Department of Veterans Affairs

§ 17.56 Payment for non-VA physician and other health care professional services.

(a) Except for anesthesia services, and services provided in the State of Alaska under paragraph (d) of this section, payment for non-VA health care professional services associated with outpatient and inpatient care provided at non-VA facilities authorized under §17.52, or made under §17.120 of this part, shall be the lesser of the amount billed or the amount calculated using the formula developed by the Centers for Medicare and Medicaid Services' (CMS) participating physician fee schedule for the period in which the service is provided (see 42 CFR Parts 414 and 415). This payment methodology is set forth in paragraph (b) of this section. If no amount has been calculated under Center for Medicare and Medicaid Services' participating physician fee schedule or if the services constitute anesthesia services, payment for such non-VA health care professional services provided at non-VA facilities authorized under §17.52, or made under §17.120 of this part, shall be the lesser of the actual amount billed or the amount calculated using the 75th percentile methodology set forth in paragraph (c) of this section; or the usual and customary rate if there are fewer than 8 treatment occurrences for a procedure during the previous fiscal year.

(b) The payment amount for each service paid under Centers for Medicare and Medicaid Services’ participating physician fee schedule is the product of three factors: a nationally uniform relative value for the service; a geographic adjustment factor for each paid service; and a nationally uniform conversion factor for each service. The conversion factor converts the relative values into payment amounts. For each service paid under Centers for Medicare and Medicaid Services’ participating physician fee schedule area, there are three relative values: An RVU for physician work; an RVU for practice expense; and a malpractice expense.

VerDate Nov<24>2008 10:46 Aug 10, 2009 Jkt 217140 PO 00000 Frm 00677 Fmt 8010 Sfmt 8010 Y:\SGML\217140.XXX 217140erowe on DSK5CLS3C1PROD with CFR
insurance, and physician work in an area compared to the national average. The GPCIs reflect the full variation from the national average in the costs of practice expenses and malpractice insurance, but only one-quarter of the difference in area costs for physician work. The general formula calculating the Centers for Medicare and Medicaid Services’ fee schedule amount for a given service in a given fee schedule area can be expressed as: Payment = \[(\text{RVU}\text{work} \times \text{GPCI}\text{work}) + (\text{RVU}\text{practice expense} \times \text{GPCI}\text{practice expense}) + (\text{RVU}\text{malpractice} \times \text{GPCI}\text{malpractice})\] \times CF.

(c) Payment under the 75th percentile methodology is determined for each VA medical facility by ranking all occurrences (with a minimum of eight) under the corresponding code during the previous fiscal year with charges ranked from the highest rate billed to the lowest rate billed and the charge falling at the 75th percentile as the maximum amount to be paid.

(d) For services rendered in Alaska, VA will pay for services in accordance with a fee schedule that uses the Health Insurance Portability and Accountability Act mandated national standard coding sets. VA will pay a specific amount for each service for which there is a corresponding code. Under the VA Alaska Fee Schedule the amount paid in Alaska for each code will be 90 percent of the average amount VA actually paid in Alaska for the same services in Fiscal Year (FY) 2003. For services that VA provided less than eight times in Alaska in FY 2003, for services represented by established codes prior to FY 2004, VA will take the Centers for Medicare and Medicaid Services’ rate for each code and multiply it times the average percentage paid by VA in Alaska for Centers for Medicare and Medicaid Services-like codes. VA will increase the amounts on the VA Alaska Fee Schedule annually beginning in 2005 in accordance with the published national Medicare Economic Index (MEI). For those years where the annual average is a negative percentage, the fee schedule will remain the same as the previous year. Payment for non-VA health care professional services in Alaska shall be the lesser of the amount billed, or the amount calculated under this subpart.

(e) Payments made in accordance with this section shall constitute payment in full. Accordingly, the provider or agent for the provider may not impose any additional charge for any services for which payment is made by VA.

(f) Notwithstanding other provisions of this section, VA, for physician services covered by this section, will pay the lesser of the amount determined under paragraphs (a) through (e) of this section or the amount negotiated with the physician or the physician’s agent.

§ 17.57 Use of Community Nursing home Care Facilities

(a) Nursing home care in a contract public or private nursing home facility may be authorized for the following: Any veteran who has been discharged from a hospital under the direct jurisdiction of VA and is currently receiving VA hospital based home health services.

(b) To the extent that resources are available and are not otherwise required to assure that VA can furnish needed care and treatment to veterans described in 38 U.S.C. 1710(a)(1), the Under Secretary for Health may furnish care under this paragraph to any veteran described in 38 U.S.C. 1710(a)(2) if the veteran agrees to pay the United States an amount as determined in 38 U.S.C. 1710(f).
