§ 3.32 Exchange rates for foreign currencies.

When determining the rates of pension or parents' DIC or the amounts of burial, plot or headstone allowances or accrued benefits to which a claimant or beneficiary may be entitled, income received or expenses paid in a foreign currency shall be converted into U.S. dollar equivalents employing quarterly exchange rates established by the Department of the Treasury.

(a) *Pension and parents' DIC.* (1) Because exchange rates for foreign currencies cannot be determined in advance, rates of pension and parents' DIC shall be projected using the most recent quarterly exchange rate and shall be adjusted retroactively based upon actual exchange rates when an annual eligibility verification report is filed.

(2) Retroactive adjustments due to fluctuations in exchange rates shall be calculated using the average of the

38 CFR Ch. I (7–1–09 Edition)

four most recent quarterly exchange rates. If the claimant reports income and expenses for a prior reporting period, the retroactive adjustment shall be calculated using the average of the four quarterly rates which were the most recent available on the closing date of the twelve-month period for which income and expenses are reported.

(b) *Burial, plot or headstone allowances and accrued benefits.* Payment amounts for burial, plot or headstone allowances and claims for accrued benefits as reimbursement from the person who bore the expenses of a deceased beneficiary's last illness or burial shall be determined using the quarterly exchange rate for the quarter in which the expenses forming the basis of the claim were paid. If the claim is filed by an unpaid creditor, however, the quarterly rate for the quarter in which the veteran died shall apply. When entitlement originates during a quarter for which the Department of the Treasury has not yet published a quarterly rate, amounts due shall be calculated using the most recent quarterly exchange rate.
