

Department of Veterans Affairs**§ 3.158**

(b) *Claim.* Once a formal claim for pension or compensation has been allowed or a formal claim for compensation disallowed for the reason that the service-connected disability is not compensable in degree, receipt of one of the following will be accepted as an informal claim for increased benefits or an informal claim to reopen. In addition, receipt of one of the following will be accepted as an informal claim in the case of a retired member of a uniformed service whose formal claim for pension or compensation has been disallowed because of receipt of retirement pay. The evidence listed will also be accepted as an informal claim for pension previously denied for the reason the disability was not permanently and totally disabling.

(1) *Report of examination or hospitalization by Department of Veterans Affairs or uniformed services.* The date of outpatient or hospital examination or date of admission to a VA or uniformed services hospital will be accepted as the date of receipt of a claim. The date of a uniformed service examination which is the basis for granting severance pay to a former member of the Armed Forces on the temporary disability retired list will be accepted as the date of receipt of claim. The date of admission to a non-VA hospital where a veteran was maintained at VA expense will be accepted as the date of receipt of a claim, if VA maintenance was previously authorized; but if VA maintenance was authorized subsequent to admission, the date VA received notice of admission will be accepted. The provisions of this paragraph apply only when such reports relate to examination or treatment of a disability for which service-connection has previously been established or when a claim specifying the benefit sought is received within one year from the date of such examination, treatment or hospital admission.

(Authority: 38 U.S.C. 501)

(2) *Evidence from a private physician or layman.* The date of receipt of such evidence will be accepted when the evidence furnished by or in behalf of the claimant is within the competence of the physician or lay person and shows

the reasonable probability of entitlement to benefits.

(3) *State and other institutions.* When submitted by or on behalf of the veteran and entitlement is shown, date of receipt by the Department of Veterans Affairs of examination reports, clinical records, and transcripts of records will be accepted as the date of receipt of a claim if received from State, county, municipal, recognized private institutions, or other Government hospitals (except those described in paragraph (b)(1) of this section). These records must be authenticated by an appropriate official of the institution. Benefits will be granted if the records are adequate for rating purposes; otherwise findings will be verified by official examination. Reports received from private institutions not listed by the American Hospital Association must be certified by the Chief Medical Officer of the Department of Veterans Affairs or physician designee.

§ 3.158 Abandoned claims.

(a) *General.* Except as provided in §3.652 of this part, where evidence requested in connection with an original claim, a claim for increase or to reopen or for the purpose of determining continued entitlement is not furnished within 1 year after the date of request, the claim will be considered abandoned. After the expiration of 1 year, further action will not be taken unless a new claim is received. Should the right to benefits be finally established, pension, compensation, dependency and indemnity compensation, or monetary allowance under the provisions of 38 U.S.C. chapter 18 based on such evidence shall commence not earlier than the date of filing the new claim.

(Authority: 38 U.S.C. 501)

(a) *Definitions*. For purposes of this section, the following definitions apply:

(1) *Competent medical evidence* means evidence provided by a person who is qualified through education, training, or experience to offer medical diagnoses, statements, or opinions. Competent medical evidence may also mean statements conveying sound medical principles found in medical treatises. It would also include statements contained in authoritative writings such as medical and scientific articles and research reports or analyses.

(2) *Competent lay evidence* means any evidence not requiring that the proponent have specialized education, training, or experience. Lay evidence is competent if it is provided by a person who has knowledge of facts or circumstances and conveys matters that can be observed and described by a lay person.

(b) VA's *duty to notify claimants of necessary information or evidence*. (1) When VA receives a complete or substantially complete application for benefits, it will notify the claimant of any information and medical or lay evidence that is necessary to substantiate the claim (hereafter in this paragraph referred to as the "notice"). In the notice, VA will inform the claimant which information and evidence, if any, that the claimant is to provide to VA and which information and evidence, if any, that VA will attempt to obtain on behalf of the claimant. The information and evidence that the claimant is informed that the claimant is to provide must be provided within one year of the date of the notice. If the claimant has not responded to the notice within 30 days, VA may decide the claim prior to the expiration of the one-year period based on all the information and evidence contained in the file, including information and evidence it has obtained on behalf of the claimant and any VA medical examinations or medical opinions. If VA does so, however, and the claimant subsequently provides the information and evidence within one year of the date of the notice, VA must readjudicate the claim.
