

National Park Service, Interior

§51.51

preference or any other form of entitlement of any nature to a new concession contract, except in accordance with this part or in accordance with 36 CFR part 13.

§51.50 Does the existence of a preferred offeror limit the authority of the Director to establish the terms of a concession contract?

The existence of a preferred offeror does not limit the authority of the Director to establish, in accordance with this part, the terms and conditions of a new concession contract, including, but not limited to, terms and conditions that modify the terms and conditions of a prior concession contract.

Subpart G—Leasehold Surrender Interest

§51.51 What special terms must I know to understand leasehold surrender interest?

To understand leasehold surrender interest, you must refer to these definitions, applicable in the singular or the plural, whenever these terms are used in this part:

Arbitration means binding arbitration conducted by an arbitration panel. All arbitration proceedings conducted under the authority of this subpart or subpart H of this part will utilize the following procedures unless otherwise agreed by the concessioner and the Director. One member of the arbitration panel will be selected by the concessioner, one member will be selected by the Director, and the third (neutral) member will be selected by the two party-appointed members. The neutral arbiter must be a licensed real estate appraiser. The expenses of the neutral arbiter and other associated common costs of the arbitration will be borne equally by the concessioner and the Director. The arbitration panel will adopt procedures that treat each party equally, give each party the opportunity to be heard, and give each party a fair opportunity to present its case. Adjudicative procedures are not encouraged but may be adopted by the panel if determined necessary in the circumstances of the dispute. Determinations must be made by a majority of the members of

the panel and will be binding on the concessioner and the Director.

A capital improvement is a structure, fixture, or non-removable equipment provided by a concessioner pursuant to the terms of a concession contract and located on lands of the United States within a park area. A capital improvement does not include any interest in land. Additionally, a capital improvement does not include any interest in personal property of any kind including, but not limited to, vehicles, boats, barges, trailers, or other objects, regardless of size, unless an item of personal property becomes a fixture as defined in this part. Concession contracts may further describe, consistent with the limitations of this part and the 1998 Act, the nature and type of specific capital improvements in which a concessioner may obtain a leasehold surrender interest.

Construction cost of a capital improvement means the total of the incurred eligible direct and indirect costs necessary for constructing or installing the capital improvement that are capitalized by the concessioner in accordance with Generally Accepted Accounting Principals (GAAP). The term “construct” or “construction” as used in this part also means “install” or “installation” of fixtures where applicable.

Consumer Price Index means the national “Consumer Price Index—All Urban Consumers” published by the Department of Labor. If this index ceases to be published, the Director will designate another regularly published cost-of-living index approximating the national Consumer Price Index.

Depreciation means the loss of value in a capital improvement as evidenced by the condition and prospective serviceability of the capital improvement in comparison with a new unit of like kind.

Eligible direct costs means the sum of all incurred capitalized costs (in amounts no higher than those prevailing in the locality of the project), that are necessary both for the construction of a capital improvement and are typically elements of a construction contract. Eligible direct costs may include, without limitation, the costs

of (if capitalized in accordance with GAAP and in amounts no higher than those prevailing in the locality of the project): building permits; materials, products and equipment used in construction; labor used in construction; security during construction; contractor's shack and temporary fencing; material storage facilities; power line installation and utility costs during construction; performance bonds; and contractor's (and subcontractor's) profit and overhead (including job supervision, worker's compensation insurance and fire, liability, and unemployment insurance).

Eligible indirect costs means, except as provided in the last sentence of this definition, the sum of all other incurred capitalized costs (in amounts no higher than those prevailing in the locality of the project) necessary for the construction of a capital improvement. Eligible indirect costs may include, without limitation, the costs of (if capitalized in accordance with GAAP and in amounts no higher than those prevailing in the locality of the project): architectural and engineering fees for plans, plan checks; surveys to establish building lines and grades; environmental studies; if the project is financed, the points, fees or service charges and interest on construction loans; all risk insurance expenses and ad valorem taxes during construction. The actual capitalized administrative expenses (in amounts no higher than those prevailing in the locality of the project) of the concessioner for direct, on-site construction inspection are eligible indirect costs. Other administrative expenses of the concessioner are not eligible indirect costs.

Fixtures and non-removable equipment are manufactured items of personal property of independent form and utility necessary for the basic functioning of a structure that are affixed to and considered to be part of the structure such that title is with the Director as real property once installed. Fixtures and non-removable equipment do not include building materials (e.g., wallboard, flooring, concrete, cinder blocks, steel beams, studs, window frames, windows, rafters, roofing, framing, siding, lumber, insulation, wallpaper, paint, etc.). Because of their spe-

cial circumstances, floating docks (but not other types of floating property) constructed by a concessioner pursuant to the terms of a leasehold surrender interest concession contract are considered to be non-removable equipment for leasehold surrender interest purposes only. Except as otherwise indicated in this part, the term "fixture" as used in this part includes the term "non-removable equipment."

Leasehold surrender interest solely means a right to payment in accordance with this part for related capital improvements that a concessioner makes or provides within a park area on lands owned by the United States pursuant to this part and under the terms and conditions of an applicable concession contract. The existence of a leasehold surrender interest does not give the concessioner, or any other person, any right to conduct business in a park area, to utilize the related capital improvements, or to prevent the Director or another person from utilizing the related capital improvements. The existence of a leasehold surrender interest does not include any interest in the land on which the related capital improvements are located.

Leasehold surrender interest concession contract means a concession contract that provides for leasehold surrender interest in capital improvements.

Leasehold surrender interest value means the amount of compensation a concessioner is entitled to be paid for a leasehold surrender interest in capital improvements in accordance with this part. Unless otherwise provided by the terms of a leasehold surrender interest concession contract under the authority of section 405(a)(4) of the 1998 Act, leasehold surrender interest value in existing capital improvements is an amount equal to:

(1) The initial construction cost of the related capital improvement;

(2) Adjusted by (increased or decreased) the same percentage increase or decrease as the percentage increase or decrease in the Consumer Price Index from the date the Director approves the substantial completion of the construction of the related capital improvement to the date of payment of the leasehold surrender interest value;

(3) Less depreciation of the related capital improvement on the basis of its condition as of the date of termination or expiration of the applicable leasehold surrender interest concession contract, or, if applicable, the date on which a concessioner ceases to utilize a related capital improvement (*e.g.*, where the related capital improvement is taken out of service by the Director pursuant to the terms of a concession contract).

Major rehabilitation means a planned, comprehensive rehabilitation of an existing structure that:

(1) The Director approves in advance and determines is completed within 18 months from start of the rehabilitation work (unless a longer period of time is approved by the Director in special circumstances); and

(2) The construction cost of which exceeds fifty percent of the pre-rehabilitation value of the structure.

Pre-rehabilitation value of an existing structure means the replacement cost of the structure less depreciation.

Real property improvements means real property other than land, including, but not limited to, capital improvements.

Related capital improvement or related fixture means a capital improvement in which a concessioner has a leasehold surrender interest.

Replacement cost means the estimated cost to reconstruct, at current prices, an existing structure with utility equivalent to the existing structure, using modern materials and current standards, design and layout.

Structure means a building, dock, or similar edifice affixed to the land so as to be part of the real estate. A structure may include both constructed infrastructure (*e.g.*, water, power and sewer lines) and constructed site improvements (*e.g.*, paved roads, retaining walls, sidewalks, paved driveways, paved parking areas) that are permanently affixed to the land so as to be part of the real estate and that are in direct support of the use of a building, dock, or similar edifice. Landscaping that is integral to the construction of a structure is considered as part of a structure. Interior furnishings that are not fixtures are not part of a structure.

Substantial completion of a capital improvement means the condition of a capital improvement construction project when the project is substantially complete and ready for use and/or occupancy.

§ 51.52 How do I obtain a leasehold surrender interest?

Leasehold surrender interest concession contracts will contain appropriate leasehold surrender interest terms and conditions consistent with this part. A concessioner will obtain leasehold surrender interest in capital improvements constructed in accordance with this part and the leasehold surrender interest terms and conditions of an applicable leasehold surrender interest concession contract.

§ 51.53 When may the Director authorize the construction of a capital improvement?

The Director may only authorize or require a concessioner to construct capital improvements on park lands in accordance with this part and under the terms and conditions of a leasehold surrender interest concession contract for the conduct by the concessioner of visitor services, including, without limitation, the construction of capital improvements necessary for the conduct of visitor services.

§ 51.54 What must a concessioner do before beginning to construct a capital improvement?

Before beginning to construct any capital improvement, the concessioner must obtain written approval from the Director in accordance with the terms of its leasehold surrender interest concession contract. The request for approval must include appropriate plans and specifications for the capital improvement and any other information that the Director may specify. The request must also include an estimate of the total construction cost of the capital improvement. The estimate of the total construction cost must specify all elements of the cost in such detail as is necessary to permit the Director to determine that they are elements of construction cost as defined in this part. (The approval requirements of this and other sections of this part also apply to

§ 51.55

any change orders to a capital improvement project and to any additions to a structure or replacement of fixtures as described in this part.)

§ 51.55 What must a concessioner do after substantial completion of the capital improvement?

Upon substantial completion of the construction of a capital improvement in which the concessioner is to obtain a leasehold surrender interest, the concessioner must provide the Director a detailed construction report. The construction report must be supported by actual invoices of the capital improvement's construction cost together with, if requested by the Director, a written certification from a certified public accountant. The construction report must document, and any requested certification by the certified public accountant must certify, that all components of the construction cost were incurred and capitalized by the concessioner in accordance with GAAP, and that all components are eligible direct or indirect construction costs as defined in this part. Invoices for additional construction costs of elements of the project that were not completed as of the date of substantial completion may subsequently be submitted to the Director for inclusion in the project's construction cost.

§ 51.56 How will the construction cost for purposes of leasehold surrender interest value be determined?

After receiving the detailed construction report (and certification, if requested), from the concessioner, the Director will review the report, certification and other information as appropriate to determine that the reported construction cost is consistent with the construction cost approved by the Director in advance of the construction and that all costs included in the construction cost are eligible direct or indirect costs as defined in this part. The construction cost determined by the Director will be the final determination of construction cost for purposes of the leasehold surrender interest value in the related capital improvement unless the concessioner requests arbitration of the construction cost under § 51.57. The Director may at any

36 CFR Ch. I (7-1-09 Edition)

time review a construction cost determination (subject to arbitration under § 51.57) if the Director has reason to believe that it was based on false, misleading or incomplete information.

[66 FR 35083, July 3, 2001]

§ 51.57 How does a concessioner request arbitration of the construction cost of a capital improvement?

If a concessioner requests arbitration of the construction cost of a capital improvement determined by the Director, the request must be made in writing to the Director within 3 months of the date of the Director's determination of construction cost under § 51.56. The arbitration procedures are described in § 51.51. The decision of the arbitration panel as to the construction cost of the capital improvement will be binding on the concessioner and the Director.

[66 FR 35083, July 3, 2001]

§ 51.58 What actions may or must the concessioner take with respect to a leasehold surrender interest?

The concessioner:

- (a) May encumber a leasehold surrender interest in accordance with this part, but only for the purposes specified in this part;
- (b) Where applicable, must transfer in accordance with this part its leasehold surrender interest in connection with any assignment, termination or expiration of the concession contract; and
- (c) May relinquish or waive a leasehold surrender interest.

§ 51.59 Will a leasehold surrender interest be extinguished by expiration or termination of a leasehold surrender interest concession contract or may it be taken for public use?

A leasehold surrender interest may not be extinguished by the expiration or termination of a concession contract and a leasehold surrender interest may not be taken for public use except on payment of just compensation. Payment of leasehold surrender interest value pursuant to this part will constitute the payment of just compensation for leasehold surrender interest

National Park Service, Interior

§51.62

within the meaning of this part and for all other purposes.

§51.60 How will a new concession contract awarded to an existing concessioner treat a leasehold surrender interest obtained under a prior concession contract?

When a concessioner under a leasehold surrender interest concession contract is awarded a new concession contract by the Director, and the new concession contract continues a leasehold surrender interest in related capital improvements, then the concessioner's leasehold surrender interest value (established as of the date of expiration or termination of its prior concession contract) in the related capital improvements will be continued as the initial value (instead of initial construction cost) of the concessioner's leasehold surrender interest under the terms of the new concession contract. No compensation will be due the concessioner for its leasehold surrender interest or otherwise in these circumstances except as provided by this part.

§51.61 How is an existing concessioner who is not awarded a new concession contract paid for a leasehold surrender interest?

(a) When a concessioner is not awarded a new concession contract after expiration or termination of a leasehold surrender interest concession contract, or, the concessioner, prior to such termination or expiration, ceases to utilize under the terms of a concession contract capital improvements in which the concessioner has a leasehold surrender interest, the concessioner will be entitled to be paid its leasehold surrender interest value in the related capital improvements. The leasehold surrender interest will not be transferred until payment of the leasehold surrender interest value. The date for payment of the leasehold surrender interest value, except in special circumstances beyond the Director's control, will be the date of expiration or termination of the leasehold surrender interest contract, or the date the concessioner ceases to utilize related capital improvements under the terms of a concession contract. Depreciation of the related capital improvements will be established as of the date of expira-

tion or termination of the concession contract, or, if applicable, the date the concessioner ceases to utilize the capital improvements under the terms of a concession contract.

(b) In the event that extraordinary circumstances beyond the control of the Director prevent the Director from making the leasehold surrender interest value payment as of the date of expiration or termination of the leasehold surrender interest concession contract, or, as of the date a concessioner ceases to utilize related capital improvements under the terms of a concession contract, the payment when made will include interest on the amount that was due on the date of expiration or termination of the concession contract or cessation of use for the period after the payment was due until payment is made (in addition to the inclusion of a continuing Consumer Price Index adjustment until the date payment is made). The rate of interest will be the applicable rate of interest established by law for overdue obligations of the United States. The payment for a leasehold surrender interest value will be made within one year after the expiration or termination of the concession contract or the cessation of use of related capital improvements under the terms of a concession contract.

§51.62 What is the process to determine the leasehold surrender interest value when the concessioner does not seek or is not awarded a new concession contract?

Leasehold surrender interest concession contracts must contain provisions under which the Director and the concessioner will seek to agree in advance of the expiration or other termination of the concession contract as to what the concessioner's leasehold surrender interest value will be on a unit-by-unit basis as of the date of expiration or termination of the concession contract. In the event that agreement cannot be reached, the provisions of the leasehold surrender interest concession contract must provide for the Director to make a final determination of leasehold surrender interest value unless binding arbitration as to the value is requested by the concessioner. The arbitration procedures are described in §51.51. A

§ 51.63

prior decision as to the construction cost of capital improvements made by the Director or by an arbitration panel in accordance with this part are final and not subject to further arbitration.

[66 FR 35083, July 3, 2001]

§ 51.63 When a new concessioner pays a prior concessioner for a leasehold surrender interest, what is the leasehold surrender interest in the related capital improvements for purposes of a new concession contract?

A new leasehold surrender interest concession contract awarded to a new concessioner will require the new concessioner to pay the prior concessioner its leasehold surrender interest value in existing capital improvements as determined under § 51.62. The new concessioner upon payment will have a leasehold surrender interest in the related capital improvements on a unit-by-unit basis under the terms of the new leasehold surrender interest contract. Instead of initial construction cost, the initial value of such leasehold surrender interest will be the leasehold surrender interest value that the new concessioner was required to pay the prior concessioner.

§ 51.64 May the concessioner gain additional leasehold surrender interest by undertaking a major rehabilitation or adding to a structure in which the concessioner has a leasehold surrender interest?

A concessioner that, with the written approval of the Director, undertakes a major rehabilitation or adds a new structure (*e.g.*, a new wing to an existing building or an extension of an existing sidewalk) to an existing structure in which the concessioner has a leasehold surrender interest, will increase its leasehold surrender interest in the related structure, effective as of the date of substantial completion of the major rehabilitation or new structure, by the construction cost of the major rehabilitation or new structure. The Consumer Price Index adjustment for leasehold surrender interest value purposes will apply to the construction cost as of the date of substantial completion of the major rehabilitation or

36 CFR Ch. I (7–1–09 Edition)

new structure. Approvals for major rehabilitations and additions to structures are subject to the same requirements and conditions applicable to new construction as described in this part.

§ 51.65 May the concessioner gain additional leasehold surrender interest by replacing a fixture in which the concessioner has a leasehold surrender interest?

A concessioner that replaces an existing fixture in which the concessioner has a leasehold surrender interest with a new fixture will increase its leasehold surrender interest by the amount of the construction cost of the replacement fixture less the construction cost of the replaced fixture.

§ 51.66 Under what conditions will a concessioner obtain a leasehold surrender interest in existing real property improvements in which no leasehold surrender interest exists?

(a) A concession contract may require the concessioner to replace fixtures in real property improvements in which there is no leasehold surrender interest (*e.g.*, fixtures attached to an existing government facility assigned by the Director to the concessioner). A leasehold surrender interest will be obtained by the concessioner in such fixtures subject to the approval and determination of construction cost and other conditions contained in this part.

(b) A concession contract may require the concessioner to undertake a major rehabilitation of a structure in which there is no leasehold surrender interest (*e.g.*, a government-constructed facility assigned to the concessioner). Upon substantial completion of the major rehabilitation, the concessioner will obtain a leasehold surrender interest in the structure. The initial construction cost of this leasehold surrender interest will be the construction cost of the major rehabilitation. Depreciation for purposes of leasehold surrender interest value will apply only to the rehabilitated components of the related structure.

National Park Service, Interior

§51.70

§51.67 Will a concessioner obtain leasehold surrender interest as a result of repair and maintenance of real property improvements?

A concessioner will not obtain initial or increased leasehold surrender interest as a result of repair and maintenance of real property improvements unless a repair and maintenance project is a major rehabilitation.

Subpart H—Possessory Interest

§51.68 If a concessioner under a 1965 Act concession contract is not awarded a new concession contract, how will a concessioner that has a possessory interest receive compensation for its possessory interest?

A concessioner that has possessory interest in real property improvements pursuant to the terms of a 1965 Act concession contract, will, if the prior concessioner does not seek or is not awarded a new concession contract upon expiration or other termination of its 1965 Act concession contract, be entitled to receive compensation for its possessory interest in the amount and manner described by the possessory interest concession contract. The concessioner shall also be entitled to receive all other compensation, including any compensation for property in which there is no possessory interest, to the extent and in the manner that the possessory interest contract may provide.

§51.69 What happens if there is a dispute between the new concessioner and a prior concessioner as to the value of the prior concessioner's possessory interest?

In case of a dispute between a new concessioner and a prior concessioner as to the value of the prior concessioner's possessory interest, the dispute will be resolved under the procedures contained in the possessory interest concession contract. A new concessioner will not agree on the value of a prior concessioner's possessory interest without the prior written approval of the Director unless the value is determined through the binding determination process required by the possessory interest concession contract. The Director's written approval

is to ensure that the value is consistent with the terms and conditions of the possessory interest concession contract. If a new concessioner and a prior concessioner engage in a binding process to resolve a dispute as to the value of the prior concessioner's possessory interest, the new concessioner must allow the Director to assist the new concessioner in the dispute process to the extent requested by the Director. Nothing in this section may be construed as limiting the rights of the prior concessioner to be paid for its possessory interest or other property by a new concessioner in accordance with the terms of its concession contract.

§51.70 If a concessioner under a 1965 Act concession contract is awarded a new concession contract, what happens to the concessioner's possessory interest?

In the event a concessioner under a 1965 Act concession contract is awarded a new concession contract replacing a possessory interest concession contract, the concessioner will obtain a leasehold surrender interest in its existing possessory interest real property improvements under the terms of the new concession contract. The concessioner will carry over as the initial value of such leasehold surrender interest (instead of initial construction cost) an amount equal to the value of its possessory interest in real property improvements as of the expiration or other termination of its possessory interest contract. This leasehold surrender interest will apply to the concessioner's possessory interest in real property improvements even if the real property improvements are not capital improvements as defined in this part. In the event that the concessioner had a possessory interest in only a portion of a structure, depreciation for purposes of leasehold surrender interest value under the new concession contract will apply only to the portion of the structure to which the possessory interest applied. The concessioner and the Director will seek to agree on an allocation of the leasehold surrender interest value on a unit by unit basis.
