4. Transactions not billed in full. If sale transactions are not billed in full on any single statement, but are billed periodically in precomputed installments, the first periodic statement reflecting the transaction must show either the full amount of the transaction together with the date of the transaction actually took place; or the amount of the first installment that was debited to the account together with the date of the transaction or the date on which the first installment was debited to the account. In any event, subsequent periodic statements should reflect each installment due, together with either any other identifying information required by §226.8(a) (such as the seller’s name and address in a three-party situation) or other appropriate identifying information relating the transaction to the first billing. The debiting date for the particular installment, or the date the transaction took place, may be used as the date of the transaction on these subsequent statements.
§ 226.8 Property identification.

1. Format. The information required by §226.8(a)(1) may appear either on the copy of the credit document reflecting the transaction or on the periodic statement.

2. Property identification—sufficiency of description. The “brief identification” provision in §226.8(a)(2) requires a designation that will enable the consumer to reconcile the periodic statement with the consumer’s own records. In determining the sufficiency of the description, the following rules apply:

- While item-by-item descriptions are not necessary, reasonable precision is required. For example, merchandise, miscellaneous, second-hand goods, or promotional items would not suffice.
- A reference to a department in a sales establishment that accurately conveys the identification of the types of property or services available in the department is sufficient—for example, jewelry, sporting goods.

3. Property identification—number or symbol. The “brief identification” may be made by disclosing on the periodic statement a number or symbol that is related to an identification list printed elsewhere on the statement.

4. Property identification—additional document. In making the “brief identification” required by §226.8(a)(2), the creditor may identify the property by describing the transaction on a document accompanying the periodic statement (for example, on a facsimile draft). (See also footnote 17.)

5. Date of transaction—foreign transactions. In a foreign transaction, the debiting date may be considered the transaction date.

§ 226.8(a)(3) Copy of credit document not provided—creditor and seller same or related person(s).

1. Seller’s name. The requirement contemplates that the seller’s name will appear on the periodic statement in essentially the same form as it appears on transaction documents provided to the consumer at the time of the sale. The seller’s name may also be disclosed as, for example:

- A more complete spelling of the name that was alphabetically abbreviated on the receipt or other credit document.
- An alphabetical abbreviation of the name on the periodic statement even if the name appears in a more complete spelling on the receipt or other credit document. Terms that merely indicate the form of a business entity, such as Inc., Co., or Ltd., may always be omitted.

2. Location of transaction. The disclosure of the location where the transaction took place generally requires an indication of both the city and the state or foreign country. If the seller has multiple stores or branches within that city, the creditor need not identify the specific branch at which the sale occurred.

3. No fixed location. When no meaningful address is available because the consumer did not make the purchase at any fixed location of the seller, the creditor:

- May omit the address.
- May provide some other identifying designation, such as aboard plane, ABC Airways Flight, customer’s home, telephone order, or mail order.

4. Date of transaction—foreign transactions. See Comment 8(a)(2)–5.

§ 226.8(b) Nonsale credit.

1. Date of transaction. If only one of the required dates is disclosed for a transaction, the creditor need not identify it. If the creditor discloses more than one date (for example, transaction date and debiting date), the creditor must identify each.

2. Amount of transaction. If credit is extended under an overdraft checking account plan or by means of a debit card with an overdraft feature, the amount to be disclosed is that of the credit extension, not the face amount of the check or the total amount of the debit/credit transaction.

3. Amount—disclosure on cumulative basis. If credit is extended under an overdraft checking account plan or by means of a debit card with an overdraft feature, the creditor may disclose the amount of the credit extensions on a cumulative daily basis, rather than the amount attributable to each check or each use of the debit/credit card.

4. Identification of transaction type. The creditor may identify a transaction by describing the type of advance it represents, such as cash advance, loan, overdraft loan, or any readily understandable trade name for the credit program.

Statute: Section 127(b)(2).

Previous regulation: Section 226.7(k).

Other sections: Section 226.7.

1981 changes: Section 226.8 has been streamlined and reorganized to facilitate its use. Technical detail has been deleted from the Regulation for inclusion in the commentary. The Regulation implements the amended section 127(b)(2) of the Act by providing for protection from civil liability under certain circumstances when required information is not provided and by reducing disclosure responsibilities for certain small creditors. For descriptive billing of nonsale transactions,
Federal Reserve System

the regulation now permits the use of the debiting date in all cases.

Section 226.9—Subsequent Disclosure Requirements

9(a) Furnishing Statement of Billing Rights.

9(a)(1) Annual Statement

1. General. The creditor may provide the annual billing rights statement:
   • By sending it in one billing period per year to each consumer that gets a periodic statement for that period; or
   • By sending a copy to all of its account holders sometime during the calendar year but not necessarily all in one billing period.

2. Substantially similar. See the commentary to appendix G–3.

9(a)(2) Alternative Summary Statement

1. Changing from long-form to short-form statement and vice versa. If the creditor has been sending the long-form annual statement, and subsequently decides to use the alternative summary statement, the first summary statement must be sent no later than 12 months after the last long-form statement was sent. Conversely, if the creditor wants to switch to the long-form, the first long-form statement must be sent no later than 12 months after the last summary statement.

2. Substantially similar. See the commentary to appendix G–4.

9(b) Disclosures for Supplemental Credit Devices and Additional Features

1. Credit device—examples. Credit device includes, for example, a blank check, payee-designated check, blank draft or order, or authorization form for issuance of a check; it does not include a check issued payable to a consumer representing loan proceeds or the disbursement of a cash advance.

2. Credit feature—examples. A new credit feature would include, for example:
   • The addition of overdraft checking to an existing account (although the regular checks that could trigger the overdraft feature are not themselves devices),
   • The option to use an existing credit card to secure cash advances, when previously the card could only be used for purchases.

Paragraph 9(b)(1)

1. Same finance charge terms. If the new means of accessing the account is subject to the same finance charge terms as those previously disclosed, the creditor:
   • Need only provide a reminder that the new device or feature is covered by the earlier disclosures. (For example, in mailing special checks that directly access the credit line, the creditor might give a disclosure such as “Use this as you would your XYZ card to obtain a cash advance from our bank”); or
   • May remake the §226.6(a) finance charge disclosures.

Paragraph 9(b)(2)

1. Different finance charge terms. If the finance charge terms are different from those previously disclosed, the creditor may satisfy the requirement to give the finance charge terms either by giving a complete set of new initial disclosures reflecting the terms of the added device or feature or by giving only the finance charge disclosures for the added device or feature.

9(c) Change in Terms

1. Changes initially disclosed. No notice of a change in terms need be given if the specific change is set forth initially, such as:
   • Rate increases under a properly disclosed variable-rate plan, a rate increase that occurs when an employee has been under a preferential rate agreement and terminates employment, or an increase that occurs when the consumer has been under an agreement to maintain a certain balance in a savings account in order to keep a particular rate and the account balance falls below the specified minimum. In contrast, notice must be given if the contract allows the creditor to increase the rate at its discretion but does not include specific terms for an increase (for example, when an increase may occur under the creditor’s contract reservation right to increase the periodic rate). The rules in §226.5b(f) relating to home equity plans, however, limit the ability of a creditor to change the terms of such plans.

2. State law issues. Examples of issues not addressed by §226.9(c) because they are controlled by State or other applicable law include:
   • The types of changes a creditor may make.
   • How changed terms affect existing balances, such as when a periodic rate is changed and the consumer does not pay off the entire existing balance before the new rate takes effect.

3. Change in billing cycle. Whenever the creditor changes the consumer’s billing cycle, it must give a change-in-terms notice if the change either affects any of the terms required to be disclosed under §226.6 or increases the minimum payment, unless an exception under §226.8(c)(2) applies; for example, the creditor must give advance notice if the creditor initially disclosed a 25-day free-ride period on purchases and the consumer will have fewer days during the billing cycle change.
§ 226.9(c) Written Notice Required

1. Affected consumers. Change-in-terms notices need only go to those consumers who may be affected by the change. For example, a change in the periodic rate for check over-draft credit need not be disclosed to consumers who do not have that feature on their accounts.

2. Timing—effective date of change. The rule that the notice of the change in terms be provided at least 15 days before the change takes effect permits mid-cycle changes when there is clearly no retroactive effect, such as the imposition of a transaction fee. Any change in the balance computation method, in contrast, would need to be disclosed at least 15 days prior to the billing cycle in which the change is to be implemented.

3. Timing—advance notice not required. Advance notice of 15 days is not necessary—that is, a notice of change in terms is required, but it may be mailed or delivered as late as the effective date of the change—in two circumstances:
   - If there is an increased periodic rate or any other finance charge attributable to the consumer's delinquency or default.
   - If the consumer agrees to the particular change. This provision is intended for use in the unusual instance when a consumer substitutes collateral or when the creditor can advance additional credit only if a change relatively unique to that consumer is made, such as the consumer's providing additional security or paying an increased minimum payment amount. Therefore, the following are not "agreements" between the consumer and the creditor for purposes of §226.9(c)(1): The consumer's general acceptance of the creditor's contract reservation of the right to change terms; the consumer's use of the account (which might imply acceptance of its terms under State law); and the consumer's acceptance of a unilateral term change that is not particular to that consumer, but rather is of general applicability to consumers with that type of account.

4. Form of change-in-terms notice. A complete new set of the initial disclosures containing the changed term complies with §226.9(c) if the change is highlighted in some way on the disclosure statement, or if the disclosure statement is accompanied by a letter or some other insert that indicates or draws attention to the term change.

5. Security interest change—form of notice. A copy of the security agreement that describes the collateral securing the consumer's account may be used as the notice, when the term change is the addition of a security interest or the addition or substitution of collateral.

6. Changes to home equity plans entered into on or after November 7, 1989. Section 226.9(c) applies when, by written agreement under §226.5b(f)(3)(i)(i), a creditor changes the terms of a home equity plan—entered into on or after November 7, 1989—at or before its scheduled expiration, for example, by renewing a plan on terms different from those of the original plan. In disclosing the change:
   - If the index is changed, the maximum annual percentage rate is increased (to the limited extent permitted by §226.3b), or a variable-rate feature is added to a fixed-rate plan, the creditor must include the disclosures required by §226.5b(d)(12)(x) and (d)(12)(xi), unless these disclosures are unchanged from those given earlier.
   - If the minimum payment requirement is changed, the creditor must include the disclosures required by §226.5b(d)(5)(ii) and, in variable-rate plans, the disclosures required by §226.5b(d)(12)(x) and (d)(12)(xi) unless the disclosures given earlier contained representative examples covering the new minimum payment requirement. (See the commentary to §226.5b(d)(5)(iii), (d)(12)(x) and (d)(12)(xi) for a discussion of representative examples)

When the terms are changed pursuant to a written agreement as described in §226.5b(f)(3)(i)(ii), the advance-notice requirement does not apply.

§ 226.9(c) Notice Not Required

1. Changes not requiring notice. The following are examples of changes that do not require a change-in-terms notice:
   - A change in the consumer's credit limit.
   - A change in the name of the credit card or credit card plan.
   - The substitution of one insurer for another.
   - A termination or suspension of credit privileges.
   - Changes arising merely by operation of law; for example, if the creditor's security interest in a consumer's car automatically extends to the proceeds when the consumer sells the car.

2. Skip features. If a credit program allows consumers to skip or reduce one or more payments during the year, or involves temporary reductions in finance charges, no notice of the change in terms is required either prior to the reduction or upon resumption of the higher rates or payments if these features are explained on the initial disclosure statement (including an explanation of the terms upon resumption). For example, a merchant may allow consumers to skip the December payment to encourage holiday shopping, or a teachers' credit union may not require payments during summer vacation. Otherwise, the creditor must give notice prior to resuming the original schedule or rate, even though no notice is required prior to the reduction. The change-in-terms
notice may be combined with the notice offering the reduction. For example, the periodic statement reflecting the reduction or skip feature may also be used to notify the consumer of the resumption of the original schedule or rate, either by stating explicitly when the higher payment or charges resume, or by indicating the duration of the skip option. Language such as “You may skip your October payment,” or “We will waive your finance charges for January,” may serve as the change-in-terms notice.

§226.9(c)(3) Notice for Home Equity Plans

1. Written request for reinstatement. If a creditor requires the request for reinstatement of credit privileges to be in writing, the notice under §226.9(c)(3) must state that fact.

2. Notice not required. A creditor need not provide a notice under this paragraph if, pursuant of the commentary to §226.5b(f)(2), a creditor freezes a line or reduces a credit line rather than terminating a plan and accelerating the balance.

§226.9(d) Finance Charge Imposed at Time of Transaction

1. Disclosure prior to imposition. A person imposing a finance charge at the time of honoring a consumer’s credit card must disclose the amount of the charge, or an explanation of how the charge will be determined, prior to its imposition. This must be disclosed before the consumer becomes obligated for property or services that may be paid for by use of a credit card. For example, disclosure must be given before the consumer has dinner at a restaurant, stays overnight at a hotel, or makes a deposit guaranteeing the purchase of property or services.

§226.9(e) Disclosures Upon Renewal of Credit or Charge Card

1. Coverage. This paragraph applies to credit and charge card accounts of the type subject to §226.5a. (See §226.5a(a)(3) and the accompanying commentary for discussion of the types of accounts subject to §226.5a.) The disclosure requirements are triggered when a card issuer imposes any annual or other periodic fee on such an account, whether or not the card issuer originally was required to provide the application and solicitation disclosures described in §226.5a.

2. Form. The disclosures under this paragraph must be clear and conspicuous, but need not appear in a tabular format or in a prominent location. The disclosures need not be in a form the cardholder can retain.

3. Terms at renewal. Renewal notices must reflect the terms actually in effect at the time of renewal. For example, a card issuer that offers a preferential annual percentage rate to employees during their employment must send a renewal notice to employees disclosing the lower rate actually charged to employees (although the card issuer also may show the rate charged to the general public).

4. Variable rate. If the card issuer cannot determine the rate that will be in effect if the cardholder chooses to renew a variable-rate account, the card issuer may disclose the rate in effect at the time of mailing or delivery of the renewal notice. Alternatively, the card issuer may use the rate as of a specified date (and then update the rate from time to time, for example, each calendar month) or use an estimated rate under §226.5(c).

5. Renewals more frequent than annual. If a renewal fee is billed more often than annually, the renewal notice should be provided each time the fee is billed. In this instance, the fee need not be disclosed as an annualized amount. Alternatively, the card issuer may provide the notice no less than once every twelve months if the notice explains the amount and frequency of the fee that will be billed during the time period covered by the disclosure, and also discloses the fee as an annualized amount. The notice under this alternative also must state the consequences of a cardholder’s decision to terminate the account after the renewal notice period has expired. For example, if a $2 fee is billed monthly but the notice is given annually, the notice must inform the cardholder that the monthly charge is $2, the annualized fee is $24, and $2 will be billed to the account each month for the coming year unless the cardholder notifies the card issuer. If the cardholder is obligated to pay an amount equal to the remaining unpaid monthly charges if the cardholder terminates the account during the coming year but after the first month, the notice must disclose that fact.

6. Terminating credit availability. Card issuers have some flexibility in determining the procedures for how and when an account may be terminated. However, the card issuer must clearly disclose the time by which the cardholder must act to terminate the account after paying a renewal fee. State and other applicable law govern whether the card issuer may impose requirements such as specifying that the cardholder’s response be in writing or that the outstanding balance be repaid in full upon termination.

7. Timing of termination by cardholder. When a card issuer provides notice under §226.9(e)(1), a cardholder must be given at least 30 days or one billing cycle, whichever is less, from the date the notice is mailed or delivered to make a decision whether to terminate an account. When notice is given under §226.9(e)(2), a cardholder has 30 days from mailing or delivery to decide to terminate an account.
8. **Timing of notices.** A renewal notice is deemed to be provided when mailed or delivered. Similarly, notice of termination is deemed to be given when mailed or delivered.

9. **Prompt reversal of renewal fee upon termination.** In a situation where a cardholder has provided timely notice of termination and a renewal fee has been billed to a cardholder’s account, the card issuer must reverse or otherwise withdraw the fee promptly. Once a cardholder has terminated an account, no additional action by the cardholder may be required.

9(e)(3) **Notification on Periodic Statements**

1. **Combined disclosures.** If a single disclosure is used to comply with both §§226.9(e) and 226.7, the periodic statement must comply with the rules in §§226.5a and 226.7. For example, the words "grace period" must be used and the name of the balance calculation method must be identified (if listed in §226.5a(g)) to comply with the requirements of §226.5a, even though the use of those terms would not otherwise be required for periodic statements under §226.7. A card issuer may include some of the renewal disclosures on a periodic statement and others on a separate document so long as there is some reference indicating that they relate to one another. All renewal disclosures must be provided to a cardholder at the same time.

2. **Preprinted notices on periodic statements.** A card issuer may preprint the required information on its periodic statements. A card issuer that does so, however, using the advance notice option under §226.9(e)(1), must make clear on the periodic statement when the preprinted renewal disclosures are applicable. For example, the card issuer could include a special notice (not preprinted) at the appropriate time that the renewal fee will be billed in the following billing cycle, or could show the renewal date as a regular (preprinted) entry on all periodic statements.

9(f) **Change in Credit Card Account Insurance Provider**

1. **Coverage.** This paragraph applies to credit card accounts of the type subject to §226.5a if credit insurance (typically life, disability, and unemployment insurance) is offered on the outstanding balance of such an account. (Credit card accounts subject to §226.9(f) are the same as those subject to §226.9(e); see comment 9(e)-1.) Charge card accounts are not covered by this paragraph. In addition, the disclosure requirements of this paragraph apply only where the card issuer initiates the change in insurance providers. For example, if the card issuer’s current insurance provider is merged into or acquired by another company, these disclosures would not be required. Disclosures also need not be given in cases where card issuers pay for credit insurance themselves and do not separately charge the cardholder.

2. **No increase in rate or decrease in coverage.** The requirement to provide the disclosure arises when the card issuer changes the provider of insurance, even if there will be no increase in the premium rate charged the consumer and no decrease in coverage under the insurance policy.

3. **Form of notice.** If a substantial decrease in coverage will result from the change in providers, the card issuer either must explain the decrease or refer to an accompanying copy of the policy or group certificate for details of the new terms of coverage. (See the commentary to appendix G–13.)

4. **Discontinuation of insurance.** In addition to stating that the cardholder may cancel the insurance, the card issuer may explain the effect the cancellation would have on the consumer’s credit card plan.

5. **Mailing by third party.** Although the card issuer is responsible for the disclosures, the insurance provider or another third party may furnish the disclosures on the card issuer’s behalf.

9(f)(3) **Substantial Decrease in Coverage**

1. **Determination.** Whether a substantial decrease in coverage will result from the change in providers is determined by the two-part test in §226.9(f)(3): First, whether the decrease is in a significant term of coverage; and second, whether the decrease might reasonably be expected to affect a cardholder’s decision to continue the insurance. If both conditions are met, the decrease must be disclosed in the notice.

**References**

**Statute:** Section 127(a)(7).

**Other sections:** Sections 226.4 through 226.7 and appendix G.

**Previous regulation:** Section 226.7 (d) through (f) and (i) and Interpretation §§226.705 and 226.708.

**1981 changes:** Section 226.9(a) implements the statutory change that the long-form statement of billing rights be provided only once a year. The provision now permits two rather than one means of providing the long-form statement to consumers. The verbatim text of the annual statement is no longer required; creditors may use any version “substantially similar” to the one in appendix G. If the creditor elects to use the alternative summary statement, the new regulation no longer requires that the long-form statement be sent upon receiving a billing error notice and at the consumer’s request. The rules in §226.708 on switching the type of billing rights statement used have been modified.

Under §226.9(b) disclosure requirements have been streamlined when supplemental credit devices or new credit features are added to an existing open-end plan.
Section 226.9(c) substantially changes the change-in-terms rules. Change-in-terms disclosures must now be made 15 days before the effective date of the change, rather than 15 days before the billing cycle in which the change will take effect. The kinds of changes that will trigger disclosures have been reduced; change-in-terms notices are no longer required for the types of changes described in §226.9(c)(2). But the provision reverses Interpretation §226.705, which indicated that certain changes in the balance computation method did not require disclosure because they could result in lowered finance charges; now, any change in the balance computation method requires disclosure.

When a finance charge is imposed at the time of a transaction, §226.9(d) only requires disclosure of the finance charge at point of sale; the amount financed and annual percentage rate figured in accordance with the closed-end credit provisions need no longer be disclosed. Furthermore, the finance charge disclosure now may be made orally by the person honoring the card. Charge disclosure now may be made orally by the account number or the payment stub.

Section 226.10—Prompt Crediting of Payments

10(a) General rule.
1. Crediting date. Section 226.10(a) does not require the creditor to post the payment to the consumer’s account on a particular date; the creditor is only required to credit the payment as of the date of receipt.

2. Date of receipt. The “date of receipt” is the date that the payment instrument or other means of completing the payment reaches the creditor. For example:
   • Payment by check is received when the creditor gets it, not when the funds are collected.
   • In a payroll deduction plan in which funds are deposited to an account held by the creditor, and from which payments are made periodically to an open-end credit account, payment is received on the date when it is debited to the asset account (rather than on the date of the deposit), provided the payroll deduction method is voluntary and the consumer retains use of the funds until the contractual payment date.
   • If the consumer elects to have payment made by a third-party payor such as a financial institution, through a preauthorized payment or telephone bill-payment arrangement, payment is received when the creditor gets the third-party payor’s check or other transfer medium, such as an electronic fund transfer, as long as the payment meets the creditor’s requirements as specified under §226.10(b).

10(b) Specific requirements for payments.

1. Payment requirements. The creditor may specify requirements for making payments, such as:
   • Setting a cut-off hour for payment to be received, or set different hours for payment by mail and payments made in person.
   • Specifying that only checks or money orders should be sent by mail.
   • Specifying that payment is to be made in U.S. dollars.
   • Specifying one particular address for receiving payments, such as a post office box.

The creditor may be prohibited, however, from specifying payment by preauthorized electronic fund transfer. (See section 913 of the Electronic Fund Transfer Act.)

2. Payment requirements—limitations.

Requirements for making payments must be reasonable; it should not be difficult for most consumers to make conforming payments. For example, it would not be reasonable to require that all payments be made in person between 10 a.m. and 11 a.m., since this would require consumers to take time off from their jobs to deliver payments.

3. Acceptance of non-conforming payments. If the creditor accepts a non-conforming payment (for example, payment at a branch office, when it had specified that payment be sent to headquarters), finance charges may accrue for the period between receipt and crediting of payments.

4. Implied guidelines for payments. In the absence of specified requirements for making payments (see §226.10(b)):
   • Payments may be made at any location where the creditor conducts business.
   • Payments may be made any time during the creditor’s normal business hours.
   • Payments may be made by cash, money order, draft, or other similar instrument in properly negotiable form, or by electronic fund transfer if the creditor and consumer have so agreed.

References

Statute: Section 164.
Other sections: Section 226.7.
Previous regulation: Section 226.7(g).
1981 changes: Much of the explanatory detail of the previous regulation is now in the commentary. The revised regulation gives the creditor 5 days in which to credit non-conforming payments, whereas the previous regulation required the crediting of such payments promptly, with an outside limit of 5 days. The 5 days in which to credit are available whenever the creditor accepts payment that does not conform to the creditor’s disclosed specifications, in contrast to the previous regulation, which only allowed deferred crediting for payments made at the wrong location.

Section 226.11—Treatment of Credit Balances

1. Timing of refund. The creditor may also fulfill its obligations under §226.11 by:
   • Refunding any credit balance to the consumer immediately.
Refunding any credit balance prior to receiving a written request (under §226.11(b)) from the consumer.

Making a good faith effort to refund any credit balance before 6 months have passed. If that attempt is unsuccessful, the creditor need not try again to refund the credit balance at the end of the 6-month period.

Amount of refund. The phrase any part of the credit balance remaining in the account in §226.11(b) and (c) means the amount of the credit balance at the time the creditor is required to make the refund. The creditor may take into consideration intervening purchases or other debits to the consumer’s account (including those that have not yet been reflected on a periodic statement) that decrease or eliminate the credit balance.

Written requests—standing orders. The creditor is not required to honor standing orders requesting refunds of any credit balance that may be created on the consumer’s account. The creditor is not required to make the refund promptly, with an outside limit of 5 business days. This provision also implements the amended statute by requiring a good faith effort to refund the credit balance after 6 months.

Previous regulation: Section 226.7(h). 1981 changes: Under the previous regulation, the creditor’s duty to refund credit balances applied only “to excess payments”; §226.11 of the revised regulation implements the amendments to section 165 of the statute which impose refunding duties on the creditor whatever the source of the credit balance. The revised regulation permits the creditor, in computing the refund, to take account of intervening debits, not just the difference between the previous balance and the overpayment as is provided in the previous regulation. The revised regulation also implements the amended statute by requiring a good faith effort to refund the credit balance after 6 months.

Previous regulation: Section 226.7(h).
Federal Reserve System

7. Issuance of non-credit cards. i. General. Under §226.12(a)(1), a credit card cannot be issued except in response to a request or an application. (See comment 2(a)(1)-2 for examples of cards or devices that are and are not credit cards.) A non-credit card may be sent on an unsolicited basis by an issuer that does not conspire to connect the card to any credit plan; a credit feature may be added to a previously issued non-credit card only upon the consumer's specific request.

b. Examples. A purchase-price discount card may be sent on an unsolicited basis by an issuer that does not conspire to connect the card to any credit plan. An issuer demonstrates that it proposes to connect the card to a credit plan by, for example, including promotional materials about credit features or account agreements and disclosures required by §226.6. The issuer will violate the rule against unsolicited issuance if, for example, at the time the card is sent a credit plan can be accessed by the card or the recipient of the unsolicited card has been provided the PINs cannot be used alone to obtain credit. For example, the PINs may be necessary if consumers wish to use their existing credit cards at automated teller machines or at merchant locations with point-of-sale terminals that require PINs.

Paragraph 12(a)(2)

1. Renewal. Renewal generally connotes the regular replacement of existing cards because of, for example, security reasons or new technology or systems. It also includes the re-issuance of cards that have been suspended temporarily, but does not include the opening of a new account after a previous account was closed.

2. Substitution—examples. Substitution encompasses the replacement of one card with another because the underlying account relationship has changed in some way—such as when the card issuer has:

- Changed its name.
- Changed the name of the card.
- Changed the credit or other features available on the account. For example, the original card could be used to make purchases and obtain cash advances at teller windows. The substitute card might be usable, in addition, for obtaining cash advances through automated teller machines. (If the substitute card constitutes an account, as defined in Regulation E, then the Regulation E issuance rules would have to be followed.) The substitution of one card with another on an unsolicited basis is not permissible, however, where in conjunction with the substitution an additional credit card account is opened and the consumer is able to make new purchases or advances under both the original and the new account with the new card. For example, if a retail card issuer replaces its credit card with a combined retailer/bank card, each of the creditors maintains a separate account, and both accounts can be accessed for new transactions by use of the new credit card, the card cannot be provided to a consumer without solicitation.
- Substituted a card user's name on the substitute card for the cardholder's name appearing on the original card.
- Changed the merchant base. However, the new card must be honored by at least one of the persons that honored the original card.

3. Substitution—successor card issuer. Substitution also occurs when a successor card issuer replaces the original card issuer (for example, when a new card issuer purchases the accounts of the original issuer and issues its own card to replace the original one). A permissible substitution exists even if the original issuer retains the existing receivables and the new card issuer acquires the right only to future receivables, provided use of the original card is cut off when use of the new card becomes possible.

4. Substitution—non-credit-card plan. A credit card that replaces a retailer's open-end credit plan not involving a credit card is not considered a substitute for the retailer's plan—even if the consumer used the retailer's plan. A credit card cannot be issued in these circumstances without a request or application.

5. One-for-one rule. An accepted card may be replaced by no more than one renewal or substitute card. For example, the card issuer may not replace a credit card permitting purchases and cash advances with two cards, one for the purchases and another for the cash advances.

6. One-for-one rule—exceptions. The regulation does not prohibit the card issuer from:

i. Replacing a debit/credit card with a credit card and another card with only debit functions (or debit functions plus an associated overdraft capability), since the latter card could be issued on an unsolicited basis under Regulation E.

ii. Replacing an accepted card with more than one renewal or substitute card, provided that:

A. No replacement card accesses any account not accessed by the accepted card.

B. For terms and conditions required to be disclosed under §226.6, all replacement cards are issued subject to the same terms and conditions, except that a creditor may vary terms for which no change in terms notice is required under §226.9(c); and

C. Under the account's terms the consumer's total liability for unauthorized use
with respect to the account does not increase.

7. Methods of terminating replaced card. The card issuer need not physically retrieve the original card, provided the old card is voided in some way; for example:

- The issuer includes with the new card a notification that the existing card is no longer valid and should be destroyed immediately.
- The original card contained an expiration date.
- The card issuer, in order to preclude use of the card, reprograms computers or issues instructions to authorization centers.

8. Incomplete replacement. If a consumer has duplicate credit cards on the same account (Card A—one type of bank credit card, for example), the card issuer may not replace the duplicate cards with one Card A and one Card B (Card B—another type of bank credit card) unless the consumer requests Card B.

9. Multiple entities. Where multiple entities share responsibilities with respect to a credit card issued by one of them, the entity that issued the card may replace it on an unsolicited basis, if that entity terminates the original card by voiding it in some way, as described in comment 12(a)(2)–7. The other entity or entities may not issue a card on an unsolicited basis in these circumstances.

12(b) Liability of cardholder for unauthorized use.

1. Meaning of cardholder. For purposes of this provision, cardholder includes any person (including organizations) to whom a credit card is issued for any purpose, including business. When a corporation is the cardholder, required disclosures should be provided to the corporation (as opposed to an employee user).

2. Imposing liability. A card issuer is not required to impose liability on a cardholder for the unauthorized use of a credit card; if the card issuer does not seek to impose liability, the issuer need not conduct any investigation of the cardholder’s claim.

3. Reasonable investigation. If a card issuer seeks to impose liability when a claim of unauthorized use is made by a cardholder, the card issuer must conduct a reasonable investigation of the claim. In conducting its investigation, the card issuer may reasonably request the cardholder’s cooperation. The card issuer may not automatically deny a claim based solely on the cardholder’s failure or refusal to comply with a particular request; however, if the card issuer otherwise has no knowledge of facts confirming the unauthorized use, the lack of information resulting from the cardholder’s failure or refusal to comply with a particular request may lead the card issuer reasonably to terminate the investigation. The procedures involved in investigating claims may differ, but actions such as the following represent steps that a card issuer may take, as appropriate, in conducting a reasonable investigation:

i. Reviewing the types or amounts of purchases made in relation to the cardholder’s previous purchasing pattern.
ii. Reviewing where the purchases were delivered in relation to the cardholder’s residence or place of business.
iii. Reviewing where the purchases were made in relation to where the cardholder resides or has normally shopped.
iv. Comparing any signature on credit slips for the purchases to the signature of the cardholder or an authorized user in the card issuer’s records, including other credit slips.
v. Requesting documentation to assist in the verification of the claim.
vi. Requesting a written, signed statement from the cardholder or authorized user.
vii. Requesting a copy of a police report, if one was filed.
viii. Requesting information regarding the cardholder’s knowledge of the person who allegedly used the card or of that person’s authority to do so.

12(b)(1) Limitation on amount.

1. Meaning of authority. Footnote 22 defines unauthorized use in terms of whether the user has actual, implied, or apparent authority. Whether such authority exists must be determined under state or other applicable law.

2. Liability limits—dollar amounts. As a general rule, the cardholder’s liability for a series of unauthorized uses cannot exceed either $50 or the value obtained through the unauthorized use before the card issuer is notified, whichever is less.

12(b)(2) Conditions of liability.

1. Issuer’s option not to comply. A card issuer that chooses not to impose any liability on cardholders for unauthorized use need not comply with the disclosure and identification requirements discussed below.

Paragraph 12(b)(2)(ii).

1. Disclosure of liability and means of notifying issuer. The disclosures referred to in §226.12(b)(2)(ii) may be given, for example, with the initial disclosures under §226.6, on the credit card itself, or on periodic statements. They may be given at any time preceding the unauthorized use of the card.

Paragraph 12(b)(2)(iii).

1. Means of identifying cardholder or user. To fulfill the condition set forth in §226.12(b)(2)(iii), the issuer must provide some method whereby the cardholder or the authorized user can be identified. This could include, for example, signature, photograph, or fingerprint on the card, or electronic or mechanical confirmation.

2. Identification by magnetic strip. Unless a magnetic strip (or similar device not readable without physical aids) must be used in conjunction with a secret code or the like, it would not constitute sufficient means of identification. Sufficient identification also
Federal Reserve System

does not exist if a pool or group card, issued to a corporation and signed by a corporate agent who will not be a user of the card, is intended to be used by another employee for whose protection the card is issued. 

3. **Transactions not involving card.** The cardholder may not be held liable under §226.12(b) when the card itself (or some other sufficient means of identification of the cardholder) is not presented. Since the issuer has not provided a means to identify the user under these circumstances, the issuer has not fulfilled one of the conditions for imposing liability. For example, when merchandise is ordered by telephone by a person without authority to do so, using a credit card account number or other number only (which may be widely available), no liability may be imposed on the cardholder.

12(b)(3) Notification to card issuer.
1. **How notice must be provided.** Notice given in a normal business manner—for example, by mail, telephone, or personal visit—is effective even though it is not given to, or does not reach, some particular person within the issuer’s organization. Notice also may be effective even though it is not given at the address or phone number disclosed by the card holder under §226.12(b)(2)(ii).

2. **Who must provide notice.** Notice of loss, theft, or possible unauthorized use need not be initiated by the cardholder. Notice is sufficient so long as it gives the pertinent information which would include the name or card number of the cardholder and an indication that unauthorized use has or may have occurred.

3. **Relationship to §226.13.** The liability protections afforded to cardholders in §226.12 do not depend upon the cardholder’s following the error resolution procedures in §226.13. For example, the written notification and time limit requirements of §226.13 do not affect the section 226.12 protections.

12(b)(5) Business use of credit cards.
1. **Agreement for higher liability for business use cards.** The card issuer may not rely on §226.12(b)(5) if the business is clearly not in a position to provide 10 or more cards to employees (for example, if the business has only 3 employees). On the other hand, the issuer need not monitor the personnel practices of the business to make sure that it has at least 10 employees at all times.

2. **Unauthorized use by employee.** The protection afforded to an employee against liability for unauthorized use in excess of the limits set in §226.12(b) applies only to unauthorized use by someone other than the employee. If the employee uses the card in an unauthorized manner, the regulation sets no restriction on the employee’s potential liability for such use.

12(c) Right of cardholder to assert claims or defenses against card issuer.
1. **Relationship to §226.13.** The §226.12(c) credit card “holder in due course” provision deals with the consumer’s right to assert against the card issuer a claim or defense concerning property or services purchased with a credit card, if the merchant has been unwilling to resolve the dispute. Even though certain merchandise disputes, such as non-delivery of goods, may also constitute “billing errors” under §226.13, that section operates independently of §226.12(c). The cardholder whose asserted billing error involves undelivered goods may institute the error resolution procedures of §226.13; but whether or not the cardholder has done so, the cardholder may assert claims or defenses under §226.12(c). Conversely, the consumer may pay a disputed balance and thus have no further right to assert claims and defenses, but still may assert a billing error if notice of that billing error is given in the proper time and manner. An assertion that a particular transaction resulted from unauthorized use of the card could also be both a “defense” and a billing error.

2. **Claims and defenses assertible.** Section 226.12(c) merely preserves the consumer’s right to assert against the card issuer any claims or defenses that can be asserted against the merchant. It does not determine what claims or defenses are valid as to the merchant; this determination must be made under state or other applicable law.

12(c)(1) General rule.
1. **Situations excluded and included.** The consumer may assert claims or defenses only when the goods or services are “purchased with the credit card.” This could include:
   - Mail or telephone orders, if the purchase is charged to the credit card account.
   - The purchase of goods or services by use of a check accessing an overdraft account and a credit card used solely for identification of the consumer. (On the other hand, if the credit card is used to make partial payment for the purchase and not merely for identification, the right to assert claims or defenses would apply to credit extended via the credit card, although not to the credit extended on the overdraft line.)
   - Purchases made by use of a check guarantee card in conjunction with a cash advance check (or by cash advance checks alone). See footnote 24. A cash advance check is a check that, when written, does not draw on an asset account; instead, it is charged entirely to an open-end credit account.
   - Purchases effected by use of either a check guarantee card or a debit card when used to draw on overdraft credit lines (see
12 CFR Ch. II (1–1–09 Edition)

footnote 24). The debit card exemption applies whether the card accesses an asset account via point-of-sale terminals, automated teller machines, or in any other way, and whether the card qualifies as an “access device” under Regulation E or is only a paper-based debit card. If a card serves both as an ordinary credit card and also as check guarantee or debit card, a transaction will be subject to this rule on asserting claims and defenses when used as an ordinary credit card, but not when used as a check guarantee or debit card.

12(c)(2) Adverse credit reports prohibited.
1. Scope of prohibition. Although an amount in dispute may not be reported as delinquent until the matter is resolved:
   1. That amount may be reported as disputed.
   2. Nothing in this provision prohibits the card issuer from undertaking its normal collection activities for the delinquent and undisputed portion of the account.
2. Settlement of dispute. A card issuer may not consider a dispute settled if the cardholder fails or refuses to comply with a particular request. However, if the card issuer otherwise has no means of obtaining information necessary to resolve the dispute, the lack of information resulting from the cardholder’s failure or refusal to comply with a particular request may lead the card issuer reasonably to terminate the investigation.

12(c)(3) Limitations.
Paragraph 12(c)(3)(i).
1. Resolution with merchant. The consumer must have tried to resolve the dispute with the merchant. This does not require any special procedures or correspondence between them, and is a matter for factual determination in each case. The consumer is not required to seek satisfaction from the manufacturer of the goods involved. When the merchant is in bankruptcy proceedings, the consumer is not required to file a claim in those proceedings.

Paragraph 12(c)(3)(ii).
1. Geographic limitation. The question of where as transaction occurs (as in the case of mail or telephone orders, for example) is to be determined under state or other applicable law.
2. Merchant honoring card. The exceptions (stated in footnote 26) to the amount and geographic limitations do not apply if the merchant merely honors, or indicates through signs or advertising that it honors, a particular credit card.

12(d) Offsets by card issuer prohibited.
Paragraph 12(d)(1).
1. Holds on accounts. “Freezing” or placing a hold on funds in the cardholder’s deposit account is the functional equivalent of an offset and would contravene the prohibition in §226.12(d)(1), unless done in the context of one of the exceptions specified in §226.12(d)(2). For example, if the terms of a security agreement permitted the card issuer to place a hold on the funds, the hold would not violate the offset prohibition. Similarly, if an order of a bankruptcy court required the card issuer to turn over deposit account funds to the trustee in bankruptcy, the issuer would not violate the regulation by placing a hold on the funds in order to comply with the court order.

2. Funds intended as deposits. If the consumer-tenders funds as a deposit (to a checking account, for example), the card issuer may not apply the funds to repay indebtedness on the consumer’s credit card account.
3. Types of indebtedness; overdraft accounts. The offset prohibition applies to any indebtedness arising from transactions under a credit card plan, including accrued finance charges and other charges on the account. The prohibition also applies to balances arising from transactions not using the credit card itself but taking place under plans that involve credit cards. For example, if the consumer writes a check that accesses an overdraft line of credit, the resulting indebtedness is subject to the offset prohibition since it is incurred through a credit card plan, even though the consumer did not use an associated check guarantee or debit card.

4. When prohibition applies in case of termination of account. The offset prohibition applies even after the card issuer terminates the cardholder’s credit card privileges, if the indebtedness was incurred prior to termination. If the indebtedness was incurred after termination, the prohibition does not apply.

Paragraph 12(d)(2).
1. Security interest—limitations. In order to qualify for the exception stated in §226.12(d)(2), a security interest must be affirmatively agreed to by the consumer and must be disclosed in the issuer’s initial disclosures under §226.6. The security interest must not be the functional equivalent of a right of offset; as a result, routinely including in agreements contract language indicating that consumers are giving a security interest in any deposit accounts maintained with the issuer does not result in a security interest that falls within the exception in §226.12(d)(2). For a security interest to qualify for the exception under §226.12(d)(2) the following conditions must be met:
Federal Reserve System

- The consumer must be aware that granting a security interest is a condition for the credit card account (or for more favorable account terms) and must specifically intend to grant a security interest in a deposit account. Indicia of the consumer’s awareness and intent could include, for example:
  - Separate signature or initials on the agreement indicating that a security interest is being given
  - Placement of the security agreement on a separate page, or otherwise separating the security interest provisions from other contract and disclosure provisions
  - Reference to a specific amount of deposited funds or to a specific deposit account number
- The security interest must be obtainable and enforceable by creditors generally. If other creditors could not obtain a security interest in the consumer’s deposit accounts to the same extent as the card issuer, the security interest is prohibited by §226.12(d)(2).
- Security interest—after-acquired property. As used in §226.12(d), the term security interest does not exclude (as it does for other Regulation Z purposes) interests in after-acquired property. Thus, a consensual security interest in deposit-account funds, including funds deposited after the granting of the security interest in the consumer’s deposit accounts to the same extent as the card issuer, the security interest is prohibited by §226.12(d)(2).

Section 226.12(f) now clarifies rules on promptness standards has been deleted from §226.12(e) on prompt notification of returns.

Crediting account. The card issuer need not actually post the refund to the consumer’s account within 3 business days after receiving the credit statement, provided that it credits the account as of a date within that time period.

Statute: Sections 103(1), 132, 133, 135, 162, 166, 167, 169, and 170.

Other sections: Section 226.13.

Other regulations: Regulation E (12 CFR 205).

Previous regulation: Section 226.13.

1981 changes: The issuance rules in §226.12(a) make clear that cards may be sent to the person making the request and also to any other person for whom a card is requested, except that no liability for unauthorized use may be imposed on persons who are only authorized users.

The principal differences in §226.12(b) about conditions of liability are as follows: the requirement that the cardholder be given a postage-paid, preaddressed card or envelope for notification of loss or theft has been deleted (corresponding to an amendment to the act); the required disclosures of maximum liability and of means of notification have been simplified; and the required provision of a means of identification has been changed in that the issuer now may provide a means to identify either the cardholder or the authorized user. Finally, anyone may provide the notification to the card issuer, not just the cardholder.

Section 226.12(d) on offsets clarifies that the offset prohibition does not apply to consensual security interests. The separate promptness standard which used to apply in addition to the 7-business-day and 3-business-day standards has been deleted from §226.12(e) on prompt notification of returns.

Section 226.12(f) now clarifies rules on clearing accounts.

Section 226.12(g), dealing with the relationship of the regulation to Regulation E (Electronic Fund Transfers), has been added.
Section 226.13—Billing Error Resolution

1. General prohibitions. Footnote 27 prohibits a creditor from responding to a consumer’s billing error allegation by accelerating the debt or closing the account, and reflects protections authorized by section 161(d) of the Truth in Lending Act and section 701 of the Equal Credit Opportunity Act. The footnote also alerts creditors that failure to comply with the error resolution procedures may result in the forfeiture of disputed amounts as prescribed in section 161(e) of the Act. (Any failure to comply may also be a violation subject to the liability provisions of section 130 of the Act.)

2. Charges for error resolution. If a billing error occurred, whether as alleged or in a different amount or manner, the creditor may not impose a charge related to any aspect of the error resolution process (including charges for documentation or investigation) and must credit the consumer’s account if such a charge was assessed pending resolution. Since the Act grants the consumer error resolution rights, the creditor should avoid any chilling effect on the good faith assertion of errors that might result if charges are assessed when no billing error has occurred.

13(a) Definition of billing error.

1. Actual, implied, or apparent authority. Whether use of a credit card or open-end credit plan is authorized is determined by state or other applicable law.

13(b) Billing error notice.

1. Failure to send periodic statement—timing. If the creditor has failed to send a periodic statement, the 60-day period runs from the time the statement should have been sent. Once the statement is provided, the consumer has another 60 days to assert any billing errors reflected on it.

2. Failure to reflect credit—timing. If the periodic statement fails to reflect a credit to the account, the 60-day period runs from transmittal of the statement on which the credit should have appeared.

3. Transmittal. If a consumer has arranged for periodic statements to be held at the financial institution until called for, the statement is not a billing error.

13(c) Time for resolution; general procedures.

1. Time for resolution. The phrase two complete billing cycles means 2 actual billing cycles occurring after receipt of the billing error notice, not a measure of time equal to 2 billing cycles. For example, if a creditor on a monthly billing cycle receives a billing error notice mid-cycle, it has the remainder...
Federal Reserve System

of that cycle plus the next 2 full billing cycles to resolve the error.

13(d) Rules pending resolution.

1. Disputed amount. Disputed amount is the dollar amount alleged by the consumer to be in error. When the allegation concerns the description or identification of the transaction (such as the date or the seller's name) rather than a dollar amount, the disputed amount is the amount of the transaction or charge that corresponds to the disputed transaction identification. If the consumer alleges a failure to send a periodic statement under §226.13(a)(7), the disputed amount is the entire balance owing.

13(d)(1) Consumer's right to withhold disputed amount; collection action prohibited.

1. Prohibited collection actions. During the error resolution period, the creditor is prohibited from trying to collect the disputed amount from the consumer. Prohibited collection actions include, for example, instituting court action, taking a lien, or instituting attachment proceedings.

2. Right to withhold payment. If the creditor reflects any disputed amount or related finance or other charges on the periodic statement, and is therefore required to make the disclosure under footnote 30, the creditor may comply with that disclosure requirement by indicating that payment of any disputed amount is not required pending resolution. Making a disclosure that only refers to the disputed amount or any related charges, the creditor must not issue an adverse credit report based on any disputed amount; collection action prohibited.

13(d)(2) Adverse credit reports prohibited.

1. Report of dispute. Although the creditor must not issue an adverse credit report because the consumer fails to pay the disputed amount or any related charges, the creditor may report that the amount or the account is in dispute. Also, the creditor may report the account as delinquent if undisputed amounts remain unpaid.

2. Person. During the error resolution period, the creditor is prohibited from making an adverse credit report about the disputed amount to any person—including employers, insurance companies, other creditors, and credit bureaus.

3. Creditor's agent. Whether an agency relationship exists between a creditor and an issuer of an adverse credit report is determined by State or other applicable law.

13(e) Procedures if billing error occurred as asserted.

1. Correction of error. The phrase as applicable means that the necessary corrections vary with the type of billing error that occurred. For example, a misidentified transaction (or a transaction that is identified by one of the alternative methods in §226.8) is secured by properly identifying the transaction and crediting related finance and any other charges imposed. The creditor is not required to cancel the amount of the underlying obligation incurred by the consumer.

2. Form of correction notice. The written correction notice may take a variety of forms. It may be sent separately, or it may be included on or with a periodic statement that is mailed within the time for resolution. If the periodic statement is used, the amount of the billing error must be specifically identified.

If a separate billing error correction notice is provided, the accompanying or subsequent periodic statement reflecting the corrected amount may simply identify it as credit.
13(f) Procedures if different billing error or no billing error occurred.

1. Different billing error. Examples of a different billing error include:
   - Differences in the amount of an error (for example, the customer asserts a $55.00 error but the error was only $53.00).
   - Differences in other particulars asserted by the consumer (such as when a consumer asserts that a particular transaction never occurred but the creditor determines that only the seller’s name was disclosed incorrectly).

2. Form of creditor’s explanation. The written explanation (which also may notify the consumer of corrections to the account) may take a variety of forms. It may be sent separately, or it may be included on or with a periodic statement that is mailed within the time for resolution. If the creditor uses the periodic statement for the explanation and correction(s), the corrections must be specifically identified. If a separate explanation, including the correction notice, is provided, the enclosed or subsequent periodic statement reflecting the corrected amount may simply identify it as a credit. The explanation may be combined with the creditor’s notice to the consumer of amounts still owing, which is required under §226.13(g)(1), provided it is sent within the time limit for resolution. (See Commentary to §226.13(e).)

13(g) Creditor’s rights and duties after resolution.

Paragraph 13(g)(1).
1. Amounts owed by consumer. Amounts the consumer still owes may include both minimum periodic payments and related finance and other charges that accrued during the resolution period. As explained in the commentary to §226.13(d)(1), even if the creditor later determines that no billing error occurred, the creditor may not include finance or other charges that are imposed on undisputed balances solely as a result of a consumer’s withholding payment of a disputed amount.

2. Time of notice. The creditor need not send the notice of amount owed within the time period for resolution, although it is under a duty to send the notice promptly after resolution of the alleged error. If the creditor combines the notice of the amount owed with the explanation required under §226.13(f)(1), the combined notice must be provided within the time limit for resolution.

Paragraph 13(g)(2).
1. The creditor need not allow any free-ride period disclosed under §§226.6(a)(1) and 226.7(j) to pay the amount due under §226.13(g)(1) if no error occurred and the consumer was not entitled to a free-ride period at the time the consumer asserted the error.

Paragraph 13(g)(3).
1. Time for payment. The consumer has a minimum of 10 days to pay (measured from the time the consumer could reasonably be expected to have received notice of the amount owed) before the creditor may issue an adverse credit report; if an initially disclosed free-ride period allows the consumer a longer time in which to pay, the consumer has the benefit of that longer period.

Paragraph 13(g)(4).

1. Credit reporting. Under §226.13(g)(4)(i) and (iii) the creditor’s additional credit reporting responsibilities must be accomplished promptly. The creditor need not establish costly procedures to fulfill this requirement. For example, a creditor that reports to a credit bureau on scheduled updates need not transmit corrective information by an unscheduled computer or magnetic tape; it may provide the credit bureau with the correct information by letter or other commercially reasonable means when using the scheduled update would not be “prompt.” The creditor is not responsible for ensuring that the credit bureau corrects its information immediately.

2. Adverse report to credit bureau. If a creditor made an adverse report to a credit bureau that disseminated the information to other creditors, the creditor fulfills its §226.13(g)(4)(ii) obligations by providing the consumer with the name and address of the credit bureau.

13(i) Relation to Electronic Fund Transfer Act and Regulation E.

1. Coverage. Credit extended directly from a non-overdraft credit line is governed solely by Regulation Z, even though a combined credit card/access device is used to obtain the extension.

2. Incidental credit under agreement. Credit extended incident to an electronic fund transfer under an agreement between the consumer and the financial institution is governed by §226.13(i), which provides that certain error resolution procedures in both this regulation and Regulation E apply. Incidental credit that is not extended under an agreement between the consumer and the financial institution is governed solely by the error resolution procedures in Regulation E. For example:
   - Credit inadvertently extended incident to an electronic fund transfer is governed solely by the Regulation E error resolution procedures, if the bank and the consumer do not have an agreement to extend credit when the consumer’s account is overdrawn.

3. Application to debit/credit transactions-examples. If a consumer withdraws money at an automated teller machine and activates an overdraft credit feature on the checking account:
   1. An error asserted with respect to the transaction is subject, for error resolution
purposes, to the applicable Regulation E provisions (such as timing and notice) for the entire transaction.

ii. The creditor need not provisionally credit the consumer's account under §205.11(c)(2)(i) of Regulation E, for any portion of the unpaid extension of credit.

iii. The creditor must credit the consumer's account under §205.11(c) with any finance or other charges incurred as a result of the alleged error.

iv. The provisions of §226.13(d) and (g) apply only to the credit portion of the transaction.

References

Statute: Sections 161 and 162.
Other sections: Sections 226.6 through 226.8.
Other regulations: Regulation E (12 CFR Part 205).

Previous regulation: Sections 226.2(j) and (cc), and 226.14.

1981 changes: Section 226.13 reflects several substantive changes from the previous regulation and a complete restructuring of the error resolution provisions. The new organization, for example, arranges the creditor's responsibilities in chronological sequence.

Section 226.13(a)(7) implements amended §161(b) of the act, and provides that the creditor's failure to send a periodic statement to the consumer's current address is a billing error, unless the creditor received written notice of the address change fewer than 20 days (instead of 10 days) before the end of the billing cycle.

Several provisions regarding the creditor's duties after a billing error is alleged have been revised. The previous regulation immunized a creditor from liability for inadvertently taking collection action or making an adverse credit report within 2 days after receiving a billing error notice, these provisions are deleted from the revised regulation. The revised regulation no longer requires placement “on the face” of the periodic statement of the disclosure about payment of disputed amounts.

The revised regulation changes the rule in the previous regulation that a card issuer must prevent or restore an automatic debit of a disputed amount if it receives a billing error notice within 16 days after transmitting the periodic statement that reflects the alleged error. Under the revised regulation, the card issuer must prevent an automatic debit if it receives a billing error notice up to 3 days before the scheduled payment date (provided that the notice is received within the 60 days for the consumer to assert the error).

Section 226.14—Determination of Annual Percentage Rate

1. Tolerance. The tolerance of ¼ of 1 percentage point above or below the annual percentage rate applies to any required disclosure of the annual percentage rate. The disclosure of the annual percentage rate is required in §§226.6, 226.7, 226.9, 226.15, 226.16, and 226.26.

2. Rounding. The regulation does not require that the annual percentage rate be calculated to any particular number of decimal places; rounding is permissible within the ¼ of 1 percent tolerance. For example, an exact annual percentage rate of 14.33333% may be stated as 14.33% or as 14.3%, or even as 141⁄4%; but it could not be stated as 14.2% or 14%, since each varies by more than the permitted tolerance.

3. Periodic rates. No explicit tolerance exists for any periodic rate as such; a disclosed periodic rate may vary from precise accuracy (for example, due to rounding) only to the extent that its annualized equivalent is within the tolerance permitted by §226.14(a).

4. Finance charges. The regulation does not prohibit creditors from assessing finance charges on balances that include prior, unpaid finance charges; state or other applicable law may do so, however.

5. Good faith reliance on faulty calculation tools. Footnote 31a absolves a creditor of liability for an error in the annual percentage rate or finance charge that resulted from a corresponding error in a calculation tool used in good faith by the creditor. Whether or not the creditor's use of the tool was in good faith must be determined on a case-by-case basis, but the creditor must in any case have taken reasonable steps to verify the accuracy of the tool, including any instructions, before using it. Generally, the footnote is available only for errors directly attributable to the calculation tool itself, including software programs; it is not intended to absolve a creditor of liability for its own errors, or for errors arising from improper use of the tool, from incorrect data entry, or from misapplication of the law.

14(b) Annual Percentage Rate for §§226.5a and 226.5b Disclosures, for Initial Disclosures and for Advertising Purposes

1. Corresponding annual percentage rate computation. For purposes of §§226.5a, 226.5b, 226.6 and 226.16, the annual percentage rate is determined by multiplying the periodic rate by the number of periods in the year. This computation reflects the fact that, in such disclosures, the rate (known as the corresponding annual percentage rate) is prospective and does not involve any particular finance charge or periodic balance. This computation also is used to determine any annual percentage rate for oral disclosures under §226.26(a).
14(c) Annual percentage rate for periodic statements.

1. General rule. Section 226.14(c) requires disclosure of the corresponding annual percentage rate for each periodic rate (under §226.7(d)). It is figured by multiplying each periodic rate by the number of periods per year. This disclosure is like that provided on the initial disclosure statement. The periodic statement also must reflect (under §226.7(g)) the annualized equivalent of the rate actually applied during a particular cycle (the historical rate); this rate may differ from the corresponding annual percentage rate because of the inclusion of fixed, minimum, or transaction charges. Sections 226.14(c)(1) through (c)(4) state the computation rules for the historical rate.

2. Periodic rates. Section 226.14(c)(1) applies if the only finance charge imposed is due to the application of a periodic rate to a balance. The creditor may compute the annual percentage rate either:
   • By multiplying each periodic rate by the number of periods in the year; or
   • By the “quotient” method. This method refers to a composite annual percentage rate when different periodic rates apply to different balances. For example, a particular plan may involve a periodic rate of 1 1/2% on balances up to $500, and 1% on balances over $500. If, in a given cycle, the consumer has a balance of $800, the finance charge would consist of $7.50 ($500 × .015) plus $3.00 ($300 × .01), for a total finance charge of $10.50. The annual percentage rate for this period may be disclosed either as 18% on $500 and 12% on $300, or as 15.75% on a balance of $800 (the quotient of $10.50 divided by $800, multiplied by 12).

3. Charges not based on periodic rates. Section 226.14(c)(2) applies if the finance charge imposed includes a charge not due to the application of a periodic rate (other than a charge relating to a specific transaction). For example, if the creditor imposes a minimum $1 finance charge on all balances below $50, and the consumer’s balance was $40 in a particular cycle, the creditor would disclose an annual percentage rate of 30% (1/40 × 12).

4. No balance. Footnote 32 to §226.14(c)(2) would apply not only when minimum charges are imposed on an account with no balance, but also to a plan in which a periodic rate is applied to advances from the date of the transaction. For example, if on May 19 the consumer pays the new balance in full from a statement dated May 1, and has no further transactions reflected on the June 1 statement, that statement would reflect a finance charge with no account balance.

5. Transaction charges. Section 226.14(c)(3) transaction charges include, for example: A. A loan fee of $10 imposed on a particular advance.
   B. A charge of 3% of the amount of each transaction.
   C. The reference to avoiding duplication in the computation requires that the amounts of transactions on which transaction charges were imposed not be included both in the amount of total balances and in the other amounts on which a finance charge was imposed” figure. In a multifeatured plan, creditors may consider each bona fide feature separately in the calculation of the denominator. A creditor has considerable flexibility in defining features for open-end plans, as long as the creditor has a reasonable basis for the distinctions. For further explanation and examples of how to determine the components of this formula, see appendix F.

6. Daily rate with specific transaction charge. Section 226.14(c)(3) sets forth an acceptable method for calculating the annual percentage rate if the finance charge results from a charge relating to a specific transaction and the application of a daily periodic rate. This section includes the requirement that the creditor follow the rules in appendix F in calculating the annual percentage rate, especially footnote 1 to appendix F which addresses the daily rate/transaction charge situation by providing that the “average of daily balances” shall be used instead of the “sum of the balances.”

7. Charges related to opening, renewing, or continuing an account. Footnote 33 is applicable to §226.14(c)(2) and (c)(3). The charges involved here do not relate to a specific transaction or to specific activity on the account, but relate solely to the opening, renewing, or continuing of the account. For example, an annual fee to renew an open-end credit account that is a percentage of the credit limit on the account, or that is charged only to consumers that have not used their credit card for a certain dollar amount in transactions during the preceding year, would not be included in the calculation of the annual percentage rate, even though the fee may not be excluded from the finance charge under §226.4(c)(4). (See comment 4(c)(4)-2.) Inclusion of these charges in the average annual percentage rate calculation results in significant distortions of the annual percentage rate and delivery of a possibly misleading disclosure to consumers. The rule in footnote 33 applies even if the loan fee, points, or similar charges are billed on a subsequent periodic statement or withheld from the proceeds of the first advance on the account.

8. Classification of charges. If the finance charge includes a charge not due to the application of a periodic rate, the creditor must determine the proper annual percentage rate computation method according to the type of charge imposed. If the charge is tied to a specific transaction (for example, 3% of the amount of each transaction), then
B. If a finance charge that is posted to the account relates to activity for which a finance charge was debited or credited to the account in a previous billing cycle (for example, if the finance charge relates to an adjustment such as the resolution of a billing error dispute, or an unintentional posting error, or a payment by check that was later returned unpaid for insufficient funds or other reasons), the creditor shall at its option:

1. Calculate the annual percentage rate in accordance with §10.11A of this paragraph, or

2. Disclose the finance charge adjustment on the periodic statement and calculate the annual percentage rate for the current billing cycle without including the finance charge adjustment in the numerator and balances associated with the finance charge adjustment in the denominator.

14(d) Calculations where daily periodic rate applied.

1. Quotient Method. Section 226.14(d) addresses use of a daily periodic rate(s) to determine some or all of the finance charge and use of the quotient method to determine the annual percentage rate. Since the quotient formula in §226.14(c)(1)(ii) does not work when a daily rate is being applied to a series of daily balances, §226.14(d) gives the creditor 2 alternative ways to figure the annual percentage rate—either of which satisfies the requirement in §226.7(g).

2. Daily rate with specific transaction charge. If the finance charge results from a charge relating to a specific transaction and the application of a daily periodic rate, see comment 14(c)-7 for guidance on an appropriate calculation method.

Statute: Section 107.

Other sections: Sections 226.6, 226.7, 226.9, 226.15, 225.16, and 225.26.

Previous regulation: Section 226.5(a) and Interpretation §§226.501 and 226.506.

1981 changes: Section 226.14 reflects the statutory amendment permitting a 1/4 of 1 percent tolerance for annual percentage rates. The revised regulation no longer reflects the provision dealing with finance charges imposed on specified ranges or brackets of balances. The revised regulation includes a footnote providing that loan fees, points, or similar charges unrelated to any specific transaction are not figured into the annual percentage rate computation.

Section 226.15—Right of Rescission

1. Transactions not covered. Credit extensions that are not subject to the regulation are not covered by §226.15 even if the customer's principal dwelling is the collateral
securing the credit. For this purpose, credit extensions also would include the occurrences listed in Comment 15(a)(1)-1. For example, the right of rescission does not apply to the opening of a business-purpose credit line, even though the loan is secured by the customer’s principal dwelling.

15(a) Consumer’s right to rescind.

Paragraph 15(a)(1).

1. Occurrences subject to right. Under an open-end credit plan secured by the consumer’s principal dwelling, the right of rescission generally arises with each of the following occurrences:

• Opening the account.
• Each credit extension.
• Increasing the credit limit.
• Adding to an existing account a security interest in the consumer’s principal dwelling.
• Increasing the dollar amount of the security interest taken in the dwelling to secure the plan. For example, a consumer may open an account with a $10,000 credit limit, $5,000 of which is initially secured by the consumer’s principal dwelling. The consumer has the right to rescind at that time and (except as noted in §226.15(a)(1)(ii)) with each extension on the account. Later, if the creditor decides that it wants the credit line fully secured, and increases the amount of its interest in the consumer’s dwelling, the consumer has the right to rescind the increase.

2. Exceptions. Although the consumer generally has the right to rescind with each transaction on the account, section 125(e) of the Act provides an exception: the creditor need not provide the right to rescind at the time of each credit extension made under an open-end credit plan secured by the consumer’s principal dwelling to the extent that the credit extended is in accordance with a previously established credit limit for the plan. This limited rescission option is available whether or not the plan existed prior to the effective date of the Act.

3. Security interest arising from transaction. In order for the right of rescission to apply, the security interest must be retained as part of the credit transaction. For example:

• A security interest that is acquired by a contractor who is also extending the credit in the transaction.
• A mechanic’s or materialman’s lien that is retained by a subcontractor or supplier of a contractor-creditor, even when the latter has waived its own security interest in the consumer’s home.

The security interest is not part of the credit transaction, and therefore the transaction is not subject to the right of rescission when, for example:

• A mechanic’s or materialman’s lien is obtained by a contractor who is not a party to the credit transaction but merely is paid with the proceeds of the consumer’s cash advance.
• All security interests that may arise in connection with the credit transaction are validly waived.
• The creditor obtains a lien and completion bond that in effect satisfies all liens against the consumer’s principal dwelling as a result of the credit transaction.

Although liens arising by operation of law are not considered security interests for purposes of disclosure under §226.2, that section specifically includes them in the definition for purposes of the right of rescission. Thus, even though an interest in the consumer’s principal dwelling is not a required disclosure under §226.2(c), it may still give rise to the right of rescission.

4. Consumer. To be a consumer within the meaning of §226.2, that person must at least have an ownership interest in the dwelling that is encumbered by the creditor’s security interest, although that person need not be a signatory to the credit agreement. For example, if only one spouse enters into a secured plan, the other spouse is a consumer if the ownership interest of that spouse is subject to the security interest.

5. Principal dwelling. A consumer can only have one principal dwelling at a time. (But see comment 15(a)(1)-6.) A vacation or other second home would not be a principal dwelling. A transaction secured by a second home (such as a vacation home) that is not currently being used as the consumer’s principal dwelling is not rescindable, even if the consumer intends to reside there in the future. When a consumer buys or builds a new dwelling that will become the consumer’s principal dwelling within one year or upon completion of construction, the new dwelling is considered the principal dwelling if it secures the open-end credit line. In that case, the transaction secured by the new dwelling is a residential mortgage transaction and is not rescindable. For example, if a consumer whose principal dwelling is currently A builds B, to be occupied by the consumer upon completion of construction, an advance on an open-end line to finance B and secured by B is a residential mortgage transaction. Dwelling, as defined in §226.2, includes structures that are classified as personality under state law. For example, a transaction secured by a mobile home, trailer, or houseboat used as the consumer’s principal dwelling may be rescindable.

6. Special rule for principal dwelling. Notwithstanding the general rule that consumers may have only one principal dwelling, when the consumer is acquiring or constructing a new principal dwelling, a credit plan or extension that is subject to Regulation Z and is secured by the equity in the consumer’s current principal dwelling is subject to the right of rescission regardless of
the purpose of that loan (for example, an advance to be used as a bridge loan). For example, if a consumer whose principal dwelling is currently A builds B, to be occupied by the consumer upon completion of construction, a loan to finance B and secured by A is subject to the right of rescission. Moreover, a loan secured by both A and B is, likewise, rescindable.

Paragraph 15(a)(2).
1. Consumer’s exercise of right. The consumer must exercise the right of rescission in writing if the right is not necessarily on the notice supplied under §226.15(b). Whatever the means of sending the notification of rescission—mail, telegram or other written means—the time period for the creditor’s performance under §226.15(d)(2) does not begin to run until the notification has been received. The creditor may designate an agent to receive the notification so long as the agent’s name and address appear on the notice provided to the consumer under §226.15(b). Where the creditor fails to provide the consumer with a designated address for sending the notification of rescission, delivery of the notification to the person or address to which the consumer has been directed to send payments constitutes delivery to the creditor or assignee. State law determines whether delivery of the notification to a third party other than the person to whom payments are made is delivery to the creditor or assignee, in the case where the creditor fails to designate an agent for sending the notification of rescission.

Paragraph 15(a)(3).
1. Rescission period. The period within which the consumer may exercise the right to rescind runs for 3 business days from the last of 3 events:
• The occurrence that gives rise to the right of rescission.
• Delivery of all material disclosures that are relevant to the plan.
• Delivery to the consumer of the required rescission notice.

For example, an account is opened on Friday, June 1, and the disclosures and notice of the right to rescind were given on Thursday, May 31; the rescission period will expire at midnight of the third business day after June 1—that is, Tuesday June 5. In another example, if the disclosures are given and the account is opened on Friday, June 1, and the rescission notice is given on Monday, June 4, the rescission period expires at midnight of the third business day after June 4—that is Thursday, June 7. The consumer must place the rescission notice in the mail, file it for telegraphic transmission, or deliver it to the creditor’s place of business within that period in order to exercise the right.

2. Material disclosures. Footnote 36 sets forth the material disclosures that must be provided before the rescission period can begin to run. The creditor must provide sufficient information to satisfy the requirements of §226.6 for these disclosures. A creditor may satisfy this requirement by giving an initial disclosure statement that complies with the regulation. Failure to give the other required initial disclosures (such as the billing rights statement) or the information required under section 226.5(b) does not prevent the running of the rescission period, although that failure may result in civil liability or administrative sanctions. The payment terms set forth in footnote 36 apply to any repayment phase set forth in the agreement. Thus, the payment terms described in §226.6(e)(2) for any repayment phase as well as for the draw period are “material disclosures.”

3. Material disclosures—variable rate program. For a variable rate program, the material disclosures also include the disclosures listed in footnote 12 to §226.6(a)(2): the circumstances under which the rate may increase; the limitations on the increase; and the effect of an increase. The disclosures listed in footnote 12 to section 226.6(a)(2) for any repayment phase also are material disclosures for variable-rate programs.

4. Unexpired right of rescission. When the creditor has failed to take the action necessary to start the three-day rescission period running the right to rescind automatically lapses on the occurrence of the earliest of the following three events:
• The expiration of three years after the occurrence giving rise to the right of rescission.
• Transfer of all the consumer’s interest in the property.
• Sale of the consumer’s interest in the property, including a transaction in which the consumer sells the dwelling and takes back a purchase money note and mortgage or retains legal title through a device such as an installment sale contract.

Transfer of all the consumer’s interest includes such transfers as bequests and gifts. A sale or transfer of the property need not be voluntary to terminate the right to rescind. For example, a foreclosure sale would terminate an unexpired right to rescind. As provided in section 129 of the act, the three-year limit may be extended by an administrative proceeding to enforce the provisions of §226.15. A partial transfer of the consumer’s interest, such as a transfer bestowing co-ownership on a spouse, does not terminate the right of rescission.

Paragraph 15(a)(4).
1. Joint owners. When more than one consumer has the right to rescind a transaction, any one of them may exercise that right and cancel the transaction on behalf of all. For example, if both a husband and wife have the right to rescind a transaction, either spouse...

act "certain base amount (subject to reasonable adjustment as prescribed by the creditor)" (see §226.15(c)(3)), and a material disclosure providing “any information comparable to that called for by paragraph (b)(1) of this section.”

3. Notice of right to rescind. Each consumer entitled to rescind must be given:
   • Two copies of the rescission notice.
   • The material disclosures.
   • In a transaction involving joint owners, both of whom are entitled to rescind, both must receive the notice of the right to rescind and disclosures. For example, if both spouses are entitled to rescind a transaction, each must receive two copies of the rescission notice (one copy to each if the notice is provided in electronic form in accordance with the consumer consent and other applicable provisions of the E-Sign Act) and one copy of the disclosures.

2. Format. The rescission notice may be physically separated from the material disclosures or combined with the material disclosures, so long as the information required to be included on the notice is set forth in a clear and conspicuous manner. See the model notices in appendix G.

3. Content. The notice must include all of the information outlined in §226.15(b)(1) through (5). The requirement in §226.15(b) that the transaction or occurrence be identified may be met by providing the date of the transaction or occurrence. The notice may include additional information related to the required information, such as:
   • A description of the property subject to the security interest.
   • A statement that joint owners may have the right to rescind and that a rescission by one is effective for all.
   • The name and address of an agent of the creditor to receive notice of rescission.

4. Time of providing notice. The notice required by §226.15(b) need not be given before the occurrence giving rise to the right of rescission. The creditor may deliver the notice after the occurrence, but the rescission period will not begin to run until the notice is given. For example, if the creditor provides the notice on May 15, but disclosures were given and the credit limit was raised on May 10, the 3-business-day rescission period will run from May 15.

15(c) Delay of creditor’s performance.
1. General rule. Until the rescission period has expired and the creditor is reasonably satisfied that the consumer has not rescinded, the creditor must not, either directly or through a third party:
   • Disburse advances to the consumer.
   • Deliver materials to the consumer.
   • A creditor may, however, continue to allow transactions under an existing open-end credit plan during a rescission period that results solely from the addition of a security interest in the consumer’s principal dwelling. (See comment 15(c)(3) for other actions that may be taken during the delay period.)

2. Escrow. The creditor may disburse advances during the rescission period in a valid escrow arrangement. The creditor may not, however, appoint the consumer as “trustee” or “escrow agent” and distribute funds to the consumer in that capacity during the delay period.

3. Actions during the delay period. Section 226.15(c) does not prevent the creditor from taking other steps during the delay, short of beginning actual performance. Unless otherwise prohibited, such as by state law, the creditor may, for example:
   • Prepare the cash advance check.
   • Perfect the security interest.
   • Accrue finance charges during the delay period.

4. Performance by third party. The creditor is relieved from liability for failure to delay performance if a third party with no knowledge that the rescission right has been activated provides materials or services, as long as any debt incurred for materials or services obtained by the consumer during the rescission period is not secured by the security interest in the consumer’s dwelling. For example, if a consumer uses a bank credit card to purchase materials from a merchant in an amount below the floor limit, the merchant might not contact the card issuer for authorization and therefore would not know that materials should not be provided.

5. Delay beyond rescission period. The creditor must wait until it is reasonably satisfied that the consumer has not rescinded. For example, the creditor may satisfy itself by doing one of the following:
   • Waiting a reasonable time after expiration of the rescission period to allow for delivery of a mailed notice.
   • Obtaining a written statement from the consumer that the right has not been exercised.

When more than one consumer has the right to rescind, the creditor cannot reasonably rely on the assurance of only one consumer, because other consumers may exercise the right.

15(d) Effects of rescission.

Paragraph 15(d)(1).

1. Termination of security interest. Any security interest giving rise to the right of rescission becomes void when the consumer exercises the right of rescission. The security interest is automatically negated, regardless of its status and whether or not it was recorded or perfected. Under §226.15(d)(2), however, the creditor must take any action necessary to reflect the fact that the security interest no longer exists.

2. Extent of termination. The creditor’s security interest is void to the extent that it is related to the occurrence giving rise to the
right of rescission. For example, upon rescission:

- If the consumer’s right to rescind is activated by the opening of a plan, any security interest in the principal dwelling is void.
- If the right arises due to an increase in the credit limit, the security interest is void as to the amount of credit extensions over the prior limit, but the security interest in amounts up to the original credit limit is unaffected.
- If the right arises with each individual credit extension, then the interest is void as to that extension, and other extensions are unaffected.

Paragraph 15(d)(2).
1. Refunds to consumer. The consumer can not be required to pay any amount in the form of money or property either to the creditor or to a third party as part of the occurrence subject to the right of rescission. Any amounts of this nature already paid by the consumer must be refunded. “Any amount” includes finance charges already accrued, as well as other charges such as broker fees, application and commitment fees, or fees for a title search or appraisal, whether paid to the creditor, paid by the consumer directly to a third party, or passed on from the creditor to the third party. It is irrelevant that these amounts may not represent profit to the creditor. For example:

- If the occurrence is the opening of the plan, the creditor must return any membership or application fee paid.
- If the occurrence is the increase in a credit limit or the addition of a security interest, the creditor must return any fee imposed for a new credit report or filing fees.
- If the occurrence is a credit extension, the creditors must return fees such as application, title, and appraisal or survey fees, as well as any finance charges related to the credit extension.

2. Amounts not refundable to consumer. Creditors need not return any money given by the consumer to a third party outside of the occurrence, such as costs incurred for a building permit or for a zoning variance. Similarly, the term any amount does not apply to money or property given by the creditor to the consumer; those amounts must be tendered by the consumer to the creditor under §226.15(d)(3).

3. Reflection of security interest termination. The creditor must take whatever steps are necessary to indicate that the security interest is terminated. Those steps include the cancellation of documents creating the security interest, and the filing of release or termination statements in the public record. In a transaction involving subcontractors or suppliers that also hold security interests related to the occurrence rescinded by the consumer, the creditor must insure that the termination of their security interests is also reflected. The 20-day period for the creditor’s action refers to the time within which the creditor must begin the process. It does not require all necessary steps to have been completed within that time, but the creditor is responsible for seeing the process through to completion.

Paragraph 15(d)(3).
1. Property exchange. Once the creditor has fulfilled its obligation under §226.15(d)(2), the consumer must tender to the creditor any property or money the creditor has already delivered to the consumer. At the consumer’s option, property may be tendered at the location of the property. For example, if fixtures or furniture have been delivered to the consumer’s home, the consumer may tender them to the creditor by making them available for pick-up at the home, rather than physically returning them to the creditor’s premises. Money already given to the consumer must be tendered at the creditor’s place of business. For purpose of property exchange, the following additional rules apply:

- A cash advance is considered money for purposes of this section even if the creditor knows what the consumer intends to purchase with the money.
- In a 3-party open-end credit plan (that is, if the creditor and seller are not the same or related persons), extensions by the creditor that are used by the consumer for purchases from third-party sellers are considered to be the same as cash advances for purposes of tendering value to the creditor, even though the transaction is a purchase for other purposes under the regulation. For example, if a consumer exercises the unexpired right to rescind after using a 3-party credit card for one year, the consumer would tender the amount of the purchase price for the items charged to the account, rather than tendering the items themselves to the creditor.

2. Reasonable value. If returning the property would be extremely burdensome to the consumer, the consumer may offer the creditor its reasonable value rather than returning the property itself. For example, if building materials have already been incorporated into the consumer’s dwelling, the consumer may pay their reasonable value.

Paragraph 15(d)(4).
1. Modifications. The procedures outlined in §226.15(d)(2) and (3), or a court’s modification of those procedures under §226.15(d)(4), does not affect a consumer’s substantive right to rescind and to have the loan amount adjusted accordingly. Where the consumer’s right to rescind is contested by the creditor, a court would normally determine whether
the consumer has a right to rescind and determine the amounts owed before establishing the procedures for the parties to tender any money or property.

1. Consumer’s right to rescind.
   1. Need for waiver. To waive the right to rescind, the consumer must have a bona fide personal financial emergency that must be met before the end of the rescission period. The existence of the consumer’s waiver will not, of itself, automatically insulate the creditor from liability for failing to provide the right of rescission.
   2. Procedure. To waive or modify the right to rescind, the consumer must give a written statement that specifically waives or modifies the right, and also includes a brief description of the emergency. Each consumer entitled to rescind must sign the waiver statement. In a transaction involving multiple consumers, such as a husband and wife using their home as collateral, the waiver must bear the signatures of both spouses.

15(f) Exempt transactions.
   1. Residential mortgage transaction. Although residential mortgage transactions would seldom be made on bona fide open-end credit plans (under which repeated transactions must be reasonably contemplated), an advance on an open-end plan could be for a downpayment for the purchase of a dwelling that would then secure the remainder of the line. In such a case, only the particular advance for the downpayment would be exempt from the rescission right.
   2. State creditors. Cities and other political subdivisions of states acting as creditors are not exempt from §226.15.

3. Spreader clause. When the creditor holds a mortgage or deed of trust on the consumer’s principal dwelling and that mortgage or deed of trust contains a “spreader clause” (also known as a “dragnet” or cross-collateralization clause), subsequent occurrences such as the opening of a plan or individual credit extensions are subject to the right of rescission to the same degree as if the security interest were taken directly to secure the plan or individual credit extensions. The creditor has 20 days to take possession of the money or property that will be offered for only a limited period, or terms that are not and will not be available. For example, a creditor may state only those terms that the creditor is actually prepared to offer. For example, a creditor may not advertise a very low annual percentage rate that will not in fact be available at any time. However, if the creditor is actually preparing to offer a limited time, the creditor may state only those terms that apply. The right to rescind applies not only to real property used as the consumer’s principal dwelling, but to personal property as well. The regulation provides no specific text for the rescission notice.

When a consumer exercises the right to rescind, the creditor now has 20 days to return a consumer’s money or property after the consumer’s tender before the consumer may keep it without further obligation.

Under the revised regulation, the waiver provision has been relaxed. The lien status of the mortgage is irrelevant for purposes of the residential mortgage transaction exemption. The exemption for agricultural loans from the right to rescind has been deleted.

Section 226.16—Advertising

1. Clear and conspicuous standard. Section 226.16 is subject to the general “clear and conspicuous” standard for subpart H (see §226.5(a)(1)) but prescribes no specific rules for the format of the necessary disclosures. The credit terms need not be printed in a certain type size nor need they appear in any particular place in the advertisement.

2. Expressing the annual percentage rate in abbreviated form. Whenever the annual percentage rate is used in an advertisement for open-end credit, it may be expressed using a readily understandable abbreviation such as “APR.”

16(a) Actually available terms.

1. General rule. To the extent that an advertisement mentions specific credit terms, it may state only those terms that the creditor is actually prepared to offer. For example, a creditor may not advertise a very low annual percentage rate that will not in fact be available at any time. Section 226.16(a) is not intended to inhibit the promotion of new credit programs, but to bar the advertising of terms that are not and will not be available. For example, a creditor may advertise terms that will be offered for only a limited period, or terms that will become available at a future date.

2. Specific credit terms. Specific credit terms is not limited to the disclosures required by the regulation but would include any specific components of a credit plan, such as the minimum periodic payment amount or seller’s points in a plan secured by real estate.

16(b) Advertisement of terms that require additional disclosures.

1. Terms requiring additional disclosures. In §226.16(b) the phrase the terms required to be
disclosed under §226.6 refers to the terms in §226.6(a) and §226.6(b).

2. Use of positive terms. An advertisement must state a credit term as a positive number instead of a negative number in order to trigger additional disclosures. For example, no annual membership fee would not trigger the additional disclosures required by §226.16(b). (See, however, the rules in §226.16(d) relating to advertisements for home equity plans.)

3. Implicit terms. Section 226.16(b) applies even if the triggering term is not stated explicitly, but may be readily determined from the advertisement.

4. Membership fees. A membership fee is not a triggering term nor need it be disclosed under §226.16(b)(3) if it is required by participation in the plan whether or not an open-end credit feature is attached. (See Comment 6(b)-1.)

5. Variable-rate plans. In disclosing the annual percentage rate in an advertisement for a variable-rate plan, as required by §226.16(b)(2), the creditor may use an insert showing the current rate; may give the rate as of a specified recent date; or may disclose an estimated rate under §226.5(c). The additional requirement in §226.16(b)(2) to disclose the variable-rate feature may be satisfied by disclosing that the annual percentage rate may vary or a similar statement, but the advertisement need not include the information required by footnote 12 to §226.6(a)(2).

6. Discounted variable-rate plans—disclosure of the annual percentage rates. The advertised annual percentage rates for discounted variable-rate plans must, in accordance with comment 6(a)(2)-10, include both the initial rate (with the statement of how long it will remain in effect) and the current indexed rate (with the statement that this second rate may vary). The options listed in comment 6(b)-3 may be used in disclosing the current indexed rate.

7. Triggering terms. The following are examples of terms that trigger additional disclosures:
   • Small monthly service charge on the remaining balance, which describes how the amount of a finance charge will be determined.
   • 12 percent Annual Percentage Rate or A $15 annual membership fee buys you $2,000 in credit, which describe required disclosures using positive numbers.

8. Minimum, fixed, transaction, activity, or similar charge. The charges to be disclosed under §226.16(b)(1) are those that are considered finance charges under §226.4.

9. Deferred billing and deferred payment programs. Statements such as “Charge it—you won’t be billed until May” or “You may skip your January payment” are not in themselves triggering terms, since the timing for initial billing or for monthly payments are not terms required to be disclosed under §226.6. However, a statement such as “No finance charge until May” or any other statement regarding when finance charges begin to accrue is a triggering term, whether appearing alone or in conjunction with a description of a deferred billing or deferred payment program such as the examples above.

16(c) Catalogs or Other Multiple-page Advertisements; Electronic Advertisements

1. Definition. The multiple-page advertisements to which §226.16(c) refers are advertisements consisting of a series of sequentially numbered pages—for example, a supplement to a newspaper. A mailing consisting of several separate flyers or pieces of promotional material in a single envelope does not constitute a single multiple-page advertisement for purposes of §226.16(c).

Paragraph 16(c)(1).

1. General. Section 226.16(c)(1) permits creditors to put credit information together in one place in a catalog or other multiple-page advertisement or an electronic advertisement (such as an advertisement appearing on an Internet Web site). The rule applies only if the advertisement contains one or more of the triggering terms from §226.16(b).

2. Electronic advertisement. If an electronic advertisement (such as an advertisement appearing on an Internet Web site) contains the table or schedule permitted under §226.16(c)(1), any statement of terms set forth in §226.6 appearing anywhere else in the advertisement must clearly direct the consumer to the location where the table or schedule begins. For example, a term triggering additional disclosures may be accompanied by a link that directly takes the consumer to the additional information.

Paragraph 16(c)(2).

1. Table or schedule if credit terms depend on outstanding balance. If the credit terms of a plan vary depending on the amount of the balance outstanding, rather than the amount of any property purchased, a table or schedule complies with §226.16(c)(2) if it includes the required disclosures for representative balances. For example, a creditor would disclose that a periodic rate of 1.5% is applied to balances of $500 or less, and a 1% rate is applied to balances greater than $500.

16(d) Additional Requirements for Home Equity Plans

1. Trigger terms. Negative as well as affirmative references trigger the requirement for additional information. For example, if a creditor states no annual fee, no points, or no waiver closing costs in an advertisement, additional information must be provided. (See comment 16(d)-4 regarding the use of a phrase such as no closing costs.) Inclusion of a statement such as low fee, however, would not trigger the need to state additional information. References to payment terms include references to the draw period or any repayment period, to the length of the plan,
to how the minimum payments are determined and to the timing of such payments.

2. Fees to open the plan. Section 226.16(d)(1)(i) requires a disclosure of any fees imposed by the creditor or a third party to open the plan. In providing the fee information required under this paragraph, the corresponding rules for disclosure of this information apply. For example, fees to open the plan may be stated as a range. Similarly, if property insurance is required to open the plan, a creditor either may estimate the cost of the insurance or provide a statement that such insurance is required. (See the commentary to §226.3b(d)(7) and (8).)

3. Taxable terms. An advertisement referring to deductibility for tax purposes is not misleading if it includes a statement such as “consult a tax advisor regarding the deductibility of interest.”

4. Misleading terms prohibited. Under §226.16(d)(5), advertisements may not refer to home equity plans as “free money” or use other misleading terms. For example, an advertisement could not state “no closing costs” or “we waive closing costs” if consumers may be required to pay any closing costs, such as recordation fees. In the case of property insurance, however, a creditor may state, for example, “no closing costs” even if property insurance may be required, as long as the creditor also provides a statement that such insurance may be required. (See the commentary to this section regarding fees to open a plan.)

5. Relation to other sections. Advertisements for home equity plans must comply with all provisions in §226.16, not solely the rules in §226.16(d). If an advertisement contains information (such as the payment terms) that triggers the duty under §226.16(d) to state the annual percentage rate, the additional disclosures in §226.16(b) must be provided in the advertisement. While §226.16(d) does not require a statement of fees to use or maintain the plan (such as membership fees and transaction charges), such fees must be disclosed under §226.16(b) (1) and (3).

6. Inapplicability of closed-end rules. Advertisements for home equity plans are governed solely by the requirements in §226.16, and not by the closed-end advertising rules in §226.21. Thus, if a creditor states payment information about the repayment phase, this will trigger the duty to provide additional information required under §226.16, but not under §226.24.

7. Balloon payment. In some programs, a balloon payment will occur if only the minimum payments under the plan are made. If an advertisement for such a program contains any statement about a minimum periodic payment, the advertisement must also state that a balloon payment will result (not merely that a balloon payment “may” result). (See comment 3b(d)(6)(i)(c)–3 for guidance on items not required to be stated in the advertisement, and on situations in which the balloon payment requirement does not apply.)

References

Statute: Sections 141 and 143.

Previous regulation: Section 226.10 (a) through (c) and Interpretation §226.102.

Other sections: Sections 226.2 and 226.6.

1981 changes: Section 226.16 reflects the statutory changes to section 143 of the act which reduce both the number of triggering terms and the additional disclosures required by the use of those terms. Membership or participation fees are included among the additional disclosures required when a triggering term is used. The substance of Interpretation §226.102, requiring disclosure of representative amounts of credit in catalogs and multiple-page advertisements, has been incorporated in simplified form in paragraph (c).

SUBPART C—CLOSED-END CREDIT

Section 226.17—General Disclosure Requirements

17(a) Form of disclosures.

Paragraph 17(a)(1).

1. Clear and conspicuous. This standard requires that disclosures be in a reasonably understandable form. For example, while the regulation requires no mathematical progression or format, the disclosures must be presented in a way that does not obscure the relationship of the terms to each other. In addition, although no minimum type size is mandated, the disclosures must be legible, whether typewritten, handwritten, or printed by computer.

2. Segregation of disclosures. The disclosures may be grouped together and segregated from other information in a variety of ways. For example, the disclosures may appear on a separate sheet of paper or may be set off from other information on the contract or other documents:

• By outlining them in a box
• By bold print dividing lines
• By a different color background
• By a different type style

(The general segregation requirement described in this subparagraph does not apply to the disclosures required under §§226.19(b) and 226.20(c) although the disclosures must be clear and conspicuous.)

3. Location. The regulation imposes no specific location requirements on the segregated disclosures. For example:

• They may appear on a disclosure statement separate from all other material.
• They may be placed on the same document with the credit contract or other information, so long as they are segregated from that information.
• They may be shown on the front or back of a document.
Federal Reserve System
Pt. 226, Supp. I, NI.

• They need not begin at the top of a page.
• They may be continued from one page to another.

4. Content of segregated disclosures. Footnotes 37 and 38 contain exceptions to the require-
ment that the disclosures under §226.18 be segregated from material that is not di-
rectly related to those disclosures. Footnote 37 lists the items that may be added to the seg-
regated disclosures, even though not directly related to those disclosures. Footnote 38 lists the items required under §226.18 that may be deleted from the segregated disclo-
sures and appear elsewhere. Any one or more of these additions or deletions may be com-
bined and appear either together with or sepa-
rate from the segregated disclosures. The itemization of the amount financed under §226.18(c), however, must be separate from the other segregated disclosures under §226.18. If a creditor chooses to include the security interest charges required to be itemized under §226.4(e) and §226.18(o) in the amount financed itemization, it need not list these charges elsewhere.

5. Directly related. The segregated disclo-
sures may, at the creditor’s option, include any information that is directly related to those disclosures. The following is directly related information:

1. A description of a grace period after which a late payment charge will be im-
posed. For example, the disclosure given under §226.18(1) may state that a late charge will apply to ‘any payment received more than 15 days after the due date.’

2. A statement that the transaction is not secured. For example, the creditor may add a category labelled “unsecured” or “not se-
cured” to the security interest disclosures given under §226.18(m).

3. The basis for any estimates used in making disclosures. For example, if the maturity date of a loan depends solely on the occurrence of a future event, the creditor may indicate that the disclosures assume that event will occur at a certain time.

4. The conditions under which a demand feature may be exercised. For example, in a loan subject to demand after five years, the disclosures may state that the loan will be-
come payable on demand in five years.

5. An explanation of the use of pronouns or other references to the parties to the trans-
action. For example, the disclosures may state, ‘‘You refers to the customer and ‘we’ refers to the creditor.’’

6. Instructions to the creditor or its em-
ployees on the use of a multiple-purpose form. For example, the disclosures may state, ‘‘Check box if applicable.’’

7. A statement that the borrower may pay a minimum finance charge upon prepay-
ment in a simple-interest transaction. For example, when state law prohibits penalties, but would allow a minimum finance charge in the event of prepayment, the creditor may make the §226.18(k)(1) disclosure by stating, ‘‘You may be charged a minimum finance charge.’’

8. A brief reference to negative amorti-
zation in variable-rate transactions. For ex-
ample, in the variable-rate disclosure, the creditor may include a short statement such as ‘Unpaid interest will be added to principal.’ (See the commentary to §226.18(f)(1)(iii).)

9. A brief caption identifying the disclo-
sures. For example, the disclosures may bear a general title such as ‘Federal Truth in Lending Disclosures’ or a descriptive title such as ‘Real Estate Loan Disclosures.’

x. A statement that a due-on-sale clause or other conditions on assumption are con-
tained in the loan document. For example, the disclosure given under §226.18(q) may state, ‘Someone buying your home may, subject to conditions in the due-on-sale clause contained in the loan document, as-
sume the remainder of the mortgage on the original terms.’

xi. If a state or Federal law prohibits pre-
payment penalties and excludes the charging of interest after prepayment from coverage as a penalty, a statement that the borrower may have to pay interest for some period after prepayment in full. The disclosure given under §226.18(k) may state, for exam-
ple, ‘If you prepay your loan on other than the regular installment date, you may be as-
sessed interest charges until the end of the month.’

xii. More than one hypothetical example under §226.18(f)(1)(iv) in transactions with more than one variable-rate feature. For exam-
ple, in a variable-rate transaction with an option permitting consumers to convert to a fixed-rate transaction, the disclosures may include an example illustrating the effects on the payment terms of an increase result-
ing from conversion in addition to the exam-
ple illustrating an increase resulting from changes in the index.

xiii. The disclosures set forth under §226.18(f)(1) for variable-rate transactions subject to §226.18(f)(2).

xiv. A statement whether or not a subse-
quent purchaser of the property securing an obligation may be permitted to assume the remaining obligation on its original terms.

xv. A late-payment fee disclosure under §226.18(l) on a single payment loan.

6. Multiple-purpose forms. The creditor may design a disclosure statement that can be used for more than one type of transaction, so long as the required disclosures for indi-
vidual transactions are clear and con-
spicuous. (See the Commentary to appen-
dices G and H for a discussion of the treat-
ment of disclosures that do not apply to spe-
cific transactions.) Any disclosure listed in §226.18 (except the itemization of the amount financed under §226.18(c)) may be included on a standard disclosure statement even though
not all of the creditor’s transactions include those features. For example, the statement may include:

- The variable rate disclosure under §226.18(f).
- The demand feature disclosure under §226.18(i).
- A reference to the possibility of a security interest arising from a spreader clause, under §226.18(m).
- The assumption policy disclosure under §226.18(q).
- The required deposit disclosure under §226.18(r).

7. **Balloon payment financing with leasing characteristics.** In certain credit sale or loan transactions, a consumer may reduce the dollar amount of the payments to be made during the course of the transaction by agreeing to make, at the end of the loan term, a large final payment based on the expected residual value of the property. The consumer may have a number of options with respect to the final payment, including, among other things, retaining the property and making the final payment, refinancing the final payment, or transferring the property to the creditor in lieu of the final payment. Such transactions may have some of the characteristics of lease transactions subject to Regulation M, but are considered credit transactions where the consumer assumes the indicia of ownership, including the risks, burdens and benefits of ownership upon consummation. These transactions are governed by the disclosure requirements of this regulation instead of Regulation M. Creditors should not include in the segregated Truth in Lending disclosures additional information. Thus, disclosures should show the large final payment in the payment schedule and should not, for example, reflect the other options available to the consumer at maturity.

Paragraph 17(a)(2).

1. **When disclosures must be more conspicuous.** The following rules apply to the requirement that the terms annual percentage rate and finance charge be shown more conspicuously:

- The terms must be more conspicuous only in relation to the other required disclosures under §226.18. For example, when the disclosures are included on the contract document, those 2 terms need not be more conspicuous as compared to the heading on the contract document or information required by state law.
- The terms need not be more conspicuous except as part of the finance charge and annual percentage rate disclosures under §226.18(d) and (e), although they may, at the creditor’s option, be highlighted wherever used in the required disclosures. For example, the terms may, but need not, be highlighted when used in disclosing a prepayment penalty under §226.18(k) or a required deposit under §226.18(r).
- The creditor’s identity under §226.18(a) may, but need not, be more prominently displayed than the finance charge and annual percentage rate.
- The terms need not be more conspicuous than figures (including, for example, numbers, percentages, and dollar signs).

2. **Making disclosures more conspicuous.** The terms finance charge and annual percentage rate may be made more conspicuous in any way that highlights them in relation to the other required disclosures. For example, they may be:

- Capitalized when other disclosures are printed in capital and lower case.
- Printed in larger type, bold print or different type face.
- Printed in a contrasting color.
- Underlined.
- Set off with asterisks.

17(b) **Time of disclosures.**

1. **Consummation.** As a general rule, disclosures must be made before “consummation” of the transaction. The disclosures need not be given by any particular time before consummation, except in certain mortgage transactions and variable-rate transactions secured by the consumer’s principal dwelling with a term greater than one year under §226.19. (See the commentary to §226.2(a)(13) regarding the definition of consummation.)

2. **Converting open-end to closed-end credit.** Except for home equity plans subject to §226.5b in which the agreement provides for a repayment phase, if an open-end credit account is converted to a closed-end transaction under a written agreement with the consumer, the creditor must provide a set of closed-end credit disclosures before consummation of the closed-end transaction. (See the commentary to §226.19(b) for the timing rules for additional disclosures required upon the conversion to a variable-rate transaction secured by a consumer’s principal dwelling with a term greater than one year.) If consummation of the closed-end transaction occurs at the same time as the consumer enters into the open-end agreement, the closed-end credit disclosures may be given at the time of conversion. If disclosures are delayed until conversion and the closed-end transaction has a variable-rate feature, disclosures should be based on the rate in effect at the time of conversion. (See the commentary to §226.5 regarding conversion of closed-end to open-end credit.)

3. **Disclosures provided on credit contracts.** Creditors must give the required disclosures to the consumer in writing, in a form that the consumer may keep, before consummation of the transaction. See §226.17(a)(1) and (b). Sometimes the disclosures are placed on the same document with the credit contract.
Federal Reserve System

Creditors are not required to give the consumer two separate copies of the document before consummation, one for the consumer to keep and a second copy for the consumer to execute. The disclosure requirement is satisfied if the creditor gives a copy of the document containing the unexecuted credit contract and disclosures to the consumer to read and sign; and the consumer receives a copy to keep at the time the consumer becomes obligated. It is not sufficient for the creditor merely to show the consumer the document containing the disclosures before the consumer signs and becomes obligated. The consumer must be free to take possession of and read the document in its entirety before signing.

1. Example. To illustrate:

A. A creditor gives a consumer a multiple-copy form containing a credit agreement and TILA disclosures. The consumer reviews and signs the form and returns it to the creditor, who separates the copies and gives one copy to the consumer to keep. The creditor has satisfied the disclosure requirement.

17(c) Basis of disclosures and use of estimates. Paragraph 17(c)(1).

1. Legal obligation. The disclosures shall reflect the credit terms to which the parties are legally bound as of the outset of the transaction. In the case of disclosures required under § 226.20(c), the disclosures shall reflect the credit terms to which the parties are legally bound when the disclosures are provided. The legal obligation is determined by applicable state law or other law. (Certain transactions are specifically addressed in this commentary. See, for example, the discussion of buydown transactions elsewhere in the commentary to § 226.17(c).)

• The fact that a term or contract may later be deemed unenforceable by a court on the basis of equity or other grounds does not, by itself, mean that disclosures based on that term or contract did not reflect the legal obligation.

2. Modification of obligation. The legal obligation normally is presumed to be contained in the note or contract that evidences the agreement. But this presumption is rebutted if another agreement between the parties legally modifies that note or contract. If the parties informally agree to a modification of the legal obligation, the modification should not be reflected in the disclosures unless it rises to the level of a change in the terms of the legal obligation. For example:

• If the creditor offers a preferential rate, such as an employee preferred rate, the disclosures should reflect the terms of the legal obligation. (See the commentary to § 226.19(b) for an example of a preferred-rate transaction that is a variable-rate transaction.)

• If the contract provides for a certain monthly payment schedule but payments are made on a voluntary payroll deduction plan or an informal principal-reduction agreement, the disclosures should reflect the schedule in the contract.

• If the contract provides for regular monthly payments but the creditor informally permits the consumer to defer payments from time to time, for instance, to take account of holiday seasons or seasonal employment, the disclosures should reflect the regular monthly payments.

3. Third-party buydowns. In certain transactions, a seller or other third party may pay an amount, either to the creditor or to the consumer, in order to reduce the consumer’s payments or buy down the interest rate for all or a portion of the credit term. For example, a consumer and a bank agree to a mortgage with an interest rate of 15% and level payments over 25 years. By a separate agreement, the seller of the property agrees to subsidize the consumer’s payments for the first 2 years of the mortgage, giving the consumer an effective rate of 12% for that period.

• If the lower rate is reflected in the credit contract between the consumer and the bank, the disclosures must take the buydown into account. For example, the annual percentage rate must be a composite rate that takes account of both the lower initial rate and the higher subsequent rate, and the payment schedule disclosures must reflect the 2 payment levels. However, the amount paid by the seller would not be specifically reflected in the disclosures given by the bank, since that amount constitutes seller’s points and thus is not part of the finance charge.

• If the lower rate is not reflected in the credit contract between the consumer and the bank, the disclosures would reflect the 15% rate from the outset, the disclosures given by the bank must not reflect the seller buydown in any way. For example, the annual percentage rate and payment schedule would not take into account the reduction in the interest rate and payment level for the first 2 years resulting from the buydown.

4. Consumer buydowns. In certain transactions, the consumer may pay an amount to the creditor to reduce the payments or obtain a lower interest rate on the transaction. Consumer buydowns must be reflected in the disclosures given for that transaction. To illustrate, in a mortgage transaction, the creditor and consumer agree to a note specifying a 14 percent interest rate. However, in a separate document, the consumer agrees to pay an amount to the creditor at consummation in return for a reduction in the interest rate to 12 percent for a portion of the mortgage term. The amount paid by the consumer may be deposited in an escrow account or may be retained by the creditor.
Depending upon the buydown plan, the consumer’s prepayment of the obligation may or may not result in a portion of the amount being credited or refunded to the consumer. In such circumstances, the creditor must reflect the terms of the buydown agreement. For example:

- The amount paid by the consumer is a prepaid finance charge (even if deposited in an escrow account).
- A composite annual percentage rate must be calculated, taking into account both interest rates, as well as the effect of the prepaid finance charge.
- The payment schedule must reflect the multiple payment levels resulting from the buydown.

The rules regarding consumer buydowns do not apply to transactions known as “lender buydowns.” In lender buydowns, a creditor pays an amount (either into an account or to the party to whom the obligation is sold) to reduce the consumer’s payments or interest rate for all or a portion of the credit term. Typically, these transactions are structured as a buydown of the interest rate during an initial period of the transaction with a higher than usual rate for the remainder of the term. The disclosures for lender buydowns should be based on the terms of the legal obligation between the consumer and the creditor. (See comment 17(c)(1)-3 for the analogous rules concerning third-party buydowns.)

5. Split buydowns. In certain transactions, a third party (such as a seller) and a consumer both pay an amount to the creditor to reduce the interest rate. The creditor must include the portion paid by the consumer in the finance charge and disclose the corresponding multiple payment levels and composite annual percentage rate. The portion paid by the third party and the corresponding reduction in interest rate, however, should not be reflected in the disclosures unless the lower rate is reflected in the credit contract. (See the discussion on third-party and consumer buydown transactions elsewhere in the commentary to §226.17(c).)

6. Wrap-around financing. Wrap-around transactions, usually loans, involve the creditor’s wrapping the outstanding balance on an existing loan and advancing additional funds to the consumer. The pre-existing loan, which is wrapped, may be to the same consumer or to a different consumer. In either case, the consumer makes a single payment to the new creditor, who makes the payments on the pre-existing loan to the original creditor. Wrap-around loans or sales are considered new single-advance transactions, with an amount financed equaling the sum of the new funds advanced by the wrap creditor and the remaining principal owed to the original creditor on the pre-existing loan. In disclosing the itemization of the amount financed, the creditor may use a label such as “the amount that will be paid to creditor X” to describe the remaining principal balance on the pre-existing loan. This approach to Truth in Lending disclosures has no effect on calculations required by other statutes, such as state usury laws.

7. Wrap-around financing with balloon payments. For wrap-around transactions with a large final payment of the new funds before the maturity of the pre-existing loan, the amount financed is the sum of the new funds and the remaining principal on the pre-existing loan. The disclosures should be based on the shorter term of the wrap loan, with a large final payment of both the new funds and the total remaining principal on the pre-existing loan (although only the wrap loan will actually be paid off at that time).

8. Basis of disclosures in variable-rate transactions. The disclosures for a variable-rate transaction must be given for the full term of the transaction and must be based on the terms in effect at the time of consummation. Creditors should base the disclosures only on the initial rate and should not assume that this rate will increase. For example, in a loan with an initial rate of 10 percent and a 5 percentage points rate cap, creditors should base the disclosures on the initial rate and should not assume that this rate will increase 5 percentage points. However, in a variable-rate transaction with a seller buydown that is reflected in the credit contract, a consumer buydown, or a discounted or premium rate, disclosures should not be based solely on the initial terms. In those transactions, the disclosed annual percentage rate should be a composite rate based on the rate in effect during the initial period and the rate that is the basis of the variable-rate feature for the remainder of the term. (See the commentary to §226.17(c) for a discussion of buydown, discounted, and premium transactions and the commentary to section 226.19(a)(2) for a discussion of the disclosure in certain residential mortgage transactions with a variable-rate feature.)

9. Use of estimates in variable-rate transactions. The variable-rate feature does not, by itself, make the disclosures estimates.

10. Discounted and premium variable-rate transactions. In some variable-rate transactions, creditors may set an initial interest rate that is not determined by the index or formula used to make later interest rate adjustments. Typically, this initial rate charged to consumers is lower than the rate would be if it were calculated using the index or formula. However, in some cases the initial rate may be higher. In a discounted transaction, for example, a creditor may calculate interest rates according to a formula using the six-month Treasury bill rate plus a 2 percent margin. If the Treasury bill rate at consummation is 10 percent, the creditor...
Federal Reserve System  

may forgo the 2 percent spread and charge only 10 percent for a limited time, instead of setting an initial rate of 12 percent.

1. When creditors use an initial interest rate that is not calculated using the index or formula for later rate adjustments, the disclosures should reflect a composite annual percentage rate based on the initial rate for as long as it is charged and, for the remainder of the term, the rate that would have been applied using the index or formula at the time of consummation. The rate at consummation need not be used if a contract provides for a delay in the implementation of changes in an index value. For example, if the contract specifies that rate changes are based on the index value in effect 45 days before the change date, creditors may use any index value in effect during the 45 day period before consummation in calculating a composite annual percentage rate.

2. The effect of the multiple rates must also be reflected in the calculation and disclosure of the finance charge, total of payments, and payment schedule.

3. If a loan contains a rate or payment cap that would prevent the initial rate or payment, at the time of the first adjustment, from changing to the rate determined by the index or formula at consummation, the effect of that rate or payment cap should be reflected in the disclosures.

4. Because these transactions involve irregular payment amounts, an annual percentage rate tolerance of %1⁄2 of 1 percent applies, in accordance with §226.22(a)(3).

v. Examples of discounted variable-rate transactions include:

A. A 30-year loan for $100,000 with no pre-paid finance charges and rates determined by the Treasury bill rate plus 2 percent. Rate and payment adjustments are made annually. Although the Treasury bill rate at the time of consummation is 10 percent, the creditor sets the interest rate for one year on 9 percent, instead of 12 percent according to the formula. The disclosures should reflect a composite annual percentage rate of 11.63 percent based on 9 percent for one year and 12 percent for 29 years. Reflecting those two rate levels, the payment schedule should show 12 payments of $891.62 and 360 payments of $1,025.31. The finance charge should be $386,483.32 and the total of payments $386,483.32.

B. Same loan as above, except with a 2 percent rate cap on periodic adjustments. The disclosures should reflect a composite annual percentage rate of 11.53 percent based on 9 percent for the first year, 11 percent for the second year, and 12 percent for the remaining 28 years. Reflecting those three rate levels, the payment schedule should show 12 payments of $881.62, 12 payments of $890.09, and 336 payments of $1,024.34. The finance charge should be $380,254.76 and the total of payments $380,254.76.

C. Same loan as above, except with a 71⁄2 percent cap on payment adjustments. The disclosures should reflect a composite annual percentage rate of 11.64 percent, based on 9 percent for one year and 12 percent for 29 years. Because of the payment cap, five levels of payments should be reflected. The payment schedule should show 12 payments of $894.62, 12 payments of $895.97, 12 payments of $902.54, 12 payments of $909.58, and 312 payments of $1,070.94. The finance charge should be $377,040.60, and the total of payments $377,040.60.

vi. A loan in which the initial interest rate is set according to the index or formula used for later adjustments but is not set at the value of the index or formula at consummation is not a discounted variable-rate loan. For example, if a creditor commits to an initial rate based on the formula on a date prior to consummation, but the index has moved during the period between that time and consummation, a creditor should base its disclosures on the initial rate.

11. Examples of variable-rate transactions. Variable-rate transactions include:

• Renewable balloon-payment instruments where the creditor is both unconditionally obligated to renew the balloon-payment loan at the consumer’s option (or is obligated to renew subject to conditions within the consumer’s control) and has the option of increasing the interest rate at the time of renewal. Disclosures must be based on the payment amortization (unless the specified term of the obligation with renewals is shorter) and on the rate in effect at the time of consummation of the transaction. (Examples of conditions within a consumer’s control include requirements that a consumer be current in payments or continue to reside in the mortgaged property. In contrast, setting a limit on the rate at which the creditor would be obligated to renew or reserving the right to change the credit standards at the time of renewal are examples of conditions outside a consumer’s control.) If, however, a creditor is not obligated to renew as described above, disclosures must be based on the term of the balloon-payment loan. Disclosures also must be based on the term of the balloon-payment loan in balloon-payment instruments in which the legal obligation provides that the loan will be renewed by a “refinancing” of the obligation, as that term is defined by §226.22(a). If it cannot be determined from the legal obligation that the loan will be renewed by a “refinancing,” disclosures must be based either on the term of the balloon-payment loan or on the payment amortization, depending on whether the creditor is unconditionally obligated to renew the loan as described above. (This discussion does not apply to construction loans subject to §226.17(c)(6).)
13. Growth-equity mortgages. Also referred to as payment-escalated mortgages, these mortgage plans involve scheduled payment increases to prematurely amortize the loan. The initial payment amount is determined as for a long-term loan with a fixed interest rate. Payment increases are scheduled periodically, based on changes in an index. The larger payments result in accelerated amortization of the loan. In disclosing these mortgage plans, creditors may either:

- Estimate the amount of payment increases, based on the best information reasonably available; or
- Disclose by analogy to the variable-rate disclosures in 226.18(f)(1).

(This discussion does not apply to growth-equity mortgages in which the amount of payment increases can be accurately determined at the time of disclosure. For these mortgages, as for graduated-payment mortgages, disclosures should reflect the scheduled increases in payments.)

14. Reverse mortgages. Reverse mortgages, also known as reverse annuity or home equity conversion mortgages, typically involve the disbursement of monthly advances to the consumer for a fixed period or until the occurrence of an event such as the consumer’s death. Repayment of the loan (generally a single payment of principal and accrued interest) may be required to be made at the end of the disbursements or, for example, upon the death of the consumer. In disclosing these transactions, creditors must apply the following rules, as applicable:

- If the reverse mortgage has a specified period for disbursements but repayment is due only upon the occurrence of a future event such as the death of the consumer, the creditor must assume that disbursements will be made until they are scheduled to end. The creditor must assume repayment will occur when disbursements end (or within a period following the final disbursement which is not longer than the regular interval between disbursements). This assumption should be used even though repayment may occur before or after the disbursements are scheduled to end. In such cases, the creditor may include a statement such as “The disclosures assume that you will repay the loan at the time our payments to you end. As provided in your agreement, your repayment may be required at a different time.”
- If the reverse mortgage has neither a specified period for disbursements nor a specified repayment date and these terms will be determined solely by reference to future events including the consumer’s death, the creditor may assume that the disbursements will end upon the consumer’s death (estimated by using actuarial tables, for example) and that repayment will be required at the same time (or within a period following the date of the final disbursement which is not longer than the regular interval between disbursements). This assumption should be used even though repayment may occur before or after the disbursements are scheduled to end. In such cases, the creditor may include a statement such as “The disclosures assume that you will repay the loan at the time our payments to you end. As provided in your agreement, your repayment may be required at a different time.”
for disbursements). Alternatively, the creditor may base the disclosures upon another future event it estimates will be most likely to occur first. (If terms will be determined by reference to future events which do not include the consumer’s death, the creditor must base the disclosures upon the occurrence of the event estimated to be most likely to occur first.)

- In making the disclosures, the creditor must assume that all disbursements and accrued interest will be paid by the consumer. For example, if the note has a nonrecourse provision providing that the consumer is not obligated for an amount greater than the value of the house, the creditor must nonetheless assume that the full amount to be disbursed will be repaid. In this case, however, the creditor may include a statement such as “The disclosures assume full repayment of the amount advanced plus accrued interest, although the amount you may be required to pay is limited by your agreement.”

- Some reverse mortgages provide that some or all of the appreciation in the value of the property will be shared between the consumer and the creditor. Such loans are considered variable-rate mortgages, as described in comment 17(c)(1)–11, and the appreciation feature must be disclosed in accordance with §226.18(f)(1). If the reverse mortgage has a variable interest rate, it is written for a term greater than one year, and is secured by the consumer’s principal dwelling; the shared appreciation feature must be described under §226.18(b)(2)(vii).

15. **Morris Plan transactions.** When a deposit account is created for the sole purpose of accumulating payments and then is applied to satisfy entirely the consumer’s obligation in the transaction, each deposit made into the account is considered the same as a payment on a loan for purposes of making disclosures.

16. **Number of transactions.** Creditors have flexibility in handling credit extensions that may be viewed as multiple transactions. For example:

- When a creditor finances the credit sale of a radio and a television on the same day, the creditor may disclose the sales as either 1 or 2 credit sale transactions.

- When a creditor finances a loan along with a credit sale of health insurance, the creditor may disclose in one of several ways: a single credit sale transaction, a single loan transaction, or a loan and a credit sale transaction.

- The separate financing of a downpayment in a credit sale transaction may, but need not, be disclosed as 2 transactions (a credit sale and a separate transaction for the financing of the downpayment).

17. **Special rules for tax refund anticipation loans.** Tax refund loans, also known as refund anticipation loans (RALs), are transactions in which a creditor will lend up to the amount of a consumer’s expected tax refund. RAL agreements typically require repayment upon demand, but also may provide that repayment is required when the refund is made. The agreements also typically provide that if the amount of the refund is less than the payment due, the consumer must pay the difference. Repayment often is made by a preauthorized offset to a consumer’s account held with the creditor when the refund has been deposited by electronic transfer. Creditors may charge fees for RALs in addition to fees for filing the consumer’s tax return electronically. In RAL transactions subject to the regulation the following special rules apply:

- If, under the terms of the legal obligation, repayment of the loan is required when the refund is received by the consumer (such as by deposit into the consumer’s account), the disclosures should be based on the creditor’s estimate of the time the refund will be delivered even if the loan also contains a demand clause. The practice of a creditor to demand repayment upon delivery of refunds does not determine whether the legal obligation requires that repayment be made at that time; this determination must be made according to applicable state or other law. (See §226.18(c)(6)–1 for the rules regarding disclosures if the loan is payable solely on demand or is payable either on demand or on an alternate maturity date.)

- If the consumer is required to repay more than the amount borrowed, the difference is a finance charge unless excluded under §226.4. In addition, to the extent that any fees charged in connection with the loan (such as for filing the tax return electronically) exceed those fees for a comparable cash transaction (that is, filing the tax return electronically without a loan), the difference must be included in the finance charge.

18. **Pawn Transactions.** When, in connection with an extension of credit, a consumer pledges or sells an item to a pawnbroker creditor in return for a sum of money and retains the right to redeem the item for a greater sum (the redemption price) within a specified period of time, disclosures are required. In addition to other disclosure requirements that may be applicable under §226.18, for purposes of pawn transactions:

i. The amount financed is the initial sum paid to the consumer. The pawnbroker creditor need not provide a separate itemization of the amount financed if that entire amount is paid directly to the consumer and the disclosed description of the amount financed is “the amount of cash given directly to you” or a similar phrase.

ii. The finance charge is the difference between the initial sum paid to the consumer.
and the redemption price plus any other finance charges paid in connection with the transaction. (See §226.4.)

iii. The term of the transaction, for calculating the finance charge and total of payments, is the period of time agreed to by the pawnbroker creditor and the consumer. The term of the transaction does not include a grace period (including any statutory grace period) after the agreed redemption date.

**Paragraph 17(c)(2)(i).**

1. **Basis for estimates.** Disclosures may be estimated when the exact information is unknown at the time disclosures are made. Information is unknown if it is not reasonably available to the creditor at the time the disclosures are made. The "reasonably available" standard requires that the creditor, acting in good faith, exercise due diligence in obtaining information. For example, the creditor must at a minimum utilize generally accepted calculation tools, but need not invest in the most sophisticated computer program to make a particular type of calculation. The creditor normally may rely on the representations of other parties in obtaining information. For example, the creditor might look to the consumer for the time of consummation, to insurance companies for the cost of insurance, or to realtors for taxes and escrow fees. The creditor may utilize estimates in making disclosures even though the creditor knows that more precise information will be available by the point of consummation. However, new disclosures may be required under §226.17(f) or §226.19.

2. **Labelling estimates.** Estimates must be designated as such in the segregated disclosures. Even though other disclosures are based on the same assumption on which a specific estimated disclosure was based, the creditor has some flexibility in labelling the estimates. Generally, only the particular disclosure for which the exact information is unknown is labelled as an estimate. However, when several disclosures are affected because of the unknown information, the creditor has the option of labelling either every affected disclosure or only the disclosure primarily affected. For example, when the finance charge is unknown because the date of consummation is unknown, the creditor must label the finance charge as an estimate and may also label as estimates the total of payments and the payment schedule. When many disclosures are estimates, the creditor may use a general statement, such as "all numerical disclosures except the late payment disclosure are estimates," as a method to label those disclosures as estimates.

3. **Simple-interest transactions.** If consumers do not make timely payments in a simple-interest transaction, some of the amounts calculated for Truth in Lending disclosures will differ from amounts that consumers will actually pay over the term of the transaction.

Creditors may label disclosures as estimates in these transactions. For example, because the finance charge and total of payments may be larger than disclosed if consumers make late payments, creditors may label the finance charge and total of payments as estimates. On the other hand, creditors may choose not to label disclosures as estimates and may base all disclosures on the assumption that payments will be made on time, disregarding any possible inaccuracies resulting from consumers' payment patterns.

**Paragraph 17(c)(2)(ii).**

1. **Per-diem interest.** This paragraph applies to any numerical amount (such as the finance charge, annual percentage rate, or payment amount) that is affected by the amount of the per-diem interest charge that will be collected at consummation. If the amount of per-diem interest used in preparing the disclosures for consummation is based on the information known to the creditor at the time the disclosure document is prepared, the disclosures are considered accurate under this rule, and affected disclosures are also considered accurate, even if the disclosures are not labeled as estimates. For example, if the amount of per-diem interest used to prepare disclosures is less than the amount of per-diem interest charged at consummation, and as a result the finance charge is understated by $200, the disclosed finance charge is considered accurate even though the understatement is not within the $100 tolerance of §226.18(d)(1), and the finance charge was not labeled as an estimate. In this example, if in addition to the understatement related to the per-diem interest, a $90 fee is incorrectly omitted from the finance charge, causing it to be understated by a total of $290, the finance charge is considered accurate because the $90 fee is within the tolerance in §226.18(d)(1).

**Paragraph 17(c)(3).**

1. **Minor variations.** Section 226.17(c)(3) allows creditors to disregard certain factors in calculating and making disclosures. For example:

- Creditors may ignore the effects of collecting payments in whole cents. Because payments cannot be collected in fractional cents, it is often difficult to amortize exactly an obligation with equal payments; the amount of the last payment may require adjustment to account for the rounding of the other payments to whole cents.
- Creditors may base their disclosures on calculation tools that assume that all months have an equal number of days, even if their practice is to take account of the variations in months for purposes of collecting interest. For example, a creditor may use a calculation tool based on a 360-day-year, when it in fact collects interest by applying a factor of 1/365 of the annual rate to 365 days. This rule does not, however, authorize creditors to ignore, for disclosure...
Federal Reserve System

Pt. 226, Supp. I, NI.

purposes, the effects of applying 1/360 of an annual rate to 365 days.

2. Use of special rules. A creditor may utilize the special rules in §226.17(c)(3) for purposes of calculating and making all disclosures for a transaction or may, at its option, use the special rules for some disclosures and not others.

Paragraph 17(c)(4).

1. Payment schedule irregularities. When one or more payments in a transaction differ from the others because of a long or short first period, the variations may be ignored in disclosing the payment schedule, finance charge, annual percentage rate, and other terms. For example:

• A 36-month auto loan might be consummated on June 8 with payments due on July 1 and the first of each succeeding month. The creditor may base its calculations on a payment schedule that assumes 36 equal intervals and 36 equal installment payments, even though a precise computation would produce slightly different amounts because of the shorter first period.

• By contrast, in the same example, if the first payment were not scheduled until August 1, the irregular first period would exceed the limits in §226.17(c)(4); the creditor could not use the special rule and could not ignore the extra days in the first period in calculating its disclosures.

2. Measuring odd periods. In determining whether a transaction may take advantage of the rule in §226.17(c)(4), the creditor must measure the variation against a regular period. For purposes of that rule:

• The first period is the period from the date on which the finance charge begins to be earned to the date of the first payment.

• The term is the period from the date on which the finance charge begins to be earned to the date of the final payment.

• The regular period is the most common interval between payments in the transaction.

In transactions involving regular periods that are monthly, semimonthly or multiples of a month, the length of the irregular and regular periods may be calculated on the basis of either the actual number of days or an assumed 30-day month. In other transactions, the length of the periods is based on the actual number of days.

3. Use of special rules. A creditor may utilize the special rules in §226.17(c)(4) for purposes of calculating and making some disclosures but may elect not to do so for all of the disclosures. For example, the variations may be ignored in calculating and disclosing the annual percentage rate but taken into account in calculating and disclosing the finance charge and payment schedule.

4. Relation to prepaid finance charges. Prepaid finance charges, including “odd-days” or “per-diem” interest, paid prior to or at closing may not be treated as the first payment on a loan. Thus, creditors may not disregard an irregularity in disclosing such finance charges.

Paragraph 17(c)(5).

1. Demand disclosures. Disclosures for demand obligations are based on an assumed 1-year term, unless an alternate maturity date is stated in the legal obligation. Whether an alternate maturity date is stated in the legal obligation is determined by applicable law. An alternate maturity date is not inferred from an informal principal reduction agreement or a similar understanding between the parties. However, when the note itself specifies a principal reduction schedule (for example, “payable on demand or $2,000 plus interest quarterly”), an alternate maturity is stated and the disclosures must reflect that date.

2. Future event as maturity date. An obligation whose maturity date is determined solely by a future event, as for example, a loan payable only on the sale of property, is not a demand obligation. Because no demand feature is contained in the obligation, demand disclosures under §226.18(i) are inapplicable. The disclosures should be based on the creditor’s estimate of the time at which the specified event will occur, and may indicate the basis for the creditor’s estimate, as noted in the commentary to §226.17(a).

3. Demand after stated period. Most demand transactions contain a demand feature that may be exercised at any point during the term, but certain transactions convert to demand status only after a fixed period. For example, in States prohibiting due-on-sale clauses, the Federal National Mortgage Association (FNMA) requires mortgages that it purchases to include a call option rider that may be exercised after 7 years. These mortgages are generally written as long-term obligations, but contain a demand feature that may be exercised only within a 30-day period at 7 years. The disclosures for these transactions should be based upon the legally agreed-upon maturity date. Thus, if a mortgage containing the 7-year FNMA call option is written as a 20-year obligation, the disclosures should be based on the 20-year term, with the demand feature disclosed under §226.18(i).

4. Balloon mortgages. Balloon payment mortgages, with payments based on a long-term amortization schedule and a large final payment due after a shorter term, are not demand obligations unless a demand feature is specifically contained in the contract. For example, a mortgage with a term of 5 years and a payment schedule based on 20 years would not be treated as a mortgage with a demand feature, in the absence of any contractual demand provisions. In this type of mortgage, disclosures should be based on the 5-year term.

Paragraph 17(c)(6).
1. Series of advances. Section 226.17(c)(6)(i) deals with a series of advances under an agreement to extend credit up to a certain amount. A creditor may treat all of the advances as a single transaction or disclose each advance as a separate transaction. If these advances are treated as 1 transaction and the timing and amounts of advances are unknown, creditors must make disclosures based on estimates, as provided in §226.17(c)(2). If the advances are disclosed separately, disclosures must be provided before each advance occurs, with the disclosures for the first advance provided by consummation.

2. Construction loans. Section 226.17(c)(6)(ii) provides a flexible rule for disclosure of construction loans that may be permanently financed. These transactions have 2 distinct phases, similar to 2 separate transactions. The construction loan may be for initial construction or subsequent construction, such as rehabilitation or remodelling. The construction period usually involves several disbursements of funds at times and in amounts that are unknown at the beginning of that period, with the consumer paying only accrued interest until construction is completed. Unless the obligation is paid at that time, the loan then converts to permanent financing in which the loan amount is amortised just as in a standard mortgage transaction. Section 226.17(c)(6)(ii) permits the creditor to give either one combined disclosure for both the construction financing and the permanent financing, or a separate set of disclosures for the 2 phases. This rule is available whether the consumer is initially obligated to accept construction financing only or is obligated to accept both construction and permanent financing from the outset. If the consumer is obligated on both phases and the creditor chooses to give 2 sets of disclosures, both sets must be given to the consumer initially, because both transactions would be consummated at that time. (Appendix D provides a method of calculating the annual percentage rate and other disclosures for construction loans, which may be used, at the creditor’s option, in disclosing construction financing.)

3. Multiple-advance construction loans. Section 226.17(c)(6)(i) and (ii) are not mutually exclusive. For example, in a transaction that finances the construction of a dwelling that may be permanently financed by the same creditor, the construction phase may consist of a series of advances under an agreement to extend credit up to a certain amount. In these cases, the creditor may disclose the construction phase as either 1 or more than 1 transaction and also disclose the permanent financing as a separate transaction.

4. Residential mortgage transactions. See the commentary to §226.2(a)(24) for a discussion of the effect of §226.17(c)(6) on the definition of a residential mortgage transaction.

5. Allocation of points. When a creditor utilizes the special rule in §226.17(c)(6) to disclose credit extensions as multiple transactions, buyers points or similar amounts imposed on the consumer must be allocated for purposes of calculating disclosures. While such amounts should not be taken into account more than once in making calculations, they may be allocated between the transactions in any manner the creditor chooses. For example, if a construction-permanent loan is subject to 5 points imposed on the consumer and the creditor chooses to disclose the 2 phases separately, the 5 points may be allocated entirely to the construction loan, entirely to the permanent loan, or divided in any manner between the two. However, the entire 5 points may not be applied twice, that is, to both the construction and the permanent phases.

17(d) Multiple creditors; multiple consumers.

1. Multiple creditors. If a credit transaction involves more than one creditor:

- The creditors must choose which of them will make the disclosures.
- A single, complete set of disclosures must be provided, rather than partial disclosures from several creditors.
- All disclosures for the transaction must be given, even if the disclosing creditor would not otherwise have been obligated to make a particular disclosure. For example, if one of the creditors is the seller, the total sale price disclosure under §226.18(j) must be made, even though the disclosing creditor is not the seller.

2. Multiple consumers. When two consumers are joint obligors with primary liability on an obligation, the disclosures may be given to either one of them. If one consumer is merely a surety or guarantor, the disclosures must be given to the principal debtor. In rescindable transactions, however, separate disclosures must be given to each consumer who has the right to rescind under §226.23, although the disclosures required under §226.19(b) need only be provided to the consumer who expresses an interest in a variable-rate loan program.

17(e) Effect of subsequent events.

1. Events causing inaccuracies. Inaccuracies in disclosures are not violations if attributable to events occurring after the disclosures are made. For example, when the consumer fails to fulfill a prior commitment to keep the collateral insured and the creditor then provides the coverage and charges the consumer for it, such a change does not make the original disclosures inaccurate. The creditor may, however, be required to make new disclosures under §226.17(f) or §226.19 if the events occurred between disclosure and consummation or under §226.20 if the events occurred after consummation.

17(f) Early disclosures.
Federal Reserve System

Pt. 226, Supp. I, NI.

1. Change in rate or other terms. Redisclosure is required for changes that occur between the time disclosures are made and consummation if the annual percentage rate in the transaction exceeds the limits prescribed in this section, even if the initial disclosures would be considered accurate under the tolerances in §226.18(d) or 226.22(a). To illustrate:

i. General. A. If disclosures are made in a regular transaction on July 1, the transaction is consummated on July 15, and the actual annual percentage rate varies by more than 1/8 of 1 percentage point from the disclosed annual percentage rate, the creditor must either redisclose the changed terms or furnish a complete set of new disclosures before consummation. Redisclosure is required even if the disclosures made on July 1 are based on estimates and marked as such.

B. In a regular transaction, if early disclosures are marked as estimates and the disclosed annual percentage rate is within 1/8 of 1 percentage point of the rate at consummation, the creditor need not redisclose the changed terms (including the annual percentage rate).

ii. Nonmortgage loan. If disclosures are made on July 1, the transaction is consummated on July 15, and the finance charge increased by $35 but the disclosed annual percentage rate is within 1/8 of 1 percentage point of the rate at consummation, the creditor must at least redisclose the changed terms that were not marked as estimates. (See §226.18(d)(2) of this part.)

iii. Mortgage loan. At the time TILA disclosures are prepared in July, the loan closing is scheduled for July 31 and the creditor does not plan to collect per-diem interest at consummation. Consumption actually occurs on August 5, and per-diem interest for the remainder of August is collected as a prepaid finance charge. Assuming there were no other changes requiring redisclosure, the creditor may rely on the disclosures prepared in July that were accurate when they were prepared. However, if the creditor prepares new disclosures in August that will be provided at consummation, the new disclosures must take into account the amount of the per-diem interest known to the creditor at that time.

2. Variable rate. The addition of a variable rate feature to the credit terms, after early disclosures are given, requires new disclosures.

3. Content of new disclosures. If redisclosure is required, the creditor has the option of either providing a complete set of new disclosures, or providing disclosures of only the terms that vary from those originally disclosed. (See the commentary to §226.19(a)(2).)

4. Special rules. In residential mortgage transactions subject to §226.19, the creditor must redisclose if, between the delivery of the required early disclosures and consummation, the annual percentage rate changes by more than a stated tolerance. When subsequent events occur after consummation, new disclosures are required only if there is a refinancing or an assumption within the meaning of §226.20.

Paragraph 17(f)(c).

1. Irregular transactions. For purposes of this paragraph, a transaction is deemed to be “irregular” according to the definition in footnote 46 of §226.22(a)(3).

17(g) Mail or telephone orders—delay in disclosures.

1. Conditions for use. When the creditor receives a mail or telephone request for credit, the creditor may delay making the disclosures until the first payment is due if the following conditions are met:

• The credit request is initiated without face-to-face or direct telephone solicitation. (Creditors may, however, use the special rule when credit requests are solicited by mail.)

• The creditor has supplied the specified credit information about its credit terms either to the individual consumer or to the public generally. That information may be distributed through advertisements, catalogs, brochures, special mailers, or similar means.

2. Insurance. The location requirements for the insurance disclosures under §226.18(n) permit them to appear apart from the other disclosures. Therefore, a creditor may mail an insurance authorization to the consumer and then prepare the other disclosures to reflect whether or not the authorization is completed by the consumer. Creditors may also disclose the insurance cost on a unit-cost basis, if the transaction meets the requirements of §226.17(g).

17(h) Series of sales—delay in disclosures.

1. Applicability. The creditor may delay the disclosures for individual credit sales in a series of such sales until the first payment is due on the current sale, assuming the 2 conditions in this paragraph are met. If those conditions are not met, the general timing rules in §226.17(b) apply.

2. Basis of disclosures. Creditors structuring disclosures for a series of sales under §226.17(h) may compute the total sale price as either:

• The cash price for the sale plus that portion of the finance charge and other charges applicable to that sale; or
• The cash price for the sale, other charges applicable to the sale, and the total finance charge and outstanding principal.

17(i) Interim student credit extensions.

1. Definition. Student credit plans involve extensions of credit for education purposes where the repayment amount and schedule are not known at the time credit is advanced. These plans include loans made
under any student credit plan, whether government or private, where the repayment period does not begin immediately. (Certain student credit plans that meet this definition are exempt from Regulation Z. See §226.3(f).) Creditors in intermediate student credit extensions need not disclose the terms set forth in this paragraph at the time the credit is actually extended but must make complete disclosures at the time the creditor and consumer agree upon the repayment schedule for the consolidation. At that time, a new set of disclosures must be made of all applicable items under §226.18.

2. Basis of disclosures. The disclosures given at the time of execution of the interim note shall reflect two annual percentage rates, one for the interim period and one for the repayment period. The use of §226.17(i) in making disclosures does not, by itself, make those disclosures estimates. Any portion of the finance charge, such as statutory interest, that is attributable to the interim period and is paid by the student (either as a prepaid finance charge, periodically during the interim period, in one payment at the end of the interim period, or capitalized at the beginning of the repayment period) must be reflected in the interim annual percentage rate. Interest subsidies, such as payments made by either a state or the Federal government on an interim loan, must be excluded in computing the annual percentage rate on the interim obligation, when the consumer has no contingent liability for payment of those amounts. Any finance charges that are paid separately by the student at the outset or withheld from the proceeds of the loan are prepaid finance charges. An example of this type of charge is the loan guarantee fee. The sum of the prepaid finance charges is deducted from the loan proceeds and is not added to the new amount financed. In itemizing the amount financed under §226.18(c), the creditor may combine the principal balances remaining on the interim extensions at the time of consolidation and categorize them as the amount paid on the consumer’s account.

3. Consolidation. Consolidation of the intermediate student credit extensions through a renewal note with a set repayment schedule is treated as a new transaction with disclosures made as they would be for a refinancing. Any unearned portion of the finance charge must be reflected in the new finance charge and annual percentage rate, and is not added to the new amount financed. In itemizing the amount financed under §226.18(c), the creditor may combine the principal balances remaining on the interim extensions at the time of consolidation and categorize them as the amount paid on the consumer’s account.

4. Approved student credit forms. See the commentary to appendix H regarding disclosure forms for use in making these disclosures, as well as acceptable modifications.

References

Other sections: Section 226.2 and appendix H.

Previous regulation: Sections 226.6 and 226.8.

1981 changes: With few exceptions, the disclosures must now appear apart from all other information, and may not be interspersed with that information. The disclosures must be based on the legal obligation between the parties, rather than any side agreement.

The assumed maturity period for demand loans has been increased from 6 months to 1 year. Any alternate maturity date must be stated in the legal obligation, and must be reflected in the interim annual percentage rate. Interest subsidies, such as payments made by either a state or the Federal government on an interim loan, must be excluded in computing the annual percentage rate on the interim obligation, when the consumer has no contingent liability for payment of those amounts. Any finance charges that are paid separately by the student at the outset or withheld from the proceeds of the loan are prepaid finance charges. An example of this type of charge is the loan guarantee fee. The sum of the prepaid finance charges is deducted from the loan proceeds and is not added to the new amount financed. In itemizing the amount financed under §226.18(c), the creditor may combine the principal balances remaining on the interim extensions at the time of consolidation and categorize them as the amount paid on the consumer’s account.

Section 226.18—Content of Disclosures

1. As applicable. The disclosures required by this section need be made only as applicable. Any disclosure not relevant to a particular transaction may be eliminated entirely. For example:

- In a loan transaction, the creditor may delete disclosure of the total sale price.
- In a credit sale requiring disclosure of the total sale price under §226.18(j), the creditor may delete any reference to a downpayment where no downpayment is involved.

Where the amounts of several numerical disclosures are the same, the “as applicable” language also permits creditors to combine the terms, so long as it is done in a clear and conspicuous manner. For example:

- In a transaction in which the amount financed equals the total of payments, the creditor may disclose “amount financed equals the total of payments,” together with descriptive language, followed by a single amount, inferred from the documents, in order to form a basis for disclosures.

In multiple-advance transactions, a series of advances up to a certain amount and construction loans that may be permanently financed may be disclosed, at the creditor’s option, as either a single transaction or several transactions. Appendix D is applicable only to multiple advances for the construction of a dwelling, whereas its predecessor, Interpretation §226.813, could be used for all multiple-advance transactions.

If disclosures are made before the date of consummation, the creditor need not provide updated disclosures at consummation unless the annual percentage rate has changed beyond certain limits or a variable rate feature has been added.

Federal Reserve System

Pt. 226, Supp. I, NI.

18(a) Creditor.
1. Identification of creditor. The creditor making the disclosures must be identified. This disclosure may, at the creditor's option, appear apart from the other disclosures. Use of the creditor's name is sufficient, but the creditor may also include an address and/or telephone number. In transactions with multiple creditors, any one of them may make the disclosures; the one doing so must be identified.

18(b) Amount financed.
1. Disclosure required. The net amount of credit extended must be disclosed using the term amount financed and a descriptive explanation similar to the phrase in the regulation.

2. Rebates and loan premiums. In a loan transaction, the creditor may offer a premium in the form of cash or merchandise to prospective borrowers. On a cash sale transaction, a seller's or manufacturer's rebate may be offered to prospective purchasers of the creditor's goods or services. At the creditor's option, these amounts may be either reflected in the Truth in Lending disclosures or disregarded in the disclosures. If the creditor chooses to reflect them in the §226.18 disclosures, rather than disregard them, they may be taken into account in any manner as part of those disclosures.

Paragraph 18(b)(1).

1. Downpayments. A downpayment is defined in §226.2(a)(18) to include, at the creditor's option, certain deferred downpayments or pick-up payments. A deferred downpayment that meets the criteria set forth in the definition may be treated as part of the downpayment, at the creditor's option. 

- Deferred downpayments that are not treated as part of the downpayment (either because they do not meet the definition or because the creditor simply chooses not to treat them as downpayments) are included in the amount financed.

- Deferred downpayments that are treated as part of the downpayment are not part of the amount financed under §226.18(b)(1).

Paragraph 18(b)(2).

1. Adding other amounts. Fees or other charges that are not part of the finance charge and that are financed rather than paid separately at consummation of the transaction are included in the amount financed. Typical examples are real estate settlement charges and premiums for voluntary credit life and disability insurance excluded from the finance charge under §226.4. This paragraph does not include any amounts already accounted for under §226.18(b)(1), such as taxes, tag and title fees, or the costs of accessories or service policies that the creditor includes in the cash price.

Paragraph 18(b)(3).

1. Prepaid finance charges. Prepaid finance charges that are paid separately in cash or by check should be deducted under §226.18(b)(3) in calculating the amount financed. To illustrate:

- A consumer applies for a loan of $2,500 with a $40 loan fee. The face amount of the note is $2,500 and the consumer pays the loan fee separately by cash or check at closing. The principal loan amount for purposes of §226.18(b)(1) is $2,500 and $40 should be deducted under §226.18(b)(3), thereby yielding an amount financed of $2,460.

In some instances, as when loan fees are financed by the creditor, finance charges are incorporated in the face amount of the note. Creditors have the option, when the charges are not add-on or discount charges, of determining a principal loan amount under §226.18(b)(1) that either includes or does not include the amount of the finance charges. (Thus the principal loan amount may, but need not, be determined to equal the face amount of the note.) When the finance charges are included in the principal loan amount, they should be deducted as prepaid finance charges under §226.18(b)(3). When the finance charges are not included in the principal loan amount, they should not be deducted under §226.18(b)(3). The following examples illustrate the application of §226.18(b) to this type of transaction. Each example assumes a loan request of $2,500 with a loan fee of $40; the creditor assesses the loan fee by increasing the face amount of the note to $2,540.

- If the creditor determines the principal loan amount under §226.18(b)(1) to be $2,540, it has included the loan fee in the principal loan amount and should deduct $40 as a prepaid finance charge under §226.18(b)(3), thereby obtaining an amount financed of $2,500.

- If the creditor determines the principal loan amount under §226.18(b)(1) to be $2,500, it has not included the loan fee in the principal loan amount and should not deduct any amount under §226.18(b)(3), thereby obtaining an amount financed of $2,500.

The same rules apply when the creditor does not increase the face amount of the note by the amount of the charge but collects the charge by withholding it from the amount advanced to the consumer. To illustrate, the following examples assume a loan request of $2,500 with a loan fee of $40; the creditor prepares a note for $2,500 and advances $2,460 to the consumer.

- If the creditor determines the principal loan amount under §226.18(b)(1) to be $2,500, it has included the loan fee in the principal loan amount and should deduct $40 as a prepaid finance charge under §226.18(b)(3), thereby obtaining an amount financed of $2,460.

- If the creditor determines the principal loan amount under §226.18(b)(1) to be $2,460, it has not included the loan fee in the principal loan amount and should not deduct any amount under §226.18(b)(3), thereby obtaining an amount financed of $2,460.
Thus in the examples where the creditor derives the net amount of credit by determining a principal loan amount that does not include the amount of the finance charge, no subtraction is appropriate. Creditors should note, however, that although the charges are not subtracted as prepaid finance charges in those examples, they are nonetheless finance charges and must be treated as such.

2. Add-on or discount charges. All finance charges must be deducted from the amount of credit in calculating the amount financed. If the principal loan amount reflects finance charges that meet the definition of a prepaid finance charge in §226.2, those charges are included in the §226.18(b)(1) amount and deducted under §226.18(b)(3). However, if the principal loan amount includes finance charges that do not meet the definition of a prepaid finance charge, the §226.18(b)(1) amount must exclude those finance charges.

The following examples illustrate the application of §226.18(b) to these types of transactions. Each example assumes a loan request of $1000 for 1 year, subject to a 6 percent precomputed interest rate, with a $10 loan fee paid separately at consummation.

• The creditor assesses add-on interest of $60 which is added to the $1000 in loan proceeds for an obligation with a face amount of $1060. The principal for purposes of §226.18(b)(1) is $1000, no amounts are added under §226.18(b)(2), and the $10 loan fee is a prepaid finance charge to be deducted under §226.18(b)(3). The amount financed is $990.

• The creditor assesses discount interest of $60 and distributes $940 to the consumer, who is liable for an obligation with a face amount of $940, which results in an amount financed of $950, after deduction of the $10 prepaid finance charge under §226.18(b)(3). The amount financed is $990.

• The creditor assesses discount interest of $60 and distributes $940 to the consumer, who is liable for an obligation with a face amount of $1000. The principal under §226.18(b)(1) is $1000 and the amount financed is $990, after deducting the $10 prepaid finance charge under §226.18(b)(3).

18(c) Itemization of amount financed.

1. Disclosure required. The creditor has 2 alternatives in complying with §226.18(c):

• The creditor may inform the consumer, on the segregated disclosures, that a written itemization of the amount financed will be provided on request, furnishing the itemization only if the customer in fact requests it.

• The creditor may provide an itemization as a matter of course, without notifying the consumer of the right to receive it or waiting for a request.

Whether given as a matter of course or only on request, the itemization must be provided at the same time as the other disclosures required by §226.18, although separate from those disclosures.

2. Additional information. Section 226.18(c) establishes only a minimum standard for the material to be included in the itemization of the amount financed. Creditors have considerable flexibility in revising or supplementing the information listed in §226.18(c) and shown in model form H–3, although no changes are required. The creditor may, for example, do one or more of the following:

i. Include amounts that reflect payments not part of the amount financed. For example, escrow items and certain insurance premiums may be included, as discussed in the commentary to §226.18(g).

ii. Organize the categories in any order. For example, the creditor may rearrange the terms in a mathematical progression that depicts the arithmetic relationship of the terms.

iii. Add categories. For example, in a credit sale, the creditor may include the cash price and the downpayment. If the credit sale involves a trade-in of the consumer’s car and an existing lien on that car exceeds the value of the trade-in amount, the creditor may disclose the consumer’s trade-in value, the creditor’s payoff of the existing lien, and the resulting additional amount financed.

iv. Further itemize each category. For example, the amount paid directly to the consumer may be subdivided into the amount given by check and the amount credited to the consumer’s savings account.

v. Label categories with different language from that shown in §226.18(c). For example, an amount paid on the consumer’s account may be revised to specifically identify the account as “your auto loan with us.”

vi. Delete, leave blank, mark “N/A” or otherwise not inapplicable categories in the itemization. For example, in a credit sale with no prepaid finance charges or amounts paid to others, the amount financed may consist of only the cash price less downpayment. In this case, the itemization may be composed of only a single category and all other categories may be eliminated.

3. Amounts appropriate to more than one category. When an amount may appropriately be placed in any of several categories and the creditor does not wish to revise the categories shown in §226.18(c), the creditor has considerable flexibility in determining where to show the amount. For example:

• In a credit sale, the portion of the purchase price being financed by the creditor may be viewed as either an amount paid to the consumer or an amount paid on the consumer’s account.

4. RESPA transactions. The Real Estate Settlement Procedures Act (RESPA) requires creditors to provide a good faith estimate of closing costs and a settlement statement.
listing the amounts paid by the consumer. Transactions subject to RESPA are exempt from the requirements of §226.18(c) if the creditor complies with RESPA’s requirement that the amount financed be shown on the disclosures only as a total amount; the elements of the finance charge that is payable in the same amount in comparable cash and credit transactions. In the credit transaction, the amount is retained by the creditor. Given the flexibility permitted in meeting the requirements of the amount financed itemization (see the commentary to §226.18(c)), the creditor in such cases may reflect that the creditor has retained a portion of the amount paid to others. For example, the creditor could add to the category “amount paid to others” language such as “(we may be retaining a portion of this amount).”

Paragraph 18(c)(1)(iv).

1. Prepaid finance charge. Prepaid finance charges that are deducted under §226.18(b)(3) must be disclosed under this section. The prepaid finance charges must be shown as a total amount but may, at the creditor’s option, also be further itemized and described. All amounts must be reflected in this total, even if portions of the prepaid finance charge are also reflected elsewhere. For example, if at consummation the creditor collects interest on $30 and a credit report fee of $10, a total prepaid finance charge of $40 must be shown. At the creditor’s option, the credit report fee paid to a third party may also be shown elsewhere as an amount included in §226.18(c)(iv)]. The creditor may also further describe the 2 components of the prepaid finance charge, although no itemization of this element is required by §226.18(c)(1)(iv).

2. Prepaid mortgage insurance premiums. RESPA requires creditors to give consumers a settlement statement disclosing the costs associated with mortgage loan transactions. Included on the settlement statement are mortgage insurance premiums collected at settlement, which are prepaid finance charges. In calculating the total amount of prepaid finance charges, creditors should use the amount for mortgage insurance listed on the line for mortgage insurance on the settlement statement (line 1002 on HUD–1 or HUD 1–A), without adjustment, even if the actual amount collected at settlement may vary because of RESPA’s escrow accounting rules. Figures for mortgage insurance disclosed in conformity with RESPA shall be deemed to be accurate for purposes of Regulation Z.

16(d) Finance charge.

1. Disclosure required. The creditor must disclose the finance charge as a dollar amount, using the term finance charge, and must include a brief description similar to that in §226.18(d). The creditor may, but need not, further modify the descriptor for variable rate transactions with a phrase such as which is subject to change. The finance charge must be shown on the disclosures only as a total amount, the elements of the finance charge being broken out and labeled in a table.
charge must not be itemized in the segregated disclosures, although the regulation does not prohibit their itemization elsewhere.

2. [Reserved]

18(d)(2) Other credit.

1. Tolerance. When a finance charge error results in a misstatement of the amount financed, or some other dollar amount for which the regulation provides no specific tolerance, the misstated disclosure does not violate the act or the regulation if the finance charge error is within the permissible tolerance under this paragraph.

18(c) Annual percentage rate.

1. Disclosure required. The creditor must disclose the cost of the credit as an annual rate, using the term annual percentage rate, plus a brief descriptive phrase comparable to that used in §226.18(e). For variable rate transactions, the descriptor may be further modified with a phrase such as which is subject to change. Under §226.17(a), the terms annual percentage rate and finance charge must be more conspicuous than the other required disclosures.

2. Exception. Footnote 42 provides an exception for certain transactions in which no annual percentage rate disclosure is required.

18(f) Variable rate.

1. Coverage. The requirements of §226.18(f) apply to all transactions in which the terms of the legal obligation allow the creditor to increase the rate originally disclosed to the consumer. It includes not only increases in the interest rate but also increases in other components, such as the rate of required credit life insurance. The provisions, however, do not apply to increases resulting from delinquency (including late payment), default, assumption, acceleration or transfer of the collateral. Section 226.18(f)(1) applies to variable-rate transactions that are not secured by the consumer's principal dwelling and to those that are secured by the principal dwelling but have a term of one year or less. Section 226.18(f)(2) applies to variable-rate transactions that are secured by the consumer's principal dwelling and have a term greater than one year. Moreover, transactions subject to §226.18(f)(2) are subject to the special early disclosure requirements of §226.19(b). (However, "shared-equity" or "shared-appreciation" mortgages are subject to the disclosure requirements of §226.18(f)(1) and not to the requirements of §§226.18(f)(2) and 226.19(b) regardless of the general coverage of those sections.) Creditors are permitted under footnote 43 to substitute in any variable-rate transaction the disclosures required under §226.19(b) for those disclosures ordinarily required under 226.18(f)(1). Creditors who provide variable-rate disclosures under §226.19(b) must comply with all of the requirements of that section, including the timing of disclosures, and must also provide the disclosures required under §226.18(f)(2).

Creditor utilizing footnote 43 may, but need not, also provide disclosures pursuant to §226.20(c). (Substitution of disclosures under §226.18(f)(1) in transactions subject to §226.19(b) is not permitted under the footnote.)

Paragraph 18(f)(1).

1. Terms used in disclosure. In describing the variable rate feature, the creditor need not use any prescribed terminology. For example, limitations and hypothetical examples may be described in terms of interest rates rather than annual percentage rates. The model forms in appendix H provide examples of ways in which the variable rate disclosures may be made.

2. Conversion feature. In variable-rate transactions with an option permitting consumers to convert to a fixed-rate transaction, the conversion option is a variable-rate feature that must be disclosed. In making disclosures under §226.18(f)(1), creditors should disclose the fact that the rate may increase upon conversion; identify the index or formula used to set the fixed rate; and state any limitations on and effects of an increase resulting from conversion that differ from other variable-rate features. Because §226.18(f)(1)(iv) requires only one hypothetical example (such as an example of the effect on payments resulting from changes in the index), a second hypothetical example need not be given.

Paragraph 18(f)(1)(i).

1. Circumstances. The circumstances under which the rate may increase include identification of any index to which the rate is tied, as well as any conditions or events on which the increase is contingent.

• When no specific index is used, any identifiable factors used to determine whether to increase the rate must be disclosed.

• When the increase in the rate is purely discretionary, the fact that any increase is within the creditor’s discretion must be disclosed.

• When the index is internally defined (for example, by that creditor’s prime rate), the creditor may comply with this requirement by either a brief description of that index or a statement that any increase is in the discretion of the creditor. An externally defined index, however, must be identified.

Paragraph 18(f)(1)(ii).

1. Limitations. This includes any maximum imposed on the amount of an increase in the rate at any time, as well as any maximum on the total increase over the life of the transaction. When there are no limitations, the creditor may, but need not, disclose that fact. Limitations do not include legal limits in the nature of usury or rate ceilings under state or federal statutes or regulations. (See §226.30 for the rule requiring that a maximum interest rate be included in certain variable-rate transactions.)
Federal Reserve System

Paragraph 18(f)(1)(iii).

1. Effects. Disclosure of the effect of an increase refers to an increase in the number or amount of payments or an increase in the final payment. In addition, the creditor may make a brief reference to negative amortization that may result from a rate increase. (See the commentary to §226.17(a)(1) regarding directly related information.) If the effect cannot be determined, the creditor must provide a statement of the possible effects. For example, if the exercise of the variable-rate feature may result in either more or larger payments, both possibilities must be noted.

Paragraph 18(f)(1)(iv).

1. Hypothetical example. The example may, at the creditor’s option appear apart from the other disclosures. The creditor may provide either a standard example that illustrates the terms and conditions of that type of credit offered by that creditor or an example that directly reflects the terms and conditions of the particular transaction. In transactions with more than one variable-rate feature, only one hypothetical example need be provided. (See the commentary to section 226.17(a)(1) regarding disclosure of more than one hypothetical example as directly related information.)

2. Hypothetical example not required. The creditor need not provide a hypothetical example in the following transactions with a variable-rate feature:

• Demand obligations with no alternate maturity date.
• Interim student credit extensions.
• Multiple-advance construction loans disclosed pursuant to appendix D, Part I.

Paragraph 18(f)(2).

1. Disclosure required. In variable-rate transactions that have a term greater than one year and are secured by the consumer’s principal dwelling, the creditor must give special early disclosures under §226.19(b) in addition to the later disclosures required under §226.18(f)(2). The disclosures under §226.18(f)(2) must state that the transaction has a variable-rate feature and that variable-rate disclosures have been provided earlier. (See the commentary to §226.17(a)(1) regarding the disclosure of certain directly related information in addition to the variable-rate disclosures required under §226.18(f)(2).)

18(g) Payment schedule.

1. Amounts included in repayment schedule. The repayment schedule should reflect all components of the finance charge, not merely the portion attributable to interest. A prepaid finance charge, however, should not be shown in the repayment schedule as a separate payment. The payments may include amounts beyond the amount financed and finance charge. For example, the disclosed payments may, at the creditor’s option, reflect certain insurance premiums where the premiums are not part of either the amount financed or the finance charge, as well as real estate escrow amounts such as taxes added to the payment in mortgage transactions.

2. Deferred downpayments. As discussed in the commentary to §226.2(a)(18), deferred downpayments or pick-up payments that meet the conditions set forth in the commentary of downpayment may be treated as part of the downpayment. Even if treated as a downpayment, that amount may nevertheless be disclosed as part of the payment schedule, at the creditor’s option.

3. Total number of payments. In disclosing the number of payments for transactions with more than one payment level, creditors may but need not disclose as a single figure the total number of payments for all levels. For example, in a transaction calling for 108 payments of $350, 240 payments of $355, and 12 payments of $330, the creditor need not state that there will be a total of 360 payments.

4. Timing of payments. i. General rule. Section 226.18(g) requires creditors to disclose the timing of payments. To meet this requirement, creditors may list all of the payment due dates. They also have the option of specifying the “period of payments” scheduled to repay the obligation. As a general rule, creditors that choose this option must disclose the payment intervals or frequency, such as “monthly” or “bi-weekly,” and the calendar date that the beginning payment is due. For example, a creditor may disclose that payments are due “monthly beginning on July 1, 1998.” This information, when combined with the number of payments, is necessary to define the repayment period and enable a consumer to determine all of the payment due dates.

ii. Exception. In a limited number of circumstances, the beginning-payment date is unknown and difficult to determine at the time disclosures are made. For example, a consumer may become obligated on a credit contract that contemplates the delayed disbursement of funds based on a contingent event, such as the completion of home repairs. Disclosures may also accompany loan checks that are sent by mail, in which case the initial disbursement and repayment dates are solely within the consumer’s control. In such cases, if the beginning-payment date is unknown the creditor may use an estimated date and label the disclosure as an estimate pursuant to §226.17(c). Alternatively, the disclosure may refer to the occurrence of a particular event, for example, by disclosing that the beginning payment is due “30 days after the first loan disbursement.” This information also may be included with an estimated date to explain the basis for the creditor’s estimate. See Comment 17(a)(1)-5(iii).

5. Mortgage insurance. The payment schedule should reflect the consumer’s mortgage...
insurance payments until the date on which the creditor must automatically terminate coverage under applicable law, even though the consumer may have a right to request the cancellation earlier. The payment schedule must reflect the legal obligation, as determined by applicable state or other law. For example, assume that under applicable law, mortgage insurance must terminate after the 130th scheduled monthly payment, and the creditor collects at closing and places in escrow two months of premiums. If, under the legal obligation, the creditor will include mortgage insurance premiums in 130 payments and refund the escrowed payments when the insurance is terminated, the payment schedule should reflect 130 premium payments. If, under the legal obligation, the creditor will apply the amount escrowed to the two final insurance payments, the payment schedule should reflect 128 monthly premium payments. (For assumptions in calculating a payment schedule that includes mortgage insurance that must be automatically terminated, see comments 17(c)(1)-8 and 17(c)(1)-10.)

Paragraph 18(g)(1).

1. Demand obligations. In demand obligations with no alternate maturity date, the creditor has the option of disclosing only the due dates or periods of scheduled interest payments in the first year (for example, “interest payable quarterly” or “interest due the first of each month”). The amounts of the interest payments need not be shown.

Paragraph 18(g)(2).

1. Abbreviated disclosure. The creditor may disclose an abbreviated payment schedule when the amount of each regularly scheduled payment (other than the first or last payment) includes an equal amount to be applied on principal and a finance charge computed by application of a rate to the decreasing unpaid balance. This option is also available when mortgage-guarantee insurance premiums, paid either monthly or annually, cause variations in the amount of the scheduled payments, reflecting the continual decrease or increase in the premium due. In addition, in transactions where payments vary because interest and principal are paid at different intervals, the two series of payments may be disclosed separately and the abbreviated payment schedule may be used for the interest payments. For example, in transactions with fixed quarterly principal payments and monthly interest payments based on the outstanding principal balance, the amount of the interest payments will change quarterly as principal declines. In such cases the creditor may treat the interest and principal payments as two separate series of payments, separately disclosing the number, amount, and due dates of principal payments, and, using the abbreviated payment schedule, the number, amount, and due dates of interest payments. This option may be used when interest and principal are scheduled to be paid on the same date of the month as well as on different dates of the month. The creditor using this alternative must disclose the dollar amount of the highest and lowest payments and make reference to the variation in payments.

2. Combined payment schedule disclosures. Creditors may combine the option in this paragraph with the general payment schedule requirements in transactions where only a portion of the payment schedule meets the conditions of §226.18(g)(2). For example, in a graduated payment mortgage where payments rise sharply for 5 years and then decline over the next 25 years because of decreasing mortgage insurance premiums, the first 5 years would be disclosed under the general rule in §226.18(g) and the next 25 years according to the abbreviated schedule in §226.18(g)(2).

3. Effect on other disclosures. Section 226.18(g)(2) applies only to the payment schedule disclosure. The actual amounts of payments must be taken into account in calculating and disclosing the finance charge and the annual percentage rate.

Paragraph 18(h) Total of payments.

1. Disclosure required. The total of payments must be disclosed using that term, along with a descriptive phrase similar to the one in the regulation. The descriptive explanation may be revised to reflect a variable rate feature with a brief phrase such as “based on the current annual percentage rate which may change.”

2. Calculation of total of payments. The total of payments is the sum of the payments disclosed under §226.18(g). For example, if the creditor disclosed a deferred portion of the downpayment as part of the payment schedule, that payment must be reflected in the total disclosed under this paragraph.

3. Exception. Footnote 44 permits creditors to omit disclosure of the total of payments in single-payment transactions. This exception does not apply to a transaction calling for a single payment of principal combined with periodic payments of interest.

4. Demand obligations. In demand obligations with no alternate maturity date, the creditor may omit disclosure of payment amounts under §226.18(g)(1). In those transactions, the creditor need not disclose the total of payments.

Paragraph 18(i) Demand feature.

1. Disclosure requirements. The disclosure requirements of this provision apply not only to transactions payable on demand from the outset, but also to transactions that are not payable on demand at the time of consummation but convert to a demand status after a stated period. In demand obligations in which the disclosures are based on an assumed maturity of 1 year under §226.17(c)(5), that fact must also be stated. Appendix H
contains model clauses that may be used in making this disclosure.

2. Covered demand features. The type of demand feature triggering the disclosures required by § 226.18(j) includes only those demand features contemplated by the parties as part of the legal obligation. For example, this provision does not apply to transactions that are a result of the consumer’s default. A due-on-sale clause is not considered a demand feature. A creditor may, but need not, treat its contractual right to demand payment of a loan made to its executive officers as a demand feature to the extent that the contractual right is required by Regulation O (12 CFR 215.5) or other federal law.

3. Relationship to payment schedule disclosures. As provided in § 226.18(g)(1), in demand obligations with no alternate maturity date, the creditor need only disclose the due dates or payment periods of any scheduled interest payments for the first year. If the demand obligation states an alternate maturity, however, the disclosed payment schedule must reflect that stated term; the special rule in §226.18(g)(1) is not available.

Paragraph 18(j) Total sale price.

1. Disclosure required. In a credit sale transaction, the total sale price must be disclosed using that term, along with a descriptive explanation similar to the one in the regulation. For variable rate transactions, the descriptive phrase may, at the creditor’s option, be modified to reflect the variable rate feature. For example, the descriptor may read: “The total cost of your purchase on credit, which is subject to change, including your downpayment of * * *.” The reference to a downpayment may be eliminated in transactions calling for no downpayment.

2. Calculation of total sale price. The figure to be disclosed is the sum of the cash price, other charges added under §226.18(b)(2), and the finance charge disclosed under §226.18(d).

3. Effect of existing liens. When a credit sale transaction involves property that is being used as a trade-in (an automobile, for example) and that has a lien exceeding the value of the trade-in, the total sale price is affected by the amount of any cash provided. (See comment 2(a)(18)-3.) To illustrate, assume a consumer finances the purchase of an automobile with a cash price of $20,000. Another vehicle used as a trade-in has a value of $8,000 but has an existing lien of $10,000, leaving a $2,000 deficit that the consumer must finance.

1. If the consumer pays $1,500 in cash, the creditor may apply the cash first to the lien, leaving a $500 deficit, and reflect a downpayment of $0. The total sale price would include the sum of the $20,000 cash price, the $2,000 lien payoff amount as an additional amount financed, and the amount of the finance charge.

ii. If the consumer pays $3,000 in cash, the creditor may apply the cash first to extinguish the lien and reflect the remainder as a downpayment of $1,000. The total sale price would reflect the $20,000 cash price and the amount of the finance charge. (The cash payment extinguishes the trade-in deficit and no charges are added under §226.18(b)(2). Alternatively, the creditor may elect to reflect a downpayment of $1,000 and finance the $2,000 deficit. In that case, the total sale price would include the sum of the $20,000 cash price, the $2,000 lien payoff amount as an additional amount financed, and the amount of the finance charge.

Paragraph 18(k) Prepayment.

1. Disclosure required. The creditor must give a definitive statement of whether or not a penalty will be imposed or a rebate will be given.

• The fact that no penalty will be imposed may not simply be inferred from the absence of a penalty disclosure; the creditor must indicate that prepayment will not result in a penalty.

• If a penalty or refund is possible for one type of prepayment, even though not for all, a positive disclosure is required. This applies to any type of prepayment, whether voluntary or involuntary as in the case of prepayments resulting from acceleration.

• Any difference in rebate or penalty policy, depending on whether prepayment is voluntary or not, must not be disclosed with the segregated disclosures.

2. Rebate-penalty disclosure. A single transaction may involve both a precomputed finance charge and a finance charge computed by application of a rate to the unpaid balance (for example, mortgages with mortgage-guarantee insurance). In these cases, disclosures about both prepayment rebates and penalties are required. Sample form H–15 in appendix H illustrates a mortgage transaction in which both rebate and penalty disclosures are necessary.

3. Prepaid finance charge. The existence of a prepaid finance charge in a transaction does not, by itself, require a disclosure under §226.18(k). A prepaid finance charge is not considered a penalty under §226.18(k)(1), nor does it require a disclosure under §226.18(k)(2). At its option, however, a creditor may consider a prepaid finance charge to be under §226.18(k)(2). If a disclosure is made under §226.18(k)(2) with respect to a prepaid finance charge or other finance charge, the creditor may further identify that finance charge. For example, the disclosure may state that the borrower “will not be entitled to a refund of the prepaid finance charge.”
Charges that take account of some but not all reductions in principal, as well as transactions in which the interest calculation takes account of all scheduled reductions in principal, as well as transactions in which interest calculations are made daily. The term "penalty" as used here encompasses only those charges that are assessed strictly because of the prepayment in full of a simple-interest obligation, as an addition to all other amounts. Items which are penalties include, for example:

- Interest charges for any period after prepayment in full is made. (See the commentary to §226.17(a)(1) regarding disclosure of interest charges assessed for periods after prepayment in full as directly related information.)
- A minimum finance charge in a simple-interest transaction. (See the commentary to §226.17(a)(1) regarding the disclosure of a minimum finance charge as directly related information.) Items which are not penalties include, for example:
  - Loan guarantee fees
  - Interim interest on a student loan

**Paragraph 18(b)(2).**

1. **Rebate of finance charge.** This applies to any finance charges that do not take account of each reduction in the principal balance of an obligation. This category includes, for example:

   - Precomputed finance charges such as add-on charges.
   - Charges that take account of some but not all reductions in principal, such as mortgage guarantee insurance assessed on the basis of an annual declining balance, when the principal is reduced on a monthly basis.

No description of the method of computing earned or unearned finance charges is required or permitted as part of the segregated disclosures under this section.

**Paragraph 18(l) Late payment.**

1. **Definition.** This paragraph requires a disclosure only if charges are added to individual delinquent installments by a creditor who otherwise considers the transaction ongoing on its original terms. Late payment charges do not include:

   - The right of acceleration.
   - Fees imposed for actual collection costs, such as repossession charges or attorney's fees.
   - Deferal and extension charges.
   - The continued accrual of simple interest at the contract rate after the payment due date. However, an increase in the interest rate is a late payment charge to the extent of the increase.

2. **Content of disclosure.** Many state laws authorize the calculation of late charges on the basis of either a percentage or a specified dollar amount, and permit imposition of the lesser or greater of the 2 charges. The disclosure made under §226.18(l) may reflect this alternative. For example, stating that the charge in the event of a late payment is 5% of the late amount, not to exceed $5.00, is sufficient. Many creditors also permit a grace period during which no late charge will be assessed; this fact may be disclosed. This disclosure is directly related information. (See the commentary to §226.17(a).)

**Paragraph 18(m) Security interest.**

1. **Purchase money transactions.** When the collateral is the item purchased as part of, or with the proceeds of, the credit transaction, section 226.18(m) requires only a general identification such as "the property purchased in this transaction." However, the creditor may identify the property by item or type instead of identifying it more generally with a phrase such as "the property purchased in this transaction." For example, a creditor may identify collateral as "a motor vehicle," or as "the property purchased in this transaction." Any transaction in which the credit is being used to purchase the collateral is considered a purchase money transaction and the abbreviated identification may be used, whether the obligation is treated as a loan or a credit sale.

2. **Nonpurchase money transactions.** In nonpurchase money transactions, the property subject to the security interest must be identified by item or type. This disclosure is satisfied by a general disclosure of the category of property subject to the security interest, such as "motor vehicles," "securities," "certain household items," or "household goods." (Creditors should be aware, however, that the Federal credit practices rules, as well as some state laws, prohibit certain security interests in household goods.) At the creditor’s option, however, a more precise identification of the property or goods may be provided.

3. **Mixed collateral.** In some transactions in which the credit is used to purchase collateral, the creditor may also take other property of the consumer as security. In those cases, a combined disclosure must be provided, consisting of an identification of the purchase money collateral consistent with comment 18(m)–1 and a specific identification of the other collateral consistent with comment 18(m)–2.

4. **After-acquired property.** An after-acquired property clause is not a security interest to be disclosed under §226.18(m).

5. **Spreader clause.** The fact that collateral for pre-existing credit with the institution is being used to secure the present obligation constitutes a security interest and must be disclosed. (Such security interests may be known as "spreader" or "dragnet" clauses, or as "cross-collateralization" clauses.) A specific identification of that collateral is unnecessary but a reminder of the interest.
arising from the prior indebtedness is required. The disclosure may be made by using language such as “collateral securing other loans with us may also secure this loan.” At the creditor’s option, use the term security interest, the creditor may designate its interest by using, for example, pledge, lien, or mortgage.

7. Collateral from third party. In certain transactions, the consumer’s obligation may be secured by collateral belonging to a third party. For example, a loan to a student may be secured by an interest in the property of the student’s parents. In such cases, the security interest is taken in connection with the transaction and must be disclosed, even though the property encumbered is owned by someone other than the consumer.

8. Insurance and debt cancellation.

1. Location. This disclosure may, at the creditor’s option, appear apart from the other disclosures. It may appear with any other information, including the amount financed itemization, any information prescribed by state law, or other supplementary material. When this information is disclosed with the other segregated disclosures, however, no additional explanatory material may be included.

2. Format. Creditors may use the model credit insurance disclosures only if the debt cancellation coverage constitutes insurance under state law. Otherwise, they may provide a parallel disclosure that refers to debt cancellation coverage.

Paragraph 18(o) Certain security interest charges.

1. Format. No special format is required for these disclosures; under §226.4(e), taxes and fees paid to government officials with respect to a security interest may be aggregated, or may be broken down by individual charge. For example, the disclosure could be labelled “filing fees and taxes” and all funds disbursed for such purposes may be aggregated in a single disclosure. This disclosure may appear, at the creditor’s option, apart from the other required disclosures. The inclusion of this information on a statement required under the Real Estate Settlement Procedures Act is sufficient disclosure for purposes of Truth in Lending.

1. Content. Creditors may substitute, for the phrase “appropriate contract document,” a reference to specific transaction documents in which the additional information is found, such as “promissory note” or “retail installment sale contract.” A creditor may, at its option, delete inapplicable items in the contract reference, for example when the contract documents contain no information regarding the right of acceleration.

Paragraph 18(q) Assumption policy.

1. Policy statement. In many mortgages, the creditor cannot determine, at the time disclosure must be made, whether a loan may be assumable at a future date on its original terms. For example, the assumption clause commonly used in mortgages sold to the Federal National Mortgage Association and the Federal Home Loan Mortgage Corporation conditions an assumption agreement by the subsequent borrower, the potential for impairment of the lender’s security, and execution of an assumption agreement by the subsequent borrower. In cases where uncertainty exists as to the future assumability of a mortgage, the disclosure under §226.18(q) should reflect that fact. In making disclosures in such cases, the creditor may use phrases such as “subject to conditions,” “under certain circumstances,” or “depending on future conditions.” The creditor may provide a brief reference to more specific criteria such as a due-on-sale clause, although a complete explanation of all conditions is not appropriate. For example, the disclosure may state, “Someone buying your home may be allowed to assume the mortgage on its original terms, subject to certain conditions, such as payment of an assumption fee.” See comment 17(a)(1)-5 for an example for a reference to a due-on-sale clause.

2. Original terms. The phrase original terms for purposes of §226.18(q) does not preclude the imposition of an assumption fee, but a modification of the basic credit agreement, such as a change in the contract interest rate, represents different terms.

Paragraph 18(r) Required deposit.

1. Disclosure required. The creditor must inform the consumer of the existence of a required deposit. (Appendix H provides a model clause that may be used in making that disclosure.) Footnote 45 describes 3 types of deposits that need not be considered required deposits. Use of the phrase “need not” permits creditors to include the disclosure even in cases where there is doubt as to whether the deposit constitutes a required deposit.

2. Pledged account mortgages. In these transactions, a consumer pledges as collateral funds that the consumer deposits in an account held by the creditor. The creditor withdraws sums from that account to supplement the consumer’s periodic payments. Creditors may treat these pledged accounts as required deposits or they may treat them as consumer buydowns in accordance with the commentary to §226.17(c)(1).

3. Escrow accounts. The escrow exception in footnote 45 applies, for example, to accounts for such items as maintenance fees, repairs, or improvements, whether in a realty or a nonrealty transaction. (See the commentary to §226.17(c)(1) regarding the use of escrow
4. Interest-bearing accounts. When a deposit earns at least 5 percent interest per year, no disclosure is required under §226.18(r). This exception applies whether the deposit is held by the creditor or by a third party.

5. Morris Plan transactions. A deposit under a Morris Plan, in which a deposit account is created for the sole purpose of accumulating payments and this is applied to satisfy entirely the consumer’s obligation in the transaction, is not a required deposit.

6. Examples of amounts excluded. The following are among the types of deposits that need not be treated as required deposits:

- Requirement that a borrower be a customer or a member even if that involves a fee or a minimum balance.
- Required property insurance escrow on a mobile home transaction.
- Refund of interest when the obligation is paid in full.
- Deposits that are immediately available to the consumer.
- Funds deposited with the creditor to be disbursed (for example, for construction) before the loan proceeds are advanced.
- Escrow of condominium fees.
- Escrow of loan proceeds to be released when the repairs are completed.

References

Other sections: Sections 226.2, 226.17, and appendix H.

Other regulations: 12 CFR 545.6–2(a) and 12 CFR Part 29.

Previous regulation: Sections 226.4 and 226.8.

1981 changes: Five of the required disclosures must be explained to the consumer in a manner similar to the descriptive phrases shown in the regulation. A written itemization of the amount financed need not be provided unless the consumer requests it. The finance charge must be provided in all transactions, including real estate transactions, but must be shown only as a total amount. The disclosed finance charge is considered accurate if it is within a specified range.

The variable rate hypothetical is required in all variable rate transactions and may be either general or transaction-specific. The penalty and rebate disclosures in the event of prepayment have been modified and combined. The requirement of an explanation of how the rebates or penalties are computed has been eliminated. The late payment disclosure has also been narrowed to include only charges imposed before maturity for late payments.

The information required in the security interest disclosure has been decreased by the deletion of the type of security interest and a reduction in the property description requirement. The disclosure of the required deposit is limited to a statement that the annual percentage rate does not reflect the required deposit; the presence of a required deposit has no effect on the annual percentage rate.

Two disclosure requirements have been added: A reference to the contract documents for additional information and, in a residential mortgage transaction, a statement of the creditor’s assumption policy.

Section 226.19—Certain Residential Mortgage and Variable-Rate Transactions

Paragraph 19(a)(1) Time of disclosure.

1. Coverage. This section requires early disclosure of credit terms in residential mortgage transactions that are also subject to the Real Estate Settlement Procedures Act (RESPA) and its implementing Regulation X, administered by the Department of Housing and Urban Development (HUD). To be covered by this section, a transaction must be both a residential mortgage transaction under §226.2(a) and a federally related mortgage loan under RESPA. “Federally related mortgage loan” is defined under RESPA (12 USC 2602) and Regulation X (24 CFR 3500.5(b)), and is subject to any interpretations by HUD.

2. Timing and use of estimates. Truth in Lending disclosures must be given (a) before consummation or (b) within three business days after the creditor receives the consumer’s written application, whichever is earlier. The three-day period for disclosing credit terms coincides with the time period within which creditors subject to RESPA must provide good faith estimates of settlement costs. If the creditor does not know the precise credit terms, the creditor must base the disclosures on the best information reasonably available and indicate that the disclosures are estimates under §226.17(c)(2). If many of the disclosures are estimates, the creditor may include a statement to that effect (such as “all numerical disclosures except the late-payment disclosure are estimates”) instead of separately labelling each estimate. In the alternative, the creditor may label as an estimate only the items primarily affected by unknown information. (See the Commentary to §226.17(c)(2).) The creditor may provide explanatory material concerning the estimates and the contingencies that may affect the actual terms, in accordance with the commentary to §226.17(a)(1).

3. Written application. Creditors may rely on RESPA and Regulation X (including any interpretations issued by HUD) in deciding
Federal Reserve System

whether a "written application" has been received. In general, Regulation X requires disclosures "to every person from whom the Lender receives or for whom it prepares a written application on an application form or forms normally used by the Lender for a Federally Related Mortgage Loan" (24 CFR 3500.6(a)). An application is received when it reaches the creditor in any of the ways applications are normally transmitted—by mail, hand delivery, or through an intermediary agent or broker. (See comment 19(b)-3 for guidance in determining whether or not the transaction involves an intermediary agent or broker.) If an application reaches the creditor through an intermediary agent or broker, the application is received when it reaches the creditor, rather than when it reaches the agent or broker.

4. Exceptions. The creditor may determine within the 3-day period that the application will or cannot be approved on the terms requested, as, for example, when a consumer applies for a type or amount of credit that the creditor does not offer, or the consumer's application cannot be approved for some other reason. In that case, the creditor need not make the disclosures under this section. If the creditor fails to provide early disclosures and the transaction is later consummated on the original terms, the creditor will be in violation of this provision. If, however, the consumer amends the application because of the creditor's unwillingness to approve it on its original terms, no violation occurs for not providing disclosures based on the original terms. But the amended application is a new application subject to this section.

5. Itemization of amount financed. In many residential mortgage transactions, the itemization of the amount financed required by §226.18(c) will contain items, such as origination fees or points, that also must be disclosed as part of the good faith estimates of settlement costs required under RESPA. Creditors furnishing the RESPA good faith estimates need not give consumers any itemization of the amount financed, either with the disclosures provided within 3 days after application or with the disclosures given at consummation or settlement.

Paragraph 19(a)(2) Redisclosure required.

1. Conditions for redisclosure. Creditors must make new disclosures if the annual percentage rate at consummation differs from the estimate originally disclosed by more than 1⁄4 of 1 percentage point in regular transactions or 1⁄8 of 1 percentage point in irregular transactions, as defined in footnote 46 of §226.22(a)(3). The creditor must also redisclose if a variable rate feature is added to the credit terms after the original disclosures have been made. The creditor has the option of redisclosing information under other circumstances, if it wishes to do so.

2. Content of new disclosures. If redisclosure is required, the creditor may provide a complete set of new disclosures, or may redisclose only the terms that vary from those originally disclosed. If the creditor chooses to provide a complete set of new disclosures, the creditor may but need not highlight the new terms, provided that the disclosures comply with the format requirements of §226.17(a). If the creditor chooses to disclose only the new terms, all the new terms must be disclosed. For example, a different annual percentage rate will almost always produce a different finance charge, and often a new schedule of payments; all of those changes would have to be disclosed. If, in addition, unrelated terms such as the amount financed or prepayment penalty vary from those originally disclosed, the accurate terms must be disclosed. However, no new disclosures are required if the only inaccuracies involve estimates other than the annual percentage rate, and no variable rate feature has been added.

3. Timing. Redisclosures, when necessary, must be given no later than "consummation or settlement." "Consummation" is defined in §226.2(a). "Date of settlement" is defined in Regulation X (24 CFR 3500.2(a)) and is subject to any interpretations issued under RESPA and Regulation X.

4. Basis of disclosures. In some cases, a creditor may delay redisclosure until settlement, which may be at a time later than consummation. If a creditor chooses to redisclose at settlement, disclosures may be based on the terms in effect at settlement, rather than at consummation. For example, in a variable-rate transaction, a creditor may choose to base disclosures on the terms in effect at settlement despite the general rule in the commentary to section 18(f) that variable-rate disclosures should be based on the terms in effect at consummation.

19(b) Certain variable-rate transactions.

1. Coverage. Section 226.19(b) applies to all closed-end variable-rate transactions that are secured by the consumer's principal dwelling and have a term greater than one year. The requirements of this section apply not only to transactions financing the initial acquisition of the consumer's principal dwelling, but also to any other closed-end variable-rate transaction secured by the principal dwelling. Closed-end variable-rate transactions that are not secured by the principal dwelling, or are secured by the principal dwelling but have a term of one year or less, are subject to the disclosure requirements of §226.18(f)(1) rather than those of §226.19(b). (Furthermore, "shared-equity" or "shared-appreciation" mortgages are subject to the disclosure requirements of §226.18(f)(1) rather than those of §226.19(b) regardless of the general coverage of those sections.) For purposes of this section, the term of a variable-rate demand loan is determined
in accordance with the commentary to §226.17(c)(5). In determining whether a construction loan that may be permanently financed by the same creditor is covered under this section, the creditor may treat the construction and the permanent phases as separate transactions with distinct terms to maturity or as a single combined transaction. For purposes of the disclosures required under §226.18, the creditor may nevertheless treat the two phases either as separate transactions or as a single combined transaction in accordance with §226.17(c)(6). Finally, in any assumption of a variable-rate transaction secured by the consumer’s principal dwelling with a term greater than one year, disclosures need not be provided under §§226.18(f)(2)(ii) or 226.19(b).

2. Timing. A creditor must give the disclosures required under this section at the time an application form is provided or before the consumer pays a nonrefundable fee, whichever is earlier.

i. **Intermediary agent or broker.** In cases where a creditor receives a written application through an intermediary agent or broker, however, footnote 45b provides a substitute timing rule requiring the creditor to deliver the disclosures or place them in the mail not later than three business days after the creditor receives the consumer’s written application. (See comment 19(b)–3 for guidance in determining whether or not the transaction involves an intermediary agent or broker.) This three-day rule also applies where the creditor takes an application over the telephone.

ii. **Telephone request.** In cases where the consumer merely requests an application over the telephone, the creditor must include the early disclosures required under this section with the application that is sent to the consumer.

iii. **Mail solicitations.** In cases where the creditor solicits applications through the mail, the creditor must also send the disclosures required under this section if an application form is included with the solicitation.

iv. **Conversion.** In cases where an open-end credit account will convert to a closed-end transaction subject to this section under a written agreement with the consumer, disclosures under this section may be given at the time of conversion. (See the commentary to §226.20(a) for information on the timing requirements for §226.19(b)(2) disclosures when a variable-rate feature is later added to a transaction.)

v. **Form of electronic disclosures provided on or with electronic applications.** Creditors must provide the disclosures required by this section (including the brochure) on or with a blank application that is made available to the consumer in electronic form, such as on a creditor’s Internet Web site. Creditors have flexibility in satisfying this requirement. Methods creditors could use to satisfy the requirement include, but are not limited to, the following examples:

A. The disclosures could automatically appear on the screen when the application appears.

B. The disclosures could be located on the same web page as the application (whether or not they appear on the initial screen), if the application contains a clear and conspicuous reference to the location of the disclosures and indicates that the disclosures contain rate, fee, and other cost information, as applicable.

C. Creditors could provide a link to the electronic disclosures on or with the application as long as consumers cannot bypass the disclosures before submitting the application. The link would take the consumer to the disclosures, but the consumer need not be required to scroll completely through the disclosures; or

D. The disclosures could be located on the same web page as the application without necessarily appearing on the initial screen, immediately preceding the button that the consumer will click to submit the application. Whatever method is used, a creditor need not confirm that the consumer has read the disclosures.

3. **Intermediary agent or broker.** In certain transactions involving an “intermediary agent or broker,” a creditor may delay providing disclosures. A creditor may not delay providing disclosures in transactions involving either a legal agent (as determined by applicable law) or any other third party that is not an “intermediary agent or broker.” In determining whether or not a transaction involves an “intermediary agent or broker” the following factors should be considered:

- The number of applications submitted by the broker to the creditor as compared to the total number of applications received by the creditor. The greater the percentage of total loan applications submitted by the broker in any given period of time, the less likely it is that the broker would be considered an “intermediary agent or broker” of the creditor during the next period.
- The number of applications submitted by the broker to the creditor as compared to the total number of applications received by the broker. (This factor is applicable only if the creditor has such information.) The greater the percentage of total loan applications received by the broker that is submitted to a creditor in any given period of time, the less likely it is that the broker would be considered an “intermediary agent or broker” of the creditor during the next period.
- The amount of work (such as document preparation) the creditor expects to be done by the broker on an application based on the creditor’s prior dealings with the broker and on the creditor’s requirements for accepting
applications, taking into consideration the customary practice of brokers in a particular area. The more work that the creditor expects the broker to do on an application, in excess of what is usually expected of a broker in that area, the less likely it is that the broker would be considered an "intermediary agent or broker" of the creditor.

An example of an "intermediary agent or broker" is a broker who, customarily within a brief period of time after receiving an application, inquires about the credit terms of several creditors with whom the broker does business and submits the application to one of them. The broker is responsible for only a small percentage of the applications received by that creditor. During the time the broker has the application, it might request a credit report and an appraisal (or even prepare an entire loan package if customary in that particular area).

4. Other variable-rate regulations. Transactions in which the creditor is required to comply with and has complied with the disclosure requirements of the variable-rate regulations of other Federal agencies are exempt from the requirements of §226.19(b), by virtue of footnote 45a, and are exempt from the requirements of §226.20(c), by virtue of footnote 45c. Those variable-rate regulations include the regulations issued by the Federal Home Loan Bank Board and those issued by the Department of Housing and Urban Development. The exception in footnotes 45a and 45c is also available to creditors that are required by state law to comply with the federal variable-rate regulations noted above and to creditors that are authorized by title VIII of the Depository Institutions Act of 1982 (12 U.S.C. 3801 et seq.) to make loans in accordance with those regulations. Creditors using this exception should comply with the timing requirements of those regulations rather than the timing requirements of Regulation Z in making the variable-rate disclosures.

5. Examples of variable-rate transactions.
   (i) The following transactions, if they have a term greater than one year and are secured by the consumer’s principal dwelling, constitute variable-rate transactions subject to the disclosure requirements of §226.19(b).
   (A) Renewable balloon-payment instruments where the creditor is both unconditionally obligated to renew the balloon-payment loan at the consumer’s option (or is obligated to renew subject to conditions within the consumer’s control) and has the option of increasing the interest rate at the time of renewal. (See comment 17(c)(1)-11 for a discussion of conditions within a consumer’s control in connection with renewable balloon-payment loans.)
   (B) Preferred-rate loans where the terms of the legal obligation provide that the initial underlying rate is fixed but will increase upon the occurrence of some event, such as an employee leaving the employment of the creditor, and the note reflects the preferred rate. The disclosures under §§226.19(b)(1) and 226.19(b)(2)(v), (viii), (ix), and (xii) are not applicable to such loans.
   (C) “Price-level-adjusted mortgages” or other indexed mortgages that have a fixed rate of interest but provide for periodic adjustments to payments and the loan balance to reflect changes in an index measuring prices or inflation. The disclosures under §226.19(b)(i) are not applicable to such loans, nor are the following provisions to the extent they relate to the determination of the interest rate by the addition of a margin, changes in the interest rate, or interest rate discounts: Section 226.19(b)(2), (iii), (iv), (v), (vi), (vii), (viii), and (ix). (See comments 20(c)-2 and 30-1 regarding the inapplicability of variable-rate adjustment notices and interest rate limitations to price-level-adjusted or similar mortgages.)
   (ii) Graduated-payment mortgages and step-rate transactions without a variable-rate feature are not considered variable-rate transactions.

Paragraph 19(b)(1).
1. Substitute. Creditors who wish to use publications other than the Consumer Handbook on Adjustable Rate Mortgages must make a good faith determination that their brochures are suitable substitutes to the Consumer Handbook. A substitute is suitable if it is, at a minimum, comparable to the Consumer Handbook in substance and comprehensiveness. Creditors are permitted to provide more detailed information than is contained in the Consumer Handbook.

2. Applicability. The Consumer Handbook need not be given for variable-rate transactions subject to this section in which the underlying interest rate is fixed. (See comment 19(b)-5 for an example of a variable-rate transaction where the underlying interest rate is fixed.)

Paragraph 19(b)(2).
1. Disclosure for each variable-rate program. A creditor must provide disclosures to the consumer that fully describe each of the creditor’s variable-rate loan programs in which the consumer expresses an interest. If a program is made available only to certain customers of an institution, a creditor need not provide disclosures for that program to other consumers who express a general interest in a creditor’s ARM programs. Disclosures must be given at the time an application form is provided or before the consumer pays a nonrefundable fee, whichever is earlier. If program disclosures cannot be provided because a consumer expresses an interest in individually negotiating loan terms that are not generally offered, disclosures reflecting those terms may be provided as soon as reasonably possible after the terms have been decided upon, but not later than the
time a non-refundable fee is paid. If a consumer who has received program disclosures subsequently expresses an interest in other available variable-rate programs subject to §226.19(b)(2), or the creditor and consumer decide on a program for which the consumer has not received disclosures, the creditor must provide appropriate disclosures as soon as reasonably possible. The creditor, of course, is permitted to give the consumer information about additional programs subject to §226.19(b) initially.

2. Variable-rate loan program defined. i. Generally, if the identification, the presence or absence, or the exact value of a loan feature must be disclosed under this section, variable-rate loans that differ as to such features constitute separate loan programs. For example, separate loan programs would exist based on differences in any of the following loan features:

A. The index or other formula used to calculate interest rate adjustments.

B. The rules relating to changes in the index value, interest rate, payments, and loan balance.

C. The presence or absence of, and the amount of, rate or payment caps.

D. The presence of a demand feature.

E. The possibility of negative amortization.

F. The possibility of interest rate carryover.

G. The frequency of interest rate and payment adjustments.

H. The presence of a discount feature.

i. In addition, if a loan feature must be taken into account in preparing the disclosures required by §226.19(b)(2)(viii), variable-rate loans that differ as to that feature constitute separate programs under §226.19(b)(2).

ii. If, however, a representative value may be given for a loan feature or the feature need not be disclosed under §226.19(b)(2), variable-rate loans that differ as to such features do not constitute separate loan programs. For example, separate programs would not exist based on differences in the following loan features:

A. The amount of a discount.

B. The amount of a margin.

3. Form of program disclosures. A creditor may provide separate program disclosure forms for each ARM program it offers or a single disclosure form that describes multiple programs. A disclosure form may consist of more than one page. For example, a creditor may attach a separate page containing the historical payment example for a particular program. A disclosure form describing more than one program need not repeat information applicable to each program that is described. For example, a form describing multiple programs may disclose the information applicable to all of the programs in one place with the various program features (such as options permitting conversion to a fixed rate) disclosed separately. The form, however, must state if any program feature that is described is available only in conjunction with certain other program features. Both the separate and multiple program disclosures may illustrate more than one loan maturity or payment amortization—for example, by including multiple payment and loan balance columns in the historical payment example. Disclosures may be inserted or printed in the Consumer Handbook (or a suitable substitute) as long as they are identified as the creditor’s loan program disclosures.

4. As applicable. The disclosures required by this section need only be made as applicable. Any disclosure not relevant to a particular transaction may be eliminated. For example, if the transaction does not contain a demand feature, the disclosure required under §226.19(b)(2)(x) need not be given. As used in this section, payment refers only to a payment based on the interest rate, loan balance and loan term, and does not refer to payment of other elements such as mortgage insurance premiums.

5. Revisions. A creditor must revise the disclosures required under this section once a year as soon as reasonably possible after the new index value becomes available. Revisions to the disclosures also are required when the loan program changes.

Paragraph 19(b)(2)(i).

1. Change in interest rate, payment, or term. A creditor must disclose the fact that the terms of the legal obligation permit the creditor, after consummation of the transaction, to increase (or decrease) the interest rate, payment, or term of the loan initially disclosed to the consumer. For example, the disclosures for a variable-rate program in which the interest rate and payment (but not loan term) can change might read, “Your interest rate and payment can change yearly.” In transactions where the term of the loan may change due to rate fluctuations, the creditor must state that fact.

Paragraph 19(b)(2)(ii).

1. Identification of index or formula. If a creditor ties interest rate changes to a particular index, this fact must be disclosed, along with a source of information about the index. For example, if a creditor uses the weekly average yield on U.S. Treasury Securities adjusted to a constant maturity as its index, the disclosure might read, “Your index is the weekly average yield on U.S. Treasury Securities adjusted to a constant maturity of one year published weekly in the Wall Street Journal.” If no particular index is used, the creditor must briefly describe the formula used to calculate interest rate changes.

2. Changes at creditor’s discretion. If interest rate changes are at the creditor’s discretion, this fact must be disclosed. If an index is internally defined, such as by a creditor’s...
prime rate, the creditor should either briefly describe that index or state that interest rate changes are at the creditor’s discretion.

Paragraph 19(b)(2)(ii). Determination of interest rate and payment.
This provision requires an explanation of how the creditor will determine the consumer’s interest rate and payment. In cases where a creditor bases its interest rate on a specific index and adjusts the index through the addition of a margin, for example, the disclosure might read, “Your interest rate is based on the index plus a margin, and your payment will be based on the interest rate, loan balance, and remaining loan term.” In transactions where paying the periodic payments will not fully amortize the outstanding balance at the end of the loan term and where the final payment will equal the periodic payment plus the remaining unpaid balance, the creditor must disclose this fact.

For example, the disclosure might read, “Your periodic payments will not fully amortize your loan and you will be required to make a single payment of the periodic payment plus the remaining unpaid balance at the end of the loan term.” The creditor, however, need not reflect any irregular final payment in the historical example or in the disclosure of the initial and maximum rates and payments. If applicable, the creditor should also disclose that the rate and payment will be rounded.

Paragraph 19(b)(2)(vi). Current margin value and interest rate. Because the disclosures can be prepared in advance, the interest rate and margin may be several months old when the disclosures are delivered. A statement, therefore, is required alerting consumers to the fact that they should inquire about the current margin value applied to the index and the current interest rate. For example, the disclosure might state, “Ask us for our current interest rate and margin.”

Paragraph 19(b)(2)(v). Discounted and premium interest rate. In some variable-rate transactions, creditors may set an initial interest rate that is not determined by the index or formula used to make later interest rate adjustments. Typically, this initial rate charged to consumers is lower than the rate would be if it were calculated using the index or formula. However, in some cases the initial rate may be higher. If the initial interest rate will be a discount or a premium rate, creditors must alert the consumer to this fact. For example, if a creditor discounted a consumer’s initial rate, the disclosure might state, “Your initial interest rate is not based on the index used to make later adjustments.” (See the commentary to §226.19(b)(2)(vi) for a further discussion of discounted and premium variable-rate transactions.) In addition, the disclosure must suggest that consumers inquire about the amount that the program is currently discounted. For example, the disclosure might state, “Ask us for the amount our adjustable rate mortgages are currently discounted.”

In a transaction with a consumer buydown or with a third-party buydown that will be incorporated in the legal obligation, the creditor should disclose the program as a discounted variable-rate transaction, but need not disclose additional information regarding the buydown in its program disclosures. (See the commentary to §226.19(b)(2)(viii) for a discussion of how to reflect the discount or premium in the historical example or the maximum rate and payment disclosure.)

Paragraph 19(b)(2)(viii). Frequency. The frequency of interest rate and payment adjustments must be disclosed.
If interest rate changes will be imposed more frequently or at different intervals than payment changes, a creditor must disclose the frequency and timing of both types of changes. For example, in a variable-rate transaction where interest rate changes are made monthly, but payment changes occur on an annual basis, this fact must be disclosed. In certain ARM transactions, the interval between loan closing and the initial adjustment is not known and may be different from the regular interval for adjustments. In such cases, the creditor may disclose the initial adjustment period as a range of the minimum and maximum amount of time from consummation or closing. For example, the creditor might state: “The first adjustment to your interest rate and payment will occur no sooner than 6 months and no later than 18 months after closing. Subsequent adjustments may occur once each year after the first adjustment.” (See comments 19(b)(2)(viii)(A)–7 and 19(b)(2)(viii)(B)–4 for guidance on other disclosures when this alternative disclosure rule is used.)

Paragraph 19(b)(2)(vii). Rate and payment caps. The creditor must disclose limits on changes (increases or decreases) in the interest rate or payment. If an initial discount is not taken into account in applying overall or periodic rate limitations, that fact must be disclosed. If separate overall or periodic limitations apply to interest rate increases resulting from other events, such as the exercise of a fixed-rate conversion option or leaving the creditor’s employ, those limitations must also be stated. Limitations do not include legal limits in the nature of usury or rate ceilings under state or Federal statutes or regulations. (See §226.30 for the rule requiring that a maximum interest rate be included in certain variable-rate transactions.) The creditor need not disclose each periodic or overall rate limitation that is currently available. As an alternative, the creditor may disclose the range of the lowest and highest periodic and overall rate limitations that may be applicable to the creditor’s ARM transactions.
For example, the creditor might state: ‘The limitation on increases to your interest rate at each adjustment will be set at an amount in the following range: Between 1 and 2 percentage points at each adjustment. The limitation increases to your interest rate over the term of the loan will be set at an amount in the following range: Between 4 and 7 percentage points at each adjustment.‘ A creditor using this alternative rule must include a statement in its program disclosures suggesting that the consumer ask about the overall rate limitations currently offered for the creditor’s ARM programs. (See comments 19(b)(2)(viii)(A)–6 and 19(b)(2)(viii)(B)–3 for an explanation of the additional requirements for a creditor using this alternative rule for disclosure of periodic and overall rate limitations.)

2. Negative amortization and interest rate carryover. A creditor must disclose, where applicable, the possibility of negative amortization. For example, the disclosure might state, ‘If any of your payments is not sufficient to cover the interest due, the difference will be added to your loan amount.’ Loans that provide for more than one way to trigger negative amortization are separate variable-rate programs requiring separate disclosures. (See the commentary to §226.19(b)(2) for a discussion on the definition of a variable-rate loan program and the format for disclosure.) If a consumer is given the option to cap monthly payments that may result in negative amortization, the creditor must also disclose the rules relating to the option, including the effects of exercising the option (such as negative amortization will occur and the principal loan balance will increase); however, the disclosure in §226.19(b)(2)(viii) need not be provided.

3. Conversion option. If a loan program permits consumers to convert their variable-rate loans to fixed-rate loans, the creditor must disclose that the interest rate may increase if the consumer converts the loan to a fixed-rate loan. The creditor must also disclose the rules relating to the conversion feature, such as the period during which the loan may be converted, the fees that may be charged at conversion, and how the fixed rate will be determined. The creditor should identify any index or other measure or formula used to determine the fixed rate and state any margin to be added. In disclosing the period during which the loan may be converted and the margin, the creditor may use information applicable to the conversion feature during the six months preceding preparation of the disclosures and state that the information is representative of conversion features recently offered by the creditor. The information may be used until the program disclosures are otherwise revised. Although the rules relating to the conversion option must be disclosed, the exercise of exercising the option should not be reflected elsewhere in the disclosures, such as in the historical example or in the calculation of the initial and maximum interest rate and payments.

4. Preferred-rate loans. Section 226.19(b) applies to preferred-rate loans. A creditor may disclose both the historical example and the initial and maximum interest rates and payments. A creditor must disclose, where applicable, the possibility of negative amortization. For example, the disclosure might state, ‘If any of your payments is not sufficient to cover the interest due, the difference will be added to your loan amount.’ Loans that provide for more than one way to trigger negative amortization are separate variable-rate programs requiring separate disclosures. (See the commentary to §226.19(b)(2) for a discussion on the definition of a variable-rate loan program and the format for disclosure.) If a consumer is given the option to cap monthly payments that may result in negative amortization, the creditor must also disclose the rules relating to the option, including the effects of exercising the option (such as negative amortization will occur and the principal loan balance will increase); however, the disclosure in §226.19(b)(2)(viii) need not be provided.

Paragraph 19(b)(2)(viii).

1. Historical example and initial and maximum interest rates and payments. A creditor must disclose the initial and maximum interest rates and payments. A creditor may disclose both the historical example and the initial and maximum interest rates and payments.

1. Index movement. This section requires a creditor to provide an historical example, based on a $10,000 loan amount originating in 1977, showing how interest rate changes implemented according to the terms of the loan program would have affected payments and the loan balance at the end of each year during a 15-year period. (In all cases, the creditor need only calculate the payments and loan balance for the five-year term, from 1977 to 1981, with a zero loan balance reflected for 1981. For the remaining ten years, 1982–1991, the creditor need only show the remaining index values, margin and interest rate and must continue to reflect all significant loan program terms such as rate limitations affecting them.) Pursuant to this section, the creditor must provide a history of index values for the preceding 15 years. Initially, the disclosures would give the index values from 1977 to the present. Each year thereafter, the revised disclosures should include an additional year’s index value until 15 years of values are shown. If the values for an index have not been available for 15 years, a creditor need only go back as far as the values are available in giving a history and payment example. In all cases, only one index value per year need be shown. Thus, in transactions where interest rate adjustments are implemented more frequently than once per year, a creditor may assume that the interest rate and payment resulting from the index value chosen will stay in effect for the entire year for purposes of calculating the loan balance as of the end of the year and for reflecting other loan program terms. In cases
1. Initial and maximum interest rates and payments. The disclosure form must state the initial and maximum interest rates and payments for a $10,000 loan originated at an initial interest rate (index value plus margin adjusted by the amount of any discount or premium) in effect as of an identified month and year for the loan program disclosure. (See comment 19(b)(2)-5 on revisions to the loan program disclosure.) In calculating the maximum payment under this paragraph, a creditor should assume that the interest rate increases as rapidly as possible under the

Federal Reserve System

Pl. 226, Supp. I, II.

where interest rate changes are at the creditor’s discretion (see the commentary to §226.19(b)(2)(i)(ii)), the creditor must provide a history of the rates imposed for the preceding 15 years, beginning with the rates in 1977. In giving this history, the creditor need only go back as far as the creditor’s rates can reasonably be determined.

2. Selection of margin. The historical example must reflect the method by which index values are determined under the program. If a creditor uses an average of index values or any other index formula, the history given should reflect those values. The creditor should select one date or, when an average of single values is used as an index, one period and should base the example on index values measured as of that same date or period for each year shown in the history. A date or period at any time during the year may be selected, but the same date or period must be used for each year in the historical example. For example, a creditor could use values for the first business day in July or for the first week ending in July for each of the 15 years shown in the example.

3. Selection of index. For purposes of the disclosure required under §226.19(b)(2)(viii)(A), a creditor may select a representative margin that has been used during the six months preceding preparation of the disclosures, and should disclose that the margin is one that the creditor has used recently. The margin selected may be used until a creditor revises the disclosure form.

4. Amount of discount or premium. For purposes of the disclosure required under §226.19(b)(2)(viii)(A), a creditor may select a discount or premium (amount and term) that has been used during the six months preceding preparation of the disclosures, and should disclose that the discount or premium is one that the creditor has used recently. The discount or premium should be reflected in the historical example for as long as the discount or premium is in effect. A creditor may assume a discount that would have been in effect for any part of a year was in effect for the full year for purposes of reflecting it in the historical example. For example, a 3-month discount may be treated as being in effect for the entire first year of the example; a 15-month discount may be treated as being in effect for the first two years of the example. In illustrating the effect of the discount or premium, creditors should adjust the value of the interest rate in the historical example, and should not adjust the margin or index values. For example, if during the six months preceding preparation of the disclosures the fully indexed rate would have been 10% but the first year’s rate under the program was 8%, the creditor would discount the first interest rate in the historical example by 2 percentage points.

5. Term of the loan. In calculating the payments and loan balances in the historical example, a creditor need not base the disclosures on each term to maturity or payment amortization that it offers. Instead, disclosures for ARMs may be based upon terms to maturity or payment amortizations of 5, 15, and 30 years, as follows: ARMs with terms or amortizations from over 10 years to 20 years may be based on a 15-year term or amortization; and ARMs with terms or amortizations over 20 years may be based on a 30-year term or amortization. Thus, disclosures for ARMs offered with any term from over 1 year to 40 years may be based solely on terms of 5, 15 and 30 years. Of course, a creditor may always base the disclosures on the actual terms or amortizations offered. If the creditor bases the disclosures on 5-, 15- or 30-year terms or payment amortization as provided above, the term or payment amortization used in making the disclosure must be stated.

6. Rate caps. A creditor using the alternative rule described in comment 19(b)(2)(vii)-1 for disclosure of rate limitations must base the historical example upon the highest periodic and overall rate limitations disclosed under section 226.19(b)(2)(vii). In addition, the creditor must state the limitations used in the historical example. (See comment 19(b)(2)(vii)(B)-3 for an explanation of the use of the highest rate limitation in other disclosures.)

7. Frequency of adjustments. In certain transactions, creditors may use the alternative rule described in comment 19(b)(2)(vii)-1 for disclosure of the frequency of rate and payment adjustments. In such cases, the creditor may assume for purposes of the historical example that the first adjustment occurred at the end of the first full year in which the adjustment could occur. For example, in an ARM in which the first adjustment may occur between 6 and 18 months after closing and annually thereafter, the creditor may assume that the first adjustment occurred at the end of the first year in the historical example. (See comment 19(b)(2)(vii)(B)-4 for an explanation of how to compute the maximum interest rate and payment when the initial adjustment period is not known.)

1. Initial and maximum interest rates and payments. The disclosure form must state the initial and maximum interest rates and payments for a $10,000 loan originated at an initial interest rate (index value plus margin adjusted by the amount of any discount or premium) in effect as of an identified month and year for the loan program disclosure. (See comment 19(b)(2)-5 on revisions to the loan program disclosure.) In calculating the maximum payment under this paragraph, a creditor should assume that the interest rate increases as rapidly as possible under the
loan program, and the maximum payment disclosed should reflect the amortization of the loan during this period. Thus, in a loan with 2 percentage point annual (and 5 percentage point overall) interest rate limitations or "caps," the maximum interest rate would be 5 percentage points higher than the initial interest rate disclosed. Moreover, the loan would not reach the maximum interest rate until the fourth year because of the 2 percentage point annual rate limitations, and the maximum payment disclosed would reflect the amortization of the loan during this period. If the loan program includes a discounted or premium initial interest rate, the initial interest rate should be adjusted by the amount of the discount or premium.

2. Term of the loan. In calculating the initial and maximum payments, the creditor need not base the disclosures on each term to maturity or payment amortization offered under the program. Instead, the creditor may follow the rules set out in comment 19(b)(2)(vii)(A)–5.

If a historical example is provided under §226.19(b)(2)(vii)(a), the terms to maturity or payment amortization used in the historical example must be used in calculating the initial and maximum payment. In addition, creditors must state the term or payment amortization used in making the disclosures under this section.

3. Rate caps. A creditor using the alternative rule for disclosure of interest rate limitations described in comment 19(b)(2)(vii)–1 must calculate the maximum interest rate and payment based upon the highest periodic and overall rate limitations disclosed under §226.19(b)(2)(vii). In addition, the creditor must state the rate limitations used in calculating the maximum interest rate and payment. (See comment 19(b)(2)(vii)(A)–6 for an explanation of the use of the highest rate limitation in other disclosures.)

4. Frequency of adjustments. In certain transactions, a creditor may use the alternative rule for disclosure of the frequency of rate and payment adjustments described in comment 19(b)(2)(vii)–1. In such cases, the creditor must base the calculations of the initial and maximum rates and payments upon the earliest possible first adjustment disclosed under §226.19(b)(2)(vi). (See comment 19(b)(2)(vii)(A)–7 for an explanation of how to disclose the historical example when the initial adjustment period is not known.)

5. Periodic payment statement. The statement that the periodic payment may increase or decrease substantially may be satisfied by the disclosure in paragraph 19(b)(2)(vi) if it states for example, "your monthly payment can increase or decrease substantially based on annual changes in the interest rate."

1. Calculation of payments. A creditor is required to include a statement on the disclosure form that explains how a consumer may calculate his or her actual monthly payments for a loan amount other than $10,000. The example should be based upon the most recent payment shown in the historical example or upon the initial interest rate reflected in the maximum rate and payment disclosure. In transactions in which the latest payment shown in the historical example is not for the latest year of index values shown (such as in a five-year loan), a creditor may provide additional examples based on the initial and maximum payments disclosed under §226.19(b)(2)(vii). The creditor, however, is not required to calculate the consumer's payments. (See the model clauses in appendix H–4(C).)

2. Demand feature. If a variable-rate loan subject to §226.19(b) requirements contains a demand feature as discussed in the commentary to §226.18(i), this fact must be disclosed. (Pursuant to §226.18(i), creditors would also disclose the demand feature in the standard disclosures given later.)

3. Adjustment notices. A creditor must disclose to the consumer the type of information that will be contained in subsequent notices of adjustments and when such notices will be provided. (See the commentary to §226.20(c) regarding notices of adjustments.) For example, the disclosure might state, "You will be notified at least 25, but no more than 120, days before the due date of a payment at a new level. This notice will contain information about the index and interest rates, payment amount, and loan balance."

In transactions where there may be interest rate adjustments without accompanying payment adjustments in a year, the disclosure might read, "You will be notified once each year during which interest rate adjustments, but no payment adjustments, have been made to your loan. This notice will contain information about the index and interest rates, payment amount, and loan balance."

1. Multiple loan programs. A creditor that offers multiple variable-rate loan programs is required to have disclosures for each variable-rate loan program subject to §226.19(b)(2). Unless disclosures for all of its variable-rate programs are provided initially, the creditor must inform the consumer that other closed-end variable-rate programs exist, and that disclosure forms are available for these additional loan programs. For example, the disclosure form might state, "Information on other adjustable rate mortgage programs is available upon request."
Section 226.20 Subsequent Disclosure Requirements

1. Definition. A refinancing is a new transaction requiring a complete new set of disclosures. Whether a refinancing has occurred is determined by reference to whether the original obligation has been satisfied or extinguished and replaced by a new obligation, based on the parties’ contract and applicable law. The refinancing may involve the consolidation of several existing obligations, disbursement of new money to the consumer or on the consumer’s behalf, or the rescheduling of payments under an existing obligation. In any form, the new obligation must completely replace the prior one.

• Changes in the terms of an existing obligation, such as the deferral of individual installments, will not constitute a refinancing unless accomplished by the cancellation of that obligation and the substitution of a new obligation.
• A substitution of agreements that meets the refinancing definition will require new disclosures, even if the substitution does not substantially alter the prior credit terms.

2. Exceptions. A transaction is subject to §226.20(a) only if it meets the general definition of a refinancing. Section 226.20(a) (1) through (5) lists 5 events that are not treated as refinancings, even if they are accomplished by cancellation of the old obligation and substitution of a new one.

3. Variable-rate.

i. If a variable-rate feature was properly disclosed under the regulation, a rate change in accord with those disclosures is not a refinancing. For example, no new disclosures are required when the variable-rate feature is invoked on a renewable balloon-payment mortgage that was previously disclosed as a variable-rate transaction.

ii. Even if it is not accomplished by the cancellation of the old obligation and substitution of a new one, a new transaction subject to new disclosures results if the creditor either:
   A. Increases the rate based on a variable-rate feature that was not previously disclosed; or
   B. Adds a variable-rate feature to the obligation. A creditor does not add a variable-rate feature by changing the index of a variable-rate transaction to a comparable index, whether the change replaces the existing index or substitutes an index for one that no longer exists.

iii. If either of the events in paragraph 20(a)3.i.A. or ii.B. occurs in a transaction secured by a principal dwelling with a term longer than one year, the disclosures required under §226.19(b) also must be given at that time.

4. Unearned finance charge. In a transaction involving precomputed finance charges, the creditor must include in the finance charge on the refinanced obligation any unearned portion of the original finance charge that is not related to the consumer or credited against the underlying obligation. For example, in a transaction with an add-on finance charge, a creditor advances new money to a consumer in a fashion that extinguishes the original obligation and replaces it with a new one. The creditor neither refunds the unearned finance charge on the original obligation to the consumer nor credits it to the remaining balance on the old obligation. Under these circumstances, the unearned finance charge must be included in the finance charge on the new obligation and reflected in the annual percentage rate disclosed on refinancing. Accrued but unpaid finance charges are included in the amount financed in the new obligation.

5. Coverage. Section 226.20(a) applies only to refinancings undertaken by the original creditor or a holder or servicer of the original obligation. A “refinancing” by any other person is a new transaction under the regulation, not a refinancing under this section.
Paragraph 20(a)(1).
1. Renewal. This exception applies both to obligations with a single payment of principal and interest and to obligations with periodic payments of interest and a final payment of principal. In determining whether a new obligation replacing an old one is a renewal of the original terms or a refinancing, the creditor may consider it a renewal even if:
   • Accrued unpaid interest is added to the principal balance.
   • Changes are made in the terms of renewal resulting from the factors listed in §226.17(c)(3).
   • The principal at renewal is reduced by a curtailment of the obligation.

Paragraph 20(a)(2).
1. Annual percentage rate reduction. A reduction in the annual percentage rate with a corresponding change in the payment schedule is not a refinancing. If the annual percentage rate is subsequently increased (even though it remains below its original level) and the increase is effected in such a way that the old obligation is satisfied and replaced, new disclosures must then be made.

Paragraph 20(a)(3).
1. Corresponding change. A corresponding change in the payment schedule to implement a lower annual percentage rate would be a shortening of the maturity, or a reduction in the payment amount or the number of payments of an obligation. The exception in §226.20(a)(2) does not apply if the maturity is lengthened, or if the payment amount or number of payments is increased beyond that remaining on the existing transaction.

Paragraph 20(a)(4).
1. Workout agreements. A workout agreement is not a refinancing unless the annual percentage rate is increased or additional credit is advanced beyond amounts already accrued plus insurance premiums.

Paragraph 20(a)(5).
1. Insurance renewal. The renewal of optional insurance added to an existing credit transaction is not a refinancing, assuming that appropriate Truth in Lending disclosures were provided for the initial purchase of the insurance.

Paragraph 20(b) Assumptions.
1. General definition. An assumption as defined in §226.20(b) is a new transaction and new disclosures must be made to the subsequent consumer. An assumption under the regulation requires the following three elements:
   • A residential mortgage transaction.
   • An express acceptance of the subsequent consumer by the creditor.
   • A written agreement.

The assumption of a nonexempt consumer credit obligation requires no disclosures unless all three elements are present. For example, an automobile dealer need not provide Truth in Lending disclosures to a customer who assumes an existing obligation secured by an automobile. However, a residential mortgage transaction with the elements described in §226.20(b) is an assumption that calls for new disclosures; the disclosures must be given whether or not the assumption is accompanied by changes in the terms of the obligation. (See comment 20(a)(24)—5 for a discussion of assumptions that are not considered residential mortgage transactions.)

2. Existing residential mortgage transaction. A transaction may be a residential mortgage transaction as to one consumer and not to the other consumer. In that case, the creditor must look to the assuming consumer in determining whether a residential mortgage transaction exists. To illustrate:
   • The original consumer obtained a mortgage to purchase a home for vacation purposes. The loan was not a residential mortgage transaction as to that consumer. The mortgage is assumed by a consumer who will use the home as a principal dwelling. As to that consumer, the loan is a residential mortgage transaction. For purposes of §226.20(b), the assumed loan is an “existing residential mortgage transaction” requiring disclosures, if the other criteria for an assumption are met.

3. Express agreement. Expressly agrees means that the creditor’s agreement must relate specifically to the new debtor and must unequivocally accept that debtor as a primary obligor. The following events are not construed to be express agreements between the creditor and the subsequent consumer:
   • Approval of creditworthiness.
   • Notification of a change in records.
   • Mailing of a coupon book to the subsequent consumer.
   • Acceptance of payments from the new consumer.

4. Retention of original consumer. The retention of the original consumer as an obligor in some capacity does not prevent the change from being an assumption, provided the new consumer becomes a primary obligor. But the mere addition of a guarantor to an obligation for which the original consumer remains primarily liable does not give rise to an assumption. However, if neither party is designated as the primary obligor but the creditor accepts payment from the subsequent consumer, an assumption exists for purposes of §226.20(b).
5. Status of parties. Section 226.20(b) applies only if the previous debtor was a consumer and the obligation is assumed by another consumer. It does not apply, for example, when an individual takes over the obligation of a corporation.

6. Disclosures. For transactions that are assumptions within this provision, the creditor must make and must include in the notices any disclosures required under §226.17(a)(1). The terms of the parties’ legal obligation, as required under §226.17(c)(1), shall reflect the assumption.

• The amount financed is the remaining principal balance plus any arrearages or other accrued charges from the original transaction.
• If the finance charge is computed from time to time by application of a percentage rate to an unpaid balance, in determining the amount of the finance charge and the annual percentage rate to be disclosed, the creditor should disregard any prepaid finance charges paid by the original obligor, but must include in the finance charge any prepaid finance charge imposed in connection with the assumption.
• If the creditor requires the assuming consumer to pay any charges as a condition of the assumption, those sums are prepaid finance charges to that consumer, unless exempt from the finance charge under §226.4.
If a transaction involves add-on or discount finance charges, the creditor may make abbreviated disclosures, as outlined in §226.20(b) (1) through (5). Creditors providing disclosures pursuant to this section for assumptions of variable-rate transactions secured by the consumer’s principal dwelling with a term longer than one year need not provide new disclosures under §226.18(f)(2)(i) or §226.18(b). In such transactions, a creditor may disclose the variable-rate feature solely in accordance with §226.18(f)(1).

7. Abbreviated disclosures. The abbreviated disclosures permitted for assumptions of transactions involving add-on or discount finance charges must be made clearly and conspicuously in writing in a form that the consumer may keep. However, the creditor need not comply with the segregation requirements of §226.17(a)(1). The terms annual percentage rate and total of payments, when disclosed according to §226.20(b) (4) and (5), are not subject to the description requirements of §226.18 (e) and (h). The term annual percentage rate disclosed under §226.20(b)(4) need not be more conspicuous than other disclosures.

Paragraph 20(c) Variable-rate adjustments.

1. Timing of adjustment notices. This section requires a creditor (or a subsequent holder) to provide certain disclosures in cases where an adjustment to the interest rate is made in a variable-rate transaction subject to §226.18(b). There are two timing rules, depending on whether payment changes accompany interest rate changes. A creditor is required to provide at least one notice each year during which interest rate adjustments have occurred without accompanying payment adjustments. For payment adjustments, a creditor must deliver or place in the mail notices to borrowers at least 25, but not more than 120, calendar days before the new level is due. The timing rules also apply to the notice required to be given in connection with the adjustment to the rate and payment that follows conversion of a transaction subject to §226.19(b) to a fixed-rate transaction. (In cases where an open-end account is converted to a closed-end transaction subject to §226.19(b), the requirements of this section do not apply until adjustments are made following conversion.)

2. Exceptions. Section 226.20(c) does not apply to “shared-equity,” “shared-appreciation,” or “price level adjusted” or similar mortgages.

3. Basis of disclosures. The disclosures required under this section shall reflect the terms of the parties’ legal obligation, as required under §226.17(c)(1).

Paragraph 20(c)(1).

1. Current and prior interest rates. The requirements under this paragraph are satisfied by disclosing the interest rate used to compute the new adjusted payment amount (“current rate”) and the adjusted interest rate that was disclosed in the last adjustment notice, as well as all other interest rates applied to the transaction in the period since the last notice (“prior rates”). (If there has been no prior adjustment notice, the prior rates are the interest rate applicable to the transaction at consummation, as well as all other interest rates applied to the transaction in the period since consummation.) If no payment adjustment has been made in a year, the current rate is the new adjusted interest rate for the transaction, and the prior rates are the adjusted interest rate applicable to the loan at the time of the last adjustment notice, and all other rates applied to the transaction in the period between the current and last adjustment notices. In disclosing all other rates applied to the transaction during the period between notices, a creditor may disclose a range of the highest and lowest rates applied during that period.

Paragraph 20(c)(2).

1. Current and prior index values. This section requires disclosure of the index or formula values used to compute the current and prior interest rates disclosed in §226.20(c)(1). The creditor need not disclose the margin used in computing the rates. If the prior interest rate was not based on an index or formula value, the creditor also need not disclose the value of the index that would otherwise have been used to compute the prior interest rate.

Paragraph 20(c)(3).

1. Unapplied index increases. The requirement that the consumer receive information about the extent to which the creditor has foregone any increase in the interest rate is
applicable only to those transactions permitting interest rate carryover. The amount of increase that is foregone at an adjustment is the amount that, subject to rate caps, can be applied to future adjustments independently to increase, or offset decreases in, the rate that is determined according to the index or formula.

Paragraph 20(c)(4).

1. Contractual effects of the adjustment. The contractual effects of an interest rate adjustment must be disclosed including the payment due after the adjustment is made whether or not the payment has been adjusted. A contractual effect of a rate adjustment would include, for example, disclosure of any change in the term or maturity of the loan if the change resulted from the rate adjustment. In transactions where paying the periodic payments will not fully amortize the outstanding balance at the end of the loan term and where the final payment will equal the periodic payment plus the remaining unpaid balance, the amount of the adjusted payment must be disclosed if such payment has changed as a result of the rate adjustment. A statement of the loan balance also is required. The balance required to be disclosed is the balance on which the new adjusted payment is based. If no payment adjustment is disclosed in the notice, the balance disclosed should be the loan balance on which the payment disclosed under §226.20(c)(5) is based, if applicable, or the balance at the time the disclosure is prepared.

Paragraph 20(c)(5).

1. Fully-amortizing payment. This paragraph requires a disclosure only when negative amortization occurs as a result of the adjustment. A disclosure is not required simply because a loan calls for non-amortizing or partially amortizing payments. For example, in a transaction with a five-year term and payments based on a longer amortization schedule, and where the final payment will equal the periodic payment plus the remaining unpaid balance, the creditor would not have to disclose the payment necessary to fully amortize the loan in the remainder of the five-year term. A disclosure is required, however, if the payment disclosed under §226.20(c)(4) is not sufficient to prevent negative amortization in the loan. The adjustment notice must state the payment required to prevent negative amortization. (This paragraph does not apply if the payment disclosed in §226.20(c)(4) is sufficient to prevent negative amortization in the loan but the final payment will be a different amount due to rounding.)

Previous regulation: Section 226.8(j) through (l), and Interpretation Sections 226.807, 226.811, 226.814, and 226.817.

1981 changes: While the previous regulation treated virtually any change in terms as a refinancing requiring new disclosures, this regulation limits refinancings to transactions in which the entire original obligation is extinguished and replaced by a new one. Redisclosure is no longer required for deferrals or extensions.

The assumption provision retains the substance of §226.8(k) and Interpretation §226.807 of the previous regulation, but limits its scope to residential mortgage transactions.

Section 226.21—Treatment of Credit Balances

Paragraph 21(a).

1. Credit balance. A credit balance arises whenever the creditor receives or holds funds in an account in excess of the total balance due from the consumer on that account. A balance might result, for example, from the debtor’s paying off a loan by transmitting funds in excess of the total balance owed on the account, or from the early payoff of a loan entitling the consumer to a rebate of insurance premiums and finance charges. However, §226.21 does not determine whether the creditor in fact owes or holds sums for the consumer. For example, if a creditor has no obligation to rebate any portion of precomputed finance charges on prepayment, the consumer’s early payoff would not create a credit balance with respect to those charges. Similarly, nothing in this provision interferes with any rights the creditor may have under the contract or under state law with respect to set-off, cross collateralization, or similar provisions.

2. Total balance due. The phrase total balance due refers to the total outstanding balance. Thus, this provision does not apply where the consumer has simply paid an amount in excess of the payment due for a given period.

3. Timing of refund. The creditor may also fulfill its obligation under this section by:

• Refunding any credit balance to the consumer immediately.
• Making a good faith effort to refund any credit balance prior to a written request from the consumer.
• Making a good faith effort to refund any credit balance before 6 months have passed.

If that attempt is unsuccessful, the creditor need not try again to refund the credit balance at the end of the 6-month period.

Paragraph 21(b).

1. Written requests—standing orders. The creditor is not required to honor standing orders requesting refunds of any credit balance that may be created on the consumer’s account.

Paragraph 21(c).

1. Good faith effort to refund. The creditor must take positive steps to return any credit balance that has remained in the account for over 6 months. This includes, if necessary,
Federal Reserve System

attempts to trace the consumer through the consumer’s last known address or telephone number, or both.

2. Good faith effort unsuccessful. Section 226.21 imposes no further duties on the creditor if a good faith effort to return the balance is unsuccessful. The ultimate disposition of the credit balance (or any credit balance of $1 or less) is to be determined under other applicable law.

Previous regulation: None.
1981 changes: This section implements section 165 of the Act, which was expanded by the 1980 statutory amendments to apply to closed-end as well as open-end credit.

Section 226.22—Determination of the Annual Percentage Rate

22(a) Accuracy of the annual percentage rate. Paragraph 22(a)(1).
1. Calculation method. The regulation recognizes both the actuarial method and the United States Rule Method (U.S. Rule) as measures of an exact annual percentage rate. Both methods yield the same annual percentage rate when payment intervals are equal. They differ in their treatment of unpaid accrued interest.

2. Actuarial method. When no payment is made, or when the payment is insufficient to pay the accumulated finance charge, the actuarial method requires that the unpaid finance charge be added to the amount financed and thereby capitalized. Interest is computed on interest since in succeeding periods the interest rate is applied to the unpaid balance including the unpaid finance charge. Appendix J provides instructions and examples for calculating the annual percentage rate using the actuarial method.

3. U.S. Rule. The U.S. Rule produces no compounding of interest in that any unpaid accrued interest is accumulated separately and is not added to principal. In addition, under the U.S. Rule, no interest calculation is made until a payment is received.

4. Basis for calculations. When a transaction involves “step rates” or “split rates”—that is, different rates applied at different times or to different portions of the principal balance—a single composite annual percentage rate must be calculated and disclosed for the entire transaction. Assume, for example, a step-rate transaction in which a $10,000 loan is repayable in 5 years at 10 percent interest for the first 2 years, 12 percent for years 3 and 4, and 14 percent for year 5. The monthly payments are $230.71 during the first 2 years of the term, $290.25 for years 3 and 4, and $322.59 for year 5. The composite annual percentage rate, using a calculator with a “discounted cash flow analysis” or “internal rate of return” function, is 10.75 percent.

5. Good faith reliance on faulty calculation tools. Footnote 45d states that a creditor of liability for an error in the annual percentage rate or finance charge that resulted from a corresponding error in a calculation tool used in good faith by the creditor. Whether or not the creditor’s use of the tool was in good faith must be determined on a case-by-case basis, but the creditor must in any case have taken reasonable steps to verify the accuracy of the tool, including any instructions, before using it. Generally, the footnote is available only for errors directly attributable to the calculation tool itself, including software programs. It is not intended to absolve a creditor of liability for its own errors, or for errors arising from improper use of the tool, from incorrect data entry, or from misapplication of the law.

Paragraph 22(a)(2).
1. Regular transactions. The annual percentage rate for a regular transaction is considered accurate if it varies in either direction by not more than 1⁄4 of 1 percentage point from the actual annual percentage rate. For example, when the exact annual percentage rate is determined to be 10 3⁄4%, a disclosed annual percentage rate from 10% to 10 1⁄4%, or the decimal equivalent, is deemed to comply with the regulation.

Paragraph 22(a)(3).
1. Irregular transactions. The annual percentage rate for an irregular transaction is considered accurate if it varies in either direction by not more than 1⁄4 of 1 percentage point from the actual annual percentage rate. This tolerance is intended for more complex transactions that do not call for a single advance and a regular series of equal payments at equal intervals. The 1⁄4 of 1 percentage point tolerance may be used, for example, in a construction loan where advances are made as construction progresses, or in a transaction where payments vary to reflect the consumer’s seasonal income. It may also be used in transactions with graduated payment schedules where the contract commits the consumer to several series of payments in different amounts. It does not apply, however, to loans with variable rate features where the initial disclosures are based on a regular amortization schedule over the life of the loan, even though payments may later change because of the variable rate feature.

22(a)(4) Mortgage loans.
1. Example. If a creditor improperly omits a $75 fee from the finance charge on a regular transaction, the understated finance charge is considered accurate under §226.18(d)(1), and the annual percentage rate corresponding to that understated finance charge also is considered accurate even if it
falls outside the tolerance of \( \frac{1}{4} \) of 1 percentage point provided under §226.22(a)(2). Because a $75 error was made, an annual percentage rate corresponding to a $100 understatement of the finance charge would not be considered accurate.

22(a)(5) Additional tolerance for mortgage loans.

1. Example. This paragraph contains an additional tolerance for a disclosed annual percentage rate that is incorrect but is closer to the actual annual percentage rate than the rate that would be considered accurate under the tolerance in §226.22(a)(4). To illustrate: In an irregular transaction subject to a \( \frac{1}{4} \) of 1 percentage point tolerance, if the actual annual percentage rate is 9.00 percent and a $75 omission from the finance charge corresponds to a rate of 8.50 percent that is considered accurate under §226.22(a)(4), a disclosed APR of 8.65 percent is within the tolerance in §226.22(a)(5). In this example of an understated finance charge, a disclosed annual percentage rate below 8.50 or above 9.25 percent will not be considered accurate.

22(b) Computation tools.

Paragraph 22(b)(1).

1. Board tables. Volumes I and II of the Board’s Annual Percentage Rate Tables provide a means of calculating annual percentage rates for regular and irregular transactions, respectively. An annual percentage rate computed in accordance with the instructions in the tables is deemed to comply with the regulation, even where use of the tables produces a rate that falls outside the general standard of accuracy. To illustrate:

- Volume I may be used for single advance transactions with completely regular payment schedules or with payment schedules that are regular except for an odd first payment, odd first period or odd final payment. When used for a transaction with a large final balloon payment, Volume I may produce a rate that is considerably higher than the exact rate produced using a computer program based directly on appendix J. However, the Volume I rate—produced using certain adjustments in that volume—is considered to be in compliance.

Paragraph 22(b)(2).

1. Other calculation tools. Creditors need not use the Board tables in calculating the annual percentage rates. Any computation tools may be used, so long as they produce annual percentage rates within \( \frac{1}{4} \) or \( \frac{1}{4} \) of 1 percentage point, as applicable, of the precise actuarial or U.S. Rule annual percentage rate.

22(c) Single add-on rate transactions.

1. General rule. Creditors applying a single add-on rate to all transactions up to 60 months in length may disclose the same annual percentage rate for all those transactions, although the actual annual percentage rate varies according to the length of the transaction. Creditors utilizing this provision must show the highest of those rates. For example:

- An add-on rate of 10 percent converted to an annual percentage rate produce the following actual annual percentage rates at various maturities: at 3 months, 14.94 percent; at 21 months, 18.16 percent; and at 60 months, 17.27 percent. The creditor must disclose an annual percentage rate of 18.16 percent (the highest annual percentage rate) for any transaction up to 5 years, even though that rate is precise only for a transaction of 21 months.

22(d) Certain transactions involving ranges of balances.

1. General rule. Creditors applying a fixed dollar finance charge to all balances within a specified range of balances may underestate the annual percentage rate by up to 8 percent of that rate, by disclosing for all those balances the annual percentage rate computed on the median balance within that range. For example:

- If a finance charge of $9 applies to all balances between $91 and $100, an annual percentage rate of 10 percent (the rate on the median balance) may be disclosed as the annual percentage rate for all balances, even though a $9 finance charge applied to the lowest balance ($91) would actually produce an annual percentage rate of 10.7 percent.

Statute: Section 107.

Other sections: Section 226.17(c)(4) and appendix J.

Previous regulation: Section 226.5(b) through (e).

1981 changes: The section now provides a larger tolerance (\( \frac{1}{4} \) of 1 percentage point) for irregular transactions.

Section 226.23—Right of Rescission

1. Transactions not covered. Credit extensions that are not subject to the regulation are not covered by §226.23 even if a customer’s principal dwelling is the collateral securing the credit. For example, the right of rescission does not apply to a business purpose loan, even though the loan is secured by the customer’s principal dwelling.

22(a) Consumer’s right to rescind.

Paragraph 22(a)(1).

1. Security interest arising from transaction. In order for the right of rescission to apply, the security interest must be retained as part of the credit transaction. For example:

- A security interest is acquired by a contractor who is also extending the credit in the transaction.

- A mechanic’s or materialman’s lien that is retained by a subcontractor or supplier of the contractor-creditor, even when the latter...
Principal dwelling. A consumer can only have one principal dwelling at a time. (But see comment 23(a)(1)-4.) A vacation or other second home would not be a principal dwelling. A transaction secured by a second home (such as a vacation home) that is currently being used as the consumer's principal dwelling is not rescindable, even if the consumer intends to reside there in the future. When a consumer buys or builds a new dwelling that will become the consumer’s principal dwelling within one year or upon completion of construction, the new dwelling is considered the principal dwelling if it secures the acquisition or construction loan. In that case, the transaction secured by the new dwelling is a residential mortgage transaction and is not rescindable. For example, if a consumer whose principal dwelling is currently A builds B, to be occupied by the consumer upon completion of construction, a construction loan to finance B and secured by B is a residential mortgage transaction.

Dwelling, as defined in §226.2, includes structures that are classified as personality under state law. For example, a transaction secured by a mobile home, trailer, or houseboat used as the consumer’s principal dwelling may be rescindable.

4. Special rule for principal dwelling. Notwithstanding the general rule that consumers may have only one principal dwelling, when the consumer is acquiring or constructing a new principal dwelling, any loan subject to Regulation Z and secured by the equity in the consumer’s current principal dwelling (for example, a bridge loan) is subject to the right of rescission regardless of the purpose of that loan. For example, if a consumer whose principal dwelling is currently A builds B, to be occupied by the consumer upon completion of construction, a construction loan to finance B and secured by A is subject to the right of rescission. A loan secured by both A and B is, likewise, rescindable.

5. Addition of a security interest. Under footnote 47, the addition of a security interest in a consumer’s principal dwelling to an existing obligation is rescindable even if the existing obligation is not satisfied and replaced by a new obligation, and even if the existing obligation was previously exempt (because it was credit over $25,000 not secured by real property or a consumer’s principal dwelling). The right of rescission applies only to the added security interest, however, and not to the original obligation. In those situations, only the §226.23(b) notice need be delivered, not new material disclosures; the rescission period will begin to run from the delivery of the notice.

Paragraph 23(a)(2).

1. Consumer’s exercise of right. The consumer must exercise the right of rescission in writing but not necessarily on the notice supplied under §226.23(b). Whatever the means of sending the notice of rescission—mail, telegram or other written means—the time period for the creditor’s performance under §226.23(d)(2) does not begin to run until the notice has been received. The creditor may designate an agent to receive the notification so long as the agent’s name and address appear on the notice provided to the consumer under §226.23(b). Where the creditor fails to provide the consumer with a designated address for sending the notification of rescission, delivering notification to the person or address to which the consumer has been directed to send, payments constitutes delivery to the creditor or assignee, in the case where the creditor fails to designate an address for sending the notification of rescission.

Paragraph 23(a)(3).

1. Rescission period. The period within which the consumer may exercise the right to rescind runs for 3 business days from the last of 3 events:

• Consummation of the transaction.
• Delivery of all material disclosures.

• Delivery to the consumer of the required rescission notice.

For example, if a transaction is consummated on Friday, June 1, and the disclosures and notice of the right to rescind were given on Thursday, May 31, the rescission period will expire at midnight of the third business day after June 1—that is, Tuesday, June 5. In another example, if the disclosures are given and the transaction consummated on Friday, June 1, and the rescission notice is given on Monday, June 4, the rescission period expires at midnight of the third business day after June 4—that is, Thursday, June 7.

The consumer must place the rescission notice in the mail, file it for telegraphic transmission, or deliver it to the creditor’s place of business within that period in order to exercise the right.

2. Material disclosures. Footnote 48 sets forth the material disclosures that must be provided before the rescission period can begin to run. Failure to provide information regarding the annual percentage rate also includes failure to inform the consumer of the existence of a variable rate feature. Failure to give the other required disclosures does not prevent the running of the rescission period, although that failure may result in civil liability or administrative sanctions.

3. Unexpired right of rescission. When the creditor has failed to take the action necessary to start the three-business day rescission period running, the right to rescind automatically lapses on the occurrence of the earliest of the following three events:

• The expiration of three years after consummation of the transaction.
• Transfer of all the consumer’s interest in the property.
• Sale of the consumer’s interest in the property, including a transaction in which the consumer sells the dwelling and takes back a purchase money note and mortgage or retains legal title through a device such as an installment sale contract.

Transfer of all the consumers’ interest includes such transfers as bequests and gifts. A sale or transfer of the property need not be voluntary to terminate the right to rescind. For example, a foreclosure sale would terminate an unexpired right to rescind. As provided in section 125 of the Act, the three-year period may be extended by an administrative proceeding to enforce the provisions of this section. A partial transfer of the consumer’s interest, such as a transfer bestowing co-ownership on a spouse, does not terminate the right of rescission.

Paragraph 23(a)(4).

1. Joint owners. When more than one consumer has the right to rescind a transaction, any of them may exercise that right and cancel the transaction on behalf of all. For example, if both husband and wife have the right to rescind a transaction, either spouse acting alone may exercise the right and both are bound by the rescission.

23(b) Notice of right to rescind.

1. Who receives notice. Each consumer entitled to rescind must be given:

• Two copies of the rescission notice.
• The material disclosures.

In a transaction involving joint owners, both of whom are entitled to rescind, both must receive the notice of the right to rescind and disclosures. For example, if both spouses are entitled to rescind a transaction, each must receive two copies of the rescission notice (one copy to each if the notice is provided in electronic form in accordance with the consumer consent and other applicable provisions of the E-Sign Act) and one copy of the disclosures.

2. Format. The notice must be on a separate piece of paper, but may appear with other information such as the itemization of the amount financed. The material must be clear and conspicuous, but no minimum type size or other technical requirements are imposed. The notices in appendix H provide models that creditors may use in giving the notice.

3. Content. The notice must include all of the information outlined in Section 226.23(b) need not be given before the consumer consent and other applicable provisions of the E-Sign Act) and one copy of the disclosures.

4. Time of providing notice. The notice required by §226.23(b) need not be given before consummation of the transaction. The creditor may deliver the notice after the transaction is consummated, but the rescission period will not begin to run until the notice is given. For example, if the creditor provides the notice on May 15, but disclosures were given and the transaction was consummated on May 10, the 3-business day rescission period will run from May 15.

23(c) Delay of creditor’s performance.

1. General rule. Until the rescission period has expired and the creditor is reasonably satisfied that the consumer has not rescinded, the creditor must not, either directly or through a third party:

• Disburse loan proceeds to the consumer.
• Begin performing services for the consumer.
• Deliver materials to the consumer.
2. Escrow. The creditor may disburse loan proceeds during the rescission period in a valid escrow arrangement. The creditor may not, however, appoint the consumer as "trustee" or "escrow agent" and distribute funds to the consumer in that capacity during the delay period.

3. Actions during the delay period. Section 226.23(d) does not prevent the creditor from taking other steps during the delay, short of beginning actual performance. Unless otherwise prohibited, such as by state law, the creditor may, for example:
- Prepare the loan check.
- Perfect the security interest.
- Prepare to discount or assign the contract to a third party.
- Accrue finance charges during the delay period.

4. Delay beyond rescission period. The creditor must wait until it is reasonably satisfied that the consumer has not rescinded. For example, the creditor may satisfy itself by doing one of the following:
- Waiting a reasonable time after expiration of the rescission period to allow for delivery of a mailed notice.
- Obtaining a written statement from the consumer that the right has not been exercised.

When more than one consumer has the right to rescind, the creditor cannot reasonably rely on the assurance of only one consumer, because other consumers may exercise the right.

23(d) Effects of rescission.
Paragraph 23(d)(1).
1. Termination of security interest. Any security interest giving rise to the right of rescission becomes void when the consumer exercises the right of rescission. The security interest is automatically negated regardless of its status and whether or not it was recorded or perfected. Under §226.23(d)(2), however, the creditor must take any action necessary to reflect the fact that the security interest no longer exists.

Paragraph 23(d)(2).
1. Refunds to consumer. The consumer cannot be required to pay any amount in the form of money or property either to the creditor or to a third party as part of the credit transaction. Any amounts of this nature already paid by the consumer must be refunded. "Any amount" includes finance charges already accrued, as well as other charges, such as broker fees, application and commitment fees, or fees for a title search or appraisal, whether paid to the creditor, paid directly to a third party, or passed on from the creditor to the third party. It is irrelevant that these amounts may not represent profit to the creditor.

2. Amounts not refundable to consumer. Creditors need not return any money given by the consumer to a third party outside of the credit transaction, such as costs incurred for a building permit or for a zoning variance. Similarly, the term any amount does not apply to any money or property given by the creditor to the consumer; those amounts must be tendered by the consumer to the creditor under §226.23(d)(3).

3. Reflection of security interest termination. The creditor must take whatever steps are necessary to indicate that the security interest is terminated. Those steps include the cancellation of documents creating the security interest, and the filing of release or termination statements in the public record. In a transaction involving subcontractors or suppliers that also hold security interests related to the credit transaction, the creditor must insure that the termination of their security interests is also reflected. The 20-day period for the creditor’s action refers to the time within which the creditor must begin the process. It does not require all necessary steps to have been completed within that time, but the creditor is responsible for seeing the process through to completion.

Paragraph 23(d)(3).
1. Property exchange. Once the creditor has fulfilled its obligations under §226.23(d)(2), the consumer must tender to the creditor any property or money the creditor has already delivered to the consumer. At the consumer’s option, property may be tendered at the location of the property. For example, if lumber or fixtures have been delivered to the consumer’s home, the consumer may tender them to the creditor by making them available for pick-up at the home, rather than physically returning them to the creditor’s premises. Money already given to the consumer must be tendered at the creditor’s place of business.

2. Reasonable value. If returning the property would be extremely burdensome to the consumer, the consumer may offer the creditor its reasonable value rather than returning the property itself. For example, if building materials have already been incorporated into the consumer’s dwelling, the consumer may pay their reasonable value.

Paragraph 23(d)(4).
1. Modifications. The procedures outlined in §226.23(d)(2) and (3) may be modified by a court. For example, when a consumer is in bankruptcy proceedings and prohibited from returning anything to the creditor, or when the equities dictate, a modification might be made. The sequence of procedures under §226.23(d)(2) and (3), or a court’s modification of those procedures under §226.23(d)(4), does not affect a consumer’s substantive right to rescind and to have the loan amount adjusted accordingly. Where the consumer’s right to rescind is contested by the creditor, a court would normally determine whether...

the consumer has a right to rescind and determine the amounts owed before establishing the procedures for the parties to tender any money or property.

23(f) Exempt transactions.
1. Residential mortgage transaction. Any transaction to construct or acquire a principal dwelling, whether considered real or personal property, is exempt. (See the commentary to §226.23(a).) For example, a credit transaction to acquire a mobile home or houseboat to be used as the consumer’s principal dwelling would not be rescindable.
2. Lien status. The lien status of the mortgage is irrelevant for purposes of the exemption in §226.23(f)(1); the fact that a loan has junior lien status does not by itself preclude application of this exemption. For example, a home buyer may assume the existing first mortgage and create a second mortgage to finance the balance of the purchase price. Such a transaction would not be rescindable.
3. Combined-purpose transaction. A loan to acquire a principal dwelling and the subsequent advances for improvements are treated as more than one transaction, then only the transaction that finances the acquisition of that dwelling is exempt.
4. New advances. The exemption in §226.23(f)(2) applies only to refinancings (including consolidations) by the original creditor. The original creditor is the creditor to whom the written agreement was initially made payable. In a merger, consolidation, or acquisition, the successor institution is considered the original creditor for purposes of the exemption in §226.23(f)(2). If the refinancing involves a new advance of money, the amount of the new advance is rescindable. In determining whether there is a new advance, a creditor may rely on the amount financed, refinancing costs, and other figures stated in the latest Truth in Lending disclosures provided to the consumer and is not required to use, for example, more precise information that may only become available when the loan is closed. For purposes of the right of rescission, a new advance does not include amounts attributed solely to the costs of the refinancing. These amounts would include §226.4(c)(7) charges (such as attorneys fees and title examination and insurance fees, if borne by the consumer), as well as insurance premiums and other charges that are not finance charges. (Finance charges on the new transaction—points, for example—would not be considered in determining whether there is a new advance of money in a refinancing since finance charges are not part of the amount financed.) To illustrate, if the sum of the outstanding principal balance plus the earned unpaid finance charge is $50,000 and the new amount financed is $51,000, then the refinancing would be exempt if the extra $1,000 is attributed solely to costs financed in connection with the refinancing that are not finance charges. Of course, if new advances of money are made (for example, to pay for home improvements) and the consumer exercises the right of rescission, the consumer must be placed in the same position as he or she was in prior to entering into the new credit transaction. Thus, all amounts of money (which would include all the costs of the refinancing) already paid by the consumer to the creditor or to a third party as part of the refinancing would have to be refunded to the consumer. (See the commentary to §226.23(d)(2) for a discussion of refunds to consumers.)
A model rescission notice applicable to transactions involving new advances appears in appendix H. The general rescission notice (model form H-8) is the appropriate form for use by creditors not considered original creditors in refinancing transactions.
5. State creditors. Cities and other political subdivisions of states acting as creditors are not exempted from this section.
6. Multiple advances. Just as new disclosures need not be made for subsequent advances when treated as one transaction, no new rescission rights arise so long as the appropriate notice and disclosures are given at the outset of the transaction. For example, the creditor extends credit for home improvements secured by the consumer’s principal dwelling, with advances made as repairs progress. As permitted by §226.17(c)(6), the creditor makes a single set of disclosures at the beginning of the construction period, rather than separate disclosures for each advance. The right of rescission does not arise with each advance. However, if the advances are treated as separate transactions, the right of rescission applies to each advance.
7. Spreader clauses. When the creditor holds a mortgage or deed of trust on the consumer’s principal dwelling and that mortgage or deed of trust contains a “spreader...
Federal Reserve System

Clause," subsequent loans made are separate transactions and are subject to the right of rescission. Those loans are rescindable unless the creditor effectively waives its security interest under the spreader clause with respect to the subsequent transactions.

8. Converting open-end to closed-end credit. Under certain state laws, consummation of a closed-end credit transaction may occur at the time a consumer enters into the initial open-end credit agreement. As provided in the commentary to §226.17(b), closed-end credit disclosures may be delayed under these circumstances until the conversion of the open-end account to a closed-end transaction. In accounts secured by the consumer’s principal dwelling, no new right of rescission arises at the time of conversion. Rescission rights under §226.15 are unaffected.

23(g) Tolerances for accuracy.

1. New advance. The phrase “new advance” has the same meaning as in comment 23(f)–4.

23(h) Special Rules for Foreclosures.

1. Recession. Section 226.23(h) applies only to transactions that are subject to rescission under §226.23(a)(1).

Paragraph 23(h)(1)(i).

1. Mortgage broker fees. A consumer may rescind a loan in foreclosure if a mortgage broker fee that should have been included in the finance charge was omitted, without regard to the dollar amount involved. If the amount of the mortgage broker fee is included but misstated the rule in §226.23(h)(2) applies.

23(h)(2) Tolerance for disclosures.

1. General. This section is based on the accuracy of the total finance charge rather than its component charges.

References

Statute: Sections 113, 125, and 130.

Other sections: Section 226.2 and appendix H.

Previous regulation: Section 226.9.

1981 changes: The right to rescind applies not only to real property used as the consumer’s principal dwelling, but to personal property as well. The regulation provides no specific text or format for the notice of the right to rescind.

Section 226.24—Advertising

1. Clear and conspicuous standard. This section is subject to the general “clear and conspicuous” standard for this subpart but prescribes no specific rules for the format of the necessary disclosures. The credit terms need not be printed in a certain type size nor need they appear in any particular place in the advertisement. For example, a merchandise tag that is an advertisement under the regulation complies with this section if the necessary credit terms are on both sides of the tag, so long as each side is accessible.

24(a) Actually available terms.

1. General rule. To the extent that an advertisement mentions specific credit terms, it may state only those terms that the creditor is actually prepared to offer. For example, a creditor may not advertise a very low annual percentage rate that will not in fact be available at any time. This provision is not intended to inhibit the promotion of new credit programs, but to bar the advertising of terms that are not and will not be available. For example, a creditor may advertise terms that will be offered for only a limited period, or terms that will become available at a future date.

24(b) Advertisement of rate of finance charge.

1. Annual percentage rate. Advertised rates must be stated in terms of an annual percentage rate, as defined in §226.22. Even though state or local law permits the use of add-on, discount, time-price differential, or other methods of stating rates, advertisements must state them as annual percentage rates. Unlike the transactional disclosure of an annual percentage rate under §226.18(e), the advertised annual percentage rate need not include a descriptive explanation of the term and may be expressed using the abbreviation APR. The advertisement must state that the rate is subject to increase after consummation if that is the case, but the advertisement need not describe the rate increase, its limits, or how it would affect the payment schedule. As under §226.18(f), relating to disclosure of a variable rate, the rate increase disclosure requirement in this provision does not apply to any rate increase due to delinquency (including late payment), default, acceleration, assumption, or transfer of collateral.

2. Simple or periodic rates. The advertisement may not simultaneously state any other rate, except that a simple annual rate or periodic rate applicable to an unpaid balance may appear along with (but not more conspicuously than) the annual percentage rate. For example:

- In an advertisement for real estate, a simple interest rate may be shown in the same type size as the annual percentage rate for the advertised credit.

3. Buydowns. When a third party (such as a seller) or a creditor wishes to promote the availability of reduced interest rates (consumer or seller buydowns), the advertised annual percentage rate must be determined in accordance with the rules in the commentary to §226.17(c) regarding the basis of transactional disclosures for buydowns. The seller or creditor may advertise the reduced simple interest rate, provided the advertisement shows the limited term to which the reduced rate applies and states the simple interest rate applicable to the balance of the
term. The advertisement may also show the effect of the buydown agreement on the payment schedule for the buydown period without triggering the additional disclosures under §§ 226.24(c)(1)–10. For example, the advertisement may state that “with this buydown arrangement, your monthly payments for the first 3 years of the mortgage term will be only $530” or “this buydown arrangement will reduce your monthly payments for the first 3 years of the mortgage term by $150.”

4. Effective rates. In some transactions the consumer’s payments may be based upon an interest rate lower than the rate at which interest is accruing. The lower rate may be referred to as the effective rate, payment rate or qualifying rate. A creditor or seller may advertise such rates by stating: The term of the reduced payment schedule, the interest rate upon which the reduced payments are calculated, the rate at which the interest is in fact accruing, and the annual percentage rate. The advertised annual percentage rate that must accompany this rate must take into account the interest that will accrue but will not be paid during this period. For example, an advertisement may state “An effective first year interest rate of 10 percent. Interest being earned at 14 percent. Annual percentage rate 15 percent.”

5. Discounted variable-rate transactions. The advertised annual percentage rate for discounted variable-rate transactions must be determined in accordance with comment 17(c)(1)-10 regarding the basis of transactional disclosures for such financing. A creditor or seller may promote the availability of the initial rate reduction in such transactions by advertising the reduced initial rate, provided the advertisement shows the limited term to which the reduced rate applies.

• Limits or caps on periodic rate or payment adjustments need not be stated. To illustrate using the second example in comment 17(c)(1)-10, the fact that the rate is presumed to be 11 percent in the second year and 12 percent for the remaining 28 years need not be included in the advertisement.

• The advertisement may also show the effect of the discount on the payment schedule for the discount period without triggering the additional disclosures under § 226.24(c). For example, the advertisement may state that “with this discount, your monthly payments for the first year of the mortgage term will be only $577” or “this discount will reduce your monthly payments for the first year of the mortgage term by $223.”

24(c) Advertisement of terms that require additional disclosures.

1. General rule. Under § 226.24(c)(1), whenever certain triggering terms appear in credit advertisements, the additional credit terms enumerated in § 226.24(c)(2) must also appear. These provisions apply even if the triggering term is not stated explicitly, but may be readily determined from the advertisement. For example, an advertisement may state “80% financing available,” which is in fact indicating that a 20% downpayment is required. Paragraph 24(c)(1).

1. Downpayment. The dollar amount of a downpayment or a statement of the downpayment as a percentage of the price requires further information. By virtue of the definition of downpayment in § 226.2, this triggering term is limited to credit sale transactions. It includes such statements as:

• Only 5% down.
• As low as $100 down.
• Total move-in costs of $800.

This provision applies only if a downpayment is actually required; statements such as no downpayment or no trade-in required do not trigger the additional disclosures under this paragraph.

2. Payment period. The number of payments required or the total period of repayment includes such statements as:

• 48-month payment terms.
• 30-year mortgage.
• Repayment in as many as 36 monthly installments.

But it does not include such statements as “pay weekly,” “monthly payment terms arranged,” or “take years to repay,” since these statements do not indicate a time period over which a loan may be financed.

3. Payment amount. The dollar amount of any payment includes statements such as:

• “Payable in installments of $103.”
• “$25 weekly.”
• “$1,200 balance payable in 10 equal installments.”

In the last example, the amount of each payment is readily determinable, even though not explicitly stated. But statements such as “monthly payments to suit your needs” or “regular monthly payments” are not covered.

4. Finance charge. The dollar amount of the finance charge or any portion of it includes statements such as:

• “$500 total cost of credit.”
• “$2 monthly carrying charge.”
• “$5,000 mortgages, 2 points to the borrower.”

In the last example, the $1,000 prepaid finance charge can be readily determined from the information given. Statements of the annual percentage rate or statements that there is no particular charge for credit (such as “no closing costs”) are not triggering terms under this paragraph. Paragraph 24(c)(2).

1. Disclosure of downpayment. The total downpayment as a dollar amount or percentage must be shown, but the word “downpayment” need not be used in making this disclosure. For example, “10% cash required
from buyer” or “credit terms require minimum $100 trade-in” would suffice.

2. Disclosure of repayment terms. While the phrase terms of repayment generally has the meaning of the Abbreviation “APR.” The advertisement may use unit-cost approach in making the required disclosure, such as “48 monthly payments of $37.83 per $1,000 borrowed.”

• In an advertisement for credit secured by a dwelling, when any series of payments varies because of a graduated payment feature or because of the inclusion of mortgage insurance premiums, a creditor may state the number and timing of payments, the amounts of the largest and smallest of those payments, and the fact that other payments will vary between those amounts.

3. Annual percentage rate. The advertised annual percentage rate may be expressed using the abbreviation “APR.” The advertisement must also state, if applicable, that the annual percentage rate is subject to increase after consummation.

4. Use of examples. Footnote 49 authorizes the use of illustrative credit transactions to make the necessary disclosures under §226.24(c)(2). That is, where a range of possible combinations of credit terms is offered, the advertisement may use examples of typical transactions, so long as each example contains all of the applicable terms required by §226.24(c). The examples must be labelled as such and must reflect representative credit terms that are made available by the creditor to present and prospective customers.

1. Definition. The multiple-page advertisements to which this section refers are advertisements consisting of a series of sequentially numbered pages—for example, a supplement to a newspaper. A mailing consisting of several separate flyers or pieces of promotional material in a single envelope does not constitute a single multiple-page advertisement for purposes of §226.24(d).

2. General. Section 226.24(d) permits creditors to put credit information together in one place in a catalog or other multiple-page advertisement, or in an electronic advertisement (such as an advertisement appearing on an Internet Web site). The rule applies only if the advertisement contains one or more of the triggering terms from §226.24(c)(1). A list of different annual percentage rates applicable to different balances, for example, does not trigger further disclosures under §226.24(c)(2) and so is not covered by §226.24(d).

3. Representative examples. The table or schedule must state all the necessary information for a representative sampling of amounts of credit. This must reflect amounts of credit the creditor actually offers, up to and including the higher-priced items. This does not mean that the chart must make the disclosures for the single most expensive item the seller offers, but only that the chart cannot be limited to information about less expensive sales when the seller commonly offers a distinct level of more expensive goods or services. The range of transactions shown in the table or schedule in a particular catalog or multiple-page advertisement need not exceed the range of transactions actually offered in that advertisement.

4. Electronic advertisement. If an electronic advertisement (such as an advertisement appearing on an Internet Web site) contains the table or schedule permitted under §226.24(d)(1), any statement of terms set forth in §226.24(c)(1) appearing anywhere else in the advertisement must clearly direct the consumer to the location where the table or schedule begins. For example, a term triggering additional disclosures may be accompanied by a link that directly takes the consumer to the additional information.

References

Statute: Sections 141, 142, and 144.

Other sections: Sections 226.2, 226.4, and 226.22.

Previous regulation: Section 226.10 (a), (b), and (d).

1981 changes: This section retains the advertising rules in a form very similar to the previous regulation, but with certain changes to reflect the 1980 statutory amendments. For example, if triggering terms appear in any advertisement, the additional disclosures required no longer include the cash price. The special rule for FHA section 235 financing has been eliminated, as well as the rule for advertising credit payable in more than four installments with no identified finance charge. Interpretation §226.1002, requiring disclosure of representative amounts of credit in catalogs and multiple-page advertisements, has been incorporated in simplified form in §226.24(d).

Unlike the previous regulation, if the advertised annual percentage rate is subject to increase, that fact must now be disclosed.

SUBPART D—MISCELLANEOUS

Section 226.25—Record Retention

25(a) General rule.

1. Evidence of required actions. The creditor must retain evidence that it performed the required actions as well as made the required
disclosures. This includes, for example, evidence that the creditor properly handled adverse credit reports in connection with amounts subject to a billing dispute under §§226.13, and properly handled the refunding of credit balances under §§226.11 and 226.21.

2. Methods of retaining evidence. Adequate evidence of compliance does not necessarily mean actual paper copies of disclosure statements or other business records. The evidence may be retained on microfilm, microfiche, or by any other method that reproduces records accurately (including computer programs). The creditor need retain only enough information to reconstruct the required disclosures or other records. Thus, for example, the creditor need not retain each open-end periodic statement, so long as the specific information on each statement can be retrieved.

3. Certain variable-rate transactions. In variable-rate transactions that are subject to the disclosure requirements of §226.19(b), written procedures for compliance with those requirements as well as a sample disclosure form for each loan program represent adequate evidence of compliance. (See comment 25(a)-2 pertaining to permissible methods of retaining the required disclosures.)

4. Home equity plans. In home equity plans that are subject to the requirements of §226.5b, written procedures for compliance with those requirements as well as a sample disclosure form and contract for each home equity program represent adequate evidence of compliance. (See comment 25(a)-2 pertaining to permissible methods of retaining the required disclosures.)

Statute: Sections 105 and 108.
Other sections: Appendix I.
Previous regulation: Section 226.6(i).

1981 changes: Section 226.25 substitutes a uniform 2-year record-retention rule for the previous requirement that certain creditors retain records through at least one compliance examination. It also states more explicitly that the record-retention requirements apply to evidence of required actions.

Section 226.26—Use of Annual Percentage Rate in Oral Disclosures

1. Application of rules. The restrictions of §226.26 apply only if the creditor chooses to respond orally to the consumer’s request for credit cost information. Nothing in the regulation requires the creditor to supply rate information orally. If the creditor volunteers information (including rate information) through oral solicitations directed generally to prospective customers, as through a telephone solicitation, those communications may be advertisements subject to the rules in §§226.18 and 226.24.  

26(b) Closed-end credit.

1. Information that may be given. The creditor may state other annual or periodic rates that are applied to an unpaid balance, along with the required annual percentage rate. This rule permits disclosure of a simple interest rate, for example, but not an add-on, discount, or similar rate. If the creditor cannot give a precise annual percentage rate in its oral response because of variables in the transaction, it must give the annual percentage rate for a comparable sample transaction; in this case, other cost information may, but need not, be given. For example, the creditor may be unable to state a precise annual percentage rate for a mortgage loan without knowing the exact amount to be financed, the amount of loan fees or mortgage insurance premiums, or similar factors. In this situation, the creditor should state an annual percentage rate for a sample transaction; it may also provide information about the consumer’s specific case, such as the contract interest rate, points, other finance charges, and other charges.

References

Statute: Section 146.
Other sections: Sections 226.6(a)(2) and 226.7(d).

Previous regulation: Interpretation §226.101.
1981 changes: This section implements amended section 146 of the Act, which added a provision dealing with oral disclosures, and incorporates Interpretation §226.101.

Section 226.27—Language of Disclosures

1. Subsequent disclosures. If a creditor provides initial disclosures in a language other than English, subsequent disclosures need not be in that other language. For example, if the creditor gave Spanish-language initial disclosures, periodic statements and change-in-terms notices may be made in English.

2. [Reserved]

Statute: None.
Other sections: None.
Previous regulation: Section 226.6(a).
1981 changes: No substantive change.
Section 226.28—Effect on State Laws

38(a) Inconsistent disclosure requirements

1. General. There are 3 sets of preemption criteria: 1 applies to the general disclosure and advertising rules of the regulation, and 2 apply to the credit billing provisions. Section 226.28 also provides for Board determinations of preemption.

2. Rules for chapters 1, 2, and 3. The standard for judging whether State laws that cover the types of requirements in chapters 1 (General provisions), 2 (Credit transactions), and 3 (Credit advertising) of the Act are inconsistent and therefore preempted, is contradiction of the Federal law. Examples of laws that would be preempted include:

- A State law that requires use of the term finance charge, but defines the term to include fees that the Federal law excludes, or to exclude fees the Federal law includes.
- A State law that requires a label such as nominal annual interest rate to be used for what the Federal law calls the annual percentage rate.

3. Laws not contradictory to chapters 1, 2, and 3. Generally, State law requirements that call for the disclosure of items of information not covered by the Federal law, or that require more detailed disclosures, do not contradict the Federal requirements. Examples of laws that are not preempted include:

- A State law that requires disclosure of the minimum periodic payment for open-end credit, even though not required by §226.7.
- A State law that requires contracts to contain warnings such as: “Read this contract before you sign. Do not sign if any spaces are left blank. You are entitled to a copy of this contract.”

Similarly, a State law that requires itemization of the amount financed does not automatically contradict the permissive itemization under §226.18(c). However, a State law requirement that the itemization appear with the disclosure of the amount financed in the segregated closed-end credit disclosures is inconsistent, and this location requirement would be preempted.

4. Creditor’s options. Before the Board makes a determination about a specific State law, the creditor has certain options. Since the prohibition against giving the State disclosures does not apply until the Board formally determines that the State law is inconsistent. (The Board will provide sufficient time for creditors to revise forms and procedures as necessary to conform to its determinations.)

- Under this first approach, as in all cases, the Federal disclosures must be properly segregated in accordance with §226.17(a)(1).
- This ability to give State disclosures relieves any uncertainty that the creditor might have prior to Board determinations of inconsistency.

As a second option, the creditor may apply the preemption standards to a State law, conclude that it is inconsistent, and choose not to give the state-required disclosures. However, nothing in §226.28(a) provides the creditor with immunity for violations of State law if the creditor chooses not to make State disclosures and the Board later determines that the State law is not preempted.

5. Rules for correction of billing errors and regulation of credit reports. The preemption criteria for the fair credit billing provisions set forth in §226.28 have 2 parts. With respect to the rules on correction of billing errors and regulation of credit reports (which are in §§226.13), §226.28(a)(2)(i) provides that a State law is inconsistent and preempted if its requirements are different from the Federal law. An exception is made, however, for State laws that allow the consumer to inquire about an account and require the creditor to respond to such inquiries before the time limits in the Federal law. Such a State law is not preempted with respect to the extra time period. For example, §226.13 requires the consumer to submit a written notice of billing error within 60 days after transmittal of the periodic statement showing the alleged error. If a State law allows the consumer 90 days to submit a notice, the State law remains in effect to provide the extra 30 days. Any State law disclosures concerning this extended state time limit must reflect the qualifications and conform to the format specified in §226.28(a)(2)(i). Examples of laws that would be preempted include:

- A State law that has a narrower or broader definition of billing error.
- A State law that requires the creditor to take different steps to resolve errors.
- A State law that provides different timing rules for error resolution (subject to the exception discussed above).

6. Rules for other fair credit billing provisions. The second part of the criteria for fair credit billing relates to the other rules implementing chapter 4 of the Act (addressed in §§226.4(c)(8), 226.5(b)(2)(i), 226.6(d), 226.7(k), 226.9(a), 226.10, 226.11, 226.12(c) through (f), 226.13, and 226.21). Section 226.28(a)(2)(ii) provides that the test of inconsistency is whether the creditor can comply with State law without violating Federal law. For example:

- A State law that allows the card issuer to offset the consumer’s credit-card indebtedness against funds held by the card issuer would be preempted, since §226.12(d) prohibits such action.
- A State law that requires periodic statements to be sent more than 14 days before the
Section 44–287 B.6—Disclosure of finance charge

Federal law:

In those transactions in which the amount of the finance charge is different from the Federal amount financed, since in such transactions the State law requires the use of a term different from the Federal term to represent the same amount.

Section 44–287 B.7—Disclosure of the time balance. The time balance disclosure provision is preempted in those transactions in which the amount is the same as the amount of the Federal total of payments, since in such transactions the State law requires the use of a term different from the Federal term to represent the same amount.

9. Preemption determination—Florida. Effective October 1, 1983, the Board has determined that the following provisions in the State law of Florida are preempted by the Federal law:

Sections 520.07(2)(f) and 520.34(2)(f)—Disclosure of amount financed. This disclosure is preempted in those transactions in which the amount is different from the Federal amount financed, since in such transactions the State law requires the use of the same term as the Federal law to represent a different amount.

Sections 520.07(2)(g), 520.34(2)(g), and 520.35(2)(d)—Disclosure of finance charge and a description of its components. The finance charge disclosure is preempted in those transactions in which the amount of the finance charge is different from the Federal amount, since in such transactions the State law requires the use of the same term as the Federal law to represent a different amount. The requirement to describe or itemize the components of the finance charge, which is also included in these provisions, is not preempted.

Sections 520.07(2)(h) and 520.34(2)(h)—Disclosure of total of payments. The total of payments disclosure is preempted in those transactions in which the amount differs from the amount of the Federal total of payments, since in such transactions the State law requires the use of the same term as the Federal law to represent a different amount than the Federal law.

Sections 520.07(2)(i) and 520.34(2)(i)—Disclosure of deferred payment price. This disclosure is preempted in those transactions in which the amount is the same as the Federal total sale price, since in such transactions the State law requires the use of a different term than the Federal law to represent the same amount as the Federal law.

10. Preemption determination—Missouri. Effective October 1, 1983, the Board has determined that the following provisions in the State law of Missouri are preempted by the Federal law:

Sections 365.070–6(9) and 408.260–5(6)—Disclosure of principal balance. This disclosure is preempted in those transactions in which the amount of the principal balance is the same as the Federal amount financed, since in such transactions the State law requires the use of the same term as the Federal law to represent a different amount from the Federal term to represent the same amount.

Sections 365.070–6(10) and 408.260–5(7)—Disclosure of time price differential and time charge, respectively. These disclosures are preempted in those transactions in which the amount is the same as the Federal finance charge, since in such transactions the State law requires the use of a term different from the Federal law to represent the same amount.

Sections 365.070–2 and 408.260–2—Use of the terms time price differential and time charge in certain notices to the buyer. In those transactions in which the State disclosure of the time price differential or time charge is preempted, the use of the terms in this notice also is preempted. The notice itself is not preempted.

Sections 365.070–4(11) and 408.260–5(8)—Disclosure of time balance. The time balance disclosure is preempted in those transactions in which the amount is the same as the amount of the Federal total of payments, since in such transactions the State law requires the use of a different term than the Federal law to represent the same amount.

Sections 365.070–6(12) and 408.260–5(9)—Disclosure of time sale price. This disclosure
Federal Reserve System

is preempted in those transactions in which the amount is the same as the Federal total sale price, since in such transactions the State law requires the use of a different term from the Federal law to represent the same amount.

11. Preemption determination—Mississippi. Effective October 1, 1984, the Board has determined that the following provision in the State law of Mississippi is preempted by the Federal law:

- Section 63–19–31(2)(g)—Disclosure of finance charge. This disclosure is preempted in those cases in which the term finance charge would be used under State law to describe a different amount than the finance charge disclosed under Federal law.

12. Preemption determination—South Carolina. Effective October 1, 1984, the Board has determined that the following provision in the State law of South Carolina is preempted by the Federal law:

- Section 37–19–102(c)—Disclosure of due-on-sale clause. This provision is preempted, but only to the extent that the creditor is required to include the disclosure with the segregated Federal disclosures. If the creditor may comply with the State law by placing the due-on-sale notice apart from the Federal disclosures, the State law is not preempted.

13. Preemption determination—Arizona. Effective October 1, 1986, the Board has determined that the following provision in the State law of Arizona is preempted by the Federal law:

- Section 6–621A.2—Use of the term the total sum of $______ in certain notices provided to borrowers. This term describes the same item that is disclosed under Federal law as the total of payments. Since the State law requires the use of a different term than Federal law to describe the same item, the State-required term is preempted. The notice itself is not preempted.

NOTE: The State disclosure notice that incorporated the above preempted term was amended on May 4, 1987, to provide that disclosures must now be made pursuant to the Federal disclosure provisions.

14. Preemption determination—Indiana. Effective October 1, 1988, the Board has determined that the following provision in the State law of Indiana is preempted by the Federal law:

- Section 23–2–5–8—Inclusion of the loan broker’s fees and charges in the calculation of, among other items, the finance charge and annual percentage rate disclosed to potential borrowers. This disclosure is inconsistent with sections 106(a) and 226.9(a) of the Federal statute and regulation, respectively, and is preempted in those instances where the use of the same term would disclose a different amount than that required to be disclosed under Federal law.

15. Preemption determination—Wisconsin. Effective October 1, 1991, the Board has determined that the following provisions in the State law of Wisconsin are preempted by the Federal law:

- Section 422.308(1)—the disclosure of the annual percentage rate in cases where the amount of the annual percentage rate disclosed to consumers under the State law differs from the amount that would be disclosed under federal law, since in those cases the State law requires the use of the same term as the federal law to represent a different amount than the federal law.

- Section 766.565(5)—the provision permitting a creditor to include in an open-end home equity agreement authorization to declare the account balance due and payable upon receiving notice of termination from a non-obligor spouse, since such provision is inconsistent with the purpose of the federal law.

28(b) Equivalent disclosure requirements.

1. General. A state disclosure may be substituted for a Federal disclosure only after the Board has made a finding of substantial similarity. Thus, the creditor may not unilaterally choose to make a state disclosure in place of a Federal disclosure, even if it believes that the state disclosure is substantially similar. Since the rule stated in §226.28(b) does not extend to any requirement relating to the finance charge or annual percentage rate, no state provision on computation, description, or disclosure of these terms may be substituted for the Federal provision.

28(d) Special Rule for Credit and Charge Cards

1. General. The standard that applies to preemption of state laws as they affect transactions of the type subject to §§226.5a and 226.9(e) differs from the preemption standards generally applicable under the Truth in Lending Act. The Fair Credit and Charge Card Disclosure Act fully preempts state laws relating to the disclosure of credit information in consumer credit or charge card applications or solicitations. (For purposes of this section, a single credit or charge card application or solicitation that may be used to open either an account for consumer purposes or an account for business purposes is deemed to be a “consumer credit or charge card application or solicitation.”) For example, a state law requiring disclosure of credit terms in direct mail solicitations for consumer credit card accounts is preempted. A state law requiring disclosures in telephone applications for consumer credit card accounts also is preempted, even if it applies to applications initiated by the consumer rather than the issuer, because the state law relates to the disclosure of credit information in applications or solicitations within the general field of preemption, that is, consumer credit and charge cards.
2. Limitations on field of preemption. Preemption under the Fair Credit and Charge Card Disclosure Act does not extend to state laws applying to types of credit other than open-end consumer credit and charge card accounts. Thus, for example, a state law is not preempted as it applies to disclosures in credit and charge card applications and solicitations solely for business-purpose accounts. On the other hand, state credit disclosure laws will not apply to a single application or solicitation to open either an account for consumer purposes or an account for business purposes. Such “dual purpose” applications and solicitations are treated as “consumer credit or charge card applications or solicitations” under this section and state credit disclosure laws applicable to them are preempted. Preemption under this statute does not extend to state laws applicable to home equity plans; preemption determinations in this area are based on the Home Equity Loan Consumer Protection Act, as implemented in §226.5b of the regulation.

3. Laws not preempted. State laws relating to disclosures concerning credit and charge cards other than in applications, solicitations, or renewal notices are not preempted under §226.5a and 226.9(e). In addition, state laws regulating the terms of credit and charge card accounts are not preempted, nor are laws preempted that regulate the form or content of information unrelated to the information required to be disclosed under §§226.5a and 226.9(e). Finally, state laws concerning the enforcement of the requirements of §§226.5a and 226.9(e) and state laws prohibiting unfair or deceptive acts or practices concerning credit and charge card applications, solicitations and renewals are not preempted. Examples of laws that are not preempted include:

- A state law that requires card issuers to offer a grace period or that prohibits certain fees in credit and charge card transactions.
- A state retail installment sales law or a state plain language law, except to the extent that it regulates the disclosure of credit information in applications, solicitations and renewals of accounts of the type subject to §§226.5a and 226.9(e).
- A state law requiring notice of a consumer’s rights under antidiscrimination or similar laws or a state law requiring notice about credit information available from state authorities.

References

Statute: Sections 111 and 171 (a) and (c).
Other sections: Appendix A.
Previous regulation: Section 226.6 (b) and (c), and Interpretation §226.604.
1981 changes: Section 226.28 implements amended section 111 of the Act. The test for preemption of state laws relating to disclosure and advertising is now whether the state law “contradicts” the Federal, rather than whether state requirements are “different.”

The revised regulation contains no counterpart to §226.6(c) of the previous regulation concerning placement of inconsistent disclosures. It also reflects the statutory amendment providing that once the Board determines that a state-required disclosure is inconsistent with Federal law, the creditor may not make the state disclosure.

Section 226.29—State Exemptions

29(a) General rule. The state determines the classes of transactions for which it will request an exemption, and makes its application for those classes. Classes might be, for example, all open-end credit transactions, all open-end and closed-end transactions, or all transactions in which the creditor is a bank.

2. Substantial similarity. The “substantially similar” standard requires that state statutory or regulatory provisions and state interpretations of those provisions be generally the same as the Federal Act and Regulation Z. This includes the requirement that state provisions for reimbursement to consumers for overcharges be at least equivalent to those required in section 108 of the act. A State will be eligible for an exemption even if its law covers classes of transactions not covered by the Federal law. For example, if a State’s law covers agricultural credit, this will not prevent the Board from granting an exemption for consumer credit, even though agricultural credit is not covered by the Federal law.

3. Adequate enforcement. The standard requiring adequate provision for enforcement generally means that appropriate state officials must be authorized to enforce the state law through procedures and sanctions comparable to those available to Federal enforcement agencies. Furthermore, state law must make adequate provision for enforcement of the reimbursement rules.

4. Exemptions granted. Effective October 1, 1982, the Board has granted the following exemptions from portions of the revised Truth in Lending Act:

- Maine. Credit or lease transactions subject to the Maine Consumer Credit Code and its implementing regulations are exempt from chapters 2, 4 and 5 of the Federal Act. (The exemption does not apply to transactions in which a federally chartered institution is a creditor or lessor.)
- Connecticut. Credit transactions subject to the Connecticut Truth in Lending Act are exempt from chapters 2 and 4 of the Federal Act. (The exemption does not apply to transactions in which a federally chartered institution is a creditor.)
- Massachusetts. Credit transactions subject to the Massachusetts Truth in Lending Act are exempt from chapters 2 and 4 of the
Federal Reserve System

Federal Act. (The exemption does not apply to transactions in which a federally chartered institution is a creditor.)

- Oklahoma. Credit or lease transactions subject to the Oklahoma Consumer Credit Code are exempt from chapters 2 and 5 of the Federal Act. (The exemption does not apply to transactions in which a federally chartered institution is a creditor or lessor.)

- Wyoming. Credit transactions subject to the Wyoming Consumer Credit Code are exempt from chapter 2 of the Federal Act. (The exemption does not apply to transactions in which a federally chartered institution is a creditor.)

20(b) Civil liability.

1. Not eligible for exemption. The provision that an exemption may not extend to sections 130 and 131 of the Act assures that consumers retain access to both Federal and State courts in seeking damages or civil penalties for violations, while creditors retain the defenses specified in those sections.

Statute: Sections 106, 123, and 171(b).
Other sections: Appendix B.
Previous regulation: Section 226.12.
1981 changes: The procedures that states must follow to seek exemptions are now located in an appendix. Exemptions under the previous regulation will be automatically revoked on April 1, 1982, when compliance with the new regulation is mandatory.

Section 226.30—Limitation on Rates

1. Scope of coverage. The requirement of this section applies to consumer credit obligations secured by a dwelling (as dwelling is defined in §226.2(a)(19)) in which the annual percentage rate may increase after consummation (or during the term of the plan, in the case of open-end credit) as a result of an increase in the interest rate component of the finance charge—whether those increases are tied to an index or formula or are within a creditor’s discretion. The section applies to credit sales as well as loans. Examples of credit obligations subject to this section include:

- Dwelling-secured credit obligations that require variable-rate disclosures under the regulation because the interest rate may increase during the term of the obligation.

- Dwelling-secured open-end credit plans entered into before November 7, 1989 (the effective date of the home equity rules) that are not considered variable-rate obligations for purposes of disclosure under the regulation but where the creditor reserves the contractual right to increase the interest rate—periodic rate and corresponding annual percentage rate—during the term of the plan.

In contrast, credit obligations in which there is no contractual right to increase the interest rate during the term of the obligation are not subject to this section. Examples include:

- “Shared-equity” or “shared-appreciation” mortgage loans that have a fixed rate of interest and a shared-appreciation feature based on the consumer’s equity in the mortgaged property. (The appreciation share is payable in a lump sum at a specified time.)

- Dwelling-secured fixed-rate closed-end balloon-payment mortgage loans and dwelling-secured fixed-rate open-end plans with a stated term that the creditor may renew at maturity. (Contrast with the renewable balloon-payment mortgage instrument described in comment 17(c)(1)-11.)

- Dwelling-secured fixed-rate closed-end multiple advance transactions in which each advance is disclosed as a separate transaction.

- “Price level adjusted mortgages” or other indexed mortgages that have a fixed rate of interest but provide for periodic adjustments to payments and the loan balance to reflect changes in an index measuring prices or inflation.

The requirement of this section does not apply to credit obligations entered into prior to December 9, 1987. Consequently, new advances under open-end credit plans existing prior to December 9, 1987, are not subject to this section.

2. Refinanced obligations. On or after December 9, 1987, when a credit obligation is refinanced, as defined in §226.20(a), the new obligation is subject to this section if it is dwelling-secured and allows for increases in the interest rate.

3. Assumptions. On or after December 9, 1987, when a credit obligation is assumed, as defined in §226.20(b), the obligation becomes subject to this section if it is dwelling-secured and allows for increases in the interest rate.

4. Modifications of obligations. The modification of an obligation, regardless of when the obligation was entered into, is generally not covered by this section. For example, increasing the credit limit on a dwelling-secured, open-end plan with a variable interest rate entered into before the effective date of the rule does not make the obligation subject to this section. If, however, a security interest in a dwelling is added on or after December 9, 1987, to a credit obligation that allows for interest rate increases, the obligation becomes subject to this section. Similarly, if a variable interest rate feature is added to a dwelling-secured credit obligation, the obligation becomes subject to this section.

5. Land trusts. In some states, a land trust is used in residential real estate transactions. (See discussion in comment 3(a)-8.)
If a consumer-purpose loan that allows for interest rate increases is secured by an assignment of a beneficial interest in a land trust that holds title to a consumer's dwelling, that loan is subject to this section.

6. Relationship to other sections. Unless otherwise provided for in the commentary to this section, other provisions of the regulation such as definitions, exemptions, rules and interpretations also apply to this section where appropriate. To illustrate:

- An adjustable interest rate business-purpose loan is not subject to this section even if the loan is secured by a dwelling because such credit extensions are not subject to the regulation. (See generally §226.3(a).)
- Creditors subject to this section are only those that fall within the definition of a creditor in §226.2(a)(17).

7. Consumer credit contract. Creditors are required to specify a lifetime maximum interest rate in their credit contracts—the instrument that creates personal liability and generally contains the terms and conditions of the agreement (for example, a promissory note or home-equity line of credit agreement). In some states, the signing of a commitment letter may create a binding obligation, for example, constituting consummation as defined in §226.2(a)(13). The maximum interest rate must be included in the credit contract, but a creditor may include the rate ceiling in the commitment instrument as well.

8. Manner of stating the maximum interest rate. The maximum interest rate must be stated in the credit contract either as a specific amount or in any other manner that would allow the consumer to easily ascertain, at the time of entering into the obligation, what the rate ceiling will be over the term of the obligation. For example, the following statements would be sufficiently specific:

- The maximum interest rate will not exceed X%.
- The interest rate will never be higher than X percentage points above the initial rate of Y%.
- The interest rate will not exceed X%, or X percentage points about [a rate to be determined at some future point in time], whichever is less.
- The maximum interest rate will not exceed X%, or the state usury ceiling, whichever is less.

The following statements would not comply with this section:

- The interest rate will never be higher than X percentage points over the prevailing market rate.
- The interest rate will never be higher than X percentage points above [a rate to be determined at some future point in time].
- The interest rate will not exceed the state usury ceiling which is currently X%.

A creditor may state the maximum rate in terms of a maximum annual percentage rate that may be imposed. Under an open-end credit plan, this normally would be the corresponding annual percentage rate. (See generally §226.6(a)(2).)

9. Multiple interest rate ceilings. Creditors are not prohibited from setting multiple interest rate ceilings. For example, on loans with multiple variable-rate features, creditors may establish a maximum interest rate for each feature. To illustrate, in a variable-rate loan that has an option to convert to a fixed rate, a creditor may set one maximum interest rate for the initially imposed indexed-based variable-rate feature and another for the conversion option. Of course, a creditor may establish one maximum interest rate applicable to all features.

10. Interest rate charged after default. State law may allow an interest rate after default which is higher than the contract rate in effect at the time of default; however, the interest rate after default is subject to a maximum interest rate set forth in a credit obligation that is otherwise subject to this section. This rule applies only in situations in which a post-default agreement is still considered part of the original obligation.

11. Increasing the maximum interest rate—general rule. Generally, a creditor may not increase the maximum interest rate originally set on a credit obligation subject to this section unless the consumer and the creditor enter into a new obligation. Therefore, under an open-end plan, a creditor may not increase the rate ceiling imposed merely because there is an increase in the credit limit. If an open-end plan is closed and another opened, a new rate ceiling may be imposed. Furthermore, where an open-end plan has a fixed maturity and a creditor renew the plan at maturity, or enters into a closed-end credit transaction, a new maximum interest rate may be set at that time. If the open-end plan provides for a repayment phase, the maximum interest rate cannot be increased when the repayment phase begins unless the agreement provided for such an increase. For a closed-end credit transaction, a new maximum interest rate may be set only if the transaction is satisfied and replaced by a new obligation. (The exceptions in §226.20(a)(1)-(5) which limit what transactions are considered refinancings for purposes of disclosure do not apply with respect to increasing a rate ceiling that has been imposed; if a transaction is satisfied and replaced, the rate ceiling may be increased.)

12. Increasing the maximum interest rate—assumption of an obligation. If an obligation subject to this section is assumed by a new obligor and the original obligor is released from liability, the maximum interest rate set on the obligation may be increased as part of the assumption agreement. (This rule
Section 226.31—General Rules

1. Furnishing disclosures. Disclosures are considered furnished when received by the consumer.

2. Pre-consummation waiting period. A creditor must furnish §226.32 disclosures at least three business days prior to consummation. Under §226.32, “business day” has the same meaning as the rescission rule in comment 2a(a)(6)–2—all calendar days except Sundays and the federal legal holidays listed in 5 USC 6103(a). However, while the disclosure rule under §§226.15 and 226.23 extends to midnight of the third business day, the rule under §226.32 does not. For example, under §226.32, if disclosures were provided on a Friday, consummation could occur any time on Tuesday, the third business day following receipt of the disclosures. If the timing of the rescission rule were to be used, consumption could not occur until after midnight on Tuesday.

3. Transition rules. Under footnote 50, if creditors properly include the maximum rate in their credit contracts, creditors need not revise their Truth in Lending disclosure statement forms to add the disclosures about limitations on rate increases as part of the variable-rate disclosures, until October 1, 1988. On or after that date, creditors must have the maximum rate set forth in their credit contracts and, where applicable, as part of their truth in lending disclosures in the manner prescribed in the applicable sections of the regulation.

Other sections: Sections 226.6, 226.18, and 226.19

Previous regulation: None

1987 changes: This section implements section 1204 of the Competitive Equality Banking Act of 1987, Pub. L. No. 100-86, 101 Stat. 552 which provides that, effective December 9, 1987, adjustable-rate mortgages must include a limitation on the interest rate that may apply during the term of the mortgage loan. An adjustable-rate mortgage loan is defined in section 1204 as “any loan secured by a lien on a one-to-four family dwelling unit, including a condominium unit, cooperative housing unit, or mobile home, where the loan is made pursuant to an agreement under which the creditor may, from time to time, adjust the rate of interest.” The rule in this section incorporates section 1204 into Regulation Z and limits the scope of section 1204 to dwelling-secured consumer credit subject to the Truth in Lending Act, in which a creditor has the contractual right to increase the interest rate during the term of the credit obligation.

SUBPART E—SPECIAL RULES FOR CERTAIN HOME MORTGAGE TRANSACTIONS

Section 226.31—General Rules

31(c) Timing of disclosure.

1. Furnishing disclosures. Disclosures are considered furnished when received by the consumer.

Paragraph 31(c)(1) Disclosures for certain closed-end home mortgages.

2. Pre-consummation waiting period. A creditor must furnish §226.32 disclosures at least three business days prior to consummation. Under §226.32, “business day” has the same meaning as the rescission rule in comment 2a(a)(6)–2—all calendar days except Sundays and the federal legal holidays listed in 5 USC 6103(a). However, while the disclosure rule under §§226.15 and 226.23 extends to midnight of the third business day, the rule under §226.32 does not. For example, under §226.32, if disclosures were provided on a Friday, consummation could occur any time on Tuesday, the third business day following receipt of the disclosures. If the timing of the rescission rule were to be used, consumption could not occur until after midnight on Tuesday.

Paragraph 31(c)(1)(i) Change in terms.

1. Redisclosure required. Creditors must provide new disclosures when a change in terms makes disclosures previously provided under §226.32(c) inaccurate, including disclosures based on and labeled as an estimate. A change in terms may result from a formal written agreement or otherwise.

2. Sale of optional products at consummation.

If the consumer finances the purchase of optional products such as credit insurance and as a result the monthly payment differs from what was previously disclosed under §226.32, redisclosure is required and a new three-day waiting period applies. (See comment 32(c)(3)–1 on when optional items may be included in the regular payment disclosure.)

Paragraph 31(c)(1)(ii) Telephone disclosures.

1. Telephone disclosures. Disclosures by telephone must be furnished at least three business days prior to consummation, calculated in accord with the timing rules under §226.31(c)(1).

Paragraph 31(c)(1)(iii) Consumer’s waiver of waiting period before consummation.

1. Modification or waiver. A consumer may modify or waive the right to the three-day waiting period only after receiving the disclosures required by §226.32 and only if the circumstances meet the criteria for establishing a bona fide personal financial emergency under §226.32(e). Whether these criteria are met is determined by the facts surrounding individual situations. The imminent sale of the consumer’s home at foreclosure during the three-day period is one example of a bona fide personal financial emergency. Each consumer entitled to the three-day waiting period must sign the handwritten statement for the waiver to be effective.

Paragraph 31(c)(2) Disclosures for reverse mortgages.

1. Business days. For purposes of providing reverse mortgage disclosures, “business day” has the same meaning as in comment 31(c)(1)(ii)–all calendar days except Sundays and the federal legal holidays listed in 5 USC 6103(a). This means if disclosures are provided on a Friday, consummation could occur any time on Tuesday, the third business day following receipt of the disclosures.

2. Open-end plans. Disclosures for open-end reverse mortgages must be provided at least three business days before the first transaction under the plan (see §226.3(b)(1)).

31(d) Basis of disclosures and use of estimates.

1. Redisclosure. Section 226.31(d) allows the use of estimates when information necessary
for an accurate disclosure is unknown to the creditor, provided that the disclosure is clearly identified as an estimate. For purposes of Subpart E, the rule in §226.31(c)(1)(i) requiring new disclosures when the creditor changes terms also applies to disclosures labeled as estimates.

31(d)(3) Per-diem interest. This paragraph applies to the disclosure of any numerical amount (such as the finance charge, annual percentage rate, or payment amount) that is affected by the amount of the per-diem interest charge that will be collected at consummation. If the amount of per-diem interest used in preparing the disclosures for consummation is based on the information known to the creditor at the time the disclosure document is prepared, the disclosures are considered accurate under this rule, and affected disclosures are also considered accurate, even if the disclosures were not labeled as estimates. (See comment 17(c)(2)(ii)–1 generally.)

Section 226.32—Requirements for Certain Closed-End Home Mortgages

1. Application date. An application is deemed received when it reaches the creditor in any of the ways applications are normally transmitted. (See §226.19(a).) For example, if a borrower applies for a 10-year loan on September 30 and the creditor counteroffers with a 7-year loan on October 10, the application is deemed received in September and the creditor must measure the annual percentage rate against the appropriate Treasury security yield as of August 15. An application transmitted through an intermediary agent or broker is received when it reaches the creditor, rather than when it reaches the agent or broker. (See comment 19(b)-3 to determine whether a transaction involves an intermediary agent or broker.)

2. When fifteenth not a business day. If the 15th day of the month immediately preceding the application date is not a business day, the creditor must use the yield as of the business day immediately preceding the 15th.

3. Calculating annual percentage rates for variable-rate loans and discount loans. Creditors must use the rules set out in the commentary to §226.17(c)(1) in calculating the annual percentage rate for variable-rate loans (assume the rate in effect at the time of disclosure remains unchanged) and for discount, premium, and stepped-rate transactions (which must reflect composite annual percentage rates).

4. Treasury securities. To determine the yield on comparable Treasury securities for the annual percentage rate test, creditors may use the yield on actively traded issues adjusted to constant maturities published in the Board’s “Selected Interest Rates” (statistical release H-15). Creditors must use the yield corresponding to the constant maturity that is closest to the loan’s maturity. If the loan’s maturity is exactly halfway between security maturities, the annual percentage rate on the loan should be compared with the yield for Treasury securities having the lower yield. In determining the loan’s maturity, creditors may rely on the rules in §226.17(c)(4) regarding irregular first payment periods. For example:

i. If the H-15 contains a yield for Treasury securities with constant maturities of 7 years and 10 years and no maturity in between, the annual percentage rate for an 8-year mortgage loan is compared with the yield of securities having a 7-year maturity, and the annual percentage rate for a 9-year mortgage loan is compared with the yield of securities having a 10-year maturity.

ii. If a mortgage loan has a term of 15 years, and the H-15 contains a yield of 5.21 percent for constant maturities of 10 years, and also contains a yield of 6.33 percent for constant maturities of 20 years, then the creditor compares the annual percentage rate for a 15-year mortgage loan with the yield for constant maturities of 10 years.

iii. If a mortgage loan has a term of 30 years, and the H-15 does not contain a yield for 30-year constant maturities, but contains a yield for 20-year constant maturities, and an average yield for securities with remaining terms to maturity of 25 years and over, then the annual percentage rate on the loan is compared with the yield for 20-year constant maturities.

Paragraph 32(a)(1)(ii).

1. Total loan amount. For purposes of the “points and fees” test, the total loan amount is calculated by taking the amount financed, as determined according to §226.18(b), and deducting any cost listed in §226.32(b)(1)(iii) and §226.32(b)(1)(iv) that is both included as points and fees under §226.32(b)(1) and financed by the creditor. Some examples follow:

i. If the consumer finances a $300 fee for a creditor-conducted appraisal and pays $400 in points at closing, the amount financed under §226.18(b) is $9,900 ($10,000 plus the $300 appraisal fee that is paid to and financed by the creditor, less $400 in prepaid finance charges). The $300 appraisal fee paid to the creditor is added to other points and fees under §226.32(b)(1)(iv). It is deducted from the amount financed ($9,900) to derive a total loan amount of $9,600.

ii. If the consumer pays the $300 fee for the creditor-conducted appraisal in cash at closing, the $300 is included in the points and fees calculation because it is paid to the creditor. However, because the $300 is not financed by the creditor, the fee is not part of
the amount financed under §226.18(b). In this case, the amount financed is the same as the total loan amount: $9,600 ($10,000, less $400 in prepaid finance charges).

iii. If the consumer finances a $300 fee for an appraisal conducted by someone other than the creditor or an affiliate, the $300 fee is not included with other points and fees under §226.32(b)(1)(i). The amount financed under §226.18(b) is $9,900 ($10,000 plus the $300 fee for an independently-conducted appraisal that is financed by the creditor, less the $400 paid in cash and deducted as prepaid finance charges).

iv. If the consumer finances a $300 fee for a creditor-conducted appraisal and a $500 single premium for optional credit life insurance, and pays $400 in points at closing, the amount financed under §226.18(b) is $10,400 ($10,000, plus the $300 appraisal fee that is paid to and financed by the creditor, plus the $500 insurance premium that is financed by the creditor, less $400 in prepaid finance charges). The $300 appraisal fee paid to the creditor is added to other points and fees under §226.32(b)(1)(iii), and the $500 insurance premium is added under §226.32(b)(1)(iv). The $300 and $500 costs are deducted from the amount financed ($10,400) to derive a total loan amount of $9,600.

2. Annual adjustment of $400 amount. A mortgage loan is covered by §226.32 if the total points and fees payable by the consumer at or before loan consummation exceed the greater of $400 or 6 percent of the total loan amount. The $400 figure is adjusted annually on January 1 by the annual percentage change in the CPI that was in effect on the preceding June 1. The Board will publish adjustments after the June figures become available each year. The adjustment for the upcoming year will be included in any proposed commentary published in the fall, and incorporated into the commentary the following spring. The adjusted figures are:

i. For 1996, $412, reflecting a 3.00 percent increase in the CPI-U from June 1994 to June 1995, rounded to the nearest whole dollar.

ii. For 1997, $424, reflecting a 2.9 percent increase in the CPI-U from June 1996 to June 1997, rounded to the nearest whole dollar.

iii. For 1998, $435, reflecting a 2.5 percent increase in the CPI-U from June 1997 to June 1998, rounded to the nearest whole dollar.

iv. For 1999, $441, reflecting a 1.4 percent increase in the CPI-U from June 1998 to June 1999, rounded to the nearest whole dollar.

v. For 2000, $451, reflecting a 2.3 percent increase in the CPI-U from June 1999 to June 2000, rounded to the nearest whole dollar.

vi. For 2001, $465, reflecting a 3.1 percent increase in the CPI-U from June 2000 to June 2001, rounded to the nearest whole dollar.

vii. For 2002, $488, reflecting a 1.64 percent increase in the CPI-U from June 2001 to June 2002, rounded to the nearest whole dollar.

ix. For 2003, $499, reflecting a 2.22 percent increase in the CPI-U from June 2002 to June 2003, rounded to the nearest whole dollar.

x. For 2005, $510, reflecting a 2.29 percent increase in the CPI-U from June 2004 to June 2005, rounded to the nearest whole dollar.

xi. For 2006, $528, reflecting a 3.51 percent increase in the CPI-U from June 2005 to June 2006, rounded to the nearest whole dollar.

xii. For 2007, $547, reflecting a 3.55 percent increase in the CPI-U from June 2006 to June 2007, rounded to the nearest whole dollar.

xiii. For 2008, $561, reflecting a 3.94 percent increase in the CPI-U from June 2007 to June 2008, rounded to the nearest whole dollar.

32(b) Definitions

Paragraph 32(b)(1)(i).

1. General. Section 226.32(b)(1)(i) includes in the total “points and fees” items defined as finance charges under §§226.4(a) and 226.4(b). Items excluded from the finance charge under other provisions of §226.4 are not included in the total “points and fees” under paragraph 32(b)(1)(i), but may be included in “points and fees” under paragraphs 32(b)(1)(ii) and 32(b)(1)(iii). Interest, including per-diem interest, is excluded from “points and fees” under §226.32(b)(1).

2. Mortgage broker fees. In determining “points and fees” for purposes of this section, compensation paid by a consumer to a mortgage broker (directly or through the creditor for delivery to the broker) is included in the calculation whether or not the amount is disclosed as a finance charge. Mortgage broker fees that are not paid by the consumer are not included. Mortgage broker fees already included in the calculation as finance charges under §226.32(b)(1)(i) need not be counted again under §226.32(b)(1)(ii).

2. Example. Section 226.32(b)(1)(iii) defines “points and fees” to include all items listed in §226.4(c)(7), other than amounts held for future payment of taxes. An item listed in §226.4(c)(7) may be excluded from the “points and fees” calculation, however, if the charge is reasonable, the creditor receives no direct or indirect compensation from the charge, and the charge is not paid to an affiliate of the creditor. For example, a reasonable fee paid by the consumer to an independent, third-party appraiser may be excluded from the “points and fees” calculation (assuming no compensation is paid to the creditor). A fee paid by the consumer for an appraisal performed by the creditor must be included in the calculation, even though the fee may be excluded from the finance charge under §226.32(b)(1)(i), but may be included in “points and fees” under paragraphs 32(b)(1)(ii) and 32(b)(1)(iii). Interest, including per-diem interest, is excluded from “points and fees” under §226.32(b)(1).
Par. 32, Supp. I, Nt.

12 CFR Ch. II (1–1–09 Edition)

Paragraph 32(b)(1)(iv).
1. Premium amount. In determining “points and fees” for purposes of this section, premiums paid at or before closing for credit insurance are included whether they are paid in cash or financed, and whether the amount represents the entire premium for the coverage or an initial payment.

32(c) Disclosures.
1. Format. The disclosures must be clear and conspicuous but need not be in any particular type size or font, nor presented in any particular manner. The disclosures need not be a part of the note or mortgage document.

Paragraph 32(c)(3) Regular payment; balloon payment.
1. General. The regular payment is the amount due from the borrower at regular intervals, such as monthly, bimonthly, quarterly, or annually. There must be at least two payments, and the payments must be in an amount and at such intervals that they fully amortize the amount owed. In disclosing the regular payment, creditors may rely on the rules set forth in §226.18(g); however, the amounts for voluntary items, such as credit life insurance, may be included in the regular payment disclosure only if the consumer has previously agreed to the amounts.

1. If the loan has more than one payment level, the regular payment for each level must be disclosed. For example:

A. In a 30-year graduated payment mortgage where there will be payments of $300 for the first 120 months, $400 for the next 120 months, and $500 for the last 120 months, each payment amount must be disclosed, along with the length of time that the payment will be in effect.

B. If interest and principal are paid at different times, the regular amount for each must be disclosed.

C. In discounted or premium variable-rate transactions where the creditor sets the initial interest rate and later rate adjustments are determined by an index or formula, the creditor must disclose both the initial payment based on the discount or premium and the payment that will be in effect thereafter. Additional explanatory material which does not detract from the required disclosures may accompany the disclosed amounts. For example, if a monthly payment is $250 for the first six months and then increases based on an index and margin, the creditor could use language such as the following: “Your regular monthly payment will be $250 for six months. After six months your regular monthly payment will be based on an index and margin, which currently would make your payment $350. Your actual payment at that time may be higher or lower.”

Paragraph 32(c)(4) Variable-rate.

1. Calculating “worst-case” payment example. Creditors may rely on instructions in §226.19(b)(2)(viii)(B) for calculating the maximum possible increases in rates in the shortest possible timeframe, based on the face amount of the note (not the hypothetical loan amount of $10,000 required by §226.19(b)(2)(viii)(B)). The creditor must provide a maximum payment for each payment level, where a payment schedule provides for more than one payment level and more than one maximum payment amount is possible.

Paragraph 32(c)(5) Amount borrowed.
1. Optional insurance: debt-cancellation coverage. This disclosure is required when the amount borrowed in a refinancing includes premiums or other charges for credit life, accident, health, or loss-of-income insurance, or debt-cancellation coverage (whether or not the debt-cancellation coverage is insurance under applicable law) that provides for cancellation of all or part of the consumer’s liability in the event of the loss of life, health, or income or in the case of accident. See comment 4(d)(3)-2 and comments H-1 and H-2 regarding terminology for debt-cancellation coverage.

32(d) Limitations.

32(d) Limitations

Paragraph 32(d)(1)(i) Balloon payment.
1. Regular periodic payments. The repayment schedule for a §226.32 mortgage loan with a term of less than five years must fully amortize the outstanding principal balance through “regular periodic payments.” A payment is a “regular periodic payment” if it is not more than twice the amount of other payments.

Paragraph 32(d)(2) Negative amortization.
1. Negative amortization. The prohibition against negative amortization in a mortgage covered by §226.32 does not preclude reasonable increases in the principal balance that result from events permitted by the legal obligation unrelated to the payment schedule. For example, when a consumer fails to obtain property insurance and the creditor purchases insurance, the creditor may add a reasonable premium to the consumer’s principal balance, to the extent permitted by the legal obligation.

Paragraph 32(d)(4) Increased interest rate.
1. Variable-rate transactions. The limitation on interest rate increases does not apply to rate increases resulting from changes in accordance with the legal obligation in a variable-rate transaction, even if the increase occurs after default by the consumer.

Paragraph 32(d)(5) Rebates.
1. Calculation of refunds. The limitation applies only to refunds of precomputed (such as add-on) interest and not to any other charges that are considered finance charges under §226.4 (for example, points and fees
paid at closing). The calculation of the refund of interest includes odd-days interest, whether paid at or after consummation.

Paragraph 32(d)(6) Prepayment penalties.

1. State law. For purposes of computing a refund of unearned interest, if using the actuarial method defined by applicable state law results in a refund that is greater than the refund calculated by using the method described in section 933(d) of the Housing and Community Development Act of 1992, creditors should use the state law definition in determining if a refund is a prepayment penalty.

Paragraph 32(d)(7) Prepayment penalty exception.

Due-on-demand clause.

Paragraph 32(d)(8) Due-on-demand clause.

1. Failure to meet repayment terms. A creditor may terminate a loan and accelerate the balance when the consumer fails to meet the repayment terms provided for in the agreement; a creditor may do so, however, only if the consumer actually fails to make payments. For example, a creditor may not terminate and accelerate if the consumer, in error, sends a payment to the wrong location, such as a branch rather than the main office of the creditor. If a consumer files for or is placed in bankruptcy, the creditor may terminate and accelerate under this provision if the consumer fails to meet the repayment terms of the agreement. Section 226.32(d)(8)(ii) does not override any state or other law that requires a creditor to notify a borrower of a right to cure, or otherwise place a duty on the creditor before it can terminate a loan and accelerate the balance. Paragraph 32(d)(8)(iii).

1. Impairment of security. A creditor may terminate a loan and accelerate the balance if the consumer’s action or inaction adversely affects the creditor’s security for the loan, or any right of the creditor in that security. Action or inaction by third parties does not, in itself, permit the creditor to terminate and accelerate.

2. Examples. i. A creditor may terminate and accelerate, for example, if:

A. The consumer transfers title to the property or sells the property without the permission of the creditor.
B. The consumer fails to maintain required insurance on the dwelling.
C. The consumer fails to pay taxes on the property.
D. The consumer permits the filing of a lien senior to that held by the creditor.
E. The sole consumer obligated on the credit dies.
F. The property is taken through eminent domain.
G. A prior lienholder forecloses.

Paragraph 32(e)(1) Repayment ability.

1. Determining repayment ability. The information provided to the creditor in connection with §226.32(d)(7) may be used to show that the creditor considered the consumer’s income and obligations before extending the credit. Any expected income can be considered by the creditor, except equity income that the consumer would obtain through the foreclosure of a mortgage covered by §226.32. For example, a creditor may use information about income other than regular salary or wages such as gifts, expected retirement payments, or income from housecleaning or childcare. The creditor also may use unverified income, as long as the creditor has a reasonable basis for believing that the income exists and will support the loan.

Paragraph 32(e)(2) Home-Improvement Contracts.

1. Joint payees. If a creditor pays a contractor with an instrument jointly payable to the contractor and the consumer, the instrument must name as payee each consumer who is primarily obligated on the note.

Paragraph 32(e)(3) Notice to Assignee.

1. Subsequent sellers or assignors. Any person, whether or not the original creditor, that sells or assigns a mortgage subject to this section must furnish the notice of potential liability to the purchaser or assignee.

2. Format. While the notice of potential liability need not be in any particular format, the notice must be prominent. Placing it on the face of the note, such as with a stamp, is one means of satisfying the prominence requirement.
Section 226.33—Requirements for Reverse Mortgages

33(a) Definition.
1. Nonrecourse transaction. A nonrecourse reverse mortgage transaction limits the homeowner’s liability to the proceeds of the sale of the home (or any lesser amount specified in the credit obligation). If a transaction structured as a closed-end reverse mortgage transaction allows recourse against the consumer, and the annual percentage rate or the points and fees exceed those specified under §226.32(a)(1), the transaction is subject to all the requirements of §226.32, including the limitations concerning balloon payments and negative amortization.

Paragraph 33(a)(2).
1. Definite term or maturity date. To meet the definition of a reverse mortgage transaction, a creditor cannot require any principal, interest, or shared appreciation or equity to be due and payable (other than in the case of default) until after the consumer’s death, transfer of the dwelling, or the consumer ceases to occupy the dwelling as a principal dwelling. Some state laws require legal obligations secured by a mortgage to specify a definite maturity date or term of repayment in the instrument. An obligation may state a definite maturity date or term of repayment and still meet the definition of a reverse-mortgage transaction if the maturity date or term of repayment used would not operate to cause maturity prior to the occurrence of any of the maturity events recognized in the regulation. For example, some reverse mortgage programs specify that the final maturity date is the borrower’s 150th birthday; other programs include a shorter term but provide that the term is automatically extended for consecutive periods if none of the other maturity events has yet occurred. These programs would be permissible.

33(c) Projected total cost of credit.
Paragraph 33(c)(1) Costs to consumer.
1. Costs and charges to consumer—relation to finance charge. All costs and charges to the consumer that are incurred in a reverse-mortgage transaction are included in the projected total cost of credit, and thus in the total annual loan cost rates, whether or not the cost or charge is a finance charge under §226.4.

2. Annuity costs. As part of the credit transaction, some creditors require or permit a consumer to purchase an annuity that immediately—or at some future time—supplements or replaces the creditor’s payments. The amount paid by the consumer for the annuity is a cost to the consumer under this section, regardless of whether the annuity is purchased through the creditor or a third party, or whether the purchase is mandatory or voluntary. For example, this includes the costs of an annuity that a creditor offers, arranges, assists the consumer in purchasing, or that the creditor is aware the consumer is purchasing as a part of the transaction.

3. Disposition costs excluded. Disposition costs incurred in connection with the sale or transfer of the property subject to the reverse mortgage are not included in the costs to the consumer under this paragraph. (However, see the definition of Val, in appendix K to the regulation to determine the effect certain disposition costs may have on the total annual loan cost rates.)

Paragraph 33(c)(2) Payments to consumer.
1. Payments upon a specified event. The projected total cost of credit should not reflect contingent payments in which a credit to the outstanding loan balance or a payment to the consumer’s estate is made upon the occurrence of an event (for example, a “death benefit” payable if the consumer’s death occurs within a certain period of time). Thus, the table of total annual loan cost rates required under §226.33(b)(2) would not reflect such payments. At its option, however, a creditor may put an asterisk, footnote, or similar type of notation in the table next to the applicable total annual loan cost rate, and state in the body of the note, apart from the table, the assumption upon which the total annual loan cost is made and any different rate that would apply if the contingent benefit were paid.

Paragraph 33(c)(3) Additional creditor compensation.
1. Shared appreciation or equity. Any shared appreciation or equity that the creditor is entitled to receive pursuant to the legal obligation must be included in the total cost of a reverse mortgage loan. For example, if a creditor agrees to a reduced interest rate on the transaction in exchange for a portion of the appreciation or equity that may be realized when the dwelling is sold, that portion is included in the projected total cost of credit.

Paragraph 33(c)(4) Limitations on consumer liability.
1. In general. Creditors must include any limitation on the consumer’s liability (such as a nonrecourse limit or an equity conservation agreement) in the projected total cost of credit. These limits and agreements protect a portion of the equity in the dwelling for the consumer or the consumer’s estate. For example, the following are limitations on the consumer’s liability that must be included in the projected total cost of credit:
   i. A limit on the consumer’s liability to a certain percentage of the projected value of the home.
   ii. A limit on the consumer’s liability to the net proceeds from the sale of the property subject to the reverse mortgage.
Federal Reserve System

2. Uniform assumption for “net proceeds” recourse limitations. If the legal obligation between the parties does not specify a percentage for the “net proceeds” liability of the consumer, for purposes of the disclosures required by §226.33, a creditor must assume that the costs associated with selling the property will equal 7 percent of the projected sale price (see the definition of the VaR symbol under appendix K(b)(6)).

Section 226.34—Prohibited Acts or Practices in Connection with Credit Secured by a Consumer's Dwelling; Open-end Credit

34(a) Prohibited acts or practices for loans subject to §226.32.

Paragraph 34(a)(1) Home-improvement contracts.

1. Joint payees. If a creditor pays a consumer with an instrument jointly payable to the contractor and the consumer, the instrument must name as payee each consumer who is primarily obligated on the note.

Paragraph 34(a)(2) Notice to Assignee.

1. Subsequent sellers or assignors. Any person, whether or not the original creditor, that sells or assigns a mortgage subject to §226.32 must furnish the notice of potential liability to the purchaser or assignee.

2. Format. While the notice of potential liability need not be in any particular format, the notice must be prominent. Placing it on the face of the note, such as with a stamp, is one means of satisfying the prominence requirement.

Paragraph 34(a)(3) Assignee liability. Pursuant to section 131(d) of the act, the act’s general holder-in-title course protections do not apply to purchasers and assignees of loans covered by §226.32. For such loans, a purchaser’s or other assignee’s liability for all claims and defenses that the consumer could assert against the creditor is not limited to violations of the act.

Paragraph 34(a)(4) Refinancings within one-year period.

1. In the borrower’s interest. The determination of whether or not a refinancing covered by §226.34(a)(3) is in the borrower’s interest is based on the totality of the circumstances, at the time the credit is extended. A written statement by the borrower that “this loan is in my interest” alone does not meet this standard.

i. A refinancing would be in the borrower’s interest if needed to meet the borrower’s “bona fide personal financial emergency” (see generally §226.23(e) and §226.31(c)(1)(ii)).

ii. In connection with a refinancing that provides additional funds to the borrower, in determining whether a loan is in the borrower’s interest consideration should be given to whether the loan fees and charges are commensurate with the amount of new funds advanced, and whether the real estate-related charges are bona fide and reasonable in amount (see generally §226.4(c)(7)).

2. Application of the one-year refinancing prohibition to creditors and assignees. The prohibition in §226.34(a)(3) applies where an extension of credit subject to §226.32 is refinanced into another loan subject to §226.32. The prohibition is illustrated by the following examples. Assume that Creditor A makes a loan subject to §226.32 on January 15, 2003, secured by a first lien; this loan is assigned to Creditor B on February 15, 2003:

i. Creditor A is prohibited from refinancing the January 2003 loan (or any other loan subject to §226.32 to the same borrower) into a loan subject to §226.32, until January 15, 2004. Creditor B is restricted until January 15, 2004, or such date prior to January 15, 2004 that Creditor B ceases to hold or service the loan. During the prohibition period, Creditor A and B may make a subordinate lien loan that does not refinance a loan subject to §226.32. Assume that on April 1, 2003, Creditor A makes but does not assign a second-lien loan subject to §226.32. In that case, Creditor A would be prohibited from refinancing either the first-lien or second-lien loans (or any other loans to that borrower subject to §226.32) into another loan subject to §226.32 until April 1, 2004.

ii. The loan made by Creditor A on January 15, 2003 (and assigned to Creditor B) may be refinanced by Creditor C at any time. If Creditor C refinances this loan on March 1, 2003 into a new loan subject to §226.32, Creditor A is prohibited from refinancing the loan made by Creditor C (or any other loan subject to §226.32 to the same borrower) into another loan subject to §226.32 until January 15, 2004. Creditor C is similarly prohibited from refinancing any loan subject to §226.32 to that borrower into another until March 1, 2004. (The limitations of §226.34(a)(3) no longer apply to Creditor B after Creditor C refinanced the January 2003 loan and Creditor B ceased to hold or service the loan.)

Paragraph 34(a)(4) Repayment ability.

1. Income. Any expected income can be considered by the creditor, except equity income that would be realized from collateral. For example, a creditor may use information about income other than regular salary or wages such as gifts, expected retirement payments, or income from self-employment, such as housecleaning or childcare.

2. Pattern or practice of extending credit—repayment ability. Whether a creditor is engaging or has engaged in a pattern or practice or violations of this section depends on the totality of the circumstances in the particular case. While a pattern or practice is not established by isolated, random, or accidental acts, it can be established without the use of a statistical process. In addition, a creditor might act under a lending policy (whether written or unwritten) and that action alone

597
could establish a pattern or practice of making loans in violation of this section.

3. Discounted introductory rates. In transactions where the creditor sets an initial interest rate to be adjusted later (whether fixed or to be determined by an index or formula), in determining repayment ability the creditor must consider the consumer’s ability to make loan payments based on the non-discounted or fully-indexed rate at the time of consummation.

4. Verifying and documenting income and obligations. Creditors may verify and document a consumer’s repayment ability in various ways. A creditor may verify and document a consumer’s income and current obligations through any reliable source that provides the creditor with a reasonable basis for believing that there are sufficient funds to support the loan. Reliable sources include, but are not limited to, a credit report, tax returns, pension statements, and payment records for employment income.

Paragraph 34(b) Prohibited acts or practices for dwelling-secured loans; open-end credit.

1. Amount of credit extended. Where a loan is documented as open-end credit but the features and terms or other circumstances demonstrate that it does not meet the definition of open-end credit, the loan is subject to the rules for closed-end credit, including §226.32 if the rate or fee trigger is met. In applying the triggers under §226.32, the “amount financed,” including the “principal loan amount” must be determined. In making the determination, the amount of credit that would have been extended if the loan had been documented as a closed-end loan is a factual determination to be made in each case. Factors to be considered include the amount of money the consumer originally requested, the amount of the first advance or the highest outstanding balance, or the amount of the credit line. The full amount of the credit line is considered only to the extent that it is reasonable to expect that the consumer might use the full amount of credit.

APPENDIX A—EFFECT ON STATE LAWS

1. Who may make requests. Appendix A sets forth the procedures for preemption determinations. As discussed in §226.28, which contains the standards for preemption, a request for a determination of whether a state law is inconsistent with the requirements of chapters 1, 2, or 3 may be made by creditors, states, or any interested party. However, only states may request and receive determinations in connection with the fair credit billing provisions of chapter 4.

Statute: Sections 165 and 130(f).
Other sections: None.
Previous regulation: Section 226.1(d).

APPENDIX D—MULTIPLE-ADVANCE CONSTRUCTION LOANS

1. General rule. Appendix D provides a special procedure that creditors may use, at their option, to estimate and disclose the terms of multiple-advance construction loans when the amounts or timing of advances is unknown at consummation of the transaction. This appendix reflects the approach taken in §226.19(c)(1)(i), which permits creditors to provide separate or combined disclosures for the construction period and for the permanent financing, if any; i.e., the construction phase and the permanent phase may be treated as one transaction or more than one transaction. Appendix D may also be used in multiple-advance transactions other than construction loans, when the amounts or timing of advances is unknown at consummation.

2. Variable-rate multiple-advance loans. The hypothetical disclosure required in variable-
rate transactions by §226.18(f)(1)(iv) is not re-
quired for multiple-advance loans disclosed
pursuant to appendix D, part I.
3. Calculation of the total of payments. When
disclosures are made pursuant to appendix D,
the total of payments may reflect either the
sum of the payments or the sum of the
amount financed and the finance charge.
4. Annual percentage rate. Appendix D does
not require the use of Volume I of the
Board’s Annual Percentage Rate Tables for
calculation of the annual percentage rate.
Creditors utilizing appendix D in making
calculations and disclosures may use other
computation tools to determine the esti-
mated annual percentage rate, based on the
finance charge and payment schedule ob-
tained by use of the appendix.
5. Interest reserves. In a multiple-advance
construction loan, a creditor may establish an
“interest reserve” to ensure that interest
is paid as it accrues by designating a portion
of the loan to be used for paying the interest
that accrues on the loan. An interest reserve
is not treated as a prepaid finance charge,
whether the interest reserve is the same as
or different from the estimated interest fig-
ure calculated under appendix D.
• If a creditor permits a consumer to make
interest payments as they become due, the
interest reserve should be disregarded in the
disclosures and calculations under appendix
D.
• If a creditor requires the establishment
of an interest reserve and automatically de-
ducts interest payments from the reserve
amount rather than allow the consumer to
make interest payments as they become due,
the fact that interest will accrue on those in-
terest payments as well as the other loan
proceeds must be reflected in the calcula-
tions and disclosures. To reflect the effects
of such compounding, a creditor should first
calculate interest on the commitment
amount (exclusive of the interest reserve) and
then add the figure obtained by assum-
ing that one-half of that interest is out-
standing at the contract interest rate for
the entire construction period. For example,
using the example shown under paragraph A,
part 1 of appendix D, the estimated interest
would be $1,117.68 ($1093.75 plus an additional
$23.93 calculated by assuming half of $1093.75
is outstanding at the contract interest rate
for the entire construction period), and the
estimated annual percentage rate would be
21.18%.

Statute: None. Previous regulation: Interpre-
tation §226.709.
1981 Changes: The use of appendix D is lim-
ited to multiple-advance loans for construc-
tion purposes or analogous types of trans-
actions.

APPENDIX E—RULES FOR CARD ISSUERS THAT
BILL ON A TRANSACTION-BY-TRANSACTION
BASE
Statute: None. Previous regulation: Interpre-
tation §226.709.
1981 changes: The rules in this appendix
have been streamlined and clarified to indi-
cate how certain card issuers that bill on a
transaction basis may comply with the re-
quirements of Subpart B.

APPENDIX F—ANNUAL PERCENTAGE RATE
COMPUTATIONS FOR CERTAIN OPEN-END
CREDIT PLANS
1. Daily rate with specific transaction charge.
If the finance charge results from a charge
relating to a specific transaction and the ap-
plication of a daily periodic rate, see com-
ment 14(c)–6 for guidance on an appropriate
calculation method.

References
Statute: Section 107. Previous regulation: Section
226.5(a)(3)(ii), footnote 5(a). Other sections:
Section 226.14.
1981 changes: This appendix incorporates a
sixth example in which the transaction
amount exceeds the amount of the balance
subject to the periodic rate.

APPENDIXES G AND H—OPEN-END AND
CLOSED-END MODEL FORMS AND CLAUSES
1. Permissible changes. Although use of the
model forms and clauses is not required,
creditors using them properly will be deemed
to be in compliance with the regulation with
regard to those disclosures. Creditors may
make certain changes in the format or con-
tent of the forms and clauses and may delete
any disclosures that are inapplicable to a
transaction or a plan without losing the
act’s protection from liability. (But see ap-
pendix G comment 5 for special rules con-
cerning certain disclosures required under
§226.5a for credit and charge card applica-
tions and solicitations). The rearrangement
of the model forms and clauses may not be so
extensive as to affect the substance, clarity,
or meaningful sequence of the forms and
clauses. Creditors making revisions with
that effect will lose their protection from
civil liability. Acceptable changes include,
for example:
• Using the first person, instead of the sec-
ond person, in referring to the borrower.
• Using “borrower” and “creditor” instead
of pronouns.
• Rearranging the sequence of the disclo-
sures.
• Not using bold type for headings.
• Incorporating certain state “plain
English” requirements.
Debt cancellation coverage.

This regulation does not authorize creditors to characterize debt cancellation fees as insurance premiums for purposes of this regulation. Creditors may provide a disclosure that refers to debt cancellation coverage whether or not the coverage is considered insurance. Creditors may use the model credit insurance disclosures only if the debt cancellation coverage constitutes insurance under state law.

APPENDIX G—OPEN-END MODEL FORMS AND CLUSES

1. Model G–1. The model disclosures in G–1 (different balance computation methods) may be used in both the initial disclosures under §226.6 and the periodic disclosures under §226.7. As is clear from the models given, “short-hand” descriptions of the balance computation methods are not sufficient. The phrase “a portion of” the finance charge should be included if the total finance charge includes other amounts, such as transaction charges, that are not due to the application of a periodic rate. In addition, if unpaid finance charges are subtracted in calculating the balance, that fact must be stated so that the disclosure of the computation method is accurate. Only Model G–1(b) contains a final sentence appearing in brackets which reflects the total dollar amount of payments and credits received during the billing cycle. The other models do not contain this language because they reflect plans in which payments and credits received during the billing cycle are subtracted. If this is not the case, however, the language relating to payments and credits should be changed, and the creditor should add either the disclosure of the dollar amount as in Model G–1(b) or an indication of which credits (disclosed elsewhere on the periodic statement) will not be deducted in determining the balance. (Such an indication may also substitute for the bracketed sentence in Model G–1(b).) See the commentary to §226.7(e).

2. Model G–2. This model contains the notice of liability for unauthorized use of a credit card.

3. Models G–3 and G–4. These set out models for the long form billing error rights statement (for use with the initial disclosures and as an annual disclosure or, at the creditor’s option, with each periodic statement) and the alternative billing error rights statement (for use with each periodic statement), respectively. Creditors must provide the billing error rights statements in a form substantially similar to the models in order to comply with the regulation. The model billing error rights statements may be modified in any of the ways set forth in the first paragraph to the commentary on appendices G and H. The models may, furthermore, be modified by deleting inapplicable information, such as:

- The paragraph concerning stopping a debit in relation to a disputed amount, if the creditor does not have the ability to debit automatically the consumer’s saving or checking account for payment.
- The rights stated in the special rule for credit card purchases and any limitations on those rights.

The model billing rights statements also contain optional language that creditors may use. For example, the creditor may:

- Include a statement to the effect that notice of a billing error must be submitted on something other than the payment ticket or other material accompanying the periodic disclosures.

4. Models G–5 through G–9. These models set out notices of the right to rescind that would be used at different times in an open-end plan. The last paragraph of each of the rescission model forms contains a blank for the date by which the consumer’s notice of cancellation must be sent or delivered. A parenthetical is included to address the situation in which the consumer’s right to rescind the transaction exists beyond 3 business days following the date of the transaction, for example, when the notice or material disclosures are delivered late or when the date of the transaction in paragraph 1 of the notice is an estimate. The language of the parenthetical is not optional. See the commentary to section 226.2(a)(23) regarding the specificity of the security interest disclosure for model form G–7.

5. Model G–10(A), Sample G–10(B) and Model G–10(C). 1. Model G–10(A) and Sample G–10(B) illustrate, in the tabular format, all of the disclosures required under §226.5a for applications and solicitations for credit cards other than charge cards. Model G–10(B) is a sample disclosure illustrating an account with a lower introductory rate and...
penalty rate. Model G–10(C) illustrates the tabular format disclosure for charge card applications and solicitations and reflects all of the disclosures in the table.

Except as permitted, disclosures must be substantially similar in sequence and format to model forms G–10(A) and (C). The disclosures may, however, be arranged vertically or horizontally and need not be highlighted aside from being included in the table. While proper use of the model forms will be required in compliance with the regulation, card issuers are permitted to use headings and disclosures other than those in the forms (with an exception relating to the use of “/” for fractions) if they are clear and concise and are substantially similar to the headings and disclosures contained in model forms. For further discussion of requirements relating to form, see the commentary to §226.5a(a)(2).

6. Models G–11 and G–12. Model G–11 contains clauses that illustrate the general disclosures required under §226.5a(e) in applications and solicitations made available to the general public. Model G–12 is a model clause for the disclosure required under §226.5a(f) when a charge card accesses an open-end plan offered by another creditor.

7. Models G–13(A) and G–13(B). These model forms illustrate the disclosures required under §226.9(f) when the card issuer changes the entity providing insurance on a credit card account. Model G–13(A) contains the items set forth in §226.9(f)(3) as examples of significant terms of coverage that may be affected by the change in insurance provider. The card issuer may either list all of these potential changes in coverage and place a check mark by the applicable changes, or list only the actual changes in coverage. Under either approach, the card issuer must either explain the changes or refer to an accompanying copy of the policy or group certificate for details of the new terms of coverage. Model G–13(A) also illustrates the permissible combination of the two notices required by §226.9(f)—the notice required for a planned change in provider and the notice required once a change has occurred. This form may be modified for use in providing only the disclosures required before the change if the card issuer chooses to send two separate notices. Thus, for example, the references to the attached policy or certificate need not be provided at that time. Model G–13(B) illustrates the disclosures required under §226.9(f)(2) when the insurance provider is changed.

APPENDIX H—CLODED-END MODEL FORMS AND CLAUSES

1. Models H–1 and H–2. Creditors may make several types of changes to closed-end model forms H–1 (credit sale) and H–2 (loan) and still be deemed to be in compliance with the regulation, provided that the required disclosures are made clearly and conspicuously. Permissible changes include the addition of the information permitted by footnote 37 to §226.17 and “directly related” information as set forth in the commentary to §226.17(a).

The creditor may also delete or, on multipurpose forms, indicate inapplicable disclosures, such as:

• The itemization of the amount financed option. (See Samples H–12 through H–15.)
• The credit life and disability insurance disclosures. (See Samples H–11 and H–12.)
• The property insurance disclosures. (See Samples H–10 through H–12, and H–14.)
• The “filing fees” and “non-filing insurance” disclosures. (See Samples H–11 and H–12.)
• The prepayment penalty or rebate disclosures. (See Samples H–12 and H–14.)
• The total sale price. (See Samples H–11 through H–15.)

Other permissible changes include:

• Adding the creditor’s address or telephone number. (See the commentary to §226.18(a).)
• Combining required terms where several numerical disclosures are the same, for instance, if the “total of payments” equals the “total sale price.” (See the commentary to §226.18.)
• Rearranging the sequence or location of the disclosures—for instance, by placing the descriptive phrases outside the boxes containing the corresponding disclosures, or by grouping the descriptors together as a glossary of terms in a separate section of the segregated disclosures; by placing the payment schedule at the top of the form; or by changing the order of the disclosures in the boxes, including the annual percentage rate and finance charge boxes.

• Using brackets, instead of checkboxes, to indicate inapplicable disclosures.
• Using a line for the consumer to initial, rather than a checkbox, to indicate an election to receive an itemization of the amount financed.

• Deleting captions for disclosures.

• Using a symbol, such as an asterisk, for estimated disclosures, instead of an “e.”

• Adding a signature line to the insurance disclosures to reflect joint policies.

• Separately itemizing the filing fees.

• Revising the late charge disclosure in accordance with the commentary to §226.18(1).

2. Model H–3. Creditors have considerable flexibility in filling out Model H–3 (itemization of the amount financed). Appropriate revisions, such as those set out in the commentary to §226.18(c), may be made to this form without loss of protection from civil liability for proper use of the model forms.

3. Models H–4 through H–7. The model clauses are not included in the model forms.
although they are mandatory for certain transactions. Creditors using the model clauses when applicable to a transaction are deemed to be in compliance with the regulation with regard to that disclosure.

4. Model H–4(A). This model contains the variable rate model clauses applicable to transactions subject to §226.18(f)(1) and is intended to give creditors considerable flexibility in structuring variable rate disclosures to fit individual plans. The information about circumstances, limitations, and effects of an increase may be given in terms of the contract interest rate or the annual percentage rate. Clauses are shown for hypothetical examples based on the specific amount of the transaction and based on a representative amount. Creditors may preprint the variable rate disclosures based on a representative amount for similar types of transactions, instead of constructing an individualized example for each transaction. In both representative examples and transaction-specific examples, creditors may refer either to the incremental change in rate, payment amount, or number of payments, or to the resulting rate, payment amount, or number of payments. For example, creditors may state that the rate will increase by 2%, with a corresponding $150 increase in the payment, or creditors may state that the rate will increase to 16%, with a corresponding payment of $850.

5. Model H–4(B). This model clause illustrates the variable-rate disclosure required under §226.18(f)(2), which would alert consumers to the fact that the transaction contains a variable-rate feature and that disclosures were provided earlier.

6. Model H–4(C). This model clause illustrates the early disclosures required generally under §226.18(b). It includes information on how the consumer’s interest rate is determined and how it can change over the term of the loan, and explains changes that may occur in the borrower’s monthly payment. It contains an example of how to disclose historical changes in the index or formula values used to compute interest rates for the preceding 15 years. The model clause also illustrates the disclosure of the initial and maximum interest rates and payments based on an initial interest rate (index value plus margin, adjusted by the amount of any discount or premium) in effect as of an identified month and year for the loan program disclosure and illustrates how to provide consumers with a method for calculating the monthly payment for the loan amount to be borrowed.

7. Model H–4(D). This model clause illustrates the adjustment notice required under §226.18(c), and provides examples of payment change notices and annual notices of interest rate changes.

8. Model H–5. This contains the demand feature clause.

9. Model H–6. This contains the assumption clause.

10. Model H–7. This contains the required deposit clause.

11. Models H–8 and H–9. These models contain the rescission notices for a typical closed-end transaction and a refinancing, respectively. The last paragraph of each model form contains a blankable parenthesis to allow creditors to customize the content of the form. For example, creditors may preprint in that parenthesis the consumer’s notice of cancellation must be sent or delivered. A parenthetical is included to address the situation in which the consumer’s right to rescind the transaction exists beyond 3 business days following the date of the transaction, for example, where the notice or material disclosures are delivered late or where the date of the transaction in paragraph 1 of the notice is an estimate. The language of the parenthetical is not optional. See the commentary to section 226.2(a)(25) regarding the specificity of the security interest disclosure for model form H–9. The prior version of model form H–9 is substantially similar to the current version and creditors may continue to use it, as appropriate. Creditors are encouraged, however, to use the current version when reordering or reprinting forms.

12. Sample forms. The sample forms (H–10 through H–15) serve a different purpose than the model forms. The samples illustrate various ways of adapting the model forms to the individual transactions described in the commentary to appendix H. The deletions and rearrangements shown relate only to the specific transactions described. As a result, the samples do not provide the general protection from civil liability provided by the model forms and clauses.

13. Sample H–10. This sample illustrates an automobile credit sale. The cash price is $7,500 with a downpayment of $1,500. There is an 8% add-on interest rate and a term of 3 years, with 36 equal monthly payments. The credit life insurance premium and the filing fees are financed by the creditor. There is a $25 credit report fee paid by the consumer before consummation, which is a prepaid finance charge.

14. Sample H–11. This sample illustrates an installment loan. The amount of the loan is $5,000. There is a 12% simple interest rate and a term of 2 years. The date of the transaction is expected to be April 15, 1981. The first payment due on June 1, 1981. The first payment amount is labelled as an estimate since the transaction date is uncertain. The odd days’ interest ($26.67) is collected with the first payment. The remaining 23 monthly payments are equal.

15. Sample H–12. This sample illustrates a refinancing and consolidation loan. The amount of the loan is $5,000. There is a 15% simple interest rate and a term of 3 years. The date of the transaction is April 1, 1981, with the first payment due on May 1, 1981. The first 35 monthly payments are equal.
with an odd final payment. The credit disability insurance premium is financed. In calculating the annual percentage rate, the U.S. Rule has been used. Since an itemization of the amount financed is included with the disclosures, the statement regarding the consumer’s option to receive an itemization is deleted.

17. Sample H–13. This sample illustrates a mortgage with a demand feature. The loan amount is $44,900, payable in 360 monthly installments at a simple interest rate of 14.75%. The 15 days of interim interest ($294.34) is collected as a prepaid finance charge at the time of consummation of the loan (April 15, 1981). In calculating the disclosure amounts, the minor irregularities provision in §226.17(c)(4) has been used. The property insurance premiums are not included in the payment schedule. This disclosure statement could be used for notes with a term greater than one year. The sample form illustrates how to provide consumers with a method for calculating their actual monthly payment for a mortgage guarantee insurance premium of $225.00, as well as an initial mortgage guarantee insurance premium of $898, as well as an initial mortgage amount of $44,900, payable in 360 monthly installments at a simple interest rate of 14.75%. Two points ($998), as well as an initial mortgage insurance premium of 1% of the outstanding principal balance under an annual reduction plan. The abbreviated disclosure permitted under §226.18(g)(2) is used for the payment schedule for years 6 through 30. The prepayment disclosure refers to both penalties and rebates because information about penalties is required for the simple interest portion of the obligation and information about rebates is required for the mortgage insurance portion of the obligation.

18. Sample H–14. This sample disclosure form illustrates the disclosures under §226.19(b) for a variable-rate transaction secured by the consumer’s principal dwelling with a term greater than one year. The sample form shows a creditor how to adapt the model clauses in appendix H–4(C) to the creditor’s own particular variable-rate program. The sample disclosure form describes the features of a specific variable-rate mortgage program and alerts the consumer to the fact that information on the creditor’s other closed-end variable-rate programs is available upon request. It includes information on how the interest rate is determined and how it can change over time. Section 226.19(b)(2)(viii) permits creditors the option to provide either a historical example or an initial and maximum interest rates and payments disclosure; both are illustrated in the sample disclosure. The historical example explains how the monthly payment can change based on a $10,000 loan amount, payable in 360 monthly installments, based on historical changes in the values for the weekly average yield on U.S. Treasury Securities adjusted to a constant maturity of one year. Index values are measured for 15 years, as of the first week ending in July. This reflects the requirement that the index history be based on values for the same date or period each year in the example. The sample disclosure also illustrates the alternative disclosure under §226.19(b)(2)(viii)(B) that the initial and the maximum interest rates and payments be shown for a $10,000 loan originating at an initial interest rate of 12.41 percent (which was in effect July 1996) and to have 2 percentage point annual (and 5 percentage point overall) interest rate limitations or caps. Thus, the maximum amount that the interest rate could rise under this program is 5 percentage points higher than the 12.41 percent initial rate to 17.41 percent, and the monthly payment could rise from $106.93 to a maximum of $145.34. The loan would not reach the maximum interest rate until its fourth year because of the 2 percentage point annual rate limitations, and the maximum payment disclosed reflects the amortization of the loan during that period. The sample form also illustrates how to provide consumers with a method for calculating their actual monthly payment for a loan amount other than $10,000.

19. Sample H–15. This sample illustrates a graduated payment mortgage with a 5-year graduation period and a 71⁄2 percent yearly increase in payments. The loan amount is $44,900, payable in 360 monthly installments at a simple interest rate of 14.75%. The 12.41 percent initial rate to 17.41 percent, and the monthly payment could rise from $106.93 to a maximum of $145.34. The loan would not reach the maximum interest rate until its fourth year because of the 2 percentage point annual rate limitations, and the maximum payment disclosed reflects the amortization of the loan during that period. The sample form also illustrates how to provide consumers with a method for calculating their actual monthly payment for a loan amount other than $10,000.

20. Sample H–16. This sample illustrates the disclosures required under §226.32(c). The sample illustrates the amount borrowed and the disclosures about optional insurance that are required for mortgage refinancings under §226.32(c)(5). Creditors may, at their option, include these disclosures for all loans subject to §226.32. The sample also includes disclosures required under §226.32(c)(3) when the legal obligation includes a balloon payment.

21. HRSA–500–1 9–82. Pursuant to section 113(a) of the Truth in Lending Act, Form HRSA–500–1 9–82 issued by the U.S. Department of Health and Human Services for certain student loans has been approved. The form may be used for all Health Education Assistance Loans (HEAL) with a variable interest rate that are interim student credit extensions as defined in Regulation Z.
22. HRSA–500–2 9–82. Pursuant to section 113(a) of the Truth in Lending Act, Form HRSA–500–2 9–82 issued by the U.S. Department of Health and Human Services for certain student loans has been approved. The form may be used for all HEAL loans with a fixed interest rate that are interim student credit extensions as defined in Regulation Z. Paragraph (b)(5)(vi) has been revised to permit creditors in single-advance, single-payment transactions in which the term is less than a year and is equal to a whole number of months, to use either the 12-month method or the 365-day method to compute the number of unit-periods per year.

1981 changes: The model forms and clauses have no counterpart in the previous regulation.

APPENDIX I—FEDERAL ENFORCEMENT AGENCIES
Statute: Section 106.
Other sections: Sections 226.6, 226.7, 226.9, 226.12, 226.15, 226.18, and 226.23.
Previous regulation: None.
1981 changes: None.

APPENDIX J—ANNUAL PERCENTAGE RATE COMPUTATIONS FOR CLOSED-END CREDIT TRANSACTIONS

1. Use of appendix J. Appendix J sets forth the actuarial equations and instructions for calculating the annual percentage rate in closed-end credit transactions. While the formulas contained in this appendix may be directly applied to calculate the annual percentage rate for an individual transaction, they may also be utilized to program calculators and computers to perform the calculations.

2. Relation to Board tables. The Board's Annual Percentage Rate Tables also provide creditors with a calculation tool that applies the technical information in appendix J. An annual percentage rate computed in accordance with the instructions in the tables is deemed to comply with the regulation. Volume I of the tables may be used for credit transactions involving equal payment amounts and periods, as well as for transactions involving any of the following irregularities: odd first period, odd first payment and odd last payment. Volume II of the tables may be used for transactions that involve any type of irregularities. These tables may be obtained from any Federal Reserve Bank or from the Board in Washington, DC 20551, upon request.

References
Statute: Section 107.
Other sections: Section 226.22.
Previous regulation: Section 226.40 (Supplement I).
1981 changes: Paragraph (b)(2) has been revised to clarify that the term of the transaction never begins earlier than consummation of the transaction. Paragraph (b)(5)(vi) has been revised to permit creditors in single-advance, single-payment transactions in which the term is less than a year and is equal to a whole number of months, to use either the 12-month method or the 365-day method to compute the number of unit-periods per year.

APPENDIX K—TOTAL ANNUAL LOAN COST RATE COMPUTATIONS FOR REVERSE MORTGAGE TRANSACTIONS

1. General. The calculation of total annual loan cost rates under appendix K is based on the principles set forth and the estimation or “iteration” procedure used to compute annual percentage rates under appendix J. Rather than restate this iteration process in full, the regulation cross-references the procedures found in appendix J. In other aspects the appendix reflects the special nature of reverse mortgage transactions. Special definitions and instructions are included where appropriate.

(b) Instructions and equations for the total annual loan cost rate.

(b)(5) Number of unit-periods between two given dates.
1. Assumption as to when transaction begins.

The computation of the total annual loan cost rate is based on the assumption that the reverse mortgage transaction begins on the first day of the month in which consummation is estimated to occur. Therefore, fractional unit-periods (used under appendix J for calculating annual percentage rates) are not used.

(b)(9) Assumption for discretionary cash advances.
1. Amount of credit. Creditors should compute the total annual loan cost rates for transactions involving discretionary cash advances by assuming that 50 percent of the initial amount of the credit available under the transaction is advanced at closing or, in an open-end transaction, when the consumer becomes obligated under the plan. (For the purposes of this assumption, the initial amount of the credit is the principal loan
amount less any costs to the consumer under section 226.3(c)(1.)

(b)(10) Assumption for variable-rate reverse mortgage transactions.

1. Initial discount or premium rate. Where a variable-rate reverse mortgage transaction includes an initial discount or premium rate, the creditor should apply the same rules for calculating the total annual loan cost rate as are applied when calculating the annual percentage rate for a loan with an initial discount or premium rate (see the commentary to §226.17(c)).

(d) Reverse mortgage model form and sample form.

(d)(2) Sample form.

1. General. The “clear and conspicuous” standard for reverse mortgage disclosures does not require disclosures to be printed in any particular type size. Disclosures may be made on more than one page, and use both the front and the reverse sides, as long as the pages constitute an integrated document and the table disclosing the total annual loan cost rates is on a single page.

APPENDIX L—ASSUMED LOAN PERIODS FOR COMPUTATIONS OF TOTAL ANNUAL LOAN COST RATES

1. General. The life expectancy figures used in appendix L are those found in the U.S. Decennial Life Tables for women, as rounded to the nearest whole year and as published by the U. S. Department of Health and Human Services. The figures contained in appendix L must be used by creditors for all consumers (men and women). Appendix L will be revised periodically by the Board to incorporate revisions to the figures made in the Decennial Tables.

[66 FR 60586, Oct. 9, 1991]

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting supplement I of part 226, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and on GPO Access.

EFFECTIVE DATE NOTE: At 73 FR 44604 through 44613, July 30, 2008, supplement I of part 226 was amended accordingly: under Section 226.1—Authority, Purpose, Coverage, Organization, Enforcement and Liability, new headings 1(d) Organization and Paragraph 1(d)(5), and new paragraph 1(d)(5)–1 were added; under Section 226.2—Definitions and Rules of Construction, 2(a) Definitions, 2(a)(6) Business day, paragraph 2(a)(6)–2 was revised, and under 2(a)(24) Residential mortgage transactions, paragraphs 2(a)(24)–1 and 2(a)(24)–2 were revised; under Section 226.15—Advertising, paragraph 15–1 was revised, paragraph 16–2 was redesignated as paragraph 16–6, and new paragraphs 16–2 through 16–6 and 16–7 were added; under 16(d) Additional requirements for home-equity plans, paragraph 16(d)(3) was revised, paragraphs 16(d)(4)–5, 16(d)(4)–6, and 16(d)(4)–7 were redesignated as paragraphs 16(d)(4)–7, 16(d)(4)–8, and 16(d)(4)–9, respectively, new paragraphs 16(d)(4)–5 and 16(d)(4)–6 were added, and newly designated paragraphs 16(d)(4)–7 and 16(d)(4)–9 were revised; and new heading 16(e) Disclosure of rates and payments in advertisements for credit secured by a dwelling, 16(e)(1) Disclosure of rates and payments, 16(e)(2) and 16(e)(3) were revised; and new paragraph 16(e)(4) was added.

Section 226.17—General Disclosure Requirements, 17(c) Basis of disclosures and use of estimates, paragraph 17(c)(1), paragraph 17(c)(3) was revised, and under 17(f) Early disclosures, paragraph 17(f)–4 was revised; under Section 226.19—Certain Residential Mortgage and Variable-Rate Transactions, the heading was revised, heading 19(a)(1) Time of disclosure was redesignated as heading 19(a)(1)(i) Time of disclosure, paragraphs 19(a)(1)(i)–1 and 19(a)(1)(i)–5 were revised, new heading 19(a)(1)(ii) Imposition of fees and new paragraphs 19(a)(1)(ii)–1 through 19(a)(1)(ii)–3 were added, and new heading 19(a)(1)(ii) Exception to fee restriction and new paragraph 19(a)(1)(ii)–1 were added; under Section 226.24—Advertising, paragraph 24–1 is revised; heading 24(d) Catalogs or other multiple-page advertisements; electronic advertisements and paragraphs 24(d)–1 through 24(d)–4 were redesignated as heading 24(e) Catalogs or other multiple-page advertisements; electronic advertisements and paragraphs 24(e)–1 through 24(e)–4, respectively; headings 24(f) Advertisements of terms that require additional disclosures, Paragraph 24(f)(1), and Paragraph 24(f)(2) and paragraphs 24(f)(2)–1, 24(f)(2)–1 through 24(f)(2)–4, and 24(f)(2)–1 through 24(f)(2)–4 were redesignated as headings 24(d) Advertisements of terms that require additional disclosures, Paragraph 24(d)(1), and Paragraph 24(d)(2) and paragraphs 24(d)(2)–1, 24(d)(2)–1 through 24(d)(2)–4, and 24(d)(2)–1 through 24(d)(2)–4, respectively; heading 24(b) Advertisement of rate of finance charge and paragraphs 24(b)–1 through 24(b)–3 were redesignated as heading 24(c) Advertisement of rate of finance charge and paragraphs 24(c)–1 through 24(c)–5, respectively; new heading 24(b) Clear and conspicuous standard and new paragraphs 24(b)–1 through 24(b)–5 were added; newly designated paragraphs 24(c)–2 and 24(c)–3 were revised, newly designated paragraph 24(c)(4) was removed, and newly designated paragraph 24(c)(5)–5 was further redesigned as 24(c)(4) and revised; newly designated paragraphs 24(d)(1)–1, 24(d)(1)–3, and 24(d)(2)–2 were revised, newly designated paragraphs 24(d)(2)–3 and 24(d)(2)–4 were further redesigned as 24(d)(2)–4 and 24(d)(2)–5, respectively, new paragraph 24(d)(2)–3 was added, and newly designated paragraph 24(d)(2)–5 was revised; newly designated paragraph 24(e)–1, 24(e)–2, and 24(e)–4 were revised; and new headings 24(f) Disclosure of rates and payments in advertisements for credit secured by a dwelling, 24(f)(1) Disclosure of rates and payments.
Alternative disclosures—television or radio advertisements, 24(i) Prohibited acts or practices in advertisements for credit secured by a dwelling and new paragraphs 24(f)(3)(i)–1 through 24(f)(3)(iii)–2, 24(g)(1)–1, 24(g)(1)–2, and 24(i)–1 through 24(i)–3 were added; under Section 226.32—Requirements for Certain Closed-End Home Mortgages, 32(a) Coverage, new heading Paragraph 32(a)(2) and new paragraphs 32(a)(2)(i)–1 were added, under 32(d) Limitations, new paragraphs 32(d)(2)–1 and 32(d)(2)–2 were added; under 32(d)(7) Prepayment penalty exception, Paragraph 32(d)(7)(i)(i)–1, and new paragraphs 32(d)(7)(i)(i)–1 through 32(d)(7)(i)(i)–2 were removed and new paragraphs 32(d)(7)(i)(i)–1 through 32(d)(7)(i)(i)–3 were added, and new heading Paragraph 32(d)(7)(iii) and new paragraphs 32(d)(7)(iii)–1 and 32(d)(7)(iii)–2 were added; under Section 226.34—Prohibited Acts or Practices in Connection with Credit Secured by a Consumer’s Dwelling; Open-end Credit, the heading was revised, and under 34(a) Prohibited acts or practices for loans subject to § 226.32, new paragraphs 34(a)(4)(i)–1 through 34(a)(4)(iv)–2 were added; under 34(a)(4) Repayment ability, new paragraphs 34(a)(4)(i)–1 through 34(a)(4)(iv)–2 were added; under 34(a)(4)(i)–1 through 34(a)(4)(iv)–2, new heading 34(a)(4)(i) Mortgage-related obligations and new paragraph 34(a)(4)(i)–1, new heading 34(a)(4)(ii) Verification of repayment ability and new paragraphs 34(a)(4)(ii)–1 through 34(a)(4)(ii)–2, new heading Paragraph 34(a)(4)(ii)(A)–1 through 34(a)(4)(ii)(A)–5, new heading Paragraph 34(a)(4)(ii)(B)–1 and 34(a)(4)(ii)(B)–2, new heading Paragraph 34(a)(4)(ii)(B)(1) and new paragraph 34(a)(4)(ii)(B)(1)–1, new heading Paragraph 34(a)(4)(ii)(C)–1, new heading Paragraph 34(a)(4)(ii)(C)(1)–1, new heading Paragraph 34(a)(4)(iii) Presumption of compliance and new paragraph 34(a)(4)(iii)–1, new heading Paragraph 34(a)(4)(iii)(B)–1 and new paragraph 34(a)(4)(iii)(B)(1)–1, new heading Paragraph 34(a)(4)(iii)(C)(1)–1, new heading Paragraph 34(a)(4)(iii)(C)(1)–1, and new paragraph 34(a)(4)(iv)–1 and 34(a)(4)(iv)–2 were added; new Section 226.35—Prohibited Acts or Practices in Connection with Higher-priced Mortgage Loans was added; Section 226.36—Prohibited Acts or Practices in Connection with Credit Secured by a Consumer’s Principal Dwelling was added, effective Oct. 1, 2009. For the convenience of the user, the added and revised text is set forth as follows:

**Supplement I to Part 226—Official Staff Interpretations**

Section 226.1—Authority, Purpose, Coverage, Organization, Enforcement and Liability

1(d) Organization. Paragraph 1(d)(5).

1. Effective dates. The Board’s revisions to Rule Z published on July 30, 2008 (the “final rules”), apply to covered loans (including refinancing loans and assumptions considered new transactions under § 226.20), for which the creditor receives an application on or after October 1, 2009, except for the final rules on advertising, escrows, and loan servicing. The final rules on escrows in § 226.35(b)(3) are effective for covered loans, (including refinancings and assumptions in § 226.20) for which the creditor receives an application on or after April 1, 2010, but for such loans secured by manufactured housing on or after October 1, 2009. The final rules on advertising apply to advertisements occurring on or after October 1, 2009. For example, a radio ad occurs on the date it is first broadcast; a solicitation occurs on the date it is mailed to the consumer. The following examples illustrate the application of the effective dates for the final rules.

i. General. A refinancing or assumption as defined in § 226.20(a) or (b) is a new transaction and is covered by a provision of the final rule if the creditor receives an application for the transaction on or after that provision’s effective date. For example, if a creditor receives an application for a refinancing loan covered by § 226.35(a) on or after October 1, 2009, and the refinancing loan is consummated on October 15, 2009, the provision restricting prepayment penalties in § 226.35(b)(3) is effective for that refinancing loan. However, if the transaction were a modification of an existing obligation’s terms that does not constitute a refinancing under § 226.20(a), the final rules, including for example the restriction on prepayment penalties would not apply.

ii. Escrows. Assume a consumer applies for a refinancing loan to be secured by a dwelling (that is not a manufactured home) on March 31, 2010, and the loan is consummated on April 2, 2010, the escrow rule in § 226.35(b)(3) does not apply.

iii. Servicing. Assume that a consumer applies for a new loan on August 1, 2009. The loan is consummated on September 1, 2009.

The servicing rules in § 226.36(c) apply to the servicing of that loan as of October 1, 2009.
Federal Reserve System

2(a)(6) Business day.

2. Recission rule. A more precise rule for what is a business day (all calendar days except Sundays and the federal legal holidays listed in 5 U.S.C. 6103(a)) applies when the right of rescission, the receipt of disclosures for certain mortgage transactions under section 226.18(a)(1)(ii), or mortgages subject to section 226.32 are involved. (See also comment 16(a)(1)–1.) Four federal legal holidays are identified in 5 U.S.C. 6103(a) by a specific date: New Year’s Day, January 1; Independence Day, July 4; Veterans Day, November 11; and Christmas Day, December 25. When one of these holidays (July 4, for example) falls on a Saturday, federal offices and other entities might observe the holiday on the preceding Friday (July 3). The observed holiday (in the example, July 3) is a business day for purposes of rescission, the receipt of disclosures for certain mortgage transactions under section 226.18(a)(1)(ii), or the delivery of disclosures for certain high-cost mortgages covered by section 226.32.

2(a)(24) Residential mortgage transaction.

1. Relation to other sections. This term is important in five provisions in the regulation:
   i. §226.4(c)(7)—exclusions from the finance charge.
   ii. §226.15(f)—exemption from the right of rescission.
   iii. §226.18(q)—whether or not the obligor’s interest.
   iv. §226.39(b)—disclosure requirements for assumptions.
   v. §226.23(f)—exemption from the right of rescission.

5. Acquisition. * * *

2. Examples of new transactions involving a previously acquired dwelling include the financing of a balloon payment due under a land sale contract and an extension of credit made to a joint owner of property to buy out the other joint owner’s interest. In these instances, disclosures are not required under §226.18(q) (assumability policies). However, the rescission rules of §§226.15 and 226.23 do apply to these new transactions.

Section 226.16—Advertising

1. Clear and conspicuous standard—general. Section 226.16 is subject to the general “clear

and conspicuous” standard for subpart B (see §226.5(a)(1)) but prescribes no specific rules for the format of the necessary disclosures, aside from the format requirements related to the disclosure of a promotional rate under §226.16(d)(6). Aside from the terms described in §226.16(d)(6), the credit terms need not be printed in a certain type size nor need they appear in any particular place in the advertisement.

2. Clear and conspicuous standard—promotional rates or payments for home-equity plans. For purposes of §226.16(d)(6), a clear and conspicuous disclosure means that the required information in §226.16(d)(6)(1)(A)–(C) is disclosed with equal prominence and in close proximity to the promotional rate or payment to which it applies. If the information in §226.16(d)(6)(1)(A)–(C) is the same type size and is located immediately next to or directly above or below the promotional rate or payment to which it applies, without any intervening text or graphical displays, the disclosures would be deemed to be equally prominent and in close proximity. Notwithstanding the above, for electronic advertisements that disclose promotional rates or payments, compliance with the requirements of §226.16(c) is deemed to satisfy the clear and conspicuous standard.

3. Clear and conspicuous standard—Internet advertisements for home-equity plans. For purposes of this section, a clear and conspicuous disclosure for visual text advertisements on the Internet for home-equity plans subject to the requirements of §226.5b means that the required disclosures are not obscured by techniques such as graphical displays, shading, coloration, or other devices, are displayed in a manner that allows for a consumer to read the information required to be disclosed, and comply with all other requirements for clear and conspicuous disclosures under §226.16(d). See also comment 16(c)(1)–2.

4. Clear and conspicuous standard—television advertisements for home-equity plans. For purposes of this section, including alternative disclosures as provided for by §226.16(e), a clear and conspicuous disclosure in the context of visual text advertisements on television for home-equity plans subject to the requirements of §226.5b means that the required disclosures are not obscured by techniques such as graphical displays, shading, coloration, or other devices, are displayed in a manner that allows for a consumer to read the information required to be disclosed, and comply with all other requirements for clear and conspicuous disclosures under §226.16(d). For example, very fine print in a television advertisement would not meet the clear and conspicuous standard if consumers cannot see and read the information required to be disclosed.

5. Clear and conspicuous standard—oral advertisements for home-equity plans. For purposes of this section, including alternative disclosures as provided for by §226.16(e), a
clear and conspicuous disclosure in the context of an oral advertisement for home-equity plans subject to the requirements of §226.3b, whether by radio, television, the Internet, or other medium, means that the required disclosures are given at a speed and volume sufficient for a consumer to hear and comprehend them. For example, information stated very slowly in a radio or television advertisement would not meet the clear and conspicuous standard if consumers cannot hear and comprehend the information required to be disclosed.

6. Expressing the annual percentage rate in abbreviated form.* *

7. Effective date. For guidance on the applicability of the Board’s revisions to §226.16 published on July 30, 2008, see comment 1(d)(5)-1.

* * * * *

16(d) Additional requirements for home-equity plans.

* * * * *

3. Statements of tax deductibility. An advertisement that refers to deductibility for tax purposes is not misleading if it includes a statement such as “consult a tax advisor regarding the deductibility of interest.” An advertisement distributed in paper form or through the Internet (rather than by radio or television) that states that the advertised extension of credit may exceed the fair market value of the consumer’s dwelling is not misleading if it clearly and conspicuously states the required information in §§226.16(d)(4)(i) and (ii).

* * * * *

5. Promotional rates and payments in advertisements for home-equity plans. Section 226.16(d)(6) requires additional disclosures for promotional rates or payments.

1. Variable-rate plans. In advertisements for variable-rate plans, if the advertised annual percentage rate is based on (or the advertised payment is derived from) the index and margin that will be used to make rate (or payment) adjustments over the term of the loan, then there is no promotional rate or promotional payment. If, however, the advertised annual percentage rate is not based on (or the advertised payment is not derived from) the index and margin that will be used to make rate (or payment) adjustments, and a reasonably current application of the index and margin would result in a higher annual percentage rate (or, given an assumed balance, a higher payment) then there is a promotional rate or promotional payment.

ii. Equal prominence, close proximity. Information required to be disclosed in §226.16(d)(6)(ii) that is immediately next to or directly above or below the promotional rate or payment (but not in a footnote) is deemed to be closely proximate to the listing. Information required to be disclosed in §226.16(d)(6)(ii) that is in the same type size as the promotional rate or payment is deemed to be equally prominent.

iii. Amounts and time periods of payments. Section 226.16(d)(6)(ii)(C) requires disclosure of the amount and time periods of any payments that will apply under the plan. This section may require disclosure of several payment amounts, including any balloon payment. For example, if an advertisement for a home-equity plan offers a $100,000 five-year line of credit and assumes that the entire line is drawn resulting in a minimum payment of $800 per month for the first six months, increasing to $1,000 per month after month six, followed by a $50,000 balloon payment after five years, the advertisement must disclose the amount and time period of each of the two monthly payment streams, as well as the amount and timing of the balloon payment, with equal prominence and in close proximity to the promotional payment. However, if the final payment could not be more than twice the amount of other minimum payments, the final payment need not be disclosed.

iv. Plans other than variable-rate plans. For a plan other than a variable-rate plan, if an advertised payment is calculated in the same way as other payments based on an assumed balance, the fact that the minimum payment could increase solely if the consumer made an additional draw does not make the payment a promotional payment. For example, if a payment of $500 results from an assumed $10,000 draw, and the payment would increase to $1,000 if the consumer made an additional $10,000 draw, the payment is not a promotional payment.

v. Conversion option. Some home-equity plans permit the consumer to repay all or part of the balance during the draw period at a fixed rate (rather than a variable rate) and over a specified time period. The fixed-rate conversion option does not, by itself, make the rate or payment that would apply if the consumer exercised the fixed-rate conversion option a promotional rate or payment.

vi. Preferred-rate provisions. Some home-equity plans contain a preferred-rate provision, where the rate will increase upon the occurrence of some event, such as the consumer-employee leaving the creditor’s employ, the consumer closing an existing deposit account with the creditor, or the consumer revoking an election to make automated payments. A preferred-rate provision does not, by itself, make the rate or payment under the preferred-rate provision a promotional rate or payment.

6. Reasonably current index and margin. For the purposes of this section, an index and margin is considered reasonably current if:
Federal Reserve System

Pt. 226, Supp. I, NI.

Section 226.17—General Disclosure Requirements

1. For direct mail advertisements, it was in effect within 60 days before mailing;

2. For advertisements in electronic form it was in effect within 30 days before the advertisement is sent to a consumer’s e-mail address, or in the case of an advertisement made on an Internet Web site, when viewed by the public; or

3. For printed advertisements made available to the general public, including ones contained in a catalog, magazine, or other generally available publication, it was in effect within 30 days before printing.

7. Relation to other sections. Advertisements for home-equity plans must comply with all provisions in §226.16 not solely the rules in §226.16(d). If an advertisement contains information (such as the payment terms) that triggers the duty under §226.16(d) to state the annual percentage rate, the additional disclosures in §226.16(b) must be provided in the advertisement. While §226.16(d) does not require a statement of fees to use or maintain the plan (such as membership fees and transaction charges), such fees must be disclosed under §226.16(b)(1) and (3).

9. Balloon payment. See comment §5(b)(ii)-3 for information not required to be stated in advertisements, and on situations in which the balloon payment requirement does not apply:

16(e) Alternative disclosures—television or radio advertisements.

1. Multi-purpose telephone number. When an advertised telephone number provides a recording, disclosures should be provided early in the sequence to ensure that the consumer receives the required disclosures. For example, in providing several options—such as providing directions to the advertiser’s place of business—the option allowing the consumer to request disclosures should be provided early in the telephone message to ensure that the option to request disclosures is not obscured by other information.

2. Statement accompanying telephone number. Language must accompany a telephone number indicating that disclosures are available by calling the telephone number, such as “call 1-800-000-0000 for details about credit costs and terms.”

Paragraph 17(c)(1).

8. Basis of disclosures in variable-rate transactions. The disclosures for a variable-rate transaction must be given for the full term of the transaction and must be based on the terms in effect at the time of consummation. Creditors should base the disclosures only on the initial rate and should not assume that this rate will increase. For example, in a loan with an initial rate of 10 percent and a 5 percentage points rate cap, creditors should base the disclosures on the initial rate and should not assume that this rate will increase 5 percentage points. However, in a variable-rate transaction with a seller buydown that is reflected in the credit contract, a consumer buydown, or a discounted or premium rate, disclosures should not be based solely on the initial terms. In those transactions, the disclosed annual percentage rate should be a composite rate based on the rate in effect during the initial period and the rate that is the basis of the variable-rate feature for the remainder of the term. (See the commentary to §226.17(c) for a discussion of buydown, discounted, and premium transactions and the commentary to §226.19(a)(2) for a discussion of the redisclosure in certain mortgage transactions with a variable-rate feature.)

17(f) Early disclosures.

4. Special rules. In mortgage transactions subject to §226.19, the creditor must disclose if, between the delivery of the required early disclosures and consummation, the annual percentage rate changes by more than a stated tolerance. When subsequent events occur after consummation, new disclosures are required only if there is a refinancing or an assumption within the meaning of §226.20.

Section 226.19—Certain Mortgage and Variable-Rate Transactions

19(a)(1)(i) Time of disclosure.

1. Coverage. This section requires early disclosure of credit terms in mortgage transactions that are secured by a consumer’s principal dwelling and also subject to the Real Estate Settlement Procedures Act (RESPA) and its implementing Regulation X, administered by the Department of Housing and Urban Development (HUD). To be covered by §226.19, a transaction must be a federally related mortgage loan under RESPA. “Federally related mortgage loan”
is defined under RESPA (12 U.S.C. 2602) and Regulation X (24 CFR 3500.2), and is subject to any interpretations by HUD. RESPA coverage includes such transactions as loans to purchase dwellings, refinancings of loans secured by dwellings, and subordinate-lien home-equity loans, among others. Although RESPA coverage relates to any dwelling, §226.19(a) applies to such transactions only if they are secured by a consumer’s principal dwelling. Also, home equity lines of credit subject to §226.5b are not covered by §226.19(a). For guidance on the applicability of the Board’s revisions to §226.19(a) published on July 30, 2008, see comment 1(d)(5)–1.

5. Itemization of amount financed. In many mortgage transactions, the itemization of the amount financed required by §226.18(c) will contain items, such as origination fees or points, that also must be disclosed as part of the good faith estimates of settlement costs required under RESPA. Creditors furnishing the RESPA good faith estimates need not give consumers any itemization of the amount financed, either with the disclosures provided within three days after application or with the disclosures given at consummation or settlement.

19(a)(1)(ii) Imposition of fees.

1. Timing of fees. The consumer must receive the disclosures required by this section before paying or incurring any fee imposed by a creditor or other person in connection with the consumer’s application for a mortgage transaction that is subject to §226.19(a)(1)(i), except as provided in §226.19(a)(1)(iii). If the creditor delivers the disclosures to the consumer in person, a fee may be imposed anytime after delivery. If the creditor places the disclosures in the mail, the creditor may impose a fee after the consumer receives the disclosures or, in all cases, after midnight on the third business day following mailing of the disclosures. For purposes of §226.19(a)(1)(i), the term “business day” means all calendar days except Sundays and legal public holidays referred to in §226.2(a)(6). See Comment 2(a)(6)–2. For example, assuming that there are no intervening legal public holidays, a creditor that receives the consumer’s written application on Monday and mails the early mortgage loan disclosure on Tuesday may impose a fee on the consumer after midnight on Friday.

2. Fees restricted. A creditor or other person may not impose any fee, such as for an appraisal, underwriting, or broker services, until the consumer has received the disclosures required by §226.19(a)(1)(i). The only exception to the fee restriction allows the creditor or other person to impose a bona fide and reasonable fee for obtaining a consumer’s credit history, such as for a credit report(s).

i. The creditor receives a consumer’s written application directly from the consumer and does not collect any fee, other than a fee for obtaining a consumer’s credit history, until the consumer receives the early mortgage loan disclosure.

ii. A third party submits a consumer’s written application to a creditor and both the creditor and third party do not collect any fee, other than a fee for obtaining a consumer’s credit history, until the consumer receives the early mortgage loan disclosure from the creditor.

iii. A third party submits a consumer’s written application to a second creditor following a prior creditor’s denial of an application made by the same consumer (or following the consumer’s withdrawal), and, if a fee already has been assessed, the new creditor or third party does not collect or impose any additional fee until the consumer receives an early mortgage loan disclosure from the new creditor.

19(a)(1)(iii) Exception to fee restriction.

1. Requirements. A creditor or other person may impose a fee before the consumer receives the required disclosures if it is for obtaining the consumer’s credit history, such as by purchasing a credit report(s) on the consumer. The fee also must be bona fide and reasonable in amount. For example, a creditor may collect a fee for obtaining a credit report(s) if it is in the creditor’s ordinary course of business to obtain a credit report(s). If the criteria in §226.19(a)(1)(iii) are met, the creditor may describe or refer to this fee, for example, as an “application fee.”

Section 226.24—Advertising

1. Effective date. For guidance on the applicability of the Board’s changes to §226.24 published on July 30, 2008, see comment 1(d)(5)–1.

24(b) Clear and conspicuous standard.

1. Clear and conspicuous standard—general. This section is subject to the general “clear and conspicuous” standard for this subpart, see §226.17(a)(1), but prescribes no specific rules for the format of the necessary disclosures, other than the format requirements related to the advertisement of rates and payments as described in comment 24(b)–2 below. The credit terms need not be printed in a certain type size nor need they appear in any particular place in the advertisement. For example, a merchandise tag that is an advertisement under the regulation complies with this section if the necessary credit
Federal Reserve System

Pt. 226, Supp. I, NI.

terms are on both sides of the tag, so long as each side is accessible.

2. Clear and conspicuous standard—rates and payments in advertisements for credit secured by a dwelling. For purposes of §226.24(c), a clear and conspicuous disclosure means that the required information in §§226.24(f)(2)(i) and 226.24(f)(3)(i)(A) and (B) is disclosed with equal prominence and in close proximity to the advertised rates or payments triggering the required disclosures, and that the required information in §§226.24(f)(3)(i)(C) and 226.24(f)(3)(i)(D) is disclosed prominently and in close proximity to the advertised rates or payments triggering the required disclosures. If the required information in §§226.24(f)(2)(i) and 226.24(f)(3)(i)(A) and (B) is the same type size as the advertised rates or payments triggering the required disclosures, the disclosures are deemed to be equally prominent. The information in §§226.24(f)(3)(i)(C) must be disclosed prominently, but need not be disclosed with equal prominence or be the same type size as the payments triggering the required disclosures. If the required information in §§226.24(f)(2)(i) and 226.24(f)(3)(i) is located immediately next to or directly above or below the advertised rates or payments triggering the required disclosures, without any intervening text or graphical displays, the disclosures are deemed to be in close proximity. Notwithstanding the above, for electronic advertisements that disclose rates or payments, compliance with the requirements of §226.24(e) is deemed to satisfy the clear and conspicuous standard.

3. Clear and conspicuous standard—Internet advertisements for credit secured by a dwelling. For purposes of this section, including alternative disclosures as provided for by §226.24(g), a clear and conspicuous disclosure for visual text advertisements on the Internet for credit secured by a dwelling means that the required disclosures are not obscured by techniques such as graphical displays, shading, coloration, or other devices and comply with all other requirements for clear and conspicuous disclosures under §226.24. See also comment 24(e)-4.

4. Clear and conspicuous standard—televised advertisements for credit secured by a dwelling. For purposes of this section, including alternative disclosures as provided for by §226.24(g), a clear and conspicuous disclosure in the context of visual text advertisements on television for credit secured by a dwelling means that the required disclosures are not obscured by techniques such as graphical displays, shading, coloration, or other devices, are displayed in a manner that allows a consumer to read the information required to be disclosed, and comply with all other requirements for clear and conspicuous disclosures under §226.24. For example, very fine print in a television advertisement would not meet the clear and conspicuous standard if consumers cannot see and read the information required to be disclosed.

5. Clear and conspicuous standard—oral advertisements for credit secured by a dwelling. For purposes of this section, including alternative disclosures as provided for by §226.24(g), a clear and conspicuous disclosure in the context of an oral advertisement for credit secured by a dwelling, whether by radio, television, or other medium, means that the required disclosures are given at a speed and volume sufficient for a consumer to hear and comprehend them. For example, information stated very rapidly at a low volume in a radio or television advertisement would not meet the clear and conspicuous standard if consumers cannot hear and comprehend the information required to be disclosed.

24(c) Advertisement of rate of finance charge.

* * * * *

2. Simple or periodic rates. The advertisement may not simultaneously state any other rate, except that a simple annual rate or periodic rate applicable to an unpaid balance may appear along with (but not more conspicuously than) the annual percentage rate. An advertisement for credit secured by a dwelling may not state a periodic rate, other than a simple annual rate, that is applied to an unpaid balance. For example, in an advertisement for credit secured by a dwelling, a simple annual interest rate may be shown in the same type size as the annual percentage rate for the advertised credit, subject to the requirements of section 226.24(f). A simple annual rate or periodic rate that is applied to an unpaid balance is the rate at which interest is accruing; those terms do not include a rate lower than the rate at which interest is accruing, such as an effective rate, payment rate, or qualifying rate.

3. Buydowns. When a third party (such as a seller) or a creditor wishes to promote the availability of reduced interest rates (consumer or seller buydowns), the advertised annual percentage rate must be determined in accordance with the commentary to §226.17(c) regarding the basis of transactional disclosures for buydowns. The seller or creditor may advertise the reduced simple interest rate, provided the advertisement shows the limited term to which the reduced rate applies and states the simple interest rate applicable to the balance of the term. The advertisement may also show the effect of the buydown agreement on the payment schedule for the buydown period, but this will trigger the additional disclosures under §226.24(d)(2).

4. Discounted variable-rate transactions. The advertised annual percentage rate for discounted variable-rate transactions must be determined in accordance with comment 17(c)(1)-10 regarding the basis of transactional disclosures for such financing.
Disclosures of repayment terms. The phrase "terms of repayment" generally has the same meaning as the "payment schedule" required to be disclosed under §226.18(g). Section 226.24(d)(2)(ii) provides flexibility to creditors in making this disclosure for advertising purposes. Repayment terms may be expressed in a variety of ways in addition to an exact repayment schedule; this is particularly true for advertisements that do not contemplate a single specific transaction.

Repayment terms, however, must reflect the consumer's repayment obligations over the full term of the loan, including any balloon payment, see comment 24(d)(2)-3, not just the repayment terms that will apply for a limited period of time. For example:

1. A creditor may use a unit-cost approach in making the required disclosure, such as “48 monthly payments of $27.83 per $1,000 borrowed.”

2. In an advertisement for credit secured by a dwelling, when any series of payments varies because of the inclusion of mortgage insurance premiums, a creditor may state the number and timing of payments, the fact that payments do not include amounts for mortgage insurance premiums, and that the actual payment obligation will be higher.

3. In an advertisement for credit secured by a dwelling, when one series of monthly payments will apply for a limited period of time followed by a series of higher monthly payments for the remaining term of the loan, the advertisement must state the number and time period of each series of payments, and the amounts of each of those payments. For this purpose, the creditor must assume that the consumer makes the lower series of payments for the maximum allowable period of time.

4. Annual percentage rate.

5. Use of examples. A creditor may use illustrative credit transactions to make the necessary disclosures under §226.24(d)(2). That is, where a range of possible combinations of credit terms is offered, the advertisement may use examples of typical transactions, so
long as each example contains all of the applicable terms required by §226.24(d). The examples must be labeled as such and must reflect representative credit terms made available by the creditor to present and prospective customers.

24(e) Catalogs or other multiple-page advertisements; electronic advertisements.

1. Definitions. The multiple-page advertisements to which this section refers are advertisements consisting of a series of sequentially numbered pages—for example, a supplement to a newspaper. A mailing consisting of several separate flyers or pieces of promotional material in a single envelope does not constitute a single multiple-page advertisement for purposes of §226.24(e).

2. General. Section 226.24(e) permits creditors to put credit information together in one place in a catalog or other multiple-page advertisement or in an electronic advertisement (such as an advertisement appearing on an Internet Web site). The rule applies only if the advertisement contains one or more of the triggering terms from §226.24(d)(1). A list of different annual percentage rates applicable to different balances, for example, does not trigger further disclosures under §226.24(d)(2) and so is not covered by §226.24(e).

* * * * *

4. Electronic advertisement. If an electronic advertisement (such as an advertisement appearing on an Internet Web site) contains the table or schedule permitted under §226.24(e)(1), any statement of terms set forth in §226.24(d)(1) appearing anywhere else in the advertisement must clearly direct the consumer to the location where the table or schedule begins. For example, a term triggering additional disclosures may be accompanied by a link that directly takes the consumer to the additional information.

24(f) Disclosure of rates and payments in advertisements for credit secured by a dwelling.

1. Applicability. The requirements of §226.24(f)(2) apply to advertisements for loans where more than one simple annual rate of interest will apply. The requirements of §226.24(f)(3)(i)(A) require a clear and conspicuous disclosure of each payment that will apply over the term of the loan. In determining whether a payment will apply when the consumer may choose to make a series of lower monthly payments that will apply for a limited period of time, the creditor must assume that the consumer makes the series of lower payments for the maximum allowable period of time. See comment 24(d)(2)-1.ii. However, for purposes of §226.24(f), the creditor may, but need not, assume that specific events which trigger changes to the simple annual rate of interest or to the applicable payments will occur. For example:

1. Fixed-rate conversion loans. If a loan program permits consumers to convert their variable-rate loans to fixed rate loans, the creditor need not assume that the fixed-rate conversion option, by itself, means that more than one simple annual rate of interest will apply to the loan under §226.24(f)(2) and need not disclose as a separate payments under §226.24(f)(3)(i)(A) the payment that would apply if the consumer exercised the fixed-rate conversion option.

ii. Preferred-rate loans. Some loans contain a preferred-rate provision, where the rate will increase upon the occurrence of some event, such as the consumer-employee leaving the creditor's employ or the consumer closing an existing deposit account with the creditor or the consumer revoking an election to make automated payments. A creditor need not assume that the preferred-rate provision, by itself, means that more than one simple annual rate of interest will apply to the loan under §226.24(f)(2) and the payments that would apply upon occurrence of the event that triggers the rate increase need not be disclosed as a separate payments under §226.24(f)(3)(i)(A).

iii. Rate reductions. Some loans contain a provision where the rate will decrease upon the occurrence of some event, such as if the consumer makes a series of payments on time. A creditor need not assume that the rate reduction provision, by itself, means that more than one simple annual rate of interest will apply to the loan under §226.24(f)(2) and need not disclose the payments that would apply upon occurrence of the event that triggers the rate reduction as a separate payments under §226.24(f)(3)(i)(A).

2. Equal prominence, close proximity. Information required to be disclosed under §§226.24(f)(2)(ii) and 226.24(f)(3)(i) that is immediately next to or directly above or below the simple annual rate or payment amount (but not in a footnote) is deemed to be closely proximate to the listing. Information required to be disclosed under §§226.24(f)(2)(ii) and 226.24(f)(3)(i) that is in the same type size as the simple annual rate or payment amount is deemed to be equally prominent.

3. Clear and conspicuous standard. For more information about the applicable clear and conspicuous standard, see comment 24(b)-2.

4. Comparisons in advertisements. When making any comparison in an advertisement between actual or hypothetical credit payments or rates and the payments or rates available under the advertised product, the advertisement must state all applicable payments or rates for the advertised product and the time periods for which those payments or rates will apply, as required by this section.

5. Application to variable-rate transactions—disclosure of rates. In advertisements for variable-rate transactions, if a simple annual
rate that applies at consummation is not based on the index and margin that will be used to make subsequent rate adjustments over the term of the loan, the requirements of §226.24(f)(3)(i) apply.

6. Reasonably current index and margin. For the purposes of this section, an index and margin is considered reasonably current if:
   i. For direct mail advertisements, it was in effect within 60 days before mailing;
   ii. For advertisements in electronic form it was in effect within 30 days before the advertisement is sent to a consumer’s e-mail address, or in the case of an advertisement made on an Internet Web site, when viewed by the public; or
   iii. For printed advertisements made available to the general public, including ones contained in a catalog, magazine, or other generally available publication, it was in effect within 30 days before printing.

1. Amounts and time periods of payments. Section 226.24(f)(3)(i) requires disclosure of the amounts and time periods of all payments that will apply over the term of the loan. This section may require disclosure of several payment amounts, including any balloon payment. For example, if an advertisement for credit secured by a dwelling offers $600,000 of credit with a 30-year loan term for a payment of $600 per month for the first six months, increasing to $1,500 per month after month six, followed by a balloon payment of $30,000 at the end of the loan term, the advertisement must disclose the amount and time periods of each of the two monthly payment streams, as well as the amount and timing of the balloon payment, with equal prominence and in close proximity to each other. However, if the final scheduled payment of a fully amortizing loan is not greater than two times the amount of any other regularly scheduled payment, the final payment need not be disclosed.

2. Application to variable-rate transactions—disclosure of payments. In advertisements for variable-rate transactions, if the payment that applies at consummation is not based on the index and margin that will be used to make subsequent payment adjustments over the term of the loan, the requirements of §226.24(f)(3)(i) apply.

24(g) Alternative disclosures—television or radio advertisements.
1. Multi-purpose telephone number. When an advertised telephone number provides a recording, disclosures should be provided early in the sequence to ensure that the consumer receives the required disclosures. For example, in providing several options—such as providing directions to the advertiser’s place of business—the option allowing the consumer to request disclosures should be provided early in the telephone message to ensure that the option to request disclosures is not obscured by other information.

2. Statement accompanying telephone number. Language must accompany a telephone number indicating that disclosures are available by calling the telephone number, such as “call 1-800-800-0000 for details about credit costs and terms.”

24(i) Prohibited acts or practices in advertisements for credit secured by a dwelling.
1. Comparisons in advertisements. The requirements of §226.24(i)(2) apply to all advertisements for credit secured by a dwelling, including radio and television advertisements. A comparison includes a claim about the amount a consumer may save under the advertised product. For example, a statement such as “save $300 per month on a $300,000 loan” constitutes an implied comparison between the advertised product’s payment and a consumer’s current payment.

2. Misrepresentations about government endorsement. A statement that the federal Community Reinvestment Act entitles the consumer to refinance his or her mortgage at the low rate offered in the advertisement is prohibited because it conveys a misleading impression that the advertised product is endorsed or sponsored by the federal government.

3. Misleading claims of debt elimination. The prohibition against misleading claims of debt elimination or waiver or forgiveness does not apply to legitimate statements that the advertised product may reduce debt payments, consolidate debts, or shorten the term of the debt. Examples of misleading claims of debt elimination or waiver or forgiveness of loan terms with, or obligations to, another creditor of debt include: “Wipe Out Personal Debt!”, “New DEBT-FREE Payment”, “Set yourself free; get out of debt today”, “Refinance today and wipe your debt clean!”, “Get yourself out of debt * * * For ever!”, and “Pre-payment Penalty Waiver.”
32(d)(7) Prepayment penalty exception.

Paragraph 32(d)(7)(iii).

1. Calculating debt-to-income ratio. “Debt” does not include amounts paid by the borrower in cash at closing or amounts from the loan proceeds that directly repay an existing debt. Creditors may consider combined debt-to-income ratios for transactions involving joint applicants. For more information about obligations and inflows that may constitute “debt” or “income” for purposes of §226.32(d)(7)(iii), see comment 34(a)(4)–6 and comment 34(a)(4)(ii)(C)–1.

2. Verification. Creditors shall verify income in the manner described in §226.34(a)(4)(ii) and the related comments. Creditors may verify debt with a credit report. However, a credit report may not reflect certain obligations undertaken just before or at consummation of the transaction and secured by the same dwelling that secures the transaction. Section 226.34(a)(4) may require creditors to consider such obligations; see comment 34(a)(4)–3 and comment 34(a)(4)(ii)(C)–1.

3. Interaction with Regulation B. Section 226.32(d)(7)(iii) does not require or permit the creditor to make inquiries or verifications that would be prohibited by Regulation B, 12 CFR part 202.

Paragraph 32(d)(7)(iv).

1. Payment change. Section 226.32(d)(7) sets forth the conditions under which a mortgage transaction subject to this section may have a prepayment penalty. Section 226.32(d)(7)(iv) lists as a condition that the amount of the periodic payment of principal or interest or both may not change during the four-year period following consummation. The following examples show whether prepayment penalties are permitted or prohibited under §226.32(d)(7)(iv) in particular circumstances.

i. Initial payments for a variable-rate transaction consummated on January 1, 2010 are $1,000 per month. Under the loan agreement, the first possible date that a payment in a different amount may be due is December 31, 2011. A prepayment penalty is permitted by other applicable law, the penalty expires on or before Dec. 31, 2011, the penalty will not apply if the source of the prepayment funds is a refinancing by the creditor or its affiliate, and at consummation the consumer’s total monthly debts do not exceed 50 percent of the consumer’s monthly gross income, as verified.

ii. Initial payments for a variable-rate transaction consummated on January 1, 2010 are $1,000 per month. Under the loan agreement, the first possible date that a payment in a different amount may be due is December 31, 2013. A prepayment penalty is prohibited with this mortgage transaction because the payment may change within the four-year period following consummation.

iii. Initial payments for a graduated-payment transaction consummated on January 1, 2010 are $1,000 per month. Under the loan agreement, the first possible date that a payment in a different amount may be due is January 1, 2014. A prepayment penalty is permitted with this mortgage transaction because the payment may change within the four-year period following consummation.

iv. Initial payments for a step-rate transaction consummated on January 1, 2010 are $1,000 per month. Under the loan agreement, the first possible date that a payment in a different amount may be due is December 31, 2013. A prepayment penalty is prohibited with this mortgage transaction because the payment may change within the four-year period following consummation.

2. Payment changes excluded. Payment changes due to the following circumstances are not considered payment changes for purposes of this section:

i. A change in the amount of a periodic payment that is allocated to principal or interest that does not change the total amount of the periodic payment.

ii. The borrower’s actual unanticipated late payment, delinquency, or default; and

iii. The borrower’s voluntary payment of additional amounts (for example when a consumer chooses to make a payment of interest and principal on a loan that only requires the consumer to pay interest).
Section 226.34—Prohibited Acts or Practices in Connection with Credit Subject to § 226.32

34(a) Prohibited acts or practices for loans subject to § 226.32.

* * * * *

34(a)(4) Repayment ability.

1. Application of repayment ability rule. The §226.34(a)(4) prohibition against making loans without regard to consumers' repayment ability applies to mortgage loans described in §226.32(a). In addition, the §226.34(a)(4) prohibition applies to higher-priced mortgage loans described in §226.35(a). See 12 CFR 226.35(b)(1). For guidance on the application of the Board's revisions to §226.34(a)(4) published on July 30, 2008, see comment 1(d)(5)-1.

2. General prohibition. Section 226.34(a)(4) prohibits a creditor from extending credit subject to §226.32 to a consumer based on the value of the consumer's collateral without regard to the consumer's repayment ability as of consummation, including the consumer's current and reasonably expected income, employment, assets other than the collateral, current obligations, and property tax and insurance obligations. A creditor may base its determination of repayment ability on current or reasonably expected income from employment or other sources, on assets other than the collateral, or both.

3. Other dwelling-secured obligations. For purposes of §226.34(a)(4), current obligations include another credit obligation of which the creditor has knowledge undertaken prior to or at consummation of the transaction and secured by the same dwelling that secures the transaction subject to §226.32 or §226.35. For example, where a transaction subject to §226.33 is a first-lien transaction for the purchase of a home, a creditor must consider a "piggyback" second-lien transaction of which it has knowledge that is used to finance part of the down payment on the house.

4. Discounted introductory rates and non-amortizing or negatively-amortizing payments. A credit agreement may determine a consumer's initial payments using a temporarily discounted interest rate or permit the consumer to make initial payments that are non-amortizing or negatively amortizing. (Negative amortization is permissible for loans covered by §226.35(a), but not §226.32). In such cases the creditor may determine repayment ability using the assumptions provided in §226.34(a)(4)(iv).

5. Repayment ability as of consummation. Section 226.34(a)(4) prohibits a creditor from disregarding repayment ability based on the facts and circumstances known to the creditor as of consummation. In general, a creditor does not violate this provision if a consumer defaults because of a significant reduction in income (for example, a job loss) or a significant obligation (for example, an obligation arising from a major medical expense) that occurs after consummation. However, if a creditor has knowledge as of consummation of reductions in income, for example, if a consumer's written application states that the consumer plans to retire within twelve months without obtaining new employment, or states that the consumer will transition from full-time to part-time employment, the creditor must consider that information.

6. Income, assets, and employment. Any current or reasonably expected assets or income may be considered by the creditor, except the collateral itself. For example, for a consumer who may use information about current or expected salary, wages, bonus pay, tips, and commissions. Employment may be full-time, part-time, seasonal, irregular, military, or self-employment. Other sources of income could include interest or dividends; retirement benefits; public assistance; and alimony, child support, or separate maintenance payments. A creditor may also take into account assets such as savings accounts or investments that the consumer can or will be able to use.

7. Interaction with Regulation B. Section 226.34(a)(4) does not require or permit the creditor to make inquiries or verifications that would be prohibited by Regulation B, 12 CFR part 220.

34(a)(4)(i) Mortgage-related obligations.

1. Mortgage-related obligations. A creditor must include in its repayment ability analysis the expected property taxes and premiums for mortgage-related insurance required by the creditor as set forth in §226.35(b)(3)(i), as well as similar mortgage-related expenses. Similar mortgage-related expenses include homeowners' association dues and condominium or cooperative fees.

34(a)(4)(ii) Verification of repayment ability.

1. Income and assets relied on. A creditor must verify the income and assets the creditor relies on to evaluate the consumer's repayment ability. For example, if a consumer earns a salary and also states that he or she is paid an annual bonus, but the creditor only relies on the applicant's salary to evaluate repayment ability, the creditor need only verify the salary.

2. Income and assets—co-applicant. If two persons jointly apply for credit and both list income or assets on the application, the creditor must verify repayment ability with respect to both applicants unless the creditor relies only on the income or assets of one of the applicants in determining repayment ability.

3. Expected income. If a creditor relies on expected income, the expectation must be reasonable and it must be verified with
third-party documents that provide reasonably reliable evidence of the consumer’s expected income. For example, if the creditor relies on an expectation that a consumer will work upon graduation at a specified salary, the creditor may verify the basis for that expectation with documents that show the consumer’s past annual bonuses and the expected bonus must bear a reasonable relationship to past bonuses. Similarly, if the creditor relies on a consumer’s expected salary following the consumer’s receipt of an educational degree, the creditor may verify that expectation with a written statement from an employer indicating that the consumer will be employed upon graduation at a specified salary.

1. Internal Revenue Service (IRS) Form W–2. A creditor may verify a consumer’s income using a consumer’s IRS Form W–2 (or any subsequent revisions or similar IRS Forms used for reporting wages and tax withholding). The creditor may also use an electronic retrieval service for obtaining the consumer’s W–2 information.

2. Tax returns. A creditor may verify a consumer’s income or assets using the consumer’s tax return. A creditor may also use IRS Form 4506 “Request for Copy of Tax Return,” Form 4506-T “Request for Transcript of Prior Tax Return,” or Form 8821 “Tax Information Authorization” (or any subsequent revisions or similar IRS Forms appropriate for obtaining tax return information directly from the IRS) to verify the consumer’s income or assets. The creditor may also use an electronic retrieval service for obtaining tax return information.

3. Other third-party documents that provide reasonably reliable evidence of consumer’s income or assets. Creditors may verify income and assets using documents produced by third parties. Creditors may not rely on information provided orally by third parties, but may rely on correspondence from the third party, such as by letter or e-mail. The creditor may rely on any third-party document that provides reasonably reliable evidence of the consumer’s income or assets. For example, creditors may verify the consumer’s income or assets using receipts from a check-cashing or remittance service, or by obtaining a written statement from the consumer’s employer that states the consumer’s income.

4. Information specific to the consumer. Creditors must verify a consumer’s income or assets using information that is specific to the individual consumer. Creditors may use third-party databases that contain individual-specific data about a consumer’s income or assets, such as a third-party database service used by the consumer’s employer for the purpose of centralizing income verification requests, so long as the information is reasonably current and accurate. Information about average incomes for the consumer’s occupation in the consumer’s geographic location or information about average incomes paid by the consumer’s employer, however, would not be specific to the individual consumer.

5. Duplicate collection of documentation. A creditor that has made a loan to a consumer and is refinancing or extending new credit to the same consumer need not collect from the consumer a document the creditor previously obtained if the creditor has no information that would reasonably lead the creditor to believe that document has changed since it was initially collected. For example, if the creditor has obtained the consumer’s 2006 tax return to make a home purchase loan in May 2007, the creditor may rely on the 2006 tax return if the creditor makes a home equity loan to the same consumer in August 2007. Similarly, if the creditor has obtained the consumer’s bank statement for May 2007 in making the first loan, the creditor may rely on that bank statement for that month in making the subsequent loan in August 2007.

1. No violation if income or assets relied on not materially greater than verifiable amounts. A creditor that does not verify income or assets used to determine repayment ability with reasonably reliable third-party documents does not violate §226.34(a)(4)(ii)(A) if the creditor demonstrates that the income or assets relied upon were not materially greater than the amounts that the creditor would have been able to verify pursuant to §226.34(a)(4)(ii)(A). For example, if a creditor determines a consumer’s repayment ability by relying on the consumer’s annual income of $40,000 but fails to obtain documentation of that amount before extending the credit, the creditor will not have violated this section if the creditor later obtains evidence that would satisfy §226.34(a)(4)(ii)(A), such as tax return information, showing that the creditor could have documented, at the time the loan was consummated, that the consumer had an annual income not materially less than $40,000.

2. Materially greater than. Amounts of income or assets relied on are not materially greater than amounts that could have been verified at consummation if relying on the verifiable amounts would not have altered a reasonable creditor’s decision to extend credit or the terms of the credit.

Paragraph 34(a)(4)(ii)(C).
1. In general. A credit report may be used to verify current obligations. A credit report, however, might not reflect an obligation that a consumer has listed on an application. The creditor is responsible for considering such an obligation, but the creditor is not required to independently verify the obligation. Similarly, a creditor is responsible for considering certain obligations undertaken just before or at consummation of the
transaction and secured by the same dwelling that secures the transaction (for example, a “piggy back” loan), of which the creditor knows, even if not reflected on a credit report. See comment 34(a)(4)-3.

34(a)(4)(iii) Presumption of compliance.

1. In general. A creditor is presumed to have complied with §226.34(a)(4) if the creditor follows the three underwriting procedures specified in paragraph 34(a)(4)(i) for verifying repayment ability, determining the relationship of obligations to income. The procedures for verifying repayment ability are required under paragraph 34(a)(4)(i); the other procedures are not required but, if followed along with the required procedures, create a presumption that the creditor has complied with §226.34(a)(4). The consumer may rebut the presumption with evidence that the creditor nonetheless disregarded repayment ability despite following these procedures. For example, evidence of a very high debt-to-income ratio and a very limited residual income could be sufficient to rebut the presumption, depending on all of the facts and circumstances. If a creditor fails to follow one of the non-required procedures set forth in paragraph 34(a)(4)(iii), then the creditor’s compliance is determined based on all of the facts and circumstances without there being a presumption of either compliance or violation.

1. Determination of payment schedule. To retain a presumption of compliance under §226.34(a)(4)(iii), a creditor must determine the consumer’s ability to pay the principal and interest obligation based on the maximum scheduled payment in the first seven years following consummation. In general, a creditor should determine a payment schedule for purposes of §226.34(a)(4)(iii)(B) based on the guidance in the staff commentary to §226.17(c)(1). Examples of how to determine the maximum scheduled payment in the first seven years are provided as follows (all payment amounts are rounded):

i. Balloon-payment loan; fixed interest rate. A loan in an amount of $100,000 with a fixed interest rate of 8.0 percent (no points) has a 30-year term but is amortized over 30 years. The monthly payment scheduled for 7 years is $674 with a balloon payment of remaining principal due at the end of 7 years. The creditor will retain the presumption of compliance if it assesses repayment ability based on the payment of $674.

ii. Fixed-rate loan with interest-only payment for five years. A loan in an amount of $100,000 with a fixed interest rate of 8.0 percent (no points) has a 30-year term. The monthly payment of $667 scheduled for the first 5 years would cover only the interest due. After the fifth year, the scheduled payment would increase to $772, an amount that fully amortizes the principal balance over the remaining 25 years. The creditor will retain the presumption of compliance if it assesses repayment ability based on the payment of $772.

iii. Fixed-rate loan with interest-only payment for seven years. A loan in an amount of $100,000 with a fixed interest rate of 8.0 percent (no points) has a 30-year term. The monthly payment of $667 scheduled for the first 7 years would cover only the interest due. After the seventh year, the scheduled payment would increase to $793, an amount that fully amortizes the principal balance over the remaining 23 years. The creditor will retain the presumption of compliance if it assesses repayment ability based on the interest-only payment of $667.

iv. Variable-rate loan with discount for five years. A loan in an amount of $100,000 has a 30-year term. The loan agreement provides for a fixed interest rate of 7.0 percent for an initial period of 5 years. Accordingly, the payment scheduled for the first 5 years is $654. The agreement provides that, after 5 years, the interest rate will adjust each year based on a specified index and margin. As of consummation, the sum of the index value and margin (the fully-indexed rate) is 8.0 percent. Accordingly, the payment scheduled for the remaining 25 years is $727. The creditor will retain the presumption of compliance if it assesses repayment ability based on the payment of $727.

v. Variable-rate loan with discount for seven years. A loan in an amount of $100,000 has a 30-year term. The loan agreement provides for a fixed interest rate of 7.125 percent for an initial period of 7 years. Accordingly, the payment scheduled for the first 7 years is $674. After 7 years, the agreement provides that the interest rate will adjust each year based on a specified index and margin. As of consummation, the sum of the index value and margin (the fully-indexed rate) is 8.0 percent. Accordingly, the payment scheduled for the remaining years is $725. The creditor will retain the presumption of compliance if it assesses repayment ability based on the payment of $674.

vi. Step-rate loan. A loan in an amount of $100,000 has a 30-year term. The agreement provides that the interest rate will be 5 percent for two years, 6 percent for three years, and 7 percent thereafter. Accordingly, the payment amounts are $537 for two years, $697 for three years, and $654 thereafter. To retain the presumption of compliance, the creditor must assess repayment ability based on the payment of $654.

Paragraph 34(a)(4)(iii)(C).

1. “Income” and “debt”. To determine whether to classify particular inflows or obligations as “income” or “debt,” creditors may look to widely accepted governmental and non-governmental underwriting standards, including, for example, those set forth in the Federal Housing Administration’s handbook on Mortgage Credit Analysis for...
The Board publishes on the Internet, in table form, average prime offer rates for a wide variety of transactions. The Board calculates an annual percentage rate, consistent with Regulation Z (see §226.22 and appendix J), for each transaction type for which pricing terms are available based on the loan pricing terms available in the survey and other information. The Board publishes on the Internet the methodology it uses to arrive at these estimates.

35(b) Rules for higher-priced mortgage loans.
1. Effective date. For guidance on the applicability of the rules in §226.35(b), see comment 1(d)(5)–1.

Paragraph 35(b)(2)(ii)(C).
1. Payment change. Section 226.35(b)(2) provides that a loan subject to this section may not have a penalty described by §226.32(d)(6) unless certain conditions are met. Section 226.35(b)(2)(ii)(C) lists as a condition that the amount of the periodic payment of principal or interest or both may not change during the four-year period following consummation. For examples showing whether a prepayment penalty is permitted or prohibited in connection with particular payment changes, see comment 32(d)(7)(iv)–1. Those examples, however, include a condition that §226.35(b)(2) does not include: the condition that, at consummation, the consumer’s total monthly debt payments may not exceed 50 percent of the consumer’s monthly gross income. For guidance about circumstances in which payment changes are not considered payment changes for purposes of this section, see comment 32(d)(7)(iv)–2.

2. Negative amortization. Section 226.32(d)(2) provides that a loan described in §226.32(a) may not have a payment schedule with regular periodic payments that cause the principal balance to increase. Therefore, the commentary to §226.32(d)(7)(iv) does not include examples of payment changes in connection with negative amortization. The following examples show whether, under §226.35(b)(2), prepayment penalties are permitted or prohibited in connection with particular payment changes, when a loan agreement permits negative amortization:

1. Initial payments for a variable-rate transaction consummated on January 1, 2010 are $1,000 per month and the loan agreement permits negative amortization to occur. Under the loan agreement, the first date that a scheduled payment in a different amount may be due is January 1, 2014 and the creditor does not have the right to change scheduled payments prior to that date even if negative amortization occurs. A prepayment penalty is permitted with this...
mortgage transaction provided that the other §§226.35(b)(2) conditions are met, that is: provided that the prepayment penalty is permitted by other applicable law, the penalty is applied on or before December 31, 2011, and the penalty will not apply if the source of the prepayment funds is a refinancing by the creditor or its affiliate.

3. Initial prepayment penalty for a variable-rate transaction consummated on January 1, 2010 are $1,000 per month and the loan agreement permits negative amortization to occur. Under the loan agreement, the first date that a scheduled payment in a different amount may be due is January 1, 2014, but the creditor has the right to change scheduled payments prior to that date if negative amortization occurs. A prepayment penalty is prohibited with this mortgage transaction because the payment may change within the four-year period following consummation.

36(b)(1) Escrows.
Paragraph 36(b)(1)(i).
1. Section 226.35(b)(1) applies to principal dwellings, including structures that are classified as personal property under state law. For example, an escrow account must be established on a higher-priced mortgage loan secured by a first-lien on a mobile home, boat or a trailer used as the consumer’s principal dwelling. See the commentary under §§226.2(a)(19), 226.2(a)(24), 226.15 and 226.23. Section 226.35(b)(3) also applies to higher-priced mortgage loans secured by a first lien on a condominium or a cooperative unit if it is in fact used as principal residence.

2. Administration of escrow accounts. Section 226.35(b)(3) requires creditors to establish before the consummation of a loan secured by a first lien on a principal dwelling an escrow account for payment of property taxes and premiums for mortgage-related insurance required by creditor. Section 6 of RESPA, 12 U.S.C. 2605, and Regulation X address how escrow accounts must be administered.

3. Optional insurance items. Section 226.35(b)(3) does not require that escrow accounts be established for premiums for mortgage-related insurance that the creditor does not require in connection with the credit transaction, such as an earthquake insurance or debt-protection insurance.
Paragraph 36(b)(2)(i)(B).
1. Limited exception. A creditor is required to escrow for payment of property taxes for all first lien loans secured by condominium units regardless of whether the creditors escrows insurance premiums for condominium unit.

Section 226.36—Prohibited Acts or Practices in Connection With Credit Secured by a Consumer’s Principal Dwelling

1. Effective date. For guidance on the applicability of the rules in §226.36, see comment 1(d)(5)-1.

36(a) Mortgage broker defined.

1. Meaning of mortgage broker. Section 226.36(a) provides that a mortgage broker is any person who for compensation or other monetary gain arranges, negotiates, or otherwise obtains an extension of consumer credit for another person, but is not an employee of a creditor. In addition, this definition expressly includes any person that satisfies this definition but makes use of “table funding.” Table funding occurs when a transaction is consummated with the debt obligation initially payable by its terms to one person, but another person provides the funds for the transaction at consummation and receives an immediate assignment of the note, loan contract, or other evidence of the debt obligation. Although §226.2(a)(17)(1)(B) provides that a person to whom a debt obligation is initially payable on its face generally is a creditor, §226.36(a) provides that, solely for the purposes of §226.36, such a person is considered a mortgage broker. In addition, although consumers themselves often arrange, negotiate, or otherwise obtain extensions of consumer credit on their own behalf, they do not do so for compensation or other monetary gain or for another person and, therefore, are not mortgage brokers under this section.

36(b) Misrepresentation of value of consumer’s principal dwelling.

36(b)(2) When extension of credit prohibited.

1. Reasonable diligence. A creditor will be deemed to have acted with reasonable diligence under §226.36(b)(2) if the creditor extends credit based on an appraisal other than the one subject to the restriction in §226.36(b)(2).

2. Material misstatement or misrepresentation. Section 226.36(b)(2) prohibits a creditor who knows of a violation of §226.36(b)(1) in connection with an appraisal from extending consumer credit on their own behalf, they do not do so for compensation or other monetary gain or for another person and, therefore, are not mortgage brokers under this section.

36(c) Servicing practices.

1. Crediting of payments. Under §226.36(c)(1)(i), a mortgage servicer must credit a payment to a consumer’s loan account as of the date of receipt. This does not require that a mortgage servicer post the payment to the consumer’s loan account on a particular date; the servicer is only required to credit the payment as of the date of receipt. Accordingly, a servicer that receives a payment on or before its due date (or within any grace period), and does not enter the payment on its books or in its system until after the payment’s due date (or expiration of any grace period), does not violate this
rule as long as the entry does not result in the imposition of a late charge, additional interest, or similar penalty to the consumer, or in the reporting of negative information to a consumer reporting agency.

2. Payments to be credited. Payments should be credited based on the legal obligation between the creditor and consumer. The legal obligation is determined by applicable state or other law.

3. Date of receipt. The “date of receipt” is the date that the payment instrument or other means of payment reaches the mortgage servicer. For example, payment by check is received when the mortgage servicer receives it, not when the funds are collected. If the consumer elects to have payment made by a third-party payor such as a financial institution, through a preauthorized payment or telephone bill-payment arrangement, payment is received when the mortgage servicer receives the third-party payor’s check or other transfer medium, such as an electronic fund transfer.

4. Pyramiding of late fees. The prohibition on pyramiding of late fees in this subsection should be construed consistently with the “credit practices rule” of Regulation AA, 12 CFR 227.15.

5. Reasonable time. The payoff statement must be provided to the consumer, or person acting on behalf of the consumer, within a reasonable time after the request. For example, it would be reasonable under most circumstances to provide the statement within five business days of receipt of a consumer’s request. This time frame might be longer, for example, when the servicer is experiencing an unusually high volume of refinancing requests.

6. Person acting on behalf of the consumer. For purposes of §226.36(c)(1)(iii), a person acting on behalf of the consumer may include the consumer’s representative, such as an attorney representing the individual, a nonprofit consumer counseling or similar organization, or a creditor with which the consumer is refinancing and which requires the payoff statement to complete the refinancing. A servicer may take reasonable measures to verify the identity of any person acting on behalf of the consumer and to obtain the consumer’s authorization to release information to any such person before the “reasonable time” period begins to run.

7. Payment requirements. The servicer may specify reasonable requirements for making payoff requests, such as requiring requests to be in writing and directed to a mailing address, e-mail address or fax number specified by the servicer or orally to a telephone number specified by the servicer, or any other reasonable requirement or method. If the consumer does not follow these requirements, a longer time frame for responding to the request would be reasonable.

8. Accuracy of payoff statements. Payoff statements must be accurate when issued.

9. Paragraph 36(c)(2).

10. Payment requirements—limitations. Requirements for making payments must be reasonable; it should not be difficult for most consumers to make conforming payments. For example, it would be reasonable to require a cut-off time of 5 p.m. for receipt of a mailed check at the location specified by the servicer for receipt of such check.

11. Implied guidelines for payments. In the absence of specified requirements for making payments, payments may be made at any location where the servicer conducts business, at any time during the servicer’s normal business hours; and by cash, money order, draft, check, or other similar instrument in properly negotiable form, or by electronic fund transfer. (See section 913 of the Electronic Fund Transfer Act, 15 U.S.C. 1693k.)

12. Payment requirements for refinancing. A servicer may take reasonable measures to verify the identity of any person acting on behalf of the consumer and to obtain the consumer’s authorization to release information to any such person before the “reasonable time” period begins to run.

13. Payment requirements. The servicer may specify reasonable requirements for making payoff requests, such as requiring requests to be in writing and directed to a mailing address, e-mail address or fax number specified by the servicer or orally to a telephone number specified by the servicer, or any other reasonable requirement or method. If the consumer does not follow these requirements, a longer time frame for responding to the request would be reasonable.

14. Accuracy of payoff statements. Payoff statements must be accurate when issued.

15. Paragraph 36(c)(2).

16. Payment requirements—limitations. Requirements for making payments must be reasonable; it should not be difficult for most consumers to make conforming payments. For example, it would be reasonable to require a cut-off time of 5 p.m. for receipt of a mailed check at the location specified by the servicer for receipt of such check.

17. Implied guidelines for payments. In the absence of specified requirements for making payments, payments may be made at any location where the servicer conducts business, at any time during the servicer’s normal business hours; and by cash, money order, draft, or other similar instrument in properly negotiable form, or by electronic fund transfer if the servicer and consumer have so agreed.

PART 227—UNFAIR OR DECEPTIVE ACTS OR PRACTICES (REGULATION AA)

Subpart A—Consumer Complaints

Sec.
227.1 Definitions.
227.2 Consumer complaint procedure.

Subpart B—Credit Practices Rule

227.11 Authority, purpose, and scope.
227.12 Definitions.
227.13 Unfair credit contract provisions.
227.14 Unfair or deceptive practices involving cosigners.
227.15 Unfair late charges.
227.16 State exemptions.
§ 227.1 Definitions.

For the purposes of this part, unless the context indicates otherwise, the following definitions apply:

(a) Board means the Board of Governors of the Federal Reserve System.

(b) Consumer complaint means an allegation by or on behalf of an individual, group of individuals, or other entity that a particular act or practice of a State member bank is unfair or deceptive, or in violation of a regulation issued by the Board pursuant to a Federal statute, or in violation of any other Act or regulation under which the bank must operate.

(c) State member bank means a bank that is chartered by a State and is a member of the Federal Reserve System.

(d) Unless the context indicates otherwise, bank shall be construed to mean a State member bank, and complaint to mean a consumer complaint.

Subpart B—Credit Practices Rule

Source: Reg. AA, 50 FR 16697, Apr. 29, 1985, unless otherwise noted.

§ 227.11 Authority, purpose, and scope.

(a) Authority. This subpart is issued by the Board under section 18(f) of the Federal Trade Commission Act, 15 U.S.C. 57(a) (section 202(a) of the Magnuson-Moss Warranty—Federal Trade Commission Improvement Act, Pub. L. 93–637).

(b) Purpose. Unfair or deceptive acts or practices in or affecting commerce are unlawful under section 5(a)(1) of the Federal Trade Commission Act, 15 U.S.C. 45(a)(1). This subpart defines unfair or deceptive acts or practices of banks in connection with extensions of credit to consumers.

(c) Scope. This subpart applies to all banks and their subsidiaries, except savings banks that are members of the Federal Home Loan Bank System. Compliance is to be enforced by:

(1) The Comptroller of the Currency, in the case of national banks, banks operating under the code of laws for the District of Columbia, and federal branches and federal agencies of foreign banks;

(2) The Board of Governors of the Federal Reserve System, in the case of banks that are members of the Federal Reserve System.

Federal Reserve System § 227.13

Reserve System (other than banks referred to in paragraph (c)(1) of this section), branches and agencies of foreign banks (other than federal branches, federal agencies, and insured state branches of foreign banks), commercial lending companies owned or controlled by foreign banks, and organizations operating under section 25 or 25A of the Federal Reserve Act; and

(3) The Federal Deposit Insurance Corporation, in the case of banks insured by the Federal Deposit Insurance Corporation (other than banks referred to in paragraphs (c)(1) and (c)(2) of this section), and insured state branches of foreign banks.

(d) The terms used in paragraph (c) of this section that are not defined in the Federal Trade Commission Act or in section 3(s) of the Federal Deposit Insurance Act (12 U.S.C. 1813(s)) shall have the meaning given to them in section 1(b) of the International Banking Act of 1978 (12 U.S.C. 3101).

§ 227.12 Definitions.

For the purposes of this subpart, the following definitions apply:

(a) Consumer means a natural person who seeks or acquires goods, services, or money for personal, family, or household use other than for the purchase of real property.

(b)(1) Cosigner means a natural person who assumes liability for the obligation of a consumer without receiving goods, services, or money in return for the obligation, or, in the case of an open-end credit obligation, without receiving the contractual right to obtain extensions of credit under the account.

(2) Cosigner includes any person whose signature is requested as a condition to granting credit to a consumer, or as a condition for forbearance on collection of a consumer’s obligation that is in default. The term does not include a spouse whose signature is required on a credit obligation to perfect a security interest pursuant to state law.

(3) A person who meets the definition in this paragraph is a cosigner, whether or not the person is designated as such on the credit obligation.

(c) Earnings means compensation paid or payable to an individual or for the individual’s account for personal services rendered or to be rendered by the individual, whether denominated as wages, salary, commission, bonus, or otherwise, including periodic payments pursuant to a pension, retirement, or disability program.

(d) Household goods means clothing, furniture, appliances, linens, china, crockery, kitchenware, and personal effects of the consumer and the consumer’s dependents. The term household goods does not include:

(1) Works of art;

(2) Electronic entertainment equipment (other than one television and one radio);

(3) Items acquired as antiques; that is, items over one hundred years of age, including such items that have been repaired or renovated without changing their original form or character; and

(4) Jewelry (other than wedding rings).

(e) Obligation means an agreement between a consumer and a creditor.

(f) Person means an individual, corporation, or other business organization.

§ 227.13 Unfair credit contract provisions.

It is an unfair act or practice for a bank to enter into a consumer credit obligation that contains, or to enforce in a consumer credit obligation purchased by the bank, any of the following provisions:

(a) Confession of judgment. A cognovit or confession of judgment (for purposes other than executory process in the State of Louisiana), warrant of attorney, or other waiver of the right of notice and the opportunity to be heard in the event of suit or process thereon.

(b) Waiver of exemption. An executory waiver or a limitation of exemption from attachment, execution, or other process on real or personal property held, owned by, or due to the consumer, unless the waiver applies solely to property subject to a security interest executed in connection with the obligation.

(c) Assignment of wages. An assignment of wages or other earnings unless:
(1) The assignment by its terms is revocable at the will of the debtor;
(2) The assignment is a payroll deduction plan or preauthorized payment plan, commencing at the time of the transaction, in which the consumer authorizes a series of wage deductions as a method of making each payment; or
(3) The assignment applies only to wages or other earnings already earned at the time of the assignment.

(d) Security interest in household goods. A nonpossessory security interest in household goods other than a purchase money security interest.

§ 227.14 Unfair or deceptive practices involving cosigners.

(a) Prohibited practices. In connection with the extension of credit to consumers, it is:
(1) A deceptive act or practice for a bank to misrepresent the nature or extent of cosigner liability to any person; and
(2) An unfair act or practice for a bank to obligate a cosigner unless the cosigner is informed prior to becoming obligated of the nature of the cosigner’s liability.

(b) Disclosure requirement. (1) A clear and conspicuous disclosure statement shall be given in writing to the cosigner prior to becoming obligated. The disclosure statement shall be substantially similar to the following statement and shall either be a separate document or included in the documents evidencing the consumer credit obligation.

NOTICE TO COSIGNER

You are being asked to guarantee this debt. Think carefully before you do. If the borrower doesn’t pay the debt, you will have to. Be sure you can afford to pay if you have to, and that you want to accept this responsibility.

You may have to pay up to the full amount of the debt if the borrower does not pay. You may also have to pay late fees or collection costs, which increase this amount.

The bank can collect this debt from you without first trying to collect from the borrower. The bank can use the same collection methods against you that can be used against the borrower, such as suing you, garnishing your wages, etc. If this debt is ever in default, that fact may become a part of your credit record.

This notice is not the contract that makes you liable for the debt.

(2) In the case of open-end credit, the disclosure statement shall be given to the cosigner prior to the time that the cosigner becomes obligated for fees or transactions on the account.
(3) A bank that is in compliance with this paragraph may not be held in violation of paragraph (a)(2) of this section.

§ 227.15 Unfair late charges.

(a) In connection with collecting a debt arising out of an extension of credit to a consumer, it is an unfair act or practice for a bank to levy or collect any delinquency charge on a payment, when the only delinquency is attributable to late fees or delinquency charges assessed on earlier installments, and the payment is otherwise a full payment for the applicable period and is paid on its due date or within an applicable grace period.

(b) For the purposes of this section, collecting a debt means any activity, other than the use of judicial process, that is intended to bring about or does bring about repayment of all or part of money due (or alleged to be due) from a consumer.

§ 227.16 State exemptions.

(a) General rule. (1) An appropriate state agency may apply to the Board for a determination that:
(i) There is a state requirement or prohibition in effect that applies to any transaction to which a provision of this subpart applies; and
(ii) The state requirement or prohibition affords a level of protection to consumers that is substantially equivalent to, or greater than, the protection afforded by this subpart.

(2) If the Board makes such a determination, the provision of this subpart will not be in effect in that state to the extent specified by the Board in its determination, for as long as the state administers and enforces the state requirement or prohibition effectively.

(b) Applications. The procedures under which a state agency may apply for an exemption under this section are the same as those set forth in appendix B to Regulation Z (12 CFR part 226).
PART 228—COMMUNITY REINVESTMENT (REGULATION BB)

Subpart A—General

228.11 Authority, purposes, and scope.

(a) Authority. The Board of Governors of the Federal Reserve System (the Board) issues this part to implement the Community Reinvestment Act (12 U.S.C. 2901 et seq.) (CRA). The regulations comprising this part are issued under the authority of the CRA and under the provisions of the United States Code authorizing the Board:

(1) To conduct examinations of State-chartered banks that are members of the Federal Reserve System (12 U.S.C. 325);

(2) To conduct examinations of bank holding companies and their subsidiaries (12 U.S.C. 1844); and

(3) To consider applications for:

(i) Domestic branches by State member banks (12 U.S.C. 321);

(ii) Mergers in which the resulting bank would be a State member bank (12 U.S.C. 1828(c));

(iii) Formations of, acquisitions of banks by, and mergers of, bank holding companies (12 U.S.C. 1842); and

(b) Purposes. In enacting the CRA, the Congress required each appropriate Federal financial supervisory agency to assess an institution’s record of helping to meet the credit needs of the local communities in which the institution is chartered, consistent with the safe and sound operation of the institution, and to take this record into account in the agency’s evaluation of an application for a deposit facility by the institution. This part is intended to carry out the purposes of the CRA by:

(1) Establishing the framework and criteria by which the Board assesses a bank’s record of helping to meet the credit needs of its entire community, including low- and moderate-income neighborhoods, consistent with the safe and sound operation of the bank; and

(2) Providing that the Board takes that record into account in considering certain applications.

(c) Scope—(1) General. This part applies to all banks except as provided in paragraph (c)(3) of this section.

(2) Foreign bank acquisitions. This part also applies to an uninsured State branch (other than a limited branch) of a foreign bank that results from an acquisition described in section 5(a)(8) of the International Banking Act of 1978 (12 U.S.C. 3103(a)(8)). The terms “State branch” and “foreign bank” have the same meanings as in section 1(b) of the International Banking Act of 1978 (12 U.S.C. 3101 et seq.); the term “uninsured State branch” means a State branch the deposits of which are not insured.
§ 228.12 Definitions.

For purposes of this part, the following definitions apply:

(a) **Affiliate** means any company that controls, is controlled by, or is under common control with another company. The term “control” has the meaning given to that term in 12 U.S.C. 1841(a)(2), and a company is under common control with another company if both companies are directly or indirectly controlled by the same company.

(b) **Area median income** means:

(1) The median family income for the MSA, if a person or geography is located in an MSA; or for the metropolitan division, if a person or geography is located in an MSA that has been subdivided into metropolitan divisions;

(2) The statewide nonmetropolitan median family income, if a person or geography is located outside an MSA.

(c) **Assessment area** means a geographic area delineated in accordance with §228.41.

(d) **Automated teller machine (ATM)** means an automated, unstaffed banking facility owned or operated by, or operated exclusively for, the bank at which deposits are received, cash dispersed, or money lent.

(e) **Bank** means a State member bank as that term is defined in section 3(d)(2) of the Federal Deposit Insurance Act (12 U.S.C. 1813(d)(2)), except as provided in §228.11(c)(3), and includes an uninsured State branch (other than a limited branch) of a foreign bank described in §228.11(c)(2).

(f) **Branch** means a staffed banking facility approved as a branch, whether shared or unshared, including, for example, a mini-branch in a grocery store or a branch operated in conjunction with any other local business or nonprofit organization.

(g) **Community development** means:

(1) Affordable housing (including multifamily rental housing) for low- or moderate-income individuals;

(2) Community services targeted to low- or moderate-income individuals;

(3) Activities that promote economic development by financing businesses or farms that meet the size eligibility standards of the Small Business Administration’s Development Company or Small Business Investment Company programs (13 CFR 121.301) or have gross annual revenues of $1 million or less; or

(4) Activities that revitalize or stabilize—

(i) Low-or moderate-income geographies;

(ii) Designated disaster areas; or

(iii) Distressed or underserved nonmetropolitan middle-income geographies designated by the Board, Federal Deposit Insurance Corporation, and Office of the Comptroller of the Currency, based on—

(A) Rates of poverty, unemployment, and population loss; or

(B) Population size, density, and dispersion. Activities revitalize and stabilize geographies designated based on population size, density, and dispersion if they help to meet essential community needs, including needs of low- and moderate-income individuals.

(h) **Community development loan** means a loan that:

(1) Has as its primary purpose community development; and

(2) Except in the case of a wholesale or limited purpose bank:

(i) Has not been reported or collected by the bank or an affiliate for consideration in the bank’s assessment as a home mortgage, small business, small farm, or consumer loan, unless it is a multifamily dwelling loan (as described
in appendix A to part 203 of this chapter; and

(ii) Benefits the bank’s assessment area(s) or a broader statewide or regional area that includes the bank’s assessment area(s).

1) Community development service means a service that:
(1) Has as its primary purpose community development;
(2) Is related to the provision of financial services; and
(3) Has not been considered in the evaluation of the bank’s retail banking services under § 228.24(d).

(j) Consumer loan means a loan to one or more individuals for household, family, or other personal expenditures. A consumer loan does not include a home mortgage, small business, or small farm loan. Consumer loans include the following categories of loans:
(1) Motor vehicle loan, which is a consumer loan extended for the purchase of and secured by a motor vehicle;
(2) Credit card loan, which is a line of credit for household, family, or other personal expenditures that is accessed by a borrower’s use of a “credit card,” as this term is defined in § 226.2 of this chapter;
(3) Home equity loan, which is a consumer loan secured by a residence of the borrower;
(4) Other secured consumer loan, which is a secured consumer loan that is not included in one of the other categories of consumer loans; and
(5) Other unsecured consumer loan, which is an unsecured consumer loan that is not included in one of the other categories of consumer loans.

(k) Geography means a census tract delineated by the United States Bureau of the Census in the most recent decennial census.

(1) Home mortgage loan means a “home improvement loan,” “home purchase loan,” or a “refinancing” as defined in § 203.2 of this title.

(m) Income level includes:
(1) Low-income, which means an individual income that is less than 50 percent of the area median income, or a median family income that is less than 50 percent, in the case of a geography.
(2) Moderate-income, which means an individual income that is at least 50 percent and less than 80 percent of the area median income, or a median family income that is at least 50 and less than 80 percent, in the case of a geography.
(3) Middle-income, which means an individual income that is at least 80 percent and less than 120 percent of the area median income, or a median family income that is at least 80 and less than 120 percent, in the case of a geography.
(4) Upper-income, which means an individual income that is 120 percent or more of the area median income, or a median family income that is 120 percent or more, in the case of a geography.

(n) Limited purpose bank means a bank that offers only a narrow product line (such as credit card or motor vehicle loans) to a regional or broader market and for which a designation as a limited purpose bank is in effect, in accordance with § 228.25(b).

(o) Loan location. A loan is located as follows:
(1) A consumer loan is located in the geography where the borrower resides;
(2) A home mortgage loan is located in the geography where the property to which the loan relates is located; and
(3) A small business or small farm loan is located in the geography where the main business facility or farm is located or where the loan proceeds otherwise will be applied, as indicated by the borrower.

(p) Loan production office means a staffed facility, other than a branch, that is open to the public and that provides lending-related services, such as loan information and applications.

(q) Metropolitan division means a metropolitan division as defined by the Director of the Office of Management and Budget.

(r) MSA means a metropolitan statistical area as defined by the Director of the Office of Management and Budget.

(s) Nonmetropolitan area means any area that is not located in an MSA.

(t) Qualified investment means a lawful investment, deposit, membership share, or grant that has as its primary purpose community development.

(u) Small bank—(1) Definition. Small bank means a bank that, as of December 31 of either of the prior two calendar years, had assets of less than
$1.109 billion. Intermediate small bank means a small bank with assets of at least $277 million as of December 31 of both of the prior two calendar years and less than $1.109 billion as of December 31 of either of the prior two calendar years.

(2) Adjustment. The dollar figures in paragraph (u)(1) of this section shall be adjusted annually and published by the Board, based on the year-to-year change in the average of the Consumer Price Index for Urban Wage Earners and Clerical Workers, not seasonally adjusted, for each twelve-month period ending in November, with rounding to the nearest million.

(v) Small business loan means a loan included in “loans to small businesses” as defined in the instructions for preparation of the Consolidated Report of Condition and Income.

(w) Small farm loan means a loan included in “loans to small farms” as defined in the instructions for preparation of the Consolidated Report of Condition and Income.

(x) Wholesale bank means a bank that is not in the business of extending home mortgage, small business, small farm, or consumer loans to retail customers, and for which a designation as a wholesale bank is in effect, in accordance with §228.25(b).

Subpart B—Standards for Assessing Performance

§228.21 Performance tests, standards, and ratings, in general.

(a) Performance tests and standards. The Board assesses the CRA performance of a bank in an examination as follows:

(1) Lending, investment, and service tests. The Board applies the lending, investment, and service tests, as provided in §§228.22 through 228.24, in evaluating the performance of a bank, except as provided in paragraphs (a)(2), (a)(3), and (a)(4) of this section.

(2) Community development test for wholesale or limited purpose banks. The Board applies the community development test for a wholesale or limited purpose bank, as provided in §228.25, except as provided in paragraph (a)(4) of this section.

(3) Small bank performance standards. The Board applies the small bank performance standards as provided in §228.26 in evaluating the performance of a small bank or a bank that was a small bank during the prior calendar year, unless the bank elects to be assessed as provided in paragraphs (a)(1), (a)(2), or (a)(4) of this section. The bank may elect to be assessed as provided in paragraph (a)(1) of this section only if it collects and reports the data required for other banks under §228.42.

(4) Strategic plan. The Board evaluates the performance of a bank under a strategic plan if the bank submits, and the Board approves, a strategic plan as provided in §228.27.

(b) Performance context. The Board applies the tests and standards in paragraph (a) of this section and also considers whether to approve a proposed strategic plan in the context of:

(1) Demographic data on median income levels, distribution of household income, nature of housing stock, housing costs, and other relevant data pertaining to a bank’s assessment area(s);

(2) Any information about lending, investment, and service opportunities in the bank’s assessment area(s) maintained by the bank or obtained from community organizations, state, local, and tribal governments, economic development agencies, or other sources;

(3) The bank’s product offerings and business strategy as determined from data provided by the bank;

(4) Institutional capacity and constraints, including the size and financial condition of the bank, the economic climate (national, regional, and local), safety and soundness limitations, and any other factors that significantly affect the bank’s ability to provide lending, investments, or services in its assessment area(s);

(5) The bank’s past performance and the performance of similarly situated lenders;
(6) The bank’s public file, as described in §228.43, and any written comments about the bank’s CRA performance submitted to the bank or the Board; and
(7) Any other information deemed relevant by the Board.

(c) Assigned ratings. The Board assigns to a bank one of the following four ratings pursuant to §228.28 and appendix A of this part: “outstanding”; “satisfactory”; “needs to improve”; or “substantial noncompliance” as provided in 12 U.S.C. 2906(b)(2). The rating assigned by the Board reflects the bank’s record of helping to meet the credit needs of its entire community, including low- and moderate-income neighborhoods, consistent with the safe and sound operation of the bank.

(d) Safe and sound operations. This part and the CRA do not require a bank to make loans or investments or to provide services that are inconsistent with safe and sound operations. To the contrary, the Board anticipates banks can meet the standards of this part with safe and sound loans, investments, and services on which the banks expect to make a profit. Banks are permitted and encouraged to develop and apply flexible underwriting standards for loans that benefit low- or moderate-income geographies or individuals, only if consistent with safe and sound operations.

§ 228.22 Lending test.

(a) Scope of test. (1) The lending test evaluates a bank’s record of helping to meet the credit needs of its assessment area(s) through its lending activities by considering a bank’s home mortgage, small business, small farm, and community development lending. If consumer lending constitutes a substantial majority of a bank’s business, the Board will evaluate the bank’s consumer lending in one or more of the following categories: motor vehicle, credit card, home equity, other secured, and other unsecured loans. In addition, at a bank’s option, the Board will evaluate one or more categories of consumer lending, if the bank has collected and maintained, as required in §228.42(c)(1), the data for each category that the bank elects to have the Board evaluate.

(2) The Board considers originations and purchases of loans. The Board will also consider any other loan data the bank may choose to provide, including data on loans outstanding, commitments and letters of credit.

(3) A bank may ask the Board to consider loans originated or purchased by consortia in which the bank participates or by third parties in which the bank has invested only if the loans meet the definition of community development loans and only in accordance with paragraph (d) of this section. The Board will not consider these loans under any criterion of the lending test except the community development lending criterion.

(b) Performance criteria. The Board evaluates a bank’s lending performance pursuant to the following criteria:

(1) Lending activity. The number and amount of the bank’s home mortgage, small business, small farm, and consumer loans, if applicable, in the bank’s assessment area(s);

(2) Geographic distribution. The geographic distribution of the bank’s home mortgage, small business, small farm, and consumer loans, if applicable, based on the loan location, including:

(i) The proportion of the bank’s lending in the bank’s assessment area(s);

(ii) The dispersion of lending in the bank’s assessment area(s); and

(iii) The number and amount of loans in low-, moderate-, middle-, and upper-income geographies in the bank’s assessment area(s);

(3) Borrower characteristics. The distribution, particularly in the bank’s assessment area(s), of the bank’s home mortgage, small business, small farm, and consumer loans, if applicable, based on borrower characteristics, including the number and amount of:

(i) Home mortgage loans to low-, moderate-, middle-, and upper-income individuals;

(ii) Small business and small farm loans to businesses and farms with gross annual revenues of $1 million or less;

(iii) Small business and small farm loans by loan amount at origination; and
(iv) Consumer loans, if applicable, to low-, moderate-, middle-, and upper-income individuals;

(4) Community development lending. The bank’s community development lending, including the number and amount of community development loans, and their complexity and innovativeness; and

(5) Innovative or flexible lending practices. The bank’s use of innovative or flexible lending practices in a safe and sound manner to address the credit needs of low- or moderate-income individuals or geographies.

(c) Affiliate lending. (1) At a bank’s option, the Board will consider loans by an affiliate of the bank, if the bank provides data on the affiliate’s loans pursuant to §228.42.

(2) The Board considers affiliate lending subject to the following constraints:

(i) No affiliate may claim a loan origination or loan purchase if another institution claims the same loan origination or purchase; and

(ii) If a bank elects to have the Board consider loans within a particular lending category made by one or more of the bank’s affiliates in a particular assessment area, the bank shall elect to have the Board consider, in accordance with paragraph (c)(1) of this section, all the loans within that lending category in that particular assessment area made by all of the bank’s affiliates.

(3) The Board does not consider affiliate lending in assessing a bank’s performance under paragraph (b)(2)(i) of this section.

(d) Lending by a consortium or a third party. Community development loans originated or purchased by a consortium in which the bank participates or by a third party in which the bank has invested:

(1) Will be considered, at the bank’s option, if the bank reports the data pertaining to these loans under §228.42(b)(2); and

(2) May be allocated among participants or investors, as they choose, for purposes of the lending test, except that no participant or investor:

(i) May claim a loan origination or loan purchase if another participant or investor claims the same loan origination or purchase; or

(ii) May claim loans accounting for more than its percentage share (based on the level of its participation or investment) of the total loans originated by the consortium or third party.

(e) Lending performance rating. The Board rates a bank’s lending performance as provided in appendix A of this part.

§228.23 Investment test.

(a) Scope of test. The investment test evaluates a bank’s record of helping to meet the credit needs of its assessment area(s) through qualified investments that benefit its assessment area(s) or a broader statewide or regional area that includes the bank’s assessment area(s).

(b) Exclusion. Activities considered under the lending or service tests may not be considered under the investment test.

(c) Affiliate investment. At a bank’s option, the Board will consider, in its assessment of a bank’s investment performance, a qualified investment made by an affiliate of the bank, if the qualified investment is not claimed by any other institution.

(d) Disposition of branch premises. Donating, selling on favorable terms, or making available on a rent-free basis a branch of the bank that is located in a predominantly minority neighborhood to a minority depository institution or women’s depository institution (as these terms are defined in 12 U.S.C. 2907(b)) will be considered as a qualified investment.

(e) Performance criteria. The Board evaluates the investment performance of a bank pursuant to the following criteria:

(1) The dollar amount of qualified investments;

(2) The innovativeness or complexity of qualified investments;

(3) The responsiveness of qualified investments to credit and community development needs; and

(4) The degree to which the qualified investments are not routinely provided by private investors.

(f) Investment performance rating. The Board rates a bank’s investment performance as provided in appendix A of this part.
§ 228.24  Service test.

(a) Scope of test. The service test evaluates a bank’s record of helping to meet the credit needs of its assessment area(s) by analyzing both the availability and effectiveness of a bank’s systems for delivering retail banking services and the extent and innovativeness of its community development services.

(b) Area(s) benefitted. Community development services must benefit a bank’s assessment area(s) or a broader statewide or regional area that includes the bank’s assessment area(s).

c) Affiliate service. At a bank’s option, the Board will consider, in its assessment of a bank’s service performance, a community development service provided by an affiliate of the bank, if the community development service is not claimed by any other institution.

d) Performance criteria—retail banking services. The Board evaluates the availability and effectiveness of a bank’s systems for delivering retail banking services, pursuant to the following criteria:

1. The current distribution of the bank’s branches among low-, moderate-, middle-, and upper-income geographies;
2. In the context of its current distribution of the bank’s branches, the bank’s record of opening and closing branches, particularly branches located in low- or moderate-income geographies or primarily serving low- or moderate-income individuals;
3. The availability and effectiveness of alternative systems for delivering retail banking services (e.g., ATMs, ATMs not owned or operated by or exclusively for the bank, banking by telephone or computer, loan production offices, and bank-at-work or bank-by-mail programs) in low- and moderate-income geographies and to low- and moderate-income individuals; and
4. The range of services provided in low-, moderate-, middle-, and upper-income geographies and the degree to which the services are tailored to meet the needs of those geographies.

d) Performance criteria—community development services. The Board evaluates community development services pursuant to the following criteria:

1. The extent to which the bank provides community development services; and
2. The innovativeness and responsiveness of community development services.

e) Service performance rating. The Board rates a bank’s service performance as provided in appendix A of this part.

§ 228.25  Community development test for wholesale or limited purpose banks.

(a) Scope of test. The Board assesses a wholesale or limited purpose bank’s record of helping to meet the credit needs of its assessment area(s) under the community development test through its community development lending, qualified investments, or community development services.

(b) Designation as a wholesale or limited purpose bank. In order to receive a designation as a wholesale or limited purpose bank, a bank shall file a request, in writing, with the Board, at least three months prior to the proposed effective date of the designation. If the Board approves the designation, it remains in effect until the bank requests revocation of the designation or until one year after the Board notifies the bank that the Board has revoked the designation on its own initiative.

c) Performance criteria. The Board evaluates the community development performance of a wholesale or limited purpose bank pursuant to the following criteria:

1. The number and amount of community development loans (including originations and purchases of loans and other community development loan data provided by the bank, such as data on loans outstanding, commitments, and letters of credit), qualified investments, or community development services;
2. The use of innovative or complex qualified investments, community development loans, or community development services and the extent to which the investments are not routinely provided by private investors; and
3. The bank’s responsiveness to credit and community development needs.
(d) Indirect activities. At a bank’s option, the Board will consider in its community development performance assessment:

(1) Qualified investments or community development services provided by an affiliate of the bank, if the investments or services are not claimed by any other institution; and

(2) Community development lending by affiliates, consortia and third parties, subject to the requirements and limitations in §228.22(c) and (d).

(e) Benefit to assessment area(s)—

(1) Benefit inside assessment area(s). The Board considers all qualified investments, community development loans, and community development services that benefit areas within the bank’s assessment area(s) or a broader statewide or regional area that includes the bank’s assessment area(s).

(2) Benefit outside assessment area(s). The Board considers the qualified investments, community development loans, and community development services that benefit areas outside the bank’s assessment area(s), if the bank has adequately addressed the needs of its assessment area(s).

(f) Community development performance rating. The Board rates a bank’s community development performance as provided in appendix A of this part.

§ 228.26 Small bank performance standards.

(a) Performance criteria—(1) Small banks that are not intermediate small banks. The Board evaluates the record of a small bank that is not, or that was not during the prior calendar year, an intermediate small bank, of helping to meet the credit needs of its assessment area(s) pursuant to the criteria set forth in paragraph (b) of this section.

(2) Intermediate small banks. The Board evaluates the record of a small bank that is, or that was during the prior calendar year, an intermediate small bank, of helping to meet the credit needs of its assessment area(s) pursuant to the criteria set forth in paragraphs (b) and (c) of this section.

(b) Lending test. A small bank’s lending performance is evaluated pursuant to the following criteria:

(1) The bank’s loan-to-deposit ratio, adjusted for seasonal variation, and, as appropriate, other lending-related activities, such as loan originations for sale to the secondary markets, community development loans, or qualified investments;

(2) The percentage of loans and, as appropriate, other lending-related activities located in the bank’s assessment area(s);

(3) The bank’s record of lending to and, as appropriate, engaging in other lending-related activities for borrowers of different income levels and businesses and farms of different sizes;

(4) The geographic distribution of the bank’s loans; and

(5) The bank’s record of taking action, if warranted, in response to written complaints about its performance in helping to meet credit needs in its assessment area(s).

(c) Community development test. An intermediate small bank’s community development performance also is evaluated pursuant to the following criteria:

(1) The number and amount of community development loans;

(2) The number and amount of qualified investments;

(3) The extent to which the bank provides community development services; and

(4) The bank’s responsiveness through such activities to community development lending, investment, and services needs.

(d) Small bank performance rating. The Board rates the performance of a bank evaluated under this section as provided in appendix A of this part.

§ 228.27 Strategic plan.

(a) Alternative election. The Board will assess a bank’s record of helping to meet the credit needs of its assessment area(s) under a strategic plan if:

(1) The bank has submitted the plan to the Board as provided for in this section;

(2) The Board has approved the plan;

(3) The plan is in effect; and

(4) The bank has been operating under an approved plan for at least one year.

(b) Data reporting. The Board’s approval of a plan does not affect the
bank's obligation, if any, to report data as required by §228.42.

(c) Plans in general—(1) Term. A plan may have a term of no more than five years, and any multi-year plan must include annual interim measurable goals under which the Board will evaluate the bank’s performance.

(2) Multiple assessment areas. A bank with more than one assessment area may prepare a single plan for all of its assessment areas or one or more plans for one or more of its assessment areas.

(3) Treatment of affiliates. Affiliated institutions may prepare a joint plan if the plan provides measurable goals for each institution. Activities may be allocated among institutions at the institutions' option, provided that the same activities are not considered for more than one institution.

(d) Public participation in plan development. Before submitting a plan to the Board for approval, a bank shall:

(1) Informally seek suggestions from members of the public in its assessment area(s) covered by the plan while developing the plan;

(2) Once the bank has developed a plan, formally solicit public comment on the plan for at least 30 days by publishing notice in at least one newspaper of general circulation in each assessment area covered by the plan; and

(3) During the period of formal public comment, make copies of the plan available for review by the public at no cost at all offices of the bank in any assessment area covered by the plan and provide copies of the plan upon request for a reasonable fee to cover copying and mailing, if applicable.

(e) Submission of plan. The bank shall submit its plan to the Board at least three months prior to the proposed effective date of the plan. The bank shall also submit with its plan a description of its informal efforts to seek suggestions from members of the public, any written public comment received, and, if the plan was revised in light of the comment received, the initial plan as released for public comment.

(f) Plan content—(1) Measurable goals. A bank shall specify in its plan measurable goals for helping to meet the credit needs of each assessment area covered by the plan, particularly the needs of low- and moderate-income geographies and low- and moderate-income individuals, through lending, investment, and services, as appropriate.

(ii) A bank shall address in its plan all three performance categories and, unless the bank has been designated as a wholesale or limited purpose bank, shall emphasize lending and lending-related activities. Nevertheless, a different emphasis, including a focus on one or more performance categories, may be appropriate if responsive to the characteristics and credit needs of its assessment area(s), considering public comment and the bank's capacity and constraints, product offerings, and business strategy.

(2) Confidential information. A bank may submit additional information to the Board on a confidential basis, but the goals stated in the plan must be sufficiently specific to enable the public and the Board to judge the merits of the plan.

(3) Satisfactory and outstanding goals. A bank shall specify in its plan measurable goals that constitute “satisfactory” performance. A plan may specify measurable goals that constitute “outstanding” performance. If a bank submits, and the Board approves, both “satisfactory” and “outstanding” performance goals, the Board will consider the bank eligible for an “outstanding” performance rating.

(4) Election if satisfactory goals not substantially met. A bank may elect in its plan that, if the bank fails to meet substantially its plan goals for a satisfactory rating, the Board will evaluate the bank’s performance under the lending, investment, and service tests, the community development test, or the small bank performance standards, as appropriate.

(g) Plan approval—(1) Timing. The Board will act upon a plan within 60 calendar days after the Board receives the complete plan and other material required under paragraph (e) of this section. If the Board fails to act within this time period, the plan shall be deemed approved unless the Board extends the review period for good cause.

(2) Public participation. In evaluating the plan’s goals, the Board considers the public’s involvement in formulating the plan, written public comment on the plan, and any response by
§ 228.28 Assigned ratings.

(a) Ratings in general. Subject to paragraphs (b) and (c) of this section, the Board assigns to a bank a rating of “outstanding,” “satisfactory,” “needs to improve,” or “substantial noncompliance” based on the bank’s performance under the lending, investment and service tests, the community development test, the small bank performance standards, or an approved strategic plan, as applicable.

(b) Lending, investment, and service tests. The Board assigns a rating for a bank assessed under the lending, investment, and service tests in accordance with the following principles:

(1) A bank that receives an “outstanding” rating on the lending test receives an assigned rating of at least “satisfactory”;
(2) A bank that receives an “outstanding” rating on both the service test and the investment test and a rating of at least “high satisfactory” on the lending test receives an assigned rating of “outstanding”; and
(3) No bank may receive an assigned rating of “satisfactory” or higher unless it receives a rating of at least “low satisfactory” on the lending test.

(c) Effect of evidence of discriminatory or other illegal credit practices. (1) The Board’s evaluation of a bank’s CRA performance is adversely affected by evidence of discriminatory or other illegal credit practices in any geography by the bank or in any assessment area by any affiliate whose loans have been considered as part of the bank’s lending performance. In connection with any type of lending activity described in §228.22(a), evidence of discriminatory or other credit practices that violate an applicable law, rule, or regulation includes, but is not limited to:

(i) Discrimination against applicants on a prohibited basis in violation, for example, of the Equal Credit Opportunity Act or the Fair Housing Act;
(ii) Violations of the Home Ownership and Equity Protection Act;
(iii) Violations of section 5 of the Federal Trade Commission Act;
(iv) Violations of section 8 of the Real Estate Settlement Procedures Act; and
(v) Violations of the Truth in Lending Act provisions regarding a consumer’s right of rescission.

(2) In determining the effect of evidence of practices described in paragraph (c)(1) of this section on the bank’s assigned rating, the Board considers the nature, extent, and strength of the evidence of the practices; the policies and procedures that the bank (or affiliate, as applicable) has in place to prevent the practices; any corrective action that the bank (or affiliate, as applicable) has taken or has committed to take, including voluntary corrective action resulting from self-assessment; and any other relevant information.

§ 228.29 Effect of CRA performance on applications.

(a) CRA performance. Among other factors, the Board takes into account the record of performance under the CRA of:

(1) Each applicant bank for the:
   (i) Establishment of a domestic branch by a State member bank; and
   (ii) Merger, consolidation, acquisition of assets, or assumption of liabilities requiring approval under the Bank Merger Act (12 U.S.C. 1828(c)) if the acquiring, assuming, or resulting bank is to be a State member bank; and
   (2) Each insured depository institution (as defined in 12 U.S.C. 1813) controlled by an applicant and subsidiary bank or savings association proposed to be controlled by an applicant:
      (i) To become a bank holding company in a transaction that requires approval under section 3 of the Bank Holding Company Act (12 U.S.C. 1842);
      (ii) To acquire ownership or control of shares or all or substantially all of the assets of a bank, to cause a bank to become a subsidiary of a bank holding company, or to merge or consolidate a bank holding company with any other bank holding company in a transaction that requires approval under section 3 of the Bank Holding Company Act (12 U.S.C. 1842); and
      (iii) To own, control or operate a savings association in a transaction that requires approval under section 4 of the Bank Holding Company Act (12 U.S.C. 1843).

(b) Interested parties. In considering CRA performance in an application described in paragraph (a) of this section, the Board takes into account any views expressed by interested parties that are submitted in accordance with the Board’s Rules of Procedure set forth in part 262 of this chapter.

(c) Denial or conditional approval of application. A bank’s record of performance may be the basis for denying or conditioning approval of an application listed in paragraph (a) of this section.

(d) Definitions. For purposes of paragraph (a)(2) of this section, “bank,” “bank holding company,” “subsidiary,” and “savings association” have the meanings given to those terms in section 2 of the Bank Holding Company Act (12 U.S.C. 1841).

Subpart C—Records, Reporting, and Disclosure Requirements

§ 228.41 Assessment area delineation.

(a) In general. A bank shall delineate one or more assessment areas within which the Board evaluates the bank’s record of helping to meet the credit needs of its community. The Board does not evaluate the bank’s delineation of its assessment area(s) as a separate performance criterion, but the Board reviews the delineation for compliance with the requirements of this section.

(b) Geographic area(s) for wholesale or limited purpose banks. The assessment area(s) for a wholesale or limited purpose bank must consist generally of one or more MSAs or metropolitan divisions (using the MSA or metropolitan division boundaries that were in effect as of January 1 of the calendar year in which the delineation is made) or one or more contiguous political subdivisions, such as counties, cities, or towns, in which the bank has its main office, branches, and deposit-taking ATMs.

(c) Geographic area(s) for other banks. The assessment area(s) for a bank other than a wholesale or limited purpose bank must:

(1) Consist generally of one or more MSAs or metropolitan divisions (using the MSA or metropolitan division boundaries that were in effect as of January 1 of the calendar year in which the delineation is made) or one or more contiguous political subdivisions, such as counties, cities, or towns; and

(2) Include the geographies in which the bank has its main office, its branches, and its deposit-taking ATMs, as well as the surrounding geographies in which the bank has originated or purchased a substantial portion of its loans (including home mortgage loans, small business and small farm loans, and any other loans the bank chooses, such as those consumer loans on which...
§ 228.42

Data collection, reporting, and disclosure.

(a) Loan information required to be collected and maintained. A bank, except a small bank, shall collect, and maintain in machine readable form (as prescribed by the Board) until the completion of its next CRA examination, the following data for each small business or small farm loan originated or purchased by the bank:

(1) A unique number or alpha-numeric symbol that can be used to identify the relevant loan file;
(2) The loan amount at origination;
(3) The loan location; and
(4) An indicator whether the loan was to a business or farm with gross annual revenues of $1 million or less.

(b) Loan information required to be reported. A bank, except a small bank or a bank that was a small bank during the prior calendar year, shall report annually by March 1 to the Board in machine readable form (as prescribed by the Board) the following data for the prior calendar year:

(1) Small business and small farm loan data. For each geography in which the bank originated or purchased a small business or small farm loan, the aggregate number and amount of loans:

(i) With an amount at origination of $100,000 or less;
(ii) With amount at origination of more than $100,000 but less than or equal to $250,000;
(iii) With an amount at origination of more than $250,000; and
(iv) To businesses and farms with gross annual revenues of $1 million or less (using the revenues that the bank considered in making its credit decision);

(2) Community development loan data. The aggregate number and aggregate amount of community development loans originated or purchased; and

(3) Home mortgage loans. If the bank is subject to reporting under part 203 of this chapter, the location of each home mortgage loan application, origination, or purchase outside the MSAs in which the bank has a home or branch office (or outside any MSA) in accordance with the requirements of part 203 of this chapter.

(c) Optional data collection and maintenance—(1) Consumer loans. A bank may
Federal Reserve System § 228.42

collect and maintain in machine readable form (as prescribed by the Board) data for consumer loans originated or purchased by the bank for consideration under the lending test. A bank may maintain data for one or more of the following categories of consumer loans: motor vehicle, credit card, home equity, other secured, and other unsecured. If the bank maintains data for loans in a certain category, it shall maintain data for all loans originated or purchased within that category. The bank shall maintain data separately for each category, including for each loan:

(i) A unique number or alpha-numeric symbol that can be used to identify the relevant loan file;
(ii) The loan amount at origination or purchase;
(iii) The loan location; and
(iv) The gross annual income of the borrower that the bank considered in making its credit decision.

(2) Other loan data. At its option, a bank may provide other information concerning its lending performance, including additional loan distribution data.

(d) Data on affiliate lending. A bank that elects to have the Board consider loans by an affiliate, for purposes of the lending or community development test or an approved strategic plan, shall collect, maintain, and report for those loans the data that the bank would have collected, maintained, and reported pursuant to paragraphs (a), (b), and (c) of this section had the loans been originated or purchased by the bank. For home mortgage loans, the bank shall also be prepared to identify the home mortgage loans reported under part 203 of this chapter by the affiliate.

(e) Data on lending by a consortium or a third party. A bank that elects to have the Board consider community development loans by a consortium or third party, for purposes of the lending or community development tests or an approved strategic plan, shall report for those loans the data that the bank would have reported under paragraph (b)(2) of this section had the loans been originated or purchased by the bank.

(f) Small banks electing evaluation under the lending, investment, and service tests. A bank that qualifies for evaluation under the small bank performance standards but elects evaluation under the lending, investment, and service tests shall collect, maintain, and report the data required for other banks pursuant to paragraphs (a) and (b) of this section.

(g) Assessment area data. A bank, except a small bank or a bank that was a small bank during the prior calendar year, shall collect and report to the Board by March 1 of each year a list for each assessment area showing the geographies within the area.

(h) CRA Disclosure Statement. The Board prepares annually for each bank that reports data pursuant to this section a CRA Disclosure Statement that contains, on a state-by-state basis:

(1) For each county (and for each assessment area smaller than a county) with a population of 500,000 persons or fewer in which the bank reported a small business or small farm loan:
(i) The number and amount of small business and small farm loans reported as originated or purchased located in low-, moderate-, middle-, and upper-income geographies;
(ii) A list grouping each geography according to whether the geography is low-, moderate-, middle-, or upper-income;
(iii) A list showing each geography in which the bank reported a small business or small farm loan; and
(iv) The number and amount of small business and small farm loans to businesses and farms with gross annual revenues of $1 million or less;

(2) For each county (and for each assessment area smaller than a county) with a population in excess of 500,000 persons in which the bank reported a small business or small farm loan:
(i) The number and amount of small business and small farm loans reported as originated or purchased located in geographies with median income relative to the area median income of less than 10 percent, 10 or more but less than 20 percent, 20 or more but less than 30 percent, 30 or more but less than 40 percent, 40 or more but less than 50 percent, 50 or more but less than 60 percent, 60 or more but less than 70 percent, 70 or more but less than 80 percent, 80 or more but less...
§ 228.43 Content and availability of public file.

(a) Information available to the public. A bank shall maintain a public file that includes the following information:

(1) All written comments received from the public for the current year and each of the prior two calendar years that specifically relate to the bank’s performance in helping to meet community credit needs, and any response to the comments by the bank, if neither the comments nor the responses contain statements that reflect adversely on the good name or reputation of any persons other than the bank or publication of which would violate specific provisions of law;

(2) A copy of the public section of the bank’s most recent CRA Performance Evaluation prepared by the Board. The bank shall place this copy in the public file within 30 business days after its receipt from the Board;

(3) A list of the bank’s branches, their street addresses, and geographies;

(4) A list of branches opened or closed by the bank during the current year and each of the prior two calendar years, their street addresses, and geographies;

(5) A list of services (including hours of operation, available loan and deposit products, and transaction fees) generally offered at the bank’s branches and descriptions of material differences in the availability or cost of services at particular branches, if any. At its option, a bank may include information regarding the availability of alternative systems for delivering retail

than 90 percent, 90 or more but less than 100 percent, 100 or more but less than 110 percent, 110 or more but less than 120 percent, and 120 percent or more;

(ii) A list grouping each geography in the county or assessment area according to whether the median income in the geography relative to the area median income is less than 10 percent, 10 or more but less than 20 percent, 20 or more but less than 30 percent, 30 or more but less than 40 percent, 40 or more but less than 50 percent, 50 or more but less than 60 percent, 60 or more but less than 70 percent, 70 or more but less than 80 percent, 80 or more but less than 90 percent, 90 or more but less than 100 percent, 100 or more but less than 110 percent, 110 or more but less than 120 percent, and 120 percent or more;

(iii) A list showing each geography in which the bank reported a small business or small farm loan;

(iv) The number and amount of small business and small farm loans located inside each assessment area reported by the bank and the number and amount of small business and small farm loans located outside the assessment area(s) reported by the bank;

(i) Aggregate disclosure statements. The Board, in conjunction with the Office of the Comptroller of the Currency, the Federal Deposit Insurance Corporation, and the Office of Thrift Supervision, prepares annually, for each MSA or metropolitan division (including an MSA or metropolitan division that crosses a state boundary) and the nonmetropolitan portion of each state, an aggregate disclosure statement of small business and small farm lending by all institutions subject to reporting under this part or parts 25, 345, or 563e of this title. These disclosure statements indicate, for each geography, the number and amount of all small business and small farm loans originated or purchased by reporting institutions, except that the Board may adjust the form of the disclosure if necessary, because of special circumstances, to protect the privacy of a borrower or the competitive position of an institution.

(j) Central data depositories. The Board makes the aggregate disclosure statements, described in paragraph (i) of this section, and the individual bank CRA Disclosure Statements, described in paragraph (h) of this section, available to the public at central data depositories. The Board publishes a list of the depositories at which the statements are available.

banking services (e.g., ATMs, ATMs not owned or operated by or exclusively for the bank, banking by telephone or computer, loan production offices, and bank-at-work or bank-by-mail programs);

(6) A map of each assessment area showing the boundaries of the area and identifying the geographies contained within the area, either on the map or in a separate list; and

(7) Any other information the bank chooses.

(b) Additional information available to the public—

(1) Banks other than small banks. A bank, except a small bank or a bank that was a small bank during the prior calendar year, shall include in its public file the following information pertaining to the bank and its affiliates, if applicable, for each of the prior two calendar years:

(i) If the bank has elected to have one or more categories of its consumer loans considered under the lending test, for each of these categories, the number and amount of loans:

(A) To low-, moderate-, middle-, and upper-income individuals;

(B) Located in low-, moderate-, middle-, and upper-income census tracts; and

(C) Located inside the bank’s assessment area(s) and outside the bank’s assessment area(s); and

(ii) The bank’s CRA Disclosure Statement. The bank shall place the statement in the public file the following information pertaining to the bank and its affiliates, if applicable, for each of the prior two calendar years:

(i) The bank’s loan-to-deposit ratio for each quarter of the prior calendar year and, at its option, additional data on its loan-to-deposit ratio; and

(ii) The information required for other banks by paragraph (b)(1) of this section, if the bank has elected to be evaluated under the lending, investment, and service tests.

(4) Banks with strategic plans. A bank that has been approved to be assessed under a strategic plan shall include in its public file a copy of that plan. A bank need not include information submitted to the Board on a confidential basis in conjunction with the plan.

(5) Banks with less than satisfactory ratings. A bank that received a less than satisfactory rating during its most recent examination shall include in its public file a description of its current efforts to improve its performance in helping to meet the credit needs of its entire community. The bank shall update the description quarterly.

(c) Location of public information. A bank shall make available to the public for inspection upon request and at no cost the information required in this section as follows:

(1) At the main office and, if an interstate bank, at one branch office in each state, all information in the public file; and

(2) At each branch:

(i) A copy of the public section of the bank’s most recent CRA Performance Evaluation and a list of services provided by the branch; and

(ii) Within five calendar days of the request, all the information in the public file relating to the assessment area in which the branch is located.

(d) Copies. Upon request, a bank shall provide copies, either on paper or in another form acceptable to the person making the request, of the information in its public file. The bank may charge a reasonable fee not to exceed the cost of copying and mailing (if applicable).

(e) Updating. Except as otherwise provided in this section, a bank shall ensure that the information required by
§ 228.44 Public notice by banks.

A bank shall provide in the public lobby of its main office and each of its branches the appropriate public notice set forth in appendix B of this part. Only a branch of a bank having more than one assessment area shall include the bracketed material in the notice for branch offices. Only a bank that is an affiliate of a holding company shall include the next to the last sentence of the notices. A bank shall include the last sentence of the notices only if it is an affiliate of a holding company that is not prevented by statute from acquiring additional banks.

§ 228.45 Publication of planned examination schedule.

The Board publishes at least 30 days in advance of the beginning of each calendar quarter a list of banks scheduled for CRA examinations in that quarter.

APPENDIX A TO PART 228—RATINGS

(a) Ratings in general. (1) In assigning a rating, the Board evaluates a bank’s performance under the applicable performance criteria in this part, in accordance with § 228.21, and § 228.28, which provides for adjustments on the basis of evidence of discriminatory or other illegal credit practices.

(2) A bank’s performance need not fit each aspect of a particular rating profile in order to receive that rating, and exceptionally strong performance with respect to some aspects may compensate for weak performance in others. The bank’s overall performance, however, must be consistent with safe and sound banking practices and generally with the appropriate rating profile as follows.

(b) Banks evaluated under the lending, investment, and service tests—(1) Lending performance rating. The Board assigns each bank’s lending performance one of the five following ratings.

(i) Outstanding. The Board rates a bank’s lending performance “outstanding” if, in general, it demonstrates:

(A) Excellent responsiveness to credit needs in its assessment area(s), taking into account the number and amount of home mortgage, small business, small farm, and consumer loans, if applicable, in its assessment area(s);

(B) A substantial majority of its loans are made in its assessment area(s);

(C) An excellent geographic distribution of loans in its assessment area(s);

(D) An excellent distribution, particularly in its assessment area(s), of loans among individuals of different income levels and businesses (including farms) of different sizes, given the product lines offered by the bank;

(E) An excellent record of serving the credit needs of highly economically disadvantaged areas in its assessment area(s), low-income individuals, or businesses (including farms) with gross annual revenues of $1 million or less, consistent with safe and sound operations;

(F) Extensive use of innovative or flexible lending practices in a safe and sound manner to address the credit needs of low- or moderate-income individuals or geographies; and

(G) It is a leader in making community development loans.

(ii) High satisfactory. The Board rates a bank’s lending performance “high satisfactory” if, in general, it demonstrates:

(A) Good responsiveness to credit needs in its assessment area(s), taking into account the number and amount of home mortgage, small business, small farm, and consumer loans, if applicable, in its assessment area(s);

(B) A high percentage of its loans are made in its assessment area(s);

(C) A good geographic distribution of loans in its assessment area(s);

(D) A good distribution, particularly in its assessment area(s), of loans among individuals of different income levels and businesses (including farms) of different sizes, given the product lines offered by the bank;

(E) A good record of serving the credit needs of highly economically disadvantaged areas in its assessment area(s), low-income individuals, or businesses (including farms) with gross annual revenues of $1 million or less, consistent with safe and sound operations;

(F) Use of innovative or flexible lending practices in a safe and sound manner to address the credit needs of low- or moderate-income individuals or geographies; and

(G) It has made a relatively high level of community development loans.

(iii) Low satisfactory. The Board rates a bank’s lending performance “low satisfactory” if, in general, it demonstrates:

(A) Adequate responsiveness to credit needs in its assessment area(s), taking into account the number and amount of home mortgage, small business, small farm, and consumer loans, if applicable, in its assessment area(s);

(B) An adequate percentage of its loans are made in its assessment area(s);

(C) An adequate geographic distribution of loans in its assessment area(s);

(D) An adequate distribution, particularly in its assessment area(s), of loans among individuals of different income levels and businesses (including farms) of different sizes, given the product lines offered by the bank;
(E) An adequate record of serving the credit needs of highly economically disadvantaged areas in its assessment area(s), low-income individuals, or businesses (including farms) with gross annual revenues of $1 million or less, consistent with safe and sound operations;
(F) Limited use of innovative or flexible lending practices in a safe and sound manner to address the credit needs of low- or moderate-income individuals or geographies; and
(G) It has made an adequate level of community development loans.

(iv) Needs to improve. The Board rates a bank’s lending performance “needs to improve” if, in general, it demonstrates:
(A) Poor responsiveness to credit needs in its assessment area(s), taking into account the number and amount of home mortgage, small business, small farm, and consumer loans, if applicable, in its assessment area(s);
(B) A small percentage of its loans are made in its assessment area(s);
(C) A poor geographic distribution of loans, particularly to low- or moderate-income geographies, in its assessment area(s);
(D) A poor distribution, particularly in its assessment area(s), of loans among individuals of different income levels and businesses (including farms) of different sizes, given the product lines offered by the bank;
(E) A poor record of serving the credit needs of highly economically disadvantaged areas in its assessment area(s), low-income individuals, or businesses (including farms) with gross annual revenues of $1 million or less, consistent with safe and sound operations;
(F) No use of innovative or flexible lending practices in a safe and sound manner to address the credit needs of low- or moderate-income individuals or geographies; and
(G) It has made few, if any, community development loans.

(2) Investment performance rating. The Board assigns each bank’s investment performance one of the five following ratings.

(i) Outstanding. The Board rates a bank’s investment performance “outstanding” if, in general, it demonstrates:
(A) An excellent level of qualified investments, particularly those that are not routinely provided by private investors, often in a leadership position;
(B) Extensive use of innovative or complex qualified investments; and
(C) Excellent responsiveness to credit and community development needs.

(ii) High satisfactory. The Board rates a bank’s investment performance “high satisfactory” if, in general, it demonstrates:
(A) An adequate level of qualified investments, particularly those that are not routinely provided by private investors, occasionally in a leadership position;
(B) Significant use of innovative or complex qualified investments; and
(C) Good responsiveness to credit and community development needs.

(iii) Low satisfactory. The Board rates a bank’s investment performance “low satisfactory” if, in general, it demonstrates:
(A) An adequate level of qualified investments, particularly those that are not routinely provided by private investors, although rarely in a leadership position;
(B) Occasional use of innovative or complex qualified investments; and
(C) Adequate responsiveness to credit and community development needs.

(iv) Needs to improve. The Board rates a bank’s investment performance “needs to improve” if, in general, it demonstrates:
(A) A poor level of qualified investments, particularly those that are not routinely provided by private investors;
(B) Rare use of innovative or complex qualified investments; and
(C) Poor responsiveness to credit and community development needs.

(v) Substantial noncompliance. The Board rates a bank’s investment performance as being in “substantial noncompliance” if, in general, it demonstrates:
(A) A very poor responsiveness to credit needs in its assessment area(s), taking into account the number and amount of home mortgage, small business, small farm, and consumer loans, if applicable, in its assessment area(s);
(B) A very small percentage of its loans are made in its assessment area(s);
(C) A very poor geographic distribution of loans, particularly to low- or moderate-income geographies, in its assessment area(s);
(D) A very poor distribution, particularly in its assessment area(s), of loans among individuals of different income levels and businesses (including farms) of different sizes, given the product lines offered by the bank;
(E) A very poor record of serving the credit needs of highly economically disadvantaged areas in its assessment area(s), low-income individuals, or businesses (including farms) with gross annual revenues of $1 million or less, consistent with safe and sound operations; and
(F) No use of innovative or flexible lending practices in a safe and sound manner to address the credit needs of low- or moderate-income individuals or geographies; and
(G) It has made few, if any, community development loans.
Service performance rating. The Board assigns each bank’s service performance one of the five following ratings.

(i) Outstanding. The Board rates a bank’s service performance “outstanding” if, in general, the bank demonstrates:

(A) Its service delivery systems are readily accessible to geographies and individuals of different income levels in its assessment area(s);

(B) To the extent changes have been made, its record of opening and closing branches has improved the accessibility of its delivery systems, particularly in low- or moderate-income geographies or to low- or moderate-income individuals;

(C) Its services (including, where appropriate, business hours) are tailored to the convenience and needs of its assessment area(s), particularly low- or moderate-income geographies or low- or moderate-income individuals; and

(D) It is a leader in providing community development services.

(ii) High satisfactory. The Board rates a bank’s service performance “high satisfactory” if, in general, the bank demonstrates:

(A) Its service delivery systems are accessible to geographies and individuals of different income levels in its assessment area(s);

(B) To the extent changes have been made, its record of opening and closing branches has not adversely affected the accessibility of its delivery systems, particularly in low- and moderate-income geographies and to low- and moderate-income individuals;

(C) Its services (including, where appropriate, business hours) vary in a way that inconveniences its assessment area(s), particularly low- and moderate-income geographies or low- or moderate-income individuals; and

(D) It provides a relatively high level of community development services.

(iii) Low satisfactory. The Board rates a bank’s service performance “low satisfactory” if, in general, the bank demonstrates:

(A) Its service delivery systems are reasonably accessible to geographies and individuals of different income levels in its assessment area(s);

(B) To the extent changes have been made, its record of opening and closing branches has generally not adversely affected the accessibility of its delivery systems, particularly in low- and moderate-income geographies and to low- and moderate-income individuals;

(C) Its services (including, where appropriate, business hours) do not vary in a way that inconveniences its assessment area(s), particularly low- and moderate-income geographies or low- and moderate-income individuals; and

(D) It provides an average level of community development services.

(iv) Needs to improve. The Board rates a bank’s service performance “needs to improve” if, in general, the bank demonstrates:

(A) Its service delivery systems are unreasonably inaccessible to portions of its assessment area(s), particularly to low- or moderate-income geographies or to low- or moderate-income individuals;

(B) To the extent changes have been made, its record of opening and closing branches has adversely affected the accessibility its delivery systems, particularly in low- or moderate-income geographies or to low- or moderate-income individuals;

(C) Its services (including, where appropriate, business hours) vary in a way that inconveniences its assessment area(s), particularly low- or moderate-income geographies or low- or moderate-income individuals; and

(D) It provides a limited level of community development services.

(v) Substantial noncompliance. The Board rates a bank’s service performance as being in “substantial noncompliance” if, in general, the bank demonstrates:

(A) Its service delivery systems are unreasonably inaccessible to significant portions of its assessment area(s), particularly to low- or moderate-income geographies or to low- or moderate-income individuals;

(B) To the extent changes have been made, its record of opening and closing branches has significantly adversely affected the accessibility of its delivery systems, particularly in low- or moderate-income geographies or to low- or moderate-income individuals;

(C) Its services (including, where appropriate, business hours) vary in a way that significantly inconveniences its assessment area(s), particularly low- or moderate-income geographies or low- or moderate-income individuals; and

(D) It provides few, if any, community development services.

Wholesale or limited purpose banks. The Board assigns each wholesale or limited purpose bank’s community development performance one of the following four ratings.

(i) Outstanding. The Board rates a wholesale or limited purpose bank’s community development performance “outstanding” if, in general, it demonstrates:

(A) A high level of community development loans, community development services, or qualified investments, particularly investments that are not routinely provided by private investors;

(B) Extensive use of innovative or complex qualified investments, community development loans, or community development services; and

(C) Excellent responsiveness to credit and community development needs in its assessment area(s).

(ii) Satisfactory. The Board rates a wholesale or limited purpose bank’s community development performance "satisfactory" if, in general, it demonstrates:

(A) A high level of community development loans, community development services, or qualified investments, particularly investments that are not routinely provided by private investors;

(B) Extensive use of innovative or complex qualified investments, community development loans, or community development services; and

(C) Excellent responsiveness to credit and community development needs in its assessment area(s).
development performance “satisfactory” if, in general, it demonstrates:

(i) An adequate level of community development loans, community development services, or qualified investments, particularly investments that are not routinely provided by private investors;

(ii) Occasional use of innovative or complex qualified investments, community development services, or

(iii) Adequate responsiveness to credit and community development needs in its assessment area(s).

(3) Needs to improve. The Board rates a wholesale or limited purpose bank’s community development performance as “needs to improve” if, in general, it demonstrates:

(i) A poor level of community development loans, community development services, or qualified investments, particularly investments that are not routinely provided by private investors;

(ii) Rare use of innovative or complex qualified investments, community development loans, or community development services; and

(iii) Poor responsiveness to credit and community development needs in its assessment area(s).

(4) Substantial noncompliance. The Board rates a wholesale or limited purpose bank’s community development performance in “substantial noncompliance” if, in general, it demonstrates:

(i) Few, if any, community development loans, community development services, or qualified investments, particularly investments that are not routinely provided by private investors;

(ii) No use of innovative or complex qualified investments, community development loans, or community development services; and

(iii) Very poor responsiveness to credit and community development needs in its assessment area(s).

(d) Banks evaluated under the small bank performance standards—(1) Lending test ratings. The Board rates a small bank’s lending performance “satisfactory” if, in general, the bank demonstrates:

(A) A reasonable loan-to-deposit ratio (considering seasonal variations) given the bank’s size, financial condition, the credit needs of its assessment area(s), and taking into account, as appropriate, other lending-related activities such as loan originations for sale to the secondary markets and community development loans and qualified investments;

(B) A majority of its loans and, as appropriate, other lending-related activities, are in its assessment area;

(C) A distribution of loans to and, as appropriate, other lending-related activities for individuals of different income levels (including low- and moderate-income individuals) and businesses and farms of different sizes that is reasonable given the demographics of the bank’s assessment area(s); and

(D) A record of taking appropriate action, when warranted, in response to written complaints, if any, about the bank’s performance in helping to meet the credit needs of its assessment area(s); and

(E) A reasonable geographic distribution of loans given the bank’s assessment area(s).

(ii) Eligibility for an “outstanding” lending test rating. A small bank that meets each of the standards for a “satisfactory” rating under this paragraph and exceeds some or all of those standards may warrant consideration for a lending test rating of “outstanding.”

(iii) Needs to improve or substantial noncompliance ratings. A small bank may also receive a lending test rating of “needs to improve” or “substantial noncompliance” depending on the degree to which its performance has failed to meet the standard for a “satisfactory” rating.

(2) Community development test ratings for intermediate small banks—(i) Eligibility for a satisfactory community development test rating. The Board rates an intermediate small bank’s community development performance “satisfactory” if the bank demonstrates adequate responsiveness to the community development needs of its assessment area(s) through community development loans, qualified investments, and community development services. The adequacy of the bank’s response will depend on its capacity for such community development activities, its assessment area’s need for such community development activities, and the availability of such opportunities for community development in the bank’s assessment area(s).

(ii) Eligibility for an outstanding community development test rating. The Board rates an intermediate small bank’s community development performance “outstanding” if the bank demonstrates excellent responsiveness to community development needs in its assessment area(s) through community development loans, qualified investments, and community development services, as appropriate, considering the bank’s capacity and the need and availability of such opportunities for community development in the bank’s assessment area(s).

(iii) Needs to improve or substantial noncompliance ratings. An intermediate small bank may also receive a community development test rating of “needs to improve” or “substantial noncompliance” depending on the degree to which its performance has failed to meet the standards for a “satisfactory” rating.

(3) Overall rating—(i) Eligibility for a satisfactory overall rating. No intermediate small bank may receive an assigned overall rating
of “satisfactory” unless it receives a rating of at least “satisfactory” on both the lending test and the community development test.

(ii) Eligibility for an outstanding overall rating. (A) An intermediate small bank that receives an “outstanding” rating on one test and at least “satisfactory” on the other test may receive an assigned overall rating of “outstanding.”

(B) A small bank that is not an intermediate small bank that meets each of the standards for a “satisfactory” rating under the lending test and exceeds some or all of those standards may warrant consideration for an overall rating of “outstanding.” In assessing whether a bank’s performance is “outstanding,” the Board considers the extent to which the bank exceeds each of the performance standards for a “satisfactory” rating and its performance in making qualified investments and its performance in providing branches and other services and delivery systems that enhance credit availability in its assessment area(s).

(iii) Needs to improve or substantial noncompliance overall ratings. A small bank may also receive a rating of “needs to improve” or “substantial noncompliance” depending on the degree to which its performance has failed to meet the standards for a “satisfactory” rating.

(e) Strategic plan assessment and rating—(1) Satisfactory goals. The Board approves as “satisfactory” measurable goals that adequately help to meet the credit needs of the bank’s assessment area(s).

(2) Outstanding goals. If the plan identifies a separate group of measurable goals that substantially exceed the levels approved as “satisfactory,” the Board will approve those goals as “outstanding.”

(3) Rating. The Board assesses the performance of a bank operating under an approved plan to determine if the bank has met its plan goals:

(i) If the bank substantially achieves its plan goals for a satisfactory rating, the Board will rate the bank’s performance under the plan as “satisfactory.”

(ii) If the bank exceeds its plan goals for a satisfactory rating and substantially achieves its plan goals for an outstanding rating, the Board will rate the bank’s performance under the plan as “outstanding.”

(iii) If the bank fails to meet substantially its plan goals for a satisfactory rating, the Board will rate the bank as either “needs to improve” or “substantial noncompliance,” depending on the extent to which it fails short of its plan goals, unless the bank elected in its plan to be rated otherwise, as provided in §228.27(f)(4).

APPENDIX B TO PART 228—CRA NOTICE

(a) Notice for main offices and, if an interstate bank, one branch office in each state.

COMMUNITY REINVESTMENT ACT NOTICE

Under the Federal Community Reinvestment Act (CRA), the Federal Reserve Board (Board) evaluates our record of helping to meet the credit needs of this community consistent with safe and sound operations. The Board also takes this record into account when deciding on certain applications submitted by us.

Your involvement is encouraged. You are entitled to certain information about our operations and our performance under the CRA, including, for example, information about our branches, such as their location and services provided at them; the public section of our most recent CRA Performance Evaluation, prepared by the Federal Reserve Bank of ____ (Reserve Bank); and comments received from the public relating to our performance in helping to meet community credit needs, as well as our responses to those comments. You may review this information today.

At least 30 days before the beginning of each quarter, the Federal Reserve System publishes a list of the banks that are scheduled for CRA examination by the Reserve Bank in that quarter. This list is available from (title of responsible official), Federal Reserve Bank of ____ (address). You may send written comments about our performance in helping to meet community credit needs to (name and address of official at bank) and (title of responsible official), Federal Reserve Bank of ____ (address). Your letter, together with any response by us, will be considered by the Federal Reserve System in evaluating our CRA performance and may be made public.

You may ask to look at any comments received by the Reserve Bank. You may also request from the Reserve Bank an announcement of our applications covered by the CRA filed with the Reserve Bank. We are an affiliate of (name of holding company), a bank holding company. You may request from (title of responsible official), Federal Reserve Bank of ____ (address) an announcement of applications covered by the CRA filed by bank holding companies.

(b) Notice for branch offices.

COMMUNITY REINVESTMENT ACT NOTICE

Under the Federal Community Reinvestment Act (CRA), the Federal Reserve Board (Board) evaluates our record of helping to meet the credit needs of this community consistent with safe and sound operations. The Board also takes this record into account when deciding on certain applications submitted by us.
Your involvement is encouraged. You are entitled to certain information about our operations and our performance under the CRA. You may review today the public section of our most recent CRA evaluation, prepared by the Federal Reserve Bank of _____ (address), and a list of services provided at this branch. You may also have access to the following additional information, which we will make available to you at this branch within five calendar days after you make a request to us: (1) a map showing the assessment area containing this branch, which is the area in which the Board evaluates our CRA performance in this community; (2) information about our branches in this assessment area; (3) a list of services we provide at those locations; (4) data on our lending performance in this assessment area; and (5) copies of all written comments received by us that specifically relate to our CRA performance in this assessment area, and any responses we have made to those comments. If we are operating under an approved strategic plan, you may also have access to a copy of the plan.

[If you would like to review information about our CRA performance in other communities served by us, the public file for our entire bank is available at (name of office located in state), located at (address).] At least 30 days before the beginning of each quarter, the Federal Reserve System publishes a list of the banks that are scheduled for CRA examination by the Reserve Bank in that quarter. This list is available from (title of responsible official), Federal Reserve Bank of _____ (address). You may send written comments about our performance in helping to meet community credit needs to (name and address of official at bank) and (title of responsible official), Federal Reserve Bank of _____ (address). Your letter, together with any response by us, will be considered by the Federal Reserve System in evaluating our CRA performance and may be made public.

You may ask to look at any comments received by the Reserve Bank. You may also request from the Reserve Bank an announcement of our applications covered by the CRA filed with the Reserve Bank. We are an affiliate of (name of holding company), a bank holding company. You may request from (title of responsible official), Federal Reserve Bank of _____ (address) an announcement of applications covered by the CRA filed by bank holding companies. [Reg. BB, 60 FR 22200, May 4, 1995]
Subpart A—General

§ 229.1 Authority and purpose; organization.

(a) Authority and purpose. This part is issued by the Board of Governors of the Federal Reserve System (Board) to implement the Expedited Funds Availability Act (12 U.S.C. 4001–4010) (the EFA Act) and the Check Clearing for the 21st Century Act (12 U.S.C. 5001–5018) (the Check 21 Act).

(b) Organization. This part is divided into subparts and appendices as follows—

(1) Subpart A contains general information. It sets forth—

(i) The authority, purpose, and organization;

(ii) Definition of terms; and

(iii) Authority for administrative enforcement of this part’s provisions.

(2) Subpart B of this part contains rules regarding the duty of banks to make funds deposited into accounts available for withdrawal, including availability schedules. Subpart B of this part also contains rules regarding exceptions to the schedules, disclosure of funds availability policies, payment of interest, liability of banks for failure to comply with Subpart B of this part, and other matters.

(3) Subpart C of this part contains rules to expedite the collection and return of checks by banks. These rules cover the direct return of checks, the manner in which the paying bank and returning banks must return checks to the depositary bank, notification of nonpayment by the paying bank, indorsement and presentment of checks, same-day settlement for certain checks, the liability of banks for failure to comply with Subpart C of this part, and other matters.

(4) Subpart D of this part contains rules relating to substitute checks. These rules address the creation and legal status of substitute checks; the substitute check warranties and indemnity; expedited recredit procedures for resolving improper charges and warranty claims associated with substitute checks provided to consumers; and the disclosure and notices that banks must provide.

§ 229.2 Definitions.

As used in this part, and unless the context requires otherwise, the following terms have the meanings set forth in this section, and the terms not defined in this section have the meanings set forth in the Uniform Commercial Code:

(a) Account. (1) Except as provided in paragraphs (a)(2) and (a)(3) of this section, account means a deposit as defined in 12 CFR 204.2(a)(1)(i) that is a transaction account as described in 12 CFR 204.2(e). As defined in these sections, account generally includes accounts at a bank from which the account holder is permitted to make transfers or withdrawals by negotiable or transferable instrument, payment order of withdrawal, telephone transfer, electronic payment, or other similar means for the purpose of making payments or transfers to third persons or others. Account also includes accounts at a bank from which the account holder may make third party payments at an ATM, remote service unit, or other electronic device, including by debit card, but the term does not include savings deposits or accounts described in 12 CFR 204.2(d)(2) even though such accounts permit third party transfers. An account may be in the form of—

(i) A demand deposit account,

(ii) A negotiable order of withdrawal account,

(iii) A share draft account,
Federal Reserve System § 229.2

(iv) An automatic transfer account, or
(v) Any other transaction account described in 12 CFR 204.2(e).

(2) For purposes of subpart B of this part and, in connection therewith, this subpart A, account does not include an account where the account holder is a bank, where the account holder is an office of an institution described in paragraphs (e)(1) through (e)(6) of this section or an office of a ‘‘foreign bank’’ as defined in section 1(b) of the International Banking Act (12 U.S.C. 3101) that is located outside the United States, or where the direct or indirect account holder is the Treasury of the United States.

(3) For purposes of subpart D of this part and, in connection therewith, this subpart A, account means any deposit, as defined in 12 CFR 204.2(a)(1)(i), at a bank, including a demand deposit or other transaction account and a savings deposit or other time deposit, as those terms are defined in 12 CFR 204.2.

(b) Automated clearinghouse or ACH means a facility that processes debit and credit transfers under rules established by a Federal Reserve Bank operating circular on automated clearinghouse items or under rules of an automated clearinghouse association.

(c) Automated teller machine or ATM means an electronic device at which a natural person may make deposits to an account by cash or check and perform other account transactions.

(d) Available for withdrawal with respect to funds deposited means available for all uses generally permitted to the customer for actually and finally collected funds under the bank’s account agreement or policies, such as for payment of checks drawn on the account, certification of checks drawn on the account, electronic payments, withdrawals by cash, and transfers between accounts.

(e) Bank means—

1. An insured bank as defined in section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813) or a bank that is eligible to apply to become an insured bank under section 5 of that Act (12 U.S.C. 1815); or

2. A mutual savings bank as defined in section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813);

3. A savings bank as defined in section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813);

4. An insured credit union as defined in section 101 of the Federal Credit Union Act (12 U.S.C. 1752) or a credit union that is eligible to make application to become an insured credit union under section 201 of that Act (12 U.S.C. 1781);

5. A member as defined in section 2 of the Federal Home Loan Bank Act (12 U.S.C. 1422);

6. A savings association as defined in section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813) that is an insured depository institution as defined in section 3 of that Act (12 U.S.C. 1813(c)(2)) or that is eligible to apply to become an insured depository institution under section 5 of that Act (12 U.S.C. 1815); or

7. An agency or a branch of a foreign bank as defined in section 1(b) of the International Banking Act (12 U.S.C. 3101).

For purposes of subparts C and D of this part and, in connection therewith, this subpart A, the term bank also includes any person engaged in the business of banking, as well as a Federal Reserve Bank, a Federal Home Loan Bank, and a state or unit of general local government to the extent that the state or unit of general local government acts as a paying bank. Unless otherwise specified, the term bank includes all of a bank’s offices in the United States, but not offices located outside the United States.

NOTE: For purposes of subpart D of this part and, in connection therewith, this subpart A, bank also includes the Treasury of the United States or the United States Postal Service to the extent that the Treasury or the Postal Service acts as a paying bank.

(f) Banking day means that part of any business day on which an office of a bank is open to the public for carrying on substantially all of its banking functions.

(g) Business day means a calendar day other than a Saturday or a Sunday, January 1, the third Monday in January, the third Monday in February, the last Monday in May, July 4, the first Monday in September, the second Monday in October, November 11, the
fourth Thursday in November, or December 25. If January 1, July 4, November 11, or December 25 fall on a Sunday, the next Monday is not a business day.

(h) Cash means United States coins and currency.
   (1) Cashier's check means a check that is—
      (1) Drawn on a bank;
      (2) Signed by an officer or employee of the bank on behalf of the bank as drawer;
      (3) A direct obligation of the bank; and
      (4) Provided to a customer of the bank or acquired from the bank for remittance purposes.
   (i) Certified check means a check with respect to which the drawee bank certifies by signature on the check of an officer or other authorized employee of the bank that—
      (1) (i) The signature of the drawer on the check is genuine; and
      (ii) The bank has set aside funds that—
         (A) Are equal to the amount of the check, and
         (B) Will be used to pay the check; or
      (2) The bank will pay the check upon presentment.
   (j) Check means—
      (1) A negotiable demand draft drawn on or payable through or at an office of a bank;
      (2) A negotiable demand draft drawn on a Federal Reserve Bank or a Federal Home Loan Bank;
      (3) A negotiable demand draft drawn on the Treasury of the United States;
      (4) A demand draft drawn on a state government or unit of general local government that is not payable through or at a bank;
      (5) A United States Postal Service money order; or
      (6) A traveler's check drawn on or payable through or at a bank.
   (k) Check processing region means the geographical area served by an office of a Federal Reserve Bank for purposes of its check processing activities.
   (l) Check processing region means the geographical area served by an office of a Federal Reserve Bank for purposes of its check processing activities.
   (m) Check processing region means the geographical area served by an office of a Federal Reserve Bank for purposes of its check processing activities.
   (n) Consumer account means any account used primarily for personal, family, or household purposes.
   (o) Depositary bank means the first bank to which a check is transferred even though it is also the paying bank or the payee. A check deposited in an account is deemed to be transferred to the bank holding the account into which the check is deposited, even though the check is physically received and indorsed first by another bank.
   (p) Electronic payment means a wire transfer or an ACH credit transfer.
   (q) Forward collection means the process by which a bank sends a check on a cash basis to a collecting bank for settlement or to the paying bank for payment.
   (r) Local check means a check payable by or at a local paying bank, or a check payable by a nonbank payor and payable through a local paying bank.
   (s) Local paying bank means a paying bank that is located in the same check-processing region as the physical location of the branch, contractual branch, or proprietary ATM of the depositary bank in which that check was deposited.
   (t) Merger transaction means—
      (1) A merger or consolidation of two or more banks; or
      (2) The transfer of substantially all of the assets of one or more banks or branches to another bank in consideration of the assumption by the acquiring bank of substantially all of the liabilities of the transferring banks, including the deposit liabilities.
   (u) Noncash item means an item that would otherwise be a check, except that—
      (1) A passbook, certificate, or other document is attached;
      (2) It is accompanied by special instructions, such as a request for special advice of payment or dishonor;
      (3) It consists of more than a single thickness of paper, except a check that qualifies for handling by automated check processing equipment; or

648
§ 229.2

(4) It has not been preprinted or post-encoded in magnetic ink with the routing number of the paying bank.

(v) Nonlocal check means a check payable by, through, or at a nonlocal paying bank.

(w) Nonlocal paying bank means a paying bank that is not a local paying bank with respect to the depositary bank.

(x) Nonproprietary ATM means an ATM that is not a proprietary ATM.

(y) [Reserved]

(z) Paying bank means—

(1) The bank by which a check is payable, unless the check is payable at another bank and is sent to the other bank for payment or collection;

(2) The bank at which a check is payable and to which it is sent for payment or collection;

(3) The Federal Reserve Bank or Federal Home Loan Bank by which a check is payable;

(4) The bank through which a check is payable and to which it is sent for payment or collection, if the check is not payable by a bank; or

(5) The state or unit of general local government on which a check is drawn and to which it is sent for payment or collection.

For purposes of subparts C and D, and in connection therewith, subpart A, paying bank also includes the bank through which a check is payable and to which the check is sent for payment or collection, regardless of whether the check is payable by another bank, and the bank whose routing number appears on a check in fractional or magnetic form and to which the check is sent for payment or collection.

NOTE: For purposes of subpart D of this part and, in connection therewith, subpart A, paying bank includes the Treasury of the United States or the United States Postal Service for a check that is payable by that entity and that is sent to that entity for payment or collection.

(aa) Proprietary ATM means an ATM that is—

(1) Owned or operated by, or operated exclusively for, the depositary bank;

(2) Located on the premises (including the outside wall) of the depositary bank; or

(3) Located within 50 feet of the premises of the depositary bank, and not identified as being owned or operated by another entity.

If more than one bank meets the owned or operated criterion of paragraph (aa)(1) of this section, the ATM is considered proprietary to the bank that operates it.

(bb) Qualified returned check means a returned check that is prepared for automated return to the depositary bank by placing the check in a carrier envelope or placing a strip on the check and encoding the strip or envelope in magnetic ink. A qualified returned check need not contain other elements of a check drawn on the depositary bank, such as the name of the depositary bank.

(cc) Returning bank means a bank (other than the paying or depositary bank) handling a returned check or notice in lieu of return. A returning bank is also a collecting bank for purposes of UCC 4–202(b).

(dd) Routing number means—

(1) The number printed on the face of a check in fractional form or in nine-digit form; or

(2) The number in a bank’s indorsement in fractional or nine-digit form.

(ee) Similarly situated bank means a bank of similar size, located in the same community, and with similar check handling activities as the paying bank or returning bank.

(ff) State means a state, the District of Columbia, Puerto Rico, or the U.S. Virgin Islands. For purposes of subpart D of this part and, in connection therewith, this subpart A, state also means Guam, American Samoa, the Trust Territory of the Pacific Islands, the Northern Mariana Islands, and any other territory of the United States.

(gg) Teller’s check means a check provided to a customer of a bank or acquired from a bank for remittance purposes, that is drawn by the bank, and drawn on another bank or payable through or at a bank.

(hh) Traveler’s check means an instrument for the payment of money that—

(1) Is drawn on or payable through or at a bank;

(2) Is designated on its face by the term traveler’s check or by any substantially similar term or is commonly known and marketed as a traveler’s
check by a corporation or bank that is
an issuer of traveler's checks;
(3) Provides for a specimen signature
of the purchaser to be completed at the
time of purchase; and
(4) Provides for a countersignature of
the purchaser to be completed at the
time of negotiation.

(ii) Uniform Commercial Code, Code,
or U.C.C. means the Uniform Commercial
Code as adopted in a state.
(jj) United States means the states, in-
cluding the District of Columbia, the
U.S. Virgin Islands, and Puerto Rico.
(kk) Unit of general local government
means any city, county, parish, town,
township, village, or other general pur-
pose political subdivision of a state.
The term does not include special pur-
pose units of government, such as
school districts or water districts.
(ll) Wire transfer means an uncondi-
tional order to a bank to pay a fixed or
determinable amount of money to a
beneficiary upon receipt or on a day
stated in the order, that is transmitted
by electronic or other means through
Fedwire, the Clearing House Interbank
Payments System, other similar net-
work, between banks, or on the books
of a bank. Wire transfer does not in-
clude an electronic fund transfer as de-
fined in section 903(6) of the Electronic
Fund Transfer Act (15 U.S.C. 1693a(6)).
(mm) Fedwire has the same meaning
as that set forth in §210.26(e) of this
chapter.
(nn) Good faith means honesty in fact
and observance of reasonable commer-
cial standards of fair dealing.
(oo) Interest compensation means an
amount of money calculated at the av-
erage of the Federal Funds rates pub-
lished by the Federal Reserve Bank of
New York for each of the days for
which interest compensation is pay-
able, divided by 360. The Federal Funds
rate for any day on which a published
rate is not available is the same as the
published rate for the last preceding
day for which there is a published rate.
(pp) Contractual branch, with respect
to a bank, means a branch of another
bank that accepts a deposit on behalf
of the first bank.
(qq) Claimant bank means a bank that
submits a claim for a recredit for a
substitute check to an indemnifying
bank under §229.55.
(rr) Collecting bank means any bank
handling a check for forward collect-
ion, except the paying bank.
(ss) Consumer means a natural person
who—
(1) With respect to a check handled
for forward collection, draws the check
on a consumer account; or
(2) With respect to a check handled
for return, deposits the check into or
cashes the check against a consumer
account.
(tt) Customer means a person having
an account with a bank.
(uu) Indemnifying bank means a bank
that provides an indemnity under
§229.53 with respect to a substitute
check.
(vv) Magnetic ink character recognition
line and MICR line mean the numbers,
which may include the routing number,
account number, check number, check
amount, and other information, that
are printed near the bottom of a check
in magnetic ink in accordance with
American National Standard Specifica-
tions for Placement and Location of
MICR Printing, X9.13 (hereinafter ANS
X9.13) for an original check and Amer-
ican National Standard Specifications
for an Image Replacement Document—
IRD, X9.100–140 (hereinafter ANS
X9.100–140) for a substitute check (un-
less the Board by rule or order deter-
mines that different standards apply).
(ww) Original check means the first
paper check issued with respect to a
particular payment transaction.
(xx) Paper or electronic representation
of a substitute check means any copy of
or information related to a substitute
check that a bank handles for forward
collection or return, charges to a cus-
tomer's account, or provides to a per-
son as a record of a check payment
made by the person.
(yy) Person means a natural person,
corporation, unincorporated company,
partnership, government unit or in-
strumentality, trust, or any other enti-
ty or organization.
(zz) Reconverting bank means—
(1) The bank that creates a sub-
stitute check; or
(2) With respect to a substitute check
that was created by a person that is
not a bank, the first bank that trans-
fers, presents, or returns that sub-
stitute check or, in lieu thereof, the
first paper or electronic representation of that substitute check.

(aaa) **Substitute check** means a paper reproduction of an original check that—

(1) Contains an image of the front and back of the original check;

(2) Bears a MICR line that, except as provided under ANS X9.100–140 (unless the Board by rule or order determines that a different standard applies), contains all the information appearing on the MICR line of the original check at the time that the original check was issued and any additional information that was encoded on the original check’s MICR line before an image of the original check was captured;

(3) Conforms in paper stock, dimension, and otherwise with ANS X9.100–140 (unless the Board by rule or order determines that a different standard applies); and

(4) Is suitable for automated processing in the same manner as the original check.

(bbb) **Sufficient copy and copy.** (1) A *sufficient copy* is a copy of an original check that accurately represents all of the information on the front and back of the original check as of the time the original check was truncated or is otherwise sufficient to determine whether or not a claim is valid.

(2) A *copy* of an original check means any paper reproduction of an original check, including a paper printout of an electronic image of the original check, a photocopy of the original check, or a substitute check.

(ccc) **Transfer and consideration.** The terms *transfer* and *consideration* have the meanings set forth in the Uniform Commercial Code and in addition, for purposes of subpart D—

(1) The term *transfer* with respect to a substitute check or a paper or electronic representation of a substitute check means delivery of the substitute check or other representation of the substitute check by a bank to a person other than a bank; and

(2) A bank that transfers a substitute check or a paper or electronic representation of a substitute check directly to a person other than a bank has received *consideration* for the substitute check or other paper or electronic representation of the substitute check if it has charged, or has the right to charge, the person’s account or otherwise has received value for the original check, a substitute check, or a representation of the original check or substitute check.

(ddd) **Truncate** means to remove an original check from the forward collection or return process and send to a recipient, in lieu of such original check, a substitute check or, by agreement, information relating to the original check (including data taken from the MICR line of the original check or an electronic image of the original check), whether with or without the subsequent delivery of the original check.

(eee) **Truncating bank** means—

(1) The bank that truncates the original check; or

(2) If a person other than a bank truncates the original check, the first bank that transfers, presents, or returns, in lieu of such original check, a substitute check or, by agreement with the recipient, information relating to the original check (including data taken from the MICR line of the original check or an electronic image of the original check), whether with or without the subsequent delivery of the original check.

(ff) **Remotely created check** means a check that is not created by the paying bank and that does not bear a signature applied, or purported to be applied, by the person on whose account the check is drawn. For purposes of this definition, “account” means an account as defined in paragraph (a) of this section as well as a credit or other arrangement that allows a person to draw checks that are payable by, through, or at a bank.

§ 229.3 Administrative enforcement.

(a) **Enforcement agencies.** Compliance with this part is enforced under—

(1) Section 8 of the Federal Deposit Insurance Act (12 U.S.C. 1818 et seq.) in the case of—
§ 229.10 Next-day availability.

(a) Cash deposits. (1) A bank shall make funds deposited in an account by cash available for withdrawal not later than the business day after the banking day on which the cash is deposited, if the deposit is made in person to an employee of the depositary bank.

(2) A bank shall make funds deposited in an account by cash available for withdrawal not later than the second business day after the banking day on which the cash is deposited, if the deposit is not made in person to an employee of the depositary bank.

(b) Electronic payments—(1) In general. A bank shall make funds received for deposit in an account by an electronic payment available for withdrawal not later than the business day after the banking day on which the bank received the electronic payment.
When an electronic payment is received. An electronic payment is received when the bank receiving the payment has received both—

(i) Payment in actually and finally collected funds; and

(ii) Information on the account and amount to be credited.

A bank receives an electronic payment only to the extent that the bank has received payment in actually and finally collected funds.

(c) Certain check deposits—

(1) General rule. A depositary bank shall make funds deposited in an account by check available for withdrawal not later than the business day after the banking day on which the funds are deposited, in the case of—

(i) A check drawn on the Treasury of the United States and deposited in an account held by a payee of the check;

(ii) A U.S. Postal Service money order deposited—

(A) In an account held by a payee of the money order; and

(B) In person to an employee of the depositary bank;

(iii) A check drawn on a Federal Reserve Bank or Federal Home Loan Bank and deposited—

(A) In an account held by a payee of the check; and

(B) In person to an employee of the depositary bank;

(iv) A check drawn by a state or a unit of general local government and deposited—

(A) In an account held by a payee of the check;

(B) In a depositary bank located in the state that issued the check, or the same state as the unit of general local government that issued the check;

(C) In person to an employee of the depositary bank; and

(D) With a special deposit slip or deposit envelope, if such slip or envelope is required by the depositary bank under paragraph (c)(3) of this section.

(vi) A check deposited in a branch of the depositary bank and drawn on the same or another branch of the same bank if both branches are located in the same state or the same check processing region; and,

(vii) The lesser of—

(A) $100, or

(B) The aggregate amount deposited on any one banking day to all accounts of the customer by check or checks not subject to next-day availability under paragraphs (c)(1) (i) through (vi) of this section.

(2) Checks not deposited in person. A depositary bank shall make funds deposited in an account by check or checks available for withdrawal not later than the second business day after the banking day on which funds are deposited, in the case of a check deposited described in and that meets the requirements of paragraphs (c)(1) (ii), (iii), (iv), and (v), of this section, except that it is not deposited in person to an employee of the depositary bank.

(3) Special deposit slip. (i) As a condition to making the funds available for withdrawal in accordance with this section, a depositary bank may require that a state or local government check or a cashier’s, certified, or teller’s check be deposited with a special deposit slip or deposit envelope that identifies the type of check.

(ii) If a depositary bank requires the use of a special deposit slip or deposit envelope, the bank must either provide the special deposit slip or deposit envelope to its customers or inform its customers how the slip or envelope may be prepared or obtained and make the slip or envelope reasonably available.

§ 229.11 [Reserved]

§ 229.12 Availability schedule.

(a) Effective date. The availability schedule contained in this section is effective September 1, 1990.

(b) Local checks and certain other checks. Except as provided in paragraphs (d), (e), and (f) of this section, a depository bank shall make funds deposited in an account by a check available for withdrawal not later than the second business day following the

§ 229.11 [Reserved]

§ 229.12 Availability schedule.

(a) Effective date. The availability schedule contained in this section is effective September 1, 1990.

(b) Local checks and certain other checks. Except as provided in paragraphs (d), (e), and (f) of this section, a depository bank shall make funds deposited in an account by a check available for withdrawal not later than the second business day following the
§ 229.13 Exceptions.

(a) New accounts. For purposes of this paragraph, checks subject to §229.10(c)(1)(v) include traveler’s checks.

(1) A deposit in a new account—
   (i) Is subject to the requirements of §229.10 (a) and (b) to make funds from deposits by cash and electronic payments available for withdrawal on the business day following the banking day of deposit or receipt;
   (ii) Is subject to the requirements of §229.10(c)(1)(i) through (v) and §229.10(c)(2) only with respect to the first $5,000 of funds deposited on any one banking day; but the amount of the deposit in excess of $5,000 shall be available for withdrawal not later than banking day on which funds are deposited, in the case of—
   (1) A local check;
   (2) A check drawn on the Treasury of the United States that is not governed by the availability requirements of §229.10(c);
   (3) A U.S. Postal Service money order that is not governed by the availability requirements of §229.10(c); and
   (4) A check drawn on a Federal Reserve Bank or Federal Home Loan Bank; a check drawn by a state or unit of general local government; or a cashier’s, certified, or teller’s check; if any check referred to in this paragraph (b)(4) is a local check that is not governed by the availability requirements of §229.10(c).

(c) Nonlocal checks—(1) In general. Except as provided in paragraphs (d), (e), and (f) of this section, a depositary bank shall make funds deposited in an account by a check available for withdrawal not later than the fifth business day following the banking day on which funds are deposited, in the case of—

   (i) A nonlocal check; and
   (ii) A check drawn on a Federal Reserve Bank or Federal Home Loan Bank; a check drawn by a state or unit of general local government; a cashier’s, certified, or teller’s check; or a check deposited in a branch of the depositary bank and drawn on the same or another branch of the same bank, if any check referred to in this paragraph (c)(1)(ii) is a nonlocal check that is not governed by the availability requirements of §229.10(c).

(2) Nonlocal checks specified in appendix B–2 to this part must be made available for withdrawal not later than the times prescribed in that appendix.

(d) Time period adjustment for withdrawal by cash or similar means. A depositary bank may extend by one business day the time that funds deposited in an account by one or more checks subject to paragraphs (b), (c), or (f) of this section are available for withdrawal by cash or similar means. Similar means include electronic payment, issuance of a cashier’s or teller’s check, or certification of a check, or other irrevocable commitment to pay, but do not include the granting of credit to a bank, a Federal Reserve Bank, or a Federal Home Loan Bank that presents a check to the depositary bank for payment. A depositary bank shall, however, make $400 of these funds available for withdrawal by cash or similar means not later than 5:00 p.m. on the business day on which the funds are available under paragraphs (b), (c), or (f) of this section. This $400 is in addition to the $100 available under §229.10(c)(1)(vii).

(e) Extension of schedule for certain deposits in Alaska, Hawaii, Puerto Rico, and the U.S. Virgin Islands. The depositary bank may extend the time periods set forth in this section by one business day in the case of any deposit, other than a deposit described in §229.10, that is—

(1) Deposited in an account at a branch of a depositary bank if the branch is located in Alaska, Hawaii, Puerto Rico, or the U.S. Virgin Islands; and

(2) Deposited by a check drawn on or payable at or through a paying bank not located in the same state as the depositary bank.

(f) Deposits at nonproprietary ATMs. A depositary bank shall make funds deposited in an account at a nonproprietary ATM by cash or check available for withdrawal not later than the fifth business day following the banking day on which the funds are deposited.

§ 229.13

the ninth business day following the banking day on which funds are deposited; and

(iii) Is not subject to the availability requirements of §§229.10(c)(1)(vi) and (vii) and 229.12.

(2) An account is considered a new account during the first 30 calendar days after the account is established. An account is not considered a new account if each customer on the account has had, within 30 calendar days before the account is established, another account at the depositary bank for at least 30 calendar days.

(b) Large deposits. Sections 229.10(c) and 229.12 do not apply to the aggregate amount of deposits by one or more checks to the extent that the aggregate amount is in excess of $5,000 on any one banking day. For customers that have multiple accounts at a depositary bank, the bank may apply this exception to the aggregate deposits to all accounts held by the customer, even if the customer is not the sole holder of the accounts and not all of the holders of the accounts are the same.

(c) Redeposited checks. Sections 229.10(c) and 229.12 do not apply to a check that has been returned unpaid and redeposited by the customer or the depositary bank. This exception does not apply—

(1) To a check that has been returned due to a missing indorsement and redeposited after the missing indorsement has been obtained, if the reason for return indication on the check states that it was returned due to a missing indorsement; or

(2) To a check that has been returned because it was post dated, if the reason for return indicated on the check states that it was returned because it was post dated, and if the check is no longer postdated when redeposited.

(d) Repeated overdrafts. If any account or combination of accounts of a depositary bank’s customer has been repeatedly overdrawn, then for a period of six months after the last such overdraft, §§229.10(c) and 229.12 do not apply to any of the accounts. A depositary bank may consider a customer’s account to be repeatedly overdrawn if—

(1) On six or more banking days within the preceding six months, the account balance would have become negative if checks or other charges to the account had been paid; or

(2) On two or more banking days within the preceding six months, the account balance is negative, or the account balance would have become negative, in the amount of $5,000 or more, if checks or other charges to the account had been paid.

(e) Reasonable cause to doubt collectibility—(1) In general. Sections 229.10(c) and 229.12 do not apply to a check deposited in an account at a depositary bank if the depositary bank has reasonable cause to believe that the check is uncollectible from the paying bank. Reasonable cause to believe a check is uncollectible requires the existence of facts that would cause a well-grounded belief in the mind of a reasonable person. Such belief shall not be based on the fact that the check is of a particular class or is deposited by a particular class of persons. The reason for the bank’s belief that the check is uncollectible shall be included in the notice required under paragraph (g) of this section.

(2) Overdraft and returned check fees. A depositary bank that extends the time when funds will be available for withdrawal as described in paragraph (e)(1) of this section, and does not furnish the depositor with written notice at the time of deposit shall not assess any fees for any subsequent overdrafts (including use of a line of credit) or return of checks of other debits to the account, if—

(i) The overdraft or return of the check would not have occurred except for the fact that the deposited funds were delayed under paragraph (e)(1) of this section; and

(ii) The deposited check was paid by the paying bank.

Notwithstanding the foregoing, the depositary bank may assess an overdraft or returned check fee if it includes a notice concerning overdraft and returned check fees with the notice of exception required in paragraph (g) of this section and, when required, refunds any such fees upon the request of the customer. The notice must state that the customer may be entitled to a refund of overdraft or returned check
fees that are assessed if the check subject to the exception is paid and how to obtain a refund.

(f) Emergency conditions. Sections 229.10(c) and 229.12 do not apply to funds deposited by check in a depositary bank in the case of—

(1) An interruption of communications or computer or other equipment facilities;

(2) A suspension of payments by another bank;

(3) A war; or

(4) An emergency condition beyond the control of the depositary bank, if the depositary bank exercises such diligence as the circumstances require.

(g) Notice of exception—(1) In general. Subject to paragraphs (g)(2) and (g)(3) of this section, when a depositary bank extends the time when funds will be available for withdrawal based on the application of an exception contained in paragraphs (b) through (e) of this section, it must provide the depositor with a written notice.

(i) The notice shall include the following information—

(A) A number or code, which need not exceed four digits, that identifies the customer's account;

(B) The date of the deposit;

(C) The amount of the deposit that is being delayed;

(D) The reason the exception was invoked; and

(E) The time period within which the funds will be available for withdrawal.

(ii) Timing of notice. The notice shall be provided to the depositor at the time of the deposit, unless the deposit is not made in person to an employee of the depositary bank, or, if the facts upon which a determination to invoke one of the exceptions in paragraphs (b) through (e) of this section to delay a deposit only become known to the depositary bank after the time of the deposit. If the notice is not given at the time of the deposit, the depositary bank shall mail or deliver the notice to the customer as soon as practicable, but no later than the first business day following the day the facts become known to the depositary bank, or the deposit is made, whichever is later.

(2) One-time exception notice. In lieu of providing notice pursuant to paragraph (g)(1) of this section, a depositary bank that extends the time when the funds deposited in a nonconsumer account will be available for withdrawal based on an exception contained in paragraph (b) or (c) of this section may provide a single notice to the customer that includes the following information—

(i) The reason(s) the exception may be invoked; and

(ii) The time period within which deposits subject to the exception generally will be available for withdrawal.

This one-time notice shall be provided only if each type of exception cited in the notice will be invoked for most check deposits in the account to which the exception could apply. This notice shall be provided at or prior to the time notice must be provided under paragraph (g)(1)(ii) of this section.

(3) Notice of repeated overdrafts exception. In lieu of providing notice pursuant to paragraph (g)(1) of this section, a depositary bank that extends the time when funds deposited in an account will be available for withdrawal based on the exception contained in paragraph (d) of this section may provide a notice to the customer for each time period during which the exception will be in effect. The notice shall include the following information—

(i) The account number of the customer;

(ii) The fact that the availability of funds deposited in the customer's account will be delayed because the repeated overdrafts exception will be invoked;

(iii) The time period within which deposits subject to the exception generally will be available for withdrawal; and

(iv) The time period during which the exception will apply.

This notice shall be provided at or prior to the time notice must be provided under paragraph (g)(1)(ii) of this section and only if the exception cited in the notice will be invoked for most check deposits in the account.

(4) Emergency conditions exception notice. When a depositary bank extends the time when funds will be available for withdrawal based on the application of the emergency conditions exception contained in paragraph (f) of this section, it must provide the depositor with notice in a reasonable
form and within a reasonable time given the circumstances. The notice shall include the reason the exception was invoked and the time period within which funds shall be made available for withdrawal, unless the depositary bank, in good faith, does not know at the time the notice is given the duration of the emergency and, consequently, when the funds must be made available. The depositary bank is not required to provide a notice if the funds subject to the exception become available before the notice must be sent.

(5) Record retention. A depositary bank shall retain a record, in accordance with §229.21(g), of each notice provided pursuant to its application of the reasonable cause exception under paragraph (e) of this section, together with a brief statement of the facts giving rise to the bank’s reason to doubt the collectibility of the check.

(h) Availability of deposits subject to exceptions. (1) If an exception contained in paragraphs (b) through (f) of this section applies, the depositary bank may extend the time periods established under §§229.10(c) and 229.12 by a reasonable period of time.

(2) If a depositary bank invokes an exception contained in paragraphs (b) through (e) of this section with respect to a check described in §229.10(c)(1) through (v) or §229.10(c)(2), it shall make the funds available for withdrawal not later than a reasonable period after the day the funds would have been required to be made available had the check been subject to 229.12.

(3) If a depositary bank invokes an exception under paragraph (f) of this section based on an emergency condition, the depositary bank shall make the funds available for withdrawal not later than a reasonable period after the emergency has ceased or the period established in §§229.10(c) and 229.12, whichever is later.

(4) For the purposes of this section, a ‘reasonable period’ is an extension of up to one business day for checks described in §229.10(c)(1)(vi), five business days for checks described in §229.12(b)(1) through (4), and six business days for checks described in §229.12(c)(1) and (2) or §229.12(f). A longer extension may be reasonable, but the bank has the burden of so establishing.

slips, must be in a form that the customer may keep. The disclosures shall be grouped together and shall not contain any information not related to the disclosures required by this subpart. If contained in a document that sets forth other account terms, the disclosures shall be highlighted within the document by, for example, use of a separate heading.

(b) Uniform reference to day of availability. In its disclosure, a bank shall describe funds as being available for withdrawal on "the business day after" the day of deposit. In this calculation, the first business day is the business day following the banking day the deposit was received, and the last business day is the day on which the funds are made available.

c) Multiple accounts and multiple account holders. A bank need not give multiple disclosures to a customer that holds multiple accounts if the accounts are subject to the same availability policies. Similarly, a bank need not give separate disclosures to each customer on a jointly held account.

d) Dormant or inactive accounts. A bank need not give availability disclosures to a customer that holds a dormant or inactive account.

§ 229.16 Specific availability policy disclosure.

(a) General. To meet the requirements of a specific availability policy disclosure under §§ 229.17 and 229.18(d), a bank shall provide a disclosure describing the bank’s policy as to when funds deposited in an account are available for withdrawal. The disclosure must reflect the policy followed by the bank in most cases. A bank may impose longer delays on a case-by-case basis or by invoking one of the exceptions in § 229.13, provided this is reflected in the disclosure.

(b) Content of specific availability policy disclosure. The specific availability policy disclosure shall contain the following, as applicable—

(1) A summary of the bank’s availability policy;

(2) A description of any categories of deposits or checks used by the bank when it delays availability (such as local or nonlocal checks); how to determine the category to which a particular deposit or check belongs; and when each category will be available for withdrawal (including a description of the bank’s business days and when a deposit is considered received); 1

(3) A description of any of the exceptions in § 229.13 that may be invoked by the bank, including the time following a deposit that funds generally will be available for withdrawal and a statement that the bank will notify the customer if the bank invokes one of the exceptions;

(4) A description, as specified in paragraph (c)(1) of this section, of any case-by-case policy of delaying availability that may result in deposited funds being available for withdrawal later than the time periods stated in the bank’s availability policy; and

(5) A description of how the customer can differentiate between a proprietary and a nonproprietary ATM, if the bank makes funds from deposits at nonproprietary ATMs available for withdrawal later than funds from deposits at proprietary ATMs.

(c) Longer delays on a case-by-case basis—

(1) Notice in specific policy disclosure. A bank that has a policy of making deposited funds available for withdrawal sooner than required by this subpart may extend the time when funds are available up to the time periods allowed under this subpart on a case-by-case basis, provided the bank includes the following in its specific policy disclosure—

1 A bank that distinguishes in its disclosure between local and nonlocal checks based on the routing number on the check must disclose that certain checks, such as some credit union share drafts that are payable by one bank but payable through another bank, will be treated as local or nonlocal checks based upon the location of the bank by which they are payable and not on the basis of the location of the bank whose routing number appears on the check. A bank that makes funds from nonlocal checks available for withdrawal within the time periods required for local checks under §§ 229.12 and 229.13 is not required to provide this disclosure on payable-through checks to its customers. The statement concerning payable-through checks must describe how the customer can determine whether these checks will be treated as local or nonlocal, or state that special rules apply to such checks and that the customer may ask about the availability of these checks.
(i) A statement that the time when deposited funds are available for withdrawal may be extended in some cases, and the latest time following a deposit that funds will be available for withdrawal;

(ii) A statement that the bank will notify the customer if funds deposited in the customer’s account will not be available for withdrawal until later than the time periods stated in the bank’s availability policy; and

(iii) A statement that customers should ask if they need to be sure about when a particular deposit will be available for withdrawal.

(2) Notice at time of case-by-case delay—

(i) In general. When a depositary bank extends the time when funds will be available for withdrawal on a case-by-case basis, it must provide the depositor with a written notice. The notice shall include the following information—

(A) A number or code, which need not exceed four digits, that identifies the customer’s account.

(B) The date of the deposit;

(C) The amount of the deposit that is being delayed; and

(D) The day the funds will be available for withdrawal.

(ii) Timing of notice. The notice shall be provided to the depositor at the time of the deposit, unless the deposit is not made in person to an employee of the depositary bank or the decision to extend the time when the deposited funds will be available is made after the time of the deposit. If notice is not given at the time of the deposit, the depositary bank shall mail or deliver the notice to the customer not later than the first business day following the banking day the deposit is made.

(3) Overdraft and returned check fees. A depositary bank that extends the time when funds will be available for withdrawal on a case-by-case basis and does not furnish the depositor with written notice at the time of deposit shall not assess any fees for any subsequent overdrafts (including use of a line of credit) or return of checks or other debits to the account, if—

(i) The overdraft or return of the check or other debit would not have occurred except for the fact that the deposited funds were delayed under paragraph (c)(1) of this section; and

(ii) The deposited check was paid by the paying bank.

Notwithstanding the foregoing, the depositary bank may assess an overdraft or returned check fee if it includes a notice concerning overdraft and returned check fees with the notice required in paragraph (c)(2) of this section and, when required, refunds any such fees upon the request of the customer. The notice must state that the customer may be entitled to a refund of overdraft or returned check fees that are assessed if the check subject to the delay is paid and how to obtain a refund.

(d) Credit union notice of interest payment policy. If a bank described in §229.2(e)(4) begins to accrue interest or dividends on all deposits made in an interest-bearing account, including cash deposits, at a later time than the day specified in §229.14(a), the bank’s specific policy disclosures shall contain an explanation of when interest or dividends on deposited funds begin to accrue.

§229.18 Additional disclosure requirements.

(a) Deposit slips. A bank shall include on all preprinted deposit slips furnished to its customers a notice that deposits may not be available for immediate withdrawal.

(b) Locations where employees accept consumer deposits. A bank shall post in a conspicuous place in each location where its employees receive deposits to consumer accounts a notice that sets forth the time periods applicable to the availability of funds deposited in a consumer account.

(c) Automated teller machines. (1) A depositary bank shall post or provide a
(2) A depositary bank that operates an off-premises ATM from which deposits are removed not more than two times each week, as described in §229.19(a)(4), shall disclose at or on the ATM the days on which deposits made at the ATM will be considered received.

(d) Upon request. A bank shall provide to any person, upon oral or written request, a notice containing the applicable specific availability policy disclosure described in §229.16.

(e) Changes in policy. A bank shall send a notice to holders of consumer accounts at least 30 days before implementing a change to the bank’s availability policy regarding such accounts, except that a change that expedites the availability of funds may be disclosed not later than 30 days after implementation.

§229.19 Miscellaneous.

(a) When funds are considered deposited. For the purposes of this subpart—

(1) Funds deposited at a staffed facility, ATM, or contractual branch are considered deposited when they are received at the staffed facility, ATM, or contractual branch;

(2) Funds mailed to the depositary bank are considered deposited on the day they are received by the depositary bank;

(3) Funds deposited to a night depository, lock box, or similar facility are considered deposited on the day on which the deposit is removed from such facility and is available for processing by the depositary bank;

(4) Funds deposited at an ATM that is not on, or within 50 feet of, the premises of the depositary bank are considered deposited on the day the funds are removed from the ATM, if funds normally are removed from the ATM not more than two times each week; and

(5) Funds may be considered deposited on the next banking day, in the case of funds that are deposited—

(i) On a day that is not a banking day for the depositary bank; or

(ii) After a cut-off hour set by the depositary bank for the receipt of deposits of 2:00 p.m. or later, or, for the receipt of deposits at ATMs, contractual branches, or off-premise facilities, of 12:00 noon or later. Different cut-off hours later than these times may be established for the receipt of different types of deposits, or receipt of deposits at different locations.

(b) Availability at start of business day. Except as otherwise provided in §229.12(d), if any provision of this subpart requires that funds be made available for withdrawal on any business day, the funds shall be available for withdrawal by the later of:

(1) 9:00 a.m. (local time of the depositary bank); or

(2) The time the depositary bank’s teller facilities (including ATMs) are available for customer account withdrawals.

(c) Effect on policies of depositary bank. This part does not—

(1) Prohibit a depositary bank from making funds available to a customer for withdrawal in a shorter period of time than the time required by this subpart;

(2) Affect a depositary bank’s right—

(i) To accept or reject a check for deposit;

(ii) To revoke any settlement made by the depositary bank with respect to a check accepted by the bank for deposit, to charge back the customer’s account for the amount of a check based on the return of the check or receipt of a notice of nonpayment of the check, or to claim a refund of such credit; and

(iii) To charge back funds made available to its customer for an electronic payment for which the bank has not received payment in actually and finally collected funds;

(3) Require a depositary bank to open or otherwise to make its facilities available for customer transactions on a given business day; or

(4) Supersede any policy of a depositary bank that limits the amount of cash a customer may withdraw from its account on any one day, if that policy—

(i) Is not dependent on the time the funds have been deposited in the account, as long as the funds have been on deposit for the time period specified in §§229.10, 229.12, or 229.13; and

VerDate Nov<24>2008 13:02 Mar 12, 2009 Jkt 217037 PO 00000 Frm 00670 Fmt 8010 Sfmt 8010 Y:\SGML\217037.XXX 217037cprice-sewell on PRODPC61 with CFR
(ii) In the case of withdrawals made in person to an employee of the depository bank—
   (A) Is applied without discrimination to all customers of the bank; and
   (B) Is related to security, operating, or bonding requirements of the depository bank.

(d) Use of calculated availability. A depository bank may provide availability to its nonconsumer accounts based on a sample of checks that represents the average composition of the customer’s deposits, if the terms for availability based on the sample are equivalent to or more prompt than the availability requirements of this subpart.

(e) Holds on other funds. (1) A depository bank that receives a check for deposit in an account may not place a hold on any funds of the customer at the bank, where—
   (i) The amount of funds that are held exceeds the amount of the check; or
   (ii) The funds are not made available for withdrawal within the times specified in §§229.10, 229.12, and 229.13.

   (2) A depository bank that cashes a check for a customer over the counter, other than a check drawn on the depository bank, may not place a hold on funds in an account of the customer at the bank, if—
   (i) The amount of funds that are held exceeds the amount of the check; or
   (ii) The funds are not made available for withdrawal within the times specified in §§229.10, 229.12, and 229.13.

(f) Employee training and compliance. Each bank shall establish procedures to ensure that the bank complies with the requirements of this subpart, and shall provide each employee who performs duties subject to the requirements of this subpart with a statement of the procedures applicable to that employee.

(g) Effect of merger transaction—(1) In general. For purposes of this subpart, except for the purposes of the new accounts exception of §229.13(a), and when funds are considered deposited under §229.19(a), two or more banks that have engaged in a merger transaction may be considered to be separate banks for a period of one year following the consummation of the merger transaction.

(2) Merger transactions on or after July 1, 1998, and before March 1, 2000. If banks have consummated a merger transaction on or after July 1, 1998, and before March 1, 2000, the merged banks may be considered separate banks until March 1, 2001.

§ 229.20  Relation to state law.

(a) In general. Any provision of a law or regulation of any state in effect on or before September 1, 1989, that requires funds deposited in an account at a bank chartered by the state to be made available for withdrawal in a shorter time than the time provided in subpart B, and, in connection therewith, subpart A, shall—
   (1) Supersede the provisions of the EFA Act and subpart B, and, in connection therewith, subpart A, to the extent the provisions relate to the time by which funds deposited or received for deposit in an account are available for withdrawal; and
   (2) Apply to all federally insured banks located within the state.

No amendment to a state law or regulation governing the availability of funds that becomes effective after September 1, 1989, shall supersede the EFA Act and subpart B, and, in connection therewith, subpart A, but unamended provisions of state law shall remain in effect.

(b) Preemption of inconsistent law. Except as provided in paragraph (a), the EFA Act and subpart B, and, in connection therewith, subpart A, supersede any provision of inconsistent state law.

(c) Standards for preemption. A provision of a state law in effect on or before September 2, 1989, is not inconsistent with the EFA Act, or subpart B, or in connection therewith, subpart A, if it requires that funds shall be available in a shorter period of time than the time provided in this subpart. Inconsistency with the EFA Act and subpart B, and in connection therewith, subpart A, may exist when state law—
   (1) Permits a depository bank to make funds deposited in an account by cash, electronic payment, or check
available for withdrawal in a longer period of time than the maximum period of time permitted under subpart B, and, in connection therewith, subpart A; or

(2) Provides for disclosures or notices concerning funds availability relating to accounts.

(d) Preemption determinations. The Board may determine, upon the request of any state, bank, or other interested party, whether the EFA Act and subpart B, and, in connection therewith, subpart A, preempt provisions of state laws relating to the availability of funds.

(e) Procedures for preemption determinations. A request for a preemption determination shall include the following—

(1) A copy of the full text of the state law in question, including any implementing regulations or judicial interpretations of that law; and

(2) A comparison of the provisions of state law with the corresponding provisions in the EFA Act and subparts A and B of this part, together with a discussion of the reasons why specific provisions of state law are either consistent or inconsistent with corresponding sections of the EFA Act and subparts A and B of this part.

A request for a preemption determination shall be addressed to the Secretary, Board of Governors of the Federal Reserve System.

§ 229.30 Paying bank’s responsibility for return of checks.

(a) Return of checks. If a paying bank determines not to pay a check, it shall return the check in an expeditious manner as provided in either paragraph (a)(1) or (a)(2) of this section.

(1) Two-day/four-day test. A paying bank returns a check in an expeditious manner if it sends the returned check in a manner such that the check would normally be received by the depositary bank not later than 4:00 p.m. (local time of the depositary bank) of—

(i) The second business day following the banking day on which the check was presented to the paying bank, if the paying bank is located in the same check processing region as the depositary bank; or

(ii) The fourth business day following the banking day on which the check was presented to the paying bank, if the paying bank is not located in the same check processing region as the depositary bank.

(b) Unidentifiable depositary bank. A paying bank that is unable to identify the depositary bank with respect to a check may send the returned check to any bank that handled the check for forward collection even if that bank does not agree to handle the check expeditiously under §229.31(a). A paying bank that is unable to identify the depositary bank with respect to a check may send the returned check to any bank that handled the check for forward collection even if that bank does not agree to handle the check expeditiously under §229.31(a). A paying bank that is unable to identify the depositary bank with respect to a check may send the returned check to any bank that handled the check for forward collection even if that bank does not agree to handle the check expeditiously under §229.31(a). A paying bank that is unable to identify the depositary bank with respect to a check may send the returned check to any bank that handled the check for forward collection even if that bank does not agree to handle the check expeditiously under §229.31(a). A paying bank that is unable to identify the depositary bank with respect to a check may send the returned check to any bank that handled the check for forward collection even if that bank does not agree to handle the check expeditiously under §229.31(a). A paying bank that is unable to identify the depositary bank with respect to a check may send the returned check to any bank that handled the check for forward collection even if that bank does not agree to handle the check expeditiously under §229.31(a). A paying bank that is unable to identify the depositary bank with respect to a check may send the returned check to any bank that handled the check for forward collection even if that bank does not agree to handle the check expeditiously under §229.31(a). A paying bank that is unable to identify the depositary bank with respect to a check may send the returned check to any bank that handled the check for forward collection even if that bank does not agree to handle the check expeditiously under §229.31(a). A paying bank that is unable to identify the depositary bank with respect to a check may send the returned check to any bank that handled the check for forward collection even if that bank does not agree to handle the check expeditiously under §229.31(a). A paying bank that is unable to identify the depositary bank with respect to a check may send the returned check to any bank that handled the check for forward collection even if that bank does not agree to handle the check expeditiously under §229.31(a). A paying bank that is unable to identify the depositary bank with respect to a check may send the returned check to any bank that handled the check for forward collection even if that bank does not agree to handle the check expeditiously under §229.31(a). A paying bank that is unable to identify the depositary bank with respect to a check may send the returned check to any bank that handled the check for forward collection even if that bank does not agree to handle the check expeditiously under §229.31(a). A paying bank that is unable to identify the depositary bank with respect to a check may send the returned check to any bank that handled the check for forward collection even if that bank does not agree to handle the check expeditiously under §229.31(a). A paying bank that is unable to identify the depositary bank with respect to a check may send the returned check to any bank that handled the check for forward collection even if that bank does not agree to handle the check expeditiously under §229.31(a). A paying bank that is unable to identify the depositary bank with respect to a check may send the returned check to any bank that handled the check for forward collection even if that bank does not agree to handle the check expeditiously under §229.31(a). A paying bank that is unable to identify the depositary bank with respect to a check may send the returned check to any bank that handled the check for forward collection even if that bank does not agree to handle the check expeditiously under §229.31(a). A paying bank that is unable to identify the depositary bank with respect to a check may send the returned check to any bank that handled the check for forward collection even if that bank does not agree to handle the check expeditiously under §229.31(a). A paying bank that is unable to identify the depositary bank with respect to a check may send the returned check to any bank that handled the check for forward collection even if that bank does not agree to handle the check expeditiously under §229.31(a). A paying bank that is unable to identify the depositary bank with respect to a check may send the returned check to any bank that handled the check for forward collection even if that bank does not agree to handle the check expeditiously under §229.31(a). A paying bank that is unable to identify the depositary bank with respect to a check may send the returned check to any bank that handled the check for forward collection even if that bank does not agree to handle the check expeditiously under §229.31(a). A paying bank that is unable to identify the depositary bank with respect to a check may send the returned check to any bank that handled the check for forward collection even if that bank does not agree to handle the check expeditiously under §229.31(a). A paying bank that is unable to identify the depositary bank with respect to a check may send the returned check to any bank that handled the check for forward collection even if that bank does not agree to handle the check expeditiously under §229.31(a). A paying bank that is unable to identify the depositary bank with respect to a check may send the returned check to any bank that handled the check for forward collection even if that bank does not agree to handle the check expeditiously under §229.31(a). A paying bank that is unable to identify the depositary bank with respect to a check may send the returned check to any bank that handled the check for forward collection even if that bank does not agree to handle the check expeditiously under §229.31(a). A paying bank that is unable to identify the depositary bank with respect to a check may send the returned check to any bank that handled the check for forward collection even if that bank does not agree to handle the check expeditiously under §229.31(a). A paying bank that is unable to identify the depositary bank with respect to a check may send the returned check to any bank that handled the check for forward collection even if that bank does not agree to handle the check expeditiously under §229.31(a). A paying bank that is unable to identify the depositary bank with respect to a check may send the returned check to any bank that handled the check for forward collection even if that bank does not agree to handle the check expeditiously under §229.31(a). A paying bank that is unable to identify the depositary bank with respect to a check may send the returned check to any bank that handled the check for forward collection even if that bank does not agree to handle the check expeditiously under §229.31(a). A paying bank that is unable to identify the depositary bank with respect to a check may send the returned check to any bank that handled the check for forward collection even if that bank does not agree to handle the check expeditiously under §229.31(a). A paying bank that is unable to identify the depositary bank with respect to a check may send the returned check to any bank that handled the check for forward collection even if that bank does not agree to handle the check expeditiously under §229.31(a). A paying bank that is unable to identify the depositary bank with respect to a check may send the returned check to any bank that handled the check for forward collection even if that bank does not agree to handle the check expeditiously under §229.31(a). A paying bank that is unable to identify the depositary bank with respect to a check may send the returned check to any bank that handled the check for forward collection even if that bank does not agree to handle the check expeditiously under §229.31(a). A paying bank that is unable to identify the depositary bank with respect to a check may send the returned check to any bank that handled the check for forward collection even if that bank does not agree to handle the check expeditiously under §229.31(a). A paying bank that is unable to identify the depositary bank with respect to a check may send the returned check to any bank that handled the check for forward collection even if that bank does not agree to handle the check expeditiously under §229.31(a). A paying bank that is unable to identify the depositary bank with respect to a check may send the returned check to any bank that handled the check for forward collection even if that bank does not agree to handle the check expeditiously under §229.31(a). A paying bank that is unable to identify the depositary bank with respect to a check may send the returned check to any bank that handled the check for forward collection even if that bank does not agree to handle the check expeditiously under §229.31(a). A paying bank that is unable to identify the depositary bank with respect to a check may send the returned check to any bank that handled the check for forward collection even if that bank does not agree to handle the check expeditiously under §229.31(a). A paying bank that is unable to identify the depositary bank with respect to a check may send the returned check to any bank that handled the check for forward collection even if that bank does not agree to handle the check expeditiously under §229.31(a). A paying bank that is unable to identify the depositary bank with respect to a check may send the returned check to any bank that handled the check for forward collection even if that bank does not agree to handle the check expeditiously under §229.31(a).
§ 229.31 Returning bank’s responsibility for return of checks.

(a) Return of checks. A returning bank shall return a returned check in an expeditious manner as provided in either paragraph (a)(1) or (a)(2) of this section.

(1) Two-day/four-day test. A returning bank returns a check in an expeditious manner if it sends the returned check in a manner such that the check would normally be received by the depositary bank not later than 4:00 p.m. (local time) of—

(i) The second business day following the banking day on which the check was presented to the paying bank if the paying bank is located in the same check processing region as the depositary bank; or

(ii) The fourth business day following the banking day on which the check was presented to the paying bank if the paying bank is not located in the same check processing region as the depositary bank.

(b) Identification of returned check. A paying bank returning a check shall clearly indicate on the front of the check that it is a returned check and the reason for return. If the check is a substitute check, the paying bank shall place this information within the image of the original check that appears on the front of the substitute check.

(c) Depositary bank without accounts. The expeditious return requirements of paragraph (a) of this section do not apply to checks deposited in a depositary bank that does not maintain accounts.

(d) Notice in lieu of return. If a check is unavailable for return, the paying bank may send in its place a copy of the front and back of the returned check, or, if no such copy is available, a written notice of nonpayment containing the information specified in §229.33(b). The copy or notice shall clearly state that it constitutes a notice in lieu of return. A notice in lieu of return is considered a returned check subject to the expeditious return requirements of this section and to the other requirements of this subpart.

§ 229.31 Returning bank’s responsibility for return of checks.

(a) Return of checks. A returning bank shall return a returned check in an expeditious manner as provided in either paragraph (a)(1) or (a)(2) of this section.

(1) Two-day/four-day test. A returning bank returns a check in an expeditious manner if it sends the returned check in a manner such that the check would normally be received by the depositary bank not later than 4:00 p.m. (local time) of—

(i) The second business day following the banking day on which the check was presented to the paying bank if the paying bank is located in the same check processing region as the depositary bank; or

(ii) The fourth business day following the banking day on which the check was presented to the paying bank if the paying bank is not located in the same check processing region as the depositary bank.

If the last business day on which the returning bank may deliver a returned check to the depositary bank is not a banking day for the depositary bank, the returning bank meets this requirement if the returned check is received by the depositary bank on or before the depositary bank’s next banking day.
(2) Forward collection test. A returning bank also returns a check in an expeditious manner if it sends the returned check in a manner that a similarly situated bank would normally handle a check—
   (i) Of similar amount as the returned check;
   (ii) Drawn on the depositary bank; and
   (iii) Received for forward collection by the similarly situated bank at the time the returning bank received the returned check, except that a returning bank may set a cut-off hour for the receipt of returned checks that is earlier than the similarly situated bank’s cut-off hour for checks received for forward collection, if the cut-off hour is not earlier than 2:00 p.m.

Subject to the requirement for expeditious return, the returning bank may send the returned check to the depositary bank, or to any bank agreeing to handle the returned check expeditiously under §229.31(a). The returning bank may convert the returned check to a qualified returned check. A qualified returned check shall be encoded in magnetic ink with the routing number of the depositary bank, the amount of the returned check, and a “2” in the case of an original check (or a “5” in the case of a substitute check) in position 44 of the qualified return MICR line as a return identifier. A qualified returned original check shall be encoded in accordance with ANS X9.13, and a qualified returned substitute check shall be encoded in accordance with ANS X9.100–140. The time for expeditious return under the forward collection test, and the deadline for return under the U.C.C. and Regulation J (12 CFR part 210), are extended by one business day if the returning bank converts a returned check to a qualified returned check. This extension does not apply to the two-day/four-day test specified in paragraph (a)(1) of this section or when a returning bank is returning a check directly to the depositary bank.

(c) Settlemen. A returning bank shall settle with a bank sending a returned check to it for return by the same means that it settles or would settle with the sending bank for a check received for forward collection drawn on the depositary bank. This settlement is final when made.

(d) Charges. A returning bank may impose a charge on a bank sending a returned check for handling the returned check.

(e) Depositary bank without accounts. The expeditious return requirements of paragraph (a) of this section do not apply to checks deposited with a depositary bank that does not maintain accounts.

(f) Notice in lieu of return. If a check is unavailable for return, the returning bank may send in its place a copy of the front and back of the returned check, or, if no copy is available, a written notice of nonpayment containing the information specified in §229.33(b). The copy or notice shall clearly state that it constitutes a notice in lieu of return. A notice in lieu of return is considered a returned check subject to the expeditious return requirements of this section and to the other requirements of this subpart.

(1) Any collecting bank that handled the check for forward collection if the returning bank was not a collecting bank with respect to the returned check; or

(2) A prior collecting bank, if the returning bank was a collecting bank with respect to the returned check; even if that collecting bank does not agree to handle the returned check expeditiously under §229.31(a). A returning bank sending a returned check under this paragraph must advise the bank to which the check is sent that the returning bank is unable to identify the depositary bank. The expeditious return requirements in paragraph (a) of this section do not apply to return of a check under this paragraph. A returning bank that receives a returned check from a paying bank under §229.30(b), or from a returning bank under this paragraph, but that is able to identify the depositary bank, must thereafter return the check expeditiously to the depositary bank.

(b) Unidentifiable depositary bank. A returning bank that is unable to identify the depositary bank with respect to a returned check may send the returned check to—
(g) Reliance on routing number. A returning bank may return a returned check based on any routing number designating the depositary bank appearing on the returned check in the depositary bank’s indorsement or in magnetic ink on a qualified returned check.

§ 229.32 Depositary bank’s responsibility for returned checks.

(a) Acceptance of returned checks. A depositary bank shall accept returned checks and written notices of nonpayment

(1) At a location at which presentation of checks for forward collection is requested by the depositary bank; and

(2) (i) At a branch, head office, or other location consistent with the name and address of the bank in its indorsement on the check;

(ii) If no address appears in the indorsement, at a branch or head office associated with the routing number of the bank in its indorsement on the check;

(iii) If the address in the indorsement is not in the same check processing region as the address associated with the routing number of the bank in its indorsement on the check;

(iv) If no routing number or address appears in its indorsement on the check, at any branch or head office of the bank.

A depositary bank may require that returned checks be separated from forward collection checks.

(b) Payment. A depositary bank shall pay the returning or paying bank returning the check to it for the amount of the check prior to the close of business on the banking day on which it received the check (“payment date”) by—

(1) Debit to an account of the depositary bank on the books of the returning or paying bank;

(2) Cash;

(3) Wire transfer; or

(4) Any other form of payment acceptable to the returning or paying bank;

provided that the proceeds of the payment are available to the returning or paying bank in cash or by credit to an account of the returning or paying bank on or as of the payment date. If the payment date is not a banking day for the returning or paying bank or the depositary bank is unable to make the payment on the payment date, payment shall be made by the next day that is a banking day for the returning or paying bank. These payments are final when made.

(c) Misrouted returned checks and written notices of nonpayment. If a bank receives a returned check or written notice of nonpayment on the basis that it is the depositary bank, and the bank determines that it is not the depositary bank with respect to the check or notice, it shall either promptly send the returned check or notice to the depositary bank directly or by means of a returning bank agreeing to handle the returned check expeditiously under §229.31(a), or send the check or notice back to the bank from which it was received.

(d) Charges. A depositary bank may not impose a charge for accepting and paying checks being returned to it.

[53 FR 19433, May 27, 1988, as amended at Reg. CC, 54 FR 13850, Apr. 6, 1989]

§ 229.33 Notice of nonpayment.

(a) Requirement. If a paying bank determines not to pay a check in the amount of $2,500 or more, it shall provide notice of nonpayment such that the notice is received by the depositary bank by 4:00 p.m. (local time) on the second business day following the banking day on which the check was presented to the paying bank. If the day the paying bank is required to provide notice is not a banking day for the depositary bank, receipt of notice on the depositary bank’s next banking day constitutes timely notice. Notice may be provided by any reasonable means, including the returned check, a writing (including a copy of the check), telephone, Fedwire, telex, or other form of telegraph.

(b) Content of notice. Notice must include the—
(1) Name and routing number of the paying bank;
(2) Name of the payee(s);
(3) Amount;
(4) Date of the indorsement of the depository bank;
(5) Account number of the customer(s) of the depository bank;
(6) Branch name or number of the depository bank from its indorsement;
(7) Trace number associated with the indorsement of the depository bank; and
(8) Reason for nonpayment.
The notice may include other information from the check that may be useful in identifying the check being returned and the customer, and, in the case of a written notice, must include the name and routing number of the depository bank from its indorsement. If the paying bank is not sure of an item of information, it shall include the information required by this paragraph to the extent possible, and identify any item of information for which the bank is not sure of the accuracy.

(c) Acceptance of notice. The depository bank shall accept notices during its banking day—
(1) Either at the telephone or telegraph number of its return check unit indicated in the indorsement, or, if no such number appears in the indorsement or if the number is illegible, at the general purpose telephone or telegraph number of its head office or the branch indicated in the indorsement; and
(2) At any other number held out by the bank for receipt of notice of nonpayment, and, in the case of written notice, as specified in §229.32(a).

(d) Notification to customer. If the depository bank receives a returned check or notice of nonpayment, it shall send or give notice to its customer of the facts by midnight of the banking day following the banking day on which it received the returned check or notice, or within a longer reasonable time.

(e) Depository bank without accounts. The requirements of this section do not apply to checks deposited in a depository bank that does not maintain accounts.

§ 229.34 Warranties.

(a) Warranties. Each paying bank or returning bank that transfers a returned check and receives a settlement or other consideration for it warrants to the transferee returning bank, to any subsequent returning bank, to the depository bank, and to the owner of the check, that—
(1) The paying bank, or in the case of a check payable by a bank and payable through another bank, the bank by which the check is payable, returned the check within its deadline under the U.C.C., Regulation J (12 CFR part 210), or §229.30(c) of this part;
(2) It is authorized to return the check;
(3) The check has not been materially altered; and
(4) In the case of a notice in lieu of return, the original check has not and will not be returned.

These warranties are not made with respect to checks drawn on the Treasury of the United States, U.S. Postal Service money orders, or checks drawn on a state or a unit of general local government that are not payable through or at a bank.

(b) Warranty of notice of nonpayment. Each paying bank that gives a notice of nonpayment warrants to the transferee bank, to any subsequent transferee bank, to the depository bank, and to the owner of the check that—
(1) The paying bank, or in the case of a check payable by a bank and payable through another bank, the bank by which the check is payable, returned or will return the check within its deadline under the U.C.C., Regulation J (12 CFR part 210), or §229.30(c) of this part;
(2) It is authorized to return the check;
(3) The check has not been materially altered.

These warranties are not made with respect to checks drawn on a state or a unit of general local government that are not payable through or at a bank.
§ 229.35 Indorsements.

(a) Indorsement standards. A bank (other than a paying bank) that handles a check during forward collection or a returned check shall indorse the check in a manner that permits a person to interpret the indorsement, in accordance with the indorsement standard set forth in appendix D of this part.

(b) Liability of bank handling check. A bank that handles a check for forward collection or return is liable to any bank that subsequently handles the check to the extent that the subsequent bank does not receive payment for the check because of suspension of

§ 229.35 Indorsements.

(a) Indorsement standards. A bank (other than a paying bank) that handles a check during forward collection or a returned check shall indorse the check in a manner that permits a person to interpret the indorsement, in accordance with the indorsement standard set forth in appendix D of this part.

(b) Liability of bank handling check. A bank that handles a check for forward collection or return is liable to any bank that subsequently handles the check to the extent that the subsequent bank does not receive payment for the check because of suspension of
payments by another bank or otherwise. This paragraph applies whether or not a bank has placed its indorsement on the check. This liability is not affected by the failure of any bank to exercise ordinary care, but any bank failing to do so remains liable. A bank seeking recovery against a prior bank shall send notice to that prior bank reasonably promptly after it learns the facts entitling it to recover. A bank may recover from the bank with which it settled for the check by revoking the settlement, charging back any credit given to an account, or obtaining a refund. A bank may have the rights of a holder with respect to each check it handles.

(c) Indorsement by a bank. After a check has been indorsed by a bank, only a bank may acquire the rights of a holder—

(1) Until the check has been returned to the person initiating collection; or
(2) Until the check has been specially indorsed by a bank to a person who is not a bank.

(d) Indorsement for depositary bank. A depositary bank may arrange with another bank to apply the other bank's indorsement as the depositary bank indorsement, provided that any indorsement of the depositary bank on the check avoids the area reserved for the depositary bank indorsement as specified in appendix D. The other bank indorsing as depositary bank is considered the depositary bank for purposes of subpart C of this part.

§ 229.36 Presentment and issuance of checks.

(a) Payable through and payable at checks. A check payable at or through a paying bank is considered to be drawn on that bank for purposes of the expedited return and notice of non-payment requirements of this subpart.

(b) Receipt at bank office or processing center. A check is considered received by the paying bank when it is received:

(1) At a location to which delivery is requested by the paying bank;
(2) At an address of the bank associated with the routing number on the check, whether in magnetic ink or in fractional form;
(3) At any branch or head office, if the bank is identified on the check by name without address; or
(4) At a branch, head office, or other location consistent with the name and address of the bank on the check if the bank is identified on the check by name and address.

(c) [Reserved]

(d) Liability of bank during forward collection. Settlements between banks for the forward collection of a check are final when made; however, a collecting bank handling a check for forward collection may be liable to a prior collecting bank, including the depositary bank, and the depositary bank's customer.

(e) Issuance of payable-through checks.

(1) A bank that arranges for checks payable by it to be payable through another bank shall require that the following information be printed conspicuously on the face of each check:

(i) The name, location, and first four digits of the nine-digit routing number of the bank by which the check is payable; and
(ii) The words “payable through” followed by the name of the payable-through bank.

(2) A bank is responsible for damages under § 229.38 to the extent that a check payable by it and not payable through another bank is labelled as provided in this section.

(f) Same-day settlement. (1) A check is considered presented, and a paying bank must settle for or return the check pursuant to paragraph (f)(2) of this section, if a presenting bank delivers the check in accordance with reasonable delivery requirements established by the paying bank and demands payment under this paragraph (f)—

(i) At a location designated by the paying bank for receipt of checks under this paragraph (f) that is in the check processing region consistent with the routing number encoded in magnetic ink on the check and at which the paying bank would be considered to have received the check under paragraph (b) of this section or, if no location is designated, at any location described in paragraph (b) of this section; and
(ii) By 8 a.m. on a business day (local
time of the location described in parag-
raph (f)(1)(i) of this section).

A paying bank may require that
checks presented for settlement pursu-
ant to this paragraph (f)(1) be sepa-
rated from other forward-collection
checks or returned checks.

(2) If presentment of a check meets
the requirements of paragraph (f)(1) of
this section, the paying bank is ac-
countable to the presenting bank for
the amount of the check unless, by the
close of Fedwire on the business day it
receives the check, it either:

(i) Settles with the presenting bank
for the amount of the check by credit
to an account at a Federal Reserve
Bank designated by the presenting
bank; or

(ii) Returns the check.

(3) Notwithstanding paragraph (f)(2)
of this section, if a paying bank closes
on a business day and receives present-
ment of a check on that day in accord-
ance with paragraph (f)(1) of this sec-
tion, the paying bank is accountable to
the presenting bank for the amount of
the check unless, by the close of
Fedwire on its next banking day, it ei-
ther:

(i) Settles with the presenting bank
for the amount of the check by credit
to an account at a Federal Reserve
Bank designated by the presenting
bank; or

(ii) Returns the check.

If the closing is voluntary, unless the
paying bank settles for or returns the
check in accordance with paragraph
(f)(2) of this section, it shall pay inter-
est compensation to the presenting
bank for each day after the business
day on which the check was presented
until the paying bank settles for the
check, including the day of settlement.

(Reg. CC, 53 FR 19433, May 27, 1988, as amend-
ed by 54 FR 32047, Aug. 4, 1989; 55 FR 21855,
64 FR 59613, Nov. 3, 1999]

§ 229.37 Variation by agreement.

The effect of the provisions of sub-
part C may be varied by agreement, ex-
cept that no agreement can disclaim
the responsibility of a bank for its own
lack of good faith or failure to exercise
ordinary care, or can limit the measure
of damages for such lack or failure; but
the parties may determine by agree-
ment the standards by which such re-
sponsibility is to be measured if such
standards are not manifestly unrea-
nonable.

§ 229.38 Liability.

(a) Standard of care; liability; measure
of damages. A bank shall exercise ordi-
mary care and act in good faith in com-
plying with the requirements of this
subpart. A bank that fails to exercise
ordinary care or act in good faith
under this subpart may be liable to the
depository bank, the depositary bank’s
customer, the owner of a check, or an-
other party to the check. The measure
of damages for failure to exercise ordi-
nary care is the amount of the loss in-
curred, up to the amount of the check,
reduced by the amount of the loss that
party would have incurred even if the
bank had exercised ordinary care. A
bank that fails to act in good faith
under this subpart may be liable for
other damages, if any, suffered by the
party as a proximate consequence. Sub-
ject to a bank’s duty to exercise ordi-
nary care or act in good faith in choos-
ing the means of return or notice of
nonpayment, the bank is not liable for
the insolvency, neglect, misconduct,
mistake, or default of another bank or
person, or for loss or destruction of a
check or notice of nonpayment in tran-
sit or in the possession of others. This
section does not affect a paying bank’s
liability to its customer under the
U.C.C. or other law.

(b) Paying bank’s failure to make timely
return. If a paying bank fails both to
comply with §229.30(a) and to comply
with the deadline for return under the
U.C.C., Regulation J (12 CFR part 210),
or §229.30(c) in connection with a single
nonpayment of a check, the paying
bank shall be liable under either
§229.30(a) or such other provision, but
not both.

(c) Comparative negligence. If a person,
including a bank, fails to exercise ordi-
nary care or act in good faith under
this subpart in indorsing a check
(§229.35), accepting a returned check or
notice of nonpayment (§§229.32(a) and
229.33(c)), or otherwise, the damages in-
curred by that person under §229.30(a)
shall be diminished in proportion to
the amount of negligence or bad faith attributable to that person.

(d) Responsibility for certain aspects of checks—(1) A paying bank, or in the case of a check payable through the paying bank and payable by another bank, the bank by which the check is payable, is responsible for damages under paragraph (a) of this section to the extent that the condition of the check when issued by it or its customer adversely affects the ability of a bank to indorse the check legibly in accordance with §229.35. A depositary bank is responsible for damages under paragraph (a) of this section to the extent that the condition of the back of a check arising after the issuance of the check and prior to acceptance of the check by it adversely affects the ability of a bank to indorse the check legibly in accordance with §229.35. A reconverting bank is responsible for damages under paragraph (a) of this section to the extent that the condition of the back of a substitute check transferred, presented, or returned by it—

(i) Adversely affects the ability of a subsequent bank to indorse the check legibly in accordance with §229.35; or

(ii) Causes an indorsement that previously was applied in accordance with §229.35 to become illegible.

NOTE: Responsibility under this paragraph (d) shall be treated as negligence of the paying bank, depositary bank, or reconverting bank for purposes of paragraph (c) of this section.

(2) Responsibility for payable through checks. In the case of a check that is payable by a bank and payable through a paying bank located in a different check processing region than the bank by which the check is payable, the bank by which the check is payable is responsible for damages under paragraph (a) of this section, to the extent that the check is not returned to the depositary bank through the payable through bank as quickly as the check would have been required to be returned under §229.30(a) had the bank by which the check is payable—

(i) Received the check as paying bank on the day the payable through bank received the check; and

(ii) Returned the check as paying bank in accordance with §229.30(a)(1).

Responsibility under this paragraph shall be treated as negligence of the bank by which the check is payable for purposes of paragraph (c) of this section.

(e) Timeliness of action. If a bank is delayed in acting beyond the time limits set forth in this subpart because of interruption of communication or computer facilities, suspension of payments by a bank, war, emergency conditions, failure of equipment, or other circumstances beyond its control, its time for acting is extended for the time necessary to complete the action, if it exercises such diligence as the circumstances require.

(f) Exclusion. Section 229.21 of this part and section 611 (a), (b), and (c) of the EFA Act (12 U.S.C. 4010 (a), (b), and (c)) do not apply to this subpart.

(g) Jurisdiction. Any action under this subpart may be brought in any United States district court, or in any other court of competent jurisdiction, and shall be brought within one year after the date of the occurrence of the violation involved.

(h) Reliance on Board rulings. No provision of this subpart imposing any liability shall apply to any act done or omitted in good faith in conformity with any rule, regulation, or interpretation thereof by the Board, regardless of whether the rule, regulation, or interpretation is amended, rescinded, or determined by judicial or other authority to be invalid for any reason after the act or omission has occurred.

§ 229.39 Insolvency of bank.

(a) Duty of receiver. A check or returned check in, or coming into, the possession of a paying, collecting, depositary, or returning bank that suspends payment, and which is not paid, shall be returned by the receiver, trustee, or agent in charge of the closed bank to the bank or customer that transferred the check to the closed bank.

(b) Preference against paying or depositary bank. If a paying bank finally pays a check, or if a depositary bank becomes obligated to pay a returned check, and suspends payment without
making a settlement for the check or returned check with the prior bank that is or becomes final, the prior bank has a preferred claim against the paying bank or the depositary bank.

(c) Preference against collecting, paying, or returning bank. If a collecting, paying, or returning bank receives settlement from a subsequent bank for a check or returned check, which settlement is or becomes final, and suspends payments without making a settlement for the check with the prior bank, which is or becomes final, the prior bank has a preferred claim against the collecting or returning bank.

(d) Preference against presenting bank. If a paying bank settles with a presenting bank for one or more checks, and if the presenting bank breaches a warranty specified in §229.34(c)(1) or (3) with respect to those checks and suspends payments before satisfying the paying bank’s warranty claim, the paying bank has a preferred claim against the presenting bank for the amount of the warranty claim.

(e) Finality of settlement. If a paying or depositary bank gives, or a collecting, paying, or returning bank gives or receives, a settlement for a check or returned check and thereafter suspends payment, the suspension does not prevent or interfere with the settlement becoming final if such finality occurs automatically upon the lapse of a certain time or the happening of certain events.

§ 229.40 Effect of merger transaction.

(a) In general. For purposes of this subpart, two or more banks that have engaged in a merger transaction may be considered to be separate banks for a period of one year following the consummation of the merger transaction.

(b) Merger transactions on or after July 1, 1998, and before March 1, 2000. If banks have consummated a merger transaction on or after July 1, 1998, and before March 1, 2000, the merged banks may be considered separate banks until March 1, 2001.

§ 229.41 Relation to State law.

The provisions of this subpart supersede any inconsistent provisions of the U.C.C. as adopted in any state, or of any other state law, but only to the extent of the inconsistency.

§ 229.42 Exclusions.

The expeditious-return (§§ 229.30(a) and 229.31(a)), notice-of-nonpayment (§ 229.33), and same-day settlement (§ 229.36(f)) requirements of this subpart do not apply to a check drawn upon the United States Treasury, to a U.S. Postal Service money order, or to a check drawn on a state or a unit of general local government that is not payable through or at a bank.

§ 229.43 Checks payable in Guam, American Samoa, and the Northern Mariana Islands.

(a) Definitions. The definitions in §229.2 apply to this section, unless otherwise noted. In addition, for the purposes of this section—

(1) Pacific island bank means an office of an institution that would be a bank as defined in §229.2(e) but for the fact that the office is located in Guam, American Samoa, or the Northern Mariana Islands;

(2) Pacific island check means a demand draft drawn on or payable through or at a Pacific island bank, which is not a check as defined in §229.2(k).

(b) Rules applicable to Pacific island checks. To the extent a bank handles a Pacific island check as if it were a check defined in §229.2(k), the bank is subject to the following sections of this part (and the word “check” in each such section is construed to include a Pacific island check)—

(1) §229.31, except that the returning bank is not subject to the requirement to return a Pacific island check in an expeditious manner;

(2) §229.32;

(3) §229.34(c)(2), (c)(3), (d), (e), and (f);

(4) §229.35; for purposes of §229.35(c), the Pacific island bank is deemed to be a bank;

(5) §229.36(d);

(6) §229.37;

(7) §229.38(a) and (c) through (h);
Federal Reserve System

§ 229.53

(a) Scope of indemnity. A bank that transfers, presents, or returns a substitute check or a paper or electronic representation of a substitute check for which it receives consideration warrants to the parties listed in paragraph (b) of this section that—

(1) The substitute check meets the requirements for legal equivalence described in §229.51(a)(1)–(2); and

(2) No depositary bank, drawee, drawer, or indorser will receive presentment or return of, or otherwise be charged for, the substitute check, the original check, or a paper or electronic representation of the substitute check or original check such that that person will be asked to make a payment based on a check that it already has paid.

(b) Warranty recipients. A bank makes the warranties described in paragraph (a) of this section to the person to which the bank transfers, presents, or returns the substitute check or a paper or electronic representation of such substitute check and to any subsequent recipient, which could include a collecting or returning bank, the depositary bank, the drawer, the drawee, the payee, the depositor, and any indorser. These parties receive the warranties regardless of whether they received the substitute check or a paper or electronic representation of a substitute check.

§ 229.52 Substitute check warranties.

(a) Content and provision of substitute check warranties. A bank that transfers, presents, or returns a substitute check (or a paper or electronic representation of a substitute check) for which it receives consideration warrants to the parties listed in paragraph (b) of this section that—

(1) The substitute check meets the requirements for legal equivalence described in §229.51(a)(1)–(2); and

(2) No depositary bank, drawee, drawer, or indorser will receive presentment or return of, or otherwise be charged for, the substitute check, the original check, or a paper or electronic representation of the substitute check or original check such that that person will be asked to make a payment based on a check that it already has paid.

(b) Warranty recipients. A bank makes the warranties described in paragraph (a) of this section to the person to which the bank transfers, presents, or returns the substitute check or a paper or electronic representation of such substitute check and to any subsequent recipient, which could include a collecting or returning bank, the depositary bank, the drawer, the drawee, the payee, the depositor, and any indorser. These parties receive the warranties regardless of whether they received the substitute check or a paper or electronic representation of a substitute check.

§ 229.51 General provisions governing substitute checks.

(a) Legal equivalence. A substitute check for which a bank has provided the warranties described in §229.52 is the legal equivalent of an original check for all persons and all purposes, including any provision of federal or state law, if the substitute check—

(1) Accurately represents all of the information on the front and back of the original check as of the time the original check was truncated; and

(2) Bears the legend, “This is a legal copy of your check. You can use it the same way you would use the original check.”

(b) Reconverting bank duties. A bank shall ensure that a substitute check for which it is the reconverting bank—

(1) Bears all indorsements applied by parties that previously handled the check in any form (including the original check, a substitute check, or another paper or electronic representation of such original check or substitute check) for forward collection or return;

(2) Identifies the reconverting bank in a manner that preserves any previous reconverting bank identifications, in accordance with ANS X9.100–140 and appendix D of this part; and

(3) Identifies the bank that truncated the original check, in accordance with ANS X9.100–140 and appendix D of this part.

(c) Applicable law. A substitute check that is the legal equivalent of an original check under paragraph (a) of this section shall be subject to any provision, including any provision relating to the protection of customers, of this part, the U.C.C., and any other applicable federal or state law as if such substitute check were the original check, to the extent such provision of law is not inconsistent with the Check 21 Act or this subpart.
§ 229.54 Expedited recredit for consumers.

(a) Circumstances giving rise to a claim. A consumer may make a claim under this section for a recredit with respect to a substitute check if the consumer asserts in good faith that—

(1) The bank holding the consumer’s account charged that account for a substitute check that was provided to the consumer (although the consumer need not be in possession of that substitute check);

(2) The substitute check was not properly charged to the consumer account or the consumer has a warranty claim with respect to the substitute check;

(3) The consumer suffered a resulting loss; and

(4) Production of the original check or a sufficient copy is necessary to determine whether or not the substitute check in fact was improperly charged or whether the consumer’s warranty claim is valid.

(b) Procedures for making claims. A consumer shall make his or her claim for a recredit under this section with the bank that holds the consumer’s account in accordance with the timing, content, and form requirements of this section.

(1) Timing of claim. (i) The consumer shall submit his or her claim such that the bank receives the claim by the end of the 40th calendar day after the later of the calendar day on which the bank mailed or delivered, by a means agreed to by the consumer—

(b) Indemnity amount—(1) In general. Unless otherwise indicated by paragraph (b)(2) or (b)(3) of this section, the amount of the indemnity under paragraph (a) of this section is as follows:

(i) If the loss resulted from a breach of a substitute check warranty provided under §229.52, the amount of the indemnity shall be the amount of any loss (including interest, costs, reasonable attorney’s fees, and other expenses of representation) proximately caused by the warranty breach.

(ii) If the loss did not result from a breach of a substitute check warranty provided under §229.52, the amount of the indemnity shall be the sum of—

(A) The amount of the loss, up to the amount of the substitute check; and

(B) Interest and expenses (including costs and reasonable attorney’s fees and other expenses of representation) related to the substitute check.

(2) Comparative negligence. (i) If a loss described in paragraph (a) of this section results in whole or in part from the indemnified person’s negligence or failure to act in good faith, then the indemnity amount described in paragraph (b)(1) of this section shall be reduced in proportion to the amount of negligence or bad faith attributable to the indemnified person.

(ii) Nothing in this paragraph (b)(2) reduces the rights of a consumer or any other person under the U.C.C. or other applicable provision of state or federal law.

(c) Subrogation of rights—(1) In general. An indemnifying bank shall be subrogated to the rights of the person that it indemnifies to the extent of the indemnity it has provided and may attempt to recover from another person based on a warranty or other claim.

(2) Duty of indemnified person for subrogated claims. Each indemnified person shall have a duty to comply with all reasonable requests for assistance from an indemnifying bank in connection with any claim the indemnifying bank brings against a warrantor or other person related to a check that forms the basis for the indemnification.
§ 229.54

(A) The periodic account statement that contains information concerning the transaction giving rise to the claim; or

(B) The substitute check giving rise to the claim.

(ii) If the consumer cannot submit his or her claim by the time specified in paragraph (b)(1)(i) of this section because of extenuating circumstances, the bank shall extend the 40-calendar-day period by an additional reasonable amount of time.

(iii) If a consumer makes a claim orally and the bank requires the claim to be in writing, the consumer’s claim is timely if the oral claim was received within the time described in paragraphs (b)(1)(i)–(ii) of this section and the written claim was received within the time described in paragraph (b)(3)(ii) of this section.

(2) Content of claim. (i) The consumer’s claim shall include the following information:

(A) A description of the consumer’s claim, including the reason why the consumer believes his or her account was improperly charged for the substitute check or the nature of his or her warranty claim with respect to such check;

(B) A statement that the consumer suffered a loss and an estimate of the amount of that loss;

(C) The reason why production of the original check or a sufficient copy is necessary to determine whether or not the charge to the consumer’s account was proper or the consumer’s warranty claim is valid; and

(D) Sufficient information to allow the bank to identify the substitute check and investigate the claim.

(ii) If a consumer attempts to make a claim but fails to provide all the information in paragraph (b)(2)(i) of this section that is required to constitute a claim, the bank shall inform the consumer of the information that is missing.

(3) Form and submission of claim; computation of time for bank action. The bank holding the account that is the subject of the consumer’s claim may, in its discretion, require the consumer to submit the information required by this section in writing. A bank that requires a written submission—

(i) May permit the consumer to submit the written claim electronically;

(ii) Shall inform a consumer who submits a claim orally of the written claim requirement at the time of the oral claim and may require such consumer to submit the written claim such that the bank receives the written claim by the 10th business day after the banking day on which the bank received the oral claim; and

(iii) Shall compute the time periods for acting on the consumer’s claim described in paragraph (c) of this section from the date on which the bank received the written claim.

(c) Action on claims. A bank that receives a claim that meets the requirements of paragraph (b) of this section shall act as follows:

(1) Valid consumer claim. If the bank determines that the consumer’s claim is valid, the bank shall—

(i) Recredit the consumer’s account for the amount of the consumer’s loss, up to the amount of the substitute check, plus interest if the account is an interest-bearing account, no later than the end of the business day after the banking day on which the bank makes that determination; and

(ii) Send to the consumer the notice required by paragraph (e)(1) of this section.

(2) Invalid consumer claim. If a bank determines that the consumer’s claim is not valid, the bank shall send to the consumer the notice described in paragraph (e)(2) of this section.

(3) Recredit pending investigation. If the bank has not taken an action described in paragraph (c)(1) or (c)(2) of this section before the end of the 10th business day after the banking day on which the bank received the claim, the bank shall—

(i) By the end of that business day—

(A) Recredit the consumer’s account for the amount of the consumer’s loss, up to the lesser of the amount of the substitute check or $2,500, plus interest on that amount if the account is an interest-bearing account; and

(B) Send to the consumer the notice required by paragraph (e)(1) of this section; and
(ii) Recredit the consumer's account for the remaining amount of the consumer's loss, if any, up to the amount of the substitute check, plus interest if the account is an interest-bearing account, no later than the end of the 45th calendar day after the banking day on which the bank received the claim and send to the consumer the notice required by paragraph (e)(1) of this section, unless the bank prior to that time has determined that the consumer's claim is or is not valid in accordance with paragraph (c)(1) or (c)(2) of this section.

(4) Reversal of recredit. A bank may reverse a recredit that it has made to a consumer account under paragraph (c)(1) or (c)(3) of this section, plus interest that the bank has paid, if any, on that amount, if the bank—

(i) Determines that the consumer's claim was not valid; and

(ii) Notifies the consumer in accordance with paragraph (e)(3) of this section.

(d) Availability of recredit—(1) Next-day availability. Except as provided in paragraph (d)(2) of this section, a bank shall make any amount that it recredits to a consumer account under this section available for withdrawal no later than the start of the business day after the banking day on which the bank provides the recredit.

(2) Safeguard exceptions. A bank may delay availability to a consumer of a recredit provided under paragraph (c)(3)(i) of this section until the start of the earlier of the business day after the banking day on which the bank determines the consumer's claim is valid or the 45th calendar day after the banking day on which the bank received the oral or written claim, as required by paragraph (b) of this section, if—

(i) The consumer submits the claim during the 30-calendar-day period beginning on the banking day on which the consumer account was established; and

(ii) Without regard to the charge that gave rise to the recredit claim—

(A) On six or more business days during the six-month period ending on the calendar day on which the consumer submitted the claim, the balance in the consumer account was negative or would have become negative if checks or other charges to the account had been paid; or

(B) On two or more business days during such six-month period, the balance in the consumer account was negative or would have become negative in the amount of $5,000 or more if checks or other charges to the account had been paid; or

(iii) The bank has reasonable cause to believe that the claim is fraudulent, based on facts that would cause a well-grounded belief in the mind of a reasonable person that the claim is fraudulent. The fact that the check in question or the consumer is of a particular class may not be the basis for invoking this exception.

(3) Overdraft fees. A bank that delays availability as permitted in paragraph (d)(2) of this section may not impose an overdraft fee with respect to drafts drawn by the consumer on such recredited funds until the fifth calendar day after the calendar day on which the bank sent the notice required by paragraph (e)(1) of this section.

(e) Notices relating to consumer expedited recredit claims—(1) Notice of recredit. A bank that recredits a consumer account under paragraph (c) of this section shall send notice to the consumer of the recredit no later than the business day after the banking day on which the bank recredits the consumer account. This notice shall describe—

(i) The amount of the recredit; and

(ii) The date on which the recredited funds will be available for withdrawal.

(2) Notice that the consumer's claim is not valid. If a bank determines that a substitute check for which a consumer made a claim under this section was in fact properly charged to the consumer account or that the consumer's warranty claim for that substitute check was not valid, the bank shall send notice to the consumer no later than the business day after the banking day on which the bank makes that determination. This notice shall—

(i) Include the original check or a sufficient copy, except as provided in §229.58;

(ii) Demonstrate to the consumer that the substitute check was properly charged or the consumer's warranty claim is not valid; and
§ 229.55 Expedited recredit for banks.

(a) Circumstances giving rise to a claim. A bank that has an indemnity claim under §229.53 with respect to a substitute check may make an expedited recredit claim against an indemnifying bank if—

(1) The claimant bank or a bank that the claimant bank has indemnified—

(i) Has received a claim for expedited recredit from a consumer under §229.54; or

(ii) Would have been subject to such a claim if the consumer account had been charged for the substitute check; or

(2) The claimant bank is obligated to provide an expedited recredit with respect to such substitute check under §229.54 or otherwise has suffered a resulting loss; and

(3) The production of the original check or a sufficient copy is necessary to determine the validity of the charge to the consumer account or the validity of any warranty claim connected with such substitute check.

(b) Procedures for making claims. A claimant bank shall send its claim to the indemnifying bank, subject to the timing, content, and form requirements of this section.

(1) Timing of claim. The claimant bank shall submit its claim such that the indemnifying bank receives the claim by the end of the 120th calendar day after the date of the transaction that gave rise to the claim.

(2) Content of claim. The claimant bank’s claim shall include the following information—

(i) A description of the consumer’s claim or the warranty claim related to the substitute check, including why the bank believes that the substitute check may not be properly charged to the consumer account;

(ii) A statement that the claimant bank is obligated to recredit a consumer account under §229.54 or otherwise has suffered a loss and an estimate of the amount of that recredit or loss, including interest if applicable;

(iii) The reason why production of the original check or a sufficient copy is necessary to determine the validity of the charge to the consumer account or the warranty claim; and

(iv) Sufficient information to allow the indemnifying bank to identify the substitute check and investigate the claim.

(3) Requirements relating to copies of substitute checks. If the information submitted by a claimant bank under paragraph (b)(2) of this section includes a copy of any substitute check, the claimant bank shall take reasonable steps to ensure that the copy cannot be mistaken for the legal equivalent of the check under §229.51(a) or sent or handled by any bank, including the indemnifying bank, for forward collection or return.

(4) Form and submission of claim; computation of time. The indemnifying bank may, in its discretion, require the claimant bank to submit the information required by this section in writing, including a copy of the paper or electronic claim submitted by the consumer, if any. An indemnifying bank that requires a written submission—
§ 229.56 Liability.

(a) Measure of damages—(1) In general. Except as provided in paragraph (a)(2) or (a)(3) of this section or § 229.53, any person that breaches a warranty described in § 229.52 or fails to comply with any requirement of this subpart with respect to any other person shall be liable to that person for an amount equal to the sum of:

(i) The amount of the loss suffered by the person as a result of the breach or failure, up to the amount of the substitute check; and

(ii) Interest and expenses (including costs and reasonable attorney’s fees and other expenses of representation) related to the substitute check.

(2) Offset of recredits. The amount of damages a person receives under paragraph (a)(1) of this section shall be reduced by any amount that the person receives and retains as a recredit under § 229.54 or § 229.55.

(b) Timeliness of action. Delay by a bank beyond any time limits prescribed or permitted by this subpart is excused if the delay is caused by interruption of communication or computer facilities, suspension of payments by another bank, war, emergency conditions, failure of equipment, or other circumstances beyond the control of the bank and if the bank uses such diligence as the circumstances require.

(c) Jurisdiction. A person may bring an action to enforce a claim under this subpart in any United States district court or in any other court of competent jurisdiction. Such claim shall be brought within one year of the date on which the bank or indemnifying bank received the written claim.
which the person’s cause of action accrues. For purposes of this paragraph, a cause of action accrues as of the date on which the injured person first learns, or by which such person reasonably should have learned, of the facts and circumstances giving rise to the cause of action, including the identity of the warranting or indemnifying bank against which the action is brought.

(d) Notice of claims. Except as otherwise provided in this paragraph (d), unless a person gives notice of a claim under this section to the warranting or indemnifying bank within 30 calendar days after the person has reason to know of both the claim and the identity of the warranting or indemnifying bank, the warranting or indemnifying bank is discharged from liability in an action to enforce a claim under this subpart to the extent of any loss caused by the delay in giving notice of the claim. A timely recredit claim by a consumer under §229.54 constitutes timely notice under this paragraph.

§229.57 Consumer awareness.

(a) General disclosure requirement and content. Each bank shall provide, in accordance with paragraph (b) of this section, a brief disclosure to each of its consumer customers that describes—

(1) That a substitute check is the legal equivalent of an original check; and

(2) The consumer recredit rights that apply when a consumer in good faith believes that a substitute check was not properly charged to his or her account.

(b) Distribution—(1) Disclosure to consumers who receive paid checks with periodic account statements. A bank shall provide the disclosure described in paragraph (a) of this section to a consumer customer who receives paid original checks or paid substitute checks with his or her periodic account statement—

(i) No later than the first regularly scheduled communication with the consumer after October 28, 2004, for each consumer who is a customer of the bank on that date; and

(ii) At the time the customer relationship is initiated, for each customer relationship established after October 28, 2004.

(2) Disclosure to consumers who receive substitute checks on an occasional basis—

(i) The bank shall provide the disclosure described in paragraph (a) of this section to a consumer customer of the bank who requests an original check or a copy of a check and receives a substitute check. If feasible, the bank shall provide this disclosure at the time of the consumer’s request; otherwise, the bank shall provide this disclosure no later than the time at which the bank provides a substitute check in response to the consumer’s request.

(ii) The bank shall provide the disclosure described in paragraph (a) of this section to a consumer customer of the bank who receives a returned substitute check, at the time the bank provides such substitute check.

(3) Multiple account holders. A bank need not give separate disclosures to each customer on a jointly held account.

§229.58 Mode of delivery of information.

A bank may deliver any notice or other information that it is required to provide under this subpart by United States mail or by any other means through which the recipient has agreed to receive account information. If a bank is required to provide an original check or a sufficient copy, the bank instead may provide an electronic image of the original check or sufficient copy if the recipient has agreed to receive that information electronically.

§229.59 Relation to other law.

The Check 21 Act and this subpart supersede any provision of federal or state law, including the Uniform Commercial Code, that is inconsistent with the Check 21 Act or this subpart, but only to the extent of the inconsistency.

§229.60 Variation by agreement.

Any provision of §229.55 may be varied by agreement of the banks involved. No other provision of this subpart may be varied by agreement by any person or persons.
APPENDIX A TO PART 229—ROUTING NUMBER GUIDE TO NEXT-DAY AVAILABILITY CHECKS AND LOCAL CHECKS

A. Each bank is assigned a routing number by an agent of the American Bankers Association. The routing number takes two forms: a fractional form and a nine-digit form. A paying bank generally is identified on the face of a check by its routing number in both the fractional form (which generally appears in the upper right-hand corner of the check) and the nine-digit form (which is printed in magnetic ink along the bottom of the check). Where a check is payable by one bank but payable through another bank, the routing number appearing on the check is that of the payable-through bank, not the payor bank.

B. The first four digits of the nine-digit routing number (and the denominator of the fractional routing number) form the “Federal Reserve routing symbol,” and the first two digits of the routing number identify the Federal Reserve District in which the bank is located. Thus, 01 will be the first two digits of the routing number of a bank in the First Federal Reserve District (Boston), and 12 will be the first two digits of the routing number of a bank in the Twelfth District (San Francisco). Adding 2 to the first digit denotes a thrift institution. Thus, 21 identifies a thrift in the First District, and 32 denotes a thrift in the Twelfth District.

C. Each Federal Reserve check-processing office is listed below, followed by the Federal Reserve routing symbols of the banks that are located within the check-processing region served by that office. Because some check-processing regions cross Federal Reserve District lines, there are some cases in which banks in different Federal Reserve Districts are located in the same check-processing region and therefore considered local to each other. For example, banks in Fairfield County, Connecticut are located in the Second District and have Second District routing symbols (0211 or 2211), but the head office of the Federal Reserve Bank of Philadelphia processes the checks of these banks. Thus, as indicated below, checks drawn on banks with 0211 or 2211 routing numbers would be local for banks served by the head office of the Federal Reserve Bank of Philadelphia.

C-23 Expedited Recredit Claim, Provisional Refund Notice

C-24 Expedited Recredit Claim, Denial Notice

C-25 Expedited Recredit Claim, Reversal Notice

Model Availability Policy Disclosures

C-1—Next-Day Availability

Your Ability To Withdraw Funds

Our policy is to make funds from your cash and check deposits available to you on the first business day after the day we receive your deposit. Electronic direct deposits will be available on the day we receive the deposit. Once the funds are available, you can withdraw them in cash and we will use them to pay checks that you have written.

For determining the availability of your deposits, every day is a business day, except Saturdays, Sundays, and federal holidays. If you make a deposit before (time of day) on a business day that we are open, we will consider that day to be the day of your deposit. However, if you make a deposit after (time of day)
Your Ability To Withdraw Funds

Our policy is to make funds from your cash and check deposits available to you on the first business day after the day we receive your deposit. Electronic direct deposits will be available on the day we receive the deposit. Once they are available, you can withdraw the funds in cash and we will use the funds to pay checks that you have written.

We will determine the availability of your deposits, every day is a business day, except Saturdays, Sundays, and federal holidays. If you make a deposit before (time of day) on a business day that we are open, we will consider that day to be the day of your deposit. However, if you make a deposit after (time of day) or on a day we are not open, we will consider that the deposit was made on the next business day we are open.

Longer Delays May Apply

Funds you deposit by check may be delayed for a longer period under the following circumstances:

- We believe a check you deposit will not be paid.
- You deposit checks totaling more than $5,000 on any one day.
- You redeposit a check that has been returned unpaid.
- You have overdrawn your account repeatedly in the last six months.
- There is an emergency, such as failure of computer or communications equipment.
- We will notify you if we delay your ability to withdraw funds for any of these reasons, and we will tell you when the funds will be available. They will generally be available no later than the (number) business day after the day of your deposit.

Special Rules for New Accounts

If you are a new customer, the following special rules will apply during the first 30 days your account is open.

Funds from electronic direct deposits to your account will be available on the day we receive the deposit. Funds from deposits of cash, wire transfers, and the first $5,000 of a day’s total deposits of cashier’s, certified, teller’s, traveler’s, and federal, state and local government checks will be available on the first business day after the day of your deposit if the deposit meets certain conditions. For example, the checks must be payable to you (and you may have to use a special deposit slip). The excess over $5,000 will be available on the ninth business day after the day of your deposit. If your deposit of these checks (other than a U.S. Treasury check) is not made in person to one of our employees, the first $5,000 will not be available until the second business day after the day of your deposit.

Funds from all other check deposits will be available on the (number) business day after the day of your deposit.

Your Ability To Withdraw Funds

Our policy is to make funds from your cash and check deposits available to you on the first business day after the day we receive your deposit. Electronic direct deposits will be available on the day we receive the deposit. Once they are available, you can withdraw the funds in cash and we will use the funds to pay checks that you have written.

For determining the availability of your deposits, every day is a business day, except Saturdays, Sundays, and federal holidays. If you make a deposit before (time of day) on a business day that we are open, we will consider that day to be the day of your deposit. However, if you make a deposit after (time of day) or on a day we are not open, we will consider that the deposit was made on the next business day we are open.

Longer Delays May Apply

In some cases, we will not make all of the funds that you deposit by check available to you on the first business day after the day of your deposit. Depending on the type of check that you deposit, funds may not be available until the fifth business day after the day of your deposit. The first $100 of your deposits, however, may be available on the first business day.

If we are not going to make all of the funds from your deposit available on the first business day, we will notify you at the time you make your deposit. We will also tell you when the funds will be available. If your deposit is not made directly to one of our employees, the first $5,000 will not be available until the second business day after the day of your deposit.

In addition, funds you deposit by check may be delayed for a longer period under the following circumstances:

- We believe a check you deposit will not be paid.
- You deposit checks totaling more than $5,000 on any one day.
- You redeposit a check that has been returned unpaid.
- You have overdrawn your account repeatedly in the last six months.
Federal Reserve System

• There is an emergency, such as failure of computer or communications equipment.
  We will notify you if we delay your ability to withdraw funds for any of these reasons, and we will tell you when the funds will be available. They will generally be available no later than the (number) business day after the day of your deposit.

Special Rules for New Accounts

If you are a new customer, the following special rules will apply during the first 30 days your account is open.

Funds from electronic direct deposits to your account will be available on the day we receive the deposit. Funds from deposits of cash, wire transfers, and the first $5,000 of a day’s total deposits of cashier’s, certified, teller’s, traveler’s, and federal, state and local government checks will be available on the first business day after the day of your deposit if the deposit meets certain conditions. For example, the checks must be payable to you (and you may have to use a special deposit slip). The excess over $5,000 will be available on the ninth business day after the day of your deposit. If your deposit of these checks (other than a U.S. Treasury check) is not made in person to one of our employees, the first $5,000 will not be available until the second business day after the day of your deposit.

Funds from all other check deposits will be available on the (number) business day after the day of your deposit.

C–4—Holds to Statutory Limits On All Deposits (Includes Chart)

Your Ability To Withdraw Funds

Our policy is to delay the availability of funds from your cash and check deposits. During the delay, you may not withdraw the funds in cash and we will not use the funds to pay checks that you have written.

Determining the Availability of a Deposit

The length of the delay is counted in business days from the day of your deposit. Every day is a business day except Saturdays, Sundays, and federal holidays. If you make a deposit before (time of day) on a business day that we are open, we will consider that day to be the day of your deposit. However, if you make a deposit after (time of day) or on a day we are not open, we will consider that the deposit was made on the next business day we are open.

The length of the delay varies depending on the type of deposit and is explained below.

Same-Day Availability

Funds from electronic direct deposits to your account will be available on the day we receive the deposit.

Next-Day Availability

Funds from the following deposits are available on the first business day after the day of your deposit:

• U.S. Treasury checks that are payable to you.
• Wire transfers.
• Checks drawn on (bank name) (unless any limitations related to branches in different states or check processing regions).

If you make the deposit in person to one of our employees, funds from the following deposits are also available on the first business day after the day of your deposit:

• Cash.
• State and local government checks that are payable to you (if you use a special deposit slip available from (where deposit slip may be obtained)).
• Cashier’s, certified, and teller’s checks that are payable to you (if you use a special deposit slip available from (where deposit slip may be obtained)).
• Federal Reserve Bank checks, Federal Home Loan Bank checks, and postal money orders, if these items are payable to you.

If you do not make your deposit in person to one of our employees (for example, if you mail the deposit), funds from these deposits will be available on the second business day after the day we receive your deposit.

Other Check Deposits

To find out when funds from other check deposits will be available, look at the first four digits of the routing number on the check.
Some checks are marked "payable through" and have a four-or nine-digit number nearby. For these checks, use this four-digit number (or the first four digits of the nine-digit number), not the routing number on the bottom of the check, to determine if these checks are local or nonlocal. Once you have determined the first four digits of the routing number (1234 in the examples above), the following chart will show you when funds from the check will be available:

<table>
<thead>
<tr>
<th>First four digits from routing number</th>
<th>When funds are available if a deposit is made on a Monday</th>
</tr>
</thead>
<tbody>
<tr>
<td>[local numbers]</td>
<td>Tuesday, $100 on the first business day after the day of your deposit, remaining funds on the second business day after the day of your deposit.</td>
</tr>
<tr>
<td>All other numbers</td>
<td>Tuesday, $100 on the first business day after the day of your deposit, remaining funds on the fifth business day after the day of your deposit.</td>
</tr>
</tbody>
</table>

If you deposit both categories of checks, $100 from the checks will be available on the first business day after the day of your deposit, not $100 from each category of check.

Longer Delays May Apply

Funds you deposit by check may be delayed for a longer period under the following circumstances:

- We believe a check you deposit will not be paid.
- You deposit checks totaling more than $5,000 on any one day.
- You redeposit a check that has been returned unpaid.
- You have overdrawn your account repeatedly in the last six months.
Federal Reserve System

- There is an emergency, such as failure of computer or communications equipment. We will notify you if we delay your ability to withdraw funds for any of these reasons, and we will tell you when the funds will be available. They will generally be available no later than the (number) business day after the day of your deposit.

Special Rules for New Accounts

If you are a new customer, the following special rules will apply during the first 30 days your account is open.

Funds from electronic direct deposits to your account will be available on the day we receive the deposit. Funds from deposits of cash, wire transfers, and the first $5,000 of a day’s total deposits of cashier’s, certified, teller’s, traveler’s, and federal, state and local government checks will be available on the first business day after the day of your deposit if the deposit meets certain conditions. For example, the checks must be payable to you (and you may have to use a special deposit slip). The excess over $5,000 will be available on the ninth business day after the day of your deposit. If your deposit of these checks (other than a U.S. Treasury check) is not made in person to one of our employees, funds from the following deposits are also available on the first business day after the day of your deposit:

- Cash.
- State and local government checks that are payable to you (if you use a special deposit slip available from (where deposit slip may be obtained)).
- Cashier’s, certified, and teller’s checks that are payable to you (if you use a special deposit slip available from (where deposit slip may be obtained)).
- Federal Reserve Bank checks, Federal Home Loan Bank checks, and postal money orders, if these items are payable to you.

If you do not make your deposit in person to one of our employees, funds from the following deposits will be available on the second business day after the day we receive your deposit.

Other Check Deposits

The delay for other check deposits depends on whether the check is a local or a nonlocal check. To see whether a check is a local or a nonlocal check, look at the routing number on the check:

Pt. 229, App. C
If the first four digits of the routing number (1234 in the examples above) are (list of local numbers), then the check is a local check. Otherwise, the check is a nonlocal check. Some checks are marked “payable through” and have a four- or nine-digit number nearby. For these checks, use the four-digit number (or the first four digits of the nine-digit number), not the routing number on the bottom of the check, to determine if these checks are local or nonlocal. Our policy is to make funds from local and nonlocal checks available as follows.

1. Local checks. The first $100 from a deposit of local checks will be available on the first business day after the day of your deposit. The remaining funds will be available on the second business day after the day of your deposit.

   For example, if you deposit a local check of $700 on a Monday, $100 of the deposit is available on Tuesday. The remaining $600 is available on Wednesday.

2. Nonlocal checks. The first $100 from a deposit of nonlocal checks will be available on the first business day after the day of your deposit. The remaining funds will be available on the fifth business day after the day of your deposit.

   For example, if you deposit a $700 nonlocal check on a Monday, $100 of the deposit is available on Tuesday. The remaining $600 is available on Monday of the following week.

3. Local and nonlocal checks. If you deposit both categories of checks, $100 from the
checks will be available on the first business
day after the day of your deposit, not $100
from each category of check.

Longer Delays May Apply
Funds you deposit by check may be de-
layed for a longer period under the following
circumstances:
• We believe a check you deposit will not
be paid.
• You deposit checks totaling more than
$5,000 on any one day.
• You redeposit a check that has been re-
turned unpaid.
• You have overdrawn your account re-
peatedly in the last six months.
• There is an emergency, such as failure of
computer or communications equipment.
We will notify you if we delay your ability
to withdraw funds for any of these reasons,
and we will tell you when the funds will be
available. They will generally be available
no later than the (number) business day after
the day of your deposit.

Special Rules For New Accounts
If you are a new customer, the following
special rules will apply during the first 30
days your account is open.
Funds from electronic direct deposits to
your account will be available on the day we
receive the deposit. Funds from deposits of
cash, wire transfers, and the first $5,000 of a
day’s total deposits of cashier’s, certified,
teller’s, traveler’s, and federal, state and
local government checks will be available on
the first business day after the day of your
deposit if the deposit meets certain condi-
tions. For example, the checks must be pay-
able to you (and you may have to use a spe-
cial deposit slip). The excess over $5,000 will
be available on the ninth business day after
the day of your deposit. If your deposit of
these checks (other than a U.S. Treasury
check) is not made in person to one of our
employees, the first $5,000 will not be avail-
able until the second business day after the
day of your deposit.
Funds from all other check deposits will be
available on the (number) business day after
the day of your deposit.

C-5A—Substitute Check Policy Disclosure
Substitute Checks and Your Rights—(Impor-
tant Information About Your Checking Ac-
count)
Substitute Checks and Your Rights
What Is a Substitute Check?
To make check processing faster, federal
law permits banks to replace which checks
with “substitute checks.” These checks are
similar in size to original checks with a
slightly reduced image of the front and back
of the original check. The front of a sub-
stitute check states: “This is a legal copy of
your check. You can use it the same way you
would use the original check.” You may use
a substitute check as proof of payment just
like the original check.

Some or all of the checks that you receive
back from us may be substitute checks. This
notice describes rights you have when you
receive substitute checks from us. The rights
in this notice do not apply to original checks
or to electronic debits to your account. How-
ever, you have rights under other law with
respect to those transactions.

What Are My Rights Regarding Substitute
Checks?
In certain cases, federal law provides a spe-
cial procedure that allows you to request a
refund for losses you suffer if a substitute
check is posted to your account (for exam-
pie, if you think that we withdrew the wrong
amount from your account or that we with-
drew money from your account more than
once for the same check). The losses you
may attempt to recover under this procedure
may include the amount that was withdrawn
from your account and fees that were
charged as a result of the withdrawal (for ex-
ample, bounced check fees).

The amount of your refund under this pro-
cedure is limited to the amount of your loss
or the amount of the substitute check, whichver is less. You also are entitled to in-
terest on the amount of your refund if your
account is an interest-bearing account. If
your loss exceeds the amount of the sub-
stitute check, you may be able to recover ad-
tional amounts under other law.

If you use this procedure, you may receive
up to (amount, not lower than $2,500) of your
refund (plus interest if your account earns
interest) within (number of days, not more
than 10) business days after we received your
claim and the remainder of your refund (plus
interest if your account earns interest) not
later than (number of days, not more than 45)
calendar days after we received your claim.
We may reverse the refund (including any
interest on the refund) if we later are able to
demonstrate that the substitute check was
correctly posted to your account.

How Do I Make a Claim for a Refund?
If you believe that you have suffered a loss
relating to a substitute check that you re-
ceived and that was posted to your account,
please contact us at (contact information, for
example phone number, mailing address, e-mail
address). You must contact us within (number
of days, not less than 40) calendar days of the
date that we mailed (or otherwise delivered
by a means to which you agreed) the sub-
stitute check in question or the account
statement showing that the substitute check
was posted to your account, whichever is
later. We will extend this time period if you

Federal Reserve System
Pt. 229, App. C

689
were not able to make a timely claim because of extraordinary circumstances.

Your claim must include—
- A description of why you have suffered a loss (for example, you think the amount withdrawn was incorrect);
- An estimate of the amount of your loss;
- An explanation of why the substitute check you received is insufficient to confirm that you suffered a loss; and
- A copy of the substitute check [and/or] the following information to help us identify the substitute check: (identifying information, for example the check number, the name of the person to whom you wrote the check, the amount of the check).

Model Clauses

C–6—Holds on Other Funds (Check Cashing)

If we cash a check for you that is drawn on another bank, we may withhold the availability of a corresponding amount of funds that are already in your account. Those funds will be available at the time funds from the check we cashed would have been available if you had deposited it.

C–7—Holds on Other Funds (Other Account)

If we accept for deposit a check that is drawn on another bank, we may make funds from the deposit available for withdrawal immediately but delay your availability to withdraw a corresponding amount of funds that you have on deposit in another account with us. The funds in the other account would then not be available for withdrawal until the time periods that are described elsewhere in this disclosure for the type of check that you deposited.

C–8—Appendix B Availability (Nonlocal Checks)

3. Certain other checks. We can process nonlocal checks drawn on financial institutions in certain areas faster than usual. Therefore, funds from deposits of checks drawn on institutions in those areas will be available to you more quickly. Call us if you would like a list of the routing numbers for these institutions.

C–9—Automated Teller Machine Deposits (Extended Hold)

Deposits at Automated Teller Machines

Funds from any deposits (cash or checks) made at automated teller machines (ATMs) we do not own or operate will not be available until the fifth business day after the day of your deposit. This rule does not apply at ATMs that we own or operate. (A list of our ATMs is enclosed, or A list of ATMs where you can make deposits but that are not owned or operated by us is enclosed, or All ATMs that we own or operate are identified as our machines.)

C–10—Cash Withdrawal Limitation

Cash Withdrawal Limitation

We place certain limitations on withdrawals in cash. In general, $100 of a deposit is available for withdrawal in cash on the first business day after the day of deposit. In addition, a total of $400 of other funds becoming available on a given day is available for withdrawal in cash at or after (time no later than 5:00 p.m.) on that day. Any remaining funds will be available for withdrawal in cash on the following business day.

C–11—Credit Union Interest Payment Policy

Interest Payment Policy

If we receive a deposit to your account on or before the tenth of the month, you begin earning interest on the deposit (whether it was a deposit of cash or checks) as of the first day of that month. If we receive the deposit after the tenth of the month, you begin earning interest on the deposit as of the first of the following month. For example, a deposit made on June 7 earns interest from June 1, while a deposit made on June 17 earns interest from July 1.

C–11A—Availability of Funds Deposited at Other Locations

Deposits at Other Locations

This availability policy only applies to funds deposited at (location). Please inquire for information about the availability of funds deposited at other locations.

Model Notices

C–12—Exception Hold Notice

Notice of Hold

Account number: (number)
Date of deposit: (date)

We are delaying the availability of (amount being held) from this deposit. These funds will be available on the (number) business day after the day of your deposit.

We are taking this action because:
- A check you deposited was previously returned unpaid.
- You have overdrawn your account repeatedly in the last six months.
- The checks you deposited on this day exceed $5,000.
- An emergency, such as failure of computer or communications equipment, has occurred.
- We believe a check you deposited will not be paid for the following reasons [*]:

______
Federal Reserve System

[IF you did not receive this notice at the time you made the deposit and the check you deposited is paid, we will refund to you any fees for overdrafts or returned checks that result solely from the additional delay that we are imposing. To obtain a refund of such fees, (description of procedure for obtaining refund).]

C–13—Reasonable Cause Hold Notice

Notice of Hold
Account number: (number)

Date of deposit: (date)
We are delaying the availability of the funds you deposited by the following check: (description of check, such as amount and drawer.)

These funds will be available on the (number) business day after the day of your deposit. The reason for the delay is explained below:
—We received notice that the check is being returned unpaid.
—We have confidential information that indicates that the check may not be paid.
—The check is drawn on an account with repeated overdrafts.
—We are unable to verify the endorsement of a joint payee.
—Some information on the check is not consistent with other information on the check.
—There are erasures or other apparent alterations on the check.
—The routing number of the paying bank is not a current routing number.
—The check is postdated or has a stale date.
—Information from the paying bank indicates that the check may not be paid.
—We have been notified that the check has been lost or damaged in collection.
—Other:

[If you did not receive this notice at the time you made the deposit and the check you deposited is paid, we will refund to you any fees for overdrafts or returned checks that result solely from the additional delay that we are imposing. To obtain a refund of such fees, (description of procedure for obtaining refund).]

C–15—One-Time Notice for Repeated Overdraft Exception Hold

Notice of Hold
Account Number: (number) Date of Notice: (date)
We are delaying the availability of checks deposited into your account due to repeated overdrafts of your account. For the next six months, deposits will generally be available on the (number) business day after the day of your deposit for checks drawn on (bank name), the (number) business day after the day of deposit for local checks and the (number) business day after the day of deposit for nonlocal checks. Checks (not drawn on us) that otherwise would receive next-day availability will be treated as either local or nonlocal checks depending on the location of the paying bank.

C–16—Case-by-Case Hold Notice

Notice of Hold
Account number: (number) Date of deposit: (date)
We are delaying the availability of (amount being held) from this deposit. These funds will be available on the (number) business day after the day of your deposit ([subject to our cash withdrawal limitation policy]).

[If you did not receive this notice at the time you made the deposit and the check you deposited is paid, we will refund to you any fees for overdrafts or returned checks that result solely from the additional delay]
that we are imposing. To obtain a refund of such fees, (description of procedure for obtaining refund.)

C–17—Notice at locations where employees accept consumer deposits

Funds Availability Policy

C–18—Notice at locations where employees accept consumer deposits (case-by-case holds)

Funds Availability Policy

Our general policy is to allow you to withdraw funds deposited in your account on the (number) business day after the day we receive your deposit. Funds from electronic direct deposits will be available on the day we receive the deposit. In some cases, we may delay your ability to withdraw funds beyond the (number) business day. Then, the funds will generally be available by the fifth business day after the day of deposit.

C–19—Notice at Automated Teller Machines

Availability of Deposits

Funds from deposits may not be available for immediate withdrawal. Please refer to your institution's rules governing funds availability for details.

C–20—Notice at Automated Teller Machines (Delayed Receipt)

NOTICE

Deposits at this ATM between (day) and (day) will not be considered received until (day). The availability of funds from the deposit may be delayed as a result.

C–21—Deposit Slip Notice

Deposits may not be available for immediate withdrawal.

12 CFR Ch. II (1–1–09 Edition)

C–22—Expedited Recredit Claim, Valid Claim
Refund Notice
Notice of Valid Claim and Refund

We have determined that your substitute check claim is valid. We are refunding (amount) [of which (amount) represents fees] [and] [(amount) represents accrued interest] to your account. You may withdraw these funds as of (date). [This refund is the amount in excess of the $2,500 (plus interest) that we credited to your account on (date).]

C–23—Expedited Recredit Claim, Provisional Refund Notice

Notice of Provisional Refund

In response to your substitute check claim, we are refunding (amount) [of which (amount) represents fees] [and] [(amount) represents accrued interest] to your account, while we complete our investigation of your claim. You may withdraw these funds as of (date). [Unless we determine that your claim is not valid, we will credit the remaining amount of your refund to your account no later than the 45th calendar day after we received your claim.]

If, based on our investigation, we determine that your claim is not valid, we will reverse the refund by withdrawing the amount of the refund (plus interest that we have paid you on that amount) from your account. We will notify you within one day of any such reversal.

C–24—Expedited Recredit Claim, Denial Notice

Denial of Claim

Based on our review, we are denying your substitute check claim. As the enclosed (type of document, for example original check or sufficient copy) shows, (describe reason for denial, for example the check was properly posted, the signature is authentic, there was no warranty breach).

[We have also enclosed a copy of the other information we used to make our decision.]

[Upon your request, we will send you a copy of the other information that we used to make our decision.]

C–25—Expedited Recredit Claim, Reversal Notice

Reversal of Refund

In response to your substitute check claim, we provided a refund of (amount) by crediting your account on (date(s)). We now have determined that your substitute check claim was not valid. As the enclosed (type of document, for example original check or sufficient copy) shows, (describe reason for reversal, for example the check was properly posted, the signature is authentic, there was no warranty breach). As a result, we have reversed the refund to your
Federal Reserve System

APPENDIX D TO PART 229—INDORSEMENT, RECONVERTING BANK IDENTIFICATION, AND TRUNCATING BANK IDENTIFICATION STANDARDS

(1) The depositary bank shall indorse an original check or substitute check according to the following specifications:
   (i) The indorsement shall contain—
      (A) The bank’s nine-digit routing number, set off by an arrow at each end of the number and pointing toward the number, and, if the depositary bank is a reconverting bank with respect to the check, an asterisk outside the arrow at each end of the routing number to identify the bank as a reconverting bank;
      (B) The indorsement date; and
      (C) The bank’s name or location, if the depositary bank applies the indorsement physically.
   (ii) The indorsement also may contain—
      (A) A branch identification;
      (B) A trace or sequence number;
      (C) A telephone number for receipt of notification of large-dollar returned checks; and
      (D) Other information, provided that the inclusion of such information does not interfere with the readability of the indorsement.
   (iii) The indorsement, if applied to an existing paper check, shall be placed on the back of the check so that the routing number is wholly contained in the area 3.0 inches from the leading edge of the check to 1.5 inches from the trailing edge of the check.

   (iv) When printing its depositary bank indorsement (or a depositary bank indorsement that previously was applied electronically) onto a substitute check at the time that the substitute check is created, a reconverting bank shall place the indorsement on the back of the check between 0.25 and 2.50 inches from the trailing edge of the check.

31 The leading edge is defined as the right side of the check looking at it from the front. The trailing edge is defined as the left side of the check looking at it from the front. See American National Standards Specifications for the Placement and Location of MICR Printing, X9.13.

(2) Each subsequent collecting bank or returning bank indorser shall protect the identifiability and legibility of the depositary bank indorsement by indorsing an original check or substitute check according to the following specifications:
   (i) The indorsement shall contain only—
      (A) The bank’s nine-digit routing number (without arrows) and, if the collecting bank or returning bank is a reconverting bank with respect to the check, an asterisk at each end of the number to identify the bank as a reconverting bank;
      (B) The indorsement date, and
      (C) An optional trace or sequence number.
   (ii) The indorsement, if applied to an existing paper check, shall be placed on the back of the check from 0.0 inches to 3.0 inches from the leading edge of the check.
   (iii) When printing its collecting bank or returning bank indorsement (or a collecting bank or returning bank indorsement that previously was applied electronically) onto a substitute check at the time that the substitute check is created, a reconverting bank shall place the indorsement on the back of the check between 0.25 and 2.50 inches from the trailing edge of the check.

(3) A reconverting bank shall comply with the following specifications when creating a substitute check:
   (i) If it is a depositary bank, collecting bank, or returning bank with respect to the substitute check, the reconverting bank shall place its own indorsement onto the back of the check as specified in this appendix.
   (ii) A reconverting bank that also is the paying bank with respect to the substitute check shall so identify itself by placing on the back of the check, between 0.25 and 2.50 inches from the trailing edge of the check, its nine-digit routing number (without arrows) and an asterisk at each end of the number.
   (iii) The reconverting bank shall place on the front of the check, outside the image of the original check, the reconverting bank’s nine-digit routing number (without arrows) and a bracket at each end of the number, in accordance with ANSI X9.100-140.
   (iv) The reconverting bank shall place on the front of the check, outside the image of the original check, the reconverting bank’s nine-digit routing number (without arrows) and a bracket at each end of the number, in accordance with ANSI X9.100-140.

(4) Any indorsement, reconverting bank identification, or truncating bank identification placed on an original check or substitute check shall be printed in black ink.

[69 FR 47316, Aug. 4, 2004]
APPENDIX E TO PART 229—COMMENTARY

1. Introduction

A. Background

1. The Board interpretations, which are labeled “Commentary” and follow each section of Regulation CC (12 CFR Part 229), provide background material to explain the Board’s intent in adopting a particular part of the regulation; the Commentary also provides examples to aid in understanding how a particular requirement is to work. Under section 611(e) of the Expedited Funds Availability Act (12 U.S.C. 4010(e)), no provision of section 611 imposing any liability shall apply to an act done or omitted in good faith conformity with any rule, regulation, or interpretation thereof by the Board of Governors of the Federal Reserve System, notwithstanding the fact that after such act or omission has occurred, such rule, regulation, or interpretation is amended, rescinded, or determined by judicial or other authority to be invalid for any reason. The Commentary is an “interpretation” of a regulation by the Board within the meaning of section 611.

II. Section 229.2 Definitions

A. Background

1. Section 229.2 defines the terms used in the regulation. For the most part, terms are defined as they are in section 602 of the Expedited Funds Availability Act (12 U.S.C. 4001). The Board has made a number of changes for the sake of clarity, to conform the terminology to that which is familiar to the banking industry, to define terms that are not defined in the EFA Act, and to carry out the purposes of the EFA Act. The Board also has incorporated by reference the definitions of the Uniform Commercial Code where appropriate. Some of Regulation CC’s definitions are self-explanatory and therefore are not discussed in this Commentary.

B. 229.2(a) Account

1. The EFA Act defines account to mean “a demand deposit account or similar transaction account at a depository institution.” The regulation defines account, for purposes other than subpart D, in terms of the definition of “transaction account” in the Board’s Regulation D (12 CFR part 204). This definition of account, however, excludes certain deposits, such as nondocumentary obligations (see 12 CFR 204.2(a)(1)(vii)), that are covered under the definition of “transaction account” in Regulation D. The definition applies to accounts with general third party payment powers but does not cover time deposits or savings deposits, including money market deposit accounts, even though they may have limited third party payment powers. The Board believes that it is appropriate to exclude these accounts because of the reference to demand deposits in the EFA Act, which suggests that the EFA Act is intended to apply only to accounts that permit unlimited third party transfers.

2. The term account also differs from the definition of transaction account in Regulation D because the term account refers to accounts held at banks. Under Subparts A and C, the term bank includes not only any depository institution, as defined in the EFA Act, but also any person engaged in the business of banking, such as a Federal Reserve Bank, a Federal Home Loan Bank, or a private banker that is not subject to Regulation D. Thus, accounts at these institutions benefit from the expedited return requirements of Subpart C.

3. Interbank deposits, including accounts of offices of domestic banks or foreign banks located outside the United States, and direct and indirect accounts of the United States Treasury (including Treasury General Accounts and Treasury Tax and Loan deposits) are exempt from subpart B and, in connection therewith, subpart A. However, interbank deposits are included as accounts for purposes of subparts C and D and, in connection therewith, subpart A.

4. The Check 21 Act defines account to mean any deposit account at a bank. Therefore, for purposes of subpart D and, in connection therewith, subpart A, account means any deposit, as that term is defined by §204.2(a)(1)(i) of Regulation D, at a bank. Many deposits that are not accounts for purposes of the other subparts of Regulation CC, such as savings deposits, are accounts for purposes of subpart D.

C. 229.2(b) Automated Clearinghouse (ACH)

1. The Board has defined automated clearinghouse as a facility that processes debit and credit transfers under rules established by a Federal Reserve Bank operating circular governing automated clearinghouse items or the rules of an ACH association. ACH credit transfers are included in the definition of electronic payment.

2. The reference to “debit and credit transfers” does not refer to the corresponding debit and credit entries that are part of the same transaction, but to different kinds of ACH payments. In an ACH credit transfer, the originator orders its account be debited and another account credited. In an ACH debit transfer, the originator, with prior authorization, orders another account to be debited and the originator’s account to be credited.

3. A facility that handles only wire transfers (defined elsewhere) is not an ACH.

D. 229.2(c) Automated Teller Machine (ATM)

1. ATM is not defined in the EFA Act. The regulation defines an ATM as an electronic
Federal Reserve System

Pt. 229, App. E

device at which a natural person may make deposits to an account by cash or check and perform other account transactions. Point-of-sale terminals, machines that only dispense cash, night depositories, and lobby deposit boxes are not ATMs within the meaning of the definition, either because they do not accept deposits of cash or checks (e.g., point-of-sale terminals and cash dispensers) or because they only accept deposits (e.g., night depositories and lobby boxes) and cannot perform other transactions. A lobby deposit box or similar receptacle in which written payment orders or deposits may be placed is not an ATM.

2. A facility may be an ATM within this definition even if it is a branch under state or federal law, although an ATM is not a branch as that term is used in this regulation.

E. 229.2(d) Available for Withdrawal

1. Under this definition, when funds become available for withdrawal, the funds may be put to all uses for which the customer may use actually and finally collected funds in the customer’s account under the customer’s account agreement with the bank. Examples of such uses include payment of checks drawn on the account, certification of checks, electronic payments, and cash withdrawals. Funds are available for these uses notwithstanding provisions of other law that may restrict the use of uncollected funds (e.g., 18 U.S.C. 1004; 12 U.S.C. 331).

2. If a bank makes funds available to a customer for a specific purpose (such as paying checks that would otherwise overdraw the customer’s account and be returned for insufficient funds) before the funds must be made available under the bank’s policy or this regulation, it may nevertheless apply a hold consistent with this regulation to those funds for other purposes (such as cash withdrawals). For purposes of this regulation, funds are considered available for withdrawal even though they are being held by the bank to satisfy an obligation of the customer other than the customer’s potential liability for the return of the check. For example, a bank does not violate its obligations under this subpart by holding funds to satisfy a garnishment, tax levy, or court order restricting disbursements from the account; or to satisfy the customer’s liability arising from the certification of a check, sale of a cashier’s or teller’s check, guaranty or acceptance of a check, or similar transaction to be debited from the customer’s account.

F. 229.2(e) Bank

1. The EFA Act uses the term depository institution, which it defines by reference to section 19(b)(1)(A)(i) through (vi) of the Federal Reserve Act (12 U.S.C. 461(b)(1)(A)(i) through (vi)). This regulation uses the term bank, a term that conforms to the usage the Board has previously adopted in Regulation J. Bank is also used in Articles 4 and 4A of the Uniform Commercial Code.

2. Bank is defined to include depository institutions, such as commercial banks, savings banks, savings and loan associations, and credit unions as defined in the EFA Act, and U.S. branches and agencies of foreign banks. For purposes of Subpart B, the term does not include corporations organized under section 25A of the Federal Reserve Act, 12 U.S.C. 611-631 (Edge corporations) or corporations having an agreement or undertaking with the Board under section 25 of the Federal Reserve Act, 12 U.S.C. 601-604a (agreement corporations). For purposes of Subparts C and D, and in connection therewith, Subpart A, any Federal Reserve Bank, Federal Home Loan Bank, or any other person engaged in the business of banking is regarded as a bank. The phrase “any other person engaged in the business of banking” is derived from U.C.C. 1–201(4), and is intended to cover entities that handle checks for collection and payment, such as Edge and agreement corporations, commercial lending companies under 12 U.S.C. 3161, certain industrial banks, and private bankers, so that virtually all checks will be covered by the same rules for forward collection and return, even though they may not be covered by the requirements of Subpart B. For the purposes of Subparts C and D, and in connection therewith, Subpart A, the term also may include a state or a unit of general local government to the extent that it pays warrants or other drafts drawn directly on the state or local government itself, and the warrants or other drafts are sent to the state or local government for payment or collection.

3. Unless otherwise specified, the term bank includes all of a bank’s offices in the United States. The regulation does not cover foreign offices of U.S. banks.

4. For purposes of subpart D and, in connection therewith, subpart A, the term bank also includes the Treasury of the United States and the United States Postal Service to the extent that they act as payors because the Check 21 Act includes these two entities in the definition of the term bank to the extent that they act as payors.

G. 229.2(f) Banking Day and (g) Business Day

1. The EFA Act defines business day as any day excluding Saturdays, Sundays, and legal holidays. Legal holiday, however, is not defined, and the variety of local holidays, together with the practice of some banks to close midweek, makes the EFA Act’s definition difficult to apply. The Board believes that two kinds of business days are relevant. First, when determining the day when funds are deposited or when a bank must perform

certain actions (such as returning a check), the focus should be on a day that the bank is actually open for business. Second, when counting days for purposes of determining when funds must be available under the regulation or when notice of nonpayment must be received by the depositary bank, there would be confusion and uncertainty in trying to determine the schedule of a particular bank, and there is less need to identify a day when a particular bank is open. Most banks that act as intermediaries (large correspondents and Federal Reserve Banks) follow the same holiday schedule. Accordingly, the regulation has two definitions: Business day generally follows the standard Federal Reserve Bank holiday schedule (which is followed by most large banks), and banking day is defined to mean that part of a business day on which a bank is open for substantially all of its banking activities.

2. The definition of banking day corresponds to the definition of banking day in U.C.C. 4–104(a)(3), except that a banking day is defined in terms of a business day. Thus, if a bank is open on Saturday, Saturday might be a banking day for purposes of the U.C.C., but it would not be a banking day for purposes of Regulation CC because Saturday is never a business day under the regulation.

3. The definition of banking day is phrased in terms of when “an office of a bank is open” to indicate that a bank may observe a banking day on a per-branch basis. A deposit made at an ATM or off-premise facility (such as a remote depository or a lock box) is considered made at the branch holding the account into which the deposit is made for the purpose of determining the day of deposit. All other deposits are considered made at the branch at which the deposit is received. For example, under §229.19(a)(1), funds deposited at an ATM are considered deposited at the time they are received at the ATM. On a calendar day that is a banking day for the branch or other location of the depository bank at which the account is maintained, a deposit received at an ATM before the ATM’s cut-off hour is considered deposited on that banking day, and a deposit received at an ATM after the ATM’s cut-off hour is considered deposited on the next banking day of the branch or other location where the account is maintained. On a calendar day that is not a banking day for the account-holding location, all ATM deposits are considered deposited on that location’s next banking day. This rule for determining the day of deposit also would apply to a deposit to an off-premise facility, such as a night depository or lock box, which is considered deposited when removed from the facility and available for processing under §229.19(a)(3). If an unstaffed facility, such as a night depository or lock box, is on branch premises, the day of deposit is determined by the banking day at the branch at which the deposit is received, whether or not it is the branch at which the account is maintained.

H. 229.2(b) Cash

1. Cash means U.S. coins and currency. The phrase in the EFA Act “including Federal Reserve notes” has been deleted as unnecessary. (See 31 U.S.C. 5103.)

I. 229.2(i) Cashier’s Check

1. The regulation adds to the second item in the EFA Act’s definition of cashier’s check the phrase, “on behalf of the bank as drawer,” to clarify that the term cashier’s check is intended to cover only checks that a bank draws on itself. The definition of cashier’s check includes checks provided to a customer of the bank in connection with customer deposit account activity, such as account disbursements and interest payments. The definition also includes checks acquired from a bank by noncustomers for remittance purposes, such as certain loan disbursement checks. Cashier’s checks provided to customers or others are often labeled as “cashier’s check,” “official check,” or “official check.” The definition excludes checks that a bank draws on itself for other purposes, such as to pay employees and vendors, and checks issued by the bank in connection with a payment service, such as a payroll or a bill-paying service. Cashier’s checks generally are sold by banks to substitute the bank’s credit for the customer’s credit and thereby enhance the collectibility of the checks. A check issued in connection with a payment service generally is provided as a convenience to the customer rather than as a guarantee of the check’s collectibility. In addition, such checks are often more difficult to distinguish from other types of checks than are cashier’s checks as defined by this regulation.

J. 229.2(j) Certified Check

1. The EFA Act defines a certified check as one to which a bank has certified that the drawer’s signature is genuine and that the bank has set aside funds to pay the check. Under the Uniform Commercial Code, certification of a check means the bank’s agreement that it will honor the check as presented (U.C.C. 3–409). The regulation defines certified check to include both the EFA Act’s and U.C.C.’s definitions.

K. 229.2(k) Check

1. Check is defined in section 602(7) of the EFA Act as a negotiable demand draft drawn on or payable through an office of a depository institution located in the United States, excluding noncash items. The regulation includes six categories of instruments within the definition of check.

2. The first category is negotiable demand drafts drawn on, or payable through or at, an
Federal Reserve System

Pt. 229, App. E

office of a bank. As the definition of bank includes only offices located in the United States, this category is limited to checks drawn on, or payable through or at, a banking office located in the United States.

3. The EFA Act treats drafts payable through a bank as checks, even though under the U.C.C. the payable-through bank is a collecting bank to make presentment and generally is not authorized to make payment (U.C.C. 4-106(a)). The EFA Act does not expressly address items that are payable at a bank. This regulation treats both payable-through and payable-at demand drafts as checks. The Board believes that treating demand drafts payable at a bank as checks will not have a substantial effect on the operations of payable-at banks—by far the largest proportion of payable-at items are not negotiable demand drafts, but time items, such as commercial paper, bonds, notes, bankers’ acceptances, and securities. These time items are not covered by the requirements of the EFA Act or this regulation. (The treatment of payable-through drafts is discussed in greater detail in connection with the definitions of local check and paying bank.)

4. The second category is checks drawn on Federal Reserve Banks and Federal Home Loan Banks. Principal and interest payments on federal debt instruments often are paid with checks drawn on a Federal Reserve Bank as fiscal agent of the United States, and these fiscal agency checks are indistinguishable from other checks drawn on Federal Reserve Banks. Similarly, savings and loan associations often use checks drawn on Federal Home Loan Banks as teller’s checks. The definition of check includes checks drawn on Federal Home Loan Banks as teller’s checks.

5. The third and fourth categories of instruments included in the definition of check refer to government checks. The EFA Act refers to checks drawn on the U.S. Treasury, even though these instruments are not drawn on or payable through an office of a depository institution, and checks drawn by state and local governments. The EFA Act also gives the Board authority to define functionally equivalent instruments as depository checks. Thus, the EFA Act is intended to apply to instruments other than those that meet the strict definition of check in section 602(7) of the EFA Act. Checks and warrants drawn by states and local governments often are used for the purposes of making unemployment compensation payments and other payments important to the recipients. Consequently, the Board has expressly defined check to include drafts drawn on the U.S. Treasury and drafts or warrants drawn by a state or a unit of general local government on itself.

6. The fifth category of instrument included in the definition of check is U.S. Postal Service money orders. These instruments are defined as checks because they often are used as a substitute for checks by consumers, even though money orders are not negotiable under Postal Service regulations. The Board has not provided specific rules for other types of money orders; these instruments generally are drawn on or payable through or payable at and are treated as checks on that basis.

7. The sixth and final category of instrument included in the definition of check is traveler’s checks drawn on or payable through or at a bank. Traveler’s check is defined in paragraph (hh) of this section.

8. Finally, for purposes of Subparts C and D, and in connection therewith, Subpart A, the definition of check includes nonnegotiable demand drafts because these instruments are often handled as cash items in the forward collection process.

9. A substitute check as defined in §229.2(aa) is a check for purposes of Regulation CC and the U.C.C., even if that substitute check does not meet the requirements for legal equivalence set forth in §229.51(a).

10. The definition of check does not include an instrument payable in a foreign currency (i.e., other than in United States money as defined in 31 U.S.C. 5101) or a credit card draft (i.e., a sales draft used by a merchant or a draft generated by a bank as a result of a cash advance), or an ACH debit transfer. The definition of check includes a check that a bank may supply to a customer as a means of accessing a credit line without the use of a credit card.

L. 229.2(a) [Reserved]
M. 229.2(m) Check Processing Region

1. The EFA Act defines this term as “the geographic area served by a Federal Reserve bank check processing center or such larger area as the Board may prescribe by regulations.” The Board has defined check processing region as the territory served by one of the Federal Reserve head offices, branches, or regional check processing centers. Appendix A includes a list of routing numbers arranged by Federal Reserve Bank office. The definition of check processing region is key to determining whether a check is considered local or nonlocal.
N. 229.2(n) Consumer Account

1. Consumer account is defined as an account used primarily for personal, family, or household purposes. An account that does not meet the definition of consumer account is a nonconsumer account. A clearing account maintained at a bank directly by a brokerage firm is not a consumer account, even if the account is used to pay checks drawn by consumers using the funds in that account. The bank’s relationship is with the brokerage firm, and the account is used by the brokerage firm to facilitate the clearing of its customers’ checks. Because for purposes of Regulation CC the term account includes only deposit accounts, a consumer’s revolving credit relationship or other line of credit with a bank is not a consumer account, even if the consumer draws on such credit lines by using a check. Both consumer and nonconsumer accounts are subject to the requirements of this regulation, including the requirement that funds be made available according to specific schedules and that the bank make specified disclosures of its availability policies. Section 229.18(b) (notices at branch locations) and §229.18(e) (notice of changes in policy) apply only to consumer accounts. Section 229.13(g)(2) (one-time exception notice) and §229.19(d) (use of calculated availability) apply only to nonconsumer accounts.

O. 229.2(o) Depositary Bank

1. The regulation uses the term depositary bank rather than the term receiving depositary institution. Receiving depositary institution is a term unique to the EFA Act, while depositary bank is the term used in Article 4 of the U.C.C. and Regulation J.

2. A depositary bank includes the bank in which the check is first deposited. If a foreign office of a U.S. or foreign bank sends checks to its U.S. correspondent bank for forward collection, the U.S. correspondent is the depositary bank because foreign offices of banks are not included in the definition of bank.

3. If a customer deposits a check in its account at a bank, the customer’s bank is the depositary bank with respect to the check. For example, if a person deposits a check into an account at a nonproprietary ATM, the bank holding the account into which the check is deposited is the depositary bank even though another bank may service the nonproprietary ATM and send the check for collection. (Under §229.35 the depositary bank may agree with the bank servicing the nonproprietary ATM to have the servicing bank place its own indorsement on the check as the depositary bank. For the purposes of Subpart C, the bank applying its indorsement as the depositary bank indorsement on the check is the depositary bank.)

4. For purposes of Subpart B, a bank may act as both the depositary bank and the paying bank with respect to a check, if the check is payable by the bank in which it was deposited, or if the check is payable by a nonbank payor and payable through or at the bank in which it was deposited. A bank also is considered a depositary bank with respect to checks it receives for loan repayment, even though these checks are not deposited in an account at the bank. Because these checks would not be “deposited to accounts,” they would not be subject to the availability or disclosure requirements of Subpart B.

P. 229.2(p) Electronic Payment

1. Electronic payment is defined to mean a wire transfer as defined in §229.2(11) or an ACH credit transfer. The EFA Act requires that funds deposited by wire transfer be made available for withdrawal on the business day following deposit, but expressly leaves the definition of the term wire transfer to the Board. Because ACH credit transfers frequently involve important consumer payments, such as wages, the regulation requires that funds deposited by ACH credit transfers be available for withdrawal on the business day following deposit.

2. ACH debit transfers, even though they may be transmitted electronically, are not defined as electronic payments because the receiver of an ACH debit transfer has the right to return the transfer, which would reverse the credit given to the originator. Thus, ACH debit transfers are more like checks than wire transfers. Further, bank customers that receive funds by originating ACH debit transfers are primarily large corporations, which generally would be able to negotiate with their banks for prompt availability.

3. A point-of-sale transaction would not be considered an electronic payment unless the transaction was effected by means of an ACH credit transfer or wire transfer.

Q. 229.2(q) Forward Collection

1. Forward collection is defined to mean the process by which a bank sends a check to the paying bank for collection, including sending the check to an intermediary collecting bank for settlement, as distinguished from the process by which the check is returned unpaid. Noncash collections are not included in the term forward collection.

R. 229.2(r) Local Check

1. Local check is defined as a check payable by or at a local paying bank, or, in the case of nonbank payors, payable through a local paying bank. A check payable by a local bank but payable through a nonlocal

698
bank is a local check. Conversely, a check payable through a local bank but payable by a nonlocal bank is a nonlocal check. Where two banks are named on a check and neither is designated as a payable-through bank, the check is considered payable by either bank and may be considered local or nonlocal depending on the bank to which it is sent for payment. Generally, the depositary bank may rely on the routing number to determine whether a check is local or nonlocal. Appendix A includes a list of routing numbers arranged by Federal Reserve Bank Office to assist persons in determining whether or not such a check is local. If, however, a check is payable by one bank but payable through another bank, the routing number appearing on the check will be that of the payable-through bank, not the paying bank. Many credit union share drafts and certain other checks payable by banks are payable through other banks. In such cases, the routing number cannot be relied on to determine whether the check is local or nonlocal. For payable-through checks that meet the labeling requirements of §229.36(e), the depositary bank may rely on the four-digit routing symbol of the paying bank that is printed on the face of the check as required by that section, e.g., in the title plate, but not on the first four digits of the payable-through bank’s routing number printed in magnetic ink in the MICR line or in fractional form, to determine whether the check is local or nonlocal.

S. 229.2(s) Local Paying Bank

1. “Local paying bank” is defined as a paying bank located in the same check-processing region as the branch, contractual branch, or proprietary ATM of the depositary bank. For example, a check deposited at a contractual branch would be deemed local or nonlocal based on the location of the contractual branch with respect to the location of the paying bank.

Examples:

a. If a check that is payable by a bank that is located in the same check processing region as the depositary bank is payable through a bank located in another check processing region, the check is considered local or nonlocal depending on the location of the bank by which it is payable even if the check is sent to the nonlocal bank for collection.

b. The location of the depositary bank is determined by the physical location of the branch or proprietary ATM at which a check is deposited, regardless of whether the deposit is made in person, by mail, or otherwise. For example, if a branch of the depositary bank located in one check-processing region sends a check that was deposited at that branch to the depositary bank’s central facility in another check-processing region, and the central facility is in the same check-processing region as the paying bank, the check is still considered nonlocal. (See the commentary to the definition of “paying bank.”)

c. If a person deposits a check to an account by mailing or otherwise sending the check to a facility or office that is not a bank, the check is considered local or nonlocal depending on the location of the bank whose indorsement appears on the check as the depositary bank.

T. 229.2(t) Merger Transaction

1. Merger transaction is a term used in Subparts B and C in connection with transition rules for merged banks. It encompasses mergers, consolidations, and purchase assumption transactions of the type that usually must be approved under the Bank Merger Act (12 U.S.C. 1828(c)) or similar statutes; it does not encompass acquisitions of a bank under the Holding Company Act (12 U.S.C. 1842) where an acquired bank maintains its separate corporate existence.

2. Regulation CC adopts a one-year transition period for banks that are party to a merger transaction during which the merged banks will continue to be treated as separate entities. (See §§229.19(g) and 229.40.)

U. 229.2(u) Noncash Item

1. The EFA Act defines the term check to exclude noncash items, and defines noncash items to include checks to which another document is attached, checks accompanied by special instructions, or any similar item classified as a noncash item in the Board’s regulation. To qualify as a noncash item, an item must be handled as such and may not be handled as a cash item by the depositary bank.

2. The regulation’s definition of noncash item also includes checks that consist of more than a single thickness of paper (except checks that qualify for handling by automated check processing equipment, e.g., those placed in carrier envelopes) and checks that have not been preprinted or post-encoded in magnetic ink with the paying bank’s routing number, as well as checks with documents attached or accompanied by special instructions. (In the context of this definition, paying bank refers to the paying bank as defined for purposes of Subpart C.)

3. A check that has been preprinted or post-encoded with a routing number that has been retired (e.g., because of a merger) for at least three years is a noncash item unless the current number is added for processing purposes by placing the check in an encoded carrier envelope or adding a strip to the check.

4. Checks that are accompanied by special instructions are also noncash items. For example, a person concerned about whether a check will be paid may request the depositary bank to send a check for collection as a
noncash item with an instruction to the paying bank to notify the depository bank promptly when the check is paid or dishonored.

5. For purposes of forward collection, a copy of a check is neither a check nor a noncash item, but may be treated as either. For purposes of return, a copy is generally a noncash item. (See §§ 229.30(f) and 229.31(f).)

V. 229.2(v) [Reserved]

W. 229.2(w) [Reserved]

X. 229.2(x) [Reserved]

Y. 229.2(y) [Reserved]

Z. 229.2(z) Paying Bank

1. The regulation uses this term in lieu of the EFA Act’s “originating depository institution.” For purposes of all subparts of Regulation CC, the term paying bank includes the bank by which a check is payable, the payable-at bank to which a check is sent, or, if the check is payable by a nonbank payor, the bank through which the check is payable and to which it is sent for payment or collection. For purposes of subparts C and D, the term paying bank includes the payable-through bank and the bank whose routing number appears on the check, regardless of whether the check is payable by a different bank, provided that the check is sent for payment or collection to the payable through bank or the bank whose routing number appears on the check.

2. Under §§ 229.2(a) and 229.36(a), a bank designated as a payable-through bank or payable-at bank and to which the check is sent for payment or collection is responsible for the expedited return of checks and notice of nonpayment requirements of Subpart C. The payable-through or payable-at bank may contract with the payor with respect to its liability in discharging these responsibilities. The Board believes that the EFA Act makes a clear connection between availability and the time it takes for checks to be cleared and returned. Allowing the payable-through bank additional time to forward checks to the payor and await return or pay instructions from the payor would delay the return of these checks, increasing the risks to depository banks. Subpart C places on payable-through and payable-at banks the requirements of expedited return based on the time the payable-through or payable-at bank received the check for forward collection.

3. If a check is sent for forward collection based on the routing number, the bank associated with the routing number is a paying bank for the purposes of Subparts C and D requirements, including notice of nonpayment, even if the check is not drawn by a customer of that bank or the check is fraudulent.

4. The phrase “and to which [the check] is sent for payment or collection” includes sending not only the physical check, but information regarding the check under a truncation arrangement.

5. Federal Reserve Banks and Federal Home Loan Banks are also paying banks under all subparts of the regulation with respect to checks payable by them, even though such banks are not defined as banks for purposes of Subpart B.

6. In accordance with the Check 21 Act, for purposes of subpart D and in connection therewith, subpart A, paying bank includes the Treasury of the United States or the United States Postal Service with respect to a check payable by that entity and sent to that entity for payment or collection, even though the Treasury and Postal Service are not defined as banks for purposes of subparts B and C. Because the Federal Reserve Banks act as fiscal agents for the Treasury and the U.S. Postal Service and in that capacity are designated as presentment locations for Treasury checks and U.S. Postal Service money orders, a Treasury check or U.S. Postal Service money order presented to a Federal Reserve Bank is considered to be presented to the Treasury or U.S. Postal Service, respectively.

AA. 229.2(aa) Proprietary ATM

1. All deposits at nonproprietary ATMs are treated as deposits of nonlocal checks, and deposits at proprietary ATMs generally are treated as deposits at banking offices. The Conference Report on the EFA Act indicates that the special availability rules for deposits received through nonproprietary ATMs are provided because “nonproprietary ATMs today do not distinguish among check deposits or between check and cash deposits” (H.R. Rep. No. 261, 100th Cong., 1st Sess. at 179 (1987)). Thus, a deposit of any combination of cash and checks at a nonproprietary ATM may be treated as if it were a deposit of nonlocal checks, because the depository bank does not know the makeup of the deposit and consequently is unable to place different holds on cash, local check, and nonlocal check deposits made at the ATM.

2. A colloquy between Senators Proxmire and Dodd during the floor debate on the Competitive Equality Banking Act (133 Cong. Rec. S12389 (Aug. 4, 1987)) indicates that whether a bank operates the ATM is the primary criterion in determining whether the ATM is proprietary to that bank. Because a bank should be capable of ascertaining the composition of deposits made to an ATM operated by that bank, an exception to the availability schedules is not warranted for these deposits. If more than one bank meets the “owns or operates” criterion, the ATM is
considered proprietary to the bank that operates it. For the purpose of this definition, the bank that operates an ATM is the bank that puts checks deposited into the ATM into the forward collection stream. An ATM owned by one or more banks, but operated by a nonbank servicer, is considered proprietary to the bank or banks that own it.

3. The EPA Act also includes location as a factor in determining whether an ATM that is either owned or operated by a bank is proprietary to that bank. The definition of proprietary ATM includes an ATM located on the premises of the bank, either inside the branch or on its outside wall, regardless of whether the ATM is owned or operated by that bank. Because the EPA Act also defines a proprietary ATM as one that is "in close proximity" to the bank, the regulation defines an ATM located within 50 feet of a bank to be proprietary to that bank unless it is identified as being owned or operated by another entity. The Board believes that the statutory proximity test was designed to apply to situations where it would appear to the depositor that the ATM is run by his or her bank, because of the proximity of the ATM to the bank. The Board believes that an ATM located within 50 feet of a banking office would be presumed proprietary to that bank unless it is clearly identified as being owned or operated by another entity.

BB. 229.2(bb) Qualified Returned Check

1. Subpart C requires the paying bank and returning bank(s) to return checks in an expeditious manner. The banks may meet this responsibility by returning a check to the depositary bank by the same general means used for forward collection of a check from the depositary bank to the paying bank. One way to speed the return process is to prepare the returned check for automated processing. Qualified returned checks are identified by placing a "2" in the case of an original check (or a "5" in the case of a substitute check) in position 44 of the qualified return MICR line as a return identifier in accordance with American National Standard Specifications for Placement and Location of MICR Printing, X9.13 (hereinafter "ANS X9.13") for original checks or American National Standard Specifications for an Image Replacement Document—RID, X9.100-140 (hereinafter "ANS X9.100-140") for substitute checks.

2. Generally, under the standard of care imposed by §229.38, a paying or returning bank would be liable for any damages incurred due to misencoding of the routing number, the amount of the check, or return identifier on a qualified returned check unless the error was due to problems with the depositary bank's indorsement. (See also discussion of §229.38(c).) A qualified returned check that contains an encoding error would still be a qualified returned check for purposes of the regulation.

3. A qualified returned check need not contain the elements of a check drawn on the depositary bank, such as the name of the depository bank. Because indorsements and other information on carrier envelopes or strips will not appear on a returned check itself, banks will wish to retain carrier envelopes and/or microfilm or other records of carrier envelopes or strips with their check records.

CC. 229.2(cc) Returning Bank

1. Returning bank is defined to mean any bank (excluding the paying bank and the depository bank) handling a returned check. A returning bank may or may not be a bank that handled the returned check in the forward collection process. A returning bank includes a bank that agrees to handle a returned check for expeditious return to the depositary bank under §229.31(a). A returning bank is also a collecting bank for the purpose of a collecting bank's duty to exercise ordinary care under U.C.C. 4-202(b) and is analogous to a collecting bank for purposes of final settlement. (See Commentary to §229.35(b).)

DD. 229.2(dd) Routing Number

1. Each bank is assigned a routing number by an agent of the American Bankers Association. The routing number takes two forms—a fractional form and a nine-digit form. A routing bank is identified by both the fractional form routing number (which normally appears in the upper right hand corner of the check) and the nine-digit form. The nine-digit routing number of the paying bank generally is printed in magnetic ink near the bottom of the check (the MICR strip; see ANSI X9.13–1983). Subpart C requires depository banks and subsequent collecting banks to place their routing numbers in nine-digit form in their indorsements.

EE. 229.2(ee) [Reserved]

FF. 229.2(ff) [Reserved]

GG. 229.2(gg) Teller’s Check

1. Teller’s check is defined in the EPA Act to mean a check issued by a depository institution and drawn on another depository institution. The definition in the regulation includes not only checks drawn by a bank on another bank, but also checks payable through or at a bank. This would include checks drawn on a nonbank, as long as the check is payable through or at a bank. The definition does not include checks that are drawn by a nonbank on a nonbank even if payable through or at a bank. The definition includes checks provided to a customer of
the bank in connection with customer deposit account activity, such as account disbursements and interest payments. The definition also includes checks acquired from a bank by a noncustomer for remittance purposes, such as certain loan disbursement checks. The definition excludes checks used by the bank to pay employees or vendors and checks issued by the bank in connection with a payment service, such as a payroll or a bill-paying service. Teller’s checks generally are sold by banks to substitute the bank’s credit for the customer’s credit and thereby enhance the collectibility of the checks. A check issued in connection with a payment service generally is provided as a convenience to the customer rather than as a guarantee of the check’s collectibility. In addition, such checks are often more difficult to distinguish from other types of checks than are teller’s checks as defined by this regulation.

HH. 229.2(hh) Traveler’s Check
1. The EFA Act and regulation require that traveler’s checks be treated as cashier’s, teller’s, or certified checks when a new depositor opens an account. (See §229.13(a); 12 U.S.C. 4003(a)(1)(C).) The EFA Act does not define traveler’s check.
2. One element of the definition states that a traveler’s check is “drawn on or payable through or at a bank.” Sometimes traveler’s checks that are not issued by banks do not have any words on them identifying a bank as drawee or paying agent, but instead bear unique routing numbers with an 8000 prefix that identifies a bank as paying agent.
3. Because a traveler’s check is payable by, at, or through a bank, it is also a check for purposes of this regulation. When not subject to the next-day availability requirement for new accounts, a traveler’s check should be treated as a local or nonlocal check depending on the location of the paying bank. The depositary bank may rely on the designation of the paying bank by the routing number to determine whether local or nonlocal treatment is required.

II. 229.2(ii) Uniform Commercial Code
1. Uniform Commercial Code is defined as the version of the Code adopted by the individual states. For purposes of uniform citation, all citations to the U.C.C. in this part refer to the Official Text as approved by the American Law Institute and the National Conference on Commissioners on Uniform State Laws.

JJ. 229.2(jj) [Reserved]

KK. 229.2(kk) Unit of General Local Government
1. Unit of general local government is defined to include a city, county, parish, township, village, or other general purpose political subdivision of a state. The term does not include special purpose units, such as school districts, water districts, or Indian nations.

LL. 229.2(1l) Wire Transfer
1. The EFA Act delegates to the Board the authority to define the term wire transfer. The regulation defines wire transfer as an unconditional order to a bank to pay a fixed or determinable amount of money to a beneficiary, upon receipt or on a day stated in the order, that is transmitted by electronic or other means over certain networks or on the books of banks and used primarily to transfer funds between commercial accounts. “Unconditional” means that no condition, such as presentation of documents, must be met before the bank receiving the order is to make payment. A wire transfer may be transmitted by electronic or other means. “Electronic means” include computer-to-computer links, on-line terminals, telegrams (including TWX, TELEX, or similar methods of communication), telephone calls, or other similar methods. Fedwire (the Federal Reserve’s wire transfer network), CHIPS (Clearing House Interbank Payments System, operated by the New York Clearing House), and book transfers among banks or within one bank are covered by this definition. Credits for credit and debit card transactions are not wire transfers. The term wire transfer excludes electronic fund transfers as that term is defined by the Electronic Fund Transfer Act.

MM. 229.2(mm) [Reserved]

NN. 229.2(nn) Good Faith
1. This definition of good faith derives from U.C.C. 3-103(a)(4).

OO. 229.2(oo) Interest Compensation
1. This calculation of interest compensation derives from U.C.C. 4A-506(b). (See §§229.34(e) and 229.36(f).)

PP. 229.2(pp) Contractual Branch
1. When one bank arranges for another bank to accept deposits on its behalf, the second bank is a contractual branch of the first bank. For further discussion of contractual branch deposits and related disclosures, see §§229.2(s) and 229.19(a) of the regulation and the commentary to §§229.2(s), 229.10(c), 229.14(a), 229.16(a), 229.18(b), and 229.19(a).
Federal Reserve System

Pt. 229, App. E

QQ. 229.2(qq) [Reserved]

RR. 229.2(rr) [Reserved]

SS. 229.2(ss) [Reserved]

TT. 229.2(tt) [Reserved]

UU. 229.2(uu) [Reserved]

VV. 229.2(vv) MICR Line

1. Information in the MICR line of a check must be printed in accordance with ANS X9.13 for original checks and ANS X9.100-140 for substitute checks. These standards could vary the requirements for printing the MICR line, such as by indicating circumstances under which the use of magnetic ink is not required.

WW. 229.2(ww) Original Check

1. The definition of original check distinguishes the first paper check signed or otherwise authorized by the drawer to effect a particular payment transaction from a substitute check or other paper or electronic representation that is derived from an original check or substitute check. There is only one original check for any particular payment transaction. However, multiple substitute checks could be created to represent that original check at various points in the check collection and return process.

XX. 229.2(xx) Paper or Electronic Representation of a Substitute Check

1. Receipt of a paper or electronic representation of a substitute check does not trigger indemnity or expedited recredit rights, although the recipient nonetheless could have a warranty claim or a claim under other check law with respect to that document or the underlying payment transaction. A paper or electronic representation of a substitute check would include a representation of a substitute check that was drawn on an account, as well as a representation of a substitute traveler’s check, credit card check, or other item that meets the substitute check definition. The following examples illustrate the scope of the definition.

Examples.

a. A bank receives electronic presentment of a substitute check that has been converted to electronic form and charges the customer’s account for that electronic item. The periodic account statement that the bank provides to the customer includes information about the electronically-presented substitute check in a line-item list describing all the checks the bank charged to the customer’s account during the previous month. The electronic file that the bank received for presentment and charged to the customer’s account would be an electronic representation of a substitute check, and the line-item appearing on the customer’s account statement would be a paper representation of a substitute check.

b. A paying bank receives and settles for a substitute check and then realizes that its settlement was for the wrong amount. The paying bank sends an adjustment request to the presenting bank to correct the error. The adjustment request is not a paper or electronic representation of a substitute check under the definition because it is not being handled for collection or return as a check. Rather, it is a separate request that is related to a check. As a result, no substitute check warranty, indemnity, or expedited recredit rights attach to the adjustment.

YY. 229.2(yy) [Reserved]

ZZ. 229.2(zz) Reconveting Bank

1. A substitute check is “created” when and where a paper reproduction of an original check that meets the requirements of §229.2(aaa) is physically printed. A bank is a reconveting bank if it creates a substitute check directly or if another person by agreement creates a substitute check on the bank’s behalf. A bank also is a reconveting bank if it is the first bank that receives a substitute check created by a nonbank and transfers, presents, or returns that substitute check on behalf of the first bank. A substitute check that meets the requirements of §229.2(aaa) is physically printed. A bank is a reconveting bank if it creates a substitute check on the bank’s behalf. A bank also is a reconveting bank if it is the first bank that receives a substitute check created by a nonbank and transfers, presents, or returns that substitute check on behalf of the first bank.

Examples.

a. Bank A, by agreement, sends an electronic check file for collection to Bank B. Bank B chooses to use that file to print a substitute check that meets the requirements of §229.2(aaa). Bank B is the reconveting bank as of the time it prints the substitute check.

b. Company A, which is not a bank, by agreement receives check information electronically from Bank A. Bank A becomes the reconveting bank when Company A prints a substitute check on behalf of Bank A in accordance with that agreement.

c. A depository bank’s customer, which is a nonbank business, receives a check for payment, truncates that original check, and creates a substitute check to deposit with its bank. The depository bank receives that substitute check from its customer and is the first bank to handle the substitute check. The depository bank becomes the reconveting bank as of the time that it transfers or presents the substitute check (or in lieu thereof the first paper or electronic representation of the substitute check) for forward collection.

d. A bank is the payable-through bank for checks that are drawn on a nonbank payor, which is the bank’s customer. When the customer decides not to pay a check that is payable through the bank, the customer creates
Pt. 229, App. E

12 CFR Ch. II (1–1–09 Edition)

a substitute check for purposes of return. The payable-through bank becomes the reconverting bank when it returns the substitute check (or in lieu thereof the first paper or electronic representation of the substitute check) to a returning bank or the depository bank.

e. A paying bank returns a substitute check to the depository bank, which in turn gives that substitute check back to its nonbank customer. That customer then redeposits the substitute check for collection at a different bank. Because the substitute check was already transferred by a bank, the second depository bank does not become a reconverting bank when it transfers or presents that substitute check for collection.

Example.

A depository bank truncates the original check and sends an electronic representation of the original check to an intermediary bank. The intermediary bank sends the electronic representation of the original check to the presenting bank, which creates a substitute check to present to the paying bank. The presenting bank is the reconverting bank.

3. A check could move from electronic form to substitute check form several times during the collection and return process. It therefore is possible that there could be multiple substitute checks, and thus multiple reconverting banks, with respect to the same underlying payment.

AAA. 229.2(aaa) Substitute Check

1. "A paper reproduction of an original check" could include a reproduction created directly from the original check or a reproduction of the original check that is created from some other source that contains an image of the original check, such as an electronic representation of an original check or substitute check, or a previous substitute check.

2. Because a substitute check must be a piece of paper, an electronic file or electronic check image that has not yet been printed in accordance with the substitute check definition is not a substitute check.

3. Because a substitute check must be a representation of a check, a paper reproduction of something that is not a check cannot be a substitute check. For example, a savings bond or a check drawn on a non-U.S. branch of a foreign bank cannot be converted to a substitute check.

4. As described in §229.5(b) and the commentary thereto, a reconverting bank is required to ensure that a substitute check contains all indorsements applied by previous parties that handled the check in any form.

Therefore, the image of the original check that appears on the back of a substitute check would include indorsements that were physically applied to the original check before an image of the original check was captured. An indorsement that was applied physically to the original check after an image of the original check was captured would be conveyed as an electronic indorsement (see paragraph 3 of the commentary to §229.35(a)). The back of the substitute check would contain a physical representation of any indorsements that were applied electronically to the check after an image of the check was captured but before creation of the substitute check.

Example.

Bank A, which is the depository bank, captures an image of an original check, indorses it electronically and, by agreement, transmits to Bank B an electronic image of the check accompanied by the electronic indorsement. Bank B then creates a substitute check to send to Bank C. The back of the substitute check created by Bank B must contain a representation of the indorsement previously applied electronically by Bank A and Bank B’s own indorsement. (For more information on indorsement requirements, see §229.35, appendix D, and the commentary thereto.)

5. Some substitute checks will not be created directly from the original check, but rather will be created from a previous substitute check. The back of a subsequent substitute check will contain an image of the full length of the back of the previous substitute check. ANS X9.100–140 requires preservation of the full length of the back of the previous substitute check in order to preserve previous indorsements and reconverting bank identifications. By contrast, the front of a subsequent substitute check will not contain an image of the entire previous substitute check. Rather, the image field of the subsequent substitute check will contain the image of the front of the original check that appeared on the previous substitute check at the time the previous substitute check was converted to electronic form. The portions of the front of the subsequent substitute check other than the image field will contain information applied by the subsequent reconverting bank, such as its reconverting bank identification, the MICR line, the legal equivalence legend, and optional security information.

Examples.

a. The back of a subsequent substitute check would contain the following indorsements, all of which would be preserved through the image of the back of the previous substitute check: (1) The indorsements that were applied physically to
the original check before an image of the original check was captured; (2) a physical representation of indorsements that were applied electronically to the original check after the original check was captured but before creation of the first substitute check; and (3) indorsements that were applied physically to the previous substitute check at the time of its creation. In addition, the reconverting bank for the subsequent substitute check must overlay onto the back of that substitute check a physical representation of any indorsements that were applied electronically after the previous substitute check was converted to electronic form but before creation of the subsequent substitute check.

b. Because information could have been physically added to the image of the front of the original check that appeared on the previous substitute check, the original check image that appears on the front of a subsequent substitute check could contain information in addition to that which appeared on the original check at the time it was truncated.

6. The MICR line applied to a substitute check must contain information in all fields of the MICR line that were encoded on the original check at any time before an image of the original check was captured. This includes all the MICR-line information that was preprinted on the original check, plus any additional information that was added to the MICR line before the image of the original check was captured (for example, the amount of the check). The information in each field of the substitute check's MICR line must be the same information as in the corresponding field of the MICR line of the original check, except as provided by ANS X9.100-140 (unless the Board by rule or order determines that a different standard applies). Industry standards may not, however, vary the requirement that a substitute check at the time of its creation must bear a full-field MICR line.

7. ANS X9.100-140, provides that a substitute check must have a “4” in position 44 of the forward-collection MICR line as well as a “5” in position 44 of the qualified return MICR line. The “4” and “5” indicate that the document is a substitute check so that the size of the check image remains constant throughout the collection and return process, regardless of the number of substitute checks created that represent the same original check (see also §§229.30(a)(2) and 229.31(a)(2) and the commentary thereto regarding requirements for qualified returned substitute checks). An original check generally has a blank position 44 for forward collection. Because a reconverting bank must encode position 44 of a substitute check's forward collection MICR line with a “4,” the reconverting bank must vary any character that appeared in position 44 of the forward-collection MICR line of the original check. A bank that misencodes or fails to encode position 44 at the time it attempts to create a substitute check has failed to create a substitute check. A bank that receives a properly-encoded substitute check may further encode that item but does so subject to the encoding warranties in Regulation CC and the U.C.C.

8. A substitute check’s MICR line could contain information in addition to the information required at the time the substitute check is created. For example, if the amount field of the original check was not encoded and the substitute check therefore did not, when created, have an encoded amount field, the MICR line of the substitute check later could be amount-encoded.

9. A bank may receive a substitute check that contains a MICR-line variation but nonetheless meets the MICR-line replication requirements of §229.2(aaa)(2) because that variation is permitted by ANS X9.100-140. If such a substitute check contains a MICR-line error, a bank that receives it may, but is not required to, repair that error. Such a repair must be made in accordance with ANS X9.100-140 for repairing a MICR line, which generally allows a bank to correct an error by applying a strip that may or may not contain information in all fields encoded on the check’s MICR line. A bank’s repair of a MICR-line error on a substitute check is subject to the encoding warranties in Regulation CC and the U.C.C.

10. A substitute check must conform to all the generally applicable industry standards for substitute checks set forth in ANS X9.100-140, which incorporates other industry standards by reference. Thus, multiple substitute check images contained on the same page of an account statement are not substitute checks.

BBB. 229.2(bbb) Sufficient Copy and Copy

1. A copy must be a paper reproduction of a check. An electronic image therefore is not a copy or a sufficient copy. However, if a customer has agreed to receive such information electronically, a bank that is required to provide an original check or sufficient copy may satisfy that requirement by providing an electronic image in accordance with §229.38 and the commentary thereto.

2. A bank under §229.5(b)(3) may limit its liability for an indemnity claim and under §§229.5(e)(2) and 229.55(c)(2) may respond to an expedited recredit claim by providing the claimant with a copy of a check that accurately represents all of the information on the front and back of the original check as of the time the original check was truncated or that otherwise is sufficient to determine the validity of the claim against the bank.
Examples.

a. A copy of an original check that accurately represents all the information on the front and back of the original check as of the time of truncation would constitute a sufficient copy if that copy resolved the claim. For example, if resolution of the claim required accurate payment and indorsement information, an accurate copy of the front and back of a legible original check (including but not limited to a substitute check) would be a sufficient copy.

b. A copy of the original check that does not accurately represent all the information on both the front and back of the original check also could be a sufficient copy if such copy contained all the information necessary to determine the validity of the relevant claim. For instance, if a consumer received a substitute check that contained a blurry image of a legible original check, the consumer might seek an expedited recredit because his or her account was charged for $1,000, but he or she believed that the check was written for only $100. If the amount that appeared on the front of the original check was legible, an accurate copy of only the front of the original check that showed the amount of the check would be sufficient to determine whether or not the consumer’s claim regarding the amount of the check was valid.

CCC. 229.2(ccc) Transfer and Consideration

1. Under §§ 229.52 and 229.53, a bank is responsible for the warranties and indemnity when it transfers, presents, or returns a substitute check (or a paper or electronic representation thereof) for consideration. Drawers and other nonbank persons that receive checks from a bank are not transferees that receive consideration as those terms are defined in the U.C.C. However, the Check 21 Act clearly contemplates that such nonbank persons that receive substitute checks (or representations thereof) from a bank will receive the warranties and indemnity from all previous banks that handled the check. To ensure that these parties are covered by the substitute check warranties and indemnity in the manner contemplated by the Check 21 Act, § 229.2(ccc) incorporates the U.C.C. definitions of the term transfer and consideration by reference and expands those definitions to cover a broader range of situations. Delivering a check to a nonbank that is acting on behalf of a bank (such as a third-party check processor or presentment point) is a transfer of the check to that bank.

Examples.

a. A paying bank pays a substitute check and then provides that paid substitute check (or a representation thereof) to a drawer with a periodic statement. Under the expanded definitions, the paying bank thereby transfers the substitute check (or representation thereof) to the drawer for consideration and makes the substitute check warranties described in § 229.52. A drawer that suffers a loss due to receipt of a substitute check may have warranty, indemnity, and, if the drawer is a consumer, expedited recredit rights under the Check 21 Act and subpart D. A drawer that suffers a loss due to receipt of a paper or electronic representation of a substitute check would receive the substitute check warranties but would not have indemnity or expedited recredit rights.

b. The expanded definitions also operate such that a paying bank that pays an original check (or a representation thereof) and then creates a substitute check to present, or return a check to a payee or other nonbank person that received a substitute check for consideration and thereby provides the warranties and indemnity.

c. The expanded definitions ensure that a bank that receives a returned check in any form and then provides a substitute check to the depositor gives the substitute check warranties and indemnity to the depositor.

d. The expanded definitions apply to substitute checks representing original checks that are not drawn on deposit accounts, such as checks used to access a credit card or a home equity line of credit.

DDD. 229.2(ddd) Truncate

1. Truncate means to remove the original check from the forward collection or return process and to send in lieu of the original check either a substitute check or, by agreement, information relating to the original check. Truncation does not include removal of a substitute check from the check collection or return process.

EEE. 229.2(eee) Truncating Bank

1. A bank is a truncating bank if it truncates an original check or if it is the first bank to transfer, present, or return another form of an original check that was truncated by a person that is not a bank.

Example.

a. A bank’s customer that is a nonbank business receives a check for payment and deposits either a substitute check or an electronic representation of the original check with its depository bank instead of the original check. That depository bank is the truncating bank when it transfers, presents, or returns the substitute check or electronic representation in lieu of the original check. That bank also would be the reconverting bank if it were the first bank to transfer, present, or return a substitute check that it received from (or created from the information given by) its nonbank customer (see § 229.2(yy) and the commentary thereto).
Federal Reserve System

Pt. 229, App. E

III. Section 229.3 Administrative Enforcement (Reserved)

IV. Section 229.10 Next-Day Availability

A. Business Days and Banking Days

1. This section, as well as other provisions of this subpart governing the availability of funds, provides that funds must be made available for withdrawal not later than a specified number of business days following the banking day on which the funds are deposited. Thus, a deposit is considered made only on a banking day, i.e., a day that the bank is open to the public for carrying on substantially all of its banking functions. For example, if a deposit is made at an ATM on a Saturday, Sunday, or other day on which the bank is closed to the public, the deposit is considered received on that bank’s next banking day.

2. Nevertheless, business days are used to determine the number of days following the banking day of deposit that funds must be available for withdrawal. For example, if a deposit of a local check were made on a Monday, the availability schedule requires that funds be available for withdrawal on the second business day after deposit. Therefore, funds must be made available on Wednesday regardless of whether the bank was closed on Tuesday for other than a standard legal holiday as specified in the definition of business day.

B. 229.10(a) Cash Deposits

1. This paragraph implements the EFA Act’s requirement for next-day availability for cash deposits to accounts at a depository bank “staffed by individuals employed by such institution.” 2 Under this paragraph, cash deposited in an account at a staffed teller station on a Monday must become available for withdrawal by the start of business on Tuesday. It must become available for withdrawal by the start of business on Wednesday if it is deposited by mail, at a proprietary ATM, or by other means other than at a staffed teller station.

C. 229.10(b) Electronic Payments

1. The EFA Act provides next-day availability for funds received for deposit by wire transfer. The regulation uses the term electronic payment, rather than wire transfer, to include both wire transfers and ACH credit transfers under the next-day availability requirement. (See discussion of definitions of automated clearinghouse, electronic payment, and wire transfer in §229.2.)

2. Nothing in the EFA Act or this regulation affects terms of account arrangements, such as negotiable order of withdrawal accounts, which may require prior notice of withdrawal. (See 12 CFR 204.2(e)(2).)
2. The EFA Act requires that funds received by wire transfer be available for withdrawal not later than the business day following the day a wire transfer is received. This paragraph clarifies what constitutes receipt of an electronic payment. For the purposes of this paragraph, a bank receives an electronic payment when the bank receives both payment in finally collected funds and the payment instructions indicating the customer accounts to be credited and the amount to be credited to each account. For example, if the case of Fedwire, the bank receives finally collected funds at the time the payment is made. (See 12 CFR 210.31.) Finally collected funds generally are received for an ACH credit transfer when they are posted to the receiving bank’s account on the settlement day. In certain cases, the bank receiving ACH credit payments will not receive the specific payment instructions indicating which accounts to credit until after settlement day. In these cases, the payments are not considered received until the information on the account and amount to be credited is received.

3. This paragraph also establishes the extent to which an electronic payment is considered made. Thus, if a participant on a private network fails to settle and the receiving bank receives finally settled funds representing only a partial amount of the payment, it must make only the amount that it actually received available for withdrawal.

4. The availability requirements of this regulation do not preempt or invalidate other rules, regulations, or agreements which require funds to be made available on a more prompt basis. For example, the next-day availability requirement for ACH credits in this section does not preempt ACH association rules and Treasury regulations (31 CFR part 210), which provide that the proceeds of these credit payments be available to the recipient for withdrawal on the day the bank receives the funds.

D. 229.10(c) Certain Check Deposits

1. The EFA Act generally requires that funds be made available on the business day following the banking day of deposit for Treasury checks, state and local government checks, cashier’s checks, certified checks, teller’s checks, and ‘‘on us’’ checks, under specified conditions. (Treasury checks are checks drawn on the Treasury of the United States and have a routing number beginning with the digits ‘‘0000.’’) This section also requires next-day availability for additional types of checks not addressed in the EFA Act. Checks drawn on a Federal Reserve Bank or a Federal Home Loan Bank and U.S. Postal Service money orders also must be made available on the first business day following the day of deposit under specified conditions. For the purposes of this section, all checks drawn on a Federal Reserve Bank or a Federal Home Loan Bank that contain in the MICR line a routing number that is listed in appendix A are subject to the next-day availability requirements set forth in this section. For example, second-day availability also may be required for the proceeds of checks subject to the next-day availability requirement if they are deposited in an account held by a payee of the depositary bank, regardless of the purposes for which the checks were issued. For check accounts, even if the new account exception is not invoked, traveler’s checks must be included in the $5,000 aggregation of checks deposited on any one banking day that are subject to the next-day availability requirement. (See §229.13(a).)

2. Deposit in Account of Payee. One statutory condition to receipt of next-day availability of Treasury checks, state and local government checks, cashier’s checks, certified checks, and teller’s checks is that the check must be ‘‘endorsed only by the person to whom it was issued.’’ The EFA Act could be interpreted to include a check that has been indorsed in blank and deposited into an account of a third party that is not named as payee. The Board believes that such a check presents greater risks than a check deposited by the payee and that Congress did not intend to require next-day availability for such checks. The regulation, therefore, provides that funds must be available on the business day following deposit only if the check is deposited in an account held by a payee of the check. For the purposes of this section, payee does not include transferees other than named payees. The regulation also applies this condition to Postal Service money orders and checks drawn on Federal Reserve Banks and Federal Home Loan Banks.

3. Deposits Made to an Employee of the Depositary Bank

a. In most cases, next-day availability of the proceeds of checks subject to this section is conditioned on the deposit of these checks in person to an employee of the depositary bank. If the deposit is not made to an employee of the depositary bank on the premises of such bank, the proceeds of the deposit must be made available for withdrawal by the start of business on the second business day after deposit. It should be noted that the deposit of a check by another party to a non-employee of the depositary bank that is indorsed in blank is not subject to the next-day availability requirements if the non-employee is an authorized agent of the payee.

b. If the deposit is made to an employee of the depositary bank, the proceeds of the deposit must be made available for withdrawal at the end of the banking day on which the deposit is made. This may be accomplished either by the employee receiving deposited checks in person or through the use of a lock box, or ATM, night depository, through the mail or a lock box, or at a teller station staffed by a person who is not an employee of the depositary bank. Second-day availability also may be allowed for deposits picked up by an employee of the depositary bank at the customer’s premises; such deposits would be considered made upon receipt at the branch or other location of the depositary bank. Employees of a contractual branch would not be considered employees of the depositary bank for the purposes of this regulation.
Federal Reserve System
Pt. 229, App. E

and deposits at contractual branches would be treated the same as deposits to a proprietary ATM for the purposes of this regulation. (See also, Commentary to §229.19(a).)

b. In the case of Treasury checks, the EFA Act and regulation do not condition the receipt of next-day availability to deposits at staffed teller stations. Therefore, Treasury check rule provisions at a proprietary ATM must be accorded next-day availability, if the check is deposited to an account of a payee of the check.

4. “On Us” Checks. The EFA Act and regulation require next-day availability for “on us” checks, i.e., checks deposited in a branch of the depositary bank and drawn on the same or another branch of the same bank, if both branches are located in the same state or check processing region. Thus, checks deposited in one branch of a bank and drawn on another branch of the same bank must receive next-day availability even if the branch on which the checks are drawn is located in another check processing region but in the same state as the branch in which the check is deposited. For the purposes of this requirement, deposits at facilities that are not located on the premises of a branch-and-mortar branch of the bank, such as off-premise ATMs and remote depositories, are not considered deposits made at branches of the depositary bank.

5. First $100.

a. The EFA Act and regulation also require that up to $100 of the aggregate deposit by check or checks not subject to next-day availability on any one banking day be made available on the next business day. For example, if $70 were deposited in an account by check(s) on a Monday, the entire $70 must be available for withdrawal at the start of business on Tuesday. If $200 were deposited by check(s) on a Monday, this section requires that $100 of the funds be available for withdrawal at the start of business on Tuesday. The portion of the customer’s deposit to which the $100 must be applied is at the discretion of the depositary bank, as long as it is not applied to any checks subject to next-day availability. The $100 next-day availability rule does not apply to deposits at nonproprietary ATMs.

b. The $100 that must be made available under this rule is in addition to the amount that must be made available for withdrawal on the business day after deposit under other provisions of this section. For example, if a customer deposits a $1,000 Treasury check, and a $1,000 local check in its account on Monday, $1,100 must be made available for withdrawal on Tuesday—the proceeds of the $1,000 Treasury check, as well as the first $100 of the local check.

c. A depositary bank may aggregate all local and nonlocal check deposits made by the customer on a given banking day for the purposes of the $100 next-day availability rule. Thus, if a customer has two accounts at the depositary bank, and on a particular banking day makes deposits to each account, $100 of the total deposited to the two accounts must be made available on the next business day after deposit. Banks may aggregate deposits to individual and joint accounts for the purposes of this provision.

d. If the customer deposits a $500 local check, and gets $100 cash back at the time of deposit, the bank need not make an additional $100 available for withdrawal on the following day. Similarly, if the customer depositing the local check has a negative book balance, or negative available balance in its account at the time of deposit, the $400 that must be available on the next business day may be made available by applying the $100 to the negative balance, rather than making the $400 available for withdrawal by cash or check on the following day.

6. Special Deposit Slips.

a. Under the EFA Act, a depositary bank may require the use of a special deposit slip as a condition to providing next-day availability for certain types of checks. This condition was included in the EFA Act because many banks determine the availability of their customers’ check deposits in an automated manner by reading the MICR-encoded routing number on the deposited checks. Using these procedures, a bank can determine whether a check is a local or nonlocal check, a check drawn on the Treasury, a Federal Reserve Bank, a Federal Home Loan Bank, or a branch of the depositary bank, or a U.S. Postal Service money order. Appendix A includes the routing numbers of certain categories of checks that are subject to next-day availability. The bank cannot require a special deposit slip for these checks.

b. A bank cannot distinguish whether the check is a state or local government check, cashier’s check, certified check, or teller’s check by reading the MICR-encoded routing number, because these checks bear the same routing number as other checks drawn on the same bank that are not accorded next-day availability. Therefore, a bank may require a special deposit slip for these checks.

c. The regulation specifies that if a bank decides to require the use of a special deposit slip (or a special deposit envelope in the case of a deposit at an ATM or other unstaffed facility) as a condition to granting next-day availability under paragraphs (c)(1)(iv) or (c)(1)(v) of this section or second-day availability under paragraph (c)(2) of this section, and if the deposit slip that must be used is different from the bank’s regular deposit slips, the bank must either provide the special slips to its customers or inform its customers how such slips may be obtained and make the slips reasonably available to the customers.

d. A bank may meet this requirement by providing customers with an order form for
the special deposit slips and allowing sufficient time for the customer to order and receive the slips before this condition is imposed. If a bank provides deposit slips in its branches for use by its customers, it also must provide the special deposit slips in the branches. If special deposit envelopes are required for deposits at an ATM, the bank must provide such envelopes at the ATM.

e. Generally, a teller is not required to advise depositors of the availability of special deposit slips merely because checks requiring special deposit slips for next-day availability are deposited without such slips. If a bank provides the special deposit slips only upon the request of a depositor, however, the teller must advise the depositor of the availability of the special deposit slips, or the bank must post a notice advising customers that the slips are available upon request. Such notice need not be posted at each teller window, but the notice must be posted in a place where consumers seeking to make deposits are likely to see it before making their deposits. For example, the notice might be posted at the point where the line forms for teller service in the lobby. The notice is not required at any drive-through teller windows nor is it required at night depository locations, or at locations where consumer deposits are not accepted. If a bank prepares a deposit for a depositor, it must use a special deposit slip where appropriate. A bank may require the customer to segregate the checks subject to next-day availability for which special deposit slips could be required, and to indicate on a regular deposit slip that such checks are being deposited, if the bank so instructs its customers in its initial disclosure.

V. Section 229.11 [Reserved]

VI. Section 229.12 Availability Schedule

A. 229.12(a) Effective Date

1. The availability schedule set forth in this section supersedes the temporary schedule that was effective September 1, 1988, through August 31, 1990.

B. 229.12(b) Local Checks and Certain Other Checks

1. Local checks must be made available for withdrawal not later than the second business day following deposit.

2. In addition, the proceeds of Treasury checks and U.S. Postal Service money orders not subject to next-day (or second-day) availability under §229.10(c), checks drawn on Federal Reserve Banks and Federal Home Loan Banks, checks drawn by a state or unit of general local government, cashier’s checks, certified checks, and teller’s checks not subject to next-day (or second-day) availability under §229.10(c) and payable in the same check processing region as the depository bank, must be made available for withdrawal by the second business day following deposit.

3. Exceptions are made for withdrawals by cash or similar means and for deposits in banks located outside the 48 contiguous states. Thus, the proceeds of a local check deposited on a Monday generally must be made available for withdrawal on Wednesday.

C. 229.12(c) Nonlocal Checks

1. Nonlocal checks must be made available for withdrawal not later than the fifth business day following deposit, i.e., proceeds of a nonlocal check deposited on a Monday must be made available for withdrawal on the following Monday. In addition, a check described in §229.10(c) that does not meet the conditions for next-day availability (or second-day availability) is treated as a nonlocal check, if the check is drawn on or payable through or at a nonlocal paying bank. Adjustments are made to the schedule for withdrawals by cash or similar means and deposits in banks located outside the 48 contiguous states.

2. Reduction in Schedules.

a. Section 603(d)(1) of the EFA Act (12 U.S.C. 4002(d)(1)) requires the Board to reduce the statutory schedules for any category of checks where most of those checks would be returned in a shorter period of time than provided in the schedules. The conferees indicated that “If the new system makes it possible for two-thirds of the items of a category of checks to meet this test in a shorter period of time, then the Federal Reserve must shorten the schedules accordingly.” H.R. Rep. No. 261, 100th Cong., 1st Sess. at 179 (1987).

b. Reduced schedules are provided for certain nonlocal checks where significant improvements can be made to the EFA Act’s schedules due to transportation arrangements or proximity between the check processing regions of the depository bank and the paying bank, allowing for faster collection and return. Appendix B sets forth the specific reduction of schedules applicable to banks located in certain check processing regions.

c. A reduction in schedules may apply even in those cases where the determination that the check is nonlocal cannot be made based on the routing number on the check. For example, a nonlocal credit union payable-through share draft may be subject to a reduction in schedules if the routing number of the payable-through bank that appears on the draft is included in appendix B, even though the determination that the payable-through share draft is nonlocal is based on the location of the credit union and not the routing number on the draft.
Federal Reserve System

Pt. 229, App. E

D. 229.12(d) Time Period Adjustment for Withdrawal by Cash or Similar Means

1. The EFA Act provides an adjustment to the availability rules for cash withdrawals. Funds from local and nonlocal checks need not be available for cash withdrawal until 5:00 p.m. on the day specified in the schedule. At 5:00 p.m., $400 of the deposit must be made available for cash withdrawal. This $400 is in addition to the first $100 of a day’s deposit, which must be made available for withdrawal at the start of business on the first business day following the banking day of deposit. If the proceeds of local and nonlocal checks become available for withdrawal on the same business day, the $400 withdrawal limitation applies to the aggregate amount of the funds that became available for withdrawal on that day. The remainder of the funds must be available for cash withdrawal at the start of business on the business day following the business day specified in the schedule.

2. The EFA Act recognizes that the $400 that must be provided on the day specified in the schedule may exceed a bank’s daily ATM cash withdrawal limit, and explicitly provides that the EFA Act does not supersede the bank’s policy in this regard. The Board believes that the rationale for accommodating a bank’s ATM withdrawal limit also applies to other cash withdrawal limits established by that bank. Section 229.19(c)(4) of the regulation addresses the relation between a bank’s cash withdrawal limit (for over-the-counter cash withdrawals as well as ATM cash withdrawals) and the requirements of this subpart.

3. The Board believes that the Congress included this special cash withdrawal rule to provide a depositary bank with additional time to learn of the nonpayment of a check before it must make funds available to its customer. If a customer deposits a local check on a Monday, and that check is returned by the paying bank, the depositary bank may not receive the returned check until Thursday, the day after funds for a local check ordinarily must be made available for withdrawal. The intent of the special cash withdrawal rule is to minimize this risk to the depositary bank. For this rule to minimize the depositary bank’s risk, it must apply not only to cash withdrawals, but also to withdrawals by other means that result in an irrevocable debit to the customer’s account or commitment to pay by the bank on the customer’s behalf during the day. Thus, the cash withdrawal rule also includes withdrawals by electronic payment, issuance of a cashier’s or teller’s check, certification of a check, or other irrevocable commitment to pay, such as authorization of an on-line point-of-sale debit. The rule also would apply to checks presented over the counter for payment on the day of presentment by the depositor or another person. Such checks could not be dishonored for insufficient funds if an amount sufficient to cover the check had become available for cash withdrawal under this rule; however, payment of such checks would be subject to the bank’s cut-off hour established under U.C.C. 4–108. The cash withdrawal rule does not apply to checks and other provisional debits presented to the bank for payment that the bank has the right to return.

E. 229.12(e) Extension of Schedule for Certain Deposits in Alaska, Hawaii, Puerto Rico, and the U.S. Virgin Islands

1. The EFA Act and regulation provide an extension of the availability schedules for check deposits at a branch of a bank if the branch is located in Alaska, Hawaii, Puerto Rico, or the U.S. Virgin Islands. The schedules for local checks, nonlocal checks (including nonlocal checks subject to the reduced schedules of appendix B), and deposits at nonproprietary ATMs are extended by one business day for checks deposited to accounts in banks located in these jurisdictions that are drawn on or payable at or through a paying bank not located in the same jurisdiction as the depositary bank. For example, a check deposited in a bank in Hawaii and drawn on a San Francisco paying bank must be made available for withdrawal not later than the third business day following deposit. This extension does not apply to deposits that must be made available for withdrawal on the next business day.

2. The Congress did not provide this extension of the schedules to checks drawn on a paying bank located in Alaska, Hawaii, Puerto Rico, or the U.S. Virgin Islands and deposited in an account at a depositary bank in the 48 contiguous states. Therefore, a check deposited in a San Francisco bank drawn on a Hawaii paying bank must be made available for withdrawal not later than the second rather than the third business day following deposit.

F. 229.12(f) Deposits at Nonproprietary ATMs

1. The EFA Act and regulation provide a special rule for deposits made at nonproprietary ATMs. This paragraph does not apply to deposits made at proprietary ATMs. All deposits at a nonproprietary ATM must be made available for withdrawal by the fifth business day following the banking day of deposit. For example, a deposit made at a nonproprietary ATM on a Monday, including any deposit by cash or checks that would otherwise be subject to next-day (or second-day) availability, must be made available for withdrawal not later than Monday of the following week. The provisions of §229.19(c)(1)(vii) requiring a depositary bank

711
to make up to $100 of an aggregate daily deposit available for withdrawal on the first business day after the banking day of deposit do not apply to deposits at a nonproprietary ATM.

VII. Section 229.13 Exceptions

A. Introduction

1. While certain safeguard exceptions (such as those for new accounts and checks the bank has reasonable cause to believe are uncollectible) are established in the EFA Act, the Congress gave the Board discretion to determine whether certain other exceptions should be included in its regulations. Specifically, the EFA Act gives the Board the authority to establish exceptions to the schedules for large or redeposited checks and for accounts that have been repeatedly overdrawn. These exceptions apply to local and nonlocal checks as well as to checks that must otherwise be accorded next-day (or second-day) availability under §229.10(c).

2. Many checks will not be returned to the depositary bank by the time funds must be made available for withdrawal under the next-day (or second-day), local, and nonlocal schedules. In order to reduce risk to depositary banks, the Board has exercised its statutory authority to adopt these exceptions to the schedules in the regulation to allow the depositary bank to extend the time within which the proceeds of these deposits must be made available for withdrawal. Maximum times within which funds must be available for withdrawal during the new account period are provided, however, for certain other deposits. Deposits received by cash and electronic payments must be made available for withdrawal in accordance with §229.10(c).

B. 229.13(a) New Accounts

1. Definition of New Account.

a. The EFA Act provides an exception to the availability schedule for new accounts. An account is defined as a new account during the first 30 calendar days after the account is opened. An account is opened when the first deposit is made to the account. An account is not considered a new account, however, if each customer on the account has a transaction account relationship with the depositary bank, including a dormant account, that is at least 30 calendar days old or if a customer has had an established transaction account with the depositary bank within the 30 calendar days prior to opening the second account.

b. The following are examples of what constitutes, and does not constitute, a new account:

1. If the customer has an established account with a bank and opens a second account with the bank, the second account is not subject to the new account exception.

ii. If a customer's account were closed and another account opened as a successor to the original account (due, for example, to the theft of checks or a debit card used to access the original account), the successor account is not subject to the new account exception, assuming the previous account relationship is at least 30 days old. Similarly, if a customer closes an established account and opens a separate account within 30 days, the new account is not subject to the new account exception.

iii. If a customer has a savings deposit or other deposit that is not an account (as that term is defined in §229.2(a)) at the bank, and opens an account, the account is subject to the new account exception.

iv. If a person that is authorized to sign on a corporate account (but has no other relationship with the bank) opens a personal account, the personal account is subject to the new account exception.

v. If a customer has an established joint account at a bank, and subsequently opens an individual account with that bank, the individual account is not subject to the new account exception.

vi. If two customers that each have an established individual account with the bank open a joint account, the joint account is not subject to the new account exception. If one of the customers on the account has no current or recent established account relationship with the bank, however, the joint account is subject to the new account exception, even if the other individual on the account has an established account relationship with the bank.

2. Rules Applicable to New Accounts.

a. During the new account exception period, the schedules for local and nonlocal checks do not apply, and, unlike the other exceptions provided in this section, the regulation provides no maximum time frames within which the proceeds of these deposits must be made available for withdrawal. Maximum times within which funds must be available for withdrawal during the new account period are provided, however, for certain other deposits. Deposits received by cash and electronic payments must be made available for withdrawal in accordance with §229.10(c).

b. Special rules also apply to deposits of Treasury checks, U.S. Postal Service money orders, checks drawn on Federal Reserve Banks and Federal Home Loan Banks, state and local government checks, cashier's checks, certified checks, teller's checks, and, for the purposes of the new account exception only, traveler's checks. The first $5,000 of funds deposited to a new account on any one banking day by these check deposits must be made available for withdrawal in accordance with §229.10(c). Thus, the first $5,000
Federal Reserve System

Pt. 229, App. E

of the proceeds of these check deposits must be made available on the first business day following deposit, if the deposit is made in person to an employee of the depositary bank and the other conditions of next-day availability are met. Funds must be made available on the second business day after deposit for deposits that are not made over the counter, in accordance with §229.10(c)(2). (Proceeds of Treasury check deposits must be made available on the first business day after deposit, even if the check is not deposited in person to an employee of the depositary bank.) Funds in excess of the first $5,000 deposited by these types of checks on a banking day must be available for withdrawal not later than the ninth business day following the banking day of deposit. The requirements of §229.10(c)(1)(vi) and (vii) that "on us" checks and the first $100 of a day’s deposit be made available for withdrawal on the next business day do not apply during the new account period.

3. Representation by Customer. The depositary bank may rely on the representation of the customer that the customer has no established account relationship with the bank, and has not had any such account relationship within the past 30 days, to determine whether an account is subject to the new account exception.

C. 229.13(b) Large Deposits

1. Under the large deposit exception, a depositary bank may extend the hold placed on check deposits to the extent that the amount of the aggregate deposit on any banking day exceeds $5,000. This exception applies to local and nonlocal checks, as well as to checks that otherwise would be made available on the next (or second) business day after the day of deposit under §229.10(c). Although the first $5,000 of a day’s deposit is subject to the availability otherwise provided for checks, the amount in excess of $5,000 may be held for an additional period of time as provided in §229.13(h). When the large deposit exception is applied to deposits composed of a mix of checks that would otherwise be subject to differing availability schedules, the depositary bank has the discretion to choose the portion of the deposit to which it applies the exception. Deposits by cash or electronic payment are not subject to this exception for large deposits.

2. The following example illustrates the operation of the large deposit exception. If a customer deposits $2,000 in cash and a $9,000 local check on a Monday, $2,100 (the proceeds of the cash deposit and $100 from the local check deposit) must be made available for withdrawal on Tuesday. An additional $4,900 of the proceeds of the local check must be available for withdrawal on Wednesday in accordance with the local schedule, and the remaining $4,000 may be held for an additional period of time under the large deposit exception.

3. Where a customer has multiple accounts with a depositary bank, the bank may apply the large deposit exception to the aggregate deposits to all of the customer’s accounts, even if the customer is not the sole holder of the accounts and not all of the holders of the customer’s accounts are the same. Thus, a depositary bank may aggregate the deposits made to two individual accounts in the same name, to an individual and a joint account with one common name, or to two joint accounts with at least one common name for the purpose of applying the large deposit exception. Aggregation of deposits to multiple accounts is permitted because the Board believes that the risk to the depositary bank associated with large deposits is similar regardless of how the deposits are allocated among the customer’s accounts.

D. 229.13(c) Redeposited Checks

1. The EFA Act gives the Board the authority to promulgate an exception to the schedule for checks that have been returned unpaid and redeposited. Section 229.13(c) provides such an exception for checks that have been returned unpaid and redeposited by the customer or the depositary bank. This exception applies to local and nonlocal checks, as well as to checks that would otherwise be made available on the next (or second) business day after the day of deposit under §229.10(c).

2. This exception addresses the increased risk to the depositary bank that checks that have been returned once will be uncollectible when they are presented to the paying bank a second time. The Board, however, does not believe that this increased risk is present for checks that have been returned due to a missing indorsement. Thus, the exception does not apply to checks returned unpaid due to missing indorsements and redeposited after the missing indorsement has been obtained, if the reason for return indicated on the check (see §229.30(d)) states that it was returned due to a missing indorsement. For the same reason, this exception does not apply to a check returned because it was postdated (future dated), if the reason for return indicated on the check states that it was returned because it was postdated, and if it is no longer postdated when redeposited.

3. To determine when funds must be made available for withdrawal, the banking day on which the check is redeposited is considered to be the day of deposit. A depositary bank that made $100 of a check available for withdrawal under §229.10(c)(1)(vii) can charge back the full amount of the check, including the $100, if the check is returned unpaid, and the $100 need not be made available again if the check is redeposited.
E. 229.13(d) Repeated Overdrafts

1. The EFA Act gives the Board the authority to establish an exception for ‘‘deposit accounts which have been overdrawn repeatedly.’’ This paragraph provides two tests to determine what constitutes repeated overdrafts. The first test, a customer’s accounts are considered repeatedly overdrawn if, on six banking days within the preceding six months, the available balance in any account held by the customer is negative, or the balance would have become negative if checks or other charges to the account had been paid, rather than returned. This test can be met based on separate occurrences (e.g., checks that are returned for insufficient funds on six different days), or based on one occurrence (e.g., a negative balance that remains on the customer’s account for six banking days). If the bank dishonors a check that otherwise would have created a negative balance, however, the incident is considered an overdraft only on that day.

2. The second test addresses substantial overdrafts. Such overdrafts increase the risk to the depositary bank of dealing with the repeated overdrafter. Under this test, a customer incurs repeated overdrafts if, on two banking days within the preceding six months, the available balance in any account held by the customer is negative in an amount of $5,000 or more, or would have become negative in an amount of $5,000 or more if checks or other charges to the account had been paid.

3. The exception relates not only to overdrafts caused by checks drawn on the account, but also overdrafts caused by other debit charges (e.g., ACH debits, point-of-sale transactions, returned checks, account fees, etc.). If the potential debit is in excess of available funds, the exception applies regardless of whether the items were paid or returned unpaid. An overdraft resulting from an error on the part of the depositary bank, or from the imposition of overdraft charges for which the customer is entitled to a refund under §§229.13(e) or 229.16(c), cannot be considered in determining whether the customer is a repeated overdrafter. The exception excludes accounts with overdraft lines of credit, unless the credit line has been exceeded or would have been exceeded if the checks or other charges to the account had been paid.

4. This exception applies to local and nonlocal checks, as well as to checks that otherwise would be made available on the next (or second) business day after the day of deposit under §229.10(c). When a bank places or extends a hold under this exception, it need not make the first $100 of a deposit available for withdrawal on the next business day, as otherwise would be required by §229.10(c)(1)(vii).
are based on confidential information. For example, a bank could conclude that a check being deposited is uncollectible based on its reasonable belief that the depositor is engaging in kiting activity. Reasonable belief as to the insolvency or pending insolvency of the drawer of the check or the drawee bank and that the checks will not be paid also may justify invoking this exception. In these cases, the bank may indicate, as the reason it is invoking the exception, that the bank has confidential information that indicates that the check might not be paid.

3. The Board has included a reasonable cause exception notice as a model notice in appendix C (C–13). The model notice includes several reasons for which this exception may be invoked. The Board does not intend to provide a comprehensive list of reasons for which this exception may be invoked; another reason that does not appear on the model notice may be used as the basis for extending a hold, if the reason satisfies the conditions for invoking this exception. A depositary bank may invoke the reasonable cause exception based on a combination of factors that give rise to a reasonable cause to doubt the collectibility of a check. In these cases, the bank should disclose the primary reasons for which the exception was invoked in accordance with paragraph (g) of this section.

4. The regulation provides that the determination that a check is uncollectible shall not be based on a class of checks or persons. For example, a depositary bank cannot invoke this exception simply because the check is drawn on a paying bank in a rural area and the depositary bank knows it will not have the opportunity to learn of non-payment of that check before funds must be made available under the availability schedules. Similarly, a depositary bank cannot invoke the reasonable cause exception based on the race or national origin of the depositor.

5. If a depositary bank invokes this exception with respect to a particular check and does not provide a written notice to the depositor at the time of deposit, the depositary bank may not assess any overdraft fee (such as an “NSF” charge) or charge interest for use of overdraft credit, if the check is paid by the paying bank and these charges would not have occurred had the exception not been invoked. A bank may assess an overdraft fee under these circumstances, however, if it provides notice to the customer, in the notice of exception required by paragraph (g) of this section, that the fee may be subject to refund, and refunds the charges upon the request of the customer. The notice must state that the customer may be entitled to a refund of any overdraft fees that are assessed if the check being held is paid, and indicate where such requests for a refund of overdraft fees should be directed.

G. 229.13(f) Emergency Conditions
1. Certain emergency conditions may arise that delay the collection or return of checks, or delay the processing and updating of customer accounts. In the circumstances specified in this paragraph, the depositary bank may extend the holds that are placed on deposits of checks that are affected by such delays, if the bank exercises such diligence as the circumstances require. For example, if a bank learns that a check has been delayed in the process of collection due to severe weather conditions or other causes beyond its control, an emergency condition covered by this section may exist and the bank may place a hold on the check to reflect the delay. This exception applies to local and nonlocal checks, as well as checks that would otherwise be made available on the next (or second) business day after the day of deposit under §229.10(c). When a bank places or extends a hold under this exception, it need not make the first $100 of a deposit available for withdrawal on the next business day, as otherwise would be required by §229.10(c)(1)(vi). In cases where the emergency conditions exception does not apply, as in the case of deposits of cash or electronic payments under §229.10 (a) and (b), the depositary bank may not be liable for a delay in making funds available for withdrawal if the delay is due to a bona fide error such as an unavoidable computer malfunction.

H. 229.13(g) Notice of Exception
1. In general.
   a. If a depositary bank invokes any of the safeguard exceptions to the schedules listed above, other than the new account or emergency conditions exception, and extends the hold on a deposit beyond the time periods permitted in §§229.10(c) and 229.12, it must provide a notice to its customer. Except in the cases described in paragraphs (g)(2) and (g)(3) of this section, notices must be given each time an exception hold is invoked and must state the customer’s account number, the date of deposit, the reason the exception was invoked, and the time period within which funds will be available for withdrawal. For a customer that is not a consumer, a depositary bank satisfies the written-notice requirement by sending an electronic notice that displays the text and is in a form that the customer may keep, if the customer agrees to such means of notice. Information is in a form that the customer may keep if, for example, it can be downloaded or printed. For a customer who is a consumer, a depositary bank satisfies the written-notice requirement by sending an electronic notice in compliance with the requirements of the Electronic Signatures in Global and National Commerce Act (12 U.S.C. 7001 et seq.), which
include obtaining the consumer's affirmative consent to such means of notice.

b. With respect to paragraph (g)(1), the requirement that the notice state the time period within which deposits subject to the exception may be available for withdrawal if an exception is invoked, the depositary bank may provide a total dollar amount for each of the time periods when funds will be available, or provide the customer with an explanation of how to determine the amount of the deposit that will be held and when the funds will be available for deposit. Appendix C (C–12) contains a model notice.

c. For deposits made in person to an employee of the depositary bank, the notice generally must be given to the person making the deposit, i.e., the “depositor”, at the time of deposit. The depositor need not be the customer holding the account. For other deposits, such as deposits received at an ATM, lobby deposit box, night depository, or through the mail, notice must be mailed to the customer not later than the close of the business day following the banking day on which the deposit was made.

d. Notice to the customer also may be provided at a later time, if the facts upon which the determination to invoke the exception do not become known to the depositary bank until after notice would otherwise have to be given. In these cases, the bank must mail the notice to the customer as soon as practicable, but not later than the business day following the day the facts become known. A bank is deemed to have knowledge when the facts are brought to the attention of the person or persons in the bank responsible for making the determination, or when the facts would have been brought to their attention if the bank had exercised due diligence.

e. In those cases described in paragraphs (g)(2) and (g)(3), the depositary bank need not provide a notice every time an exception hold is applied to a deposit. When paragraph (g)(2) or (g)(3) requires disclosure of the time period within which deposits subject to the exception generally will be available for withdrawal, the requirement may be satisfied if the one-time notice states when “on us,” local, and nonlocal checks will be available for withdrawal if an exception is invoked.

2. One-time exception notice.
a. Under paragraph (g)(2), if a nonconsumer account (see Commentary to §229.2(n)) is subject to the large deposit or redeposited check exception, the depositary bank may give its customer a single notice at or prior to the time notice must be provided under paragraph (g)(1). Notices provided under paragraph (g)(2) must contain the reason the exception may be invoked and the time period within which deposits subject to the exception will be available for withdrawal (see Model Notice C–14). A depositary bank may provide a one-time notice to a nonconsumer customer under paragraph (g)(2) only if each exception cited in the notice (the large deposit and/or the redeposited check exception) will be invoked for most check deposits to the customer’s account to which the exception could apply. A one-time notice may state that the depositary bank will apply exception holds to certain subsets of deposits to which the large deposit or redeposited check exception may apply, and the notice should identify such subsets. For example, the depositary bank may apply the redeposited check exception only to checks that were redeposited automatically by the depositary bank in accordance with an agreement with the customer, rather than to all redeposited checks. In lieu of sending the one-time notice, a depositary bank may send individual hold notices for each deposit subject to the large deposit or redeposited check exception in accordance with §229.13(g)(1) (see Model Notice C–12).

b. In the case of a deposit of multiple checks, the depositary bank has the discretion to place an exception hold on any combination of checks in excess of $5,000. The notice should enable a customer to determine the availability of the deposit in the case of a deposit of multiple checks. For example, if a customer deposits a $5,000 local check and a $5,000 nonlocal check, under the large deposit exception, the depositary bank may make funds available in the amount of (1) $100 on the first business day after deposit, $4,900 on the second business day after deposit (local check), and $5,000 on the eleventh business day after deposit (nonlocal check), or (2) $100 on the first business day after deposit, $4,900 on the second business day after deposit (local check), and $5,000 on the seventh business day after deposit (local check with 6-day exception hold), or (3) $100 on the first business day after deposit, $4,900 on the second business day after deposit (local check), and $5,000 on the seventh business day after deposit (nonlocal check), or (4) $100 on the first business day after deposit, $4,900 on the second business day after deposit (nonlocal check), and $5,000 on the seventh business day after deposit (local check with 5-day exception hold). The notice should reflect the bank’s priorities in placing exception holds on next-day (or second-day), local, and nonlocal checks.

c. Notice of repeated overdraft exception. Under paragraph (g)(3), if an account is subject to the repeated overdraft exception, the depositary bank may provide one notice to its customer for each time period during which the exception will apply. Notices sent pursuant to paragraph (g)(3) must state the customer’s account number, the fact the exception was invoked under the repeated overdraft exception, the time period within which deposits subject to the exception will be made available for withdrawal, and the time period during which the exception will
apply (see Model Notice C–15). A depositary bank may provide a one-time notice to a customer under paragraph (g)(3) only if the repeated overdraft exception will be invoked for the check deposits to the customer’s account.

4. Emergency conditions exception notice.
   a. If an account is subject to the emergency condition exception under §229.13(f), the depositary bank must provide notice in a reasonable form within a reasonable time, depending on the circumstances. For example, a depositary bank may learn of a weather emergency or a power outage that affects the paying bank’s operations. Under these circumstances, it likely would be reasonable for the depositary bank to provide an emergency conditions exception notice in the same manner and within the same time as required for other exception notices. On the other hand, if a depositary bank experiences a weather or power outage emergency that affects its own operations, it may be reasonable for the depositary bank to provide a general notice to all depositors via postings at branches and ATMs, or through newspaper, television, or radio notices.
   b. If the depositary bank extends the hold placed on a deposit due to an emergency condition, the bank need not provide a notice if the funds would be available for withdrawal before the notice must be sent. For example, if on the last day of a hold period the depositary bank experiences a computer failure and customer accounts cannot be updated in a timely fashion to reflect the funds as available balances, notices are not required if the funds are made available before the notices must be sent.

5. Record retention. A depositary bank must retain a record of each notice of a reasonable cause exception for a period of two years, or such longer time as provided in the record retention requirements of §229.21. This record must contain a brief description of the facts on which the depositary bank based its judgment that there was reasonable cause to doubt the collectibility of a check. In many cases, such as where the exception was invoked on the basis of a notice of non-payment retrieved, the record requirement may be met by retaining a copy of the notice sent to the customer. In other cases, such as where the exception was invoked on the basis of confidential information, a further description to the facts, such as insolvency of drawer, should be included in the record.

I. 229.13(h) Availability of Deposits Subject to Exceptions

1. If a depositary bank invokes any exception other than the new account exception, the bank may extend the time within which funds must be made available under the schedule by a reasonable period of time. This provision establishes that an extension of up to one business day for “on us” checks, five business days for local checks, and six business days for nonlocal checks and checks deposited in a nonproprietary ATM is reasonable. Under certain circumstances, however, a longer extension of the schedules may be reasonable. In these cases, the burden is placed on the depositary bank to establish that a longer period is reasonable.

2. For example, assume a bank extended the hold on a local check deposit by five business days based on its reasonable cause to believe that the check is uncollectible. If, on the day before the extended hold is scheduled to expire, the bank receives a notification from the paying bank that the check is being returned unpaid, the bank may determine that a longer hold is warranted, if it decides not to charge back the customer’s account based on the notification. If the bank decides to extend the hold, the bank must send a second notice, in accordance with paragraph (g) of this section, indicating the new date that the funds will be available for withdrawal.

3. With respect to Treasury checks, U.S. Postal Service money orders, checks drawn on Federal Reserve Banks or Federal Home Loan Banks, state and local government checks, cashier’s checks, certified checks, and teller’s checks subject to the next-day (or second-day) availability requirement, the depositary bank may extend the time funds must be made available for withdrawal under the large deposit, redeposited check, repeated overdraft, or reasonable cause exception by a reasonable period beyond the delay that would have been permitted under the regulation had the checks not been subject to the next-day (or second-day) availability requirement. The additional hold is added to the local or nonlocal schedule that would apply based on the location of the paying bank.

4. One business day for “on us” checks, five business days for local checks, and six business days for nonlocal checks or checks deposited in a nonproprietary ATM, in addition to the time period provided in the schedule, should provide adequate time for the depositary bank to learn of the nonpayment of virtually all checks that are returned. For example, if a customer deposits a $7,000 cashier’s check drawn on a nonlocal bank, and the depositary bank applies the large deposit exception to that check, $5,000 must be available for withdrawal on the first business day after the day of deposit and the remaining $2,000 must be available for withdrawal on the eleventh business day following the day of deposit (six business days added to the five-day schedule for nonlocal checks), unless the depositary bank establishes that a longer hold is reasonable.

5. In the case of the application of the emergency conditions exception, the depositary bank may extend the hold placed on a check by not more than a reasonable period
Pt. 229, App. E
12 CFR Ch. II (1–1–09 Edition)

following the end of the emergency or the time funds must be available for withdrawal under §§229.10(c) or 229.12, whichever is later. 6. This provision does not apply to holds imposed under the new account exception. Under that exception, the maximum time period within which funds must be made available for withdrawal is specified for deposits that generally must be accorded next-day availability under §229.10. This subpart does not specify the maximum time period within which the proceeds of local and nonlocal checks must be made available for withdrawal during the new account period.

VIII. Section 229.14 Payment of Interest

A. 229.14(a) In General
1. This section requires that a depositary bank begin accruing interest on interest-bearing accounts not later than the day on which the depositary bank receives credit for the funds deposited.3 A depositary bank generally receives credit on checks within one or two days following deposit. A bank receives credit on a cash deposit, an electronic payment, and the deposit of a check that is drawn on the depositary bank itself on the day the cash, electronic payment, or check is received. In the case of a deposit at a non-proprietary ATM, credit generally is received on the day the bank that operates the ATM credits the depositary bank for the amount of the deposit. In the case of a deposit at a contractual branch, credit is received on the day the depositary bank receives credit for the amount of the deposit, which may be different from the day the contractual branch receives credit for the deposit.

2. Because account includes only transaction accounts, other interest-bearing accounts of the depositary bank, such as money market deposit accounts, savings deposits, and time deposits, are not subject to this requirement; however, a bank may accrue interest on such deposits in the same way that it accrues interest under this paragraph for simplicity of operation. The Board intends the term interest to refer to payments to or for the account of any customer as compensation for the use of funds, but to exclude the absorption of expenses incident to providing a normal banking function or a bank’s forbearance from charging a fee in connection with such a service. (See 12 CFR 217.2(d).) Thus, earnings credits often applied to corporate accounts are not interest payments for the purposes of this section.

3. It may be difficult for a depositary bank to track which day the depositary bank receives credit for specific checks in order to accrue interest properly on the account to which the check is deposited. This difficulty may be pronounced if the bank uses different means of collecting checks based on the time of day the check is received, the dollar amount of the check, and/or the paying bank to which it must be sent. Thus, for the purpose of the interest accrual requirement, a bank may rely on an availability schedule from its Federal Reserve Bank, Federal Home Loan Bank, or correspondent to determine when the depositary bank receives credit. If availability is delayed beyond that specified in the availability schedule, a bank may charge back interest erroneously accrued or paid on the basis of that schedule.

4. This paragraph also permits a depositary bank to accrue interest on checks deposited to all of its interest-bearing accounts based on when the bank receives credit on all checks sent for payment or collection. For example, if a bank receives credit on 20 percent of the funds deposited in the bank by check as of the business day of deposit (e.g., “on us” checks), 70 percent as of the business day following deposit, and 10 percent on the second business day following deposit, the bank can apply these percentages to determine the day interest must begin to accrue on check deposits to all interest-bearing accounts, regardless of when the bank received credit on the funds deposited in any particular account. Thus, a bank may begin accruing interest on a uniform basis for all interest-bearing accounts, without the need to track the type of check deposited to each account.

5. This section is not intended to limit a policy of a depositary bank that provides that interest accrues only on balances that exceed a specified amount, or on the minimum balance maintained in the account.

---

3 This section implements section 606 of the EFA Act (12 U.S.C. 4005). The EFA Act keys interest to the amount of the deposit, and the concept of provisional settlement is derived from the Code’s concept of provisional settlement. (See U.C.C. 4-214 and 4-215.) Provisional credit is credit that is subject to charge-back if the check is returned unpaid; once the check is finally paid, the right to charge back expires and the provisional credit becomes final. Under Subpart C, a paying bank no longer has an automatic right to charge back credits given in settlement of a check, and the concept of provisional settlement is no longer useful and has been eliminated by the regulation. Accordingly, this section uses the term credit rather than provisional credit, and this section applies regardless of whether a credit would be provisional or final under the U.C.C. Credit does not include a bookkeeping entry (sometimes referred to as deferred credit) that does not represent funds actually available for the bank’s use.
Federal Reserve System

IX. Section 229.15 General Disclosure Requirements

A. 229.15(a) Form of Disclosures

1. This paragraph sets forth the general requirements for the disclosures required under Subpart B. All of the disclosures must be given in a clear and conspicuous manner, must be in writing, and, in most cases, must be in a form the customer may keep. A disclosure is in a form that the customer may keep if, for example, it can be downloaded or printed. For a customer that is not a consumer, a depository bank satisfies the written-disclosure requirement by sending an electronic disclosure that displays the text and is in a form that the customer may keep, if the customer agrees to such means of disclosure. For a customer who is a consumer, a depository bank satisfies the written-notice requirement by sending an electronic notice in compliance with the requirements of the Electronic Signatures in Global and National Commerce Act (12 U.S.C. 7001 et seq.), which include obtaining the consumer’s affirmative consent to such means of notice. Disclosures posted at locations where employees accept consumer deposits, at ATMs, and on preprinted deposit slips need not be in a form that the customer may keep. Appendix C of the regulation contains model forms, clauses, and notices to assist banks in preparing disclosures.

2. Disclosures concerning availability must be grouped together and may not contain any information that is not related to the disclosures required by this subpart. Therefore, banks may not intersperse the required disclosures with other account disclosures, and may not include other account information that is not related to their availability policy within the text of the required disclosures. Banks may, however, include information that is related to their availability policies. For example, a bank may inform its customers that, even when the bank has already made funds available for withdrawal, the customer is responsible for any problem with the deposit, such as the return of a deposited check.

3. The regulation does not require that the disclosures be segregated from other account terms and conditions. For example, banks may include the disclosure of their specific availability policy in a booklet or pamphlet that sets out all of the terms and conditions of the bank’s accounts. The required disclosures must, however, be grouped together and highlighted or identified in some manner, for example, by use of a separate heading for the disclosures, such as “When Deposits are Available for Withdrawal.”

4. A bank may, by agreement or at the consumer’s request, provide any disclosure or notice required by subpart B in a language other than English, provided that the bank makes a complete disclosure available in English at the customer’s request.

B. 229.15(b) Uniform Reference to Day of Availability

1. This paragraph requires banks to disclose in a uniform manner when deposited funds will be available for withdrawal. Banks must disclose when deposited funds are available for withdrawal by stating the business day on which the customer may begin to withdraw funds. The business day funds will be available must be disclosed as “the business day after” the day of deposit, or substantially similar language. The business day of availability is determined by counting the number of business
days starting with the business day following the banking day on which the deposit is received, as determined under §229.19(a), and ending with the business day on which the customer may begin to withdraw funds. For example, a bank that imposes delays of four intervening business days for nonlocal checks must describe those checks as being available on “the fifth business day after” the day of the deposit.

C. 229.15(c) Multiple Accounts and Multiple Account Holders

1. This paragraph clarifies that banks need not provide multiple disclosures under the regulation. A single disclosure to a customer that holds multiple accounts, or a single disclosure to one of the account holders of a jointly held account, satisfies the disclosure requirements of the regulation.

D. 229.15(d) Dormant or Inactive Accounts

1. This paragraph makes clear that banks need not provide disclosure of their specific availability policies to customers that hold accounts that are either dormant or inactive. The determination that certain accounts are dormant or inactive must be made by the bank. If a bank considers an account dormant or inactive for purposes other than this regulation and no longer provides statements and other mailings to an account for this reason, such an account is considered dormant or inactive for purposes of this regulation.

X. Section 229.16 Specific Availability Policy Disclosure

A. 229.16(a) General

1. This section describes the information that must be disclosed by banks to comply with §§229.17 and 229.18(d), which require that banks furnish notices of their specific policy regarding availability of deposited funds. The disclosure must reflect the availability policy followed by the bank in most cases, even though a bank may in some cases make funds available sooner or impose a longer delay.

2. The disclosure must reflect the policy and practice of the bank regarding availability as to most accounts and most deposits into those accounts. In disclosing the availability policy that it follows in most cases, a bank may provide a single disclosure that reflects one policy to all its transaction account customers, even though some of its customers may receive faster availability than that reflected in the policy disclosure. Thus, a bank need not disclose to some customers that they receive faster availability than indicated in the disclosure. If, however, a bank has a policy of imposing delays in availability on any customers longer than those specified in its disclosure, those customers must receive disclosures that reflect the longer applicable availability periods. A bank may establish different availability policies for different groups of customers, such as customers in a particular geographic area or customers of a particular branch. For purposes of providing a specific availability policy, the bank may allocate customers among groups through good faith use of a reasonable method. A bank may also establish different availability policies for deposits at different locations, such as deposits at a contractual branch.

3. A bank may disclose that funds are available for withdrawal on a given day notwithstanding the fact that the bank uses the funds to pay checks received before that day. For example, a bank may disclose that its policy is to make funds available from deposits of local checks on the second business day following the day of deposit, even though it may use the deposited funds to pay checks prior to the second business day; the funds used to pay checks in this example are not available for withdrawal until the second business day after deposit because the funds are not available for all uses until the second business day. (See the definition of available for withdrawal in §229.2(d).)

B. 229.16(b) Content of Specific Policy Disclosure

1. This paragraph sets forth the items that must be included, as applicable, in a bank’s specific availability policy disclosure. The information that must be disclosed by a particular bank will vary considerably depending upon the bank’s availability policy. For example, a bank that makes deposited funds available for withdrawal on the business day following the day of deposit need simply disclose that deposited funds will be available for withdrawal on the first business day after the day of deposit, the bank’s business days, and when deposits are considered received.

2. On the other hand, a bank that has a policy of routinely delaying on a blanket basis the time when deposited funds are available for withdrawal would have a more detailed disclosure. Such blanket hold policies might be for the maximum time allowed under the federal law or might be for shorter periods. These banks must disclose the types of deposits that will be subject to delays, how the customer can determine the type of deposit being made, and the day that funds from each type of deposit will be available for withdrawal.

3. Some banks may have a combination of next-day availability and blanket delays. For example, a bank may provide next-day availability for all deposits except for one or two categories, such as deposits at nonproprietary ATMs and nonlocal personal checks over a specified dollar amount. The bank would describe the categories that are subject to delays in availability and tell the
customer when each category would be available for withdrawal, and state that other deposits will be available for withdrawal on the first business day after the day of deposit. Similarly, a bank that provides availability on the second business day for most of its deposits would need to identify the categories of deposits which, under the regulation, are subject to availability and state that all other deposits will be available on the second business day.

4. Because many banks' availability policies may be complex, a bank must give a brief summary of its policy at the beginning of the disclosure. In addition, the bank must describe any circumstances when actual availability may be longer than the schedules disclosed. Such circumstances would arise, for example, when the bank invokes one of the exceptions set forth in §229.13 of the regulation, or when the bank delays or extends the time when deposited funds are available for withdrawal up to the time periods allowed by the regulation on a case-by-case basis. Also, a bank that must make certain checks available faster under appendix B (reduction of schedules for certain nonlocal checks) must state that some check deposits will be available for withdrawal sooner because of special rules and that a list of the pertinent routing numbers is available upon request.

5. Generally, a bank that distinguishes in its disclosure between local and nonlocal checks based on the routing number on the check must disclose to its customers that certain checks, such as some credit union payable-through drafts, will be treated as local or nonlocal based on the location of the bank by which they are payable (e.g., the credit union), and not on the basis of the location of the bank whose routing number appears on the check. A bank is not required to provide this disclosure, however, if it makes the proceeds of both local and nonlocal deposits available for withdrawal within the time periods required for local checks in §§229.12 and 229.13.

6. The business day cut-off time used by the bank must be disclosed and if some locations have different cut-off times the bank must note this in the disclosure and state the earliest time that might apply. A bank need not list all of the different cut-off times that might apply. If a bank does not have a cut-off time prior to its closing time, the bank need not disclose a cut-off time.

7. A bank taking advantage of the extended time period for making deposits at nonproprietary ATMs available for withdrawal under §229.12(f) must explain this in the initial disclosure. In addition, the bank must provide a list (on or with the initial disclosure) of either the bank's proprietary ATMs or those ATMs that are nonproprietary at which customers may make deposits. As an alternative to providing such a list, the bank may label all of its proprietary ATMs with the bank's name and state in the initial disclosure that this has been done. Similarly, a bank taking advantage of the cash withdrawal limitations of §229.18(d) or the provision in §229.19(e) allowing holds to be placed on other deposits when a deposit is made or a check is cashed, must explain this in the initial disclosure.

8. A bank that provides availability based on when the bank generally receives credit for deposited checks need not disclose the time when a check drawn on a specific bank will be available for withdrawal. Instead, the bank may disclose the categories of deposits that must be available on the first business day after the day of deposit (deposits subject to §229.10) and state the other categories of deposits and the time periods that will be applicable to those deposits. For example, a bank might disclose the four-digit Federal Reserve routing symbol for local checks and indicate that such checks as well as certain nonlocal checks will be available for withdrawal on the first or second business day following the day of deposit, depending on the location of the particular bank on which the check is drawn, and disclose that funds from all other checks will be available on the second or third business day. The bank must also disclose that the customer may request a copy of the bank's detailed schedule that would enable the customer to determine the availability of any check and must provide such schedule upon request. A change in the bank's detailed schedule would not trigger the change in policy disclosure requirement of §229.18(e).

C. 229.16(c) Longer Delays on a Case-by-Case Basis

1. Notice in specific policy disclosure.

a. Banks that make deposited funds available for withdrawal sooner than required by the regulation—for example, providing their customers with immediate or next-day availability for deposited funds—and delay the time when funds are available for withdrawal only from time to time determined on a case-by-case basis, must provide notice of this in their specific availability policy disclosure. This paragraph outlines the requirements for that notice.

b. In addition to stating what their specific availability policy is in most cases, banks that may delay or extend the time when deposits are available on a case-by-case basis must: state that from time to time funds may be available for withdrawal later than the time periods in their specific policy disclosure, disclose the latest time that a customer may have to wait for deposited funds to be available for withdrawal when a case-by-case hold is placed, state that customers will be notified when availability of a deposit is delayed on a case-by-case basis, and advise customers to ask if they need to be...

sure of the availability of a particular deposit.

c. A bank that imposes delays on a case-
by-case basis is still subject to the avail-
ability policy disclosure. If the bank imposes a delay on a particular de-
posit that is not longer than the availability
required by §229.12 for local and nonlocal checks, the reason for the delay need not be
based on the exceptions provided in §229.13.
If the delay exceeds the time periods per-
mittted under §229.12, however, then it must
be based on an exception provided in §229.13,
and the bank must comply with the §229.13
notice requirements. A bank that imposes
delays on a case-by-case basis may avail
itself of the one-time notice provisions in
§229.13(c)(2) and (3) for deposits to which
those provisions apply.

2. Notice at time of case-by-case delay.

a. In addition to including the disclosures
required by paragraph (c)(1) of this section
in their specific availability policy disclosure,
banks that delay or extend the time period
when funds are available for withdrawal on
a case-by-case basis must give customers a no-
tice when availability of funds from a par-
ticular deposit will be delayed or extended
beyond the time when deposited funds are
generally available for withdrawal. The no-
tice must state that a delay is being imposed
and indicate when the funds will be avail-
able. In addition, the notice must include the
account number, the date of the deposit, and
the amount of the deposit being delayed.

b. If notice of the delay was not given at
the time the deposit was made and the bank
assesses overdraft or returned check fees on
accounts when a case-by-case hold has been
placed, the case-by-case hold notice provided
to the customer must include a notice con-
cerning overdraft or returned check fees. The
notice must state that the customer may be
entitled to a refund of any overdraft or re-
turned check fees that result from the depos-
ited funds not being available if the check
that was deposited was in fact paid by the
payor bank, and explain how to request a re-
fund of any fees. (See §229.16(c)(3).)

c. The requirement that the case-by-case
hold notice state the day that funds will be
made available for withdrawal may be met
by stating the date or the number of business
days after deposit that the funds will be
made available. This requirement is satisfied
if the notice provides information sufficient
to indicate when funds will be available and
the amounts that will be available at those
times. For example, for a deposit involving
more than one check, the bank need not pro-
vide a notice that discloses when funds from
each individual item in the deposit will be
available for withdrawal. Instead, the bank
may provide a total dollar amount for each
of the time periods when funds will be avail-
able, or provide the customer with an expla-
nation of how to determine the amount of
the deposit that will be held and when the
held funds will be available for withdrawal.

d. For deposits made in person to an em-
ployee of the depositary bank, the notice
generally must be given at the time of the
deposit. The notice at the time of the deposit
must be given to the person making the de-
posit, that is, the “depositor.” The depositor
need not be the customer holding the ac-
count. For other deposits, such as deposits
received at an ATM, lobby deposit box, night
depository, through the mail, or by armored
car, notice must be mailed to the customer
not later than the close of the business day
following the banking day on which the de-
posit was made. Notice to the customer also
may be provided not later than the close of
the business day following the banking day
on which the deposit was made if the deci-
sion to delay availability is made after the
time of the deposit.

3. Overdraft and returned check fees. If a
depository bank delays or extends the time
when funds from a deposited check are avail-
able for withdrawal on a case-by-case basis
and does not provide a written notice to its
depositor at the time of deposit, the deposi-
tary bank may not assess any overdraft or
returned check fees (such as an insufficient
funds charge) or charge interest for use of an
overdraft line of credit, if the deposited
check is paid by the paying bank and these
fees would not have occurred had the addi-
tional case-by-case delay not been imposed.
A bank may assess an overdraft or returned
check fee under these circumstances, how-
ever, if it provides notice to the customer in
the notice required by paragraph (c)(2) of
this section that the fee may be subject to
refund, and refunds the fee upon the request
of the customer when required to do so. The
notice must state that the customer may be
entitled to a refund of any overdraft or re-
turned check fees that are assessed if the de-
posited check is paid, and indicate where
such requests for a refund of overdraft fees
should be directed. Paragraph (c)(3) applies
when a bank provides a case-by-case notice
in accordance with paragraph (c)(2) and does
not apply if the bank has provided an excep-
tion hold notice in accordance with §229.13.

D. 229.16(d) Credit Union Notice of Interest
Payment Policy

1. This paragraph sets forth the special dis-
closure requirement for credit unions that
delay accrual of interest or dividends for all
cash and check deposits beyond the date of
receiving provisional credit for checks being
deposited. (The interest payment require-
ment is set forth in §229.14(a).) Such credit
unions are required to describe their policy
with respect to accrual of interest or divi-
dends on deposits in their specific avail-
ability policy disclosure.
XI. Section 229.17 Initial Disclosures

A. This paragraph requires banks to provide a notice of their availability policy to all potential customers prior to opening an account. The requirement of a notice prior to opening an account requires banks to provide disclosures prior to accepting a deposit to an account. Disclosures must be given at the time the bank accepts an initial deposit regardless of whether the bank has opened the account yet for the customer. If a bank, however, receives a written request by mail from a person asking that an account be opened with a deposit, the bank may open the account with the deposit, provided the bank mails the required disclosures to the customer not later than the business day following the banking day on which the bank receives the deposit. Similarly, if a bank receives a telephone request from a customer asking that an account be opened with a transfer from a separate account of the customer’s at the bank, the disclosure may be mailed not later than the business day following the banking day of the request.

XII. Section 229.18 Additional Disclosure Requirements

A. 229.18(a) Deposit Slips

1. This paragraph requires banks to include a notice on all preprinted deposit slips. The deposit slip notice need only state, somewhere on the front of the deposit slip, that deposits may not be available for immediate withdrawal. The notice is required only on preprinted deposit slips—those printed with the customer’s account number and name and furnished by the bank in response to a customer's order to the bank. A bank need not include the notice on deposit slips that are not preprinted and supplied to the customer—such as counter deposit slips—or on those special deposit slips provided to the customer under §229.10(c). A bank is not responsible for ensuring that the notice appear on deposit slips that the customer does not obtain from or through the bank. This paragraph applies to preprinted deposit slips furnished to customers on or after September 1, 1988.

B. 229.18(b) Locations Where Employees Accept Consumer Deposits

1. This paragraph describes the statutory requirement that a bank post in each location where its employees accept consumer deposits a notice of its availability policy pertaining to consumer accounts. The notice that is required must specifically state the availability periods for the various deposits that may be made to consumer accounts. The notice need not be posted at each teller window, but the notice must be posted in a place where consumers seeking to make deposits are likely to see it before making their deposits. For example, the notice might be posted at the point where the line forms for teller service in the lobby. The notice is not required at any drive-through teller windows nor is it required at night depository locations, or at locations where consumer deposits are not accepted. A bank that acts as a contractual branch at a particular location must include the availability policy that applies to its own customers but need not include the policy that applies to the customers of the bank for which it is acting as a contractual branch.

C. 229.18(c) Automated Teller Machines

1. This paragraph sets forth the required notices for ATMs. Paragraph (c)(1) provides that the depository bank is responsible for posting a notice on all ATMs at which deposits can be made to accounts at the depository bank. The depository bank may arrange for a third party, such as the owner or operator of the ATM, to post the notice and indemnify the depository bank from liability if the depository bank is liable under §229.21 for the owner or operator failing to provide the required notice.

2. The notice may be posted on a sign, shown on the screen, or included on deposit envelopes provided at the ATM. This disclosure must be given before the customer has made the deposit. Therefore, a notice provided on the customer’s deposit receipt or appearing on the ATM’s screen after the customer has made the deposit would not satisfy this requirement.

3. Paragraph (c)(2) requires a depository bank that operates an off-premise ATM from which deposits are removed not more than twice a week to make a disclosure of this fact on the off-premise ATM. The notice must disclose to the customer the days on which deposits made at the ATM will be considered received.

D. 229.18(d) Upon Request

1. This paragraph requires banks to provide written notice of their specific availability policy to any person upon that person’s oral or written request. The notice must be sent within a reasonable period of time following receipt of the request.

E. 229.18(e) Changes in Policy

1. This paragraph requires banks to send notices to their customers when the banks change their availability policies with regard to consumer accounts. A notice may be given in any form as long as it is clear and conspicuous. If the bank gives notice of a change by sending the customer a complete new availability disclosure, the bank must direct the customer to the changed terms in the disclosure by use of a letter or insert, or

by highlighting the changed terms in the disclosure.

2. Generally, a bank must send a notice at least 30 calendar days before implementing any change that results in faster availability of deposits—e.g., if the bank changes its availability for nonlocal checks from the fifth banking day after deposit to the fourth business day after deposit—the bank need not send advance notice. The bank must, however, send notice of the change no later than 30 calendar days after the change is implemented. A bank is not required to give a notice when there is a change in appendix B (reduction of schedules for certain nonlocal checks).

3. A bank that has provided its customers with a list of ATMs under §229.16(b)(5) shall provide its customers with an updated list of ATMs once a year if there are changes in the list of ATMs previously disclosed to the customers.

XIII. Section 229.19 Miscellaneous

A. 229.19(a) When Funds Are Considered Deposited

1. The time funds must be made available for withdrawal under this subpart is determined by the day the deposit is made. This paragraph provides rules to determine the day funds are considered deposited in various circumstances.

2. Staffed facilities and ATMs. Funds received at a staffed teller station or ATM are considered deposited when received by the teller or at the ATM. Funds received at a contractual branch are considered deposited when received by a teller at the contractual branch or deposited into a proprietary ATM of the contractual branch. (See also, Commentary to §229.18(c) on deposits made to an employee of the depositary bank.) Funds deposited to a deposit box in a bank lobby that is accessible to customers only during regular business hours generally are considered deposited when placed in the lobby box; a bank may, however, treat deposits to lobby boxes the same as deposits to lobby depositories (as provided in §229.19(a)(3)), provided a notice appears on the lobby box informing the customer when such funds will be considered deposited.

3. Mail. Funds mailed to the depositary bank are considered deposited on the banking day they are received by the depositary bank. The funds are received by the depositary bank at the time the mail is delivered to the bank, even if it is initially delivered to a mail room, rather than the check processing area.

4. Other facilities.

a. In addition to deposits at staffed facilities, at ATMs, and by mail, funds may be deposited at a facility such as a night depository or a lock box. A night depository is a receptacle for receipt of deposits, typically used by corporate depositors when the branch is closed. Funds deposited at a night depository are considered deposited on the banking day the deposit is made, and the contents of the deposit are accessible to the depositary bank for processing. For example, some businesses deposit their funds in a locked bag at the night depository late in the evening, and return to the bank the following day to open the bag. Other depositors may have an agreement with their bank that the deposit bag must be opened under the dual control of the bank and the depositor. In these cases, the funds are considered deposited when the customer returns to the bank and opens the deposit bag.

b. A lock box is a post office box used by a corporation for the collection of bill payments or other check receipts. The depositary bank generally assumes the responsibility for collecting the mail from the lock box, processing the checks, and crediting the corporation for the amount of the deposit. Funds deposited through a lock box arrangement are considered deposited on the day the deposit is removed from the lock box and are accessible to the depositary bank for processing.

5. Certain off-premise ATMs. A special provision is made for certain off-premise ATMs that are not serviced daily. Funds deposited at such an ATM are considered deposited on the day they are removed from the ATM, if the ATM is not serviced more than two times each week. This provision is intended to address the practices of some banks of servicing certain remote ATMs infrequently. If a depositary bank applies this provision with respect to an ATM, a notice must be posted at the ATM informing depositors that funds deposited at the ATM may not be considered deposited until a future day, in accordance with §229.18.

6. Banking day of deposit.

a. This paragraph also provides that a deposit received on a day that the depositary bank is closed, or after the bank’s cut-off hour, may be considered made on the next banking day. Generally, for purposes of the availability schedules of this subpart, a bank may establish a cut-off hour of 2 p.m. or later for receipt of deposits at its head office or branch offices. For receipt of deposits at ATMs, contractual branches, or other off-premise facilities, such as night depositories or lock boxes, the depositary bank may establish a cut-off hour of 12:00 noon or later (either local time of the branch or other location of the depositary bank at which the account is maintained or local time of the ATM, contractual branch, or other off-premise facility). The depositary bank must use the same timing method for establishing the cut-off hour for all ATMs, contractual branches, and other off-premise facilities used by its customers. The choice of cut-off
Federal Reserve System

Pt. 229, App. E

hour must be reflected in the bank's internal procedures, and the bank must inform its customers of the cut-off hour upon request. This earlier cut-off for ATM, contractual branch, or other off-premise deposits is intended to provide greater flexibility in the servicing of these facilities.

b. Different cut-off hours may be established for different types of deposits. For example, a bank may establish a 2 p.m. cut-off for the receipt of check deposits, but a later cut-off for the receipt of wire transfers. Different cut-off hours also may be established for deposits received at different locations. For example, a different cut-off may be established for ATM deposits than for over-the-counter deposits, or for different teller stations at the same branch. With the exception of the 12 noon cut-off for deposits at ATMs and off-premise facilities, no cut-off hour for receipt of deposits for purposes of this subpart can be established earlier than 2 p.m.

c. A bank is not required to remain open until 2 p.m. If a bank closes before 2 p.m., deposits received after the closing may be considered deposited on the next banking day. Further, as §229.2(f) defines the term banking day as the portion of a business day on which a bank is open to the public for substantially all of its banking functions, a day, or a portion of a day, is not necessarily a banking day merely because the bank is open for only limited functions, such as keeping drive-in or walk-up teller windows open, when the rest of the bank is closed to the public. For example, a banking office that usually provides a full range of banking services may close at 12 noon but leave a drive-in teller window open for the limited purpose of receiving deposits and making cash withdrawals. Under those circumstances, the bank is considered closed and may consider deposits received after 12 noon as having been received on the next banking day. The fact that a bank may reopen for substantially all of its banking functions after 2 p.m., or that it continues its back office operations throughout the day, would not affect this result. A bank may not, however, close individual teller stations and reopen them for next-day's business before 2 p.m. during a banking day.

B. 229.19(b) Availability at Start of Business Day

1. If funds must be made available for withdrawal on a business day, the funds must be available for withdrawal by the later of 9 a.m. or the time the depository bank's teller facilities, including ATMs, are available for customer account withdrawals, except under the special rule for cash withdrawals set forth in §229.12(d). Thus, if a bank has no ATMs and its branch facilities are available for customer transactions beginning at 10 a.m., funds must be made available for customer withdrawal beginning at 10 a.m. If the bank has ATMs that are available 24 hours a day, rather than establishing 12:01 a.m. as the start of the business day, this paragraph sets 9 a.m. as the start of the day with respect to ATM withdrawals. The Board believes that this rule provides banks with sufficient time to update their accounting systems to reflect the available funds in customer accounts for that day.

2. The start of business is determined by the local time of the branch or other location of the depository bank at which the account is maintained. For example, if funds in a customer's account at a west coast bank are first made available for withdrawal at the start of business on a given day, and the customer attempts to withdraw the funds at an east coast ATM, the depository bank is not required to make the funds available until 9 a.m. west coast time (12 noon east coast time).

C. 229.19(c) Effect on Policies of Depositary Bank

1. This subpart establishes the maximum hold that may be placed on customer deposits. A depository bank may provide availability to its customers in a shorter time than prescribed in this subpart. A depository bank also may adopt different funds availability policies for different segments of its customer base, as long as each policy meets the criteria in the regulation. For example, a bank may differentiate between its corporate and consumer customers, or may adopt different policies for its consumer customers based on whether a customer has an overdraft line of credit associated with the account.

2. This regulation does not affect a depository bank's right to accept or reject a check for deposit, to charge back the customer's account based on a returned check or notice of nonpayment, or to claim a refund for any credit provided to the customer. For example, even if a check is returned or a notice of nonpayment is received after the time by which funds must be made available for withdrawal in accordance with this regulation, the depository bank may charge back the customer's account for the full amount of the check. (See §229.33(d) and Commentary.)

3. Nothing in the regulation requires a depository bank to have facilities open for customers to make withdrawals at specified times or on specified days. For example, even though the special cash withdrawal rule set forth in §229.12(d) states that a bank must make up to $400 available for cash withdrawals no later than 5 p.m. on specific business days, if a bank does not participate in an ATM system and does not have any teller windows open at or after 5 p.m., the bank need not join an ATM system or keep
In this case, the bank complies with this rule if the funds that are required to be available for cash withdrawal at 5 p.m. on a particular day are available for withdrawal at the start of business on the following day. Similarly, if a depositary bank is closed for customer transactions, including ATMs, on a day funds must be made available for withdrawal, the regulation does not require the bank to open.

4. The special cash withdrawal rule in the EFA Act recognizes that the $400 that must be made available for cash withdrawal by 5 p.m. on the day specified in the schedule may exceed a bank’s daily ATM cash withdrawal limit and explicitly provides that the EFA Act does not supersede a bank’s policy in this regard. As a result, if a bank has a policy of limiting cash withdrawals from automated teller machines to $250 per day, the regulation would not require that the bank dispense $400 of the proceeds of the customer’s deposit that must be made available for cash withdrawal on that day.

5. Even though the EFA Act clearly provides that the bank’s ATM withdrawal limit is not superseded by the federal availability rules on the day funds must first be made available, the EFA Act does not specifically permit banks to limit cash withdrawals at ATMs on subsequent days when the entire amount of the deposit must be made available for withdrawal. The Board believes that the rationale behind the EFA Act’s provision that a bank’s ATM withdrawal limit is not superseded by the requirement that funds be made available for cash withdrawal applies on subsequent days. Nothing in the regulation prohibits a depositary bank from establishing ATM cash withdrawal limits that vary among customers of the bank, as long as the limit is not dependent on the length of time funds have been in the customer’s account (provided that the permissible hold has expired).

6. Some small banks, particularly credit unions, due to lack of secure facilities, keep no cash on their premises and hence offer no cash withdrawal capability to their customers. Other banks limit the amount of cash on their premises due to bonding requirements or cost factors, and consequently reserve the right to limit the amount of cash each customer can withdraw over-the-counter on a given day. For example, some banks require advance notice for large cash withdrawals in order to limit the amount of cash needed to be maintained on hand at any time.

7. Nothing in the regulation is intended to prohibit a bank from limiting the amount of cash that may be withdrawn at a staffed teller station if the bank has a policy limiting the amount of cash that may be withdrawn, and if that policy is applied equally to all customers of the bank, is based on security, operating, or bonding requirements, and is not dependent on the length of time the funds have been in the customer’s account (as long as the permissible hold has expired). The regulation, however, does not authorize such policies if they are prohibited by statutory, regulatory, or common law.

D. 229.19(d) Use of Calculated Availability

1. A depositary bank may provide availability to its nonconsumer accounts on a calculated availability basis. Under calculated availability, a specified percentage of funds from check deposits may be made available to the customer on the next business day, with the remaining percentage deferred until subsequent days. The determination of the percentage of deposited funds that will be made available each day is based on the customer’s typical deposit mix as determined by a sample of the customer’s deposits. Use of calculated availability is permitted only if, on average, the availability terms that result from the sample are equivalent to or more prompt than the requirements of this subpart.

E. 229.19(e) Holds on Other Funds

1. Section 607(d) of the EFA Act (12 U.S.C. 4002(d)) provides that once funds are available for withdrawal under the EFA Act, such funds shall not be frozen solely due to the subsequent deposit of additional checks that are not yet available for withdrawal. This provision of the EFA Act is designed to prevent evasion of the EFA Act’s availability requirements.

2. This paragraph clarifies that if a customer deposits a check in an account (as defined in §229.2(a)), the bank may not place a hold on any of the customer’s funds so that the funds that are held exceed the amount of the check deposited or the total amount of funds held are not made available for withdrawal within the times required in this subpart. For example, if a bank places a hold on funds in a customer’s non transaction account, rather than a transaction account, for deposits made to the customer’s transaction account, the bank may place such a hold only to the extent that the funds held do not exceed the amount of the deposit and the length of the hold does not exceed the time periods permitted by this regulation.

3. These restrictions also apply to holds placed on funds in a customer’s account (as defined in §229.2(a)) if a customer cashes a check at a bank (other than a check drawn on that bank) over the counter. The regulation does not prohibit holds that may be placed on other funds of the customer for checks cashed over the counter, to the extent that the transaction does not involve a deposit to an account. A bank may not, however, place a hold on any account when an “on us” check is cashed over the counter. “On us” checks are considered finally paid.
when cashed (see U.C.C. 4–215(a)(1)). When a customer cashes a check over the counter and the bank places a hold on an account of the customer, the bank must give whatever notice of the hold required under §§229.13 or 229.16 had the check been deposited in the account.

F. 229.19(c) Employee Training and Compliance

1. The EFA Act requires banks to take such actions as may be necessary to inform fully each employee that performs duties subject to the EFA Act of the requirements of the EFA Act, and to establish and maintain procedures reasonably designed to assure and monitor employee compliance with such requirements.

2. This paragraph requires a bank to establish procedures to ensure compliance with these requirements and provide these procedures to the employees responsible for carrying them out.

G. 229.19(g) Effect of Merger Transaction

1. After banks merge, there is often a period of adjustment before their operations are consolidated. This paragraph accommodates this adjustment period by allowing merged banks to be treated as separate banks for purposes of this subpart for a period of up to one year after consummation of the merger transaction, except that a customer of any bank that is a party to the transaction that has an established account with that bank may not be treated as a new account holder for any other party to the transaction for purposes of the new account exception of §229.13(a), and a deposit in any branch of the merged bank is considered deposited in the bank for purposes of the availability schedules in accordance with §229.19(a).

2. This rule affects the status of the combined entity in several areas. For example, this rule would affect when an ATM is a proprietary ATM (§229.2(aa) and §229.12(b)) and when a check is considered drawn on a branch of the depositary bank (§229.10(c)(1)(vii)).

3. Merger transaction is defined in §229.2(t).

XIV. Section 229.20 Relation to State Law

A. 229.20(a) In General

1. Several states have enacted laws that govern when banks in those states must make funds available to their customers. The EFA Act provides that any state law in effect on September 1, 1989, that provides that funds be made available in a shorter period of time than provided in this regulation, will supersede the time periods in the EFA Act and the regulation. The Conference Report on the EFA Act clarifies this provision by stating that any state law enacted on or before September 1, 1989, may supersede federal law to the extent that the law relates to the time funds must be made available for withdrawal. H.R. Rep. No. 261, 100th Cong. 1st Sess. at 182 (1987).

2. Thus, if a state had wished to adopt a law governing funds availability, it had to have made that law effective on or before September 1, 1989. Laws adopted after that date do not supersede federal law, even if they provide for shorter availability periods than are provided under federal law. If a state that had a law governing funds availability in effect before September 1, 1989, amended its law after that date, the amendment would not supersede federal law, but an amendment deleting a state requirement would be effective.

3. If a state provides for a shorter hold for a certain category of checks than is provided for under federal law, that state requirement will supersede the federal provision. For example, most state laws base some hold periods on whether the check being deposited is drawn on an in-state or out-of-state bank. If a state contains more than one check processing region, the state’s hold period for in-state checks may be shorter than the federal maximum hold period for nonlocal checks.

4. Thus, the state schedule would supersede the federal schedule to the extent that it applies to in-state, nonlocal checks.

B. 229.20(b) Preemption of Inconsistent Law

1. This paragraph reflects the statutory provision that other provisions of state law that are inconsistent with federal law are preempted. Preemption does not require a determination by the Board to be effective.

C. 229.20(c) Standards for Preemption

1. This section describes the standards the Board uses in making determinations on whether federal law will preempt state laws governing funds availability. A provision of state law is considered inconsistent with federal law if it permits a depositary bank to make funds available to a customer in a longer period of time than the maximum period permitted by the EFA Act and this regulation. For example, a state law that permits a hold of four business days or longer for local checks permits a hold that is longer
than that permitted under the EFA Act and this regulation, and therefore is inconsistent and preempted. State availability schedules that provide for availability in a shorter period of time than required under Regulation CC supersede the federal schedule.

2. Under a state law, some categories of deposits could be available for withdrawal sooner or later than the time required by this subpart, depending on the composition of the deposit. For example, the EFA Act and this regulation (§229.10(c)(1)(vii)) require next-day availability for the first $100 of the aggregate deposit of local or nonlocal checks on any day, and a state law could require next-day availability for any check of $100 or less that is deposited. Under the EFA Act and this regulation, if either one $150 check or three $50 checks are deposited on a given day, $100 must be made available for withdrawal on the next business day, and $50 must be made available in accordance with the local or nonlocal schedule. Under the state law, however, the two deposits would be subject to different availability rules. In the first case, none of the proceeds of the deposit would be subject to next-day availability; in the second case, the entire proceeds of the deposit would be subject to next-day availability. In this example, because the state law would, in both situations, permit a hold longer than the maximum permitted by the EFA Act, this provision of state law is inconsistent and preempted in its entirety.

3. In addition to the differences between state and federal availability schedules, a number of state laws contain exceptions to the state availability schedules that are different from those provided under the EFA Act and this regulation. The state exceptions continue to apply only in those cases where the state schedule is shorter than or equal to the federal schedule, and then only up to the limit permitted by the Regulation CC schedule. Where a deposit is subject to a state exception under a state schedule that is not preempted by Regulation CC and is also subject to a federal exception, the hold on the deposit cannot exceed the hold permissible under the federal exception in accordance with Regulation CC. In such cases, only one exception notice is required, in accordance with §229.13(g). This notice need only include the applicable federal exception as the reason the exception was invoked. For those categories of checks for which the state schedule is preempted by the federal schedule, only the federal exceptions may be used.

4. State laws that provide maximum availability periods for categories of deposits that are not covered by the EFA Act would not be preempted. Thus, state funds availability laws that apply to funds in time and savings deposits are not affected by the EFA Act or this regulation. In addition, the availability schedules of several states apply to “items” deposited to an account. The term items may encompass deposits, such as nonnegotiable instruments, that are not subject to the Regulation CC availability schedules. Deposits that are not covered by Regulation CC continue to be subject to the state availability schedules. State laws that provide maximum availability periods for categories of institutions that are not covered by the EFA Act also would not be preempted. For example, a state law that governs money market mutual funds would not be affected by the EFA Act or this regulation.

5. Generally, state rules governing the disclosure or notice of availability policies applicable to accounts also are preempted, if they are different from the federal rules. Nevertheless, a state law requiring disclosure of funds availability policies that apply to deposits other than “accounts,” such as savings or time deposits, are not inconsistent with the EFA Act and this subpart. Banks in these states would have to follow the state disclosure rules for these deposits.

D. 229.20(d) Preemption Determinations
1. The Board may issue preemption determinations upon the request of an interested party in a state. The determinations will relate only to the provisions of Subparts A and B; generally the Board will not issue individual preemption determinations regarding the relation of state U.C.C. provisions to the requirements of Subpart C.

E. 229.20(e) Procedures for Preemption Determinations
1. This provision sets forth the information that must be included in a request by an interested party for a preemption determination by the Board.

XV. Section 229.21 Civil Liability
A. 229.21(a) Civil Liability
1. This paragraph sets forth the statutory penalties for failure to comply with the requirements of this subpart. These penalties apply to provisions of state law that supersede provisions of this regulation, such as requirements that funds deposited in accounts at banks be made available more promptly than required by this regulation, but they do not apply to other provisions of state law. (See Commentary to §229.20.)

B. 229.21(b) Class Action Awards
1. This paragraph sets forth the provision in the EFA Act concerning the factors that should be considered by the court in establishing the amount of a class action award.

C. 229.21(c) Bona Fide Errors
1. A bank is shielded from liability under this section for a violation of a requirement of this subpart if it can demonstrate, by a
preponderance of the evidence, that the violation resulted from a bona fide error and that it maintains procedures designed to avoid such errors. For example, a bank may make a bona fide error if it fails to give next-day availability on a check drawn on the Treasury because the bank’s computer system malfunctions in a way that prevents the bank from updating its customer’s account; or if it fails to identify whether a payable-through check is a local or nonlocal check despite procedures designed to make this determination accurately.

D. 229.21(d) Jurisdiction
1. The EFA Act confers subject matter jurisdiction on courts of competent jurisdiction and provides a time limit for civil actions for violations of this subpart.

E. 229.21(e) Reliance on Board Rulings
1. This provision shields banks from civil liability if they act in good faith in reliance on any rule, regulation, model form, notice, or clause (if the disclosure actually corresponds to the bank’s availability policy), or interpretation of the Board, even if it were subsequently determined to be invalid. Banks may rely on this Commentary, which is issued as an official Board interpretation, as well as on the regulation itself.

F. 229.21(f) Exclusions
1. This provision clarifies that liability under this section does not apply to violations of the requirements of Subpart C of this regulation, or to actions for wrongful dishonor of a check by a paying bank’s customer.

G. 229.21(g) Record Retention
1. Banks must keep records to show compliance with the requirements of this subpart for at least two years. This record retention period is extended in the case of civil actions and enforcement proceedings. Generally, a bank is not required to retain records showing that it actually has given disclosures or notices required by this subpart to each customer, but it must retain evidence demonstrating that its procedures reasonably ensure the customers’ receipt of the required disclosures and notices. A bank must, however, retain a copy of each notice provided pursuant to its use of the reasonable cause exception under §229.13(g) as well as a brief description of the facts giving rise to the availability of that exception.

XVI. Section 229.30 Paying Bank’s Responsibility for Return of Checks
A. 229.30(a) Return of Checks
1. This section requires a paying bank (which, for purposes of Subpart C, may include a payable-through and payable-at bank; see §229.2(z)) that determines not to pay a check to return the check expeditiously. Generally, a check is returned expeditiously if the return process is as fast as the forward collection process. This paragraph provides two standards for expeditious return, the “two-day/four-day” test, and the “forward collection” test.
2. Under the “two-day/four-day” test, if a check is returned such that it would normally be received by the paying bank two business days after presentment where both the paying and depositary banks are located in the same check processing region or four business days after presentment where the paying and depositary banks are not located in the same check processing region, the check is considered returned expeditiously. In certain limited cases, however, these times are shorter than the time it would normally take to forward collection check deposited in the paying bank and payable by the depositary bank to be collected. Therefore, the Board has included a “forward collection” test, whereby a check is nonetheless considered to be returned expeditiously if the paying bank uses transportation methods and banks for return comparable to those used for forward collection checks, even if the check is not received by the depositary banks within the two-day or four-day period.
3. Two-day/four-day test.
   a. Under the first test, a paying bank must return the check so that the check would normally be received by the depositary bank within specified times, depending on whether or not the paying and depositary banks are located in the same check processing region.
   b. Where both banks are located in the same check processing region, a check is returned expeditiously if it is returned to the depositary bank by 4:00 p.m. (local time of the depositary bank) of the second business day after the banking day on which the check was presented to the paying bank. For example, a check presented on Friday to a paying bank that is located in a different check processing region than the depositary bank, the deadline to complete return is 4 p.m. (local time of the depositary bank) of the fourth business day after the banking day on which the check was presented to the paying bank. For example, a check presented to such a paying bank on Monday must be returned to the depositary bank by 4:00 p.m. on Friday.
   c. This two-day/four-day test does not necessarily require actual receipt of the check by the depositary bank within these times. Rather, the paying bank must send the check so that the check would normally be received by the depositary bank within the specified time. Thus, the paying bank is not
responsible for unforeseeable delays in the return of the check, such as transportation delays.

d. Often, returned checks will be delivered to the depositary bank on the day it is not a banking day for the depositary bank, a returning bank might not schedule delivery of forward collection checks to the depositary bank on that day. Further, the depositary bank may not process checks on that day. Consequently, if the last day of the time limit is not a banking day for the depositary bank, the check may be delivered to the depositary bank before the close of the depositary bank’s next banking day and the return will still be considered expeditious. Ordinarily, this extension of time will allow the returned checks to be delivered with the next shipment of forward collection checks destined for the depositary bank.

e. The times specified in this two-day/four-day test are based on estimated forward collection times, but take into account the particular difficulties that may be encountered in handling returned checks. It is anticipated that the normal process for forward collection of a check coupled with these return requirements will frequently result in the return of checks before the proceeds of the checks are credited to the depositary bank’s account.

f. Under this two-day/four-day test, no particular means of returning checks is required, thus providing flexibility to paying banks in selecting means of return. The Board anticipates that paying banks will often use return banks (see §229.31) as their agents to return checks to depositary banks. A paying bank may rely on the availability schedule of the returning bank it uses in determining whether the returned check would “normally” be returned within the required time under this two-day/four-day test, unless the paying bank has reason to believe that these schedules do not reflect the actual time for return of a check.

a. Under the second, “forward collection,” test, a paying bank returns a check expeditiously if it returns a check by means as swift as the means similarly situated banks would use for the forward collection of a check drawn on the depositary bank.

b. Generally, the paying bank would satisfy the “forward collection” test if it uses a transportation method and collection path for return comparable to that used for forward collection, provided that the returning bank selected to process the return agrees to handle the returned check under the standards for expeditious return for returning banks under §229.31(a). This test allows many paying banks a simple means of expeditious return of checks and takes into account the longer time for return that will be required by banks that do not have ready access to direct courier transportation.

c. The paying bank’s normal method of sending a check for forward collection would not be expeditious, however, if it is materially slower than that of other banks of similar size and with similar check handling activity in its community.

d. Under the “forward collection” test, a paying bank must handle, route, and transport a returned check in a manner designed to be at least as fast as a similarly situated bank would collect a forward collection check (1) of similar amount, (2) drawn on the depositary bank, and (3) received for deposit by a branch of the paying bank or a similarly situated bank by noon on the banking day following the banking day of presentation of the returned check.

e. This test refers to similarly situated banks to indicate a general community standard. In the case of a paying bank (other than a Federal Reserve Bank), a similarly situated bank is a bank of similar asset size, in the same community, and with similar check handling activity as the paying bank. (See §229.2(ee).) A paying bank has similar check handling activity to other banks that handle similar volumes of checks for collection.

f. Under the forward collection test, banks that use means of handling returned checks that are less efficient than the means used by similarly situated banks must improve their procedures. On the other hand, a bank with highly efficient means of collecting checks drawn on a particular bank, such as a direct presentment of checks to a bank in a remote community, is not required to use that means for returned checks, i.e. direct return, if similarly situated banks do not present checks directly to that depositary bank.

5. Examples.

a. If a check is presented to a paying bank on Monday and the depositary bank and the paying bank are participants in the same clearinghouse, the paying bank should arrange to have the returned check received by the depositary bank by Tuesday. This would be the same day the paying bank would deliver a forward collection check to the depositary bank if the paying bank received the deposit by noon on Monday.

b. i. If a check is presented to a paying bank on Monday and the paying bank would normally collect checks drawn on the depositary bank by sending them to a correspondent or a Federal Reserve Bank by courier, the paying bank could send the returned check to its correspondent or Federal Reserve Bank, provided that the correspondent has agreed to handle returned checks expeditiously under §229.31(a). (All
Federal Reserve Bank

Federal Reserve System

Federal Reserve Banks agree to handle returned checks expeditiously.

ii. The paying bank must deliver the returned check to the correspondent or Federal Reserve Bank's appropriate cut-off hour. The appropriate cut-off hour is the cut-off hour for returned checks that correspond to the cut-off hour for forward collection checks drawn on the depositary bank that would normally be used by the paying bank or a similarly situated bank. A returned check cut-off hour corresponds to a forward collection cut-off hour if it provides for the same or faster availability for checks destined for the same depositary banks.

iii. In this example, delivery to the correspondent or a Federal Reserve Bank by the appropriate cut-off hour satisfies the paying bank's duty, even if use of the correspondent or Federal Reserve Bank is not the most expeditious means of returning the check. Thus, a paying bank may send a local returned check to a correspondent instead of a Federal Reserve Bank, even if the correspondent then sends the returned check to a Federal Reserve Bank the following day as a qualified returned check. Where the paying bank delivers forward collection checks by courier to the correspondent or the Federal Reserve Bank, mailing returned checks to the correspondent or Federal Reserve Bank would not satisfy the forward collection test.

iv. If a paying bank ordinarily mails its forward collection checks to its correspondent or Federal Reserve Bank in order to avoid the costs of a courier delivery, but similarly situated banks use a courier to deliver forward collection checks to their correspondent or Federal Reserve Bank, the paying bank must send its returned checks by courier to meet the forward collection test.

c. If a paying bank normally sends its forward collection checks directly to the depositary bank, which is located in another community, but similarly situated banks send forward collection checks drawn on the depositary bank to a correspondent or a Federal Reserve Bank, the paying bank would not have to send returned checks directly to the depositary bank, but could send them to a correspondent or a Federal Reserve Bank.

d. The dollar amount of the returned check has a bearing on how it must be returned. If the paying bank and similarly situated banks present large-dollar checks drawn on the depositary bank directly to the depositary bank, or through a returning bank (if the checks are returned as quickly), but could use a Federal Reserve Bank or a correspondent for its small-dollar returns.

6. Choice of returning bank. In meeting the requirements of the forward collection test, the paying bank is responsible for its own actions, but not for those of the depositary bank or returning banks. (This is analogous to the responsibility of collecting banks under U.C.C. 4–302(c).) For example, if the paying bank starts the return of the check in a timely manner but return is delayed by a returning bank (including delay to create a qualified returned check), generally the paying bank has met its requirements. (See §229.38.) If, however, the paying bank selects a returning bank that the paying bank should know is not capable of meeting its return requirements, the paying bank will not have met its obligation of exercising ordinary care in selecting intermediaries to return the check. The paying bank is free to use a method of return, other than its method of forward collection, as long as the alternate method results in delivery of the returned check to the depositary bank as quickly as the forward collection of a check drawn on the depositary bank or, where the returning bank takes a day to create a qualified returned check under §229.31(a), one day later than the forward collection time. If a paying bank returns a check on its banking day of receipt without settling for the check, as permitted under U.C.C. 4–302(a), and receives settlement for the returned check from the depositary bank, it must promptly pay the amount of the check to the collecting bank from which it received the check.

7. Qualified returned checks. Although paying banks may wish to prepare qualified returned checks because they will be handled at a lower cost by returning banks, the one business day extension provided to returning banks is not available to paying banks because of the longer time that a paying bank has to dispatch the check. Normally, paying banks will be able to convert a check to a qualified returned check at any time after the determination is made to return the check until late in the day following presentation, while a returning bank may receive returned checks late on one day and be expected to dispatch them early the next morning. A check that is converted to a qualified returned check must be encoded in accordance with ANS X9.13 for original checks or ANS X9.100–140 for substitute checks.

8. Routing of returned checks.

a. In effect, under either test, the paying bank acts as an agent or subagent of the depositary bank in selecting a means of return. Under §229.30(a), a paying bank is authorized to route the returned check in a variety of ways:

1. It may send the returned check directly to the depositary bank by courier or other means of delivery, bypassing returning banks; or
§ 229.33(a).)  

9. Midnight deadline.  

a. Except for the extension permitted by §229.38, discussed below, this section does not relieve a paying bank from the requirement for timely return (i.e., midnight deadline) under U.C.C. 4–301 and 4–302, which continue to apply. Under U.C.C. 4–302, a paying bank is “accountable” for the amount of a demand item, other than a documentary draft, if it does not pay or return the item or send notice of dishonor by its midnight deadline. Under U.C.C. 3–418(c) and 4–215(a), late return constitutes payment and would be final in favor of a holder in due course or a person who has in good faith changed his position in reliance on the payment. Thus, retaining this requirement gives the paying bank an additional incentive to make a prompt return.  

b. The expeditious return requirement applies to a paying bank that determines not to pay a check. This requirement applies to a payable-through or a payable-at bank that is defined as a paying bank (see §229.2(z)) and that returns the check. This requirement begins when the payable-through or payable-at bank receives the check during forward collection, not when the payor returns the check to the payable-through or payable-at bank. Nevertheless, a check sent for payment or collection to a payable-through or payable-at bank is not considered to be drawn on that bank for purposes of the midnight deadline provision of U.C.C. 4–301. (See discussion of §229.36(a).)  

c. The liability section of this subpart (§229.33) provides that a paying bank is not subject to both “accountability” for missing the midnight deadline under the U.C.C. and liability for missing the timeliness requirement of this regulation. Also, a paying bank is not responsible for failure to make expeditious return to a party that has breached a presentment warranty under U.C.C. 4–208, notwithstanding that the paying bank has returned the check. (See Commentary to §229.33(b).)  

10. U.C.C. provisions affected. This paragraph directly affects the following provisions of the U.C.C., and may affect other sections or provisions:  

a. Section 4–301(d), in that instead of returning a check through a clearinghouse or to the presenting bank, a paying bank may send a returned check to the depositary bank or to a returning bank.  

b. Section 4–301(a), in that time limits specified in that section may be affected by the additional requirement to make an expeditious return and in that settlement for returned checks is made under §229.31(c), not by revocation of settlement.  

B. 229.30(b) Unidentifiable Depositary Bank  

1. In some cases, a paying bank will be unable to identify the depositary bank through the use of ordinary care and good faith. The Board expects that these cases will be unusual as skilled return clerks will readily identify the depositary bank from the depositary bank indorsement required under §229.35 and appendix D. In cases where the paying bank is unable to identify the depositary bank, the paying bank may, in accordance with §229.38(a), send the returned check to a returning bank that agrees to handle the returned check for expedient return to the depositary bank under §229.31(a). The returning bank may be better able to identify the depositary bank.  

2. In the alternative, the paying bank may send the check back up the path used for forward collection of the check. The presenting bank and prior collecting banks normally will be able to trace the collection path of the check through the use of their internal records in conjunction with the indorsements on the returned check. In these limited cases, the paying bank may send such a returned check to a bank that handled the check for forward collection, even if that bank does not agree to handle the returned check for expedient return to the depositary bank under §229.31(a). A paying bank returning a check under this paragraph to a bank that has not agreed to handle the check expeditiously must advise the bank that it is unable to identify the depositary bank. This advice must be conspicuous, such as a stamp on each check for which the depositary bank is unknown if such checks are commingled with other returned checks, or, if such checks are sent in a separate cash letter, by one notice on the cash letter. This information will warn the bank that this check will require special research and handling in accordance with §229.31(b). The returned check may not be prepared for automated return. The return of a check to a bank that handled the check for forward collection is consistent with §229.35(b), which requires a bank handling a check to take up the check it has not been paid.  

3. The sending of a check to a bank that handled the check for forward collection under this paragraph is not subject to the requirements for expedient return by the paying bank. Often, the paying bank will not have courier or other expeditious means of
transportation to the collecting or presenting bank. Although the lack of a requirement of expeditious return will create risks for the depositary bank, in many cases the inability to identify the depositary bank will be due to the depositary bank’s or a collecting bank’s failure to use the indorsement required by §229.35(a) and appendix D. If the depositary bank failed to use the proper indorsement, it should bear the risks of less than expeditious return. Similarly, where the inability to identify the depositary bank is due to indorsements or other information placed on the back of the check by the depositary bank’s customer or other prior indorser, the depositary bank should bear the risk that it cannot charge a returned check back to that customer. Where the inability to identify the depositary bank is due to subsequent indorsements of collecting banks, these collecting banks may be liable for a loss incurred by the depositary bank due to less than expeditious return of a check; those banks therefore have an incentive to return checks sent to them under this paragraph quickly.

4. This paragraph does not relieve a paying bank from the liability for the lack of expeditious return in cases where the paying bank is itself responsible for the inability to identify the depositary bank, such as when the paying bank’s customer has used a check with printing or other material on the back in the area reserved for the depositary bank’s indorsement, making the indorsement unreadable. (See §229.38(d).)

5. A paying bank’s return under this paragraph is also subject to its midnight deadline under U.C.C. 4–301, Regulation J (if the check is returned through a Federal Reserve Bank), and the exception provided in §229.30(c). A paying bank also may send a check to a prior collecting bank to make a claim against that bank under §229.35(b) where the depositary bank is insolvent or in other cases as provided in §229.35(b). Finally, a paying bank may send a check to a prior collecting bank based on a breach of warranty under U.C.C. 4–208.

C. 229.30(c) Extension of Deadline

1. This paragraph permits extension of the deadlines for returning a check for which the paying bank previously has settled (generally midnight of the banking day following the banking day on which the check is received by the paying bank) and for returning a check without settling for it (generally midnight of the banking day on which the check is received by the paying bank, or such other time provided by §210.9 of Regulation J (12 CFR part 210) or §229.36(f)(2) of this part), but not of the duty of expeditious return, in two circumstances:

   a. A paying bank may have a courier that leaves after midnight (or after any other applicable deadline) to deliver its forward-collection checks. This paragraph removes the constraint of the midnight deadline for returned checks if the returned check reaches the receiving bank on or before the receiving bank’s next banking day following the otherwise applicable deadline by the earlier of the close of that banking day or a cutoff hour of 2 p.m. or later set by the receiving bank under U.C.C. 4–108. The extension also applies if the check reaches the bank to which it is sent later than the time described in the previous sentence if highly expeditious means of transportation are used. For example, a West Coast paying bank may use this further extension to ship a returned check by air courier directly to an East Coast returning bank even if the check arrives after the returning bank’s cutoff hour. This paragraph applies to the extension of all midnight deadlines except Saturday midnight deadlines (see paragraph XVI.C.1.b of this appendix).

   b. A paying bank may observe a banking day, as defined in the applicable U.C.C., on a Saturday, which is not a business day and therefore not a banking day under Regulation CC. In such a case, the U.C.C. deadline for returning checks received and settled for on Friday, or for returning checks received on Saturday without settling for them, might require the bank to return the checks by midnight Saturday. However, the bank may not have couriers leaving on Saturday to carry returned checks, and even if it did, the returning or depositary bank to which the returned checks were sent might not be open until Sunday night or Monday morning to receive and process the checks. This paragraph extends the midnight deadline if the returned checks reach the returning bank by a cut-off hour (usually on Sunday night or Monday morning) that permits processing during its next processing cycle or reach the depositary bank by the cut-off hour on its next banking day following the Saturday midnight deadline. This paragraph applies exclusively to the extension of Saturday midnight deadlines.

2. The time limits that are extended in each case are the paying bank’s midnight deadline for returning a check for which it has already settled and the paying bank’s deadline for returning a check without settling for it in U.C.C. 4–301 and 4–302, §§210.9 and 210.12 of Regulation J (12 CFR 210.9 and 210.12), and §229.36(f)(2) of this part. As these extensions are designed to speed (§229.30(c)(1)), or at least not slow (§229.30(c)(2)), the overall return of checks, no modification or extension of the expeditious return requirements in §229.30(a) is required.

3. The paying bank satisfies its midnight or other return deadline by dispatching returned checks to another bank by courier, including a courier under contract with the
paying bank, prior to expiration of the deadline.

4. This paragraph directly affects U.C.C. 4–301 and 4–302 and §§ 210.9 and 210.12 of Regulation J (12 CFR 210.9 and 210.12) to the extent that this paragraph applies by its terms, and may affect other provisions.

D. 229.30(d) Identification of Returned Check

1. The reason for the return must be clearly indicated. A check is identified as a returned check if the front of that check indicates the reason for return, even though it does not specifically state that the check is a returned check. A reason such as “Refer to Maker” is permissible in appropriate cases.

If the returned check is a substitute check, the reason for return must be placed within the image of the original check that appears on the front of the substitute check so that the information is retained on any subsequent substitute check. If the paying bank places the returned check in a carrier envelope, the carrier envelope should indicate that it is a returned check but need not repeat the reason for return stated on the check if it in fact appears on the check.

E. 229.30(e) Depositary Bank Without Accounts

1. Subpart B of this regulation applies only to “checks” deposited in transaction-type “accounts.” Thus, a depositary bank with only time or savings accounts need not comply with the availability requirements of Subpart B. Collecting banks will not have couriers delivering checks to these banks as paying banks, because no checks are drawn on them. Consequently, the costs of using a courier or other expedited means to deliver returned checks directly to such a depositary bank may not be justified. Thus, the expedited return requirement of §229.30(a) and the notice of nonpayment requirement of §229.33 do not apply to checks being returned to banks that do not hold accounts. The paying bank’s midnight deadline in U.C.C. 4–301 and 4–302 and §210.12 of Regulation J (12 CFR 210.12) would continue to apply to such checks. Returning banks also would be required to act on such checks within their midnight deadline. Further, in order to avoid complicating the process of returning checks generally, banks without accounts are required to use the standard indorsement, and their checks are returned by returning banks and paid for by the depository bank under the same rules as checks deposited in other banks, with the exception of the expedient return and notice of nonpayment requirements of §§229.30(a), 229.31(a), and 229.33.

2. The expedient return requirements also apply to a check deposited in a bank that is not a depository institution. Federal Reserve Banks, Federal Home Loan Banks, private bankers, and possibly certain industrial banks are not depository institutions within the meaning of the EFA Act, and therefore are not subject to the expedited availability and disclosure requirements of Subpart B. These banks do, however, maintain accounts as defined in §229.2(a), and a paying bank returning a check to one of these banks would be required to return the check to the depositary bank, in accordance with the requirements of this section.

F. 229.30(f) Notice in Lieu of Return

1. A check that is lost or otherwise unavailable for return may be returned by sending a legible copy of both sides of the check or, if such a copy is not available to the paying bank, a written notice of nonpayment containing the information specified in §229.33(b). The copy or written notice must clearly indicate it is a notice in lieu of return and must be handled in the same manner as other returned checks. Notice by telephone, telegraph, or other electronic transmission, other than a legible facsimile or similar image transmission of both sides of the check, does not satisfy the requirements for a notice in lieu of return. The requirement for a writing and the indication that the notice is a substitute for the returned check is necessary so that the returning and depositary banks are informed that the notice carries value. Notice in lieu of return is permitted only when a bank does not have and cannot obtain possession of the check or must retain possession of the check for protest. A check is not unavailable for return if it is merely difficult to retrieve from a filing system or from storage by a keeper of checks in a truncation system. A notice in lieu of return may be used by a bank handling a returned check that has been lost or destroyed, including when the original returned check has been charged back as lost or destroyed as provided in §229.33(b). A bank using a notice in lieu of return gives a warranty under §229.34(a)(4) that the original check has not been and will not be returned.

2. The requirement of this paragraph supersedes the requirement of U.C.C. 4–301(a) as to the form and information required of a notice of dishonor or nonpayment. Reference in the regulation and this commentary to a returned check includes a notice in lieu of return unless the context indicates otherwise.

3. The notice in lieu of return is subject to the provisions of §229.30 and is treated like a returned check for settlement purposes. If the original check is over $2,500, the notice of nonpayment under §229.33 is still required, but may be satisfied by the notice in lieu of return if the notice in lieu meets the time and information requirements of §229.33.

4. If not all of the information required by §229.33(b) is available, the paying bank may make a claim against any prior bank handling the check as provided in §229.33(b).
G. 229.30(g) Reliance on Routing Number

1. Although §229.35 and appendix D require that the depositary bank indorsement contain its nine-digit routing number, it is possible that a returned check will bear the routing number of the depositary bank in fractional, nine-digit, or other form. This paragraph permits a paying bank to rely on the routing number of the depositary bank as it appears on the check (in the depositary bank’s indorsement) when it is received by the paying bank.

2. If there are inconsistent routing numbers, the paying bank may rely on any routing number designating the depositary bank. The paying bank is not required to resolve the inconsistency prior to processing the check. The paying bank remains subject to the requirement to act in good faith and use ordinary care under §229.38(a).

XVII. Section 229.31 Returning Bank’s Responsibility for Return of Checks

A. 229.31(a) Return of Checks

1. The standards for return of checks established by this section are similar to those for paying banks in §229.30(a). This section requires a returning bank to return a returned check expeditiously if it agrees to handle the returned check for expeditious return under this paragraph. In effect, the returning bank is an agent or subagent of the paying bank and a subagent of the depositary bank for the purposes of returning the check.

2. A returning bank agrees to handle a returned check for expeditious return to the depositary bank if it:
   a. Publishes or distributes availability schedules for the return of returned checks and accepts the returned check for return;
   b. Handles a returned check for return that it did not handle for forward collection; or
   c. Otherwise agrees to handle a returned check for expeditious return.

3. Two-day/four-day test. As in the case of a paying bank, a returning bank’s return of a returned check is expeditious if it meets either of two tests. Under the “two-day/four-day” test, the check must be returned so that it would normally be received by the depositary bank by 4:00 p.m. either two or four business days after the check was presented to the paying bank, depending on whether or not the paying bank is located in the same check processing region as the depositary bank. This is the same test as the two-day/four-day test applicable to paying banks. (See Commentary to §229.30(a).) While a returning bank will not have first hand knowledge of the day on which a check was presented to the paying bank, returning banks may, by agreement, allocate with paying banks liability for late return based on the delays caused by each. In effect, the two-day/four day test protects all paying and returning banks that return checks from claims that they failed to return a check expeditiously, where the check is returned within the specified time following presentment to the paying bank, or a later time as would result from unforeseen delays.

   a. The “forward collection” test is similar to the forward collection test for paying banks. Under this test, a returning bank must handle a returned check in the same manner that a similarly situated collecting bank would handle a check of similar size drawn on the depositary bank for forward collection. A similarly situated bank is a bank (other than a Federal Reserve Bank) that is of similar asset size and check handling activity in the same community. A bank has similar check handling activity if it handles a similar volume of checks for forward collection as the forward collection volume of the returning bank.

   b. Under the forward collection test, a returning bank must accept returned checks, including both qualified and other returned checks (“raw returns”), at approximately the same times and process them according to the same general schedules as checks handled for forward collection. Thus, a returning bank generally must process even raw returns on an overnight basis, unless its time limit is extended by one day to convert a raw return to a qualified returned check.

5. Cut-off hours. A returning bank may establish earlier cut-off hours for receipt of returned checks than for receipt of forward collection checks, but the cut-off hour for returned checks may not be earlier than 2:00 p.m. The returning bank also may set different sorting requirements for returned checks than those applicable to other checks. Thus, a returning bank may allow itself more processing time for returns than for forward collection checks. All returned checks received by a cut-off hour for returned checks must be processed and dispatched by the returning bank by the time that it would dispatch forward collection checks received at a corresponding forward collection cut-off hour that provides for the same or faster availability for checks destined for the same depositary banks.

   a. If a returning bank receives a returned check by its cut-off hour for returned checks on Monday and the depositary bank and the returning bank are participants in the same clearinghouse, the returning bank should arrange to have the returned check received by the depositary bank by Tuesday. This would be the same day that it would deliver a forward collection check drawn on the depositary bank and received by the returning bank at a correspondingly forward collection cut-off hour on Monday.

   b. I. If a returning bank receives a returned check, and the returning bank normally
would collect a forward collection check drawn on the depositary bank by sending the forward collection check to a correspondent or a Federal Reserve Bank by courier, the returning bank returning a check in the same manner if the correspondent has agreed to handle returned checks expeditiously under §229.31(a). The returning bank would have to send the check by the correspondent’s or Federal Reserve Bank’s cut-off hour for returned checks that correspond to its cut-off hour for forward collection checks drawn on the depositary bank. A returning bank may take a day to convert a check to a qualified returned check. Where the forward collection checks are delivered by courier, mailing the returned checks would not meet the duty established by this section for returning banks.

ii. A returning bank must return a check to the depositary bank by courier or other means as fast as a courier, if similarly situated returning banks use couriers to deliver their forward collection checks to the depositary bank.

iii. For some depositary banks, no community practice exists as to delivery of checks. For example, a credit union whose customers use payable-through drafts normally does not have checks presented to it because the drafts are normally sent to the payable-through bank for collection. In these circumstances, the community standard is established by taking into account the dollar volume of the checks being sent to the depositary bank and the location of the depositary bank, and determining whether similarly situated banks normally would deliver forward collection checks to the depositary bank, taking into account the particular risks associated with returned checks. Where the community standard does not require courier delivery, other means of delivery, including mail, are acceptable.

7. Qualified returned checks.
   a. The expedited return requirement for a returning bank in this regulation is more stringent in many cases than the duty of a collecting bank to exercise ordinary care under U.C.C. 4–202 in returning a check. A returning bank is under a duty to act as expeditiously in returning a check as it would in the forward collection of a check. Notwithstanding its duty of expeditious return, its midnight deadline under U.C.C. 4–202 and §210.12(a) of Regulation J (12 CFR 210.12(a)), under the forward collection test, a returning bank may take an extra day to qualify a returned check. A qualified returned check will be handled by subsequent returning banks more efficiently than a raw return. This paragraph gives a returning bank an extra business day beyond the time that would otherwise be required to return the returned check to convert a returned check to a qualified returned check. The qualified returned check must include the routing number of the depositary bank, the amount of the check, and a return identifier encoded on the check in magnetic ink. A check that is converted to a qualified returned check must be encoded in accordance with ANS X9.13 for original checks or ANS X9.100-140 for substitute checks.
   b. If the returning bank is sending the returned check directly to the depositary bank, this extra day is not available because preparing a qualified returned check will not expedite handling by other banks. If the returning bank makes an encoding error in creating a qualified returned check, it may be liable under §229.38 for losses caused by any negligence or under §229.34(c)(3) for breach of an encoding warranty. The returning bank would not lose the one-day extension available to it for creating a qualified returned check because of an encoding error.

   a. Under §229.31(a), the returning bank is authorized to route the returned check in a variety of ways:
      i. It may send the returned check directly to the depositary bank by courier or other expeditious means of delivery; or
      ii. It may send the returned check to any returning bank agreeing to handle the returned check for expedient return to the depositary bank under this section regardless of whether or not the returning bank handled the check for forward collection.
   b. If the returning bank elects to send the returned check directly to the depositary bank, it is not required to send the check to the branch of the depositary bank that first handled the check. The returned check may be sent to the depositary bank at any location permitted under §229.32(a).

9. Responsibilities of returning bank. In meeting the requirements of this section, the returning bank is responsible for its own actions, but not those of the paying bank, other returning banks, or the depositary bank. (See U.C.C. 4–202(c) regarding the responsibility of collecting banks.) For example, if the paying bank has delayed the start of the return process, but the returning bank acts in a timely manner, the returning bank may satisfy the requirements of this section even if the delayed return results in a loss to the depositary bank. (See §229.38.) A returning bank must handle a notice in lieu of return as expeditiously as a returned check.

10. U.C.C. sections affected. This paragraph directly affects the following provisions of the U.C.C., and may affect other sections or provisions:
   a. Section 4–202(b), in that time limits required by that section may be affected by the additional requirement to make an expeditious return.
   b. Section 4–214(a), in that settlement for returned checks is made under §229.31(c) and not by charge-back of provisional credit, and
in that the time limits may be affected by the additional requirement to make an expeditious return.

B. 229.31(b) Unidentifiable Depositary Bank
1. This section is similar to §229.30(b), but applies to returning banks instead of paying banks. In some cases a returning bank will be unable to identify the depositary bank with respect to a check. Returning banks agreeing to handle checks for return to depositary banks under §229.31(a) are expected to adopt a method in identifying depositary bank indorsements. In the limited cases where the returning bank cannot identify the depositary bank, the returning bank may send the returned check to a returning bank that agrees to handle the returned check for expeditious return under §229.31(a), or it may send the returned check to a bank that handled the check for forward collection, even if that bank does not agree to handle the returned check expeditiously under §229.31(a).
2. If the returning bank itself handled the check for forward collection, it may send the returned check to a collecting bank that was prior to it in the forward collection process, which will be better able to identify the depositary bank. If there are no prior collecting banks, the returning bank must re-search the collection of the check and identify the depositary bank. As in the case of paying banks under §229.30(b), a returning bank’s sending of a check to a bank that handled the check for forward collection under §229.31(b) is not subject to the expeditious return requirements of §229.31(a).
3. The returning bank’s return of a check under this paragraph is subject to the midnight deadline under U.C.C. 4–202(b). (See definition of returning bank in §229.2(cc).)
4. Where a returning bank receives a check that it does not agree to handle expeditiously under §229.31(a), such as a check sent to it under §229.30(b), the returning bank is able to identify the depositary bank, the returning bank must thereafter return the check expeditiously to the depositary bank. The returning bank returns a check expeditiously under this paragraph if it returns the check by the same means it would use to return a check drawn on it to the depositary bank or by other reasonably prompt means.
5. As in the case of a paying bank returning a check under §229.30(b), a returning bank returning a check under this paragraph to a bank that has not agreed to handle the check expeditiously must advise that bank that it is unable to identify the depositary bank. This advice must be conspicuous, such as a stamp on each check for which the depositary bank is unknown if such checks are commingled with other returned checks, or, if such checks are sent in a separate cash letter, by one notice on the cash letter. The returned check may not be prepared for automated return.

C. 229.31(c) Settlement
1. Under the U.C.C., a collecting bank receives settlement for a check when it is presented to the paying bank. The paying bank may recover the settlement when the paying bank returns the check to the presenting bank. Under this regulation, however, the paying bank may return the check directly to the depositary bank or through returning banks that did not handle the check for forward collection. On these more efficient return paths, the paying bank does not recover the settlement made to the presenting bank. Thus, this paragraph requires the returning bank to settle for a returned check (either with the paying bank or another returning bank) in the same way that it would settle for a similar check for forward collection. To achieve uniformity, this paragraph applies even if the returning bank handled the check for forward collection.
2. Any returning bank, including one that handled the check for forward collection, may provide availability for returned checks pursuant to an availability schedule as it does for forward collection checks. These settlements by returning banks, as well as settlements between banks made during the forward collection of a check, are considered final when made subject to any deferment of availability. (See §229.36(d) and Commentary to §229.35(b).)
3. A returning bank may vary the settlement method it uses by agreement with paying banks or other returning banks. Special rules apply in the case of insolvency of banks. (See §229.39.) If payment cannot be obtained from a depositary or returning bank because of its insolvency or otherwise, recovery can be had by returning, paying, and collecting banks from prior banks on this basis of the liability of prior banks under §229.35(b).
4. This paragraph affects U.C.C. 4–214(a) in that a paying or collecting bank does not ordinarily have a right to charge back against the bank from which it received the returned check, although it is entitled to settlement if it returns the returned check to that bank, and may affect other sections or provisions. Under §229.36(d), a bank collecting a check remains liable to prior collecting banks and the depositary bank’s customer under the U.C.C.

D. 229.31(d) Charges
1. This paragraph permits any returning bank, even one that handled the check for forward collection, to impose a fee on the paying bank or other returning bank for its service in handling a returned check. Where a claim is made under §229.35(b), the bank on which the claim is made is not authorized by this paragraph to impose a charge for taking up a check. This paragraph preempts state laws to the extent that these laws prevent
returning banks from charging fees for handling returned checks.

E. 229.31(e) Depositary Bank Without Accounts

1. This paragraph is similar to §229.30(e) and relieves a returning bank of its obligation to make expeditious return to a depositary bank that does not maintain any accounts. (See the Commentary to §229.30(e).)

F. 229.31(f) Notice in Lieu of Return

1. This paragraph is similar to §229.30(f) and permits a returning bank to originate a notice in lieu of return if the returned check is unavailable for return. Notice in lieu of return is permitted only when a bank does not have and cannot obtain possession of the check or must retain possession of the check for protest. A check is not unavailable for return if it is merely difficult to retrieve from a filing system or from storage by a keeper of checks in a truncation system. (See the Commentary to §229.30(f).)

G. 229.31(g) Reliance on Routing Number

1. This paragraph is similar to §229.30(g) and authorizes a returning bank to rely on routing numbers appearing on a returned check such as routing numbers in the depositary bank’s indorsement or on qualified returned checks. (See the Commentary to §229.30(g).)

XVIII. Section 229.32 Depositary Bank’s Responsibility for Returned Checks

A. 229.32(a) Acceptance of Returned Checks

1. This regulation seeks to encourage direct returns by paying and returning banks and may result in a number of banks sending checks to depositary banks with no pre-existing arrangements as to where the returned checks should be delivered. This paragraph states where the depositary bank is required to accept returned checks and written notices of nonpayment under §229.33. (These locations differ from locations at which a depositary bank must accept electronic notices.) It is derived from U.C.C. 3–111, which specifies that presentment for payment may be made at the place specified in the instrument or, if there is none, at the place of business of the party to pay. In the case of returned checks, the depositary bank does not print the check and can only specify the place of “payment” of the returned check in its indorsement.

2. The paragraph specifies four locations at which the depositary bank must accept returned checks:

a. The depositary bank must accept returned checks at any location at which it requests presentment of forward collection checks such as a processing center. A depositary bank does not request presentment of forward collection checks at a branch of the bank merely by paying checks presented over the counter.

b. i. If the depositary bank indorsement states the name and address of the depositary bank, it must accept returned checks at the branch, head office, or other location, such as a processing center, indicated by the address. If the address is too general to identify a particular location, then the depositary bank must accept returned checks at any branch or head office consistent with the address. If, for example, the address is “New York, New York,” each branch in New York City must accept returned checks.

ii. If no address appears in the depositary bank’s indorsement, the depositary bank must accept returned checks at any branch or head office associated with the depositary bank’s routing number. The offices associated with the routing number of a bank are found in American Bankers Association Key to Routing Numbers, published by an agent of the American Bankers Association, which lists a city and state address for each routing number.

iii. The depositary bank must accept returned checks at the address in its indorsement and at an address associated with its routing number in the indorsement if the address is too general to identify a particular location. Consequently, this provision, as well as paragraphs (a)(2)(i) of this section, applies to the depositary bank that fails to comply with the indorsement requirement.

iv. If no routing number or address appears in its indorsement, the depositary bank must accept a returned check at any branch or head office of the bank. The indorsement requirement of §229.35 and appendix D requires that the indorsement contain a routing number, a name, and a location. Consequently, this provision, as well as paragraph (a)(2)(i) of this section, applies where the depositary bank has failed to comply with the indorsement requirement.

3. For ease of processing, a depositary bank may require that returning or paying banks return checks to it separate returned checks from forward collection checks being presented.

4. Under §229.33(d), a depositary bank receiving a returned check or notice of nonpayment must send notice to its customer by its midnight deadline or within a longer reasonable time.
B. 229.32(b) Payment

1. As discussed in the commentary to §229.31(c), under this regulation a paying or returning bank does not obtain credit for a returned check by charge-back but by, in effect, presenting the returned check to the depositary bank. This paragraph imposes an obligation to “pay” a returned check that is similar to the obligation to pay a forward collection check by a paying bank, except that the depositary bank may not return a returned check for which it is the depositary bank. Also, certain means of payment, such as remittance drafts, may be used only with the agreement of the returning bank.

2. The depositary bank must pay for a returned check by the close of the banking day on which it received the returned check. The day on which a returned check is received is determined pursuant to U.C.C. 4–108, which permits the bank to establish a cut-off hour, generally not earlier than 2:00 p.m., and treat checks received after that hour as being received on the next banking day. If the depositary bank is unable to make payment to a returning or paying bank on the banking day that it receives the returned check, because the returning or paying bank is closed for a holiday or because the time when the depositary bank received the check is after the close of Fedwire, e.g., west coast banks with late cut-off hours, payment may be made on the next banking day of the bank receiving payment.

3. Payment must be made so that the funds are available for use by the bank returning the check to the depositary bank on the day the check is received by the depositary bank. For example, a depositary bank meets this requirement if it sends a wire transfer of funds to the returning or paying bank on the day it receives the returned check, even if the returning or paying bank has closed for the day. A wire transfer should indicate the purpose of the payment.

4. The depositary bank may use a net settlement arrangement to settle for a returned check. Banks with net settlement agreements could net the appropriate credits and debits for returned checks with the accounting entries for forward collection checks if they so desired. If, for purposes of establishing additional controls or for other reasons, the banks involved desired a separate settlement for returned checks, a separate net settlement agreement could be established.

5. The bank sending the returned check to the depositary bank may agree to accept payment at a later date if, for example, it does not believe that the amount of the returned check or checks warrants the costs of same-day payment. Thus, a returning or paying bank may agree to accept payment through an ACH credit or debit transfer that settles the day after the returned check is received instead of a wire transfer that settles on the same day.

6. This paragraph and this subpart do not affect the depositary bank’s right to recover a provisional settlement with its nonbank customer for a check that is returned. (See also §§229.19(c)(2)(ii), 229.33(d) and 229.35(b).)

C. 229.32(c) Misrouted Returned Checks

1. This paragraph permits a bank receiving a check on the basis that it is the depositary bank to send the misrouted returned check to the correct depositary bank, if it can identify the correct depositary bank, either directly or through a returning bank agreeing to handle the check expeditiously under §229.30(a). In these cases, the bank receiving the check is acting as a returning bank. Alternatively, the bank receiving the misrouted returned check must send the check back to the bank from which it was received. In either case the bank to which the returned check was misrouted could receive settlement for the check. The depositary bank would be required to pay for the returned check under §229.32(b), and any other bank to which the check is sent under this paragraph would be required to settle for the check as a returning bank under §229.31(c). If the check was originally received “free,” that is, without a charge for the check, the bank incorrectly receiving the check would have to return the check, without a charge, to the bank from which it came. The bank to which the returned check was misrouted is required to act promptly but is not required to meet the expeditious return requirements of §229.31(a); however, it must act within its midnight deadline. This paragraph does not affect a bank’s duties under §229.35(b).

D. 229.32(d) Charges

1. This paragraph prohibits a depositary bank from charging the equivalent of a presentation fee for returned checks. A returning bank, however, may charge a fee for handling returned checks. If the returning bank receives a mixed cash letter of returned checks, which includes some checks for which the returning bank is the depositary bank, the fee may be applied to all the returned checks in the cash letter. In the case of a sorted cash letter containing only returned checks for which the returning bank is the depositary bank, however, no fee may be charged.

XIX. Section 229.33 Notice of Nonpayment

A. 229.33(a) Requirement

1. Notice of nonpayment as required by this section and written notice in lieu of return as provided in §§229.30(f) and 229.31(f) serve different functions. The two kinds of notice, however, must meet the content requirements of this section. The paying bank...
must send a notice of nonpayment if it decides not to pay a check of $2,500 or more. A paying bank may rely on an amount encoded on the check in magnetic ink to determine whether the check is in the amount of $2,500 or more. The notice of nonpayment carries no value, and the check itself (or the notice in lieu of return) must be returned. The paying bank must ensure that the notice of nonpayment is received by the depositary bank by 4:00 p.m. local time on the second business day following presentment. A bank identified by routing number as the paying bank is considered the paying bank under this regulation and would be required to create a notice of nonpayment even though that bank determined that the check was not drawn by a customer of that bank. (See Commentary to the definition of paying bank in §229.2(z).)

2. The paying bank should not send a notice of nonpayment until it has finally determined not to pay the check. Under §229.34(b), by sending the notice the paying bank warrants that it has returned or will return the check. If a paying bank sends a notice and subsequently decides to pay the check, the paying bank may mitigate its liability on this warranty by notifying the depositary bank that the check has been paid.

3. Because the return of the check itself may serve as the required notice of nonpayment, in many cases no notice other than the return of the check will be necessary. For example, in many cases the return of a check through a clearinghouse to another participant of the clearinghouse will be made in time to meet the time requirements of this section. If the check normally will not be received by the depositary bank within the time limits for notice, the return of the check will not satisfy the notice requirement. In determining whether the returned check will satisfy the notice requirement, the paying bank may rely on the availability schedules of returning banks as the time that the returned check is expected to be delivered to the depositary bank, unless the paying bank has reason to know the availability schedules are inaccurate.

4. Unless the return of a check is used to satisfy the notice requirement, the requirement for notice is independent of and does not affect the requirements for timely and expeditious return of the check under §229.30 and the U.C.C. (See §229.30(a).) If a paying bank fails both to comply with this section and to comply with the requirements for timely and expeditious return under §229.30 and the U.C.C. and Regulation J (12 CFR part 210), the paying bank shall be liable under either this section or such other requirements, but not both. (See §229.36(b).) A paying bank is not responsible for failure to give notice of nonpayment to a party that has breached a presentment warranty under U.C.C. 4–208, notwithstanding that the paying bank may have returned the check. (See U.C.C. 4–208 and 4–302.)

B. 229.33(b) Content of Notices

1. This paragraph provides that the notice must at a minimum contain eight elements which are specifically enumerated. In the case of written notices, the name and routing number of the depositary bank also are required.

2. If the paying bank cannot identify the depositary bank from the check itself, it may wish to send the notice to the earliest collecting bank it can identify and indicate that the notice is not being sent to the depositary bank. The collecting bank may be able to identify the depositary bank and forward the notice, but is under no duty to do so. In addition, the collecting bank may actually be the depositary bank.

3. A bank must identify an item of information if the bank is uncertain as to that item’s accuracy. A bank may make this identification by setting the item off with question marks, asterisks, or other symbols designated for this purpose by generally applicable industry standards.

C. 229.33(c) Acceptance of Notice

1. In the case of a written notice, the depositary bank is required to accept notices at the locations specified in §229.32(a). In the case of telephone notices, the bank may not refuse to accept notices at the telephone numbers identified in this section, but may transfer calls or use a recording device. Banks may vary by agreement the location and manner in which notices are received.

D. 229.33(d) Notification to Customer

1. This paragraph requires a depositary bank to notify its customer of nonpayment upon receipt of a returned check or notice of nonpayment, regardless of the amount of the check or notice. This requirement is similar to the requirement under the U.C.C. as interpreted in Appliance Buyers Credit Corp. v. Prospect National Bank, 708 F.2d 290 (7th Cir. 1983), that a depositary bank may be liable for damages incurred by its customer for its failure to give its customer timely advice that it has received a notice of nonpayment. Notice also must be given if a depositary bank receives a notice of recovery under §229.35(b). A bank that chooses to provide the notice required by §229.33(d) in writing may send the notice by e-mail or facsimile if the bank sends the notice to the e-mail address or facsimile number specified by the customer for that purpose. The notice to the customer required under this paragraph also may satisfy the notice requirement of §229.13(g) if the depositary bank invokes the reasonable-cause exception of §229.13(e) due to the receipt of a notice of nonpayment,
Federal Reserve System

provided the notice meets all the requirements of §229.13(g).

XX. Section 229.34 Warranties

A. 229.34(a) Warranty of Returned Check

1. This paragraph includes warranties that a returned check, including a notice in lieu of return, was returned by the paying bank, or in the case of a check payable by a bank and payable through another bank, the bank by which the check is payable, within the deadline under the U.C.C. (subject to any claims or defenses under the U.C.C., such as breach of a presentment warranty). Regulation J (12 CFR part 210), or §229.38(c), that the paying or returning bank is authorized to return the check; that the returned check has not been materially altered; and that, in the case of a notice in lieu of return, the original check has not been and will not be returned for payment. (See the Commentary to §229.38(c).) The warranty does not include a warranty that the bank complied with the expedite return requirements of §§229.30(a) and 229.31(a). These warranties do not apply to checks drawn on the United States Treasury, to U.S. Postal Service money orders, or to checks drawn on a state or a unit of general local government that are not payable through or at a bank. (See §229.42.)

B. 229.34(b) Warranty of Notice of Nonpayment

1. This paragraph provides for warranties for notices of nonpayment. This warranty does not include a warranty that the notice is accurate and timely under §229.33. The requirements of §229.33 that are not covered by the warranty are subject to the liability provisions of §229.38. These warranties are designed to give the depositary bank more confidence in relying on notices of nonpayment. This paragraph imposes liability on a paying bank that gives notice of nonpayment and then subsequently returns the check. (See Commentary on §229.33(a).)

C. 229.34(c) Warranty of Settlement Amount, Encoding, and Offset

1. Paragraph (c)(1) provides that a bank that presents and receives settlement for checks warrants to the paying bank that the settlement it demands (e.g., as noted on the cash letter) equals the total amount of the checks it presents. This paragraph gives the paying bank a warranty claim against the presenting bank for the amount of any excess settlement made on the basis of the amount demanded, plus expenses. If the amount demanded is understated, a paying bank discharges its settlement obligation under U.C.C. 4–301 by paying the amount demanded, but remains liable for the amount by which the demand is understated; the presenting bank is nevertheless liable for expenses in resolving the adjustment.

2. When checks or returned checks are transferred to a collecting, returning, or depositary bank, the transferor bank is not required to demand settlement, as is required upon presentment to the paying bank. However, often the checks or returned checks will be accompanied by information (such as a cash letter listing) that will indicate the total of the checks or returned checks. Paragraph (c)(2) provides that if the transferor bank includes information indicating the total amount of checks or returned checks transferred, it warrants that the information is correct (i.e., equals the actual total of the items).

3. Paragraph (c)(3) provides that a bank that presents or transfers a check or returned check warrants the accuracy of the magnetic ink encoding that was placed on the item after issue, and that exists at the time of presentment or transfer, to any bank that subsequently handles the check or returned check. Under U.C.C. 4–209(a), only the encoder (or the encoder and the depositary bank, if the encoder is a customer of the depositary bank) warrants the encoding accuracy, thus any claims on the warranty must be directed to the encoder. Paragraph (c)(3) expands on the U.C.C. by providing that all banks that transfer or present a check or returned check make the encoding warranty. In addition, under the U.C.C., the encoder makes the warranty to subsequent collecting banks and the paying bank, while paragraph (c)(3) provides that the warranty is made to banks in the return chain as well. Paragraph (c)(3) applies to all MICR-line encoding on a substitute check.

4. A paying bank that settles for an overstated cash letter because of a misencoded check may make a warranty claim against the presenting bank under paragraph (c)(1) (which would require the paying bank to show that the check was part of the overstated cash letter) or an encoding warranty claim under paragraph (c)(3) against the presenting bank or any preceding bank that handled the misencoded check.

5. Paragraph (c)(4) provides that a paying bank or a depositary bank may set off excess settlement paid to another bank against settlement owed to that bank for checks presented or returned checks received (for which it is the depositary bank) subsequent to the excess settlement.

D. 229.34(d) Transfer and Presentment Warranties

1. A bank that transfers or presents a remotely created check and receives a settlement or other consideration warrants that the person on whose account the check is drawn authorized the issuance of the check in the amount stated on the check and to the payee stated on the check. The warranties
are given only by banks and only to subsequent banks in the collection chain. The warranties ultimately shift liability for the loss created by an unauthorized remotely created check to the depositary bank. The depositary bank cannot assert the transfer and presentment warranties against a depositor. However, a depositary bank may, by agreement, allocate liability for such an item to the depositor and also may have a claim under other laws against that person.

2. The transfer and presentment warranties for remotely created checks supplement the Federal Trade Commission's Telemarketing Sales Rule, which requires telemarketers that submit checks for payment to obtain the customer's “express verifiable authorization” (the authorization may be either in writing or tape recorded and must be made available upon request to the customer's bank). 16 CFR 310.3(a)(3). The transfer and presentment warranties shift liability to the depositary bank only when the remotely created check is unauthorized, and would not apply when the customer initially authorizes a check but then experiences “buyer's remorse” and subsequently tries to revoke the authorization by asserting a claim against the paying bank under U.C.C. 4-401. If the depositary bank suspects “buyer's remorse,” it may obtain from its customer the express verifiable authorization of the check by the paying bank's customer, required under the Federal Trade Commission's Telemarketing Sales Rule, and use that authorization as a defense to the warranty claim.

3. The scope of the transfer and presentment warranties for remotely created checks differs from that of the corresponding U.C.C. warranty provisions in two respects. The U.C.C. warranties differ from the §229.34(d) warranties in that they are given by any person, including a nonbank depositor, that transfers a remotely created check and not just to a bank, as is the case under §229.34(d). In addition, the U.C.C. warranties state that the person on whose account the item is drawn authorized the issuance of the item in the amount for which the item is drawn. The §229.34(d) warranties specifically cover the amount as well as the payee stated on the check. Neither the U.C.C. warranties, nor the §229.34(d) warranties apply to the date stated on the remotely created check.

4. A bank making the §229.34(d) warranties may defend a claim asserting violation of the warranties by proving that the customer of the paying bank is precluded by U.C.C. 4-406 from making a claim against the paying bank. This may be the case, for example, if the customer failed to discover the unauthorized remotely created check in a timely manner.

5. The transfer and presentment warranties for a remotely created check apply to a remotely created check that has been reconverted to a substitute check.
standard applies to banks spraying indorsements onto existing paper original checks and substitute checks, and another applies to reconverting banks overlaying indorsements previously applied electronically and their own indorsements onto substitute checks at the time the substitute checks are created.

3. A bank may use check processing equipment that captures an image of a check prior to spraying an indorsement onto that item. If the bank truncates that item, it should ensure that it also applies an indorsement to the item electronically. A reconverting bank satisfies its obligation to preserve all previously applied indorsements by overlaying a bank’s indorsement that previously was applied electronically onto a substitute check that the reconverting bank creates.

4. The location of an indorsement applied to an original paper check in accordance with appendix D may shift if that check is truncated and later reconstructed to a substitute check. If an indorsement applied to the original check in accordance with appendix D is overwritten by a subsequent indorsement applied to the substitute check in accordance with appendix D, then one or both of those indorsements could be rendered illegible. As explained in §229.38(d) and the commentary thereto, a reconverting bank is liable for losses associated with indorsements that are rendered illegible as a result of check substitution.

5. To ensure that indorsements can be easily read and would remain legible after an image of a check is captured, the standard requires all indorsements applied to original checks and substitute checks to be printed in black ink as of January 1, 2006.

6. The standard requires the depositary bank’s indorsement to include (1) its nine-digit routing number set off by an arrow at each end of the routing number and, if the depositary bank is a reconverting bank with respect to the check, an asterisk outside the arrow at each end of the routing number to identify the bank as a reconverting bank; (2) the indorsement date; and (3) if the indorsement is applied physically, name or location information. The standard also permits but does not require the indorsement to include other identifying information. The standard requires a collecting bank’s or returning bank’s indorsement to include only (1) the bank’s nine digit routing number (without arrows) and, if the collecting bank or returning bank is a reconverting bank with respect to the check, an asterisk at each end of the number to identify the bank as a reconverting bank, (2) the indorsement date, and (3) an optional trace or sequence number.

7. Depositary banks should not include information that can be confused with required information. For example, a nine-digit zip code could be confused with the nine-digit routing number.

8. A depositary bank may want to include an address in its indorsement in order to limit the number of locations at which it must receive returned checks. In instances where this address is not consistent with the routing number in the indorsement, the depositary bank is required to receive returned checks at a branch or head office consistent with the routing number. Banks should note, however, that §229.32 requires a depositary bank to receive returned checks at the location(s) at which it receives forward-collection checks.

9. In addition to indorsing a substitute check in accordance with appendix D, a reconverting bank must identify itself and the truncating bank by applying its routing number and the routing number of the truncating bank to the front of the check in accordance with appendix D and ANSI X9.100-140. Further, if the reconverting bank is the paying bank, it also must identify itself by applying its routing number to the back of the check in accordance with appendix D. In these instances, the reconverting bank and truncating bank routing numbers are for identification purposes only and are not indorsements or acceptances.

10. Under the U.C.C., a specific guarantee of prior indorsement is not necessary. (See U.C.C. 4-207(a) and 4-208(a).) Use of guarantee language in indorsements, such as “P.E.G.” (“prior endorsements guaranteed”), may result in reducing the type size used in bank indorsements, thereby making them more difficult to read. Use of this language may make it more difficult for other banks to identify the depositary bank. Subsequent collecting bank indorsements may not include this language.

11. If the bank maintaining the account into which a check is deposited agrees with another bank (a correspondent, ATM operator, or lock box operator) to have the other bank accept returns and notices of non-payment for the bank of account, the indorsement placed on the check as the depositary bank indorsement may be the indorsement of the bank that acts as correspondent, ATM operator, or lock box operator as provided in paragraph (d) of this section.

12. The backs of many checks bear pre-printed information or blacked out areas for various reasons. For example, some checks are printed with a carbon band across the back that allows the transfer of information from the check to a ledger with one writing. Also, contracts or loan agreements are printed on certain checks. Other checks that are mailed to recipients may contain areas on the back that are blacked out so that they may not be read through the mailer. On the deposit side, the payee of the check may
place its indorsement or information identifying the drawer of the check in the area specified for the depositary bank indorsement, thus making the depositary bank indorsement unreadable.

13. The indorsement standard does not prohibit the use of a carbon band or other print-ed or written matter on the backs of checks and does not require banks to avoid placing their indorsements in these areas. Nevertheless, checks will be handled more efficiently if depositary banks design indorsement stamps so that the nine-digit routing number avoids the carbon band area. Indorsing parties other than banks, e.g., corporations, will benefit from the faster return of checks if they protect the identifiability and legibilitity of the depositary bank indorsement by staying clear of the area reserved for the depositary bank indorsement.

14. Section 229.38(d) allocates responsibility for loss resulting from a delay in return of a check due to indorsements that are unreadable because of material on the back of the check. The depositary bank is responsible for a loss resulting from a delay in return caused by the condition of the check arising after its issuance until its acceptance by the depositary bank that made the depositary bank’s indorsement illegible. The paying bank is responsible for loss resulting from a delay in return caused by indorsements that are not readable because of other material on the back of the check at the time that it was issued. Depositary and paying banks may shift these risks to their customers by agreement.

15. The standard does not require the paying bank to indorse the check; however, if a paying bank does indorse a check that is returned, it should follow the indorsement standard for collecting banks and returning banks. The standard requires collecting and returning banks to indorse the check for tracing purposes. With respect to the identification of a paying bank that is also a re-converting bank, see the commentary to §229.51(b)(2).

B. 229.35(b) Liability of Bank Handling Check

1. When a check is sent for forward collection, the collection process results in a chain of indorsements extending from the depositary bank through any subsequent collecting banks to the paying bank. This section extends the indorsement chain through the paying bank to the returning banks, and would permit each bank to recover from any prior indorser if the claimant bank does not receive payment for the check from a subsequent bank in the collection or return chain.

For example, if a returning bank returned a check to an insolvent depositary bank, and did not receive the full amount of the check from the failed bank, the returning bank could obtain the unrecovered amount of the check from any bank prior to it in the collection and return chain including the paying bank. Because each bank in the collection and return chain could recover from a prior bank, any loss would fall on the last paying bank in the indorsement chain through the converting bank, see the commentary to §229.35(b).

5. This liability is imposed on a bank handling a check for collection or return regardless of whether the bank’s indorsement appears on the check. Notice must be sent under this paragraph to a prior bank from which recovery is sought reasonably promptly after a bank learns that it did not receive payment from another bank, and learns the identity of the prior bank. Written notice reasonably identifying the check and the basis for recovery is sufficient if the check is not available. Receipt of notice by the bank against which the claim is made is not a precondition to recovery by charge-back or other means; however, a bank may be liable for negligence for failure to provide timely notice. A paying or returning bank also may recover from a prior collecting bank as provided in §§229.30(b) and 229.31(b). This provision is not a substitute for a paying or returning bank making expedient return.
under §§229.30(a) or 229.31(b). This paragraph does not affect a paying bank’s accountability for a check under U.C.C. 4–215(a) and 4–302. Nor does this paragraph affect a collecting bank’s accountability under U.C.C. 4–213 and 4–215(d). A collecting bank becomes accountable upon receipt of final settlement as provided in the foregoing U.C.C. sections. The term final settlement in §§229.31 (c), 229.32 (b), and 229.36(d) is intended to be consistent with the use of the term final settlement in the U.C.C. (e.g., U.C.C. 4–213, 4–214, and 4–215). (See also §229.2(cc) and Commentary.)

6. This paragraph also provides that a bank may have the rights of a holder based on the respondsent indorse the check for collection or return. A bank may become a holder or a holder-in due course regardless of whether prior banks have complied with the indorsement standard in §§229.36(a) and appendix D.

7. This paragraph affects the following provisions of the U.C.C., and may affect other provisions:

a. Section 4–214(a), in that the right to recovery is not based on provisional settlement, and recovery may be had from any prior bank. Section 4–214(a) would continue to permit a depositary bank to recover a provisional settlement from its customer. (See §229.38(d).)

b. Section 3–415 and related provisions (such as section 3–561), in that such provisions would not apply as between banks, or as between the depositary bank and its customer.

c. 229.35(c) Indorsement by Bank

1. This section protects the rights of a customer depositing a check in a bank without requiring the words “pay any bank,” as required by the U.C.C. (See U.C.C. 4–201(b).) Use of this language in a depositary bank’s indorsement may make it more difficult for other banks to identify the depositary bank. The indorsement standard in appendix D prohibits such material in subsequent collecting bank indorsements. The existence of a bank indorsement provides notice of the restrictive indorsement without any additional words.

D. 229.35(d) Indorsement for Depository Bank

1. This section permits a depositary bank to arrange with another bank to indorse checks. This practice may occur when a correspondent indorses for a respondent, or when the bank servicing an ATM or lock box indorses for the bank maintaining the account in which the check is deposited—i.e., the depositary bank. If the depositary bank applies the depositary bank’s indorsement, checks will be returned to the depositary bank. If the indorsing bank does not apply the depositary bank’s indorsement, by agreement with the depositary bank it may apply its own indorsement as the depositary bank indorsement. In that case, the depositary bank’s own indorsement on the check (if any) should avoid the location reserved for the depositary bank. The actual depositary bank remains responsible for the availability and other requirements of Subpart B, but the bank indorsing as depositary bank is considered the depositary bank for purposes of Subpart C. The check will be returned, and notice of nonpayment will be given to the bank indorsing as depositary bank.

2. Because the depositary bank for Subpart B purposes will desire prompt notice of nonpayment, its arrangement with the indorsing bank should provide for prompt notice of nonpayment. The bank indorsing as depositary bank may require the depositary bank to agree to take up the check if the check is not paid even if the depositary bank’s indorsement does not appear on the check and it did not handle the check. The arrangement between the banks may constitute an agreement varying the effect of provisions of Subpart C under §229.37.

XXII. Section 229.36 Presentment and Issuance of Checks

A. 229.36(a) Payable Through and Payable at Checks

1. For purposes of Subpart C, the regulations defines a payable-through or payable-at bank (which could be designated the collectible-through or collectible-at bank) as a paying bank. The requirements of §229.30(a) and the notice of nonpayment requirements of §229.33 are imposed on a payable-through or payable-at bank and are based on the time of receipt of the forward collection check by the payable-through or payable-at bank. This provision is intended to speed the return of checks that are payable through or at a bank to the depositary bank.

B. 229.36(b) Receipt at Bank Office or Processing Center

1. This paragraph seeks to facilitate efficient presentment of checks to promote early return or notice of nonpayment to the depositary bank and clarifies the law as to the effect of presentment by routing number. This paragraph differs from §229.32(a) because presentment of checks differs from delivery of returned checks.

2. The paragraph specifies four locations at which the paying bank must accept presentment of checks. Where the check is payable through a bank and the check is sent to that bank, the payable-through bank is the paying bank for purposes of this subpart, regardless of whether the paying bank must present the check to another bank or to a nonbank payor for payment.
a. Delivery of checks may be made, and presentment is considered to occur, at a location (including a processing center) requested by the paying bank. This is the way most checks are presented by banks today. This provision adopts the common law rule of a number of legal decisions that the processing center acts as the agent of the paying bank to accept presentment of checks. It also provides that a check will be processed in the location requested by the paying bank. A paying bank may select a location for presentment of checks in a processing center. In some cases, a paying bank may have several offices in the city associated with the routing number of a bank. Each branch or office may be treated as a separate location for presentment of checks. Any office of the paying bank may accept presentment of a check. The designated office of the paying bank is identified by the routing number. If the address of a branch or head office, or other location, is proper for the purposes of U.C.C. 4–215(a)(2) or (3), the location designated for receipt of forward collection checks bearing that routing number.

b. i. Delivery may be made at an office of the bank associated with the routing number on the check. The separate office associated with the routing number is found in the American Bankers Association Key to Routing Numbers, published by an agent of the American Bankers Association, which lists a city and state address for each routing number. Checks generally are handled by collecting banks on the basis of the nine-digit routing number encoded in magnetic ink (or on the basis of the fractional form routing number if the magnetic ink characters are obliterated) on the check, rather than the printed name or address. The definition of a paying bank in §229.2(a) includes a bank designated by routing number, whether or not there is a name on the check, and whether or not any name is consistent with the routing number. Where a check is payable by one bank, but payable through another, the routing number is that of the payable-through bank, not that of the payor bank. As the payor bank has selected the payable-through bank as the point through which presentment is to be made, it is proper to treat the payable-through bank as the paying bank for purposes of this section.

ii. There is no requirement in the regulation that the name and address on the check agree with the address associated with the routing number on the check. A bank generally may control the use of its routing number, just as it does the use of its name. The address associated with the routing number may be a processing center.

iii. In some cases, a paying bank may have several offices in the city associated with the routing number. In such case, it would not be reasonable or efficient to require the presenting bank to sort the checks by more specific branch addresses that might be printed on the checks, and to deliver the checks to each branch. A collecting bank normally would deliver all checks to one location. In cases where checks are delivered to a branch other than the branch on which they may be drawn, computer and courier communication among branches should permit the paying bank to determine quickly whether to pay the check.

c. If the check specifies the name of the地方 bank and no address, the bank must accept delivery at any office. Where delivery is made by a person other than a bank, or where the routing number is not readable, delivery will be made at the place of business of the paying bank. This provision is consistent with U.C.C. 3–111, which states that presentment for payment may be made at the address specified in the instrument, or, if there is none, at the place of business of the party to pay. Thus, there is a trade-off for a paying bank between specifying a particular address on a check to limit locations of delivery, and simply stating the name of the bank to encourage wider currency for the check.

d. If the check specifies the name and address of a branch or head office, or other location (such as a processing center), the check may be delivered by delivery to that office or other location. If the address is too general to identify a particular office, delivery may be made at any office consistent with the address. For example, if the address is “San Francisco, California,” each office in San Francisco must accept presentment. The designation of an address on the check generally is in the control of the paying bank.

1. This paragraph makes settlement between banks during forward collection final when made, subject to any deferment of settlement between banks during the return of checks are final. In addition, this paragraph clarifies that this change does not affect the liability scheme under U.C.C. 4–201 during forward collection of a check. That U.C.C. section provides that, unless a contrary intent clearly appears, a bank is an agent or subagent of the owner of a check, but that Article 4 of the U.C.C. applies even though a bank may have purchased an item and is the owner of it. This paragraph preserves the liability of a collecting bank to prior collecting banks and the depositary bank’s customer for negligence during the forward collection of a check under the U.C.C., even though this paragraph provides that settlement between banks during forward collection is final rather than provisional. Settlement by a paying bank is not considered to be final payment for the purposes of U.C.C. 4–215(a)(2) or (3).
because a paying bank has the right to re-
cover settlement from a returning or deposi-
tary bank to which it returns a check under 
this subpart. Other provisions of the U.C.C. 
not modified by this subpart, such as sec-
tion 4-202, also continue to apply to the for-
ward collection of a check and may apply to 
the return of a check. (See definition of re-
turning bank in §229.3(cc).)

E. 229.36(e) Issuance of Payable Through 

Checks

1. If a bank arranges for checks payable by 
it to be payable through another bank, it 
must require its customers to use checks 
that contain conspicuously on their face the 
name, location, and first four digits of the 
nine-digit routing number of the bank by 
which the check is payable and the legend 
“payable through” followed by the name of 
the payable-through bank. The first four dig-
its of the nine-digit routing number and the 
location of the bank by which the check is 
payable must be associated with the same 
check processing region. (This section does 
not affect §229.36(b).) The required informa-
tion is deemed conspicuous if it is printed in 
a type size not smaller than six-point type 
and if it is contained in the title plate, which 
is located in the lower left quadrant of the 
check. The required information may be con-
spicuous if it is located elsewhere on the 
check.

2. If a payable-through check does not 
meet the requirements of this paragraph, the 
bank by which the check is payable may be 
liable to the depositary bank or others as 
advised had the check met the requirements 
of this paragraph. Similarly, a bank may be 
liable under §229.38 if a check payable by it 
that is not payable through another bank is 
issued or payable through checks. (All of a bank’s of-
fices within the United States are considered 
part of the same bank; see §229.2(e).) In this 
example, the bank by which the checks are 
payable could be liable to a depositary bank 
that suffers a loss, such as lost interest or li-
ability under Subpart B, due to the mis-
labeled check. The bank by which the check 
is payable may be liable for additional dam-
ages if it fails to act in good faith.

F. 229.36(f) Same-Day Settlement

1. This paragraph provides that, under cer-
tain conditions, a paying bank must settle 
with a presenting bank for a check on the 
same day the check is presented in order to 
avail itself of the ability to return the check 
on its next banking day under U.C.C. 4-301 
and 4-302. This paragraph does not apply to 
checks presented for immediate payment 
over the counter. Settling for a check under 
this paragraph does not constitute final pay-
ment of the check under the U.C.C. This 
paragraph does not supersede or limit the 
rules governing collection and return of 
checks through Federal Reserve Banks that 
are contained in Subpart A of Regulation J 
(12 CFR part 210).

2. Presentment requirements.

a. Location and time.

i. For presented checks to qualify for manda-
tory same-day settlement, information ac-
companying the checks must indicate that 
presentment is being made under this para-
graph—e.g. “these checks are being pre-
sentated for same-day settlement”—and must 
include a demand for payment of the total 
amount of the checks together with appro-
priate payment instructions in order to en-
able the paying bank to discharge its settle-
ment responsibilities under this paragraph. 
In addition, the check or checks must be pre-
sentated at a location designated by the pay-
ing bank for receipt of checks for same-day 
settlement by 8:00 a.m. local time of that lo-
cation. The designated presentment location 
must be a location at which the paying bank 
would be considered to have received a check 
under §229.36(b). The paying bank may not 
designate a location solely for presentment 
of checks subject to settlement under this 
paragraph; by designating a location for the 
purposes of §229.36(f), the paying bank agrees 
to accept checks at that location for the pur-
poses of §229.36(b).

ii. The designated presentment location 
also must be within the check processing 
region consistent with the nine-digit routing 
number encoded in magnetic ink on the 
check. A paying bank that uses more than 
one routing number associated with a single 
check processing region may designate, for 
purposes of this paragraph, one or more loca-
tions in that check processing region at 
which checks will be accepted, but the pay-
ing bank must accept any checks with a 
routing number associated with that check 
processing region at each designated loca-
tion. A paying bank may designate a pre-
sentment location for traveler’s checks with 
an 8000-series routing number anywhere in 
the country because these traveler’s checks 
are not associated with any check processing 
region. The paying bank, however, must ac-
cept at that presentment location any other 
checks for which it is paying bank that have
a routing number consistent with the check processing region of that location.

iii. If the paying bank does not designate a presentment location, it must accept presentations at any location identified in §229.36(b), i.e., at an address of the bank associated with the routing number on the check, at any branch or head office of the bank identified on the check by name without address, or at a branch, head office, or other location consistent with the name and address of the bank on the check. If the bank is identified on the check by name and address. A paying bank and a presenting bank may agree that checks will be accepted for same-day settlement at an alternative location (e.g., at an intercept processor located in a different check processing region) or that the cut-off time for same-day settlement be earlier or later than 8:00 a.m. local time.

iv. In the case of a check payable through a bank but payable by another bank, this paragraph does not authorize direct presentment to the bank by which the check is payable. The requirements of same-day settlement under this paragraph would apply to a payable-through or payable-at bank to which the check is sent for payment or collection.

b. Reasonable delivery requirements. A check is considered presented when it is delivered to and payment is demanded at a location specified in paragraph (f)(1). Ordinarily, a presenting bank will find it necessary to contact the paying bank to determine the appropriate presentment location and any delivery instructions. Further, because presentment might not take place during the paying bank’s banking day, a paying bank may establish reasonable delivery requirements to safeguard the checks presented, such as use of a night depository. If a presenting bank fails to follow reasonable delivery requirements established by the paying bank, it runs the risk that it will not have presented the checks. However, if no reasonable delivery requirements are established or if the paying bank does not make provisions for accepting delivery of checks during its non-business hours, leaving the checks at the presentment location constitutes effective presentment.

c. Sorting of checks. A paying bank may require that checks presented to it for same-day settlement be sorted separately from other forward collection checks it receives as a collecting bank or returned checks it receives as a returning or depositary bank. For example, if a bank provides correspondent check collection services and receives unsorted checks from a respondent bank that include checks for which it is the paying bank and that would otherwise meet the requirements for same-day settlement under this section, the collecting bank need not make settlement in accordance with paragraph (f)(2). If the collecting bank receives sorted checks from its respondent bank, consisting only of checks for which the collecting bank is the paying bank and that meet the requirements for same-day settlement under this paragraph, the collecting bank may not charge a fee for handling those checks and must make settlement in accordance with this paragraph.

3. Settlement

a. If a bank presents a check in accordance with the time and location requirements for presentment under paragraph (f)(1), the paying bank either must settle for the check on the business day it receives the check without charging a presentment fee or return the check prior to the time for settlement. (This return deadline is subject to extension under §229.39(c).) The settlement must be in the form of a credit to an account designated by the presenting bank at a Federal Reserve Bank (e.g., a Fedwire transfer). The presenting bank may agree with the paying bank to accept settlement in another form (e.g., credit to an account of the presenting bank at the paying bank or debit to an account of the paying bank at the presenting bank). The settlement must occur by the close of Fedwire on the business day the check is received by the paying bank. Under the provisions of §229.34(c), a settlement owed to a presenting bank may be set off by adjustments for previous settlements with the presenting bank. (See also §229.39(d).)

b. Checks that are presented after the 8 a.m. (local time) presentment deadline for same-day settlement and before the paying bank’s cut-off hour are treated as if they were presented under other applicable law and settled for or returned accordingly. However, for purposes of settlement only, the presenting bank may require the paying bank to treat such checks as presented for same-day settlement on the next business day in lieu of accepting settlement by cash or other means on the business day the checks are presented to the paying bank. Checks presented after the paying bank’s cut-off hour or on non-business days, but otherwise in accordance with this paragraph, are considered presented for same-day settlement on the next business day.

4. Closed Paying Bank

a. There may be certain business days that are not banking days for the paying bank. Some paying banks may continue to settle for checks presented on these days (e.g., by opening their back office operations or by using an intercept processor). In other cases, a paying bank may be unable to settle for checks presented on a day it is closed.

If the paying bank closes on a business day and checks are presented to the paying bank in accordance with paragraph (f)(1), the paying bank is accountable for the checks unless it settles for or returns the checks by the close of Fedwire on its next banking day. In addition, checks presented on a business day
Federal Reserve System

on which the paying bank is closed are considered received on the paying bank’s next banking day for purposes of the U.C.C. midnight deadline (U.C.C. 4–301 and 4–302) and this time limits return and notice of nonpayment provisions.

b. If the paying bank is closed on a business day voluntarily, the paying bank must pay interest compensation, as defined in §229.2(oo), to the presenting bank for the value of the float associated with the check from the day of the voluntary closing until the day of settlement. Interest compensation is not required in the case of an involuntary closing on a business day, such as a closing required by state law. In addition, if the paying bank is closed on a business day due to emergency conditions, settlement delays and interest compensation may be excused under §229.38(e) or U.C.C. 4–109(b).

c. Section 4–301(a), in that, to preserve the ability to exercise deferred posting, the time limit specified in that section for settlement or return by a paying bank on the banking day a check is received is superseded by the requirement to settle for checks presented under this paragraph by the close of Fedwire.

d. Section 4–302(a), in that, to avoid accountability, the time limit specified in that section for settlement or return by a paying bank on the banking day a check is received is superseded by the requirement to settle for checks presented under this paragraph by the close of Fedwire.

XXIII. Section 229.37 Variations by Agreement

A. This section is similar to U.C.C. 4–103, and permits consistent treatment of agreements varying Article 4 or Subpart C, given the substantial interrelationship of the two documents. To achieve consistency, the official comment to U.C.C. 4–103(a) (which in turn follows U.C.C. 1–201(3)) should be followed in construing this section. For example, as stated in Official Comment 2 to section 4–103, owners of items and other interested parties are not affected by agreements under this section unless they are parties to the agreement or are bound by adoption, ratification, estoppel, or the like. In particular, agreements varying this subpart that delay the return of a check beyond the times required by this subpart may result in liability under §229.38 to entities not party to the agreement.

B. The Board has not followed U.C.C. 4–103(b), which permits Federal Reserve regulations and operating letters, clearinghouse rules, and the like to apply to parties that have not specifically assented. Nevertheless, this section does not affect the status of such agreements under the U.C.C.

C. The following are examples of situations where variation by agreement is permissible, subject to the limitations of this section:

1. A depositary bank may authorize another bank to apply the other bank’s indorsement to a check as the depositary bank. (See §229.35(d).)

2. A depositary bank may authorize returning banks to commingle qualified returned checks with forward collection checks. (See §229.32(a).)

3. A depositary bank may limit its liability to its customer in connection with the late return of a deposited check where the latency is caused by markings on the check by the depositary bank’s customer or prior indorsor in the area of the depositary bank indorsement. (See §229.38(d).)

4. A paying bank may require its customer to assume the paying bank’s liability for delayed or missent checks where the delay or missending is caused by markings placed on the check by the paying bank’s customer that obscured a properly placed indorsement of the depositary bank. (See §229.38(d).)

5. A collecting or paying bank may agree to accept forward collection checks without
the indorsement of a prior collecting bank. (See §229.35(a).)

6. A bank may agree to accept returned checks without the indorsement of a prior bank. (See §229.35(a).)

7. A presenting bank may agree with a paying bank to present checks for same-day settlement at a location that is not in the check processing region consistent with the routing number on the checks. (See §229.36(f)(1)(i)).

8. A presenting bank may agree with a paying bank to present checks for same-day settlement by a deadline earlier or later than 8:00 a.m. (See §229.36(f)(1)(ii)).

9. A presenting bank and a paying bank may agree that presentation takes place when the paying bank receives an electronic transmission of information describing the check rather than upon delivery of the physical check. (See §229.36(b).)

10. A depositary bank may agree with a paying or returning bank to accept an image or other notice in lieu of a returned check even when the check is available for return under this part. Except to the extent that other parties interested in the check assert to or are bound by the variation of the notice-in-lieu provisions of this part, banks entering into such an agreement may be responsible under this part or other applicable law to other interested parties for any losses caused by the handling of a returned check under the agreement. (See §§229.30(f), 229.31(f), 229.38(a).)

D. The Board expects to review the types of variation by agreement that develop under this section and will consider whether it is necessary to limit certain variations.

XXIV. Section 229.38 Liability

A. 229.38(a) Standard of care; liability; measure of damages

1. The standard of care established by this section applies to any bank covered by the requirements of Subpart C of the regulation. Thus, the standard of care applies to a paying bank under §§229.30 and 229.33, to a returning bank under §§229.31, to a depositary bank under §§229.32 and 229.33, to a bank erroneously receiving a returned check or written notice of nonpayment as depositary bank under §229.32(d), and to a bank indorsing a check under §229.33. The standard of care is similar to the standard imposed by U.C.C. 1–203 and 4–103(a) and includes a duty to act in good faith, as defined in §229.32(nn) of this regulation.

2. A bank not meeting this standard of care is liable to the depositary bank, the depositary bank's customer, the owner of the check, or another party to the check. The depositary bank's customer is usually a depositor of a check in the depositary bank (but see §229.35(d)). The measure of damages provided in this section (loss incurred up to amount of check, less amount of loss party would have incurred even if bank had exercised ordinary care) is based on U.C.C. 4–103(c) (amount of the item reduced by an amount that could not have been realized by the exercise of ordinary care), as limited by U.C.C. 4–202(c) (bank is liable only for its own negligence and not for actions of subsequent banks in chain of collection). This subpart does not absolve a collecting bank of liability to prior collecting banks under U.C.C. 4–201.

3. Under this measure of damages, a depositary bank or other person must show that the damage incurred results from the negligence proved. For example, the depositary bank may not simply claim that its customer will not accept a charge-back of a returned check, but must prove that it could not charge back when it received the returned check and could have charged back if no negligence had occurred, and must first attempt to collect from its customer. (See Marcoux v. Van Wyk, 572 F.2d 651 (8th Cir. 1978); Appliance Buyers Credit Corp. v. Prospect Nat'l Bank, 708 F.2d 290 (7th Cir. 1983)). Generally, a paying or returning bank's liability would not be reduced because the depositary bank did not place a hold on its customer's deposit before it learned of nonpayment of the check.

4. This paragraph also states that it does not affect a paying bank's liability to its customer. Under U.C.C. 4–402, for example, a paying bank is liable to its customer for wrongful dishonor, which is different from failure to exercise ordinary care and has a different measure of damages.

B. 229.38(b) Paying Bank's Failure To Make Timely Return

1. Section 229.30(a) imposes requirements on the paying bank for expeditious return of a check and leaves in place the U.C.C. deadlines (as they may be modified by §229.39(c)), which may allow return at a different time. This paragraph clarifies that the paying bank could be liable for failure to meet either standard, but not for failure to meet both. The regulation intends to preserve the paying bank's accountability for missing its midnight or other deadline under the U.C.C., (e.g., sections 4–215 and 4–302), provisions that are not incorporated in this regulation, but may be useful in establishing the time of final payment by the paying bank.

C. 229.38(c) Comparative negligence

1. This paragraph establishes a “pure” comparative negligence standard for liability under Subpart C of this regulation. This comparative negligence rule may have particular application where a paying or returning bank delays in returning a check because of difficulty in identifying the depositary bank. Some examples will illustrate liability
in such cases. In each example, it is assumed that the returned check is received by the depositary bank after it has made funds available to its customer, that it may no longer recover the funds from its customer, and that the inability to recover the funds from the customer is due to a delay in returning the check contrary to the standards established by §§229.30(a) or 229.31(a).

2. Examples.
   a. If a depositary bank fails to use the indorsement required by this regulation, and this failure is caused by a failure to exercise ordinary care, and if a paying or returning bank is delayed in returning the check because additional time was required to identify the depositary bank or find its routing number, the paying or returning bank’s liability to the depositary bank would be reduced or eliminated.
   b. If the depositary bank uses the standard indorsement, but that indorsement is obscured by a subsequent collecting bank’s indorsement, and a paying or returning bank is delayed in returning the check because additional time was required to identify the depositary bank or find its routing number, the paying or returning bank may not be liable to the depositary bank because the delay was not due to its negligence. Nonetheless, the collecting bank may be liable to the depositary bank to the extent that its negligence in indorsing the check caused the paying or returning bank’s delay.
   c. If a depositary bank accepts a check that has printing, a carbon band, or other material on the back of the check that existed at the time the check was issued, and the depositary bank’s indorsement is obscured by the printing, carbon band, or other material, and a paying or returning bank is delayed in returning the check because additional time was required to identify the depositary bank or find its routing number, the paying or returning bank may not be liable to the depositary bank because the delay was not due to its negligence. Nonetheless, the paying bank may be liable to the depositary bank to the extent that its negligence in indorsing the check caused the paying or returning bank’s delay.

D. 229.38(d) Responsibility for Certain Aspects of Checks

1. Responsibility for back of check. The indorsement standard in §229.35 is most effective if the back of the check remains clear of other matter that may obscure bank indorsements. Because bank indorsements are usually applied by automated equipment, it is not possible to avoid pre-existing matter on the back of the check. For example, bank indorsements are not required to avoid a carbon band or printed, stamped, or written terms or notations on the back of the check. Accordingly, this provision places responsibility on the paying bank, depositary bank, or reconverting bank, as appropriate, for keeping the back of the check clear for bank indorsements during forward collection and return.

2. ANS X9.100–140 provides that an image of an original check must be reduced in size when placed on the first substitute check associated with that original check. (The image thereafter would be constant in size on any subsequent substitute check that might be created.) Because of this size reduction, the location of an indorsement, particularly a depositary bank indorsement, applied to an original paper check likely will change when the first reconverting bank creates a substitute check that contains that indorsement within the image of the original paper check. If the indorsement was applied to the original paper check in accordance with appendix D’s location requirements for indorsements applied to existing paper checks, and if the size reduction of the image causes the placement of the indorsement to no longer be consistent with the appendix’s requirements, then the reconverting bank bears the liability for any loss that results from the shift in the placement of the indorsement. Such a loss could result either because the original indorsement applied in accordance with appendix D is rendered illegible by a subsequent indorsement that later is applied to the substitute check in accordance with appendix D, or because the subsequent bank cannot apply its indorsement to the substitute check legibly in accordance with appendix D as a result of the shift in the previous indorsement.

Example.

In accordance with appendix D’s specifications, a depositary bank sprays its indorsement onto a business-sized original check between 3.0 inches from the leading edge of the check and 1.5 inches from the trailing edge of the check. The check’s conversion to electronic form and subsequent reconversion to paper form causes the location of the depositary bank indorsement, now contained within the image of the original check, to change such that it is less than 3.0 inches from the leading edge of the substitute check. In accordance with appendix D’s specifications, a subsequent collecting bank sprays its indorsement onto the substitute check between the leading edge of the check and 3.0 inches from the leading edge of the check and the indorsement happens to be on top of the shifted depositary bank indorsement. If the check is returned unpaid and the return is not expeditions because of the illegibility of the depositary bank indorsement, and the depositary bank incurs a loss that it would not have incurred had the return been expeditions, the reconverting bank bears the liability for that loss.

3. Responsibility for payable-through checks.

a. This paragraph provides that the bank by which a payable-through check is payable is liable for damages under paragraph (a) of this section to the extent that the check is not returned through the payable-through bank as quickly as would have been necessary to meet the requirements of §229.30(a)(1) (the 2-day/4-day test) had the bank by which it is payable received the check as paying bank on the day the payable-through bank received it. The location of the bank by which a check is payable for purposes of the 2-day/4-day test may be determined from the location or the first four digits of the routing number of the bank by which the check is payable. This information should be stated on the check. (See §229.36(e) and accompanying Commentary.) Responsibility under paragraph (d)(2) does not include responsibility for the time required for the forward collection of a check to the payable-through bank.

b. Generally, liability under paragraph (d)(2) will be limited in amount. Under §229.38(a), a paying bank that returns a check in the amount of $2,500 or more must provide notice of nonpayment to the depositary bank by 4:00 p.m. on the second business day following the banking day on which the check is presented to the paying bank. Even if a payable-through check in the amount of $2,500 or more is not returned through the payable-through bank as quickly as would have been required had the check been received by the bank by which it is payable, the depositary bank should not suffer damages unless it has not received timely notice of nonpayment. Thus, ordinarily the bank by which a payable-through check is payable would be liable under paragraph (a) only for checks in amounts up to $2,500, and the paying bank would be responsible for notice of nonpayment for checks in the amount of $2,500 or more.

4. Responsibility under paragraphs (d)(1) and (d)(2) is treated as negligence for comparative negligence purposes, and the contribution to damages under paragraphs (d)(1) and (d)(2) is treated in the same way as the degree of negligence under paragraph (c) of this section.

E. 229.38(e) Timeliness of Action
1. This paragraph excuses certain delays. It adopts the standard of U.C.C. 4-109(b).

F. 229.38(f) Exclusion
1. This paragraph provides that the civil liability and class action provisions, particularly the punitive damage provisions of sections 611(a) and (b), and the bona fide error provisions of 401(c) of the EFA Act (12 U.S.C. 4010(a), (b), and (c)) do not apply to regulatory provisions adopted to improve the efficiency of the payments mechanism. Allowing punitive damages for delays in the return of checks where no actual damages are incurred would only encourage litigation and provide little or no benefit to the check collection system. In view of the provisions of paragraph (a), which incorporate traditional bank collection standards based on negligence, the provision on bona fide error is not included in Subpart C.

G. 229.38(g) Jurisdiction
1. The EFA Act confers subject matter jurisdiction on courts of competent jurisdiction and provides a time limit for civil actions for violations of this subpart.

H. 229.38(h) Reliance on Board Rulings
1. This provision shields banks from civil liability if they act in good faith in reliance on any rule, regulation, or interpretation of the Board, even if it were subsequently determined to be invalid. Banks may rely on the Commentary to this regulation, which is issued as an official Board interpretation, as well as on the regulation itself.

XXV. Section 229.39 Insolvency of Bank
A. Introduction
1. These provisions cover situations where a bank becomes insolvent during collection or return and are derived from U.C.C. 4-216. They are intended to apply to all banks.

B. 229.39(a) Duty of Receiver
1. This paragraph requires a receiver of a closed bank to return a check to the prior bank if it does not pay for the check. This permits the prior bank, as holder, to pursue its claims against the closed bank or prior indorsers on the check.

C. 229.39(b) Preference Against Paying or Depositary Bank
1. This paragraph gives a bank a preferred claim against a closed paying bank that finally pays a check without settling for it or a closed depositary bank that becomes obligated to pay a returned check without settling for it. If the bank with a preferred claim under this paragraph recovers from a prior bank or other party to the check, the prior bank or other party to the check is subrogated to the preferred claim.

D. 229.39(c) Preference Against Paying, Collecting, or Depositary Bank
1. This paragraph gives a bank a preferred claim against a closed collecting, paying, or returning bank that receives settlement but does not settle for a check. (See Commentary to §229.35(b) for discussion of prior and subsequent banks.) As in the case of §229.39(b), if the bank with a preferred claim under this paragraph recovers from a prior bank or other party to the check, the prior
bank or other party to the check is subrogated to the preferred claim.

E. 229.39(d) Preference Against Presenting Bank

1. This paragraph gives a paying bank a preferred claim against a closed presenting bank in the event that the presenting bank breaches an amount or encoding warranty as provided in §229.36(c)(1) or (3) and does not reimburse the paying bank for adjustments for a settlement made by the paying bank in excess of the value of the checks presented. This preference is intended to have the effect of a perfected security interest and is intended to put the paying bank in the position of a secured creditor for purposes of the receivership provisions of the Federal Deposit Insurance Act and similar provisions of state law.

P. 229.39(e) Finality of Settlement

1. This paragraph provides that insolvency does not interfere with the finality of a settlement, such as a settlement by a paying bank that becomes final by expiration of the midnight deadline.

XXVI. Section 229.40 Effect on Merger Transaction

A. When banks merge, there is normally a period of adjustment required before their operations are consolidated. To allow for this adjustment period, the regulation provides that the merged banks may be treated as separate banks for a period of up to one year after the consummation of the transaction. The term merger transaction is defined in §229.2(t). This rule affects the status of the combined entity in a number of areas in this subpart. For example:

1. The paying bank’s responsibility for expeditious return (§229.30).
2. The returning bank’s responsibility for expeditious return (§229.31).
3. Whether a returning bank is entitled to an extra day to qualify a return that will be delivered directly to a depositary bank that has merged with the returning bank (§229.31(a)).
4. Where the depositary bank must accept returned checks (§229.32(a)).
5. Where the depositary bank must accept notice of nonpayment (§229.33(c)).
6. Where a paying bank must accept presentment of checks (§229.36(b)).

XXVII. Section 229.41 Relation to State Law

A. This section specifies that state law relating to the collection of checks is preempted only to the extent that it is inconsistent with this regulation. Thus, this regulation is not a complete replacement for state laws relating to the collection or return of checks.

XXVIII. Section 229.42 Exclusions

A. Checks drawn on the United States Treasury, U.S. Postal Service money orders, and checks drawn on states and units of general local government that are presented directly to the state or unit of general local government and that are not payable through or at a bank are excluded from the coverage of the expeditious-return, notice-of-nonpayment, and same-day settlement requirements of subpart C of this part. Other provisions of this subpart continue to apply to the checks. This exclusion does not apply to checks drawn by the U.S. government on banks.

XXIX. Section 229.43 Checks Payable in Guam, American Samoa, and the Northern Mariana Islands

A. 229.43(a) Definitions

1. Bank offices in Guam, American Samoa, and the Northern Mariana Islands (which Regulation CC defines as Pacific island banks) do not meet the definition of bank in §229.2(e) because they are not located in the United States. Some checks drawn on Pacific island banks (defined as Pacific island checks) bear U.S. routing numbers and are collected and returned by banks in the same manner as checks payable in the U.S.

B. 229.43(b) Rules Applicable to Pacific Island Checks

1. When a bank handles a Pacific island check as if it were a check as defined in §229.2(k), the bank is subject to certain provisions of Regulation CC, as provided in this section. Because the Pacific island bank is not a bank as defined in §229.2(e), it is not a paying bank as defined in §229.2(a) (unless otherwise noted in this section). Pacific island banks are not subject to the provisions of Regulation CC.

2. A bank may agree to handle a Pacific island check as a returned check under §229.31 and may convert the returned Pacific island check to a qualified returned check. The returning bank is not, however, subject to the expeditious-return requirements of §229.31. The returning bank may receive the Pacific island check directly from a Pacific island bank or from another returning bank. As a Pacific island bank is not a paying bank under Regulation CC, §229.31(c) does not apply to a returning bank settling with the Pacific island bank.

3. A depositary bank that handles a Pacific island check is not subject to the provisions of subpart B of Regulation CC, including the availability, notice, and interest accrual requirements, with respect to that check. If, however, a bank accepts a Pacific island check for deposit (or otherwise accepts the check as transferor) and collects the Pacific island check in the same manner as other
checks, the bank is subject to the provisions of §229.32, including the provisions regarding time and manner of settlement for returned checks in §229.32(b), in the event the Pacific island check is returned by a returning bank. If the depositary bank receives the returned Pacific island check directly from the Pacific island bank, however, the provisions of §229.32(b) do not apply, because the Pacific island bank is not a paying bank under Regulation CC. The depositary bank is not subject to the notice of nonpayment provisions in §229.33 for Pacific island checks.

4. Banks that handle Pacific island checks in the same manner as other checks are subject to the indorsement provisions of §229.35. Section 229.35(c) eliminates the need for the restrictive indorsement “pay any bank.” For purposes of §229.35(c), the Pacific island bank is deemed to be a bank.

5. Pacific island checks will often be intermingled with other checks in a single cash letter. Therefore, a bank that handles Pacific island checks in the same manner as other checks is subject to the transfer warranty provision in §229.34(c)(2) regarding accurate cash letter totals and the encoding warranty in §229.34(c)(3). A bank that acts as a returning bank for a Pacific island check is not subject to the warranties in §229.34(a).

Similarly, because the Pacific island bank is not a “bank” or a “paying bank” under Regulation CC, §229.34(b), (c)(1), and (c)(4) do not apply. For the same reason, the provisions of §229.36 governing paying bank responsibilities such as place of receipt and same-day settlement do not apply to checks presented to a Pacific island bank, and the liability provisions applicable to paying banks in §229.38 do not apply to Pacific island banks. Section 229.36(d), regarding finality of settlement between banks during forward collection, applies to banks that handle Pacific island checks in the same manner as other checks, as do the liability provisions of §229.38, to the extent the banks are subject to the requirements of Regulation CC as provided in this section, and §§229.37 and 229.39 through 229.42.

XXX. §229.51 General provisions governing substitute checks

A. §229.51(a) Legal Equivalence

1. Section 229.51(a) states that a substitute check for which a bank has provided the substitute check warranties is the legal equivalent of the original check for all purposes and all persons if it meets the accuracy and legend requirements. Where the law (or a contract) requires production of the original check, production of a legally equivalent substitute check would satisfy that requirement. A person that receives a substitute check cannot be assessed costs associated with the creation of the substitute check, absent agreement to the contrary.

Examples.

a. A presenting bank presents a substitute check that meets the legal equivalence requirements to a paying bank. The paying bank cannot refuse presentment of the substitute check on the basis that it is a substitute check, because the substitute check is the legal equivalent of the original check.

b. A depositor’s account agreement with a bank provides that the depositor is entitled to receive original cancelled checks back with his or her periodic account statement. The bank may honor that agreement by providing original checks, substitute checks, or a combination thereof. However, a bank may not honor such an agreement by providing something other than an original check or a substitute check.

c. A mortgage company argues that a consumer missed a monthly mortgage payment that the consumer believes she made. A legally equivalent substitute check concerning that mortgage payment could be used in the same manner as the original check to prove the payment.

2. A person other than a bank that creates a substitute check could transfer, present, or return that check only by agreement unless and until a bank provided the substitute check warranties.

3. To be the legal equivalent of the original check, a substitute check must accurately represent all the information on the front and back of the check as of the time the original check was truncated. An accurate representation of information that was illegible on the original check would satisfy this requirement. The payment instructions placed on the check by, or as authorized by, the drawer, such as the amount of the check, the payee, and the drawer’s signature, must be accurately represented, because that information is an essential element of a negotiable instrument. Other information that must be accurately represented includes (1) the information identifying the drawer and the paying bank that is preprinted on the check, including the MICR line; and (2) other information placed on the check prior to the time an image of the check is captured, such as any required identification written on the front of the check and any indorsements applied to the back of the check. A substitute check need not capture other characteristics of the check, such as watermarks, microprinting, or other physical security features that cannot survive the imaging process or decorative images, in order to meet the accuracy requirement. Conversely, some security features that are latent on the original check might become visible as a result of the check imaging process. For example, the original check might have a faint representation of the word “void” that will appear more clearly on a photocopied or electronic image of the check. Provided the inclusion of
the clearer version of the word on the image used to create a substitute check did not obscure the required information listed above, a substitute check that contained such information is not the legal equivalent of an original check under §229.51(a). However, if a person suffered a loss due to receipt of such a substitute check instead of the original check, that person could have an indemnity claim under §229.53 and, in the case of a consumer, an expedited recredit claim under §229.54.

4. To be the legal equivalent of the original check, a substitute check must bear the legal equivalence legend described in §229.35(a)(3). A bank may not vary the language of the legal equivalence legend and must place the legend on the substitute check as specified by generally applicable industry standards for substitute checks contained in ANS X9.100–140.

5. In some cases, the original check used to create a substitute check could be forged or otherwise fraudulent. A substitute check created from a fraudulent original check would have the same status under Regulation CC and the U.C.C. as the original fraudulent check. For example, a substitute check of a fraudulent original check would not be properly payable under U.C.C. 4–401 and would be subject to the transfer and presentment warranties in U.C.C. 4–207 and 4–208.

B. 229.51(b) Reconverting Bank Duties

1. As discussed in more detail in appendix D and the commentary to §229.35, a reconverting bank must indorse (or, if it is a paying bank with respect to the check, identify itself on) the back of a substitute check in a manner that preserves all indorsements applied, whether physically or electronically, by persons that previously handled the check in any form for forward collection or return. Indorsements applied physically to the original check before an image of the check was captured would be preserved through the image of the back of the original check that a substitute check must contain. Indorsements applied physically to the original check after an image of the original check was captured would be conveyed as electronic indorsements (see paragraph 3 of the commentary to §229.35(a)). If indorsements were applied electronically after an image of the original check was captured or were applied electronically after a previous substitute check was converted to electronic form, the reconverting bank must apply those indorsements physically to the substitute check. A reconverting bank is not responsible for obtaining indorsements that persons that previously handled the check should have applied but did not apply.

2. A reconverting bank also must identify itself as such on the front and back of the substitute check and must preserve on the back of the substitute check the identification of any previous reconverting banks in accordance with appendix D. The presence on the back of a substitute check of indorsements that were applied by previous reconverting banks and identified with asterisks in accordance with appendix D would satisfy the requirement that the reconverting bank preserve the identification of previous reconverting banks. As discussed in more detail in the commentary to §229.35, the reconverting bank and truncating bank routing numbers on the front of a substitute check and, if the reconverting bank is the paying bank, the reconverting bank’s routing number on the back of a substitute check are for identification only and are not indorsements or acceptances.

3. The reconverting bank must place the routing number of the truncating bank surrounded by brackets on the front of the substitute check in accordance with appendix D and ANS X9.100–140.

Example.

A bank’s customer, which is a nonbank business, receives checks for payment and by agreement deposits substitute checks instead of the original checks with its depository bank. The depository bank is the reconverting bank with respect to the substitute checks and the truncating bank with respect to the original checks. In accordance with appendix D and with ANS X9.100–140, the bank must therefore be identified on the front of the substitute checks as a reconverting bank and as the truncating bank, and on the back of the substitute checks as the depository bank and a reconverting bank.

C. 229.51(c) Applicable Law

1. A substitute check that meets the requirements for legal equivalence set forth in this section is subject to any provision of federal or state law that applies to original checks, except to the extent such provision is inconsistent with the Check 21 Act or subpart D. A legally equivalent substitute check is subject to all laws that are not preempted by the Check 21 Act in the same manner and to the same extent as is an original check.

Thus, any person could satisfy a law that requires production of an original check by producing a substitute check that is derived from the relevant original check and that meets the legal equivalence requirements of §229.51(a).

2. A law is not inconsistent with the Check 21 Act or subpart D merely because it allows for the recovery of a greater amount of damages.

Example.

A drawer that suffers a loss with respect to a substitute check that was improperly charged to its account and for which the
drawer has an indemnity claim but not a warranty claim would be limited under the Check 21 Act to recovery of the amount of the substitute check plus interest and expenses. However, if the drawer also suffered damages that were proximately caused because the bank wrongfully dishonored subsequently presented checks as a result of the improper substitute check charge, the drawer could recover those losses under U.C.C. 4-402.

XXXI. §229.52 Substitute Check Warranties

A. 229.52(a) Warranty Content and Provision

1. The responsibility for providing the substitute check warranties begins with the reconverting bank. In the case of a substitute check created by a bank, the reconverting bank starts the flow of warranties when it transfers, presents, or returns a substitute check for which it receives consideration. A bank that receives a substitute check created by a nonbank starts the flow of warranties when it transfers, presents, or returns for consideration either the substitute check it received or an electronic or paper representation of that substitute check. To ensure that warranty protections flow all the way through to the ultimate recipient of a substitute check or paper or electronic representation thereof, any subsequent bank that transfers, presents, or returns for consideration either the substitute check or a paper or electronic representation of the substitute check is responsible to subsequent transferees for the warranties. Any warranty recipient could bring a claim for a breach of a substitute check warranty if it received either the actual substitute check or a paper or electronic representation of a substitute check.

2. The substitute check warranties and indemnity are not given under §§229.52 and 229.53 by a bank that truncates the original check and by agreement transfers the original check electronically to a subsequent bank for consideration. However, parties may, by agreement, allocate liabilities associated with the exchange of electronic check information.

Example.

A bank that receives check information electronically and uses it to create substitute checks is the reconverting bank and, when it transfers, presents, or returns that substitute check, becomes the first warrantor. However, that bank may protect itself by including in its agreement with the sending bank provisions that specify the sending bank’s warranties and responsibilities to the receiving bank, particularly with respect to the accuracy of the check image and check data transmitted under the agreement.

3. A bank need not affirmatively make the warranties because they attach automatically when a bank transfers, presents, or returns the substitute check (or a representation thereof) for which it receives consideration. Because a substitute check transferred, presented, or returned for consideration is warranted to be the legal equivalent of the original check and thereby subject to existing laws as if it were the original check, all U.C.C. and other Regulation CC warranties that apply to the original check also apply to the substitute check.

4. The legal equivalence warranty by definition must be linked to a particular substitute check. When an original check is truncated, the check may move from electronic form to substitute check form and then back again, such that there would be multiple substitute checks associated with one original check. When a check changes form multiple times in the collection or return process, the first reconverting bank and subsequent banks that transfer, present, or return the first substitute check (or a paper or electronic representation of the first substitute check) warrant the legal equivalence of only the first substitute check. If a bank receives an electronic representation of a substitute check and uses that representation to create a second substitute check, the second reconverting bank and subsequent transferees of the second substitute check (or a representation thereof) warrant the legal equivalence of both the first and second substitute checks. A reconverting bank would not be liable for a warranty breach under §229.52 if the legal equivalence defect is the fault of a subsequent bank that handled the substitute check, either as a substitute check or in other paper or electronic form.

5. The warranty in §229.52(a)(2), which addresses multiple payment requests for the same check, is not linked to a particular substitute check but rather is given by each bank handling the substitute check, an electronic representation of a substitute check, or a subsequent substitute check created from an electronic representation of a substitute check. All banks that transfer, present, or return a substitute check (or a paper or electronic representation thereof) therefore provide the warranty regardless of whether the ultimate demand for double payment is based on the original check, the substitute check, or some other electronic or paper representation of the substitute or original check, and regardless of the order in which the duplicative payment requests occur. This warranty is given by the banks that transfer, present, or return a substitute check even if the demand for duplicative payment results from a fraudulent substitute check about which the warranting bank had no knowledge.
Federal Reserve System

Example.
A nonbank depositor truncates a check and in lieu thereof sends an electronic version of that check to both Bank A and Bank B. Bank A and Bank B each uses the check information that it received electronically to create a substitute check, which it presents to Bank C for payment. Bank A and Bank B each is a reconverting bank that made the substitute check warranties when it presented a substitute check to and received payment from Bank C. Bank C could pursue a warranty claim for the loss it suffered as a result of the duplicative payment against either Bank A or Bank B.

B. 229.52(b) Warranty Recipients

1. A reconverting bank makes the warranties to the person to which it transfers, presents, or returns the substitute check for consideration and to any subsequent recipient that receives either the substitute check or a paper or electronic representation derived from the substitute check. These subsequent recipients could include a subsequent collecting or returning bank, the depository bank, the drawer, the drawee, the payee, the depositor, and any indorser. The paying bank would be included as a warranty recipient, for example because it would be the drawee of a check or a transference of a check that is payable through it.

2. The warranties flow with the substitute check to persons that receive a substitute check or a paper or electronic representation of a substitute check. The warranties do not flow to a person that receives only the original check or a representation of an original check that was not derived from a substitute check. However, a person that initially handled only the original check could become a warranty recipient if that person later receives a returned substitute check or a paper or electronic representation of a substitute check that was derived from that original check.

XXXII. §229.53 Substitute Check Indemnity

A. 229.53(a) Scope of Indemnity

1. Each bank that for consideration transfers, presents, or returns a substitute check or a paper or electronic representation of a substitute check is responsible for providing the substitute check indemnity. The indemnity covers losses due to any subsequent recipient’s receipt of the substitute check instead of the original check. The indemnity therefore covers the loss caused by receipt of the substitute check as well as the loss that a bank incurs because it pays an indemnity to another person. A bank that pays an indemnity would in turn have an indemnity claim regardless of whether it received the substitute check or a paper or electronic representation of the substitute check. The indemnity would not apply to a person that handled only the original check or a paper or electronic version of the original check that was not derived from a substitute check.

Examples.

a. A paying bank makes payment based on a substitute check that was derived from a fraudulent original cashier’s check. The amount and other characteristics of the original cashier’s check are such that, had the original check been presented instead, the paying bank would have inspected the original check for security features. The paying bank’s fraud detection procedures were designed to detect the fraud in question and allow the bank to return the fraudulent check in a timely manner. However, the security features that the bank would have inspected were security features that did not survive the imaging process (see the commentary to §229.51(a)). Under these circumstances, the paying bank could assert an indemnity claim against the bank that presented the substitute check.

b. By contrast with the previous examples, the indemnity would not apply if the characteristics of the presented substitute check were such that the bank’s security policies and procedures would not have detected the fraud even if the original had been presented. For example, if the check was under the threshold amount at which the bank subjects an item to its fraud detection procedures, the bank would not have inspected the item for security features regardless of the form of the item and accordingly would have suffered a loss even if it had received the original check.

c. A paying bank makes an erroneous payment based on an electronic representation of a substitute check because the electronic cash letter accompanying the electronic item included the wrong amount to be charged. The paying bank would not have an indemnity claim associated with that payment because its loss did not result from receipt of an actual substitute check instead of the original check. However, the paying bank could protect itself from such losses through its agreement with the bank that sent the check to it electronically and may have rights under other law.

d. A drawer has agreed with its bank that the drawer will not receive paid checks with periodic account statements. The drawer requested a copy of a paid check in order to prove payment and received a photocopy of a substitute check. The photocopy that the bank provided in response to this request was illegible, such that the drawer could not prove payment. Any loss that the drawer suffered as a result of receiving the blurry check image would not trigger an indemnity claim because the loss was not caused by the receipt of a substitute check. The drawer may, however, still have a warranty claim if
be received a copy of a substitute check, and may also have rights under the U.C.C.

B. 229.53(b) Indemnity Amount

1. If a recipient of a substitute check is making an indemnity claim because a bank has breached one of the substitute check warranties, the recipient can recover any losses proximately caused by that warranty breach.

Examples.

a. A drawer discovers that its account has been charged for two different substitute checks that were provided to the drawer and that were associated with the same original check. As a result of this duplicative charge, the paying bank dishonored several subsequently-presented checks that it otherwise would have paid and charged the drawer returned check fees. The payees of the returned checks also charged the drawer returned check fees. The drawer would have a warranty claim against any of the warranting banks, including its bank, for breach of the warranty described in §229.52(a)(2). The drawer also could assert an indemnity claim. Because there is only one original check for any payment transaction, if the collecting and presenting bank had collected the original check instead of using a substitute check the bank would have been asked to make only one payment. The drawer could assert its warranty and indemnity claims against the paying bank, because that is the bank with which the drawer has a customer relationship and the drawer has received an indemnity from that bank. The drawer could recover from the indemnifying bank the amount of the erroneous charge, as well as the amount of the returned check fees charged by both the paying bank and the payees of the returned checks. If the drawer’s account were an interest-bearing account, the drawer also could recover any interest lost on the erroneously debited amount and the erroneous returned check fees. The drawer also could recover its expenditures for representation in connection with the claim. Finally, the drawer could recover any other losses that were proximately caused by the warranty breach.

b. In the example above, the paying bank that received the duplicate substitute checks also would have a warranty claim against the previous transferor(s) of those substitute checks and could seek an indemnity from that bank (or either of those banks). The indemnifying bank would be responsible for compensating the paying bank for all the losses proximately caused by the warranty breach, including representation expenses and other costs incurred by the paying bank in settling the drawer’s claim.

2. If the recipient of the substitute check does not have a substitute check warranty claim with respect to the substitute check, the amount of the loss the recipient may recover under §229.53 is limited to the amount of the substitute check, plus interest and expenses. However, the indemnified person might be entitled to additional damages under some other provision of law.

Examples.

a. A drawer received a substitute check that met all the legal equivalence requirements and for which the drawer was only charged once, but the drawer believed that the underlying original check was a forgery. If the drawer suffered a loss because it could not prove the forgery based on the substitute check, for example proving the forgery required analysis of pen pressure that could be determined only from the original check, the drawer would have an indemnity claim. However, the drawer would not have a substitute check warranty claim because the substitute check was the legal equivalent of the original check and no person was asked to pay the substitute check more than once. In that case, the amount of the drawer’s indemnity under §229.53 would be limited to the amount of the substitute check, plus interest and expenses. However, the drawer could attempt to recover additional losses, if any, under other law.

b. As described more fully in the commentary to §229.53(a) regarding the scope of the indemnity, a paying bank could have an indemnity claim if it paid a legally equivalent substitute check that was created from a fraudulent cashier’s check that the paying bank’s fraud detection procedures would have caught and that the bank would have returned by its midnight deadline had it received the original check. However, if the substitute check was not subject to a warranty claim (because it met the legal equivalence requirements and there was only one payment request) the paying bank’s indemnity would be limited to the amount of the substitute check, plus interest and expenses. The amount of an indemnity would be reduced in proportion to the amount of any amount loss attributable to the indemnified person’s negligence or bad faith. This comparative negligence standard is intended to allocate liability in the same manner as the comparative negligence provision of §229.38(c).

4. An indemnifying bank may limit the losses for which it is responsible under §229.53 by producing the original check or a sufficient copy. However, production of the original check or a sufficient copy does not absolve the indemnifying bank from liability claims relating to a warranty the bank has provided under §229.52 or any other law, including but not limited to subpart C of this part or the U.C.C.
Federal Reserve System

Pt. 229, App. E

C. 229.53(c) Subrogation of Rights

1. A bank that pays an indemnity claim is subrogated to the rights of the person it indemnified, to the extent of the indemnity it provided, so that it may attempt to recover that amount from another person based on an indemnity, warranty, or other claim. The person that the bank indemnified must comply with reasonable requests from the indemnifying bank for assistance with respect to the subrogated claim.

Example.

A paying bank indemnifies a drawer for a substitute check that the drawer alleged was a forgery that would have been detected had the original check instead been presented. The bank that provided the indemnity could pursue its own indemnity claim against the bank that presented the substitute check, could attempt to recover from the forger, or could pursue any claim that it might have under other law. The bank also could request from the drawer any information that the drawer might possess regarding the possible identity of the forger.

XXXIII. § 229.54 Expedited Recredit for Consumers

A. 229.54(a) Circumstances Giving Rise to a Claim

1. A consumer may make a claim for expedited recredit under this section only for a substitute check that he or she has received and for which the bank charged his or her deposit account. As a result, checks used to access loans, such as credit card checks or home equity line of credit checks, that are reconverted to substitute checks would not give rise to an expedited recredit claim, unless such a check was returned unpaid and the bank charged the consumer’s deposit account for the amount of the returned check. In addition, a consumer who received only a statement that contained images of multiple substitute checks per page but later received a substitute check, such as in response to a request for a copy of a check shown in the statement, could bring a claim if the other expedited recredit criteria were met. Although a consumer must at some point have received a substitute check to make an expedited recredit claim, the consumer need not be in possession of the substitute check at the time he or she submits the claim.

2. A consumer must in good faith assert that the bank improperly charged the consumer’s account for the substitute check or that the consumer has a warranty claim for the substitute check (or both). The warranty in question could be a substitute check warranty described in §229.52 or any other warranty that a bank provides with respect to a check under other law. A consumer could, for example, have a warranty claim under §229.54(b), which contains returned check warranties that are made to the owner of the check.

3. A consumer’s recovery under the expedited recredit section is limited to the amount of his or her loss, up to the amount of the substitute check subject to the claim, plus interest if the consumer’s account is an interest-bearing account. The consumer’s loss could include fees that resulted from the allegedly incorrect charge, such as bounced check fees that were imposed because the improper charge caused the bank to dishonor subsequently presented checks that it otherwise would have honored. A consumer who suffers a total loss greater than the amount of the substitute check plus interest could attempt to recover the remainder of that loss by bringing warranty, indemnity, or other claim under this subpart or other applicable law.

Examples.

a. A consumer who received a substitute check believed that he or she wrote the check for $150, but the bank charged his or her account for $1,500. The amount on the substitute check the consumer received is illegible. If the substitute check contained a blurry image of what was a legible original check, the consumer could have a claim for a breach of the legal equivalence warranty in addition to an improper charge claim. Because the amount of the check cannot be determined from the substitute check provided to the consumer, the consumer, if acting in good faith, could assert that the production of the original check or a better copy of the original check is necessary to determine the validity of the claim. The consumer in this case could attempt to recover his or her losses by using the expedited recredit procedure. The consumer’s losses recoverable under §229.54 could include the $1,350 he or she believed was incorrectly charged plus any improperly charged fees associated with that charge, up to $150 (plus foregone interest on the amount of the consumer’s loss if the account was an interest-bearing account). The consumer could recover any additional losses, if any, under other law, such as U.C.C. 4-401 and 4-402.

b. A consumer received a substitute check for which his or her account was charged and believed that the original check from which the substitute was derived was a forgery. The forgery was good enough that analysis of the original check was necessary to verify...
whether the signature is that of the consumer. Under those circumstances, the consumer, if acting in good faith, could assert that the charge was improper, that he or she therefore had incurred a loss in the amount of the check (plus foregone interest if the account was an interest-bearing account), and that he or she needed the original check to determine the validity of the forgery claim. By contrast, if the signature on the substitute check obviously was forged (for example, if the forger signed a name other than that of the account holder) and there was no other defect with the substitute check, the consumer would not need the original check or a sufficient copy to determine the fact of the forgery and thus would not be able to make an expedited recredit claim under this section. However, the consumer would have a claim under U.C.C. 4–401 if the item was not properly payable.

B. 229.54(b) Procedures for Making Claims

1. The consumer must submit his or her expedited recredit claim to the bank within 40 calendar days of the later of the day on which the bank mailed or delivered, by a means agreed to by the consumer, (1) the periodic account statement containing information concerning the transaction giving rise to the claim, or (2) the substitute check giving rise to the claim. The mailing or delivery of a substitute check could be in connection with a regular account statement, in response to a consumer’s specific request for a copy of a check, or in connection with the return of a substitute check to the payee.

2. Section 229.54(b) contemplates more than one possible means of delivering an account statement or a substitute check to the consumer. The time period for making a claim thus could be triggered by the mailed, in-person, or electronic delivery of an account statement or by the mailed or in-person delivery of a substitute check. In-person delivery would include, for example, making an account statement or substitute check available at the bank for the consumer’s retrieval under an arrangement agreed to by the consumer. In the case of a mailed statement or substitute check, the 40-day period should be calculated from the postmark on the envelope. In the case of in-person delivery, the 40-day period should be calculated from the earlier of the calendar day on which delivery occurred or the bank first made the statement or substitute check available for the consumer’s retrieval.

3. A bank must extend the consumer’s time for submitting a claim for a reasonable period if the consumer is prevented from submitting his or her claim within 40 days because of extenuating circumstances. Extenuating circumstances could include, for example, the extended travel or illness of the consumer.

4. For purposes of determining the timeliness of a consumer’s actions, a consumer’s claim is considered received on the banking day on which the consumer’s bank receives a complete claim in person or by telephone or on the banking day on which the consumer’s bank receives a letter or e-mail containing a complete claim. (See paragraphs 9–11 of this section for a discussion of time periods related to oral claims that the bank requires to be put in writing.)

5. A consumer who makes an untimely claim would not be entitled to recover his or her losses using the expedited recredit procedure. However, he or she still could have rights under other law, such as a warranty or indemnity claim under subpart D, a claim for an improper charge to his or her account under U.C.C. 4–401, or a claim for wrongful dishonor under U.C.C. 4–402.

6. A consumer’s claim must include the reason why the consumer believes that his or her account was charged improperly or why he or she has a warranty claim. A charge could be improper, for example, if the bank charged the consumer’s account for an amount different than the consumer believes he or she authorized or charged the consumer more than once for the same check, or if the check in question was a forgery or otherwise fraudulent.

7. A consumer also must provide a reason why production of the original check or a sufficient copy is necessary to determine the validity of the claim identified by the consumer. For example, if the consumer believed that the bank charged his or her account for the wrong amount, the original check might be necessary to prove this claim if the amount of the substitute check were illegible. Similarly, if the consumer believed that his or her signature had been forged, the original check might be necessary to confirm the forgery if, for example, pen pressure or similar analysis were necessary to determine the genuineness of the signature.

8. The information that the consumer is required to provide under §229.54(b)(2)(iv) to facilitate the bank’s investigation of the claim could include, for example, a copy of the allegedly defective substitute check or information related to that check, such as the number, amount, and payee.

9. A bank may accept an expedited recredit claim in any form but could in its discretion require the consumer to submit the claim in writing. A bank that requires a recredit claim to be in writing must inform the consumer of that requirement and provide a location to which such a written claim should be sent. If the consumer attempts to make a claim orally, the bank must inform the consumer at that time of the written notice requirement. A bank that receives a timely oral claim and then requires the consumer to submit the claim in writing may require the consumer to submit the written claim within
10 business days of the bank’s receipt of the timely oral claim. If the consumer’s oral claim was timely and the consumer’s written claim was received within the 10-day period for submitting the claim in writing, the consumer would satisfy the requirement of §229.54(b)(1) to submit his or her claim within 40 days, even if the bank received the written claim after that 40-day period.

8. A bank may permit but may not require a consumer to submit a written claim electronically.

9. If a bank requires a consumer to submit a claim in writing, the bank may compute time periods for the bank’s action on the claim from the date that the bank received the written claim. Thus, if a consumer called the bank to make an expedited recredit claim and the bank required the consumer to submit the claim in writing, the time at which the bank must take action on the claim would be determined based on the date on which the bank received the written claim, not the date on which the consumer made the oral claim.

10. Regardless of whether the consumer’s communication with the bank is oral or written, a consumer complaint that does not contain all the elements described in §229.54(b) is not a claim for purposes of §229.54. If the consumer attempts to submit a claim but does not provide all the required information, then the bank has a duty to inform the consumer that the complaint does not constitute a claim under §229.54 and identify what information is missing.

C. 229.54(c) Action on Claims

1. If the bank has not determined whether or not the consumer’s claim is valid by the end of the 10th business day after the banking day on which the consumer submitted the claim, the bank must by that time recredit the consumer’s account for the amount of the consumer’s loss, up to the lesser of the amount of the substitute check or $2,500, plus interest if the account is an interest-bearing account. A bank must provide the recredit pending investigation for each substitute check for which the consumer submitted a claim, even if the consumer submitted multiple substitute check claims in the same communication.

2. A bank that provides a recredit to the consumer, either provisionally or after determining that the consumer’s claim is valid, may reverse the amount of the recredit if the bank later determines that the claim was not valid. A bank that reverses a recredit also may reverse the amount of any interest that it has paid on the previously recredited amount. A bank’s time for reversing a recredit may be limited by a statute of limitations.

D. 229.54(d) Availability of Recredit

1. The availability of a recredit provided by a bank under §229.54(c) is governed solely by §229.54(d) and therefore is not subject to the availability provisions of subpart B. A bank generally must make a recredit available for withdrawal no later than the 10th business day after the banking day on which the bank provided the recredit. However, a bank may delay the availability of up to the first $2,500 that it provisionally recredits to a consumer account under §229.54(c)(3)(i) if (1) the account is a new account, (2) without regard to the substitute check giving rise to the recredit claim, the account has been repeatedly overdrawn during the six-month period ending on the date the bank received the claim, or (3) the bank has reasonable cause to believe that the claim is fraudulent. These first two exceptions are meant to operate in the same manner as the corresponding new account and repeated overdraft exceptions in subpart B, as described in §229.13(a) and (d) and the commentary therefor regarding application of the exceptions. When a recredit amount for which a bank delays availability contains an interest component, that component also is subject to the delay because it is part of the amount recredited under §229.54(c)(3)(i). However, interest continues to accrue during the hold period.

2. Section 229.54(d)(2) describes the maximum period of time that a bank may delay availability of a recredit provided under §229.54(c). The bank may delay availability under one of the three listed exceptions until the business day after the banking day on which the bank determines that the consumer’s claim is valid or the 45th calendar day after the banking day on which the bank received the consumer’s claim, whichever is earlier. The only portion of the recredit that is subject to delay under §229.54(d)(2) is the amount that the bank recredits under §229.54(c)(3)(i) (including the interest component, if any) pending its investigation of a claim.

E. 229.54(e) Notices Relating to Consumer Expedited Recredit Claims

1. A bank must notify a consumer of its action regarding a recredit claim no later than the business day after the banking day that the bank makes a recredit, determines a claim is not valid, or reverses a recredit, as appropriate. As provided in §229.56, a bank may provide any notice required by this section by U.S. mail or by any other means through which the consumer has agreed to receive account information.

2. A bank that denies the consumer’s recredit claim must demonstrate to the consumer that the substitute check was properly charged or that the warranty claim was not valid, such as by explaining the reason...
Pt. 229, App. E

that the substitute check charge was proper or the consumer’s warranty claim was not valid. For example, if a consumer has claimed that the bank charged its account for an improper amount, the bank denying that claim must explain why it determined that the charged amount was proper.

3. A bank denying a recredit claim also must provide the original check or a sufficient copy of the substitute check in question.

4. A bank that relies on information or documents in addition to the original check or sufficient copy when denying a consumer expedited recredit claim also must either provide such information or documents to the consumer or inform the consumer that he or she may request copies of such information or documents. This requirement does not apply to a bank that relies only on the original check or a sufficient copy to make its determination.

5. Models C–22 through C–25 in appendix C contain model language for each of three notices described in §229.54(e). A bank may, but is not required to, use the language listed in the appendix. The Check 21 Act does not provide banks that use these models with a safe harbor. However, the Board has published these models to aid banks’ efforts to comply with §229.54(e).

F. 229.54(f) Recredit Does Not Abrogate Other Liabilities

1. The amount that a consumer may recover under §229.54 is limited to the lesser of the amount of his or her loss or the amount of the substitute check, plus interest on that amount if his or her account earns interest. However, a consumer’s total loss associated with the substitute check could exceed that amount, and the consumer could be entitled to additional damages under other law. For example, if a consumer’s loss exceeded the amount of the substitute check plus interest and he or she had both a warranty and an indemnity claim with respect to the substitute check, he or she would be entitled to additional damages under §229.53 of this subpart. Similarly, if a consumer was charged bounced check fees as a result of an improperly charged substitute check and could not recover all of those fees because of the §229.54’s limitation on recovery, he or she could attempt to recover additional amounts under U.C.C. 4–462.

XXXIV. §229.55 Expedited Recredit Procedures for Banks

A. 229.55(a) Circumstances Giving Rise to a Claim

1. This section allows a bank to make an expedited recredit claim under two sets of circumstances: first, because it is obligated to provide a recredit, either to the consumer or to another bank that is obligated to provide a recredit in connection with the consumer’s claim; and second, because the bank detected a problem with the substitute check that, if uncaught, could have given rise to a consumer claim.

2. The loss giving rise to an interbank recredit claim could be the recredit that the claimant bank provided directly to its consumer customer under §229.54 or a loss incurred because the claimant bank was required to indemnify another bank that provided an expedited recredit to either a consumer or a bank.

Examples.

a. A paying bank charged a consumer’s account based on a substitute check that contained a blurry image of a legible original check, and the consumer whose account was charged made an expedited recredit claim against the paying bank because the consumer suffered a loss and needed the original check or a sufficient copy to determine the validity of his or her claim. The paying bank would have a warranty claim against the presenting bank that transferred the defective substitute check to it and against any previous transferring bank(s) that handled that substitute check or another paper or electronic representation of the check. The paying bank therefore would meet each of the requirements necessary to bring an interbank expedited recredit claim.

b. Continuing with the example in paragraph a, if the presenting bank determined that the paying bank’s claim was valid and provided a recredit, the presenting bank would have suffered a loss in the amount of the recredit it provided and could, in turn, make an expedited recredit claim against the bank that transferred the defective substitute check to it.

B. 229.55(b) Procedures for Making Claims

1. An interbank recredit claim under this section must be brought within 120 calendar days of the transaction giving rise to the claim. For purposes of computing this period, the transaction giving rise to the claim is the claimant bank’s settlement for the substitute check in question.

2. When estimating the amount of its loss, §229.55(b)(2)(ii) states that the claimant bank should include “interest if applicable.” The quoted phrase refers to any interest that the claimant bank or a bank that the claimant

762
bank indemnified paid to a consumer who has an interest-bearing account in connection with an expedited recredit under §229.54.

3. The information that the claimant bank is required to provide under §229.55(b)(2)(iv) to facilitate investigation of the claim could include, for example, a copy of any written claim that a consumer submitted under §229.54 or any written record the bank may have of a claim the consumer submitted orally. The information also could include a copy of the defective substitute check or information relating to that check, such as the number, amount, and payee of the check. However, a claimant bank that provides a copy of the substitute check must take reasonable steps to ensure that the copy is not mistaken for a legal equivalent of the original check or handled for forward collection or return.

4. The indemnifying bank’s right to require a claimant bank to submit a claim in writing and the computation of time from the date of the written submission parallel the corresponding provision in the consumer recredit section (§229.54(b)(3)). However, the indemnifying bank also may require the claimant bank to submit a copy of the written or electronic claim submitted by the consumer under that section, if any.

C. 229.55(c) Action on Claims

1. An indemnifying bank that responds to an interbank expedited recredit claim by providing the original check or a sufficient copy of the original check need not demonstrate why that claim or the underlying consumer expedited recredit claim is or is not valid.

XXXV. §229.56 Liability

A. 229.56(a) Measure of Damages

1. In general, a person’s recovery under this section is limited to the amount of the loss up to the amount of the substitute check that is the subject of the claim, plus interest and expenses (including costs and reasonable attorney’s fees and other expenses of representation) related to that substitute check. However, a person that is entitled to an indemnity under §229.53 because of a breach of a substitute check warranty also may recover under §229.53 any losses proximately caused by the warranty breach, including interest, costs, wrongfully-charged fees imposed as a result of the warranty breach, reasonable attorney’s fees, and other expenses of representation.

2. A reconverting bank also may be liable under §229.38 for damages associated with the illegibility of indorsements applied to substitute checks if that illegibility results because the reduction of the original check image and its placement on the substitute check shifted a previously-applied indorsement that, when applied, complied with appendix D. For more detailed discussion of this topic, see §229.38 and the accompanying commentary.

B. 229.56(b) Timeliness of Action

1. A bank’s delay beyond the time limits prescribed or permitted by any provision of subpart D is excused if the delay is caused by certain circumstances beyond the bank’s control. This parallels the standard of U.C.C. 4-109(b).

C. 229.56(c) Jurisdiction

1. The Check 21 Act confers subject matter jurisdiction on courts of competent jurisdiction and provides a time limit for civil actions for violations of subpart D.

D. 229.56(d) Notice of Claims

1. This paragraph is designed to adopt the notice of claim provisions of U.C.C. 4–207(d) and 4–208(e), with an added provision that a timely §229.54 expedited recredit claim satisfies the generally-applicable notice requirement. The time limit described in this paragraph applies only to notices of warranty and indemnity claims. As provided in §229.56(c), all actions under §229.56 must be brought within one year of the date that the cause of action accrues.

XXXVI. Consumer Awareness

A. 229.57(a) General Disclosure Requirement and Content

1. A bank must provide the disclosure required by §229.57 under two circumstances. First, each bank must provide the disclosure to each of its consumer customers who receives paid checks with his or her account statement. This requirement does not apply if the bank provides with the account statement something other than paid original checks, paid substitute checks, or a combination thereof. For example, this requirement would not apply if a bank provided with the account statement only a document that contained multiple check images per page. Second, a bank also must provide the disclosure when it (a) provides a substitute check to a consumer in response to that consumer’s request for a check or check copy or (b) returns a substitute check to a consumer depositor. A bank must provide the disclosure each time it provides a substitute check to a consumer on an occasional basis, regardless of whether the bank previously provided the disclosure to that consumer.

2. A bank may, but is not required to, use the model disclosure in appendix C–5A to satisfy the disclosure content requirements of this section. A bank that uses the model language is deemed to comply with the disclosure content requirement(s) for which it uses the model language, provided the information in the disclosure accurately describes
the bank’s policies and practices. A bank also may include in its disclosure additional information relating to substitute checks that is not required by this section.

3. A bank may, by agreement or at the consumer’s request, provide the disclosure required by this section in a language other than English, provided that the bank makes a complete English notice available at the consumer’s request.

B. 229.57(b) Distribution

1. A consumer may request a check or a copy of a check on an occasional basis, such as to prove that he or she made a particular payment. A bank that responds to the consumer’s request by providing a substitute check must provide the required disclosure at the time of the consumer’s request if feasible. Otherwise, the bank must provide the disclosure no later than the time at which the bank provides a substitute check in response to the consumer’s request. It would not be feasible for a bank to provide notice to the consumer at the time of the request if, for example, the bank did not know at the time of the request whether it would provide a substitute check in response to that request, regardless of the form of the consumer’s request. It also would not be feasible for a bank to provide notice at the time of the request if the consumer’s request was mailed to the bank or made by telephone, even if the bank knew when it received the request that it would provide a substitute check in response. A bank’s provision to the consumer of something other a substitute check, such as a photocopy of a check or a statement containing images of multiple substitute checks per page, does not trigger the notice requirement.

2. A consumer who does not routinely receive paid checks might receive a returned substitute check. For example, a consumer deposits an original check that is payable to him or her into his or her deposit account. The paying bank returns the check unpaid and the depositary bank returns the check to the depositor in the form of a substitute check. A depositary bank that provides a returned substitute check to a consumer depositor must provide the substitute check disclosure at that time.

XXXVII. Variation by Agreement

Section 229.60 provides that banks involved in an interbank expedited recredit claim under §229.55 may vary the terms of that section by agreement, but otherwise no person may vary the terms of subpart D by agreement. A bank’s decision to provide more generous protections for consumers than this subpart requires, such as by providing consumers additional time to submit expedited claims under §229.54 under non-exigent circumstances, would not be a variation prohibited by §229.60.

XXXVIII. Appendix C—Model Availability Policy Disclosures, Clauses, and Notices; and Model Substitute Check Policy Disclosure and Notices

A. Introduction

1. Appendix C contains model disclosure, clauses, and notices that may be used by banks to meet their disclosure and notice responsibilities under the regulation. Banks using the models (except models C–22 through C–25) properly will be deemed in compliance with the regulation’s disclosure requirements.

2. Information that must be inserted by a bank using the models is italicized within parentheses in the text of the models. Optional information is enclosed in brackets.

3. Banks may make certain changes to the format or content of the models, including deleting material that is inapplicable, without losing the EFA Act’s protection from liability for banks that use the models properly. For example, if a bank does not have a cut-off hour prior to it’s closing time, or if a bank does not take advantage of the §229.13 exceptions, it may delete the references to those provisions. Changes to the models may not be so extensive as to affect the substance, clarity, or meaningful sequence of the models. Acceptable changes include, for example:

   a. Using “customer” and “bank” instead of pronouns.
   b. Changing the typeface or size.
   c. Incorporating certain state law “plain English” requirements.

4. Shorter time periods for availability may always be substituted for time periods used in the models.

5. Banks may also add related information. For example, a bank may indicate that although funds have been made available to a customer and the customer has withdrawn them, the customer is still responsible for problems with the deposit, such as checks that were deposited being returned unpaid. Or a bank could include a telephone number to be used if a customer has an inquiry regarding a deposit.

6. Banks are cautioned against using the models without reviewing their own policies and practices, as well as state and federal laws regarding the time periods for availability of specific types of checks. A bank using the models will be in compliance with the EFA Act and the regulation only if the bank’s disclosures correspond to its availability policy.

7. Banks that have used earlier versions of the models (such as those models that gave Social Security benefits and payroll payments as examples of preauthorized credits available the day after deposit, or that did
not address the cash withdrawal limitation) are protected from civil liability under §229.21(e). Banks are encouraged, however, to use current versions of the models when ordering or reprinting supplies.

B. Model Availability Policy and Substitute Check Policy Disclosures, Models C–1 through C–5A

1. Models C–1 through C–5 generally.
   a. Models C–1 through C–5A are models for the availability policy disclosures described in §229.16 and substitute check policy disclosure described in §229.57. The models accommodate a variety of availability policies, ranging from next-day availability to holds to statutory limits on all deposits. Model C–3 reflects the additional disclosures discussed in §§229.16 (b) and (c) for banks that have a policy of extending availability times on a case-by-case basis.
   b. As already noted, there are several places in the models where information must be inserted. This information includes the bank’s cut-off times, limitations relating to next-day availability, and the first four digits of routing numbers for local banks. In disclosing when funds will be available for withdrawal, the bank must insert the ordinal number of the business day after deposit that the funds will become available.
   c. Models C–1 through C–5A generally do not reflect any optional provisions of the regulation, or those that apply only to certain banks. Instead, disclosures for these provisions are included in Models C–6 through C–11A. A bank using one of the model availability policy disclosures should also consider whether it must incorporate one or more of Models C–6 through C–11A.
   d. While §229.16(b) requires next-day availability for electronic payments, Treasury regulations (31 CFR part 210) and ACH association rules require that preauthorized credits (“direct deposits”) be made available on the day the bank receives the funds. Models C–1 through C–5 reflect these rules. Wire transfers, however, are not governed by Treasury or ACH rules, but banks generally make funds from wire transfers available on the day received or on the business day following receipt. Banks should ensure that their disclosures reflect the availability given in most cases for wire transfers.

2. Model C–1 Next-day availability. A bank may use this model when its policy is to make funds from all deposits available the day after a deposit is made. This model may also be used by banks that provide immediate availability by substituting the word “immediately” in place of “on the first business day after the day we receive your deposit.”

3. Model C–2 Next-day availability and §229.13 exceptions. A bank may use this model when its policy is to make funds from all deposits available to its customers on the first business day after the deposit is made, and to reserve the right to invoke the new account and other exceptions in §229.13. In disclosing that a longer delay may apply, a bank may disclose when funds will generally be available based on when the funds would be available if the deposit were of a nonlocal check.

4. Model C–3 Next-day availability, case-by-case holds to statutory limits, and §229.13 exceptions. A bank may use this model when its policy, in most cases, is to make funds from all types of deposits available the day after the deposit is made, but to delay availability on some deposits on a case-by-case basis up to the maximum time periods allowed under the regulation. A bank using this model also reserves the right to invoke the exceptions listed in §229.13. In disclosing that a longer delay may apply, a bank may disclose when funds will generally be available based on when the funds would be available if the deposit were of a nonlocal check.

5. Model C–4 Holds to statutory limits on all deposits. A bank may use this model when its policy is to impose delays to the full extent allowed under §229.12 and to reserve the right to invoke the §229.13 exceptions. In disclosing that a longer delay may apply, a bank may disclose when funds will generally be available based on when the funds would be available if the deposit were of a nonlocal check. Model C–4 uses a chart to show the bank’s availability policy for local and nonlocal checks and Model C–5 uses a narrative description.

6. Model C–5 Holds to statutory limits on all deposits. A bank may use this model when its policy is to impose delays to the full extent allowed under §229.12 and to reserve the right to invoke the §229.13 exceptions. In disclosing that a longer delay may apply, a bank may disclose when funds will generally be available based on when the funds would be available if the deposit were of a nonlocal check.

7. Model C–5A A bank may use this form when it is providing the disclosure to its customers required by §229.57 explaining that a substitute check is the legal equivalent of an original check and the circumstances under which the consumer may make a claim for expedited recredit.

C. Model Clauses, Models C–6 Through C–11A

1. Models C–6 through C–11A generally. Certain clauses like those in the models must be incorporated into a bank’s availability policy disclosure under certain circumstances. The commentary to each clause indicates when a clause similar to the model clause is required.

2. Model C–6 Holds on other funds (check cashing). A bank that reserves the right to place a hold on funds already on deposit
when it cashes a check for a customer, as addressed in §229.19(e), must incorporate this type of clause in its availability policy disclosure.

3. Model C–7 Holds on other funds (other account). A bank that reserves the right to place a hold on funds in an account of the customer other than the account into which the deposit is made, as addressed in §229.19(e), must incorporate this type of clause in its availability policy disclosure.

4. Model C–8 Appendix B availability (nonlocal checks). A bank in a check processing region where the availability schedules for certain nonlocal checks have been reduced, as described in appendix B of Regulations, must incorporate this type of clause in its availability policy disclosure. Banks using Model C–5 may insert this clause at the conclusion of the discussion titled “Nonlocal checks.”

5. Model C–9 Automated teller machine deposits (extended holds). A bank that reserves the right to delay availability of deposits at nonproprietary ATMs until the fifth business day following the date of deposit, as permitted by §229.12(f), must incorporate this type of clause in its availability policy disclosure. A bank must choose among the alternative language based on how it chooses to differentiate between proprietary and nonproprietary ATMs, as required under §229.16(b)(5).

6. Model C–10 Cash withdrawal limitation. A bank that imposes cash withdrawal limitations under §229.12 must incorporate this type of clause in its availability policy disclosure. Banks reserving the right to impose the cash withdrawal limitation and using Model C–3 should disclose that funds may not be available until the sixth (rather than fifth) business day in the first paragraph under the heading “Longer Delays May Apply.”

7. Model C–11 Credit union interest payment policy. A credit union subject to the notice requirement of §229.14(b)(2) must incorporate this type of clause in its availability policy disclosure. This model clause is only an example of a hypothetical policy. Credit unions may follow any policy for accrual provided the method of accruing interest is the same for cash and check deposits.

8. Model C–11A Availability of funds deposited at other locations. A clause similar to Model C–11A should be used if a bank bases the availability of funds on the location where the funds are deposited (for example, at a contractual or other branch located in a different check processing region). Similarly, a clause similar to Model C–11A should be used if a bank distinguishes between local and non-local checks (for example, a bank using model availability policy disclosure C–4 or C–6), and accepts deposits in more than one check processing region.

D. Model Notices, Models C–12 through C–25 generally. Models C–12 through C–25 provide models of the various notices required by the regulation. A bank that cashes a check and places a hold on funds in an account of the customer (see §229.19(e)) should modify the model hold notice accordingly. For example, the bank could replace the word “deposited” with the word “transaction” and could add the phrase “or cashed” after the word “deposited.”

2. Model C–12 Exception hold notice. This model satisfies the written notice required under §229.13(g) when a bank places a hold based on a §229.13 exception. If a hold is being placed on more than one check in a deposit, each check need not be described, but if different reasons apply, each reason must be indicated. A bank may use the actual date when funds will be available for withdrawal rather than the number of the business day following the day of deposit. A bank must incorporate in the notice the material set out in brackets if it imposes overdraft or returned check fees after invoking the reasonable cause exception under §229.13(e).

3. Model C–13 Reasonable cause hold notice. This notice satisfies the written notice required under §229.13(g) when a bank invokes the reasonable cause exception under §229.13(e). The notice provides the bank with a list of specific reasons that may be given for invoking the exception. If a hold is being placed on more than one check in a deposit, each check must be described separately, and if different reasons apply, each reason must be indicated. A bank may disclose its reason for doubting collectibility by checking the appropriate reason on the model. If the “Other” category is checked, the reason must be given. A bank may use the actual date when funds will be available for withdrawal rather than the number of the business day following the day of deposit. A bank must incorporate in the notice the material set out in brackets if it imposes overdraft or returned check fees after invoking the reasonable cause exception under §229.13(e).

4. Model C–14 One-time notice for large deposit and redeposited check exception holds. This model satisfies the notice requirements of §229.13(g)(2) concerning nonconsumer accounts.

5. Model C–15 One-time notice for repeated overdraft exception hold. This model satisfies the notice requirements of §229.13(g)(2).

6. Model C–16 Case-by-case hold notice. This model satisfies the notice required under §229.16(c)(2) when a bank with a case-by-case hold policy imposes a hold on a deposit. This notice does not require a statement of the specific reason for the hold, as is the case when a §229.13 exception hold is placed. A bank may specify the actual date when funds will be available for withdrawal rather than the number of the business day following the
day of deposit when funds will be available. A bank must incorporate in the notice the material set out in brackets if it imposes overdraft fees after invoking a case-by-case hold.

7. Model C–17 Notice at locations where employees accept consumer deposits and Model C–18 Notice at locations where employees accept consumer deposits (case-by-case holds). These models satisfy the ATM notice requirement of §229.18(b). Model C–17 reflects an availability policy of holds to statutory limits on all deposits, and Model C–18 reflects a case-by-case availability policy.

8. Model C–19 Notice at automated teller machines. This model satisfies the ATM notice requirement of §229.18(c)(1).

9. Model C–20 Notice at automated teller machines (delayed receipt). This model satisfies the ATM notice requirement of §229.18(c)(2) when receipt of deposits at off-premises ATMs is delayed under §229.19(a)(4). It is based on collection of deposits once a week. If collections occur more or less frequently, the description of when deposits are received must be adjusted accordingly.

10. Model C–21 Deposit slip notice. This model satisfies the notice requirements of §229.18(a) for deposit slips.

11. Models C–22 through C–25 generally. Models C–22 through C–25 provide models for the various notices required when a consumer who receives substitute checks makes an expedited recredit claim under §229.54 for a loss related to a substitute check. The Check 21 Act does not provide banks that use these models with a safe harbor. However, the Board has published these models to aid banks’ efforts to comply with §229.54(e).

12. Model C–22 Valid Claim Refund Notice. A bank may use this model when crediting the entire amount or the remaining amount of a consumer’s expedited recredit claim after determining that the consumer’s claim is valid. This notice could be used when the bank provides the consumer a full recredit based on a valid claim determination within ten days of the receipt of the consumer’s claim or when the bank credits the remaining amount of a consumer’s expedited recredit claim by the 45th calendar day after receiving the consumer’s claim, as required under §229.54(e)(1).

13. Model C–23 Provisional Refund Notice. A bank may use this model when providing a full or partial expedited recredit to a consumer pending further investigation of the consumer’s claim, as required under §229.54(e)(1).

14. Model C–24 Denial Notice. A bank may use this model when denying a claim for an expedited recredit under §229.54(e)(2).

15. Model C–25 Reversal Notice. A bank may use this model when reversing an expedited recredit that was credited to a customer’s account under §229.54(e)(3).

APPENDIX F TO PART 229—OFFICIAL BOARD INTERPRETATIONS; PREEMPTION DETERMINATIONS

Uniform Commercial Code, Section 4–213(5)

Section 4–213(5) of the Uniform Commercial Code ("U.C.C.") provides that money deposited in a bank is available for withdrawal as of right at the opening of business of the banking day after deposit. Although the language "deposited in a bank" is unclear, arguably it is broader than the language "made in person to an employee of the depositary bank", which conditions the next-day availability of cash under Regulation CC (§229.10(a)(1)). Under Regulation CC, deposits of cash that are not made in person to an employee of the depositary bank must be made available by the second business day after the banking day of deposit (§229.10(a)(2)). Therefore, this provision of the U.C.C. may call for the availability of certain cash deposits in a shorter time than provided in Regulation CC.

This provision of the U.C.C., however, is subject to Section 4–103(1), which provides, in part, that "the effect of the provisions of this Article may be varied by agreement * * *"). (The Regulation CC funds availability requirements may not be varied by agreement.) U.C.C. Section 4–213(5) supersedes the Regulation CC provision in §229.10(a)(2), but a depositary bank may not agree with its customer under section 4–103(1) of the Code to extend availability beyond the time periods provided in §229.10(a) of Regulation CC.

California

Background

The Board has been requested, in accordance with §229.20(d) of Regulation CC (12 CFR part 229), to determine whether the Expedited Funds Availability Act (the "Act") and subpart B (and in connection therewith, subpart A) of Regulation CC preempt the provisions of California law concerning availability of funds. This preemption determination specifies those provisions of the California funds availability law that supersede the Act and Regulation CC. (See also the Board’s preemption determination regarding the Uniform Commercial Code, section 4–213(5), pertaining to availability of cash deposits.) California has four separate sets of regulations establishing maximum availability...
schedules. The regulations applicable to commercial banks and branches of foreign banks located in California (Cal. Admin. Code tit. 10, §§10.190461–10.190462) were promulgated by the Superintendent of Banks. The regulations applicable to savings banks and savings and loan associations (Cal. Admin. Code tit. 10, §§106.200–106.202) were adopted by the Savings and Loan Commissioner. The regulations applicable to credit unions (Cal. Admin. Code tit. 10, section 901) and to industrial loan companies (Cal. Admin. Code tit. 10, section 1101) were adopted by the Commissioner of Corporations.

All the regulations were adopted pursuant to California Commercial Code section 2112(d), under which the appropriate state regulatory agency for each depository institution must issue administrative regulations to define a reasonable time for permitting customers to draw on items received for deposit in the customer’s account. California Financial Code section 867 also establishes availability periods for funds deposited by cashier’s check, certified check, teller’s check, or depository check under certain circumstances. Finally, California Financial Code section 866.2 establishes disclosure requirements.

The Board’s determination with respect to these California laws and regulations governing the funds availability requirements applicable to depository institutions in California are as follows.

Commercial Banks and Branches of Foreign Banks

Coverage

The California State Banking Department regulations, which apply to California state commercial banks, California national banks, and California branch offices of foreign banks, provide that a depository bank shall make funds deposited into a deposit account available for withdrawal as provided in Regulation CC with certain exceptions. The funds availability schedules in Regulation CC apply only to accounts as defined in Regulation CC, which generally consist of transaction accounts. The California funds availability law and regulations apply to accounts as defined by Regulation CC as well as savings accounts (other than time accounts), as defined in the Board’s Regulation D (12 CFR 204.2(d)). (Note, however, that under §229.19(e) of Regulation CC, Holds on other funds, the federal availability schedules may apply to savings, time, and other accounts not defined as accounts under Regulation CC in certain circumstances.)

Availability Schedules

Temporary schedule. Regulation CC provides that, until September 1, 1990, nonlocal checks must be made available for withdrawal by the seventh business day after the banking day of deposit, except for certain nonlocal checks listed in appendix B-1, which must be made available within a shorter time (by the fifth business day following deposit for those California checks listed). Under the temporary schedule in the California regulations, a depositary bank with a four-digit routing symbol of 1210 (“1210 bank”) or of 1220 (“1220 bank”) that receives for deposit a check drawn on a nonlocal, in-state commercial bank or foreign bank branch must make the funds available for withdrawal before the fifth business day after deposit. In addition, California law provides that all other depositary banks must make deposited checks drawn on a nonlocal in-state commercial bank or foreign bank branch available by the fifth business day after deposit. To the extent that these schedules provide for shorter holds than Regulation CC and its appendix B-1, the state schedules supersede the federal schedules. For example, the California four-day schedule that applies to checks drawn on in-state nonlocal commercial banks or foreign bank branches and deposited in a 1210 or 1220 bank would be shorter than and would supersede the federal schedules.

The California regulation uses the term paying bank when describing the institution on which these checks are drawn, but does not define paying bank or bank. Regulation CC’s definitions of paying bank and bank include savings institutions and credit unions as well as commercial banks and branches of foreign banks. However, because the California regulation makes separate provisions for checks drawn on savings institutions and credit unions, the Board concludes that the term paying bank, as used in the California regulation, includes only commercial banks and foreign bank branches.
Federal Reserve System

The California regulations do not specify whether the state schedules apply to deposits of checks at nonproprietary ATMs. Under the temporary schedules in Regulation CC, deposits at nonproprietary ATMs must be made available for withdrawal by the seventh business day following deposit. To the extent that the California schedules provide for shorter availability for deposits at nonproprietary ATMs, they would supersede the temporary schedule in Regulation CC for deposits at nonproprietary ATMs specified in §229.11(d).

Permanent schedule. Regulation CC provides that, as of September 1, 1990, nonlocal checks must be made available for withdrawal by the fifth business day after the banking day of deposit. Under the permanent schedule in the California regulations, a depositary bank with a four-digit routing symbol of 1210 or of 1220 that receives for deposit a check drawn on a nonlocal, in-state commercial bank or foreign bank branch must make the funds available for withdrawal by the fourth business day after the day of deposit. These state schedules provide for shorter hold periods than and thus supersede the federal schedules.

Second-day availability. Section 867 of the California Financial Code requires depository institutions to make funds deposited by cashier’s check, teller’s check, certified check, or depository check available for withdrawal on the second business day following deposit, if certain conditions are met. The Regulation CC next-day availability requirement for cashier’s checks and teller’s checks applies only to those checks issued to a customer of the bank or acquired from the bank for remittance purposes. To the extent that the state second-day availability requirement applies to cashier’s and teller’s checks issued to a non-customer of the bank for other than remittance purposes, the state two-day requirement supersedes the federal local and nonlocal schedules.

Availability at start of day. The California regulations do not specify when during the day funds must be made available for withdrawal. Section 229.19(b) of Regulation CC provides that funds must be made available at the start of the business day. In those cases where federal and state law provide for holds for the same number of days, to the extent that the California regulations allow funds to be made available later in the day than does Regulation CC, the federal law would preempt state law.

Exceptions to the availability schedules. Under the state preemption standards of Regulation CC (see §229.20(c) and accompanying Commentary), for deposits subject to the state availability schedules, a state exception may be used to extend the state availability schedule up to the federal availability schedule. Once the deposit is held up to the federal availability schedule limit under a state exception, the depositary bank may further extend the hold under any federal exception that can be applied to the deposit. If no state exceptions exist, then no exceptions holds may be placed on deposits covered by state schedules. Thus, to the extent that California law provides for exceptions to the California schedules that supersede Regulation CC, those exceptions may be applied in order to extend the state availability schedules up to the federal availability schedules or such later time as is permitted by a federal exception.

Disclosures

California law (Cal. Fin. Code §866.2) requires depository institutions to provide written disclosures of their general availability policies to potential customers prior to opening any deposit account. The law also requires that preprinted deposit slips and ATM deposit envelopes contain a conspicuous summary of the general policy. Finally, the law requires depository institutions to provide specific notice of the time the customer may withdraw funds deposited by check or similar instrument into a deposit account if the funds are not available for immediate withdrawal.

Section 229.20(c) of Regulation CC provides that inconsistency may exist when a state law provides for disclosures or notices concerning funds availability relating to accounts. California Financial Code §866.2 requires disclosures that differ from those required by Regulation CC and, therefore, is preempted to the extent that it applies to accounts as defined in Regulation CC. The state law continues to apply to savings accounts and other accounts not governed by Regulation CC disclosure requirements.

Savings Institutions Coverage

The California Department of Savings and Loan regulations, which apply to California savings and loan associations and California savings banks, provide that a depositary bank shall make funds deposited into a transaction or non-transaction account available for withdrawal as provided in Regulation CC. The funds availability schedules in Regulation CC apply only to accounts as defined in Regulation CC, which generally consist of transaction accounts. The California funds availability law and regulations apply to accounts as defined by Regulation CC as well as savings accounts as defined in the Board’s Regulation D (12 CFR 204.2(d)). (Note, however, that under §229.19(e) of Regulation CC, Holds on other funds, the federal availability schedules may apply to savings, time, and other accounts not defined as accounts under Regulation CC in certain circumstances.)
Availability Schedules

Second-day availability, Section 867 of the California Financial Code requires depository institutions to make funds deposited by cashier’s check, teller’s check, certified check, or depository check available for withdrawal on the second business day following deposit, if certain conditions are met. The Regulation CC next-day availability requirement for cashier’s and teller’s checks applies only to those checks issued to a customer of the bank or acquired from the bank for remittance purposes. To the extent that the state second-day availability requirement applies to cashier’s and teller’s checks issued to a non-customer of the bank for other than remittance purposes, the state two-day requirement supersedes the federal local and nonlocal schedules.

Temporary and permanent schedules. Other than the provisions of Section 867 discussed above, California law incorporates the Regulation CC availability requirements with respect to deposits to accounts covered by Regulation CC. Because the state requirements are consistent with the federal requirements, the California regulation is not preempted by, nor does it supersede, the federal law.

Disclosures

California law (Cal. Fin. Code §866.2) requires depository institutions to provide written disclosures of their general availability policies to potential customers prior to opening any deposit account. The law also requires that preprinted deposit slips and ATM deposit envelopes contain a conspicuous summary of the general policy. Finally, the law requires depository institutions to provide specific notice of the time the customer may withdraw funds deposited by check or similar instrument into a deposit account if the funds are not available for immediate withdrawal. Section 229.20(e)(2) of Regulation CC provides that in the event a state law provides for disclosures or notices concerning funds availability relating to accounts. To the extent that California Financial Code §866.2 requires disclosures that differ from those required by Regulation CC and apply to accounts as defined in Regulation CC (generally, transaction accounts), the California law is preempted by Regulation CC.

The Department of Savings and Loan regulations provide that for those non-transaction accounts covered by state law but not by federal law, disclosures in accordance with Regulation CC will be deemed to comply with the state law disclosure requirements. To the extent that the Department of Savings and Loan regulations permit reliance on Regulation CC disclosures for transaction accounts and to the extent the state regulations survive the preemption of California Financial Code §866.2, they are not preempted by, nor do they supersede, the federal law. The state law continues to apply to savings accounts and other non-transaction accounts not governed by Regulation CC disclosure requirements.

Credit Unions and Industrial Loan Companies

Each credit union and federally-insured industrial loan company that maintains an office in California for the acceptance of deposits must make funds deposited by check available for withdrawal in accordance with the following table:

<table>
<thead>
<tr>
<th>Availability</th>
<th>Credit Union</th>
<th>Industrial Loan Company</th>
</tr>

<tr>
<td>out-of-state checks</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

NOTE: These time periods are stated in terms of availability for withdrawal not later than the Xth business day following the banking day of deposit to facilitate comparison with Regulation CC. State regulations are stated in terms of availability at the start of the business day subsequent to the number of days specified in the regulation.

Coverage

The California law and regulations govern the availability of funds to “demand deposits, negotiable order of withdrawal draft accounts, savings deposits subject to automatic transfers, share draft accounts, and all savings deposits and share accounts, other than time deposits.” (California Financial Code section 866.5) The federal preemption of state funds availability laws only applies to accounts subject to Regulation CC, which generally includes transaction accounts. Thus, the California laws apply to savings and other accounts (such as accounts in which the account-holder is another bank) that are no accounts under Regulation CC.

(Note, however, that under §229.19(e) of Regulation CC, Holds on other funds, the federal availability schedules may apply to savings, time, and other accounts not defined as accounts under Regulation CC in certain circumstances.)

The California law applies to any item (California Financial Code section 866.5 and California Commercial Code section 4213.4(a)). The California Commercial Code defines item to mean any instrument for the payment of money even though it is not negotiable * * * (Cal. Com. Code section 4104(g)). This term is broader in scope than the definition of check in the Act and Regulation CC. The Commissioner’s regulations, however,
define the term item to include checks, negotiable orders of withdrawal, share drafts, warrants, and money orders. As limited by the state regulations, the state law applies only to instruments that are also checks as defined in §229.2(k) of Regulation CC.

Availability Schedules

Temporary schedule. The California regulations provide that in-state nonlocal checks must be made available for withdrawal not later than the sixth business day following deposit. This time period is shorter than the seventh business day availability required for nonlocal checks under §229.11(c) of Regulation CC, although it is not shorter than the proprietary ATMs, that supersede the federal local and nonlocal schedules.

Thus, the state scheduled for in-state nonlocal checks supersedes the federal schedule to the extent that they apply to an item payable by a California institution that is defined as a nonlocal check under Regulation CC, and is not subject to reduced schedules under §229.11(c)(2) and appendix B-1 of Regulation CC. Under the California regulations, credit unions and industrial loan companies must provide in-state availability to first-endorsed items issued by any federally-insured institution. This regulatory requirement, however, has been superseded by section 867 of the California Financial Code, which requires depository institutions to make funds deposited by cashier’s check, teller’s check, certified checks, or depository check available for withdrawal on the second business day following deposit, if certain conditions are met. This requirement became effective January 1, 1988.

The Regulation CC next-day availability requirement for cashier’s and teller’s checks applies only to those checks issued for remittance purposes. To the extent that the state second business day availability requirement applies to cashier’s and teller’s checks issued for other than remittance purposes, the state two-day requirement supersedes the federal local and nonlocal schedules.

Next-day availability. Credit unions and industrial loan companies in California are required to give next-day availability to items drawn by the State of California or any of its departments, agencies, or political subdivisions. California law supersedes the federal law in that the state law does not condition next-day availability on receipt at a staffed teller station or use of a special deposit slip.

California credit unions and industrial loan companies must provide second business day availability to checks drawn on the depository bank. Regulation CC requires next-day availability on receipt at a staffed teller station or use of a special deposit slip. California credit unions and industrial loan companies must provide second business day availability to checks drawn on the depository bank. Regulation CC requires next-day availability on receipt at a staffed teller station or use of a special deposit slip.

Exceptions to the availability schedules. California law provides exceptions to the state availability schedules for large deposits, new accounts, repeated overdrafters, doubtful collectibility, foreign items, and emergency conditions. In all cases where the federal availability schedule preempts the state schedule, only the federal exceptions will apply. For deposits that are covered by the state availability schedule (e.g., in-state nonlocal checks under the temporary schedule; cashier’s or teller’s checks that are not deposited with a special deposit slip or at a staff teller station), the state exceptions may be used to extend the state availability schedule up to the federal availability schedule. Once the deposit is held up to the federal availability limit under a state exception, the depository bank may further extend the
hold under any federal exception that can be applied to the deposit. Any time a depository bank invokes an exception to extend a hold beyond the time periods otherwise permitted by law, it must give notice of the extended hold to its customer in accordance with §229.13(g) of Regulation CC.

Business day/banking day. The definitions of business day and banking day in the California regulations are preempted by the Regulation CC definition of those terms. Thus, for determining the permissible hold under the California schedules that supersede the Regulation CC schedule, deposits are considered made on the specified number of business days following the banking day of deposit.

Disclosures

California law (Cal. Fin. Code section 866.2) requires depository institutions to provide written disclosures of their general availability policies to potential customers prior to opening any deposit account. The law also requires that preprinted deposit slips and ATM deposit envelopes contain a conspicuous summary of the general policy. Finally, the law requires a depository institution to provide specific notice of the time the customer may withdraw funds deposited by check or similar instrument into a deposit account if the funds are not available for immediate withdrawal.

Section 229.20(c)(2) of Regulation CC provides that inconsistencies may exist when a state law provides for disclosures or notices concerning funds availability relating to accounts. California Financial Code section 866.2 requires disclosures that differ from those required by Regulation CC, and therefore is preempted to the extent that it applies to accounts as defined in Regulation CC. The state law continues to apply to savings accounts and other accounts not governed by Regulation CC disclosure requirements.

Connecticut

Background

The Board has been requested, in accordance with §229.20(d) of Regulation CC (12 CFR part 229), to determine whether the Expedited Funds Availability Act (the “Act”) and subpart B (and in connection therewith, subpart A) of Regulation CC, preempt provisions of Connecticut law relating to the availability of funds. This preemption determination specifies those provisions of the Connecticut funds availability law that supersede the Act and Regulation CC. (See also the Board’s preemption determination regarding the Uniform Commercial Code, section 4-213(b), pertaining to availability of cash deposits.)

In 1987, Connecticut amended its statute governing funds availability (Conn. Gen. Stat. section 36-9y), which requires Connecticut depository institutions to make funds deposited in a checking, time, interest, or savings account available for withdrawal with specified periods.

Generally, the Connecticut statute, as amended, provides that items deposited in a checking, time, interest, or savings account at a depository institution must be available for withdrawal in accordance with the following table:

 Availability

<table>
<thead>
<tr>
<th>On us checks</th>
<th>In-state checks</th>
<th>Out-of-state checks</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>2nd day</td>
<td>4th day</td>
</tr>
<tr>
<td></td>
<td>6th day</td>
<td></td>
</tr>
</tbody>
</table>

Exceptions to the schedules are provided for items received for deposit for the purpose of opening an account and for items that the depository bank has reason to believe will not clear. The Connecticut statute also requires availability policy disclosures to depositors in the form of written notices and notices posted conspicuously at each branch.

Coverage

The Connecticut statute governs the availability of funds deposited in savings and time accounts, as well as accounts as defined in §229.2(a) of Regulation CC. The federal preemption of state funds availability requirements only applies to accounts subject to Regulation CC, which generally consist of transaction accounts. Regulation CC does not affect the Connecticut statute to the extent that the state law applies to deposits in savings and other accounts (including transaction accounts where the account holder is a bank, foreign bank or the U.S. Treasury) that are not accounts under Regulation CC. (Note, however, that under §229.19(e) of Regulation CC, Holds on other funds, the federal availability schedules may apply to savings, time, and other accounts not defined as accounts under Regulation CC, in certain circumstances.)

The Connecticut statute applies to items deposited in accounts. This term encompasses instruments that are not defined as checks in Regulation CC (§229.2(k)), such as nonnegotiable instruments, and are therefore not subject to Regulation CC’s provisions governing funds availability. Those items that are subject to Connecticut law but are not subject to Regulation CC will continue to be covered by the state availability schedules and exceptions.

Availability Schedules

Temporary schedule. Connecticut law provides that certain checks that are nonlocal under Regulation CC must be available in a shorter time (sixth business day after deposit for checks payable by depository institutions not located in Connecticut) than

772
Federal Reserve System

under the federal regulation (seventh business day after deposit under the temporary schedule for nonlocal checks). Accordingly, the Connecticut law supersedes Regulation CC with respect to nonlocal checks (other than checks covered by appendix B-1) deposited in accounts until the federal permanent availability schedules take effect on September 1, 1990.

The Connecticut statute does not specify whether it applies to deposits of checks at nonproprietary ATMs. Under the temporary schedule in Regulation CC, deposits at nonproprietary ATMs must be made available for withdrawal at the start of the seventh business day after deposit. To the extent that the Connecticut statute provides for shorter availability for deposits at nonproprietary ATMs, they would supersede the temporary schedule in Regulation CC for deposits at nonproprietary ATMs specified in §229.13(d).

Exceptions to the availability schedule. The Connecticut law provides exceptions for items received for deposit for the purpose of opening new accounts and for items that the depositary bank has reason to believe will not clear. In all cases where the federal availability schedule preempts the state schedule, only the federal exceptions will apply. For deposits that are covered by the state availability schedule (e.g., nonlocal out-of-state checks under the temporary schedule), the state exceptions may be used to extend the state availability schedule (of six business days) to meet the federal availability schedule (of seven business days). Once the deposit is held up to the federal availability schedule limit under a state exception, the depositary bank may further extend the hold under any federal exception that can be applied to the deposit. Any time a depositary bank invokes an exception to extend the hold beyond the time periods otherwise permitted by law, it must give notice of the extended hold to its customer, in accordance with §229.13(g) of Regulation CC.

Disclosures

The Connecticut statute (Conn. Gen. Stat. Section 36-9v(b)) requires written notice to depositors of an institution’s check hold policy and requires a notice of the policy to be posted in each branch.

Regulation CC preempts state disclosure requirements concerning funds availability that relate to accounts that are inconsistent with the federal requirements. The state requirements are different from, and therefore inconsistent with, the federal disclosure rules (§229.20(c)(2)). Thus, the Connecticut statute is preempted by Regulation CC to the extent that these disclosure provisions apply to accounts as defined by Regulation CC. The Connecticut disclosure rules would continue to apply to accounts, such as savings and time accounts, not governed by the Regulation CC disclosure requirements.

Illinois

The Board has been requested, in accordance with §229.20(d) of Regulation CC (12 CFR part 229), to determine whether the Expedited Funds Availability Act and subpart B, and, in connection therewith, subpart A, of Regulation CC, preempt provisions of Illinois law relating to the availability of funds. Section 4-213(5) of the Uniform Commercial Code as adopted in Illinois Revised Statutes Chapter 26, paragraph 4-213(5), enacted July 26, 1988) provides that:

"Time periods after which deposits must be available for withdrawal shall be determined by the provisions of the federal Expedited Funds Availability Act (Title VI of the Competitive Equality Banking Act of 1987) and the regulations promulgated by the Federal Reserve Board for the implementation of that Act."

Section 4-213(5) of the Illinois law does not supersede Regulation CC; and, because this provision of Illinois law does not permit funds to be made available for withdrawal in a longer period of time than required under the Act and Regulation, it is not preempted by Regulation CC.

Maine

Background

The Board has been requested, in accordance with §229.20(d) of Regulation CC (12 CFR part 229), to determine whether the Expedited Funds Availability Act ("Act") and subpart B (and in connection therewith, subpart A) of Regulation CC, preempt the provisions of Maine law concerning the availability of funds. This preemption determination addresses the relation of the Act and Regulation CC to the Maine funds availability law. (See also the Board’s preemption determination regarding the Uniform Commercial Code, section 4–213(5), pertaining to availability of cash deposits.)

In 1985, Maine adopted a statute governing funds availability (Title 9–B MRSA section 241(5)), which requires Maine financial institutions to make funds deposited in a transaction account, savings account, or time account available for withdrawal within a reasonable period. The Maine statute gives the Superintendent of Banking for the State of Maine the authority to promulgate rules setting forth time limitations and disclosure requirements governing funds availability.

The Superintendent of Banking issued regulations implementing the Maine funds availability statute, effective July 1, 1987 (Regulation 18(IV)), and adopted amendments to this regulation, effective September 1, 1988. Under the revised regulation, funds deposited to any deposit account in a
Maine financial institution must be made available for withdrawal in accordance with the Act and Regulation CC (Regulation 18–IV(A)(1)). The state regulation provides that an institution’s funds availability policies for accounts subject to Regulation CC be disclosed in a manner consistent with the Regulation CC requirements. Funds availability policies for accounts not subject to Regulation CC must be disclosed in accordance with the state regulation (Regulation 18–IV(A)(2)).

Coverage
The Maine law and regulation govern the availability of funds to any deposit account, as defined in the Board’s Regulation D (12 CFR 204.2(a)). This coverage is broader than the accounts covered in Regulation CC. The Maine law continues to apply to all deposit accounts, including those that are not accounts under Regulation CC. (Note, however, that under §229.19(e) of Regulation CC, Holds on other funds, the federal availability schedules may apply to savings, time, and other accounts not defined as accounts under Regulation CC, in certain circumstances.)

Availability Schedules and Disclosures
The Maine regulation incorporates the Regulation CC availability and disclosure requirements with respect to deposits to accounts covered by Regulation CC. Because the state requirements are consistent with the federal requirements, the Maine regulation is not preempted by, nor does it supersede, the federal law.

Massachusetts

Background
The Board has been requested, in accordance with §229.20(d) of Regulation CC (12 CFR part 229), to determine whether the Expedited Funds Availability Act (the “Act”) and subpart A of Regulation CC, preempt provisions of Massachusetts law relating to the availability of funds. This preemption determination addresses the relationship of the Act and Regulation CC to the Massachusetts funds availability law. (See also the Board’s preemption determination regarding the Uniform Commercial Code, section 4-213(5), pertaining to availability of cash deposits.)

In 1988, Massachusetts amended its statute governing funds availability (Mass. Gen. L. ch. 167D, section 35), to require Massachusetts banking institutions to make funds available for withdrawal and disclose their availability policies in accordance with the Act and Regulation CC. The Massachusetts law, however, provides that “local originating depository institution” is to be defined as any originating depository institution located in the Commonwealth.

New Jersey

Background
The Board has been requested, in accordance with §229.20(d) of Regulation CC (12 CFR part 229), to determine whether the Expedited Funds Availability Act (the “Act”) and subpart A of Regulation CC preempt the provisions of New Jersey law concerning disclosure of a bank’s funds availability policy.
Federal Reserve System

Pt. 229, App. F

(See also the Board's preemption determination regarding the Uniform Commercial Code, section 4-213(5), pertaining to availability of cash deposits.)

New Jersey does not have a law or regulation establishing the maximum time periods within which funds deposited by check or electronic payment must be made available for withdrawal. New Jersey does, however, have regulations concerning the disclosure of a banking institution's availability policy (N.J.A.C. 3:1-15.1 et seq.).

Disclosures

New Jersey law requires every banking institution (defined as any state or federally chartered commercial bank, savings bank, or savings and loan association) to provide written disclosure to all holders of and applicants for deposit accounts which describes the institution's funds availability policy. Institutions must also disclose to their customers any significant changes to their availability policy.

Regulation CC preempts state disclosure requirements concerning funds availability that relates to accounts that are inconsistent with the federal requirements. The state requirements are different from, and therefore inconsistent with, the federal disclosure rules. (§ 229.20(c)(2)). Thus, the New Jersey statute (N.J.A.C. sections 3:1-15.1 et seq.) is preempted by Regulation CC to the extent that these disclosure provisions apply to accounts as defined by Regulation CC. The New Jersey disclosure rules would continue to apply to other deposit accounts, as defined by New Jersey law, including money market accounts and savings accounts established by a natural person for personal or family purposes, which are not governed by the Regulation CC disclosure requirements.

New York

Background

The Board has been requested, in accordance with §229.20(d) of Regulation CC (12 CFR part 229), to determine whether the Expedited Funds Availability Act (the "Act") and subpart B (and in connection therewith, subpart A) of Regulation CC, preempt the provisions of New York law concerning the availability of funds. This preemption determination addresses the relation of the Act and Regulation CC to the New York funds availability law. (See also the Board's preemption determination regarding the Uniform Commercial Code, section 4-213(5), pertaining to availability of cash deposits.)

In 1983, the New York State Banking Department, pursuant to section 14-d of the New York Banking law, issued regulations requiring that funds deposited in an account be made available for withdrawal within specified time periods, and provided certain exceptions to those availability schedules.

Part 34 of the New York State Banking Department's General Regulations established time frames within which commercial banks, trust companies, and branches of foreign banks (banks); and savings banks, savings and loan associations, and credit unions (savings institutions) must make funds deposited in customer accounts available for withdrawal.

The Banking Department amended part 34, effective September 1, 1988, generally to exclude accounts covered by Regulation CC from the scope of the state regulation. Part 34.4(a)(2) and (b)(2) of the revised New York rules, however, continue to apply to checks deposited to accounts, as defined in Regulation CC. These provisions require that the proceeds of nonlocal checks payable by a New York institution be made available for withdrawal not later than the start of the fourth business day following deposit, if deposited in a bank, or the fifth business day following deposit, if deposited in a savings institution. The revised regulation also provides that, with respect to savings accounts and time deposits, New York institutions could elect to comply with either the state or federal availability and disclosure requirements.

This preemption determination supersedes the determination issued by the Board on August 18, 1988 (53 FR 32357 (August 24, 1988)).

Coverage

The New York law and regulation govern the availability of funds in savings accounts and time deposits, as well as accounts as defined in §229.21(a) of Regulation CC. The New York law continues to apply to deposits to savings accounts and time deposits that are not accounts under Regulation CC. (Note, however, that under §229.19(e) of Regulation CC, Hold on other funds, the federal availability schedules may apply to savings, time, and other accounts not defined as accounts under Regulation CC, in certain circumstances.)

The New York law and regulation apply to items deposited to accounts. Part 34.3(e) defines item as a check, negotiable order of withdrawal or money order deposited into an account. The Board interprets the definition of item in New York law to be consistent with the definition of check in Regulation CC (§229.2(k)).

Availability Schedules

The provisions of New York law governing the availability of in-state nonlocal items provide for shorter hold than is provided under Regulation CC, and supersede that federal availability requirements. With the exception of these provisions, the New York regulation does not apply to deposits to accounts covered by Regulation CC.
Temporary schedule. The time periods for the availability of in-state nonlocal checks, contained in part 34.4 (a)(2) and (b)(2), are shorter that the seventh business day availability required for nonlocal checks under §229.11(c) of Regulation CC, although they are not necessarily shorter than the schedules for nonlocal checks set forth in §229.12(c)(2) and appendix B–1 of Regulation CC. Thus, these state schedules supersede the federal schedule to the extent that they apply to an item payable by a New York bank or savings institution that is defined as a nonlocal checks under Regulation CC and the applicable state schedule is less than the applicable schedule specified in §229.11(c) and appendix B–1.

Permanent schedule. The New York schedule for banks supersedes the Regulation CC requirement in the permanent schedule, effective September 1, 1990, that nonlocal checks be made available for withdrawal by the start of the fifth business day following deposit, to the extent that the in-state checks are defined as nonlocal under Regulation CC, and the Regulation CC schedule for nonlocal checks is not shortened under §229.12(c)(2) and appendix B–2 of Regulation CC. In addition, the New York schedule for savings institutions supersedes the Regulation CC time period adjustment for withdrawal by cash or similar means in the permanent schedule, to the extent that the in-state checks are defined as nonlocal under Regulation CC, and the Regulation CC schedule for nonlocal checks is not shortened under §229.12(c)(2) and appendix B–2 of Regulation CC. Thus, these state schedules supersede the Regulation CC.

Exceptions to the availability schedules. New York law provides exceptions to the state availability schedules for large deposits, new accounts, repeated overdrafters, doubtful collectibility, foreign items, and emergency conditions (part 34.4). The state exceptions apply only with respect to deposits of in-state nonlocal checks that are subject to the state availability schedule. For these deposits, the depository bank may invoke a state exception and place a hold on the deposit up to the federal availability schedule limit for that type of deposit. Once the federal availability schedule limit is reached, the depository bank may further extend the hold under any of the federal exceptions that apply to that deposit. Any time a depository bank invokes an exception to extend a hold beyond the time periods otherwise permitted by law, it must give notice of the extended hold to its customer in accordance with §229.12(g) of Regulation CC.

Disclosures

The revised New York regulation does not contain funds availability disclosure requirements applicable to accounts subject to Regulation CC.

Rhode Island

Background

The Board has been requested, in accordance with §229.20(d) of Regulation CC (12 CFR part 229), to determine whether the Expedited Funds Availability Act (the “Act”) and subpart B (and in connection therewith, subpart A) of Regulation CC, supersede provisions of Rhode Island law relating to the availability of funds. This preemption determination specifies those provisions in the Rhode Island funds availability law that supersede the Act and Regulation CC. (See also the Board’s preemption determination regarding the Uniform Commercial Code, section 4-213(5), pertaining to availability of cash deposits.)

In 1986, Rhode Island adopted a statute governing funds availability (R.I. Gen. Laws tit. 6A, sections 4–601 through 4–608), which requires Rhode Island depository institutions to make checks deposited in a personal transaction account available for withdrawal within certain specific periods. Commercial banks and thrift institutions (mutual savings banks, savings banks, savings and loan institutions and credit unions) must make funds available for withdrawal in accordance with the following table:

<table>
<thead>
<tr>
<th>Type of Deposit</th>
<th>Commercial banks</th>
<th>Thrift Institutions</th>
</tr>
</thead>
<tbody>
<tr>
<td>Treasury checks, Rhode Island Government checks, first-endorsed</td>
<td>2nd</td>
<td>2nd</td>
</tr>
<tr>
<td>In-state cashier’s checks less than $5,500</td>
<td>2nd</td>
<td>2nd</td>
</tr>
<tr>

<td>7th</td>
<td>7th</td>
</tr>
<tr>
<td>Other checks</td>
<td>9th</td>
<td>10th</td>
</tr>
</tbody>
</table>

NOTE: These time periods are stated in terms of availability for withdrawal not later than the Xth business day following the banking day of deposit to facilitate comparison with Regulation CC. State regulations are stated in terms of availability at the start of the business day subsequent to the number of days specified in the regulation.

The Rhode Island statute also provides restrictions and exceptions to the schedules and requires institutions to make certain disclosures to their customers.

Coverage

The Rhode Island statute governing the availability of funds deposited in personal transaction accounts, a term not defined in the statute. The federal law would continue to apply to accounts, as defined in §229.2(a), that are not personal transaction accounts.

The Rhode Island statute applies to items, defined as checks, negotiable orders of withdrawal, or money orders. The Board interprets the definition of item to be consistent with the definition of check in Regulation CC (§229.2(k)).

776
Federal Reserve System

Availability Schedules

Temporary schedule. Rhode Island law requires availability for certain checks in the same time as does Regulation CC. Thus, in these instances, the federal law does not preempt the state law. Rhode Island law requires commercial banks (but not thrift institutions) to make checks payable by a depository institution that uses the same in-state clearing facility as the depository bank available for withdrawal on the third business day following the day of the deposit. This is the same time period contained in Regulation CC for local checks payable by a bank that is a member of the same local clearinghouse as the depository bank. (The Board views the definition of the same in-state clearing facility as having the same meaning as the term the same check clearinghouse association in the federal law’s provision that allows banks to limit the customer’s ability to withdraw cash on the third business day if the local check being deposited is payable by a bank that is not a member of the same local clearinghouse as the depository bank.) Since the Rhode Island law and the federal law both require the funds to be made available no later than the third business day, the state law is not preempted by the federal law.

The Rhode Island law also requires commercial banks and savings institutions to make checks payable by a depository institution located in the First or Second Federal Reserve District (outside of Rhode Island) available on the seventh business day following deposit. To the extent that this provision applies to checks payable by institutions located outside the Boston check processing region, it provides for availability in the same time as required for nonlocal checks under the temporary federal schedule, and thus is not preempted by the federal law.

The Rhode Island statute does not specify whether it applies to deposits of checks at nonproprietary ATMs. Under the temporary schedule in Regulation CC, deposits at nonproprietary ATMs must be made available for withdrawal at the opening of the seventh business day after deposit. To the extent that the Rhode Island schedules provide for shorter availability for deposits at nonproprietary ATMs, they would supersede the temporary schedule.

Exceptions to the availability schedules. The Rhode Island law contains exceptions for reason to doubt collectibility or ability of the depositor to reimburse the depository bank, for new accounts, for large checks, and for foreign checks. In all cases where the federal availability schedule preempts the state schedule, only the federal exceptions will apply. For deposits that are covered by the state availability schedule, the state exceptions may be used to extend the state availability schedule to meet the federal availability schedule. Once the deposit is held up to the federal availability schedule limit under a state exception, the depository bank may further extend the hold under any federal exception that can be applied to the deposit. Thus, if the state and federal availability schedules are the same for a particular deposit, both a state and a federal exception must be applicable to that deposit in order to extend the hold beyond the schedule. Any time a depository bank invokes an exception to extend a hold beyond the time periods otherwise permitted by law, it must give notice of the extended hold to its customer, in accordance with §229.13(g) of Regulation CC.

Business day/banking day. The Rhode Island statute defines business day as excluding Saturday, Sunday and legal holidays. This definition is preempted by the Regulation CC definitions of business day and banking day. Thus, for determining the permissible hold under the Rhode Island schedules that supersede the Regulation CC schedule, deposits are considered made on the specified number of business days following the banking day of deposit.

Disclosures

The Rhode Island statute requires written notice to depositors of an institution’s check hold policy and requires a notice on deposit slips. Regulation CC preempts state disclosure requirements concerning funds availability that relate to accounts that are inconsistent with the federal requirements. The state requirements are different from, and therefore inconsistent with, the federal rules. (§229.20(c)(2)) Thus, Regulation CC preempts the Rhode Island disclosure requirements concerning funds availability.

Wisconsin

Background

The Board has been requested, in accordance with §229.20(d) of Regulation CC (12 CFR part 229), to determine whether the Expedited Funds Availability Act (the Act) and subpart B (and in connection therewith, subpart A) of Regulation CC preempt the provisions of Wisconsin law concerning availability of funds. This preemption determination specifies those provisions of the Wisconsin funds availability law that are not preempted by the Act and Regulation CC. (See also the Board’s preemption determination regarding the Uniform Commercial Code, section 4–213(5), pertaining to availability of cash deposits.)

Wisconsin Statutes sections 404.213(4m), 215.136, and 186.117 require Wisconsin banks, savings and loan associations, and credit unions, respectively, to make funds deposited in accounts available for withdrawal within specified time frames. Generally,
checks drawn on the U.S. Treasury, the State of Wisconsin, or on a local government located in Wisconsin must be made available for withdrawal by the second day following deposit. (The law governing commercial banks determines availability based on banking day; the laws governing savings and loan associations and credit unions determine availability based on business days.) In-state and out-of-state checks must be made available for withdrawal within five days and eight days following deposit, respectively. Exceptions are provided for new accounts and reason to doubt collectibility.

In addition, Wisconsin Statutes section 404.103 permits commercial banks to vary these availability requirements by agreement.

Coverage
Wisconsin law defines account, with respect to the rules governing commercial banks, as any account with a bank and includes a checking, time, interest or savings account (Wisconsin Statutes section 404.104(1)(a)). The statutes relating to the funds availability requirements applicable to savings and loan associations and credit unions do not define the term account. The Federal preemption of state funds availability requirements applies only to accounts subject to Regulation CC, which generally consist of transaction accounts. Regulation CC does not affect the Wisconsin law to the extent that the state law does not permit the Federal schedule to the extent that it applies to an item payable by a Wisconsin bank that is defined as a nonlocal check under Regulation CC and is not shorter than the schedules for nonlocal checks set forth in §229.11(c)(2) and appendix B–1 of Regulation CC. Thus, the state schedule for in-state nonlocal checks supersedes the Federal schedule to the extent that it applies to an item payable by a Wisconsin bank that is defined as a nonlocal check under Regulation CC and is not shorter than the schedules for nonlocal checks set forth in §229.11(c)(2) and appendix B–1.

Permanent Schedule. Under the Federal permanent availability schedule, nonlocal checks must be made available for withdrawal not later than the fifth business day following deposit. The fifth day availability requirement for in-state items in the Wisconsin statute supersedes the Regulation CC time period adjustment for withdrawal by cash or similar means in the permanent availability schedule, to the extent that the in-state checks are defined as nonlocal under Regulation CC.

Next-day availability. Under the Wisconsin statute, the proceeds of state or local government checks must be made available for withdrawal by the second day following deposit, if the check is endorsed only by the person to whom it was issued (Wisconsin Statutes sections 404.213(4m)(b)(1); 215.136(2)(b); and 186.117(2)(a)). Regulation CC requires next-day availability for these checks if they are (1) deposited in an account of a payee of the check, (2) deposited in a depositary bank located in the same state as the state or local government that issued the check, (3) deposited in person to an employee of the depositary bank, and (4) deposited with a special deposit slip, if the depositary bank informed its customers that use of such a slip is a condition to next-day availability. Under the Federal law, if a state or local government check is not deposited in person to an employee of the depositary bank, but meets the other conditions set forth in §229.10(c)(1)(iv), the funds must be made available for withdrawal not later than the second business day following deposit. The Wisconsin statute supersedes Regulation CC to the extent that the state law does not permit the use of a special deposit slip as a condition to receipt of second-day availability.

Exceptions to the schedules. Wisconsin law provides exceptions to the state availability schedules for new accounts (those opened less than 90 days) and reason to doubt collectibility (Wisconsin Statutes sections 404.213(4m)(b); 215.136(2); and 186.117(2)). The state availability law also permits commercial banks to vary the funds availability requirements by agreement (Wisconsin Statute section 404.104(1)). In all cases where the Federal schedule preempts the state schedule, only the Federal exceptions apply. For deposits that are covered by the state availability schedule (e.g., in-state nonlocal checks), a state exception must apply in
order to extend the state availability schedule up to the Federal availability schedule. Once the deposit is held up to the Federal availability limit under a state exception, the depositary bank may further extend the hold only if a Federal exception can be applied to the deposit. Any time a depositary bank invokes an exception to extend a hold beyond the time periods otherwise permitted by law, it must give notice of the extended hold to its customer in accordance with § 229.13(g) of Regulation CC.

**Business day/banking day.** The definitions of business day and banking day in the Wisconsin statutes are preempted by the Regulation CC definition of those terms. For determining the permissible hold under the Wisconsin schedules that supersede the Regulation CC schedule, deposits are considered available for withdrawal on the specified number of business days following the banking day of deposit.

Wisconsin law considers funds to be deposited, for the purpose of determining when they must be made available for withdrawal, when an item is “received at the proof and transit facility of the depository.” For the purposes of this preemption determination, funds are considered deposited under Wisconsin law in accordance with the rules set forth in § 229.19(a) of Regulation CC.

**Disclosures**

The Wisconsin statute does not require disclosure of a bank’s funds availability policy. The state law does require, however, that a bank give notice to its customer if it extends the time within which funds will be available for withdrawal due to the bank’s doubt as to the collectibility of the item (Wisconsin Statutes sections 404.213(4m)(b); 215.136(2); and 186.117(2)).

Regulation CC preempts state disclosure requirements concerning funds availability that relate to accounts that are inconsistent with the Federal requirements. The state requirement is different from, and therefore inconsistent with, the Federal disclosure rules (§229.19(c)(2)). Thus, the Wisconsin statute is preempted by Regulation CC to the extent that the state notice requirement applies to accounts as defined by Regulation CC. The Wisconsin requirement would continue to apply to accounts, such as savings and time accounts, not governed by the Regulation CC disclosure requirements.

§ 230.1 Authority, purpose, coverage, and effect on state laws.

(a) Authority. This part, known as Regulation DD, is issued by the Board of Governors of the Federal Reserve System to implement the Truth in Savings Act of 1991 (the act), contained in the Federal Deposit Insurance Corporation Improvement Act of 1991 (12 U.S.C. 4301 et seq., Pub. L. 102–242, 105 Stat. 2236). Information collection requirements contained in this part have been approved by the Office of Management and Budget under the provisions of 44 U.S.C. 3501 et seq., and have been assigned OMB No. 7100–0255.

(b) Purpose. The purpose of this part is to enable consumers to make informed decisions about accounts at depository institutions. This part requires depository institutions to provide disclosures so that consumers can make meaningful comparisons among depository institutions.

(c) Coverage. This part applies to depository institutions except for credit unions. In addition, the advertising rules in §230.8 of this part apply to any
§ 230.2 Definitions.

For purposes of this part, the following definitions apply:

(a) **Account** means a deposit account at a depository institution that is held by or offered to a consumer. It includes time, demand, savings, and negotiable order of withdrawal accounts. For purposes of the advertising requirements in §230.8 of this part, the term also includes an account at a depository institution that is held by or on behalf of a deposit broker, if any interest in the account is held by or offered to a consumer.

(b) **Advertisement** means a commercial message, appearing in any medium, that promotes directly or indirectly:

(1) The availability or terms of, or a deposit in, a new account; and

(2) For purposes of §230.8(a) and §230.11 of this part, the terms of, or a deposit in, a new or existing account.

(c) **Annual percentage yield** means a percentage rate reflecting the total amount of interest paid on an account, based on the interest rate and the frequency of compounding for a 365-day period and calculated according to the rules in appendix A of this part.

(d) **Average daily balance method** means the application of a periodic rate to the average daily balance in the account for the period. The average daily balance is determined by adding the full amount of principal in the account for each day of the period and dividing that figure by the number of days in the period.

(e) **Board** means the Board of Governors of the Federal Reserve System.

(f) **Bonus** means a premium, gift, award, or other consideration worth more than $10 (whether in the form of cash, credit, merchandise, or any equivalent) given or offered to a consumer during a year in exchange for opening, maintaining, renewing, or increasing an account balance. The term does not include interest, other consideration worth $10 or less given during a year, the waiver or reduction of a fee, or the absorption of expenses.

(g) **Business day** means a calendar day other than a Saturday, a Sunday, or any of the legal public holidays specified in 5 U.S.C. 6103(a).

(h) **Consumer** means a natural person who holds an account primarily for personal, family, or household purposes, or to whom such an account is offered. The term does not include a natural person who holds an account for another in a professional capacity.

(i) **Daily balance method** means the application of a daily periodic rate to the full amount of principal in the account each day.

(k) **Deposit broker** means any person who is a deposit broker as defined in section 29(g) of the Federal Deposit Insurance Act (12 U.S.C. 1831f(g)).

(l) **Fixed-rate account** means an account for which the institution contracts to give at least 30 calendar days advance written notice of decreases in the interest rate.

(m) **Grace period** means a period following the maturity of an automatically renewing time account during which the consumer may withdraw funds without being assessed a penalty.

(n) **Interest** means any payment to a consumer or to an account for the use of funds in an account, calculated by application of a periodic rate to the balance. The term does not include the payment of a bonus or other consideration worth $10 or less given during a year, the waiver or reduction of a fee, or the absorption of expenses.

(o) **Interest rate** means the annual rate of interest paid on an account which does not reflect compounding. For the purposes of the account disclosures in §230.4(b)(1)(i) of this part, the interest rate may, but need not, be referred to as the “annual percentage
rate”; in addition to being referred to as the “interest rate.”

(p) **Passbook savings account** means a savings account in which the consumer retains a book or other document in which the institution records transactions on the account.

(q) **Periodic statement** means a statement setting forth information about an account (other than a time account or passbook savings account) that is provided to a consumer on a regular basis four or more times a year.

(r) **State** means a state, the District of Columbia, the commonwealth of Puerto Rico, and any territory or possession of the United States.

(s) **Stepped-rate account** means an account that has two or more interest rates that take effect in succeeding periods and are known when the account is opened.

(t) **Tiered-rate account** means an account that has two or more interest rates that are applicable to specified balance levels.

(u) **Time account** means an account with a maturity of at least seven days in which the consumer generally does not have a right to make withdrawals for six days after the account is opened, unless the deposit is subject to an early withdrawal penalty of at least seven days’ interest on amounts withdrawn.

(v) **Variable-rate account** means an account in which the interest rate may change after the account is opened, unless the institution contracts to give at least 30 calendar days advance written notice of rate decreases.

§ 230.3 General disclosure requirements.

(a) **Form.** Depositary institutions shall make the disclosures required by §§ 230.4 through 230.6 of this part, as applicable, clearly and conspicuously, in writing, and in a form the consumer may keep. The disclosures required by this part may be provided to the consumer in electronic form without regard to the consumer’s other accounts, as long as it is clear which disclosures are applicable to the consumer’s account.

(b) **General.** The disclosures shall reflect the terms of the legal obligation of the account agreement between the consumer and the depository institution. Disclosures may be made in languages other than English, provided the disclosures are available in English upon request.

(c) **Relation to Regulation E (12 CFR part 205).** Disclosures required by and provided in accordance with the Electronic Fund Transfer Act (15 U.S.C. 1601) and its implementing Regulation E (12 CFR part 205) that are also required by this part may be substituted for the disclosures required by this part.

(d) **Multiple consumers.** If an account is held by more than one consumer, disclosures may be made to any one of the consumers.

(e) **Oral response to inquiries.** In an oral response to a consumer’s inquiry about interest rates payable on its accounts, the depository institution shall state the annual percentage yield. The interest rate may be stated in addition to the annual percentage yield. No other rate may be stated.

(f) **Rounding and accuracy rules for rates and yields—(1) Rounding.** The annual percentage yield, the annual percentage yield earned, and the interest rate shall be rounded to the nearest one-hundredth of one percentage point (.01%) and expressed to two decimal places. For account disclosures, the interest rate may be expressed to more than two decimal places.

(2) **Accuracy.** The annual percentage yield (and the annual percentage yield earned) will be considered accurate if not more that one-twentieth of one percentage point (.05%) above or below the annual percentage yield (and the
§ 230.4  Account disclosures.

(a) Delivery of account disclosures—(1) Account opening. (i) General. A depository institution shall provide account disclosures to a consumer before an account is opened or a service is provided, whichever is earlier. An institution is deemed to have provided a service when a fee required to be disclosed is assessed. Except as provided in paragraph (a)(1)(ii) of this section, if the consumer is not present at the institution when the account is opened or the service is provided and has not already received the disclosures, the institution shall mail or deliver the disclosures no later than 10 business days after the account is opened or the service is provided, whichever is earlier.

(ii) Timing of electronic disclosures. If a consumer who is not present at the institution uses electronic means (for example, an Internet Web site) to open an account or request a service, the disclosures required under paragraph (a)(1) of this section must be provided before the account is opened or the service is provided.

(b) Content of account disclosures. Account disclosures shall include the following, as applicable:

(1) Rate information—(i) Annual percentage yield and interest rate. The “annual percentage yield” and the “interest rate,” using those terms, and for fixed-rate accounts the period of time the interest rate will be in effect.

(ii) Variable rates. For variable-rate accounts:

(A) The fact that the interest rate and annual percentage yield may change;

(B) How the interest rate is determined;

(C) The frequency with which the interest rate may change; and

(D) Any limitation on the amount the interest rate may change.

(2) Compounding and crediting—(i) Frequency. The frequency with which interest is compounded and credited.

(ii) Effect of closing an account. If consumers will forfeit interest if they close the account before accrued interest is credited, a statement that interest will not be paid in such cases.

(3) Balance information—(i) Minimum balance requirements. Any minimum balance required to:

(A) Open the account;

(B) Avoid the imposition of a fee; or

(C) Obtain the annual percentage yield disclosed.

Except for the balance to open the account, the disclosure shall state how the balance is determined for these purposes.

(ii) Balance computation method. An explanation of the balance computation method specified in §230.7 of this part used to calculate interest on the account.

(iii) When interest begins to accrue. A statement of when interest begins to accrue on noncash deposits.

(4) Fees. The amount of any fee that may be imposed in connection with the account (or an explanation of how the fee will be determined) and the conditions under which the fee may be imposed.

(5) Transaction limitations. Any limitations on the number or dollar amount of withdrawals or deposits.

(6) Features of time accounts. For time accounts:
Federal Reserve System

§ 230.5

(i) Time requirements. The maturity date.

(ii) Early withdrawal penalties. A statement that a penalty will or may be imposed for early withdrawal, how it is calculated, and the conditions for its assessment.

(iii) Withdrawal of interest prior to maturity. If compounding occurs during the term and interest may be withdrawn prior to maturity, a statement that the annual percentage yield assumes interest remains on deposit until maturity and that a withdrawal will reduce earnings. For accounts with a stated maturity greater than one year that do not compound interest on an annual or more frequent basis, that require interest payouts at least annually, and that disclose an APY determined in accordance with section E of appendix A of this part, a statement that interest cannot remain on deposit and that payout of interest is mandatory.

(iv) Renewal policies. A statement of whether or not the account will renew automatically at maturity. If it will, a statement of whether or not a grace period will be provided and, if so, the length of that period must be stated. If the account will not renew automatically, a statement of whether interest will be paid after maturity if the consumer does not renew the account must be stated.

(7) Bonuses. The amount or type of any bonus, when the bonus will be provided, and any minimum balance and time requirements to obtain the bonus.

(c) Notice to existing account holders—

(1) Notice of availability of disclosures. Depository institutions shall provide a notice to consumers who receive periodic statements and who hold existing accounts of the type offered by the institution on June 21, 1993. The notice shall be included on or with the first periodic statement sent on or after June 21, 1993 (or on or with the first periodic statement for a statement cycle beginning on or after that date). The notice shall state that consumers may request account disclosures containing terms, fees, and rate information for their account. In responding to such a request, institutions shall provide disclosures in accordance with paragraph (a)(2) of this section.

(2) Alternative to notice. As an alternative to the notice described in paragraph (c)(1) of this section, institutions may provide account disclosures to consumers. The disclosures may be provided either with a periodic statement or separately, but must be sent no later than when the periodic statement described in paragraph (c)(1) is sent.

§ 230.5 Subsequent disclosures.

(a) Change in terms—(1) Advance notice required. A depository institution shall give advance notice to affected consumers of any change in a term required to be disclosed under § 230.4(b) of this part if the change may reduce the annual percentage yield or adversely affect the consumer. The notice shall include the effective date of the change. The notice shall be mailed or delivered at least 30 calendar days before the effective date of the change.

(2) No notice required. No notice under this section is required for:

(i) Variable-rate changes. Changes in the interest rate and corresponding changes in the annual percentage yield in variable-rate accounts.

(ii) Check printing fees. Changes in fees assessed for check printing.

(iii) Short-term time accounts. Changes in any term for time accounts with maturities of one month or less.

(b) Notice before maturity for time accounts longer than one month that renew automatically. For time accounts with a maturity longer than one month that renew automatically at maturity, institutions shall provide the disclosures described below before maturity. The disclosures shall be mailed or delivered at least 30 calendar days before maturity of the existing account. Alternatively, the disclosures may be mailed or delivered at least 20 calendar days before the end of the grace period on the existing account, provided a grace period of at least five calendar days is allowed.

(1) Maturities of longer than one year. If the maturity is longer than one year, the institution shall provide account disclosures set forth in § 230.4(b) of this part for the new account, along with

783
§ 230.6 Periodic statement disclosures.

(a) General rule. If a depository institution mails or delivers a periodic statement, the statement shall include the following disclosures:

(1) Annual percentage yield earned. The "annual percentage yield earned" during the statement period, using that term, calculated according to the rules in appendix A of this part.

(2) Amount of interest. The dollar amount of interest earned during the statement period.

(3) Fees imposed. Fees required to be disclosed under §230.4(b)(4) of this part that were debited to the account during the statement period. The fees shall be itemized by type and dollar amounts. Except as provided in §230.11(a)(1) of this part, when fees of the same type are imposed more than once in a statement period, a depository institution may itemize each fee separately or group the fees together and disclose a total dollar amount for all fees of that type.

(b) Special rule for average daily balance method. In making the disclosures described in paragraph (a) of this section, institutions that use the average daily balance method and that calculate interest for a period other than the statement period shall calculate and disclose the annual percentage yield earned and amount of interest earned based on that period rather than the statement period. The information in paragraph (a)(4) of this section shall be stated for that period as well as for the statement period.

§ 230.7 Payment of interest.

(a) Permissible methods—(1) Balance on which interest is calculated. Institutions shall calculate interest on the full amount of principal in an account for each day by use of either the daily balance method or the average daily balance method.1

(2) Determination of minimum balance to earn interest. An institution shall use the same method to determine any

1Institutions shall calculate interest by use of a daily rate of at least \(\frac{1}{365}\) of the interest rate. In a leap year a daily rate of \(\frac{1}{366}\) of the interest rate may be used.
minimum balance required to earn interest as it uses to determine the balance on which interest is calculated. An institution may use an additional method that is unequivocally beneficial to the consumer.

(b) Compounding and crediting policies. This section does not require institutions to compound or credit interest at any particular frequency.

(c) Date interest begins to accrue. Interest shall begin to accrue not later than the business day specified for interest-bearing accounts in section 606 of the Expedited Funds Availability Act (12 U.S.C. 4005 et seq.) and implementing Regulation CC (12 CFR part 229). Interest shall accrue until the day funds are withdrawn.

§ 230.8 Advertising.

(a) Misleading or inaccurate advertisements. An advertisement shall not:

(1) Be misleading or inaccurate or misrepresent a depository institution’s deposit contract; or

(2) Refer to or describe an account as “free” or “no cost” (or contain a similar term) if any maintenance or activity fee may be imposed on the account. The word “profit” shall not be used in referring to interest paid on an account.

(b) Permissible rates. If an advertisement states a rate of return, it shall state the rate as an “annual percentage yield” using that term. (The abbreviation “APY” may be used provided the term “annual percentage yield” is stated at least once in the advertisement.) The advertisement shall not state any other rate, except that the “interest rate,” using that term, may be stated in conjunction with, but not more conspicuously than, the annual percentage yield to which it relates.

(c) When additional disclosures are required. Except as provided in paragraph (e) of this section, if the annual percentage yield is stated in an advertisement, the advertisement shall state the following information, to the extent applicable, clearly and conspicuously:

(1) Variable rates. For variable-rate accounts, a statement that the rate may change after the account is opened.

(2) Time annual percentage yield is offered. The period of time the annual percentage yield will be offered, or a statement that the annual percentage yield is accurate as of a specified date.

(3) Minimum balance. The minimum balance required to obtain the advertised annual percentage yield. For tiered-rate accounts, the minimum balance required for each tier shall be stated in close proximity and with equal prominence to the applicable annual percentage yield.

(4) Minimum opening deposit. The minimum deposit required to open the account, if it is greater than the minimum balance necessary to obtain the advertised annual percentage yield.

(5) Effect of fees. A statement that fees could reduce the earnings on the account.

(6) Features of time accounts. For time accounts:

(i) Time requirements. The term of the account.

(ii) Early withdrawal penalties: A statement that a penalty will or may be imposed for early withdrawal.

(iii) Required interest payouts. For noncompounding time accounts with a stated maturity greater than one year that do not compound interest on an annual or more frequent basis, that require interest payouts at least annually, and that disclose an APY determined in accordance with section E of appendix A of this part, a statement that interest cannot remain on deposit and that payout of interest is mandatory.

(d) Bonuses. Except as provided in paragraph (e) of this section, if a bonus is stated in an advertisement, the advertisement shall state the following information, to the extent applicable, clearly and conspicuously:

(1) The “annual percentage yield,” using that term;

(2) The time requirement to obtain the bonus;

(3) The minimum balance required to obtain the bonus;

(4) The minimum balance required to open the account, if it is greater than the minimum balance necessary to obtain the bonus; and

(5) When the bonus will be provided.
(e) Exemption for certain advertisements—(1) Certain media. If an advertisement is made through one of the following media, it need not contain the information in paragraphs (c)(1), (c)(2), (c)(4), (c)(5), (c)(6)(ii), (d)(4), and (d)(5) of this section:
   (i) Broadcast or electronic media, such as television or radio;
   (ii) Outdoor media, such as billboards; or
   (iii) Telephone response machines.

(2) Indoor signs. (i) Signs inside the premises of a depository institution (or the premises of a deposit broker) are not subject to paragraphs (b), (c), (d) or (e)(1) of this section.
   (ii) If a sign exempt by paragraph (e)(2) of this section states a rate of return, it shall:
      (A) State the rate as an “annual percentage yield,” using that term or the term “APY.” The sign shall not state any other rate, except that the interest rate may be stated in conjunction with the annual percentage yield to which it relates.
      (B) Contain a statement advising consumers to contact an employee for further information about applicable fees and terms.

(f) Additional disclosures in connection with the payment of overdrafts. Institutions that promote the payment of overdrafts in an advertisement shall include in the advertisement the disclosures required by §230.11(b) of this part.

§ 230.9 Enforcement and record retention.

(a) Administrative enforcement. Section 270 of the act contains the provisions relating to administrative sanctions for failure to comply with the requirements of the act and this part. Compliance is enforced by the agencies listed in that section.

(b) Civil liability. Section 271 of the Act contains the provisions relating to civil liability for failure to comply with the requirements of the act and this part; Section 271 is repealed effective September 30, 2001.

(c) Record retention. A depository institution shall retain evidence of compliance with this part for a minimum of two years after the date disclosures are required to be made or action is required to be taken. The administrative agencies responsible for enforcing this part may require depository institutions under their jurisdiction to retain records for a longer period if necessary to carry out their enforcement responsibilities under section 270 of the act.

[57 FR 43376, Sept. 21, 1992, as amended at 58 FR 15081, Mar. 19, 1993; Reg. DD, 60 FR 5130, Jan. 26, 1995; Reg. DD, 63 FR 40638, July 30, 1998; Reg. DD, 63 FR 52107, Sept. 29, 1998; 70 FR 29593, May 24, 2005]

§ 230.10 [Reserved]

§ 230.11 Additional disclosure requirements for institutions advertising the payment of overdrafts.

(a) Periodic statement disclosures—(1) Disclosure of Total Fees. (i) Except as provided in paragraph (a)(2) of this section, if a depository institution promotes the payment of overdrafts in an advertisement, the institution must separately disclose on each periodic statement:
      (A) The total dollar amount for all fees or charges imposed on the account for paying checks or other items when there are insufficient funds and the account becomes overdrawn; and
      (B) The total dollar amount for all fees imposed on the account for returning items unpaid.
   (ii) The disclosures required by this paragraph must be provided for the statement period and for the calendar year to date, for any account to which the advertisement applies.
   (B) The total dollar amount for all fees imposed on the account for returning items unpaid.
   (ii) The disclosures required by this paragraph must be provided for the statement period and for the calendar year to date, for any account to which the advertisement applies.

(b) Communications not triggering disclosure of total fees. The following communications by a depository institution do not trigger the disclosures required by paragraph (a) of this section:
   (i) Promoting in an advertisement a service for paying overdrafts where the institution’s payment of overdrafts will be agreed upon in writing and subject to the Board’s Regulation Z (12 CFR part 226);
   (ii) Communicating (whether by telephone, electronically, or otherwise) about the payment of overdrafts in response to a consumer-initiated inquiry about deposit accounts or overdrafts.
Providing information about the payment of overdrafts in response to a balance inquiry made through an automated system, such as a telephone response machine, an automated teller machine (ATM), or an institution’s Internet site, is not a response to a consumer-initiated inquiry for purposes of this paragraph;

(iii) Engaging in an in-person discussion with a consumer;

(iv) Making disclosures that are required by Federal or other applicable law;

(v) Providing a notice or including information on a periodic statement informing a consumer about a specific overdrawn item or the amount the account is overdrawn;

(vi) Including in a deposit account agreement a discussion of the institution’s right to pay overdrafts;

(vii) Providing a notice to a consumer, such as at an ATM, that completing a requested transaction may trigger a fee for overdrawing an account, or providing a general notice that items overdrawing an account may trigger a fee; or

(viii) Providing informational or educational materials concerning the payment of overdrafts if the materials do not specifically describe the institution’s overdraft service.

(3) Time period covered by disclosures. An institution must make the disclosures required by paragraph (a)(1) of this section for the first statement period that begins after an institution advertises the payment of overdrafts. An institution may disclose total fees imposed for the calendar year by aggregating fees imposed since the beginning of the calendar year, or since the beginning of the first statement period that year for which such disclosures are required.

(4) Termination of promotions. Paragraph (a)(1) of this section shall cease to apply with respect to a deposit account two years after the date of an institution’s last advertisement promoting the payment of overdrafts applicable to that account.

(5) Acquired accounts. An institution that acquires an account must thereafter provide the disclosures required by paragraph (a)(1) of this section for the first statement period that begins after the institution promotes the payment of overdrafts in an advertisement that applies to the acquired account. If disclosures under paragraph (a)(1) of this section are required for the acquired account, the institution may, but is not required to, include fees imposed prior to acquisition of the account.

(b) Advertising disclosures for overdraft services—(1) Disclosures. Except as provided in paragraphs (b)(2), (b)(3), and (b)(4) of this section, any advertisement promoting the payment of overdrafts shall disclose in a clear and conspicuous manner:

(i) The fee or fees for the payment of each overdraft;

(ii) The categories of transactions for which a fee for paying an overdraft may be imposed;

(iii) The time period by which the consumer must repay or cover any overdraft; and

(iv) The circumstances under which the institution will not pay an overdraft.

(2) Communications about the payment of overdrafts not subject to additional advertising disclosures. Paragraph (b)(1) of this section does not apply to:

(i) An advertisement promoting a service where the institution’s payment of overdrafts will be agreed upon in writing and subject to the Board’s Regulation Z (12 CFR part 226);

(ii) A communication by an institution about the payment of overdrafts in response to a consumer-initiated inquiry about deposit accounts or overdrafts. Providing information about the payment of overdrafts in response to a balance inquiry made through an automated system, such as a telephone response machine, ATM, or an institution’s Internet site, is not a response to a consumer-initiated inquiry for purposes of this paragraph;

(iii) An advertisement made through broadcast or electronic media, such as television or radio;

(iv) An advertisement made on outdoor media, such as billboards;

(v) An ATM receipt;

(vi) An in-person discussion with a consumer;

(vii) Disclosures required by federal or other applicable law;

(viii) An advertisement about a check-cashing service as described in paragraph (b)(3) of this section.
(viii) Information included on a periodic statement or a notice informing a consumer about a specific overdrawn item or the amount the account is overdrawn;

(ix) A term in a deposit account agreement discussing the institution’s right to pay overdrafts;

(x) A notice provided to a consumer, such as at an ATM, that completing a requested transaction may trigger a fee for overdrawing an account, or a general notice that items overdrawn an account may trigger a fee; or

(xi) Informational or educational materials concerning the payment of overdrafts if the materials do not specifically describe the institution’s overdraft service.

(3) Exception for ATM screens and telephone response machines. The disclosures described in paragraphs (b)(1)(i) and (b)(1)(iv) of this section are not required in connection with any advertisement made on an ATM screen or using a telephone response machine.

(4) Exception for indoor signs. Paragraph (b)(1) of this section does not apply to advertisements for the payment of overdrafts on indoor signs as described by §230.8(e)(2) of this part, provided that the sign contains a clear and conspicuous statement that fees may apply and that consumers should contact an employee for further information about applicable fees and terms. For purposes of this paragraph (b)(4), an indoor sign does not include an ATM screen.

[70 FR 26593, May 24, 2005]

APPENDIX A TO PART 230—ANNUAL PERCENTAGE YIELD CALCULATION

The annual percentage yield measures the total amount of interest paid on an account based on the interest rate and the frequency of compounding.1 The annual percentage yield is expressed as an annualized rate, based on a 365-day year.2 Part I of this appendix discusses the annual percentage yield calculations for account disclosures and advertisements, while Part II discusses annual percentage yield earned calculations for periodic statements.

Part I. Annual Percentage Yield for Account Disclosures and Advertising Purposes

In general, the annual percentage yield for account disclosures under §§230.4 and 230.5 and for advertising under §230.8 is an annualized rate that reflects the relationship between the amount of interest that would be earned by the consumer for the term of the account and the amount of principal used to calculate that interest. Special rules apply to accounts with tiered and stepped interest rates, and to certain time accounts with a stated maturity greater than one year.

A. General Rules

Except as provided in Part I.E. of this appendix, the annual percentage yield shall be calculated by the formula shown below. Institutions shall calculate the annual percentage yield based on the actual number of days in the term of the account. For accounts without a stated maturity date (such as a typical savings or transaction account), the calculation shall be based on an assumed term of 365 days. In determining the total interest figure to be used in the formula, institutions shall assume that all principal and interest remain on deposit for the entire term and that no other transactions (deposits or withdrawals) occur during the term.3 For time accounts that are offered in multiples of months, institutions may base the number of days on either the actual number of days during the applicable period, or the number of days that would occur for any actual sequence of that many calendar months. If institutions choose to use the latter rule, they must use the same number of days to calculate the dollar amount of interest earned on the account that is used in the annual percentage yield formula (where “Interest” is divided by “Principal”).

The annual percentage yield is calculated by use of the following general formula (“APY” is used for convenience in the formulas):

\[
\text{APY} = \frac{100}{\left(1 + \frac{\text{Interest}}{\text{Principal}} \right)^{\frac{365}{\text{Term days}}} - 1}\]

1The annual percentage yield reflects only interest and does not include the value of any bonus (or other consideration worth $10 or less) that may be provided to the consumer to open, maintain, increase or renew an account. Interest or other earnings are not to be included in the annual percentage yield if such amounts are determined by circumstances that may or may not occur in the future.

2Institutions may calculate the annual percentage yield based on a 365-day or a 366-day year in a leap year.

3This assumption shall not be used if an institution requires, as a condition of the account, that consumers withdraw interest during the term. In such a case, the interest (and annual percentage yield calculation) shall reflect that requirement.
“Principal” is the amount of funds assumed to have been deposited at the beginning of the account.

“Interest” is the total dollar amount of interest earned on the Principal for the term of the account.

“Days in term” is the actual number of days in the term of the account. When the “days in term” is 365 (that is, where the stated maturity is 365 days or where the account does not have a stated maturity), the annual percentage yield can be calculated by use of the following simple formula:

\[ \text{APY} = \left( \frac{1 + \frac{\text{Interest}}{\text{Principal} \times 1000}}{\text{Days in term}} \right) \times 100 \]

\[ \left( \frac{1 + \frac{26.68}{1,000}}{365/183} \right) \times 100 \]

\[ \text{APY} = 6.18\% \]

\[ \text{APY} = 6.18\% \]

**Examples**

(1) If an institution pays $61.68 in interest for a 365-day year on $1,000 deposited into a NOW account, using the general formula above, the annual percentage yield is 6.17%:

\[ \text{APY} = 100 \left(1 + \frac{61.68}{1,000} \right) - 1 \]

\[ \text{APY} = 6.17\% \]

(2) If an institution pays $30.37 in interest for a $1,000 six-month certificate of deposit (where the six-month period used by the institution contains 182 days), using the general formula above, the annual percentage yield is 6.18%:

\[ \text{APY} = 100 \left(1 + \frac{30.37}{1,000} \right) - 1 \]

\[ \text{APY} = 6.18\% \]

**B. STEPPED-RATE ACCOUNTS (DIFFERENT RATES APPLY IN SUCCEDING PERIODS)**

For accounts with two or more interest rates applied in succeeding periods (where the rates are known at the time the account is opened), an institution shall assume each interest rate is in effect for the length of time provided for in the deposit contract.

\[ \left( \frac{1 + \frac{26.68}{1,000}}{365/365} \right) \times 100 \]

\[ \text{APY} = 6.45\% \]

**Examples**

(1) If an institution offers a $1,000 6-month certificate of deposit on which it pays a 5% interest rate, compounded daily, for the first three months (which contain 91 days), and a 6.5% interest rate, compounded daily, for the next three months (which contain 92 days), the total interest for six months is $26.68 and, using the general formula above, the annual percentage yield is 5.39%:

\[ \text{APY} = 100 \left(1 + \frac{26.68}{1,000} \right) - 1 \]

\[ \text{APY} = 5.39\% \]

(2) If an institution offers a $1,000 two-year certificate of deposit on which it pays a 6% interest rate, compounded daily, for the first year, and a 6.5% interest rate, compounded daily, for the next year, the total interest for two years is $133.13, and, using the general formula above, the annual percentage yield is 6.45%:

\[ \left( \frac{1 + \frac{133.13}{1,000}}{365/730} \right) \times 100 \]

\[ \text{APY} = 6.45\% \]

**C. VARIABLE-RATE ACCOUNTS**

For variable-rate accounts without an introductory premium or discounted rate, an institution must base the calculation only on the initial interest rate in effect when the account is opened (or advertised), and assume that this rate will not change during the year.

Variable-rate accounts with an introductory premium (or discount) rate must be calculated like a stepped-rate account. Thus, an institution shall assume that: (1) The introductory interest rate is in effect for the length of time provided for in the deposit contract; and (2) the variable interest rate that would have been in effect when the account is opened or advertised (but for the introductory rate) is in effect for the remainder of the year. If the variable rate is tied to an index, the index-based rate in effect at the time of disclosure must be used for the remainder of the year. If the rate is not tied to an index, the rate in effect for existing consumers holding the same account (who are not receiving the introductory interest rate) must be used for the remainder of the year.

For example, if an institution offers an account on which it pays a 7% interest rate, compounded daily, for the first three months (which, for example, contain 91 days), while the variable interest rate that would have been in effect when the account was opened was 5%, the total interest for a 365-day year for a $1,000 deposit is $56.52 (based on 91 days at 7% followed by 274 days at 5%). Using the simple formula, the annual percentage yield is 5.65%:

\[ \text{APY} = 100 \left(1 + \frac{56.52}{1,000} \right) - 1 \]

\[ \text{APY} = 5.65\% \]

**D. TIERED-RATE ACCOUNTS (DIFFERENT RATES APPLY TO SPECIFIED BALANCE LEVELS)**

For accounts in which two or more interest rates paid on the account are applicable to specified balance levels, the institution must calculate the annual percentage yield in accordance with the method described below that it uses to calculate interest. In all cases, an annual percentage yield (or a range of annual percentage yields, if appropriate) must be disclosed for each balance tier.

For purposes of the examples discussed below, assume the following:

<table>
<thead>
<tr>
<th>Interest rate (percent)</th>
<th>Deposit balance required to earn rate</th>
</tr>
</thead>
<tbody>
<tr>
<td>5.25</td>
<td>Up to but not exceeding $2,500.</td>
</tr>
<tr>
<td>5.50</td>
<td>Above $2,500 but not exceeding $15,000.</td>
</tr>
<tr>
<td>5.75</td>
<td>Above $15,000.</td>
</tr>
</tbody>
</table>
Tiering Method A. Under this method, an institution pays on the full balance in the account the stated interest rate that corresponds to the applicable deposit tier. For example, if a consumer deposits $8,000, the institution pays the 5.50% interest rate on the entire $8,000.

When this method is used to determine interest, only one annual percentage yield will apply to each tier. Within each tier, the annual percentage yield will not vary with the amount of principal assumed to have been deposited.

For the interest rates and deposit balances assumed above, the institution will state three annual percentage yields—one corresponding to each balance tier. Calculation of each annual percentage yield is similar for this type of account as for accounts with a single interest rate. Thus, the calculation is based on the total amount of interest that would be received by the consumer for each tier of the account for a year and the principal assumed to have been deposited to earn that amount of interest.

First tier. Assuming daily compounding, the institution will pay $53.90 in interest on a $1,000 deposit. Using the simple formula, for the first tier, the annual percentage yield is 5.39%:

\[ \text{APY} = \frac{100 \times \text{Interest on $1,000 deposit}}{\text{Principal on $1,000 deposit}} = \frac{100 \times 53.90}{1,000} = 5.39\% \]

Second tier. The institution will pay $452.29 in interest on an $8,000 deposit. Thus, using the simple formula, the annual percentage yield for the second tier is 5.65%:

\[ \text{APY} = \frac{100 \times \text{Interest on $8,000 deposit}}{\text{Principal on $8,000 deposit}} = \frac{100 \times 452.29}{8,000} = 5.65\% \]

Third tier. The institution will pay $1,183.61 in interest on a $20,000 deposit. Thus, using the simple formula, the annual percentage yield for the third tier is 5.92%:

\[ \text{APY} = \frac{100 \times \text{Interest on $20,000 deposit}}{\text{Principal on $20,000 deposit}} = \frac{100 \times 1,183.61}{20,000} = 5.92\% \]

Tiering Method B. Under this method, an institution pays the stated interest rate only on that portion of the balance within the specified tier. For example, if a consumer deposits $8,000, the institution pays 5.25% on $2,500 and 5.50% on $5,500 (the difference between $8,000 and the first tier cut-off of $2,500).

The institution that computes interest in this manner must provide a range that shows the lowest and the highest annual percentage yields for each tier (other than for the first tier, which, like the tiers in Method A, has the same annual percentage yield throughout). The low figure for an annual percentage yield range is calculated based on the total amount of interest earned for a year assuming the minimum principal required to earn the interest rate for that tier.

The high figure for an annual percentage yield range is based on the amount of interest the institution would pay on the highest principal that could be deposited to earn that same interest rate. If the account does not have a limit on the maximum amount that can be deposited, the institution may assume any amount.

For the tiering structure assumed above, the institution would state a total of five annual percentage yields—one figure for the first tier and two figures stated as a range for the other two tiers.

First tier. Assuming daily compounding, the institution would pay $53.90 in interest on a $1,000 deposit. For this first tier, using the simple formula, the annual percentage yield is 5.39%:

\[ \text{APY} = \frac{100 \times \text{Interest on $1,000 deposit}}{\text{Principal on $1,000 deposit}} = \frac{100 \times 53.90}{1,000} = 5.39\% \]

Second tier. For the second tier, the institution would pay between $134.75 and $451.45 in interest, based on assumed balances of $2,500.01 and $15,000, respectively. For $2,500.01, interest would be figured on $2,500 at 5.25% interest rate plus interest on $.01 at 5.50%. For the low end of the second tier, therefore, the annual percentage yield is 5.39%, using the simple formula:

\[ \text{APY} = \frac{100 \times \text{Interest on $2,500.01 deposit}}{\text{Principal on $2,500.01 deposit}} = \frac{100 \times 134.75}{2,500} = 5.39\% \]

Third tier. For the third tier, the institution would pay between $341.45 and $841.45 in interest, based on assumed balances of $15,000.01 and $100,000, respectively. For $15,000.01, interest would be figured on $12,500 at 5.50% interest rate plus interest on $.01 at 5.75% interest rate. For the low end of the third tier, therefore, the annual percentage yield range for the second tier is 5.39% to 5.61%.

Thus, the annual percentage yield range for the third tier is 5.92% to 5.97%.

Since the institution does not limit the account balance, it may assume any maximum amount for the purposes of computing the annual percentage yield for the high end of the third tier. For an assumed maximum balance amount of $100,000, interest would be figured on $2,500 at 5.25% interest rate, plus interest on $12,500 at 5.50% interest rate, plus interest on $85,000 at 5.75% interest rate. For the high end of the third tier, therefore, the annual percentage yield, using the simple formula, is 5.87%:

\[ \text{APY} = \frac{100 \times \text{Interest on $100,000 deposit}}{\text{Principal on $100,000 deposit}} = \frac{100 \times 8,717.99}{100,000} = 5.87\% \]
Federal Reserve System

Thus, the annual percentage yield range that would be stated for the third tier is 5.61% to 5.87%.

If the assumed maximum balance amount is $1,000,000 instead of $100,000, the institution would use $985,000 rather than $85,000 in the last calculation. In that case, for the high end of the third tier the annual percentage yield, using the simple formula, is 5.91%: APY = 100 \left(\frac{5934.22}{1,000,000}\right)

APY = 5.91%

Thus, the annual percentage yield range that would be stated for the third tier is 5.61% to 5.91%.

E. Time Accounts with a Stated Maturity Greater than One Year that Pay Interest At Least Annually

1. For time accounts with a stated maturity greater than one year that do not compound interest on an annual or more frequent basis, and that require the consumer to withdraw interest at least annually, the annual percentage yield may be disclosed as equal to the interest rate.

Example

(1) If an institution offers a $1,000 two-year certificate of deposit that does not compound and that pays out interest semi-annually by check or transfer at a 6.00% interest rate, the annual percentage yield may be disclosed as 6.00%.

(2) For time accounts covered by this paragraph that are also stepped-rate accounts, the annual percentage yield may be disclosed as equal to the composite interest rate.

Example

(1) If an institution offers a $1,000 three-year certificate of deposit that does not compound and that pays out interest annually by check or transfer at a 5.00% interest rate for the first year, 6.00% interest rate for the second year, and 7.00% interest rate for the third year, the institution may compute the composite interest rate and APY as follows:

(a) Multiply each interest rate by the number of days it will be in effect;
(b) Add these figures together; and
(c) Divide by the total number of days in the term.

(2) Applied to the example, the products of the interest rates and days the rates are in effect are (5.00%×365 days) 1825, (6.00%×365 days) 2190, and (7.00%×365 days) 2555, respectively. The sum of these products, 6570, is divided by 1095, the total number of days in the term. The composite interest rate and APY are both 6.00%.

Part II. Annual Percentage Yield Earned for Periodic Statements

The annual percentage yield earned for periodic statements under §230.6(a) is an annualized rate that reflects the relationship between the amount of interest actually earned on the consumer’s account during the statement period and the average daily balance in the account for the statement period. Pursuant to §230.6(b), however, if an institution uses the average daily balance method and calculates interest for a period other than the statement period, the annual percentage yield earned shall reflect the relationship between the amount of interest earned and the average daily balance in the account for that other period.

The annual percentage yield earned shall be calculated by using the following formulas (“APY Earned” is used for convenience in the formulas):

A. General formula.

\[
\text{APY Earned} = 100 \cdot \left(1 + \frac{\text{Interest earned}}{\text{Balance}}\right)^{\frac{365}{\text{Days in period}}} - 1
\]

“Balance” is the average daily balance in the account for the period.

“Interest earned” is the actual amount of interest earned on the account for the period.

“Days in period” is the actual number of days for the period.

Examples

(1) Assume an institution calculates interest for the statement period (and uses either the daily balance or the average daily balance method), and the account has a balance of $1,500 for 15 days and a balance of $500 for the remaining 15 days of a 30-day statement period. The average daily balance for the period is $1,000. The interest earned (under either balance computation method) is $3.25 during the period. The annual percentage yield earned (using the formula above) is 6.58%:

\[
\text{APY Earned} = 100 \cdot \left(1 + \frac{3.25}{1,000}\right)^{\frac{365}{30}} - 1
\]

APY Earned = 6.58%

(2) Assume an institution calculates interest on the average daily balance for the calendar month and provides periodic statements that cover the period from the 16th of one month to the 15th of the next month. The account has a balance of $2,000 September 1 through September 15 and a balance of $1,000 for the remaining 15 days of September. The average daily balance for the month of September is $1,500, which results in $6.50 in interest earned for the month. The annual percentage yield earned for the month of September would be shown on the periodic statement covering September 16 through October 15. The annual percentage yield earned (using the formula above) is 5.40%:

\[
\text{APY Earned} = 100 \cdot \left(1 + \frac{6.50}{1,500}\right)^{\frac{365}{30}} - 1
\]

APY Earned = 5.40%

(3) Assume an institution calculates interest on the average daily balance for a quarter (for example, the calendar months of September through November), and provides monthly periodic statements covering calendar months. The account has a balance of...
$1,000 throughout the 30 days of September, a balance of $2,000 throughout the 31 days of October, and a balance of $3,000 throughout the 30 days of November. The average daily balance for the quarter is $2,000, which results in $21 in interest earned for the quarter. The annual percentage yield earned would be shown on the periodic statement for November. The annual percentage yield earned (using the formula above) is 4.28%:

\[
\text{APY Earned} = 100 \left(1 + \frac{\text{Interest earned/Balance}}{\text{Days in period}} \right)^{\frac{365}{\text{Compounding}}} - 1
\]

The following definition applies for use in this formula (all other terms are defined under Part II):

"Compounding" is the number of days in each compounding period.

Assume an institution calculates interest for the statement period using the daily balance method, pays a 5.00% interest rate, compounded annually, and provides periodic statements for each monthly cycle. The account has a daily balance of $1,000 for a 30-day statement period. The interest earned is $4.11 for the period, and the annual percentage yield earned (using the special formula above) is 5.00%:

\[
\text{APY Earned} = 100 \left(1 + \frac{4.11/1,000}{30} \right)^{\frac{365}{365}} - 1
\]

### APPENDIX B TO PART 230—MODEL CLAUSES AND SAMPLE FORMS

#### Table of contents

B-1—Model Clauses for Account Disclosures (Section 230.4(b))

B-2—Model Clauses for Change in Terms (Section 230.5(a))

B-3—Model Clauses for Pre-Maturity Notices for Time Accounts (Section 230.5(b)(2) and 230.5(d))

B-4—Sample Form (Multiple Accounts)

B-5—Sample Form (Now Account)

B-6—Sample Form (Tiered Rate Money Market Account)

B-7—Sample Form (Certificate of Deposit)

B-8—Sample Form (Certificate of Deposit Advertisement)

B-9—Sample Form (Money Market Account Advertisement)

#### B-1—Model Clauses for Account Disclosures

(a) Rate information

(i) Fixed-rate accounts

The interest rate on your account is ___% with an annual percentage yield of ___%.

You will be paid this rate [for (time period) until (date) for at least 30 calendar days].

(ii) Variable-rate accounts

The interest rate on your account is ___% with an annual percentage yield of ___%.

Your interest rate and annual percentage yield may change.

**Determining Rate**

The interest rate on your account is based on (name of index) [plus/minus a margin of ___%].

or

At our discretion, we may change the interest rate on your account.

**Frequency of Rate Changes**

We may change the interest rate on your account [every (time period) at any time].
Federal Reserve System

Limitations on Rate Changes

The interest rate for your account will never change by more than ___% each (time period).

The interest rate will never be [less/more] than ___%.

or

The interest rate will never exceed ___% above/drop more than ___% below the interest rate initially disclosed to you.

(iii) Stepped-rate accounts

The initial interest rate for your account is __%. You will be paid this rate [for (time period)/until (date)]. After that time, the interest rate for your account will be ___%, and you will be paid this rate [for (time period)/until (date)]. The annual percentage yield for your account is ___%.

(iv) Tiered-rate accounts

Tiering Method A

• If your [daily balance/average daily balance] is $___ or more, the interest rate paid on the entire balance in your account will be ___% with an annual percentage yield of ___%.
• If your [daily balance/average daily balance] is more than $___, but less than $___, the interest rate paid on the entire balance in your account will be ___% with an annual percentage yield of ___%.
• If your [daily balance/average daily balance] is $___ or less, the interest rate paid on the entire balance will be ___% with an annual percentage yield of ___%.

Tiering Method B

• An interest rate of ___% will be paid only for that portion of your [daily balance/average daily balance] that is greater than $___.
• An interest rate of ___% will be paid only for that portion of your [daily balance/average daily balance] that is greater than $___, but less than $___.
• An interest rate of ___% will be paid only for that portion of your [daily balance/average daily balance] that is greater than $___, but less than $___.

The average daily balance is calculated by adding the principal in the account for each day of the period and dividing that figure by the number of days in the period.

(iii) To obtain the annual percentage yield disclosed

You must maintain a minimum balance of $___ in the account each day to obtain the disclosed annual percentage yield. You must maintain a minimum average daily balance of $___ to obtain the disclosed annual percentage yield. The average daily balance is calculated by adding the principal in the account for each day of the period and dividing that figure by the number of days in the period.

(d) Balance computation method

(i) Daily balance method

We use the daily balance method to calculate the interest on your account. This method applies a daily periodic rate to the principal in the account each day.

(ii) Average daily balance method

We use the average daily balance method to calculate the interest on your account. This method applies a periodic rate to the average daily balance in the account for the period. The average daily balance is calculated by adding the principal in the account for each day of the period and dividing that figure by the number of days in the period.

(e) Accrual of interest on noncash deposits

Interest begins to accrue no later than the business day we receive credit for the deposit of noncash items (for example, checks).

or

Interest begins to accrue on the business day you deposit noncash items (for example, checks).

(f) Fees

The following fees may be assessed against your account:

$___
$___
$___

(conditions for imposing fee) ___%

(g) Transaction limitations

The minimum amount you may [withdraw/write a check for] is $___.

You may make ___ [deposits into/withdrawals from] your account each (time period).

793
You may not make deposits into/withdrawals from your account until the maturity date.

(h) Disclosures relating to time accounts
(i) Time requirements
Your account will mature on (date).
Your account will mature in (time period).
(ii) Early withdrawal penalties
We [will/may] impose a penalty if you withdraw [any/all] of the [deposited funds/principal] before the maturity date. The fee imposed will equal _____ days/week/month[s] of interest.

or

We [will/may] impose a penalty of $_____ if you withdraw [any/all] of the [deposited funds/principal] before the maturity date.

If you withdraw some of your funds before maturity, the interest rate for the remaining funds in your account will be _____ % with an annual percentage yield of _____ %.

(iii) Withdrawal of interest prior to maturity
The annual percentage yield assumes interest will remain on deposit until maturity. A withdrawal will reduce earnings.

(iv) Renewal policies
(1) Automatically renewable time accounts
This account will automatically renew at maturity.
You will have [_____ calendar/business] days after the maturity date to withdraw funds without penalty.

or

There is no grace period following the maturity of this account to withdraw funds without penalty.

(2) Non-automatically renewable time accounts
This account will not renew automatically at maturity. If you do not renew the account, your deposit will be placed in [an interest-bearing/noninterest-bearing] account.

(v) Required interest distribution.

This account requires the distribution of interest and does not allow interest to remain in the account.

(i) Bonuses
You will [be paid/receive] [$_____/(description of item)] as a bonus [when you open the account/on (date) _____].
You must maintain a minimum [daily balance/average daily balance] of $_____ to obtain the bonus.

To earn the bonus, [$_____/your entire principal] must remain on deposit [for (time period)/until (date) _____].

B-2—MODEL CLAUSES FOR CHANGE IN TERMS
On (date), the cost of (type of fee) will increase to $_____.

On (date), the interest rate on your account will decrease to _____ % with an annual percentage yield of _____ %.

On (date), the minimum [daily balance/average daily balance] required to avoid imposition of a fee will increase to $_____.

B-3—MODEL CLAUSES FOR PRE-MATURITY NOTICES FOR TIME ACCOUNTS
(a) Automatically renewable time accounts with maturities of one year or less but longer than one month
Your account will mature on (date).
If the account renews, the new maturity date will be (date).
The interest rate for the renewed account will be _____ % with an annual percentage yield of _____ %.

or

The interest rate and annual percentage yield have not yet been determined. They will be available on (date). Please call (phone number) to learn the interest rate and annual percentage yield for your new account.

(b) Non-automatically renewable time accounts with maturities longer than one year
Your account will mature on (date).
If you do not renew the account, interest [will/will not] be paid after maturity.
B-4 – SAMPLE FORM (MULTIPLE ACCOUNTS)

BANK ABC

DISCLOSURE OF ACCOUNT TERMS

This disclosure contains information about your:

X NOW Account

- Your interest rate and annual percentage yield may change. At our discretion, we may change the interest rate on your account daily. The interest rate for your account will never be less than 2.00%.
- Interest begins to accrue on the business day you deposit noncash items (for example, checks).
- Interest is compounded daily and credited on the last day of each month. If you close your account before interest is credited, you will not receive the accrued interest.
- We use the daily balance method to calculate the interest on your account. This method applies a daily periodic rate to the principal in the account each day.

___ Passbook Savings Account

- The interest rate on your account will be paid for at least 30 days.
- Interest begins to accrue on the business day you deposit noncash items (for example, checks).
- Interest is compounded daily and credited on the last day of each month. If you close your account before interest is credited, you will not receive the accrued interest.
- We use the daily balance method to calculate the interest on your account. This method applies a daily periodic rate to the principal in the account each day.

Additional disclosures for your account are included on the attached sheets.
Money Market Account

- Your interest rate and annual percentage yield may change. At our discretion, we may change the interest rate on your account daily. The interest rate on your account will never be less than 3.00%.
- You may make six (6) transfers from your account, but only three (3) may be payments by check to third parties.
- Interest begins to accrue on the business day you deposit noncash items (for example, checks). Interest is compounded daily and credited on the last day of each month. If you close your account before interest is credited, you will not receive the accrued interest.
- We use the daily balance method to calculate the interest on your account. This method applies a daily periodic rate to the principal in the account each day.

Certificates of Deposit

- The interest rate for your account will be paid until the maturity date of your certificate (__________).
- Interest is compounded daily and will be credited to your account monthly.
- Interest begins to accrue on the business day you deposit noncash items (for example, checks).
- This account will automatically renew at maturity. You will have ten (10) calendar days from the maturity date to withdraw your funds without being charged a penalty.
- After the account is opened, you may not make deposits into or withdrawals from this account until the maturity date.
- We use the daily balance method to calculate the interest on your account. This method applies a daily periodic rate to the principal in the account each day.
- If any of the deposit is withdrawn before the maturity date, a penalty as shown below will be imposed:

- Interest is compounded daily and credited on the last day of each month.

Minimum balance requirements

- You must deposit $1,000 to open this account.

- A minimum balance fee of $5.00 will be imposed every month if the balance in your account falls below $1,000 any day of the month.

Balance computation method

- We use the daily balance method to calculate the interest on your account. This method applies a daily periodic rate to the principal in the account each day.

Transaction limitations

- You may make six (6) transfers from your account, but only three (3) may be payments by check to third parties.
B-7 -- SAMPLE FORM (CERTIFICATE OF DEPOSIT)

XYZ SAVINGS BANK
1 YEAR CERTIFICATE OF DEPOSIT

Rate information
The interest rate for your account is 5.20% with an annual percentage yield of 5.34%. You will be paid this rate until the maturity date of the certificate. Your certificate will mature on September 30, 1993. The annual percentage yield assumes interest remains on deposit until maturity. A withdrawal will reduce earnings.

Interest for your account will be compounded daily and credited to your account on the last day of each month.

Interest begins to accrue on the business day you deposit any noncash item (for example, checks).

Minimum balance requirements
You must deposit $1,000 to open this account.

You must maintain a minimum balance of $1,000 in your account every day to obtain the annual percentage yield listed above.

Balance computation method
We use the daily balance method to calculate the interest on your account. This method applies a daily periodic rate to the principal in the account each day.

Transaction limitations
After the account is opened, you may not make deposits into or withdrawals from the account until the maturity date.

Early withdrawal penalty
If you withdraw any principal before the maturity date, a penalty equal to three months interest will be charged to your account.

Renewal policy
This account will be automatically renewed at maturity. You have a grace period of ten (10) calendar days after the maturity date to withdraw the funds without being charged a penalty.

APPENDIX C TO PART 230—EFFECT ON STATE LAWS

(a) Inconsistent Requirements

State law requirements that are inconsistent with the requirements of the act and this part are preempted to the extent of the inconsistency. A state law is inconsistent if it requires a depository institution to make disclosures or take actions that contradict the requirements of the federal law. A state law is also contradictory if it requires the use of the same term to represent a different amount or a different meaning than the federal law, requires the use of a term different from that required in the federal law to describe the same item, or permits a method of calculating interest on an account different from that required in the federal law.

(b) Preemption Determinations

A depository institution, state, or other interested party may request the Board to determine whether a state law requirement is inconsistent with the federal requirements. A request for a determination shall be in writing and addressed to the Secretary, Board of Governors of the Federal Reserve.
(c) Effect of Preemption Determinations

After the Board determines that a state law is inconsistent, a depository institution may not make disclosures using the inconsistent term or take actions relying on the inconsistent law.

(d) Reversal of Determination

The Board reserves the right to reverse a determination for any reason bearing on the coverage or effect of state or federal law. Notice of reversal of a determination will be published in the Federal Register and a copy furnished to the appropriate state official.

APPENDIX D TO PART 230—ISSUANCE OF STAFF INTERPRETATIONS

Officials in the Board’s Division of Consumer and Community Affairs are authorized to issue official staff interpretations of this part. These interpretations provide the protections afforded under section 271(f) of the act. Except in unusual circumstances, interpretations will not be issued separately but will be incorporated in an official commentary to this part, which will be amended periodically. No staff interpretations will be issued approving depository institutions’ forms, statements, or calculation tools or methods.

SUPPLEMENT I TO PART 230—OFFICIAL STAFF INTERPRETATIONS

INTRODUCTION

1. Official status. This commentary is the means by which the Division of Consumer and Community Affairs of the Federal Reserve Board issues official staff interpretations of Regulation DD. Good faith compliance with this commentary affords protection from liability under section 271(f) of the Truth in Savings Act.

Section 230.1 Authority, purpose, coverage, and effect on state laws

(c) Coverage

1. Foreign applicability. Regulation DD applies to all depository institutions, except credit unions, that offer deposit accounts to residents (including resident aliens) of any state as defined in §230.2(r). Accounts held in an institution located in a state are covered, even if funds are transferred periodically to a location outside the United States. Accounts held in an institution located outside the United States are not covered, even if held by a U.S. resident.

2. Persons who advertise accounts. Persons who advertise accounts are subject to the advertising rules. For example, if a deposit broker places an advertisement offering consumers an interest in an account at a depository institution, the advertising rules apply to the advertisement, whether the account is to be held by the broker or directly by the consumer.

Section 230.2 Definitions

1. Covered accounts. Examples of accounts subject to the regulation are:
   i. Interest-bearing and noninterest-bearing accounts
   ii. Deposit accounts opened as a condition of obtaining a credit card
   iii. Accounts denominated in a foreign currency
   iv. Individual retirement accounts (IRAs) and simplified employee pension (SEP) accounts
   v. Payable on death (POD) or “Totten trust” accounts

2. Other accounts. Examples of accounts not subject to the regulation are:
   i. Mortgage escrow accounts for collecting taxes and property insurance premiums
   ii. Accounts established to make periodic disbursements on construction loans
   iii. Trust accounts opened by a trustee pursuant to a formal written trust agreement (not merely declarations of trust on a signature card such as a “Totten trust,” or an IRA and SEP account)
   iv. Accounts opened by an executor in the name of a decedent’s estate

3. Other investments. The term “account” does not apply to all products of a depository institution. Examples of products not covered are:
   i. Government securities
   ii. Mutual funds
   iii. Annuities
   iv. Securities or obligations of a depository institution
   v. Contractual arrangements such as repurchase agreements, interest rate swaps, and bankers acceptances

(b) Advertisement

1. Covered messages. Advertisements include commercial messages in visual, oral, or print media that invite, offer, or otherwise announce generally to prospective customers the availability of consumer accounts—such as:
   i. Telephone solicitations
   ii. Messages on automated teller machine (ATM) screens

804
iii. Messages on a computer screen in an institution’s lobby (including any printout) other than a screen viewed solely by the institution’s employee.

iv. Messages in a newspaper, magazine, or promotional flyer or on radio.

v. Messages that are provided along with information about the consumer’s existing account and that promote another account at the institution.

2. Other messages. Examples of messages that are not advertisements are:

i. Rate sheets in a newspaper, periodical, or trade journal (unless the depository institution, or a deposit broker offering accounts at the institution, pays a fee for or otherwise controls publication).

ii. In-person discussions with consumers about the terms for a specific account.

iii. For purposes of §230.8(b) of this part through §230.8(e) of this part, information given to consumers about existing accounts, such as current rates recorded on a voice-response machine or notices for automatically renewable time account sent before renewal.

iv. Information about a particular transaction in an existing account.

v. Disclosures required by federal or other applicable law.

vi. A deposit account agreement.

1. Examples. Bonuses include items of value, other than interest, offered as incentives to consumers, such as an offer to pay the final installment deposit for a holiday club account. Items that are not a bonus include discount coupons for goods or services at restaurants or stores.

2. De minimis rule. Items with a de minimis value of $10 or less are not bonuses. Institutions may rely on the valuation standard used by the Internal Revenue Service to determine if the value of the item is de minimis. Examples of items of de minimis value are:

i. Disability insurance premiums valued at an amount of $10 or less per year.

ii. Coffee mugs, T-shirts or other merchandise with a market value of $10 or less.

3. Aggregation. In determining if an item valued at $10 or less is a bonus, institutions must aggregate per account per calendar year items that may be given to consumers. In making this determination, institutions aggregate per account only the market value of items that may be given for a specific promotion. To illustrate, assume an institution offers in January to give consumers an item valued at $7 for each calendar quarter during the year that the average account balance in a negotiable order of withdrawal (NOW) account exceeds $10,000. The bonus rules are triggered, since consumers are eligible under the promotion to receive up to $28 during the year. However, the bonus rules are not triggered if an item valued at $7 is offered to consumers opening a NOW account during the month of January, even though in November the institution introduces a new promotion that includes, for example, an offer to existing NOW account holders for an item valued at $8 for maintaining an average balance of $5,000 for the month.

4. Waiver or reduction of a fee or absorption of expenses. Bonuses do not include value that consumers receive through the waiver or reduction of fees (even if the fees waived exceed $10) for banking-related services such as the following:

i. A safe deposit box rental fee for consumers who open a new account.

ii. Fees for travelers checks for account holders.

iii. Discounts on interest rates charged for loans at the institution.

(h) Consumer.

1. Professional capacity. Examples of accounts held by a natural person in a professional capacity for another are attorney-client trust accounts and landlord-tenant security accounts.

2. Other accounts. Accounts not held in a professional capacity include accounts held by an individual for a child under the Uniform Gifts to Minors Act.

3. Sole proprietors. Accounts held by individuals as sole proprietors are not covered.

4. Retirement plans. IRAs and SEP accounts are consumer accounts to the extent that funds are invested in covered accounts. But Keogh accounts are not subject to the regulation.

(i) Depository institution and institution.

1. Foreign institutions. Branches of foreign institutions located in the United States are subject to the regulation if they offer deposit accounts to consumers. Edge Act and Agreement corporations, and agencies of foreign institutions, are not depository institutions for purposes of this regulation.

(k) Deposit broker.

1. General. A deposit broker is a person who is in the business of placing or facilitating the placement of deposits in an institution, as defined by the Federal Deposit Insurance Act (12 U.S.C. 29(g)).

(n) Interest.

1. Relation to Regulation Q. While bonuses are not interest for purposes of this regulation, other regulations may treat them as the equivalent of interest. For example, Regulation Q identifies payments of cash or merchandise that violate the prohibition against paying interest on demand accounts. (See 12 CFR §217.2(d)).

(p) Passbook savings account.

1. Relation to Regulation E. Passbook savings accounts include accounts accessed by preauthorized electronic fund transfers to the account (as defined in 12 CFR §230.2(j)), such as an account that receives direct deposit of social security payments. Accounts permitting access by other electronic means are not “passbook saving accounts” and must comply with the requirements of §230.6.
if statements are sent four or more times a year.

(q) Periodic statement
1. Examples. Periodic statements do not include:
   i. Additional statements provided solely upon request
   ii. General service information such as a quarterly newsletter or other correspondence describing available services and products
   (b) Tiered-rate account
1. Time accounts. Time accounts paying different rates based solely on the amount of the initial deposit are not tiered-rate accounts.
   2. Minimum balance requirements. A requirement to maintain a minimum balance to earn interest does not make an account a tiered-rate account.
   (a) Time account
1. Club accounts. Although club accounts typically have a maturity date, they are not time accounts unless they also require a penalty of at least seven days’ interest for withdrawals during the first six days after the account is opened.
   2. Relation to Regulation D. Regulation D permits in limited circumstances the withdrawal of funds without penalty during the first six days after a “time deposit” is opened. (See 12 CFR §204.2(c)(1)(i).) But the fact that a consumer makes a withdrawal as permitted by Regulation D does not disqualify the account from being a time account for purposes of this regulation.
   (v) Variable-rate account
1. General. A certificate of deposit permitting one or more rate adjustments prior to maturity at the consumer’s option is a variable-rate account.

Section 230.3 General disclosure requirements
(a) Form
1. Design requirements.Disclosures must be presented in a format that allows consumers to readily understand the terms of their account. Institutions are not required to use a particular type size or typeface, nor are institutions required to state any term more conspicuously than any other term. Disclosures may be made:
   i. In any order
   ii. In combination with other disclosures or account terms
   iii. In combination with disclosures for other types of accounts, as long as it is clear to consumers which disclosures apply to their account
   iv. On more than one page and on the front and reverse sides
   v. By using inserts to a document or filling in blanks
   vi. On more than one document, as long as the documents are provided at the same time
2. Consistent terminology. Institutions must use consistent terminology to describe terms or features required to be disclosed. For example, if an institution describes a monthly fee (regardless of account activity) as a “monthly service fee” in account-opening disclosures, the periodic statement and change-in-term notices must use the same terminology so that consumers can readily identify the fee.

(b) General
1. Specificity of legal obligation. Institutions may refer to the calendar month or to roughly equivalent intervals during a calendar year as a “month.”
2. Relation to Regulation E
1. General rule. Compliance with Regulation E (12 CFR part 205) is deemed to satisfy the disclosure requirements of this regulation, such as when:
   i. An institution changes a term that triggers a notice under Regulation E, and uses the timing and disclosure rules of Regulation E for sending change-in-term notices
   ii. Consumers add an ATM access feature to an account, and the institution provides disclosures pursuant to Regulation E, including disclosure of fees (See 12 CFR §205.7.)
   iii. An institution complying with the timing rules of Regulation E discloses at the same time fees for electronic services (such as for balance inquiry fees at ATMs) required to be disclosed by this regulation but not by Regulation E
   iv. An institution relies on Regulation E’s rules regarding disclosure of limitations on the frequency and amount of electronic fund transfers, including security-related exceptions. But any limitations on “intra-institutional transfers” to or from the consumer’s other accounts during a given time period must be disclosed, even though intra-institutional transfers are exempt from Regulation E.
3. Relation to advertising.
1. General. A certificate of deposit permitting one or more rate adjustments prior to maturity at the consumer’s option is a variable-rate account.

(e) Oral response to inquiries
1. Application of rule. Institutions are not required to provide rate information orally.
2. Relation to advertising. The advertising rules do not cover an oral response to a question about rates.
3. Existing accounts. This paragraph does not apply to oral responses about rate information for existing accounts. For example, if a consumer holding a one-year certificate of deposit (CD) requests interest rate information about the CD during the term, the institution need not disclose the annual percentage yield.

(f) Rounding and accuracy rules for rates and yields
1. Permissible rounding. Examples of permissible rounding are an annual percentage yield calculated to be 5.64%, rounded down and disclosed as 5.64%; 5.64% rounded up and disclosed as 5.65%.
percentage yield and annual percentage yield earned calculations is designed to accommodate inadvertent errors. Institutions may not purposely incorporate the tolerance into their calculation of yields.

Section 230.4 Account disclosures

(a) Delivery of account disclosures

(a)(1) Account opening

1. New accounts. New account disclosures must be provided when:
   i. A time account that does not automatically rollover is renewed by a consumer
   ii. A consumer changes a term for a renewable time account (see §230.5(b)-5 regarding disclosure alternatives)
   iii. An institution transfers funds from an account to open a new account not at the consumer’s request, unless the institution previously gave account disclosures and any change-in-term notices for the new account
   iv. An institution accepts a deposit from a consumer to an account that the institution had deemed closed for the purpose of treating accrued but uncredited interest as forfeited interest (see §230.7(b)-3)

2. Acquired accounts. New account disclosures need not be given when an institution acquires an account through an acquisition of or merger with another institution (but see §230.5(a) regarding advance notice requirements if terms are changed).

(a)(2) Requests

(b)(1) Rate information

1. Inquiries versus requests. A response to an oral inquiry (by telephone or in person) about rates and yields or fees does not trigger the duty to provide account disclosures. But when consumers ask for written information about an account (whether by telephone, in person, or by other means), the institution must provide disclosures unless the account is no longer offered to the public.

2. General requests. When responding to a consumer’s general request for disclosures about a type of account (a NOW account, for example), an institution that offers several variations may provide disclosures for any one of them.

3. Timing for response. Ten business days is a reasonable time for responding to requests for account information that consumers do not make in person, including requests made by electronic means (such as by electronic mail).

4. Use of electronic means. If a consumer who is not present at the institution makes a request for account disclosures, including a request made by telephone, e-mail, or via the institution’s Web site, the institution may send the disclosures in paper form or, if the consumer agrees, may provide the disclosures electronically, such as to an e-mail address that the consumer provides for that purpose, or on the institution’s Web site, without regard to the consumer consent or other provisions of the E-Sign Act. The regulation does not require an institution to provide, nor a consumer to agree to receive, the disclosures required by §230.4(a)(2) in electronic form.

(a)(2)(i)(A) 1. Recent rates. Institutions comply with this paragraph if they disclose an interest rate and annual percentage yield accurate within the seven calendar days preceding the date they send the disclosures.

(a)(2)(ii)(B) 1. Term. Describing the maturity of a time account as “1 year” or “6 months,” for example, illustrates a statement of the maturity of a time account as a term rather than a date (“January 10, 1995”).

(b) Content of account disclosures

(b)(1) Rate information

(b)(1)(i) Annual percentage yield and interest rate

1. Rate disclosures. In addition to the interest rate and annual percentage yield, institutions may disclose a periodic rate corresponding to the interest rate. No other rate or yield (such as “tax effective yield”) is permitted. If the annual percentage yield is the same as the interest rate, institutions may disclose a single figure but must use both terms.

2. Fixed-rate accounts. For fixed-rate time accounts paying the opening rate until maturity, institutions may disclose the period of time the interest rate will be in effect by stating the maturity date. (See appendix B, B-7—Sample Form.) For other fixed-rate accounts, institutions may use a date (“This rate will be in effect through May 4, 1995”) or a period (“This rate will be in effect for at least 30 days”).

3. Tiered-rate accounts. Each interest rate, along with the corresponding annual percentage yield for each specified balance level (or range of annual percentage yields, if appropriate), must be disclosed for tiered-rate accounts. (See appendix A, Part I, Paragraph D.)

4. Stepped-rate accounts. A single composite annual percentage yield must be disclosed for stepped-rate accounts. (See appendix A, Part I, Paragraph B.) The interest rates and the period of time each will be in effect also must be provided. When the initial rate offered for a specified time on a variable-rate account is higher or lower than the rate that would otherwise be paid on the account, the calculation of the annual percentage yield must be made as if for a stepped-rate account. (See appendix A, Part I, Paragraph C.)

(b)(1)(ii) Variable rates

(b)(1)(ii)(B) 1. Determining interest rates. To disclose how the interest rate is determined, institutions must:

   i. Identify the index and specific margin, if the interest rate is tied to an index
ii. State that rate changes are within the institution’s discretion, if the institution does not tie changes to an index

(b)(1)(ii)(C)

1. Frequency of rate changes. An institution reserving the right to change rates at its discretion must state the fact that rates may change at any time.

(b)(1)(ii)(D)

1. Limitations. A floor or ceiling on rates or on the amount the rate may decrease or increase during any time period must be disclosed. Institutions need not disclose the absence of limitations on rate changes.

(b)(2) Compounding and crediting

(b)(2)(ii) Effect of closing an account

1. Deeming an account closed. An institution may, subject to state or other law, provide in its deposit contracts the actions by consumers that will be treated as closing the account and that will result in the forfeiture of accrued but uncredited interest. An example is the withdrawal of all funds from the account prior to the date that interest is credited.

(b)(3) Balance information

(b)(3)(ii) Balance computation method

1. Methods and periods. Institutions may use different methods or periods to calculate minimum balances for purposes of imposing a fee (the daily balance for a calendar month, for example) and accruing interest (the average daily balance for a statement period, for example). Each method and corresponding period must be disclosed.

(b)(3)(iii) When interest begins to accrue

1. Additional information. Institutions may disclose additional information such as the time of day after which deposits are treated as having been received the following business day, and may use additional descriptive terms such as “ledger” or “collected” balances to disclose when interest begins to accrue.

(b)(4) Fees

1. Covered fees. The following are types of fees that must be disclosed:

i. Maintenance fees, such as monthly service fees

ii. Fees to open or to close an account

iii. Fees related to deposits or withdrawals, such as fees for use of the institution’s ATMs

iv. Fees for special services, such as stop-payment fees, fees for balance inquiries or verification of deposits, fees associated with checks returned unpaid, and fees for regularly sending to consumers checks that otherwise would be held by the institution

2. Other fees. Institutions need not disclose fees such as the following:

i. Fees for services offered to account and nonaccount holders alike, such as travelers checks and wire transfers (even if different amounts are charged to account and non-account holders)

ii. Incidental fees, such as fees associated with state escheat laws, garnishment or attorneys fees, and fees for photocopying

3. Amount of fees. Institutions must state the amount and conditions under which a fee may be imposed. Naming and describing the fee (such as “$4.00 monthly service fee”) will typically satisfy these requirements.

4. Tied-accounts. Institutions must state if fees that may be assessed against an account are tied to other accounts at the institution. For example, if an institution ties the fees payable on a NOW account to balances held in the NOW account and a savings account, the NOW account disclosures must state that fact and explain how the fee is determined.

5. Fees for overdrawing an account. Under §230.4(b)(4) of this part, institutions must disclose the conditions under which a fee may be imposed. In satisfying this requirement institutions must specify the categories of transactions for which an overdraft fee may be imposed. An exhaustive list of transactions is not required. It is sufficient for an institution to state that the fee applies to overdrafts “created by check, in-person withdrawal, ATM withdrawal, or other electronic means,” as applicable. Disclosing a fee “for overdraft items” would not be sufficient.

(b)(5) Transaction limitations

1. General rule. Examples of limitations on the number or dollar amount of deposits or withdrawals that institutions must disclose are:

i. Limits on the number of checks that may be written on an account within a given time period

ii. Limits on withdrawals or deposits during the term of a time account

iii. Limitations required by Regulation D on the number of withdrawals permitted from money market deposit accounts by check to third parties each month. Institutions need not disclose reservations of right to require notices for withdrawals from accounts required by federal or state law.

(b)(6) Features of time accounts

(b)(6)(i) Time requirements

1. “Callable” time accounts. In addition to the maturity date, an institution must state the date or the circumstances under which it may redeem a time account at the institution’s option (a “callable” time account).

(b)(6)(ii) Early withdrawal penalties

1. General. The term “penalty” may but need not be used to describe the loss of interest that consumers may incur for early withdrawal of funds from time accounts.

2. Examples. Examples of early withdrawal penalties are:

i. Monetary penalties, such as “$10.00” or “seven days’ interest plus accrued but uncredited interest”

ii. Adverse changes to terms such as a lowering of the interest rate, annual percentage
yield, or compounding frequency for funds remaining on deposit

iii. Reclamation of bonuses

3. Relation to rules for IRAs or similar plans. Penalties imposed by the Internal Revenue Code for certain withdrawals from IRAs or similar pension or savings plans are not early withdrawal penalties for purposes of this regulation.

4. Disclosing penalties. Penalties may be stated in months, whether institutions assess the penalty using the actual number of days during the period or using another method such as a number of days that occurs in any actual sequence of the total calendar months involved. For example, stating “one month’s interest” is permissible, whether the institution assesses 30 days’ interest during the month of April, or selects a time period between 28 and 31 days for calculating the interest for all early withdrawals regardless of when the penalty is assessed.

(b)(6)(iv) Renewal policies

1. Rollover time accounts. Institutions offering a grace period on time accounts that automatically renew need not state whether interest will be paid if the funds are withdrawn during the grace period.

2. Nonrollover time accounts. Institutions paying interest on funds following the maturity of time accounts that do not renew automatically need not state the rate (or annual percentage yield) that may be paid. (See appendix B, Model Clause B-1(h)(iv)(2).)

Section 230.5 Subsequent disclosures

(a) Change in terms

(a)(1) Advance notice required

1. Form of notice. Institutions may provide a change-in-term notice on or with a periodic statement or in another mailing. If an institution provides notice through revised account disclosures, the changed term must be highlighted in some manner. For example, institutions may note that a particular fee has been changed (also specifying the new amount) or use an accompanying letter that refers to the changed term.

2. Effective date. An example of language for disclosing the effective date of a change is “As of November 21, 1994.”

3. Terms that change upon the occurrence of an event. An institution offering terms that will automatically change upon the occurrence of a stated event need not send an advance notice of the change provided the institution fully describes the conditions of the change in the account opening disclosures (and sends any change-in-term notices regardless of whether the changed term affects that consumer’s account at that time).

4. Examples. Examples of changes not requiring an advance change-in-terms notice are:

i. The termination of employment for consumers for whom account maintenance or activity fees were waived during their employment by the depository institution

ii. The expiration of one year in a promotion described in the account opening disclosures to “waive $4.00 monthly service charges for one year”

(a)(2) No notice required

(a)(2)(ii) Check printing fees

1. Increase in fees. A notice is not required for an increase in fees for printing checks (or deposit and withdrawal slips) even if the institution adds some amount to the price charged by the vendor.

(b) Notice before maturity for time accounts longer than one month that renew automatically

1. Maturity dates on nonbusiness days. In determining the term of a time account, institutions may disregard the fact that the term will be extended beyond the disclosed number of days because the disclosed maturity falls on a nonbusiness day. For example, a holiday or weekend may cause a “one-year” time account to extend beyond 365 days (or 366, in a leap year) or a “one-month” time account to extend beyond 31 days.

2. Disclosing when rates will be determined.

Ways to disclose when the annual percentage yield will be available include the use of:

i. A specific date, such as “October 28”

ii. A date that is easily determinable, such as “the Tuesday before the maturity date stated on this notice” or “as of the maturity date stated on this notice”

3. Alternative timing rule. Under the alternative timing rule, an institution offering a 10-day grace period would have to provide the disclosures at least 10 days prior to the scheduled maturity date.

4. Club accounts. If consumers have agreed to the transfer of payments from another account to a club time account for the next club period, the institution must comply with the requirements for automatically renewable time accounts—even though consumers may withdraw funds from the club account at the end of the current club period.

5. Renewal of a time account. In the case of a change in terms that becomes effective if a rollover time account is subsequently renewed:

i. If the change is initiated by the institution, the disclosure requirements of this paragraph apply. (Paragraph 230.5(a) applies if the change becomes effective prior to the maturity of the existing time account.)

ii. If the change is initiated by the consumer, the account opening disclosure requirements of §230.4(b) apply. (If the notice required by this paragraph has been provided, institutions may give new account disclosures or disclosures highlighting only the new term.)

6. Example. If a consumer receives a pre-maturity notice on a one-year time account
and requests a rollover to a six-month account, the institution must provide either account opening disclosures including the new maturity date or, if all other terms previously disclosed in the prematurity notice remain the same, only the new maturity date.

(b)(1) Maturities of longer than one year
1. Highlighting changed terms. Institutions need not highlight terms that changed since the last account disclosures were provided.
2. Notice for time accounts one month or less that renew automatically
3. Notice before maturity for time accounts longer than one year that do not renew automatically

1. Subsequent account. When funds are transferred following maturity of a nonroll-over time account, institutions need not provide account disclosures unless a new account is established.

Section 230.6 Periodic statement disclosures
(a) General rule
1. General. Institutions are not required to provide periodic statements. If they do provide statements, disclosures need only be furnished to the extent applicable. For example, if no interest is earned for a statement period, institutions need not state that fact. Or, institutions may disclose "$0" interest earned and "0%" annual percentage yield earned.
2. Regulation E interim statements. When an institution provides regular quarterly statements, and in addition provides a monthly interim statement to comply with Regulation E, the interim statement need not comply with this section unless it states interest or rate information. (See 12 CFR § 205.9(b).)
3. Combined statements. Institutions may provide information about an account (such as an MMDA) on the periodic statement for another account (such as a NOW account) without triggering the disclosures required by this section, as long as:
   i. The information is limited to the account number, the type of account, or balance information, and
   ii. The institution also provides a periodic statement complying with this section for each account.
4. Other information. Additional information that may be given on or with a periodic statement includes:
   i. Interest rates and corresponding periodic rates applied to balances during the statement period
   ii. The dollar amount of interest earned year-to-date
   iii. Bonuses paid (or any de minimis consideration of $10 or less)
   iv. Fees for products such as safe deposit boxes
(a)(1) Annual percentage yield earned
1. Ledger and collected balances. Institutions that accrue interest using the collected balance method may use either the ledger or the collected balance in determining the annual percentage yield earned.
   (a)(2) Amount of interest
   1. Accrued interest. Institutions must state the amount of interest that accrued during the statement period, even if it was not credited.
   2. Terminology. In disclosing interest earned for the period, institutions must use the term "interest" or terminology such as:
      i. "Interest paid," to describe interest that has been credited
      ii. "Interest accrued" or "interest earned," to indicate that interest is not yet credited
   3. Closed accounts. If consumers close an account between crediting periods and forfeits accrued interest, the institution may not show any figures for interest earned or annual percentage yield earned for the period (other than zero, at the institution’s option).
(a)(3) Fees imposed
1. General. Periodic statements must state fees disclosed under §230.4(b) that were debited to the account during the statement period, even if assessed for an earlier period.
2. Itemizing fees by type. In itemizing fees imposed more than once in the period, institutions may group fees if they are the same type. (See §230.11(a)(1) of this part regarding certain fees that are required to be grouped when an institution promotes the payment of overdrafts.) When fees of the same type are grouped together, the description must make clear that the dollar figure represents more than a single fee, for example, “total fees for checks written this period.” Examples of fees that may not be grouped together are—
   i. Monthly maintenance and excess-activity fees
   ii. “transfer” fees, if different dollar amounts are imposed” such as $.50 for deposits and $1.00 for withdrawals
   iii. fees for electronic fund transfers and fees for other services, such as balance-inquiry or maintenance fees
   iv. fees for paying overdrafts and fees for returning checks or other items unpaid
3. Identifying fees. Statement details must enable consumers to identify the specific fee. For example:
   i. Institutions may use a code to identify a particular fee if the code is explained on the periodic statement or in documents accompanying the statement.
   ii. Institutions using debit slips may disclose the date the fee was debited on the periodic statement and show the amount and type of fee on the dated debit slip.
4. Relation to Regulation E. Disclosure of fees in compliance with Regulation E complies with this section for fees related to
Federal Reserve System

Pt. 230, Supp. I

electronic fund transfers (for example, total-
ing all electronic funds transfer fees in a sin-
gle figure).

(a)(4) Length of period
1. General. Institutions providing the be-
ginning and ending dates of the period must
make clear whether both dates are included
in the period.
2. Opening or closing an account mid-cycle. If
an account is opened or closed during the pe-
riod for which a statement is sent, institu-
tions must calculate the annual percentage
yield earned based on account balances for
each day the account was open.
(b) Special rule for average daily balance meth-
od
1. Monthly statements and quarterly
compounding. This rule applies, for example,
when an institution calculates interest on a
quarterly average daily balance and sends
monthly statements. In this case, the first
two monthly statements would omit annual
percentage yield earned and interest earned
figures; the third monthly statement would
reflect the interest earned and the annual
percentage yield earned for the entire quar-
ter.
2. Length of the period. Institutions must
disclose the length of both the interest cal-
culation period and the statement period.
For example, a statement could disclose a
statement period of April 16 through May 15
and further state that “the interest earned
and the annual percentage yield earned are
based on your average daily balance for the
period April 1 through April 30.”
3. Quarterly statements and monthly
compounding. Institutions that use the aver-
age daily balance method to calculate inter-
est on a monthly basis and that send state-
ments on a quarterly basis may disclose a single
interest (and annual percentage yield earned)
figure. Alternatively, an institution may
disclose three interest and three annual
percentage yield earned figures, one for each
month in the quarter, as long as the institu-
tion states the number of days (or beginning
and ending dates) in the interest period if
different from the statement period.

Section 230.7 Payment of interest

(a)(1) Permissible methods
1. Prohibited calculation methods. Calcula-
tion methods that do not comply with the
requirement to pay interest on the full
amount of principal in the account each day
include:
1. Paying interest on the balance in the ac-
count at the end of the period (the “ending
balance” method);
ii. Paying interest for the period based on
the lowest balance in the account for any
day in that period (the “low balance” meth-
od);
iii. Paying interest on a percentage of the
balance, excluding the amount set aside for
reserve requirements (the “investable bal-
ance” method)
2. Use of 365-day basis. Institutions may
apply a daily periodic rate greater than 1/365
of the interest rate—as such as 1/360 of the in-
terest rate—as long as it is applied 365 days
a year.
3. Periodic interest payments. An institution
can pay interest each day on the account and
still make uniform interest payments. For
example, for a one-year certificate of deposit
an institution could make monthly interest
payments equal to 1/12 of the amount of in-
terest that will be earned for a 365-day period
(or 11 uniform monthly payments—each
equal to roughly 1/12 of the total amount of
interest—and one payment that accounts for
the remainder of the total amount of inter-
est earned for the period).
4. Leap year. Institutions may apply a daily
rate of 1/366 or 1/365 of the interest rate for
366 days in a leap year, if the account will
earn interest for February 29.
5. Maturity of time accounts. Institutions are
not required to pay interest after time
accounts mature. (See 12 CFR part 217, the
Board’s Regulation Q, for limitations on du-
ration of interest payments.) Examples in-
clude:
1. During a grace period offered for an
automatically renewable time account, if
consumers decide during that period not to
renew the account
2. Following the maturity of nonrollover
time accounts
3. When the maturity date falls on a holi-
day, and consumers must wait until the next
business day to obtain the funds
6. Dormant accounts. Institutions must pay
interest on funds in an account, even if inac-
tivity or the infrequency of transactions
would permit the institution to consider the
account to be “inactive” or “dormant” (or
similar status) as defined by state or other
law or the account contract.
(a)(2) Determination of minimum balance to
earn interest
1. Daily balance accounts. Institutions that
require a minimum balance may choose not
to pay interest for days when the balance
drops below the required minimum, if they
use the daily balance method to calculate in-
terest.
2. Average daily balance accounts. Institu-
tions that require a minimum balance may
choose not to pay interest for the period in
which the balance drops below the required
minimum, if they use the average daily bal-
cense method to calculate interest.
3. Beneficial method. Institutions may not
require that consumers maintain both a min-
imum daily balance and a minimum average
daily balance to earn interest, such as by re-
quiring consumers to maintain a $500 daily
balance and a prescribed average daily bal-
cense (whether higher or lower). But an insti-
tution could offer a minimum balance to
earn interest that includes an additional method that is “unequivocally beneficial” to consumers such as the following: An institution using the daily balance method to calculate interest on a $500 minimum daily balance could offer to pay interest on the account for those days the minimum balance is not met as long as consumers maintain an average daily balance throughout the month of $400.

4. Paying on full balance. Institutions must pay interest on the full balance in the account that meets the required minimum balance. For example, if $300 is the minimum daily balance required to earn interest, and a consumer deposits $500, the institution must pay the stated interest rate on the full $500 and not just on $200.

5. Negative balances prohibited. Institutions must treat a negative account balance as zero to determine:
   i. The daily or average daily balance on which interest will be paid.
   ii. Whether any minimum balance to earn interest is met.

6. Club accounts. Institutions offering club accounts (such as a “holiday” or “vacation” club) cannot impose a minimum balance requirement for interest based on the total number or dollar amount of payments required under the club plan. For example, if a plan calls for $10 weekly payments for 50 weeks, the institution cannot set a $500 “minimum balance” and then pay interest only if the consumer has made all 50 payments.

7. Minimum balances not affecting interest. Institutions may use the daily balance, average daily balance, or any other computation method to calculate minimum balance requirements not involving the payment of interest—such as to compute minimum balances for assessing fees.

(b) Compounding and crediting policies

1. General. Institutions choosing to compound interest may compound or credit interest annually, semi-annually, quarterly, monthly, daily, continuously, or on any other basis.

2. Withdrawals prior to crediting date. If consumers withdraw funds (without closing the account) prior to a scheduled crediting date, institutions may delay paying the accrued interest on the withdrawn amount until the scheduled crediting date, but may not avoid paying interest.

3. Closed accounts. Subject to state or other law, an institution may choose not to pay accrued interest if consumers close an account prior to the date accrued interest is credited, as long as the institution has disclosed that fact.

(c) Date interest begins to accrue

1. Relation to Regulation CC. Institutions may rely on the Expedited Funds Availability Act (EFAAA) and Regulation CC (12 CFR part 229) to determine, for example, when a deposit is considered made for purposes of interest accrual, or when interest need not be paid on funds because a deposited check is later returned unpaid.

2. Ledger and collected balances. Institutions may calculate interest by using a “ledger” or “collected” balance method, as long as the crediting requirements of the EFAAA are met (12 CFR 229.1).

3. Withdrawal of principal. Institutions must accrue interest on funds until the funds are withdrawn from the account. For example, if a check is debited to an account on a Tuesday, the institution must accrue interest on those funds through Monday.

Section 230.8 Advertising

(a) Misleading or inaccurate advertisements

1. General. All advertisements are subject to the rule against misleading or inaccurate advertisements, even though the disclosures applicable to various media differ.

2. Indoor signs. An indoor sign advertising an annual percentage yield is not misleading or inaccurate when:
   i. For a tiered-rate account, it also provides the lower dollar amount of the tier corresponding to the advertised annual percentage yield.
   ii. For a time account, it also provides the term required to obtain the advertised annual percentage yield.

3. Fees affecting “free” accounts. For purposes of determining whether an account can be advertised as “free” or “no cost,” maintenance and activity fees include:
   i. Any fee imposed when a minimum balance requirement is not met, or when consumers exceed a specified number of transactions.
   ii. Transaction and service fees that consumers reasonably expect to be imposed on a regular basis.
   iii. A flat fee, such as a monthly service fee.
   iv. Fees imposed to deposit, withdraw, or transfer funds, including per-check or per-transaction charges (for example, $.25 for each withdrawal, whether by check or in person).

4. Other fees. Examples of fees that are not maintenance or activity fees include:
   i. Fees not required to be disclosed under §230.4(b)(4).
   ii. Check printing fees.
   iii. Balance inquiry fees.
   iv. Stop-payment fees and fees associated with checks returned unpaid.
   v. Fees assessed against a dormant account.
   vi. Fees for ATM or electronic transfer services (such as preauthorized transfers or home banking services) not required to obtain an account.

5. Similar terms. An advertisement may not use the term “fees waived” if a maintenance or activity fee may be imposed because it is similar to the terms “free” or “no cost.”
6. Specific account services. Institutions may advertise a specific account service or feature as free if no fee is imposed for that service or feature. For example, institutions offer a NOW account as free of deposit or withdrawal fees could advertise that fact, as long as the advertisement does not mislead consumers by implying that the account is free and that no other fee (a monthly service fee, for example) may be charged.

7. Free for limited time. If an account (or a specific account service) is free only for a limited period of time—for example, for one year following the account opening—the account (or service) may be advertised as free if the time period is also stated.

8. Conditions not related to deposit accounts. Institutions may advertise accounts as “free” for consumers meeting conditions not related to deposit accounts, such as the consumer’s age. For example, institutions may advertise a NOW account as “free for persons over 65 years old,” even though a maintenance or service fee is assessed on accounts held by consumers 65 or younger.

9. Electronic advertising. If an electronic advertisement (such as an advertisement appearing on an Internet Web site) displays a triggering term (such as a bonus or annual percentage yield) the advertisement must clearly refer the consumer to the location where the additional required information begins. For example, an advertisement that includes a bonus or annual percentage yield may be accompanied by a link that directly takes the consumer to the additional information.

10. Examples. Examples of advertisements that would ordinarily be misleading, inaccurate, or misrepresent the deposit contract are:
   i. Representing an overdraft service as a “line of credit,” unless the service is subject to the Board’s Regulation Z, 12 CFR part 226.
   ii. Representing that the institution will honor all checks or authorize payment of all transactions that overdraw an account, with or without a specified dollar limit, when the institution retains discretion at any time not to honor checks or authorize transactions.
   iii. Representing that consumers with an overdrawn account are allowed to maintain a negative balance when the terms of the account’s overdraft service require consumers promptly to return the deposit account to a positive balance.
   iv. Describing an institution’s overdraft service solely as protection against bounced checks when the institution also permits overdrafts for a fee for overdrawing their accounts by other means, such as ATM withdrawals, debit card transactions, or other electronic fund transfers.
   v. Advertising an account-related service for which the institution charges a fee in an advertisement that also uses the word “free” or “no cost” (or a similar term) to describe the account, unless the advertisement clearly and conspicuously indicates that there is a cost associated with the service. If the fee is a maintenance or activity fee under §230.8(a)(2) of this part, however, an advertisement may not describe the account as “free” or “no cost” (or contain a similar term) even if the fee is disclosed in the advertisement.

11. Additional disclosures in connection with the payment of overdrafts. The rule in §230.3(a), providing that disclosures required by §230.8 may be provided to the consumer in electronic form without regard to E-Sign Act requirements, applies to the disclosures described in §230.11(b), which are incorporated by reference in §230.8(f).

   b) Permissible rates

1. Tiered-rate accounts. An advertisement for a tiered-rate account that states an annual percentage yield must also state the annual percentage yield for each tier, along with corresponding minimum balance requirements. Any interest rates stated must appear in conjunction with the applicable annual percentage yields for each tier.

2. Stepped-rate accounts. An advertisement that states an interest rate for a stepped-rate account must state all the interest rates and the time period that each rate is in effect.

3. Representative examples. An advertisement that states an annual percentage yield for a given type of account (such as a time account for a specified term) need not state the annual percentage yield applicable to other time accounts offered by the institution or indicate that other maturity terms are available. In an advertisement stating that rates for an account may vary depending on the amount of the initial deposit or the term of a time account, institutions need not list each balance level and term offered. Instead, the advertisement may:
   i. Provide a representative example of the annual percentage yields offered, clearly described as such. For example, if an institution offers a $25 bonus on all time accounts and the annual percentage yield will vary depending on the term selected, the institution may provide a disclosure of the annual percentage yield as follows: “For example, our 6-month certificate of deposit currently pays 3.15% annual percentage yield.”
   ii. Indicate that various rates are available, such as by stating short-term and longer-term maturities along with the applicable annual percentage yields: “We offer certificates of deposit with annual percentage yields that depend on the maturity you choose. For example, our one-month CD earns a 2.75% APY. Or, earn a 3.25% APY for a three-year CD.”

   c) When additional disclosures are required
1. Trigger terms. The following are examples of information stated in advertisements that are not "trigger terms:
   i. "One, three, and five year CDs available"
   ii. "Bonus rates available"
   iii. "1% over our current rates," so long as the rates are not determinable from the advertisement.

2. Time annual percentage yield is offered
   1. Specified date. If an advertisement discloses an annual percentage yield as of a specified date, that date must be recent in relation to the publication or broadcast frequency of the media used, taking into account the particular circumstances or production deadlines involved. For example, the printing date of a brochure printed once for a deposit account promotion that will be in effect for six months would be considered "recent," even though rates change during the six-month period. Rates published in a daily newspaper or on television must reflect rates offered shortly before (or on) the date the rates are published or broadcast.
   2. Reference to date of publication. An advertisement may refer to the annual percentage yield as being accurate as of the date of publication, if the date is on the publication itself. For instance, an advertisement in a periodical may state that a rate is "current through the date of this issue," if the periodical shows the date.

   (c)(5) Effect of fees
   1. Scope. This requirement applies only to maintenance or activity fees described in paragraph 8(a).
   (c)(6) Features of time accounts
   (c)(6)(i) Time requirements
   1. Club accounts. If a club account has a maturity date but the term may vary depending on when the account is opened, institutions may use a phrase such as: "The maturity date of this club account is November 15; its term varies depending on when the account is opened."
   (c)(6)(ii) Early withdrawal penalties
   1. Discretionary penalties. Institutions imposing early withdrawal penalties on a case-by-case basis may disclose that they "may" (rather than "will") impose a penalty if such a disclosure accurately describes the account terms.

   (d) Bonuses
   1. General reference to "bonus." General statements such as "bonus checking" or "get a bonus when you open a checking account" do not trigger the bonus disclosures.
   (e) Exemption for certain advertisements
   (e)(1) Certain media
   (e)(1)(i) Internet advertisements. The exemption for advertisements made through broadcast or electronic media does not extend to advertisements posted on the Internet or sent by e-mail.
   (e)(1)(ii)
that would not trigger periodic statement disclosures;
   ii. Includes a message on a periodic statement informing the consumer of an overdraft limit of $300 and funds available for overdrafts. For example, an institution that includes a message on a periodic statement informing the consumer of a $300 overdraft limit, that consumer starting with the statement period reflecting the period from July 16, 2006 through August 15, 2006. Only depository institutions that promote the payment of overdrafts in an advertisement on or after July 1, 2006 must provide disclosures on periodic statements under §230.11(a)(1) of this part.
   a(b)5 Acquired accounts
   1. Examples. As provided in §230.11(a)(5) of this part, an institution that acquires deposit accounts through merger or acquisition must provide the disclosures required by paragraph (a)(1) of this section for the first statement period that begins after the institution promotes the payment of overdrafts in an advertisement that applies to the acquired account. If the acquiring institution...
does not advertise the payment of overdrafts, or the advertisement does not apply to the acquired accounts, the institution need not provide the disclosures required by §230.11(a)(1) of this part for the acquired accounts even if the depository institution that previously held the accounts advertised the payment of overdrafts with respect to those accounts.

(b) Advertising Disclosures in Connection With Overdraft Services

1. Examples of institutions promoting the payment of overdrafts. A depository institution would be required to include the advertising disclosures in §230.11(b)(1) of this part if the institution:

i. Promotes the institution’s policy or practice of paying overdrafts (unless the service would be subject to the Board’s Regulation Z, 12 CFR part 226). This includes advertisements using print media such as newspapers or brochures, telephone solicitations, electronic mail, or messages posted on an Internet site. (But see §230.11(b)(2) of this part for communications that are not subject to the additional advertising disclosures);

ii. Includes a message on a periodic statement informing the consumer of an overdraft limit or the amount of funds available for overdrafts. For example, an institution that includes a message on a periodic statement informing the consumer of a $500 overdraft limit or that the consumer has $300 remaining on the overdraft limit, is promoting an overdraft service.

iii. Discloses an overdraft limit or includes the dollar amount of an overdraft limit in a balance disclosed on an automated system, such as a telephone response machine, ATM screen or the institution’s Internet site. (See, however, §230.11(b)(3) of this part.)

2. Transfer services. The overdraft services covered by §230.11(b)(1) of this part do not include a service providing for the transfer of funds from another deposit account of the consumer to permit the payment of items without creating an overdraft, even if a fee is charged for the transfer.

3. Electronic media. The exception for advertisements made through broadcast or electronic media, such as television or radio, does not apply to advertisements posted on an institution’s Internet site, on an ATM screen, provided on telephone response machines, or sent by electronic mail.

4. Fees. The fees that must be disclosed under §230.11(b)(1) of this part include per-item fees as well as interest charges, daily or other periodic fees, and fees charged for maintaining an account in overdraft status, whether the overdraft is by check or by other means. The fees also include fees charged when there are insufficient funds because previously deposited funds are subject to a hold or are uncollected. The fees do not include fees for transferring funds from another account to avoid an overdraft, or fees charged when the institution has previously agreed in writing to pay items that overdraw the account and the service is subject to the Board’s Regulation Z, 12 CFR part 226.

5. Categories of transactions. An exhaustive list of transactions is not required. Disclosing that a fee may be imposed for covering overdrafts ‘‘created by check, in-person withdrawal, ATM withdrawal, or other electronic means’’ would satisfy the requirements of §230.11(b)(1)(ii) of this part where the fee may be imposed in these circumstances. See comment 4(b)(4)–5 of this part.

6. Time period to repay. If a depository institution reserves the right to require a consumer to pay an overdraft immediately or on demand instead of affording consumers a specific time period to establish a positive balance in the account, an institution may comply with §230.11(b)(1)(iii) of this part by disclosing this fact.

7. Circumstances for nonpayment. An institution must describe the circumstances under which it will not pay an overdraft. It is sufficient to state, as applicable: ‘‘Whether your overdrafts will be paid is discretionary and we reserve the right not to pay. For example, we typically do not pay overdrafts if your account is not in good standing, or you are not making regular deposits, or you have too many overdrafts.’’

8. Advertising as ‘‘free.’’ If the advertised account-related service is an overdraft service subject to the requirements of §230.11(b)(1) of this part, institutions must disclose the fee or fees for the payment of each overdraft, not merely that a cost is associated with the overdraft service, as well as other required information. Compliance with comment 8(a)–10.v. is not sufficient.

APPENDIX A TO PART 230—ANNUAL PERCENTAGE YIELD CALCULATION

Part I. Annual Percentage Yield for Account Disclosures and Advertising Purposes

1. Rounding for calculations. The following are examples of permissible rounding for calculating interest and the annual percentage yield:

i. The daily rate applied to a balance carried to five or more decimal places

ii. The daily interest earned carried to five or more decimal places

Part II. Annual Percentage Yield Earned for Periodic Statements

1. Balance method. The interest figure used in the calculation of the annual percentage yield earned may be derived from the daily balance method or the average daily balance method. The balance used in the formula for the annual percentage yield earned is the
sum of the balances for each day in the period divided by the number of days in the period.

2. Negative balances prohibited. Institutions must treat a negative account balance as zero to determine the balance on which the annual percentage yield earned is calculated. (See commentary to §230.7(a)(2).)

A. General Formula

1. Accrued but uncredited interest. To calculate the annual percentage yield earned, accrued but uncredited interest:
   i. May not be included in the balance for statements issued at the same time or less frequently than the account’s compounding and crediting frequency. For example, if monthly statements are sent for an account that compounds interest daily and credits interest monthly, the balance may not be increased each day to reflect the effect of daily compounding.
   ii. Must be included in the balance for succeeding statements if a statement is issued more frequently than compounded interest is credited on an account. For example, if monthly statements are sent for an account that compounds interest daily and credits interest monthly, the balance for the second monthly statement would include interest that had accrued for the prior month.

2. Rounding. The interest earned figure used to calculate the annual percentage yield earned must be rounded to two decimals and reflect the amount actually paid. For example, if the interest earned for a statement period is $20.074 and the institution pays the consumer $20.07, the institution must use $20.07 (not $20.074) to calculate the annual percentage yield earned. For accounts paying interest based on the daily balance method that compound and credit interest quarterly, and send monthly statements, the institution may, but need not, round accrued interest to two decimals for calculating the annual percentage yield earned on the first two monthly statements issued during the quarter. However, on the quarterly statement the interest earned figure must reflect the amount actually paid.

B. Special Formula for Use Where Periodic Statement is Sent More Often Than the Period for Which Interest is Compounded

1. Statements triggered by Regulation E. Institutions may, but need not, use this formula to calculate the annual percentage yield earned for accounts that receive quarterly statements and are subject to Regulation E’s rule calling for monthly statements when an electronic fund transfer has occurred. They may do so even though no monthly statement was issued during a specific quarter. But institutions must use this formula for accounts that compound and credit interest quarterly and receive monthly statements that, while triggered by Regulation E, comply with the provisions of §230.6.

2. Days in compounding period. Institutions using the special annual percentage yield earned formula must use the actual number of days in the compounding period.

APPENDIX B TO PART 230—MODEL CLAUSES AND SAMPLE FORMS

1. Modifications. Institutions that modify the model clauses will be deemed in compliance as long as they do not delete required information or rearrange the format in a way that affects the substance or clarity of the disclosures.

2. Format. Institutions may use inserts to a document (see Sample Form B–4) or fill-in blanks (see Sample Forms B–5, B–6 and B–7, which use underlining to indicate terms that have been filled in) to show current rates, fees, or other terms.

3. Disclosures for opening accounts. The sample forms illustrate the information that must be provided to consumers when an account is opened, as required by §230.4(a)(1). (See §230.4(a)(2), which states the requirements for disclosing the annual percentage yield, the interest rate, and the maturity of a time account in responding to a consumer’s request.)

4. Compliance with Regulation E. Institutions may satisfy certain requirements under Regulation DD with disclosures that meet the requirements of Regulation E. (See §230.4(a)(2).) For disclosures covered by both this regulation and Regulation E (such as the amount of fees for ATM usage, institutions should consult appendix A to Regulation E for appropriate model clauses.

5. Duplicate disclosures. If a requirement such as a minimum balance applies to more than one account term (to obtain a bonus and determine the annual percentage yield, for example), institutions need not repeat the requirement for each term, as long as it is clear which terms the requirement applies to.

6. Sample forms. The sample forms (B–4 through B–8) serve a purpose different from the model clauses. They illustrate ways of adapting the model clauses to specific accounts. The clauses shown relate only to the specific transactions described.

B–1 Model Clauses for Account Disclosures

B–1(h) Disclosures Relating to Time Accounts

1. Maturity. The disclosure in Clause (h)(1) stating a specific date may be used in all cases. The statement describing a time period is appropriate only when providing disclosures in response to a consumer’s request.
B–2 Model Clauses for Change in Terms

1. General. The second clause, describing a future decrease in the interest rate and annual percentage yield, applies to fixed-rate accounts only.

B–4 Sample Form (Multiple Accounts)

1. Rate sheet insert. In the rate sheet insert, the calculations of the annual percentage yield for the three-month and six-month certificates are based on 92 days and 181 days respectively. All calculations in the insert assume daily compounding.

B–6 Sample Form (Tiered-Rate Money Market Account)

1. General. Sample Form B–6 uses Tiering Method A (discussed in appendix A and Clause (a)(iv)) to calculate interest. It gives a narrative description of a tiered-rate account; institutions may use different formats (for example, a chart similar to the one in Sample Form B–4), as long as all required information for each tier is clearly presented. The form does not contain a separate disclosure of the minimum balance required to obtain the annual percentage yield; the tiered-rate disclosure provides that information.

PART 231—NETTING ELIGIBILITY FOR FINANCIAL INSTITUTION (REGULATION EE)

Sec.
231.1 Authority, purpose, and scope.
231.2 Definitions.
231.3 Qualification as a financial institution.

AUTHORITY: 12 U.S.C. 4402(1)(B) and 4402(9).

SOURCE: Reg. EE, 59 FR 4784, Feb. 2, 1994, unless otherwise noted.

§ 231.1 Authority, purpose, and scope.

(a) Authority. This part (Regulation EE; 12 CFR part 231) is issued by the Board of Governors of the Federal Reserve System under the authority of sections 402(1)(B) and 402(9) of the Federal Deposit Insurance Corporation Improvement Act of 1991 (12 U.S.C. 4402(1)(B) and 4402(9)).

(b) Purpose and scope. The purpose of the Act and this part is to enhance efficiency and reduce systemic risk in the financial markets. This part expands the Act’s definition of “financial institution” to allow more financial market participants to avail themselves of the netting provisions set forth in sections 401–407 of the Act (12 U.S.C. 4401–4407). This part does not affect the status of those financial institutions specifically defined in the Act.

§ 231.2 Definitions.

As used in this part, unless the context requires otherwise:

(b) Affiliate, with respect to a person, means any other person that controls, is controlled by, or is under common control with the person.

(c) Financial contract means a qualified financial contract as defined in section 11(e)(8)(D) of the Federal Deposit Insurance Act (12 U.S.C. 1821(e)(8)(D)), as amended, except that a forward contract includes a contract with a maturity date two days or less after the date the contract is entered into (i.e., a “spot” contract).

(d) Financial market means a market for a financial contract.

(e) Gross mark-to-market positions in one or more financial contracts means the sum of the absolute values of positions in those contracts, adjusted to reflect the market values of those positions in accordance with the methods used by the parties to each contract to value the contract.

(f) Person means any legal entity, foreign or domestic, including a corporation, unincorporated company, partnership, government unit or instrumentality, trust, natural person, or any other entity or organization.

§ 231.3 Qualification as a financial institution.

(a) A person qualifies as a financial institution for purposes of sections 401–407 of the Act if it represents, orally or in writing, that it will engage in financial contracts as a counterparty on both sides of one or more financial markets and either—

(1) Had one or more financial contracts of a total gross dollar value of at least $1 billion in notional principal amount outstanding on any day during the previous 15-month period with
counterparties that are not its affiliates; or
(2) Had total gross mark-to-market positions of at least $100 million (aggregated across counterparties) in one or more financial contracts on any day during the previous 15-month period with counterparties that are not its affiliates.

(b) If a person qualifies as a financial institution under paragraph (a) of this section, that person will be considered a financial institution for the purposes of any contract entered into during the period it qualifies, even if the person subsequently fails to qualify.

(c) If a person qualifies as a financial institution under paragraph (a) of this section on March 7, 1994, that person will be considered a financial institution for the purposes of any outstanding contract entered into prior to March 7, 1994.

PART 232—OBTAINING AND USING MEDICAL INFORMATION IN CONNECTION WITH CREDIT (REGULATION FF)

Sec.
232.1 Scope, General Prohibition and Definitions
232.2 Rule of Construction for Obtaining and Using Unsolicited Medical Information
232.3 Financial Information Exception for Obtaining and Using Medical Information
232.4 Specific Exceptions for Obtaining and Using Medical Information

SOURCE: 70 FR 70682, Nov. 22, 2005, unless otherwise noted.

§ 232.1 Scope, General Prohibition and Definitions

(a) Scope. This part applies to creditors, as defined in paragraph (c)(3) of this section, except for creditors that are subject to §§ 41.30, 222.30, 334.30, 571.30, or 717.30.

(b) In general. A creditor may not obtain or use medical information pertaining to a consumer in connection with any determination of the consumer’s eligibility, or continued eligibility, for credit, except as provided in this section.

(c) Definitions. (1) Consumer means an individual.

(2) Credit has the same meaning as in section 702 of the Equal Credit Opportunity Act, 15 U.S.C. 1691a.

(3) Creditor has the same meaning as in section 702 of the Equal Credit Opportunity Act, 15 U.S.C. 1691a.

(4) Eligibility, or continued eligibility, for credit means the consumer’s qualification or fitness to receive, or continue to receive, credit, including the terms on which credit is offered. The term does not include:

(i) Any determination of the consumer’s qualification or fitness for employment, insurance (other than a credit insurance product), or other non-credit products or services;

(ii) Authorizing, processing, or documenting a payment or transaction on behalf of the consumer in a manner that does not involve a determination of the consumer’s eligibility, or continued eligibility, for credit; or

(iii) Maintaining or servicing the consumer’s account in a manner that does not involve a determination of the consumer’s eligibility, or continued eligibility, for credit.

(5) Medical information means:

(i) Information or data, whether oral or recorded, in any form or medium, created by or derived from a health care provider or the consumer, that relates to—

(A) The past, present, or future physical, mental, or behavioral health or condition of an individual;

(B) The provision of health care to an individual; or

(C) The payment for the provision of health care to an individual;

(C) The payment for the provision of health care to an individual.

(ii) The term does not include:

(A) The age or gender of a consumer;

(B) Demographic information about the consumer, including a consumer’s residence address or e-mail address;

(C) Any other information about a consumer that does not relate to the physical, mental, or behavioral health or condition of a consumer, including the existence or value of any insurance policy; or

(D) Information that does not identify a specific consumer.
Person means any individual, partnership, corporation, trust, estate cooperative, association, government or governmental subdivision or agency, or other entity.

§ 232.2 Rule of construction for obtaining and using unsolicited medical information.

(a) In general. A creditor does not obtain medical information in violation of the prohibition if it receives medical information pertaining to a consumer in connection with any determination of the consumer’s eligibility, or continued eligibility, for credit without specifically requesting medical information.

(b) Use of unsolicited medical information. A creditor that receives unsolicited medical information in the manner described in paragraph (a) of this section may use that information in connection with any determination of the consumer’s eligibility, or continued eligibility, for credit to the extent the creditor can rely on at least one of the exceptions in §232.3 or §232.4.

(c) Examples. A creditor does not obtain medical information in violation of the prohibition if, for example:

(1) In response to a general question regarding a consumer’s debts or expenses, the creditor receives information that the consumer owes a debt to a hospital.

(2) In a conversation with the creditor’s loan officer, the consumer informs the creditor that the consumer has a particular medical condition.

(3) In connection with a consumer’s application for an extension of credit, the creditor requests a consumer report from a consumer reporting agency and receives medical information in the consumer report furnished by the agency even though the creditor did not specifically request medical information from the consumer reporting agency.

§ 232.3 Financial information exception for obtaining and using medical information.

(a) In general. A creditor may obtain and use medical information pertaining to a consumer in connection with any determination of the consumer’s eligibility, or continued eligibility, for credit so long as:

(1) The information is the type of information routinely used in making credit eligibility determinations, such as information relating to debts, expenses, income, benefits, assets, collateral, or the purpose of the loan, including the use of proceeds;

(2) The creditor uses the medical information in a manner and to an extent that is no less favorable than it would use comparable information that is not medical information in a credit transaction; and

(3) The creditor does not take the consumer’s physical, mental, or behavioral health, condition or history, type of treatment, or prognosis into account as part of any such determination.

(b) Examples—(1) Examples of the types of information routinely used in making credit eligibility determinations. Paragraph (a)(1) of this section permits a creditor, for example, to obtain and use information about:

(i) The dollar amount, repayment terms, repayment history, and similar information regarding medical debts to calculate, measure, or verify the repayment ability of the consumer, the use of proceeds, or the terms for granting credit;

(ii) The value, condition, and lien status of a medical device that may serve as collateral to secure a loan;

(iii) The dollar amount and continued eligibility for disability income, workers’ compensation income, or other benefits related to health or a medical condition that is relied on as a source of repayment; or

(iv) The identity of creditors to whom outstanding medical debts are owed in connection with an application for credit, including but not limited to, a transaction involving the consolidation of medical debts.

(2) Examples of uses of medical information consistent with the exception. (i) A consumer includes on an application for credit information about two $20,000 debts. One debt is to a hospital; the other debt is to a retailer. The creditor contacts the hospital and the retailer to verify the amount and payment status of the debts. The creditor learns that both debts are more than 90 days past due. Any two debts of this size
that are more than 90 days past due would disqualify the consumer under the creditor’s established underwriting criteria. The creditor denies the application on the basis that the consumer has a poor repayment history on outstanding debts. The creditor has used medical information in a manner and to an extent no less favorable than it would use comparable non-medical information.

(ii) A consumer indicates on an application for a $200,000 mortgage loan that she receives $15,000 in long-term disability income each year from her former employer and has no other income. Annual income of $15,000, regardless of source, would not be sufficient to support the requested amount of credit. The creditor denies the application on the basis that the projected debt-to-income ratio of the consumer does not meet the creditor’s underwriting criteria. The creditor has used medical information in a manner and to an extent that is no less favorable than it would use comparable non-medical information.

(iii) A consumer includes on an application for a $10,000 home equity loan that he has a $50,000 debt to a medical facility that specializes in treating a potentially terminal disease. The creditor contacts the medical facility to verify the debt and obtain the repayment history and current status of the loan. The creditor learns that the debt is current. The applicant meets the income and other requirements of the creditor’s underwriting guidelines. The creditor grants the application. The creditor has used medical information in accordance with the exception.

(3) Examples of uses of medical information inconsistent with the exception. (i) A consumer applies for $25,000 of credit and includes on the application information about a $50,000 debt to a hospital. The creditor contacts the hospital to verify the amount and payment status of the debt, and learns that the debt is current and that the consumer has no delinquencies in her repayment history. If the existing debt were instead owed to a retail department store, the creditor would approve the application and extend credit based on the amount and repayment history of the outstanding debt. The creditor, however, denies the application because the consumer is indebted to a hospital. The creditor has used medical information, here the identity of the medical creditor, in a manner and to an extent that is less favorable than it would use comparable non-medical information.

(ii) A consumer meets with a loan officer of a creditor to apply for a mortgage loan. While filling out the loan application, the consumer informs the loan officer orally that she has a potentially terminal disease. The consumer meets the creditor’s established requirements for the requested mortgage loan. The loan officer recommends to the credit committee that the consumer be denied credit because the consumer has that disease. The credit committee follows the loan officer’s recommendation and denies the application because the consumer has a potentially terminal disease. The creditor has used medical information in a manner inconsistent with the exception by taking into account the consumer’s physical, mental, or behavioral health, condition, or history, type of treatment, or prognosis as part of a determination of eligibility or continued eligibility for credit.

(iii) A consumer who has an apparent medical condition, such as a consumer who uses a wheelchair or an oxygen tank, meets with a loan officer to apply for a home equity loan. The consumer meets the creditor’s established requirements for the requested home equity loan and the creditor typically does not require consumers to obtain a debt cancellation contract, debt suspension agreement, or credit insurance product in connection with such loans. However, based on the consumer’s apparent medical condition, the loan officer recommends to the credit committee that credit be extended to the consumer only if the consumer obtains a debt cancellation contract, debt suspension agreement, or credit insurance product from a nonaffiliated third party. The credit committee agrees with the loan officer’s recommendation. The loan officer informs the consumer that the consumer must obtain a debt cancellation contract, debt suspension agreement, or credit insurance product from a nonaffiliated third
§ 232.4 Specific exceptions for obtaining and using medical information.

(a) In general. A creditor may obtain and use medical information pertaining to a consumer in connection with any determination of the consumer’s eligibility, or continued eligibility, for credit:

(1) To determine whether the use of a power of attorney or legal representative that is triggered by a medical condition or event is necessary and appropriate or whether the consumer has the legal capacity to contract when a person seeks to exercise a power of attorney or act as legal representative for a consumer based on an asserted medical condition or event;

(2) To comply with applicable requirements of local, state, or Federal laws;

(3) To determine, at the consumer’s request, whether the consumer qualifies for a legally permissible special credit program or credit-related assistance program that is—

(i) Designed to meet the special needs of consumers with medical conditions; and

(ii) Established and administered pursuant to a written plan that—

(A) Identifies the class of persons that the program is designed to benefit; and

(B) Sets forth the procedures and standards for extending credit or providing other credit-related assistance under the program;

(4) To the extent necessary for purposes of fraud prevention or detection;

(5) In the case of credit for the purpose of financing medical products or services, to determine and verify the medical purpose of a loan and the use of proceeds;

(6) Consistent with safe and sound practices, if the consumer or the consumer’s legal representative specifically requests that the creditor use medical information in determining the consumer’s eligibility, or continued eligibility, for credit, to accommodate the consumer’s particular circumstances, and such request is documented by the creditor;

(7) Consistent with safe and sound practices, to determine whether the provisions of a forbearance practice or program that is triggered by a medical condition or event apply to a consumer;

(8) To determine the consumer’s eligibility for, the triggering of, or the reactivation of a debt cancellation contract or debt suspension agreement if a medical condition or event is a triggering event for the provision of benefits under the contract or agreement; or

(9) To determine the consumer’s eligibility for, the triggering of, or the reactivation of a credit insurance product if a medical condition or event is a triggering event for the provision of benefits under the product.

(b) Example of determining eligibility for a special credit program or credit assistance program. A not-for-profit organization establishes a credit assistance program pursuant to a written plan that is designed to assist disabled veterans in purchasing homes by subsidizing the down payment for the home purchase mortgage loans of qualifying veterans. The organization works through mortgage lenders and requires mortgage lenders to obtain medical information about the disability of any consumer that seeks to qualify for the program, use that information to verify the consumer’s eligibility for the program, and forward that information to the organization. A consumer who is a veteran applies to a creditor for a home purchase mortgage loan. The creditor informs the consumer about the credit assistance program for disabled veterans and the consumer seeks to qualify for the program. Assuming that the program complies with all applicable law, including applicable fair lending laws, the creditor may obtain and use medical information about the medical condition and disability, if any, of the consumer to determine whether the consumer...
§ 232.4

Qualifies for the credit assistance program.

(c) **Examples of verifying the medical purpose of the loan or the use of proceeds.**

(1) If a consumer applies for $10,000 of credit for the purpose of financing vision correction surgery, the creditor may verify with the surgeon that the procedure will be performed. If the surgeon reports that surgery will not be performed on the consumer, the creditor may use that medical information to deny the consumer's application for credit, because the loan would not be used for the stated purpose.

(2) If a consumer applies for $10,000 of credit for the purpose of financing cosmetic surgery, the creditor may confirm the cost of the procedure with the surgeon. If the surgeon reports that the cost of the procedure is $5,000, the creditor may use that medical information to offer the consumer only $5,000 of credit.

(3) A creditor has an established medical loan program for financing particular elective surgical procedures. The creditor receives a loan application from a consumer requesting $10,000 of credit under the established loan program for an elective surgical procedure. The consumer indicates on the application that the purpose of the loan is to finance an elective surgical procedure not eligible for funding under the guidelines of the established loan program. The creditor may deny the consumer's application because the purpose of the loan is not for a particular procedure funded by the established loan program.

(d) **Examples of obtaining and using medical information at the request of the consumer.**

(1) If a consumer applies for a loan and specifically requests that the creditor consider the consumer's medical disability at the relevant time as an explanation for adverse payment history information in his credit report, the creditor may consider such medical information in evaluating the consumer's willingness and ability to repay the requested loan to accommodate the consumer's particular circumstances, consistent with safe and sound practices. The creditor may also decline to consider such medical information to accommodate the consumer, but may evaluate the consumer's application in accordance with its otherwise applicable underwriting criteria. The creditor may not deny the consumer's application or otherwise treat the consumer less favorably because the consumer specifically requested a medical accommodation, if the creditor would have extended the credit or treated the consumer more favorably under the creditor's otherwise applicable underwriting criteria.

(2) If a consumer applies for a loan by telephone and explains that his income has been and will continue to be interrupted on account of a medical condition and that he expects to repay the loan liquidating assets, the creditor may, but is not required to, evaluate the application using the sale of assets as the primary source of repayment, consistent with safe and sound practices, provided that the creditor documents the consumer's request by recording the oral conversation or making a notation of the request in the consumer's file.

(3) If a consumer applies for a loan and the application form provides a space where the consumer may provide any other information or special circumstances, whether medical or non-medical, that the consumer would like the creditor to consider in evaluating the consumer's application, the creditor may use medical information provided by the consumer in that space on that application to accommodate the consumer's application for credit, consistent with safe and sound practices, or may disregard that information.

(4) If a consumer specifically requests that the creditor use medical information in determining the consumer's eligibility, or continued eligibility, for credit and provides the creditor with medical information for that purpose, and the creditor determines that it needs additional information regarding the consumer's circumstances, the creditor may request, obtain, and use additional medical information about the consumer as necessary to verify the information provided by the consumer or to determine whether to make an accommodation for the consumer. The consumer may decline to
provide additional information, withdraw the request for an accommodation, and have the application considered under the creditor’s otherwise applicable underwriting criteria.

(5) If a consumer completes and signs a credit application that is not for medical purpose credit and the application contains boilerplate language that routinely requests medical information from the consumer or that indicates that by applying for credit the consumer authorizes or consents to the creditor obtaining and using medical information in connection with a determination of the consumer’s eligibility, or continued eligibility, for credit, the consumer has not specifically requested that the creditor obtain and use medical information to accommodate the consumer’s particular circumstances.

(e) Example of a forbearance practice or program. After an appropriate safety and soundness review, a creditor institutes a program that allows consumers who are or will be hospitalized to defer payments as needed for up to three months, without penalty, if the credit account has been open for more than one year and has not previously been in default, and the consumer provides confirming documentation at an appropriate time. A consumer is hospitalized and does not pay her bill for a particular month. This consumer has had a credit account with the creditor for more than one year and has not previously been in default. The creditor attempts to contact the consumer and speaks with the consumer’s adult child, who is not the consumer’s legal representative. The adult child informs the creditor that the consumer is hospitalized and is unable to pay the bill at that time. The creditor defers payments for up to three months, without penalty, for the hospitalized consumer and sends the consumer a letter confirming this practice and the date on which the next payment will be due. The creditor has obtained and used medical information to determine whether the provisions of a medically-triggered forbearance practice or program apply to a consumer.

PART 233—PROHIBITION ON FUNDING OF UNLAWFUL INTERNET GAMBLING (REGULATION GG)

§ 233.1 Authority, purpose, collection of information, and incorporation by reference.

(a) Authority. This part is issued jointly by the Board of Governors of the Federal Reserve System (Board) and the Secretary of the Department of the Treasury (Treasury) under section 802 of the Unlawful Internet Gambling Enforcement Act of 2006 (Act) (enacted as Title VIII of the Security and Accountability For Every Port Act of 2006, Pub. L. No. 109–347, 120 Stat. 1884, and codified at 31 U.S.C. 5361–5367). The Act states that none of its provisions shall be construed as altering, limiting, or extending any Federal or State law or Tribal-State compact prohibiting, permitting, or regulating gambling within the United States. See 31 U.S.C. 5361(b). In addition, the Act states that its provisions are not intended to change which activities related to horseracing may or may not be allowed under Federal law, are not intended to change the existing relationship between the Interstate Horseracing Act of 1978 (IHA) (15 U.S.C. 3001 et seq.) and other Federal statutes in effect on October 13, 2006, the date of the Act’s enactment, and are not intended to resolve any existing disagreements over how to interpret the relationship between the IHA and other Federal statutes. See 31 U.S.C. 5362(10)(D)(iii). This part is intended to be consistent with these provisions.
(b) **Purpose.** The purpose of this part is to issue implementing regulations as required by the Act. The part sets out necessary definitions, designates payment systems subject to the requirements of this part, exempts certain participants in designated payment systems from certain requirements of this part, provides nonexclusive examples of policies and procedures reasonably designed to identify and block, or otherwise prevent and prohibit, restricted transactions, and sets out the Federal entities that have exclusive regulatory enforcement authority with respect to the designated payments systems and non-exempt participants therein.

(c) **Collection of information.** The Office of Management and Budget (OMB) has approved the collection of information requirements in this part for the Department of the Treasury and assigned OMB control number 1505–0204. The Board has approved the collection of information requirements in this part under the authority delegated to the Board by OMB, and assigned OMB control number 7100–0317.

(d) **Incorporation by reference—relevant definitions from ACH rules.**

1. This part incorporates by reference the relevant definitions of ACH terms as published in the “2008 ACH Rules: A Complete Guide to Rules & Regulations Governing the ACH Network” (the “ACH Rules”). The Director of the Federal Register approves this incorporation by reference in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies of the “2008 ACH Rules” are available from the National Automated Clearing House Association, Suite 100, 13450 Sunrise Valley Drive, Herndon, Virginia 20171, http://nacha.org, (703) 561–1100. Copies also are available for public inspection at the Department of Treasury Library, Room 1428, Main Treasury Building, 1500 Pennsylvania Avenue, NW., Washington, DC 20220, and the National Archives and Records Administration (NARA). Before visiting the Treasury library, you must call (202) 622–0990 for an appointment. For information on the availability of this material at NARA, call (202) 741–6000, or go to: http://www.archives.gov/federal_register/

2. Any amendment to definitions of the relevant ACH terms in the ACH Rules shall not apply to this part unless the Treasury and the Board jointly accept such amendment by publishing notice of acceptance of the amendment to this part in the Federal Register. An amendment to the definition of a relevant ACH term in the ACH Rules that is accepted by the Treasury and the Board shall apply to this part on the effective date of the rulemaking specified by the Treasury and the Board in the joint Federal Register notice expressly accepting such amendment.

§ 233.2 **Definitions.**

The following definitions apply solely for purposes of this part:

(a) **Actual knowledge** with respect to a transaction or commercial customer means when a particular fact with respect to that transaction or commercial customer is known by or brought to the attention of:

1. An individual in the organization responsible for the organization’s compliance function with respect to that transaction or commercial customer; or

2. An officer of the organization.

(b) **Automated clearing house system** or **ACH system** means a funds transfer system, primarily governed by the ACH Rules, which provides for the clearing and settlement of batched electronic entries for participating financial institutions. When referring to ACH systems, the terms in this regulation (such as “originating depository financial institution,” “operator,” “originating gateway operator,” “receiving depository financial institution,” “receiving gateway operator,” and “third-party sender”) are defined as those terms are defined in the ACH Rules.

(c) **Bet or wager:**

1. Means the staking or risking by any person of something of value upon the outcome of a contest of others, a sporting event, or a game subject to chance, upon an agreement or understanding that the person or another person will receive something of value in the event of a certain outcome;
§ 233.2 12 CFR Ch. II (1–1–09 Edition)

(2) Includes the purchase of a chance or opportunity to win a lottery or other prize (which opportunity to win is predominantly subject to chance);

(3) Includes any scheme of a type described in 28 U.S.C. 3702;

(4) Includes any instructions or information pertaining to the establishment or movement of funds by the bettor or customer in, to, or from an account with the business of betting or wagering (which does not include the activities of a financial transaction provider, or any interactive computer service or telecommunications service); and

(5) Does not include—

(i) Any activity governed by the securities laws (as that term is defined in section 3(a)(47) of the Securities Exchange Act of 1934 (15 U.S.C. 78c(a)(47)) for the purchase or sale of securities (as that term is defined in section 3(a)(10) of that act (15 U.S.C. 78c(a)(10)));

(ii) Any transaction conducted on or subject to the rules of a registered entity or exempt board of trade under the Commodity Exchange Act (7 U.S.C. 1 et seq.);

(iii) Any over-the-counter derivative instrument;

(iv) Any other transaction that—

(A) Is excluded or exempt from regulation under the Commodity Exchange Act (7 U.S.C. 1 et seq.); or

(B) Is exempt from State gaming or bucket shop laws under section 12(e) of the Commodity Exchange Act (7 U.S.C. 16(e)) or section 28(a) of the Securities Exchange Act of 1934 (15 U.S.C. 78bb(a));

(v) Any contract of indemnity or guarantee;

(vi) Any contract for insurance;

(vii) Any deposit or other transaction with an insured depository institution;

(viii) Participation in any game or contest in which participants do not stake or risk anything of value other than—

(A) Personal efforts of the participants in playing the game or contest or obtaining access to the Internet; or

(B) Points or credits that the sponsor of the game or contest provides to participants free of charge and that can be used or redeemed only for participation in games or contests offered by the sponsor; or

(ix) Participation in any fantasy or simulation sports game or educational game or contest in which (if the game or contest involves a team or teams) no fantasy or simulation sports team is based on the current membership of an actual team that is a member of an amateur or professional sports organization (as those terms are defined in 28 U.S.C. 3701) and that meets the following conditions:

(A) All prizes and awards offered to winning participants are established and made known to the participants in advance of the game or contest and their value is not determined by the number of participants or the amount of any fees paid by those participants.

(B) All winning outcomes reflect the relative knowledge and skill of the participants and are determined predominantly by accumulated statistical results of the performance of individuals (athletes in the case of sports events) in multiple real-world sporting or other events.

(C) No winning outcome is based—

(1) On the score, point-spread, or any performance or performances of any single real-world team or any combination of such teams, or

(2) Solely on any single performance of an individual athlete in any single real-world sporting or other event.

(d) Block means to reject a particular transaction before or during processing, but it does not require freezing or otherwise prohibiting subsequent transfers or transactions regarding the proceeds or account.

(e) Card issuer means any person who issues a credit card, debit card, pre-paid card, or stored value card, or the agent of such person with respect to such card.

(f) Card system means a system for authorizing, clearing and settling transactions in which credit cards, debit cards, pre-paid cards, or stored value cards (such cards being issued or authorized by the operator of the system), are used to purchase goods or services or to obtain a cash advance. The term includes systems both in which the merchant acquirer, card issuer, and system operator are separate entities and in which more than one of these roles are performed by the same entity.
(g) Check clearing house means an association of banks or other payors that regularly exchange checks for collection or return.

(h) Check collection system means an interbank system for collecting, presenting, returning, and settling for checks or intrabank system for settling for checks deposited in and drawn on the same bank. When referring to check collection systems, the terms in this regulation (such as “paying bank,” “collecting bank,” “depositary bank,” “returning bank,” and “check”) are defined as those terms are defined in 12 CFR 229.2. For purposes of this part, “check” also includes an electronic representation of a check that a bank agrees to handle as a check.

(i) Commercial customer means a person that is not a consumer and that contracts with a non-exempt participant in a designated payment system to receive, or otherwise accesses, payment transaction services through that non-exempt participant.

(j) Consumer means a natural person.

(k) Designated payment system means a system listed in §233.3.

(l) Electronic fund transfer has the same meaning given the term in section 903 of the Electronic Fund Transfer Act (15 U.S.C. 1693a), except that such term includes transfers that would otherwise be excluded under section 903(6)(E) of that act (15 U.S.C. 1693a(6)(E)), and includes any funds transfer covered by Article 4A of the Uniform Commercial Code, as in effect in any State.

(m) Financial institution means a State or national bank, a State or Federal savings and loan association, a mutual savings bank, a State or Federal credit union, or any other person that, directly or indirectly, holds an account belonging to a consumer. The term does not include a casino, sports book, or other business at or through which bets or wagers may be placed or received.

(n) Financial transaction provider means a creditor, credit card issuer, financial institution, operator of a terminal at which an electronic fund transfer may be initiated, money transmitting business, or international, national, regional, or local payment network utilized to effect a credit transaction, electronic fund transfer, stored value product transaction, or money transmitting service, or a participant in such network, or other participant in a designated payment system.

(o) Foreign banking office means:

(1) Any non-U.S. office of a financial institution; and

(2) Any non-U.S. office of a foreign bank as described in 12 U.S.C. 3101(7).

(p) Interactive computer service means any information service, system, or access software provider that provides or enables computer access by multiple users to a computer server, including specifically a service or system that provides access to the Internet and such systems operated or services offered by libraries or educational institutions.

(q) Internet means the international computer network of interoperable packet switched data networks.

(r) Internet gambling business means the business of placing, receiving or otherwise knowingly transmitting a bet or wager by any means which involves the use, at least in part, of the Internet, but does not include the performance of the customary activities of a financial transaction provider, or any interactive computer service or telecommunications service.

(s) Intrastate transaction means placing, receiving, or otherwise transmitting a bet or wager where—

(1) The bet or wager is initiated and received or otherwise made exclusively within a single State;

(2) The bet or wager and the method by which the bet or wager is initiated and received or otherwise made is expressly authorized by and placed in accordance with the laws of such State, and the State law or regulations include—

(i) Age and location verification requirements reasonably designed to block access to minors and persons located out of such State; and

(ii) Appropriate data security standards to prevent unauthorized access by any person whose age and current location has not been verified in accordance with such State’s law or regulations; and
(3) The bet or wager does not violate any provision of—
   (ii) 28 U.S.C. chapter 178 (professional and amateur sports protection);
   (iii) The Gambling Devices Transportation Act (15 U.S.C. 1171 et seq.); or
   (iv) The Indian Gaming Regulatory Act (25 U.S.C. 2701 et seq.).

(t) *Intratribal transaction* means placing, receiving or otherwise transmitting a bet or wager where—
   (1) The bet or wager is initiated and received or otherwise made exclusively—
      (i) Within the Indian lands of a single Indian tribe (as such terms are defined under the Indian Gaming Regulatory Act (25 U.S.C. 2703)); or
      (ii) Between the Indian lands of two or more Indian tribes to the extent that intertribal gaming is authorized by the Indian Gaming Regulatory Act (25 U.S.C. 2701 et seq.);
   (2) The bet or wager and the method by which the bet or wager is initiated and received or otherwise made is expressly authorized by and complies with the requirements of—
      (i) The applicable tribal ordinance or resolution approved by the Chairman of the National Indian Gaming Commission; and
      (ii) With respect to class III gaming, the applicable Tribal-State compact;
   (3) The applicable tribal ordinance or resolution or Tribal-State compact includes—
      (i) Age and location verification requirements reasonably designed to block access to minors and persons located out of the applicable Tribal lands; and
      (ii) Appropriate data security standards to prevent unauthorized access by any person whose age and current location has not been verified in accordance with the applicable tribal ordinance or resolution or Tribal-State Compact; and
   (4) The bet or wager does not violate any provision of—
      (ii) 28 U.S.C. chapter 178 (professional and amateur sports protection);
      (iii) The Gambling Devices Transportation Act (15 U.S.C. 1171 et seq.); or
      (iv) The Indian Gaming Regulatory Act (25 U.S.C. 2701 et seq.).

(u) *Money transmitting business* has the meaning given the term in 31 U.S.C. 5330(d)(1) (determined without regard to any regulations prescribed by the Secretary of the Treasury thereunder).

(v) *Operator* of a designated payment system means an entity that provides centralized clearing and delivery services between participants in the designated payment system and maintains the operational framework for the system. In the case of an automated clearinghouse system, the term “operator” has the same meaning as provided in the ACH Rules.

(w) *Participant in a designated payment system* means an operator of a designated payment system, a financial transaction provider that is a member of, or has contracted for financial transaction services with, or is otherwise participating in, a designated payment system, or a third-party processor. This term does not include a customer of the financial transaction provider, unless the customer is also a financial transaction provider otherwise participating in the designated payment system on its own behalf.

(x) *Reasoned legal opinion* means a written expression of professional judgment by a State-licensed attorney that addresses the facts of a particular client’s business and the legality of the client’s provision of its services to relevant customers in the relevant jurisdictions under applicable federal and State law, and, in the case of intratribal transactions, applicable tribal ordinances, tribal resolutions, and Tribal-State compacts. A written legal opinion will not be considered “reasoned” if it does nothing more than recite the facts and express a conclusion.

(y) *Restricted transaction* means any of the following transactions or transmittals involving any credit, funds, instrument, or proceeds that the Act prohibits any person engaged in the business of betting or wagering (which does not include the activities of a financial transaction provider, or any interactive computer service or tele-communications service) from knowingly accepting, in connection with the
participation of another person in unlawful Internet gambling—

(1) Credit, or the proceeds of credit, extended to or on behalf of such other person (including credit extended through the use of a credit card);

(2) An electronic fund transfer, or funds transmitted by or through a money transmitting business, or the proceeds of an electronic fund transfer or money transmitting service, from or on behalf of such other person; or

(3) Any check, draft, or similar instrument that is drawn by or on behalf of such other person and is drawn on or payable at or through any financial institution.

(2) State means any State of the United States, the District of Columbia, or any commonwealth, territory, or other possession of the United States, including the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, American Samoa, Guam, and the Virgin Islands.

(aa) Third-party processor means a service provider that—

(1) In the case of a debit transaction payment, such as an ACH debit entry or card system transaction, has a direct relationship with the commercial customer that is initiating the debit transfer transaction and acts as an intermediary between the commercial customer and the first depository institution to handle the transaction;

(2) In the case of a credit transaction payment, such as an ACH credit entry, has a direct relationship with the commercial customer that is to receive the proceeds of the credit transfer and acts as an intermediary between the commercial customer and the last depository institution to handle the transaction; and

(3) In the case of a cross-border ACH debit or check collection transaction, is the first service provider located within the United States to receive the ACH debit instructions or check for collection.

(bb) Unlawful Internet gambling means to place, receive, or otherwise knowingly transmit a bet or wager by any means which involves the use, at least in part, of the Internet where such bet or wager is unlawful under any applicable Federal or State law in the State or Tribal lands in which the bet or wager is initiated, received, or otherwise made. The term does not include placing, receiving, or otherwise transmitting a bet or wager that is excluded from the definition of this term by the Act as an intrastate transaction or an intra-tribal transaction, and does not include any activity that is allowed under the Interstate Horseracing Act of 1978 (15 U.S.C. 3001 et seq; see §233.1(a)). The intermediate routing of electronic data shall not determine the location or locations in which a bet or wager is initiated, received, or otherwise made.

(cc) Wire transfer system means a system through which an unconditional order to a bank to pay a fixed or determinable amount of money to a beneficiary upon receipt, or on a day stated in the order, is transmitted by electronic or other means through the network, between banks, or on the books of a bank. When referring to wire transfer systems, the terms in this regulation (such as “bank,” “originator’s bank,” “beneficiary’s bank,” and “intermediary bank”) are defined as those terms are defined in 12 CFR part 210, appendix B.

§ 233.3 Designated payment systems.

The following payment systems could be used by participants in connection with, or to facilitate, a restricted transaction:

(a) Automated clearing house systems;

(b) Card systems;

(c) Check collection systems;

(d) Money transmitting businesses solely to the extent they

(1) Engage in the transmission of funds, which does not include check cashing, currency exchange, or the issuance or redemption of money orders, traveler’s checks, and other similar instruments; and

(2) Permit customers to initiate transmission of funds transactions remotely from a location other than a physical office of the money transmitting business; and

(e) Wire transfer systems.
§ 233.4 Exemptions.

(a) Automated clearing house systems. The participants processing a particular transaction through an automated clearing house system are exempt from this regulation’s requirements for establishing written policies and procedures reasonably designed to prevent or prohibit restricted transactions with respect to that transaction, except for—

(1) The receiving depository financial institution and any third-party processor receiving the transaction on behalf of the receiver in an ACH credit transaction;

(2) The originating depository financial institution and any third-party processor initiating the transaction on behalf of the originator in an ACH debit transaction; and

(3) The receiving gateway operator and any third-party processor that receives instructions for an ACH debit transaction directly from a foreign sender (which could include a foreign banking office, a foreign third-party processor, or a foreign originating gateway operator).

(b) Check collection systems. The participants in a particular check collection through a check collection system are exempt from this regulation’s requirements for establishing written policies and procedures reasonably designed to prevent or prohibit restricted transactions with respect to that check collection, except for the depositary bank.

(c) Money transmitting businesses. The participants in a money transmitting business are exempt from this regulation’s requirements for establishing written policies and procedures reasonably designed to prevent or prohibit restricted transactions, except for the operator.

(d) Wire transfer systems. The participants in a particular wire transfer through a wire transfer system are exempt from this regulation’s requirements for establishing written policies and procedures reasonably designed to prevent or prohibit restricted transactions with respect to that transaction, except for the beneficiary’s bank.

§ 233.5 Policies and procedures required.

(a) All non-exempt participants in designated payment systems shall establish and implement written policies and procedures reasonably designed to identify and block or otherwise prevent or prohibit restricted transactions.

(b) A non-exempt financial transaction provider participant in a designated payment system shall be considered to be in compliance with the requirements of paragraph (a) of this section if—

(1) It relies on and complies with the written policies and procedures of the designated payment system that are reasonably designed to—

(i) Identify and block restricted transactions; or

(ii) Otherwise prevent or prohibit the acceptance of the products or services of the designated payment system or participant in connection with restricted transactions; and

(2) Such policies and procedures of the designated payment system comply with the requirements of this part.

(c) For purposes of paragraph (b)(2) in this section, a participant in a designated payment system may rely on a written statement or notice by the operator of that designated payment system to its participants that states that the operator has designed or structured the system’s policies and procedures for identifying and blocking or otherwise preventing or prohibiting restricted transactions to comply with the requirements of this part as conclusive evidence that the system’s policies and procedures comply with the requirements of this part, unless the participant is notified otherwise by its Federal functional regulator or, in the case of participants that are not directly supervised by a Federal functional regulator, the Federal Trade Commission.

(d) As provided in the Act, a person that identifies and blocks a transaction, prevents or prohibits the acceptance of its products or services in connection with a transaction, or otherwise refuses to honor a transaction, shall not be liable to any party for such action if—

(1) The transaction is a restricted transaction;
(2) Such person reasonably believes the transaction to be a restricted transaction; or

(3) The person is a participant in a designated payment system and blocks or otherwise prevents the transaction in reliance on the policies and procedures of the designated payment system in an effort to comply with this regulation.

(e) Nothing in this part requires or is intended to suggest that designated payment systems or participants there-in must or should block or otherwise prevent or prohibit any transaction in connection with any activity that is excluded from the definition of “unlawful Internet gambling” in the Act as an intrastate transaction, an intratribal transaction, or a transaction in connection with any activity that is allowed under the Interstate Horseracing Act of 1978 (15 U.S.C. 3001 et seq.; see §233.1(a)).

(f) Nothing in this part modifies any requirement imposed on a participant by other applicable law or regulation to file a suspicious activity report to the appropriate authorities.

(g) The requirement of this part to establish and implement written policies and procedures applies only to the U.S. offices of participants in designated payment systems.

§ 233.6 Non-exclusive examples of policies and procedures.

(a) In general. The examples of policies and procedures to identify and block or otherwise prevent or prohibit restricted transactions set out in this section are non-exclusive. In establishing and implementing written policies and procedures to identify and block or otherwise prevent or prohibit restricted transactions, a non-exempt participant in a designated payment system is permitted to design and implement policies and procedures tailored to its business that may be different than the examples provided in this section. In addition, non-exempt participants may use different policies and procedures with respect to different business lines or different parts of the organization.

(b) Due diligence. If a non-exempt participant in a designated payment system establishes and implements procedures for due diligence of its commercial customer accounts or commercial customer relationships in order to comply, in whole or in part, with the requirements of this regulation, those due diligence procedures will be deemed to be reasonably designed to identify and block or otherwise prevent or prohibit restricted transactions if the procedures include the steps set out in paragraphs (b)(1), (b)(2), and (b)(3) of this section and subject to paragraph (b)(4) of this section.

(1) At the establishment of the account or relationship, the participant conducts due diligence of a commercial customer and its activities commensurate with the participant’s judgment of the risk of restricted transactions presented by the customer’s business.

(2) Based on its due diligence, the participant makes a determination regarding the risk the commercial customer presents of engaging in an Internet gambling business and follows either paragraph (b)(2)(i) or (b)(2)(ii) of this section.

(i) The participant determines that the commercial customer presents a minimal risk of engaging in an Internet gambling business.

(ii) The participant cannot determine that the commercial customer presents a minimal risk of engaging in an Internet gambling business, in which case it obtains the documentation in either paragraph (b)(2)(ii)(A) or (b)(2)(ii)(B) of this section—

(A) Certification from the commercial customer that it does not engage in an Internet gambling business; or

(B) If the commercial customer does engage in an Internet gambling business, each of the following—

(1) Evidence of legal authority to engage in the Internet gambling business, such as—

(i) A copy of the commercial customer’s license that expressly authorizes the customer to engage in the Internet gambling business issued by the appropriate State or Tribal authority or, if the commercial customer does not have such a license, a reasoned legal opinion that demonstrates that the commercial customer’s Internet gambling business does not involve restricted transactions; and
(i) A written commitment by the commercial customer to notify the participant of any changes in its legal authority to engage in its Internet gambling business.

(2) A third-party certification that the commercial customer’s systems for engaging in the Internet gambling business are reasonably designed to ensure that the commercial customer’s Internet gambling business will remain within the licensed or otherwise lawful limits, including with respect to age and location verification.

(3) The participant notifies all of its commercial customers, through provisions in the account or commercial customer relationship agreement or otherwise, that restricted transactions are prohibited from being processed through the account or relationship.

(4) With respect to the determination in paragraph (b)(2)(i) of this section, participants may deem the following commercial customers to present a minimal risk of engaging in an Internet gambling business—

(i) An entity that is directly supervised by a Federal functional regulator as set out in §233.7(a); or

(ii) An agency, department, or division of the Federal government or a State government.

(c) Automated clearing house system examples. (1) The policies and procedures of the originating depository financial institution and any third party processor in an ACH debit transaction, and the receiving depository financial institution and any third party processor in an ACH credit transaction, are deemed to be reasonably designed to identify and block or otherwise prevent or prohibit restricted transactions if they—

(i) Address methods to conduct due diligence in establishing a commercial customer account or relationship as set out in §233.6(b);

(ii) Address methods to conduct due diligence as set out in §§233.6(b)(2)(ii)(B) in the event that the participant has actual knowledge that an existing commercial customer of the participant engages in an Internet gambling business; and

(iii) Include procedures to be followed with respect to a commercial customer if the originating depository financial institution or third-party processor has actual knowledge that its commercial customer has originated restricted transactions as ACH debit transactions or if the receiving depository financial institution or third-party processor has actual knowledge that its commercial customer has received restricted transactions as ACH credit transactions, such as procedures that address—

(A) The circumstances under which the commercial customer should not be allowed to originate ACH debit transactions or receive ACH credit transactions; and

(B) The circumstances under which the account should be closed.

(2) The policies and procedures of a receiving gateway operator and third-party processor that receives instructions to originate an ACH debit transaction directly from a foreign sender are deemed to be reasonably designed to prevent or prohibit restricted transactions if they include procedures to be followed with respect to a foreign sender if the receiving gateway operator or third-party processor has actual knowledge, obtained through notification by a government entity, such as law enforcement or a regulatory agency, that such instructions included instructions for restricted transactions. Such procedures may address sending notification to the foreign sender, such as in the form of the notice contained in appendix A to this part.

(d) Card system examples. The policies and procedures of a card system operator, a merchant acquirer, third-party processor, or a card issuer, are deemed to be reasonably designed to identify and block or otherwise prevent or prohibit restricted transactions, if the policies and procedures—

(1) Provide for either—

(i) Methods to conduct due diligence—

(A) In establishing a commercial customer account or relationship as set out in §233.6(b); and

(B) As set out in §233.6(b)(2)(ii)(B) in the event that the participant has actual knowledge that an existing commercial customer of the participant engages in an Internet gambling business; or
(ii) Implementation of a code system, such as transaction codes and merchant/business category codes, that are required to accompany the authorization request for a transaction, including—
(A) The operational functionality to enable the card system operator or the card issuer to reasonably identify and deny authorization for a transaction that the coding procedure indicates may be a restricted transaction; and
(B) Procedures for ongoing monitoring or testing by the card system operator to detect potential restricted transactions, including—
(1) Conducting testing to ascertain whether transaction authorization requests are coded correctly; and
(2) Monitoring and analyzing payment patterns to detect suspicious payment volumes from a merchant customer; and
(2) For the card system operator, merchant acquirer, or third-party processor, include procedures to be followed when the participant has actual knowledge that a merchant has received restricted transactions through the card system, such as—
(i) The circumstances under which the access to the card system for the merchant, merchant acquirer, or third-party processor should be denied; and
(ii) The circumstances under which the merchant account should be closed.
(e) Check collection system examples. (1) The policies and procedures of a depositary bank are deemed to be reasonably designed to identify and block or otherwise prevent or prohibit restricted transactions if they—
(i) Address methods for the depositary bank to conduct due diligence in establishing a commercial customer account or relationship as set out in §233.6(b); and
(ii) Address methods for the depositary bank to conduct due diligence as set out in §233.6(b)(2)(ii)(B) in the event that the depositary bank has actual knowledge that an existing commercial customer engages in an Internet gambling business; and
(iii) Include procedures regarding ongoing monitoring or testing by the operator to detect potential restricted transactions, such as monitoring and analyzing payment patterns to detect suspicious payment volumes to any recipient; and
(2) The policies and procedures of a depositary bank that receives checks for collection from a foreign banking office are deemed to be reasonably designed to identify and block or otherwise prevent or prohibit restricted transactions if they include procedures to be followed by the depositary bank when it has actual knowledge, obtained through notification by a government entity, such as law enforcement or a regulatory agency, that a foreign banking office has sent checks to the depositary bank that are restricted transactions. Such procedures may address sending notification to the foreign banking office, such as in the form of the notice contained in the appendix to this part.
(1) Money transmitting business examples. The policies and procedures of an operator of a money transmitting business are deemed to be reasonably designed to identify and block or otherwise prevent or prohibit restricted transactions if they—
(1) Address methods for the operator to conduct due diligence in establishing a commercial customer relationship as set out in §233.6(b); and
(2) Address methods for the operator to conduct due diligence as set out in §233.6(b)(2)(ii)(B) in the event that the operator has actual knowledge that an existing commercial customer engages in an Internet gambling business; and
(3) Include procedures regarding ongoing monitoring or testing by the operator to detect potential restricted transactions, such as monitoring and analyzing payment patterns to detect suspicious payment volumes to any recipient; and
(4) Include procedures when the operator has actual knowledge that a commercial customer of the operator has received restricted transactions through the money transmitting business, that address—
(1) The circumstances under which money transmitting services should be
§ 233.7

The requirements under this part are subject to the exclusive regulatory enforcement of—

(a) The Federal functional regulators, with respect to the designated payment systems and participants therein that are subject to the respective jurisdiction of such regulators under section 505(a) of the Gramm-Leach-Bliley Act (15 U.S.C. 6805(a)) and section 5g of the Commodity Exchange Act (7 U.S.C. 7b–2); and

(b) The Federal Trade Commission, with respect to designated payment systems and participants therein not otherwise subject to the jurisdiction of any Federal functional regulators (including the Commission) as described in paragraph (a) of this section.

§ 233.7 Regulatory enforcement.

The requirements under this part are subject to the exclusive regulatory enforcement of—

(a) The Federal functional regulators, with respect to the designated payment systems and participants therein that are subject to the respective jurisdiction of such regulators under section 505(a) of the Gramm-Leach-Bliley Act (15 U.S.C. 6805(a)) and section 5g of the Commodity Exchange Act (7 U.S.C. 7b–2); and

(b) The Federal Trade Commission, with respect to designated payment systems and participants therein not otherwise subject to the jurisdiction of any Federal functional regulators (including the Commission) as described in paragraph (a) of this section.

APPENDIX A TO PART 233—MODEL NOTICE

[Date]

[Name of foreign sender or foreign banking office]

(Address)

Re: U.S. Unlawful Internet Gambling Enforcement Act Notice

Dear [Name of foreign counterparty]:

On [date], U.S. government officials informed us that your institution processed payments through our facilities for Internet gambling transactions restricted by U.S. law on [dates, recipients, and other relevant information if available].

We provide this notice to comply with U.S. Government regulations implementing the Unlawful Internet Gambling Enforcement Act of 2006 (Act), a U.S. federal law. Our policies and procedures established in accordance with those regulations provide that we will notify a foreign counterparty if we learn that the counterparty has processed payments through our facilities for Internet gambling transactions restricted by the Act. This notice ensures that you are aware that we have received information that your institution has processed payments for Internet gambling restricted by the Act.

PART 250—MISCELLANEOUS INTERPRETATIONS

Sec.

250.141 Member bank purchase of stock of "operations subsidiaries."

250.142 Meaning of "obligor or maker" in determining limitation on securities investments by member State banks.

250.143 Member bank purchase of stock of foreign operations subsidiaries.

250.160 Federal funds transactions.

250.163 Inapplicability of amount limitations to "ineligible acceptances."

250.164 Bankers’ acceptances.

250.165 Bankers’ acceptances: definition of participations.

250.166 Treatment of mandatory convertible debt and subordinated notes of state member banks and bank holding companies as "capital."

250.180 Reports of changes in control of management.

250.181 Reports of change in control of bank management incident to a merger.
§ 250.141 Member bank purchase of stock of "operations subsidiaries."

(a) The Board of Governors has reexamined its position that the so-called "stock-purchase prohibition" of section 5155 of the Revised Statutes (12 U.S.C. 36), which is made applicable to member State banks by the 20th para-

graph of section 9 of the Federal Reserve Act (12 U.S.C. 335), forbids the purchase by a member bank "for its own account of any shares of stock of any corporation" (the statutory language), except as specifically permitted by provisions of Federal law or as comprised within the concept of "such incidental powers as shall be necessary to carry on the business of banking", referred to in the first sentence of paragraph "Seventh" of R.S. 5136.

(b) In 1966 the Board expressed the view that said incidental powers do not permit member banks to purchase stock of "operations subsidiaries"—that is, organizations designed to serve, in effect, as separately-incorporated departments of the bank, performing, at locations at which the bank is authorized to engage in business, functions that the bank is empowered to perform directly. (See 1966 Federal Reserve Bulletin 1151.)

(c) The Board now considers that the incidental powers clause permits a bank to organize its operations in the manner that it believes best facilitates the performance thereof. One method of organization is through departments; another is through separate incorporation of particular operations. In other words, a wholly owned subsidiary corporation engaged in activities that the bank itself may perform is simply a convenient alternative organizational arrangement.

(d) Reexamination of the apparent purposes and legislative history of the stock-purchase prohibition referred to above has led the Board to conclude that such prohibition should not be interpreted to preclude a member bank from adopting such an organizational arrangement unless its use would be inconsistent with other Federal law, either statutory or judicial.

(e) In view of the relationship between the operation of certain subsidiaries and the branch banking laws, the Board has also reexamined its rulings on what constitutes "money lent" for the purposes of section 5155 of the Revised Statutes (12 U.S.C. 36), which provides that "The term branch shall be held to include any branch bank, branch office, branch agency, additional office, or any branch place of
§ 250.141  

12 CFR Ch. II (1–1–09 Edition)  

In the Board's judgment, the statutory enumeration of three specific functions that establish branch status is not meant to be exclusive but to assure that offices at which any of these functions is performed are regarded as branches by the bank regulatory authorities. In applying the statute the emphasis should be to assure that significant banking functions are made available to the public only at governmentally authorized offices.

(f) The Board noted in its 1967 interpretation that offices that are open to the public and staffed by employees of the bank who regularly engage in soliciting borrowers, negotiating terms, and processing applications for loans (so-called loan production offices) constitute branches. (1967 Federal Reserve Bulletin 1334.) The Board also noted that later in that year it considered the question whether a bank holding company may acquire the stock of a so-called mortgage company on the basis that the company would be engaged in “furnishing services to or performing services for such bank holding company or its banking subsidiaries” (the so-called servicing exemption of section 4(c)(1)(C) of the Bank Holding Company Act; 12 U.S.C. 1843). In concluding affirmatively, the Board stated that “the appropriate test for determining whether the company may be considered as within the servicing exemption is whether the company will perform as principal any banking activities—such as receiving deposits, paying checks, extending credit, conducting a trust department, and the like. In other words, if the mortgage company is to act merely as an adjunct to a bank for the purpose of facilitating the bank’s operations, the company may appropriately be considered as within the scope of the servicing exemption.” (1967 Federal Reserve Bulletin 1911; 12 CFR 225.122.)

(g) The Board believes that the purposes of the branch banking laws and the servicing exemption are related. Generally, what constitutes a branch does not constitute a servicing organization and, vice versa, an office that only performs servicing functions should not be considered a branch. (See 1958 Federal Reserve Bulletin 431, last paragraph; 12 CFR 225.104(e).) When viewed together, the above-cited interpretations on loan production offices and mortgage companies represent a departure from this principle. In reconsidering the laws involved, the Board has concluded that a test similar to that adopted with respect to the servicing exemption under the Bank Holding Company Act is appropriate for use in determining whether or not what constitutes money [is] lent at a particular office, for the purpose of the Federal branch banking laws.

(h) Accordingly, the Board considers that the following activities, individually or collectively, do not constitute the lending of money within the meaning of section 5155 of the revised statutes: Soliciting loans on behalf of a bank (or a branch thereof), assembling credit information, making property inspections and appraisals, securing title information, preparing applications for loans (including making recommendations with respect to action thereon), soliciting investors to purchase loans from the bank, seeking to have such investors contract with the bank for the servicing of such loans, and other similar agent-type activities. When loans are approved and funds disbursed solely at the main office or a branch of the bank, an office at which only preliminary and servicing steps are taken is not a place where money [is] lent. Because preliminary and servicing steps of the kinds described do not constitute the performance of significant banking functions of the type that Congress contemplated should be performed only at governmentally approved offices, such office is accordingly not a branch.

(i) To summarize the foregoing, the Board has concluded that, insofar as Federal law is concerned, a member bank may purchase for its own account shares of a corporation to perform, at locations at which the bank is authorized to engage in business, functions that the bank is empowered to perform directly. Also, a member bank may establish and operate, at any location in the United States, a loan production office of the type described herein. Such offices may be established and operated

---

1In the Board's judgment, the statutory enumeration of three specific functions that establish branch status is not meant to be exclusive but to assure that offices at which any of these functions is performed are regarded as branches by the bank regulatory authorities. In applying the statute the emphasis should be to assure that significant banking functions are made available to the public only at governmentally authorized offices.
§ 250.143 Member bank purchase of stock of foreign operations subsidiaries.

(a) In a previous interpretation, the Board determined that a State member bank would not violate the “stock-purchase prohibition” of section 5136 of the Revised Statutes (12 U.S.C. 24 ¶ 7) by purchasing and holding the shares of a corporation which performs “at locations at which the bank is authorized
to engage in business, functions that the bank is empowered to perform
directly’. 1 (1968 Federal Reserve Bulletin 681, 12 CFR 250.141). The Board of Gov-
ernors has been asked by a State mem-
ber bank whether, under that interpre-
tation, the bank may establish such a so-called operations subsidiary outside
the United States.

(b) In the above interpretation the Board viewed the creation of a wholly-
owned subsidiary which engaged in ac-
tivities that the bank itself could per-
form directly as an alternative organi-
zational arrangement that would be
permissible for member banks unless
‘its use would be inconsistent with other Federal law, either statutory or
judicial’.

(c) In the Board’s judgment, the use
by member banks of operations subsidi-
aries outside the United States would
be clearly inconsistent with the statu-
tory scheme of the Federal Reserve Act
governing the foreign investments and
operations of member banks. It is clear
that Congress has given member banks
the authority to conduct operations and
make investments outside the
United States only through gradually
adopting a series of specific statutory
amendments to the Federal Reserve Act,
each of which has been carefully
drawn to give the Board approval, su-
pervisory, and regulatory authority
over those operations and investments.

(d) As part of the original Federal
Reserve Act, national banks were, with
the Board’s permission, given the
power to establish foreign branches.2 In
1916, Congress amended the Federal Re-
serve Act to permit national banks to
invest in international or foreign bank-
ing corporations known as Agreement
Corporations, because such corpora-
tions were required to enter into an
agreement or understanding with the
Board to restrict their operations. Sub-
ject to such limitations or restrictions
as the Board may prescribe, such
Agreement corporations may principi-
ally engage in international or for-

eign banking, or banking in a depend-
ency or insular possession of the
United States, either directly or
through the agency, ownership or con-
trol of local institutions in foreign
countries, or in such dependencies or
insular possessions of the United States. In 1919 the enactment of sec-
tion 25(a) of the Federal Reserve Act
(the ‘‘Edge Act’’) permitted national
banks to invest in federally chartered
international or foreign banking cor-
porations (so-called Edge Corporations)
which may engage in international or
foreign banking or other international
or foreign financial operations, or in
banking or other financial operations in a dependency or insular possession
of the United States, either directly or
through the ownership or control of
local institutions in foreign countries,
or in such dependencies or insular pos-
sessions. Edge Corporations may only
purchase and hold stock in certain for-
eign subsidiaries with the consent of
the Board. And in 1966, Congress
amended section 25 of the Federal Re-
serve Act to allow national banks to
invest directly in the shares of a for-

eign bank. In the Board’s judgment,
the above statutory scheme of the Fed-
eral Reserve Act evidences a clear Con-
gressional intent that member banks
may only purchase and hold stock in
subsidiaries located outside the United
States through the prescribed statu-
tory provisions of sections 25 and 25(a)
of the Federal Reserve Act. It is
through these statutorily prescribed
forms of organization that member
banks must conduct their operations
outside the United States.

1 National banking associations are prohib-
ited by section 5136 of the Revised Statutes
from purchasing and holding shares of any
corporation except those corporations whose
shares are specifically made eligible by stat-
ute. This prohibition is made applicable to
State member banks by section 9 ¶ 20 of the

2 Under section 9 of the Federal Reserve
Act, State member banks, subject, of course,
to any necessary approval from their State
banking authority, may establish foreign
branches on the same terms and subject to
the same limitations and restrictions as are applicable to the establishment of branches
by national banks (12 U.S.C. 321). State mem-
ber banks may also purchase and hold shares
of stock in Edge or Agreement Corporations
and foreign banks because national banks, as
a result of specific statutory exceptions to

the stock purchase prohibitions of section
5136, can purchase and hold stock in these
Corporations or banks.
§ 250.163 Inapplicability of amount limitations to "ineligible acceptances."

(a) Since 1923, the Board has been of the view that the acceptance power of State member banks is not necessarily confined to the provisions of section 13 (of the Federal Reserve Act), inasmuch as the laws of many States confer broader acceptance powers upon their State banks, and certain State member banks may, therefore, legally make acceptances of kinds which are not eligible for rediscount, but which may be eligible for purchase by Federal reserve banks under section 14. “1923 FR bulletin 316, 317.

(b) In 1963, the Comptroller of the Currency ruled that “national banks are not limited in the character of acceptances which they may make in financing credit transactions, and bankers’ acceptances may be used for such purpose, since the making of acceptances is an essential part of banking authorized by 12 U.S.C. 24.” Comptroller’s manual 7.7420. Therefore, national banks are authorized by the Comptroller to make acceptances under 12 U.S.C. 24, although the acceptances are not the type described in section 13 of the Federal Reserve Act.

(c) A review of the legislative history surrounding the enactment of the acceptance provisions of section 13, reveals that Congress believed in 1913, that it was granting to national banks a power which they would not otherwise possess and had not previously possessed. See remarks of Congressmen Phelan, Helvering, Saunders, and Glass, 51 Cong. Rec. 4676, 4798, 4885, and 5064 (September 10, 12, 13, and 17 of 1913). Nevertheless, the courts have long recognized the evolutionary nature of banking and of the scope of the “incidental powers” clause of 12 U.S.C. 24. See Merchants Bank v. State Bank, 77 U.S. 604 (1870) (upholding the power of a national bank to certify a check under the “incidental powers” clause of 12 U.S.C. 24).

(d) It now appears that, based on the Board’s 1923 ruling, and the Comptroller’s 1963 ruling, both State member banks and national banks may make acceptances which are not of the type described in section 13 of the Federal Reserve Act. Yet, this appears to be a development that Congress did not contemplate when it drafted the acceptance provisions of section 13.

(e) The question is presented whether the amount limitations of section 13 should apply to acceptances made by a member bank that are not of the type described in section 13. (The amount limitations are of two kinds:

(1) A limitation on the amount that may be accepted for any one customer, and

(2) A limitation on the aggregate amount of acceptances that a member bank may make.)
In interpreting any Federal statutory provision, the primary guide is the intent of Congress, yet, as noted earlier, Congress did not contemplate in 1913, the development of so-called “ineligible acceptances.” (Although there is some indication that Congress did contemplate State member banks’ making acceptances of a type not described in section 13 [remarks of Congressman Glass, 51 Cong. Rec. 5064], the primary focus of congressional attention was on the acceptance powers of national banks.) In the absence of an indication of congressional intent, we are left to reach an interpretation that is in harmony with the language of the statutory provisions and with the purposes of the Federal Reserve Act.

(f) Section 13 authorizes acceptances of two types. The seventh paragraph of section 13 (12 U.S.C. 372) authorizes certain acceptances that arise out of specific transactions in goods. (These acceptances are sometimes referred to as “commercial acceptances.”) The 12th paragraph of section 13 authorizes member banks to make acceptances “for the purpose of furnishing dollar exchange as required by the usages of trade” in foreign transactions. (Such acceptances are referred to as “dollar exchange acceptances.”) In the 12th paragraph, there is a 10 percent limit on the amount of dollar exchange acceptances that may be accepted for any one customer (unless adequately secured) and a limitation on the aggregate amount of dollar exchange acceptances that a member bank may make. (The 12th paragraph, in imposing these limitations, refers to the acceptance of “such drafts or bills of exchange referred to (in) this paragraph.”) Similarly, the seventh paragraph imposes on commercial acceptances a parallel 10 percent per-customer limitation, and limitations on the aggregate amount of commercial acceptances. (In the case of the aggregate limitations, the seventh paragraph states that “no bank shall accept such bills to an amount” in excess of the aggregate limit; the reference to “such bills” makes clear that the limitation is only in respect of drafts or bills of exchange of the specific type described in the seventh paragraph.)

(g) Based on the language and parallel structure of the 7th and 12th paragraphs of section 13, and in the absence of a statement of congressional intent in the legislative history, the Board concludes that the per-customer and aggregate limitations of the 12th paragraph apply only to acceptances of the type described in that paragraph (dollar exchange acceptances), and the per-customer and aggregate limitations of the 7th paragraph (12 U.S.C. 372) apply only to acceptances of the type described in that paragraph.

(b)(1) This section of the BESA provides that any portion of an eligible BA created by an institution subject to the BA limitations contained therein (“covered bank”) that is conveyed through a participation to another covered bank shall not be included in the calculation of the creating bank’s BA limits. The amount of the participation is to be applied to the calculation of the BA limits applicable to the covered bank.
Although a covered bank that has reached its 150 or 200 percent limit can continue to create eligible acceptances by conveying participations to other covered banks, Congress has in effect imposed an aggregate limit on the eligible acceptances that may be created by all covered banks equal to the sum of 150 or 200 percent of the capital of all covered banks.

(2) The Board has clarified that under the statute an eligible BA created by a covered bank that is conveyed through a participation to an institution that is not subject to the limitations of this section of the BESA continues to be included in the calculation of the limits applicable to the creating covered bank. This will ensure that the total amount of eligible BAs that may be created by covered banks does not exceed the limitations established by Congress. In addition, this ensures that participations in acceptances are not used as a device for the avoidance of reserve requirements. Finally, this promotes the Congressional intent, with respect to covered banks, that foreign and domestic banks be on an equal footing and under the same legal requirements.

(3) In addition, the amount of a participation received by a covered bank from an institution not covered by the limitations of the Act is to be included in the calculation of the limits applicable to the covered bank receiving the participation. This result is based upon the language of the statute which includes within a covered bank’s limits on eligible BAs outstanding the amount of participations received by the covered bank. This provision reflects Congressional intent that a covered bank not be obligated on eligible bankers’ acceptances, and participations therein, for an amount in excess of 150 or 200 percent of the institution’s capital.

(c) The statute also provides that eligible acceptances growing out of domestic transactions are not to exceed 50 percent of the aggregate of all eligible acceptances authorized for covered banks. The Board has clarified that this 50 percent limitation is applicable to the maximum permissible amount of eligible BAs (150 or 200 percent of capital), regardless of the bank’s amount of eligible acceptances outstanding. The statutory language prior to the BESA amendment made clear that covered banks could issue eligible acceptances growing out of domestic transactions up to 50 percent of the amount of the total permissible eligible acceptances the bank could issue. The legislative history of the BESA indicates no intent to change this domestic acceptance limitation.

(d) The statute also provides that for the purpose of the limitations applicable to U.S. branches and agencies of foreign banks, a branch’s or agency’s capital is to be calculated as the dollar equivalent of the capital stock and surplus of the parent foreign bank as determined by the Board. The Board has clarified that for purposes of calculating the BA limits applicable to U.S. branches and agencies of foreign banks, the identity of the parent foreign bank is generally the same as for reserve requirement purposes; that is, the bank entity that owns the branch or agency most directly. The Board has also clarified that the procedures currently used for purposes of reporting to the Board on the Annual Report of Foreign Banking Organizations, Form FR Y–7, are also to be used in the calculation of the acceptance limits applicable to U.S. branches and agencies of foreign banks. (The FR Y–7 generally requires financial statements prepared in accordance with local accounting practices and an explanation of the accounting terminology and the major features of the accounting standards used in the preparation of the financial statements.) Conversions to the dollar equivalent of the worldwide capital of the foreign bank should be made periodically, but in no event less frequently than quarterly. In this regard, the Board recognizes the need to be flexible in dealing with the effect of foreign exchange rate fluctuations on the calculation of the worldwide capital of the parent foreign bank. Each foreign bank is to be responsible for coordinating the BA activity of its U.S. branches and agencies (including the aggregation of such activity) and establishing procedures that ensure that
§ 250.165

Bankers' acceptances: definition of participations.

(a)(1) Section 207 of the Bank Export Services Act (Title II of Pub. L. 97–290) ("BESA") raised the limits on the aggregate amount of eligible bankers' acceptances ("BAs") that may be created by a member bank from 50 percent (or 100 percent with the permission of the Board) of its paid up and unimpaired capital stock and surplus ("capital") to 150 percent (or 200 percent with the permission of the Board) of its capital. Section 207 also prohibits a member bank from creating eligible BAs for any one person in the aggregate in excess of 10 percent of the institution's capital. Eligible BAs growing out of domestic transactions are not to exceed 50 percent of the aggregate of all eligible acceptances authorized for a member bank. This section of the BESA applies the same limits applicable to member banks to U.S. branches and agencies of foreign banks that are subject to reserve requirements under section 7 of the International Banking Act of 1978 (12 U.S.C. 3105).1

(2) This section of the BESA also provides that any portion of an eligible BA created by a covered bank ("senior bank") that is conveyed through a "participation agreement" to another covered bank ("junior bank") shall not be included in the calculation of the senior bank's bankers' acceptance limits established by section 207 of BESA.2 However, the amount of the participation is to be included in the BA limits applicable to the junior bank. The language of the statute does not define what constitutes a participation agreement for purposes of the applicability of the BESA limitations. However, the statute does authorize the Board to further define any of the terms used in section 207 of the BESA (12 U.S.C. 372(g)). The Board is clarifying the term participation for purposes of the BA limitations of the BESA.

(b) The legislative history of section 207 of the BESA indicates that Congress intended that the junior bank be obligated to the senior bank in the event that the account party defaults on its obligation to pay, but that the junior bank need not also be obligated to pay the holder of the acceptance at the time the BA is presented for payment. H. Rep. No. 97–629, 97th Cong., 2nd Sess. 15 (1982); 128 Cong. Rec. H 4647 (daily ed. July 27, 1982) (remarks by Rep. Barnard); and 128 Cong. Rec. H 8462 (daily ed. October 1, 1982) (remarks by Rep. Barnard). The legislative history also indicates that Congress intended that eligible BAs in which participations had been conveyed not be required to indicate the name(s) (or interest(s)) of the junior bank(s) on the acceptance in order for the BA to be excluded from the BESA limitations applicable to the senior bank. 128 Cong. Rec. S 12237 (daily ed. September 24, 1982) (remarks of Senators Heinz and Garn); and 128 Cong. Rec. H 4647 (daily ed. July 27, 1982) (remarks of Rep. Barnard).

(c)(1) In view of Congressional intent with regard to what constitutes a participation in an eligible BA, the Board has determined that, for purposes of the BESA limits, a participation must satisfy the following two minimum requirements:

(i) A written agreement entered into between the junior and senior bank under which the junior bank acquires the senior bank’s claim against the account party to the extent of the amount of the participation that is enforceable in the event that the account party fails to perform in accordance with the terms of the acceptance; and

(ii) The agreement between the junior and senior bank provides that the senior bank obtains a claim against the junior bank to the extent of the amount of the participation that is enforceable in the event the account...
party fails to perform in accordance with the terms of the acceptance.

(2) Consistent with Congressional intent, the minimum requirements do not require the junior bank to be obligated to pay the holder of the acceptance at the time the BA is presented for payment. Similarly, the minimum requirements do not require the name(s) or interest(s) of the junior bank(s) to appear on the face of the acceptance.

(3) An eligible BA that is conveyed through a participation that does not satisfy these minimum requirements would continue to be included in the BA limits applicable to the senior bank. Further, an eligible BA conveyed to a covered bank through a participation that provided for additional rights and obligations among the parties would be excluded from the BESA limitations of the senior bank provided the minimum requirements were satisfied.

(4) A participation structured pursuant to these minimum requirements would be as follows: Upon the conveyance of the participation, the senior bank retains its entire obligation to pay the holder of the BA at maturity. The senior bank has a claim against the junior bank to the extent of the amount of the participation that is enforceable in the event the account party fails to perform in accordance with the terms of the acceptance. Similarly, the junior bank has a corresponding claim against the account party to the extent of the amount of the participation that is enforceable in the event the account party fails to perform in accordance with the terms of the acceptance.

(d)(1) The Board is not requiring the senior bank and the account party specifically to agree that the senior bank’s rights are assignable because the Board believes such rights to be assignable even in the absence of an explicit agreement.

(2) The junior and senior banks may contract among themselves as to which party(ies) have the responsibility for administering the arrangement, enforcing claims, or exercising remedies.

(e) The Board recognizes that both the junior bank’s claim on the account party and the senior bank’s claim on the junior bank involve risk. Therefore, it is essential that these risks be assessed by the banks involved in accordance with prudent and sound banking practices. The examiners will in the normal course of the examination process review the risk assessment procedures instituted by the banks. The junior bank should review the creditworthiness of each account party when the junior bank acquires a participation and the senior bank should review on an ongoing basis the creditworthiness of the junior bank. Junior bank agreement to rely exclusively upon the credit judgment of the senior bank and purchase on an ongoing basis from the senior bank all participations in BAs regardless of the identity of the account party is not appropriate in view of the risks involved. However, in those cases involving a participation between a parent bank and its Edge affiliate where the credit review for both entities is performed by the parent bank, the Edge Corporation should maintain documentation indicating that it concurs with the parent bank’s analysis and that the acceptance participation is appropriate for inclusion in the Edge Corporation’s portfolio.

(f) Similarly, the Board has determined that it is appropriate to include the risks incurred by the senior bank in assessing the senior bank’s capital and the risks incurred by the junior bank in assessing the junior bank’s capital.

(g) In view of this clarification of the issues relating to participations in BAs, the Board encourages the private sector to develop standardized forms for BAs and participations therein that clearly delineate the rights and responsibilities of the relevant parties.

§ 250.166 12 CFR Ch. II (1–1–09 Edition)

clarify these criteria. This interpretation should be read with those guidelines, particularly with paragraphs II.c. through II.e. of appendix A of 12 CFR part 208 if the issuer is a state member bank and with paragraphs II.A.2.c. and II.A.2.d. of appendix A of 12 CFR part 225 if the issuer is a bank holding company.

(b) Criteria for subordinated debt included in capital—(1) Characteristics. To be included in Tier 2 capital under the Board’s risk-based capital guidelines for state member banks and bank holding companies, subordinated debt must be subordinated in right of payment to the claims of the issuer’s general creditors1 and, for banks, to the claims of depositors as well; must be unsecured; must state clearly on its face that it is not a deposit and is not insured by a federal agency; must have a minimum average maturity of five years;2 must not contain provisions that permit debtholders to accelerate payment of principal prior to maturity except in the event of bankruptcy of or the appointment of a receiver for the issuing organization; must not contain or be covered by any covenants, terms, or restrictions that are inconsistent with safe and sound banking practice; and must not be credit sensitive.

(2) Acceleration clauses—(i) In order to be included in Tier 2 capital, the appendices provide that subordinated debt instruments must have an original weighted average maturity of at least five years. For this purpose, maturity is defined as the earliest possible date on which the holder can put the instrument back to the issuing banking organization. Since acceleration clauses permit the holder to put the debt back upon the occurrence of certain events, which could happen at any time after the instrument is issued, subordinated debt that includes provisions permitting acceleration upon events other than bankruptcy or reorganization under Chapters 7 (Liquidation) and 11 (Reorganization) of the Bankruptcy Code, in the case of a bank holding company, or insolvency—i.e., the appointment of a receiver—in the case of a state member bank, does not qualify for inclusion in Tier 2 capital.

(ii) Further, subordinated debt whose terms provide for acceleration upon the occurrence of events other than bankruptcy or the appointment of a receiver does not qualify as Tier 2 capital. For example, the terms of some subordinated debt issues would permit debtholders to accelerate repayment if the issuer failed to pay principal or interest on the subordinated debt issue when due (or within a certain timeframe after the due date), failed to make mandatory sinking fund deposits, defaulted on any other debt, failed to honor covenants, or if an institution affiliated with the issuer entered into bankruptcy or receivership. Some banking organizations have also issued, or proposed to issue, subordinated debt that would allow debtholders to accelerate repayment if, for example, the banking organization failed to maintain certain prescribed minimum capital ratios or rates of return, or if the amount of nonperforming assets or charge-offs of the banking organization exceeded a certain level.

(iii) These and other similar acceleration clauses raise significant supervisory concerns because repayment of the debt could be accelerated at a time when an organization may be experiencing financial difficulties. Acceleration of the debt could restrict the ability of the organization to resolve its problems in the normal course of business and could cause the organization involuntarily to enter into bankruptcy or receivership. Furthermore, since such acceleration clauses could allow the holders of subordinated debt to be paid ahead of general creditors or depositors, their inclusion in a debt issue throws into question whether the debt is, in fact, subordinated.

(iv) Subordinated debt issues whose terms state that the debtholders may accelerate the repayment of principal only in the event of bankruptcy or receivership of the issuer do not permit

1 The risk-based capital guidelines for bank holding companies state that bank holding company debt must be subordinated to all senior indebtedness of the company. To meet this requirement, the debt should be subordinated to all general creditors.

2 The “average maturity” of an obligation or issue repayable in scheduled periodic payments shall be the weighted average of the maturities of all such scheduled payments.
the holders of the debt to be paid before general creditors or depositors and do not raise supervisory concerns because the acceleration does not occur until the institution has failed. Accordingly, debt issues that permit acceleration of principal only in the event of bankruptcy (liquidation or reorganization) in the case of bank holding companies and receivership in the case of banks may generally be classified as capital.

(3) Provisions inconsistent with safe and sound banking practices—(i) The risk-based capital guidelines state that instruments included in capital may not contain or be covered by any covenants, terms, or restrictions that are inconsistent with safe and sound banking practice. As a general matter, capital instruments should not contain terms that could adversely affect liquidity or unduly restrict management’s flexibility to run the organization, particularly in times of financial difficulty, or that could limit the regulator’s ability to resolve problem bank situations. For example, some subordinated debt includes covenants that would not allow the banking organization to make additional secured or senior borrowings. Other covenants would prohibit a banking organization from disposing of a major subsidiary or undergoing a change in control. Such covenants could restrict the banking organization’s ability to raise funds to meet its liquidity needs. In addition, such terms or conditions limit the ability of bank supervisors to resolve problem bank situations through a change in control.

(ii) Certain other provisions found in subordinated debt may provide protection to investors in subordinated debt without adversely affecting the overall benefits of the instrument to the organization. For example, some instruments include covenants that may require the banking organization to:

(A) Maintain an office or agency where securities may be presented,
(B) Hold payments on the securities in trust,
(C) Preserve the rights and franchises of the company,
(D) Pay taxes and assessments before they become delinquent,
(E) Provide an annual statement of compliance on whether the company has observed all conditions of the debt agreement, or
(F) Maintain its properties in good condition. Such covenants, as long as they do not unduly restrict the activity of the banking organization, generally would be acceptable in qualifying subordinated debt, provided that failure to meet them does not give the holders of the debt the right to accelerate the debt.3

(4) Credit sensitive features. Credit sensitive subordinated debt (including mandatory convertible securities) where payments are tied to the financial condition of the borrower generally do not qualify for inclusion in capital. Interest rate payments may be linked to the financial condition of an institution through various ways, such as through an auction rate mechanism, a preset schedule that either mandates interest rate increases as the credit rating of the institution declines or automatically increases them over the passage of time,4 or that raises the interest rate if payment is not made in a

3This notice does not attempt to list or address all clauses included in subordinated debt; rather, it is intended to give general supervisory guidance regarding the types of clauses that could raise supervisory concerns. Issuers of subordinated debt may need to consult further with Federal Reserve staff about other subordinated debt provisions not specifically discussed above to determine whether such provisions are appropriate in a debt capital instrument.

4Although payments on debt whose interest rate increases over time on the surface may not appear to be directly linked to the financial condition of the issuing organization, such debt (sometimes referred to as expanding or exploding rate debt) has a strong potential to be credit sensitive in substance. Organizations whose financial condition has strengthened are more likely to be able to refinance the debt at a rate lower than that mandated by the preset increase, whereas institutions whose condition has deteriorated are less likely to be able to do so. Moreover, just when these latter institutions would be in the most need of conserving capital, they would be under strong pressure to redeem the debt as an alternative to paying higher rates and, thus, would accelerate depletion of their resources.
§ 250.166 12 CFR Ch. II (1–1–09 Edition)

timely fashion. As the financial condition of an organization declines, it is faced with higher and higher payments on its credit sensitive subordinated debt at a time when it most needs to conserve its resources. Thus, credit sensitive debt does not provide the support expected of a capital instrument to an institution whose financial condition is deteriorating; rather, the credit sensitive feature can accelerate depletion of the institution’s resources and increase the likelihood of default on the debt.

(c) Criteria for mandatory convertible debt included in capital. Mandatory convertible debt included in capital must meet all the criteria cited above for subordinated debt with the exception of the minimum maturity requirement. Since mandatory convertible debt eventually converts to an equity instrument, it has no minimum maturity requirement. Such debt, however, is subject to a maximum maturity requirement of 12 years.

(d) Previously issued subordinated debt. Subordinated debt including mandatory convertible debt that has been issued prior to the date of this interpretation and that contains provisions permitting acceleration for reasons other than bankruptcy or receivership of the issuing institution; includes other questionable terms or conditions; or that is credit sensitive will not automatically be excluded from capital. Rather, such debt will be considered on a case-by-case basis to determine whether it qualifies as Tier 2 capital. As a general matter, subordinated debt issued prior to the release of this interpretation and containing such provisions or features may qualify as Tier 2 capital so long as these terms:

1. have been commonly used by banking organizations,
2. do not provide an unreasonably high degree of protection to the holder in cases not involving bankruptcy or receivership, and
3. do not effectively allow the holder to stand ahead of the general creditors of the issuing institution in cases of bankruptcy or receivership.

Subordinated debt containing provisions that permit the holders of the debt to accelerate payment of principal when the banking organization begins to experience difficulties, for example, when it fails to meet certain financial ratios, such as capital ratios or rates of return, does not meet these three criteria. Consequently, subordinated debt issued prior to the release of this interpretation containing such provisions may not be included within Tier 2 capital.

(e) Limitations on the amount of subordinated debt in capital—(1) Basic limitation. The amount of subordinated debt an institution may include in Tier 2 capital is limited to 50 percent of the amount of the institution’s Tier 1 capital. The amount of a subordinated debt issue that may be included in Tier 2 capital is discounted as it approaches maturity; one-fifth of the original amount of the instrument, less any redemptions, is excluded each year from Tier 2 capital during the last five years prior to maturity. If the instrument has a serial redemption feature such that, for example, half matures in seven years and half matures in ten years, the issuing organization should begin discounting the seven-year portion after two years and the ten-year portion after five years.

2. Treatment of debt with dedicated proceeds. If a banking organization has issued common or preferred stock and dedicated the proceeds to the redemption of a mandatory convertible debt security, that portion of the security covered by the amount of the proceeds so dedicated is considered to be ordinary subordinated debt for capital purposes, provided the proceeds are not placed in a sinking fund, trust fund, or similar segregated account or are not used in the interim for some other purpose. Thus, dedicated portions of mandatory convertible debt securities are...
subject, like other subordinated debt, to the 50 percent sublimit within Tier 2 capital, as well as to discounting in the last five years of life. Undedicated portions of mandatory convertible debt may be included in Tier 2 capital without any sublimit and are not subject to discounting.

(3) Treatment of debt with segregated funds. In some cases, the provisions in mandatory convertible debt issues may require the issuing banking organization to set up a sinking fund, trust fund, or similar segregated account to hold the proceeds from the sale of equity securities dedicated to pay off the principal of the mandatory convertible debt at maturity. The portion of mandatory convertibles covered by the amount of proceeds deposited in such a segregated fund is considered secured and, thus, may not be included in capital at all, let alone be treated as subordinated debt that is subject to the 50 percent sublimit within Tier 2 capital. The maintenance of such separate segregated funds for the redemption of mandatory convertible debt exceeds the requirements of appendix B to Regulation Y. Accordingly, if a banking organization, with the agreement of its debtholders, seeks Federal Reserve approval to eliminate such a fund, approval normally would be given unless supervisory concerns warrant otherwise.

(f) Redemption of subordinated debt prior to maturity—(1) By state member banks. State member banks must obtain approval from the appropriate Reserve Bank prior to redeeming before maturity subordinated debt or mandatory convertible debt included in capital. A Reserve Bank will not approve such early redemption unless it is satisfied that the capital position of the bank will be adequate after the proposed redemption.

(2) By bank holding companies. While bank holding companies are not formally required to obtain approval prior to redeeming subordinated debt, the risk-based capital guidelines state that bank holding companies should consult with the Federal Reserve before redeeming any capital instruments prior to stated maturity. This also applies to any redemption of mandatory convertible debt with proceeds of an equity issuance that were dedicated to the redemption of that debt. Accordingly, a bank holding company should consult with its Reserve Bank prior to redeeming subordinated debt or dedicated portions of mandatory convertible debt included in capital. A Reserve Bank generally will not acquiesce to such a redemption unless it is satisfied that the capital position of the bank holding company would be adequate after the proposed redemption.

(3) Special concerns involving mandatory convertible debt. Consistent with appendix B to Regulation Y, bank holding companies wishing to redeem before maturity undedicated portions of mandatory convertible debt included in capital are required to receive prior Federal Reserve approval, unless the redemption is effected with the proceeds from the sale of common or perpetual preferred stock. An organization planning to effect such a redemption with the proceeds from the sale of common or perpetual preferred stock is advised to consult informally with its Reserve Bank in order to avoid the possibility of taking an action that could result in weakening its capital position. A Reserve Bank will not approve the redemption of mandatory convertible securities, or acquiesce in such a redemption effected with the sale of common or perpetual preferred stock, unless it is satisfied that the capital position of the bank holding company will be satisfactory after the redemption.8

[57 FR 40598, Sept. 4, 1992]

8The guidance contained in this paragraph applies to mandatory convertible debt issued prior to the risk-based capital guidelines that state that the banking organization may redeem the notes if they no longer count as primary capital as defined in appendix B to Regulation Y. Such provisions do not obviate the need to consult with, or obtain approval from, the Federal Reserve prior to redemption of the debt.
§ 250.180 Reports of changes in control of management.
(a) Under a statute enacted September 12, 1964 (Pub. L. 88–593; 78 Stat. 940) all insured banks are required to report promptly (1) changes in the outstanding voting stock of the bank which will result in control or in a change in control of the bank and (2) any instances where the bank makes a loan or loans, secured, or to be secured, by 25 percent or more of the outstanding voting stock of an insured bank.
(b) Reports concerning changes in control of a State member bank are to be made by the president or other chief executive officer of the bank, and shall be submitted to the Federal Reserve Bank of its district.
(c) Reports concerning loans by an insured bank on the stock of a State member bank are to be made by the president or other chief executive officer of the lending bank, and shall be submitted to the Federal Reserve Bank of the State member bank on the stock of which the loan was made.
(d) Paragraphs 3 and 4 of this legislation specify the information required in the reports which, in cases involving State member banks, should be addressed to the Vice President in Charge of Examinations of the appropriate Federal Reserve Bank.
(12 U.S.C. 1817)

§ 250.181 Reports of change in control of bank management incident to a merger.
(a) A State member bank has inquired whether Pub. L. 88–593 (78 Stat. 940) requires reports of change in control of bank management in situations where the change occurs as an incident in a merger.
(b) Under the Bank Merger Act of 1960 (12 U.S.C. 1828(c)), no bank with Federal deposit insurance may merge or consolidate with, or acquire the assets of, or assume the liability to pay deposits in, any other insured bank without prior approval of the appropriate Federal bank supervisory agency. Where the bank resulting from any such transaction is a State member bank, the Board of Governors is the agency that must pass on the transaction. In the course of consideration of such an application, the Board would, of necessity, acquire knowledge of any change in control of management that might result. Information concerning any such change in control of management is supplied with each merger application and, in the circumstances, it is the view of the Board that the receipt of such information in connection with a merger application constitutes compliance with Pub. L. 88–593. However, once a merger has been approved and completely effectuated, the resulting bank would thereafter be subject to the reporting requirements of Pub. L. 88–593.
(12 U.S.C. 1817)

§ 250.182 Terms defining competitive effects of proposed mergers.
Under the Bank Merger Act (12 U.S.C. 1828(c)), a Federal Banking agency receiving a merger application must request the views of the other two banking agencies and the Department of Justice on the competitive factors involved. Standard descriptive terms are used by the Board, the Federal Deposit Insurance Corporation, and the Comptroller of the Currency. The terms and their definitions are as follows:
(a) The term monopoly means that the proposed transaction must be disapproved in accordance with 12 U.S.C. 1828(c)(5)(A).
(b) The term substantially adverse means that the proposed transaction would have anticompetitive effects which preclude approval unless the anticompetitive effects are clearly outweighed in the public interest by the probable effect of the transaction in meeting the convenience and needs of the community to be served as specified in 12 U.S.C. 1828(c)(5)(B).
(c) The term adverse means that proposed transaction would have anticompetitive effects which would be material to the decision but which would not preclude approval.
(d) The term no significant effect means that the anticompetitive effects of the proposed transaction, if any, would not be material to the decision.
(12 U.S.C. 1828(c))
§ 250.200 Investment in bank premises by holding company banks.

(a) The Board of Governors has been asked whether, in determining under section 24A of the Federal Reserve Act (12 U.S.C. 371d) how much may be invested in bank premises without prior Board approval, a State member bank, which is owned by a registered bank holding company, is required to include indebtedness of a corporation, wholly owned by the holding company, that is engaged in holding premises of banks in the holding company system.

(b) Section 24A provides, in part, as follows:

Hereafter * * * no State member bank, without the approval of the Board of Governors of the Federal Reserve System, shall (1) invest in bank premises, or in the stock, bonds, debentures, or other such obligations of any corporation holding the premises of such bank or (2) make loans to or upon the security of the stock of any such corporation, if the aggregate of all such investments and loans, together with the amount of any indebtedness incurred by any such corporation which is an affiliate of the bank, as defined in said section 2, will exceed the amount of the capital stock of such banks.

(c) A corporation that is owned by a holding company is an “affiliate of each of the holding company’s majority-owned banks as that term is defined in said section 2. Therefore, under the explicit provisions of section 24A, each State member bank, any part of whose premises is owned by such an affiliate, must include the affiliate’s total indebtedness in determining whether a proposed premises investment by the bank would cause the aggregate figure to exceed the amount of the bank’s capital stock, so that the Board’s prior approval would be required. Where the affiliate holds the premises of a number of the holding company’s banks, the amount of the affiliate’s indebtedness may be so large that Board approval is required for every proposed investment in bank premises by each majority-owned State member bank, to which the entire indebtedness of the affiliate is required to be attributed. The Board believes that, in these circumstances, individual approvals are not essential to effectuate the purpose of section 24A, which is to safeguard the soundness and liquidity of member banks, and that the protection sought by Congress can be achieved by a suitably circumscribed general approval.

(d) Accordingly the Board hereby grants general approval for any investment or loan (as described in section 24A) by any State member bank, the majority of the stock of which is owned by a registered bank holding company, if the proposed investment or loan will not cause either (1) all such investments and loans by the member bank (together with the indebtedness of any bank premises subsidiary thereof) to exceed 100 percent of the bank’s capital stock, or (2) the aggregate of such investments and loans by all of the holding company’s subsidiary banks (together with the indebtedness of any bank premises affiliates thereof) to exceed 100 percent of the aggregate capital stock of said banks.

(12 U.S.C. 221a, 371d)

§ 250.220 Whether member bank acting as trustee is prohibited by section 20 of the Banking Act of 1933 from acquiring majority of shares of mutual fund.

(a) The Board recently considered whether section 20 of the Banking Act of 1933 (12 U.S.C. 377) would prohibit a member bank, while acting as trustee of a tax exempt employee benefit trust or trusts, from, under the following circumstances, acquiring a majority of the shares of an open-end investment company (“Fund”) registered under the Investment Company Act of 1940, or more than 50 percent of the number of Fund’s shares voted at the preceding election of directors of the Fund.

(b) The bank has acted as trustee, since December 1963, pursuant to a trust agreement with a county medical society to administer its group retirement program, under which individual members of the society could participate in accordance with the provisions of the Self-Employed Individuals Tax Retirement Act of 1962 (commonly referred to as “H.R. 10”).

(c) Under the trust agreement as presently constituted, each employer, who is a participating member of the medical society, directs the bank to invest his contributions to the retirement plan in such proportions as he
may elect in insurance or annuity contracts or in a diversified portfolio of securities and other property. The diversified portfolio held by the bank is invested and administered by the bank solely at the direction of a committee of the medical society.

(d) It has now been proposed that the trust agreement be amended to provide that all investments constituting the trust fund, apart from insurance and annuity contracts, will be made exclusively in shares of a single open-end investment company to be named in the trust agreement and that the assets constituting the diversified portfolio now held by the bank, as trustee, will be exchanged for the Fund's shares. The bank will, in addition to holding the shares of the Fund, allocate income and dividends to the accounts of the various participants in the retirement program, invest and reinvest income and dividends, and perform other ministerial functions.

(e) In addition, it is proposed to amend the trust agreement so that voting of the shares held by the bank as trustee will be controlled exclusively by the participants. Under the proposed amendment, the bank will sign all proxies prior to mailing them to the participants,

it being intended that the Participant(s) shall vote the proxies notwithstanding the fact that the Trustee is the owner of the shares ** **.

(f) The bank believes that amendments are now under consideration that will also require investment of the assets of these plans exclusively in the Fund's shares. Accordingly, the bank may eventually own the Fund's shares in several separate trust accounts and in an aggregate amount equal to a majority of the Fund's shares.

(g) Section 20 of the Banking Act of 1933 provides in relevant part that

no member bank shall be affiliated in any manner described in section 2(b) hereof with any corporation * * * engaged principally in the issue, flotation, underwriting, public sale, or distribution at wholesale or retail or through syndicate participation of stocks * * * or other securities: * * *.

(b) Section 2(b) defines the term affiliate to include any corporation, business trust, association or other similar organization (1) Of which a member bank, directly or indirectly, owns or controls either a majority of the voting shares or more than 50 per centum of the number of shares voted for the election of its directors, trustees, or other persons exercising similar functions at the preceding election, or controls in any manner the election of a majority of its directors, trustees, or other persons exercising similar functions; * * *.

(i) The Board has previously taken the position, in an interpretation involving the term affiliate under the Banking Act of 1933, that it would not require a member bank to obtain and publish a report of a corporation the majority of the stock of which is held by the member bank as executor or trustee, provided that the member bank holds such stock subject to control by a court or by a beneficiary or other principal and that the member bank may not lawfully exercise control of such stock independently of any order or direction of a court, beneficiary or other principal. 1933 Federal Reserve Bulletin 651. The rationale of that interpretation—which was re-affirmed by the Board in 1957—would appear to be equally applicable to the facts in the present case. In the circumstances, and on the basis of the Board's understanding that the bank will not vote any of Fund’s shares or control in any manner the election of any of its directors, trustees, or other persons exercising similar functions, the Board has concluded that the situation in question would not fall within the purpose or coverage of section 20 of the Banking Act of 1933 and, therefore, would not involve a violation of the statute.

§ 250.221 Issuance and sale of short-term debt obligations by bank holding companies.

(a) The opinion of the Board of Governors of the Federal Reserve System has been requested recently with respect to the proposed sale of "thrift notes" by a bank holding company for the purpose of supplying capital to its wholly-owned nonbanking subsidiaries.

(b) The thrift notes would bear the name of the holding company, which in the case presented, was substantially similar to the name of its affiliated
It was proposed that they be issued in denominations of $50 to $100 and initially be of 12-month or less maturities. There would be no maximum amount of the issue. Interest rates would be variable according to money market conditions but would presumably be at rates somewhat above those permitted by Regulation Q ceilings. There would be no guarantee or indemnity of the notes by any of the banks in the holding company system and, if required to do so, the holding company would place on the face of the notes a negative representation that the purchase price was not a deposit, nor an indirect obligation of banks in the holding company system, nor covered by deposit insurance.

(c) The notes would be generally available for sale to members of the public, but only at offices of the holding company and its nonbanking subsidiaries. Although offices of the holding company may be in the same building or quarters as its banking offices, they would be physically separated from the banking offices. Sales would be made only by officers or employees of the holding company and its nonbanking subsidiaries. Initially, the notes would only be offered in the State in which the holding company was principally doing business, thereby complying with the exemption provided by section 3(a)(11) of the Securities Act of 1933 (15 U.S.C. 77c) for "intra-state" offerings. If it was decided to offer the notes on an interstate basis, steps would be taken to register the notes under the Securities Act of 1933. Funds from the sale of the notes would be used only to supply the financial needs of the nonbank subsidiaries of the holding company. These nonbank subsidiaries are, at present, a small loan company, a mortgage banking company and a factoring company. In no instance would the proceeds from the sale of the notes be used in the bank subsidiaries of the holding company nor to maintain the availability of funds in its bank subsidiaries.

(d) The sale of the thrift notes, in the specific manner proposed, is an activity described in section 20 of the Banking Act of 1933 (12 U.S.C. 377), that is, "the issue, flotation, underwriting, public sale or distribution * * * of * * * notes, or other securities". Briefly stated, this statute prohibits a member bank to be affiliated with a company "engaged principally" in such activity. Since the continued issuance and sale of such securities would be necessary to permit maintenance of the holding company's activities without substantial contraction and would be an integral part of its operations, the Board concluded that the issuance and sale of such notes would constitute a principal activity of a holding company within the spirit and purpose of the statute.

(e) In reaching this conclusion, the Board distinguished the proposed activity from the sale of short-term notes commonly known as commercial paper, which is a recognized form of financing for bank holding companies. For purposes of this interpretation, commercial paper may be defined as notes, with maturities not exceeding nine months, the proceeds of which are to be used for current transactions, which are usually sold to sophisticated institutional investors, rather than to members of the general public, in minimum denominations of $10,000 (although sometimes they may be sold in minimum denominations of $5,000). Commercial paper is exempt from registration under the Securities Act of 1933 by reason of the exemption provided by section 3(a)(3) thereof (15 U.S.C. 77c). That exemption is inapplicable where the securities are sold to the general public (17 CFR 231.4412). The reasons for such exemption, taken together with the abuses that gave rise to the passage of the Banking Act of 1933 ("the Glass-Steagall Act"), have led the Board to conclude that the issuance of commercial paper by a bank holding company is not an activity intended to be included within the scope of section 20.

§ 250.260 Miscellaneous interpretations; gold coin and bullion.

The Board has received numerous inquiries from member banks relating to the repeal of the ban on ownership of
gold by United States citizens. Listed below are questions and answers which affect member banks and relate to the responsibilities of the Federal Reserve System.

(a) May gold in the form of coins or bullion be counted as vault cash in order to satisfy reserve requirements? No. Section 19(c) of the Federal Reserve Act requires that reserve balances be satisfied either by a balance maintained at the Federal Reserve Bank or by vault cash, consisting of United States currency and coin. Gold in bullion form is not United States currency. Since the bullion value of United States gold coins far exceeds their face value, member banks would not in practice distribute them over the counter at face value to satisfy customer demands.

(b) Will the Federal Reserve Banks perform services for member banks with respect to gold, such as safekeeping or assaying? No.

(c) Will a Federal Reserve Bank accept gold as collateral for an advance to a member bank under section 10(b) of the Federal Reserve Act? No.

[39 FR 45254, Dec. 31, 1974]

INTERPRETATIONS OF SECTION 32 OF THE GLASS-STEAGALL ACT

§ 250.400 Service of open-end investment company.

An open-end investment company is defined in section 5(a)(1) of the Investment Company Act of 1940 as a company "which is offering for sale or has outstanding any redeemable security of which it is the issuer." Section 2(a)(31) of said act provides that a redeemable security means "any security, other than short-term paper, under the terms of which the holder, upon its presentation to the issuer or to a person designated by the issuer, is entitled (whether absolutely or only out of surplus) to receive approximately his pro-portionate share of the issuer's current net assets, or the cash equivalent thereof."

It is customary for such companies to have but one class of securities, namely, capital stock, and it is apparent that the more or less continued process of redemption of the stock issued by such a company would restrict and contract its activities if it did not continue to issue its stock. Thus, the issuance and sale of its stock is essential to the maintenance of the company's size and to the continuance of operations without substantial contraction, and therefore the issue and sale of its stock constitutes one of the primary activities of such a company.

Accordingly, it is the opinion of the Board that if such a company is issuing or offering its redeemable stock for sale, it is "primarily engaged in the issue * * * public sale, or distribution, * * * of securities" and that section 32 of the Banking Act of 1933, as amended, prohibits an officer, director or employee of any such company from serving at the same time as an officer, director or employee of any member bank. It is the Board's view that this is true even though the shares are sold to the public through independent organizations with the result that the investment company does not derive any direct profit from the sales.

If, however, the company has ceased to issue or offer any of its stock for sale, the company would not be engaged in the issue or distribution of its stock, and, therefore, the prohibition contained in section 32 would be inapplicable unless the company were primarily engaged in the underwriting, public sale or distribution of securities other than its own stock.

[16 FR 4963, May 26, 1951. Redesignated at 61 FR 57289, Nov. 6, 1996]

§ 250.401 Director serving member bank and closed-end investment company being organized.

(a) The Board has previously expressed the opinion (§218.101) that section 32 of the Banking Act of 1933 (12 U.S.C. 78) is applicable to a director of a member bank serving as a director of an open-end investment company, because the more or less continued process of redemption of the stock issued by such company makes the issuance and sale of its stock essential to the maintenance of the company's size and to the continuance of operations, with the result that the issuance and sale of its stock constitutes one of the primary activities of such a company. The Board also stated that if the company
had ceased to issue or offer any of its stock for sale, the company would not be engaged in the issuance or distribution of its stock and therefore the prohibitions of section 32 would not be applicable. Subsequently, the Board expressed the opinion that section 32 would not be applicable in the case of a closed-end investment company.

(b) The Board has recently stated that it believed that a closed-end company which was in process of organization and was actively engaged in issuing and selling its shares was in the same position relative to section 32 as an open-end company, and that the section would be applicable while this activity continued.

[25 FR 3464, Apr. 21, 1960. Redesignated at 61 FR 57289, Nov. 6, 1996]

§ 250.402 Service as officer, director, or employee of licensee corporation under the Small Business Investment Act of 1958.

(a) The Board of Governors has been requested to express an opinion whether §218.1 would prohibit an officer, director, or employee of a member bank from serving at the same time as an officer, director, or employee of a Licensee corporation under the Small Business Investment Act of 1958 (15 U.S.C. 661 et seq.). It is understood that a Licensee would be authorized to engage only in the activities set forth in the statute, namely, to provide capital and long-term loan funds to small business concerns.

(b) In the opinion of the Board, a corporation engaged exclusively in the enumerated activities would not be “primarily engaged in the issue, flotation, underwriting, public sale, or distribution, at wholesale or retail, or through syndicate participation, of stocks, bonds, or other similar securities.” Accordingly, the prohibition of §218.1 would not apply to serving as an officer, director, or employee of either a small business investment company organized under the Small Business Investment Act of 1958, or an investment company chartered under the laws of a State solely for the purpose of operating under the Small Business Investment Act of 1958.

§ 250.403 Service of member bank and real estate investment company.

(a) The Board recently considered two inquiries regarding the question whether proposed real estate investment companies would be subject to the provisions of sections 20 and 32 of the Banking Act of 1933 (12 U.S.C. 377 and 78). These sections relate to affiliations between member banks and companies engaged principally in the issue, flotation, underwriting, public sale or distribution of stocks, bonds, or similar securities, and interlocking directorates between member banks and companies primarily so engaged. In both instances the companies, after their organization, would engage only in the business of financing real estate development or investing in real estate interests, and not in the type of business described in the statute. However, each of the companies, in the process of its organization, would issue its own stock. In one instance, it appeared that the stock would be issued over a period of from 30 to 60 days; in the other instance it was stated that the stock would be sold by a firm of underwriters and that distribution was expected to be completed in not more than a few days.

(b) On the basis of the facts stated, the Board concluded that the companies involved would not be subject to sections 20 and 32 of the Banking Act of 1933, since they would not be principally or primarily engaged in the business of issuing or distributing securities but would only be issuing their own stock for a period ordinarily required for corporate organization. The Board stated, however, that if either of the companies should subsequently issue additional shares frequently and in substantial amounts relative to the size of the company’s capital structure, it would be necessary for the Board to reconsider the matter.

(c) Apart from the legal question, the Board noted that an arrangement of the kind proposed could involve some dangers to an affiliated bank because the relationship might tend to impair the independent judgment that should be exercised by the bank in appraising its credits and might cause the company to be so identified in the minds of
§ 250.404 Serving as director of member bank and corporation selling own stock.

(a) The Board recently considered the question whether section 32 of the Banking Act of 1933 (12 U.S.C. 78) would be applicable to the service of a director of a corporation which planned to acquire or organize, as proceeds from the sale of stock became available, subsidiaries to operate in a wide variety of fields, including manufacturing, foreign trade, leasing of heavy equipment, and real estate development. The corporation had a paid-in capital of about $60,000 and planned to sell additional shares at a price totaling $10 million, with the proviso that if less than $3 million worth were sold by March 1962, the funds subscribed would be refunded. It thus appeared to be contemplated that the sale of stock would take at least a year, and there appeared to be no reason for believing that, if the venture proved successful, additional shares would not be offered so that the corporation could continue to expand.

(b) The Board concluded that section 32 would be applicable, stating that although § 218.102, as clarified by § 218.104, related to closed-end investment companies, the rationale of that interpretation is applicable to corporations generally.

§ 250.405 No exception granted a special or limited partner.

(a) The Board has been asked on several occasions whether section 32 of the Banking Act of 1933 (12 U.S.C. 78) is applicable to a director, officer, or employee of a member bank who is a special or limited partner in a firm primarily engaged in the business described in that section.

(b) Since the Board cannot issue an individual permit, it can exempt a limited or special partner only by amending part 218 (Regulation R). After the statute was amended in 1935 so as to make it applicable to a partner, the Board carefully considered the desirability of making such an exception. On several subsequent occasions it has reconsidered the question. In each instance the Board has decided that in view of a limited partner's interest in the underwriting and distributing business, it should not make the exception.

§ 250.406 Serving member bank and investment advisor with mutual fund affiliation.

(a) The opinion of the Board of Governors of the Federal Reserve System has been requested with respect to service as vice president of a corporation engaged in supplying investment advice and management services to mutual funds and others ("Manager") and as director of a member bank.

(b) Section 32 of the Banking Act of 1933 (12 U.S.C. 78), forbids any officer, director, or employee of any corporation "primarily engaged in the issue, flotation, underwriting, public sale, or distribution, at wholesale or retail, or through syndicate participation, of stocks, bonds, or other similar securities * * *" to serve at the same time as an officer, director, or employee of a member bank.
(c) Manager has for several years served a number of different open-end or mutual funds, as well as individuals, institutions, and other clients, as an investment advisor and manager. However, it appears that Manager has a close relationship with two of the mutual funds which it serves. A wholly owned subsidiary of Manager (“Distributors”), serves as distributor for the two mutual funds and has no other function. In addition, the chairman and treasurer of Manager, as well as the president, assistant treasurer, and a director of Manager, are officers and directors of Distributors and trustees of both funds. It appears also that a director of Manager is president and director of Distributors, while the clerk of Manager is also clerk of Distributors. Manager, Distributors and both funds are listed at the same address in the local telephone directory.

(d) While the greater part of the total annual income of Manager during the past five years has derived from “individuals, institutions, and other clients”, it appears that a substantial portion has been attributable to the involvement with the two funds in question. During each of the last four years, that portion has exceeded a third of the total income of Manager, and in 1962 it reached nearly 40 percent.

(e) The Board has consistently held that an open-end or mutual fund is engaged in the activities described in section 32, so long as it is issuing its securities for sale, since it is apparent that the more or less continued process of redemption of the stock issued by such a company would restrict and contract its activities if it did not continue to issue the stock. Clearly, a corporation that is engaged in underwriting or selling open-end shares, is so engaged.

(f) In connection with incorporated manager-advisors to open-end or mutual funds, the Board has expressed the view in a number of cases that where the corporation served a number of different clients, and the corporate structure was not interlocked with that of mutual fund and underwriter in such a way that it could be regarded as being controlled by or substantially one with them, it should not be held to be “primarily engaged” in section 32 activities. On the other hand, where a manager-advisor was created for the sole purpose of serving a particular fund, and its activities were limited to that function, the Board has regarded the group as a single entity for purposes of section 32.

(g) In the present case, the selling organization is a wholly-owned subsidiary of the advisor-manager, hence subject to the parent’s control. Stock of the subsidiary will be voted according to decisions by the parent’s board of directors, and presumably will be voted for a board of directors of the subsidiary which is responsive to policy lines laid down by the parent. Financial interests of the parent are obviously best served by an aggressive selling policy, and, in fact, both the share and the absolute amount of the parent’s income provided by the two funds have shown a steady increase over recent years. The fact that dividends from Distributors have represented a relatively small proportion of the income of Manager, and that there were, indeed, no dividends in 1961 or 1962, does not support a contrary argument, in view of the steady increase in total income of Manager from the funds and Distributors taken as a whole.

(h) In view of all these facts, the Board has concluded that the separate corporate entities of Manager and Distributors should be disregarded and Distributors viewed as essentially a selling arm of Manager. As a result of this conclusion, section 32 would forbid interlocking service as an officer of Manager and a director of a member bank.

§ 250.407

12 CFR Ch. II (1–1–09 Edition)

engaged in business of the kinds described in section 32 ("section 32 business").

(b) Section 32, subject to an exception not applicable here, provides that no officer, director, or employee of any corporation or unincorporated association, no partner or employee of any partnership, and no individual, primarily engaged in the issue, flotation, underwriting, public sale, or distribution, at wholesale or retail, or through syndicate participation, of stocks, bonds, or other similar securities, shall serve the same time as an officer, director, or employee of any member bank.

(c) From the information submitted it appears that Partnership, a member firm of the New York Stock Exchange, is the successor of two prior partnerships, in one of which X had been a partner. This prior partnership had been found not to be "primarily engaged" in section 32 business. The other prior partnership, however, had been so engaged. By arrangement between the two prior firms, Corporation was formed chiefly for the purpose of carrying on the section 32 business of the prior firm that had been "primarily engaged" in that business, which business was transferred to Corporation. The two prior firms were then merged and the stock of Corporation was acquired by all the partners of Partnership, other than X, in proportion to the respective partnership interests of the stockholding partners. The information submitted indicated also that two of the three directors and "some" of the principal officers of Corporation are partners in Partnership, although X is not a director or officer of Corporation.

(d) It is understood that the practice of forming corporate affiliates of brokerage firms, in order that the affiliate may carry on the securities business (such as section 32 business) with limited liability and other advantages, has become rather widespread in recent years. Accordingly, other cases may arise where a partner in such a firm may desire to serve at the same time as director of a member bank.

(e) On the basis of the information presented the Board concluded that X in his capacity as an "individual", was not engaged in section 32 business. However, as that information showed Corporation to be "primarily engaged" in section 32 business, the Board stated that a finding that Partnership and Corporation were one entity for the purposes of the statute would mean that X would be forbidden to serve both the member bank and Partnership, if the one entity were so engaged.

(f) Paragraph .15 of Rule 321 of the New York Stock Exchange governing the formation and conduct of affiliated companies of member organizations states that:

Since Rule 314 provides that each member and allied member in a member organization must have a fixed interest in its entire business, it follows that the fixed interest of each member and allied member must extend to the member organization’s corporate affiliate. When any of the corporate affiliate’s participating stock is owned by the members and allied members in the member organization, such holdings must at all times be distributed among such members and allied members in approximately the same proportions as their respective interests in the profits of the member organization. When a member or allied member’s interest in the member organization is changed, a corresponding change must be made in his participating interest in the affiliate.

(g) Although it was understood that X had received special permission from the Exchange not to own any of the stock of Corporation, it appeared to the Board that Rule 321.15 would apply to the remaining partners. Moreover, other paragraphs of the rule forbid transfers of the stock, except under certain circumstances to limited classes of persons, such as employees of the organization or estates of decedent partners, without permission of the Exchange.

(h) The information supplied to the Board clearly indicated that Corporation was formed in order to provide Partnership with an "underwriting arm". Under Rule 321 of the Exchange, the partners (other than X) are required to own stock in Corporation because of their partnership interest, would be required to surrender that stock on leaving the partnership, and incoming partners would be required to acquire such stock. Furthermore, Rule 321 speaks of a corporate affiliate, such as Corporation, as a part of the "entire business" of a member organization.
§ 250.409 Investment for own account affects applicability of section 32.

(a) The Board of Governors has been presented with the question whether a certain firm is primarily engaged in the activities described in section 32 of the Banking Act of 1933. If the firm is so engaged, then the prohibitions of section 32 forbids a limited partner to serve as employee of a member bank.

(b) The firm describes the bulk of its business, producing roughly 60 percent of its income, as “investing for its own account.” However, it has a seat on the local stock exchange, and acts as specialist and odd-lot dealer on the floor of the exchange, an activity responsible for some 30 percent of its volume and profits. The firm’s “off-post trading,” apart from the investment account, gives rise to about 5 percent of its total volume and 10 percent of its profits. Gross volume has risen from $4 to $10 million over the past 3 years, but underwriting has accounted for no more than one-half of 1 percent of that amount.

(c) Section 32 provides that

No officer, director, or employee of any corporation or unincorporated association, no partner, or employee of any partnership, and no individual, primarily engaged in the issue, flotation, underwriting, public sale, or distribution, at wholesale or retail, or through syndicate participation, of stocks, bonds, or other similar securities * * *.

857
(d) In interpreting this language, the Board has consistently held that underwriting, acting as a dealer, or generally speaking, selling, or distributing securities as a principal, is covered by the section, while acting as broker or agent is not.

(e) In one type of situation, however, although a firm was engaged in selling securities as principal, on its own behalf, the Board held that section 32 did not apply. In these cases, the firm alleged that it bought and sold securities purely for investment purposes. Typically, those cases involved personal holding companies or small family investment companies. Securities had been purchased only for members of a restricted family group, and had been held for relatively long periods of time.

(f) The question now before the Board is whether a similar exception can apply in the case of the investment account of a professional dealer. In order to answer this question, it is necessary to analyze, in the light of applicable principles under the statute, the three main types of activity in which the firm has been engaged, (1) acting as specialist and odd-lot dealer, (2) off-post trading as an ordinary dealer, and (3) investing for its own account.

(g) On several occasions, the Board has held that, to the extent the trading of a specialist or odd-lot dealer is limited to that required for him to perform his function on the floor of the exchange, he is acting essentially in an agency capacity. In a letter of September 13, 1934, the Board held that the business of a specialist was not of the kind described in the (unamended) section on the understanding that

* * * In acting as specialists on the New York Curb Exchange, it is necessary for the firm to buy and sell odd lots and * * * in order to protect its position after such transactions have been made, the firm sells or buys shares in lots of 100 or multiples thereof in order to reduce its position in the stock in question to the smallest amount possible by this method. It appears therefore that, in connection with these transactions, the firm is neither trading in the stock in question or taking a position in it except to the extent made necessary by the fact that it deals in odd lots and cannot complete the transactions by purchases and sales on the floor of the exchange except to the nearest 100 share amount.

(h) While subsequent amendments to section 32 to some extent changed the definition of the kinds of securities business that would be covered by the section, the amendments were designed so far as is relevant to the present question, to embody existing interpretations of the Board. Accordingly, to the extent that the firm's business is described by the above letter of the Board, it should not be considered to be of a kind described in section 32.

(i) Turning to the firm's off-post trading, the Board is inclined to agree with the view that this is sufficient to make the case a borderline one under the statute. In the circumstances, the Board might prefer to postpone making a determination until figures for 1965 could be reviewed, particularly in the light of the recent increase in total volume, if it were not for the third category, the firm's own investment account.

(j) While this question has not been squarely presented to it in the past, the Board is of the opinion that when a firm is doing any significant amount of business as a dealer or underwriter, then investments for the firm's own account should be taken into consideration in determining whether the firm is "primarily engaged" in the activities described in section 32. The division into dealing for one's own account, and dealing with customers, is a highly subjective one, and although a particular firm or individual may be quite scrupulous in separating the two, the opportunity necessarily exists for the kind of abuse at which the statute is directed. The Act is designed to prevent situations from arising in which a bank director, officer, or employee could influence the bank or its customers to invest in securities in which his firm has an interest, regardless of whether he, as an individual, is likely to do so. In the present case, when these activities are added to the firm's "off-post trading", the firm clearly falls within the statutory definition.

(k) For the reasons just discussed, the Board concludes that the firm must be considered to be primarily engaged in activities described in section 32, and that the prohibitions of the section
§ 250.410 Interlocking relationships between bank and its commingled investment account.

(a) The Board of Governors was asked recently whether the establishment of a proposed “Commingled Investment Account” (“Account”) by a national bank would involve a violation of section 32 of the Banking Act of 1933 in view of the interlocking relationships that would exist between the bank and Account.

(b) From the information submitted, it was understood that Account would comprise a commingled fund, to be operated under the effective control of the bank, for the collective investment of sums of money that might otherwise be handled individually by the bank as managing agent. It was understood further that the Comptroller of the Currency had taken the position that Account would be an eligible operation for a national bank under his Regulation 9, “Fiduciary Powers of National Banks and Collective Investment Funds” (part 9 of this title). The bank had advised the Board that the Securities and Exchange Commission was of the view that Account would be a “registered investment company” within the meaning of the Investment Company Act of 1940, and that participating interests in Account would be “securities” subject to the registration requirements of the Securities Act of 1933.

(c) The information submitted showed also that the minimum individual participation that would be permitted in Account would be $10,000, while the maximum acceptable individual investment would be half a million dollars; that there would be no “load” or payment by customers for the privilege of investing in Account; and that:

The availability of the Commingled Account would not be given publicity by the Bank except in connection with the promotion of its fiduciary services in general and the Bank would not advertise or publicize the Commingled Account as such. Participations in the Commingled Account are to be made available only on the premises of the Bank (including its branches), or to persons who are already customers of the Bank in other connections, or in response to unsolicited requests.

(d) Such information indicated further that participations would be received by the bank as agent, under a broad authorization signed by the customer, substantially equivalent to the power of attorney under which customers currently deposit their funds for individual investment, and that the participations would not be received “in trust.”

(e) The Board understood that Account would be required to comply with certain requirements of the Federal securities laws not applicable to an ordinary common trust fund operated by a bank. In particular, supervision of Account would be in the hands of a committee to be initially appointed by the bank, but subsequently elected by participants having a majority of the units of participation in Account. At least one member of the committee would be entirely independent of the bank, but the remaining members would be officers in the trust department of the bank.

(f) The committee would make a management agreement with the bank under which the bank would be responsible for managing Account’s investments, have custody of its assets, and maintain its books and records. The management agreement would be renewed annually if approved by the committee, including a “majority” of the independent members, or by a vote of participants having a majority of the units of participation. The agreement would be terminable on 60 days’ notice by the committee, by such a majority of the participants, or by the bank, and would terminate automatically if assigned by the bank.

(g) It was understood also that the bank would receive as annual compensation for its services one-half of one percent of Account’s average net assets. Account would also pay for its own independent professional services, including legal, auditing, and accounting services, as well as the cost of
§ 250.411  Interlocking relationships between member bank and variable annuity insurance company.

(a) The Board has recently been asked to consider whether section 32 of the Banking Act of 1933 (12 U.S.C. 78) and this part prohibit interlocking service between member banks and (1) the board of managers of an accumulation fund, registered under the Investment Company Act of 1940 (15 U.S.C. 80), that sells variable annuities and (2) the board of directors of the insurance company, of which the accumulation fund is a “separate account,” but as to which the insurance company is the sponsor, investment advisor, underwriter, and distributor. Briefly, a variable annuity is one providing for annuity payment varying in accordance with the changing values of a portfolio of securities.

(b) Section 32 provides in relevant part that:

No officer, director, or employee of any corporation or unincorporated association, no partner or employee of any partnership, and no individual, primarily engaged in the issue, flotation, underwriting, public sale, or distribution, at wholesale or retail, or through syndicate participation, of stocks, bonds, or other similar securities, shall serve (at) the same time as an officer, director, or employee of any member bank.

(c) For many years, the Board’s position has been that an open-end investment company (or mutual fund) is “primarily engaged in the issue * * * public sale, or distribution * * * of securities” since the issuance and sale of its stock is essential to the maintenance of the company’s size and to the continuance of its operations without

maintaining its registration and qualification under the Federal securities laws.

(h) Initially, the assets of Account would be divided into units of participation of an arbitrary value, and each customer would be credited with a number of units proportionate to his investment. Subsequently, the assets of Account would be valued at regular intervals, and divided by the number of units outstanding. New investors would receive units at their current value, determined in this way, according to the amount invested. Each customer would receive a receipt evidencing the number of units to which he was entitled. The receipts themselves would be non-transferable, but it would be possible for a customer to arrange with Account for the transfer of his units to someone else. A customer could terminate his participation at any time and withdraw the current value of his units.

(i) Section 32 of the Banking Act of 1933 provides in relevant part that:

No officer, director, or employee of any corporation or unincorporated association, no partner or employee of any partnership, and no individual, primarily engaged in the issue, flotation, underwriting, public sale, or distribution, at wholesale or retail, or through syndicate participation, of stocks, bonds, or other similar securities, shall serve (at) the same time as an officer, director, or employee of any member bank.

(j) The Board concluded, based on its understanding of the proposal and on the general principles that have been developed in respect to the application of section 32, that the bank and Account would constitute a single entity for the purposes of section 32, at least so long as the operation of Account conformed to the representations made by the bank and outlined herein. Accordingly, the Board said that section 32 would not forbid officers of the bank to serve on Account’s committee, since Account would be regarded as nothing more than an arm or department of the bank.

(k) In conclusion, the Board called attention to section 21 of the Banking Act of 1933 which, briefly, forbids a securities firm or organization to engage in the business of receiving deposits, subject to certain exceptions. However, since section 21 is a criminal statute, the Board has followed the policy of not expressing views as to its meaning. (1934 Federal Reserve Bulletin 41, 543.) The Board, therefore, expressed no position with respect to whether the section might be held applicable to the establishment and operation of the proposed “Commingled Investment Account.”

(12 U.S.C. 248(i))

Federal Reserve System

substantial contraction, and that section 32 of the Banking Act of 1933 prohibits an officer, director, or employee of any such company from serving at the same time as an officer, director, or employee of any member bank. (1951 Federal Reserve Bulletin 645; §218.101.)

(d) For reasons similar to those stated by the U.S. Supreme Court in Securities and Exchange Commission v. Variable Annuity Life Insurance Company of America, 359 U.S. 65 (1959), the Board concluded that there is no meaningful basis for distinguishing a variable annuity interest from a mutual fund share for section 32 purposes and that, therefore, variable annuity interests should also be regarded as “other similar securities” within the prohibition of the statute and regulation.

(e) The Board concluded also that, since the accumulation fund, like a mutual fund, must continually issue and sell its investment units in order to avoid the inevitable contraction of its activities as it makes annuity payments or redeems variable annuity units, the accumulation fund is “primarily engaged” for section 32 purposes. The Board further concluded that the insurance company was likewise “primarily engaged” for the purposes of the statute since it had no significant revenue producing operations other than as underwriter and distributor of the accumulation fund’s units and investment advisor to the fund.

(f) Although it was clear, therefore, that section 32 prohibits any officers, directors, and employees of member banks from serving in any such capacity with the insurance company or accumulation fund, the Board also considered whether members of the board of managers of the accumulation fund are “officers, directors, or employees” within such prohibition. The functions of the board of managers, who are elected by the variable annuity contract owners, are, with the approval of the variable annuity contract owners, to select annually an independent public accountant, execute annually an agreement providing for investment advisory services, and recommend any changes in the fundamental investment policy of the accumulation fund. In addition, the Board of managers has sole authority to execute an agreement providing for sales and administrative services and to authorize all investments of the assets of the accumulation fund in accordance with its fundamental investment policy. In the opinion of the Board of Governors, the board of managers of the accumulation fund performs functions essentially the same as those performed by classes of persons as to whom the prohibition of section 32 was specifically directed and, accordingly, are within the prohibitions of the statute.

(12 U.S.C. 248(i))

§ 250.412 Interlocking relationships between member bank and insurance company-mutual fund complex.

(a) The Board has been asked whether section 32 of the Banking Act of 1933 and this part prohibited interlocking service between member banks and (1) the advisory board of a newly organized open-end investment company (mutual fund), (2) the fund’s incorporated investment manager-advisor, (3) the insurance company sponsoring and apparently controlling the fund.

(b) X Fund, Inc. ("Fund"), the mutual fund, was closely related to X Life Insurance Company ("Insurance Company"), as well as to the incorporated manager and investment advisor to Fund ("Advisors"), and the corporation serving as underwriter for Fund ("Underwriters"). The same persons served as principal officers and directors of Insurance Company, Fund, Advisors, and Underwriters. In addition, several directors of member banks served as directors of Insurance Company and of Advisors and as members of the Advisory Board of Fund, and additional directors of member banks had been named only as members of the Advisory Board. All outstanding shares of Advisors and of Underwriters were apparently owned by Insurance Company.

(c) Section 32 provides in relevant part that:

No officer, director, or employee of any corporation * * * primarily engaged in the issue, flotation, underwriting, public sale, or distribution at wholesale or retail, or through syndicate participation, of stocks, bonds, or other similar securities, shall serve
§ 250.412  12 CFR Ch. II (1–1–09 Edition)

[at] the same time as an officer, director, or employee of any member bank *

(d) The Board of Governors re-affirmed its earlier position that an open-end investment company is “primarily engaged” in activities described in section 32 “even though the shares are sold to the public through independent organizations with the result that the investment company does not derive any direct profit from the sales.” (1951 Federal Reserve Bulletin 654, § 218.101.) Accordingly, the Board concluded that Fund must be regarded as so engaged, even though its shares were underwritten and distributed by Underwriters.

(e) As directors of the member banks involved in the inquiry were not officers, directors, or employees of either Fund or Underwriters, the relevant questions were whether—(1) Advisors, and (2) Insurance Company, should be regarded as being functionally and structurally so closely allied with Fund that they should be treated as one with it in determining the applicability of section 32. An additional question was whether members of the Advisory Board are “officers, directors, or employees” of Fund within the prohibition of the statute.

(f) Interlocking service with Advisory Board: The function of the Advisory Board was merely to make suggestions and to counsel with Fund’s Board of Directors in regard to investment policy. The Advisory Board had no authority to make binding recommendations in any area, and it did not serve in any sense as a check on the authority of the Board of Directors. Indeed, the Fund’s bylaws provided that the Advisory Board “shall have no power or authority to make any contract or incur any liability whatever or to take any action binding upon the Corporation, the Officers, the Board of Directors or the Stockholders.” Members of the Advisory Board were appointed by the Board of Directors of Fund, which could remove any member of the Advisory Board at any time. None of the principal officers of Fund or of Underwriters were members of the Advisory Board; and the compensation of its members was expected to be nominal.

(g) The Board of Governors concluded that members of the Advisory Board need not be regarded as “officers, directors, or employees” of Fund or of Underwriters for purposes of section 32, and that the statute, therefore, did not prohibit officers, directors, or employees of member banks from serving as members of the Advisory Board.

(h) Interlocking service with Advisors: The principal officers and several of the directors of Advisors were identical with both those of Fund and of Underwriters. Entire management and investment responsibility for Fund had been placed, by contract, with Advisors, subject only to a review authority in the Board of Directors of Fund. Advisors also supplied office space for the conduct of Fund’s affairs, and compensated members of the Advisory Board who are also officers or directors of Advisors. Moreover, it appeared that Advisors was created for the sole purpose of servicing Fund, and its activities were to be limited to that function.

(i) In the view of the Board of Governors, the structural and functional identity of Fund and Advisors was such that they were to be regarded as a single entity for purposes of section 32, and, accordingly, officers, directors, and employees of member banks were prohibited by section 32 from serving in any such capacity with such entity.

(j) Interlocking service with Insurance Company: It was clear that Insurance Company was not as yet “primarily engaged” in business of a kind described in section 32 with respect to the shares of the newly created Fund sponsored by Insurance Company, since the issue and sale of such shares had not yet commenced. Nor did it appear that Insurance Company would be so engaged in the preliminary stages of Fund’s existence, when the disproportion between the insurance business of Insurance Company and the sale of Fund shares would be very great. However, it was also clear that if Fund was successfully launched, its activities would rather quickly reach a stage where a serious question would arise as to the applicability of the section 32 prohibition.

(k) An estimate supplied to the Board indicated that 100,000 shares of Fund might be sold annually to produce, based on then current values, annual
gross sales receipts of over $1 million. Insurance Company’s total gross income for its last fiscal year was almost $10 million. On this basis, about one-tenth of the annual gross income of the Insurance Company-Fund complex (more than one-tenth, if income from investments of Insurance Company was eliminated) would be derived from sales of Fund shares. Although total sales of shares of Fund during the first year might not approximate expectations, it was assumed that if the estimate or projection was correct, the annual rate of sale might well rise to that level before the end of the first year of operation.

(l) It appeared that net income of Insurance Company from Fund’s operations would be minimal for the foreseeable future. However, it was understood that Insurance Company’s chief reason for launching Fund was to provide salesmen for Insurance Company (who were to be the only sellers of shares of Fund, and most of whom, Insurance Company hoped, would qualify to sell those shares), with a “package” of mutual fund shares and life insurance policies that would provide increased competitive strength in a highly competitive field.

(m) The Board concluded that Insurance Company would be “primarily engaged” in issuing or distributing shares of Fund within the meaning of section 32 by not later than the time of realization of the aforementioned estimated annual rate of sale, and possibly before. As indicated in Board of Governors v. Agnew, 329 U.S. 441 at 446, the prohibition of the statute applies if the section 32 business involved is a “substantial” activity of the company.

(n) This, the Board observed, was not to suggest that officers, directors, or employees of Insurance Company who are also directors of member banks would be likely, as individuals, to use their positions with the banks to further sales of Fund’s shares. However, as the Supreme Court pointed out in the Agnew case, section 32 is a “preventive or prophylactic measure.” The fact that the individuals involved “have been scrupulous in their relationships” to the banks in question “is immaterial.”

(12 U.S.C. 246(1))

§ 250.413 “Bank-eligible” securities activities.

Section 32 of the Glass-Steagall Act (12 U.S.C. 78) prohibits any officer, director, or employee of any corporation or unincorporated association, any partner or employee of any partnership, and any individual, primarily engaged in the issue, flotation, underwriting, public sale, or distribution, at wholesale or retail, or through syndicate participation, of stocks, bonds, or other similar securities, from serving at the same time as an officer, director, or employee of any member bank of the Federal Reserve System. The Board is of the opinion that to the extent that a company, other entity or person is engaged in securities activities that are expressly authorized for a state member bank under section 16 of the Glass-Steagall Act (12 U.S.C. 24(7), 335), the company, other entity or individual is not engaged in the types of activities described in section 32. In addition, a securities broker who is engaged solely in executing orders for the purchase and sale of securities on behalf of others in the open market is not engaged in the business referred to in section 32.

[Reg. R, 61 FR 57289, Nov. 6, 1996]

PART 261—RULES REGARDING AVAILABILITY OF INFORMATION

Subpart A—General Provisions

Sec.
261.1 Authority, purpose, and scope.
261.2 Definitions.
261.3 Custodian of records; certification; service; alternative authority.

Subpart B—Published Information and Records Available to Public; Procedures for Requests

261.10 Published information.
261.11 Records available for public inspection and copying.
261.12 Records available to public upon request.
261.13 Processing requests.
§261.1

261.14 Exemptions from disclosure.
261.15 Request for confidential treatment.
261.16 Request for access to confidential commercial or financial information.
261.17 Fee schedules; waiver of fees.

Subpart C—Confidential Information Made Available to Supervised Institutions, Financial Institution Supervisory Agencies, and Others in Certain Circumstances

261.20 Confidential supervisory information made available to supervised financial institutions and financial institution supervisory agencies.
261.21 Confidential information made available to law enforcement agencies and other nonfinancial institution supervisory agencies.
261.22 Other disclosure of confidential supervisory information.
261.23 Subpoenas, orders compelling production and other process.

AUTHORITY: 5 U.S.C. 552; 12 U.S.C. 248(i) and (k), 321 et seq., 611 et seq., 1442, 1817(a)(2)(A), 1817(a)(8), 1818(u) and (v), 1821(o), 1821(e), 1830, 1951 et seq., 2501, 2801 et seq., 2901 et seq., 3101 et seq., 3401 et seq.; 15 U.S.C. 77uuu(b), 78q(c)(3); the Employee Retirement Income Security Act, 29 U.S.C. 1204; the Money Laundering Suppression Act, 31 U.S.C. 5301, the Fair Housing Act, 42 U.S.C. 3601; the Paperwork Reduction Act, 44 U.S.C. 3510; and any other applicable law that establishes a basis for the exercise of governmental authority by the Board.

(2) This part establishes mechanisms for carrying out the Board’s statutory responsibilities under statutes in paragraph (a)(1) of this section to the extent those responsibilities require the disclosure, production, or withholding of information. In this regard, the Board has determined that the Board, or its delegates, may disclose exempt information of the Board, in accordance with the procedures set forth in this part, whenever it is necessary or appropriate to do so in the exercise of any of the Board’s supervisory or regulatory authorities, including but not limited to, authority granted to the Board in the Federal Reserve Act, 12 U.S.C. 248(i) et seq., the Bank Holding Company Act, 12 U.S.C. 1841 et seq., and the International Banking Act, 12 U.S.C. 3101 et seq. The Board has determined that all such disclosures, made in accordance with the rules and procedures specified in this part, are authorized by law.

(3) The Board has also determined that it is authorized by law to disclose information to a law enforcement or other federal or state government agency that has the authority to request and receive such information in carrying out its own statutory responsibilities, or in response to a valid order of a court of competent jurisdiction or of a duly constituted administrative tribunal.

(b) Purpose. This part sets forth the categories of information made available to the public, the procedures for obtaining documents and records, the procedures for limited release of exempt and confidential supervisory information, and the procedures for protecting confidential business information.

(c) Scope. (1) This subpart A contains general provisions and definitions of terms used in this part.
Federal Reserve System

§ 261.2

(2) Subpart B of this part implements the Freedom of Information Act (FOIA) (5 U.S.C. 552).

(3) Subpart C of this part sets forth:
   (i) The kinds of exempt information made available to supervised institutions, supervisory agencies, law enforcement agencies, and others in certain circumstances;
   (ii) The procedures for disclosure; and
   (iii) The procedures with respect to subpoenas, orders compelling production, and other process.

§ 261.2 Definitions.

For purposes of this part:

(a) Board’s official files means the Board’s central records.

(b) Commercial use request refers to a request from or on behalf of one who seeks information for a use or purpose that furthers the commercial, trade, or profit interests of the requester or the person on whose behalf the request is made.

(c)(1) Confidential supervisory information means:
   (i) Exempt information consisting of reports of examination, inspection and visitation, confidential operating and condition reports, and any information derived from, related to, or contained in such reports;
   (A) Such final orders, amendments, or modifications of final orders, or other actions or documents that are specifically required to be published or made available to the public pursuant to 12 U.S.C. 1818(u), or other applicable law, including the record of litigated proceedings; and
   (B) The public section of Community Reinvestment Act examination reports, pursuant to 12 U.S.C. 2906(b); and
   (iii) Any documents prepared by, on behalf of, or for the use of the Board, a Federal Reserve Bank, a federal or state financial institutions supervisory agency, or a bank or bank holding company or other supervised financial institution.

(2) Confidential supervisory information does not include documents prepared by a supervised financial institution for its own business purposes and that are in its possession.

(d) Direct costs mean those expenditures that the Board actually incurs in searching for, reviewing, and duplicating documents in response to a request made under §261.12.

(e) Duplication refers to the process of making a copy of a document in response to a request for disclosure of records or for inspection of original records that contain exempt material or that otherwise cannot be inspected directly. Among others, such copies may take the form of paper, microform, audiovisual materials, or machine-readable documentation (e.g., magnetic tape or disk).

(f) Educational institution refers to a preschool, a public or private elementary or secondary school, or an institution of undergraduate higher education, graduate higher education, professional education, or an institution of vocational education, which operates a program of scholarly research.

(g) Exempt information means information that is exempt from disclosure under §261.14.

(h) Noncommercial scientific institution refers to an institution that is not operated on a “commercial” basis (as that term is used in this section) and that is operated solely for the purpose of conducting scientific research, the results of which are not intended to promote any particular product or industry.

(i)(1) Records of the Board include:
   (i) In written form, or in nonwritten or machine-readable form; all information coming into the possession and under the control of the Board, any
§ 261.3 Custodian of records; certification; service; alternative authority.

(a) Custodian of records. The Secretary of the Board (Secretary) is the official custodian of all Board records, including records that are in the possession or control of the Board, any Federal Reserve Bank, or any Board or Reserve Bank employee.
(b) Certification of record. The Secretary may certify the authenticity of any Board record, or any copy of such record, for any purpose, and for or before any duly constituted federal or state court, tribunal, or agency.

(c) Service of subpoenas or other process. Subpoenas or other judicial or administrative process, demanding access to any Board records or making any claim against the Board, shall be addressed to and served upon the Secretary of the Board at the Board’s office at 20th and C Streets, N.W., Washington, D.C. 20551. Neither the Board nor the Secretary are agents for service of process on behalf of any employee in respect of purely private legal disputes, except as specifically provided by law.

(d) Alternative authority. Any action or determination required or permitted by this part to be done by the Secretary, the General Counsel, or the Director of any Division may be done by any employee who has been duly designated for this purpose by the Secretary, General Counsel, or the appropriate Director.

Subpart B—Published Information and Records Available to Public; Procedures for Requests

§ 261.10 Published information.

(a) Federal Register. The Board publishes in the Federal Register for the guidance of the public:

(1) Descriptions of the Board’s central and field organization;

(2) Statements of the general course and method by which the Board’s functions are channeled and determined, including the nature and requirements of procedures;

(3) Rules of procedure, descriptions of forms available and the place where they may be obtained, and instructions on the scope and contents of all papers, reports, and examinations;

(4) Substantive rules, interpretations of general applicability, and statements of general policy;

(5) Every amendment, revision, or repeal of the foregoing in paragraphs (a)(1) through (a)(4) of this section;

(6) Notices of proposed rulemaking;

(7) Notices of applications received under the Bank Holding Company Act of 1956 (12 U.S.C. 1841 et seq.) and the Change in Bank Control Act (12 U.S.C. 1817);

(8) Notices of all Board meetings, pursuant to the Government in the Sunshine Act (5 U.S.C. 552b);

(9) Notices identifying the Board’s systems of records, pursuant to the Privacy Act of 1974 (5 U.S.C. 552a); and

(10) Notices of agency data collection forms being reviewed under the Paperwork Reduction Act (5 U.S.C. 3501 et seq.).

(b) Board’s Reports to Congress. The Board’s annual report to Congress pursuant to the Federal Reserve Act (12 U.S.C. 247), which is made public upon its submission to Congress, contains a full account of the Board’s operations during the year, the policy actions by the Federal Open Market Committee, an economic review of the year, and legislative recommendations to Congress. The Board also makes periodic reports to Congress under certain statutes, including but not limited to the Freedom of Information Act (5 U.S.C. 552); the Government in the Sunshine Act (5 U.S.C. 552b); the Full Employment and Balanced Growth Act of 1978 (12 U.S.C. 225a); and the Privacy Act (5 U.S.C. 552a).

(c) Federal Reserve Bulletin. This publication is issued monthly and contains economic and statistical information, articles relating to the economy or Board activities, and descriptions of recent actions by the Board.

(d) Other published information. Among other things, the Board publishes the following information:

(1) Weekly publications. The Board issues the following publications weekly:

(i) A statement showing the condition of each Federal Reserve Bank and a consolidated statement of the condition of all Federal Reserve Banks, pursuant to 12 U.S.C. 248(a);

(ii) An index of applications received and the actions taken on the applications, as well as other matters issued,
§ 261.11 Records available for public inspection and copying

(a) Types of records made available. Unless they were published promptly and made available for sale or without charge, the following records shall be made available for inspection and copying at the Freedom of Information Office:

(1) Final opinions, including concurring and dissenting opinions, as well as final orders and written agreements, made in the adjudication of cases;

(2) Statements of policy and interpretations adopted by the Board that are not published in the FEDERAL REGISTER;

(3) Administrative staff manuals and instructions to staff that affect the public;

(4) Copies of all records released to any person under § 261.12 that, because of the nature of their subject matter, the Board has determined are likely to be requested again;

(5) A general index of the records referred to in paragraph (a)(4) of this section; and

(6) The public section of Community Reinvestment Act examination reports.

(b) Reading room procedures. (1) Information available under this section is available for inspection and copying, from 9:30 a.m. to 5:00 p.m. weekdays, at the Freedom of Information Office of the Board of Governors of the Federal Reserve System, 20th Street and Constitution Avenue, N.W., Washington, D.C. 20551 (the pedestrian entrance is on C Street, N.W.).

(2) The Board may determine that certain classes of publicly available filings shall be made available for inspection and copying only at the Federal Reserve Bank where those records are filed.

(c) Electronic records. (1) Except as set forth in paragraph (c)(2) of this section, information available under this section that was created by the Board on or after November 1, 1996, shall also be available on the Board’s internet site (which can be found at http://www.bog.frb.fed.us).
§ 261.13 Processing requests.

(a) Receipt of requests. Upon receipt of any request that satisfies §261.12(b), the Freedom of Information Office shall assign the request to the appropriate processing schedule, pursuant to paragraph (b) of this section. The date of receipt for any request, including one that is addressed incorrectly or that is referred to the Board by another agency or by a Federal Reserve Bank, is the date the Freedom of Information Office actually receives the request.

(b) Multitrack processing. (1) The Board provides different levels of processing for categories of requests under this section. Requests for records that are readily identifiable by the Freedom
of Information Office and that have already been cleared for public release may qualify for fast-track processing. All other requests shall be handled under normal processing procedures, unless expedited processing has been granted pursuant to paragraph (c)(2) of this section.

(2) The Freedom of Information Office will make the determination whether a request qualifies for fast-track processing. A requester may contact the Freedom of Information Office to learn whether a particular request has been assigned to fast-track processing. If the request has not qualified for fast-track processing, the requester will be given an opportunity to limit the request in order to qualify for fast-track processing. Limitations of requests must be in writing.

(c) Expedited processing. When a person requesting expedited access to records has demonstrated a compelling need for the records, or when the Board has determined to expedite the response, the Board shall process the request as soon as practicable.

(1) To demonstrate a compelling need for expedited processing, the requester shall provide a certified statement, a sample of which may be obtained from the Freedom of Information Office. The statement, which must be certified to be true and correct to the best of the requester’s knowledge and belief, shall demonstrate that:

(i) The failure to obtain the records on an expedited basis could reasonably be expected to pose an imminent threat to the life or physical safety of an individual; or

(ii) The requester is a representative of the news media, as defined in §261.2, and there is urgency to inform the public concerning actual or alleged Board activity.

(2) In response to a request for expedited processing, the Secretary shall notify a requester of the determination within ten calendar days of receipt of the request. If the Secretary denies a request for expedited processing, the requester may file an appeal pursuant to the procedures set forth in paragraph (i) of this section, and the Board shall respond to the appeal within ten working days after the appeal was received by the Board.

(d) Priority of responses. The Secretary will assign responsible staff to process particular requests. The Freedom of Information Office will normally process requests in the order they are received in the separate processing tracks, except when expedited processing is granted. However, in the Secretary’s discretion, or upon a court order in a matter to which the Board is a party, a particular request may be processed out of turn.

(e) Time limits. The time for response to requests shall be 20 working days, except:

(1) In the case of expedited treatment under paragraph (c) of this section;
(2) Where the running of such time is suspended for payment of fees pursuant to §261.17(b)(2);
(3) In unusual circumstances, as defined in 5 U.S.C. 552(a)(6)(B). In such circumstances, the time limit may be extended for a period of time not to exceed:

(i) 10 working days as provided by written notice to the requester, setting forth the reasons for the extension and the date on which a determination is expected to be dispatched; or

(ii) Such alternative time period as mutually agreed to by the Freedom of Information Office and the requester when the Freedom of Information Office notifies the requester that the request cannot be processed in the specified time limit.

(f) Response to request. In response to a request that satisfies §261.12(b), an appropriate search shall be conducted of records of the Board in existence on the date of receipt of the request, and a review made of any responsive information located. The Secretary shall notify the requester of:

(1) The Board’s determination of the request;
(2) The reasons for the determination;
(3) The amount of information withheld;
(4) The right of the requester to appeal to the Board any denial or partial denial, as specified in paragraph (i) of this section; and

(5) In the case of a denial of a request, the name and title or position of the person responsible for the denial.
§ 261.14 Exemptions from disclosure.

(a) Types of records exempt from disclosure. Pursuant to 5 U.S.C. 552(b), the following records of the Board are exempt from disclosure under this part:

(1) National defense. Any information that is specifically authorized under criteria established by an Executive Order to be kept secret in the interest of national defense or foreign policy and is in fact properly classified pursuant to the Executive Order.

(2) Internal personnel rules and practices. Any information related solely to the internal personnel rules and practices of the Board.

(3) Statutory exemption. Any information specifically exempted from disclosure by statute (other than 5 U.S.C. 552b), if the statute:

(i) Requires that the matters be withheld from the public in such a manner as to leave no discretion on the issue; or

(ii) Establishes particular criteria for withholding or refers to particular types of matters to be withheld.

(4) Trade secrets; commercial or financial information. Any matter that is a trade secret or that constitutes commercial or financial information obtained from a person and that is privileged or confidential.

(5) Inter- or intra-agency memorandums. Information contained in inter- or intra-agency memorandums or letters that would not be available by law to a party (other than an agency) in litigation with an agency, including, but not limited to:

(i) Memorandums;

(ii) Reports;

(iii) Other documents prepared by the staffs of the Board or Federal Reserve Banks; and

(iv) Records of deliberations of the Board and of discussions at meetings of the Board, any Board committee, or Board staff, that are not subject to 5
§ 261.15 Request for confidential treatment.

(a) Submission of request. Any submitter of information to the Board who desires confidential treatment pursuant to 5 U.S.C. 552(b)(4) and § 261.14 (a)(4) shall file a request for confidential treatment with the Board (or in the case of documents filed with a Federal Reserve Bank, with that Federal Reserve Bank) at the time the information is submitted or a reasonable time after submission.

(b) Form of request. Each request for confidential treatment shall state in reasonable detail the facts supporting the request and its legal justification. Conclusory statements that release of the information would cause competitive harm generally will not be considered sufficient to justify confidential treatment.
§ 261.16 Request for access to confidential commercial or financial information.

(a) Request for confidential information. A request by a submitter for confidential treatment of any information shall be considered in connection with a request for access to that information. At their discretion, appropriate Board or staff members (including Federal Reserve Bank staff) may act on the request for confidentiality prior to any request for access to the documents.

(b) Notice to the submitter. When a request for access is received pursuant to the Freedom of Information Act (5 U.S.C. 552):

(i) The Secretary shall notify a submitter of the request, if:

(ii) The submitter requested confidential treatment of the information pursuant to 5 U.S.C. 552(b)(4); and

(ii) The request by the submitter for confidential treatment was made within 10 years preceding the date of the request for access.

(2) Absent a request for confidential treatment, the Secretary may notify a submitter of a request for access to information provided by the submitter if the Secretary reasonably believes that disclosure of the information may cause substantial competitive harm to the submitter.

(3) The notice given to the submitter shall:

(i) Be given as soon as practicable after receipt of the request for access;

(ii) Describe the request; and

(iii) Give the submitter a reasonable opportunity, not to exceed ten working days from the date of notice, to submit written objections to disclosure of the information.

(c) Exceptions to notice to submitter. Notice to the submitter need not be given if:

(1) The Secretary determines that the request for access should be denied;

(2) The requested information lawfully has been made available to the public;

(3) Disclosure of the information is required by law (other than 5 U.S.C. 552); or

(4) The submitter’s claim of confidentiality under 5 U.S.C. 552(b)(4) appears obviously frivolous or has already been denied by the Secretary, except that in this last instance the Secretary shall give the submitter written notice of the determination to disclose the information at least five working days prior to disclosure.

(d) Notice to requester. At the same time the Secretary notifies the submitter, the Secretary also shall notify the requester that the request is subject to the provisions of this section.

(e) Written objections by submitter. Upon receipt of notice of a request for
access to its information, the submitter may provide written objections to release of the information. Such objections shall state whether the information was provided voluntarily or involuntarily to the Board.

(1) If the information was voluntarily provided to the Board, the submitter shall provide detailed facts showing that the information is customarily withheld from the public.

(2) If the information was not provided voluntarily to the Board, the submitter shall provide detailed facts and arguments showing:
   (i) The likelihood of substantial harm that would be caused to the submitter’s competitive position; or
   (ii) That release of the information would impair the Board’s ability to obtain necessary information in the future.

(f) Determination by Secretary. The Secretary’s determination whether or not to disclose any information for which confidential treatment has been requested pursuant to this section shall be communicated to the submitter and the requester immediately. If the Secretary determines to disclose the information and the submitter has objected to such disclosure pursuant to paragraph (e) of this section, the Secretary shall provide the submitter with the reasons for disclosure, and shall delay disclosure for ten working days from the date of the determination.

(g) Notice of lawsuit. (1) The Secretary shall promptly notify any submitter of information covered by this section of the filing of any suit against the Board to compel disclosure of such information.

(2) The Secretary shall promptly notify the requester of any suit filed against the Board to enjoin the disclosure of any documents requested by the requester.

§ 261.17 Fee schedules; waiver of fees.

(a) Fee schedules. The fees applicable to a request for records pursuant to §§ 261.11 and 261.12 are set forth in appendix A to this section. These fees cover only the full allowable direct costs of search, duplication, and review. No fees will be charged where the average cost of collecting the fee (calculated at $5.00) exceeds the amount of the fee.

(b) Payment procedures. The Secretary may assume that a person requesting records pursuant to § 261.12 will pay the applicable fees, unless the request includes a limitation on fees to be paid or seeks a waiver or reduction of fees pursuant to paragraph (f) of this section.

(1) Advance notification of fees. If the estimated charges are likely to exceed $100, the Freedom of Information Office shall notify the requester of the estimated amount, unless the requester has indicated a willingness to pay fees as high as those anticipated. Upon receipt of such notice, the requester may confer with the Freedom of Information Office to reformatulate the request to lower the costs. The time period for responding to requests under § 261.13(e), and the processing of the request will be suspended until the requester agrees to pay the applicable fees.

(2) Advance payment. The Secretary may require advance payment of any fee estimated to exceed $250. The Secretary may also require full payment in advance where a requester has previously failed to pay a fee in a timely fashion. The time period for responding to requests under § 261.13(e), and the processing of the request will be suspended until the Freedom of Information Office receives the required payment.

(3) Late charges. The Secretary may assess interest charges when fee payment is not made within 30 days of the date on which the billing was sent. Interest is at the rate prescribed in 31 U.S.C. 3717 and accrues from the date of the billing.

(c) Categories of uses. The fees assessed depend upon the intended use for the records requested. In determining which category is appropriate, the Secretary shall look to the intended use set forth in the request for records. Where a requester’s description of the use is insufficient to make a determination, the Secretary may seek additional clarification before categorizing the request.

(1) Commercial use. The fees for search, duplication, and review apply when records are requested for commercial use.
(2) Educational, research, or media use. The fees for duplication apply when records are not sought for commercial use, and the requester is a representative of the news media or an educational or noncommercial scientific institution, whose purpose is scholarly or scientific research. The first 100 pages of duplication, however, will be provided free.

(3) All other uses. For all other requests, the fees for document search and duplication apply. The first two hours of search time and the first 100 pages of duplication, however, will be provided free.

(d) Nonproductive search. Fees for search and review may be charged even if no responsive documents are located or if the request is denied.

(e) Aggregated requests. A requester may not file multiple requests at the same time, solely in order to avoid payment of fees. If the Secretary reasonably believes that a requester is separating a request into a series of requests for the purpose of evading the assessment of fees, the Secretary may aggregate any such requests and charge accordingly. It is considered reasonable for the Secretary to presume that multiple requests of this type made within a 30-day period have been made to avoid fees.

(f) Waiver or reduction of fees. A request for a waiver or reduction of the fees, and the justification for the waiver, shall be included with the request for records to which it pertains. If a waiver is requested and the requester has not indicated in writing an agreement to pay the applicable fees if the waiver request is denied, the time for response to the request for documents, as set forth in §261.13(e), shall not begin until a waiver has been granted; or if the waiver is denied, until the requester has agreed to pay the applicable fees.

(1) Standards for determining waiver or reduction. The Secretary shall grant a waiver or reduction of fees where it is determined both that disclosure of the information is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government, and that the disclosure of information is not primarily in the commercial interest of the requester. In making this determination, the following factors shall be considered:

(i) Whether the subject of the records concerns the operations or activities of the government;
(ii) Whether disclosure of the information is likely to contribute significantly to public understanding of government operations or activities;
(iii) Whether the requester has the intention and ability to disseminate the information to the public;
(iv) Whether the information is already in the public domain;
(v) Whether the requester has a commercial interest that would be furthered by the disclosure; and, if so, (vi) Whether the magnitude of the identified commercial interest of the requester is sufficiently large, in comparison with the public interest in disclosure, that disclosure is primarily in the commercial interest of the requester.

(2) Contents of request for waiver. A request for a waiver or reduction of fees shall include:

(i) A clear statement of the requester’s interest in the documents;
(ii) The use proposed for the documents and whether the requester will derive income or other benefit for such use;
(iii) A statement of how the public will benefit from such use and from the Board’s release of the documents;
(iv) A description of the method by which the information will be disseminated to the public; and
(v) If specialized use of the information is contemplated, a statement of the requester’s qualifications that are relevant to that use.

(3) Burden of proof. The burden shall be on the requester to present evidence or information in support of a request for a waiver or reduction of fees.

(4) Determination by Secretary. The Secretary shall make a determination on the request for a waiver or reduction of fees and shall notify the requester accordingly. A denial may be appealed to the Board in accordance with §261.13(i).

(g) Employee requests. In connection with any request by an employee,
§ 261.20 Confidential supervisory information made available to supervised financial institutions and financial institution supervisory agencies.

(a) Disclosure of confidential supervisory information to supervised financial institutions. Confidential supervisory information concerning a supervised bank, bank holding company (including subsidiaries), U.S. branch or agency of a foreign bank, or other institution examined by the Federal Reserve System ("supervised financial institution") may be made available by the Board or the appropriate Federal Reserve Bank to the supervised financial institution.

(b) Disclosure of confidential supervisory information by supervised financial institutions—(1) Parent bank holding company, directors, officers, and employees. Any supervised financial institution lawfully in possession of confidential supervisory information of the Board pursuant to this section may disclose such information, or portions thereof, to its directors, officers, and employees, and to its parent bank holding company and its directors, officers, and employees.

(2) Certified public accountants and legal counsel. Any supervised financial institution lawfully in possession of confidential supervisory information of the Board pursuant to this section may disclose such information, or portions thereof, to any certified public accountant or legal counsel employed by the supervised financial institution, subject to the following conditions:

(i) Certified public accountants or legal counsel shall review the confidential supervisory information only on the premises of the supervised financial institution, and shall not make or retain any copies of such information;

(ii) The certified public accountants or legal counsel shall not disclose the confidential supervisory information for any purpose without the prior written approval of the Board’s General Counsel except as necessary to provide advice to the supervised financial institution, its parent bank holding company, or the officers, directors, and employees of such supervised financial institution and parent bank holding company.

(c) Disclosure upon request to Federal financial institution supervisory agencies. Upon requests, the Director of the Division of Banking Supervision and Regulation or the appropriate Federal Reserve Bank, may make available to the Comptroller of the Currency, the Federal Deposit Insurance Corporation, and the Federal Home Loan Bank...
Board and their regional offices and representatives, confidential supervisory information and other appropriate information (such as confidential operating and condition reports) relating to a bank, bank holding company (including subsidiaries), U.S. branch or agency of a foreign bank, or other supervised financial institution.

(d) Disclosure upon request to state financial institution supervisory agencies. Upon requests, the Director of the Division of Banking Supervision and Regulation or the appropriate Federal Reserve Bank may make available confidential supervisory information and other appropriate information (such as confidential operating and condition reports) relating to a bank, bank holding company (including subsidiaries), U.S. branch or agency of a foreign bank, or other supervised financial institution to:

(1) A state financial institution supervisory agency having direct supervisory authority over such supervised financial institution; or

(2) A state financial institution supervisory agency not having direct supervisory authority over such supervised financial institution if the requesting agency has entered into an information sharing agreement with the appropriate Federal Reserve Bank and the information to be provided concerns a supervised financial institution that has acquired or has applied to acquire a financial institution subject to that agency’s direct supervisory authority.

(e) Discretionary disclosures. The Board may determine, from time to time, to authorize other disclosures of confidential information as necessary.

(f) Conditions and limitations. The Board may impose any conditions or limitations on disclosure under this section that it determines are necessary to effect the purposes of this regulation.

(g) Other disclosure prohibited. All confidential supervisory information or other information made available under this section shall remain the property of the Board. No supervised financial institution, financial institution supervisory agency, person, or any other party to whom the information is made available, or any other officer, director, employee or agent thereof, may disclose such information without the prior written permission of the Board’s General Counsel except in published statistical material that does not disclose, either directly or when used in conjunction with publicly available information, the affairs of any individual, corporation, or other entity. No person obtaining access to confidential supervisory information pursuant to this section may make a personal copy of any such information; and no person may remove confidential supervisory information from the premises of the institution or agency in possession of such information except as permitted by specific language in this regulation or by the Board.

(h) Disclosure of Foreign Bank Confidential Report of Operations—(1) Availability of Foreign Bank Confidential Report of Operations to Bank Supervisory Agencies. Notwithstanding any other provision of this regulation, any Confidential Report of Operations (Form F.R. 2068) of a foreign banking organization may, upon written request to and approval by the Director of the Division of Banking Supervision and Regulation (or his delegee), and with the concurrence of the General Counsel (or his delegee), be made available for inspection to another bank supervisory authority having general supervision of any United States branch, agency, subsidiary bank or commercial lending company of the foreign banking organization, only for use where necessary in the performance of official duties. These reports shall be made available for inspection by authorized persons only on Federal Reserve premises under the same procedures as apply to personnel of the Federal Reserve System. All reports made available under this paragraph shall remain the property of the Board; and no person, agency or authority who obtains access to any such report, or any officer, director, or employee thereof, shall publish, publicize, or otherwise disclose any information contained in the report to any person.

(2) Restrictions on disclosure by Federal Reserve System employees. It is the Board’s policy that the confidentiality of a foreign banking organization’s Confidential Report of Operations
§ 261.21 Confidential information made available to law enforcement agencies and other nonfinancial institution supervisory agencies.

(a) Disclosure upon request. Upon written request, the Board may make available to appropriate law enforcement agencies and to other nonfinancial institution supervisory agencies for use where necessary in the performance of official duties, reports of examination and inspection, confidential supervisory information, and other confidential documents and information of the Board concerning banks, bank holding companies and their subsidiaries, U.S. branches and agencies of foreign banks, and other examined institutions.

(b) Eligibility. Federal, state, and local law enforcement agencies and other nonfinancial institution supervisory agencies may file written requests with the Board for access to confidential documents and information under this section of the regulation. Properly accredited foreign law enforcement agencies and other foreign government agencies may also file written requests with the Board.

(c) Contents of request. To obtain access to confidential documents or information under this section of the regulation, the head of the law enforcement agency or nonfinancial institution supervisory agency (or their designees) shall address a letter request to the Board’s General Counsel, specifying:

(1) The particular information, kinds of information, and where possible, the particular documents to which access is sought;

(2) The reasons why such information cannot be obtained from the examined institution in question rather than from the Board;

(3) A statement of the law enforcement purpose or other purpose for which the information shall be used;

(4) Whether the requested disclosure is permitted or restricted in any way by applicable law or regulation;

(5) A commitment that the information requested shall not be disclosed to any person outside the agency without the written permission of the Board or its General Counsel; and

(6) If the document or information requested includes customer account information subject to the Right to Financial Privacy Act, as amended (12 U.S.C. 3401 et seq.), a statement that such customer account information need not be provided, or a statement as to why the Act does not apply to the request, or a certification that the requesting agency has complied with the requirements of the Act.

(d) Action on request. (1) The General Counsel shall review each request and may approve the request upon determining that:

(i) The request complies with this section;

(ii) The information is needed in connection with a formal investigation or other official duties of the requesting agency;

(iii) Satisfactory assurances of confidentiality have been given; and

(iv) No law prohibits the requested disclosure.

(2) The General Counsel may impose any conditions or limitations on disclosure that the General Counsel determines to be necessary to effect the purposes of this regulation or to insure compliance with applicable laws or regulations.

(e) Federal and state grand jury, criminal trial, and government administrative subpoenas. The Board’s General Counsel shall review and may approve the disclosure of confidential information pursuant to Federal and state grand jury, criminal trial, and government administrative subpoenas. The General
Counsel may impose such conditions or limitations on disclosure under this section that the General Counsel determines are necessary to effect the purposes of this regulation, to insure compliance with applicable laws or regulations, or to protect the confidentiality of the Board’s information.

(f) Requests for testimony or interviews. Government agencies seeking to obtain testimony or interviews from current and former Federal Reserve System staff concerning any confidential information of the Board shall use the procedures set out in paragraph (c) of this section.

(g) Other disclosure prohibited. All reports and information made available under this section remain the property of the Board, and except as otherwise provided in this regulation, no person, agency, or authority to whom the information is made available, or any officer, director, or employee thereof, may disclose any such information except in published statistical material that does not disclose, either directly or when used in conjunction with publicly available information, the affairs of any individual or corporation.

§ 261.22 Other disclosure of confidential supervisory information.

(a) Board policy. It is the Board’s policy regarding confidential supervisory information that such information is confidential and privileged. Accordingly, the Board will not normally disclose this information to the public. The Board, when considering a request for disclosure of confidential supervisory information under this section, will not authorize disclosure unless the person requesting disclosure is able to show a substantial need for such information that outweighs the need to maintain confidentiality.

(b) Requests for disclosure—(1) Requests from litigants for information or testimony. Any person (except agencies identified in §§261.20 and 261.21 of this regulation) seeking access to confidential supervisory information or seeking to obtain the testimony of present or former Board or Reserve Bank employees on matters involving confidential supervisory information of the Board, whether by deposition or otherwise, for use in litigation before a court, board, commission, or agency, shall file a written request with the General Counsel of the Board. The request shall describe:

(i) The particular information, kinds of information, and where possible, the particular documents to which access is sought;

(ii) The judicial or administrative action for which the confidential supervisory information is sought;

(iii) The relationship of the confidential supervisory information to the issues or matters raised by the judicial or administrative action;

(iv) The requesting person’s need for the information;

(v) The reason why the requesting person cannot obtain the information sought from any other source; and

(vi) A commitment to obtain a protective order acceptable to the Board from the judicial or administrative tribunal hearing the action preserving the confidentiality of any information that is provided.

(2) All other requests. Any other person (except agencies identified in §§261.20 and 261.21 of this regulation) seeking access to confidential supervisory information for any other purpose shall file a written request with the General Counsel of the Board. A request under this paragraph (b)(2) shall describe the purpose for which such disclosure is sought.

(c) Action on request—(1) Determination of approval. The General Counsel of the Board may approve a request made under this section provided that he or she determines that:

(i) The person making the request has shown a substantial need for confidential supervisory information that outweighs the need to maintain confidentiality; and

(ii) Disclosure is consistent with the supervisory and regulatory responsibilities and policies of the Board.

(2) Conditions or limitations. The General Counsel of the Board may, in approving a request, impose such conditions or limitations on use of any information disclosed as is deemed necessary to protect the confidentiality of the Board’s information.
§ 261.23

(d) Exhaustion of administrative remedies for discovery purposes in civil, criminal, or administrative action. Action on a request under this section by the General Counsel of the Board shall exhaust administrative remedies for discovery purposes in any civil, criminal, or administrative proceeding. A request made pursuant to § 261.12 of this regulation does not exhaust administrative remedies for discovery purposes. Therefore, it is not necessary to file a request pursuant to § 261.12 to exhaust administrative remedies under this section.

(e) Other disclosure prohibited. All confidential supervisory information made available under this section shall remain the property of the Board. Any person in possession of such information shall not use or disclose such information for any purpose other than that authorized by the General Counsel of the Board without his or her prior written approval.

§ 261.23 Subpoenas, orders compelling production, and other process.

(a) Advice by person served. Any person (including any officers, employee, or agent of the Board or any Federal Reserve Bank) who has documents or information of the Board that may not be disclosed and who is served with a subpoena, order, or other judicial or administrative process requiring his or her personal attendance as a witness or requiring the production of documents or information in any proceeding, shall:

(1) Promptly inform the Board’s General Counsel of the service and all relevant facts, including the documents and information requested, and any facts of assistance to the Board in determining whether the material requested should be made available; and

(2) At the appropriate time inform the court or tribunal that issued the process and the attorney for the party at whose instance the process was issued of the substance of these rules.

(b) Appearance by person served. Unless the Board has authorized disclosure of the information requested, any person who has Board information that may not be disclosed, and who is required to respond to a subpoena or other legal process, shall attend at the time and place required and decline to disclose or to give any testimony with respect to the information, basing such refusal upon the provisions of this regulation. If the court or other body orders the disclosure of the information or the giving of testimony, the person having the information shall continue to decline to disclose the information and shall promptly report the facts to the Board for such action as the Board may deem appropriate.

Subpart A—General Provisions

§ 261a.1 Authority, purpose and scope.

(a) Authority. This part is issued by the Board of Governors of the Federal Reserve System (the Board) pursuant to the Privacy Act of 1974 (5 U.S.C. 552a).

(b) Purpose. The purpose of this part is to implement the provisions of the Privacy Act of 1974 (5 U.S.C. 552a) with regard to the maintenance, protection, disclosure, and amendment of records contained within systems of records maintained by the Board.

(c) Scope. This part covers requests for access to, or amendment of, records concerning individuals that are contained in systems of records maintained by the Board.

§ 261a.2 Definitions.

For the purposes of this part, the following definitions apply:

(a) Business day means any day except Saturday, Sunday or a legal Federal holiday.

(b) Designated system of records means a system of records maintained by the Board that has been listed in the Federal Register pursuant to the requirements of 5 U.S.C. 552a(e).

(c) Guardian means the parent of a minor, or the legal guardian of any individual who has been declared to be incompetent due to physical or mental incapacity or age by a court of competent jurisdiction.

(d) Individual means a natural person who is either a citizen of the United States or an alien lawfully admitted for permanent residence.

(e) Maintain includes maintain, collect, use, disseminate, or control.

(f) Record means any item, collection, or grouping of information about an individual maintained by the Board that contains the individual’s name, or the identifying number, symbol, or other identifying particular assigned to the individual, such as a fingerprint, voice print, or photograph.

(g) Routine use means, with respect to disclosure of a record, the use of such record for a purpose that is compatible with the purpose for which it was collected or created.

(h) System of records means a group of any records under the control of the Board from which information is retrieved by the name of the individual or by some identifying number, symbol, or other identifying particular assigned to the individual.

§ 261a.3 Custodian of records; delegations of authority.

(a) Custodian of records. The Secretary of the Board is the official custodian of all records of the Board in the possession or control of the Board.

(b) Delegated authority of Secretary. With regard to this regulation, the Secretary of the Board is delegated the authority to:

1. Respond to requests for access or amendment to records contained in a system of records, except for such requests regarding systems of records maintained by the Board’s Office of the Inspector General (OIG);

2. Approve the publication of new systems of records and amend existing systems of records, except systems of records exempted pursuant to §§261a.13(b), (c) and (d); and

3. File the biennial reports required by the Privacy Act.

(c) Delegated authority of designee. Any action or determination required or permitted by this part to be done by the Secretary of the Board may be done by an Associate Secretary or other responsible employee of the Board who has been duly designated for this purpose by the Secretary.

(d) Delegated authority of Inspector General. With regard to systems of records maintained by the OIG, the Inspector General is delegated the authority to respond to requests for access or amendment.

§ 261a.4 Fees.

(a) Copies of records. Copies of records requested pursuant to §261a.5 of this part shall be provided at the same cost charged for duplication of records and/or production of computer output under the Board’s Rules Regarding Availability of Information, §261.10 of this part.

(b) No fee. Documents may be furnished without charge where total charges are less than $5.

(c) Waiver of fees. In connection with any request by an employee, former
employee, or applicant for employment, for records for use in prosecuting a grievance or complaint of discrimination against the Board, fees shall be waived where the total charges (including charges for information provided under the Freedom of Information Act) are $50 or less: but the Secretary may waive fees in excess of that amount.

Subpart B—Procedures for Requests by Individual to Whom Record Pertains

§ 261a.5 Request for access to record.

(a) Procedures for making request. (1) Any individual (or guardian of an individual) other than a current Board employee desiring to learn of the existence of, or to gain access to, his or her record in a designated system of records shall submit a request in writing to the Secretary of the Board, Board of Governors of the Federal Reserve System, 20th and Constitution Avenue NW., Washington, DC 20551.

(2) A request by a current Board employee for that employee’s own personnel records may be made in person during regular business hours at the Division of Human Resources, Board of Governors of the Federal Reserve System, 20th and Constitution Avenue NW., Washington, DC 20551.

(3) A request by a current Board employee for information other than personnel information may be made in person during regular business hours at the Freedom of Information Office, Board of Governors of the Federal Reserve System, 20th and Constitution Avenue NW., Washington, DC 20551.

(4) Requests for information contained in a system of records maintained by the Board’s OIG shall be submitted in writing to the Inspector General, Board of Governors of the Federal Reserve System, 20th and Constitution Avenue NW., Washington, DC 20551.

(b) Contents of request. A request made pursuant to paragraph (a) of this section shall include the following:

(1) A statement that it is made pursuant to the Privacy Act of 1974;

(2) The name of the system of records expected to contain the record requested or a concise description of such system of records.

(3) Necessary information to verify the identity of the requester pursuant to paragraph (c) of this section; and

(4) Any other information that may assist in the rapid identification of the record for which access is being requested (e.g., maiden name, dates of employment, etc.).

(c) Verification of identity. The Board shall require proof of identity from a requester and reserves the right to determine the adequacy of such proof. In general, the following shall be considered adequate proof of identity:

(1) For a current Board employee, his or her Board identification card; or

(2) For an individual other than a current Board employee, either:

(i) Two forms of identification, one of which has a picture of the individual requesting access; or

(ii) A notarized statement attesting to the identity of the requester.

(d) Verification of identity not required. No verification of identity shall be required of individuals seeking access to records that are otherwise available to any person under 5 U.S.C. 552, Freedom of Information Act.

(e) Request for accounting of previous disclosures. An individual making a request pursuant to paragraph (a) of this section may also include a request for an accounting (pursuant to 5 U.S.C. 552a(c)) of previous disclosures of records pertaining to such individual in a designated system of records.

§ 261a.6 Board procedures for responding to request for access.

(a) Compliance with Freedom of Information Act. Every request made pursuant to §261a.5 of this part shall also be handled by the Board as a request for information pursuant to the Freedom of Information Act (5 U.S.C. 552), except that the time limits set forth in paragraph (b) of this section and the fees specified in §261a.4 of this part shall apply to such requests.

(b) Time limits. Every request made pursuant to §261a.5 of this part shall be acknowledged or, where practicable, substantially responded to within 10 business days from receipt of the request.

(c) Disclosure. (1) Information to be disclosed pursuant to this part and the Privacy Act, except for information
maintained by the Board’s OIG shall be made available for inspection and copying during regular business hours at the Board’s Freedom of Information Office.

(2) Information to be disclosed that is maintained by the Board’s OIG shall be made available for inspection and copying at the OIG.

(3) When the requested record cannot reasonably be put into a form for individual inspection (e.g., computer tapes), or when the requester asks that the information be forwarded, copies of such information shall be mailed to the requester.

(4) Access to or copies of requested information shall be promptly provided after the acknowledgement as provided in paragraph (b) of this section, unless good cause for delay is communicated to the requester.

(d) Other authorized presence. The requester of information may be accompanied in the inspection of that information by a person of the requester’s own choosing upon the requester’s submission of a written and signed statement authorizing the presence of such person.

(e) Denial of request. A denial of a request made pursuant to §261a.5 of this part shall include a statement of the reason(s) for denial and the procedures for appealing the denial.

§261a.7 Special procedures for medical records.

Medical or psychological records requested pursuant to §261a.5 of this part shall be disclosed directly to the requester unless such disclosure could, in the judgment of the Privacy Officer, in consultation with the Board’s physician, have an adverse effect upon the requester. Upon such determination, the information shall be transmitted to a licensed physician named by the requester, who will disclose those records to the requester in a manner the physician deems appropriate.

§261a.8 Request for amendment of record.

(a) Procedures for making request. (1) An individual desiring to amend a record in a designated system of records that pertains to him or her shall submit a request in writing to the Secretary of the Board (or to the Inspector General for records in a system of records maintained by the OIG) in an envelope clearly marked “Privacy Act Amendment Request.”

(b) Burden of proof. The request for amendment of a record shall set forth the reasons the individual believes the record is not accurate, relevant, timely, or complete. The burden of proof for demonstrating the appropriateness of the requested amendment rests with the requester, and the requester shall provide relevant and convincing evidence in support of the request.

§261a.9 Board review of request for amendment of record.

(a) Time limits. The Board shall acknowledge a request for amendment of a record within 10 business days of receipt of the request. Such acknowledgment may request additional information necessary for a determination on the request for amendment. To the extent possible, a determination upon a request to amend a record shall be made within 10 business days after receipt of the request.

(b) Contents of response to request for amendment. The response to a request for amendment shall include the following:

(1) The decision to grant or deny, in whole or in part, the request for amendment; and

(2) If the request is denied:

(i) The reasons for denial of any portion of the request for amendment;

(ii) The requester’s right to appeal any denial; and

(iii) The procedures for appealing the denial to the appropriate official.
§ 261a.10 Appeal of adverse determination of request for access or amendment.

(a) Appeal. A requester may appeal a denial of a request made pursuant to §261a.5 or §261a.8 of this part to the Board, or any official designated by the chairman of the Board, within 10 business days of issuance of notification of denial. The appeal shall:

1. Be made in writing to the Secretary of the Board, with the words “PRIVACY ACT APPEAL” written prominently on the first page;
2. Specify the previous background of the request; and
3. Provide reasons why the initial denial is believed to be in error.

(b) Determination. The Board or an official designated by the Chairman of the Board shall make a determination with respect to such appeal not later than 30 business days from its receipt, unless the time is extended for good cause shown.

1. If the Board or designated official grants an appeal regarding a request for amendment, the Board shall take the necessary steps to amend the record, and, when appropriate and possible, notify prior recipients of the record of the Board’s action.
2. If the Board or designated official denies an appeal, the Board shall inform the requester of such determination, give a statement of the reasons therefor, and inform the requester of the right of judicial review of the determination.

(c) Statement of disagreement. (1) Upon receipt of a denial of an appeal regarding a request for amendment, the requester may file a concise statement of disagreement with the denial. Such statement shall be maintained with the record the requester sought to amend, and any disclosure of the record shall include a copy of the statement of disagreement.

(2) When practicable and appropriate, the Board shall provide a copy of the statement of disagreement to any person or other agency to whom the record was previously disclosed.

§ 261a.11 Restrictions on disclosure.

No record contained in a designated system of records shall be disclosed to any person or agency without the prior written consent of the individual to whom the record pertains unless the disclosure is authorized by §261a.12 of this part.

§ 261a.12 Exceptions.

The restrictions on disclosure in §261a.11 of this part do not apply to any disclosure:

(a) To those officers and employees of the Board who have a need for the record in the performance of their duties;
(b) That is required under the Freedom of Information Act (5 U.S.C. 552);
(c) For a routine use listed with respect to a designated system of records;
(d) To the Bureau of the Census for purposes of planning or carrying out a census or survey or related activity pursuant to the provisions of title 13 of the United States Code;
(e) To a recipient who has provided the Board with advance adequate written assurance that the record will be used solely as a statistical research or reporting record, and the record is to be transferred in a form that is not individually identifiable;
(f) To the National Archives of the United States as a record that has sufficient historical or other value to warrant its continued preservation by the United States government, or for evaluation by the administrator of General Services or his designee to determine whether the record has such value;
(g) To another agency or to an instrumentality of any governmental jurisdiction within or under the control of the United States for a civil or criminal law enforcement activity if the activity is authorized by law, and if the head of the agency or instrumentality has made a written request to the Board specifying the particular portion desired and the law enforcement activity for which the record is sought;
(h) To a person pursuant to a showing of compelling circumstances affecting the health or safety of an individual if upon such disclosure notification is transmitted to the last known address of such individual;

(i) To either House of Congress, or, to the extent of matter within its jurisdiction, any committee or subcommittee thereof, any joint committee of Congress or subcommittee of any such joint committee;

(j) To the Comptroller General, or any of his authorized representatives, in the course of the performance of the duties of the General Accounting Office;

(k) Pursuant to the order of a court of competent jurisdiction; or

(l) To a consumer reporting agency in accordance with 31 U.S.C. 3711(f).

Subpart D—Exempt Records

§ 261a.13 Exemptions.

(a) Information compiled for civil action. Nothing in this regulation shall allow an individual access to any information compiled in reasonable anticipation of a civil action or proceeding.

(b) Law enforcement information. Pursuant to section (k)(2) of the Privacy Act of 1974 (5 U.S.C. 552a(k)(2)), the Board has deemed it necessary to exempt certain designated systems of records maintained by the Board from the requirements of the Privacy Act concerning access to accountings of disclosures and to records, maintenance of only relevant and necessary information in files, and certain publication provisions, respectively 5 U.S.C. 552a(c)(3), (d), (e)(1), (e)(4)(G), (H) and (I), and (f), and §§261a.5, 261a.7 and 261a.8 of this part. Accordingly, the following systems of records are exempt from these provisions, but only to the extent that they contain investigatory materials compiled for law enforcement purposes:

(1) BGFRS–1 Recruiting and Placement Records.

(2) BGFRS–2 Personnel Background Investigation Reports.

(3) BGFRS–4 General Personnel Records.

(4) BGFRS–5 EEO Discrimination Complaint File.

(5) BGFRS–9 Consultant and Staff Associate File.

(6) BGFRS–18 Consumer Complaint Information System.

(7) BGFRS–21 Supervisory Complaint Information System.

(8) BGFRS/OIG–1 OIG Investigatory Records.

(9) BGFRS–31 Protective Information System.

(10) BGFRS—32 Visitor Log.

(c) Confidential references. Pursuant to section (k)(5) of the Privacy Act of 1974 (5 U.S.C. 552a(k)(5)), the Board has deemed it necessary to exempt certain designated systems of records maintained by the Board from the requirements of the Privacy Act concerning access to accountings of disclosures and to records, maintenance of only relevant and necessary information in files, and certain publication provisions, respectively 5 U.S.C. 552a(c)(b)(3), (d), (e)(1), (e)(4)(G), (H) and (I), and (f), and §§261a.5, 261a.7 and 261a.8 of this part. Accordingly, the following systems of records are exempt from these provisions, but only to the extent that they contain investigatory materials compiled to determine an individual’s suitability, eligibility, and qualifications for Board employment or access to classified information, and the disclosure of such material would reveal the identity of a source who furnished information to the Board under a promise of confidentiality.

(1) BGFRS–1 Recruiting and Placement Records.

(2) BGFRS–2 Personnel Background Investigation Reports.

(3) BGFRS–4 General Personnel Records.

(4) BGFRS–9 Consultant and Staff Associate File.

(5) BGFRS–10 General File on Board Members.

(6) BGFRS–11 Official General Files.

(7) BGFRS–13 General File of Examiners and Assistant Examiners at Federal Reserve Banks.

(8) BGFRS–14 General File of Federal Reserve Bank and Branch Directors.

(9) BGFRS–15 General Files of Federal Reserve Agents, Alternates and Representatives at Federal Reserve Banks.
(10) BGFRS/OIG–2 OIG Personnel Records.

d) Criminal law enforcement information. Pursuant to 5 U.S.C. 552a(j)(2), the Board has determined that portions of the OIG Investigatory Records (BGFRS/OIG–1) shall be exempt from any part of the Privacy Act (5 U.S.C. 552a), except the provisions regarding disclosure, the requirement to keep an accounting, certain publication requirements, certain requirements regarding the proper maintenance of systems of records, and the criminal penalties for violation of the Privacy Act, respectively, 5 U.S.C. 552a (b), (c)(1), and (2), (e)(4) (A) through (F), (e)(6), (e)(7), (e)(9), (e)(10), (e)(11) and (i). This designated system of records is maintained by the OIG, a Board component that performs as its principal function an activity pertaining to the enforcement of criminal laws. The exempt portions of the records consist of:

(1) Information compiled for the purpose of identifying individual criminal offenders and alleged offenders;
(2) Information compiled for the purpose of a criminal investigation, including reports of informants and investigators, and associated with an identifiable individual; or
(3) Reports identifiable to an individual compiled at any stage of the process of enforcement of the criminal laws from arrest or indictment through release from supervision.

PART 261b—RULES REGARDING PUBLIC OBSERVATION OF MEETINGS

§ 261b.1 Basis and scope.
This part is issued by the Board of Governors of the Federal Reserve System ("the Board") under section 552b of title 5 of the United States Code, the Government in the Sunshine Act ("the Act"), to carry out the policy of the Act that the public is entitled to the fullest practicable information regarding the decision making processes of the Board while at the same time preserving the rights of individuals and the ability of the Board to carry out its responsibilities. These regulations fulfill the requirement of subsection (g) of the Act that each agency subject to the provisions of the Act shall promulgate regulations to implement the open meeting requirements of subsections (b) through (f) of the Act.

§ 261b.2 Definitions.
For purposes of this part, the following definitions shall apply:
(a) The term agency means the Board and subdivisions thereof.
(b) The term subdivision means any group composed of two or more Board members that is authorized to act on behalf of the Board.
(c) The term meeting means the deliberations of at least the number of individual agency members required to take action on behalf of the agency where such deliberations determine or result in the joint conduct or disposition of official Board business, but does not include (1) deliberations required or permitted by subsections (d) or (e) of the Act, or (2) the conduct or disposition of official agency business by circulating written material to individual members.
(d) The term number of individual agency members required to take action on behalf of the agency means in the case of the Board, a majority of its
members except that (1) Board determination of the ratio of reserves against deposits under section 19(b) of the Federal Reserve Act requires the vote of four members, (2) Board action with respect to advances, discounts and rediscounts under sections 10(a), 11(b), and 13(3) of the Federal Reserve Act requires the vote of five members and (3) Board action with respect to the percentage of individual member bank capital and surplus which may be represented by loans secured by stock and bond collateral under section 11(m) of the Federal Reserve Act requires the vote of six members. In the case of subdivisions of the Board, the term means the number of members constituting a quorum of the designated subdivision.

(e) The term member means a member of the Board appointed under section 10 of the Federal Reserve Act. In the case of certain Board proceedings pursuant to 12 U.S.C. 1818(e), the Comptroller of the Currency is entitled to sit as a member of the Board and for these proceedings he shall be deemed a member for the purposes of this part. In the case of any subdivision of the Board, the term member means a member of the Board designated to serve on that subdivision.

(f) The term public observation means that the public shall have the right to listen and observe but not to record any of the meetings by means of cameras or electronic or other recording devices unless approval in advance is obtained from the Public Affairs Office of the Board and shall not have the right to participate in the meeting, unless participation is provided for in the Board’s Rules of Procedure.

(g) The term Federal agency means an agency as defined in 5 U.S.C. 551(1).

(h) Committee means the Action Committee established pursuant to 12 CFR 265.1a(c).

§ 261b.4 Meetings open to public observation.

(a) Except as provided in §261b.5, every portion of every meeting of the agency shall be open to public observation.

(b) Copies of staff documents considered in connection with agency discussion of agenda items for a meeting that is open to public observation shall be made available for distribution to members of the public attending the meeting, in accordance with the provisions of 12 CFR part 261.

(c) The agency will maintain a complete electronic recording adequate to record fully the proceedings of each meeting or portion of a meeting open to public observation. Cassettes will be available for listening in the Freedom of Information Office, and copies may be ordered for $5 per cassette by telephoning or by writing Freedom of Information Office, Board of Governors of the Federal Reserve System, Washington, DC 20551.

(d) The agency will maintain mailing lists of names and addresses of all persons who wish to receive copies of agency announcements of meetings open to public observation. Requests for announcements may be made by telephoning or by writing Freedom of Information Office, Board of Governors of the Federal Reserve System, Washington, DC 20551.

§ 261b.5 Exemptions.

(a) Except in a case where the agency finds that the public interest requires otherwise, the agency may close a meeting or a portion or portions of a meeting under the procedures specified in §261b.7 or §261b.8 of this part, and withhold information under the provisions of §§261b.6, 261b.7, 261b.8, or 261b.11 of this part, where the agency properly determines that such meeting or portion or portions of its meeting or the disclosure of such information is likely to:

(1) Disclose matters that are (i) specifically authorized under criteria established by an Executive order to be kept secret in the interests of national defense or foreign policy, and (ii) in
§261b.6  Public announcement of meetings.

(a) Except as otherwise provided by the Act, public announcement of meetings open to public observation and meetings to be partially or completely closed to public observation pursuant to §261b.8 of this part will be made at least one week in advance of the meeting. Except to the extent such information is determined to be exempt from disclosure under §261b.5 of this part, each such public announcement will state the time, place and subject matter of the meeting, whether it is to be open or closed to the public, and the name and phone number of the official designated to respond to requests for information about the meeting.

(b) If a majority of the members of the agency determines by a recorded vote that agency business requires that a meeting covered by paragraph (a) of this section be called at a date earlier than that specified in paragraph (a) of this section, the agency will make a public announcement of the information specified in paragraph (a) of this
§ 261b.8 Meetings closed to public observation under regular procedures.

(a) A meeting or a portion of a meeting will be closed to public observation under regular procedures, or information as to such meeting or portion of a meeting will be withheld only by recorded vote of a majority of the members of the agency when it is determined that the meeting or the portion of the meeting or the withholding of information qualifies for exemption under §261b.5. Votes by proxy are not allowed.

(b) Except as provided in subsection (c) of this section, a separate vote of the members of the agency will be taken with respect to the closing or the withholding of information as to each meeting or portion thereof which is proposed to be closed to public observation or with respect to which information is proposed to be withheld pursuant to this section.

(c) A single vote may be taken with respect to a series of meetings, a portion or portions of which are proposed to be closed to public observation or
with respect to any information concerning such series of meetings proposed to be withheld, so long as each meeting or portion thereof in such series involves the same particular matters and is scheduled to be held no more than thirty days after the initial meeting in such series.

(d) Whenever any person’s interests may be directly affected by a portion of a meeting for any of the reasons referred to in exemption (a)(5), (a)(6) or (a)(7) of §261b.5 of this part, such person may request in writing to the Secretary of the Board that such portion of the meeting be closed to public observation. The Secretary, or in his or her absence, the Acting Secretary of the Board, will transmit the request to the members and upon the request of any one of them a recorded vote will be taken whether to close such meeting to public observation.

(e) Within one day of any vote taken pursuant to paragraphs (a) through (d) of this section, the agency will make publicly available at the Board’s Public Affairs Office and Freedom of Information Office a written copy of such vote reflecting the vote of each member on the question. If a meeting or a portion of a meeting is to be closed to public observation, the agency, within one day of the vote taken pursuant to paragraphs (a) through (d) of this section, will make publicly available at the Board’s Public Affairs Office and Freedom of Information Office a full, written explanation of its action closing the meeting or portion of the meeting together with a list of all persons expected to attend the meeting and their affiliation, except to the extent such information is determined by the agency to be exempt from disclosure under subsection (c) of the Act and §261b.5 of this part.

(f) Any person may request in writing to the Secretary of the Board that an announced closed meeting, or portion of the meeting, be held open to public observation. The Secretary, or in his or her absence, the Acting Secretary of the Board, will transmit the request to the members of the Board and upon the request of any member a recorded vote will be taken whether to open such meeting to public observation.

§261b.9 Changes with respect to publicly announced meeting.

The subject matter of a meeting or the determination to open or close a meeting or a portion of a meeting to public observation may be changed following public announcement under §261b.6 only if a majority of the members of the agency determines by a recorded vote that agency business so requires and that no earlier announcement of the change was possible. Public announcement of such change and the vote of each member upon such change will be made pursuant to §261b.6(c). Changes in time, including postponements and cancellations of a publicly announced meeting or portion of a meeting or changes in the place of a publicly announced meeting will be publicly announced pursuant to §261b.6(c) by the Secretary of the Board or, in the Secretary’s absence, the Acting Secretary of the Board.

§261b.10 Certification of General Counsel.

Before every meeting or portion of a meeting closed to public observation under §261b.7 or 261b.8 of this part, the General Counsel, or in the General Counsel’s absence, the Acting General Counsel, shall publicly certify whether or not in his or her opinion the meeting may be closed to public observation and shall state each relevant exemptive provision. A copy of such certification, together with a statement from the presiding officer of the meeting setting forth the time and place of the meeting and the persons present, will be retained for the time prescribed in §261b.11(d).

§261b.11 Transcripts, recordings, and minutes.

(a) The agency will maintain a complete transcript or electronic recording or transcription thereof adequate to record fully the proceedings of each meeting or portion of a meeting closed to public observation pursuant to exemption (a)(1), (a)(2), (a)(3), (a)(4), (a)(5), (a)(6), (a)(7) or (a)(9)(ii) of §261b.5
of this part. Transcriptions of recordings will disclose the identity of each speaker.

(b) The agency will maintain either such a transcript, recording or transcription thereof, or a set of minutes that will fully and clearly describe all matters discussed and provide a full and accurate summary of any actions taken and the reasons therefor, including a description of each of the views expressed on any item and the record of any roll call vote (reflecting the vote of each member on the question), for meetings or portions of meetings closed to public observation pursuant to exemptions (a)(8), (a)(9)(A) or (a)(10) of §261b.5 of this part. The minutes will identify all documents considered in connection with any action taken.

(c) Transcripts, recordings or transcriptions thereof, or minutes will promptly be made available to the public in the Freedom of Information Office except for such item or items of such discussion or testimony as may be determined to contain information that may be withheld under subsection (c) of the Act and §261b.5 of this part. The minutes will identify all documents considered in connection with any action taken.

(d) A complete verbatim copy of the transcript, a complete copy of the minutes, or a complete electronic recording or verbatim copy of a transcription thereof of each meeting or portion of a meeting closed to public observation will be maintained for a period of at least two years or one year after the conclusion of any agency proceeding with respect to which the meeting or portion thereof was held, whichever occurs later.

§ 261b.12 Procedures for inspection and obtaining copies of transcriptions and minutes.

(a) Any person may inspect or copy a transcript, a recording or transcription of a recording, or minutes described in §261b.11(c) of this part.

(b) Requests for copies of transcripts, recordings or transcriptions of recordings, or minutes described in §261b.11(c) of this part shall specify the meeting or the portion of meeting desired and shall be submitted in writing to the Secretary of the Board, Board of Governors of the Federal Reserve System, Washington, DC 20551. Copies of documents identified in minutes may be made available to the public upon request under the provisions of 12 CFR part 261 (Rules Regarding Availability of Information).

§ 261b.13 Fees.

(a) Copies of transcripts, recordings or transcriptions of recordings, or minutes requested pursuant to section §261b.12(b) of this part will be provided at the cost of 10¢ per standard page for photocopying or at a cost not to exceed the actual cost of printing, typing, or otherwise preparing such copies.

(b) Documents may be furnished without charge where total charges are less than $2.

PART 262—RULES OF PROCEDURE

Sec.

262.1 Basis and scope.

262.2 Procedure for regulations.

262.3 Applications.

262.4 Adjudication with formal hearing.

262.5 Appearance and practice.

262.6 Forms.

262.7–262.24 [Reserved]

262.25 Policy statement regarding notice of applications; timeliness of comments; informal meetings.

Authority: 5 U.S.C. 552, 12 U.S.C. 321, 1828(c), and 1842.

Source: 38 FR 6807, Mar. 13, 1973, unless otherwise noted.

§ 262.1 Basis and scope.

This part is issued pursuant to section 552 of title 5 of the United States Code, which requires that every agency shall publish in the FEDERAL REGISTER statements of the general course and method by which its functions are channeled and determined, rules of procedure, and descriptions of forms available or the places at which forms may be obtained.

§ 262.2 Procedure for regulations.

(a) Notice. Notices of proposed regulations of the Board of Governors of the Federal Reserve System (the “Board”) or amendments thereto are published in the FEDERAL REGISTER, except as specified in paragraph (e) of this section or otherwise excepted by law. Such notices include a statement of the terms of the proposed regulations or amendments and a description of the
§262.3 Applications.

(a) Forms. Any application, request, or petition (hereafter referred to as "application") for the approval, authority, determination, or permission of the Board with respect to any action for which such approval, authority, determination, or permission is required by law or regulation of the Board (including actions authorized to be taken by a Federal Reserve Bank or others on behalf of the Board pursuant to authority delegated under Part 265 of this chapter) shall be submitted in accordance with the pertinent form, if any, prescribed by the Board. Copies of any such form and details regarding information to be included therein may be obtained from any Federal Reserve Bank. Any application for which no form is prescribed should be signed by the person making the application or by his duly authorized agent, should state the facts involved, the action requested, and the applicant’s interest in the matter, and should indicate the subjects and issues involved; but the giving of such notices does not necessarily indicate the Board’s final approval of any feature of any such proposal. The notices also include a reference to the authority for the proposed regulations or amendments and a statement of the time, place, and nature of public participation.

(b) Public participation. The usual method of public submission of data, views, or arguments is in writing. It is ordinarily preferable that they be sent to the Secretary of the Board, Washington, DC 20551, with copies to the appropriate Federal Reserve Bank. The locations of the 12 Federal Reserve Banks and the boundaries of the Federal Reserve districts are shown in the appendix to the Board’s rules of organization. Such material will be made available for inspection and copying upon request, except as provided in §261.6(b) of this chapter regarding availability of information.

(c) Preparation of draft and action by Board. In the light of consideration of all relevant matter presented or ascertained, the appropriate division of the Board’s staff, in collaboration with other divisions, prepares drafts of proposed regulations or amendments, and the staff submits them to the Board. The Board takes such action as it deems appropriate in the public interest. Any other documents that may be necessary to carry out any decision by the Board in the matter are usually prepared by the Legal Division, in collaboration with the other divisions of the staff.

(d) Effective dates. Any substantive regulation or amendment thereto issued by the Board is published not less than 30 days prior to the effective date thereof, except as specified in paragraph (e) of this section or as otherwise excepted by law.

(e) Exceptions as to notice or effective date. In certain situations, notice and public participation with respect to proposed regulations may be impracticable, unnecessary, contrary to the public interest, or otherwise not required in the public interest, or there may be reason and good cause in the public interest why the effective date should not be deferred for 30 days. The reason or reasons in such cases usually are that such notice, public participation, or deferment of effective date would prevent the action from becoming effective as promptly as necessary in the public interest, would permit speculators or others to reap unfair profits or to interfere with the Board’s actions taken with a view to accommodating commerce and business and with regard to their bearing upon the general credit situation of the country, would provoke other consequences contrary to the public interest, would unreasonably interfere with the Board’s necessary functions with respect to management or personnel, would not aid the persons affected, or would otherwise serve no useful purpose. The following may be mentioned as some examples of situations in which advance notice or deferred effective date, or both, will ordinarily be omitted in the public interest: The review and determination of discount rates established by Federal Reserve Banks, and changes in general requirements regarding reserves of member banks, maximum interest rates on time and savings deposits, or credit for purchasing or carrying securities.

reasons why the application should be granted. Applications for access to, or copying of, records of the Board should be submitted as provided in §261.9(a) of this chapter.

(b) Notice of applications. (1)(i) In the case of applications,
(A) By a State member bank for the establishment of a domestic branch or other facility that would be authorized to receive deposits,
(B) To become a bank holding company (except as provided in 12 CFR 225.15), and
(C) By a bank holding company to acquire ownership or control of shares or assets of a bank, or to merge or consolidate with any other bank holding company,
the applicant shall cause to be published a notice in the form prescribed by the Board.

(ii) The notice shall be placed in the classified advertising legal notices section of the newspaper, and must provide an opportunity for the public to give written comment on the application to the appropriate Federal Reserve Bank for the period specified in Regulation H (12 CFR part 208) in the case of applications specified in §262.3(b)(1)(i)(A), and for at least thirty days after the date of publication in the case of applications specified in §262.3(b)(1)(i)(B) and (C). Within 7 days of publication, the applicant shall submit its application to the appropriate Reserve Bank for acceptance along with a copy of the notice. If the Reserve Bank has not accepted the application as complete within ninety days of the date of publication of the notice, the applicant may be required to republish notice of the application. Such notice shall be published in a newspaper of general circulation in—
(A) [Reserved]

(B) The community or communities in which the head office of the bank and the proposed branch or other facility (other than an electronic funds transfer facility) are located in the case of an application for the establishment of a domestic branch or other facility that would be authorized to receive deposits, other than an application incidental to an application by a bank for merger, consolidation, or acquisition of assets or assumption of liabilities.
(C) The community or communities in which the head office of the bank, the office to be closed, and the office to be opened are located in the case of an application for the relocation of a domestic branch office.
(D) The community or communities in which the head office of each of the banks to be party to the merger, consolidation, or acquisition of assets or assumption of liabilities are located in the case of an application by a bank for merger, consolidation, or acquisition of assets or assumption of liabilities, or
(E) The community or communities in which the head offices of the largest subsidiary bank, if any, or an applicant and of each bank, shares of which are to be directly or indirectly acquired, are located in the case of applications under section 3 of the Bank Holding Company Act.

(2) In addition to the foregoing notice, an applicant, in the case of an application to relocate a domestic branch office or other facility that would be authorized to receive deposits, shall post in a conspicuous public place in the lobby of the office to be closed a notice containing the information specified in §262.3(b)(1). Such notice should be posted on the date of the notice required by §262.3(b)(1).

(3) In the case of an application for a merger, consolidation, or acquisition of assets or assumption of liabilities, if the acquiring, assuming, or resulting bank is to be a State member bank, the applicant shall cause to be published notice in the form prescribed by the Board. The notice shall be published in a newspaper of general circulation in the community or communities in which the head office of each of the banks to be a party to the merger, consolidation, or acquisition of assets or assumption of liabilities is located. The notice shall be published on at least three occasions at appropriate intervals. The last publication of the notice shall appear at least thirty days after the first publication. The notice must provide an opportunity for the public to give written comment on the application to the appropriate Federal Reserve Bank for at least thirty days after the date of the first publication of
§ 262.3 12 CFR Ch. II (1–1–09 Edition)

the notice. Within seven days of publication of notice for the first time, the applicant shall submit its application to the appropriate Reserve Bank for acceptance, along with a copy of the notice. If the Reserve Bank has not accepted the application as complete within ninety days of the date of the first publication of the notice, the applicant may be required to republish notice of the application.

(c) Filing of applications. Any application should be sent to the Federal Reserve Bank of the district in which the head office of the parent banking organization is located, except as otherwise specified on application forms, and that Bank will forward it to the Board when appropriate; however, in the case of foreign banking organization, as defined in § 211.23(a)(2) of this chapter, applications shall be sent to the Federal Reserve Bank of the district in which the operations of the organization’s subsidiary banks are principally conducted. In the case of a foreign banking organization that is not a bank holding company but that has one or more branches, agencies, or commercial lending companies in any State of the United States or the District of Columbia, applications shall be sent to the Federal Reserve Bank of the district in which the organization’s banking assets are the largest. Applications of a member bank subsidiary, however, should be filed with the Reserve Bank of the district in which the member bank is located.

(d) Analysis by staff. In every case, the Reserve Bank makes such investigation as may be necessary, and, except when acting pursuant to delegated authority, reports the relevant facts, with its recommendation, to the Board. In the light of consideration of all relevant matter presented or ascertained, the Board’s staff prepares and submits to the Board comments on the subject.

(e) Submission of comments and requests for hearing. The Board is only required to consider a comment or a request for a hearing with respect to an application or notice if it is in writing and received by the Secretary of the Board or the appropriate Federal Reserve Bank on or before the latest date prescribed in any notice with respect to the application or notice, or where no such date is prescribed, on or before the 30th day after the date notice is first published. Similarly, the Board will consider comments on an application from the Attorney General or a banking supervisory authority to which notification of receipt of an application has been given, only if such comment is received by the Secretary of the Board within 30 days of the date of the letter giving such notification. Any comment on an application or notice that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing. In every case where a timely comment or request for hearing is received as provided herein, a copy of such comment or request shall be forwarded promptly to the applicant for its response. The Board will consider the applicant’s response only if it is in writing and sent to the Secretary of the Board on or before eight business days after the date of the letter by which it is forwarded to the applicant. At the same time it transmits its response to the Board, the applicant should transmit a copy of its response to the person or supervisory authority making such comment or requesting a hearing. Notwithstanding the foregoing, the Board may, in its sole discretion and without notifying the parties, take into consideration the substance of comments with respect to an application, (but not requests for hearing) that are not received within the time periods provided herein.

(f) Action on applications. The Board takes such action as it deems appropriate in the public interest. Such documents as may be necessary to carry out any decision by the Board are prepared by the Board’s staff. With respect to actions taken by a Federal Reserve Bank on behalf of the Board under delegated authority, statements and necessary documents are prepared by the staff of such Federal Reserve Bank.

(g) Notice of action. Prompt notice is given to the applicant of the granting or denial in whole or in part of any application. In the case of a denial, except in affirming a prior denial or
where the denial is self-explanatory, such notice is accompanied by a simple statement of the grounds for such action.

(h) Action at Board's initiative. When the Board, without receiving an application, takes action with respect to any matter as to which opportunity for hearing is not required by statute or Board regulation, similar procedure is followed, including investigations, reports, and recommendations by the Board's staff and by the Reserve Banks, where appropriate.

(i) General procedures for bank holding company and merger applications. In addition to procedures applicable under other provisions of this part, the following procedures are applicable in connection with the Board's consideration of applications under sections 3 and 4 of the Bank Holding Company Act of 1956 (12 U.S.C. 1842 and 1843), hereafter referred to as "section 3 applications" or "section 4 applications," and of applications under section 18(c) of the Federal Deposit Insurance Act (12 U.S.C. 1823), hereafter called "merger applications." Except as otherwise indicated, the following procedures apply to all such applications.

(1) The Board issues each week a list that identifies section 3 and section 4 and merger applications received and acted upon during the preceding week by the Board or the Reserve Banks pursuant to delegated authority. Notice of receipt of all section 3 applications and of section 4(c)(8) applications acted on by the Board is published in the FEDERAL REGISTER.

(2) If a hearing is required by law or if the Board determines that a formal hearing for the purpose of taking evidence is desirable, the Board issues an order for such a hearing, and a notice thereof is published in the FEDERAL REGISTER. Any such formal hearing is conducted by an administrative law judge in accordance with subparts A and B of the Board's Rules of Practice for Hearings (part 263 of this chapter).

(3) In any case in which a formal hearing is not ordered by the Board, the Board may afford the applicant and other properly interested persons (including Governmental agencies) an opportunity to present views orally before the Board or its designated representative. Unless otherwise ordered by the Board, any such oral presentation is public and notice of such public proceeding is published in the FEDERAL REGISTER.

(4) Each action taken by the Board on an application is embodied in an order that indicates the votes of members of the Board. The order either contains reasons for the Board's action (i.e., an expanded order) or is accompanied by a statement of the reasons for the Board's action. Both the order and any accompanying statement are released to the press. Each order accompanied by a statement and any order of general interest, together with a list of other orders, are published in the Federal Reserve Bulletin. Action by a Reserve Bank under delegated authority as provided for under part 265 of this chapter is reflected in a letter of notification to the applicant.

(5) Unless the Board shall otherwise direct, each section 3 and section 4 and merger application is made available for inspection by the public except for portions thereof as to which the Board determines that nondisclosure is warranted under section 552(b) of title 5 of the United States Code.

(j) Special procedures for certain applications. The following types of applications require procedures exclusive of, or in addition to, those described in paragraphs (i)(1) through (5) of this section.

(1) Special rules pertaining to section 3 and merger applications follow:

(i) Each order of the Board and each letter of notification by a Reserve Bank acting pursuant to delegated authority approving a section 3 application includes, pursuant to the Act approved July 1, 1966 (12 U.S.C. 1849(b)), a requirement that the transaction approved shall not be consummated before the 30th calendar day following the date of such order.

(ii) Each order of the Board approving a merger application includes, pursuant to the Act approved February 21, 1966 (12 U.S.C. 1828(c)(6)), a requirement that the transaction approved shall not be consummated before the 30th calendar day following the date of such order, except as the Board may otherwise determine pursuant to emergency
situations as to which the Act permits consummation at earlier dates.

(iii) Each order or each letter of notification approving an application also includes, as a condition of approval, a requirement that the transaction approved shall be consummated within 3 months and, in the case of acquisition by a holding company of stock of a newly organized bank, a requirement that such bank shall be opened for business within 6 months, but such periods may be extended for good cause by the Board (or by the appropriate Federal Reserve Bank where authority to grant such extensions is delegated to the Reserve Bank).

(2) For special rules governing procedures for section 4 applications, refer to §225.23 of this chapter.

(3)–(4) [Reserved]

(5) For special rules governing procedures for section 4(c)(13) applications, refer to §225.4(f) of this chapter.

(k) Reconsideration of certain Board actions. The Board may reconsider any action taken by it on an application upon receipt by the Secretary of the Board of a written request for reconsideration from any party to such application, on or before the 15th day after the effective date of the Board’s action. Such request should specify the reasons why the Board should reconsider its action, and present relevant facts that for good cause shown, were not previously presented to the Board. Within 10 days of receipt of such a request, the General Counsel, acting pursuant to delegated authority (12 CFR 265.2(b)(7)), shall determine whether or not the request for reconsideration should be granted, and shall notify all parties to the application orally by telephone of this determination within 10 days. Such notification will be confirmed promptly in writing. In the exercise of this authority, the General Counsel shall confer with the Directors of other interested Divisions of the Board or their designees. Notwithstanding the foregoing, the Board may, on its own motion if it deems reconsideration appropriate, elect to reconsider its action with respect to any application, and the parties to such application shall be notified by the Secretary of the Board of its election as provided above. If it is determined that the Board should reconsider its action with respect to an application, such action will be stayed and will not be final until the Board has acted on the application upon reconsideration. If appropriate, notice of reconsideration of an application will be published promptly in the Federal Register.

(1) Waiver. The Board, or the officer or Reserve Bank authorized to approve an application, may waive or modify any procedural requirements for that application prescribed or cited in this section and may excuse any failure to comply with them upon a finding that immediate action on the application is necessary to prevent the probable failure of a bank or company or that an emergency exists requiring expeditious action.

(12 U.S.C. 1842(a), 1843, and 1844(b), 12 U.S.C. 1828(c), 321 and 248(i))

[38 FR 6807, Mar. 13, 1973]

EDITORIAL NOTE: For Federal Register citations affecting §262.3, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and on GPO Access.

§ 262.4 Adjudication with formal hearing.

In connection with adjudication with respect to which a formal hearing is required by law or is ordered by the Board, the procedure is set forth in part 263 of this chapter, entitled “Rules of Practice for Formal Hearings.”

§ 262.5 Appearance and practice.

Appearance and practice before the Board in all matters are governed by §263.3 of this chapter.

§ 262.6 Forms.

Necessary forms to be used in connection with applications and other matters are available at the Federal Reserve Banks. A list of all such forms, which is reviewed and revised periodically, may be obtained from any Federal Reserve Bank.

(a) This action is taken pursuant to and in accordance with the provisions of section 552 of title 5 of the United States Code.

(b) The provisions of section 553 of title 5, United States Code, relating to notice and public participation and to
Federal Reserve System § 262.25

deferred effective dates, are not followed in connection with the adoption of this action, because the rules involved are procedural in nature and accordingly do not constitute substantive rules subject to the requirements of such section.

§§ 262.7–262.24 [Reserved]

§ 262.25 Policy statement regarding notice of applications; timeliness of comments; informal meetings.

(a) Notice of applications. A bank or company applying to the Board for a deposit-taking facility must first publish notice of its application in local newspapers. This requirement, found in §262.3(b)(1) of the Board’s Rules of Procedure covers applications under the Bank Holding Company Act and Bank Merger Act, as well as applications for membership in the Federal Reserve System and for new branches of State member banks. Notices of these applications are published in newspapers of general circulation in the communities where the applicant intends to do business as well as in the community where the applicant’s head office is located. These notices are important in calling the public’s attention to an applicant’s plans and giving the public a chance to comment on these plans. To improve the effectiveness of the notices, the Board has supplemented its notice procedures as follows.

(1) The Board has adopted standard forms of notice for use by applicants that will specify the exact date on which the comment period on the application ends, which may not be less than thirty calendar days from the date of publication of the notice. The newspaper forms also provide the name and telephone number of the Community Affairs Officer of the appropriate Reserve Bank as the person to call to obtain more information about submitting comments on an application. In general, the Community Affairs Officer will be available to answer questions of a general nature concerning the submission of comments and the processing of applications.

(2) The Board also publishes notice of bank holding company applications for bank acquisitions (but not for bank mergers or branches) in the FEDERAL REGISTER after the application is received and the Community Affairs Officer can provide the exact date on which this comment period ends. (The FEDERAL REGISTER comment period will generally end after the date specified in the newspaper notice.)

(3) In addition to the formal newspaper and FEDERAL REGISTER notices discussed above, each Reserve Bank publishes a weekly list of applications submitted to the Reserve Bank for which newspaper notices have been published. Any person or organization may arrange to have the list mailed to them regularly, or may request particular lists, by contacting the Reserve Bank’s Community Affairs Officer. Each Reserve Bank’s list includes only applications submitted to that particular Reserve Bank, and persons or groups should request lists from each Reserve Bank having jurisdiction over applications in which they may be interested. Since the lists are prepared as a courtesy by the Reserve Bank, and are not intended to replace any formal notice required by statute or regulation, the Reserve Banks and the Board do not assume responsibility for errors or omissions. In addition, the weekly lists prepared by Reserve Banks include certain applications by bank holding companies for nonbank acquisitions filed with the Reserve Bank.

(b) Timeliness of comments. (1) All comments must be actually received by the Board or the Reserve Bank on or before the last date of the comment period specified in the notice. Where more than one notice is published with respect to an application, comments must be received on or before the last
date of the latest comment period. The Board’s Rules allow it to disregard comments received after the comment period expires. In particular, §262.3(e) of the Board’s Rules of Procedure states that the Board will not consider comments on an application that are not received on or before the expiration of the comment period. Thus, a commenter who fails to comment on an application within the specified comment period (or any extension) may be precluded from participating in the consideration of the application.

(2) In cases where a commenter for good cause is unable to send its comment within the specified comment period, §265.2(a)(10) of the Board’s Rules Regarding Delegation of Authority (12 CFR 265.2(a)(10)) allows the Secretary of the Board to grant requests for an extension of the period. Under this provision, upon receipt of a request received on or before the expiration of the comment period, the Secretary may grant a brief extension upon clear demonstration of hardship or other meritorious reason for seeking additional time.

(c) Private meetings. When a timely protest to approval of an application is received, the Reserve Bank may arrange a meeting between the applicant and the protestant to clarify and narrow the issues, and to provide a forum for the resolution of differences between the protestant and the applicant. If the Reserve Bank decides that a private meeting would be appropriate, the Reserve Bank will arrange a private meeting soon after the receipt of a protest and the applicant’s response, if any, to the protest. In scheduling the meeting, the Reserve Bank will consider convenience to the parties with respect to the time and place of the meeting. A decision to hold a private meeting will not preclude the Reserve Bank or the Board from holding a public meeting or other proceeding if it is deemed appropriate.

(d) Public meetings. The Board’s General Counsel (in consultation with the Reserve Bank and the directors of other interested divisions of the Board) may order that a public meeting or other proceeding be held if requested by the applicant or a protestant who files a timely protest, or if such a proceeding appears appropriate. In most instances, the determination to order a public meeting will be made after a private meeting has been held; however, where appropriate a public meeting may be convened immediately after receipt of the protest and the applicant’s response, if any. Additional information may be requested prior to making a determination to convene a public meeting. In these cases, a determination will be made within ten days from the date all relevant information is received. The public meeting will be scheduled as soon as possible, but in no event, later than 30 days after the decision to hold the proceeding is made. The purpose of the public meeting will be to elicit information, to clarify factual issues related to the application and to provide an opportunity for interested individuals to provide testimony. The Board has adopted the following guidelines to be used for convening public meetings, although specific provisions may be altered by the General Counsel if circumstances warrant.

(1) Requesting a public meeting. A meeting may be requested by a person or an organization objecting to the application during the comment period, and by the applicant during the period within which it must respond to comments. Such a request must be timely and in writing.

(ii) A protest does not have to be filed in a legal brief or other format in order for a public meeting to be granted. The Community Affairs Officer at the Reserve Bank will be available to assist any member of the public regarding the types of information generally included in protests; the format generally used by protestants; and any other specific questions about the procedures of the Federal Reserve System regarding protested applications.

(ii) In general, a protest should identify the protestant, state the basis for objection to approval of the application, and provide available written evidence to support the objection. Objections to approval of an application must relate to the factors that the Board is authorized to consider in acting on an application. Generally, these factors relate to the financial and managerial resources of the companies and
banks involved, the effects of the proposal on competition, and the convenience and needs of the communities to be served by the companies and banks involved. If a public meeting is requested, the protest should indicate that there are members of the public who wish to speak on the issues in a public forum.

(iii) The protest will be transmitted by the Reserve Bank to the applicant, and the applicant will generally be allowed eight business days to respond in writing to the protest.

(2) Arranging the public meeting. Public meetings will be arranged and presided over by a representative of the Federal Reserve System ("Presiding Officer"). In determining the time and place for the public meeting, such factors as convenience to the parties, the number of people expected to attend the meeting, access to public transportation and possible after-hour security problems will be taken into account.

(3) Conducting the public meeting. Prior to the meeting, all necessary steps will be taken to ensure that the meeting is conducted appropriately, including scheduling of witnesses, submission of written materials and other arrangements. In conducting the public meeting the Presiding Officer will have the authority and discretion to ensure that the meeting proceeds in a fair and orderly manner. Generally, the public meeting will consist of opening and closing remarks by the Presiding Officer, a presentation by the protestant and a presentation by the applicant. An official transcript will be made of the proceedings and entered into the record. The conclusion of the public meeting normally marks the close of the public portion of the record on the application.

(4) Notification of Board decision on the application. After a decision is made on the application, and the applicant is notified of the decision, staff will notify the protestant by telephone. This notification will be confirmed promptly in writing. As set forth in §262.3(k) of the Board’s Rules of Procedure (12 CFR 262.3(k)) or §265.3 of the Board’s Rules Regarding Delegation of Authority (12 CFR 265.3), a party to the application may request reconsideration of the Board’s order, or review of the Reserve Bank’s decision.

PART 263—RULES OF PRACTICE FOR HEARINGS

Subpart A—Uniform Rules of Practice and Procedure

Sec. 263.1 Scope.
263.2 Rules of construction.
263.3 Definitions.
263.4 Authority of the Board.
263.5 Authority of the administrative law judge.
263.6 Appearance and practice in adjudicatory proceedings.
263.7 Good faith certification.
263.8 Conflicts of interest.
263.9 Ex parte communications.
263.10 Filing of papers.
263.11 Service of papers.
263.12 Construction of time limits.
263.13 Change of time limits.
263.14 Witness fees and expenses.
263.15 Opportunity for informal settlement.
263.16 The Board’s right to conduct examination.
263.17 Collateral attacks on adjudicatory proceeding.
263.18 Commencement of proceeding and contents of notice.
263.19 Answer.
263.20 Amended pleadings.
263.21 Failure to appear.
263.22 Consolidation and severance of actions.
263.23 Motions.
263.24 Scope of document discovery.
263.25 Request for document discovery from parties.
263.26 Document subpoenas to nonparties.
263.27 Deposition of witness unavailable for hearing.
263.28 Interlocutory review.
263.29 Summary disposition.
263.30 Partial summary disposition.
263.31 Scheduling and prehearing conferences.
263.32 Prehearing submissions.
263.33 Public hearings.
263.34 Hearing subpoenas.
263.35 Conduct of hearings.
263.36 Evidence.
263.37 Post-hearing filings.
263.38 Recommended decision and filing of record.
263.39 Exceptions to recommended decision.
263.40 Review by the Board.
263.41 Stays pending judicial review.
Subpart B—Board Local Rules
Supplementing the Uniform Rules

263.50 Purpose and scope.
263.51 Definitions.
263.52 Address for filing.
263.53 Discovery depositions.
263.54 Delegation to the Office of Financial Institution Adjudication.
263.55 Board as Presiding Officer.
263.56 Initial Licensing Proceedings.

Subpart C—Rules and Procedures for Assessment and Collection of Civil Money Penalties

263.60 Scope.
263.61 Opportunity for informal proceeding.
263.62 Relevant considerations for assessment of civil penalty.
263.63 Assessment order.
263.64 Payment of civil penalty.
263.65 Civil penalty inflation adjustments.

Subpart D—Rules and Procedures Applicable to Suspension or Removal of an Institution-Affiliated Party Where a Felony is Charged or Proven

263.70 Purpose and scope.
263.71 Notice or order of suspension, removal, or prohibition.
263.72 Request for informal hearing.
263.73 Order for informal hearing.
263.74 Decision of the Board.

Subpart E—Procedures for Issuance and Enforcement of Directives To Maintain Adequate Capital

263.80 Purpose and scope.
263.81 Definitions.
263.82 Establishment of minimum capital levels.
263.83 Issuance of capital directives.
263.84 Enforcement of directive.
263.85 Establishment of increased capital level for specific institutions.

Subpart F—Practice Before the Board

263.90 Scope.
263.91 Censure, suspension or debarment.
263.92 Definitions.
263.93 Eligibility to practice.
263.94 Conduct warranting sanctions.
263.95 Initiation of disciplinary proceeding.
263.96 Conferences.
263.97 Proceedings under this subpart.
263.98 Effect of suspension, debarment or censure.
263.99 Petition for reinstatement.

Subpart G—Rules Regarding Claims Under the Equal Access to Justice Act

263.100 Authority and scope.

12 CFR Ch. II (1–1–09 Edition)

263.101 Standards for awards.
263.102 Prevailing party.
263.103 Eligibility of applicants.
263.104 Application for awards.
263.105 Statement of net worth.
263.106 Measure of awards.
263.107 Statement of fees and expenses.
263.108 Responses to application.
263.109 Further proceedings.
263.110 Recommended decision.
263.111 Action by the Board.

Subpart H—Issuance and Review of Orders Pursuant to Prompt Corrective Action Provisions of the Federal Deposit Insurance Act

263.201 Scope.
263.202 Directives to take prompt regulatory action.
263.203 Procedures for reclassifying a state member bank based on criteria other than capital.
263.204 Order to dismiss a director or senior executive officer.
263.205 Enforcement of directives.

Subpart I—Submission and Review of Safety and Soundness Compliance Plans and Issuance of Orders To Correct Safety and Soundness Deficiencies

263.300 Scope.
263.301 Purpose.
263.302 Determination and notification of failure to meet safety and soundness standard and request for compliance plan.
263.303 Filing of safety and soundness compliance plan.
263.304 Issuance of orders to correct deficiencies and to take or refrain from taking other actions.
263.305 Enforcement of orders.

Subpart J—Removal, Suspension, and Debarment of Accountants From Performing Audit Services

263.400 Scope.
263.401 Definitions.
263.402 Removal, suspension, or debarment.
263.403 Automatic removal, suspension, and debarment.
263.404 Notice of removal, suspension, or debarment.
263.405 Petition for reinstatement.

Source: 56 FR 38052, Aug. 9, 1991, unless otherwise noted.
Subpart A—Uniform Rules of Practice and Procedure

§ 263.1 Scope.

This subpart prescribes Uniform Rules of practice and procedure applicable to adjudicatory proceedings required to be conducted on the record after opportunity for hearing under the following statutory provisions:

(a) Cease-and-desist proceedings under section 8(b) of the Federal Deposit Insurance Act ("FDIA") (12 U.S.C. 1818(b));

(b) Removal and prohibition proceedings under section 8(e) of the FDIA (12 U.S.C. 1818(e));

(c) Change-in-control proceedings under section 7(l)(4) of the FDIA (12 U.S.C. 1817(j)(4)) to determine whether the Board of Governors of the Federal Reserve System ("Board") should issue an order to approve or disapprove a person's proposed acquisition of a state member bank or bank holding company;

(d) Proceedings under section 15C(c)(2) of the Securities Exchange Act of 1934 ("Exchange Act") (15 U.S.C. 78o-5), to impose sanctions upon any government securities broker or dealer or upon any person associated or seeking to become associated with a government securities broker or dealer for which the Board is the appropriate agency;

(e) Assessment of civil money penalties by the Board against institutions, institution-affiliated parties, and certain other persons for which the Board is the appropriate agency for any violation of:

(1) Any provision of the Bank Holding Company Act of 1956, as amended ("BHC Act"), or any order or regulation issued thereunder, pursuant to 12 U.S.C. 1847(b) and (d);

(2) Sections 19, 22, 23A and 23B of the Federal Reserve Act ("FRA"), or any regulation or order issued thereunder and certain unsafe or unsound practices or breaches of fiduciary duty, pursuant to 12 U.S.C. 504 and 505;

(3) Section 9 of the FRA pursuant to 12 U.S.C. 324;

(4) Section 106(b) of the Bank Holding Company Act Amendments of 1970 and certain unsafe or unsound practices or breaches of fiduciary duty, pursuant to 12 U.S.C. 1872(2)(F);

(5) Any provision of the Change in Bank Control Act of 1978, as amended, or any regulation or order issued thereunder and certain unsafe or unsound practices or breaches of fiduciary duty, pursuant to 12 U.S.C. 1817(j)(16);

(6) Any provision of the International Lending Supervision Act of 1983 ("ILSA") or any rule, regulation or order issued thereunder, pursuant to 12 U.S.C. 3909;

(7) Any provision of the International Banking Act of 1978 ("IBA") or any rule, regulation or order issued thereunder, pursuant to 12 U.S.C. 3108;

(9) Section 1120 of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (12 U.S.C. 3349), or any order or regulation issued thereunder;

(10) The terms of any final or temporary order issued under section 8 of the FDIA or of any written agreement executed by the Board, the terms of any condition imposed in writing by the Board in connection with the grant of an application or request, and certain unsafe or unsound practices or breaches of fiduciary duty or law or regulation pursuant to 12 U.S.C. 1818(i)(2);

(11) Any provision of law referenced in section 102(f) of the Flood Disaster Protection Act of 1973 (42 U.S.C. 4012a(f)) or any order or regulation issued thereunder; and

(12) Any provision of law referenced in 31 U.S.C. 5321 or any order or regulation issued thereunder:

(f) Remedial action under section 102(g) of the Flood Disaster Protection Act of 1973 (42 U.S.C. 4012a(g));

(g) Removal, prohibition, and civil monetary penalty proceedings under section 10(k) of the FDI Act (12 U.S.C. 1820(k)) for violations of the special post-employment restrictions imposed by that section; and

(h) This subpart also applies to all other adjudications required by statute to be determined on the record after
§ 263.2 Rules of construction.

For purposes of this subpart:
(a) Any term in the singular includes the plural, and the plural includes the singular, if such use would be appropriate;
(b) Any use of a masculine, feminine, or neuter gender encompasses all three, if such use would be appropriate;
(c) The term counsel includes a non-attorney representative; and
(d) Unless the context requires otherwise, a party’s counsel of record, if any, may, on behalf of that party, take any action required to be taken by the party.

§ 263.3 Definitions.

For purposes of this subpart, unless explicitly stated to the contrary:
(a) Administrative law judge means one who presides at an administrative hearing under authority set forth at 5 U.S.C. 556.
(b) Adjudicatory proceeding means a proceeding conducted pursuant to these rules and leading to the formulation of a final order other than a regulation.
(c) Decisional employee means any member of the Board’s or administrative law judge’s staff who has not engaged in an investigative or prosecutorial role in a proceeding and who may assist the Agency or the administrative law judge, respectively, in preparing orders, recommended decisions, decisions, and other documents under the Uniform Rules.
(d) Enforcement Counsel means any individual who files a notice of appearance as counsel on behalf of the Board in an adjudicatory proceeding.
(e) Final order means an order issued by the Board with or without the consent of the affected institution or the institution-affiliated party, that has become final, without regard to the pendency of any petition for reconsideration or review.
(f) Institution includes: (1) Any bank as that term is defined in section 3(a) of the FDIA (12 U.S.C. 1813(a)); (2) Any bank holding company or any subsidiary (other than a bank) of a bank holding company as those terms are defined in the BHC Act (12 U.S.C. 1841 et seq.);
(g) Institution-affiliated party means any institution-affiliated party as that term is defined in section 3(u) of the FDIA (12 U.S.C. 1813(u)).
(h) Local Rules means those rules promulgated by the Board in this part other than subpart A.
(i) OFIA means the Office of Financial Institution Adjudication, the executive body charged with overseeing the administration of administrative enforcement proceedings for the Board, the Office of Comptroller of the Currency (the OCC), the Federal Deposit Insurance Corporation (the FDIC), the Office of Thrift Supervision (the OTS), and the National Credit Union Administration (the NCUA).
(j) Party means the Board and any person named as a party in any notice.
(k) Person means an individual, sole proprietor, partnership, corporation, unincorporated association, trust, joint venture, pool, syndicate, agency or other entity or organization, including an institution as defined in paragraph (f) of this section.
(l) Respondent means any party other than the Board.
(m) Uniform Rules means those rules in subpart A of this part that are common to the Board, the OCC, the FDIC, the OTS and the NCUA.
(n) Violation includes any action (alone or with another or others) for or toward causing, bringing about, participating in, counseling, or aiding or abetting a violation.
§ 263.4 Authority of the Board.

The Board may, at any time during the pendency of a proceeding, perform, direct the performance of, or waive performance of, any act which could be done or ordered by the administrative law judge.

§ 263.5 Authority of the administrative law judge.

(a) General rule. All proceedings governed by this part shall be conducted in accordance with the provisions of chapter 5 of title 5 of the United States Code. The administrative law judge shall have all powers necessary to conduct a proceeding in a fair and impartial manner and to avoid unnecessary delay.

(b) Powers. The administrative law judge shall have all powers necessary to conduct the proceeding in accordance with paragraph (a) of this section, including the following powers:

1. To administer oaths and affirmations;
2. To issue subpoenas, subpoenas duces tecum, and protective orders, as authorized by this part, and to quash or modify any such subpoenas and orders;
3. To receive relevant evidence and to rule upon the admission of evidence and offers of proof;
4. To take or cause depositions to be taken as authorized by this subpart;
5. To regulate the course of the hearing and the conduct of the parties and their counsel;
6. To hold scheduling and/or prehearing conferences as set forth in §263.31;
7. To consider and rule upon all procedural and other motions appropriate in an adjudicatory proceeding, provided that only the Board shall have the power to grant any motion to dismiss the proceeding or to decide any other motion that results in a final determination of the merits of the proceeding;
8. To prepare and present to the Board a recommended decision as provided herein;
9. To recuse himself or herself by motion made by a party or on his or her own motion;
10. To establish time, place and manner limitations on the attendance of the public and the media for any public hearing; and
11. To do all other things necessary and appropriate to discharge the duties of a presiding officer.

§ 263.6 Appearance and practice in adjudicatory proceedings.

(a) Appearance before the Board or an administrative law judge—(1) By attorneys. Any member in good standing of the bar of the highest court of any state, commonwealth, possession, territory of the United States, or the District of Columbia may represent others before the Board if such attorney is not currently suspended or debarred from practice before the Board.

(2) By non-attorneys. An individual may appear on his or her own behalf; a member of a partnership may represent the partnership; a duly authorized officer, director, or employee of any government unit, agency, institution, corporation or authority may represent that unit, agency, institution, corporation or authority if such officer, director, or employee is not currently suspended or debarred from practice before the Board.

(b) Sanctions. Dilatory, obstructionist, contemptuous and contumacious conduct at any phase of
§ 263.7 Good faith certification.

(a) General requirement. Every filing or submission of record following the issuance of a notice shall be signed by at least one counsel of record in his or her individual name and shall state that counsel's address and telephone number. A party who acts as his or her own counsel shall sign his or her individual name and state his or her address and telephone number on every filing or submission of record.

(b) Effect of signature. (1) The signature of counsel or a party shall constitute a certification that: the counsel or party has read the filing or submission of record; to the best of his or her knowledge, information, and belief formed after reasonable inquiry, the filing or submission of record is well-grounded in fact and is warranted by existing law or a good faith argument for the extension, modification, or reversal of existing law; and the filing or submission of record is not made for any improper purpose, such as to harass or to cause unnecessary delay or needless increase in the cost of litigation.

(2) If a filing or submission of record is not signed, the administrative law judge shall strike the filing or submission of record, unless it is signed promptly after the omission is called to the attention of the pleader or movant.

(c) Effect of making oral motion or argument. The act of making any oral motion or oral argument by any counsel or party constitutes a certification that to the best of his or her knowledge, information, and belief formed after reasonable inquiry, his or her statement is well-grounded in fact and is warranted by existing law or a good faith argument for the extension, modification, or reversal of existing law, and is not made for any improper purpose, such as to harass or to cause unnecessary delay or needless increase in the cost of litigation.

§ 263.8 Conflicts of interest.

(a) Conflict of interest in representation. No person shall appear as counsel for another person in an adjudicatory proceeding if it reasonably appears that such representation may be materially limited by that counsel's responsibilities to a third person or by the counsel's own interests. The administrative law judge may take corrective measures at any stage of a proceeding to cure a conflict of interest in representation, including the issuance of an order limiting the scope of representation or disqualifying an individual from appearing in a representative capacity for the duration of the proceeding.

(b) Certification and waiver. If any person appearing as counsel represents two or more parties to an adjudicatory proceeding or also represents a non-party on a matter relevant to an issue in the proceeding, counsel must certify in writing at the time of filing the notice of appearance required by § 263.6(a):

(1) That the counsel has personally and fully discussed the possibility of conflicts of interest with each such party and non-party; and

(2) That each such party and non-party waives any right it might otherwise have had to assert any known conflicts of interest or to assert any non-material conflicts of interest during the course of the proceeding.

§ 263.9 Ex parte communications.

(a) Definition—(1) Ex parte communication means any material oral or written communication relevant to the merits of an adjudicatory proceeding that was neither on the record nor on reasonable prior notice to all parties that takes place between:

(i) An interested person outside the Board (including such person's counsel); and

(ii) The administrative law judge handling that proceeding, a member of the Board, or a decisional employee.

(2) Exception. A request for status of the proceeding does not constitute an ex parte communication.

(b) Prohibition of ex parte communications. From the time the notice is
§ 263.10 Filing of papers.

(a) Filing. Any papers required to be filed, excluding documents produced in response to a discovery request pursuant to §§263.25 and 263.26, shall be filed with OFIA, except as otherwise provided.

(b) Manner of filing. Unless otherwise specified by the Board or the administrative law judge, filing may be accomplished by:

(1) Personal service;
(2) Delivering the papers to a reliable commercial courier service, overnight delivery service, or to the U.S. Post Office for Express Mail delivery;
(3) Mailing the papers by first class, registered, or certified mail; or
(4) Transmission by electronic media, only if expressly authorized, and upon any conditions specified, by the Board or the administrative law judge. All papers filed by electronic media shall also concurrently be filed in accordance with paragraph (c) of this section.

(c) Formal requirements as to papers filed—(1) Form. All papers filed must set forth the name, address, and telephone number of the counsel or party making the filing and must be accompanied by a certification setting forth when and how service has been made on all other parties. All papers filed must be double-spaced and printed or typewritten on 8 1/2 × 11 inch paper, and must be clear and legible.

(2) Signature. All papers must be dated and signed as provided in §263.7.

(3) Caption. All papers filed must include at the head thereof, or on a title page, the name of the Board and of the filing party, the title and docket number of the proceeding, and the subject of the particular paper.

(4) Number of copies. Unless otherwise specified by the Board, or the administrative law judge, an original and one copy of all documents and papers shall be filed, except that only one copy of transcripts of testimony and exhibits shall be filed.
§ 263.11 Service of papers.

(a) By the parties. Except as otherwise provided, a party filing papers shall serve a copy upon the counsel of record for all other parties to the proceeding so represented, and upon any party not so represented.

(b) Method of service. Except as provided in paragraphs (c)(2) and (d) of this section, a serving party shall use one or more of the following methods of service:

(1) Personal service;
(2) Delivering the papers to a reliable commercial courier service, overnight delivery service, or to the U.S. Post Office for Express Mail delivery;
(3) Mailing the papers by first class, registered, or certified mail; or
(4) Transmission by electronic media, only if the parties mutually agree. Any papers served by electronic media shall also concurrently be served in accordance with the requirements of §263.10(c).

(c) By the Board or the administrative law judge. (1) All papers required to be served by the Board or the administrative law judge upon a party who has appeared in the proceeding in accordance with §263.6, shall be served by any means specified in paragraph (b) of this section.

(2) If a party has not appeared in the proceeding in accordance with §263.6, the Board or the administrative law judge shall make service by any of the following methods:

(i) By personal service;
(ii) If the person to be served is an individual, by delivery to a person of suitable age and discretion at the physical location where the individual resides or works;
(iii) If the person to be served is a corporation or other association, by delivery to an officer, managing or general agent, or to any other agent authorized by appointment or by law to receive service and, if the agent is one authorized by statute to receive service and the statute so requires, by also mailing a copy to the party;
(iv) By registered or certified mail addressed to the person’s last known address; or
(v) By any other method reasonably calculated to give actual notice.

(d) Subpoenas. Service of a subpoena may be made:

(1) By personal service;
(2) If the person to be served is an individual, by delivery to a person of suitable age and discretion at the physical location where the individual resides or works;
(3) By delivery to an agent, which, in the case of a corporation or other association, is delivery to an officer, managing or general agent, or to any other agent authorized by appointment or by law to receive service and, if the agent is one authorized by statute to receive service and the statute so requires, by also mailing a copy to the party;
(4) By registered or certified mail addressed to the person’s last known address; or
(5) By any other method as is reasonably calculated to give actual notice.

(e) Area of service. Service in any state, territory, possession of the United States, or the District of Columbia, on any person or company doing business in any state, territory, possession of the United States, or the District of Columbia, or on any person as otherwise provided by law, is effective without regard to the place where the hearing is held, provided that if service is made on a foreign bank in connection with an action or proceeding involving one or more of its branches or agencies located in any state, territory, possession of the United States, or the District of Columbia, service shall be made on at least one branch or agency so involved.

§ 263.12 Construction of time limits.

(a) General rule. In computing any period of time prescribed by this subpart, the date of the act or event that commences the designated period of time is not included. The last day so computed is included unless it is a Saturday, Sunday, or Federal holiday. When the last day is a Saturday, Sunday, or Federal holiday, the period runs until the end of the next day that is not a Saturday, Sunday, or Federal holiday. Intermediate Saturdays, Sundays, and Federal holidays are included in the computation of time. However, when the time period within which an act is to
be performed is ten days or less, not including any additional time allowed for in paragraph (c) of this section, intermediate Saturdays, Sundays, and Federal holidays are not included.  

(b) When papers are deemed to be filed or served. (1) Filing and service are deemed to be effective:  

(i) In the case of personal service or same-day commercial courier delivery, upon actual service;  

(ii) In the case of overnight commercial delivery service, U.S. Express Mail delivery, or first class, registered, or certified mail, upon deposit in or delivery to an appropriate point of collection;  

(iii) In the case of transmission by electronic media, as specified by the authority receiving the filing, in the case of filing, and as agreed among the parties, in the case of service.  

(2) The effective filing and service dates specified in paragraph (b)(1) of this section may be modified by the Board or administrative law judge in the case of filing or by agreement of the parties in the case of service.  

(c) Calculation of time for service and filing of responsive papers. Whenever a time limit is measured by a prescribed period from the service of any notice or paper, the applicable time limits are calculated as follows:  

(1) If service is made by first class, registered, or certified mail, add three calendar days to the prescribed period;  

(2) If service is made by express mail or overnight delivery service, add one calendar day to the prescribed period; or  

(3) If service is made by electronic media transmission, add one calendar day to the prescribed period, unless otherwise determined by the Board or the administrative law judge in the case of filing, or by agreement among the parties in the case of service.  

§ 263.16 The Board’s right to conduct examination.  

Nothing contained in this subpart limits in any manner the right of the Board or any Federal Reserve Bank to conduct any examination, inspection, or visitation of any institution or institution-affiliated party, or the right of the Board or any Federal Reserve Bank to conduct or continue any form of investigation authorized by law.  

[56 FR 38052, Aug. 9, 1991; 56 FR 60056, Nov. 27, 1991]
§ 263.17 Collateral attacks on adjudicatory proceeding.

If an interlocutory appeal or collateral attack is brought in any court concerning all or any part of an adjudicatory proceeding, the challenged adjudicatory proceeding shall continue without regard to the pendency of that court proceeding. No default or other failure to act as directed in the adjudicatory proceeding within the times prescribed in this subpart shall be excused based on the pendency before any court of any interlocutory appeal or collateral attack.

§ 263.18 Commencement of proceeding and contents of notice.

(a) Commencement of proceeding. (1)(i) Except for change-in-control proceedings under section 7(j)(4) of the FDIA (12 U.S.C. 1817(j)(4)), a proceeding governed by this subpart is commenced by issuance of a notice by the Board.

(ii) The notice must be served by the Board upon the respondent and given to any other appropriate financial institution supervisory authority where required by law.

(iii) The notice must be filed with OFIA.

(2) Change-in-control proceedings under section 7(j)(4) of the FDIA (12 U.S.C. 1817(j)(4)) commence with the issuance of an order by the Board.

(b) Contents of notice. The notice must set forth:

(1) The legal authority for the proceeding and for the Board’s jurisdiction over the proceeding;

(2) A statement of the matters of fact or law showing that the Board is entitled to relief;

(3) A proposed order or prayer for an order granting the requested relief;

(4) The time, place, and nature of the hearing as required by law or regulation;

(5) The time within which to file an answer as required by law or regulation;

(6) The time within which to request a hearing as required by law or regulation; and

(7) That the answer and/or request for a hearing shall be filed with OFIA.

§ 263.19 Answer.

(a) When. Within 20 days of service of the notice, respondent shall file an answer as designated in the notice. In a civil money penalty proceeding, respondent shall also file a request for a hearing within 20 days of service of the notice.

(b) Content of answer. An answer must specifically respond to each paragraph or allegation of fact contained in the notice and must admit, deny, or state that the party lacks sufficient information to admit or deny each allegation of fact. A statement of lack of information has the effect of a denial. Denials must fairly meet the substance of each allegation of fact denied; general denials are not permitted. When a respondent denies part of an allegation, that part must be denied and the remainder specifically admitted. Any allegation of fact in the notice which is not denied in the answer must be deemed admitted for purposes of the proceeding. A respondent is not required to respond to the portion of a notice that constitutes the prayer for relief or proposed order. The answer must set forth affirmative defenses, if any, asserted by the respondent.

(c) Default.—(1) Effect of failure to answer. Failure of a respondent to file an answer required by this section within the time provided constitutes a waiver of his or her right to appear and contest the allegations in the notice. If no timely answer is filed, Enforcement Counsel may file a motion for entry of an order of default. Upon a finding that no good cause has been shown for the failure to file a timely answer, the administrative law judge shall file with the Board a recommended decision containing the findings and the relief sought in the notice. Any final order issued by the Board based upon a respondent’s failure to answer is deemed to be an order issued upon consent.

(2) Effect of failure to request a hearing in civil money penalty proceedings. If respondent fails to request a hearing as required by law within the time provided, the notice of assessment constitutes a final and unappealable order.

§ 263.20 Amended pleadings.

(a) Amendments. The notice or answer may be amended or supplemented at
any stage of the proceeding. The respondent must answer an amended notice within the time remaining for the respondent’s answer to the original notice, or within ten days after service of the amended notice, whichever period is longer, unless the Board or administrative law judge orders otherwise for good cause.

(b) Amendments to conform to the evidence. When issues not raised in the notice or answer are tried at the hearing by express or implied consent of the parties, they will be treated in all respects as if they had been raised in the notice or answer, and no formal amendments are required. If evidence is objected to at the hearing on the ground that it is not within the issues raised by the notice or answer, the administrative law judge may admit the evidence when admission is likely to assist in adjudicating the merits of the action and the objecting party fails to satisfy the administrative law judge that the admission of such evidence would unfairly prejudice that party's action or defense upon the merits. The administrative law judge may grant a continuance to enable the objecting party to meet such evidence.

[61 FR 20342, May 6, 1996]

§ 263.23 Motions.

(a) In writing. (1) Except as otherwise provided herein, an application or request for an order or ruling must be made by written motion.

(2) All written motions must state with particularity the relief sought and must be accompanied by a proposed order.

(3) No oral argument may be held on written motions except as otherwise directed by the administrative law judge. Written memoranda, briefs, affidavits or other relevant material or documents may be filed in support of or in opposition to a motion.

(b) Oral motions. A motion may be made orally on the record unless the administrative law judge directs that such motion be reduced to writing.

(c) Filing of motions. Motions must be filed with the administrative law judge, except that following the filing of the recommended decision, motions must be filed with the Board.

(d) Responses. (1) Except as otherwise provided herein, within ten days after service of any written motion, or within such other period of time as may be established by the administrative law judge or the Board, any party may file a written response to a motion. The administrative law judge shall not rule on any oral or written motion before
§ 263.24 Scope of document discovery.

(a) Limits on discovery. (1) Subject to the limitations set out in paragraphs (b), (c), and (d) of this section, a party to a proceeding under this subpart may obtain document discovery by serving a written request to produce documents. For purposes of a request to produce documents, the term “documents” may be defined to include drawings, graphs, charts, photographs, recordings, data stored in electronic form, and other data compilations from which information can be obtained, or translated, if necessary, by the parties through detection devices into reasonably usable form, as well as written material of all kinds. (2) Discovery by use of deposition is governed by §263.53 of subpart B of this part. (3) Discovery by use of interrogatories is not permitted.

(b) Relevance. A party may obtain document discovery regarding any matter, not privileged, that has material relevance to the merits of the pending action. Any request to produce documents that calls for irrelevant material, that is unreasonable, oppressive, excessive in scope, unduly burdensome, or repetitive of previous requests, or that seeks to obtain privileged documents will be denied or modified. A request is unreasonable, oppressive, excessive in scope or unduly burdensome if, among other things, it fails to include justifiable limitations on the time period covered and the geographic locations to be searched, the time provided to respond in the request is inadequate, or the request calls for copies of documents to be delivered to the requesting party and fails to include the requestor’s written agreement to pay in advance for the copying, in accordance with §263.25.

(c) Privileged matter. Privileged documents are not discoverable. Privileges include the attorney-client privilege, work-product privilege, any government’s or government agency’s deliberative-process privilege, and any other privileges the Constitution, any applicable act of Congress, or the principles of common law provide.

(d) Time limits. All discovery, including all responses to discovery requests, shall be completed at least 20 days prior to the date scheduled for the commencement of the hearing. No exceptions to this time limit shall be permitted, unless the administrative law judge finds on the record that good cause exists for waiving the requirements of this paragraph.

§ 263.25 Request for document discovery from parties.

(a) General rule. Any party may serve on any other party a request to produce for inspection any discoverable documents that are in the possession, custody, or control of the party upon whom the request is served. The request must identify the documents to be produced either by individual item or by category, and must describe each item and category with reasonable particularity. Documents must be produced as they are kept in the usual course of business or must be organized to correspond with the categories in the request.

(b) Production or copying. The request must specify a reasonable time, place, and manner for production and performing any related acts. In lieu of inspecting the documents, the requesting party may specify that all or some of the responsive documents be copied and the copies delivered to the requesting party. If copying of fewer than 250 pages is requested, the party to whom the request is addressed shall bear the cost of copying and shipping charges. If a party requests 250 pages or more of copying, the requesting party shall pay for the copying and shipping charges. Copying charges are the current per-
page copying rate imposed by 12 CFR Part 261 implementing the Freedom of Information Act (5 U.S.C. 552). The party to whom the request is addressed may require payment in advance before producing the documents.

(c) Obligation to update responses. A party who has responded to a discovery request with a response that was complete when made is not required to supplement the response to include documents thereafter acquired, unless the responding party learns that:

(1) The response was materially incorrect when made; or

(2) The response, though correct when made, is no longer true and a failure to amend the response is, in substance, a know wrong concealment.

(d) Motions to limit discovery. (1) Any party that objects to a discovery request may, within ten days of being served with such request, file a motion in accordance with the provisions of §263.23 to strike or otherwise limit the request. If an objection is made to only a portion of an item or category in a request, the portion objected to shall be specified. Any objections not made in accordance with this paragraph and §263.23 are waived.

(2) The party who served the request that is the subject of a motion to strike or limit may file a written response within five days of service of the motion. No other party may file a response.

(e) Privilege. At the time other documents are produced, the producing party must reasonably identify all documents withheld on the grounds of privilege and must produce a statement of the basis for the assertion of privilege. When similar documents that are protected by deliberative process, attorney-work-product, or attorney-client privilege are voluminous, these documents may be identified by category instead of by individual document. The administrative law judge retains discretion to determine when the identification by category is insufficient.

(f) Motions to compel production. (1) If a party withholds any documents as privileged or fails to comply fully with a discovery request, the requesting party may, within ten days of the assertion of privilege or of the time the failure to comply becomes known to the requesting party, file a motion in accordance with the provisions of §263.23 for the issuance of a subpoena compelling production.

(2) The party who asserted the privilege or failed to comply with the request may file a written response to a motion to compel within five days of service of the motion. No other party may file a response.

(g) Ruling on motions. After the time for filing responses pursuant to this section has expired, the administrative law judge shall rule promptly on all motions filed pursuant to this section. If the administrative law judge determines that a discovery request, or any of its terms, calls for irrelevant material, is unreasonable, oppressive, excessive in scope, unduly burdensome, or repetitive of previous requests, or seeks to obtain privileged documents, he or she may deny or modify the request, and may issue appropriate protective orders, upon such conditions as justice may require. The pendency of a motion to strike or limit discovery or to compel production is not a basis for staying or continuing the proceeding, unless otherwise ordered by the administrative law judge. Notwithstanding any other provision in this part, the administrative law judge may not release, or order a party to produce, documents withheld on grounds of privilege if the party has stated to the administrative law judge its intention to file a timely motion for interlocutory review of the administrative law judge’s order to produce the documents, and until the motion for interlocutory review has been decided.

(b) Enforcing discovery subpoenas. If the administrative law judge issues a subpoena compelling production of documents by a party, the subpoenaing party may, in the event of noncompliance and to the extent authorized by applicable law, apply to any appropriate United States district court for an order requiring compliance with the subpoena. A party’s right to seek court enforcement of a subpoena shall not in any manner limit the sanctions that may be imposed by the administrative
law judge against a party who fails to produce subpoenaed documents.

§ 263.26 Document subpoenas to non-parties.

(a) General rules. (1) Any party may apply to the administrative law judge for the issuance of a document discovery subpoena addressed to any person who is not a party to the proceeding. The application must contain a proposed document subpoena and a statement showing the general relevance and reasonableness of the scope of documents sought. The subpoenaing party shall specify a reasonable time, place, and manner for making production in response to the document subpoena.

(2) A party shall only apply for a document subpoena under this section within the time period during which such party could serve a discovery request under § 263.24(d). The party obtaining the document subpoena is responsible for serving it on the subpoenaed person and for serving copies on all parties. Document subpoenas may be served in any state, territory, or possession of the United States, the District of Columbia, or as otherwise provided by law.

(3) The administrative law judge shall promptly issue any document subpoena requested pursuant to this section. If the administrative law judge determines that the application does not set forth a valid basis for the issuance of the subpoena, or that any of its terms are unreasonable, oppressive, excessive in scope, or unduly burdensome, he or she may refuse to issue the subpoena or may issue it in a modified form upon such conditions as may be consistent with the Uniform Rules.

(b) Motion to quash or modify. (1) Any person to whom a document subpoena is directed may file a motion to quash or modify such subpoena, accompanied by a statement of the basis for quashing or modifying the subpoena. The movant shall serve the motion on all parties, and any party may respond to such motion within ten days of service of the motion.

(2) Any motion to quash or modify a document subpoena must be filed on the same basis, including the assertion of privilege, upon which a party could object to a discovery request under § 263.25(d), and during the same time limits during which such an objection could be filed.

(c) Enforcing document subpoenas. If a subpoenaed person fails to comply with any subpoena issued pursuant to this section or any order of the administrative law judge which directs compliance with all or any portion of a document subpoena, the subpoenaing party or any other aggrieved party may, to the extent authorized by applicable law, apply to an appropriate United States district court for an order requiring compliance with so much of the document subpoena as the administrative law judge has not quashed or modified. A party’s right to seek court enforcement of a document subpoena shall in no way limit the sanctions that may be imposed by the administrative law judge on a party who induces a failure to comply with subpoenas issued under this section.

§ 263.27 Deposition of witness unavailable for hearing.

(a) General rules. (1) If a witness will not be available for the hearing, a party desiring to preserve that witness’s testimony for the record may file an application pursuant to paragraph (a)(2) of this section, to the administrative law judge for the issuance of a subpoena, including a subpoena duces tecum, requiring the attendance of the witness at a deposition. The administrative law judge may issue a deposition subpoena under this section upon a showing that:

(i) The witness will be unable to attend or may be prevented from attending the hearing because of age, sickness or infirmity, or will otherwise be unavailable;

(ii) The witness’s unavailability was not procured or caused by the subpoenaing party;

(iii) The testimony is reasonably expected to be material; and

(iv) Taking the deposition will not result in any undue burden to any other party and will not cause undue delay of the proceeding.

(2) The application must contain a proposed deposition subpoena and a
brief statement of the reasons for the issuance of the subpoena. The subpoena must name the witness whose deposition is to be taken and specify the time and place for taking the deposition. A deposition subpoena may require the witness to be deposed at any place within the country in which that witness resides or has a regular place of employment or such other convenient place as the administrative law judge shall fix.

(3) Any requested subpoena that sets forth a valid basis for its issuance must be promptly issued, unless the administrative law judge on his or her own motion, requires a written response or requires attendance at a conference concerning whether the requested subpoena should be issued.

(4) The party obtaining a deposition subpoena is responsible for serving it on the witness and for serving copies on all parties. Unless the administrative law judge orders otherwise, no deposition under this section shall be taken on fewer than ten days’ notice to the witness and all parties. Deposition subpoenas may be served in any state, territory, possession of the United States, or the District of Columbia, on any person or company doing business in any state, territory, possession of the United States, or the District of Columbia, or as otherwise permitted by law.

(b) Objections to deposition subpoenas.
(1) The witness and any party who has not had an opportunity to oppose a deposition subpoena issued under this section may file a motion with the administrative law judge to quash or modify the subpoena prior to the time for compliance specified in the subpoena, but not more than ten days after service of the subpoena.

(2) A statement of the basis for the motion to quash or modify a subpoena issued under this section must accompany the motion. The motion must be served on all parties.

(c) Procedure upon deposition. (1) Each witness testifying pursuant to a deposition subpoena must be duly sworn, and each party shall have the right to examine the witness. Objections to questions or documents must be in short form stating the grounds for the objection. Failure to object to questions or documents is not deemed a waiver except where the ground for the objection might have been avoided if the objection had been timely presented. All questions, answers, and objections must be recorded.

(2) Any party may move before the administrative law judge for an order compelling the witness to answer any questions the witness has refused to answer or submit any evidence the witness has refused to submit during the deposition.

(3) The deposition must be subscribed by the witness, unless the parties and the witness, by stipulation, have waived the signing, or the witness is ill, cannot be found, or has refused to sign. If the deposition is not subscribed by the witness, the court reporter taking the deposition shall certify that the transcript is a true and complete transcript of the deposition.

(d) Enforcing subpoenas. If a subpoenaed person fails to comply with any order of the administrative law judge which directs compliance with all or any portion of a deposition subpoena under paragraph (b) or (c)(3) of this section, the subpoenaing party or other aggrieved party may, to the extent authorized by applicable law, apply to an appropriate United States district court for an order requiring compliance with the portions of the subpoena that the administrative law judge has ordered enforced. A party’s right to seek court enforcement of a deposition subpoena in no way limits the sanctions that may be imposed by the administrative law judge on a party who fails to comply with, or procures a failure to comply with, a subpoena issued under this section.

§ 263.28 Interlocutory review.

(a) General rule. The Board may review a ruling of the administrative law judge prior to the certification of the record to the Board only in accordance with the procedures set forth in this section and §263.23.

(b) Scope of review. The Board may exercise interlocutory review of a ruling of the administrative law judge if the Board finds that:

(1) The ruling involves a controlling question of law or policy as to which
§ 263.29 Summary disposition.

(a) In general. The administrative law judge shall recommend that the Board issue a final order granting a motion for summary disposition if the undisputed pleaded facts, admissions, affidavits, stipulations, documentary evidence, matters as to which official notice may be taken, and any other evidentiary materials properly submitted in connection with a motion for summary disposition show that:

(1) There is no genuine issue as to any material fact; and

(2) The moving party is entitled to a decision in its favor as a matter of law.

(b) Filing of motions and responses. (1) Any party who believes that there is no genuine issue of material fact to be determined and that he or she is entitled to a decision as a matter of law may move at any time for summary disposition in its favor of all or any part of the proceeding. Any party, within 20 days after service of such a motion, or within such time period as allowed by the administrative law judge, may file a response to such motion.

(2) A motion for summary disposition must be accompanied by a statement of the material facts as to which the moving party contends there is no genuine issue. Such motion must be supported by documentary evidence, which may take the form of admissions in pleadings, stipulations, depositions, investigatory depositions, transcripts, affidavits and any other evidentiary materials that the moving party contends support his or her position. The motion must also be accompanied by a brief containing the points and authorities in support of the contentions of the moving party. The opposition must also be accompanied by a brief containing the points and authorities in support of the contention that summary disposition would be inappropriate.

(c) Procedure. Any request for interlocutory review shall be filed by a party with the administrative law judge within ten days of his or her ruling and shall otherwise comply with § 263.23. Any party may file a response to a request for interlocutory review in accordance with § 263.23(d). Upon the expiration of the time for filing all responses, the administrative law judge shall refer the matter to the Board for final disposition.

(d) Suspension of proceeding. Neither a request for interlocutory review nor any disposition of such a request by the Board under this section suspends or stays the proceeding unless otherwise ordered by the administrative law judge or the Board.

§ 263.30 Partial summary disposition.

If the administrative law judge determines that a party is entitled to summary disposition as to certain claims only, he or she shall defer submitting a recommended decision as to those claims. A hearing on the remaining issues must be ordered. Those claims for which the administrative law judge
has determined that summary disposition is warranted will be addressed in the recommended decision filed at the conclusion of the hearing.

§ 263.31 Scheduling and prehearing conferences.

(a) Scheduling conference. Within 30 days of service of the notice or order commencing a proceeding or such other time as parties may agree, the administrative law judge shall direct counsel for all parties to meet with him or her in person at a specified time and place prior to the hearing or to confer by telephone for the purpose of scheduling the course and conduct of the proceeding. This meeting or telephone conference is called a “scheduling conference.” The identification of potential witnesses, the time for and manner of discovery, and the exchange of any prehearing materials including witness lists, statements of issues, stipulations, exhibits and any other materials may also be determined at the scheduling conference.

(b) Prehearing conferences. The administrative law judge may, in addition to the scheduling conference, on his or her own motion or at the request of any party, direct counsel for the parties to meet with him or her (in person or by telephone) at a prehearing conference to address any or all of the following:

(1) Simplification and clarification of the issues;
(2) Stipulations, admissions of fact, and the contents, authenticity and admissibility into evidence of documents;
(3) Matters of which official notice may be taken;
(4) Limitation of the number of witnesses;
(5) Summary disposition of any or all issues;
(6) Resolution of discovery issues or disputes;
(7) Amendments to pleadings; and
(8) Such other matters as may aid in the orderly disposition of the proceeding.

(c) Transcript. The administrative law judge, in his or her discretion, may require that a scheduling or prehearing conference be recorded by a court reporter. A transcript of the conference and any materials filed, including orders, becomes part of the record of the proceeding. A party may obtain a copy of the transcript at his or her expense.

(d) Scheduling or prehearing orders. At or within a reasonable time following the conclusion of the scheduling conference or any prehearing conference, the administrative law judge shall serve on each party an order setting forth any agreements reached and any procedural determinations made.

§ 263.32 Prehearing submissions.

(a) Within the time set by the administrative law judge, but in no case later than 14 days before the start of the hearing, each party shall serve on every other party, his or her:

(1) Prehearing statement;
(2) Final list of witnesses to be called to testify at the hearing, including name and address of each witness and a short summary of the expected testimony of each witness;
(3) List of the exhibits to be introduced at the hearing along with a copy of each exhibit; and
(4) Stipulations of fact, if any.

(b) Effect of failure to comply. No witness may testify and no exhibits may be introduced at the hearing if such witness or exhibit is not listed in the prehearing submissions pursuant to paragraph (a) of this section, except for good cause shown.

§ 263.33 Public hearings.

(a) General rule. All hearings shall be open to the public, unless the Board, in the Board’s discretion, determines that holding an open hearing would be contrary to the public interest. Within 20 days of service of the notice or, in the case of change-in-control proceedings under section 7(j)(4) of the FDIA (12 U.S.C. 1817(j)(4)), within 20 days from service of the hearing order, any respondent may file with the Board a request for a private hearing, and any party may file a reply to such a request. A party must serve on the administrative law judge a copy of any request or reply constitutes a waiver of any objections regarding
§ 263.34 Hearing subpoenas.

(a) Issuance. (1) Upon application of a party showing general relevance and reasonableness of scope of the testimony or other evidence sought, the administrative law judge may issue a subpoena or a subpoena duces tecum requiring the attendance of a witness at the hearing or the production of documentary or physical evidence at the hearing. The application for a hearing subpoena must also contain a proposed subpoena specifying the attendance of a witness or the production of evidence from any state, territory, or possession of the United States, the District of Columbia, or as otherwise provided by law at any designated place where the hearing is being conducted. The party making the application shall serve a copy of the application and the proposed subpoena on every other party.

(2) A party may apply for a hearing subpoena at any time before the commencement of a hearing. During a hearing, a party may make an application for a subpoena orally on the record before the administrative law judge.

(3) The administrative law judge shall promptly issue any hearing subpoena requested pursuant to this section. If the administrative law judge determines that the application does not set forth a valid basis for the issuance of the subpoena, or that any of its terms are unreasonable, oppressive, excessive in scope, or unduly burdensome, he or she may refuse to issue the subpoena or may issue it in a modified form upon any conditions consistent with this subpart. Upon issuance by the administrative law judge, the party making the application shall serve the subpoena on the person named in the subpoena and on each party.

(b) Motion to quash or modify. (1) Any person to whom a hearing subpoena is directed or any party may file a motion to quash or modify the subpoena, accompanied by a statement of the basis for quashing or modifying the subpoena. The movant must serve the motion on each party and on the person named in the subpoena. Any party may respond to the motion within ten days of service of the motion.

(2) Any motion to quash or modify a hearing subpoena must be filed prior to the time specified in the subpoena for compliance, but not more than ten days after the date of service of the subpoena upon the movant.

(c) Enforcing subpoenas. If a subpoenaed person fails to comply with any subpoena issued pursuant to this section or any order of the administrative law judge which directs compliance with all or any portion of a document subpoena, the subpoenaing party or any other aggrieved party may seek enforcement of the subpoena pursuant to §263.26(c).

§ 263.35 Conduct of hearings.

(a) General rules. (1) Hearings shall be conducted so as to provide a fair and expeditious presentation of the relevant disputed issues. Each party has the right to present its case or defense by oral and documentary evidence and to conduct such cross examination as may be required for full disclosure of the facts.

(2) Order of hearing. Enforcement Counsel shall present its case-in-chief first, unless otherwise ordered by the administrative law judge, or unless otherwise expressly specified by law or regulation. Enforcement Counsel shall be the first party to present an opening statement and a closing statement, and may make a rebuttal statement after the respondent’s closing statement. If there are multiple respondents, respondents may agree among themselves as to their order of presentation of their cases, but if they do not agree
the administrative law judge shall fix the order.

(3) Examination of witnesses. Only one counsel for each party may conduct an examination of a witness, except that in the case of extensive direct examination, the administrative law judge may permit more than one counsel for the party presenting the witness to conduct the examination. A party may have one counsel conduct the direct examination and another counsel conduct re-direct examination of a witness, or may have one counsel conduct the cross examination of a witness and another counsel conduct the re-cross examination of a witness.

(4) Stipulations. Unless the administrative law judge directs otherwise, all stipulations of fact and law previously agreed upon by the parties, and all documents, the admissibility of which have been previously stipulated, will be admitted into evidence upon commencement of the hearing.

(b) Transcript. The hearing must be recorded and transcribed. The reporter will make the transcript available to any party upon payment by that party to the reporter of the cost of the transcript. The administrative law judge may order the record corrected, either upon motion to correct, upon stipulation of the parties, or following notice to the parties upon the administrative law judge’s own motion.

§ 263.36 Evidence.

(a) Admissibility. (1) Except as is otherwise set forth in this section, relevant, material, and reliable evidence that is not unduly repetitive is admissible to the fullest extent authorized by the Administrative Procedure Act and other applicable law.

(2) Evidence that would be admissible under the Federal Rules of Evidence is admissible in a proceeding conducted pursuant to this subpart.

(3) Evidence that would be inadmissible under the Federal Rules of Evidence may not be deemed or ruled to be inadmissible in a proceeding conducted pursuant to this subpart if such evidence is relevant, material, reliable and not unduly repetitive.

(b) Official notice. (1) Official notice may be taken of any material fact which may be judicially noticed by a United States district court and any material information in the official public records of any Federal or state government agency.

(2) All matters officially noticed by the administrative law judge or Board shall appear on the record.

(3) If official notice is requested or taken of any material fact, the parties, upon timely request, shall be afforded an opportunity to object.

(c) Documents. (1) A duplicate copy of a document is admissible to the same extent as the original, unless a genuine issue is raised as to whether the copy is in some material respect not a true and legible copy of the original.

(2) Subject to the requirements of paragraph (a) of this section, any document, including a report of examination, supervisory activity, inspection or visitation, prepared by an appropriate Federal financial institution regulatory agency or state regulatory agency, is admissible either with or without a sponsoring witness.

(3) Witnesses may use existing or newly created charts, exhibits, calendars, calculations, outlines or other graphic material to summarize, illustrate, or simplify the presentation of testimony. Such materials may, subject to the administrative law judge’s discretion, be used with or without being admitted into evidence.

(d) Objections. (1) Objections to the admissibility of evidence must be timely made and rulings on all objections must appear on the record.

(2) When an objection to a question or line of questioning propounded to a witness is sustained, the examining counsel may make a specific proffer on the record of what he or she expected to prove by the expected testimony of the witness, either by representation of counsel or by direct interrogation of the witness.

(3) The administrative law judge shall retain rejected exhibits, adequately marked for identification, for the record, and transmit such exhibits to the Board.

(4) Failure to object to admission of evidence or to any ruling constitutes a waiver of the objection.
§263.37 Post-hearing filings.

(a) Proposed findings and conclusions and supporting briefs. (1) Using the same method of service for each party, the administrative law judge shall serve notice upon each party, that the certified transcript, together with all hearing exhibits and exhibits introduced but not admitted into evidence at the hearing, has been filed. Any party may file with the administrative law judge proposed findings of fact, proposed conclusions of law, and a proposed order within 30 days following service of this notice by the administrative law judge or within such longer period as may be ordered by the administrative law judge.

(2) Proposed findings and conclusions must be supported by citation to any relevant authorities and by page references to any relevant portions of the record. A post-hearing brief may be filed in support of proposed findings and conclusions, either as part of the same document or in a separate document. Any party who fails to file timely with the administrative law judge any proposed finding or conclusion is deemed to have waived the right to raise in any subsequent filing or submission any issue not addressed in such party’s proposed finding or conclusion.

(b) Reply briefs. Reply briefs may be filed within 15 days after the date on which the parties proposed findings, conclusions, and order are due. Reply briefs must be strictly limited to responding to new matters, issues, or arguments raised in another party’s papers. A party who has not filed proposed findings of fact and conclusions of law or a post-hearing brief may not file a reply brief.

(c) Simultaneous filing required. The administrative law judge shall not order the filing by any party of any brief or reply brief in advance of the other party’s filing of its brief.

§263.38 Recommended decision and filing of record.

(a) Filing of recommended decision and record. Within 45 days after expiration of the time allowed for filing reply briefs under §263.37(b), the administrative law judge shall file with and certify to the Board, for decision, the record of the proceeding. The record must include the administrative law judge’s recommended decision, recommended findings of fact, recommended conclusions of law, and proposed order; all prehearing and hearing transcripts, exhibits, and rulings; and the motions, briefs, memoranda, and other supporting papers filed in connection with the hearing. The administrative law judge shall serve upon each party the recommended decision, findings, conclusions, and proposed order.

(b) Filing of index. At the same time the administrative law judge files with and certifies to the Board the record of the proceeding, the certified index shall contain an exhibit index containing, at a minimum, an
§ 263.39 Exceptions to recommended decision.

(a) Filing exceptions. Within 30 days after service of the recommended decision, findings, conclusions, and proposed order under §263.38, a party may file with the Board written exceptions to the administrative law judge’s recommended decision, findings, conclusions or proposed order, to the admission or exclusion of evidence, or to the failure of the administrative law judge to make a ruling proposed by a party. A supporting brief may be filed at the time the exceptions are filed, either as part of the same document or in a separate document.

(b) Effect of failure to file or raise exceptions. (1) Failure of a party to file exceptions to those matters specified in paragraph (a) of this section within the time prescribed is deemed a waiver of objection thereto.

(2) No exception need be considered by the Board if the party taking exception had an opportunity to raise the same objection, issue, or argument before the administrative law judge and failed to do so.

(c) Contents. (1) All exceptions and briefs in support of such exceptions must be confined to the particular matters specified in, or omissions from, the administrative law judge’s recommendations to which that party takes exception.

(2) All exceptions and briefs in support of exceptions must set forth page or paragraph references to the specific parts of the administrative law judge’s recommendations to which exception is taken, the page or paragraph references to those portions of the record relied upon to support each exception, and the legal authority relied upon to support each exception.

§ 263.40 Review by the Board.

(a) Notice of submission to the Board. When the Board determines that the record in the proceeding is complete, the Board shall serve notice upon the parties that the proceeding has been submitted to the Board for final decision.

(b) Oral argument before the Board. Upon the initiative of the Board or on the written request of any party filed with the Board within the time for filing exceptions, the Board may order and hear oral argument on the recommended findings, conclusions, decision, and order of the administrative law judge. A written request by a party must show good cause for oral argument and state reasons why arguments cannot be presented adequately in writing. A denial of a request for oral argument may be set forth in the Board’s final decision. Oral argument before the Board must be on the record.

(c) Agency final decision. (1) Decisional employees may advise and assist the Board in the consideration and disposition of the case. The final decision of the Board will be based upon review of the entire record of the proceeding, except that the Board may limit the issues to be reviewed to those findings and conclusions to which opposing arguments or exceptions have been filed by the parties.

(2) The Board shall render a final decision within 90 days after notification of the parties that the case has been submitted for final decision, or 90 days after oral argument, whichever is later, unless the Board orders that the action or any aspect thereof be remanded to the administrative law judge for further proceedings. Copies of the final decision and order of the Board shall be served upon each party to the proceeding, upon other persons required by statute, and, if directed by the Board or required by statute, upon any appropriate state or Federal supervisory authority.

§ 263.41 Stays pending judicial review.

The commencement of proceedings for judicial review of a final decision and order of the Board may not, unless specifically ordered by the Board or a reviewing court, operate as a stay of any order issued by the Board. The
§ 263.50

Board may, in its discretion, and on such terms as it finds just, stay the effectiveness of all or any part of its order pending a final decision on a petition for review of that order.

Subpart B—Board Local Rules Supplementing the Uniform Rules

§ 263.50 Purpose and scope.

(a) This subpart prescribes the rules of practice and procedure governing formal adjudications set forth in §263.50(b) of this subpart, and supplements the rules of practice and procedure contained in subpart A of this part.

(b) The rules and procedures of this subpart and subpart A of this part shall apply to the formal adjudications set forth in §263.1 of subpart A and to the following adjudications:

1. Suspension of a member bank from use of credit facilities of the Federal Reserve System under section 4 of the FRA (12 U.S.C. 301);
2. Termination of a bank’s membership in the Federal Reserve System under section 9 of the FRA (12 U.S.C. 327);
3. Issuance of a cease-and-desist order under section 11 of the Clayton Act (15 U.S.C. 21);
4. Adjudications under sections 2, 3, or 4 of the BHC Act (12 U.S.C. 1841, 1842, or 1843);
5. Formal adjudications on bank merger applications under section 18(c) of the FDIA (12 U.S.C. 1829(c));
6. Issuance of a divestiture order under section 5(e) of the BHC Act (12 U.S.C. 1844(e));
7. Imposition of sanctions upon any municipal securities dealer for which the Board is the appropriate regulatory agency, or upon any person associated or seeking to become associated with such a municipal securities dealer, under section 15B(c)(5) of the Exchange Act (15 U.S.C. 78o-4);
8. Proceedings where the Board otherwise orders that a formal hearing be held;
9. Termination of the activities of a state branch, state agency, or commercial lending company subsidiary of a foreign bank in the United States, pursuant to section 7(e) of the IBA (12 U.S.C. 3107(b));
10. Issuance of an order requiring a member bank to dismiss a director or senior executive officer under section 38(e)(5) and 38(f)(2)(F)(ii) of the FDI Act (12 U.S.C. 1831o(e)(5) and 1831o(f)(2)(F)(ii));
11. Issuance of a prompt corrective action directive to a member bank under section 38 of the FDI Act (12 U.S.C. 1831o);
12. Reclassification of a member bank on grounds of unsafe or unsound condition under section 38(g)(1) of the FDI Act (12 U.S.C. 1831o(g)(1));
13. Reclassification of a member bank on grounds of unsafe and unsound practice under section 38(g)(1) of the FDI Act (12 U.S.C. 1831o(g)(1)); and
14. Issuance of an order requiring a member bank to dismiss a director or senior executive officer under section 38(e)(5) and 38(f)(2)(F)(ii) of the FDI Act (12 U.S.C. 1831o(e)(5) and 1831o(f)(2)(F)(ii)).

§ 263.51 Definitions.

As used in subparts B through G of this part:

(a) Secretary means the Secretary of the Board of Governors of the Federal Reserve System;
(b) Member bank means any bank that is a member of the Federal Reserve System;
(c) Institution has the same meaning as that assigned to it in §263.3(f) of subpart A, and includes any foreign bank with a representative office in the United States.

§ 263.52 Address for filing.

All papers to be filed with the Board shall be filed with the Secretary of the Board of Governors of the Federal Reserve System, Washington, DC 20551.

§ 263.53 Discovery depositions.

(a) In general. In addition to the discovery permitted in subpart A of this part, limited discovery by means of depositions shall be allowed for individuals with knowledge of facts material to the proceeding that are not protected from discovery by any applicable privilege, and of identified expert
Federal Reserve System

§ 263.55

witnesses. Except in unusual cases, accordingly, depositions will be permitted only of individuals identified as hearing witnesses, including experts. All discovery depositions must be completed within the time set forth in § 263.24(d).

(b) Application. A party who desires to take a deposition of any other party’s proposed witnesses, shall apply to the administrative law judge for the issuance of a deposition subpoena or subpoena duces tecum. The application shall state the name and address of the proposed deponent, the subject matter of the testimony expected from the deponent and its relevancy to the proceeding, and the address of the place and the time, no sooner than ten days after the service of the subpoena, for the taking of the deposition. Any such application shall be treated as a motion subject to the rules governing motions practice set forth in § 263.23.

(c) Issuance of subpoena. The administrative law judge shall issue the requested deposition subpoena or subpoena duces tecum upon a finding that the application satisfies the requirements of this section and of § 263.24. If the administrative law judge determines that the taking of the deposition or its proposed location is, in whole or in part, unnecessary, unreasonable, oppressive, excessive in scope or unduly burdensome, he or she may deny the application or may grant it upon such conditions as justice may require. The party obtaining the deposition subpoena or subpoena duces tecum shall be responsible for serving it on the deponent and all parties to the proceeding in accordance with § 263.11.

(d) Motion to quash or modify. A person named in a deposition subpoena or subpoena duces tecum may file a motion to quash or modify the subpoena or for the issuance of a protective order. Such motions must be filed within ten days following service of the subpoena, but in all cases at least five days prior to the commencement of the scheduled deposition. The motion must be accompanied by a statement of the reasons for granting the motion and a copy of the motion and the statement must be served on the party which requested the subpoena. Only the party requesting the subpoena may file a response to a motion to quash or modify, and any such response shall be filed within five days following service of the motion.

(e) Enforcement of a deposition subpoena. Enforcement of a deposition subpoena shall be in accordance with the procedures set forth in § 263.27(d).

(f) Conduct of the deposition. The deponent shall be duly sworn, and each party shall have the right to examine the deponent with respect to all nonprivileged, relevant and material matters. Objections to questions or evidence shall be in the short form, stating the ground for the objection. Failure to object to questions or evidence shall not be deemed a waiver except where the grounds for the objection might have been avoided if the objection had been timely presented. The discovery deposition shall be transcribed or otherwise recorded as agreed among the parties.

(g) Protective orders. At any time during the taking of a discovery deposition, on the motion of any party or of the deponent, the administrative law judge may terminate or limit the scope and manner of the deposition upon a finding that grounds exist for such relief. Grounds for terminating or limiting the taking of a discovery deposition include a finding that the discovery deposition is being conducted in bad faith or in such a manner as to:

(1) Unreasonably annoy, embarrass, or oppress the deponent;
(2) Unreasonably probe into privilege, irrelevant or immaterial matters; or
(3) Unreasonably attempt to pry into a party’s preparation for trial.

§ 263.54 Delegation to the Office of Financial Institution Adjudication.

Unless otherwise ordered by the Board, administrative adjudications subject to subpart A of this part shall be conducted by an administrative law judge of OFIA.

§ 263.55 Board as Presiding Officer.

The Board may, in its discretion, designate itself, one or more of its members, or an authorized officer, to act as presiding officer in a formal hearing. In such a proceeding, proposed findings and conclusions, briefs, and other submissions by the parties permitted in
§ 263.56 Initial Licensing Proceedings.

Proceedings with respect to applications for initial licenses shall include, but not be limited to, applications for Board approval under section 3 of the BHC Act and such proceedings as may be ordered by the Board with respect to applications under section 18(c) of the FDIA. In such initial licensing proceedings, the procedures set forth in subpart A of this part shall apply, except that the Board may designate a Board Counsel to represent the Board in a nonadversary capacity for the purpose of developing for the record information relevant to the issues to be determined by the Presiding Officer and the Board. In such proceedings, Board Counsel shall be considered to be a decisional employee for purposes of §§263.9 and 263.40 of subpart A.

Subpart C—Rules and Procedures for Assessment and Collection of Civil Money Penalties

§ 263.60 Scope.

The Uniform Rules set forth in subpart A of this part shall govern the procedures for assessment of civil money penalties, except as otherwise provided in this subpart.

§ 263.61 Opportunity for informal proceeding.

In the sole discretion of the Board’s General Counsel, the General Counsel may, prior to the issuance by the Board of a notice of assessment of civil penalty, advise the affected person that the issuance of a notice of assessment of civil penalty is being considered and the reasons and authority for the proposed assessment. The General Counsel may provide the person an opportunity to present written materials or request a conference with members of the Board’s staff to show that the penalty should not be assessed or, if assessed, should be reduced in amount.

§ 263.62 Relevant considerations for assessment of civil penalty.

In determining the amount of the penalty to be assessed, the Board shall take into account the appropriateness of the penalty with respect to the financial resources and good faith of the person charged, the gravity of the misconduct, the history of previous misconduct, the economic benefit derived by the person from the misconduct, and such other matters as justice may require.

§ 263.63 Assessment order.

(a) In the event of consent to an assessment by the person concerned, or if, upon the record made at an administrative hearing, the Board finds that the grounds for having assessed the penalty have been established, the Board may issue a final order of assessment of civil penalty. In its final order, the Board may modify the amount of the penalty specified in the notice of assessment.

(b) An assessment order is effective immediately upon issuance, or upon such other date as may be specified therein, and shall remain effective and enforceable until it is stayed, modified, terminated, or set aside by action of the Board or a reviewing court.

§ 263.64 Payment of civil penalty.

(a) The date designated in the notice of assessment for payment of the civil penalty will normally be 60 days from the issuance of the notice. If, however, the Board finds in a specific case that the purposes of the authorizing statute would be better served if the 60-day period is changed, the Board may shorten or lengthen the period or make the civil penalty payable immediately upon receipt of the notice of assessment. If a timely request for a formal hearing to challenge an assessment of civil penalty is filed, payment of the penalty shall not be required unless and until the Board issues a final order of assessment following the hearing. If an assessment order is issued, it will specify the date by which the civil penalty should be paid or collected.

(b) Checks in payment of civil penalties should be made payable to the “Board of Governors of the Federal Reserve System.” Upon collection, the
Board shall forward the amount of the penalty to the Treasury of the United States.

§ 263.71 Notice or order of suspension, removal, or prohibition.

(a) Grounds. The Board may suspend an institution-affiliated party from office or prohibit an institution-affiliated party from further participation in any manner in the conduct of an institution’s affairs when the person is charged in any information, indictment, or complaint authorized by a United States attorney with the commission of, or participation in, a crime involving dishonesty or breach of trust that is punishable by imprisonment for a term exceeding one year under State or Federal law. The Board may remove an institution-affiliated party from office or prohibit an institution-affiliated party from further participation in any manner in the conduct of an institution’s affairs when the person is convicted of such an offense and the conviction is not subject to further direct appellate review. The Board may

(ii) 15 U.S.C. 78u–2(b)(2)—$70,000 for a natural person and $350,000 for any other person.

(iii) 15 U.S.C. 78u–2(b)(3)—$140,000 for a natural person and $675,000 for any other person.

(10) 42 U.S.C. 4012a(f)(5):
(i) For each violation—$385.
(ii) For the total amount of penalties assessed under 42 U.S.C. 4012a(f)(5) against an institution or enterprise during any calendar year—$35,000.

[73 FR 58032, Oct. 6, 2008]

Subpart D—Rules and Procedures Applicable to Suspension of an Institution-Affiliated Party Where a Felony is Charged or Proven

§ 263.70 Purpose and scope.

The rules and procedures set forth in this subpart apply to informal hearings afforded to any institution-affiliated party for whom the Board is the appropriate regulatory agency, who has been suspended or removed from office or prohibited from further participation in any manner in the conduct of the institution’s affairs by a notice or order issued by the Board upon the grounds set forth in section 8(g) of the FDIA (12 U.S.C. 1818(g)).

923
suspension or removal of an institution-affiliated party or prohibit an institution-affiliated party from participation in an institution’s affairs in these circumstances if the Board finds that continued service to the financial institution or participation in its affairs by the institution-affiliated party may pose a threat to the interests of the institution’s depositors or may threaten to impair public confidence in the financial institution.

(b) Contents. The Board commences a suspension, removal, or prohibition action under this subpart with the issuance, and service upon an institution-affiliated party, of a notice of suspension from office, or order of removal from office, or notice or order of prohibition from participation in the financial institution’s affairs. Such a notice or order shall indicate the basis for the suspension, removal, or prohibition and shall inform the institution-affiliated party of the right to request in writing, within 30 days of service of the notice or order, an opportunity to show at an informal hearing that continued service to, or participation in the conduct of the affairs of, the financial institution does not and is not likely to pose a threat to the interests of the financial institution’s depositors or threaten to impair public confidence in the financial institution. Failure to file a timely request for an informal hearing shall be deemed to be a waiver of the right to request such a hearing. A notice or order of suspension, removal, or prohibition may be served by any of the means authorized for service under §263.11(c)(2) of subpart A.

§ 263.72 Request for informal hearing.

An institution-affiliated party who is suspended or removed from office or prohibited from participation in the institution’s affairs may request an informal hearing within 30 days of service of the notice or order. The request shall be filed in writing with the Secretary, Board of Governors of the Federal Reserve System, Washington, DC 20551. The request shall state with particularity the relief desired and the grounds therefor and shall include, when available, supporting evidence in the form of affidavits. If the institution-affiliated party desires to present oral testimony or witnesses at the hearing, the institution-affiliated party must include a request to do so with the request for informal hearing. The request to present oral testimony or witnesses shall specify the names of the witnesses and the general nature of their expected testimony.

§ 263.73 Order for informal hearing.

(a) Issuance of hearing order. Upon receipt of a timely request for an informal hearing, the Secretary shall promptly issue an order directing an informal hearing to commence within 30 days of the receipt of the request. At the request of the institution-affiliated party, the Secretary may order the hearing to commence at a time more than 30 days after the receipt of the request for hearing. The hearing shall be held in Washington, DC, or at such other place as may be designated by the Secretary, before presiding officers designated by the Secretary to conduct the hearing. The presiding officers normally will include representatives from the Board’s Legal Division and the Division of Banking Supervision and Regulation and from the appropriate Federal Reserve Bank.

(b) Waiver of oral hearing. A institution-affiliated party may waive in writing his or her right to an oral hearing and instead elect to have the matter determined by the Board solely on the basis of written submissions.

(c) Hearing procedures. (1) The institution-affiliated party may appear at the hearing personally, through counsel, or personally with counsel. The institution-affiliated party shall have the right to introduce relevant written materials and to present an oral argument. The institution-affiliated party may introduce oral testimony and
present witnesses only if expressly authorized by the Board or the Secretary. Except as provided in §263.11, the adjudicative procedures of the Administrative Procedure Act (5 U.S.C. 554-557) and of subpart A of this part shall not apply to the informal hearing ordered under this subpart unless the Board orders that subpart A of this part applies.

(2) The informal hearing shall be recorded and a transcript shall be furnished to the institution-affiliated party upon request and after the payment of the cost thereof. Witnesses need not be sworn, unless specifically requested by a party or the presiding officers. The presiding officers may ask questions of any witness.

(3) The presiding officers may order the record to be kept open for a reasonable period following the hearing (normally five business days), during which time additional submissions to the record may be made. Thereafter, the record shall be closed.

(d) Authority of presiding officers. In the course of or in connection with any proceeding under this subpart, the Board or the presiding officers are authorized to administer oaths and affirmations, to take or cause to be taken depositions, to issue, quash or modify subpoenas and subpoenas duces tecum, and, for the enforcement thereof, to apply to an appropriate United States district court. All action relating to depositions and subpoenas shall be in accordance with the rules provided in §§263.34 and 263.53.

(e) Recommendation of presiding officers. The presiding officers shall make a recommendation to the Board concerning the notice or order of suspension, removal, or prohibition within 20 calendar days following the close of the record on the hearing.

§ 263.74 Decision of the Board.

(a) Within 60 days following the close of the record on the hearing, or receipt of written submissions where a hearing has been waived, the Board shall notify the institution-affiliated party whether the notice of suspension or prohibition will be continued, terminated, or otherwise modified, or whether the order of removal or prohibition will be rescinded or otherwise modified. The notification shall contain a statement of the basis for any adverse decision by the Board. In the case of a decision favorable to the institution-affiliated party, the Board shall take prompt action to rescind or otherwise modify the order of suspension, removal or prohibition.

(b) In deciding the question of suspension, removal, or prohibition under this subpart, the Board shall not rule on the question of the guilt or innocence of the individual with respect to the crime with which the individual has been charged.

Subpart E—Procedures for Issuance and Enforcement of Directives To Maintain Adequate Capital

§ 263.80 Purpose and scope.

This subpart establishes procedures under which the Board may issue a directive or take other action to require a state member bank or a bank holding company to achieve and maintain adequate capital.

§ 263.81 Definitions.

(a) Bank holding company means any company that controls a bank as defined in section 2 of the BHC Act, 12 U.S.C. 1841, and in the Board’s Regulation Y (12 CFR 225.2(b)) or any direct or indirect subsidiary thereof other than a bank subsidiary as defined in section 2(c) of the BHC Act, 12 U.S.C. 1841(c), and in the Board’s Regulation Y (12 CFR 225.2(a)).

(b) Capital Adequacy Guidelines means those guidelines for bank holding companies and state member banks contained in appendices A and D to the Board’s Regulation Y (12 CFR part 225), and in appendix A to the Board’s Regulation H (12 CFR part 208), or any succeeding capital guidelines promulgated by the Board.

(c) Directive means a final order issued by the Board pursuant to ILSA (12 U.S.C. 3007(b)(2)) requiring a state member bank or bank holding company to increase capital to or maintain capital at the minimum level set forth in the Board’s Capital Adequacy Guidelines or as otherwise established under procedures described in §263.85 of this subpart.
(d) State member bank means any state-chartered bank that is a member of the Federal Reserve System.

§ 263.82 Establishment of minimum capital levels.

The Board has established minimum capital levels for state member banks and bank holding companies in its Capital Adequacy Guidelines. The Board may set higher capital levels as necessary and appropriate for a particular state member bank or bank holding company based upon its financial condition, managerial resources, prospects, or similar factors, pursuant to the procedures set forth in § 263.85 of this subpart.

§ 263.83 Issuance of capital directives.

(a) Notice of intent to issue directive. If a state member bank or bank holding company is operating with less than the minimum level of capital established in the Board's Capital Adequacy Guidelines, or as otherwise established under the procedures described in § 263.85 of this subpart, the Board may issue and serve upon such state member bank or bank holding company written notice of the Board's intent to issue a directive to require the bank or bank holding company to achieve and maintain adequate capital within a specified time period.

(b) Contents of notice. The notice of intent to issue a directive shall include:

(1) The required minimum level of capital to be achieved or maintained by the institution;
(2) Its current level of capital;
(3) The proposed increase in capital needed to meet the minimum requirements;
(4) The proposed date or schedule for meeting these minimum requirements;
(5) When deemed appropriate, specific details of a proposed plan for meeting the minimum capital requirements; and
(6) The date for a written response by the bank or bank holding company to the proposed directive, which shall be at least 14 days from the date of issuance of the notice unless the Board determines a shorter period is necessary because of the financial condition of the bank or bank holding company.

(c) Response to notice. The bank or bank holding company may file a written response to the notice within the time period set by the Board. The response may include:

(1) An explanation why a directive should not be issued;
(2) Any proposed modification of the terms of the directive;
(3) Any relevant information, mitigating circumstances, documentation or other evidence in support of the institution's position regarding the proposed directive; and
(4) The institution's plan for attaining the required level of capital.

(d) Failure to file response. Failure by the bank or bank holding company to file a written response to the notice of intent to issue a directive within the specified time period shall constitute a waiver of the opportunity to respond and shall constitute consent to the issuance of such directive.

(e) Board consideration of response. After considering the response of the bank or bank holding company, the Board may:

(1) Issue the directive as originally proposed or in modified form;
(2) Determine not to issue a directive and so notify the bank or bank holding company; or
(3) Seek additional information or clarification of the response by the bank or bank holding company.

(f) Contents of directive. Any directive issued by the Board may order the bank or bank holding company to:

(1) Achieve or maintain the minimum capital requirement established pursuant to the Board's Capital Adequacy Guidelines or the procedures in § 263.85 of this subpart by a certain date;
(2) Adhere to a previously submitted plan or submit for approval and adhere to a plan for achieving the minimum capital requirement by a certain date;
(3) Take other specific action as the Board directs to achieve the minimum capital levels, including requiring a reduction of assets or asset growth or restriction on the payment of dividends; or
(4) Take any combination of the above actions.
§ 263.85 Request for reconsideration of directive. Any state member bank or bank holding company, upon a change in circumstances, may request the Board to reconsider the terms of a directive and may propose changes in the plan under which it is operating to meet the required minimum capital level. The directive and plan continue in effect while such request is pending before the Board.

§ 263.84 Enforcement of directive.

(a) Judicial and administrative remedies. (1) Whenever a bank or bank holding company fails to follow a directive issued under this subpart, or to submit or adhere to a capital adequacy plan as required by such directive, the Board may seek enforcement of the directive, including the capital adequacy plan, in the appropriate United States district court, pursuant to section 908(b)(2)(B)(ii) of ILSA (12 U.S.C. 3907(b)(2)(B)(ii)) and to section 8(i) of the FDIA (12 U.S.C. 1818(i)), in the same manner and to the same extent as if the directive were a final cease-and-desist order.

(2) The Board, pursuant to section 910(d) of ILSA (12 U.S.C. 3909(d)), may also assess civil money penalties for violation of the directive against any bank or bank holding company and any institution-affiliated party of the bank or bank holding company, in the same manner and to the same extent as if the directive were a final cease-and-desist order.

(b) Other enforcement actions. A directive may be issued separately, in conjunction with, or in addition to any other enforcement actions available to the Board, including issuance of cease-and-desist orders, the approval or denial of applications or notices, or any other actions authorized by law.

(c) Consideration in application proceedings. In acting upon any application or notice submitted to the Board pursuant to any statute administered by the Board, the Board may consider the progress of a state member bank or bank holding company or any subsidiary thereof in adhering to any directive or capital adequacy plan required by the Board pursuant to this subpart, or by any other appropriate banking supervisory agency pursuant to ILSA. The Board shall consider whether approval or a notice of intent not to disapprove would divert earnings, diminish capital, or otherwise impede the bank or bank holding company in achieving its required minimum capital level or complying with its capital adequacy plan.

§ 263.85 Establishment of increased capital level for specific institutions.

(a) Establishment of capital levels for specific institutions. The Board may establish a capital level higher than the minimum specified in the Board’s Capital Adequacy Guidelines for a specific bank or bank holding company pursuant to:

(1) A written agreement or memorandum of understanding between the Board or the appropriate Federal Reserve Bank and the bank or bank holding company;

(2) A temporary or final cease-and-desist order issued pursuant to section 8(b) or (c) of the FDIA (12 U.S.C. 1818(b) or (c));

(3) A condition for approval of an application or issuance of a notice of intent not to disapprove a proposal;

(4) Or other similar means; or

(5) The procedures set forth in paragraph (b) of this section.

(b) Procedure to establish higher capital requirement—(1) Notice. When the Board determines that capital levels above those in the Board’s Capital Adequacy Guidelines may be necessary and appropriate for a particular bank or bank holding company under the circumstances, the Board shall give the bank or bank holding company notice of the proposed higher capital requirement and shall permit the bank or bank holding company an opportunity to comment upon the proposed capital level, whether it should be required and, if so, under what time schedule. The notice shall contain the Board’s reasons for proposing a higher level of capital.

(2) Response. The bank or bank holding company shall be allowed at least 14 days to respond, unless the Board determines that a shorter period is necessary because of the financial condition of the bank or bank holding company. Failure by the bank or bank
holding company to file a written re-
response to the notice within the time
set by the Board shall constitute a
waiver of the opportunity to respond
and shall constitute consent to
issuance of a directive containing the
required minimum capital level.

(3) Board decision. After considering
the response of the institution, the
Board may issue a written directive to
the bank or bank holding company set-
ting an appropriate capital level and
the date on which this capital level
will become effective. The Board may
require the bank or bank holding com-
pany to submit and adhere to a plan for
achieving such higher capital level as
the Board may set.

(4) Enforcement of higher capital level.
The Board may enforce the capital
level established pursuant to the proce-
dures described in this section and any
plan submitted to achieve that capital
level through the procedures set forth
in §263.84 of this subpart.

Subpart F—Practice Before the
Board

§ 263.90 Scope.

This subpart prescribes rules relating
to general practice before the Board on
one’s own behalf or in a representa-
tional capacity, including the cir-
cumstances under which disciplinary
sanctions—censure, suspension, or de-
barment—may be imposed upon per-
sons appearing in a representational
capacity, including attorneys and ac-
countants, but not including employees
of the Board. These disciplinary sanc-
tions, which continue in effect beyond
the duration of a specific proceeding,
supplement the provisions of §263.6(b)
of subpart A, which address control of
a specific proceeding.

§ 263.91 Censure, suspension or debar-
ment.

The Board may censure an individual
or suspend or debar such individual
from practice before the Board if he or
she engages, or has engaged, in conduct
warranting sanctions as set forth in
§263.94; refuses to comply with the
rules and regulations in this part; or
with intent to defraud in any manner,
willfully and knowingly deceives, mis-
leads, or threatens any client or pro-
spective client. The suspension or de-
barment of an individual shall be initi-
ated only upon a finding by the Board
that the conduct that forms the basis
for the disciplinary action is egregious.

§ 263.92 Definitions.

(a) As used in this subpart, the fol-
lowing terms shall have the meaning
given in this section unless the context
otherwise requires.

(b)(1) Practice before the Board in-
cludes any matters connected with
presentations to the Board or to any of
its officers or employees relating to a
client’s rights, privileges or liabilities
under laws or regulations administered
by the Board. Such matters include,
but are not limited to, the preparation
of any statement, opinion or other
paper or document by an attorney, ac-
countant, or other licensed profes-
sional which is filed with, or submitted
to, the Board, on behalf of another per-
son in, or in connection with, any ap-

d review to the Board on behalf of another

(2) Practice before the Board does not
include work prepared for an institu-
tion solely at its request for use in the
ordinary course of its business.

(c) Attorney means any individual
who is a member in good standing of
the bar of the highest court of any
state, possession, territory, common-
wealth, or the District of Columbia.

(d) Accountant means any individual
who is duly qualified to practice as a
certified public accountant or a public
accountant in any state, possession,
territory, commonwealth, or the Dis-

§ 263.93 Eligibility to practice.

(a) Attorneys. Any attorney who is
qualified to practice as an attorney and
is not currently under suspension or
debarment pursuant to this subpart
may practice before the Board.

(b) Accountants. Any accountant who
is qualified to practice as a certified
public accountant or public accountant
and is not currently under suspension
or debarment by the Board may prac-
tice before the Board.
§ 263.94 Conduct warranting sanctions.

Conduct for which an individual may be censured, debarred or suspended from practice before the Board includes, but is not limited to:

(a) Willfully or recklessly violating or willfully or recklessly aiding and abetting the violation of any provision of the Federal banking or applicable securities laws or the rules and regulations thereunder or conviction of any offense involving dishonesty or breach of trust;

(b) Knowingly or recklessly giving false or misleading information, or participating in any way in the giving of false information to the Board or to any Board officer or employee, or to any tribunal authorized to pass upon matters administered by the Board in connection with any matter pending or likely to be pending before it. The term “information” includes facts or other statements contained in testimony, financial statements, applications, affidavits, declarations, or any other document or written or oral statement;

(c) Directly or indirectly attempting to influence, or offering or agreeing to attempt to influence, the official action of any officer or employee of the Board by the use of threats, false accusations, duress or coercion, by the offer of any special inducement or promise of advantage or by the bestowing of any gift, favor, or thing of value;

(d) Disharmony or suspension from practice as an attorney, or debarment or suspension from practice as a certified public accountant or public accountant, by any duly constituted authority of any state, possession, commonwealth, or the District of Columbia for the conviction of a felony or misdemeanor involving personal dishonesty or breach of trust in matters relating to the supervisory responsibilities of the Board, where the conviction has not been reversed on appeal;

(e) Knowingly aiding or abetting another individual to practice before the Board during that individual’s period of suspension, debarment, or ineligibility;

(f) Contemptuous conduct in connection with practice before the Board, and knowingly making false accusations and statements, or circulating or publishing malicious or libelous matter;

(g) Suspension or debarment from practice before the Board; and

(h) Willful or knowing violation of any of the regulations contained in this part.

§ 263.95 Initiation of disciplinary proceeding.

(a) Receipt of information. An individual, including any employee of the Board, who has reason to believe that an individual practicing before the Board in a representative capacity has engaged in any conduct that would serve as a basis for censure, suspension or debarment under § 263.94, may make a report thereof and forward it to the Board.

(b) Censure without formal proceeding. Upon receipt of information regarding an individual’s qualification to practice before the Board, the Board may, after giving the individual notice and opportunity to respond, censure such individual.

(c) Institution of formal disciplinary proceeding. When the Board has reason to believe that any individual who practices before the Board in a representative capacity has engaged in conduct that would serve as a basis for censure, suspension or debarment under § 263.94 the Board may, after giving the individual notice and opportunity to respond, institute a formal disciplinary proceeding against such individual. The proceeding shall be conducted pursuant to § 263.97 and shall be initiated by a complaint issued by the Board that names the individual as a respondent. Except in cases when time, the nature of the proceeding, or the public interest do not permit, a proceeding under this section shall not be instituted until the respondent has been informed, in writing, of the facts or conduct which warrant institution of a proceeding and the respondent has been accorded the opportunity to comply with all lawful requirements or
§ 263.96 Conferences.

(a) General. The Board’s staff may confer with a proposed respondent concerning allegations of misconduct or other grounds for censure, debarment or suspension, regardless of whether a proceeding for debarment or suspension has been instituted. If a conference results in a stipulation in connection with a proceeding in which the individual is the respondent, the stipulation may be entered in the record at the request of either party to the proceeding.

(b) Resignation or voluntary suspension. In order to avoid the institution of, or a decision in, a debarment or suspension proceeding, a person who practices before the Board may consent to suspension from practice. At the discretion of the Board, the individual may be suspended or debarred in accordance with the consent offered.

§ 263.97 Proceedings under this subpart.

Except as otherwise provided in this subpart, any hearing held under this subpart shall be held before an administrative law judge of the OFIA pursuant to procedures set forth in subparts A and B of this part. The Board shall appoint a person to represent the Board in the hearing. Any person having prior involvement in the matter which is the basis for the suspension or debarment proceeding shall be disqualified from representing the Board in the hearing. The hearing shall be closed to the public unless the Board, sua sponte or on the request of a party, otherwise directs. The administrative law judge shall refer a recommended decision to the Board, which shall issue the final decision and order. In its final decision and order, the Board may censure, debar or suspend an individual, or take such other disciplinary action as the Board deems appropriate.

§ 263.98 Effect of suspension, debarment or censure.

(a) Debarment. If the final order against the respondent is for debarment, the individual will not thereafter be permitted to practice before the Board unless otherwise permitted to do so by the Board pursuant to § 263.99 of this subpart.

(b) Suspension. If the final order against the respondent is for suspension, the individual will not thereafter be permitted to practice before the Board during the period of suspension.

(c) Censure. If the final order against the respondent is for censure, the individual may be permitted to practice before the Board, but such individual’s future representations may be subject to conditions designed to promote high standards of conduct. If a written letter of censure is issued, a copy will be maintained in the Board’s files.

(d) Notice of debarment or suspension. Upon the issuance of a final order for suspension or debarment, the Board shall give notice of the order to appropriate officers and employees of the Board, to interested departments and agencies of the Federal Government, and to the appropriate authorities of the State in which any debarred or suspended individual is or was licensed to practice.

§ 263.99 Petition for reinstatement.

The Board may entertain a petition for reinstatement from any person debarred from practice before the Board. The Board shall grant reinstatement only if the Board finds that the petitioner is likely to act in accordance with the regulations in this part, and that granting reinstatement would not be contrary to the public interest. Any request for reinstatement shall be limited to written submissions unless the Board, in its discretion, affords the petitioner an informal hearing.

Subpart G—Rules Regarding Claims Under the Equal Access to Justice Act

§ 263.100 Authority and scope.

This subpart implements the provisions of the Equal Access to Justice Act (5 U.S.C. 504) as they apply to formal adversary adjudications before the Board. The types of proceedings covered by this subpart are listed in §§ 263.1 and 263.50.
A respondent in a covered proceeding that prevails on the merits of that proceeding against the Board, and that is eligible under this subpart as defined in §263.103, may receive an award for fees and expenses incurred in the proceeding unless the position of the Board during the proceeding, the action or failure to act by the Board upon which the adversary proceeding was based, is substantially justified or special circumstances make an award unjust. The position of the Board includes, in addition to the position taken by the Board in the adversary proceeding, the action or failure to act by the Board upon which the adversary proceeding was based. An award will be reduced or denied if the applicant has unduly or unreasonably protracted the proceedings.

Only an eligible applicant that prevailed on the merits of an adversary proceeding may qualify for an award under this subpart.

Eligibility of applicants.

(a) General rule. To be eligible for an award under this subpart, an applicant must have been named as a party to the adjudicatory proceeding and show that it meets all other conditions of eligibility set forth in paragraphs (b) and (c) of this section.

(b) Types of eligible applicant. An applicant is eligible for an award only if it meets at least one of the following descriptions:

(1) An individual with a net worth of not more than $2 million at the time the adversary adjudication was initiated;

(2) Any sole owner of an unincorporated business, or any partnership, corporation, associations, unit of local government or organization, the net worth of which did not exceed $7,000,000 and which did not have more than 500 employees at the time the adversary proceeding was initiated;

(3) A charitable or other tax-exempt organization described in section 501(c)(3) of the Internal Revenue Code (26 U.S.C. 501(c)(3)) with not more than 500 employees at the time the adversary proceeding was initiated; or

(4) A cooperative association as defined in section 15(a) of the Agricultural Marketing Act (12 U.S.C. 1141j(a)) with not more than 500 employees at the time the adversary proceeding was initiated.

(c) Factors to be considered. In determining the eligibility of an applicant:

(1) An applicant who owns an unincorporated business shall be considered as an individual rather than a sole owner of an unincorporated business if the issues on which he or she prevailed are related to personal interests rather than to business interests.

(2) An applicant’s net worth includes the value of any assets disposed of for the purpose of meeting an eligibility standard and excludes the value of any obligations incurred for this purpose. Transfers of assets or obligations incurred for less than reasonably equivalent value will be presumed to have been made for this purpose.

(3) The net worth of a financial institution shall be established by the net worth information reported in conformity with applicable instructions and guidelines on the financial institution’s financial report to its supervisory agency for the last reporting date before the initiation of the adversary proceeding. A bank holding company’s net worth will be considered on a consolidated basis even if the bank holding company is not required to file its regulatory reports to the Board on a consolidated basis.

(4) The employees of an applicant include all those persons who were regularly providing services for remuneration for the applicant, under its direction and control, on the date the adversary proceeding was initiated. Part-time employees are counted on a proportional basis.

(5) The net worth and number of employees of the applicant and all of its affiliates shall be aggregated to determine eligibility. As used in this subpart, affiliates are: Individuals, corporations, and entities that directly or indirectly or acting through one or more entities control at least 25% of the voting shares of the applicant, and corporations and entities of which the applicant directly or indirectly owns or controls at least 25% of the voting shares. The Board may determine, in light of the actual relationship among the affiliated entities, that aggregation
§ 263.104 Application for awards.

(a) Time to file. An application and any other pleading or document related to the application may be filed with the Board whenever the applicant has prevailed in the proceeding within 30 days after service of the final order of the Board disposing of the proceeding.

(b) Contents. An application for an award of fees and expenses under this subpart shall contain:

(1) The name of the applicant and an identification of the proceeding;

(2) A showing that the applicant has prevailed, and an identification of the way in which the applicant believes that the position of the Board in the proceeding was not substantially justified;

(3) If the applicant is not an individual, a statement of the number of its employees on the date the proceeding was initiated;

(4) A description of any affiliated individuals or entities, as defined in § 263.103(c)(5), or a statement that none exist;

(5) A declaration that the applicant, together with any affiliates, had a net worth not more than the maximum set forth in § 263.103(b) as of the date the proceeding was initiated, supported by a net worth statement conforming to the requirements of § 263.105;

(6) A statement of the amount of fees and expenses for which an award is sought conforming to §263.107; and

(7) Any other matters that the applicant wishes the Board to consider in determining whether and in what amount an award should be made.

(c) Verification. The application shall be signed by the applicant or an authorized officer of or attorney for the applicant. It shall also contain or be accompanied by a written verification under oath or under penalty of perjury that the information provided in the application and supporting documents is true and correct.

(d) Service. The application and related documents shall be served on all parties to the adversary proceeding in accordance with §263.11, except that statements of net worth shall be served only on counsel for the Board.

(e) Presiding officer. Upon receipt of an application, the Board shall, if feasible, refer the matter to the administrative law judge who heard the underlying adversary proceeding.

§ 263.105 Statement of net worth.

(a) General rule. A statement of net worth shall be filed with the application for an award of fees. The statement shall reflect the net worth of the applicant and all affiliates of the applicant, as specified in §263.103(c)(5). In all cases, the administrative law judge or the Board may call for additional information needed to establish the applicant’s net worth as of the initiation of the proceeding.

(b) Contents. (1) Except as otherwise provided herein, the statement of net worth may be in any form convenient to the applicant which fully discloses all the assets and liabilities of the applicant and all the assets and liabilities of its affiliates, as of the time of the initiation of the adversary adjudication. Unaudited financial statements are acceptable for individual applicants as long as the statement provides a reliable basis for evaluation, unless the administrative law judge or the Board otherwise requires. Financial statements or reports filed with or reported to a Federal or State agency, prepared before the initiation of the adversary proceeding for other purposes, and accurate as of a date not more than three months prior to the initiation of the proceeding, shall be acceptable in establishing net worth as of the time of the initiation of the proceeding, unless the administrative law judge or the Board otherwise requires.

(2) In the case of applicants or affiliates that are not banks, net worth shall be considered for the purposes of this subpart to be the excess of total assets over total liabilities, as of the date the underlying proceeding was initiated, except as adjusted under...
§ 263.103(c)(5). The net worth of a bank holding company shall be considered on a consolidated basis. Assets and liabilities of individuals shall include those beneficially owned.

(3) If the applicant or any of its affiliates is a bank, the portion of the statement of net worth which relates to the bank shall consist of a copy of the bank’s last Consolidated Report of Condition and Income filed before the initiation of the adversary adjudication. Net worth shall be considered for the purposes of this subpart to be the total equity capital (or, in the case of mutual savings banks, the total surplus accounts) as reported, in conformity with applicable instructions and guidelines, on the bank’s Consolidated Report of Condition and Income filed for the last reporting date before the initiation of the proceeding.

(c) Statement confidential. Unless otherwise ordered by the Board or required by law, the statement of net worth shall be for the confidential use of the Board, counsel for the Board, and the administrative law judge.

§ 263.106 Measure of awards.

(a) General rule. Awards shall be based on rates customarily charged by persons engaged in the business of acting as attorneys, agents, and expert witnesses, provided that no award under this subpart for the fee of an attorney or agent shall exceed $75 per hour. No award to compensate an expert witness shall exceed the highest rate at which the Board pays expert witnesses. An award may include the reasonable expenses of the attorney, agent, or expert witness as a separate item, if the attorney, agent, or expert witness ordinarily charges clients separately for such expenses.

(b) Determination of reasonableness of fees. In determining the reasonableness of the fee sought for an attorney, agent, or expert witness, subject to the limits set forth above, the administrative law judge shall consider the following:

(1) If the attorney, agent, or expert witness is in private practice, his or her customary fee for like services;

(2) The prevailing rate for similar services in the community in which the attorney, agent, or expert witness ordinarily performs services;

(3) The time actually spent in the representation of the applicant;

(4) The time reasonably spent in light of the difficulty or complexity of the issues in the proceeding; and

(5) Such other factors as may bear on the value of the services provided.

(c) Awards for studies. The reasonable cost of any study, analysis, test, project, or similar matter prepared on behalf of an applicant may be awarded to the extent that the charge for the service does not exceed the prevailing rate payable for similar services, and the study or other matter was necessary solely for preparation of the applicant’s case and not otherwise required by law or sound business or financial practice.

§ 263.107 Statement of fees and expenses.

The application shall be accompanied by a statement fully documenting the fees and expenses for which an award is sought. A separate itemized statement shall be submitted for each professional firm or individual whose services are covered by the application, showing the hours spent in work in connection with the proceeding by each individual, a description of the specific services performed, the rate at which each fee has been computed, any expenses for which reimbursement is sought, the total amount claimed, and the total amount paid or payable by the applicant or by any other person or entity for the services performed. The administrative law judge or the Board may require the applicant to provide vouchers, receipts, or other substantiation for any expenses claimed.

§ 263.108 Responses to application.

(a) By counsel for the Board. (1) Within 20 days after service of an application, counsel for the Board may file an answer to the application.

(2) The answer shall explain in detail any objections to the award requested and identify the facts relied on in support of the Board’s position. If the answer is based on any alleged facts not already in the record of the proceeding,
§ 263.109 Further proceedings.

(a) General rule. The determination of a recommended award shall be made by the administrative law judge on the basis of the written record of the adversary adjudication, including any supporting affidavits submitted in connection with the application, unless, on the motion of either the applicant or Board counsel, or sua sponte, the administrative law judge or the Board orders further proceedings to amplify the record such as an informal conference, oral argument, additional written submissions, or an evidentiary hearing. Such further proceedings shall be held only when necessary for full and fair resolution of the issues arising from the application and shall be conducted promptly and expeditiously.

(b) Request for further proceedings. A request for further proceedings under this section shall specifically identify the information sought or the issues in dispute and shall explain why additional proceedings are necessary.

(c) Hearing. The administrative law judge shall hold an oral evidentiary hearing only on disputed issues of material fact which cannot be adequately resolved through written submissions.

§ 263.110 Recommended decision.

The administrative law judge shall file with the Board a recommended decision on the fee application not later than 30 days after the submission of all pleadings and evidentiary material concerning the application. The recommended decision shall include written proposed findings and conclusions on the applicant’s eligibility and its status as a prevailing party and, if applicable, an explanation of the reasons for any difference between the amount requested and the amount of the recommended award. The recommended decision shall also include, if at issue, proposed findings as to whether the Board’s position was substantially justified, whether the applicant unduly protracted the proceedings, or whether special circumstances make an award unjust. The administrative law judge shall file the record of the proceeding on the fee application upon the filing of the recommended decision and, at the same time, serve upon each party a copy of the recommended decision, findings, conclusions, and proposed order.

§ 263.111 Action by the Board.

(a) Exceptions to recommended decision. Within 20 days after service of the recommended decision, findings, conclusions, and proposed order, the applicant or counsel for the Board may file written exceptions thereto. A supporting brief may also be filed.

(b) Decision by the Board. The Board shall render its decision within 90 days after it has notified the parties that the matter has been received for decision. The Board shall serve copies of the decision and order of the Board upon the parties. Judicial review of the decision and order may be obtained as provided in 5 U.S.C. 504(c)(2).

Subpart H—Issuance and Review of Orders Pursuant to Prompt Corrective Action Provisions of the Federal Deposit Insurance Act

SOURCE: 57 FR 44888, Sept. 29, 1992, unless otherwise noted.
§ 263.201 Scope.

(a) The rules and procedures set forth in this subpart apply to state member banks, companies that control state member banks or are affiliated with such banks, and senior executive officers and directors of state member banks that are subject to the provisions of section 38 of the Federal Deposit Insurance Act (section 38) and subpart D of part 208 of this chapter.

(b) [Reserved]

[57 FR 44888, Sept. 29, 1992, as amended at 63 FR 58621, Nov. 2, 1998]

§ 263.202 Directives to take prompt regulatory action.

(a) Notice of intent to issue directive—

(1) In general. The Board shall provide an undercapitalized, significantly undercapitalized, or critically undercapitalized state member bank or, where appropriate, any company that controls the bank, prior written notice of the Board's intention to issue a directive requiring such bank or company to take actions or to follow proscriptions described in section 38 that are within the Board's discretion to require or impose under section 38 of the FDI Act, including sections 38(e)(5), (f)(2), (f)(3), or (f)(5). The bank shall have such time to respond to a proposed directive as provided by the Board under paragraph (c) of this section.

(2) Immediate issuance of final directive. If the Board finds it necessary in order to carry out the purposes of section 38 of the FDI Act, the Board may, without providing the notice prescribed in paragraph (a)(1) of this section, issue a directive requiring a state member bank or any company that controls a state member bank immediately to take actions or to follow proscriptions described in section 38 that are within the Board's discretion to require or impose under section 38 of the FDI Act, including section 38(e)(5), (f)(2), (f)(3), or (f)(5). A bank or company that is subject to such an immediately effective directive may submit a written appeal of the directive to the Board. Such an appeal must be received by the Board within 14 calendar days of the issuance of the directive, unless the Board permits a longer period. The Board shall consider any such appeal, if filed in a timely matter, within 60 days of receiving the appeal. During such period of review, the directive shall remain in effect unless the Board, in its sole discretion, stays the effectiveness of the directive.

(b) Contents of notice. A notice of intention to issue a directive shall include:

(1) A statement of the bank's capital measures and capital levels;

(2) A description of the restrictions, prohibitions, or affirmative actions that the Board proposes to impose or require;

(3) The proposed date when such restrictions or prohibitions would be effective or the proposed date for completion of such affirmative actions; and

(4) The date by which the bank or company subject to the directive may file with the Board a written response to the notice.

(c) Response to notice—(1) Time for response. A bank or company may file a written response to a notice of intent to issue a directive within the time period set by the Board. The date shall be at least 14 calendar days from the date of the notice unless the Board determines that a shorter period is appropriate in light of the financial condition of the bank or other relevant circumstances.

(2) Content of response. The response should include:

(i) An explanation why the action proposed by the Board is not an appropriate exercise of discretion under section 38;

(ii) Any recommended modification of the proposed directive; and

(iii) Any other relevant information, mitigating circumstances, documentation, or other evidence in support of the position of the bank or company regarding the proposed directive.

(d) Board consideration of response. After considering the response, the Board may:

(1) Issue the directive as proposed or in modified form;

(2) Determine not to issue the directive and so notify the bank or company; or

(3) Seek additional information or clarification of the response from the
§ 263.203 Procedures for reclassifying a state member bank based on criteria other than capital.

(a) Reclassification based on unsafe or unsound condition or practice—

(1) Issuance of notice of proposed reclassification—

(i) Grounds for reclassification.

(A) Pursuant to §208.43(c) of Regulation H (12 CFR 208.43(c)), the Board may reclassify a well capitalized bank as adequately capitalized or subject an adequately capitalized or undercapitalized institution to the supervisory actions applicable to the next lower capital category if:

(I) The Board determines that the bank is in unsafe or unsound condition; or

(ii) The Board deems the bank to be engaged in an unsafe or unsound practice and not to have corrected the deficiency.

(B) Any action pursuant to this paragraph (a)(1)(i) shall hereinafter be referred to as “reclassification.”

(ii) Prior notice to institution. Prior to taking action pursuant to §208.33(c) of this chapter, the Board shall issue and serve on the bank a written notice of the Board’s intention to reclassify the bank.

(2) Contents of notice. A notice of intention to reclassify a bank based on unsafe or unsound condition shall include:

(i) A statement of the bank’s capital measures and capital levels and the category to which the bank would be reclassified;

(ii) The reasons for reclassification of the bank;

(iii) The date by which the bank subject to the notice of reclassification may file with the Board a written appeal of the proposed reclassification and a request for a hearing, which shall be at least 14 calendar days from the date of service of the notice unless the Board determines that a shorter period is appropriate in light of the financial condition of the bank or other relevant circumstances.

(3) Response to notice of proposed reclassification. A bank may file a written response to a notice of proposed reclassification within the time period set by the Board. The response should include:

(i) An explanation of why the bank is not in unsafe or unsound condition or otherwise should not be reclassified;

(ii) Any other relevant information, mitigating circumstances, documentation, or other evidence in support of the position of the bank or company regarding the reclassification.

(4) Failure to file response. Failure by a bank to file, within the specified time period, a written response with the Board to a notice of proposed reclassification shall constitute a waiver of the opportunity to respond and shall constitute consent to the reclassification.

(5) Request for hearing and presentation of oral testimony or witnesses. The response may include a request for an informal hearing before the Board or its designee under this section. If the bank desires to present oral testimony or witnesses at the hearing, the bank shall include a request to do so with the request for an informal hearing. A request to present oral testimony or witnesses shall specify the names of the witnesses and the general nature of their expected testimony. Failure to request a hearing shall constitute a waiver of any right to a hearing, and failure to request the opportunity to present oral testimony or witnesses shall constitute a waiver of any right to present oral testimony or witnesses.
(6) Order for informal hearing. Upon receipt of a timely written request that includes a request for a hearing, the Board shall issue an order directing an informal hearing to commence no later than 30 days after receipt of the request, unless the bank requests a later date. The hearing shall be held in Washington, DC or at such other place as may be designated by the Board, before a presiding officer(s) designated by the Board to conduct the hearing.

(7) Hearing procedures. (i) The bank shall have the right to introduce relevant written materials and to present oral argument at the hearing. The bank may introduce oral testimony and present witnesses only if expressly authorized by the Board or the presiding officer(s). Neither the provisions of the Administrative Procedure Act (5 U.S.C. 554–557) governing adjudications required by statute to be determined on the record nor the Uniform Rules of Practice and Procedure in subpart A of this part apply to an informal hearing under this section unless the Board orders that such procedures shall apply.

(ii) The informal hearing shall be recorded, and a transcript shall be furnished to the bank upon request and payment of the cost thereof. Witnesses need not be sworn, unless specifically requested by a party or the presiding officer(s). The presiding officer(s) may ask questions of any witness.

(iii) The presiding officer(s) may order that the hearing be continued for a reasonable period (normally five business days) following completion of oral testimony or argument to allow additional written submissions to the hearing record.

(8) Recommendation of presiding officers. Within 20 calendar days following the date the hearing and the record on the proceeding are closed, the presiding officer(s) shall make a recommendation to the Board on the reclassification.

(9) Time for decision. Not later than 60 calendar days after the date the record is closed or the date of the response in a case where no hearing was requested, the Board will decide whether to reclassify the bank and notify the bank of the Board’s decision.

(b) Request for rescission of reclassification. Any bank that has been reclassified under this section, may, upon a change in circumstances, request in writing that the Board reconsider the reclassification, and may propose that the reclassification be rescinded and that any directives issued in connection with the reclassification be modified, rescinded, or removed. Unless otherwise ordered by the Board, the bank shall remain subject to the reclassification and to any directives issued in connection with that reclassification while such request is pending before the Board.

§ 263.204 Order to dismiss a director or senior executive officer.

(a) Service of notice. When the Board issues and serves a directive on a state member bank pursuant to §263.202 requiring the bank to dismiss from office any director or senior executive officer under section 38(f) (2) (F) (ii) of the FDI Act, the Board shall also serve a copy of the directive, or the relevant portions of the directive where appropriate, upon the person to be dismissed.

(b) Response to directive—(1) Request for reinstatement. A director or senior executive officer who has been served with a directive under paragraph (a) of this section (Respondent) may file a written request for reinstatement. The request for reinstatement shall be filed within 10 calendar days of the receipt of the directive by the Respondent, unless further time is allowed by the Board at the request of the Respondent.

(2) Contents of request; informal hearing. The request for reinstatement shall include reasons why the Respondent should be reinstated, and may include a request for an informal hearing before the Board or its designee under this section. If the Respondent desires to present oral testimony or witnesses at the hearing, the Respondent shall include a request to do so with the request for an informal hearing. The request to present oral testimony or witnesses shall specify the names of the witnesses and the general nature of their expected testimony. Failure to request a hearing shall constitute a waiver of any right to a hearing and failure to request the opportunity to
§ 263.205 Enforcement of directives.

(a) Judicial remedies. Whenever a state member bank or company that controls a state member bank fails to comply with a directive issued under section 38, the Board may seek enforcement of the directive in the appropriate United States district court pursuant to section 8(1) (1) of the FDI Act.

(b) Administrative remedies—(1) Failure to comply with directive. Pursuant to section 8(1) (2) (A) of the FDI Act, the Board may assess a civil money penalty against any state member bank or company that controls a state member bank that violates or otherwise fails to comply with any final directive issued under section 38 and against any institution-affiliated party who participates in such violation or noncompliance.

(3) Effective date. Unless otherwise ordered by the Board, the dismissal shall remain in effect while a request for reinstatement is pending.

(c) Order for informal hearing. Upon receipt of a timely written request from a Respondent for an informal hearing on the portion of a directive requiring a bank to dismiss from office any director or senior executive officer, the Board shall issue an order directing an informal hearing to commence no later than 30 days after receipt of the request, unless the Respondent requests a later date. The hearing shall be held in Washington, DC, or at such other place as may be designated by the Board, before a presiding officer(s) designated by the Board to conduct the hearing.

(d) Hearing procedures. (1) A Respondent may appear at the hearing personally or through counsel. A Respondent shall have the right to introduce relevant written materials and to present oral argument. A Respondent may introduce oral testimony and present witnesses only if expressly authorized by the Board or the presiding officer(s). Neither the provisions of the Administrative Procedure Act governing adjudications required by statute to be determined on the record nor the Uniform Rules of Practice and Procedure in subpart A of this part apply to an informal hearing under this section unless the Board orders that such procedures shall apply.

(2) The informal hearing shall be recorded, and a transcript shall be furnished to the Respondent upon request and payment of the cost thereof. Witnesses need not be sworn, unless specifically requested by a party or the presiding officer(s). The presiding officer(s) may ask questions of any witness.

(3) The presiding officer(s) may order that the hearing be continued for a reasonable period (normally five business days) following completion of oral testimony or argument to allow additional written submissions to the hearing record.

(e) Standard for review. A Respondent shall bear the burden of demonstrating that his or her continued employment by or service with the bank would materially strengthen the bank’s ability:

(1) To become adequately capitalized, to the extent that the directive was issued as a result of the bank’s capital level or failure to submit or implement a capital restoration plan; and

(2) To correct the unsafe or unsound condition or unsafe or unsound practice, to the extent that the directive was issued as a result of classification of the bank based on supervisory criteria other than capital, pursuant to section 38(g) of the FDI Act.

(f) Recommendation of presiding officers. Within 20 calendar days following the date the hearing and the record on the proceeding are closed, the presiding officer(s) shall make a recommendation to the Board concerning the Respondent’s request for reinstatement with the bank.

(g) Time for decision. Not later than 60 calendar days after the date the record is closed or the date of the response in a case where no hearing was requested, the Board shall grant or deny the request for reinstatement and notify the Respondent of the Board’s decision. If the Board denies the request for reinstatement, the Board shall set forth in the notification the reasons for the Board’s action.
Federal Reserve System

§ 263.303

(2) Failure to implement capital restoration plan. The failure of a bank to implement a capital restoration plan required under section 38, subpart D of Regulation H (12 CFR part 208, subpart D), or this subpart, or the failure of a company having control of a bank to fulfill a guarantee of a capital restoration plan made pursuant to section 38 (e) (2) of the FDI Act shall subject the bank or company to the assessment of civil money penalties pursuant to section 8(i)(2)(A) of the FDI Act.

§ 263.302 Determination and notification of failure to meet safety and soundness standard and request for compliance plan.

(a) Determination. The Board may, based upon an examination, inspection, or any other information that becomes available to the Board, determine that a bank has failed to satisfy the safety and soundness standards contained in the Interagency Guidelines Establishing Standards for Safety and Soundness or the Interagency Guidelines Establishing Standards for Safeguarding Customer Information, set forth in appendices D–1 and D–2 to part 208 of this chapter, respectively.

(b) Request for compliance plan. If the Board determines that a State member bank has failed a safety and soundness standard pursuant to paragraph (a) of this section, the Board may request, by letter or through a report of examination, the submission of a compliance plan, and the bank shall be deemed to have notice of the request three days after mailing of the letter by the Board or delivery of the report of examination.

§ 263.303 Filing of safety and soundness compliance plan.

(a) Schedule for filing compliance plan—(1) In general. A State member bank shall file a written safety and soundness compliance plan with the Board within 30 days of receiving a request for a compliance plan pursuant to §263.302(b), unless the Board notifies the bank in writing that the plan is to be filed within a different period.

(2) Other plans. If a State member bank is obligated to file, or is currently operating under, a capital restoration plan submitted pursuant to section 38 of the FDI Act (12 U.S.C. 1831o), a cease-and-desist order entered into pursuant to section 8 of the FDI Act, a formal or informal agreement, or a response to a report of examination or

Subpart I—Submission and Review of Safety and Soundness Compliance Plans and Issuance of Orders To Correct Safety and Soundness Deficiencies

Source: 60 FR 35682, July 10, 1995, unless otherwise noted.

§ 263.300 Scope.

The rules and procedures set forth in this subpart apply to State member banks that are subject to the provisions of section 39 of the Federal Deposit Insurance Act (section 39) (12 U.S.C. 1831p–1).

§ 263.301 Purpose.

Section 39 of the FDI Act requires the Board to establish safety and soundness standards. Pursuant to section 39, a bank may be required to submit a compliance plan if it is not in compliance with a safety and soundness standard established by guideline under section 39(a) or (b). An enforceable order under section 8 may be issued if, after being notified that it is in violation of a safety and soundness standard established under section 39, the bank fails to submit an acceptable compliance plan or fails in any material respect to implement an accepted plan. This subpart establishes procedures for requiring submission of a compliance plan and issuing an enforceable order pursuant to section 39.
§ 263.304 Issuance of orders to correct deficiencies and to take or refrain from taking other actions.

(a) Notice of intent to issue order—(1) In general. The Board shall provide a bank prior written notice of the Board’s intention to issue an order requiring the bank to correct a safety and soundness deficiency or to take or refrain from taking other actions pursuant to section 39 of the FDI Act. The bank shall have such time to respond to a proposed order as provided by the Board under paragraph (c) of this section.

(b) Contents of notice. A notice of intent to issue an order shall include:

(1) A statement of the safety and soundness deficiency or deficiencies that have been identified at the bank;

(2) A description of any restrictions, prohibitions, or affirmative actions that the Board proposes to impose or require;

(3) The proposed date when such restrictions or prohibitions would be effective or the proposed date for completion of any required action; and

(4) The date by which the bank must complete any response that the Board may require.

§ 263.304 Amendment of compliance plan. A State member bank that has filed an approved compliance plan may, after prior written notice to and approval by the Board, amend the plan to reflect a change in circumstance. Until such time as a proposed amendment has been approved, the bank shall implement the compliance plan as previously approved.
§ 263.401 Definitions.

(a) Accounting firm means a corporation, proprietorship, partnership, or other business firm providing audit services.

(b) Audit services means any service required to be performed by an independent public accountant by section 36 of the Federal Deposit Insurance Act (12 U.S.C. 1831m(g)(4)).
§ 263.402 Removal, suspension, or debarment.

(a) Good cause for removal, suspension, or debarment—(1) Individuals. The Board may remove, suspend, or debar an independent public accountant from performing audit services for banking organizations that are subject to section 36 of the FDIA, if, after notice of and opportunity for hearing in the matter, the Board finds that the accountant:

(i) Lacks the requisite qualifications to perform audit services;

(ii) Has knowingly or recklessly engaged in conduct that results in a violation of applicable professional standards, including those standards and conflict of interest provisions applicable to accountants through the Sarbanes-Oxley Act of 2002, Pub. L. 107–204, 116 Stat. 745 (2002) (Sarbanes-Oxley Act), and developed by the Public Company Accounting Oversight Board and the Securities and Exchange Commission;

(iii) Has engaged in negligent conduct in the form of:

(A) A single instance of highly unreasonable conduct that results in a violation of applicable professional standards in circumstances in which an accountant knows, or should know, that heightened scrutiny is warranted; or

(B) Repeated instances of unreasonable conduct, each resulting in a violation of applicable professional standards, that indicate a lack of competence to perform audit services;

(iv) Has knowingly or recklessly given false or misleading information, or knowingly or recklessly participated in any way in the giving of false or misleading information, to the Board or any officer or employee of the Board;

(v) Has engaged in, or aided and abetted, a material and knowing or reckless violation of any provision of the Federal banking or securities laws or the rules and regulations thereunder, or any other law;

(vi) Has been removed, suspended, or debarred from practice before any Federal or state agency regulating the banking, insurance, or securities industries, other than by an action listed in §263.403, on grounds relevant to the provision of audit services; or

(vii) Is suspended or debarred for cause from practice as an accountant by any duly constituted licensing authority of any state, possession, commonwealth, or the District of Columbia.

(2) Accounting firms. If the Board determines that there is good cause for the removal, suspension, or debarment of a member or employee of an accounting firm under paragraph (a)(1) of this section, the Board also may remove, suspend, or debar such firm or one or more offices of such firm. In considering whether to remove, suspend, or debar a firm or an office thereof, and the term of any sanction against a firm under this section, the Board may consider, for example:

(i) The gravity, scope, or repetition of the act or failure to act that constitutes good cause for removal, suspension, or debarment;

(ii) The adequacy of, and adherence to, applicable policies, practices, or procedures for the accounting firm’s conduct of its business and the performance of audit services;

(iii) The selection, training, supervision, and conduct of members or employees of the accounting firm involved in the performance of audit services;

(iv) The extent to which managing partners or senior officers of the accounting firm have participated, directly, or indirectly through oversight or review, in the act or failure to act; and

(v) The extent to which the accounting firm has, since the occurrence of the act or failure to act, implemented
corrective internal controls to prevent its recurrence.

(3) **Limited scope orders.** An order of removal, suspension (including an immediate suspension), or debarment may, at the discretion of the Board, be made applicable to a particular banking organization or class of banking organizations.

(4) **Remedies not exclusive.** The remedies provided in this subpart are in addition to any other applicable provisions of law, rule, or regulation.

(b) **Proceedings to remove, suspend, or debar—(1) Initiation of formal removal, suspension, or debarment proceedings.** The Board may initiate a proceeding to remove, suspend, or debar an accountant or accounting firm from performing audit services by issuing a written notice of intention to take such action that names the individual or firm as a respondent and describes the nature of the conduct that constitutes good cause for such action.

(2) **Hearing under paragraph (b) of this section.** An accountant or firm named as a respondent in the notice issued under paragraph (b)(1) of this section may request a hearing on the allegations in the notice. Hearings conducted under this paragraph shall be conducted in the same manner as other hearings under the Uniform Rules of Practice and Procedure (12 CFR part 263, subpart A).

(c) **Immediate suspension from performing audit services—(1) In general.** If the Board serves a written notice of intention to remove, suspend, or debar an accountant or accounting firm from performing audit services, the Board may, with due regard for the public interest and without a preliminary hearing, immediately suspend such accountant or firm from performing audit services for banking organizations, if the Board:

(i) Has a reasonable basis to believe that the accountant or firm has engaged in conduct (specified in the notice served on the accountant or firm under paragraph (b) of this section) that would constitute grounds for removal, suspension, or debarment under paragraph (a) of this section;

(ii) Determines that immediate suspension is necessary to avoid imme-

diate harm to an insured depository institution or its depositors or to the depository system as a whole; and

(iii) Serves such respondent with written notice of the immediate suspension.

(2) **Procedures.** An immediate suspension notice issued under this paragraph will become effective upon service. Such suspension will remain in effect until the date the Board dismisses the charges contained in the notice of intention, or the effective date of a final order of removal, suspension, or debarment issued by the Board to the respondent.

(3) **Petition to stay.** Any accountant or firm immediately suspended from performing audit services in accordance with paragraph (c)(1) of this section may, within 10 calendar days after service of the notice of immediate suspension, file with the Secretary, Board of Governors of the Federal Reserve System, Washington, DC 20551 for a stay of such immediate suspension. If no petition is filed within 10 calendar days, the immediate suspension shall remain in effect.

(4) **Hearing on petition.** Upon receipt of a stay petition, the Secretary will designate a presiding officer who shall fix a place and time (not more than 10 calendar days after receipt of the petition, unless extended at the request of petitioner) at which the immediately suspended party may appear, personally or through counsel, to submit written materials and oral argument. Any Board employee engaged in investigative or prosecuting functions for the Board in a case may not, in that or a factually related case, serve as a presiding officer or participate or advise in the decision of the presiding officer or of the Board, except as witness or counsel in the proceeding. In the sole discretion of the presiding officer, upon a specific showing of compelling need, oral testimony of witnesses may also be presented. In hearings held pursuant to this paragraph there shall be no discovery and the provisions of §§ 263.6 through 263.12, 263.16, and 263.21 of this part shall apply.

(5) **Decision on petition.** Within 30 calendar days after the hearing, the presiding officer shall issue a decision. The presiding officer will grant a stay
upon a demonstration that a substantial likelihood exists of the respondent’s success on the issues raised by the notice of intention and that, absent such relief, the respondent will suffer immediate and irreparable injury, loss, or damage. In the absence of such a demonstration, the presiding officer will notify the parties that the immediate suspension will be continued pending the completion of the administrative proceedings pursuant to the notice.

(6) Review of presiding officer’s decision. The parties may seek review of the presiding officer’s decision by filing a petition for review with the presiding officer within 10 calendar days after service of the decision. Replies must be filed within 10 calendar days after the petition filing date. Upon receipt of a petition for review and any reply, the presiding officer shall promptly certify the entire record to the Board. Within 60 calendar days of the presiding officer’s certification, the Board shall issue an order notifying the affected party whether or not the immediate suspension should be continued or reinstated. The order shall state the basis of the Board’s decision.

§ 263.403 Automatic removal, suspension, and debarment.

(a) An independent public accountant or accounting firm may not perform audit services for banking organizations if the accountant or firm:

(1) Is subject to a final order of removal, suspension, or debarment (other than a limited scope order) issued by the Federal Deposit Insurance Corporation, the Office of the Comptroller of the Currency, or the Office of Thrift Supervision under section 36 of the FDIA;

(2) Is subject to a temporary order of removal, suspension, or debarment (other than a limited scope order) issued by the Federal Deposit Insurance Corporation, the Office of the Comptroller of the Currency, or the Office of Thrift Supervision under section 36 of the FDIA;

(3) Is subject to an order of suspension or denial of the privilege of appearing or practicing before the Securities and Exchange Commission.

(b) Upon written request, the Board, for good cause shown, may grant written permission to such accountant or firm to perform audit services for banking organizations. The request shall contain a concise statement of the action requested. The Board may require the applicant to submit additional information.

§ 263.404 Notice of removal, suspension, or debarment.

(a) Notice to the public. Upon the issuance of a final order for removal, suspension, or debarment of an independent public accountant or accounting firm from providing audit services, the Board shall make the order publicly available and provide notice of the order to the other Federal banking agencies.

(b) Notice to the Board by accountants and firms. An accountant or accounting firm that provides audit services to a banking organization must provide the Board with written notice of:

(1) Any currently effective order or other action described in §§ 263.402(a)(1)(vi) through (a)(1)(vii) or §§ 263.403(a)(2) through (a)(3); and

(2) Any currently effective action by the Public Company Accounting Oversight Board under sections 105(c)(4)(C) or (G) of the Sarbanes-Oxley Act of 2002 (15 U.S.C. 7215(c)(4)(C) or (G)).

(c) Timing of notice. Written notice required by this paragraph shall be given no later than 15 calendar days following the effective date of an order or action, or 15 calendar days before an accountant or firm accepts an engagement to provide audit services, whichever date is earlier.

§ 263.405 Petition for reinstatement.

(a) Form of petition. Unless otherwise ordered by the Board, a petition for reinstatement by an independent public accountant, an accounting firm, or an office of a firm that was removed, suspended, or debarred under §263.402 may be made in writing at any time. The request shall contain a concise statement of the action requested. The Board may require the petitioner to submit additional information.
Federal Reserve System

(b) Procedure. A petitioner for reinstatement under this section may, in the sole discretion of the Board, be afforded a hearing. The accountant or firm shall bear the burden of going forward with a petition and proving the grounds asserted in support of the petition. The Board may, in its sole discretion, direct that any reinstatement proceeding be limited to written submissions. The removal, suspension, or debarment shall continue until the Board, for good cause shown, has reinstated the petitioner or until the suspension period has expired. The filing of a petition for reinstatement shall not stay the effectiveness of the removal, suspension, or debarment of an accountant or firm.

PART 264—EMPLOYEE RESPONSIBILITIES AND CONDUCT

§ 264.101 Cross-reference to employees' ethical conduct standards and financial disclosure regulations. Employees of the Board of Governors of the Federal Reserve System (Board) are subject to the executive branch-wide standards of ethical conduct at 5 CFR part 2635 and the Board’s regulation at 5 CFR part 6801, which supplements the executive branch-wide standards, and the executive branch-wide financial disclosure regulation at 5 CFR part 2634.

[61 FR 53830, Oct. 16, 1996]

PART 264a—POST-EMPLOYMENT RESTRICTIONS FOR SENIOR EXAMINERS

Sec. 264a.1 What is the purpose and scope of this part?

264a.2 Who is considered a senior examiner of the Federal Reserve?

264a.3 What special post-employment restrictions apply to senior examiners?

264a.4 When do these special restrictions become effective and may they be waived?

264a.5 What are the penalties for violating these special post-employment restrictions?

264a.6 What other definitions and rules of construction apply for purposes of this part?

Source: 70 FR 69638, Nov. 17, 2005, unless otherwise noted.

§ 264a.1 What is the purpose and scope of this part?

This part identifies those officers and employees of the Federal Reserve that are subject to the special post-employment restrictions set forth in section 10(k) of the Federal Deposit Insurance Act (FDI Act) and implements those restrictions as they apply to officers and employees of the Federal Reserve.

§ 264a.2 Who is considered a senior examiner of the Federal Reserve?

For purposes of this part, an officer or employee of the Federal Reserve is considered to be the “senior examiner” for a particular state member bank, bank holding company or foreign bank if—

(a) The officer or employee has been authorized by the Board to conduct examinations or inspections on behalf of the Board;

(b) The officer or employee has been assigned continuing, broad and lead responsibility for examining or inspecting the state member bank, bank holding company or foreign bank; and

(c) The officer’s or employee’s responsibilities for examining, inspecting and supervising the state member bank, bank holding company or foreign bank—

(1) Represent a substantial portion of the officer’s or employee’s assigned responsibilities; and

(2) Require the officer or employee to interact routinely with officers or employees of the state member bank, bank holding company or foreign bank or its affiliates.

§ 264a.3 What special post-employment restrictions apply to senior examiners?

(a) Senior Examiners of State Member Banks. An officer or employee of the Federal Reserve who serves as the senior examiner of a state member bank for two or more months during the last twelve months of such individual’s employment with the Federal Reserve may not, within one year after leaving the employment of the Federal Reserve, knowingly accept compensation.
as an employee, officer, director or consultant from—
(1) The state member bank; or
(2) Any company (including a bank holding company) that controls the state member bank.

(b) Senior Examiners of Bank Holding Companies. An officer or employee of the Federal Reserve who serves as the senior examiner of a bank holding company for two or more months during the last twelve months of such individual’s employment with the Federal Reserve may not, within one year of leaving the employment of the Federal Reserve, knowingly accept compensation as an employee, officer, director or consultant from—
(1) The bank holding company; or
(2) Any depository institution that is controlled by the bank holding company.

(c) Senior Examiners of Foreign Banks. An officer or employee of the Federal Reserve who serves as the senior examiner of a foreign bank for two or more months during the last twelve months of such individual’s employment with the Federal Reserve may not, within one year of leaving the employment of the Federal Reserve, knowingly accept compensation as an employee, officer, director or consultant from—
(1) The foreign bank; or
(2) Any branch or agency of the foreign bank located in the United States; or
(3) Any other depository institution controlled by the foreign bank.

§ 264a.5 What are the penalties for violating these special post-employment restrictions?

(a) Penalties under section 10(k) of FDI Act.—A senior examiner of the Federal Reserve who, after leaving the employment of the Federal Reserve, violates the restrictions set forth in §264a.3 shall, in accordance with section 10(k)(6) of the FDI Act, be subject to one or both of the following penalties—
(1) An order—
(i) Removing the individual from office or prohibiting the individual from further participation in the affairs of the relevant state member bank, bank holding company, foreign bank or other depository institution or company for a period of up to five years; and
(ii) Prohibiting the individual from participating in the affairs of any insured depository institution for a period of up to five years; and/or
(2) A civil monetary penalty of not more than $250,000.

(b) Imposition of penalties. The penalties described in paragraph (a) of this section shall be imposed by the appropriate Federal banking agency as determined under section 10(k)(6) of the FDI Act, which may be an agency other than the Federal Reserve.

(c) Scope of prohibition orders. Any senior examiner who is subject to an order issued under paragraph (a) of this section shall, as required by section 10(k)(6)(B) of the FDI Act, be subject to paragraphs (6) and (7) of section 8(e) of the FDI Act in the same manner and to the same extent as a person subject to an order issued under section 8(e).

(d) Procedures. The procedures applicable to actions under paragraph (a) of this section are provided in section 10(k)(6) of the FDI Act.

(e) Other penalties. The penalties set forth in paragraph (a) of this section are not exclusive, and a senior examiner who violates the restrictions in §264a.3 also may be subject to other administrative, civil or criminal remedies or penalties as provided in law.

§ 264a.6 What other definitions and rules of construction apply for purposes of this part?

For purposes of this part—
Federal Reserve System

§ 264b.2 Definitions.

When used in this part, the following terms have the meanings indicated:

(a) **Board employees** means:
   (1) Members of the Board of Governors of the Federal Reserve System ("Board"), officers, and other employees of the Board, including experts or consultants while employed by, and acting on behalf of, the Board; and
   (2) Spouses (unless separated) or dependents (within the meaning of section 152 of the Internal Revenue Code of 1986 (26 U.S.C. 152)) of such persons.

(b) **Foreign government** means:
   (1) Any unit of foreign governmental authority, including any foreign national, State, local, or municipal government;
   (2) Any international or multinational organization whose membership is composed of any unit of foreign government as described in paragraph (b)(1) of this section; and
   (3) Any agent or representative of any such unit or organization, while acting as such.

(c) **Gift** means a tangible or intangible present (other than a decoration) tendered by, or received from, a foreign government.

(d) **Decoration** means an order, device, medal, badge, insignia, emblem, or award tendered by, or received from, a foreign government.

(e) **Minimal value** means retail value in the United States at the time of acceptance of $285 or less as of January 1, 2002, and at 3-year intervals thereafter, as redefined in regulations prescribed by the Administrator of General Services, in consultation with the Secretary of State, to reflect changes in the consumer price index for the immediately preceding 3-year period.

(f) **Administrative Governor** means the Board member serving as the Administrative Governor and includes persons designated by the Administrative Governor to exercise the authority granted under this part in the governor’s absence.

§ 264b.1 Purpose and scope.

These rules govern when Board employees, their spouses, and their dependents may accept and retain gifts and decorations from foreign governments under the Foreign Gifts and Decorations Act of 1966, as amended (5 U.S.C. 7342) ("Act").
§ 264b.3 Restrictions on acceptance of gifts and decorations.

(a) Board employees are prohibited from requesting or otherwise encouraging the tender of a gift or decoration from a foreign government.

(b) Board employees are prohibited from accepting a gift or decoration from a foreign government, except in accordance with this part.

§ 264b.4 Gifts of minimal value.

(a) Board employees may accept and retain a gift of minimal value tendered as a souvenir or mark of courtesy. If more than one tangible gift is presented at or marks an event, the value of all such gifts must not exceed "minimal value." If tangible gifts are presented at or mark separate events, their value must not exceed "minimal value" for each event, but may exceed "minimal value" for all events, even if the events occur on the same day.

(b) Board employees may determine at the time a gift is offered whether it is of minimal value, or they may submit an accepted gift as soon as practicable to the Office of the Secretary for valuation.

(c) Disagreements over whether a gift is of minimal value will be resolved by an independent appraisal under procedures established by the Office of the Secretary.

§ 264b.5 Gifts of more than minimal value.

(a) Educational scholarships or medical treatment. Board employees may accept and retain gifts of more than minimal value when such gifts are in the nature of an educational scholarship or medical treatment.

(b) Travel or travel expenses. Board employees may accept gifts of travel or expenses for travel taking place entirely outside the United States (such as transportation, food, and lodging) of more than minimal value if appropriate, consistent with the interests of the United States, and permitted by the Board under paragraph (b)(1) or (b)(2) of this section.

1. Board employees may accept gifts of travel or expenses for travel under paragraph (b) of this section in accordance with specific instructions of the Board, as evidenced by the prior approval of the Administrative Governor. Board employees must request prior approval under procedures established by the Office of the Secretary.

2. Board employees may accept gifts of travel or expenses for travel under paragraph (b) of this section without the prior approval of the Administrative Governor if such expenses are reported under §264b.6(b) and the Administrative Governor approves their acceptance after the fact. Board employees must personally repay gifts of travel or expenses for travel of more than minimal value that are not approved by the Administrative Governor.

(c) Other gifts. (1) Board employees may typically regard the refusal of gifts of more than minimal value at the inception (when offered or received without a prior offer) as consistent with the interests and general policy of the United States.

(2) Board employees may accept gifts of more than minimal value when it appears that refusal would likely cause offense or embarrassment or otherwise adversely affect the foreign relations of the United States. Tangible gifts are considered to have been accepted on behalf of the United States and become the property of the United States on acceptance. Accordingly, they must be deposited and documented in accordance with §264b.6(a) and can only be returned or otherwise processed by the Office of the Secretary under §264b.8.

§ 264b.6 Requirements for gifts of more than minimal value.

(a) Tangible gifts. Board employees must deposit tangible gifts of more than minimal value with the Office of the Secretary within 60 days of acceptance and assist in preparing a statement that contains the following information for each gift:

1. The name and position of the Board employee;

2. A brief description of the gift and the circumstances justifying acceptance;

3. The identity, if known, of the foreign government and the name and position of the individual who presented the gift;

4. The date of acceptance of the gift;
(5) The estimated value in the United States of the gift at the time of acceptance; and
(6) The disposition or current location of the gift.

(b) **Travel or travel expenses without prior approval.** Board employees who accept a gift of travel or expenses for travel under §264b.5(b)(2) without the prior approval of the Administrative Governor must submit a report to the Office of the Secretary within 30 days of acceptance that contains the following information:

(1) The name and position of the Board employee;
(2) A brief description of the gift, including its estimated value, and the circumstances justifying acceptance; and
(3) The identity, if known, of the foreign government and the name and position of the individual who presented the gift.

(c) **Reports to the Secretary of State.** The Office of the Secretary must report the information contained in the statements described in paragraphs (a) and (b) of this section to the Secretary of State, who must publish in the FEDERAL REGISTER not later than January 31 of each year a comprehensive listing of all such statements for gifts of more than minimal value that were received by federal employees during the preceding year.

§ 264b.7 Decorations.

(a) Board employees may accept, retain, and wear a decoration tendered or awarded by a foreign government in recognition of active field service in time of combat operations or for other outstanding or unusually meritorious performance, subject to the approval of the Administrative Governor. Requests for approval must be submitted to the Office of the Secretary and contain a statement of the circumstances surrounding the award and include any accompanying documentation. The recipient may retain the decoration pending action on the request.

(b) Decorations accepted by Board employees without the approval of the Administrative Governor are considered to have been accepted on behalf of the United States and must be deposited within 60 days of the decoration’s acceptance with the Office of the Secretary for disposition or retention under §264b.8.

§ 264b.8 Disposition or retention of gifts and decorations deposited with the Office of the Secretary.

(a) The Office of the Secretary may dispose of gifts and decorations deposited under §§264b.6(a) and 264b.7(b) by returning them to the donors or by handling them in accordance with instructions from the General Services Administration under applicable law.

(b) The Office of the Secretary may approve and retain gifts and decorations deposited under §§264b.6(a) and 264b.7(b) for official use. The Office of the Secretary must dispose of a gift within 30 days of the termination of its official use in accordance with instructions from the General Services Administration under applicable law.

§ 264b.9 Enforcement.

(a) The Administrative Governor, after consultation with the General Counsel, must report to the Attorney General cases in which there is reason to believe that a Board employee has violated the Act.

(b) The Attorney General may bring a civil action in any district court of the United States against a Board employee who knowingly solicits or accepts a gift from a foreign government in violation of the Act, or who fails to deposit or report such a gift as required by the Act. The court may assess a maximum penalty of the retail value of a gift improperly solicited or received plus $5,000.

§ 264b.10 Certain grants excluded.

This part does not apply to grants and other forms of assistance to which §108A of the Mutual Educational and Cultural Exchange Act of 1961 applies. See 22 U.S.C. 2458a.

PART 265—RULES REGARDING DELEGATION OF AUTHORITY
§ 265.1 Authority, purpose, and scope.

(a) Pursuant to section 11(k) of the Federal Reserve Act (12 U.S.C. 248(k)), the Board of Governors of the Federal Reserve System (the “Board”) may delegate, by published order or rule, any of its functions other than those relating to rulemaking or pertaining principally to monetary and credit policies to Board members and employees, Reserve Banks, or administrative law judges. Pursuant to section 11(i) of the Federal Reserve Act (12 U.S.C. 248(i)), the Board may make all rules and regulations necessary to enable it to effectively perform the duties, functions, or services specified in that Act. Pursuant to section 5(b) of the Bank Holding Company Act (12 U.S.C. 1844(b)), the Board is authorized to issue such regulations and orders as may be necessary to enable it to administer and carry out the purposes of this Act and prevent evasions thereof. Other provisions of Federal law also may authorize specific delegations by the Board.

(b) The Board’s Rules Regarding Delegation of Authority (12 CFR part 265) detail the responsibilities that the Board has delegated. The table of contents, titles, and headings that appear in these rules are used solely for their descriptive convenience. Section 265.4 addresses the specific functions delegated to Board members. The functions that have been delegated to Board employees are set forth in §§265.5, 265.6, 265.7, 265.8, and 265.9. The functions that have been delegated to the Secretary of the Federal Open Market Committee are set forth in §265.10. The functions that have been delegated to the Reserve Banks are set forth in §265.11. Provisions for review of any action taken pursuant to delegated authority are found in §265.3. Except as otherwise indicated in these rules, the Board will review a delegated action only if a Board member, at his or her own initiative, requests a review.

§ 265.2 Delegation of functions generally.

(a) The Board has determined to delegate authority to exercise the functions described in this part.

(b) The Chairman of the Board shall assign responsibility for performing such delegated functions.

§ 265.3 Board review of delegated actions.

(a) Request by Board member. The Board shall review any action taken at a delegated level upon the vote of one member of the Board, either on the member’s own initiative or on the basis of a petition for review by any person claiming to be adversely affected by the delegated action.

(b) Petition for review. A petition for review of a delegated action must be received by the Secretary of the Board not later than the fifth day following the date of the delegated action.

(c) Notice of review. The Secretary shall give notice of review by the Board of a delegated action to any person with respect to whom the action was taken not later than the tenth day following the date of the delegated action. Upon receiving notice, such person may not proceed further in reliance upon the delegated action until notified of the outcome of the review by the Board.

(d) By action of a delegee. A delegee may submit any matter to the Board for determination if the delegee considers it appropriate because of the importance or complexity of the matter.

§ 265.4 Functions delegated to Board members.

(a) Individual members. Any Board member designated by the Chairman is authorized:

(1) Review of denial of access to Board records; FOIA. To review and determine
an appeal of denial of access to Board records under the Freedom of Information Act (5 U.S.C. 552), the Privacy Act (5 U.S.C. 552a), and the Board’s rules regarding such access (12 CFR parts 261 and 261a, respectively).

(2) Approval of amendments to notice of charges or cease and desist orders. To approve (after receiving recommendations of the Director of the Division of Banking Supervision and Regulation and the General Counsel) amendments to any notice, temporary order, or proposed order previously approved by the Board in a specific formal enforcement matter (including a notice of charges or removal notice) or any proposed or temporary cease and desist order previously approved by the Board under 12 U.S.C. 1818 (b) and (c).

(3) Requests for permission to appeal rulings. (i) To act, when requested by the Secretary, upon any request under §263.10(e) of the Board’s Rules of Practice for Hearings (12 CFR part 263) for special permission to appeal from a ruling of the presiding officer on any motion made at a hearing conducted under the rules, and if special permission is granted, the merits of the appeal shall be presented to the Board for decision.

(ii) Notwithstanding §265.3 of this part, the denial of special permission to appeal a ruling may be reviewed by the Board only if a Board member requests a review within two days of the denial. No person claiming to be adversely affected by the denial shall have any right to petition the Board or any Board member for review or reconsideration of the denial.

(4) Extension of time period for final Board action. To extend for an additional 180 days the 180-day period within which final Board action is required on an application pursuant to section 7(d) of the International Banking Act.

(b) Three member Action Committee. Any three Board members designated from time to time by the Chairman (the “Action Committee”) are authorized:

(1) Absence of quorum. To act, upon certification by the Secretary of the Board of an absence of a quorum of the Board present in person, by unanimous vote on any matter that the Chairman has certified must be acted upon promptly in order to avoid delay that would be inconsistent with the public interest except for matters:

(i) Relating to rulemaking;

(ii) Pertaining principally to monetary and credit policies; and

(iii) For which a statute expressly requires the affirmative vote of more than three Board members.

(2) [Reserved]

§265.5 Functions delegated to Secretary of the Board.

The Secretary of the Board (or the Acting Secretary) is authorized:

(a) Procedure—(1) Extension of time period for public participation in proposed regulations. To extend, when appropriate under the Board’s Rules of Procedure (12 CFR 262.2 (a) and (b)), the time period for public participation with respect to proposed regulations of the Board.

(2) Extension of time period in notices, orders, rules, or regulations. (i) To grant or deny requests to extend any time period in any notice, order, rule, or regulation of the Board relating to filing information, comments, opposition, briefs, exceptions, or other matters, in connection with any application, request or petition for the Board’s approval, authority, determination, or permission, or any other action by the Board.

(ii) Notwithstanding §265.3 of this part, no person claiming to be adversely affected by any such extension of time by the Secretary shall have the right to petition the Board or any Board member for review or reconsideration of the extension.

(3) Conforming citations and references in Board rules and regulations. (i) To conform references to administrative positions or units in Board rules and regulations with changes in the administrative structure of the Board and in the government and agencies of the United States.

(ii) To conform citations and references in Board rules and regulations with other regulatory or statutory changes adopted or promulgated by the Board or by the government or agencies of the United States.
(4) Technical corrections in Board rules and regulations. To make technical corrections, such as spelling, grammar, construction, and organization (including removal of obsolete provisions and consolidation of related provisions), to the Board’s rules, regulations, and orders and other records of Board action but only with the concurrence of the Board’s General Counsel.

(b) Availability of information—(1) FOIA requests. To make available, upon request, information in Board records and consider requests for confidential treatment of information in Board records under the Freedom of Information Act (5 U.S.C. 552) and under the Board’s Rules Regarding Availability of Information (12 CFR part 261).

(2) Annual reports on Privacy Act. To approve annual reports required by the Privacy Act (5 U.S.C. 552a(p)) from the Board to the Office of Management and Budget for inclusion in the President’s annual consolidated report to Congress.

(3) Report on prime rate of commercial banks. To determine and report, under 26 U.S.C. (IRC) 6621, to the Secretary of the Treasury the average predominant prime rate quoted by commercial banks to large businesses.

(2) Reserve Bank director interlocks. To take actions the Reserve Bank could take except for the fact that the Reserve Bank may not act because a director, senior officer, or principal shareholder of any holding company, bank, or company involved in the transaction is a director of that Reserve Bank or branch of the Reserve Bank.

(3) Application approval under section 5(d)(3) of the FDI Act. To approve applications pursuant to section 5(d)(3) of the Federal Deposit Insurance Act (12 U.S.C. 1815(d)(3)), in those cases in which the appropriate Federal Reserve Bank concludes that, because of unusual considerations, or for other good cause, it should not take action.

(d) International banking—(1) Establishment of foreign branch or foreign agency or of Edge or Agreement Corporations. To approve, under sections 25 and 25A of the Federal Reserve Act (12 U.S.C. 601 and 604) and Regulation K (12 CFR part 211), the establishment, directly or indirectly, of a foreign branch or agency by a member bank or an Edge or Agreement Corporation if all of the following conditions are met:

(i) The appropriate Reserve Bank and relevant divisions of the Board’s staff recommend approval;

(ii) No significant policy issue is raised on which the Board has not expressed its view; and

(iii) The application is not for the applicant’s first full-service branch in a foreign country.

(2) Acquisition of foreign company or U.S. company financing exports. To grant, under sections 25 and 25A of the Federal Reserve Act (12 U.S.C. 601 and 604) and section 4(c)(13) of the Bank Holding Company Act (12 U.S.C. 1843(c)(13)) and the Board’s Regulations K and Y (12 CFR parts 211 and 225), specific consent to the acquisition, either directly or indirectly, by a member bank, an Edge or Agreement corporation, or a bank holding company of stock of a company chartered under the laws of a foreign country or a company chartered under the laws of a state of the United States that is organized and operated for the purpose of financing exports from the United States, and to approve any such acquisition that may exceed the limitations of section 25A of the Federal Reserve Act based on the company’s capital and surplus, if all of the following conditions are met:

(i) The appropriate Reserve Bank and all relevant divisions of the Board’s staff recommend approval;

(ii) No significant policy issue is raised on which the Board has not expressed its view;
(iii) The acquisition does not result, either directly or indirectly, in the bank, corporation, or bank holding company acquiring effective control of the company, except that this condition need not be met if:

(A) The company is to perform nominee, fiduciary, or other services incidental to the activities of a foreign branch or affiliate of the bank holding company, or corporation; or

(B) The stock is being acquired from the parent bank or bank holding company, or subsidiary Edge or Agreement corporation, as the case may be, and the selling parent or subsidiary holds the stock with the consent of the Board pursuant to Regulations K and Y (12 CFR parts 211 and 225).

(3) Investments in Edge and Agreement Corporations. To approve an application by a member bank to invest more than 10 percent of capital and surplus in Edge and agreement corporation subsidiaries, provided that:

(i) The member bank’s total investment, including the retained earnings of the Edge and agreement corporation subsidiaries, does not exceed 20 percent of the bank’s capital and surplus or would not exceed that level as a result of the proposal; and

(ii) The proposal raises no significant policy or supervisory issues.

(e) Member banks—(1) Waiver of penalty for early withdrawals of time deposits. To permit depository institutions to waive the penalty for early withdrawal of time deposits under section 19(j) of the Federal Reserve Act (12 U.S.C. 371b) and §204.2 of Regulation D (12 CFR part 204) if the following conditions are met:

(i) The President declares an area of major disaster or emergency area pursuant to section 301 of the Disaster Relief Act of 1974 (42 U.S.C. 5141);

(ii) The waiver is limited to depositors suffering disaster or emergency related losses in the officially designated area; and

(iii) The appropriate Reserve Bank and all relevant divisions of the Board’s staff recommend approval.

(2) [Reserved]

(f) Location of institution. To determine the Federal Reserve District in which an institution is located pursuant to §204.2(2)(ii) of Regulation D (12 CFR part 204) or §209.15(b) of Regulation I (12 CFR part 209) if:

(1) The relevant Federal Reserve Banks and the institution agree on the specific Reserve Bank in which the institution should hold stock or with which the institution should maintain reserve balances; and

(2) The agreed-upon location does not raise any significant policy issues.

§265.6 Functions delegated to General Counsel.

The Board’s general counsel (or the general counsel’s delegatee) is authorized:

(a) Procedure—(1) Reconsideration of Board action. Pursuant to §262.3(i) of this chapter (Rules of Procedure) to determine whether or not to grant a request for reconsideration or whether to deny a request for stay of the effective date of any action taken by the Board with respect to an action as provided in that part.

(2) Public meetings. To order, after consulting with the directors of other interested divisions of the Board and the appropriate Reserve Bank, that a public meeting or other proceeding be held, under §262.25 of the Board’s Rules of Procedure (12 CFR part 262), in connection with any application or notice filed with the Board, and to designate the presiding officer in the proceeding under terms and conditions the General Counsel deems appropriate.

(3) Designation of Board counsel for hearings. To designate Board staff attorneys as Board counsel in any proceeding ordered by the Board in accordance with §263.6 of the Board’s Rules of Practice for Hearings (12 CFR part 263).

(4) Oaths, depositions, subpoenas. To take, or authorize designated persons to take, with the concurrence of the Director of the Division of Banking Supervision and Regulation, actions permitted under 12 U.S.C. 1818(n), 1820(c), and 12 U.S.C. 1844(f), including administering oaths and affirmations, taking depositions, and issuing, revoking, quashing, or modifying subpoenas duces tecum.
(b) Availability of Information—(1) FOIA requests. To make available information of the Board of the nature and in the circumstances described in the Board’s Rules Regarding Availability of Information (12 CFR part 261).

(2) Disclosure to foreign authorities. To make the determinations required for disclosure of information to a foreign bank regulatory or supervisory authority, and to obtain, to the extent necessary, the agreement of such authority to maintain the confidentiality of such information to the extent possible under applicable law.

(3) Assistance to foreign authorities. To approve requests for assistance from any foreign bank regulatory or supervisory authority that is conducting an investigation regarding violations of any law or regulation relating to banking matters or currency transactions administered or enforced by such authority, and to make the determinations required for any investigation or collection of information and evidence pertinent to such request. In deciding whether to approve requests for assistance under this paragraph, the General Counsel shall consider:

(i) Whether the requesting authority has agreed to provide reciprocal assistance with respect to banking matters within the jurisdiction of any appropriate Federal banking agency;

(ii) Whether compliance with the request would prejudice the public interest of the United States; and

(iii) Whether the request is consistent with the requirement that the Board conduct any such investigation in compliance with the laws of the United States and the policies and procedures of the Board.

(c) Bank holding companies; Change in bank control; Mergers—(1) Control determinations under section 2(g) of BHC Act. To determine whether a company that transfers shares under section 2(g) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)), permitting retention or acquisition of control thereof by a bank holding company.

(2) Notices under CBC Act. To revoke acceptance of and return as incomplete a notice filed under the Change in Bank Control Act (12 U.S.C. 1817(j)) or to extend the time during which action must be taken on a notice where the General Counsel determines, with the concurrence of the Director of the Division of Banking Supervision and Regulation, that the notice is materially incomplete under that Act or Regulation Y (12 CFR part 225) or contains material information that is substantially inaccurate.

(d) Management interlocks—(1) General exceptions. To grant exceptions from the prohibitions of Regulation L (12 CFR part 212) when the primary federal supervisor of the depository institution in need of management assistance approves.

(2) Temporary exceptions. To grant requests, after consultation with the Director for the Division of Banking Supervision and Regulation, for temporary director interlocks under Regulation L (12 CFR part 212) for newly chartered banks, banks in low income areas, minority banks, women’s banks, organizations experiencing conditions endangering their safety or soundness, organizations sponsoring a credit union, and organizations that lose thirty percent or more of their directors or management officials due to changes in circumstances.

(e) Consent enforcement orders. With the concurrence of the director of the Board’s Division of Banking Supervision and Regulation (or the Director’s delegate):

(1) To enter into a cease-and-desist order, removal and prohibition order, or civil money penalty assessment order with a bank holding company or any nonbanking subsidiary thereof, with a state member bank, or with any other person or entity subject to the Board’s jurisdiction, when the order
Federal Reserve System § 265.7

has been consented to by the institution or individual subject to the order; (2) To stay, modify, terminate, or suspend an order issued pursuant to paragraph (e)(1) of this section.

(f) International banking—(1) After-the-fact applications. With the concurrence of the Board’s Director of the Division of Banking Supervision and Regulation, to grant a request by a foreign bank to establish a branch, agency, commercial lending company, or representative office through certain acquisitions, mergers, consolidations, or similar transactions, in conjunction with which:

(i) The foreign bank would be required to file an after-the-fact application for the Board’s approval under §211.24(a)(6) of Regulation K (12 CFR 211.24(a)(6)); or

(ii) The General Counsel may waive the requirement for an after-the-fact application if:

(A) The surviving foreign bank commits to wind down the U.S. operations of the acquired foreign bank; and

(B) The merger or consolidation raises no significant policy or supervisory issues.

(2) To modify the requirement that a foreign bank that has submitted an application or notice to establish a branch, agency, commercial lending company, or representative office pursuant to §211.24(a)(6) of Regulation K (12 CFR 211.24(a)(6)) shall publish notice of the application or notice in a newspaper of general circulation in the community in which the applicant or notificant proposes to engage in business, as provided in §211.24(b)(2) of Regulation K (12 CFR 211.24(b)(2)).

(3) With the concurrence of the Board’s Director of the Division of Banking Supervision and Regulation, to grant a request for an exemption under section 4(c)(9) of the Bank Holding Company Act (12 U.S.C. 1843(c)(9)), provided that the request raises no significant policy or supervisory issues that the Board has not already considered.

(4) To return applications and notices filed under the International Banking Act for informational deficits.

(5) To determine that an entity qualifies as a “special-purpose foreign government-owned bank” for purposes of §211.24(d)(3) (12 CFR 211.24(d)(3)).

(g) Conflicts of interest waivers. To issue individual conflicts of interest waivers under 18 U.S.C. 208(b)(1) to employees and officials other than Board members.

§ 265.7 Functions delegated to Director of Division of Banking Supervision and Regulation.

The Board’s Director of the Division of Banking Supervision and Regulation (or the Director’s delegate) is authorized:

(a) Procedure—(1) Cease and desist orders. To refuse, with the prior concurrence of the appropriate Reserve Bank and the Board’s General Counsel, an application to the Board to stay, modify, terminate, or set aside any effective cease and desist order previously issued by the Board under section 8(b) of the Federal Deposit Insurance Act (12 U.S.C. 1818(b)), or any written agreement between the Board or the Reserve Bank and a bank holding company or any nonbanking subsidiary thereof or a state member bank.

(2) Modification of commitments or conditions. To grant or deny requests for modifying, including extending the time for, performing a commitment or condition relied on by the Board or its delegate in taking any action under the Bank Holding Company Act, the Bank Merger Act, the Change in Bank Control Act of 1978, the Federal Reserve Act, or the International Banking Act. In acting on such requests, the Board’s Director may take into account changed circumstances and good faith efforts to fulfill the commitments or conditions, and shall consult with the directors of other interested divisions where appropriate. The Board’s Director may not take any action that would be inconsistent with or result in an evasion of the provisions of the Board’s original action.

(3) Notice of insufficient capital. To issue, with the concurrence of the Board’s General Counsel, a notice that
§ 265.7 12 CFR Ch. II (1–1–09 Edition)

a state member bank or bank holding company has insufficient capital and which directs the bank or company to file with its regional Reserve Bank a capital improvement plan under subpart D of the Board’s Rules of Practice for Hearings (12 CFR part 263).

(4) Obtaining possession or control of securities; extending time period. To approve, under § 403.5(g) of the Treasury Department regulations (17 CFR part 403) implementing the Government Securities Act of 1986, as amended (Pub. L. 95–571), the application of a member bank, a state branch or agency of a foreign bank, a foreign bank, or a commercial lending company owned or controlled by a foreign bank, to extend for one or more limited periods commensurate with the circumstances the 30-day time period specified in 17 CFR 403.5(c)(1)(iii), provided the Director is satisfied that the applicant is acting in good faith and that exceptional circumstances warrant such action.

(b) Availability of Information—(1) FOIA requests. To make available information of the Board of the nature and in the circumstances described in § 261.11 of the Board’s Rules Regarding Availability of Information (12 CFR part 261).

(2) FOIA; Availability of information. To make available, under the Board’s Rules Regarding Availability of Information (12 CFR part 261), reports and other information of the Board acquired pursuant to the Board’s Regulations G, T, U, and X (12 CFR parts 207, 220, 221, 224) of the nature and in circumstances described in §§ 261.8(a) (2) and (3) of these rules.

(c) Bank holding companies; Change in bank control; Mergers—(1) Bank holding company registration forms and annual reports. To promulgate registration forms and annual reports and other forms for use in connection with the Bank Holding Company Act, after receiving clearance from the Office of Management and Budget (where necessary), under section 5 of the Bank Holding Company Act (12 U.S.C. 1844) and in accordance with 5 U.S.C. 553.

(2) Emergency action. To take actions the Reserve Bank could take under this part at §§ 265.11(e)(2)(ii) and 265.11(e)(3)(ii) if immediate or expeditious action is required to avert failure of a bank or savings association or because of an emergency pursuant to sections 3(a) and 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1842(a), 1843(c)(8)) on the Change in Bank Control Act (12 U.S.C. 1817(j)).

(3) Waiver of notice. To waive, dispense with, modify or excuse the failure to comply with the requirement for publication and solicitation of public comment regarding a notice filed under the Change in Bank Control Act (12 U.S.C. 1817(j)), with the concurrence of the Board’s General Counsel, provided a written finding is made that such disclosure would seriously threaten the safety or soundness of a bank holding company or a bank.

(4) Notices for addition or change of directors or officers. Under section 914(a) of the Financial Institutions Reform, Recovery and Enforcement Act (12 U.S.C. 1831i) and subpart H of Regulation Y (12 CFR part 225), provided that no senior officer or director or proposed senior officer or director of the notificant is also a director of the Reserve Bank or a branch of the Reserve Bank:

(i) To determine the informational sufficiency of notices filed pursuant to § 225.72 of Regulation Y (12 CFR part 225); and

(ii) To waive the prior notice requirements of that section.

(5) ERISA violations. To provide the Department of Labor written notification of possible significant violations of the Employee Retirement Income Security Act (ERISA) by bank holding companies, in accordance with section 3004(b) of ERISA and the Interagency Agreement adopted to implement its provisions.

(6) Appraisal not required. To determine pursuant to 12 CFR 225.63(b)(12) that the services of an appraiser are not necessary in order to protect Federal financial and public policy interests in real estate-related financial transactions or to protect the safety and soundness of an institution.

(d) International banking—(1) Foreign bank reports. To require submission of a report of condition respecting any foreign bank in which a member bank holds stock acquired under §211.5(b) of
Federal Reserve System § 265.7

(2) Edge corporation reports. To require submission and publication of reports by an Edge corporation under section 25A of the Federal Reserve Act (12 U.S.C. 625).

(3) Capital stock of Edge corporation; articles of association; additional investments in Agreement corporation. To approve under sections 25 and 25A as of the Federal Reserve Act (12 U.S.C. 601 and 604); increases and decreases in the capital stock of and amendments to the articles of association of an Edge corporation and additional investments by a member bank in the stock of an Agreement corporation.

(4) Authority under general-consent and prior-notice procedures. (i) With regard to a prior notice to establish a branch in a foreign country under §211.3 of Regulation K (12 CFR 211.3):
   (A) To waive the notice period;
   (B) To suspend the notice period;
   (C) To determine not to object to the notice; or
   (D) To require the notificant to file an application for the Board’s specific consent.

   (ii) With regard to a prior notice to make an investment under §211.9(f) of Regulation K (12 CFR 211.9(f)):
   (A) To waive the notice period;
   (B) To suspend the notice period; or
   (C) To require the notificant to file an application for the Board’s specific consent.

   (iii) With regard to a prior notice of a foreign bank to establish certain U.S. offices under §211.24(a)(2)(i) of Regulation K (12 CFR 211.24(a)(2)(i)):
   (A) To waive the notice period;
   (B) To suspend the notice period; or
   (C) To require the notificant to file an application for the Board’s specific consent.

   (iv) To suspend the ability:
   (A) Of a foreign banking organization to establish an office under the prior-notice procedures in §211.24(a)(2)(i) of Regulation K (12 CFR 211.24(a)(2)(i)) or the general-consent procedures in §211.24(a)(3) of Regulation K (12 CFR 211.24(a)(3));
   (B) Of a U.S. banking organization to establish a foreign branch under the prior-notice or general-consent procedures in §211.3(b) of Regulation K (12 CFR 211.3(b));
   (C) Of an investor to make investments under the general-consent or prior-notice procedures in §211.9 of Regulation K (12 CFR 211.9); and
   (D) Of an eligible investor to make an investment in an export trading company under the general-consent procedures in §211.34(b) of Regulation K (12 CFR 211.34(b)).

(5) Investment by foreign subsidiaries in U.S. affiliates. To permit, after consultation with the Board’s General Counsel, a foreign subsidiary of a bank holding company to invest in shares of a U.S. affiliate of the bank holding company where the investment is made as part of an internal corporate reorganization or an internal transfer of funds, subject to any conditions and terms the Director and General Counsel deem appropriate and consistent with the purposes of Regulation K (12 CFR part 211).

(6) Allocated transfer risk reserves. To determine the need for establishing and the amount of any allocated transfer risk reserve against specific international assets, and notify the banking institutions of the determination and the amount of the reserve and whether the reserve may be reduced under subpart D of Regulation K (12 CFR part 211).

(7) Underwriting and dealing authority outside the United States; hedging techniques. To approve, under §211.5(d)(14) of Regulation K (12 CFR part 211):

   (i) Requests for authority to engage in the activities of underwriting, distributing, and dealing in shares outside the United States, provided that the Director has determined that the internal procedures and operations of the organization and the effect of the proposed activities on capital adequacy are consistent with approval.

   (ii) Hedging methods authorized under §211.5(d)(14)(iii)(A) of Regulation K (12 CFR part 211).

(8) Conduct and coordination of examinations. To authorize the conduct of examinations of the U.S. offices and affiliates of foreign banks as provided in sections 7(c) and 10(c) of the IBA (12 U.S.C. 3105(c), 3107(c)), and, where appropriate, to coordinate those examinations with examinations of the Office
of the Comptroller of the Currency, the Federal Deposit Insurance Corporation, and the state entity that is authorized to supervise or regulate a state branch, state agency, commercial lending company, or representative office.

(9) Allowing use of general-consent procedures. To allow an investor that is not well-capitalized and well-managed to make investments under the general-consent procedures in §211.9 or 211.34(b) of Regulation K (12 CFR 211.9 or 211.34(b)), provided that:
   (i) The investor has implemented measures to become well-capitalized and well-managed;
   (ii) Granting such authority raises no significant policy or supervisory concerns; and
   (iii) Authority granted by the Director under this paragraph (d)(9) expires after one year, but may be renewed.

(10) Exceeding general-consent investment limits. To allow an investor to exceed the general-consent investment limits under §211.9 of Regulation K (12 CFR 211.9), provided that:
   (i) The investor demonstrates adequate financial and managerial strength;
   (ii) The investor’s investment strategy is not unsafe or unsound;
   (iii) Granting such authority raises no significant policy or supervisory concerns; and
   (iv) Authority granted by the Director under this paragraph (d)(10) expires after one year, but may be renewed.

(11) Approval of temporary U.S. offices. To allow a foreign bank to operate a temporary office in the United States, pursuant to §211.24 of Regulation K (12 CFR 211.24), provided that:
   (i) There is no direct public access to such office, with respect to any branch or agency function; and
   (ii) The proposal raises no significant policy or supervisory issues.

(12) With the concurrence of the General Counsel, to approve applications, notices, exemption requests, waivers and suspensions, and other related matters under Regulation K (12 CFR part 211), where such matters do not raise any significant policy or supervisory issues.

(13) With the concurrence of the General Counsel, to approve:
   (i) The establishment by a bank holding company or member bank of an agreement corporation under section 25 of the Federal Reserve Act; and
   (ii) Any initial investment associated with the establishment of such agreement corporation.

(14) With the concurrence of the General Counsel, to determine that an election by a foreign bank to become or to be treated as a financial holding company is effective, provided that:
   (i) The foreign bank meets the criteria for becoming or being treated as a financial holding company; and
   (ii) The election raised no significant policy or supervisory issues.

(e) Member banks—

(1) Membership certification to FDIC. To certify, under section 4(b) of the Federal Deposit Insurance Act (12 U.S.C. 1814(b)), to the Federal Deposit Insurance Corporation that the factors specified in section 6 of the Act (12 U.S.C. 1816) were considered with respect to the admission of a state-chartered bank to Federal Reserve membership.

(2) Dollar exchange. To permit any member bank to accept drafts or bill of exchange drawn upon it for the purpose of furnishing dollar exchange under section 13(12) of the Federal Reserve Act (12 U.S.C. 373).

(3) ERISA violations. To provide to the Department of Labor written notification of possible significant violations of the Employee Retirement Income Security Act (ERISA) by member banks, in accordance with section 3004(b) of ERISA and the Interagency Agreement adopted to implement its provisions.

(4) Examiners. To select or approve the appointment of Federal Reserve examiners, assistant examiners, and special examiners for the purpose of making examinations for or by the direction of the Board under 12 U.S.C. 325, 338, 625, 1844(c), and 3106(b)(1).

(5) Capital stock reduction; branch applications; declaration of dividends; investment in bank premises. To exercise the functions described in §265.11(e)(5), (11), and (12) of this part (reductions in capital, issuance of subordinated debt, and early retirement of subordinated debt) when the conditions specified in those sections preclude a Reserve Bank
from acting on a member bank's request for action or when the Reserve Bank concludes that it should not take action, and to exercise the functions in §265.11(e)(3), (4), and (7) of this part (approving branch applications, declaration of dividends, and investment in bank premises) in cases in which the Reserve Bank concludes that it should not take action.

(6) Security devices; Regulation P. To exercise the functions described in §265.11(e)(8) of this part in those cases in which the appropriate Reserve Bank concludes that it should not take action for good cause.

(f) Securities—(1) Registration statements by member banks. Under section 12(g) of the Securities Exchange Act (15 U.S.C. 78l(g)):

(i) To accelerate the effective date of a registration statement filed by a member bank with respect to its securities;

(ii) To accelerate termination of the registration of a security that is no longer held of record by 300 persons; and

(iii) To extend the time for filing a registration statement by a member bank.

(2) Exemption from registration. To issue notices with respect to application by a statement member bank for exemption from registration under section 12(h) of the Securities Exchange Act (15 U.S.C. 78l(h)).

(3) Accelerating registration of security on national securities exchange. To accelerate the effective date of an application by a state member bank for registration of a security on a national securities exchange under section 12(d) of the Securities Exchange Act (15 U.S.C. 78l(d)).

(4) Unlisted trading in security of state member bank. To issue notices with respect to an application by a national securities exchange for unlisted trading privileges in a security of a state member bank under section 12(f) of the Securities Exchange Act (15 U.S.C. 78l(f)).

(5) Transfer agent registration; acceleration; withdrawal or cancellation. (l) To accelerate, under section 17A(c)(2) of the Securities Exchange Act of 1934, as amended (15 U.S.C. 78q–1), the effective date of a registration statement for transfer agent activities filed by a member bank or a subsidiary thereof, a bank holding company or a subsidiary thereof that is a bank as defined in section 3(a)(6) of the Act other than a bank specified in clause (i) or (iii) of section 3(a)(34)(B) of the Act (15 U.S.C. 78c).

(ii) To withdraw or cancel, under section 17A(c)(3)(C) of the Securities Exchange Act of 1934, as amended (15 U.S.C. 78q–1(c)(3)(C)), the transfer agent registration of a member bank or a subsidiary thereof, a bank holding company, or a subsidiary thereof that is a bank as defined in section 3(a)(6) of that Act other than a bank specified in clause (i) or (iii) of section 3(a)(34)(B) of the Act (15 U.S.C. 78c), that has filed a written notice of withdrawal with the Board or upon a finding that such transfer agent is no longer in existence or has ceased to do business as a transfer agent.

(6) Proxy solicitation; financial statements. (i) To permit the mailing of proxy and other soliciting materials by a state member bank before the expiration of the time prescribed therein under §208.36 of Regulation H (12 CFR part 208).

(ii) To permit the omission of financial statements from reports by a state member bank, or to require other financial statements in addition to, or in substitution for, the statements required therein under §208.36 of Regulation H (12 CFR part 208).

(i) To grant or deny requests for waiver of examination and waiting period requirements for municipal securities principals and representatives under Municipal Securities Rulemaking Board Rule G–3;

(ii) To grant or deny requests for a determination that a natural person or municipal securities dealer subject to a statutory disqualification is qualified to act as a municipal securities representative or dealer under Municipal Securities Rulemaking Board Rule G–4;

(iii) To approve or disapprove clearing arrangements under Municipal Securities Rulemaking Board Rule G–6, in connection with the administration of these rules for municipal securities.
dealers for which the Board is the appropriate regulatory agency under section 3(a)(34) of the Securities Exchange Act of 1934 (15 U.S.C. 78c(a)(34)).

(8) Making reports available to SEC. To make available, upon request, to the Securities and Exchange Commission reports of examination of transfer agents, clearing agencies, and municipal securities dealers for which the Board is the appropriate regulatory agency for use by the Commission in exercising its supervisory responsibilities under section 17(c)(3) of the Securities Exchange Act of 1934 (15 U.S.C. 78q(c)(3)).

(9) Issuing examination manuals, forms, and other materials. To issue examination or inspection manuals, registration, report, agreement, and examination forms, guidelines, instructions, and other similar materials for use in administering sections 7, 8, 15B, and 17A(c) of the Securities Exchange Act of 1934 (15 U.S.C. 78g, 78h, 78o–4, and 78q–1).

(10) Lists of OTC and foreign margin stocks. To approve issuance of the lists of OTC margin stocks and foreign margin stocks and add, omit, or remove any stock in circumstances indicating that such change is necessary or appropriate in the public interest under §207.6(d) of Regulation G (12 CFR part 207), §220.17(f) of Regulation T (12 CFR part 220), or §221.7(d) of Regulation U (12 CFR part 221).

§ 265.9 Functions delegated to the Director of Division of Consumer and Community Affairs.

The Director of the Board’s Division of Consumer and Community Affairs (or the Director’s delegate) is authorized:

(a) Issuing examination manuals, forms, and other materials. To issue examination or inspection manuals; report, agreement, and examination forms; examination procedures, guidelines, instructions, and other similar materials pursuant to: section 11(a) of the Federal Reserve Act (12 U.S.C. 248(a)); sections 108(b), 221(c), 704(b), 814(c), and 917(b) of the Consumer Credit Protection Act (15 U.S.C. 1607(b), 1681s(b), 1691c(b), 1692(c) and 1693o(b)); section 305(c) of the Home Mortgage Disclosure Act (12 U.S.C. 2804(c)); section 18(f)(3) of the Federal Trade Commission Act (15 U.S.C. 57a(f)(3)); section 808(c) of the Civil Rights Act of 1968 (42 U.S.C. 3608(c)); section 270(b) of the Truth in Savings Act (12 U.S.C. 4309); and section 5 of the Bank Holding Company Act of 1956 (12 U.S.C. 1844(c)). The foregoing manuals, forms, and other materials are for use within the Federal Reserve System in the administration of enforcement responsibilities in connection with:

(1) Sections 1–200 and 501–921 of the Consumer Credit Protection Act (15 U.S.C. 1601–1693r), in regard to the Truth in Lending Act, the Consumer Leasing Act, the Equal Credit Opportunity Act, the Electronic Fund Transfer Act, the Fair Credit Reporting Act and the Fair Debt Collection Practices Act;

(2) Sections 301–312 of the Home Mortgage Disclosure Act (12 U.S.C. 2801–2811);

(3) Section 18(f)(1)–(3) of the Federal Trade Commission Act (15 U.S.C. 57(a)(1)–(3));

(4) Section 805 of the Civil Rights Act of 1968 (42 U.S.C. 3605) and rules and regulations issued thereunder;

(5) Section 1364 of the National Flood Insurance Act of 1968 (42 U.S.C. 4011(a)), and sections 105(b) and 202(b) of the Flood Disaster Protection Act of 1973 (42 U.S.C. 4012(b), 4106(b));

(6) Section 19(j) of the Federal Reserve Act (12 U.S.C. 371b); and
Federal Reserve System

§ 265.11 Functions delegated to Federal Reserve Banks.

Each Federal Reserve Bank is authorized as to a member bank or other indicated organization for which the Reserve Bank is responsible for receiving applications or registration statements or to take other actions as indicated:

(a) Procedure—

(1) Member bank affiliate’s reports. To extend the time for good cause shown, within which an affiliate of a state member bank must file reports under section 9(17) of the Federal Reserve Act (12 U.S.C. 334).

(2) Edge corporation’s divestiture of stock. To extend the time in which an Edge Act corporation must divest itself of stock acquired in satisfaction of a

(b) [Reserved]
§ 265.11  
12 CFR Ch. II (1–1–09 Edition)

(3) Edge corporation’s corporate existence. To extend the period of corporate existence of an Edge corporation under section 25A(22) of the Federal Reserve Act (12 U.S.C. 628).

(4) Bank holding company registration statement. To extend the time within which a bank holding company must file a registration statement under section 5(a) of the Bank Holding Company Act (12 U.S.C. 1844(a)).

(5) Bank holding company divestiture of nonbanking interests. To extend the time within which a bank holding company must divest itself of interests in nonbanking organizations under section 4(a) of the Bank Holding Company Act (12 U.S.C. 1843(a)).

(6) Bank holding company divestiture of dpc interests. To extend the time within which a bank holding company or any of its subsidiaries must divest itself of interests acquired in satisfaction of a debt previously contracted:

(i) Under section 4(c)(2) of the Bank Holding Company Act (12 U.S.C. 1843(c)(2)) or § 225.22(c)(1) of Regulation Y (12 CFR part 225); or

(ii) Under sections 2(a)(5)(D) and 3(a) of the Bank Holding Company Act (12 U.S.C. 1841(a)(5)(D) and 1842(a)).

(7) Member bank’s surrender of Reserve Bank stock upon withdrawal from membership. To extend the time within which a member bank that has given notice of intention to withdraw from membership must surrender its Federal Reserve Bank stock and its certificate of membership under Regulation H (12 CFR 209.3(e)).

(8) Members bank’s reports of condition. To extend the time for publication of reports of condition under Regulation H (12 CFR part 208) for good cause shown.

(9) Bank holding company’s annual reports. To grant to a bank holding company a 90-day extension of time in which to file an annual report, and for good cause shown grant an additional extension of time not to exceed 90 days under section 5(c) of the Bank Holding Company Act (12 U.S.C. 1844(c)).

(10) Regulation K—Divestiture of foreign portfolio investment, joint venture, or subsidiary acquired through debt previously contracted. To extend the time within which an investor must divest itself of interests in a foreign portfolio investment, joint venture, or subsidiary acquired in satisfaction of a debt previously contracted under Regulation K (12 CFR 211.5(e)).

(11) Bank holding company’s acquisition of shares, opening new bank, consummating merger. To extend the time within which a bank holding company may acquire shares, open a new bank to be acquired, or consummate a merger in connection with an application approved by the Board, if no material change relevant to the proposal has occurred since its approval.

(12) Member bank’s establishing domestic or foreign branch; Edge or agreement corporation’s establishing branch or agency. To extend the times within which:

(i) A member bank may establish a domestic branch;

(ii) A member bank may establish a foreign branch; or

(iii) An Edge or agreement corporation may establish a branch or agency, if no material change has occurred in the bank’s (or corporation’s) general condition since the application was approved.

(13) Purchase of stock by Edge or Agreement Corporation, member bank, or bank holding company. To extend the time within which an Edge or Agreement corporation, member bank, or a bank holding company may accomplish a purchase of stock if no material change has occurred in the general condition of the corporation, the member bank, or bank holding company since such authorization under sections 25 or 25A of the Federal Reserve Act or section 4(c)(13) of the Bank Holding Company Act (12 U.S.C. 615, 628, 1843).

(14) Federal Reserve Membership. To extend the time within which Federal Reserve membership must be accomplished, if no material change has occurred in the bank’s general condition since the application was approved.

(15) Enforcement actions; written agreements; cease and desist orders. With the prior approval of both the Board’s Director of the Division of Banking Supervision and Regulation and the Board’s General Counsel:

(i) To enter into a written agreement with a bank holding company or any
§ 265.11

nonbanking subsidiary thereof, with a state member bank, or with any other person or entity subject to the Board’s supervisory jurisdiction under 12 U.S.C. 1818(b) concerning the prevention or correction of an unsafe or unsound practice in conducting the business of the bank holding company, nonbanking subsidiary, or state member bank or other entity, or concerning the correction or prevention of any violation of law, rule, or regulation, or any condition imposed in writing by the Board in connection with the granting of any application or other request by the bank or company or any other appropriate matter;

(ii) To stay, modify, terminate, or suspend an agreement entered into pursuant to this paragraph;

(iii) To stay, modify, terminate, or suspend an outstanding cease and desist order that has become final pursuant to 12 U.S.C. 1818(b) and (k). Any agreement authorized under this paragraph may, by its terms, be enforceable to the same extent and in the same manner as an effective and outstanding cease and desist order that has become final pursuant to 12 U.S.C. 1818(b) and (k).

(16) Appointment of assistant Federal Reserve agents. To approve the appointment of assistant Federal Reserve agents (including representatives or alternate representatives of such agents) under section 4, paragraph 21 of the Federal Reserve Act (12 U.S.C. 306).

(b) Availability of Information; Board records. To make available information of the Board of the nature and in the circumstances described in the Board’s Rules Regarding Availability of Information (12 CFR 261.11).

(2) [Reserved]

(c) Bank holding companies; Change in bank control; Mergers—(1) Require reports under oath. To require reports under oath to determine whether a company is complying with section 5(c) of the Bank Holding Company Act (12 U.S.C. 1844(c)).

(2) Acquisition of going concern—authorization of consummation; early consummation. (i) To notify a bank holding company that, because the circumstances surrounding the application to acquire a going concern indicate that additional information is required or that the acquisition should be considered by the Board, the acquisition should not be consummated until specifically authorized by the Reserve Bank or by the Board.

(ii) To permit a bank holding company to make a proposed acquisition of a going concern before the expiration of the 30-day period referred to in Regulation Y (12 CFR 225.23(a)(2)) because exigent circumstances justify consummation of the acquisition at an earlier time.

(3) Petition for review of decision that adverse comments are not substantive; permit proposed de novo activities; authorization of consummation; early consummation. Under §225.4(b)(1) of Regulation Y (12 CFR part 225) and subject to §265.3 of this part, if a person submitting adverse comments that the Reserve Bank had decided are not substantive files a petition for review by the Board of that decision:

(i) To permit a bank holding company to engage de novo in activities specified in §225.25 of Regulation Y (12 CFR part 225), or retain shares in a company established de novo and engaging in such activities, if the Reserve Bank’s evaluation of the considerations specified in section 4(c)(8) of the Bank Holding Company Act leads it to conclude that the proposal can reasonably be expected to produce benefits to the public.

(ii) To notify a bank holding company that the proposal should not be consummated until specifically authorized by the Reserve Bank or by the Board or that the proposal should be processed in accordance with the procedures in §225.23(a)(2) of Regulation Y (12 CFR part 225).

(iii) To permit a bank holding company to consummate the proposal before the expiration of the 45-day period referred to in §225.23(a)(1) of Regulation Y because exigent circumstances justify consummation at an earlier time under §225.4(b)(1) of Regulation Y (12 CFR part 225).

(4) Permit or stay of modification or relocation of activities. To permit or stay a proposed de novo modification or relocation of activities engaged in by a bank holding company on the same
§ 265.11

12 CFR Ch. II (1–1–09 Edition)

basis as de novo proposals under § 265.11(d)(3) of this part.

(5) Notices under change in Bank Control Act. With respect to the bank holding company or a state member bank:

(i) To determine the informational sufficiency of notices and reports filed under the Change in Bank Control Act;

(ii) To extend periods for consideration of notices;

(iii) To determine whether a person who is or will be subject to a presumption described in §225.41(b) of Regulation Y (12 CFR part 225) should file a notice regarding a proposed transaction; and

(iv) To issue a notice of intention not to disapprove a proposed change in control if all the following conditions are met:

(A) No member of the Board has indicated an objection prior to the Reserve Bank's action;

(B) No senior officer or director of an involved party is also a director of a Federal Reserve Bank or branch;

(C) All relevant departments of the Reserve Bank concur;

(D) If the proposal involves shares of a state member bank or a bank holding company controlling a state member bank, the appropriate bank supervisory authorities have indicated that they have no objection to the proposal, or no objection has been received from them within the time allowed by the act; and

(E) No significant policy issue under the change in Bank Control Act, 12 U.S.C. 1817(j) or §225.41 of Regulation Y (12 CFR part 225) is raised by the proposal as to which the Board has not expressed its view.

(6) Failure to comply with publication requirement under change in Bank Control Act. To waive, dispense with, modify, or excuse the failure to comply with the requirement for publication and solicitation of public comment regarding a notice filed under the Change in Bank Control Act, with the concurrence of the Board’s Director of the Division of Banking Supervision and Regulation and the Board’s General Counsel, provided that a written finding is made that such disclosure or solicitation would seriously threaten the safety or soundness of a bank holding company or bank under the Change in Bank Control Act (12 U.S.C. 1817(j)(2)).

(7) Grandfathered nonbanking activities. To determine under section 4(a)(2) of the Bank Holding Company Act (12 U.S.C. 1843(a)(2)) that termination of grandfathered nonbanking activities of a particular bank holding company is not warranted, provided the Reserve Bank is satisfied all of the following conditions are met:

(i) The company or its successor is “a company covered in 1970”;

(ii) The nonbanking activities for which indefinite grandfather privileges are being sought do not present any significant unsettled policy issues; and

(iii) The bank holding company was lawfully engaged in such activities as of June 30, 1968 and has been engaged in such activities continuously thereafter.

(8) Opening of additional nonbanking offices. To approve applications by a bank holding company under sections 4(c)(8) and 5(b) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8), 1844(b)) and §225.23(b) of Regulation Y (12 CFR part 225) to open additional offices to engage in nonbanking activities for which the bank holding company previously received approval pursuant to Board order, unless one of the conditions specified in §265.11(f) (1), (2), (3), or (4), of this part is present.

(9) Notices for addition or change of directors or officers. Under section 914(a) of the Financial Institutions Reform, Recovery and Enforcement Act (12 U.S.C. 1831i) and subpart H of Regulation Y (12 CFR part 225), provided that no senior officer or director or proposed senior officer or director of the notificant is also a director of the Reserve Bank or a branch of the Reserve Bank:

(i) To determine the informational sufficiency of notices filed pursuant to §225.72 of Regulation Y; and

(ii) To waive the prior notice requirements of that section.

(10) Acquisition approvals under section 5(d)(3) of the FDI Act. To approve, under section 5(d)(3)(E) of the Federal Deposit Insurance Act, requests by a bank holding company to engage in any transaction described in section 5(d)(3)(A) of that Act.
§ 265.11

(11) Applications requiring Board approval; competitive factors reports for bank mergers. To approve applications requiring prior approval of the Board and furnish to the Comptroller of the Currency and the Federal Deposit Insurance Corporation reports on competitive factors involved in a bank merger required to be approved by one of those agencies, unless one or more of the following conditions is present:

(i) A member of the Board has indicated an objection prior to the Reserve Bank’s action; or
(ii) The Board has indicated that such delegated authority shall not be exercised by the Reserve Bank in whole or in part; or
(iii) A written substantive objection to the application has been properly made; or
(iv) The application raises a significant policy issue or legal question on which the Board has not established its position; or
(v) With respect to bank holding company formations, bank acquisitions or mergers, the proposed transaction involves two or more banking organizations that, upon consummation of the proposal, would control over 35 percent of total deposits (including 50 percent of thrift deposits) in banking offices in the relevant geographic market, or would result in an increase of at least 250 points in the Herfindahl-Hirschman Index (HHI) in a highly concentrated market (a market with a post-merger HHI of at least 1800); or
(vi) With respect to nonbank acquisitions, the nonbanking activities involved do not clearly fall within activities that the Board has designated as permissible for bank holding companies under §225.25(b) of Regulation Y.

(d) International banking—

(1) Application to establish Edge Corporation. To approve the application by a U.S. banking organization to establish an Edge corporation under section 25 of the Federal Reserve Act (12 U.S.C. 611) and the Board’s Regulation K (12 CFR part 211) if all of the following criteria are met:

(i) The U.S. banking organization meets the capital adequacy guidelines and is otherwise in satisfactory condition;
(ii) The proposed Edge corporation will be a wholly-owned subsidiary of a single banking organization; and
(iii) No other significant policy issue is raised on which the Board has not previously expressed its view.

(2) Issuance of permit to Edge corporation to commence business. To issue to an Edge corporation under section 25A of the Federal Reserve Act (12 U.S.C. 612) and Regulation K, §211.4(a) (12 CFR part 211) a final permit to commence business and to approve amendments to the articles of association of any Edge corporation to reflect the following:

(i) Any increase in capital stock where all additional shares are to be acquired by existing shareholders; or
(ii) Any change in the location of the home office in the city where the Edge corporation is presently located; or
(iii) Any change in the number of members of the board of directors; or
(iv) Any change in the name; or
(v) Deletion of the requirements that all directors and shareholders must be U.S. citizens.

(3) Edge corporation establishing branch abroad. To approve, under §211.3(a) of Regulation K (12 CFR part 211), an Edge corporation application to establish a branch abroad, provided that no senior officer or director of the involved parties is also a director of a Reserve Bank or branch and that no significant policy issue is raised by the proposal as to which the Board has not expressed its view.

(4) Member bank establishing foreign branch. To approve under §211.3(a) of Regulation K (12 CFR part 211) a member bank’s establishing, directly or indirectly, a foreign branch where the application is not one for a full-service branch in a foreign country, provided that no senior officer or director of the involved parties is also a director of a Reserve Bank or branch and that no significant policy issue is raised by the proposal as to which the Board has not expressed its view.

(5) Agreement with foreign bank concerning deposits of out-of-home-state branch. To enter into an agreement or undertaking with a foreign bank that it shall receive only such deposits at its out-of-home-state branch as would be permissible for an Edge corporation.

(6) **Waiver of 30-day prior notification period.** To waive the 30-day prior notification period with respect to a foreign bank’s change of home state under §211.22(c)(1) of Regulation K (12 CFR part 211).

(7) **Granting specific consent.** To grant prior specific consent to an investor for an investment in its first subsidiary or its first joint venture, where such investment does not exceed the general consent limitations under 211.5(c) of Regulation K (12 CFR part 211).

(8) **Authority under prior-notice procedures.** (i) With regard to a prior notice to make an investment under §211.9(f) of Regulation K (12 CFR 211.9(f)):
(A) To suspend the notice period; or
(B) To require the notificant to file an application for the Board’s specific consent.

(ii) With regard to a prior notice of a foreign bank to establish certain U.S. offices under §211.24(a)(2)(i) of Regulation K (12 CFR 211.24(a)(2)(i)):
(A) To suspend the notice period; or
(B) To require that the foreign bank file an application for the Board’s specific consent.

(9) **Investment in export trading company.** To issue a notice of intention not to disapprove a proposed investment in an export trading company if all the following criteria are met:
(i) The proposed export trading company will be a wholly-owned subsidiary of a single investor, or ownership will be shared with an individual or individuals involved in the operation of the export trading company;
(ii) A bank holding company investor and its lead bank meet the minimum capital adequacy guidelines of the Board, the Comptroller of the Currency, or the Federal Deposit Insurance Corporation or have enacted capital enhancement plans that have been determined by the appropriate supervisory authority to be acceptable;
(iii) The proposed activities of the export trading company do not include product research or design, product modification, or activities not specifically covered by the list of services contained in 4(c)(14)(F)(ii) of the Bank Holding Company Act (12 U.S.C. 1843(c)(14)(F)(ii));
(iv) No other significant policy issue is raised on which the Board has not previously expressed its view under section 4(c)(14) of the Bank Holding Company Act (12 U.S.C. 1843(c)(14) and Regulation K (12 CFR 211.31–211.34).

(10) **Futures commission merchant activities.** To approve, under §211.5(d)(17) of Regulation K (12 CFR part 211), applications to engage in futures commission merchant activities on an exchange that requires members to guaranty or otherwise contract to cover losses suffered by the other members, provided that the Board has previously approved the exchange and the application is on the same terms and conditions on which the Board based its approval of the exchange.

(11) **Investments in Edge and agreement Corporation subsidiaries.** To approve an application by a member bank to invest more than 10 percent of capital and surplus in Edge and agreement corporation subsidiaries, provided that:
(i) The member bank’s total investment, including the retained earnings of the Edge and agreement corporation subsidiaries, does not exceed 20 percent of the bank’s capital and surplus or would not exceed that level as a result of the proposal; and
(ii) The proposal raises no significant policy or supervisory issues.

(12) **Amendments to Edge corporation charters.** To approve amendments to Edge corporation charters.

(e) **Member banks—(1) Approval of membership applications.** To approve applications for membership in the Federal Reserve System under section 9 of the Federal Reserve Act (12 U.S.C. 321 et seq.) and Regulation H (12 CFR part 208) if the Reserve Bank is satisfied that approval is warranted after considering the factors set forth in 12 CFR 208.3(b).

(2) **Waiver of notice of intention to withdraw from membership.** To approve or deny applications by state banks for waiver of the required six months’ notice of intention to withdraw from Federal Reserve membership under section 9(10) of the Federal Reserve Act (12 U.S.C. 328).

(3) **Approval of branch applications.** To approve a state member bank’s establishment of a domestic branch under section 9 of the Federal Reserve Act (12 U.S.C. 328).
Federal Reserve System

§ 265.11

USC 321 et seq.) and Regulation H (12 CFR Part 208) if the Reserve Bank is satisfied that approval is warranted after considering the factors set forth in 12 CFR 208.6(b).

(4) Declaration of dividends in excess of net profits. To permit a state member bank under section 9(6) of the Federal Reserve Act (12 USC 324 and 60) to declare dividends in excess of the amounts allowed in 12 CFR 208.5(c) if the Reserve Bank is satisfied that approval is warranted after giving consideration to:

(i) The bank's capitalization in relation to the character and condition of its assets and to its deposit liabilities and other corporate responsibilities, including the volume of its risk assets and of its marginal and inferior-quality assets, all considered in relation to the strength of its management; and

(ii) The bank's capitalization after payment of the proposed dividends.

(5) Reduction of capital stock. To permit a state member bank under section 9(11) of the Federal Reserve Act (12 USC 239) to reduce its capital stock below the amounts set forth in 12 CFR 208.5(d) if the state member bank's capitalization thereafter will be:

(i) In conformity with the requirements of federal law; and

(ii) Adequate in relation to the character and condition of its assets and to its deposit liabilities and other corporate responsibilities, including the volume of its risk assets and of its marginal and inferior quality assets, all considered in relation to the strength of its management.

(6) Acceptance of drafts and bills of exchange. To permit a member bank or a federal or state branch or agency of a foreign bank that is subject to reserve requirements under section 7 of the International Banking Act of 1978 (12 U.S.C. 3105) to accept drafts or bills of exchange under section 13(7) of the Federal Reserve Act (12 U.S.C. 372) in an aggregate amount at any one time up to 200 percent of its paid-up and unimpaired capital stock and surplus, if the Reserve Bank is satisfied that such permission is warranted after giving consideration to the institution's capitalization in relation to the character and condition of its assets and to its deposit liabilities and other corporate responsibilities, including the volume of its risk assets and of its marginal and inferior-quality assets, all considered in relation to the strength of its management.

(7) Investment in bank premises in excess of capital stock. To permit a state member bank to invest in bank premises under section 24A of the Federal Reserve Act (12 USC 371a) in an amount in excess of that set forth in 12 CFR 208.21(a), if the Reserve Bank is satisfied that approval is warranted after giving consideration to the bank's capitalization in relation to the character and condition of its assets and to its deposit liabilities and other corporate responsibilities, including the volume of its risk assets and of its marginal and inferior-quality assets, all considered in relation to the strength of its management.

(8) Security devices. To determine whether security devices and procedures of state member banks are deficient in meeting the requirements of Regulation H (12 CFR part 208) and whether such requirements should be varied in the circumstances of a particular banking office, and whether to require corrective action.

(9) Classifying member banks for election of directors. To classify member banks for the purposes of electing Federal Reserve Bank class A and class B directors under section 4(16) of the Federal Reserve Act (12 U.S.C. 304), giving consideration to:

(i) The statutory requirement that each of the three groups shall consist as nearly as may be of banks of similar capitalization; and

(ii) The desirability that every member bank have the opportunity to vote for a class A or a class B director at least once every three years.

(10) Waiver of penalty for deficient reserves. To waive the penalty for deficient reserves by a member bank if, after a review of all the circumstances relating to the deficiency, the Reserve Bank concludes that waiver is warranted, except that in no case may a penalty be waived if the deficiency in reserves arises out of the bank's gross negligence or conduct inconsistent with the principles and purposes of reserve requirements.
(11) Retirement of subordinated debt. To approve the retirement prior to maturity of capital notes described in §204.2(a)(1)(vii)(C) of Regulation D (12 CFR part 204) and issued by a state member bank, provided the Reserve Bank is satisfied that the capital position of the bank will be adequate after the proposed redemption.

(12) Public welfare investments. To permit a state member bank to make a public welfare investment that meets the conditions of 12 CFR 208.22(b)(1)–(3), (b)(5) and (b)(7), if the Reserve Bank is satisfied that:

(i) The state member bank received at least an overall rating of “3” as of its most recent consumer compliance examination; and

(ii) The aggregate of all such investments of the state member bank does not exceed 10 percent of its capital stock and surplus as defined under 12 CFR 208.2(d).

(f) Securities. To approve applications by a registered lender for termination of the registration under §221.3(b)(2) of Regulation U (12 CFR 221.3(b)(2)).

(g) Management interlocks—(1) Change in circumstances requiring termination of management interlocks; Regulation L. To grant time for compliance with §121.6 of Regulation L (12 CFR part 212) of up to an aggregate of 15 months from the date on which the change in circumstances as specified in that section occurs when the additional time appears to be appropriate to avoid undue disruption to the depository organizations involved in the management interlocks.

(2) Depository Institutions Management Interlocks Act. After consultation with the General Counsel of the Board, to decide not to disapprove notices to establish director interlocks with diversified savings and loan holding companies. (12 U.S.C. 3204(8)).

Board action or to express staff opinions in dealings with the public.

(c) **Appear personally** includes personal appearance or attendance before, or personal communication, either written or oral, with the Board or a Federal Reserve Bank of any member or employee thereof, or personal participation in the formulation or preparation of any material presented or communicated to, or filed with, the Board, in connection with any application or interpretation arising under the statutes or regulations administered by the Board or the Federal Reserve Banks, except that requests for general information or explanations of Board policy or interpretation shall not be construed to be a personal appearance.

### § 266.3 Limitations.

(a) **Matters on which Board member or employee worked.** No former member or employee of the Board shall appear personally before the Board or a Federal Reserve Bank on behalf of anyone other than the United States, an agency thereof, or a Federal Reserve Bank, in connection with any judicial or other proceedings, application, request for ruling or determination, or other particular matter involving a specific party or parties in which the United States, an agency thereof, or a Federal Reserve Bank is also a party or has a direct and substantial interest and in which he participated personally and substantially as a member or employee of the Board through approval, disapproval, decision, recommendation, advice, investigation or otherwise.

(b) **Matters within Board member or employee's official responsibility.** No former member or employee of the Board shall appear personally before the Board or a Federal Reserve Bank on behalf of anyone other than the United States, an agency thereof, or a Federal Reserve Bank, in connection with any judicial or other proceeding, application, request for ruling or determination, or other particular matter involving a specific party or parties in which the United States, an agency thereof, or a Federal Reserve Bank is also a party or has a direct and substantial interest, and which matter was in process during his tenure of office or period of employment and under his official Board responsibility, at any time within a period of one year after the termination of such responsibility.

(c) **Consultation as to propriety of appearance before the Board.** Any former member or employee of the Board who wishes to personally appear before the Board or a Federal Reserve Bank on behalf of any party other than the United States or an agency thereof or a Federal Reserve Bank at any time within two years from termination of employment with the Board is advised to consult the General Counsel or the Secretary of the Board as to the propriety of such appearance.

(d) **Rulemaking proceedings.** Nothing in this section shall preclude a former member or employee of the Board from representing another person in any Board or Federal Reserve Bank proceeding governed by a rule, regulation, standard, or policy of the Board solely by reason of the fact that such former member or employee participated in or had official responsibility in the formulation or adoption of such rule, regulation, standard, or policy.

(e) **Effective date.** This part shall become effective November 6, 1973. Notwithstanding the foregoing, the limitations of this part shall not apply to any activities with respect to a specific matter before the Board in which any former Board member or employee may be engaged on September 21, 1973, the date of publication of this part, until the expiration of 60 days following the effective date of this part or of such additional period as the Secretary of the Board may determine to be appropriate in order to avoid inequity.

### § 266.4 Suspension of appearance privilege.

If any person knowingly and willfully fails to comply with the provisions of this part, the Board may decline to permit such person to appear personally before it or a Federal Reserve Bank for such periods of time as it may determine and may impose such other sanctions as the Board may deem just and proper.

### § 266.5 Criminal penalties.

Any former member or employee of the Board who engages in actions in
contravention of paragraph (a) or (b) of §266.3 may be subject to criminal penalties for violation of section 207 of the United States Criminal Code (18 U.S.C. 207).

PART 267—RULES OF ORGANIZATION AND PROCEDURE OF THE CONSUMER ADVISORY COUNCIL

Sec.
267.1 Statutory authority.
267.2 Purposes and objectives of the Council.
267.3 Members.
267.4 Officers.
267.5 Meetings.
267.6 Amendments.

SOURCE: 41 FR 49802, Nov. 11, 1976, unless otherwise noted.

§ 267.1 Statutory authority.

Section 703 of the Equal Credit Opportunity Act, as amended, provides:

The Board [of Governors of the Federal Reserve System] shall establish a Consumer Advisory Council to advise and consult with it in the exercise of its functions under the Consumer Credit Protection Act and to advise and consult with it concerning other consumer related matters it may place before the Council. In appointing the members of the Council, the Board shall seek to achieve a fair representation of the interests of creditors and consumers. The Council shall meet from time to time at the call of the Board. Members of the Council who are not regular full-time employees of the United States shall, while attending meetings of such Council, be entitled to receive compensation at a rate fixed by the Board, but not exceeding $100 per day, including travel time. Such members may be allowed travel expenses, including transportation and subsistence, while away from their homes or regular place of business.

§ 267.2 Purposes and objectives of the Council.

The Council shall advise and consult with the Board in the exercise of the Board’s functions under the Consumer Credit Protection Act and with regard to other matters the Board may place before the Council.

§ 267.3 Members.

(a) The Council shall consist of not more than 30 members appointed by the Board. The term of office of each member of the Council shall be three years. However, the initial terms of the members first taking office shall expire as follows: approximately one-third on December 31, 1977, and approximately one-third at the end of each of the two succeeding calendar years. After the expiration of any member’s term of office, such member may continue to serve until a successor has been appointed by the Board. The Board shall have the authority to appoint persons to fill vacancies on the Council.

(b) Resignation. Any member may resign at any time by giving notice to the Board. Any such resignation shall take effect upon its acceptance by the Board.

(c) Compensation. Members who are not regular full-time employees of the United States shall be paid travel expenses, including transportation and subsistence, and compensation of $100 for each day devoted to attending and traveling to and from meetings.

§ 267.4 Officers.

(a) Chairman. The Board shall appoint a Chairman and a Vice Chairman from among the members of the Council, who shall serve at the pleasure of the Board. The Chairman, or in the Chairman’s absence the Vice Chairman, shall preside at all meetings of the Council. The Board may appoint a Chairman pro temp who shall preside at a meeting of the Council in the absence of the Chairman and Vice Chairman.

(b) Secretary. The Board shall designate a member of its staff, who may but need not be the representative described in §267.5(c), to act as Secretary of the Council. The Secretary shall record and maintain minutes of the meetings of the Council. Minutes of each meeting shall contain, among other things, a record of the persons present, a description of the matters discussed, and recommendations made. The person acting as Secretary at a meeting shall certify to the accuracy of the minutes of that meeting.
§ 267.5 Meetings.

(a) Time. Meetings of the Council shall be held at least once each year and may be held more frequently at the call of the Board.

(b) Agenda. Each meeting of the Council shall be conducted in accordance with an agenda formulated or approved by the Board.

(c) Board representation. Each meeting of the Council shall be attended by a representative of the Board who is either a member of the Board or of the Board’s staff. The Board representative shall have authority to and shall adjourn any meeting of the Council when such representative considers adjournment to be in the public interest.

(d) Public nature. (1) Each meeting of the Council shall, to the extent of reasonably available facilities, be open to public observation unless the Board, in accordance with paragraph (d)(6) of this section, determines that the meeting shall be closed.

(2) Notice of the time, place and purpose of each meeting, as well as a summary of the proposed agenda, shall be published in the Federal Register not more than 45 or less than 15 days prior to the scheduled meeting date. Insofar as is practicable, a list of persons and organizations interested in the Council shall be maintained, and a notice of each meeting shall be mailed to such persons and organizations at least 15 days in advance of the scheduled meeting date. Shorter notice may be given when the Board determines that its business so requires; in such event, the public, including persons and organizations described in the preceding sentence, will be given notice at the earliest practicable time.

(3) Members of the public may file written statements with the Council prior to the meeting concerning matters on the Council’s agenda. The person presiding at the Council meeting may permit members of the public to submit written statements on such matters within a specified time after the Council meeting. All such submissions shall be circulated to the Council members as soon as is practicable.

(4) Oral presentations at the Council meetings by members of the public shall not be permitted except upon invitation of the Council. However, if the Council and the Board determine that public hearings regarding a matter or matters of concern to the Council are warranted, members of the public may make presentations at such hearings in accordance with procedures established therefor.

(5) Minutes of meetings, records, reports, studies, and agenda of the Council shall be available to the public for copying at the Board’s offices in Washington, DC, in accordance with the provisions of 12 CFR part 261 Rules Regarding Availability of Information. Requests for copies of such documents should be addressed to the Secretary, Board of Governors of the Federal Reserve System, Washington, DC 20551.

(6) The Board may close to the public any meeting, or any portion of any meeting, of the Council if it determines that such meeting or portion thereof is likely to:

(i) Disclose matters that relate solely to internal personnel rules and practices of the Council;

(ii) Disclose trade secrets and commercial or financial information obtained from a person and privileged or confidential;

(iii) Involve accusing any person of a crime, or formally censuring any person;

(iv) Disclose information of a personal nature where disclosure would constitute a clearly unwarranted invasion of personal privacy;

(v) Disclose information contained in or related to examination, operating or condition reports prepared by, on behalf of, or for the use of an agency responsible for the regulation or supervision of financial institutions;

(vi) Disclose information the premature disclosure of which would be likely to lead to significant financial speculation in currencies, securities, or commodities or significantly endanger the stability of any financial institution;

(vii) Disclose information the premature disclosure of which would be likely to frustrate significantly implementation of a proposed Board action, unless the Board has already disclosed to the public the content or nature of its proposed action, or where the Board
§ 267.6

is required by law to make such disclosure on its own initiative prior to taking final action on the proposal; or

(viii) Which relate to any legal proceedings, agency adjudicatory proceeding or arbitration involving the Board or the Council.

(e) If the Board closes a meeting or any portion of a meeting, the Council will issue, at least annually, a report containing a summary, consistent with 5 U.S.C. 552(b) (1970), of the Council’s activities during such closed meetings or portions of meetings.

§ 267.6 Amendments.

These rules of organization and procedure may be amended or repealed at any time by action of the Board, provided, however, that members of the Council shall be promptly notified by the Board of any such action.

PART 268—RULES REGARDING EQUAL OPPORTUNITY

Subpart A—General Provisions and Administration

Sec.
268.1 Authority, purpose and scope.
268.2 Definitions.

Subpart B—Board Program To Promote Equal Opportunity

268.101 General policy for equal opportunity.
268.102 Board program for equal employment opportunity.
268.103 Complaints of discrimination covered by this part.
268.104 Pre-complaint processing.
268.105 Individual complaints.
268.106 Dismissals of complaints.
268.107 Investigation of complaints.
268.108 Hearings.
268.109 Final action by the Board.

Subpart C—Provisions Applicable to Particular Complaints

268.201 Age Discrimination in Employment Act.
268.203 Rehabilitation Act.
268.204 Class complaints.
268.205 Employment of aliens; Access to sensitive information.

Subpart D—Related Processes

268.301 Negotiated grievance procedure.
268.302 Mixed case complaints.
§ 268.1 Authority, purpose and scope.
(a) Authority. The regulations in this part (12 CFR part 268) are issued by the Board of Governors of the Federal Reserve System (Board) under the authority of sections 10(4) and 11(i), (k), and (l) of the Federal Reserve Act (partially codified in 12 U.S.C. 244 and 248(i), (k) and (l)).
(b) Purpose and scope. This part sets forth the Board’s policy, program and procedures for providing equal opportunity to Board employees and applicants for employment without regard to race, color, religion, sex, national origin, age, or physical or mental disability. It also sets forth the Board’s policy, program and procedures for prohibiting discrimination on the basis of physical or mental disability in programs and activities conducted by the Board. It also specifies the circumstances under which the Board will hire or decline to hire persons who are not citizens of the United States, consistent with the Board’s operational needs and applicable law.

§ 268.2 Definitions.
The definitions contained in this section shall have the following meanings throughout this part unless otherwise stated.
(a) Commission or EEOC means the Equal Employment Opportunity Commission.
(b) Title VII means Title VII of the Civil Rights Act (42 U.S.C. 2000e et seq.).

Subpart B—Board Program To Promote Equal Opportunity

§ 268.101 General policy for equal opportunity.
(a) It is the policy of the Board to provide equal opportunity in employment for all persons, to prohibit discrimination in employment because of race, color, religion, sex, national origin, age or disability, and to promote the full realization of equal opportunity in employment through a continuing affirmative program.
(b) No person shall be subject to retaliation for opposing any practice made unlawful by Title VII of the Civil Rights Act (title VII) (42 U.S.C. 2000e et seq.), the Age Discrimination in Employment Act (ADEA) (29 U.S.C. 621 et seq.), the Equal Pay Act (29 U.S.C. 206(d)), or the Rehabilitation Act (29 U.S.C. 791 et seq.) or for participating in any stage of administrative or judicial proceedings under those statutes.

§ 268.102 Board program for equal employment opportunity.
(a) The Board shall maintain a continuing affirmative program to promote equal opportunity and to identify and eliminate discriminatory practices and policies. In support of this program, the Board shall:
1. Provide sufficient resources to its equal opportunity program to ensure efficient and successful operation;
2. Provide for the prompt, fair and impartial processing of complaints in accordance with this part and the instructions contained in the Commission’s Management Directives;
3. Conduct a continuing campaign to eradicate every form of prejudice or discrimination from the Board’s personnel policies, practices and working conditions;
4. Communicate the Board’s equal employment opportunity policy and program and its employment needs to all sources of job candidates without regard to race, color, religion, sex, national origin, age or disability, and solicit their recruitment assistance on a continuing basis;
5. Review, evaluate and control managerial and supervisory performance in such a manner as to insure a continuing affirmative application and vigorous enforcement of the policy of equal opportunity, and provide orientation, training and advice to managers and supervisors to assure their understanding and implementation of the equal employment opportunity policy and program;
6. Take appropriate disciplinary action against employees who engage in discriminatory practices;
7. Make reasonable accommodation to the religious needs of employees and applicants for employment when those accommodations can be made without undue hardship on the business of the Board;
(8) Make reasonable accommodation to the known physical or mental limitations of qualified applicants and employees with a disability unless the accommodation would impose an undue hardship on the operations of the Board’s program;

(9) Provide recognition to employees, supervisors, managers and units demonstrating superior accomplishment in equal employment opportunity;

(10) Establish a system for periodically evaluating the effectiveness of the Board’s overall equal employment opportunity effort;

(11) Provide the maximum feasible opportunity to employees to enhance their skills through on-the-job training, work-study programs and other training measures so that they may perform at their highest potential and advance in accordance with their abilities;

(12) Inform its employees and recognized labor organizations of the Board’s affirmative equal opportunity policy and program and enlist their cooperation; and

(13) Participate at the community level with other employers, with schools and universities and with other public and private groups in cooperative action to improve employment opportunities and community conditions that affect employability.

(b) In order to implement its program, the Board shall:

(1) Develop the plans, procedures and regulations necessary to carry out its program;

(2) Establish or make available an alternative dispute resolution program. Such program must be available for both the precomplaint process and the formal complaint process;

(3) Appraise its personnel operations at regular intervals to assure their conformity with the Board’s program, this part 268 and the instructions contained in the Commission’s management directives;

(4) Designate a Director for Equal Employment Opportunity (EEO Programs Director), EEO Officer(s), and such Special Emphasis Program Managers/Coordinators (e.g., People with Disabilities Program, Federal Women’s Program and Hispanic Employment Program), clerical and administrative support as may be necessary to carry out the functions described in this part in all organizational units of the Board and at all Board installations. The EEO Programs Director shall be under the immediate supervision of the Chairman.

(5) Make written materials available to all employees and applicants informing them of the variety of equal employment opportunity programs and administrative and judicial remedial procedures available to them and prominently post such written materials in all personnel and EEO offices and throughout the workplace;

(6) Ensure that full cooperation is provided by all Board employees to EEO Counselors and Board EEO personnel in the processing and resolution of pre-complaint matters and complaints within the Board and that full cooperation is provided to the Commission in the course of appeals, including, granting the Commission routine access to personnel records of the Board when required in connection with an investigation;

(7) Publicize to all employees and post at all times the names, business telephone numbers and business addresses of the EEO Counselors (unless the counseling function is centralized, in which case only the telephone number and address need be publicized and posted), a notice of the time limits and necessity of contacting a Counselor before filing a complaint and the telephone numbers and addresses of the EEO Programs Director, EEO Officer(s) and the Special Emphasis Program Managers/Coordinators.

(c) The EEO Programs Director shall be responsible for:

(1) Advising the Board of Governors with respect to the preparation of national and regional equal employment opportunity plans, procedures, regulations, reports and other matters pertaining to the policy in §268.101 and the Board’s program;

(2) Evaluating from time to time the sufficiency of the total Board program for equal employment opportunity and reporting to the Board of Governors with recommendations as to any improvement or correction needed, including remedial or disciplinary action.
with respect to managerial, supervisory or other employees who have failed in their responsibilities; 
(3) When authorized by the Board of Governors, making changes in programs and procedures designed to eliminate discriminatory practices and to improve the Board’s program for equal employment opportunity; 
(4) Providing for counseling of aggrieved individuals and for the receipt and processing of individual and class complaints of discrimination; and 
(5) Assuring that individual complaints are fairly and thoroughly investigated and that final action is taken in a timely manner in accordance with this part. 
(d) Directives, instructions, forms and other Commission materials referenced in this part may be obtained in accordance with the provisions of 29 CFR 1610.7.
§ 268.103 Complaints of discrimination covered by this part.
(a) Individual and class complaints of employment discrimination and retaliation prohibited by title VII (discrimination on the basis of race, color, religion, sex and national origin), the ADEA (discrimination on the basis of age when the aggrieved person is at least 40 years of age), the Rehabilitation Act (discrimination on the basis of disability), or the Equal Pay Act (sex-based wage discrimination) shall be processed in accordance with this part. Complaints alleging retaliation prohibited by these statutes are considered to be complaints of discrimination for purposes of this part.
(b) This part applies to all Board employees and applicants for employment at the Board, and to all employment policies or practices affecting Board employees or applicants for employment.
(c) This part does not apply to Equal Pay Act complaints of employees whose services are performed within a foreign country or certain United States territories as provided in 29 U.S.C. 213(f).
§ 268.104 Pre-complaint processing.
(a) Aggrieved persons who believe they have been discriminated against on the basis of race, color, religion, sex, national origin, age or disability must consult a Counselor prior to filing a complaint in order to try to informally resolve the matter.
(1) An aggrieved person must initiate contact with a Counselor within 45 days of the date of the matter alleged to be discriminatory or, in the case of a personnel action, within 45 days of the effective date of the action.
(2) The Board or the Commission shall extend the 45-day time limit in paragraph (a)(1) of this section when the individual shows that he or she was not notified of the time limits and was not otherwise aware of them, that he or she did not know and reasonably should not have known that the discriminatory matter or personnel action occurred, that despite due diligence he or she was prevented by circumstances beyond his or her control from contacting the counselor within the time limits, or for other reasons considered sufficient by the Board or the Commission.
(b)(1) At the initial counseling session, Counselors must advise individuals in writing of their rights and responsibilities, including the right to request a hearing or an immediate final decision after an investigation by the Board in accordance with §268.107(f), election rights pursuant to §268.302, the right to file a notice of intent to sue pursuant to §268.201(a) and a lawsuit under the ADEA instead of an administrative complaint of age discrimination under this part, the duty to mitigate damages, administrative and court time frames, and that only the claims raised in precomplaint counseling (or issues or claims like or related to issues or claims raised in precomplaint counseling) may be alleged in a subsequent complaint filed with the Board. Counselors must advise individuals of their duty to keep the Board and the Commission informed of their current address and to serve copies of appeal papers on the Board. The notice required by paragraphs (d) or (e) of this section shall include a notice of the right to file a class complaint. If the aggrieved person informs the Counselor that he or she wishes to file a class complaint, the Counselor shall explain the class complaint procedures.
§ 268.105 Individual complaints.

(a) A complaint must be filed with the agency that allegedly discriminated against the complainant.

(b) A complaint must be filed within 15 days of receipt of the notice required by §268.104 (d), (e) or (f).

(c) A complaint must contain a signed statement from the person claiming to be aggrieved or that person’s attorney. This statement must be sufficiently precise to identify the aggrieved individual and the Board and to describe generally the action(s) or practice(s) that form the basis of the complaint. The complaint must also contain a telephone number and address where the complainant or the representative can be contacted.

(d) A complainant may amend a complaint at any time prior to the conclusion of the investigation to include issues or claims like or related to those raised in the complaint. After requesting a hearing, a complainant may file a motion with the administrative judge to amend a complaint to include issues or claims like or related to those raised in the complaint.

(e) Prior to the end of the 30-day period, the aggrieved person may agree in writing with the Board to postpone the final interview and extend the counseling period for an additional period of no more than 60 days. If the matter has not been resolved before the conclusion of the agreed extension, the notice described in paragraph (d) of this section shall be issued.

(f) Where the aggrieved person chooses to participate in an alternative dispute resolution procedure in accordance with paragraph (b)(2) of this section, the pre-complaint processing period shall be 90 days. If the claim has not been resolved before the 90th day, the notice described in paragraph (d) of this section shall be issued.

(g) The Counselor shall not attempt in any way to restrain the aggrieved person from filing a complaint. The Counselor shall not reveal the identity of an aggrieved person who consulted the Counselor, except when authorized to do so by the aggrieved person, or until the Board has received a discrimination complaint under this part from that person involving the same matter.

§ 268.105 Individual complaints.

(a) A complaint must be filed with the agency that allegedly discriminated against the complainant.

(b) A complaint must be filed within 15 days of receipt of the notice required by §268.104 (d), (e) or (f).

(c) A complaint must contain a signed statement from the person claiming to be aggrieved or that person’s attorney. This statement must be sufficiently precise to identify the aggrieved individual and the Board and to describe generally the action(s) or practice(s) that form the basis of the complaint. The complaint must also contain a telephone number and address where the complainant or the representative can be contacted.

(d) A complainant may amend a complaint at any time prior to the conclusion of the investigation to include issues or claims like or related to those raised in the complaint. After requesting a hearing, a complainant may file a motion with the administrative judge to amend a complaint to include issues or claims like or related to those raised in the complaint.

(e) Prior to the end of the 30-day period, the aggrieved person may agree in writing with the Board to postpone the final interview and extend the counseling period for an additional period of no more than 60 days. If the matter has not been resolved before the conclusion of the agreed extension, the notice described in paragraph (d) of this section shall be issued.

(f) Where the aggrieved person chooses to participate in an alternative dispute resolution procedure in accordance with paragraph (b)(2) of this section, the pre-complaint processing period shall be 90 days. If the claim has not been resolved before the 90th day, the notice described in paragraph (d) of this section shall be issued.

(g) The Counselor shall not attempt in any way to restrain the aggrieved person from filing a complaint. The Counselor shall not reveal the identity of an aggrieved person who consulted the Counselor, except when authorized to do so by the aggrieved person, or until the Board has received a discrimination complaint under this part from that person involving the same matter.
acknowledgment shall also advise the complainant that:
(1) The complainant has the right to appeal the final action on or dismissal of a complaint; and
(2) The Board is required to conduct an impartial and appropriate investigation of the complaint within 180 days of the filing of the complaint unless the parties agree in writing to extend the time period. When a complaint has been amended, the Board shall complete its investigation within the earlier of 180 days after the last amendment to the complaint or 360 days after the filing of the original complaint, except that the complainant may request a hearing from an administrative judge on the consolidated complaints any time after 180 days from the date of the first filed complaint.

§ 268.106 Dismissals of complaints.
(a) Prior to a request for a hearing in a case, the Board shall dismiss an entire complaint:
(1) That fails to state a claim under § 268.103 or § 268.105(a), or states the same claim that is pending before or has been decided by the Board or the Commission;
(2) That fails to comply with the applicable time limits contained in §§ 268.104, 268.105 and 268.204(c), unless the Board extends the time limits in accordance with § 268.604(c), or that raises a matter that has not been brought to the attention of a Counselor and is not like or related to a matter that has been brought to the attention of a Counselor;
(3) That is the basis of a pending civil action in a United States District Court in which the complainant is a party provided that at least 180 days have passed since the filing of the administrative complaint, or that was the basis of a civil action decided by a United States District Court in which the complainant was a party;
(4) Where a complainant has raised the matter in an appeal to the Merit Systems Protection Board and § 268.302 indicates that the complainant has elected to pursue the non-EEO process;
(5) That is moot or alleges that a proposal to take a personnel action, or other preliminary step to taking a personnel action, is discriminatory;
(6) Where the complainant cannot be located, provided that reasonable efforts have been made to locate the complainant and the complainant has not responded within 15 days to a notice of proposed dismissal sent to his or her last known address;
(7) Where the Board has provided the complainant with a written request to provide relevant information or otherwise proceed with the complaint, and the complainant has failed to respond to the request within 15 days of its receipt or the complainant’s response does not address the Board’s request, provided that the request included a notice of the proposed dismissal. Instead of dismissing for failure to cooperate, the complaint may be adjudicated if sufficient information for that purpose is available;
(8) That alleges dissatisfaction with the processing of a previously filed complaint; or
(9) Where the Board, strictly applying the criteria set forth in Commission decisions, finds that the complaint is part of a clear pattern of misuse of the EEO process for a purpose other than the prevention and elimination of employment discrimination. A clear pattern of misuse of the EEO process requires:
(i) Evidence of multiple complaint filings; and
(ii) Allegations that are similar or identical, lack specificity or involve matters previously resolved; or
(iii) Evidence of circumventing other administrative processes, retaliating against the Board’s in-house administrative processes or overburdening the EEO complaint system.
(b) Where the Board believes that some but not all of the claims in a complaint should be dismissed for the reasons contained in paragraphs (a)(1) through (9) of this section, the Board shall notify the complainant in writing of its determination, the rationale for that determination and that those claims will not be investigated, and shall place a copy of the notice in the investigative file. A determination under this paragraph is reviewable by an administrative judge if a hearing is requested on the remainder of the complaint, but is not appealable until final
§ 268.107 Investigation of complaints.

(a) The investigation of complaints filed against the Board shall be conducted by the Board.

(b) In accordance with instructions contained in Commission Management Directives, the Board shall develop an impartial and appropriate factual record upon which to make findings on the claims raised by the written complaint. An appropriate factual record is one that allows a reasonable fact finder to draw conclusions as to whether discrimination occurred. The Board may use an exchange of letters or memoranda, interrogatories, investigations, fact-finding conferences or any other fact-finding methods that efficiently and thoroughly address the matters at issue. The Board may incorporate alternative dispute resolution techniques into its investigative efforts in order to promote early resolution of complaints.

(c) The procedures in paragraphs (c) through (3) of this section apply to the investigation of complaints:

1. The complaint, the Board, and any employee of the Board shall produce such documentary and testimonial evidence as the investigator deems necessary.

2. Investigators are authorized to administer oaths. Statements of witnesses shall be made under oath or affirmation or, alternatively, by written statement under penalty of perjury.

3. When the complainant, or the Board or its employees fail without good cause shown to respond fully and in timely fashion to requests for documents, records, comparative data, statistics, affidavits or the attendance of witness(es), the investigator may note in the investigative record that the decisionmaker should, or the Commission on appeal may, in appropriate circumstances:

   i. Draw an adverse inference that the requested information, or the testimony of the requested witness, would have reflected unfavorably on the party refusing to provide the requested information;

   ii. Consider the matters to which the requested information or testimony pertains to be established in favor of the opposing party;

   iii. Exclude other evidence offered by the party failing to produce the requested information or witness;

   iv. Issue a decision fully or partially in favor of the opposing party; or

   v. Take such other actions as it deems appropriate.

(d) Any investigation will be conducted by investigators with appropriate security clearances.

(e)(1) The Board shall complete its investigation within 180 days of the date of filing of an individual complaint or within the time period contained in an order from the Office of Federal Operations on an appeal from a dismissal pursuant to § 268.106. By written agreement within those time periods, the complainant and the Board may voluntarily extend the time period for not more than an additional 90 days. The Board may unilaterally extend the time period or any period of extension for not more than 30 days where it must sanitize a complaint file that may contain information classified pursuant to Executive Order No. 12356, or successor orders, as secret in the interest of national defense or foreign policy, provided the Board notifies the complainant of the extension.

(2) Confidential supervisory information, as defined in 12 CFR 261.2(c), and other confidential information of the Board may be included in the investigative file by the investigator, the EEO Programs Director, or another appropriate officer of the Board, where such information is relevant to the complaint. Neither the complainant nor the complainant’s personal representative may make further disclosure of such information, however, except in compliance with the Board’s Rules Regarding Availability of Information, 12 CFR part 261, and where applicable, the Board’s Rules Regarding Access to Personal Information under the Privacy Act of 1974, 12 CFR part 261a.

(f) Within 180 days from the filing of the complaint, or where a complaint was amended, within the earlier of 180 days after the last amendment to the complaint or 360 days after the filing of the original complaint, within the time period contained in an order from the
Office of Federal Operations on an appeal from a dismissal, or within any period of extension provided for in paragraph (e) of this section, the Board shall provide the complainant with a copy of the investigative file, and shall notify the complainant that, within 30 days of receipt of the investigative file, the complainant has the right to request a hearing and decision from an administrative judge or may request an immediate final decision pursuant to §268.109(b) from the Board.

(g) Where the complainant has received the notice required in paragraph (f) of this section or at any time after 180 days have elapsed from the filing of the complaint, the complainant may request a hearing by submitting a written request for a hearing directly to the EEOC office indicated in the Board’s acknowledgment letter. The complainant shall send a copy of the request for a hearing to the Board’s EEO Programs Office. Within 15 days of receipt of the request for a hearing, the Board’s EEO Programs Office shall provide a copy of the complaint file to EEOC and, if not previously provided, to the complainant.

§268.108 Hearings.

(a) When a complainant requests a hearing, the Commission shall appoint an administrative judge to conduct a hearing in accordance with this section. Upon appointment, the administrative judge shall assume full responsibility for the adjudication of the complaint, including overseeing the development of the record. Any hearing will be conducted by an administrative judge or hearing examiner with appropriate security clearances.

(b) Dismissals. Administrative judges may dismiss complaints pursuant to §268.106, on their own initiative, after notice to the parties, or upon the Board’s motion to dismiss a complaint.

(c) Offer of resolution. (1) Any time after the filing of the written complaint but not later than the date an administrative judge is appointed to conduct a hearing, the Board may make an offer of resolution to a complainant who is represented by an attorney.

(2) Any time after the parties have received notice that an administrative judge has been appointed to conduct a hearing, but not later than 30 days prior to the hearing, the Board may make an offer of resolution to the complainant, whether represented by an attorney or not.

(3) The offer of resolution shall be in writing and shall include a notice explaining the possible consequences of failing to accept the offer. The Board’s offer, to be effective, must include attorney’s fees and costs and must specify any non-monetary relief. With regard to monetary relief, the Board may make a lump sum offer covering all forms of monetary liability, or it may itemize the amounts and types of monetary relief being offered. The complainant shall have 30 days from receipt of the offer of resolution to accept it. If the complainant fails to accept an offer of resolution and the relief awarded in the administrative judge’s decision, the Board’s final decision, or the Commission’s decision on appeal is not more favorable than the offer, then, except where the interest of justice would not be served, the complainant shall not receive payment from the Board of attorney’s fees or costs incurred after the expiration of the 30-day acceptance period. An acceptance of an offer must be in writing and will be timely if postmarked or received within the 30-day period. Where a complainant fails to accept an offer of resolution, the Board may make other offers of resolution and either party may seek to negotiate a settlement of the complaint at any time.

(d) Discovery. The administrative judge shall notify the parties of the right to seek discovery prior to the hearing and may issue such discovery orders as are appropriate. Unless the parties agree in writing concerning the methods and scope of discovery, the party seeking discovery shall request authorization from the administrative judge prior to commencing discovery. Both parties are entitled to reasonable development of evidence on matters relevant to the issues raised in the complaint, but the administrative judge may limit the quantity and timing of discovery. Evidence may be developed through interrogatories, depositions, and requests for admissions,
§ 268.108

stipulations or production of documents. It shall be grounds for objection to producing evidence that the information sought by either party is irrelevant, overburdensome, repetitious, or privileged.

(e) Conduct of hearing. The Board shall provide for the attendance at a hearing of all employees approved as witnesses by an administrative judge. Attendance at hearings will be limited to persons determined by the administrative judge to have direct knowledge relating to the complaint. Hearings are part of the investigative process and are thus closed to the public. The administrative judge shall have the power to regulate the conduct of a hearing, limit the number of witnesses where testimony would be repetitious, and exclude any person from the hearing for contumacious conduct or misbehavior that obstructs the hearing. The administrative judge shall receive into evidence information or documents relevant to the complaint. Rules of evidence shall not be applied strictly, but the administrative judge shall exclude irrelevant or repetitious evidence. The administrative judge or the Commission may refer to the Disciplinary Committee of the appropriate Bar Association any attorney or, upon reasonable notice and an opportunity to be heard, suspend or disqualify from representing complainants or agencies in EEOC hearings any representative who refuses to follow the orders of an administrative judge, or who otherwise engages in improper conduct.

(f) Procedures. (1) The complainant, the Board and any employee of the Board shall produce such documentary and testimonial evidence as the administrative judge deems necessary. The administrative judge shall serve all orders to produce evidence on both parties.

(2) Administrative judges are authorized to administer oaths. Statements of witnesses shall be made under oath or affirmation or, alternatively, by written statement under penalty of perjury.

(3) When the complainant, or the Board, or its employees fail without good cause shown to respond fully and in a timely fashion to an order of an administrative judge, or requests for the investigatory file, for documents, records, comparative data, statistics, affidavits, or the attendance of witnesses, the administrative judge shall, in appropriate circumstances:

(i) Draw an adverse inference that the requested information, or the testimony of the requested witness, would have reflected unfavorably on the party refusing to provide the requested information;

(ii) Consider the matters to which the requested information or testimony pertains to be established in favor of the opposing party;

(iii) Exclude other evidence offered by the party failing to produce the requested information or witness;

(iv) Issue a decision fully or partially in favor of the opposing party; or

(v) Take such other actions as appropriate.

(g) Decisions without hearing. (1) If a party believes that some or all material facts are not in genuine dispute and there is no genuine issue as to credibility, the party may, at least 15 days prior to the date of the hearing or at such earlier time as required by the administrative judge, file a statement with the administrative judge prior to the hearing setting forth the fact or facts and referring to the parts of the record relied on to support the statement. The statement must demonstrate that there is no genuine issue as to any such material fact. The party shall serve the statement on the opposing party.

(2) The opposing party may file an opposition within 15 days of receipt of the statement in paragraph (g)(1) of this section. The opposition may refer to the record in the case to rebut the statement that a fact is not in dispute or may file an affidavit stating that the party cannot, for reasons stated, present facts to oppose the request. After considering the submissions, the administrative judge may order that discovery be permitted on the fact or facts involved, limit the hearing to the issues remaining in dispute, issue a decision without a hearing or make such other ruling as is appropriate.

(3) If the administrative judge determines upon his or her own initiative
that some or all facts are not in genuine dispute, he or she may, after giving notice to the parties and providing them an opportunity to respond in writing within 15 calendar days, issue an order limiting the scope of the hearing or issue a decision without holding a hearing.

(h) Record of hearing. The hearing shall be recorded and the Board shall arrange and pay for verbatim transcripts. All documents submitted to, and accepted by, the administrative judge at the hearing shall be made part of the record of the hearing. If the Board submits a document that is accepted, it shall furnish a copy of the document to the complainant. If the complainant submits a document that is accepted, the administrative judge shall make the document available to the Board’s representative for reproduction.

(i) Decisions by administrative judges. Unless the administrative judge makes a written determination that good cause exists for extending the time for issuing a decision, an administrative judge shall issue a decision on the complaint, and shall order appropriate remedies and relief where discrimination is found, within 180 days of receipt by the administrative judge of the complaint file from the Board. The administrative judge shall send copies of the hearing record, including the transcript, and the decision to the parties. If the Board does not issue a final order within 40 days of receipt of the administrative judge’s decision in accordance with §268.109(a), then the decision of the administrative judge shall become the final action of the Board.

§ 268.109 Final action by the Board.

(a) Final action by the Board following a decision by an administrative judge. When an EEOC administrative judge has issued a decision under §§268.108(b), (g), or (i), the Board shall take final action on the complaint by issuing a final order within 40 days of receipt of the hearing file and the administrative judge’s decision. The final order shall notify the complainant whether or not the Board will fully implement the decision of the administrative judge and shall contain notice of the complainant’s right to appeal to the Equal Employment Opportunity Commission, the right to file a civil action in federal district court, the name of the proper defendant in any such lawsuit and the applicable time limits for appeals and lawsuits. If the final order does not fully implement the decision of the administrative judge, then the Board shall simultaneously file an appeal in accordance with §268.403 and append a copy of its appeal to the final order. A copy of EEOC Form 573 shall be attached to the final order.

(b) Final action by the Board in all other circumstances. When the Board dismisses an entire complaint under §268.106, receives a request for an immediate final decision or does not receive a reply to the notice issued under §268.107(f), the Board shall take final action by issuing a final decision. The final decision shall consist of findings by the Board on the merits of each issue in the complaint, or, as appropriate, the rationale for dismissing any claims in the complaint and, when discrimination is found, appropriate remedies and relief in accordance with subpart F of this part. The Board shall issue the final decision within 60 days of receiving notification that a complainant has requested an immediate decision from the Board, or within 60 days of the end of the 30-day period for the complainant to request a hearing or an immediate final decision where the complainant has not requested either a hearing or a decision. The final action shall contain notice of the right to appeal the final action to the Equal Employment Opportunity Commission, the right to file a civil action in federal district court, the name of the proper defendant in any such lawsuit and the applicable time limits for appeals and lawsuits. A copy of EEOC Form 573 shall be attached to the final action. The Board may issue a final decision within 30 days after receiving a decision of the Commission pursuant to §268.405(c) of this part.
§ 268.201  Age Discrimination in Employment Act.

(a) As an alternative to filing a complaint under this part, an aggrieved individual may file a civil action in a United States district court under the ADEA against the Chairman of the Board of Governors after giving the Commission not less than 30 days' notice of the intent to file such an action. Such notice must be filed in writing with EEOC, at PO Box 19848, Washington, DC 20036, or by personal delivery or facsimile within 180 days of the occurrence of the alleged unlawful practice.

(b) The Commission may exempt a position from the provisions of the ADEA if the Commission establishes a maximum age requirement for the position on the basis of a determination that age is a bona fide occupational qualification necessary to the performance of the duties of the position.

(c) When an individual has filed an administrative complaint alleging age discrimination that is not a mixed case, administrative remedies will be considered to be exhausted for purposes of filing a civil action:

(1) 180 days after the filing of an individual complaint if the Board has not taken final action and the individual has not filed an appeal or 180 days after the filing of a class complaint if the Board has not issued a final decision;

(2) After final action on an individual or class complaint if the individual has not filed an appeal; or

(3) After the issuance of a final decision by the Commission on an appeal or 180 days after the filing of an appeal, if the Commission has not issued a final decision.

Complaints alleging violations of the Equal Pay Act shall be processed under this part.

§ 268.203  Rehabilitation Act.

(a) Model employer. The Board shall be a model employer of individuals with disabilities. The Board shall give full consideration to the hiring, placement, and advancement of qualified individuals with disabilities.

(b) ADA standards. The standards used to determine whether section 501 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 791), has been violated in a complaint alleging non-affirmative action employment discrimination under this part shall be the standards applied under Titles I and V (sections 501 through 504 and 510) of the Americans with Disabilities Act of 1990, as amended (42 U.S.C. 12101, 12111, 12201), as such sections relate to employment. These standards are set forth in the Commission’s ADA regulation at 29 CFR part 1630.

§ 268.204  Class complaints.

(a) Definitions—(1) Class is a group of Board employees, former employees or applicants for employment who, it is alleged, have been or are being adversely affected by a Board personnel management policy or practice that discriminates against the group on the basis of their race, color, religion, sex, national origin, age or disability.

(2) Class complaint is a written complaint of discrimination filed on behalf of a class by the agent of the class alleging that:

(i) The class is so numerous that a consolidated complaint of the members of the class is impractical;

(ii) There are questions of fact common to the class;

(iii) The claims of the agent of the class are typical of the claims of the class;

(iv) The agent of the class, or, if represented, the representative, will fairly and adequately protect the interests of the class.

(3) An agent of the class is a class member who acts for the class during the processing of the class complaint.

(b) Pre-complaint processing. An employee or applicant who wishes to file a class complaint must seek counseling and be counseled in accordance with §268.104. A complainant may move for class certification at any reasonable point in the process when it becomes apparent that there are class implications to the claim raised in an individual complaint. If a complainant
Federal Reserve System § 268.204

moves for class certification after completing the counseling process contained in §268.104, no additional counseling is required. The administrative judge shall deny class certification when the complainant has unduly delayed in moving for certification.

(c) Filing and presentation of a class complaint. (1) A class complaint must be signed by the agent or representative and must identify the policy or practice adversely affecting the class as well as the specific action or matter affecting the class agent.

(2) The complaint must be filed with the Board not later than 15 days after the agent’s receipt of the notice of right to file a class complaint.

(3) The complaint shall be processed promptly; the parties shall cooperate and shall proceed at all times without undue delay.

(d) Acceptance or dismissal. (1) Within 30 days of the Board’s receipt of a complaint, the Board shall: Designate an agency representative who shall not be one of the individuals referenced in §268.102(b)(4), and forward the complaint, along with a copy of the Counselor’s report and any other information pertaining to timeliness or other relevant circumstances related to the complaint, to the Commission. The Commission shall assign the complaint to an administrative judge or complaints examiner with a proper security clearance when necessary. The administrative judge may require the complainant or the Board to submit additional information relevant to the complaint.

(2) The administrative judge may dismiss the complaint, or any portion, for any of the reasons listed in §268.106 or because it does not meet the prerequisites of a class complaint under §268.204(a)(2).

(3) If an allegation is not included in the Counselor’s report, the administrative judge shall afford the agent 15 days to state whether the matter was discussed with the Counselor and, if not, explain why it was not discussed. If the explanation is not satisfactory, the administrative judge shall dismiss the allegation. If the explanation is satisfactory, the administrative judge shall refer the allegation to the Board for further counseling of the agent. After counseling, the allegation shall be consolidated with the class complaint.

(4) If an allegation lacks specificity and detail, the administrative judge shall afford the agent 15 days to provide specific and detailed information. The administrative judge shall dismiss the complaint if the agent fails to provide such information within the specified time period. If the information provided contains new allegations outside the scope of the complaint, the administrative judge shall advise the agent how to proceed on an individual or class basis concerning these allegations.

(5) The administrative judge shall extend the time limits for filing a complaint and for consulting with a Counselor in accordance with the time limit extension provisions contained in §§268.104(a)(2) and 268.604.

(6) When appropriate, the administrative judge may decide that a class be divided into subclasses and that each subclass be treated as a class, and the provisions of this section then shall be construed and applied accordingly.

(7) The administrative judge shall transmit his or her decision to accept or dismiss a complaint to the Board and the agent. The Board shall take final action by issuing a final order within 40 days of receipt of the hearing record and administrative judge’s decision. The final order shall notify the agent whether or not the Board will implement the decision of the administrative judge. If the final order does not implement the decision of the administrative judge, the Board shall simultaneously appeal the administrative judge’s decision in accordance with §268.403 and append a copy of the appeal to the final order. A dismissal of a class complaint shall inform the agent either that the complaint is being filed on that date as an individual complaint of discrimination and will be processed under subpart B or that the complaint is also dismissed as an individual complaint in accordance with §268.106. In addition, it shall inform the agent of the right to appeal the dismissal of the class complaint to the Equal Employment Opportunity Commission or to file a civil action and
§ 268.204 12 CFR Ch. II (1–1–09 Edition)

shall include EEOC Form 573, Notice of Appeal/Petition.

(e) Notification. (1) Within 15 days of receiving notice that the administrative judge has accepted a class complaint or a reasonable time frame specified by the administrative judge, the Board shall use reasonable means, such as delivery, mailing to last known address or distribution, to notify all class members of the acceptance of the class complaint.

(2) Such notice shall contain:

(i) An identification of the Board as the named agency, its location, and the date of acceptance of the complaint;

(ii) A description of the issues accepted as part of the class complaint;

(iii) An explanation of the binding nature of the final decision or resolution of the class complaint on class members; and

(iv) The name, address and telephone number of the class representative.

(f) Obtaining evidence concerning the complaint. (1) The administrative judge shall notify the agent and the Board’s representative of the time period that will be allowed both parties to prepare their cases. This time period will include at least 60 days and may be extended by the administrative judge upon the request of either party. Both parties are entitled to reasonable development of evidence on matters relevant to the issues raised in the complaint. Evidence may be developed through interrogatories, depositions, and requests for admissions, stipulations or production of documents. It shall be grounds for objection to producing evidence that the information sought by either party is irrelevant, overburdensome, repetitious, or privileged.

(2) If mutual cooperation fails, either party may request the administrative judge to rule on a request to develop evidence. If a party fails without good cause shown to respond fully and in timely fashion to a request made or approved by the administrative judge for documents, records, comparative data, statistics or affidavits, and the information is solely in the control of one party, such failure may, in appropriate circumstances, cause the administrative judge:

(i) To draw an adverse inference that the requested information would have reflected unfavorably on the party refusing to provide the requested information;

(ii) To consider the matters to which the requested information pertains to be established in favor of the opposing party;

(iii) To exclude other evidence offered by the party failing to produce the requested information;

(iv) To recommend that a decision be entered in favor of the opposing party; or

(v) To take such other actions as the administrative judge deems appropriate.

(3) During the period for development of evidence, the administrative judge may, in his or her discretion, direct that an investigation of facts relevant to the class complaint or any portion be conducted by an agency certified by the Commission.

(4) Both parties shall furnish to the administrative judge copies of all materials that they wish to be examined and such other material as may be requested.

(g) Opportunity for resolution of the complaint. (1) The administrative judge shall furnish the agent and the Board’s representative a copy of all materials obtained concerning the complaint and provide opportunity for the agent to discuss the materials with the Board’s representative and attempt resolution of the complaint.

(2) The complaint may be resolved by agreement of the Board and the agent at any time pursuant to the notice and approval procedure contained in paragraph (g)(4) of this section.

(3) If the complaint is resolved, the terms of the resolution shall be reduced to writing and signed by the agent and the Board.

(4) Notice of the resolution shall be given to all class members in the same manner as notification of the acceptance of the class complaint and to the administrative judge. It shall state the relief, if any, to be granted by the Board and the name and address of the EEOC administrative judge assigned to the case. It shall state that within 30
days of the date of the notice of resolution, any member of the class may petition the administrative judge to vacate the resolution because it benefits only the class agent, or is otherwise not fair, adequate and reasonable to the class as a whole. The administrative judge shall review the notice of resolution and consider any petitions to vacate filed. If the administrative judge finds that the proposed resolution is not fair, adequate and reasonable to the class as a whole, the administrative judge shall issue a decision vacating the agreement and may replace the original class agent with a petitioner or some other class member who is eligible to be the class agent during further processing of the class complaint. The decision shall inform the former class agent or the petitioner of the right to appeal the decision to the Equal Employment Opportunity Commission and include EEOC Form 573, Notice of Appeal/Petition. If the administrative judge finds that the resolution is fair, adequate and reasonable to the class as a whole, the resolution shall bind all members of the class.

(h) Hearing. On expiration of the period allowed for preparation of the case, the administrative judge shall set a date for hearing. The hearing shall be conducted in accordance with 12 CFR 268.108(a) through (f).

(i) Report of findings and recommendations. (1) The administrative judge shall transmit to the Board a report of findings and recommendations on the complaint, including a recommended decision, systemic relief for the class and any individual relief, where appropriate, with regard to the personnel action or matter that gave rise to the complaint.

(2) If the administrative judge finds no class relief appropriate, he or she shall determine if a finding of individual discrimination is warranted and, if so, shall recommend appropriate relief.

(3) The administrative judge shall notify the agent of the date on which the report of findings and recommendations was forwarded to the Board.

(j) Board decision. (1) Within 60 days of receipt of the report of findings and recommendations issued under §268.204(i), the Board shall issue a final decision, which shall accept, reject, or modify the findings and recommendations of the administrative judge.

(2) The final decision of the Board shall be in writing and shall be transmitted to the agent by certified mail, return receipt requested, along with a copy of the report of findings and recommendations of the administrative judge.

(3) When the Board’s final decision is to reject or modify the findings and recommendations of the administrative judge, the decision shall contain specific reasons for the Board’s action.

(4) If the Board has not issued a final decision within 60 days of its receipt of the administrative judge’s report of findings and recommendations, those findings and recommendations shall become the final decision. The Board shall transmit the final decision to the agent within five days of the expiration of the 60-day period.

(5) The final decision of the Board shall require any relief authorized by law and determined to be necessary or desirable to resolve the issue of discrimination.

(6) The final decision on a class complaint shall, subject to subpart E of this part, be binding on all members of the class and the Board.

(7) The final decision shall inform the agent of the right to appeal or to file a civil action in accordance with subpart E of this part and of the applicable time limits.

(k) Notification of decision. The Board shall notify class members of the final decision and relief awarded, if any, through the same media employed to give notice of the existence of the class complaint. The notice, where appropriate, shall include information concerning the rights of class members to seek individual relief, and of the procedures to be followed. Notice shall be given by the Board within 10 days of the transmittal of its final decision to the agent.

(l) Relief for individual class members. (1) When discrimination is found, the Board must eliminate or modify the employment policy or practice out of which the complaint arose and provide individual relief, including an award of attorney’s fees and costs, to the agent in accordance with §268.501.
§ 268.205 Employment of aliens; Access to sensitive information.

(a) Definitions. The definitions contained in this paragraph (a) apply only to this section:

(1) Classified Information means information that is classified for national security purposes under Executive Order No. 12958, entitled “Classified National Security Information,” including any amendments or superseding orders that the President of the United States may issue from time to time.

(2) Confidential Supervisory Information means confidential supervisory information of the Board, as defined in 12 CFR 261.2(c). Three internal security designations, which are subject to change by the Board, apply to Confidential Supervisory Information. Those designations are:

(i) Restricted-Controlled FR generally applies to information that, if disclosed to or modified by unauthorized individuals, might result in the risk of serious monetary loss, serious productivity loss or serious embarrassment to the Federal Reserve System. Examples of Confidential Supervisory Information designated as Restricted-Controlled FR include, but are not limited to, certain significant lists of financial institution supervisory ratings and nonpublic advance information regarding bank mergers or failures.

(ii) Restricted FR covers information that is less sensitive than Restricted-Controlled FR information and, in general, is the largest category of Confidential Supervisory Information. This information, if disclosed to or modified by unauthorized individuals, might result in the risk of significant monetary loss, significant productivity loss, or significant embarrassment to the Federal Reserve System. Examples of Confidential Supervisory Information designated as Restricted FR include, but are not limited to, single supervisory ratings (e.g., CAMELS, BOPEC, etc.), Federal Reserve examination and inspection reports and workpapers, Interagency Country Exposure Review Committee (ICERC) country exposure determinations, and shared national credit data or listings.

(iii) Internal FR covers information that is less sensitive than Restricted
FR or Restricted-Controlled FR generally applies to information that, if disclosed to or modified by unauthorized individuals, might result in the risk of some monetary loss, some productivity loss, or some embarrassment to the Federal Reserve System. Examples of Confidential Supervisory Information designated as Internal FR include, but are not limited to, foreign banking organization country studies and Federal Reserve risk assessments.

(3) Country List refers to the list contained in the annual federal appropriations laws of specific countries, including a general category of “countries allied with the United States in a current defense effort,” from which particular categories of persons who are exempt from a ban on the use of appropriated funds are eligible to be hired as Federal employees in the excepted service or in the senior executive service. The appropriations ban is codified at 5 U.S.C. 3101 note. The list of eligible countries and persons is subject to legislative and other change.

(4) Eligible Position refers to a position or job family requiring access to Sensitive Information for which the Board determines that hiring a Non-Citizen is appropriate.

(5) Employee means an individual who works full-time or part-time and is appointed into Board service for a period of more than 90 days. The term “Employee” does not include members of the Board.

(6) FOMC Information means confidential information of the Federal Open Market Committee (FOMC) regardless of the form or format in which it is created, conveyed, or maintained. FOMC Information includes information derived from confidential FOMC materials. Three internal security designations, which are subject to change by the FOMC, apply to FOMC Information as follows:

(i) Class I FOMC generally applies to materials containing policymaker input, such as that related to monetary policy decisions at meetings, views expressed by policy makers on future policy, and identification of meeting participants who express particular views. Examples of Class I FOMC Information include, but are not limited to, the “Bluebook,” drafts of meeting transcripts, documents reflecting the preparation of semi-annual forecasts and related testimony, and certain sensitive internal memorandums and reports.

(ii) Class II FOMC covers information that is less sensitive than Class I FOMC. This designation generally applies to staff forecasts prepared for the FOMC and to information about open market operations. Examples of Class II FOMC Information include, but are not limited to, Part I of the “Greenbook,” reports of the Manager on domestic and foreign open market operations, and other materials on economic and financial developments.

(iii) Class III FOMC covers information that is less sensitive than either Class II or Class I. This designation generally applies to background information supporting policy discussions and includes, but is not limited to, Part II of the Greenbook.

(7) National refers to any individual who meets the requirements described in 8 U.S.C. 1408.

(8) Non-Citizen refers to any individual who is not a Protected Individual.

(9) Protected Individual means—

(i) A citizen or National of the United States,

(ii) An alien who:

(A) Meets the conditions set forth in 8 U.S.C. 1324b(a)(3)(B), as amended, and

(B) Has filed with the Board or the appropriate Federal Reserve Bank a declaration of intention to become a citizen of the United States, or

(iii) An alien who:

(A) Is lawfully admitted for permanent residence, is admitted as a refugee under 8 U.S.C. 1157, or is granted asylum under 8 U.S.C. 1158;

(B) Was an Employee of the Board or a Federal Reserve Bank on January 1, 2006;

(C) Before requesting access to Sensitive Information has filed an application for U.S. citizenship;

(D) Has had his or her application for citizenship pending for two years or less, unless in the case of an application pending for a longer period, the alien can establish that the alien is actively pursuing naturalization. Time
§ 268.205

12 CFR Ch. II (1–1–09 Edition)

consumed by the Department of Homeland Security, Citizenship and Immigration Services (or its predecessor or successor agency) in processing the application shall not be counted toward the 2-year period; and

(E) Has completed a background investigation acceptable to the Board.

(10) Sensitive Information means FOMC Information, Classified Information, and Confidential Supervisory Information.

(b) Hiring and access—(1) Prohibition against hiring unauthorized aliens. An individual is eligible for employment with the Board only if he or she satisfies the requirements of Section 101 of the Immigration Reform and Control Act of 1986, 8 U.S.C. 1324a.

(2) Preference. Consistent with applicable law, where two applicants for employment at the Board are equally qualified for a position, the Board shall prefer the citizen or National of the United States over the equally qualified person who is not a citizen or National of the United States.

(3) Protected Individuals’ access to Sensitive Information. The Board may hire a person as an Employee into a position that requires access to Sensitive Information if the person is a Protected Individual.

(4) Non-Citizens’ access to Sensitive Information. The Board shall not hire a Non-Citizen into a position that requires access to Sensitive Information unless the Non-Citizen:

(i) Is in an Eligible Position; and

(ii) Meets the requirements of paragraph (c) of this section allowing access to Sensitive Information.

(c) Access to Sensitive Information—(1) Generally. The Board will grant access to Sensitive Information only in accordance with the Board’s rules and policies regarding access to Sensitive Information and, if applicable, the rules and policies of the FOMC. Access to any level of Sensitive Information includes access to all lower levels of that type of Sensitive Information. An Employee who is not a Protected Individual may not have access to FOMC Information or Confidential Supervisory Information unless otherwise permitted by this paragraph (c).

(2) FOMC Information—(i) Access by a Non-Citizen from a country on the Country List. An Employee in an Eligible Position who is a Non-Citizen from a country that, on the date the Employee begins employment with the Federal Reserve System or on the date access is granted, is on the Country List shall be granted access to Class I FOMC Information only if the Employee:

(A) Has been recommended for such access by the Employee’s Division Director;

(B) Has been resident in the United States for at least six years, at least two of which include satisfactory employment with the Board and/or one or more of the Federal Reserve Banks; and

(C) Has completed a background investigation acceptable to the Board.

(ii) Access by a Non-Citizen from a country not on the Country List. An Employee in an Eligible Position who is a Non-Citizen from a country that, on the date the Employee begins employment with the Federal Reserve System and on the date access is granted, is not on the Country List:

(A) Shall not be granted access to Class I FOMC Information, and

(B) Shall be granted access to Class II FOMC Information only upon:

(1) The recommendation of the Employee’s Division Director;

(2) Six years of residence in the United States, at least two of which include satisfactory employment by the Board and/or one or more of the Federal Reserve Banks; and

(3) Completion of a background investigation acceptable to the Board.

(iii) Changes to the Country List. If the Employee’s country is deleted from the Country List after the date the Employee begins employment with the Federal Reserve System, the Employee’s existing access to Class I or Class II FOMC information will not be affected by the change in the Country List. Similarly, the Employee would continue to be eligible for access to Class I Information and may be granted such access if he or she meets the remaining conditions outlined in paragraph (c)(2)(i) for employees from a country on the Country List.

(3) Confidential Supervisory Information—(i) Access by a Non-Citizen from a country on the Country List. An Employee in an Eligible Position who is a Non-Citizen from a
Federal Reserve System § 268.301

country on the Country List. An Employee in an Eligible Position who is a Non-Citizen from a country that, on the date the Employee begins employment with the Federal Reserve System or on the date access is granted, is on the Country List shall be granted access to Confidential Supervisory Information designated as Restricted-Controlled FR only if the Employee:

(A) Has been recommended for such access by the Employee’s Division Director;
(B) Has been resident in the United States for at least six years, at least two of which include satisfactory employment with the Board and/or one or more of the Federal Reserve Banks; and
(C) Has completed a background investigation acceptable to the Board.

(ii) Access by a Non-Citizen from a country not on the Country List. An Employee in an Eligible Position who is a Non-Citizen from a country that, on the date the Employee begins employment with the Federal Reserve System and on the date access is granted, is not on the Country List:

(A) Shall not be granted access to Confidential Supervisory Information designated as Restricted-Controlled FR; and
(B) Shall be granted access to Confidential Supervisory Information designated as Restricted FR only upon:

(1) The recommendation of the Employee’s Division Director;
(2) Six years of residence in the United States, at least two of which include satisfactory employment by the Board and/or one or more of the Federal Reserve Banks; and
(3) Completion of a background investigation acceptable to the Board.

(iii) Changes to the Country List. If the Employee’s country is deleted from the Country List after the date the Employee begins employment with the Federal Reserve System, the Employee’s existing access to Confidential Supervisory Information designated as Restricted FR or Restricted-Controlled FR will not be affected by the change in the Country List. Similarly, the Employee would continue to be eligible for access to Confidential Supervisory Information designated as Restricted-Controlled FR Information and may be granted such access if he or she meets the remaining conditions outlined in paragraph (c)(3)(i) for employees from a country on the Country List.

(4) Access to Sensitive Information by Reserve Bank employees—(i) FOMC Information. By action of the FOMC, a Reserve Bank employee may access FOMC Information in accordance with these rules.

(ii) Confidential Supervisory Information. A Reserve Bank employee will be granted access to Confidential Supervisory Information only to the extent the employee meets all of the requirements for access to Confidential Supervisory Information provided in this paragraph (c) and the employee has received approval for such access from the Board’s Director for Banking Supervision and Regulation. Notwithstanding the foregoing, this rule does not affect access that has been granted to employees hired before the effective date of this rule.

(5) Exceptions for access to Confidential Supervisory Information. A Board or Reserve Bank employer may request an exception for access to Confidential Supervisory Information. The requester must demonstrate that unusual circumstances exist and that the Board or Reserve Bank employee for whom access is being requested has a strong and particularized need for access to the information. All exceptions for access to Confidential Supervisory Information must be approved by the Chairman of the Board’s Committee on Supervisory and Regulatory Affairs.

(6) Classified Information. Access to Classified Information is limited to those persons who are permitted access to Classified Information pursuant to the applicable executive orders and any subsequent amendments or superseding orders that the President of the United States may issue from time to time.

Subpart D—Related Processes
§ 268.301 Negotiated grievance procedure.

When an employee of the Board, which is not an agency subject to 5 U.S.C. 7121(d), is covered by a negotiated grievance procedure, allegations
of discrimination shall be processed as complaints under this part, except that the time limits for processing the complaint contained in §268.105 and for appeal to the Commission contained in §268.402 may be held in abeyance during processing of a grievance covering the same matter as the complaint if the Board notifies the complainant in writing that the complaint will be held in abeyance pursuant to this section.

§ 268.302 Mixed case complaints.

A mixed case complaint is a complaint of employment discrimination filed with the Board based on race, color, religion, sex, national origin, age or disability related to or stemming from an action that can be appealed to the Merit System Protection Board (MSPB). The complaint may contain only an allegation of employment discrimination or it may contain additional allegations that the MSPB has jurisdiction to address. A mixed case appeal is an appeal filed with the MSPB that alleges that an appealable Board action was effected, in whole or in part, because of discrimination on the basis of race, color, religion, sex, national origin, disability or age. Only a Board employee who is a preference eligible employee as defined by the Veterans Preference Act can file a mixed case complaint with the Board or a mixed case appeal with the MSPB. A mixed case complaint or mixed case appeal may only be filed for action(s) over which the MSPB has jurisdiction. The Board will apply sections 1614.302 to 1614.310 of 29 CFR to the processing of a mixed case complaint or mixed case appeal.

Subpart E—Appeals to the Equal Employment Opportunity Commission

§ 268.401 Appeals to the Equal Employment Opportunity Commission.

(a) A complainant may appeal the Board’s final action or dismissal of a complaint.
(b) The Board may appeal as provided in §268.109(a).
(c) A class agent or the Board may appeal an administrative judge’s decision accepting or dismissing all or part of a class complaint; a class agent may appeal a final decision on a class complaint; a class member may appeal a final decision on a claim for individual relief under a class complaint; and a class member, a class agent or the Board may appeal a final decision on a petition pursuant to §268.204(g)(4).
(d) A complainant, agent of the class or individual class claimant may appeal to the Commission the Board’s alleged noncompliance with a settlement agreement or final decision in accordance with §268.504.

(a) Appeals described in §268.401(a) and (c) must be filed within 30 days of receipt of the dismissal, final action or decision. Appeals described in §268.401(b) must be filed within 40 days of receipt of the hearing file and decision. Where a complainant has notified the Board’s EEO Programs Director of alleged noncompliance in accordance with §268.504, the complainant may file an appeal 35 days after service of the allegations of noncompliance, but no later than 30 days after receipt of the Board’s determination.
(b) If the complainant is represented by an attorney of record, then the 30-day time period provided in paragraph (a) of this section within which to appeal shall be calculated from the receipt of the required document by the attorney. In all other instances, the time within which to appeal shall be calculated from the receipt of the required document by the complainant.

§ 268.403 How to appeal.

(a) The complainant, the Board, agent or individual class claimant (hereinafter appellant) must file an appeal with the Director, Office of Federal Operations, Equal Employment Opportunity Commission, at PO Box 19048, Washington, DC 20036, or by personal delivery or facsimile. The appellant should use EEOC Form 573, Notice of Appeal/Petition, and should indicate what is being appealed.
(b) The appellant shall furnish a copy of the appeal to the opposing party at the same time it is filed with the Commission. In or attached to the appeal to
the Commission, the appellant must certify the date and method by which service was made on the opposing party.

(c) If an appellant does not file an appeal within the time limits of this subpart, the appeal shall be dismissed by
the Commission as untimely.

(d) Any statement or brief on behalf of a complainant in support of the appeal must be submitted to the Office of
Federal Operations within 30 days of filing the notice of appeal. Any statement or brief on behalf of the Board in
support of its appeal must be submitted to the Office of Federal Operations within 20 days filing the notice of appeal. The Office of Federal Operations will accept statements or briefs in support of an appeal by facsimile transmittal, provided they are no more than 10 pages long.

(e) The Board must submit the complaint file to the Office of Federal Operations within 30 days of initial notifi-
cation that the complainant has filed an appeal or within 30 days of submission of an appeal by the Board.

(f) Any statement or brief in opposition to an appeal must be submitted to the Commission and served on the op-
posing party within 30 days of receipt of the statement or brief supporting the appeal, or, if no statement or brief supporting the appeal is filed, within 60 days of receipt of the appeal. The Office of Federal Operations will accept statements or briefs in opposition to an appeal by facsimile provided they are no more than 10 pages long.

§ 268.404 Appellate Procedure.

(a) On behalf of the Commission, the Office of Federal Operations shall review the complaint file and all written
statements and briefs from either party. The Commission may supplement the record by an exchange of letters or memoranda, investigation, remand to the Board or other procedures.

(b) If the Office of Federal Operations requests information from one or both of the parties to supplement the record, each party providing information shall send a copy of the information to the other party.

(c) When either party to an appeal fails without good cause shown to comply with the requirements of this sec-
tion or to respond fully and in timely fashion to requests for information, the Office of Federal Operations shall, in
appropriate circumstances:

(1) Draw an adverse inference that the requested information would have reflected unfavorably on the party ref-
fusing to provide the requested information;

(2) Consider the matters to which the requested information or testimony pertains to be established in favor of
the opposing party;

(3) Issue a decision fully or partially in favor of the opposing party; or

(4) Take such other actions as appropriate.

§ 268.405 Decisions on appeals.

(a) The Office of Federal Operations, on behalf of the Commission, shall issue a written decision setting forth
its reasons for the decision. The Commission shall dismiss appeals in accordance with §§268.106, 268.403(c) and
268.408. The decision on an appeal from the Board’s final action shall be based on a de novo review, except that the re-
view of the factual findings in a decision by an administrative judge issued pursuant to §268.108(i) shall be based on
a substantial evidence standard of re-
view. If the decision contains a finding of discrimination, appropriate remedy(ies) shall be included and, where
appropriate, the entitlement to interest, attorney’s fees or costs shall be indi-
cated. The decision shall reflect the date of its issuance, inform the com-
plainant of his or her civil action rights, and be transmitted to the com-
plainant and the Board by first class
mail.

(b) A decision issued under paragraph
(a) of this section is final, subject to
paragraph (c) of this section, within

the meaning of §268.106 unless the Com-
mmission reconsiders the case. A party
may request reconsideration within 30
days of receipt of a decision of the
Commission, which the Commission in
its discretion may grant, if the party
demonstrates that:

(1) The appellate decision involved a
clearly erroneous interpretation of ma-
terial fact or law; or

(2) The decision will have a substan-
tial impact on the policies, practices or
operations of the Board.
§ 268.406 Civil action: Title VII, Age Discrimination in Employment Act and Rehabilitation Act.

A complainant who has filed an individual complaint, an agent who has filed a class complaint or a claimant who has filed a claim for individual relief pursuant to a class complaint is authorized under title VII, the ADEA and the Rehabilitation Act to file a civil action in an appropriate United States District Court:

(a) Within 90 days of receipt of the final action on an individual or class complaint if no appeal has been filed;
(b) After 180 days from the date of filing an individual or class complaint if an appeal has not been filed and final action has not been taken;
(c) Within 90 days of receipt of the Commission's final decision on an appeal; or
(d) After 180 days from the date of filing an appeal with the Commission if there has been no final decision by the Commission.

A complainant is authorized under section 16(b) of the Fair Labor Standards Act (29 U.S.C. 216(b)) to file a civil action in a court of competent jurisdiction within two years or, if the violation is willful, three years of the date of the alleged violation of the Equal Pay Act regardless of whether he or she pursued any administrative complaint processing. Recovery of back wages is limited to two years prior to the date of filing suit, or to three years if the violation is deemed willful; liquidated damages in an equal amount may also be awarded. The filing of a complaint or appeal under this part shall not toll the time for filing a civil action.

§ 268.408 Effect of filing a civil action.

Filing a civil action under §§268.406 or 268.407 shall terminate Commission processing of the appeal. If private suit is filed subsequent to the filing of an appeal, the parties are requested to notify the Commission in writing.
(i) If the offer is accepted, appointment shall be retroactive to the date the applicant would have been hired. Back pay, computed in the manner prescribed in 5 CFR 550.805, shall be awarded from the date the individual would have entered on duty until the date the individual actually enters on duty unless clear and convincing evidence indicates that the applicant would not have been selected even absent discrimination. Interest on back pay shall be included in the back pay computation where sovereign immunity has been waived. The individual shall be deemed to have performed service for the Board during this period for all purposes except for meeting service requirements for completion of a required probationary or trial period.

(ii) If the offer of employment is declined, the Board shall award the individual a sum equal to the back pay he or she would have received, computed in the manner prescribed in 5 CFR 550.805, from the date he or she would have been appointed until the date the offer was declined, subject to the limitation of paragraph (b)(3) of this section. Interest on back pay shall be included in the back pay computation. The Board shall inform the applicant, in its offer of employment, of the right to this award in the event the offer is declined.

(2) When the Board, or the Commission, finds that discrimination existed at the time the applicant was considered for employment but also finds by clear and convincing evidence that the personnel action would have been taken even absent discrimination, the Board shall nevertheless take all steps necessary to eliminate the discriminatory practice and ensure it does not recur.

(3) Back pay under this paragraph (b) for complaints under title VII or the Rehabilitation Act may not extend from a date earlier than two years prior to the date the discrimination complaint was filed.

(c) Relief for an employee. When the Board, or the Commission, finds that an employee of the Board was discriminated against, the Board shall provide relief, which shall include, but need not be limited to, one or more of the following actions:

(1) Nondiscriminatory placement, with back pay computed in the manner prescribed in 5 CFR 550.805, unless clear and convincing evidence contained in the record demonstrates that the personnel action would have been taken even absent the discrimination. Interest on back pay shall be included in the back pay computation where sovereign immunity has been waived. The back pay liability under title VII or the Rehabilitation Act is limited to two years prior to the date the discrimination complaint was filed.

(2) If clear and convincing evidence indicates that, although discrimination existed at the time the personnel action was taken, the personnel action would have been taken even absent discrimination, the Board shall nevertheless eliminate any discriminatory practice and ensure it does not recur.

(3) Cancellation of an unwarranted personnel action and restoration of the employee.

(4) Expunction from the Board’s records of any adverse materials relating to the discriminatory employment practice.

(5) Full opportunity to participate in the employee benefit denied (e.g., training, preferential work assignments, overtime scheduling).

(d) The Board has the burden of proving by a preponderance of the evidence that the complainant has failed to mitigate his or her damages.

(e) Attorney’s fees or costs—(1) Awards of attorney’s fees or costs. The provisions of this paragraph relating to the award of attorney’s fees or costs shall apply to allegations of discrimination prohibited by title VII and the Rehabilitation Act. In a decision or final action, the Board, administrative judge, or Commission may award the applicant or employee or reasonable attorney’s fees (including expert witness fees) and other costs incurred in the processing of the complaint.

(i) A finding of discrimination raises a presumption of entitlement to an award of attorney’s fees.

(ii) Any award of attorney’s fees or costs shall be paid by the Board.

(iii) Attorney’s fees are allowable only for the services of members of the Bar and law clerks, paralegals or law
students under the supervision of members of the Bar, except that no award is allowable for the services of any employee of the Federal Government.

(iv) Attorney’s fees shall be paid for services performed by an attorney after the filing of a written complaint, provided that the attorney provides reasonable notice of representation to the Board, administrative judge or Commission, except that fees are allowable for a reasonable period of time prior to the notification of representation for any services performed in reaching a determination to represent the complainant. The Board is not required to pay attorney’s fees for services performed during the pre-complaint process, except that fees are allowable when the Commission affirms an appeal an administrative judge’s decision finding discrimination after the Board takes final action by not implementing an administrative judge’s decision. Written submissions to the Board that are signed by the representative shall be deemed to constitute notice of representation.

(2) Amount of awards. (i) When the Board, administrative judge or the Commission determines an entitlement to attorney’s fees or costs, the complainant’s attorney shall submit a verified statement of attorney’s fees (including expert witness fees) and other costs, as appropriate, to the Board or administrative judge within 30 days of receipt of the decision and shall submit a copy of the statement to the Board. A statement of attorney’s fees and costs shall be accompanied by an affidavit executed by the attorney of record itemizing the attorney’s charges for legal services. The Board may respond to a statement of attorney’s fees and costs within 30 days of its receipt. The verified statement, accompanying affidavit and any Board response shall be made a part of the complaint file.

(ii) The Board or administrative judge shall issue a decision determining the amount of attorney’s fees or costs due within 60 days of receipt of the statement and affidavit. The decision shall include a notice of right to appeal to the EEOC along with EEOC Form 573, Notice of Appeal/Petition and shall include the specific reasons for determining the amount of the award.

(B) The amount of attorney’s fees shall be calculated using the following standards: The starting point shall be the number of hours reasonably expended multiplied by a reasonable hourly rate. There is a strong presumption that this amount represents the reasonable fee. In limited circumstances, this amount may be reduced or increased in consideration of the degree of success, quality of representation, and long delay caused by the Board.

(C) The costs that may be awarded are those authorized by 28 U.S.C. 1920 to include: Fees of the reporter for all or any of the stenographic transcript necessarily obtained for use in the case; fees and disbursements for printing and witnesses; and fees for exemplification and copies necessarily obtained for use in the case.

(iii) Witness fees shall be awarded in accordance with the provisions of 28 U.S.C. 1821, except that no award shall be made for a Federal employee who is in a duty status when made available as a witness.

§268.502 Compliance with final Commission decisions.

(a) Relief ordered in a final Commission decision, if accepted pursuant to §268.405(c) as a final decision, or not acted upon the Board within the time periods of §268.405(c), is mandatory and binding on the Board except as provided in this section. Failure to implement ordered relief shall be subject to judicial enforcement as specified in §268.503(f).

(b) Notwithstanding paragraph (a) of this section, when the Board requests reconsideration and the case involves removal, separation, or a suspension continuing beyond the date of the request for reconsideration, and when the decision orders retroactive restoration, the Board shall comply with the decision to the extent of the temporary or conditional restoration of the employee to duty status in the position specified by the Commission, pending the outcome of the Board’s request for reconsideration.

(1) Service under the temporary or conditional restoration provisions of
this paragraph (b) shall be credited toward the completion of a probationary or trial period or the completion of the service requirement for career tenure, if the Commission upholds its decision after reconsideration.

(2) When the Board requests reconsideration, it may delay the payment of any amounts ordered to be paid to the complainant until after the request for reconsideration is resolved. If the Board delays payment of any amount pending the outcome of the request to reconsider and the resolution of the request requires the Board to make the payment, then the Board shall pay interest from the date of the original appellate decision until payment is made.

(3) The Board shall notify the Commission and the employee in writing at the same time it requests reconsideration that the relief it provides is temporary or conditional and, if applicable, that it will delay the payment of any amounts owed but will pay interest as specified in paragraph (b)(2) of this section. Failure of the Board to provide notification will result in the dismissal of the Board’s request.

(c) When no request for reconsideration is filed or when a request for reconsideration is denied, the Board shall provide the relief ordered and there is no further right to delay implementation of the ordered relief. The relief shall be provided in full not later than 60 days after receipt of the final decision unless otherwise ordered in the decision.

§ 268.503 Enforcement of final EEOC decisions.

(a) Petition for enforcement. A complainant may petition the Commission for enforcement of a decision issued under the Commission’s appellate jurisdiction. The petition shall be submitted to the Office of Federal Operations. The petition shall specifically set forth the reasons that lead the complainant to believe that the Board is not complying with the decision.

(b) Compliance. On behalf of the Commission, the Office of Federal Operations shall take all necessary action to ascertain whether the Board is implementing the decision of the Commission. If the Board is found not to be in compliance with the decision, efforts shall be undertaken to obtain compliance.

(c) Clarification. On behalf of the Commission, the Office of Federal Operations may, on its own motion or in response to a petition for enforcement or in connection with a timely request for reconsideration, issue a clarification of a prior decision. A clarification cannot change the result of a prior decision or enlarge or diminish the relief ordered but may further explain the meaning or intent of the prior decision.

(d) Referral to the Commission. Where the Director, Office of Federal Operations, is unable to obtain satisfactory compliance with the final decision, the Director shall submit appropriate findings and recommendations for enforcement to the Commission, or, as directed by the Commission, refer the matter to another appropriate agency.

(e) Commission notice to show cause. The Commission may issue a notice to the Chairman of the Board to show cause why there is noncompliance. Such notice may request the Chairman of the Board or a representative to appear before the Commission or to respond to the notice in writing with adequate evidence of compliance or with compelling reasons for noncompliance.

(f) Notification to complainant of completion of administrative efforts. Where the Commission has determined that the Board is not complying with a prior decision, or where the Board has failed or refused to submit any required report of compliance, the Commission shall notify the complainant the right to file a civil action for enforcement of the decision pursuant to title VII, the ADEA, the Equal Pay Act or the Rehabilitation Act and to seek judicial review of the Board’s refusal to implement the ordered relief pursuant to the Administrative Procedures Act, 5 U.S.C. 701 et seq., and the mandamus statute, 28 U.S.C. 1361, or to commence de novo proceedings pursuant to the appropriate statutes.

§ 268.504 Compliance with settlement agreements and final actions.

(a) Any settlement agreement knowingly and voluntarily agreed to by the parties, reached at any stage of the complaint process, shall be binding on
both parties. Final action that has not been the subject of an appeal or a civil action shall be binding on the Board. If the complainant believes that the Board has failed to comply with the terms of a settlement agreement or decision, the complainant shall notify the Board’s EEO Programs Director in writing, of the alleged noncompliance within 30 days of when the complainant knew or should have known of the alleged noncompliance. The complainant may request that the terms of the settlement agreement be specifically implemented or, alternatively, that the complaint be reinstated for further processing from the point processing ceased.

(b) The Board shall resolve the matter and respond to the complainant, in writing. If the Board has not responded to the complainant, in writing, or if the complainant is not satisfied with the Board’s attempt to resolve the matter, the complainant may appeal to the Commission for a determination as to whether the Board has complied with the terms of the settlement agreement or decision. The complainant may file such an appeal 35 days after he or she has served the Board with the allegations of noncompliance, but must file an appeal within 30 days of his or her receipt of the Board’s determination. The complainant must serve a copy of the appeal on the Board and the Board may submit a response to the Commission within 30 days of receiving notice of the appeal.

(c) Prior to rendering its determination, the Commission may request that the parties submit whatever additional information or documentation it deems necessary or may direct that an investigation or hearing on the matter be conducted. If the Commission determines that the Board is not in compliance and the noncompliance is not attributable to acts or conduct of the complainant, it may order such compliance or it may order that the complaint be reinstated for further processing from the point processing ceased. Allegations that subsequent acts of discrimination violate a settlement agreement shall be processed as separate complaints under §§268.105 or 268.204, as appropriate, rather than under this section.

§ 268.505 Interim relief.

(a)(1) When the Board appeals and the case involves removal, separation, or suspension continuing beyond the date of the appeal, and when the administrative judge orders retroactive restoration, the Board shall comply with the decision to the extent of the temporary or conditional restoration of the employee to duty status in the position specified in the decision, pending the outcome of the Board appeal. The employee may decline the offer of interim relief.

(2) Service under the temporary or conditional restoration provisions of paragraph (a)(1) of this section shall be credited toward the completion of a probationary or trial period, eligibility for a within-grade increase, or the completion of the service requirement for career tenure, if the Commission upholds the decision on appeal. Such service shall not be credited toward the completion of any applicable probationary or trial period or the completion of the service requirement for career tenure if the Commission reverses the decision on appeal.

(3) When the Board appeals, it may delay the payment of any amount, other than prospective pay and benefits, ordered to be paid to the complainant until after the appeal is resolved. If the Board delays payment of any amount pending the outcome of the appeal and the resolution of the appeal requires the Board to make the payment, then the Board shall pay interest from the date of the original decision until payment is made.

(4) The Board shall notify the Commission and the employee in writing at the same time it appeals that the relief it provides is temporary or conditional and, if applicable, that it will delay the payment of any amounts owed but will pay interest as specified in paragraph (b)(2) of this section. Failure of the Board to provide notification will result in the dismissal of the Board’s appeal.

(5) The Board may, by notice to the complainant, decline to return the complainant to his or her place of employment if it determines that the return or presence of the complainant will be unduly disruptive to the work environment. However, prospective pay
§ 268.602 Reports to the Commission.

(a) The Board shall report to the Commission on employment by race, national origin, sex and disability in the form and at such times as the Board and Commission shall agree.

§ 268.601 EEO group statistics.

(a) The Board shall establish a system to collect and maintain accurate employment information on the race, national origin, sex and disability(ies) of its employees.

(b) Data on race, national origin and sex shall be collected by voluntary self-identification. If an employee does not voluntarily provide the requested information, the Board shall advise the employee of the importance of the data and of the Board’s obligation to report it. If the employee still refuses to provide the information, the Board must make a visual identification and inform the employee of the data it will be reporting. If the Board believes that information provided by an employee is inaccurate, the Board shall advise the employee about the solely statistical purpose for which the data is being collected, the need for accuracy, the Board’s recognition of the sensitivity of the information and the existence of procedures to prevent its unauthorized disclosure. If, thereafter, the employee declines to change the apparently inaccurate self-identification, the Board must accept it.

(c) Subject to applicable law, the information collected under paragraph (b) of this section shall be disclosed only in the form of gross statistics.

The Board shall not collect or maintain any information on the race, national origin or sex of individual employees except in accordance with applicable law and when an automated data processing system is used in accordance with standards and requirements prescribed by the Commission to insure individual privacy and the separation of that information from personnel records.

(d) The Board’s system is subject to the following controls:

(1) Only those categories of race and national origin prescribed by the Commission may be used;

(2) Only the specific procedures for the collection and maintenance of data that are prescribed or approved by the Commission may be used.

(e) The Board may use the data only in studies and analyses which contribute affirmatively to achieving the objectives of the Board’s equal employment opportunity program. The Board shall not establish a quota for the employment of persons on the basis of race, color, religion, sex, or national origin.

(f) Data on disabilities shall also be collected by voluntary self-identification. If an employee does not voluntarily provide the requested information, the Board shall advise the employee of the importance of the data and of the Board’s obligation to report it. If an employee who has been appointed pursuant to a special Board program for hiring individuals with a disability still refuses to provide the requested information or provides information that the Board believes to be inaccurate, the Board should report the employee’s disability status as unknown.

(g) The Board shall report to the Commission on employment by race, national origin, sex and disability in the form and at such times as the Board and Commission shall agree.
§ 268.603 Voluntary settlement attempts.

The Board shall make reasonable efforts to voluntarily settle complaints of discrimination as early as possible in, and throughout, the administrative processing of complaints, including the pre-complaint counseling stage. Any settlement reached shall be in writing and signed by both parties and shall identify the claims resolved.

§ 268.604 Filing and computation of time.

(a) All time periods in this part that are stated in terms of days are calendar days unless otherwise stated.

(b) A document shall be deemed timely if it is received or postmarked before the expiration of the applicable filing period, or, in the absence of a legible postmark, if it is received by mail within five days of the expiration of the applicable filing period.

(c) The time limits in this part are subject to waiver, estoppel and equitable tolling.

(d) The first day counted shall be the day after the event from which the time period begins to run and the last day of the period shall be included, unless it falls on a Saturday, Sunday or Federal holiday, in which case the period shall be extended to include the next business day.

§ 268.605 Representation and official time.

(a) At any stage in the processing of a complaint, including the counseling stage under §268.104, the complainant shall have the right to be accompanied, represented, and advised by a representative of complainant’s choice.

(b) If the complainant is an employee of the Board, he or she shall have a reasonable amount of official time, if otherwise on duty, to prepare the complaint and to respond to Board and EEOC requests for information. If the complainant is an employee of the Board and he designates another employee of the Board as his or her representative, the representative shall have a reasonable amount of official time, if otherwise on duty, to prepare the complaint and respond to Board and EEOC requests for information. The Board is not obligated to change work schedules, incur overtime wages, or pay travel expenses to facilitate the choice of a specific representative or to allow the complainant and representative to confer. The complainant and the representative, if employed by the Board and otherwise in a pay status, shall be on official time, regardless of their tour of duty, when their presence is authorized or required by the Board or the Commission during the investigation, informal adjustment, or hearing on the complaint.

(c) In cases where the representation of a complainant or the Board would conflict with the official or collateral duties of the representative, the Commission or the Board may, after giving the representative an opportunity to respond, disqualify the representative.

(d) Unless the complainant states otherwise in writing, after the Board has received written notice of the name, address and telephone number of
Subpart H—Prohibition Against Discrimination in Board Programs and Activities Because of Physical or Mental Disability

§ 268.701 Purpose and application.

(a) Purpose. The purpose of this subpart H is to prohibit discrimination on the basis of a disability in programs or activities conducted by the Board.

(b) Application. (1) This subpart H applies to all programs and activities conducted by the Board. Such programs and activities include:

(i) Holding open meetings of the Board or other meetings or public hearings at the Board’s office in Washington, DC;

(ii) Responding to inquiries, filing complaints, or applying for employment at the Board’s office;

(iii) Making available the Board’s library facilities; and

(iv) Any other lawful interaction with the Board or its staff in any official matter with people who are not employees of the Board.

(2) This subpart H does not apply to Federal Reserve Banks or to financial institutions or other companies supervised or regulated by the Board.

§ 268.702 Definitions.

For purposes of this subpart, the following definitions apply:

(a) Auxiliary aids means services or devices that enable persons with impaired sensory, manual, or speaking skills to have an equal opportunity to participate in, and enjoy the benefits of, programs or activities conducted by the Board. For example, auxiliary aids useful for persons with impaired vision include readers, Brailled materials, audio recordings, telecommunications devices and other similar services and devices. Auxiliary aids useful for persons with impaired hearing include telephone handset amplifiers, telephones compatible with hearing aids, telecommunication devices for deaf persons (TDD’s), interpreters, notetakers, written materials, and other similar services and devices.
(b) **Complete complaint** means a written statement that contains the complainant’s name and address and describes the Board’s alleged discriminatory action in sufficient detail to inform the Board of the nature and date of the alleged violation. It shall be signed by the complainant or by someone authorized to do so on his or her behalf. Complaints filed on behalf of classes or third parties shall describe or identify (by name, if possible) the alleged victims of discrimination.

(c) **Facility** means all or any portion of buildings, structures, equipment, roads, walks, parking lots, rolling stock or other conveyances, or other real or personal property.

(d) **Person with a disability** means any person who has a physical or mental impairment that substantially limits one or more major life activities, has a record of such an impairment, or is regarded as having such an impairment. As used in this definition, the phrase:

(1) Physical or mental impairment includes—

(i) Any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one of more of the following body systems: Neurological; musculoskeletal; special sense organs; respiratory, including speech organs; cardiovascular; reproductive; digestive; genitourinary; hemic and lymphatic; skin; and endocrine; or

(ii) Any mental or psychological disorder, such as mental retardation, organic brain syndrome, emotional or mental illness, and specific learning disabilities. The term physical or mental impairment includes, but is not limited to, such diseases and conditions as orthopedic, visual, speech, and hearing impairments, cerebral palsy, epilepsy, muscular dystrophy, multiple sclerosis, cancer, heart disease, diabetes, mental retardation, emotional illness, and drug addiction and alcoholism.

(2) Major life activities includes functions such as caring for one’s self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, and working.

(3) Has a record of such an impairment means has a history of, or has been misclassified as having, a mental or physical impairment that substantially limits one or more major life activities.

(4) Is regarded as having an impairment means—

(i) Has a physical or mental impairment that does not substantially limit major life activities but is treated by the Board as constituting such a limitation;

(ii) Has a physical or mental impairment that substantially limits major life activities only as a result of the attitudes of others toward such impairment; or

(iii) Has none of the impairments defined in paragraph (d)(1) of this section but is treated by Board as having such an impairment.

(e) **Qualified person with a disability** means—

(1) With respect to any Board program or activity under which a person is required to perform services or to achieve a level of accomplishment, a person with a disability who meets the essential eligibility requirements and who can achieve the purpose of the program or activity without modifications in the program or activity that the Board can demonstrate would result in a fundamental alteration in its nature; or

(2) With respect to any other program or activity, a person with a disability who meets the essential eligibility requirements for participation in, or receipt of benefits from, that program or activity.

(3) Qualified individual with a disability is defined for purposes of employment in §268.203 of this part, which is made applicable to this subpart by §268.705.

§268.703 **Notice.**

The Board shall make available to employees, applicants for employment, participants, beneficiaries, and other interested persons information regarding the provisions of this subpart and its applicability to the programs and activities conducted by the Board, and make this information available to them in such manner as the Board finds necessary to apprise such persons of the protections against discrimination assured them by this subpart.
§ 268.704 General prohibitions against discrimination.

(a) No qualified individual with a disability shall, on the basis of a disability, be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination in any program or activity conducted by the Board.

(b)(1) The Board, in providing any aid, benefit, or service, may not, directly or through contractual, licensing, or other arrangements, on the basis of a disability:

(i) Deny a qualified individual with a disability the opportunity to participate in or benefit from the aid, benefit, or service that is not equal to that provided to others;

(ii) Afford a qualified individual with a disability an opportunity to participate in or benefit from the aid, benefit, or service that is not equal to that afforded others;

(iii) Provide a qualified individual with a disability with an aid, benefit, or service that is not as effective in affording equal opportunity to obtain the same result, to gain the same benefit, or to reach the same level of achievement as that provided to others;

(iv) Provide different or separate aid, benefits, or services to individuals with a disability or to any class of individuals with a disability than is provided to others unless such action is necessary to provide qualified individuals with a disability with aid, benefits, or services that are as effective as those provided to others;

(v) Deny a qualified individual with a disability the opportunity to participate as a member of planning or advisory boards; or

(vi) Otherwise limit a qualified individual with a disability in the enjoyment of any right, privilege, advantage, or opportunity enjoyed by others receiving the aid, benefit, or service.

(2) The Board may not deny a qualified individual with a disability the opportunity to participate in programs or activities that are not separate or different, despite the existence of permittedly separate or different programs or activities.

(3) The Board may not, directly or through contractual or other arrangements, utilize criteria or methods of administration, the purpose or effect of which would:

(i) Subject qualified individuals with a disability to discrimination on the basis of a disability; or

(ii) Defeat or substantially impair accomplishment of the objectives of a program or activity with respect to individuals with a disability.

(4) The Board may not, in determining the site or location of a facility, make selections the purpose or effect of which would:

(i) Exclude individuals with a disability from, deny them the benefits of, or otherwise subject them to discrimination under any program or activity conducted by the Board; or

(ii) Defeat or substantially impair the accomplishment of the objectives or a program or activity with respect to individuals with a disability.

(5) The Board, in the selection of procurement contractors, may not use criteria that subject qualified individuals with a disability to discrimination on the basis of a disability.

(6) The Board may not administer a licensing or certification program in a manner that subjects qualified individuals with a disability to discrimination on the basis of a disability, nor may the Board establish requirements for the programs and activities of licensees or certified entities that subject qualified individuals with a disability to discrimination on the basis of a disability. However, the programs and activities of entities that are licensed or certified by the Board are not, themselves, covered by this subpart.

(c) The exclusion of individuals who do not have a disability from the benefits of a program limited by Federal statute or Board order to individuals with a disability or the exclusion of a specific class of individuals with a disability from a program limited by Federal statute or Board order to a different class of individuals with a disability is not prohibited by this subpart.

(d) The Board shall administer programs and activities in the most integrated setting appropriate to the needs of qualified individuals with a disability.
§ 268.705 Employment.

No qualified individual with a disability shall, on the basis of a disability, be subjected to discrimination in employment under any program or activity conducted by the Board. The definitions, requirements and procedures of §268.203 of this part shall apply to discrimination in employment in federally conducted programs or activities.

§ 268.706 Program accessibility: Discrimination prohibited.

Except as otherwise provided in §268.707 of this subpart, no qualified individual with a disability shall, because the Board’s facilities are inaccessible to or unusable by individuals with a disability, be denied the benefits of, be excluded from participation in, or otherwise be subjected to discrimination under any program or activity conducted by the Board.

§ 268.707 Program accessibility: Existing facilities.

(a) General. The Board shall operate each program or activity so that the program or activity, when viewed in its entirety, is readily accessible to and usable by individuals with a disability. This paragraph (a) does not:

(1) Necessarily require the Board to make each of its existing facilities accessible to and usable by individuals with a disability; or

(2) Require the Board to take any action that it can demonstrate would result in a fundamental alteration in the nature of a program or activity or in undue financial and administrative burdens. In those circumstances where the Board believes that the proposed action would fundamentally alter the program or activity or would result in undue financial and administrative burdens, the Board has the burden of proving that compliance with this paragraph (a) would result in such alterations or burdens. The decision that compliance would result in such alterations or burdens shall be made by the Board of Governors or their designee after considering all Board resources available for use in the funding and operation of the conducted program or activity, and must be accompanied by a written statement of the reasons for reaching that conclusion. If an action would result in such an alteration or such burdens, the Board shall take any other action that would not result in such an alteration or such burdens but would nevertheless ensure that individuals with a disability receive the benefits and services of the program or activity.

(b) Methods. The Board may comply with the requirements of this subpart H through such means as redesign of equipment, reassignment of services to accessible buildings, assignment of aides to individuals with a disability, home visits, delivery of service at alternate accessible sites, alteration of existing facilities and construction of new facilities, use of accessible rolling stock, or any other methods that result in making its programs or activities readily accessible to and usable by individuals with a disability. The Board is not required to make structural changes in existing facilities where other methods are effective in achieving compliance with this section. In choosing among available methods for meeting the requirements of this section, the Board shall give priority to those methods that offer programs and activities to qualified individuals with a disability in the most integrated setting appropriate.

(c) Time period for compliance. The Board shall comply with any obligations established under this section as expeditiously as possible.

§ 268.708 Program accessibility: New construction and alterations.

Each building or part of a building that is constructed or altered by, on behalf of, or for the use of the Board shall be designed, constructed, or altered so as to be readily accessible to and usable by individuals with a disability.

§ 268.709 Communications.

(a) The Board shall take appropriate steps to ensure effective communication with applicants, participants, personnel of other Federal entities, and members of the public.

(1) The Board shall furnish appropriate auxiliary aids where necessary to afford an individual with a disability an equal opportunity to participate in,
and enjoy the benefits of, a program or activity conducted by the Board.

(i) In determining what type of auxiliary aid is necessary, the Board shall give primary consideration to the requests of the individual with a disability.

(ii) The Board need not provide individually prescribed devices, readers for personal use or study, or other devices of a personal nature.

(2) Where the Board communicates with employees and others by telephone, telecommunication devices for deaf persons (TDD’s) or equally effective telecommunication systems shall be used.

(b) The Board shall ensure that interested persons, including persons with impaired vision or hearing, can obtain information as to the existence and location of accessible services, activities, and facilities.

(c) The Board shall provide signage at a primary entrance to each of its inaccessible facilities, directing users to a location at which they can obtain information about accessible facilities. The international symbol for accessibility shall be used at each primary entrance of an accessible facility.

(d) This section does not require the Board to take any action that would result in a fundamental alteration in the nature of a program or activity or in undue financial and administrative burdens. In those circumstances where the Board believes that the proposed action would fundamentally alter the program or activity or would result in undue financial and administrative burdens, the Board has the burden of proving that compliance with section 268.709 would result in such alterations or burdens. The determination that compliance would result in such alterations or burdens must be made by the Board of Governors or their designee after considering all Board resources available for use in the funding and operation of the conducted program or activity, and must be accompanied by a written statement of the reasons for reaching that conclusion. If an action required to comply with this section would result in such an alteration or such burdens but would nevertheless ensure that, to the maximum extent possible, individuals with a disability receive the benefits and services of the program or activity.

§ 268.710 Compliance procedures.

(a) Applicability. Except as provided in paragraph (b) of this section, this section, rather than subpart B and § 268.203 of this part, applies to all allegations of discrimination on the basis of a disability in programs or activities conducted by the Board.

(b) Employment complaints. The Board shall process complaints alleging discrimination in employment on the basis of a disability in accordance with subparts A through G of this part.

(c) Responsible official. The EEO Programs Director shall be responsible for coordinating implementation of this section.

(d) Filing the complaint—(1) Who may file. Any person who believes that he or she has been subjected to discrimination prohibited by this subpart may, personally or by his or her authorized representative, file a complaint of discrimination with the EEO Programs Director.

(2) Confidentiality. The EEO Programs Director shall not reveal the identity of any person submitting a complaint, except when authorized to do so in writing by the complainant, and except to the extent necessary to carry out the purposes of this subpart, including the conduct of any investigation, hearing, or proceeding under this subpart.

(3) When to file. Complaints shall be filed within 180 days of the alleged act of discrimination. The EEO Programs Director may extend this time limit for good cause shown. For the purpose of determining when a complaint is timely filed under this paragraph (d), a complaint mailed to the Board shall be deemed filed on the date it is postmarked. Any other complaint shall be deemed filed on the date it is received by the Board.

(4) How to file. Complaints may be delivered or mailed to the Administrative Governor, the Staff Director for Management, the EEO Programs Director, the Federal Women’s Program Manager, the Hispanic Employment Program Coordinator, or the People with Disabilities Program Coordinator.
Complaints should be sent to the EEO Programs Director, Board of Governors of the Federal Reserve System, 20th and C Street NW., Washington, DC 20551. If any Board official other than the EEO Programs Director receives a complaint, he or she shall forward the complaint to the EEO Programs Director.

(e) Acceptance of complaint. (1) The EEO Programs Director shall accept a complete complaint that is filed in accordance with paragraph (d) of this section and over which the Board has jurisdiction. The EEO Programs Director shall notify the complainant of receipt and acceptance of the complaint.

(2) If the EEO Programs Director receives a complaint that is not complete, he or she shall notify the complainant, within 30 days of receipt of the incomplete complaint, that additional information is needed. If the complainant fails to complete the complaint within 30 days of receipt of this notice, the EEO Programs Director shall dismiss the complaint without prejudice.

(3) If the EEO Programs Director receives a complaint over which the Board does not have jurisdiction, the EEO Programs Director shall notify the complainant and shall make reasonable efforts to refer the complaint to the appropriate government entity.

(f) Investigation/conciliation. (1) Within 180 days of the receipt of a complete complaint, the EEO Programs Director shall complete the investigation of the complaint, attempt informal resolution of the complaint, and if no informal resolution is achieved, the EEO Programs Director shall forward the investigative report to the Staff Director for Management.

(2) The EEO Programs Director may request Board employees to cooperate in the investigation and attempted resolution of complaints. Employees who are requested by the EEO Programs Director to participate in any investigation under this section shall do so as part of their official duties and during the course of regular duty hours.

(3) The EEO Programs Director shall furnish the complainant with a copy of the investigative report promptly after completion of the investigation and provide the complainant with an opportunity for informal resolution of the complaint.

(4) If a complaint is resolved informally, the terms of the agreement shall be reduced to writing and made a part of the complaint file, with a copy of the agreement provided to the complainant. The written agreement may include a finding on the issue of discrimination and shall describe any corrective action to which the complainant has agreed.

(g) Letter of findings. (1) If an informal resolution of the complaint is not reached, the EEO Programs Director shall transmit the complaint file to the Staff Director for Management. The Staff Director for Management shall, within 180 days of the receipt of the complete complaint by the EEO Programs Director, notify the complainant of the results of the investigation in a letter sent by certified mail, return receipt requested, containing:

(i) Findings of fact and conclusions of law;

(ii) A description of a remedy for each violation found;

(iii) A notice of right of the complainant to appeal the letter of findings under paragraph (k) of this section; and

(iv) A notice of right of the complainant to request a hearing.

(2) If the complainant does not file a notice of appeal or does not request a hearing within the times prescribed in paragraph (h)(1) and (j)(1) of this section, the EEO Programs Director shall certify that the letter of findings under this paragraph (g) is the final decision of the Board at the expiration of those times.

(h) Filing an appeal. (1) Notice of appeal, with or without a request for hearing, shall be filed by the complainant with the EEO Programs Director within 30 days of receipt from the Staff Director for Management of the letter of findings required by paragraph (g) of this section.

(2) If the complainant does not request a hearing, the EEO Programs Director shall notify the Board of Governors of the appeal by the complainant and that a decision must be made under paragraph (k) of this section.

(i) Acceptance of appeal. The EEO Programs Director shall accept and process any timely appeal. A complainant
may appeal to the Administrative Governor from a decision by the EEO Programs Director that an appeal is untimely. This appeal shall be filed within 15 calendar days of receipt of the decision from the EEO Programs Director.

(j) Hearing. (1) Notice of a request for a hearing, with or without a request for an appeal, shall be filed by the complainant with the EEO Programs Director within 30 days of receipt from the Staff Director for Management of the letter of findings required by paragraph (g) of this section. Upon a timely request for a hearing, the EEO Programs Director shall request that the Board of Governors, or its designee, appoint an administrative law judge to conduct the hearing. The administrative law judge shall issue a notice to the complainant and the Board specifying the date, time, and place of the scheduled hearing. The hearing shall be commenced no earlier than 15 calendar days after the notice is issued and no later than 60 days after the request for a hearing is filed, unless all parties agree to a different date.

(2) The hearing, decision, and any administrative review thereof shall be conducted in conformity with 5 U.S.C. 554–557. The administrative law judge shall have the duty to conduct a fair hearing, to take all necessary actions to avoid delay, and to maintain order. He or she shall have all powers necessary to these ends, including (but not limited to) the power to:

(i) Arrange and change the dates, times, and places of hearings and pre-hearing conferences and to issue notice thereof;

(ii) Hold conferences to settle, simplify, or determine the issues in a hearing, or to consider other matters that may aid in the expeditious disposition of the hearing;

(iii) Require parties to state their positions in writing with respect to the various issues in the hearing and to exchange such statements with all other parties;

(iv) Examine witnesses and direct witnesses to testify;

(v) Receive, rule on, exclude, or limit evidence;

(vi) Rule on procedural items pending before him or her; and

(vii) Take any action permitted to the administrative law judge as authorized by this subpart G or by the provisions of the Administrative Procedures Act (5 U.S.C. 554–557).

(3) Technical rules of evidence shall not apply to hearings conducted pursuant to this paragraph (j), but rules or principles designed to assure production of credible evidence and to subject testimony to cross-examination shall be applied by the administrative law judge wherever reasonably necessary. The administrative law judge may exclude irrelevant, immaterial, or unduly repetitious evidence. All documents and other evidence offered or taken for the record shall be open to examination by the parties, and opportunity shall be given to refute facts and arguments advanced on either side of the issues. A transcript shall be made of the oral evidence except to the extent the substance thereof is stipulated for the record. All decisions shall be based upon the hearing record.

(4) The costs and expenses for the conduct of a hearing shall be allocated as follows:

(i) Employees of the Board shall, upon the request of the administrative law judge, be made available to participate in the hearing and shall be on official duty status for this purpose. They shall not receive witness fees.

(ii) Employees of other Federal agencies called to testify at a hearing, at the request of the administrative law judge and with the approval of the employing agency, shall be on official duty status during any absence from normal duties caused by their testimony, and shall not receive witness fees.

(iii) The fees and expenses of other persons called to testify at a hearing shall be paid by the party requesting their appearance.

(iv) The administrative law judge may require the Board to pay travel expenses necessary for the complainant to attend the hearing.

(v) The Board shall pay the required expenses and charges for the administrative law judge and court reporter.

(vi) All other expenses shall be paid by the parties incurring them.

(5) The administrative law judge shall submit in writing recommended
findings of fact, conclusions of law, and remedies to the complainant and the EEO Programs Director within 30 days, after the receipt of the hearing transcripts, or within 30 days after the conclusion of the hearing if no transcripts are made. This time limit may be extended with the permission of the EEO Programs Director.

(6) Within 15 calendar days after receipt of the recommended decision of the administrative law judge, the complainant may file exceptions to the recommended decision with the EEO Programs Director. On behalf of the Board, the EEO Programs Director may, within 15 calendar days after receipt of the recommended decision of the administrative law judge, take exception to the recommended decision of the administrative law judge and shall notify the complainant in writing of the Board’s exception. Thereafter, the complainant shall have 10 calendar days to file reply exceptions with the EEO Programs Director. The EEO Programs Director shall retain copies of the exceptions and replies to the Board’s exception for consideration by the Board. After the expiration of the time to reply, the recommended decision shall be ripe for a decision under paragraph (k) of this section.

(k) Decision. (1) The EEO Programs Director shall notify the Board of Governors when a complaint is ripe for decision under this paragraph (k). At the request of any member of the Board of Governors made within 3 business days of such notice, the Board of Governors shall make the decision on the complaint. If no such request is made, the Administrative Governor, or the Staff Director for Management if he or she is delegated the authority to do so, shall make the decision on the complaint. The decision shall be made based on information in the investigative record and, if a hearing is held, on the hearing record. The decision shall be made within 60 days of the receipt by the EEO Programs Director of the notice of appeal and investigative record pursuant to paragraph (h)(1) of this section or 60 days following the end of the period for filing reply exceptions set forth in paragraph (j)(6) of this section, whichever is applicable. If the decision-maker under this paragraph (k) determines that additional information is needed from any party, the decision-maker shall request the information and provide the other party or parties an opportunity to respond to that information. The decision-maker shall have 60 days from receipt of the additional information to render the decision on the appeal. The decision-maker shall transmit the decision by letter to all parties. The decision shall set forth the findings, any remedial actions required, and the reasons for the decision. If the decision is based on a hearing record, the decision-maker shall consider the recommended decision of the administrative law judge and render a final decision based on the entire record. The decision-maker may also remand the hearing record to the administrative law judge for a fuller development of the record.

(2) The Board shall take any action required under the terms of the decision promptly. The decision-maker may require periodic compliance reports specifying:

(i) The manner in which compliance with the provisions of the decision has been achieved;

(ii) The reasons any action required by the final Board decision has not been taken; and

(iii) The steps being taken to ensure full compliance.

(3) The decision-maker may retain responsibility for resolving disputes that arise between parties over interpretation of the final Board decision, or for specific adjudicatory decisions arising out of implementation.

PART 269—POLICY ON LABOR RELATIONS FOR THE FEDERAL RESERVE BANKS

Sec.
269.1 Definition of a labor organization.
269.2 Membership in a labor organization.
269.3 Recognition of a labor organization and its relationship to a Federal Reserve Bank.
269.4 Determination of appropriate bargaining unit.
269.5 Elections.
269.6 Unfair labor practices.
269.7 Approval of agreement and required contents.
269.8 Grievance procedures.
269.9 Mediation of negotiation impasses.
§ 269.1 Definition of a labor organization.

When used in this part, the term "labor organization" means any lawful organization of any kind, or any employee representation group, which exists for the purpose, in whole or in part, of dealing with any Federal Reserve Bank concerning grievances, personnel policies and practices, or other matters affecting the working conditions of its employees, but the term shall not include any organization:

(a) Which asserts the right to strike against the government of the United States, the Board of Governors of the Federal Reserve System, or any Federal Reserve Bank, or to assist or participate in any such strike, or which imposes a duty or obligation to conduct, assist or participate in any such strike; or

(b) Which fails to agree to refrain from seeking or accepting support from any organization which employs coercive tactics affecting any Federal Reserve Bank's operations; or

(c) Which advocates the overthrow of the constitutional form of the government of the United States; or

(d) Which discriminates with regard to the terms or conditions of membership because of race, color, sex, creed, age or national origin.

§ 269.2 Membership in a labor organization.

(a) Any employee of a Federal Reserve Bank (hereinafter referred to as "Bank") is free to join and assist any existing labor organization or to participate in the formation of a new labor organization, or to refrain from any such activities except that officers and their administrative or confidential assistants, managers and other supervisory personnel, secretaries to all such persons and all employees engaged in Bank personnel work shall not be represented by any labor organization.

(b) The rights described in paragraph (a) of this section for employees do not extend to participation in the management of a labor organization, or acting as a representative of any such organization, where such participation or activity would conflict with law or the duties of an employee.

(c) Notwithstanding anything stated in paragraph (a) of this section, professional employees of a Bank shall not be represented by a labor organization which represents other employees of the Bank unless a majority of the professional employees eligible to vote specifically elect to be represented by such labor organization. However, the professional employees of a Bank may, if they so choose, be represented by a separate labor organization of their own, or by no labor organization at all.

(d) Notwithstanding anything stated in paragraph (a) of this section, the guards of a Bank shall not be members of a labor organization which represents other categories of employees of the Bank. However, the guards of a Bank may, if they so choose, be represented by a separate labor organization of their own, or by no labor organization at all.

§ 269.3 Recognition of a labor organization and its relationship to a Federal Reserve Bank.

(a) Any labor organization shall be recognized as the exclusive bargaining representative of the employees in an appropriate unit of a Bank when that organization has been selected by the employees in said unit pursuant to the procedure set forth in § 269.5. A unit may be established in a Bank on any basis which will ensure a clear and identifiable community of interest among the employees concerned, and will promote effective relationships and the efficiency of the Bank's operations, but no unit shall be established solely on the basis of the extent to which a labor organization or employees in the proposed unit may have sought organization.

(b) When a labor organization has been recognized as the exclusive representative of employees in an appropriate unit, it shall be entitled to act...
for and to negotiate agreements in good faith covering all employees in the unit, and it shall be responsible for representing the interests of all such employees without discrimination and without regard to whether they are members of that labor organization or not, provided that nothing in this Policy shall prevent an employee from adjusting his or her grievance without the intervention of the recognized labor organization. The labor organization shall be given notice of the adjustment and a reasonable opportunity to object on the sole ground that it is in conflict with the terms of the collective bargaining agreement.

(c) A Bank, through appropriate officials, shall have the obligation to meet at reasonable times with representatives of a recognized labor organization to negotiate, in good faith, with respect to personnel policies and practices affecting working conditions for employees, provided that they do not involve matters in any of the following areas:

1. The purposes and functions of the Bank; the compensation of and hours worked by employees; any classification system used to evaluate positions; the budget of the Bank; the retirement system; any insurance or other benefit plans; internal security operations; maintenance of the efficiency of Bank operations including the determination of work methods; the right to contract out; the determination as to manpower requirements; use of technology and organization of work; and action to meet emergency situations;

2. Management rights as to the direction of employees, including hiring, promotion, transfer, classification, assignment, layoffs, retention, suspension, demotion, discipline and discharge, provided that on matters involving the procedures to be followed by a Bank for the exercise of its rights under this subparagraph, a Bank shall, upon request, discuss such procedures with a recognized labor organization, but shall not be required to negotiate for an agreement as to them;

3. All Bank matters specifically governed by applicable laws or regulations.

The obligation under this paragraph to negotiate with regard to certain matters shall include the execution of a written contract incorporating any agreement reached, but does not compel either a Bank or a labor organization to agree to a particular proposal or to make any concession during such negotiations.

(d) At the time it requests an election to be held, any labor organization seeking recognition shall submit to a Bank a roster of its officers and representatives, a copy of its constitution and bylaws, and a statement of its objectives.

(e) Subject to the provisions of §269.8, the exclusive recognition of a labor organization shall not preclude any employee, regardless of labor organization membership, from bringing matters of personal concern not governed by a collective bargaining agreement to the attention of appropriate officers, managers or supervisory personnel in accordance with applicable law, rule, regulation, or established Bank policy, or from choosing his or her own representative in such matters.

§269.4 Determination of appropriate bargaining unit.

(a) If a labor organization asserts in writing to a Bank that it holds cards requesting a representation election signed by at least thirty percent (30%) of the employees in a unit which that organization considers to be an appropriate bargaining unit, the labor organization and the Bank shall each designate a representative who together shall request the American Arbitration Association (hereinafter referred to as “Association”) to submit to them from its National Panel of Professional Labor Arbitrators a list of seven (7) impartial, qualified professional arbitrators. The two designated representatives shall meet promptly and, by alternately striking names from the list, arrive at the remaining person who, together with the two representatives, shall constitute a Special Tribunal to rule on the labor organization’s request for an election. The impartial arbitrator shall always act as the Chairperson of any Special Tribunal duly constituted under this section.

(b) In the absence of an agreement between the labor organization and the
Bank on the appropriate unit, the Tribunal shall investigate the facts, hold hearings if necessary, and issue a decision as to the appropriateness of the unit for the purposes of conducting a representation election for exclusive recognition and as to related issues submitted for consideration. The expenses for this proceeding, including the fees of the association and of the arbitrator, shall be borne equally by the labor organization and the Bank. If either the Bank or the labor organization should disagree with the Special Tribunal’s decision, the party in disagreement may appeal within thirty (30) calendar days to the Federal Reserve System Labor Relations Panel referred to in § 269.11, and the decision of the System Panel shall be final and binding on the parties.

(c) If there is any dispute as to whether a labor organization holds cards signed by at least thirty percent (30%) of the employees in a unit claimed by a labor organization as appropriate or subsequently determined by the Special Tribunal as appropriate, the dispute shall be resolved by the Chairperson of the Special Tribunal, acting as a single impartial arbitrator. The expenses of such procedure, including the impartial arbitrator’s fee, shall be borne equally by the labor organization and the Bank. The decision of the Chairperson of the Special Tribunal shall be final and binding and shall not be subject to appeal to the Federal Reserve System Labor Relations Panel.

§ 269.5 Elections.

(a) Once there has been a final determination of the existence of an appropriate bargaining unit under the procedure in § 269.4, and a showing by a labor organization that it has cards signed by at least thirty percent (30%) of the employees in such unit requesting a representation election, an election shall be ordered by the Special Tribunal. A labor organization shall be recognized as the exclusive bargaining representative of the unit if it is selected by a majority of the employees in the unit actually voting.

(b) The election shall be held under the auspices of the Association and shall be subject to its election rules and regulations. However, if there should be any conflict between such rules and regulations and the provisions of this Policy, the latter shall prevail. The fees charged by the Association for its election service shall be borne equally by the labor organization and the Bank.

(c) An election to determine whether a labor organization should continue as the exclusive bargaining representative of a particular unit shall be held when requested by a petition or other bona fide showing by at least thirty percent (30%) of the employees of that unit. Any dispute as to whether thirty percent (30%) of the employees requested such an election shall be resolved by the same procedure as that set forth in § 269.4(b). The election shall be held under the auspices of the Association in the same manner described in paragraph (b) of this section. The recognition of a labor organization as the exclusive bargaining representative of a unit shall be revoked if a majority of the employees in the unit who actually vote signify approval of such revocation.

(d) Only one election may be held in any unit in a twelve (12) month period to determine whether a labor organization should become, or continue to be recognized as, the exclusive representative of the employees in that unit.

(e) Upon receipt of a request for an election from a labor organization under § 269.4(a), it shall be incumbent on the Bank, labor organization and all others to refrain from any conduct, action or policy that interferes with or restrains employees from making a fair and free choice in selecting or rejecting a bargaining representative consistent with the right of the Bank, labor organization or employees to exercise privileges of free speech in the expression of any views, argument or opinion, or the dissemination thereof, whether in oral, written, printed, graphic or visual form.

(f) The Special Tribunal shall hear and decide any post-election objections of a Bank or labor organization filed with it claiming that a violation of paragraph (e) of this section has improperly affected the outcome of the election. Such objections must be filed with the Special Tribunal no later than five (5) business days after the date of
§ 269.6 Unfair labor practices.

(a) It shall be an unfair labor practice for a Bank to: (1) Interfere with, restrain, or coerce employees in the exercise of the rights guaranteed in §269.2(a); (2) dominate or interfere with the formation or administration of any labor organization, or to contribute financial or other support to it; (3) encourage or discourage membership in any labor organization by discrimination in regard to hire or tenure of employment or any term or condition of employment; (4) refuse to bargain collectively with the representatives of its employees subject to the provisions of §269.3(b) and (c).

(b) It shall be an unfair labor practice for a labor organization, its agents or representatives to: (1) Restrain or coerce employees in the exercise of the rights guaranteed in §269.2(a); (2) cause or attempt to cause a Bank to Discriminate against an employee in violation of paragraph (a)(3) of this section; (3) refuse to bargain collectively with a Bank, provided the labor organization is the exclusive representative of a unit of employees.

(c) Notwithstanding anything previously stated in this section, the expression of any view, argument or opinion, or the dissemination thereof, whether in oral, written, printed, graphic or visual form, shall not constitute or be evidence of an unfair labor practice, if such expression contains no threat of reprisal or force, or promise of benefit.

(d) The Federal Reserve System Labor Relations Panel will adhere to the rules and regulations promulgated by the Board of Governors for the prevention and remedy of the unfair labor practices listed herein.

§ 269.7 Approval of agreement and required contents.

Any agreement entered into with a labor organization as the exclusive representative of employees in a unit must be approved by the President of the Bank or a designated officer representative. All agreements with labor organizations shall also be subject to the requirement that the administration of all matters covered by the agreement shall be governed by the provisions of applicable laws and Federal Reserve System rules and regulations, and the agreement shall at all times be applied subject to such laws and regulations.

§ 269.8 Grievance procedures.

(a) Subject to the provisions of §269.3(b), an agreement entered into with a labor organization as the exclusive representative of employees in a unit may contain a grievance procedure, applicable only to employees in such unit and which shall be the exclusive means for a labor organization and/or an employee to obtain resolution of a grievance arising under such agreement.

(b) Grievance procedures established by a labor agreement may also include provisions for arbitration of unresolved grievances by a tripartite panel under the Voluntary Labor Arbitration Rules of the Association with the impartial arbitrator selected by the Bank and labor organization representatives on
Federal Reserve System

§ 269a.1 Party.
The term Party means any person, employee, group of employees, labor organization, or bank as defined in §269.2 of this chapter (a) filing a charge, petition, application, or request pursuant to these rules and regulations, (b) named as a party in a charge, complaint, petition, application, or request, or (c) whose intervention has been permitted or directed by the investigator, the hearing officer, or the panel, as the case may be, but nothing shall be construed to prevent the panel, or any officer designated by it, from

§ 269a.2 Party in interest.

§ 269a.3 Intervenor.

§ 269a.4 Investigator.

§ 269a.5 Hearing officer.

§ 269a.1 Party.
The term Party means any person, employee, group of employees, labor organization, or bank as defined in §269.2 of this chapter (a) filing a charge, petition, application, or request pursuant to these rules and regulations, (b) named as a party in a charge, complaint, petition, application, or request, or (c) whose intervention has been permitted or directed by the investigator, the hearing officer, or the panel, as the case may be, but nothing shall be construed to prevent the panel, or any officer designated by it, from
limiting any party’s participation in the proceedings to the extent of his interest as determined by the investigator, hearing officer, or panel.

§ 269a.2 Party in interest.

The term party in interest means any person, employee, group of employees, labor organization, or bank that will be or is directly affected by the resolution of any charge, complaint, petition, application, or request presented to or being considered by the panel or its designated officers. Any (a) labor organization (not a charging party nor a charged party) attempting to organize the employees of a bank or that is or was recently a party to a collective bargaining agreement with a bank named as a party in a charge, complaint, petition, application, or request, or (b) bank (not a charging party nor a charged party) that acts as the employer of any person named in a charge, complaint, petition, or request shall be deemed to be also a party in interest and shall be entitled to notification and service of all relevant procedures and documents.

§ 269a.3 Intervenor.

The term intervenor means the party in a proceeding whose intervention has been permitted or directed by the panel or its designated officer.

§ 269a.4 Investigator.

The term investigator means the officer designated by the panel to investigate and determine whether or not a complainant has established a prima facie case, as defined in §269b.210 of this subchapter.

§ 269a.5 Hearing officer.

The term hearing officer means the officer designated by the panel to conduct hearings pursuant to §269b.420 et seq. of this subchapter and whose duties and power are enumerated in §269b.442 of this subchapter.

§ 269b.110 Charges.

A charge that any bank or labor organization, or agents or representatives of a bank or labor organization, has engaged in or is engaging in any act prohibited under § 269.6 of the policy or has failed to take any action required by § 269.6 of the policy may be filed by any party in interest, or its representative, within 60 days after the alleged violations or within 60 days after the charging party has become or should have become aware of the alleged violation.

§ 269b.111 Filing of charges.

Any charge pursuant to § 269b.110 shall be in writing and signed. An original and three copies of such charge, together with one copy for each charged party named, shall be transmitted to the Secretary of the Federal Reserve System Labor Relations Panel, 20th Street and Constitution Avenue NW., Washington, DC 20551. Within 5 days after receipt of a properly filed charge that meets the formal requirements set forth in § 269b.112, the Secretary will cause a copy of such charge to be served on each party against whom the charge is made and upon all other potential parties in interest.

§ 269b.112 Contents of the charge.

A charge shall contain the following:

(a) The full name, address, and telephone number of the person, bank, or labor organization making the charge (hereinafter referred to as the charging party) and of the person signing the charge who shall state also his relation to or his capacity with the complainant. Where discrimination is alleged, all known discriminatees shall be named;

(b) The name, address, and telephone number of the bank or labor organization against whom the charge is made (hereinafter referred to as the respondent) and of any parties in interest;

(c) A clear and concise statement of the facts constituting the alleged unfair labor practice, including the time and place of occurrence of the particular acts, and a statement of the portion or portions of the policy alleged to have been violated. A charge shall not incorporate by reference affidavits or other documents submitted in support of the charge;

(d) A statement of the relief sought;

(e) A statement of any other remedies invoked for the redress of the alleged violations of the policy and the results, if any, of their invocation. If the issue in such charge is subject to an established grievance procedure, the complainant must irrevocably elect, prior to the completion of the first applicable step of the grievance procedure, whether he will invoke the grievance procedure or whether he will invoke the unfair labor practice procedures of the panel. A charge which is withdrawn or rejected by the panel as defective prior to the institution of any formal proceedings by the panel shall not prejudice the filing of a grievance on the same matter, unless the parties otherwise so provide;

(f) A declaration by the person signing the charge, that its contents are true and correct to the best of his knowledge and belief, such declaration to be subject to applicable provisions of the Federal Criminal Code (18 U.S.C. 1001).

§ 269b.113 Withdrawal or settlement.

A charge may be withdrawn or settlement of the matter may be reached without consent of the panel at any time. In connection with any such settlement the parties in interest shall prepare and sign a settlement agreement which shall record that the settlement is mutually satisfactory, shall stipulate any occurrences which constituted unfair labor practices and shall set forth the terms of the settlement.

§ 269b.120 Answer to a charge.

The respondent shall file an answer to the charge with the Secretary of the panel within 15 days after service of the charge. Upon application and for good cause shown, the panel may extend the time within which the answer
shall be filed. One copy of the answer shall be served on each party with proof of service furnished to the Secretary, and the original, which shall be signed, and four copies shall be filed with the Secretary.

§ 269b.121 Contents of answer.

The answer shall contain:

(a) A specific admission or denial, and where appropriate, explanation thereof; or if the respondent is without knowledge of the allegation, he shall so state and such statement shall operate as a denial. Admissions or denials may be to all or part of an allegation but shall be responsive to the substance of the allegation;

(b) A specified, detailed statement of any affirmative defense;

(c) A clear and concise statement of the facts and matters of law relied upon constituting the grounds of defense.

Any allegation of the charge not denied in the answer may be deemed admitted and may be so found by the panel.

PRELIMINARY INVESTIGATION

§ 269b.210 Referral to National Center for Dispute Settlement.

(a) Within 5 days after the answer to the charge has been or should have been filed, the panel may refer the matter, accompanied by a general or particularized request, to the National Center for Dispute Settlement of the American Arbitration Association (hereinafter referred to as the Center) to make an investigation and to determine whether the charging party has established a prima facie case.

(b) For the purposes of this part, a prima facie case means a case where allegations of an unfair labor practice that have been presented give reasonable cause to believe that such practice may have occurred, but where evidentiary proceedings are necessary for determination of whether the allegations are substantiated.

(c) The Center may use its own personnel or may hire individuals on a contract basis to conduct such investigations. The panel may consolidate or sever proceedings conducted pursuant to this part.

(d) Any party may request the Center or other appointing authority to withdraw appointment of the investigator within 3 days after designation on the basis of previously demonstrated personal bias, conflict of interest, or prejudice. Such a request shall set forth in detail the matter alleged to constitute grounds for disqualification. Denial of a request by the Center or other appointing authority shall be substantiated in writing and transmitted to the requesting party, and shall be submitted to the panel together with the complete report of the investigator required in §269b.240(b).

§ 269b.220 Priority; acceleration of proceedings.

(a) A charge of “refusal to bargain” or a charge that, if sustained, would require the setting aside of an election or the conduct of a new election shall be given priority.

(b) The parties, individually or jointly, may petition the panel at any time to invoke immediately the formal hearing procedures set forth in §269b.410. They may also petition the panel to entertain the matter itself without prior investigation and/or without the formal hearing procedure set forth in §269b.410. The panel is empowered also on its own motion to so accelerate disposition of the case.

(c) Before accelerating a case the panel may utilize whatever proceedings it may deem appropriate and timely to allow parties in interest to comment on the proposed course of action.

§ 269b.230 Assessment of costs; posting of bond.

(a) The panel shall normally bear the costs of an investigation conducted pursuant to §269b.210, but the panel may require that the charging party, the respondent, and/or other parties in interest or intervenors, or several of them, shall bear a portion or all of the costs therefor. With respect to each case where an investigation is directed by the panel, the charging party may, in the discretion of the panel, be required to file a cost bond, or equivalent security, of $500, unless the panel fixes a different amount.

(b) Among the circumstances that may be the basis for payment of costs
by other than the panel are cases where a clearly spurious charge has been filed or where the filing of a charge was necessary to redress the respondent’s flagrant misconduct.

(c) The bond or equivalent security shall be to secure the payment of the costs of the investigation as may be assessed by the panel. In those cases where the panel does not assess such costs, the bond posted and the cost thereof shall be reimbursed to the charging party. The panel may require also the posting of a cost bond by the respondent or other party to the proceeding, who shall be entitled to reimbursement of the cost of the bond in the event that no costs of investigation are assessed upon such party by the panel.

(d) Notification of the panel’s decision that a bond shall be required shall be effected by registered mail, such notice to advise of the amount of the bond required and the period by which it shall be posted.

(e) Absent good cause shown, failure of a party to file timely such cost bond or equivalent security may be ground for dismissal or other administrative sanctions deemed appropriate by the Panel.

§ 269b.240 The investigation.

(a) The purpose of the investigation is (1) to ascertain, analyze, and apply the relevant facts in order to determine whether or not formal proceedings are warranted and (2) to assist, by mediation and other appropriate means, the parties to reach a mutually satisfactory resolution of the issues as an alternative to the hearing process. In so doing, the investigator is not limited to the allegations set forth in the charge and may advise the charging party to amend his charge. In addition, he should adduce facts pertaining to the remedy as well as to the alleged violation. Investigation should also adduce facts pertaining to the jurisdiction of the panel and the timeliness of the charge. If the charge is untimely on its face, no investigation shall be required except to determine whether or not attending circumstances warrant waiving the time requirements, set forth in §269b.110. The investigator may request the appearance of parties and witnesses, may cause the production of relevant document, and may take or cause depositions to be taken.

(b) When the investigation has been completed, the Center shall issue a written determination whether the charging party has established a prima facie case, whether the charge was timely filed, and whether the charge is within the jurisdiction of the panel, and reasons therefor. This determination shall be served upon the panel and all parties. The panel shall receive also the complete report of the investigator.

Appeal from the Center’s determination

§ 269b.310 Appeal rights.

Where the investigator has found that a prima facie case does not exist, a party, including an intervenor but excluding the respondent or other parties having the same interest as the respondent, within 5 days after receiving the Center’s determination may petition the panel to set aside the determination and to cause formal proceedings, set forth in §269b.410, to be invoked. The panel may grant such petition only on grounds that the Center or its agents were arbitrary, capricious, or acted contrary to law or the policy, or that the investigator’s determination is clearly erroneous. The filing requirements for such a petition shall be the same as that for the filing of a charge, as set forth in §269b.111.

§ 269b.320 Proceedings before the panel.

The panel shall issue its decision within 15 days after the receipt of the petition provided for in §269b.310 or by the end of that period shall announce that it will require briefs by the parties. Such announcement shall specify the requirements as to contents of the briefs, and the time for submission, which shall vary to meet the circumstances of the matter appealed. The panel, at such time, may also require oral argument or the production of evidence or may so order oral argument and/or the production of evidence after examination of the briefs. The panel shall issue its final decision.
within 20 days after briefs have been filed, evidence has been produced, or oral argument has been conducted.

**FORMAL PROCEEDINGS**

§ 269b.410 Notice of hearing.

If formal proceedings are found to be needed under the above procedures, and if no satisfactory settlement has been reached within 5 days after finding that a prima facie case exists, the Secretary of the panel, unless there is cause for granting an extension of time, shall issue and cause to be served upon the parties a notice of hearing. The panel shall appoint, pursuant to §269b.420, a hearing officer to hold a hearing and issue a report to the panel containing findings of fact, conclusions of law, and recommendations including, where appropriate, remedial action to be taken and notices to be posted. The Secretary shall furnish to the hearing officer the investigator’s report and all other relevant information in the panel’s possession.

§ 269b.420 Designation of hearing officer.

(a) The panel, absent special circumstances, shall employ the center to select the hearing officer to conduct the hearing at a site most convenient to the parties and witnesses. The individual who performed the investigation, pursuant to §269b.210, shall be barred from acting as a hearing officer on the same matter, unless all parties in interest agree to his participation. The selection of the hearing officer, to the extent practicable, shall be done with the concurrence of the parties.

(b) Any party may request the hearing officer, at any time following his designation and before the filing of his decision, to withdraw on grounds of previously demonstrated personal bias, conflict of interest, or prejudice by filing with him promptly upon the discovery of the alleged facts a timely affidavit setting forth in detail the matters alleged to constitute grounds for disqualification. If, in the opinion of the hearing officer, such affidavit is filed with due diligence and is sufficient on its face, he shall forthwith disqualify himself and withdraw from the proceeding. If he does not so withdraw, he shall so rule upon the record, stating the grounds for his ruling and proceed with the hearing, or, if the hearing has closed, he shall proceed with the issuance of his decision, and his ruling shall be subject to the same review by the panel that is given to the rest of his decision.

(c) The costs of conducting the hearing and of the hearing officer shall be borne by the panel. Witness fees and expenses shall be paid by the party at whose instance the witnesses appear.

§ 269b.430 Contents of notice of hearing.

The notice of hearing shall include:

(a) A copy of the charge;

(b) A statement of the time of the hearing which shall be not less than 10 days after service of the notice of hearing, except in extraordinary circumstances. All charges involving a “refusal to bargain” allegation and all charges, if sustained, that would require the setting aside of an election, or the conducting of a new election shall be given first priority;

(c) A statement of the place and nature of hearing;

(d) A statement of the legal authority and jurisdiction under which the hearing is to be held;

(e) A reference to the particular section of the policy and rules and regulations of this chapter involved;

(f) A copy of the determination, if any, made causing the invocation of these formal proceedings.

§ 269b.440 Conduct of hearing.

(a) Hearing shall be public unless otherwise ordered by the hearing officer or the panel. An official reporter shall make the only official transcript of such proceedings.

(b) Copies of the official transcript will not be provided to the parties, but may be purchased by arrangement with the official reporter or with such costs as the panel may otherwise assess, or may be examined in the offices of the panel and/or the hearing officer subject to such conditions as the panel may prescribe.

(c) A charging party in asserting that an unfair labor practice has been committed within the meaning of the policy, shall have the burden of proving
§ 269b.442 Duties and powers of the hearing officer.

The hearing officer shall inquire fully into the facts as to whether the respondent has engaged or is engaging in an unfair labor practice as set forth in the charge or the amended charge. The hearing officer shall have authority, with respect to each case assigned to him, between the time he is designated and transfer of the case to the panel, subject to the rules and regulations in this subchapter, to:

(a) Grant requests for attendance of witnesses and production of documents;
(b) Rule upon petitions to quash requests made pursuant to paragraph (a) of this section;
(c) Call, examine, and cross-examine parties and witnesses as may be required for a full and true disclosure of the facts and to introduce into the record documentary or other relevant evidence; except that the participation of any party shall be limited to the extent permitted by the hearing officer. Five copies of such documentary evidence shall be submitted unless the hearing officer permits a reduced number for good cause shown.
(d) Rule upon offers of proof and receive relevant evidence;
(e) Take or cause depositions to be taken whenever the ends of justice would be served thereby;
(f) Limit lines of questioning or testimony which are repetitive, cumulative, or irrelevant;
(g) Regulate the course of the hearing and, if appropriate or necessary, exclude persons or counsel from the hearing for contemptuous conduct and strike all related testimony of witnesses refusing to answer any proper question;
(h) Hold such prehearing conferences as may be necessary to expedite proceedings and hold such other conferences for the settlement or simplification of the issues by consent of the parties or upon his own motion;
(i) Dispose of procedural requests, motions, or similar matters which shall be made part of the record of the proceeding, including motions referred to the hearing officer by the panel, and motions to amend pleadings, also to recommend dismissal of cases or portions thereof, and to order hearings reopened or, upon motion, consolidated prior to issuance of the hearing officer’s report and recommendations;
(j) Request the parties at any time during the hearing to state their respective positions concerning any issue.
in the case or theory in support thereof;
(k) Require the parties, if necessary, to file written briefs in support of their positions;
(l) Take any other action necessary under the foregoing and authorized by the rules and regulations in this subchapter.
In the event the hearing officer designated to conduct the hearing becomes unavailable, the panel may designate another hearing officer for the purpose of further hearing or issuance of a report and recommendation on the record as made, or both.

§ 269b.443 Motions before or after a hearing.

All motions (including motions for intervention), other than those made during a hearing, shall be made in writing to the Secretary of the panel, shall briefly state the relief sought, shall set forth the grounds for such motion, and shall be accompanied 3 days thereafter by proof of service on all parties. Answering statements, if any, must be served on all parties and the original thereof, together with two copies and statement of service, shall be filed with the Secretary within 5 days after service of the moving papers, unless the Secretary directs otherwise. Motions may be referred to the hearing officer whose ruling shall be made upon the record or the motion may be stayed until such time as the panel reviews the hearing officer’s report and recommendations.

§ 269b.444 Objection to conduct of hearing; other motions during hearing.

Any objection with respect to the conduct of the hearing, including any objection to the introduction of evidence, or any other motion during the course of the hearing, including a request to allow intervention, may be stated orally or in writing accompanied by a short statement of the grounds for such objection, and included in the record. No such objection shall be deemed waived by further participation in the hearing and such objection shall not stay the conduct of the hearing. Automatic exceptions will be allowed to all adverse rulings and shall be considered by the panel upon its review of the hearing officer’s report and recommendations, if exception to the ruling is included in a statement of exceptions submitted to the panel after the close of the hearing, subject to the requirements of §269b.520.

§ 269b.450 Submission of hearing officer’s report to the panel.

After the close of the hearing, and the receipt of briefs, if any, the hearing officer shall prepare a report and recommendations, containing findings of fact, conclusions of law, including judgments as to the credibility of witnesses where appropriate, and the reasons or basis therefor, and recommendations as to the disposition of the case, and, where appropriate, including the remedial action and notices to be posted. After he has caused his report and recommendations to be served promptly on all parties to the proceeding, he shall transfer the case to the panel including his report and recommendations and the complete record. Such submission shall be made within 20 days after the close of the hearing and the receipt of briefs, if any, unless otherwise extended by the panel. The record shall include the charge, notice of hearing, service sheet, motions, rulings, orders, official transcript of the hearing, stipulations, objections, depositions, documentary evidence, exhibits, and any briefs or other documents submitted to the parties.

Panel review of hearing officer’s report and recommended decision

§ 269b.510 Review by panel.

The panel shall review the report and recommendations of each hearing officer, the record of the hearing, and such other documents as enumerated in §269b.450, whether or not any party files an appeal, unless the parties file with the panel a settlement agreement within 10 days after service of the hearing officer’s report upon them. In the course of such review, the panel may require oral argument or written briefs on any relevant issue within such time limits as the panel may prescribe, and may reopen the record in any case and receive further evidence.
§ 269b.520 Exceptions to hearing officer's report.

(a) Any party may file with the panel exceptions to the hearing officer's report and recommendations, and any ruling contained therein, if made within 10 days after service of the report and recommendations. The Panel may, for good cause shown, extend the time for filing such exceptions upon written request, with copies served simultaneously on the other parties, received not later than 3 days before the date exceptions are due. Requests for oral argument will not be considered unless filed with exceptions.

(b) Any exception to a ruling, finding, conclusion, or recommendation which is not specifically urged shall be deemed to have been waived, although the panel may on its own motion rule upon any matter in the report and recommendations.

(c) Any exception which fails to comply with the following requirements may be disregarded:

(1) The exceptions shall set forth specifically the questions of procedure, fact, law, or policy to which exceptions are taken;

(2) The exceptions shall identify the part of the hearing officer's report to which objection is made;

(3) The exceptions shall designate by precise citation of page the portions of the record relied on, shall state the grounds for the exceptions, and shall include the citation of authorities unless set forth in a supporting brief.

(d) Any brief in support of exceptions shall contain no matter not included within the scope of the exceptions and shall contain in the order indicated, the following:

(1) A concise statement of the case containing all that is material to the consideration of the questions presented;

(2) A specification of the questions involved and to be argued;

(3) The argument, presenting clearly the points of fact and law relied on in support of the position taken on each question, with specific page reference to the transcript and the legal or other material relied on.

(e) Answering briefs to the exceptions, and cross-exceptions and supporting briefs will not be permitted without special leave of the panel. Requests for oral argument will not be considered unless accompanying such petition for special leave.

(f) Five copies of exceptions and briefs must be filed with the panel along with a statement of service of copies of the exceptions and supporting briefs upon all parties.

§ 269b.530 Briefs in support of the hearing officer's report.

Any party may file a brief in support of the hearing officer's report and recommendations subject to the same time limits and rules pertaining to filing exceptions and briefs in support thereof, as set forth in § 269b.520.

§ 269b.540 Action by the panel.

After considering the hearing officer's report and recommendations, the record, any other documents, any exceptions filed, and any oral argument permitted, the panel shall issue its written decision. Upon finding that the respondent is engaging in or has engaged in unfair labor practice, the panel shall order the respondent to cease and desist from such conduct and may require the respondent to take such affirmative corrective action as the panel deems appropriate to effectuate the Policy. Such action by the panel may include, but shall not be limited to, orders to provide back pay, provide reinstatement, set aside an election, bargain, and award recognition. Upon finding no violation of the policy, the panel shall dismiss the case. The panel's decision and order setting forth the remedial action, if any, required shall be conspicuously posted by the parties.

COMPLIANCE

§ 269b.610 Procedures.

Where remedial action is ordered or provided for in a settlement agreement, a report to the panel that such action has been taken and that compliance with the decision and orders of the panel has been effected shall be submitted within the period of time specified in the panel's decision. The panel is empowered to utilize whatever administrative procedures it deems necessary to ascertain compliance.
§ 269b.620 Action by panel.

In any case where it is found, after a hearing, that the respondent has failed to comply with the final decision and order of the panel, the panel shall be empowered to take whatever action may be appropriate and shall expect the full cooperation of the Board of Governors of the Federal Reserve System in obtaining such compliance. Among the actions that may be taken by the panel against a noncomplying respondent labor organization, after a show cause hearing, may be suspension of that labor organization’s checkoff privileges or recognition as exclusive bargaining representative for such period of time as determined by the panel.

GENERAL RULES

§ 269b.710 Rules to be liberally construed.

(a) Whenever the panel finds that unusual circumstances or good cause exist and that strict compliance with the terms of the rules and regulations in this subchapter will work an injustice or unfairness, it shall construe the rules and regulations in this subchapter liberally to prevent injustices and to effectuate the purposes of the policy.

(b) When an act is required or allowed to be done at or within a specified time, the panel may at any time, in its discretion, order the period altered where it shall be manifest that strict adherence will work surprise or injustice or interfere with the proper effectuation of the policy.

§ 269b.720 Computation of time for filing papers.

In computing any period of time prescribed by or allowed by the panel, the day of the act, event, or default after which the designated period of time begins to run, shall not be included. The last day of the period so computed is to be included, unless it is a Saturday, Sunday, or the applicable local legal holiday in which event the period shall run until the end of the next day which is neither a Saturday, Sunday, or legal holiday. When the period of time prescribed, or allowed, is seven days or less, intermediate Saturdays, Sundays, and legal holidays shall be excluded from the computations. When the rules and regulations in this subchapter require the filing of any paper, such document must be received by the panel or the officer or agent designated by it to receive such matter before the close of business of the last day of the time limit, if any, for such filing or extension of the time that may have been granted.

§ 269b.730 Number of copies; form.

Except as otherwise provided in the regulations in this subchapter, any documents or papers shall be filed with four copies in addition to the original. All matters filed shall be printed, typed, or otherwise legibly duplicated; carbon copies of typewritten matter will be accepted if they are clearly legible.

§ 269b.731 Signature.

The original of each document filed shall be signed by the party or by an attorney or representative of record for the party, or by an officer of the party and shall contain the address and telephone number of the person signing it.

§ 269b.740 Service of pleading and other paper; statement of service.

(a) Method of service. Notices of hearings, decisions, orders, and other papers may be served personally or by registered or certified mail or by telegraph.

(b) Upon whom served. Unless otherwise provided in the rules and regulations in this subchapter, all papers except complaints, petitions, and papers relating to requests for appearance or production of documents, shall be served upon all counsel of record and upon parties not represented by counsel or by their agents designated by them or by law and upon the panel, or its designated officers or agents, where appropriate. Service upon such counsel or representative shall constitute service upon the party, but a copy also shall be transmitted to the party.

(c) Proof of service. The party or person serving the papers or process shall submit simultaneously to the panel or its designated representative, or the individual conducting the proceeding, a written statement of such service.
Failure to file a statement of service shall not affect the validity of the service. Proof of service, except where otherwise provided, shall be required only if subsequent to the receipt of a statement of service a question is raised with respect to proper service.

§ 269b.750 Requests for appearance of witnesses and production of documents.

Parties may request appearance of witnesses and production of documents by filing application therefor, depending upon the stage of the proceedings at which the request is made, with the officer conducting the investigation or hearing, or with the panel. Such application shall name and identify the witnesses or documents sought and shall briefly state the need for such appearance or production. The officer with whom such request is filed shall rule upon each such request and the record of the proceeding shall contain a record of that ruling and the basis therefor. The record shall also contain a statement of reasons for any request for the appearance of witnesses or production of documents initiated by a presiding officer.
PART 270—OPEN MARKET OPERATIONS OF FEDERAL RESERVE BANKS

§ 270.1 Authority.

This part is issued by the Federal Open Market Committee (the “Committee”) pursuant to authority conferred upon it by sections 12A and 14 of the Federal Reserve Act (12 U.S.C. 263, 355).

§ 270.2 Definitions.

(a) The term obligations means Government securities, U.S. agency securities, bankers’ acceptances, bills of exchange, cable transfers, bonds, notes, warrants, debentures, and other obligations that Federal Reserve banks are authorized by law to purchase and sell.

(b) The term Government securities means direct obligations of the United States (i.e., U.S. bonds, notes, certificates of indebtedness, and Treasury bills) and obligations fully guaranteed as to principal and interest by the United States.

(c) The term U.S. agency securities means obligations that are direct obligations of, or are fully guaranteed as to principal and interest by, any agency of the United States.

(d) The term System Open Market Account means the obligations acquired pursuant to authorizations and directives issued by the Committee and held on behalf of all Federal Reserve banks.

§ 270.3 Governing principles.

As required by section 12A of the Federal Reserve Act, the time, character, and volume of all purchases and sales of obligations in the open market by Federal Reserve banks are governed with a view to accommodating commerce and business and with regard to their bearing upon the general credit situation of the country.

§ 270.4 Transactions in obligations.

(a) Each Federal Reserve bank shall engage in open market operations under section 14 of the Federal Reserve Act only in accordance with this part and with the authorizations and directives issued by the Committee from time to time, and no Reserve bank shall decline to engage in open market operations as directed by the Committee.

(b) Transactions for the System Open Market Account shall be executed by a Federal Reserve bank selected by the Committee. The participations of the several Federal Reserve banks in such account and in the profits and losses on transactions for the account shall be allocated in accordance with principles determined by the Committee from time to time.

(c) In accordance with such limitations, terms, and conditions as are prescribed by law and in authorizations and directives issued by the Committee, the Reserve bank selected by the Committee is authorized and directed—

(1) To buy and sell Government securities and U.S. agency securities in the open market for the System Open Market Account, and to exchange maturities of securities with the issuer;

(2) To buy and sell banker’s acceptances in the open market for its own account;

(3) To buy Government securities, U.S. agency securities, and banker’s acceptances of the kinds described above, under agreements for repurchase of such obligations, in the open market for its own account; and

(4) To buy and sell foreign currencies in the form of cable transfers in the
Federal Reserve System § 271.2

open market for the System Open Market Account and to maintain for such account reciprocal currency arrangements with foreign banks among those designated by the Board of Governors of the Federal Reserve System under §214.5 of this chapter (Regulation N).

(d) The Federal Reserve banks are authorized and directed to engage in such other operations as the Committee may from time to time determine to be reasonably necessary to the effective conduct of open market operations and the effectuation of open market policies.

PART 271—RULES REGARDING AVAILABILITY OF INFORMATION

Sec.
271.1 Authority and purpose.
271.2 Definitions.
271.3 Published information.
271.4 Records available for public inspection and copying.
271.5 Records available to the public on request.
271.6 Processing requests.
271.7 Exemptions from disclosure.
271.8 Subpoenas.
271.9 Fee schedules; waiver of fees.

SOURCE: 62 FR 61218, Nov. 17, 1997, unless otherwise noted.

§ 271.1 Authority and purpose.

(a) Authority. This part is issued by the Federal Open Market Committee (the Committee) pursuant to the Freedom of Information Act, 5 U.S.C. 552, and also pursuant to the Committee’s authority under section 12A of the Federal Reserve Act, 12 U.S.C. 263, to issue regulations governing the conduct of its business.

(b) Purpose. This part sets forth the categories of information made available to the public and the procedures for obtaining documents and records.

§ 271.2 Definitions.

(a) Board means the Board of Governors of the Federal Reserve System established by the Federal Reserve Act of 1913 (38 Stat. 251).

(b) Commercial use request refers to a request from or on behalf of one who seeks information for a use or purpose that furthers the commercial, trade, or profit interests of the requester or the person on whose behalf the request is made.

(c) Direct costs mean those expenditures that the Committee actually incurs in searching for, reviewing, and duplicating documents in response to a request made under §271.5.

(d) Duplication refers to the process of making a copy of a document in response to a request for disclosure of records or for inspection of original records that contain exempt material or that otherwise cannot be inspected directly. Among others, such copies may take the form of paper, microform, audiovisual materials, or machine-readable documentation (e.g., magnetic tape or disk).

(e) Educational institution refers to a preschool, a public or private elementary or secondary school, or an institution of undergraduate higher education, graduate higher education, professional education, or an institution of vocational education that operates a program of scholarly research.

(f) Federal Reserve Bank means one of the district Banks authorized by the Federal Reserve Act, 12 U.S.C. 222, including any branch of any such Bank.

(g) Information of the Committee means all information coming into the possession of the Committee or of any member thereof or of any officer, employee, or agent of the Committee, the Board, or any Federal Reserve Bank, in the performance of duties for, or pursuant to the direction of, the Committee.

(h) Noncommercial scientific institution refers to an institution that is not operated on a “commercial” basis (as that term is used in this section) and which is operated solely for the purpose of conducting scientific research, the results of which are not intended to promote any particular product or industry.

(i) Records of the Committee includes rules, statements, decisions, minutes, memoranda, letters, reports, transcripts, accounts, charts, and other written material, as well as any materials in machine readable form that
§ 271.3 Published information.

(a) Federal Register. The Committee publishes in the Federal Register, in addition to this part:
(1) A description of its organization;
(2) Statements of the general course and method by which its functions are channeled and determined;
(3) Rules of procedure;
(4) Substantive rules of general applicability, and statements of general policy and interpretations of general applicability formulated and adopted by the Committee;
(5) Every amendment, revision, or repeal of the foregoing; and
(6) General notices of proposed rulemaking.

(b) Annual Report to Congress. Each annual report made to Congress by the Board includes a complete record of the actions taken by the Committee during the preceding year upon all matters of policy relating to open market operations, showing the reasons underlying the actions, and the votes taken.

(c) Other published information. From time to time, other information relating to open market operations of the Federal Reserve Banks is published in the Federal Reserve Bulletin, in the Board's annual report to Congress, and in announcements and statements released to the press. Copies of issues of the Bulletin and of annual reports of the Board may be obtained from the Publications Services of the Federal Reserve Board, 20th Street and Constitution Avenue, N.W., Washington, D.C. 20551 (pedestrian entrance is on C Street, N.W.). Subscription or other charges may apply.

§ 271.4 Records available for public inspection and copying.

(a) Types of records made available. Unless they were published promptly and made available for sale or without charge, certain records shall be made available for inspection and copying at the Board’s Freedom of Information Office pursuant to 5 U.S.C. 552(a)(2).

(b) Reading room procedures. (1) Information available under this section is available for inspection and copying, from 9:00 a.m. to 5:00 p.m. weekdays, at the Freedom of Information Office of the Board of Governors of the Federal Reserve System, 20th Street and Constitution Avenue, N.W., Washington, D.C. 20551 (the pedestrian entrance is on C Street, N.W.).

(2) The Committee may determine that certain classes of publicly available filings shall be made available for inspection and copying only at the Federal Reserve Bank where those records are maintained.

(c) Electronic records. Information available under this section that was created on or after November 1, 1996, shall also be available on the Board’s Web site, found at http://www.federalreserve.gov.

(d) Privacy protection. The Committee may delete identifying details from any record to prevent a clearly unwarranted invasion of personal privacy.

§ 271.5 Records available to the public on request.

(a) Types of records made available. All records of the Committee that are not available under §271.3 and 271.4 shall be made available upon request, pursuant to the procedures in this section and the exceptions in §271.7.

(b) Procedures for requesting records. (1) A request for identifiable records shall reasonably describe the records in a way that enables the Committee’s staff to identify and produce the records with reasonable effort and without unduly burdening or significantly interfering with any of the Committee’s operations.

(2) The request shall be submitted in writing to the Secretary of the Committee, Federal Open Market Committee, 20th & C Street, N.W., Washington, D.C. 20551; or sent by facsimile to the Secretary of the Committee, (202) 452-2921. The request shall be clearly marked FREEDOM OF INFORMATION ACT REQUEST.

(c) Contents of request. The request shall contain the following information:

(1) The name and address of the requester, and the telephone number at which the requester can be reached during normal business hours;

(2) Whether the requested information is intended for commercial use, and whether the requester represents an educational or noncommercial scientific institution, or news media;

(3) A statement agreeing to pay the applicable fees, or a statement identifying any fee limitation desired, or a request for a waiver or reduction of fees that satisfies §271.9(f).

(d) Defective requests. The Committee need not accept or process a request that does not reasonably describe the records requested or that does not otherwise comply with the requirements of this section. The Committee may return a defective request, specifying the deficiency. The requester may submit a corrected request, which will be treated as a new request.

§ 271.6 Processing requests.

(a) Receipt of requests. The date of receipt for any request, including one that is addressed incorrectly or that is referred to the Committee by another agency or by a Federal Reserve Bank, is the date the Secretary of the Committee actually receives the request.

(b) Priority of responses. The Committee shall normally process requests in the order they are received. However, in the Secretary’s discretion, or upon a court order in a matter to which the Committee is a party, a particular request may be processed out of turn.

(c) Expedited processing. Where a person requesting expedited access to records has demonstrated a compelling need for the records, or where the Committee has determined to expedite the response, the Committee shall process the request as soon as practicable.

(1) To demonstrate a compelling need for expedited processing, the requester shall provide a certified statement, a sample of which may be obtained from the Board’s Freedom of Information Office. The statement, certified to be true and correct to the best of the requester’s knowledge and belief, shall demonstrate that:

(i) The failure to obtain the records on an expedited basis could reasonably
be expected to pose an imminent threat to the life or physical safety of an individual; or
(ii) The requester is a representative of the news media, as defined in §271.2, and there is urgency to inform the public concerning actual or alleged Committee activity.

(2) In response to a request for expedited processing, the Secretary of the Committee shall notify a requester of the determination within ten working days of receipt of the request. In exceptional situations, the Secretary of the Committee has the discretion to waive the formality of certification. If the Secretary of the Committee denies a request for expedited processing, the requester may file an appeal pursuant to the procedures set forth in paragraph (i) of this section, and the Committee shall respond to the appeal within ten working days after the appeal was received by the Committee.

(d) Time limits. The time for response to requests shall be 20 working days, except:
(1) In the case of expedited treatment under paragraph (c) of this section;
(2) Where the running of such time is suspended for payment of fees pursuant to §271.9(b)(2);
(3) In unusual circumstances, as defined in 5 U.S.C. 552(a)(6)(B). In such circumstances, the time limit may be extended for a period of time not to exceed:
   (i) 10 working days as provided by written notice to the requester, setting forth the reasons for the extension and the date on which a determination is expected to be dispatched; or
   (ii) Such alternative time period as mutually agreed to by the Secretary of the Committee and the requester when the Secretary of the Committee notifies the requester that the request cannot be processed in the specified time limit.

(e) Response to request. In response to a request that satisfies §271.5, an appropriate search shall be conducted of records of the Committee in existence on the date of receipt of the request, and a review made of any responsive information located. The Secretary shall notify the requester of:
(1) The Committee’s determination of the request;
(2) The reasons for the determination;
(3) The amount of information withheld;
(4) The right of the requester to appeal to the Committee any denial or partial denial, as specified in paragraph (i) of this section; and
(5) In the case of a denial of a request, the name and title or position of the person responsible for the denial.

(f) Referral to another agency. To the extent a request covers documents that were created by, obtained from, or classified by another agency, the Committee may refer the request to that agency for a response and inform the requester promptly of the referral.

(g) Providing responsive records. (1) Copies of requested records shall be sent to the requester by regular U.S. mail to the address indicated in the request, unless the requester elects to take delivery of the documents at the Board’s Freedom of Information Office or makes other acceptable arrangements, or the Committee deems it appropriate to send the documents by another means.
(2) The Committee shall provide a copy of the record in any form or format requested if the record is readily reproducible by the Committee in that form or format, but the Committee need not provide more than one copy of any record to a requester.

(h) Appeal of denial of request. Any person denied access to Committee records requested under §271.5 may file a written appeal with the Committee, as follows:
(1) The appeal shall prominently display the phrase FREEDOM OF INFORMATION ACT APPEAL on the first page, and shall be addressed to the Secretary of the Committee, Federal Open Market Committee, 20th and C Street, N.W., Washington, D.C. 20551; or sent by facsimile to the Secretary of the Committee, (202) 452–2921.
(2) An initial request for records may not be combined in the same letter with an appeal.
(3) The Committee, or such member of the Committee as is delegated the authority, shall make a determination regarding any appeal within 20 working days of actual receipt of the appeal by the Secretary, and the determination
§ 271.7 Exemptions from disclosure.

(a) Types of records exempt from disclosure. Pursuant to 5 U.S.C. 552(b), the following records of the Committee are exempt from disclosure under this part:

(1) National defense. Any information that is specifically authorized under criteria established by an Executive Order to be kept secret in the interest of national defense or foreign policy and is in fact properly classified pursuant to the Executive Order.

(2) Internal personnel rules and practices. Any information related solely to the internal personnel rules and practices of the Board.

(3) Statutory exemption. Any information specifically exempted from disclosure by statute (other than 5 U.S.C. 552b), if the statute:

(i) Requires that the matters be withheld from the public in such a manner as to leave no discretion on the issue; or

(ii) Establishes particular criteria for withholding or refers to particular types of matters to be withheld.

(4) Trade secrets; commercial or financial information. Any matter that is a trade secret or that constitutes commercial or financial information obtained from a person and that is privileged or confidential.

(5) Inter- or intra-agency memorandums. Information contained in inter- or intra-agency memorandums or letters that would not be available by law to a party (other than an agency) in litigation with an agency, including, but not limited to:

(i) Memorandums;

(ii) Reports;

(iii) Other documents prepared by the staffs of the Committee, Board or Federal Reserve Banks; and

(iv) Records of deliberations of the Committee and of discussions at meetings of the Committee or its staff.

(6) Personnel and medical files. Any information contained in personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

(7) Information compiled for law enforcement purposes. Any records or information compiled for law enforcement purposes, to the extent permitted under 5 U.S.C. 552(b)(7).

(b) Examination, inspection, operating, or condition reports, and confidential supervisory information. Any matter that is contained in or related to examination, operating, or condition reports prepared by, on behalf of, or for the use of an agency responsible for the regulation or supervision of financial institutions, including a state financial institution supervisory agency.

(c) Segregation of nonexempt information. The Committee shall provide any reasonably segregable portion of a record that is requested after deleting those portions that are exempt under this section.

(d) Discretionary release. Except where disclosure is expressly prohibited by statute, regulation, or order, the Committee may authorize the release of records that are exempt from mandatory disclosure whenever the Committee or designated Committee members determines that such disclosure would be in the public interest.

(e) Delayed release. Publication in the Federal Register or availability to the public of certain information may be delayed if immediate disclosure would likely:

(1) Interfere with accomplishing the objectives of the Committee in the discharge of its statutory functions;

(2) Interfere with the orderly conduct of the foreign affairs of the United States;

(3) Permit speculators or others to gain unfair profits or other unfair advantages by speculative trading in securities or otherwise;

(4) Result in unnecessary or unwarranted disturbances in the securities markets;

(5) Interfere with the orderly execution of the objectives or policies of other government agencies; or

(6) Impair the ability to negotiate any contract or otherwise harm the commercial or financial interest of the United States, the Committee, the Board, any Federal Reserve Bank, or any department or agency of the United States.
§ 271.8 Subpoenas.

(a) Advice by person served. If any person, whether or not an officer or employee of the Committee, of the Board of Governors of the Federal Reserve System, or of a Federal Reserve Bank, has information of the Committee that may not be disclosed by reason of § 271.7 and in connection therewith is served with a subpoena, order, or other process requiring the person’s personal attendance as a witness or the production of documents or information upon any proceeding, the person should promptly inform the Secretary of the Committee of such service and of all relevant facts, including the documents and information requested and any facts that may be of assistance in determining whether such documents or information should be made available; and the person should take action at the appropriate time to inform the court or tribunal that issued the process, and the attorney for the party at whose instance the process was issued, if known, of the substance of this part.

(b) Appearance by person served. Except as disclosure of the relevant information is authorized pursuant to this part, any person who has information of the Committee and is required to respond to a subpoena or other legal process shall attend at the time and place therein mentioned and decline to disclose such information or give any testimony with respect thereto, basing such refusal upon this part. If, notwithstanding, the court or other body orders the disclosure of such information, or the giving of such testimony, the person having such information of the Committee shall continue to decline to disclose such information and shall promptly report the facts to the Committee for such action as the Committee may deem appropriate.

§ 271.9 Fee schedules; waiver of fees.

(a) Fee schedules. The fees applicable to a request for records pursuant to §§ 271.4 and 271.5 are set forth in appendix A to this section. These fees cover only the full allowable direct costs of search, duplication, and review. No fees will be charged where the average cost of collecting the fee (calculated at $5.00) exceeds the amount of the fee.

(b) Payment procedures. The Secretary may assume that a person requesting records pursuant to § 271.5 will pay the applicable fees, unless the request includes a limitation on fees to be paid or seeks a waiver or reduction of fees pursuant to paragraph (f) of this section.

(1) Advance notification of fees. If the estimated charges are likely to exceed $100, the Secretary of the Committee shall notify the requester of the estimated amount, unless the requester has indicated a willingness to pay fees as high as those anticipated. Upon receipt of such notice, the requester may confer with the Secretary to reformulate the request to lower the costs.

(2) Advance payment. The Secretary may require advance payment of any fee estimated to exceed $350. The Secretary may also require full payment in advance where a requester has previously failed to pay a fee in a timely fashion. The time period for responding to requests under § 271.6(d), and the processing of the request shall be suspended until the Secretary receives the required payment.

(3) Late charges. The Secretary may assess interest charges when fee payment is not made within 30 days of the date on which the billing was sent. Interest is at the rate prescribed in 31 U.S.C. 3717 and accrues from the date of the billing.

(c) Categories of uses. The fees assessed depend upon the intended use for the records requested. In determining which category is appropriate, the Secretary shall look to the intended use set forth in the request for records. Where a requester’s description of the
use is insufficient to make a determination, the Secretary may seek additional clarification before categorizing the request.

(1) Commercial use. The fees for search, duplication, and review apply when records are requested for commercial use.

(2) Educational, research, or media use. The fees for duplication apply when records are not sought for commercial use, and the requester is a representative of the news media or an educational or noncommercial scientific institution, whose purpose is scholarly or scientific research. The first 100 pages of duplication, however, will be provided free.

(3) All other uses. For all other requests, the fees for document search and duplication apply. The first two hours of search time and the first 100 pages of duplication, however, will be provided free.

(d) Nonproductive search. Fees for search and review may be charged even if no responsive documents are located or if the request is denied.

(e) Aggregated requests. A requester may not file multiple requests at the same time, solely in order to avoid payment of fees. If the Secretary reasonably believes that a requester is separating a request into a series of requests for the purpose of evading the assessment of fees, the Secretary may aggregate any such requests and charge accordingly. It is considered reasonable for the Secretary to presume that multiple requests of this type made within a 30-day period have been made to avoid fees.

(f) Waiver or reduction of fees. A request for a waiver or reduction of fees shall be included with the request for records to which it pertains. If a waiver is requested and the requester has not indicated in writing an agreement to pay the applicable fees if the waiver request is denied, the time for response to the request for documents, as set forth in §271.6(d), shall not begin until a determination has been made on the request for a waiver or reduction of fees.

(1) Standards for determining waiver or reduction. The Secretary shall grant a waiver or reduction of fees where it is determined both that disclosure of the information is in the public interest because it is likely to contribute significantly to public understanding of the operation or activities of the government, and that the disclosure of information is not primarily in the commercial interest of the requester. In making this determination, the following factors shall be considered:

(i) Whether the subject of the records concerns the operations or activities of the government;
(ii) Whether disclosure of the information is likely to contribute significantly to public understanding of government operations or activities;
(iii) Whether the requester has the intention and ability to disseminate the information to the public;
(iv) Whether the information is already in the public domain;
(v) Whether the requester has a commercial interest that would be furthered by the disclosure; and, if so,
(vi) Whether the magnitude of the identified commercial interest of the requester is sufficiently large, in comparison with the public interest in disclosure, that disclosure is primarily in the commercial interest of the requester.

(2) Contents of request for waiver. A request for a waiver or reduction of fees shall include:

(i) A clear statement of the requester's interest in the documents;
(ii) The use proposed for the documents and whether the requester will derive income or other benefit for such use;
(iii) A statement of how the public will benefit from such use and from the Committee's release of the documents;
(iv) A description of the method by which the information will be disseminated to the public; and
(v) If specialized use of the information is contemplated, a statement of the requester's qualifications that are relevant to that use.

(3) Burden of proof. The burden shall be on the requester to present evidence or information in support of a request for a waiver or reduction of fees.

(4) Determination by Secretary. The Secretary shall make a determination
on the request for a waiver or reduction of fees and shall notify the requester accordingly. A denial may be appealed to the Committee in accordance with §271.6(h).

(g) Employee requests. In connection with any request by an employee, former employee, or applicant for employment, for records for use in prosecuting a grievance or complaint of discrimination against the Committee, fees shall be waived where the total charges (including charges for information provided under the Privacy Act of 1974 (5 U.S.C. 552a) are $50 or less; but the Secretary may waive fees in excess of that amount.

(h) Special services. The Secretary may agree to provide, and set fees to recover the costs of, special services not covered by the Freedom of Information Act, such as certifying records or information and sending records by special methods such as express mail or overnight delivery.

APPENDIX A TO §271.9—FREEDOM OF INFORMATION FEE SCHEDULE

Duplication:
- Photocopy, per standard page ................................................................. $0.10
- Paper copies of microfiche, per frame .................................................... $0.05
- Duplicate microfiche, per microfiche ...................................................... $0.35

Search and review:
- Clerical/Technical, hourly rate .............................................................. $20.00
- Professional/Supervisory, hourly rate .................................................... $30.00
- Manager/Senior Professional, hourly rate ............................................. $65.00

Computer search and production:

- Computer Output (PC), per minute .................................................. $0.10
- Computer Output (mainframe) .......................................................... actual cost

PART 272—RULES OF PROCEDURE

Sec.
272.1 Authority.
272.2 Functions of the Committee.
272.3 Meetings.
272.4 Committee actions.
272.5 Notice and public procedure.

AUTHORITY: 5 U.S.C. 552.

SOURCE: 38 FR 2754, Jan. 30, 1973, unless otherwise noted.

§ 272.1 Authority.

This part is issued by the Federal Open Market Committee (the Committee) pursuant to the requirement of section 552 of title 5 of the United States Code that every agency shall publish in the FEDERAL REGISTER its rules of procedure.

§ 272.2 Functions of the Committee.

The procedures followed by the Committee are designed to facilitate the effective performance of the Committee’s statutory functions with respect to the regulation and direction of open market operations conducted by the Federal Reserve banks and with respect to certain direct transactions between the Reserve banks and the United States. In determining the policies to be followed in such operations, the Committee considers information regarding business and credit conditions and domestic and international economic and financial developments, and other pertinent information gathered and submitted by its staff and the staffs of the Board of Governors of the Federal Reserve System (the Board) and the Federal Reserve banks. Against the background of such information, the Committee takes actions from time-to-time to regulate and direct the open market operations of the Reserve banks. Such policy actions ordinarily are taken through the adoption and transmission to the Federal Reserve banks of regulations, authorizations, and directives.
§ 272.3 Meetings.

(a) Place and frequency. The Committee meets in Washington, DC, at least four times each year and oftener if deemed necessary. Meetings are held upon the call of the Chairman of the Board or at the request of any three members of the Committee. Notices of calls by the Chairman of the Board to other members are given by the Secretary of the Committee in writing, by telephone, or electronic means. Requests of any three members for the calling of a meeting shall state the time therefor and shall be filed in writing, by telephone, or electronic means with the Secretary who shall forthwith notify all members of the Committee in writing, by telephone, or electronic means. When the Secretary has sent notices to all members of the Committee that a meeting has been requested by three members and of the time therefor, a meeting is deemed to have been called. If, in the judgment of the Chairman, circumstances require that a meeting be called at such short notice that one or more members cannot be present in person, such members may participate in the meeting by telephone conference arrangements or by electronic means.

(b) Alternates. Whenever any member of the Committee representing Federal Reserve banks shall find that the member will be unable to attend a meeting of the Committee, the member shall promptly notify the member’s alternate and the Secretary of the Committee in writing, by telephone, or electronic means, and upon receipt of such notice such alternate shall advise the Secretary whether the alternate will attend such meeting.

(c) Quorum. Seven members constitute a quorum of the Committee for purposes of transacting business except that, if there are fewer than seven members in office, then the number of members in office constitute a quorum. For purposes of this paragraph (c), members of the Committee include alternates acting in the absence of members. Less than a quorum may adjourn a meeting of the Committee from time to time until a quorum is in attendance.

(d) Attendance at meetings. Attendance at Committee meetings is restricted to members and alternate members of the Committee, the Presidents of Federal Reserve Banks who are not at the time members or alternates, staff officers of the Committee, the Manager, and such other advisers as the Committee may invite from time to time.

(e) Meeting agendas. The Secretary, in consultation with the Chairman, prepares an agenda of matters to be discussed at each meeting and the Secretary transmits the agenda to the members of the Committee within a reasonable time in advance of such meeting. In general, the agendas include reports by the Manager on open market operations since the previous meeting, and ratification by the Committee of such operations; reports by Economists on, and Committee discussion of, the economic and financial situation and outlook; Committee discussion of monetary policy and action with respect thereto; and such other matters as may be considered necessary.

§ 272.4 Committee actions.

(a) Actions at meetings. Actions are taken at meetings of the Committee except as described below.

(b) Actions between meetings. Special circumstances may make it desirable in the public interest for Committee members to consider an action to modify an outstanding Committee authorization or directive at a time when it is not feasible to call a meeting. Whenever, in the judgment of the Chairman, such circumstances have arisen, the relevant information and recommendations for action are transmitted to the members by the Secretary, and the members communicate their votes to the Secretary. If the action is approved by a majority of the members, advice to that effect is promptly given by the Secretary to the members of the Committee and to the Reserve bank selected to execute transactions for the System Open Market Account. All communications of recommended actions and votes under this paragraph shall be in writing, by telephone, or
§ 272.5 Notice and public procedure.

There ordinarily is no published notice of proposed action by the Committee or public procedure thereon, as described in section 553 of title 5 of the United States Code, because such notice and procedure are impracticable, unnecessary, or contrary to the public interest.

PART 281—STATEMENTS OF POLICY

§ 281.1 Policy regarding the Government in the Sunshine Act.

On September 13, 1976, there was enacted into law the Government in the Sunshine Act, Pub. L. No. 94–409, 90 Stat. 1241 ("Sunshine Act"), established for the purpose of providing the public with the "fullest practicable information regarding the decision-making processes of the Federal Government * * * while protecting the rights of individuals and the ability of the Government to carry out its responsibilities."1 The Sunshine Act applies only to those Federal agencies that are defined in section 552(e) of Title 5 of the United States Code and "headed by a collegial body composed of two or more individual members, a majority of whom are appointed to such position by the President with the advice and consent of the Senate, and any subdivision thereof authorized to act on behalf of the agency."2

The Federal Open Market Committee ("FOMC") is a separate and independent statutory body within the Federal Reserve System. In no respect is it an agent or "subdivision" of the Board of Governors of the Federal Reserve System ("Board of Governors"). It was originally established by the Banking Act of 1933 and restructured in its present form by the Banking Act of 1935 and subsequent legislation in 1942 (generally see 12 U.S.C. 263(a)). The FOMC's membership is composed of the seven members of the Board of Governors and five representatives of the Federal Reserve Banks who are selected annually in accordance with the procedures set forth in Section 12A of the Federal Reserve Act, 12 U.S.C. 263(a). Members of the Board of Governors serve in an ex officio capacity on the FOMC by reason of their appointment as Members of the Board of Governors, not as a result of an appointment "to such position" (the FOMC) by the President. Representatives of the Reserve Banks serve on the FOMC not as a result of an appointment "to such position" by the President, but rather by virtue of their positions with the

§ 272.5 Notice and public procedure.

There ordinarily is no published notice of proposed action by the Committee or public procedure thereon, as described in section 553 of title 5 of the United States Code, because such notice and procedure are impracticable, unnecessary, or contrary to the public interest.

PART 281—STATEMENTS OF POLICY

§ 281.1 Policy regarding the Government in the Sunshine Act.

On September 13, 1976, there was enacted into law the Government in the Sunshine Act, Pub. L. No. 94–409, 90 Stat. 1241 ("Sunshine Act"), established for the purpose of providing the public with the "fullest practicable information regarding the decision-making processes of the Federal Government * * * while protecting the rights of individuals and the ability of the Government to carry out its responsibilities."1 The Sunshine Act applies only to those Federal agencies that are defined in section 552(e) of Title 5 of the United States Code and "headed by a collegial body composed of two or more individual members, a majority of whom are appointed to such position by the President with the advice and consent of the Senate, and any subdivision thereof authorized to act on behalf of the agency."2

The Federal Open Market Committee ("FOMC") is a separate and independent statutory body within the Federal Reserve System. In no respect is it an agent or "subdivision" of the Board of Governors of the Federal Reserve System ("Board of Governors"). It was originally established by the Banking Act of 1933 and restructured in its present form by the Banking Act of 1935 and subsequent legislation in 1942 (generally see 12 U.S.C. 263(a)). The FOMC's membership is composed of the seven members of the Board of Governors and five representatives of the Federal Reserve Banks who are selected annually in accordance with the procedures set forth in Section 12A of the Federal Reserve Act, 12 U.S.C. 263(a). Members of the Board of Governors serve in an ex officio capacity on the FOMC by reason of their appointment as Members of the Board of Governors, not as a result of an appointment "to such position" (the FOMC) by the President. Representatives of the Reserve Banks serve on the FOMC not as a result of an appointment "to such position" by the President, but rather by virtue of their positions with the

Reserve Banks and their selection pursuant to Section 12A of the Federal Reserve Act. It is clear therefore that the FOMC does not fall within the scope of an “agency” or “subdivision” as defined in the Sunshine Act and consequently is not subject to the provisions of that Act.

As explained below, the Act would not require the FOMC to hold its meetings in open session even if the FOMC were covered by the Act. However, despite the conclusion reached that the Sunshine Act does not apply to the FOMC, the FOMC has determined that its procedures and timing of public disclosure already are conducted in accordance with the spirit of the Sunshine Act, as that Act would apply to deliberations of the nature engaged in by the FOMC.

In the foregoing regard, the FOMC has noted that while the Act calls generally for open meetings of multi-member Federal agencies, 10 specific exemptions from the open meeting requirement are provided to assure the ability of the Government to carry out its responsibilities. Among the exemptions provided is that which authorizes any agency operating under the Act to conduct closed meetings where the subject of a meeting involves information “the premature disclosure of which would—in the case of an agency which regulates currencies, securities, commodities, or financial institutions, be likely to lead to significant financial speculation in currencies, securities, or commodities.”

As to meetings closed under such exemption, the Act requires the maintenance of either a transcript, electronic recording or minutes and sets forth specified, detailed requirements as to the contents and timing of disclosure of certain portions or all of such minutes. The Act permits the withholding from the public of the minutes where disclosure would be likely to produce adverse consequences of the nature described in the relevant exemptions.

The FOMC has reviewed the agenda of its monthly meetings for the past three years and has determined that all such meetings could have been closed pursuant to the exemption dealing with financial speculation or other exemptions set forth in the Sunshine Act. The FOMC has further determined that virtually all of its substantive deliberations could have been preserved pursuant to the Act’s minutes requirements and that such minutes could similarly have been protected against premature disclosure under the provisions of the Act.

The FOMC’s deliberations are currently reported by means of a document entitled “Record of Policy Actions” which is released to the public approximately one month after the meeting to which it relates. The Record of Policy Actions complies with the Act’s minutes requirements in that it contains a full and accurate report of all matters of policy discussed and views presented, clearly sets forth all policy actions taken by the FOMC and the reasons therefor, and includes the votes by individual members on each policy action. The timing of release of the Record of Policy Actions is fully consistent with the Act’s provisions assuring against premature release of any item of discussion in an agency’s minutes that contains information of a sensitive financial nature. In fact, by releasing the comprehensive Record of Policy Actions to the public approximately a month after each meeting, the FOMC exceeds the publication requirements that would be mandated by the letter of the Sunshine Act.

Recognizing the Congressional purpose underlying the enactment of the Sunshine Act, the FOMC has determined to continue its current practice and timing of public disclosures in the conviction that its operations thus conducted are consistent with the intent and spirit of the Sunshine Act.
