank service corporation, the corporation in question and each of the banks for which it performs bank services are subject to section 5 of the Bank Service Corporation Act. That section, which requires the furnishing of certain assurances to the appropriate Federal supervisory agency in connection with the performance of bank services for a bank, is applicable whether such services are performed by a bank service corporation or by others.

(4) Section 4(a)(1) of the Bank Holding Company Act prohibits the acquisition by a bank holding company of "direct or indirect ownership or control" of shares of a nonbanking company, subject to certain exceptions. Section 4(c)(1) of the Act exempts from section 4(a)(1) shares of a company engaged "solely in the business of furnishing services to or performing services for" its bank holding company or subsidiary banks thereof. Assuming that the bank services performed by the corporation in question are "services" of the kinds contemplated by section 4(c)(1) of the Bank Holding Company Act (as would be true, for example, of the electronic data processing of deposit accounts), the holding company's ownership of the corporation's shares in the situation described above clearly is permissible under that section of the Act.

(c) Bank service corporation owned by holding company subsidiaries and serving also other banks. (1) The other question concerns the applicability of the Bank Service Corporation Act and the Bank Holding Company Act in the case of a corporation, all the stock of which is owned either by a bank holding company and its subsidiary banks together or by the subsidiary banks alone, which is engaged in performing "bank services", as defined in section 1(b) of the Bank Service Corporation Act, for the subsidiary banks and for other banks, as well.

(2) In contrast to the situation under paragraph (b) of this section, the corporation in this case is a "bank service corporation" within the meaning of section 1(c) of the Bank Service Corporation Act because of the ownership by each of the subsidiary banks of a part of the corporation's stock. This stock ownership is one of the important facts differentiating this case from the first one. Being a bank service corporation, the corporation in question is subject to section 3 of the Act concerning applications to bank service corporations by competitive banks for bank services, and to section 4 forbidding a bank service corporation from engaging in any activity other than the performance of bank services.
for banks. Section 5, mentioned previously and relating to “assurances”, also is applicable in this case.

(3) The other important difference between this case and the situation in paragraph (b) of this section is that here the bank service corporation performs services for nonsubsidiary banks, as well as for subsidiary banks. This is permissible because section 2(a) of the Bank Service Corporation Act, which authorizes any two or more banks to invest limited amounts in a bank service corporation, removes all limitations and prohibitions of Federal law exclusively relating to banks that otherwise would prevent any such investment. From the legislative history of section 2(a), it is clear that section 6 of the Bank Holding Company Act is among the limitations and prohibitions so removed. But for such removal, section 6(a)(1) of that Act would make it unlawful for any of the subsidiary banks of the bank holding company in question to own stock in the bank service corporation subsidiary of the holding company, as the exemption in section 6(b)(1) would not apply because of the servicing by the bank service corporation of nonsubsidiary banks.

(4) Because the bank service corporation referred to in the question is serving banks other than the subsidiary banks, the bank holding company is not exempt under section 4(a)(1) of the Bank Holding Company Act from the prohibition of acquisition of nonbanking interests in section 4(a)(1) of that Act. The bank holding company, however, is entitled to the benefit of the exemption in section 4(c)(4) of the Bank Holding Company Act in the light of section 302(b) of the Small Business Investment Act limiting the amount eligible for investment by a national bank to two percent of the bank’s “capital and surplus”. As the provisions of section 2(a) of the Bank Service Corporation Act and its legislative history make it clear that shares of a bank service corporation are of a kind eligible for investment by national banks under section 5136, it follows that the direct or indirect ownership on control of such shares by a bank holding company are permissible within the amount limitation discussed in paragraph (d) of this section.

(d) Limit on investment by bank holding company system in stock of bank service corporation. (1) In the situation presented by paragraph (c) the bank holding company clearly owns or controls, directly or indirectly, all of the stock of the bank service corporation. The remaining question, therefore, is whether the total direct and indirect investment of the bank holding company in the bank service corporation exceeds the amount permissible under the Bank Holding Company Act.

(2) The effect of sections 4(a)(1) and 4(c)(4) of the Bank Holding Company Act is to limit the amount of shares of a bank service corporation that a bank holding company may own or control, directly or indirectly, to the amount eligible for investment by a national bank, as previously indicated. Under section 2(a) of the Bank Service Corporation Act, the amount of shares of a bank service corporation eligible for investment by a national bank may not exceed “10 per centum [of the bank’s] ** paid-in and unimpaired capital and unimpaired surplus”.

(3) The Board’s view is that this aspect of the matter should be determined in accordance with the principles set forth in §225.111, as revised (27 FR 12671), involving the application of sections 4(a)(1) and 4(c)(4) of the Bank Holding Company Act in the light of section 302(b) of the Small Business Investment Act limiting the amount eligible for investment by a national bank in the shares of a small business investment company to two percent of the bank’s “capital and surplus”.

(4) Except for the differences in the percentage figures, the investment limitation in section 302(b) of the Small Business Investment Act is essentially the same as the investment limitation in section 2(a) of the Bank Service Corporation Act since, as an accounting matter and for the purposes under consideration, “capital and surplus” may be regarded as equivalent in meaning to “paid-in and unimpaired capital and
unimpaired surplus.'" According, the maximum permissible investment by a bank holding company system in the stock of a bank service corporation should be determined in accordance with the formula prescribed in §222.111.

§ 225.118 Computer services for customers of subsidiary banks.

(a) The question has been presented to the Board of Governors whether a wholly-owned nonbanking subsidiary ("service company") of a bank holding company, which is now exempt from the prohibitions of section 4 of the Bank Holding Company Act of 1956 ("the Act") because its sole business is the providing of services for the holding company and the latter's subsidiary banks, would lose its exempt status if it should provide data processing services for customers of the subsidiary banks.

(b) The Board understood from the facts presented that the service company owns a computer which it utilizes to furnish data processing services for the subsidiary banks of its parent holding company. Customers of these banks have requested that the banks provide for them computerized billing, accounting, and financial records maintenance services. The banks wish to utilize the computer services of the service company in providing these and other services of a similar nature. It is proposed that, in each instance where a subsidiary bank undertakes to provide such services, the bank will enter into a contract directly with the customer and then arrange to have the service company perform the services for it, the bank. In no case will the service company provide services for anyone other than its affiliated banks. Moreover, it will not hold itself out as, nor will its parent corporation or affiliated banks represent it to be, authorized or willing to provide services for others.

(c) Section 4(c)(1) of the Act permits a holding company to own shares in "any company engaged solely in the business of furnishing services to or performing services for such holding company and banks with respect to which it is a bank holding company." The Board has ruled heretofore that the term "services" as used in section 4(c)(1) is to be read as relating to those services (excluding "closely related" activities of "a financial, fiduciary, or insurance nature" within the meaning of section 4(c)(6)) which a bank itself can provide for its customers (§225.104). A determination as to whether a particular service may legitimately be rendered or performed by a bank for its customers must be made in the light of applicable Federal or State statutory or regulatory provisions. In the case of a State-chartered bank, the laws of the State in which the bank operates, together with any interpretations thereunder rendered by appropriate bank authorities, would govern the right of the bank to provide a particular service. In the case of a national bank, a similar determination would require reference to provisions of Federal law relating to the establishment and operation of national banks, as well as to pertinent rulings or interpretations promulgated thereunder.

(d) Accordingly, on the assumption that all of the services to be performed are of the kinds that the holding company's subsidiary banks may render for their customers under applicable Federal or State law, the Board concluded that the rendition of such services by the service company for its affiliated banks would not adversely affect its exempt status under section 4(c)(1) of the Act.

(e) In arriving at the above conclusion, the Board emphasized that its views were premised explicitly upon the facts presented to it, and particularly its understanding that banks are permitted, under applicable Federal or State law to provide the proposed computer services. The Board emphasized also that in respect to the service company's operations, there continues in effect the requirement under section 4(c)(1) that the service company engage solely in the business of furnishing services to or performing services for the bank holding company and its subsidiary banks. The Board added that any substantial change in the facts that had been presented might require re-examination of the service company's status under section 4(c)(1).

[29 FR 12361, Aug. 28, 1964. Redesignated at 36 FR 21666, Nov. 12, 1971]
§ 225.121 Acquisition of Edge corporation affiliate by State member banks of registered bank holding company.

(a) The Board has been asked whether it is permissible for the commercial banking affiliates of a bank holding company registered under the Bank Holding Company Act of 1956, as amended, to acquire and hold the shares of the holding company’s Edge corporation subsidiary organized under section 25(a) of the Federal Reserve Act.

(b) Section 9 of the Bank Holding Company Act amendments of 1966 (Pub. L. 89–485, approved July 1, 1966) repealed section 6 of the Bank Holding Company Act of 1956. That rendered obsolete the Board’s interpretation of section 6 that was published in the March 1966 Federal Reserve Bulletin, page 339 (§ 225.120). Thus, so far as Federal Banking law applicable to State member banks is concerned, the answer to the foregoing question depends on the provisions of section 23A of the Federal Reserve Act, as amended by the 1966 amendments to the Bank Holding Company Act. By its specific terms, the provisions of section 23A do not apply to an affiliate organized under section 25(a) of the Federal Reserve Act.

(c) Accordingly, the Board concludes that, except for such restrictions as may exist under applicable State law, it would be legally permissible by virtue of paragraph 20 of section 9 of the Federal Reserve Act for any or all of the State member banks that are affiliates of a registered bank holding company to acquire and hold shares of the Edge corporation subsidiary of the bank holding company within the amount limitation in the last sentence of paragraph 12 of section 25(a) of the Federal Reserve Act.

(12 U.S.C. 24, 248, 335, 371c, 611, 618)

[31 FR 10263, July 29, 1966. Redesignated at 36 FR 21666, Nov. 12, 1971]

§ 225.122 Bank holding company ownership of mortgage companies.

(a) The Board of Governors recently considered whether a bank holding company may acquire, directly or through a subsidiary, the stock of a so-called “mortgage company” that would be operated on the following basis: The company would solicit mortgage loans on behalf of a bank in the holding company system, assemble credit information, make property inspections and appraisals, and secure title information. The company would also participate in the preparation of applications for mortgage loans, which it would submit, together with recommendations with respect to action thereon, to the bank, which alone would decide whether to make any or all of the loans requested. The company would in addition solicit investors to purchase mortgage loans from the bank and would seek to have such investors contract with the bank for the servicing of such loans.

(b) Under section 4 of the Bank Holding Company Act (12 U.S.C. 1843), a bank holding company is generally prohibited from acquiring “direct or indirect ownership” of stock of nonbanking corporations. The two exceptions principally involved in the question presented are with respect to (1) stock that is eligible for investment by a national bank (section 4(c)(5) of the Act) and (2) shares of a company “furnishing services to or performing services for such bank holding company or its banking subsidiaries” (section 4(c)(1)(C) of the Act).

(c) The Board has previously indicated its view that a national bank is forbidden by the so-called “stock-purchase prohibition” of paragraph “Seventh” of section 5136 of the Revised Statutes (12 U.S.C. 24) to purchase “for its own account * * * any shares of stock of any corporation” except (1) to the extent permitted by specific provisions of Federal law or (2) as comprised within the concept of “such incidental powers as shall be necessary to carry on the business of banking” referred to in the first sentence of said paragraph “Seventh”. There is no specific statutory provision authorizing a national bank to purchase stock in a mortgage company, and in the Board’s view such purchase may not properly be regarded as authorized under the “incidental powers” clause. (See 1966 Federal Reserve Bulletin 1151; 12 CFR 208.119.) Accordingly, a bank holding company may not acquire stock in a mortgage company.
Federal Reserve System

§ 225.123 Activities closely related to banking.

(a) Effective June 15, 1971, the Board of Governors has amended §225.4(a) of Regulation Y to implement its regulatory authority under section 4(c)(8) of the Bank Holding Company Act. In some respects activities determined by the Board to be closely related to banking are described in general terms that will require interpretation from time to time. The Board’s views on some questions that have arisen are set forth below.

(b) Section 225.4(a) states that a company whose ownership by a bank holding company is authorized on the basis of that section may engage solely in specified activities. That limitation refers only to activities the authority for which depends on section 4(c)(8) of the Act. It does not prevent a holding company from establishing one subsidiary company on the basis of the section 4(c)(8) exemption.

(d) However, the Board does not believe that such conclusion prejudices consideration of the question whether such a company is within the section 4(c)(1)(C) “servicing exemption”. The basic purpose of section 4 of the Act is to confine a bank holding company’s activities to the management and control of banks. In determining whether an activity in which a bank could itself engage is within the servicing exemption, the question is simply whether such activity may appropriately be considered as “furnishing services to or performing services for” a bank.

(e) As indicated in the Board’s interpretation published in the 1958 Federal Reserve Bulletin at page 431 (12 CFR 225.104), the legislative history of the servicing exemption indicates that it includes the following activities: “auditing, appraising, investment counseling” and “advertising, public relations, developing new business, organization, operations, preparing tax returns, and personnel”. The legislative history further indicates that some other activities also are within the scope of the exemption. However, the types of servicing permitted under such exemption must be distinguished from activities of a “financial fiduciary, or insurance nature”, such as those that might be considered for possible exemption under section 4(c)(1)(C) of the Act.

(f) In considering the interrelation of these exemptions in the light of the purpose of the prohibition against bank holding company interests in nonbanking organizations, the Board has concluded that the appropriate test for determining whether a mortgage company may be considered as within the servicing exemption is whether the company will perform as principal any banking activities—such as receiving deposits, paying checks, extending credit, conducting a trust department, and the like. In other words, if the mortgage company is to act merely as an adjunct to a bank for the purpose of facilitating the banks operations, the company may appropriately be considered as within the scope of the servicing exemption.1

(g) On this basis the Board concluded that, insofar as the Bank Holding Company Act is concerned, a bank holding company may acquire, either directly or through a subsidiary, the stock of a mortgage company whose functions are as described in the question presented. On the other hand, in the Board’s view, a bank holding company may not acquire, on the basis of the servicing exemption, a mortgage company whose functions include such activities as extending credit for its own account, arranging interim financing, entering into mortgage service contracts on a fee basis, or otherwise performing functions other than solely on behalf of a bank.

1 Insofar as the 1958 interpretation referred to above suggested that the branch banking laws are an appropriate general test for determining the scope of the servicing exemption, such interpretation is hereby modified. In view of the different purposes to be served by the branch banking laws and by section 4 of the Bank Holding Company Act, the Board has concluded that basing determinations under the latter solely on the basis of determinations under the former is inappropriate.
to engage, for example, in activities specified in §225.4(a) and also in activities that fall within the scope of section 4(c)(1)(C) of the Act—the “servicing” exemption.

(c) The amendments to §225.4(a) do not apply to restrict the activities of a company previously approved by the Board on the basis of section 4(c)(8) of the Act. Activities of a company authorized on the basis of section 4(c)(8) either before the 1970 Amendments or pursuant to the amended §225.4(a) may be shifted in a corporate reorganization to another company within the holding company system without complying with the procedures of §225.4(b), as long as all the activities of such company are permissible under one of the exemptions in section 4 of the Act.

(d) Under the procedures in §225.4(a)(c), a holding company that wishes to change the location at which it engages in activities authorized pursuant to §225.4(a) must publish notice in a newspaper of general circulation in the community to be served. The Board does not regard minor changes in location as within the coverage of that requirement. A move from one site to another within a 1-mile radius would constitute such a minor change if the new site is in the same State.

(e) Data processing. In providing packaged data processing and transmission services for banking, financial and economic data for installation on the premises of the customer, as authorized by §225.4(a)(8)(ii), a bank holding company should limit its activities to providing facilities that perform banking functions, such as check collection, or other similar functions for customers that are depository or other similar institutions, such as mortgage companies. In addition, the Board regards the following as incidental activities necessary to carry on the permissible activities in this area:

1. Providing excess capacity, not limited to the processing or transmission of banking, financial or economic data on data processing or transmission equipment or facilities used in connection with permissible data processing and data transmission activities, where:

   (A) Equipment is not purchased solely for the purpose of creating excess capacity;

   (B) Hardware is not offered in connection therewith; and

   (C) Facilities for the use of the excess capacity do not include the provision of any software, other than systems software (including language), network communications support, and the operating personnel and documentation necessary for the maintenance and use of these facilities.

2. Providing by-products of permissible data processing and data transmission activities, where not designed, or appreciably enhanced, for the purpose of marketability.

3. Furnishing any data processing service upon request of a customer if such data processing service is not otherwise reasonably available in the relevant market area; and

In order to eliminate or reduce to an insignificant degree any possibility of unfair competition where services, facilities, by-products or excess capacity are provided by a bank holding company’s nonbank subsidiary or related entity, the entity providing the services, facilities, by-products and/or excess capacity should have separate books and financial statements, and should provide these books and statements to any new or renewal customer requesting financial data. Consolidated or other financial statements of the bank holding company should not be provided unless specifically requested by the customer.

(Interprets and applies 12 U.S.C. 1843 (c)(8))

§ 225.124 Foreign bank holding companies.

(a) Effective December 1, 1971, the Board of Governors has added a new §225.4(g) to Regulation Y implementing its authority under section 4(c)(9) of the Bank Holding Company Act. The Board’s views on some questions that have arisen in connection with the meaning of terms used in §225.4(g) are set forth in paragraphs (b) through (g) of this section.
(b) The term “activities” refers to nonbanking activities and does not include the banking activities that foreign banks conduct in the United States through branches or agencies licensed under the banking laws of any State of the United States or the District of Columbia.

(c) A company (including a bank holding company) will not be deemed to be engaged in “activities” in the United States merely because it exports (or imports) products to (or from) the United States, or furnishes services or finances goods or services in the United States, from locations outside the United States. A company is engaged in “activities” in the United States if it owns, leases, maintains, operates, or controls any of the following types of facilities in the United States:

1. A factory,
2. A wholesale distributor or purchasing agency,
3. A distribution center,
4. A retail sales or service outlet,
5. A network of franchised dealers,
6. A financing agency, or
7. Similar facility for the manufacture, distribution, purchasing, furnishing, or financing of goods or services locally in the United States.

A company will not be considered to be engaged in “activities” in the United States if its products are sold to independent importers, or are distributed through independent warehouses, that are not controlled or franchised by it.

(d) In the Board’s opinion, section 4(a)(1) of the Bank Holding Company Act applies to ownership or control of shares of stock as an investment and does not apply to ownership or control of shares of stock in the capacity of an underwriter or dealer in securities. Underwriting or dealing in shares of stock are nonbanking activities prohibited to bank holding companies by section 4(a)(2) of the Act, unless otherwise exempted. Under §225.4(g) of Regulation Y, foreign bank holding companies are exempt from the prohibitions of section 4 of the Act with respect to their activities outside the United States; thus foreign bank holding companies may underwrite or deal in shares of stock (including shares of United States issuers) to be distributed outside the United States, provided that shares so acquired are disposed of within a reasonable time.

(e) A foreign bank holding company does not “indirectly” own voting shares by reason of the ownership or control of such voting shares by any company in which it has a noncontrolling interest. A foreign bank holding company may, however, “indirectly” control such voting shares if its noncontrolling interest in such company is accompanied by other arrangements that, in the Board’s judgment, result in control of such shares by the bank holding company. The Board has made one exception to this general approach. A foreign bank holding company will be considered to indirectly own or control voting shares of a bank if that bank holding company acquires more than 5 percent of any class of voting shares of another bank holding company. A bank holding company may make such an acquisition only with prior approval of the Board.

(f) A company is “indirectly” engaged in activities in the United States if any of its subsidiaries (whether or not incorporated under the laws of this country) is engaged in such activities. A company is not “indirectly” engaged in activities in the United States by reason of a noncontrolling interest in a company engaged in such activities.

(g) Under the foregoing rules, a foreign bank holding company may have a noncontrolling interest in a foreign company that has a U.S. subsidiary (but is not engaged in the securities business in the United States) if more than half of the foreign company’s consolidated assets and revenues are located and derived outside the United States. For the purpose of such determination, the assets and revenues of the United States subsidiary would be counted among the consolidated assets and revenues of the foreign company to the extent required or permitted by generally accepted accounting principles in the United States. The foreign bank holding company would not, however, be permitted to “indirectly” control voting shares of the said U.S. subsidiary, as might be the case if there are other arrangements accompanying its noncontrolling interest in the foreign parent company that, in the Board’s judgment, result in control of
§ 225.125 Investment adviser activities.

(a) Effective February 1, 1972, the Board of Governors amended §225.4(a) of Regulation Y to add “serving as investment adviser, as defined in section 2(a)(20) of the Investment Company Act of 1940, to an investment company registered under that Act’’ to the list of activities it has determined to be so closely related to banking or managing or controlling banks as to be a proper incident thereto. During the course of the Board’s consideration of this amendment several questions arose as to the scope of such activity, particularly in view of certain restrictions imposed by sections 16, 20, 21, and 32 of the Banking Act of 1933 (12 U.S.C. 24, 377, 378, 78) (sometimes referred to hereinafter as the “Glass-Steagall Act provisions”) and the U.S. Supreme Court’s decision in Investment Company Institute v. Camp, 401 U.S. 617 (1971). The Board’s views with respect to some of these questions are set forth below.

(b) It is clear from the legislative history of the Bank Holding Company Act Amendments of 1970 (84 Stat. 1760) that the Glass-Steagall Act provisions were not intended to be affected thereby. Accordingly, the Board regards the Glass-Steagall Act provisions and the Board’s prior interpretations thereof as applicable to a holding company’s activities as an investment adviser. Consistently with the spirit and purpose of the Glass-Steagall Act, this interpretation applies to all bank holding companies registered under the Bank Holding Company Act irrespective of whether they have subsidiaries that are member banks.

(c) Under §225.4(a)(5), as amended, bank holding companies (which term, as used herein, includes both their bank and nonbank subsidiaries) may, in accordance with the provisions of §225.4 (b), act as investment advisers to various types of investment companies, such as “open-end” investment companies (commonly referred to as “mutual funds”) and “closed-end” investment companies. Briefly, a mutual fund is an investment company which, typically, is continuously engaged in the issuance of its shares and stands ready at any time to redeem the securities as to which it is the issuer; a closed-end investment company typically does not issue shares after its initial organization except at infrequent intervals and does not stand ready to redeem its shares.

(d) The Board intends that a bank holding company may exercise all functions that are permitted to be exercised by an “investment adviser” under the Investment Company Act of 1940, except to the extent limited by the Glass-Steagall Act provisions, as described, in part, hereinafter.

(e) The Board recognizes that presently most mutual funds are organized, sponsored and managed by investment advisers with which they are affiliated and that their securities are distributed to the public by such affiliated investment advisers, or subsidiaries or affiliates thereof. However, the Board believes that (1) The Glass-Steagall Act provisions do not permit a bank holding company to perform all such functions, and (2) It is not necessary for a bank holding company to perform all such functions in order to engage effectively in the described activity.

(f) In the Board’s opinion, the Glass-Steagall Act provisions, as interpreted by the U.S. Supreme Court, forbid a bank holding company to sponsor, organize, or control a mutual fund. However, the Board does not believe that such restrictions apply to closed-end investment companies as long as such companies are not primarily or frequently engaged in the issuance, sale, and distribution of securities. A bank holding company should not act as investment adviser to an investment company that has a name similar to the name of the holding company or any of its subsidiary banks, unless the prospectus of the investment company contains the disclosures required in paragraph (h) of this section. In no case should a bank holding company act as investment adviser to an investment company that has either the same
name as the name of the holding company or any of its subsidiary banks, or a name that contains the word ‘bank.’

(g) In view of the potential conflicts of interests that may exist, a bank holding company and its bank and nonbank subsidiaries should not purchase in their sole discretion, in a fiduciary capacity (including as managing agent), securities of any investment company for which the bank holding company acts as investment adviser unless, the purchase is specifically authorized by the terms of the instrument creating the fiduciary relationship, by court order, or by the law of the jurisdiction under which the trust is administered.

(h) Under section 20 of the Glass-Steagall Act, a member bank is prohibited from being affiliated with a company that directly, or through a subsidiary, engages principally in the issue, flotation, underwriting, public sale, or distribution of securities. A bank holding company or its nonbank subsidiary may not engage, directly or indirectly, in the underwriting, public sale or distribution of securities of any investment company for which the holding company or any nonbank subsidiary provides investment advice except in compliance with the terms of section 20, and only after obtaining the Board’s approval under section 4 of the Bank Holding Company Act and subject to the limitations and disclosures required by the Board in those cases. The Board has determined, however, that the conduct of securities brokerage activities by a bank holding company or its nonbank subsidiaries, when conducted individually or in combination with investment advisory activities, is not deemed to be the underwriting, public sale, or distribution of securities prohibited by the Glass-Steagall Act, and the U.S. Supreme Court has upheld that determination. See Securities Industry Ass’n v. Board of Governors, 468 U.S. 207 (1984); see also Securities Industry Ass’n v. Board of Governors, 821 F.2d 810 (D.C. Cir. 1987), cert. denied, 484 U.S. 1005 (1988). Accordingly, the Board believes that a bank holding company or any of its nonbank subsidiaries that has been authorized by the Board under the Bank Holding Company Act to conduct securities brokerage activities (either separately or in combination with investment advisory activities) may act as agent, upon the order and for the account of customers of the holding company or its nonbank subsidiary, to purchase or sell shares of an investment company for which the bank holding company or any of its subsidiaries acts as an investment adviser. In addition, a bank holding company or any of its nonbank subsidiaries that has been authorized by the Board under the Bank Holding Company Act to provide investment advice to third parties generally (either separately or in combination with securities brokerage services) may provide investment advice to customers with respect to the purchase or sale of shares of an investment company for which the holding company or any of its subsidiaries acts as an investment adviser. In the event that a bank holding company or any of its nonbank subsidiaries provides brokerage or investment advisory services (either separately or in combination) to customers in the situations described above, at the time the service is provided the bank holding company should instruct its officers and employees to caution customers to read the prospectus of the investment company before investing and must advise customers in writing that the investment company’s shares are not insured by the Federal Deposit Insurance Corporation, and are not deposits, obligations of, or endorsed or guaranteed in any way by, any bank, unless that happens to be the case. The holding company or nonbank subsidiary must also disclose in writing to the customer the role of the company or affiliate as adviser to the investment company. These disclosures may be made orally so long as written disclosure is provided to the customer immediately thereafter. To the extent that a bank owned by a bank holding company engages in providing advisory or brokerage services to bank customers in connection with an investment company advised by the bank holding company or a nonbank affiliate, but is not required by the bank’s primary regulator to make disclosures comparable to the disclosures required to be made by bank holding companies providing such services, the bank holding company should require
its subsidiary bank to make the disclosures required in this paragraph to be made by a bank holding company that provides such advisory or brokerage services.

(i) Acting in such capacities as registrar, transfer agent, or custodian for an investment company is not a selling activity and is permitted under §225.4(a)(4) of Regulation Y. However, in view of potential conflicts of interests, a bank holding company which acts both as custodian and investment adviser for an investment company should exercise care to maintain at a minimal level demand deposit accounts of the investment company which are placed with a bank affiliate and should not invest cash funds of the investment company in time deposit accounts (including certificates of deposit) of any bank affiliate.

§ 225.126 Activities not closely related to banking.

Pursuant to section 4(c)(8) of the Bank Holding Company Act and §225.4(a) of Regulation Y, the Board of Governors has determined that the following activities are not so closely related to banking or managing or controlling banks as to be a proper incident thereto:

(a) Insurance premium funding—that is, the combined sale of mutual funds and insurance.

(b) Underwriting life insurance that is not sold in connection with a credit transaction by a bank holding company, or a subsidiary thereof.

(e) Real estate syndication.

are investments in projects to construct or rehabilitate multifamily low- or moderate-income housing with respect to which a mortgage is insured under section 221(d)(3), 221(d)(4), or 236 of the National Housing Act (12 U.S.C. 1701) and investments in projects to construct or rehabilitate low- or moderate-income housing which is financed or assisted by direct loan, tax abatement, or insurance under provisions of State or local law, similar to the aforementioned Federal programs, provided that, with respect to all such projects the owner is, by statute, regulation, or regulatory authority, limited as to the rate of return on his investment in the project, as to rentals or occupancy charges for units in the project, and in such other respects as would be a “limited dividend corporation” (as defined by the Secretary of Housing and Urban Development).

(d) Investments in other projects that may be considered to be designed primarily to promote community welfare include but are not limited to: (1) Projects for the construction or rehabilitation of housing for the benefit of persons of low- or moderate-income, (2) projects for the construction or rehabilitation of ancillary local commercial facilities necessary to provide goods or services principally to persons residing in low- or moderate-income housing, and (3) projects designed explicitly to create improved job opportunities for low- or moderate-income groups (for example, minority equity investments, on a temporary basis, in small or medium-sized locally-controlled businesses in low-income urban or other economically depressed areas).

In the case of de novo projects, the copy of the notice with respect to such other projects which is to be furnished to Reserve Banks in accordance with the provisions of §225.23 should be accompanied by a memorandum which demonstrates that such projects meet the objectives of §225.25(b)(6).

(e) Investments in corporations or projects organized to build or rehabilitate high-income housing, or commercial, office, or industrial facilities that are not designed explicitly to create improved job opportunities for low-income persons shall be presumed not to be designed primarily to promote community welfare, unless there is substantial evidence to the contrary, even though to some extent the investment may benefit the community.

(f) Section 6 of the Depository Institutions Disaster Relief Act of 1992 permits state member banks (12 U.S.C. 338a) and national banks (12 U.S.C. 24 (Eleventh)) to invest in the stock of community development corporations that are designed primarily to promote the public welfare of low- and moderate-income communities and persons in the areas of housing, services and employment. The Board and the Office of the Comptroller of the Currency have adopted rules that permit state member banks and national banks to make certain investments without prior approval. The Board believes that these rules are consistent with the Board’s interpretation of, and decisions regarding, the scope of community welfare activities permissible for bank holding companies. Accordingly, approval received by a bank holding company to conduct activities designed to promote the community welfare under section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and §225.25(b)(6) of the Board’s Regulation Y (12 CFR 225.25(b)(6)) includes approval to engage, either directly or through a subsidiary, in the following activities, up to five percent of the bank holding company’s total consolidated capital stock and surplus, without additional Board or Reserve Bank approval:

1. Invest in and provide financing to a corporation or project or class of corporations or projects that the Board previously has determined is a public welfare project pursuant to paragraph 23 of section 9 of the Federal Reserve Act (12 U.S.C. 338a);
2. Invest in and provide financing to a corporation or project that the Office of the Comptroller of the Currency previously has determined, by order or regulation, is a public welfare investment pursuant to section 5136 of the Revised Statutes (12 U.S.C. 24 (Eleventh));
3. Invest in and provide financing to a community development financial institution pursuant to section 103(5) of the Community Development Banking...

(4) Invest in, provide financing to, develop, rehabilitate, manage, sell, and rent residential property if a majority of the units will be occupied by low- and moderate-income persons or if the property is a "qualified low-income building" as defined in section 42(c)(2) of the Internal Revenue Code (26 U.S.C. 42(c)(2));

(5) Invest in, provide financing to, develop, rehabilitate, manage, sell, and rent nonresidential real property or other assets located in a low- or moderate-income area provided the property is used primarily for low- and moderate-income persons;

(6) Invest in and provide financing to one or more small businesses located in a low- or moderate-income area to stimulate economic development;

(7) Invest in and provide financing to, develop, and otherwise assist job training or placement facilities or programs designed primarily for low- and moderate-income persons;

(8) Invest in and provide financing to an entity located in a low- or moderate-income area if that entity creates long-term employment opportunities, a majority of which (based on full time equivalent positions) will be held by low- and moderate-income persons;

(9) Provide technical assistance, credit counseling, research, and program development assistance to low- and moderate-income persons, small businesses, or nonprofit corporations to help achieve community development.

(h) For purposes of paragraph (f) of this section, five percent of the total consolidated capital stock and surplus of a bank holding company includes its total investment in projects described in paragraph (f) of this section, when aggregated with similar types of investments made by depository institutions controlled by the bank holding company. The term total consolidated capital stock and surplus of the bank holding company means total equity capital and the allowance for loan and lease losses. For bank holding companies that file the FR Y–3C (Consolidated Financial Statements for Bank Holding Companies), these items are readily ascertained from Schedule HC—Consolidated Balance Sheet (total equity capital (line 27h) and allowance for loan and lease losses (line 4b)). For bank holding companies filing the FR Y–SP (Parent Company Only Financial Statements for Small Bank Holding Companies), an approximation of these items is ascertained from the Balance Sheet (total equity capital (line 16e)) and allowance for loan and lease losses (line 3b)) and from the Report of Condition for Insured Banks (Schedule RC—Balance Sheet (line 4b)).

§ 225.129 Activities closely related to banking.

Courier activities. The Board’s amendment of §225.4(a), which adds courier services to the list of closely related activities is intended to permit holding companies to transport time critical materials of limited intrinsic value of the types utilized by banks and bank-related firms in performing their business activities. Such transportation activities are of particular importance in the check clearing process of the banking system, but are also important to the performance of other activities, including the processing of financially-related economic data. The authority is not intended to permit holding companies to engage generally in the provision of transportation services.

During the course of the Board’s proceedings pertaining to courier service,
objections were made that courier activities were not a proper incident to banking because of the possibility that holding companies would or had engaged in unfair competitive practices. The Board believes that adherence to the following principles will eliminate or reduce to an insignificant degree any possibility of unfair competition:

a. A holding company courier subsidiary established under section 4(c)(8) should be a separate, independent corporate entity, not merely a servicing arm of a bank.

b. As such, the subsidiary should exist as a separate, profit-oriented operation and should not be subsidized by the holding company system.

c. Services performed should be explicitly priced, and shall not be paid for indirectly, for example, on the basis of deposits maintained at or loan arrangements with affiliated banks.

Accordingly, entry of holding companies into courier activities on the basis of section 4(c)(8) will be conditioned as follows:

1. The courier subsidiary shall perform services on an explicit fee basis and shall be structured as an individual profit center designed to be operated on a profitable basis. The Board may regard operating losses sustained over an extended period as being inconsistent with continued authority to engage in courier activities.

2. Courier services performed on behalf of an affiliate’s customer (such as the carriage of incoming cash letters) shall be paid for by the customer. Such payments shall not be made indirectly, for example, on the basis of imputed earnings on deposits maintained at or of loan arrangements with subsidiaries of the holding company. Concern has also been expressed that bank-affiliated courier services will be utilized to gain a competitive advantage over firms competing with other holding company affiliates. To reduce the possibility that courier affiliates might be so employed, the Board will impose the following third condition:

3. The courier subsidiary shall, when requested by any bank or any data processing firm providing financially-related data processing services which firm competes with a banking or data processing subsidiary of Applicant, furnish comparable service at comparable rates, unless compliance with such request would be beyond the courier subsidiary’s practical capacity. In this regard, the courier subsidiary should make known to the public its minimum rate schedule for services and its general pricing policies thereto. The courier subsidiary is also expected to maintain for a reasonable period of time (not less than two years) each request denied with the reasons for such denial.

[38 FR 32126, Nov. 21, 1973, as amended at 40 FR 36309, Aug. 20, 1975]

§ 225.130 Issuance and sale of short-term debt obligations by bank holding companies.

For text of interpretation, see §225.211 of this chapter.

[38 FR 35231, Dec. 26, 1973]

§ 225.131 Activities closely related to banking.

(a) Bank management consulting advice. The Board’s amendment of §225.4(a), which adds bank management consulting advice to the list of closely related activities, described in general terms the nature of such activity. This interpretation is intended to explain in greater detail certain of the terms in the amendment.

(b) It is expected that bank management consulting advice would include, but not be limited to, advice concerning: Bank operations, systems and procedures; computer operations and mechanization; implementation of electronic funds transfer systems; site planning and evaluation; bank mergers and the establishment of new branches; operation and management of a trust department; international banking; foreign exchange transactions; purchasing policies and practices; cost analysis, capital adequacy and planning; auditing; accounting procedures; tax planning; investment advice (as authorized in §225.4(a)(5)); credit policies and administration, including credit documentation, evaluation, and debt collection; product development, including specialized lending provisions; marketing operations, including research, market development and advertising programs; personnel operations,
including recruiting, training, evaluation and compensation; and security measures and procedures.

(c) In permitting bank holding companies to provide management consulting advice to nonaffiliated “banks”, the Board intends such advice to be given only to an institution that both accepts deposits that the depositors have a legal right to withdraw on demand and engages in the business of making commercial loans. It is also intended that such management consulting advice may be provided to the “operations subsidiaries” of a bank, since such subsidiaries perform functions that a bank is empowered to perform directly at locations at which the bank is authorized to engage in business (§250.141 of this chapter).

(d) Although a bank holding company providing management consulting advice is prohibited by the regulation from owning or controlling, directly or indirectly, any equity securities in a client bank, this limitation does not apply to shares of a client bank acquired, directly or indirectly, as a result of a default on a debt previously contracted. This limitation is also inapplicable to shares of a client bank acquired by a bank holding company, directly or indirectly, in a fiduciary capacity: Provided, That the bank holding company or its subsidiary does not have sole discretionary authority to vote such shares or shares held with sole voting rights constitute not more than five percent of the outstanding voting shares of a client bank.

[39 FR 8318, Mar. 5, 1974; 39 FR 21120, June 19, 1974]

§225.132 Acquisition of assets.

(a) From time to time questions have arisen as to whether and under what circumstances a bank holding company engaged in nonbank activities, directly or indirectly through a subsidiary, pursuant to section 4(c)(8) of the Bank Holding Company Act of 1956, as amended (12 U.S.C. 1843(c)(3)), may acquire the assets and employees of another company, without first obtaining Board approval pursuant to section 4(c)(8) and the Board’s Regulation Y (12 CFR 225.4(b)).

(b) In determining whether Board approval is required in connection with the acquisition of assets, it is necessary to determine (a) whether the acquisition is made in the ordinary course of business or (b) whether it constitutes the acquisition, in whole or in part, of a going concern.

(c) The following examples illustrate transactions where prior Board approval will generally be required:

1. The transaction involves the acquisition of all or substantially all of the assets of a company, or a subsidiary, division, department or office thereof.

2. The transaction involves the acquisition of less than “substantially all” of the assets of a company, or a subsidiary, division, department or office thereof, the operations of which are being terminated or substantially discontinued by the seller, but such asset acquisition is significant in relation to the size of the same line of nonbank activity of the holding company (e.g., consumer finance mortgage banking, data processing). For purposes of this interpretation, an acquisition would generally be presumed to be significant if the book value of the nonbank assets being acquired exceeds 50 percent of the book value of the nonbank assets of the holding company or nonbank subsidiary comprising the same line of activity.

3. The transaction involves the acquisition of assets for resale and the sale of such assets is not a normal business activity of the acquiring holding company.

4. The transaction involves the acquisition of the assets of a company, or a subsidiary, division, department or office thereof, and a major purpose of the transaction is to hire some of the seller’s principal employees who are expert, skilled and experienced in the

---

1 Section 225.4(c)(3) of the Board’s Regulation Y (12 CFR 225.4(c)(3)) generally prohibits a bank holding company or its subsidiary engaged in activities pursuant to authority of section 4(c)(8) of the Act from being a party to any merger “or acquisition of assets other than in the ordinary course of business” without prior Board approval.

2 In accordance with the provisions of section 4(c)(8) of the Act and §225.4(b) of Regulation Y, the acquisition of a going concern requires prior Board approval.
§ 225.137 Acquisitions of shares pursuant to section 4(c)(6) of the Bank Holding Company Act.

(a) The Board has received a request for an interpretation of section 4(c)(6) of the Bank Holding Company Act.
§ 225.137

12 CFR Ch. II (1–1–09 Edition)

("Act")1 in connection with a proposal under which a number of bank holding companies would purchase interests in an insurance company to be formed for the purpose of underwriting or reinsuring credit life and credit accident and health insurance sold in connection with extensions of credit by the stockholder bank holding companies and their affiliates.

(b) Each participating holding company would own no more than 5 percent of the outstanding voting shares of the company. However, the investment of each holding company would be represented by a separate class of voting security, so that each stockholder would own 100 percent of its respective class. The participating companies would execute a formal “Agreement Among Stockholders” under which each would agree to use its best efforts at all times to direct or recommend to customers and clients the placement of their life, accident and health insurance directly or indirectly with the company. Such credit-related insurance placed with the company would be identified in the records of the company as having been originated by the respective stockholder. A separate capital account would be maintained for each stockholder consisting of the original capital contribution increased or decreased from time to time by the net profit or loss resulting from the insurance business attributable to each stockholder. Thus, each stockholder would receive a return on its investment based upon the claims experience and profitability of the insurance business that it had itself generated. Dividends declared by the board of directors of the company would be payable to each stockholder only out of the earned surplus reflected in the respective stockholder’s capital account.

(c) It has been requested that the Board issue an interpretation that section 4(c)(6) of the Act provides an exemption under which participating bank holding companies may acquire such interests in the company without prior approval of the Board.

(d) On the basis of a careful review of the documents submitted, in light of the purposes and provisions of the Act, the Board has concluded that section 4(c)(6) of the Act is inapplicable to this proposal and that a bank holding company must obtain the approval of the Board before participating in such a proposal in the manner described. The Board’s conclusion is based upon the following considerations:

(1) Section 2(a)(2)(A) of the Act provides that a company is deemed to have control over a second company if it owns or controls “25 per centum or more of any class of voting securities” of the second company. In the case presented, the stock interest of each participant would be evidenced by a different class of stock and each would accordingly, own 100 percent of a class of voting securities of the company. Thus, each of the stockholders would be deemed to “control” the company and prior Board approval would be required for each stockholder’s acquisition of stock in the company. The Board believes that this application of section 2(a)(2)(A) of the Act is particularly appropriate on the facts presented here. The company is, in practical effect, a conglomeration of separate business ventures each owned 100 percent by a stockholder the value of whose economic interest in the company is determined by reference to the profits and losses attributable to its respective class of stock. Furthermore, it is the Board’s opinion that this application of section 2(a)(2)(A) of the Act is not inconsistent with section 4(c)(6). Even assuming that section 4(c)(6) is intended to refer to all outstanding voting shares, and not merely the outstanding shares of a particular class of securities, section 4(c)(6) must be viewed as permitting ownership of 5 percent of a company’s voting stock only when that ownership does not

1It should be noted that every Board Order granting approval under section 4(c)(6) of the Act contains the following paragraph:

"This determination is subject . . . to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof."

The Board believes that, even apart from this Interpretation, this language preserves the authority of the Board to require the revisions contemplated in this Interpretation.
constitute “control” as otherwise defined in the Act. For example, it is entirely possible that a company could exercise a controlling influence over the management and policies of a second company, and thus “control” that company under the Act’s definitions, even though it held less than 5 percent of the voting stock of the second company. To view section 4(c)(6) as an unqualified exemption for holdings of less than 5 percent would thus create a serious gap in the coverage of the Act.

(2) The Board believes that section 4(c)(6) should properly be interpreted as creating an exemption from the general prohibitions in section 4 on ownership of stock in nonbank companies only for passive investments amounting to not more than 5 percent of a company’s outstanding stock, and that the exemption was not intended to allow a group of holding companies, through concerted action, to engage in an activity as entrepreneurs. Section 4 of the Act, of course, prohibits not only owning stock in nonbank companies, but engaging in activities other than banking or those activities permitted by the Board under section 4(c)(8) as being closely related to banking. Thus, if a holding company may be deemed to be engaging in an activity through the medium of a company in which it owns less than 5 percent of the voting stock it may nevertheless require Board approval, despite the section 4(c)(6) exemption.

(e) To accept the argument that section 4(c)(6) is an unqualified grant of permission to a bank holding company to own 5 percent of the shares of any nonbanking company irrespective of the nature or extent of the holding company’s participation in the affairs of the nonbanking company would, in the Board’s view, create the potential for serious and widespread evasion of the Act’s controls over nonbanking activities. Such a construction would allow a group of 20 bank holding companies—or even a single bank holding company and one or more nonbank companies—to engage in entrepreneurial joint ventures in businesses prohibited to bank holding companies, a result the Board believes to be contrary to the intent of Congress.

(f) In this proposal, each of the participating stockholders must be viewed as engaging in the business of insurance underwriting. Each stockholder would agree to channel to the company the insurance business it generates, and the value of the interest of each stockholder would be determined by reference to the profitability of the business generated by that stockholder itself. There is no sharing or pooling among stockholders of underwriting risks assumed by the company, and profit or loss from investments is allocated on the basis of each bank holding company’s allocable underwriting profit or loss. The interest of each stockholder is thus clearly that of an entrepreneur rather than that of an investor.

(g) Accordingly, on the basis of the factual situation before the Board, and for the reasons summarized above, the Board has concluded that section 4(c)(6) of the Act cannot be interpreted to exempt the ownership of 5 percent of the voting stock of a company under the circumstances described, and that a bank holding company wishing to become a stockholder in a company under this proposal would be required to obtain the Board’s approval to do so.

§ 225.138  
12 CFR Ch. II (1–1–09 Edition)

held by the company or a bank subsidiary in connection with a debt previously contracted in good faith. Certain divestiture periods may be extended in the discretion of the Board, but in other cases the Board may be without statutory authority, or may have only limited authority, to extend a specified divestiture period.

(b) In the past, divestitures have taken many different forms, and the Board has followed a variety of procedures in enforcing divestiture requirements. Because divestitures may occur under widely disparate factual circumstances, and because such forced dispositions may have the potential for causing a serious adverse economic impact upon the divesting company, the Board believes it is important to maintain a large measure of flexibility in dealing with divestitures. For these reasons, there can be no fixed rule as to the type of divestiture that will be appropriate in all situations. For example, where divestiture has been ordered to terminate a control relationship created or maintained in violation of the Act, it may be necessary to impose conditions that will assure that the unlawful relationship has been fully terminated and that it will not arise in the future. In other circumstances, however, less stringent conditions may be appropriate.

(1) Avoidance of delays in divestitures. Where a specific time period has been fixed for accomplishing divestiture, the affected company should endeavor and should be encouraged to complete the divestiture as early as possible during the specific period. There will generally be substantial advantages to divesting companies in taking steps to plan for and accomplish divestitures well before the end of the divestiture period. For example, delays may impair the ability of the company to realize full value for the divested assets, for as the end of the divestiture period approaches the “forced sale” aspect of the divestiture may lead potential buyers to withhold firm offers and to bargain for lower prices. In addition, because some prospective purchasers may themselves require regulatory approval to acquire the divested property delay by the divesting company—by leaving insufficient time to obtain such approvals—have the effect of narrowing the range of prospective purchases. Thus, delay in planning for divestiture may increase the likelihood that the company will seek an extension of the time for divestiture if difficulty is encountered in securing a purchaser, and in certain situations, of course, the Board may be without statutory authority to grant extensions.

(2) Submissions and approval of divestiture plans. When a divestiture requirement is imposed, the company affected should generally be asked to submit a divestiture plan promptly for review and approval by the Reserve Bank or the Board. Such a requirement may be imposed pursuant to the Board’s authority under section 5(b) of the Bank Holding Company Act to issue such orders as may be necessary to enable the Board to administer and carry out the purposes of the Act and prevent evasions thereof. A divestiture plan should be as specific as possible, and should indicate the manner in which divestiture will be accomplished—for example, by a bulk sale of the assets to a third party, by “spinoff” or distribution of shares to the shareholders of the divesting company, or by termination of prohibited activities. In addition, the plan should specify the steps the company expects to take in effecting the divestiture and assuring its completeness, and should indicate the time schedule for taking such steps. In appropriate circumstances, the divestiture plan should make provision for assuring that “controlling influence” relationships, such as management or financial interlocks, will not continue to exist.

(3) Periodic progress reports. A company subject to a divestiture requirement should generally be required to submit regular periodic reports detailing the steps it has taken to effect divestiture. Such a requirement may be imposed pursuant to the Board’s authority under section 5(b) of the Bank Holding Company Act, referred to above, as well as its authority under section 5(c) of the Act to require reports for the purpose of keeping the Board informed as to whether the Act and Board regulations and order thereunder are being complied with. Reports should set forth in detail such matters
as the identities of potential buyers who have been approached by the company, the dates of discussions with potential buyers and the identities of the individuals involved in such discussions, the terms of any offers received, and the reasons for rejecting any offers. In addition, the reports should indicate whether the company has employed brokers, investment bankers or others to assist in the divestiture, or its reasons for not doing so, and should describe other efforts by the company to seek out possible purchasers. The purpose of requiring such reports is to insure that substantial and good faith efforts being made by the company to satisfy its divestiture obligations. The frequency of such reports may vary depending upon the nature of the divestiture and the period specified for divestiture. However, such reports should generally not be required less frequently than every three months, and may in appropriate cases be required on a monthly or even more frequent basis. Progress reports as well as divestiture plans should be afforded confidential treatment.

(4) Extensions of divestiture periods. Certain divestiture periods—such as December 31, 1980 deadline for divestitures required by the 1970 Amendments to the Bank Holding Company Act—are not extendable. In such cases it is imperative that divestiture be accomplished in a timely manner. In certain other cases, the Board may have discretion to extend a statutorily prescribed divestiture period within specified limits. For example, under section 4(c)(2) of the Act the Board may extend for three one-year periods the two-year period in which a bank subsidiary of a holding company is otherwise required to divest shares acquired in satisfaction of a debt previously contracted in good faith. In such cases, however, when the permissible extensions expire the Board no longer has discretion to grant further extensions. In still other cases, where a divestiture period is prescribed by the Board, in the exercise of its regulatory judgment, the Board may have broader discretion to grant extensions. Where extensions of specified divestiture periods are permitted by law, extensions should not be granted except under compelling circumstances. Neither unfavorable market conditions, nor the possibility that the company may incur some loss, should alone be viewed as constituting such circumstances—particularly if the company has failed to take earlier steps to accomplish a divestiture under more favorable circumstances. Normally, a request for an extension will not be considered unless the company has established that it has made substantial and continued good faith efforts to accomplish the divestiture within the prescribed period. Furthermore, requests for extensions of divestiture periods must be made sufficiently in advance of the expiration of the prescribed period both to enable the Board to consider the request in an orderly manner and to enable the company to effect a timely divestiture in the event the request for extension is denied. Companies subject to divestiture requirements should be aware that a failure to accomplish a divestiture within the prescribed period may in and of itself be viewed as a separate violation of the Act.

(5) Use of trustees. In appropriate cases a company subject to a divestiture requirement may be required to place the assets subject to divestiture with an independent trustee under instructions to accomplish a sale by a specified date, by public auction if necessary. Such a trustee may be given the responsibility for exercising the voting rights with respect to shares being divested. The use of such a trustee may be particularly appropriate where the divestiture is intended to terminate a control relationship established or maintained in violation of law, or where the divesting company has demonstrated an inability or unwillingness to take timely steps to effect a divestiture.

(6) Presumptions of control. Bank holding companies contemplating a divestiture should be mindful of section 2(g)(3) of the Bank Holding Company Act, which creates a presumption of continued control over the transferred assets where the transferee is indebted to the transferor, or where certain interlocks exist, as well as §225.2 of Regulation Y, which sets forth certain additional control presumptions. Where one of these presumptions has
§ 225.139 Presumption of continued control under section 2(g)(3) of the Bank Holding Company Act.

(a) Section 2(g)(3) of the Bank Holding Company Act (the “Act”) establishes a statutory presumption that where certain specified relationships exist between a transferor and transferee of shares, the transferor (if it is a bank holding company, or a company that would be such but for the transfer) continues to own or control indirectly the transferred shares.1 This presumption arises by operation of law, as of the date of the transfer, without the need for any order or determination by the Board. Operation of the presumption may be terminated only by the issuance of a Board determination, after opportunity for hearing, “that the transferor is not in fact capable of controlling the transferee.” 2

(b) The purpose of section 2(g)(3) is to provide the Board an opportunity to assess the effectiveness of divestitures in certain situations in which there may be a risk that the divestiture will not result in the complete termination of a control relationship. By presuming control to continue as a matter of law, section 2(g)(3) operates to allow the effectiveness of the divestiture to be assessed before the divesting company is permitted to act on the assumption that the divestiture is complete. Thus, for example, if a holding company divests its banking interest under circumstances where the presumption of continued control arises, the divesting company must continue to consider itself bound by the Act until an appropriate order is entered by the Board dispelling the presumption. Section 2(g)(3) does not establish a substantive rule that invalidates transfers to which it applies, and in a great many cases the Board has acted favorably on applications to have the presumption dispelled. It merely provides a procedural opportunity for Board consideration of the effect of such transfers in advance of their being deemed effective. Whether or not the statutory presumption arises, the substantive test for assessing the effectiveness of a divestiture is the same—that is, the Board must be assured that all control relationships between the transferor and the transferred property have been terminated and will not be reestablished.3

1 The presumption arises where the transferee “is indebted to the transferor, or has one or more officers, directors, trustees, or beneficiaries in common with or subject to control by the transferor.”

2 The Board has delegated to its General Counsel the authority to issue such determinations, 12 CFR 265.2(b)(1).

3 It should be noted, however, that the Board will require termination of any interlocking management relationships between the divesting company and the transferee or the divested company as a precondition of finding that a divestiture is complete. Similarly, the retention of an economic interest in the divested company that would create an incentive for the divesting company to attempt to influence the management of the divested company will preclude a finding that the divestiture is complete. (See the Board’s Order in the matter of “International Bank”, 1977 Federal Reserve Bulletin 1106, 1113.)
(c) In the course of administering section 2(g)(3) the Board has had several occasions to consider the scope of that section. In addition, questions have been raised by and with the Board’s staff as to coverage of the section. Accordingly, the Board believes it would be useful to set forth the following interpretations of section 2(g)(3):

(1) The terms transferor and transferee, as used in section 2(g)(3), include parents and subsidiaries of each. Thus, for example, where a transferee is indebted to a subsidiary of the transferor, or where a specified interlocking relationship exists between the transferor or transferee and a subsidiary of the other (or between subsidiaries of each), the presumption arises. Similarly, if a parent of the transferee is indebted to a parent of the transferor, the presumption arises. The presumption of continued control also arises where an interlock or debt relationship is retained between the divesting company and the company being divested, since the divested company will be or may be viewed as a subsidiary of the transferee or group of transferees.

(2) The terms officers, directors, and trustees, as used in section 2(g)(3), include persons performing functions normally associated with such positions (including general partners in a partnership and limited partners having a right to participate in the management of the affairs of the partnership) as well as persons holding such positions in an advisory or honorary capacity. The presumption arises not only where the transferee or transferred company has an officer, director or trustee in common with the transferor, but where the transferee himself holds such a position with the transferor.4 It should be noted that where a transfer takes the form of a pro-rata distribution, or spin-off, of shares to a company’s shareholders, officers and directors of the transferee company are likely to receive a portion of such shares. The presumption of continued control would, of course, attach to any shares transferred to officers and directors of the divesting company, whether by spinoff or outright sale. However, the presumption will be of legal significance—and will thus require an application under section 2(g)(3)—only where the total number of shares subject to the presumption exceeds one of the applicable thresholds in the Act. For example, where officers and directors of a one-bank holding company receive in the aggregate 25 percent or more of the stock of a bank subsidiary being divested by the holding company, the holding company would be presumed to continue to control the divested bank. In such a case it would be necessary for the divesting company to demonstrate that it no longer controls either the divested bank or the officer/director transferees. However, if officers and directors were to receive in the aggregate less than 25 percent of the bank’s stock (and no other shares were subject to the presumption), section 2(g)(3) would not have the legal effect of presuming continued control of the bank.5 In the case of a divestiture of nonbank shares, an application under section 2(g)(3) would be required whenever officers and directors of the divesting company received in the aggregate more than 5 percent of the shares of the company being divested.

(3) Although section 2(g)(3) refers to transfers of shares it is not, in the Board’s view, limited to disposition of corporate stock. General or limited partnership interests, for example, are included within the term shares. Furthermore, the transfer of all or substantially all of the assets of a company, or the transfer of such a significant volume of assets that the transfer may in effect constitute the disposition

4It has been suggested that the words in common with in section 2(g)(3) evidence an intent to make the presumption applicable only where the transferee is a company having an interlock with the transferor. Such an interpretation would, in the Board’s view, create an unwarranted gap in the coverage of section 2(g)(3). Furthermore, because the presumption clearly arises where the transferee is an individual who is indebted to the transferor such an interpretation would result in an illogical internal inconsistency in the statute.

5Of course, the fact that section 2(g)(3) would not operate to presume continued control would not necessarily mean that control had in fact been terminated if control could be exercised through other means.

§ 225.140 Disposition of property acquired in satisfaction of debts previously contracted.

(a) The Board recently considered the permissibility, under section 4 of the

(d) Section 2(g)(3) provides that a Board determination that a transferor is not in fact capable of controlling a transferee shall be made after opportunity for hearing. It has been the Board's routine practice since 1966 to publish notice in the Federal Register of applications filed under section 2(g)(3) and to offer interested parties an opportunity for a hearing. Virtually without exception no comments have been submitted on such applications by parties other than the applicant and, with the exception of one case in which the request was later withdrawn, no hearings have been requested in such cases. Because the Board believes that the hearing provision in section 2(g)(3) was intended as a protection for applicants who are seeking to have the presumption overcome by a Board order, a hearing would not be of use where an application is to be granted. In light of the experience indicating that the publication of Federal Register notice of such applications has not served a useful purpose, the Board has decided to alter its procedures in such cases. In the future, Federal Register notice of section 2(g)(3) applications will be published only in cases in which the Board's General Counsel, acting under delegated authority, has determined not to grant such an application and has referred the matter to the Board for decision.6

(12 U.S.C. 1841, 1844)

§ 225.140 Disposition of property acquired in satisfaction of debts previously contracted.

(a) The Board recently considered the permissibility, under section 4 of the

(d) Section 2(g)(3) provides that a Board determination that a transferor is not in fact capable of controlling a transferee shall be made after opportunity for hearing. It has been the Board's routine practice since 1966 to publish notice in the Federal Register of applications filed under section 2(g)(3) and to offer interested parties an opportunity for a hearing. Virtually without exception no comments have been submitted on such applications by parties other than the applicant and, with the exception of one case in which the request was later withdrawn, no hearings have been requested in such cases. Because the Board believes that the hearing provision in section 2(g)(3) was intended as a protection for applicants who are seeking to have the presumption overcome by a Board order, a hearing would not be of use where an application is to be granted. In light of the experience indicating that the publication of Federal Register notice of such applications has not served a useful purpose, the Board has decided to alter its procedures in such cases. In the future, Federal Register notice of section 2(g)(3) applications will be published only in cases in which the Board's General Counsel, acting under delegated authority, has determined not to grant such an application and has referred the matter to the Board for decision.6

(12 U.S.C. 1841, 1844)

The Board notes that where the dpc shares or other similar interests represent less than 5 percent of the total of such interests outstanding, they may be retained on the basis of section 4(c)(6), even if originally acquired dpc.

(b) While the Board believes that “dpc” acquisitions may be regarded as normal, necessary and incidental to the business of lending, the Board does not believe that the holding of assets acquired “dpc” without any time restrictions is appropriate from the standpoint of prudent banking and in light of the prohibitions in section 4 of the Act against engaging in nonbank activities. If a nonbanking subsidiary of a bank holding company were permitted, either directly or through a subsidiary, to hold “dpc” assets of substantial amount over an extended period of time, the holding of such property could result in an unsafe or unsound banking practice or in the holding company engaging in an impermissible activity in connection with the assets, rather than liquidating them.

(c) The Board notes that section 4(c)(2) of the Bank Holding Company Act provides an exemption from the prohibitions of section 4 of the Act for bank holding company subsidiaries to acquire shares “dpc”. It also provides that such “dpc” shares may be held for a period of two years, subject to the Board’s authority to grant three one-year extensions up to a maximum of five years. Viewed in light of the Congressional policy evidenced by section 4(c)(2), the Board believes that a lending subsidiary of a bank holding company or the holding company itself, should be permitted, as an incident to permissible lending activities, to make acquisitions of “dpc” assets. Consistent with the principles underlying the provisions of section 4(c)(2) of the Act and as a matter of prudent banking practice, such assets may be held for no longer than five years from the date of acquisition. Within the divestiture period it is expected that the company will make good faith efforts to dispose of “dpc” shares or assets at the earliest practicable date. While no specific authorization is necessary to hold such assets for the five-year period, after two years from the date of acquisition of such assets, the holding company should report annually on its efforts to accomplish divestiture to its Reserve Bank. The Reserve Bank will monitor the efforts of the company to effect an orderly divestiture, and may order divestiture before the end of the five-year period if supervisory concerns warrant such action.

(d) The Board recognizes that there are instances where a company may encounter particular difficulty in attempting to effect an orderly divestiture of “dpc” real estate holdings within the divestiture period, notwithstanding its persistent good faith efforts to dispose of such property. In the Depository Institutions Deregulation and Monetary Control Act of 1980, (Pub. L. 96–221) Congress, recognizing that real estate possesses unusual characteristics, amended the National Banking Act to permit national banks to hold real estate for five years and for an additional five-year period subject to certain conditions. Consistent with the policy underlying the recent Congressional enactment, and as a matter of supervisory policy, a bank holding company may be permitted to hold real estate acquired “dpc” beyond the initial five-year period provided that the value of the real estate on the books of the company has been written down to fair market value, the carrying costs are not significant in relation to the overall financial position of the company, and the company has made good faith efforts to effect divestiture. Companies holding real estate for this extended period are expected to make active efforts to dispose of it, and should keep the Reserve Bank advised.

1The Board notes that where the dpc shares or other similar interests represent less than 5 percent of the total of such interests outstanding, they may be retained on the basis of section 4(c)(6), even if originally acquired dpc.
on a regular basis concerning their ongoing efforts. Fair market value should be derived from appraisals, comparable sales or some other reasonable method. In any case, “dpc” real estate would not be permitted to be held beyond 10 years from the date of its acquisition.

(e) With respect to the transfer by a subsidiary of other “dpc” shares or assets to another company in the holding company system, including a section 4(c)(1)(D) liquidating subsidiary, or to the holding company itself, such transfers would not alter the original divestiture period applicable to such shares or assets at the time of their acquisition. Moreover, to ensure that assets are not carried at inflated values for extended periods of time, the Board expects, in the case of all such intracompany transfers, that the shares or assets will be transferred at a value no greater than the fair market value at the time of transfer and that the transfer will be made in a normal arms-length transaction.

(f) With regard to “dpc” assets acquired by a banking subsidiary of a holding company, so long as the assets continue to be held by the bank itself, the Board will regard them as being solely within the regulatory authority of the primary supervisor of the bank.

(12 U.S.C. 1843 (c)(1)(d), (c)(2), (c)(8), and 1844 (b); 12 U.S.C. 1818)

[45 FR 49905, July 28, 1980]

§ 225.141 Operations subsidiaries of a bank holding company.

In orders approving the retention by a bank holding company of a 4(c)(8) subsidiary, the Board has stated that it would permit, without any specific regulatory approval, the formation of a wholly owned subsidiary of an approved 4(c)(8) company to engage in activities that such a company could itself engage in directly through a division or department. (Northwestern Financial Corporation, 65 Federal Reserve Bulletin 566 (1979).) Section 4(a)(2) of the Act provides generally that a bank holding company may engage directly in the business of managing and controlling banks and permissible nonbank activities, and in furnishing services directly to its subsidiaries. Even though section 4 of the Act generally prohibits the acquisition of shares of nonbanking organizations, the Board does not believe that such prohibition should apply to the formation by a holding company of a wholly-owned subsidiary to engage in activities that it could engage in directly. Accordingly, as a general matter, the Board will permit without any regulatory approval a bank holding company to form a wholly-owned subsidiary to perform servicing activities for subsidiaries that the holding company itself could perform directly or through a department or a division under section 4(a)(2) of the Act. The Board believes that permitting this type of subsidiary is not inconsistent with the nonbanking prohibitions of section 4 of the Act, and is consistent with the authority in section 4(c)(1)(C) of the Act, which permits a bank holding company, without regulatory approval, to form a subsidiary to perform services for its banking subsidiaries. The Board notes, however, that a servicing subsidiary established by a bank holding company in reliance on this interpretation will be an affiliate of the subsidiary bank of the holding company for the purposes of the lending restrictions of section 23A of the Federal Reserve Act. (12 U.S.C. 371c)

(12 U.S.C. 1843(a)(2) and 1844(b))

[45 FR 54326, July 15, 1980]

§ 225.142 Statement of policy concerning bank holding companies engaging in futures, forward and options contracts on U.S. Government and agency securities and money market instruments.

(a) Purpose of financial contract positions. In supervising the activities of bank holding companies, the Board has adopted and continues to follow the principle that bank holding companies should serve as a source of strength for their subsidiary banks. Accordingly, the Board believes that any positions that bank holding companies or their nonbank subsidiaries take in financial contracts should reduce risk exposure, that is, not be speculative.

(b) Establishment of prudent written policies, appropriate limitations and internal controls and audit programs. If the parent organization or nonbank subsidiary is taking or intends to take positions in financial contracts, that
Federal Reserve System

§ 225.143 Policy statement on non-voting equity investments by bank holding companies.

(a) Introduction. (1) In recent months, a number of bank holding companies have made substantial equity investments in a bank or bank holding company (the “acquiree”) located in states other than the home state of the investing company through acquisition of preferred stock or nonvoting common shares of the acquiree. Because of the evident interest in these types of investments and because they raise substantial questions under the Bank Holding Company Act (the “Act”), the Board believes it is appropriate to provide guidance regarding the consistency of such arrangements with the Act.

(2) This statement sets out the Board’s concerns with these investments, the considerations the Board will take into account in determining whether the investments are consistent with the Act, and the general scope of

mandated at this time. The Board expects to review further developments in this area.

(e) Board to monitor bank holding company transactions in financial contracts. The Board intends to monitor closely bank holding company transactions in financial contracts to ensure that any such activity is consistent with maintaining a safe and sound banking system. In any cases where bank holding companies are found to be engaging in speculative practices, the Board is prepared to institute appropriate action under the Financial Institutions Supervisory Act of 1966, as amended.

(f) Federal Reserve Bank notification. Bank holding companies should furnish written notification to their District Federal Reserve Bank within 10 days after financial contract activities are begun by the parent or a nonbank subsidiary. Holding companies in which the parent or a nonbank subsidiary currently engage in financial contract activity should furnish notice by March 31, 1983.

(See secs. 5(b) and 8 of the Bank Holding Company Act (12 U.S.C. 1844 and 1847); sec. 8(b) of the Financial Institutions Supervisory Act (12 U.S.C. 1818(b))

[48 FR 7720, Feb. 24, 1983]
arrangements to be avoided by bank holding companies. The Board recognizes that the complexity of legitimate business arrangements precludes rigid rules designed to cover all situations and that decisions regarding the existence or absence of control in any particular case must take into account the effect of the combination of provisions and covenants in the agreement as a whole and the particular facts and circumstances of each case. Nevertheless, the Board believes that the factors outlined in this statement provide a framework for guiding bank holding companies in complying with the requirements of the Act.

(b) Statutory and regulatory provisions. (1) Under section 3(a) of the Act, a bank holding company may not acquire direct or indirect ownership or control of more than 5 per cent of the voting shares of a bank without the Board’s prior approval. (12 U.S.C. 1842(a)(3)). In addition, this section of the Act provides that a bank holding company may not, without the Board’s prior approval, acquire control of a bank: That is, in the words of the statute, “for any action to be taken that causes a bank to become a subsidiary of a bank holding company.” (12 U.S.C. 1842(a)(2)). Under the Act, a bank is a subsidiary of a bank holding company if:

(i) The company directly or indirectly owns, controls, or holds with power to vote 25 per cent or more of the voting shares of the bank;

(ii) The company controls in any manner the election of a majority of the board of directors of the bank; or

(iii) The Board determines, after notice and opportunity for hearing, that the company has the power, directly or indirectly, to exercise a controlling influence over the management or policies of the bank. (12 U.S.C. 1841(d)).

(2) In intrastate situations, the Board may approve bank holding company acquisitions of additional banking subsidiaries. However, where the acquiree is located outside the home state of the investing bank holding company, section 3(d) of the Act prevents the Board from approving any application that will permit a bank holding company to “acquire, directly or indirectly, any voting shares of, interest in, or all or substantially all of the assets of any additional bank.” (12 U.S.C. 1842(d)(1)).

(c) Review of agreements. (1) In apparent expectation of statutory changes that might make interstate banking permissible, bank holding companies have sought to make substantial equity investments in other bank holding companies across state lines, but without obtaining more than 5 per cent of the voting shares or control of the acquiree. These investments involve a combination of the following arrangements:

(i) Options on, warrants for, or rights to convert nonvoting shares into substantial blocks of voting securities of the acquiree bank holding company or its subsidiary bank(s);

(ii) Merger or asset acquisition agreements with the out-of-state bank or bank holding company that are to be consummated in the event interstate banking is permitted;

(iii) Provisions that limit or restrict major policies, operations or decisions of the acquiree; and

(iv) Provisions that make acquisition of the acquiree or its subsidiary bank(s) by a third party either impossible or economically impracticable.

The various warrants, options, and rights are not exercisable by the investing bank holding company unless interstate banking is permitted, but may be transferred by the investor either immediately or after the passage of a period of time or upon the occurrence of certain events.

(2) After a careful review of a number of these agreements, the Board believes that investments in nonvoting stock, absent other arrangements, can be consistent with the Act. Some of the agreements reviewed appear consistent with the Act since they are limited to investments of relatively moderate size in nonvoting equity that may become voting equity only if interstate banking is authorized.

(3) However, other agreements reviewed by the Board raise substantial problems of consistency with the control provisions of the Act because the investors, uncertain whether or when interstate banking may be authorized, have evidently sought to assure the soundness of their investments, prevent takeovers by others, and allow for
sale of their options, warrants, or rights to a person of the investor’s choice in the event a third party obtains control of the acquiree or the investor otherwise becomes dissatisfied with its investment. Since the Act precludes the investors from protecting their investments through ownership or use of voting shares or other exercise of control, the investors have substituted contractual agreements for rights normally achieved through voting shares.

(4) For example, various covenants in certain of the agreements seek to assure the continuing soundness of the investment by substantially limiting the discretion of the acquiree’s management over major policies and decisions, including restrictions on entering into new banking activities without the investor’s approval and requirements for extensive consultations with the investor on financial matters. By their terms, these covenants suggest control by the investing company over the management and policies of the acquiree.

(5) Similarly, certain of the agreements deprive the acquiree bank holding company, by covenant or because of an option, of the right to sell, transfer, or encumber a majority or all of the voting shares of its subsidiary bank(s) with the aim of maintaining the integrity of the investment and preventing takeovers by others. These long-term restrictions on voting shares fall within the presumption in the Board’s Regulation Y that attributes control of shares to any company that enters into any agreement placing long-term restrictions on the rights of a holder of voting securities. (12 CFR 225.2(b)(4)).

(6) Finally, investors wish to reserve the right to sell their options, warrants or rights to a person of their choice to prevent being locked into what may become an unwanted investment. Moreover, the ability to transfer rights to large blocks of voting shares, even if nonvoting in the hands of the investing company, may result in such a substantial position of leverage over the management of the acquiree as to involve a structure that inevitably results in control prohibited by the Act.

(d) Provisions that avoid control. (1) In the context of any particular agreement, provisions of the type described above may be acceptable if combined with other provisions that serve to preclude control. The Board believes that such agreements will not be consistent with the Act unless provisions are included that will preserve management’s discretion over the policies and decisions of the acquiree and avoid control of voting shares.

(2) As a first step towards avoiding control, covenants in any agreement should leave management free to conduct banking and permissible non-banking activities. Another step to avoid control is the right of the acquiree to “call” the equity investment and options or warrants to assure that covenants that may become inhibiting can be avoided by the acquiree. This right makes such investments or agreements more like a loan in which the borrower has a right to escape covenants and avoid the lender’s influence by prepaying the loan.

(3) A measure to avoid problems of control arising through the investor’s control over the ultimate disposition of rights to substantial amounts of voting shares of the acquiree would be a provision granting the acquiree a right of first refusal before warrants, options or other rights may be sold and requiring a public and dispersed distribution of these rights if the right of first refusal is not exercised.

(4) In this connection, the Board believes that agreements that involve rights to less than 25 percent of the voting shares, with a requirement for a dispersed public distribution in the event of sale, have a much greater prospect of achieving consistency with the Act than agreements involving a greater percentage. This guideline is drawn by analogy from the provision in the Act that ownership of 25 percent or more of the voting securities of a bank constitutes control of the bank.

1See Board letter dated March 18, 1982, to C. A. Cavendes, Sociedad Financiera.
§ 225.145 Limitations established by the Competitive Equality Banking Act of 1987 on the activities and growth of nonbank banks.

(a) Introduction. Effective August 10, 1987, the Competitive Equality Banking Act of 1987 ("CEBA") redefined the term "bank" in the Bank Holding Company Act ("BHC Act" or "Act") to include any bank the deposits of which are insured by the Federal Deposit Insurance Corporation as well as any other institution that accepts demand or checkable deposit accounts and is engaged in the business of making commercial loans. 12 U.S.C. 1841(c). CEBA also contained a grandfather provision for certain companies affected by this redefinition. CEBA amended section 4 of the BHC Act to permit a company that on March 5, 1987, controlled a nonbank bank (an institution that became a bank as a result of enactment of CEBA) and that was not a bank holding company on August 9, 1987, to retain its nonbank bank and not be treated as a bank holding company for purposes of the BHC Act if the company and its subsidiary nonbank bank observe certain limitations imposed by CEBA. Certain of these limitations are codified in section 4(f)(3) of the BHC Act and generally restrict nonbank banks from commencing new activities or certain cross-marketing activities with affiliates after March 5, 1987, or permitting overdrafts for affiliates or incurring overdrafts on behalf of affiliates at a Federal Reserve Bank. 12 U.S.C. 1843(f)(3).

§ 225.145 Limitations established by the Competitive Equality Banking Act of 1987 on the activities and growth of nonbank banks.

(b) Definition of the term "nonbank bank." For purposes of section 4(f)(3) of the BHC Act, a "nonbank bank" is defined to mean any company which was not a bank holding company on August 9, 1987, and which on March 5, 1987, controlled a nonbank bank as defined in section 3 of the BHC Act, 12 U.S.C. 1841(c).

(c) Requirements to retain the grandfather provision.

(1) As a condition to retaining the grandfather provision, a nonbank bank shall be subject to provisions of section 4(f)(3) of the BHC Act.

(2) The company that controlled the nonbank bank on March 5, 1987, shall have the right to establish and operate branch offices of the nonbank bank as provided in section 4(i)(2) of the BHC Act. Such a company shall have the right to be treated as a bank holding company for purposes of the BHC Act if the company holds voting securities of the nonbank bank totaling 5 percent or more of the voting securities of the nonbank bank.

(d) General requirements.

(1) The Board expects that one effect of this guideline would be to hold down the size of the nonvoting equity investment by the investing company relative to the acquiree's total equity, thus avoiding the potential for control because the investor holds a very large proportion of the acquiree's total equity. Observance of the 25 percent guideline will also make provisions in agreements providing for a right of first refusal or a public and widely dispersed offering of rights to the acquiree's shares more practical and realistic.

(2) The Board also expects that one effect of this guideline would be to hold down the size of the nonvoting equity investment by the investing company relative to the acquiree's total equity, thus avoiding the potential for control because the investor holds a very large proportion of the acquiree's total equity. Observance of the 25 percent guideline will also make provisions in agreements providing for a right of first refusal or a public and widely dispersed offering of rights to the acquiree's shares more practical and realistic.

(3) Finally, certain arrangements should clearly be avoided regardless of other provisions in the agreement that are designed to avoid control. These include:

(a) Agreements that enable the investing bank holding company (or its designee) to direct in any manner the voting of more than 5 per cent of the voting shares of the acquiree.

(b) Agreements whereby the investing company has the right to direct the acquiree's use of the proceeds of an equity investment by the investing company to effect certain actions, such as the purchase and redemption of the acquiree's voting shares.

(c) The acquisition of more than 5 per cent of the voting shares of the acquiree that "simultaneously" with their acquisition by the investing company become nonvoting shares, remain nonvoting shares while held by the investor, and revert to voting shares when transferred to a third party.

(e) Review by the Board. This statement does not constitute the exclusive scope of the Board's concerns, nor are the considerations with respect to control outlined in this statement an exhaustive catalog of permissible or impermissible arrangements. The Board has instructed its staff to review agreements of the kind discussed in this statement and to bring to the Board's attention those that raise problems of consistency with the Act. In this regard, companies are requested to notify the Board of the terms of such proposed merger or asset acquisition agreements or nonvoting equity investments prior to their execution or consummation.

[47 FR 30966, July 16, 1982]
the meaning and scope of these limitations are set forth below and in provisions of the Board’s Regulation Y (12 CFR 225.52).

(b) Congressional findings. (1) At the outset, the Board notes that the scope and application of the Act’s limitations on nonbank banks must be guided by the Congressional findings set out in section 4(f)(3) of the BHC Act. Congress was aware that these nonbank banks had been acquired by companies that engage in a wide range of nonbanking activities, such as retailing and general securities activities that are forbidden to bank holding companies under section 4 of the BHC Act. In section 4(f)(3), Congress found that nonbank banks controlled by grandfathered nonbanking companies may, because of their relationships with affiliates, be involved in conflicts of interest, concentration of resources, or other effects adverse to bank safety and soundness. Congress also found that nonbank banks may be able to compete unfairly against banks controlled by bank holding companies by combining banking services with financial services not permissible for bank holding companies nor permitizable for bank holding companies. Section 4(f)(3) states that the purpose of the nonbank bank limitations is to minimize any such potential adverse effects or inequities by restricting the activities of nonbank banks until further Congressional action in the area of bank powers could be undertaken. Similarly, the Senate Report accompanying CEBA states that the restrictions CEBA places on nonbank banks “will help prevent existing nonbank banks from changing their basic character * * * while Congress considers proposals for comprehensive legislation: from drastically eroding the separation of banking and commerce; and from increasing the potential for unfair competition, conflicts of interest, undue concentration of resources, and other adverse effects.” S. Rep. No. 100–19, 100th Cong., 1st Sess. 12 (1987). See also H. Rep. No. 100–261, 100th Cong., 1st Sess. 124 (1987) (the “Conference Report”).

(2) Thus, Congress explicitly recognized in the statute itself that nonbanking companies controlling grandfathered nonbank banks, which include the many of the nation’s largest commercial and financial organizations, were being accorded a significant competitive advantage that could not be matched by bank holding companies because of the general prohibition against nonbanking activities in section 4 of the BHC Act. Congress recognized that this inequality in regulatory approach could inflict serious competitive harm on regulated bank holding companies as the grandfathered entities sought to exploit potential synergies between banking and commercial products and services. See Conference Report at 125–126. The basic and stated purpose of the restrictions on grandfathered nonbank banks is to minimize these potential anticompetitive effects.

(3) The Board believes that the specific CEBA limitations should be implemented in light of these Congressional findings and the legislative intent reflected in the plain meaning of the terms used in the statute. In those instances when the language of the statute did not provide clear guidance, legislative materials and the Congressional intent manifested in the overall statutory structure were considered. The Board also notes that prior precedent requires that grandfather exceptions in the BHC Act, such as the nonbank bank limitations and particularly the exceptions thereto, are to be interpreted narrowly in order to ensure the proper implementation of Congressional intent.3

(c) Activity limitation—(1) Scope of activity. (i) The first limitation established under section 4(f)(3) provides that a nonbank bank shall not “engage in any activity in which such bank was not lawfully engaged as of March 5, 1987.” The term “activity” as used in this provision of CEBA is not defined. The activity restriction within section 4 of the BHC Act and its legislative history do, however, provide direction as to certain transactions that Congress intended to treat as separate activities, thereby providing guidance as to the meaning Congress intended to ascribe.

§ 225.145

12 CFR Ch. II (1–1–09 Edition)

to the term generally. First, it is clear that the term activity was not meant to refer to banking as a single activity. To the contrary, the term must be viewed as distinguishing between deposit taking and lending activities and treating demand deposit-taking as a separate activity from general deposit-taking and commercial lending as separate from the general lending category.

(ii) Under the activity limitation, a nonbank bank may engage only in activities in which it was “lawfully engaged” as of March 5, 1987. As of that date, a nonbank bank could not have been engaged in both demand deposit-taking and commercial lending activity without placing it and its parent holding company in violation of the BHC Act. Thus, under the activity limitations, a nonbank bank could not after March 5, 1987, commence the demand deposit-taking or commercial lending activity that it did not conduct as of March 5, 1987. The debates and Senate and Conference Reports on CEBA confirm that Congress intended the activity limitation to prevent a grandfathered nonbank bank from converting itself into a full-service bank by both offering demand deposits and engaging in the business of making commercial loans. Thus, these types of transactions provide a clear guide as to the type of banking transactions that would constitute activities under CEBA and the degree of specificity intended by Congress in interpreting that term.

(iii) It is also clear that the activity limitation was not intended simply to prevent a nonbank bank from both accepting demand deposits and making commercial loans; it has a broader scope and purpose. If Congress had meant the term to refer to just these two activities, it would have used the restriction it used in another section of CEBA dealing with nonbank banks owned by bank holding companies which has this result, i.e., the nonbank bank could not engage in any activity that would have caused it to become a bank under the prior bank definition in the Act. See 12 U.S.C. 1843(g)(1)(A). Indeed, an earlier version of CEBA under consideration by the Senate Banking Committee contained such a provision for nonbank banks owned by commercial holding companies, which was deleted in favor of the broader activity limitation actually enacted. Committee Print No. 1, (Feb. 17, 1987). In this regard, both the Senate Report and Conference Report refer to demand deposit-taking and commercial lending as examples of activities that could be affected by the activity limitation, not as the sole activities to be limited by the provision.

(iv) Finally, additional guidance as to the meaning of the term activity is provided by the statutory context in which the term appears. The activity limitation is contained in section 4 of the BHC Act, which regulates the investments and activities of bank holding companies and their nonbank subsidiaries. The Board believes it reasonable to conclude that by placing the CEBA activity limitation in section 4 of the BHC Act, Congress meant that Board and judicial decisions regarding the meaning of the term activity in that section be looked to for guidance. This is particularly appropriate given the fact that grandfathered nonbank banks, whether owned by bank holding companies or unregulated holding companies, were treated as nonbank companies and not banks before enactment of CEBA.

(v) This interpretation of the term activity draws support from comments by Senator Proxmire during the Senate’s consideration of the provision that the term was not intended to apply “on a product-by-product, customer-by-customer basis.” 133 Cong. Rec. S4054–5 (daily ed. March 27, 1987). This is the same manner in which the Board has interpreted the term activity in the nonbanking provision of section 4 as referring to generic categories

of activities, not to discrete products and services.

(vi) Accordingly, consistent with the terms and purposes of the legislation and the Congressional intent to minimize unfair competition and the other adverse effects set out in the CEBA findings, the Board concludes that the term activity as used in section 4(f)(3) means any line of banking or nonbanking business. This definition does not, however, envision a product-by-product approach to the activity limitation. The Board believes it would be helpful to describe the application of the activity limitation in the context of the following major categories of activities: deposit-taking, lending, trust, and other activities engaged in by banks.

(2) Deposit-taking activities. (i) With respect to deposit-taking, the Board believes that the activity limitation in section 4(f)(3) generally refers to three types of activity: demand deposit-taking; non-demand deposit-taking with a third party payment capability; and time and savings deposit-taking without third party payment powers. As previously discussed, it is clear from the terms and intent of CEBA that the activity limitation would prevent, and was designed to prevent, nonbank banks that prior to the enactment of CEBA had refrained from accepting demand deposits in order to avoid coverage as a bank under the BHC Act, from starting to take these deposits after enactment of CEBA and thus becoming full-service banks. Accordingly, CEBA requires that the taking of demand deposits be treated as a separate activity.

(ii) The Board also considers non-demand deposits withdrawable by check or other similar means for payment to third parties or others to constitute a separate line of business for purposes of applying the activity limitation. In this regard, the Board has previously recognized that this line of business constitutes a permissible but separate activity under section 4 of the BHC Act. Furthermore, the offering of accounts with transaction capability requires different expertise and systems than non-transaction deposit-taking and represented a distinct new activity that traditionally separated banks from thrift and similar institutions.

(iii) Support for this view may also be found in the House Banking Committee report on proposed legislation prior to CEBA that contained a similar prohibition on new activities for nonbank banks. In discussing the activity limitation, the report recognized a distinction between demand deposits and accounts with transaction capability and those without transaction capability:

With respect to deposits, the Committee recognizes that it is legitimate for an institution currently involved in offering demand deposits or other third party transaction accounts to make use of new technologies that are in the process of replacing the existing check-based, paper payment system. Again, however, the Committee does not believe that technology should be used as a lever for an institution that was only incidentally involved in the payment system to transform itself into a significant offeror of transaction account capability.

(iv) Finally, this distinction between demand and nondemand checkable accounts and accounts not subject to withdrawal by check was specifically recognized by Congress in the redefinition of the term bank in CEBA to include an institution that takes demand deposits or “deposits that the depositor may withdraw by check or other means for payment to third parties or others” as well as in various exemptions from that definition for trust companies, credit card banks, and certain industrial banks.

(v) Thus, an institution that as of March 5, 1987, offered only time and savings accounts that were not withdrawable by check for payment to third parties could not thereafter begin offering accounts with transaction capability, for example, NOW accounts or other types of transaction accounts.

(3) Lending. As noted, the CEBA activity limitation does not treat lending as a single activity; it clearly distinguishes between commercial and other types of lending. This distinction is also reflected in the definition of bank in the BHC Act in effect both prior to

7 See 12 U.S.C. 1841(c)(2) (D), (F), (H), and (I).
and after enactment of CEBA as well as in various of the exceptions from this definition. In addition, commercial lending is a specialized form of lending involving different techniques and analysis from other types of lending. Based upon these factors, the Board would view commercial lending as a separate and distinct activity for purposes of the activity limitation in section 4(f)(3). The Board’s decisions under section 4 of the BHC Act have not generally differentiated between types of commercial lending, and thus the Board would view commercial lending as a single activity for purposes of CEBA. Thus, a nonbank bank that made commercial loans as of March 5, 1987, could make any type of commercial loan thereafter.

(i) Commercial lending. For purposes of the activity limitation, a commercial loan is defined in accordance with the Supreme Court’s decision in Board of Governors v. Dimension Financial Corporation, 474 U.S. 361 (1986), as a direct loan to a business customer for the purpose of providing funds for that customer’s business. In this regard, the Board notes that whether a particular transaction is a commercial loan must be determined not from the face of the instrument, but from the application of the definition of commercial loan in the Dimension decision to that transaction. Thus, certain transactions of the type mentioned in the Board’s ruling at issue in Dimension and in the Senate and Conference Reports in the CEBA legislation would be commercial loans if they meet the test for commercial loans established in Dimension. Under this test, a commercial loan would not include, for example, an open-market investment in a commercial entity that does not involve a borrower-lender relationship or negotiation of credit terms, such as a money market transaction.

(ii) Other lending. Based upon the guidance in the Act as to the degree of specificity required in applying the activity limitation with respect to lending, the Board believes that, in addition to commercial lending, there are three other types of lending activities:

consumer mortgage lending, consumer credit card lending, and other consumer lending. Mortgage lending and credit card lending are recognized, discrete lines of banking and business activity, involving techniques and processes that are different from and more specialized than those required for general consumer lending. For example, these activities are, in many cases, conducted by specialized institutions, such as mortgage companies and credit card institutions, or through separate organizational structures within an institution, particularly in the case of mortgage lending. Additionally, the Board’s decisions under section 4 of the Act have recognized mortgage banking and credit card lending as separate activities for bank holding companies. The Board’s Regulation Y reflects this specialization, noting as examples of permissible lending activity: consumer finance, credit card and mortgage lending, 12 CFR 225.25(b)(1). Finally, CEBA itself recognizes the specialized nature of credit card lending by exempting an institution specializing in that activity from the bank definition. For purpose of the activity limitation, a consumer mortgage loan will mean any loan to an individual that is secured by real estate and that is not a commercial loan. A credit card loan would be any loan made to an individual by means of a credit card that is not a commercial loan.

(4) Trust activities. Under section 4 of the Act, the Board has historically treated trust activities as a single activity and has not differentiated the function on the basis of whether the customer was an individual or a business. See 12 CFR 225.25(b)(3). Similarly, the trust company exemption from the bank definition in CEBA makes no distinction between various types of trust activities. Accordingly, the Board would view trust activities as the separate activity without additional differentiation for purposes of the activity limitation in section 4(f)(3).

(5) Other activities. With respect to activities other than the various traditional deposit-taking, lending or trust activities, the Board believes it appropriate, for the reasons discussed above,
to apply the activity limitation in section 4(f)(3) as the term activity generally applies in other provisions of section 4 of the BHC Act. Thus, a grandfathered nonbank bank could not, for example, commence after March 5, 1987, any of the following activities (unless it was engaged in such an activity as of that date): discount securities brokerage, full-service securities brokerage investment advisory services, underwriting or dealing in government securities as permissible for member banks, foreign exchange transaction services, real or personal property leasing, courier services, data processing for third parties, insurance agency activities, real estate development, real estate brokerage, real estate syndication, insurance underwriting, management consulting, futures commission merchant, or activities of the general type listed in §225.25(b) of Regulation Y.

(6) Meaning of engaged in. In order to be engaged in an activity, a nonbank bank must demonstrate that it had a program in place to provide a particular product or service included within the grandfathered activity to a customer and that it was in fact offering the product or service to customers as of March 5, 1987. Thus, a nonbank bank is not engaged in an activity as of March 5, 1987, if the product or service in question was in a planning state as of that date and had not been offered or delivered to a customer. Consistent with prior Board interpretations of the term activity in the grandfather provisions of section 4, the Board does not believe that a company may be engaged in an activity on the basis of a single isolated transaction that was not part of a program to offer the particular product or to conduct in the activity on an ongoing basis. For example, a nonbank bank that held an interest in a single real estate project would not thereby be engaged in real estate development for purposes of this provision, unless evidence was presented indicating the interest was held under a program to commence a real estate development business.

(7) Meaning of as of The Board believes that the grandfather date “as of March 5, 1987” as used throughout section 4(f)(3) should refer to activities engaged in on March 5, 1987, or a reasonably short period preceding this date not exceeding 13 months. See 12 U.S.C. 1843(c)(8). Activities that the institution had terminated prior to March 5, 1987, however, would not be considered to have been conducted or engaged in as of March 5. For example, if within 13 months of March 5, 1987, the nonbank bank had terminated its commercial lending activity in order to avoid the bank definition in the Act, the nonbank bank could not recommence that activity after enactment of CEBA.

(d) Cross-marketing limitation—(1) In general. Section 4(f)(3) also limits cross-marketing activities by nonbank banks and their affiliates. Under this provision, a nonbank bank may not offer or market a product or service of an affiliate unless the product or service may be offered by bank holding companies generally under section 4(c)(8) of the BHC Act. In addition, a nonbank bank may not permit any of its products or services to be offered or marketed by or through a nonbank affiliate unless the affiliate engages only in activities permissible for a bank holding company under section 4(c)(8). These limitations are subject to an exception for products or services that were being so offered or marketed as of March 5, 1987, but only in the same manner in which they were being offered or marketed as of that date.

(2) Examples of impermissible cross-marketing. The Conference Report illustrates the application of this limitation to the following two covered transactions: (i) products and services of an affiliate that bank holding companies may not offer under the BHC Act, and (ii) products and services of the nonbank bank. In the first case, the restrictions would prohibit, for example, a company from marketing life insurance or automotive supplies through its affiliate nonbank bank because these products are not generally
permmissible under the BHC Act. Conference Report at 126. In the second case, a nonbank bank may not permit its products or services to be offered or marketed through a life insurance affiliate or automobile parts retailer because these affiliates engage in activities prohibited under the BHC Act. Id.

(3) Permissible cross-marketing. On the other hand, a nonbank bank could offer to its customers consumer loans from an affiliated mortgage banking or consumer finance company. These affiliates could, likewise, offer their customers the nonbank bank’s products or services provided the affiliates engaged only in activities permitted for bank holding companies under the closely-related-to-banking standard of section 4(c)(8) of the BHC Act. If the affiliate is engaged in both permissible and impermissible activities within the meaning of section 4(c)(8) of the BHC Act, however, the affiliate could not offer or market the nonbank bank’s products or services.

(4) Product approach to cross-marketing restrictions. (i) Unlike the activity restrictions, the cross-marketing restrictions of CEBA apply by their terms to individual products and services. Thus, an affiliate of a nonbank bank that was engaged in activities that are not permissible for bank holding companies and that was marketing a particular product or service of a nonbank bank on the grandfather date could continue to market that product and, as discussed below, could change the terms and conditions of the loan. The nonbank affiliate could not, however, begin to offer or market another product or service of the nonbank bank.

(ii) The Board believes that the term product or service must be interpreted in light of its accepted ordinary commercial usage. In some instances, commercial usage has identified a group of products so closely related that they constitute a product line (e.g., certificates of deposit) and differences in versions of the product (e.g., a one-year certificate of deposit) simply represent a difference in the terms of the product. 10 This approach is consistent with the treatment in CEBA’s legislative history of certificates of deposit as a product line rather than each particular type of CD as a separate product.11

(iii) In the area of consumer lending, the Board believes the following provide examples of different consumer loan products: mortgage loans to finance the purchase of the borrower’s residence, unsecured consumer loans, consumer installment loans secured by the personal property to be purchased (e.g., automobile, boat or home appliance loans), or second mortgage loans.12 Under this interpretation, a nonbank bank that offered automobile loans through a nonbank affiliate on the grandfather date could market boat loans, appliance loans or any type of secured consumer installment loan through that affiliate. It could not, however, market unsecured consumer loans, home mortgage loans or other types of consumer loans.

(iv) In other areas, the Board believes that the determination as to what constitutes a product or service should be made on a case-by-case basis consistent with the principles that the terms product or service must be interpreted in accordance with their ordinary commercial usage and must be narrower in scope than the definition of activity. Essentially, the concept applied in this analysis is one of permitting the continuation of the specific product marketing activity that was undertaken as

11 During the Senate debates on CEBA, Senator Proxmire in response to a statement from Senator Cranston that the joint-marketing restrictions do not lock into place the specific terms or conditions of the particular grandfathered product or service, stated: “That is correct. For example, if a nonbank bank was jointly marketing on March 5, 1987, a 3 year, $5,000 certificate of deposit, this bill would not prohibit offering in the same manner a 1 year, $2,000 certificate of deposit with a different interest rate. 133 Cong. Rec. S969 (daily ed. March 26, 1987).

12 In this regard, the Supreme Court in United States v. Philadelphia National Bank, noted that “the principal banking products are of course various types of credit, for example: unsecured personal and business loans, mortgage loans, loans secured by securities or accounts receivable, automobile installment and consumer goods, installment loans, tuition financing, bank credit cards, revolving credit funds.” 374 U.S. 321, 326 n.5 (1963).
of March 5, 1987. Thus, for example, while insurance underwriting may constitute a separate activity under CEBA, a nonbank bank could not market a life insurance policy issued by the affiliate if on the grandfather date it had only marketed homeowners’ policies issued by the affiliate.

(5) Change in terms and conditions permitted. (i) The cross-marketing restrictions would not limit the ability of the institution to change the specific terms and conditions of a particular grandfathered product or service. The Conference Report indicates a legislative intent not to lock into place the specific terms or conditions of a grandfathered product or service. Conference Report at 126. For example, a nonbank bank marketing a three-year, $5,000 certificate of deposit through an affiliate under the exemption could offer a one-year $2,000 certificate of deposit with a different interest rate after the grandfather date. See footnote 11 above. Modifications that alter the type of product, however, are not permitted. Thus, a nonbank bank that marketed through affiliates on March 5, 1987, only certificates of deposit could not commence marketing MMDA’s or NOW accounts after the grandfather date.

(ii) General changes in the character of the product or service as the result of market or technological innovation are similarly permitted to the extent that they do not transform a grandfathered product into a new product. Thus, an unsecured line of credit could not be modified to include a lien on the borrower’s residence without becoming a new product.

(6) Meaning of offer or market. In the Board’s opinion, the terms offer or market in the cross-marketing restrictions refer to the presentation to a customer of an institution’s products or service through any type of program, including telemarketing, advertising brochures, direct mailing, personal solicitation, customer referrals, or joint-marketing agreements or presentations. An institution must have offered or actually marketed the product or service on March 5 or shortly before that date (as discussed above) to qualify for the grandfather privilege. Thus, if the cross-marketing program was in the planning stage on March 5, 1987, the program would not qualify for grandfather treatment under CEBA.

(7) Limitations on cross-marketing to in the same manner. (i) The cross-marketing restriction in section 4(f)(3) contains a grandfather provision that permits products or services that would otherwise be prohibited from being offered or marketed under the provision to continue to be offered or marketed by a particular entity if the products or services were being so offered or marketed as of March 5, 1987, but “only in the same manner in which they were being offered or marketed as of that date.” Thus, to qualify for the grandfather provision, the manner of offering or marketing the otherwise prohibited product or service must remain the same as on the grandfather date.

(ii) In interpreting this provision, the Board notes that Congress designed the joint-marketing restrictions to prevent the significant risk to the public posed by the conduct of such activities by insured banks affiliated with companies engaged in general commerce, to ensure objectivity in the credit-granting process and to “minimize the unfair competitive advantage that grandfathered commercial companies owning nonbank banks might otherwise engage over regulated bank holding companies and our competing commercial companies that have no subsidiary bank.” Conference Report at 125–126. The Board believes that determinations regarding the manner of cross-marketing of a particular product or service may best be accomplished by applying the limitation to the particular facts in each case consistent with the stated purpose of this provision of CEBA and the general principle that grandfather restrictions and exceptions to general prohibitions must be narrowly construed in order to prevent the exception from nullifying the rule. Essentially, as in the scope of the term “product or service”, the guiding principle of Congressional intent with respect to this term is to permit only the continuation of the specific types of cross-marketing activity that were undertaken as of March 5, 1987.

(8) Eligibility for cross-marketing grandfather exemption. The Conference Report also clarifies that entitlement to
an exemption to continue to cross-market products and services otherwise prohibited by the statute applies only to the specific company that was engaged in the activity as of March 5, 1987. Conference Report at 126. Thus, an affiliate that was not engaged in cross-marketing products or services as of the grandfather date may not commence these activities under the exemption even if such activities were being conducted by another affiliate. Id.; see also S. Rep. No. 100–19 at 33–34.

(e) Eligibility for grandfathered nonbank bank status. In reviewing the reports required by CEBA, the Board notes that a number of institutions that had not commenced business operations on August 10, 1987, the date of enactment of CEBA, claimed grandfather privileges under section 4(f)(3) of CEBA. To qualify for grandfather privileges under section 4(f)(3), the institution must have “bec[o]me a bank as a result of the enactment of [CEBA]” and must have been controlled by a nonbanking company on March 5, 1987. 12 U.S.C. 1843(f)(1)(A). An institution that did not have FDIC insurance on August 10, 1987, and that did not accept demand deposits or transaction accounts or engage in the business of commercial lending on that date, would not have become a bank as a result of enactment of CEBA. Thus, institutions that had not commenced operations on August 10, 1987, could not qualify for grandfather privileges under section 4(f)(3) of CEBA. This view is supported by the activity limitations of section 4(f)(3), which, as noted, limit the activities of grandfathered nonbank banks to those in which they were lawfully engaged as of March 5, 1987. A nonbank bank that had not commenced conducting business activities on March 5, 1987, could not after enactment of CEBA engage in any activities under this provision.

Subpart J—Merchant Banking Investments

control assets, other than debt or equity securities or other ownership interests in a company, unless:

(1) The assets are held by or promptly transferred to a portfolio company;

(2) The portfolio company maintains policies, books and records, accounts, and other indicia of corporate, partnership or limited liability organization and operation that are separate from the financial holding company and limit the legal liability of the financial holding company for obligations of the portfolio company; and

(3) The portfolio company has management that is separate from the financial holding company to the extent required by §225.171.

What type of affiliate is required for a financial holding company to make merchant banking investments? A financial holding company may not acquire or control merchant banking investments under this subpart unless the financial holding company qualifies under at least one of the following paragraphs:

(1) Securities affiliate. The financial holding company is or has an affiliate that is registered under the Securities Exchange Act of 1934 (15 U.S.C. 78c, 78o, 78o–4) as:

(i) A broker or dealer; or

(ii) A municipal securities dealer, including a separately identifiable department or division of a bank that is registered as a municipal securities dealer.

(2) Insurance affiliate with an investment adviser affiliate. The financial holding company controls:

(i) An insurance company that is predominantly engaged in underwriting life, accident and health, or property and casualty insurance (other than credit-related insurance), or providing and issuing annuities; and

(ii) A company that:

(A) Is registered with the Securities and Exchange Commission as an investment adviser under the Investment Advisers Act of 1940 (15 U.S.C. 80b–1 et seq.); and

(B) Provides investment advice to an insurance company.

What are the limitations on managing or operating a portfolio company held as a merchant banking investment?

(a) May a financial holding company routinely manage or operate a portfolio company? Except as permitted in paragraph (e) of this section, a financial holding company may not routinely manage or operate any portfolio company.

(b) When does a financial holding company routinely manage or operate a company?

(1) Examples of routine management or operation—(i) Executive officer interlocks at the portfolio company. A financial holding company routinely manages or operates a portfolio company if any director, officer or employee of the financial holding company serves as or has the responsibilities of an executive officer of the portfolio company.

(ii) Interlocks by executive officers of the financial holding company. (A) Prohibition. A financial holding company routinely manages or operates a portfolio company if any executive officer of the financial holding company serves as or has the responsibilities of an officer or employee of the portfolio company.

(B) Definition. For purposes of paragraph (b)(1)(ii)(A) of this section, the term “financial holding company” includes the financial holding company and only the following subsidiaries of the financial holding company:

(1) A securities broker or dealer registered under the Securities Exchange Act of 1934;

(2) A depository institution;

(3) An affiliate that engages in merchant banking activities under this subpart or insurance company investment activities under section 4(k)(4)(I) of the Bank Holding Company Act (12 U.S.C. 1843(k)(4)(I));

(4) A small business investment company (as defined in section 302(b) of the Small Business Investment Act of 1958 (15 U.S.C. 682(b)) controlled by the financial holding company or by any depository institution controlled by the financial holding company; and
(5) Any other affiliate that engages in significant equity investment activities that are subject to a capital charge under the capital adequacy rules or guidelines of the Board.

(iii) Covenants regarding ordinary course of business. A financial holding company routinely manages or operates a portfolio company if any covenant or other contractual arrangement exists between the financial holding company and the portfolio company that would restrict the portfolio company’s ability to make routine business decisions, such as entering into transactions in the ordinary course of business or hiring officers or employees other than executive officers.

(2) Presumptions of routine management or operation. A financial holding company is presumed to routinely manage or operate a portfolio company if:

(i) Any director, officer, or employee of the financial holding company serves as or has the responsibilities of an officer (other than an executive officer) or employee of the portfolio company; or

(ii) Any officer or employee of the portfolio company is supervised by any director, officer, or employee of the financial holding company (other than in that individual’s capacity as a director of the portfolio company).

(c) How may a financial holding company rebut a presumption that it is routinely managing or operating a portfolio company? A financial holding company may rebut a presumption that it is routinely managing or operating a portfolio company under paragraph (b)(2) of this section by presenting information to the Board demonstrating to the Board’s satisfaction that the financial holding company is not routinely managing or operating the portfolio company.

(d) What arrangements do not involve routinely managing or operating a portfolio company?—(1) Director representation at portfolio companies. A financial holding company may select any or all of the directors of a portfolio company or have one or more of its directors, officers, or employees serve as directors of a portfolio company if:

(i) The portfolio company employs officers and employees responsible for routinely managing and operating the company; and

(ii) The financial holding company does not routinely manage or operate the portfolio company, except as permitted in paragraph (e) of this section.

(2) Covenants or other provisions regarding extraordinary events. A financial holding company may, by virtue of covenants or other written agreements with a portfolio company, restrict the ability of the portfolio company, or require the portfolio company to consult with or obtain the approval of the financial holding company, to take actions outside of the ordinary course of the business of the portfolio company. Examples of the types of actions that may be subject to these types of covenants or agreements include, but are not limited to, the following:

(i) The acquisition of significant assets or control of another company by the portfolio company or any of its subsidiaries;

(ii) Removal or selection of an independent accountant or auditor or investment banker by the portfolio company;

(iii) Significant changes to the business plan or accounting methods or policies of the portfolio company;

(iv) Removal or replacement of any or all of the executive officers of the portfolio company;

(v) The redemption, authorization or issuance of any equity or debt securities (including options, warrants or convertible shares) of the portfolio company or any borrowing by the portfolio company outside of the ordinary course of business;

(vi) The amendment of the articles of incorporation or by-laws (or similar governing documents) of the portfolio company; and

(vii) The sale, merger, consolidation, spin-off, recapitalization, liquidation, dissolution or sale of substantially all of the assets of the portfolio company or any of its significant subsidiaries.

(3) Providing advisory and underwriting services to, and having consultations with, a portfolio company. A financial holding company may:

(i) Provide financial, investment and management consulting advice to a
portfolio company in a manner consistent with and subject to any restrictions on such activities contained in §§225.28(b)(6) or 225.86(b)(1) of this part (12 CFR 225.28(b)(6) and 225.86(b)(1));

(ii) Provide assistance to a portfolio company in connection with the underwriting or private placement of its securities, including acting as the underwriter or placement agent for such securities; and

(iii) Meet with the officers or employees of a portfolio company to monitor or provide advice with respect to the portfolio company’s performance or activities.

(e) When may a financial holding company routinely manage or operate a portfolio company?—(1) Special circumstances required. A financial holding company may routinely manage or operate a portfolio company only when intervention by the financial holding company is necessary or required to obtain a reasonable return on the financial holding company’s investment in the portfolio company upon resale or other disposition of the investment, such as to avoid or address a significant operating loss or in connection with a loss of senior management at the portfolio company.

(2) Duration Limited. A financial holding company may routinely manage or operate a portfolio company only for the period of time as may be necessary to address the cause of the financial holding company’s involvement, to obtain suitable alternative management arrangements, to dispose of the investment, or to otherwise obtain a reasonable return upon the resale or disposition of the investment.

(3) Notice required for extended involvement. A financial holding company may not routinely manage or operate a portfolio company for a period greater than nine months without prior written notice to the Board.

(4) Documentation required. A financial holding company must maintain and make available to the Board upon request a written record describing its involvement in routinely managing or operating a portfolio company.

(f) May a depository institution or its subsidiary routinely manage or operate a portfolio company?—(1) In general. A depository institution and a subsidiary of a depository institution may not routinely manage or operate a portfolio company in which an affiliated company owns or controls an interest under this subpart.

(2) Definition applying provisions governing routine management or operation. For purposes of this section other than paragraph (e) and for purposes of §225.173(d), a financial holding company includes a depository institution controlled by the financial holding company and a subsidiary of such a depository institution.

(3) Exception for certain subsidiaries of depository institutions. For purposes of paragraph (e) of this section, a financial holding company includes a financial subsidiary held in accordance with section 5136A of the Revised Statutes (12 U.S.C. 24a) or section 46 of the Federal Deposit Insurance Act (12 U.S.C. 1831w), and a subsidiary that is a small business investment company and that is held in accordance with the Small Business Investment Act (15 U.S.C. 661 et seq.), and such a subsidiary may, in accordance with the limitations set forth in this section, routinely manage or operate a portfolio company in which an affiliated company owns or controls an interest under this subpart.

§ 225.172 What are the holding periods permitted for merchant banking investments?

(a) Must investments be made for resale? A financial holding company may own or control shares, assets and ownership interests pursuant to this subpart only for a period of time to enable the sale or disposition thereof on a reasonable basis consistent with the financial viability of the financial holding company’s merchant banking investment activities.

(b) What period of time is generally permitted for holding merchant banking investments?—(1) In general. Except as provided in this section or §225.173, a financial holding company may not, directly or indirectly, own, control or hold any share, asset or ownership interest pursuant to this subpart for a period that exceeds 10 years.

(2) Ownership interests acquired from or transferred to companies held under this subpart. For purposes of paragraph
(b)(1) of this section, shares, assets or ownership interests—
(i) Acquired by a financial holding company from a company in which the financial holding company held an interest under this subpart will be considered to have been acquired by the financial holding company on the date that the share, asset or ownership interest was acquired by the company; and
(ii) Acquired by a company from a financial holding company will be considered to have been acquired by the company on the date that the share, asset or ownership interest was acquired by the financial holding company if—
(A) The financial holding company held the share, asset, or ownership interest under this subpart; and
(B) The financial holding company holds an interest in the acquiring company under this subpart.
(3) Interests previously held by a financial holding company under limited authority. For purposes of paragraph (b)(1) of this section, any shares, assets, or ownership interests previously owned or controlled, directly or indirectly, by a financial holding company under any other provision of the Federal banking laws that imposes a limited holding period will if acquired under this subpart be considered to have been acquired by the financial holding company under this subpart on the date the financial holding company first acquired ownership or control of the shares, assets or ownership interests under such other provision of law. For purposes of this paragraph (b)(3), a financial holding company includes a depository institution controlled by the financial holding company and any subsidiary of such a depository institution.
(4) Approval required to hold interests held in excess of time limit. A financial holding company may seek Board approval to own, control or hold shares, assets or ownership interests of a company under this subpart for a period that exceeds the period specified in paragraph (b)(1) of this section. A request for approval must:
(i) Be submitted to the Board at least 90 days prior to the expiration of the applicable time period;
(ii) Provide the reasons for the request, including information that addresses the factors in paragraph (b)(5) of this section; and
(iii) Explain the financial holding company’s plan for divesting the shares, assets or ownership interests.
(5) Factors governing Board determinations. In reviewing any proposal under paragraph (b)(4) of this section, the Board may consider all the facts and circumstances related to the investment, including:
(i) The cost to the financial holding company of disposing of the investment within the applicable period;
(ii) The total exposure of the financial holding company to the company and the risks that disposing of the investment may pose to the financial holding company;
(iii) Market conditions;
(iv) The nature of the portfolio company’s business;
(v) The extent and history of involvement by the financial holding company in the management and operations of the company; and
(vi) The average holding period of the financial holding company’s merchant banking investments.
(6) Restrictions applicable to investments held beyond time period. A financial holding company that directly or indirectly owns, controls or holds any share, asset or ownership interest of a company under this subpart for a total period that exceeds the period specified in paragraph (b)(1) of this section must—
(i) For purposes of determining the financial holding company’s regulatory capital, apply to the financial holding company’s adjusted carrying value of such shares, assets, or ownership interests a capital charge determined by the Board that must be:
(A) Higher than the maximum marginal Tier 1 capital charge applicable under the Board’s capital adequacy rules or guidelines (see 12 CFR 225 appendix A) to merchant banking investments held by that financial holding company; and
(B) In no event less than 25 percent of the adjusted carrying value of the investment; and
(ii) Abide by any other restrictions that the Board may impose in connection with granting approval under paragraph (b)(4) of this section.

§ 225.173 How are investments in private equity funds treated under this subpart?

(a) What is a private equity fund? For purposes of this subpart, a “private equity fund” is any company that:

(1) Is formed for the purpose of and is engaged exclusively in the business of investing in shares, assets, and ownership interests of financial and non-financial companies for resale or other disposition;

(2) Is not an operating company;

(3) No more than 25 percent of the total equity of which is held, owned or controlled, directly or indirectly, by the financial holding company and its directors, officers, employees and principal shareholders;

(4) Has a maximum term of not more than 15 years; and

(5) Is not formed or operated for the purpose of making investments inconsistent with the authority granted under section 4(k)(4)(H) of the Bank Holding Company Act (12 U.S.C. 1843(k)(4)(H)) or evading the limitations governing merchant banking investments contained in this subpart.

(b) What form may a private equity fund take? A private equity fund may be a corporation, partnership, limited liability company or other type of company that issues ownership interests in any form.

(c) What is the holding period permitted for interests in private equity funds?—(1) In general. A financial holding company may own, control or hold any interest in a private equity fund under this subpart and any interest in a portfolio company that is owned or controlled by a private equity fund in which the financial holding company owns or controls any interest under this subpart for the duration of the fund, up to a maximum of 15 years.

(2) Request to hold interest for longer period. A financial holding company may seek Board approval to own, control or hold an interest in or held through a private equity fund for a period longer than the duration of the fund in accordance with §225.172(b) of this subpart.

(3) Application of rules. The rules described in §225.172(b)(2) and (3) governing holding periods of interests acquired, transferred or previously held by a financial holding company apply to interests in, held through, or acquired from a private equity fund.

(d) How do the restrictions on routine management and operation apply to private equity funds and investments held through a private equity fund?—(1) Portfolio companies held through a private equity fund. A financial holding company may not routinely manage or operate a portfolio company that is owned or controlled by a private equity fund in which the financial holding company owns or controls any interest under this subpart, except as permitted under §225.171(e).

(2) Private equity funds controlled by a financial holding company. A private equity fund that is controlled by a financial holding company may not routinely manage or operate a portfolio company, except as permitted under §225.171(e).

(3) Private equity funds that are not controlled by a financial holding company. A private equity fund may routinely manage or operate a portfolio company so long as no financial holding company controls the private equity fund or as permitted under §225.171(e).

(4) When does a financial holding company control a private equity fund? A financial holding company controls a private equity fund for purposes of this subpart if the financial holding company, including any director, officer, employee or principal shareholder of the financial holding company:

(i) Serves as a general partner, managing member, or trustee of the private equity fund (or serves in a similar role with respect to the private equity fund);

(ii) Owns or controls 25 percent or more of any class of voting shares or similar interests in the private equity fund;

(iii) In any manner selects, controls or constitutes a majority of the directors, trustees or management of the private equity fund; or
§ 225.174 What aggregate thresholds apply to merchant banking investments?

(a) In general. A financial holding company may not, without Board approval, directly or indirectly acquire any additional shares, assets or ownership interests under this subpart or make any additional capital contribution to any company the shares, assets or ownership interests of which are held by the financial holding company under this subpart if the aggregate carrying value of all merchant banking investments held by the financial holding company under this subpart exceeds:

(1) 30 percent of the Tier 1 capital of the financial holding company; or

(2) After excluding interests in private equity funds, 20 percent of the Tier 1 capital of the financial holding company.

(b) How do these thresholds apply to a private equity fund? Paragraph (a) of this section applies to the interest acquired or controlled by the financial holding company under this subpart in a private equity fund. Paragraph (a) of this section does not apply to any interest in a company held by a private equity fund or to any interest held by a person that is not affiliated with the financial holding company.

(c) How long do these thresholds remain in effect? This § 225.174 shall cease to be effective on the date that a final rule issued by the Board that specifically addresses the appropriate regulatory capital treatment of merchant banking investments becomes effective.

§ 225.175 What risk management, record keeping and reporting policies are required to make merchant banking investments?

(a) What internal controls and records are necessary?—

1. General. A financial holding company, including a private equity fund controlled by a financial holding company, that makes investments under this subpart must establish and maintain policies, procedures, records and systems reasonably designed to conduct, monitor and manage such investment activities and the risks associated with such investment activities in a safe and sound manner, including policies, procedures, records and systems reasonably designed to:

(i) Monitor and assess the carrying value, market value and performance of each investment and the aggregate portfolio;

(ii) Identify and manage the market, credit, concentration and other risks associated with such investments;

(iii) Identify, monitor and assess the terms, amounts and risks arising from transactions and relationships (including contingent fees or contingent interests) with each company in which the financial holding company holds an interest under this subpart;

(iv) Ensure the maintenance of corporate separateness between the financial holding company and each company in which the financial holding company holds an interest under this subpart, and

(v) Ensure compliance with this part and any other provisions of law governing transactions and relationships with companies in which the financial holding company holds an interest under this subpart (e.g., fiduciary principles or sections 23A and 23B of the Federal Reserve Act (12 U.S.C. 371c, 371c–1), if applicable).

2. Availability of records. A financial holding company must make the policies, procedures and records required by paragraph (a)(1) of this section available to the Board or the appropriate Reserve Bank upon request.

(b) What periodic reports must be filed? A financial holding company must provide reports to the appropriate Reserve Bank in such format and at such times as the Board may prescribe.

(c) Is notice required for the acquisition of companies?—

1. Fulfillment of statutory notice requirement. Except as required in paragraph (c)(2) of this section, no post-acquisition notice under section 4(k)(6) of the Bank Holding Company Act (12 U.S.C. 1843(k)(6)) is required by a financial holding company in connection with an investment.
made under this subpart if the financial holding company has previously filed a notice under §225.87 indicating that it had commenced merchant banking investment activities under this subpart.

(2) Notice of large individual investments. A financial holding company must provide written notice to the Board on the appropriate form within 30 days after acquiring more than 5 percent of the voting shares, assets or ownership interests of any company under this subpart, including an interest in a private equity fund, at a total cost to the financial holding company that exceeds the lesser of 5 percent of the Tier 1 capital of the financial holding company or $200 million.

§ 225.176 How do the statutory cross marketing and sections 23A and B limitations apply to merchant banking investments?

(a) Are cross marketing activities prohibited?—(1) In general. A depository institution, including a subsidiary of a depository institution, controlled by a financial holding company may not:

(i) Offer or market, directly or through any arrangement, any product or service of any company if more than 5 percent of the company’s voting shares, assets or ownership interests are owned or controlled by the financial holding company pursuant to this subpart; or

(ii) Allow any product or service of the depository institution, including any product or service of a subsidiary of the depository institution, to be offered or marketed, directly or through any arrangement, by or through any company described in paragraph (a)(1)(i) of this section.

(2) How are certain subsidiaries treated? For purposes of paragraph (a)(1) of this section, a subsidiary of a depository institution does not include a financial subsidiary held in accordance with section 313A of the Revised Statutes (12 U.S.C. 24a) or section 46 of the Federal Deposit Insurance Act (12 U.S.C. 1831w), any company held by a company owned in accordance with section 25 or 25A of the Federal Reserve Act (12 U.S.C. 601 et seq.; 12 U.S.C. 611 et seq.), or any company held by a small business investment company owned in accordance with the Small Business Investment Act of 1958 (15 U.S.C. 661 et seq.).

(3) How do the cross marketing restrictions apply to private equity funds? The restriction contained in paragraph (a)(1) of this section does not apply to:

(i) Portfolio companies held by a private equity fund that the financial holding company does not control; or

(ii) The sale, offer or marketing of any interest in a private equity fund, whether or not controlled by the financial holding company.

(b) When are companies held under section 4(k)(4)(H) affiliates under sections 23A and B?—(1) Rebuttable presumption of control. The following rebuttable presumption of control shall apply for purposes of sections 23A and 23B of the Federal Reserve Act (12 U.S.C. 371c, 371c-1): if a financial holding company directly or indirectly owns or controls more than 15 percent of the total equity of a company pursuant to this subpart, the company shall be presumed to be an affiliate of any member bank that is affiliated with the financial holding company.

(2) Request to rebut presumption. A financial holding company may rebut this presumption by providing information acceptable to the Board demonstrating that the financial holding company does not control the company.

(3) Presumptions that control does not exist. Absent evidence to the contrary, the presumption in paragraph (b)(1) of this section will be considered to have been rebutted without Board approval under paragraph (b)(2) of this section if any one of the following requirements are met:

(i) No officer, director or employee of the financial holding company serves as a director, trustee, or general partner (or individual exercising similar functions) of the company;

(ii) A person that is not affiliated or associated with the financial holding company owns or controls a greater percentage of the equity capital of the portfolio company than the amount owned or controlled by the financial holding company, and no more than one officer or employee of the holding company serves as a director or trustee.
(or individual exercising similar functions) of the company; or

(iii) A person that is not affiliated or associated with the financial holding company owns or controls more than 50 percent of the voting shares of the portfolio company, and officers and employees of the holding company do not constitute a majority of the directors or trustees (or individuals exercising similar functions) of the company.

(4) Convertible instruments. For purposes of paragraph (b)(1) of this section, equity capital includes options, warrants and any other instrument convertible into equity capital.

(5) Application of presumption to private equity funds. A financial holding company will not be presumed to own or control the equity capital of a company for purposes of paragraph (b)(1) of this section solely by virtue of an investment made by the financial holding company in a private equity fund that owns or controls the equity capital of the company unless the financial holding company controls the private equity fund as described in §225.173(d)(4).

(6) Application of sections 23A and B to U.S. branches and agencies of foreign banks. Sections 23A and 23B of the Federal Reserve Act (12 U.S.C. 371c, 371c–1) shall apply to all covered transactions between each U.S. branch and agency of a foreign bank that acquires or controls, or that is affiliated with a company that acquires or controls, merchant banking investments and—

(i) Any portfolio company that the foreign bank or affiliated company controls or is presumed to control under paragraph (b)(1) of this section; and

(ii) Any company that the foreign bank or affiliated company controls or is presumed to control under paragraph (b)(1) of this section if the company is engaged in acquiring or controlling merchant banking investments and the proceeds of the covered transaction are used for the purpose of funding the company’s merchant banking investment activities.

§225.177 Definitions.

(a) What do references to a financial holding company include?—(1) Except as otherwise expressly provided, the term “financial holding company” as used in this subpart means the financial holding company and all of its subsidiaries, including a private equity fund or other fund controlled by the financial holding company.

(2) Except as otherwise expressly provided, the term “financial holding company” does not include a depository institution or subsidiary of a depository institution or any portfolio company controlled directly or indirectly by the financial holding company.

(b) What do references to a depository institution include? For purposes of this subpart, the term “depository institution” includes a U.S. branch or agency of a foreign bank.

(c) What is a portfolio company? A portfolio company is any company or entity:

(1) That is engaged in any activity not authorized for the financial holding company under section 4 of the Bank Holding Company Act (12 U.S.C. 1843); and

(2) Any shares, assets or ownership interests of which are held, owned or controlled directly or indirectly by the financial holding company pursuant to this subpart, including through a private equity fund that the financial holding company controls.

(d) Who are the executive officers of a company?—(1) An executive officer of a company is any person who participates or has the authority to participate (other than in the capacity as a director) in major policymaking functions of the company, whether or not the officer has an official title, the title designates the officer as an assistant, or the officer serves without salary or other compensation.

(2) The term “executive officer” does not include—

(i) Any person, including a person with an official title, who may exercise a certain measure of discretion in the performance of his duties, including the discretion to make decisions in the ordinary course of the company’s business, but who does not participate in the determination of major policies of the company and whose decisions are limited by policy standards fixed by senior management of the company; or
Federal Reserve System § 225.200

(i) Any person who is excluded from participating (other than in the capacity of a director) in major policymaking functions of the company by resolution of the board of directors or by the bylaws of the company and who does not in fact participate in such policymaking functions.

CONDITIONS TO ORDERS

§ 225.200 Conditions to Board’s section 20 orders.

(a) Introduction. Under section 20 of the Glass-Steagall Act (12 U.S.C. 377) and section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)), a nonbank subsidiary of a bank holding company may to a limited extent underwrite and deal in securities for which underwriting and dealing by a member bank is prohibited. Pursuant to the Securities Act of 1933 and the Securities Exchange Act of 1934, these so-called section 20 subsidiaries are required to register with the SEC as broker-dealers and are subject to all the financial reporting, anti-fraud and financial responsibility rules applicable to broker-dealers. In addition, transactions between insured depository institutions and their section 20 affiliates are restricted by sections 23A and 23B of the Federal Reserve Act (12 U.S.C. 371c and 371c–1). The Board expects a section 20 subsidiary, like any other subsidiary of a bank holding company, to be operated prudently. Doing so would include observing corporate formalities (such as the maintenance of separate accounting and corporate records), and instituting appropriate risk management, including independent trading and exposure limits consistent with parent company guidelines.

(b) Conditions. As a condition of each order approving establishment of a section 20 subsidiary, a bank holding company shall comply with the following conditions.

(1) Capital. (i) A bank holding company shall maintain adequate capital on a fully consolidated basis. If operating a section 20 authorized to underwrite and deal in all types of debt and equity securities, a bank holding company shall maintain strong capital on a fully consolidated basis.

(ii) In the event that a bank or thrift affiliate of a section 20 subsidiary shall become less than well capitalized (as defined in section 38 of the Federal Deposit Insurance Act, 12 U.S.C. 1831o), and the bank holding company shall fail to restore it promptly to the well capitalized level, the Board may, in its discretion, reimpose the funding, credit extension and credit enhancement firewalls contained in its 1989 order allowing underwriting and dealing in bank-ineligible securities,1 or order the bank holding company to divest the section 20 subsidiary.

(iii) A foreign bank that operates a branch or agency in the United States shall maintain strong capital on a fully consolidated basis at levels above the minimum levels required by the Basle Capital Accord. In the event that the Board determines that the foreign bank’s capital has fallen below these levels and the foreign bank fails to restore its capital position promptly, the Board may, in its discretion, reimpose the funding, credit extension and credit enhancement firewalls contained in its 1990 order allowing foreign banks to underwrite and deal in bank-ineligible securities,2 or order the foreign bank to divest the section 20 subsidiary.

(2) Internal controls. (i) Each bank holding company or foreign bank shall cause its subsidiary banks, thrifts, branches or agencies3 to adopt policies and procedures, including appropriate limits on exposure, to govern their participation in transactions underwritten or arranged by a section 20 affiliate.

(ii) Each bank holding company or foreign bank shall cause its subsidiary banks, thrifts, branches or agencies4 to adopt policies and procedures, including appropriate limits on exposure, to govern their participation in transactions underwritten or arranged by a section 20 affiliate.

3The terms “branch” and “agency” refer to a U.S. branch and agency of a foreign bank.
For purposes of this operating standard, a retail customer is any customer that is not an "accredited investor" as defined in 17 CFR 230.501(a).

(5) Intra-day credit. Any intra-day extension of credit to a section 20 subsidiary by an affiliated bank, thrift, branch or agency shall be on market terms consistent with section 23B of the Federal Reserve Act.

(6) Restriction on funding purchases of securities during underwriting period. No bank, thrift, branch or agency shall knowingly extend credit to a customer secured by, or for the purpose of purchasing, any bank-ineligible security that a section 20 affiliate is underwriting or has underwritten within the past 30 days, unless:

(i) The extension of credit is made pursuant to, and consistent with any conditions imposed in a preexisting line of credit that was not established in contemplation of the underwriting; or

(ii) The extension of credit is made in connection with clearing transactions for the section 20 affiliate.

(7) Reporting requirement. (i) Each bank holding company or foreign bank shall submit quarterly to the appropriate Federal Reserve Bank any FOCUS report filed with the NASD or other self-regulatory organizations, and any information required by the Board to monitor compliance with these operating standards and section 20 of the Glass-Steagall Act, on forms provided by the Board.

(ii) In the event that a section 20 subsidiary is required to furnish notice concerning its capitalization to the Securities and Exchange Commission pursuant to 17 CFR 240.17a–11, a copy of the notice shall be filed concurrently with the appropriate Federal Reserve Bank.

(8) Foreign banks. A foreign bank shall ensure that any extension of credit by its branch or agency to a section 20 affiliate, and any purchase by such branch or agency, as principal or fiduciary, of securities for which a section 20 affiliate is a principal underwriter, conforms to sections 23A and 23B of the Federal Reserve Act, and that its branches and agencies not advertise or suggest that they are responsible for the obligations of a section 20 affiliate, consistent with section 25B(c) of the Federal Reserve Act.

The Board of Governors of the Federal Reserve System has adopted a risk-based capital measure to assist in the assessment of the capital adequacy of bank holding companies (banking organizations). The principal objectives of this measure are to: (i) Make regulatory capital requirements more sensitive to differences in risk profiles among banking organizations; (ii) factor off-balance sheet exposures into the assessment of capital adequacy; (iii) minimize disincentives to holding liquid, low-risk assets; and (iv) achieve greater consistency in the evaluation of the capital adequacy of major banking organizations throughout the world.2

The risk-based capital guidelines include both a definition of capital and a framework for calculating weighted risk assets by assigning assets and off-balance sheet items to broad risk categories. An institution’s risk-based capital ratio is calculated by dividing its qualifying capital (the numerator of the ratio) by its weighted risk assets (the denominator).3 The definition of qualifying capital is outlined below in section II, and the procedures for calculating weighted risk assets are discussed in section III. Appendix I illustrates a sample calculation of weighted risk assets and the risk-based capital ratio.

In addition, when certain organizations that engage in trading activities calculate their risk-based capital ratio under this appendix, they must also refer to appendix E of this part, which incorporates capital charges for certain market risks into the risk-based capital ratio. When calculating their risk-based capital ratio under this appendix, such organizations are required to refer to appendix E of this part for supplemental rules to determine qualifying and excess capital, calculate risk-weighted assets, calculate market risk equivalent assets, and calculate risk-based capital ratios adjusted for market risk.

The risk-based capital guidelines also establish a schedule for achieving a minimum supervisory standard for the ratio of qualifying capital to weighted risk assets and provide for transitional arrangements during a phase-in period to facilitate adoption and implementation of the measure at the end of 1992. These interim standards and transitional arrangements are set forth in section IV.

The risk-based guidelines apply on a consolidated basis to any bank holding company with consolidated assets of $500 million or more. The risk-based guidelines also apply on a consolidated basis to any bank holding company with consolidated assets of less than $500 million if the holding company (i) is engaged in significant nonbanking activities either directly or through a nonbank subsidiary; (ii) conducts significant off-balance sheet activities (including securitization and asset management or administration) either directly or through a nonbank subsidiary; or (iii) has a material amount of debt or equity securities outstanding (other than trust preferred securities) that are registered with the Securities and Exchange Commission (SEC). The Federal Reserve may apply the risk-based guidelines at its discretion to any bank holding company, regardless of asset size, if such action is warranted for supervisory purposes.

The risk-based guidelines are to be used in the inspection and supervisory process as well as in the analysis of applications acted upon by the Federal Reserve. Thus, in considering an application filed by a bank holding company, the Federal Reserve will take into account the organization’s risk-based capital ratio, the reasonableness of its capital plans, and the degree of progress it has demonstrated toward meeting the interim and final risk-based capital standards.

The risk-based capital ratio focuses principally on broad categories of credit risk, although the framework for assigning assets and off-balance sheet items to risk categories does incorporate elements of transfer risk, as well as limited instances of interest rate and market risk. The risk-based ratio does not, however, incorporate other factors

---

1 Supervisory ratios that relate capital to total assets for bank holding companies are outlined in appendices B and D of this part.

2 The risk-based capital measure is based upon a framework developed jointly by supervisory authorities from the countries represented on the Basle Committee on Banking Regulations and Supervisory Practices (Basle Supervisors’ Committee) and endorsed by the Group of Ten Central Bank Governors. The framework is described in a paper prepared by the BSC entitled “International Convergence of Capital Measurement,” July 1988.

3 Banking organizations will initially be expected to utilize period-end amounts in calculating their risk-based capital ratios. When necessary and appropriate, ratios based on average balances may also be calculated on a case-by-case basis. Moreover, to the extent banking organizations have data on average balances that can be used to calculate risk-based ratios, the Federal Reserve will take such data into account.
that can affect an organization’s financial condition. These factors include overall interest rate exposure; liquidity, funding and market risks; the quality and level of earnings; the effectiveness of loan and investment policies; and management’s ability to monitor and control financial and operating risks.

In addition to evaluating capital ratios, an overall assessment of capital adequacy must take account of these other factors, including, in particular, the level and severity of problem and classified assets. For this reason, the final supervisory judgment on an organization’s capital adequacy may differ significantly from conclusions that might be drawn solely from the level of the organization’s risk-based capital ratio.

The risk-based capital guidelines establish minimum ratios of capital to weighted risk assets. In light of the considerations just discussed, banking organizations generally are expected to operate well above the minimum risk-based ratios. In particular, banking organizations contemplating significant expansion proposals are expected to maintain strong capital levels substantially above the minimum ratios and should not allow significant diminution of financial strength below these strong levels to fund their expansion plans. Institutions with high or inordinate levels of risk are also expected to operate above minimum capital standards. In all cases, institutions should hold capital commensurate with the level and nature of the risks to which they are exposed. Banking organizations that do not meet the minimum risk-based standard, or that are otherwise considered to be inadequately capitalized, are expected to develop and implement plans acceptable to the Federal Reserve for achieving adequate levels of capital within a reasonable period of time.

The Board will monitor the implementation and effect of these guidelines in relation to domestic and international developments in the banking industry. When necessary and appropriate, the Board will consider the need to modify the guidelines in light of any significant changes in the economy, financial markets, banking practices, or other relevant factors.

II. DEFINITION OF QUALIFYING CAPITAL FOR THE RISK BASED CAPITAL RATIO

(i) A banking organization’s qualifying total capital consists of two types of capital components: “core capital elements” (tier 1 capital elements) and “supplementary capital elements” (tier 2 capital elements). These capital elements and the various limits, restrictions, and deductions to which they are subject, are discussed below. To qualify as an element of tier 1 or tier 2 capital, an instrument must be fully paid up and effectively unsecured. Accordingly, if a banking organization has purchased, or has directly or indirectly funded the purchase of, its own capital instrument, that instrument generally is disqualified from inclusion in regulatory capital. A qualifying tier 1 or tier 2 capital instrument must be subordinated to all senior indebtedness of the organization. If issued by a bank, it also must be subordinated to claims of depositors. In addition, the instrument must not contain or be covered by any covenants, terms, or restrictions that are inconsistent with safe and sound banking practices.

(ii) On a case-by-case basis, the Federal Reserve may determine whether, and to what extent, any instrument that does not fit wholly within the terms of a capital element set forth below, or that does not have the characteristics or the ability to absorb losses commensurate with the capital treatment specified below, will qualify as an element of tier 1 or tier 2 capital. In making such a determination, the Federal Reserve will consider the similarity of the instrument to instruments explicitly addressed in the guidelines; the ability of the instrument to absorb losses, particularly while the organization operates as a going concern; the maturity and redemption features of the instrument; and other relevant terms and factors.

(iii) The redemption of capital instruments before stated maturity could have a significant impact on an organization’s overall capital structure. Consequently, an organization should consult with the Federal Reserve before redeeming any equity or other capital instrument included in tier 1 or tier 2 capital prior to stated maturity if such redemption could have a material effect on the level or composition of the organization’s capital base. Such consultation generally would not be necessary when the instrument is to be redeemed with the proceeds of, or replaced by, a like amount of a capital instrument that is of equal or higher quality with regard to terms and maturity and the Federal Reserve considers the organization’s capital position to be fully sufficient.

A. The Definition and Components of Qualifying Capital

1. Tier 1 capital. Tier 1 capital generally is defined as the sum of core capital elements less any amounts of goodwill, other intangible assets, interest-only strips receivables, deferred tax assets, nonfinancial equity investments, and other items that are required to be deducted in accordance with section II.B. of this appendix. Tier 1 capital must represent at least 50 percent of qualifying total capital.

a. Core capital elements (tier 1 capital elements). The elements qualifying for inclusion in the tier 1 component of a banking organization’s qualifying total capital are:

i. Qualifying common stockholders’ equity;
Federal Reserve System

ii. Qualifying noncumulative perpetual preferred stock, including related surplus, and senior preferred perpetual stock issued to the United States Department of the Treasury (Treasury) under the Troubled Asset Relief Program (TARP) established by the Emergency Economic Stabilization Act of 2008, Division A of Pub. L. No. 110–343 (which for purposes of this appendix shall be considered qualifying noncumulative perpetual preferred stock), including related surplus;

iii. Minority interest related to qualifying common or noncumulative perpetual preferred stock directly issued by a consolidated U.S. depository institution or foreign bank subsidiary (Class A minority interest); and

iv. Restricted core capital elements. The aggregate of these items is limited within tier 1 capital as set forth in section II.A.1.b. of this appendix. These elements are defined to include:

1. Qualifying cumulative perpetual preferred stock (including related surplus);
2. Minority interest related to qualifying cumulative perpetual preferred stock directly issued by a consolidated U.S. depository institution or foreign bank subsidiary (Class B minority interest);
3. Minority interest related to qualifying common stockholders’ equity or perpetual preferred stock issued by a consolidated subsidiary (Class A minority interest); and
4. Qualifying trust preferred securities.

b. Limits on restricted core capital elements—

i. Limits. (1) The aggregate amount of restricted core capital elements that may be included in the tier 1 capital of a banking organization must not exceed 25 percent of the sum of all core capital elements, including restricted core capital elements, net of goodwill less any associated deferred tax liability. Stated differently, the aggregate amount of restricted core capital elements is limited to one-third of the sum of core capital elements, excluding restricted core capital elements, net of goodwill less any associated deferred tax liability.

(2) In addition, the aggregate amount of restricted core capital elements (other than qualifying mandatory convertible preferred securities) that may be included in the tier 1 capital of an internationally active banking organization must not exceed 15 percent of the sum of all core capital elements, including restricted core capital elements, net of goodwill less any associated deferred tax liability.

(3) Amounts of restricted core capital elements in excess of this limit generally may be included in tier 2 capital. The excess amounts of restricted core capital elements that are in the form of Class C minority interest and qualifying trust preferred securities are subject to further limitation within tier 2 capital in accordance with section II.A.2.d.iv. of this appendix. A banking organization may attribute excess amounts of restricted core capital elements first to any qualifying cumulative perpetual preferred stock or to Class B minority interest, and second to qualifying trust preferred securities or to Class C minority interest, which are subject to a tier 2 sublimit.

ii. Transition.

(1) The quantitative limits for restricted core capital elements set forth in sections II.A.1.b.1. and II.A.2.d.iv. of this appendix become effective on March 31, 2009. Prior to that time, a banking organization with restricted core capital elements in amounts that cause it to exceed these limits must consult with the Federal Reserve on a plan for ensuring that the banking organization is not unduly relying on these elements in its capital base and, where appropriate, for reducing such reliance to ensure that the organization complies with these limits as of March 31, 2009.

(2) Until March 31, 2009, the aggregate amount of qualifying cumulative perpetual preferred stock (including related surplus) and qualifying trust preferred securities that a banking organization may include in tier 1 capital is limited to 25 percent of the sum of the following core capital elements: qualifying common stockholders’ equity, qualifying noncumulative and cumulative perpetual preferred stock (including related surplus), qualifying minority interest in the equity accounts of consolidated subsidiaries, and qualifying trust preferred securities. Amounts of qualifying cumulative perpetual

mandatorily convertible preferred securities and include them in tier 1 capital must consult with the Federal Reserve prior to issuance to ensure that the securities’ terms are consistent with tier 1 capital treatment.

*For this purpose, an internationally active banking organization is a banking organization that (1) as of its most recent year-end FR Y–9C reports total consolidated assets equal to $250 billion or more or (2) on a consolidated basis, reports total on-balance-sheet foreign exposure of $10 billion or more on its filings of the most recent year-end FFIEC 009 Country Exposure Report.
preferred stock (including related surplus) and qualifying trust preferred securities in excess of this limit may be included in tier 2 capital.

(3) Until March 31, 2009, internationally active banking organizations generally are expected to limit the amount of qualifying cumulative perpetual preferred stock (including related surplus) and qualifying trust preferred securities included in tier 1 capital to 15 percent of the sum of core capital elements set forth in section II.A.1.b.ii.2. of this appendix.

c. Definitions and requirements for core capital elements—1. Qualifying common stockholders’ equity.

(1) Definition. Qualifying common stockholders’ equity is limited to common stock; related surplus; and retained earnings, including capital reserves and adjustments for the cumulative effect of foreign currency translation, net of any treasury stock, less net unrealized holding losses on available-for-sale equity securities with readily determinable fair values. For this purpose, net unrealized holding gains on such equity securities and net unrealized holding gains (losses) on available-for-sale debt securities are not included in qualifying common stockholders’ equity.

(2) Restrictions on terms and features. A capital instrument that has a stated maturity date or that has a preference with regard to liquidation or the payment of dividends is not deemed to be a component of qualifying common stockholders’ equity, regardless of whether or not it is called common equity. Terms or features that grant other preferences also may call into question whether the capital instrument would be deemed to be qualifying common stockholders’ equity. Features that require, or provide significant incentives for, the issuer to redeem the instrument when an organization is in a weakened condition, must not be subject to arrangements that would diminish the ability of the holder to convert the preferred stock into common stock at the market price prevailing at the time of conversion—generally does not qualify for inclusion in tier 1 capital.

(3) Reliance on voting common stockholders’ equity. Although section II.A.1. of this appendix allows for the inclusion of elements other than common stockholders’ equity within tier 1 capital, voting common stockholders’ equity, which is the most desirable capital element from a supervisory standpoint, generally should be the dominant element within tier 1 capital. Thus, banking organizations should avoid over-reliance on preferred stock and nonvoting elements within tier 1 capital. Such nonvoting elements can include portions of common stockholders’ equity where, for example, a banking organization has a class of nonvoting common equity, or a class of voting common equity that has substantially fewer voting rights per share than another class of voting common equity. Where a banking organization relies excessively on nonvoting elements within tier 1 capital, the Federal Reserve generally will require the banking organization to allocate a portion of the nonvoting elements to tier 2 capital.

ii. Qualifying perpetual preferred stock.

(1) Qualifying requirements. Perpetual preferred stock qualifying for inclusion in tier 1 capital has a maturity date and cannot be redeemed at the option of the holder. Perpetual preferred stock will qualify for inclusion in tier 1 capital only if it can absorb losses while the issuer operates as a going concern.

(2) Restrictions on terms and features. Perpetual preferred stock included in tier 1 capital may not have any provisions restricting the banking organization’s ability or legal right to defer or waive dividends, other than provisions requiring prior or concurrent deferral or waiver of payment of dividends on more junior instruments, which the Federal Reserve generally expects in such instruments consistent with the notion that the most junior capital elements should absorb losses first. Dividend deferrals or waivers for preferred stock, which the Federal Reserve expects will occur either voluntarily or at its discretion when an organization is in a weakened condition, must not be subject to arrangements that would diminish the ability of the deferral to shore up the banking organization’s resources. Any perpetual preferred stock with a feature permitting redemption at the option of the issuer may qualify as tier 1 capital only if the redemption is subject to prior approval of the Federal Reserve. Features that require, or create significant incentives for, the issuer to redeem the instrument for cash or cash equivalents will render the instrument ineligible for inclusion in tier 1 capital. For example, perpetual preferred stock that has a credit-sensitive dividend feature—that is, a dividend rate that is reset periodically based, in whole or in part, on the banking organization’s current credit standing—generally does not qualify for inclusion in tier 1 capital. Similarly, perpetual preferred stock that has a dividend rate step-up or a market value conversion feature—that is, a feature whereby the holder must or can convert the preferred stock into common stock at the market price prevailing at the time of conversion—generally does not qualify for inclusion in tier 1 capital.

7Traditional floating-rate or adjustable-rate perpetual preferred stock (that is, perpetual preferred stock in which the dividend rate is not affected by the issuer’s credit standing or financial condition here is adjusted periodically in relation to an independent index based solely on general market interest rates), however, generally qualifies for inclusion in tier 1 capital provided all other requirements are met.
Federal Reserve System

Pt. 225, App. A

tier 1 capital.\(^8\) Perpetual preferred stock that does not qualify for inclusion in tier 1 capital generally will qualify for inclusion in tier 2 capital.

(3) Noncumulative and cumulative features. Perpetual preferred stock that is noncumulative generally may not permit the accumulation or payment of unpaid dividends in any form, including in the form of common stock. Perpetual preferred stock that provides for the accumulation or future payment of unpaid dividends is deemed to be cumulative, regardless of whether or not it is called noncumulative.

iii. Qualifying minority interest. Minority interest in the common and preferred stockholders' equity accounts of a consolidated subsidiary (minority interest) represents stockholders' equity associated with common or preferred equity instruments issued by a banking organization's consolidated subsidiary that are held by investors other than the banking organization. Minority interest is included in tier 1 capital because, as a general rule, it represents equity that is freely available to absorb losses in the issuing subsidiary. Nonetheless, minority interest typically is not available to absorb losses in the banking organization as a whole, a feature that is a particular concern when the minority interest is issued by a subsidiary that is neither a U.S. depository institution nor a foreign bank. For this reason, this appendix distinguishes among three types of qualifying minority interest. Class A minority interest is minority interest related to qualifying common and noncumulative perpetual preferred equity instruments issued directly (that is, not through a subsidiary) by a consolidated U.S. depository institution; Class B minority interest is minority interest related to qualifying common or perpetual preferred stock issued by a banking organization's consolidated subsidiary that is neither a U.S. depository institution nor a foreign bank. Class C minority interest is eligible for inclusion in tier 1 capital as a restricted core capital element and is subject to the limitations set forth in sections II.A.1.b.i. and II.A.2.d.iv. of this appendix. Minority interest in small business investment companies, investment funds that hold nonfinancial equity investments (as defined in section II.B.5.b. of this appendix), and subsidiaries engaged in nonfinancial activities are not included in the banking organization's tier 1 or total capital if the banking organization's interest in the company or fund is held under one of the legal authorities listed in section II.A.1.b.i. of this appendix, but is included in the banking organization's tier 1 or total capital if the organization excludes the consolidated assets of such programs from risk-weighted assets pursuant to section III.B.6. of this appendix.

iv. Qualifying trust preferred securities. (1) A banking organization that wishes to issue trust preferred securities and include them in tier 1 capital must first consult with the Federal Reserve. Trust preferred securities are defined as undated preferred securities issued by a trust or similar entity sponsored (but generally not consolidated) by a banking organization that is the sole common equity holder of the trust. Qualifying trust preferred securities must allow for dividends to be deferred for at least twenty consecutive quarters without an event of default, unless an event of default leading to

---

\(^8\)Notwithstanding this provision, senior perpetual preferred stock issued to the Treasury under the TARP established by the Emergency Economic Stabilization Act of 2008, Division A of Pub. L. No. 110-343, may be included in tier 1 capital. In addition, traditional convertible perpetual preferred stock, which the holder must or can convert at a fixed number of common shares at a pre-set price, generally qualifies for inclusion in tier 1 capital provided all other requirements are met.

\(^9\)U.S. depository institutions are defined to include branches (foreign and domestic) of federally insured banks and depository institutions chartered and headquartered in the 50 states of the United States, the District of Columbia, Puerto Rico, and U.S. territories and possessions. The definition encompasses banks, mutual or stock savings banks, savings or building and loan associations, cooperative banks, credit unions, and international banking facilities of domestic banks.

\(^10\)For this purpose, a foreign bank is defined as an institution that engages in the business of banking; is recognized as a bank by the bank supervisory or monetary authorities of the country of its organization or principal banking operations; receives deposits to a substantial extent in the regular course of business; and has the power to accept demand deposits.
acceleration permitted under section II.A.1.c.iv.(2) has occurred. The required notification period for such deferral must be reasonably short, no more than 15 business days prior to the payment date. Qualifying trust preferred securities are otherwise subject to the same restrictions on terms and features as qualifying perpetual preferred stock under section II.A.1.c.ii.(2) of this appendix.

(2) The sole asset of the trust must be a junior subordinated note issued by the sponsoring banking organization that has a minimum maturity of thirty years, is subordinated with regard to both liquidation and priority of periodic payments to all senior and subordinated debt of the sponsoring banking organization (other than other junior subordinated notes underlying trust preferred securities). Otherwise the terms of a junior subordinated note must mirror those of the preferred securities issued by the trust.11 The note must comply with section II.A.2.d. of this appendix and the Federal Reserve’s subordinated debt policy statement set forth in 12 CFR 250.166.12 Except that the note may provide for an event of default and the acceleration of principal and accrued interest upon (a) nonpayment of interest for 20 or more consecutive quarters or (b) termination of the trust without redemption of the trust preferred securities, distribution of the notes to investors, or assumption of the obligation by a successor to the banking organization.

(3) In the last five years before the maturity of the note, the outstanding amount of the associated trust preferred securities is excluded from tier 1 capital and included in tier 2 capital, where the trust preferred securities are subject to the amortization provisions and quantitative restrictions set forth in sections II.A.2.d.iii. and iv. of this appendix as if the trust preferred securities were limited-life preferred stock.

2. Supplementary capital elements (tier 2 capital elements). The tier 2 component of an institution’s qualifying capital may consist of the following items that are defined as supplementary capital elements:

(i) Allowance for loan and lease losses (subject to limitations discussed below);

(ii) Perpetual preferred stock and related surplus (subject to conditions discussed below);

(iii) Hybrid capital instruments (as defined below), perpetual debt, and mandatory convertible debt securities;

(iv) Term subordinated debt and intermediate-term preferred stock, including related surplus (subject to limitations discussed below);

(v) Unrealized holding gains on equity securities (subject to limitations discussed in section II.A.2.e. of this appendix).

The maximum amount of tier 2 capital that may be included in an institution’s qualifying total capital is limited to 100 percent of tier 1 capital (net of goodwill, other intangible assets, interest-only strips receivables and nonfinancial equity investments that are required to be deducted in accordance with section II.B. of this appendix).

The elements of supplementary capital are discussed in greater detail below.

a. Allowance for loan and lease losses. Allowances for loan and lease losses are reserves that have been established through a charge against earnings to absorb future losses on
Federal Reserve System

loans or lease financing receivables. Allowances for loan and lease losses exclude “allocated transfer risk reserves,” and reserves created against identified losses.

During the transition period, the riskbased capital guidelines provide for reducing the amount of this allowance that may be included in an institution’s total capital. Initially, it is unlimited. However, by year-end 1990, the amount of the allowance for loan and lease losses that will qualify as capital will be limited to 1.5 percent of an institution’s weighted average assets. By the end of the transition period, the amount of the allowance qualifying for inclusion in Tier 2 capital may not exceed 1.25 percent of weighted risk assets.

b. Perpetual preferred stock. Perpetual preferred stock (and related surplus) that meets the requirements set forth in section II.A.1.c.ii.(1) of this appendix is eligible for inclusion in tier 2 capital without limit.

c. Hybrid capital instruments, perpetual debt, and mandatory convertible debt securities. Hybrid capital instruments include instruments that are essentially permanent in nature and that have certain characteristics of both equity and debt. Such instruments may be included in Tier 2 without limit. The general criteria hybrid capital instruments must meet in order to qualify for inclusion in Tier 2 capital are listed below:

1. The instrument must be unsecured; fully paid-up and subordinated to general creditors. If issued by a bank, it must also be subordinated to claims or depositors.

2. The instrument must not be redeemable at the option of the holder prior to maturity, except with the prior approval of the Federal Reserve. (Consistent with the Board’s criteria for perpetual debt and mandatory convertible securities, this requirement implies that holders of such instruments may not accelerate the payment of principal except in the event of bankruptcy, insolvency, or reorganization.)

3. The instrument must be available to participate in losses while the issuer is operating as a going concern. (Term subordinated debt would not meet this requirement.) To satisfy this requirement, the instrument must convert to common or perpetual preferred stock in the event that the accumulated losses exceed the sum of the retained earnings and capital surplus accounts of the issuer.

4. The instrument must provide the option for the issuer to defer interest payments if: a) the issuer does not report a profit in the preceding annual period (defined as combined profits for the most recent four quarters), and b) the issuer eliminates cash dividends on common and preferred stock.

Perpetual debt and mandatory convertible debt securities that meet the criteria set forth in 12 CFR part 225, appendix B, also qualify as unlimited elements of Tier 2 capital for bank holding companies.

d. Subordinated debt and intermediate-term preferred stock—i. Five-year minimum maturity. Subordinated debt and intermediate-term preferred stock must have an original weighted average maturity of at least five years to qualify as tier 2 capital. If the holder has the option to require the issuer to redeem, repay, or repurchase the instrument prior to the original stated maturity, maturity would be defined for risk-based capital purposes as the earliest possible date on which the holder can put the instrument back to the issuing banking organization.

ii. Other restrictions on subordinated debt. Subordinated debt included in tier 2 capital must comply with the Federal Reserve’s subordinated debt policy statement set forth in 12 CFR 250.166. Accordingly, such subordinated debt must meet the following requirements:

1. The subordinated debt policy statement set forth in 12 CFR 250.166 notes that certain

Continued
The subordinate debt must be unsecured.

The subordinate debt must clearly state on its face that it is not a deposit and is not insured by a Federal agency.

The subordinate debt must not have credit-sensitive features or other provisions that are inconsistent with safe and sound banking practice.

Subordinated debt issued by a subsidiary U.S. depository institution or foreign bank of a bank holding company must be subordinated in right of payment to the claims of all the institution’s general creditors and depositors, and generally must not contain provisions permitting debt holders to accelerate payment of principal or interest upon the occurrence of any event other than receivership of the institution. Subordinated debt issued by a bank holding company or its subsidiaries that are neither U.S. depository institutions nor foreign banks must be subordinated to all senior indebtedness of the issuer; that is, the debt must be subordinated at a minimum to all borrowed money, similar obligations arising from off-balance sheet guarantees and direct credit substitutes, and obligations associated with derivative products such as interest rate and foreign exchange contracts, commodity contracts, and similar arrangements. Subordinated debt issued by a bank holding company or any of its subsidiaries that is not a U.S. depository institution or foreign bank must not contain provisions permitting debt holders to accelerate the payment of principal or interest upon the occurrence of any event other than the bankruptcy of the bank holding company or the receivership of a major subsidiary depository institution. Thus, a provision permitting acceleration in the event that any other affiliate of the bank holding company issuer enters into bankruptcy or receivership makes the instrument ineligible for inclusion in tier 2 capital.

Discounting in last five years. As a limited-life capital instrument approaches maturity, it begins to take on characteristics of terms found in subordinated debt may provide protection to investors without adversely affecting the overall benefits of the instrument to the issuing banking organization and, thus, would be acceptable for subordinated debt included in capital. For example, a provision that prohibits a bank holding company from merging, consolidating, or selling substantially all of its assets unless the new entity redeems or assumes the subordinated debt or that designates the failure to pay principal and interest on a timely basis as an event of default would be acceptable, so long as the occurrence of such events does not allow the debt holders to accelerate the payment of principal or interest on the debt.

a short-term obligation. For this reason, the outstanding amount of term subordinated debt and limited-life preferred stock eligible for inclusion in tier 2 capital is reduced, or discounted, as those instruments mature: one-fifth of the outstanding amount is excluded each year during the instrument’s last five years before maturity. When remaining maturity is less than one year, the instrument is excluded from tier 2 capital.

The aggregate amount of term subordinated debt (excluding mandatory convertible debt) and limited-life preferred stock as well as, beginning March 31, 2009, qualifying trust preferred securities and Class C minority interest in excess of the limits set forth in section II.A.1.b.1. of this appendix that may be included in tier 2 capital is limited to 50 percent of tier 1 capital (net of goodwill and other intangible assets required to be deducted in accordance with section II.B.1.b. of this appendix). Amounts of these instruments in excess of this limit, although not included in tier 2 capital, will be taken into account by the Federal Reserve in its overall assessment of a banking organization’s funding and financial condition.

e. Unrealized gains on equity securities and unrealized gains (losses) on other assets. Up to 45 percent of pretax net unrealized holding gains (that is, the excess, if any, of the fair value over historical cost) on available-for-sale equity securities with readily determinable fair values may be included in supplementary capital. However, the Federal Reserve may exclude all or a portion of these unrealized gains from Tier 2 capital if the Federal Reserve determines that the equity securities are not prudently valued. Unrealized gains (losses) on other types of assets, such as bank premises and available-for-sale debt securities, are not included in supplementary capital, but the Federal Reserve may take these unrealized gains (losses) into account as additional factors when assessing an institution’s overall capital adequacy.

f. Revaluation reserves. 1. Such reserves reflect the formal balance sheet restatement or revaluation for capital purposes of asset carrying values to reflect current market values. The Federal Reserve generally has not included unrealized asset appreciation in capital ratio calculations, although it has long taken such values into account as a separate factor in assessing the overall financial strength of a banking organization.

ii. Consistent with long-standing supervisory practice, the excess of market values over book values for assets held by bank holding companies will generally not be recognized in supplementary capital or in the calculation of the risk-based capital ratio. However, all bank holding companies are encouraged to disclose their equivalent of premises (building) and security revaluation.
reserves. The Federal Reserve will consider any appreciation, as well as any depreciation, in specific asset values as additional considerations in assessing overall capital strength and financial condition.

B. Deductions from Capital and Other Adjustments

Certain assets are deducted from an organization’s capital for the purpose of calculating the risk-based capital ratio. These assets include:

(i) (a) Goodwill—deducted from the sum of core capital elements.

(ii) Certain identifiable intangible assets, that is, intangible assets other than goodwill—deducted from the sum of core capital elements in accordance with section II.B.1.b. of this appendix.

(iii) Reciprocal holdings of capital instruments of banking organizations—deducted from total capital components.

(iv) Deferred tax assets—portions are deducted from the sum of core capital elements in accordance with section II.B.1.c. through e. of this appendix.

(v) Investments in banking and finance subsidiaries that are not consolidated for accounting or supervisory purposes, and investments in other designated subsidiaries or associated companies at the discretion of the Board may be used in the calculation of a bank holding company’s capital ratios for supervisory and applications purposes. However, in making an overall assessment of a bank holding company’s capital adequacy for applications purposes, the Board may, if it deems appropriate, take into account the quality and composition of an organization’s capital, together with the quality and value of its tangible and intangible assets.

(c) Certain credit-enhancing interest-only strips receivables—deducted from the sum of core capital elements in accordance with sections II.B.1.d. and e. of this appendix.

(ii) The treatment of identifiable intangible assets set forth in this section generally will be used in the calculation of a bank holding company’s capital ratios for supervisory and applications purposes. However, in making an overall assessment of a bank holding company’s capital adequacy for applications purposes, the Board may, if it deems appropriate, take into account the quality and composition of an organization’s capital, together with the quality and value of its tangible and intangible assets.

(d) Credit-enhancing interest-only strips receivables (I/Os) i. Credit-enhancing I/Os are on-balance sheet assets that, in form or in substance, represent a contractual right to receive some or all of the interest due on transferred assets and expose the bank holding company to credit risk directly or indirectly associated with transferred assets that exceed a pro rata share of the bank holding company’s claim on the assets, whether through subordination provisions or other credit enhancement techniques. Such I/Os, whether purchased or retained, including other similar “spread” assets, may be included in, that is, not deducted from, a bank holding company’s capital subject to the limitations described below in sections II.B.1.d. and e. of this appendix.

(ii) Both purchased and retained credit-enhancing I/Os, on a non-tax adjusted basis, are included in the total amount that is used for purposes of determining whether a bank holding company exceeds the tier 1 limitation described below in this section. In determining whether an I/O or other types of spread assets serve as a credit enhancement, the Federal Reserve will look to the economic substance of the transaction.

(d) Fair value limitation. The amount of mortgage servicing assets, nonmortgage servicing assets, and purchased credit card relationships that a bank holding company may include in capital shall be the lesser of 90 percent of their fair value, as determined in accordance with section II.B.1.f. of this appendix, or 100 percent of their book value,
as adjusted for capital purposes in accordance with the instructions to the Consolidated Financial Statements for Bank Holding Companies (FR Y–9C Report). The amount of credit-enhancing I/Os that a bank holding company may include in capital shall be its fair value. If both the application of the limits on mortgage servicing assets, nonmortgage servicing assets, and purchased credit card relationships and the adjustment of the balance sheet amount for these assets would result in an amount being deducted from capital, the bank holding company would deduct only the greater of the two amounts from its core capital elements in determining tier 1 capital.

ii. For purposes of calculating these limitations on mortgage servicing assets, nonmortgage servicing assets, purchased credit card relationships, and credit-enhancing I/Os, tier 1 capital is defined as the sum of core capital elements, net of goodwill, and net of all identifiable intangible assets other than mortgage servicing assets, nonmortgage servicing assets, and purchased credit card relationships, but prior to the deduction of any disallowed mortgage servicing assets, any disallowed nonmortgage servicing assets, any disallowed purchased credit card relationships, any disallowed credit-enhancing I/Os (both purchased and retained), any disallowed deferred tax assets, and any nonfinancial equity investments.

iii. Bank holding companies may elect to deduct disallowed mortgage servicing assets, disallowed nonmortgage servicing assets, and disallowed credit-enhancing I/Os (both purchased and retained) on a basis that is net of any associated deferred tax liability. Deferred tax liabilities netted in this manner cannot also be netted against deferred-tax assets when determining the amount of deferred-tax assets that are dependent upon future taxable income.

f. Valuation. Bank holding companies must review the book value of all intangible assets at least quarterly and make adjustments to these values as necessary. The fair value of mortgage servicing assets, purchased credit card relationships, and credit-enhancing I/Os also must be determined at least quarterly. This determination shall include adjustments for any significant changes in original valuation assumptions, including changes in prepayment estimates or account attrition rates.

Examiners will review both the book value and the fair value assigned to these assets, together with supporting documentation, during the inspection process. In addition, the Federal Reserve may require, on a case-by-case basis, an independent valuation of a bank holding company’s intangible assets or credit-enhancing I/Os.

g. Growing organizations. Consistent with long-standing Board policy, banking organizations experiencing substantial growth, whether internally or by acquisition, are expected to maintain strong capital positions substantially above minimum supervisory levels, without significant reliance on intangible assets or credit-enhancing I/Os.

2. Investments in certain subsidiaries—unconsolidated banking or finance subsidiaries. The aggregate amount of investments in banking or finance subsidiaries whose financial statements are not consolidated for accounting or regulatory reporting purposes, regardless of whether the investment is made by the parent bank holding company or its direct or indirect subsidiaries, will be deducted from the consolidated parent banking organization’s total capital components. Generally, investments for this purpose are defined as equity and debt capital.
investments and any other instruments that are deemed to be capital in the particular subsidiary.

Advances (that is, loans, extensions of credit, guarantees, commitments, or any other forms of credit exposure) to the subsidiary that are not deemed to be capital will generally not be deducted from an organization’s capital. Rather, such advances generally will be included in the parent banking organization’s consolidated assets and be assigned to the 100 percent risk category, unless such obligations are backed by recognized collateral or guarantees, in which case they will be assigned to the risk category appropriate to such collateral or guarantees. These advances may, however, also be deducted from the consolidated parent banking organization’s capital if, in the judgment of the Federal Reserve, the risks stemming from such advances are comparable to the risks associated with capital investments or if the advances involve other risk factors that warrant such an adjustment to capital for supervisory purposes. These other factors could include, for example, the absence of collateral support.

Inasmuch as the assets of unconsolidated banking and finance subsidiaries are not fully reflected in a banking organization’s consolidated total assets, such assets may be viewed as the equivalent of off-balance sheet exposures since the operations of an unconsolidated subsidiary could expose the parent organization and its affiliates to considerable risk. For this reason, it is generally appropriate to view the capital resources invested in these unconsolidated entities as primarily supporting the risks inherent in these off-balance sheet assets, and not generally available to support risks or absorb losses elsewhere in the organization.

b. Other subsidiaries and investments. The deduction of investments, regardless of whether they are made by the parent bank holding company or by its direct or indirect subsidiaries, from a consolidated banking organization’s capital will also be applied in the case of any subsidiaries, that, while consolidated for accounting purposes, are not consolidated for certain specified supervisory or regulatory purposes, such as to facilitate functional regulation. For this purpose, aggregate capital investments (that is, the sum of any equity or debt instruments that are deemed to be capital) in these subsidiaries will be deducted from the consolidated parent banking organization’s total capital components.22

22 In assessing the overall capital adequacy of a banking organization, the Federal Reserve may also consider the organization’s fully consolidated capital position.23

Advances (that is, loans, extensions of credit, guarantees, commitments, or any other forms of credit exposure) to such subsidiaries that are not deemed to be capital will generally not be deducted from capital. Rather, such advances will normally be included in the parent banking organization’s consolidated assets and assigned to the 100 percent risk category, unless such obligations are backed by recognized collateral or guarantees, in which case they will be assigned to the risk category appropriate to such collateral or guarantees. These advances may, however, be deducted from the consolidated parent banking organization’s capital if, in the judgment of the Federal Reserve, the risks stemming from such advances are comparable to the risks associated with capital investments or if such advances involve other risk factors that warrant such an adjustment to capital for supervisory purposes. These other factors could include, for example, the absence of collateral support.22

In general, when investments in a consolidated subsidiary are deducted from a consolidated parent banking organization’s capital, the subsidiary’s assets will also be excluded from the consolidated assets of the parent banking organization in order to assess the latter’s capital adequacy.23

The Federal Reserve may also deduct from a banking organization’s capital, on a case-by-case basis, investments in certain other requirements for consolidation are spelled out in the instructions to the FR Y–9C Report.

21 Investments in unconsolidated subsidiaries will be deducted from both Tier 1 and Tier 2 capital. As a general rule, one-half (50 percent) of the aggregate amount of capital investments will be deducted from the bank holding company’s Tier 1 capital and one-half (50 percent) from its Tier 2 capital. However, the Federal Reserve may, on a case-by-case basis, deduct a proportionately greater amount from Tier 1 if the risks associated with the subsidiary so warrant. If the amount deductible from Tier 2 capital exceeds actual Tier 2 capital, the excess would be deducted from Tier 1 capital. Bank holding companies’ risk-based capital ratios, net of these deductions, must exceed the minimum standards set forth in section IV.

23 If the subsidiary’s assets are consolidated with the parent banking organization for financial reporting purposes, this adjustment will involve excluding the subsidiary’s assets on a line-by-line basis from the consolidated parent organization’s assets. The parent banking organization’s capital ratio will then be calculated on a consolidated basis with the exception that the assets of the excluded subsidiary will not be consolidated with the remainder of the parent banking organization.
subsidiaries in order to determine if the consolidated banking organization meets minimum supervisory capital requirements without reliance on the resources invested in such subsidiaries.

The Federal Reserve will not automatically deduct investments in other unconsolidated subsidiaries or investments in joint ventures and associated companies. Nonetheless, the resources invested in these entities, like investments in unconsolidated banking and finance subsidiaries, support assets not consolidated with the rest of the banking organization’s activities and, therefore, may not be generally available to support additional leverage or absorb losses elsewhere in the banking organization. Moreover, experience has shown that banking organizations stand behind the losses of affiliated institutions, such as joint ventures and associated companies, in order to protect the reputation of the organization as a whole. In some cases, this has led to losses that have exceeded the investments in such organizations.

For this reason, the Federal Reserve will monitor the level and nature of such investments for individual banking organizations and may, on a case-by-case basis, deduct such investments from total capital components, apply an appropriate risk-weighted capital charge against the organization’s proportionate share of the assets of its associated companies, require a line-by-line consolidation of the entity (in the event that the parent’s control over the entity makes it the functional equivalent of a subsidiary), or otherwise require the organization to operate with a risk-based capital ratio above the minimum.

In considering the appropriateness of such adjustments or actions, the Federal Reserve will generally take into account whether:

1. The parent banking organization has significant influence over the financial or managerial policies or operations of the subsidiary, joint venture, or associated company;
2. The banking organization is the largest investor in the affiliated company; or
3. Other circumstances prevail that appear to closely tie the activities of the affiliated company to the parent banking organization.

3. Reciprocal holdings of banking organizations’ capital instruments. Reciprocal holdings of banking organizations’ capital instru-

22The definition of such entities is contained in the instructions to the Consolidated Financial Statements for Bank Holding Companies. Under regulatory reporting procedures, associated companies and joint ventures generally are defined as companies in which the banking organization owns 20 to 50 percent of the voting stock.

23Deductions of holdings of capital securities also would not be made in the case of interstate “stake out” investments that comply with the Board’s Policy Statement on Nonvoting Equity Investments, 12 CFR 225.143 (Federal Reserve Regulatory Service 4-172.1; 68 Federal Reserve Bulletin 413 (1982)). In addition, holdings of capital instruments issued by other banking organizations but taken in satisfaction of debts previously contracted would be exempt from any deduction from capital. The Board intends to monitor nonreciprocal holdings of other banking organizations’ capital instruments and to provide information on such holdings to the Basle Supervisors’ Committee as called for under the Basle capital framework.

24To determine the amount of expected deferred-tax assets realizable in the next 12 months, an institution should assume that all existing temporary differences fully reverse as of the report date. Projected future taxable income should not include net operating loss carry-forwards to be used during that year or the amount of existing temporary differences a bank holding company expects to reverse within the year. Such projections should include the estimated effect of tax-planning strategies that the organization expects to implement to realize net operating losses or tax-credit carry-forwards that would otherwise expire during the year. Institutions do not have to prepare a new 12-month projection each quarter. Rather, on interim report dates, institutions may use the future-taxable income projections for their current fiscal year, adjusted for any

25Deductions of holdings of capital instruments also would not be made in the case of interstate “stake out” investments that comply with the Board’s Policy Statement on Nonvoting Equity Investments, 12 CFR 225.143 (Federal Reserve Regulatory Service 4-172.1; 68 Federal Reserve Bulletin 413 (1982)). In addition, holdings of capital instruments issued by other banking organizations but taken in satisfaction of debts previously contracted would be exempt from any deduction from capital. The Board intends to monitor nonreciprocal holdings of other banking organizations’ capital instruments and to provide information on such holdings to the Basle Supervisors’ Committee as called for under the Basle capital framework.

26To determine the amount of expected deferred-tax assets realizable in the next 12 months, an institution should assume that all existing temporary differences fully reverse as of the report date. Projected future taxable income should not include net operating loss carry-forwards to be used during that year or the amount of existing temporary differences a bank holding company expects to reverse within the year. Such projections should include the estimated effect of tax-planning strategies that the organization expects to implement to realize net operating losses or tax-credit carry-forwards that would otherwise expire during the year. Institutions do not have to prepare a new 12-month projection each quarter. Federal Reserve System

section 24(f). A nonfinancial company is an entity that engages in any activity that has not been determined to be financial in nature or incidental to financial activities under section 4(k) of the Bank Holding Company Act (12 U.S.C. 1843(k)).

10 percent of tier 1 capital.

b. The reported amount of deferred-tax assets, net of any valuation allowance for deferred-tax assets, in excess of the lesser of these two amounts is to be deducted from a banking organization’s core capital elements in determining tier 1 capital. For purposes of calculating the 10 percent limitation, tier 1 capital is defined as the sum of core capital elements, net of goodwill and net of all identifiable intangible assets other than mortgage servicing assets, nonmortgage servicing assets, and purchased credit card relationships, but prior to the deduction of any disallowed mortgage servicing assets, any disallowed nonmortgage servicing assets, any disallowed purchased credit card relationships, any disallowed credit-enhancing I/Os, any disallowed deferred-tax assets, and any nonfinancial equity investments. There generally is no limit in tier 1 capital on the amount of deferred-tax assets that can be reclassified from taxes paid in prior carry-back years or from future reversals of existing taxable temporary differences.

A bank holding company must deduct from its core capital elements the sum of the appropriate percentages (as determined below) of the adjusted carrying value of all nonfinancial equity investments held by the parent bank holding company or by its direct or indirect subsidiaries. For purposes of this section II.B.5, investments held by a bank holding company include all investments held directly or indirectly by the bank holding company or any of its subsidiaries.

b. Scope of nonfinancial equity investments.

A nonfinancial equity investment means any equity investment held by the bank holding company: under the merchant banking authority of section 4(k)(4)(H) of the BHC Act and subpart J of the Board’s Regulation Y (12 CFR 225.175 et seq.); under section 4(c)(6) or 4(c)(7) of BHC Act in a nonfinancial company; or in a company that makes investments in nonfinancial companies; in a nonfinancial company through a small business investment company (SBIC) under section 302(b) of the Small Business Investment Act of 1958;27 in a nonfinancial company under the portfolio investment provisions of the Board’s Regulation K (12 CFR 211.8(k)(3)); or in a nonfinancial company under section 24 of the Federal Deposit Insurance Act (other than significant changes that have occurred or are expected to occur.

27 An equity investment made under section 302(b) of the Small Business Investment Act of 1958 in an SBIC that is not consolidated with the parent banking organization is treated as a nonfinancial equity investment.

1 For purposes of calculating the adjusted carrying value of nonfinancial equity investments as a percentage of Tier 1 capital, Tier 1 capital is defined as the sum of core capital elements net of goodwill and net of all identifiable intangible assets other than mortgage servicing assets, nonmortgage servicing assets, and purchased credit card relationships. But prior to the deduction for any disallowed mortgage servicing assets, any disallowed nonmortgage servicing assets, any disallowed credit-enhancing I/Os, any disallowed purchased credit card relationships, any disallowed deferred tax assets, and any nonfinancial equity investments.

ii. These deductions are applied on a marginal basis to the portions of the adjusted carrying value of nonfinancial equity investments that fall within the specified ranges of the parent holding company’s Tier 1 capital. For example, if the adjusted carrying value of all nonfinancial equity investments held by a bank holding company equals 20 percent of the Tier 1 capital of the bank holding company, then the amount of the deduction...
would be 8 percent of the adjusted carrying value of all investments up to 15 percent of the company’s Tier 1 capital, and 12 percent of the adjusted carrying value of all investments in excess of 15 percent of the company’s Tier 1 capital.

ii. To the extent the adjusted carrying value of all nonfinancial equity investments that a bank holding company holds through one or more SBICs that are consolidated with the bank holding company or in one or more SBICs that are not consolidated with the bank holding company exceeds, in the aggregate, 15 percent of the aggregate Tier 1 capital of the company’s subsidiary banks, the appropriate percentage of such amounts (as set forth in Table 1) must be deducted from the bank holding company’s core capital elements. In addition, the aggregate adjusted carrying value of all nonfinancial equity investments held through a consolidated SBIC and in a non-consolidated SBIC (including any investments for which no deduction is required) must be included in determining, for purposes of Table 1, the total amount of nonfinancial equity investments held by the bank holding company in relation to its Tier 1 capital.

e. Transition provisions. No deduction under this section II.B.5 is required to be made with respect to the adjusted carrying value of any nonfinancial equity investment (or portion of such an investment) that was made by the bank holding company prior to March 15, 2000, or that was made after such date.

29 For example, if 8 percent of the adjusted carrying value of a nonfinancial equity investment is deducted from Tier 1 capital, the entire adjusted carrying value of the investment will be excluded from risk-weighted assets in calculating the denominator for the risk-based capital ratio.
Federal Reserve System

Pt. 225, App. A

date pursuant to a binding written commit-
ment entered into by the bank holding
company prior to March 13, 2000, provided
that in either case the bank holding com-
pany has continuously held the investment
since the relevant investment date. For
purposes of this section II.B.5.e., a non-
financial equity investment made prior to
March 13, 2000, includes any shares or other
interests received by the bank holding com-
pany through a stock split or stock dividend
on an investment made prior to March 13,
2000, provided the bank holding company
provides no consideration for the shares or
interests received and the transaction does
not materially increase the bank’s holding
company’s proportional interest in the com-
pany. The exercise on or after March 13, 2000,
of options or warrants acquired prior to
March 13, 2000, is not considered to be an in-
vestment made prior to March 13, 2000, if the
bank holding company provides any consid-
eration for the shares or interests received
upon exercise of the options or warrants.
Any nonfinancial equity investment (or por-
tion thereof) that is not required to be de-
ducted from Tier 1 capital under this section
II.B.5.e. must be included in determining the
total amount of nonfinancial equity invest-
ments held by the bank holding company in
relation to its Tier 1 capital for purposes of
Table 1. In addition, any nonfinancial equity
investment (or portion thereof) that is not
required to be deducted from Tier 1 capital
under this section II.B.5.e. will be assigned a
100-percent risk weight and included in the
bank holding company’s consolidated risk-
weighted assets.

1. Adjusted carrying value. For purposes of
this section II.B.5., the “adjusted carrying
value” of investments is the aggregate value
at which the investments are carried on the
balance sheet of the consolidated bank hold-
ing company reduced by any unrealized gains
on those investments that are reflected in
such carrying value but excluded from the
bank holding company’s Tier 1 capital and
associated deferred tax liabilities. For exam-
ple, for investments held as available-for-
sale (AFS), the adjusted carrying value of the
investments would be the aggregate carry-
ing value of the investments (as reflected
on the consolidated balance sheet of the
bank holding company) less any unrealized
gains on those investments that are included
in other comprehensive income and not re-
flected in Tier 1 capital, and associated de-
ferred tax liabilities.32

ii. As discussed above with respect to con-
solidated SBICs, some equity investments
may be in companies that are consolidated
for accounting purposes. For investments in
a nonfinancial company that is consolidated
for accounting purposes under generally ac-
cepted accounting principles, the parent
banking organization’s adjusted carrying
value of the investment is determined under
the equity method of accounting (net of any
intangibles associated with the investment
that are deducted from the consolidated
bank holding company’s core capital in ac-
cordance with section II.B.1 of this appen-
dix). Even though the assets of the non-
financial company are consolidated for ac-
counting purposes, these assets (as well as
the credit equivalent amounts of the com-
pany’s off-balance sheet items) should be ex-
cluded from the banking organization’s risk-
weighted assets for regulatory capital pur-
poses.

g. Equity investments. For purposes of this
section II.B.5, an equity investment means
any equity instrument (including common
stock, preferred stock, partnership interests,
interests in limited liability companies,
31 A “binding written commitment” means
a legally binding written agreement that re-
quires the banking organization to acquire
shares or other equity of the company, or
make a capital contribution to the company,
under terms and conditions set forth in the
agreement. Options, warrants, and other
agreements that give a banking organization
the right to acquire equity or make an in-
vestment, but do not require the banking or-
ganization to take such actions, are not con-
sidered a binding written commitment for
purposes of this section II.B.5.

32 For example, if a bank holding company
made an equity investment in 100 shares of a
nonfinancial company prior to March 13,
2000, that investment would not be subject to
a deduction under this section II.B.5. How-
ever, if the bank holding company made any
additional equity investment in the company
after March 13, 2000, such as by purchasing
additional shares of the company (including
through the exercise of options or warrants
acquired before or after March 13, 2000) or by
making a capital contribution to the com-
pany, and such investment was not made
pursuant to a binding written commitment
entered into before March 13, 2000, the ad-
justed carrying value of the additional in-
vestment would be subject to a deduction
under this section II.B.5. In addition, if the
bank holding company sold and repurchased
shares of the company after March 13, 2000,
the adjusted carrying value of the re-ac-
quired shares would be subject to a deduc-
tion under this section II.B.5.

33 Unrealized gains on AFS investments
may be included in supplementary capital to
the extent permitted under section II.A.2.e of
this appendix A. In addition, the unrealized
losses on AFS equity investments are de-
ducted from Tier 1 capital in accordance with
section II.A.1.a of this appendix A.
trust certificates and warrants and call options that give the holder the right to purchase an equity instrument), any equity feature of a debt instrument (such as a warrant or call option), and any debt instrument that is convertible into equity where the instrument or feature is held under one of the legal authorities listed in section II.B.5.b. of this appendix. An investment in any other instrument (including subordinated debt) may be treated as an equity investment if, in the judgment of the Federal Reserve, the instrument is the functional equivalent of equity or exposes the state member bank to essentially the same risks as an equity instrument.

Less: Goodwill, other intangible assets, credit-enhancing interest-only strips and nonfinancial equity investments required to be deducted from capital¹

SUPPLEMENTARY CAPITAL (Tier 2) | Total of tier 2 is limited to 100% of tier 1.²

| Allowance for loan and lease losses | Limited to 1.25% of weighted-risk assets.² |
| Perpetual preferred stock | Limited to 1.25% of weighted-risk assets.² |
| Subordinated debt and intermediate-term preferred stock | No limit within tier 2. |
| (original weighted average maturity of 5 years or more). | No limit within tier 2. |
| Revaluation reserves (equity and building) | Subordinated debt and intermediate-term preferred stock are limited to 50% of tier 1.²; amortized for capital purposes as they approach maturity. |
| | Not included; organizations encouraged to disclose; may be evaluated on a case-by-case basis for international comparisons; and taken into account in making an overall assessment of capital. |

DEDUCTIONS (from sum of tier 1 and tier 2) | As a general rule, one-half of the aggregate investments will be deducted from tier 1 capital and one-half from tier 2 capital.³

| Investments in unconsolidated subsidiaries | On a case-by-case basis or as a matter of policy after a formal rulemaking. |
| | Must equal or exceed 8% of weighted-risk assets. |
| Reciprocal holdings of banking organizations' capital securities | Must equal or exceed 8% of weighted-risk assets. |
| Other deductions (such as other subsidiaries or joint ventures) as determined by supervisory authority. | |
| TOTAL CAPITAL (tier 1 + tier 2 – deductions) | |

¹Requirements for the deduction of other intangible assets and residual interests are set forth in section II.B.1. of this appendix.
²A proportionately greater amount may be deducted from tier 1 capital, if the risks associated with the subsidiary so warrant.
³See discussion in section II of the guidelines for a complete description of the requirements for, and the limitations on, the components of qualifying capital.

III. PROCEDURES FOR COMPUTING WEIGHTED RISK ASSETS AND OFF-BALANCE SHEET ITEMS

A. Procedures

Assets and credit equivalent amounts of off-balance sheet items of bank holding companies are assigned to one of several broad risk categories, according to the obligor, or, if relevant, the guarantor or the nature of the collateral. The aggregate dollar value of the amount in each category is then multiplied by the risk weight associated with that category. The resulting weighted values from each of the risk categories are added together, and this sum is the banking organization's total weighted risk assets that comprise the denominator of the risk-based capital ratio. Attachment I provides a sample calculation. Risk weights for all off-balance sheet items are determined by a two-step process. First, the “credit equivalent amount” of off-balance sheet items is determined, in most cases, by multiplying the off-balance sheet item by a credit conversion factor. Second, the credit equivalent amount is treated like any balance sheet asset and generally is assigned to the appropriate risk category according to the obligor, or, if relevant, the guarantor or the nature of the collateral.

In general, if a particular item qualifies for placement in more than one risk category, it is assigned to the category that has the lowest risk weight. A holding of a U.S. municipal revenue bond that is fully guaranteed by a U.S. bank, for example, would be assigned the 20 percent risk weight appropriate to claims guaranteed by U.S. banks, rather
than the 50 percent risk weight appropriate to U.S. municipal revenue bonds.\textsuperscript{34} The Federal Reserve will, on a case-by-case basis, determine the appropriate risk weight for any asset or credit equivalent amount of an off-balance sheet item that does not fit wholly within the terms of one of the risk weight categories set forth below or that imposes risks on a bank holding company that are incommensurate with the risk weight otherwise specified below for the asset or off-balance sheet item. In addition, the Federal Reserve will, on a case-by-case basis, determine the appropriate credit conversion factor for any off-balance sheet item that does not fit wholly within the terms of one of the credit conversion factors set forth below or that imposes risks on a banking organization that are incommensurate with the credit conversion factors otherwise specified below.

\begin{itemize}
\item An investment in shares of a fund whose portfolio consists primarily of various securities or money market instruments that, if held separately, would be assigned to different risk categories, generally is assigned to the risk category appropriate to the highest risk-weighted asset that the fund is permitted to hold in accordance with the stated investment objectives set forth in the prospectus. An organization may, at its option, assign a fund investment on a pro rata basis to different risk categories according to the investment limits in the fund’s prospectus.
\item In no case will an investment in shares in any fund be assigned to a total risk weight of less than 20 percent. If an organization chooses to assign a fund investment on a pro rata basis, and the sum of the investment limits of assets in the fund’s prospectus exceeds 100 percent, the organization must assign weights in descending order. If, in order to maintain a necessary degree of short-term liquidity, a fund is permitted to hold an insignificant amount of its assets in short-term, highly liquid securities of superior credit quality that do not qualify for a preferential risk weight, such securities generally will be disregarded when determining the risk category into which the organization’s holding in the overall fund should be assigned. The prudent use of hedging instruments by a fund to reduce the risk of its assets will not increase the risk weight of the fund investment. For example, the use of hedging instruments by a fund to reduce the interest rate risk of its government bond portfolio will not increase the risk weight of that fund above the 20 percent category. Nonetheless, if a fund engages in any activities that appear speculative in nature or has any other characteristics that are inconsistent with the preferential risk weighting assigned to the fund’s assets, holdings in the fund will be assigned to the 100 percent risk category.
\end{itemize}

\textsuperscript{34} An investment in shares of a fund whose portfolio consists primarily of various securities or money market instruments that, if held separately, would be assigned to different risk categories, generally is assigned to the risk category appropriate to the highest risk-weighted asset that the fund is permitted to hold in accordance with the stated investment objectives set forth in the prospectus. An organization may, at its option, assign a fund investment on a pro rata basis to different risk categories according to the investment limits in the fund’s prospectus.

\textsuperscript{35} The OECD-based group of countries comprises all full members of the Organization for Economic Cooperation and Development (OECD) regardless of entry date, as well as countries that have concluded special lending arrangements with the International Monetary Fund (IMF) associated with the IMF’s General Arrangements to Borrow, but excludes any country that has rescheduled its external sovereign debt within the previous five years. As of November 1985, the OECD included the following countries: Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Japan, Luxembourg, Mexico, the Netherlands, New Zealand, Norway, Portugal, Spain, Sweden, Switzerland, Turkey, the United Kingdom, and the United States; and Saudi Arabia had concluded special lending arrangements with the IMF associated with the IMF’s General Arrangements to Borrow. A rescheduling of external sovereign debt generally would include any renegotiation of terms arising from a country’s inability or unwillingness to meet its external debt service obligations, but generally would not include renegotiations of debt in the normal course of business, such as a renegotiation to allow the borrower to take advantage of a decline in interest rates or other change in market conditions.

\textsuperscript{36} An investment in shares of a fund whose portfolio consists primarily of various securities or money market instruments that, if held separately, would be assigned to different risk categories, generally is assigned to the risk category appropriate to the highest risk-weighted asset that the fund is permitted to hold in accordance with the stated investment objectives set forth in the prospectus. An organization may, at its option, assign a fund investment on a pro rata basis to different risk categories according to the investment limits in the fund’s prospectus.

\textsuperscript{37} The Federal Reserve will consider the similarity of the asset or off-balance sheet item to assets or off-balance sheet items explicitly treated in the guidelines, as well as other relevant factors.

\textbf{B. Collateral, Guarantees, and Other Considerations}

1. Collateral. The only forms of collateral that are formally recognized by the risk-based capital framework are: Cash on deposit in a subsidiary lending institution; securities issued or guaranteed by the central governments of the OECD-based group of countries, U.S. Government agencies, or U.S. Government-sponsored agencies; and securities issued by multilateral lending institutions or regional development banks. Claims fully secured by such collateral generally are assigned to the 20 percent risk-weight category. Collateralized transactions meeting all the conditions described in section III.C.1. may be assigned a zero percent risk weight.

With regard to collateralized claims that may be assigned to the 20 percent risk-weight category, the extent to which qualifying securities are recognized as collateral is determined by their current market value. If such a claim is only partially secured, that is, the market value of the pledged securities is less than the face amount of a balance-sheet asset or an off-balance-sheet item, the...
portion that is covered by the market value of the qualifying collateral is assigned to the 20 percent risk category, and the portion of the claim that is not covered by collateral in the form of cash or a qualifying security is assigned to the risk category appropriate to the obligor or, if relevant, the guarantor. For example, to the extent that a claim on a direct credit substitute is collateralized by the current market value of U.S. Government securities, it would be placed in the 20 percent risk category and the balance would be assigned to the 100 percent risk category.

2. Guarantees. Guarantees of the OECD and non-OECD central governments, U.S. Government agencies, U.S. Government-sponsored agencies, state and local governments of the OECD-based group of countries, multilateral lending institutions and regional development banks, U.S. depository institutions, and foreign banks are also recognized. If a claim is partially guaranteed, that is, coverage of the guarantee is less than the face amount of a balance sheet asset or an off-balance sheet item, the portion that is not fully covered by the guarantee is assigned to the risk category appropriate to the obligor or, if relevant, to any collateral. The face amount of a claim covered by two types of guarantees that have different risk weights, such as a U.S. Government guarantee and a state guarantee, is to be apportioned between the two risk categories appropriate to the guarantors.

The existence of other forms of collateral or guarantees that the risk-based capital framework does not formally recognize may be taken into consideration in evaluating the risks inherent in an organization’s loan portfolio—which, in turn, would affect the overall supervisory assessment of the organization’s capital adequacy.

3. Recourse obligations, direct credit substitutes, residual interests, and asset- and mortgage-backed securities. Direct credit substitutes, assets transferred with recourse, and securities issued in connection with asset securitizations and structured financings are treated as described below. The term “asset securitizations” or “securitizations” in this rule includes structured financings, as well as asset securitization transactions.

a. Definitions—i. Credit derivative means a contract that allows one party (the “protection purchaser”) to transfer the credit risk of an asset or off-balance sheet credit exposure to another party (the “protection provider”). The value of a credit derivative is dependent, at least in part, on the credit performance of the “reference asset.”

ii. Credit-enhancing representations and warranties are made or assumed in connection with a transfer of assets (including loan servicing assets) and that obligate the bank holding company to protect investors from losses arising from credit risk in the assets transferred or the loans serviced. Credit-enhancing representations and warranties include promises to protect a party from losses resulting from the default of another party or from an insufficiency in the value of the collateral. Credit-enhancing representations and warranties do not include:

1. Early default clauses and similar warranties that permit the return of, or premium refund clauses covering, 1–4 family residential first mortgage loans that qualify for a 50 percent risk weight for a period not to exceed 120 days from the date of transfer. These warranties may cover only those loans that were originated within 1 year of the date of transfer;

2. Premium refund clauses that cover assets guaranteed, in whole or in part, by the U.S. Government, a U.S. Government agency or a government-sponsored enterprise, provided the premium refund clauses are for a period not to exceed 120 days from the date of transfer; or

3. Warranties that permit the return of assets in instances of misrepresentation, fraud or incomplete documentation.

iii. Direct credit substitute means an arrangement in which a bank holding company assumes, in form or in substance, credit risk associated with an on- or off-balance sheet credit exposure that was not previously owned by the bank holding company (third-party asset) and the risk assumed by the bank holding company exceeds the pro rata share of the bank holding company’s interest in the third-party asset. If the bank holding company has no claim on the third-party asset, then the bank holding company’s assumption of any credit risk with respect to the third party asset is a direct credit substitute. Direct credit substitutes include, but are not limited to:

1. Financial standby letters of credit that support financial claims on a third party that exceed a bank holding company’s pro rata share of losses in the financial claim;

2. Guarantees, surety arrangements, credit derivatives, and similar instruments backing financial claims that exceed a bank holding company’s pro rata share of losses in the financial claim;

3. Purchased subordinated interests or securities that absorb more than their pro rata share of losses from the underlying assets;

4. Credit derivative contracts under which the bank holding company assumes more than its pro rata share of credit risk on a third party exposure;

5. Loans or lines of credit that provide credit enhancement for the financial obligations of an account party;

6. Purchased loan servicing assets if the servicer is responsible for credit losses or if the servicer makes or assumes credit-enhancing representations and warranties with
Federal Reserve System

Pt. 225, App. A

respect to the loans serviced. Mortgage servicer cash advances that meet the conditions of section III.B.3.a.viii. of this appendix are not direct credit substitutes.

7. Clean-up calls on third party assets. Clean-up calls that are 10 percent or less of the original pool balance that are exercisable at the option of the bank holding company are not direct credit substitutes; and

8. Liquidity facilities that provide liquidity support to ABCP (other than eligible ABCP liquidity facilities).

iv. Eligible ABCP liquidity facility means a liquidity facility supporting ABCP, in form or in substance, that is subject to an asset quality test at the time of draw that precludes funding against assets that are 90 days or more past due or in default. In addition, if the assets that an eligible ABCP liquidity facility is required to fund against are externally rated assets or exposures at the inception of the facility, the facility can be used to fund only those assets or exposures that are externally rated investment grade at the time of funding. Notwithstanding the eligibility requirements set forth in the two preceding sentences, a liquidity facility will be considered an eligible ABCP liquidity facility if the assets that are funded under the liquidity facility and which do not meet the eligibility requirements are guaranteed, either conditionally or unconditionally, by the U.S. government or its agencies, or by the central government of an OECD country.

v. Externally rated means that an instrument or obligation has received a credit rating from a nationally recognized statistical rating organization.

vi. Face amount means the notional principal, or face value, amount of an off-balance sheet item; the amortized cost of an asset not held for trading purposes; and the fair value of a trading asset.

vii. Financial asset means cash or other monetary instrument, evidence of debt, evidence of an ownership interest in an entity, or a contract that conveys a right to receive or exchange cash or another financial instrument from another party.

viii. Financial standby letter of credit means a letter of credit or similar arrangement that represents an irrevocable obligation to a third-party beneficiary:

1. To repay money borrowed by, or advanced to, or for the account of, a second party (the account party), or

2. To make payment on behalf of the account party, in the event that the account party fails to fulfill its obligation to the beneficiary.

ix. Liquidity Facility means a legally binding commitment to provide liquidity support to ABCP by lending to, or purchasing assets from, any structure, program, or conduit in the event that funds are required to repay maturing ABCP.

x. Mortgage servicer cash advance means funds that a residential mortgage loan servicer advances to facilitate the timely collection of the loan. A mortgage servicer cash advance is not a recourse obligation or a direct credit substitute if:

1. The servicer is entitled to full reimbursement and this right is not subordinated to other claims on the cash flows from the underlying asset pool; or

2. For any one loan, the servicer’s obligation to make nonreimbursable advances is contractually limited to an insignificant amount of the outstanding principal balance of that loan.

xi. Nationally recognized statistical rating organization (NRSRO) means an entity recognized by the Division of Market Regulation of the Securities and Exchange Commission (or any successor Division) (Commission) as a nationally recognized statistical rating organization for various purposes, including the Commission’s uniform net capital requirements for brokers and dealers.

xii. Recourse means the retention, by a bank holding company, in form or in substance, of any credit risk directly or indirectly associated with an asset it has transferred and sold that exceeds a pro rata share of the banking organization’s claim on the asset. If a banking organization has no claim on a transferred asset, then the retention of any risk of credit loss is recourse. A recourse obligation typically arises when a bank holding company transfers assets and retains an explicit obligation to repurchase the assets or absorb losses due to a default on the payment of principal or interest or any other deficiency in the performance of the underlying obligor or some other party. Recourse may also exist implicitly if a bank holding company provides credit enhancement beyond any contractual obligation to support assets it has sold. The following are examples of recourse arrangements:

1. Credit-enhancing representations and warranties made on the transferred assets;

2. Loan servicing assets retained pursuant to an agreement under which the bank holding company will be responsible for credit losses associated with the loans being serviced. Mortgage servicer cash advances that meet the conditions of section III.B.3.a.x. of this appendix are not recourse arrangements;

3. Retained subordinated interests that absorb more than their pro rata share of losses from the underlying assets;

4. Assets sold under an agreement to repurchase, if the assets are not already included on the balance sheet;

5. Loan strips sold without contractual recourse where the maturity of the transferred asset is not guaranteed.
loan is shorter than the maturity of the commitment under which the loan is drawn;  
6. Credit derivatives issued that absorb more than the bank holding company's pro rata share of losses from the transferred assets;  
7. Clean-up calls at inception that are greater than 10 percent of the balance of the original pool of transferred loans. Clean-up calls that are 10 percent or less of the original pool balance that are exercisable at the option of the bank holding company are not recourse arrangements; and  
8. Liquidity facilities that provide liquidity support to ABCP (other than eligible ABCP liquidity facilities).

xiii. Residual interest means any on-balance sheet asset that represents an interest (including a beneficial interest) created by a transfer that qualifies as a sale (in accordance with generally accepted accounting principles) of financial assets, whether through a securitization or otherwise, and that exposes the bank holding company to credit risk directly or indirectly associated with the transferred assets that exceeds a pro rata share of the bank holding company's claim on the assets, whether through subordination provisions or other credit enhancement techniques. Residual interests generally include credit-enhancing I/Os, spread accounts, cash collateral accounts, retained subordinated interests, other forms of over-collateralization, and similar assets that function as a credit enhancement. Residual interests further include those exposures that, in substance, cause the bank holding company to retain the credit risk of an asset or exposure that had qualified as a residual interest before it was sold. Residual interests generally do not include interests purchased from a third party, except that purchased credit-enhancing I/Os are residual interests for purposes of this appendix.

xiv. Risk participation means a participation in which the originating party remains liable to the beneficiary for the full amount of an obligation (e.g., a direct credit substitute) notwithstanding that another party has acquired a participation in that obligation.

xv. Securitization means the pooling and re-packaging by a special purpose entity of assets or other credit exposures into securities that can be sold to investors. Securitization includes transactions that create stratified credit risk positions whose performance is dependent upon an underlying pool of credit exposures, including loans and commitments.

xvi. Sponsor means a bank holding company that establishes an ABCP program; approves the sellers permitted to participate in the program; approves the asset pools to be purchased by the program; or administers the program by monitoring the assets, arranging for debt placement, compiling monthly reports, or ensuring compliance with the program documents and with the program's credit and investment policy.

xvii. Structured finance program means a program where receivable interests for purposes of this appendix.

xviii. Traded position means a position that is externally rated and is retained, assumed, or issued in connection with an asset securitization, where there is a reasonable expectation that, in the near future, the rating will be relied upon by unaffiliated investors to purchase the position; or an unaffiliated third party to enter into a transaction involving the position, such as a purchase, loan, or repurchase agreement.

b. Credit equivalent amounts and risk weight of recourse obligations and direct credit substitutes. 1. Credit equivalent amount. Except as otherwise provided in sections III.B.3.c. through f. and III.B.4. of this appendix, the credit-equivalent amount for a recourse obligation or direct credit substitute is the full amount of the credit-enhanced assets for which the bank holding company directly or indirectly retains or assumes credit risk multiplied by a 100 percent conversion factor.

ii. Risk-weight factor. To determine the bank holding company's risk-weight factor for off-balance sheet recourse obligations and direct credit substitutes, the credit equivalent amount is assigned to the risk category appropriate to the obligor in the underlying transaction, after considering any associated guarantees or collateral. For a direct credit substitute that is an on-balance sheet asset (e.g., a purchased subordinated security), a bank holding company must calculate risk-weighted assets using the amount of the direct credit substitute and the full amount of the assets it supports, i.e., all the more senior positions in the structure. The treatment of direct credit substitutes that have been syndicated in or which risk participations have been conveyed or acquired is set forth in section III.B.1 of this appendix.

c. Externally-rated positions: credit-equivalent amounts and risk weights of recourse obligations, direct credit substitutes, residual interests, and asset- and mortgage-backed securities (including asset-backed commercial paper)—I. Traded positions. With respect to a recourse obligation, direct credit substitute, residual interest (other than a credit-enhancing I/O, Ostrip) or asset- and mortgage-backed security (including asset-backed commercial paper) that is a traded position and that has received an external rating on a long-term
position that is one grade below investment grade or better or a short-term rating that is investment grade, the bank holding company may multiply the face amount of the position by the appropriate risk weight, determined in accordance with the tables below. Stripped mortgage-backed securities and other similar instruments, such as interest-only or principal-only strips that are not credit enhancements, must be assigned to the 100 percent risk category. If a traded position has received more than one external rating, the lowest single rating will apply.

ii. Non-traded positions. A recourse obligation, direct credit substitute, or residual interest (but not a credit-enhancing I/O strip) extended in connection with a securitization that is not a traded position may be assigned a risk weight in accordance with section III.B.3.c.i of this appendix if:

1. It has been externally rated by more than one NRSRO;
2. It has received an external rating on a long-term position that is one grade below investment grade or better or on a short-term position that is investment grade by all NRSROs providing a rating;
3. The ratings are publicly available; and
4. The ratings are based on the same criteria used to rate traded positions.

If the ratings are different, the lowest rating will determine the risk category to which the recourse obligation, direct credit substitute, or residual interest will be assigned.

d. Senior positions not externally rated. For a recourse obligation, direct credit substitute, residual interest, or asset-or mortgage-backed security that is not externally rated but is senior or preferred in all features to a traded position (including collateralization and maturity), a bank holding company may apply a risk weight to the face amount of the senior position in accordance with section III.B.3.c.i of this appendix, based on the traded position, subject to any current or prospective supervisory guidance and the bank holding company satisfying the Federal Reserve that this treatment is appropriate.

This section will apply only if the traded subordinated position provides substantive credit support to the unrated position until the unrated position matures.

e. Capital requirement for residual interests—
1. Capital requirement for credit-enhancing I/O strips. After applying the concentration limit to credit-enhancing I/O strips (both purchased and retained) in accordance with sections II.B.2.c through e. of this appendix, a bank holding company must maintain risk-based capital for a credit-enhancing I/O strip (both purchased and retained), regardless of the external rating on that position, equal to the remaining amount of the credit-enhancing I/O (net of any existing associated deferred tax liability), even if the amount of risk-based capital required to be maintained exceeds the full risk-based capital requirement for the assets transferred. Transactions that, in substance, result in the retention of credit risk associated with a transferred credit-enhancing I/O strip will be treated as if the credit-enhancing I/O strip was retained by the bank holding company and not transferred.

ii. Capital requirement for other residual interests. If a residual interest does not meet the requirements of sections III.B.3.c. or d. of this appendix, a bank holding company must maintain risk-based capital equal to the remaining amount of the residual interest that is retained on the balance sheet (net of any existing associated deferred tax liability), even if the amount of risk-based capital required to be maintained exceeds the full risk-based capital requirement for the assets transferred. Transactions that, in substance, result in the retention of credit risk associated with a transferred residual interest will be treated as if the residual interest was retained by the bank holding company and not transferred.

2. Where the aggregate capital requirement for residual interests and other recourse obligations in connection with the same transfer of assets exceed the full risk-based capital requirement for those assets, a bank holding company must maintain risk-based capital equal to the greater of the risk-based capital requirement for the residual interest as calculated under section III.B.3.c.i. of
this appendix or the full risk-based capital requirement for the assets transferred.

1. Positions that are not rated by an NRSRO. A position (but not a residual interest) maintained in connection with a securitization and that is not rated by a NRSRO may be risk-weighted based on the bank holding company’s determination of the credit rating of the position, as specified in the table below, multiplied by the face amount of the position. In order to obtain this treatment, the bank holding company’s system for determining the credit rating of the position must meet one of the three alternative standards set out in sections III.B.3.f.i. through III.B.3.f.iii. of this appendix.

1. Internal risk rating used for asset-backed programs. A direct credit substitute (other than a purchased credit-enhancing I/O) is assumed in connection with an asset-backed commercial paper program sponsored by the bank holding company and the bank holding company is able to demonstrate to the satisfaction of the Federal Reserve, prior to relying upon its use, that the bank holding company’s internal credit risk rating system is adequate. Adequate internal credit risk rating systems usually contain the following criteria:

1. The internal credit risk system is an integral part of the bank holding company’s risk management system, which explicitly incorporates the full range of risks arising from a bank holding company’s participation in securitization activities;

2. Internal credit ratings are linked to measurable outcomes, such as the probability that the position will experience any loss, the position’s expected loss given default, and the degree of variance in losses given default on that position;

3. The bank holding company’s internal credit risk system must separately consider the risk associated with the underlying loans or borrowers, and the risk associated with the structure of a particular securitization transaction;

4. The bank holding company’s internal credit risk system must identify gradations of risk among “pass” assets and other risk positions;

5. The bank holding company must have clear, explicit criteria that are used to classify assets into each internal risk grade, including subjective factors;

6. The bank holding company must have independent credit risk management or loan review personnel assigning or reviewing the credit risk ratings;

7. The bank holding company must have an internal audit procedure that periodically verifies that the internal credit risk ratings are assigned in accordance with the established criteria;

8. The bank holding company must monitor the performance of the internal credit risk ratings assigned to nonrated, nontraded direct credit substitutes over time to determine the appropriateness of the initial credit risk rating assignment and adjust individual credit risk ratings, or the overall internal credit risk ratings system, as needed; and

9. The internal credit risk system must make credit risk rating assumptions that are consistent with, or more conservative than, the credit risk rating assumptions and methodologies of NRSROs.

ii. Program Ratings. A direct credit substitute or recourse obligation (other than a residual interest) is assumed or retained in connection with a structured finance program and a NRSRO has reviewed the terms of the program and stated a rating for positions associated with the program. If the program has options for different combinations of assets, standards, internal credit enhancements and other relevant factors, and the NRSRO specifies ranges of rating categories to them, the bank holding company may apply the rating category that corresponds to the bank holding company’s position. In order to rely on a program rating, the bank holding company must demonstrate to the Federal Reserve’s satisfaction that the credit risk rating assigned to the program meets the same standards generally used by NRSROs for rating traded positions. The bank holding company must also demonstrate to the Federal Reserve’s satisfaction that the criteria underlying the NRSRO’s assignment of ratings for the program are satisfied for the particular position. If a bank holding company participates in a securitization sponsored by another party, the Federal Reserve may authorize the bank holding company to use this approach based on a programmatic rating obtained by the sponsor of the program.

iii. Computer Program. The bank holding company is using an acceptable credit assessment computer program to determine the rating of a direct credit substitute or recourse obligation (but not residual interest).
Federal Reserve System

issued in connection with a structured finance program. A NRSRO must have developed the computer program, and the bank holding company must demonstrate to the Federal Reserve’s satisfaction that ratings under the program correspond credibly and reliably with the rating of traded positions.

5. Small Business Loans and Leases on Personal Property Transferred with Recourse. a. Notwithstanding other provisions of this appendix A, a qualifying banking organization that has transferred small business loans and leases on personal property (small business obligations) with recourse shall include in weighted-risk assets only the amount of retained recourse, provided two conditions are met. First, the transaction must be treated as a sale under GAAP and, second, the banking organization must establish pursuant to GAAP a non-capital reserve sufficient to meet the organization’s reasonably estimated liability under the recourse arrangement. Only loans and leases to businesses that meet the criteria for a small business concern established by the Small Business Administration under section 3(a) of the Small Business Act are eligible for this capital treatment.

b. For purposes of this appendix A, a banking organization is qualifying if it meets the criteria for well capitalized or, by order of the Board, adequately capitalized, as those criteria are set forth in the Board’s prompt corrective action regulation for state member banks (12 CFR 208.44). For purposes of determining whether an organization meets these criteria, its capital ratios must be calculated without regard to the capital treatment for transfers of small business obligations with recourse specified in section III.B.5.a. of this appendix A. The total outstanding amount of recourse retained by a qualifying banking organization on transfers of small business obligations receiving the preferential capital treatment cannot exceed 15 percent of the organization’s total risk-based capital. By order, the Board may approve a higher limit.

c. If a bank holding company ceases to be qualifying or exceeds the 15 percent capital limitation, the preferential capital treatment will continue to apply to any transfers of small business obligations with recourse that were consummated during the time that the organization was qualifying and did not exceed the capital limit.

6. Asset-backed commercial paper programs. a. An asset-backed commercial paper (ABCP) program means a program that primarily issues externally rated commercial paper backed by assets or exposures held in a bankruptcy-remote, special purpose entity.

b. A bank holding company that qualifies as a primary beneficiary and must consolidate an ABCP program that is defined as a variable interest entity under GAAP may exclude the consolidated ABCP program assets from risk-weighted assets provided that the bank holding company is the sponsor of the ABCP program. If a bank holding company excludes such consolidated ABCP program assets...
assets, the bank holding company must assess the appropriate risk-based capital charge against any exposures of the organization arising in connection with such ABCP programs, including direct credit substitutes, recourse obligations, residual interests, liquidity facilities, and loans, in accordance with sections III.B.3., III.C., and III.D. of this appendix.

c. If a bank holding company has multiple overlapping exposures (such as a program-wide credit enhancement and multiple pool-specific liquidity facilities) to an ABCP program that is not consolidated for risk-based capital purposes, the bank holding company is not required to hold duplicative risk-based capital under this appendix against the overlapping position. Instead, the bank holding company should apply to the overlapping position the applicable risk-based capital charge. 

C. Risk Weights

Attachment III contains a listing of the risk categories, a summary of the types of assets assigned to each category and the risk weight associated with each category, that is, 0 percent, 20 percent, 50 percent, and 100 percent. A brief explanation of the components of each category follows.

1. Category 1: zero percent. This category includes cash (domestic and foreign) owned and held in all offices of subsidiary depository institutions or in transit and gold bullion held in either a subsidiary depository institution’s own vaults or in another’s vaults on an allocated basis, to the extent it is offset by gold bullion liabilities. The category also includes all direct claims (including securities, loans, and leases) on, and the portions of claims that are directly and unconditionally guaranteed by, the central governments of OECD countries and U.S. Government agencies, as well as all direct local currency claims on, and the portions of local currency claims that are directly and unconditionally guaranteed by, the central governments of non-OECD countries, to the extent that subsidiary depository institutions have liabilities booked in that currency. A claim is not considered to be unconditionally guaranteed by a central government if the validity of the guarantee is dependent upon some affirmative action by the holder or a third party. Generally, securities guaranteed by the U.S. Government or its agencies that are actively traded in financial markets, such as GNMA securities, are considered to be unconditionally guaranteed.

This category also includes claims collateralized by cash on deposit in the subsidiary lending institution or by securities issued or guaranteed by OECD central governments or U.S. government agencies for which a positive margin of collateral is maintained on a daily basis, fully taking into account any change in the banking organization’s exposure to the obligor or counterparty under a claim in relation to the market value of the collateral held in support of that claim.

This category also includes ABCP (i) purchased by a bank holding company between September 19, 2008, and January 30, 2009 (unless extended by the Board), from an SEC-registered open-end investment company that holds itself out as a money market mutual fund under SEC Rule 2a–7 (17 CFR 270.2a–7) and (ii) pledged by the bank holding company to a Federal Reserve Bank to secure financing from the ABCP lending facility established by the Board on September 19, 2008.

2. Category 2: 20 percent. a. This category includes cash items in the process of collection, both foreign and domestic; short-term claims (including demand deposits) on, and the portions of short-term claims that are central governments of the OECD-based group of countries; non-OECD central governments are defined as central governments of countries that do not belong to the OECD-based group of countries.

A U.S. Government agency is defined as an instrumentality of the U.S. Government whose obligations are fully and explicitly guaranteed as to the timely payment of principal and interest by the full faith and credit of the U.S. Government. Such agencies include the Government National Mortgage Association (GNMA), the Veterans Administration (VA), the Federal Housing Administration (FHA), the Export-Import Bank (Exim Bank), the Overseas Private Investment Corporation (OPIC), the Commodity Credit Corporation (CCC), and the Small Business Administration (SBA).

38 All other holdings of bullion are assigned to the 100 percent risk category.

39 A central government is defined to include departments and ministries, including the central bank, of the central government. The U.S. central bank includes the 12 Federal Reserve Banks, and stock held in these banks as a condition of membership is assigned to the zero percent risk category. The definition of central government does not include state, provincial, or local governments; or commercial enterprises owned by the central government. In addition, it does not include local government entities or commercial enterprises whose obligations are guaranteed by the central government, although any claims on such entities guaranteed by central governments are placed in the same general risk category as other claims guaranteed by central governments. OECD central governments are defined as...
guaranteed by.\textsuperscript{39} U.S. depository institutions and foreign banks; and long-term claims on, and the portions of long-term claims that are guaranteed by, U.S. depository institutions or foreign banks.\textsuperscript{40} This category also includes the portions of claims that are conditionally guaranteed by OECD central governments and U.S. Government agencies, as well as the portions of local currency claims that are conditionally guaranteed by non-OECD central governments, to the extent that subsidiary depository institutions have liabilities booked in that currency. In addition, this category also includes claims on, and the portions of claims that are guaranteed by, U.S. government-sponsored agencies and claims on, non-OECD banks and all claims on bank holding companies, are excluded.

See footnote 9 of this appendix for the definition of a U.S. depository institution. For this purpose, the definition also includes U.S.-chartered depository institutions owned by foreigners. However, branches and agencies of foreign banks located in the U.S., as well as all bank holding companies, are excluded.

See footnote 10 of this appendix for the definition of a foreign bank. Foreign banks are distinguished as either OECD banks or non-OECD banks. OECD banks include banks and their branches (foreign and domestic) organized under the laws of countries (other than the United States) that belong to the OECD-based group of countries. Non-OECD banks include banks and their branches (foreign and domestic) organized under the laws of countries that do not belong to the OECD-based group of countries.

Long-term claims on, or guaranteed by, non-OECD banks and all claims on bank holding companies are assigned to the 100 percent risk category, as are holdings of bank-issued securities that qualify as capital of the issuing banks.

For this purpose, U.S. government-sponsored agencies are defined as agencies originally established or chartered by the Federal government to serve public purposes specified by the U.S. Congress but whose obligations are not explicitly guaranteed by the full faith and credit of the U.S. government. These agencies include the Federal Home Loan Mortgage Corporation (FHLMC), the Federal National Mortgage Association (FNMA), the Farm Credit System, the Federal Home Loan Bank System, and the Student Loan Marketing Association (SLMA). Claims on U.S. government-sponsored agencies include capital stock in a Federal Home and the portions of claims guaranteed by, the International Bank for Reconstruction and Development (World Bank), the International Finance Corporation, the Inter-American Development Bank, the Asian Development Bank, the African Development Bank, the European Investment Bank, the European Bank for Reconstruction and Development, the Nordic Investment Bank, and other multilateral lending institutions or regional development banks in which the U.S. government is a shareholder or contributing member. General obligation claims on, or portions of claims guaranteed by the full faith and credit of, states or other political subdivisions of the U.S. or other countries of the OECD-based group are also assigned to this category.\textsuperscript{44} This category also includes the portions of claims (including repurchase transactions) collateralized by cash on deposit in the subsidiary lending institution or by securities issued or guaranteed by OECD central governments or U.S. government agencies that do not qualify for the zero percent risk-weight category; collateralized by securities issued or guaranteed by U.S. government-sponsored agencies; or collateralized by securities issued by multilateral lending institutions or regional development banks in which the U.S. government is a shareholder or contributing member.

d. This category also includes claims\textsuperscript{45} on, or guaranteed by, a qualifying securities firm\textsuperscript{46} incorporated in the United States or the International Bank for Reconstruction and Development (World Bank), the International Finance Corporation, the Inter-American Development Bank, the Asian Development Bank, the African Development Bank, the European Investment Bank, the European Bank for Reconstruction and Development, the Nordic Investment Bank, and other multilateral lending institutions or regional development banks in which the U.S. government is a shareholder or contributing member. Claims on a qualifying securities firm that are instruments the firm, or its parent company, uses to satisfy its applicable capital requirement are not eligible for this risk weight.

\textsuperscript{46} With regard to securities firms incorporated in the United States, qualifying securities firms are those securities firms that are broker-dealers registered with the Securities and Exchange Commission and are in compliance with the SEC’s net capital rule, 17 CFR 240.15c3-1. With regard to securities firms incorporated in other countries in the OECD-based group of countries, qualifying securities firms are those securities firms that a banking organization is able to demonstrate subject to consolidated supervision and regulation (covering their direct and indirect subsidiaries, but not necessarily their parent organizations) comparable to that imposed on banks in OECD countries.
other member of the OECD-based group of countries provided that: the qualifying security firm has a long-term issuer credit rating, or a rating on at least one issue of long-term debt, in one of the three highest investment grade rating categories from a nationally recognized statistical rating organization; or the claim is guaranteed by the firm’s parent company and the parent company has such a rating. If ratings are available from more than one rating agency, the lowest rating will be used to determine whether the rating requirement is met. This category also includes a collateralized claim on a qualifying securities firm in such a country, without regard to satisfaction of the rating requirement, provided the claim arises under a contract that:

1. Is a reverse repurchase agreement or security lending/borrowing transaction executed under standard industry documentation;
2. Is collateralized by debt or equity securities that are liquid and readily marketable;
3. Is marked-to-market daily;
4. Is subject to a daily margin maintenance requirement under the standard industry documentation; and
5. Can be liquidated, terminated, or accelerated immediately in bankruptcy or similar proceeding, and the security or collateral agreement will not be stayed or avoided, under applicable law of the relevant jurisdiction.

3. Category 3: 50 percent. This category includes loans fully secured by first liens on 1- to 4-family residential properties, either owner-occupied or rented, or on multifamily residential properties, that meet certain criteria in the instructions to the FR Y-9C Report. In addition, for risk-based capital purposes, loans secured by 1- to 4-family residential properties include loans to builders with substantial project equity for the construction of 1- to 4-family residences that have been presold under firm contracts to purchasers who have obtained firm commitments for permanent qualifying mortgage loans and have made substantial earnest money deposits. Such loans to builders will be considered prudently underwritten only if the bank holding company has obtained sufficient documentation that the buyer of the home intends to purchase the home (i.e., has a legally binding written sales contract) and has the ability to obtain a mortgage loan sufficient to purchase the home (i.e., has a firm written commitment for permanent financing of the home upon completion).

40Loans that qualify as loans secured by 1- to 4-family residential properties or multifamily residential properties are listed in the instructions to the FR Y-9C Report. In addition, for risk-based capital purposes, loans secured by 1- to 4-family residential properties include loans to builders with substantial project equity for the construction of 1- to 4-family residences that have been presold under firm contracts to purchasers who have obtained firm commitments for permanent qualifying mortgage loans and have made substantial earnest money deposits. Such loans to builders will be considered prudently underwritten only if the bank holding company has obtained sufficient documentation that the buyer of the home intends to purchase the home (i.e., has a legally binding written sales contract) and has the ability to obtain a mortgage loan sufficient to purchase the home (i.e., has a firm written commitment for permanent financing of the home upon completion).

41Prudent underwriting standards include a conservative ratio of the current loan balance to the value of the property. In the case of a loan secured by multifamily residential property, the loan-to-value ratio is not conservative if it exceeds 80 percent (75 percent if the loan is based on a floating interest rate). Prudent underwriting standards also dictate that a loan-to-value ratio used in the case of originating a loan to acquire a property would not be deemed conservative unless the value is based on the lower of the acquisition cost of the property or appraised (or if appropriate, evaluated) value. Otherwise, the loan-to-value ratio generally would be based upon the value of the property as determined by the most current appraisal, or if appropriate, the most current evaluation. All appraisals must be made in a manner consistent with the Federal banking agencies’ real estate appraisal regulations and guidelines and with the banking organization’s own appraisal guidelines.
property owner is refinancing a loan on that property, all principal and interest payments on the loan being refinanced must have been made on time for at least the year preceding placement in this category; amortization of the principal and interest must occur over a period of not more than 30 years and the minimum original maturity for repayment of principal must not be less than 7 years; and the annual net operating income (before debt service) generated by the property during its most recent fiscal year must not be less than 120 percent of the loan’s current annual debt service (115 percent if the loan is based on a floating interest rate) or, in the case of a cooperative or other not-for-profit housing project, the property must generate sufficient cash flow to provide comparable protection to the institution. Also included in this category are privately-issued mortgage-backed securities provided that:

1. The structure of the security meets the criteria described in section III(B)(3) above;
2. If the security is backed by a pool of conventional mortgages, on 1- to 4-family residential or multifamily residential properties, each underlying mortgage meets the criteria described above in this section for eligibility for the 50 percent risk category at the time the pool is originated;
3. If the security is backed by privately-issued mortgage-backed securities, each underlying security qualifies for the 50 percent risk category; and
4. If the security is backed by a pool of multifamily residential mortgages, principal and interest payments on the security are not 30 days or more past due. Privately-issued mortgage-backed securities that do not meet these criteria or that do not qualify for a lower risk weight are generally assigned to the 100 percent risk category.

Also assigned to this category are revenue (non-general obligation) bonds or similar obligations, including loans and leases, that are obligations of states or other political subdivisions of the U.S. (for example, municipal revenue bonds) or other countries of the OECD-based group, but for which the government entity is committed to repay the debt with revenues from the specific projects financed, rather than from general tax funds.

Credit equivalent amounts of derivative contracts involving standard risk obligors (that is, obligors whose loans or debt securities would be assigned to the 100 percent risk category) are included in the 50 percent category, unless they are backed by collateral or guarantees that allow them to be placed in a lower risk category.

4. Category 4: 100 percent. a. All assets not included in the categories above are assigned to this category, which comprises standard risk assets. The bulk of the assets typically found in a loan portfolio would be assigned to the 100 percent category.

b. This category includes long-term claims on, and the portions of long-term claims that are guaranteed by, non-OECD central governments that entail some degree of transfer risk. This category includes all claims on foreign and domestic private-sector obligors not included in the categories above (including loans to nondepository financial institutions and bank holding companies); claims on commercial firms owned by the public sector; customer liabilities to the organization on acceptances outstanding involving standard risk claims; investments in fixed assets, premises, and other real estate owned; common and preferred stock of corporations, including stock acquired for debts previously contracted; all stripped mortgage-backed securities and similar instruments; and commercial and consumer loans (except those assigned to lower risk categories due to recognized guarantees or collateral and loans secured by residential property that qualify for a lower risk weight). This category also includes claims representing capital of a qualifying securities firm.

c. Also included in this category are industrial-development bonds and similar obligations issued under the auspices of states or political subdivisions of the OECD-based group of countries for the benefit of a private party or enterprise where that party or enterprise, not the government entity, is obligated to pay the principal and interest, and all obligations of states or political subdivisions of countries that do not belong to the OECD-based group.

d. The following assets also are assigned a risk weight of 100 percent if they have not been deducted from capital: investments in unconsolidated companies, joint ventures, or associated companies; instruments that qualify as capital issued by other banking organizations; and any intangibles, including

52 Such assets include all nonlocal currency claims on, and the portions of claims that are guaranteed by, non-OECD central governments and those portions of local currency claims on, or guaranteed by, non-OECD central governments that exceed the local currency liabilities held by subsidiary depository institutions.

53 Customer liabilities on acceptances outstanding involving nonstandard risk claims, such as claims on U.S. depository institutions, are assigned to the risk category appropriate to the identity of the obligor or, if relevant, the nature of the collateral or guarantees backing the claims. Portions of acceptances conveyed as risk participations to U.S. depository institutions or foreign banks are assigned to the 20 percent risk category appropriate to short-term claims guaranteed by U.S. depository institutions and foreign banks.
those that may have been grandfathered into capital.

D. Off-Balance Sheet Items

The face amount of an off-balance sheet item is generally incorporated into risk-weighted assets in two steps. The face amount is first multiplied by a credit conversion factor, except for direct credit substitutes and recourse obligations as discussed in section III.D.1. of this appendix. The resultant credit equivalent amount is assigned to the appropriate risk category according to the obligor or, if relevant, the guarantor, the nature of any collateral, or external credit ratings.

1. Items with a 100 percent conversion factor.
   a. Except as otherwise provided in section III.B.3. of this appendix, the full amount of an asset or transaction supported, in whole or in part, by a direct credit substitute or a recourse obligation. Direct credit substitutes and recourse obligations are defined in section III.B.3. of this appendix.
   b. Sale and repurchase agreements and forward agreements. Forward agreements are legally binding contractual obligations to purchase assets with certain drawdown at a specified future date. Such obligations include forward purchases, forward forward deposits placed, and partly-paid shares and securities; they do not include commitments to make residential mortgage loans or forward foreign exchange contracts.
   c. Securities lent by a banking organization are treated in one of two ways, depending upon whether the lender is at risk of loss. If a banking organization, as agent for a customer, lends the customer’s securities and does not indemnify the customer against loss, then the transaction is excluded from the risk-based capital calculation. If, alternatively, a banking organization lends its own securities or, acting as agent for a customer, lends the customer’s securities and indemnifies the customer against loss, the transaction is converted at 100 percent and assigned to the risk weight category appropriate to the obligor, or, if applicable, to any collateral delivered to the lending organization, or the independent custodian acting on the lending organization’s behalf. Where a banking organization is acting as agent for a customer in a transaction involving the lending or sale of securities that is collateralized by cash delivered to the banking organization, the transaction is deemed to be collateralized by cash on deposit in a subsidiary depository institution for purposes of determining the appropriate risk-weight category, provided that any indemnification is limited to no more than the difference between the market value of the securities and the cash collateral received and any reinvestment risk associated with that cash collateral is borne by the customer.
   d. In the case of direct credit substitutes in which a risk participation has been conveyed, the full amount of the assets that are supported, in whole or in part, by the credit enhancement are converted to a credit equivalent amount at 100 percent. However, the pro rata share of the credit equivalent amount that has been conveyed through a risk participation is assigned to whichever risk category is lower: the risk category appropriate to the obligor, after considering any relevant guarantees or collateral, or the risk category appropriate to the institution acquiring the participation. Any remainder is assigned to the risk category appropriate to the obligor, guarantor, or collateral. For example, the pro rata share of the full amount of the assets supported, in whole or in part, by a direct credit substitute conveyed as a risk participation to a U.S. domestic depository institution or foreign bank is assigned to the 20 percent risk category.
   e. In the case of direct credit substitutes in which a risk participation has been acquired, the acquiring banking organization’s percentage share of the direct credit substitute is multiplied by the full amount of the assets that are supported, in whole or in part, by the credit enhancement and converted to a credit equivalent amount at 100 percent. The credit equivalent amount of an acquisition of

54. The sufficiency of collateral and guarantees for off-balance-sheet items is determined by the market value of the collateral or the amount of the guarantee in relation to the face amount of the item, except for derivative contracts, for which this determination is generally made in relation to the credit equivalent amount. Collateral and guarantees are subject to the same provisions noted under section III.B. of this appendix.
55. Forward forward deposits accepted are treated as interest rate contracts.
56. That is, a participation in which the originating banking organization remains liable to the beneficiary for the full amount of the direct credit substitute if the party that has acquired the participation fails to pay when the instrument is drawn.
57. A risk participation in bankers acceptances conveyed to other institutions is also assigned to the risk category appropriate to the institution acquiring the participation or, if relevant, the guarantor or nature of the collateral.
58. Risk participations with a remaining maturity of over one year that are conveyed to non-OECD banks are to be assigned to the 100 percent risk category, unless a lower risk category is appropriate to the obligor, guarantor, or collateral.
a risk participation in a direct credit substitute is assigned to the risk category appropriate to the account party obligor or, if relevant, the nature of the collateral or guarantees.

f. In the case of direct credit substitutes that take the form of a syndication where each banking organization is obligated only for its pro rata share of the risk and there is no recourse to the originating banking organization, each banking organization will only include its pro rata share of the assets supported, in whole or in part, by the direct credit substitute in its risk-based capital calculation.59

2. Items with a 50 percent conversion factor. a. Transaction-related contingencies are converted at 50 percent. Such contingencies include bid bonds, performance bonds, warranties, standby letters of credit related to particular transactions, and performance standby letters of credit, as well as acquisitions of risk participation in performance standby letters of credit. Performance standby letters of credit represent obligations backing the performance of nonfinancial or commercial contracts or undertakings. To the extent permitted by law or regulation, performance standby letters of credit include arrangements backing, among other things, subcontractors’ and suppliers’ performance, labor and materials contracts, and construction bids.

b. The unused portion of commitments with an original maturity exceeding one year, including underwriting commitments, and commercial and consumer credit commitments also are converted at 50 percent. Original maturity is defined as the length of time between the date the commitment is issued and the earliest date on which: (1) The banking organization can, at its option, unconditionally (without cause) cancel the commitment;60 and (2) the banking organization is scheduled to (and as a normal practice actually does) review the facility to determine whether or not it should be extended. Such reviews must continue to be conducted at least annually for such a facility to qualify as a short-term commitment.

3. Commitments are defined as any legally binding arrangements that obligate a banking organization to extend credit in the form of loans or leases; to purchase loans, securities, or other assets; or to participate in loans and leases. They also include overdraft facilities, revolving credit, home equity lines of credit, syndicated credit substitutes, mortgage lines of credit, eligible ABCP liquidity facilities, and similar transactions. Normally, commitments involve a written contract or agreement and a commitment fee, or some other form of consideration. Commitments are included in weighted-risk assets regardless of whether they contain “material adverse change” clauses or other provisions that are intended to relieve the issuer of its funding obligation under certain conditions. In the case of commitments structured as syndications, where the banking organization is obligated solely for its pro rata share, only the organization’s proportional share of the syndicated commitment is taken into account in calculating the risk-based capital ratio.

4. Banking organizations that are subject to the market risk rules are required to convert the notional amount of eligible ABCP liquidity facilities, in form or in substance, with an original maturity of over one year that are carried in the trading account at 50 percent to determine the appropriate credit equivalent amount even though those facilities are structured or characterized as derivatives or other trading book assets. Liquidity facilities that support ABCP, in form or in substance, (including those positions to which the market risk rules may not be applied as set forth in section 2(a) of appendix E of this part) that are not eligible ABCP liquidity facilities are to be considered recourse obligations or direct credit substitutes, and assessed the appropriate risk-based capital treatment in accordance with section III.B.3. of this appendix.

d. Once a commitment has been converted at 50 percent, any portion that has been conveyed to U.S. depository institutions or OECD banks as participations in which the originating banking organization retains the full obligation to the borrower if the participating bank fails to pay when the instrument is drawn, is assigned to the 20 percent risk category. This treatment is analogous to that accorded to conveyances of risk participations in standby letters of credit. The acquisition of a participation in a commitment by a banking organization is converted at 50 percent and assigned to the risk category appropriate to the account party obligor or, if relevant, the nature of the collateral or guarantees.

e. Revolving underwriting facilities (RUFs), note issuance facilities (NIFs), and other similar arrangements also are converted at 50 percent regardless of maturity.

59 For example, if a banking organization has a 10 percent share of a $10 syndicated direct credit substitute that provides credit support to a $100 loan, then the banking organization’s $1 pro rata share in the enhancement means that a $10 pro rata share of the loan is included in risk weighted assets.

60 In the case of consumer home equity or mortgage lines of credit secured by liens on 1-4 family residential properties, the bank is deemed able to unconditionally cancel the commitment for the purpose of this criterion if, at its option, it can prohibit additional extensions of credit, reduce the credit line, and terminate the commitment to the full extent permitted by relevant Federal law.
These are facilities under which a borrower can issue on a revolving basis short-term paper in its own name, but for which the underwriting organizations have a legally binding commitment either to purchase any notes the borrower is unable to sell by the roll-over date or to advance funds to the borrower.

3. Items with a 20 percent conversion factor.
Short-term, self-liquidating trade-related contingencies which arise from the movement of goods are converted at 20 percent. Such contingencies generally include commercial letters of credit and other documentary letters of credit collateralized by the underlying shipments.

4. Items with a 10 percent conversion factor.
Unused portions of eligible ABCP liquidity facilities with an original maturity of one year or less are converted at 10 percent.

b. Banking organizations that are subject to the market risk rules are required to convert the notional amount of eligible ABCP liquidity facilities, in form or in substance, with an original maturity of one year or less that are carried in the trading account at 10 percent to determine the appropriate credit equivalent amount even though those facilities are structured or characterized as derivatives or other trading book assets. Liquidity facilities that support ABCP, in form or in substance, (including those positions to which the market risk rules may not be applied as set forth in section 2(a) of appendix E of this part) that are not eligible ABCP liquidity facilities are to be considered recourse obligations or direct credit substitutes and assessed the appropriate risk-based capital requirement in accordance with section III.B.3. of this appendix.

5. Items with a zero percent conversion factor.
These include unused portions of commitments (with the exception of eligible ABCP liquidity facilities) with an original maturity of one year or less, or which are conditionally cancelable at any time, provided a separate credit decision is made before each drawing under the facility. Unused portions of lines of credit on retail credit cards and related plans are deemed to be short-term commitments if the banking organization has the unconditional right to cancel the line of credit at any time, in accordance with applicable law.

E. Derivative Contracts (Interest Rate, Exchange Rate, Commodity- (including precious metals) and Equity-Linked Contracts)

1. Scope. Credit equivalent amounts are computed for each of the following off-balance-sheet derivative contracts:
a. Interest Rate Contracts. These include single currency interest rate swaps, basis swaps, forward rate agreements, interest rate options purchased (including caps, collars, and floors purchased), and any other instrument linked to interest rates that gives rise to similar credit risks (including when-issued securities and forward forward deposits accepted).
b. Exchange Rate Contracts. These include cross-currency interest rate swaps, forward foreign exchange contracts, currency options purchased, and any other instrument linked to exchange rates that gives rise to similar credit risks.
c. Equity Derivative Contracts. These include equity-linked swaps, equity-linked options purchased, forward equity-linked contracts, and any other instrument linked to equities that gives rise to similar credit risks.
d. Commodity (including precious metal) Derivative Contracts. These include commodity-linked swaps, commodity-linked options purchased, forward commodity-linked contracts, and any other instrument linked to commodities that gives rise to similar credit risks.
e. Exceptions. Exchange rate contracts with an original maturity of fourteen or fewer calendar days and derivative contracts traded on exchanges that require daily receipt and payment of cash variation margin may be excluded from the risk-based ratio calculation. Gold contracts are accorded the same treatment as exchange rate contracts except that gold contracts with an original maturity of fourteen or fewer calendar days are included in the risk-based ratio calculation. Over-the-counter options purchased are included and treated in the same way as other derivative contracts.

2. Calculation of credit equivalent amounts.
a. The credit equivalent amount of a derivative contract that is not subject to a qualifying bilateral netting contract in accordance with section III.E.3. of this appendix A is equal to the sum of (i) the current exposure (sometimes referred to as the replacement cost) of the contract; and (ii) an estimate of the potential future credit exposure of the contract.
b. The current exposure is determined by the mark-to-market value of the contract. If the mark-to-market value is positive, then the current exposure is equal to that mark-to-market value. If the mark-to-market value is zero or negative, then the current exposure is zero. Mark-to-market values are measured in dollars, regardless of the currency or currencies specified in the contract and should reflect changes in underlying rates, prices, and indices, as well as counterparty credit quality.
c. The potential future credit exposure of a contract, including a contract with a negative mark-to-market value, is estimated by multiplying the notional principal amount of the contract by a credit conversion factor. Banking organizations should use, subject to examiner review, the effective rather than the apparent or stated notional amount in this calculation. The credit conversion factors are:
Counterparty, or a counterparty to whom the individual contracts in the event that a defaulting counterparty to make lower payments than it would make otherwise under the contract, or no payment at all, to a defaulter or to the estate of a defaulter, even if the defaulter or the estate of the defaulter is a net creditor under the contract.

A walkaway clause is a provision in a netting contract that permits a non-defaulting counterparty to make lower payments than it would make otherwise under the contract, or no payment at all, to a defaulter or to the estate of a defaulter, even if the defaulter or the estate of the defaulter is a net creditor under the contract.

For purposes of this appendix A, netting refers to the offsetting of positive and negative mark-to-market values when determining a current exposure to be used in the calculation of a credit equivalent amount. Any legally enforceable form of bilateral netting (that is, netting with a single counterparty) of derivative contracts is recognized for purposes of calculating the credit equivalent amount provided that:

1. The netting is accomplished under a written netting contract that creates a single legal obligation, covering all included individual contracts, with the effect that the banking organization would have a claim to receive, or obligation to pay, only the net amount of the sum of the positive and negative mark-to-market values on included individual contracts in the event that a counterparty, or a counterparty to whom the contract has been validly assigned, fails to perform due to any of the following events: default, insolvency, liquidation, or similar circumstances.

   ii. The banking organization obtains a written and reasoned legal opinion(s) representing that in the event of a legal challenge—including one resulting from default, insolvency, liquidation, or similar circumstances—the relevant court and administrative authorities would find the banking organization’s exposure to be the net amount under:

   I. The law of the jurisdiction in which the counterparty is chartered or the equivalent location in the case of noncorporate entities, and if a branch of the counterparty is involved, then also under the law of the jurisdiction in which the branch is located;

   2. The law that governs the individual contracts covered by the netting contract; and

   3. The law that governs the netting contract.

   iii. The banking organization establishes and maintains procedures to ensure that the legal characteristics of netting contracts are kept under review in the light of possible changes in relevant law.

   iv. The banking organization maintains in its files documentation adequate to support the netting of derivative contracts, including a copy of the bilateral netting contract and necessary legal opinions.

b. A contract containing a walkaway clause is not eligible for netting for purposes of calculating the credit equivalent amount.

c. A banking organization netting individual contracts for the purpose of calculating credit equivalent amounts of derivative contracts represents that it has met the requirements of this appendix A and all the appropriate documents are in the banking

---

61 A walkaway clause is a provision in a netting contract that permits a non-defaulting counterparty to make lower payments than it would make otherwise under the contract, or no payment at all, to a defaulter or to the estate of a defaulter, even if the defaulter or the estate of the defaulter is a net creditor under the contract.
organization’s files and available for inspection by the Federal Reserve. The Federal Reserve may determine that a banking organization’s files are inadequate or that a netting contract, or any of its underlying individual contracts, may not be legally enforceable under any one of the bodies of law described in section III.E.3.a.ii. of this appendix A. If such a determination is made, the netting contract may be disqualified from recognition for risk-based capital purposes or underlying individual contracts may be treated as though they are not subject to the netting contract.

d. The credit equivalent amount of contracts that are subject to a qualifying bilateral netting contract is calculated by adding (i) the current exposure of the netting contract (net current exposure) and (ii) the sum of the estimates of potential future credit exposures on all individual contracts subject to the netting contract (gross potential future exposure) adjusted to reflect the effects of the netting contract.62

e. The net current exposure is the sum of all positive and negative mark-to-market values of the individual contracts included in the netting contract. If the net sum of the mark-to-market values is positive, then the net current exposure is equal to that sum. If the net sum of the mark-to-market values is zero or negative, then the net current exposure is zero. The Federal Reserve may determine that a netting contract qualifies for risk-based capital netting treatment even though certain individual contracts included under the netting contract may not qualify. In such instances, the nonqualifying contracts should be treated as individual contracts that are not subject to the netting contract.

f. Gross potential future exposure, or \( A_{\text{gross}} \), is calculated by summing the estimates of potential future exposure (determined in accordance with section III.E.2 of this appendix A) for each individual contract subject to the qualifying bilateral netting contract.

g. The effects of the bilateral netting contract on the gross potential future exposure are recognized through the application of a formula that results in an adjusted add-on amount \( A_{\text{net}} \). The formula, which employs the ratio of net current exposure to gross current exposure (NGR), is expressed as:

\[
A_{\text{net}} = (0.4 \times A_{\text{gross}}) + 0.6(A_{\text{net}} \times A_{\text{gross}})
\]

62 For purposes of calculating potential future credit exposure to a netting counterparty for foreign exchange contracts and other similar contracts in which notional principal is equivalent to cash flows, total notional principal is defined as the net receipts falling due on each value date in each currency.

h. The NGR may be calculated in accordance with either the counterparty-by-counterparty approach or the aggregate approach.

i. Under the counterparty-by-counterparty approach, the NGR is the ratio of the net current exposure for a netting contract to the gross current exposure of the netting contract. The gross current exposure is the sum of the current exposures of all individual contracts subject to the netting contract calculated in accordance with section III.E.2 of this appendix A. Net negative mark-to-market values for individual netting contracts with the same counterparty may not be used to offset net positive mark-to-market values for other netting contracts with the same counterparty.

ii. Under the aggregate approach, the NGR is the ratio of the sum of all of the net current exposures for qualifying bilateral netting contracts to the sum of all of the gross current exposures for those netting contracts (each gross current exposure is calculated in the same manner as in section III.E.3.b.i. of this appendix A). Net negative mark-to-market values for individual counterparties may not be used to offset net positive current exposures for other counterparties.

iii. A banking organization must use consistently either the counterparty-by-counterparty approach or the aggregate approach to calculate the NGR. Regardless of the approach used, the NGR should be applied individually to each qualifying bilateral netting contract to determine the adjusted add-on for that netting contract.

i. In the event a netting contract covers contracts that are normally excluded from the risk-based ratio calculation—for example, exchange rate contracts with an original maturity of fourteen or fewer calendar days or instruments traded on exchanges that require daily payment and receipt of cash variation margin—an institution may elect to either include or exclude all mark-to-market values of such contracts when determining net current exposure, provided the method chosen is applied consistently.

4. Risk Weights. Once the credit equivalent amount for a derivative contract, or a group of derivative contracts subject to a qualifying bilateral netting contract, has been determined, that amount is assigned to the risk category appropriate to the counterparty, or, if relevant, the guarantor or the nature of any collateral.63 However,
the maximum risk weight applicable to the credit equivalent amount of such contracts is 50 percent.

5. Avoidance of double counting. a. In certain cases, credit exposures arising from the derivative contracts covered by section III.E. of this appendix A may already be reflected, in part, on the balance sheet. To avoid double counting such exposures in the assessment of capital adequacy and, perhaps, assigning inappropriate risk weights, counterparty credit exposures arising from the derivative instruments covered by these guidelines may need to be excluded from balance sheet assets in calculating a banking organization’s risk-based capital ratios.

b. Examples of the calculation of credit equivalent amounts for contracts covered under this section III.E. are contained in Attachment V of this appendix A.

IV. Minimum Supervisory Ratios and Standards

The interim and final supervisory standards set forth below specify minimum supervisory ratios based primarily on broad credit risk considerations. As noted above, the risk-based ratio does not take explicit account of the quality of individual asset portfolios or the range of other types of risks to which banking organizations may be exposed, such as interest rate, liquidity, market or operational risks. For this reason, banking organizations are generally expected to operate with capital positions well above the minimum ratios.

Institutions with high or inordinate levels of risk are expected to operate well above minimum capital standards. Banking organizations experiencing or anticipating significant growth are also expected to maintain capital, including tangible capital positions, well above the minimum levels. For example, most such organizations generally have operated at capital levels ranging from 100 to 200 basis points above the stated minimums. Higher capital ratios could be required if warranted by the particular circumstances or risk profiles of individual banking organizations. In all cases, organizations should hold capital commensurate with the level and nature of all of the risks, including the volume and severity of problem loans, to which they are exposed.

Upon adoption of the risk-based framework, any organization that does not meet the interim or final supervisory ratios, or whose capital is otherwise considered inadequate, is expected to develop and implement a plan acceptable to the Federal Reserve for achieving an adequate level of capital consistent with the provisions of these guidelines or with the special circumstances affecting the individual organization. In addition, such organizations should avoid any actions, including increased risk-taking or unwarranted expansion, that would lower or further erode their capital positions.

A. Minimum Risk-Based Ratio After Transition Period

As reflected in Attachment VI, by year-end 1992, all bank holding companies should meet a minimum ratio of qualifying total capital to weighted risk assets of 8 percent, of which at least 4.0 percentage points should be in the form of Tier 1 capital. For purposes of section IV.A., Tier 1 capital is defined as the sum of core capital elements less goodwill and other intangible assets required to be deducted in accordance with section II.B.1.b. of this appendix. The maximum amount of supplementary capital elements that qualifies as Tier 2 capital is limited to 100 percent of Tier 1 capital. In addition, the combined maximum amount of subordinated debt and intermediate-term preferred stock that qualifies as Tier 2 capital is limited to 50 percent of Tier 1 capital. The maximum amount of the allowance for loan and lease losses that qualifies as Tier 2 capital is limited to 1.25 percent of gross weighted risk assets. Allowances for loan and lease losses in excess of this limit may, of course, be maintained, but would not be included in an organization’s total capital. The Federal Reserve will continue to require bank holding companies to maintain reserves at levels fully sufficient to cover losses inherent in their loan portfolios.

Qualifying total capital is calculated by adding Tier 1 capital and Tier 2 capital (limited to 100 percent of Tier 1 capital) and then deducting from this sum certain investments in banking or finance subsidiaries that are not consolidated for accounting or supervisory purposes, reciprocal holdings of banking organizations’ capital securities, or other items at the direction of the Federal Reserve. The conditions under which these deductions are to be made and the procedures for making the deductions are discussed above in section II(B).

B. Transition Arrangements

The transition period for implementing the risk-based capital standard ends on December 31, 1992. Initially, the risk-based capital guidelines do not establish a minimum level

64 As noted in section I, bank holding companies with less than $500 million in consolidated assets would generally be exempt from the calculation and analysis of risk-based ratios on a consolidated holding company basis, subject to certain terms and conditions.
of capital. However, by year-end 1990, banking organizations are expected to meet a minimum interim target ratio for qualifying total capital to weighted risk assets of 7.25 percent, at least one-half of which should be in the form of Tier 1 capital. For purposes of meeting the 1990 interim target, the amount of loan loss reserves that may be included in capital is limited to 1.5 percent of weighted risk assets and up to 10 percent of an organization’s Tier 1 capital may consist of supplementary capital elements. Thus, the 7.25 percent interim target ratio implies a minimum ratio of Tier 1 capital to weighted risk assets of 3.6 percent (one-half of 7.25) and a minimum ratio of core capital elements to weighted risk assets ratio of 3.25 percent (nine-tenths of the Tier 1 capital ratio).

Through year-end 1990, banking organizations have the option of complying with the minimum 7.25 percent year-end 1990 risk-based capital standard, in lieu of the minimum 5.5 percent primary and 6 percent total capital to total assets ratios set forth in appendix B of this part. In addition, as more fully set forth in appendix D to this part, banking organizations are expected to maintain a minimum ratio of Tier 1 capital to total assets during this transition period.

### ATTACHMENT I—SAMPLE CALCULATION OF RISK-BASED CAPITAL RATIO FOR BANK HOLDING COMPANIES

Example of a banking organization with $6,000 in total capital and the following assets and off-balance sheet items:

<table>
<thead>
<tr>
<th>Balance Sheet Assets</th>
<th>Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cash</td>
<td>$5,000</td>
</tr>
<tr>
<td>U.S. Treasuries</td>
<td>$20,000</td>
</tr>
<tr>
<td>Balances at domestic banks</td>
<td>$5,000</td>
</tr>
<tr>
<td>Loans secured by first liens on 1–4 family residential properties</td>
<td>$5,000</td>
</tr>
<tr>
<td>Loans to private corporations</td>
<td>$65,000</td>
</tr>
</tbody>
</table>

Total Balance Sheet Assets $100,000

<table>
<thead>
<tr>
<th>Off-Balance Sheet Items</th>
<th>Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>Standby letters of credit (“SLCs”) backing general obligation debt issues of U.S. municipalities (“GOs”)</td>
<td>$10,000</td>
</tr>
<tr>
<td>Long-term legally binding commitments to private corporations</td>
<td>$20,000</td>
</tr>
</tbody>
</table>

Total Off/Balance Sheet Items $30,000

This bank holding company’s total capital to total assets (leverage) ratio would be: ($6,000/$100,000) = 6.00%.

To compute the bank holding company’s weighted risk assets:

1. Compute the credit equivalent amount of each off-balance sheet (“OBS”) item.

<table>
<thead>
<tr>
<th>OBS item</th>
<th>Face value</th>
<th>Conversion factor</th>
<th>Credit equivalent amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>SLCs backing municipal GOs</td>
<td>$10,000</td>
<td>1.00</td>
<td>$10,000</td>
</tr>
<tr>
<td>Long-term commitments to private corporations</td>
<td>$20,000</td>
<td>0.50</td>
<td>$10,000</td>
</tr>
</tbody>
</table>

2. Multiply each balance sheet asset and the credit equivalent amount of each OBS item by the appropriate risk weight.

<table>
<thead>
<tr>
<th>Risk category</th>
<th>Asset</th>
<th>Conversion factor</th>
<th>Credit equivalent amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>0% Category:</td>
<td>Cash</td>
<td></td>
<td></td>
</tr>
<tr>

<tr>
<td>20% Category:</td>
<td>Balances at domestic banks</td>
<td>5,000</td>
<td>15,000</td>
</tr>
<tr>
<td></td>
<td>Credit equivalent amounts of SLCs backing GOs of U.S. municipalities</td>
<td>10,000</td>
<td>10,000</td>
</tr>
<tr>
<td>50% Category:</td>
<td>Loans secured by first liens on 1–4 family residential properties</td>
<td>5,000</td>
<td>5,000</td>
</tr>
<tr>
<td>100% Category:</td>
<td>Loans to private corporations</td>
<td>65,000</td>
<td>65,000</td>
</tr>
<tr>
<td></td>
<td>Credit equivalent amounts of long-term commitments to private corporations</td>
<td>10,000</td>
<td>10,000</td>
</tr>
</tbody>
</table>

Total Risk-weighted Assets $80,500

This bank holding company’s ratio of total capital to weighted risk assets (risk-based capital ratio) would be: ($6,000/$80,500) = 7.45%

[Reg. Y, 54 FR 4209, Jan. 27, 1989]

EDITORIAL NOTE: For Federal Register citations affecting appendix A to part 225, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and on GPO Access.
APPENDIX A TO PART 225—CAPITAL ADEQUACY GUIDELINES FOR BANK HOLDING COMPANIES: RISK-BASED MEASURE

II. * * *

1. * * *

a. Goodwill. Goodwill is an intangible asset that represents the excess of the cost of an acquired entity over the net of the amounts assigned to assets acquired and liabilities assumed. Goodwill is deducted from the sum of core capital elements in determining tier 1 capital.

APPENDIX B TO PART 225—CAPITAL ADEQUACY GUIDELINES FOR BANK HOLDING COMPANIES AND STATE MEMBER BANKS: LEVERAGE MEASURE

The Board of Governors of the Federal Reserve System has adopted minimum capital ratios and guidelines to provide a framework for assessing the adequacy of the capital of bank holding companies and state member banks (collectively “banking organizations”). The guidelines generally apply to all state member banks and bank holding companies regardless of size and are to be used in the examination and supervisory process as well as in the analysis of applications acted upon by the Federal Reserve. The Board of Governors will review the guidelines from time to time for possible adjustment commensurate with changes in the economy, financial markets, and banking practices. In this regard, the Board has determined that during the transition period through year-end 1990 for implementation of the risk-based capital guidelines contained in appendix A to this part and in appendix A to part 208, a banking organization may choose to fulfill the requirements of the guidelines relating to capital to total assets contained in this appendix in one of two manners. Until year-end 1990, a banking organization may choose to conform to either the 5.5 percent and 6 percent minimum primary and total capital standards set forth in this appendix, or the 7.25 percent year-end 1990 minimum risk-based capital standard set forth in appendix A to this part and appendix A to part 208. Those organizations that choose to conform during this period to the 7.25 percent year-end 1990 risk-based capital standard will be deemed to be in compliance with the capital adequacy guidelines set forth in this appendix.

Two principal measurements of capital are used—the primary capital ratio and the total capital ratio. The definitions of primary and total capital for banks and bank holding companies and formulas for calculating the capital ratios are set forth below in the definitional sections of these guidelines.

**CAPITAL GUIDELINES**

The Board has established a minimum level of primary capital to total assets of 5.5 percent and a minimum level of total capital to total assets of 6.0 percent. Generally, banking organizations are expected to operate above the minimum primary and total capital levels. Those organizations whose operations involve or are exposed to high or intermediate degrees of risk will be expected to hold additional capital to compensate for these risks.

In addition, the Board has established the following three zones for total capital for banking organizations of all sizes:

**TOTAL CAPITAL RATIO**

<table>
<thead>
<tr>
<th>Zone</th>
<th>Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Above 7.0</td>
</tr>
<tr>
<td>2</td>
<td>6.0 to 7.0</td>
</tr>
<tr>
<td>3</td>
<td>Below 6.0</td>
</tr>
</tbody>
</table>

The capital guidelines assume adequate liquidity and a moderate amount of risk in the loan and investment portfolios and in other...
balance sheet activities. The Board is concerned that some banking organizations may attempt to comply with the guidelines in ways that reduce their liquidity or increase risk. Banking organizations should avoid the practice of attempting to meet the guidelines by decreasing the level of liquid assets in relation to total assets. In assessing compliance with the guidelines, the Federal Reserve will take into account liquidity and the overall degree of risk associated with an organization’s operations, including the volume of assets exposed to risk.

The Federal Reserve will also take into account the sale of loans or other assets with recourse and the volume and nature of all off-balance sheet risk. Particularly close attention will be directed to risks associated with standby letters of credit and participation in joint venture activities. The Federal Reserve will review the relationship of all on- and off-balance sheet risks to capital and will require those institutions with high or inordinate levels of risk to hold additional primary capital. In addition, the Federal Reserve will continue to review the need for more explicit procedures for factoring on- and off-balance sheet risks into the assessment of capital adequacy.

The capital guidelines apply to both banks and bank holding companies on a consolidated basis. Some banking organizations are engaged in significant nonbanking activities that typically require capital ratios higher than those of commercial banks alone. The Board believes that, as a matter of both safety and soundness and competitive equity, the degree of leverage common in banking should not automatically extend to nonbanking activities. Consequently, in evaluating the consolidated capital positions of banking organizations, the Board is placing greater weight on the building-block approach for assessing capital requirements. This approach generally provides that nonbank subsidiaries of a banking organization should maintain levels of capital consistent with the levels that have been established by industry norms or standards, by Federal or State regulatory agencies for similar firms that are not affiliated with banking organizations, or that may be established by the Board after taking into account risk factors of a particular industry. The assessment of an organization’s consolidated capital adequacy must take into account the amount and nature of all offbalance activities, and an institution’s consolidated capital position should at least equal the sum of the capital requirements of the organization’s bank and nonbank subsidiaries as well as those of the parent company.

**SUPERVISORY ACTION**

The nature and intensity of supervisory action will be determined by an organization’s compliance with the required minimum primary capital ratio as well as by the zone in which the company’s total capital ratio falls. Banks and bank holding companies with primary capital ratios below the 5.5 percent minimum will be considered undercapitalized unless they can demonstrate clear extenuating circumstances. Such banking organizations will be required to submit an acceptable plan for achieving compliance with the capital guidelines and will be subject to denial of applications and appropriate supervisory enforcement actions.

The zone in which an organization’s total capital ratio falls will normally trigger the following supervisory responses, subject to qualitative analysis:

For institutions operating in Zone 1, the Federal Reserve will:

- Consider that capital is generally adequate if the primary capital ratio is acceptable to the Federal Reserve and is above the 5.5 percent minimum.

For institutions operating in Zone 2, the Federal Reserve will:

- Pay particular attention to financial factors, such as asset quality, liquidity, off-balance sheet risk, and interest rate risk, as they relate to the adequacy of capital. If these areas are deficient and the Federal Reserve concludes capital is not fully adequate, the Federal Reserve will intensify its monitoring and take appropriate supervisory action.

For institutions operating in Zone 3, the Federal Reserve will:

- Consider that the institution is undercapitalized, absent clear extenuating circumstances;
- Require the institution to submit a comprehensive capital plan, acceptable to the Federal Reserve, that includes a program for achieving compliance with the required minimum ratios within a reasonable time period; and
- Institute appropriate supervisory and/or administrative enforcement action, which may include the issuance of a capital directive or denial of applications, unless a
Federal Reserve System

TREATMENT OF INTANGIBLE ASSETS FOR THE PURPOSE OF ASSESSING THE CAPITAL ADEQUACY OF BANK HOLDING COMPANIES AND STATE MEMBER BANKS

In considering the treatment of intangible assets for the purpose of assessing capital adequacy, the Federal Reserve recognizes that the determination of the future benefits and useful lives of certain intangible assets may involve a degree of uncertainty that is not normally associated with other banking assets. Supervisory concern over intangible assets derives from this uncertainty and from the possibility that, in the event an organization experiences financial difficulties, such assets may not provide the degree of support generally associated with other assets. For this reason, the Federal Reserve will carefully review the level and specific character of intangible assets in evaluating the capital adequacy of state member banks and bank holding companies.

The Federal Reserve recognizes that intangible assets may differ with respect to predictability of any income stream directly associated with a particular asset, the existence of a market for the asset, the ability to sell the asset, or the reliability of any estimate of the asset’s useful life. Certain intangible assets have predictable income streams and objectively verifiable values and may contribute to an organization’s profitability and overall financial strength. The value of other intangibles, such as goodwill, may involve a number of assumptions and may be more subject to changes in general economic circumstances or to changes in an individual institution’s future prospects. Consequently, the value of such intangible assets may be difficult to ascertain. Consistent with prudent banking practices and the principle of the diversification of risks, banking organizations should avoid excessive balance sheet concentration in any category or related categories of intangible assets.

Bank Holding Companies

While the Federal Reserve will consider the amount and nature of all intangible assets, those holding companies with aggregate intangible assets in excess of 25 percent of tangible primary capital (i.e., stated primary capital less all intangible assets) or those institutions with lesser, although still significant, amounts of goodwill will be subject to close scrutiny. For the purpose of assessing capital adequacy, the Federal Reserve may, on a case-by-case basis, make adjustments to an organization’s capital ratios based upon the amount of intangible assets in excess of the 25 percent threshold level or upon the specific character of the organization’s intangible assets in relation to its overall financial condition. Such adjustments may require some organizations to raise additional capital.

The Board expects banking organizations (including state member banks) contemplating expansion proposals to ensure that pro forma capital ratios exceed the minimum capital levels without significant reliance on intangibles, particularly goodwill. Consequently, in reviewing acquisition proposals, the Board will take into consideration both the stated primary capital ratio (that is, the ratio without any adjustment for intangible assets) and the primary capital ratio after deducting intangibles. In acting on applications, the Board will take into account the nature and amount of intangible assets and will, as appropriate, adjust capital ratios to include certain intangible assets on a case-by-case basis.

State Member Banks

State member banks with intangible assets in excess of 25 percent of intangible primary capital will be subject to close scrutiny. In addition, for the purpose of calculating capital ratios of state member banks, the Federal Reserve will deduct goodwill from primary capital and total capital. The Federal Reserve may, on a case-by-case basis, make further adjustments to a bank’s capital ratios based on the amount of intangible assets (aside from goodwill) in excess of the 25 percent threshold level or on the specific character of the bank’s intangible assets in relation to its overall financial condition. Such adjustments may require some banks to raise additional capital.

In addition, state member banks and bank holding companies are expected to review periodically the value at which intangible assets are carried on their balance sheets to determine whether there has been any impairment of value or whether changing circumstances warrant a shortening of amortization periods. Institutions should make appropriate reductions in carrying values and amortization periods in light of this review, and examiners will evaluate the treatment of intangible assets during on-site examinations.

DEFINITION OF CAPITAL TO BE USED IN DETERMINING CAPITAL ADEQUACY OF BANK HOLDING COMPANIES AND STATE MEMBER BANKS

Primary Capital Components

The components of primary capital are:

- Common stock,
- Perpetual preferred stock (preferred stock that does not have a stated maturity date and that may not be redeemed at the option of the holder),
- Surplus (excluding surplus relating to limited-life preferred stock),
- Undivided profits,
- Contingency and other capital reserves,
—Mandatory convertible instruments,\(^2\)
—Allowance for possible loan and lease losses (exclusive of allocated transfer risk reserves),
—Minority interest in equity accounts of consolidated subsidiaries,
—Perpetual debt instruments (for bank holding companies but not for state member banks).

**Limits on Certain Forms of Primary Capital**

**Bank Holding Companies.** The maximum composite amount of mandatory convertible securities, perpetual debt, and perpetual preferred stock that may be counted as primary capital for bank holding companies is limited to 20 percent of all primary capital, including these instruments. Perpetual preferred stock issued prior to November 20, 1985 (or determined by the Federal Reserve to be in the process of being issued prior to that date), shall continue to be included as primary capital.

The maximum composite amount of mandatory convertible securities and perpetual debt that may be counted as primary capital for bank holding companies is limited to 10 percent of all primary capital, including these instruments. The maximum amount of equity commitment notes (a form of mandatory convertible securities) that may be counted as primary capital for a bank holding company is limited to 10 percent of all primary capital, including mandatory convertible securities. Amounts outstanding in excess of these limitations may be counted as secondary capital provided they meet the requirements of secondary capital instruments.

**State Member Banks.** The composite limits on the amount of mandatory convertible securities and perpetual preferred stock (perpetual debt is not primary capital for state member banks) that may serve as primary capital for bank holding companies shall not be applied formally to state member banks, although the Board shall determine appropriate limits for these forms of primary capital on a case-by-case basis.

The maximum amount of mandatory convertible securities that may be counted as primary capital for state member banks is limited to 162/3 percent of all primary capital, including mandatory convertible securities. Equity commitment notes, one form of mandatory convertible securities, shall not be included as primary capital for state member banks, except that notes issued by state member banks prior to May 15, 1983, will continue to be included in primary capital. Amounts of mandatory convertible securities in excess of these limitations may be counted as secondary capital if they meet the requirements of secondary capital instruments.

**Secondary Capital Components**

The components of secondary capital are:
—Limited-life preferred stock (including related surplus) and
—Bank subordinated notes and debentures and unsecured long-term debt of the parent company and its nonbank subsidiaries.

**Restrictions Relating to Capital Components**

To qualify as primary or secondary capital, a capital instrument should not contain or be covered by any covenants, terms, or restrictions that are inconsistent with safe and sound banking practices. Examples of such terms are those regarded as unduly interfering with the ability of the bank or holding company to conduct normal banking operations or those resulting in significantly higher dividends or interest payments in the event of a deterioration in the financial condition of the issuer.

The secondary components must meet the following conditions to qualify as capital:
—The instrument must have an original weighted-average maturity of at least seven years.
—The instrument must be unsecured.
—The instrument must clearly state on its face that it is not a deposit and is not insured by a Federal agency.
—Bank debt instruments must be subordinated to claims of depositors.
—For banks only, the aggregate amount of limited-life preferred stock and subordinated debt qualifying as capital may not exceed 50 percent of the amount of the bank’s primary capital.

As secondary capital components approach maturity, the banking organization must plan to redeem or replace the instruments while maintaining an adequate overall capital position. Thus, the remaining maturity of secondary capital components will be an important consideration in assessing the adequacy of total capital.

**Capital Ratios**

The primary and total capital ratios for bank holding companies are computed as follows:

**Primary capital ratio:**

\[
\frac{\text{Primary capital components}}{\text{Total assets}} + \frac{\text{Allowance for loan and lease losses (exclusive of allocated transfer risk reserves)}}{\text{Total assets}}
\]

**Total capital ratio:**

\[
\frac{\text{Primary capital components + Secondary capital components}}{\text{Total assets}} + \frac{\text{Allowance for loan and lease losses (exclusive of allocated transfer risk reserves)}}{\text{Total assets}}
\]
Primary capital ratio:
Primary capital components—Goodwill/Average total assets + Allowance for loan and lease losses (exclusive of allocated transfer risk reserves)—Goodwill

Total capital ratio:
Primary capital components + Secondary capital components—Goodwill/Average total assets + Allowance for loan and lease losses (exclusive of allocated transfer risk reserves)—Goodwill

Generally, period-end amounts will be used to calculate bank holding company ratios. However, the Federal Reserve will discourage temporary balance sheet adjustments or any other “window dressing” practices designed to achieve transitory compliance with the guidelines. Banking organizations are expected to maintain adequate capital positions at all times. Thus, the Federal Reserve will, on a case-by-case basis, use average total assets in the calculation of bank holding company capital ratios whenever this approach provides a more meaningful indication of an individual holding company’s capital position.

For the calculation of bank capital ratios, “average total assets” will generally be defined as the quarterly average total assets figure reported on the bank’s Report of Condition. If warranted, however, the Federal Reserve may calculate bank capital ratios based upon total assets as of period-end. All other components of the bank’s capital ratios will be based upon period-end balances.

Criteria for Determining the Primary Capital Status of Mandatory Convertible Securities of Bank Holding Companies and State Member Banks

Mandatory convertible securities are subordinated debt instruments that are eventually transformed into common or perpetual preferred stock within a specified period of time, not to exceed 12 years. To be counted as primary capital, mandatory convertible securities must meet the criteria set forth below. These criteria cover the two basic types of mandatory convertible securities: “equity contract notes”—securities that obligate the holder to take common or perpetual preferred stock of the issuer in lieu of cash for repayment of principal, and “equity commitment notes”—securities that are redeemable only with the proceeds from the sale of common or perpetual preferred stock. Both equity commitment notes and equity contract notes qualify as primary capital for bank holding companies, but only equity contract notes qualify as primary capital for banks.

Criteria Applicable to Both Types of Mandatory Convertible Securities

a. The securities must mature in 12 years or less.
b. The issuer may redeem securities prior to maturity only with the proceeds from the sale of common or perpetual preferred stock of the bank or bank holding company. Any exception to this rule must be approved by the Federal Reserve. The securities may not be redeemed with the proceeds of another issue of mandatory convertible securities. Nor may the issuer repurchase or acquire its own mandatory convertible securities for resale or reissuance.
c. Holders of the securities may not accelerate the payment of principal except in the event of bankruptcy, insolvency, or reorganization.
d. The securities must be subordinate in right of payment to all senior indebtedness of the issuer. In the event that the proceeds of the securities are reloaned to an affiliate, the loan must be subordinated to the same degree as the original issue.
e. An issuer that intends to dedicate the proceeds of an issue of common or perpetual preferred stock to satisfy the funding requirements of an issue of mandatory convertible securities (i.e., the requirement to retire or redeem the notes with the proceeds from the issuance of common or perpetual preferred stock) generally must make such a dedication during the quarter in which the new common or preferred stock is issued.3 As a general rule, if the dedication is not made within the prescribed period, then the securities issued may not at a later date be dedicated to the retirement or redemption of the mandatory convertible securities.4

3 Common or perpetual preferred stock issued under dividend reinvestment plans or issued to finance acquisitions, including acquisitions of business entities, may be dedicated to the retirement or redemption of the mandatory convertible securities. Documentation certified by an authorized agent of the issuer showing the amount of common stock or perpetual preferred stock issued, the dates of issue, and amounts of such issues dedicated to the retirement or redemption of the mandatory convertible securities will satisfy the dedication requirement.

4 The dedication procedure is necessary to ensure that the primary capital of the issuer is not overstated. For each dollar of common or perpetual preferred proceeds dedicated to the retirement or redemption of the notes, there is a corresponding reduction in the amount of outstanding mandatory securities that may qualify as primary capital. De minimis amounts (in relation to primary capital) of common or perpetual preferred stock issued under arrangements in which the

Continued

Continued
Additional Criteria Applicable to Equity Contract Notes

a. The note must contain a contractual provision (or must be issued with a mandatory stock purchase contract) that requires the holder of the instrument to take the common or perpetual stock of the issuer in lieu of cash in satisfaction of the claim for principal repayment. The obligation of the holder to take the common or perpetual preferred stock of the issuer may be waived if, and to the extent that, prior to the maturity date of the obligation, the issuer sells new common or perpetual preferred stock and dedicates the proceeds to the retirement or redemption of the notes. The dedication generally must be made during the quarter in which the new common or preferred stock is issued.

b. A stock purchase contract may be separated from a security only if: (1) The holder of the contract provides sufficient collateral to the issuer, or to an independent trustee for the benefit of the issuer, to assure performance under the contract and (2) the stock purchase contract requires the purchase of common or perpetual preferred stock.

Additional Criteria Applicable to Equity Commitment Notes

a. The indenture or note agreement must contain the following two provisions:

1. The proceeds of the sale of common or perpetual preferred stock will be the sole source of repayment for the notes, and the issuer must dedicate the proceeds for the purpose of repaying the notes. (Documentation certified by an authorized agent of the issuer showing the amount of common or perpetual preferred stock issued, the dates of issue, and amounts of such issues dedicated to the retirement or redemption of mandatory convertible securities will satisfy the dedication requirement.)

2. By the time that one-third of the life of the securities has run, the issuer must have raised and dedicated an amount equal to one-third of the original principal of the securities. By the time that two-thirds of the life of the securities has run, the issuer must have raised and dedicated an amount equal to two-thirds of the original principal of the securities. At least 60 days prior to the maturity of the securities, the issuer must have raised and dedicated an amount equal to the entire original principal of the securities. Proceeds dedicated to redemption or retirement of the notes must come only from the sale of common or perpetual preferred stock.

b. If the issuer fails to meet any of these periodic funding requirements, the Federal Reserve immediately will cease to treat the unfunded securities as primary capital and will take appropriate supervisory action. In addition, failure to meet the funding requirements will be viewed as a breach of a regulatory commitment and will be taken into consideration by the Board in acting on statutory applications.

c. If a security is issued by a subsidiary of a bank or bank holding company, any guarantee of the principal by that subsidiary’s parent bank or bank holding company must be subordinate to the same degree as the security issued by the subsidiary and limited to repayment of the principal amount of the security at its final maturity.

Criteria for Determining the Primary Capital Status of Perpetual Debt Instruments of Bank Holding Companies

1. The instrument must be unsecured and, if issued by a bank, must be subordinated to the claims of depositors.

2. The instrument may not provide the noteholder with the right to demand repayment of principal except in the event of bankruptcy, insolvency, or reorganization. The instrument must provide that nonpayment of interest shall not trigger repayment of the principal of the perpetual debt note or any other obligation of the issuer, nor shall it constitute prima facie evidence of insolvency or bankruptcy.

3. The issuer shall not voluntarily redeem the debt issue without prior approval of the Federal Reserve, except when the debt is converted to, exchanged for, or simultaneously replaced in like amount by an issue of common or perpetual preferred stock of the issuer or the issuer’s parent company.

4. If issued by a bank holding company, a bank subsidiary, or a subsidiary with substantial operations, the instrument must contain a provision that allows the issuer to...
Federal Reserve System

defer interest payments on the perpetual debt in the event of, and at the same time as the elimination of dividends on all outstanding common or preferred stock of the issuer (or in the case of a guarantee by a parent company at the same time as the elimination of the dividends of the parent company’s common and preferred stock). In the case of a nonoperating subsidiary (a funding subsidiary or one formed to issue securities), the deferral of interest payments must be triggered by elimination of dividends by the parent company.

5. If issued by a bank holding company or a subsidiary with substantial operations, the instrument must convert automatically to common or perpetual preferred stock of the issuer when the issuer’s retained earnings and surplus accounts become negative. If an operating subsidiary’s perpetual debt is guaranteed by its parent, the debt may convert to the shares of the issuer or guarantor and such conversion may be triggered when the issuer’s or parent’s retained earnings and surplus accounts become negative. If issued by a nonoperating subsidiary of a bank holding company or bank, the instrument must convert automatically to common or preferred stock of the issuer’s parent when the retained earnings and surplus accounts of the issuer’s parent become negative.

APPENDIX C TO PART 225—SMALL BANK HOLDING COMPANY POLICY STATEMENT

Policy Statement on Assessment of Financial and Managerial Factors

In acting on applications filed under the Bank Holding Company Act, the Board has adopted, and continues to follow, the principle that bank holding companies should serve as a source of strength for their subsidiary banks. When bank holding companies incur debt and rely upon the earnings of their subsidiary banks as the means of repaying such debt, a question arises as to the probable effect upon the financial condition of the holding company and its subsidiary bank or banks.

The Board believes that a high level of debt at the parent holding company impairs the ability of a bank holding company to provide financial assistance to its subsidiary bank(s) and, in some cases, the servicing requirements on such debt may be a significant drain on the resources of the bank(s). For these reasons, the Board has not favored the use of acquisition debt in the formation of bank holding companies or in the acquisition of additional banks. Nevertheless, the Board has recognized that the transfer of ownership of small banks often requires the use of acquisition debt. The Board, therefore, has permitted the formation and expansion of small bank holding companies with debt levels higher than would be permitted for larger holding companies. Approval of applications has been given on the condition that small bank holding companies demonstrate the ability to service acquisition debt without straining the capital of their subsidiary banks and, further, that such companies restore their ability to serve as a source of strength for their subsidiary banks within a relatively short period of time.

In the interest of continuing its policy of facilitating the transfer of ownership in banks without compromising bank safety and soundness, the Board has, as described below, adopted the following procedures and standards for the formation and expansion of small bank holding companies subject to this policy statement.

1. APPLICABILITY OF POLICY STATEMENT

This policy statement applies only to bank holding companies with pro forma consolidated assets of less than $500 million that (i) are not engaged in significant nonbanking activities either directly or through a nonbank subsidiary; (ii) do not conduct significant off-balance sheet activities (including securitization and asset management or administration) either directly or through a nonbank subsidiary; and (iii) do not have a material amount of debt or equity securities outstanding (other than trust preferred securities) that are registered with the Securities and Exchange Commission. The Board may in its discretion exclude any bank holding company, regardless of asset size, from the policy statement if such action is warranted for supervisory purposes.

While this policy statement primarily applies to the formation of small bank holding companies, it also applies to existing small bank holding companies that wish to acquire an additional bank or company and to transactions involving changes in control, stock redemptions, or other shareholder transactions.

2. ONGOING REQUIREMENTS

The following guidelines must be followed on an ongoing basis for all organizations operating under this policy statement.

A. Reduction in parent company leverage: Small bank holding companies are to reduce their parent company debt consistent with the requirement that all debt be retired within 25 years of being incurred. The Board

---

2 The appropriate Reserve Bank should be contacted to determine the manner in which a specific situation may qualify for treatment under this policy statement.
also expects that these bank holding companies reach a debt to equity ratio of .30:1 or less within 12 years of the incurrence of the debt.\(^3\) The bank holding company must also

\(^3\) The term debt, as used in the ratio of debt to equity, means any borrowed funds (exclusive of short-term borrowings that arise out of current transactions, the proceeds of which are used for current transactions), and any securities issued by, or obligations of, the holding company that are the functional equivalent of borrowed funds.

Subordinated debt associated with trust preferred securities generally would be treated as debt for purposes of paragraphs 2.C., 3.A., 4.A.i, and 4.B.i. of this policy statement. A bank holding company, however, may exclude from debt any amount of subordinated debt associated with trust preferred securities up to 25 percent of the holding company’s equity (as defined below) less goodwill on the parent company’s balance sheet in determining compliance with the requirements of such paragraphs of the policy statement. In addition, a bank holding company subject to this Policy Statement that has not issued subordinated debt associated with trust preferred securities until December 31, 2010, Bank holding companies subject to this Policy Statement may also exclude from debt any subordinated debt associated with trust preferred securities until December 31, 2010. Any subordinated debt associated with refinanced issuances of trust preferred securities until December 31, 2010, with that refinancing does not increase the bank holding company’s outstanding amount of subordinated debt. Subordinated debt associated with trust preferred securities will not be included as debt in determining compliance with any other requirements of this policy statement.

The term equity, as used in the ratio of debt to equity, means the total stockholders’ equity of the bank holding company as defined in accordance with generally accepted accounting principles. In determining the total amount of stockholders’ equity, the bank holding company should account for its investments in the common stock of subsidiaries by the equity method of accounting.

Ordinarily the Board does not view redeemable preferred stock as a substitute for common stock in a small bank holding company. Nevertheless, to a limited degree and under certain circumstances, the Board will consider redeemable preferred stock as equity in the capital accounts of the holding company if the following conditions are met: (1) The preferred stock is redeemable only at the option of the issuer and (2) the debt to equity ratio of the holding company would be at or remain below .30:1 following the redemption or retirement of any preferred stock.

B. Capital adequacy: Each insured depository subsidiary of a small bank holding company is expected to be well-capitalized. Any institution that is not well-capitalized is expected to become well-capitalized within a brief period of time.

C. Dividend restrictions: A small bank holding company whose debt to equity ratio is greater than 1.0:1 is not expected to pay corporate dividends until such time as it reduces its debt to equity ratio to 1.0:1 or less and otherwise meets the criteria set forth in §§225.14(c)(1)(ii), 225.14(c)(2), and 225.14(c)(7) of Regulation Y.\(^4\)

Small bank holding companies formed before the effective date of this policy statement may switch to a plan that adheres to the intent of this statement provided they comply with the requirements set forth above.

3. Core Requirements for All Applicants

In assessing applications or notices by organizations subject to this policy statement, the Board will continue to take into account a full range of financial and other information about the applicant, and its current and proposed subsidiaries, including the recent trend and stability of earnings, past and prospective growth, asset quality, the ability to meet debt servicing requirements without placing an undue strain on the resources of the bank(s), and the record and competency of management. In addition, the Board will require applicants to meet the following requirements:

A. Minimum down payment: The amount of acquisition debt should not exceed 75 percent of the purchase price of the bank(s) or company to be acquired. When the owner(s)
of the holding company incurs debt to finance the purchase of the bank(s) or company, such debt will be considered acquisition debt even though it does not represent an obligation of the bank holding company, unless the owner(s) can demonstrate that such debt can be serviced without reliance on the resources of the bank(s) or bank holding company.

B. Ability to reduce parent company leverage: The bank holding company must clearly be able to reduce its debt to equity ratio and comply with its loan agreement(s) as set forth in paragraph 2A above.

Failure to meet the criteria in this section would normally result in denial of an application.

4. ADDITIONAL APPLICATION REQUIREMENTS FOR EXPEDITED/WAIVED PROCESSING

A. Expedited notices under §§225.14 and 225.23 of Regulation Y: A small bank holding company proposal will be eligible for the expedited processing procedures set forth in §§225.14 and 225.23 of Regulation Y if the bank holding company is in compliance with the ongoing requirements of this policy statement, the bank holding company meets the core requirements for all applicants noted above, and the following requirements are met:

i. The parent bank holding company has a pro forma debt to equity ratio of 1.0:1 or less.

ii. The bank holding company meets all of the criteria for expedited action set forth in §§225.14 or 225.23 of Regulation Y.

B. Waiver of stock redemption filing: A small bank holding company will be eligible for the stock redemption filing exception for well-capitalized bank holding companies contained in §225.4(b)(6) if the following requirements are met:

i. The parent bank holding company has a pro forma debt to equity ratio of 1.0:1 or less.

ii. The bank holding company is in compliance with the ongoing requirements of this policy statement and meets the requirements of §§225.1(c)(1)(ii), 225.14(c)(2), and 225.14(c)(7) of Regulation Y.

APPENDIX D TO PART 225—CAPITAL ADEQUACY GUIDELINES FOR BANK HOLDING COMPANIES: TIER 1 LEVERAGE MEASURE

I. OVERVIEW

a. The Board of Governors of the Federal Reserve System has adopted a minimum ratio of Tier 1 capital to total assets to assist in the assessment of the capital adequacy of bank holding companies (banking organizations). The principal objectives of this measure is to place a constraint on the maximum degree to which a banking organization can leverage its equity capital base. It is intended to be used as a supplement to the risk-based capital measure.

b. The Tier 1 leverage guidelines apply on a consolidated basis to any bank holding company with consolidated assets of $500 million or more. The Tier 1 leverage guidelines also apply on a consolidated basis to any bank holding company with consolidated assets of less than $500 million if the holding company (i) is engaged in significant nonbanking activities either directly or through a nonbank subsidiary; (ii) conducts significant off-balance sheet activities (including securitization and asset management or administration) either directly or through a nonbank subsidiary; or (iii) has a material amount of debt or equity securities outstanding (other than trust preferred securities) that are registered with the Securities and Exchange Commission. The Federal Reserve may apply the Tier 1 leverage guidelines at its discretion to any bank holding company, regardless of asset size, if such action is warranted for supervisory purposes.

c. The Tier 1 leverage guidelines are to be used in the inspection and supervisory process as well as in the analysis of applications acted upon by the Federal Reserve. The Board will review the guidelines from time to time and will consider the need for possible adjustments in light of any significant changes in the economy, financial markets, and banking practices.

II. THE TIER 1 LEVERAGE RATIO

a. The Board has established a minimum ratio of Tier 1 capital to total assets of 3.0 percent for strong bank holding companies (rated composite “1” under the BOPEC rating system of bank holding companies), and for bank holding companies that have implemented the Board’s risk-based capital measure for market risk as set forth in appendices A and E of this part. For all other bank holding companies, the minimum ratio of Tier 1 capital to total assets is 4.0 percent. Banking organizations with supervisory, financial, operational, or managerial weaknesses, as well as organizations that are anticipating or experiencing significant growth, are expected to maintain capital ratios well above the minimum levels. Moreover, higher capital ratios may be required for any bank holding company if warranted by its particular circumstances or risk profile. In all cases, bank holding companies should hold capital commensurate with the

---

1 Supervisory ratios that related capital to total assets for state member banks are outlined in appendix B of this part.

2 [Reserved]
level and nature of the risks, including the volume and severity of problem loans, to which they are exposed. 

b. A banking organization’s tier 1 leverage ratio is calculated by dividing its tier 1 capital (the numerator of the ratio) by its average total consolidated assets (the denominator of the ratio). The ratio will also be calculated using period-end assets whenever necessary, on a case-by-case basis. For the purpose of this leverage ratio, the definition of tier 1 capital as set forth in the risk-based capital guidelines contained in appendix A of this part will be used. As a general matter, average total consolidated assets are defined as the quarterly average total assets (defined net of the allowance for loan and lease losses) reported on the organization’s Consolidated Financial Statements (FR Y–9C Report), less goodwill; amounts of mortgage servicing assets, nonmortgage servicing assets, and purchased credit card relationships that, in the aggregate, are in excess of 10 percent of Tier 1 capital; amounts of mortgage servicing assets and purchased credit card relationships that, in the aggregate, are in excess of 25 percent of Tier 1 capital; amounts of credit-enhancing interest-only strips that are in excess of 25 percent of Tier 1 capital; all other identifiable intangible assets; any investments in subsidiaries or associated companies that the Federal Reserve determines should be deducted from Tier 1 capital; deferred tax assets that are dependent upon future taxable income, net of their valuation allowance, in excess of the limitation set forth in section II.B.4 of appendix A of this part; and the amount of the total adjusted carrying value of nonfinancial equity investments that is subject to a deduction from Tier 1 capital.1 

c. Whenever appropriate, including when an organization is undertaking expansion, seeking to engage in new activities or otherwise facing unusual or abnormal risks, the Board will continue to consider the level of an individual organization’s tangible tier 1 leverage ratio (after deducting all intangibles) in making an overall assessment of capital adequacy. This is consistent with the Federal Reserve’s risk-based capital guidelines and long-standing Federal Reserve policy and practice with regard to leverage guidelines. Organizations experiencing growth, whether internally or by acquisition, are expected to maintain strong capital position substantially above minimum supervisory levels, without significant reliance on intangible assets. 

d. Notwithstanding anything in this appendix to the contrary, a bank holding company may deduct from its average total consoli-

---

Footnotes:
1 This appendix is based on a framework developed jointly by supervisory authorities from the countries represented on the Basle Committee on Banking Supervision and endorsed by the Group of Ten Central Bank Governors. The framework is described in a Basle Committee paper entitled “Amendment to the Capital Accord to Incorporate Market Risks.” January 1996. Also see modifications issued in September 1997.
2 Trading activity means the gross sum of trading assets and liabilities as reported in the bank holding company’s most recent quarterly Y–9C Report.
3 Total assets means quarter-end total assets as reported in the bank holding company’s most recent Y–9C Report.

---

dated assets the amount of any asset-backed commercial paper (i) purchased by the bank holding company between September 19, 2008, and January 30, 2009 (unless extended by the Board), from an SEC-registered open-end investment company that holds itself out as a money market mutual fund under SEC Rule 2a–7 (17 CFR 270.2a–7) and (ii) pledged by the bank holding company to a Federal Reserve Bank to secure financing from the A BCP lending facility established by the Board on September 19, 2008.

APPENDIX E TO PART 225—CAPITAL ADEQUACY GUIDELINES FOR BANK HOLDING COMPANIES: MARKET RISK MEASURE

Section I. Purpose, Applicability, Scope, and Effective Date

(a) Purpose. The purpose of this appendix is to ensure that bank holding companies (organizations) with significant exposure to market risk maintain adequate capital to support that exposure. This appendix supplements and adjusts the risk-based capital ratio calculations under appendix A of this part with respect to those organizations.

(b) Applicability. (1) This appendix applies to any bank holding company whose trading activity2 (on a worldwide consolidated basis) equals:

(i) 10 percent or more of total assets;3 or
(ii) $1 billion or more.

(2) The Federal Reserve may additionally apply this appendix to any bank holding company if the Federal Reserve deems it necessary or appropriate for safe and sound banking practices.

(3) The Federal Reserve may exclude a bank holding company otherwise meeting

---

Footnotes:
1 Deductions from Tier 1 capital and other adjustments are discussed more fully in section II.B. of appendix A of this part.
Federal Reserve System

the criteria of paragraph (b)(1) of this section from coverage under this appendix if it determines the organization meets such criteria as a consequence of accounting, operational, or similar considerations, and the Federal Reserve deems it consistent with safe and sound banking practices.

(c) Scope. The capital requirements of this appendix support market risk associated with an organization’s covered positions.

(d) Effective date. This appendix is effective as of January 1, 1997. Compliance is not mandatory until January 1, 1998. Subject to supervisory approval, a bank holding company may opt to comply with this appendix as early as January 1, 1997.4

Section 2. Definitions

For purposes of this appendix, the following definitions apply:

(a) Covered positions means all positions in an organization’s trading account, and all foreign exchange and commodity positions, whether or not in the trading account.6 Positions include on-balance-sheet assets and liabilities and off-balance-sheet items. Securities subject to repurchase and lending agreements are included as if still owned by the lender. Covered positions exclude all positions in a banking organization’s trading account that, in form or in substance, act as liquidity facilities that provide liquidity support to asset-backed commercial paper. Such excluded positions are subject to the risk-based capital requirements set forth in appendix A of this part.

(b) Market risk means the risk of loss resulting from movements in market prices. Market risk consists of general market risk and specific risk components.

(1) General market risk means changes in the market value of covered positions resulting from broad market movements, such as changes in the general level of interest rates, commodity prices.

(2) Specific risk means changes in the market value of specific positions due to factors other than broad market movements and includes event and default risk as well as idiosyncratic variations.

(c) Tier 1 and Tier 2 capital are defined in appendix A of this part.

(d) Tier 3 capital is subordinated debt that is unsecured; is fully paid up; has an original maturity of at least two years; is not redeemable before maturity without prior approval by the Federal Reserve; includes a lock-in clause precluding payment of either interest or principal (even at maturity) if the payment would cause the issuing organization’s risk-based capital ratio to fall or remain below the minimum required under appendix A of this part; and does not contain and is not covered by any covenants, terms, or restrictions that are inconsistent with safe and sound banking practices.

(e) Value-at-risk (VAR) means the estimate of the maximum amount that the value of covered positions could decline due to market price or rate movements during a fixed holding period within a stated confidence level, measured in accordance with section 4 of this appendix.

Section 3. Adjustments to the Risk-Based Capital Ratio Calculations

(a) Risk-based capital ratio denominator. An organization subject to this appendix shall calculate its risk-based capital ratio denominator as follows:

(i) Adjusted risk-weighted assets. Calculate adjusted risk-weighted assets, which equals risk-weighted assets (as determined in accordance with appendix A of this part) excluding the risk-weighted amounts of all covered positions (except foreign-exchange positions outside the trading account and over-the-counter derivative positions)7 and receivables arising from the posting of cash collateral that is associated with securities borrowing transactions to the extent the receivables are collateralized by the market value of the borrowed securities, provided that the following conditions are met:

(I) The transaction is based on securities includable in the trading book that are liquid and readily marketable.

(ii) The transaction is marked to market daily.

(iii) The transaction is subject to daily margin maintenance requirements, and

(iv)(A) The transaction is a securities contract for the purposes of section 555 of the Bankruptcy Code (11 U.S.C. 555), a qualified financial contract for the purposes of section 11(e)(8) of the Federal Deposit Insurance Act (12 U.S.C. 1821(e)(8)), or a netting contract between or among financial institutions for the purposes of sections 461–467 of the Federal Deposit Insurance Corporation Improvement Act of 1991 (12 U.S.C. 4401–4407), or the Board’s Regulation EE (12 CFR Part 231); or

7Foreign-exchange positions outside the trading account and all over-the-counter derivative positions, whether or not in the trading account, must be included in adjusted risk-weighted assets as determined in appendix A of this part.

4A bank holding company that voluntarily complies with the final rule prior to January 1, 1998, must comply with all of its provisions.

5Subject to supervisory review, a bank may exclude structural positions in foreign currencies from its covered positions.

6The term trading account is defined in the instructions to the Call Report.
(b) Risk-based capital ratio numerator. An organization subject to this appendix shall calculate its risk-based capital ratio numerator by allocating capital as follows:

1. Credit risk allocation. Allocate Tier 1 and Tier 2 capital equal to 8.0 percent of adjusted risk-weighted assets (as calculated in paragraph (a)(1) of this section).8

2. Market risk allocation. Allocate Tier 1, Tier 2, and Tier 3 capital equal to the measure for market risk as calculated in paragraph (a)(2) of this section. The sum of Tier 2 and Tier 3 capital allocated for market risk must not exceed 200 percent of Tier 1 capital allocated for market risk. (This requirement means that Tier 1 capital allocated in this paragraph (b)(2) must equal at least 28.6 percent of the measure for market risk.)

3. Restrictions. (i) The sum of Tier 2 capital (both allocated and excess) and Tier 3 capital (allocated in paragraph (b)(2) of this section) may not exceed 100 percent of Tier 1 capital (both allocated and excess).9

(ii) Term subordinated debt (and intermediate-term preferred stock and related surplus) included in Tier 2 capital (both allocated and excess) may not exceed 50 percent of Tier 1 capital (both allocated and excess).

4. Numerator calculation. Add Tier 1 capital (both allocated and excess), Tier 2 capital (both allocated and excess), and Tier 3 capital allocated under paragraph (b)(2) of this section. The resulting sum is the organization’s risk-based capital ratio numerator.

Section 4. Internal Models

(a) General. For risk-based capital purposes, a bank holding company subject to this appendix must use its internal model to measure its daily VAR, in accordance with the requirements of this section.10 The Federal Reserve may permit an organization to

---

8 An institution may not allocate Tier 1 capital to support credit risk (as calculated under appendix A of this part).

9 Excess Tier 1 capital means Tier 1 capital that has not been allocated in paragraphs (b)(1) and (b)(2) of this section. Excess Tier 2 capital means Tier 2 capital that has not been allocated in paragraph (b)(2) of this section, subject to the restrictions in paragraph (b)(3) of this section.

10 An organization’s internal model may use any generally accepted measurement techniques, such as variance-covariance models, historical simulations, or Monte Carlo simulations. However, the level of sophistication and accuracy of an organization’s internal model must be commensurate with the nature and size of its covered positions. An organization that modifies its existing modeling procedures to comply with the requirements of this appendix for risk-based capital purposes should, nonetheless,
Federal Reserve System

Pt. 225, App. E

use alternative techniques to measure the market risk of de minimis exposures so long as the techniques adequately measure associated market risk.

(b) Qualitative requirements. A bank holding company subject to this appendix must have a risk management system that meets the following minimum qualitative requirements:

(1) The organization must have a risk control unit that reports directly to senior management and is independent from business trading units.

(2) The organization’s internal risk measurement model must be integrated into the daily management process.

(3) The organization’s policies and procedures must identify, and the organization must conduct, appropriate stress tests and backtests. The organization’s policies and procedures must identify the procedures to follow in response to the results of such tests.

(4) The organization must conduct independent reviews of its risk measurement and risk management systems at least annually.

(c) Market risk factors. The organization’s internal model must use risk factors sufficient to measure the market risk inherent in all covered positions. The risk factors must address interest rate risk, equity price risk, foreign exchange rate risk, and commodity price risk.

(d) Quantitative requirements. For regulatory capital purposes, VAR measures must meet the following quantitative requirements:

(1) The VAR measures must be calculated on a daily basis using a 99 percent, one-tailed confidence level with a price shock equivalent to a ten-business day movement in rates and prices. In order to calculate VAR measures based on a ten-day price shock, the organization may either calculate ten-day figures or convert VAR figures based on holding periods other than ten days to the equivalent of a ten-day holding period (for instance, by multiplying a one-day VAR measure by the square root of ten).

(2) The VAR measures must be based on an historical observation period (or effective observation period for an organization using a weighting scheme or other similar method) of at least one year. The organization must update data sets at least once every three months or more frequently as market conditions warrant.

(3) The VAR measures must include the risks arising from the non-linear price characteristics of options positions and the sensitivity of the market value of the positions to changes in the volatility of the underlying rates or prices. An organization with a large or complex options portfolio must measure the volatility of options positions by different maturities.

(4) The VAR measures may incorporate empirical correlations within and across risk categories, provided that the organization’s process for measuring correlations is sound. In the event that VAR measures not incorporate empirical correlations across risk categories, then the organization must add the separate VAR measures for the four major risk categories to determine its aggregate VAR measure.

(e) Backtesting. (1) Beginning one year after a bank holding company starts to comply with this appendix, it must conduct backtesting by comparing each of its most recent 250 business days’ actual net trading profit or loss with the corresponding daily VAR measures generated for internal risk measurement purposes and calibrated to a one-day holding period and a 99th percentile, one-tailed confidence level.

(2) Once each quarter, the organization must identify the number of exceptions, that is, the number of business days for which the magnitude of the actual daily net trading loss, if any, exceeds the corresponding daily VAR measure.

(3) A bank holding company must use the multiplication factor indicated in Table 1 of this appendix in determining its capital charge for market risk under section 3(a)(2)(B) of this appendix until it obtains the next quarter’s backtesting results, unless the Federal Reserve determines that a different adjustment or other action is appropriate.

11 Stress tests provide information about the impact of adverse market events on a bank’s covered positions. Backtests provide information about the accuracy of an internal model by comparing an organization’s daily VAR measures to its corresponding daily trading profits and losses.

12 For material exposures in the major currencies and markets, modeling techniques must capture spread risk and must incorporate enough segments of the yield curve—at least six—to capture differences in volatility and less than perfect correlation of rates along the yield curve.

13 Actual net trading profits and losses typically include such things as realized and unrealized gains and losses on portfolio positions as well as fee income and commissions associated with trading activities.
Section 5. Specific Risk

(a) Modeled specific risk. A bank holding company may use its internal model to measure specific risk. If the organization has demonstrated to the Federal Reserve that its internal model measures the specific risk, including event and default risk as well as idiosyncratic variation, of covered debt and equity positions and includes the specific risk measures in the VAR-based capital charge in section 3(a)(2)(i) of this appendix, then the organization has no specific risk add-on for purposes of section 3(a)(2)(ii) of this appendix. The model should explain the historical price variation in the trading portfolio and capture concentration, both magnitude and changes in composition. The model should also be robust to an adverse environment and have been validated through backtesting which assesses whether specific risk is being accurately captured.

(b) Partially modeled specific risk. (1) A bank holding company that incorporates specific risk in its internal model but fails to demonstrate to the Federal Reserve that its internal model adequately measures all aspects of specific risk for covered debt and equity positions, including event and default risk, as provided by section 5(a) of this appendix, must calculate its specific risk add-on in accordance with one of the following methods:

(i) If the model is susceptible to valid separation of the VAR measure into a specific risk portion and a general market risk portion, then the specific risk add-on is equal to the previous day’s specific risk portion.

(ii) If the model does not separate the VAR measure into a specific risk portion and a general market risk portion, then the specific risk add-on is the sum of the previous day’s VAR measures for subportfolios of covered debt and equity positions that contain specific risk.

(2) If a bank holding company models the specific risk of covered debt positions but not covered equity positions (or vice versa), then the bank holding company may determine its specific risk charge for the included positions under section 5(a) or 5(b)(1) of this appendix, as appropriate. The specific risk charge for the positions not included equals the standard specific risk capital charge under paragraph (c) of this section.

(c) Specific risk not modeled. If a bank holding company does not model specific risk in accordance with section 5(a) or 5(b) of this appendix, then the organization’s specific risk capital charge shall equal the standard specific risk capital charge, calculated as follows:

(i) Covered debt positions. (1) For purposes of this section 5, covered debt positions means fixed-rate or floating-rate debt instruments located in the trading account or instruments located in the trading account with values that react primarily to changes in interest rates, including certain non-convertible preferred stock, convertible bonds, and instruments subject to repurchase and lending agreements. Also included are derivatives (including written and purchased options) for which the underlying instrument is a covered debt instrument that is subject to a non-zero specific risk capital charge.

(A) For covered debt positions that are derivatives, an organization must risk-weight (as described in paragraph (c)(1)(iii) of this section) the market value of the effective notional amount of the underlying debt instrument or index portfolio. Swaps must be included as the notional position in the underlying debt instrument or index portfolio, with a receiving side treated as a long position and a paying side treated as a short position; and

(B) For covered debt positions that are options, whether long or short, an organization must risk-weight (as described in paragraph (c)(1)(iii) of this section) the market value of the effective notional amount of the underlying debt instrument or index multiplied by the option’s delta.

(ii) An organization may net long and short covered debt positions (including derivatives) in identical debt issues or indices.

(iii) An organization must multiply the absolute value of the current market value of each net long or short covered debt position by the appropriate specific risk weighting factor indicated in Table 2 of this appendix. The specific risk capital charge component for covered debt positions is the sum of the weighted values.

Federal Reserve System

(A) The government category includes all debt instruments of central governments of OECD-based countries\(^\text{14}\) including bonds, Treasury bills, and other short-term instruments of non-OECD central governments to the extent the organization has liabilities booked in that currency.

(B) The qualifying category includes debt instruments of U.S. government-sponsored agencies, general obligation debt instruments issued by states and other political subdivisions of OECD-based countries, multilateral development banks, and debt instruments issued by U.S. depository institutions or OECD banks that do not qualify as capital of the issuing institution.\(^\text{15}\) This category also includes other debt instruments, including corporate debt and revenue instruments issued by states and other political subdivisions of OECD countries, that are:

1. Rated investment-grade by at least two nationally recognized credit rating services;
2. Rated investment grade by one nationally recognized credit rating agency and not rated less than investment grade by any other credit rating agency; or
3. Unrated, but deemed to be of comparable investment quality by the reporting organization and the issuer has instruments listed on a recognized stock exchange, subject to review by the Federal Reserve.

(C) The other category includes debt instruments that are not included in the government or qualifying categories.

2. Covered equity positions. (i) For purposes of this section 5, covered equity positions means equity instruments located in the trading account and instruments located in the trading account with values that react primarily to changes in equity prices, including voting or non-voting common stock, certain convertible bonds, and commitments to buy or sell equity instruments. Also included are derivatives (including written or purchased options) for which the underlying is a covered equity position.

(A) For covered equity positions that are derivatives, an organization must risk weight (as described in paragraph (c)(2)(ii) of this section) the market value of the effective notional amount of the underlying equity instrument or index multiplied by the option’s delta.

(ii) An organization may net long and short covered equity positions (including derivatives) in identical equity issues or equity indices in the same market.\(^\text{16}\) For covered equity positions that are index contracts comprising a well-diversified portfolio of equity instruments, the net long or short position is to be multiplied by a risk weighting factor of 2.0 percent.

(B) For covered equity positions from the following futures-related arbitrage strategies, an organization may apply a 2.0 percent risk weighting factor to one side (long or short) of each equity position with the opposite side exempt from charge, subject to review by the Federal Reserve:

1. Long and short positions in exactly the same index at different dates or in different market centers; or
2. Long and short positions in index contracts at the same date in different but similar indices.

(C) For futures contracts on broadly-based indices that are matched by offsetting positions in a basket of stocks comprising the index, an organization may apply a 2.0 percent risk weighting factor to the futures and stock basket positions (long and short), provided that such trades are deliberately entered into and separately controlled, and

\(^{14}\) Organization for Economic Cooperation and Development (OECD)-based countries is defined in appendix A of this part.

\(^{15}\) U.S. government-sponsored agencies, multilateral development banks, and OECD banks are defined in appendix A of this part.

\(^{16}\) An organization may also net positions in depository receipts against an opposite position in the underlying equity or identical equity in different markets, provided that the organization includes the costs of conversion.

\(^{17}\) A portfolio is liquid and well-diversified if: (1) it is characterized by a limited sensitivity to price changes of any single equity issue or closely related group of equity issues held in the portfolio; (2) the volatility of the portfolio’s value is not dominated by the volatility of any individual equity issue or by equity issues from any single industry or economic sector; (3) it contains a large number of individual equity positions, with no single position representing a substantial portion of the portfolio’s total market value; and (4) it consists mainly of issues traded on organized exchanges or in well-established over-the-counter markets.
that the basket of stocks comprises at least 90 percent of the capitalization of the index.

(iv) The specific risk capital charge component for covered equity positions is the sum of the weighted values.

APPENDIX F TO PART 225—INTERAGENCY GUIDELINES ESTABLISHING INFORMATION SECURITY STANDARDS

TABLE OF CONTENTS

I. INTRODUCTION

   B. Preservation of Existing Authority
   C. Definitions

II. Standards for Safeguarding Customer Information
   A. Information Security Program
   B. Objectives

III. Development and Implementation of Customer Information Security Program
   A. Involve the Board of Directors
   B. Assess Risk
   C. Manage and Control Risk
   D. Oversee Service Provider Arrangements
   E. Adjust the Program
   F. Report to the Board
   G. Implement the Standards

I. INTRODUCTION

These Interagency Guidelines Establishing Information Security Standards (Guidelines) set forth standards pursuant to sections 501 and 505 of the Gramm-Leach-Bliley Act (15 U.S.C. 1813 and 1831p–1). These Guidelines address standards for developing and implementing administrative, technical, and physical safeguards to protect the security, confidentiality, and integrity of customer information.

A. Scope. The Guidelines apply to customer information maintained by or on behalf of bank holding companies and their nonbank subsidiaries or affiliates (except brokers, dealers, persons providing insurance, investment companies, and investment advisors), for which the Board has supervisory authority.

B. Preservation of Existing Authority. These Guidelines do not in any way limit the authority of the Board to address unsafe or unsound practices, violations of law, unsafe or unsound conditions, or other practices. The Board may take action under these Guidelines independently of, in conjunction with, or in addition to, any other enforcement action available to the Board.

C. Definitions. 1. Except as modified in the Guidelines, or unless the context otherwise requires, the terms used in these Guidelines have the same meanings as set forth in sections 3 and 39 of the Federal Deposit Insurance Act (12 U.S.C. 1813 and 1831p–1).

2. For purposes of the Guidelines, the following definitions apply:
   a. Board of directors, in the case of a branch or agency of a foreign bank, means the managing official in charge of the branch or agency.
   b. Customer means any customer of the bank holding company as defined in §216.3(h) of this chapter.
   c. Customer information means any record containing nonpublic personal information, as defined in §216.3(n) of this chapter, about a customer, whether in paper, electronic, or other form, that is maintained by or on behalf of the bank holding company.
   d. Customer information systems means any methods used to access, collect, store, use, transmit, protect, or dispose of customer information.
   e. Service provider means any person or entity that maintains, processes, or otherwise is permitted access to customer information through its provision of services directly to the bank holding company.
   f. Subsidiary means any company controlled by a bank holding company, except a broker, dealer, person providing insurance, investment company, investment advisor, insured depository institution, or subsidiary of an insured depository institution.

II. STANDARDS FOR SAFEGUARDING CUSTOMER INFORMATION

A. Information Security Program. Each bank holding company shall implement a comprehensive written information security program that includes administrative, technical, and physical safeguards appropriate to the size and complexity of the bank holding company and the nature and scope of its activities. While all parts of the bank holding company are not required to implement a uniform set of policies, all elements of the information security program must be coordinated. A bank holding company also shall ensure that each of its subsidiaries is subject to a comprehensive information security program. The bank holding company may fulfill this requirement either by including a subsidiary within the scope of the bank holding company’s comprehensive information security program or by causing the subsidiary to implement a separate comprehensive information security program in accordance with the standards and procedures in sections II and III of this appendix that apply to bank holding companies.

B. Objectives. A bank holding company’s information security program shall be designed to:

1. Ensure the security and confidentiality of customer information;
2. Protect against any anticipated threats or hazards to the security or integrity of such information; and...
Federal Reserve System

III. DEVELOPMENT AND IMPLEMENTATION OF INFORMATION SECURITY PROGRAM

A. Involve the Board of Directors. The board of directors or an appropriate committee of the board of each bank holding company shall:

1. Approve the bank holding company’s written information security program; and

2. Oversee the development, implementation, and maintenance of the bank holding company’s information security program, including assigning specific responsibility for its implementation and reviewing reports from management.

B. Assess Risk. Each bank holding company shall:

1. Identify reasonably foreseeable internal and external threats that could result in unauthorized disclosure, misuse, alteration, or destruction of customer information or customer information systems.

2. Assess the likelihood and potential damage of these threats, taking into consideration the sensitivity of customer information.

3. Assess the sufficiency of policies, procedures, customer information systems, and other arrangements in place to control risks.

C. Manage and Control Risk. Each bank holding company shall:

1. Design its information security program to control the identified risks, commensurate with the sensitivity of the information as well as the complexity and scope of the bank holding company’s activities. Each bank holding company must consider whether the following security measures are appropriate for the bank holding company and, if so, adopt those measures the bank holding company concludes are appropriate:
   a. Access controls on customer information systems, including controls to authenticate and permit access only to authorized individuals and controls to prevent employees from providing customer information to unauthorized individuals who may seek to obtain this information through fraudulent means.
   b. Access restrictions at physical locations containing customer information, such as buildings, computer facilities, and records storage facilities to permit access only to authorized individuals.
   c. Encryption of electronic customer information, including while in transit or in storage on networks or systems to which unauthorized individuals may have access.
   d. Procedures designed to ensure that customer information system modifications are consistent with the bank holding company’s information security program.
   e. Dual control procedures, segregation of duties, and employee background checks for employees with responsibilities for or access to customer information.
   f. Monitoring systems and procedures to detect actual and attempted attacks on or intrusions into customer information systems.
   g. Response programs that specify actions to be taken when the bank holding company suspects or detects that unauthorized individuals have gained access to customer information systems, including appropriate reports to regulatory and law enforcement agencies; and
   h. Measures to protect against destruction, loss, or damage of customer information due to potential environmental hazards, such as fire and water damage or technological failures.

2. Train staff to implement the bank holding company’s information security program.

3. Regularly test the key controls, systems and procedures of the information security program. The frequency and nature of such tests should be determined by the bank holding company’s risk assessment. Tests should be conducted or reviewed by independent third parties or staff independent of those that develop or maintain the security programs.

D. Oversee Service Provider Arrangements. Each bank holding company shall:

1. Exercise appropriate due diligence in selecting its service providers.

2. Require its service providers by contract to implement appropriate measures designed to meet the objectives of these Guidelines; and

3. Where indicated by the bank holding company’s risk assessment, monitor its service providers to confirm that they have satisfied their obligations as required by paragraph D.2. As part of this monitoring, a bank holding company should review audits, summaries of test results, or other equivalent evaluations of its service providers.

E. Adjust the Program. Each bank holding company shall monitor, evaluate, and adjust, as appropriate, the information security program in light of any relevant changes in technology, the sensitivity of its customer information, internal or external threats to information, and the bank holding company’s own changing business arrangements, such as mergers and acquisitions, alliances and joint ventures, outsourcing arrangements, and changes to customer information systems.

F. Report to the Board. Each bank holding company shall report to its board or an appropriate committee of the board at least annually. This report should describe the overall status of the information security program and the bank holding company’s compliance with these Guidelines. The reports
should discuss material matters related to its program, addressing issues such as: risk assessment; risk management and control decisions; service provider arrangements; results of testing; security breaches or violations and management’s responses; and recommendations for changes in the information security program.

G. Implement the Standards.

1. Effective date. Each bank holding company must implement an information security program pursuant to these guidelines by July 1, 2001.

2. Two-year grandfathering of agreements with service providers. Until July 1, 2003, a contract that a bank holding company has entered into with a service provider to perform services for it or functions on its behalf satisfies the provisions of section II.D., even if the contract does not include a requirement that the servicer maintain the security and confidentiality of customer information, as long as the bank holding company entered into the contract on or before March 5, 2001.

SUPPLEMENT A TO APPENDIX F TO PART 225—INTERAGENCY GUIDANCE ON RESPONSE PROGRAMS FOR UNAUTHORIZED ACCESS TO CUSTOMER INFORMATION AND CUSTOMER NOTICE

I. BACKGROUND

This Guidance interprets section 501(b) of the Gramm-Leach-Bliley Act ("GLBA") and the Interagency Guidelines Establishing Information Security Standards (the “Security Guidelines”)

2 and describes response programs, including customer notification procedures, that a financial institution should develop and implement to address unauthorized access to or use of customer information that could result in substantial harm or inconvenience to a customer. The scope of, and definitions of terms used in, this Guidance are identical to those of the Security Guidelines. For example, the term “customer information” is the same term used in the Security Guidelines, and means any record containing nonpublic personal information about a customer, whether in paper, electronic, or other form, maintained by or on behalf of the institution.

A. Interagency Security Guidelines

Section 501(b) of the GLBA required the Agencies to establish appropriate standards for financial institutions subject to their jurisdiction that include administrative, technical, and physical safeguards, to protect the security and confidentiality of customer information. Accordingly, the Agencies issued Security Guidelines requiring every financial institution to have an information security program designed to:

1. Ensure the security and confidentiality of customer information;

2. Protect against any anticipated threats or hazards to the security or integrity of such information; and

3. Protect against unauthorized access to or use of such information that could result in substantial harm or inconvenience to any customer.

B. Risk Assessment and Controls

1. The Security Guidelines direct every financial institution to assess the following risks, among others, when developing its information security program:

   a. Reasonably foreseeable internal and external threats that could result in unauthorized disclosure, misuse, alteration, or destruction of customer information or customer information systems;

   b. The likelihood and potential damage of threats, taking into consideration the sensitivity of customer information; and

   c. The sufficiency of policies, procedures, customer information systems, and other arrangements in place to control risks.

2. Following the assessment of these risks, the Security Guidelines require a financial institution to design a program to address the identified risks. The particular security measures an institution should adopt will depend upon the risks presented by the complexity and scope of its business. At a minimum, the financial institution is required to consider the specific security measures enumerated in the Security Guidelines, and adopt those that are appropriate for the institution, including:

   a. Access controls on customer information systems, including controls to authenticate and permit access only to authorized individuals and controls to prevent employees from providing customer information to unauthorized individuals who may seek to obtain this information through fraudulent means;

   b. Background checks for employees with responsibilities for access to customer information; and

---

1 This Guidance is being jointly issued by the Board of Governors of the Federal Reserve System (Board), the Federal Deposit Insurance Corporation (FDIC), the Office of the Comptroller of the Currency (OCC), and the Office of Thrift Supervision (OTS).

3 See Security Guidelines, III.B.

4 See Security Guidelines, III.C.
Federal Reserve System

Pt. 225, App. F

The Security Guidelines direct every financial institution to require its service providers by contract to implement appropriate measures designed to protect against unauthorized access to or use of customer information that could result in substantial harm or inconvenience to any customer.5

C. Service Providers

The Security Guidelines direct every financial institution to require its service providers by contract to implement appropriate measures designed to protect against unauthorized access to or use of customer information that could result in substantial harm or inconvenience to any customer.5

II. RESPONSE PROGRAM

Millions of Americans, throughout the country, have been victims of identity theft.7 Identity thieves misuse personal information they obtain from a number of sources, including financial institutions, to perpetrate identity theft. Therefore, financial institutions should take preventative measures to safeguard customer information against attempts to gain unauthorized access to the information. For example, financial institutions should place access controls on customer information systems and conduct background checks for employees who are authorized to access customer information.8 However, every financial institution should also develop and implement a risk-based response program to address incidents of unauthorized access to customer information in customer information systems9 that occur nonetheless. A response program should be a key part of an institution’s information security program.10 The program should be appropriate to the size and complexity of the institution and the nature and scope of its activities.

In addition, each institution should be able to address incidents of unauthorized access to customer information in customer information systems maintained by its domestic and foreign service providers. Therefore, consistent with the obligations in the Guidelines that relate to these arrangements, and with existing guidance on this topic issued by the Agencies,11 an institution’s contract with its service provider should require the service provider to take appropriate actions to address incidents of unauthorized access to the financial institution’s customer information, including notification to the institution as soon as possible of any such incident, to enable the institution to expeditiously implement its response program.

A. Components of a Response Program

1. At a minimum, an institution’s response program should contain procedures for the following:

a. Assessing the nature and scope of an incident, and identifying what customer information systems and types of customer information have been accessed or misused;

b. Notifying its primary Federal regulator as soon as possible when the institution becomes aware of an incident involving unauthorized access to or use of sensitive customer information, as defined below;

c. Response programs that specify actions to be taken when the financial institution suspects or detects that unauthorized individuals have gained access to customer information systems, including appropriate reports to regulatory and law enforcement agencies.5

5See Security Guidelines, III.C.

6See Security Guidelines, I.B. and III.D. Further, the Agencies note that, in addition to contractual obligations to a financial institution, a service provider may be required to implement its own comprehensive information security program in accordance with the Safeguards Rule promulgated by the Federal Trade Commission (“FTC”), 16 CFR part 314.

8Institutions should also conduct background checks of employees to ensure that the institution does not violate 12 U.S.C. 1829, which prohibits an institution from hiring an individual convicted of certain criminal offenses or who is subject to a prohibition order under 12 U.S.C. 1818(e)(6).

9Under the Guidelines, an institution’s customer information systems consist of all of the methods used to access, collect, store, use, transmit, protect, or dispose of customer information, including the systems maintained by its service providers. See Security Guidelines, I.C.2.d (I.C.2.c for OTS).

285
c. Consistent with the Agencies’ Suspicious Activity Report (“SAR”) regulations, notifying appropriate law enforcement authorities, in addition to filing a timely SAR in situations involving Federal criminal violations requiring immediate attention, such as when a reportable violation is ongoing;

d. Taking appropriate steps to contain and control the incident to prevent further unauthorized access to or use of customer information, for example, by monitoring, freezing, or closing affected accounts, while preserving records and other evidence; and

e. Notifying customers when warranted.

2. Where an incident of unauthorized access to customer information involves customer information systems maintained by an institution’s service providers, it is the responsibility of the financial institution to notify the institution’s customers and regulator. However, an institution may authorize or contract with its service provider to notify the institution’s customers or regulator on its behalf.

III. CUSTOMER NOTICE

Financial institutions have an affirmative duty to protect their customers’ information against unauthorized access or use. Notifying customers of a security incident involving the unauthorized access or use of the customer’s information in accordance with the standard set forth below is a key part of that duty. Timely notification of customers is important to manage an institution’s reputation risk. Effective notice also may reduce an institution’s legal risk, assist in maintaining good customer relations, and enable the institution’s customers to take steps to protect themselves against the consequences of identity theft. When customer notification is warranted, an institution may not forgo notifying its customers of an incident because the institution believes that it may be potentially embarrassed or inconvenience by doing so.

A. Standard for Providing Notice

When a financial institution becomes aware of an incident of unauthorized access to sensitive customer information, the institution should conduct a reasonable investigation to promptly determine the likelihood that the information has been or will be misused. If the institution determines that misuse of its information about a customer has occurred or is reasonably possible, it should notify the affected customer as soon as possible. Customer notice may be delayed if an appropriate law enforcement agency determines that notification will interfere with a criminal investigation and provides the institution with a written request for the delay. However, the institution should notify its customers as soon as notification will no longer interfere with the investigation.

1. Sensitive Customer Information

Under the Guidelines, an institution must protect against unauthorized access to or use of customer information that could result in substantial harm or inconvenience to any customer. Substantial harm or inconvenience is most likely to result from improper access to sensitive customer information because this type of information is most likely to be misused, as in the commission of identity theft. For purposes of this Guidance, sensitive customer information means a customer’s name, address, or telephone number, in conjunction with the customer’s social security number, driver’s license number, account number, credit or debit card number, or a personal identification number or password that would permit access to the customer’s account. Sensitive customer information also includes any combination of components of customer information that would
Federal Reserve System

allow someone to log onto or access the customer's account, such as user name and password or account number.

2. Affected Customers

If a financial institution, based upon its investigation, can determine from its logs or other data precisely which customers' information has been improperly accessed, it may limit notification to those customers with regard to whom the institution determines that misuse of their information has occurred or is reasonably possible. However, there may be situations where the institution determines that a group of files has been accessed improperly, but is unable to identify which specific customers' information has been accessed. If the circumstances of the unauthorized access lead the institution to determine that misuse of the information is reasonably possible, it should notify all customers in the group.

B. Content of Customer Notice

1. Customer notice should be given in a clear and conspicuous manner. The notice should describe the incident in general terms and the type of customer information that was the subject of unauthorized access or use. It also should generally describe what the institution has done to protect the customers' information from further unauthorized access. In addition, it should include a telephone number that customers may use to obtain the identity theft guidance and report suspected incidents of identity theft.14 The notice also should remind customers of the need to remain vigilant over the next twelve to twenty-four months, and to promptly report incidents of suspected identity theft to the institution. The notice should include the following additional items, when appropriate:

a. A recommendation that the customer review account statements and immediately report any suspicious activity to the institution;

b. A description of fraud alerts and an explanation of how the customer may place a fraud alert in the customer's consumer reports to put the customer's creditors on notice that the customer may be a victim of fraud;

c. A recommendation that the customer periodically obtain credit reports from each nationwide credit reporting agency and have information relating to fraudulent transactions deleted;

d. An explanation of how the customer may obtain a credit report free of charge; and

e. Information about the availability of the FTC's online guidance regarding steps a consumer can take to protect against identity theft. The notice should encourage the customer to report any incidents of identity theft to the FTC, and should provide the FTC's Web site address and toll-free telephone number that customers may use to obtain the identity theft guidance and report suspected incidents of identity theft.15

2. The Agencies encourage financial institutions to notify the nationwide consumer reporting agencies prior to sending notices to a large number of customers that include contact information for the reporting agencies.

C. Delivery of Customer Notice

Customer notice should be delivered in any manner designed to ensure that a customer can reasonably be expected to receive it. For example, the institution may choose to contact all customers affected by telephone or by mail, or by electronic mail for those customers for whom it has a valid e-mail address and who have agreed to receive communications electronically.

APPENDIX G TO PART 225—CAPITAL ADEQUACY GUIDELINES FOR BANK HOLDING COMPANIES: INTERNAL-RATINGS-BASED AND ADVANCED MEASUREMENT APPROACHES

Part I General Provisions

Section 57 Mechanics of Risk-Weighted Asset Calculation
Part VIII Disclosure
Section 71 Disclosure Requirements

PART I. GENERAL PROVISIONS
Section 1. Purpose, Applicability, Reservation of Authority, and Principle of Conservatism
(a) Purpose. This appendix establishes:
(1) Minimum qualifying criteria for bank holding company using bank holding company-specific internal risk measurement and management processes for calculating risk-based capital requirements;
(2) Methodologies for such bank holding company to calculate their risk-based capital requirements; and
(3) Public disclosure requirements for such bank holding company.
(b) Applicability. (1) This appendix applies to a bank holding company that:
(1) Has consolidated total assets, as reported on the most recent year-end Consolidated Report of Condition and Income (Call Report) or Thrift Financial Report (TFR), equal to $250 billion or more;
(2) Has consolidated total on-balance sheet foreign exposure at the most recent year-end equal to $10 billion or more (where total on-balance sheet foreign exposure equals with head office or guarantor located in another country plus redistributed guaranteed amounts to the country of head office or guarantor plus local country claims on local residents plus revaluation gains on foreign exchange and derivative products, calculated in accordance with the Federal Financial Institutions Examination Council (FFIEC) 009 Country Exposure Report);
(3) A bank holding company that is subject to this appendix must use this appendix unless the Federal Reserve determines in writing that application of this appendix is not appropriate in light of the bank holding company’s asset size, level of complexity, risk profile, or scope of operations. In making a determination under this paragraph, the Federal Reserve will apply notice and response procedures in the same manner and to the same extent as the notice and response procedures in 12 CFR 263.202.
(c) Reservation of authority—(1) Additional capital in the aggregate. The Federal Reserve may require a bank holding company to hold an amount of capital greater than otherwise required under this appendix if the Federal Reserve determines that the bank holding company’s risk-based capital requirement under this appendix is not commensurate with the bank holding company’s credit, market, operational, or other risks. In making a determination under this paragraph, the Federal Reserve will apply notice and response procedures in the same manner and to the same extent as the notice and response procedures in 12 CFR 263.202.
(2) Specific risk-weighted asset amounts. (1) If the Federal Reserve determines that the risk-weighted asset amount calculated under this appendix by the bank holding company for one or more exposures is not commensurate with the risks associated with those exposures, the Federal Reserve may require the bank holding company to assign a different
risk-weighted asset amount to the exposures, to assign different risk parameters to the exposures (if the exposures are wholesale or retail exposures), or to use different model assumptions for the exposures (if relevant), all as specified by the Federal Reserve.

(ii) If the Federal Reserve determines that the risk-weighted asset amount for operational risk produced by the bank holding company under this appendix is not commensurate with the operational risks of the bank holding company, the Federal Reserve may require the bank holding company to assign a different risk-weighted asset amount for operational risk, to change elements of its operational risk analytical framework, including distributional and dependence assumptions, or to make other changes to the bank holding company’s operational risk management processes, data and assessment systems, or quantification systems, all as specified by the Federal Reserve.

(3) Other supervisory authority. Nothing in this appendix limits the authority of the Federal Reserve under any other provision of law or regulation to take supervisory or enforcement action, including action to address unsafe or unsound practices or conditions, deficient capital levels, or violations of law.

(d) Principle of conservatism. Notwithstanding the requirements of this appendix, a bank holding company may choose not to apply a provision of this appendix to one or more exposures, provided that:

(1) The bank holding company can demonstrate on an ongoing basis to the satisfaction of the Federal Reserve that not applying the provision would, in all circumstances, unambiguously generate a risk-based capital requirement for each such exposure greater than that which would otherwise be required under this appendix;

(2) The bank holding company appropriately manages the risk of each such exposure;

(3) The bank holding company notifies the Federal Reserve in writing prior to applying this principle to each such exposure; and

(4) The exposures to which the bank holding company applies this principle are not, in the aggregate, material to the bank holding company.

Section 2. Definitions

Advanced internal ratings-based (IRB) systems means a bank holding company’s internal risk rating and segmentation system; risk parameter quantification system; data management and maintenance system; and control, oversight, and validation system for credit risk of wholesale and retail exposures. Advanced systems means a bank holding company’s advanced IRB systems, operational risk management processes, operational risk data and assessment systems, operational risk quantification systems, and, to the extent the bank holding company uses the following systems, the internal models methodology, double default excessive correlation detection process, IMA for equity exposures, and IAA for securitization exposures to ABCP programs.

Affiliate with respect to a company means any company that controls, is controlled by, or is under common control with, the company.

Applicable external rating means:

(1) With respect to an exposure that has multiple external ratings assigned by NRSROs, the lowest solicited external rating assigned to the exposure by any NRSRO; and

(2) With respect to an exposure that has a single external rating assigned by an NRSRO, the external rating assigned to the exposure by the NRSRO.

Applicable inferred rating means:

(1) With respect to an exposure that has multiple inferred ratings, the lowest inferred rating based on a solicited external rating; and

(2) With respect to an exposure that has a single inferred rating, the inferred rating.

Asset-backed commercial paper (ABCP) program means a program that primarily issues commercial paper that:

(1) Has an external rating; and

(2) Is backed by underlying exposures held in a bankruptcy-remote SPE.

Asset-backed commercial paper (ABCP) program sponsor means a bank holding company that:

(1) Establishes an ABCP program;

(2) Approves the sellers permitted to participate in an ABCP program;

(3) Approves the exposures to be purchased by an ABCP program; or

(4) Administers the ABCP program by monitoring the underlying exposures, underwriting or otherwise arranging for the placement of debt or other obligations issued by the program, compiling monthly reports, or ensuring compliance with the program documents and with the program’s credit and investment policy.

Backtesting means the comparison of a bank holding company’s internal estimates with actual outcomes during a sample period not used in model development. In this context, backtesting is one form of out-of-sample testing.

Bank holding company is defined in section 2 of the Bank Holding Company Act (12 U.S.C. 1841).

Benchmarking means the comparison of a bank holding company’s internal estimates with relevant internal and external data or with estimates based on other estimation techniques.

Business environment and internal control factors means the indicators of a bank holding company’s operational risk profile that
reflect a current and forward-looking assessment of the bank holding company’s underlying business risk factors and internal control environment.

Carrying value means, with respect to an asset, the value of the asset on the balance sheet of the bank holding company, determined in accordance with GAAP.

Clean-up call means a contractual provision that permits an originating bank holding company or servicer to call securitization exposures before their stated maturity or call date. See also eligible clean-up call.

Commodity derivative contract means a commodity-linked swap, purchased commodity-linked option, forward commodity-linked contract, or any other instrument linked to commodities that gives rise to similar counterparty credit risks.

Company means a corporation, partnership, limited liability company, depository institution, business trust, special purpose entity, association, or similar organization.

Control. A person or company controls a company if:

1. Owns, controls, or holds with power to vote 25 percent or more of a class of voting securities of the company; or
2. Consolidates the company for financial reporting purposes.

Controlled early amortization provision means an early amortization provision that meets all the following conditions:

1. The originating bank holding company has appropriate policies and procedures to ensure that it has sufficient capital and liquidity available in the event of an early amortization;
2. Throughout the duration of the securitization (including the early amortization period), there is the same pro rata sharing of interest, principal, expenses, losses, fees, recoveries, and other cash flows from the underlying exposures based on the originating bank holding company’s and the investors’ relative shares of the underlying exposures outstanding measured on a consistent monthly basis;
3. The amortization period is sufficient for at least 90 percent of the total underlying exposures outstanding at the beginning of the early amortization period to be repaid or recognized as in default; and
4. The schedule for repayment of investor principal is not more rapid than would be allowed by straight-line amortization over an 18-month period.

Credit derivative means a financial contract executed under standard industry credit derivative documentation that allows one party (the protection purchaser) to transfer the credit risk of one or more exposures (reference exposure) to another party (the protection provider). See also eligible credit derivative.

Credit-enhancing interest-only strip (CEIOS) means an on-balance sheet asset that, in form or in substance:

1. Represents a contractual right to receive some or all of the interest and no more than a minimal amount of principal due on the underlying exposures of a securitization; and
2. Exposes the holder to credit risk directly or indirectly associated with the underlying exposures that exceeds a pro rata share of the holder’s claim on the underlying exposures, whether through subordination provisions or other credit-enhancement techniques.

Credit-enhancing representations and warranties means representations and warranties that are made or assumed in connection with a transfer of underlying exposures (including loan servicing assets) and that obligate a bank holding company to protect another party from losses resulting from the default or nonperformance of the obligors of the underlying exposures or from an insufficiency in the value of the collateral backing the underlying exposures. Credit-enhancing representations and warranties do not include:

1. Early default clauses and similar warranties that permit the return of, or premium refund clauses that cover, first-lien residential mortgage exposures for a period not to exceed 120 days from the date of transfer, provided that the date of transfer is within one year of origination of the residential mortgage exposure;
2. Premium refund clauses that cover underlying exposures guaranteed, in whole or in part, by the U.S. government, a U.S. government agency, or a U.S. government sponsored enterprise, provided that the clauses are for a period not to exceed 120 days from the date of transfer; or
3. Warranties that permit the return of underlying exposures in instances of misrepresentation, fraud, or incomplete documentation.

Credit risk mitigant means collateral, a credit derivative, or a guarantee.

Credit-risk-weighted assets means 1.06 multiplied by the sum of:

1. Total wholesale and retail risk-weighted assets;
2. Risk-weighted assets for securitization exposures; and
3. Risk-weighted assets for equity exposures.

Current exposure means, with respect to a netting set, the larger of zero or the market value of a transaction or portfolio of transactions within the netting set that would be lost upon default of the counterparty, assuming no recovery on the value of the
transactions. Current exposure is also called replacement cost.

Default—(1) Retail. (i) A retail exposure of a bank holding company is in default if:
  (A) The exposure is 180 days past due, in the case of a residential mortgage exposure
      or revolving exposure;
  (B) The exposure is 120 days past due, in the case of all other retail exposures; or
  (C) The bank holding company has taken a full or partial charge-off, write-down of principal,
      or material negative fair value adjustment of principal on the exposure for credit-related
      reasons.
  (ii) Notwithstanding paragraph (1)(i) of this definition, for a retail exposure held by
       a non-U.S. subsidiary of the bank holding company that is subject to an internal rat-
       ings-based approach to capital adequacy consistent with the Basel Committee on Bank-
       ing Supervision’s “International Conver-
       gence of Capital Measurement and Capital Standards: A Revised Framework” in a non-
       U.S. jurisdiction, the bank holding company may elect to use the definition of default
       that is used in that jurisdiction, provided that the bank holding company has obtained
       prior approval from the Federal Reserve to use the definition of default in that jurisdic-
       tion.
  (iii) A retail exposure in default remains in default until the bank holding company has
       reasonable assurance of repayment and performance for all contractual principal
       and interest payments on the exposure.
(2) Wholesale. (i) A bank holding company’s wholesale obligor is in default if:
  (A) The bank holding company determines that the obligor is unlikely to pay its credit
      obligations to the bank holding company in full, without recourse by the bank holding
      company to actions such as realizing collateral (if held); or
  (B) The obligor is past due more than 90 days on any material credit obligation(s) to
      the bank holding company.1
  (ii) An obligor in default remains in default until the bank holding company has
      reasonable assurance of repayment and performance for all contractual principal
      and interest payments on all exposures of the bank holding company to the obligor (other
      than exposures that have been fully written-down or charged-off).

Dependence means a measure of the association among operational losses across and
within units of measure.

Derivative contract means a financial contract whose value is derived from the values
of one or more underlying assets, reference rates, or indices of asset values or reference
rates. Derivative contracts include interest rate derivative contracts, exchange rate de-

1Overdrafts are past due once the obligor has breached an advised limit or been ad-
vised of a limit smaller than the current outstanding balance.
equal to the notional amount of the transaction.

3. For repo-style transactions, eligible margin loans, and OTC derivative contracts for which the bank holding company applies the internal models approach in paragraph (d) of section 32 of this appendix, the value determined in paragraph (d)(4) of section 32 of this appendix.

Effective notional amount means, for an eligible guarantee or eligible credit derivative, the lesser of the contractual notional amount of the credit risk mitigant and the EAD of the hedged exposure, multiplied by the percentage coverage of the credit risk mitigant. For example, the effective notional amount of an eligible guarantee that covers, on a pro rata basis, 40 percent of any losses on a $100 bond would be $40.

Eligible clean-up call means a clean-up call that:

(1) Is exercisable solely at the discretion of the originating bank holding company or servicer;

(2) Is not structured to avoid allocating losses to securitization exposures held by investors or otherwise structured to provide credit enhancement to the securitization; and

3. (i) For a traditional securitization, is only exercisable when 10 percent or less of the principal amount of the underlying exposures or securitization exposures (determined as of the inception of the securitization) is outstanding; or

(2) For an synthetic securitization, is only exercisable when 10 percent or less of the principal amount of the reference portfolio of underlying exposures (determined as of the inception of the securitization) is outstanding.

Eligible credit derivative means a credit derivative in the form of a credit default swap, n-th-to-default swap, total return swap, or any other form of credit derivative approved by the Federal Reserve, provided that:

1. The contract meets the requirements of an eligible guarantee and has been confirmed by the protection purchaser and the protection provider; and

2. Any assignment of the contract has been confirmed by all relevant parties; or

3. (i) If the contract requires the protection purchaser to transfer an exposure to the protection provider at settlement, the terms of at least one of the exposures that is permitted to be transferred under the contract provides that any required consent to transfer may not be unreasonably withheld;

(7) If the credit derivative is a credit default swap or n-th-to-default swap, the contract clearly identifies the parties responsible for determining whether a credit event has occurred, specifies that this determination is not the sole responsibility of the protection provider, and gives the protection purchaser the right to notify the protection provider of the occurrence of a credit event; and

4. The terms and conditions dictating the manner in which the contract is to be settled are incorporated into the contract;

5. If the contract allows for cash settlement, the contract requires the use of an independent third party to establish post-credit event valuations of the reference exposure;

6. If the contract requires the protection provider to transfer an exposure to the protection provider at settlement, the terms of at least one of the exposures that is permitted to be transferred under the contract provides that any required consent to transfer may not be unreasonably withheld;

8. If the credit derivative is a total return swap and the bank holding company records net payments received on the swap as net income, the bank holding company records offsetting deterioration in the value of the hedged exposure (either through reductions in fair value or by an addition to reserves).

Eligible credit reserves means all general allowances that have been established through a charge against earnings to absorb credit losses associated with on- or off-balance sheet wholesale and retail exposures, including the allowance for loan and lease losses (ALLL) associated with such exposures but excluding allocated transfer risk reserves established pursuant to 12 U.S.C. 3904 and other specific reserves created against recognized losses.

Eligible double default guarantor, with respect to a guarantee or credit derivative obtained by a bank holding company, means:

1. U.S.-based entities. A depository institution, a bank holding company, a savings and loan holding company (as defined in 12 U.S.C. 1467a) provided all or substantially all of the bank holding company’s activities are permissible for a financial holding company under 12 U.S.C. 1849(k), a securities broker or dealer registered with the SEC under the Securities Exchange Act of 1934 (15 U.S.C. 78a et seq.), or an insurance company in the business of providing credit protection (such as a monoline bond insurer or re-insurer) that is subject to supervision by a State insurance regulator, if:

(i) At the time the guarantor issued the guarantee or credit derivative or at any time thereafter, the bank holding company assigned a PD to the guarantor’s rating grade that was equal to or lower than the PD associated with a long-term external rating in
the third-highest investment-grade rating category; and

(ii) The bank holding company currently assigns a PD to the guarantor’s rating grade that is equal to or lower than the PD associated with a long-term external rating in the lowest investment-grade rating category; or

(2) Non-U.S.-based entities. A foreign bank (as defined in §211.2 of the Federal Reserve Board’s Regulation K (12 CFR 211.2)), a non-U.S.-based securities firm, or a non-U.S.-based insurance company in the business of providing credit protection, if:

(i) The bank holding company demonstrates that the guarantor is subject to consolidated supervision and regulation comparable to that imposed on U.S. depository institutions, securities broker-dealers, or insurance companies (as the case may be), or has issued and outstanding an unsecured long-term debt security without credit enhancement that has a long-term applicable external rating of at least investment grade;

(ii) At the time the guarantor issued the guarantee or credit derivative or at any time thereafter, the bank holding company assigned a PD to the guarantor’s rating grade that was equal to or lower than the PD associated with a long-term external rating in the third-highest investment-grade rating category; and

(iii) The bank holding company currently assigns a PD to the guarantor’s rating grade that is equal to or lower than the PD associated with a long-term external rating in the lowest investment-grade rating category.

Eligible guarantee means a guarantee that:

(1) Is written and unconditional;

(2) Covers all or a pro rata portion of all contractual payments of the obligor on the reference exposure;

(3) Gives the beneficiary a direct claim against the protection provider;

(4) Is not unilaterally cancelable by the protection provider for reasons other than the breach of the contract by the beneficiary;

(5) Is legally enforceable against the protection provider in a jurisdiction where the protection provider has sufficient assets against which a judgment may be attached and enforced;

(6) Requires the protection provider to make payment to the beneficiary on the occurrence of a default (as defined in the guarantant) of the obligor on the reference exposure in a timely manner without the beneficiary first having to take legal actions to pursue the obligor for payment;

(7) Does not increase the beneficiary’s cost of credit protection on the guarantee in response to deterioration in the credit quality of the reference exposure; and

(8) Is not provided by an affiliate of the bank holding company, unless the affiliate is an insured depository institution, bank, securities broker or dealer, or insurance company that:

(i) Does not control the bank holding company; and

(ii) Is subject to consolidated supervision and regulation comparable to that imposed on U.S. depository institutions, securities broker-dealers, or insurance companies (as the case may be).

Eligible margin loan means an extension of credit where:

(1) The extension of credit is collateralized exclusively by liquid and readily marketable debt or equity securities, gold, or conforming residential mortgages;

(2) The collateral is marked to market daily, and the transaction is subject to daily margin maintenance requirements;

(3) The extension of credit is conducted under an agreement that provides the bank holding company the right to accelerate and terminate the extension of credit and to liquidate or set off collateral promptly upon an event of default (including upon an event of bankruptcy, insolvency, or similar proceeding) of the counterparty, provided that, in any such case, any exercise of rights under the agreement will not be stayed or avoided under applicable law in the relevant jurisdictions; and

(4) The bank holding company has conducted sufficient legal review to conclude that the agreement meets the requirements of paragraph (3) of this definition and is legal, valid, binding, and enforceable under applicable law in the relevant jurisdictions.

Eligible operational risk offsets means amounts, not to exceed expected operational loss, that:

(1) Are generated by internal business practices to absorb highly predictable and reasonably stable operational losses, including reserves calculated consistent with GAAP; and

(2) Are available to cover expected operational losses with a high degree of certainty over a one-year horizon.

Eligible purchased wholesale exposure means a purchased wholesale exposure that:

2 This requirement is met where all transactions under the agreement are (i) executed under U.S. law and (ii) constitute “securities contracts” under section 555 of the Bankruptcy Code (11 U.S.C. 555), qualified financial contracts under section 11(e)(8) of the Federal Deposit Insurance Act (12 U.S.C. 1821(e)(8)), or netting contracts between or among financial institutions under sections 401–407 of the Federal Deposit Insurance Corporation Improvement Act of 1991 (12 U.S.C. 4401–4407) or the Federal Reserve Board’s Regulation EE (12 CFR part 231).
(1) The bank holding company or securitization SPE purchased from an unaffiliated seller and did not directly or indirectly originate;
(2) Was generated on an arm’s-length basis between the seller and the obligor (intercompany accounts receivable and receivables subject to contra-accounts between firms that buy and sell to each other do not satisfy this criterion);
(3) Provides the bank holding company or securitization SPE with a claim on all proceeds from the exposure or a pro rata interest in the proceeds from the exposure;
(4) Has an M of less than one year; and
(5) When consolidated by obligor, does not represent a concentrated exposure relative to the portfolio of purchased wholesale exposures.

Eligible securitization guarantor means:
(1) A sovereign entity, the Bank for International Settlements, the International Monetary Fund, the European Central Bank, the European Commission, a Federal Home Loan Bank, Federal Agricultural Mortgage Corporation (Farmer Mac), a multilateral development bank, a depository institution, a bank holding company, a savings and loan holding company (as defined in 12 U.S.C. 1467a) provided all or substantially all of the holding company’s activities are permissible for a financial holding company under 12 U.S.C. 1463(k), a foreign bank (as defined in §211.2 of the Federal Reserve Board’s Regulation K (12 CFR 211.2)), or a securities firm;
(2) Any other entity (other than a servicer or affiliate of the servicer) that directly issues or guarantees obligations of the bank holding company or securitization SPE that has a PD assigned by the bank holding company that is lower than or equal to the PD associated with a securitization SPE with a claim on all purchased wholesale exposures, servicer or similar expenses of the SPE over the period; and divided by
(3) The servicer has no legal obligation to, and does not, make advances to the securitization if the servicer concludes the advances are unlikely to be repaid.

Equity derivative contract means an equity-linked swap, purchased equity-linked option, forward equity-linked contract, or any other instrument linked to equities that gives rise to similar counterparty credit risks.

Equity exposure means:
(1) A security or instrument (whether voting or non-voting) that represents a direct or indirect ownership interest in, and is a residual claim on, the assets and income of a company, unless:
(i) The issuing company is consolidated with the bank holding company under GAAP;
(ii) The bank holding company is required to deduct the ownership interest from tier 1 or tier 2 capital under this appendix;
(iii) The ownership interest incorporates a payment or other similar obligation on the part of the issuing company (such as an obligation to make periodic payments); or
(iv) The ownership interest is a securitization exposure;
(2) A security or instrument that is mandatorily convertible into a security or instrument described in paragraph (1) of this definition;
(3) An option or warrant that is exercisable for a security or instrument described in paragraph (1) of this definition; or
(4) Any other security or instrument (other than a securitization exposure) to the extent the return on the security or instrument is based on the performance of a security or instrument described in paragraph (1) of this definition.

Excess spread for a period means:
(1) Gross finance charge collections and other income received by a securitization SPE (including market interchange fees) over a period minus interest paid to the holders of the securitization exposures, servicing fees, charge-offs, and other senior trust or similar expenses of the SPE over the period; divided by
(2) The principal balance of the underlying exposures at the end of the period.

Exchange rate derivative contract means a cross-currency interest rate swap, forward foreign-exchange contract, currency option purchased, or any other instrument linked to exchange rates that gives rise to similar counterparty credit risks.

Excluded mortgage exposure means any one-to four-family residential pre-sold construction loan for a residence for which the purchase contract is cancelled that would receive a 100 percent risk weight under section 618(a)(2) of the Resolution Trust Corporation Refinancing, Restructuring, and Improvement Act and under 12 CFR part 225, appendix A, section III.C.3.

Expected credit loss (ECL) means:
(1) For a wholesale exposure to a non-defaulted obligor or segment of non-defaulted retail exposures that is carried at fair value
with gains and losses flowing through earnings or that is classified as held-for-sale and is carried at the lower of cost or fair value with losses flowing through earnings, zero.

(2) For all other wholesale exposures to non-defaulted obligors or segments of non-defaulted retail exposures, the product of PD times LGD times EAD for the exposure or segment.

(3) For a wholesale exposure to a defaulted obligor or segment of defaulted retail exposures, the bank holding company’s impairment estimate for allowance purposes for the exposure or segment.

(4) Total ECL is the sum of expected credit losses for all wholesale and retail exposures other than exposures for which the bank holding company has applied the double default treatment in section 34 of this appendix.

*Expected exposure (EE)* means the expected value of the probability distribution of non-negative credit risk exposures to a counterparty at any specified future date before the maturity date of the longest term transaction in the netting set. Any negative market values in the probability distribution of market values to a counterparty at a specified future date are set to zero to convert the probability distribution of market values to the probability distribution of credit risk exposures.

*Expected operational loss (EOL)* means the expected value of the distribution of potential aggregate operational losses, generated by the bank holding company’s operational risk quantification system using a one-year horizon.

*Expected positive exposure (EPE)* means the weighted average over time of expected non-negative exposures to a counterparty where the weights are the proportion of the time interval that an individual expected exposure represents. When calculating risk-based capital requirements, the average is taken over a one-year horizon.

*Exposure at default (EAD).* (1) For the on-balance sheet component of a wholesale exposure or segment of retail exposures (other than an OTC derivative contract, or a repo-style transaction or eligible margin loan for which the bank holding company determines EAD under section 32 of this appendix), EAD means:

(i) If the exposure or segment is a security or segment of defaulted retail exposures, the product of PD times LGD times EAD for the exposure or segment.

(ii) If the exposure or segment is not a security classified as available-for-sale, the bank holding company’s carrying value (including net accrued but unpaid interest and fees) for the exposure or segment less any allocated transfer risk reserve for the exposure or segment.

(2) For the off-balance sheet component of a wholesale exposure or segment of retail exposures (other than an OTC derivative contract, or a repo-style transaction or eligible margin loan for which the bank holding company determines EAD under section 32 of this appendix) in the form of a loan commitment, line of credit, trade-related letter of credit, or transaction-related contingency, EAD means the bank holding company’s best estimate of net additions to the outstanding amount owed the bank holding company, including estimated future additional draws of principal and accrued but unpaid interest and fees, that are likely to occur over a one-year horizon assuming the wholesale exposure or the retail exposures in the segment were to go into default. This estimate of net additions must reflect what would be expected during economic downturn conditions. Trade-related letters of credit are short-term, self-liquidating instruments that are used to finance the movement of goods and are collateralized by the underlying goods. Transaction-related contingencies relate to a particular transaction and include, among other things, performance bonds and performance-based letters of credit.

(3) For the off-balance sheet component of a wholesale exposure or segment of retail exposures (other than an OTC derivative contract, or a repo-style transaction or eligible margin loan for which the bank holding company determines EAD under section 32 of this appendix) in the form of anything other than a loan commitment, line of credit, trade-related letter of credit, or transaction-related contingency, EAD means the notional amount of the exposure or segment.

(4) EAD for OTC derivative contracts is calculated as described in section 32 of this appendix. A bank holding company also may determine EAD for repo-style transactions and eligible margin loans as described in section 32 of this appendix.

(5) For wholesale or retail exposures in which only the drawn balance has been securitized, the bank holding company must reflect its share of the exposures’ undrawn balances in EAD. Undrawn balances of revolving exposures for which the drawn balances have been securitized must be allocated between the seller’s and investors’ interests on a pro rata basis, based on the proportions of the seller’s and investors’ shares of the securitized drawn balances.

*Exposure category* means any of the wholesale, retail, securitization, or equity exposure categories.

*External operational loss event data* means, with respect to a bank holding company, gross operational loss amounts, dates, recoveries, and relevant causal information for
operational loss events occurring at organizations other than the bank holding company.

**External rating** means a credit rating that is assigned by an NRSRO to an exposure, provided:

1. The credit rating fully reflects the entire amount of credit risk with regard to all payments owed to the holder of the exposure. If a holder is owed principal and interest on an exposure, the credit rating must fully reflect the credit risk associated with timely repayment of principal and interest. If a holder is owed only principal on an exposure, the credit rating must fully reflect only the credit risk associated with timely repayment of principal; and
2. The credit rating is published in an accessible form and is or will be included in the transition matrices made publicly available by the NRSRO that summarize the historical performance of positions rated by the NRSRO.

**Financial collateral** means collateral:

1. In the form of:
   i. Cash on deposit with the bank holding company (including cash held for the bank holding company by a third-party custodian or trustee);
   ii. Gold bullion;
   iii. Long-term debt securities that have an applicable external rating of one category below investment grade or higher;
   iv. Short-term debt instruments that have an applicable external rating of at least investment grade;
   v. Equity securities that are publicly traded;
   vi. Convertible bonds that are publicly traded;
   vii. Money market mutual fund shares and other mutual fund shares if a price for the shares is publicly quoted daily; or
   viii. Conforming residential mortgages; and
2. In which the bank holding company has a perfected, first priority security interest or, outside of the United States, the legal equivalent thereof (with the exception of cash on deposit and notwithstanding the prior security interest of any custodial agent).

**GAAP** means generally accepted accounting principles as used in the United States.

**Gain-on-sale** means an increase in the equity capital (as reported on Schedule HC of the FR Y–9C Report) of a bank holding company that results from the securitization of real estate mortgage loans.

**GAAP** means an increase in the equity capital (as reported on Schedule HC of the FR Y–9C Report) of a bank holding company that results from the securitization of real estate mortgage loans. "GAAP" means a financial guarantee, letter of credit, insurance, or other similar financial instrument (other than a credit derivative) that allows one party (beneficiary) to transfer the credit risk of one or more specific exposures (reference exposure) to another party (protection provider). See also eligible guarantee.

**High volatility commercial real estate (HVCRE) exposure** means a credit facility that finances or has financed the acquisition, development, or construction (ADC) of real property, unless the facility finances:

1. One- to four-family residential properties; or
2. Commercial real estate projects in which:
   i. The loan-to-value ratio is less than or equal to the applicable maximum supervisory loan-to-value ratio in the relevant agency’s real estate lending standards at 12 CFR part 34, Subpart D (OCC), 12 CFR part 208, appendix C (Federal Reserve); 12 CFR part 365, Subpart D (FDIC); and 12 CFR 560.100–560.101 (OTS).
   ii. The borrower has contributed capital to the project in the form of cash or unencumbered readily marketable assets (or has paid development expenses out-of-pocket) of at least 15 percent of the real estate’s appraised “as completed” value; and
   iii. The borrower contributed the amount of capital required by paragraph (2)(i) of this definition before the bank holding company advances funds under the credit facility, and the capital contributed by the borrower, or internally generated by the project, is contractually required to remain in the project throughout the life of the project. The life of a project concludes only when the credit facility is converted to permanent financing or is sold or paid in full. Permanent financing may be provided by the bank holding company that provided the ADC facility as long as the permanent financing is subject to the bank holding company’s underwriting criteria for long-term mortgage loans.

**Inferred rating** means a credit rating that is equal to the external rating referenced in paragraph (2)(i) of this definition.

1. The securitization exposure does not have an external rating; and
2. Another securitization exposure issued by the same issuer and secured by the same underlying exposures:
   i. Has an external rating;
   ii. Is subordinated in all respects to the unrated securitization exposure;
   iii. Does not benefit from any credit enhancement that is not available to the unrated securitization exposure; and
   iv. Has an effective remaining maturity that is equal to or longer than that of the unrated securitization exposure.

**Interest rate derivative contract** means a single-currency interest rate swap, basis swap, forward rate agreement, purchased interest rate option, when-issued securities, or any other instrument linked to interest rates.
that gives rise to similar counterparty credit risks.

Internal operational loss event data means, with respect to a bank holding company, gross operational loss amounts, dates, recoveries, and relevant causal information for operational loss events occurring at the bank holding company.

Investing bank holding company means, with respect to a securitization, a bank holding company that assumes the credit risk of a securitization exposure (other than an originating bank holding company of the securitization). In the typical synthetic securitization, the investing bank holding company sells credit protection on a pool of underlying exposures to the originating bank holding company.

Investment fund means a company:
(1) All or substantially all of the assets of which are financial assets; and
(2) That has no material liabilities.

Investors' interest EAD means, with respect to a securitization, the EAD of the underlying exposures multiplied by the ratio of:
(1) The total amount of securitization exposures issued by the securitization SPE to investors; divided by
(2) The outstanding principal amount of underlying exposures.

Loss given default (LGD) means:
(1) For a wholesale exposure, the greatest of:
(i) Zero;
(ii) The bank holding company’s empirically based best estimate of the long-run default-weighted average economic loss, per dollar of EAD, the bank holding company would expect to incur if the obligor (or a typical obligor in the loss severity grade assigned by the bank holding company to the exposure) were to default within a one-year horizon over a mix of economic conditions, including economic downturn conditions; or
(iii) The bank holding company’s empirically based best estimate of the economic loss, per dollar of EAD, the bank holding company would expect to incur if the obligor (or a typical obligor in the loss severity grade assigned by the bank holding company to the exposure) were to default within a one-year horizon during economic downturn conditions.
(2) For a segment of retail exposures, the greatest of:
(i) Zero;
(ii) The bank holding company’s empirically based best estimate of the long-run default-weighted average economic loss, per dollar of EAD, the bank holding company would expect to incur if the exposures in the segment were to default within a one-year horizon over a mix of economic conditions, including economic downturn conditions; or
(iii) The bank holding company’s empirically based best estimate of the economic loss, per dollar of EAD, the bank holding company would expect to incur if the exposures in the segment were to default within a one-year horizon during economic downturn conditions.

Main index means the Standard & Poor’s 500 Index, the FTSE All-World Index, and any other index for which the bank holding company can demonstrate to the satisfaction of the Federal Reserve that the equities represented in the index have comparable liquidity, depth of market, and size of bid-ask spreads as equities in the Standard & Poor’s 500 Index and FTSE All-World Index.

Multilateral development bank means the International Bank for Reconstruction and Development, the International Finance Corporation, the Inter-American Development Bank, the Asian Development Bank, the African Development Bank, the European Bank for Reconstruction and Development, the European Investment Bank, the European Investment Fund, the Nordic Investment Bank, the Caribbean Development Bank, the Islamic Development Bank, the Council of Europe Development Bank, and any other multilateral lending institution or regional development bank in which the U.S. government is a shareholder or contributing member or which the Federal Reserve determines poses comparable credit risk.

Netting set means a group of transactions with a single counterparty that are subject to a qualifying master netting agreement or qualifying cross-product master netting agreement. For purposes of the internal models methodology in paragraph (d) of section 32 of this appendix, each transaction that is not subject to such a master netting agreement is its own netting set.

Nth-to-default credit derivative means a credit derivative that provides credit protection only for the nth-defaulting reference exposure in a group of reference exposures.
Obligor means the legal entity or natural person contractually obligated on a wholesale exposure, except that a bank holding company may treat the following exposures as qualifying separate exposures:

(1) Exposures to the same legal entity or natural person denominated in different currencies;

(2) (i) An income-producing real estate exposure for which all or substantially all of the repayment of the exposure is reliant on the cash flows of the real estate serving as collateral for the exposure; the bank holding company, in economic substance, does not have recourse to the borrower beyond the real estate collateral; and no cross-default or cross-acceleration clauses are in place other than clauses obtained solely out of an abundance of caution; and

(ii) Other credit exposures to the same legal entity or natural person; and

(3) (i) A wholesale exposure authorized under section 364 of the U.S. Bankruptcy Code (11 U.S.C. 364) to a legal entity or natural person who is a debtor-in-possession for purposes of Chapter 11 of the Bankruptcy Code; and

(ii) Other credit exposures to the same legal entity or natural person.

Operational loss means a loss (excluding insurance or tax effects) resulting from an operational loss event. Operational loss includes all expenses associated with an operational loss event except for opportunity costs, forgone revenue, and costs related to risk management and control enhancements implemented to prevent future operational losses.

Operational loss event means an event that results in loss and is associated with any of the following seven operational loss event type categories:

(1) Internal fraud, which means the operational loss event type category that comprises operational losses resulting from an act involving at least one internal party of a type intended to defraud, misappropriate property, or circumvent regulation, the law, or company policy, excluding diversity- and discrimination-type events.

(2) External fraud, which means the operational loss event type category that comprises operational losses resulting from an act by a third party of a type intended to defraud, misappropriate property, or circumvent the law. Retail credit card losses arising from non-contractual, third-party initiated fraud (for example, identity theft) are external fraud operational losses. All other third-party initiated credit losses are to be treated as credit risk losses.

(3) Employment practices and workplace safety, which means the operational loss event type category that comprises operational losses resulting from an act inconsistent with employment, health, or safety laws or agreements, payment of personal injury claims, or payment arising from diversity- and discrimination-type events.

(4) Clients, products, and business practices, which means the operational loss event type category that comprises operational losses resulting from the nature or design of a product or from an unintentional or negligent failure to meet a professional obligation to specific clients (including fiduciary and suitability requirements).

(5) Damage to physical assets, which means the operational loss event type category that comprises operational losses resulting from the loss of or damage to physical assets from natural disaster or other events.

(6) Business disruption and system failures, which means the operational loss event type category that comprises operational losses resulting from disruption of business or system failures.

(7) Execution, delivery, and process management, which means the operational loss event type category that comprises operational losses resulting from failed transaction processing or process management or losses arising from relations with trade counterparties and vendors.

Operational risk means the risk of loss resulting from inadequate or failed internal processes, people, and systems or from external events (including legal risk but excluding strategic and reputational risk).

Operational risk exposure means the 99.9th percentile of the distribution of potential aggregate operational losses, as generated by the bank holding company’s operational risk quantification system over a one-year horizon (and not incorporating eligible operational risk offsets or qualifying operational risk mitigants).

Originating bank holding company, with respect to a securitization, means a bank holding company that:

(1) Directly or indirectly originated or securitized the underlying exposures included in the securitization; or

(2) Serves as an ABCP program sponsor to the securitization.

Other retail exposure means an exposure (other than a securitization exposure, an equity exposure, a residential mortgage exposure, an excluded mortgage exposure, a qualifying revolving exposure, or the residual value portion of a lease exposure) that is managed as part of a segment of exposures with homogeneous risk characteristics, not on an individual-exposure basis, and is either:

(1) An exposure to an individual for non-business purposes; or

(2) An exposure to an individual or company for business purposes if the bank holding company’s consolidated business credit exposure to the individual or company is $1 million or less.
Federal Reserve System

Over-the-counter (OTC) derivative contract means a derivative contract that is not traded on an exchange that requires the daily receipt and payment of cash-variation margin. Qualifying central counterparty (P) means:

(1) For a wholesale exposure to a non-defaulted obligor, the bank holding company’s empirically based best estimate of the long-run average one-year default rate for the rating grade assigned by the bank holding company to the obligor, capturing the average default experience for obligors in the rating grade over a mix of economic conditions (including economic downturn conditions) sufficient to provide a reasonable estimate of the average one-year default rate over the economic cycle for the rating grade.

(2) For a segment of non-defaulted retail exposures, the bank holding company’s empirically based best estimate of the long-run average one-year default rate for the exposures in the segment, capturing the average default experience for exposures in the segment over a mix of economic conditions (including economic downturn conditions) sufficient to provide a reasonable estimate of the average one-year default rate over the economic cycle for the segment and adjusted upward as appropriate for segments for which seasoning effects are material. For purposes of this definition, a segment for which seasoning effects are material is a segment where there is a material relationship between the time since origination of exposures within the segment and the bank holding company’s best estimate of the long-run average one-year default rate for the exposures in the segment.

(3) For a wholesale exposure to a defaulted obligor or segment of defaulted retail exposures, 100 percent.

Protection amount (P) means, with respect to an exposure hedged by an eligible guarantee or eligible credit derivative, the effective notional amount of the guarantee or credit derivative, reduced to reflect any currency mismatch, maturity mismatch, or lack of restructuring coverage (as provided in section 33 of this appendix).

Publicly traded means traded on:

(1) Any exchange registered with the SEC as a national securities exchange under section 6 of the Securities Exchange Act of 1934 (15 U.S.C. 78f); or

(2) Any non-U.S.-based securities exchange that:

(i) Is registered with, or approved by, a national securities regulatory authority; and

(ii) Provides a liquid, two-way market for the instrument in question, meaning that there are enough independent bona fide offers to buy and sell so that a sales price reasonably related to the last sales price or current bona fide competitive bid and offer quotations can be determined promptly and a trade can be settled at such a price within five business days.

Qualifying central counterparty means a counterparty (for example, a clearinghouse) that:

(1) Facilitates trades between counterparties in one or more financial markets by either guaranteeing trades or novating contracts;

(2) Requires all participants in its arrangements to be fully collateralized on a daily basis; and

(3) The bank holding company demonstrates to the satisfaction of the Federal Reserve is in sound financial condition and is subject to effective oversight by a national supervisory authority.

Qualifying cross-product master netting agreement means a qualifying master netting agreement that provides for termination and close-out netting across multiple types of financial transactions or qualifying master netting agreements in the event of a counterparty’s default, provided that:

(1) The underlying financial transactions are OTC derivative contracts, eligible margin loans, or repo-style transactions; and

(2) The bank holding company obtains a written legal opinion verifying the validity and enforceability of the agreement under applicable law of the relevant jurisdictions if the counterparty fails to perform upon an event of default, including upon an event of bankruptcy, insolvency, or similar proceeding.

Qualifying master netting agreement means any written, legally enforceable bilateral agreement, provided that:

(1) The agreement creates a single legal obligation for all individual transactions covered by the agreement upon an event of default, including bankruptcy, insolvency, or similar proceeding, of the counterparty;

(2) The agreement provides the bank holding company the right to accelerate, terminate, and close-out on a net basis all transactions under the agreement and to liquidate or set off collateral promptly upon an event of default, including upon an event of bankruptcy, insolvency, or similar proceeding, of the counterparty, provided that, in any such case, any exercise of rights under the agreement will not be stayed or avoided under applicable law in the relevant jurisdictions;

(3) The bank holding company has conducted sufficient legal review to conclude with a well-founded basis (and maintains sufficient written documentation of that legal review) that:

(1) The agreement meets the requirements of paragraph (2) of this definition; and

(ii) In the event of a legal challenge (including one resulting from default or from bankruptcy, insolvency, or similar proceeding) the relevant court and administrative authorities would find the agreement to be legal, valid, binding, and enforceable under the law of the relevant jurisdictions;
(4) The bank holding company establishes and maintains procedures to monitor possible changes in relevant law and to ensure that the agreement continues to satisfy the requirements of this definition; and

(5) The agreement does not contain a walkaway clause (that is, a provision that permits a non-defaulting counterparty to make a lower payment than it would make otherwise under the agreement, or no payment at all, to a defaulter or the estate of a defaulter, even if the defaulter or the estate of the defaulter is a net creditor under the agreement).

**Qualifying revolving exposure (QRE)** means an exposure (other than a securitization exposure or equity exposure) to an individual that is managed as part of a segment of exposures with homogeneous risk characteristics, not on an individual-exposure basis, and:

1. Is revolving (that is, the amount outstanding fluctuates, determined largely by the borrower’s decision to borrow and repay, up to a pre-established maximum amount); (2) Is unsecured and unconditionally cancelable by the bank holding company to the fullest extent permitted by Federal law; and

3. Has a maximum exposure amount (drawn plus undrawn) of up to $100,000.

**Repo-style transaction** means a repurchase or reverse repurchase transaction, or a securities borrowing or securities lending transaction, including a transaction in which the bank holding company acts as agent for a customer and indemnifies the customer against loss, provided that:

1. The transaction is based solely on liquid and readily marketable securities, cash, gold, or conforming residential mortgages;

2. The transaction is marked-to-market daily and subject to daily margin maintenance requirements;

3. (i) The transaction is a “securities contract” or “repurchase agreement” under section 555 or 559, respectively, of the Bankruptcy Code (11 U.S.C. 555 or 559), a qualified financial contract under section 11(e)(8) of the Federal Deposit Insurance Act (12 U.S.C. 1823(e)(8)), or a netting contract between or among financial institutions under sections 401–407 of the Federal Deposit Insurance Corporation Improvement Act of 1991 (12 U.S.C. 1831i–401–407) or the Federal Reserve Board’s Regulation EE (12 CFR part 231); or

(ii) If the transaction does not meet the criteria set forth in paragraph (3)(i) of this definition, then either:

(A) The transaction is executed under an agreement that provides the bank holding company the right to accelerate, terminate, and close-out the transaction on a net basis and to liquidate or set off collateral promptly upon an event of default (including upon an event of bankruptcy, insolvency, or similar proceeding) of the counterparty, provided that, in any such case, any exercise of rights under the agreement will not be stayed or avoided under applicable law in the relevant jurisdictions; or

(B) The transaction is:

1. Either overnight or unconditionally cancelable at any time by the bank holding company; and

2. Executed under an agreement that provides the bank holding company the right to accelerate, terminate, and close-out the transaction on a net basis and to liquidate or set off collateral promptly upon an event of counterparty default; and

4. The bank holding company has conducted sufficient legal review to conclude with a well-founded basis (and maintain sufficient written documentation of that legal review) that the agreement meets the requirements of paragraph (3) of this definition and is legal, valid, binding, and enforceable under applicable law in the relevant jurisdictions.

**Residential mortgage exposure** means an exposure (other than a securitization exposure, equity exposure, or excluded mortgage exposure) that is managed as part of a segment of exposures with homogeneous risk characteristics, not on an individual-exposure basis, and:

1. An exposure that is primarily secured by a first or subsequent lien on one- to four-family residential property; or

2. An exposure with an original and outstanding amount of $1 million or less that is primarily secured by a first or subsequent lien on residential property that is not one to four family.

**Retail exposure** means a residential mortgage exposure, a qualifying revolving exposure, or an other retail exposure.

**Retail exposure subcategory** means the residential mortgage exposure, qualifying revolving exposure, or other retail exposure subcategory.

**Risk parameter** means a variable used in determining risk-based capital requirements for wholesale and retail exposures, specifically probability of default (PD), loss given default (LGD), exposure at default (EAD), or effective maturity (M).

**Scenario analysis** means a systematic process of obtaining expert opinions from business managers and risk management experts to derive reasoned assessments of the likelihood and loss impact of plausible high-severity operational losses. Scenario analysis may include the well-reasoned evaluation and use of external operational loss event data, adjusted as appropriate to ensure relevance to a bank holding company’s operational risk profile and control structure.

**SEC** means the U.S. Securities and Exchange Commission.

**Securitization** means a traditional securitization or a synthetic securitization.
Securitization exposure means an on-balance sheet or off-balance sheet credit exposure that arises from a traditional or synthetic securitization (including credit-enhancing representations and warranties).

Securitization special purpose entity (securitization SPE) means a corporation, trust, or other entity organized for the specific purpose of holding underlying exposures of a securitization, the activities of which are limited to those appropriate to accomplish this purpose, and the structure of which is intended to isolate the underlying exposures held by the entity from the credit risk of the seller of the underlying exposures to the entity.

Senior securitization exposure means a securitization exposure that has a first priority claim on the cash flows from the underlying exposures. When determining whether a securitization exposure has a first priority claim on the cash flows from the underlying exposures, a bank holding company is not required to consider amounts due under interest rate or currency derivative contracts, fees due, or other similar payments. Both the most senior commercial paper issued by an ABCP program and a liquidity facility that supports the ABCP program may be senior securitization exposures if the liquidity facility provider’s right to reimbursement of the drawn amounts is senior to all claims on the cash flows from the underlying exposures except amounts due under interest rate or currency derivative contracts, fees due, or other similar payments.

Servicer cash advance facility means a facility under which the servicer of the underlying exposures of a securitization may advance cash to ensure an uninterrupted flow of payments to investors in the securitization, including advances made to cover foreclosure costs or other expenses to facilitate the timely collection of the underlying exposures. See also eligible servicer cash advance facility.

Sovereign entity means a central government (including the U.S. government) or an agency, department, ministry, or central bank of a central government.

Sovereign exposure means:

1. A direct exposure to a sovereign entity;
   or
2. An exposure directly and unconditionally backed by the full faith and credit of a sovereign entity.

Subsidiary means, with respect to a company, a company controlled by that company.

Synthetic securitization means a transaction in which:

1. All or a portion of the credit risk of one or more underlying exposures is transferred to one or more third parties through the use of one or more credit derivatives or guarantees (other than a guarantee that transfers only the credit risk of an individual retail exposure);
2. The credit risk associated with the underlying exposures has been separated into at least two tranches reflecting different levels of seniority;
3. Performance of the securitization exposures depends upon the performance of the underlying exposures; and
4. All or substantially all of the underlying exposures are financial exposures (such as loans, commitments, credit derivatives, guarantees, receivables, asset-backed securities, mortgage-backed securities, other debt securities, or equity securities).

Tier 1 capital is defined in 12 CFR part 225, appendix A, as modified in part II of this appendix.

Tier 2 capital is defined in 12 CFR part 225, appendix A, as modified in part II of this appendix.

Total qualifying capital means the sum of tier 1 capital and tier 2 capital, after all deductions required in this appendix.

Total risk-weighted assets means:

1. The sum of:
   (i) Credit risk-weighted assets; and
   (ii) Risk-weighted assets for operational risk; minus
2. Excess eligible credit reserves not included in tier 2 capital.

Total wholesale and retail risk-weighted assets means the sum of risk-weighted assets for wholesale exposures to non-defaulted obligors and segments of non-defaulted retail exposures; risk-weighted assets for wholesale exposures to defaulted obligors and segments of defaulted retail exposures; risk-weighted assets for assets not defined by an exposure category; and risk-weighted assets for non-material portfolios of exposures (all as determined in section 31 of this appendix) minus the amounts deducted from capital pursuant to 12 CFR part 225, appendix A (excluding those deductions reversed in section 12 of this appendix).

Traditional securitization means a transaction in which:

1. All or a portion of the credit risk of one or more underlying exposures is transferred to one or more third parties other than through the use of credit derivatives or guarantees;
2. The credit risk associated with the underlying exposures has been separated into at least two tranches reflecting different levels of seniority;
3. Performance of the securitization exposures depends upon the performance of the underlying exposures; and
4. All or substantially all of the underlying exposures are financial exposures (such as loans, commitments, credit derivatives, guarantees, receivables, asset-backed securities, mortgage-backed securities, other debt securities, or equity securities).
guarantees, receivables, asset-backed securities, mortgage-backed securities, other debt securities, or equity securities);

5. The underlying exposures are not owned by an operating company;

6. The underlying exposures are not owned by a small business investment company described in section 362 of the Small Business Investment Act of 1958 (15 U.S.C. 682); and

7. The underlying exposures are not owned by a firm an investment in which qualifies as a community development investment under 12 U.S.C. 24(Eleventh).

8. The Federal Reserve may determine that a transaction in which the underlying exposures are owned by an investment firm that exercises substantially unfettered control over the size and composition of its assets, liabilities, and off-balance sheet exposures is not a traditional securitization based on the transaction’s leverage, risk profile, or economic substance.

9. The Federal Reserve may deem a transaction that meets the definition of a traditional securitization, notwithstanding paragraph (5), (6), or (7) of this definition, to be a traditional securitization based on the transaction’s leverage, risk profile, or economic substance.

Wholesale exposure subcategory means the HVCRE or non-HVCRE wholesale exposure subcategory.

Section 3. Minimum Risk-Based Capital Requirements

(a) Except as modified by paragraph (c) of this section or by section 23 of this appendix, each bank holding company must meet a minimum ratio of:

(1) Total qualifying capital to total risk-weighted assets of 6.0 percent; and

(2) Tier 1 capital to total risk-weighted assets of 4.0 percent.

(b) Each bank holding company must hold capital commensurate with the level and nature of all risks to which the bank holding company is exposed.

(c) When a bank holding company subject to 12 CFR part 225, appendix E calculates its risk-based capital requirements under this appendix, the bank holding company must also refer to 12 CFR part 225, appendix E for supplemental rules to calculate risk-based capital requirements adjusted for market risk.

PART II. QUALIFYING CAPITAL

Section II. Additional Deductions

(a) General. A bank holding company that uses this appendix must make the same deductions from its tier 1 capital and tier 2 capital required in 12 CFR part 225, appendix A, except that:

(1) A bank holding company is not required to deduct certain equity investments and CEIOs (as provided in section 12 of this appendix); and

(2) A bank holding company also must make the deductions from capital required by paragraphs (b) and (c) of this section.

(b) Deductions from tier 1 capital. A bank holding company must deduct from tier 1 capital any gain-on-sale associated with a securitization exposure as provided in paragraph (a) of section 41 and paragraphs (a)(1), (c), (e)(1), and (b)(1) of section 42 of this appendix.
(c) Deductions from tier 1 and tier 2 capital. A bank holding company must deduct the exposures specified in paragraphs (c)(1) through (c)(7) in this section 50 percent from tier 1 capital and 50 percent from tier 2 capital. If the amount deductible from tier 2 capital exceeds the bank holding company’s actual tier 2 capital, however, the bank holding company must deduct the excess from tier 1 capital.

(1) Credit-enhancing interest-only strips (CEIO). In accordance with paragraphs (a)(1) and (c) of section 42 of this appendix, any CEIO that does not constitute gain-on-sale.

(2) Non-qualifying securitization exposures. In accordance with paragraphs (a)(4) and (c) of section 42 of this appendix, any securitization exposure that does not qualify for the Ratings-Based Approach, the Internal Assessment Approach, or the Supervisory Formula Approach under sections 43, 44, and 45 of this appendix, respectively.

(3) Securitizations of non-IRB exposures. In accordance with paragraphs (c) and (g)(4) of section 42 of this appendix, certain exposures to a securitization any underlying exposure of which is not a wholesale exposure, retail exposure, securitization exposure, or equity exposure.

(4) Low-rated securitization exposures. In accordance with section 43 and paragraph (c) of section 42 of this appendix, any securitization exposure that qualifies for and must be deducted under the Ratings-Based Approach.

(5) High-risk securitization exposures subject to the Supervisory Formula Approach. In accordance with paragraphs (b) and (c) of section 45 of this appendix and paragraph (c) of section 42 of this appendix, certain high-risk securitization exposures (or portions thereof) that qualify for the Supervisory Formula Approach.

(6) Eligible credit reserves shortfall. In accordance with paragraph (a)(1) of section 13 of this appendix, any eligible credit reserves shortfall.

(7) Certain failed capital markets transactions. In accordance with paragraph (e)(3) of section 35 of this appendix, the bank holding company’s exposure on certain failed capital markets transactions.

(b) Treatment of allowance for loan and lease losses. Regardless of any provision in 12 CFR part 225, appendix A, the ALLL is included in tier 2 capital only to the extent provided in paragraph (a)(2) of this section and in section 21 of this appendix.

Part III. Qualification

Section 21. Qualification Process

(a) Timing. (1) A bank holding company that is described in paragraph (b)(1) of section 1 of this appendix must adopt a written implementation plan no later than six months after the later of April 1, 2008, or the date the bank holding company meets a criterion in that section. The implementation plan must incorporate an explicit first floor period start date. (a) The bank holding company’s total expected credit losses, the bank holding company must deduct the shortfall amount 50 percent from tier 1 capital and 50 percent from tier 2 capital. If the amount deductible from tier 2 capital exceeds the bank holding company’s actual tier 2 capital, the bank holding company must deduct the excess amount from tier 1 capital.

(2) Excess eligible credit reserves. If a bank holding company’s eligible credit reserves exceed the bank holding company’s total expected credit losses, the bank holding company may include the excess amount in tier 2 capital to the extent that the excess amount does not exceed 0.6 percent of the bank holding company’s credit-risk-weighted assets.

(b) Implementation plan. (1) The bank holding company’s implementation plan must address in detail how the bank holding company complies, or plans to comply, with the qualification requirements in section 22 of this appendix. The bank holding company also must maintain a comprehensive and sound planning and governance process to
oversee the implementation efforts described in the plan. At a minimum, the plan must:

(i) Comprehensively address the qualification requirements in section 22 of this appendix and each consolidated subsidiary (U.S. and foreign-based) of the bank holding company with respect to all business lines, portfolios, and exposures from application of the advanced approaches in this appendix (which business lines, portfolios, and exposures must be, in the aggregate, immaterial to the bank holding company);

(ii) Justify and support any proposed temporary or permanent exclusion of business lines, portfolios, or exposures from application of the advanced approaches in this appendix (which business lines, portfolios, and exposures must be, in the aggregate, immaterial to the bank holding company);

(iii) Include the bank holding company’s self-assessment of:

(A) The bank holding company’s current status in meeting the qualification requirements in section 22 of this appendix; and

(B) The consistency of the bank holding company’s current practices with the Federal Reserve’s supervisory guidance on the qualification requirements;

(iv) Based on the bank holding company’s self-assessment, identify and describe the areas in which the bank holding company proposes to undertake additional work to comply with the qualification requirements in section 22 of this appendix or to improve the consistency of the bank holding company’s current practices with the Federal Reserve’s supervisory guidance on the qualification requirements (gap analysis);

(v) Describe what specific actions the bank holding company will take to address the areas identified in the gap analysis required by paragraph (b)(1)(iv) of this section;

(vi) Identify objective, measurable milestones, including delivery dates and a date when the bank holding company’s implementation of the methodologies described in this appendix will be fully operational;

(vii) Describe resources that have been budgeted and are available to implement the plan; and

(viii) Receive approval of the bank holding company’s board of directors.

The bank holding company must submit the implementation plan, together with a copy of the minutes of the board of directors’ approval, to the Federal Reserve at least 60 days before the bank holding company proposes to begin its parallel run, unless the Federal Reserve waives prior notice.

Parallel run. Before determining its risk-based capital requirements under this appendix and following adoption of the implementation plan, the bank holding company must conduct a satisfactory parallel run. A satisfactory parallel run is a period of no less than four consecutive calendar quarters during which the bank holding company complies with the qualification requirements in section 22 of this appendix to the satisfaction of the Federal Reserve. During the parallel run, the bank holding company must report to the Federal Reserve on a calendar quarterly basis its risk-based capital ratios using 12 CFR part 225, appendix A and the risk-based capital requirements described in this appendix. During this period, the bank holding company is subject to 12 CFR part 225, appendix A.

(d) Approval to calculate risk-based capital requirements under this appendix. The Federal Reserve will notify the bank holding company of the date that the bank holding company may begin its first floor period if the Federal Reserve determines that:

(1) The bank holding company fully complies with all the qualification requirements in section 22 of this appendix;

(2) The bank holding company has conducted a satisfactory parallel run under paragraph (c) of this section; and

(3) The bank holding company has an adequate process to ensure ongoing compliance with the qualification requirements in section 22 of this appendix.

(e) Transitional floor periods. Following a satisfactory parallel run, a bank holding company is subject to three transitional floor periods.

(1) Risk-based capital ratios during the transitional floor periods—(i) Tier 1 risk-based capital ratio. During a bank holding company’s transitional floor periods, the bank holding company’s tier 1 risk-based capital ratio is equal to the lower of:

(A) The bank holding company’s floor-adjusted tier 1 risk-based capital ratio; or

(B) The bank holding company’s advanced approaches tier 1 risk-based capital ratio.

(ii) Total risk-based capital ratio. During a bank holding company’s transitional floor periods, the bank holding company’s total risk-based capital ratio is equal to the lower of:

(A) The bank holding company’s floor-adjusted total risk-based capital ratio; or

(B) The bank holding company’s advanced approaches total risk-based capital ratio.

(2) Floor-adjusted risk-based capital ratios. (i) A bank holding company’s floor-adjusted tier 1 risk-based capital ratio during a transitional floor period is equal to the bank holding company’s tier 1 capital as calculated under 12 CFR part 225, appendix A, divided by the product of:

(A) The bank holding company’s total risk-weighted assets as calculated under 12 CFR part 225, appendix A; and

(B) The appropriate transitional floor percentage in Table 1.

(ii) A bank holding company’s floor-adjusted total risk-based capital ratio during a transitional floor period is equal to the sum of the bank holding company’s tier 1 and tier 2 capital as calculated under 12 CFR part 225, appendix A, divided by the product of:
Federal Reserve System

(A) The bank holding company’s total risk-weighted assets as calculated under 12 CFR part 225, appendix A; and
(B) The appropriate transitional floor percentage in Table 1.

(iii) A bank holding company that meets the criteria in paragraph (b)(1) or (b)(2) of section 1 of this appendix as of April 1, 2008, must use 12 CFR part 225, appendix A during the parallel run and as the basis for its transitional floors.

</tbody>
</table>

(3) Advanced approaches risk-based capital ratios. (i) A bank holding company’s advanced approaches tier 1 risk-based capital ratio equals the bank holding company’s tier 1 risk-based capital ratio as calculated under this appendix (other than this section on transitional floor periods).

(ii) A bank holding company’s advanced approaches total risk-based capital ratio equals the bank holding company’s total risk-based capital ratio as calculated under this appendix (other than this section on transitional floor periods).

(4) Reporting. During the transitional floor periods, a bank holding company must report to the Federal Reserve on a calendar quarterly basis both floor-adjusted risk-based capital ratios and both advanced approaches risk-based capital ratios.

(5) Exiting a transitional floor period. A bank holding company may not exit a transitional floor period until the bank holding company has spent a minimum of four consecutive calendar quarters in the period and the Federal Reserve has determined that the bank holding company may exit the floor period. The Federal Reserve’s determination will be based on an assessment of the bank holding company’s ongoing compliance with the qualification requirements in section 22 of this appendix.

(6) Interagency study. After the end of the second transition year (2010), the Federal banking agencies will publish a study that evaluates the advanced approaches to determine if there are any material deficiencies. For any primary Federal supervisor to authorize any institution to exit the third transitional floor period, the study must determine that there are no such material deficiencies that cannot be addressed by then-existing tools, or, if such deficiencies are found, they are first remedied by changes to this appendix. Notwithstanding the preceding sentence, a primary Federal supervisor that disagrees with the finding of material deficiency may not authorize any institution under its jurisdiction to exit the third transitional floor period unless it provides a public report explaining its reasoning.

Section 22. Qualification Requirements

(a) Process and systems requirements. (1) A bank holding company must have a rigorous process for assessing its overall capital adequacy in relation to its risk profile and a comprehensive strategy for maintaining an appropriate level of capital.

(2) The systems and processes used by a bank holding company for risk-based capital purposes under this appendix must be consistent with the bank holding company’s internal risk management processes and management information reporting systems.

(3) Each bank holding company must have an appropriate infrastructure with risk measurement and management processes that meet the qualification requirements of this section and are appropriate given the bank holding company’s size and level of complexity. Regardless of whether the systems and models that generate the risk parameters necessary for calculating a bank holding company’s risk-based capital requirements are located at any affiliate of the bank holding company, the bank holding company itself must ensure that the risk parameters and reference data used to determine its risk-based capital requirements are representative of its own credit risk and operational risk exposures.

(b) Risk rating and segmentation systems for wholesale and retail exposures. (1) A bank holding company must have an internal risk rating and segmentation system that accurately and reliably differentiates among degrees of credit risk for the bank holding company’s wholesale and retail exposures.

(2) For wholesale exposures:

(i) A bank holding company must have an internal risk rating system that accurately and reliably assigns each obligor to a single rating grade (reflecting the obligor’s likelihood of default). A bank holding company may elect, however, not to assign to a rating grade an obligor to whom the bank holding company extends credit based solely on the financial strength of a guarantor, provided that all of the bank holding company’s exposures to the obligor are fully covered by eligible guarantees, the bank holding company applies the PD substitution approach in paragraph (c)(1) of section 33 of this appendix to all exposures to that obligor, and the bank holding company immediately assigns the obligor to a rating grade if a guarantee can no longer be recognized under this appendix. The bank holding company’s wholesale obligor rating system must have at least seven discrete rating grades for non-defaulted obligors and at least one rating grade for defaulted obligors.

(ii) Unless the bank holding company has chosen to directly assign LGD estimates to
each wholesale exposure, the bank holding company must have an internal risk rating system that accurately and reliably assigns each wholesale exposure to a loss severity rating (the bank holding company’s estimate of the LGD of the exposure). A bank holding company employing loss severity rating grades must have a sufficiently conservative risk parameter quantification process to avoid grouping together exposures with widely ranging LGDs.

(3) For retail exposures, a bank holding company must have an internal system that groups retail exposures into the appropriate retail exposure subcategory, groups the retail exposures in each retail exposure subcategory into separate segments with homogeneous risk characteristics, and assigns accurate and reliable PD and LGD estimates for each segment on a consistent basis. The bank holding company’s system must identify and group in separate segments by subcategories exposures identified in paragraphs (c)(2)(i) and (iii) of section 31 of this appendix.

(4) The bank holding company’s internal risk rating policy for wholesale exposures must describe the bank holding company’s rating philosophy (that is, must describe how wholesale obligor rating assignments are affected by the bank holding company’s choice of the range of economic, business, and industry conditions that are considered in the obligor rating process).

(5) The bank holding company’s internal risk rating system for wholesale exposures must provide for the review and update (as appropriate) of each obligor rating and (if applicable) each loss severity rating whenever the bank holding company receives new material information, but no less frequently than annually. The bank holding company’s retail exposure segmentation system must provide for the review and update (as appropriate) of assignments of retail exposures to segments whenever the bank holding company must have an internal system that groups retail exposures into the appropriate retail exposure subcategory, groups the retail exposures in each retail exposure subcategory into separate segments with homogeneous risk characteristics, and assigns accurate and reliable PD and LGD estimates for each segment on a consistent basis. The bank holding company’s system must identify and group in separate segments by subcategories exposures identified in paragraphs (c)(2)(i) and (iii) of section 31 of this appendix.

(4) The bank holding company’s internal risk rating policy for wholesale exposures must describe the bank holding company’s rating philosophy (that is, must describe how wholesale obligor rating assignments are affected by the bank holding company’s choice of the range of economic, business, and industry conditions that are considered in the obligor rating process).

(5) The bank holding company’s internal risk rating system for wholesale exposures must provide for the review and update (as appropriate) of each obligor rating and (if applicable) each loss severity rating whenever the bank holding company receives new material information, but no less frequently than annually. The bank holding company’s retail exposure segmentation system must provide for the review and update (as appropriate) of assignments of retail exposures to segments whenever the bank holding company must have an internal system that groups retail exposures into the appropriate retail exposure subcategory, groups the retail exposures in each retail exposure subcategory into separate segments with homogeneous risk characteristics, and assigns accurate and reliable PD and LGD estimates for each segment on a consistent basis. The bank holding company’s system must identify and group in separate segments by subcategories exposures identified in paragraphs (c)(2)(i) and (iii) of section 31 of this appendix.

(4) The bank holding company’s internal risk rating policy for wholesale exposures must describe the bank holding company’s rating philosophy (that is, must describe how wholesale obligor rating assignments are affected by the bank holding company’s choice of the range of economic, business, and industry conditions that are considered in the obligor rating process).

(5) The bank holding company’s internal risk rating system for wholesale exposures must provide for the review and update (as appropriate) of each obligor rating and (if applicable) each loss severity rating whenever the bank holding company receives new material information, but no less frequently than annually. The bank holding company’s retail exposure segmentation system must provide for the review and update (as appropriate) of assignments of retail exposures to segments whenever the bank holding company must have an internal system that groups retail exposures into the appropriate retail exposure subcategory, groups the retail exposures in each retail exposure subcategory into separate segments with homogeneous risk characteristics, and assigns accurate and reliable PD and LGD estimates for each segment on a consistent basis. The bank holding company’s system must identify and group in separate segments by subcategories exposures identified in paragraphs (c)(2)(i) and (iii) of section 31 of this appendix.

(4) The bank holding company’s internal risk rating policy for wholesale exposures must describe the bank holding company’s rating philosophy (that is, must describe how wholesale obligor rating assignments are affected by the bank holding company’s choice of the range of economic, business, and industry conditions that are considered in the obligor rating process).

(5) The bank holding company’s internal risk rating system for wholesale exposures must provide for the review and update (as appropriate) of each obligor rating and (if applicable) each loss severity rating whenever the bank holding company receives new material information, but no less frequently than annually. The bank holding company’s retail exposure segmentation system must provide for the review and update (as appropriate) of assignments of retail exposures to segments whenever the bank holding company must have an internal system that groups retail exposures into the appropriate retail exposure subcategory, groups the retail exposures in each retail exposure subcategory into separate segments with homogeneous risk characteristics, and assigns accurate and reliable PD and LGD estimates for each segment on a consistent basis. The bank holding company’s system must identify and group in separate segments by subcategories exposures identified in paragraphs (c)(2)(i) and (iii) of section 31 of this appendix.

(4) The bank holding company’s internal risk rating policy for wholesale exposures must describe the bank holding company’s rating philosophy (that is, must describe how wholesale obligor rating assignments are affected by the bank holding company’s choice of the range of economic, business, and industry conditions that are considered in the obligor rating process).

(5) The bank holding company’s internal risk rating system for wholesale exposures must provide for the review and update (as appropriate) of each obligor rating and (if applicable) each loss severity rating whenever the bank holding company receives new material information, but no less frequently than annually. The bank holding company’s retail exposure segmentation system must provide for the review and update (as appropriate) of assignments of retail exposures to segments whenever the bank holding company must have an internal system that groups retail exposures into the appropriate retail exposure subcategory, groups the retail exposures in each retail exposure subcategory into separate segments with homogeneous risk characteristics, and assigns accurate and reliable PD and LGD estimates for each segment on a consistent basis. The bank holding company’s system must identify and group in separate segments by subcategories exposures identified in paragraphs (c)(2)(i) and (iii) of section 31 of this appendix.
(1) Securitization exposures. A bank holding company must obtain the prior written approval of the Federal Reserve under section 44 of this appendix to use the Internal Assessment Approach for securitization exposures to ABCP programs.

(g) Equity exposures model. A bank holding company must obtain the prior written approval of the Federal Reserve under section 53 of this appendix to use the Internal Models Approach for equity exposures.

(h) Operational risk—(1) Operational risk management processes. A bank holding company must:

(i) Have an operational risk management function that:

(A) Is independent of business line management; and

(B) Is responsible for designing, implementing, and overseeing the bank holding company’s operational risk data and assessment systems, operational risk quantification systems, and related processes;

(ii) Have and document a process (which must capture business environment and internal control factors affecting the bank holding company’s operational risk profile) to identify, measure, monitor, and control operational risk in bank holding company products, activities, processes, and systems; and

(iii) Report operational risk exposures, operational loss events, and other relevant operational risk information to business unit management, senior management, and the board of directors (or a designated committee of the board).

(2) Operational risk data and assessment systems. A bank holding company must have operational risk data and assessment systems that capture operational risks to which the bank holding company is exposed. The bank holding company’s operational risk data and assessment systems must:

(i) Be structured in a manner consistent with the bank holding company’s current business activities, risk profile, technological processes, and risk management processes; and

(ii) Include credible, transparent, systematic, and verifiable processes that incorporate the following elements on an ongoing basis:

(A) Internal operational loss event data. The bank holding company must have a systematic process for capturing and using internal operational loss event data in its operational risk data and assessment systems.

(B) External operational loss event data. The bank holding company must have a systematic process for determining its methodologies for incorporating external operational loss event data into its operational risk data and assessment systems.

(C) Scenario analysis. The bank holding company must have a systematic process for incorporating scenario analysis into its operational risk data and assessment systems.

(D) Business environment and internal control factors. The bank holding company must incorporate business environment and internal control factors into its operational risk data and assessment systems. The bank holding company must also periodically compare the results of its prior business environment and internal control factor assessments against its actual operational losses incurred in the intervening period.

(3) Operational risk quantification systems. (1) The bank holding company’s operational risk quantification systems:

(A) Must generate estimates of the bank holding company’s operational risk exposure using its operational risk data and assessment systems;

(B) Must employ a unit of measure that is appropriate for the bank holding company’s range of business activities and the variety of operational loss events to which it is exposed, and that does not combine business activities or operational loss events with demonstrably different risk profiles within the same loss distribution;

(C) Must include a credible, transparent, systematic, and verifiable approach for weighting each of the four elements, described in paragraph (h)(2)(ii) of this section, that a bank holding company is required to incorporate into its operational risk data and assessment systems;

(D) May use internal estimates of dependence among operational losses across and within units of measure if the bank holding company can demonstrate to the satisfaction of the Federal Reserve that its process for estimating dependence is sound, robust to a variety of scenarios, and implemented with...
integrity, and allows for the uncertainty surrounding the estimates. If the bank holding company has not made such a demonstration, it must sum operational risk exposure estimates across units of measure to calculate its total operational risk exposure; and

(E) Must be reviewed and updated (as appropriate) whenever the bank holding company becomes aware of information that may have a material effect on the bank holding company’s estimate of operational risk exposure, but the review and update must occur no less frequently than annually.

(ii) [Reserved]

(i) Data management and maintenance. (1) A bank holding company must have data management and maintenance systems that adequately support all aspects of its advanced systems and the timely and accurate reporting of risk-based capital requirements.

(2) A bank holding company must retain data using an electronic format that allows timely retrieval of data for analysis, validation, reporting, and disclosure purposes.

(3) A bank holding company must retain sufficient data elements related to key risk drivers to permit adequate monitoring, validation, and refinement of its advanced systems.

(j) Control, oversight, and validation mechanisms. (1) The bank holding company’s senior management must ensure that all components of the bank holding company’s advanced systems function effectively and comply with the qualification requirements in this section.

(2) The bank holding company’s board of directors (or a designated committee of the board) must at least annually review the effectiveness of, and approve, the bank holding company’s advanced systems.

(3) A bank holding company must have an effective system of controls and oversight that:

(i) Ensures ongoing compliance with the qualification requirements in this section;

(ii) Maintains the integrity, reliability, and accuracy of the bank holding company’s advanced systems; and

(iii) Includes adequate governance and project management processes.

(4) The bank holding company must validate, on an ongoing basis, its advanced systems. The bank holding company’s validation process must be independent of the advanced systems’ development, implementation, and operation, or the validation process must be subjected to an independent review of its adequacy and effectiveness. Validation must include:

(i) An evaluation of the conceptual soundness of (including developmental evidence supporting) the advanced systems;

(ii) An ongoing monitoring process that includes verification of processes and benchmarking; and

(iii) An outcomes analysis process that includes back-testing.

(5) The bank holding company must have an internal audit function independent of business-line management that at least annually assesses the effectiveness of the controls supporting the bank holding company’s advanced systems and reports its findings to the bank holding company’s board of directors (or a committee thereof).

(6) The bank holding company must periodically stress test its advanced systems. The stress testing must include a consideration of how economic cycles, especially downturns, affect risk-based capital requirements (including migration across rating grades and segments and the credit risk mitigation benefits of double default treatment).

(k) Documentation. The bank holding company must adequately document all material aspects of its advanced systems.

Section 23. Ongoing Qualification

(a) Changes to advanced systems. A bank holding company must meet all the qualification requirements in section 22 of this appendix and has conducted a satisfactory parallel run fails to comply with the qualification requirements in section 22 of this appendix, the Federal Reserve will notify the bank holding company in writing of the bank holding company’s failure to comply.

(2) The bank holding company must establish and submit a plan satisfactory to the Federal Reserve to return to compliance with the qualification requirements.

(3) In addition, if the Federal Reserve determines that the bank holding company’s risk-based capital requirements are not commensurate with the bank holding company’s credit, market, operational, or other risks, the Federal Reserve may require such a bank holding company to calculate its risk-based capital requirements:

(i) Under 12 CFR part 225, appendix A; or

(ii) Under this appendix with any modifications provided by the Federal Reserve.

Section 24. Merger and Acquisition Transitional Arrangements

(a) Mergers and acquisitions of companies without advanced systems. If a bank holding
company merges with or acquires a company that does not calculate its risk-based capital requirements using advanced systems, the bank holding company may use 12 CFR part 225, appendix A to determine the risk-weighted asset amounts for, and deductions from capital associated with, the merged or acquired company’s exposures for up to 24 months after the calendar quarter during which the merger or acquisition consummates. The Federal Reserve may extend this transition period for up to an additional 12 months. Within 90 days of consummating the merger or acquisition, the bank holding company must submit to the Federal Reserve an implementation plan for using its advanced systems for the acquired company. During the period when 12 CFR part 225, appendix A apply to the merged or acquired company, any ALLL, net of allocated transfer risk reserves established pursuant to 12 U.S.C. 3904, associated with the merged or acquired company’s exposures may be included in the acquiring bank holding company’s tier 2 capital up to 1.25 percent of the acquired company’s risk-weighted assets. All general allowances of the merged or acquired company must be excluded from the bank holding company’s eligible credit reserves. In addition, the risk-weighted assets of the merged or acquired company are not included in the bank holding company’s credit-risk-weighted assets but are included in total risk-weighted assets. If a bank holding company relies on this paragraph, the bank holding company must disclose publicly the amounts of risk-weighted assets and qualifying capital calculated under this appendix for the acquiring bank holding company and under 12 CFR part 225, appendix A for the acquired company.

(b) Mergers and acquisitions of companies with advanced systems—(1) If a bank holding company merges with or acquires a company that calculates its risk-based capital requirements using advanced systems, the bank holding company may use the acquired company’s advanced systems to determine the risk-weighted asset amounts for, and deductions from capital associated with, the merged or acquired company’s exposures for up to 24 months after the calendar quarter during which the acquisition or merger consummates. The Federal Reserve may extend this transition period for up to an additional 12 months. Within 90 days of consummating the merger or acquisition, the bank holding company must submit to the Federal Reserve an implementation plan for using its advanced systems for the merged or acquired company.

(2) If the acquiring bank holding company is not subject to the advanced approaches in this appendix at the time of acquisition or merger, during the period when 12 CFR part 225, appendix A apply to the acquiring bank holding company, the ALLL associated with the exposures of the merged or acquired company may not be directly included in tier 2 capital. Rather, any excess eligible credit reserves associated with the merged or acquired company’s exposures may be included in the bank holding company’s tier 2 capital up to 0.6 percent of the credit-risk-weighted assets associated with those exposures.

PART IV. RISK-WEIGHTED ASSETS FOR GENERAL CREDIT RISK

Section 31. Mechanics for Calculating Total Wholesale and Retail Risk-Weighted Assets

(a) Overview. A bank holding company must calculate its total wholesale and retail risk-weighted asset amount in four distinct phases:

(1) Phase 1—categorization of exposures;
(2) Phase 2—assignment of wholesale obligors and exposures to rating grades and segmentation of retail exposures;
(3) Phase 3—assignment of risk parameters to wholesale exposures and segments of retail exposures; and
(4) Phase 4—calculation of risk-weighted asset amounts.

(b) Phase 1—Categorization. The bank holding company must determine which of its exposures are wholesale exposures, retail exposures, securitization exposures, or equity exposures. The bank holding company must categorize each retail exposure as a residential mortgage exposure, a QRE, or an other retail exposure. The bank holding company must identify which wholesale exposures are HVCRE exposures, sovereign exposures, securitization exposures, or equity exposures. The bank holding company must identify any on-balance sheet asset that does not meet the definition of a wholesale, retail, equity, or securitization exposure, as well as any non-material portfolio of exposures described in paragraph (e)(4) of this section.

(c) Phase 2—Assignment of wholesale obligors and exposures to rating grades and retail exposures to segments—(1) Assignment of wholesale obligors and exposures to rating grades.

(i) The bank holding company must assign each obligor of a wholesale exposure to a single obligor rating grade and must assign each wholesale exposure to which it does not directly assign an LGD estimate to a loss severity rating grade.

(ii) The bank holding company must identify which of its wholesale obligors are in default.

(2) Segmentation of retail exposures. (i) The bank holding company must group the retail exposures in each retail subcategory into
segments that have homogeneous risk characteristics.

(ii) The bank holding company must identify which of its retail exposures are in default. If the bank holding company determines that any retail exposures are eligible margin loans for which the bank holding company must segment defaulted retail exposures separately from non-defaulted retail exposures.

(iii) If the bank holding company determines the EAD for eligible margin loans using the approach in paragraph (b) of section 32 of this appendix, the bank holding company must identify which of its retail exposures are eligible margin loans for which the bank holding company uses this EAD approach and must segment such eligible margin loans separately from other retail exposures.

(3) Eligible purchased wholesale exposures. A bank holding company may group its eligible purchased wholesale exposures into segments that have homogeneous risk characteristics. A bank holding company must use the wholesale exposure formula in Table 2 in this section to determine the risk-based capital requirement for each segment of eligible purchased wholesale exposures.

(d) Phase 3—Assignment of risk parameters to wholesale exposures and segments of retail exposures—(1) Quantification process. Subject to the limitations in this paragraph (d), the bank holding company must:

(i) Associate a PD with each wholesale obligor rating grade;

(ii) Associate an LGD with each wholesale loss severity rating grade or assign an LGD to each wholesale exposure;

(iii) Assign an EAD and M to each wholesale exposure; and

(iv) Assign a PD, LGD, and EAD to each segment of retail exposures.

(2) Floor on PD assignment. The PD for each wholesale obligor or retail segment may not be less than 0.03 percent, except for exposures to or directly and unconditionally guaranteed by a sovereign entity, the Bank for International Settlements, the International Monetary Fund, the European Commission, the European Central Bank, or a multilateral development bank, to which the bank holding company assigns a rating grade associated with a PD of less than 0.03 percent.

(3) Floor on LGD estimation. The LGD for each segment of residential mortgage exposures (other than segments of residential mortgage exposures for which all or substantially all of the principal of each exposure is directly and unconditionally guaranteed by the full faith and credit of a sovereign entity) may not be less than 10 percent.

(4) Eligible purchased wholesale exposures. A bank holding company must assign a PD, LGD, EAD, and M to each segment of eligible purchased wholesale exposures. If the bank holding company can estimate ECL (but not PD or LGD) for a segment of eligible purchased wholesale exposures, the bank holding company must assume that the LGD of the segment equals 100 percent and that the PD of the segment equals EAD divided by EAD. The estimated ECL must be calculated for the exposures without regard to any assumption of recourse or guarantees from the seller or other parties.

(5) Credit risk mitigation—credit derivatives, guarantees, and collateral. (i) A bank holding company may take into account the risk reducing effects of eligible guarantees and eligible credit derivatives in support of a wholesale exposure by applying the PD substitution or LGD adjustment treatment to the exposure as provided in section 33 of this appendix or, if applicable, applying double default treatment to the exposure as provided in section 34 of this appendix. A bank holding company may decide separately for each wholesale exposure that qualifies for the double default treatment under section 34 of this appendix whether to apply the double default treatment or to use the PD substitution or LGD adjustment treatment without recognizing double default effects.

(ii) A bank holding company may take into account the risk reducing effects of guarantees and credit derivatives in support of retail exposures in a segment when quantifying the PD and LGD of the segment.

(iii) Except as provided in paragraph (d)(6) of this section, a bank holding company may take into account the risk reducing effects of collateral in support of a wholesale exposure when quantifying the LGD of the exposure and may take into account the risk reducing effects of collateral in support of retail exposures when quantifying the PD and LGD of the segment.

(6) EAD for OTC derivative contracts, repo-style transactions, and eligible margin loans. (i) A bank holding company must calculate its EAD for an OTC derivative contract as provided in paragraphs (c) and (d) of section 32 of this appendix. A bank holding company may take into account the risk reducing effects of financial collateral in support of a repo-style transaction or eligible margin loan and of any collateral in support of a repo-style transaction in support of financial collateral and may take into account the risk reducing effects of collateral in support of retail exposures under 12 CFR part 225, appendix E through an adjustment to EAD as provided in paragraphs (b) and (d) of section 32 of this appendix. A bank holding company may take into account the risk reducing effects of other collateral in support of OTC derivative transactions or repo-style transaction as provided in section 34 of this appendix. A bank holding company that takes collateral into account through such an adjustment to EAD under section 32 of this appendix may not reflect such collateral in LGD.

(ii) A bank holding company may attribute an EAD of zero to:

(A) Derivative contracts that are publicly traded on an exchange that requires the daily receipt and payment of cash-variation margin;

(B) Derivative contracts and repo-style transactions that are outstanding with a qualifying central counterparty (but not for
those transactions that a qualifying central counterparty has rejected; and

(C) Credit risk exposures to a qualifying central counterparty in the form of clearing deposits and posted collateral that arise from transactions described in paragraph (d)(6)(ii)(B) of this section.

(7) Effective maturity. An exposure's M must be no greater than five years and no less than one year, except that an exposure’s M must be no less than one day if the exposure has an original maturity of less than one year and is not part of a bank holding company’s ongoing financing of the obligor. An exposure is not part of a bank holding company’s ongoing financing of the obligor if the bank holding company:

(i) Has a legal and practical ability not to renew or roll over the exposure in the event of credit deterioration of the obligor;
(ii) Makes an independent credit decision at the inception of the exposure and at every renewal or roll over; and
(iii) Has no substantial commercial incentive to continue its credit relationship with the obligor in the event of credit deterioration of the obligor.

(e) Phase 4—Calculation of risk-weighted assets—(1) Non-defaulted exposures. (i) A bank holding company must calculate the dollar risk-based capital requirement for each of its wholesale exposures to a non-defaulted obligor (except eligible guarantees and eligible credit derivatives that hedge another wholesale exposure and exposures to which the bank holding company applies the double default treatment in section 34 of this appendix) and segments of non-defaulted retail exposures by inserting the assigned risk parameters for the wholesale obligor and exposure or retail segment into the appropriate risk-based capital formula specified in Table 2 and multiplying the output of the formula (K) by the EAD of the exposure or segment. Alternatively, a bank holding company may apply a 300 percent risk weight to the EAD of an eligible margin loan if the bank holding company is not able to meet the agencies’ requirements for estimation of PD and LGD for the margin loan.
(ii) The sum of all the dollar risk-based capital requirements for each wholesale exposure to a non-defaulted obligor and segment of non-defaulted retail exposures calculated in paragraph (e)(1)(i) of this section and in paragraph (e) of section 34 of this appendix equals the total dollar risk-based capital requirement for those exposures and segments.

(iii) The aggregate risk-weighted asset amount for wholesale exposures to non-defaulted obligors and segments of non-defaulted retail exposures equals the total dollar risk-based capital requirement calculated in paragraph (e)(1)(i) of this section multiplied by 12.5.

(2) Wholesale exposures to defaulted obligors and segments of defaulted retail exposures. (i) The dollar risk-based capital requirement for each wholesale exposure to a defaulted obligor equals 0.08 multiplied by the EAD of the exposure.

(ii) The dollar risk-based capital requirement for a segment of defaulted retail exposures equals 0.08 multiplied by the EAD of the segment.

(iii) The sum of all the dollar risk-based capital requirements for each wholesale exposure to a defaulted obligor calculated in paragraph (e)(2)(i) of this section plus the dollar risk-based capital requirements for each segment of defaulted retail exposures equals 0.08 multiplied by the EAD of the exposure.
calculated in paragraph (e)(2)(ii) of this section equals the total dollar risk-based capital requirement for those exposures and segments.

(3) Assets not included in a defined exposure category. (i) A bank holding company may assign a risk-weighted asset amount of zero to cash owned and held in all offices of subsidiary depository institutions or in transit and for gold bullion held in either a subsidiary depository institution’s own vaults, or held in another depository institution’s vaults on an allocated basis, to the extent the gold bullion assets are offset by gold bullion liabilities.

(ii) The risk-weighted asset amount for the residual value of a retail lease exposure equals such residual value.

(iii) The risk-weighted asset amount for any other on-balance-sheet asset that does not meet the definition of a wholesale, retail, securitization, or equity exposure equals the carrying value of the asset.

(4) Non-material portfolios of exposures. The risk-weighted asset amount of a portfolio of exposures for which the bank holding company has demonstrated to the Federal Reserve’s satisfaction that the portfolio (when combined with all other portfolios of exposures that the bank holding company seeks to treat under this paragraph) is not material to the bank holding company is the sum of the carrying values of on-balance sheet exposures plus the notional amounts of off-balance sheet exposures in the portfolio. For purposes of this paragraph (e)(4), the notional amount of an OTC derivative contract that is not a credit derivative is the EAD of the derivative as calculated in section 32 of this appendix.

Section 32. Counterparty Credit Risk of Repo-Style Transactions, Eligible Margin Loans, and OTC Derivative Contracts

(a) In General. (1) This section describes two methodologies—a collateral haircut approach and an internal models methodology—that a bank holding company may use instead of an LGD estimation methodology to recognize the benefits of financial collateral in mitigating the counterparty credit risk of repo-style transactions, eligible margin loans, collateralized OTC derivative contracts, and single product netting sets of such transactions and to recognize the benefits of any collateral in mitigating the counterparty credit risk of repo-style transactions that are included in a bank holding company’s VaR-based measure under 12 CFR part 225, appendix E. A third methodology, the simple VaR methodology, is available for single product netting sets of repo-style transactions and eligible margin loans.

(2) This section also describes the methodology for calculating EAD for an OTC derivative contract or a set of OTC derivative contracts subject to a qualifying master netting agreement. A bank holding company also may use the internal models methodology to estimate EAD for qualifying cross-product master netting agreements.

(b) EAD for eligible margin loans and repo-style transactions—(1) General. A bank holding company may recognize the credit risk mitigation benefits of financial collateral that secures an eligible margin loan, repo-style transaction, or single-product netting set of such transactions by factoring the collateral into its LGD estimates for the exposure. Alternatively, a bank holding company may estimate an unsecured LGD for the exposure, as well as for any repo-style transaction that is included in the bank holding company’s VaR-based measure under 12 CFR part 225, appendix E, and determine the EAD of the exposure using:

(i) The collateral haircut approach described in paragraph (b)(2) of this section;

(ii) For netting sets only, the simple VaR methodology described in paragraph (b)(3) of this section; or

(iii) The internal models methodology described in paragraph (d) of this section.

(2) Collateral haircut approach—(i) EAD equation. A bank holding company may determine EAD for an eligible margin loan, repo-style transaction, or netting set by setting EAD equal to max \(0, \left[\Sigma (\Sigma E - \Sigma C) + \Sigma (E/s - H/s) + \Sigma (E/s - H/s)\right]\), where:

(A) \(\Sigma E\) equals the value of the exposure (the sum of the current market values of all instruments, gold, and cash the bank holding company has lent, sold subject to repurchase, or posted as collateral to the counterparty under the transaction (or netting set));

(B) \(\Sigma C\) equals the value of the collateral (the sum of the current market values of all instruments, gold, and cash the bank holding company has borrowed, purchased subject to resale, or taken as collateral from the counterparty under the transaction (or netting set));
(C) $E_s$ equals the absolute value of the net position in a given instrument or in gold (where the net position in a given instrument or in gold equals the sum of the current market values of the instrument or gold the bank holding company has lent, sold subject to repurchase, or posted as collateral to the counterparty minus the sum of the current market values of that same instrument or gold the bank holding company has borrowed, purchased subject to resale, or taken as collateral from the counterparty);

(D) $H_s$ equals the market price volatility haircut appropriate to the instrument or gold referenced in $E_s$;

(E) $E_{fx}$ equals the absolute value of the net position of instruments and cash in a currency that is different from the settlement currency (where the net position in a given currency equals the sum of the current market values of that same instrument or in gold the bank holding company has lent, sold subject to repurchase, or posted as collateral to the counterparty minus the sum of the current market values of any instruments or cash in the currency the bank holding company has lent, sold subject to repurchase, or posted as collateral to the counterparty minus the sum of the current market values of any instruments or cash in the currency the bank holding company has borrowed, purchased subject to resale, or taken as collateral from the counterparty); and

(F) $H_{fx}$ equals the haircut appropriate to the mismatch between the currency referenced in $E_{fx}$ and the settlement currency.

(i) **Standard supervisory haircuts.** (A) Under the standard supervisory haircuts approach:

1. A bank holding company must use the haircuts for market price volatility ($H_s$) in Table 3, as adjusted in certain circumstances as provided in paragraph (b)(2)(ii)(A)(3) and (4) of this section;

2. For currency mismatches, a bank holding company may use a haircut for foreign exchange rate volatility ($H_{fx}$) of 8 percent, as adjusted in certain circumstances as provided in paragraph (b)(2)(ii)(A)(3) and (4) of this section.

3. For repo-style transactions, a bank holding company may multiply the supervisory haircuts provided in paragraphs (b)(2)(ii)(A)(3) and (4) of this section by the square root of $\frac{1}{2}$ (which equals 0.707107).

4. A bank holding company must adjust the supervisory haircuts upward on the basis of a holding period longer than ten business days (for eligible margin loans) or five business days (for repo-style transactions) where and as appropriate to take into account the illiquidity of an instrument.

(b)(2)(ii)(A)(3) Own internal estimates for haircuts. With the prior written approval of the Federal Reserve, a bank holding company may calculate haircuts ($H_s$ and $H_{fx}$) using its own internal estimates of the volatilities of market prices and foreign exchange rates.

(A) To receive Federal Reserve approval to use its own internal estimates, a bank holding company must satisfy the following minimum quantitative standards:

1. A bank holding company must use a 99th percentile one-tailed confidence interval.

2. The minimum holding period for a repo-style transaction is five business days and for an eligible margin loan is ten business days. When a bank holding company calculates an own-estimates haircut on a $T_{\text{min}}$-day holding period, which is different from the minimum holding period for the transaction type, the applicable haircut ($H_{lo}$) is

---

1 The market price volatility haircuts in Table 3 are based on a ten-business-day holding period.
calculated using the following square root of time formula:

$$H_M = H_N \sqrt{\frac{T_M}{T_N}},$$

where

(i) $T_M$ equals 5 for repo-style transactions and 10 for eligible margin loans;
(ii) $T_M$ equals the holding period used by the bank holding company to derive $H_N$ and
(iii) $H_M$ equals the haircut based on the holding period $T_M$.

(3) A bank holding company must adjust holding periods upwards where and as appropriate to take into account the illiquidity of an instrument.

(4) The historical observation period must be at least one year.

(5) A bank holding company must update its data sets and recompute haircuts no less frequently than quarterly and must also reassess data sets and haircuts whenever market prices change materially.

(B) With respect to debt securities that have an applicable external rating of investment grade, a bank holding company may calculate haircuts for categories of securities. For a category of securities, the bank holding company must calculate the haircut on the basis of internal volatility estimates for securities in that category that are representative of the securities in that category that the bank holding company has lent, sold subject to repurchase, posted as collateral, borrowed, purchased subject to resale, or taken as collateral. In determining relevant categories, the bank holding company must at a minimum take into account:

(i) The type of issuer of the security;
(ii) The applicable external rating of the security;
(iii) The maturity of the security; and
(iv) The interest rate sensitivity of the security.

(C) With respect to debt securities that have an applicable external rating of below investment grade and equity securities, a bank holding company must calculate a separate currency mismatch haircut for its net position in each mismatched currency based on estimated volatilities of foreign exchange rates between the mismatched currency and the settlement currency.

(D) A bank holding company’s own estimates of market price and foreign exchange rate volatilities may not take into account the exposure or collateral side of a transaction (or netting set) or the correlations among securities and foreign exchange rates between the exposure and collateral sides of the transaction (or netting set).

(3) Simple VaR methodology. With the prior written approval of the Federal Reserve, a bank holding company may estimate EAD for a netting set using a VaR model that meets the requirements in paragraph (b)(5)(iii) of this section. In such event, the bank holding company must set EAD equal to max \{0, (|\Sigma E - \Sigma C| + PFE)\}, where:

(i) $\Sigma E$ equals the value of the exposure (the sum of the current market values of all instruments, gold, and cash the bank holding company has lent, sold subject to repurchase, or posted as collateral to the counterparty under the netting set);
(ii) $\Sigma C$ equals the value of the collateral (the sum of the current market values of all instruments, gold, and cash the bank holding company has borrowed, purchased subject to resale, or taken as collateral from the counterparty under the netting set); and
(iii) PFE (potential future exposure) equals the bank holding company’s empirically based best estimate of the 99th percentile, one-tailed confidence interval for an increase in the value of $(\Sigma E - \Sigma C)$ over a five-business-day holding period for repo-style transactions or over a ten-business-day holding period for eligible margin loans using a minimum one-year historical observation period of price data representing the instruments that the bank holding company has lent, sold subject to repurchase, or posted as collateral to the counterparty under the netting set; and

(c) EAD for OTC derivative contracts. (1) A bank holding company must determine the EAD for an OTC derivative contract that is not subject to a qualifying master netting agreement using the current exposure methodology in paragraph (c)(5) of this section or using the internal models methodology described in paragraph (d) of this section.

(2) A bank holding company must determine the EAD for multiple OTC derivative contracts that are subject to a qualifying master netting agreement using the current exposure methodology in paragraph (c)(6) of this section or using the internal models methodology described in paragraph (d) of this section.

(3) Counterparty credit risk for credit derivatives. Notwithstanding the above, (1) A bank holding company that purchases a credit derivative that is recognized under section 33 or 34 of this appendix as a credit risk mitigant for an exposure that is not a covered position under 12 CFR part 225, appendix E need not compute a separate counterparty credit risk capital requirement under this section so long as the bank holding company

(315)
does so consistently for all such credit derivatives and either includes all or excludes all such credit derivatives that are subject to a master netting agreement from any measure used to determine counterparty credit risk exposure to all relevant counterparties for risk-based capital purposes.

(ii) A bank holding company that is the protection provider in a credit derivative must treat the credit derivative as a wholesale exposure to the reference obligor and need not compute a counterparty credit risk capital requirement for the credit derivative under this section, so long as it does so consistently for all such credit derivatives and either includes all or excludes all such credit derivatives that are subject to a master netting agreement from any measure used to determine counterparty credit risk exposure to all relevant counterparties for risk-based capital purposes (unless the bank holding company is treating the credit derivative as a covered position under 12 CFR part 225, appendix E, in which case the bank holding company must compute a supplemental counterparty credit risk capital requirement under this section).

(4) Counterparty credit risk for equity derivatives. A bank holding company must treat an equity derivative contract as an equity exposure and compute a risk-weighted asset amount for the equity derivative contract under part VI (unless the bank holding company is treating the contract as a covered position under 12 CFR part 225, appendix E). In addition, if the bank holding company is treating the contract as a covered position under 12 CFR part 225, appendix E and in certain other cases described in section 55 of this appendix, the bank holding company must also calculate a risk-based capital requirement for the counterparty credit risk of an equity derivative contract under this part.

(5) Single OTC derivative contract. Except as modified by paragraph (c)(7) of this section, the EAD for a single OTC derivative contract that is not subject to a qualifying master netting agreement is equal to the sum of the bank holding company’s current credit exposure and potential future credit exposure (PFE) on the derivative contract.

(i) Current credit exposure. The current credit exposure for a single OTC derivative contract is the greater of the mark-to-market value of the derivative contract or zero.

(ii) PFE. The PFE for a single OTC derivative contract, including an OTC derivative contract with a negative mark-to-market value, is calculated by multiplying the notional principal amount of the derivative contract by the appropriate conversion factor in Table 4. For purposes of calculating either the PFE under this paragraph or the gross PFE under paragraph (c)(6) of this section for exchange rate contracts and other similar contracts in which the notional principal amount is equivalent to the cash flows, notional principal amount is the net receipts to each party falling due on each value date in each currency. For any OTC derivative contract that does not fall within one of the specified categories in Table 4, the PFE must be calculated using the “other” conversion factors. A bank holding company must use an OTC derivative contract’s effective notional principal amount (that is, its apparent or stated notional principal amount multiplied by any multiplier in the OTC derivative contract) rather than its apparent or stated notional principal amount in calculating PFE. PFE of the protection provider of a credit derivative is capped at the net present value of the amount of unpaid premiums.

1 For an OTC derivative contract with multiple exchanges of principal, the conversion factor is multiplied by the number of remaining payments in the derivative contract.
2 For an OTC derivative contract that is structured such that on specified dates any outstanding exposure is settled and the terms are reset so that the market value of the contract is zero, the remaining maturity equals the time until the next reset date. For an interest rate derivative contract with a remaining maturity of greater than one year that meets these criteria, the minimum conversion factor is 0.005.
3 A bank holding company must use the column labeled “Credit (investment-grade reference obligor)” for a credit derivative whose reference obligor has an outstanding unsecured long-term debt security without credit enhancement that has a long-term applicable external rating of at least investment grade. A bank holding company must use the column labeled “Credit (non-investment-grade reference obligor)” for all other credit derivatives.
(6) Multiple OTC derivative contracts subject to a qualifying master netting agreement. Except, as modified by paragraph (c)(7) of this section, the EAD for multiple OTC derivative contracts subject to a qualifying master netting agreement is equal to the sum of the net current credit exposure and the adjusted sum of the PFE exposure for all OTC derivative contracts subject to the qualifying master netting agreement.

(i) Net current credit exposure. The net current credit exposure is the greater of:

(A) The net sum of all positive and negative mark-to-market values of the individual OTC derivative contracts subject to the qualifying master netting agreement; or

(B) zero.

(ii) Adjusted sum of the PFE. The adjusted sum of the PFE, Anet, is calculated as Anet = (0.4 × Agross) + (0.6 × NGR × Agross), where:

(A) Agross = the gross PFE (that is, the sum of the PFE amounts (as determined under paragraph (c)(5)(ii) of this section) for each individual OTC derivative contract subject to the qualifying master netting agreement); and

(B) NGR = the net to gross ratio (that is, the ratio of the net current credit exposure to the gross current credit exposure). In calculating the NGR, the gross current credit exposure equals the sum of the positive current credit exposures (as determined under paragraph (c)(5)(i) of this section) for all individual OTC derivative contracts subject to the qualifying master netting agreement.

(7) Collateralized OTC derivative contracts. A bank holding company may recognize the credit risk mitigation benefits of financial collateral that secures an OTC derivative contract or single-product netting set of OTC derivatives by factoring the collateral into its LGD estimates for the contract or netting set. Alternatively, a bank holding company may recognize the credit risk mitigation benefits of financial collateral that secures such a contract or netting set that is marked to market on a daily basis and subject to a daily margin maintenance requirement by estimating an unsecured LGD for the contract or netting set and adjusting the EAD calculated under paragraph (c)(5) or (c)(6) of this section using the collateral haircut approach in paragraph (b)(2) of this section. The bank holding company must substitute the EAD calculated under paragraph (c)(5) or (c)(6) of this section for the LGD in the equation in paragraph (b)(2)(i) of this section and must use a ten-business-day minimum holding period (Tm = 10).

(d) Internal models methodology. (1) With prior written approval from the Federal Reserve, a bank holding company may use the internal models methodology in this paragraph (d) to determine EAD for counterparty credit risk for OTC derivative contracts (collateralized or uncollateralized) and single-product netting sets thereof, for eligible margin loans and single-product netting sets thereof, and for repo-style transactions and single-product netting sets thereof. A bank holding company that uses the internal models methodology for a particular transaction type (OTC derivative contracts, eligible margin loans, or repo-style transactions) must use the internal models methodology for all transactions of that transaction type. A bank holding company may choose to use the internal models methodology for one or two of these three types of exposures and not the other types. A bank holding company may also use the internal models methodology for OTC derivative contracts, eligible margin loans, and repo-style transactions subject to a qualifying cross-product netting agreement if:

(i) The bank holding company effectively integrates the risk mitigating effects of cross-product netting into its risk management and other information technology systems; and

(ii) The bank holding company obtains the prior written approval of the Federal Reserve.

A bank holding company that uses the internal models methodology for a transaction type must receive approval from the Federal Reserve to cease using the methodology for that transaction type or to make a material change to its internal model.

(2) Under the internal models methodology, a bank holding company uses an internal model to estimate the expected exposure (EE) for a netting set and then calculates EAD based on that EE.

(i) The bank holding company must use its internal model’s probability distribution for changes in the market value of a netting set that are attributable to changes in market variables to determine EE.

(ii) Under the internal models methodology, EAD = α × effective EPE, or, subject to Federal Reserve approval as provided in paragraph (d)(7), a more conservative measure of EAD.

(A) EffectiveEPEt = \sum_{k=1}^{n} \text{EffectiveEE}_{tk} \times \Delta_t

(that is, effective EPE is the time-weighted average of effective EE where the weights are the proportion that an individual effective EE represents in a one-year time interval) where:

(1) Effective EEt = max (Effective EEt−1 EEt) (that is, for a specific date t, effective EE is the greater of EE at that date or the effective EE at the previous date); and

(2) \Delta_t represents the kth future time period in the model and there are n time periods represented in the model over the first year; and

(B) α = 1.4 except as provided in paragraph (d)(6), or when the Federal Reserve has determined that the bank holding company must
Alternatively, a bank holding company that uses an internal model to calculate a one-sided credit valuation adjustment may set a higher based on the bank holding company’s specific characteristics of counterparty credit risk.

(iii) A bank holding company may include financial collateral currently posted by the counterparty as collateral (but may not include other forms of collateral) when calculating EE.

(iv) If a bank holding company hedges some or all of the counterparty credit risk associated with a netting set using an eligible credit derivative, the bank holding company may take the reduction in exposure to the counterparty into account when estimating EE. If the bank holding company recognizes this reduction in exposure to the counterparty in its estimate of EE, it must also use its internal model to estimate a separate EAD for the bank holding company’s exposure to the protection provider of the credit derivative.

To obtain Federal Reserve approval to calculate the distributions of exposures upon which the EAD calculation is based, the bank holding company must demonstrate to the satisfaction of the Federal Reserve that it has been using for at least one year an internal model that broadly meets the following minimum standards, with which the bank holding company must maintain compliance:

(i) The model must have the systems capability to estimate the expected exposure to the counterparty on a daily basis (but is not expected to estimate or report expected exposure on a daily basis).

(ii) The model must estimate expected exposure at enough future dates to reflect accurately all the future cash flows of contracts in the netting set.

(iii) The model must account for the possible non-normality of the exposure distribution, where appropriate.

(iv) The bank holding company must measure, monitor, and control current counterparty exposure and the exposure to the counterparty over the whole life of all contracts in the netting set.

(v) The bank holding company must be able to measure and manage current exposures gross and net of collateral held, where appropriate. The bank holding company must estimate expected exposures for OTC derivative contracts both with and without the effect of collateral agreements.

(vi) The bank holding company must have procedures to identify, monitor, and control specific wrong-way risk throughout the life of an exposure. Wrong-way risk in this context is the risk that future exposure to a counterparty will be high when the counterparty’s probability of default is also high.

(vii) The model must use current market data to compute current exposures. When estimating model parameters based on historical data, at least three years of historical data that cover a wide range of economic conditions must be used and must be updated quarterly or more frequently if market conditions warrant. The bank holding company should consider using model parameters based on forward-looking measures, where appropriate.

(viii) A bank holding company must subject its internal model to an initial validation and annual model review process. The model review should consider whether the inputs and risk factors, as well as the model outputs, are appropriate.

(4) Maturity. (i) If the remaining maturity of the exposure or the longest-dated contract in the netting set is greater than one year, the bank holding company must set $M$ for the exposure or netting set equal to the lower of five years or $M(EPE)$, where:

$$M(EPE) = 1 + \sum_{t_0}^{\text{maturity}} \begin{cases} EE_k \times \Delta t_k \times df_k \\ \sum_{k=1}^{\text{effective } EE_k \times \Delta t_k \times df_k} \end{cases}$$

(B) $df_k$ is the risk-free discount factor for future time period $t_k$; and

(C) $\Delta t_k = t_k - t_{k-1}$.

(ii) If the remaining maturity of the exposure or the longest-dated contract in the netting set is one year or less, the bank holding company must measure, monitor, and control current counterparty exposure and the exposure to the counterparty over the whole life of all contracts in the netting set.

Collateral agreements. A bank holding company may capture the effect on EAD of a use the effective credit duration estimated by the model as $M(EPE)$ in place of the formula in paragraph (d)(4).
collateral agreement that requires receipt of collateral when exposure to the counterparty increases but may not capture the effect on EAD of a collateral agreement that requires receipt of collateral when counterparty credit quality deteriorates. For this purpose, a collateral agreement means a legal contract that specifies the time when, and circumstances under which, the counterparty is required to pledge collateral to the bank holding company for a single financial contract or for all financial contracts in a netting set and confers upon the bank holding company a perfected, first priority security interest (notwithstanding the prior security interest of any custodial agent), or the legal equivalent thereof, in the collateral posted by the counterparty under the agreement. This security interest must provide the bank holding company with a right to close out the financial positions and liquidate the collateral upon an event of default of, or failure to perform by, the counterparty under the collateral agreement. A contract would not satisfy this requirement if the bank holding company’s exercise of rights under the agreement may be stayed or avoided under applicable law in the relevant jurisdictions. Two methods are available to capture the effect of a collateral agreement:

(i) With prior written approval from the Federal Reserve, a bank holding company may include the effect of a collateral agreement within its internal model used to calculate EAD. The bank holding company may set EAD equal to the expected exposure at the end of the margin period of risk. The margin period of risk means, with respect to a netting set subject to a collateral agreement, the time period from the most recent exchange of collateral with a counterparty until the next required exchange of collateral plus the period of time required to sell and realize the proceeds of the least liquid collateral that can be delivered under the terms of the collateral agreement and, where applicable, the period of time required to re-hedge the resulting market risk, upon the default of the counterparty. The minimum margin period of risk is five business days for repo-style transactions and ten business days for other transactions when liquid financial collateral is posted under a daily margin maintenance requirement. This period should be extended to cover any additional time between margin calls; any potential closeout difficulties; any delays in selling collateral, particularly if the collateral is illiquid; and any impediments to prompt re-hedging of any market risk.

(ii) A bank holding company that can model EPE without collateral agreements but cannot achieve the higher level of modeling sophistication to model EPE with collateral agreements can set effective EPE for a collateralized netting set equal to the lesser of:

(A) The threshold, defined as the exposure amount at which the counterparty is required to post collateral under the collateral agreement, if the threshold is positive, plus an add-on that reflects the potential increase in exposure of the netting set over the margin period of risk. The add-on is computed as the expected increase in the netting set’s exposure beginning from current exposure of zero over the margin period of risk. The margin period of risk must be at least five business days for netting sets consisting only of repo-style transactions subject to daily re-margining and daily marking-to-market, and ten business days for all other netting sets; or

(B) Effective EPE without a collateral agreement.

(6) Own estimate of alpha. With prior written approval of the Federal Reserve, a bank holding company may calculate alpha as the ratio of economic capital from a full simulation of counterparty exposure across counterparties that incorporates a joint simulation of market and credit risk factors (numerator) and economic capital based on EPE (denominator), subject to a floor of 1.2. For purposes of this calculation, economic capital is the unexpected losses for all counterparty credit risks measured at a 99.9 percent confidence level over a one-year horizon. To receive approval, the bank holding company must meet the following minimum standards to the satisfaction of the Federal Reserve:

(i) The bank holding company’s own estimate of alpha must capture the numerator the effects of:

(A) The material sources of stochastic dependency of distributions of market values of transactions or portfolios of transactions across counterparties;

(B) Volatilities and correlations of market risk factors used in the joint simulation, which must be related to the credit risk factor used in the simulation to reflect potential increases in volatility or correlation in an economic downturn, where appropriate; and

(C) The granularity of exposures (that is, the effect of a concentration in the proportion of each counterparty’s exposure that is driven by a particular risk factor).

(ii) The bank holding company must assess the potential model uncertainty in its estimates of alpha.

(iii) The bank holding company must calculate the numerator and denominator of alpha in a consistent fashion with respect to modeling methodology, parameter specifications, and portfolio composition.

(iv) The bank holding company must review and adjust as appropriate its estimates of the numerator and denominator of alpha on at least a quarterly basis and more frequently when the composition of the portfolio varies over time.
(7) Other measures of counterparty exposure. With prior written approval of the Federal Reserve, a bank holding company may set EAD equal to a measure of counterparty credit risk exposure, such as peak EAD, that is more conservative than an alpha of 1.4 (or higher under the terms of paragraph (d)(2)(i)(B) of this section) times EPE for every counterparty whose EAD will be measured under the alternative measure of counterparty exposure. The bank holding company must demonstrate the conservatism of the measure of counterparty credit risk exposure used for EAD. For material portfolios of new OTC derivative products, the bank holding company may assume that the current exposure methodology in paragraphs (c)(5) and (c)(6) of this section meets the conservatism requirement of this paragraph for a period not to exceed 180 days. For immaterial portfolios of OTC derivative contracts, the bank holding company generally may assume that the current exposure methodology in paragraphs (c)(5) and (c)(6) of this section meets the conservatism requirement of this paragraph.

Section 33. Guarantees and Credit Derivatives: PD Substitution and LGD Adjustment Approaches

(a) Scope. (1) This section applies to wholesale exposures for which:
(i) Credit risk is fully covered by an eligible guarantee or eligible credit derivative; or
(ii) Credit risk is covered on a pro rata basis (that is, on a basis in which the bank holding company and the protection provider share losses proportionately) by an eligible guarantee or eligible credit derivative.

(2) Wholesale exposures on which there is a tranching of credit risk (reflecting at least two different levels of seniority) are securitization exposures subject to the securitization framework in part V.

(3) A bank holding company may elect to recognize the credit risk mitigation benefits of an eligible guarantee or eligible credit derivative covering an exposure described in paragraph (a)(1) of this section by using the PD substitution approach or the LGD adjustment approach in paragraph (c) of this section or, if the transaction qualifies, using the double default treatment in section 34 of this appendix. A bank holding company’s PD and LGD for the hedged exposure may not be lower than the PD and LGD floors described in paragraphs (d)(2) and (d)(3) of section 31 of this appendix.

(4) If multiple eligible guarantees or eligible credit derivatives cover a single exposure described in paragraph (a)(1) of this section, a bank holding company may treat the hedged exposure as multiple separate exposures each covered by a single eligible guarantee or eligible credit derivative and may calculate a separate risk-based capital requirement for each separate exposure as described in paragraph (a)(3) of this section.

(5) If a single eligible guarantee or eligible credit derivative covers multiple hedged wholesale exposures described in paragraph (a)(1) of this section, a bank holding company must treat each hedged exposure as covered by a separate eligible guarantee or eligible credit derivative and must calculate a separate risk-based capital requirement for each exposure as described in paragraph (a)(3) of this section.

(6) A bank holding company must use the same risk parameters for calculating ECL as it uses for calculating the risk-based capital requirement for the exposure.

(b) Rules of recognition. (1) A bank holding company may only recognize the credit risk mitigation benefits of eligible guarantees and eligible credit derivatives.

(2) A bank holding company may only recognize the credit risk mitigation benefits of an eligible credit derivative to hedge an exposure that is different from the credit derivative’s reference exposure used for determining the derivative’s cash settlement value, deliverable obligation, or occurrence of a credit event if:
(i) The reference exposure ranks pari passu (that is, equally) with or is junior to the hedged exposure; and
(ii) The reference exposure and the hedged exposure are exposures to the same legal entity, and legally enforceable cross-default or cross-acceleration clauses are in place to assure payments under the credit derivative are triggered when the obligor fails to pay under the terms of the hedged exposure.

(c) Risk parameters for hedged exposures—(1) PD substitution approach—(i) Full coverage. If an eligible guarantee or eligible credit derivative meets the conditions in paragraphs (a) and (b) of this section and the protection amount (P) of the guarantee or credit derivative is greater than or equal to the EAD of the hedged exposure, a bank holding company may recognize the guarantee or credit derivative in determining the bank holding company’s risk-based capital requirement for the hedged exposure by substituting the PD associated with the rating grade of the protection provider for the PD associated with the rating grade of the obligor in the risk-based capital formula applicable to the guarantee or credit derivative in Table 2 and using the appropriate LGD as described in paragraph (c)(1)(ii) of this section. If the bank holding company determines that full substitution of the protection provider’s PD leads to an inappropriate degree of risk mitigation, the bank holding company may substitute a higher PD than that of the protection provider.

(ii) Partial coverage. If an eligible guarantee or eligible credit derivative meets the conditions in paragraphs (a) and (b) of this section
and the protection amount (P) of the guarantee or credit derivative is less than the EAD of the hedged exposure, the bank holding company must treat the hedged exposure as two separate exposures (protected and unprotected) in order to recognize the credit risk mitigation benefit of the guarantee or credit derivative.

(A) The bank holding company must calculate its risk-based capital requirement for the protected exposure under section 31 of this appendix, where PD is the protection provider’s PD, LGD is the hedged exposure’s LGD (not adjusted to reflect the guarantee or credit derivative), and EAD is the EAD of the original hedged exposure minus P.

(B) The bank holding company must calculate its risk-based capital requirement for the unprotected exposure under section 31 of this appendix, with the LGD of the exposure adjusted to reflect the guarantee or credit derivative, and EAD is the EAD of the original hedged exposure minus P.

(C) The treatment in this paragraph (c)(1)(i) is applicable when the credit risk of a wholesale exposure is covered on a partial pro rata basis or when an adjustment is made to the effective notional amount of the guarantee or credit derivative under paragraph (d), (e), or (f) of this section.

(ii) LGD of hedged exposures. The LGD of a hedged exposure under the PD substitution approach is equal to:

(A) The lower of the LGD of the hedged exposure (not adjusted to reflect the guarantee or credit derivative) and the LGD of the guarantee or credit derivative, if the guarantee or credit derivative provides the bank holding company with the option to receive immediate payout upon triggering the protection; or

(B) The LGD of the guarantee or credit derivative, if the guarantee or credit derivative does not provide the bank holding company with the option to receive immediate payout upon triggering the protection.

(d) LGD adjustment approach—(1) Full coverage. If an eligible guarantee or eligible credit derivative meets the conditions in paragraphs (a) and (b) of this section and the protection amount (P) of the guarantee or credit derivative is greater than or equal to the EAD of the hedged exposure, the bank holding company’s risk-based capital requirement for the hedged exposure is the greater of:

(A) The risk-based capital requirement for the exposure as calculated under section 31 of this appendix, with the LGD of the exposure adjusted to reflect the guarantee or credit derivative; or

(B) The risk-based capital requirement for a direct exposure to the protection provider as calculated under section 31 of this appendix, using the PD for the protection provider, the LGD for the guarantee or credit derivative, and an EAD equal to the EAD of the hedged exposure.

(1) Partial coverage. If an eligible guarantee or eligible credit derivative meets the conditions in paragraphs (a) and (b) of this section and the protection amount (P) of the guarantee or credit derivative is less than the EAD of the hedged exposure, the bank holding company must treat the hedged exposure as two separate exposures (protected and unprotected) in order to recognize the credit risk mitigation benefit of the guarantee or credit derivative.

(A) The bank holding company’s risk-based capital requirement for the protected exposure would be the greater of:

1. The risk-based capital requirement for the protected exposure as calculated under section 31 of this appendix, with the LGD of the exposure adjusted to reflect the guarantee or credit derivative and EAD set equal to P; or

2. The risk-based capital requirement for a direct exposure to the guarantor as calculated under section 31 of this appendix, using the PD for the protection provider, the LGD for the guarantee or credit derivative, and an EAD set equal to P.

(B) The bank holding company must calculate its risk-based capital requirement for the unprotected exposure under section 31 of this appendix, with the LGD of the exposure adjusted to reflect the guarantee or credit derivative, and EAD is the EAD of the original hedged exposure minus P.

(C) The treatment in this paragraph (c)(1)(ii) is applicable when the credit risk of a wholesale exposure is covered on a partial pro rata basis or when an adjustment is made to the effective notional amount of the guarantee or credit derivative under paragraph (d), (e), or (f) of this section.

(ii) LGD of hedged exposures. The LGD of a hedged exposure under the PD substitution approach is equal to:

(A) The lower of the LGD of the hedged exposure (not adjusted to reflect the guarantee or credit derivative) and the LGD of the guarantee or credit derivative, if the guarantee or credit derivative provides the bank holding company with the option to receive immediate payout upon triggering the protection; or

(B) The LGD of the guarantee or credit derivative, if the guarantee or credit derivative does not provide the bank holding company with the option to receive immediate payout upon triggering the protection.

(2) Maturity mismatch. (1) A bank holding company that recognizes an eligible guarantee or eligible credit derivative in determining its risk-based capital requirement for a hedged exposure must adjust the effective notional amount of the credit risk mitigant to reflect any maturity mismatch between the hedged exposure and the credit risk mitigant.

2. A maturity mismatch occurs when the residual maturity of a credit risk mitigant is less than that of the hedged exposure(s).

3. The residual maturity of a hedged exposure is the longest possible remaining time before the obligor is scheduled to fulfill its obligation on the exposure. If a credit risk mitigant has embedded options that may reduce its term, the bank holding company (protection purchaser) must use the shortest possible residual maturity for the credit risk mitigant. If a call is at the discretion of the protection provider, the residual maturity of the credit risk mitigant is at the first call date. If the call is at the discretion of the
bank holding company (protection purchaser), but the terms of the arrangement at origination of the credit risk mitigant contain a positive incentive for the bank holding company to call the transaction before contractual maturity, the remaining time to the first call date is the residual maturity of the credit risk mitigant. For example, where there is a step-up in cost in conjunction with a call feature or where the effective cost of protection increases over time even if credit quality remains the same or improves, the residual maturity of the credit risk mitigant will be the remaining time to the first call.

(4) A credit risk mitigant with a maturity mismatch may be recognized only if its original maturity is greater than or equal to one year and its residual maturity is greater than three months.

(5) When a maturity mismatch exists, the bank holding company must apply the following adjustment to the effective notional amount of the credit risk mitigant: \( P_m = E \times (t - 0.25)/(T - 0.25) \), where:

(i) \( P_m \) = effective notional amount of the credit risk mitigant; adjusted for maturity mismatch;
(ii) \( E \) = effective notional amount of the credit risk mitigant;
(iii) \( t \) = the lesser of \( T \) or the residual maturity of the credit risk mitigant, expressed in years; and
(iv) \( T \) = the lesser of five or the residual maturity of the hedged exposure, expressed in years.

(e) Credit derivatives without restructuring as a credit event. If a bank holding company recognizes an eligible credit derivative that does not include as a credit event a restructuring of the hedged exposure involving forgiveness or postponement of principal, interest, or fees that results in a credit loss event (that is, a charge-off, specific provision, or other similar debit to the profit and loss account), the bank holding company must apply the following adjustment to the effective notional amount of the credit derivative: \( P_r = P_m \times 0.60 \), where:

(1) \( P_r \) = effective notional amount of the credit risk mitigant, adjusted for lack of restructurings event (and maturity mismatch, if applicable); and
(2) \( P_m \) = effective notional amount of the credit risk mitigant adjusted for maturity mismatch (if applicable).

(f) Currency mismatch. (1) If a bank holding company recognizes an eligible guarantee or eligible credit derivative that is denominated in a currency different from that in which the hedged exposure is denominated, the bank holding company must apply the following formula to the effective notional amount of the guarantee or credit derivative: \( P_c = P_r \times (1 - H_{FX}) \), where:

(i) \( P_c \) = effective notional amount of the credit risk mitigant, adjusted for currency mismatch (and maturity mismatch and lack of restructuring event, if applicable);
(ii) \( P_r \) = effective notional amount of the credit risk mitigant (adjusted for maturity mismatch and lack of restructuring event, if applicable); and
(iii) \( H_{FX} \) = haircut appropriate for the currency mismatch between the credit risk mitigant and the hedged exposure.

(2) A bank holding company must set \( H_{FX} \) equal to 8 percent unless it qualifies for the use of and uses its own internal estimates of foreign exchange volatility based on a ten-business-day holding period and daily marking-to-market and remargining. A bank holding company qualifies for the use of its own internal estimates of foreign exchange volatility if it qualifies for:

(i) The own-estimates haircuts in paragraph (b)(2)(iii) of section 32 of this appendix;
(ii) The simple VaR methodology in paragraph (b)(3) of section 32 of this appendix; or
(iii) The internal models methodology in paragraph (d) of section 32 of this appendix.

(3) A bank holding company must adjust \( H_{FX} \) calculated in paragraph (f)(2) of this section upward if the bank holding company revalues the guarantee or credit derivative less frequently than once every ten business days using the square root of time formula provided in paragraph (b)(2)(iii)(A)(2) of section 32 of this appendix.

Section 34. Guarantees and Credit Derivatives:
Double Default Treatment

(a) Eligibility and operational criteria for double default treatment. A bank holding company may recognize the credit risk mitigation benefits of a guarantee or credit derivative covering an exposure described in paragraph (aa)(1) of section 33 of this appendix by applying the double default treatment in this section if all the following criteria are satisfied.

(1) The hedged exposure is fully covered or covered on a pro rata basis by:

(i) An eligible guarantee issued by an eligible double default guarantor; or
(ii) An eligible credit derivative that meets the requirements of paragraph (b)(2) of section 33 of this appendix and is issued by an eligible double default guarantor.

(2) The guarantee or credit derivative is:

(i) An uncollateralized guarantee or uncollateralized credit derivative (for example, a credit default swap) that provides protection with respect to a single reference obligor; or
(ii) An nth-to-default credit derivative (subject to the requirements of paragraph (m) of section 42 of this appendix).

(3) The hedged exposure is a wholesale exposure (other than a sovereign exposure).

(4) The obligor of the hedged exposure is not:
Pt. 225, App. G

(1) An eligible double default guarantor or an affiliate of an eligible double default guarantor; or

(ii) An affiliate of the guarantor.

(5) The bank holding company does not recognize any credit risk mitigation benefits of the guarantee or credit derivative for the hedged exposure other than through application of the double default treatment as provided in this section.

(b) The bank holding company has implemented a process (which has received the prior, written approval of the Federal Reserve) to detect excessive correlation between the creditworthiness of the obligor of the hedged exposure and the protection provider. If excessive correlation is present, the bank holding company may not use the double default treatment for the hedged exposure.

(b) Full coverage. If the transaction meets the criteria in paragraph (a) of this section and the protection amount (P) of the guarantee or credit derivative is at least equal to the EAD of the hedged exposure, the bank holding company may determine its risk-weighted asset amount for the hedged exposure and calculate its risk-weighted asset amount as provided in section 31 of this appendix.

(c) Partial coverage. If the transaction meets the criteria in paragraph (a) of this section and the protection amount (P) of the guarantee or credit derivative is less than the EAD of the hedged exposure, the bank holding company must treat the hedged exposure as two separate exposures (protected and unprotected) in order to recognize double default treatment on the protected portion of the exposure.

(1) For the protected exposure, the bank holding company must set EAD equal to P and calculate its risk-weighted asset amount as provided in paragraph (e) of this section.

(2) For the unprotected exposure, the bank holding company must set EAD equal to the EAD of the original exposure minus P and then calculate its risk-weighted asset amount as provided in section 31 of this appendix.

(d) Mismatches. For any hedged exposure to which a bank holding company applies double default treatment, the bank holding company must make applicable adjustments to the protection amount as required in paragraphs (d), (e), and (f) of section 33 of this appendix.

(e) The double default dollar risk-based capital requirement. The dollar risk-based capital requirement for a hedged exposure to which a bank holding company has applied double default treatment is $K_{D,D}$ multiplied by the EAD of the exposure. $K_{D,D}$ is calculated according to the following formula: $K_{D,D} = K_o \times (0.15 + 160 \times PD_o^2)$.

Where:

1. $K_o = \frac{LGD_g \times \left[ \frac{N^{-1}(PD_o)}{\sqrt{1 - \rho_{os}}} + N^{-1}(0.999)\sqrt{\rho_{os}} \right] - PD_o}{1 + (M - 2.5) \times b - 1.5 \times b}$

2. $PD_o = PD$ of the protection provider.

3. $PD_g = PD$ of the obligor of the hedged exposure.

4. $LGD_o = (i)$ The lower of the LGD of the hedged exposure (not adjusted to reflect the guarantee or credit derivative) and the LGD of the guarantee or credit derivative, if the guarantee or credit derivative provides the bank holding company with the option to receive immediate payout on triggering the protection; or

(ii) The LGD of the guarantee or credit derivative, if the guarantee or credit derivative does not provide the bank holding company with the option to receive immediate payout on triggering the protection.

5. $\rho_{os}$ (asset value correlation of the obligor) is calculated according to the appropriate formula for (R) provided in Table 2 in section 31 of this appendix, with PD equal to PD_o.

6. b (maturity adjustment coefficient) is calculated according to the formula for b provided in Table 2 in section 31 of this appendix, with PD equal to the lesser of PD_o and PD_g.

7. M (maturity) is the effective maturity of the guarantee or credit derivative, which may not be less than one year or greater than five years.

Section 35. Risk-Based Capital Requirement for Unsettled Transactions

(a) Definitions. For purposes of this section:

1. Delivery-versus-payment (DvP) transaction means a securities or commodities transaction in which the buyer is obligated to make payment only if the seller has made delivery of the securities or commodities and the seller is obligated to deliver the securities or commodities only if the buyer has made payment.

2. Payment-versus-payment (PvP) transaction means a foreign exchange transaction in which each counterparty is obligated to make a final transfer of one or more currencies only if the other counterparty has
made a final transfer of one or more currencies.

(3) Normal settlement period. A transaction has a normal settlement period if the contractual settlement period for the transaction is equal to or less than the market standard for the instrument underlying the transaction and equal to or less than five business days.

(4) Positive current exposure. The positive current exposure of a bank holding company for a transaction is the difference between the transaction value at the agreed settlement price and the current market price of the transaction, if the difference results in a credit exposure of the bank holding company to the counterparty.

(b) Scope. This section applies to all transactions involving securities, foreign exchange instruments, and commodities that have a risk of delayed settlement or delivery. This section does not apply to:

(1) Transactions accepted by a qualifying central counterparty that are subject to daily marking-to-market and daily receipt and payment of variation margin;

(2) Repo-style transactions, including unsettled repo-style transactions (which are addressed in sections 31 and 32 of this appendix);

(3) One-way cash payments on OTC derivative contracts (which are addressed in sections 31 and 32 of this appendix);

(4) Transactions with a contractual settlement period that is longer than the normal settlement period (which are treated as OTC derivative contracts and addressed in sections 31 and 32 of this appendix).

(c) System-wide failures. In the case of a system-wide failure of a settlement or clearing system, the Federal Reserve may waive risk-based capital requirements for unsettled and failed transactions until the situation is rectified.

(ii) Delivery-versus-payment (DvP) and payment-versus-payment (PvP) transactions. A bank holding company must hold risk-based capital against any DvP or PvP transaction with a normal settlement period if the bank holding company’s counterparty has not made delivery or payment within five business days after the settlement date. The bank holding company must determine its risk-weighted asset amount for such a transaction by multiplying the positive current exposure of the transaction for the bank holding company by the appropriate risk weight in Table 5.

TABLE 5—RISK WEIGHTS FOR UNSETTLED DvP AND PvP TRANSACTIONS

<table>
<thead>
<tr>
<th>Number of business days after contractual settlement date</th>
<th>Risk weight to be applied to positive current exposure (percent)</th>
</tr>
</thead>
<tbody>
<tr>
<td>From 5 to 15</td>
<td>100</td>
</tr>
<tr>
<td>From 16 to 30</td>
<td>625</td>
</tr>
<tr>
<td>From 31 to 45</td>
<td>937.5</td>
</tr>
<tr>
<td>46 or more</td>
<td>1,250</td>
</tr>
</tbody>
</table>

(e) Non-DvP/non-PvP (non-delivery-versus-payment/non-payment-versus-payment) transactions. (1) A bank holding company must hold risk-based capital against any non-DvP/non-PvP transaction with a normal settlement period if the bank holding company has delivered cash, securities, commoditites, or currencies to its counterparty but has not received its corresponding deliverables by the end of the same business day. The bank holding company must continue to hold risk-based capital against the transaction until the bank holding company has received its corresponding deliverables.

(2) From the business day after the bank holding company has made its delivery until five business days after the counterparty delivery is due, the bank holding company must calculate its risk-based capital requirement for the transaction by treating the current market value of the deliverables owed to the bank holding company as a wholesale exposure.

A bank holding company may assign an obligor rating to a counterparty for which it is not otherwise required under this appendix to assign an obligor rating on the basis of the applicable external rating of any outstanding unsecured long-term debt security without credit enhancement issued by the counterparty.

(ii) A bank holding company may use a 45 percent LGD for the transaction provided the bank holding company uses the 45 percent LGD for all transactions described in paragraphs (e)(1) and (e)(2) of this section.

(iii) A bank holding company may use a 100 percent risk weight for the transaction provided the bank holding company uses this risk weight for all transactions described in paragraphs (e)(1) and (e)(2) of this section.

(3) If the bank holding company has not received its deliverables by the fifth business day after the counterparty delivery was due, the bank holding company must deduct the current market value of the deliverables owed to the bank holding company 50 percent from tier 1 capital and 50 percent from tier 2 capital.

(f) Total risk-weighted assets for unsettled transactions. Total risk-weighted assets for unsettled transactions is the sum of the risk-weighted asset amounts of all DvP, PvP, and non-DvP/non-PvP transactions.
PART V. RISK-WEIGHTED ASSETS FOR SECURITIZATION EXPOSURES

Section 41. Operational Criteria for Recognizing the Transfer of Risk

(a) Operational criteria for traditional securitizations. A bank holding company that transfers exposures it has originated or purchased to a securitization SPE or other third party in connection with a traditional securitization may exclude the exposures from the calculation of its risk-weighted assets only if each of the conditions in this paragraph (a) is satisfied. A bank holding company that meets these conditions must hold risk-based capital against any securitization exposures it retains in connection with the securitization. A bank holding company that fails to meet these conditions must hold risk-based capital against the transferred exposures as if they had not been securitized and must deduct from tier 1 capital any after-tax gain-on-sale resulting from the transaction. The conditions are:

(1) The transfer is considered a sale under GAAP;
(2) The bank holding company has transferred to third parties credit risk associated with the underlying exposures; and
(3) Any clean-up calls relating to the securitization are eligible clean-up calls.

(b) Operational criteria for synthetic securitizations. For synthetic securitizations, a bank holding company may recognize for risk-based capital purposes the use of a credit risk mitigant to hedge underlying exposures only if each of the conditions in this paragraph (b) is satisfied. A bank holding company that fails to meet these conditions must hold risk-based capital against the transferred exposures as if they had not been synthetically securitized. The conditions are:

(1) The credit risk mitigant is financial collateral, an eligible credit derivative from an eligible securitization guarantor or an eligible guarantee from an eligible securitization guarantor;
(2) The bank holding company transfers credit risk associated with the underlying exposures to third parties, and the terms and conditions in the credit risk mitigants employed do not include provisions that:
   (i) Allow for the termination of the credit protection due to deterioration in the credit quality of the underlying exposures;
   (ii) Require the bank holding company to alter or replace the underlying exposures to improve the credit quality of the pool of underlying exposures;
   (iii) Increase the bank holding company’s cost of credit protection in response to deterioration in the credit quality of the underlying exposures;
   (iv) Increase the yield payable to parties other than the bank holding company in response to a deterioration in the credit quality of the underlying exposures; or
   (v) Provide for increases in a retained first loss position or credit enhancement provided by the bank holding company after the inception of the securitization;
(3) The bank holding company obtains a well-reasoned opinion from legal counsel that confirms the enforceability of the credit risk mitigant in all relevant jurisdictions; and
(4) Any clean-up calls relating to the securitization are eligible clean-up calls.

Section 42. Risk-Based Capital Requirement for Securitization Exposures

(a) Hierarchy of approaches. Except as provided elsewhere in this section:

(1) A bank holding company must deduct from tier 1 capital any after-tax gain-on-sale resulting from a securitization and must deduct from total capital in accordance with paragraph (c) of this section the portion of any CEIO that does not constitute gain-on-sale.
(2) If a securitization exposure does not require deduction under paragraph (a)(1) of this section and qualifies for the Ratings-Based Approach in section 43 of this appendix, a bank holding company may apply the Ratings-Based Approach to the exposure.
(3) If a securitization exposure does not require deduction under paragraph (a)(1) of this section and does not qualify for the Ratings-Based Approach, the bank holding company may either apply the Internal Assessment Approach in section 44 of this appendix to the exposure (if the bank holding company, the exposure, and the relevant ABCP program qualify for the Internal Assessment Approach) or the Supervisory Formula Approach in section 45 of this appendix to the exposure (if the bank holding company and the exposure qualify for the Supervisory Formula Approach).
(4) If a securitization exposure is an OTC derivative contract (other than a credit derivative) that has a first priority claim on the cash flows from the underlying exposures (notwithstanding amounts due under interest rate or currency derivative contracts, fees due, or other similar payments), with approval of the Federal Reserve, a bank holding company may choose to set the risk-weighted asset amount of the exposure equal to the amount of the exposure as determined in paragraph (e) of this section rather than apply the hierarchy of approaches described in paragraphs (a)(2), (a)(3), and (a)(4) of this section.
Total risk-based assets for securitization exposures. A bank holding company must deduct a securitization exposure from total capital, the bank holding company must take the deduction 50 percent from tier 1 capital and 50 percent from tier 2 capital. If the amount deductible from tier 2 capital exceeds the bank holding company’s tier 2 capital, the bank holding company must deduct the excess from tier 1 capital.

A bank holding company may calculate any deduction from tier 1 capital and tier 2 capital for a securitization exposure net of any deferred tax liabilities associated with the securitization exposure.

Maximum risk-based capital requirement. Regardless of any other provisions of this part, unless one or more underlying exposures does not meet the definition of a wholesale, retail, securitization, or equity exposure, the total risk-based capital requirement for all securitization exposures held by a single bank holding company associated with a single securitization (including any risk-based capital requirements that relate to an early amortization provision of the securitization but excluding any risk-based capital requirements that relate to the bank holding company’s gain-on-sale or CEIOs associated with the securitization) may not exceed the sum of:

1. The bank holding company’s total risk-based capital requirement for the underlying exposures as if the bank holding company directly held the underlying exposures; and
2. The total ECL of the underlying exposures.

Amount of a securitization exposure. (1) The amount of an on-balance sheet securitization exposure that is not a repo-style transaction, eligible margin loan, or OTC derivative contract (other than a credit derivative) is:

i. The bank holding company’s carrying value minus any unrealized gains and plus any unrealized losses on the exposure, if the exposure is a security classified as available-for-sale; or
ii. The bank holding company’s carrying value, if the exposure is not a security classified as available-for-sale.

(2) The amount of an off-balance sheet securitization exposure that is not an OTC derivative contract (other than a credit derivative) is the notional amount of the exposure. For an off-balance-sheet securitization exposure to an ABCP program, such as a liquidity facility, the notional amount may be reduced to the maximum potential amount that the bank holding company could be required to fund given the ABCP program’s current underlying assets (calculated without regard to the current credit quality of those assets).

(3) The amount of a securitization exposure that is a repo-style transaction, eligible margin loan, or OTC derivative contract (other than a credit derivative) is the EAD of the exposure as calculated in section 32 of this appendix.

Overlapping exposures. If a bank holding company has multiple securitization exposures that provide duplicative coverage of the underlying exposures of a securitization (such as when a bank holding company provides a program-wide credit enhancement and multiple pool-specific liquidity facilities to an ABCP program), the bank holding company is not required to hold duplicative risk-based capital against the overlapping position. Instead, the bank holding company may apply to the overlapping position the applicable risk-based capital treatment that results in the highest risk-based capital requirement.

Securitizations of non-IRB exposures. If a bank holding company has a securitization exposure where any underlying exposure is not a wholesale exposure, retail exposure, securitization exposure, or equity exposure, the bank holding company must:

1. If the bank holding company is an originating bank holding company, deduct from tier 1 capital any after-tax gain-on-sale resulting from the securitization and deduct from total capital in accordance with paragraph (c) of this section the portion of any CEIO that does not constitute gain-on-sale;
2. If the securitization exposure does not require deduction under paragraph (g)(1), apply the RBA in section 43 of this appendix to the exposure if the exposure qualifies for the RBA;
3. If the securitization exposure does not require deduction under paragraph (g)(1) and does not qualify for the RBA, apply the IAA in section 44 of this appendix to the exposure (if the bank holding company, the exposure, and the relevant ABCP program qualify for the IAA); and
4. If the securitization exposure does not require deduction under paragraph (g)(1) and does not qualify for the RBA or the IAA, deduct the exposure from total capital in accordance with paragraph (c) of this section.

Implicit support. If a bank holding company’s securitization is not a credit support, the cash flow resulting from the securitization (implicit support):
(1) The bank holding company must hold regulatory capital against all of the underlying exposures associated with the securitization as if the exposures had not been securitized and must deduct from tier 1 capital any after-tax gain-on-sale resulting from the securitization; and
(2) The bank holding company must disclose publicly:
(i) That it has provided implicit support to the securitization; and
(ii) The regulatory capital impact to the bank holding company of providing such implicit support.
(i) Eligible servicer cash advance facilities. Regardless of any other provisions of this part, a bank holding company is not required to hold risk-based capital against the undrawn portion of an eligible servicer cash advance facility.
(ii) Interest-only mortgage-backed securities. Regardless of any other provisions of this part, the risk weight for a non-credit-enhancing interest-only mortgage-backed security may not be less than 100 percent.
(k) Small-business loans and leases on personal property transferred with recourse. (1) Regardless of any other provisions of this appendix, a bank holding company that has transferred small-business loans and leases on personal property (small-business obligations) with recourse must include in risk-weighted assets only the contractual amount of retained recourse if all the following conditions are met:
(i) The transaction is a sale under GAAP.
(ii) The bank holding company establishes and maintains, pursuant to GAAP, a non-capital reserve sufficient to meet the bank holding company’s reasonably estimated liability under the recourse arrangement.
(iii) The loans and leases are to businesses that meet the criteria for a small-business concern established by the Small Business Administration under section 3(a) of the Small Business Act (15 U.S.C. 632).
(2) The bank holding company is well capitalized, as defined in the Federal Reserve’s prompt corrective action regulation at 12 CFR part 206, Subpart D. For purposes of determining whether a bank holding company is well capitalized for purposes of this paragraph, the bank holding company’s capital ratios must be calculated without regard to the capital treatment for transfers of small-business obligations with recourse specified in paragraph (k)(1) of this section.
(i) The total outstanding amount of recourse retained by a bank holding company on transfers of small-business obligations receiving the capital treatment specified in paragraph (k)(1) of this section cannot exceed 15 percent of the bank holding company’s total qualifying capital.
(ii) If a bank holding company ceases to be well capitalized or exceeds the 15 percent capital limitation, the preferential capital treatment specified in paragraph (k)(1) of this section will continue to apply to any transfers of small-business obligations with recourse that occurred during the time that the bank holding company was well capitalized and did not exceed the capital limit.
(3) The risk-based capital ratios of the bank holding company must be calculated without regard to the capital treatment for transfers of small-business obligations with recourse specified in paragraph (k)(1) of this section as provided in 12 CFR part 225, appendix A.
(l) Consolidated ABCP programs. (1) A bank holding company that qualifies as a primary beneficiary and must consolidate an ABCP program as a variable interest entity under GAAP may exclude the consolidated ABCP program assets from risk-weighted assets if the bank holding company is the sponsor of the ABCP program. If a bank holding company excludes such consolidated ABCP program assets from risk-weighted assets, the bank holding company must hold risk-based capital against any securitization exposures of the bank holding company to the ABCP program in accordance with this part.
(2) If a bank holding company either is not permitted, or elects not, to exclude consolidated ABCP program assets from its risk-weighted assets, the bank holding company must hold risk-based capital against the consolidated ABCP program assets in accordance with this appendix but is not required to hold risk-based capital against any securitization exposures of the bank holding company to the ABCP program.
(m) Non-to-default credit derivatives—(1) First-to-default credit derivatives—(i) Protection purchaser. A bank holding company that obtains credit protection on a group of underlying exposures through a first-to-default credit derivative must determine its risk-based capital requirement for the underlying exposures as if the bank holding company synthetically securitized the underlying exposure with the lowest risk-based capital requirement and had obtained no credit risk mitigant on the other underlying exposures.
(ii) Protection provider. A bank holding company that provides credit protection on a group of underlying exposures through a first-to-default credit derivative must determine its risk-weighted asset amount for the derivative by applying the RBA in section 43 of this appendix (if the derivative qualifies for the RBA) or, if the derivative does not qualify for the RBA, by setting its risk-weighted asset amount for the derivative equal to the product of:
(A) The protection amount of the derivative;
(B) 12.5; and
(C) The sum of the risk-based capital requirements of the individual underlying exposures, up to a maximum of 100 percent.
Federal Reserve System

(2) Second-or-subsequent-to-default credit derivatives—(1) Protection purchaser. (A) A bank holding company that obtains credit protection on a group of underlying exposures through a n\textsuperscript{th} -to-default credit derivative (other than a first-to-default credit derivative) may recognize the credit risk mitigation benefits of the derivative only if:
(i) The bank holding company also has obtained credit protection on the same underlying exposures in the form of first-through-(n-1)-to-default credit derivatives; or
(ii) If n-1 of the underlying exposures have already defaulted.

(B) If a bank holding company satisfies the requirements of paragraph (m)(2)(i)(A) of this section, the bank holding company must determine its risk-based capital requirement for the underlying exposures as if the bank holding company had only synthetically securitized the underlying exposure with the n\textsuperscript{th} lowest risk-based capital requirement and had obtained no credit risk mitigant on the other underlying exposures.

(ii) Protection provider. A bank holding company that provides credit protection on a group of underlying exposures through a n\textsuperscript{th}-to-default credit derivative (other than a first-to-default credit derivative) must determine its risk-weighted asset amount for the derivative by applying the RBA in section 43 of this appendix (if the derivative qualifies for the RBA) or, if the derivative does not qualify for the RBA, by setting its risk-weighted asset amount for the derivative equal to the product of:
(A) The protection amount of the derivative;
(B) 12.5; and
(C) The sum of the risk-based capital requirements of the individual underlying exposures (excluding the n-1 underlying exposures with the lowest risk-based capital requirements), up to a maximum of 100 percent.

Section 43. Ratings-Based Approach (RBA)

(a) Eligibility requirements for use of the RBA—(1) Originating bank holding company. An originating bank holding company must use the RBA to calculate its risk-based capital requirement for a securitization exposure if the exposure has two or more external ratings or inferred ratings (and may not use the RBA if the exposure has fewer than two external ratings or inferred ratings).

(2) Investing bank holding company. An investing bank holding company must use the RBA to calculate its risk-based capital requirement for a securitization exposure if the exposure has one or more external or inferred ratings (and may not use the RBA if the exposure has no external or inferred rating).

(b) Ratings-based approach. (1) A bank holding company must determine the risk-weighted asset amount for a securitization exposure by multiplying the amount of the exposure (as defined in paragraph (e) of section 42 of this appendix) by the appropriate risk weight provided in Table 6 and Table 7.

(2) A bank holding company must apply the risk weights in Table 6 when the securitization exposure's applicable external or applicable inferred rating represents a long-term credit rating, and must apply the risk weights in Table 7 when the securitization exposure's applicable external or applicable inferred rating represents a short-term credit rating.

(i) A bank holding company must apply the risk weights in column 1 of Table 6 or Table 7 to the securitization exposure if:
(A) N (as calculated under paragraph (e)(6) of section 45 of this appendix) is six or more (for purposes of this section only, if the notional number of underlying exposures is 25 or more or if all of the underlying exposures are retail exposures, a bank holding company may assume that N is six or more unless the bank holding company knows or has reason to know that N is less than six); and
(B) The securitization exposure is a senior securitization exposure.

(ii) A bank holding company must apply the risk weights in column 2 of Table 6 or Table 7 to the securitization exposure if N is less than six, regardless of the seniority of the securitization exposure.

(iii) Otherwise, a bank holding company must apply the risk weights in column 3 of Table 6 or Table 7.

### Section 44. Internal Assessment Approach (IAA)

(a) Eligibility requirements. A bank holding company may apply the IAA to calculate the risk-weighted asset amount for a securitization exposure that the bank holding company has to an ABCP program (such as a liquidity facility or credit enhancement) if the bank holding company, the ABCP program, and the exposure qualify for use of the IAA.

(i) Bank holding company qualification criteria. A bank holding company qualifies for use of the IAA if the bank holding company has received the prior written approval of the Federal Reserve. To receive such approval, the bank holding company must demonstrate to the Federal Reserve’s satisfaction that the bank holding company’s internal assessment process meets the following criteria:

(i) The bank holding company’s internal credit assessments of securitization exposures must be based on publicly available rating criteria used by an NRSRO.

(ii) The bank holding company’s internal credit assessments of securitization exposures used for risk-based capital purposes must be consistent with those used in the bank holding company’s internal risk management process, management information reporting systems, and capital adequacy assessment process.

(iii) The bank holding company’s internal credit assessment process must have sufficient granularity to identify gradations of risk. Each of the bank holding company’s internal credit assessment categories must correspond to an external rating of an NRSRO.

(iv) The bank holding company’s internal credit assessment process, particularly the stress test factors for determining credit enhancement requirements, must be at least as conservative as the most conservative of the publicly available rating criteria of the NRSROs that have provided external ratings to the commercial paper issued by the ABCP program.

(A) Where the commercial paper issued by an ABCP program has an external rating from two or more NRSROs and the different NRSROs’ benchmark stress factors require different levels of credit enhancement to achieve the same external rating equivalent, the bank holding company must apply the NRSRO stress factor that requires the highest level of credit enhancement.
(B) If any NRSRO that provides an external rating to the ABCP program's commercial paper changes its methodology (including stress factors), the bank holding company must evaluate whether to revise its internal assessment process.

(v) The bank holding company must have an effective system of controls and oversight that ensures compliance with these operational requirements and maintains the integrity and accuracy of the internal credit assessment process. The bank holding company must have an internal audit function independent from the ABCP program business line and internal credit assessment process that reviews at least annually whether the controls over the internal credit assessment function process as intended.

(vi) The bank holding company must review and update each internal credit assessment whenever new material information is available, but no less frequently than annually.

(vii) The bank holding company must validate its internal credit assessment process on an ongoing basis and at least annually.

(2) ABCP-program qualification criteria. An ABCP program qualifies for use of the IAA if all commercial paper issued by the ABCP program has an external rating.

(3) Exposure qualification criteria. A securitization exposure qualifies for use of the IAA if the exposure meets the following criteria:

(i) The bank holding company initially rated the exposure at least the equivalent of investment grade.

(ii) The ABCP program has robust credit and investment guidelines (that is, underwriting standards) for the exposures underlying the securitization exposure.

(iii) The ABCP program performs a detailed credit analysis of the sellers of the exposures underlying the securitization exposure.

(iv) The ABCP program's underwriting policy for the exposures underlying the securitization exposure establishes minimum asset eligibility criteria that include the prohibition of the purchase of assets that are significantly past due or of assets that are defaulted (that is, assets that have been charged off or written down by the seller prior to being placed into the ABCP program or assets that would be charged off or written down under the program's governing contracts), as well as limitations on concentration to individual obligors or geographic areas and the tenor of the assets to be purchased.

(v) The aggregate estimate of loss on the exposures underlying the securitization exposure considers all sources of potential risk, such as credit and dilution risk.

(vi) Where relevant, the ABCP program incorporates structural features into each purchase of exposures underlying the securitization exposure to mitigate potential credit deterioration of the underlying exposures. Such features may include wind-down triggers specific to a pool of underlying exposures.

(b) Mechanics. A bank holding company that elects to use the IAA to calculate the risk-based capital requirement for any securitization exposure must use the IAA to calculate the risk-based capital requirements for all securitization exposures that qualify for the IAA approach. Under the IAA, a bank holding company must determine the risk-weighted capital amount for such a securitization exposure by multiplying the amount of the exposure (as defined in paragraph (e) of section 42 of this appendix) by the appropriate risk weight in Table 6 and Table 7 in paragraph (b) of section 43 of this appendix.

Section 45. Supervisory Formula Approach (SFA)

(a) Eligibility requirements. A bank holding company may use the SFA to determine its risk-based capital requirement for a securitization exposure only if the bank holding company can calculate on an ongoing basis each of the SFA parameters in paragraph (e) of this section.

(b) Mechanics. Under the SFA, a securitization exposure incurs a deduction from total capital (as described in paragraph (c) of section 42 of this appendix) and/or an SFA risk-based capital requirement, as determined in paragraph (c) of this section. The risk-weighted asset amount for the securitization exposure equals the SFA risk-based capital requirement for the exposure multiplied by 12.5.

(c) The SFA risk-based capital requirement.

(1) If $K_{IRB}$ is greater than or equal to $L + T$, the entire exposure must be deducted from total capital.

(2) If $K_{IRB}$ is less than or equal to $L$, the exposure's SFA risk-based capital requirement is UE multiplied by TP multiplied by the greater of:

(i) $0.0056 \cdot T$; or

(ii) $S(L + T) - S(L)$.

(3) If $K_{IRB}$ is greater than $L$ and less than $L + T$, the bank holding company must deduct from total capital an amount equal to $UE \cdot TP \cdot (K_{IRB} - L)$, and the exposure's SFA risk-based capital requirement is UE multiplied by TP multiplied by the greater of:

(i) $0.0056 \cdot (T - (K_{IRB} - L))$; or

(ii) $S(L + T) - S(K_{IRB})$.

(d) The supervisory formula:
In these expressions, $\beta(Y; a, b)$ refers to the cumulative beta distribution with parameters $a$ and $b$ evaluated at $Y$. In the case where $N = 1$ and $EWALGD = 100$ percent, $S(Y)$ in formula (1) must be calculated with $K = K_{IRB}$ and $d$ set equal to $1 - K_{IRB}$.

(2) $K[Y] = (1 - h) \cdot [(1 - \beta[Y; a, b]) \cdot Y + \beta[Y; a + 1, b] \cdot c]$

(3) $h = \left(1 - \frac{K_{IRB}}{EWALGD}\right)^N$

(4) $a = g \cdot c$

(5) $b = g \cdot (1 - c)$

(6) $c = \frac{K_{IRB}}{1 - h}$

(7) $g = \frac{(1 - c) \cdot c}{f} - 1$

(8) $f = \frac{v + K_{IRB}^2}{1 - h} - c^2 + \frac{(1 - K_{IRB}) \cdot K_{IRB} - v}{(1 - h) \cdot 1000}$

(9) $v = K_{IRB} \cdot \left(EWALGD - K_{IRB}\right) + .25 \cdot (1 - EWALGD)$

(10) $d = 1 - (1 - h) \cdot (1 - \beta[K_{IRB}; a, b])$.

(11) In these expressions, $\beta(Y; a, b)$ refers to the cumulative beta distribution with parameters $a$ and $b$ evaluated at $Y$. In the case where $N = 1$ and $EWALGD = 100$ percent, $S(Y)$ in formula (1) must be calculated with $K[Y]$ set equal to the product of $K_{EAD}$ and $Y$, and $d$ set equal to $1 - K_{IRB}$.

(e) SFA parameters—(1) Amount of the underlying exposures (UE). UE is the EAD of any underlying exposures that are wholesale and retail exposures (including the amount of any funded spread accounts, cash collateral accounts, and other similar funded credit enhancements) plus the amount of any underlying exposures that are securitization exposures (as defined in paragraph (e) of section 42 of this appendix) plus the adjusted carrying value of any underlying exposures that are equity exposures (as defined in paragraph (b) of section 51 of this appendix).
(2) Tranche percentage (TP). TP is the ratio of the amount of the bank holding company’s securitization exposure to the amount of the tranche that contains the securitization exposure.

(3) Capital requirement on underlying exposures (K_{IRB}). (i) K_{IRB} is the ratio of:
   (A) The sum of the risk-based capital requirements for the underlying exposures plus the expected credit losses of the underlying exposures (as determined under this appendix if one or more of the underlying exposures were directly held by the bank holding company); to
   (B) UE.
   (ii) The calculation of K_{IRB} must reflect the effects of any credit risk mitigant applied to the underlying exposures (either to an individual underlying exposure, to a group of underlying exposures, or to the entire pool of underlying exposures).
   (iii) All assets related to the securitization are treated as underlying exposures, including assets in a reserve account (such as a cash collateral account).

(4) Credit enhancement level (L). (i) L is the ratio of:
   (A) The amount of all securitization exposures subordinated to the tranche that contains the bank holding company’s securitization exposure; to
   (B) UE.
   (ii) A bank holding company must determine L before considering the effects of any tranche-specific credit enhancements.
   (iii) Any gain-on-sale or CEIO associated with the securitization may not be included in L.
   (iv) Any reserve account funded by accumulated cash flows from the underlying exposures that is subordinated to the tranche that contains the bank holding company’s securitization exposure may not be included in L.
   (v) In some cases, the purchase price of receivables will reflect a discount that provides credit enhancement (for example, first loss protection) for all or certain tranches of the securitization. When this arises, L should be calculated inclusive of this discount if the discount provides credit enhancement for the securitization exposure.

(5) Thickness of tranche (T). T is the ratio of:
   (i) The amount of the tranche that contains the bank holding company’s securitization exposure; to
   (ii) UE.

(6) Effective number of exposures (N). (i) Unless the bank holding company elects to use the formula provided in paragraph (f) of this section,
   \[ N = \frac{\left( \sum EAD_i \right)^2}{\sum EAD_i^2} \]
   where EAD\_i represents the EAD associated with the i\_th instrument in the pool of underlying exposures.
   (ii) Multiple exposures to one obligor must be treated as a single underlying exposure.
   (iii) In the case of a re-securitization (that is, a securitization in which some or all of the underlying exposures are securitization exposures), the bank holding company must treat each underlying exposure as a single underlying exposure and must not look through to the originally securitized underlying exposures.

(7) Exposure-weighted average loss given default (EWALGD). EWALGD is calculated as:
   \[ EWALGD = \frac{\sum LGD_i \cdot EAD_i}{\sum EAD_i} \]
   where LGD\_i represents the average LGD associated with all exposures to the i\_th obligor. In the case of a re-securitization, an LGD of 100 percent must be assumed for the underlying exposures that are themselves securitization exposures.

(f) Simplified method for computing N and EWALGD. (1) If all underlying exposures of a securitization are retail exposures, a bank holding company may apply the SFA using the following simplifications:
   (i) h = 0; and
   (ii) v = 0.
   (2) Under the conditions in paragraphs (f)(3) and (f)(4) of this section, a bank holding company may employ a simplified method for calculating N and EWALGD.
   (3) If C\_1 is no more than 0.03, a bank holding company may set EWALGD = 0.50 if none of the underlying exposures is a securitization exposure or EWALGD = 1 if one or more of the underlying exposures is a securitization exposure, and may set N equal to the following amount:
Section 46. Recognition of Credit Risk Mitigants for Securitization Exposures

(a) General. An originating bank holding company that has obtained a credit risk mitigant to hedge its securitization exposure to a synthetic or traditional securitization that satisfies the operational criteria in section 41 of this appendix may recognize the credit risk mitigant, but only as provided in this section. An investing bank holding company that has obtained a credit risk mitigant to hedge a securitization exposure may recognize the credit risk mitigant, but only as provided in this section. A bank holding company that has obtained the RBA in section 43 of this appendix or the IAA in section 44 of this appendix multiplied by the ratio of adjusted exposure amount (SE\(^*)\) to original exposure amount (SE), where:

(i) SE\(^*) = \max \{0, (SE–C x (1–Hs–Hfx))\};

(ii) SE = the amount of the securitization exposure calculated under paragraph (e) of section 42 of this appendix;

(iii) C = the current market value of the collateral;

(iv) Hs = the haircut appropriate to the collateral type and

(v) Hfx = the haircut appropriate for any currency mismatch between the collateral and the exposure.

(2) Mixed collateral. Where the collateral is a basket of different asset types or a basket of assets denominated in different currencies, the haircut on the basket will be

\[ H = \sum_i a_i H_i, \]

where \( a_i \) is the current market value of the asset in the basket divided by the current market value of all assets in the basket and \( H_i \) is the haircut applicable to that asset.

(3) Standard supervisory haircuts. Unless a bank holding company qualifies for use of and uses own-estimates haircuts in paragraph (b)(4) of this section:

(i) A bank holding company must use the collateral type haircut (Hs) in Table 3;

(ii) A bank holding company may use a currency mismatch haircut (Hfx) of 8 percent if the exposure and the collateral are denominated in different currencies;

(iii) A bank holding company must multiply the supervisory haircuts obtained in paragraphs (b)(3)(i) and (ii) by the square root of 6.5 (which equals 2.566510); and

(iv) A bank holding company must adjust the supervisory haircuts upward on the basis of a holding period longer than 65 business days where and as appropriate to take into account the illiquidity of the collateral.

(4) Own estimates for haircuts. With the prior written approval of the Federal Reserve, a bank holding company may calculate haircuts using its own internal estimates of market price volatility and foreign exchange volatility, subject to paragraphs (b)(2)(i) and (ii) of section 32 of this appendix. The minimum holding period (TM) for securitization exposures is 65 business days.

(c) Guarantees and credit derivatives—(1) Limitations on recognition. A bank holding

\[ N = \frac{1}{C_1 C_m + \left( \frac{C_m – C_1}{m-1} \right) \max (1 – mC_1, 0)} \]

where:

(i) \( C_m \) is the ratio of the sum of the amounts of the ‘m’ largest underlying exposures to UE and

(ii) The level of \( m \) is to be selected by the bank holding company.

(4) Alternatively, if only \( C_1 \) is available and \( C_1 \) is no more than 0.03, the bank holding company may set EWALGD = 0.50 if none of the underlying exposures is a securitization exposure or EWALGD = 1 if one or more of the underlying exposures is a securitization exposure and may set \( N = 1/C_1 \).
Federal Reserve System

A bank holding company may only recognize an eligible guarantee or eligible credit derivative provided by an eligible securitization guarantor in determining the bank holding company’s risk-based capital requirement for a securitization exposure.

(2) ECL for securitization exposures. When a bank holding company recognizes an eligible guarantee or eligible credit derivative provided by an eligible securitization guarantor in determining the bank holding company’s risk-based capital requirement for a securitization exposure, the bank holding company must also:

(i) Calculate ECL for the protected portion of the exposure using the same risk parameters that it uses for calculating the risk-weighted asset amount of the exposure as described in paragraph (c)(3) of this section; and

(ii) Add the exposure’s ECL to the bank holding company’s total ECL.

(3) Rules of recognition. A bank holding company may recognize an eligible guarantee or eligible credit derivative provided by an eligible securitization guarantor in determining the bank holding company’s risk-based capital requirement for the securitization exposure as follows:

(i) Full coverage. If the protection amount of the eligible guarantee or eligible credit derivative equals or exceeds the amount of the securitization exposure, the bank holding company may set the risk-weighted asset amount for the securitization exposure equal to the risk-weighted asset amount for a direct exposure to the eligible securitization guarantor (as determined in the wholesale risk weight function described in section 31 of this appendix), using the bank holding company’s LGD for the guarantee or credit derivative, and an EAD equal to the amount of the securitization exposure (as determined in paragraph (c)(3) of section 42 of this appendix).

(ii) Partial coverage. If the protection amount of the eligible guarantee or eligible credit derivative is less than the amount of the securitization exposure, the bank holding company may set the risk-weighted asset amount for the securitization exposure equal to the sum of:

(A) Covered portion. The risk-weighted asset amount for a direct exposure to the eligible securitization guarantor (as determined in the wholesale risk weight function described in section 31 of this appendix), using the bank holding company’s PD for the guarantor, the bank holding company’s LGD for the guarantee or credit derivative, and an EAD equal to the protection amount of the credit risk mitigant; and

(B) Uncovered portion. 1.0 minus the ratio of the protection amount of the eligible guarantee or eligible credit derivative to the amount of the securitization exposure; multiplied by

(2) The risk-weighted asset amount for the securitization exposure without the credit risk mitigant (as determined in sections 42–45 of this appendix).

(4) Mismatches. The bank holding company must make applicable adjustments to the protection amount as required in paragraphs (d), (e), and (f) of section 33 of this appendix for any hedged securitization exposure and any more senior securitization exposure that benefits from the hedge. In the context of a synthetic securitization, when an eligible guarantee or eligible credit derivative covers multiple hedged exposures that have different residual maturities, the bank holding company must use the longest residual maturity of any of the hedged exposures as the residual maturity of all the hedged exposures.

Section 47. Risk-Based Capital Requirement for Early Amortization Provisions

(a) General. (1) An originating bank holding company must hold risk-based capital against the sum of the originating bank holding company’s interest and the investors’ interest in a securitization that:

(i) Includes one or more underlying exposures in which the borrower is permitted to vary the drawn amount within an agreed limit under a line of credit; and

(ii) Contains an early amortization provision.

(2) For securitizations described in paragraph (a)(1) of this section, an originating bank holding company must calculate the risk-based capital requirement for the originating bank holding company’s interest under sections 42–45 of this appendix, and the risk-based capital requirement for the investors’ interest under paragraph (b) of this section.

(b) Risk-weighted asset amount for investors’ interest. The originating bank holding company’s risk-weighted asset amount for the investors’ interest in the securitization is equal to the product of the following 5 quantities:

(1) The investors’ interest EAD;

(2) The appropriate conversion factor in paragraph (c) of this section;

(3) \(K_{\text{irs}}\) (as defined in paragraph (e)(3) of section 45 of this appendix);

(4) 1.25; and

(5) The proportion of the underlying exposures in which the borrower is permitted to vary the drawn amount within an agreed limit under a line of credit.

(c) Conversion factor. (1) Except as provided in paragraph (c)(2) of this section, to calculate the appropriate conversion factor, a bank holding company must use Table 8 for a securitization that contains a controlled early amortization provision and must use Table 9 for a securitization that contains a
non-controlled early amortization provision. In circumstances where a securitization contains a mix of retail and nonretail exposures or a mix of committed and uncommitted exposures, a bank holding company may take a pro rata approach to determining the conversion factor for the securitization’s early amortization provision. If a pro rata approach is not feasible, a bank holding company must treat the mixed securitization as a securitization of nonretail exposures if a single underlying exposure is a nonretail exposure and must treat the mixed securitization as a securitization of committed exposures if a single underlying exposure is a committed exposure.

(ii) To find the appropriate conversion factor in the tables, a bank holding company must divide the three-month average annualized excess spread of the securitization by the excess spread trapping point in the securitization structure. In securitizations that do not require excess spread to be trapped, or that specify trapping points based primarily on performance measures other than the three-month average annualized excess spread, the excess spread trapping point is 4.5 percent.

(2) For a securitization for which all or substantially all of the underlying exposures are residential mortgage exposures, a bank holding company may calculate the appropriate conversion factor using paragraph (c)(1) of this section or may use a conversion factor of 10 percent. If the bank holding company chooses to use a conversion factor of 10 percent, it must use that conversion factor for all securitizations for which all or substantially all of the underlying exposures are residential mortgage exposures.

PART VI. RISK-WEIGHTED ASSETS FOR EQUITY EXPOSURES

Section 51. Introduction and Exposure Measurement

(a) General. To calculate its risk-weighted asset amounts for equity exposures that are not equity exposures to investment funds, a bank holding company may apply either the Simple Risk Weight Approach (SRWA) in section 52 of this appendix or, if it qualifies to do so, the Internal Models Approach (IMA) in section 53 of this appendix. A bank holding company must use the look-through approaches in section 54 of this appendix to calculate its risk-weighted asset amounts for equity exposures to investment funds.

(b) Adjusted carrying value. For purposes of this part, the adjusted carrying value of an equity exposure is:

(1) For the on-balance sheet component of an equity exposure, the bank holding company’s carrying value of the exposure reduced by any unrealized gains on the exposure that are reflected in such carrying value but excluded from the bank holding company’s tier 1 and tier 2 capital; and

(2) For the off-balance sheet component of an equity exposure, the effective notional principal amount of the exposure, the size of which is equivalent to a hypothetical on-balance sheet position in the underlying equity instrument that would evidence the same change in fair value (measured in dollars) for a given small change in the price of the underlying equity instrument, minus the adjusted carrying value of the on-balance sheet
component of the exposure as calculated in paragraph (b)(1) of this section. For unfunded equity commitments that are unconditional, the effective notional principal amount is the notional amount of the commitment. For unfunded equity commitments that are conditional, the effective notional principal amount is the best estimate of the amount that would be funded under economic downturn conditions.

Section 52. Simple Risk Weight Approach (SRWA)

(a) General. Under the SRWA, a bank holding company’s aggregate risk-weighted asset amount for its equity exposures is equal to the sum of the risk-weighted asset amounts for each of the bank holding company’s individual equity exposures (other than equity exposures to an investment fund) as determined in this section and the risk-weighted asset amounts for each of the bank holding company’s individual equity exposures to an investment fund as determined in section 54 of this appendix.

(b) SRWA computation for individual equity exposures. A bank holding company must determine the risk-weighted asset amount for an individual equity exposure (other than an equity exposure to an investment fund) by multiplying the adjusted carrying value of the equity exposure or the effective portion and ineffective portion of a hedge pair (as defined in paragraph (c) of this section) by the lowest applicable risk weight in this paragraph (b).

(1) 0 percent risk weight equity exposures. An equity exposure to an entity whose credit exposures are exempt from the 0.03 percent PD floor in paragraph (d)(2) of section 31 of this appendix is assigned a 0 percent risk weight.

(2) 20 percent risk weight equity exposures. An equity exposure to an Federal Home Loan Bank or Farmer Mac is assigned a 20 percent risk weight.

(3) 100 percent risk weight equity exposures.

The following equity exposures are assigned a 100 percent risk weight:

(i) Community development equity exposures. An equity exposure that qualifies as a community development investment under 12 U.S.C. 24 (Eleventh), excluding equity exposures to an unconsolidated small business investment company and equity exposures held through a consolidated small business investment company described in section 302 of the Small Business Investment Act of 1958 (15 U.S.C. 636), is assigned a 100 percent risk weight.

(ii) Effective portion of hedge pairs. The effective portion of a hedge pair.

(iii) Non-significant equity exposures. Equity exposures, excluding exposures to an investment firm that would meet the definition of a traditional securitization were it not for the Federal Reserve’s application of paragraph (b) of that definition and has greater than immaterial leverage, to the extent that the aggregate adjusted carrying value of the exposure does not exceed 10 percent of the bank holding company’s tier 1 capital plus tier 2 capital.

(A) To compute the aggregate adjusted carrying value of a bank holding company’s equity exposures for purposes of this paragraph (b)(3)(ii), the bank holding company may exclude equity exposures described in paragraphs (b)(1), (b)(2), (b)(3)(i), and (b)(3)(ii) of this section, the equity exposure in a hedge pair with the smaller adjusted carrying value, and a proportion of each equity exposure to an investment fund equal to the proportion of the assets of the investment fund that are not equity exposures or that meet the criterion of paragraph (b)(3)(i) of this section. If a bank holding company does not know the actual holdings of the investment fund, the bank holding company may calculate the proportion of the assets of the fund that are not equity exposures based on the terms of the prospectus, partnership agreement, or similar contract that defines the fund’s permissible investments. If the sum of the investment limits for all exposure classes within the fund exceeds 100 percent, the bank holding company must assume for purposes of this paragraph (b)(3)(ii) that the investment fund invests to the maximum extent possible in equity exposures.

(B) When determining which of a bank holding company’s equity exposures qualify for a 100 percent risk weight under this paragraph, a bank holding company first must include equity exposures to unconsolidated small business investment companies or held through consolidated small business investment companies described in section 302 of the Small Business Investment Act of 1958 (15 U.S.C. 636), then must include publicly traded equity exposures (including those held indirectly through investment funds), and then must include non-publicly traded equity exposures (including those held indirectly through investment funds).

(4) 300 percent risk weight equity exposures. A publicly traded equity exposure (other than an equity exposure described in paragraph (b)(6) of this section and including the ineffective portion of a hedge pair) is assigned a 300 percent risk weight.

(5) 400 percent risk weight equity exposures. An equity exposure (other than an equity exposure described in paragraph (b)(6) of this section) that is not publicly traded is assigned a 400 percent risk weight.

(6) 600 percent risk weight equity exposures. An equity exposure to an investment firm that:

(i) Would meet the definition of a traditional securitization were it not for the Federal Reserve’s application of paragraph (8) of that definition; and

(ii) Has greater than immaterial leverage is assigned a 600 percent risk weight.
Hedge transactions—(1) Hedge pair. A hedge pair is two equity exposures that form an effective hedge so long as each equity exposure is publicly traded or has a return that is primarily based on a publicly traded equity exposure.

(2) Effective hedge. Two equity exposures form an effective hedge if the exposures either have the same remaining maturity or each has a remaining maturity of at least three months; the hedge relationship is formally documented in a prospective manner (that is, before the bank holding company acquires at least one of the equity exposures); the documentation specifies the measure of effectiveness (E) the bank holding company will use for the hedge relationship throughout the life of the transaction; and the hedge relationship has an E greater than or equal to 0.8. A bank holding company must measure E at least quarterly and must use one of three alternative measures of E:

(i) Under the dollar-offset method of measuring effectiveness, the bank holding company must determine the ratio of value change (RVC). The RVC is the ratio of the cumulative sum of the periodic changes in value of one equity exposure to the cumulative sum of the periodic changes in the value of the other equity exposure. If RVC is positive, the hedge is not effective and E equals 0. If RVC is negative and greater than or equal to -1 (that is, between zero and -1), then E equals the absolute value of RVC. If RVC is negative and less than -1, then E equals 2 plus RVC.

(ii) Under the variability-reduction method of measuring effectiveness:

\[ E = 1 - \frac{\sum_{t=1}^{T} \left( X_t - X_{t-1} \right)^2}{\sum_{t=1}^{T} \left( A_t - A_{t-1} \right)^2} \]

(A) \( X_t = A_t - B_t \);
(B) \( A_t \) = the value at time t of one exposure in a hedge pair; and
(C) \( B_t \) = the value at time t of the other exposure in a hedge pair.

(iii) Under the regression method of measuring effectiveness, E equals the coefficient of determination of a regression in which the change in value of one exposure in a hedge pair is the dependent variable and the change in value of the other exposure in a hedge pair is the independent variable. However, if the estimated regression coefficient is positive, then the value of E is zero.

(3) The effective portion of a hedge pair is E multiplied by the greater of the adjusted carrying values of the equity exposures forming a hedge pair.

(4) The ineffective portion of a hedge pair is \( 1-E \) multiplied by the greater of the adjusted carrying values of the equity exposures forming a hedge pair.

Section 53. Internal Models Approach (IMA)

(a) General. A bank holding company may calculate its risk-weighted asset amount for equity exposures using the IMA by modeling publicly traded and non-publicly traded equity exposures (in accordance with paragraph (c) of this section) or by modeling only publicly traded equity exposures (in accordance with paragraph (d) of this section).

(b) Qualifying criteria. To qualify to use the IMA to calculate risk-based capital requirements for equity exposures, a bank holding company must receive prior written approval from the Federal Reserve. To receive such approval, the bank holding company must demonstrate to the Federal Reserve's satisfaction that the bank holding company meets the following criteria:

(1) The bank holding company must have one or more models that:

(i) Assess the potential decline in value of its modeled equity exposures;

(ii) Are commensurate with the size, complexity, and composition of the bank holding company’s modeled equity exposures; and

(iii) Adequately capture both general market risk and idiosyncratic risk.

(2) The bank holding company’s model must produce an estimate of potential losses for its modeled equity exposures that is no less than the estimate of potential losses produced by a VaR methodology employing a 99.0 percent, one-tailed confidence interval of the distribution of quarterly returns for a benchmark portfolio of equity exposures comparable to the bank holding company’s modeled equity exposures using a long-term sample period.

(3) The number of risk factors and exposures in the sample and the data period used for quantification in the bank holding company’s model and benchmarking exercise must be sufficient to provide confidence in
the accuracy and robustness of the bank holding company’s estimates.

(4) The bank holding company’s model and benchmarking process must incorporate data that are relevant in representing the risk profile of the bank holding company’s modeled equity exposures, and must include data from at least one equity market cycle containing adverse market movements relevant to the risk profile of the bank holding company’s modeled equity exposures. In addition, the bank holding company’s benchmarking exercise must be based on daily market prices for the benchmark portfolio. If the bank holding company’s model uses a scenario methodology, the bank holding company must demonstrate that the model produces a conservative estimate of potential losses on the bank holding company’s modeled equity exposures over a relevant long-term market cycle. If the bank holding company employs risk factor models, the bank holding company must demonstrate through empirical analysis the appropriateness of the risk factors used.

(5) The bank holding company must be able to demonstrate, using theoretical arguments and empirical evidence, that any proxies used in the modeling process are comparable to the bank holding company’s modeled equity exposures and that the bank holding company has made appropriate adjustments for differences. The bank holding company must derive any proxies for its modeled equity exposures and benchmark portfolio using historical market data that are relevant to the bank holding company’s modeled equity exposures and benchmark portfolio (or, where not, must use appropriately adjusted data), and such proxies must be robust estimates of the risk of the bank holding company’s modeled equity exposures.

(c) Risk-weighted assets calculation for a bank holding company modeling publicly traded and non-publicly traded equity exposures. If a bank holding company models publicly traded and non-publicly traded equity exposures, the bank holding company’s aggregate risk-weighted asset amount for its equity exposures is equal to the sum of:

(1) The risk-weighted asset amount of each equity exposure that qualifies for a 0 percent, 20 percent, or 100 percent risk weight under paragraphs (b)(1) through (b)(3)(i) of section 52 (as determined under section 52 of this appendix), each equity exposure that qualifies for a 400 percent risk weight under paragraph (b)(6) of section 52 (as determined under section 52 of this appendix), and each equity exposure to an investment fund (as determined under section 54 of this appendix); and

(2) The greater of:

(i) The estimate of potential losses on the bank holding company’s equity exposures (other than equity exposures referenced in paragraph (c)(1) of this section) generated by the bank holding company’s internal equity exposure model multiplied by 12.5; or

(ii) The sum of:

(A) 200 percent multiplied by the aggregate adjusted carrying value of the bank holding company’s publicly traded equity exposures that do not belong to a hedge pair, do not qualify for a 0 percent, 20 percent, or 100 percent risk weight under paragraphs (b)(1) through (b)(3)(i) of section 52 of this appendix, and are not equity exposures to an investment fund;

(B) 200 percent multiplied by the aggregate ineffective portion of all hedge pairs; and

(C) 300 percent multiplied by the aggregate adjusted carrying value of the bank holding company’s equity exposures that are not publicly traded, do not qualify for a 0 percent, 20 percent, or 100 percent risk weight under paragraphs (b)(1) through (b)(3)(i) of section 52 of this appendix, and are not equity exposures to an investment fund.

(d) Risk-weighted assets calculation for a bank holding company using the IMA only for publicly traded equity exposures. If a bank holding company models only publicly traded equity exposures, the bank holding company’s aggregate risk-weighted asset amount for its equity exposures is equal to the sum of:

(1) The risk-weighted asset amount of each equity exposure that qualifies for a 0 percent, 20 percent, or 100 percent risk weight under paragraphs (b)(1) through (b)(3)(i) of section 52 (as determined under section 52 of this appendix), each equity exposure that qualifies for a 400 percent risk weight under paragraph (b)(6) of section 52 (as determined under section 52 of this appendix), and each equity exposure to an investment fund (as determined under section 54 of this appendix); and

(2) The greater of:

(i) The estimate of potential losses on the bank holding company’s publicly traded equity exposures (other than equity exposures referenced in paragraph (d)(1) of this section) generated by the bank holding company’s internal equity exposure model multiplied by 12.5; or

(ii) The sum of:

(A) 200 percent multiplied by the aggregate adjusted carrying value of the bank holding company’s publicly traded equity exposures that do not belong to a hedge pair, do not qualify for a 0 percent, 20 percent, or 100 percent risk weight under paragraphs (b)(1) through (b)(3)(i) of section 52 of this appendix, and are not equity exposures to an investment fund; and

(B) 200 percent multiplied by the aggregate ineffective portion of all hedge pairs.

Section 54. Equity Exposures to Investment Funds

(a) Available approaches. (1) Unless the exposure meets the requirements for a community development equity exposure in paragraph (b)(3)(i) of section 52 of this appendix, a bank holding company must determine the
risk-weighted asset amount of an equity exposure to an investment fund under the Full Look-Through Approach in paragraph (b) of this section, the Simple Modified Look-Through Approach in paragraph (c) of this section, the Alternative Modified Look-Through Approach in paragraph (d) of this section, or, if the investment fund qualifies for the Money Market Fund Approach, the Money Market Fund Approach in paragraph (e) of this section.

(2) The risk-weighted asset amount of an equity exposure to an investment fund that meets the requirements for a community development equity exposure in paragraph (b)(3)(i) of section 52 of this appendix is its adjusted carrying value.

(3) If an equity exposure to an investment fund is part of a hedge pair and the bank holding company does not use the Full Look-Through Approach, the bank holding company may use the ineffective portion of the hedge pair as determined under paragraph (c) of section 52 of this appendix as the adjusted carrying value for the equity exposure to the investment fund. The risk-weighted asset amount of the effective portion of the hedge pair is equal to its adjusted carrying value.

(b) Full Look-Through Approach. A bank holding company that is able to calculate a risk-weighted asset amount for its proportional ownership share of each exposure held by the investment fund (as calculated under this appendix as if the proportional ownership share of each exposure were held directly by the bank holding company) may either:

(1) Set the risk-weighted asset amount of the bank holding company’s exposure to the fund equal to the product of:

(i) The aggregate risk-weighted asset amounts of the exposures held by the fund as if they were held directly by the bank holding company; and

(ii) The bank holding company’s proportional ownership share of the fund; or

(2) Include the bank holding company’s proportional ownership share of each exposure held by the fund in the bank holding company’s IMA.

(c) Simple Modified Look-Through Approach. Under this approach, the risk-weighted asset amount for a bank holding company’s equity exposure to an investment fund equals the adjusted carrying value of the equity exposure multiplied by the highest risk weight in Table 10 that applies to any exposure the fund is permitted to hold under its prospectus, partnership agreement, or similar contract that defines the fund’s permissible investments (excluding derivative contracts that are used for hedging rather than speculative purposes and that do not constitute a material portion of the fund’s exposures).

<table>
<thead>
<tr>
<th>Risk weight</th>
<th>Exposure class</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 percent</td>
<td>Sovereign exposures with a long-term applicable external rating in the highest investment-grade rating category and sovereign exposures of the United States.</td>
</tr>
<tr>
<td>20 percent</td>
<td>Non-sovereign exposures with a long-term applicable external rating in the highest or second-highest investment-grade rating category; exposures with a short-term applicable external rating in the highest investment-grade rating category; and exposures to, or guaranteed by, depository institutions, foreign banks (as defined in 12 CFR 211.2), or securities firms subject to consolidated supervision and regulation comparable to that imposed on U.S. securities broker-dealers that are repo-style transactions or bankers’ acceptances.</td>
</tr>
<tr>
<td>50 percent</td>
<td>Exposures with a long-term applicable external rating in the third-highest investment-grade rating category or a short-term applicable external rating in the second-highest investment-grade rating category.</td>
</tr>

<td>Exposures with a long-term applicable external rating one rating category below investment grade.</td>
</tr>
<tr>
<td>300 percent</td>
<td>Publicly traded equity exposures.</td>
</tr>
<tr>
<td>400 percent</td>
<td>Non-publicly traded equity exposures; exposures with a long-term applicable external rating two rating categories or more below investment grade; and exposures without an external rating (excluding publicly traded equity exposures).</td>
</tr>
<tr>
<td>1,250 percent</td>
<td>OTC derivative contracts and exposures that must be deducted from regulatory capital or receive a risk weight greater than 400 percent under this appendix.</td>
</tr>
</tbody>
</table>

(d) Alternative Modified Look-Through Approach. Under this approach, a bank holding company may assign the adjusted carrying value of an equity exposure to an investment fund on a pro rata basis to different risk weight categories in Table 10 based on the investment limits in the fund’s prospectus, partnership agreement, or similar contract that defines the fund’s permissible investments. The risk-weighted asset amount for the bank holding company’s equity exposure to the investment fund equals the sum of each portion of the adjusted carrying value assigned to an exposure class multiplied by the applicable risk weight. If the sum of the
investment limits for exposure classes within the fund exceeds 100 percent, the bank holding company must assume that the fund invests to the maximum extent permitted under its investment limits in the exposure class with the highest risk weight under Table 10, and continues to make investments in order of the exposure class with the next highest risk weight under Table 10 until the maximum total investment level is reached. If more than one exposure class applies to an exposure, the bank holding company must use the highest applicable risk weight. A bank holding company may exclude derivative contracts held by the fund that are used for hedging rather than for speculative purposes and do not constitute a material portion of the fund’s exposures.

(c) Money Market Fund Approach. The risk-weighted asset amount for a bank holding company’s equity exposure to an investment fund that is a money market fund subject to 17 CFR 270.2a–7 and that has an applicable external rating in the highest investment-grade rating category equals the adjusted carrying value of the equity exposure multiplied by 7 percent.

Section 55. Equity Derivative Contracts

Under the IMA, in addition to holding risk-based capital against an equity derivative contract under this part, a bank holding company must hold risk-based capital against the counterparty credit risk in the equity derivative contract by also treating the equity derivative contract as a wholesale exposure and computing a supplemental risk-weighted asset amount for the contract under part IV. Under the SHWA, a bank holding company may choose not to hold risk-based capital against the counterparty credit risk of equity derivative contracts, as long as it does so for all such contracts. Where the equity derivative contracts are subject to a qualified master netting agreement, a bank holding company using the SHWA must either include all or exclude all of the contracts from any measure used to determine counterparty credit risk exposure.

PART VII. RISK-WEIGHTED ASSETS FOR OPERATIONAL RISK

Section 61. Qualification Requirements for Incorporation of Operational Risk Mitigants (a) Qualification to use operational risk mitigants. A bank holding company may adjust its estimate of operational risk exposure to reflect qualifying operational risk mitigants if:

(i) The bank holding company's operational risk quantification system is able to generate an estimate of the bank holding company's operational risk exposure (which does not incorporate qualifying operational risk mitigants) and an estimate of the bank holding company's operational risk exposure adjusted to incorporate qualifying operational risk mitigants; and

(ii) The bank holding company’s methodology for incorporating the effects of insurance, if the bank holding company uses insurance as an operational risk mitigant, captures through appropriate discounts to the amount of risk mitigation:

(a) If a bank holding company does not qualify to use or does not have qualifying operational risk mitigants, the bank holding company’s dollar risk-based capital requirement for operational risk is its operational risk exposure minus eligible operational risk offsets (if any); or

(b) If a bank holding company qualifies to use operational risk mitigants and has qualifying operational risk mitigants, the bank holding company’s dollar risk-based capital requirement for operational risk is the greater of:

(i) The bank holding company’s operational risk exposure adjusted for qualifying operational risk mitigants minus eligible operational risk offsets (if any); or

(ii) 0.8 multiplied by the difference between:

(a) The bank holding company’s operational risk exposure; and
Pt. 225, App. G

(ii) Eligible operational risk offsets (if any).

(c) The bank holding company’s risk-weighted asset amount for operational risk equals the bank holding company’s dollar risk-based capital requirement for operational risk determined under paragraph (a) or (b) of this section multiplied by 12.5.

PART VIII. DISCLOSURE

Section 71. Disclosure Requirements

(a) Each bank holding company must publicly disclose each quarter its total and tier 1 risk-based capital ratios and their components (that is, tier 1 capital, tier 2 capital, total qualifying capital, and total risk-weighted assets).4

(b)(1) Each consolidated bank holding company that is not a subsidiary of a non-U.S. banking organization that is subject to comparable public disclosure requirements in its home jurisdiction and has successfully completed its parallel run must provide timely public disclosures each calendar quarter of the information in tables 11.1–11.11 below. If a significant change occurs, such that the most recent reported amounts are no longer reflective of the bank holding company’s capital adequacy and risk profile, then a brief discussion of this change and its likely impact must be provided as soon as practicable thereafter. Qualitative disclosures that typically do not change each quarter (for example, a general summary of the bank holding company’s risk management objectives and policies, reporting system, and definitions) may be disclosed annually, provided any significant changes to these are disclosed in the interim. Management is encouraged to provide all of the disclosures required by this appendix in one place on the bank holding company’s public Web site.5 The bank holding company must make these disclosures publicly available for each of the last three years (that is, twelve quarters) or such shorter period since it began its first floor period.

(2) Each bank holding company is required to have a formal disclosure policy approved by the board of directors that addresses its approach for determining the disclosures it makes. The policy must address the associated internal controls and disclosure controls and procedures. The board of directors and senior management are responsible for establishing and maintaining an effective internal control structure over financial reporting, including the disclosures required by this appendix, and must ensure that appropriate review of the disclosures takes place. One or more senior officers of the bank holding company must attest that the disclosures meet the requirements of this appendix.

(3) If a bank holding company believes that disclosure of specific commercial or financial information would prejudice seriously its position by making public information that is either proprietary or confidential in nature, the bank holding company need not disclose those specific items, but must disclose more general information about the subject matter of the requirement, together with the fact that, and the reason why, the specific items of information have not been disclosed.

TABLE 11.1—SCOPE OF APPLICATION

| Qualitative Disclosures | (a) The name of the top corporate entity in the group to which the appendix applies.
| | (b) An outline of differences in the basis of consolidation for accounting and regulatory purposes, with a brief description of the entities within the group that are fully consolidated; that are deconsolidated and deducted; for which the regulatory capital requirement is deducted; and that are neither consolidated nor deducted (for example, where the investment is risk-weighted).
| | (c) Any restrictions, or other major impediments, on transfer of funds or regulatory capital within the group.

4Other public disclosure requirements continue to apply—for example, Federal securities law and regulatory reporting requirements.

5Alternatively, a bank holding company may provide the disclosures in more than one place, as some of them may be included in public financial reports (for example, in Management’s Discussion and Analysis included in SEC filings) or other regulatory reports. The bank holding company must provide a summary table on its public Web site that specifically indicates where all the disclosures may be found (for example, regulatory report schedules, page numbers in annual reports).

6Entities include securities, insurance and other financial subsidiaries, commercial subsidiaries (where permitted), and significant minority equity investments in insurance, financial and commercial entities.

---

7 Representing 50 percent of the amount, if any, by which total expected credit losses as calculated within the IRB approach exceed eligible credit reserves, which must be deducted from tier 1 capital.

8 Including 50 percent of the amount, if any, by which total expected credit losses as calculated within the IRB approach exceed eligible credit reserves, which must be deducted from tier 2 capital.

9 Risk-weighted assets determined under [the market risk rule] are to be disclosed only for the approaches used.
10 Total risk-weighted assets should also be disclosed.
11 Table 4 does not include equity exposures.
12 For example, the FASB Interpretations 39 and 41.
13 For example, bank holding companies could apply a breakdown similar to that used for accounting purposes. Such a breakdown might, for instance, be (a) loans, off-balance sheet commitments, and other non-derivative off-balance sheet exposures, (b) debt securities, and (c) OTC derivatives.
14 Geographical areas may comprise individual countries, groups of countries, or regions within countries. A bank holding company might choose to define the geographical areas based on the way the company’s portfolio is geographically managed. The criteria used to allocate the loans to geographical areas must be specified.
15 A bank holding company is encouraged also to provide an analysis of the aging of past-due loans.
The portion of general allowance that is not allocated to a geographical area should be disclosed separately.

The reconciliation should include the following: A description of the allowance; the opening balance of the allowance; charge-offs taken against the allowance during the period; amounts provided (or reversed) for estimated probable loan losses during the period; any other adjustments (for example, exchange rate differences, business combinations, acquisitions and disposals of subsidiaries), including transfers between allowances; and the closing balance of the allowance. Charge-offs and recoveries that have been recorded directly to the income statement should be disclosed separately.

This disclosure does not require a detailed description of the model in full—it should provide the reader with a broad overview of the model approach, describing definitions of the variables and methods for estimating and validating those variables set out in the quantitative risk disclosures below. This should be done for each of the four category/subcategories. The bank holding company should disclose any significant differences in approach to estimating these variables within each category/subcategories.
The PD, LGD and EAD disclosures in Table 11.5(c) should reflect the effects of collateral, qualifying master netting agreements, eligible guarantees and eligible credit derivatives as defined in part I. Disclosure of each PD grade should include the exposure-weighted average PD for each grade. Where a bank holding company aggregates PD grades for the purposes of disclosure, this should be a representative breakdown of the distribution of PD grades used for regulatory capital purposes. Outstanding loans and EAD on undrawn commitments can be presented on a combined basis for these disclosures.

Quantitative disclosures: Risk assessment.

(c) For wholesale exposures, present the following information across a sufficient number of PD grades (including default) to allow for a meaningful differentiation of credit risk: 19

- Total EAD; 20
- Exposure-weighted average LGD (percentage);
- Exposure-weighted average risk weight; and
- Amount of undrawn commitments and exposure-weighted average EAD for wholesale exposures.

For each retail subcategory, present the disclosures outlined above across a sufficient number of segments to allow for a meaningful differentiation of credit risk.

Quantitative disclosures: Historical results.

(d) Actual losses in the preceding period for each category and subcategory and how this differs from past experience. A discussion of the factors that impacted the loss experience in the preceding period—for example, has the bank holding company experienced higher than average default rates, loss rates or EADs.

(e) Bank holding company’s estimates compared against actual outcomes over a longer period. 21 At a minimum, this should include information on estimates of losses against actual losses in the wholesale category and each retail subcategory over a period sufficient to allow for a meaningful assessment of the performance of the internal rating processes for each category/subcategory. Where appropriate, the bank holding company should further decompose this to provide analysis of PD, LGD, and EAD outcomes against estimates provided in the quantitative risk assessment disclosures above. 22

---

19 The PD, LGD and EAD disclosures in Table 11.5(c) should reflect the effects of collateral, qualifying master netting agreements, eligible guarantees and eligible credit derivatives as defined in part I. Disclosure of each PD grade should include the exposure-weighted average PD for each grade. Where a bank holding company aggregates PD grades for the purposes of disclosure, this should be a representative breakdown of the distribution of PD grades used for regulatory capital purposes.

20 Outstanding loans and EAD on undrawn commitments can be presented on a combined basis for these disclosures.

21 These disclosures are a way of further informing the reader about the reliability of the information provided in the “quantitative disclosures: risk assessment” over the long run. The disclosures are requirements from year-end 2010; in the meantime, early adoption is encouraged. The phased implementation is to allow a bank holding company sufficient time to build up a longer run of data that will make these disclosures meaningful.

22 This regulation is not prescriptive about the period used for this assessment. Upon implementation, it might be expected that a bank holding company would provide these disclosures for as long run of data as possible—for example, if a bank holding company has 10 years of data, it might choose to disclose the average default rates for each PD grade over that 10-year period. Annual amounts need not be disclosed.

23 A bank holding company should provide this further decomposition where it will allow users greater insight into the reliability of the estimates provided in the “quantitative disclosures: risk assessment.” In particular, it should provide this information where there are material differences between its estimates of PD, LGD or EAD compared to actual outcomes over the long run. The bank holding company should also provide explanations for such differences.
### Table 11.6—General Disclosure for Counterparty Credit Risk of OTC Derivative Contracts, Repo-Style Transactions, and Eligible Margin Loans

| Qualitative Disclosures | (a) The general qualitative disclosure requirement with respect to OTC derivatives, eligible margin loans, and repo-style transactions, including:  
| | • Discussion of methodology used to assign economic capital and credit limits for counterparty credit exposures;  
| | • Discussion of policies for securing collateral, valuing and managing collateral, and establishing credit reserves;  
| | • Discussion of the primary types of collateral taken;  
| | • Discussion of policies with respect to wrong-way risk exposures;  
| | and  
| | • Discussion of the impact of the amount of collateral the bank holding company would have to provide if the bank holding company were to receive a credit rating downgrade. |
| Quantitative Disclosures | (b) Gross positive fair value of contracts, netting benefits, netted current credit exposure, collateral held (including type, for example, cash, government securities), and net unsecured credit exposure.24  
| | Also report measures for EAD used for regulatory capital for these transactions, the notional value of credit derivative hedges purchased for counterparty credit risk protection, and, for bank holding companies not using the internal models methodology in section 32(d) of this appendix, the distribution of current credit exposure by types of credit exposure.25  
| | (c) Notional amount of purchased and sold credit derivatives, segregated between use for the bank holding company’s own credit portfolio and for its intermediation activities, including the distribution of the credit derivative products used, broken down further by protection bought and sold within each product group.  
| | (d) The estimate of alpha if the bank holding company has received supervisory approval to estimate alpha. |

---

24 Net unsecured credit exposure is the credit exposure after considering the benefits from legally enforceable netting agreements and collateral arrangements, without taking into account haircuts for price volatility, liquidity, etc.

25 This may include interest rate derivative contracts, foreign exchange derivative contracts, equity derivative contracts, credit derivatives, commodity or other derivative contracts, repo-style transactions, and eligible margin loans.
At a minimum, a bank holding company must provide the disclosures in Table 11.7 in relation to credit risk mitigation that has been recognized for the purposes of reducing capital requirements under this appendix. Where relevant, bank holding companies are encouraged to give further information about mitigants that have not been recognized for that purpose.

Credit derivatives that are treated, for the purposes of this appendix, as synthetic securitization exposures should be excluded from the credit risk mitigation disclosures and included within those relating to securitization.

Counterparty credit risk-related exposures disclosed pursuant to Table 11.6 should be excluded from the credit risk mitigation disclosures in Table 11.7.

For example: originator, investor, servicer, provider of credit enhancement, sponsor of asset backed commercial paper facility, liquidity provider, or swap provider.
Federal Reserve System

Table 11.8—Securitization—Continued

| Quantitative disclosures | (d) The total outstanding exposures securitized by the bank holding company in securitizations that meet the operational criteria in section 41 of this appendix (broken down into traditional/synthetic), by underlying exposure type.  
(e) For exposures securitized by the bank holding company in securitizations that meet the operational criteria in Section 41 of this appendix:  
- Amount of securitized assets that are impaired/past due; and  
- Losses recognized by the bank holding company during the current period broken down by exposure type.  
(f) Aggregate amount of securitization exposures broken down by underlying exposure type.  
(g) Aggregate amount of securitization exposures and the associated IRB capital requirements for these exposures broken down into a meaningful number of risk weight bands. Exposures that have been deducted from capital should be disclosed separately by type of underlying asset.  
(h) For securitizations subject to the early amortization treatment, the following items by underlying asset type for securitized facilities:  
- The aggregate drawn exposures attributed to the seller’s and investors’ interests; and  
- The aggregate IRB capital charges incurred by the bank holding company against the investors’ shares of drawn balances and undrawn lines.  
(i) Summary of current year’s securitization activity, including the amount of exposures securitized (by exposure type), and recognized gain or loss on sale by asset type. |

Table 11.9—Operational Risk

| Qualitative disclosures | (a) The general qualitative disclosure requirement for operational risk.  
(b) Description of the AMA, including a discussion of relevant internal and external factors considered in the bank holding company’s measurement approach.  
(c) A description of the use of insurance for the purpose of mitigating operational risk. |

Table 11.10—Equities Not Subject to Market Risk Rule

| Qualitative Disclosures | (a) The general qualitative disclosure requirement with respect to equity risk, including:  
30 Underlying exposure types may include, for example, one- to four-family residential loans, home equity lines, credit card receivables, and auto loans.  
32 Securitization transactions in which the originating bank holding company does not retain any securitization exposure should be shown separately but need only be reported for the year of inception.  
33 Where relevant, a bank holding company is encouraged to differentiate between exposures resulting from activities in which they act only as sponsors, and exposures that result from all other bank holding company securitization activities.  
34 For example, charge-offs/allowances (if the assets remain on the bank holding company’s balance sheet) or write-downs of I/O strips and other residual interests. |

SUPPLEMENT I TO PART 226—Official Staff Interpretations

EFFECTIVE DATE NOTE: At 73 FR 44599, July 30, 2008, the authority citation to part 226 was revised, effective Oct. 1, 2009. For the convenience of the user, the revised text is set forth below.

Subpart A—General

§ 226.1 Authority, purpose, coverage, organization, enforcement and liability.

(a) Authority. This regulation, known as Regulation Z, is issued by the Board of Governors of the Federal Reserve System to implement the Federal Truth in Lending Act, which is contained in title I of the Consumer Credit Protection Act, as amended (15 U.S.C. 1601 et seq.). This regulation also implements title XII, section 1204 of the Competitive Equality Banking Act of
1 The meaning of regularly is explained in the definition of creditor in §226.2(a).

(d) Organization. The regulation is divided into subparts and appendices as follows:

(1) Subpart A contains general information. It sets forth: (i) The authority, purpose, coverage, and organization of the regulation; (ii) the definitions of basic terms; (iii) the transactions that are exempt from coverage; and (iv) the method of determining the finance charge.

(2) Subpart B contains the rules for open-end credit. It requires that initial disclosures and periodic statements be provided, as well as additional disclosures for credit and charge card applications and solicitations and for home equity plans subject to the requirements of §§226.5a and 226.5b, respectively.

(3) Subpart C relates to closed-end credit. It contains rules on disclosures, treatment of credit balances, annual percentage rate calculations, rescission requirements, and advertising.

(4) Subpart D contains rules on oral disclosures, Spanish language disclosure in Puerto Rico, record retention, effect on state laws, state exemptions, and rate limitations.

(5) Subpart E contains special rules for mortgage transactions. Section 226.52 requires certain disclosures and provides limitations for loans that have rates and fees above specified amounts. Section 226.33 requires disclosures, including the total annual loan cost rate, for reverse mortgage transactions. Section 226.34 prohibits specific acts and practices in connection with mortgage transactions.

(6) Several appendices contain information such as the procedures for determinations about state laws, state exemptions and issuance of staff interpretations, special rules for certain kinds of credit plans, a list of enforcement agencies, and the rules for computing annual percentage rates in closed-end credit transactions and total annual loan cost rates for reverse mortgage transactions.

(e) Enforcement and liability. Section 108 of the act contains the administrative enforcement provisions. Sections 112, 113, 130, 131, and 134 contain provisions relating to liability for failure to comply with the requirements of the act and the regulation. Section 1204(c)

12 CFR Ch. II (1–1–09 Edition)
Federal Reserve System

EFFECTIVE DATE NOTE: At 73 FR 44599, July 30, 2008, §226.1 was amended by revising paragraph (d)(5), effective Oct. 1, 2009. For the convenience of the user, the revised text is set forth as follows:

§ 226.2 Definitions and rules of construction.

(a) Definitions. For purposes of this regulation, the following definitions apply:

(1) Act means the Truth in Lending Act (15 U.S.C. 1601 et seq.).

(2) Advertisement means a commercial message in any medium that promotes, directly or indirectly, a credit transaction.

(3) [Reserved]²

(4) Billing cycle or cycle means the interval between the days or dates of regular periodic statements. These intervals shall be equal and no longer than a quarter of a year. An interval will be considered equal if the number of days in the cycle does not vary more than 4 days from the regular day or date of the periodic statement.

(5) Board means the Board of Governors of the Federal Reserve System.

(6) Business day means a day on which the creditor’s offices are open to the public for carrying on substantially all of its business functions. However, for purposes of rescission under §§226.15 and 226.23, and for purposes of §226.31, the term means all calendar days except Sundays and the legal public holidays specified in 5 U.S.C. 6103(a), such as New Year’s Day, the Birthday of Martin Luther King, Jr., Washington’s Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans Day, Thanksgiving Day, and Christmas Day.

(7) Card issuer means a person that issues a credit card or that person’s agent with respect to the card.

(8) Cardholder means a natural person to whom a credit card is issued for consumer credit purposes, or a natural person who has agreed with the card issuer to pay consumer credit obligations arising from the issuance of a credit card to another natural person. For purposes of §226.12(a) and (b), the term includes any person to whom a credit card is issued for any purpose, including business, commercial, or agricultural use, or a person who has agreed with the card issuer to pay obligations arising from the issuance of such a credit card to another person.

(9) Cash price means the price at which a creditor, in the ordinary course of business, offers to sell for cash the property or service that is the subject of the transaction. At the creditor’s option, the term may include the price of accessories, services related to the sale, service contracts and taxes and fees for license, title, and registration. The term does not include any finance charge.

(10) Closed-end credit means consumer credit other than open-end credit as defined in this section.

(11) Consumer means a cardholder or a natural person to whom consumer credit is offered or extended. However, for purposes of rescission under §§226.15
and 226.23, the term also includes a natural person in whose principal dwelling a security interest is or will be retained or acquired, if that person’s ownership interest in the dwelling is or will be subject to the security interest.

12) **Consumer credit** means credit offered or extended to a consumer primarily for personal, family, or household purposes.

13) **Consummation** means the time that a consumer becomes contractually obligated on a credit transaction.

14) **Credit** means the right to defer payment of debt or to incur debt and defer its payment.

15) **Credit card** means any card, plate, coupon book, or other single credit device that may be used from time to time to obtain credit. **Charge card** means a credit card on an account for which no periodic rate is used to compute a finance charge.

16) **Credit sale** means a sale in which the seller is a creditor. The term includes a bailment or lease (unless terminable without penalty at any time by the consumer) under which the consumer:

(i) Agrees to pay as compensation for use a sum substantially equivalent to, or in excess of, the total value of the property and services involved; and

(ii) Will become (or has the option to become), for no additional consideration or for nominal consideration, the owner of the property upon compliance with the agreement.

17) **Creditor** means: (i) A person (A) who regularly extends consumer credit that is subject to a finance charge or is payable by written agreement in more than 4 installments (not including a downpayment), and (B) to whom the obligation is initially payable, either on the face of the note or contract, or by agreement when there is no note or contract.

(ii) For purposes of §§226.4(c)(8) (discounts), 226.9(d) (Finance charge imposed at time of transaction), and 226.12(e) (Prompt notification of returns and crediting of refunds), a person that honors a credit card.

(iii) For purposes of subpart B, any card issuer that extends either open-end credit or credit that is not subject to a finance charge and is not payable by written agreement in more than 4 installments.

(iv) For purposes of subpart B (except for the credit and charge card disclosures contained in §§226.5(a) and 226.9 (e) and (f), the finance charge disclosures contained in §§226.6(a) and 226.7 (d) through (g) and the right of rescission set forth in §226.15) and subpart C, any card issuer that extends closed-end credit that is subject to a finance charge or is payable by written agreement in more than 4 installments.

18) **Downpayment** means an amount, including the value of any property used as a trade-in, paid to a seller to reduce the cash price of goods or services purchased in a credit sale transaction. A deferred portion of a downpayment may be treated as part of the downpayment if it is payable not later than the due date of the second otherwise regularly scheduled payment and is not subject to a finance charge.

19) **Dwelling** means a residential structure that contains 1 to 4 units, whether or not that structure is attached to real property. The term includes an individual condominium unit, cooperative unit, mobile home, and trailer, if it is used as a residence.

20) **Open-end credit** means consumer credit extended by a creditor under a plan in which:

(i) The creditor reasonably contemplates repeated transactions;

(ii) The creditor may impose a finance charge from time to time on an outstanding unpaid balance; and

(iii) The amount of credit that may be extended to the consumer during the term of the plan (up to any limit set by the creditor) is generally made available to the extent that any outstanding balance is repaid.

---

3 A person regularly extends consumer credit only if it extended credit (other than credit subject to the requirements of §226.32) more than 25 times (or more than 5 times for transactions secured by a dwelling) in the preceding calendar year. If a person did not meet these numerical standards in the preceding calendar year, the numerical standards shall be applied to the current calendar year. A person regularly extends consumer credit if, in any 12-month period, the person originates more than one credit extension that is subject to the requirements of §226.32 or one or more such credit extensions through a mortgage broker.
§ 226.3 Exempt transactions.

This regulation does not apply to the following:4

(a) Business, commercial, agricultural, or organizational credit. (1) An extension of credit primarily for a business, commercial or agricultural purpose.

(2) An extension of credit to other than a natural person, including credit to government agencies or instrumentalities.

(b) Credit over $25,000 not secured by real property or a dwelling. An extension

---

4The provisions in §226.12 (a) and (b) governing the issuance of credit cards and liability for their unauthorized use apply to all credit cards, even if the credit cards are issued for use in connection with extensions of credit that otherwise are exempt under this section.
§ 226.4 Finance charge.

(a) **Definition.** The finance charge is the cost of consumer credit as a dollar amount. It includes any charge payable directly or indirectly by the consumer and imposed directly or indirectly by the creditor as an incident to or a condition of the extension of credit. It does not include any charge of a type payable in a comparable cash transaction.

(1) **Charges by third parties.** The finance charge includes fees and amounts charged by someone other than the creditor, unless otherwise excluded under this section, if the creditor:
   (i) requires the use of a third party as a condition of or an incident to the extension of credit, even if the consumer can choose the third party; or
   (ii) retains a portion of the third-party charge, to the extent of the portion retained.

(2) **Special rule; closing agent charges.** Fees charged by a third party that conducts the loan closing (such as a settlement agent, attorney, or escrow or title company) are finance charges only if the creditor:
   (i) Requires the particular services for which the consumer is charged;
   (ii) Requires the imposition of the charge; or
   (iii) Retains a portion of the third-party charge, to the extent of the portion retained.

(3) **Special rule; mortgage broker fees.** Fees charged by a mortgage broker (including fees paid by the consumer directly to the broker or to the creditor for delivery to the broker) are finance charges even if the creditor does not require the consumer to use a mortgage broker and even if the creditor does not retain any portion of the charge.

(b) **Example of finance charge.** The finance charge includes the following types of charges, except for charges specifically excluded by paragraphs (c) through (e) of this section:

(1) Interest, time price differential, and any amount payable under an add-on or discount system of additional charges.

(2) Service, transaction, activity, and carrying charges, including any charge imposed on a checking or other transaction account to the extent that the charge exceeds the charge for a similar account without a credit feature.

(3) Points, loan fees, assumption fees, finder’s fees, and similar charges.

(4) Appraisal, investigation, and credit report fees.

(5) Premiums or other charges for any guarantee or insurance protecting the creditor against the consumer’s default or other credit loss.

(6) Charges imposed on a creditor by another person for purchasing or accepting a consumer’s obligation, if the consumer is required to pay the charges in cash, as an addition to the obligation, or as a deduction from the proceeds of the obligation.
Federal Reserve System § 226.4

(7) Premiums or other charges for credit life, accident, health, or loss-of-income insurance, written in connection with a credit transaction.

(8) Premiums or other charges for insurance against loss of or damage to property, or against liability arising out of the ownership or use of property, written in connection with a credit transaction.

(9) Discounts for the purpose of inducing payment by a means other than the use of credit.

(10) Debt cancellation fees. Charges or premiums paid for debt cancellation coverage written in connection with a credit transaction, whether or not the debt cancellation coverage is insurance under applicable law.

(c) Charges excluded from the finance charge. The following charges are not finance charges:

(1) Application fees charged to all applicants for credit, whether or not credit is actually extended.

(2) Charges for actual unanticipated late payment, for exceeding a credit limit, or for delinquency, default, or a similar occurrence.

(3) Charges imposed by a financial institution for paying items that overdraw an account, unless the payment of such items and the imposition of the charge were previously agreed upon in writing.

(4) Fees charged for participation in a credit plan, whether assessed on an annual or other periodic basis.

(5) Seller’s points.

(6) Interest forfeited as a result of an interest reduction required by law on a time deposit used as security for an extension of credit.

(7) Real-estate related fees. The following fees in a transaction secured by real property or in a residential mortgage transaction, if the fees are bona fide and reasonable in amount:

(i) Fees for title examination, abstract of title, title insurance, property survey, and similar purposes.

(ii) Fees for preparing loan-related documents, such as deeds, mortgages, and reconveyance or settlement documents.

(iii) Notary and credit report fees.

(iv) Property appraisal fees or fees for inspections to assess the value or condition of the property if the service is performed prior to closing, including fees related to pest infestation or flood hazard determinations.

(v) Amounts required to be paid into escrow or trustee accounts if the amounts would not otherwise be included in the finance charge.

(8) Discounts offered to induce payment for a purchase by cash, check, or other means, as provided in section 167(b) of the Act.

(d) Insurance and debt cancellation coverage—(1) Voluntary credit insurance premiums. Premiums for credit life, accident, health or loss-of-income insurance may be excluded from the finance charge if the following conditions are met:

(i) The insurance coverage is not required by the creditor, and this fact is disclosed in writing.

(ii) The premium for the initial term of insurance coverage is disclosed. If the term of insurance is less than the term of the transaction, the term of insurance also shall be disclosed. The premium may be disclosed on a unit-cost basis only in open-end credit transactions, closed-end credit transactions by mail or telephone under §226.17(g), and certain closed-end credit transactions involving an insurance plan that limits the total amount of indebtedness subject to coverage.

(iii) The consumer signs or initials an affirmative written request for the insurance after receiving the disclosures specified in this paragraph. Any consumer in the transaction may sign or initial the request.

(2) Premiums for insurance against loss of or damage to property, or against liability arising out of the ownership or use of property, may be excluded from the finance charge if the following conditions are met:

(i) The insurance coverage may be obtained from a person of the consumer's choice, and this fact is disclosed.

(ii) If the coverage is obtained from or through the creditor, the premium

---

This includes single interest insurance if the insurer waives all right of subrogation against the consumer.

A creditor may reserve the right to refuse to accept, for reasonable cause, an insurer offered by the consumer.
for the initial term of insurance coverage shall be disclosed. If the term of insurance is less than the term of the transaction, the term of insurance shall also be disclosed. The premium may be disclosed on a unit-cost basis only in open-end credit transactions, closed-end credit transactions by mail or telephone under §226.17(g), and certain closed-end credit transactions involving an insurance plan that limits the total amount of indebtedness subject to coverage.

(3) Voluntary debt cancellation fees. (i) Charges or premiums paid for debt cancellation coverage of the type specified in paragraph (d)(3)(ii) of this section may be excluded from the finance charge, whether or not the coverage is insurance, if the following conditions are met:

(A) The debt cancellation agreement or coverage is not required by the creditor, and this fact is disclosed in writing;

(B) The fee or premium for the initial term of coverage is disclosed. If the term of coverage is less than the term of the credit transaction, the term of coverage also shall be disclosed. The fee or premium may be disclosed on a unit-cost basis only in open-end credit transactions, closed-end credit transactions by mail or telephone under §226.17(g), and certain closed-end credit transactions involving a debt cancellation agreement that limits the total amount of indebtedness subject to coverage;

(C) The consumer signs or initials an affirmative written request for coverage after receiving the disclosures specified in this paragraph. Any consumer in the transaction may sign or initial the request.

(ii) Paragraph (d)(3)(i) of this section applies to fees paid for debt cancellation coverage that provides for cancellation of all or part of the debtor's liability for amounts exceeding the value of the collateral securing the obligation, or in the event of the loss of life, health, or income or in case of accident.

(e) Certain security interest charges. If itemized and disclosed, the following charges may be excluded from the finance charge:

(1) Taxes and fees prescribed by law that actually are or will be paid to public officials for determining the existence of or for perfecting, releasing, or satisfying a security interest.

(2) The premium for insurance in lieu of perfecting a security interest to the extent that the premium does not exceed the fees described in paragraph (e)(1) of this section that otherwise would be payable.

(3) Taxes on security instruments. Any tax levied on security instruments or on documents evidencing indebtedness if the payment of such taxes is a requirement for recording the instrument securing the evidence of indebtedness.

(f) Prohibited offsets. Interest, dividends, or other income received or to be received by the consumer on deposits or investments shall not be deducted in computing the finance charge.

Subpart B—Open-End Credit

§ 226.5 General disclosure requirements.

(a) Form of disclosures. (1) The creditor shall make the disclosures required by this subpart clearly and conspicuously in writing, in a form that the consumer may keep. The disclosures required by this subpart may be provided to the consumer in electronic form, subject to compliance with the consumer consent and other applicable provisions of the Electronic Signatures in Global and National Commerce Act (E-Sign Act) (15 U.S.C. §7001 et seq.). The disclosures required by §§226.5a, 226.5b, and 226.16 may be provided to

7The disclosure required by section 226.9(d) when a finance charge is imposed at the time of a transaction need not be written.

8The disclosures required under §226.5a for credit and charge card applications and solicitations, the home equity disclosures required under §226.5b(d), the alternative summary billing rights statement provided for in §226.9(a)(2a), the credit and charge card renewal disclosures required under §226.9(e), and the disclosures made under §226.10(b) about payment requirements need not be in a form that the consumer can keep.
the consumer in electronic form without regard to the consumer consent or other provisions of the E-Sign Act in the circumstances set forth in those sections.

(2) The terms finance charge and annual percentage rate, when required to be disclosed with a corresponding amount or percentage rate, shall be more conspicuous than any other required disclosure.9

(3) Certain disclosures required under § 226.5a for credit and charge card applications and solicitations must be provided in a tabular format or in a prominent location in accordance with the requirements of that section.

(4) For rules governing the form of disclosures for home equity plans, see § 226.5b(a).

(b) Time of disclosures—(1) Initial disclosures. The creditor shall furnish the initial disclosure statement required by § 226.6 before the first transaction is made under the plan.

(2) Periodic statements. (i) The creditor shall mail or deliver a periodic statement as required by § 226.7 for each billing cycle at the end of which an account has a debit or credit balance of more than $1 or on which a finance charge has been imposed. A periodic statement need not be sent for an account if the creditor deems it uncollectible, or if delinquency collection proceedings have been instituted, or if furnishing the statement would violate Federal law.

(ii) The creditor shall mail or deliver the periodic statement at least 14 days prior to any date or the end of any time period required to be disclosed under § 226.7(j) in order for the consumer to avoid an additional finance or other charge.10 A creditor that fails to meet this requirement shall not collect any finance or other charge imposed as a result of such failure.

(3) Credit and charge card application and solicitation disclosures. The card issuer shall furnish the disclosures for credit and charge card applications and solicitations in accordance with the timing requirements of § 226.5a.

(4) Home equity plans. Disclosures for home equity plans shall be made in accordance with the timing requirements of § 226.5b(b).

(c) Basis of disclosures and use of estimates. Disclosures shall reflect the terms of the legal obligation between the parties. If any information necessary for accurate disclosure is unknown to the creditor, it shall make the disclosure based on the best information reasonably available and shall state clearly that the disclosure is an estimate.

(d) Multiple creditors; multiple consumers. If the credit plan involves more than one creditor, only one set of disclosures shall be given, and the creditors shall agree among themselves which creditor must comply with the requirements that this regulation imposes on any or all of them. If there is more than one consumer, the disclosures may be made to any consumer who is primarily liable on the account. If the right of rescission under § 226.15 is applicable, however, the disclosures required by §§ 226.6 and 226.15(b) shall be made to each consumer having the right to rescind.

(e) Effect of subsequent events. If a disclosure becomes inaccurate because of an event that occurs after the creditor mails or delivers the disclosures, the resulting inaccuracy is not a violation of this regulation, although new disclosures may be required under § 226.9(c).

§ 226.5a Credit and charge card application and solicitations.

(a) General rules. The card issuer shall provide the disclosures required under this section on or with a solicitation or an application to open a credit or charge card account.

---

9The terms need not be more conspicuous when used under § 226.5a generally for credit and charge card applications and solicitations under § 226.7(d) on periodic statements, under § 226.9(e) in credit and charge card renewal disclosures, and under § 226.16 in advertisements. (But see special rule for annual percentage rate for purchases, § 226.5a(b)(1).)

10This timing requirement does not apply if the creditor is unable to meet the requirement because of an act of God, war, civil disorder, natural disaster, or strike.
360

(1) Definition of solicitation. For purposes of this section, the term solicitation means an offer by the card issuer to open a credit or charge card account that does not require the consumer to complete an application.

(2) Form of disclosures. (i) The disclosures in paragraphs (b)(1) through (7) of this section shall be provided in a prominent location on or with an application or a solicitation, or other applicable document, and in the form of a table with headings, content, and format substantially similar to any of the applicable tables found in appendix G.

(ii) The disclosures in paragraphs (b)(8) through (11) of this section shall be provided either in the table containing the disclosures in paragraphs (b)(1) through (7), or clearly and conspicuously elsewhere on or with the application or solicitation.

(iii) The disclosure required under paragraph (b)(5) of this section shall contain the term grace period.

(iv) The terminology in the disclosures under paragraph (b) of this section shall be consistent with that to be used in the disclosures under §§ 226.6 and 226.7.

(v) For an application or a solicitation that is accessed by the consumer in electronic form, the disclosures required under this section may be provided to the consumer in electronic form on or with the application or solicitation.

(3) Exceptions. This section does not apply to home-equity plans accessible by a credit or charge card that are of the type subject to the requirements of § 226.5b; overdraft lines of credit tied to asset accounts accessed by check-guarantee cards or by debit cards; or lines of credit accessed by check-guarantee cards or by debit cards that can be used only at automated teller machines.

(4) Fees based on a percentage. If the amount of any fee required to be disclosed under this section is determined on the basis of a percentage of another amount, the percentage used and the identification of the amount against which the percentage is applied may be disclosed instead of the amount of the fee.

(5) Certain fees that vary by state. If the amount of any fee referred to in paragraphs (b)(8) through (11) of this section varies from state to state, the card issuer may disclose the range of the fees instead of the amount for each state, if the disclosure includes a statement that the amount of the fee varies from state to state.

(b) Required disclosures. The card issuer shall disclose the items in this paragraph on or with an application or a solicitation in accordance with the requirements of paragraphs (c), (d), or (e) of this section. A credit card issuer shall disclose all applicable items in this paragraph except for paragraph (b)(7) of this section. A charge card issuer shall disclose the applicable items in paragraphs (b)(2), (4), and (7) through (11) of this section.

(1) Annual percentage rate. Each periodic rate that may be used to compute the finance charge on an outstanding balance for purchases, a cash advance, or a balance transfer, expressed as an annual percentage rate (as determined by § 226.14(b)). When more than one rate applies for a category of transactions, the range of balances to which each rate is applicable shall also be disclosed. The annual percentage rate for purchases disclosed pursuant to this paragraph shall be in at least 18-point type, except for the following: a temporary initial rate that is lower than the rate that will apply after the temporary rate expires, and a penalty rate that will apply upon the occurrence of one or more specific events.

(i) If the account has a variable rate, the card issuer shall also disclose the fact that the rate may vary and how the rate is determined.

(ii) When variable rate disclosures are provided under paragraph (c) of this section, an annual percentage rate disclosure is accurate if the rate was in effect within 60 days before mailing the disclosures. When variable rate disclosures are provided under paragraph (e) of this section, an annual percentage rate disclosure is accurate if the rate was in effect within 30 days before printing the disclosures. Disclosures provided by electronic communication are subject to paragraph (b)(1)(iii) of this section.
(iii) When variable rate disclosures are provided by electronic communication, an annual percentage rate disclosure is accurate if the rate was in effect within 30 days before mailing the disclosures to a consumer's electronic mail address. If disclosures are made available at another location such as the card issuer's Internet web site, the annual percentage rate must be one in effect within the last 30 days.

(2) Fees for issuance or availability. Any annual or other periodic fee, expressed as an annualized amount, or any other fee that may be imposed for the issuance or availability of a credit or charge card, including any fee based on account activity or inactivity.

(3) Minimum finance charge. Any minimum or fixed finance charge that could be imposed during a billing cycle.

(4) Transaction charges. Any transaction charge imposed for the use of the card for purchases.

(5) Grace period. The date by which or the period within which any credit extended for purchases may be repaid without incurring a finance charge. If no grace period is provided, that fact must be disclosed. If the length of the grace period varies, the card issuer may disclose the range of days, the minimum number of days, or the average number of days in the grace period, if the disclosure is identified as a range, minimum, or average.

(6) Balance computation method. The name of the balance computation method listed in paragraph (g) of this section that is used to determine the balance for purchases on which the finance charge is computed, or an explanation of the method used if it is not listed. The explanation may appear outside the table if the table contains a reference to the explanation. In determining which balance computation method to disclose, the card issuer shall assume that credit extended for purchases will not be repaid within the grace period, if any.

(7) Statement on charge card payments. A statement that charges incurred by use of the charge card are due when the periodic statement is received.

(8) Cash advance fee. Any fee imposed for an extension of credit in the form of cash.

(9) Late payment fee. Any fee imposed for a late payment.

(10) Over-the-limit fee. Any fee imposed for exceeding a credit limit.

(11) Balance transfer fee. Any fee imposed to transfer an outstanding balance.

(c) Direct-mail and electronic applications and solicitations. The card issuer shall disclose the applicable items in paragraph (b) of this section on or with an application or solicitation that is mailed to consumers or provided by electronic communication.

(d) Telephone applications and solicitations—

(1) Oral disclosure. The card issuer shall orally disclose the information in paragraphs (b) (1) through (7) of this section, to the extent applicable, in a telephone application or solicitation initiated by the card issuer.

(2) Alternative disclosure. The oral disclosure under paragraph (d)(1) of this section need not be given if the card issuer either does not impose a fee described in paragraph (b)(2) of this section or does not impose such a fee unless the consumer uses the card, and the card issuer discloses in writing within 30 days after the consumer requests the card (but in no event later than the delivery of the card) the following:

(i) The applicable information in paragraph (b) of this section; and

(ii) The fact that the consumer need not accept the card or pay any fee disclosed unless the consumer uses the card.

(e) Applications and solicitations made available to general public. The card issuer shall provide disclosures, to the extent applicable, on or with an application or solicitation that is made available to the general public, including one contained in a catalog, magazine, or other generally available publication. The disclosures shall be provided in accordance with paragraph (e) (1), (2) or (3) of this section.

(1) Disclosure of required credit information. The card issuer may disclose in a prominent location on the application or solicitation the following:

(i) The applicable information in paragraph (b) of this section; and

(ii) The date the required information was printed, including a statement
§ 226.5a

that the required information was accurate as of that date and is subject to change after that date; and

(iii) A statement that the consumer should contact the card issuer for any change in the required information since it was printed, and a toll-free telephone number or a mailing address for that purpose.

(2) Inclusion of certain initial disclosures. The card issuer may disclose on or with the application or solicitation the following:

(i) The disclosures required under § 226.6 (a) through (c); and

(ii) A statement that the consumer should contact the card issuer for any change in the required information, and a toll-free telephone number or a mailing address for that purpose.

(3) No disclosure of credit information. If none of the items in paragraph (b) of this section is provided on or with the application or solicitation, the card issuer may state in a prominent location on the application or solicitation the following:

(i) There are costs associated with the use of the card; and

(ii) The consumer may contact the card issuer to request specific information about the costs, along with a toll-free telephone number and a mailing address for that purpose.

(4) Prompt response to requests for information. Upon receiving a request for any of the information referred to in this paragraph, the card issuer shall promptly and fully disclose the information requested.

(f) Special charge card rule—card issuer and person extending credit not the same person. If a cardholder may by use of a charge card access an open-end credit plan that is not maintained by the charge card issuer, the card issuer need not provide the disclosures in paragraphs (c), (d) or (e) of this section for the open-end credit plan if the card issuer states on or with an application or a solicitation the following:

(1) The card issuer will make an independent decision whether to issue the card;

(2) The charge card may arrive before the decision is made about extending credit under the open-end credit plan; and

(3) Approval for the charge card does not constitute approval for the open-end credit plan.

(g) Balance computation methods defined. The following methods may be described by name. Methods that differ due to variations such as the allocation of payments, whether the finance charge begins to accrue on the transaction date or the date of posting the transaction, the existence or length of a grace period, and whether the balance is adjusted by charges such as late fees, annual fees and unpaid finance charges do not constitute separate balance computation methods.

(1)(i) Average daily balance (including new purchases). This balance is figured by adding the outstanding balance (including new purchases and deducting payments and credits) for each day in the billing cycle, and then dividing by the number of days in the billing cycle.

(ii) Average daily balance (excluding new purchases). This balance is figured by adding the outstanding balance (excluding new purchases and deducting payments and credits) for each day in the billing cycle, and then dividing by the number of days in the billing cycle.

(2)(i) Two-cycle average daily balance (including new purchases). This balance is the sum of the average daily balances for two billing cycles. The first balance is for the current billing cycle, and is figured by adding the outstanding balance (including new purchases and deducting payments and credits) for each day in the billing cycle, and then dividing by the number of days in the billing cycle. The second balance is for the preceding billing cycle.

(ii) Two-cycle average daily balance (excluding new purchases). This balance is the sum of the average daily balances for two billing cycles. The first balance is for the current billing cycle, and is figured by adding the outstanding balance (excluding new purchases and deducting payments and credits) for each day in the billing cycle, and then dividing by the number of days in the billing cycle. The second balance is for the preceding billing cycle.

(3) Adjusted balance. This balance is figured by deducting payments and credits made during the billing cycle.
from the outstanding balance at the beginning of the billing cycle.

(4) **Previous balance.** This balance is the outstanding balance at the beginning of the billing cycle.

§ 226.5b Requirements for home equity plans.

The requirements of this section apply to open-end credit plans secured by the consumer’s dwelling. For purposes of this section, an annual percentage rate is the annual percentage rate corresponding to the periodic rate as determined under § 226.14(b).

(a) **Form of disclosures.**—(1) General. The disclosures required by paragraph (d) of this section shall be made clearly and conspicuously and shall be grouped together and segregated from all unrelated information. The disclosures may be provided on the application form or on a separate form. The disclosure described in paragraph (d)(4)(iii), the itemization of third-party fees described in paragraph (d)(8), and the variable-rate information described in paragraph (d)(12) of this section may be provided separately from the other required disclosures.

(2) **Precedence of certain disclosures.** The disclosures described in paragraph (d)(1) through (4)(i) of this section shall precede the other required disclosures.

(3) For an application that is accessed by the consumer in electronic form, the disclosures required under this section may be provided to the consumer in electronic form or with the application.

(b) **Time of disclosures.** The disclosures and brochure required by paragraphs (d) and (e) of this section shall be provided at the time an application is provided to the consumer.10a

(c) **Duties of third parties.** Persons other than the creditor who provide applications to consumers for home equity plans must provide the brochure required under paragraph (e) of this section at the time an application is provided. If such persons have the disclosures required under paragraph (d) of this section for a creditor’s home equity plan, they also shall provide the disclosures at such time.10a

(d) **Content of disclosures.** The creditor shall provide the following disclosures, as applicable:

(1) **Retention of information.** A statement that the consumer should make or otherwise retain a copy of the disclosures.

(2) **Conditions for disclosed terms.** (i) A statement of the time by which the consumer must submit an application to obtain specific terms disclosed and an identification of any disclosed term that is subject to change prior to opening the plan.

(ii) A statement that, if a disclosed term changes (other than a change due to fluctuations in the index in a variable-rate plan) prior to opening the plan and the consumer therefore elects not to open the plan, the consumer may receive a refund of all fees paid in connection with the application.

(3) **Security interest and risk to home.** A statement that the creditor will acquire a security interest in the consumer’s dwelling and that loss of the dwelling may occur in the event of default.

(4) **Possible actions by creditor.** (i) A statement that, under certain conditions, the creditor may terminate the plan and require payment of the outstanding balance in full in a single payment and impose fees upon termination; prohibit additional extensions of credit or reduce the credit limit; and, as specified in the initial agreement, implement certain changes in the plan.

(ii) A statement that the consumer may receive, upon request, information about the conditions under which such actions may occur.

(iii) In lieu of the disclosure required under paragraph (d)(4)(ii) of this section, a statement of such conditions.

(5) **Payment terms.** The payment terms of the plan, including:

10a The disclosures and the brochure may be delivered or placed in the mail not later than three business days following receipt of a consumer’s application in the case of applications contained in magazines or other publications, or when the application is received by telephone or through an intermediary agent or broker.
§ 226.5b

(1) The length of the draw period and any repayment period.
(2) An explanation of how the minimum periodic payment will be determined and the timing of the payments.
If paying only the minimum periodic payments may not repay any of the principal or may repay less than the outstanding balance, a statement of this fact, as well as a statement that a balloon payment may result.10b
(3) An example, based on a $10,000 outstanding balance and a recent annual percentage rate,10c showing the minimum periodic payment, any balloon payment, and the time it would take to repay the $10,000 outstanding balance if the consumer made only those payments and obtained no additional extensions of credit.
If different payment terms may apply to the draw and any repayment period, or if different payment terms may apply within either period, the disclosures shall reflect the different payment terms.
(6) Annual percentage rate. For fixed-rate plans, a recent annual percentage rate10c imposed under the plan and a statement that the rate does not include costs other than interest.
(7) Fees imposed by creditor. An itemization of any fees imposed by the creditor to open, use, or maintain the plan, stated as a dollar amount or percentage, and when such fees are payable.
(8) Fees imposed by third parties to open a plan. A good faith estimate, stated as a single dollar amount or range, of any fees that may be imposed by persons other than the creditor to open the plan, as well as a statement that the consumer may receive, upon request, a good faith itemization of such fees. In lieu of the statement, the itemization of such fees may be provided.
(9) Negative amortization. A statement that negative amortization may occur and that negative amortization increases the principal balance and reduces the consumer’s equity in the dwelling.
(10) Transaction requirements. Any limitations on the number of extensions of credit and the amount of credit that may be obtained during any time period, as well as any minimum outstanding balance and minimum draw requirements, stated as dollar amounts or percentages.
(11) Tax implications. A statement that the consumer should consult a tax advisor regarding the deductibility of interest and charges under the plan.
For a plan in which the annual percentage rate is variable, the following disclosures, as applicable:
(i) The fact that the annual percentage rate, payment, or term may change due to the variable-rate feature.
(ii) A statement that the annual percentage rate does not include costs other than interest.
(iii) The index used in making rate adjustments and a source of information about the index.
(iv) An explanation of how the annual percentage rate will be determined, including an explanation of how the index is adjusted, such as by the addition of a margin.
(v) A statement that the consumer should ask about the current index value, margin, discount or premium, and annual percentage rate.
(vi) A statement that the initial annual percentage rate is not based on the index and margin used to make later rate adjustments, and the period of time such initial rate will be in effect.
(vii) The frequency of changes in the annual percentage rate.
(viii) Any rules relating to changes in the index value and the annual percentage rate and resulting changes in the payment amount, including, for example, an explanation of payment limitations and rate carryover.

---

10A balloon payment results if paying the minimum periodic payments does not fully amortize the outstanding balance by a specified date or time, and the consumer must repay the entire outstanding balance at such time.
10C For fixed-rate plans, a recent annual percentage rate is a rate that has been in effect under the plan within the twelve months preceding the date the disclosures are provided to the consumer. For variable-rate plans, a recent annual percentage rate is the most recent rate provided in the historical example described in paragraph (d)(12)(c)(i) of this section or a rate that has been in effect under the plan since the date of the most recent rate in the table.
(ix) A statement of any annual or more frequent periodic limitations on changes in the annual percentage rate (or a statement that no annual limitation exists), as well as a statement of the maximum annual percentage rate that may be imposed under each payment option.

(x) The minimum periodic payment required when the maximum annual percentage rate for each payment option is in effect for a $10,000 outstanding balance, and a statement of the earliest date or time the maximum rate may be imposed.

(xi) An historical example, based on a $10,000 extension of credit, illustrating how annual percentage rates and payments would have been affected by index value changes implemented according to the terms of the plan. The historical example shall be based on the most recent 15 years of index values (selected for the same time period each year) and shall reflect all significant plan terms, such as negative amortization, rate carryover, rate discounts, and rate and payment limitations, that would have been affected by the index movement during the period.

(xii) A statement that rate information will be provided on or with each periodic statement.

(e) Brochure. The home equity brochure published by the Board or a suitable substitute shall be provided.

(f) Limitations on home equity plans. No creditor may, by contract or otherwise:

(1) Change the annual percentage rate unless:
   (i) Such change is based on an index that is not under the creditor’s control; and
   (ii) Such index is available to the general public.

(2) Terminate a plan and demand repayment of the entire outstanding balance in advance of the original term (except for reverse mortgage transactions that are subject to paragraph (f)(4) of this section) unless:
   (i) There is fraud or material misrepresentation by the consumer in connection with the plan;
   (ii) The consumer fails to meet the repayment terms of the agreement for any outstanding balance;
   (iii) Any action or inaction by the consumer adversely affects the creditor’s security for the plan, or any right of the creditor in such security; or
   (iv) Federal law dealing with credit extended by a depository institution to its executive officers specifically requires that as a condition of the plan the credit shall become due and payable on demand, provided that the creditor includes such a provision in the initial agreement.

(3) Change any term, except that a creditor may:
   (i) Provide in the initial agreement that it may prohibit additional extensions of credit or reduce the credit limit during any period in which the maximum annual percentage rate is reached. A creditor also may provide in the initial agreement that specified changes will occur if a specified event takes place (for example, that the annual percentage rate will increase a specified amount if the consumer leaves the creditor’s employment);
   (ii) Change the index and margin used under the plan if the original index is no longer available, the new index has an historical movement substantially similar to that of the original index, and the new index and margin would have resulted in an annual percentage rate substantially similar to the rate in effect at the time the original index became unavailable.
   (iii) Make a specified change if the consumer specifically agrees to it in writing at that time.
   (iv) Make a change that will unequivocally benefit the consumer throughout the remainder of the plan.
   (v) Make an insignificant change to terms.
   (vi) Prohibit additional extensions of credit or reduce the credit limit applicable to an agreement during any period in which:
      (A) The value of the dwelling that secures the plan declines significantly below the dwelling’s appraised value for purposes of the plan;
      (B) The creditor reasonably believes that the consumer will be unable to fulfill the repayment obligations under the plan because of a material change in the consumer’s financial circumstances;
§ 226.6 Initial disclosure statement.

The creditor shall disclose to the consumer, in terminology consistent with that to be used on the periodic statement, each of the following items, to the extent applicable:

(a) **Finance charge.** The circumstances under which a finance charge will be imposed and an explanation of how it will be determined, as follows:
   
   (1) A statement of when finance charges begin to accrue, including an explanation of whether or not any time period exists within which any credit extended may be repaid without incurring a finance charge. If such a time period is provided, a creditor may, at its option and without disclosure, impose no finance charge when payment is received after the time period’s expiration.

   (2) A disclosure of each periodic rate that may be used to compute the finance charge, the range of balances to which it is applicable, and the corresponding annual percentage rate. When different periodic rates apply to different types of transactions, the types of transactions to which the periodic rates apply shall also be disclosed.

   (3) An explanation of the method used to determine the balance on which the finance charge may be computed.

   (4) An explanation of how the amount of any finance charge will be determined, including a description of how any finance charge other than the periodic rate will be determined.

(b) **Other charges.** The amount of any other charge other than a finance charge that may be imposed as part of the plan, or an explanation of how the charge will be determined.

(c) **Security interests.** The fact that the creditor has or will acquire a security

---

(C) The consumer is in default of any material obligation under the agreement;

(D) The creditor is precluded by government action from imposing the annual percentage rate provided for in the agreement;

(E) The priority of the creditor’s security interest is adversely affected by government action to the extent that the value of the security interest is less than 120 percent of the credit line; or

(F) The creditor is notified by its regulatory agency that continued advances constitute an unsafe and unsound practice.

(4) For reverse mortgage transactions that are subject to §226.33, terminate a plan and demand repayment of the entire outstanding balance in advance of the original term except:

   (i) In the case of default;

   (ii) If the consumer transfers title to the property securing the note;

   (iii) If the consumer ceases using the property securing the note as the primary dwelling; or

   (iv) Upon the consumer’s death.

(g) **Refund of fees.** A creditor shall refund all fees paid by the consumer to anyone in connection with an application if any term required to be disclosed under paragraph (d) of this section changes (other than a change due to fluctuations in the index in a variable-rate plan) before the plan is opened and, as a result, the consumer elects not to open the plan.

(h) **Imposition of nonrefundable fees.** Neither a creditor nor any other person may impose a nonrefundable fee in connection with an application until three business days after the consumer receives the disclosures and brochure required under this section.\(^{10d}\)

---

10d If the disclosures and brochure are mailed to the consumer, the consumer is considered to have received them three business days after they are mailed.

\(^{10d}\) A creditor is not required to adjust the range of balances disclosure to reflect the balance below which only a minimum charge applies.

\(^{23}\) If no finance charge is imposed when the outstanding balance is less than a certain amount, no disclosure is required of that fact or of the balance below which no finance charge will be imposed.
interest in the property purchased under the plan, or in other property identified by item or type.

(d) Statement of billing rights. A statement that outlines the consumer's rights and the creditor's responsibilities under §§ 226.12(c) and 226.13 and that is substantially similar to the statement found in appendix G.

(e) Home equity plan information. The following disclosures described in § 226.5b(d), as applicable:

(1) A statement of the conditions under which the creditor may take certain action, as described in § 226.5b(d)(4)(i), such as terminating the plan or changing the terms.
(2) The payment information described in § 226.5b(d)(5) (i) and (ii) for both the draw period and any repayment period.
(3) A statement that negative amortization may occur as described in § 226.5b(d)(9).
(4) A statement of any transaction requirements as described in § 226.5b(d)(10).
(5) A statement regarding the tax implications as described in § 226.5b(d)(11).
(6) A statement that the annual percentage rate imposed under the plan does not include costs other than interest as described in §§ 226.5b(d)(6) and (d)(12)(ii).
(7) The variable-rate disclosures described in § 226.5b(d)(12) (viii), (x), (xi), and (xii), as well as the disclosure described in § 226.5b(d)(5)(iii), unless the disclosures provided with the application were in a form the consumer could keep and included a representative payment example for the category of payment option chosen by the consumer.

(f) Balance on which finance charge computed. The amount of the balance to which a periodic rate was applied and an explanation of how that balance was determined. When a balance is determined without first deducting all credits and payments made during the billing cycle, that fact and the amount of the credits and payments shall be disclosed.

(g) Annual percentage rate. When a finance charge is imposed during the billing cycle, the annual percentage rate(s) determined under § 226.14, using the term annual percentage rate.

(h) Other charges. The amounts, itemized and identified by type, of any charges other than finance charges debited to the account during the billing cycle.

(i) Free-ride period. The date by which or the time period within which the

---

14 See footnotes 11 and 13.
15 If a variable rate plan is involved, the creditor shall disclose the fact that the periodic rates may vary.
§ 226.8 Identification of transactions.

The creditor shall identify credit transactions on or with the first periodic statement that reflects the transaction by furnishing the following information, as applicable.\footnote{16Failure to disclose the information required by this section shall not be deemed a failure to comply with the regulation if: (1) The creditor maintains procedures reasonably adapted to obtain and provide the information; and (2) the creditor treats an inquiry for clarification or documentation as a notice of a billing error, including correcting the account in accordance with §226.13(e). This applies to transactions that take place outside a state, as defined in §226.2(a), whether or not the creditor maintains procedures reasonably adapted to obtain the required information.}

(a) Sale credit. For each credit transaction involving the sale of property or services, the following rules shall apply:

(1) Copy of credit document provided. When an actual copy of the receipt or other credit document is provided with the first periodic statement reflecting the transaction, the transaction is sufficiently identified if the amount of the transaction and either the date of the transaction or the date of debiting the transaction to the consumer’s account are disclosed on the copy or on the periodic statement.

(2) Copy of credit document not provided—creditor and seller same or related person(s). When the creditor and the seller are the same person or related persons, and an actual copy of the receipt or other credit document is not provided with the periodic statement, the creditor shall disclose the amount and date of the transaction, and a brief identification\footnote{17As an alternative to the brief identification, the creditor may disclose a number or symbol that also appears on the receipt or other credit document given to the consumer, if the number or symbol reasonably identifies that transaction with that creditor, and if the creditor treats an inquiry for clarification or documentation as a notice of a billing error, including correcting the account in accordance with §226.13(e).} of the property or services purchased.\footnote{18An identification of property or services may be replaced by the seller’s name and location of the transaction when: (1) The creditor and the seller are the same person; (2) the creditor’s open-end plan has fewer than 15,000 accounts; (3) the creditor provides the consumer with point-of-sale documentation for that transaction; and (4) the creditor treats an inquiry for clarification or documentation as a notice of a billing error, including correcting the account in accordance with §226.13(e).}

(3) Copy of credit document not provided—creditor and seller not same or related person(s). When the creditor and seller are not the same person or related persons, and an actual copy of the receipt or other credit document is not provided with the periodic statement, the creditor shall disclose the amount and date of the transaction; the seller’s name; and the city, and state or foreign country where the transaction took place.\footnote{19The creditor may omit the address or provide any suitable designation that helps the consumer to identify the transaction when the transaction (1) took place at a location that is not fixed; (2) took place in the consumer’s home; or (3) was a mail or telephone order.}

(b) Nonsale credit. A nonsale credit transaction is sufficiently identified if the first periodic statement reflecting the transaction discloses a brief identification of the transaction;\footnote{20See Footnote 17.} the amount of the transaction; and at least one of the following dates: the date of the transaction, the date of debiting the transaction to the consumer’s account, or, if the consumer signed the credit document, the date appearing on the document. If an actual copy of the receipt or other credit document is provided and that copy shows the amount and at least one of the specified dates, the creditor may disclose a number or symbol that also appears on the receipt or other credit document given to the consumer, if the number or symbol reasonably identifies that transaction with that creditor, and if the creditor treats an inquiry for clarification or documentation as a notice of a billing error, including correcting the account in accordance with §226.13(e).
§ 226.9 Subsequent disclosure requirements.

(a) Furnishing statement of billing rights—

(1) Annual statement. The creditor shall mail or deliver the billing rights statement required by §226.6(d) at least once per calendar year, at intervals of not less than 6 months nor more than 18 months, either to all consumers or to each consumer entitled to receive a periodic statement under §226.5(b)(2) for any one billing cycle.

(2) Alternative summary statement. As an alternative to paragraph (a)(1) of this section, the creditor may mail or deliver, on or with each periodic statement, a statement substantially similar to that in appendix G.

(b) Disclosures for supplemental credit devices and additional features—

(1) If a creditor, within 30 days after mailing or delivering the initial disclosures under §226.6(a), adds a credit feature to the consumer’s account or mails or delivers to the consumer a credit device for which the finance charge terms are the same as those previously disclosed, no additional disclosures are necessary. After 30 days, if the creditor adds a credit feature or furnishes a credit device (other than as a renewal, resupply, or the original issuance of a credit card) on the same finance charge terms, the creditor shall disclose, before the consumer uses the feature or device for the first time, that it is for use in obtaining credit under the terms previously disclosed.

(2) Whenever a credit feature is added or a credit device is mailed or delivered, and the finance charge terms for the feature or device differ from disclosures previously given, the disclosures required by §226.6(a) that are applicable to the added feature or device shall be given before the consumer uses the feature or device for the first time.

(c) Change in terms—

(1) Written notice required. Whenever any term required to be disclosed under §226.6 is changed or the required minimum periodic payment is increased, the creditor shall mail or deliver written notice of the change to each consumer who may be affected. The notice shall be mailed or delivered at least 15 days prior to the effective date of the change. The 15-day timing requirement does not apply if the change has been agreed to by the consumer, or if a periodic rate or other finance charge is increased because of the consumer’s delinquency or default; the notice shall be given, however, before the effective date of the change.

(2) Notice not required. No notice under this section is required when the change involves late payment charges, charges for documentary evidence, or over-the-limit charges; a reduction of any component of a finance or other charge; suspension of future credit privileges or termination of an account or plan; or when the change results from an agreement involving a court proceeding, or from the consumer’s default or delinquency (other than an increase in the periodic rate or other finance charge).

(3) Notice for home equity plans. If a creditor prohibits additional extensions of credit or reduces the credit limit applicable to a home equity plan pursuant to §226.5b(f)(3)(i) or §226.5b(f)(3)(vi), the creditor shall mail or deliver written notice of the action to each consumer who will be affected. The notice must be provided not later than three business days after the action is taken and shall contain specific reasons for the action. If the creditor requires the consumer to request reinstatement of credit privileges, the notice also shall state that fact.

(d) Finance charge imposed at time of transaction.

(1) Any person, other than the card issuer, who imposes a finance charge at the time of honoring a consumer’s credit card, shall disclose the amount of that finance charge prior to its imposition.

(2) The card issuer, if other than the person honoring the consumer’s credit card, shall have no responsibility for the disclosure required by paragraph (d)(1) of this section, and shall not consider any such charge for purposes of §§226.5a, 226.6 and 226.7.

(e) Disclosures upon renewal of credit or charge card—

(1) Notice prior to renewal. Except as provided in paragraph (e)(2) of this section, a card issuer that imposes any annual or other periodic
fee to renew a credit or charge card account of the type subject to §226.5a, including any fee based on account activity or inactivity, shall mail or deliver written notice of the renewal to the cardholder. The notice shall be provided at least 30 days or one billing cycle, whichever is less, before the mailing or the delivery of the periodic statement on which the renewal fee is initially charged to the account. The notice shall contain the following information:

(i) The disclosures contained in §226.5a(b) (1) through (7) that would apply if the account were renewed;\footnote{These disclosures need not be provided in tabular format or in a prominent location.} and

(ii) How and when the cardholder may terminate credit availability under the account to avoid paying the renewal fee.

(2) Delayed notice. The disclosures required by paragraph (e)(1) of this section may be provided later than the time in paragraph (e)(1) of this section, but no later than the mailing or the delivery of the periodic statement on which the renewal fee is initially charged to the account, if the card issuer also discloses at that time that:

(i) The cardholder has 30 days from the time the periodic statement is mailed or delivered to avoid paying the fee or to have the fee recredited if the cardholder terminates credit availability under the account; and

(ii) The cardholder may use the card during the interim period without having to pay the fee.

(3) Notification on periodic statements. The disclosures required by this paragraph may be made on or with a periodic statement. If any of the disclosures are provided on the back of a periodic statement, the card issuer shall include a reference to those disclosures on the front of the statement.

(f) Change in credit card account insurance provided—(1) Notice prior to change. If a credit card issuer plans to change the provider of insurance for repayment of all or part of the outstanding balance of an open-end credit card account of the type subject to §226.5a, the card issuer shall mail or deliver the cardholder written notice of the change not less than 30 days before the change in providers occurs. The notice shall also include the following items, to the extent applicable:

(i) Any increase in the rate that will result from the change;

(ii) Any substantial decrease in coverage that will result from the change; and

(iii) A statement that the cardholder may discontinue the insurance.

(2) Notice when change in provider occurs. If a change described in paragraph (f)(1) of this section occurs, the card issuer shall provide the cardholder with a written notice no later than 30 days after the change, including the following items, to the extent applicable:

(i) The name and address of the new insurance provider;

(ii) A copy of the new policy or group certificate containing the basic terms of the insurance, including the rate to be charged; and

(iii) A statement that the cardholder may discontinue the insurance.

(3) Substantial decrease in coverage. For purposes of this paragraph, a substantial decrease in coverage is a decrease in a significant term of coverage that might reasonably be expected to affect the cardholder’s decision to continue the insurance. Significant terms of coverage include, for example, the following:

(i) Type of coverage provided;

(ii) Age at which coverage terminates or becomes more restrictive;

(iii) Maximum insurable loan balance, maximum periodic benefit payment, maximum number of payments, or other term affecting the dollar amount of coverage or benefits provided;

(iv) Eligibility requirements and number and identity of persons covered;

(v) Definition of a key term of coverage such as disability;

(vi) Exclusions from or limitations on coverage; and

(vii) Waiting periods and whether coverage is retroactive.

(4) Combined notification. The notices required by paragraph (f) (1) and (2) of this section may be combined provided the timing requirement of paragraph (f)(1) of this section is met. The notices
may be provided on or with a periodic statement.

§ 226.12 Special credit card provisions.

(a) Issuance of credit cards. Regardless of the purpose for which a credit card is to be used, including business, commercial, or agricultural use, no credit card shall be issued to any person except:

(1) In response to an oral or written request or application for the card; or

(2) As a renewal of, or substitute for, an accepted credit card.\(^{21}\)

(b) Liability of cardholder for unauthorized use—(1) Limitation on amount. The liability of a cardholder for unauthorized use\(^{22}\) of a credit card shall not exceed the lesser of $50 or the amount of money, property, labor, or services obtained by the unauthorized use before notification to the card issuer under paragraph (b)(3) of this section.

(2) Conditions of liability. A cardholder shall be liable for unauthorized use of a credit card only if:

(i) The credit card is an accepted credit card;

(ii) The card issuer has provided adequate notice\(^{23}\) of the cardholder’s maximum potential liability and of means by which the card issuer may be notified of loss or theft of the card. The notice shall state that the cardholder’s liability shall not exceed $50 (or any lesser amount) and that the cardholder may give oral or written notification,

\(^{21}\)For purposes of this section, accepted credit card means any credit card that a cardholder has requested or applied for and received, or has signed, used, or authorized another person to use to obtain credit. Any credit card issued as a renewal or substitute in accordance with this paragraph becomes an accepted credit card when received by the cardholder.

\(^{22}\)Unauthorized use means the use of a credit card by a person, other than the cardholder, who does not have actual, implied, or apparent authority for such use, and from which the cardholder receives no benefit.

\(^{23}\)Adequate notice means a printed notice to a cardholder that sets forth clearly the pertinent facts so that the cardholder may reasonably be expected to have noticed it and understood its meaning. The notice may be given by any means reasonably assuring receipt by the cardholder.
§ 226.12 Right of cardholder to assert claims or defenses against card issuer

and shall describe a means of notification (for example, a telephone number, an address, or both); and

(iii) The card issuer has provided a means to identify the cardholder on the account or the authorized user of the card.

(3) Notification to card issuer. Notification to a card issuer is given when steps have been taken as may be reasonably required in the ordinary course of business to provide the card issuer with the pertinent information about the loss, theft, or possible unauthorized use of a credit card, regardless of whether any particular officer, employee, or agent of the card issuer does, in fact, receive the information. Notification may be given, at the option of the person giving it, in person, by telephone, or in writing. Notification in writing is considered given at the time of receipt or, whether or not received, at the expiration of the time ordinarily required for transmission, whichever is earlier.

(4) Effect of other applicable law or agreement. If state law or an agreement between a cardholder and the card issuer imposes lesser liability than that provided in this paragraph, the lesser liability shall govern.

(5) Business use of credit cards. If 10 or more credit cards are issued by one card issuer for use by the employees of an organization, this section does not prohibit the card issuer and the organization from agreeing to liability for unauthorized use without regard to this section. However, liability for unauthorized use may be imposed on an employee of the organization, by either the card issuer or the organization, only in accordance with this section.

(c) Right of cardholder to assert claims or defenses against card issuer. (1) General rule. When a person who honors a credit card fails to resolve satisfactorily a dispute as to property or services purchased with the credit card in a consumer credit transaction, the cardholder may assert against the card issuer all claims (other than tort claims) and defenses arising out of the transaction and relating to the failure to resolve the dispute. The cardholder may withhold payment up to the amount of credit outstanding for the property or services that gave rise to the dispute and any finance or other charges imposed on that amount.25

(2) Adverse credit reports prohibited. If, in accordance with paragraph (c)(1) of this section, the cardholder withholds payment of the amount of credit outstanding for the disputed transaction, the card issuer shall not report that amount as delinquent until the dispute is settled or judgment is rendered.

(3) Limitations. The rights stated in paragraphs (c)(1) and (2) of this section apply only if:

(i) The cardholder has made a good faith attempt to resolve the dispute with the person honoring the credit card; and

(ii) The amount of credit extended to obtain the property or services that result in the assertion of the claim or defense by the cardholder exceeds $50, and the disputed transaction occurred in the same state as the cardholder’s current designated address or, if not within the same state, within 100 miles from that address.26

25 The amount of the claim or defense that the cardholder may assert shall not exceed the amount of credit outstanding for the disputed transaction at the time the cardholder first notifies the card issuer or the person honoring the credit card of the existence of the claim or defense. To determine the amount of credit outstanding for purposes of this section, payments and other credits shall be applied to: (1) Late charges in the order of entry to the account; then to (2) finance charges in the order of entry to the account; and then to (3) any other debits in the order of entry to the account. If more than one item is included in a single extension of credit, credits are to be distributed pro rata according to prices and applicable taxes.

26 The limitations stated in paragraph (c)(3)(ii) of this section shall not apply when the person honoring the credit card: (1) Is the same person as the card issuer; (2) is controlled by the card issuer directly or indirectly; (3) is under the direct or indirect control of a third person that also directly or indirectly controls the card issuer; (4) controls the card issuer directly or indirectly; (5) is a franchised dealer in the card issuer’s products or services; or (6) has obtained the order for the disputed transaction through a mail solicitation made or participated in by the card issuer.
(d) Offsets by card issuer prohibited. (1) A card issuer may not take any action, either before or after termination of credit card privileges, to offset a cardholder’s indebtedness arising from a consumer credit transaction under the relevant credit card plan against funds of the cardholder held on deposit with the card issuer.

(2) This paragraph does not alter or affect the right of a card issuer acting under state or Federal law to do any of the following with regard to funds of a cardholder held on deposit with the card issuer if the same procedure is constitutionally available to creditors generally: obtain or enforce a consensual security interest in the funds; attach or otherwise levy upon the funds; or obtain or enforce a court order relating to the funds.

(3) This paragraph does not prohibit a plan, if authorized in writing by the cardholder, under which the card issuer may periodically deduct all or part of the cardholder’s credit card debt from a deposit account held with the card issuer (subject to the limitations in § 226.13(d)(1)).

(e) Prompt notification of returns and crediting of refunds. (1) When a creditor other than the card issuer accepts the return of property or forgives a debt for services that is to be reflected as a credit to the consumer’s credit card account, that creditor shall, within 7 business days from accepting the return or forgiving the debt, transmit a credit statement to the card issuer through the card issuer’s normal channels for credit statements.

(2) The card issuer shall, within 3 business days from receipt of a credit statement, credit the consumer’s account with the amount of the refund.

(3) If a creditor other than a card issuer routinely gives cash refunds to consumers paying in cash, the creditor shall also give credit or cash refunds to consumers using credit cards, unless it discloses at the time the transaction is consummated that credit or cash refunds for returns are not given. This section does not require refunds for returns nor does it prohibit refunds in kind.

(f) Discounts; tie-in arrangements. No card issuer may, by contract or otherwise:

(1) Prohibit any person who honors a credit card from offering a discount to a consumer to induce the consumer to pay by cash, check, or similar means rather than by use of a credit card or its underlying account for the purchase of property or services; or

(2) Require any person who honors the card issuer’s credit card to open or maintain any account or obtain any other service not essential to the operation of the credit card plan from the card issuer or any other person, as a condition of participation in a credit card plan. If maintenance of an account for clearing purposes is determined to be essential to the operation of the credit card plan, it may be required only if no service charges or minimum balance requirements are imposed.

(g) Relation to Electronic Fund Transfer Act and Regulation E. For guidance on whether Regulation Z (12 CFR part 226) or Regulation E (12 CFR part 205) applies in instances involving both credit and electronic fund transfer aspects, refer to Regulation E, 12 CFR 205.12(a) regarding issuance and liability for unauthorized use. On matters other than issuance and liability, this section applies to the credit aspects of combined credit/electronic fund transfer transactions, as applicable.

that is not identified in accordance with the requirements of §§226.7(b) and 226.8.

(3) A reflection on or with a periodic statement of an extension of credit for property or services not accepted by the consumer or the consumer’s designee, or not delivered to the consumer or the consumer’s designee as agreed.

(4) A reflection on a periodic statement of the creditor’s failure to credit properly a payment or other credit issued to the consumer’s account.

(5) A reflection on a periodic statement of a computational or similar error of an accounting nature that is made by the creditor.

(6) A reflection on a periodic statement of an extension of credit for which the consumer requests additional clarification, including documentary evidence.

(7) The creditor’s failure to mail or deliver a periodic statement to the consumer’s last known address if that address was received by the creditor, in writing, at least 20 days before the end of the billing cycle for which the statement was required.

(b) Billing error notice. A billing error notice is a written notice from a consumer that:

(1) Is received by a creditor at the address disclosed under §226.7(k) no later than 60 days after the creditor transmitted the first periodic statement that reflects the alleged billing error;

(2) Enables the creditor to identify the consumer’s name and account number; and

(3) To the extent possible, indicates the consumer’s belief and the reasons for the belief that a billing error exists, and the type, date, and amount of the error.

(c) Time for resolution; general procedures. (1) The creditor shall mail or deliver written acknowledgment to the consumer within 30 days of receiving a billing error notice, unless the creditor has complied with the appropriate resolution procedures of paragraphs (e) and (f) of this section, as applicable, within the 30-day period; and

(2) The creditor shall comply with the appropriate resolution procedures of paragraphs (e) and (f) of this section, as applicable, within 2 complete billing cycles (but in no event later than 90 days) after receiving a billing error notice.

(d) Rules pending resolution. Until a billing error is resolved under paragraph (e) or (f) of this section, the following rules apply:

(1) Consumer’s right to withhold disputed amount; collection action prohibited. The consumer need not pay (and the creditor may not try to collect) any portion of any required payment that the consumer believes is related to the disputed amount (including related finance or other charges). If the cardholder maintains a deposit account with the card issuer and has agreed to pay the credit card indebtedness by periodic deductions from the cardholder’s deposit account, the card issuer shall not deduct any part of the disputed amount or related finance or other charges if a billing error notice is received any time up to 3 business days before the scheduled payment date.

(2) Adverse credit reports prohibited. The creditor or its agent shall not (directly or indirectly) make or threaten to make an adverse report to any person about the consumer’s credit standing, or report that an amount or account is delinquent, because the consumer failed to pay the disputed amount or related finance or other charges.

Note: 30A creditor is not prohibited from taking action to collect any undisputed portion of the item or bill; from deducting any disputed amount and related finance or other charges from the consumer’s credit limit on the account; or from reflecting a disputed amount and related finance or other charges on a periodic statement, provided that the creditor indicates on or with the periodic statement that payment of any disputed amount and related finance or other charges is not required pending the creditor’s compliance with this section.
(e) Procedures if billing error occurred as asserted. If a creditor determines that a billing error occurred as asserted, it shall within the time limits in paragraph (c)(2) of this section:

1. Correct the billing error and credit the consumer’s account with any disputed amount and related finance or other charges, as applicable; and
2. Mail or deliver a correction notice to the consumer.

(f) Procedures if different billing error or no billing error occurred. If, after conducting a reasonable investigation, a creditor determines that no billing error occurred or that a different billing error occurred from that asserted, the creditor shall within the time limits in paragraph (c)(2) of this section:

1. Mail or deliver to the consumer an explanation that sets forth the reasons for the creditor’s belief that the billing error alleged by the consumer is incorrect in whole or in part;
2. Furnish copies of documentary evidence of the consumer’s indebtedness, if the consumer so requests; and
3. If a different billing error occurred, correct the billing error and credit the consumer’s account with any disputed amount and related finance or other charges, as applicable.

(g) Creditor’s rights and duties after resolution. If a creditor, after complying with all of the requirements of this section, determines that a consumer owes all or part of the disputed amount and related finance or other charges, the creditor:

1. Shall promptly notify the consumer in writing of the time when payment is due and the portion of the disputed amount and related finance or other charges that the consumer still owes;
2. Shall allow any time period disclosed under §§226.6(a)(1) and 226.7(j), during which the consumer can pay the amount due under paragraph (g)(1) of this section without incurring additional finance or other charges;
3. May report an account or amount as delinquent because the amount due under paragraph (g)(1) of this section remains unpaid after the creditor has allowed any time period disclosed under §§226.6(a)(1) and 226.7(j) or 10 days (whichever is longer) during which the consumer can pay the amount; but
4. May not report that an amount or account is delinquent because the amount due under paragraph (g)(1) of the section remains unpaid, if the creditor receives (within the time allowed for payment in paragraph (g)(3) of this section) further written notice from the consumer that any portion of the billing error is still in dispute, unless the creditor also:
   i. Promptly reports that the amount or account is in dispute;
   ii. Mails or delivers to the consumer (at the same time the report is made) a written notice of the name and address of each person to whom the creditor makes a report; and
   iii. Promptly reports any subsequent resolution of the reported delinquency to all persons to whom the creditor has made a report.

(h) Reassertion of billing error. A creditor that has fully complied with the requirements of this section has no further responsibilities under this section (other than as provided in paragraph (g)(4) of this section) if a consumer reasserts substantially the same billing error.

(i) Relation to Electronic Fund Transfer Act and Regulation E. If an extension of credit is incident to an electronic fund transfer, under an agreement between a consumer and a financial institution to extend credit when the consumer’s account is overdrawn or to maintain a specified minimum balance in the consumer’s account, the creditor shall comply with the requirements of Regulation E, 12 CFR 205.11 governing error resolution rather than those of paragraphs (a), (b), (c), (e), (f), and (h) of this section.

31If a consumer submits a billing error notice alleging either the nondelivery of property or services under paragraph (a)(3) of this section or that information appearing on a periodic statement is incorrect because a person honoring the consumer’s credit card has made an incorrect report to the card issuer, the creditor shall not deny the assertion unless it conducts a reasonable investigation and determines that the property or services were actually delivered, mailed, or sent as agreed or that the information was correct.
§ 226.14 Determination of annual percentage rate.

(a) General rule. The annual percentage rate is a measure of the cost of credit, expressed as a yearly rate. An annual percentage rate shall be considered accurate if it is not more than 1/8 of 1 percentage point above or below the annual percentage rate determined in accordance with this section.

(b) Annual percentage rate for §§ 226.5a and 226.5b disclosures, for initial disclosures and for advertising purposes. Where one or more periodic rates may be used to compute the finance charge, the annual percentage rate(s) to be disclosed for purposes of §§ 226.5a, 226.5b, 226.6, and 226.16 shall be computed by multiplying each periodic rate by the number of periods in a year.

(c) Annual percentage rate for periodic statements. The annual percentage rate(s) to be disclosed for purposes of § 226.7(d) shall be computed by multiplying each periodic rate by the number of periods in a year and, for purposes of § 226.7(g), shall be determined as follows:

(1) If the finance charge is determined solely by applying one or more periodic rates, at the creditor’s option, either:

(i) By multiplying each periodic rate by the number of periods in a year; or

(ii) By dividing the total finance charge for the billing cycle by the sum of the balances to which the periodic rates were applied and multiplying the quotient (expressed as a percentage) by the number of billing cycles in a year.

(2) If the finance charge imposed during the billing cycle is or includes a charge relating to a specific transaction during the billing cycle (even if the total finance charge also includes any other minimum, fixed, or other charge not due to the application of a periodic rate), by dividing the total finance charge imposed during the billing cycle by the total of all balances and other amounts on which a finance charge was imposed during the billing cycle without duplication, and multiplying the quotient (expressed as a percentage) by the number of billing cycles in a year, except that the annual percentage rate shall not be less than the largest rate determined by multiplying each periodic rate imposed during the billing cycle by the number of periods in a year.

(3) If the finance charge imposed during the billing cycle is or includes a minimum, fixed, or other charge not due to the application of a periodic rate, by dividing the total finance charge imposed during the billing cycle does not exceed 50 cents for a monthly or longer billing cycle, or the pro rata part of 50 cents for a billing cycle shorter than monthly, at the creditor’s option, by multiplying each applicable periodic rate by the number of periods in a year, notwithstanding the provisions of paragraphs (c)(2) and (3) of this section.

(d) Calculations where daily periodic rate applied. If the provisions of paragraph (c)(1)(ii) or (2) of this section apply and all or a portion of the finance charge is determined by the application of one or more daily periodic rates, the amount of the balance(s) to which it is applicable and the quotient (expressed as a percentage) by the number of billing cycles in a year.

31 An error in disclosure of the annual percentage rate or finance charge shall not, in itself, be considered a violation of this regulation if: (1) The error resulted from a corresponding error in a calculation tool used in good faith by the creditor; and (2) upon discovery of the error, the creditor promptly discontinues use of that calculation tool for disclosure purposes, and notifies the Board in writing of the error in the calculation tool.

32 If there is no balance to which the finance charge is applicable, an annual percentage rate cannot be determined under this section.

33 Where the finance charge imposed during the billing cycle is or includes a loan fee, points, or similar charge that relates to the opening of the account, the amount of such charge shall not be included in the calculation of the annual percentage rate.

34 See appendix F regarding determination of the denominator of the fraction under this paragraph.

35 See footnote 33.
The term *material disclosures* means the information that must be provided to satisfy the requirements in §226.6 with regard to the method of determining the finance charge and the balance upon which a finance charge will be imposed, the annual percentage rate, the amount or method of determining the amount of any membership or participation fee that may be imposed as part of the plan, and the payment information described in §226.5b(d)(5)(i) and (ii) that is required under §226.6(e)(2).

36The term *material disclosures* means the information that must be provided to satisfy the requirements in §226.6 with regard to the method of determining the finance charge and the balance upon which a finance charge will be imposed, the annual percentage rate, the amount or method of determining the amount of any membership or participation fee that may be imposed as part of the plan, and the payment information described in §226.5b(d)(5)(i) and (ii) that is required under §226.6(e)(2).
§ 226.15

12 CFR Ch. II (1–1–09 Edition)

satisfied that the consumer has not rescinded. A creditor does not violate this section if a third party with no knowledge of the event activating the rescission right does not delay in providing materials or services, as long as the debt incurred for those materials or services is not secured by the property subject to rescission.

(d) Effects of rescission. (1) When a consumer rescinds a transaction, the security interest giving rise to the right of rescission becomes void, and the consumer shall not be liable for any amount, including any finance charge.

(2) Within 20 calendar days after receipt of a notice of rescission, the creditor shall return any money or property that has been given to anyone in connection with the transaction and shall take any action necessary to reflect the termination of the security interest.

(3) If the creditor has delivered any money or property, the consumer may retain possession until the creditor has met its obligation under paragraph (d)(2) of this section. When the creditor has complied with that paragraph, the consumer shall tender the money or property to the creditor or, where the latter would be impracticable or inequitable, tender its reasonable value. At the consumer’s option, tender of property may be made at the location of the property or at the consumer’s residence. Tender of money must be made at the creditor’s designated place of business. If the creditor does not take possession of the money or property within 20 calendar days after the consumer’s tender, the consumer may keep it without further obligation.

(4) The procedures outlined in paragraphs (d)(2) and (3) of this section may be modified by court order.

(e) Consumer’s waiver of right to rescind. (1) The consumer may modify or waive the right to rescind if the consumer determines that the extension of credit is needed to meet a bona fide personal financial emergency. To modify or waive the right, the consumer shall give the creditor a dated written statement that describes the emergency, specifically modifies or waives the right to rescind, and bears the signature of all the consumers entitled to rescind. Printed forms for this purpose are prohibited, except as provided in paragraph (e)(2) of this section.

(2) The need of the consumer to obtain funds immediately shall be regarded as a bona fide personal financial emergency provided that the dwelling securing the extension of credit is located in an area declared during June through September 1993, pursuant to 42 U.S.C. 5170, to be a major disaster area because of severe storms and flooding in the Midwest. In this instance, creditors may use printed forms for the consumer to waive the right to rescind. This exemption to paragraph (e)(1) of this section shall expire one year from the date an area was declared a major disaster.

(3) The consumer’s need to obtain funds immediately shall be regarded as a bona fide personal financial emergency provided that the dwelling securing the extension of credit is located in an area declared during June through September 1994 to be a major disaster area, pursuant to 42 U.S.C. 5170, because of severe storms and flooding in the South. In this instance, creditors may use printed forms for the consumer to waive the right to rescind. This exemption to paragraph (e)(1) of this section shall expire one year from the date an area was declared a major disaster.

(4) The consumer’s need to obtain funds immediately shall be regarded as a bona fide personal financial emergency provided that the dwelling securing the extension of credit is located in an area declared during October 1994 to be a major disaster area, pursuant to 42 U.S.C. 5170, because of severe storms and flooding in Texas. In this instance, creditors may use printed

36a A list of the affected areas will be maintained by the Board.

36b A list of the affected areas will be maintained and published by the Board. Such areas now include parts of Alabama, Florida, and Georgia.

36c A list of the affected areas will be maintained and published by the Board. Such areas now include the following counties in Texas: Angelina, Austin, Bastrop, Brazos, Brazoria, Burleson, Chambers, Fayette, Fort Bend, Galveston, Grimes, Hardin, Harris, Houston, Jackson, Jasper, Jefferson, Lee, Liberty, Madison, Matagorda, Montgomery, Nacogdoches, Orange, Polk, San Augustine,
forms for the consumer to waive the right to rescind. This exemption to paragraph (e)(1) of this section shall expire one year from the date an area was declared a major disaster.

(f) Exempt transactions. The right to rescind does not apply to the following:
   (1) A residential mortgage transaction.
   (2) A credit plan in which a state agency is a creditor.

§ 226.16 Advertising.

(a) Actually available terms. If an advertisement for credit states specific credit terms, it shall state only those terms that actually are or will be arranged or offered by the creditor.

(b) Advertisement of terms that require additional disclosures. If any of the terms required to be disclosed under § 226.6 is set forth in an advertisement, the advertisement shall also clearly and conspicuously set forth the following:
   (1) Any minimum, fixed, transaction, activity or similar charge that could be imposed.
   (2) Any periodic rate that may be applied expressed as an annual percentage rate as determined under § 226.14(b).
      If the plan provides for a variable periodic rate, that fact shall be disclosed.
   (3) Any membership or participation fee that could be imposed.

(c) Catalogs or other multiple-page advertisements; electronic advertisements. (1) If a catalog or other multiple-page advertisement, or an electronic advertisement (such as an advertisement appearing on an Internet Web site), gives information in a table or schedule in sufficient detail to permit determination of the disclosures required by paragraph (b) of this section, it shall be considered a single advertisement if:
      (i) The table or schedule is clearly and conspicuously set forth; and
      (ii) Any statement of terms set forth in § 226.6 appearing anywhere else in the catalog or advertisement clearly refers to the page or location where the table or schedule begins.
   (2) A catalog or other multiple-page advertisement or an electronic advertisement (such as an advertisement appearing on an Internet Web site) complies with this paragraph if the table or schedule of terms includes all appropriate disclosures for a representative scale of amounts up to the level of the more commonly sold higher-priced property or services offered.

(d) Additional requirements for home equity plans—
   (1) Advertisement of terms that require additional disclosures. If any of the terms required to be disclosed under § 226.5(a) or (b) or the payment terms of the plan are set forth, affirmatively or negatively, in an advertisement for a home equity plan subject to the requirements of § 226.5b, the advertisement also shall clearly and conspicuously set forth the following:
      (i) Any loan fee that is a percentage of the credit limit under the plan and an estimate of any other fees imposed for opening the plan, stated as a single dollar amount or a reasonable range.
      (ii) Any periodic rate used to compute the finance charge, expressed as an annual percentage rate as determined under section § 226.14(b).
      (iii) The maximum annual percentage rate that may be imposed in a variable-rate plan.
   (2) Discounted and premium rates. If an advertisement states an initial annual percentage rate that is not based on the index and margin used to make later rate adjustments in a variable-rate plan, the advertisement also shall state the period of time such rate will be in effect, and, with equal prominence to the initial rate, a reasonably current annual percentage rate that would have been in effect using the index and margin.
   (3) Balloon payment. If an advertisement contains a statement about any minimum periodic payment, the advertisement also shall state, if applicable, that a balloon payment may result.

(4) Tax implications. An advertisement that states that any interest expense...
incurred under the home equity plan is or may be tax deductible may not be misleading in this regard.

(5) Misleading terms. An advertisement may not refer to a home equity plan as "free money" or contain a similarly misleading term.

EFFECTIVE DATE NOTE: At 73 FR 44599, July 9, 2008, § 226.16 was amended by revising paragraph (d)(2) through (d)(4), and adding new paragraphs (d)(6) and (e), effective Oct. 1, 2009. For the convenience of the user, the added and revised text is set forth as follows:

§ 226.16 Advertising.

* * * * *

(i) * *

* * * * *

(2) Discounted and premium rates. If an advertisement states an initial annual percentage rate that is not based on the index and margin used to make later rate adjustments in a variable-rate plan, the advertisement also shall state with equal prominence and in close proximity to the initial rate:

(i) The period of time such initial rate will be in effect; and

(ii) A reasonably current annual percentage rate that would have been in effect using the index and margin.

(3) Balloon payment. If an advertisement contains a statement of any minimum periodic payment and a balloon payment may result if only the minimum periodic payments are made, even if such a payment is uncertain or unlikely, the advertisement also shall state with equal prominence and in close proximity to the minimum periodic payment statement that a balloon payment may result, if applicable. A balloon payment results if paying the minimum periodic payments does not fully amortize the outstanding balance by a specified date or time, and the consumer is required to repay the entire outstanding balance at such time. If a balloon payment will occur when the consumer makes only the minimum payments required under the plan, an advertisement for such a program which contains any statement of any minimum periodic payment shall also state with equal prominence and in close proximity to the minimum periodic payment statement:

(i) That a balloon payment will result; and

(ii) The amount and timing of the balloon payment that will result if the consumer makes only the minimum payments for the maximum period of time that the consumer is permitted to make such payments.

(4) Tax implications. An advertisement that states that any interest expense incurred under the home-equity plan is or may be tax deductible may not be misleading in this regard. If an advertisement distributed in paper form or through the Internet (rather than by radio or television) is for a home-equity plan secured by the consumer’s principal dwelling, and the advertisement states that the advertised extension of credit may exceed the fair market value of the dwelling, the advertisement shall clearly and conspicuously state that:

(i) The interest on the portion of the credit extension that is greater than the fair market value of the dwelling is not tax deductible for Federal income tax purposes; and

(ii) The consumer should consult a tax adviser for further information regarding the deductibility of interest and charges.

* * * * *

(6) Promotional rates and payments—(i) Definitions. The following definitions apply for purposes of paragraph (d)(6) of this section:

(A) Promotional rate. The term "promotional rate" means, in a variable-rate plan, any annual percentage rate that is not based on the index and margin that will be used to make rate adjustments under the plan, if that rate is less than a reasonably current annual percentage rate that would be in effect under the index and margin that will be used to make rate adjustments under the plan.

(B) Promotional payment. The term "promotional payment" means—

(i) For a variable-rate plan, any minimum payment applicable for a promotional period that:

(A) Is not derived by applying the index and margin to the outstanding balance when such index and margin will be used to determine other minimum payments under the plan; and

(ii) Is less than other minimum payments under the plan derived by applying a reasonably current index and margin that will be used to determine the amount of such payments, given an assumed balance.

(2) For a plan other than a variable-rate plan, any minimum payment applicable for a promotional period if that payment is less than other payments required under the plan given an assumed balance.

(C) Promotional period. A "promotional period" means a period of time, less than the...
Federal Reserve System

§ 226.17 General disclosure requirements.

(a) Form of disclosures. (1) The creditor shall make the disclosures required by this subpart clearly and conspicuously in writing, in a form that the consumer may keep. The disclosures required by this subpart may be provided to the consumer in electronic form, subject to compliance with the consumer consent and other applicable provisions of the Electronic Signatures in Global and National Commerce Act (E-Sign Act) (15 U.S.C. 7001 et seq.). The disclosures required by §§226.17(g), 226.19(b), and 226.24 may be provided to the consumer in electronic form without regard to the consumer consent or other provisions of the E-Sign Act in the circumstancess set forth in those sections. The disclosures shall be grouped together, shall be segregated from everything else, and shall not contain any information not directly related to the disclosures required under §226.18. The itemization of the amount financed under §226.18(c)(1) must be separate from the other disclosures under that section.

(2) The terms finance charge and annual percentage rate, when required to be disclosed under §226.18 (d) and (e) together with a corresponding amount or percentage rate, shall be more conspicuous than any other disclosure, except the creditor’s identity under §226.18(a).

(b) Time of disclosures. The creditor shall make disclosures before consummation of the transaction. In certain residential mortgage transactions, special timing requirements are set forth in §226.19(a). In certain variable-rate transactions, special timing requirements for variable-rate disclosures are set forth in §226.19(b) and §226.19(c). In certain transactions involving mail or telephone orders or a series of sales, the timing of disclosures may be delayed in accordance with paragraphs (g) and (h) of this section.

(c) Basis of disclosures and use of estimates. (1) The disclosures shall reflect the terms of the legal obligation between the parties.

37The disclosures may include an acknowledgment of receipt, the date of the transaction, and the consumer’s name, address, and account number.

38The following disclosures may be made together with or separately from other required disclosures: the creditor’s identity under §226.18(a), the variable rate example under §226.18(f)(1)(iv), insurance or debt cancellation under §226.18(n), and certain security interest charges under §226.18(o).
§ 226.17

(2)(i) If any information necessary for an accurate disclosure is unknown to the creditor, the creditor shall make the disclosure based on the best information reasonably available at the time the disclosure is provided to the consumer, and shall state clearly that the disclosure is an estimate.

(ii) For a transaction in which a portion of the interest is determined on a per-diem basis and collected at consummation, any disclosure affected by the per-diem interest shall be considered accurate if the disclosure is based on the information known to the creditor at the time that the disclosure documents are prepared for consummation of the transaction.

(3) The creditor may disregard the effects of the following in making calculations and disclosures:

(i) That payments must be collected in whole cents.

(ii) That dates of scheduled payments and advances may be changed because the scheduled date is not a business day.

(iii) That months have different numbers of days.

(iv) The occurrence of leap year.

(4) In making calculations and disclosures, the creditor may disregard any irregularity in the first period that falls within the limits described below and any payment schedule irregularity that results from the irregular first period:

(i) For transactions in which the term is less than 1 year, a first period not more than 6 days shorter or 13 days longer than a regular period;

(ii) For transactions in which the term is at least 1 year and less than 10 years, a first period not more than 11 days shorter or 21 days longer than a regular period; and

(iii) For transactions in which the term is at least 10 years, a first period shorter than or not more than 32 days longer than a regular period.

(5) If an obligation is payable on demand, the creditor shall make the disclosures based on an assumed maturity of 1 year. If an alternate maturity date is stated in the legal obligation between the parties, the disclosures shall be based on that date.

(6)(i) A series of advances under an agreement to extend credit up to a certain amount may be considered as one transaction.

(ii) When a multiple-advance loan to finance the construction of a dwelling may be permanently financed by the same creditor, the construction phase and the permanent phase may be treated as either one transaction or more than one transaction.

(d) Multiple creditors; multiple consumers. If a transaction involves more than one creditor, only one set of disclosures shall be given and the creditors shall agree among themselves which creditor must comply with the requirements that this regulation imposes on any or all of them. If there is more than one consumer, the disclosures may be made to any consumer who has the right to rescind.

(e) Effect of subsequent events. If a disclosure becomes inaccurate because of an event that occurs after the creditor delivers the required disclosures, the inaccuracy is not a violation of this regulation, although new disclosures may be required under paragraph (f) of this section, § 226.19, or § 226.20.

(f) Early disclosures. If disclosures required by this subpart are given before the date of consummation of a transaction and a subsequent event makes them inaccurate, the creditor shall disclose before consummation:

(1) Any changed term unless the term was based on an estimate in accordance with § 226.17(c)(2) and was labelled an estimate;

(2) All changed terms, if the annual percentage rate at the time of consummation varies from the annual percentage rate disclosed earlier by more than 1⁄8 of 1 percentage point in a regular transaction, or more than 1⁄4 of 1 percentage point in an irregular transaction, as defined in § 226.22(a).

(g) Mail or telephone orders—delay in disclosures. If a creditor receives a purchase order or a request for an extension of credit by mail, telephone, or
facsimile machine without face-to-face or direct telephone solicitation, the creditor may delay the disclosures until the due date of the first payment, if the following information for representative amounts or ranges of credit is made available in written form or in electronic form to the consumer or to the public before the actual purchase order or request:

(1) The cash price or the principal loan amount.
(2) The total sale price.
(3) The finance charge.
(4) The annual percentage rate, and if the rate may increase after consummation, the following disclosures:
   (i) The circumstances under which the rate may increase.
   (ii) Any limitations on the increase.
   (iii) The effect of an increase.
(5) The terms of repayment.

(h) Series of sales—delay in disclosures. If a credit sale is one of a series made under an agreement providing that subsequent sales may be added to an outstanding balance, the creditor may delay the required disclosures until the due date of the first payment for the current sale, if the following two conditions are met:

(1) The consumer has approved in writing the annual percentage rate or rates, the range of balances to which they apply, and the method of treating any unearned finance charge on an existing balance.
(2) The creditor retains no security interest in any property after the creditor has received payments equal to the cash price and any finance charge attributable to the sale of that property.

For purposes of this provision, in the case of items purchased on different dates, the first purchased is deemed the first item paid for; in the case of items purchased on the same date, the lowest priced is deemed the first item paid for.

(i) Interim student credit extensions. For each transaction involving an interim credit extension under a student credit program, the creditor need not make the following disclosures: the finance charge under §226.18(d), the payment schedule under §226.18(g), the total of payments under §226.18(h), or the total sale price under §226.18(j).

EFFECTIVE DATE NOTE: At 73 FR 44600, July 30, 2008, §226.17 was amended by revising paragraphs (b) and (f), effective Oct. 1, 2009. For the convenience of the user, the revised text is set forth as follows:

§ 226.17 General disclosure requirements.

* * * * *

(b) Time of disclosures. The creditor shall make disclosures before consummation of the transaction. In certain mortgage transactions, special timing requirements are set forth in §226.19(a). In certain variable-rate transactions, special timing requirements for variable-rate disclosures are set forth in §226.19(b) and §226.20(c). In certain transactions involving mail or telephone orders or a series of sales, the timing of the disclosures may be delayed in accordance with paragraphs (g) and (h) of this section.

* * * * *

§ 226.18 Content of disclosures.

For each transaction, the creditor shall disclose the following information as applicable:

(a) Creditor. The identity of the creditor making the disclosures.

(b) Amount financed. The amount financed, using that term, and a brief description such as the amount of credit provided to you or on your behalf. The amount financed is calculated by:

(1) Determining the principal loan amount or the cash price (subtracting any downpayment); and

(2) Adding any other amounts that are financed by the creditor and are not part of the finance charge; and

[Reserved]
§ 226.18

(3) Subtracting any prepaid finance charge.

(c) Itemization of amount financed. (1) A separate written itemization of the amount financed, including:40

(i) The amount of any proceeds distributed directly to the consumer.

(ii) The amount credited to the consumer’s account with the creditor.

(iii) Any amounts paid to other persons by the creditor on the consumer’s behalf. The creditor shall identify those persons.41

(iv) The prepaid finance charge.

(2) The creditor need not comply with paragraph (c)(1) of this section if the creditor provides a statement that the consumer has the right to receive a written itemization of the amount financed, together with a space for the consumer to indicate whether it is desired, and the consumer does not request it.

(d) Finance charge. The finance charge, using that term, and a brief description such as “the dollar amount the credit will cost you.”

(1) Mortgage loans. In a transaction secured by real property or a dwelling, the disclosed finance charge and other disclosures affected by the disclosed finance charge (including the amount financed and the annual percentage rate) shall be treated as accurate if the amount disclosed as the finance charge:

(i) Is understated by no more than $100; or

(ii) Is greater than the amount required to be disclosed.

(2) Other credit. In any other transaction, the amount disclosed as the finance charge shall be treated as accurate if, in a transaction involving an amount financed of $1,000 or less, it is not more than $5 above or below the amount required to be disclosed; or, in a transaction involving an amount financed of more than $1,000, it is not more than $10 above or below the amount required to be disclosed.

(e) Annual percentage rate. The annual percentage rate, using that term, and a brief description such as “the cost of your credit as a yearly rate.”42

(f) Variable rate. (1) If the annual percentage rate may increase after consummation in a transaction not secured by the consumer’s principal dwelling or in a transaction secured by the consumer’s principal dwelling with a term of one year or less, the following disclosures:43

(i) The circumstances under which the rate may increase.

(ii) Any limitations on the increase.

(iii) The effect of an increase.

(iv) An example of the payment terms that would result from an increase.

(2) If the annual percentage rate may increase after consummation in a transaction secured by the consumer’s principal dwelling with a term greater than one year, the following disclosures:

(i) The fact that the transaction contains a variable-rate feature.

(ii) A statement that variable-rate disclosures have been provided earlier.

(g) Payment schedule. The number, amounts, and timing of payments scheduled to repay the obligation.

(1) In a demand obligation with no alternate maturity date, the creditor may comply with this paragraph by disclosing the due dates or payment periods of any scheduled interest payments for the first year.

(2) In a transaction in which a series of payments varies because a finance charge is applied to the unpaid principal balance, the creditor may comply with this paragraph by disclosing the following information:

---

40 Good faith estimates of settlement costs provided for transactions subject to the Real Estate Settlement Procedures Act (12 U.S.C. 2601 et seq.) may be substituted for the disclosures required by paragraph (c) of this section.

41 The following payees may be described using generic or other general terms and need not be further identified: public officials or government agencies, credit reporting agencies, appraisers, and insurance companies.

42 For any transaction involving a finance charge of $5 or less on an amount financed of $75 or less, or a finance charge of $7.50 or less on an amount financed of more than $75, the creditor need not disclose the annual percentage rate.

43 Information provided in accordance with §§226.18(f)(2) and 226.19(b) may be substituted for the disclosures required by paragraph (f)(1) of this section.
(i) The dollar amounts of the largest and smallest payments in the series.

(ii) A reference to the variations in the other payments in the series.

(h) Total of payments. The total of payments, using that term, and a descriptive explanation such as “the amount you will have paid when you have made all scheduled payments.”

(i) Demand feature. If the obligation has a demand feature, that fact shall be disclosed. When the disclosures are based on an assumed maturity of 1 year as provided in §226.17(c)(5), that fact shall also be disclosed.

(j) Total sale price. In a credit sale, the total sale price, using that term, and a descriptive explanation (including the amount of any downpayment) such as “the total price of your purchase on credit, including your downpayment of” the total sale price is the sum of the cash price, the items described in paragraph (b)(2), and the finance charge disclosed under paragraph (d) of this section.

(k) Prepayment. (1) When an obligation includes a finance charge computed from time to time by application of a rate to the unpaid principal balance, a statement indicating whether or not a penalty may be imposed if the obligation is prepaid in full.

(2) When an obligation includes a finance charge other than the finance charge described in paragraph (k)(1) of this section, a statement indicating whether or not the consumer is entitled to a rebate of any finance charge if the obligation is prepaid in full.

(l) Late payment. Any dollar or percentage charge that may be imposed before maturity due to a late payment, other than a deferral or extension charge.

(m) Security interest. The fact that the creditor has or will acquire a security interest in the property purchased as part of the transaction, or in other property identified by item or type.

(n) Insurance and debt cancellation. The items required by §226.4(d) in order to exclude certain insurance premiums and debt cancellation fees from the finance charge.

(o) Certain security interest charges. The disclosures required by §226.4(e) in order to exclude from the finance charge certain fees prescribed by law or certain premiums for insurance in lieu of perfecting a security interest.

(p) Contract reference. A statement that the consumer should refer to the appropriate contract document for information about nonpayment, default, the right to accelerate the maturity of the obligation, and prepayment rebates and penalties. At the creditor’s option, the statement may also include a reference to the contract for further information about security interests and, in a residential mortgage transaction, about the creditor’s policy regarding assumption of the obligation.

(q) Assumption policy. In a residential mortgage transaction, a statement whether or not a subsequent purchaser of the dwelling from the consumer may be permitted to assume the remaining obligation on its original terms.

(r) Required deposit. If the creditor requires the consumer to maintain a deposit as a condition of the specific transaction, a statement that the annual percentage rate does not reflect the effect of the required deposit.45

§226.19 Certain residential mortgage and variable-rate transactions.

(a) Residential mortgage transactions subject to RESPA—(1) Time of disclosures. In a residential mortgage transaction subject to the Real Estate Settlement Procedures Act (12 U.S.C. 2601 et seq.) the creditor shall make good faith estimates of the disclosures required by §226.18 before consummation, or shall deliver or place them in the mail not later than three business days after the creditor receives the consumer’s written application, whichever is earlier.

(2) Redisclosure required. If the annual percentage rate at the time of consummation varies from the annual percentage rate disclosed earlier by more

45 A required deposit need not include, for example: (1) An escrow account for items such as taxes, insurance or repairs; (2) a deposit that earns not less than 5 percent per year; or (3) payments under a Morris Plan.
than 1/8 of 1 percentage point in a regular transaction or more than 1/4 of 1 percentage point in an irregular transaction, as defined in §226.22, the creditor shall disclose all the changed terms no later than consummation or settlement.

(b) Certain variable-rate transactions. If the annual percentage rate may increase after consummation in a transaction secured by the consumer's principal dwelling with a term greater than one year, the following disclosures must be provided at the time an application form is provided or before the consumer pays a non-refundable fee, whichever is earlier:

(1) The booklet titled Consumer Handbook on Adjustable Rate Mortgages published by the Board and the Federal Home Loan Bank Board, or a suitable substitute.

(2) A loan program disclosure for each variable-rate program in which the consumer expresses an interest. The following disclosures, as applicable, shall be provided:

(i) The fact that the interest rate, payment, or term of the loan can change.

(ii) The index or formula used in making adjustments, and a source of information about the index or formula.

(iii) An explanation of how the interest rate and payment will be determined, including an explanation of how the index is adjusted, such as by the addition of a margin.

(iv) A statement that the consumer should ask about the current margin value and current interest rate.

(v) The fact that the interest rate will be discounted, and a statement that the consumer should ask about the amount of the interest rate discount.

(vi) The frequency of interest rate and payment changes.

(vii) Any rules relating to changes in the index, interest rate, payment amount, and outstanding loan balance including, for example, an explanation of interest rate or payment limitations, negative amortization, and interest rate carryover.

(viii) At the option of the creditor, either of the following:

(A) A historical example, based on a $10,000 loan amount, illustrating how payments and the loan balance would have been affected by interest rate changes implemented according to the terms of the loan program disclosure. The example shall reflect the most recent 15 years of index values. The example shall reflect all significant loan program terms, such as negative amortization, interest rate carryover, interest rate discounts, and interest rate and payment limitations, that would have been affected by the index movement during the period.

(B) The maximum interest rate and payment for a $10,000 loan originated at the initial interest rate (index value plus margin, adjusted by the amount of any discount or premium) in effect as of an identified month and year for the loan program disclosure assuming the maximum periodic increases in rates and payments under the program; and the initial interest rate and payment for that loan and a statement that the periodic payment may increase or decrease substantially depending on changes in the rate.

(ix) An explanation of how the consumer may calculate the payments for the loan amount to be borrowed based on either:

(A) The most recent payment shown in the historical example in paragraph (b)(2)(viii)(A) of this section; or

(B) The initial interest rate used to calculate the maximum interest rate and payment in paragraph (b)(2)(viii)(B) of this section.

(x) The fact that the loan program contains a demand feature.

(xi) The type of information that will be provided in notices of adjustments and the timing of such notices.

(xii) A statement that disclosure forms are available for the creditor’s other variable-rate loan programs.
(c) Electronic disclosures. For an application that is accessed by the consumer in electronic form, the disclosures required by paragraph (b) of this section may be provided to the consumer in electronic form on or with the application.

Effective date note: At 73 FR 44600, July 30, 2008, §226.19 was amended by revising the heading and paragraph (a)(1), effective Oct. 1, 2009. For the convenience of the user, the revised text is set forth as follows:

§226.19 Certain mortgage and variable-rate transactions.

(a) Mortgage transactions subject to RESPA—

(1)(i) Time of disclosures. In a mortgage transaction subject to the Real Estate Settlement Procedures Act (12 U.S.C. 2601 et seq.) that is secured by the consumer’s principal dwelling, other than a home equity line of credit subject to §226.5b, the creditor shall make good faith estimates of the disclosures required by §226.18 before consummation, or shall deliver or place them in the mail not later than three business days after the creditor receives the consumer’s written application, whichever is earlier.

(ii) Imposition of fees. Except as provided in paragraph (a)(1)(iii) of this section, neither a creditor nor any other person may impose a fee on the consumer in connection with the consumer’s application for a mortgage transaction subject to paragraph (a)(1)(i) of this section before the consumer has received the disclosures required by §226.18 before consummation, or shall deliver or place them in the mail not later than three business days after the creditor receives the consumer’s written application, whichever is earlier.

(iii) Exception to fee restriction. A creditor or other person may impose a fee for obtaining the consumer’s credit history before the consumer has received the disclosures required by paragraph (a)(1)(i) of this section. If the disclosures are mailed to the consumer, the consumer is considered to have received them three business days after they are mailed.

(b) Assumptions. An assumption occurs when a creditor expressly agrees in writing with a subsequent consumer to accept that consumer as a primary obligor on an existing residential mortgage transaction. Before the assumption occurs, the creditor shall make new disclosures to the subsequent consumer, based on the remaining obligation. If the finance charge originally imposed on the existing obligation was an add-on or discount finance charge, the creditor need only disclose:

(1) The unpaid balance of the obligation assumed.

(2) The total charges imposed by the creditor in connection with the assumption.

(3) The information required to be disclosed under §226.18(k), (l), (m), and (n).

(4) The annual percentage rate originally imposed on the obligation.

(5) The payment schedule under §226.18(g) and the total of payments under §226.18(h) based on the remaining obligation.

§226.20 Subsequent disclosure requirements.

(a) Refinancings. A refinancing occurs when an existing obligation that was subject to this subpart is satisfied and replaced by a new obligation undertaken by the same consumer. A refinancing is a new transaction requiring new disclosures to the consumer. The new finance charge shall include any unearned portion of the old finance charge that is not credited to the existing obligation. The following shall not be treated as a refinancing:

(1) A renewal of a single payment obligation with no change in the original terms.

(2) A reduction in the annual percentage rate with a corresponding change in the payment schedule.

(3) An agreement involving a court proceeding.

(4) A change in the payment schedule or a change in collateral requirements as a result of the consumer’s default or delinquency, unless the rate is increased, or the new amount financed exceeds the unpaid balance plus earned finance charge and premiums for continuation of insurance of the types described in §226.14(d).

(5) The renewal of optional insurance purchased by the consumer and added to an existing transaction, if disclosures relating to the initial purchase were provided as required by this subpart.

VerDate Nov<24>2008 13:02 Mar 12, 2009 Jkt 217037 PO 00000 Frm 00397 Fmt 8010 Sfmt 8010 Y:\SGML\217037.XXX 217037cprice-sewell on PRODPC61 with CFR
§ 226.21 Treatment of credit balances.

When a credit balance in excess of $1 is created in connection with a transaction (through transmittal of funds to a creditor in excess of the total balance due on an account, through rebates of unearned finance charges or insurance premiums, or through amounts otherwise owed to or held for the benefit of a consumer), the creditor shall:

(a) Credit the amount of the credit balance to the consumer’s account;

(b) Refund any part of the remaining credit balance, upon the written request of the consumer; and

(c) Make a good faith effort to refund to the consumer by cash, check, or money order, or credit to a deposit ac-

46c Information provided in accordance with variable-rate subsequent disclosure regulations of other federal agencies may be substituted for the disclosure required by paragraph (c) of this section.

§ 226.22 Determination of annual percentage rate.

(a) Accuracy of annual percentage rate.

(1) The annual percentage rate is a measure of the cost of credit, expressed as a yearly rate, that relates the amount and timing of value received by the consumer to the amount and timing of payments made. The annual percentage rate shall be determined in accordance with either the actuarial method or the United States Rule method. Explanations, equations and instructions for determining the annual percentage rate in accordance with the actuarial method are set forth in appendix J to this regulation.45d

(2) As a general rule, the annual percentage rate shall be considered accurate if it is not more than 1⁄8 of 1 percentage point above or below the annual percentage rate determined in accordance with paragraph (a)(1) of this section.

(3) In an irregular transaction, the annual percentage rate shall be considered accurate if it is not more than 1⁄4 of 1 percentage point above or below the annual percentage rate determined in accordance with paragraph (a)(1) of this section.46

(4) Mortgage loans. If the annual percentage rate disclosed in a transaction secured by real property or a dwelling

An error in disclosure of the annual percentage rate or finance charge shall not, in itself, be considered a violation of this regulation if: (1) The error resulted from a corresponding error in a calculation tool used in good faith by the creditor; and (2) upon discovery of the error, the creditor promptly discontinues use of that calculation tool for disclosure purposes and notifies the Board in writing of the error in the calculation tool.

45d An error in disclosure of the annual percentage rate is one that includes one or more of the following features: multiple advances, irregular payment periods, or irregular payment amounts (other than an irregular first period or an irregular first or final payment).
varies from the actual rate determined in accordance with paragraph (a)(1) of this section, in addition to the tolerances applicable under paragraphs (a)(2) and (3) of this section, the disclosed annual percentage rate shall also be considered accurate if:

(i) The rate results from the disclosed finance charge; and

(ii) (A) The disclosed finance charge would be considered accurate under §226.18(d)(1); or

(B) For purposes of rescission, if the disclosed finance charge would be considered accurate under §226.23(g) or (h), whichever applies.

(5) Additional tolerance for mortgage loans. In a transaction secured by real property or a dwelling, in addition to the tolerances applicable under paragraphs (a)(2) and (3) of this section, if the disclosed finance charge is calculated incorrectly but is considered accurate under §226.18(d)(1) or §226.23(g) or (h), the disclosed annual percentage rate shall be considered accurate:

(i) If the disclosed finance charge is understated, and the disclosed annual percentage rate is also understated but it is closer to the actual annual percentage rate than the rate that would be considered accurate under paragraph (a)(4) of this section;

(ii) If the disclosed finance charge is overstated, and the disclosed annual percentage rate is also overstated but it is closer to the actual annual percentage rate than the rate that would be considered accurate under paragraph (a)(4) of this section.

(b) Computation tools. (1) The Regulation Z Annual Percentage Rate Tables produced by the Board may be used to determine the annual percentage rate, and any rate determined from those tables in accordance with the accompanying instructions complies with the requirements of this section. Volume I of the tables applies to single advance transactions involving up to 480 monthly payments or 104 weekly payments. It may be used for regular transactions and for transactions with any of the following irregularities: an irregular first period, an irregular first payment, and an irregular final payment. Volume II of the tables applies to transactions involving multiple advances and any type of payment or period irregularity.

(2) Creditors may use any other computation tool in determining the annual percentage rate if the rate so determined equals the rate determined in accordance with appendix J, within the degree of accuracy set forth in paragraph (a) of this section.

(c) Single add-on rate transactions. If a single add-on rate is applied to all transactions with maturities up to 60 months and all payments are equal in amount and period, a single annual percentage rate may be disclosed for all those transactions, so long as it is the highest annual percentage rate for any such transaction.

(d) Certain transactions involving ranges of balances. For purposes of disclosing the annual percentage rate referred to in §226.17(g)(4) (Mail or telephone orders—delay in disclosures) and (h) (Series of sales—delay in disclosures), if the same finance charge is imposed on all balances within a specified range of balances, the annual percentage rate computed for the median balance may be disclosed for all the balances. However, if the annual percentage rate computed for the median balance understates the annual percentage rate computed for the lowest balance by more than 8 percent of the latter rate, the annual percentage rate shall be computed on whatever lower balance will produce an annual percentage rate that does not result in an understatement of more than 8 percent of the rate determined on the lowest balance.

§226.23 Right of rescission.

(a) Consumer’s right to rescind. (1) In a credit transaction in which a security interest is or will be retained or acquired in a consumer’s principal dwelling, each consumer whose ownership interest is or will be subject to the security interest shall have the right to rescind the transaction, except for
transmissions described in paragraph (f) of this section.\footnote{For purposes of this section, the addition to an existing obligation of a security interest in a consumer’s principal dwelling is a transaction. The right of rescission applies only to the addition of the security interest and not the existing obligation. The creditor shall deliver the notice required by paragraph (b) of this section but need not deliver new material disclosures. Delivery of the required notice shall begin the rescission period.}

(2) To exercise the right to rescind, the consumer shall notify the creditor of the rescission by mail, telegram or other means of written communication. Notice is considered given when mailed, when filed for telegraphic transmission or, if sent by other means, when delivered to the creditor’s designated place of business.

(3) The consumer may exercise the right to rescind until midnight of the third business day following consummation, delivery of the notice required by paragraph (b) of this section, or delivery of all material disclosures,\footnote{The term “material disclosures” means the required disclosures of the annual percentage rate, the finance charge, the amount financed, the total payments, the payment schedule, and the disclosures and limitations referred to in §226.32 (c) and (d).} whichever occurs last. If the required notice or material disclosures are not delivered, the right to rescind shall expire 3 years after consummation, upon transfer of all of the consumer’s interest in the property, or upon sale of the property, whichever occurs first. In the case of certain administrative proceedings, the rescission period shall be extended in accordance with section 125(f) of the Act.

(4) When more than one consumer in a transaction has the right to rescind, the exercise of the right by one consumer shall be effective as to all consumers.

(b)(1) **Notice of right to rescind.** In a transaction subject to rescission, a creditor shall deliver two copies of the notice of the right to rescind to each consumer entitled to rescind (one copy to each if the notice is delivered in electronic form in accordance with the consumer consent and other applicable provisions of the E-Sign Act). The notice shall be on a separate document that identifies the transaction and shall clearly and conspicuously disclose the following:

(i) The retention or acquisition of a security interest in the consumer’s principal dwelling.

(ii) The consumer’s right to rescind the transaction.

(iii) How to exercise the right to rescind, with a form for that purpose, designating the address of the creditor’s place of business.

(iv) The effects of rescission, as described in paragraph (d) of this section.

(v) The date the rescission period expires.

(2) **Proper form of notice.** To satisfy the disclosure requirements of paragraph (b)(1) of this section, the creditor shall provide the appropriate model form in Appendix H of this part or a substantially similar notice.

(c) **Delay of creditor’s performance.** Unless a consumer waives the right of rescission under paragraph (e) of this section, no money shall be disbursed other than in escrow, no services shall be performed and no materials delivered until the rescission period has expired and the creditor is reasonably satisfied that the consumer has not rescinded.

(4) When a consumer rescinds a transaction, the security interest giving rise to the right of rescission becomes void and the consumer shall not be liable for any amount, including any finance charge.

(2) Within 20 calendar days after receipt of a notice of rescission, the creditor shall return any money or property that has been given to anyone in connection with the transaction and shall take any action necessary to reflect the termination of the security interest.

(3) If the creditor has delivered any money or property, the consumer may retain possession until the creditor has met its obligation under paragraph (d)(2) of this section. When the creditor has complied with that paragraph, the consumer shall tender the money or property to the creditor or, where the latter would be impracticable or inequitable, tender its reasonable value. At the consumer’s option, tender of property may be made at the location of the property or at the consumer’s...
A list of the affected areas will be maintained by the Board. Such areas now include parts of Alabama, Florida, and Georgia.

A list of the affected areas will be maintained and published by the Board. Such areas now include parts of Alabama, Florida, and Georgia.

48a. A list of the affected areas will be maintained by the Board.

48b. A list of the affected areas will be maintained and published by the Board. Such areas now include parts of Alabama, Florida, and Georgia.

48c. In this instance, creditors may use printed forms for the consumer to waive the right to rescind. This exemption to paragraph (e)(1) of this section shall expire one year from the date an area was declared a major disaster.

48d: A list of the affected areas will be maintained and published by the Board. Such areas now include parts of Alabama, Florida, and Georgia.

48e: A list of the affected areas will be maintained and published by the Board. Such areas now include parts of Alabama, Florida, and Georgia.

48f: A list of the affected areas will be maintained and published by the Board. Such areas now include parts of Alabama, Florida, and Georgia.
§ 226.24 Advertising.

(a) Actually available terms. If an advertisement for credit states specific credit terms, it shall state only those terms that actually are or will be arranged or offered by the creditor.

(b) Advertisement of rate of finance charge. If an advertisement states a rate of finance charge, it shall state the rate as an "annual percentage rate," using that term. If the annual percentage rate may be increased after consummation, the advertisement shall state that fact. The advertisement shall not state any other rate, except that a simple annual rate or periodic rate that is applied to an unpaid balance may be stated in conjunction with, but not more conspicuously than, the annual percentage rate.

(c) Advertisement of terms that require additional disclosures. (1) If any of the following terms is set forth in an advertisement, the advertisement shall meet the requirements of paragraph (c)(2) of this section:

(i) The amount or percentage of any downpayment.

(ii) The number of payments or period of repayment.

(iii) The amount of any payment.

(iv) The amount of any finance charge.

(2) An advertisement stating any of the terms in paragraph (c)(1) of this section shall state the following terms, as applicable:

49 An example of one or more typical extensions of credit with a statement of all the terms applicable to each may be used.

EFFECTIVE DATE NOTE: At 73 FR 44601, July 30, 2008, § 226.23 was amended by revising footnote 48 to paragraph (a)(3) to read "The term “material disclosures” means the required disclosures of the annual percentage rate, the finance charge, the amount financed, the total of payments, the payment schedule, and the disclosures and limitations referred to in §226.32(c) and (d) and 226.35(b)(2)". Effective Oct. 1, 2009.

§ 226.24 Advertising.

(a) Actually available terms. If an advertisement for credit states specific credit terms, it shall state only those terms that actually are or will be arranged or offered by the creditor.

(b) Advertisement of rate of finance charge. If an advertisement states a rate of finance charge, it shall state the rate as an “annual percentage rate,” using that term. If the annual percentage rate may be increased after consummation, the advertisement shall state that fact. The advertisement shall not state any other rate, except that a simple annual rate or periodic rate that is applied to an unpaid balance may be stated in conjunction with, but not more conspicuously than, the annual percentage rate.

(c) Advertisement of terms that require additional disclosures. (1) If any of the following terms is set forth in an advertisement, the advertisement shall meet the requirements of paragraph (c)(2) of this section:

(i) The amount or percentage of any downpayment.

(ii) The number of payments or period of repayment.

(iii) The amount of any payment.

(iv) The amount of any finance charge.

(2) An advertisement stating any of the terms in paragraph (c)(1) of this section shall state the following terms, as applicable:

49 An example of one or more typical extensions of credit with a statement of all the terms applicable to each may be used.
Federal Reserve System

§226.24 Advertising.

(i) The amount or percentage of the downpayment.

(ii) The terms of repayment.

(iii) The annual percentage rate, using that term, and, if the rate may be increased after consummation, that fact.

(d) Catalogs or other multiple-page advertisements; electronic advertisements—(1) If a catalog or other multiple-page advertisement, or an electronic advertisement (such as an advertisement appearing on an Internet Web site), gives information in a table or schedule in sufficient detail to permit determination of the disclosures required by paragraph (c)(2) of this section, it shall be considered a single advertisement if:

(1) The table or schedule is clearly and conspicuously set forth; and

(2) Any statement of terms of the credit terms in paragraph (c)(1) of this section appearing anywhere else in the catalog or advertisement clearly refers to the page or location where the table or schedule begins.

(2) A catalog or other multiple-page advertisement or an electronic advertisement (such as an advertisement appearing on an Internet Web site) complies with paragraph (c)(2) of this section if the table or schedule of terms includes all appropriate disclosures for a representative scale of amounts up to the level of the more commonly sold higher-priced property or services offered.

Effective date note: At 73 FR 44601, July 30, 2008, §226.24 was amended by redesignating paragraphs (b) through (d) as paragraphs (c) through (e), respectively, adding new paragraph (b), revising newly designated paragraphs (c) through (e), removing and reserving footnote 49, and adding new paragraphs (f) through (i), effective Oct. 1, 2009. For the convenience of the user, the added and revised text is set forth as follows:

§226.24 Advertising.

* * * * *

(b) Clear and conspicuous standard. Disclosures required by this section shall be made clearly and conspicuously.

(c) Advertisement of rate of finance charge. If an advertisement states a rate of finance charge, it shall state the rate as an “annual percentage rate,” using that term. If the annual percentage rate may be increased after consummation, the advertisement shall state that fact. If an advertisement is for credit not secured by a dwelling, the advertisement shall not state any other rate, except that a simple annual rate or periodic rate that is applied to an unpaid balance may be stated in conjunction with, but not more conspicuously than, the annual percentage rate. If an advertisement is for credit secured by a dwelling, the advertisement shall not state any other rate, except that a simple annual rate that is applied to an unpaid balance may be stated in conjunction with, but not more conspicuously than, the annual percentage rate.

(d) Advertisement of terms that require additional disclosures—(1) Triggering terms. If any of the following terms is set forth in an advertisement, the advertisement shall meet the requirements of paragraph (d)(2) of this section:

(i) The amount or percentage of any downpayment.

(ii) The number of payments or period of repayment.

(iii) The amount of any payment.

(iv) The amount of any finance charge.

(2) Additional terms. An advertisement stating any of the terms in paragraph (d)(1) of this section shall state the following terms, as applicable (an example of one or more typical extensions of credit with a statement of all the terms applicable to each may be used):

(i) The amount or percentage of the downpayment.

(ii) The terms of repayment, which reflect the repayment obligations over the full term of the loan, including any balloon payment.

(iii) The “annual percentage rate,” using that term, and, if the rate may be increased after consummation, that fact.

(e) Catalogs or other multiple-page advertisements; electronic advertisements—(1) If a catalog or other multiple-page advertisement, or an electronic advertisement (such as an advertisement appearing on an Internet Web site), gives information in a table or schedule in sufficient detail to permit determination of the disclosures required by paragraph (d)(2) of this section, it shall be considered a single advertisement if:

(i) The table or schedule is clearly and conspicuously set forth; and

(ii) Any statement of the credit terms in paragraph (d)(1) of this section appearing anywhere else in the catalog or advertisement clearly refers to the page or location where the table or schedule begins.

(2) A catalog or other multiple-page advertisement or an electronic advertisement

[49 Reserve]
In general.

If an advertisement for credit secured by a dwelling states the amount of any payment, the advertisement shall disclose in a clear and conspicuous manner:

(A) The amount of each payment that will apply over the term of the loan, including any balloon payment. In variable-rate transactions, payments that will be determined based on the application of the sum of an index and margin shall be disclosed based on a reasonably current index and margin;

(B) The period of time during which each payment will apply; and

(C) In an advertisement for credit secured by a first lien on a dwelling, the fact that the payments do not include amounts for taxes and insurance premiums, if applicable, and that the actual payment obligation will be greater.

(ii) Clear and conspicuous requirement. For purposes of paragraph (f)(3)(i) of this section, a clear and conspicuous disclosure means that the required information in paragraphs (f)(3)(i)(A) and (B) shall be disclosed with equal prominence and in close proximity to any advertised payment that triggered the required disclosures, and that the required information in paragraph (f)(3)(i)(C) shall be disclosed with prominence and in close proximity to the advertised payment.

(4) Envelope excluded. The requirements in paragraphs (f)(2) and (f)(3) of this section do not apply to an envelope in which an application or solicitation is mailed, or to a banner advertisement or pop-up advertisement linked to an application or solicitation provided electronically.

(g) Alternative disclosures—television or radio advertisements. An advertisement made through television or radio stating any of the terms requiring additional disclosures under paragraph (d)(2) of this section may comply with paragraph (d)(2) of this section either by:

(1) Stating clearly and conspicuously each of the additional disclosures required under paragraph (d)(2) of this section; or

(2) Stating clearly and conspicuously the information required by paragraph (d)(2)(iii) of this section and listing a toll-free telephone number, or any telephone number that allows a consumer to reverse the phone charges without incurring any additional cost information.

(h) Tax implications. If an advertisement distributed in paper form or through the Internet (rather than by radio or television) is for a loan secured by the consumer’s principal dwelling, and the advertisement states that the advertised extension of credit may exceed the fair market value of the dwelling, the advertisement shall clearly and conspicuously state that:

(1) The interest on the portion of the credit extension that is greater than the fair market value of the dwelling is not tax deductible for Federal income tax purposes; and

(2) The consumer should consult a tax advisor for further information regarding the deductibility of interest and charges.

(1) Prohibited acts or practices in advertisements for credit secured by a dwelling. The following acts or practices are prohibited in advertisements for credit secured by a dwelling:

(1) Misleading advertising of “fixed” rates and payments. Using the word “fixed” to refer to rates, payments, or the credit transaction in an advertisement for variable-rate transactions or other transactions where the payment will increase, unless:

(i) In the case of an advertisement solely for one or more variable-rate transactions, the phrase “Adjustable-Rate Mortgage,” “Variable-Rate Mortgage,” or “ARM” appears in the advertisement before the first use of the word “fixed” and is at least as
conspicuous as any use of the word “fixed” in the advertisement; and

(B) Each use of the word “fixed” to refer to a rate or payment is accompanied by an equally prominent and closely proximate statement of the time period for which the rate or payment is fixed, and the fact that the rate may vary or the payment may increase after that period;

(ii) In the case of an advertisement solely for non-variable-rate transactions where the payment will increase (e.g., a stepped-rate mortgage transaction with an initial lower payment), each use of the word “fixed” to refer to the payment is accompanied by an equally prominent and closely proximate statement of the time period for which the payment is fixed, and the fact that the payment will increase after that period; or

(iii) In the case of an advertisement for both variable-rate transactions and non-variable-rate transactions,

(A) The phrase “Adjustable-Rate Mortgage,” “Variable-Rate Mortgage,” or “ARM” appears in the advertisement with equal prominence as any use of the term “fixed,” “Fixed-Rate Mortgage,” or similar terms; and

(B) Each use of the word “fixed” to refer to a rate, payment, or the credit transaction either refers solely to the transactions for which rates are fixed and complies with paragraph (i)(1)(ii) of this section, if applicable, or, if it refers to the variable-rate transactions, is accompanied by an equally prominent and closely proximate statement of the time period for which the rate or payment is fixed, and the fact that the rate may vary or the payment may increase after that period.

(2) Misleading comparisons in advertisements. Making any comparison in an advertisement between actual or hypothetical credit payments or rates and any payment or simple annual rate that will be available under the advertised product for a period less than the full term of the loan, unless:

(i) In general. The advertisement includes a clear and conspicuous comparison to the information required to be disclosed under sections 226.24(e)(2) and (3); and

(ii) Application to variable-rate transactions. If the advertisement is for a variable-rate transaction, and the advertised payment or simple annual rate is based on the index and margin that will be used to make subsequent rate or payment adjustments over the term of the loan, the advertisement includes an equally prominent statement in close proximity to the payment or rate that the payment or rate is subject to adjustment and the time period when the first adjustment will occur.

(3) Misrepresentations about government endorsement. Making any statement in an advertisement that the product offered is a “government loan program”, “government-supported loan”, or is otherwise endorsed or sponsored by any federal, state, or local government entity, unless the advertisement is for an FHA loan, VA loan, or similar loan program that is, in fact, endorsed or sponsored by a federal, state, or local government entity.

(4) Misleading use of the current lender’s name. Using the name of the consumer’s current lender in an advertisement that is not sent by or on behalf of the consumer’s current lender, unless the advertisement:

(i) Discloses with equal prominence the name of the person or creditor making the advertisement; and

(ii) Includes a clear and conspicuous statement that the person making the advertisement is not associated with, or acting on behalf of, the consumer’s current lender.

(5) Misleading claims of debt elimination. Making any misleading claim in an advertisement that the mortgage product offered will eliminate debt or result in a waiver or forgiveness of a consumer’s existing loan to that creditor to, with, or obligations to, another creditor.

(6) Misleading use of the term “counselor”. Using the term “counselor” in an advertisement to refer to a for-profit mortgage broker or mortgage creditor, its employees, or persons working for the broker or creditor that are involved in offering, originating or selling mortgages.

(7) Misleading foreign-language advertisements. Providing information about some trigger terms or required disclosures, such as an initial rate or payment, only in a foreign language in an advertisement, but providing information about other trigger terms or required disclosures, such as information about the fully-indexed rate or fully amortizing payment, only in English in the same advertisement.

§ 226.25 Record retention.

(a) General rule. A creditor shall retain evidence of compliance with this regulation (other than advertising requirements under §§226.16 and 226.24) for 2 years after the date disclosures are required to be made or action is required to be taken. The administrative agencies responsible for enforcing the regulation may require creditors under their jurisdictions to retain records for a longer period if necessary to carry out their enforcement responsibilities under section 108 of the act.

(b) Inspection of records. A creditor shall permit the agency responsible for enforcing this regulation with respect to that creditor to inspect its relevant records for compliance.
§ 226.26 Use of annual percentage rate in oral disclosures.

(a) Open-end credit. In an oral response to a consumer’s inquiry about the cost of open-end credit, only the annual percentage rate or rates shall be stated, except that the periodic rate or rates also may be stated. If the annual percentage rate cannot be determined in advance because there are finance charges other than a periodic rate, the corresponding annual percentage rate shall be stated, and other cost information may be given.

(b) Closed-end credit. In an oral response to a consumer’s inquiry about the cost of closed-end credit, only the annual percentage rate shall be stated, except that a simple annual rate or periodic rate also may be stated if it is applied to an unpaid balance. If the annual percentage rate cannot be determined in advance, the annual percentage rate for a sample transaction shall be stated, and other cost information for the consumer’s specific transaction may be given.

§ 226.27 Language of disclosures.

Disclosures required by this regulation may be made in a language other than English, provided that the disclosures are made available in English upon the consumer’s request. This requirement for providing English disclosures on request does not apply to advertisements subject to §§226.16 and 226.24.

[66 FR 17339, Mar. 30, 2001]

§ 226.28 Effect on State laws.

(a) Inconsistent disclosure requirements. (1) Except as provided in paragraph (d) of this section, State law requirements that are inconsistent with the requirements contained in chapter 1 (General Provisions), chapter 2 (Credit Transactions), or chapter 3 (Credit Advertising) of the act and the implementing provisions of this regulation are preempted to the extent of the inconsistency. A State law is inconsistent if it requires a creditor to make disclosures or take actions that contradict the requirements of the Federal law. A State law is contradictory if it requires the use of the same term to represent a different amount or a different meaning than the Federal law, or if it requires the use of a term different from that required in the Federal law to describe the same item. A creditor, State, or other interested party may request the Board to determine whether a State law requirement is inconsistent. After the Board determines that a State law is inconsistent, a creditor may not make disclosures using the inconsistent term or form.

(2)(i) State law requirements are inconsistent with the requirements contained in sections 161 (Correction of billing errors) or 162 (Regulation of credit reports) of the Act and the implementing provisions of this regulation and are preempted if they provide rights, responsibilities, or procedures for consumers or creditors that are different from those required by the Federal law. However, a State law that allows a consumer to inquire about an open-end credit account and imposes on the creditor an obligation to respond to such inquiry after the time allowed in the Federal law for the consumer to submit written notice of a billing error shall not be preempted in any situation where the time period for making written notice under this regulation has expired. If a creditor gives written notice of a consumer’s rights under such State law, the notice shall state that reliance on the longer time period available under State law may result in the loss of important rights that could be preserved by acting more promptly under Federal law; it shall also explain that the State law provisions apply only after expiration of the time period for submitting a proper written notice of a billing error under the Federal law. If the State disclosures are made on the same side of a page as the required Federal disclosures, the State disclosures shall appear under a demarcation line below the Federal disclosures, and the Federal disclosures shall be identified by a heading indicating that they are made in compliance with Federal law.

(ii) State law requirements are inconsistent with the requirements contained in chapter 4 (Credit billing) of the Act (other than section 161 or 162) and the implementing provisions of this regulation and are preempted if
the creditor cannot comply with State law without violating Federal law.

(iii) A State may request the Board to determine whether its law is inconsistent with chapter 4 of the Act and its implementing provisions.

(b) Equivalent disclosure requirements. If the Board determines that a disclosure required by state law (other than a requirement relating to the finance charge, annual percentage rate, or the disclosures required under §226.32) is substantially the same in meaning as a disclosure required under the act or this regulation, creditors in that state may make the state disclosure in lieu of the federal disclosure. A creditor, State, or other interested party may request the Board to determine whether a State disclosure is substantially the same in meaning as a Federal disclosure.

(c) Request for determination. The procedures under which a request for a determination may be made under this section are set forth in appendix A.

(d) Special rule for credit and charge cards. State law requirements relating to the disclosure of credit information in any credit or charge card application or solicitation that is subject to the requirements of section 127(c) of chapter 2 of the act (§226.5a of the regulation) or in any renewal notice for a credit or charge card that is subject to the requirements of section 127(d) of chapter 2 of the act (§226.9(e) of the regulation) are preempted. State laws relating to the enforcement of section 127(c) and (d) of the act are not preempted.

§ 226.29 State exemptions.

(a) General rule. Any State may apply to the Board to exempt a class of transactions within the State from the requirements of chapter 2 (Credit transactions) or chapter 4 (Credit billing) of the Act and the corresponding provisions of this regulation. The Board shall grant an exemption if it determines that:

(1) The State law is substantially similar to the Federal law or, in the case of chapter 4, affords the consumer greater protection than the Federal law; and

(2) There is adequate provision for enforcement.

(b) Civil liability. (1) No exemptions granted under this section shall extend to the civil liability provisions of sections 130 and 131 of the Act.

(2) If an exemption has been granted, the disclosures required by the applicable State law (except any additional requirements not imposed by Federal law) shall constitute the disclosures required by this Act.

(c) Applications. The procedures under which a State may apply for an exemption under this section are set forth in appendix B.

[46 FR 20892, Apr. 7, 1981; 46 FR 29246, June 1, 1981]

§ 226.30 Limitation on rates.

A creditor shall include in any consumer credit contract secured by a dwelling and subject to the act and this regulation the maximum interest rate that may be imposed during the term of the obligation when:

(a) In the case of closed-end credit, the annual percentage rate may increase after consummation, or

(b) In the case of open-end credit, the annual percentage rate may increase during the plan.

[52 FR 43181, Nov. 9, 1987]

Subpart E—Special Rules for Certain Home Mortgage Transactions

SOURCE: Reg. Z, 60 FR 15471, Mar. 24, 1995, unless otherwise noted.

§ 226.31 General rules.

(a) Relation to other subparts in this part. The requirements and limitations of this subpart are in addition to and not in lieu of those contained in other subparts of this part.

(b) Form of disclosures. The creditor shall make the disclosures required by this subpart clearly and conspicuously

50 Compliance with this section will constitute compliance with the disclosure requirements on limitations on increases in footnote 12 to §§226.6(a)(2) and 226.18(f)(2) until October 1, 1988.
§ 226.31

in writing, in a form that the consumer may keep. The disclosures required by this subpart may be provided to the consumer in electronic form, subject to compliance with the consumer consent and other applicable provisions of the Electronic Signatures in Global and National Commerce Act (E-Sign Act) (15 U.S.C. § 7001 et seq.).

(c) Timing of disclosure—(1) Disclosures for certain closed-end home mortgages. The creditor shall furnish the disclosures required by § 226.32 at least three business days prior to consummation of a mortgage transaction covered by § 226.32.
   (i) Change in terms. After complying with paragraph (c)(1) of this section and prior to consummation, if the creditor changes any term that makes the disclosures inaccurate, new disclosures shall be provided in accordance with the requirements of this subpart.
   (ii) Telephone disclosures. A creditor may provide new disclosures by telephone if the consumer initiates the change and if, at consummation:
      (A) The creditor provides new written disclosures; and
      (B) The consumer and creditor sign a statement that the new disclosures were provided by telephone at least three days prior to consummation.
   (iii) Consumer's waiver of waiting period before consummation. The consumer may, after receiving the disclosures required by paragraph (c)(1) of this section, modify or waive the three-day waiting period between delivery of those disclosures and consummation if the consumer determines that the extension of credit is needed to meet a bona fide personal financial emergency. To modify or waive the right, the consumer shall give the creditor a dated written statement that describes the emergency, specifically modifies or waives the waiting period, and bears the signature of all the consumers entitled to the waiting period. Printed forms for this purpose are prohibited, except when creditors are permitted to use printed forms pursuant to § 226.23(e)(2).
   (2) Disclosures for reverse mortgages. The creditor shall furnish the disclosures required by § 226.33 at least three business days prior to:
   (i) Consumption of a closed-end credit transaction; or
   (ii) The first transaction under an open-end credit plan.

(d) Basis of disclosures and use of estimates—(1) Legal Obligation. Disclosures shall reflect the terms of the legal obligation between the parties.
   (2) Estimates. If any information necessary for an accurate disclosure is unknown to the creditor, the creditor shall make the disclosure based on the best information reasonably available at the time the disclosure is provided, and shall state clearly that the disclosure is an estimate.
   (3) Per-diem interest. For a transaction in which a portion of the interest is determined on a per-diem basis and collected at consummation, any disclosure affected by the per-diem interest shall be considered accurate if the disclosure is based on the information known to the creditor at the time that the disclosure documents are prepared.
   (e) Multiple creditors; multiple consumers. If a transaction involves more than one creditor, only one set of disclosures shall be given and the creditors shall agree among themselves which creditor must comply with the requirements that this part imposes on any or all of them. If there is more than one consumer, the disclosures may be made to any consumer who is primarily liable on the obligation. If the transaction is rescindable under § 226.15 or § 226.23, however, the disclosures shall be made to each consumer who has the right to rescind.
   (f) Effect of subsequent events. If a disclosure becomes inaccurate because of an event that occurs after the creditor delivers the required disclosures, the inaccuracy is not a violation of Regulation Z (12 CFR part 226), although new disclosures may be required for mortgages covered by § 226.32 under paragraph (c) of this section, § 226.9(c), § 226.19, or § 226.20.
   (g) Accuracy of annual percentage rate. For purposes of § 226.32, the annual percentage rate shall be considered accurate, and may be used in determining whether a transaction is covered by § 226.32, if it is accurate according to the requirements and within the tolerances under § 226.22. The finance charge tolerances for rescission under
§ 226.32 Requirements for certain closed-end home mortgages.

(a) Coverage. (1) Except as provided in paragraph (a)(2) of this section, the requirements of this section apply to a consumer credit transaction that is secured by the consumer’s principal dwelling, and in which either:

(i) The annual percentage rate at consummation will exceed by more than 8 percentage points for first-lien loans, or by more than 10 percentage points for subordinate-lien loans, the yield on Treasury securities having comparable periods of maturity to the loan maturity as of the fifteenth day of the month immediately preceding the month in which the application for the extension of credit is received by the creditor; or

(ii) The total points and fees payable by the consumer at or before loan closing will exceed the greater of 8 percent of the total loan amount, or $400; the $400 figure shall be adjusted annually on January 1 by the annual percentage change in the Consumer Price Index that was reported on the preceding June 1.

(2) This section does not apply to the following:

(i) A residential mortgage transaction.

(ii) A reverse mortgage transaction subject to §226.33.

(iii) An open-end credit plan subject to subpart B of this part.

(b) Definitions. For purposes of this subpart, the following definitions apply:

(1) For purposes of paragraph (a)(1)(ii) of this section, points and fees means:

(i) All items required to be disclosed under §226.4(a) and 226.4(b), except interest or the time-price differential;

(ii) All compensation paid to mortgage brokers;

(iii) All items listed in §226.4(c)(7) (other than amounts held for future payment of taxes) unless the charge is reasonable, the creditor receives no direct or indirect compensation in connection with the charge, and the charge is not paid to an affiliate of the creditor; or

(iv) Premiums or other charges for credit life, accident, health, or loss-of-income insurance, or debt-cancellation coverage (whether or not the debt-cancellation coverage is insurance under applicable law) that provides for cancellation of all or part of the consumer’s liability in the event of the loss of life, health, or income or in the case of accident, written in connection with the credit transaction.

(2) Affiliate means any company that controls, is controlled by, or is under common control with another company, as set forth in the Bank Holding Company Act of 1956 (12 U.S.C. 1841 et seq.).

(c) Disclosures. In addition to other disclosures required by this part, in a mortgage subject to this section, the creditor shall disclose the following in conspicuous type size:

(1) Notices. The following statement: “You are not required to complete this agreement merely because you have received these disclosures or have signed a loan application. If you obtain this loan, the lender will have a mortgage on your home. You could lose your home, and any money you have put into it, if you do not meet your obligations under the loan.”

(2) Annual percentage rate. The annual percentage rate.

(3) Regular payment; balloon payment. The amount of the regular monthly (or other periodic) payment and the amount of any balloon payment. The regular payment disclosed under this paragraph shall be treated as accurate if it is based on an amount borrowed that is deemed accurate and is disclosed under paragraph (c)(5) of this section.

(4) Variable-rate. For variable-rate transactions, a statement that the interest rate and monthly payment may increase, and the amount of the single maximum monthly payment, based on the maximum interest rate required to be disclosed under §226.30.

(5) Amount borrowed. For a mortgage refinancing, the total amount the consumer will borrow, as reflected by the face amount of the note; and where the
§ 226.32 Requirements for certain closed-end home mortgages.

* * * * *

(d) * * *

(6) Prepayment penalties. Except as allowed under paragraph (d)(7) of this section, a penalty for paying all or part of the principal before the date on which the principal is due. A prepayment penalty includes computing a refund of unearned interest by a method that is less favorable to the consumer than the actuarial method, as defined by section 933(d) of the Housing and Community Development Act of 1992.

(7) Prepayment penalty exception. A mortgage transaction subject to this section may provide for a prepayment penalty otherwise permitted by law (including a refund calculated according to the rule of 78s) if:

(i) The penalty can be exercised only for the first five years following consummation;

(ii) The source of the prepayment funds is not a refinancing by the creditor or an affiliate of the creditor; and

(iii) At consummation, the consumer’s total monthly debts (including amounts owed under the mortgage) do not exceed 50 percent of the consumer’s monthly gross income, as verified by the consumer’s signed financial statement, a credit report, and payment records for employment income.

(8) Due-on-demand clause. A demand feature that permits the creditor to terminate the loan in advance of the original maturity date and to demand repayment of the entire outstanding balance, except in the following circumstances:

(i) There is fraud or material misrepresentation by the consumer in connection with the loan;

(ii) The consumer fails to meet the repayment terms of the agreement for any outstanding balance; or

(iii) There is any action or inaction by the consumer that adversely affects the creditor’s security for the loan, or any right of the creditor in such security.

EFFECTIVE DATE NOTE: At 73 FR 44602, July 30, 2008, § 226.32 was amended by revising paragraphs (d)(6) and (7), effective Oct. 1, 2009. For the convenience of the user, the revised text is set forth as follows:

§ 226.32 Requirements for certain closed-end home mortgages.

(d) * * *

(6) Prepayment penalties. Except as allowed under paragraph (d)(7) of this section, a penalty for paying all or part of the principal before the date on which the principal is due. A prepayment penalty includes computing a refund of unearned interest by a method that is less favorable to the consumer than the actuarial method, as defined by section 933(d) of the Housing and Community Development Act of 1992.

(7) Prepayment penalty exception. A mortgage transaction subject to this section may provide for a prepayment penalty otherwise permitted by law (including a refund calculated according to the rule of 78s) if:

(i) The penalty can be exercised only for the first five years following consummation;

(ii) The source of the prepayment funds is not a refinancing by the creditor or an affiliate of the creditor; and

(iii) At consummation, the consumer’s total monthly debts (including amounts owed under the mortgage) do not exceed 50 percent of the consumer’s monthly gross income, as verified by the consumer’s signed financial statement, a credit report, and payment records for employment income.

EFFECTIVE DATE NOTE: At 73 FR 44602, July 30, 2008, § 226.32 was amended by revising paragraphs (d)(6) and (7), effective Oct. 1, 2009. For the convenience of the user, the revised text is set forth as follows:

§ 226.32 Requirements for certain closed-end home mortgages.

* * * * *

(d) * * *

(6) Prepayment penalties. Except as allowed under paragraph (d)(7) of this section, a penalty for paying all or part of the principal before the date on which the principal is due. A prepayment penalty includes computing a refund of unearned interest by a method that is less favorable to the consumer than the actuarial method, as defined by section 933(d) of the Housing and Community Development Act of 1992.

(7) Prepayment penalty exception. A mortgage transaction subject to this section may provide for a prepayment penalty otherwise permitted by law (including a refund calculated according to the rule of 78s) if:

(i) The penalty can be exercised only for the first five years following consummation;

(ii) The source of the prepayment funds is not a refinancing by the creditor or an affiliate of the creditor; and

(iii) At consummation, the consumer’s total monthly debts (including amounts owed under the mortgage) do not exceed 50 percent of the consumer’s monthly gross income, as verified by the consumer’s signed financial statement, a credit report, and payment records for employment income.
provide for a prepayment penalty (including a refund calculated according to the rule of 78s) otherwise permitted by law if, under the terms of the loan:

(i) The penalty will not apply after the two-year period following consummation;

(ii) The penalty will not apply if the source of the prepayment funds is a refinancing by the creditor or an affiliate of the creditor;

(iii) At consummation, the consumer's total monthly debt payments (including amounts owed under the mortgage) do not exceed 50 percent of the consumer's monthly gross income, as verified in accordance with §226.34(a)(4)(i); and

(iv) The amount of the periodic payment of principal or interest or both may not change during the four-year period following consummation.

§ 226.33 Requirements for reverse mortgages.

(a) Definition. For purposes of this subpart, reverse mortgage transaction means a nonrecourse consumer credit obligation in which:

1. A mortgage, deed of trust, or equivalent consensual security interest securing one or more advances is created in the consumer's principal dwelling; and

2. Any principal, interest, or shared appreciation or equity is due and payable (other than in the case of default) only after:

(i) The consumer dies;

(ii) The dwelling is transferred; or

(iii) The consumer ceases to occupy the dwelling as a principal dwelling.

(b) Content of disclosures. In addition to other disclosures required by this part, in a reverse mortgage transaction the creditor shall provide the following disclosures in a form substantially similar to the model form found in paragraph (d) of appendix K of this part:

(1) Notice. A statement that the consumer is not obligated to complete the reverse mortgage transaction merely because the consumer has received the disclosures required by this section or has signed an application for a reverse mortgage loan.

(2) Total annual loan cost rates. A good-faith projection of the total cost of the credit, determined in accordance with paragraph (c) of this section and expressed as a table of "total annual loan cost rates," using that term, in accordance with appendix K of this part.

(3) Itemization of pertinent information. An itemization of loan terms, charges, the age of the youngest borrower and the appraised property value.

(4) Explanation of table. An explanation of the table of total annual loan cost rates as provided in the model form found in paragraph (d) of appendix K of this part.

(c) Projected total cost of credit. The projected total cost of credit shall reflect the following factors, as applicable:

(1) Costs to consumer. All costs and charges to the consumer, including the costs of any annuity the consumer purchases as part of the reverse mortgage transaction.

(2) Payments to consumer. All advances to and for the benefit of the consumer, including annuity payments that the consumer will receive from an annuity that the consumer purchases as part of the reverse mortgage transaction.

(3) Additional creditor compensation. Any shared appreciation or equity in the dwelling that the creditor is entitled by contract to receive.

(4) Limitations on consumer liability. Any limitation on the consumer's liability (such as nonrecourse limits and equity conservation agreements).

(5) Assumed annual appreciation rates. Each of the following assumed annual appreciation rates for the dwelling:

(i) 0 percent.

(ii) 4 percent.

(iii) 8 percent.

(6) Assumed loan period. (i) Each of the following assumed loan periods, as provided in appendix L of this part:

(A) Two years.

(B) The actuarial life expectancy of the consumer to become obligated on the reverse mortgage transaction (as of that consumer's most recent birthday).

In the case of multiple consumers, the period shall be the actuarial life expectancy of the youngest consumer (as of that consumer's most recent birthday).

(C) The actuarial life expectancy specified by paragraph (c)(6)(i)(B) of this section, multiplied by a factor of...
§ 226.34  Prohibited acts or practices in connection with credit secured by a consumer’s dwelling.

(a) Prohibited acts or practices for loans subject to § 226.32. A creditor extending mortgage credit subject to § 226.32 shall not—

(1) Home improvement contracts. Pay a contractor under a home improvement contract from the proceeds of a mortgage covered by § 226.32, other than:

(i) By an instrument payable to the consumer or jointly to the consumer and the contractor; or

(ii) At the election of the consumer, through a third-party escrow agent in accordance with terms established in a written agreement signed by the consumer, the creditor, and the contractor prior to the disbursement.

(2) Notice to assignee. Sell or otherwise assign a mortgage subject to § 226.32 without furnishing the following statement to the purchaser or assignee: “Notice: This is a mortgage subject to special rules under the Federal Truth in Lending Act. Purchasers or assignees of this mortgage could be liable for all claims and defenses with respect to the mortgage that the borrower could assert against the creditor.”

(3) Refinancings within one-year period. Within one year of having extended credit subject to § 226.32, refinance any loan subject to § 226.32 to the same borrower into another loan subject to § 226.32, unless the refinancing is in the borrower’s interest. An assignee holding or servicing an extension of mortgage credit subject to § 226.32, shall not, for the remainder of the one-year period following the date of origination of the credit, refinance any loan subject to § 226.32 to the same borrower into another loan subject to § 226.32, unless the refinancing is in the borrower’s interest. A creditor (or assignee) is prohibited from engaging in acts or practices to evade this provision, including a pattern or practice of arranging for the refinancing of its own loans by affiliated or unaffiliated creditors, or modifying a loan agreement (whether or not the existing loan is satisfied and replaced by the new loan) and charging a fee.

(4) Repayment ability. Extend credit subject to § 226.32 to a consumer based on the consumer’s collateral without regard to the consumer’s repayment ability, including the consumer’s current and expected income, current obligations, and employment. There is a presumption that a creditor has violated this paragraph (a)(4) if the creditor engages in a pattern or practice of making loans subject to § 226.32 without verifying and documenting consumers’ repayment ability.

(b) Prohibited acts or practices for dwelling-secured loans; open-end credit. In connection with credit secured by the consumer’s dwelling that does not meet the definition in § 226.2(a)(20), a creditor shall not structure a home-secured loan as an open-end plan to evade the requirements of § 226.32.

Effective Date Note: At 73 FR 44603, July 30, 2008, § 226.34 was amended by revising the heading and paragraph (a)(4), effective Oct. 1, 2009. For the convenience of the user, the revised text is set forth as follows:

§ 226.34  Prohibited acts or practices in connection with credit subject to § 226.32.

(a) * * *

(4) Repayment ability. Extend credit subject to § 226.32 to a consumer based on the value of the consumer’s collateral without regard to the consumer’s repayment ability as of consummation, including the consumer’s current and reasonably expected income, employment, assets other than the collateral, current obligations, and mortgage-related obligations.

(i) Mortgage-related obligations. For purposes of this paragraph (a)(4), mortgage-related obligations are expected property taxes, premiums for mortgage-related insurance required by the creditor as set forth in § 226.35(b)(5)(i), and similar expenses.

(ii) Verification of repayment ability. Under this paragraph (a)(4) a creditor must verify the consumer’s repayment ability as follows:

(A) A creditor must verify amounts of income or assets that it relies on to determine repayment ability, including expected income or assets, by the consumer’s Internal Revenue Service Form W-2, tax returns, payroll receipts, financial institution records, or
other third-party documents that provide reasonably reliable evidence of the consumer's income or assets.

(B) Notwithstanding paragraph (a)(4)(i)(A), a creditor has not violated paragraph (a)(4)(i) if the amounts of income and assets that the creditor relied upon in determining repayment ability are not materially greater than the amounts of the consumer's income or assets that the creditor could have verified pursuant to paragraph (a)(4)(i)(A) at the time the loan was consummated.

(C) A creditor must verify the consumer's current obligations.

(iii) Presumption of compliance. A creditor is presumed to have complied with this paragraph (a)(4) with respect to a transaction if the creditor:

(A) Verifies the consumer's repayment ability as provided in paragraph (a)(4)(i);

(B) Determines the consumer's repayment ability using the largest payment of principal and interest scheduled in the first seven years following consummation and taking into account current obligations and mortgage-related obligations as defined in paragraph (a)(4)(i); and

(C) Assesses the consumer's repayment ability taking into account at least one of the following: The ratio of total debt obligations to income, or the income the consumer will have after paying debt obligations.

(iv) Exclusions from presumption of compliance. Notwithstanding the previous paragraph, no presumption of compliance is available for a transaction for which:

(A) The regular periodic payments for the first seven years would cause the principal balance to increase; or

(B) The term of the loan is less than seven years and the regular periodic payments when aggregated do not fully amortize the outstanding principal balance.

(v) Exemption. This paragraph (a)(4) does not apply to temporary or "bridge" loans with terms of twelve months or less, such as a loan to purchase a new dwelling where the consumer plans to sell a current dwelling within twelve months, a reverse-mortgage transaction subject to §226.33, or a home equity line of credit subject to §226.5b.

§ 226.35 Prohibited acts or practices in connection with higher-priced mortgage loans.

(a) Higher-priced mortgage loans—(1) For purposes of this section, a higher-priced mortgage loan is a consumer credit transaction secured by the consumer's principal dwelling with an annual percentage rate that exceeds the average prime offer rate by 1.5 or more percentage points for loans secured by a first lien on a dwelling, or by 3.5 or more percentage points for loans secured by a subordinate lien on a dwelling.

(2) "Average prime offer rate" means an annual percentage rate that is derived from average interest rates, points, and other loan pricing terms currently offered to consumers by a representative sample of creditors for mortgage transactions that have low-risk pricing characteristics. The Board publishes average prime offer rates for a broad range of types of transactions in a table updated at least weekly as well as the methodology the Board uses to derive these rates.

(b) Rules for higher-priced mortgage loans. Higher-priced mortgage loans are subject to the following restrictions:

(1) Repayment ability. A creditor shall not extend credit based on the value of the consumer's collateral without regard to the consumer's repayment ability as of consummation as provided in §226.34(a)(4).

(2) Prepayment penalties. A loan may not include a penalty described by §226.32(d)(6) unless:

(i) The penalty is otherwise permitted by law, including §226.32(d)(7) if the loan is a mortgage transaction described in §226.32(a); and

(ii) Under the terms of the loan—

(A) The penalty will not apply after the two-year period following consummation;

(B) The penalty will not apply if the source of the prepayment funds is a refinancing by the creditor or an affiliate of the creditor; and

(C) The amount of the periodic payment of principal or interest or both may not change during the four-year period following consummation.

* * * * *
§ 226.36 Prohibited acts or practices in connection with credit secured by a consumer’s principal dwelling.

(a) Mortgage broker defined. For purposes of this section, the term “mortgage broker” means a person, other than an employee of a creditor, who for compensation or other monetary gain, or in expectation of compensation or other monetary gain, arranges, negotiates, or otherwise obtains an extension of consumer credit for another person. The term includes a person meeting this definition, even if the consumer credit obligation is initially payable to such person, unless the person provides the funds for the transaction at consummation out of the person’s own resources, out of deposits held by the person, or by drawing on a bona fide warehouse line of credit.

(b) Misrepresentation of value of consumer’s dwelling—(1) Coercion of appraiser. In connection with a consumer credit transaction secured by a consumer’s principal dwelling, no creditor or mortgage broker, and no affiliate of a creditor or mortgage broker shall directly or indirectly coerce, influence, or otherwise encourage an appraiser to misstate or misrepresent the value of such dwelling.

(i) Examples of actions that violate this paragraph (b)(1) include:

(A) Implying to an appraiser that current or future retention of the appraiser depends on the amount at which the appraiser values a consumer’s principal dwelling;

(B) Excluding an appraiser from consideration for future engagement because the appraiser reports a value of a consumer’s principal dwelling that does not meet or exceed a minimum threshold;

(C) Telling an appraiser a minimum reported value of a consumer’s principal dwelling that is needed to approve the loan;

(D) Failing to compensate an appraiser because the appraiser does not value a consumer’s principal dwelling at or above a certain amount; and

(E) Conditioning an appraiser’s compensation on loan consummation.

(ii) Examples of actions that do not violate this paragraph (b)(1) include:
Federal Reserve System

Pt. 226, App. A

(A) Asking an appraiser to consider additional information about a consumer’s principal dwelling or about comparable properties;

(B) Requesting that an appraiser provide additional information about the basis for a valuation;

(C) Requesting that an appraiser correct factual errors in a valuation;

(D) Obtaining multiple appraisals of a consumer’s principal dwelling, so long as the creditor adheres to a policy of selecting the most reliable appraisal, rather than the appraisal that states the highest value;

(E) Withholding compensation from an appraiser for breach of contract or substandard performance of services as provided by contract; and

(F) Taking action permitted or required by applicable federal or state statute, regulation, or agency guidance.

(2) When extension of credit prohibited. In connection with a consumer credit transaction secured by a consumer’s principal dwelling, a creditor who knows, at or before loan consummation, of a violation of paragraph (b)(1) of this section in connection with an appraisal shall not extend credit based on such appraisal unless the creditor documents that it has acted with reasonable diligence to determine that the appraisal does not materially misstate or misrepresent the value of such dwelling.

(3) Appraiser defined. As used in this paragraph (b), an appraiser is a person who engages in the business of providing assessments of the value of dwellings. The term “appraiser” includes persons that employ, refer, or manage appraisers and affiliates of such persons.

(c) Servicing practices. (1) In connection with a consumer credit transaction secured by a consumer’s principal dwelling, no servicer shall—

(i) Fail to credit a payment to the consumer’s loan account as of the date of receipt, except when a delay in crediting does not result in any charge to the consumer or in the reporting of negative information to a consumer reporting agency, or except as provided in paragraph (c)(2) of this section;

(ii) Impose on the consumer any late fee or delinquency charge in connection with a payment, when the only delinquency is attributable to late fees or delinquency charges assessed on an earlier payment, and the payment is otherwise a full payment for the applicable period and is paid on its due date or within any applicable grace period; or

(iii) Fail to provide, within a reasonable time after receiving a request from the consumer or any person acting on behalf of the consumer, an accurate statement of the total outstanding balance that would be required to satisfy the consumer’s obligation in full as of a specified date.

(2) If a servicer specifies in writing requirements for the consumer to follow in making payments, but accepts a payment that does not conform to the requirements, the servicer shall credit the payment as of 5 days after receipt.

(3) For purposes of this paragraph (c), the terms “servicer” and “servicing” have the same meanings as provided in 24 CFR 3500.2(b), as amended.

(d) This section does not apply to a home equity line of credit subject to §226.5b.

(Reg. Z, 73 FR 44604, July 30, 2008)

APPENDIX A TO PART 226—EFFECT ON STATE LAWS

REQUEST FOR DETERMINATION

A request for a determination that a State law is inconsistent or that a State law is substantially the same as the Act and regulation shall be in writing and addressed to the Secretary, Board of Governors of the Federal Reserve System, Washington, DC 20551. The request shall be made pursuant to the procedures herein and the Board’s Rules of Procedure (12 CFR Part 262).

SUPPORTING DOCUMENTS

A request for a determination shall include the following items:

(1) The text of the State statute, regulation, or other document that is the subject of the request.

(2) Any other statute, regulation, or judicial or administrative opinion that implements, interprets, or applies the relevant provision.

(3) A comparison of the State law with the corresponding provision of the Federal law, including a full discussion of the basis for
the requesting party’s belief that the State provision is either inconsistent or substantially the same.

(4) Any other information that the requesting party believes may assist the Board in its determination.

PUBLIC NOTICE OF DETERMINATION

Notice that the Board intends to make a determination (either on request or on its own motion) will be published in the Federal Register, with an opportunity for public comment, unless the Board finds that notice and opportunity for comment would be impracticable, unnecessary, or contrary to the public interest and publishes its reasons for such decision.

Subject to the Board’s Rules Regarding Availability of Information (12 CFR Part 261), all requests made, including any documents and other material submitted in support of the requests, will be made available for public inspection and copying.

NOTICE AFTER DETERMINATION

Notice of a final determination will be published in the Federal Register, and the Board will furnish a copy of such notice to the party who made the request and to the appropriate State official.

Reversal of Determination

The Board reserves the right to reverse a determination for any reason bearing on the coverage or effect of State or Federal law.

Notice of reversal of a determination will be published in the Federal Register and a copy furnished to the appropriate State official.

APPENDIX B TO PART 226—STATE EXEMPTIONS

APPLICATION

Any State may apply to the Board for a determination that a class of transactions subject to State law is exempt from the requirements of the Act and this regulation. An application shall be in writing and addressed to the Secretary, Board of Governors of the Federal Reserve System, Washington, DC 20551, and shall be signed by the appropriate State official. The application shall be made pursuant to the procedures herein and the Board’s Rules of Procedure (12 CFR Part 262).

Supporting Documents

An application shall be accompanied by:

1. The text of the State statute or regulations that is the subject of the application, and any other statute, regulation, or judicial or administrative opinion that implements, interprets, or applies it.

2. A comparison of the State law with the corresponding provisions of the Federal law.

3. The text of the State statute or regulation that provides for civil and criminal liability and administrative enforcement of the State law.

4. A statement of the provisions for enforcement, including an identification of the State office that administers the relevant law, information on the funding and the number and qualifications of personnel engaged in enforcement, and a description of the enforcement procedures to be followed, including information on examination procedures, practices, and policies. If an exemption application extends to federally chartered institutions, the applicant must furnish evidence that arrangements have been made with the appropriate Federal agencies to ensure adequate enforcement of State law in regard to such creditors.

5. A statement of reasons to support the applicant’s claim that an exemption should be granted.

PUBLIC NOTICE OF APPLICATION

Notice of an application will be published, with an opportunity for public comment, in the Federal Register, unless the Board finds that notice and opportunity for comment would be impracticable, unnecessary, or contrary to the public interest and publishes its reasons for such decision.

Subject to the Board’s Rules Regarding Availability of Information (12 CFR Part 261), all applications made, including any documents and other material submitted in support of the applications, will be made available for public inspection and copying. A copy of the application also will be made available at the Federal Reserve Bank of each district in which the applicant is situated.

FAVORABLE DETERMINATION

If the Board determines on the basis of the information before it that an exemption should be granted, notice of the exemption will be published in the Federal Register, and a copy furnished to the applicant and to each Federal official responsible for administrative enforcement.

The appropriate State official shall inform the Board within 30 days of any change in its relevant law or regulations. The official shall file with the Board such periodic reports as the Board may require.

The Board will inform the appropriate State official of any subsequent amendments to the Federal law, regulation, interpretations, or enforcement policies that might require an amendment to State law, regulation, interpretations, or enforcement procedures.
ADVERSE DETERMINATION

If the Board makes an initial determination that an exemption should not be granted, the Board will afford the applicant a reasonable opportunity to demonstrate further that an exemption is proper. If the Board ultimately finds that an exemption should not be granted, notice of an adverse determination will be published in the Federal Register and a copy furnished to the applicant.

REVOCATION OF EXEMPTION

The Board reserves the right to revoke an exemption if at any time it determines that the standards required for an exemption are not met.

Before taking such action, the Board will notify the appropriate State official of its intent, and will afford the official such opportunity as it deems appropriate in the circumstances to demonstrate that revocation is improper. If the Board ultimately finds that revocation is proper, notice of the Board’s intention to revoke such exemption will be published in the Federal Register with a reasonable period of time for interested persons to comment.

Notice of revocation of an exemption will be published in the Federal Register. A copy of such notice will be furnished to the appropriate State official and to the Federal officials responsible for enforcement. Upon revocation of an exemption, creditors in that State shall then be subject to the requirements of the Federal law.

APPENDIX C TO PART 226—ISSUANCE OF
STAFF INTERPRETATIONS

OFFICIAL STAFF INTERPRETATIONS

Officials in the Board’s Division of Consumer and Community Affairs are authorized to issue official staff interpretations of this regulation. These interpretations provide the protection afforded under section 130(f) of the Act. Except in unusual circumstances, such interpretations will not be issued separately but will be incorporated in an official commentary to the regulation which will be amended periodically.

REQUESTS FOR ISSUANCE OF OFFICIAL STAFF
INTERPRETATIONS

A request for an official staff interpretation shall be in writing and addressed to the Director, Division of Consumer and Community Affairs, Board of Governors of the Federal Reserve System, Washington, DC 20551. The request shall contain a complete statement of all relevant facts concerning the issue, including copies of all pertinent documents.

SCOPE OF INTERPRETATIONS

No staff interpretations will be issued approving creditors’ forms, statements, or calculation tools or methods. This restriction does not apply to forms, statements, tools, or methods whose use is required or sanctioned by a government agency.

APPENDIX D TO PART 226—MULTIPLE
ADVANCE CONSTRUCTION LOANS

Section 226.17(c)(6) permits creditors to treat multiple advance loans to finance construction of a dwelling that may be permanently financed by the same creditor either as a single transaction or as more than one transaction. If the actual schedule of advances is not known, the following methods may be used to estimate the interest portion of the finance charge and the annual percentage rate and to make disclosures. If the creditor chooses to disclose the construction phase separately, whether interest is payable periodically or at the end of construction, part I may be used. If the creditor chooses to disclose the construction and the permanent financing as one transaction, part II may be used.

Part I—Construction Period Disclosed
Separately

A. If interest is payable only on the amount actually advanced for the time it is outstanding:

1. Estimated interest—Assume that one-half of the commitment amount is outstanding at the contract interest rate for the entire construction period.

2. Estimated annual percentage rate—Assume a single payment loan that matures at the end of the construction period. The finance charge is the sum of the estimated interest and any prepaid finance charge. The amount financed for computation purposes is determined by subtracting any prepaid finance charge from one-half of the commitment amount.

3. Repayment schedule—The number and amounts of any interest payments may be determined by subtracting any prepaid finance charge from the commitment amount.

B. If interest is payable on the entire commitment amount without regard to the dates or amounts of actual disbursement:

1. Estimated interest—Assume that the entire commitment amount is outstanding at the contract interest rate for the entire construction period.

2. Estimated annual percentage rate—Assume a single payment loan that matures at

the end of the construction period. The finance charge is the sum of the estimated interest and any prepaid finance charge. The amount financed for computation purposes is determined by subtracting any prepaid finance charge from one-half of the commitment amount.

3. Repayment schedule—Interest payments shall be disclosed in making the repayment schedule disclosure under §226.18(g).

4. Amount financed - The amount financed for disclosure purposes is the entire commitment amount less any prepaid finance charge.

Example:
Assume a $50,000 loan commitment at 10.5% interest with a 5-month construction period and a prepaid finance charge of 2 points.

\[
\begin{array}{cccc}
\text{Estimated Interest:} & \text{Estimated APR:} \\
25,000 \times 0.105 \div 12 \times 5 = 1,093.75 & (1,093.75 + 1,000) \times 100 \div 5 \times 12 = 31.88% \\
\end{array}
\]

\[
\begin{array}{cccc}
\text{Disclosures:} \\
\text{Amount financed} & \text{FINANCE CHARGE (Estimate)} \\
49,000.00 & 2,093.75 \\
\text{Prepaid finance charge} & \text{ANNUAL PERCENTAGE RATE (Estimate)} \\
1,000.00 & 20.94% \\
\text{Repayment: One payment of principal of} \\
\text{$50,000 on 12-12-80. Interest on the} \\
\text{amount of credit outstanding will be} \\
\text{paid monthly.} \\
\text{Total of payments (Estimate)} \\
51,093.75 & \text{4 monthly payments of $437.50, beginning} \\
\text{on 12-12-80, and a final payment of $50,437.50} \\
\text{on 12-12-80.} \\
\end{array}
\]

Part II - Construction and permanent financing disclosed as one transaction.

A. The creditor shall estimate the interest payable during the construction period to be included in the total finance charge as follows:

1. If interest is payable only on the amount actually advanced for the time it is outstanding, assume that one-half of the commitment amount is outstanding at the contract interest rate for the entire construction period.

2. If interest is payable on the entire commitment amount without regard to the dates or amounts of actual disbursement, assume that the entire commitment amount is outstanding at the contract rate for the entire construction period.
B. The creditor shall compute the estimated annual percentage rate as follows:

1. Estimated interest payable during the construction period shall be treated for computation purposes as a prepaid finance charge (although it shall not be treated as a prepaid finance charge for disclosure purposes).

2. The number of payments shall not include any payments of interest only that are made during the construction period.

3. The first payment period shall consist of one-half of the construction period plus the period between the end of the construction period and the first amortization payment.

C. The creditor shall disclose the repayment schedule as follows:

1. For loans under paragraph A.1. of Part II, without reflecting the number or amounts of payments of interest only that are made during the construction period. The fact that interest payments must be made and the timing of such payments shall be disclosed.

2. For loans under paragraph A.2. of Part II, including any payments of interest only that are made during the construction period.

D. The creditor shall disclose the amount financed as the entire commitment amount less any prepaid finance charge.

Example:

Assume a $50,000 loan commitment at 10.5% interest with a 6-month construction period and a prepaid finance charge of 2 points, followed by 30-year permanent financing at the same rate with monthly amortization payments of $457.37.

APPENDIX E TO PART 226—RULES FOR CARD ISSUERS THAT BILL ON A TRANSACTION-BY-TRANSACTION BASIS

The following provisions of Subpart B apply if credit cards are issued and (1) the card issuer and the seller are the same or related persons; (2) no finance charge is imposed; (3) consumers are billed in full for each use of the card on a transaction-by-transaction basis, by means of an invoice or other statement reflecting each use of the card; and (4) no cumulative account is maintained which reflects the transactions by each consumer during a period of time, such as a month:

Section 226.6(d), and, as applicable, § 226.6(b) and (c). The disclosure required by §226.6(b) shall be limited to those charges that are or may be imposed as a result of the deferral of payment by use of the card, such as late payment or delinquency charges.

Section 226.7(b) and §226.7(k). Creditors may comply by placing the required disclosures on the invoice or statement sent to the consumer for each transaction.

Section 226.9(a). Creditors may comply by mailing or delivering the statement required by §226.6(d) (See appendix G–3) to each consumer receiving a transaction invoice during a one-month period chosen by the card issuer or by sending either the statement prescribed by §226.6(d) or an alternative billing error rights statement substantially similar...
Federal Reserve System

Pt. 226, App. F

to that in appendix G–4, with each invoice sent to a consumer.

Section 226.9(c).
Section 226.10.
Section 226.11. This section applies when a card issuer receives a payment or other credit that exceeds by more than $1 the amount due, as shown on the transaction invoice. The requirement to credit amounts to an account may be complied with by other reasonable means, such as by a credit memorandum. Since no periodic statement is provided, a notice of the credit balance shall be sent to the consumer within a reasonable period of time following its occurrence unless a refund of the credit balance is mailed or delivered to the consumer within 7 business days of its receipt by the card issuer.

Section 226.12 including § 226.12(c) and (d), as applicable. Section 226.12(e) is inapplicable.
Section 226.13, as applicable. All references to periodic statement shall be read to indicate the invoice or other statement for the relevant transaction. All actions with regard to correcting and adjusting a consumer’s account may be taken by issuing a refund or a new invoice, or by other appropriate means consistent with the purposes of the section.
Section 226.15, as applicable.

APPENDIX F TO PART 226—ANNUAL PERCENTAGE RATE COMPUTATIONS FOR CERTAIN OPEN-END CREDIT PLANS

In determining the denominator of the fraction under § 226.14(c)(3), no amount will be used more than once when adding the sum of the balances subject to periodic rates to the sum of the amounts subject to specific transaction charges. In every case, the full amount of transactions subject to specific transaction charges shall be included in the denominator. Other balances or parts of balances shall be included according to the manner of determining the balance subject to a periodic rate, as illustrated in the following examples of accounts on monthly billing cycles:

1. Previous balance—none.
   A specific transaction of $100 occurs on the first day of the billing cycle. The average daily balance is $100. A specific transaction charge of 3% is applicable to the specific transaction. The periodic rate is 11⁄2% applicable to the average daily balance. The numerator is the amount of the finance charge, which is $4.50. The denominator is the amount of the transaction (which is $100), plus the amount by which the sum of the balances subject to the periodic rate exceeds the amount of the specific transactions (such excess in this case is $0), totaling $100.

   The annual percentage rate is the quotient (which is 41⁄2%) multiplied by 12 (the number of months in a year), i.e., 54%.

2. Previous balance—$100.
   A specific transaction of $100 occurs at the midpoint of the billing cycle. The average daily balance is $150. A specific transaction charge of 3% is applicable to the specific transaction. The periodic rate is 11⁄2% applicable to the average daily balance. The numerator is the amount of the finance charge which is $5.25. The denominator is the amount of the transaction (which is $100), plus the amount by which the balance subject to the periodic rate exceeds the amount of the specific transaction (such excess in this case is $50), totaling $150. As explained in example 1, the annual percentage rate is 31⁄2% × 12 = 42%.

3. If, in example 2, the periodic rate applies only to the previous balance, the numerator is $4.50 and the denominator is $200 (the balance subject only to the periodic rate, the $100 previous balance). As explained in example 1, the annual percentage rate is 31⁄2% × 12 = 42%.

4. If, in example 2, the periodic rate applies only to an adjusted balance (previous balance less payments and credits) and the consumer made a payment of $50 at the midpoint of the billing cycle, the numerator is $3.75 and the denominator is $150 (the amount of the transaction, $100, plus the balance subject to the periodic rate, the $50 adjusted balance). As explained in example 1, the annual percentage rate is $3.75 × 12 = 30%.

5. Previous balance—$100.
   A specific transaction (check) of $100 occurs at the midpoint of the billing cycle. The average daily balance is $150. The specific transaction charge is $.25 per check. The periodic rate is 11⁄2% applied to the average daily balance. The numerator is the amount of the finance charge, which is $2.50 and includes the $.25 check charge and the $.25 resulting from the application of the periodic rate. The denominator is the full amount of the specific transaction (which is $100) plus the amount by which the average daily balance exceeds the amount of the specific transaction (which in this case is $50), totaling $150. As explained in example 1, the annual percentage rate would be 11⁄2% × 12 = 20%.

6. Previous balance—none.
   A specific transaction of $100 occurs at the midpoint of the billing cycle. The average daily balance is $50. The specific transaction charge is 3% of the transaction amount or...
$3.00. The periodic rate is 1 1/2% per month applied to the average daily balance. The numerator is the amount of the finance charge, which is $3.75, including the $3.00 transaction charge and $.75 resulting from application of the periodic rate. The denominator is the full amount of the specific transaction ($100) plus the amount by which the balance subject to the periodic rate exceeds the amount of the transaction ($0). Where the specific transaction amount exceeds the balance subject to the periodic rate, the resulting number is considered to be zero rather than a negative number ($50 - $100 = $50). The denominator, in this case, is $100. As explained in example 1, the annual percentage rate is 3 3/4% x 12 = 45%.

G–14A Home Equity Sample
G–14B Home Equity Sample
G–15 Home Equity Model Clauses
G-1 -- Balance Computation Methods Model Clauses

(a) Adjusted balance method

We figure [a portion of] the finance charge on your account by applying the periodic rate to the “adjusted balance” of your account. We get the “adjusted balance” by taking the balance you owed at the end of the previous billing cycle and subtracting [any unpaid finance charges and] any payments and credits received during the present billing cycle.

(b) Previous balance method

We figure [a portion of] the finance charge on your account by applying the periodic rate to the amount you owe at the beginning of each billing cycle [minus any unpaid finance charges]. We do not subtract any payments or credits received during the billing cycle. [The amount of payments and credits to your account this billing cycle was $_____.]

(c) Average daily balance method (excluding current transactions)

We figure [a portion of] the finance charge on your account by applying the periodic rate to the “average daily balance” of your account (excluding current transactions). To get the “average daily balance” we take the beginning balance of your account each day and subtract any payments or credits [and any unpaid finance charges]. We do not add in any new [purchases/advances/loans]. This gives us the daily balance. Then, we add all the daily balances for the billing cycle together and divide the total by the number of days in the billing cycle. This gives us the “average daily balance.”

(d) Average daily balance method (including current transactions)

We figure [a portion of] the finance charge on your account by applying the periodic rate to the “average daily balance” of your account (including current transactions). To get the “average daily balance” we take the beginning balance of your account each day, add any new [purchases/advances/loans] and subtract any payments or credits, [and unpaid finance charges]. This gives us the daily balance. Then, we add all the daily balances for the billing cycle and divide the total by the number of days in the billing cycle. This gives us the “average daily balance.”

(e) Ending balance method

We figure [a portion of] the finance charge on your account by applying the periodic rate to the amount you owe at the end of each cycle [including new purchases and deducting payments and credits made during the billing cycle].

G-2 -- Liability for Unauthorized Use Model Clause

You may be liable for the unauthorized use of your credit card [or other term that describes the credit card]. You will not be liable for unauthorized use that occurs after you notify [name of card issuer or its designee] at [address], orally or in writing, of the loss, theft, or possible unauthorized use. In any case, your liability will not exceed [insert $50 or any lesser amount under agreement with the cardholder].
G-3—Long Form Billing Error Rights Model Form

YOUR BILLING RIGHTS

KEEP THIS NOTICE FOR FUTURE USE

This notice contains important information about your rights and our responsibilities under the Fair Credit Billing Act.

Notify Us In Case of Errors or Questions About Your Bill

If you think your bill is wrong, or if you need more information about a transaction on your bill, write us (on a separate sheet) at [address] (the address listed on your bill). Write to us as soon as possible. We must hear from you no later than 60 days after we sent you the first bill on which the error or problem appeared. You can telephone us, but doing so will not preserve your rights.

In your letter, give us the following information:

- Your name and account number.
- The dollar amount of the suspected error.
- Describe the error and explain, if you can, why you believe there is an error. If you need more information, describe the item you are not sure about.

If you have authorized us to pay your credit card bill automatically from your savings or checking account, you can stop the payment on any amount you think is wrong. To stop the payment your letter must reach us three business days before the automatic payment is scheduled to occur.

Your Rights and Our Responsibilities After We Receive Your Written Notice

We must acknowledge your letter within 30 days, unless we have corrected the error by then. Within 90 days, we must either correct the error or explain why we believe the bill was correct.

After we receive your letter, we cannot try to collect any amount you question, or report you as delinquent. We can continue to bill you for the amount you question, including finance charges, and we can apply any unpaid amount against your credit limit. You do not have to pay any questioned amount while we are investigating, but you are still obligated to pay the parts of your bill that are not in question.

If we find that we made a mistake on your bill, you will not have to pay any finance charges related to any questioned amount. If we didn’t make a mistake, you may have to pay finance charges, and you will have to make up any missed payments on the questioned amount. In either case, we will send you a statement of the amount you owe and the date that it is due.

If you fail to pay the amount that we think you owe, we may report you as delinquent. However, if our explanation does not satisfy you and you write to us within ten days telling us that you still refuse to pay, we must tell anyone who reports you to that you have a question about your bill. And, we must tell you the name of anyone we reported you to. We must tell anyone we report you to that the matter has been settled between us when it finally is.

If we don’t follow these rules, we can’t collect the first $50 of the questioned amount, even if your bill was correct.

Special Rule for Credit Card Purchases

If you have a problem with the quality of property or services that you purchased with a credit card, and you have tried in good faith to correct the problem with the merchant, you may have the right not to pay the remaining amount due on the property or services. There are two limitations on this right:

(a) You must have made the purchase in your home state or, if not within your home state, within 100 miles of your current mailing address; and
(b) The purchase price must have been more than $50.

These limitations do not apply if we own or operate the merchant, or if we mailed you the advertisement for the property or services.
Federal Reserve System

Pt. 226, App. G

G-4—Alternative Billing Error Rights Model Form

BILLING RIGHTS SUMMARY

In Case of Errors or Questions About Your Bill

If you think your bill is wrong, or if you need more information about a transaction on your bill, write us [on a separate sheet] at [address] (the address shown on your bill) as soon as possible. We must hear from you within 60 days after we sent you the first bill on which the error or problem appeared. You can telephone us, but doing so will not preserve your rights.

In your letter, give us the following information:

• Your name and account number;
• The dollar amount of the suspected error;
• Describe the error and explain, if you can, why you believe there is an error. If you need more information, describe the item you are unsure about.

You do not have to pay any amount in question while we are investigating, but you are still obligated to pay the parts of your bill that are not in question. While we investigate your question, we cannot report you as delinquent or take any action to collect the amount you question.

G-5—Rescission Model Form (When Opening An Account)

NOTICE OF RIGHT TO CANCEL

1. Your Right to Cancel.

We have agreed to establish an open-end credit account for you, and you have agreed to give us a [mortgage/lien/security interest] [on/in] your home as security for the account. You have a legal right under federal law to cancel the account, without cost, within three business days after the latest of the following events:

(1) the opening date of your account which is

(2) the date you received your Truth-in-Lending disclosures; or

(3) the date you received this notice of your right to cancel the account.

If you cancel the account, the [mortgage/lien/security interest] [on/in] your home is also cancelled. Within 20 days of receiving your notice, we must take the necessary steps to reflect the fact that the [mortgage/lien/security interest] [on/in] your home has been cancelled. We must return to you any money or property you have given to us or to anyone else in connection with the account.

You may keep any money or property we have given you until we have done the things mentioned above, but you must then offer to return the money or property. If it is impractical or unfair for you to return the property, you must offer its reasonable value. You may offer to return the property at your home or at the location of the property. Money must be returned to the address shown below. If we do not take possession of the money or property within 20 calendar days of your offer, you may keep it without further obligation.

2. How to Cancel.

If you decide to cancel the account, you may do so by notifying us in writing, at (lender’s name and business address):

You may use any written statement that is signed and dated by you and states your intention to cancel, or you may use this notice by mailing or sending below. Keep one copy of this notice no matter how you notify us because it contains important information about your rights.

If you cancel by mail or telegram, you must send the notice no later than midnight of (or midnight of the third business day following the latest of the three events listed above). If you send or deliver your written notice to cancel some other way, it must be delivered to the above address no later than that time.

I WISH TO CANCEL.

[Date]
G-6—Rescission Model Form (For Each Transaction)

NOTICE OF RIGHT TO CANCEL

1. Your Right to Cancel. We have extended credit to you under your open-end credit account. This extension of credit will increase the amount you owe on your account. We already have a [mortgage/lien/security interest] [on/in] your home as security for your account. You have a legal right under federal law to cancel the extension of credit, without cost, within three business days after the latest of the following events:

   (1) the date of the additional extension of credit which is __________________________;
   (2) the date you received your Truth-in-Lending disclosures; or
   (3) the date you received this notice of your right to cancel the additional extension of credit.

If you cancel the additional extension of credit, your cancellation will only apply to the additional amount and to any increase in the [mortgage/lien/security interest] that resulted because of the additional amount. It will not affect the amount you present ly owe, and it will not affect the [mortgage/lien/security interest] we already have [on/in] your home. Within 20 calendar days after we receive your notice of cancellation, we must take the necessary steps to reflect the fact that any increase in the [mortgage/lien/security interest] [on/in] your home has been cancelled. We must also return to you any money or property you have given to us or to anyone else in connection with this extension of credit.

You may keep any money or property we have given you until we have done the things mentioned above, but you must then offer to return the money or property. If it is impractical or unfair for you to return the property, you must offer its reasonable value. You may offer to return the property at your home or at the location of the property. Money must be returned to the address shown below. If we do not take possession of the money or property within 20 calendar days of your offer, you may keep it without further obligation.

2. How to Cancel. If you decide to cancel the additional extension of credit, you may do so by notifying us, in writing, at

   (Your name and business address).

   You may use any written statement that is signed and dated by you and states your intention to cancel, or you may use this notice by dating and signing below. Keep one copy of this notice no matter how you notify us because it contains important information about your rights.

   If you cancel by mail or telegram, you must send the notice no later than midnight of ________ (date).

   (or midnight of the third business day following the latest of the three events listed above). If you send or deliver your written notice to cancel some other way, it must be delivered to the above address no later than that time.

   I WISH TO CANCEL.

G-7—Recission Model Form (When Increasing the Credit Limit)

NOTICE OF RIGHT TO CANCEL

1. Your Right to Cancel.
   We have agreed to increase the credit limit on your open-end credit account. We have a [mortgage/lien/security interest] on/in your home as security for your account. Increasing the credit limit will increase the amount of the [mortgage/lien/security interest] on/in your home. You have a legal right under federal law to cancel the increase in your credit limit, without cost, within three business days after the latest of the following events:
   (1) the date of the increase in your credit limit which is ____________________________, or
   (2) the date you received your Truth-in-Lending disclosures; or
   (3) the date you received this notice of your right to cancel the increase in your credit limit.

   If you cancel, your cancellation will apply only to the increase in your credit limit and to the [mortgage/lien/security interest] that resulted from the increase in your credit limit. It will not affect the amount you presently owe, and it will not affect the [mortgage/lien/security interest] we already have on/in your home. Within 20 calendar days after we receive your notice of cancellation, we must take the necessary steps to reflect the fact that any increase in the [mortgage/lien/security interest] on/in your home has been cancelled. We must also return to you any money or property you have given to us or to anyone else in connection with this increase.

   You may keep any money or property we have given you until we have done the things mentioned above, but you must then offer to return the money or property. If it is impractical or unfair for you to return the property, you must offer its reasonable value. You may offer to return the property at your home or at the location of the property. Money must be returned to the address shown below. If we do not take possession of the money or property within 20 calendar days of your offer, you may keep it without further obligation.

2. How to Cancel.
   If you decide to cancel the increase in your credit limit, you may do so by notifying us, in writing, at

   (creditor's name and business address).

   You may use any written statement that is signed and dated by you and states your intention to cancel, or you may provide this notice by dating and signing below. Keep one copy of this notice no matter how you notify us because it contains important information about your rights.

G-9—Rescission Model Form (When Increasing the Security)

NOTICE OF RIGHT TO CANCEL

1. Your Right to Cancel.
You have agreed to increase the amount of the [mortgage/lien/security interest] [on/ in] your home that we hold as security for your open-end credit account. You have a legal right under federal law to cancel the increase, without cost, within three business days after the latest of the following events:

(1) the date of the increase in the security which is

(2) the date you received your Truth-in-Lending disclosures; or

(3) the date you received this notice of your right to cancel the increase in the security.

If you cancel the increase in the security, your cancellation will apply only to the increase in the amount of the [mortgage/lien/security interest]. It will not affect the amount you presently owe on your account, and it will not affect the [mortgage/lien/security interest] we already have [on/in] your home. Within 20 calendar days after we receive your notice of cancellation, we must take the necessary steps to reflect that any increase in the [mortgage/lien/security interest] [on/in] your home has been canceled. We must also return to you any money or property you have given to us or to anyone else in connection with this increase.

You may keep any money or property we have given you until we have done the things mentioned above, but you must then offer to return the money or property. If it is impractical or unfair for you to return the property, you must offer its reasonable value. You may offer to return the property at your home or at the location of the property. Money must be returned to the address shown below. If we do not take possession of the money or property within 20 calendar days of your offer, you may keep it without further obligation.

2. How to Cancel.
If you decide to cancel the increase in security, you may do so by notifying us, in writing, at

[consumer's name and business address]

You may use any written statement that is signed and dated by you and states your intention to cancel, or you may use this notice by dating and signing below. Keep one copy of this notice. No matter how you notify us, it contains important information about your rights.

If you cancel by mail or telegram, you must send the notice no later than midnight of the third business day following the latest of the three events listed above. If you send or deliver your written notice to cancel some other way, it must be delivered to the above address no later than that time.

I WISH TO CANCEL.

[Consumer's Signature]

G-11 -- Applications and Solicitations Made Available to General Public Model Clauses

(a) Disclosure of Required Credit Information
The information about the costs of the card described in this [application] [solicitation] is accurate as of [month year]. This information may have changed after that date. To find out what may have changed, [call us at (telephone number)] [write to us at (address)].

(b) Disclosure With Account Opening Statement
To find out about changes in the information in this [application] [solicitation], [call us at (telephone number)] [write to us at (address)].

(c) No Disclosure of Credit Information
There are costs associated with the use of this card. To obtain information about these costs, [call us at (telephone number)] or [write to us at (address)].

G-12 -- Charge Card Model Clause (When Access to Plan Offered by Another)
This charge card may allow you to access credit offered by another creditor. Our decision about issuing you a charge card will be independent of the other creditor’s decision about allowing you access to a line of credit. Therefore, approval by us to issue you a card does not constitute approval by the other creditor to grant you credit privileges. If we issue you a charge card, you may receive it before the other creditor decides whether or not to grant you credit privileges.
G-13(A) -- Change in Insurance Provider Model Form (Combined Notice)

The credit card account you have with us is insured. This is to notify you that we plan to replace your current coverage with insurance coverage from a different insurer.

If we obtain insurance for your account from a different insurer, you may cancel the insurance.

[Your premium rate will increase to $__ per ___.]

[Your coverage will be affected by the following:

1. The elimination of a type of coverage previously provided to you. (explanation) [See ___ of the attached policy or certificate for details.]

2. A lowering of the age at which your coverage will terminate or will become more restrictive. (explanation) [See ___ of the attached policy or certificate for details.]

3. A decrease in your maximum insurable loan balance, maximum periodic benefit payment, maximum number of payments, or any other decrease in the dollar amount of your coverage or benefits. (explanation) [See ___ of the attached policy or certificate for details.]

4. A restriction on the eligibility for benefits for you or others. (explanation) [See ___ of the attached policy or certificate for details.]

5. A restriction in the definition of "disability" or other key term of coverage. (explanation) [See ___ of the attached policy or certificate for details.]

6. The addition of exclusions or limitations that are broader or other than those under the current coverage. (explanation) [See ___ of the attached policy or certificate for details.]

7. An increase in the elimination (waiting) period or a change to nonrenewal coverage. (explanation) [See ___ of the attached policy or certificate for details.]

[The name and mailing address of the new insurer providing the coverage for your account is (name and address).]

G-13(B) -- Change in Insurance Provider Model Form

We have changed the insurer providing the coverage for your account. The new insurer’s name and address are (name and address). A copy of the new policy or certificate is attached.

You may cancel the insurance for your account.
G-14A – Home Equity Sample

IMPORTANT TERMS of our HOME EQUITY LINE OF CREDIT

This disclosure contains important information about our Home Equity Line of Credit. You should read it carefully and keep a copy for your records.

Availability of Terms: To obtain the terms described below, you must submit your application before January 1, 1990.

If these terms change (other than the annual percentage rate) and you decide, as a result, not to enter into an agreement with us, you are entitled to a refund of any fees that you have paid to us or anyone else in connection with your application.

Security Interest: We will take a mortgage on your home. You could lose your home if you do not meet the obligations in your agreement with us.

Possible Actions: Under certain circumstances, we can (1) terminate your line, require you to pay us the entire outstanding balance in one payment, and charge you certain fees; (2) refuse to make additional extensions of credit; and (3) reduce your credit limit.

If you ask, we will give you more specific information concerning when we can take these actions.

Minimum Payment Requirements: You can obtain advances of credit for 10 years (the “draw period”). During the draw period, payments will be due monthly. Your minimum monthly payment will equal the greater of $100 or 1/365th of the outstanding balance plus the finance charges that have accrued on the outstanding balance.

After the draw period ends, you will no longer be able to obtain credit advances and must pay the outstanding balance over 5 years (the “repayment period”). During the repayment period, payments will be due monthly. Your minimum monthly payment will equal 1/60th of the balance that was outstanding at the end of the draw period plus the finance charges that have accrued on the remaining balance.

Minimum Payment Example: If you made only the minimum monthly payments and took no other credit advances, it would take 15 years to pay off a credit advance of $10,000 at an ANNUAL PERCENTAGE RATE of 12%. During that period, you would make 120 monthly payments varying between $127.78 and $100.00 followed by 60 monthly payments varying between $167.06 and $118.08.

Fees and Charges: To open and maintain a line of credit, you must pay the following fees to us:

- Application fee: $150 (due at application)
- Points: 1% of credit limit (due when account opened)
- Annual maintenance fee: $75 (due each year)

You also must pay certain fees to third parties to open a line. These fees generally total between $500 and $900. If you ask, we will give you an itemization of the fees you will have to pay to third parties.

Minimum Draw and Balance Requirements: The minimum credit advance you can receive is $500. You must maintain an outstanding balance of at least $100.

Tax Deductibility: You should consult a tax advisor regarding the deductibility of interest and charges for the line.

Variable-Rate Information: The line has a variable-rate feature, and the annual percentage rate (corresponding to the periodic rate) and the minimum payment can change as a result.

The annual percentage rate includes only interest and not other costs.

The annual percentage rate is based on the value of an index. The index is the monthly average prime rate charged by banks and is published in the Federal Reserve Bulletin. To determine the annual percentage rate that will apply to your line, we add a margin to the value of the index.

Ask us for the current index value, margin and annual percentage rate. After you open a credit line, rate information will be provided on periodic statements that we will send you.

Rate Changes: The annual percentage rate can change each month. The maximum ANNUAL PERCENTAGE RATE that can apply is 18%. Except for this 18% “cap,” there is no limit on the amount by which the rate can change during any one-year period.
Federal Reserve System

Pt. 226, App. G

Maximum Rate and Payment Examples: If you had an outstanding balance of $10,000 during the draw period, the minimum monthly payment at the maximum ANNUAL PERCENTAGE RATE of 18% would be $177.78. This annual percentage rate could be reached during the first month of the draw period.

If you had an outstanding balance of $10,000 at the beginning of the repayment period, the minimum monthly payment at the maximum ANNUAL PERCENTAGE RATE of 18% would be $316.67. This annual percentage rate could be reached during the first month of the repayment period.

Historical Example: The following table shows how the annual percentage rate and the minimum monthly payments for a single $10,000 credit advance would have changed based on changes in the index over the past 15 years. The index values are from September of each year. While only one payment amount per year is shown, payments would have varied during each year.

The table assumes that no additional credit advances were taken, that only the minimum payments were made each month, and that the rate remained constant during each year. It does not necessarily indicate how the index or your payments will change in the future.

G-14B — Home Equity Sample

IMPORTANT TERMS
of our
HOME EQUITY LINE OF CREDIT

This disclosure contains important information about our Home Equity Line of Credit. You should read it carefully and keep a copy for your records.

Availability of Terms: All of the terms described below are subject to change.

If these terms change (other than the annual percentage rate) and you decide, as a result, not to enter into an agreement with us, you are entitled to a refund of any fees you paid to us or anyone else in connection with your application.

Security Interest: We will take a mortgage on your home. You could lose your home if you do not meet the obligations in your agreement with us.

Possible Actions: We can terminate your line, require you to pay us the entire outstanding balance in one payment, and charge you certain fees if:

· You engage in fraud or material misrepresentation in connection with the line.

· You do not meet the repayment terms.

· Your action or inaction adversely affects the collateral or our rights in the collateral.

We can refuse to make additional extensions of credit or reduce your credit limit if:

· The value of the dwelling securing the line declines significantly below its appraised value for purposes of the line.

· We reasonably believe you will not be able to meet the repayment requirements due to a material change in your financial circumstances.

· You are in default of a material obligation in the agreement.

· Government action prevents us from imposing the annual percentage rate provided for or impairs our security interest such that the value of the interest is less than 120 percent of the credit line.

· A regulatory agency has notified us that continued advances would constitute an unsafe and unsound practice.

· The maximum annual percentage rate is reached.

The initial agreement permits us to make certain changes to the terms of the agreement at specified times or upon the occurrence of specified events.

Minimum Payment Requirements: You can obtain advances of credit for 10 years (the “draw period”). You can choose one of three payment options for the draw period:

· Monthly interest-only payments. Under this option, your payments will be due monthly and will equal the finance charges that accrued on the outstanding balance during the preceding month.

· Quarterly interest-only payments. Under this option, your payments will be due quarterly and will equal the finance charges that accrued on the outstanding balance during the preceding quarter.

· 2% of the balance. Under this option, your payments will be due monthly and will equal 2% of the outstanding balance on your line plus finance charges that accrued on the outstanding balance during the preceding month.

If the payment determined under any option is less than $50, the minimum payment will equal $50 or the outstanding balance on your line, whichever is less.

Under both the monthly and quarterly interest-only payment options, the minimum payment will not reduce the principal that is outstanding on your line.

After the draw period ends, you will no longer be able to obtain credit advances and must repay the outstanding balance (the “repayment period”). The length of the repayment period will depend on the balance outstanding at the beginning of it. During the repayment period, payments will be due monthly and will equal 3% of the outstanding balance on your line plus finance charges that accrued on the outstanding balance or $50, whichever is greater.
Minimum Payment Examples: If you took a single $10,000 advance and the ANNUAL PERCENTAGE RATE was 9.52%:

- Under the monthly interest-only payment option, it would take 18 years and 1 month to pay off the advance if you made only the minimum payments. During that period, you would make 120 payments of $79.33, followed by 96 payments varying between $379.33 and $50 and one final payment of $10.75.

- Under the 2% of the balance payment option, it would take 10 years and 8 months to pay off the advance if you made only the minimum payments. During that period, you would make 120 payments varying between $279.33 and $50, followed by 7 payments of $50 and one final payment of $21.53.

Fees and Charges: To open and maintain a line of credit, you must pay the following fees:

- Application fee: $100 (due at application)
- Points: 1% of credit limit (due when account opened)
- Annual maintenance fee: $50 during the first 3 years, $75 thereafter (due each year)

You also must pay certain fees to third parties to open a line. These fees generally total between $500 and $900. If you ask, we will give you an itemization of the fees you will have to pay to third parties.

Minimum Draw Requirement: The minimum credit advance that you can receive is $200.

Tax Deductibility: You should consult a tax advisor regarding the deductibility of interest and charges for the line.

Variable-Rate Feature: The line has a variable-rate feature, and the annual percentage rate (corresponding to the periodic rate) and the minimum monthly payment can change as a result.

The annual percentage rate includes only interest and not other costs.

The annual percentage rate is based on the value of an index. During the draw period, the index is the monthly average prime rate charged by banks. During the repayment period, the index is the weekly average yield on U.S. Treasury securities adjusted to a constant maturity of one year. Information on these indices is published in the Federal Reserve Bulletin. To determine the annual percentage rate that will apply to your line, we add a margin to the value of the index.

The initial annual percentage rate is “discounted” – it is not based on the index and margin used for later rate adjustments. The initial rate will be in effect for the first year your credit line is open.

Ask us for the current index values, margin, discount and annual percentage rate. After you open a credit line, rate information will be provided on periodic statements that we send you.

Rate Changes: The annual percentage rate can change monthly. The maximum ANNUAL PERCENTAGE RATE that can apply is 18%. Apart from this rate “cap,” there is no limit on the amount by which the rate can change during any one-year period.

Maximum Rate and Payment Examples: If the ANNUAL PERCENTAGE RATE during the draw period equaled the 18% maximum and you had an outstanding balance of $10,000:

- Under the monthly interest-only payment option, the minimum monthly payment would be $150.

- Under the 2% of the balance payment option, the minimum monthly payment would be $350.

This annual percentage rate could be reached during the first month of the draw period.

If you had an outstanding balance of $10,000 during the repayment period, the minimum monthly payment at the maximum ANNUAL PERCENTAGE RATE of 18% would be $450. This annual percentage rate could be reached during the first month of the repayment period.
Historical Example: The following table shows how the annual percentage rate and the monthly payments for a single $10,000 credit advance would have changed based on changes in the indices over the past 15 years. For the draw period, the index values for the prime rate are from September of each year. For the repayment period, the index values for the yield on U.S. Treasury securities are from the first week ending in July. While only one payment amount per year is shown, payments under the 2% of the balance payment option and during the repayment period would have varied during each year.

The table assumes that no additional credit advances were taken, that only the minimum payments were made, and that the rate remained constant during each year. It does not necessarily indicate how the indices or your payments will change in the future.

Federal Reserve System  
Pt. 226, App. G

G-15—Home Equity Model Clauses

(a) Retention of Information: This disclosure contains important information about our Home Equity Line of Credit. You should read it carefully and keep a copy for your records.

(b) Availability of Terms: To obtain the terms described below, you must submit your application before (date). However the (description of terms) are subject to change.

All of the terms described below are subject to change. If these terms change (other than the annual percentage rate) and you decide, as a result, not to enter into an agreement with us, you are entitled to a refund of any fees you paid to us or anyone else in connection with your application.

(c) Security Interest: We will take a [security interest in mortgage on] your home. You could lose your home if you do not meet the obligations in your agreement with us.

(d) Possible Actions: Under certain circumstances, we can (1) terminate your line, require you to pay us the entire outstanding balance in one payment[, and charge you certain fees]; (2) refuse to make additional extensions of credit; (3) reduce your credit limit[; and (4) make specific changes that are set forth in your agreement with us].

If you ask, we will give you more specific information about when we can take these actions.

[The initial agreement permits us to make certain changes to the terms of the agreement at specified times or upon the occurrence of specified events.]

(e) Minimum Payment Requirements: The length of the [draw period/repayment period] is (length). Payments will be due (frequency). Your minimum payment will equal (how payment determined).

[The minimum payment will not reduce the principal that is outstanding on your line.] The minimum payment will not fully repay the principal that is outstanding on your line.] You will then be required to pay the entire balance in a single “balloon” payment.
(f) Minimum Payment Example: If you made only the minimum payments and took no other credit advances, it would take \( \text{length of time} \) to pay off a credit advance of $10,000 at an ANNUAL PERCENTAGE RATE of \( \text{recent rate} \). During that period, you would make \( \text{number} \) (frequency) payments of $__.

(g) Fees and Charges: To open and maintain a line of credit, you must pay the following fees to us:

\( \text{Description of fee} \) \( \text{[$__ / % of ____]} \) (When payable)

\( \text{Description of fee} \) \( \text{[$__ / % of ____]} \) (When payable)

You also must pay certain fees to third parties. These fees generally total \( \text{[$__ / % of ____]} \) (between $__ and $__). If you ask, we will give you an itemization of the fees you will have to pay to third parties.

(h) Minimum Draw and Balance Requirements: The minimum credit advance you can receive is $__. You must maintain an outstanding balance of at least $__.

(i) Negative Amortization: Under some circumstances, your payments will not cover the finance charges that accrue and "negative amortization" will occur. Negative amortization will increase the amount that you owe us and reduce your equity in your home.

(j) Tax Deductibility: You should consult a tax advisor regarding the deductibility of interest and charges for the line.

(k) Other Products: If you ask, we will provide you with information on our other available home equity lines.

(l) Variable-Rate Feature: The plan has a variable-rate feature and the annual percentage rate (corresponding to the periodic rate) and the minimum payment/term of the line can change as a result.

The annual percentage rate includes only interest and not other costs.

The annual percentage rate is based on the value of an index. The index is the \( \text{identification of index} \) and is \( \text{published in/available from} \) \( \text{source of information} \). To determine the annual percentage rate that will apply to your line, we add a margin to the value of the index.

The initial annual percentage rate is "discounted" — it is not based on the index and margin used for later rate adjustments. The initial rate will be in effect for \( \text{period} \).

Ask us for the current index value, margin, [discount,] and annual percentage rate. After you open a credit line, rate information will be provided on periodic statements that we send you.

(m) Rate Changes: The annual percentage rate can change (frequency). [The rate cannot increase by more than \( \text{__ percentage points in any one year period.} \] [There is no limit on the amount by which the rate can change in any one year period.] [The maximum ANNUAL PERCENTAGE RATE that can apply is __%. The ANNUAL PERCENTAGE RATE cannot increase by more than \( \text{__ percentage points above the initial rate.}\] [Ask us for the specific rate limitations that will apply to your credit line.]

(n) Maximum Rate and Payment Examples: If you had an outstanding balance of $10,000, the minimum payment at the maximum ANNUAL PERCENTAGE RATE of __% would be $__. This annual percentage rate could be reached (when maximum rate could be reached).
Federal Reserve System

Pt. 226, App. H

(o) Historical Example: The following table shows how the annual percentage rate and the minimum payments for a single $10,000 credit advance would have changed based on changes in the index over the past 15 years. The index values are from (when values are measured) [While only one payment amount per year is shown, payments would have varied during each year.]

The table assumes that no additional credit advances were taken, that only the minimum payments were made, and that the rate remained constant during each year. It does not necessarily indicate how the index or your payments will change in the future.

H-3—Amount Financed Itemization Model Form

Itemization of the Amount Financed of $ ___________ ___________

$ ___________ Amount given to you directly

$ ___________ Amount paid on your account

Amount paid to others on your behalf

$ ___________ to [public officials] [credit bureau] [appraiser] [insurance company]

$ ___________ to (name of another creditor)

$ ___________ to (other)

$ ___________ Prepaid finance charge

H-4(A)—Variable-Rate Model Clauses

The annual percentage rate may increase during the term of this transaction if:

- the prime interest rate of (creditor) increases;
- the balance in your deposit account falls below $ ___________
- you terminate your employment with (employer) ________

[The interest rate will not increase above __________ %]
[The maximum interest rate increase at one time will be __________ %]
[The rate will not increase more than once every (time period) ________]

Any increase will take the form of:
- [higher payment amounts]
- [more payments of the same amount]
- [a larger amount due at maturity]

Example based on the specific transaction
- If the interest rate increases by __________ % in (time period),
- your regular payments will increase to $ ________
- you will have to make ________ additional payments;
- your final payment will increase to $ ________

Example based on a typical transaction
- If your loan were for $ ________ at ________ % for (term), and the rate increased to ________ % in (time period),
- your regular payments would increase by $ ________.
- you would have to make ________ additional payments.
- your final payment would increase by $ ________.

H-4(B)—Variable-Rate Model Clauses

Your loan contains a variable-rate feature. Disclosures about the variable-rate feature have been provided to you earlier.
Federal Reserve System

**H-4(C)—Variable-Rate Model Clauses**

This disclosure describes the features of the adjustable-rate mortgage (ARM) program you are considering. Information on other ARM programs is available upon request.

**How Your Interest Rate and Payment Are Determined**

- Your interest rate will be based on [an index plus a margin] [a formula].
- Your payment will be based on the interest rate, loan balance, and loan term.

**How Your Interest Rate Can Change**

- Your interest rate can change (frequency).
- [Your interest rate cannot increase or decrease more than percentage points at each adjustment.]
- [Your interest rate cannot increase or decrease more than percentage points over the term of the loan.]

**How Your Payment Can Change**

- Your payment can change (frequency) based on changes in the interest rate.
- [Your payment cannot increase more than (amount or percentage) at each adjustment.]
- You will be notified in writing days before the due date of a payment at a new level. This notice will contain information about your interest rates, payment amount, and loan balance.
- [You will be notified once each year during which interest rate adjustments, but no payment adjustments, have been made to your loan. This notice will contain information about your interest rates, payment amount, and loan balance.]

**Example**

The example below shows how your payments would have changed under this ARM program based on actual changes in the index from 1982 to 1996. This does not necessarily indicate how your index will change in the future.

The example is based on the following assumptions:

- Amount ......................... $10,000
- Term ............................... 
- Change date ...................... 
- Payment adjustment .......... (frequency)
- Interest adjustment .......... (frequency)
- [Margin]* ......................... 

**Caps**

- [Periodic interest rate cap]
- [Lifetime interest rate cap]

[Interest rate carryover]

[Negative amortization]

[Interest rate discount]**

[Identification of index or formula] *This is a margin we have used recently, your margin may be different.

**This is the amount of a discount we have provided recently; your loan may be discounted by a different amount.]

</tbody>
</table>

Note: To see what your payments would have been during that period, divide your mortgage amount by $10,000; then multiply the monthly payment by that amount. (For example, in 1996 the monthly payment for a mortgage amount of $60,000 taken out in 1982 would be: $60,000 ÷ $10,000 = 6; 6 × $1011 = $6066 per month.)

### H-4(D)—Variable-Rate Model Clauses

Your new interest rate will be _____%, which is based on an index value of _____%.

Your previous interest rate was _____%, which was based on an index value of _____%.

The new interest rate does not reflect a change of _____ percentage point in the index value which was not added because of ______.

The new payment will be $______.

Your new loan balance is $______.

Your (new) existing payment will not be sufficient to cover the interest due and the difference will be added to the loan amount. The payment amount needed to pay your loan in full by the end of the term at the new interest rate is $______.

The following interest rate adjustments have been implemented this year without changing your payment: ______.

These interest rates were based on the following index values: ______.

### H-5—Demand Feature Model Clauses

This obligation [is payable on demand.] [has a demand feature.]

[All disclosures are based on an assumed maturity of one year.]

### H-6—Assumption Policy Model Clause

Assumption: Someone buying your house [may, subject to conditions, be allowed to] [cannot] assume the remainder of the mortgage on the original terms.

### H-7—Required Deposit Model Clause

The annual percentage rate does not take into account your required deposit.
H-8—Rescission Model Form (General)

NOTICE OF RIGHT TO CANCEL

Your Right to Cancel
You are entering into a transaction that will result in a [mortgage/lien/security interest] [on/in] your home. You have a legal right under federal law to cancel this transaction, without cost, within three business days from whichever of the following events occurs last:

(1) the date of the transaction, which is ___________________________; or
(2) the date you received your Truth in Lending disclosures; or
(3) the date you received this notice of your right to cancel.

If you cancel the transaction, the [mortgage/lien/security interest] is also cancelled. Within 20 calendar days after we receive your notice, we must take the steps necessary to reflect the fact that the [mortgage/lien/security interest] [on/in] your home has been cancelled, and we must return to you any money or property you have given to us or to anyone else in connection with this transaction.

You may keep any money or property we have given you until we have done the things mentioned above, but you must then offer to return the money or property. If it is impractical or unfair for you to return the property, you must offer its reasonable value. You may offer to return the property at your home or at the location of the property. Money must be returned to the address below. If we do not take possession of the money or property within 20 calendar days of your offer, you may keep it without further obligation.

How to Cancel
If you decide to cancel this transaction, you may do so by notifying us in writing, at

[creditor’s name and business address].

You may use any written statement that is signed and dated by you and states your intention to cancel, or you may use this notice by dating and signing below. Keep one copy of this notice because it contains important information about your rights.

If you cancel by mail or telegram, you must send the notice no later than midnight of ________ (date) (or midnight of the third business day following the latest of the three events listed above). If you send or deliver your written notice to cancel some other way, it must be delivered to the above address no later than that time.

I WISH TO CANCEL

NOTICE OF RIGHT TO CANCEL

Your Right To Cancel

You are entering into a new transaction to increase the amount of credit previously provided to you. Your home is the security for this new transaction. You have a legal right under federal law to cancel this new transaction, without cost, within three business days from whichever of the following events occurs last:

(1) the date of this new transaction, which is ___; or
(2) the date you received your new Truth in Lending disclosures; or
(3) the date you received this notice of your right to cancel.

If you cancel this new transaction, it will not affect any amount that you presently owe. Your home is the security for that amount. Within 20 calendar days after we receive your notice of cancellation of this new transaction, we must take the steps necessary to reflect the fact that your home does not secure the increase of credit. We must also return any money you have given to us or anyone else in connection with this new transaction.

You may keep any money we have given you in this new transaction until we have done the things mentioned above, but you must then offer to return the money at the address below.

If we do not take possession of the money within 20 calendar days of your offer, you may keep it without further obligation.

HOW TO CANCEL

If you decide to cancel this new transaction, you may do so by notifying us in writing, at

(Creditor’s name and business address).

You may use any written statement that is signed and dated by you and states your intention to cancel, or you may use this notice by dating and signing below. Keep one copy of this notice because it contains important information about your rights.

If you cancel by mail or telegram, you must send the notice no later than midnight of (Date) ___.___.

If you send or deliver your written notice to cancel some other way, it must be delivered to the above address no later than that time.

H-14—Variable-Rate Mortgage Sample

This disclosure describes the features of the adjustable-rate mortgage (ARM) program you are considering. Information on other ARM programs is available upon request.

How Your Interest Rate and Payment Are Determined

• Your interest rate will be based on an index rate plus a margin.
• Your payment will be based on the interest rate, loan balance, and loan term.
    - The interest rate will be based on the weekly average yield on United States Treasury securities adjusted to a constant maturity of 1 year (your index), plus our margin. Ask us for our current interest rate and margin.
• Information about the index rate is published weekly in the Wall Street Journal.

How Your Interest Rate Can Change

• Your interest rate will equal the index rate plus our margin unless your interest rate “caps” limit the amount of change in the interest rate.
• Your interest rate can change yearly.
• Your interest rate cannot increase or decrease more than 2 percentage points per year.
• Your interest rate cannot increase or decrease more than 5 percentage points over the term of the loan.
Federal Reserve System

How Your Monthly Payment Can Change

- Your monthly payment can increase or decrease substantially based on annual changes in the interest rate.
- (For example, on a $10,000, 30-year loan with an initial interest rate of 12.41 percent in effect in July 1996, the maximum amount that the interest rate can rise under this program is 5 percentage points, to 17.41 percent, and the monthly payment can rise from a first-year payment of $106.03 to a maximum of $145.34 in the fourth year. To see what your payment is, divide your mortgage amount by $10,000; then multiply the monthly payment by that amount. (For example, the monthly payment for a mortgage amount of $60,000 would be: $60,000 ÷ $10,000 = 6; 6 × $106.03 = $636.18 per month.)

- You will be notified in writing 25 days before the annual payment adjustment may be made. This notice will contain information about your interest rates, payment amount and loan balance.

*This is a margin we have used recently; your margin may be different.
**This interest rate reflects a 2 percentage point annual interest rate cap.
***This interest rate reflects a 5 percentage point lifetime interest rate cap.

Note: To see what your payments would have been during that period, divide your mortgage amount by $10,000; then multiply the monthly payment by that amount. (For example, in 1982 the monthly payment for a mortgage amount of $60,000 taken out in 1982 would be: $60,000 ÷ $10,000 = 6; 6 × $106.73 = $640.38)

You will be notified in writing 25 days before the annual payment adjustment may be made. This notice will contain information about your interest rates, payment amount and loan balance.)

Security: You are giving a security interest in the property being purchased.

Late Charge: If a payment is late, you will be charged 5% of the payment.

Prepayment: If you pay off early, you
\[\checkmark\] may \[\square\] will not have to pay a penalty.
\[\checkmark\] may \[\square\] will not be entitled to a refund of part of the finance charge.

Assumption: Someone buying your home cannot assume the remainder of the mortgage on the original terms.

See your contract documents for any additional information about nonpayment, default, any required repayment in full before the scheduled date, and prepayment refunds and penalties.

\* means an estimate
APPENDIX I TO PART 226—FEDERAL ENFORCEMENT AGENCIES

The following list indicates which federal agency enforces Regulation Z for particular classes of businesses. Any questions concerning compliance by a particular business should be directed to the appropriate enforcement agency. Terms that are not defined in the Federal Deposit Insurance Act (12 U.S.C. 1813(s)) shall have the meaning given to them in the International Banking Act of 1978 (12 U.S.C. 3101).
APPENDIX J TO PART 226—ANNUAL PERCENTAGE RATE COMPUTATIONS FOR CLOSED-END CREDIT TRANSACTIONS

(A) INTRODUCTION

(1) Section 226.22(a) of Regulation Z provides that the annual percentage rate for other than open-end credit transactions shall be determined in accordance with either the actuarial method or the United States Rule method. This appendix contains an explanation of the actuarial method as well as equations, instructions and examples of how this method applies to single advance and multiple advance transactions.

(2) Under the actuarial method, at the end of each unit-period (or fractional unit-period) the unpaid balance of the amount financed is increased by the finance charge earned during that period and is decreased by the payment made at the end of that period. The determination of unit-periods and fractional unit-periods shall be consistent with the definitions and rules in paragraphs (b)(3), (4) and (5) of this section and the general equation in paragraph (b)(8) of this section.

(3) In contrast, under the United States Rule method, at the end of each payment period, the unpaid balance of the amount financed is increased by the finance charge earned during that payment period and is decreased by the payment made at the end of that payment period. If the payment is less than the finance charge earned, the adjustment of the unpaid balance of the amount financed is postponed until the end of the next payment period. If at that time the sum of the two payments is still less than the total earned finance charge for the two payment periods, the adjustment of the unpaid balance of the amount financed is postponed still another payment period, and so forth.

(B) INSTRUCTIONS AND EQUATIONS FOR THE ACTUARIAL METHOD

(1) General Rule

The annual percentage rate shall be the nominal annual percentage rate determined...
by multiplying the unit-rate by the number of unit-periods in a year.

(2) Term of the Transaction

The term of the transaction begins on the date of its consummation, except that if the finance charge or any portion of it is earned beginning on a later date, the term begins on the later date. The term ends on the date the last payment is due, except that if an advance is scheduled after that date, the term ends on the later date. For computation purposes, the length of the term shall be equal to the time interval between any point in time on the beginning date to the same point in time on the ending date.

(3) Definitions of Time Intervals

(i) A period is the interval of time between advances or between payments and includes the interval of time between the date the finance charge begins to be earned and the date of the first advance thereafter or the date of the first payment thereafter, as applicable.

(ii) A common period is any period that occurs more than once in a transaction.

(iii) A standard interval of time is a day, week, semimonth, month, or a multiple of a week or a month up to, but not exceeding, 1 year.

(iv) All months shall be considered equal. Full months shall be measured from any point in time on a given date of a given month to the same point in time on the same date of another month. If a series of payments (or advances) is scheduled for the last day of each month, months shall be measured from the last day of the given month to the last day of another month. If payments (or advances) are scheduled for the 29th or 30th of each month, the last day of February shall be used when applicable.

(4) Unit-period

(i) In all transactions other than a single advance, single payment transaction, the unit-period shall be that common period, not to exceed 1 year, that occurs most frequently in the transaction, except that

(A) If 2 or more common periods occur with equal frequency, the smaller of such common periods shall be the unit-period; or

(B) If there is no common period in the transaction, the unit-period shall be that period which is the average of all periods rounded to the nearest whole standard interval of time. If the average is equally near 2 standard intervals of time, the lower shall be the unit-period.

(ii) In a single advance, single payment transaction, the unit-period shall be the term of the transaction, but shall not exceed 1 year.

(5) Number of Unit-periods Between 2 Given Dates

(i) The number of days between 2 dates shall be the number of 24-hour intervals between any point in time on the first date to the same point in time on the second date.

(ii) If the unit-period is a month, the number of full unit-periods between 2 dates shall be the number of months measured back from the later date. The remaining fraction of a unit-period shall be the number of days measured forward from the earlier date to the beginning of the first full unit-period, divided by 30. If the unit-period is a month, there are 12 unit-periods per year.

(iii) If the unit-period is a semimonth or a multiple of a month not exceeding 11 months, the number of days between 2 dates shall be 30 times the number of full months measured back from the later date, plus the number of remaining days. The number of full unit-periods and the remaining fraction of a unit-period shall be determined by dividing such number of days by 15 in the case of a semimonthly unit-period or by the appropriate multiple of 30 in the case of a monthly unit-period. If the unit-period is a semimonth to the same point in time on the second date.

(iv) If the unit-period is a day, a week, or a multiple of a week, the number of full unit-periods and the remaining fractions of a unit-period shall be determined by dividing the number of days between the 2 given dates by the number of days per unit-period. If the unit-period is a day, the number of unit-periods per year shall be 24. If the number of unit-periods per year shall be 12 divided by the number of months per unit-period.

(v) If the unit-period is a year, the number of full unit-periods between 2 dates shall be the number of full years (each equal to 12 months) measured back from the later date. The remaining fraction of a unit-period shall be

(A) The remaining number of months divided by 12 if the remaining interval is equal to a whole number of months, or

(B) The remaining number of days divided by 365 if the remaining interval is not equal to a whole number of months.

(vi) In a single advance, single payment transaction in which the term is less than a year and is equal to a whole number of months, the number of unit-periods in the term shall be 1, and the number of unit-periods per year shall be 12 divided by the number of months in the term or 365 divided by the number of days in the term.

(vii) In a single advance, single payment transaction in which the term is less than a year and is not equal to a whole number of
(6) Percentage Rate for a Fraction of a Unit-period

The percentage rate of finance charge for a fraction (less than 1) of a unit-period shall be equal to such fraction multiplied by the percentage rate of finance charge per unit-period.

(7) Symbols. The symbols used to express the terms of a transaction in the equation set forth in paragraph (b)(8) of this section are defined as follows:

\[ A_k \] = The amount of the kth advance.
\[ q_k \] = The number of full unit-periods from the beginning of the term of the transaction to the kth advance.
\[ e_k \] = The fraction of a unit-period in the time interval from the beginning of the term of the transaction to the kth advance.
\[ m \] = The number of advances.
\[ P_j \] = The amount of the jth payment.
\[ t_j \] = The number of full unit-periods from the beginning of the term of the transaction to the jth payment.
\[ f_j \] = The fraction of a unit-period in the time interval from the beginning of the term of the transaction to the jth payment.
\[ n \] = The number of payments.
\[ i \] = The percentage rate of finance charge per unit-period, expressed as a decimal equivalent.

Symbols used in the examples shown in this appendix are defined as follows:

\[ a_x \] = The present value of 1 per unit-period for x unit-periods, first payment due immediately.

\[ a_x = \frac{1}{(1+i)^1} + \frac{1}{(1+i)^2} + \cdots + \frac{1}{(1+i)^{x-1}} \]

\[ w \] = The number of unit-periods per year.
\[ I = w_i \times 100 = \text{The nominal annual percentage rate.} \]
(8) General equation. The following equation sets forth the relationship among the terms of a transaction:

\[
\frac{A_1}{1} + \frac{A_2}{(1+r)^1} + \ldots + \frac{A_m}{(1+r)^m} = q
\]

\[
\frac{P_1}{1} + \frac{P_2}{(1+r)^1} + \ldots + \frac{P_n}{(1+r)^n} = q
\]

(9) Solution of general equation by iteration process. (i) The general equation in paragraph (b)(8) of this section, when applied to a simple transaction in which a loan of $1000 is repaid by 36 monthly payments of $33.61 each, takes the special form:

\[
A = \frac{33.61}{(1+r)^{12}}
\]

Step 1: Let \( I \) = estimated annual percentage rate = 12.50 \%

Evaluate expression for \( A \), letting \( I = \frac{1000r}{100} = 1 \)

Result (referred to as \( A' \)) = 1004.674391

Step 2: Let \( I = I + .1 = 12.60 \%

Evaluate expression for \( A \), letting \( I = \frac{1000r}{100} = 2 \)

Result (referred to as \( A'' \)) = 1003.235366

Step 3: Interpolate for \( I \) (annual percentage rate):

\[
I = I + .1 \left( \frac{A - A'}{A'' - A'} \right)
\]

\[
= 12.60 + .1 \left( \frac{1000.00000 - 1004.674391}{1003.235366 - 1004.674391} \right)
\]

Step 4: First iteration, let \( I = 12.82483042 \% \) and repeat

Steps 1, 2, and 3 obtaining a new \( I = 12.82557859 \%

Second iteration, let \( I = 12.82557859 \% \) and repeat

Steps 1, 2, and 3 obtaining a new \( I = 12.82557529 \%

In this case, no further iterations are required to obtain the annual percentage rate correct to two decimal places, 12.83\%.
(ii) When the iteration approach is used, it is expected that calculators or computers will be programmed to carry all available decimals throughout the calculation and that enough iterations will be performed to make virtually certain that the annual percentage rate obtained, when rounded to 2 decimals, is correct. Annual percentage rates in the examples below were obtained by using a 10 digit programmable calculator and the iteration procedure described above.

(c) Examples for the actuarial method. (1) Single advance transaction, with or without an odd first period, and otherwise regular. The general equation in paragraph (b)(3) of this section can be put in the following special form for this type of transaction:

\[
A = \frac{1}{t} \left( \frac{F}{P_{a_s}} \right)
\]

Example (i): Monthly payments (regular first period)

Amount advanced \(A\) = $5000. Payment \(P\) = $230.
Number of payments \(n\) = 24.
Unit-period = 1 month. Unit-periods per year \(w\) = 12.
Advance, 1-10-78. First payment, 2-10-78.
From 1-10-78 through 2-10-78 = 1 unit-period. \((t = 1; f = 0)\) Annual percentage rate \(I = wi = .0969 = 9.69\%\)

Example (ii): Monthly payments (long first period)

Amount advanced \(A\) = $6000. Payment \(P\) = $200.
Number of payments \(n\) = 36.
Unit-period = 1 month. Unit-periods per year \(w\) = 12.
Advance, 2-10-78. First payment, 4-1-78.
From 3-1-78 through 4-1-78 = 1 unit-period. \((t = 1)\)
From 2-10-78 through 3-1-78 = 19 days. \((f = 19/30)\) Annual percentage rate \(I = wi = .1182 = 11.82\%\)

Example (iii): Semi-monthly payments (short first period)

Amount advanced \(A\) = $5000. Payment \(P\) = $219.17.
Number of payments \(n\) = 24.
Unit-period = 1/2 month. Unit-periods per year \(w\) = 24.
Advance, 2-23-78. First payment, 3-1-78. Payments made on 1st and 16th of each month.
From 2-23-78 through 3-1-78 = 6 days. \((t = 0; f = 6/15)\) Annual percentage rate \(I = wi = .1034 = 10.34\%\)

Example (iv): Quarterly payments (long first period)

Amount advanced \(A\) = $10,000. Payment \(P\) = $385.
Number of payments \(n\) = 40.
Unit-period = 3 months. Unit-periods per year \(w\) = 4.
Advance, 5-23-78. First payment, 10-1-78.
From 7-1-78 through 10-1-78 = 1 unit-period. \((t = 1)\)
From 6-1-78 through 7-1-78 = 1 month = 30 days. From 5-23-78 through 6-1-78 = 9 days. \((f = 39/90)\) Annual percentage rate \(I = wi = .0897 = 8.97\%\)
Example (v): Weekly payments (long first period)

Amount advanced \( A \) = $500. Payment \( P \) = $17.60.
Number of payments \( n \) = 30.
Unit-period = 1 week. Unit-periods per year \( w \) = 52.
Advance, 3-24-78. First payment, 4-21-78.
From 3-24-78 through 4-21-78 = 4 unit-periods. \( t = 4 \)
From 3-20-78 through 3-24-78 = 4 days. \( f = 4/7 \)
Annual percentage rate \( (i) \) = \( wi \) = .1496 = 14.96% 

\[ A = \frac{1}{t} \left[ P \left( 1 + \frac{n}{n-1} \right) + \frac{P_n}{1} \right] \]

Example (i): Monthly payments (regular first period and irregular first payment)

Amount advanced \( A \) = $5000. First payment \( P \) = $250.
Regular payment \( (P) \) = $230. Number of payments \( n \) = 24.
Unit-period = 1 month. Unit-periods per year \( (w) \) = 12.
Advance, 1-10-78. First payment, 2-10-78.
From 1-10-78 through 2-10-78 = 1 unit-period. \( t = 1; f = 0 \)
Annual percentage rate \( (i) \) = \( wi \) = .1008 = 10.08%

Example (ii): Payments every 4 weeks (long first period and irregular first payment)

Amount advanced \( A \) = $500. First payment \( P \) = $39.50.
Regular payment \( (P) \) = $38.31. Number of payments \( n \) = 12.
Unit-period = 4 weeks. Unit-periods per year \( (w) \) = 52/4 = 13.
Advance, 3-18-78. First payment, 4-20-78.
From 3-23-78 through 4-20-78 = 1 unit-period. \( t = 1 \)
From 3-18-78 through 3-23-78 = 5 days. \( f = 5/28 \)
Annual percentage rate \( (i) \) = \( wi \) = .2850 = 28.50%

(3) Single advance transaction, with an odd final payment, with or without an odd first period, and otherwise regular. The general equation in paragraph (b)(8) of this section can be put in the following special form for this type of transaction:

\[ A = \frac{1}{t} \left[ P \left( 1 + \frac{n}{n-1} \right) + \frac{P_n}{1} \right] \]
Example (i): Monthly payments (regular first period and irregular final payment)

Amount advanced (A) = $5000. Regular payment (P) = $230.
Final payment \( \left( \frac{P}{n} \right) = $280. \) Number of payments (n) = 24.

Unit-period = 1 month. Unit-periods per year (w) = 12.
Advance, 1-10-78. First payment, 2-10-78.
From 1-10-78 through 2-10-78 = 1 unit-period. \( (t = 1; f = 0) \)
Annual percentage rate \( (I) = \frac{wI}{w} = .1050 = 10.50\% \)

Example (ii): Payments every 2 weeks (short first period and irregular final payment)

Amount advanced (A) = $200. Regular payment (P) = $9.50.
Final payment \( \left( \frac{P}{n} \right) = $30. \) Number of payments (n) = 20.

Unit-period = 2 weeks. Unit-periods per year (w) = 52/2 = 26.
Advance, 4-3-78. First payment, 4-11-78.
From 4-3-78 through 4-11-78 = 8 days. \( (t = 0; f = 8/14) \)
Annual percentage rate \( (I) = \frac{wI}{w} = .1222 = 12.22\% \)

(4) Single advance transaction, with an odd first payment, odd final payment, with or without an odd first period, and otherwise regular.
The general equation in paragraph (b)(3) of this section can be put in the following special form for this type of transaction:

\[
A = \frac{1}{(1+t)(1+I)} \left[ P \left( \frac{1}{1+(\frac{I}{n-2}+\frac{P}{n})} \right) \right]
\]

Example (i): Monthly payments (regular first period, irregular first payment, and irregular final payment)

Amount advanced (A) = $5000. First payment \( \left( \frac{P}{1} \right) = $250. \)
Regular payment (P) = $230. Final payment \( \left( \frac{P}{n} \right) = $280. \)
Number of payments (n) = 24. Unit-period = 1 month.
Unit-periods per year (w) = 12.
Advance, 1-10-78. First payment, 2-10-78.
From 1-10-78 through 2-10-78 = 1 unit-period. \( (t = 1; f = 0) \)
Annual percentage rate \( (I) = \frac{wI}{w} = .1090 = 10.90\% \)

Example (ii): Payments every two months (short first period, irregular first payment, and irregular final payment)

Amount advanced (A) = $8000. First payment \( \left( \frac{P}{1} \right) = $449.36. \)
Regular payment (P) = $465. Final payment \( \left( \frac{P}{n} \right) = $200. \)
Number of payments (n) = 20. Unit-period = 2 months.
Unit-periods per year (w) = 12/2 = 6.
Advance, 1-10-78. First payment, 3-1-78.
From 2-1-78 through 3-1-78 = 1 month. From 1-10-78 through 2-1-78 = 22 days. \( (t = 0; f = 52/60) \)
Annual percentage rate \( (I) = \frac{wI}{w} = .0730 = 7.30\% \)
Federal Reserve System

Pt. 226, App. J

(5) Single advance, single payment transaction. The general equation in paragraph (b)(8) of this section can be put in the special forms below for single advance, single payment transactions. Forms 1 through 3 are for the direct determination of the annual percentage rate under special conditions. Form 4 requires the use of the iteration procedure of paragraph (b)(9) of this section and can be used for all single advance, single payment transactions regardless of term.

Form 1 - Term less than 1 year:

\[ I = 100w \left( \frac{P}{A} - 1 \right) \]

Form 2 - Term more than 1 year but less than 2 years:

\[ I = \frac{50}{c} \left\{ \left( \frac{1}{1 + t} \right) + 4t \left( \frac{P}{A} - 1 \right) \right\}^{1/2} - \left( 1 + t \right) \]

Form 3 - Term equal to exactly a year or exact multiple of a year:

\[ I = 100 \left( \frac{P}{A} - 1 \right) \]

Form 4 - Special form for iteration procedure (no restriction on term):

\[ A = \frac{P}{\left( 1 + t \right) \left( 1 + f \right)} \]

Example (i): Single advance, single payment (term of less than 1 year, measured in days)

Amount advanced \( (A) = \$1000. \) Payment \( (P) = \$1080. \)
Unit-period = 255 days. Unit-periods per year \( (w) = 365/255. \)
Advance, 1-3-78. Payment, 9-15-78.
From 1-3-78 through 9-15-78 = 255 days. \( (t = 1; f = 0) \)
Annual percentage rate \( (I) = wI = .1145 \approx 11.45\%. \) (Use Form 1 or 4.)

Example (ii): Single advance, single payment (term of less than 1 year, measured in exact calendar months)

Amount advanced \( (A) = \$1000. \) Payment \( (P) = \$1044. \)
Unit-period = 6 months. Unit-periods per year \( (w) = 2. \)
From 7-15-78 through 1-15-79 = 6 mos. \( (t = 1; f = 0) \)
Annual percentage rate \( (I) = wI = .0880 \approx 8.80\%. \) (Use Form 1 or 4.)

Example (iii): Single advance, single payment (term of more than 1 year but less than 2 years, fraction measured in exact months)

Amount advanced \( (A) = \$1000. \) Payment \( (P) = \$1135.19. \)
Unit-period = 1 year. Unit-periods per year \( (w) = 1. \)
Advance, 7-17-78. Payment, 1-17-80.
From 7-17-78 through 1-17-80 = 1 unit-period. \( (t = 1) \)
From 7-17-78 through 1-17-79 = 6 mos. \( (f = 6/12) \)
Annual percentage rate \( (I) = wI = .0876 \approx 8.76\%. \) (Use Form 2 or 4.)
Example (iv): Single advance, single payment (term of exactly
2 years)

Amount advanced ($A$) = $1000. Payment ($P$) = $1240.
Unit-period = 1 year. Unit-periods per year ($w$) = 1.
Advance, 1-3-78. Payment, 1-3-80.
From 1-3-78 through 1-3-79 = 1 unit-period. ($t = 2; f = 0$)
Annual percentage rate ($i$) = $w_i = .1136 = 11.36\%$. (Use Form 3 or 4.)

(6) Complex single advance transaction.

Example (i): Skipped payment loan (payments every 4 weeks)

A loan of $2135 is advanced on 1-25-78. It is to be repaid
by 24 payments of $100 each. Payments are due every 4 weeks
beginning 2-20-78. However, in those months in which 2 pay-
m ents would be due, only the first of the 2 payments is made
and the following payment is delayed by 2 weeks to place it in
the next month.
Unit-period = 4 weeks. Unit-periods per year ($w$) = 52/4 = 13.
First series of payments begins 26 days after 1-25-78.
($t = 0; f = 26/28$)

1
1

Second series of payments begins 9 unit-periods plus 2 weeks
after start of first series. ($t = 10; f = 12/28$)

2
2

Third series of payments begins 6 unit-periods plus 2 weeks
after start of second series. ($t = 16; f = 26/28$)

3
3

Last series of payments begins 6 unit-periods plus 2 weeks
after start of third series. ($t = 23; f = 12/28$)

4
4

The general equation in paragraph (b)(8) of this section can be
written in the special form:

$$
2135 = \frac{100}{\frac{1}{91}} + \frac{100}{\frac{1}{61}} + \frac{100}{\frac{1}{10}}
\frac{(1+(26/28))}{(1+(12/28))}(1+i)
$$

$$
= \frac{100}{\frac{1}{61}} + \frac{100}{\frac{1}{31}}
\frac{(1+(26/28))}{(1+(12/28))}(1+i)
$$

Annual percentage rate ($i$) = $w_i = .1200 = 12.00\%$
Example (ii): Skipped payment loan plus single payments

A loan of $7350 on 3-3-78 is to be repaid by 3 monthly payments of $1000 each beginning 9-15-78, plus a single payment of $2000 on 3-15-79, plus 3 more monthly payments of $750 each beginning 9-15-79, plus a final payment of $1000 on 2-1-80.

Unit-period = 1 month. Unit-periods per year (w) = 12.

First series of payments begins 6 unit-periods plus 12 days after 3-3-78. \( t = 6; f = 12/30 \)

Second series of payments (single payment) occurs 12 unit-periods plus 12 days after 3-3-78. \( t = 12; f = 12/30 \)

Third series of payments begins 18 unit-periods plus 12 days after 3-3-78. \( t = 18; f = 12/30 \)

Final payment occurs 22 unit-periods plus 29 days after 3-3-78. \( t = 22; f = 29/30 \)

The general equation in paragraph (b)(8) of this section can be written in the special form:

\[
7350 = \frac{1000 \cdot 3^{1/6}}{1+(12/30)i(1+i)} + \frac{2000}{1+(12/30)i(1+i)} + \frac{750 \cdot 3^{1/18}}{1+(12/30)i(1+i)} + \frac{1000 \cdot 22}{1+(29/30)i(1+i)}
\]

Annual percentage rate (I) = \( w1 = .1022 = 10.22\% \)

Example (iii): Mortgage with varying payments

A loan of $39,688.56 (net) on 4-10-78 is to be repaid by 360 monthly payments beginning 6-1-78. Payments are the same for 12 months at a time as follows:

<table>
<thead>
<tr>
<th>Year</th>
<th>Monthly payment</th>
<th>Year</th>
<th>Monthly payment</th>
<th>Year</th>
<th>Monthly payment</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>$291.81</td>
<td>11</td>
<td>$385.76</td>
<td>21</td>
<td>$380.43</td>
</tr>
<tr>
<td>2</td>
<td>300.18</td>
<td>12</td>
<td>385.42</td>
<td>22</td>
<td>379.60</td>
</tr>
<tr>
<td>3</td>
<td>308.78</td>
<td>13</td>
<td>385.03</td>
<td>23</td>
<td>378.66</td>
</tr>
<tr>
<td>4</td>
<td>317.61</td>
<td>14</td>
<td>384.62</td>
<td>24</td>
<td>377.69</td>
</tr>
<tr>
<td>5</td>
<td>326.65</td>
<td>15</td>
<td>384.17</td>
<td>25</td>
<td>376.60</td>
</tr>
<tr>
<td>6</td>
<td>335.92</td>
<td>16</td>
<td>383.67</td>
<td>26</td>
<td>375.42</td>
</tr>
<tr>
<td>7</td>
<td>345.42</td>
<td>17</td>
<td>383.13</td>
<td>27</td>
<td>374.13</td>
</tr>
<tr>
<td>8</td>
<td>355.15</td>
<td>18</td>
<td>382.54</td>
<td>28</td>
<td>372.72</td>
</tr>
<tr>
<td>9</td>
<td>365.12</td>
<td>19</td>
<td>381.90</td>
<td>29</td>
<td>371.18</td>
</tr>
<tr>
<td>10</td>
<td>375.33</td>
<td>20</td>
<td>381.20</td>
<td>30</td>
<td>369.50</td>
</tr>
</tbody>
</table>

Unit-period = 1 month. Unit-periods per year (w) = 12.
From 5–1–78 through 6–1–78 = 1 unit-period. (t = 1)
From 4–10–78 through 5–1–78 = 21 days. (f = 21/30)

The general equation in paragraph (b)(8) of this section can be written in the special form:

\[
\frac{39,688.56}{(1+21/30)} = \left(1 + \frac{291.81 + \frac{300.18}{12} + \frac{308.78}{24} + \ldots + \frac{369.50}{348}}{(1+i)}\right)
\]

Annual percentage rate (i) = w = .0980 = 9.80%

(7) Multiple advance transactions.

Example (1): Construction loan

Three advances of $20,000 each are made on 4–10–79, 6–12–79, and 9–18–79. Repayment is by 240 monthly payments of $612.36 each beginning 12–10–79.

Unit-period = 1 month. Unit-periods per year (w) = 12.
From 4–10–79 through 6–12–79 = (2+2/30) unit-periods.
From 4–10–79 through 9–18–79 = (9+8/30) unit-periods.
From 4–10–79 through 12–10–79 = (8) unit-periods.

The general equation in paragraph (b)(8) of this section is changed to the single advance mode by treating the 2nd and 3rd advances as negative payments:
Federal Reserve System

Pt. 226, App. J

\[
20,000 = \frac{612.36 \times \frac{240}{240}}{8} = \frac{20,000}{2} \left(1 + \frac{(2/30)1}{1 + 1}\right) = \frac{20,000}{5} \left(1 + \frac{(8/30)1}{1 + 1}\right)
\]

Annual percentage rate (\(i\)) = \(w_1 = .1025 = 10.25\%\)

Example (11): Student loan

A student loan consists of 8 advances: $1800 on 9-5-78, 9-5-79, 9-5-80, and 9-5-81; plus $1000 on 1-5-79, 1-5-80, 1-5-81, and 1-5-82. The borrower is to make 50 monthly payments of $240 each beginning 7-1-78 (prior to first advance).

Unit-period = 1 month. Unit-periods per year (\(w\)) = 12.

Zero point is date of first payment since it precedes first advance. From 7-1-78 to 9-5-78 = (2 + 4/30) unit-periods.

\[
\begin{array}{cccc}
9-5-79 = (14 + 4/30) \\
9-5-80 = (26 + 4/30) \\
9-5-81 = (38 + 4/30) \\
1-5-79 = (6 + 4/30) \\
1-5-80 = (18 + 4/30) \\
1-5-81 = (30 + 4/30) \\
1-5-82 = (42 + 4/30)
\end{array}
\]

Since the zero point is date of first payment, the general equation in paragraph (b)(8) of this section is written in the single advance form below by treating the first payment as a negative advance and the 8 advances as negative payments:

\[
-240 = \frac{240}{(1 + 1)} - \frac{1800}{(1 + (4/30)1)} \left[ \frac{1}{2} + \frac{1}{(1 + 1)} \right] + \\
\frac{1}{(1 + 1)} + \frac{1}{(1 + 1)} + \frac{1}{(1 + 1)} + \\
\frac{1000}{(1 + (4/30)1)} \left[ \frac{1}{6} + \frac{1}{18} + \frac{1}{30} + \frac{1}{42} \right] \\
\]

Annual percentage rate (\(i\)) = \(w_1 = .3204 = 32.04\%\)

[46 FR 20892, Apr. 7, 1981, as amended at 46 FR 29246, June 1, 1981]

457
APPENDIX K TO PART 226—TOTAL ANNUAL LOAN COST RATE COMPUTATIONS FOR REVERSE MORTGAGE TRANSACTIONS

(a) Introduction. Creditors are required to disclose a series of total annual loan cost rates for each reverse mortgage transaction. This appendix contains the equations creditors must use in computing the total annual loan cost rate for various transactions, as well as instructions, explanations, and examples for various transactions. This appendix is modeled after appendix J of this part (Annual Percentage Rates Computations for Closed-end Credit Transactions); creditors should consult appendix J of this part for additional guidance in using the formulas for reverse mortgages.

(b) Instructions and equations for the total annual loan cost rate—(1) General rule. The total annual loan cost rate shall be the nominal total annual loan cost rate determined by multiplying the unit-period rate by the number of unit-periods in a year.

(2) Term of the transaction. For purposes of total annual loan cost disclosures, the term of a reverse mortgage transaction is assumed to begin on the first of the month in which consummation is expected to occur. If a loan cost or any portion of a loan cost is initially incurred beginning on a date later than consummation, the term of the transaction is assumed to begin on the first of the month in which that loan cost is incurred. For purposes of total annual loan cost disclosures, the term ends on each of the assumed loan periods specified in §226.33(c)(6).

(3) Definitions of time intervals.

(i) A period is the interval of time between advances.

(ii) A common period is any period that occurs more than once in a transaction.

(iii) A standard interval of time is a day, week, semimonth, month, or a multiple of a week or a month up to, but not exceeding, 1 year.

(iv) All months shall be considered to have an equal number of days.

(4) Unit-period. (i) In all transactions other than single-advance, single-payment transactions, the unit-period shall be that common period, not to exceed one year, that occurs most frequently in the transaction, except that:

(A) If two or more common periods occur with equal frequency, the smaller of such common periods shall be the unit-period; or

(B) If there is no common period in the transaction, the unit-period shall be that period which is the average of all periods rounded to the nearest whole standard interval of time. If the average is equally near two standard intervals of time, the lower shall be the unit-period.

(ii) In a single-advance, single-payment transaction, the unit-period shall be the term of the transaction, but shall not exceed one year.

(5) Number of unit-periods between two given dates. (i) The number of days between two dates shall be the number of 24-hour intervals between any point in time on the first date to the same point in time on the second date.

(ii) If the unit-period is a month, the number of full unit-periods between two dates shall be the number of months. If the unit-period is a month, the number of unit-periods per year shall be 12.

(iii) If the unit-period is a semimonth or a multiple of a month not exceeding 11 months, the number of days between two dates shall be 30 times the number of full months. The number of full unit-periods shall be determined by dividing the number of days by 15 in the case of a semimonthly unit-period or by the appropriate multiple of 30 in the case of a multimonthly unit-period. If the unit-period is a semimonth, the number of unit-periods per year shall be 36. If the number of unit-periods is a multiple of a month, the number of unit-periods per year shall be 12 divided by the number of months per unit-period.

(iv) If the unit-period is a day, a week, or a multiple of a week, the number of full unit-periods shall be determined by dividing the number of days by 30 in the case of a monthly unit-period. If the unit-period is a week or a multiple of a week, the number of unit-periods per year shall be 52 divided by the number of weeks per unit-period.

(v) If the unit-period is a day, the number of full unit-periods between two dates shall be the number of full days. If the unit-period is a day, the number of days per unit-period shall be 365. If the unit-period is a week or a multiple of a week, the number of days per unit-period shall be 365 divided by the number of weeks per unit-period.

(vi) If the unit-period is a day, the number of full unit-periods between two dates shall be the number of full days. If the unit-period is a day, the number of days per unit-period shall be 365. If the unit-period is a week or a multiple of a week, the number of days per unit-period shall be 365 divided by the number of weeks per unit-period.

(b) Symbols. The symbols used to express the terms of a transaction in the equation set forth in paragraph (b)(8) of this appendix are defined as follows:

Appr = The amount of each periodic or lump-sum advance to the consumer under the reverse mortgage transaction.

APR = Percentage rate of the total annual loan cost per unit-period, expressed as a decimal equivalent.

m = The number of unit-periods until the jth advance.

n = The number of unit-periods between consummation and repayment of the debt.

P = Min (Bal, Val). This is the maximum amount that the creditor can be repaid at the specified loan term.

Bal = Loan balance at time of repayment, including all costs and fees incurred by the consumer (including any shared appreciation or shared equity amount) compounded to time n at the creditor’s contract rate of interest.

Val = \( Val_0 (1 + \sigma)^n \), where Val is the property value at consummation, \( \sigma \) is the assumed
annual rate of appreciation for the dwelling, and \( y \) is the number of years in the assumed term. \( \text{Val}_0 \) must be reduced by the amount of any equity reserved for the consumer by agreement between the parties, or by 7 percent (or the amount or percentage specified in the credit agreement), if the amount required to be repaid is limited to the net proceeds of sale. 

\( \sigma \) = The summation operator.

Symbols used in the examples shown in this appendix are defined as follows:

- **\( FV_{n-j} \)** = The future value of \( 1 \) per unit period for \( x \) unit periods, first advance due immediately (at time = 0, which is consummation).

\[
FV_{n-j} = \sum_{j=0}^{x-1} (1+i)^{x-j} = (1+i)^x + (1+i) - 1 \times (1+i)
\]

- **\( w \)** = The number of unit-periods per year.
- **\( I \)** = \( w \times 100 \) = the nominal total annual loan cost rate.

**Example:** General equation. The total annual loan cost rate for a reverse mortgage transaction must be determined by first solving the following formula, which sets forth the relationship between the advances to the consumer and the amount owed to the creditor under the terms of the reverse mortgage agreement for the loan cost rate per unit-period (the loan cost rate per unit-period is then multiplied by the number of unit-periods per year to obtain the total annual loan cost rate \( I \); that is, \( I = wI \)):

\[
\sum_{j=0}^{x-1} A_j (1+i)^{n-j} = P_n
\]

**Solution of general equation by iteration process.** (i) The general equation in paragraph \( b)(7) \) of this appendix, when applied to a simple transaction for a reverse mortgage loan of equal monthly advances of \$350 each, and with a total amount owed of \$14,313.08 at an assumed repayment period of two years, takes the special form:

\[
P_n = 350 \times \left( \frac{(1+i)^2 - 1}{i} \right) \times (1+i) = 48.53\
\]

Using the iteration procedures found in steps 1 through 4 of \( b)(9)(i) \) of appendix \( J \) of this part, the total annual loan cost rate, correct to two decimals, is 48.53%.

(ii) In using these iteration procedures, it is expected that calculators or computers will be programmed to carry all available decimals throughout the calculation and that enough iterations will be performed to make virtually certain that the total annual loan cost rate obtained, when rounded to two decimals, is correct. Total annual loan cost rates in the examples below were obtained by using a 10-digit programmable calculator and the iteration procedure described in appendix \( J \) of this part.

**Assumption for discretionary cash advances.** If the consumer controls the timing of advances made after consummation (such as in a credit line arrangement), the creditor must use the general formula in paragraph \( b)(7) \) of this appendix. The total annual loan cost rate shall be based on the assumption that 50 percent of the principal loan amount is advanced at closing, or in the case of an open-end transaction, at the time the consumer becomes obligated under the plan. Creditors shall assume the advances are made at the interest rate then in effect and that no further advances are made to, or repayments made by, the consumer during the term of the transaction or plan.

**Assumption for variable-rate reverse mortgage transactions.** If the interest rate for a reverse mortgage transaction may increase during the loan term and the amount or timing is not known at consummation, creditors shall base the disclosures on the initial interest rate in effect at the time the disclosures are provided.

**Assumption for closing costs.** In calculating the total annual loan cost rate, creditors shall assume all closing and other consumer costs are financed by the creditor.

(c) **Examples of total annual loan cost rate computations**—(1) Lump-sum advance at consummation.

- **Lump-sum advance to consumer at consummation:** \$30,000
- **Total of consumer’s loan costs financed at consummation:** \$4,500
- **Contract interest rate:** 11.60%
- **Estimated time of repayment (based on life expectancy of a consumer at age 78):** 10 years
- **Appraised value of dwelling at consummation:** \$100,000
- **Assumed annual dwelling appreciation rate:** 4%

\( P_{10} = \text{Min (103,385.84, 137,662.72)} \)
Total annual loan cost rate \(100(0.1317069438 \times 1) = 13.17\%\)

(2) Monthly advance beginning at consummation.

Monthly advance to consumer, beginning at consummation: $492.51

Total of consumer’s loan costs financed at consummation: $4,500

\[
P_{120} = \text{Min} (107,053.63, 200,780.02) \\
492.51 \times \left[ \frac{(1+i)^{120} - 1}{i} \times (1+i) \right] = 107,053.63
\]

\(i = 0.009061140\)

Total annual loan cost rate \(100(0.009061140 \times 12) = 10.87\%\)

(3) Lump sum advance at consummation and monthly advances thereafter.

Lump sum advance to consumer at consummation: $10,000

Monthly advance to consumer, beginning at consummation: $725

Total of consumer’s loan costs financed at consummation: $4,500

\[
P_{144} = \text{Min} (221,818.30, 234,189.82) \\
10,000(1+i)^{144-0} + \sum_{j=0}^{143} 725(1+i)^{144-j} = 221,818.30
\]

\(i = 0.007708844\)

Total annual loan cost rate \(100(0.007708844 \times 12) = 9.25\%\)

(d) Reverse mortgage model form and sample form—(1) Model form.

Initial Loan Charges
Closing costs:
Mortgage insurance premium:
Annuity cost:

Monthly Loan Charges
Servicing fee:

Other Charges:
Mortgage insurance:
Shared Appreciation:

Repayment Limits
The cost of any reverse mortgage loan depends on how long you keep the loan and how much your house appreciates in value. Generally, the longer you keep a reverse mortgage, the lower the total annual loan cost rate will be.

This table shows the estimated cost of your reverse mortgage loan, expressed as an annual rate. It illustrates the cost for three (four) loan terms: 2 years, [half of life expectancy for someone your age,] that life expectancy, and 1.4 times that life expectancy. The table also shows the cost of the loan, assuming the value of your home appreciates at three different rates: 0%, 4% and 8%.

The total annual loan cost rates in this table are based on the total charges associated with this loan. These charges typically include principal, interest, closing costs, mortgage insurance premiums, annuity costs, and servicing costs (but not costs when you sell the home).

The rates in this table are estimates. Your actual cost may differ if, for example, the amount of your loan advances varies or the interest rate on your mortgage changes.

**SIGNING AN APPLICATION OR RECEIVING THESE DISCLOSURES DOES NOT REQUIRE YOU TO COMPLETE THIS LOAN**

(2) Sample Form.

The total annual loan cost rates in this table are based on the total charges associated with this loan. These charges typically include principal, interest, closing costs, mortgage insurance premiums, annuity costs, and servicing costs (but not disposition costs—costs when you sell the home).

The rates in this table are estimates. Your actual cost may differ if, for example, the amount of your loan advances varies or the interest rate on your mortgage changes.

---

### Total Annual Loan Cost Rate

**Loan Terms**

- Age of youngest borrower: 75
- Appraised property value: $100,000
- Interest rate: 9%
- Monthly advance: $301.80
- Initial draw: $1,000
- Line of credit: $4,000

**Initial Loan Charges**

- Closing costs: $5,000
- Mortgage insurance premium: None
- Annuity cost: None

**Monthly Loan Charges**

- Servicing fee: None

**Other Charges**

- Mortgage insurance: None
- Shared Appreciation: None

**Repayment Limits**

Net proceeds estimated at 93% of projected home sale

SUPPLEMENT I TO PART 226—OFFICIAL STAFF INTERPRETATIONS

INTRODUCTION

1. Official status. This commentary is the vehicle by which the staff of the Division of Consumer and Community Affairs of the Federal Reserve Board issues official staff interpretations of Regulation Z, as revised effective April 1, 1981. Good faith compliance with this commentary affords protection from liability under 130(f) of the Truth in Lending Act. Section 130(f) (15 U.S.C. 1640) protects creditors from civil liability for any act done or omitted in good faith in conformity with any interpretation issued by a duly authorized official or employee of the Federal Reserve System.
2. Procedure for requesting interpretations. Under appendix C of the regulation, anyone may request an official staff interpretation. Interpretations that are adopted will be incorporated in this commentary following publication in the Federal Register. No official staff interpretations are expected to be issued other than by means of this commentary.

3. Status of previous interpretations. All statements and opinions issued by the Federal Reserve Board and its staff interpreting previous Regulation Z remain effective until October 1, 1982, only insofar as they interpret that regulation. When compliance with revised Regulation Z becomes mandatory on October 1, 1982, the Board and staff interpretations of the previous regulation will be entirely superseded by the revised regulation and this commentary except with regard to liability under the previous regulation.

4. Rules of construction. (a) Lists that appear in the commentary may be exhaustive or illustrative; the appropriate construction should be clear from the context. In most cases, illustrative lists are introduced by phrases such as “including, but not limited to,” “among other things,” “for example,” or “such as.”

(b) Throughout the commentary and regulation, reference to previous Regulation Z is also intended.

(c) Throughout the commentary, reference to “this section” or “this paragraph” means the section or paragraph in the regulation that is the subject of the comment.

5. Comment designations. Each comment in the commentary is identified by a number and the regulatory section or paragraph which it interprets. The comments are designated with as much specificity as possible according to the particular regulatory provision addressed. For example, some of the comments to § 226.18(b) are further divided by paragraph, such as Comment 18(b)(1)-1 and Comment 18(b)(2)-1. In other cases, comments have more general application and are designated, for example, as Comment 18-1 or Comment 18(b)-1. This introduction may be cited as Comments 1-1 through 1-7. Comments to the appendices may be cited, for example, as Comment ann. A-1.

6. Cross-references. The following cross-references to related material appear at the end of each section of the commentary:

(a) “Statute”—those sections of the Truth in Lending Act on which the regulatory provision is based (and any other relevant statutes);

(b) “Other sections”—other provisions in the regulation necessary to understand that section;

(c) “Previous regulation”—parallel provisions in previous Regulation Z; and

(d) “1981 changes”—a brief description of the major changes made by the 1981 revisions to Regulation Z.

Where appropriate a fifth category (“Other regulations”) provides cross-references to other regulations.

7. Transition rules. (a) Though compliance with the revised regulation is not mandatory until April 1, 1982, creditors may begin complying as of April 1, 1981. During the intervening year, a creditor may convert its entire operation to the new requirements at one time, or it may convert to the new requirements in stages. In general, however, a creditor may not mix the regulatory requirements when making disclosures for a particular closed-end transaction or open-end account; all the disclosures for a single closed-end transaction (or open-end account) must be made in accordance with the previous regulation, or all the disclosures must be made in accordance with the revised regulation. For purposes of this regulation, the creditor is not required to take any particular action beyond the requirements of the revised regulation to indicate its conversion to the revised regulation.

(b) The revised regulation may be relied on to determine if any disclosures are required for a particular transaction or to determine if a person is a creditor subject to Truth in Lending requirements, whether or not other operations have been converted to the revised regulation. For example, layaway plans are not subject to the revised regulation, nor are oral agreements to lend money if there is no finance charge. These provisions may be relied on even if the creditor is making other disclosures under the previous regulation. The new rules governing whether or not disclosures must be made for refinancings and assumptions are also available to a creditor that has not yet converted its operations to the revised regulation.

(c) In addition to the above rules, applicable to both open-end and closed-end credit, the following guidelines are relevant to open-end credit:

• The creditor need not remake initial disclosures that were made under the previous regulation, even if the revised periodic statements contain terminology that is inconsistent with those initial disclosures.

• A creditor may add inserts to its old open-end forms in order to convert them to the revised rules until such time as the old forms are used up.

• No change-in-terms notice is required for changes resulting from the conversion to the revised regulation.

12 CFR Ch. II (1–1–09 Edition)

Section 226.1—Authority, Purpose, Coverage, Organization, Enforcement and Liability

1(c) Coverage.
1. Foreign applicability. Regulation Z applies to all persons (including branches of foreign banks and sellers located in the United States) that extend consumer credit to residents (including resident aliens) of any state as defined in §226.2. If an account is located in the United States and credit is extended to a U.S. resident, the transaction is subject to the regulation. This will be the case whether or not a particular advance or purchase on the account takes place in the United States and whether or not the tender of credit is chartered or based in the United States and whether or not the extension of credit is chartered or based in the United States or a foreign country. Thus, a U.S. resident’s use in Europe of a credit card issued by a bank in the consumer’s home town is covered by the regulation. The regulation does not apply to a foreign branch of a U.S. bank when the foreign branch extends credit to a U.S. citizen residing or visiting abroad or to a foreign national abroad.

References
Statute: Section 102.
Other sections: None.
Previous regulation: §226.1.
1981 changes: A discussion of coverage has been added to §226.1 so that the reader will understand from the start what is subject to the regulation. Language has also been added to explain the reorganization of the regulation into subparts that group together the provisions relating to general matters, open-end credit, closed-end credit, and miscellaneous rules. The provisions on consumer leasing have been issued by the Board as a separate regulation, Regulation M (12 CFR part 213).

2(a) Definitions.
2(a)(2) Advertisement.
1. Coverage. Only commercial messages that promote consumer credit transactions requiring disclosures are advertisements. Messages inviting, offering, or otherwise announcing generally to prospective customers the availability of credit transactions, whether in visual, oral, or print media, are covered by Regulation Z (12 CFR part 226).

1. Examples include:
A. Messages in a newspaper, magazine, leaflet, promotional flyer, or catalog.
B. Announcements on radio, television, or public address system.
C. On-line messages, such as on the Internet.
D. Direct mail literature or other printed material on any exterior or interior sign.
E. Point-of-sale displays.
F. Telephone solicitations.
G. Price tags that contain credit information.
H. Letters sent to customers as part of an organized solicitation of business.
I. Messages on checking account statements offering auto loans at a stated annual percentage rate.
J. Communications promoting a new open-end plan or closed-end transaction.

ii. The term does not include:
A. Direct personal contacts, such as follow-up letters, cost estimates for individual consumers, or oral or written communication relating to the negotiation of a specific transaction.
B. Informational material, for example, interest rate and loan term memos, distributed only to business entities.
C. Notices required by federal or state law, if the law mandates that specific information be displayed and only the information so mandated is included in the notice.
D. News articles the use of which is controlled by the news medium.
E. Market research or educational materials that do not solicit business.
F. Communications about an existing credit account (for example, a promotion encouraging additional or different uses of an existing credit card account).

2. Persons covered. All persons must comply with the advertising provisions in §§226.16 and 226.21, not just those that meet the definition of creditor in §226.2(a)(15). Thus, home builders, merchants, and others who are not themselves creditors must comply with the advertising provisions of the regulation if they advertise consumer credit transactions. However, under section 145 of the act, the owner and the personnel of the medium, in which an advertisement appears, or through which it is disseminated, are not subject to civil liability for violations.
Intervals. In open-end credit plans, the billing cycle determines the intervals for which creditor statements are required; these intervals are also used as measuring points for other duties of the creditor. Typically, billing cycles are monthly, but they may range from 30 to more than 4 days from a fixed date (for example, the third Thursday of each month) or from one of these holidays (July 4, for example) to the preceding Friday (July 3). The observed holiday (in the example, July 3) is a business day for purposes of rescission or the delivery of disclosures for certain high-cost mortgages covered by §226.32.

2(a)(7) Card issuer. A card issuer is a natural person at whose request a card is issued for consumer credit purposes or who is a co-obligor or guarantor for such a card issued to another. The second category does not include an employee who is a co-obligor or guarantor on a card issued to the employer for business purposes, nor does it include a person who is merely the authorized user of a card issued to another.

2(a)(8) Card issuer. A card issuer is a natural person at whose request a card is issued for consumer credit purposes or who is a co-obligor or guarantor for such a card issued to another. The second category does not include an employee who is a co-obligor or guarantor on a card issued to the employer for business purposes, nor does it include a person who is merely the authorized user of a card issued to another.

2 Limited application of regulation. For the limited purposes of the rules on issuance of credit cards and liability for unauthorized use, a cardholder includes any person, including an organization, to whom a card is issued for any purpose—including a business, agricultural, or commercial purpose.

Issuance. See the commentary to §226.12(a).

4 Dual-purpose cards and dual-card systems. Some card issuers offer dual-purpose cards that are for business as well as consumer purposes. If a card is issued to an individual for consumer purposes, the fact that an organization has guaranteed to pay the debt does not make it business credit. On the other hand, if a card is issued for business purposes, the fact that an individual sometimes uses it for personal purposes does not subject the card issuer to the provisions on periodic statements, billing error resolution, and other protections afforded to consumer credit. Some card issuers offer dual-card systems—that is, they issue two cards to the same individual, one intended for business use, the other for consumer or personal use. With such a system, the same person may be a cardholder for general purposes when using the card issued for consumer use, and a cardholder only for the limited purposes of the

Accounting. Most creditors issue periodic and additional statements, which periodic disclosure statements are referred to as billing cycles. The term billing cycle is interchangeable with billing cycle for definitional purposes, since some creditors' billing cycles do not involve sending of bills in the traditional sense but only statements of account activity. This is commonly the case with financial institutions when periodic payments are made through payroll deduction or through automatic debit of the consumer's asset account.

Creditors that do not bill. The term cycle is interchangeable with billing cycle for definitional purposes, since some creditors' billing cycles do not involve the sending of bills in the traditional sense but only statements of account activity. This is commonly the case with financial institutions when periodic payments are made through payroll deduction or through automatic debit of the consumer's asset account.

Equal cycles. Although cycles must be equal, there is a permissible variance to account for weekends, holidays, and differences in the number of days in months. If the actual date of each statement does not vary by more than 4 days from a fixed day (for example, the third Thursday of each month) or date (for example, the 15th of each month) that the creditor regularly uses, the intervals between statements are considered equal. The requirement that cycles be equal applies even if the creditor applies a daily periodic rate to determine the finance charge. The requirement that intervals be equal does not apply to the transitional billing cycle that can occur when the creditor occasionally changes its billing cycles so as to establish a new statement day or date. (See the commentary to §226.9(c).)

Payment reminder. The sending of a regular payment reminder (rather than a late payment notice) establishes a cycle for which the creditor must send periodic statements.

Business day. Activities that indicate that the creditor is open for substantially all of its business functions include the availability of personnel to make loan disbursements, to open new accounts, and to handle credit transaction inquiries. Activities that indicate that the creditor is not open for substantially all of its business functions include a retailer merely accepting credit cards for purchases or a bank having its customer-service windows open only for limited purposes such as deposits and withdrawals, bill paying, and related services.

Rescission rule. A more precise rule for what is a business day (all calendar days except Sundays and the federal legal holidays listed in 5 U.S.C. 6103(a) applies when the right of rescission or mortgages subject to §226.32 are involved. (See also comment 31(c)(1)-1.) Four federal legal holidays are identified in 5 U.S.C. 6103(a) by a specific date: New Year's Day, January 1; Independ-
restrictions on issuance and liability when using the card issued for business purposes.

2(a)(9) Cash price.
1. Components. This amount is a starting point for determining the total sale price under §226.18 for credit sales. Any charges imposed equally in cash and credit transactions may be included in the cash price, or they may be treated as other amounts financed under §226.18(b)(2).

2. Service contracts. Service contracts include contracts for the repair or the servicing of goods, such as mechanical breakdown coverage, even if such a contract is characterized as insurance under state law.

3. Rebates. The creditor has complete flexibility in the way it treats rebates for purposes of disclosure and calculation. See the commentary to §226.18(b).

2(a)(10) Closed-end credit.
1. General. The coverage of this term is defined by exclusion. That is, it includes any credit arrangement that does not fall within the definition of open-end credit. Subpart C contains the disclosure rules for closed-end credit when the obligation is subject to a finance charge or is payable by written agreement in more than 4 installments.

2(a)(11) Consumer.
1. Scope. Guarantors, endorsers, and sureties are not generally consumers for purposes of the regulation, but they may be entitled to rescind under certain circumstances and they may have certain rights if they are obligated on credit card plans.

2. Rescission rules. For purposes of rescission under §§226.15 and 226.23, a consumer includes any natural person whose ownership interest in his or her principal dwelling is subject to the risk of loss. Thus, if a security interest is taken in A’s ownership interest in a house and that house is A’s principal dwelling, A is a consumer for purposes of rescission, even if A is not liable, either primarily or secondarily, on the underlying consumer credit transaction. An ownership interest does not include, for example, leasesholds or inchoate rights, such as dower.

3. Land trusts. Credit extended to land trusts, as described in the commentary to §226.3(a), is considered to be extended to a natural person for purposes of the definition of consumer.

2(a)(12) Consumer credit.
1. Primary purpose. There is no precise test for what constitutes credit offered or extended for personal, family, or household purposes, nor for what constitutes the primary purpose. See, however, the discussion of business purposes in the commentary to §226.3(a).

2(a)(13) Consummation.
1. State law governs. When a contractual obligation on the consumer’s part is created is a matter to be determined under applicable law; Regulation Z does not make this determination. A contractual commitment agreement, for example, that under applicable law binds the consumer to the credit terms would be consummation. Consumption, however, does not occur merely because the consumer has made some financial investment in the transaction (for example, by paying a nonrefundable fee) unless, of course, applicable law holds otherwise.

2. Credit v. sale. Consumption does not occur when the consumer becomes contractually committed to a sale transaction, unless the consumer also becomes legally obligated to accept a particular credit arrangement. For example, when a consumer pays a nonrefundable deposit to purchase an automobile, a purchase contact may be created, but consummation for purposes of the regulation does not occur unless the consumer also contracts for financing at that time.

2(a)(14) Credit.
1. Exclusions. The following situations are not considered credit for purposes of the regulation:
   • Layaway plans, unless the consumer is contractually obligated to continue making payments. Whether the consumer is so obligated is a matter to be determined under applicable law. The fact that the consumer is not entitled to a refund of any amounts paid towards the cash price of the merchandise does not bring layaways within the definition of credit.
   • Tax liens, tax assessments, court judgments, and court approvals of reaffirmation of debts in bankruptcy. However, third-party financing of such obligations (for example, a bank loan obtained to pay off a tax lien) is credit for purposes of the regulation.
   • Insurance premium plans that involve payment in installments with each installment representing the payment for insurance coverage for a certain future period of time, unless the consumer is contractually obligated to continue making payments.
   • Home improvement transactions that involve progress payments, if the consumer pays, as the work progresses, only for work completed and has no contractual obligation to continue making payments.
   • Borrowing against the accrued cash value of an insurance policy or a pension account, if there is no independent obligation to repay.
   • Letters of credit.
   • The execution of option contracts. However, there may be an extension of credit when the option is exercised, if there is an agreement at that time to defer payment of a debt.
   • Investment plans in which the party extending capital to the consumer risks the loss of the capital advanced. This includes, for example, an arrangement with a home purchaser in which the investor pays a portion of the downpayment and of the periodic
Federal Reserve System

mortgage payments in return for an ownership interest in the property, and shares in any gain or loss of property value.

- Mortgage assistance plans administered by a government agency in which a portion of the consumer’s monthly payment amount is paid by the agency. No finance charge is imposed on the subsidy amount and that amount is due in a lump-sum payment on a set date or upon the occurrence of certain events. (If payment is not made when due, a new note imposing a finance charge may be written, which may then be subject to the regulation.)

2. Payday loans; deferred presentment. Credit includes a transaction in which a cash advance is made to a consumer in exchange for the consumer’s personal check, or in exchange for the consumer’s authorization to debit the consumer’s deposit account, and where the parties agree either that the check will not be cashed or deposited, or that the consumer’s deposit account will not be debited, until a designated future date. This type of transaction is often referred to as a “payday loan” or “payday advance” or “deferred presentment loan.” A fee charged in connection with such a transaction may be a finance charge for purposes of §226.4, regardless of how the fee is characterized under state law. Where the fee charged constitutes a finance charge under §226.4 and the person advancing funds regularly extends consumer credit, that person is a creditor and is required to provide disclosures consistent with the requirements of Regulation Z. See §226.2(a)(17).

2(a)(15) Credit card.

1. Usable from time to time. A credit card must be usable from time to time. Since this involves the possibility of repeated use of a single device, checks and similar instruments that can be used only once to obtain a single credit extension are not credit cards.

2. Examples. i. Examples of credit cards include:

A. A card that guarantees checks or similar instruments, if the asset account is also tied to an overdraft line or if the instrument directly accesses a line of credit.

B. A card that accesses both a credit and an asset account (that is, a debit-credit card).

C. An identification card that permits the consumer to defer payment on a purchase.

D. An identification card indicating loan approval that is presented to a merchant or to a lender, whether or not the consumer signs a separate promissory note for each credit extension.

E. A card or device that can be activated upon receipt to access credit, even if the card has a substantive use other than credit, such as a purchase-price discount card. Such a card or device is a credit card notwithstanding the fact that the recipient must first contact the card issuer to access or activate the credit feature.

ii. In contrast, a credit card does not include, for example:

A. A check-guarantee or debit card with no credit feature or agreement, even if the creditor occasionally honors an inadvertent overdraft.

B. Any card, key, plate, or other device that is used in order to obtain petroleum products for business purposes from a wholesale distribution facility or to gain access to that facility, and that is required to be used without regard to payment terms.

3. Charge card. Generally, charge cards are cards used in connection with an account on which outstanding balance cannot be carried from one billing cycle to another and are payable when a periodic statement is received. Under the regulation, a reference to credit cards generally includes charge cards. The term charge card is, however, distinguished from credit card in §§226.5a, 226.9(e), 226.9(f), and 226.20(d), and appendices G–10 through G–13. When the term credit card is used in those provisions, it refers to credit cards other than charge cards.

2(a)(16) Credit sale.

1. Special disclosure. If the seller is a creditor in the transaction, the transaction is a credit sale and the special credit sale disclosures (that is, the disclosures under §226.18(j)) must be given. This applies even if there is more than one creditor in the transaction and the creditor making the disclosures is not the seller. See the commentary to §226.17(d).

2. Sellers who arrange credit. If the seller of the property or services involved arranged for financing but is not a creditor as to that sale, the transaction is not a credit sale. Thus, if a seller assists the consumer in obtaining a direct loan from a financial institution and the consumer’s note is payable to the financial institution, the transaction is a loan and only the financial institution is a creditor.

3. Refinancings. Generally, when a credit sale is refinanced within the meaning of §226.20(a), loan disclosures should be made. However, if a new sale of goods or services is also involved, the transaction is a credit sale.

4. Incidental sales. Some lenders sell a product or service—such as credit, property, or health insurance—as part of a loan transaction. Section 226.4 contains the rules on whether the cost of credit life, disability or property insurance is part of the finance charge. If the insurance is financed, it may be disclosed as a separate credit sale transaction or disclosed as part of the primary transaction; if the latter approach is taken, either loan or credit sale disclosures may be made. See the commentary to §226.17(c)(1) for further discussion of this point.
5. Credit extensions for educational purposes. A credit extension for educational purposes in which an educational institution is the creditor may be treated as either a credit sale or a loan, regardless of whether the funds are given directly to the student, credited to the student’s account, or disbursed to other persons on the student’s behalf. The disclosures required by the regulation must be given if the transaction is treated as a loan.

2(a)(17) Creditor. The definition contains four independent tests. If any one of the tests is met, the person is a creditor for purposes of that particular test.

Paragraph 2(a)(17)(i).

1. Prerequisites. This test is composed of 2 requirements, both of which must be met in order for a particular credit extension to be subject to the regulation and for the credit extension to count towards satisfaction of the numerical tests mentioned in footnote 3 to §226.2(a)(17). First, there must be either or both of the following:

- A written (rather than oral) agreement to pay in more than 4 installments. A letter that merely confirms an oral agreement does not constitute a written agreement for purposes of the definition.
- A finance charge imposed for the credit. The obligation to pay the finance charge need not be in writing.

Second, the obligation must be payable to the person in order for that person to be considered a creditor. If an obligation is made payable to bearer, the creditor is the one who initially accepts the obligation.

2. Assignees. If an obligation is initially payable to one person, that person is the creditor even if the obligation by its terms is simultaneously assigned to another person. For example:

- An auto dealer and a bank have a business relationship in which the bank supplies the dealer with credit sale contracts that are initially made payable to the dealer and provide for the immediate assignment of the obligation to the bank. The dealer and purchaser execute the contract only after the bank approves the creditworthiness of the purchaser. Because the obligation is initially payable on its face to the dealer, the dealer is the only creditor in the transaction.

3. Numerical tests. The examples below illustrate how the numerical tests of footnote 3 are applied. The examples assume that consumer credit with a finance charge or written agreement for more than 4 installments was extended in the years in question and that the person did not extend such credit in 1982.

4. Counting transactions. For purposes of closed-end credit, the creditor counts each credit transaction. For open-end credit, transactions means accounts, so that outstanding accounts are counted instead of individual credit extensions. Normally the number of transactions is measured by the preceding calendar year; if the requisite number is met, then the person is a creditor for all transactions in the current year. However, if the person did not meet the test in the preceding year, the number of transactions is measured by the current calendar year. For example, if the person extends consumer credit 20 times in 1983, it is a creditor for purposes of the regulation for the last extension of credit in 1983 and for all extensions of consumer credit in 1984. On the other hand, if a business begins in 1983 and extends consumer credit 20 times, it is not a creditor for purposes of the regulation in 1983. If it extends consumer credit 75 times in 1984, however, it becomes a creditor for purposes of the regulation (and must begin making disclosures) after the 25th extension of credit in that year and is a creditor for all extensions of consumer credit in 1985.

5. Relationship between consumer credit in general and credit secured by a dwelling. Extensions of credit secured by a dwelling are counted towards the 25-extensions test. For example, if in 1983 a person extends unsecured consumer credit 23 times and consumer credit secured by a dwelling twice, it becomes a creditor for the succeeding extensions of credit, whether or not they are secured by a dwelling. On the other hand, extensions of consumer credit not secured by a dwelling are not counted towards the number of credit extensions secured by a dwelling. For example, if in 1983 a person extends credit not secured by a dwelling 8 times and credit secured by a dwelling 3 times, it is not a creditor.

6. Effect of satisfying one test. Once one of the numerical tests is satisfied, the person is also a creditor for the other type of credit. For example, in 1983 a person extends consumer credit secured by a dwelling 5 times. That person is a creditor for all succeeding credit extensions, whether they involve credit secured by a dwelling or not.

7. Trusts. In the case of credit extended by trusts, each individual trust is considered a separate entity for purposes of applying the criteria. For example:

- A bank is the trustee for 3 trusts; Trust A makes 15 extensions of consumer credit annually; Trust B makes 10 extensions of consumer credit annually; and Trust C makes 30 extensions of consumer credit annually. Only Trust C is a creditor for purposes of the regulation.

8. Loans from employee savings plans. Some employee savings plans permit participants to borrow money up to a certain percentage of their account balances, and use a trust to administer the receipt and disbursement of funds. Unless each participant’s account is an individual plan and trust, the creditor should apply the numerical tests to the plan as a whole rather than to the individual account, even if the loan amount is determined
by reference to the balance in the individual account and the repayments are credited to the individual account. The person to whom the obligation is originally made payable (whether the plan, the trust, or the trustee) is the creditor for purposes of the act and regulation.

Paragraph 2(a)(17)(ii). [Reserved]
Paragraph 2(a)(17)(iii).
1. Card issuers subject to Subpart B. Section 226.2(a)(17)(iii) makes certain card issuers creditors for purposes of the open-end credit provisions of the regulation. This includes, for example, the issuers of so-called travel and entertainment cards that expect repayment at the first billing and do not impose a finance charge. Since all disclosures are to be made only as applicable, such card issuers would omit finance charge disclosures. Other provisions of the regulation regarding such areas as scope, definitions, determination of which charges are finance charges, Spanish language disclosures, record retention, and use of model forms, also apply to such card issuers.

Paragraph 2(a)(17)(iv).
1. Card issuers subject to Subparts B and C. Section 226.2(a)(17)(iv) includes as creditors card issuers extending closed-end credit in which there is a finance charge or an agreement to pay in more than 4 installments. These card issuers are subject to the appropriate provisions of Subparts B and C, as well as to the general provisions.

2(a)(18) Downpayment.
1. Allocation. If a consumer makes a lump-sum payment, partially to reduce the cash price and partially to pay prepaid finance charges, only the portion attributable to reducing the cash price is part of the downpayment. (See the commentary to §226.2(a)(23).)
2. Pick-up payments. Creditors may treat the deferred portion of the downpayment, often referred to as pick-up payments, in a number of ways. If the pick-up payment is treated as part of the downpayment:
   • It is subtracted in arriving at the amount financed under §226.18(b).
   • It may, but need not, be reflected in the payment schedule under §226.18(g).

If the pick-up payment does not meet the definition (for example, if it is payable after the second regularly scheduled payment) or if the creditor chooses not to treat it as part of the downpayment:
   • It must be included in the amount financed.
   • It must be shown in the payment schedule.

Whichever way the pick-up payment is treated, the total of payments under §226.18(h) must equal the sum of the payments disclosed under §226.18(g).

3. Effect of existing liens. 1. No cash payment. In a credit sale, the “downpayment” may only be used to reduce the cash price. For example, when a trade-in is used as the downpayment and the existing lien on an automobile to be traded in exceeds the value of the automobile, creditors must disclose a zero on the downpayment line rather than a negative number. To illustrate, assume a consumer owes $10,000 on an existing automobile loan and that the trade-in value of the automobile is only $5,000, leaving a $5,000 deficit. The creditor should disclose a downpayment of $0, not −$2,000.
   ii. Cash payment. If the consumer makes a cash payment, creditors may, at their option, disclose the entire cash payment as the downpayment, or apply the cash payment first to any excess lien amount and disclose any remaining cash as the downpayment. In the above example:
   A. If the downpayment disclosed is equal to the cash payment, the $2,000 deficit must be reflected as an additional amount financed under §226.18(b)(2).
   B. If the consumer provides $1,500 in cash (which does not extinguish the $2,000 deficit), the creditor may disclose a downpayment of $1,500 or of $0.
   C. If the consumer provides $3,000 in cash, the creditor may disclose a downpayment of $3,000 or of $1,000.

2(a)(19) Dwelling.
1. Scope. A dwelling need not be the consumer’s principal residence to fit the definition and thus a vacation or second home could be a dwelling. However, for purposes of the definition of residential mortgage transaction and the right to rescind, a dwelling must be the principal residence of the consumer. See the commentary to §§226.2(a)(24), 226.15, and 226.23.
2. Use as a residence. Mobile homes, boats, and trailers are dwellings if they are in fact used as residences, just as are condominium and cooperative units. Recreational vehicles, campers, and the like not used as residences are not dwellings.
3. Relation to exemptions. Any transaction involving a security interest in a consumer’s principal dwelling (as well as in any real property) remains subject to the regulation despite the general exemption in §226.3(b) for credit extensions over $25,000.

2(a)(20) Open-end credit.
1. General. This definition describes the characteristics of open-end credit (for which the applicable disclosure and other rules are contained in Subpart B), as distinct from closed-end credit. Open-end credit is consumer credit that is extended under a plan and meets all 3 criteria set forth in the definition.
2. Existence of a plan. The definition requires that there be a plan, which connotes a contractual arrangement between the creditor and the consumer. Some creditors offer programs containing a number of different credit features. The consumer has a single account with the institution that can be
accessed repeatedly via a number of sub-accounts established for the different program features and rate structures. Some features of the program might be used repeatedly (for example, an overdraft line) while others might be used infrequently (such as the part of the credit line available for secured credit). If the program as a whole is subject to prescheduled payments, it will otherwise meet the definition of open-end credit, such a program would be considered a single, multi-featured plan.

3. Repeated transactions. Under this criterion, the creditor must reasonably contemplate repeated transactions. This means that the credit plan must be usable from time to time and the creditor must legitimately expect that there will be repeat business rather than a one-time credit extension. The creditor must expect repeated dealings with consumers under the credit plan as a whole and need not believe a consumer will reuse a particular feature of the plan. The determination of whether a creditor can reasonably contemplate repeated transactions requires an objective analysis. Information that much of the creditor’s customer base with accounts under the plan make repeated transactions over some period of time is relevant to the determination, particularly when the plan is opened primarily for the financing of infrequently purchased products or services. A standard based on reasonable belief by a creditor necessarily includes some margin for judgmental error. The fact that particular consumers do not return for further credit extensions does not prevent a plan from having been properly characterized as open-end. For example, if much of the customer base of a clothing store makes repeat purchases, the fact that some consumers use the plan only once would not affect the characterization of the store’s plan as open-end credit. The criterion regarding repeated transactions is a question of fact to be decided in the context of the creditor’s type of business and the creditor’s relationship with its customers. For example:

i. It would be more reasonable for a thrift institution chartered for the benefit of its members to contemplate repeated transactions with a member than for a seller of aluminum siding to make the same assumption about its customers.

ii. It would be more reasonable for a financial institution to make advances from a line of credit for the purchase of an automobile than for an automobile dealer to sell a car under an open-end plan.

4. Finance charge on an outstanding balance. The requirement that a finance charge may be computed and imposed from time to time on the outstanding balance means that there is no specific amount financed for the plan for which the finance charge, total of payments, and payment schedule can be calculated. A plan may meet the definition of open-end credit even though a finance charge is not normally imposed, provided the creditor has the right, under the plan, to impose a finance charge from time to time on the outstanding balance. For example, in some plans, such as certain china club plans, a finance charge is not imposed if the consumer pays all or a specified portion of the outstanding balance within a given time period. Such a plan could meet the finance charge criterion, if the creditor has the right to impose a finance charge, even though the consumer actually pays no finance charges during the existence of the plan because the consumer takes advantage of the option to pay the balance (either in full or in installments) within the time necessary to avoid finance charges.

5. Reusable line. The total amount of credit that may be extended during the existence of an open-end plan is unlimited because available credit is generally replenished as earlier advances are repaid. A line of credit is self-replenishing even though the plan itself has a fixed expiration date, as long as during the plan’s existence the consumer may use the line, repay, and reuse the credit. The creditor may verify credit information such as the consumer’s continued income and employment status or information for security purposes. This criterion of unlimited credit distinguishes open-end credit from a series of advances made pursuant to a close-end credit loan commitment. For example:

- Under a closed-end commitment, the creditor might agree to lend a total of $10,000 in a series of advances as needed by the consumer. When a consumer has borrowed the full $10,000, no more is advanced under that particular agreement, even if there has been repayment of a portion of the debt.

This criterion does not mean that the creditor must establish a specific credit limit for the line of credit or that the line of credit must always be replenished to its original amount. The creditor may reduce a credit limit or refuse to extend new credit in a particular case due to changes in the economy, the creditor’s financial condition, or the consumer’s creditworthiness. (The rules in §226.5b(f), however, limit the ability of a creditor to suspend credit advances for home equity plans.) While consumers should have a reasonable expectation of obtaining credit as long as they remain current and within any preset credit limits, further extensions of credit need not be an absolute right in order for the plan to meet the self-replenishing criterion.

6. Open-end real estate mortgages. Some credit plans call for negotiated advances under so-called open-end real estate mortgages. Each such plan must be independently measured against the definition of open-end credit, regardless of the terminology used in the industry to describe the plan. The fact
that a particular plan is called an open-end real estate mortgage, for example, does not, by itself, mean that it is open-end credit under the regulation.

2(a)(21) Periodic rate.

1. Basis. The periodic rate may be stated as a percentage (for example, 1 1/2% per month) or as a decimal equivalent (for example, .015 monthly). It may be based on any portion of a year the creditor chooses. Some creditors use 1/360 of an annual rate as their periodic rate. These creditors:
   - May disclose a 1/360 rate as a daily periodic rate, without further explanation, if it is in fact only applied 360 days per year. But if the creditor applies that rate for 365 days, the creditor must note that fact and, of course, disclose the true annual percentage rate.
   - Would have to apply the rate to the balance to disclose the annual percentage rate with the degree of accuracy required in the regulation (that is, within 1/8 of 1 percentage point of the rate based on the actual 365 days in the year).

2. Transaction charges. Periodic rate does not include initial one-time transaction charges, even if the charge is computed as a percentage of the transaction amount.

2(a)(22) Person.

1. Joint ventures. A joint venture is an organization and is therefore a person.

2. Attorneys. An attorney and his or her client are considered to be the same person for purposes of this regulation when the attorney is acting within the scope of the attorney-client relationship with regard to a particular transaction.

3. Trusts. A trust and its trustee are considered to be the same person for purposes of this regulation.

2(a)(23) Prepaid finance charge.

1. General. Prepaid finance charges must be taken into account under §226.18(b) in computing the disclosed amount financed, and must be disclosed if the creditor provides an itemization of the amount financed under §226.18(c).

2. Examples. Common examples of prepaid finance charges include:
   - Buyer’s points.
   - Service fees.
   - Loan fees.
   - Fiduciary’s fees.
   - Loan guarantee insurance.
   - Credit investigation fees.

However, in order for these or any other finance charges to be considered prepaid, they must be either paid separately in cash or check or withheld from the proceeds. Prepaid finance charges include any portion of the finance charge paid prior to or at closing or settlement.

3. Exclusions. Add-on and discount finance charges are not prepaid finance charges for purposes of this regulation. Finance charges are not prepaid merely because they are precomputed, whether or not a portion of the charge will be rebated to the consumer upon prepayment. See the commentary to §226.18(b).

4. Allocation of lump-sum payments. In a credit sale transaction involving a lump-sum payment by the consumer and a discount or other item that is a finance charge under §226.4, the discount or other item is a prepaid finance charge to the extent the lump-sum payment is not applied to the cash price. For example, a seller sells property to a consumer for $10,000, requires the consumer to pay $3,000 at the time of the purchase, and finances the remainder as a closed-end credit transaction. The cash price of the property is $9,000. The seller is the creditor in the transaction and therefore the $1,000 difference between the credit and cash prices (the discount) is a finance charge. (See the commentary to §§226.4(b)(9) and 226.4(c)(5).) If the creditor applies the entire $3,000 to the cash price and adds the $1,000 finance charge to the interest on the $6,000 to arrive at the total finance charge, all of the $3,000 lump-sum payment is a downpayment and the discount is not a prepaid finance charge. However, if the creditor only applies $2,000 of the lump-sum payment to the cash price, then $2,000 of the $3,000 is a downpayment and the $1,000 discount is a prepaid finance charge.

2(a)(24) Residential mortgage transaction.

1. Relation to other sections. This term is important in six provisions in the regulation:
   - Section 226.4(c)(7)—exclusions from the finance charge.
   - Section 226.15(f)—exemption from the right of rescission.
   - Section 226.16(q)—whether or not the obligation is assumable.
   - Section 226.19—special timing rules.
   - Section 226.20(b)—disclosure requirements for assumptions.
   - Section 226.23(f)—exemption from the right of rescission.

2. Lien status. The definition is not limited to first lien transactions. For example, a consumer might assume a paid-down first mortgage (or borrow part of the purchase price) and borrow the balance of the purchase price from a creditor who takes a second mortgage. The second mortgage transaction is a residential mortgage transaction if the dwelling purchased is the consumer’s principal residence.

3. Principal dwelling. A consumer can only have one principal dwelling at a time. Thus, a vacation or other second home would not be a principal dwelling. However, if a consumer buys or builds a new dwelling that will become the consumer’s principal dwelling within a year or upon the completion of construction, the new dwelling is considered
the principal dwelling for purposes of applying this definition to a particular transaction. See the commentary to §§226.15(a) and 226.23(a).

4. Construction financing. If a transaction meets the definition of a residential mortgage transaction and the creditor chooses to disclose it as several transactions under §226.17(c)(6), each one is considered to be a residential mortgage transaction, even if different creditors are involved. For example:
• The creditor makes a construction loan to finance the initial construction of the consumer’s principal dwelling, and the loan will be disbursed in 5 advances. The creditor gives 6 sets of disclosures (5 for the construction phase and 1 for the permanent phase). Each one is a residential mortgage transaction.
• One creditor finances the initial construction of the consumer’s principal dwelling and another creditor makes a loan to satisfy the construction loan and provide permanent financing. Both transactions are residential mortgage transactions.

5. Acquisition. 1. A residential mortgage transaction finances the acquisition of a consumer’s principal dwelling. The term does not include a transaction involving a consumer’s principal dwelling if the consumer had previously purchased and acquired some interest to the dwelling, even though the consumer had not acquired full legal title.

ii. Examples of new transactions involving a previously acquired dwelling include the financing of a balloon payment due under a land sale contract and an extension of credit made to a joint owner of property to buy out the other joint owner’s interest. In these instances, disclosures are not required under §226.18(b) or §226.19(a) (assumability policies and early disclosures for residential mortgage transactions). However, the rescission rules of §§226.15 and 226.23 do apply to these new transactions.

iii. In other cases, the disclosure and rescission rules do not apply. For example, where a buyer enters into a written agreement with the creditor holding the seller’s mortgage, allowing the buyer to assume the mortgage, if the buyer had previously purchased the property and agreed with the seller to make the mortgage payments, §259.26(b) does not apply (assumptions involving residential mortgages).

6. Multiple purpose transactions. A transaction meets the definition of this section if any part of the loan proceeds will be used to finance the acquisition or initial construction of the consumer’s principal dwelling. For example, a transaction to finance the initial construction of the consumer’s principal dwelling is a residential mortgage transaction even if a portion of the funds will be disbursed directly to the consumer or used to satisfy a loan for the purchase of the land on which the dwelling will be built.

7. Construction on previously acquired vacant land. A residential mortgage transaction includes a loan to finance the construction of a consumer’s principal dwelling on a vacant lot previously acquired by the consumer.

1. Threshold test. The threshold test is whether a particular interest in property is recognized as a security interest under applicable law. The regulation does not determine whether a particular interest is a security interest under applicable law. If the creditor is unsure whether a particular interest is a security interest under applicable law (for example, if statutes and case law are either silent or inconclusive on the issue), the creditor may at its option consider such interests as security interests for Truth in Lending purposes. However, the regulation and the commentary do exclude specific interests, such as after-acquired property and accessories, from the scope of the definition regardless of their categorization under applicable law, and these named exclusions may not be disclosed as security interests under the regulation. (But see the discussion of exclusions elsewhere in the commentary to §226.2(a)(25).)

2. Exclusions. The general definition of security interest excludes three groups of interests: Incidental interests, interests in after-acquired property, and interests that arise solely by operation of law. These interests may not be disclosed with the disclosures required under §226.18, but the creditor is not precluded from preserving these rights elsewhere in the contract documents, or invoking and enforcing such rights, if it is otherwise lawful to do so. If the creditor is unsure whether a particular interest is one of the excluded interests, the creditor may, at its option, consider such interests as security interests for Truth in Lending purposes.

3. Incidental interests. Incidental interests in property that are not security interests include, among other things:
• Assignment of rents.
• Right to condemnation proceeds.
• Interests in accessories and replacements.
• Interests in escrow accounts, such as for taxes and insurance.
• Waiver of homestead or personal property rights.

The notion of an incidental interest does not encompass an explicit security interest in an insurance policy if that policy is the primary collateral for the transaction—for example, in an insurance premium financing transaction.

4. Operation of law. Interests that arise solely by operation of law are excluded from the general definition. Also excluded are interests arising by operation of law that are
merely repeated or referred to in the contract. However, if the creditor has an interest that arises by operation of law, such as a vendor’s lien, and takes an independent security interest in the same property, such as a UCC security interest, the latter interest is a disclosable security interest unless otherwise provided.

5. Recission rules. Security interests that arise solely by operation of law are security interests for purposes of rescission. Examples of such interests are mechanics’ and materialmen’s liens.

6. Specificity of disclosure. A creditor need not separately disclose multiple security interests that it may hold in the same collateral. The creditor need only disclose that the transaction is secured by the collateral, even when security interests from prior transactions remain of record and a new security interest is taken in connection with the transaction. In disclosing the fact that the transaction is secured by the collateral, the creditor also need not disclose how the security interest arose. For example, in a closed-end credit transaction, a rescission notice need not specifically state that a new security interest is “acquired” or an existing security interest is “retained” in the transaction.

The acquisition or retention of a security interest in the consumer’s principal dwelling instead may be disclosed in a rescission notice with a general statement such as the following: “Your home is the security for the new transaction.”

2(b) Rules of construction.

1. Footnotes. Footnotes are used extensively in the regulation to provide special exceptions and more detailed explanations and examples. Material that appears in a footnote has the same legal weight as material in the body of the regulation.

2. Amount. The numerical amount must be a dollar amount unless otherwise indicated. For example, in a closed-end transaction (Subpart C), the amount financed and the amount of any payment must be expressed as a dollar amount. In some cases, an amount should be expressed as a percentage. For example, in disclosures provided before the first transaction under an open-end plan (Subpart B), creditors are permitted to explain how the amount of any finance charge will be determined; where a cash advance fee (which is a finance charge) is a percentage of each cash advance, the amount of the finance charge for that fee is expressed as a percentage.

Statute: Section 103.
Other sections: None.
Other regulations: Regulation E (12 CFR 205.2(d)).
Previous regulation: Sections 226.2, 226.8, and 229.9.

1981 changes: Section 226.2 implements amended section 103 of the act. Separate definitions for comparative index of credit cost, discount, organization, period, real property, real property transaction, regular price, and surcharge have been deleted. The definitions relating specifically to consumer leases are now found in the separate consumer leasing regulation, Regulation M (12 CFR Part 213).

Several terms are now defined elsewhere in the regulation or commentary rather than in §226.2. For example, finance charge is described and explained in §226.4, and agricultural purpose is discussed in the commentary to §226.3. Some terms, such as unauthorized use, are now defined as part of the substantive sections to which they apply. Other terms previously defined, such as customer and organization, are merged into new definitions. Section 226.2 contains new definitions for arranger of credit, business day, closed-end credit, consumer, consummation, downpayment, prepaid finance charge, and residential mortgage transaction.

The major changes in the definitions are as follows:

Arranger of credit has a significantly different meaning. It reflects the statutory amendment that limits arrangers to those who regularly arrange credit extensions for persons who are not themselves creditors. This definition was deleted effective October 1, 1982.

Billing cycle largely restates the prior definition, but requires cycles to be regular, and allows the four-day variance to be measured from a regular day as well as date. The definition also incorporates an interpretation that cycles may be no longer than quarterly. Business day is new in the sense that the term previously appeared only in a footnote to the rescission provision, but it is now of general applicability. The general rule that it is a day when the creditor is open for business is new, but the rule for rescission purposes is the same as in the previous regulation.

Cash price now explicitly permits inclusion of various incidental charges imposed equally in cash and credit transactions.

Consumer has a narrower meaning in that guarantors, sureties, and endorsers are excluded from the general definition.

Consumer credit reflects the new statutory exemption for agricultural credit.

Consummation is a significant departure from longstanding interpretations of the previous definition. It now focuses only on the time the consumer becomes contractually obligated, rather than the time the consumer pays a nonrefundable fee or suffers an economic penalty for failing to go forward with the credit transaction.

Credit generally parallels the previous definition, but modifies the previous interpretations of the definition by excluding more transactions.
Creditor reflects the statutory amendments to the act that were intended to eliminate the problem of multiple creditors in a transaction. The regularly standard is still used, but it is now defined in terms of the frequency of the credit extensions. The new definition also requires that there be a written agreement to pay in more than 4 installments if no finance charge is imposed. Finally, the obligation must be initially payable to a person for that person to be the creditor.

Dwelling reflects the statutory amendment that expanded the scope of the definition to include any residential structure, whether or not it is real property under state law.

Open-end credit reflects the amended statutory definition requiring that the creditor reasonably contemplate repeated transactions. The new definition no longer requires the consumer to have the privilege of paying either in installments or in full.

Periodic rate combines the previous definitions of period and periodic rate with clarification in the commentary concerning transaction charges and 360-day-year factors.

Security interest is much narrower than the previous definition. Reflected in the legislative history of the simplification amendments, incidental interests are expressly excluded from the definition. Except for purposes of rescission, interests that arise solely by operation of law are also excluded.

Section 226.3—Exempt Transactions

3(a) Business, commercial, agricultural, or organizational credit.

1. Primary purposes. A creditor must determine in each case if the transaction is primarily for a primary purpose. If some question exists as to the primary purpose for a credit extension, the creditor is, of course, free to make the disclosures, and the fact that disclosures are made under such circumstances is not controlling on the question of whether the transaction was exempt.

2. Factors. In determining whether credit to finance an acquisition—such as securities, antiques, or art—is primarily for business or commercial purposes (as opposed to a consumer purpose), the following factors should be considered:
   • The relationship of the borrower’s primary occupation to the acquisition. The more closely related, the more likely it is to be business purpose.
   • The degree to which the borrower will personally manage the acquisition. The more personal involvement there is, the more likely it is to be business purpose.
   • The ratio of income from the acquisition to the total income of the borrower. The higher the ratio, the more likely it is to be business purpose.
   • The size of the transaction. The larger the transaction, the more likely it is to be business purpose.
   • The borrower’s statement of purpose for the loan.

Examples of business-purpose credit include:
   • A loan to expand a business, even if it is secured by the borrower’s residence or personal property.
   • A loan to improve a principal residence by putting in a business office.
   • A business account used occasionally for consumer purposes.

Examples of consumer-purpose credit include:
   • Credit extensions by a company to its employees or agents if the loans are used for personal purposes.
   • A loan secured by a mechanic’s tools to pay a child’s tuition.
   • A personal account used occasionally for business purposes.

3. Non-owner-occupied rental property. Credit extended to acquire, improve, or maintain rental property (regardless of the number of housing units) that is not owner-occupied is deemed to be for business purposes. This includes, for example, the acquisition of a warehouse that will be leased or a single-family house that will be rented to another person to live in. If the owner expects to occupy the property for more than 14 days during the coming year, the property cannot be considered non-owner-occupied and this special rule will not apply. For example, a beach house that the owner will occupy for a month in the coming summer and rent out the rest of the year is owner occupied and is not governed by this special rule. See Comment 3(a)-4, however, for rules relating to owner-occupied rental property.

4. Owner-occupied rental property. If credit is extended to acquire, improve, or maintain rental property that is or will be owner-occupied within the coming year, different rules apply:
   • Credit extended to acquire the rental property is deemed to be for business purposes if it contains more than 2 housing units.
   • Credit extended to improve or maintain the rental property is deemed to be for business purposes if it contains more than 4 housing units. Since the amended statute defines dwelling to include 1 to 4 housing units, this rule preserves the right of rescission for credit extended for purposes other than acquisition.

Neither of these rules means that an extension of credit for property containing fewer than the requisite number of units is necessarily consumer credit. In such cases, the determination of whether it is business or
consumer credit should be made by considering the factors listed in Comment 3(a)–2.

5. Business credit later refinanced. Business-purpose credit that is exempt from the regulation may later be refinanced for consumer purposes. Such a transaction is consumer credit requiring disclosures only if the existing obligation is satisfied and replaced by a new obligation made for consumer purposes undertaken by the same obligor.

6. Agricultural purpose. An agricultural purpose includes the planting, propagating, nurturing, harvesting, catching, storing, exhibiting, marketing, transporting, processing, or manufacturing of food, beverages (including alcoholic beverages), flowers, trees, live-stock, poultry, bees, wildlife, fish, or shellfish by a natural person engaged in farming, fishing, or growing crops, flowers, trees, live-stock, poultry, bees, or wildlife. The exemption also applies to a transaction involving real property that includes a dwelling (for example, the purchase of a farm with a homestead) if the transaction is primarily for agricultural purposes.

7. Organizational credit. The exemption for transactions in which the borrower is not a natural person applies, for example, to loans to corporations, partnerships, associations, churches, unions, and fraternal organizations. The exemption applies regardless of the purpose of the credit extension and regardless of the fact that a natural person may guarantee or provide security for the credit.

8. Land trusts. Credit extended for consumer purposes to a land trust is considered to be credit extended to a natural person rather than credit extended to an organization. In some jurisdictions, a financial institution financing a residential real estate transaction for an individual uses a land trust mechanism. Title to the property is conveyed to the land trust for which the financial institution itself is trustee. The underlying installment note is executed by the financial institution in its capacity as trustee and payment is secured by a trust deed, reflecting title in the financial institution as trustee. In some instances, the consumer executes a personal guaranty of the indebtedness. The note provides that it is payable only out of the property specifically described in the trust deed and that the trustee has no personal liability on the note. Assuming the transactions are for personal, family, or household purposes, these transactions are subject to the regulation since in substance (if not form) consumer credit is being extended.

3(b) Credit over $25,000 not secured by real property or a dwelling.

1. Coverage. Since a mobile home can be a dwelling under §226.2(a)(19), this exemption does not apply to a credit extension secured by a mobile home used or expected to be used as the principal dwelling of the consumer, even if the credit exceeds $25,000. A loan commitment for closed-end credit in excess of $25,000 is exempt even though the amounts actually drawn never actually reach $25,000.

2. Open-end credit. An open-end credit plan is exempt under §226.3(b) (unless secured by real property or personal property used or expected to be used as the consumer’s principal dwelling) if either of the following conditions is met:

   • The creditor makes a firm commitment to lend over $25,000 with no requirement of additional credit information for any advances.
   • The initial extension of credit on the line exceeds $25,000.

If a security interest is taken at a later time in any real property, or in personal property used or expected to be used as the consumer’s principal dwelling, the plan would no longer be exempt. The creditor must comply with all of the requirements of the regulation including, for example, providing the consumer with an initial disclosure statement. If the security interest being added is in the consumer’s principal dwelling, the creditor must also give the consumer the right to rescind the security interest. (See the commentary to §226.15 concerning the right of rescission.)

3. Closed-end credit—subsequent changes. A closed-end loan for over $25,000 may later be rewritten for $25,000 or less, or a security interest in real property or personal property used or expected to be used as the consumer’s principal dwelling may be added to an extension of credit for over $25,000. Such a transaction is consumer credit requiring disclosures only if the existing obligation is satisfied and replaced by a new obligation made for consumer purposes undertaken by the same obligor. (See the commentary to §226.23(a)(1) regarding the right of rescission when a security interest in a consumer’s principal dwelling is added to a previously exempt transaction.)

3(c) Public utility credit.

1. Examples. Examples of public utility services include:
   • Gas, water, or electrical services.
   • Cable television services.
   • Installation of new sewer lines, water lines, conduits, telephone poles, or metering equipment in an area not already serviced by the utility.

The exemption does not apply to extensions of credit, for example:
   • To purchase appliances such as gas or electric ranges, grills, or telephones.
   • To finance home improvements such as new heating or air conditioning systems.

3(d) Securities or commodities accounts.

1. Coverage. This exemption does not apply to a transaction with a broker registered solely with the state, or to a separate credit
extension in which the proceeds are used to purchase securities.

3(e) Home fuel budget plans.

1. Definition. Under a typical home fuel budget plan, the fuel dealer estimates the total cost of fuel for the season, bills the customer for an average monthly payment, and makes an adjustment in the final payment for any difference between the estimated and the actual cost of the fuel. Fuel is delivered as needed, no finance charge is assessed, and the customer may withdraw from the plan at any time. Under these circumstances, the arrangement is exempt from the regulation, even if a charge to cover the billing costs is imposed.

3(f) Student loan programs.

1. Coverage. This exemption applies to the Guaranteed Student Loan program (administered by the Federal government, State, and private non-profit agencies), the Auxiliary Loans to Assist Students (also known as PLUS) program, and the National Direct Student Loan program.

References

Statute: Sections 103 (a) and (t) and 104.
Other sections: Section 226.12 (a) and (b).
Previous regulation: Section 226.3 and Interpretations §§ 226.301 and 226.302.

1981 changes: The business credit exemption has been expanded to include credit for agricultural purposes. The rule of Interpretation § 226.302, concerning credit relating to structures containing more than 4 housing units, has been modified and somewhat expanded by providing more exclusions for transactions involving rental property.

The exemption for transactions above $25,000 secured by real estate has been narrowed; all transactions secured by the consumer’s principal dwelling (even if not considered real property) are now subject to the regulation.

The public utility exemption now covers the financing of the extension of a utility into an area not earlier served by the utility, in addition to the financing of services.

The securities credit exemption has been extended to broker-dealers registered with the CFTC as well as the SEC.

A new exemption has been created for home fuel budget plans.

Section 226.4—Finance Charge

4(a) Definition.

1. Charges in comparable cash transactions. Charges imposed uniformly in cash and credit transactions are not finance charges. In determining whether an item is a finance charge, the creditor should compare the credit transaction in question with a similar cash transaction. A creditor financing the sale of property or services may compare charges with those payable in a similar cash transaction by the seller of the property or service.

i. For example, the following items are not finance charges:

- A. Taxes, license fees, or registration fees paid by both cash and credit customers.
- B. Discounts that are available to cash and credit customers, such as quantity discounts.
- C. Discounts available to a particular group of consumers because they meet certain criteria, such as being members of an organization or having accounts at a particular financial institution. This is the case even if an individual must pay cash to obtain the discount, provided that credit customers who are members of the group and do not qualify for the discount pay no more than the nonmember cash customers.
- D. Charges for a service policy, auto club membership, or policy of insurance against latent defects offered to or required of both cash and credit customers for the same price.

ii. In contrast, the following items are finance charges:

- A. Inspection and handling fees for the staged disbursement of construction loan proceeds.
- B. Fees for preparing a Truth in Lending disclosure statement, if permitted by law (for example, the Real Estate Settlement Procedures Act prohibits such charges in certain transactions secured by real property).
- C. Charges for a required maintenance or service contract imposed only in a credit transaction.

iii. If the charge in a credit transaction exceeds the charge imposed in a comparable cash transaction, only the difference is a finance charge. For example:

- A. If an escrow agent is used in both cash and credit sales of real estate and the agent’s charge is $100 in a cash transaction and $150 in a credit transaction, only $50 is a finance charge.

2. Costs of doing business. Charges absorbed by the creditor as a cost of doing business are not finance charges, even though the creditor may take such costs into consideration in determining the interest rate to be charged or the cash price of the property or service sold. However, if the creditor separately imposes a charge on the consumer to cover certain costs, the charge is a finance charge if it otherwise meets the definition.

For example:

- A. A discount imposed on a credit obligation when it is assigned by a seller-creditor to another party is not a finance charge as long as the discount is not separately imposed on the consumer. (See §226.4(b)(6).)
- B. A tax imposed by a state or other governmental body on a creditor is not a finance charge if the creditor absorbs the tax as a cost of doing business and does not separately impose the tax on the consumer.
5. Taxes. Generally, a tax imposed by a state or other governmental body solely on a creditor is a finance charge if the creditor separately imposes the charge on the consumer.

ii. In contrast, a tax is not a finance charge (even if the tax is collected by the creditor) if applicable law imposes the tax:
A. Solely on the consumer;
B. On the creditor and the consumer jointly;
C. On the credit transaction, without indicating which party is liable for the tax; or
D. On the creditor, if applicable law directs or authorizes the creditor to pass the tax on to the consumer. (For purposes of this section, if applicable law is silent as to passing the tax on, the law is deemed not to authorize passing it on.)

ii. For example, a stamp tax, property tax, intangible tax, or any other state or local tax imposed on the consumer, or on the credit transaction, is not a finance charge even if the tax is collected by the creditor.

iv. In addition, a tax is not a finance charge if it is excluded from the finance charge by an other provision of the regulation or commentary (for example, if the tax is imposed uniformly in cash and credit transactions).

4(a)(1) Charges by third parties.
1. Choosing the provider of a required service. An example of a third-party charge included in the finance charge is the cost of required mortgage insurance, even if the consumer is allowed to choose the insurer.

2. Annuities associated with reverse mortgages. Some creditors offer annuities in connection with a reverse mortgage transaction. The amount of the premium is a finance charge if the creditor requires the purchase of the annuity incident to the credit. Examples include the following:

i. The credit documents reflect the purchase of an annuity from a specific provider or providers.

ii. The creditor assesses an additional charge on consumers who do not purchase an annuity from a specific provider.

iii. The annuity is intended to replace in whole or in part the creditor’s payments to the consumer either immediately or at some future date.

4(a)(2) Special rule: closing agent charges.
1. General. This rule applies to charges by a third party serving as the closing agent for the particular loan. An example of a closing agent charge included in the finance charge is a courier fee where the creditor requires the use of a courier.

2. Required closing agent. If the creditor requires the use of a closing agent, fees charged by the closing agent are included in the finance charge only if the creditor requires the particular service, requires the imposition of the charge, or retains a portion
of the charge. Fees charged by a third-party closing agent may be otherwise excluded from the finance charge under §226.4. For example, a fee that would be paid in a comparable cash transaction may be excluded under §226.4(a). A charge for conducting or attending a closing is a finance charge and may be excluded only if the charge is included in and incidental to a lump-sum closing fee excluded under §226.4(c)(7).

4(a)(3) Special rule: mortgage broker fees.
1. General. A fee charged by a mortgage broker is excluded from the finance charge if it is the type of fee that is also excluded when charged by the creditor. For example, to exclude an application fee from the finance charge under §226.4(c)(1), a mortgage broker must charge the fee to all applicants for credit, whether or not credit is extended.

2. Coverage. This rule applies to charges paid by consumers to a mortgage broker in connection with a consumer credit transaction secured by real property or a dwelling.

3. Compensation by lender. The rule requires all mortgage broker fees to be included in the finance charge. Lenders sometimes compensate mortgage brokers under a separate arrangement with those parties. Creditors may draw on amounts paid by the consumer, such as points or closing costs, to fund their payment to the broker. Compensation paid by a creditor to a mortgage broker under an arrangement is not included as a separate component of a consumer's total finance charge (although this compensation may be reflected in the finance charge if it comes from amounts paid by the consumer to the creditor that are finance charges, such as points and interest).

4(b) Examples of finance charges.

1. Relationship to other provisions. Charges or fees shown as examples of finance charges in §226.4(b) may be excludable under §226.4(c), (d), or (e).

• Premiums for credit life insurance, shown as an example of a finance charge under §226.4(c)(4), are excluded for real property or residential mortgage transactions under §226.4(c)(7).

Paragraph 4(b)(2).
1. Checking account charges. A checking or transaction account charge imposed in connection with a credit feature is a finance charge under §226.4(b)(2) to the extent the charge exceeds the charge for a similar account without a credit feature. If a charge for an account with a credit feature does not exceed the charge for an account without a credit feature, the charge is not a finance charge under §226.4(b)(2). To illustrate:

A $5 service charge is imposed on an account with an overdraft line of credit (where the institution has agreed in writing to pay an overdraft), while a $3 service charge is imposed on an account without a credit feature; the $2 difference is a finance charge. (If the difference is not related to account activity, however, it may be excludable as a participation fee. See the commentary to §226.4(c)(4).)

ii. A $5 service charge is imposed for each item that results in a transaction account charge imposed in connection with an overdraft line of credit, while a $2 service charge is imposed for paying or returning each item on a similar account without a credit feature; the $3 charge is not a finance charge.

Paragraph 4(b)(3).
1. Assumption fees. The assumption fees mentioned in §226.4(b)(3) are finance charges only when the assumption occurs and the fee is imposed on the new buyer. The assumption fee is a finance charge in the new buyer's transaction.

Paragraph 4(b)(4).
1. Credit loss insurance. Common examples of the insurance against credit loss mentioned in §226.4(b)(5) are mortgage guaranty insurance, holder in due course insurance, and reposition insurance. Such premiums must be included in the finance charge only for the period that the creditor requires the insurance to be maintained.

2. Residual value insurance. Where a creditor requires a consumer to maintain residual value insurance or where the creditor is a beneficiary of a residual value insurance policy written in connection with an extension of credit (as is the case in some forms of automobile balloon payment financing, for example), the premiums for the insurance must be included in the finance charge for the period that the insurance is to be maintained. If a creditor pays for residual value insurance and absorbs the payment as a cost of doing business, such costs are not considered finance charges. (See comment 4(a)—2.)

Paragraphs 4(b)(7) and (8).
1. Pre-existing insurance policy. The insurance discussed in §226.4(b)(7) and (8) does not include an insurance policy (such as a life or an automobile collision insurance policy) that is already owned by the consumer, even if the policy is assigned to or otherwise made payable to the creditor to satisfy an insurance requirement. Such a policy is not "written in connection with" the transaction, as long as the insurance was not purchased for use in that credit extension, since it was previously owned by the consumer.

2. Insurance written in connection with a transaction. Insurance sold after consummation in closed-end credit transactions or after the opening of a plan in open-end credit transactions is not "written in connection with" the credit transaction if the insurance is written because of the consumer's default (for example, by failing to obtain or maintain required property insurance) or because
the consumer requests insurance after consummation or the opening of a plan (although credit sale disclosures may be required for the insurance sold after consummation if it is financed).

3. Substitution of life insurance. The premium for a life insurance policy purchased and assigned to satisfy a credit life insurance requirement must be included in the finance charge, but only to the extent of the cost of the credit life insurance if purchased from the creditor or the actual cost of the policy (if that is less than the cost of the insurance available from the creditor). If the creditor does not offer the required insurance, the premium to be included in the finance charge is the cost of a policy of insurance of the type, amount, and term required by the creditor.

4. Other insurance. Fees for required insurance not of the types described in §226.4(b)(7) and (8) are finance charges and are not excludable. For example:

• The premium for a hospitalization insurance policy, if it is required to be purchased only in a credit transaction, is a finance charge.

Paragraph 4(b)(9).

1. Discounts for payment by other than credit. The discounts to induce payment by other than credit mentioned in §226.4(b)(7) and (8) are finance charges and are not excludable. For example:

• The seller of land offers individual tracts for $10,000 each. If the purchaser pays cash, the price is $9,000, but if the purchaser finances the tract with the seller the price is $10,000. The $1,000 difference is a finance charge for those who buy the tracts on credit.

2. Exception for cash discounts. Discounts offered to induce consumers to pay for property or services by cash, check, or other means not involving the use of either an open-end credit plan or a credit card (whether open-end or closed-end credit is extended on the card) may be excluded from the finance charge under section 167(b) of the Act (as amended by Pub. L. 97–25, July 27, 1981). The discount may be in whatever amount the seller desires, either as a percentage of the regular price (as defined in section 103 of the Act) or as a flat amount.

3. Determination of the regular price. The regular price is critical in determining whether the difference between the price charged to cash customers and credit customers is a discount or a surcharge, as these terms are defined in amended section 103 of the Act. The regular price is defined in section 103 of the Act as—

...the tag or posted price charged for the property or service if a single price is tagged or posted, or the price charged for the property or service when payment is made by use of an open-end credit account or a credit card if either (1) no price is tagged or posted, or (2) two prices are tagged or posted...

For example, in the sale of motor vehicle fuel, the tagged or posted price is the price displayed at the pump. As a result, the higher price (the open-end credit or credit card price) must be displayed at the pump, either alone or along with the cash price. Service station operators may designate separate pumps or separate islands as being for either cash or credit purchases and display only the appropriate prices at the various pumps. If a pump is capable of displaying on its meter either a cash or a credit price depending upon the consumer’s means of payment, both the cash price and the credit price must be displayed at the pump. A service station operator may display the cash price of fuel by itself on a curb sign, as long as the sign clearly indicates that the price is limited to cash purchases.

4(b)(10) Debt cancellation fees.

1. Definition. Debt cancellation coverage provides for payment or satisfaction of all or part of a debt when a specified event occurs. The term includes guaranteed automobile protection or “GAP” agreements, which pay or satisfy the remaining debt after property insurance benefits are exhausted.

4(c) Charges excluded from the finance charge.

Paragraph 4(c)(1).

1. Application fees. An application fee that is excluded from the finance charge is a charge to recover the costs associated with processing applications for credit. The fee may cover the costs of services such as credit reports, credit investigations, and appraisals. The creditor is free to impose the fee in only certain of its loan programs, such as mortgage loans. However, if the fee is to be excluded from the finance charge under §226.4(c)(1), it must be charged to all applicants, not just to applicants who are approved or who actually receive credit.

Paragraph 4(c)(2).

1. Late payment charges. Late payment charges can be excluded from the finance charge under §226.4(c)(2) whether or not the person imposing the charge continues to provide property or services to the consumer. In determining whether a charge is for actual unanticipated late payment on a 30-day account, for example, factors to be considered include:

- The terms of the account. For example, is the consumer required by the account terms to pay the account balance in full each month? If not, the charge may be a finance charge.
- The practices of the creditor in handling the accounts. For example, regardless of the terms of the account, does the creditor allow consumers to pay the accounts over a period of time without demanding payment in full or taking other action to collect? If no effort is made to collect the full amount due, the charge may be a finance charge.

Section 226.4(c)(2) applies to late payment charges imposed for failure to make payments as agreed, as well as failure to pay an account in full when due.

2. Other excluded charges. Charges for “delinquency, default, or a similar occurrence” include, for example, charges for reinstatement of credit privileges or for submitting as payment a check that is later returned unpaid.

Paragraph 4(c)(3).
1. Assessing interest on an overdraft balance. A charge on an overdraft balance computed by applying a rate of interest to the amount of the overdraft is not a finance charge, even though the consumer agrees to the charge in the account agreement, unless the financial institution agrees in writing that it will pay such items.

Paragraph 4(c)(4).
1. Participation fees—periodic basis. The participation fees mentioned in §226.4(c)(4) do not necessarily have to be formal membership fees, nor are they limited to credit card plans. The provision applies to any credit plan in which payment of a fee is a condition of access to the plan itself, but it does not apply to fees imposed separately on individual closed-end transactions. The fee may be charged on a monthly, annual, or other periodic basis; a one-time, non-recurring fee imposed at the time an account is opened is not a fee that is charged on a periodic basis, and may not be treated as a participation fee.

2. Participation fees—exclusions. Minimum monthly charges, charges for non-use of a credit card, and other charges based on either the use or the amount of credit available under the plan are not excluded from the finance charge by §226.4(c)(4). Thus, for example, a fee that is charged and then refunded to the consumer based on the extent to which the consumer uses the credit available would be a finance charge. (See the commentary to §226.4(b)(2). Also, see comment 14(c)–7 for treatment of certain types of fees excluded in determining the annual percentage rate for the periodic statement.)

Paragraph 4(c)(5).
1. Seller’s points. The seller’s points mentioned in §226.4(c)(6) include any charges imposed by the creditor upon the non-creditor seller of property for providing credit to the buyer or for providing credit on certain terms. These charges are excluded from the finance charge even if they are passed on to the buyer, for example, in the form of a higher sales price. Seller’s points are frequently involved in real estate transactions guaranteed or insured by governmental agencies. A commitment fee paid by a non-creditor seller (such as a real estate developer) to the creditor should be treated like the creditor’s points (that is, points charged to the buyer by the creditor), however, are finance charges.

2. Other seller-paid amounts. Mortgage insurance premiums and other finance charges are sometimes paid at or before consummation or settlement on the borrower’s behalf by a non-creditor seller. The creditor should treat the payment made by the seller as seller’s points and exclude it from the finance charge if, based on the seller’s payment, the consumer is not legally bound to the creditor for the charge. A creditor who gives disclosures before the payment has been made should base them on the best information reasonably available.

Paragraph 4(c)(6).
1. Lost interest. Certain federal and state laws mandate a percentage differential between the interest rate paid on a deposit and the rate charged on a loan secured by that deposit. In some situations because of usury limits the creditor must reduce the interest rate paid on the deposit and, as a result, the consumer loses some of the interest that would otherwise have been earned. Under §226.4(c)(6), such lost interest need not be included in the finance charge. This rule applies only to an interest reduction imposed because a rate differential is required by law and a usury limit precludes compliance by any other means. If the creditor imposes a differential that exceeds that required, only the lost interest attributable to the excess amount is a finance charge. (See the commentary to §226.4(a).)

Paragraph 4(c)(7).
1. Real estate or residential mortgage transaction charges. The list of charges in §226.4(c)(7) applies both to residential mortgage transactions (which may include, for example, the purchase of a mobile home) and to other transactions secured by real estate. The fees are excluded from the finance charge even if the services for which the fees
are imposed are performed by the creditor’s employees rather than by a third party. In addition, the cost of verifying or confirming information connected to the item is also excluded. A credit report fees cover not only the cost of the report, but also the cost of verifying information in the report. In all cases, charges excluded under §226.4(d) must be bona fide and reasonable.

2. Lump sum charges. If a lump sum charged for several services includes a charge that is not excludable, a portion of the total should be allocated to that service and included in the finance charge. However, a lump sum charged for conducting or attending a closing (for example, by a lawyer or a title company) is excluded from the finance charge if the charge is primarily for services related to items listed in §226.4(c)(7) (for example, reviewing or completing documents), even if other incidental services such as explaining various documents or disbursing funds for the parties are performed. The entire charge is excluded even if a fee for the incidental services would be a finance charge if it were imposed separately.

3. Charges assessed during the loan term. Real estate or residential mortgage transaction charges excluded under §226.4(c)(7) are those charges imposed solely in connection with the initial decision to grant credit. This would include, for example, a fee to search for tax liens on the property or to determine if flood insurance is required. The exclusion does not apply to fees for services to be performed periodically during the loan term, regardless of when the fee is collected. For example, a fee for one or more determinations during the loan term of the current tax lien status or flood insurance requirements is a finance charge, regardless of whether the fee is imposed at closing, or when the service is performed. If a creditor is uncertain about what portion of a fee to be paid at consummation or loan closing is related to the initial decision to grant credit, the entire fee may be treated as a finance charge.

4(d) Insurance and debt cancellation coverage.

1. General. Section 226.4(d) permits insurance premiums and charges and debt-cancellation charges to be excluded from the finance charge. The required disclosures must be made in writing. The rules on location of insurance and debt-cancellation disclosures for closed-end transactions are in §226.17(a). For purposes of §226.4(d), all references to insurance also include debt cancellation coverage unless the context indicates otherwise.

2. Timing of disclosures. If disclosures are given early, for example under §226.17(f) or §226.19(a), the creditor need not redisclose if the actual premium is different at the time of consummation. If insurance disclosures are not given at the time of early disclosure and insurance is in fact written in connection with the transaction, the disclosures under §226.4(d) must be made in order to exclude the premiums from the finance charge.

3. Premium rate increases. The creditor should disclose the premium amount based on the rates currently in effect and need not designate it as an estimate even if the premium rates may increase. An increase in insurance rates after consummation of a closed-end credit transaction or during the life of an open-end credit plan does not require redisclosure in order to exclude the additional premium from treatment as a finance charge.

4. Unit-cost disclosures. 1. Open-end credit. The premium or fee for insurance or debt cancellation for the initial term of coverage may be disclosed on a unit-cost basis in open-end credit transactions. The cost per unit should be based on the initial term of coverage, unless one of the options under comment 4(d)–12 is available.

ii. Closed-end credit. One of the transactions for which unit-cost disclosures (such as 50 cents per year for each $100 of the amount financed) may be used in place of the total insurance premium involves a particular kind of insurance plan. For example, a consumer with a current indebtedness of $8,000 is covered by a plan of credit life insurance coverage with a maximum of $10,000. The consumer requests an additional $4,000 loan to be covered by the same insurance plan. Since the $4,000 loan exceeds, in part, the maximum amount of indebtedness that can be covered by the plan, the creditor may properly give the insurance cost disclosures on the $4,000 loan on a unit-cost basis.

5. Required credit life insurance. Credit life, accident, health, or loss-of-income insurance must be voluntary in order for the premium or charges to be excluded from the finance charge. Whether the insurance is in fact required or optional is a factual question. If the insurance is required, the premiums must be included in the finance charge, whether the insurance is purchased from the creditor or from a third party. If the consumer is required to elect one of several options—such as to purchase credit life insurance, or to assign an existing life insurance policy, or to pledge security instead, no premium is included in the finance charge. The security interest would be disclosed under §226.6(c) or §226.18(m). See the commentary to §226.6(b) (7) and (8).

6. Other types of voluntary insurance. Insurance is not credit life, accident, health, or loss-of-income insurance if the creditor or the credit account of the consumer is not the beneficiary of the insurance coverage. If
such insurance is not required by the creditor as an incident to or a condition of credit, it is not covered by §226.4.

7. Signatures. If the creditor offers a number of insurance options under §226.4(d), the creditor may provide a means for the consumer to sign or initial for each option, or it may provide for a single authorizing signature or initial with the options selected designated by some other means, such as a check mark. The insurance authorization may be signed or initialed by any consumer, as defined in §226.2(a)(11), or by an authorized user on a credit card account.

8. Property insurance. To exclude property insurance premiums or charges from the finance charge, the creditor must allow the consumer to choose the insurer and disclose that fact. This disclosure must be made whether or not the property insurance is available from or through the creditor. The requirement that an option be given does not require that the insurance be readily available from other sources. The premium or charge must be disclosed only if the consumer elects to purchase the insurance from the creditor; in such a case, the creditor must also disclose the term of the property insurance coverage if it is less than the term of the obligation.

9. Single interest insurance. Blanket and specific single interest coverage are treated the same for purposes of the regulation. A charge for either type of single interest insurance may be excluded from the finance charge if:

- The insurer waives any right of subrogation.
- The other requirements of §226.4(d)(2) are met. This includes, of course, giving the consumer the option of obtaining the insurance from a person of the consumer’s choice. The creditor need not ascertain whether the consumer is able to purchase the insurance from someone else.

10. Single-interest insurance defined. The term single-interest insurance as used in the regulation refers only to the types of coverage traditionally included in the term vendor’s single-interest insurance (or VSI), that is, protection of tangible property against normal property damage, concealment, confiscation, conversion, embezzlement, and skip. Some comprehensive insurance policies may include a variety of additional coverages, such as repossession insurance and holder-in-due-course insurance. These types of coverage do not constitute single-interest insurance for purposes of the regulation, and premiums for them do not qualify for exclusion from the finance charge under §226.4(d). If a policy that is primarily VSI also provides insurance, the portion of the premiums must be allocated to the nonexcludable coverages and included in the finance charge. However, such allocation is not required if the total premium in fact attributable to all of the non-VSI coverages included in the policy is $1.00 or less (or $5.00 or less in the case of a multi-year policy).

11. Initial term. i. The initial term of the insurance or debt cancellation coverage determines the period for which a premium amount or fee must be disclosed, unless one of the options discussed under comment 4(d)-12 is available. For purposes of §226.4(d), the initial term is the period for which the insurer or creditor is obligated to provide coverage, even though the consumer may be allowed to cancel the coverage or coverage may end due to nonpayment before that term expires.

   ii. For example:

   A. The initial term of a property insurance policy on an automobile that is written for one year is one year even though premiums are paid monthly and the term of the credit transaction is four years.

   B. The initial term of an insurance policy is the full term of the credit transaction if the consumer pays or finances a single premium in advance.

12. Initial term; alternative. i. General. A creditor has the option of providing cost disclosures on the basis of an assumed initial term of one year of insurance or debt-cancellation coverage instead of a longer initial term (provided the premium or fee is clearly labeled as being for one year) if:

   A. The initial term is indefinite or not clear, or

   B. The consumer has agreed to pay a premium or fee that is assessed periodically but the consumer is under no obligation to continue the coverage, whether or not the consumer has made an initial payment.

   ii. Open-end plans. For open-end plans, a creditor also has the option of providing unit-cost disclosure on the basis of a period that is less than one year if the consumer has agreed to pay a premium or fee that is assessed periodically, for example monthly, but the consumer is under no obligation to continue the coverage.

   iii. Examples. To illustrate:

   A. A credit life insurance policy providing coverage for a 30-year mortgage loan has an initial term of 30 years, even though premiums are paid monthly and the consumer is not required to continue the coverage. Disclosures may be based on the initial term, but the creditor also has the option of making disclosures on the basis of coverage for an assumed initial term of one year.

   B. Loss-of-income insurance. The loss-of-income insurance mentioned in §226.4(d) includes involuntary unemployment insurance, which provides that some or all of the consumer’s payments will be made if the consumer becomes unemployed involuntarily.

12 CFR Ch. II (1–1–09 Edition)
as guaranteed automobile protection ("GAP") agreements must be disclosed according to §226.4(d)(3) rather than according to §226.4(d)(2) for property insurance.

2. Disclosures. Creditors may comply with §226.4(d)(3) by providing a disclosure that refers to debt cancellation coverage whether or not the coverage is considered insurance. Creditors may use the model credit insurance disclosures only if the debt cancellation coverage constitutes insurance under state law.

4(e) Certain security interest charges.

1. Examples.

i. Excludable charges. Sums must be actually paid to public officials to be excluded from the finance charge under §226.4(e) (1) and (3). Examples are charges or other fees required for filing or recording security agreements, mortgages, continuation statements, termination statements, and similar documents, as well as intangible property or other taxes even when the charges or fees are not to be included in the finance charge. If the non-filing insurance premium exceeds the amount of the fees excludable from the finance charge under §226.4(e)(1), only the excess is a finance charge. For example:

• The fee for perfecting a security interest is $5.00 and the fee for releasing the security interest is $3.00. The creditor charges $10.00 for non-filing insurance. Only $6.00 of the $10.00 is excludable from the finance charge.

4(f) Prohibited offsets.

1. Earnings on deposits or investments. The rule that the creditor shall not deduct any earnings by the consumer or deposits or investments applies whether or not the creditor has a security interest in the property.

References

Statute: Sections 106, 167, and 171(c).

Other sections: Sections 226.9(d) and 226.12.

Previous regulation: Section 226.4 and Interpretations §§226.401 through 226.407.

1981 changes: While generally continuing the rules under the previous regulation, §226.4 reflects amendments to section 106 of the act and makes certain other changes in the rules for determining the finance charge. For example, §226.4(a) expressly excludes from the finance charge amounts payable in comparable cash transactions. Section 226.8(o) of the previous regulation, dealing with discounts for prompt payment of a credit it sale, was deleted in the revised regulation since the general test for a finance charge no longer focuses on a comparison of cash and credit transactions. With respect to various exclusions from the finance charge: application fees imposed on all applicants are no longer finance charges; continuing to extend credit to a consumer is no longer a controlling test for determining whether a late payment charge is bona fide; seller’s points are not to be included in the finance charge; and the special exclusions for real estate transactions apply to all residential mortgage transactions.

The simplified rules for excluding insurance from the finance charge allow unit-cost disclosure in certain closed-end credit transactions; permit initials as well as signatures on the authorization; permit any consumer to authorize insurance for other consumers; and delete the requirement that the authorization be separately dated.

SUBPART B—OPEN-END CREDIT

Section 226.5—General-End Credit

5(a) Form of disclosures.

Paragraph 5(a)(1).

1. Clear and conspicuous. The clear and conspicuous standard requires that disclosures be in a reasonably understandable form. Except where otherwise provided, the standard does not require that disclosures be segregated from other material or located in any particular place on the disclosure statement, or that numerical amounts or percentages be in any particular type size. (But see comments 5(a)(2)–1 and –2 for special rules concerning §226.5a disclosures for credit card

applications and solicitations.) The standard does not prohibit:

- Pluralizing required terminology (finance charge and annual percentage rate).
- Adding to the required disclosures such items as contractual provisions, explanations of contract terms, state disclosures, and translations.
- Sending promotional material with the required disclosures.
- Using commonly accepted or readily understandable abbreviations (such as mo. for month or TX for Texas) in making any required disclosures.
- Using codes or symbols such as APR (for annual percentage rate), FC (for finance charge), or Cr (for credit balance), so long as a legend or description of the code or symbol is provided on the disclosure statement.

2. Integrated document. The creditor may make both the initial disclosures (§226.6) and the periodic statement disclosures (§226.7) on more than one page, and use both the front and the reverse sides, so long as the pages constitute an integrated document. An integrated document would not include disclosure pages provided to the consumer at different times or disclosures interspersed on the same page with promotional material. An integrated document would include, for example:

- Multiple pages provided in the same envelope that cover related material and are folded together, numbered consecutively, or clearly labelled to show that they relate to one another.
- A brochure that contains disclosures and explanatory material about a range of services the creditor offers, such as credit, checking account, and electronic fund transfer features.

Paragraph 5(a)(2).

1. When disclosures must be more conspicuous. The term finance charge and annual percentage rate, when required to be used with a number, must be disclosed more conspicuously than other required disclosures, except in the cases provided in footnote 9. At the creditor's option, finance charge and annual percentage rate may also be disclosed more conspicuously than the other required disclosures even when the regulation does not so require. The following examples illustrate these rules:

- In disclosing the annual percentage rate as required by §226.6(a)(2), the term annual percentage rate is subject to the more conspicuous rule.
- In disclosing the amount of the finance charge, required by §226.7(f), the term finance charge is subject to the more conspicuous rule.

2. Making disclosures more conspicuous. In disclosing the terms finance charge and annual percentage rate more conspicuously, only the words finance charge and annual percentage rate should be accentuated. For example, if the term total finance charge is used, only finance charge should be emphasized. The disclosures may be made more conspicuous by, for example:

- Capitalizing the words when other disclosures are printed in lower case.
- Putting them in bold print or a contrasting color.
- Underlining them.
- Setting them off with asterisks.
- Printing them in larger type.

3. Disclosure of figures—exception to more conspicuous rule. The terms annual percentage rate and finance charge need not be more conspicuous than figures (including, for example, numbers, percentages, and dollar signs).

5(b) Time of disclosures.

5(b)(1) Initial disclosures.

1. Disclosure before the first transaction. The rule that the initial disclosure statement must be furnished "before the first transaction" requires delivery of the initial disclosure statement before the consumer becomes obligated on the plan. For example, the initial disclosures must be given before the consumer makes the first purchase (such as when a consumer opens a credit plan and makes purchases contemporaneously at a retail store), receives the first advance, or pays any fees or charges under the plan other than an application fee or refundable membership fee (see below). The prohibition on the payment of fees other than application or refundable membership fees before initial disclosures are provided does not apply to home equity plans subject to §226.5b. See the commentary to §226.5(b) regarding the collection of fees for home equity plans covered by §226.5b.

- If the consumer pays a membership fee before receiving the Truth in Lending disclosures, or the consumer agrees to the imposition of a membership fee at the time of application and the Truth in Lending disclosure statement is not given at that time, disclosures are timely as long as the consumer, after receiving the disclosures, can reject the plan. The creditor must refund the membership fee if it has been paid, or clear the account if it has been debited to the consumer’s account.
- If the consumer receives a cash advance check at the same time the Truth in Lending disclosures are provided, disclosures are still timely if the consumer can, after receiving
the disclosures, return the cash advance check to the creditor without obligation (for example, without paying finance charges).
• Initial disclosures need not be given before the imposition of an application fee under §226.4(c)(1).
• If, after receiving the disclosures, the consumer uses the account, pays a fee, or negotiates a cash advance check, the creditor may consider the account not rejected for purposes of this section.

2. Reactivation of suspended account. If an account is temporarily suspended (for example, because the consumer has exceeded a credit limit, or because a credit card is reported lost or stolen) and then is reactivated, no new initial disclosures are required.
3. Reopening closed account. If an account has been closed (for example, due to inactivity, cancellation, or expiration) and then is reopened, new initial disclosures are required. No new initial disclosures are required, however, when the account is closed merely to assign it a new number (for example, when a credit card is reported lost or stolen) and the new account then continues on the same terms.
4. Converting closed-end to open-end credit. If a closed-end credit transaction is converted to an open-end credit account under a written agreement with the consumer, the initial disclosures under §226.6 must be given before the consumer becomes obligated on the open-end credit plan. (See the commentary to §226.17 on converting open-end credit to closed-end credit.)
5. Balance transfers. A creditor that solicits the transfer by a consumer of outstanding balances from an existing account to a new open-end plan must comply with §226.6 before the balance transfer occurs. Card issuers that are subject to the requirements of §226.5a may establish procedures that comply with both sections in a single disclosure statement.

§(b)(2) Periodic statements.
Paragraph 5(b)(2)(ii).
1. Periodic statements not required. Periodic statements need not be sent in the following cases:
• If the creditor adjusts an account balance so that at the end of the cycle the balance is less than $1—so long as no finance charge has been imposed on the account for that cycle.
• If a statement was returned as undeliverable. If a new address is provided, however, within a reasonable time before the creditor must send a statement, the creditor must resume sending statements. Receiving the address at least 28 days before the end of a cycle would be a reasonable amount of time to prepare the statement for that cycle. For example, if an address is received 22 days before the end of the June cycle, the creditor must send the periodic statement for the June cycle. (See §226.13(a)(7).)

2. Termination of credit privileges. When an open-end account is terminated without being converted to closed-end credit under a written agreement, the creditor must continue to provide periodic statements to those consumers entitled to receive them under §226.5b(vi)(1) (for example, when an open-end credit plan ends and consumers are paying off outstanding balances) and must continue to follow all of the other open-end credit requirements and procedures in subpart B.

Paragraph 5(b)(2)(i).
1. 14-day rule. The 14-day rule for mailing or delivering periodic statements does not apply if charges (for example, transaction or activity charges) are imposed regardless of the timing of a periodic statement. The 14-day rule does apply, for example:
• If current debits retroactively become subject to finance charges when the balance is not paid in full by a specified date.
• If charges other than finance charges will accrue when the consumer does not make timely payments (for example, late payment charges or charges for exceeding a credit limit).
2. Computer malfunction. Footnote 10 does not extend to the failure to provide a periodic statement because of computer malfunction.
3. Calling for periodic statements. When the consumer initiates a request, the creditor may permit, but may not require, consumers to pick up their periodic statements. If the consumer wishes to pick up the statement and the plan has a free-ride period, the statement must be made available in accordance with the 14-day rule.

5(c) Basis of disclosures and use of estimates.
1. Legal obligation. The disclosures should reflect the credit terms to which the parties are legally bound at the time of giving the disclosures.
• The legal obligation is determined by applicable state or other law.
• The fact that a term or contract may later be deemed unenforceable by a court on the basis of equity or other grounds does not, by itself, mean that disclosures based on that term or contract did not reflect the legal obligation.
• The legal obligation normally is presumed to be contained in the contract that evidences the agreement. But this may be rebutted if another agreement between the parties legally modifies that contract.

2. Estimates—obtaining information. Disclosures may be estimated when the exact information is unknown at the time disclosures are made. Information is unknown if it is not reasonably available to the creditor at the time disclosures are made. The reasonably available standard requires that the
credit, acting in good faith, exercise due diligence in obtaining information. In using estimates, the creditor is not required to disclose the basis for the estimated figures, but may include such explanations as additional information. The creditor normally may rely on the representations of other parties in obtaining information. For example, the creditor might look to insurance companies for the cost of insurance.

3. Estimates—redisclosure. If the creditor makes estimated disclosures, redisclosure is not required for that consumer, even though more accurate information becomes available before the first transaction. For example, in an open-end plan to be secured by real estate, the creditor may estimate the appraisal fees to be charged; such an estimate might reasonably be based on the prevailing market rates for similar appraisals. If the exact appraisal fee is determinable after the estimate is furnished but before the closing, the creditor may estimate the appraisal fees to be charged; such an estimate might reasonably be based on the prevailing market rates for similar appraisals. If the exact appraisal fee is determinable after the estimate is furnished but before the closing, the creditor may estimate the appraisal fees to be charged; such an estimate might reasonably be based on the prevailing market rates for similar appraisals. If the exact appraisal fee is determinable after the estimate is furnished but before the closing, the creditor may estimate the appraisal fees to be charged; such an estimate might reasonably be based on the prevailing market rates for similar appraisals. If the exact appraisal fee is determinable after the estimate is furnished but before the closing, the creditor may estimate the appraisal fees to be charged; such an estimate might reasonably be based on the prevailing market rates for similar appraisals. If the exact appraisal fee is determinable after the estimate is furnished but before the closing, the creditor may estimate the appraisal fees to be charged; such an estimate might reasonably be based on the prevailing market rates for similar appraisals. If the exact appraisal fee is determinable after the estimate is furnished but before the closing, the creditor may estimate the appraisal fees to be charged; such an estimate might reasonably be based on the prevailing market rates for similar appraisals. If the exact appraisal fee is determinable after the estimate is furnished but before the closing, the creditor may estimate the appraisal fees to be charged; such an estimate might reasonably be based on the prevailing market rates for similar appraisals. If the exact appraisal fee is determinable after the estimate is furnished but before the closing, the creditor may estimate the appraisal fees to be charged; such an estimate might reasonably be based on the prevailing market rates for similar appraisals. If the exact appraisal fee is determinable after the estimate is furnished but before the closing, the creditor may estimate the appraisal fees to be charged; such an estimate might reasonably be based on the prevailing market rates for similar appraisals. If the exact appraisal fee is determinable after the estimate is furnished but before the closing, the creditor may estimate the appraisal fees to be charged; such an estimate might reasonably be based on the prevailing market rates for similar appraisals. If the exact appraisal fee is determinable after the estimate is furnished but before the closing, the creditor may estimate the appraisal fees to be charged; such an estimate might reasonably be based on the prevailing market rates for similar appraisals. If the exact appraisal fee is determinable after the estimate is furnished but before the closing, the creditor may estimate the appraisal fees to be charged; such an estimate might reasonably be based on the prevailing market rates for similar appraisals. If the exact appraisal fee is determinable after the estimate is furnished but before the closing, the creditor may estimate the appraisal fees to be charged; such an estimate might reasonably be based on the prevailing market rates for similar appraisals. If the exact appraisal fee is determinable after the estimate is furnished but before the closing, the creditor may estimate the appraisal fees to be charged; such an estimate might reasonably be based on the prevailing market rates for similar appraisals. If the exact appraisal fee is determinable after the estimate is furnished but before the closing, the creditor may estimate the appraisal fees to be charged; such an estimate might reasonably be based on the prevailing market rates for similar appraisals. If the exact appraisal fee is determinable after the estimate is furnished but before the closing, the creditor may estimate the appraisal fees to be charged; such an estimate might reasonably be based on the prevailing market rates for similar appraisals. If the exact appraisal fee is determinable after the estimate is furnished but before the closing, the creditor may estimate the appraisal fees to be charged; such an estimate might reasonably be based on the prevailing market rates for similar appraisals. If the exact appraisal fee is determinable after the estimate is furnished but before the closing, the creditor may estimate the appraisal fees to be charged; such an estimate might reasonably be based on the prevailing market rates for similar appraisals.

5(d) Multiple creditors; multiple consumers.
1. Multiple creditors. Under §226.5(d):
• Creditors must choose which of them will make the disclosures.
• A single, complete set of disclosures must be provided, rather than partial disclosures from several creditors.
• All disclosures for the open-end credit plan must be given, even if the disclosing creditor would not otherwise have been obligated to make a particular disclosure.
• In some open-end credit programs involving multiple creditors, the consumer has the option (for example, at the end of a billing cycle) to pay creditor A directly or to transfer to creditor B all or part of the amount owing. If the consumer elects the latter option, the consumer no longer is obligated to creditor A for the specific amount(s) transferred. In such a case, creditor A and creditor B may send separate periodic statements that reflect the separate obligations owed to each.

2. Multiple consumers. Disclosures may be made to either obligor on a joint account. Disclosure responsibilities are not satisfied by giving disclosures to only a surety or guarantor for a principal obligor or to an authorized user. In rescindable transactions, however, separate disclosures must be given to each consumer who has the right to rescind under §226.15.

5(e) Effect of subsequent events.
1. Events causing inaccuracies. Inaccuracies in disclosures are not violations if attributable to events occurring after disclosures are made. For example, when the consumer fails to fulfill a prior commitment to keep the collateral insured and the creditor then provides the coverage and charges the consumer for it, such a change does not make the original disclosures inaccurate. The creditor may, however, be required to provide a new disclosure(s) under §226.9(c).

2. Use of inserts. When changes in a creditor’s plan affect required disclosures, the creditor may use inserts with outdated disclosure forms. Any insert:
• Should clearly refer to the disclosure provision it replaces.
• Need not be physically attached or affixed to the basic disclosure statement.
• May be used only until the supply of outdated forms is exhausted.

References
Statute: Sections 121 (a) through (c), 122 (a) and (b), 124, 127 (a) and (b), and 163(a).
Other sections: Sections 226.6, 226.7, and 226.8.
Previous regulation: Sections 226.6 (a) and (c) through (g), and 226.7 (a) through (c).
1981 changes: Section 226.5 implements amendments to the act and reflects several simplifying changes to the regulation. The use of required terminology, except for finance charge and annual percentage rate, is no longer required. Type size requirements have been deleted. Initial and periodic statement disclosures may be multi-page, so long as they constitute an integrated statement. New rules are provided for the basis of disclosures and for the use of estimates. The rules for credit plans involving multiple creditors or multiple consumers now provide that only one creditor need make the disclosures and that the disclosures need be made to only one primarily liable consumer.

Section 226.5a Credit and Charge Card Applications and Solicitations
1. General. Section 226.5a generally requires that credit disclosures be contained in application forms and preapproved solicitations initiated by a card issuer to open a credit or charge card account. (See the commentary to §226.5a(a)(3) and (e) for exceptions; see also §226.2(a)(15) and accompanying commentary for the definition of charge card.)

2. Combining disclosures. The initial disclosures required by §226.5 do not substitute for the disclosures required by §226.5a; however, a card issuer may establish procedures so that a single disclosure statement meets the requirements of both sections. For example, if a card issuer in complying with §226.5(a)(e)(2) provides all the applicable disclosures required under §226.6, in a form that the consumer may keep and in accordance with the other format and timing requirements for that section, the issuer satisfies the initial disclosure requirements under §226.6 as well as the disclosure requirements of §226.5(a)(e)(2). Or if, in complying with
§226.5a(a) General Rules

5a(a)(2) Form of Disclosures

1. Clear and conspicuous standard. For purposes of §226.5a disclosures, clear and conspicuous means in a reasonably understandable form and readily noticeable to the consumer. As to type size, disclosures in 12-point type are deemed to be readily noticeable for purposes of §226.5a. Disclosures printed in less than 12-point type do not automatically violate the standard; however, disclosures in less than 8-point type would likely be too small to satisfy the standard. Disclosures that are transmitted by electronic communication are judged for purposes of the clear and conspicuous standard based on the form in which they are provided even though they may be viewed by the consumer in a different form.

2. Prominent location. i. Generally. Certain of the required disclosures provided on or with an application or solicitation must be prominently located. Disclosures are deemed to be prominently located, for example, if the disclosures are on the same page as an application or solicitation reply form. If the disclosures appear elsewhere, they are deemed to be prominently located if the application or solicitation reply form contains a clear and conspicuous reference to the location of the disclosures and indicates that they contain rate, fee, and other cost information, as applicable. Disclosures required by §226.5a(b) that are placed outside the table, the card issuer satisfies the requirements of both §§226.5a and 226.6.

ii. Electronic disclosures. Electronic disclosures are deemed to be prominently located if:

A. They are posted on a web site and the application or solicitation reply form is linked to the disclosures in a manner that prevents the consumer from by-passing the disclosures before submitting the application or reply form; or

B. They are located on the same page as an application or solicitation reply form, that contains a clear and conspicuous reference to the location of the disclosures and indicates that they contain rate, fee, and other cost information, as applicable.

3. Multiple accounts or varying terms. If a tabular format is required to be used, card issuers offering several types of accounts may disclose the various terms for the accounts in a single table or may provide a separate table for each account. Similarly, if rates or other terms vary from state to state, card issuers may list the states and the various disclosures in a single table or in separate tables.

4. Additional information. The table containing the disclosures required by §226.5a should contain only the information required or permitted by this section. (See the commentary to §226.5a(b) for guidance on information permitted in the table.) Other credit information may be presented on or with an application or solicitation, provided such information appears outside the required table.

5. Location of certain disclosures. A card issuer has the option of disclosing any of the fees in §226.5a(b) (8) through (10) in the required table or outside the table.

6. Terminology. In general, §226.5a(a)(2)(iv) requires that the terminology used for the disclosures specified in §226.5a(b) be consistent with that used in the disclosures under §§226.6 and 226.7. This standard requires that the §226.5a(b) disclosures be close in meaning to those under §§226.6 and 226.7; however, the terminology used need not be identical. In addition, §226.5a(a)(2)(v) requires that the headings, content, and format of the tabular disclosures be substantially similar, but need not be identical, to the tables in appendix G. A special rule applies to the grace period disclosure, however: the term grace period must be used, either in the heading or in the text of the disclosure.

7. Deletion of inapplicable disclosures. Generally, disclosures need only be given as applicable. Card issuers may, therefore, delete inapplicable headings and their corresponding boxes in the table. For example, if no transaction fee is imposed for purchases, the disclosure form may contain the heading Transaction fee for purchases and a box showing none, or the heading and box may be deleted from the table. There is an exception for the grace period disclosure, however: even if no grace period exists, that fact must be stated.

8. Form of electronic disclosures provided on or with electronic applications or solicitations. Card issuers must provide the disclosures required by this section on or with a blank application or reply form that is made available to the consumer in electronic form, such as on a card issuer’s Internet Web site. Card issuers have flexibility in satisfying this requirement. Methods card issuers could use to satisfy the requirement include, but are not limited to, the following examples:

i. The disclosures could automatically appear on the screen when the application or reply form appears;

ii. The disclosures could be located on the same Web page as the application or reply form (whether or not they appear on the initial screen), if the application or reply form contains a clear and conspicuous reference to the location of the disclosures and indicates
that the disclosures contain rate, fee, and other cost information, as applicable;

iii. Card issuers could provide a link to the electronic disclosures on or with the applications provided to a consumer existing open-end plan count numbers apply to the following:

iv. The disclosures could be located on the same web page as the application or reply form without necessarily appearing on the initial screen, immediately preceding the button that the consumer will click to submit the application or reply.

Whatever method is used, a card issuer need not confirm that the consumer has read the disclosures. For disclosures required to be provided in tabular form, card issuers must satisfy the requirements with respect to electronic disclosures set forth in comment §226.5a(a)(2)(ii).

9. Form of disclosures. Whether disclosures must be in electronic form depends upon the following:

1. If a consumer accesses a credit card application or solicitation electronically (other than as described under ii. below), such as online at a home computer, the card issuer must provide the disclosures in electronic form (such as with the application or solicitation on its Web site) in order to meet the requirement to provide disclosures in a timely manner on or with the application or solicitation. If the issuer instead mailed paper disclosures to the consumer, this requirement would not be met.

ii. In contrast, if a consumer is physically present in the card issuer’s office, and accesses a credit card application or solicitation electronically, such as via a terminal or kiosk (or if the consumer uses a terminal or kiosk located on the premises of an affiliate or third party that has arranged with the card issuer to provide applications or solicitations to consumers), the issuer may provide disclosures in either electronic or paper form, provided the issuer complies with the timing and delivery (“on or with”) requirements of this regulation.

§226.5a(a)(3) Exceptions

1. Coverage. Certain exceptions to the coverage of §226.5a are stated in §226.5a(a)(3); in addition, the requirements of §226.5a do not apply to the following:

a. Lines of credit accessed solely by account numbers;

b. Addition of a credit or charge card to an existing open-end plan

2. Noncoverage of consumer initiated requests. Applications provided to a consumer upon request are not covered by §226.5a, even if the request is made in response to the card issuer’s invitation to apply for a card account. To illustrate, if a card issuer invites consumers to call a toll-free number or to return a response card to obtain an application, the application sent in response to the consumer’s request need not contain the disclosures required under §226.5a. Similarly, if the card issuer invites consumers to call and make an oral application on the telephone, §226.5a does not apply to the application made by the consumer. If, however, the card issuer calls a consumer or initiates a telephone discussion with a consumer about opening a card account and contemporaneously takes an oral application, such applications are subject to §226.5a, specifically §226.5a(d).

3. General purpose applications. The requirements of this section do not apply to general purpose applications unless the application, or material accompanying it, indicates that it can be used to open a credit or charge card account.

§226.5a(a)(5) Certain Fees that Vary by State

1. Manner of disclosing range. If the card issuer discloses a range of fees instead of disclosing the amount of the fee imposed in each state, the range may be stated as the lowest authorized fee (zero, if there are one or more states where no fee applies) to the highest authorized fee.

§226.5a(b) Required Disclosures

§226.5a(b)(1) Annual Percentage Rate

1. Periodic rate. The periodic rate, expressed as such, may be disclosed in the table in addition to the required disclosure of the corresponding annual percentage rate.

2. Variable-rate accounts—definition. For purposes of §226.5a(b)(1), a variable-rate account exists when rate changes are part of the plan and are tied to an index or formula. (See the commentary to §226.5a(2) for examples of variable-rate plans.)

3. Variable-rate accounts—rates in effect. For variable-rate disclosures in direct mail applications and solicitations subject to §226.5a(c), and in applications and solicitations made available to the general public subject to §226.5a(e), the rules concerning accuracy of the annual percentage rate are stated in §226.5a(b)(1)(ii). For variable-rate disclosures in telephone applications and solicitations subject to §226.5a(d), the card issuer must provide an annual percentage rate currently applicable when oral disclosures are provided under §226.5a(d)(1). For the alternate disclosures under §226.5a(d)(2), the card issuer must provide the annual percentage rate in effect at the time the disclosures are mailed or delivered. A rate in effect also includes the rate as of a specified date (which rate is then updated from time to time, for example, each calendar month) or an estimated rate provided in accordance with §226.5a(c).
4. Variable-rate accounts—other disclosures. In describing how the applicable rate will be determined, the card issuer must identify the index or formula and disclose any margin or spread in setting the rate. The card issuer may disclose the margin or spread as a range of the highest and lowest margins that may be applied to the account. A disclosure of any applicable limitations on rate increases or decreases may also be included in the table.

5. Introductory rates—discounted rates. If the initial rate is temporary and is lower than the rate that will apply after the temporary rate expires, the card issuer must disclose how long the introductory rate will remain in effect. In a variable-rate account, the card issuer must disclose a rate based on the index or formula applicable to the account in accordance with the rules in § 226.5a(b)(1)-3. An initial discounted rate may be provided in the table along with the rate required to be disclosed if the card issuer also discloses the time period during which the introductory rate will remain in effect.

6. Introductory rates—premium rates. If the initial rate is temporary and is higher than the permanently applicable rate, the card issuer must disclose the initial rate in the table. The initial rate must be in at least 18-point type unless the issuer also discloses in the table the permanently applicable rate. The issuer may disclose in the table the permanently applicable rate that would otherwise apply to the account in accordance with the rules in § 226.5a(b)(1)(ii) and comment 5a(b)(1)-3. An initial discounted rate may be provided in the table along with the rate required to be disclosed if the card issuer also discloses the time period during which the initial rate will remain in effect. In that case, the permanently applicable rate must be in at least 18-point type.

7. Increased penalty rates. If the initial rate may increase upon the occurrence of one or more specific events, such as a late payment or an extension of credit that exceeds the credit limit, the card issuer must disclose in the table the initial rate and the increased penalty rate that may apply. If the penalty rate is based on an index and an increased margin, the issuer must also disclose in the table the index and the margin as well as the specific event or events that may result in imposing an increased rate. In describing the specific event or events that may result in an increased rate, issuers need not be as detailed as for the disclosures required under §226.6(a)(2). For issuers using a tabular format, the specific event or events must be placed outside the table and an asterisk or other means shall be used to direct the consumer to the additional information. At its option, the issuer may include in the explanation of the penalty rate the period for which the increased rate will remain in effect, such as “until you make three timely payments.” The issuer need not disclose an increased rate that is imposed when credit privileges are permanently terminated.

5a(b)(2) Fees for Issuance or Availability

1. Membership fees. Membership fees for opening an account must be disclosed under this paragraph. A membership fee to join an organization that provides a credit or charge card as a privilege of membership must be disclosed only if the card is issued automatically upon membership. Such a fee need not be disclosed if membership results merely in eligibility to apply for an account.

2. Enhancements. Fees for optional services in addition to basic membership privileges in a credit or charge card account (for example, travel insurance or card-registration services) should not be disclosed in the table if the basic account may be opened without paying such fees.

3. One-time fees. Disclosure of non-periodic fees is limited to fees related to opening the account, such as one-time membership fees. The following are examples of fees that should not be disclosed in the table:

- Fees for reissuing a lost or stolen card
- Statement reproduction fees
- Application fees described in §226.4(c)(1)
- Waived or reduced fees. If fees required to be disclosed are waived or reduced for a limited time, the introductory fees or the fact of fee waivers may be provided in the table in addition to the required fees if the card issuer also discloses how long the fees or waivers will remain in effect.

5. Fees stated as annual amount. Fees imposed periodically must be stated as an annual total. For example, if a fee is imposed quarterly, the disclosures would state the total amount of the fees for one year. (See, however, the commentary to §226.9(e) with regard to disclosure of such fees in renewal notices.)

5a(b)(4) Transaction Charges

1. Charges imposed by person other than card issuer. Charges imposed by a third party, such as a seller of goods, would not be disclosed under this section; the third party would be responsible for disclosing the charge under §226.9(d)(1).

5a(b)(5) Grace Period

1. How disclosure is made. The card issuer may, but need not, refer to the beginning or ending point of any grace period and briefly state any conditions on the applicability of the grace period. For example, the grace period disclosure might read “30 days’” or “30 days from the date of the periodic statement."

489
1. Form of disclosure. In cases where the card issuer uses a balance computation method that is identified by name in the regulation, the card issuer may only disclose the name of the method in the table. In cases where the card issuer uses a balance computation method that is not identified by name in the regulation, the disclosure in the table should clearly explain the method in as much detail as set forth in the descriptions of balance methods in section 226.5a(g). The explanation need not be as detailed as that required for the disclosures under §226.6(a)(3). (See the commentary to §226.5a(g) for guidance on particular methods.)

2. Determining the method. In determining the appropriate balance computation method for purchases for disclosure purposes, the card issuer must assume that a purchase balance will exist at the end of any grace period. Thus, for example, if the average daily balance method will include new purchases or cover two billing cycles only if purchase balances are not paid within the grace period, the card issuer would disclose the name of the average daily balance method that includes new purchases or covers two billing cycles, respectively. The card issuer should not assume the existence of a purchase balance, however, in making other disclosures under §226.5a(b).

5a(b)(7) Statement on Charge Card Payments

1. Applicability and content. The disclosure that charges are payable upon receipt of the periodic statement is applicable only to charge card accounts. In making this disclosure, the card issuer may make such modifications as are necessary to more accurately reflect the circumstances of repayment under the account. For example, the disclosure might read, “Charges are due and payable upon receipt of the periodic statement and must be paid no later than 15 days after receipt of such statement.”

5a(b)(8) Cash Advance Fee

1. Applicability. The card issuer must disclose only those fees it imposes for a cash advance that are finance charges under §226.4. For example, a charge for a cash advance at an automated teller machine (ATM) would be disclosed under §226.5(a)(b)(8) if no similar charge is imposed for ATM transactions not involving an extension of credit. (See comment 4(a)-5 for a description of such a fee.)

5a(b)(9) Late Payment Fee

1. Applicability. The disclosure of the fee for a late payment includes only those fees that will be imposed for actual, unanticipated late payments. (See the commentary to §226.4(c)(2) for additional guidance on late payment fees.)

5a(b)(10) Over-the-Limit Fee

1. Applicability. The disclosure of fees for exceeding a credit limit does not include fees for other types of default or for services related to exceeding the limit. For example, no disclosure is required of fees for reinstating credit privileges or fees for the dishonor of checks on an account that, if paid, would cause the credit limit to be exceeded.

5a(c) Direct Mail Applications and Solicitations

1. Accuracy. In general, disclosures in direct mail applications and solicitations must be accurate as of the time of mailing. (An accurate variable annual percentage rate is one in effect within 60 days before mailing.)

2. Mailed publications. Applications or solicitations contained in generally available publications mailed to consumers (such as subscription magazines) are subject to the requirements applicable to take-ones in §226.5a(e), rather than the direct mail requirements of §226.5a(c). However, if a primary purpose of a card issuer’s mailing is to offer credit or charge card accounts—for example, where a card issuer “prescreens” a list of potential cardholders using credit criteria, and then mails to the targeted group its catalog containing an application or a solicitation for a card account—the direct mail rules apply. In addition, a card issuer may use a single application form as a take-one (in racks in public locations, for example) and for direct mailings, if the card issuer complies with the requirements of §226.5a(c) even when the form is used as a take-one—that is, by presenting the required §226.5a disclosures in a tabular format. When used in a direct mailing, the credit term disclosures must be accurate as of the mailing date whether or not the §226.5a(e)(1) (ii) and (iii) disclosures are included; when used in a take-one, the disclosures must be accurate for as long as the take-one forms remain available to the public if the §226.5a(e)(1) (ii) and (iii) disclosures are omitted. (If those disclosures are included in the take-one, the credit term disclosures need only be accurate as of the printing date.)

5a(d) Telephone Applications and Solicitations

1. Coverage. This paragraph applies if: • A telephone conversation between a card issuer and consumer may result in the issuance of a card as a consequence of an issuer-initiated offer to open an account for which the issuer does not require any application (that is, a preapproved telephone solicitation).
Federal Reserve System

§ 226.5a(e) Applications and Solicitations Made Available to General Public

1. Coverage. Applications and solicitations made available to the general public include what are commonly referred to as take-one applications typically found at counters in banks and retail establishments, as well as applications contained in catalogs, magazines and other generally available publications. In the case of credit unions, this paragraph applies to applications and solicitations to open card accounts made available to those in the general field of membership.

2. Cross-selling. If a card issuer invites a consumer to apply for a credit or charge card (for example, where the issuer engages in cross-selling), an application provided to the consumer at the consumer’s request is not considered an application made available to the general public and therefore is not subject to §226.5a(e). For example, the following are not covered:

- A consumer applies in person for a car loan at a financial institution and the loan officer invites the consumer to apply for a credit or charge card account; the consumer accepts the invitation.
- An employee of a retail establishment, in the course of processing a sales transaction using a bank credit card, asks a customer if he or she would like to apply for the retailer’s credit or charge card; the customer responds affirmatively.

3. Toll-free telephone number. If a card issuer, in complying with any of the disclosure options of §226.5a(e), provides a telephone number for consumers to call to obtain credit information, the number must be toll-free for nonlocal calls made from an area code other than the one used in the card issuer’s dialing area. Alternatively, a card issuer may provide any telephone number that allows a consumer to call for information and reverse the telephone charges.

§ 226.5a(e)(1) Disclosure of Required Credit Information

1. Date of printing. Disclosure of the month and year fulfills the requirement to disclose the date an application was printed.

2. Form of disclosures. The disclosures specified in §226.5a(e)(2)(ii) and (iii) may appear either in or outside the table containing the required credit disclosures.

§ 226.5a(e)(2) Inclusion of Certain Initial Disclosures

1. Accuracy of disclosures. The disclosures required by §226.5a(e)(2) generally must be current as of the time they are made available to the public. Disclosures are considered to be made available at the time they are placed in public locations (in the case of take-ones) or mailed to consumers (in the case of publications).

2. Accuracy—exception. If a card issuer discloses all the information required by §226.5a(e)(1)(ii) on the application or solicitation, the disclosures under §226.5a(e)(2) need only be current as of the date of printing. (A current variable annual percentage rate would be one in effect within 30 days before printing.)

§ 226.5a(e)(3) No Disclosure of Credit Information

1. When disclosure option available. A card issuer may use this option only if the issuer does not include on or with the application or solicitation any statement that refers to the credit disclosures required by §226.5a(b). Statements such as no annual fee, low interest rate, favorable rates, and low costs are deemed to refer to the required credit disclosures and, therefore, may not be included on or with the solicitation or application, if the card issuer chooses to use this option.

§ 226.5a(e)(4) Prompt Response to Requests for Information

1. Prompt disclosure. Information is promptly disclosed if it is given within 30 days of a consumer’s request for information but in no event later than delivery of the credit or charge card.

2. Information disclosed. When a consumer requests credit information, card issuers need not provide all the required credit disclosures in all instances. For example, if disclosures have been provided in accordance with §226.5a(e) (1) or (2) and a consumer calls or writes a card issuer to obtain information about changes in the disclosures, the issuer need only provide the items of information that have changed from those previously disclosed on or with the application or solicitation. If a consumer requests information about particular items, the card issuer need only provide the requested information. If, however, the card issuer has made disclosures in accordance with the option in §226.5a(e)(3) and a consumer calls or writes the card issuer requesting information about costs, all the required disclosure information must be given.

3. Manner of response. A card issuer’s response to a consumer’s request for credit information may be provided orally or in writing, regardless of the manner in which the consumer’s request is received by the issuer.
Furthermore, the card issuer may provide the information listed in either §226.5a(e) (1) or (2), Information provided in writing need not be in a tabular format.

5a(f) Special Charge Card Rule—Card Issuer and Person Extending Credit Not the Same Person

1. Duties of charge card issuer. Although the charge card issuer is not required to disclose information about the underlying open-end credit plan if the card issuer meets the conditions set forth in §226.5a(f), the card issuer must disclose the information relating to the charge card plan itself.

2. Duties of creditor maintaining open-end plan. Section 226.5a does not impose disclosure requirements on the creditor that maintains the underlying open-end credit plan. This is the case even though the creditor offering the open-end credit plan may be considered an agent of the charge card issuer. (See comment 2(a)(7)–1.)

3. Form of disclosures. The disclosures required by §226.5a(f) may appear either in or outside the table containing the required credit disclosures in circumstances where a tabular format is required.

5a(g) Balance Computation Methods Defined

1. Daily balance method. Card issuers using the daily balance method may disclose it using the name average daily balance (including new purchases), as appropriate. Alternatively, such card issuers may explain the method. (See comment 7(e)–5 for a discussion of the daily balance method.)

2. Two-cycle average daily balance methods. The two-cycle average daily balance methods described in §226.5a(g)(2) (i) and (ii) include those methods in which the average daily balances for two billing cycles may be added together to compute the finance charge. Such methods also include those in which a periodic rate is applied separately to the balance in each cycle, and the resulting finance charges are added together. The method is a two-cycle average daily balance even if the finance charge is based on both the current and prior cycle balances only under certain circumstances, such as when purchases during a prior cycle were carried over into the current cycle and no finance charge was assessed during the prior cycle. Furthermore, the method is a two-cycle average daily balance method if the balances for both the current and prior cycles are average daily balances, even if those balances are figured differently. For example, the name two-cycle average daily balance (excluding new purchases) should be used to describe a method in which the finance charge for the current cycle, figured on an average daily balance excluding new purchases, will be added to the finance charge for the prior cycle, figured on an average daily balance of only new purchases during that prior cycle.

Section 226.5b Requirements for Home Equity Plans

1. Coverage. This section applies to all open-end credit plans secured by the consumer's dwelling, as defined in §226.2(a)(19), and is not limited to plans secured by the consumer's principal dwelling. (See the commentary to §226.3(a), which discusses whether transactions are consumer or business purpose credit, for guidance on whether a home equity plan is subject to Regulation Z.)

2. Changes to home equity plans entered into on or after November 7, 1989. Section 226.6(c)(5) applies if, by written agreement under §226.5b(f)(3)(i)(A) a creditor changes the terms of the underlying consumer’s home equity plan—entered into on or after November 7, 1989—at or before its scheduled expiration. The new plan is subject to all open-end credit rules, including §§226.5b, 226.6, and 226.15.

3. Transition rules and renewals of preexisting plans. The requirements of this section do not apply to home equity plans entered into before November 7, 1989. The requirements of this section also do not apply if the original consumer, on or after November 7, 1989, renews a plan entered into prior to that date (with or without changes to the terms). If, on or after November 7, 1989, a security interest in the consumer’s dwelling is added to a line of credit entered into before that date, the substantive restrictions of this section apply for the remainder of the plan, but no new disclosures are required under this section.

4. Disclosure of repayment phase—applicability of requirements. Some plans provide in the initial agreement for a period during which no further draws may be taken and repayment of the amount borrowed is made. All of the applicable disclosures in this section must be given for the repayment phase. Thus, for example, a creditor must provide repayment information about the repayment phase as well as about the draw period, as required by §226.5b(d)(5). If the rate that will apply during the repayment phase is fixed at a known amount, the creditor must provide an annual percentage rate under §226.5b(d)(6) for that phase. If, however, a creditor uses an index to determine the rate that will apply at the time of conversion to the repayment phase—even if the rate will thereafter be fixed—the creditor must provide the information in §226.5b(d)(12), as applicable.

5. Payment terms—applicability of closed-end provisions and substantive rules. All payment terms that are provided for in the initial agreement are subject to the requirements of subpart B and not subpart C of the regulation. Payment terms that are subsequently
5b(a) Form of Disclosures

5b(a)(1) General

1. Written disclosures. The disclosures required under this section must be clear and conspicuous and in writing, but need not be in a form the consumer can keep. (See the commentary to §226.6(e) for special rules when disclosures required under §226.5(b)(5) are given in a retainable form.)

2. Disclosure of annual percentage rate—more conspicuous requirement. As provided in §226.5(a)(2), when the term annual percentage rate is required to be disclosed with a number, it must be more conspicuous than other required disclosures.

3. Segregation of disclosures. While most of the disclosures must be grouped together and segregated from all unrelated information, the creditor is permitted to include information that explains or expands on the required disclosures, including, for example:

- Any prepayment penalty
- How a substitute index may be chosen
- Actions the creditor may take short of terminating and accelerating an outstanding balance
- Renewal terms
- Rebate of fees

An example of information that does not explain or expand on the required disclosures and thus cannot be included is the creditor’s underwriting criteria, although the creditor could provide such information separately from the required disclosures.

4. Method of providing disclosures. A creditor may provide a single disclosure form for all of its home equity plans, as long as the disclosure describes all aspects of the plans. For example, if the creditor offers several payment options, all such options must be disclosed. (See, however, the commentary to §226.5(b)(5)(iii) and (d)(12) (x) and (xi) for disclosure requirements relating to these provisions.) If any aspects of a plan are linked together, the creditor must disclose clearly the relationship of the terms to each other. For example, if the consumer can only obtain a particular payment option in conjunction with a certain variable-rate feature, this fact must be disclosed. A creditor has the option of providing separate disclosure forms for multiple options or variations in features. For example, a creditor that offers different payment options for the draw period may prepare separate disclosure forms for the two payment options. A creditor using this alternative, however, must include a statement on each disclosure form that the consumer should ask about the creditor’s other home equity programs. (This disclosure is required only for those programs available generally to the public. Thus, if the only other programs available are employee preferred-rate plans, for example, the creditor would not have to provide this statement.) A creditor that receives a request for information about other available programs must provide the additional disclosures as soon as reasonably possible.

5. Form of electronic disclosures provided on or with electronic applications. Creditors must provide the disclosures required by this section (including the brochure) on or with a blank application that is made available to the consumer in electronic form, such as on a creditor’s Internet Web site. Creditors have flexibility in satisfying this requirement.

Federal Reserve System

Pt. 226, Supp. I, NL.
Methods creditors could use to satisfy the requirement include, but are not limited to, the following examples:

1. The disclosures could automatically appear on the screen when the application appears;

2. The disclosures could be located on the same web page as the application (whether or not they appear on the initial screen), if the application contains a clear and conspicuous reference to the location of the disclosures and indicates that the disclosures contain rate, fee, and other cost information, as applicable;

3. Creditors could provide a link to the electronic disclosures on or with the application as long as consumers cannot bypass the disclosures before submitting the application. The link would take the consumer to the disclosures, but the consumer need not be required to scroll completely through the disclosures;

4. The disclosures could be located on the same web page as the application without necessarily appearing on the initial screen, immediately preceding the button that the consumer will click to submit the application.

Whatever method is used, a creditor need not confirm that the consumer has read the disclosures.

§ 226.5b(a)(2) Precedence of Certain Disclosures

1. Precedence rule. The list of conditions provided at the creditor’s option under §226.5b(d)(4)(iii) need not precede the other disclosures.

Paragraph 5b(a)(3)

1. Form of disclosures. Whether disclosures must be in electronic form depends upon the following:

   i. If a consumer accesses a home equity credit line application electronically (other than as described under ii. below), such as online at a home computer, the creditor must provide the disclosures in electronic form (such as with the application form on its Web site) in order to meet the requirement to provide disclosures in a timely manner on or with the application. If the creditor instead mailed paper disclosures to the consumer, this requirement would not be met.

   ii. In contrast, if a consumer is physically present in the creditor’s office, and accesses a home equity credit line application electronically, such as via a terminal or kiosk (or if the consumer uses a terminal or kiosk located on the premises of an affiliate or third party that has arranged with the creditor to provide applications to consumers), the creditor may provide disclosures in either electronic or paper form, provided the creditor complies with the timing, delivery, and retainability requirements of the regulation.

§ 226.5b(b) Time of Disclosures

1. Mail and telephone applications. If the creditor sends applications through the mail, the disclosures and a brochure must accompany the application. If an application is taken over the telephone, the disclosures and brochure may be delivered or mailed within three business days of taking the application. If an application is mailed to the consumer following a telephone request, however, the creditor also must send the disclosures and a brochure along with the application.

2. General purpose applications. The disclosures and a brochure need not be provided when a general purpose application is given to a consumer unless (1) the application or materials accompanying it indicate that it can be used to apply for a home equity plan or (2) the application is provided in response to a consumer’s specific inquiry about a home equity plan. On the other hand, if a general purpose application is provided in response to a consumer’s specific inquiry only about credit other than a home equity plan, the disclosures and brochure need not be provided even if the application indicates it can be used for a home equity plan, unless it is accompanied by promotional information about home equity plans.

3. Publicly-available applications. Some creditors make applications for home equity plans, such as take-ones, available without the need for a consumer to request them. These applications must be accompanied by the disclosures and a brochure, such as by attaching the disclosures and brochure to the application form.

4. Response cards. A creditor may solicit consumers for its home equity plan by mailing a response card which the consumer returns to the creditor to indicate interest in the plan. If the only action taken by the creditor upon receipt of the response card is to send the consumer an application form or to telephone the consumer to discuss the plan, the creditor need not send the disclosures and brochure with the response card.

5. Denial or withdrawal of application. In situations where footnote 1a permits the creditor a three-day delay in providing disclosures and the brochure, if the creditor determines within that period that an application will not be approved, the creditor need not provide the consumer with the disclosures or brochure. Similarly, if the consumer withdraws the application within this three-day period, the creditor need not provide the disclosures or brochure.

6. Intermediary agent or broker. In determining whether or not an application involves an intermediary agent or broker as discussed in footnote 1b, creditors should consult the provisions in comment 1b(k)(3).
Federal Reserve System

5b(c) Duties of Third Parties

1. Disclosure requirements. Although third parties who give applications to consumers for home equity plans must provide the brochure required under §226.5b(e) in all cases, such persons need provide the disclosures required under §226.5b(d) only in certain instances. A third party has no duty to obtain disclosures about a creditor’s home equity plan or to create a set of disclosures based on what it knows about a creditor’s plan. If, however, a creditor provides the third party with disclosures along with its application form, the third party must give the disclosures to the consumer with the application form. The duties under this section are those of the third party; the creditor is not responsible for ensuring that a third party complies with those obligations. If an intermediary agent or broker takes an application over the telephone or receives an application contained in a magazine or other publication, footnote 1a permits that person to mail the disclosures and brochure within three business days of receipt of the application. (See the commentary to §226.5b(h) about impositions of nonrefundable fees.)

5b(d) Content of Disclosures

1. Disclosures given as applicable. The disclosures required under this section need be made only as applicable. Thus, for example, if negative amortization cannot occur in a home equity plan, a reference to it need not be made.

2. Duty to respond to requests for information. If the consumer, prior to the opening of a plan, requests information as suggested in the disclosures (such as the current index value or margin), the creditor must provide this information as soon as reasonably possible after the request.

5b(d)(1) Retention of Information

1. When disclosure not required. The creditor need not disclose that the consumer should make or otherwise retain a copy of the disclosures if they are retainable—for example, if the disclosures are not part of an application that must be returned to the creditor to apply for the plan.

5b(d)(2) Conditions for Disclosed Terms

Paragraph 5b(d)(2)(i)

1. Guaranteed terms. The requirement that the creditor disclose the time by which an application must be submitted to obtain the disclosed terms does not require the creditor to guarantee any terms. If a creditor chooses not to guarantee any terms, it must disclose that all of the terms are subject to change prior to opening the plan. The creditor also is permitted to guarantee some terms and not others, but must indicate which terms are subject to change.

2. Date for obtaining disclosed terms. The creditor may disclose either a specific date or a time period for obtaining the disclosed terms. If the creditor discloses a time period, the consumer must be able to determine from the disclosure the specific date by which an application must be submitted to obtain any guaranteed terms. For example, the disclosure might read, “To obtain the following terms, you must submit your application within 60 days after the date appearing on this disclosure,” provided the disclosure form also shows the date.

Paragraph 5b(d)(2)(ii)

1. Relation to other provisions. Creditors should consult the rules in §226.5b(g) regarding refund of fees.

5b(d)(4) Possible Actions by Creditor

Paragraph 5b(d)(4)(i)

1. Fees imposed upon termination. This disclosure applies only to fees (such as penalty or prepayment fees) that the creditor imposes if it terminates the plan prior to normal expiration. The disclosure does not apply to fees associated with collection of the debt, such as attorneys fees and court costs, or to increases in the annual percentage rate linked to the consumer’s failure to make payments. The actual amount of the fee need not be disclosed.

2. Changes specified in the initial agreement. If changes may occur pursuant to §226.5b(f)(3)(i), a creditor must state that certain changes will be implemented as specified in the initial agreement.

Paragraph 5b(d)(4)(ii)

1. Disclosure of conditions. In making this disclosure, the creditor may provide a highlighted copy of the document that contains such information, such as the contract or security agreement. The relevant items must be distinguished from the other information contained in the document. For example, the creditor may provide a cover sheet that specifically points out which contract provisions contain the information, or may mark the relevant items on the document itself. As an alternative to disclosing the conditions in this manner, the creditor may simply describe the conditions using the language in §§226.5b(f)(2)(i)–(ii), 226.5b(f)(3)(i) (regarding freezing the line when the maximum annual percentage rate is reached), and 226.5b(f)(3)(vi) or language that is substantially similar. The condition contained
in §226.5b(f)(2)(iv) need not be stated. In describing specified changes that may be implemented during the plan, the creditor may provide a disclosure such as “Our agreement permits us to make certain changes to the terms of the line at specified times or upon the occurrence of specified events.”

2. Form of disclosure. The list of conditions under §226.5b(d)(4)(iii) may appear with the segregated disclosures or apart from them. If the creditor elects to provide the list of conditions with the segregated disclosures, the list need not comply with the precedence rule in §226.5b(a)(2).

5b(d)(5) Payment Terms

Paragraph 5b(d)(5)(i)

1. Length of the plan. The combined length of the draw period and any repayment period need not be stated. If the length of the repayment phase cannot be determined because, for example, it depends on the balance outstanding at the beginning of the repayment period, the creditor must state that the length is determined by the size of the balance. If the length of the plan is indefinite (for example, because there is no time limit on the period during which the consumer can take advances), the creditor must state that fact.

2. Renewal provisions. If, under the credit agreement, a creditor retains the right to review a line at the end of the specified draw period and determine whether to renew or extend the draw period of the plan, the possibility of renewal or extension—regardless of its likelihood—should be ignored for purposes of the disclosures. For example, if an agreement provides that the draw period is five years and that the creditor may renew the draw period for an additional five years, the possibility of renewal should be ignored and the draw period should be considered five years. (See the commentary accompanying §226.5b(c)(1) dealing with change in terms requirements.)

Paragraph 5b(d)(5)(ii)

1. Determination of the minimum periodic payment. This disclosure must reflect how the minimum periodic payment is determined, but need only describe the principal and interest components of the payment. Other charges that may be part of the payment (as well as the balance computation method) may, but need not, be described under this provision.

2. Fixed rate and term payment options during draw period. If the home equity plan permits the consumer to repay all or part of the balance during the draw period at a fixed rate (rather than a variable rate) and over a specified time period, this feature must be disclosed. To illustrate, a variable-rate plan may permit a consumer to elect during a ten-year draw period to repay all or a portion of the balance over a three-year period at a fixed rate. The creditor must disclose the rules relating to this feature including the period during which the option can be selected, the length of time over which repayment can occur, any fees imposed for such a feature, and the specific rate or a description of the index and margin that will apply upon exercise of this choice. For example, the index and margin disclosure might state: “If you choose to convert any portion of your balance to a fixed rate, the rate will be the highest prime rate published in the Wall Street Journal that is in effect at the date of conversion plus a margin.” If the fixed rate is to be determined according to an index, it must be one that is outside the creditor’s control and is publicly available in accordance with §226.5b(f)(1). The effect of exercising the option should not be reflected elsewhere in the disclosures, such as in the historical example required in §226.5b(d)(12)(xi).

3. Balloon payments. In programs where the occurrence of a balloon payment is possible, the creditor must disclose the possibility of a balloon payment even if such a payment is uncertain or unlikely. In such cases, the disclosure might read, “Your minimum payments may not be sufficient to fully repay the principal that is outstanding on your line. If they are not, you will be required to pay the entire outstanding balance in a single payment.” In programs where a balloon payment will occur, such as programs with interest-only payments during the draw period and no repayment period, the disclosures must state that fact. For example, the disclosure might read, “Your minimum payments will not repay the principal that is outstanding on your line. You will be required to pay the entire outstanding balance in a single payment.” In making this disclosure, the creditor is not required to use the term “balloon payment.” The creditor also is not required to disclose the amount of the balloon payment. (See, however, the requirement under §226.5b(d)(5)(iii).) The balloon payment disclosure does not apply in cases where repayment of the entire outstanding balance would occur only as a result of termination and acceleration. The creditor also need not make a disclosure about balloon payments if the final payment could not be more than twice the amount of other minimum payments under the plan.

Paragraph 5b(d)(5)(iii)

1. Minimum periodic payment example. In disclosing the payment example, the creditor may assume that the credit limit as well as the outstanding balance is $10,000 if such an assumption is relevant to calculating payments. (If the creditor only offers lines of credit for less than $10,000, the creditor may
Federal Reserve System

assume an outstanding balance of $5,000 instead of $10,000 in making this disclosure.) The example should reflect the payment comprised only of principal and interest. Creditors may provide an additional example reflecting other charges that may be included in the payment, such as credit insurance premiums. Creditors may assume that all payments are collected in whole cents, and that payments will fall on a business day even though they may be due on a non-business day. For variable-rate plans, the example must be based on the last rate in the historical example required in §226.5b(d)(12)(x), or a more recent rate. In cases where the last rate shown in the historical example is different from the index value and margin (for example, due to a rate cap), creditors should calculate the rate by using the index value and margin. A discounted rate may not be considered a more recent rate in calculating this payment example for either variable- or fixed-rate plans.

2. Representative examples. In plans with multiple payment options within the draw period or within any repayment period, the creditor may provide representative examples as an alternative to providing examples for each payment option. The creditor may elect to provide representative payment examples based on three categories of payment options. The first category consists of plans that permit minimum payment of only accrued finance charges (interest only plans). The second category includes plans in which a fixed percentage or a fixed fraction of the outstanding balance or credit limit (for example, 2% of the balance or 1/180th of the balance) is used to determine the minimum payment. The third category includes all other types of minimum payment options, such as a specified dollar amount plus any accrued finance charges. Creditors may classify their minimum payment arrangements within one of these three categories even if other features exist, such as varying lengths of a draw or repayment period, required payment of past due amounts, late charges, and minimum dollar amounts. The creditor may use a single example within each category to represent the payment options in that category. For example, if a creditor permits minimum payments of 1%, 2%, 3% or 4% of the outstanding balance, it may pick one of these four options and provide the example required under §226.5b(d)(5)(i)(ii) for that option alone.

The example used to represent a category must be an option commonly chosen by consumers, or a typical or representative example. (See the commentary to §226.5b(d)(12) (x) and (xi) for a discussion of the use of representative examples for making those disclosures. Creditors using a representative example within each category must use the same example for purposes of the disclosures under §226.5b (d)(5)(ii) and (d)(12) (x) and (xi).) Creditors may use representative examples under §226.5b(d)(5) only with respect to the payment example required under paragraph (d)(5)(iii). Creditors must provide a full narrative description of all payment options under §226.5b(d)(5) (1) and (ii).

3. Examples for draw and repayment periods. Separate examples must be given for the draw and repayment periods unless the payments are determined the same way during both periods. In setting forth payment examples for any repayment period under this section (and the historical example under §226.5b(d)(12)(x)), creditors should assume a $10,000 advance is taken at the beginning of the draw period and is reduced according to the terms of the plan. Creditors should not assume an additional advance is taken at any time, including at the beginning of any repayment period.

4. Reverse mortgages. Reverse mortgages, also known as reverse annuity or home equity conversion mortgages, in addition to permitting the consumer to obtain advances, may involve the disbursement of monthly advances to the consumer for a fixed period or until the occurrence of an event such as the consumer’s death. Repayment of the reverse mortgage (generally a single payment of principal and accrued interest) may be required to be made at the end of the disbursements or, for example, upon the death of the consumer. In disclosing these plans, creditors must apply the following rules, as applicable:

- If the reverse mortgage has a specified period for advances and disbursements but repayment is due only upon occurrence of a future event such as the death of the consumer, the creditor must assume that disbursements will be made until they are scheduled to end. The creditor must assume repayment will occur when disbursements end (or within a period following the final disbursement which is not longer than the regular interval between disbursements). This assumption should be used even though repayment may occur before or after the disbursements are scheduled to end. In such cases, the creditor may include a statement such as “The disclosures assume that you will repay the line at the time the draw period and our payments to you end. As provided in your agreement, your repayment may be required at a different time.” The single payment should be considered the “minimum periodic payment” and consequently would not be treated as a balloon payment. The example of the minimum payment under §226.5b(d)(5)(ii) should assume a single $10,000 draw.
- If the reverse mortgage has neither a specified period for advances or disbursements nor a specified repayment date and period, the creditor must assume a period which is not shorter than the specified period for advances and disbursements, and the repayment period is due only upon the occurrence of an event such as the death of the consumer. This assumption should be used even though repayment may occur before or after the event, and the creditor may include a statement such as “The disclosures assume that you will repay the line at the time the draw period and our payments to you end. As provided in your agreement, your repayment may be required at a different time.” The single payment should be considered the “minimum periodic payment” and consequently would not be treated as a balloon payment. The example of the minimum payment under §226.5b(d)(5)(ii) should assume a single $10,000 draw.
these terms will be determined solely by reference to future events, including the consumer's death, the creditor may assume that the draws and disbursements will end upon the consumer's death (estimated by using actuarial tables, for example) and that repayment will be required at the same time (or within a period following the date of the final disbursement which is not longer than the regular interval for disbursements). Alternatively, the creditor may base the disclosures upon another future event it estimates will be most likely to occur first. (If terms will be determined by reference to future events which do not include the consumer's death, the creditor must base the disclosure upon the occurrence of the event estimated to be most likely to occur first.)

- In making the disclosures, the creditor must assume that all draws and disbursements and accrued interest will be paid by the consumer. For example, if the note has a non-recourse provision providing that the consumer is not obligated for an amount greater than the value of the house, the creditor must nonetheless assume that the full amount to be drawn or disbursed will be repaid. In this case, however, the creditor may include a statement such as: "The disclosures assume full repayment of the amount advanced plus accrued interest, although the amount you may be required to pay is limited by your agreement."
- Some reverse mortgages provide that some or all of the appreciation in the value of the property will be shared between the consumer and the creditor. The creditor must disclose the appreciation feature, including describing how the creditor's share of the property will be shared between the consumer and the creditor. The creditor must nonetheless assume that the full amount of the premium or may state that the premium will be required at the same time (or within a period following the date of the final disbursement which is not longer than the regular interval for disbursements).

5(b)(d)(6) Annual Percentage Rate

1. Preferred-rate plans. If a creditor offers a preferential fixed-rate plan in which the rate will increase a specified amount upon the occurrence of a specified event, the creditor must disclose the specific amount the rate will increase.

5(b)(d)(7) Fees Imposed by Creditor

1. Applicability. The fees referred to in §226.5b(d)(7) include items such as application fees, points, annual fees, transaction fees, fees to obtain checks to access the plan, and fees imposed for converting to a repayment phase that is provided for in the original agreement. This disclosure includes any fees that are imposed by the creditor to use or maintain the plan, whether the fees are kept by the creditor or a third party. For example, if the annual fee includes an annual credit report on the consumer and requires the consumer to pay this fee to the creditor or directly to the third party, the fee must be specifically stated. Third party fees to open the plan that are initially paid by the consumer to the creditor may be included in this disclosure or in the disclosure under §226.5(b)(d)(8).

2. Manner of describing fees. Charges may be stated as an estimated dollar amount for each fee, or as a percentage of a typical or representative amount of credit. The creditor may provide a stepped fee schedule in which a fee will increase a specified amount at a specified date. (See the discussion contained in the commentary to §226.5(b)(f)(1)).

3. Fees not required to be disclosed. Fees that are not imposed to open, use, or maintain a plan, such as fees for researching an account, photocopying, paying late, stopping payment, having a check returned, exceeding the credit limit, or closing out an account do not have to be disclosed under this section. Credit report and appraisal fees imposed to investigate whether a condition permitting a freeze continues to exist—as discussed in the commentary to §226.5(b)(f)(vi)—are not required to be disclosed under this section or §226.5(b)(d)(8).

4. Rebates of closing costs. If closing costs are imposed they must be disclosed, regardless of whether such costs may be rebated later (for example, rebated to the extent of any interest paid during the first year of the plan).

5. Terms used in disclosure. Creditors need not use the terms "finance charge or other charge" in describing the fees imposed by the creditor under this section or those imposed by third parties under §226.5(b)(d)(8).

5(b)(d)(8) Fees Imposed by Third Parties to Open a Plan

1. Applicability. Section 226.5(b)(d)(8) applies only to fees imposed by third parties to open the plan. Thus, for example, this section does not require disclosure of a fee imposed by a government agency at the end of a plan to release a security interest. Fees to be disclosed include appraisal, credit report, government agency, and attorneys fees. In cases where property insurance is required by the creditor, the creditor either may disclose the amount of the premium or may state that property insurance is required. For example, the disclosure might state, "You must carry insurance on the property that secures this plan."

2. Itemization of third-party fees. In all cases creditors must state the total of third-party fees as a single dollar amount or a range except that the total need not include costs for property insurance if the creditor discloses that such insurance is required. A creditor has two options with regard to providing the more detailed information about third party fees. Creditors may provide a statement that the consumer may request more specific cost information about third party fees from the creditor. As an alternative to including this statement, creditors may provide an
5b(d)(9) Negative Amortization

1. Disclosure required. In transactions where the minimum payment will not or may not be sufficient to cover the interest that accrues on the outstanding balance, the creditor must disclose that negative amortization will or may occur. This disclosure is required whether or not the unpaid interest is added to the outstanding balance upon which interest is computed. A disclosure is not required merely because a loan calls for non-amortizing or partially amortizing payments.

5b(d)(10) Transaction Requirements

1. Applicability. A limitation on automated teller machine usage need not be disclosed under this paragraph unless that is the only means by which the consumer can obtain funds.

5b(d)(12) Disclosures for Variable-Rate Plans

Paragraph 5b(d)(12)(iv)

1. Determination of annual percentage rate. If the creditor adjusts its index through the addition of a margin, the disclosure might read, “Your annual percentage rate is based on the index plus a margin.” The creditor is not required to disclose a specific value for the margin.

Paragraph 5b(d)(12)(viii)

1. Preferred-rate provisions. This paragraph requires disclosure of preferred-rate provisions, where the rate will increase upon the occurrence of some event, such as the borrower-employee leaving the creditor’s employ or the consumer closing an existing deposit account with the creditor.

2. Provisions on conversion to fixed rates. The commentary to §226.5b(d)(5)(i) discusses the disclosure requirements for options permitting the consumer to convert from a variable rate to a fixed rate.

Paragraph 5b(d)(12)(ix)

1. Periodic limitations on increases in rates. The creditor must disclose any annual limitations on increases in the annual percentage rate. If the creditor bases its rate limitation on 12 monthly billing cycles, such a limitation should be treated as an annual cap. Rate limitations imposed on less than an annual basis must be stated in terms of a specific amount of time. For example, if the creditor imposes rate limitations on only a semiannual basis, this must be expressed as a rate limitation for a six-month time period. If the creditor does not impose periodic limitations (annual or shorter) on rate increases, the fact that there are no annual rate limitations must be stated.

2. Maximum limitations on increases in rates. The maximum annual percentage rate that may be imposed under each payment option over the term of the plan (including the draw period and any repayment period provided for in the initial agreement) must be provided. The creditor may disclose this rate as a specific number (for example, 18%) or as a specific amount above the initial rate. For example, this disclosure might read, “The maximum annual percentage rate that can apply to your line will be 5 percentage points above your initial rate.” If the creditor states the maximum rate as a specific amount above the initial rate, the creditor must include a statement that the consumer should inquire about the rate limitations that are currently available. If an initial discount is not taken into account in applying maximum rate limitations, that fact must be disclosed. If separate overall limitations apply to rate increases resulting from events such as the exercise of a fixed-rate conversion option or leaving the creditor’s employ, those limitations also must be stated. Limitations do not include legal limits in the nature of usury or rate ceilings under state or federal statutes or regulations.

3. Form of disclosures. The creditor need not disclose each periodic or maximum rate limitation that is currently available. Instead, the creditor may disclose the range of the lowest and highest periodic and maximum rate limitations that may be applicable to the creditor’s home equity plans. Creditors using this alternative must include a statement that the consumer should inquire about the rate limitations that are currently available.

Paragraph 5b(d)(12)(x)

1. Maximum rate payment example. In calculating the payment creditors should assume the maximum rate is in effect. Any discounted or premium initial rates or periodic rate limitations should be ignored for purposes of this disclosure. If a range is used to disclose the maximum cap under §226.5b(d)(12)(ix), the highest rate in the
range must be used for the disclosure under this paragraph. As an alternative to making disclosures based on each payment option, the creditor may choose a representative example within the three categories of payment options upon which to base this disclosure. (See the commentary to §226.5b(d)(5).) However, separate examples must be provided for the draw period and for any repayment period unless the payment is determined the same way in both periods. Creditors should calculate the example for the repayment period based on an assumed $10,000 balance. (See the commentary to §226.5b(d)(5) for a discussion of the circumstances in which a creditor may use a lower outstanding balance.)

2. Time the maximum rate could be reached. In stating the date or time when the maximum rate could be reached, creditors should assume that rate increases as rapidly as possible under the plan. In calculating the date or time, creditors should factor in any discounted or premium initial rates and periodic rate limitations. This disclosure must be provided for the draw phase and any repayment phase. Creditors should assume the index and margin shown in the last year of the historical example (or a more recent rate) is in effect at the beginning of each phase.

Paragraph 5b(d)(12)(ci)

1. Index movement. Index values and annual percentage rates must be shown for the entire 15 years of the historical example and must be based on the most recent 15 years. The example must be updated annually to reflect the most recent 15 years of index values as soon as reasonably possible after the new index value becomes available. If the values for an index have not been available for 15 years, a creditor need only go back as far as the values have been available and may start the historical example at the year for which values are first available.

2. Selection of index values. The historical example must reflect the method of choosing index values for the plan. For example, if an average of index values is used in the plan, averages must be used in the example, but if an index value as of a particular date is used, a single index value must be shown. The creditor is required to assume one date (or one period, if an average is used) within a year on which to base the history of index values. The creditor may choose to use index values as of any date or period as long as the index value as of this date or period is used for each year in the example. Only one index value per year need be shown, even if the plan provides for adjustments to the annual percentage rate or payment more than once in a year. In such cases, the creditor can assume that the index rate remained constant for the full year for the purpose of calculating the annual percentage rate and payment.

3. Selection of margin. A value for the margin must be assumed in order to prepare the example. A creditor may select a representative margin that it has used with the index during the six months preceding preparation of the disclosures and state that the margin is one that it has used recently. The margin selected may be used until the creditor annually updates the disclosure form to reflect the most recent 15 years of index values.

4. Amount of discount or premium. In reflecting any discounted or premium initial rate, the creditor may select a discount or premium that it has used during the six months preceding preparation of the disclosures, and should disclose that the discount or premium is one that the creditor has used recently. The discount or premium should be reflected in the example for as long as it is in effect. The creditor may assume that a discount or premium that would have been in effect for any part of a year was in effect for the full year for purposes of reflecting it in the historical example.

5. Rate limitations. Limitations on both periodic and maximum rates must be reflected in the historical example. If ranges of rate limitations are provided under §226.5b(d)(12)(ix), the highest rates provided in those ranges must be used in the example. Rate limitations that may apply more often than annually should be treated as if they were annual limitations. For example, if a creditor imposes a 1% cap every six months, this should be reflected in the example as if it were a 2% annual cap.

6. Assumed advances. The creditor should assume that the $10,000 balance is an advance taken at the beginning of the first billing cycle and is reduced according to the terms of the plan, and that the consumer takes no additional advances. As discussed in the commentary to §226.5b(d)(5), creditors should not assume an additional advance is taken at the beginning of any repayment period. If applicable, the creditor may assume the $10,000 is both the advance and the credit limit. (See the commentary to §226.5b(d)(5).)

7. Representative payment options. The creditor need not provide an historical example for all of its various payment options, but may select a representative payment option within each of the three categories of payments upon which to base its disclosure. (See the commentary to §226.5b(d)(5).)

8. Payment information. The payment figures in the historical example must reflect all significant program terms. For example, features such as rate and payment caps, a discounted initial rate, negative amortization, and rate carryover must be taken into account in calculating the payment figures if these would have applied to the plan. The
historical example should include payments for as much of the length of the plan as would occur during a 15-year period. For example:

- If the draw period is 10 years and the repayment period is 15 years, the example should illustrate the entire 10-year draw period and the first 5 years of the repayment period.
- If the length of the draw period is 15 years and there is a 15-year repayment phase, the historical example must reflect the payments for the 15-year draw period and would not show any of the repayment period. No additional historical example would be required to reflect payments for the repayment period.
- If the length of the plan is less than 15 years, payments in the historical example need only be shown for the number of years in the term. In such cases, however, the creditor must show the index values, margin and annual percentage rates and continue to reflect all significant plan terms such as rate limitations for the entire 15 years.

A creditor need show only a single payment per year in the example, even though payments may vary during a year. The calculations should be based on the actual payment computation formula, although the creditor may assume that all months have an equal number of days. The creditor may assume that payments are made on the last day of the billing cycle, the billing date or the payment due date, but must be consistent in the manner in which the period used to illustrate payment information is selected. Information about balloon payments and remaining balance may, but need not, be reflected in the example.

9. Disclosures for repayment period. The historical example must reflect all features of the repayment period, including the appropriate index values, margin, rate limitations, length of the repayment period, and payments. For example, if different indices are used during the draw and repayment periods, the index values for that portion of the 15 years that reflect the repayment period must be the values for the appropriate index.

10. Reverse mortgages. The historical example for reverse mortgages should reflect 15 years of index values and annual percentage rates, but the payment column should be blank until the year that the single payment will be made, assuming that payment is estimated to occur within 15 years. (See the commentary to §226.5b(d)(5) for a discussion of reverse mortgages.)

5b(e) Brochure

1. Substitutes. A brochure is a suitable substitute for the Board’s home equity brochure if it is, at a minimum, comparable to the Board’s brochure in substance and comprehensiveness. Creditors are permitted to provide more detailed information than is contained in the Board’s brochure.

2. Effect of third party delivery of brochure. If a creditor determines that a third party has provided a consumer with the required brochure pursuant to §226.5b(c), the creditor need not give the consumer a second brochure.

5b(f) Limitations on Home Equity Plans

1. Coverage. Section 226.5b(f) limits both actions that may be taken and language that may be included in contracts, and applies to any assignee or holder as well as to the original creditor. The limitations apply to the draw period and any repayment period, and to any renewal or modification of the original agreement.

Paragraph 5b(f)(1)

1. External index. A creditor may change the annual percentage rate for a plan only if the change is based on an index outside the creditor’s control. Thus, a creditor may not make rate changes based on its own prime rate or cost of funds and may not reserve a contractual right to change rates at its discretion. A creditor is permitted, however, to use a published prime rate, such as that in the Wall Street Journal, even if the bank’s own prime rate is one of several rates used to establish the published rate.

2. Publicly available. The index must be available to the public. A publicly available index need not be published in a newspaper, but it must be one the consumer can independently obtain (by telephone, for example) and use to verify rates imposed under the plan.

3. Provisions not prohibited. This paragraph does not prohibit rate changes that are specifically set forth in the agreement. For example, stepped-rate plans, in which specified rates are imposed for specified periods, are permissible. In addition, preferred-rate provisions, in which the rate increases by a specified amount upon the occurrence of a specified event, also are permissible.

Paragraph 5b(f)(2)

1. Limitations on termination and acceleration. In general, creditors are prohibited from terminating and accelerating payment of the outstanding balance before the scheduled expiration of a plan. However, creditors may take these actions in the four circumstances specified in §226.5b(f)(2). Creditors are not permitted to specify in their contracts any other events that allow termination and acceleration beyond those permitted by the regulation. Thus, for example, an agreement may not provide that the balance is payable on demand nor may it provide that the account will be terminated and the balance accelerated if the rate cap is reached.
2. Other actions permitted. If an event permitting termination and acceleration occurs, a creditor may instead take actions short of terminating and accelerating. For example, a creditor could temporarily or permanently suspend further advances, reduce the credit limit, change the payment terms, or require the consumer to pay a fee. A creditor also may provide in its agreement that a higher rate or higher fees will apply in circumstances under which it would otherwise be permitted to terminate the plan and accelerate the balance. A creditor that does not immediately terminate an account and accelerate payment or take another permitted action may take such action at a later time, provided one of the conditions permitting termination and acceleration exists at that time.

Paragraph 5b(f)(2)(i)

1. Fraud or material misrepresentation. A creditor may terminate a plan and accelerate the balance if there has been fraud or material misrepresentation by the consumer in connection with the plan. This exception includes fraud or misrepresentation at any time, either during the application process or during the draw period and any repayment period. What constitutes fraud or misrepresentation is determined by applicable state law and may include acts of omission as well as overt acts, as long as any necessary intent on the part of the consumer exists.

Paragraph 5b(f)(2)(ii)

1. Failure to meet repayment terms. A creditor may terminate a plan and accelerate the balance when the consumer fails to meet the repayment terms provided for in the agreement. However, a creditor may terminate and accelerate under this provision only if the consumer actually fails to make payments. For example, a creditor may not terminate and accelerate under this provision if the consumer, in error, sends a payment to the wrong location, such as a branch rather than the main office of the creditor. If a consumer files for or is placed in bankruptcy, the creditor may terminate and accelerate under this provision if the consumer fails to meet the repayment terms of the agreement. This section does not override any state or other law that requires a right-to-cure notice, or otherwise places a duty on the creditor before it can terminate a plan and accelerate the balance.

Paragraph 5b(f)(2)(iii)

1. Impairment of security. A creditor may terminate a plan and accelerate the balance if the consumer’s action or inaction adversely affects the creditor’s security for the plan, or any right of the creditor in that security. Action or inaction by third parties does not, in itself, permit the creditor to terminate and accelerate.

2. Examples. A creditor may terminate and accelerate, for example, if:

- The consumer transfers title to the property or sells the property without the permission of the creditor
- The consumer fails to maintain required insurance on the dwelling
- The consumer fails to pay taxes on the property
- The consumer permits the filing of a lien senior to that held by the creditor
- The sole consumer obligated on the plan dies
- The property is taken through eminent domain
- A prior lienholder forecloses

By contrast, the filing of a judgment against the consumer would permit termination and acceleration only if the amount of the judgment and collateral subject to the judgment is such that the creditor’s security is adversely affected. If the consumer commits waste or otherwise destructively uses or fails to maintain the property such that the action adversely affects the security, the plan may be terminated and the balance accelerated. Illegal use of the property by the consumer would permit termination and acceleration if it subjects the property to seizure.

If one of two consumers obligated on a plan dies the creditor may terminate the plan and accelerate the balance if the security is adversely affected. If the consumer moves out of the dwelling that secures the plan and that action adversely affects the security, the creditor may terminate a plan and accelerate the balance.

Paragraph 5b(f)(3)

1. Scope of provision. In general, a creditor may not change the terms of a plan after it is opened. For example, a creditor may not increase any fee or impose a new fee once the plan has been opened, even if the fee is charged by a third party, such as a credit reporting agency, for a service. The change of terms prohibition applies to all features of a plan, not only those required to be disclosed under §226.5b(d)(7).

2. Charges not covered. There are three charges not covered by this provision. A creditor may pass on increases in taxes since such charges are imposed by a governmental body and are beyond the control of the creditor. In addition, a creditor may pass on increases in premiums for property insurance that are excluded from the finance charge under §226.4(d)(2), since such insurance provides a benefit to the consumer independent of the use of the line and is often maintained notwithstanding the line. A creditor also
Federal Reserve System

may pass on increases in premiums for credit insurance that are excluded from the finance charge under §226.4(d)(1), since the insurance is voluntary and provides a benefit to the consumer.

Paragraph 5b(f)(3)(i)

1. Changes provided for in agreement. A creditor may provide in the initial agreement that further advances will be prohibited or the credit line reduced during any period in which the maximum annual percentage rate is reached. A creditor also may provide for other specific changes to take place upon the occurrence of specific events. Both the triggering event and the resulting modification must be stated with specificity. For example, in home equity plans for employees, the agreement could provide that a specified higher rate or margin will apply if the borrower’s employment with the creditor ends. A contract could contain a stepped-rate or stepped-fee schedule providing for specified changes in the rate or the fees on certain dates or after a specified period of time. The creditor also may provide in the initial agreement that if the maximum annual percentage rate is reached, a creditor may make changes that unequivocally benefit the consumer. Under this provision, a creditor may offer the consumer the option of making lower monthly payments or could increase the credit limit. Similarly, a creditor wishing to extend the length of the plan on the same terms may do so. Creditors are permitted to temporarily reduce the rate or fees charged during the plan (though a change in terms notice may be required under §226.9(c) when the rate or fees are returned to their original level). Creditors also may offer an additional means of access to the line, even if fees are associated with using the device, provided the consumer retains the ability to use prior access devices on the original terms.

Paragraph 5b(f)(3)(vi)

1. Insignificant changes. A creditor is permitted to make insignificant changes after a plan is opened. This rule accommodates operational and similar problems, such as changing the address of the creditor for purposes of sending payments. It does not permit a creditor to change a term such as a fee charged for late payments.

2. Examples of insignificant changes. Creditors may make minor changes to features such as the billing cycle date, the payment due date (as long as the consumer does not have a diminished grace period if one is provided), and the day of the month on which index values are measured to determine changes to the rate for variable-rate plans. A creditor also may change its rounding practice in accordance with the tolerance rules set forth in §226.14 (for example, stating an exact APR of 14.333% percent as 14.3 percent, even if it had previously been stated as 14.33 percent). A creditor may change the balance computation method it uses only if the change produces an insignificant difference in the finance charge paid by the consumer. For example, a creditor may switch from using the average daily balance method (including new transactions) to the daily balance method (including new transactions).

Paragraph 5b(f)(3)(v)

A creditor may prohibit additional extensions of credit or reduce the credit limit in the circumstances specified in this section of the regulation. In addition, as discussed under §226.5b(f)(3)(i), a creditor may contractually reserve the right to take such actions when the maximum annual percentage rate is reached. A creditor may not take these actions under other circumstances, unless the creditor would be permitted to terminate the line and accelerate the balance as described in §226.5b(f)(2).

The creditor’s right to reduce the credit limit does not permit reducing the limit below the amount of the outstanding balance if this would require the consumer to make a higher payment.

2. Temporary nature of suspension or reduction. Creditors are permitted to prohibit additional extensions of credit or reduce the credit limit only while one of the designated circumstances exists. When the circumstance justifying the creditor’s action ceases to exist, credit privileges must be reinstated, assuming that no other circumstance permitting such action exists at that time.

3. Imposition of fees. If not prohibited by state law, a creditor may collect only bona fide and reasonable appraisal and credit report fees if such fees are actually incurred in investigating whether the condition permitting the freeze continues to exist. A creditor may not, in any circumstances, impose a fee to reinstate a credit line once the condition has been determined not to exist.

4. Reinstatement of credit privileges. Creditors are responsible for ensuring that credit privileges are restored as soon as reasonably possible after the condition that permitted the creditor’s action ceases to exist. One way a creditor can meet this responsibility is to monitor the line on an ongoing basis to determine when the condition ceases to exist. The creditor must investigate the condition frequently enough to assure itself that the condition permitting the freeze continues to exist. The frequency with which the creditor must investigate to determine whether a condition continues to exist depends upon the specific condition permitting the freeze. As an alternative to such monitoring, the creditor may shift the duty to the consumer to request reinstatement of credit privileges by providing a notice in accordance with §226.9(c)(3). A creditor may require a reinstatement request to be in writing if it notifies the consumer of this requirement on the notice provided under §226.9(c)(3). Once the consumer requests reinstatement, the creditor must promptly investigate to determine whether the condition allowing the freeze continues to exist. Under this alternative, the creditor has a duty to investigate only upon the consumer’s request.

5. Suspension of credit privileges following request by consumer. A creditor may honor a specific request by a consumer to suspend credit privileges. If the consumer later requests that the creditor reinstate credit privileges, the creditor must do so provided no other circumstance justifying a suspension exists at that time. If two or more consumers are obligated under a plan and each has the ability to take advances, the agreement may permit any of the consumers to direct the creditor not to make further advances. A creditor may require that all persons obligated under a plan request reinstatement.

6. Significant decline defined. What constitutes a significant decline for purposes of §226.5b(f)(3)(vi)(A) will vary according to individual circumstances. In any event, if the value of the dwelling declines such that the initial difference between the credit limit and the available equity (based on the property’s appraised value for purposes of the plan) is reduced by fifty percent, this constitutes a significant decline in the value of the dwelling for purposes of §226.5b(f)(3)(vi)(A). For example, assume that a house with a first mortgage of $50,000 is appraised at $100,000 and the credit limit is $30,000. The difference between the credit limit and the available equity is $20,000, half of which is $10,000. The creditor could prohibit further advances or reduce the credit limit if the value of the property declines from $100,000 to $90,000. This provision does
not require a creditor to obtain an appraisal before suspending credit privileges although a significant decline must occur before suspension can occur.

7. Material change in financial circumstances. Two conditions must be met for §226.5b(f)(3)(vi)(B) to apply. First, there must be a "material change" in the consumer's financial circumstances, such as a significant decrease in the consumer's income. Second, as a result of this change, the creditor must have a reasonable belief that the consumer will be unable to fulfill the payment obligations of the plan. A creditor may, but does not have to, rely on specific evidence (such as the failure to pay other debts) in concluding that the second part of the test has been met. A creditor may prohibit further advances or reduce the credit limit under this section if a consumer files for or is placed in bankruptcy.

8. Default of a material obligation. Creditors may specify events that would qualify as a default of a material obligation under §226.5b(f)(3)(vi)(C). For example, a creditor may provide that default of a material obligation will exist if the consumer moves out of the dwelling or permits an intervening lien to be filed that would take priority over future advances made by the creditor.

9. Government limits on the annual percentage rate. Under §226.5b(f)(3)(vi)(D), a creditor may prohibit further advances or reduce the credit limit if, for example, a state usury law is enacted which prohibits a creditor from imposing the agreed-upon annual percentage rate.

§25g Refund of Fees

1. Refund of fees required. If any disclosed term, including any term provided upon request pursuant to §226.5b(d), changes between the time the early disclosures are provided to the consumer and the time the plan is opened, and the consumer as a result decides not to enter into the plan, a creditor must refund all fees paid by the consumer in connection with the application. All fees, including credit report fees and appraisal fees, must be refunded whether such fees are paid to the creditor or directly to third parties. A consumer is entitled to a refund of fees under these circumstances whether or not terms are guaranteed by the creditor under §226.5b(d)(2)(i).

2. Variable-rate plans. The right to a refund of fees does not apply to changes in the annual percentage rate resulting from fluctuations in the index value in a variable-rate plan. Also, if the maximum annual percentage rate is expressed as an amount over the initial rate, the right to refund of fees would not apply to changes in the cap resulting from fluctuations in the index value.

3. Changes in terms. If a term, such as the maximum rate, is stated as a range in the early disclosures, and the term ultimately applicable to the plan falls within that range, a change does not occur for purposes of this section. If, however, no range is used and the term is changed (for example, a rate cap of 6 rather than 5 percentage points over the initial rate), the change would permit the consumer to obtain a refund of fees. If a fee imposed by the creditor is stated in the early disclosures as an estimate and the fee changes, the consumer could elect not to enter into the agreement and would be entitled to a refund of fees. On the other hand, if fees imposed by third parties are disclosed as estimates and those fees change, the consumer is not entitled to a refund of fees paid in connection with the application. Creditors must, however, use the best information reasonably available in providing disclosures about such fees.

4. Timing of refunds and relation to other provisions. The refund of fees must be made as soon as reasonably possible after the creditor is notified that the consumer is not entering into the plan because of the changed term, or that the consumer wants a refund of fees. The fact that an application fee may be refunded to some applicants under this provision does not render such fees finance charges under §226.4(c)(1) of the regulation.

§25h Imposition of Nonrefundable Fees

1. Collection of fees after consumer receives disclosures. A fee may be collected after the consumer receives the disclosures and brochure and before the expiration of three days, although the fee must be refunded if, within three days of receiving the required information, the consumer decides not to enter into the agreement. In such a case, the consumer must be notified that the fee is refundable for three days. The notice must be clear and conspicuous and in writing, and may be included with the disclosures required under §226.5b(d) or as an attachment to them. If disclosures and brochure are mailed to the consumer, footnote 10d of the regulation provides that a nonrefundable fee may not be imposed until six business days after the mailing.

2. Collection of fees before consumer receives disclosures. An application fee may be collected before the consumer receives the disclosures and brochure (for example, when an application contained in a magazine is mailed in with an application fee) provided that it remains refundable until three business days after the consumer receives the §226.5b disclosures. No other fees except a refundable membership fee may be collected until after the consumer receives the disclosures required under §226.5b.

3. Relation to other provisions. A fee collected before disclosures are provided may become nonrefundable except that, under §226.5b(g), it must be refunded if the consumer elects not to enter into the plan because of a change in terms. Of course, all
fees must be refunded if the consumer later rescinds under §226.15.)

Section 226.6 Initial Disclosure Statement

1. Consistent terminology. Language on the initial and periodic disclosure statements must be close enough in meaning to enable the consumer to relate the 2 sets of disclosures; however, the language need not be identical. For example, in making the disclosure under §226.6(a)(3), the creditor may refer to the “outstanding balance at the end of the billing cycle,” while the disclosure for §226.7(1) refers to the “ending balance” or “new balance.”

2. Separate initial disclosures permitted. In a certain open-end credit program involving more than one creditor—a card issuer of travel-and-entertainment cards and a financial institution—the consumer has the option to pay the card issuer directly or to transfer to the financial institution all or part of the amount owing. In this case, the creditors may send separate initial disclosure statements.

6(a) Finance charge. Paragraph 6(a)(1) 1. When finance charges accrue. Creditors may provide a general explanation about finance charges beginning to run and need not disclose a specific date. For example, a disclosure that the consumer has 30 days from the close of the billing cycle to pay the new balance before finance charges will accrue on the account would describe when finance charges begin to run. 2. Free-ride periods. In disclosing whether or not a free-ride period exists, the creditor need not use “free period,” “free-ride period,” or any other particular descriptive phrase or term. For example, a statement that “the finance charge begins on the date the transaction is posted to your account” adequately discloses that no free-ride period exists. In the same fashion, a statement that “finance charges will be imposed on any new purchases only if they are not paid in full within 25 days after the close of the billing cycle” indicates that a free-ride period exists in the interim. Paragraph 6(a)(2). 1. Range of balances. The range of balances disclosure is inapplicable: • If only one periodic rate may be applied to the entire account balance. • If only one periodic rate may be applied to the entire balance for a feature (for example, cash advances), even though the balance for another feature (purchases) may be subject to 2 rates (a 1.5% periodic rate on purchase balances of $0–$500, while balances above $500 are subject to a 1% periodic rate). Of course, the creditor must give a range of balances disclosure for the purchase feature. 2. Variable-rate disclosures—coverage. This section covers open-end credit plans under which rate changes are part of the plan and are tied to an index or formula. A creditor would use variable-rate disclosures (and thus be excused from the requirement of giving a change-in-terms notice when rate increases occur as disclosed) for plans involving rate changes such as the following:

- Rate changes that are tied to the rate the creditor pays on its 6-month money market certificates.
- Rate changes that are tied to Treasury bill rates.
- Rate changes that are tied to changes in the creditor’s commercial lending rate.

In contrast, the creditor’s contract reservation to increase the rate without reference to such an index or formula (for example, a plan that simply provides that the creditor reserves the right to raise its rates) would not be considered a variable-rate plan for Truth in Lending disclosure purposes. (See the rule in §226.5(b)(1) applicable to home equity plans, however, which prohibits “rate reservation” clauses.) Moreover, an open-end credit plan in which the employee receives a lower rate contingent upon employment (that is, with the rate to be increased upon termination of employment) is not a variable-rate plan. (With regard to such employee preferential-rate plans, however, see comment 6(c)–1, which provides that if the specific change that would occur is disclosed on the initial disclosure statement, no notice of a change in terms need be given when the term later changes as disclosed.)

3. Variable rate plan—rate(s) in effect. In disclosing the rate(s) in effect at the time of the initial disclosures (as is required by §226.6(a)(2)), the creditor may use an insert showing the current rate; may give the rate as of a specified date and then update the disclosure from time to time, for example, each calendar month; or may disclose an estimated rate under §226.5(c).

4. Variable rate plan—additional disclosures required. In addition to disclosing the rates in effect at the time of the initial disclosures, the disclosures under footnote 12 also must be made.

5. Variable rate plan—index. The index to be used must be clearly identified; the creditor need not give, however, an explanation of how the index is determined or provide instructions for obtaining it.

6. Variable rate plan—circumstances for increase. Circumstances under which the rate(s) may increase include, for example:

- An increase in the Treasury bill rate.
- An increase in the Federal Reserve discount rate.

The creditor must disclose when the increase will take effect; for example, “An increase will take effect on the day that the Treasury bill rate increases,” or “An increase in the Federal Reserve discount rate will take effect on the first day of the creditor’s billing cycle.”
Federal Reserve System

7. Variable-rate plan—limitations on increase. In disclosing any limitations on rate increases, limitations such as the maximum increase per year or the maximum increase over the duration of the plan must be disclosed. When there are no limitations, the creditor may, but need not, disclose that fact. (A maximum interest rate must be included in dwelling-secured open-end credit plans under which the interest rate may be changed. See §226.30 and the commentary to that section.) Legal limits such as usury or rate ceilings under State or Federal statutes that section.) Legal limits such as usury or rate ceilings under State or Federal statutes may apply. If the rate limit is based on an index and an increased margin, the issuer must disclose the index and the margin. The creditor must also disclose the specific event or events that may result in the increased rate, such as “22% APR, if 60 days late.” If the penalty rate cannot be determined at the time disclosures are given, the creditor must provide an explanation of the specific event or events that may result in the increased rate. At the creditor’s option, the creditor may disclose the period for which the increased rate will remain in effect, such as “until you make three timely payments.” The creditor need not disclose an increased rate that is imposed when credit privileges are permanently terminated.

Paragraph 6(a)(3).
1. Explanation of balance computation method. A shorthand phrase such as “previous balance method” does not suffice in explaining the balance computation method. (See appendix G–1 for model clauses.)

2. Allocation of payments. Disclosure about the allocation of payments and other credits is not required. For example, the creditor need not disclose that payments are applied to late charges, overdue balances, and finance charges before being applied to the principal balance; or in a multifeatured plan, that payments are applied first to finance charges, then to purchases, and then to cash advances. (See Comment 7–1 for definition of multifeatured plan.)

Paragraph 6(a)(4).
1. Finance charges. In addition to disclosing the periodic rate(s) under §226.6(a)(2), disclosure is required of any other type of finance charge that may be imposed, such as minimum, fixed, transaction, and activity charges; required insurance; or appraisal or credit report fees (unless excluded from the finance charge under §226.4(c)(7)).

6(b) Other charges.
1. General; examples of other charges. Under §226.6(b), significant charges related to the plan (that are not finance charges) must also be disclosed. For example:

i. Late payment and over-the-credit-limit charges.

ii. Fees for providing documentary evidence of transactions requested under §226.13 (billing error resolution).

iii. Charges imposed in connection with real estate transactions such as title, appraisal, and credit report fees (see §226.4(c)(7)).

iv. A tax imposed on the credit transaction by a state or other governmental body, such
as a documentary stamp tax on cash advances (see the commentary to §226.4(a)).

v. A membership or participation fee for a package of services that includes an open-end credit feature, unless the fee is required whether or not the open-end credit feature is included. For example, a membership fee to join a credit union is not an “other charge,” even if membership is required to apply for credit. For the fee to be excluded from disclosure as an “other charge,” however, the package of services must have some substantive purpose other than access to the credit feature. For example, if the primary benefit of membership in an organization is the opportunity to apply for a credit card, and the other benefits offered (such as a newsletter or a member information hotline) are merely incidental to the credit feature, the membership fee would have to be disclosed as an “other charge.”

vi. Automated teller machine (ATM) charges described in comment 4(a)-4 that are not finance charges.

vii. Charges imposed for the termination of an open-end credit plan.

2. Exclusions. The following are examples of charges that are not “other charges”:

i. Fees charged for documentary evidence of transactions for income tax purposes.

ii. Amounts payable by a consumer for collection activity after default; attorney’s fees, whether or not automatically imposed; foreclosure costs; post-judgment interest rates imposed by law; and reinstatement or reissuance fees.

iii. Premiums for voluntary credit life or disability insurance, or for property insurance, that are not part of the finance charge.

iv. Application fees under §226.4(c)(1).

v. A monthly service charge for a checking account with overdraft protection that is applied to all checking accounts, whether or not a credit feature is attached.

vi. Charges for submitting as payment a check that is later returned unpaid (see commentary to §226.4(c)(2)).

vii. Charges imposed on a cardholder by an institution other than the card issuer for the use of the other institution’s ATM in a shared or interchange system. (See also comment 7(b)-2.)

viii. Taxes and filing or notary fees excluded from the finance charge under §226.4(e).

ix. A fee to expedite delivery of a credit card, either at account opening or during the life of the account, provided delivery of the card is also available by standard mail service (or other means at least as fast) without paying a fee for delivery.

x. A fee charged for arranging a single payment on the credit account, upon the consumer’s request (regardless of how frequently the consumer requests the service), if the credit plan provides that the consumer may make payments on the account by any other reasonable means, such as by standard mail service, without paying a fee to the creditor.

6(c) Security interests.

1. General. Disclosure is not required about the type of security interest, or about the creditor’s rights with respect to that collateral. In other words, the creditor need not expand on the term “security interest,” since no specified terminology is required, the creditor may designate its interest by using, for example, pledge, lien, or mortgage (instead of security interest).

2. Identification of property. Identification of the collateral by type is satisfied by stating, for example, motor vehicle or household appliances. (Creditors should be aware, however, that the federal credit practices rules, as well as some state laws, prohibit certain security interests in household goods.) The creditor may, at its option, provide a more specific identification (for example, a model and serial number).

3. Spreader clause. The fact that collateral for pre-existing credit extensions with the institution is being used to secure the present obligation constitutes a security interest and must be disclosed. (Such security interests may be known as spreader or drag-net clauses, or as cross-collateralization clauses.) A specific identification of that collateral is unnecessary, but a reminder of the interest arising from the prior indebtedness is required. This may be accomplished by using language such as “collateral securing other loans with us may also secure this loan.” At the creditor’s option, a more specific description of the property involved may be given.

4. Additional collateral. If collateral is required when advances reach a certain amount, the creditor should disclose the information available at the time of the initial disclosures. For example, if the creditor knows that a security interest will be taken in household goods if the consumer’s balance exceeds $1,000, the creditor should disclose accordingly. If the creditor knows that security will be required if the consumer’s balance exceeds $1,000, but the creditor does not know what security will be required, the creditor must disclose on the initial disclosure statement that security will be required if the balance exceeds $1,000, and the creditor must provide a change-in-terms notice under §226.9(c) at the time the security is taken. (See comment 6(c)-2.)

5. Collateral from third party. In certain situations, the consumer’s obligation may be secured by collateral belonging to a third party. For example, an open-end credit plan may be secured by an interest in property owned by the consumer’s parents. In such cases, the security interest is taken in connection with the plan and must be disclosed, even though the property encumbered is owned by someone other than the consumer.
6(d) Statement of billing rights.
See the commentary to appendix G–3.

6(e) Home Equity Plan Information

1. Additional disclosures required. For home equity plans, creditors must provide several of the disclosures set forth in §226.5b(d) along with the disclosures required under §226.6. Creditors also must disclose a list of the conditions that permit the creditor to terminate the plan, freeze or reduce the credit limit, and implement specified modifications to the original terms. (See comment 5b(d)(4)(iii)–1.)

2. Form of disclosures. The home equity disclosures provided under this section must be in a form the consumer can keep, and are governed by §226.5(a)(1). The segregation standard set forth in §226.5b(a) does not apply to home equity disclosures provided under §226.6.

3. Disclosure of payment and variable-rate examples. The payment example disclosure in §226.5b(d)(5)(iii) and the variable-rate information in §226.5b(d)(12) (viii), (x), (xi), and (xii) need not be provided with the disclosures under §226.6 if:
   • The disclosures under §226.5b(d) were provided in a form the consumer could keep; and
   • The disclosures of the payment example under §226.5b(d)(5)(iii) and the maximum payment example under §226.5b(d)(12)(x) and the historical table under §226.5b(d)(12)(xi) included a representative payment example for the category of payment options the consumer has chosen.

For example, if a creditor offers three payment options one of the categories described in the commentary to §226.5b(d)(5), describes all three options in its early disclosures, and provides all of the disclosures in a retainable form, that creditor need not provide the §226.5b(d)(5)(iii) or (d)(12) disclosures again when the account is opened. If the creditor showed only one of the three options in the early disclosures (which would be the case with a separate disclosure form rather than a combined form, as discussed under §226.5b(a)), the disclosures under §226.5b(d)(5)(ii) and (d)(12) (viii), (x), (xi) and (xii) must be given to any consumer who chooses one of the other two options. If the §226.5b(d)(5)(ii) and (d)(12) disclosures are provided with the second set of disclosures, they need not be transaction-specific, but may be based on a representative example of the category of payment options chosen.

4. Disclosures for the repayment period. The creditor must provide disclosures about both the draw and repayment phases when giving the disclosures under §226.6. Specifically, the creditor must make the disclosures in §226.6(e), state the corresponding annual percentage rate (as required in §226.6(a)(2)) and provide the variable-rate information required in footnote 12 for the repayment phase. To the extent the corresponding annual percentage rate, the information in footnote 12, and any other required disclosures are the same for the draw and repayment phases, the creditor need not repeat such information, as long as it is clear that the information applies to both phases.

Statute: Section 127(a).
Other sections: Sections 226.4, 226.5, 226.7, 226.9, 226.14, and appendix G.

Previous regulation: Section 226.7(a) and Interpretation §226.706.

1981 changes: Section 226.6 implements the amended statute which requires disclosure of the fact that no free period exists. Disclosures about the minimum periodic payment and the Comparative Index of Credit Cost have been eliminated. The security interest disclosures have been simplified. Other charges no longer include voluntary credit life or disability insurance, required property insurance premiums, default charges, or fees for collection activity. Disclosures for variable rate plans are now required by the regulation, replacing Interpretation §226.707. The regulation no longer specifies the exact language to be used for the billing rights notice; creditors may use any version substantially similar to the one in appendix G.

Section 226.7—Periodic Statement

1. Multifeatured plans. Some plans involve a number of different features, such as purchases, cash advances, or overdraft checking. Groups of transactions subject to different finance charge terms because of the dates on which the transactions took place are treated like different features for purposes of disclosures on the periodic statements. The commentary includes some special rules for multifeatured plans.

2. Separate periodic statements permitted. In a certain open-end credit program involving more than one creditor—a card issuer of travel-and-entertainment cards and a financial institution—the consumer has the option to pay the card issuer directly or to transfer to the financial institution all or part of the amount owing. In this case, the creditors may send separate periodic statements that reflect the separate obligations owed to each.

3. Deferred payment transactions. Creditors offer a variety of payment plans for purchases that permit consumers to avoid finance charges if the purchase balance is paid in full by a certain date. The following provides guidance for one type of deferred payment plan where, for example, no finance charge is imposed on a $500 purchase made in January if the $500 balance is paid by March 31.

1. Periodic rates. Under §226.7(d), creditors must disclose each periodic rate that may be used to compute the finance charge. Under some plans with a deferred payment feature, if the deferred payment balance is not paid by the due date, finance charges attributable to periodic rates applicable to the billing cycles between the date of purchase and the payment due date. Periodic rates that may apply to the deferred payment balance ($500 in this example) if the balance is not paid in full by the due date must appear on periodic statements for the billing cycles between the date of purchase and the payment due date. However, if the consumer does not pay the deferred payment balance by the due date, the creditor is not required to identify, on the periodic statement disclosing the finance charge for the deferred payment balance, periodic rates that have been disclosed in previous billing cycles between the date of purchase and the payment due date.

ii. Balances subject to periodic rates. Under §226.7(e), creditors must disclose the balances subject to periodic rates during a billing cycle. The deferred payment balance ($500 in this example) is not subject to a periodic rate for billing cycles between the date of purchase and the payment due date. Periodic statements sent for those billing cycles should not include the deferred payment balance in the balance disclosed under §226.7(e). At the creditor’s option, this amount may be disclosed on periodic statements provided it is identified by a term other than the term used to identify the balance disclosed under §226.7(e) (such as “deferred payment balance”). During any billing cycle in which a periodic rate finance charge on the deferred payment balance is debited to the account, the creditor could include the deferred payment balance for that billing cycle.

iii. Amount of finance charge. Under §226.7(f), creditors must disclose finance charges imposed during a billing cycle. For some deferred payment purchases, the creditor may impose a finance charge from the date of purchase if the deferred payment balance ($500 in this example) is not paid in full by the due date, but otherwise will not impose finance charges for billing cycles between the date of purchase and the payment due date. Periodic statements for billing cycles preceding the payment due date should not include in the finance charge disclosed under §226.7(f) the amounts a consumer may owe if the deferred payment balance is not paid in full by the due date. In this example, the February periodic statement should not identify as finance charges interest attributable to the $500 January purchase. At the creditor’s option, this amount may be disclosed on periodic statements provided it is identified by a term other than “finance charge” (such as “contingent finance charge” or “deferred finance charge”). The finance charge on a deferred payment balance should be reflected on the periodic statement under §226.7(f) for the billing cycle in which the finance charge is debited to the account.

iv. Free-ride period. Assuming monthly billing cycles ending at month-end and a free-ride period ending on the 25th of the following month, here are four examples illustrating how a creditor may comply with the requirement to disclose the free-ride period applicable to a deferred payment balance ($500 in this example) and with the 14-day rule for mailing or delivering periodic statements before imposing finance charges (see §226.5):

A. The creditor could include the $500 purchase on the periodic statement reflecting account activity for February and sent on March 1 and identify March 31 as the payment due date for the $500 purchase. (The creditor could also identify March 31 as the payment due date for any other amounts that would normally be due on March 25.)

B. The creditor could include the $500 purchase on the periodic statement reflecting activity for March and sent on April 1 and identify April 25 as the payment due date for the $500 purchase, permitting the consumer to avoid finance charges if the $500 is paid in full by April 25.

C. The creditor could include the $500 purchase and its due date on each periodic statement sent during the deferred payment period (January, February, and March in this example).

D. If the due date for the deferred payment balance is March 7 (instead of March 31), the creditor could include the $500 purchase and its due date on the periodic statement reflecting activity for January and sent on February 1, the most recent statement sent at least 14 days prior to the due date.

7(a) Previous balance

1. Credit balances. If the previous balance is a credit balance, it must be disclosed in such a way as to inform the consumer that it is a credit balance, rather than a debit balance.

2. Multifeatured plans. In a multifeatured plan, the previous balance may be disclosed either as an aggregate balance for the account or as separate balances for each feature (for example, a previous balance for purchases and a previous balance for cash advances). If separate balances are disclosed, a total previous balance is optional.

3. Accrued finance charges allocated from payments. Some open-end credit plans provide that the amount of the finance charge that has accrued since the consumer’s last payment is directly deducted from each new payment, rather than being separately added to each statement and reflected as an increase in the obligation. In such a plan, the
previous balance need not reflect finance charges accrued since the last payment.

7(b) Identification of transactions.

1. Multifeatured plans. In identifying transactions under §226.7(b) for multifeatured plans, creditors may, for example, choose to arrange transactions by feature (such as disclosing sale transactions separately from cash advance transactions) or in some other clear manner, such as by arranging the transactions in general chronological order.

2. Automated teller machine (ATM) charges imposed by other institutions in shared or interchange systems. A charge imposed on the cardholder by an institution other than the card issuer for the use of the other institution’s ATM in a shared or interchange system and included by the terminal-operating institution in the amount of the transaction need not be separately disclosed on the periodic statement.

7(c) Credits.

1. Identification—sufficiency. The creditor need not describe each credit by type (returned merchandise, rebate or finance charge, etc.)—credit would suffice—except if the creditor is using the periodic statement to satisfy the billing error correction notice requirement. (See the commentary to §226.13(e) and (f).)

2. Format. A creditor may list credits relating to credit extensions (payments, rebates, etc.) together with other types of credits (such as deposits to a checking account), as long as the entries are identified so as to inform the consumer which type of credit each entry represents.

3. Date. If only one date is disclosed (that is, the crediting date as required by the regulation), no further identification of that date is necessary. More than one date may be disclosed for a single entry, as long as it is clear which date represents the date on which credit was given.

4. Totals. Where the creditor lists the credits made to the account during the billing cycle, the creditor need not disclose total figures for the amounts credited.

7(d) Periodic rates.

1. Disclosure of periodic rates—whether or not actually applied. Any periodic rate that may be used to compute finance charges (and its corresponding annual percentage rate) must be disclosed whether or not it is applied during the billing cycle. For example:

• If the consumer’s account has both a purchase feature and a cash advance feature, the creditor must disclose the rate for each, even if the consumer only makes purchases on the account during the billing cycle.

• If the rate varies (such as when it is tied to a particular index), the creditor must disclose each rate in effect during the cycle for which the statement was issued.

2. Disclosure of periodic rates required only if imposition possible. With regard to the periodic rate disclosure (and its corresponding annual percentage rate), only rates that could have been imposed during the billing cycle reflected on the periodic statement need to be disclosed. For example:

• If the creditor is changing rates effective during the next billing cycle (either because it is changing terms or because of a variable rate plan), the rates required to be disclosed under §226.7(d) are only those in effect during the billing cycle reflected on the periodic statement. For example, if the monthly rate applied during May was 1.5 percent, but the creditor will increase the rate to 1.8 percent effective June 1, 1.5 percent (and its corresponding annual percentage rate) is the only required disclosure under §226.7(d) for the periodic statement reflecting the May account activity.

• If the consumer has an overdraft line that might later be expanded upon the consumer’s request to include secured advances, the rates for the secured advance feature need not be given until such time as the consumer has requested and received access to the additional feature.

• If rates applicable to a particular type of transaction changed after a certain date, and the old rate is only being applied to transactions that took place prior to that date, the creditor need not continue to disclose the old rate for those consumers that have no outstanding balances to which that rate could be applied.

3. Multiple rates—same transaction. If two or more periodic rates are applied to the same balance for the same type of transaction (for example, if the finance charge consists of a monthly periodic rate of 1.5% applied to the outstanding balance and a required credit life insurance component calculated at .1% per month on the same outstanding balance), the creditor may do either of the following:

• Disclose each periodic rate, the range of balances to which it is applicable, and the corresponding annual percentage rate for each. (For example, 1.5% monthly, 18% annual percentage rate; .1% monthly, 1.2% annual percentage rate.)

• Disclose one composite periodic rate (that is, 1.6% per month) along with the applicable range of balances and corresponding annual percentage rate.

4. Corresponding annual percentage rate. In disclosing the annual percentage rate that corresponds to each periodic rate, the creditor may use “corresponding annual percentage rate,” “nominal annual percentage rate,” “corresponding nominal annual percentage rate,” or similar phrases.

5. Rate same as actual annual percentage rate. When the corresponding rate is the same as the actual annual percentage rate (historical rate) required to be disclosed (§226.7(g)), the creditor need disclose only.

12 CFR Ch. II (1–1–09 Edition)

one annual percentage rate, but must use the phrase "annual percentage rate."

7. Deferred payment transactions. See comment 7–3(1).

7(e) Balance on which finance charge computed.

1. Limitation to periodic rates. Section 226.7(e) only requires disclosure of the balances to which a periodic rate was applied and does not apply to balances on which other kinds of finance charges (such as transaction charges) were imposed. For example, if a consumer obtains a $1,500 cash advance subject to both a 1% transaction fee and a 1% monthly periodic rate, the creditor need only disclose the balance subject to the monthly rate (which might include portions of earlier cash advances not paid off in previous cycles).

2. Split rates applied to balance ranges. If split rates were applied to a balance because different portions of the balance fall within two or more balance ranges, the creditor need not separately disclose the portions of the balance subject to such different rates since the range of balances to which the rates apply has been separately disclosed. For example, a creditor could disclose a balance of $700 for purchases even though a monthly periodic rate of 1.5 percent applied to the first $500, and a monthly periodic rate of 1 percent to the remainder. This option to disclose a combined balance does not apply when the finance charge is computed by applying the split rates to each day’s balance (in contrast, for example, to applying the rates to the average daily balance). In that case, the balances must be disclosed using any of the options that are available if two or more daily rates are imposed. (See comment 7(e)–5.)

3. Monthly rate on average daily balance. If a creditor computes a finance charge on the average daily balance by application of a monthly periodic rate or rates, the balance is adequately disclosed if the statement gives the amount of the average daily balance on which the finance charge was computed, and also states how the balance is determined.

4. Multifeatured plans. In a multifeatured plan, the creditor must disclose a separate balance (or balances, as applicable) to which a periodic rate was applied for each feature or group of features subject to different periodic rates or different balance computation methods. Separate balances are not required, however, merely because a "free-ride" period is available for some features but not others. A total balance for the entire plan is optional. This does not affect how many balances the creditor must disclose—or may disclose—within each feature. (See, for example, comment 7(e)–5.)

5. Daily rate on daily balance. If the finance charge is computed on the balance each day by application of one or more daily periodic rates, the balance on which the finance charge was computed may be disclosed in any of the following ways for each feature:

(a) A balance for each day in the billing cycle
(b) A balance for each day in the billing cycle on which the balance in the account changes
(c) The sum of the daily balances during the billing cycle
(d) The average daily balance during the billing cycle, in which case the creditor shall explain that the average daily balance is or can be multiplied by the number of days in the billing cycle and the periodic rate applied to the product to determine the amount of the finance charge.

If two or more daily periodic rates may be imposed, the balances to which the rates are applicable may be stated as:

(a) A balance for each day in the billing cycle
(b) A balance for each day in the billing cycle on which the balance in the account changes

Two or more average daily balances, each applicable to the daily periodic rates imposed for the time that those rates were in effect, as long as the creditor explains that the finance charge is or may be determined by (1) multiplying each of the average balances by the number of days in the billing cycle (or if the daily rate varied during the cycle, by multiplying by the number of days the applicable rate was in effect), (2) multiplying each of the results by the applicable daily periodic rate, and (3) adding these products together.

6. Explanation of balance computation method. See the commentary to §226.6(a)(3).

7. Information to compute balance. In connection with disclosing the finance charge balance, the creditor need not give the consumer all of the information necessary to compute the balance if that information is not otherwise required to be disclosed. For example, if current purchases are included from the date they are posted to the account, the posting date need not be disclosed.

8. Non-deduction of credits. The creditor need not specifically identify the total dollar amount of credits not deducted in computing the finance charge balance. Disclosure of the amount of credits not deducted is accomplished by listing the credits (§226.7(c)) and indicating which credits will not be deducted in determining the balance (for example, "credits after the 15th of the month are not deducted in computing the finance charge.")
9. Use of one balance computation method explanation when multiple balances disclosed. Sometimes the creditor will disclose more than one balance to which a periodic rate was applied even though each balance was computed using the same balance computation method. For example, if a plan involves purchases and cash advances that are subject to different rates, more than one balance must be disclosed even though the same computation method is used for determining the balance for each feature. In these cases, one explanation of the balance computation method is also sufficient (assuming, of course, that all portions of the balance were computed using the same method).

10. Deferred payment transactions. See comment 7–3(ii).

7(f) Amount of finance charge.
1. Total. A total finance charge amount for the plan is not required.
2. Itemization—types of finance charges. Each type of finance charge (such as periodic rates, transaction charges, and minimum charges) imposed during the cycle must be separately itemized; for example, disclosure of only a combined finance charge attributable to both a minimum charge and transaction charges would not be permissible. Finance charges of the same type may be closed, however, individually or as a total. For example, 5 transaction charges of $1 may be listed separately or as $5.
3. Itemization—different periodic rates. Whether different periodic rates are applicable to different types of transactions or to different balance ranges, the creditor may give the finance charge attributable to each rate or may give a total finance charge amount. For example, if a creditor charges 1.5% per month on the first $500 of a balance and 1% per month on amounts over $500, the creditor may itemize the two components ($7.50 and $1.00) of the $8.50 charge, or may disclose $8.50.
4. Multifeatured plans. In a multifeatured plan, in disclosing the amount of the finance charge attributable to the application of periodic rates no total periodic rate disclosure for the entire plan need be given.
5. Finance charges not added to account. A finance charge that is not included in the new balance because it is payable to a third party (such as required life insurance) must still be shown on the periodic statement as a finance charge.
6. Finance charges other than periodic rates. See Comment 6(a)(4)–1 for examples.

7. Accrued finance charges allocated from payments. Some plans provide that the amount of the finance charge that has accrued since the consumer’s last payment is directly deducted from each new payment rather than being separately added to each statement and therefore reflected as an increase in the obligation. In such a plan, no disclosure is required of finance charges that have accrued since the last payment.

8. Start-up fees. Points, loan fees, and similar finance charges relating to the opening of the account that are paid prior to the issuance of the first periodic statement need not be disclosed on the periodic statement. If, however, these charges are financed as part of the plan, including charges that are paid out of the first advance, the charges must be disclosed as part of the finance charge on the first periodic statement. However, they need not be factored into the annual percentage rate. (See footnote 33 in the regulation.)

9. Deferred payment transactions. See comment 7–3(iii).

7(g) Annual percentage rate.
1. Rate same as corresponding annual percentage rate. See Comment 7(d)–5.
2. Multifeatured plans. In a multifeatured plan, the actual annual percentage rate that reflects the finance charge imposed during the cycle may be separately stated for each feature, or may be described as a composite for the whole plan. If separate rates are given, a composite annual percentage rate for the entire plan is optional.

7(h) Other charges.
1. Identification. In identifying any “other charges” actually imposed during the billing cycle, the type is adequately described as late charge or membership fee, for example. Similarly, closing costs or settlement costs, for example, may be used to describe charges imposed in connection with real estate transactions that are excluded from the finance charge under §226.4(c)(7), if the same term (such as closing costs) was used in the initial disclosures and if the creditor chose to itemize and individually disclose the costs included in that term. Even though the taxes and filing or notary fees excluded from the finance charge under §226.4(e) are not required to be disclosed as other charges under §226.6(b), these charges may be included in the amount shown as closing costs or settlement costs on the periodic statement, if the charges were itemized and disclosed as part of the closing costs or settlement costs on the initial disclosure statement. (See comment 6(b)–1 for examples of other charges.)
2. Date. The date of imposing or debiting other charges need not be disclosed.
3. Total. Disclosure of the total amount of other charges is optional.
4. Itemization—types of other charges. Each type of other charge (such as late payment charges, over-the-limit charges, ATM...
fees that are not finance charges, and membership fees) imposed during the cycle must be separately itemized; for example, disclosure of only a total of other charges attributable to both an over-the-credit-limit charge and a late payment charge would not be permissible. Other charges of the same type may be disclosed, however, individually or as a total. For example, three ATM fees of $1 may be listed separately or as $3.

7(i) Closing date of billing cycle; new balance.
1. Credit balances. See Comment 7(a)-1.
2. Multifeatured plans. In a multifeatured plan the new balance may be disclosed for each feature or for the plan as a whole. If separate new balances are disclosed, a total new balance is optional.
3. Accrued finance charges allocated from payments. Some plans provide that the amount of the finance charge that has accrued since the consumer’s last payment is directly deducted from each new payment, rather than being separately added to each statement and therefore reflected as an increase in the obligation. In such a plan, the new balance need not reflect finance charges accrued since the last payment.

7(j) Free-ride period.
1. Wording. Although the creditor is required to indicate any time period the consumer may have to pay the balance outstanding without incurring additional finance charges, no specific wording is required, so long as the language used is consistent with that used on the initial disclosure statement. For example, “To avoid additional finance charges, pay the balance out before…” would suffice.
2. Deferred payment transactions. See comment 7–3(iv).

7(k) Address for notice of billing errors.
1. Wording. The periodic statement must contain the address for consumers to use in asserting billing errors under §226.13. Since all disclosures must be “clear,” the statement should indicate the general purpose for the address, although no elaborate explanation or particular wording is required.
2. Telephone number. A telephone number may be included, but the address for billing error inquiries, which is the required disclosure, must be clear and conspicuous. One way to ensure that the address is clear and conspicuous is to include a precautionary instruction that telephoning will not preserve the consumer’s billing error rights. Both of the billing rights statements in appendix G contain such a precautionary instruction, so that a creditor could, by including either of these statements with each periodic statement, ensure that the required address is provided in a clear and conspicuous manner.

References
Statute: Section 127(b).

Previous regulation: Section 226.7(b)(1) and Interpretation §§226.701, 226.703, 226.706, and 226.707.

Other sections: Sections 226.4 through 226.6, 226.8, 226.11, and appendix G.

1981 changes: Under §226.7, required terminology is no longer mandated except for the terms finance charge and annual percentage rate. The requirement in the previous regulation about the location of disclosures has been deleted.

Under the revised §226.7, disclosure of credits to the account no longer have to indicate the type of credit. A short disclosure for variable rate plans must be included on the periodic statement. Disclosures relating to multifeatured accounts have been clarified.

Section 226.7 now specifically requires a periodic statement disclosure of other charges (non-finance charges related to the plan) that are actually imposed during the billing cycle.

Disclosures about minimum charges that might be imposed on the account and about the Comparative Index of Credit Cost have been deleted.

Section 226.8—Identification of Transactions

1. Application of identification rules. Section 226.8 deals with the requirement (imposed by §226.7(b)) for identification of each credit transaction made during the billing cycle. The rules for identifying transactions on periodic statements vary, depending on whether:

- The transaction involves sale credit (purchases) or nonsale credit (cash advances, for example).
- An actual copy of the credit document reflecting the transaction accompanies the statement (this is the distinction between so-called country club and descriptive billing).
- The creditor and seller are the same or related persons.

2. Sale credit. The term sale credit refers to a purchase in which the consumer uses a credit card or otherwise directly accesses an open-end line of credit (see Comment 9–3 if access is by means of a check) to obtain goods or services from a merchant, whether or not the merchant is the card issuer. Sale credit even includes:

- Premiums for voluntary credit life insurance whether sold by the card issuer or another person.
- The purchase of funds-transfer services (such as telegrams) from an intermediary.

3. Nonsale credit. The term nonsale credit refers to any form of loan credit including, for example:

- Cash advances.
- Overdraft checking.
- The use of a supplemental credit device in the form of a check or draft or the use of the overdraft feature of a debit card, even if such
use is in connection with a purchase of goods or services.

- Miscellaneous debits to remedy mispostings, returned checks, and similar entries.

4. Actual copy. An actual copy does not include a recreated document. It includes, for example, a duplicate, carbon, or photograph of the original. A copy does not include a so-called “facsimile draft” in which the required information is typewritten, printed, or otherwise recreated. If a facsimile draft is used, the creditor must follow the rules that apply when a copy of the credit document is not furnished.

5. Same or related persons. For purposes of identifying transactions, the term same or related persons refers to, for example:

- Franchised or licensed sellers of a creditor’s product or service.
- Sellers who purchase or sell open-end sales accounts to a creditor or arrange for such credit under a plan that allows the consumer to use the credit only in transactions with that seller.

A seller is not related to the creditor merely because the seller and the creditor have an agreement authorizing the seller to honor the creditor’s credit card.

6. Transactions resulting from promotional material. In describing transactions with third-party sellers resulting from promotional material mailed by the creditor, creditors may use the rules either for related or for non-related sellers and creditors.

7. Credit insurance offered through the creditor. When credit insurance that is not part of the finance charge (for example, voluntary credit life insurance) is offered to the consumer through the creditor, but is actually provided by another company, the creditor has the option of identifying the premiums in one of two ways on the periodic statement.

The creditor may describe the premiums using either the rule in §226.8(a)(2) for related sellers and creditors, or the rule in §226.8(a)(3) for non-related sellers and creditors. This means, therefore, that the creditor may identify the insurance either by providing, under §226.8(a), a brief identification of the services provided (for example, credit life insurance), or by disclosing, under §226.8(a)(3), the name and address of the company providing the insurance (for example, ABC Insurance Company, New York, New York). In either event, the creditor would, of course, also provide the amount and the date of the transaction.

8. Transactions involving creditors and sellers with corporate connections. In a credit card plan established for use primarily with sellers that have no corporate connection with the creditor, the creditor may describe all transactions under the plan by using the rules in §226.8(a)—creditor and seller not same or related persons—including transactions involving a seller that has a corporate connection with the creditor. In other credit card plans, the creditor may describe transactions involving a seller that has a corporate connection with the creditor, such as subsidiary-parent, using the rules in §226.8(a)(3) where it is unlikely that the consumer would know of the corporate connection between the creditor and the seller—for example, where the names of the creditor and the seller are not similar, and the periodic statement is issued in the name of the creditor only.

8(a) Sale credit.

1. Date—disclosure of only one date. If only the required date is disclosed for a transaction, the creditor need not identify it as the “transaction date.” If the creditor discloses more than one date (for example, the transaction date and the posting date), the creditor must identify each.

2. Date—disclosure of month and day only. The month and day are sufficient disclosure of the date on which the transaction took place, unless the posting of the transaction is delayed so long that the year is needed for a clear disclosure to the consumer.

3. When transaction takes place. If the consumer conducts the transaction in person, the date of the transaction is the calendar date on which the consumer made the purchase or order, or secured the advance. For transactions billed to the account on an ongoing basis (other than installments to pay a precomputed amount), the date of the transaction is the date on which the amount is debited to the account. This might include, for example, monthly insurance premiums. For mail or telephone orders, a creditor may disclose as the transaction date either the invoice date, the debiting date, or the date the order was placed by telephone.
