To cite the regulations in this volume use title, part and section number. Thus, 48 CFR 301.101 refers to title 48, part 301, section 101.
Explanation

The Code of Federal Regulations is a codification of the general and permanent rules published in the Federal Register by the Executive departments and agencies of the Federal Government. The Code is divided into 50 titles which represent broad areas subject to Federal regulation. Each title is divided into chapters which usually bear the name of the issuing agency. Each chapter is further subdivided into parts covering specific regulatory areas.

Each volume of the Code is revised at least once each calendar year and issued on a quarterly basis approximately as follows:

- Title 1 through Title 16 ..............................................................as of January 1
- Title 17 through Title 27 .................................................................as of April 1
- Title 28 through Title 41 .................................................................as of July 1
- Title 42 through Title 50 .............................................................as of October 1

The appropriate revision date is printed on the cover of each volume.

LEGAL STATUS

The contents of the Federal Register are required to be judicially noticed (44 U.S.C. 1507). The Code of Federal Regulations is prima facie evidence of the text of the original documents (44 U.S.C. 1510).

HOW TO USE THE CODE OF FEDERAL REGULATIONS

The Code of Federal Regulations is kept up to date by the individual issues of the Federal Register. These two publications must be used together to determine the latest version of any given rule.

To determine whether a Code volume has been amended since its revision date (in this case, October 1, 2009), consult the “List of CFR Sections Affected (LSA),” which is issued monthly, and the “Cumulative List of Parts Affected,” which appears in the Reader Aids section of the daily Federal Register. These two lists will identify the Federal Register page number of the latest amendment of any given rule.

EFFECTIVE AND EXPIRATION DATES

Each volume of the Code contains amendments published in the Federal Register since the last revision of that volume of the Code. Source citations for the regulations are referred to by volume number and page number of the Federal Register and date of publication. Publication dates and effective dates are usually not the same and care must be exercised by the user in determining the actual effective date. In instances where the effective date is beyond the cutoff date for the Code a note has been inserted to reflect the future effective date. In those instances where a regulation published in the Federal Register states a date certain for expiration, an appropriate note will be inserted following the text.

OMB CONTROL NUMBERS

The Paperwork Reduction Act of 1980 (Pub. L. 96-511) requires Federal agencies to display an OMB control number with their information collection request.
Many agencies have begun publishing numerous OMB control numbers as amendments to existing regulations in the CFR. These OMB numbers are placed as close as possible to the applicable recordkeeping or reporting requirements.

OBSOLETE PROVISIONS

Provisions that become obsolete before the revision date stated on the cover of each volume are not carried. Code users may find the text of provisions in effect on a given date in the past by using the appropriate numerical list of sections affected. For the period before January 1, 2001, consult either the List of CFR Sections Affected, 1949–1963, 1964–1972, 1973–1985, or 1986–2000, published in eleven separate volumes. For the period beginning January 1, 2001, a “List of CFR Sections Affected” is published at the end of each CFR volume.

INCORPORATION BY REFERENCE

What is incorporation by reference? Incorporation by reference was established by statute and allows Federal agencies to meet the requirement to publish regulations in the Federal Register by referring to materials already published elsewhere. For an incorporation to be valid, the Director of the Federal Register must approve it. The legal effect of incorporation by reference is that the material is treated as if it were published in full in the Federal Register (§ U.S.C. 552(a)). This material, like any other properly issued regulation, has the force of law.

What is a proper incorporation by reference? The Director of the Federal Register will approve an incorporation by reference only when the requirements of 1 CFR part 51 are met. Some of the elements on which approval is based are:

(a) The incorporation will substantially reduce the volume of material published in the Federal Register.

(b) The matter incorporated is in fact available to the extent necessary to afford fairness and uniformity in the administrative process.

(c) The incorporating document is drafted and submitted for publication in accordance with 1 CFR part 51.

What if the material incorporated by reference cannot be found? If you have any problem locating or obtaining a copy of material listed as an approved incorporation by reference, please contact the agency that issued the regulation containing that incorporation. If, after contacting the agency, you find the material is not available, please notify the Director of the Federal Register, National Archives and Records Administration, Washington DC 20408, or call 202-741-6010.

CFR INDEXES AND TABULAR GUIDES

A subject index to the Code of Federal Regulations is contained in a separate volume, revised annually as of January 1, entitled CFR INDEX AND FINDING AIDS. This volume contains the Parallel Table of Authorities and Rules. A list of CFR titles, chapters, subchapters, and parts and an alphabetical list of agencies publishing in the CFR are also included in this volume.

An index to the text of “Title 3—The President” is carried within that volume. The Federal Register Index is issued monthly in cumulative form. This index is based on a consolidation of the “Contents” entries in the daily Federal Register.

A List of CFR Sections Affected (LSA) is published monthly, keyed to the revision dates of the 50 CFR titles.
REPUBLICATION OF MATERIAL

There are no restrictions on the republication of material appearing in the Code of Federal Regulations.

Title 48—FEDERAL ACQUISITION REGULATIONS SYSTEM is composed of seven volumes. The chapters in these volumes are arranged as follows: Chapter 1 (parts 1 to 51), chapter 1 (parts 52 to 99), chapter 2 (parts 201 to 299), chapters 3 to 6, chapters 7 to 14, chapters 15 to 28 and chapter 29 to end. The contents of these volumes represent all current regulations codified under this title of the CFR as of October 1, 2009.

The Federal acquisition regulations in chapter 1 are those government-wide acquisition regulations jointly issued by the General Services Administration, the Department of Defense, and the National Aeronautics and Space Administration. Chapters 2 through 99 are acquisition regulations issued by individual government agencies. Parts 1 to 69 in each of chapters 2 through 99 are reserved for agency regulations implementing the Federal acquisition regulations in chapter 1 and are numerically keyed to them. Parts 70 to 99 in chapters 2 through 99 contain agency regulations supplementing the Federal acquisition regulations.

The OMB control numbers for the Federal Acquisition Regulations System appear in section 1.106 of chapter 1. For the convenience of the user section 1.106 is reprinted in the Finding Aids section of the second volume containing chapter 1 (parts 52 to 99).

The first volume, containing chapter 1 (parts 1 to 51), includes an index to the Federal acquisition regulations.

For this volume, Cheryl E. Sirofchuck was Chief Editor. The Code of Federal Regulations publication program is under the direction of Michael L. White, assisted by Ann Worley.

(a) Deviation requests shall be prepared in memorandum form and forwarded through the Head of the Contracting Activity (HCA) to the Director, Division of Acquisition Policy. (3) Circumstances under which the deviation would be used;

(4) Intended effect of the deviation;

(5) Period or applicability;
Subpart 301.6—Career Development, Contracting Authority, and Responsibilities

301.602 Contracting officers.

301.602–3 Ratification of unauthorized commitments.

(b) Policy. (1) The Government is not bound by agreements or contractual commitments made to prospective contractors by persons to whom contracting authority has not been delegated. However, execution of otherwise proper contracts made by individuals without contracting authority, or by contracting officers in excess of the limits of their delegated authority, may be later ratified. The ratification must be in the form of a written document clearly stating that ratification of a previously unauthorized act is intended and must be signed by the head of the contracting activity (HCA).

(2) The HCA is the official authorized to ratify an unauthorized commitment (but see paragraph (b)(3) of this section).

(3) Ratification authority for actions up to $100,000 may be redelegated by the HCA to the chief of the contracting office (CCO). No other redelegations are authorized.

(c) Limitations. (5) The concurrence of legal counsel concerning the payment issue is optional.

(e) Procedures. (1) The individual who made the unauthorized contractual commitment shall furnish the reviewing Contracting Officer all records and documents concerning the commitment and a complete written statement of facts, including, a description of the requirement, the estimated or agreed upon price, the funds citation, an explanation of why the contracting office was not used and why the proposed contractor was selected, a list of other sources considered, and a statement as to whether the contractor has commenced work.

(2) The Contracting Officer will review the submitted material and prepare it for ratification if it is determined that the commitment is ratifiable. The Contracting Officer shall forward the ratification document and the submitted material to the HCA or CCO with any comments or information which should be considered in evaluation of the request for ratification. If legal review is desirable, the HCA or CCO will coordinate the request for ratification with the Office of General Counsel, Business and Administrative Law Division.

(3) If ratification is authorized by the HCA or CCO, the file will be returned, along with the ratification document, to the contracting officer for issuance of a purchase order or contract, as appropriate.

301.603 Selection, appointment, and termination of appointment of Contracting Officers/Contract Specialists.

301.603–1 General.

(a) The appointment, selection, and termination of appointment of Contracting Officers/Contract Specialists shall be made by the HCA. This authority is not delegable. The procedures for the selection and appointment of Contracting Officers/Contract Specialists shall apply to anyone seeking a Contracting Officer warrant. OPDIV procedures shall be followed in the appointment and termination of Contracting Officers/Contract Specialists in offices that have Contracting Officers/Contract Specialists with dual signature warrants.

(b) Standard Form (SF) 1402, “Certificate of Appointment,” shall be used to appoint personnel in the 1102 series as Contracting Officers. It shall also be used for personnel in any other series who will obligate the Government to the expenditure of funds in excess of the micro-purchase threshold. The SF 1402 shall indicate the Contracting Officer’s warrant level and threshold and any other limitations. The HCA may
301.603–2 Determine an alternate appointment document for appointments at or below the micropurchase threshold level. Contracting Officer warrants will be issued to civil service personnel only. A delegation of procurement authority shall be set forth in a memorandum that describes the spending limits and authority. Changes to appointments shall be made by issuing a new appointment document. Each appointment document shall be prepared and maintained in accordance with FAR 1.603–1 and shall state the limits of the individual’s authority.

(c) An individual must be certified at the appropriate level as a prerequisite to being appointed as a Contracting Officer with authority to obligate funds in excess of the micro-purchase threshold (see 301.603–72). The HCA will determine and require training for individuals appointed as Contracting Officers/Contract Specialists at dollar levels below the micropurchase threshold. Individuals selected for Contracting Officer warrant authority must meet the education, training, and experience requirements that are established for the warrant level. An individual shall be appointed as a Contracting Officer only in instances where a valid organizational need is demonstrated. Factors to be considered in assessing the need for an appointment of a Contracting Officer include volume of actions, complexity of work, and structure of the organization.

(d) Contracting Officers (GS–1102’s) shall not sign contracts or modifications to contracts which will result in the total amount of the contract exceeding their delegated warrant authority (as specified on the SF–1402). This includes Indefinite Delivery Indefinite Quantity (IDIQ) contracts. However, orders placed against an IDIQ may be issued by Contracting Officers up to their delegated authority provided that each order is separate and distinct.

(e) Employees delegated warrant authority are the only individuals legally authorized to bind the Government by executing contracts or signing determinations and findings required by the FAR. The amount specified on the warrant shall cover the estimated maximum contract amount, including all option periods. For example, an employee with a $500,000 Contracting Officer Certificate of Appointment may not award a contract for a base year of $300,000 if the contract includes a one-year option for an additional $300,000. In this case, the total contract amount, including options, exceeds the amount stipulated in the warrant. If a warrant is limited to $500,000 (for example), the holder may not sign a contract for more than that amount, even if the additional amount is subject to the availability of funds. Contracting Officers with higher warrant levels may sign the action when modifications to orders and contracts make the total amount of the contract exceed the Contracting Officer’s warrant limitation.

301.603–2 Selection of Contracting Officers.

When it has been determined that the appointment is in the best interest of the OPDIV and/or Department and there is a demonstrated need for the procurement authority requested, nominations for appointment of Contracting Officers shall be submitted to the HCA through appropriate organizational channels for review. The HCA is responsible for appointing Contracting Officers in accordance with FAR 1.603. This authority is not delegable. The HCA will determine the documentation required, consistent with FAR 1.603–2, when the resulting appointment and authority will not exceed the micropurchase threshold.

301.603–3 Appointment of Contracting Officers.

(a) Appointing officials must ensure that a warrant candidate meets the experience and education/training requirements listed in 301.603–72.

(b) If it is essential to appoint an individual who does not fully meet the certification requirements for the Contracting Officer authority sought, an interim appointment may be granted by the HCA. HCAs are responsible for ensuring that training requirements are met within the specified time frame. Interim appointments may not

Training and certification requirements for Contracting Officers/Contract Specialists.

(a) Federal Acquisition Certification in Contracting (FAC–C) certification is not mandatory for all GS–1102s; however, members of the workforce issued new Contracting Officer (CO) warrants on or after January 1, 2007, regardless of GS series, must be certified at an appropriate level to support their warrant obligations, pursuant to agency policy. New CO warrants are defined in OFPP Policy Letter 05–01 as warrants issued to employees for the first time at a department or agency. FAC–C certification does not apply to:

(1) Senior level officials responsible for delegating procurement authority;

(2) Non-1102s whose warrants are generally used to procure emergency goods and services; or

(3) Non-1102s whose warrants are so limited as to be outside the scope of this program, as determined by the Chief Acquisition Officer (CAO).

(b) HHS requires a senior level FAC–C certification for any employee issued an unlimited Contracting Officer’s warrant on or after January 1, 2007.

(c) Achievement of the FAC–C is based on three requirements: education, training, and experience, and the requirements are cumulative, (i.e., a person must meet the requirements of each previous certification level).

(d) FAC–C training requirements are as follows:

(i) CON 100 Shaping Smart Business Arrangements.

(ii) CON 110 Mission Support Planning.

(iii) CON 111 Mission Strategy Execution.

(iv) CON 112 Mission Performance Assessment.

(v) CON 120 Mission Focused Contracting.

(vi) 1 Elective.

(2) FAC–C Level II:

(i) CON 202 Intermediate Contracting.
(ii) CON 204 Intermediate Contract Pricing.
(iii) CON 210 Government Contract Law.
(iv) 2 Electives.
(3) FAC-C Level III:
(i) CON 353 Advanced Business Solutions for Mission Support.
(ii) 2 Electives.
(e) Those conducting simplified acquisitions from $2,500 to $100,000 will need to be issued an HHS Simplified Acquisition Certificate. Required training is as follows:
(1) HHS Simplified Acquisition Certificate A:
(ii) Basic Simplified Acquisition Procedures/DAU’s CON 237.
(iii) Advanced Simplified Acquisition Procedures or Appropriations Law.
(2) HHS Simplified Acquisition Certificate B:
(i) Basic Simplified Acquisition Procedures/DAU’s CON 237.
(ii) Advanced Simplified Acquisition Procedures or Appropriations Law.
(iii) CON 100 (Shaping Smart Business Arrangements).
(iv) CON 110 (Mission Support Planning).

301.603–73 Earned value training requirement for Contracting Officers/Contract Specialists who administer an IT contract.
All GS–1102s who administer an IT contract, regardless of dollar thresh-
old, are required to successfully complete the Department’s (offered through HHS University) one-day course entitled “Early Warning Project Management Systems Workshop,” or an equivalent Earned Value training course. Determination of course equivalency shall be made jointly by the Office of Acquisition Management and Policy/ASAM and the HHS Office of the Chief Information Officer.

[71 FR 76490, Dec. 20, 2006]

301.603–74 Training policy exception.
In the event there is an urgent requirement for a Contracting Officer/Contract Specialist to award or administer an IT contract, and the Earned Value training requirement has not been met, the HCA (not delegable) may waive the training requirement and authorize the individual to perform the job duties, provided that the individual attends the next scheduled “Early Warning Project Management System Workshop” course, or an equivalent Earned Value course.

**Chief of the Contracting Office (CCO)** is typically a mid-level management official, usually an office director, division director, or branch chief, who manages and monitors the daily contract operations of an OPDIV or major component of an OPDIV. - **ASAM-OE**—Deputy Assistant Secretary for Acquisition Management and Policy
- **AHRQ**—Director, Division of Contracts Management
- **CMS**—Director, Office of Acquisition and Grants Management
- **PSC**—Director, Division of Acquisition Management
- **CDC**—Director, Procurement and Grants Office
- **FDA**—Director, Office of Acquisitions & Grant Services

[71 FR 76490, Dec. 20, 2006]
NIH—Director, Office of Acquisition Management and Policy
SAMHSA—Director, Division of Contracts Management

(2) Each HCA is responsible for conducting an effective and efficient acquisition program. Adequate controls shall be established to assure compliance with applicable laws, regulations, procedures, and the dictates of good management practices. Periodic reviews shall be conducted and evaluated by qualified personnel, preferably assigned to positions other than in the contracting office being reviewed, to determine the extent of adherence to prescribed policies and regulations, and to detect a need for guidance and/or training.

(3) The heads of contracting activities may redelegating their HCA authorities to the extent that redelegation is not prohibited by the terms of their respective delegations of authority, by law, by the Federal Acquisition Regulation, by the HHS Acquisition Regulation, or by other regulations. However, HCA and other contracting approvals and authorities shall not be redelegated below the levels specified in the HHS Acquisition Regulation of, in the absence of coverage in the HHS Acquisition Regulation, the Federal Acquisition Regulation. To ensure proper control of redelegated acquisition authorities, HCAs shall maintain a file containing successive delegations of HCA authority through and including the Contracting Officer level. Personnel delegated responsibility for acquisition functions must possess a level of experience, training, and ability commensurate with the complexity and magnitude of the acquisition actions involved.

Project Officer is a Federal employee who monitors contractor performance and provides technical guidance to the Contract Specialist/Contracting Officer. The Project Officer serves as the Contract Specialist/Contracting Officer’s authorized representative to monitor specific aspects of the contract, thereby ensuring that the contractor’s performance meets the standards set forth in the contract, the technical requirements under the contract are met by the delivery date(s) and/or within the period of performance, and performance is accomplished within the price or estimated cost stated in the contract. A Project Officer is required to comply with HHS Project Management Certification Program training requirements. The term “Project Officer” is synonymous with Contracting Officer’s Representative (COR) and Contracting Officer’s Technical Representative (COTR).

(This criterion is limited to testing and evaluation purposes only and may not be used for initial outfitting or repetitive acquisitions. Project officers should support the use of this criterion with citations from their agency’s legislation and the technical rationale for the item of equipment required.)

306.303 Justifications.

306.303–1 Requirements.

[71 FR 76493, Dec. 20, 2006]

306.303–2 Content.

(a)(1) Each justification shall include the name of the program office; the name, address, and phone number of the Project Officer; and project identification, such as the authorizing program legislation, to include citations or other internal program identification data such as title, contract number, etc.

(a)(2) The competition advocates are listed in 306.501. This authority is not delegable.

(3) The competition advocate shall exercise this approval authority, except where the individual designated as the competition advocate does not meet the requirements of FAR 6.304 (a)(3)(ii). This authority is not delegable.

(4) The senior procurement executive of the Department is the Deputy Assistant Secretary for Acquisition Management and Policy. This designation has been made pursuant to the OFPP Act (41 U.S.C. 414(c)(2)(B)).

(c) A class justification shall be processed the same as an individual justification.

[71 FR 76494, Dec. 20, 2006]
307.104 General procedures.

(a) Each contracting activity shall prepare an Annual Acquisition Plan (AAP). The AAP is a macro plan, containing a list of anticipated contract actions over the simplified acquisition threshold and their associated funding, as well as the aggregate planned dollars for simplified acquisitions by quarter, developed for each fiscal year. The AAP shall conform to reasonable budget expectations and shall be reviewed at least quarterly and modified as appropriate. The HCA or the CCO shall obtain this information from the program planning/budget office of the contracting activity and use the AAP to provide necessary reports and monitor the workload of the contracting office.

(b) Once the AAP is obtained from the program planning/budget office, the Contracting Officer/Contract Specialist shall initiate discussions with the assigned Project Officer for each planned negotiated acquisition over $100,000 except for:

(1) Acquisitions made under interagency agreements, and
(2) Contract modifications which exercise options, make changes authorized by the Changes clause, or add funds to an incrementally funded contract. (The HCA may prescribe procedures for contract actions not covered by this subpart.)

(c) The purpose of the discussions between the Contracting and Project Officers is to develop an individual acquisition planning schedule and to address areas that will need to be covered in the request for contract (RFC), including clearances, acquisition strategy, sources, etc. The Project Officer must either have a statement of work (SOW) ready at this time or must discuss in more detail the nature of the services/supplies that will be required.

(d) Standard lead-times for processing various types of acquisitions and deadlines for submission of acceptable RFCs (that is, RFCs which include all required elements such as clearances, funding documents, and an acceptable SOW) for award in a given fiscal year shall be established by the HCA or designee not lower than the CCO.

(e) The outcome of the discussions referenced in paragraph (c) of this section between the Project Officer and the Contracting Officer/Contract Specialist will be an agreement concerning the dates of significant transaction-specific acquisition milestones, including the date of submission of the RFC to the Contracting Officer. This milestone schedule document will be prepared with those dates and will be signed by the Project Officer and the Contracting Officer. The milestones cannot be revised except by mutual agreement of these same individuals. If the planning schedule indicates the need to obtain approval of a Justification for Other than Full and Open Competition, the HCA or CCO must sign the milestone agreement. This document shall be retained in the contract file. All other considerations that will affect the acquisition (technical, business, management) shall be addressed in the RFC (see 307.71).

Health and Human Services

307.105 Contents of written acquisition plans.

The written acquisition plan required by FAR 7.105 must be contained in the request for contract, as specified in subpart 307.71, and is the final product of the planning process.

307.170 Program training requirements.

(a) HHS will maintain a program for certifying employees before they may be considered eligible for appointment as a program/project manager or COR/COTR.

(b) All HHS program/project managers, alternate program/project managers, CORs/COTRs, alternate CORs/ COTRs, and at least fifty percent of the HHS program personnel performing the function of technical proposal evaluator on a technical evaluation team or panel for a competitively solicited HHS contract, shall have successfully completed the Department’s “Basic Project Officer” course, or an equivalent course, before assuming the duties of their designated role, or take the next available class. This requirement applies to the initial technical proposal evaluation and any subsequent technical evaluations that may be required. (*Peer and objective reviewers are excluded from these requirements). Course equivalency for the “Basic Project Officer” course will be determined by the ASAM/OAMP. The Contracting Officer is responsible for ensuring that the program/project manager, COR/COTR, and proposal evaluators have successfully completed the required training. Non-information technology (IT) program/project managers and non-IT CORs/COTRs who have successfully completed the appropriate “Basic Project Officer” course, or an equivalent course, are highly encouraged to take the Department’s one-day course entitled “Early Warning Project Management System Workshop,” or an equivalent Earned Value course. Program/Project managers and CORs/COTRs are highly encouraged to take the Department’s “Writing Statements of Work” course, or an equivalent course. Peer and objective reviewers are excluded from these requirements. (*Peer review process pertains specifically to NIH in the peer review of applications for grants and contracts. Applications are evaluated by a peer review group composed of scientists from the extramural research community.) All courses are offered through HHS University.

(71 FR 76495, Dec. 20, 2006)

307.170–1 Training policy exceptions.

In the event there is an urgent requirement for a specific individual to serve as a program/project manager and COR/COTR (or alternate program/project manager and alternate COR/COTR) and that individual has not successfully completed the prerequisite training course(s), the HCA (not delegable) may waive the training requirement and authorize the individual to perform the project duties, provided that:

(a) The individual first meets with the cognizant Contracting Officer to review the HHS “Project Officer’s Contracting Handbook” to discuss the important aspects of the contracting-program office relationship as appropriate to the circumstances; and

(b) The individual attends the next scheduled “Basic Project Officer” course, or an equivalent course, and, for those current and proposed IT program/project managers, as well as alternate IT program/project managers and IT CORs/COTRs (as well as alternate CORs/COTRs) assigned to HHS IT projects (including those designated as major or tactical by HHS), the next “Early Warning Project Management System Workshop.”

(71 FR 76495, Dec. 20, 2006)

307.170–2 Training course prerequisites.

(The grade level for project officers attending the course should be GS-7 and above.) All project officers are encouraged to take the appropriate “Writing Statements of Work” course.
(2) Project officers with more than three years experience, and project officers with less than three years experience who have successfully completed the appropriate basic course, are qualified (and encouraged) to take the “Advanced Project Officer” course.

(3) Project Officers on HHS projects for which HHS or OMB requires an Exhibit 300 [under OMB Circular A–11, part 7] must successfully complete either HHS’ “Early Warning Project Management System Workshop” or an equivalent Earned Value Management course (see paragraph 307.170(c)).

(4) Additional information on prerequisites for attendance of these courses may be found in the “DHHS Acquisition Training and Certification Program Handbook.”

(b) Technical proposal evaluators. Technical proposal evaluators, regardless of experience, are required to take the appropriate “Basic Project Officer” course or its equivalent. Upon successful completion of the basic course, it is recommended that they take the appropriate “Advanced Project Officer” course. Peer and objective reviewers are excluded from these requirements.

All current and proposed IT program/project managers, alternate IT program/project managers, IT CORs/COTRs, and alternate CORs/COTRs assigned to HHS IT projects (including those IT projects designated as major or tactical), regardless of dollar threshold, must successfully complete the Department’s (offered through HHS University) one-day course entitled “Early Warning Project Management System Workshop,” or an equivalent Earned Value training course. Course equivalency will be determined jointly by the ASAM/OAMP and the HHS Office of the Chief Information Officer.

307.170–6 Warranting of Other Transaction Officers for Other Transactions.

(a) Other Transaction (OT) Officers shall possess the qualifications necessary to ensure that OTs are in compliance with applicable laws and regulations. The ASAM/OAMP will have the sole authority to warrant OT Officers at HHS. To receive a warrant as an HHS OT Officer, the individual must be a Contracting Officer, preferably with an unlimited warrant, with a Federal Acquisition Certification in Contracting (FAC–C) Level III, or a Level III or IV certified Grants Officer within HHS. Nominations for appointment of OT Officers shall be submitted to the Head of Contracting Activity in writing through appropriate organizational channels for review. The nomination package shall include the following:

(1) A completed Appendix A (“OT Officer’s Warrant Application Form”) of HHS Other Transaction Authority Guidebook;

(2) A recommendation from the employee’s immediate supervisor providing justification for the appointment of an HHS OT Officer;

(3) Current resume/OF 612/SF 171 and/or other documentation describing the employee’s experience, education, and training relevant to the position for which warrant authority is being sought;

(4) A copy of the employee’s most recent performance appraisal;

(5) Type of work to be performed under the warrant, i.e., executing OTs;
(6) A copy of the certificate issued under the HHS Acquisition Certification Program indicating the employee’s current certification level and a copy of previous warrant certificate, if applicable; or a copy of the certificate issued under the HHS Grants Certification Program, if applicable; and

(7) Proof of successful completion of the “Cooperative Agreements, CRADAs & Other Transactions” course taught by Federal Publications Seminars, or an equivalent course.

307.170–7 Training requirements for Other Transaction Officers.

OT Officers must successfully complete the “Cooperative Agreements, CRADAs & Other Transactions” course, or an equivalent course, prior to appointment as an OT Officer. Grants Officers who serve as OT Officers are required to have successfully completed the following courses: CON 110 (“Mission Support Planning”); CON 111 (“Mission Strategy Execution.”); CON 112 (“Mission Performance.”) or CON 120 (“Mission Focused Contracting.”), or equivalent courses prior to being appointed. The HHS OTA Board will determine course equivalency.

[71 FR 76495, Dec. 20, 2006]

307.170–8 Appointment of an Other Transaction Officer Technical Representative for an Other Transaction.

The program office nominates the Other Transaction Officer Technical Representative (OTR). The OT Officer prepares an OTR delegation memorandum that describes the OTR’s authority and assigns the OTR specific responsibilities, with limitations of authority, in writing. The OTR represents the OT Officer only to the extent delegated in the written appointment and does not have the authority to change the terms and conditions of the OT.

[71 FR 76495, Dec. 20, 2006]

307.170–9 Training requirement for an Other Transaction Officer Technical Representative.

(a) Program personnel selected to serve as an OTR or an alternate OTR assigned to an OT, and at least fifty percent of the technical evaluators that review the initial and any subsequent proposals or revisions thereof, shall successfully complete the Department’s “Basic Project Officer” course, or an equivalent course prior to being appointed. Determination of course equivalency shall be made by the HHS OTA Board.

(b) In addition to the Department’s required “Basic Project Officer” course, the OTR or alternate OTR assigned to an OT, and at least fifty percent of the technical evaluators that review the initial and any subsequent proposals or revisions thereof, shall successfully complete the “Cooperative Agreements, CRADAs & Other Transactions” course, or an equivalent course prior to being appointed and prior to assuming job duties associated with the OT.

(c) Refresher training in the policies and procedures of awarding cooperative agreements, CRADAs and OTs is required every three years.

Subpart 307.70—Considerations in Selecting an Award Instrument

307.7000 Scope of subpart.

This subpart provides guidance on the appropriate selection of award instruments consistent with 31 U.S.C. 6301–6308. This subpart explains the use of the contract as the award instrument for acquisition relationships, and the grant or cooperative agreement as the instrument for assistance relationships. This subpart provides guidance for determining whether to use the acquisition or assistance process to fulfill program needs.

307.7001 Distinction between acquisition and assistance.

(a) 31 U.S.C. 6301–6308 requires the use of contracts to acquire property or services for the direct benefit or use of the Government and grants or cooperative agreements to transfer money,
property, services, or anything of value to recipients to accomplish a public purpose of support or stimulation authorized by Federal statute.

(b) A contract is to be used as the legal instrument to reflect a relationship between the Federal Government and a recipient whenever:

(1) The principal purpose of the instrument is the acquisition, by purchase, lease, or barter, of property or services for the direct benefit or use of the Federal Government; or

(2) The Department determines in a specific instance that the use of a type of contract is appropriate. That is, it is determined in a certain situation that specific needs can be satisfied best by using the acquisition process. However, this authority does not permit circumventing the criteria for use of acquisition or assistance instruments. Use of this authority is restricted to extraordinary circumstances and only with the prior approval of the Deputy Assistant Secretary for Acquisition Management and Policy (DASAMP).

(c) A grant or cooperative agreement is to be used as the legal instrument to reflect a relationship between the Federal Government and a recipient whenever the principal purpose of the relationship is the transfer of money, property, services, or anything of value to the recipient to accomplish a public purpose of support or stimulation authorized by Federal statute.

(1) A grant is the legal instrument to be used when no substantial involvement is anticipated between the Department and the recipient during performance of the contemplated activity.

(2) A cooperative agreement is the legal instrument to be used when substantial involvement is anticipated between the Department and the recipient during performance of the contemplated activity.

(d) As a general rule, contracts are to be used for the following purposes:

(1) Evaluation (including research of an evaluative nature) of the performance of Government programs or projects or grantee activity initiated by the funding agency for its direct benefit or use.

(2) Technical assistance rendered to the Government, or on behalf of the Government, to any third party, including those receiving grants or cooperative agreements.

(3) Surveys, studies, and research which provide specific information desired by the Government for its direct activities, or for dissemination to the public.

(4) Consulting services or professional services of all kinds if provided to the Government or, on behalf of the Government, to any third party.

(5) Training projects where the Government selects the individuals or specific groups whose members are to be trained or specifies the content of the curriculum (not applicable to fellowship awards.)

(6) Planning for Government use.

(7) Production of publications or audiovisual materials required primarily for the conduct of the direct operations of the Government.

(8) Design or development of items for Government use or pursuant to agency definition or specifications.

(9) Conferences conducted on behalf of the Government.

(10) Generation of management information or other data for Government use.

307.7002 Procedures.

(a) OPDIV program officials should use existing budget and program planning procedures to propose new activities and major changes in ongoing programs. It is the responsibility of these program officials to meet with the HCA and the principal grants management official, or their designees, to distinguish the relationships and determine whether award is to be made through the acquisition process or assistance process. This determination should be made prior to the time when the annual acquisition plan is reviewed and approved so that the plan will reflect all known proposed contract actions. The cognizant contracting officer will confirm the appropriateness of the use of the contract instrument when reviewing the request for contract.

(b) Shifts from one award instrument to another must be fully documented in the appropriate files to show a fundamental change in program purpose.
that unequivocally justifies the rationale for the shift.

(c) OPDIVs must ensure that the choice of instrument is determined in accordance with 31 U.S.C. 6301-6308 and applicable departmental policies. If, however, there are major individual transactions or programs which contain elements of both acquisition and assistance in such a way that they cannot be characterized as having a principal purpose of one or the other, guidance should be obtained from the Director, OAMP, through normal channels, before proceeding with a determination.

(d) Any public notice, program announcement, solicitation, or request for applications or proposals must indicate whether the intended relationship will be one of acquisition or assistance and specify the award instrument to be used.

Subpart 307.71—Requests for Contract

307.7100 Scope of subpart.

This subpart prescribes the format and contents of the request for contract (RFC) and provides procedures for its preparation and submission.

307.7101 General.

The program office’s preparation of the RFC and submission to the contracting office completes the presolicitation phase of the acquisition planning process and commences the solicitation phase. The RFC is the formal document which initiates the preparation of the solicitation by the contracting office and sets the acquisition process in motion. It is the result of the planning by the project officer and contracting officer and contains much of the pertinent information necessary for the development of a sound, comprehensive solicitation.

307.7102 Procedures.

The program office should submit the RFC to the contracting office no later than the date agreed to by the contracting officer and the project officer in the milestone schedule (see 307.104(h)), unless a revised due date has been established by mutual agreement.

307.7103 Responsibilities.

(a) It is the responsibility of the project officer to prepare the RFC so that it complies with the requirements of this subpart and any OPDIV guidance issued in accordance with this subpart.

(b) Prior to the submission of the RFC to the contracting office, the head of the program office sponsoring the project shall review the RFC to ensure that all required information is provided in the prescribed format, and a technical review of the statement of work has been made. The level and extent of the technical review is to be commensurate with the estimated cost, importance, and complexity of the proposed acquisition, and must be thorough enough to ensure that vague and ambiguous language is eliminated, the statement of work is structured by phases or tasks, if appropriate, and methods are available for assessing the contractor’s technical, cost, and delivery performance.

307.7104 Transmittal.

The RFC must be conveyed to the contracting office by use of a cover memorandum. The cover memorandum must be signed by the head of the sponsoring program office and include both a statement attesting to the conclusiveness of the review described in 307.7103(b) and a list identifying all attachments to the RFC.

71 FR 76496, Dec. 20, 2006

307.7105 Format and content.

The Department is in the process of standardizing a format for the RFC. In the interim, the information in paragraph (a) of this section must be included. Paragraph (b) contains information that must also be included if applicable.

(a) The RFC must include:

(1) Purpose of the contract. A brief, general description of the requirement, including the citation of the legislation which authorizes the program or project, and a statement as to the intended purpose/use of the proposed contract.
(2) Period of performance. The number of months (or other time period) required for total performance and, if applicable, for each phase of work indicated in the statement of work, as well as the proposed starting date.

(3) Estimated cost and funds citation. An estimate of the total cost of the proposed contract and, if applicable, the estimate for each phase indicated in the statement of work. The project officer must provide a cost breakdown of all contributing cost factors, an estimate of the technical staff hours, direct material, subcontracting, travel, etc., and may consult with contracting and cost advisory personnel in developing this information. This section must include the certification of funds availability for the proposed acquisition, along with the appropriateness and accounting information citations. When funds for the proposed acquisition are not currently available for obligation but are anticipated, a statement of intent to commit funds from the financial management officer shall be included in lieu of the certification of funds availability. (Contracts cannot be awarded unless funds are available, but see FAR 32.703–2).

(4) Specification, purchase description, or statement of work. A description of the work to be performed that may be in the form of a specification, purchase description, or statement of work. Guidance concerning the statement of work and its contents is contained in 307.7106. Use of the specification is primarily limited to supply or service contracts where the material end item or service to be delivered is well defined by the Government. To the maximum extent possible, requirements should be defined as performance-based statements of work that focus on outcomes or results. If the RFC for a service contract is not utilizing a performance-based statement of work, with associated measures and a quality surveillance plan, the rationale for this determination must be documented. If a performance-based service contract is utilized, the RFC must detail the performance standards that must be met, the quality surveillance plan that will be implemented and the performance incentives to be used, if applicable.

(5) Schedule of deliverables/reporting requirements. A description of what is to be delivered, including, if applicable, technical and financial progress reports and any final report, and the required date of delivery for each deliverable. Reporting requirements should be tailored to the instant acquisition and should not be unnecessarily extensive or detailed. All delivery and reporting requirements shall include the quantities, the place of delivery, and time of delivery.

(6) Sources for solicitation. A list of known potential sources by name, size, type of ownership, and mailing address. The project officer is encouraged to use trade and professional journals and publications and conduct a thorough market research to identify new prospective sources to supplement the list of known sources. Efforts to identify set-aside possibilities, e.g., 8(a), HUBZone, veteran-owned, service-disabled veteran-owned, and small business, and efforts to identify sources such as small disadvantaged and women-owned small businesses must be documented.

(7) Project officer and alternate. The project officer’s name, title, organization, mailing address, and telephone number, along with the same data for the project officer’s alternate, and a statement that these individuals have completed the Department’s project officer training course (see 307.170).

(b) The RFC must include, if applicable to the acquisition:

(1) Background and need. The background, history, and necessity for the proposed contract. This section is to include prior, present, and planned efforts by the program office in the same or related areas, and a description of efforts by other departmental activities and Federal agencies in the same or related program areas, if known. In addition, specific project information, such as the relevance or contribution to overall program objectives, reasons for the need, priority, and project overlap are to be provided.

(2) Reference materials. A list, by title and description, of study reports, plans, drawings, and other data to be made available to prospective offerors for use in preparation of proposals and/
or the contractor for use in performance of the contract. The project officer must indicate whether this material is currently available or when it will be available, and how it may be accessed by potential offerors.

(3) Technical evaluation criteria and instructions. Technical evaluation criteria, which have been developed based on the requirements of the specific project, and any instructions and information which will assist in the preparation of prospective offerors’ technical proposals. Evaluation factors may include understanding of the problem, technical approach, experience, personnel, facilities, etc. Criteria areas discussed in the statement of work and the relative order of importance or weights assigned to each of these areas for technical evaluation purposes must be identified.

(4) Special program clearances or approvals. The following special program clearances or approvals should be reviewed for applicability to each acquisition. Those which are applicable should be addressed during the planning discussions between the Project Officer and Contracting Officer/Contract Specialist (see 307.104(c)) and immediate action should be initiated by the Project Officer to obtain the necessary clearances or approvals. The Contracting Officer/Contract Specialist shall provide a comprehensive checklist of these and any OPDIV special approvals, clearances, and requirements to the program office. If the approval or clearance has been requested and is being processed at the time of RFC submission, a footnote to this effect, including all pertinent details, must be included in this section.

(i) Commercial activities. (OMB Circular No. A–76). An RFC must contain a statement as to whether the proposed solicitation is or is not to be used as part of an OMB Circular No. A–76 public-private cost comparison. (See OMB Circular No. A–76, Performance of Commercial Activities.)

(ii) Printing. The acquisition of printing and high volume duplicating by contract is prohibited unless it is authorized by the Joint Committee on Printing of the U.S. Congress. Procedures to be followed are contained in the “Government Printing and Binding Regulations” and the HHS Printing Management Manual and FAR subpart 8.8.

(iii) Paperwork Reduction Act. Under the Paperwork Reduction Act of 1995, a Federal agency shall not collect information or sponsor the collection of information from ten or more persons (other than Federal employees acting within the scope of their employment) unless, in advance, the agency has submitted a request for Office of Management and Budget (OMB) review, to the OMB, and the OMB has approved the proposed collection of information. Procedures for the approval may be obtained by contacting the OPDIV reports clearance officer. (See 5 CFR part 1320).

(iv) Publications. All projects that will result in contracts which include publications development (print products, electronic bulletin boards, posting on the Internet) require review and approval by the Office of the Assistant Secretary for Public Affairs (OASPA). Form HHS–615, Publication Planning and Clearance Request, must be forwarded to OASPA through the OPDIV public affairs officer. Publications are defined in Chapter 5–00–15 of the Public Affairs Management Manual.

(v) Public affairs services. Projects for the acquisition of public affairs services in excess of $5,000 must be submitted to the Office of the Assistant Secretary for Public Affairs (OASPA) for review and approval on Form HHS–524, Request for Public Affairs Services Contract.

(vi) Audiovisual. All projects which will result in contracts which include audiovisuals, regardless of the audio, video, or audiovisual medium employed, require review and approval by the Office of the Assistant Secretary for Public Affairs (OASPA). Form HHS–524A, Publication Planning and Clearance Request, must be forwarded to OASPA through the OPDIV public affairs officer. Audiovisuals are defined in chapter 6–00–15 of the Public Affairs Management Manual.

(vii) Privacy Act (5 U.S.C. 552a). Whenever the Department contracts for the design, development, operation, or maintenance of a system of records on individuals on behalf of the Department to accomplish a departmental
function, the Privacy Act is applicable. The program official, after consultation with the activity’s Privacy Act Coordinator and the Office of General Counsel, as necessary, shall include a statement in the request for contract as to the applicability of the Act. Whenever an acquisition is subject to the Act, the program official prepares a “system notice” and has it published in the Federal Register. (See HHS Privacy Act regulation, 45 CFR part 5b; FAR subpart 24.1 and subpart 324.1.)

(viii) Foreign research. All foreign research contract projects to be conducted in a foreign country and financed by HHS funds (U.S. dollars) must have clearance by the Department of State with respect to consistency with foreign policy objectives. This clearance should be obtained prior to negotiation. Procedures for obtaining this clearance are set forth in the HHS General Administration Manual, Chapter 20–60.

(5) Identification and disposition of data. Identification of the data expected to be generated by the acquisition and an indication of whether the data are to be delivered to the Department or to be retained by the contractor is required. The project officer must also include information relative to the use, maintenance, disclosure, and disposition of data. The project officer must include a statement as to whether or not another acquisition, based upon the data generated by the proposed acquisition, is anticipated.

(6) Government property. If known, the type of Government property, individual items, and quantities of Government property to be furnished to, or allowed to be acquired by, the resultant contractor should be indicated. The project officer must specify when the Government property is to be made available.

(7) Special terms and conditions. Any suggested special terms and conditions not already covered in the statement of work.

(8) Justification for other than full and open competition. If the proposed acquisition is to be awarded using other than full and open competition, a justification prepared in accordance with FAR subpart 6.3 and subpart 306.3 is required.

307.7106 Statement of work.

(a) General. A statement of work (SOW) describes the work or services to be performed in reaching an end result without describing the method that will be used unless the method of performance is critical or required in order to obtain successful performance. The SOW should be clear and concise and must completely define the responsibilities of both the contractor and the Government. The SOW should be worded to make more than one interpretation virtually impossible.

(b) Term (level of effort) vs. completion work statement. Careful distinctions must be drawn between term (level of effort) SOWs, which essentially require the furnishing of technical effort and which may include a report thereof, and completion type work statements, which require development of tangible items designed to meet specific performance and/or design characteristics. (See FAR 16.306(d) for distinction).

(1) Term (or level of effort). A term or level of effort type SOW is appropriate for research where one seeks to discover the feasibility of later development, or to gather general information. A term or level of effort type SOW may only specify that some number of labor-hours be expended on a particular course of research, or that a certain number of tests be run, without reference to any intended conclusion.

(2) Completion. A completion type SOW is appropriate to development work where the feasibility of producing an end item is already known. A completion type SOW may describe what is to be achieved through the contracted effort, such as development of new methods, new end items, or other tangible results.

(c) Phasing. Individual research, development, or demonstration projects frequently lie well beyond the present state of the art and entail procedures and techniques of great complexity and difficulty. Under these circumstances, a contractor, no matter how carefully selected, may be unable to deliver the desired result. Moreover, the job of
evaluating the contractor’s progress is often difficult. Such a contract is frequently phased and often divided into stages of accomplishment, each of which must be completed and approved before the contractor may proceed to the next. Phasing makes it necessary to develop methods and controls, including reporting requirements for each phase of the contract and criteria for evaluation of the report submitted, that will provide, at the earliest possible time, appropriate data for making decisions relative to future phases. A phased contract may include stages of accomplishment such as research, development, and demonstration. Within each phase, there may be a number of tasks which should be included in the SOW. When phases of work can be identified, the SOW will provide for phasing and the request for proposals will require the submission of proposed costs by phases. The resultant contract will reflect costs by phases, require the contractor to identify incurred costs by phases, establish delivery schedules by phase, and require the written acceptance of each phase. The provisions of the Limitation of Cost clause shall apply to the estimated cost of each phase. Contractors shall not be allowed to incur costs for phases which are dependent upon successful completion of earlier phases until written acceptance of the prior work is obtained from the contracting officer.

(d) Elements of the SOW. The elements of the SOW will vary with the objective, complexity, size, and nature of the acquisition. In general, it should include the following:

(1) Purpose of the project. This includes a general description of the objectives of the project and the desired results.

(2) Background information. This includes a brief history of the project and the importance of the project to the overall program objectives.

(3) A detailed description of the technical requirements. The statement of work should provide sufficient detail to accurately reflect the Government’s requirement. It should state what is to be done without prescribing the method to be used and should include performance standards. The statement of work may be broken down into tasks and subtasks. The degree of breakout depends on the size and complexity of the project. The statement of work should indicate whether the tasks are sequential or concurrent.

(4) Reference material. All reference material to be used in the conduct of the project that indicates how the work is to be carried out must be identified. Applicability should be explained, and a statement made as to where the material can be obtained.

(5) Level of effort. When a level of effort is required, the number and type of personnel required should be stated. If known, the type and degree of expertise should be specified.

(6) Special requirements. (as applicable). An unusual or special contractual requirement, which would impact on contract performance, should be included as a separate section.

(7) Deliverables reporting requirements. All deliverables and/or reports must be clearly and completely described. Include the timeframe for completion, the format, and the number of copies.

307.7107 Review.

Upon receipt of the RFC, the contracting officer shall review its contents to ensure that all pertinent information has been provided by the program office and that it includes an acceptable SOW. If pertinent information is missing or the SOW is inadequate, the contracting officer shall obtain or clarify the information as soon as possible so that the acquisition schedule can be met. If the program office delays furnishing the information or clarification, the contracting officer should notify the head of the sponsoring program office, in writing, of the possible slippage in the acquisition schedule and the need for an expeditious remedy. The contracting officer should also notify the chief of the contracting office. A program office’s or project officer’s continued failure to adhere to agreed on milestones should also be reported to the head of the contracting activity.

Subpart 309.4—Debarment, Suspension, and Ineligibility

309.403 Definitions.

Acquiring agency’s head or designee, as used in the FAR, shall mean, unless otherwise stated in this subpart, the head of the contracting activity. Acting in the capacity of the acquiring agency’s head, the head of the contracting activity may make the required justifications or determinations, and take the necessary actions, specified in FAR 9.405, 9.406, and 9.407 for his or her respective activity, but only after obtaining the written approval of the debarring or suspending official, as the case may be.

Debarring official means the Assistant Secretary for Administration and Management, or his/her designee.

Initiating official means either the contracting officer, the head of the contracting activity, the Deputy Assistant Secretary for Acquisition Management and Policy, or the Inspector General.

Suspending official means the Assistant Secretary for Administration and Management, or his/her designee.

[71 FR 76497, Dec. 20, 2006]
309.406 Debarment.

309.406–3 Procedures.

(a) Investigation and referral. When an apparent cause for debarment becomes known, the initiating official shall prepare a report containing the information required by 309.470–2, along with a written recommendation and forward it through appropriate channels to the debarring official. Reports shall be forwarded in accordance with 309.470–1. The debarring official, the Deputy Assistant Secretary for Acquisition Management and Policy, shall initiate an investigation.

(b) Decision making process. The debarring official shall review the results of the investigation, if any, and make a written determination whether or not debarment procedures are to be commenced. A copy of the determination shall be promptly sent through appropriate channels to the initiating official and the Contracting Officer. If it is determined that debarment procedures shall commence, the debarring official shall consult with the Office of General Counsel and then notify the contractor in accordance with FAR 9.406–3(c). If the action is not based on a conviction or judgment and, subject to the provisions of FAR 9.407–3(b)(2), the contractor's submission in response to the notice raises a genuine dispute over facts material to the proposed debarment, the debarring official shall arrange for fact-finding hearings and take the necessary actions specified in FAR 9.407–3(b)(2).

309.470 Reporting of suspected causes for debarment or suspension, or the taking of evasive actions.

309.470–1 Situations where reports are required.

A report incorporating the information required by 309.470–2 shall be forwarded, in duplicate, by the Contracting Officer through acquisition channels to OAMP when:

(a) A contractor has committed, or is suspected of having committed, any of the acts described in FAR 9.406–2 or FAR 9.407–2; or

(b) A contractor is suspected of attempting to evade the prohibitions of debarment or suspension imposed under this subject, or any other comparable regulation, by changes of address, multiple addresses, formation of new companies, or by other devices.

309.470–2  Contents of reports.

Each report prepared under 309.470–1 shall be coordinated with the Office of the General Counsel and shall include the following information, where available:

(a) Name and address of contractor.
(b) Name of the principal officers, partners, owners, or managers.
(c) All known affiliates, subsidiaries, or parent firms, and the nature of the affiliation.
(d) Description of the contract or contracts concerned, including the contract number and office identifying numbers or symbols, the amount of each contract, the amount paid the contractor and the amount still due, and the percentage of work completed and to be completed.
(e) The status of vouchers.
(f) Whether contract funds have been assigned pursuant to the Assignment of Claims Act, as amended, (31 U.S.C. 3727, 41 U.S.C. 15), and, if so assigned, the name and address of the assignee and a copy of the assignment.
(g) Whether any other contracts are outstanding with the contractor or any affiliates, and, if so, the amount of the contracts, whether these funds have been assigned pursuant to the Assignment of Claims Act, as amended, (31 U.S.C. 3727, 41 U.S.C. 15), and the amounts paid or due on the contracts.
(h) A complete summary of all available pertinent evidence.
(i) A recommendation as to the continuation of current contracts.
(j) An estimate of damages, if any, sustained by the Government as a result of the action of the contractor, including an explanation of the method used in making the estimate.
(k) The comments and recommendations of the contracting officer and statements regarding whether the contractor should be suspended or debarred, whether any limitations should be applied to the action, and the period of any proposed debarment.
(l) As an enclosure, a copy of the contract(s) or pertinent excerpts therefrom, appropriate exhibits, testimony or statements of witnesses, copies of assignments, and other relevant documentation or a written summary of any information for which documentation is not available.

311.003  Defining Electronic Information Technology (EIT) requirements.

HHS officials who are defining agency needs for EIT products and services and performing market research to meet those needs can use the Buy Accessible Wizard (http://www.buyaccessible.gov) managed by the General Services Administration to document EIT requirements, identify the applicable Section 508 standards, and document the market research.

312.101  Policy.

(a) It is HHS policy to maximize its buying power, reduce acquisition administrative costs, and develop long-term, mutually beneficial, open partnerships with best-in-class providers of products and services. Accordingly, HHS has implemented a Strategic Sourcing Program under which Indefinite-Delivery/Indefinite-Quantity contracts (IDIQs) and Blanket Purchase Agreements (BPAs), known as HHS-wide Acquisition Contracts (HWACs), are awarded to allow for savings for commercial items and services across HHS and make the acquisition process more efficient.

(b) If consideration is being given to soliciting or acquiring a product or service from a source, other than HHS Contract Closeout IDIQs or Strategic Sourcing BPAs, when the category of the current requirement (e.g. Lab Supplies, Events Management) is encompassed in the portfolio of existing IDIQ or BPA categories a waiver request must be prepared and approved in advance of a purchase or processing of a requirement.
(c) The instructions, including approval requirements, and waiver form, are available at http://dbh.ogam2000.com/HHS_Strategic_Sourcing/Data_Collection/waiver.asp.

The following links provide more detailed information regarding the supplies, equipment, and services in each of the HWACs: the HHS Acquisition Integration and Modernization Web site: http://intranet.hhs.gov/hvac/index.html and the HHS Strategic Sourcing Web site: http://intranet.hhs.gov/ssc/.

Subpart 315.2—Solicitation and Receipt of Proposals and Information

315.204 Contract format.

315.204–1 Uniform contract format.

(a) When preparing solicitations and resulting contracts, Contracting Officers/Contract Specialists are strongly encouraged to use as a guide the HHS
315.208 Submission, modification, revision, and withdrawal of proposals.

(b) When the head of the contracting activity (HCA) for a health agency determines that certain classes of biomedical or behavioral research and development acquisitions should be subject to conditions other than those specified in FAR 52.215–1(c)(3), the HCA may authorize the use of the provision at 352.215–70 in addition to the provision at FAR 52.215–1. This is an authorized deviation.

(2) When the provision at 352.215–70 is included in the solicitation and a proposal is received after the exact time specified for receipt, the contracting officer, with the assistance of cost and technical personnel, shall make a written determination as to whether the proposal meets the requirements of the provision at 352.215–70 and, therefore, can be considered.

315.209 Solicitation provisions and contract clauses.

(a) Paragraph (e) of the provision at 352.215–1 shall be used in place of that specified at FAR 52.215–1(e). This is an authorized deviation.

Subpart 315.3—Source Selection

315.305 Proposal evaluation.

(a)(1) Cost or price evaluation. (i) The Contracting Officer shall evaluate business proposals in accordance with the requirements set forth in FAR 15.404. The extent of cost or price analysis in each case depends on the contract type, the amount of the proposal, the technical complexity, and related cost or price. The Project Officer shall be requested to analyze the following elements, if applicable, to determine if they are necessary and reasonable for efficient contract performance:

(A) The number of labor hours proposed for the various labor categories and the mix in relation to the technical requirements;

(B) Types, numbers and hours/days of proposed consultants;

(C) The kinds and quantities of material, equipment, supplies, and services;

(D) Kinds and quantities of information technology;

(E) Logic of proposed subcontracting; and

(F) Travel proposed, including number of trips, locations, purpose, and travelers.

(ii) The Project Officer shall provide written comments, including the rationale for any exceptions to the elements. The Project Officer’s comments shall be used for negotiations or to support award without discussions. The Contracting Officer should also request assistance of a cost/price analyst, when necessary. The Contracting Officer’s negotiation memorandum must include the rationale used in determining that the price or cost is fair and reasonable.

(2) Past performance evaluation. When evaluating past performance, the contracting officer is responsible for conducting reference checks to obtain information concerning the performance history of offerors. The contracting officer may require the assistance of the project officer as well as other Government technical personnel in performing this function.

(3) Technical evaluation. (i) Technical evaluation plan. (A) A technical evaluation plan may be required by the contracting officer, at his/her discretion, when an acquisition is sufficiently complex as to warrant a formal plan.

(B) The technical evaluation plan should include at least the following:

(1) A list of recommended technical evaluation panel members, their organizations, a list of their major consulting clients (if applicable), their qualifications, and curricula vitae (if applicable);

(2) A justification for using non-Government technical evaluation panel members. (Justification is not required if non-Government evaluators will be used in accordance with standard contracting activity procedures or policies);
(3) A statement that there is no apparent or actual conflict of interest regarding any recommended panel member;

(4) A copy of each rating sheet, approved by the contracting officer, to be used to assure consistency with the evaluation criteria; and

(5) A brief description of the general evaluation approach.

(C) The technical evaluation plan must be signed by an official within the program office in a position at least one level above the project officer, or in accordance with contracting activity procedures.

(D) The technical evaluation plan shall be submitted to the Contracting Officer for review and approval before the solicitation is issued. The Contracting Officer shall make sure that the significant factors and subfactors relating to the evaluation are reflected in the evaluation criteria when conducting the review of the plan.

(ii) Technical evaluation panel.

(A) General. (1) A technical evaluation panel is required for all acquisitions subject to this subpart which are expected to exceed $500,000 and in which technical evaluation is considered a key element in the award decision. The contracting officer has the discretion to require a technical evaluation panel for acquisitions not exceeding $500,000 based on the complexity of the acquisition.

(2) The technical evaluation process requires careful consideration regarding the size, composition, expertise, and function of the technical evaluation panel. The efforts of the panel can result in the success or failure of the acquisition.

(B) Role of the Project Officer. (1) The Project Officer is the Contracting Officer’s technical representative for the acquisition action. The Project Officer may be a voting member of the technical evaluation panel, and may also serve as the chairperson of the panel, unless prohibited by law or contracting activity procedures.

(2) The Project Officer is responsible for recommending panel members who are knowledgeable in the technical aspects of the acquisition and capable of identifying strengths and weaknesses in the proposals received. Government employees serving as panel members must be selected in accordance with the requirements set forth in 307.170.

(3) The Project Officer shall ensure that persons possessing expertise and experience in addressing issues relative to sex, national origin, and handicapped discrimination are included as panel members for acquisitions in which such issues are applicable.

(4) The Project Officer shall submit the list of recommended panel members to an official within the project office in a position at least one level higher. This official will review the list and select the chairperson.

(5) The Project Officer shall arrange for adequate and secure working space for the panel.

(C) Role of the contracting officer. (1) The term “contracting officer,” as used in this subpart, may be the contracting officer or his/her designated representative within the contracting office.

(2) The contracting officer shall not serve as a member of the technical evaluation panel but should be available to:

(i) Address the initial meeting of the technical evaluation panel;

(ii) Provide assistance to the evaluators as required; and

(iii) Ensure that the scores adequately reflect the written technical report comments.

(D) Conflict of interest. (1) If a panel member has an actual or apparent conflict of interest related to a proposal under evaluation, he/she shall be removed from the panel and replaced with another evaluator. If a suitable replacement is not available, the panel shall perform the review without a replacement.

(2) For the purposes of this subpart, conflicts of interest are defined in the Standards of Ethical Conduct for Employees of the Executive Branch (5 CFR part 2635), Supplemental Standards of Ethical Conduct for Employees of the Department of Health and Human Services (5 CFR part 5501), and the Procurement Integrity Act. For outside evaluators serving on the technical evaluation panel, see paragraph (a)(3)(ii)(F) of this section.

(E) Continuity of evaluation process. (1) The technical evaluation panel shall evaluate all original proposals, make
recommendations to the chairperson regarding strengths and weaknesses of proposals, and, if required by the Contracting Officer, assist the Contracting Officer during communications and discussions, and review supplemental, revised and/or final proposal revisions. To the extent possible, the same evaluators should be available throughout the entire evaluation and selection process to ensure continuity and consistency in the treatment of proposals. The following are examples of circumstances when it would not be necessary for the technical evaluation panel to evaluate revised proposals submitted during the acquisition:

(i) The answers to questions do not have a substantial impact on the proposal;

(ii) Final proposal revisions are not materially different from the original proposals; or

(iii) The rankings of the offerors are not affected because the revisions to the proposals are relatively minor.

(2) The chairperson, with the concurrence of the contracting officer, may decide not to have the panel evaluate the revised proposals. Whenever this decision is made, it must be fully documented by the chairperson and approved by the contracting officer.

(3) When technical evaluation panel meetings are considered necessary by the contracting officer, the attendance of evaluators is mandatory. When the chairperson determines that an evaluator’s failure to attend the meetings is prejudicial to the evaluation, the chairperson shall remove and/or replace the individual after discussing the situation with the contracting officer and obtaining his/her concurrence and the approval of the official responsible for appointing the panel members.

(4) When continuity of the evaluation process is not possible, and either new evaluators are selected or the size of the evaluation panel is reduced, all proposals shall be reviewed by each panel member at the current stage of the acquisition (i.e., initial proposal, final proposal revisions, etc.). Also, guidance should be provided concerning what to do if an unusually large number of proposals are received, including how to determine what constitutes an unusually large number of proposals.

(F) Use of outside evaluators. (1) The National Institutes of Health (NIH) and the Substance Abuse and Mental Health Services Administration (SAMHSA) are required to have a peer review of research and development contracts in accordance with Public Law 93–352 as amended by Public Law 94–63; 42 U.S.C. 269 a and 42 U.S.C. 290aa–3 respectively. This legislation requires peer review of projects and proposals, and not more than one-fourth of the members of a peer review group may be officers or employees of the United States. NIH and SAMHSA are therefore exempt from the provisions of 315.305(a)(3)(ii) to the extent that 42 U.S.C. 289a and 290aa–3 apply. Conflicts of interest are addressed at 42 CFR part 52h. Other agencies subject to statutory scientific peer review requirements are also exempt from the requirements of paragraph (a)(3)(ii) of this section to the extent that these requirements are inconsistent with their legislative requirements.

(2) Decisions to disclose proposals to evaluators outside of the Government shall be made by the official responsible for appointing panel members in accordance with operating division procedures. The avoidance of organizational conflict of interest and competitive relationships must be taken into consideration when making the decision to use outside evaluators.

(3) When it is determined to disclose a solicited proposal outside the Government for evaluation purposes, the following or similar conditions shall be included in the written agreement with evaluator(s) prior to disclosure:

CONDITIONS FOR EVALUATING PROPOSALS

The evaluator agrees to use the data (trade secrets, business data, and technical data) contained in the proposal for evaluation purposes only. The foregoing requirement does not apply to data obtained from another source without restriction. Any notice or legend placed on the proposal by either the Department or the submitter of the proposal shall be applied to any reproduction or abstract provided to the evaluator or made by the evaluator. Upon completion of the evaluation, the evaluator shall return to the Government the furnished copy of the proposal or abstract, and
Health and Human Services

all copies thereof, to the Departmental office which initially furnished the proposal for evaluation.

Unless authorized by the Department’s initiating office, the evaluator shall not contact the submitter of the proposal concerning any aspects of its contents.

The evaluator’s employees and subcontractors shall abide by these conditions.

(iii) Receipt of proposals.
(A) After the closing date set by the solicitation for the receipt of proposals, the contracting officer will use a transmittal memorandum to forward the technical proposals to the project officer or chairperson for evaluation. The business proposals will be retained by the contracting officer for evaluation.

(B) The transmittal memorandum shall include at least the following:
(1) A list of the names of the organizations submitting proposals;
(2) A reference to the need to preserve the integrity of the source selection process;
(3) A statement that only the contracting officer is to conduct discussions;
(4) A requirement for a technical evaluation report in accordance with paragraph (a)(3)(vi) of this section; and
(5) The establishment of a date for receipt of the technical evaluation report.

(iv) Convening the technical evaluation panel.
(A) Normally, the technical evaluation panel will convene to evaluate the proposals. However, there may be situations when the contracting officer determines that it is not feasible for the panel to convene. Whenever this decision is made, care must be taken to assure that the technical review is closely monitored to produce acceptable results.

(B) When a panel is convened, the chairperson is responsible for the control of the technical proposals provided to him/her by the contracting officer for use during the evaluation process. The chairperson will generally distribute the technical proposals prior to the initial panel meeting and will establish procedures for securing the proposals whenever they are not being evaluated to insure their confidentiality. After the evaluation is complete, all proposals must be returned to the contracting officer by the chairperson.

(C) The contracting officer shall address the initial meeting of the panel and state the basic rules for conducting the evaluation. The contracting officer shall provide written guidance to the panel if he/she is unable to attend the initial panel meeting. The guidance should include:
(1) Explanation of conflicts of interest;
(2) The necessity to read and understand the solicitation, especially the statement of work and evaluation criteria, prior to reading the proposals;
(3) The need for evaluators to restrict the review to only the solicitation and the contents of the technical proposals;
(4) The need for each evaluator to review all the proposals;
(5) The need to watch for ambiguities, inconsistencies, errors, and deficiencies which should be surfaced during the evaluation process;
(6) An explanation of the evaluation process and what will be expected of the evaluators throughout the process;
(7) The need for the evaluators to be aware of the requirement to have complete written documentation of the individual strengths and weaknesses which affect the scoring of the proposals; and
(8) An instruction directing the evaluators that, until the award is made, information concerning the acquisition must not be disclosed to any person not directly involved in the evaluation process.

(v) Rating and ranking of proposals.
The evaluators will individually read each proposal, describe tentative strengths and weaknesses, and independently develop preliminary scores in relation to each evaluation factor set forth in the solicitation. After this has been accomplished, the evaluators shall discuss in detail the individual strengths and weaknesses described by each evaluator and, if possible, arrive at a common understanding of the major strengths and weaknesses and the potential for correcting each offeror’s weakness(es). Each evaluator will score each proposal, and then the technical evaluation panel will collectively rank the proposals. Generally, ranking will be determined by adding
the numerical scores assigned to the evaluation factors and finding the average for each offeror. The evaluators should then identify whether each proposal is acceptable or unacceptable. Predetermined cutoff scores shall not be employed.

(vi) Technical evaluation report. A technical evaluation report shall be prepared and furnished to the contracting officer by the chairperson and maintained as a permanent record in the contract file. The report must reflect the ranking of the proposals and identify each proposal as acceptable or unacceptable. The report must also include a narrative evaluation specifying the strengths and weaknesses of each proposal, a copy of each signed rating sheet, and any reservations, qualifications, or areas to be addressed that might bear upon the selection of sources for negotiation and award. Concrete technical reasons supporting a determination of unacceptability with regard to any proposal must be included. The report should also include specific points and questions which are to be raised in discussions or negotiations.

315.306 Exchanges with offerors after receipt of proposals.

(d) Exchanges with offerors after establishment of the competitive range. The contracting officer and project officer should discuss the uncertainties and/or deficiencies that are included in the technical evaluation report for each proposal in the competitive range. Technical questions should be developed by the project officer and/or the technical evaluation panel and should be included in the technical evaluation report. The management, past performance and cost or price questions should be prepared by the contracting officer with assistance from the project officer and/or panel as required. The method of requesting offerors in the competitive range to submit the additional information will vary depending on the complexity of the questions, the extent of additional information requested, the time needed to analyze the responses, and the time frame for making the award. However, to the extent practicable, all questions and answers should be in writing. Each offeror in the competitive range shall be given an equitable period of time for preparation of responses to questions to the extent practicable. The questions should be developed so as to disclose the ambiguities, uncertainties, and deficiencies of the offeror.

315.307 Proposal revisions.

(b) Final proposal revisions are subject to a final evaluation of price or cost and other salient factors by the contracting officer and project officer with assistance from a cost/price analyst, and an evaluation of technical factors by the technical evaluation panel, as necessary. Proposals may be technically rescored and reranked by the technical evaluation panel and a technical evaluation report prepared. To the extent practicable, the evaluation shall be performed by the same evaluators who reviewed the original proposals. A final evaluation of past performance will be made by the contracting officer and project officer. The technical evaluation panel may be involved in the final evaluation of past performance if the panel is comprised solely of Government personnel.

315.370 Finalization of details with the selected source.

(a) After selection of the successful proposal, finalization of details with the selected offeror may be conducted if deemed necessary. However, no factor which could have any effect on the selection process may be introduced after the common cutoff date for receipt of final proposal revisions. The finalization process shall not in any way prejudice the competitive interest or rights of the unsuccessful offerors. Finalization of details with the selected offeror shall be restricted to defining the final agreement on terms and conditions, assuming none of these factors were involved in the selection process.

(b) Caution must be exercised by the contracting officer to insure that the finalization process is not used to change the requirements contained in the solicitation, nor to make any other changes which would impact on the source selection decision. Whenever a
material change occurs in the requirements, the competition must be re-opened and all offerors submitting final proposal revisions must be given an opportunity to resubmit proposals based on the revised requirements. Whenever there is a question as to whether a change is material, the contracting officer should obtain the advice of technical personnel and legal counsel before reopening the competition. Significant changes in the offeror’s cost proposal may also necessitate a reopening of competition if the changes alter the factors involved in the original selection process.

(c) Should finalization details beyond those specified in paragraph (a) of this section be required for any reason, discussions must be reopened with all offerors submitting final proposal revisions.

(d) Upon finalization of details, the contracting officer should obtain a confirmation letter from the successful offeror which includes any revisions to the technical proposal, the agreed to price or cost, and, as applicable, a certificate of current cost or pricing data.

315.371 Contract preparation and award.

(a) After details have been finalized with the selected offeror, the Contracting Officer shall:
   (1) Prepare the negotiation memorandum in accordance with 315.372;
   (2) Prepare the contract containing all agreed to terms and conditions and clauses required by law or regulation;
   (3) Include in the contract file the pertinent documents referenced in FAR 4.803; and
   (4) Obtain the appropriate approval of the proposed contract award(s) in accordance with subpart 304.71 and contracting activity procedures.

(b) After receiving the required approvals, the contract should be transmitted to the prospective contractor for signature. The prospective contractor must be informed that the contract is not effective until accepted by the contracting officer.

(c) The contract shall not be issued until the finance office certifies that the funds are available for obligation.

315.372 Preparation of negotiation memorandum.

The negotiation memorandum or summary of negotiations is a complete record of all actions leading to award of a contract and is prepared by the Contracting Officer/Contract Specialist to support the source selection decision discussed in FAR 15.308. It should be in sufficient detail to explain and support the rationale, judgments, and authorities upon which all actions were predicated. The memorandum will document the negotiation process and reflect the negotiator’s actions, skills, and judgments in concluding a satisfactory agreement for the Government. The negotiation memorandum shall address each item listed below. If an item is not applicable, it shall be so stated in the memorandum. Information already contained in the contract file may be referenced rather than reiterated.

(a) Description of articles and services and period of performance. A description of articles and services, quantity, unit price, total contract amount, and period of contract performance should be set forth.

(b) Acquisition planning. Summarize or reference any acquisition planning activities that have taken place.

(c) Synopsis of acquisition. A statement as to whether the acquisition has or has not been publicized in accordance with FAR Subpart 5.2. A brief statement of explanation should be included with reference to the specific basis for exemption under the FAR, if applicable.

(d) Contract type. Provide sufficient detail to support the type of contractual instrument recommended for the acquisition. If the contract is a cost-sharing type, explain the essential cost-sharing features.

(e) Extent of competition. The extent to which full and open competition was solicited and obtained must be discussed. The discussion shall include the date of solicitation, sources solicited, and solicitation results. If a late proposal was received, discuss whether or not the late proposal was evaluated and the rationale for the decision.

(f) Technical evaluation. Summarize or reference the results presented in the technical evaluation report.
(g) Business evaluation. Summarize or reference results presented in the business report.

(h) Past performance. Summarize or reference results of past performance evaluation and reference checks.

(i) Competitive range (if applicable). Describe how the competitive range was determined and state the offerors who were included in the competitive range and the ones who were not.

(j) Cost breakdown and analysis. Include a complete cost breakdown together with the negotiator’s analysis of the estimated cost by individual cost elements. The negotiator’s analysis should contain information such as:

1. A comparison of cost factors proposed in the instant case with actual factors used in earlier contracts, using the same cost centers of the same supplier or cost centers of other sources having recent contracts for the same or similar item.

2. Any pertinent Government-conducted audit of the proposed contractor’s record of any pertinent cost advisory report.

3. Any pertinent technical evaluation inputs as to necessity, allocability and reasonableness of labor, material and other direct expenses.

4. Any other pertinent information to fully support the basis for and rationale of the cost analysis.

5. If the contract is an incentive type, discuss all elements of profit and fee structure.

6. A justification of the reasonableness of the proposed contractor’s estimated profit or fixed fee, considering the requirements of FAR 15.404–4 and HHSAR 315.404–4.

(k) Cost realism. Describe the cost realism analysis performed on proposals.

(l) Government-furnished property and Government-provided facilities. With respect to Government-furnished or Government-provided facilities, equipment, tooling, or other property, include the following:

1. Where no property is to be provided, a statement to that effect.

2. Where property is to be provided, a full description, the estimated dollar value, the basis of price comparison with competitors, and the basis of rental charge, if rental is involved.

3. Where the furnishing of any property or the extent has not been determined and is left open for future resolution, a detailed explanation.

(m) Negotiations. Include a statement as to the date and place negotiations were conducted, and identify members of both the Government and contractor negotiating teams by area of responsibility. Include negotiation details relative to the statement of work, terms and conditions, and special provisions. The results of cost or price negotiations must include the information required by FAR 31.109 and 15.406–3. In addition, if cost or pricing data was required to be submitted, the negotiation record must also contain the extent to which the contracting officer relied upon the factual cost or pricing data submitted and used in negotiating the cost or price.

(n) Other considerations. Include coverage of areas such as:

1. Financial data with respect to a contractor’s capacity and stability.

2. Determination of contractor responsibility.

3. Details as to why the method of payment, such as progress payment, advance payment, etc., is necessary. Also cite any required D & F’s.

4. Information with respect to obtaining of a certificate of current cost or pricing data.

5. Other required special approvals.

6. If the contract represents an extension of previous work, the status of funds and performance under the prior contract(s) should be reflected. Also, a determination should be made that the Government has obtained enough actual or potential value from the work previously performed to warrant continuation with the same contractor. (Project officer should furnish the necessary information.)

7. If the contract was awarded by full and open competition, state where the unsuccessful offerors’ proposals are filed.

8. State that equal opportunity provisions of the proposed contract have been explained to the contractor, and it is aware of its responsibilities. Also state whether or not a clearance is required.

9. If the contract is for services, a statement must be made, in accordance
315.404—Contract Pricing

315.404 Proposal analysis.

315.404–2 Information to support proposal analysis.

(a)(2) When some or all information sufficient to determine the reasonableness of the proposed cost or price is already available or can be obtained by phone from the cognizant audit agency, contracting officers may request less-than-complete field pricing support (specifying in the request the information needed) or may waive in writing the requirement for audit and field pricing support by documenting the file to indicate what information is to be used instead of the audit report and the field pricing report.

(3) When initiating audit and field pricing support, the contracting officer shall do so by sending a request to the cognizant administrative contracting officer (ACO), with an information copy to the cognizant audit office. When field pricing support is not available, the contracting officer shall initiate an audit by sending, in accordance with agency procedures, two (2) copies of the request to the OIG Office of Audits’ Regional Audit Director. In both cases, the contracting officer shall, in the request:

(i) Prescribe the extent of the support needed;

(ii) State the specific areas for which input is required;

(iii) Include the information necessary to perform the review (such as the offeror’s proposal and the applicable portions of the solicitation, particularly those describing requirements and delivery schedules);

(iv) Provide the complete address of the location of the offeror’s financial records that support the proposal;

(v) Identify the office having audit responsibility if other than the HHS Regional Audit Office; and

(vi) Specify a due date for receipt of a verbal report to be followed by a written audit report. (If the time available is not adequate to permit satisfactory coverage of the proposal, the auditor shall so advise the contracting officer and indicate the additional time needed.) One copy of the audit request letter that was submitted to the Regional Audit Director and a complete copy of the contract price proposal shall be submitted to OIG/OA/DAC. Whenever, an audit review has been conducted by the Office of Audits, two (2) copies of the memorandum of negotiation shall be forwarded to OIG/OA/DAC by the contracting officer.

315.404–4 Profit.

(b) Policy. (1) The structured approach for determining profit or fee (hereafter called profit) provides a technique for establishing a profit objective for negotiation. A profit objective is that part of the estimated contract price objective or value which, in the judgment of the Contracting Officer, constitutes an appropriate amount of profit for the acquisition being considered. This technique allows for consideration of the profit factors described in paragraph (d) of this section. The Contracting Officer’s analysis of these factors is based on available information such as proposals, audit data, assessment reports, preaward surveys, etc. The structured approach provides a basis for documenting the profit objective. Any significant departure from this objective shall be explained. The amount of documentation depends on the dollar value and complexity of the proposed acquisition. The profit objective is a part of the overall negotiation objective and is directly related to
the cost objective and any proposed sharing arrangement. The profit objective should be negotiated at the same time as the other cost items. The profit objective should be negotiated as a whole and not as individual profit factors.

(ii) The profit analysis factors in FAR 15.404–4(d) shall be used in lieu of the structured approach in the following circumstances. Factors considered inapplicable to the acquisition shall be excluded from the profit objective. Documentation shall be provided which includes the profit factor breakdown.

(A) Contracts not expected to exceed $100,000;
(B) Architect-engineer contracts;
(C) Management contracts for operations and/or maintenance of Government facilities;
(D) Construction contracts;
(E) Contracts primarily requiring delivery of materials supplies by subcontractors;
(F) Termination settlements; and
(G) Cost-plus-award-fee contracts (However, contracting officers may find it advantageous to perform a structured profit analysis as an aid in arriving at an appropriate fee arrangement). Other exceptions may be made in the negotiation of contracts having unusual pricing situations, but shall be justified in writing by the contracting officer in situations where the structured approach is determined to be unsuitable.

(c) Contracting Officer responsibilities. The Contracting Officer shall develop the profit objective. This objective shall realistically reflect the total overall task to be performed and the requirements placed on the contractor. The Contracting Officer shall not begin to develop the profit objective until a thorough review of proposed contract work has been made; a review of all available knowledge regarding the contractor pursuant to FAR subpart 9.1, including audit data, preaward survey reports and financial statements, as appropriate, has been conducted; and an analysis of the contractor's cost estimate and comparison with the Government's estimate or projection of cost has been made.

(d) Profit—analysis factors—(1) Common factors. The following factors shall be considered in all cases in which profit is to be negotiated. The weight ranges listed after each factor shall be used in all instances where the structured approach is used.

(i) The Contracting Officer shall measure “Contractor Effort” by assigning a profit percentage within the designated weight range to each element of contract cost. The categories listed are for reference purposes only, but are broad and basic enough to provide guidance to other elements of cost. Facilities capital cost of money is not to be included. A total dollar profit shall be computed for “Contractor Effort.”

(ii) The Contracting Officer shall use the total dollar profit for the “Contractor Effort” to calculate specific profit dollars for “Other Factors”—cost risk, investment, performance, socioeconomic programs, and special situations. The Contracting Officer shall multiply the total dollar profit for the “Contractor Effort” by the weight assigned to each of the elements in the “Other Factors” category. Facilities capital cost of money is not included. Form HHS–674, Structured Approach Profit/Fee Objective, should be used. Form HHS–674 is illustrated in 353.370–674.

(iii) In making a judgment of the value of each factor, the contracting officer should be governed by the definition, description, and purpose of the factors together with considerations for evaluating them.

(iv) The structured approach was designed for arriving at profit objectives for other than nonprofit organizations. However, the structured approach can be used for nonprofit organizations if
appropriate adjustments are made. The Contracting Officer shall use the modified structured approach in paragraph (d)(1)(iv)(B) of this section to establish profit objectives for nonprofit organizations.

(A) For purposes of this section, nonprofit organizations are defined as those business entities organized and operated exclusively for charitable, scientific, or educational purposes, no part of the net earnings of which inure to the benefit of any private shareholder or individual, and which are exempt from Federal income taxation under Section 501 of the Internal Revenue Code.

(B) For contracts with nonprofit organizations where profit is involved, an adjustment of up to 3 percentage points will be subtracted from the total profit objective percentage. In developing this adjustment, it will be necessary to consider the following factors:

(1) Tax position benefits;
(2) Granting of financing through advance payments; and
(3) Other pertinent factors which may work to either the advantage or disadvantage of the contractor in its position as a nonprofit organization.

(2) Contractor effort. Contractor effort is a measure of how much the contractor is expected to contribute to the overall effort necessary to meet the contract performance requirement in an efficient manner. This factor, which is apart from the contractor’s responsibility for contract performance, takes into account what resources are necessary and what the contractor must do to accomplish a conversion of ideas and material into the final service or product called for in the contract. This is a recognition that within a given performance output, or within a given sales dollar figure, necessary efforts on the part of individual contractors can vary widely in both value and quantity, and that the profit objective should reflect the extent and nature of the contractor’s contribution to total performance. A major consideration, particularly in connection with experimental, developmental, or research work, is the difficulty or complexity of the work to be performed, and the unusual demands of the contract, such as whether the project involves a new approach unrelated to existing technology and/or equipment or only refinements to these items. The evaluation of this factor requires an analysis of the cost content of the proposed contract as follows:

(i) Material acquisition. (Subcontracted items, purchased parts, and other material.) Analysis of these cost items shall include an evaluation of the managerial and technical effort necessary to obtain the required subcontracted items, purchased parts, material or services. The contracting officer shall determine whether the contractor will obtain the items or services by routine order from readily available sources or by detailed subcontracts for which the prime contractor will be required to develop complex specifications. Consideration shall also be given to the managerial and technical efforts necessary for the prime contractor to select subcontractors and to perform subcontract administration functions. In application of this criterion, it should be recognized that the contribution of the prime contractor to its purchasing program may be substantial. Normally, the lowest unadjusted weight for direct material is 2 percent. A weighting of less than 2 percent would be appropriate only in unusual circumstances when there is a minimal contribution by the contractor.

(ii) Direct labor. (Professional, service, manufacturing and other labor). Analysis of the various labor categories of the cost content of the contract should include evaluation of the comparative quality and quantity of professional and semiprofessional talents, manufacturing and service skills, and experience to be employed. In evaluating professional and semiprofessional labor for the purpose of assigning profit dollars, consideration should be given to the amount of notable scientific talent or unusual or scarce talent needed in contrast to nonprofessional effort. The assessment should consider the contribution this talent will provide toward the achievement of contract objectives. Since nonprofessional labor is relatively plentiful and rather easily obtained by the contractor and is less critical to the
successful performance of contract objectives, it cannot be weighted nearly as high as professional or semiprofessional labor. Service contract labor should be evaluated in a like manner by assigning higher weights to engineering or professional type skills required for contract performance. Similarly, the variety of manufacturing and other categories of labor skills required and the contractor's manpower resources for meeting these requirements should be considered. For purposes of evaluation, categories of labor (i.e., quality control, receiving and inspection, etc.) which do not fall within the definition for professional, service or manufacturing labor may be categorized as appropriate. However, the same evaluation considerations as outlined in this paragraph will be applied.

(iii) Overhead and general management (G&A). (A) Analysis of these overhead items of cost should include the evaluation of the makeup of these expenses and how much they contribute to contract performance. To the extent practicable, analysis should include a determination of the amount of labor within these overhead pools and how this labor should be treated if it were considered as direct labor under the contract. The allocable labor elements should be given the same profit considerations that they would receive if they were treated as direct labor. The other elements of these overhead pools should be evaluated to determine whether they are routine expenses, such as utilities and maintenance, and hence given lesser profit consideration, or whether they are significant contributing elements. The composite of the individual determinations in relation to the elements of the overhead pools will be the profit consideration given the pools as a whole. The procedure for assigning relative values to these overhead expenses differs from the method used in assigning values of the direct labor. The upper and lower limits assignable to the direct labor are absolute. In the case of overhead expenses, individual expenses may be assigned values outside the range as long as the composite ratio is within the range.

(B) It is not necessary that the contractor's accounting system break down overhead expenses within the classifications of research overhead, other overhead pools, and general administrative expenses, unless dictated otherwise by Cost Accounting Standards (CAS). The contractor whose accounting system reflects only one overhead rate on all direct labor need not change its system (if CAS exempt) to correspond with these classifications. The contracting officer, in an evaluation of such a contractor's overhead rate, could break out the applicable sections of the composite rate which could be classified as research overhead, other overhead pools, and general and administrative expenses, and follow the appropriate evaluation technique.

(C) Management problems surface in various degrees and the management expertise exercised to solve them should be considered as an element of profit. For example, a contract for a new program for research or an item which is on the cutting edge of the state of the art will cause more problems and require more managerial time and abilities of a higher order than a follow-on contract. If new contracts create more problems and require a higher profit weight, follow-ons should be adjusted downward because many of the problems should have been solved. In any event, an evaluation should be made of the underlying managerial effort involved on a case-by-case basis.

(D) It may not be necessary for the contracting officer to make a separate profit evaluation of overhead expenses in connection with each acquisition action for substantially the same project with the same contractor. Where an analysis of the profit weight to be assigned to the overhead pool has been made, that weight assigned may be used for future acquisitions with the same contractor until there is a change in the cost composition of the overhead pool or the contract circumstances, or the factors discussed in paragraph (d)(2)(iii)(C) of this section are involved.

(iv) Other costs. Analysis of this factor should include all other direct costs associated with contractor performance (e.g., travel and relocation, direct
support, and consultants). Analysis of these items of cost should include, the significance of the cost of contract performance, nature of the cost, and how much they contribute to contract performance. Normally, travel costs require minimal administrative effort by the contractor and, therefore, usually receive a weight no greater than 1%. Also, the contractor may designate individuals as "consultants" but in reality these individuals may be obtained by the contractor to supplement its workforce in the performance of routine duties required by contract. These costs would normally receive a minimum weight. However, there will be instances when the contractor may be required to locate and obtain the services of consultants having expertise in fields such as medicine or human services. In these instances, the contractor will be required to expend greater managerial and technical effort to obtain these services and, consequently, the costs should receive a much greater weight.

(3) Other factors

(i) Contract cost risk. The contract type employed basically determines the degree of cost risk assumed by the contractor. For example, where a portion of the risk has been shifted to the Government through cost-reimbursement provisions, unusual contingency provisions, or other risk-reducing measures, the amount of profit should be less than where the contractor assumes all the risk.

(A) In developing the prenegotiation profit objective, the contracting officer will need to consider the type of contract anticipated to be negotiated and the contractor risk associated therewith when selecting the position in the weight range for profit that is appropriate for the risk to be borne by the contractor. This factor should be one of the most important in arriving at prenegotiation profit objective. Evaluation of this risk requires a determination of the degree of cost responsibility the contractor assumes; the reliability of the cost estimates in relation to the task assumed; and the complexity of the task assumed by the contractor. This factor is specifically limited to the risk of contract costs. Thus, risks on the part of the contractor such as reputation, losing a commercial market, risk of losing potential profits in other fields, or any risk which falls on the contracting office, such as the risk of not acquiring a satisfactory report, are not within the scope of this factor.

(B) The first and basic determination of the degree of cost responsibility assumed by the contractor is related to the sharing of total risk of contract cost by the Government and the contractor through the selection of contract type. The extremes are a cost-plus-a-fixed-fee contract requiring the contractor to use its best efforts to perform a task and a firm fixed-price contract for a service or a complex item. A cost-plus-a-fixed-fee contract would reflect a minimum assumption of cost responsibility, whereas a firm-fixed-price contract would reflect a complete assumption of cost responsibility. Where proper contract selection has been made, the regard for risk by contract type would usually fall into the following percentage ranges:

<table>
<thead>
<tr>
<th>Contract Type</th>
<th>Percent</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cost-reimbursement type contracts</td>
<td>0–3</td>
</tr>
<tr>
<td>Fixed-price type contracts</td>
<td>2–7</td>
</tr>
</tbody>
</table>

(C) The second determination is that of the reliability of the cost estimates. Sound price negotiation requires well-defined contract objectives and reliable cost estimates. Prior experience assists the contractor in preparing reliable cost estimates on new acquisitions for similar related efforts. An excessive cost estimate reduces the possibility that the cost of performance will exceed the contract price, thereby reducing the contractor's assumption of contract cost risk.

(D) The third determination is that of the difficulty of the contractor's task. The contractor's task can be difficult or easy, regardless of the type of contract.

(E) Contractors are likely to assume greater cost risk only if contracting officers objectively analyze the risk incident to proposed contracts and are willing to compensate contractors for it. Generally, a cost-plus-fixed fee contract will not justify a reward for risk in excess of 0.5 percent, nor will a firm fixed-price contract justify a reward of.
less than the minimum in the structured approach. Where proper contract-type selection has been made, the reward for risk, by contract type, will usually fall into the following percentage ranges:

(1) Type of contract and percentage ranges for profit objectives developed by using the structured approach for research and development and manufacturing contracts:

<table>
<thead>
<tr>
<th>Type of Contract</th>
<th>Percent</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cost-Plus-fixed fee</td>
<td>0 to 0.5</td>
</tr>
<tr>
<td>Cost-plus-incentive fee:</td>
<td></td>
</tr>
<tr>
<td>With cost incentive only</td>
<td>1 to 2</td>
</tr>
<tr>
<td>With multiple incentives</td>
<td>1.5 to 3</td>
</tr>
<tr>
<td>Fixed-price-incentive:</td>
<td></td>
</tr>
<tr>
<td>With cost incentive only</td>
<td>2 to 4</td>
</tr>
<tr>
<td>With multiple incentives</td>
<td>3 to 5</td>
</tr>
<tr>
<td>Prospective price redetermination</td>
<td>3 to 5</td>
</tr>
<tr>
<td>Firm fixed-price</td>
<td>5 to 7</td>
</tr>
</tbody>
</table>

(2) Type of contract and percentage ranges for profit objectives developed by using the structured approach for service contracts:

<table>
<thead>
<tr>
<th>Type of Contract</th>
<th>Percent</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cost-plus-fixed fee</td>
<td>0 to 0.5</td>
</tr>
<tr>
<td>Cost-plus-incentive fee</td>
<td>1 to 2</td>
</tr>
<tr>
<td>Fixed-price incentive</td>
<td>2 to 3</td>
</tr>
<tr>
<td>Firm fixed-price</td>
<td>3 to 4</td>
</tr>
</tbody>
</table>

(F) These ranges may not be appropriate for all acquisitions. For instance, a fixed-price-incentive contract that is closely priced with a low ceiling price and high incentive share may be tantamount to a firm fixed-price contract. In this situation, the contracting officer may determine that a basis exists for high confidence in the reasonableness of the estimate and that little opportunity exists for cost reduction without extraordinary efforts. On the other hand, a contract with a high ceiling and low incentive formula can be considered to contain cost-plus incentive-fee contract features. In this situation, the contracting officer may determine that the Government is retaining much of the contract cost responsibility and that the risk assumed by the contractor is minimal. Similarly, if a cost-plus-incentive-fee contract includes an unlimited downward (negative) fee adjustment on cost control, it could be comparable to a fixed-price-incentive contract. In such a pricing environment, the contracting officer may determine that the Government has transferred a greater amount of cost responsibility to the contractor than is typical under a normal cost-plus-incentive-fee contract.

(G) The contractor’s subcontracting program may have a significant impact on the contractor’s acceptance or risk under a contract form. It could cause risk to increase or decrease in terms of both cost and performance. This consideration should be a part of the contracting officer’s overall evaluation in selecting a factor to apply for cost risk. It may be determined, for instance, that the prime contractor has effectively transferred real cost risk to a subcontractor and the contract cost risk evaluation may, as a result, be below the range which would otherwise apply for the contract type being proposed. The contract cost risk evaluation should not be lowered, however, merely on the basis that a substantial portion of the contract costs represents subcontracts without any substantial transfer of contractor’s risk.

(H) In making a contract cost risk evaluation in an acquisition action that involves definitization of a letter contract, unpriced change orders, and unpriced orders under basic ordering agreements, consideration should be given to the effect on total contract cost risk as a result of having partial performance before definitization. Under some circumstances it may be reasoned that the total amount of cost risk has been effectively reduced. Under other circumstances it may be apparent that the contractor’s cost risk remained substantially unchanged. To be equitable, the determination of profit weight for application to the total of all recognized costs, both those incurred and those yet to be expended, must be made with consideration to all attendant circumstances—not just the portion of costs incurred or percentage of work completed prior to definitization.

(I) Time and material and labor hour contracts will be considered to be cost-plus-a-fixed-fee contracts for the purpose of establishing profit weights unless otherwise exempt under paragraph (b)(1)(i) of this section in the evaluation of the contractor’s assumption of contract cost risk.
(ii) Investment. HHS encourages its contractors to perform their contracts with the minimum of financial, facilities, or other assistance from the Government. As such, it is the purpose of this factor to encourage the contractor to acquire and use its own resources to the maximum extent possible. The evaluation of this factor should include an analysis of the following:

(A) Facilities. (Including equipment). To evaluate how this factor contributes to the profit objective requires knowledge of the level of facilities utilization needed for contract performance, the source and financing of the required facilities, and the overall cost effectiveness of the facilities offered. Contractors who furnish their own facilities which significantly contribute to lower total contract costs should be provided with additional profit. On the other hand, contractors who rely on the Government to provide or finance needed facilities should receive a corresponding reduction in profit. Cases between these examples should be evaluated on their merits with either positive or negative adjustments, as appropriate, in profit being made. However, where a highly facilitized contractor is to perform a contract which does not benefit from this facilitization or where a contractor’s use of its facilities has a minimum cost impact on the contract, profit need not be adjusted. When applicable, the prospective contractor’s computation of facilities capital cost of money for pricing purposes under CAS 414 can help the contracting officer identify the level of facilities investment to be employed in contract performance.

(B) Payments. In analyzing this factor, consideration should be given to the frequency of payments by the Government to the contractor. The key to this weighting is to give proper consideration to the impact the contract will have on the contractor’s cash flow. Generally, negative consideration should be given for advance payments and payments more frequent than monthly with maximum reduction being given as the contractor’s working capital approaches zero. Positive consideration should be given for payments less frequent than monthly with additional consideration given for a capital turn-over rate on the contract which is less than the contractor’s or the industry’s normal capital turn-over rate.

(iii) Performance. (Cost-control and other past accomplishments.) The contractor’s past performance should be evaluated in such areas as quality of service or product, meeting performance schedules, efficiency in cost control (including need for and reasonableness of cost incurred), accuracy and reliability of previous cost estimates, degree of cooperation by the contractor (both business and technical), timely processing of changes and compliance with other contractual provisions, and management of subcontract programs. Where a contractor has consistently achieved excellent results in these areas in comparison with other contractors in similar circumstances, this performance merits a proportionately greater opportunity for profit. Conversely, a poor record in this regard should be reflected in determining what constitutes a fair and reasonable profit.

(iv) Federal socioeconomic programs. This factor, which may apply to special circumstances or particular acquisitions, relates to the extent of a contractor’s successful participation in Government sponsored programs such as small business, small disadvantaged business, women-owned small business, service-disabled veterans, handicapped sheltered workshops, and energy conservation efforts. The contractor’s policies and procedures which energetically support Government socioeconomic programs and achieve successful results should be given positive considerations. Conversely, failure or unwillingness on the part of the contractor to support Government socioeconomic programs should be viewed as evidence of poor performance for the purpose of establishing a profit objective.

(v) Special situations (A) Inventive and developmental contributions. The extent and nature of contractor-initiated and financed independent development should be considered in developing the profit objective, provided that the contracting officer has made a determination that the effort will benefit the...
contract. The importance of the development in furthering health and human services purposes, the demonstrable initiative in determining the need and application of the development, the extent of the contractor’s cost risk, and whether the development cost was recovered directly or indirectly from Government sources should be weighed.

(B) Unusual pricing agreements. Occasionally, unusual contract pricing arrangements are made with the contractor wherein it agrees to cost ceilings, e.g., a ceiling on overhead rates for conditions other than those discussed at FAR 42.707. In these circumstances, the contractor should receive favorable consideration in developing the profit objective.

(C) Negative factors. Special situations need not be limited to those which only increase profit levels. A negative consideration may be appropriate when the contractor is expected to obtain spin-off-benefits as a direct result of the contract (e.g., products or services with commercial application).

(4) Facilities capital cost of money. When facilities capital cost of money (cost of capital committed to facilities) is included as an item of cost in the contractor’s proposal, a reduction in the profit objective shall be made in an amount equal to the amount of facilities capital cost of money allowed in accordance with the Facilities Capital Cost-of Money Cost Principal. If the contractor does not propose this cost, a provision must be inserted in the contract that facilities capital cost of money is not an allowable cost.

An official one level above the Contracting Officer shall make the written determination.

[71 FR 76500, Dec. 20, 2006]
316.603–70 Information to be furnished when requesting authority to issue a letter contract.

The following information should be included by the contracting officer in any memorandum requesting approval to issue a letter contract:

(a) Name and address of proposed contractor.
(b) Location where contract is to be performed.
(c) Contract number, including modification number, if possible.
(d) Brief description of work and services to be performed.

(j) Statement of percentage of the estimated cost that the obligation of funds represents. In rare instances where the obligation represents 50 percent or more of the proposed estimated cost of the acquisition, a justification for that obligation must be included which would indicate the basis and necessity for the obligation (e.g., the contractor requires a large initial outlay of funds for major subcontract awards or an extensive purchase of materials to meet an urgent delivery requirement). In every case, documentation must assure that the amount to be obligated is not in excess of an amount reasonably required to perform the work.

(l) Statement of any substantive matters that need to be resolved.

316.603–71 Approval for modifications to letter contracts.

Subpart 316.7—Agreements

316.770 Unauthorized types of agreements.

316.770–2 Memorandums of understanding.

A “memorandum of understanding” is an unauthorized agreement, usually drafted during the course of negotiations, to modify mandatory FAR and HHSAR provisions in such a manner as to make them more acceptable to a prospective contractor. It may be used to bind the contracting officer in attempting to exercise rights given the Government under the contract, or may contain other matters directly contrary to the language of the solicitation or prospectively contractual document. Use of memorandums of understanding is not authorized. Any change in a solicitation or contract shall be made by amendment or modification to that document. When a change to a prescribed contract clause is considered necessary, a deviation shall be requested.

Subpart 324.1—Protection of Individual Privacy

324.000 Scope of subpart.

This part prescribes policies and procedures that apply requirements of the Privacy Act of 1974 (5 U.S.C. 552a) (the Act) and OMB Circular A–130, Revised, November 30, 2000, to Government contracts and cites the Freedom of Information Act (5 U.S.C. 552, as amended).

[70 FR 40, Jan. 3, 2005]

324.102 General.

(a) It is the Department’s policy to protect the privacy of individuals to the maximum possible extent while permitting the exchange of records required to fulfill the Department’s administrative and program responsibilities and its responsibilities for disclosing records to which the general public is entitled under the Freedom of Information Act (5 U.S.C. 552, as amended).
Health and Human Services

also apply to all subcontracts awarded under the contract which require the design, development or operation of a system of records. The Contracting Officer shall send the contractor a copy of 45 CFR part 5b, which includes the rules of conduct and other Privacy Act requirements.

(c) The Contracting Officer shall specify in the contract work statement and award the disposition to be made of the system(s) of records upon completion of contract performance. The contract work statement may require the contractor to destroy the records, remove personal identifiers, or turn the records over to the Contracting Officer. If there is a legitimate need for a contractor to keep copies of the records after completion of a contract, the contractor must take measures, as approved by the Contracting Officer, to keep the records confidential and protect the individuals’ privacy.

(d) Whenever an acquisition is determined to be subject to the Privacy Act requirements, a “system notice,” prepared by the program official and describing the Department’s intent to establish a new system of records on individuals, to make modifications to an existing system, or to disclose information in regard to an existing system, is required to be published in the Federal Register. A copy of the “system notice” shall be attached to the request for contract or purchase request. If a “system notice” is not attached, the contracting officer shall inquire about its status and shall obtain a copy from the program official for inclusion in the contract file. If a “system notice” has not been published in the Federal Register, the contracting officer may proceed with the acquisition but shall not award the contract until the “system notice” is published, and publication is verified by the contracting officer.

324.7002 Policy.

It is the policy of HHS to protect personal interests of individuals, corporate interests of non-governmental organizations, and the capacity of the Government to provide public services when information from or about individuals, organizations, or Federal agencies is provided to or obtained by contractors in performance of HHS contracts. This protection depends on the contractor’s recognition and proper

Subpart 324.70—Confidentiality of Information

324.7001 General.

In performance of certain HHS contracts, it is necessary for the contractor to generate data, or be furnished data by the Government, which is about individuals, organizations, or Federal programs. This subpart and the accompanying contract clause require contractors to prudently handle disclosure of certain types of information not subject to the Privacy Act or the HHS human subject regulations set forth in 45 CFR part 5. Particular attention should be focused on §§5.65 and 5.66; also of interest are §§5.32, 5.33, and 5.35.

handling of the information. As a result, the “Confidentiality of Information” contract clause was developed.

324.7003 Applicability.

(a) The “Confidentiality of Information” clause, set forth in 352.224–70, should be used in solicitations and resultant contracts whenever the need exists to keep information confidential. Examples of situations where the clause may be appropriate include:

(1) Studies performed by the contractor which generate information or involve Government-furnished information that is personally identifiable, such as medical records, vital statistics, surveys, and questionnaires;

(2) Contracts which involve the use of salary structures, wage schedules, proprietary plans or processes, or confidential financial information of organizations other than the contractor’s; and

(3) Studies or research which may result in preliminary or invalidated findings which, upon disclosure to the public, might create erroneous conclusions which, if acted upon, could threaten public health or safety.

(b) With regard to protecting individuals, this subpart and contract clause are not meant to regulate or control the method of selecting subjects and performing studies or experiments involving them. These matters are dealt with in the HHS regulation entitled “Protection of Human Subjects,” 45 CFR Part 46. If a system of records under contract, or portions thereof, is determined to be subject to the requirements of the Privacy Act, in accordance with FAR 24.1 and 324.1 and Title 45 CFR part 5b, the procedures cited in those references are applicable and the Privacy Act contract clause shall be included in the contract. If the contract also involves confidential information, as described in this section, which is not subject to the Privacy Act, the contract shall include the “Confidentiality of Information” clause in addition to the Privacy Act clause.

324.7004 Required clause.

The clause set forth in 352.224–70 shall be included in any RFP and resultant contract(s) where it has been determined that confidentiality of information provisions may apply. Any RFP announcing the intent to include this clause in any resultant contract(s) shall indicate, as specifically as possible, the types of data which would be covered and requirements for handling the data.

332.402 General.

(e) The HCA shall determine whether an advance payment is in the public interest in accordance with FAR
32.402(c)(1)(ii)(A). This authority is non delegable.

[71 FR 76501, Dec. 20, 2006]

332.403 Applicability.

All contracts for research work with educational institutions located in the United States shall provide for financing by use of advance payments, in reasonable amounts, unless otherwise prohibited by law.

332.407 Interest.

(d) The HCA (not delegable) is authorized to make the determinations in FAR 32.407(d) and as follows. Interest-free advance payments may also be approved for educational institutions and other nonprofit organizations, whether public or private, performing work under nonprofit contracts (without fee) involving health services, educational programs, or social service programs, such as:

(1) Community health representative services for an Indian Tribe or Band;
(2) Narcotic addict rehabilitative services;
(3) Comprehensive health care service program for Model Neighborhood programs;

[71 FR 76501, Dec. 20, 2006]

332.703 Contract funding requirements.

(b) The following general guidelines are applicable to incrementally funded contracts:

(1) The estimated total cost of the project (all planned phases or increments) is to be taken into consideration when determining the requirements which must be met before entering into the contract; i.e., justification for noncompetitive acquisition, approval of award, etc.

(2) The RFP and resultant contract are to include a statement of work which describes the total project covering the proposed multiple year period of performance and indicating time-tables consistent with planned phases or increments and corresponding allotments of funds.

(3) Offerors' technical and cost proposals must include the entire project and shall show distinct phases or increments and the multiple year period of performance.

(4) Negotiations will be conducted based upon the total project, including all planned phases or increments, and the multiple year period of performance.

(5) Sufficient funds must be obligated under the basic contract to cover no less than the first year of performance, unless the Contracting Officer determines it is advantageous to the Government to fund the contract for a lesser period. In that event, the Contracting Officer shall ensure that the obligated funds are sufficient to cover a complete phase or increment of performance representing a material and measurable part of the total project and the period of time that the funds cover shall be stated in the contract.

(6) An incrementally funded contract must contain precise requirements for progress reports to be sent to the Project and Contracting Officers. These reports will enable the contract to be effectively monitored. The Project Officer shall prepare periodic performance evaluation reports and provide them to the Contracting Officer.

332.704 Limitation of cost or funds.

See subpart 342.71, “Administrative Actions for Cost Overruns,” for procedures for handling anticipated cost overruns.

[71 FR 76502, Dec. 20, 2006]

332.705–2 Clauses for limitation of costs or funds.

(c)(1) When using the Limitation of Funds clause (FAR 52.232–22) in the solicitation and resultant incrementally funded contract, the contracting officer shall insert the following legend between the clause title and the clause text:

(This clause supersedes the Limitation of Cost clause found in the General Provisions of this contract.)

(2) The contracting officer shall also include a clause reading substantially as that shown in 352.232–74 in the Special Provisions of the resultant incrementally funded contract.

(3) The request for proposals must inform prospective offerors of the Department’s intention to enter into an incrementally funded contract. Therefore, the contracting officer shall include the provision at 352.232–75 in the request for proposals whenever the use of incremental funding is contemplated.
Subpart 333.1—Protests

333.102 General.

(g)(1) The Office of Acquisition Management (Division of Acquisition Policy (DAP)) has been designated as the headquarters office to serve as the liaison for protests lodged with GAO. Within the Division of Acquisition Policy (DAP), the Departmental Protest Control Officer (DPCO) has been designated as the individual to be contacted by GAO.

(2) Each contracting activity shall designate a protest control officer to serve as an advisor to the contracting officer and to monitor protests from the time of initial notification until the protest has been resolved. The protest control officer should be a senior acquisition specialist in the headquarters acquisition staff office. In addition, contracting activities should designate similar officials within their principal components to the extent practicable and feasible. A copy of each appointment and termination of appointment of protest control officers shall be forwarded to the Director, Division of Acquisition Policy (DAP).

333.103 Protests to the agency.

(f)(1) The contracting officer is authorized to make the determination, using the criteria in FAR 33.104(b), to award a contract notwithstanding the protest after obtaining the concurrence of the contracting activity’s protest control officer and the Office of General Counsel—Business and Administrative Law Division (OGC-BAL). If the protest has been lodged with the Secretary, is addressed to the Secretary, or requests referral to the Secretary, approval shall also be obtained from the Director, Division of Acquisition Policy (DAP) before making the award.

(2) The contracting officer shall require written confirmation of any oral protest. To be considered timely, the written confirmation must be filed in accordance with the applicable provisions in 333.102(a). In the following cases, written protests received by the contracting officer before award shall be forwarded, through acquisition channels, to the DPCO for processing. Files concerning these protests shall be submitted in duplicate, or as otherwise specified by the DPCO and sent in the most expeditious manner, marked “IMMEDIATE ACTION—PROTEST BEFORE AWARD”, and contain the documentation referenced in 333.104(a)(3).

(i) The protestant requests referral to the Secretary of Health and Human Services;

(ii) The protest is known to have been lodged with the Comptroller General or the Secretary, or is addressed to either; or

(iii) The contracting officer entertains some doubt as to the proper action regarding the protest or believes it to be in the best interest of the Government that the protest be considered by the Secretary or the Comptroller General. Otherwise, protests addressed to the contracting officer may be answered by the contracting officer, with the concurrence of the contracting activity’s protest control officer and OGC-BAL.

(3) Protests received after award shall be treated as indicated in FAR 33.103(f)(3).

333.104 Protests to GAO.

(a) General procedures. (3)(i) The DPCO shall process protests filed with GAO, whether pre- or post award. Protest files shall be prepared by the contracting office and distributed as follows: Two copies to the DPCO, one copy to the contracting activity’s protest control officer, and one copy to OGC–GLD. In addition to the items listed in 33.104(a)(3)(i)(A) through (G), the protest file shall include the following documents:

(H) The current status of award. When award has been made, this shall
include whether performance has commenced, shipment or delivery has been made, or a stop work order has been issued.

(I) A copy of any mutual agreement to suspend work on a no-cost basis, when appropriate (see FAR 33.104(c)(4)).
(J) Copies of the notice of protest given offerors and other parties when the notice is appropriate (see FAR 33.104(a)(2)).
(K) A copy of the negotiation memorandum, when applicable.
(L) The name and telephone number of the person in the contracting office who may be contacted for information relevant to the protest.
(M) A copy of the competitive range memorandum.
(N) The contracting officer's statement of facts and circumstances, including a discussion of the merits of the protest, and conclusions and recommendations, including documentary evidence on which they are based. The files shall be assembled in an orderly manner and shall have an index of enclosures and any document referred to therein.

(4) The DPCO is responsible for making the necessary distributions referenced in FAR 33.104(a)(4).

(5) The Contracting Officer shall furnish the protest file containing the documentation specified in paragraph (a)(3)(ii) of this section (with the exception of the contracting officer statement of facts and circumstances) and FAR 33.104(a)(3)(ii)(A) through (G) to the DPCO within fourteen (14) calendar days from receipt of the protest. The contracting officer shall submit the contracting officer's statement of facts and circumstances within twenty-one (21) calendar days from receipt of the protest. Since the statute allows only a short time period in which to respond to protests lodged with GAO, the Contracting Officer shall handle each protest on a priority basis. The DPCO shall submit copies of the protest file to GAO, the protestor, and any intervenors in accordance with FAR 33.104(a)(4)(i).

(6) Since the DPCO will furnish the protest file to GAO, the protestor, and any intervenors, comments on the file from the protestor and any intervenors will be sent to the DPCO.

(7) The DPCO, Division of Acquisition Policy (DAP), shall serve as the GAO point of contact for protests lodged with GAO.

(b) Protests before award. (1) To make an award notwithstanding a protest, the Contracting Officer shall prepare a finding using the criteria in FAR 33.104(b)(1), have it executed by the HCA (not delegable), and forward it, along with a written request for approval to make the award, to the Deputy Assistant Secretary for Acquisition Management and Policy (DASAMP).

(2) If the request to make an award notwithstanding the protest is approved by the Deputy Assistant Secretary for Acquisition Management and Policy (DASAMP), the DPCO shall notify GAO. Whether the request is approved or not, the DPCO shall telephonically notify the contracting activity’s protest control officer of the decision of the Deputy Assistant Secretary for Acquisition Management and Policy (DASAMP), and the contracting activity’s protest control officer shall immediately notify the Contracting Officer. The DPCO shall confirm the decision by memorandum to the contracting activity’s protest control officer.

(c) Protests after award. (2) If the Contracting Officer believes performance should be allowed to continue notwithstanding the protest, a finding shall be prepared by the Contracting Officer using the criteria in FAR 33.104(c)(2), executed by the HCA (not delegable), and forwarded, along with a written request for approval, to the Deputy Assistant Secretary for Acquisition Management and Policy (DASAMP). The same procedures for notification stated in paragraph (b)(2) of this section shall be followed.

(d) Findings and notice. The written notice required by FAR 33.104(d) shall be provided to the protestor and any intervenors by the DPCO.

(g) Notice to GAO. The Deputy Assistant Secretary for Acquisition Management and Policy (DASAMP) shall be the official to comply with the requirements of FAR 33.104(g).

333.209 Suspected fraudulent claims.

The contracting officer shall submit any instance of a contractor’s suspected fraudulent claim to the Office of the Inspector General for investigation.

333.211 Contracting officer’s decision.

(a)(2) The contracting officer shall refer a proposed final decision to the Office of General Counsel-General Law Division (OGC–GLD), for advice as to the legal sufficiency and format before sending the final decision to the contractor. The contracting officer shall provide OGC–GLD with the pertinent documents with the submission of each proposed final decision.

(a)(4)(v) When using the paragraph in FAR 33.211 (a)(4)(v), the contracting officer shall insert the words “Armed Services” before each mention of the term “Board of Contract Appeals”.

(h) At any time within the period of appeal, the contracting officer may modify or withdraw his/her final decision. If an appeal from the final decision has been taken to the ASBCA, the contracting officer will forward his/her recommended action to OGC–GLD with the supplement to the contract file which supports the recommended correction or amendment.

[71 FR 76503, Dec. 20, 2006]

333.212 Contracting officer’s duties upon appeal.

(a) Appeals shall be governed by the rules set forth in the “Rules of the Armed Services Board of Contract Appeals,” or by the rules established by the U.S. Court of Federal Claims, as appropriate.

(b) The Office of General Counsel-General Law Division (OGC–GLD) is designated as the Government Trial Attorney to represent the Government in the defense of appeals before the ASBCA. A decision by the ASBCA will be transmitted by the Government Trial Attorney to the appropriate contracting officer for compliance in accordance with the ASBCA’s decision.

(c) If an appeal is filed with the ASBCA, the contracting officer shall assemble a file within 30 days of receipt of an appeal, or advice that an appeal has been filed, that consists of all documents pertinent to the appeal, including:

(1) The decision and findings of fact from which the appeal is taken;

(2) The contract, including specifications and pertinent modifications, plans and drawings;

(3) All correspondence between the parties pertinent to the appeal, including the letter or letters of claim in response to which the decision was issued;

(4) Transcripts of any testimony taken during the course of proceedings, and affidavits or statements of any witness on the matter in dispute made prior to the filing of the notice of appeal with the Board; and

(5) Any additional information considered pertinent. The contracting officer shall furnish the appeal file to the Government Trial Attorney for review and approval. After approval, the contracting officer shall prepare four copies of the file, one for the ASBCA, one for the appellant, one for the Government Trial Attorney, and one for the contracting office.

(d) At all times after the filing of an appeal, the contracting officer shall render whatever assistance is requested by the Government Trial Attorney. When an appeal is set for hearing, the concerned contracting officer shall be responsible for providing Government witnesses and specified physical and documentary evidence to the Trial Attorney. The Trial Attorney shall ensure the presence of all witnesses and documentary evidence at both the pre-hearing conference and hearing.

(e) If a contractor which has filed an appeal with the ASBCA elects to accept fully the decision from which the appeal was taken, or any modification to it, and gives written notification of acceptance to the Government Trial Attorney or the concerned contracting

[70 FR 40, Jan. 3, 2005]
Cost-sharing.

335.070–1 Policy.

(a) The use of cost-sharing type contracts should be encouraged to contribute to the cost of performing research where there is a probability that the contractor will receive present or future benefits from participation, such as, increased technical know-how, training to employees, acquisition of equipment, use of background knowledge in future contracts, etc. Cost-sharing is intended to serve the mutual interests of the Government and the performing organization by helping to assure efficient utilization of the resources available for the conduct of research projects and by promoting sound planning and prudent fiscal policies by the performing organization. Encouragement should be given to organizations to contribute to the cost of performing research under contracts unless the contracting officer determines that a request for cost-sharing would not be appropriate because of the following circumstances:

(1) The particular research objective or scope of effort for the project is specified by the Government rather than proposed by the performing organization. This would usually include any formal Government request for proposals for a specific project.

(2) The research effort has only minor relevance to the non-Federal activities of the performing organization, and the organization is proposing to undertake the research primarily as a service to the Government.

(3) The organization has little or no non-Federal sources or funds from which to make a cost contribution. Cost-sharing should generally not be requested if cost-sharing would require the Government to provide funds through some other means (such as fees) to enable the organization to cost-share. It should be recognized that those organizations which are predominantly engaged in research and development and have little or no production or other service activities may not be in a favorable position to make a cost contribution.

(b) The responsibility for negotiating cost-sharing is that of the contracting office. Each research contract file should show whether the contracting officer considered cost-sharing appropriate for that particular contract and in what amount. If cost-sharing was not considered appropriate, the file must indicate the factual basis for that decision, e.g., “Because the contractor will derive no benefits from this award that can be applied to its commercial activities, cost-sharing is not considered appropriate.” The contracting officer may wish to coordinate with the project officer before documenting this decision.

(c) If the contracting officer considers cost-sharing to be appropriate for a research contract and the contractor refuses to accept this type of contract, the award may be made without cost-sharing, if the contracting officer concludes that payment of the full cost of the research effort is necessary in order to obtain the services of that particular contractor.

335.070–2 Amount of cost-sharing.

When cost-sharing is appropriate, use the following guidelines to determine the amount of cost participation by the contractor:

(a) The amount of cost participation should depend on the extent to which the research effort or results are likely...
to enhance the performing organization's capability, expertise, or competitive position, and the value of this enhancement to the performing organization. It should be recognized that those organizations which are predominantly engaged in research and development have little or no production or other service activities and may not be in a favorable position to derive a monetary benefit from their research under Federal agreements. Therefore, contractor cost participation could reasonably range from as little as 1 percent or less of the total project cost, to more than 50 percent of the total project cost. Ultimately, the Contracting Officer should bear in mind that cost-sharing is a negotiable item. As such, the amount of cost-sharing should be proportional to the anticipated value of the contractor's gain.

(b) If the performing organization will not acquire title or the right to use inventions, patents, or technical information resulting from the research project, it would generally be appropriate to obtain less cost-sharing than in cases in which the performer acquires these rights.

(c) A fee or profit will usually not be paid to the performing organization if the organization is to contribute to the cost of the research effort, but the amount of cost-sharing may be reduced to reflect the fact that the organization is foregoing its normal fee or profit in the research. However, if the research is expected to be of only minor value to the performing organization and if cost-sharing is not required by statute, it may be appropriate for the performer to make a contribution in the form of a reduced fee or profit rather than sharing costs of the project.

(d) The organization's participation may be considered over the total term of the project so that a relatively high contribution in one year may be offset by a relatively low contribution in another.

(e) A relatively low degree of cost-sharing may be appropriate if, in the view of the operating divisions or their subordinate elements, an area of research requires special stimulus in the national interest.

339.201–10 Clarification.

FAR Subpart 39.2, Electronic and Information Technology, requires Federal agencies to ensure that, when acquiring EIT, Federal employees with disabilities and members of the public with disabilities have access to and use of information and data that is comparable to individuals without disabilities. This EIT access requirement does not apply to a contractor’s internal workplaces. EIT that is not used nor accessed by Federal employees or members of the public is not subject to the Architectural and Transportation Barriers Compliance Board (Access Board) standards. Contractors in their professional capacity are not members of the public for purposes of Section 508.

339.201–70 Required provision and contract clause.

When acquiring EIT, the Contracting Officer shall insert the provision at 352.270–19(a) in solicitations and the clause in 352.270–19(b) in contracts and orders for projects that will develop, purchase, maintain, or use electronic and information technology (EIT), unless these EIT products and/or services are incidental to the project. (Note: Other exceptions to this requirement can be found at FAR 39.204.)
Subpart 342.7—Indirect Cost Rates

342.705 Final indirect cost rates.

(a) The Director, Division of Cost Allocation of the Program Support Center, within each servicing HHS regional office, has been delegated the authority to establish indirect cost rates, research patient care rates, and, as necessary, fringe benefit, computer, and other special costing rates for use in contracts and grants awarded to State and local governments, colleges and universities, hospitals, and other nonprofit organizations.

(b) The Division of Financial Advisory Services of the National Institutes of Health has the authority to establish indirect cost rates, fringe benefit rates, etc., for use in contracts and grants awarded to commercial organizations.

[71 FR 76504, Dec. 20, 2006]
(i) Assessing contractor performance, including inspection and testing of products and evaluation of reports and data;

(ii) Recommending necessary changes to the schedule of work and period of performance in order to accomplish the objectives of the contract. Program officials must provide the Contracting Officer a written request along with an appropriate justification and a funding document if additional funds are needed;

(iv) Reviewing invoices/vouchers and recommending approval/disapproval action by the Contracting Officer, to include comments regarding anything unusual discovered in the review;

(v) Reviewing and recommending approval or disapproval of subcontractors, overtime, travel, and key personnel changes; and

(vi) Participating, as necessary, in various phases of the contract closeout process.

(2) The role of the Project Officer in monitoring the contract includes the applicable activities set forth in paragraph (c)(1) of this section. The Project Officer also shall do the following:

(i) Submit periodic reports to the Contracting Officer that concisely explain the status of the contract, and include recommended actions for any problems reported. Provide the Contracting Officer with written notification of evaluation and approval/disapproval of contract deliverables and of completion of tasks or phases. The Contracting Officer or designee will provide the contractor with written notification of approval or disapproval and include a copy in the contract file;

(ii) Monitor the technical aspects of the contract, identify existing and potential problems that threaten performance, and immediately inform the Contracting Officer of deviations from contract objectives or from any technical or delivery requirements;

(iii) Immediately notify the head of the program office whenever it is determined that objectives are not being met and provide specific recommendations of actions to be taken. The Contracting Officer shall receive a copy of the Project Officer’s report and recommendations;

(iv) Within 120 days after contract completion, submit a final written assessment report to the Contracting Officer. The report should include analysis of the contractor’s performance, including the contract and program objectives achieved and missed. A copy of the final assessment report shall be forwarded to the head of the program office responsible for the program for management review and follow-up, as necessary; and

(v) Accompany and/or provide, when requested, technical support to the HHS auditor in the conduct of visual inspections.

(3) The roles of the contract administrator, auditor, cost analyst, and property administrator are to assist and/or advise the Contracting Officer in postaward administration activities such as:

(i) Evaluation of contractor systems and procedures, to include accounting policies and procedures, purchasing policies and practices, property accounting and control, wage and salary plans and rate structures, personnel policies and practices, etc.;

(ii) Processing of disputes under the Disputes clause and any resultant appeals;

(iii) Modification or termination of the contract; and

(iv) Determination of the allowability of cost charges to incentive or cost-reimbursement type contracts and progress payments under fixed-price contracts. This is especially important when award is made to new organizations or those with financial weaknesses.

(d) The Contracting Officer is responsible for assuring that contractor performance and contract monitoring conform with contract terms. If performance is not satisfactory or if problems are anticipated, it is essential that the Contracting Officer take immediate action to protect the Government’s rights under the contract. The Contracting Officer shall notify his/her immediate supervisor of problems that cannot be resolved within contract limitations and whenever contract or program objectives are not met. The notification shall include a statement of
342.7003 Withholding of contract payments.

342.7003–1 Policy.

(a) All solicitations and resultant contracts (other than awards made using simplified acquisition procedures) shall contain the withholding of contract payments clause at 352.232-9, and an excusable delays clause, or a clause which incorporates the definition of excusable delays. Use the excusable delays clause at 352.249-14 when the solicitation and resultant contract (other than purchase orders) does not contain a default or other excusable delays clause.

(b) When appropriate, the Contracting Officer may withhold any contract payment when a required report is overdue, or the contractor fails to perform or deliver required work or services.

342.7003–2 Procedures.

(a) The Contracting Officer is responsible for initiating immediate action to protect the Government’s rights whenever the contractor fails to comply with either the delivery or reporting terms of the contract. Compliance with the reporting terms includes those reports to be submitted directly to the payment office. The payment office shall notify the Contracting Officer promptly when such a report is not submitted on time.

(b) When the contract contains a termination for default clause, the contractor’s failure to submit any report, perform services, or deliver work when required by the contract is considered a default in performance. The Contracting Officer shall immediately issue a formal ten-day cure notice pursuant to FAR 49.607. The notice shall include a statement to the effect that payments will be withheld if the default is not cured within the time specified in the notice or if the default is not determined to be excusable.

(1) If the default is cured or is determined to be excusable, the Contracting Officer shall not initiate the withholding action.

(2) If the default is not determined to be excusable or a response is not received within the allotted time, the Contracting Officer shall initiate withholding action on all contract payments and shall determine whether termination for default or other action would be in the best interest of the Government.

(c) When the contract does not contain a termination for default clause, the contractor’s failure to submit any required report, perform services, or deliver work when required by the contract shall be considered a failure to perform. The Contracting Officer shall immediately issue a written notice to the contractor specifying the failure and providing a ten-day period (or longer period if the Contracting Officer deems it necessary) in which the contractor shall cure the failure or provide reasons for an excusable delay. The notice shall include a statement to the effect that payments will be withheld if the default is not cured within the time specified in the notice or if the default is not determined to be excusable.

(1) If the failure is cured or is determined to be excusable, the Contracting Officer shall not initiate the withholding action.

(2) If the failure is not determined to be excusable or a response is not received within the allotted time, the Contracting Officer shall initiate withholding action on all contract payments and shall determine whether termination for convenience or other action would be in the best interest of the Government.

(d) The Contracting Officer should consult FAR subpart 49.4 for further guidance before taking any of the actions described in this section.

342.7003–3 Withholding payments.

(a) When making the determination that contract payments should be withheld in accordance with the Withholding of Contract Payments clause,
the Contracting Officer shall imme-
diately notify the servicing finance of-
cice in writing of the determination to
withhold payments. The notice of sus-
pension shall contain all information
necessary for the finance office to iden-
tify the contract, i.e., contract number,
task/delivery order number, contractor
name and address, etc.
(b) The Contracting Officer shall im-
immediately notify the contractor in
writing that payments have been sus-
pended until the default or failure is
cured.
(c) When the contractor cures the de-
fault or failure, the Contracting Officer
shall immediately notify, in writing,
all recipients of the notice of suspen-
sion that the suspension is to be lifted
and contract payments are to be re-
sumed.
(d) When exercising actions regarding
the withholding of payment proce-
dures, the Contracting Officer must be
careful not to waive any of the Govern-
ment’s rights when corresponding with
the contractor or when taking any
other actions.

Subpart 342.71—Administrative
Actions for Cost Overruns

342.7100 Scope of subpart.
This subpart sets forth the proce-
dures to follow when a cost overrun is
anticipated. A cost overrun occurs
when the allowable actual cost of per-
forming a cost-reimbursement type
contract exceeds the total estimated
cost specified in the contract.
[71 FR 76506, Dec. 20, 2006]

342.7101 Contract administration.

342.7101–1 General.
Upon receipt of information that a
contractor’s accumulated cost and pro-
jected expenditures will exceed the
limit of funds obligated by the con-
tract, the contracting officer shall co-
ordinate immediately with the appro-
priate program office to determine
whether the contract should be modi-
fied or terminated. If the contracting
officer receives information from a
source other than the contractor that a
cost overrun is anticipated, the con-
tracting officer shall verify the infor-
mation with the contractor, and re-
mind the contractor of the notification
requirements of the Limitation of Cost
clause.

342.7101–2 Procedures.
(a) Upon notification that a cost
overrun is anticipated, the Contracting
Officer shall inform the contractor to
submit a request for additional funds
which shall include:
(1) Name and address of contractor.
(2) Contract number and expiration
date.
(3) Contract item(s) and amount(s)
creating overrun.
(4) The elements of cost which
changed from the original estimate
(i.e., labor, material, travel, overhead,
etc.) to be furnished in the following
format:
(i) Original estimate,
(ii) Costs incurred to date,
(iii) Estimated cost to completion,
(iv) Revised estimate, and
(v) Amount of adjustment.
(5) The factors responsible for the in-
crease, i.e., error in estimate, changed
conditions, etc.
(6) The latest date by which funds
must be available for commitment to
avoid contract slippage, work stoppage,
or other program impairment.
(b) When the contractor submits a
notice of an impending overrun, the
contracting officer shall:
(1) Immediately advise the appro-
priate program office and furnish a
copy of the notice and any other data
received;
(2) Request audit or cost advisory
services, and technical support, as nec-
essary, for evaluation of information
and data received; and
(3) Maintain continuous follow-up
with the program office to obtain a
timely decision as to whether the work
under the contract should continue and
additional funds be provided, or the
contract terminated. An appropriate
written statement and funding author-
ity, or a formal request for termi-
nation, must support the decision of
the program office. After receiving the
decision by the program office, the
Contracting Officer shall promptly no-
tify the contractor in writing of the fol-
lowing:
(i) The specified amount of additional funds allotted to the contract; or
(ii) Work will be discontinued when the allotted funds are exhausted, and any work performed after that date is at the contractor's risk; or
(iii) The Government is considering whether to allot additional funds to the contract and will notify the contractor as soon as possible, but that any work performed after the currently allotted funds are exhausted is at the contractor's risk. Timely, formal notification of the Government's intention is essential in order to preclude loss of contractual rights in the event of dispute, termination, or litigation.

(c) If program requirements permit, contracting officers should refrain from issuing any contractual documents which will require new work or an extension of time, pending resolution of an overrun or additional fund request.

DEFINITIONS (JAN 2006)

(a) In accordance with 52.202-1(a)(1), substitute the following as paragraph (a):

“(a) The term “Secretary” or “Head of the Agency” (also called “Agency Head”) means the Secretary, Deputy Secretary, or any Assistant Secretary, Administrator or Commissioner of the Department of Health and Human Services; and the term “his/her duly authorized representative” means any person, persons, or board authorized to act for the Secretary.”

(b) In accordance with 52.202-1(a)(1), add the following paragraph (b):

“(h) The term “Project Officer” means the person who monitors the technical aspects of contract performance. The Project Officer is not authorized to issue any instructions or directions which cause any increase or decrease in the scope of work which would result in the increase or decrease in the price of this contract, or changes in the delivery schedule or period of performance of this contract. If applicable, the Project Officer is not authorized to receive or act upon any notification or revised cost estimate provided by the Contractor in accordance with the Limitation of Cost or Limitation of Funds clauses of this contract.”

352.215–1 Instructions to offerors—Competitive acquisition.

Insert the following paragraph (e) in place of paragraph (e) of the provision at FAR 52.215–1:

(e) Restriction on disclosure and use of data.

(1) The proposal submitted in response to this request may contain data (trade secrets; business data, e.g., commercial information, financial information, and cost and pricing data; and technical data) which the offeror, including its prospective subcontractor(s), does not want used or disclosed for any purpose other than for evaluation of the proposal. The use and disclosure of any data may be so restricted; provided, that the Government determines that the data is not required to be disclosed under the Freedom of Information Act, 5 U.S.C. 552, as amended, and the offeror marks the cover sheet of the proposal with the following statements, specifying the particular portions of the proposal which are to be restricted: “Unless disclosure is required by the Freedom of Information Act, 5 U.S.C. 552, as amended, (the Act) as determined by Freedom of Information (FOI) officials of the Department of Health and Human Services, data contained in the portions of this proposal which have been specifically identified by page number,
paragraph, etc. by the offeror as containing restricted information shall not be used or disclosed except for evaluation purposes. The offeror acknowledges that the Department may not be able to withhold a record (data, document, etc.) nor deny access to a record requested pursuant to the Act and that the Department’s FOI officials must make that determination. The offeror hereby agrees that the Government is not liable for disclosure if the Department has determined that disclosure is required by the Act.

If a contract is awarded to the offeror as a result of, or in connection with, the submission of this proposal, the Government shall have the right to use or disclose the data to the extent provided in the contract. Proposals not resulting in a contract remain subject to the Act. The offeror also agrees that the Government is not liable for disclosure or use of unmarked data and may use or disclose the data for any purpose, including the release of the information pursuant to requests under the Act. The data subject to this restriction are contained in pages (insert page numbers, paragraph designations, etc. or other identification)."

(2) In addition, the offeror must mark each page of data it wishes to restrict with the following statement:

"Use or disclosure of data contained on this page is subject to the restriction on the cover sheet of this proposal or quotation."

(3) Offerors are cautioned that proposals submitted with restrictive statements or statements differing in substance from those cited above may not be considered for award. The Government reserves the right to reject any proposal submitted with nonconforming statement(s).

[71 FR 76506, Dec. 20, 2006]

352.215–70 Late proposals and revisions.

As prescribed in 315.208, the following provision may be included in the solicitation:

LATE PROPOSALS AND REVISIONS (JAN 2006)

Notwithstanding the procedures contained in FAR 52.215–1(c)(3) of the provision of this solicitation entitled Instructions to Offerors—Competitive Acquisition, a proposal received after the date specified for receipt may be considered if it appears to offer the best value to the Government and it was received before proposals were distributed for evaluation, or within five calendar days after the exact time specified for receipt, whichever is earlier.

[71 FR 76506, Dec. 20, 2006]

352.216–72 Additional cost principles.

As prescribed in 316.307(j), insert the following clause in all solicitations and resultant cost-reimbursement contracts:

ADDITIONAL COST PRINCIPLES (JAN 2006)

(a) Bid and proposal costs. (1) Bid and proposal costs are the immediate costs of preparing bids, proposals, and applications for potential Federal and non-Federal contracts, grants, and agreements, including the development of scientific, cost, and other data needed to support the bids, proposals, and applications.

(2) Bid and proposal costs of the current accounting period are allowable as indirect costs.

(3) Bid and proposal costs of past accounting periods are unallowable in the current period. However, if the organization’s established practice is to treat these costs by some other method, they may be accepted if they are found to be reasonable and equitable.

(4) Bid and proposal costs do not include independent research and development costs covered by the following paragraph, or preaward costs covered by paragraph 36 of Attachment B to OMB Circular A–122.

(b) Independent research and development costs. (1) Independent research and development is research and development conducted by an organization which is not sponsored by Federal or non-Federal contracts, grants, or other agreements.

(2) Independent research and development shall be allocated its proportionate share of indirect costs on the same basis as the allocation of indirect costs to sponsored research and development.

(3) The cost of independent research and development, including its proportionate share of indirect costs, are unallowable.

(End of clause)

352.223–70 Safety and health.

The following clause shall be used as prescribed in 332.7002:

SAFETY AND HEALTH (JAN 2006)

(a) To help ensure the protection of the life and health of all persons, and to help prevent damage to property, the Contractor shall comply with all Federal, State and local laws and regulations applicable to the work being performed under this contract. These laws are implemented and/or enforced by the Environmental Protection Agency, Occupational Safety and Health Administration and
other agencies at the Federal, State and local levels (Federal, State and local regulatory/enforcement agencies).

(i) In addition, the following regulations must be followed when developing and implementing health and safety operating procedures and practices for both personnel and facilities involving the use or handling of hazardous materials and the conduct of research, development, or test projects:

(2) The following guidelines are recommended for use in developing and implementing health and safety operating procedures and practices for both personnel and facilities:

(i) Biosafety in Microbiological and Biomedical Laboratories, CDC and NIH, HHS. This publication is available at http://bmbl.od.nih.gov/index.htm.

(b) Further, the Contractor shall take or cause to be taken additional safety measures as the Contracting Officer, in conjunction with the project or other appropriate officers, determines to be reasonably necessary. If compliance with these additional safety measures results in an increase or decrease in the cost or time required for performance of any part of work under this contract, an equitable adjustment will be made in accordance with the applicable "Changes" clause set forth in this contract.

(c) The Contractor shall maintain an accurate record of, and promptly report to the Contracting Officer, all accidents or incidents resulting in the exposure of persons to toxic substances, hazardous materials or hazardous operations; the injury or death of any person; and/or damage to property incidental to work performed under the contract and all violations for which the Contractor has been cited by any Federal, State or local regulatory/enforcement agency. The report shall include a copy of the notice of violation and the findings of any inquiry or inspection, and an analysis addressing the impact these violations may have on the work remaining to be performed. The report shall also state the required action(s), if any, to be taken to correct any violation(s) noted by the Federal, State or local regulatory/enforcement agency and the time frame allowed by the agency to accomplish the necessary corrective action.

(d) If the Contractor fails or refuses to comply with the Federal, State or local regulatory/enforcement agency’s directive(s) regarding any violation(s) and prescribed corrective action(s), the Contracting Officer may issue an order stopping all or part of the work until satisfactory corrective action (as approved by the Federal, State or local regulatory/enforcement agencies) has been taken and documented to the Contracting Officer. No part of the time lost due to any stop work order shall be subject to a claim for extension of time or costs or damages by the Contractor.

(e) The Contractor shall insert the substance of this clause in each subcontract involving toxic substances, hazardous materials, or hazardous operations. Compliance with the provisions of this clause by subcontractors will be the responsibility of the Contractor.

(End of clause)

[71 FR 76507, Dec. 20, 2006]

352.224–70 Confidentiality of information.

The following clause covers the policy set forth in subpart 324.70 and is used in accordance with the instructions set forth in 324.7004.

CONFIDENTIALITY OF INFORMATION (JAN 2006)

(a) Confidential information, as used in this clause, means information or data of a personal nature about an individual, or proprietary information or data submitted by or pertaining to an institution or organization.

(b) The Contracting Officer and the Contractor may, by mutual consent, identify such confidential information from time to time during the performance of the contract. Failure to agree will be settled pursuant to the "Disputes" clause.

(c) If it is established elsewhere in this contract that information to be utilized under this contract, or a portion thereof, is subject to the Privacy Act, the Contractor-
will follow the rules and procedures of disclosure set forth in the Privacy Act of 1974, 5 U.S.C. 552a, and implementing regulations and policies, with respect to systems of records determined to be subject to the Privacy Act.

(d) Confidential information, as defined in paragraph (a) of this clause, shall not be disclosed without the prior written consent of the individual, institution, or organization.

(e) Whenever the Contractor is uncertain with regard to the proper handling of material under the contract, or if the material in question is subject to the Privacy Act or is confidential information subject to the provisions of this clause, the Contractor should obtain a written determination from the Contracting Officer prior to any release, disclosure, dissemination, or publication.

(f) Contracting Officer determinations will reflect the result of internal coordination with appropriate program and legal officials.

(g) The provisions of paragraph (d) of this clause shall not apply to conflicting or overlapping provisions in other Federal, State, or local laws.

(End of clause)

[71 FR 76507, Dec. 20, 2006]

352.228–7 Insurance—Liability to third persons.

As prescribed in 328.311–2, contracting officers shall include the following clause in all cost-reimbursement contracts, in lieu of the clause at FAR 52.228–7:

INSURANCE—LIABILITY TO THIRD PERSONS

(DEC 1991)

(a)(1) Except as provided in paragraph (a)(2) immediately following, or in paragraph (h) of this clause (if the clause has a paragraph (h)), the Contractor shall provide and maintain workers’ compensation, employer’s liability, comprehensive general liability (bodily injury and property damage) insurance, and such other insurance as the Contracting Officer may require under this contract.

(2) The Contractor may, with the approval of the Contracting Officer, maintain a self-insurance program; provided that, with respect to workers’ compensation, the Contractor is qualified pursuant to statutory authority.

(b) The Contractor agrees to submit for the Contracting Officer’s approval, to the extent and in the manner required by the Contracting Officer, any other insurance that is maintained by the Contractor in connection with performance of this contract and for which the Contractor seeks reimbursement.

(c) Except as provided in paragraph (h) of this clause (if the clause has a paragraph (h)), the Contractor shall be reimbursed:

(1) For that portion of the reasonable cost of insurance allocable to this contract, and required or approved under this clause; and

(2) For certain liabilities (and expenses incidental to such liabilities) to third persons not compensated by insurance or otherwise within the funds available under the Limitation of Cost or the Limitation of Funds clause of this contract. These liabilities must arise out of the performance of this contract, whether or not caused by the negligence of the Contractor or the Contractor’s agents, servants, or employees, and must be represented by final judgments or settlements approved in writing by the Government. These liabilities are for:

(i) Loss of or damage to property (other than property owned, occupied, or used by the Contractor, rented to the Contractor, or in the care, custody, or control of the Contractor); or

(ii) Death or bodily injury.

(d) The Government’s liability under paragraph (c) of this clause is limited to the amounts reflected in final judgments, or settlements approved in writing by the Government, but in no event to exceed the funds available under the Limitation of Cost or Limitation of Funds clause of this contract. Nothing in this contract shall be construed as implying that, at a later date, the Government will request, or the Congress will appropriate, funds sufficient to meet any deficiencies.

(e) The Contractor shall not be reimbursed for liabilities (and expenses incidental to such liabilities):

(1) For which the Contractor is otherwise responsible under the express terms of any clause specified in the Schedule or elsewhere in the contract;

(2) For which the Contractor has failed to insure or to maintain insurance as required by the Contracting Officer; or

(3) That result from willful misconduct or lack of good faith on the part of the Contractor’s directors, officers, managers, superintendents, or other representatives who have supervision or direction of:

(i) All or substantially all of the Contractor’s operations at any one plant or separate location in which this contract is being performed; or

(ii) A separate and complete major industrial operation in connection with the performance of this contract.
(f) The provisions of paragraph (e) of this clause shall not restrict the right of the Contractor to be reimbursed for the cost of insurance maintained by the Contractor in connection with the performance of this contract, other than insurance required in accordance with this clause; provided, that such cost is allowable under the Allowable Cost and Payment clause of this contract.

(g) If any suit or action is filed or any claim is made against the Contractor, the cost and expense of which may be reimbursable to the Contractor under this contract, and the risk of which is then uninsured or is insured for less than the amount claimed, the Contractor shall:

1. Immediately notify the Contracting Officer and promptly furnish copies of all pertinent papers received;

2. Authorize Government representatives to collaborate with counsel for the insurance carrier in settling or defending the claim when the amount of the liability claimed exceeds the amount of coverage; and

3. Authorize Government representatives to settle or defend the claim and to represent the Contractor in or to take charge of any litigation, if required by the Government, when the liability is not insured or covered by the bond. The Contractor may, at its own expense, be associated with the Government representatives in any such claim or litigation.

(End of clause)

Alternate I (APR 1984). If the successful offeror represents in the offer that the offeror is partially immune from tort liability as a State agency, add the following paragraph (h) to the basic clause:

(h) Notwithstanding paragraphs (a) and (c) of this clause—

1. The Government does not assume any liability to third persons, nor will the Government reimburse the Contractor for its liability to third persons, with respect to loss due to death, bodily injury, or damage to property resulting in any way from the performance of this contract or any subcontract under this contract; and

2. The Contractor need not provide or maintain insurance coverage as required by paragraph (a) of this clause; provided, that the Contractor may obtain any insurance coverage deemed necessary, subject to approval by the Contracting Officer as to form, amount, and duration. The Contractor shall be reimbursed for the cost of such insurance and, to the extent provided in paragraph (c) of this clause, to liabilities to third persons for which the Contractor has obtained insurance coverage as provided in this paragraph, but for which such coverage is insufficient in amount.

(End of clause)

Alternate II (APR 1984). If the successful offeror represents in the offer that the offeror is totally immune from tort liability as a State agency, substitute the following paragraphs (a) and (b) for paragraphs (a) and (b) of the basic clause:

(a) The Government does not assume any liability to third persons, nor will the Government reimburse the Contractor for its liability to third persons, with respect to loss due to death, bodily injury, or damage to property resulting in any way from the performance of this contract or any subcontract under this contract.

(b) If any suit or action is filed, or if any claim is made against the Contractor, the cost and expense of which may be reimbursable to the Contractor under this contract, the Contractor shall immediately notify the Contracting Officer and promptly furnish copies of all pertinent papers received by the Contractor. The Contractor shall, if required by the Government, authorize Government representatives to settle or defend the claim and to represent the Contractor in or take charge of any litigation. The Contractor may, at its own expense, be associated with the Government representatives in any such claims or litigation.

(End of clause)
352.232–75 Incremental funding.

The following provision shall be included in all requests for proposals whenever the use of incremental funding is contemplated:

**INCREMENTAL FUNDING (JAN 2006)**

INDIAN PREFERENCE (APR 1984)

(a) The Contractor agrees to give preference in employment opportunities under this contract to Indians who can perform required work, regardless of age (subject to existing laws and regulations), sex, religion, or tribal affiliation. To the extent feasible and consistent with the efficient performance of this contract, the Contractor further agrees to give preference in employment and training opportunities under this contract to Indians who are not fully qualified to perform required work, regardless of age (subject to existing laws and regulations), sex, religion, or tribal affiliation. The Contractor also agrees to give preference to Indian organizations and Indian-owned economic enterprises in the awarding of any subcontracts to the extent feasible and consistent with the efficient performance of this contract. The Contractor shall maintain statistical records as are necessary to indicate compliance with this paragraph.

(b) In connection with the Indian employment preference requirements of this clause, the Contractor shall provide opportunities for training incident to such employment. Such training shall include on-the-job, classroom, or apprenticeship training which is designed to increase the vocational effectiveness of an Indian employee.

(c) If the Contractor is unable to fill its employment and training opportunities after giving full consideration to Indians as required by this clause, those needs may be satisfied by selection of persons other than Indians in accordance with the clause of this contract entitled “Equal Opportunity.”

(d) If no Indian organizations or Indian-owned economic enterprises are available under reasonable terms and conditions, including price, for awarding of subcontracts in connection with the work performed under this contract, the Contractor agrees to comply with the provisions of this contract involving utilization of small business concerns, small disadvantaged business concerns, and women-owned small business concerns.

(e) As used in this clause:

(1) “Indian” means a person who is a member of an Indian Tribe. If the Contractor has reason to doubt that a person seeking employment preference is an Indian, the Contractor shall grant the preference but shall require the individual to provide evidence within thirty (30) days from the Tribe concerned that the person is a member of the Tribe.

(2) “Indian Tribe” means an Indian Tribe, pueblo, band, nation, or other organized group or community, including Alaska Native village or regional or village corporation as defined in or established pursuant to the Alaska Native Claims Settlement Act (85 Stat. 688; 43 U.S.C. 1601) which is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians.

(3) “Indian organization” means the governing body of any Indian Tribe or entity established or recognized by such governing body in accordance with the Indian Financing Act of 1974 (88 Stat. 77; 25 U.S.C. 1401); and

(4) “Indian-owned economic enterprise” means any Indian-owned commercial, industrial, or business activity established or organized for the purpose of profit, provided that such Indian ownership shall constitute not less than 51 percent of the enterprise, and that ownership shall encompass active operation and control of the enterprise.

(f) The Contractor agrees to include the provisions of this clause, including this paragraph (f) of this clause, in each subcontract awarded at any tier under this contract.
(g) In the event of noncompliance with this clause, the Contracting Officer may terminate the contract in whole or in part or may impose any other sanctions authorized by law or by other provisions of the contract.

(End of clause)

352.270–3  Indian preference program.

Use the following clause as prescribed in 370.202(b):

**INDIAN PREFERENCE PROGRAM (JAN 2006)**

(a) In addition to the requirements of the clause of this contract entitled “Indian Preference,” the Contractor agrees to establish and conduct an Indian preference program which will expand opportunities for Indians to receive preference for employment and training in connection with the work to be performed under this contract, and which will expand the opportunities for Indian organizations and Indian-owned economic enterprises to receive a preference in the awarding of subcontracts. In this connection, the Contractor shall:

1. Designate a liaison officer who will maintain liaison with the Government and the Tribe(s) on Indian preference matters; supervise compliance with the provisions of this clause; and administer the Contractor’s Indian preference program.

2. Advise its recruitment sources in writing and include a statement in all advertisements for employment that Indian applicants will be given preference in employment and training incident to such employment.

3. Not more than twenty (20) calendar days after award of the contract, post a written notice in the Tribal office of any reservation on which or near where the work under this contract is to be performed that sets forth the Contractor’s employment needs and related training opportunities. The notice shall include the approximate numbers and types of employees needed; the approximate dates of employment; the experience or special skills required for employment; if any; training opportunities available; and other pertinent information necessary to advise prospective employees of any other employment requirements. The Contractor shall also request the Tribe(s) on or near whose reservation(s) the work is to be performed to provide assistance to the Contractor in filling its employment needs and training opportunities. The Contracting Officer will advise the Contractor of the name, location, and phone number of the Tribal officials to contact in regard to the posting of notices and requests for Tribal assistance.

4. Establish and conduct a subcontracting program which gives preference to Indian organizations and Indian-owned economic enterprises as subcontractors and suppliers under this contract. The Contractor shall give public notice of existing subcontracting opportunities and, to the extent feasible and consistent with the efficient performance of this contract, shall solicit bids or proposals only from Indian organizations or Indian-owned economic enterprises. The Contractor shall request assistance and information on Indian firms qualified as suppliers or subcontractors from the Tribe(s) on or near whose reservation(s) the work under the contract is to be performed. The Contracting Officer will advise the Contractor of the name, location, and phone number of the Tribal officials to be contacted in regard to the request for assistance and information. Public notices and solicitations for existing subcontracting opportunities shall provide an equitable opportunity for Indian firms to submit bids or proposals by including: (i) A clear description of the supplies or services required, including quantities, specifications, and delivery schedules which facilitate the participation of Indian firms; (ii) A statement indicating that preference will be given to Indian organizations and Indian-owned economic enterprises in accordance with section 7(b) of Public Law 93–638 (88 Stat. 2205; 25 U.S.C. 450e(b)); (iii) Definitions for the terms “Indian organization” and “Indian-owned economic enterprise” as prescribed under the “Indian Preference” clause of this contract; (iv) A statement to be completed by the bidder or offeror that it is an Indian organization or Indian-owned economic enterprise; and (v) A closing date for receipt of bids or proposals which provides sufficient time for preparation and submission of a bid or proposal. If after soliciting bids or proposals from Indian organizations and Indian-owned economic enterprises, no responsive bid or acceptable proposal is received, the Contractor shall comply with the requirements of paragraph (d) of the “Indian Preference” clause of this contract. If one or more responsive bids or proposals are received, award shall be made to the low responsible bidder or acceptable offeror if the price is determined to be reasonable. If the low responsive bid or acceptable proposal is determined to be unreasonable as to price, the Contractor shall attempt to negotiate a reasonable price and award a subcontract. If a reasonable price cannot be agreed upon, the Contractor shall comply with the requirements of paragraph (d) of the “Indian Preference” clause of this contract.

5. Maintain written records under this contract which indicate: (i) The numbers of Indians seeking employment for each employment position available under this contract; (ii) The number and types of positions filled by Indians and non-Indians; (iii) The...
total number of Indians employed under this contract; (iv) For those positions where there are both Indian and non-Indian applicants, and a non-Indian is selected for employment, the reason(s) why the Indian applicant was not selected; (v) Actions taken to give preference to Indian organizations and Indian-owned economic enterprises for subcontracting opportunities which exist under this contract; (vi) Reasons why preference was not given to Indian firms as subcontractors or suppliers for each requirement where it was determined by the Contractor that such preference would not be consistent with the efficient performance of the contract; and (vii) The number of Indian organizations and Indian-owned economic enterprises contacted, and the number receiving subcontract awards under this contract.

(b) Submit to the Contracting Officer for approval a quarterly report which summarizes the Contractor’s Indian preference program and indicates the number and types of available positions filled by Indians and non-Indians, and the dollar amounts of all subcontracts awarded to Indian organizations and Indian-owned economic enterprises, and to all other firms.

(7) Maintain records pursuant to this clause and keep them available for review by the Government for one year after final payment under this contract, or for such longer period as may be required by any other clause of this contract or by applicable law or regulation.

(b) For purposes of this clause, the following definitions of terms shall apply:

(1) The terms “Indian,” “Indian Tribe,” “Indian Organization,” and “Indian-owned economic enterprise” are defined in the clause of this contract entitled “Indian Preference.”

(2) “Indian reservation” includes Indian reservations, public domain Indian Allotments, former Indian reservations in Oklahoma, and land held by incorporated Native groups, regional corporations, and village corporations under the provisions of the Alaska Native Claims Settlement Act (85 Stat. 688; 43 U.S.C. 1601 et seq.)

(3) “On or near an Indian Reservation” means on a reservation or reservations or within that area surrounding an Indian reservation(s) where a person seeking employment could reasonably be expected to commute to and from in the course of a work day.

(c) Nothing in the requirements of this clause shall be interpreted to preclude Indian Tribes from independently developing and enforcing their own Indian preference requirements. Such requirements must not conflict with any Federal statutory or regulatory requirement dealing with the award and administration of contracts.

(d) The Contractor agrees to include the provisions of this clause, including this paragraph (d), in each subcontract awarded at any tier under this contract and to notify the Contracting Officer of such subcontracts.

(e) In the event of noncompliance with this clause, the Contracting Officer may terminate the contract in whole or in part or may impose any other sanctions authorized by law or by other provisions of the contract.

NOTICE TO OFFERORS OF REQUIREMENTS OF 45 CFR PART 46, PROTECTION OF HUMAN SUBJECTS (JAN 2006)

(b) Copies of the Department of Health and Human Services (HHS) regulations for the protection of human subjects, 45 CFR part 46, are available from the Office for Human Research Protections (OHRP), Bethesda, Maryland 20892. The regulations provide a systematic means, based on established ethical principles, to safeguard the rights and welfare of individuals who participate as subjects in research activities supported or conducted by HHS.
(b) The regulations define a human subject as a living individual about whom an investigator (whether professional or student) conducting research obtains data through intervention or interaction with the individual, or identifiable private information. The regulations extend to the use of human organs, tissue, and body fluids from individually identifiable human subjects as well as to graphic, written, or recorded information derived from individually identifiable human subjects. In doubtful cases, prior consultation with OHRP, (telephone: 301–496–7014), is recommended.

(e) In accordance with 45 CFR part 46, prospective Contractors being considered for award shall be required to file with OHRP an acceptable Assurance of Compliance with the regulations, specifying review procedures and assigning responsibilities for the protection of human subjects. The initial and continuing review of a research project by an institutional review board shall assure that the rights and welfare of the human subjects involved are adequately protected, that the risks to the subjects are reasonable in relation to the potential benefits, if any, to the subjects and the importance of the knowledge to be gained, and that informed consent will be obtained by methods that are adequate and appropriate. HHS regulations for the protection of human subjects (45 CFR part 46), information regarding OHRP registration and assurance requirements, and OHRP contact information can be accessed at the OHRP Web site: http://www.hhs.gov/ohrp.

PRIVACY ACT (JAN 2006)

This contract requires the Contractor to perform one or more of the following: (a) Design; (b) develop; or (c) operate a Federal agency system of records to accomplish an agency function in accordance with the Privacy Act of 1974 (Act) (5 U.S.C. 552a(m)(1)) and applicable agency regulations. The term “system of records” means a group of any records under the control of any agency from which information is retrieved by the name of the individual or by some identifying number, symbol, or other identifying particular assigned to the individual.

Violations of the Act by the Contractor and/or its employees may result in the imposition of criminal penalties (5 U.S.C. 552a(i)). The Contractor shall ensure that each of its employees knows the prescribed rules of conduct and that each employee is aware that he/she is subject to criminal penalties for violation of the Act to the same extent as HHS employees. These provisions also apply to all subcontracts awarded under this contract which require the design, development, or operation work to be performed by the Contractor; and (b) specifies the disposition to be made of such records upon completion of contract performance.

(End of clause)

352.270–12 Pro-Children Act.

Insert the following clause in all solicitations and resultant contracts and orders, regardless of dollar amount, for (i) kindergarten, elementary, or secondary education or library services or (ii) health or day care services that are provided to children under the age of 18 on a routine or regular basis pursuant to the Pro-Children Act of 1994:

PRO-CHILDREN ACT OF 1994 (JAN 2006)

Public Law 103–227, Title X, Part C, also known as the Pro-Children Act of 1994 (Act), 20 U.S.C. 7183, imposes restrictions on smoking in facilities where certain federally funded children’s services are provided. The Act prohibits smoking within any indoor facility (or portion thereof), whether owned, leased, or contracted for, that is used for the routine or regular provision of (i) kindergarten, elementary, or secondary education or library services or (ii) health or day care services that are provided to children under the age of 18. The statutory prohibition also applies to indoor facilities that are constructed, operated, or maintained with Federal funds.

By acceptance of this contract or order, the Contractor agrees to comply with the requirements of the Act. The Act also applies to all subcontracts awarded under this contract for the specified children’s services. Accordingly, the Contractor shall ensure that each of its employees, and any subcontractor staff, is made aware of, understand, and comply with the provisions of the Act.

Failure to comply with the Act may result in the imposition of a civil monetary penalty in an amount not to exceed $1,000 for each violation and/or the imposition of an administrative compliance order on the responsible entity. Each day a violation continues constitutes a separate violation.

(End of clause)

352.270–13 Tobacco-free facilities.

Insert the following clause in all new solicitations and resultant contracts and orders (including construction) and all modifications resulting from the exercise of an option under a contract or order, regardless of dollar value, where some or all of the Contractor’s performance, will take place on HHS properties. This clause is not required to be included if contract or order performance requires only that Contractor staff attend occasional meetings on HHS properties. In this case, Contractor employees are considered “visitors.” Further, for any proposed or existing construction contract or order, the Contracting Officer should coordinate any exceptions to the policy.
raised by an incumbent or potential Contractor based on union or collective bargaining agreements with the designated OPDIV tobacco-free policy contact point for final disposition.

**Tobacco-Free Facilities (JAN 2006)**

In accordance with Department of Health and Human Services (HHS) policy, the Contractor and its staff are prohibited from using tobacco products of any kind (e.g., cigarettes, cigars, pipes, and smokeless tobacco) while on any HHS property, including use in personal or company vehicles operated by Contractor employees while on an HHS property. This policy also applies to all subcontracts awarded under the contract or order.

The term “HHS properties” includes all properties owned, controlled and/or leased by HHS when totally occupied by HHS, including all indoor and outdoor areas of such properties. Where HHS only partially occupies such properties, it includes all HHS-occupied interior space. Where HHS leases space in a multi-occupant building or complex, the tobacco-free HHS policy will apply to the maximum area permitted by law and compliance with the provisions of any current lease agreements.

The Contractor shall ensure that each of its employees, and any subcontractor staff, is made aware of, understand, and comply with this policy.

(End of clause)

**352.270–14 Restriction on use of human subjects.**

If the Contractor has an approved Federal-wide assurance of compliance in place, but the certification that the Institutional Review Board (IRB) designated under the assurance has reviewed and approved the research cannot be completed prior to contract award because definite plans for involvement of human subjects are not set forth in the proposal (e.g., projects in which human subjects’ involvement will depend upon completion of instruments, prior animal studies, or purification of compounds), the award may be made without the requisite certification as long as the contract is appropriately conditioned. Under these conditions, insert the following clause in applicable contracts:

**Restriction on Use of Human Subjects (JAN 2006)**

Pursuant to 45 CFR part 46, Protection of Human Research Subjects, the Contractor shall not expend funds under this award for research involving human subjects or engage in any human subjects research activity prior to the receipt by the Contracting Officer of a certification that the research has been reviewed and approved by the Institutional Review Board (IRB) designated under the Contractor’s Federal-wide assurance of compliance. This restriction applies to all collaborating sites, whether domestic or foreign, and subcontractors. The Contractor must ensure compliance by collaborators and subcontractors.

(End of clause)

**352.270–15 Salary rate limitation.**

Insert the following clause in all new NIH, SAMHSA, and AHRQ solicitations and resultant contracts and orders (except fixed-price completion contracts) and modifications of existing contracts for projects that support extramural activities. Projects that support extramural activities include extramural R&D, SAMHSA’s mission-related requirements, and those activities commonly referred to as “extramural R&D support.”

**Salary Rate Limitation (JAN 2006)**

Insert the following clause in all new NIH, SAMHSA, and AHRQ solicitations and resultant contracts (except fixed-price completion contracts) and modifications of existing contracts for extramural R&D and SAMHSA’s mission-related requirements. Projects that are not considered R&D but that support extramural R&D activities (commonly referred to as “extramural R&D support”) are OR are not included.

For purposes of the salary limitation, the terms “direct salary,” “salary,” and “institutional base salary” have the same meaning and are collectively referred to as “direct salary” in this clause. An individual’s direct salary is the annual compensation that the
Contractor pays for an individual’s appointment whether that individual’s time is spent on research, teaching, patient care, or other activities. Direct salary excludes any income that an individual may be permitted to earn outside of duties to the Contractor. Direct salary also excludes fringe benefits, overhead, and general and administrative expenses (also referred to as indirect costs or facilities and administrative [F&A] costs). The salary rate limitation also applies to individuals performing under subcontracts.

However, it does not apply to fees paid to consultants. If this is a multiple-year contract, it may be subject to unilateral modification by the Contracting Officer to ensure that an individual is not paid at a rate that exceeds the salary rate limitation provision established in the HHS appropriations act in effect when the expense is incurred regardless of the rate initially used to establish contract funding.

#### 352.270–16 Native American Graves Protection and Repatriation Act

Insert the following clause in any solicitation and resultant contract or order that requires performance on Federal or tribal lands and all solicitations and resultant contracts or orders for construction on Federal or tribal lands, regardless of dollar amount:

**Native American Graves Protection and Repatriation Act (JAN 2006)**

Public Law 101–601, dated November 16, 1990, also known as the Native American Graves Protection and Repatriation Act (Act), imposes certain responsibilities on individuals and organizations when they discover Native American cultural items (including human remains) on Federal or tribal lands.

In the event the Contractor discovers Native American cultural items (including human remains, associated funerary objects, unassociated funerary objects, sacred objects and cultural patrimony), as defined in the Act during contract performance, the Contractor shall: (i) Immediately cease activity in the area of the discovery; (ii) notify the Contracting Officer of the discovery; and (iii) make a reasonable effort to protect the items discovered before resuming such activity. Upon receipt of the Contractor’s discovery notice, the Contracting Officer will notify the appropriate authorities as required by the Act.

Unless otherwise specified by the Contracting Officer, the Contractor may resume activity in the area on the 31st calendar day following the date that the appropriate authorities certify receipt of the discovery notice. The date that the appropriate authorities certify receipt of the discovery notice and the date on which the Contractor may resume activities shall be provided to the Contractor by the Contracting Officer.

#### 352.270–17 Crime Control Act—Reporting of child abuse

Insert the following clause in all solicitations and resultant contracts and orders, regardless of dollar amount, where performance will take place on Federal land or in a federally-operated (or contracted) facility and that involve the professions/activities performed by persons specified in the Crime Control Act of 1990, including, but not limited to, physicians, nurses, dentists, health care practitioners, optometrists, psychologists, emergency medical technicians, alcohol or drug treatment personnel, child care workers and administrators, emergency medical technicians and ambulance drivers:

(End of clause)
352.270–18  

**Public Law 101–647,** also known as the Crime Control Act of 1990 (Act), imposes responsibilities on certain individuals who, while engaged in a professional capacity or activity, as defined in the Act, on Federal land or in a federally-operated (or contracted) facility, learn of facts that give the individual reason to suspect that a child has suffered an incident of child abuse.

The Act designates “covered professionals” as those persons engaged in professions and activities in eight different categories including, but not limited to, physicians, dentists, medical residents or interns, hospital personnel and administrators, nurses, health care practitioners, chiropractors, osteopaths, pharmacists, optometrists, podiatrists, emergency medical technicians, ambulance drivers, alcohol or drug treatment personnel, psychologists, psychiatrists, mental health professionals, child care workers and administrators, and commercial film and photo processors. The Act defines the term “child abuse” as the physical or mental injury, sexual abuse or exploitation, or negligent treatment of a child.

Accordingly, any person engaged in a covered profession or activity under an HHS contract or subcontract, regardless of the purpose of the contract or subcontract, shall immediately report a suspected child abuse incident in accordance with the provisions of the Act. If a child is suspected of being harmed, the appropriate State Child Abuse Hotline, local child protective services (CPS), or law enforcement agency should be contacted. For more information about where and how to file a report, the Childhelp USA®, National Child Abuse Hotline (1–800–4–A–CHILD®) should be called. Any covered professional failing to make a timely report of such incident shall be guilty of a Class B misdemeanor.

By acceptance of this contract or order, the Contractor agrees to comply with the requirements of the Act. The Act also applies to all applicable subcontracts awarded under this contract. Accordingly, the Contractor shall ensure that each of its employees, and any subcontractor staff, is made aware of, understand, and comply with the provisions of the Act.

352.270–19  

**Electronic information and technology accessibility.**

(a) The following clause shall be used in solicitations and resultant contracts and orders, regardless of dollar amount, for all child care services to children under the age of 18, including social services, health and mental health care, child (day) care, education (whether or not directly involved in teaching), and rehabilitative programs covered under the Crime Control Act of 1990 (Act):

**Crime Control Act of 1990—Requirement for Background Checks (JAN 2006)**

Public Law 101–647, also known as the Crime Control Act of 1990 (Act), requires that all individuals involved with the provision of child care services to children under the age of 18 undergo a criminal background check. “Child care services” include, but are not limited to, social services, health and mental health care, child (day) care, education (whether or not directly involved in teaching), and rehabilitative programs. Any conviction for a sex crime, an offense involving a child victim, or a drug felony, may be grounds for denying employment or for dismissal of an employee providing any of the services listed above.

The Contracting Officer will provide the necessary information to the Contractor regarding the process for obtaining the background check. The Contractor may hire a staff person provisionally prior to the completion of a background check, if at all times prior to the receipt of the background check during which children are in the care of the newly-hired person, the person is within the sight and under the supervision of a previously investigated staff person.

By acceptance of this contract or order, the Contractor agrees to comply with the requirements of the Act. The Act also applies to all applicable subcontracts awarded under this contract. Accordingly, the Contractor shall ensure that each of its employees, and any subcontractor staff, is made aware of, understand, and comply with the provisions of the Act.

Subpart 370.1—Accessibility of Meetings, Conferences, and Seminars to Persons With Disabilities

370.101 Policy.

(a) It is the policy of HHS that all meetings, conferences, and seminars be accessible to persons with disabilities. For the purpose of this policy, accessibility is defined as both physical access to meeting, conference, and seminar sites, and aids and services to enable individuals with sensory disabilities to fully participate in meetings, conferences, and seminars.

(b) In regard to acquisition, the policy is applicable to all contracts where the statement of work requires the contractor to conduct meetings, conferences, or seminars that are open to the public or involve HHS personnel, but not to ad hoc meetings that may be necessary or incidental to contract performance.

370.102 Responsibilities.

(a) The Contracting Officer shall include the clause in 352.270–1 in every solicitation and resulting contract when the statement of work requires the contractor to conduct meetings, conferences, or seminars in accordance with 370.101(b).

(b) The Project Officer shall be responsible for obtaining, reviewing, and approving the contractor’s plan, which is to be submitted in response to paragraph (a) of the contract clause in 352.270–1. A consolidated or master plan for contracts requiring numerous meetings, conferences, or seminars will be acceptable. The Project Officer, prior to approving the plan, should consult with the OPDIV or other designated organization responsible for ensuring compliance with the Architectural Barriers Act of 1968 and the Americans with Disabilities Act of 1990 to ensure that the contractor’s plan meets the accessibility requirements of the contract clause. The Project Officer shall ask the responsible organization to review, and determine the adequacy of, the contractor’s plan, and respond to the Project Officer, in writing, within ten (10) working days of receiving the request from the Project Officer.

Subpart 370.2—Indian Preference in Employment, Training, and Subcontracting Opportunities

370.201 Statutory requirements.

Section 7(b) of the Indian Self-Determination and Education Assistance Act, Public Law 93–638, 88 Stat. 2205, 25 U.S.C. 450e(b), requires:

“Any contract, subcontract, grant, or subgrant pursuant to this Act, the Act of April 16, 1934 (48 Stat. 596), as amended, or any other Act authorizing Federal contracts with or grants to Indian organizations or for the benefit of Indians, shall require that to the greatest extent feasible:

1. Preferences and opportunities for training and employment in connection with the administration of such contracts or grants shall be given to Indians; and

2. Preference in the award of subcontracts and subgrants in connection with the administration of such contracts or grants shall be given to Indian organizations and to Indian-owned economic enterprises as defined in section 3 of the Indian Financing Act of 1974 (88 Stat. 77).”

370.202 Applicability.

The Indian Preference clause set forth in 352.270–2 and the Indian Preference Program clause set forth in 352.270–3 have been developed to implement section 7 (b) of Public Law 93–638 for all activities of the Department. The clauses shall be used by any affected departmental contracting activity as follows, except solicitations issued and contracts awarded pursuant to Title I of Public Law 93–638 (25 U.S.C. 450 et seq.) are exempted:

(a) The Indian Preference clause (352.270–2) shall be included in each solicitation and resultant contract, regardless of dollar amount:

1. When the contract is to be awarded pursuant to an act specifically authorizing contracts with Indian organizations; or

2. Where the work to be performed under the contract is specifically for the benefit of Indians and is in addition to any incidental benefits which might otherwise accrue to the general public.

(b) The Indian Preference Program clause (352.270–3) shall be included in each solicitation and resultant contract when:

1. The dollar amount of the acquisition is expected to equal or exceed $50,000 for nonconstruction work or $100,000 for construction work;

2. The Indian Preference clause is to be included in the solicitation and resultant contract; and

3. The determination is made, prior to solicitation, that the work to be performed under the resultant contract will take place in whole or in substantial part on or near an Indian reservation(s). In addition, the Indian Preference Program clause may be included in any solicitation and resultant contract below the $50,000 or $100,000 level for nonconstruction or construction contracts, respectively, but which meet the requirements of paragraphs (b)(2) and (3) of this section 370.202, and, in the opinion of the contracting activity, offer substantial opportunities for Indian employment, training, and subcontracting.

370.203 Definitions.

For purposes of this subpart 370.2, the following definitions shall apply:

(a) Indian means a person who is a member of an Indian Tribe. If the contractor has reason to doubt that a person seeking employment preference is an Indian, the contractor shall grant the preference but shall require the individual to provide evidence within thirty (30) days from the Tribe concerned that the person is a member of the Tribe.

(b) Indian Tribe means an Indian Tribe, pueblo, band, nation, or other organized group or community, including any Alaska Native Village or regional or village corporation as defined in or established pursuant to the Alaska Native Claims Settlement Act (85 Stat. 688, 43 U.S.C. 1601) which is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians.

(c) Indian organization means the governing body of any Indian Tribe or entity established or recognized by such governing body in accordance with the Indian Financing Act of 1974 (88 Stat. 77, 25 U.S.C. 1451).

(d) Indian-owned economic enterprise means any Indian-owned commercial, industrial, or business activity established or organized for the purpose of
profit, provided that such Indian ownership shall constitute not less than 51 percent of the enterprise, and the ownership shall encompass active operation and control of the enterprise.

(e) Indian reservation includes Indian reservations, public domain Indian allotments, former Indian reservations in Oklahoma, and land held by incorporated Native groups, regional corporations, and village corporations under the provisions of the Alaska Native Claims Settlement Act (85 Stat. 688, 43 U.S.C. 1601 et seq.)

(f) On or near an Indian reservation means on a reservation or reservations or within that area surrounding an Indian reservation(s) where a person seeking employment could reasonably be expected to commute to and from in the course of a work day.

370.204 Compliance enforcement.

(a) The concerned contracting activity shall be responsible for conducting periodic reviews to insure contractor compliance with the requirements of the clauses set forth in 352.270–2 and 352.270–3. These reviews may be conducted with the assistance of the Indian Tribe(s) concerned.

(b) Complaints of noncompliance with the requirements of the clauses set forth in 352.270–2 and 352.270–3 which are filed in writing with the contracting activity shall be promptly investigated and resolved by the contracting officer.

370.205 Tribal preference requirements.

(a) Where the work under a contract is to be performed on an Indian reservation, the contracting activity may supplement the clause set forth in 352.270–3 by adding specific Indian preference requirements of the Tribe on whose reservation the work is to be performed. The supplemental requirements shall be jointly developed for the contract by the contracting activity and the Tribe. Supplemental preference requirements must represent a further implementation of the requirements of section 7(b) of Public Law 93–638 and must be approved for legal sufficiency by the General Law Division, OGC, or a regional attorney before being added to a solicitation and resultant contract. Any supplemental preference requirements to be added to the clause in 352.270–3 shall be included in the solicitation and clearly identified in order to insure uniform understanding of the additional requirements by all prospective bidders or offerors.

(b) Nothing in this part shall be interpreted to preclude Tribes from independently developing and enforcing their own tribal preference requirements. Such independently developed tribal preference requirements shall not, except as provided in paragraph (a) of this section, become a requirement in contracts covered under this subpart 370.2, and must not conflict with any Federal statutory or regulatory requirement concerning the award and administration of contracts.

370.300 Scope of subpart.

This subpart applies to all research and development activities involving human subjects conducted under contract (see 45 CFR 46.102(d) and (f)).

370.301 Policy.

It is the policy of the Department of Health and Human Services (HHS) that no contract involving human subjects shall be awarded until acceptable assurance has been given that the activity will be subject to initial and continuing review by an appropriate Institutional Review Board (IRB) as described in HHS regulations at 45 CFR 46.103. An applicable Federalwide Assurance (FWA), approved by the HHS Office of Human Research Protections (OHRP), shall be required of each contractor, subcontractor, or cooperating institution having responsibility for human subjects involved in performance of the contract. The HHS OHRP is responsible for negotiating assurances covering all HHS-supported or HHS-conducted activities involving human subjects. OHRP shall guide Contracting Officers regarding nonaward or termination of a contract due to inadequate
assurance or breach of assurance for protection of human subjects.

[71 FR 76514, Dec. 20, 2006]

370.302 Types of assurances.

(a) In January 2005, OHRP announced that the FWA would be the only new type of assurance accepted for review and approval by OHRP. Institutions holding an OHRP-approved Multiple Project Assurance (MPA) or Cooperative Project Assurance (CPA) were required to submit an FWA to OHRP for approval by December 31, 2005, if the institution is required to have an OHRP-approved assurance of compliance. Any Inter-Institutional Amendment between an OHRP-approved MPA and an affiliate institution will be deactivated on January 1, 2006 if the affiliate institution has not obtained its own FWA. Single Project Assurances (SPAs) currently approved by OHRP will remain in effect for the duration of the project and through all non-competitive award renewals. An FWA listed in OHRP’s current “List of Registered Institutional Review Boards (IRBs)/Independent Ethics Committees (IECs) and Approved Assurances” is acceptable for the purposes of this policy. The list may be found at http://ohrp.nih.gov/search/asearch.asp.

(b) The OHRP Web site includes links to instructions and the forms for submitting both a domestic and international FWA at http://www.hhs.gov/ohrp/assurances/assurances_index.html. To expedite the approval of a FWA, as well as any update/renewal, the institution shall use the OHRP Electronic Submission System. Once an electronic file is “submitted” to OHRP, the institution must fax or mail (do not do both) a copy of the signature page to initiate the review process. FWAs shall be mailed to the OHRP, U.S. Department of Health and Human Services, 1101 Wootton Parkway, Suite 200, Rockville, Maryland 20852, or faxed to OHRP at 240–453–8202 (do not do both).

[71 FR 76515, Dec. 20, 2006]

370.303 Notice to offerors.

(a) Solicitations shall contain the notice to offerors in 352.270–8(a) whenever contract performance is expected to involve human subjects.

(b) IRB approval of proposals submitted by institutions having an OHRP-approved FWA should be certified in the manner required by instructions for completion of the contract proposal; or by completion of an OMB Form No. 0990–0263, “Protection of Human Subjects Assurance Identification/IRB Certification/Declaration of Exemption (Common Rule); or by letter indicating the institution’s OHRP-assigned FWA number, the date of IRB review and approval, and the type of review (convened or expedited). The date of IRB approval must not be more than 12 months prior to the deadline for proposal submission.

(c) FWAs for contractors, subcontractors, or cooperating institutions generally will not be requested prior to determination that a contract proposal has been selected for negotiation. When an FWA is submitted, it provides certification for the initial contract period. No additional documentation is required. If the contract provides for additional years to complete the project, the noncompetitive renewal proposal shall be certified in the manner described in the preceding paragraph.

[71 FR 76515, Dec. 20, 2006]

370.304 Contract clause.

The clause set forth in 352.270–8(b) shall be inserted in all solicitations and resultant contracts involving human subjects.

Subpart 370.4—Acquisitions Involving the Use of Laboratory Animals

370.400 Scope of subpart.

This subpart applies to all research, research training and biological testing activities involving live vertebrate animals conducted under contract (see Public Health Service Policy on Humane Care and Use of Laboratory Animals (PHS Policy), Rev. 1986, Repr. 1996).

370.401 Policy.

(a) It is the policy of the Department of Health and Human Services (HHS) that no contract involving live vertebrate animals shall be awarded
until acceptable assurance has been given that the activity will be subject to initial and continuing review by an appropriate Institutional Animal Care and Use Committee (IACUC) as described in the PHS Policy at IV.B.6. and 7. An applicable Full Animal Welfare Assurance or Interinstitutional Agreement/Assurance, approved by the Office of Laboratory Animal Welfare (OLAW), National Institutes of Health (NIH), shall be required of each contractor, subcontractor, or cooperating institution having responsibility for animal care and use involved in performance of the contract (see PHS Policy II., IV.A., and V.B.).

(b) The OLAW, NIH, is responsible for negotiating assurances covering all HHS/PHS-supported or HHS/PHS-conducted activities involving the care and use of live vertebrate animals. OLAW shall guide Contracting Officers regarding adequate animal care, and use, approval, disapproval, restriction, or withdrawal of approval of assurances (see PHS Policy V.A.).

[71 FR 76515, Dec. 20, 2006]

370.402 Assurances.

(a) Assurances may be one of two types:

(1) Full Animal Welfare Assurance (AWA). An AWA describes the institution’s complete program for the care and use of animals, including but not limited to the facilities, occupational health, training, veterinary care, IACUC procedures and lines of authority and responsibility. An AWA listed in OLAW’s list of institutions which have an approved full AWA will be considered acceptable for purposes of this policy.

(2) Interinstitutional Agreement/Assurance (IAA). An IAA describes the arrangements between an offeror and usually a subcontractor where animal activities will occur. An IAA is limited to the specific award or single project.

(b) The Contracting Officer shall forward copies of proposals selected for negotiation and requiring an assurance to the Assurance Branch, Office of Laboratory Animal Welfare (OLAW), NIH MSC 7507, 6100 Executive Blvd., Room 3B01, Rockville, Maryland 20852, as early as possible to secure the necessary assurances.

(c) A contractor providing animal care services at an assured entity, such as a Government-owned, contractor-operated (GOCO) site, does not need a separate assurance because the GOCO site normally covers the contractor services in the GOCO site assurance.

[71 FR 76515, Dec. 20, 2006]

370.403 Notice to offerors.

Solicitations shall contain the notice to offerors in 352.270–9(a) whenever contract performance is expected to involve the use of live vertebrate animals.

(a) For offerors having a full AWA on file with OLAW, IACUC approval of the use of animals shall be submitted in the manner required by instructions for completion of the contract proposal, but prior to the technical review of the proposal. The date of IACUC review and approval must not be more than 36 months prior to the deadline for proposal submission.

(b) Non-assured offerors are not required to submit assurances or IACUC approval with proposals. OLAW will contact contractors, subcontractors and cooperating institutions to negotiate necessary assurances and verify IACUC approvals when requested by appropriate HHS/PHS staff.

[71 FR 76515, Dec. 20, 2006]

370.404 Contract clause.

The clause set forth in 352.270–9(b) shall be included in all solicitations and resultant contracts involving the care and use of live vertebrate animals.

Subpart 370.5—Acquisitions Under the Buy Indian Act

370.500 Scope of subpart.

This subpart sets forth the policy on preferential acquisition from Indians under the negotiation authority of the Buy Indian Act. Applicability of this subpart is limited to acquisitions made by or on behalf of the Indian Health Service of the Public Health Service.

370.501 Policy.

(a) The Indian Health Service will utilize the negotiation authority of the Buy Indian Act to give preference to
Indians whenever the use of that authority is authorized and is practicable. The Buy Indian Act, 25 U.S.C. 47, prescribes the application of the advertising requirements of section 3709 of the Revised Statutes to the acquisition of Indian supplies. As set out in 25 U.S.C. 47, the Buy Indian Act provides as follows:

So far as may be practicable Indian labor shall be employed, and purchases of the products (including, but not limited to printing, notwithstanding any other law) of Indian industry may be made in open market in the discretion of the Secretary of the Interior.

(b) The functions, responsibilities, authorities, and duties of the Secretary of the Interior for maintenance and operation of hospital and health facilities for Indians and for the conservation of the health of Indians are transferred to the Surgeon General of the United States under the supervision of the Secretary of Health and Human Services, 42 U.S.C. 2001(a). Accordingly, the Secretary of Health and Human Services is authorized to use the Buy Indian Act in the acquisition of products of Indian industry in connection with the maintenance and operation of hospital and health facilities for Indians and for the conservation of the health of Indians are transferred to the Surgeon General of the United States under the supervision of the Secretary of Health and Human Services, 42 U.S.C. 2001(a). Accordingly, the Secretary of Health and Human Services is authorized to use the Buy Indian Act in the acquisition of products of Indian industry in connection with the maintenance and operation of hospital and health facilities for Indians and for the conservation of the health of Indians are transferred to the Surgeon General of the United States under the supervision of the Secretary of Health and Human Services, 42 U.S.C. 2001(a).

(c) Use of the Buy Indian Act negotiation authority has been emphasized in subsequent legislation, particularly Public Law 94–437 and Public Law 96–337.

370.502 Definitions.

Buy Indian contract means any contract involving activities covered by the Buy Indian Act that is negotiated under the provisions of 41 U.S.C. 252(c) and 25 U.S.C. 47 between an Indian firm and a contracting officer representing the Indian Health Service.

Indian means a member of any tribe, pueblo, band, group, village or community that is recognized by the Secretary of the Interior as being Indian or any individual or group of individuals that is recognized by the Secretary of the Interior or the Secretary of Health and Human Services. The Secretary of Health and Human Services in making determinations may take into account the determination of the tribe with which affiliation is claimed.

Indian firm means a sole enterprise, partnership, corporation, or other type of business organization owned, controlled, and operated by one or more Indians (including, for the purpose of sections 301 and 302 of Public Law 94–437, former or currently federally recognized Indian tribes in the State of New York) or by an Indian firm; or a nonprofit firm organized for the benefit of Indians and controlled by Indians (see 370.503(a)).

Product of Indian industry means anything produced by Indians through physical labor or by intellectual effort involving the use and application of skills by them.

370.503 Requirements.

(a) Indian ownership. The degree of Indian ownership of an Indian firm shall be at least 51 percent during the period covered by a Buy Indian contract.

(b) Joint ventures. An Indian firm may enter into a joint venture with other entities for specific projects as long as the Indian firm is the managing partner. However, the joint venture must be approved by the contracting officer prior to the award of a contract under the Buy Indian Act.

(c) Bonds. In the case of contracts for the construction, alteration, or repair of public buildings or public works, performance and payment bonds are required by the Miller Act (40 U.S.C. 270a–270f) and FAR part 28. In the case of contracts with Indian tribes or public nonprofit organizations serving as governmental instrumentalities of an Indian tribe, bonds are not required. However, bonds are required when dealing with private business entities which are owned by an Indian tribe or members of an Indian tribe. Bonds may be required of private business entities which are joint ventures with, or subcontractors of, an Indian tribe or a public nonprofit organization serving as a governmental instrumentality of an Indian tribe. A bid guarantee or bid
bond is required only when a performance or payment bond is required.

(d) Indian preference in employment, training and subcontracting. Contracts awarded under the Buy Indian Act are subject to the requirements of section 7(b) of the Indian Self-Determination and Education Assistance Act 25 U.S.C. 450e, which requires that preference be given to Indians in employment, training, and subcontracting. The Indian Preference clause set forth in 352.270-2 shall be included in all Buy Indian solicitations and resultant contracts. The Indian Preference Program clause set forth in 352.270-3 shall be used as specified in 370.202(b). All requirements set forth in subpart 370.2 which are applicable to the instant Buy Indian acquisition shall be followed by the contracting officer, e.g., sections 370.204 and 370.205.

(e) Subcontracting. Not more than 50 percent of the work to be performed under a prime contract awarded pursuant to the Buy Indian Act shall be subcontracted to other than Indian firms. For this purpose, work to be performed does not include the provision of materials, supplies, or equipment.

(f) Wage rates. A determination of the minimum wage rates by the Secretary of Labor as required by the Davis-Bacon Act (40 U.S.C. 276a) shall be included in all contracts awarded under the Buy Indian Act for over $2,000 for construction, alteration, or repair, including painting and decorating, of public buildings and public works, except contracts with Indian tribes or public nonprofit organizations serving as governmental instrumentalities of an Indian tribe. The wage rate determination is to be included in contracts with private business entities even if they are owned by an Indian tribe or a member of an Indian tribe and in connection with joint ventures with, or subcontractors of, an Indian tribe or a public nonprofit organization serving as a governmental instrumentality of an Indian tribe.

370.504 Competition.

(a) Contracts awarded under the Buy Indian Act are subject to competition among Indians or Indian concerns to the maximum extent that the Contracting Officer determines is practicable. When competition is determined not to be practicable, a Justification for Other than Full and Open Competition shall be prepared in accordance with 306.303 and subsequently retained in the contract file.

(b) Solicitations must be synopsized and publicized in FedBizOpps at http://www.fedbizopps.gov and copies of the synopses sent to the tribal office of the Indian tribal government directly concerned with the proposed acquisition as well as to Indian concerns and others having a legitimate interest. The synopsis must state that the acquisition is restricted to Indian firms under the Buy Indian Act.

[71 FR 76515, Dec. 20, 2006]

370.505 Responsibility determinations.

(a) A contract may be awarded under the Buy Indian Act only if it is first determined that the project or function to be contracted for is likely to be satisfactorily performed under that contract and the project or function is likely to be properly completed or maintained under that contract.

(b) The determination called for by paragraph (a) of this section, to be made prior to the award of a contract, will be made in writing by the contracting officer reflecting an analysis of the standards set forth in FAR 9.104-1.

401.000 Scope of part.

This part presents basic policies and general information about the Department of Agriculture’s (USDA) Acquisition Regulation, subsequently referred to as the AGAR. The AGAR is an integral part of the Federal Acquisition Regulations System.
(1) Daily issues of the **Federal Register**.
(2) Cumulative form in the CFR, and,
(3) Electronic form on the USDA Departmental Administration Procurement Homepage (see 401.170).

(c) Section 553(a)(2) of the Administrative Procedure Act, 5 U.S.C. 553, provides an exception from the standard public rulemaking procedures to the extent that the rule involves a matter relating to agency management or personnel or to public property, loans, grants, benefits, or contracts. In 1971, Secretary of Agriculture Hardin announced a voluntary partial waiver from the Administrative Procedure Act exception, and USDA agencies generally are required to provide notice and an opportunity for public comment on proposed rules (36 FR 13804, July 24, 1971). The AGAR has been promulgated and may be revised from time to time in accordance with the rulemaking procedures of the Administrative Procedure Act. The USDA also is required to publish for public comment procurement regulations in the *Federal Register*, pursuant to the Office of Federal Procurement Policy Act (41 U.S.C. 418b), and FAR 1.301.

[AU96] 401.170 Electronic access to regulatory information.

The USDA Departmental Administration Procurement Homepage provides access to the AGAR, AGAR amendments (circulars), AGAR Advisories, and other USDA procurement policy and guidance in electronic form. The Internet address for the Procurement Homepage is URL `http://www.usda.gov/procurement/`.

[AU98] 401.201 Maintenance of the FAR.

(a) USDA’s representative on the Civilian Agency Acquisition Council is designated by the SPE.
(b) The Procurement Policy Division will coordinate proposed FAR revisions within USDA.

[AU96] 401.301 Policy.

(a) The SPE, subject to the authorities in 401.103 and FAR 1.301, may issue and publish Departmental regulations, that together with the FAR, constitute Department-wide policies, procedures, solicitation provisions, and contract clauses governing the contracting process or otherwise controlling the relationship between USDA (including any of its contracting activities) and contractors or prospective contractors.
(b) Each designated head of a contracting activity (HCA) is authorized to issue or authorize the issuance of, at any organizational level, internal guidance which does not have a significant effect beyond the internal operating procedures of the activity, or a significant cost or administrative impact on offerors or contractors. Internal guidance issued by contracting activities will not be published in the FEDERAL REGISTER. HCA’s shall ensure that the guidance, procedures, or instructions issued—

(1) Are consistent with the policies and procedures contained in this chapter;
(2) Follow the format, arrangement, and numbering system of this chapter to the extent practicable;
(3) Contain no material which duplicates, paraphrases, or is inconsistent with this chapter; and
(4) Are numbered and identified by use of alphabetical suffixes to the chapter number as follows:

4A [Reserved]
4B Agricultural Research Service.
4C Farm Service Agency.

401.370 Exclusions.

Subject to the policies of FAR subpart 1.3, certain USDA acquisition policies and procedures may be excluded from the AGAR under appropriately justified circumstances, such as:

(a) Subject matter which is effective for a period less than 12 months.
(b) Subject matter which is instituted on an experimental basis for a reasonable period.
(c) Acquisition procedures instituted on an interim basis to comply with the requirements of statute, regulation, Executive Order, OMB Circular, or OFPP Policy Letter.

401.371 AGAR Advisories.

The SPE may issue AGAR Advisories, consistent with the policies of the FAR and the AGAR, for the following purposes:

(a) To communicate Department-wide policy and/or procedural guidance to contracting activities;
(b) To delegate to procurement officials authority to make determinations or to take action to implement the policies of the FAR or the AGAR; and,
(c) To establish internal policy and procedures on an interim basis, prior to incorporation in the AGAR or in a Departmental Directive.

(d) AGAR Advisories are only available in electronic format on the USDA
401.372 Departmental directives.

Subject to the policies of FAR 1.3, USDA from time to time may issue internal directives to establish procedures, standards, guidance, or methods of performing duties, functions, or operations. Such directives include Departmental Regulations (DR’s), Departmental Notices, and Secretary’s Memoranda.

Subpart 401.4—Deviations From the FAR and AGAR

401.402 Policy.

Requests for authority to deviate from the provisions of the FAR or the AGAR shall be submitted in writing as far in advance as the exigencies of the situation will permit. Each request for deviation shall contain the following:

(a) A statement of the deviation desired, including identification of the specific paragraph number(s) of the FAR and AGAR;
(b) The reason why the deviation is considered necessary or would be in the best interest of the Government;
(c) If applicable, the name of the contractor and identification of the contract affected;
(d) A statement as to whether the deviation has been requested previously and, if so, circumstances of the previous request;
(e) A description of the intended effect of the deviation;
(f) A statement of the period of time for which the deviation is needed; and
(g) Any pertinent background information which will contribute to a full understanding of the desired deviation.

401.403 Individual deviations.

In individual cases, deviations from either the FAR or the AGAR will be authorized only when essential to effect a necessary acquisition or where special circumstances make such deviations clearly in the best interest of the Government. Except for cost principles, HCA’s may approve individual deviations from the AGAR, after coordinating with the General Counsel and the SPE. No deviations from the FAR or AGAR may be authorized at the contracting office level. A copy of each deviation and its supporting documentation shall be provided to the SPE. Deviations from the FAR shall not be made unless such action is authorized by the SPE after consultation with the Office of the General Counsel and any other appropriate office, on the basis of a written justification stating clearly the special circumstances involved.

401.404 Class deviations.

Where deviations from the FAR or AGAR are considered necessary for classes of contracts, requests for authority to deviate shall be submitted in writing to the SPE for approval. The SPE may authorize class deviations from the FAR without consulting the Chairperson of the Civilian Agency Acquisition Council where urgency precludes consultation. The SPE shall subsequently inform the Chairperson of the Civilian Agency Acquisition Council of the deviation including the circumstances under which it was required.

Subpart 401.6—Contracting Authority and Responsibilities

401.601 General.

(a) The authority and responsibility vested in the Secretary to manage USDA’s acquisition function is delegated through the Assistant Secretary for Administration to the SPE. This broad authority includes, but is not limited to, the following responsibilities:
   (1) Prescribing and publishing Departmental acquisition policies, regulations, and procedures.
   (2) Taking any necessary actions consistent with policies, regulations, and procedures with respect to purchases, contracts, leases, and other transactions.
   (3) Designating contracting officers.
   (4) Establishing clear lines of contracting authority.
   (5) Evaluating and monitoring the performance of USDA’s acquisition system.
(6) Managing and enhancing career development of the contracting work force.

(7) Participating in the development of Government-wide acquisition policies, regulations, and standards; and determining specific areas where Government-wide performance standards should be established and applied.

(8) Determining areas of Department-unique standards and developing unique Department-wide standards.

(9) Certifying to the Secretary that the acquisition system meets approved standards.

(b) The SPE may delegate contracting authority to the Heads of Contracting Activities (HCA’s) and the responsibility to manage their acquisition function.

(c) Unless prohibited by the FAR, the AGAR, or by other applicable statutes and regulations, the SPE may redelegate to HCA’s the authority to make determinations as the agency head in order to implement the policies and procedures of the FAR. Such delegations shall be in writing, but need not be published.

(d) Unless prohibited by the FAR, the AGAR, or by other applicable statutes or regulations, each HCA may designate one individual from the contracting activity to carry out the functions of the HCA (HCAD). The HCAD may exercise all authority delegated to the HCA.

401.602 Contracting officers.

401.602-3 Ratification of unauthorized commitments.

(a) Definitions. Ratification, as used in this section, means the signed, documented action taken by an authorized official to approve and sanction a previously unauthorized commitment.

Unauthorized commitment, as used in this section, means an agreement made by a Government representative who lacked the authority to enter into a contract on behalf of the Government.

(b) Policy. The HCA may delegate ratification authority to the chief of the contracting office.

(c) Procedure. Whenever an official of the cognizant contracting activity who is authorized to ratify unauthorized commitments learns that a person or firm has assumed work as a result of an unauthorized commitment, that official shall take the following actions:

(1) Immediately inform any person who is performing work as a result of an unauthorized commitment that the work is being performed at that person’s risk;

(2) Inform the individual who made the unauthorized commitment of the seriousness of the act and the possible consequences;

(3) Ensure that the individual who made the unauthorized commitment furnishes all records and documents concerning the commitment and a complete, written statement of facts, including, but not limited to: a statement as to why a contracting officer was not used; why the vendor was selected and a list of sources considered; a description of work to be performed or products to be furnished; the estimated or agreed price; whether an appropriation is available for the work; and whether performance has begun. Under exceptional circumstances, such as when the individual who made the unauthorized commitment is no longer available to attest to the circumstances of the unauthorized commitment, the ratifying official may waive these requirements; and

(4) Decide whether ratification is proper and proceed as follows:

(i) If ratification is not justifiable, provide the cognizant program office, contracting office, and the unauthorized contractor with an explanation of the decision not to ratify.

(ii) If ratification appears adequately justified, ratify the action and retain or assign the contract to a successor contracting officer if necessary.

(iii) Maintain related approval, decisional, and background documents in the contract file for audit purposes.

(iv) Notify the cognizant program supervisor or line officer about the final disposition of the case; the notification may include a recommendation that the unauthorized commitment should be further considered a violation of USDA’s employee conduct regulations.
401.603 Selection, appointment, and termination of appointment.

401.603–1 General.

An HCA may delegate contracting authority to the extent authorized by the SPE in a general delegation of acquisition authority, by appointing qualified individuals as contracting officers, in accordance with the USDA Contracting Officer Warrant System, Departmental Regulation 5001–1.

The case must be accompanied by a complete statement of the facts (including a copy of any criminal indictments, if applicable) along with a recommendation for action. Where the statement of facts indicates the irregularities to be possible criminal offenses, or for any other reason further investigation is considered necessary, the matter shall be referred to the HCA who should consult with the Office of Inspector General to determine if further investigation is required prior to referring it to the debarring official.

(b) Decision-making process. If, after reviewing the recommendations and consulting with the Office of Inspector General and Office of the General Counsel, as appropriate, the debarring official determines debarment is justified, the debarring official shall initiate the proposed debarment in accordance with FAR 9.406–3(c) and notify the HCA of the action taken.

The proceedings shall be conducted expeditiously and in such a manner that each party will have an opportunity to present all information considered pertinent to the proposed debarment. Where the statement of facts indicates the irregularities to be possible criminal offenses, or for any other reason further investigation is considered necessary, the matter shall be referred to the HCA who should consult with the Office of Inspector General to determine if further investigation is required prior to referring it to the debarring official.

(b) Decision-making process. If, after reviewing the recommendations and consulting with the Office of Inspector General and Office of the General Counsel, as appropriate, the debarring official determines suspension is justified, the debarring official shall initiate the proposed suspension in accordance with FAR 9.407–3(c) and notify the HCA of the action taken.

(c) Fact-finding proceedings. For actions listed under FAR 9.407–3(b)(2), the contractor shall be given the opportunity to appear at an informal hearing, similar in nature to the hearing for debarments as discussed in 409.406–3(c).

If addition of another bid item in the listed order of priority would make the award exceed such funds for all bidders, it shall be skipped and the next subsequent additive bid item in a lower amount shall be added if award therein can be made within such funds. For example, when the amount available is $100,000 and a bidder’s base bid and four successive additives are $85,000, $10,000, $8,000, $6,000, and $4,000, the aggregate amount of the bid for purposes of award would be $99,000 for the base bid plus the first and fourth additives, the second and third additives being skipped because of each of them would cause the aggregate bid to exceed $100,000. In any case all bids shall be evaluated on the basis of the same additive or deductive bid items, determined as above provided. The listed order of priority shall be followed only for determining the low bidder. After determination of the low bidder as stated, award in the best interests of the Government may be made on the selected first or base bid item and any combination of additive or deductive items for which funds are determined to be available at the time of the award, provided that award on such combination of bid items does not exceed the amount offered by any other conforming responsible bidder for the same combination of bid items.

(a) Under any domestic feeding and assistance program administered by the Food and Nutrition Service; and
(b) Under Title II of the Food for Peace Act (7 U.S.C. 1721 et seq.) or from the Foreign Agricultural Service under the Food for Progress Act of 1985; the McGovern-Dole International Food for Education and Child Nutrition Program; and any other international food assistance program.

470.101 Definitions.
The following definitions are applicable to this part:
Commingled product means grains, oilseeds, rice, pulses, other similar commodities and the products of such commodities, when such commodity or product is normally stored on a commingled basis in such a manner that the commodity or product produced in the United States cannot be readily distinguished from a commodity or product not produced in the United States.
Department means the Department of Agriculture.
Food and Nutrition Service means such agency located within the Department of Agriculture.
Foreign Agriculture Service means such agency located within the Department of Agriculture.
Free alongside ship (f.a.s.)(* * * named port of shipment) means a term of sale which means the seller fulfills its obligation to deliver when the goods have been placed alongside the vessel on the quay or in lighters at the named port of shipment. The buyer bears all costs and risks of loss or damage to the goods from that moment.
Free carrier (FCA)(* * * named place) means a term of sale which means the seller fulfills its obligation when the seller has handed over the goods, cleared for export, into the charge of the carrier named by the buyer at the named place or point. If no precise point is indicated by the buyer, the seller may choose, within the place or range stipulated, where the carrier should take the goods into their charge.
Grantee organization means an organization which will receive commodities from the United States Agency for International Development under Title II of the Food for Peace Act (7 U.S.C. 1721 et seq.) or from the Foreign Agricultural Service under the Food for Progress Act of 1985; the McGovern-Dole International Food for Education and Child Nutrition Program; and any other international food assistance program.
Ingredient means spices, vitamins, micronutrients, desiccants, and preservatives when added to an agricultural commodity product.
Last contract lay day means the last day specified in an ocean freight contract by which the carriage of goods must start for contract performance.

Multi-port voyage charter means the charter of an ocean carrier in which
the carrier will stop at two or more ports to discharge cargo.

470.102 Policy.

(a) 
Policy. It is the policy of the Department to follow the policies and procedures set forth in the Federal Acquisition Regulation (FAR) as supplemented by the Agriculture Acquisition Regulation, including this part, in the procurement of agricultural commodities and products of agricultural commodities that are used in domestic feeding and international feeding and development programs.

(b) Electronic submission. To the maximum extent possible, the use of electronic submission of solicitation-related documents shall be used with respect to the acquisition of agricultural commodities and related freight; however, to the extent that a solicitation allows for the submission of written information in addition to information in an electronic format and there is a discrepancy in such submissions, the information submitted in a written format shall prevail unless the electronic submission states that a specific existing written term is superseded by the electronic submission.

(c) Freight. With respect to the acquisition of freight for the shipment of agricultural commodities and products of agricultural commodities, the provisions of the FAR, including part 47, shall be utilized and various types of services to be obtained may include multi-trip voyage charters.

470.103 United States origin of agricultural products.

(a) Products of United States origin. As provided by 7 U.S.C. 1732(2) and 1736–1(a), commodities and the products of agricultural commodities acquired for use in international feeding and development programs shall be products of United States origin. A product shall not be considered to be a product of the United States if it contains any ingredient that is not produced in the United States if that ingredient is:

(1) Produced in the United States; and

(2) Commercially available in the United States at fair and reasonable prices from domestic sources.

(b) Use by the Food and Nutrition Service. Commodities and the products of agricultural commodities acquired for use by the Food and Nutrition Service shall be products of the United States except as may otherwise be required by law, and shall be considered to be such a product if it is grown, processed, and otherwise prepared for sale or distribution exclusively in the United States except with respect to ingredients. Ingredients from non-domestic sources will be allowed to be utilized as a United States product if such ingredients are not otherwise:

(1) Produced in the United States; and

(2) Commercially available in the United States at fair and reasonable prices from domestic sources.

(c) Commingled product. (1) Except as provided in paragraph (c)(2) of this section, a commingled product shall be considered to be a product of the United States if the offeror can establish that the offeror has in inventory at the time the contract for the commodity or product is awarded to the offeror, or obtains during the contract performance period specified in the solicitation, or a combination thereof, a sufficient quantity of the commodity or product that was produced in the United States to fulfill the contract being awarded, and all unfulfilled contracts that the offeror entered into to provide such commingled product to the United States.

(2) To the extent the Department has determined a commodity is one that is generally commingled, but is also one which can be readily stored on an identity preserved basis with respect to its country of origin, the Department may require that the commodity procured by the Department shall be of 100 percent United States origin.

(d) Product derived from animals. With respect to the procurement of products derived from animals, the solicitation will set forth any specific requirement that is applicable to the country in which the animal was bred, raised, slaughtered or further processed.

Department of Agriculture

470.200 [Reserved]

470.201 Acquisition of commodities and freight shipment for Foreign Agricultural Service programs.

(a) Lowest landed cost and delivery considerations. (1) Except as provided in paragraphs (a)(3) and (4) of this section, in contracts for the Foreign Agricultural Service for commodities and related freight shipment for delivery to foreign destinations, the contracting officer shall consider the lowest landed cost of delivering the commodity to the intended destination. This lowest landed cost determination will be calculated on the basis of rates and service for that portion of the commodities being purchased that is determined is necessary and practicable to meet 46 U.S.C. 55314(c)(3) and cargo preference requirements and on an overall (foreign and U.S. flag) basis for the remaining portion of the commodities being procured and the additional factors set forth in this section. Accordingly, the solicitations issued with respect to a commodity procurement or a related freight procurement will specify that in the event an offer submitted by a party is the lowest offered price, the contracting officer reserves the right to reject such offer if the acceptance of another offer for the commodity or related freight, when combined with other offers for commodities or related freight, results in a lower landed cost to the Department.

(2) The Department may contact any port prior to award to determine the port’s cargo handling capabilities, including the adequacy of the port to receive, accumulate, handle, store, and protect the cargo. Factors considered in this determination may include, but not be limited to, the adequacy of building structures, proper ventilation, freedom from insects and rodents, cleanliness, and overall good housekeeping and warehousing practices. The Department may consider the use of another coastal range or port if a situation exists at a port that may adversely affect the ability of the Department to have the commodity delivered in a safe and timely manner. Such situations include:
   (i) A port is congested;
   (ii) Port facilities are overloaded;
   (iii) A vessel would not be able to dock and load cargo without delay;
   (iv) Labor disputes or lack of labor may prohibit the loading of the cargo onboard a vessel in a timely manner; or
   (v) Other similar situation that may adversely affect the ability of the Department to have the commodity delivered in a timely manner.

(3) Use of other than lowest landed cost. In order to ensure that commodities are delivered in a timely fashion to foreign destinations and without damage, the contracting officer may award an acquisition without regard to the lowest land cost process set forth in paragraph (a)(1) of this section if:
   (i) The solicitation specifies that the lowest land cost process will not be followed in the completion of the contract; or
   (ii) After issuance of the solicitation, it is determined that:
       (A) Internal strife at the foreign destination or urgent humanitarian conditions threatens the lives of persons at the foreign destination;
       (B) A specific port’s cargo handling capabilities (including the adequacy of the port to receive, accumulate, handle, store, and protect commodities) and other similar factors may adversely affect the delivery of such commodities through damage or untimely delivery. Such similar factors include, but are not limited to: port congestion; overloaded facilities at the port; vessels not being able to dock and load cargo without delay due to conditions at the port; labor disputes or lack of labor may prohibit the loading of the cargo onboard a vessel in a timely manner; and the existence of inadequate or unsanitary warehouse and other supporting facilities;
       (C) The total transit time of a carrier, as it relates to a final delivery date at the foreign destination may impair the timely delivery of the commodity;
       (D) Other similar situations arise that materially affect the administration of the program for which the commodity or freight is being procured; or
       (E) The contracting officer determines that extenuating circumstances preclude awards on the basis of lowest landed cost, or that efficiency and cost savings justify use of types of ocean
service that would not involve an analysis of freight. However, in all such cases, commodities would be transported in compliance with cargo preference requirements. Examples of extenuating circumstances are events such as internal strife at the foreign destination or urgent humanitarian conditions threatening the lives of persons at the foreign destination. Other types of services may include, but are not limited to, multi-trip voyage charters, indefinite delivery/indefinite quantity (IDIQ), delivery cost and freight (C & F), delivery cost insurance and freight (CIF), and indexed ocean freight costs.

(4) If a contracting officer determines that action may be appropriate under paragraph (a)(3) of this section, prior to the acceptance of any applicable offer, the contracting officer will provide to the Head of Contracting Activity Designee a written request to obtain commodities and freight in a manner other than on a lowest landed cost basis consistent with Title 48 Code of Federal Regulations. This request shall include a statement of the reasons for not using lowest landed cost basis. The Head of the Contracting Activity Designee, or the designee one level above the contracting officer, may either accept or reject this request and shall document this determination.

(b) Multiple offers or delivery points. If more than one offer for the sale of commodities is received or more than one delivery point has been designated in such offers, in order to achieve a combination of a freight rate and commodity award that produces the lowest landed cost for the delivery of the commodity to the foreign destination, the contracting officer shall evaluate offers submitted on a delivery point by delivery point basis; however, consideration shall be given to prioritized ocean transport service in determining lowest landed cost.

(c) Freight shipping and rates. (1) In determining the lowest-landed cost, the Department shall use the freight rates offered in response to solicitations issued by the Department or, if applicable, the grantee organization. Any such solicitation issued by a grantee organization must contain the following elements:

(i) If directed by the Department, include a closing time for the receipt of written freight offers and state that late written freight offers will not be considered;

(ii) Provide that freight offers are required to have a canceling date no later than the last contract lay day specified in the solicitation;

(iii) Provide the same deadline for receipt of written freight offers from both U.S. flag vessel and non-U.S. flag vessels; and

(iv) Be received and opened prior to any related offer for acquisition of commodities to be shipped.

(3) The Department may require organizations that will receive commodities from the Department to submit information relating to the capacity of a U.S. port, or, if applicable, a terminal, prior to the acquisition of such commodities or freight.

(d) Freight rate notification. If the Department is not the party procuring freight with respect to a shipment of an agricultural commodity for delivery to a foreign destination, the organization that will receive commodities from the Department, or its shipping agent, shall be notified by the Department of the vessel freight rate used in determining the commodity contract award and the organization will be responsible for finalizing the charter or booking contract with the vessel representing the freight rate.

470.202 Acquisition of commodities for United States Agency for International Development (USAID) programs.

(a) Lowest landed cost and delivery considerations. (1) Except as provided in paragraphs (a)(3) and (e)(2) of this section, with respect to the acquisition of agricultural commodities for delivery to foreign destinations and related freight to transport such commodities under Title II of Public Law 480, contracts will be entered into in a manner that will result in the lowest landed cost of such commodity delivery to the
intended destination. This lowest landed cost determination shall be calculated on the basis of rates and service for that portion of the commodities being purchased that is determined is necessary and practicable to meet 46 U.S.C. 55314(c)(3) and cargo preference requirements and on an overall (foreign and U.S. flag) basis for the remaining portion of the commodities being procured and the additional factors set forth in this section. Accordingly, the solicitations issued with respect to a commodity procurement or a freight procurement will specify that in the event an offer submitted by a party is the lowest offered price, the contracting officer reserves the right to reject such offer if the acceptance of another offer for the commodity or freight, when combined with other offers for commodities or freight, results in a lower landed cost to USAID.

(2) The Department may contact any port prior to award to determine the port’s cargo handling capabilities, including the adequacy of the port to receive, accumulate, handle, store, and protect the cargo. Factors which will be considered in this determination will include, but not be limited to, the adequacy of building structures, proper ventilation, freedom from insects and rodents, cleanliness, and overall good housekeeping and warehousing practices. The Department may consider the use of another coastal range or port if a situation exists at a port that may adversely affect the ability of the Department to have the commodity delivered in a safe and/or timely manner. Such situations include:

(i) A port is congested;
(ii) Port facilities are overloaded;
(iii) A vessel would not be able to dock and load cargo without delay;
(iv) Labor disputes or lack of labor may prohibit the loading of the cargo onboard a vessel in a timely manner; or
(v) Other similar situation that may adversely affect the ability of the Department to have the commodity delivered in a timely manner.

(3) Use of other than lowest landed cost. In order to ensure that commodities are delivered in a timely fashion to foreign destinations and without damage, the Department may complete an acquisition without regard to the lowest landed cost process set forth in paragraph (a)(1) of this section, if:

(i) The solicitation specifies that the lowest land cost process will not be followed in the completion of the contract; or
(ii) After issuance of the solicitation, it is determined that:

(A) Internal strife at the foreign destination or urgent humanitarian conditions threatens the lives of persons at the foreign destination;
(B) A specific port’s cargo handling capabilities (including the adequacy of the port to receive, accumulate, handle, store, and protect commodities) and other similar factors will adversely affect the delivery of such commodities without damage or in a timely manner. Such similar factors include, but are not limited to: port congestion; overloaded facilities at the port; vessels would not be able to dock and load cargo without delay; labor disputes or lack of labor may prohibit the loading of the cargo onboard a vessel in a timely manner; and the existence of inadequate or unsanitary warehouse and other supporting facilities;
(C) The total transit time of a carrier, as it relates to a final delivery date at the foreign destination may impair the ability of the Department to achieve timely delivery of the commodity; or
(D) Other similar situations arise that materially affect the administration of the program for which the commodity or freight is being procured.

(4) If the contracting officer determines that action may be appropriate under paragraph (a)(3) of this section, prior to the acceptance of any applicable offer, the contracting officer shall provide to the head of contracting activity designee and to USAID, a written request to obtain commodities and freight in a manner other than on a lowest landed cost basis. This request shall include a statement of the reasons for not using lowest landed cost basis. The head of contracting authority designee, or one level above the contracting officer, with the concurrence of USAID, shall, on an expedited basis, either accept or reject this request and shall document this determination in writing and provide a copy to USAID.
(b) Freight shipping and rates. (1) In determining lowest-landed cost as specified in paragraph (a) of this section, the Department shall use vessel rates offered in response to solicitations issued by USAID or grantee organizations receiving commodities under 7 U.S.C. 1731 et seq.

(2) USAID may require, or direct a grantee organization to require, an ocean carrier to submit offers electronically through a Web-based system maintained by the Department. If electronic submissions are required, the Department may, at its discretion, accept corrections to such submissions that are submitted in a written form other than by use of such Web-based system.

(c) Delivery date. The contracting officer shall consider total transit time, as it relates to a final delivery date, in order to satisfy Public Law 480 Title II program requirements.

(d) Delivery points. (1) Commodities offered for delivery free alongside ship Great Lakes port range or intermodal bridge-point Great Lakes port range that represent the overall (foreign and U.S. flag) lowest landed cost will be awarded on a lowest landed cost basis. Tonnage allocated on this basis will not be reevaluated on a lowest landed cost U.S.-flag basis unless the contracting officer determines that 25 percent of the total annual tonnage of bagged, processed, or fortified commodities furnished under 7 U.S.C. 1731 et seq. has been, or will be, transported from the Great Lakes port range during that fiscal year.

(2) The contracting officer shall consider commodity offers as offers for delivery “intermodal bridge-point Great Lakes port range” only if:

(i) The offer specifies delivery at a marine cargo-handling facility that is capable of loading ocean going vessels at a Great Lakes port, as well as loading ocean going conveyances such as barges and container vans, and

(ii) The commodities will be moved from one transportation conveyance to another at such a facility.

(e) Multiple awards or delivery points. (1) If more than one offer for the sale of commodities is received or more than one delivery point has been designated in such offers, in order to achieve a combination of a freight rate and commodity award that produces the lowest landed cost for the delivery of the commodity to the foreign destination, the contracting officer shall evaluate offers submitted on a delivery point by delivery point basis; however, consideration shall be given to prioritized ocean transport service in determining lowest landed cost.

(2) The contracting officer may determine that extenuating circumstances preclude awards on the basis of lowest landed cost. However, in all such cases, commodities may be transported in compliance with cargo preference requirements as determined by USAID.

(3) The contracting officer shall notify USAID or, if applicable, the grantee organization, that its shipping agent will be notified of the vessel freight rate used in determining the commodity contract award. The grantee organization or USAID will be responsible for finalizing the charter or booking contract with the vessel representing the freight rate so used.

470.203 Cargo preference.

An agency having responsibility under this subpart shall administer its programs, with respect to this subpart, in accordance with regulations prescribed by the Secretary of Transportation.

501.402 Policy.

Uniformity is a goal of GSA’s Acquisition Regulation System. Despite this desire for uniformity, a contracting activity may take any of the following actions:

(a) Develop and test new procedures and techniques.

(b) Adopt alternate procedures in the public interest for unique programmatic or managerial requirements.

(c) Deviate from a regulatory provision implementing a statutory requirement provided the deviation does not violate the underlying statute. Deviations must not be used to defeat the FAR and GSAR approval requirements.

501.403 Individual deviations.

(a) An individual deviation affects only one contract action.

(1) The Head of the Contracting Activity (HCA) must approve an individual deviation to the FAR. The authority to grant an individual deviation may not be re-delegated. A copy of the deviation must be provided to GSA’s Senior Procurement Executive (SPE).

(2) An individual deviation to the GSAR must be approved by the HCA. The authority to grant an individual deviation may be re-delegated to the Contracting Director.

(b) If GSA delegates authority to another agency and requires compliance with the GSAR as a condition of the delegation, the Contracting Director in the agency receiving the delegation may approve individual deviations from the GSAR unless the agency head receiving the delegation designates another official.

(c) Send a copy of each deviation to GSA’s SPE (V).

[64 FR 37203, July 9, 1999, as amended at 70 FR 15779, Mar. 29, 2005]

501.404 Class deviations.

(a) A class deviation affects more than one contract action. A deviation for any solicitation that will result in multiple awards or any solicitation under the multiple award Federal Supply Schedule program is considered to
be a class deviation. Each award under such a solicitation is considered an individual contract action.

(1) A class deviation to the FAR must be forwarded by the cognizant HCA to GSA’s SPE for approval. Prior to approving a class deviation to the FAR, the SPE will consult with the Chairman of the Civilian Agency Acquisition Council (CAAC) in accordance with FAR 1.404(a)(1).

(2) A class deviation to the GSAR must be forwarded by the cognizant HCA to GSA’s SPE for approval.

(3) When an HCA knows that a proposed class deviation will be required on a permanent basis, the HCA should propose or recommend an appropriate FAR and/or GSAR revision.

(b) If GSA delegates authority to another agency and requires compliance with the GSAR as a condition of the delegation, the HCA in the agency receiving the delegation may approve class deviations from the GSAR unless the agency head receiving the delegation designates another official.

(c) Send a copy of each deviation to GSA’s SPE (V).

(d) A request for class deviations must be supported by statements that fully describe the need for and the nature of the deviation.

(e) Class deviations from the GSAR:

(1) Expire in 12 months if not extended.

(2) May be rescinded earlier by GSA’s SPE or by officials designated under paragraph (a) of this section without prejudice to any action taken previously.

[64 FR 37203, July 9, 1999, as amended at 70 FR 15780, Mar. 29, 2005]

501.404-71 Deviations to the nonregulatory GSAM.

Handle individual and class deviations to the nonregulatory (unshaded) part of the GSAM as stated in 501.403 and 501.404.

[70 FR 15780, Mar. 29, 2005]

Subpart 503.2—Contractor Gratuities to Government Personnel

503.204 Treatment of violations.

(a) The Senior Procurement Executive, or designee, makes determinations under FAR 3.204.

The Senior Procurement Executive, or designee, takes all the following actions:

(1) Coordinates with legal counsel.

(2) Initiates proceedings under FAR 3.204(a) by notifying the contractor that GSA is considering action against the contractor for a violation of the Gratuities clause. Notice is sent by a certified letter to the last known address of the party, its counsel, or agent for service of process. In the case of a business, notice is sent to any partner, principal officer, director, owner or co-owner, or joint venture.

(3) Presumes receipt if no return receipt is received within 10 calendar days after mailing the notice.

(b) The contractor has 30 calendar days to exercise its rights under FAR 3.204(b), unless the Senior Procurement Executive, or designee, grants an extension.

(c) If there is a dispute of fact material to making a determination, the Senior Procurement Executive, or designee, may refer the matter to an agency fact-finding official designated by the Chairman of the GSA Board of Contract Appeals. Referrals for fact-finding are not made in cases arising from a conviction or indictment as defined in FAR 9.403. If a referral is made, the fact-finding official takes all the following actions:

(1) Gives the contractor an opportunity to dispute material facts relating to the determinations under FAR 3.204(a)(1) and (2).

(2) Conducts proceedings under rules consistent with FAR 3.204(b).

(3) Schedules a hearing within 20 calendar days of receipt of the referral. The contractor or GSA may request an extension for good cause.

(4) Delivers to the Senior Procurement Executive, or designee, written findings of fact (together with a transcription of the proceedings, if made) within 20 calendar days after the hearing record closes. The findings must resolve any material disputes of fact by a preponderance of the evidence.

(d) The Senior Procurement Executive, or designee, may reject the findings of the fact-finding official only if the findings are clearly erroneous or arbitrary and capricious.

(e) In cases arising from conviction or indictment, or in which there are no disputes of material fact, the Senior Procurement Executive, or designee, conducts the hearing required by FAR 3.204(b).

(f) If the Gratuities clause was violated, the contractor may present evidence of mitigating factors to the Senior Procurement Executive, or designee, either orally or in writing, in accordance with a schedule the Senior Procurement Executive, or designee, establishes. The Senior Procurement Executive, or designee, exercises the Government’s rights under FAR 3.204(c) only after considering mitigating factors.

Subpart 503.4—Contingent Fees

503.404 Contract clause.

Insert 552.203-5, Covenant Against Contingent Fees, in solicitations and contracts for the acquisition of leasehold interests in real property expected to exceed $100,000.

Subpart 503.5—Other Improper Business Practices

503.570 Advertising.

503.570-1 Policy.

GSA policy precludes contractors from referring to GSA contracts in commercial advertising in a manner that states or implies the Government approves or endorses the product or service or considers it superior to other products or services. The intent of this policy is to prevent the appearance of Government bias toward any product or service.

503.570-2 Contract clause.

Insert the clause at 552.203-71, Restriction on Advertising, in solicitations and contracts, including acquisitions of leasehold interests in real
property, if the contract amount is expected to exceed the simplified acquisition threshold.

**Subpart 503.7—Voiding and Rescinding Contracts**

**503.702 Definition.**

**Notice** means a letter sent by certified mail with a return receipt requested to the last known address of a party, its counsel, or agent for service of process. In the case of a business, such notice may be sent to any partner, principal officer, director, owner or co-owner, or joint venturer. If no return receipt is received within 10 calendar days of mailing, receipt is presumed.

**Voiding and rescinding official** means the Senior Procurement Executive or designee.

**503.705 Procedures.**

(a) **Contracting officer’s actions:**

(1) If a contract is tainted by misconduct, consult with assigned counsel to determine if the Government has a common law remedy such as avoidance, rescission, or cancellation.

(2) If the contractor has a final conviction for a violation under 18 U.S.C. 201–224, you may refer the matter to the voiding and rescinding official under FAR 3.705.

(i) In the referral, identify the final conviction and include the information required by FAR 3.705(d)(2) through (5).

(ii) Coordinate the referral with the Office of Inspector General to determine whether to recommend debarment.

(3) You may postpone a decision to exercise the Government’s common law right to void, rescind, or cancel a contract until completion of legal proceedings against the contractor.

(b) **Voiding and rescinding official’s actions:**

(1) The voiding and rescinding official reviews the referral and coordinates with assigned counsel and the contracting activity.

(2) If the official decides to declare void and rescind a contract and to recover the amounts expended and the property transferred, the official takes both the following actions:

   (i) Issues the notice required by FAR 3.705.

   (ii) Conducts the hearing contemplated by FAR 3.705(c)(3).

(3) In case of a dispute of material fact about the agency decision, the official refers the matter to the fact-finding official designated by the Chairman of the GSA Board of Contract Appeals. The voiding and rescinding official makes this referral if the dispute of fact relates to any of the following:

   (i) Contracts affected by the final conviction.

   (ii) Amounts expended and property transferred by the Government under the affected contracts.

   (iii) Identity and value of any tangible benefits received by the Government under the affected contracts.

(4) The voiding and rescinding official issues GSA’s final decision under FAR 3.705(e) after receiving the fact-finding official’s report, if a referral was made. The voiding and rescinding official may reject the fact-finding official’s findings only if they are clearly erroneous or arbitrary and capricious.

(5) The official coordinates the final decision was the contracting activity and provides the activity a copy of the decision.

(c) **Fact-finding official’s actions:** The fact-finding official takes all the following actions:

(1) Gives the contractor an opportunity to dispute material facts.

(2) Conducts the proceedings under rules consistent with FAR 3.705(c)(3).

(3) Schedules a hearing within 20 calendar days after receiving the referral. The official may grant extensions for good cause at the request of the contractor or GSA.

(4) Delivers written findings of fact to the voiding and rescinding official (together with a transcription of the proceeding, if made) within 20 calendar days after the hearing record closes. The findings must resolve any material disputes of fact by a preponderance of the evidence.

By agreement, the Department of Defense (DOD) will act for, and on behalf of, GSA in rendering security services required for safeguarding classified information released by GSA to U.S. industry.

(b) As used in this subpart, the term:
(1) “Contractor(s)” means prospective contractors, subcontractors, vendors, and suppliers.
(2) “U.S. industry” means those industries (including educational and research institutions) located within the United States, its possessions, and the Commonwealth of Puerto Rico.

504.475 Return of classified information.

(a) You must recover classified information unless it has been destroyed as provided in paragraph 19 of the ISM. The Government agency that provided classified information to a GSA contractor is responsible for the return of the information.

(b) You must ensure that classified information furnished to prospective offerors, offerors, or contractors is returned immediately after any of the following:
(1) After bid opening or closing date for receipt of proposals by non-responding offerors.
(2) After contract award by unsuccessful offerors.
(3) Upon termination or completion of the contract.
(4) Upon notification that authorization to release classified information has been withdrawn.
(5) After notification that a facility:
   (i) Does not have adequate means to safeguard classified information.
   (ii) Has had its security clearance revoked or inactivated.
(6) Whenever otherwise instructed by the authority responsible for the security classification.

Subpart 504.5—Electronic Commerce in Contracting

504.500 Scope of subpart.

This subpart provides policy and procedure for use of GSA’s Electronic Posting System (EPS).

504.502 Policy.

(a) The EPS is GSA’s primary vehicle for disseminating synopses and written solicitations. GSA intends that the EPS will substitute for, not supplement, paper copies of solicitations. (Note that FAR 2.101 defines “in writing” or “written” to include “electronically transmitted and stored information.”)

(b) This policy does not apply to orders placed against existing contracts, including Federal Supply Service schedule contracts.

(c) Nothing in this policy limits your authority to obtain oral quotations or
proposals as authorized by regulation (e.g., FAR 13.106-1 or FAR 15.203(f)).

504.570 Procedures for using the EPS.

(a) You must use the EPS to issue any synopsis required by FAR part 5 or GSAR part 505.

(b) You must issue each written solicitation on the EPS, except as provided in paragraphs (c)(2) and (d) of this section.

(c) Although GSA intends that the EPS will substitute for paper copies of solicitations, web-based transactions are not practical in some industries or in some geographic areas at this time.

(1) If you expect that electronic access to a solicitation will result in adequate competition, distribute the solicitation only through the EPS. Include the following notice in the related synopsis:

GSA is issuing this solicitation only electronically. Interested parties may access the solicitation at [http://www.eps.gov]. This site provides instructions for downloading the solicitation file.

(2) If you believe that distribution of paper copies is necessary to ensure adequate competition, document the file to justify distribution of paper copies. Include the notice in paragraph (c)(1) of this section in the related synopsis, leaving out the first sentence.

(d) In some cases, release of construction drawings must be controlled to ensure adequate security. In other cases, an exhibit or attachment incorporated in a solicitation may not be available electronically. In either of these cases, you must explain in both the synopsis and the solicitation how interested parties may obtain a copy. In addition to the notice required by paragraph (c), include a notice substantially the same as follows in both the synopsis and solicitation. Tailor the notice as necessary for the particular acquisition.

This solicitation incorporates documents which are not available electronically. See [Identify the solicitation section that lists the subject documents]. Interested parties may request copies of these documents by writing the Contracting Officer at the address in [Identify address block in the solicitation].

Subpart 504.6—Contract Reporting

504.602–71 Federal Procurement Data System—Public access to data.

(a) The FPDS database. The General Services Administration awarded a contract for creation and operation of the Federal Procurement Data System (FPDS) database. That database includes information reported by departments and agencies as required by Federal Acquisition Regulation (FAR) Subpart 4.6. One of the primary purposes of the FPDS database is to provide information on Government procurement to the public.

(b) Fee for direct hook-up. To the extent that a member of the public requests establishment of real-time integration of reporting services to run reports from another application, a one-time charge of $2,500 for the original integration must be paid by the requester. This one-time charge covers the setup and certification required for an integrator to access the FPDS database and for technical assistance to help integrators use the web services. The fee will be paid to the FPDS contractor and credited to invoices submitted to GSA by the FPDS contractor.

Subpart 505.2—Synopses of Proposed Contract Actions

505.202 Exceptions.

The Administrator has determined under section 18(c)(3) of the Office of Federal Procurement Policy Act, as amended (41 U.S.C. 418(c)(3)) and Section 8(g)(3) of the Small Business Act, as amended (15 U.S.C. 644(g)(3)) that:

(iii) Building alterations within the scope of a lease (see 570.3).
505.203 Publicizing and response time.

(a) If you publicize in local newspapers under 505.101(c), ensure that the notice appears in local newspapers at least 3 calendar days before issuance of the solicitation. Except as provided in paragraph (B) of this section, allow at least these minimum response times:

(1) For leasehold interests in real property, 20 calendar days between solicitation issuance and the date established for receipt of initial offers.

(2) For real property appraisal services valued at less than either the Trade Agreements Act (TAA) threshold or the North American Free Trade Agreement (NAFTA) threshold, 10 calendar days between solicitation issuance and the date established for receipt of initial offers. The lower of the two thresholds governs.

(3) For real property appraisal services valued at or over the TAA threshold or the NAFTA threshold, 40 calendar days from when the notice appears to receipt of initial offers. If the acquisition falls in a general category identified in an annual forecast, the period may be reduced to as few as 10 days. The lower of the two thresholds governs.

(b) The following exceptions to the publicizing and response times in paragraph (a) of this section apply only to proposed acquisitions of leasehold interests in real property:

(1) For a proposed acquisition conducted using simplified lease acquisition procedures (see 570.2), consider the individual acquisition and establish a reasonable response time.

(2) In cases of urgency, provide as much time as possible and document the file.

505.270 Synopsis of amendments to solicitations.

Synopsis in the CBD any solicitation amendment when the amendment either:

(a) Increases the anticipated value of the proposed acquisition above the dollar threshold requiring synopsis.

(b) Alters the scope of the proposed acquisition so that increased interest of contractors can be reasonably anticipated.

509.105 Procedures.

509.105–1 Obtaining information.
(a) From a prospective contractor. FAR 9.105–1 lists a number of sources of information that a contracting officer may utilize before making a determination of responsibility. The contracting officer may request information directly from a prospective contractor using GSA Form 527, Contractor’s Qualifications and Financial Information, but only after exhausting other available sources of information.

[74 FR 12732, Mar. 25, 2009]

509.308–1 Testing performed by the contractor.
In FSS solicitations and contracts that will require the contractor to perform testing, insert 552.209–72, Supplemental Requirements for First Article Approval—Contractor Testing, and FAR 52.209–3, Alternate I.

509.308–2 Testing performed by the Government.

This subpart applies to all the following:
(a) Acquisitions of personal property, nonpersonal services, construction, and space in buildings.
(b) Acquisition of transportation services (Federal Management Regulation (FMR) Parts 102–117 and 102–118 (41 CFR parts 102–117 and 102–118)).

509.403 Definitions.

Debarring official means the Suspension and Debarment Official within the Office of the Chief Acquisition Officer.

Fact-finding official means the Suspension and Debarment Official or a designee.

Notice means a letter sent by certified mail, return receipt requested, to the last known address of a party, its counsel, or agent for service of process. In the case of a business, such notice may be sent to any partner, principal officer, director, owner or co-owner, or joint venturer. If no return receipt is received within 10 calendar days of mailing, receipt will then be presumed.

Suspending official means the Suspension and Debarment Official within the Office of the Chief Acquisition Officer.

509.405 Effect of listing.

509.405–1 Continuation of current contracts.

(a) When a contractor appears on the current EPLS, consider terminating a contract under any of the following circumstances:

(1) Any circumstances giving rise to the debarment or suspension also constitute a default in the contractor’s performance of the contract.

(2) The contractor presents a significant risk to the Government in completing the contract.

(3) The conduct that provides the cause of the suspension, proposed debarment, or debarment involved a GSA contract.

(b) Before terminating a contract when a contractor appears on the current EPLS, consider the following factors:

(1) Seriousness of the cause for debarment or suspension.

(2) Extent of contract performance.

(3) Potential costs of termination and reprocurement.

(4) Need for or urgency of the requirement, contract coverage, and the impact of delay for reprocurement.

(5) Availability of other safeguards to protect the Government’s interest until completion of the contract.

(6) Availability of alternate competitive sources to meet the requirement (e.g., other multiple award contracts, readily available commercial items.)

(c) The responsibilities of the agency head under FAR 9.405–1 are delegated to the GSA Suspension and Debarment Official.

509.405–2 Restrictions on subcontracting.

The responsibilities of the agency head under FAR 9.405–2(a) are delegated to the GSA Suspension and Debarment Official.

509.406 Debarment.

509.406–1 General.

The Suspension and Debarment Official is the designee under FAR 9.406–1(c).

509.406–3 Procedures.

(a) Investigation and referral. (1) Refer to the Suspension and Debarment Official matters involving serious contract improprieties or performance deficiencies. Performance deficiencies that continue over a period of time or apply to more than one contract may warrant debarment consideration.

(2) Refer possible criminal or fraudulent activities to the Office of the Inspector General (OIG). See 5 CFR 6701.107, Reporting Waste, Fraud, Abuse, and Corruption. If, after investigation, the OIG believes a cause for debarment exists, it will refer the matter to the Suspension and Debarment Official for consideration of debarment action.

(b) Reports. Include in referrals to the Suspension and Debarment Official a report that contains at least the following:

(1) The recommendation and supporting rationale.
General Services Administration

509.406–3

(2) A list of parties to be considered for possible debarment, including the contractor, principals, and affiliates. Include last known home and business addresses, zip codes, and DUNS Numbers.

(3) A statement of facts.

(4) Copies of documentary evidence and a list of witnesses. Include addresses and telephone numbers. Determine their availability to appear at a fact-finding proceeding and identify the subject matter of their testimony.

(5) GSA’s acquisition history with the contractor. Include recent experience, copies of the pertinent contracts, and an explanation of impact debarment would have on GSA programs. OIG referrals do not require this explanation; the Suspension and Debarment Official will obtain the information directly from the contracting activity(ies).

(6) A list of any known active or potential criminal investigations, criminal or civil proceedings, or administrative claims before the Board of Contract Appeals.

(c) Review. The Suspension and Debarment Official will review the report, and after coordinating with assigned legal counsel—

(1) Initiate debarment action;

(2) Decline debarment action;

(3) Request additional information; or

(4) Refer the matter to the OIG for further investigation and development of a case file.

(d) Decisionmaking process. (1) The Suspension and Debarment Official will provide:

(i) Notice of declinations, proposed debarments, and decisions to the referring activity.

(ii) Notice of proposed debarment to each party being considered for debarment.

(iii) Decision notices to each party after considering information in the administrative record and information and argument submitted by the affected party or parties.

(2) A party proposed for debarment:

(i) Has 30 calendar days after receipt of the notice to respond to the Suspension and Debarment Official or the debarment becomes final.

(ii) May request and receive a copy of the administrative record that was the basis for the proposed debarment. If information is withheld, the party will be notified and provided the reason.

(iii) May request the opportunity to present information and argument in person to the Suspension and Debarment Official. The Suspension and Debarment Official will schedule an oral presentation within 20 calendar days of receipt of the request, unless a longer period of time is requested by the party. An oral presentation is informal and a transcript usually is not made. The party may supplement the oral presentation with written information and arguments.

(iv) May identify to the Suspension and Debarment Official material facts in dispute and the bases. For an action other than one based on a conviction of civil judgment, a party may request review and a written finding by a fact-finding official.

(3) Following a review of the record and, if needed, a presentation by the contractor in opposition to the proposed action, the Suspension and Debarment Official will determine whether there is a genuine dispute of material fact. If so, the Suspension and Debarment Official will initiate the fact-finding process. The fact-finding official will:

(i) Establish a date for a fact-finding proceeding, normally to be held within 45 days of the determination of who will function as the fact-finding official.

(ii) Grant extensions for good cause.

(iii) Provide notice of the scheduled hearing.

(iv) Provide the parties with a schedule for exchange of documents and witness lists.

(v) Develop an official transcript of the fact-finding proceeding.

(vi) Provide the Government’s representative and the contractor with an opportunity to present evidence relevant to the facts at issue. The contractor may appear in person or through a representative.

finding. Hearsay evidence may be presented and will be given appropriate weight by the fact-finding official.

(viii) Provide for witness testimony. Witnesses may testify in person. Witnesses are subject to cross examination.

(ix) Prepare written findings of fact based on a preponderance of the evidence and submit them to both the Suspension and Debarment Official and the contractor within 20 calendar days following the conclusion of the fact-finding proceeding.

509.407 Suspension.

509.407–1 General.

The Suspension and Debarment Official is the designee under FAR 9.407–1(d).

[64 FR 37207, July 9, 1999, as amended at 74 FR 12733, Mar. 25, 2009]

509.407–3 Procedures.

(a) General. The procedures in 509.406–3 apply to suspension actions except as noted in paragraph (b) of this section.

(b) Fact-finding. (1) Fact-finding will not be conducted in an action:

(i) Based on an indictment.

(ii) When the Suspension and Debarment Official finds no genuine dispute of material facts.

(2) If the action is not based on an indictment, the Suspension and Debarment Official must coordinate with the Department of Justice or state prosecutorial authority through OIG. Based on the advice received, the Suspension and Debarment Official will determine if fact-finding would impair substantial interests of the Federal or state Government. In an action not based on an indictment, a suspended party may:

(i) Identify to the Suspension and Debarment Official material facts in dispute and the bases.

(ii) Request review and a written finding by a fact-finding official to resolve genuine disputes of material fact. For procedures involving a genuine dispute of material fact, see 509.406–3(d)(3).

If you offer other than brand name items identified in this solicitation, you must provide adequate information for GSA to determine the quality of the product(s) offered.

(c) If you use brand name or equal purchase descriptions for some component parts of an end item, you may limit the application of the provision at FAR 52.211-6 to the specified components.

Subpart 511.4—Delivery or Performance Schedules

511.404 Contract clauses.

(a) Supply contracts—(1) Single award schedules. Insert 552.211-8, Time of Delivery, in solicitations and contracts instead of the clause at FAR 52.211-8. If you need to show different delivery times for different items or groups of items, use Alternate I.

(2) Multiple award schedules. Insert 552.211-78, Commercial Delivery Schedule (Multiple Award Schedule), in solicitations issued and contracts awarded under the multiple award schedule program.

(3) Shelf-life items. Use the following clauses in solicitations and contracts that require delivery of shelf-life items within a specified number of months from the date of manufacture or production (see 101-27.206-2 of the Federal Property Management Regulation):
(1) Insert 552.211–79, Acceptable Age of Supplies, if the required shelf-life period is 12 months or less, and lengthy acceptance testing may be involved. For items having a limited shelf-life, substitute Alternate I when required by the director of the commodity center concerned.

(ii) Insert 552.211–80, Age on Delivery, if the required shelf-life period is more than 12 months, or when source inspection can be performed within a short time period.

(4) Stock replenishment contracts. Insert 552.211–81, Time of Shipment, in solicitations and stock replenishment contracts that do not include the Availability for Inspection, Testing and Shipment/Delivery clause at 552.211–83 and require shipment within 45 calendar days after receipt of the order. If shipment is required in more than 45 days, use Alternate I.

(5) Notice of shipment. Include 552.211–82, Notice of Shipment, in solicitation and contracts for supplies when you need to have a notice of shipment from the contractor.

(6) Indeterminate testing time. Insert 552.211–83, Availability for Inspection, Testing and Shipment/Delivery, in solicitations and contracts that provide for source inspection by Government personnel and that require lengthy testing for which time frames cannot be determined in advance. If the contract is for stock items, use Alternate I.

(b) Construction contracts. Insert the clause at 552.211–84, Non-Compliance with Contract Requirements, in solicitations and contracts for construction when you expect the contract amount to exceed the simplified acquisition threshold.

Subpart 511.6—Priorities and Allocations

SOURCE: 69 FR 55934, Sept. 16, 2004, unless otherwise noted.

511.600 Scope of subpart.

FAR Subpart 11.6 implements the Defense Priorities and Allocations System (DPAS), a Department of Commerce (DOC) regulation (15 CFR part 700) to assure timely delivery of industrial resources (products, materials, and services) in support of approved national defense, energy, and civil emergency preparedness (Homeland Security) programs. Pursuant to DPAS Delegation 3, DOC delegated GSA the authority to use the DPAS in support of the GSA Federal Supply system. This subpart implements the DPAS within GSA.

511.601 Definitions.

As used in this subpart—

Approved program means a program determined as necessary or appropriate for priorities and allocations support to promote the national defense by the Secretary of Defense, the Secretary of Energy, or the Department of Homeland Security Under Secretary for Emergency Preparedness and Response under the authority of the Defense Production Act, the Stafford Act, and Executive Order 12919, or the Selective Service Act and related statutes, and Executive Order 12742. See Schedule 1 of 15 CFR part 700 for a list of Delegate Agencies, approved programs, and program identification symbols at http://www.bis.doc.gov/DefenseIndustrialBasePrograms/OSIES/DPAS/Default.htm.

Authorized person means a Delegate Agency, or other entity either permitted under 15 CFR part 700, or explicitly authorized by DOC to issue DPAS rated orders.

Defense Priorities and Allocations System (DPAS) means the regulation published at 15 CFR part 700 that requires preferential treatment for certain contracts and orders placed by a Delegate Agency in support of an approved program.

Delegate Agency means an agency of the U.S. Government authorized by delegation from DOC to place priority ratings on contracts or orders needed to support approved programs.

Rated order means a prime contract, a subcontract, a purchase order, or a delivery or task order in support of an approved program issued in accordance with the provisions of the DPAS regulation (15 CFR part 700).
511.602 General.

(a) The purpose of the DPAS is to assure the timely availability of industrial resources to meet current national defense, energy, and civil emergency preparedness program requirements and to provide an operating system to support rapid industrial response in a national emergency. The primary statutory authority for the DPAS is Title I of the Defense Production Act of 1950, as amended, with additional authority from the Selective Service Act of 1948, and the Robert T. Stafford Disaster Relief and Emergency Assistance Act. Executive Orders 12919 and 12742 delegate this authority to the DOC to administer the DPAS. The DOC is further authorized to delegate to heads of other departments and agencies (Delegate Agencies) authority under the DPAS for the priority rating of contracts and orders in support of approved programs. Within the DOC, the Office of Strategic Industries and Economic Security (SIES) is assigned the implementation, administration, and compliance responsibilities for the system.

(b) The DPAS is published in the Code of Federal Regulations at 15 CFR part 700. This regulation provides an overview, a detailed explanation of operations and procedures, and other implementing guidance, including information on special priorities assistance and compliance.

(c) Orders placed under DPAS are “rated orders.” Rated orders must receive preferential treatment only as necessary to meet delivery requirements. Rated orders are identified by a rating symbol of either “DX” or “DO” followed by a program identification symbol. All “DO” rated orders have equal priority with each other and take preference over unrated orders. All “DX” rated orders have equal priority with each other and take preference over “DO” rated orders and unrated orders. A program identification symbol indicates which approved program is supported by the rated order.

(d) Only authorized persons may place an order containing a DPAS priority rating.

(e) Within GSA, the Federal Supply Service (FSS) has been delegated the authority to issue rated orders to meet approved national defense, energy, and civil emergency preparedness program requirements of the supply distribution program. The Commissioner, FSS, shall issue additional guidance, as may be necessary, to ensure effective implementation of its delegated DPAS authority, such as the exclusions listed in paragraph F(2) of the 1998 DOC DPAS Delegation 3.

(f) Executive Order 12919 defines the jurisdictional limitations as set forth in 15 CFR 700.18(b).

511.603 Procedures.

(a) A DPAS rating may be placed against an entire contract at time of award or an individual order issued under an existing, otherwise unrated, contract.

(b) When a DPAS rating is placed against an entire contract, the contracting officer must include the clause and provision prescribed at FAR 11.604, as well as the elements listed in paragraphs (c)(1) through (c)(3) of this section (see 15 CFR 700.12).

(c) When a DPAS rating is placed against an individual order issued under an existing, otherwise unrated, contract, the order must include the following elements (see 15 CFR 700.12):

(1) The appropriate priority rating symbol (i.e., either “DO” or “DX”) along with the program identification symbol. As required by the 1998 DOC DPAS Delegation 3 to GSA, when GSA contracting officers place DO rated orders, they will use program identification symbol K1. When placing a DX rated order for other agencies, GSA contracting officers will use the requesting agency program identification symbol. When a Delegate Agency places its own orders, it uses its own program identification symbol. (See Schedule 1 of 15 CFR part 700 for a listing of Delegate Agencies, approved programs, and program identification symbols.)

(2) A required delivery date. The words “as soon as possible” or “immediately” do not constitute a required delivery date. A specific date or a specified number of days ARO (after receipt of order) is acceptable.

(3) The written signature on a manually placed order, or the digital signature or name on an electronically
placed order of an individual authorized to place rated orders.
(4) A statement that reads substantially as follows:
   "This is a rated order certified for national defense use, and you are required to follow all the provisions of the Defense Priorities and Allocations System regulation (15 CFR part 700)."

(d) Multiple and Single Award Schedule contracts are not rated at time of award. Individual DPAS rated orders must include the elements listed in paragraphs (c)(1) through (c)(4) of this section.

511.604 Solicitation provision and contract clause.
The contracting officer must insert in full text the clause at 552.211–15, Defense Priorities and Allocations System Requirements, in Single and Multiple Award Schedule solicitations and resultant contracts, except where the contract is wholly for products, materials, or services excluded from DPAS applicability (see 15 CFR 700.18).

PART 512—ACQUISITION OF COMMERCIAL ITEMS

AUTHORITY: 40 U.S.C. 486(c).

Subpart 512.3—Solicitation Provisions and Contract Clauses for the Acquisition of Commercial Items

512.301 Solicitation provisions and contract clauses for the acquisition of commercial items.

(a) Solicitation provisions and clauses. Insert these provisions or clauses in solicitations or solicitations and contracts, respectively, in accordance with the instructions provided:
   (1) 552.212–70, Preparation of Offer (Multiple Award Schedule), in solicitations and contracts issued under the multiple award schedule program.
   (2) 552.213–71, Contract Terms and Conditions Applicable to GSA Acquisition of Commercial Items, when listed clauses apply. The clause provides for incorporation by reference of terms and conditions which are, to the maximum extent practicable, consistent with customary commercial practice. If necessary, tailor this clause.
   (3) 552.212–72, Contract Terms and Conditions Required to Implement Statutes or Executive Orders Applicable to GSA Acquisitions of Commercial Items, when listed clauses apply. The clause provides for the incorporation by reference of terms and conditions required to implement provisions of law or executive orders that apply to commercial item acquisitions.
   (4) 552.213–73, Evaluation-Commercial Items (Multiple Award Schedule), in multiple award schedule solicitations. Use this provision instead of FAR 52.212–2.

(b) Use of required provisions and clauses. Use only those provisions and clauses prescribed in this part. Unless the use of a provision or clause prescribed elsewhere in the GSAR is consistent with customary commercial practice for the item being acquired, disregard contrary instructions. Provisions and clauses prescribed in this part will be revised to reflect the applicability of new statutes and executive orders.

(c) Discretionary use of GSAR provisions and clauses. Consistent with the limitations contained in FAR 12.302(c), include in solicitations and contracts by addendum other GSAR provisions and clauses.

(d) Use of additional provisions and clauses. The Senior Procurement Executive must approve the use of a provision or clause that is either not:
   (1) Prescribed in the FAR or GSAR for use in contracts for commercial items.
   (2) Consistent with customary commercial practice.

PART 514—SEALED BIDDING

Subpart 514.2—Solicitation of Bids

514.201 Preparation of invitations for bids.

(a) When you use Standard Form 33, Solicitation, Offer and Award, include the following cautionary notice:

Notice to Bidders—Use Item 13 of the Standard Form 33, Solicitation, Offer and Award, to offer prompt payment discounts. The Prompt Payment clause of this solicitation sets forth payment terms. Do not insert any statement in Item 13 which requires payment sooner than the time stipulated in the Prompt Payment clause. Example: If you insert “NET 20” in Item 13, GSA will reject your offer as nonresponsive because the entry contradicts the 30 day payment terms specified in the Prompt Payment clause.

(b) When you use any other authorized form (e.g., Standard Form 1447, Solicitation/Contract), include the notice in paragraph (a) of this section. Change the reference to the form number, form title, and item number accordingly.

514.201–2 Part I—The Schedule.

(a) When using Standard Form 33, Solicitation, Offer and Award, include the following cautionary notice:

“Notice to Bidders—Use Item 13 of the Standard Form 33, Solicitation, Offer and Award, to offer prompt payment discounts. The Prompt Payment clause of this solicitation sets forth payment terms. Do not insert any statement in Item 13 that requires payment sooner than the time stipulated in the Prompt Payment clause (See FAR 52.232–25, 52.232–26, or 52.232–27, as applicable). EXAMPLE: If you insert “NET 20” in Item 13, GSA will reject your bid as nonresponsive because the entry contradicts the 30 day payment terms specified in the Prompt Payment clause.”

(b) When using other authorized forms (e.g., Standard Form 1447, Solicitation/Contract; Standard Form 1449, Solicitation/Contract/Order for Commercial Items), include the notice in paragraph (a) of this section. Change the reference to the form number, form title, and item number accordingly.

514.201–6 Solicitation provisions.

When you will consider all or none bids, insert the provision at 552.214–70,
514.201–6, Nt.

“All or None” Offers, in the solicitation. For requirements or indefinite quantity contracts, use Alternate I. Do not include this provision in solicitations when you require the bidder to submit bids on all items and will make only one award.

EFFECTIVE DATE NOTE: At 74 FR 47739, Sept. 17, 2009, section 514.201–6 was revised, effective Oct. 19, 2009. For the convenience of the user, the revised text is set forth as follows:

514.201–6 Solicitation provisions.

When considering all or none bids, insert the provision at 552.214–70, “All or None” Bids, in the solicitation.

514.201–7 Contract clauses.

(a) Stock replenishment contracts. For some stock replenishment contracts, individual contractors may be unable to furnish the Government’s monthly requirements. You may determine that progressive awards will be more expedient. In such cases, insert a clause substantially the same as the clause 552.214–71, Progressive Awards and Monthly Quantity Allocations, in the solicitation and contract.

(b) Examinations of Records.

(1) Insert 552.214–70, Examination of Records by GSA, in solicitations and contracts for supplies or services that exceed $100,000, and acquisitions of leasehold interests in real property that exceed the simplified lease acquisition threshold, that meet at least one of the following conditions:

(i) Involve the use or disposition of Government-furnished property.

(ii) Provide for advance payments, progress payments based on cost, or guaranteed loan.

(iii) Contain a price warranty or price reduction clause.

(iv) Include an economic price adjustment clause where the adjustment is not based solely on an established, third party index.

(v) Are requirements, indefinite-quantity, or letter contracts as defined in FAR part 16.

(vi) Contain the provision at FAR 52.223–4, Recovered Materials Certification.

(2) You may modify the clause to define the specific area of audit (e.g., the use or disposition of Government-furnished property). Legal Counsel and the Assistant Inspector General—Auditing or Regional Inspector General—Auditing, as appropriate, must concur in any modifications to the clause.

EFFECTIVE DATE NOTE: At 74 FR 47739, Sept. 17, 2009, section 514.201–7 was revised, effective Oct. 19, 2009. For the convenience of the user, the revised text is set forth as follows:

514.201–7 Contract clauses.

Stock replenishment contracts. For some stock replenishment contracts, individual contractors may be unable to furnish the Government’s monthly requirements. The contracting officer may determine that progressive awards will be more expedient. In such cases, insert a clause substantially the same as the clause at 552.214–71, Progressive Awards and Monthly Quantity Allocations, in the solicitation and contract.

514.202–4 Bid samples.

(a) Solicitation requirements. (1) When you require bid samples, require bidders to submit samples produced by the manufacturer whose products will be supplied under the contract.

(2) The FAR limits use of bid samples to cases where you cannot describe some characteristics of a product adequately in the specification or purchase description. This usually applies to subjective characteristics. You may determine that you need to examine objective characteristics of bid samples to determine the responsiveness of a bid. Base your determination on past experience or other valid considerations. In the solicitation, separately list “Subjective Characteristics” and “Objective Characteristics.”

(3) A sample provision appears at 552.214–72, Bid Sample Requirements. You may use this provision as shown or modify it to fit the circumstances of a procurement.

(b) Handling and disposition of samples.

(1) Retain samples from accepted bids for the period of contract performance. If you have no outstanding claims regarding the contract, dispose of the samples at the end of the contract term following the bidder’s instructions.

(2) If you anticipate a claim regarding the contract, retain the bid samples until the claim is resolved.
(3) Retain samples from unsuccessful bids until you make award. After award, dispose of these samples following the bidder's instructions.

(c) Using bid samples. Include the information required by FAR 14.202–4(e) in the solicitation. Provide the number, size, and full description of samples and instructions on how to submit bids. List the characteristics that you will examine. The list needs to include any aspect of the bid sample the acquisition team will examine to determine the product(s) acceptability.

Effective Date Note: At 74 FR 47739, Sept. 17, 2009, section 514.202–4 was revised, effective Oct. 19, 2009. For the convenience of the user, the revised text is set forth as follows:

514.202–4 Bid samples.

(a) Requirements for samples in invitations for bids. (1) When bid samples are required, the contracting officer shall require bidders to submit samples produced by the manufacturer whose products will be supplied under the contract.

(2) The FAR limits use of bid samples to cases where the contracting officer cannot describe some characteristics of a product adequately in the specification or purchase description. This usually applies to subjective characteristics. The contracting officer may determine that there is a need to examine objective characteristics of bid samples to determine the responsiveness of a bid. The contracting officer should base the determination on past experience or other valid considerations. In the solicitation, separately list “Subjective Characteristics” and “Objective Characteristics”.

(3) A provision appears at 552.214–72, Bid Sample Requirements. This provision may be modified to fit the circumstances of a procurement.

(b) Handling bid samples. (1) Samples from accepted bids must be retained for the period of contract performance. If there are no outstanding claims regarding the contract, the contracting officer may authorize disposal of the samples at the end of the contract term following the bidder's instructions.

(2) If the contracting officer anticipates a claim regarding the contract, the contracting officer shall require that the bid samples be retained until the claim is resolved.

(3) The contracting officer shall require that samples from unsuccessful bids be retained until award. After award, these samples may be disposed of following the bidder's instructions.

514.202–5 Descriptive literature.

Requirements for Invitations for bids. When using brand name or equal purchase descriptions, the provision at FAR 52.211–6 satisfies the requirement for descriptive literature.

Effective Date Note: At 74 FR 47739, Sept. 17, 2009, section 514.202–5 was added, effective Oct. 19, 2009.

514.203 Methods of soliciting bids.

Effective Date Note: At 74 FR 47739, Sept. 17, 2009, section 514.203 was removed, effective Oct. 19, 2009.

514.203–1 Transmittal to prospective bidders.

Prospective bidders, as used in FAR 14.203–1, include both the following:

(a) The incumbent contractor, except when its written response to the notice of contract action under FAR subpart 5.2 states a negative interest.

(b) Bidders that responded to recent solicitations for the same or similar items.

514.270 Aggregate awards.

514.270–1 Definition.

Aggregate award means an arrangement whereby two or more separately-priced line items are combined for award to that bidder whose bid will result in the lowest overall cost to the Government for the line items as a group. The individual price for each item does not have to be the lowest bid received. (See also the definition of a “line item” in FAR 3.302.)

514.270–2 Guidelines for use.

(a) GSA usually solicits prices and reserves the right to make award for individual line items. In some cases it serves GSA’s best interest to combine two or more line items for an aggregate award. Such cases include when:

(1) Users desire uniformity of design, style, and finish (e.g., suites of household furniture).

(2) The articles will be assembled and used as a unit, and different manufacturers’ components may not be interchangeable.

(3) Users have high demand for certain articles, but demand for related...
articles is insufficient to attract competitive bids (e.g., various sized of socket wrenches). Awarding the low-demand articles in conjunction with the high-demand articles may encourage competition.

(4) One location (delivery point) has a large requirement, and another location has a requirement too small to individually attract competitive bids.

(5) Awarding and administering numerous small contracts for similar articles or services is impractical.

(b) Before deciding to combine items for aggregate award, consider the following factors:

(1) The capability of bidders to furnish the types and quantities of supplies or services in the aggregate.

(2) How grouping delivery points will affect bidders.

(3) Which combinations will accurately project the lowest overall cost to the Government.

(c) Do not use an aggregate award if it will significantly restrict the number of eligible bidders.

EFFECTIVE DATE NOTE: At 74 FR 47739, Sept. 17, 2009, section 514.270–2 was amended by redesignating paragraphs (a)(4) and (a)(5) as (a)(5) and (a)(6); adding new paragraph (a)(4); and revising the introductory text of paragraph (b) and paragraph (c), effective Oct. 19, 2009. For the convenience of the user, the added and revised text is set forth as follows:

514.270–2 Guidelines for use.

(a) * * *

(4) Awarding the low-demand articles in conjunction with the high-demand articles may encourage competition.

* * * * *

(b) Before deciding to combine items for aggregate award, the contracting officer should consider the following factors:

* * * * *

(c) The contracting officer should not use an aggregate award if it will significantly restrict the number of eligible bidders.

514.270–3 Evaluation factors for award.

Clearly state in the solicitation the basis for evaluating bids for aggregate award. Require bidders to submit a price on each item within the group or a percentage to be added or subtracted from a list price. Advise bidders that failure to submit prices as required within a group makes a bid ineligible for award for that group.

EFFECTIVE DATE NOTE: At 74 FR 47739, Sept. 17, 2009, section 514.270–3 was revised, effective Oct. 19, 2009. For the convenience of the user, the revised text is set forth as follows:

514.270–3 Evaluation factors for award.

The solicitation should clearly state the basis for evaluating bids for aggregate award, require bidders to submit a price on each item within the group or a percentage to be added or subtracted from a list price, and advise bidders that failure to submit prices as required within a group makes a bid ineligible for award for that group.

514.270–4 Grouping line items for aggregate award.

(a) Type of contract. While this section addresses supply contracts (articles and delivery points), the same principles apply to service contracts (types of services and service areas).

(b) Effect on competition. Provide for full and open competition when you group items for award. Grouping items for award may preclude a significant number of firms from bidding. This occurs if firms are unable to provide all the types or quantities of supplies or services, or make deliveries to the various delivery points included in the prospective aggregate group.

(c) Grouping different articles. Include only related articles in an aggregate group. Related articles are those normally manufactured or produced by a majority of prospective bidders. Grouping unrelated articles often restricts competition unnecessarily.

(d) Grouping geographic locations or delivery points. Consider the following guidelines before deciding to group different geographic locations or delivery points:

(1) A delivery point may have sufficient requirements so that individual shipments involve economic production runs and carload or truckload quantities. In this case, list it as a separate line item.

(2) The types of bidders (i.e., small or large firms, manufacturers or distributors, etc.) who respond to previous solicitations can provide important information. For example, if previous
bidders are distributors with franchises in certain territories, grouping different territories could tend to restrict competition.

(3) Transportation costs can affect competition and pricing. They may constitute a significant portion of the total delivered cost. Obtain the advice and assistance of transportation specialists before grouping geographic locations or delivery points. Depending upon the supplies being acquired:

(i) Grouping widespread geographic locations or delivery points may reduce competition or result in higher prices. It can cause you to lose "area pricing" advantages provided by a supplier with a single production point.

(ii) Conversely, for many small commercial items (hand tools, locks, etc.), manufacturers may quote the same price for delivery anywhere in the U.S.

(iii) Tariff boundaries can also affect how manufacturers price deliveries to different areas.

EFFECTIVE DATE NOTE: At 74 FR 47739, Sept. 17, 2009, section 514.270–4 was amended by revising paragraph (a); removing from paragraph (b) "you group" and adding "grouping" in its place; removing from paragraph (d)(2) "respond" and adding "responded" in its place; and removing from paragraph (d)(3)(i) "you to lose" and adding "the loss of" in its place, effective Oct. 19, 2009. For the convenience of the user, the revised text is set forth as follows:

514.270–4 Grouping line items for aggregate award.
(a) Supplies and services. This subsection applies to acquisitions of supplies and services.

514.270–5 Evaluation methodologies for aggregate awards.
(a) Definite quantity contracts without options. For definite quantity contracts without options, the evaluated bid price is the total bid price, as adjusted for any price-related factors identified in the solicitation. This reflects the actual cost to the Government and will identify the most advantageous bid.

(b) Indefinite quantity contracts, requirements contracts, and options. Indefinite quantity and requirements contracts use estimated quantities. Options involve the probability of whether and when the options will be exercised. These situations may result in unbalanced bids (see FAR 15.404–1(g)), leading to inaccurate evaluation of the projected cost and award to other than the most advantageous bid. To avoid unbalanced bids, GSA has two preferred methods for evaluating bids for aggregate awards: weight factors and price list.

(1) Weight factors method. Assign a weight to each item in a group. The weight is based on the portion of quantities that item represents. To evaluate bids, multiply each unit price by its weight factor, then total the results.

(2) Price list method. Establish prices for bidders to use as a base for preparing their bids. Prepare a list that identifies a base price for each item in a group. Bidders bid a percentage factor to add to or subtract from the base price.

514.270–6 Guidelines for using the weight factors method.
(a) Use the weight factors method when you have reliable estimates for the quantities needed in an acquisition. Reliable estimates of quantities form the foundation for:

(1) Accurate evaluation of the projected cost of each bid.

(2) An appropriate determination of which bid is most advantageous to the Government for the aggregate group.

(b) Assign a weight factor to each item in a group. Develop the weight factor by calculating the portion of the total quantity in a defined group that each item represents.

(c) To evaluate bid prices, first multiply the price bid for each item (unit price X quantity) by its weight factor. Then, add the subtotals together to project the cost for the aggregate group.

(d) You may reduce estimated quantities to smaller numbers by a common denominator. This may help facilitate the computations involved in evaluating bids.

(e) Consider all price-related factors you identified in the solicitation. Award to the responsive and responsible bidder with the lowest evaluated overall cost to the Government for the aggregate group. This represents the most advantageous bid.
514.270–6, Nt.

EFFECTIVE NOTE: At 74 FR 47739, Sept. 17, 2009, section 514.270–6 was amended by removing from the introductory text of paragraph (a) “you have” and adding “there are” in its place; revising the first sentence in paragraph (d); and removing from paragraph (e) the word “you”, effective Oct. 19, 2009. For the convenience of the user, the revised text is set forth as follows:

514.270–6 Guidelines for using the weight factors method.

(d) Estimated quantities may be reduced to smaller numbers by a common denominator.

* * * * *

514.270–7 Guidelines for using the price list method.

(a) General. The price list method helps avoid unbalanced bidding when you need to make aggregate awards, but lack accurate estimates of anticipated quantities. This method establishes base prices for bidders to use in preparing their bids.

(b) Solicitation requirements. When you use the price list methods, in the solicitation:

(1) Include the price list.

(2) Include an estimate of requirements.

(3) Require the bidder to express its price as “net” or as a percentage added to or subtracted from the list prices for each group. This means that the bidder provides one percentage factor that applies to every item in a group; not a separate percentage for each item. “Net” indicates the bidder chooses to submit the list prices as its bid.

(4) Identify the percentage factor in paragraph (b)(3) of this section as a price related evaluation factor.

(c) Developing list prices. You may develop price lists using one or more of the following sources:

(1) Industry published prices.

(2) Industry surveys.

(3) Government cost estimates based on knowledge of the supplies or services and previous contract prices.

(d) First time use for an item or service. The first time you use list prices for an item or service, give prospective bidders an opportunity to review the proposed list. Also provide information on how GSA will use the list prices. You may provide this information in a draft solicitation.

(e) Balanced prices. Ensure that the list prices for the grouped items bear a reasonable and balanced relationship to one another. You may use prices from previous awards made using the weight factors method to develop price lists. Review those prices first to ensure they did not result from unbalanced bidding.

(f) Evaluation and award. Consider all price-related factors identified in the solicitation. Award to the responsive and responsible bidder whose percentage factor produces the most favorable price to the Government. This represents the most advantageous bid.

(g) Example. The following illustrates a bidding schedule arrangement for a group of items for aggregate award under the price list method:

The bid on each item above is the list price shown minus/plus ___ percent. (Bidder, insert “net” or a single percentage amount in the blank space and cross out minus or plus, as appropriate.)
(h) Special considerations for contracts for store stock items. Show estimated quantities only if estimates of demand for each item within a group can be derived from Government records or verified contractor sales reports. Use only current estimates. If you cannot estimate the Government's needs, the solicitation may include past orders. (See CG Decision, B-209037, 82-2 CPD para 323 (1982).)

(i) Special considerations for repair and alteration contracts. In the solicitation:

1. List the estimated quantities for work to be performed during both normal working hours and outside of normal working hours.

2. State the percent of work anticipated to be performed during normal working hours.

3. List the unit prices for work to be performed during both normal working hours and outside of normal working hours.

4. Define "normal" in terms of hours and days of the week.

5. Advise bidders of the previous year's total expenditures or portions of that total attributable to the listed items.

6. If you provide quantity estimates, state that the estimates are for information only and do not constitute guarantees or commitments to order items under the contract.

7. Solicit two percentage factors for the line item unit prices listed: one for the unit prices for work performed during normal working hours and the second for the unit prices for work performed outside of normal working hours.

8. You may require multiple percentages when the solicitation further groups unit prices by trade or business category.

9. For the evaluated bid price, add together the following percentages:

   (i) The percentage of work performed during normal work hours multiplied by the total estimate adjusted by the bidder’s percentage factor for that portion of the work, plus

   (ii) The percentage of work performed during other than normal working hours multiplied by the total estimate adjusted by the bidder’s percentage factor for that portion of the work.

10. Consider other price-related factors identified in the solicitation. Make award to the responsible and responsive bidder submitting the lowest overall evaluated bid price for the aggregate group. This represents the most advantageous bid.

Effective Date Note: At 74 FR 47739, Sept. 17, 2009, section 514.270–7 was amended by revising the first sentence in paragraph (a); revising the introductory text of paragraphs (b) and (c); revising paragraph (d); revising the second sentence of paragraph (e); revising the third sentence in paragraph (h); and revising paragraphs (i)(6) and (i)(8), effective Oct. 19, 2009. For the convenience of the user, the revised text is set forth as follows:

514.270–7 Guidelines for using the price list method.

1. * * *

(a) For other than multiple award schedule (MAS) contracts, insert the clause at 552.215–70, Examination of Records by GSA, in solicitations and contracts over $100,000, including acquisitions of leasehold interests in real property, that meet any of the following conditions:

(1) Involve the use or disposition of Government-furnished property.

(2) Provide for advance payments, progress payments based on cost, or guaranteed loan.

(3) Contain a price warranty or price reduction clause.

(4) Contain the provision of FAR 52.223–4, Recovered Material Certification.

(b) You may modify the clause at 552.215–70 to define the specific area of audit (e.g., the use or disposition of Government-furnished property, compliance with the price reduction clause). Counsel and the Assistant Inspector General—Auditing or Regional Inspector General—Auditing, as appropriate, must concur in any modifications to the clause.

Clause for Multiple Award Schedules

(c) Insert the clause at 552.215–71, Examination of Records by GSA (Multiple Award Schedule), in solicitations and contracts for MAS contracts.

(d) With the Senior Procurement’s Executive approval, you may modify the clause at 552.215–71 to provide for post-award access to and the right to examine records to verify that the pre-award/modification pricing, sales or other data related to the supplies or services offered under the contract which formed the basis for the award/modification was accurate, current, and complete. The following procedures apply:

(1) Such a modification of the clause must provide for the right of access to expire 2 years after award or modification.

(2) Before modifying the clause, you must make a determination that absent such access there is a likelihood of significant harm to the Government and submit it to the Senior Procurement Executive for approval.

(3) The determinations under paragraph (d)(2) of this section must be made on a schedule-by-schedule basis.

Subpart 515.3—Source Selection

515.305 Proposal evaluation.

(a) Restrictions placed on a proposal by the submitter. If you receive a proposal with more restrictive conditions than those in the provision at FAR 52.215–1(e), ask whether the submitter is willing to accept the conditions of the paragraph at FAR 52.215–1(e). If the submitter refuses, consult with legal counsel on whether to accept the proposal as marked or return it.
515.305–70 Use of outside evaluators.

(a) Conditions. To use outside evaluators, you must meet the restrictions in FAR 37.203 and 537.2.

(b) Limitations on disclosing proposal information. You may disclose proposal information outside the Government before the Government’s decision as to contract award only to the extent authorized in this section. Disclosure and handling must comply with FAR 3.1 and 503.1.

(c) Solicitation notice. Include in the solicitation a notice substantially as follows:

NOTICE ABOUT RELEASING PROPOSALS

Conflict of Interest Acknowledgment and Nondisclosure Agreement

For proposals submitted in response to GAS solicitation no. _______, I agree to the following:

(a) To the best of my knowledge and belief, no conflict of interest exists that may either:

(1) Diminish my capacity to impartially review the proposals submitted.

(2) Or result in a biased opinion or unfair advantage.

(b) In making the above statement, I have considered all the following factors that might place me in a position of conflict, real or apparent, with the evaluation proceedings:

(1) All my stocks, bonds, other outstanding financial interests or commitments.

(2) All my employment arrangements (past, present, and under consideration).

(3) As far as I know, all financial interests and employment arrangements of my spouse, minor children, and other members of my immediate household.

(d) I have a continuing obligation to disclose any circumstances that may create an actual or apparent conflict of interest. If I learn of any such conflict, I will report it immediately to the Contracting Officer. I will perform no more duties related to evaluating proposals until I receive instructions on the matter.

(e) I will use proposal information for evaluation purposes only. I understand that any authorized restriction on disclosure placed on the proposal by the prospective contractor, prospective subcontractor, or the Government applies to any reproduction or abstracted information of the proposal.

(f) I will use my best efforts to safeguard proposal information physically. I will not

Subpart 515.4—Contract Pricing 515.408 Solicitation provisions and contract clauses.

MAS REQUESTS FOR INFORMATION OTHER THAN COST OR PRICING DATA

(a) You should use Alternative IV of the FAR provision at 52.215–20, Requirements for Cost or Pricing Data or Information Other than Cost or Pricing Data, for MAS contracts to provide the format for submission of information other than cost or pricing data for MAS contracts. To provide uniformity in request under the MAS program, you should insert the following in paragraph (b) of the provision:

1. An offer prepared and submitted in accordance with the clause at 52.212–70, Preparation of Offer (Multiple Award Schedule).

2. Commercial sales practices. The Offeror shall submit information in the format provided in this solicitation in accordance with the instructions at Figure 515.4 of the GSA Acquisition Regulation (48 CFR 515–2), or submit information in the Offeror’s own format.

3. Any additional supporting information requested by the Contracting Officer. The Contracting Officer may require additional supporting information, but only to the extent necessary to determine whether the price(s) offered is fair and reasonable.

4. By submission of an offer in response to this solicitation, the Offeror grants the Contracting Officer or an authorized representative the right to examine, at any time before initial award, books, records, documents, papers, and other directly pertinent records to verify the pricing, sales and other data related to the supplies or services proposed in order to determine the reasonableness of price(s). Access does not extend to Offeror’s cost or profit information of other data relevant solely to the Offeror’s determination of the prices to be offered in the catalog or marketplace.

(b) Insert the following format for commercial sales practices in the exhibits or attachments section of the solicitation and resulting contract (see FAR 12.303).

COMMERCIAL SALES PRACTICES FORMAT

Name of Offeror ________ SIN(s) ________

NOTE: Please refer to Clause 522.212–70, Preparation of Offer (Multiple Award Schedule), for additional information concerning your offer. Provide the following information for each SIN (or group of SINs or SubSIN for which information is the same).

1. Provide the dollar value of sales to the general public at or based on an established catalog or market price during the previous 12-month period or the offerors last fiscal year: $________. State beginning and ending of the 12 month period. Beginning ________. Ending ________. In the event that a dollar value is not an appropriate measure of the sales, provide and describe your own measure of the sales of the item(s).

2. Show your total projected annual sales to the Government under this contract for the contract term, excluding options, for each SIN offered. If you currently hold a Federal Supply Schedule contract for the SIN the total projected annual sales should be based on your most recent 12 months of sales under that contract.

SIN ________ $ ________

3. Based on your written discounting policies (standard commercial sales practices in the event you do not have written discounting policies), are the discounts and any
concessions which you offer the Government equal to or better than your best price (discount and concessions in any combination) offered to any customer acquiring the same items disclosed in the above chart ever result in better discounts (lower prices) or concessions than indicated? YES NO. (See definition of “concession” and “discount” in 552.212-70.)

(4)(a) Based on your written discounting policies (standard commercial sales practices), provide information as requested for each SIN (or group of SINs for which the information is the same) in accordance with the instructions at Figure 515.4, which is provided in this solicitation for your convenience. The information should be provided in the chart below or in an equivalent format developed by the offeror. Rows should be added to accommodate as many customers as required.

(c) Include the instructions for completing the commercial sales practices format in Figure 515.4 in solicitations issued under the MAS program.

**FIGURE 515.4—INSTRUCTIONS FOR COMMERCIAL SALES PRACTICES FORMAT**

If you responded “yes” to question (3), on the Commercial Sales Practices Format in paragraph (b) of this section, complete the chart in question (4)(a) for the customer(s) who receive your best discount. If you responded “no”, complete the chart in question (4)(a) showing your written policies or standard sales practices for all customers or customer categories to whom you sell at a price (discounts and concessions in combination) that is equal to or better than the price(s) offered to the Government under this solicitation or with which the Offeror has a current agreement to sell at a discount which equals or exceeds the discount(s) offered under this solicitation. Such agreement shall be in effect on the date the offer is submitted or contain an effective date during the proposed multiple award schedule contract period. If your offer is lower than your price to other customers or customers categories, you will be aligned with the customer or category of customer that receives your best price for purposes of the Price Reductions clause at 552.238-75. The Government expects you to provide information required by the format in accordance with these instructions that is, to the best of your knowledge and belief, current, accurate, and complete as of 14 calendar days prior to its submission. You must also disclose any changes in your price list(s), discounts and/or discounting policies which occur after the
offer is submitted, but before the close of negotiations. If your discount practices vary by model or product line, the discount information should be by model or product line as appropriate. You may limit the number of model or product lines reported to those which exceed 75% of actual historical Government sales (commercial sales may be substituted if Government sales are unavailable) value of the special item number (SIN).

**COLUMN 1—IDENTIFY THE APPLICABLE CUSTOMER OR CATEGORY OF CUSTOMER**

A “customer” is any entity, except the Federal Government, which acquires supplies or services from the Offeror. The term customer includes, but is not limited to original equipment manufacturers, value added resellers, state and local Governments, distributors, educational institutions (an elementary, junior high, or degree granting school which maintains a regular faculty and established curriculum and an organized body of students), dealers, national accounts, and end users. In any instance where the Offeror is asked to disclose information for a customer, the Offeror may disclose information by category of customer if the Offeror’s discount policies or practices are the same for all customers in the category. (Use a separate line for each customer or category of customer.)

**COLUMN 2—IDENTIFY THE DISCOUNT**

The term “discount” is as defined in solicitation clause 552.212-70, Preparation of Offer (Multiple Award Schedule). Indicate the best discount (based on your written discounting policies or standard commercial discounting practices if you do not have written discounting policies) at which you sell to the customer or category of customer identified in column 1, without regard to quantity; terms and conditions of the agreements under which the discounts are given; and whether the agreements are written or oral. Net prices or discounts off of other price lists should be expressed as percentage discounts from the price list which is the basis of your offer. If the discount disclosed is a combination of various discounts (prompt payment, quantity, etc.), the percentage should be broken out for each type of discount. If the price lists which are the basis of the discounts given to the customers identified in the chart are different than the price list submitted upon which your offer is based, identify the type or title and date of each price list. The contracting officer may require submission of these price lists. To expedite evaluation, offerors may provide these price lists at the time of submission.

**COLUMN 3—IDENTIFY THE APPLICABLE CUSTOMER OR CATEGORY OF CUSTOMER**

Insert the minimum quantity or sales volume which the identified customer or category of customer must either purchase/ order, per order or within a specified period, to earn a discount indicate the time period.

**COLUMN 4—INDICATE THE FOB DELIVERY TERM FOR EACH IDENTIFIED CUSTOMER**

See FAR 47.3 for an explanation of FOB delivery terms.

**COLUMN 5—INDICATE CONCESSIONS REGARDLESS OF QUANTITY GRANTED TO THE IDENTIFIED CUSTOMER OR CATEGORY OF CUSTOMER**

Concessions are defined in solicitation clause 552.12-70, Preparation of Offers (Multiple Award Schedule). If the space provided is inadequate, the disclosure should be made on a separate sheet by reference.

If you respond “yes” to question 4(b) in the Commercial Sales Practices Format, provide an explanation of the circumstances under which you deviate from your written policies or standard commercial sales practices disclosed in the chart on the Commercial Sales Practices Format and explain how often they occur. Your explanation should include a discussion of situations that lead to deviations from standard practice, an explanation of how often they occur, and the controls you employ to assure the integrity of your pricing. Examples of typical deviations may include, but are not limited to, one time good will discounts to charity organizations or to compensate an otherwise disgruntled customer; a limited sale of obsolete or damaged goods; the sale of sample goods to a new customer; or the sales of prototype goods for testing purposes.

If deviations from your written policies or standard commercial sales practices disclosed in the chart on the Commercial Sales Practices Format are so significant and/or frequent that the Contracting Officer cannot establish whether the price(s) offered is fair and reasonable, then you may be asked to provide additional information. The Contracting Officer may ask for information to demonstrate that you have made substantial sales of the item(s) in the commercial market consistent with the information reflected on the chart on the Commercial Sales Practices Format, a description of the conditions surrounding those sales deviations, or other information that may be necessary in order for the Contracting Officer to determine whether your offered price(s) is fair and reasonable. In cases where additional information is requested the Contracting Officer will target the request in order to limit the submission of data to that needed to establish the reasonableness of the offered price.
(d) Insert the clause at 552.215–72, Price Adjustment—Failure to Provide Accurate Information, in solicitations and contracts under the MAS program.

(e) You should use Alternate IV of FAR 52.215–21, Requirements for Cost or Pricing Data or Information Other Than Cost or Pricing Data—Modifications, to provide for submission of information other than cost or pricing data for MAS contracts. To provide for uniformity in requests under the MAS program, you should insert the following in paragraph (b) of the clause:

(1) Information required by the clause at 552.243–72, Modifications (Multiple Award Schedule).

(2) Any additional supporting information requested by the Contracting Officer. The Contracting Officer may require additional supporting information, but only to the extent necessary to determine whether the price(s) offered is fair and reasonable.

(3) By submitting a request for modification, the Contractor grants the Contracting Officer or an authorized representative the right to examine, at any time before agreeing to a modification, books, records, documents, papers, and other directly pertinent records to verify the pricing, sales and other data related to the supplies or services proposed in order to determine the reasonableness of price(s). Access does not extend to Contractor’s cost or profit information or other data related solely to the Contractor’s determination of the prices to be offered in the catalog or marketplace.

Subpart 515.5—Preaward, Award, and Postaward Notifications, Protests, and Mistakes

515.506 Postaward debriefing of offerors.

For purposes of determining the date of receipt of a request for a post award debriefing, GSA’s hours of operation are 8:00 a.m. to 4:30 p.m. Request received after 4:30 p.m. will be considered received the following business day.

Subpart 515.70—Use of Samples

515.7002 Procedures.

(a) Unsolicited samples. The reference to FAR 14.404–2(d) in FAR 14.202–4(g) does not apply.

However, qualifications in the proposal that are at variance with the Government’s requirements, constitute deficiencies. Resolve these as provided in FAR 15.306.

(b) Solicitation requirements. (1) Use the clause at FR 52.214–20. The second sentence in paragraph (c) of the clause does not apply. Substitute a sentence substantially as follows:

Failure of the bid samples to conform to all the required characteristics listed in the solicitation constitutes a deficiency in the proposal (see FAR 15.306).

(2) In addition to listing subjective characteristics that you cannot adequately describe in the specification, you may list and evaluate objective characteristics. To include objective characteristics, you must determine that examination of such characteristics is essential to the acquisition of any acceptable product. Base your determination on past experience or other valid considerations.

(c) FAR 52.215–1(c)(3) applies to samples received after the time set for receipt of offers.

PART 516—TYPES OF CONTRACTS

Subpart 516.2—Fixed Price Contracts

Sec. 516.203–4 Contract clauses.

Subpart 516.5—Indefinite-Delivery Contracts

516.506 Solicitation provisions and contract clauses.

Subpart 516.6—Time-and-Materials, Labor-Hour, and Letter Contracts

516.603 Letter contracts.

516.603–3 Limitations.

Authority: 40 U.S.C. 121(c).

Source: 64 FR 37218, July 9, 1999, unless otherwise noted.

Subpart 516.2—Fixed Price Contracts

516.203–4 Contract clauses.

(a) Multiple award schedules. Do not use FAR 52.216–2, 52.216–3, or 52.216–4 in negotiated acquisitions based on discounts from established commercial catalogs or pricelists. Instead, use:

(1) 552.216–70, Economic Price Adjustment—FSS Multiple Award Schedule
Contracts, in a 1-year solicitation or contract.
(2) 552.216-70 (Alternate I) in multiyear solicitations and contracts.

(b) Stock or Special Order Program Contracts. In multiyear solicitations and contracts, after making the determination required by FAR 16.203-2, use 552.216-71, Economic Price Adjustment—Stock and Special Order Program Contract, or a clause prepared as authorized in paragraph (a)(2)(i) of this subsection.

(1) If the contract includes one or more options to extend the term of the contract, use the clause with its Alternate I or a clause substantially the same as 552.216-71 with its Alternate I suitably modified.

(2) In a contract requiring a minimum adjustment before the price adjustment mechanism is effectuated, use the basic clause with Alternate II or with Alternate I and Alternative II.

(3) If the Producer Price Index is not an appropriate indicator for price adjustment, modify the clause to use an alternate indicator for adjusting prices. Similarly, if other aspects of 552.216-71 are not appropriate, use an alternate clause following established procedures.

(c) Adjustments based on cost indexes of labor or material. (1) If you decide to provide for adjustments based on cost indexes of labor or material, prepare a clause that defines each of the following elements:
   (i) The type of labor and/or material subject to adjustment.
   (ii) The labor rates, including any fringe benefits and/or unit prices of materials that may be increased or decreased.
   (iii) The index(es) that will be used to measure changes in price levels and the base period or reference point from which changes will be measured.
   (iv) The period during which the price(s) will be subject to adjustment.
   (2) The contracting director must approve use of this clause.
(b) **Contents of each letter contract.** You must include the following information in the letter contract:

(1) **The scope.** If you include the design effort, only authorize the A-E to perform those services that are independent of the design effort (for example, feasibility studies, existing facility surveys or site investigation, etc.). Do not authorize the A-E to begin the design effort before the letter contract is definitized.

(2) **A definitization schedule.** Include dates for each of the following:
   (i) Submission of the design fee proposal.
   (ii) Start of negotiations.
   (iii) Definitization. This date must be no later than 90 days after the date of the letter contract.

(3) **A limitation on the Government’s liability for the non-design effort to be performed under the contract.** Insert this amount in FAR 52.216–24, Limitation of Government Liability.

(c) **Unilateral price decision.** If you must issue a unilateral price decision, the maximum contract amount must not exceed a reasonable price for the excludable items plus the 6 percent statutory fee limitation for the project.

**PART 517—SPECIAL CONTRACTING METHODS**

Subpart 517.1—Multiyear Contracting

Sec. 517.102 Use of options.

(a) **Supplies or services.** You should use options when they meet one or more of the following objectives:
   (i) Reduce procurement lead time and associated costs.
   (ii) Ensure continuity of contract support.
   (iii) Improve overall contractor performance.
   (iv) Facilitate longer term contractual relationships with those contractors that continually meet or exceed quality performance expectations.

(b) **An option is normally in the Government’s interest in the following circumstances:**
   (i) You anticipate a need for additional supplies or services during the contract term.
   (ii) Multiyear contracting authority is not available or its use is inappropriate and you anticipate a need for additional supplies or services beyond the initial contract term.
   (iii) There is a need for continuity of supply or service support.
   (iv) Funds are not available for the entirety of the Government’s needs, but are likely to become available during the contract term.
   (v) The initial contract will be used to evaluate the performance of an emerging small business.
(3) Do not use an option if the market price is likely to change substantially and an economic price adjustment clause inadequately protects the Government’s interest.

(b) Construction. For limitations on the use of options, see 536.213 and 536.270.

517.203 Solicitations.

A solicitation that includes an option to extend should inform offerors that the contract could result in a long term contractual relationship subject to both of the following conditions:

(a) Continuing need by GSA.

(b) Level of contract performance that at least meets GSA’s quality performance expectations.

517.207 Exercise of options.

Before exercising an option, you must:

(a) Synopsize it unless you meet of the following conditions:

1) The option was evaluated as part of the original competition.

(b) Conclude that the contractor’s performance under the contract met or exceeded the Government’s expectation for quality performance, unless another circumstance justifies an extended contractual relationship.

(c) Determine that the option price is fair and reasonable.

517.208 Solicitation provisions and contract clauses.

(a) For solicitations under FSS’s Stock or Special Order Program, insert a provision substantially the same as the provision at 552.217-70, Evaluation of Options, if both of the following conditions apply:

1) The solicitation contains an option to extend the term of the contract.

2) The contract will be fixed price and contain an economic price adjustment clause.

(b) Insert the provision at 552.217-71, Notice Regarding Option(s), or a similar provision, in solicitations that include an option for increased quantities of supplies or services or an option to extend.

(i) sealed bid solicitations if you cannot establish target goals.

(a) Mentor as used in the GSA Mentor-Protégé Program, is a prime contractor that elects, on a specific GSA contract, to promote and develop small business subcontractors by providing developmental assistance designed to enhance the business success of the protégé.

(b) Mentor-Protégé Program Manager means an employee in the Office of Small Business Utilization (OSBU) (E) designated by the Associate Administrator of OSBU to manage the Mentor-Protégé Program.

(c) Protégé as used in the GSA Mentor-Protégé Program is a small business concern that is the recipient of developmental assistance pursuant to a mentor-protégé arrangement on a specific GSA contract.

519.7003 General policy.

(a) A large business prime contractor that meets the requirements at section 519.7006, and is approved as a mentor firm by the Mentor-Protégé Program Manager, may enter into an Agreement with a small business concern, small disadvantaged business concern, women-owned small business concern, veteran-owned small business concern, service-disabled veteran-owned small business concern or HUBZone small business concern that meets the requirements for being a protégé (see 519.7007) in order to provide appropriate developmental assistance to enhance the capabilities of the protégé to perform successfully as a subcontractor and supplier.

(b) A small business prime contractor that is capable of providing developmental assistance to protégés, may also be approved as a mentor.

(c) An active mentor-protégé arrangement requires the protégé to either be a current or newly selected subcontractor under the mentor’s prime contract with GSA.

(d) A small business concern’s status as a protégé under a GSA contract shall not have an effect on its ability
519.7004 Incentives for prime contractors.

(a) Under the Small Business Act, 15 U.S.C. 637(d)(4)(E), the GSA is authorized to provide appropriate incentives to prime contractors in order to encourage subcontracting opportunities for small business concerns consistent with the efficient and economical performance of the contract. This authority is limited to negotiated procurements, including the GSA Multiple Award Schedule contracts and the GSA Governmentwide Acquisition Contracts. It does not include orders under any GSA contracts.

(b) Costs incurred by a mentor to provide developmental assistance, as described in section 519.7012 to fulfill the terms of their agreement(s) with a protégé firm(s), are not reimbursable as a direct cost under a GSA contract. If GSA is the mentor’s responsible audit agency under FAR 42.703-1, GSA will consider these costs in determining indirect cost rates. If GSA is not the responsible audit agency, mentors are encouraged to enter into an advance agreement with their responsible audit agency on the treatment of such costs when determining indirect cost rates.

(c) In addition to paragraph (b) of this section, contracting officers may give mentors evaluation credit during the source selection process for subcontracting plans submitted in previous contracts as a factor in evaluating past performance under certain circumstances (see FAR 15.304(c)(3) and 15.305(a)(2)(v)) and determining contractor responsibility FAR section 19.705-5(a)(1).

(d) OSBU Mentoring Award. A non-monetary award may be presented annually to the mentoring firm providing the most effective developmental support of a protégé. The Mentor-Protégé Program Manager will recommend an award winner to the Administrator of GSA.

(e) OSBU Mentor-Protégé Annual Conference. At the conclusion of each year in the Mentor-Protégé Program, mentor firms will be invited to brief contracting officers, program leaders, office directors, and other guests on their experience and progress under the Program. Participation is voluntary.

519.7005 Measurement of program success.

The overall success of the GSA Mentor-Protégé Program encompassing all participating mentors and protégés will be measured by the extent to which it results in:

(a) An increase in the number, dollar value, and percentage of subcontracts awarded to protégés by mentor firms under GSA contracts since the date of entry into the Program. The baseline that demonstrates an increase is determined by comparing the number and total dollar amount of subcontract awards made to the identified protégé firm(s) during the two preceding fiscal years (if any) that are listed in application;

(b) An increase in the number and dollar value of contract and subcontract awards (including percentage of subcontract awards) to protégé firms since the date of the protégé’s entry into the Program (under GSA contracts and contracts awarded by other Federal agencies);

(c) An increase in the number and dollar value of subcontracts awarded to a protégé firm by its mentor firm; and

(d) An increase in subcontracting with protégé firms in industry categories where they have not traditionally participated within the mentor
firm's activity (i.e., the protégé is expanding its field of expertise or is increasing its opportunities in areas where it has not traditionally performed).

(e) Assessments of the semi-annual reports submitted by the mentors and “Lessons Learned” evaluation submitted by the mentors and protégés to the GSA Mentor-Protégé Program Manager.

519.7006 Mentor firms.

(a) Mentors must be:
(1) A large business prime contractor that is currently performing under an approved subcontracting plan as required by FAR 19.7 - Small business mentors are exempted; or

(c) Must be able to provide developmental assistance that will enhance the ability of protégés to perform as contractors and subcontractors; and

(d) Must provide semi-annual reports detailing the assistance provided and the cost incurred in supporting protégés.

519.7007 Protégé firms.

(a) For selection as a protégé, a firm must be:
(1) A small business concern, small disadvantaged business concern, veteran-owned small business concern, service-disabled veteran-owned small business concern, HUBZone small business concern, or women-owned small business concern;

(3) Eligible (not listed in the “Excluded Parties List System”) for U.S. Government contracts and not excluded from the Mentor-Protégé Program under section 519.7014(b).

(b) A protégé firm may self-represent to a mentor firm that it meets the requirements set forth in paragraph (a) of this section. Mentors may check the Central Contractor Registration (CCR) at www.ccr.gov to verify that the self-representation of the potential protégé meets the specified small business and socioeconomic category eligibility requirements (see FAR 19.703(b) and (d)). HUBZone and small disadvantaged business status eligibility and documentation requirements are determined according to 13 CFR parts 124 and 126.

(c) A protégé firm must not have another formal, active mentor-protégé relationship under GSA’s Mentor-Protégé Program but may have an active mentor-protégé relationship under another agency’s program.

519.7008 Selection of protégé firms.

(a) Mentor firms will be solely responsible for selecting protégé firms. Mentors are encouraged to select from a broad base of small business concerns including small disadvantaged business concerns, women-owned small business concerns, veteran-owned small business concerns, service-disabled veteran-owned small business concerns, and HUBZone small business concerns. A protégé must be either a current subcontractor or a newly selected subcontractor for the prime contractor's GSA contract.

(b) Mentor firms may have more than one protégé. GSA reserves the right to limit the number of protégés participating under each mentor firm.

(c) The selection of protégé firms by mentor firms is not protestable, except for a protest regarding the size or eligibility status of an entity selected by a mentor to be a protégé. Such protests shall be handled in accordance with FAR 19.703(b). The contracting officer shall notify the Office of Small Business Utilization (OSBU) of the protest.

519.7009 Application process.

(a) Prime contractors interested in becoming a mentor firm must apply in writing by submitting the GSA Form 3695 to the GSA Mentor-Protégé Program Manager, at GSA Office of Small Business Utilization (E), Washington, DC 20405.    (6) Agreement information as listed in 519.7010.

519.7010 Agreement contents.

(k) The protégé must agree to provide input into the mentor firm’s semiannual reports (see 519.7015). The protégé must submit a “Lessons Learned” evaluation along with the mentor firm at the conclusion of the Mentor-Protégé agreement.
519.7011 Application review.

(a) The Mentor-Protege Program Manager will review the information specified in section 519.7009(b) and 519.7010 to establish the Mentor’s and Protege’s eligibility and to ensure all necessary information is included. If the application relates to a specific contract, then the Mentor-Protege Program Manager will consult with the applicable contracting officer regarding the adequacy of the proposed Agreement, as appropriate. The Mentor-Protege Program Manager will complete its review no later than 30 days after receipt of the application. The contracting officer must provide feedback to the Program Manager no later than 10 days after receipt of the application.

(b) After the Mentor-Protege Program Manager completes its review and provides written approval, the Mentor may execute the Agreement and implement the developmental assistance as provided under the Agreement. The Mentor-Protege Program Manager will provide a copy of the Mentor-Protege Agreement to the GSA contracting officer for any GSA contracts affected by the Agreement.

(c) The Agreement defines the relationship between the Mentor and the Protege firms only. The Agreement itself does not create any privity of contract or contractual relationship between the Mentor and GSA nor the Protege and GSA.

(d) If the Agreement is disapproved, the Mentor may provide additional information for reconsideration. The Mentor-Protege Program Manager will complete the review of any supplemental information no later than 30 days after its receipt. Upon finding deficiencies that GSA considers correctable, the Mentor-Protege Program Manager will notify the Mentor and Protege and request correction of the deficiencies to be provided within 15 days.

519.7012 Developmental assistance.

The forms of developmental assistance a mentor can provide to a protege include:

(a) Management guidance relating to—

(1) Financial management;
(2) Organizational management;

The mentor will notify the Mentor-Protege Program Manager and the contracting officer, in writing, at least 30 days in advance of the mentor firm’s intent to voluntarily withdraw from the Program or to terminate the Agreement, or upon receipt of a protege’s notice to withdraw from the Program.

(b) Mentor and protege firms will submit a “Lessons Learned” evaluation to the GSA Mentor-Protege Program Manager at the conclusion or termination of each Mentor-Protege Agreement or withdrawal from the Mentor-Protege program.

519.7014 Internal controls.

(a) The GSA Mentor-Protege Program Manager will manage the Program. Internal controls will be established by the Mentor-Protege Program Manager to achieve the stated Program objectives (by serving as checks and balances against undesired actions or consequences) such as:

(1) Reviewing and evaluating mentor Applications for realism, validity and accuracy of provided information;
(2) Monitoring each Mentor-Protege Agreement by reviewing semi-annual progress reports submitted by mentors and proteges on protege development
to measure protégé progress against the master plan contained in the approved Agreement;
(3) Monitoring milestones in the Agreement (see 519.7010); and
(4) Evaluating “Lessons Learned” submitted by the Mentor and the Protégé as required by section 519.7013 to improve the GSA Mentor-Protégé Program.

(b)(1) GSA has the authority to exclude mentor or protégé firms from participating in the GSA Program.
(2) GSA may rescind approval of an existing Mentor-Protégé Agreement if it determines that such action is in GSA’s best interest. The rescission shall be in writing and sent to the Mentor and protégé after approval by the Director of OSBU. Rescission of an Agreement does not change the terms of any subcontract between the Mentor and the Protégé.
(3) Exclusion from the Program does not constitute a termination of the subcontract between the mentor and the protégé.

519.7015 Reports.
(a) Semi-annual reports shall be submitted by the mentor to the GSA Mentor-Protégé Program manager to include information as outlined in section 552.219–76(c).
(b) Protégés must agree to provide input into the mentor firm’s semi-annual reports detailing the assistance provided and goals achieved since agreement inception. However, for cost reimbursable contracts, costs associated with the preparation of these reports are unallowable costs under these Government contracts and will not be reimbursed by the Government.
(c) The GSA contracting officer, or if applicable the technical program manager, shall include an assessment of the prime contractor’s (mentor’s) performance in the Mentor-Protégé Program in a quarterly “Strengths and Weaknesses” evaluation report. A copy of this assessment will be provided to the Mentor-Protégé Program Manager and to the mentor and protégé.

519.7016 Program review.
At the conclusion of each year in the Mentor-Protégé Program (anniversary date of the Mentor-Protégé Program), the prime contractor and protégé, as appropriate, will formally brief the GSA Mentor-Protégé Program Manager, the technical program manager, and the contracting officer regarding Mentor-Protégé Program accomplishments pertaining to the approved Agreement.

(b) The contracting officer shall insert the clause at 552.219–76, Mentor Requirements and Evaluation, in contracts anticipated to exceed the simplified acquisition threshold where the prime contractor has signed a Mentor-Protégé Agreement with GSA.

532.905 Invoice payments.

(a) General and architect-engineer contracts. Before exercising the authority to modify the date for constructive acceptance or constructive approval of progress payments in the clauses listed in this section, you must prepare a written justification explaining why a longer period is necessary. An official one level above you must approve your justification. Determine the time needed on a case-by-case basis.

(1) In subdivision (a)(6)(i) of the clause at FAR 52.232–25, Prompt Payment, do not specify a constructive acceptance period that exceeds 30 days.

(2) In subdivision (a)(4)(i)(A) of the clause at FAR 52.232–26, Prompt Payment for Fixed-Price Architect-Engineer Contracts, do not specify a constructive acceptance period that exceeds 30 days.

(3) In subdivision (a)(4)(i)(B) of the clause at FAR 52.232–26, Prompt Payment for Fixed-Price Architect-Engineer Contracts, do not specify a period for constructive approval of progress payments that exceeds 7 days.

(b) Construction contracts. (1) Determine on a case-by-case basis the time specified for payment of progress payments in subdivision (a)(1)(i)(A) of the clause at FAR 52.232–27, Prompt Payment for Construction Contracts. Justify in writing periods longer than 14 days. An official one level above you must approve your justification. Under no circumstances may more than 30 days be specified.

(2) Determine the time to be specified in subdivision (a)(4)(i) of FAR clause
52.232-27. for constructive acceptance or approval, on a case-by-case basis. This time may not exceed 7 days unless you justify a longer period in writing, and obtain the approval of an official one level above you. Under no circumstances may more than 30 days be specified.

(c) Federal Supply Service. (1) To increase efficiency and reduce costs to the Government, Federal Supply Service contracts under the Stock, Special Order, and Schedules Programs may authorize payment within 10 days of receipt of a proper invoice. The contractor must meet all the following conditions:
   (i) The contractor agrees to full cycle electronic commerce.
   (ii) The contract includes FAR 52.232-33, Mandatory Information for Electronic Funds Transfer Payment.

(2) The 10 day payment terms apply to each order that meets all the following conditions:
   (i) FSS places the order using EDI in accordance with the Trading Partner Agreement.
   (ii) The contractor submits EDI invoices in accordance with the Trading Partner Agreement or invoices through the GSA Finance Center Internet-based invoice process.
   (iii) A GSA Finance Center pays the invoices using EFT.

(3) The 10 day payment terms do not apply to any order:
   (i) Placed by a GSA contracting activity other than FSS.
   (ii) Placed by or paid by another agency.

532.905-70 Certification of payment to subcontractors and suppliers under fixed-price construction contracts.

The contractor may use GSA Form 2419, Certification of Progress Payments Under Fixed-Price Construction Contracts, for the certification required by FAR 52.232-5.

532.905-71 Final payment—construction and building service contracts.

The following procedures apply to construction and building service contracts.

(a) Do not process the final payment on construction or building service contracts until the contractor submits a properly executed GSA Form 1142, Release of Claims. If, after repeated attempts, you are unable to obtain a release of claims from the contractor, you may process the final payment with the approval of assigned legal counsel.

(b) The amount of final payment must include, as appropriate, deductions to cover any of the following:
   (1) Liquidated damages for late completion.
   (2) Liquidated damages for labor violations.
   (3) Amounts withheld for improper payment of labor wages.
   (4) The amount of unilateral change orders covering defects and omissions.

532.908 Contract clauses.

(a) Federal Supply Service. For FSS Stock, Special Order, and Schedules solicitations and contracts that provide payment in 10 days under 532.905(c):
   (1) If the contract will include FAR 52.212-4 insert the clause at 552.232-74, Invoice Payments. GSA received a class deviation to allow use of 552.232-74 for commercial items.

   (2) If the contract will not include FAR 52.212-4, insert 552.232-25, Prompt Payment, instead of FAR 552.232-25.

(b) Leasehold Interests in Real Property.
   (1) Insert 552.232-75, Prompt Payment, in solicitations and contracts for acquiring leasehold interests in real property.

   (i) You may modify the date for constructive acceptance in subparagraph (b)(2) of the clause to specify a period longer than 7 calendar days (but not to exceed 30 days) if necessary because of the nature of the services to be received, inspected or accepted by the Government. Prepare a written justification for specifying the longer period and obtain your contracting director’s approval.

   (ii) Use Alternate I if the lease contract does not contain provisions for ordering alterations or overtime utility services.

   (2) Insert 552.232-76, Electronic Funds Transfer Payment, in solicitations and contracts for acquisition of leasehold interests in real property.

(c) Solicitations, purchase orders, contracts, and leases over the micropurchase threshold. Insert 552.232-78, Payment Information:
(1) In all solicitations, purchase orders, and contracts, including acquisitions of leasehold interests in real property.
(2) In task and delivery orders if the contract that the order is placed against does not include the clause.

Subpart 532.70—Authorizing Payment by Governmentwide Commercial Purchase Card

532.7001 Definition.

Governmentwide commercial purchase card has the same meaning as in FAR 13.101.

532.7002 Solicitation requirements.

(a) In solicitations for supplies and services, except FSS schedule solicitations, request offerors to indicate if they will accept payment by Governmentwide commercial purchase card. Identify the card brand(s) under the GSA SmartPay program that may be used to make payments under the contract, on the cover page or in Section L of the solicitation.

(b) For FSS schedule contracts, identify the card brand(s) under the GSA SmartPay program that may be used to make payments under the contract in the contract award letter.

(c) For orders placed by GSA, you may authorize payment by Governmentwide commercial purchase card only for orders that do not exceed $100,000 (see GSA Order, Guidance on Use of the Credit Card for Purchases (CFO 4200.1)).

(d) Consider requesting offerors to designate different levels for which they may accept payment by Governmentwide commercial purchase card, for example:

“If awarded a contract under this solicitation, the offeror agrees to accept payment by Governmentwide commercial purchase card for orders of:
—$2,500 or less
—$25,000 or less
—$50,000 or less
—$100,000 or less”

Subpart 532.71—Payments for Recurring Services

532.7101 Definitions.

Fixed roll payment means automatic payment of fixed amounts at regular intervals without submission of an invoice or receiving report.

532.7102 Applicability.

You may use fixed roll payments in any contract that meets all four of the following conditions:

(a) The contract provides for recurring services at a constant level for a period of at least two months.
(b) The contract does not contain any discount items.

532.7003 Contract clause.

(a) Indefinite-delivery, indefinite-quantity (IDIQ) contracts other than Federal Supply Service. Insert the clause at 552.232-77, Payment by Governmentwide Commercial Purchase Card, in IDIQ solicitations and contracts for supplies and services if the contract will provide for payment by Governmentwide commercial purchase card as an alternative method of payment for orders.

(b) Federal Supply Service contracts. Use Alternate I of the clause at 552.232-77 for all Federal Supply Schedule solicitations and contracts, except for—

(1) Federal Supply Schedule 70, Information Technology;
(2) The Consolidated Schedule contracts containing information technology Special Item Numbers;
(3) Federal Supply Schedule 84; and
(4) Federal Supply Schedule contracts for recovery purchasing (see 538.7102).

(c) Use 552.232-79 instead of 552.232-77 in solicitations and contracts for—

(1) Federal Supply Schedule 70;
(2) The Consolidated Schedule containing information technology Special Item Numbers;
(3) Federal Supply Schedule 84; and
(4) Federal Supply Schedule contracts for recovery purchasing (see 538.7102).

(c) Payment is due 30 days following completion of the service month.

(d) For a commercial item acquisition, fixed roll payments are consistent with customary commercial practice.

532.7104 Contract clauses.

(a) Noncommercial item acquisitions. For solicitations and contracts to be paid by fixed roll payment, include the clause at 552.232–1, Payments. Do not include the clauses at FAR 52.232–1, Payments, or 552.232–70, Invoice Requirements.

(b) Commercial item acquisitions. For solicitations and contracts to be paid by fixed roll payment, tailor the clause at FAR 52.212–4 by an addendum as noted in paragraphs (b) (1) and (2) of this section. This tailoring is authorized by a deviation approved on January 5, 1999.

(1) Delete paragraph FAR 52.212–4(g), Invoice.

(2) Add the following to paragraph FAR 52.212–4(i), Payment:

The Government shall pay the Contractor, without submission of invoices or vouchers, 30 days after the service period, the prices stipulated in this contract for services rendered and accepted, less any deductions provided in this contract.

PART 533—PROTESTS, DISPUTES, AND APPEALS

Subpart 533.1—Protests

Sec. 533.103 Protests to the agency.
533.103–1 Filing a protest.

Subpart 533.2—Disputes and Appeals

533.209 Suspected fraudulent claims.
533.211 Contracting officer’s decision.

AUTHORITY: 40 U.S.C. 121(c).

SOURCE: 64 FR 37224, July 9, 1999, unless otherwise noted.

Subpart 533.1—Protests

533.103 Protests to the agency.
533.103–1 Filing a protest.

(a) Any protester filing an agency protest has the choice of requesting either that the contracting officer or the Agency Protest Official decide the protest. If the protest is silent on this matter, the contracting officer will decide the protest. If a party requests a review at a level above the contracting officer, the Agency Protest Official will decide the protest. The decision by the Agency Protest Official for GSA is an alternative to a decision by the contracting officer on a protest. The Agency Protest Official for GSA will not consider an appeal of the contracting officer’s decision on an agency protest.

(b) If an agency protest is filed, the deciding official uses the procedures in FAR 33.103 and this section to resolve the protest. The deciding official will provide a fair and quick review of any protest filed with the agency.

(c) The filing timeframes in FAR 33.103(e) apply. An agency protest is filed when the complete protest is received at the location the solicitation designates for serving protests. GSA’s hours of operation are 8 a.m. to 4:30 p.m. Protests delivered after 4:30 p.m. will be considered received and filed the following business day.

(d) The protest must meet all the following conditions:

(1) Include the information required by FAR 33.103(d)(2).

(2) Indicate that it is a protest to the agency.

(3) Be filed in writing with the contracting officer.

(4) State whether the protester chooses to have the contracting officer or the Agency Protest Official decide the protest. If the protest does not include the protester’s choice, then the contracting officer will decide the protest (see paragraph (a) of this subsection).

(e) The following procedures apply to information submitted in support of or in response to an agency protest:

(1) GSA procedures do not provide for any discovery.

(2) The deciding official has discretion to request additional information from either the agency or the protester, orally or in writing, as may be necessary to render a timely decision on the protest. However, protests are normally decided on the basis of information initially provided by the protester and the agency.

(3) To the extent permitted by law and regulations, the parties may exchange relevant information.
(4) The agency must make a written response to the protest within ten days unless another date is set by the deciding official.

(5) The agency must also provide the protestor with a copy of the response on the same day it files the protest response with the deciding official. If the agency believes it needs to redact or withhold any information in the response from the protestor, it should identify and provide the information to the deciding official for in camera review.

(f) A protestor may represent itself or be represented by legal counsel. GSA will not reimburse the protestor for any legal fees related to the agency protest.

(g) GSA may dismiss or stay proceedings on an agency protest if a protest on the same or similar basis is filed with a protest forum outside of GSA.

Subpart 533.2—Disputes and Appeals
533.209 Suspected fraudulent claims.

In GSA, the agency official responsible for investigating fraud is the Office of Inspector General.

[73 FR 74614, Dec. 9, 2008]

533.211 Contracting officer's decision.

The contracting officer's written decision must include the paragraph at FAR 33.211(a)(4)(v). The contracting officer shall state in the decision that a contractor's notice of appeal to the Civilian Board of Contract Appeals (CBCA) should include a copy of the contracting officer's decision.

SUBCHAPTER F—SPECIAL CATEGORIES OF CONTRACTING

PART 536—CONSTRUCTION AND ARCHITECT-ENGINEER CONTRACTS

Subpart 536.1—General
Sec. 536.101 Applicability.

Subpart 536.2—Special Aspects of Contracting for Construction

536.213 Special procedures for sealed bidding in construction contracting.

536.213–3 Invitations for bids.

536.213–370 Bids that include alternates.

(a) The base bid must include all features essential to a sound and adequate building design. If it appears that funds available for a project may be insufficient to include all desired features in the base bid, you may issue a solicitation for a base bid and include one or more alternates in the order of priority. Use alternates only if they are clearly justified and involve substantial amounts of work in relation to the base bid. Their use must be limited and should involve only “add” alternates.

(b) Before opening bids that include alternates, determine, and record in the contract file, the amount of funds available for the project. The amount recorded must be announced at the beginning of the bid opening. The amount is the controlling factor in determining the low bidder. This amount may be increased later when determining the alternate items to award to the low bidder if the following condition is met: the award amount of the base bid plus the combination of alternate items does not exceed the amount offered for the base bid and the same combination of alternate items by any other responsible bidder whose bid conforms to the solicitation. This requirement prevents the displacement of the low bidder by manipulating the alternates to be used.

536.213–371 Bids that include options.

(a) Subject to the limitations in paragraph (c) of this section, you may include options in contracts if it is in the Government’s interest.

(b) the appropriate use of options may include, but is not limited to, any of the following:

(1) If additional work is anticipated but funds are not expected to be available at the time of award, and it would
not be practicable to award a separate contract or to permit an additional contractor to work on the same site.

(2) If fixed building equipment, e.g. elevators or escalators, will be installed under the construction contract and it is advantageous to have the installer of the equipment maintain and service the equipment during the warranty period.

(c) You must not use options under any of the following conditions:

(1) the prospective option represents known firm requirements for which funds are available unless competition for the option quantity is impracticable once the initial contract is awarded.

(2) The contractor will incur undue risks; e.g., the price or availability of necessary materials or labor is not reasonably foreseeable.

(d) Solicitations containing option provisions must state the period within which the options may be exercised.

(e) Solicitations must state whether the basis of award is inclusive or exclusive of the options. Before issuing a solicitation that includes evaluated options, you must determine that there is reasonable certainty that funds will be made available to permit exercise of the option.

536.213–372 Bids that include both alternates and options.

(a) Solicitations may include both alternates and options if the conditions in 536.213–370, Bids that include alternates, and 536.213–371, Bids that include options, are satisfied. In these solicitations, the low bidder for purposes of award is the responsible bidder offering the lowest aggregate price for the base bid and the alternates, in the order of priority listed in the solicitation, that provide the most work features within the funds available at bid opening, plus all options designated to be evaluated.

(b) The basis of award may require the evaluation of options associated with alternates if the related alternate is selected.

(c) Before opening bids that include both alternates and options, determine, and record in the contract file, the amount of funds available for the project (i.e., for the base bid and alternate work). The amount recorded must be announced at the beginning of the bid opening. This amount may be increased later when determining the alternate items to be awarded to the low bidder if the following condition is met: the award amount of the base bid and evaluated options plus the alternate items does not exceed the amount offered for the base bid, the evaluated options, and the same combination of alternate items by any other responsible bidder whose bid conforms to the solicitation.

536.270 Exercise of options.

(a) If exercising an option, notify the contractor, in writing, within the time period specified in the contract.

(b) Exercise options only after determining that all the following conditions exist:

(1) Funds are available.

(2) The requirement covered by the option fulfills an existing Government need.

(3) Exercising the option is the most advantageous method of satisfying the Government’s need, price and other factors considered.

(c) Before exercising an option, you must determine that the action complies with the option’s terms and this section’s requirements. Include your written determination in the contract file.

(d) The contract modification, or other written document which notifies the contractor of the exercise of the option, must cite the option clause as authority. If exercising an unpriced or unevaluated option, cite the statutory authority permitting the use of other than full and open competition (see FAR 6.302 and 517.207).

536.271 Project labor agreements.

(a) Authority. This subpart implements the Presidential memorandum of June 5, 1997, on using project labor agreements (PLAs) on Federal construction projects. The Presidential memorandum authorizes executive departments and agencies to require PLAs on large and significant construction projects for facilities to be owned by a Federal department or agency.

(b) Applicability. These policies and procedures apply to all GSA activities.
authorized to award contracts for construction of facilities to be owned by a Federal department or agency. You may use a PLA in leasehold arrangement, Federally funded projects, and other appropriate circumstances.

(c) Definitions. Construction means construction, alteration, or repair (including dredging, excavating, and painting) of buildings, structures, or other real property. The terms buildings, structures, or other real property are defined further in Federal Acquisition Regulation (FAR) 36.102.

Labor organization means a labor organization engaged in an industry affecting commerce, and any agent of such an organization, and includes any organization of any kind, and any agency, or employee representation committee, group, association, or plan so engaged in which employees participate and which exists for the purpose, in whole or in part, of dealing with employers concerning grievances, labor disputes, wages, rates of pay, hours, or other terms or conditions of employment, and any conference, general committee, joint or system board, or joint council so engaged which is subordinate to a national or international labor organization (42 U.S.C. 2000e(d)).

Large and significant project means a Federal construction project with a total cost to the Federal Government of more than $5 million.

Project Labor Agreement (PLA) means an agreement between the contractor, subcontractors, and the union(s) representing workers. Under a PLA, the contractor and subcontractors on a project and the union(s) agree on terms and conditions of employment for the project, establishing a framework for labor-management cooperation to advance the Government’s procurement interest in cost, efficiency, and quality.

(d) Policy. (1) You may, on a project-by-project basis, use a PLA on a large and significant project when both of the following conditions apply:

(i) A PLA will advance the Government’s procurement interests.

(ii) No laws that apply to the specific construction project preclude the use of the PLA.

(2) Do not require any contractor to enter into a PLA with any particular labor organization.

(3) The use of a PLA is not intended to create any right or benefit, substantive or procedural enforceable by a nonfederal party against the United States, its departments, and agencies, its officers or employees, or any other person.

(e) Procedures. (1) As part of procurement planning for construction projects with a total estimated cost to the Federal Government of more than $5 million, you may consider requiring a PLA.

(2) To require a PLA, you must determine whether use of a PLA will advance the Government’s procurement interests in all the following areas:

(i) Cost, efficiency, and quality.

(ii) Promoting labor-management stability.

(iii) Promoting compliance with applicable legal requirements governing safety and health, equal employment opportunity, labor and employment standards, and other matters.

(3) In making the determination required by paragraph (b) of this section, consult with the agency project or program manager and obtain guidance from the Agency Labor Advisor and assigned legal counsel. You should consider the following factors:

(i) Whether past experience with construction projects in the location where the project will be performed indicates that a PLA will be effective.

(ii) Whether delays in performance of the construction contract would have significant adverse impact on the mission of the agency or operation of the installation or facility.

(iii) Whether any law applies to the specific construction project that would impede use of a PLA.

(iv) Whether the labor organizations in the area can provide a reliable source of skilled, experienced building trades workers in all crafts needed on the job site for the project’s duration (taking into consideration other major construction work in the area).

(v) Whether the Government can benefit from uniform work rules and working conditions and established procedures for resolving labor disputes, no strike/no lock-out protections.

(vi) Whether the Government can benefit from increased stability and
labor peace that derives from greater labor-management cooperation.

(vii) Whether the requirements for a PLA will unreasonably restrict competition.

(viii) Other relevant information.

(4) Document the rationale supporting your decision to require a PLA in the contract file.

(5) Provide the following information to the Agency Labor Advisor (GSA Acquisition Policy Division (MVP)):

(i) A brief description of the project.

(ii) The estimated cost.

(iii) A copy of the document supporting your decision to require a PLA.

(iv) A copy of the solicitation.

Subpart 536.6—Architect-Engineer Services

536.602 Selection of firms for architect-engineer contracts.

536.602–1 Selection criteria.

(a) FAR 36.602–1 requires that agencies include “location in the general geographical area of the project and knowledge of locality of the project” as one of several selection criteria.

(1) Do not use this evaluation factor as a minimum qualification requirement for determining whether a firm is eligible to compete for a proposed project.

(2) This factor must not exceed 5 percent of the total weight of all evaluation criteria. In order to receive maximum score for this factor, the architect-engineer firm(s) must demonstrate that at least 35 percent of the architect-engineer contract services (based on the total contract price) will be accomplished within the geographical boundaries established for the project.

(3) Under an approved class deviation from FAR 36.602–1(a)(5), this factor does not apply to projects that the Chief Architect of GSA determines have national significance.

(b) The public announcement (Commerce Business Daily notice) for a proposed project should identify the general geographical area of the project by either:

(1) A radius in miles or other appropriate unit of measure.

(2) The Standard Metropolitan Statistical Area, county(ies), state(s) surrounding the project, or other appropriate geographic boundaries.

(c) Architect-engineer selections under the Design Excellence Program must apply the geographical evaluation criteria in the second phase.

(d) The public announcement (Commerce Business Daily notice) must provide the number of calendar days the architect-engineer of record has to establish a production capability within the general geographical area of the project. You may allow the architect-engineer of record up to 45 calendar days after contract award to establish this production capability.

[65 FR 41379, July 5, 2000, as amended at 74 FR 20606, May 5, 2009]

Subpart 537.2—Advisory and Assistance Services

537.201 Definitions.

As used in this subpart—

Evaluation or analysis of a proposal means proposal evaluation as described in FAR 15.305. It includes: Cost or price evaluation using cost or price analysis, as defined in FAR 15.404.

Proposal means a proposal submitted for an initial contract award. (See FAR 37.203(d)). It does not include proposals submitted after contract award, such as value engineering proposals, proposals related to contract modifications, claims, or other contract administration actions.

Readily available means that employees with the requisite training and capability are employed by the agency, capable of handling additional work relating to other duties as assigned by management, and that the travel and other costs associated with using covered personnel does not exceed the projected cost of a contract for evaluation and analysis services.

SOURCE: 72 FR 4633, Feb. 1, 2007, unless otherwise noted.

538.7100 Scope of subpart.

This subpart prescribes policies and procedures to implement the John Warner National Defense Authorization Act for Fiscal Year 2007 (Pub. L. 109–364) authorizing non-federal organizations to use Federal Supply Schedule contracts to purchase products and services to be used for recovery from major disasters, terrorism or nuclear, biological, chemical, or radiological attack.

538.7101 Definitions.

The definitions in subsection 538.7001 shall apply for purposes of this subpart.

538.7102 General.

(a) Section 833 of the John Warner National Defense Authorization Act for Fiscal Year 2007 (Pub. L. 109–364) amends 40 U.S.C. 502 to authorize the Administrator of General Services to provide to State and local governments the use of Federal Supply Schedules of the GSA for purchase of products and services to be used to facilitate recovery from a major disaster declared by the President under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.) or to
facilitate recovery from terrorism or nuclear, biological, chemical, or radiological attack. Section 833 requires the Secretary of Homeland Security to determine which products and services qualify before the Administrator provides for the use of the Federal Supply Schedules. Use of Federal supply schedules by State and local governments is voluntary. Agreement of a schedule contractor to offer recovery purchasing under the contract and acceptance of any order for recovery purchasing from a State or local government is voluntary.

(b) State and local governments are authorized to use Federal Supply Schedules to procure products and services determined by the Secretary of Homeland Security to be used to facilitate recovery from major disasters, terrorism, or nuclear, biological, chemical, or radiological attack. A listing of the Federal Supply Schedules for the products and services is available in GSA’s Schedules e-Library at Web site http://www.gsaelibrary.gsa.gov. Click on the link, “Disaster Recovery Purchasing, State and Local.” The participating contractors and the products and services available for recovery purchasing will be labeled with the Disaster Recovery Purchasing ICON.

(c) State and local governments that wish to use the Federal Supply Schedules to facilitate recovery from major disasters or attacks are responsible for ensuring that only authorized representatives of their governments place orders against these schedules and that procured products and services are used only for the purposes authorized by Section 833 of Public Law 109–364.

Accordingly, the contracting officer is authorized to modify the following FAR provisions/clauses to delete “Government” or similar language referring to the U.S. Government and substitute “ordering activity” or similar language when preparing solicitations and contracts to be awarded under the Federal Supply Schedules for products and services determined by the Secretary of Homeland Security. When such changes are made, the word “(DEVIATION)” shall be added at the end of the title of the provision or clause. These clauses include but are not limited to—

Subpart 552.1—Instructions for Using Provisions and Clauses

552.101–70 Using part 552.

(a) Definition. “Clause,” as used in this subpart, means provision or clause as defined in FAR 52.101(a).

(b) Numbering. (1) Clauses which are “substantially” the same as FAR clauses and clauses to be used instead of FAR clauses are identified as follows:

(i) The clause has the same title as a clause in the FAR.

(ii) The number 5 precedes the clause.
552.102 Incorporating provisions and clauses.

You may incorporate clauses prescribed in the GSAR for solicitations and contracts by reference.

552.103 Identification of provisions and clauses.

**Deviations.** If the GSAR prescribes a class deviation from a FAR clause, identify the clause by the GSAR citation (e.g., 552.232-70 PROMPT PAYMENT DISCOUNT (NOV 1987) (DEVIATION FAR 552.232-70)).

552.104 Procedures for modifying and completing provisions and clauses.

(a) The procedures in FAR 52.104 apply when you modify or complete a GSAR provision or clause. Provisions and clauses shall not be modified unless the GSAR authorizes their modification.

(b) You do not need to identify modifications of clauses which result from negotiations unless you issue an amendment to the solicitation.

(c) In general, you should modify FAR or GSAR clauses only for individual cases. If a contracting activity develops a modification for repeated use, furnish a copy to the Office of GSA Acquisition Policy (MV) for potential inclusion in the GSAR.

552.105 Procedures for using alternates.

The procedures in FAR 52.105 apply to GSAR part 552.

552.107-70 Provisions and clauses prescribed in subpart 552.1.

(a) Insert the provision at 552.252-5, Authorized Deviations in Provisions, in solicitation that include any FAR or GSAR clause with an authorized deviation. You must use this provision in lieu of the FAR provision at 552.252-5.

(b) Insert the clause at 552.252-6, Authorized Deviations in Clauses, in solicitations and contracts that include any FAR or GSAR clause with an authorized deviation. You must use this clause in lieu of the FAR clause at 52.252-6.

(3) Reduce the payments for violations by a Lessor's subcontractor by an amount not to exceed the amount of profit or fee reflected in the subcontract at the time the subcontract was placed.

The Lessor shall have a period determined by the agency head or designee, but not less than 30 calendar days after receipt of such notice, to submit in person, in writing, or through a representative, information and argument in opposition to the proposed reduction. 552.211–15 Defense Priorities and Allocations System Requirements.

As prescribed at 511.604, insert the following clause:

DEFENSE PRIORITIES AND ALLOCATIONS SYSTEM REQUIREMENTS (SEP 2004)

(a) Definitions.
Approved program means a program determined to be necessary or appropriate for priorities and allocation support to promote the national defense by the Secretary of Defense, the Secretary of Energy, or the Department of Homeland Security Under Secretary for Emergency Preparedness and Response under the authority of the Defense Production Act, the Stafford Act, and Executive Order 12939, or the Selective Service Act and related statutes, and Executive Order 12742. See Schedule 1 of 15 CFR part 700 for a list of Delegate Agencies, approved programs, and program identification symbols at http://www.bis.doc.gov/DefenseIndustrialBasePrograms/OSIES/DPAS/Default.htm.

Defense Priorities and Allocations System (DPAS) means the regulation published at 15 CFR part 700 that requires preferential treatment for certain contracts and orders placed by a Delegate Agency in support of an approved program.

Delegate Agency means an agency of the U.S. Government authorized by delegation from the Department of Commerce (DOC) to place priority ratings on contracts or orders needed to support approved programs.

Rated order means, for the purpose of this contract, a delivery or task order issued in accordance with the provisions of the DPAS regulation (15 CFR part 700).

(b) Rated Order Requirement. From time to time, the Contractor may receive a rated order under this contract from a Delegate Agency. The Contractor must give preferential treatment to rated orders as required by the Defense Priorities and Allocations System (DPAS) regulation (15 CFR part 700). The existence of previously accepted unrated or lower rated orders is not sufficient reason to reject a rated order. Rated orders take preference over all unrated orders as necessary to meet required delivery dates. There are two levels of ratings designated by the symbol of either “DO” or “DX.” All “DO” rated orders have equal priority with each other and take preference over unrated orders. All “DX” rated orders have equal priority with each other and take preference over “DO” rated orders and unrated orders. The rating designation is followed by a program identification symbol. Program identification symbols indicate which approved program is supported by the rated order (see Schedule 1 of 15 CFR part 700 for a list of Delegate Agencies, approved programs, and program identification symbols).

(c) Additional information. Additional information may be obtained at the DOC DPAS website http://www.bis.doc.gov/DefenseIndustrialBasePrograms/OSIES/DPAS/Default.htm or by contacting the designated Administrative Contracting Officer.

Each delivery order will specify that shipment is required no later than the number of days shown above. Discounts include, but are not limited to, rebates, quantity discounts, purchase option credits, and any other terms or conditions other than concessions which reduce the amount of money a customer ultimately pays for goods or services ordered or received. (b) For each Special Item Number (SIN) included in an offer, the Offeror shall provide the information outlined in paragraph (c). Offerors may provide a single response covering more than one SIN, if the information disclosed is the same for all products under each SIN. If the terms of sale appearing in the commercial catalogs or price list on which an offer is based are in conflict with the terms of this solicitation, the latter shall govern.

(4) A description of concessions offered under this solicitation which are not granted to other customers. Such concessions may include, but are not limited to, an extended warranty, a return/exchange goods policy, or enhanced or additional services.

By providing a selection of comparable supplies or services, ordering activities are afforded the opportunity to fulfill their requirements with the item(s) that constitute the best value and that meet their needs at the lowest overall cost.

(b) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer’s specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt unless a written notice of withdrawal is received before award.

(End of provision)

Alternate I (AUG 1997). When anticipating competition of identical items, add the following paragraph after paragraph (b) of the basic provision:

(c) The Government reserves the right to award only one contract for all or a part of a manufacturer’s product line. When two or more offerors (e.g., dealers/resellers) offer the identical product, award may be made competitively to only one offeror on the basis of the lowest price. (Discounts for early payment will not be considered as an evaluation factor in determining the low offeror). During initial open season for an option period, any offers that are equal to or lower than the current contract price received for identical items will be considered. Current contractors will also be allowed to submit offers for identical items during this initial open season. The current contractor which has the identical item on contract will be included in the evaluation process. The Government will evaluate all offers and may award only one contract for each specified product or aggregate group.

552.214–70 “All or None” Offers.

As prescribed in 514.201–6, insert the following provision:

“ALL OR NONE” OFFERS (SEP 1999)

(a) Unless awards in the aggregate are specifically precluded in this solicitation, the Government reserves the right to evaluate offers and make awards on all “all or none” basis as provided below.

(b) An offer submitted on an “all or none” or similar basis will be evaluated as follows: The lowest acceptable offer exclusive of the “all or none” offer will be selected with respect to each item (or group of items when the solicitation provides for aggregate awards) and the total cost of all items thus determined shall be compared with the total of the lowest acceptable “all or none” offer. Award will be made to result in the lowest total cost to the Government.

(End of provision)

Alternate I (SEP 1999). For a requirements or indefinite quantity contract, the following paragraph (b) shall be substituted in the basic provision:

(b) An offer submitted on an “all or none” or similar basis will not be considered unless the offer is low on each item to which the “all or none” offer is made applicable. The term “each item” as used in this provision refers either to an item that under the terms of the solicitation may be independently awarded, or to a group of items on which an award is to be made in the aggregate.

Effective Date Note: At 74 FR 47740, Sept. 17, 2009, section 552.214–70 was amended by revising the section heading, date of the provision, and paragraphs (a) and (b) and by removing Alternate I, effective Oct. 19, 2009. For the convenience of the user, the revised text is set forth as follows:

“All or None” Bids (OCT 2009)

(a) The Government reserves the right to evaluate bids and make awards on an “all or none” basis as provided below.

(b) A bid submitted on an “all or none” or similar basis will be evaluated as follows: The lowest acceptable bid exclusive of the “all or none” bid will be selected with respect to each item (or group of items when the solicitation provides for aggregate awards) and the total cost of all items thus determined shall be compared with the total of the lowest acceptable “all or none” bid. Award will be made to result in the lowest total cost to the Government.

552.214–71 Progressive Awards and Monthly Quantity Allocations.

As prescribed in 514.201–7(a), insert the following clause:

Progressive Awards and Monthly Quantity Allocations (SEP 1999)

(a) Monthly quantity allocation. (1) Set forth below are the Government’s estimated annual and monthly requirements for each
stock item covered by this solicitation. Offerors shall indicate, in the spaces provided, the monthly quantity which they are willing to furnish of any item or group of items involving the use of the same production facilities. In making monthly allocations, offerors are urged to group as many items as possible. Such groupings will make it possible for the Government to make fullest use of the production capabilities of each offeror. 

(2) Offerors need not limit their monthly allocations to the Government’s estimated monthly requirements, since additional unanticipated needs may occur during the period of the contract. If an offeror does not insert monthly allocation quantities, it will be deemed to offer to furnish all of the Government’s requirements, even though they may exceed the stated estimated requirements.

(b) **Progressive awards.** If the low responsive offeror’s monthly quantity allocation is less than the Government’s estimated requirements, the Government may make progressive awards beginning with the low responsive offeror and including each next low responsive offeror to the extent necessary to meet the estimated requirements.

(c) **Ordering procedures.** If progressive awards are made, orders will be placed first with the Contractor offering the lowest price on each item normally up to that Contractor’s maximum quantity allocation and then, in the same manner, successively to other Contractors. When cumulative orders during any month, placed with a lower priced Contractor, equal or exceed 95 percent of its monthly quantity allocation, to avoid the placement of unduly small orders or the splitting of a subsequent order, the Government reserves the right to award the full quantity of the subsequent order to the next lower priced Contractor. In no case will orders be placed with any Contractor in excess of its monthly quantity allocation.

552.215–70 Examination of Records by GSA.

As prescribed in 514.201–7(b) and 515.209–70(a) insert the following clause:

**EXAMINATION OF RECORDS BY GSA (FEB 1996)**

The Contractor agrees that the Administrator of General Services or any duly authorized representatives shall, until the expiration of 3 years after final payment under this contract, or of the time periods for the particular records specified in Subpart 4.7 of the Federal Acquisition Regulation (48 CFR 4.7), whichever expires earlier, have access to and the right to examine any books, documents, papers, and records of the Contractor involving transactions related to this contract or compliance with any clauses thereunder. The Contractor further agrees to include in all its subcontracts hereunder a provision to the effect that the subcontractor agrees that the Administrator of General Services or any authorized representatives shall, until the expiration of 3 years after final payment under the subcontract, or of the time periods for the particular records specified in Subpart 4.7 of the Federal Acquisition Regulation (48 CFR 4.7), whichever expires earlier, have access to and the right to examine any books, documents, papers, and records of such subcontractor involving transactions related to the subcontract or compliance with any clauses thereunder. The term “subcontract” as used in this clause excludes (a) purchase orders not exceeding $100,000 and (b) subcontracts or purchase orders for public utility services at rates established for uniform applicability to the general public.

552.215–72 Price Adjustment—Failure To Provide Accurate Information.

As prescribed in 515.408(d), insert the following clause:

PRICE ADJUSTMENT—FAILURE TO PROVIDE ACCURATE INFORMATION (AUG 1997)

(a) The Government, at its election, may reduce the price of this contract or contract modification if the Contracting Officer determines after award of this contract or contract modification that the price negotiated was increased by a significant amount because the Contractor failed to:

(1) Provide information required by this solicitation/contract or otherwise requested by the Government;

(2) Submit information that was current, accurate, and complete; or

(3) Disclose changes in the Contractor’s commercial pricelists, discounts or discounting policies which occurred after the original submission and prior to the completion of negotiations.

(b) The Government will consider information submitted to be current, accurate and complete if the data is current, accurate and complete as of 14 calendar days prior to the date it is submitted.

(c) If any reduction in the contract price under this clause reduces the price for items for which payment was made prior to the date it is submitted—

(1) The amount of the overpayment; and

(2) Simple interest on the amount of such overpayment to be computed from the date of overpayment to the date the Government is repaid by the Contractor at the applicable underpayment rate effective each quarter prescribed by the Secretary of Treasury under 26 U.S.C. 6621(a)(2).

(d) Failure to agree on the amount of the decrease shall be resolved as a dispute.

(e) In addition to the remedy in paragraph (a) of this clause, the Government may terminate this contract for default. The rights and remedies of the Government specified herein are not exclusive, and are in addition to any other rights and remedies provided by law or under this contract.

(End of clause)

552.215–72 Economic Price Adjustment—FSS Multiple Award Schedule Contracts.

As prescribed in 516.203–4(a), insert the following clause:

ECONOMIC PRICE ADJUSTMENT—FSS MULTIPLE AWARD SCHEDULE CONTRACTS (SEP 1999)

Price adjustments include price increases and price decreases. Adjustments will be considered as follows:

(a) Contractors shall submit price decreases anytime during the contract period in which they occur. Price decreases will be handled in accordance with the provisions of the Price Reduction Clause.

(b) Contractors may request price increases under the following conditions:

(1) Increases resulting from a reissue or other modification of the Contractor’s commercial catalog/pricelist that was used as the basis for the contract award.

(2) Only three increases will be considered during the contract period.

(3) Increases are requested after the first 30 days of the contract period and prior to the last 60 days of the contract period.

(4) At least 30 days elapse between requested increases.

(c) The aggregate of the increases in any contract unit price under this clause shall not exceed \( 1 \) percent of the original contract unit price. The Government reserves the right to raise this ceiling where changes in market conditions during the contract period support an increase.

(d) The following material shall be submitted with the request for a price increase:

(1) A copy of the commercial catalog/pricelist showing the price increase and the effective date for commercial customers.

(2) Commercial Sales Practice format regarding the Contractor’s commercial pricing practice relating to the reissued or modified catalog/pricelist, or a certification that no change has occurred in the data since completion of the initial negotiation or a subsequent submission.

(e) The Government reserves the right to exercise one of the following options:

(1) Accept the Contractor’s price increases as requested when all conditions of (b), (c), (d) of this clause are satisfied;

(2) Negotiate more favorable discounts from the new commercial prices when the total increase requested is not supported; or

(3) Remove the product(s) from contract involved pursuant to the Cancellation Clause of this contract, when the increase requested is not supported.
(f) The contract modification reflecting the price adjustment shall be signed by the Government and made effective upon receipt of notification from the Contractor that the new catalog/pricelist has been mailed to the addresses previously furnished by the Contracting Officer, provided that in no event shall such price adjustment be effective prior to the effective date of the commercial price increases. The increased contract prices shall apply to delivery orders issued to the Contractor on or after the effective date of the contract modification.

(End of clause)

*Insert the percent appropriate at the time the solicitation is issued. This percentage should normally be 10 percent, unless based on a trend established by an appropriate index such as the Producer Prices and Price Index during the most recent 6-month period indicates that a different percentage is more appropriate. Any ceiling other than 10 percent must be approved by the contracting director.

Alternate I (SEP 1999). The following is substituted for paragraphs (b) and (c) of the clause:

(b) Contractors may request price increases to be effective on or after the first 12 months of the contract period providing all of the following conditions are met:

(1) Increases resulting from a reissue or other modification of the Contractor’s commercial catalog/pricelist that was used as the basis for the contract award.

(2) No more than three increases will be considered during each succeeding 12-month period of the contract. For succeeding contract periods of less than 12 months, up to three increases will be considered subject to the other conditions of this subparagraph (b).

(3) Increases are requested before the last 60 days of the contract period.

(4) At least 30 days elapse between requested increases.

(c) In any contract period during which price increases will be considered, the aggregate of the increases during any 12-month period shall not exceed % percent of the contract unit price in effect at the end of the preceding 12-month period. The Government reserves the right to raise the ceiling when market conditions during the contract period support such a change.

*Insert the percentage appropriate at the time the solicitation is issued. This percentage should be determined based on the trend established by an appropriate index such as the Producer Prices and Price Index. A ceiling of more than 10 percent must be approved by the Contracting Director.

552.216–71 Economic Price Adjustment—Stock and Special Order Program Contracts.

As prescribed in 516.203–4(b), insert the following clause:

ECONOMIC PRICE ADJUSTMENT-STOCK AND SPECIAL ORDER PROGRAM CONTRACTS (SEP 1999)

(a) “Producer Price Index” (PPI), as used in this clause, means the originally released index, not seasonally adjusted, published by the Bureau of Labor Statistics, U.S. Department of Labor (Labor) for product code found under Table .

(b) During the term of the contract, the award price may be adjusted once upward or downward a maximum of percent. Any price adjustment for the product code shall be based upon the percentage change in the PPI released in the month prior to the initial month of the contract period specified in the solicitation for sealed bidding or the month prior to award in negotiation (the base index) and the PPI released 12 months later (the updated index). The formula for determining the Adjusted Contract Price (ACP) applicable to shipments for the balance of the contract period is—

$$ACP = \frac{\text{Updated Index}}{\text{Base Index}} \times \text{Award Price}$$

(c) If the PPI is not available for the month of the base index or the updated index, the monthly published PPI prior to the month determining the base index or updated index shall be used.

(d) If a product code is discontinued, the Government and the Contractor will mutually agree to substitute a similar product code. If Labor designates an index with a new title and/or code number as continuous with the product code specified above, the new index shall be used.

(e) Unless the Contractor’s written request for a price adjustment resulting from the application of the formula in (b) above is received by the Contracting Officer within 30 calendar days of the release of the updated index, the Contractor shall have waived its right to an upward price adjustment for the balance of the contract. Alternatively, the Contracting Officer will unilaterally adjust the award price downward when appropriate using the updated index defined in (b) above.

(f) Price adjustments shall be effective upon execution of a contract modification by the Government or on the 31st day following...
the release of the updated index, whichever is later, shall indicate the updated index and percent of change as well as the ACP, and shall not apply to delivery orders issued before the effective date.

(End of clause)

Alternate I (SEP 1999). As prescribed in 516.203-4(b)(1) and (2), substitute the following paragraphs (b), (e) and (f) for paragraphs (b), (e) and (f) of the basic clause:

(b) In any option period, the contract price may be adjusted upward or downward a maximum of * percent.

(1) For the first option period, any price adjustment for the product code shall be based upon the percentage change in the PPI released in the month prior to the initial month of the contract period specified in the solicitation for sealed bidding or the month prior to award in negotiation (the base index) and the PPI released in the third month before completion of the initial contract period stated in the solicitation (the updated index). This initial contract period may be less than 12 months. The formula for determining the Adjusted Contract Price (ACP) applicable to shipments during the first option period is—

\[
ACP = \frac{\text{Updated Index}}{\text{Base Index}} \times \text{Award Price}
\]

(2) For any subsequent option period, the price adjustment shall be the percentage change between the previously updated index (the new base index) and the PPI released 12 months later (the most recent updated index). This percentage shall be applied to the Current Contract Price (CCP). The formula for determining the ACP applicable to shipments for the subsequent option period(s) is—

\[
ACP = \frac{\text{Most Recent Updated Index}}{\text{New Base Index}} \times \text{CCP}
\]

(e) Unless the Contractor’s written request for a price adjustment resulting from the application of the formulas in (b) (1) or (2) above is received by the Contracting Officer within 30 calendar days of the date of the Government’s preliminary written notice of its intent to exercise the option, the Contractors shall have waived its right to an upward price adjustment for that option period. Alternatively, the Contracting Officer in its written notice shall exercise the option at the CCP or at a reduced price when appropriate using the formulas in (b) (1) or (2) above.

(f) Price adjustments shall be effected by execution of a contract modification by the Government indicating the most recent updated index and percent of change and shall apply to delivery orders placed on or after the first day of the option period.

Alternate II (SEP 1999). As prescribed in 516.203-4(b)(2), add the following paragraph (g) to the basic clause:

(g) No price adjustment will be made unless the percentage in the PPI is at least * percent.

* The appropriate percentage should be determined based upon the historical trend in the PPI for the product code. A ceiling of more than 10 percent must be approved by the Contracting Director.

** The Contracting Officer should insert a lower percent than the maximum percentage stated in paragraph (b) of the clause.

552.216-72 Placement of Orders.

As prescribed in 516.506, inset the following clause:

Placement of Orders (SEP 1999)

(a) Delivery orders (orders) will be placed by:

[Contracting Officer insert names of Federal agencies]

(b) Orders may be placed through Electronic Data Interchange (EDI) or mailed in paper form. EDI orders shall be placed using the American National Standards Institute (ANSI) X12 Standard for Electronic Data Interchange (EDI) format.

(c) If the Contractor agrees, GSA’s Federal Supply Service (FSS) will place all orders by EDI using computer-to-computer EDI. If computer-to-computer EDI is not possible, FSS will use an alternative EDI method allowing the Contractor to receive orders by facsimile transmission. Subject to the Contractor’s agreement, other agencies may place orders by EDI.

(d) When computer-to-computer EDI procedures will be used to place orders, the Contractor shall enter into one or more Trading Partner Agreements (TPA) with each Federal agency placing orders electronically in order to ensure mutual understanding by the parties of certain electronic transaction conventions and to recognize the rights and responsibilities of the parties as they apply to this method of placing orders. The TPA must identify, among other things, the third party provider(s) through which electronic orders are placed, the transaction sets used, security procedures, and guidelines for implementation. Federal agencies may obtain a sample format to customize as needed from the office specified in (g) below.

(e) The Contractor shall be responsible for providing its own hardware and software
necessary to transmit and receive data electronically. Additionally, each party to the TPA shall be responsible for the costs associated with its use of third party provider services.

(f) Nothing in the TPA will invalidate any part of this contract between the Contractor and the General Services Administration. All terms and conditions of this contract that otherwise would be applicable to a mailed order shall apply to the electronic order.

(g) The basic content and format of the TPA will be provided by:

General Services Administration, Acquisition Operations and Electronic Commerce Center (FCS), Washington, DC 20406

Telephone: [Contracting officer insert appropriate telephone numbers]

(End of clause)

Alternate I (SEP 1999). As prescribed in 516.506, substitute the following paragraphs (a), (b), (c), and (d) for paragraphs (a), (b), (c), and (d) of the basic clause:

(a) All delivery orders (orders) under this contract will be placed by the General Services Administration’s Federal Supply Service (FSS). The Contractor is not authorized to accept orders from any other agency. Violation of this restriction may result in termination of the contract pursuant to the default clause of this contract.

(b) All orders shall be placed by Electronic Data Interchange (EDI) using the American National Standards Institute (ANSI) X12 Standard for Electronic Data Interchange (EDI) format.

(c) If the Contractor agrees, transmission will be computer-to-computer EDI. If computer-to-computer EDI is not possible, FSS will use an alternative EDI method allowing the Contractor to receive orders by facsimile transmission.

(d) When computer-to-computer EDI procedures will be used to place orders, the Contractor shall enter into a Trading Partner Agreement (TPA) with FSS in order to ensure mutual understanding by the parties of certain electronic transaction conventions and to recognize the rights and responsibilities of the parties as they apply to this method of placing orders. The TPA must identify, among other things, the third party provider(s) through which electronic orders are placed, the transaction sets used, security procedures, and guidelines for implementation.

Alternate II (SEP 1999). As prescribed in 516.506(b), substitute the following paragraph (a) for paragraph (a) of the basic clause:

Alternate III (MAY 2004). As prescribed in 516.506(c), substitute the following paragraphs (a), (c), and (d) for paragraphs (a), (c), and (d) of the basic clause:

(a) The organizations listed below may place orders under this contract. Questions regarding organizations authorized to use this schedule should be directed to the Contracting Officer.

(1) Executive agencies.
(2) Other Federal agencies.
(3) Mixed-ownership Government corporations.
(4) The District of Columbia.
(5) Government contractors authorized in writing by a Federal agency pursuant to 48 CFR 51.1.

Alternate IV (FEB 2007). As prescribed in 516.506(d), substitute the following paragraphs (a), (c), and (d) for paragraphs (a), (c), and (d) of the basic clause:

(a) The organizations listed below may place orders under this contract. Questions regarding organizations authorized to use this schedule should be directed to the Contracting Officer.

552.217–70

Evaluation of Options.

As prescribed in 517.208(a), insert the following provision:

EVALUATION OF OPTIONS (AUG 1990)

(a) The Government will evaluate offers for award purposes by determining the lowest base period price. When option year pricing is based on a formula (e.g., changes in the Producer Price Index or other common standard); option year pricing is automatically considered when evaluating the base year price, as any change in price will be uniformly related to changes in market conditions. All options are therefore considered to be evaluated. Evaluation of options will not obligate the Government to exercise the option(s).

(b) The Government will reject the offer if exceptions are taken to the price provisions of the Economic Price Adjustment clause, unless the exception results in a lower maximum option year price. Such offers will be evaluated without regard to the lower option year(s) maximum. However, if the offeror offering a lower maximum is awarded a contract, the award will reflect the lower maximum.

(End of provision)
552.217–71 Notice Regarding Option(s).
As prescribed in 517.208(b), insert the following provision:

NOTICE REGARDING OPTION(S) (NOV 1992)
The General Services Administration (GSA) has included an option to (Insert “purchase additional quantities of supplies or services” or “extend the term of this contract” or “purchase additional quantities of supplies or services and to extend the term of this contract”) in order to demonstrate the value it places on quality performance by providing a mechanism for continuing a contractual relationship with a successful Offeror that performs at a level which meets or exceeds GSA’s quality performance expectations as communicated to the Contractor, in writing, by the Contracting Officer or designated representative. When deciding whether to exercise the option, the Contracting Officer will consider the quality of the Contractor’s past performance under this contract in accordance with 48 CFR 517.207.

(End of provision)

552.219–70 Allocation of Orders—Partially Set-Aside Items.
As prescribed in 519.508, insert the following clause:

ALLOCATION OF ORDERS—PARTIALLY SET-ASIDE ITEMS (SEP 1999)
Where the set-aside portion of an item or group of items is awarded to a Contractor other than the one receiving the award on the corresponding non-set-aside portion, the Government will divide the requirements to be ordered between the two Contractors with the objective of achieving, as nearly as possible, a 50/50 division of the total value of orders placed after the award of the set-aside portion. In no case will this division vary by more than a 60/40 division (with either the non-set-aside or set-aside Contractor receiving the larger portion) from the time of the award of the set-aside portion.

(End of clause)

552.219–71 Notice to Offerors of Subcontracting Plan Requirements.
As prescribed in 519.708–70(a), insert the following provision:

NOTICE TO OFFERORS OF SUBCONTRACTING PLAN REQUIREMENTS (JUN 2005)
The General Services Administration (GSA) is committed to assuring that maximum practicable opportunity is provided to small, HUBZone small, small disadvantaged, women-owned, veteran-owned, and service-disabled veteran-owned small business concerns to participate in the performance of this contract consistent with its efficient performance. GSA expects any subcontracting plan submitted pursuant to FAR 52.219–9, Small Business Subcontracting Plan, to reflect this commitment. Consequently, an offeror, other than a small business concern, before being awarded a contract exceeding $500,000 ($1,000,000 for construction), must demonstrate that its subcontracting plan represents a creative and innovative program for involving small, HUBZone small, small disadvantaged, women-owned, veteran-owned, and service-disabled veteran-owned small business concerns as subcontractors in the performance of this contract.

(End of provision)

552.219–72 Preparation, Submission, and Negotiation of Subcontracting Plans.
As prescribed in 519.708–70(b), insert the following provision:

PREPARATION, SUBMISSION, AND NEGOTIATION OF SUBCONTRACTING PLANS (JUN 2005)
(a) An offeror, other than a small business concern, submitting an offer that exceeds $500,000 ($1,000,000 for construction) shall submit a subcontracting plan with its initial offer. The subcontracting plan will be negotiated concurrently with price and any required technical and management proposals, unless the offeror submits a previously-approved commercial plan.
(b) Maximum practicable utilization of small, HUBZone small, small disadvantaged, women-owned, veteran-owned, and service-disabled veteran-owned small business concerns as subcontractors is a matter of national interest with both social and economic benefits. The General Services Administration (GSA) expects that an offeror’s subcontracting plan will reflect a commitment to assuring that small, HUBZone small, small disadvantaged, women-owned, veteran-owned, and service-disabled veteran-owned small business concerns are provided the maximum practicable opportunity, consistent with efficient contract performance, to participate as subcontractors in the performance of the resulting contract. An offeror submitting a commercial plan can reflect this commitment through subcontracting opportunities it provides that relate to the offeror’s production generally; i.e., for both its commercial and Government business.
(c) GSA believes that this potential contract provides significant opportunities for
the use of small, HUBZone small, small disadvantaged, women-owned, veteran-owned, and service-disabled veteran-owned small business concerns as subcontractors. Consequently, in addressing the eleven elements described at FAR 52.219-9(d) of the clause in this contract entitled Small Business Subcontracting Plan, the offeror shall:

1. Demonstrate that its subcontracting plan represents a creative and innovative program for involving small, HUBZone small, small disadvantaged, women-owned, veteran-owned, and service-disabled veteran-owned small business concerns in performing the contract.

2. Include a description of the offeror’s subcontracting strategies used in any previous contracts, significant achievements, and how this plan will build upon those earlier achievements.

3. Demonstrate through its plan that it understands the small business subcontracting program’s objectives and GSA’s expectations, and it is committed to taking those actions necessary to meet these goals or objectives.

4. In determining the acceptability of any subcontracting plan, the Contracting Officer will take each of the following actions:
   - Review the plan to verify that the offeror demonstrates an understanding of the small business subcontracting program’s objectives and GSA’s expectations with respect to the program and has included all the information, goals, and assurances required by FAR 52.219-9.
   - Consider previous goals and achievements of contractors in the small industry.
   - Consider information and potential sources obtained from agencies administering national and local preference programs and other advocacy groups in evaluating whether the goals stated in the plan adequately reflect the anticipated potential for subcontracting to small, HUBZone small, small disadvantaged, women-owned, veteran-owned, and service-disabled veteran-owned small business concerns.
   - Review the offeror’s description of its strategies, historical performance and significant achievements in placing subcontracts for the same or similar products or services with small, HUBZone small, small disadvantaged, women-owned, veteran-owned, and service-disabled veteran-owned small business concerns. The offeror’s description can apply to commercial as well as previous Government contracts.
   - Failure to submit an acceptable subcontracting plan and/or correct deficiencies in a plan within the time specified by the Contracting Officer shall make the offeror ineligible for award.

(c) Semi-annual reports shall be submitted by a GSA mentor to the GSA Mentor–Protégé Program Manager, GSA Office of Small Business Utilization (E), Washington, DC 20405. DISCOUNTS FOR PROMPT PAYMENT (APR 1989)
(DEVIATION FAR 52.232-8)

(a) Discounts for early payment (hereinafter referred to as ‘‘discounts’’ or ‘‘the discount’’) will be considered in evaluating the relationship of the offeror’s concessions to the Government vis-a-vis the offeror’s concessions to its commercial customers, but only to the extent indicated in this clause.

(b) Discounts will not be considered to determine the low offeror in the situation described in the ‘‘Offers on Identical Products’’ provision of this solicitation.

(c) Uneconomical discounts will not be considered as meeting the criteria for award established by the Government. In this connection, a discount will be considered uneconomical if the annualized rate of return for earning the discount is lower than the ‘‘value of funds’’ rate established by the Department of the Treasury and published quarterly in the Federal Register. The ‘‘value of funds’’ rate applied will be the rate in effect on the date specified for the receipt of offers.

(d) Agencies required to use the resultant schedule will not apply the discount in determining the lowest delivered price pursuant to the FPMR, 41 CFR 101-26.408, if the agency determines that payment will probably not be made within the discount period offered. The same is true if the discount is considered uneconomical at the time of placement of the order.

(e) Discounts for early payment may be offered either in the original offer or on individual invoices submitted under the resulting contract. Discounts offered will be taken by the Government if payment is made within the discount period specified.

(f) Discounts that are included in offers become a part of the resulting contracts and are binding on the Contractor for all orders placed under the contract. Discounts offered only on individual invoices will be binding on the Contractor only for the particular invoice on which the discount is offered.

(g) In connection with any discount offered for prompt payment, time shall be computed from the date of the invoice. For the purpose of computing the discount earned, payment shall be considered to have been made on the date which appears on the payment check or the date on which an electronic funds transfer was made.

(End of clause)

As prescribed in 532.906, insert the following clause:

ASSIGNMENT OF CLAIMS (SEP 1999)

Because this is a requirements or indefinite quantity contract under which more than one agency may place orders, paragraph (a) of the Assignment of Claims clause (FAR 52.232-23) is inapplicable and the following is substituted therefor:

In order to prevent confusion and delay in making payment, the Contractor shall not assign any claim(s) for amounts due or to become due under this contract. However, the Contractor is permitted to transfer to a bank, trust company, or other financial institution, including any Federal lending agency, under the provisions of the Assignment of Claims Act, as amended, 31 U.S.C. 3727, 41 U.S.C. 15 (hereinafter referred to as ‘‘the Act’’), all amounts due or to become due under any order amounting to $1,000 or more issued by any Government agency under this contract. Any such assignment takes effect only if and when the assignee files written notice of the assignment together with a true copy of the instrument of assignment with the contracting officer issuing the order and the finance office designated in the order to make payment. Unless otherwise stated in the order, payments to an assignee of any amounts due or to become due under any order assigned may, to the extent specified in the Act, be subject to reduction or set-off.

   (2) For all other orders, the later of the following two events:

      (ii) The 30th day after Government acceptance of supplies delivered or services performed by the Contractor.
   (b) The General Services Administration will issue payment on the due date in (a)(1) above if the Contractor complies with full cycle electronic commerce. Full cycle electronic commerce includes all the following elements:

      (2) The Contractor must generate and submit to the Government valid EDI invoices (transaction set 810) of submit invoices through the GSA Finance Center Internet-based invoice process. Internet-based invoices must be submitted using procedures provided by GSA.
      (3) The Contractor’s financial institution must receive and process, on behalf of the Contractor, EFT payments through the Automated Clearing House (ACH) system.
      (4) The EDI transaction sets in (b)(1) through (b)(3) above must adhere to implementation conventions provided by GSA.
(c) If any of the conditions in (b) above do not occur, the 10-day payment due dates in (a)(1) become 30-day payment due dates.
(d) Notwithstanding paragraph (g) of the clause at FAR 52.212-4, Contract Terms and Conditions—Commercial Items, if the Contractor submits hard-copy invoices, submit only an original invoice. No copies of the invoice are required.
(e) All other provisions of the Prompt Payment Act (31 U.S.C. 3901 et seq.) and Office of Management and Budget (OMB) Circular A-125, Prompt Payment, apply.

(End of clause)

552.232-75 Prompt Payment

As prescribed in 532.908 (b)(1), insert the following clause:

PROMPT PAYMENT (SEP 1999)

The Government will make payments under the terms and conditions specified in this clause. Payment shall be considered as being made on the day a check is dated or an electronic funds transfer is made. All days referred to in this clause are calendar days, unless otherwise specified.

(a) Payment due date. (1) Rental Payments. Rent shall be paid monthly in arrears and will be due on the first workday of each month, and only as provided for by the lease.
   (i) When the date for commencement of rent falls on the 15th day of the month or earlier, the initial monthly rental payment under this contract shall become due on the first workday of the month following the month in which the commencement of the rent is effective.
   (ii) When the date for commencement of rent falls after the 15th day of the month, the initial monthly rental payment under this contract shall become due on the first workday of the second month following the month in which the commencement of the rent is effective.
   (2) Other payments. The due date for making payments other than rent shall be the later of the following two events:
      (i) The 30th day after the designated billing office has received a proper invoice from the Contractor.
      (ii) The 30th day after Government acceptance of the work or service. However, if the designated billing office fails to annotate the invoice with the actual date of receipt, the invoice payment due date shall be deemed to be the 30th day after the Contractor’s invoice is dated, provided a proper invoice is received and there is no disagreement over quantity, quality, or Contractor compliance with contract requirements.
   (b) Invoice and inspection requirements for payments other than rent. (1) The Contractor shall prepare and submit an invoice to the designated billing office after completion of
the work. A proper invoice shall include the following items:

1. Names and address of the Contractor.
2. Invoice date.
3. Lease number.
4. Government’s order number or other authorization.
5. Description, price, and quantity of work or services delivered.
6. Name and address of Contractor official to whom payment is to be sent (must be the same as that in the remittance address in the lease or the order).
7. Name (where practicable), title, phone number, and mailing address of person to be notified in the event of a defective invoice.

2. The Government will inspect and determine the acceptability of the work performed or services delivered within 7 days after the receipt of a proper invoice or notification of completion of the work or services unless a different period is specified at the time the order is placed. If actual acceptance occurs later, for the purpose of determining the payment due date and calculation of interest, acceptance will be deemed to occur on the last day of the 7 day inspection period. If the work or service is rejected for failure to conform to the technical requirements of the contract, the 7 days will be counted beginning with receipt of a new invoice or notification. In either case, the Contractor is not entitled to any payment or interest unless actual acceptance by the Government occurs.

3. (c) Interest Penalty. (1) An interest penalty shall be paid automatically by the Government, without request from the Contractor, if payment is not made by the due date.

(2) The interest penalty shall be at the rate established by the Secretary of the Treasury under Section 12 of the Contract Disputes Act of 1978 (41 U.S.C. 611) that is in effect on the day after the due date. This rate is referred to as the “Renegotiation Board Interest Rate,” and it is published in the Federal Register semiannually on or about January 1 and July 1. The interest penalty shall accrue daily on the payment amount approved by the Government and be compounded in 30-day increments inclusive from the first day after the due date through the payment date.

(3) Interest penalties will not continue to accrue after the filing of a claim for such penalties under the clause at 52.233-1, Disputes, or for more than 1 year. Interest rates penalties of less than $1.00 need not be paid.

(4) Interest penalties are not required on payment delays due to disagreement between the Government and Contractor over the payment amount or other issues involving contract compliance or on amounts temporarily withheld or retained in accordance with the terms of the contract. Claims involving disputes, and any interest that may be payable, will be resolved in accordance with the clause at 52.233-1, Disputes.

(c) The Contractor and the ordering agency may agree to use the credit card for dollar amounts over the micro-purchase threshold, and the Government encourages the Contractor to accept payment by the purchase card. The dollar value of a purchase card action must not exceed the ordering agency’s established limit. If the Contractor will not accept payment by the purchase card for an order exceeding the micro-purchase threshold, the Contractor must so advise the ordering agency within 24 hours of receipt of the order.

(b) The Contractor must accept the Governmentwide commercial purchase card for payments equal to or less than the micro-purchase threshold (see Federal Acquisition Regulation 2.101) for oral or written orders under this contract.

As prescribed in 532.206(b), insert the following clause:

PAYMENTS BY NON-FEDERAL ORDERING ACTIVITIES (MAY 2003)

If eligible non-federal ordering activities are subject to a State prompt payment law, the terms and conditions of the applicable State law apply to the orders placed under this contract by such activities. If eligible non-federal ordering activities are not subject to a State prompt payment law, the terms and conditions of the Federal Prompt Payment Act as reflected in Federal Acquisition Regulation clause 52.232-25, Prompt Payment, or 52.212-4, Contract Terms and Conditions—Commercial Items, apply to such activities in the same manner as to Federal ordering activities.

552.232–82 Contractor’s Remittance (Payment) Address.

As prescribed in 532.206(c), insert the following provision:

CONTRACTOR’S REMITTANCE (PAYMENT) ADDRESS (MAY 2003)

(a) Payment by electronic funds transfer (EFT) is the preferred method of payment. However, under certain conditions, the ordering activity may elect to make payment by check. The offeror shall indicate below the payment address to which checks should be mailed for payment of proper invoices submitted under a resultant contract.

Payment Address: ______________________________________________________________________

(b) Offeror shall furnish by attachment to this solicitation, the remittance (payment) addresses of all authorized participating dealers receiving orders and accepting payment by check in the name of the Contractor in care of the dealer, if different from their ordering address(es) specified elsewhere in this solicitation. If a dealer’s ordering and remittance address differ, both must be furnished and identified as such.

(c) All offerors are cautioned that if the remittance (payment) address shown on an actual invoice differs from that shown in paragraph (b) of this provision or on the attachment, the remittance address(es) in paragraph (b) of this provision or attached will govern. Payment to any other address, except as provided for through EFT payment methods, will require an administrative change to the contract.

NOTE: All orders placed against a Federal Supply Schedule contract are to be paid by the individual ordering activity placing the order. Each order will cite the appropriate ordering activity payment address, and proper invoices should be sent to that address. Proper invoices should be sent to GSA only for orders placed by GSA. Any other ordering activity’s invoices sent to GSA will only delay your payment.

552.232–83 Contractor’s Billing Responsibilities.

As prescribed in 532.206(d), insert the following clause:

CONTRACTOR’S BILLING RESPONSIBILITIES (MAY 2003)

The Contractor is required to perform all billings made pursuant to this contract. However, if the Contractor has dealers that participate on the contract and the billing/payment process by the Contractor for sales made by the dealer is a significant administrative burden, the following alternative procedures may be used. Where dealers are allowed by the Contractor to bill ordering activities and accept payment in the Contractor’s name, the Contractor agrees to obtain from all dealers participating in the performance of the contract a written agreement, which will require dealers to—

(1) Comply with the same terms and conditions regarding prices as the Contractor for sales made under the contract;

(2) Maintain a system of reporting sales under the contract to the manufacturer, which includes—
(i) The date of sale;  
(ii) The ordering activity to which the sale was made;  
(iii) The service or product/model sold;  
(iv) The quantity of each service or product/model sold;  
(v) The price at which it was sold, including discounts; and  
(vi) All other significant sales data.

(3) Be subject to audit by the Government, with respect to sales made under the contract; and

(4) Place orders and accept payments in the name of the Contractor in care of the dealer.

An agreement between a Contractor and its dealers pursuant to this procedure will not establish privity of contract between dealers and the Government.

552.236–70 Definitions.

As prescribed in 536.570–1, insert the following clause:

DEFINITIONS (APR 1984)

The terms “Administration” and “Service” as used in this contract shall mean the General Services Administration (GSA) and the Public Buildings Service (PBS), respectively.

(End of clause)

552.236–71 Authorities and Limitations.

As prescribed in 536.570–2, insert the following clause:

AUTHORITIES AND LIMITATIONS (APR 1984)

(a) All work shall be performed under the general direction of the Contracting Officer, who alone shall have the power to bind the Government and to exercise the rights, responsibilities, authorities and functions vested in him by the contract documents, except that he shall have the right to designate authorized representatives to act for him. Wherever any provision in this contract specifies an individual (such as, but not limited to, Construction Engineer, Resident Engineer, Inspector or Custodian) or organization, whether governmental or private, to perform any act on behalf of or in the interests of the Government, that individual or organization shall be deemed to be the Contracting Officer’s authorized representative under this contract but only to the extent so specified. The Contracting Officer may, at any time during the performance of this contract, vest in any such authorized representatives additional power and authority to act for him or designate additional representatives, specifying the extent of their authority to act for him; a copy of each document vesting additional authority in an authorized representative or designating an additional authorized representative shall be furnished to the Contractor.

(b) The Contractor shall perform the contract in accordance with any order (including but not limited to instruction, direction, interpretation, or determination) issued by an authorized representative in accordance with his authority to act for the Contracting Officer; but the Contractor assumes all the risk and consequences of performing the contract in accordance with any order (including but not limited to instruction, direction, interpretation, or determination) of anyone not authorized to issue such order.

(End of clause)

552.236–72 Specialist.

As prescribed in 536.570–3, insert the following clause:

SPECIALIST (APR 1984)

The term “Specialist,” as used in the contract specification, shall mean an individual or firm of established reputation (or, if newly organized, whose personnel have previously established a reputation in the same field), which is regularly engaged in, and which maintains a regular force of workmen skilled in either (as applicable) manufacturing or fabricating items required by the contract, installing items required by the contract, or otherwise performing work required by the contract. Where the contract specification requires installation by a specialist, that term shall also be deemed to mean either the manufacturer of the item, an individual or firm licensed by the manufacturer, or an individual or firm who will perform the work under the manufacturer’s direct supervision.

(End of clause)

552.236–73 Basis of Award—Construction Contract.

As prescribed in 536.570–4, insert the following provision or the appropriate Alternate:

Basis of Award—Construction Contract

(a) The low bidder for purposes of award is the responsible bidder offering the lowest price for the base bid (consisting of the lump sum bid and any associated unit price bids extended by the applicable number of units shown on the bid form). See Standard Form 142, Solicitation, Offer, and Award and the
48 CFR Ch. 5 (10–1–09 Edition) 552.236–73

(b) A bid may be rejected as nonresponsive if the bid is materially unbalanced as to bid prices. A bid is unbalanced when the bid is based on prices significantly less than cost for some work and significantly overstated for other work.

(End of provision)

Alternate I (APR 1985). If the solicitation includes a base bid and options, the Contracting Officer shall delete paragraph (a) of the basic provision and insert paragraph (a) substantially as follows:

(a) The low bidder for purposes of award is the responsible bidder offering the lowest aggregate price for (1) the base bid consisting of the lump sum bid and any associated unit price bids extended by the applicable number of units shown on the bid form plus (2) all options designated to be evaluated. The evaluation of options will not obligate the Government to exercise the options. See Standard Form 1442, Solicitation, Offer, and Award and the provision entitled “Contract Award—Sealed Bidding.”

Alternate II (APR 1985). If the solicitation includes a base bid and alternates, the Contracting Officer shall delete paragraph (a) of the basic provision and insert paragraphs (a), (c), and (d) substantially as follows:

(a) The low bidder for purposes of award is the responsible bidder offering the lowest aggregate price for (1) the base bid consisting of the lump sum bid and any associated unit price bids extended by the applicable number of units shown on the bid form plus (2) those alternates in the order of priority listed in the solicitation that provide the most features of work within the funds available at bid opening. See the provision entitled “Contract Award—Sealed Bidding.”

(c) Alternates will be added to the base bid in the order listed in the solicitation (see Standard Form 1442, Solicitation, Offer, and Award). If the addition of an alternate would make all bids exceed the funds available at bid opening, that alternate shall be skipped and the next subsequent alternate in a lower amount shall be added, provided that the aggregate of base bid and the selected alternates do not exceed the funds available at bid opening. For example, when the amount available is $100,000 and a bidder’s base bid is $85,000, with its separate bids on four successive alternatives being $10,000, $8,000, $6,000, and $4,000, the aggregate amount of the bid for purposes of selecting the alternates would be $99,000 (base bid plus the first and fourth alternates). The second and third alternates are skipped because each of them would cause the aggregate of the base bid and alternates to exceed the $100,000 amount available when considered with the first alternate. All bids shall be evaluated on the basis of the same alternates.

(d) After the low bidder has been determined in accordance with paragraph (a), an award may be made to that low bidder on the base bid, plus any combination of alternates for which funds are available at the time of award, but only if the award amount does not exceed the amount offered by any other responsible bidder. If the base bid plus the proposed combination of alternates exceed the amount offered by any other responsible bidder for the same combination of alternates, the award cannot be made on that combination of alternates.

Alternate III (APR 1985). If the solicitation includes a base bid, alternates, and options, the Contracting Officer shall delete paragraph (a) of the basic provision and insert paragraphs (a), (c), and (d) substantially as follows:

(a) The low bidder for purposes of award is the responsible bidder offering the lowest aggregate price for (1) the base bid consisting of the lump sum bid and any associated unit price bids extended by the applicable number of units shown on the bid form plus (2) those alternates in the order of priority listed in the solicitation that provide the most features of work within the funds available at bid opening plus (3) all options designated to be evaluated except those options associated with alternates which are skipped during the selection process outlined in paragraph (c) below. The evaluation of options will not obligate the Government to exercise the options. See the provision entitled “Contract Award—Sealed Bidding.”

(c) Alternates will be added to the base bid in the order listed in the solicitation (see Standard Form 1442, Solicitation, Offer, or Award). If the addition of an alternate would make all bids exceed the funds available at bid opening, that alternate shall be skipped and the next subsequent alternate in a lower amount shall be added, provided that the aggregate of base bid and the selected alternates do not exceed the funds available at bid opening. For example, when the amount available is $100,000 and a bidder’s base bid is $85,000, with its separate bids on four successive alternates being $10,000, $8,000, $6,000, and $4,000, the aggregate amount of the bid for purposes of selecting the alternates would be $99,000 (base bid plus the first and fourth alternates). The second and third alternates are skipped because each of them would cause the aggregate of the base bid and alternates to exceed the $100,000 amount available.
available when considered with the first alternate. All bids shall be evaluated on the basis of the same alternates.

(d) After the low bidder has been determined in accordance with paragraph (a), award may be made to that low bidder on the base bid and evaluated options plus any combination of alternates for which funds are available at the time of award, but only if that low bidder is still low on the sum thereof plus any previously unevaluated options designated to be evaluated which are associated with proposed alternates that were skipped during the selection under paragraph (c). If that low bidder is not still low, award cannot be made on the proposed combination of alternates.

552.236–74 Working Hours.

As prescribed in 536.570–5, insert the following clause:

WORKING HOURS (APR 1984)

(a) It is contemplated that all work will be performed during the customary working hours of the trades involved unless otherwise specified in this contract. Work performed by the Contractor at his own volition outside such customary working hours shall be at no additional expense to the Government.

(b) Any requests received by the Contractor from occupants of existing buildings to change the hours of work shall be referred to the Contracting Officer for determination.

(End of clause)

552.236–75 Use of Premises.

As prescribed in 536.570–6, insert the following clause:

USE OF PREMISES (APR 1984)

(a) If the premises are occupied, the Contractor, his subcontractors, and their employees shall comply with the regulations governing access to, operation of, and conduct while in or on the premises and shall perform the work required under this contract in such a manner as not to unreasonably interrupt or interfere with the conduct of Government business.

(b) Any request received by the Contractor from occupants of existing buildings to change the sequence of work shall be referred to the Contracting Officer for determination.

(c) If the premises are occupied, the Contractor, his subcontractors and their employees shall not have access to or be admitted into any building outside the scope of this contract except with official permission.

(End of clause)

552.236–77 Specifications and Drawings

As prescribed in 536.570–7, insert the following clause:

SPECIFICATIONS AND DRAWINGS (SEP 1999)

The requirements of the clause entitled "Specifications and Drawings for Construction" at FAR 52.236–21, are supplemented as follows:

(a) In case of difference between small and large-scale drawings, the large-scale drawings shall govern. Schedules on any contract drawing shall take precedence over conflicting information on that or any other contract drawing. On any of the drawings where a portion of the work is detailed or drawn out and the remainder is shown in outline, the parts detailed or drawn out shall apply also to all other like portions of the work.

(b) Where the word “similar” occurs on the drawings, it shall have a general meaning and not be interpreted as being identical, and all details shall be worked out in relation to their location and their connection with other parts of the work.

(c) Standard Details or Specification Drawings are applicable when listed, bound with the specifications, noted on the drawings or referenced elsewhere in the specifications. Where the notes on the drawings indicate modifications, such modifications shall govern.

(d) In case of difference between Standard Details or Specification Drawings and the specifications, the specifications will govern. In case of difference between the Standard Details or Specification Drawings and their drawings prepared specifically for this contract, the latter shall govern.

(End of clause)
SHOP DRAWINGS, COORDINATION DRAWINGS, AND SCHEDULES

The requirements of the clause entitled "Specifications and Drawings for Construction" at FAR 52.236-21, are supplemented as follows:

(a) The Contractor shall submit shop drawings, coordination drawings, and schedules for approval as required by the specifications or requested by the Contracting Officer as follows:

(b) Show drawings shall include fabrication, erection and setting drawings, schedule drawings, manufacturers’ scale drawings, wiring and control diagrams, cuts or entire catalogs, pamphlets, descriptive literature, and performance and test data.

(c) Drawings and schedules, other than catalogs, pamphlets and similar printed material, shall be submitted in reproducible form with two prints made by a process approved by the Contracting Officer. Upon approval, the reproducible form will be returned to the Contractor who shall then furnish the number of additional prints, not to exceed 10, required by the specifications. The Contractor shall submit shop drawings in catalog, pamphlet and similar printed form in a minimum of four copies plus as many additional copies as the Contractor may desire or need for his use or by subcontractors.

(d) Before submitting shop drawings on the mechanical and electrical work, the Contractor shall submit and obtain the Contracting Officer’s approval of such lists of mechanical and electrical equipment and materials as may be required by the specifications.

(e) Each shop drawing or coordination drawing shall have a blank area 5 by 5 inches, located adjacent to the title block. The title block shall display the following:
Number and title of drawing
Date of drawing or revision
Name of project building or facility
Name of Contractor and (if appropriate)
  name of subcontractor submitting drawing
Clear identity of contents and location on the work
Project title and contract number

(f) Unless otherwise provided in this contract, or otherwise directed by the Contracting Officer, shop drawings, coordination drawings and schedules shall be submitted to the Contracting Officer, with a letter in triplicate, sufficiently in advance of construction requirements to permit no less than 10 working days for checking and appropriate action.

(g) Approval of drawings and schedules will be general and shall not be construed as permitting any departure from the contract requirements, or as approving departures from full-size details furnished by the Contracting Officer.

SAMPLES

As prescribed in 536,570-10, insert the following clause:

SAMPLES (APR 1984)

(a) After the award of the contract, the Contractor shall furnish for the approval of the Contracting Officer samples required by the specifications or by the Contracting Officer. Samples shall be delivered to the Contracting Officer or to the Architect as specified or as directed. The Contractor shall prepay all shipping charges on samples. Materials or equipment for which samples are required shall not be used in the work until approved in writing by the Contracting Officer.

(b) Each sample shall have a label indicating:

(1) Name of project building or facility, project title and contract number.

(2) Name of Contractor and, if appropriate, name of subcontractor.

(3) Identification of material or equipment with specification requirement.

(4) Place of origin.

(5) Name of producer and brand (if any).

Samples of finished materials shall have additional markings that will identify them under the finish schedules.

(c) The Contractor shall mail under separate cover a letter in triplicate submitting each shipment of samples and containing the information required in paragraph (b) of this clause. He shall enclose a copy of this letter with the shipment and send a copy to the Government representative on the project. Approval of a sample shall be only for the characteristics or use named in such approval and shall not be construed to change or modify any contract requirement. Substitutions will not be permitted unless they are approved in writing by the Contracting Officer.

(d) Approved samples not destroyed in testing will be sent to the Government representative at the project. Approved samples of hardware in good condition will be marked for identification and may be used in the work. Materials and equipment, incorporated in the work shall match the approved samples. Other samples not destroyed in testing or not approved will be returned to the Contractor at his expense if so requested at time of submission.
General Services Administration

552.236–83

(e) Failure of any material to pass the specified tests will be sufficient cause for refusal to consider, under this contract, any further samples of the same brand or make of that material or equipment which previously has proved unsatisfactory in service.

(f) Samples of various materials or equipment delivered on the site or in place may be taken by the Government representative for testing. Samples failing to meet contract requirements, or there shall be a proper adjustment of the contract price as determined by the Contracting Officer.

(g) Unless otherwise specified, when tests are required only one test of each sample proposed for use will be made at the expense of the Government. Samples which do not meet specification requirements will be rejected. Testing of additional samples will be made by the Government at the expense of the Contractor.

(End of clause)

552.236–80 Heat.

As prescribed in 536.570–11, insert the following clause:

HEAT (APR 1984)

Unless otherwise specified or unless already provided by the Government the Contractor shall:

(a) Provide heat, as necessary to protect all work, materials, and equipment against injury from dampness and cold;

(End of clause)

552.236–81 Use of Equipment by the Government.

As prescribed in 536.570–12, insert the following clause:

USE OF EQUIPMENT BY THE GOVERNMENT (APR 1984)

552.238–72 Identification of Products That Have Environmental Attributes.

As prescribed in 538.273(a)(3), insert the following clause:

Identification of Products That Have Environmental Attributes (SEP 2003)

(a) Several laws, Executive orders, and Agency directives require Federal buyers to purchase products that are less harmful to the environment, when they are life cycle cost-effective (see FAR Subpart 23.7). The U.S. General Services Administration (GSA) requires contractors to highlight environmental products under Federal Supply Service schedule contracts in various communications media (e.g., publications and electronic formats).

(b) Definitions. As used in this clause—

Energy-efficient product means a product that—

(1) Meets Department of Energy and Environmental Protection Agency criteria for use of the ENERGY STAR® trademark label; or

(2) Is in the upper 25 percent of efficiency for all similar products as designated by the Department of Energy’s Federal Energy Management Program.

GSA Advantage! is an on-line shopping mall and ordering system that provides customers with access to products and services under GSA contracts.

Other environmental attributes refers to product characteristics that provide environmental benefits, excluding recovered materials and energy and water efficiency. Several examples of these characteristics are biodegradable, recyclable, reduced pollutants, ozone safe, and low volatile organic compounds (VOCs).

Post-consumer material means a material or finished product that has served its intended use and has been discarded for disposal or recovery, having completed its life as a consumer item. Post-consumer material is part of the broader category of “recovered material.” The Environmental Protection Agency (EPA) has developed a list of EPA-designated products in their Comprehensive Procurement Guidelines (CPGs) to provide Federal agencies with purchasing recommendations on specific products in a Recovered Materials Advisory Notice (RMAN). The RMAN contains recommended recovered and post-consumer material content levels for the specific products designated by EPA (40 CFR part 247 and http://www.epa.gov/cpg/).

Recovered materials means waste materials and by-products recovered or diverted from solid waste, but the term does not include those materials and by-products generated from, and commonly reused within, an original manufacturing process (Executive Order 13101 and 42 U.S.C. 6963(19) and http://www.epa.gov/cpg/). For paper and paper products, see the definition at FAR 11.301 (42 U.S.C. 6962(h)).

Remanufactured means factory rebuilt to original specifications.

Renewable energy means energy produced by solar, wind, geothermal, and biomass power.

Renewable energy technology means—

(1) Technologies that use renewable energy to provide light, heat, cooling, or mechanical or electrical energy for use in facilities or other activities; or

(2) The use of integrated whole-building designs that rely upon renewable energy resources, including passive solar design.

(c)(2) The offeror must identify products that—

(i) Are compliant with the recovered and post-consumer material content levels recommended in the Recovered Materials Advisory Notices (RMANs) for EPA-designated products in the CPG program (http://www.epa.gov/cpg/);

(ii) Contain recovered materials that either do not meet the recommended levels in the RMANs or are not EPA-designated products in the CPG program (see FAR 23.401 and http://www.epa.gov/cpg/);

(iii) Are energy-efficient, as defined by either ENERGY STAR® at http://www.energystar.gov/ and FEMP at http://www.eere.energy.gov/femp/procurement/;

(iv) Are water-efficient;

(v) Use renewable energy technology;

(vi) Are remanufactured; and

(vii) Have other environmental attributes.

(2) These identifications must be made in each of the offeror’s following mediums:
General Services Administration

552.238–74

(1) The Contractor shall accurately report the dollar value, in U.S. dollars and rounded to the nearest whole dollar, of all sales under this contract by calendar quarter (January 1–March 31, April 1–June 30, July 1–September 30, and October 1–December 31). The dollar value of a sale is the price paid by the Schedule user for products and services on a Schedule task or delivery order. The reported contract sales value shall include the Industrial Funding Fee (IFF). The Contractor shall maintain a consistent accounting method of sales reporting, based on the Contractor’s established commercial accounting practice. The acceptable points at which sales may be reported include—

(1) Receipt of order;
(2) Shipment or delivery, as applicable;
(3) Issuance of an invoice; or
(4) Payment.

(2) Contract sales shall be reported to FSS within 30 calendar days following the completion of each reporting quarter. The Contractor shall continue to furnish quarterly reports, including “zero” sales, through physical completion of the last outstanding task order or delivery order of the contract.

(3) Reportable sales under the contract are those resulting from sales of contract items to authorized users unless the purchase was conducted pursuant to a separate contracting authority such as a Government-wide Acquisition Contract (GWAC); a separately awarded FAR Part 12, FAR Part 13, FAR Part 14, or FAR Part 15 procurement; or a non-FAR contract. Sales made to state and local governments under Cooperative Purchasing authority shall be counted as reportable sales for IFF purposes.

(4) The Contractor shall electronically report the quarterly dollar value of sales, including “zero” sales, by utilizing the automated reporting system at an Internet website designated by the General Services Administration (GSA)’s Federal Supply Service (FSS). Prior to using this automated system, the Contractor shall complete contract registration with the FSS Vendor Support Center (VSC). The website address, as well as registration instructions and reporting procedures, will be provided at the time of award. The Contractor shall report sales separately for each National Stock Number (NSN), Special Item Number (SIN), or sub-item.

552.238–73 Cancellation.

As prescribed in 538.273(a)(4), insert the following clause:

CANCELLATION (SEP 1999)

Either party may cancel this contract in whole or in part by providing written notice. The cancellation will take effect 30 calendar days after the other party receives the notice of cancellation. If the Contractor elects to cancel this contract, the Government will not reimburse the minimum guarantee.

552.238–74 Industrial Funding Fee and Sales Reporting.

As prescribed in 538.273(b)(1), insert the following clause:

INDUSTRIAL FUNDING FEE AND SALES REPORTING (JUL 2003)

(a) Reporting of Federal Supply Schedule Sales. The Contractor shall report all contract sales under this contract as follows:

(1) The offer itself.
(2) Printed commercial catalogs, brochures, and price lists.
(3) Online product website.
(iv) Electronic data submission for GSA Advantage® submitted via GSA’s Schedules Input Program (SIP) software or the Electronic Data Inter-change (EDI). Offerors can use the SIP or EDI methods to indicate environmental and other attributes for each product that is translated into respective icons in GSA Advantage®.
(d) An offeror, in identifying an item with an environmental attribute, must possess evidence or rely on a reasonable basis to substantiate the claim (see 16 CFR part 260, Guides for the Use of Environmental Marketing Claims). The Government will accept an offeror’s claim of an item’s environmental attribute on the basis of—

(1) Participation in a Federal agency-sponsored program (e.g., the EPA and DOE ENERGY STAR® product labeling program);
(2) Verification by an independent organization that specializes in certifying such claims; or
(3) Possession of competent and reliable evidence. For any test, analysis, research, study, or other evidence to be “competent and reliable,” it must have been conducted and evaluated in an objective manner by persons qualified to do so, using procedures generally accepted in the profession to yield accurate and reliable results.

(End of clause)
(b) The Contractor shall remit the IFF at the rate set by GSA’s FSS.

(1) The Contractor shall remit the IFF to FSS in U.S. dollars within 30 calendar days after the end of the reporting quarter; final payment shall be remitted within 30 days after physical completion of the last outstanding task order or delivery order of the contract.

(2) The IFF represents a percentage of the total quarterly sales reported. This percentage is set at the discretion of GSA’s FSS. GSA’s FSS has the unilateral right to change the percentage at any time, but not more than once per year. FSS will provide reasonable notice prior to the effective date of the change. The IFF reimburses FSS for the costs of operating the Federal Supply Schedules Program and recoups its operating costs from ordering activities. Offerors must include the IFF in their prices. The fee is included in the award price(s) and reflected in the total amount charged to ordering activities. FSS will post notice of the current IFF at http://fss.fsis.gsa.gov/ or successor website as appropriate.

(c) Within 60 days of award, an FSS representative will provide the Contractor with specific written procedural instructions on remitting the IFF. FSS reserves the unilateral right to change such instructions from time to time, following notification to the Contractor.

(d) Failure to remit the full amount of the IFF within 30 calendar days after the end of the applicable reporting period constitutes a contract debt to the United States Government under the terms of FAR Subpart 32.6. The Government may exercise all rights under the Debt Collection Improvement Act of 1996, including withholding or setting off payments and interest on the debt (see FAR clause 52.232-17, Interest). Should the Contractor fail to submit the required sales reports, falsify them, or fail to timely pay the IFF, this is sufficient cause for the Government to terminate the contract for cause.

(End of clause)

[88 FR 41,288, July 11, 2003]

552.238–75 Price Reductions.

As prescribed in 538.273(b)(2), insert the following clause:

**PRICE REDUCTIONS (MAY 2004)**

(a) Before award of a contract, the Contracting Officer and the Offeror will agree upon (1) the customer (or category of customers) which will be the basis of award, and (2) the Government’s price or discount relationship to the identified customer (or category of customers). This relationship shall be maintained throughout the contract period. Any change in the Contractor’s commercial pricing or discount arrangement applicable to the identified customer (or category of customers) which disturbs this relationship shall constitute a price reduction.

(b) During the contract period, the Contractor shall report to the Contracting Officer all price reductions to the customer (or category of customers) that was the basis of award. The Contractor’s report shall include an explanation of the conditions under which the reductions were made.

(c)(1) A price reduction shall apply to purchases under this contract if, after the date negotiations conclude, the Contractor—

(i) Revises the commercial catalog, pricelist, schedule or other document upon which contract award was predicated to reduce prices;

(ii) Grants more favorable discounts or terms and conditions than those contained in the commercial catalog, pricelist, schedule or other documents upon which contract award was predicated; or

(iii) Grants special discounts to the customer (or category of customers) that formed the basis of award, and the change disturbs the price/discount relationship of the Government to the customer (or category of customers) that was the basis of award.

(2) The Contractor shall offer the price reduction to the Government with the same effective date, and for the same time period, as extended to the commercial customer (or category of customers).

(d) There shall be no price reduction for sales—

(1) To commercial customers under firm, fixed-price definite quantity contracts with specified delivery in excess of the maximum order threshold specified in this contract;

(2) To Federal agencies;

(3) Made to State and local government entities when the order is placed under this contract (and the State and local government entity is the agreed upon customer or category of customer that is the basis of award); or

(4) Caused by an error in quotation or billing, provided adequate documentation is furnished by the Contractor to the Contracting Officer.

(e) The Contractor may offer the Contracting Officer a voluntary Government-wide price reduction at any time during the contract period.

(f) The Contractor shall notify the Contracting Officer of any price reduction subject to this clause as soon as possible, but not later than 15 calendar days after its effective date.

(g) The contractor will be modified to reflect any price reduction which becomes applicable in accordance with this clause.

To the extent authorized by law, parties to this new contract are encouraged to resolve disputes through Alternative Dispute Resolution. Likewise, a Blanket Purchase Agreement (BPA), although not a contract, is an agreement that incorporates the terms and conditions of the Schedule contract as a part of a statement of work (SOW) or statement of objective (SOO) to the extent that these terms and conditions do not conflict with the terms and conditions of the Schedule contract. The ordering activity and the Contractor expressly acknowledge that, in entering into an agreement for the ordering activity to purchase goods or services from the Contractor, neither the ordering activity nor the Contractor will look to, primarily or in any secondary capacity, or file any claim against the United States or any of its agencies with respect to any failure of performance by the other party.

(4) The ordering activity is responsible for all payments due the Contractor under the contract formed by acceptance of the ordering activity’s order, without recourse to the agency of the U.S. Government, which awarded the Schedule contract.

(5) The Contractor is encouraged, but not obligated, to accept orders from such entities. The Contractor may, within 5 days of receipt of the order, decline to accept any order, for any reason. The Contractor shall fulfill orders placed by such entities, which are not declined within the 5-day period.

(6) The supplies or services purchased will be used for governmental purposes only and will not be resold for personal use. Disposal of property acquired will be in accordance with the established procedures of the ordering activity for the disposal of personal property.

(b) If the Schedule Contractor accepts an order from an entity identified in paragraph (d) of the clause at 552.238–78, Scope of Contract (Eligible Ordering Activities), the Contractor agrees to the following conditions:

(1) The ordering activity is responsible for all payments due the Contractor for the contract formed by acceptance of the order, without recourse to the agency of the U.S. Government, which awarded the Schedule contract.

(2) The Contractor is encouraged, but not obligated, to accept orders from such entities. The Contractor may, within 5 days of receipt of the order, decline to accept any order, for any reason. The Contractor shall decline the order using the same means as those used to place the order. The Contractor shall fulfill orders placed by such entities, which are not declined within the 5-day period.

(c) In accordance with clause 552.238–74, Industrial Funding Fee and Sales Reporting, the Contractor must report the quarterly dollar value of all sales under this contract. When submitting sales reports, the Contractor must report two dollar values for each Special Item Number:

(1) The dollar value for sales to entities identified in paragraph (a) of the clause at 552.238–78, Scope of Contract (Eligible Ordering Activities), and

(2) The dollar value for sales to entities identified in paragraph (d) of clause 552.238–78.

(End of clause)

As prescribed in 538.7104(c), insert the following clause:

**USE OF FEDERAL SUPPLY SCHEDULE CONTRACTS BY CERTAIN ENTITIES—RECOVERY PURCHASING (FEB 2007)**

(a) If an entity identified in paragraph (d) of the clause at 552.238–78, Scope of Contract (Eligible Ordering Activities)—Alternate I, elects to place an order under this contract, the entity agrees that the order shall be subject to the following conditions:

1. When the Contractor accepts an order from such an entity, a separate contract is formed which incorporates by reference all the terms and conditions of the Schedule contract except the Disputes clause, the patent indemnity clause, and the portion of the Commercial Item Contract Terms and Conditions that specifies “Compliance with laws unique to Government contracts” (which applies only to contracts with entities of the Executive branch of the U.S. Government). The parties to this new contract which incorporates the terms and conditions of the Schedule contract are the individual ordering activity and the Contractor. The U.S. Government shall not be liable for the performance or nonperformance of the new contract. Disputes which cannot be resolved by the parties to the new contract may be litigated in any State or Federal court with jurisdiction over the parties, applying Federal procurement law, including statutes, regulations and case law, and, if pertinent, the Uniform Commercial Code. To the extent authorized by law, parties to this new contract are encouraged to resolve disputes through Alternative Dispute Resolution. Likewise, a Blanket Purchase Agreement (BPA), although not a contract, is an agreement that may be entered into by the Contractor with such an entity and the Federal Government is not a party.

2. Where contract clauses refer to action by a Contracting Officer or a Contracting Officer of GSA, that shall mean the individual responsible for placing the order for the ordering activity (e.g., Federal Acquisition Regulation 52.212-4 at paragraph (t) and FSS clause 1-FSS-238 B).

3. As a condition of using this contract, eligible ordering activities agree to abide by all terms and conditions of the Schedule contract, except for those deleted clauses or portions of clauses mentioned in paragraph (a)(1) of this clause. Ordering activities may include terms and conditions required by statute, ordinance, regulation, order, or as otherwise allowed by State and local government entities as a part of a statement of work (SOW) or statement of objective (SOO) to the extent that these terms and conditions do not conflict with the terms and conditions of the Schedule contract. The ordering activity and the Contractor expressly acknowledge that, in entering into an agreement for the ordering activity to purchase goods or services from the Contractor, neither the ordering activity nor the Contractor will look to, primarily or in any secondary capacity, or file any claim against the United States or any of its agencies with respect to any failure of performance by the other party.

4. The ordering activity is responsible for all payments due the Contractor under the contract formed by acceptance of the ordering activity’s order, without recourse to the agency of the U.S. Government, which awarded the Schedule contract.

5. The Contractor is encouraged, but not obligated, to accept orders from such entities. The Contractor may, within 5 days of receipt of the order, decline to accept any order, for any reason. The Contractor shall fulfill orders placed by such entities, which are not declined within the 5-day period.

6. The supplies or services purchased will be used for governmental purposes only and will not be resold for personal use. Disposal of property acquired will be in accordance with the established procedures of the ordering activity for the disposal of personal property.

7. The state or local government ordering activity will be responsible for purchasing products or services to be used to facilitate recovery from a major disaster declared by the President under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.) or to facilitate recovery from terrorism or nuclear, biological, chemical, or radiological attack.

(b) If the Schedule Contractor accepts an order from an entity identified in paragraph (d) of the clause at 552.238–78, Scope of Contract (Eligible Ordering Activities)—Alternate I, the Contractor agrees to the following conditions—

1. The ordering activity is responsible for all payments due the Contractor for the contract formed by acceptance of the order, without recourse to the agency of the U.S. Government, which awarded the Schedule contract.

2. The Contractor is encouraged, but not obligated, to accept orders from such entities. The Contractor may, within 5 days of receipt of the order, decline to accept any order, for any reason. The Contractor shall decline the order using the same means as those used to place the order. The Contractor shall fulfill orders placed by such entities, which are not declined within the 5-day period.

3. In accordance with clause 552.238–74, Industrial Funding Fee and Sales Reporting, the Contractor must report the quarterly dollar value of all sales under this contract.
When submitting sales reports, the Contractor must report two dollar values for each Special Item Number—

(a) The dollar value for sales to entities identified in paragraph (a) of the clause at 552.238-78, Scope of Contract (Eligible Ordering Activities)—Alternate I; and

(b) The dollar value for sales to entities identified in paragraph (d) of clause 552.238-78, Alternate I.

(d) A listing of the Federal Supply Schedule contracts for the products and services available for disaster recovery purchasing is accessible in GSA’s Schedules e-Library at Web site http://www.gsaelibrary.gsa.gov. (End of clause)

552.242–70 Status Report of Orders and Shipments.

As prescribed in 542.1107, insert the following clause:

**STATUS REPORT OF ORDERS AND SHIPMENTS**  
(FEB 9, 2009)

(a) The Contractor shall furnish to the Administrative Contracting Officer (ACO) a report covering orders received and shipments made during each calendar month of contract performance. The information required by the Government shall be reported on GSA Form 1678, Status Report of Orders and Shipments, in accordance with instructions on the form. The information required by the GSA Form 1678 may also be submitted in an automated printout form if authorized by the ACO. Alternatively, the required information may be reported by electronic data interchange using ANSI standards. For further information, contact GSA, Contract Administration Division [Insert appropriate telephone number of QVOC] Reports shall be forwarded to the Contractor with the contract. Additional copies of the form, if needed, may be reproduced by the Contractor.

(End of clause)

552.243–71 Equitable Adjustments.

As prescribed in 543.205, insert the following clause:

**EQUITABLE ADJUSTMENTS (JAN 2009)**

(a) This clause governs the determination of equitable adjustments to which the Contractor may be entitled under the “Changes” clause prescribed by FAR 52.243–7, the “Differing Site Conditions” clause prescribed by FAR 52.243–4, the “Scope of Contract” clause prescribed by FAR 52.236–2, and any other provision of this contract allowing entitlement to an equitable adjustment. This clause does not govern determination of the Contractor’s relief allowable under the “Suspension of Work” clause prescribed by FAR 52.242–14.

(b) At the written request of the Contracting Officer, the Contractor shall submit a proposal, in accordance with the requirements set forth herein, for an equitable adjustment to the contract for changes or other conditions that may entitle a Contractor to an equitable adjustment. If the Contractor deems an oral or written order to be a change to the contract, it shall promptly submit to the Contracting Officer a proposal for equitable adjustment attributable to such deemed change. The proposal shall also conform to the requirements set forth herein.

(c) The proposal shall be submitted within the time specified in the “Changes” clause, or such other time as may reasonably be required by the Contracting Officer. In the case of a proposal submitted based on the “Differing Site Conditions” clause, the notice requirement of that clause shall be met. Proposals for equitable adjustments, including no cost requests for adjustment of the contract’s required completion date, shall include a detailed breakdown of the following elements, as applicable:

(1) Direct costs.
(2) Markups.
(3) Change to the time for completion specified in the contract.
(e) **Direct costs.** The Contractor shall separately identify each item of deleted and added work associated with the change or other condition giving rise to entitlement to an equitable adjustment, including increases or decreases to unchanged work impacted by the change. For each item of work so identified, the Contractor shall propose for itself and, if applicable, its first two tiers of subcontractors, the following direct costs:

(1) Material cost broken down by trade, supplier, material description, quantity of material units, and unit cost (including all material fabrication and cost of delivery to site, unless separately itemized);
(2) Labor cost broken down by trade, employer, occupation, quantity of labor hours, and burdened hourly labor rate, together with itemization of applied labor burdens (exclusive of employer’s overhead, profit, and any labor cost burdens carried in employer’s overhead rate);
(3) Cost of equipment required to perform the work, identified with material to be placed or operation to be performed;

(4) Cost of preparation and/or revision to shop drawings and other submittals with detail set forth in paragraphs (e)(1) and (e)(2) of this clause;

(5) Delivery costs, if not included in material unit costs;

(6) Time-related costs not separately identified as direct costs, and not included in the Contractor’s or subcontractors’ overhead rates, as specified in paragraph (g) of this clause; and

(7) Other direct costs.

(f) Marked-up costs of subcontractors below the second tier may be treated as other direct costs of a second tier subcontractor, unless the Contracting Officer requires a detailed breakdown under paragraph (i) of this clause.

(g) Extensions of Time and Time-Related Costs. The Contractor shall propose a daily rate for each firm’s time-related costs during the affected period, and, for each firm, the increase or decrease in the number of work days of performance attributable to the change or other condition giving rise to entitlement to an equitable adjustment. With supporting analysis. Entitlement to time and time-related costs shall be determined as follows:

(1) Increases or decreases to a firm’s time-related costs shall be allowed only if such increase or decrease necessarily and exclusively results from the change or other condition giving rise to entitlement to an equitable adjustment.

(2) The Contractor shall not be entitled to an extension of time or recovery of its own time-related costs except to the extent that such change or other condition necessarily and exclusively causes its duration of performance to extend beyond the completion date specified in the contract.

(3) Costs may be characterized as time-related costs only if they are incurred solely to support performance of this contract and the increase or decrease in such costs is solely dependent upon the duration of a firm’s performance of work.

(4) Costs may not be characterized as time-related costs if they are included in the calculation of a firm’s overhead rate.

(5) Equitable adjustment of time and time-related costs shall not be allowed unless the analysis supporting the proposal complies with provisions specified elsewhere in this contract regarding the Contractor’s project schedule.

(h) Markups. For each firm whose direct costs are separately identified in the proposal, the Contractor shall propose an overhead rate, profit rate, and where applicable, a bond rate and insurance rate. Markups shall be determined and applied as follows:

(1) Overhead rates shall be negotiated, and may be subject to audit and adjustment.

(2) Profit rates shall be negotiated, but shall not exceed ten percent, unless entitlement to a higher rate of profit may be demonstrated.

(3) The Contractor and its subcontractor[s] shall not be allowed overhead or profit on the overhead or profit received by a subcontractor, except to the extent that the subcontractor’s costs are properly included in other direct costs as specified in paragraph (f) of this clause.

(4) Overhead rates shall be applied to the direct costs of work performed by a firm, and shall not be allowed on the direct costs of work performed by a subcontractor to that firm at any tier except as set forth below in paragraphs (h)(6) and (h)(7) of this clause.

(5) Profit rates shall be applied to the sum of a firm’s direct costs and the overhead allowed on the direct costs of work performed by that firm.

(6) Overhead and profit shall be allowed on the direct costs of work performed by a subcontractor within two tiers of a firm at rates equal to only fifty percent of the overhead and profit rates negotiated pursuant to paragraphs (h)(1) and (h)(2) of this clause for that firm, but not in excess of ten percent when combined.

(7) Overhead and profit shall not be allowed on the direct costs of a subcontractor more than two tiers below the firm claiming overhead and profit for subcontractor direct costs.

(8) If changes to a Contractor’s or subcontractor’s bond or insurance premiums are computed as a percentage of the gross change in contract value, markups for bond and insurance shall be applied after all overhead and profit is applied. Bond and insurance rates shall not be applied if the associated costs are included in the calculation of a firm’s overhead rate.

(9) No markup shall be applied to a firm’s costs other than those specified herein.

(i) At the request of the Contracting Officer, the Contractor shall provide such other information as may be reasonably necessary to allow evaluation of the proposal. If the proposal includes significant costs incurred by a subcontractor below the second tier, the Contracting Officer may require the same detail for those costs as required for the first two tiers of subcontractors, and markups shall be applied to these subcontractor costs in accordance with paragraph (h).

(1) Proposal Preparation Costs. If performed by the firm claiming them, proposal preparation costs shall be included in the labor hours proposed as direct costs. If performed by an outside consultant or law firm, proposal preparation costs shall be treated as other direct costs to the firm incurring them. Requests for proposal preparation costs shall include the following:
(1) A copy of the contract or other documentation identifying the consultant or firm, the scope of the services performed, the manner in which the consultant or firm was to be compensated, and if compensation was paid on an hourly basis, the fully burdened and marked-up hourly rates for the services provided.

(2) If compensation was paid on an hourly basis, documentation of the quantity of hours worked, including descriptions of the activities for which the hours were billed, and applicable rates.

(3) Written proof of payment of the costs requested. The sufficiency of the proof shall be determined by the Contracting Officer.

(k) Proposal preparation costs shall be allowed only if—

(1) The nature and complexity of the change or other condition giving rise to entitlement to an equitable adjustment warrants estimating, scheduling, or other effort not reasonably foreseeable at the time of contract award;

(2) Proposed costs are not included in a firm’s time-related costs or overhead rate; and

(3) Proposed costs were incurred prior to the time the request for equitable adjustment otherwise became a matter in dispute.

(l) Proposed direct costs, markups, and proposal preparation costs shall be allowable in the determination of an equitable adjustment only if they are reasonable and otherwise consistent with the contract cost principles and procedures set forth in part 31 of the Federal Acquisition Regulation (48 CFR part 31) in effect on the date of this contract.

(m) If the Contracting Officer determines that it is in the Government’s interest that the Contractor proceed with a change before negotiation of an equitable adjustment is completed, the Contracting Officer may order the Contractor to proceed on the basis of a unilateral modification to the contract increasing or decreasing the contract price by an amount to be determined later. Such increase or decrease shall not exceed the increase or decrease proposed by the Contractor.

(n) If the parties cannot agree to an equitable adjustment, the Contracting Officer may determine the equitable adjustment unilaterally.

(o) The Contractor shall not be entitled to any proposal preparation costs incurred subsequent to the date of a unilateral determination or denial of the request if the Contracting Officer issues a unilateral determination or denial under any of the following circumstances:

(1) The Contractor fails to submit a proposal within the time required by this contract or such time as may reasonably be required by the Contracting Officer.

(2) The Contractor fails to submit additional information requested by the Contracting Officer within the time reasonably required.

(3) Agreement to an equitable adjustment cannot be reached within 60 days of submission of the Contractor’s proposal or receipt of additional requested information, despite the Contracting Officer’s diligent efforts to negotiate the equitable adjustment.

(a) Inspection system and inspection of facilities. (1) The inspection system maintained by the Contractor under the Inspection of Supplies—Fixed Price clause (FAR 52.246–2) of this contract shall be maintained throughout the contract period. Unless otherwise authorized in writing by the Contracting Officer, the Contractor shall comply with all requirements of editions in effect on the date of the solicitation of either Federal Standard 368 or the International Organization for Standardization (ISO) Standard 9001:2000 (Quality Management Systems—Requirements). A documented description of the inspection system shall be made available to the Government before contract award. At the sole discretion of the Contracting Officer, he/she may authorize in writing exceptions to the quality assurance standards identified above. The Contractor shall immediately notify the Administrative Contracting Officer (ACO) of any changes made in the inspection system during the contract period. As used herein, the term “inspection system” means the Contractor’s own facility or any other facility acceptable to the Government that will be used to perform inspections or tests of materials and components before incorporation into end articles and for inspection of such end articles before shipment. When the manufacturing plant is located outside of the United States, the Contractor shall arrange delivery of the items from a plant or warehouse located in the United States (including Puerto Rico and the U.S. Virgin Islands) equipped to perform all
inspections and tests required by the contract or specifications to evidence conformance therewith, or shall arrange with a testing laboratory or other facility in the United States, acceptable to the Government, to perform the required inspections and tests.

(2) In addition to the requirements in Federal Standard 368, ISO 9001:2000 or as otherwise approved by the Government, records shall include the date inspection and testing were performed. These records shall be available for (i) 3 years after final payment; or (ii) 4 years from the end of the Contractor’s fiscal year in which the record was created, whichever period expires first.

(3) Offerors are required to specify, in the space provided elsewhere in this solicitation, the name and address of each manufacturing plant or other facility where supplies will be available for inspection, indicating the item number(s) to which each applies.

(4) The Contractor shall provide the Administrative Contracting Officer ACO with the name(s) of the individual and an alternate responsible for the inspection system. In the event that the designated individual(s) becomes unavailable to oversee the inspection system, the Contractor, within 10 calendar days of such event, shall provide the ACO with the names of the replacement individual(s).

(3) During the contract period, a Government representative may periodically select samples of supplies produced under this contract for Government verification, inspection, and testing. Samples selected for testing will be disposed of as follows: Samples from an accepted lot, not damaged in the testing process, will be returned promptly to the Contractor after completion of tests. Samples damaged in the testing process will be disposed of as requested by the Contractor. Samples from a rejected lot will be returned to the Contractor or disposed of in a time and manner agreeable to both the Contractor and the Government.

(4) **Quality deficiencies.** (1) Notwithstanding any other clause of this contract concerning the conclusiveness of acceptance by the Government, any supplies or production lots shipped under this contract found to be defective in material or workmanship, or otherwise not in conformity with the requirements of this contract within a period of 48 months after acceptance shall, at the Government’s option, be replaced, repaired, or otherwise corrected by the Contractor at no cost to the Government. Shipment shall not be made until inspection by the Government is completed and shipment is authorized by the Government.

(2) The offeror shall indicate, in the spaces provided below, the location(s) at which the supplies will be inspected or made available for inspection.

(b) **Inspection by the Contractor.** The Contractor is required to demonstrate that the supplies in the shipment have been subject to and have passed all inspections and tests required by the contract and meet the requirements of the contract.

(c) **Inspection by Government personnel.** (1) Although the Government will normally rely upon the Contractor’s representation as to the quality of supplies shipped, it reserves the right under the Inspection of Supplies—Fixed Price clause to inspect and test all supplies called for by this contract, before acceptance, at all times and places, including the point of manufacture. When the Government notifies the Contractor of its intent to inspect supplies before shipment, the Contractor shall notify or arrange for subcontractors to notify the designated GSA quality assurance office 7 workdays before the date when supplies will be ready for inspection. Shipment shall not be made until inspection by the Government is completed and shipment is authorized by the Government.

found not to comply with contract requirements, or (ii) deficiencies in either plant quality or process controls are found. Upon receipt of a QDN, the Contractor shall take immediate corrective action and shall suspend shipment of the supplies covered by the QDN until such time as corrective action has been completed. The Contractor shall notify the Government representative, within 5 workdays, of the action plan or the corrective action taken. The Government may elect to verify the corrective action at the Contractor's location(s). Shipments of nonconforming supplies will be returned at the Contractor's expense and may constitute cause for termination of the contract. Delays due to noncompliance or non-availability of a QDN do not constitute excusable delay under the default clause of this contract. Failure to complete corrective action in a timely manner may result in termination of the contract.

(3) This contract may be terminated for default if subsequent Government inspection discloses that plant quality or process controls are not being maintained, supplies that do not meet the requirements of the contract are being shipped, or if the contractor fails to comply with any other requirement of this clause.

(e) Additional cost for inspection and testing. The Contractor shall be charged for any additional cost of inspection/testing or re-inspecting/retesting supplies for the reasons stated in paragraph (e) of FAR 52.246-2, Inspection of Supplies—Fixed Price. When inspection or testing is performed by or under the direction of GSA, charges will be at the rate of $** per man-hour or fraction thereof if the inspection is at a GSA distribution center; $** per man-hour or fraction thereof, plus travel costs incurred, if the inspection is at any other location; and $** per man-hour or fraction thereof for laboratory testing, except that when a testing facility other than a GSA laboratory performs all or part of the required tests, the Contractor shall be assessed the actual cost incurred by the Government as a result of testing at such facility. When inspection is performed by or under the direction of any agency other than GSA, the charges indicated above may be used, or the agency may assess the actual cost of performing the inspection and testing.

(f) Responsibility for rejected supplies. When the Contractor fails to remove or provide instructions for the removal of rejected supplies under paragraph (d) of this clause, pursuant to the Contracting Officer's instructions, the Contractor shall be liable for all costs incurred by the Government in taking such measures as are expedient to avoid unnecessary loss to the Contractor. In addition to the remedies provided in FAR 52.246-2, supplies may be—

(1) Stored and charged against the Contractor's account;
(2) Reshipped to the Contractor at its expense (any additional expense incurred by the Government or the freight carrier caused by the refusal of the Contractor to accept their return shall also be charged against the Contractor's account);
(3) Sold to the highest bidder on the open market and the proceeds applied against the accumulated storage and other costs, including the cost of the sale; or
(4) Otherwise disposed of by the Government.

(End of clause)

*Normally insert 12 months as the period during which defective or otherwise nonconforming supplies must be replaced. However, when the supplies being bought have a shelf life of less than 1 year, you should use the shelf-life period, or in the instance where you reasonably expect a longer period to be available, you should use the longer period.

**The rates to be inserted are established by the Commissioner of the Federal Acquisition Service or a designee.

SOURCE INSPECTION BY GOVERNMENT (JUNE 1, 2009)

(a) Inspection by Government personnel. (1) Supplies to be furnished under this contract will be inspected at source by the Government before shipment from the manufacturing plant or other facility designated by the Contractor, unless the Contractor is otherwise notified in writing by the Contracting Officer or a designated representative. Notwithstanding the foregoing, the Government may perform any or all tests contained in the contract specifications at a Government facility without prior written notice by the Contracting Officer before release of the supplies for shipment. Samples sent to a Government resting facility will be disposed of as follows: Samples from an accepted lot, not damaged in the testing process, will be returned promptly to the Contractor after completion of tests. Samples damaged in the
testing process will be disposed of as requested by the Contractor. Samples from a rejected lot will be returned to the Contractor or disposed of in a time and manner agreeable to both the Contractor and the Government.

(2) Government inspection responsibility will be assigned to the GSA quality assurance office which has jurisdiction over the State in which the Contractor's subcontractor's plant or other designated point for inspection is located. The Contractor shall notify or arrange for subcontractors to notify the designated GSA quality assurance office 7 workdays before the date when supplies will be ready for inspection. Shipment shall not be made until after inspection by the Government is completed and shipment is authorized by Government.

(b) Inspection and receiving reports. For each shipment, the Contractor shall be responsible for preparation and distribution of inspection documents as follows: (1) DD Form 250, Material Inspection and Receiving Report, or computer formatted equivalent for deliveries to military agencies; or (2) GSA Form 308, Notice of Inspection for deliveries to GSA or other civilian agencies. When required, the Contractor will be furnished a supply of GSA Form 308 and/or DD Form 250, and complete instructions for their preparation and distribution.

(c) Inspection facilities. (1) The inspection system required to be maintained by the Contractor in accordance with FAR 52.246-2, Inspection of Supplies—Fixed Price, may be the Contractor’s own facilities or any other facilities acceptable to the Government. The facilities shall be utilized to perform all inspections and tests of materials and components before incorporation into end articles, and for the inspection of such end articles before shipment. The Government reserves the right to evaluate the acceptability and effectiveness of the Contractor’s inspection system before award and periodically during the contract period.

(2) Offerors are required to specify, in the spaces provided elsewhere in the solicitation, the name and address of each manufacturing plant or other facility where supplies will be available for inspection, indicating the item number(s) to which each applies.

(3) The Contractor shall deliver the items specified in this contract from a plant or warehouse located within the United States (including Puerto Rico and the U.S. Virgin Islands) that is equipped to perform all inspections and tests required by this contract or specifications to evidence conformance therewith, or shall arrange with a testing laboratory or other facility in the United States, acceptable to the Government, to perform the required inspections and tests.

(d) Availability of records. (1) In addition to any other requirement of this contract, the Contractor shall maintain records showing the following information for each order received under the contract: (i) order number; (ii) date order received by the Contractor; (iii) quantity ordered; (iv) date scheduled into production; (v) batch or lot number, if applicable; (vi) date inspected and/or tested; (vii) date available for shipment; (viii) date shipped or date service completed; and (ix) National Stock Number (NSN), or if none is provided in the contract, the applicable item number or other contractual identification.

(2) These records should be maintained at the point of source inspection and shall be available to the Contracting Officer, or an authorized representative, for (i) 3 years after final payment; or (ii) 4 years from the end of the Contractor’s fiscal year in which the record was created, whichever period expires first.

(e) Additional cost for inspection and testing. The Contractor will be charged for any additional cost for inspecting/testing or reinspecting/testing supplies for the reasons stated in paragraph (e) of FAR 52.246-2, Inspection of Supplies—Fixed Price. When inspection or testing is performed by or under the direction of GSA, charges will be at the rate of $ per man-hour or fraction thereof if the inspection is at a GSA distribution center; $ per man-hour or fraction thereof, plus travel costs incurred, if the inspection is at any other location; and $ per man-hour or fraction thereof for laboratory testing, except that when a testing facility other than a GSA laboratory performs all or part of the required tests, the Contractor shall be assessed the actual cost incurred by the Government as a result of testing at such facility. When inspection is performed by or under the direction of any agency other than GSA, the charges indicated above may be used, or the agency may assess the actual cost of performing the inspection and testing.

(f) Responsibility for rejected supplies. When the Contractor fails to remove or provide instructions for the removal of rejected supplies under FAR 52.246-2(h) pursuant to the Contracting Officer’s instructions, the Contractor shall be liable for all costs incurred by the Government in taking such measures as are expedient to avoid unnecessary loss to the Contractor. In addition to the remedies provided in FAR 52.246-2, supplies may be—

(1) Stored for the Contractor’s account;

(2) Reshipped to the Contractor at its expense (any additional expense incurred by the Government or the freight carrier caused by the refusal of the Contractor to accept their return also shall be for the Contractor’s account); or

(3) Sold to the highest bidder on the open market and the proceeds applied against the accumulated storage and other costs, including the cost of the sale.

INSTRUCTIONS TO OFFERORS—ACQUISITION OF LEASEHOLD INTERESTS IN REAL PROPERTY.

As prescribed in 570.602, insert the following provision:

INSTRUCTIONS TO OFFERORS—ACQUISITION OF LEASEHOLD INTERESTS IN REAL PROPERTY (MAR 1998)

(a) Definitions. As used in this provision—
"Discussions" are negotiations that occur after establishment of the competitive range that may, at the contracting Officer’s discretion, result in the offeror being allowed to revise its proposal.
"In Writing" or "Written" means any worded or numbered expression which can be read, reproduced, and later communicated, and includes electronically transmitted and stored information.
"Proposal modification" is a change made to a proposal before the solicitation’s closing date and time, or made in response to an amendment, or made to correct a mistake at any time before award.
"Proposal revision" is a change to a proposal made after the solicitation closing date, at the request of as allowed by a Contracting Officer as the result or of negotiations.
"Time," if stated as a number of days, is calculated using calendar days, unless otherwise specified, and will include Saturdays, Sundays, and legal holidays. However, if the last day falls on a Saturday, Sunday, or legal holiday, then the period shall include the next working day.

(b) Amendments to solicitations. If this solicitation is amended, all terms and conditions that are not amended remain unchanged. Offerors shall acknowledge receipt of any amendment to this solicitation by the date and time specified in the amendment(s).
(c) Submission, modification, revision, and withdrawal of proposals. (1) Unless other methods (e.g., electronic commerce or facsimile) are permitted in the solicitation, proposals and modifications to proposals shall be submitted in paper media in sealed envelopes or packages. Offers must be:
   (i) Submitted on the forms prescribed and furnished by the Government as a part of this solicitation or on copies of those forms, and
   (ii) Signed. The person signing an offer must initial each erasure or change appearing on any offer form. If the offeror is a partnership, the names of the partners composing the firm must be included with the offer.

(2) Late proposals and revisions. (i) The Government will not consider any proposal received at the office designated in the solicitation after the exact time specified for receipt of offers unless it is received before the Government makes award and it meets at least one of the following conditions:
   (A) It was sent by registered or certified mail not later than the 5th calendar day before the date specified for receipt of offers (e.g., an offer submitted in response to solicitation requiring receipt of offers by the 20th of the month must have been mailed by the 15th).
   (B) It was sent by mail (or telegram or facsimile, if authorized) or hand-carried (including delivery by a commercial carrier) if it is determined by the Government that the late receipt was due primarily to Government mishandling after receipt at the Government installation.
   (C) It was sent by U.S. Postal Service Express Mail Next Day Service-Post Office to Addressee, not later than 5:00 p.m. at the place of mailing two working days prior to the date specified for receipt of proposals. The term “working days” excludes weekends and U.S. Federal holidays.
   (D) It was transmitted through an electronic commerce method authorized by the solicitation and was received at the initial point of entry of the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of proposals.
   (E) There is acceptable evidence to establish that it was received at the activity designated for receipt of offers and was under the Government’s control prior to the time set for receipt of offers, and the Contracting Officer determines that accepting the late offer would not unduly delay the procurement.
   (F) It is the only proposal received.

(ii) Any modification or revision of a proposal or response to request for information, including any final proposal revision, is subject to the same conditions as in subparagraphs (c)(2)(1)(A) through (c)(2)(1)(E) of this provision.

(3) The only acceptable evidence to establish the date of mailing of a late proposal or modification or revision sent either by registered or certified mail is the U.S. or Canadian Postal Service postmark both on the envelope or wrapper and on the original receipt from the U.S. or Canadian Postal Service. Both postmarks must show a legible date or the proposal, response to a request
for information, or modification or revision shall be processed as if mailed late. "Postmark" means a printed, stamped, or otherwise placed impression (exclusive of a post- age meter machine impression) that is readily identifiable without further action as having been supplied and affixed by employees of the U.S. or Canadian Postal Service on the postal envelope or wrapper. Therefore, senders should request the postal clerk to place a legible hand cancellation bull's eye postmark on both the receipt and the envelope or wrapper.

(iv) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the proposal wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(v) The only acceptable evidence to establish the date of mailing of a late offer, modification or revision, or withdrawal sent by Express Mail Next Day Service—Post Office to Adresssee is the date entered by the post office receiving clerk on the "Express Mail Next Day Service—Post Office to Addressee" label and the postmark on both the envelope or wrapper and on the original receipt from the U.S. Postal Service. "Postmark" has the same meaning as defined in paragraph (c)(2)(i) of this provision, excluding postmarks of the Canadian Postal Service. Therefore, offerors or respondents should request the postal clerk to place a legible hand cancellation bull’s eye postmark on both the receipt and the envelope or wrapper.

(vi) Notwithstanding paragraph (c)(2)(i) of this provision, a late modification or revision of an otherwise successful proposal that makes its terms more favorable to the Government will be considered at any time it is received and may be accepted.

(vii) An offeror may withdraw its proposal by written notice or telegram (including mailgram) received at any time before award. If the solicitation authorizes facsimile proposals, an offeror may withdraw its proposal via facsimile received at any time before award, subject to the conditions specified in the provision entitled "Facsimile Proposals." Proposals may be withdrawn in person by an offeror or an authorized representative, if the representative’s identity is made known and the representative signs a receipt for the proposal before award.

(viii) If an emergency or unanticipated event interrupts normal Government processes so that proposals cannot be received at the office designated for receipt of proposals by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of proposals will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office.

(3) Any information given to a prospective offeror concerning this solicitation will be furnished promptly to all other prospective offerors, if that information is necessary in submitting offers or if the lack of it would be prejudicial to any other prospective offeror.

(4) Offerors may submit modifications to their proposals at any time before the solicitation closing date and time, and may submit modifications in response to an amendment, or to correct a mistake at any time before award.

(5) Offerors may submit revised proposals only if requested or allowed by the Contracting Officer.

(6) The Government will construe an offer to be in full and complete with this solicitation unless the offer describes any deviation in the offer.

(7) Offerors may submit proposals that depart from stated requirements. Such a proposal shall clearly identify why the acceptance of the proposal would be advantageous to the Government. The proposal must clearly identify and explicitly define any deviations from the terms and conditions of the solicitation, as well as the comparative advantage to the Government. The Government reserves the right to amend the solicitation to allow all offerors an opportunity to submit revised proposals based on the revised requirements.

(d) Restriction on disclosure and use of data. An offeror that includes in its proposal data that it does not want disclosed to the public for any purpose, or use by the Government except for evaluation purposes, must meet both of the following conditions:

(1) Mark the title page with the following legend:

This proposal includes data that shall not be disclosed outside the Government and shall not be duplicated, used, or disclosed—in whole or in part—for any purpose other than to evaluate this proposal. If, however, a lease is awarded to this offeror as a result of—or in connection with—the submission of this data, the Government shall have the right to duplicate, use, or disclose the data to the extent provided in the resulting contract. This restriction does not limit the Government’s right to use information contained in this data if it is obtained from another source without restriction. The data subject to this restriction are contained in sheets [insert numbers or other identification of sheets].

(2) Mark each sheet of data it wishes to restrict with the following legend:

Use or disclosure of data contained on this sheet is subject to the restriction on the title page of this proposal.
(e) Lease award. (1) The Government intends to award a lease resulting from this solicitation to the responsible offeror whose proposal represents the best value after evaluation in accordance with the factors and subfactors in the solicitation.

(2) The Government may reject any or all proposals if such action is in the Government’s interest.

(3) The Government may waive informalities and minor irregularities in proposals received.

(4) The Government intends to evaluate proposals and award a lease after conducting discussions with offerors whose proposals have been determined to be within the competitive range. If the Contracting Officer determines that the number of proposals that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly rated proposals. Therefore, the offeror’s initial proposal should contain the offeror’s best terms from a price and technical standpoint.

(5) Exchanges with offerors after receipt of a proposal do not constitute a rejection or counteroffer by the Government.

(6) The Government may determine that a proposal is unacceptable if the price proposed are materially unbalanced between line terms or subline items. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract line items is significantly overstated or understand as indicated by the application of cost or price analysis techniques. A proposal may be rejected if the Contracting Officer determines that the lack of balance poses an unacceptable risk to the Government.

(7) The unconditional written acceptance of an offer establishes a valid contract.

(8) The Government may disclose the following conditions—

Alternate II (MAR 1998). As prescribed in 570.602, substitute the following paragraph for paragraph (e)(4) of the basic provision:

(4) The Government intends to evaluate proposals and award a lease without discussions with offerors (except clarifications as described in FAR 15.306(a)). Therefore, the offeror’s initial proposal should contain the offeror’s best terms from a cost or price and technical standpoint. The Government reserves the right to conduct discussions with offerors whose proposals are materially unbalanced between line terms or subline items. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract line items is significantly overstated or understand as indicated by the application of cost or price analysis techniques. A proposal may be rejected if the Contracting Officer determines that the lack of balance poses an unacceptable risk to the Government.

552.270–2 Historic Preference.

As prescribed in 570.602, insert the following provision:

_HISTORIC PREFERENCE (SEP 2004)_

(a) The Government will give preference to offers of space in historic properties following this hierarchy of consideration:

(1) Historic properties within historic districts.

(2) Non-historic developed and non-historic undeveloped sites within historic districts.

(3) Historic properties outside of historic districts.

(b) Definitions. (1) Determination of eligibility means a decision by the Department of the Interior that a district, site, building, structure or object meets the National Register criteria for evaluation although the property is not formally listed in the National Register (36 CFR 60.3(c)).

(2) Historic district means a geographically definable area, urban or rural, possessing a significant concentration, linkage, or continuity of sites, buildings, structures, or objects united by past events or aesthetically by plan or physical development. A district may also comprise individual elements separated geographically but linked by association or history (36 CFR 60.3(d)). The historic district must be included in or be determined eligible for inclusion in the National Register of Historic Places.

(3) Historic property means any pre-historic or historic district, site, building, structure, or object included in or been determined eligible for inclusion in the National Register.
of Historic Places maintained by the Secretary of the Interior (36 CFR 800.16(1)).

(4) National Register of Historic Places means the National Register of districts, sites, buildings, structures and objects significant in American history, architecture, archeology, engineering and culture that the Secretary of the Interior is authorized to expand and maintain under the National Historic Preservation Act (36 CFR 60.1).

(c) The offer of space must meet the terms and conditions of this solicitation. The Contracting Officer has discretion to accept alternatives to certain architectural characteristics and safety features defined elsewhere in this solicitation to maintain the historical integrity of an historic building, such as high ceilings and wooden floors, or to maintain the integrity of an historic district, such as setbacks, floor-to-ceiling heights, and location and appearance of parking.

(d) When award will be based on the lowest price technically acceptable source selection process, the Government will give a price evaluation preference, based on the total annual square foot (ANSI/BOMA Office Area) cost to the Government, to historic properties as follows:

(1) First to suitable historic properties within historic districts, a 10 percent price preference.

(2) If no suitable historic property within an historic district is offered, or the 10 percent preference does not result in such property being the lowest price technically acceptable offer, the Government will give a 2.5 percent price preference to suitable non-historic developed or undeveloped sites within historic districts.

(3) If no suitable non-historic developed or undeveloped site within a historic district is offered, or the 2.5 percent preference does not result in such property being the lowest price technically acceptable offer, the Government will give a 10 percent price preference to suitable historic properties outside of historic districts.

(4) Finally, if no suitable historic property outside of historic districts is offered, no historic price preference will be given to any property offered.

(f) The Government will compute price evaluation preferences by reducing the price(s) of the offeror(s) qualifying for a price evaluation preference by the applicable percentage provided in this provision. The price evaluation preference will be used for price evaluation purposes only. The Government will award a contract in the amount of the actual price(s) proposed by the successful offeror and accepted by the Government.

(g) To qualify for a price evaluation preference, offerors must provide satisfactory documentation in their offer that their property qualifies as one of the following:

(1) An historic property within an historic district.

(2) A non-historic developed or undeveloped site within an historic district.

(3) An historic property outside of an historic district.

As prescribed in 570.603, insert the following clause:

**FIRE AND CASUALTY DAMAGE (SEP 1999)**

If the entire premises are destroyed by fire or other casualty, this lease will immediately terminate. In case of partial destruction or damage, so as to render the premises untenantable, as determined by the Government, the Government may terminate the lease by giving written notice to the Lessor within 15 calendar days of the fire or other casualty; if so terminated, no rent will accrue to the Lessor after such partial destruction or damage; and if not so terminated, the rent will be reduced proportionately by supplemental agreement hereeto effective from the date of such partial destruction or damage. Nothing in this lease shall be construed as relieving Lessor from liability for damage to or destruction of property of the United States of America caused by the willful or negligent act or omission of Lessor.

(End of clause)

552.270–8 Compliance with Applicable Law.

As prescribed in 570.603, insert the following clause:

This lease shall be governed by Federal law.

(End of clause)

552.270–9 Inspection—Right of Entry.

As prescribed in 570.603, insert the following clause:

**INSPECTION—RIGHT OF ENTRY (SEP 1999)**

(a) At any time and from time to time after receipt of an offer (until the same has been duly withdrawn or rejected), after acceptance thereof and during the term, the agents, employees and contractors of the Government may, upon reasonable prior notice to Offeror or Lessor, enter upon the offered premises or the premises, and all other areas of the building access to which is necessary to accomplish the purposes of entry, to determine the potential or actual compliance by the Offeror or Lessor with the requirements of the solicitation or this lease, which purposes shall include, but not be limited to:

(1) Inspecting, sampling and analyzing suspected asbestos-containing materials and air monitoring for asbestos fibers;

(2) Inspecting the heating, ventilation and air conditioning system, maintenance records, and mechanical rooms for the offered premises or the premises;

(3) Inspecting for any leaks, spills, or other potentially hazardous conditions which may involve tenant exposure to hazardous or toxic substances; and

(4) Inspecting for any current or past hazardous waste operations, to ensure that appropriate mitigative actions were taken to alleviate any environmentally unsound activities in accordance with Federal, State and local law.

(b) Nothing in this clause shall be construed to create a Government duty to inspect for toxic materials or to impose a higher standard of care on the Government than on other lessees. The purpose of this clause is to promote the ease with which the Government may inspect the building. Nothing in this clause shall act to relieve the Lessor of any duty to inspect or liability which might arise as a result of Lessor's failure to inspect for or correct a hazardous condition.

(End of clause)

552.270–10 Failure in Performance.

As prescribed in 570.603, insert the following clause:

**FAILURE IN PERFORMANCE (SEP 1999)**

The covenant to pay rent and the covenant to provide any service, utility, maintenance, or repair required under this lease are interdependent. In the event of any failure by the Lessor to provide any service, utility, maintenance, repair or replacement required under this lease the Government may, by
contract or otherwise, perform the require-
ment and deduct from any payment or pay-
ments under this lease, then or thereafter
due, the resulting cost to the Government,
including all administrative costs. If the
Government elects to perform any such re-
quirement, the Government and each of its
contractors shall be entitled to access to any
and all areas of the building, access to which
is necessary to perform any such require-
ment, and the Lessor shall afford and facilit-
tate such access. Alternatively, the Government
may deduct from any payment under
this lease, then or thereafter due, an amount
which reflects the reduced value of the con-
tact requirement not performed. No deduc-
tion from rent pursuant to this clause shall
constitute a default by the Government
under this lease. These remedies are not ex-
clusive and are in addition to any other rem-
edies which may be available under this
lease or at law.

(End of clause)

552.270–11 Successors Bound.

As prescribed in 570.603, insert the
following clause:

SUCCESSORS BOUND (SEP 1999)

This lease shall bind, and inure to the ben-
efit of, the parties and their respective heirs,
executors, administrators, successors and as-
signs.

(End of clause)

552.270–12 Alterations.

As prescribed in 570.603, insert the
following clause:

ALTERATIONS (SEP 1999)

The Government shall have the right dur-
ing the existence of this lease to make alter-
ations, attach fixtures, and erect structures
or signs in or upon the premises hereby
leased, which fixtures, additions or struc-
tures so placed in, on, upon, or attached to
the said premises shall be and remain the
property of the Government and may be re-
moved or otherwise disposed of by the Gov-
ernment. If the lease contemplates that the
Government is the sole occupant of the
building, for purposes of this clause, the
leased premises include the land on which
the building is sited and the building itself.
Otherwise, the Government shall have the
right to tie into or make any physical con-
nection with any structure located on the
property as is reasonably necessary for ap-
propriate utilization of the leased space.

(End of clause)

552.270–13 Proposals for Adjustment.

As prescribed in 570.603, insert the
following clause:

PROPOSALS FOR ADJUSTMENT (SEP 1999)

(a) The Contracting Officer may, from time
to time during the term of this lease, require
changes to be made in the work or services
to be performed and in the terms or condi-
tions of this lease. Such changes will be re-
quired under the Changes clause.

(b) If the Contracting Officer makes a
change within the general scope of the lease,
the Lessor shall submit, in a timely manner,
an itemized cost proposal for the work to be
accomplished or services to be performed
when the cost exceeds $100,000. The proposal,
including all subcontractor work, will con-
tain at least the following details—
(1) Material quantities and unit costs;
(2) Labor costs (identified with specific
item or material to be placed or operation to
be performed);
(3) Equipment costs;
(4) Worker’s compensation and public li-
ability insurance;
(5) Overhead;
(6) Profit; and
(7) Employment taxes under FICA and
FUTA.

(c) The following Federal Acquisition Reg-
ulation (FAR) provisions also apply to all
proposals exceeding $500,000 in cost—
(1) The Lessor shall provide cost or pricing
data including subcontractor cost or pricing
data (48 CFR 15.403–4); and
(2) The Lessor’s representative, all Con-
tractors, and subcontractors whose portion
of the work exceeds $500,000 must sign and
return the “Certificate of Current Cost or
Pricing Data” (48 CFR 15.406–2).

(d) Lessors shall also refer to 48 CFR Part
31, Contract Cost Principles, for information
on which costs are allowable, reasonable, and
allocable in Government work.

(End of clause)

552.270–14 Changes.

As prescribed in 570.603, insert the
following clause:

CHANGES (SEP 1999)

(a) The Contracting Officer may at any
time, by written order, make changes within
the general scope of this lease in any one or
more of the following:
(1) Specifications (including drawings and
designs);
(2) Work or services;
(3) Facilities or space layout;
(4) Amount of space, provided the Lessor
consents to the change.
(b) If any such change causes an increase or decrease in Lessor’s cost of or the time required for performance under this lease, whether or not changed by the order, the Contracting Officer shall modify this lease to provide for one or more of the following:

1. A modification of the delivery date.
2. An equitable adjustment in the rental rate.
3. A lump sum equitable adjustment.
4. An equitable adjustment of the annual operating costs per usable square foot specified in this lease.

(c) The Lessor must assert its right to an adjustment under this clause within 30 days from the date of receipt of the change order and must submit a proposal for adjustment. Failure to agree to any adjustment shall be a dispute under the Disputes clause. However, nothing in this clause excuses the Lessor from proceeding with the change as directed.

(d) Absent such written change order, the Government is not liable to Lessor under this clause.

(End of clause)

552.270–15 Liquidated Damages.

As prescribed in 570.603, insert the following clause:

 LIQUIDATED DAMAGES (SEP 1999)

In case of failure on the part of the Lessor to complete the work within the time fixed in the lease contract or letter of award, the Lessor shall pay the Government as fixed and agreed liquidated damages, pursuant to this clause, the sum $ for each and every calendar day that the delivery is delayed beyond the date specified for delivery of all the space ready for occupancy by the Government. This remedy is not exclusive and is in addition to any other remedies which may be available under this lease or at law.

(End of clause)

552.270–16 Adjustment for Vacant Premises.

As prescribed in 570.603, insert the following clause:

 ADJUSTMENT FOR VACANT PREMISES (SEP 1999)

(a) If the Government fails to occupy any portion of the leased premises or vacates the premises in whole or in part before the lease term expires, the rental rate will be reduced by that portion of the costs per usable square foot of operating expenses not required to maintain the space. The reduction takes effect 30 calendar days after the Government gives notice to the Lessor, and continues in effect until the Government occupies the premises or the lease expires or is terminated.

(End of clause)

552.270–17 Delivery and Condition.

As prescribed in 570.603, insert the following clause:

 DELIVERY AND CONDITION (SEP 1999)

(a) Unless the Government elects to have the space occupied in increments, the space must be delivered ready for occupancy as a complete unit. The Government reserves the right to determine when the space is substantially complete.

(b) If the premises do not in every respect comply with the provisions of this lease the Contracting Officer may, in accordance with the Failure in Performance clause of this lease, elect to reduce the rent payments.

(End of clause)

552.270–18 Default in Delivery—Time Extensions.

As prescribed in 570.603, insert the following clause:

 DEFAULT IN DELIVERY—TIME EXTENSIONS (SEP 1999)

(a) With respect to Lessor’s obligation to deliver the premises substantially complete by the delivery date, time is of the essence. If the Lessor fails to work diligently to ensure its substantial completion by the delivery date or fails to substantially complete the work by such date, the Government may by notice to the Lessor terminate this lease. Such termination is effective when received by Lessor. The Lessor and the Lessor’s sureties, if any, are jointly and severally liable for any damages to the Government resulting from such termination, as provided in this clause. The Government is entitled to the following damages:

1. The Government’s aggregate rent, estimated real estate tax, and operating cost adjustments for the firm term and all option terms of its replacement lease or leases, in excess of the aggregate rent and estimated real estate tax and operating cost adjustments for the term. If the Government procures replacement premises for a term (including all option terms) in excess of this lease term, the Lessor is not liable for excess Government rent or adjustments during such excess lease term.

(2) All administrative and other costs the Government incurs in procuring a replacement lease or leases.

(3) Other, additional relief provided for in this lease, at law, or in equity.

297
(b) Damages to which the Government is entitled under this clause are due and payable thirty (30) days following the date Lessor receives notice from the Contracting Officer specifying such damages.

(c) Delivery by Lessor of less than the minimum usable square footage required by this lease shall in no event be construed as substantial completion, except as the Contracting Officer permits.

(d) The Government shall not terminate this lease under this clause nor charge the Lessor with damages under this clause, if (1) the delay in substantially completing the work arises from excusable delays, and (2) the Lessor within 10 days from the beginning of any such delay (unless extended in writing by the Contracting Officer) provides notice to the Contracting Officer of the cause of delay. The Contracting Officer shall ascertain the facts and the extent of delay. If the facts warrant, the Contracting Officer shall extend the delivery date, to the extent of such delay at no additional costs to the Government. A time extension is the sole remedy of the Lessor.

(End of clause)

552.270–19 Progressive Occupancy.

As prescribed in 570.603, insert the following clause:

PROGRESSIVE OCCUPANCY (SEP 1999)

The Government shall have the right to elect to occupy the space in partial increments prior to the substantial completion of the entire leased premises, and the Lessor agrees to schedule its work so as to deliver the space incrementally as elected by the Government. The Government shall pay rent commencing with the first business day following substantial completion of the entire leased premise unless the Government has elected to occupy the leased premises incrementally. In case of incremental occupancy, the Government shall pay rent pro rata upon the first business day following substantial completion of each incremental unit. Rental payments shall become due on the first workday of the month following the month in which an increment of space is substantially complete, except that should an increment of space be substantially completed after the fifteenth day of the month, the payment due date will be the first workday of the second month following the month in which it was substantially complete. The commencement date of the firm lease term will be a complete determined from all rent commencement dates.

(End of clause)

552.270–20 Payment.

As prescribed in 570.603, insert the following clause:

PAYMENT (SEP 1999)

(a) When space is offered and accepted, usable square footage delivered will be confirmed by either:

1. The Government’s measurement of plans submitted by the successful offeror as approved by the Government, and an inspection of the space to verify that the delivered space conforms with such plans.

2. A mutual on-site measurement of the space if the Contracting Officer determines it necessary.

(b) The Government will not pay for space in excess of the amount of usable square footage stated in the lease.

(c) If the amount of usable square footage delivered is less than the amount agreed to in the lease, the lease will be modified to reflect the amount of usable space delivered and the annual rental will be adjusted as follows:

Usable square feet (USF) not delivered multiplied by one plus the common area factor (CAF), multiplied by the rate per rentable square foot (RSF). That is:

USF \times (1+CAF) \times \text{Rate per RSF} = \text{Reduction in Annual Rent}

(End of clause)

552.270–21 Effect of Acceptance and Occupancy.

As prescribed in 570.603, insert the following clause:

EFFECT OF ACCEPTANCE AND OCCUPANCY (SEP 1999)

Neither the Government’s acceptance of the premises for occupancy, nor the Government’s occupancy thereof, shall be construed as a waiver of any requirement of or right of the Government under this Lease, or as otherwise prejudicing the Government with respect to any such requirement or right.

(End of clause)

552.270–22 Default by Lessor During the Term.

As prescribed in 570.603, insert the following clause:

DEFAULT BY LESSOR DURING THE TERM (SEP 1999)

(a) Each of the following shall constitute a default by Lessor under this lease:

1. Failure to maintain, repair, operate or service the premises as and when specified in
this lease, or failure to perform any other requirement of this lease as and when required provided any such failure shall remain uncured for a period of thirty (30) days next following Lessor’s receipt of notice thereof from the Contracting Officer or an authorized representative.

(2) Repeated and unexcused failure by Lessor to comply with one or more requirements of this lease shall constitute a default notwithstanding that one or all such failures shall have been timely cured pursuant to this clause.

(b) If a default occurs, the Government may, by notice to Lessor, terminate this lease for default and if so terminated, the Government shall be entitled to the damages specified in the Default in Delivery-Time Extensions clause.

(End of clause)

552.270–23 Subordination, Nondisturbance and Attornment.

As prescribed in 570.603, insert the following clause:

SUBORDINATION, NONDISTURBANCE AND ATTORNMENT (SEP 1999)

(a) Lessor warrants that it holds such title to or other interest in the premises and other property as is necessary to the Government’s access to the premises and full use and enjoyment thereof in accordance with the provisions of this lease. Government agrees, in consideration of the warranties and conditions set forth in this clause, that this lease is subject and subordinate to any and all recorded mortgages, deeds of trust and other liens now or hereafter existing or imposed upon the premises, and to any renewal, modification or extension thereof. It is the intention of the parties that this provision shall be self-operative and that no further instrument shall be required to effect the present or subsequent subordination of this lease. Government agrees, however, within twenty (20) business days next following the Contracting Officer’s receipt of a written demand, to execute such instruments as Lessor may reasonably request to evidence further the subordination of this lease to any existing or future mortgage, deed of trust or other security interest pertaining to the premises, and to any water, sewer or access easement necessary or desirable to serve the premises or adjoining property owned in whole or in part by Lessor if such easement does not interfere with the full enjoyment of any right granted the Government under this lease.

(b) No such subordination, to either existing or future mortgages, deeds of trust or other lien or security instrument shall operate to affect adversely any right of the Government under this lease so long as the Government is not in default under this lease. Lessor will include in any future mortgage, deed of trust or other security instrument to which this lease becomes subordinate, or in a separate nondisturbance agreement, a provision to the foregoing effect. Lessor warrants that the holders of all notes or other obligations secured by existing mortgages, deeds of trust or other security instruments have consented to the provisions of this clause, and agrees to provide true copies of all such consents to the Contracting Officer promptly upon demand.

(c) In the event of any sale of the premises or any portion thereof by foreclosure of the lien of any such mortgage, deed of trust or other security instrument, or the giving of a deed in lieu of foreclosure, the Government will be deemed to have attorned to any purchaser, transferee or transforee of the premises or any portion thereof and its or their successors and assigns, and any such purchasers and transferees shall be deemed to have assumed all obligations of the Lessor under this lease, so as to establish direct privity of estate and contract between Government and such purchasers or transferees, with the same force, effect and relative priority in time and right as if the lease had initially been entered into between such purchasers or transferees and the Government; provided, further, that the Contracting Officer and such purchasers or transferees shall, with reasonable promptness following any such sale or deed delivery in lieu of foreclosure, execute all such revisions to this lease, or other writings, as shall be necessary to document the foregoing relationship.

(d) None of the foregoing provisions may be deemed or construed to imply a waiver of the Government’s rights as a sovereign.

(End of clause)

552.270–24 Statement of Lease.

As prescribed in 570.603, insert the following clause:

STATEMENT OF LEASE (SEP 1999)

(a) The Contracting Officer will, within thirty (30) days next following the Contracting Officer’s receipt of a joint written request from Lessor and a prospective lender or purchaser of the building, execute and deliver to Lessor a letter stating that the same is issued subject to the conditions stated in this clause and, if such is the case, that (1) the lease is in full force and effect; and (2) the date to which the rent and other charges have been paid in advance, if any; and (3) whether any notice of default has been issued.

(b) Letters issued pursuant to this clause are subject to the following conditions:
(1) That they are based solely upon a reasonably diligent review of the Contracting Officer’s lease file as of the date of issuance;
(2) That the Government shall not be held liable because of any defect in or condition of the premises or building;
(3) That the Contracting Officer does not warrant or represent that the premises or building comply with applicable Federal, State and local law; and
(4) That the Lessor, and each prospective lender and purchaser are deemed to have constructive notice of such facts as would be ascertainable by reasonable prepurchase and precommitment inspection of the Premises and Building and by inquiry to appropriate Federal, State and local Government officials.

(End of clause)

552.270–25 Substitution of Tenant Agency.

As prescribed in 570.603, insert the following clause:

SUBSTITUTION OF TENANT AGENCY (SEP 1999)

The Government may, at any time and from time to time, substitute any Government agency or agencies for the Government agency or agencies, if any, named in the lease.

(End of clause)

552.270–26 No Waiver.

As prescribed in 570.603, insert the following clause:

NO WAIVER (SEP 1999)

No failure by either party to insist upon the strict performance of any provision of this lease or to exercise any right or remedy consequent upon a breach thereof, and no acceptance of full or partial rent or other performance by either party during the continuance of any such breach shall constitute a waiver of any such breach of such provision.

(End of clause)

552.270–27 Integrated Agreement.

As prescribed in 570.603, insert the following clause:

INTEGRATED AGREEMENT (SEP 1999)

This Lease, upon execution, contains the entire agreement of the parties and no prior written or oral agreement, express or implied, shall be admissible to contradict the provisions of the Lease.

302
Acquisition means the acquiring by lease of an interest in improved real property for use by the Federal Government, whether the space already exists or must be constructed. 

Contract means lease. 

Contractor means lessor. 

Landlord or lessor means any individual, firm, partnership, trust, association, State or local government, or other legal entity that leases real property to the Government. 

Lease or leasehold interest in real property means a conveyance to the Government of the right of exclusive possession of real property for a definite period of time by a landlord. It may include operational services provided by the landlord. 

Lessee or tenant means the United States of America. 

Operational services means services that support use of a leased property, such as heating, ventilation, air conditioning, utilities, and custodial services. 

Rent and related services means that consideration paid for the use of leased property plus the costs of operational services whether furnished by the lessor, the Government, or both. 

Simplified lease acquisition procedures mean the procedures for awarding leases at or below the simplified lease acquisition threshold. 

Simplified lease acquisition threshold means $100,000 average annual rent for the term of the lease, including option periods and excluding the cost of operational services. 

Small business means a concern including affiliates, which is organized for profit, is independently-owned and operated, is not dominant in the field of leasing commercial real estate, and has annual average gross receipts of $15 million or less for the preceding three fiscal years. 

Solicitation for Offers (SFO) means invitation for bids in sealed bidding or request for proposals in negotiations. 

Space in buildings means the premises leased, or to be leased, including improvements. Its quantity is normally expressed in square feet. It does not include space acquired by the power of eminent domain, donation, or condemnation, nor acquisitions of bare or unimproved land.

Substantially as follows or substantially the same as, when used in prescribing a provision or clause, means that you may prepare and use a variation of that provision or clause to accommodate requirements peculiar to an individual acquisition. The variation must include the salient features of the FAR or GSAR provision or clause. It must also be consistent with the intent, principle, and substance of the FAR or GSAR provision or clause and related coverage on the subject matter.
570.105–2 Two-phase design-build selection procedures.

Unless you use another acquisition procedure authorized by law, you must use the two-phase design-build selection procedures in section 303M of the Federal Property and Administrative Services Act of 1949, as amended, for lease construction projects. This includes lease construction projects with options to purchase the real property leased. Use the procedures in section 303M when you meet the conditions in paragraphs (a) and (b) of this section:

(a) You anticipate the lease will involve the design and construction of a public building, facility, or work for lease to the Government.

(b) You determine the procedures are appropriate for entering into a lease construction contract based on the following:

1. You expect to receive three or more offers.
2. Offerors will need to perform design work before developing a price.
3. Offerors will incur a substantial amount of expense in preparing offers.
4. You consider criteria such as the following:
   - The extent to which the project requirements have been adequately defined.
   - The time constraints for delivery of the project.
   - The capability and experience of potential contractors.
   - The suitability of the project for use of the two-phase selection procedures.
   - The capability of the agency to manage the two-phase selection process.
   - Other criteria established by the HCA.

570.105–3 Sealed bidding.

For sealed bidding, use the procedures in FAR part 14. In most cases you should not use sealed bidding to acquire space in buildings unless you meet all the following conditions:

(a) You have a preselected site.
(b) A building will be constructed on the site using Government furnished plans and specifications.
(c) The Government will lease the building.

570.106 Publicizing/Advertising.

(a) Subparts 505.101, 505.202, and 505.203 define requirements for publicizing lease actions.
(b) Instead of issuing separate advertisements for multiple, known leasing actions, you may include the actions in one consolidated advertisement.

570.107 Oral presentations.

You may use oral presentations for acquisitions of leasehold interests in real property. Follow the procedures in FAR 15.102.

570.108 Responsibility determination.

(a) Determine that the prospective awardee is responsible with respect to the lease under consideration. The standards in FAR 9.104 apply. As part of the determination that a prospective contractor is otherwise qualified and eligible for award, review the List of Parties Excluded from Federal Procurement and Nonprocurement Programs.
(b) Your signature on the contract is deemed an affirmative determination.
(c) If you find an offeror nonresponsible, sign and place in the contract file a determination of nonresponsibility. State the basis for the determination.
(d) If you find a small business concern nonresponsible, the procedures at FAR 19.6 apply. Place all documents and reports supporting a determination of responsibility or nonresponsibility in the lease file.

570.109 Certifications.

Before awarding a lease, review applicable certifications for compliance with statute and regulations.

570.110 Cost or pricing data and information other than cost or pricing data.

(a) The policies and procedures of FAR 15.403 apply to lease contract actions.
(b) FAR 15.403–1 defines exceptions to and waivers for submitting cost or pricing data. Most leasing actions will have adequate price competition. For price analysis, you may use a market survey or an appraisal conducted using accepted real property appraisal procedures to establish a market price for comparison.
570.203–4 Competition.
(a) Solicit at least three sources to promote competition to the maximum extent practicable. If you have repeated requirements for space in the same market, and if practicable, invite two sources not included in the most recent solicitation to submit offers.
(b) If you solicit only one source, document the file to explain the lack of competition.

570.203–3 Soliciting offers.
(a) Solicit offers by providing each prospective offeror a proposed short form lease or SFO. The short form lease or SFO must provide all the following information:
   (1) A description of the Government’s requirements.
   (2) All award factors, including price or cost, and any significant subfactors you will consider in awarding the lease.
   (3) A statement of the relative importance of the evaluation factors and subfactors.
   (4) A statement of whether all evaluation factors other than cost or price, when combined, are either:
      (i) Significantly more important than cost or price.
      (ii) Approximately equal in importance to cost or price.
      (iii) Significantly less important than cost or price.
   (5) Either in full text or by reference, applicable FAR provisions and contract clauses required by 570.6.
(b) As necessary, review with prospective offerors the Government’s requirements, pricing matters, evaluation procedures and submissions of offers.

570.203–4 Negotiations, evaluation, and award.
(a) If you need to conduct negotiations, use the procedures in 570.307.
(b) Evaluate offers in accordance with the solicitation. Evaluate prices and document the lease file to demonstrate whether the proposed contract prices are fair and reasonable.
(c) If the total price, including options, exceeds $500,000, consider whether you need cost and pricing data to determine that the price is fair and reasonable. In most cases the exceptions at FAR 15.403–1 will apply.
(d) If the total contract value of the lease, including options, will exceed $500,000, the proposed awardee must provide an acceptable small business subcontracting plan. This requirement does not apply if the proposed awardee is a small business concern.

(e) Make award to the responsible offeror whose proposal is most advantageous to the Government considering price and other factors included in the solicitation.

Subpart 570.3—Contracting Procedures for Leasehold Interests in Real Property

570.301 Market survey.

Conduct a market survey to identify potential sources. Use information available in GSA or from other sources to identify locations capable of meeting the Government’s requirements.

570.302 Description of requirements.

(a) The description of requirements depends on the nature of the space the agency needs and the market available to satisfy that need.

(b) The description of requirements must include all the following:

(1) A statement of the purpose of the lease.
(2) Functional, performance, or physical requirements.
(3) Any special requirements.
(4) The delivery schedule.

(c) The description must promote full and open competition. Include restrictive provisions or conditions only to the extent necessary to satisfy the agency’s needs or as authorized by law.

570.303 Solicitation for offers.

570.303–1 Preparing the SFO.

The SFO forms the basis for the lease negotiation process and becomes part of the lease. Document each SFO in writing or electronically. Include the information necessary to enable prospective offerors to prepare proposals. Each SFO, at a minimum, must provide all the following:

(a) Describe the Government’s requirements.
(b) State the method the Government will use to measure space.
(c) Explain how to structure offers.

(d) Specify a date, time, and place for submission of offers.

(e) Explain how the Government will evaluate offers.

(f) Describe the source selection procedures the Government will use.

(g) Include a statement outlining the information the Government may disclose in debriefings.

(h) Include appropriate forms prescribed in 570.7.

570.303–2 Issuing the SFO.

Release the SFO to all prospective offerors at the same time.

570.303–3 Late offers, modifications of offers, and withdrawals of offers.

Follow the procedures in FAR 15.208.

570.303–4 Changes to SFOs.

(a) If the Government’s requirements change, either before or after receipt of proposals, issue an amendment. Document the amendment using the same method as for the SFO, written or electronic.

(b) If time is critical, you may provide information on SFO amendments orally.

(1) Make a record of the information provided.

(2) Provide, or attempt to provide, the notice to all offerors or prospective offerors on the same day.

(3) Promptly confirm the information provided orally in a written amendment.

(c) Distribute an amendment as follows:

(1) If before the proposal due date, send the amendment to all prospective offerors who were sent a copy of the SFO.

(2) If after proposal receipt, send the amendment to each offeror who submitted a proposal.

(d) If an amendment is so substantial that it requires a complete revision of the SFO, cancel the SFO and issue a new one.

570.304 General source selection procedures.

(a) These procedures apply to acquisitions of leasehold interests except if you use either:

(1) Simplified lease acquisition procedures authorized by 570.2.
(2) Two-phase design-build selection procedures authorized by 570.105–2.
(b) The contracting officer is designated as the source selection official unless the HCA appoints another individual for a particular leasing action or group of leasing actions.
(c) You must include price or cost to the Government and past performance as evaluation factors in every case.
(d) The SFO must comply with FAR 15.304 and either:
(1) FAR 15.101–1 if you will use the tradeoff process.
(2) FAR 15.101–2 if you will use the lowest price technically acceptable source selection process.

570.305 Two-phase design-build selection procedures.
(a) These procedures apply to acquisitions of leasehold interests if you use the two-phase design-build selection procedures authorized by 570.105–2.
(b) The SFO must include all the following information:
(1) The scope of work.
(2) The evaluation factors and subfactors to be used in evaluating phase-one proposals and their relative importance.
(3) The maximum number of offerors to be selected to submit competitive proposals in phase-two.
(4) The evaluation factors, including cost or price, and subfactors to be used in evaluating phase-two proposals and selecting the successful offeror, and their relative importance.
(c) The following procedures apply to phase-one evaluation factors:
(1) Phase one factors include:
(i) Specialized experience and technical competence.
(ii) Capability to perform.
(iii) Past performance of the offeror's team (including architect-engineer and construction members of the team).
(iv) Other appropriate factors, such as site or location.
(2) Do not require offerors to submit detailed design information or cost or price information in phase one. Do not use cost related or price related evaluation factors.
(d) Set the maximum number of offerors to be selected for phase-two to not exceed five (5) unless you determine that a number greater than five is both:
(1) In the government’s interest.
(2) Consistent with the purpose and objectives of the two-phase selection process.
(e) In phase-two, require detailed technical and price proposals. Evaluate the proposals using the procedures in 570.306.

570.306 Evaluating offers.
(a) You must evaluate offers solely in accordance with the factors and subfactors stated in the SFO.
(b) Evaluate prices and document the lease file to demonstrate that the proposed contract price is fair and reasonable.
(c) Evaluate past performance in accordance with FAR 15.305(a)(2).
(d) Document the evaluation of award factors other than price listed in the solicitation. The file must include the basis for evaluation, an analysis of each offer, and a summary of findings.

570.307 Negotiations.
(a) Follow the procedures in FAR 15.306 and 15.307 for exchanges (including clarifications, communications, negotiations, discussions, and revisions).
(b) Place a written record of all exchanges in the lease file.
(c) Provide prompt written notice to any offeror excluded from the competitive range or otherwise eliminated from the competition in accordance with FAR 15.503(a).

570.308 Award.
(a) Make award to the responsible offeror whose proposal represents the best value after evaluation in accordance with the factors and subfactors in the SFO.
(b) Make award in writing and in the timeframe specified in the SFO.
(1) If you cannot make an award in that time, request in writing from each offeror an extension of the acceptance period through a specific date.
(2) If time is critical, you may request the extensions orally. You must make a record of the requested and confirm it promptly in writing.
(c) Notify unsuccessful offerors in writing or electronically in accordance with FAR 15.501 and 15.503(b).
(d) The source selection authority may reject all proposals received in response to an SFO, if doing so is in the best interest of the Government.

570.309 Debriefings.

The procedures of FAR 15.505 and 15.506 apply to leasing actions.

Subpart 570.4—Special Aspects of Contracting for Continued Space Requirements

570.401 Renewal options.

(a) Exercise of options. Before exercising an option to renew, follow the procedures in 517.202 and 517.207. The contract must first provide the right to renew the lease.

(b) Market survey. Before exercising an option to renew a lease, review current market information to ensure the rental rate in the option is fair and reasonable.

570.402 Succeeding leases.

570.402–1 General.

(a) If a succeeding lease for the continued occupancy of space in a building does not exceed the simplified lease acquisition threshold, you may use the simplified procedures in 570.2. Explain the absence of competition in the contract file.

(b) If a succeeding lease will exceed the simplified lease acquisition threshold, you may enter into the lease under either of the following conditions:

(1) You do not identify any potential acceptable locations.

(2) You identify potential acceptable locations, but a cost-benefit analysis indicates that award to an offeror other than the present lessor will result in substantial relocation costs or duplication of costs to the Government, and the Government cannot expect to recover such costs through competition.

570.402–2 Publicizing/Advertising.

Publish a notice if required by 505.101(c). The notice should:

(a) Indicate the Government is interested in considering alternative space if economically advantageous.

(b) Advise prospective offerors that the Government will consider the cost of moving, alterations, etc., when deciding whether it should relocate.

(c) Provide a contact person for those interested in providing space to the Government.

570.402–3 Market survey.

Conduct a market survey following 570.301.

570.402–4 No potential acceptable locations.

If you do not identify any potential acceptable locations through the advertisement or the market survey, you may prepare a justification to negotiate directly with the present lessor. Fully document the efforts to locate alternative sources. Prepare the justification and obtain approval following FAR 6.3 and 506.3.

570.402–5 Potential acceptable locations.

If you identify potential acceptable locations through the advertisement or market survey, conduct a cost-benefit analysis following the procedures in 570.402–6. Based on the results of the cost-benefit analysis, take appropriate action as follows:

(a) If the cost-benefit analysis indicates that the Government will recover relocation costs and duplication of costs through competition, develop an SFO and negotiate with all interested parties following 570.3.

(b) If the cost-benefit analysis indicates that the Government cannot expect to recover relocation costs and duplication of costs through competition, prepare a justification for approval in accordance with FAR 6.3 and 506.3. Explain both:

(1) How you performed the cost-benefit analysis.

(2) That the cost-benefit analysis indicates that award to any other offeror will likely result in substantial costs to the Government that the Government cannot expect to recover through competition.
General Services Administration

570.402–6 Cost-benefit analysis.
(a) The cost-benefit analysis must consider all the following:
(1) The prices of other potentially available properties.
(2) Relocation costs, including estimated costs for moving, telecommunications, and alterations, amortized over the firm term of the lease.
(3) Duplication of costs to the Government.
(4) Other appropriate considerations.
(b) Establish the prices for other potentially available properties by requesting each prospective offeror to provide an informational quotation for standard space for comparison purposes.
(1) Adjust the prices quoted for standard space for any special requirements.
(2) You do not need a formal SFO to obtain the informational quotation. However, you must provide a general description of the Government’s needs.
(3) If you obtain oral quotations, document the following information, as a minimum:
(i) Name and address of the firm solicited.
(ii) Name of the firm’s representative providing the quote.
(iii) Price(s) quoted.
(iv) Description of the space and services for which the quote is provided.
(v) Name of the Government employee soliciting the quotation.
(vi) Date of the conversation.
(4) Compare the informational quotations to the present lessor’s price, adjusted to reflect the anticipated price for a succeeding lease.

570.403 Expansion requests.
(a) If the expansion space is in the general scope of the lease, you may acquire the space through a modification without further justification under FAR 6.3.
(b) If the expansion space needed is outside the general scope of the lease, determine whether it is more prudent to provide the expansion space by supplemental agreement to the existing lease or to satisfy the requirement by competitive means.
(1) Conduct a market survey to determine the availability of suitable alternative locations.
(2) If you identify alternate locations that can satisfy the total requirement, perform a cost-benefit analysis to determine whether it is in the Government’s best interest to relocate. Consider, as appropriate.
(i) The cost of the alternate space compared to the cost of expanding at the existing location.
(ii) The cost of moving.
(iii) The cost of duplicating existing improvements.
(iv) The cost of the unexpired portion of the firm lease term. If a termination is possible, use the actual cost of such an action.
(v) The cost of disruption to the agency’s operation.
(c) If you determine not to use competitive procedures and the expansion space is outside the general scope of the lease:
(1) If the estimated value of the acquisition does not exceed the simplified lease acquisition threshold, document the file as required by 570.203–2(b).
(2) If the estimated value of the acquisition exceeds the simplified lease acquisition threshold, prepare a justification for approval under FAR 6.3 and 506.3.

570.404 Superseding leases.
(a) Consider executing a superseding lease to replace an existing lease when the Government need numerous or detailed modifications to the space that would cause complications or substantially change the present lease.
(b) If the value of the superseding lease exceeds the simplified lease acquisition threshold, the justification and approval requirements in FAR 6.3 and 506.3 apply. If the cost does not exceed the simplified lease acquisition threshold, you may use the simplified procedures in 570.2 and explain the absence of competition in the file.

570.405 Lease extensions.
(a) This section applies to extension of the term of a lease to provide for continued occupancy on a short-term basis.
(b) If the value of a lease extension will exceed the simplified lease acquisition threshold, the justification and approval requirements in FAR 6.3 and 506.3 apply. For extensions that will
not exceed the simplified lease acquisition threshold, you may use the simplified procedures in 570.2 and explain the absence of competition in the file. 
(c) FAR 6.302–1 permits contracting without providing for full and open competition when the property or services needed by the agency are available from only one responsible source and no other type of property or services will satisfy the needs of the agency. This authority may apply to lease extensions in situations such as the following:
(1) The agency occupying the leased space is scheduled to move into other Federally controlled space, but encounters unexpected delays in preparing the new space for occupancy.
(2) The Government encounters unexpected delays outside of its control in acquiring replacement space.
(3) The Government is consolidating various agencies occupying the leased space and you need to extend the terms of some leases to establish a common expiration date.

Subpart 570.5—Special Aspects of Contracting for Lease Alterations

570.501 General.
(a) Acquire alterations through a modification to an existing lease if you meet all the following conditions:
(1) The alterations fall in the general scope of the lease. Consider whether the work can be regarded as fairly and reasonably an inseparable part of the lease requirement originally contracted for.
(2) The lessor is willing to perform the proposed alterations at a fair and reasonable price.
(3) It is in the Government’s interest to acquire the alterations from the lessor.
(b) If proposed alterations are outside the general scope of the existing lease, decide whether to acquire the alterations through either:
(1) A supplemental lease agreement, justified and approved under 570.502–1.
(2) Government performance or a separate contract. The lease must first provide the Government the right to perform alterations to the leased space.

570.502 Alterations by the lessor.
These procedures apply to alterations you acquire directly from a lessor by modification or supplement lease agreement.

570.502–1 Justification and approval requirements.
If the proposed alterations are outside the general scope of the lease and you plan to acquire them from the lessor without competition, the following justification and approval requirements apply:
(a) If the alteration project will exceed the simplified lease acquisition threshold, the justification and approval requirements in FAR 6.3 and 506.3 apply.
(b) If the alteration project will exceed $2,500, but not the simplified lease acquisition threshold, you may use simplified acquisition procedures and explain the absence of competition in the file.
(c) If the alternation project will not exceed $2,500, no justification and approval is required.

570.502–2 Procedures.
(a) Scope of work. Prepare a scope of work for each alteration project.
(b) Independent Government estimate. Obtain an independent Government estimate for each alteration project, including changes to existing alteration agreements with the lessor.
(c) Request for proposal. (1) Provide the scope of work to the lessor, including any plans and specifications, and request a proposal. Indicate in the request for proposal if the Government will make progress payments and provide for retainage, when appropriate.
(2) Request sufficient cost or price information to permit a price analysis.
(d) Audits. If you require cost or pricing data and the alteration project will exceed $500,000, request an audit.
(e) Proposal evaluation. (1) Determine if the proposal meets the Government’s requirements.
(2) Analyze price or cost. At a minimum, compare the proposed cost to the independent estimate and, if applicable, any audit received.
(3) Analyze profit following FAR 15.404–4.
(4) Document your analysis under this paragraph and the resulting negotiation objectives.

(f) Price negotiations. (1) Exercise sound judgment. You may make reasonable compromises as necessary.

(2) The negotiated price should provide the lessor with the greatest incentive for efficient and economical performance.

(3) Document negotiations in the contract file.

(g) Award. Use GSA Form 276, Supplemental Lease Agreement. If the modification does not exceed the simplified acquisition threshold, you may use GSA Form 300, Order for Supplies or Services. Reference the lease on the form.

(h) Inspection and payment. Do not make final payment for alterations until the work is:

(1) Inspected by a qualified Government employee or independent Government contractor.

570.602 GSAR solicitation provisions.

Each SFO must include provisions substantially the same as the following, unless you determine that the provision is not appropriate:

552.270–1 Instructions to Offerors—Acquisition of Leasehold Interests in Real Property. Use Alternate I if you decide that it is advantageous to the Government to allow offers to be submitted up to the exact time specified for award. Use Alternate II if the Government intends to award without discussions. These two alternatives are not exclusive.

552.270–2 Historic Preference.

552.270–3 Parties to Execute Lease.

570.603 GSAR contract clauses.

Insert clauses substantially the same as the following in solicitations and contracts for leasehold interests in real property that exceed the simplified lease acquisition threshold, unless you determine that a clause is not appropriate:

552.270–4 Definitions. You must use this clause if you use 570.270–28.

552.270–5 Subletting and Assignment.

552.270–6 Maintenance of Building and Premises—Right of Entry.

552.270–7 Fire and Casualty Damage.

552.270–12 Alterations.

552.270–13 Proposals for Adjustment.

552.270–14 Changes.

552.270–15 Liquidated Damages. Insert this clause in solicitations and contracts if you have a critical requirement to meet the delivery date and you cannot establish an actual cost for the loss to the Government resulting from late delivery.

552.270–16 Adjustment for Vacant Premises.

552.270–17 Delivery and Condition.

552.270–18 Default in Delivery—Time Extensions.

552.270–19 Progressive Occupancy.

552.270–23 Subordination, Nondisturbance and Attornment.

552.270–24 Statement of Lease.

552.270–25 Substitution of Tenant Agency.

552.270–26 No Waiver.

552.270–27 Integrated Agreement.

552.270–28 Mutuality of Obligation.

552.270–29 Acceptance of Space.

570.604 Deviations to provisions and clauses.

(a) You need a deviation approved under 501.4 to omit any required provision or clause.

(b) You also need an approved deviation to modify the language of a provision or clause mandated by statute (e.g., GSAR 552.203–5, Covenant Against Contingent Fees, FAR 52.215–2, Audit and Records—Negotiation). The authorizing statute must allow for a waiver.

(c) Certain clauses required by non-GSA regulations require approval of the issuing agency before you can delete or modify them. For example, 52.222–26, Equal Opportunity; 52.222–35, Affirmative Action for Disabled Veterans and Veterans of the Vietnam Era; and 52.222–36, Affirmative Action for Workers with Disabilities, require the approval of the Department of Labor’s Office of Federal Contract Compliance Programs before they can be deleted from or modified in the SFO or lease.
Subpart 570.7—Forms

570.701 Standard forms.

Use Standard Form 2, U.S. Government Lease for Real Property, to award leases unless you use GSA Form 3626 (see 570.702). Delete the reference to the Standard Form 2–A in paragraph 7.

570.702 GSA forms.

(a) You may use GSA Form 3626, U.S. Government Lease for Real Property (Short Form), to award leases if you use the simplified leasing procedures in 570.2 or if you determine it advantageous to use.

(b) You may use GSA Form 276, Supplemental Lease Agreement, for actions requiring the agreement of both parties. This includes actions such as amending an existing lease to acquire additional space, obtaining partial release of space, revising the terms of a lease, settling restoration claims, and acquiring alterations.

(c) You may use GSA Form 1364, Proposal To Lease Space, to obtain offers from prospective offerors.

SUBCHAPTER A—GENERAL

PART 601—DEPARTMENT OF STATE ACQUISITION REGULATIONS SYSTEM

Sec. 601.000 Scope of part.

Subpart 601.1—Purpose, Authority, Issuance

601.101 Purpose.

The DOSAR is issued to provide Department guidance in accordance with the policy cited in FAR 1.301(a)(2). The portions of this regulation that affects the relationship between a Department of State organization and a contractor or potential contractor are published in this chapter 6 of title 48 of the Code of Federal Regulations, in accordance with FAR 1.301(b).

601.105 Issuance.

601.105–3 Copies.

The DOSAR is available through the Department’s Intranet system at http://aope.a.state.gov, or through the Internet from A/OPE’s Acquisition Web site. The Internet address is: http://www.statebuy.state.gov/.

601.106 OMB approval under the Paperwork Reduction Act.

The Paperwork Reduction Act of 1980 (44 U.S.C. 3501–3520) requires that Federal agencies obtain approval from the Office of Management and Budget before collecting information from ten (10) or more members of the public. Individuals are not required to respond to information collection unless the OMB number and burden estimate information is provided. Accordingly, the information and recordkeeping requirements contained in this regulation have been approved by OMB under OMB Control Number 1405–0050. The burden estimate is 225,503 hours. The information and recordkeeping requirements for Form DS–4053, Department of State Mentor-Protege Program Application, have been approved by OMB under 1405–0050.

317
Subpart 601.2—Administration

601.201 Maintenance of the FAR.

601.201–1 The two councils.

The Office of the Procurement Executive (A/OPE) represents the Department of State (DOS) on the Civilian Agency Acquisition Council. The Procurement Executive shall appoint a representative for this purpose. A/OPE is responsible for coordinating with all interested DOS elements proposed FAR revisions and for advocating FAR revisions sought by the Department.

Subpart 601.3—Agency Acquisition Regulations

601.301 Policy.

(a) The Assistant Secretary of State for Administration is the agency head for the purposes of FAR 1.301 (see Delegation of Authority No. 120 (34 FR 18095, October 30, 1969), as amended by Delegation of Authority No. 120–4 (59 FR 38022, July 26, 1994)). Under Delegation of Authority No. 120–5 (59 FR 62771, December 6, 1994), the Assistant Secretary of State for Administration redelegated to the Procurement Executive the authority to prescribe, promulgate, and amend DOS acquisition policies, rules, and regulations.

(b) The Department of State Acquisition Regulation (DOSAR) is prescribed under the authority of 22 U.S.C. 2658 and 40 U.S.C. 486(c).

(c) The DOSAR implements and supplements the FAR.

601.302 Limitations.

(a) The FAR and the DOSAR apply to all DOS acquisitions of personal property and services, including construction, both within and outside the United States, unless expressly excluded by this subpart, or exempt from the Federal Property and Administrative Services Act of 1949, as amended (40 U.S.C. 474(7)), or undertaken pursuant to section 208 of the State Department Basic Authorities Act of 1956, as amended (22 U.S.C. 4308), or the Foreign Service Buildings Act of 1926, as amended (22 U.S.C. 292 et seq.).

(b) At posts where Joint Administrative Offices have been formed, the FAR and the DOSAR apply to all Agency for International Development (AID) administrative and technical support acquisitions, except in those areas which have been exempted by the cognizant administrative office.

Subpart 601.3—Agency Acquisition Regulations

601.303 Publication and codification.

(a) The DOSAR is issued as Chapter 6 of Title 48, Code of Federal Regulations. The DOSAR is established as Chapter 6 of the Federal Acquisition Regulations System. The DOSAR is divided into the same parts, subparts, sections, subsections, and paragraphs as is the FAR. However, when the FAR coverage is adequate by itself there will be no corresponding DOSAR coverage. Where the DOSAR implements a specific part, subpart, section, or subsection of the FAR, the DOSAR coverage is numbered and titled to correspond to the appropriate FAR number and title, except that the DOSAR number will include a 6 or 60 such that there will always be three numbers to the left of the decimal. For example, the DOSAR implementation of FAR 14.1 is shown as 614.1 and the DOSAR implementation of FAR 1.301 is shown as 601.301. Materials that supplement the FAR are assigned the numbers 70 and up. For example, DOSAR requires additional definitions than those used in FAR; this supplementary material is provided in 602.101–70.

(b) The DOSAR and its revisions are published in the Federal Register and in the Code of Federal Regulations, both of which may be purchased from the Superintendent of Documents, Government Printing Office, Washington, DC 20402.
Department of State

(c) The DOSAR shall be referenced in the same manner as described at FAR 1.105–2(c).

Subpart 601.4—Deviations from the FAR

601.403 Individual deviations.

The Procurement Executive is the agency head’s designee for the purposes of FAR 1.403.

609.405–2 Restrictions on subcontracting.

The Procurement Executive is the agency head’s designee for the purposes of FAR 9.405–2.

609.405–70 Termination action decision.

(a) Prior to making a decision to terminate, based on the consideration listed below, the contracting officer shall have the proposed action reviewed and approved by:

(1) The Office of the Legal Adviser;

(2) An individual one level above the contracting officer; and

(3) For overseas posts, A/OPE.

(b) Termination for default. Termination for default under a contract’s default clause is appropriate when the circumstances giving rise to the debarment or suspension also constitute a default in the contractor’s performance of that contract. Debarment or suspension of the contractor for reasons unrelated to the performance of that contract may not support a termination for default.

(c) Termination for convenience or cancellation. Termination for convenience or cancellation under appropriate contract clauses should be considered when the contractor presents a significant risk to the Government in completing a current contract and when such termination for convenience or cancellation is determined to be in the Government’s best interests. In making this determination, the contracting officer should consider such factors as the—

(1) Seriousness of the cause for debarment or suspension;

(2) Extent of contract performance;

(3) Potential costs to the Government;

(4) Urgency of the requirement and the impact of the delay; and/or

(5) Availability of other safeguards to protect the Government’s interests.

609.406 Debarment.

609.406–1 General.

The Procurement Executive is the agency head’s designee for the purposes of FAR 9.406–1(c).

609.406–3 Procedures.

(a) Investigation and referral. (1) DOS employees aware of any cause that may serve as the basis for debarment shall immediately refer those cases through the contracting officer to the debarring official. The debarring official shall immediately refer to the Office of the Inspector General all reported cases that involve possible criminal or fraudulent activities for investigation by that office. The Office of the Inspector General shall investigate the matter, as appropriate, and provide a copy of its investigation report to the Procurement Executive for consideration of debarment action, if and when appropriate. The contracting officer shall provide to the Procurement Executive and the Office of the Inspector General a copy of his or her intended actions in response to the Office of the Inspector General report.

(2) Referrals for consideration of debarment shall include—

(i) The cause for debarment (see FAR 9.406–2);

(ii) A statement of facts;

(iii) Copies of supporting documentary evidence and a list of all necessary or probable witnesses, including addresses and telephone numbers, together with a statement concerning
their availability to appear at a fact-finding proceeding and the subject matter of their testimony;

(iv) A list of all contractors involved, either as principals or as affiliates, including current or last known home and business addresses and ZIP codes;

(v) A statement of the acquisition history with such contractors;

(vi) A statement concerning any known pertinent active or potential criminal investigation, criminal or civil court proceedings, or administrative claim before Boards of Contract Appeals; and

(vii) A statement from each DOS organizational element affected by the debarment action as to the impact of a debarment on DOS programs.

(b) Decisionmaking process. (1) If the contractor does not respond to a debarment notice within 30 calendar days after receipt of the notice, the debarring official may put the debarment into effect.

(2) In response to the debarment notice, if the contractor or its representative notifies the debarring official within 30 days after receipt of the notice that it wants to present information and arguments in person to the debarring official, that official shall chair such a meeting within 20 calendar days of receipt of the request, unless the contractor requests a longer period of time. The oral presentation shall be conducted informally and a transcript need not be made. However, the contractor may supplement its oral presentation with written information and arguments for inclusion in the administrative record.

(3) Pursuant to FAR 9.406–3(b)(2), the contractor may request and shall be entitled to a hearing before the fact-finding panel. The fact-finding panel shall conduct the hearing within 20 calendar days of receipt of the request, unless the contractor requests a longer period of time.

(4) The debarring official shall convene the fact-finding panel for this purpose and shall provide the panel with a copy of all documentary evidence on the matter. Upon receipt of such material, the fact-finding official shall notify the contractor and schedule a hearing date.

(5) In addition to the purposes provided in FAR 9.406–3(b)(2), the hearing is intended to provide the debarring official with findings of fact based on a preponderance of evidence submitted to the fact-finding panel and to provide the debarring official with a determination as to whether a cause for debarment exists, based on the facts as found.

(6) The fact-finding panel shall conduct its hearing in accordance with rules promulgated by the fact-finding official. The rules shall be as informal as is practicable, consistent with FAR 9.406–3(b). The fact-finding official is responsible for making the transcribed record of the hearing, unless the contractor and the fact-finding panel agree to waive the requirement for a transcript.

(7) The fact-finding official shall deliver written findings and the transcribed record, if made, to the debarring official within 30 calendar days after the hearing. The findings shall resolve any facts in dispute based on a preponderance of the evidence presented and recommend whether a cause for debarment exists.

(c) Notice of proposal to debar. (1) Upon receipt of a complete referral and after consulting with the Office of the Legal Adviser, the debarring official shall decide whether to initiate debarment action.

(2) When a determination is made to initiate action, the debarring official shall provide to the contractor and any specifically named affiliates written notice in accordance with FAR 9.406–3(c). A copy of the notice shall be provided to the DOS officer who made the referral and to each DOS organizational elements affected by the determination.

(3) When a determination is made not to initiate action, the debarring official shall so advise the DOS officer who made the referral.

(d) Debarring official’s decision. In addition to complying with FAR 9.406–3(d) and FAR 9.406–3(e), the debarring official shall provide single copies of the decision to each DOS organizational element affected by the decision.
and to the General Services Administration in accordance with 609.404.

609.407 Suspension.

609.407–1 General.

The Procurement Executive is the agency head’s designee for the purposes of FAR 9.407–1(d).

609.407–3 Procedures.

(a) Investigation and referral. Investigation and referral shall be accomplished as provided in 609.406–3(a), except that referrals made to the suspending official shall cite causes pertinent to a suspension action (see FAR 9.407–2).

(b) Decisionmaking process. (1) If the contractor does not respond to a notice of suspension within 30 calendar days after receipt of the notice, the suspending official may proceed with completion of investigation.

(2) The DOS decisionmaking process for a suspension action pursuant to FAR 9.407–3(b) follow those established for a debarment action (see 609.406(b)), except that the contractor may request and shall be entitled to a hearing before the fact-finding panel only if permitted under FAR 9.407–3(b)(2).

(c) Notice of suspension. Notice of suspension shall be accomplished as provided in 609.406–3(a), except that the suspending official shall process the notice in accordance with FAR 9.407–3(c).

(d) Suspending official’s decision. In addition to complying with FAR 9.407–3(d), the suspending official shall provide single copies of the decision to each DOS organizational element affected by the decision and to the General Services Administration in accordance with 609.404.

Subpart 609.5—Organizational and Consultant Conflicts of Interests

609.503 Waiver.

The Procurement Executive is the agency head’s designee for the purposes of FAR 9.503.
Measurement sensitive means any item having an application or meaning depending substantially on some measured quantity. For example, measurement sensitive items include product or performance criteria and standards binding on others, such as emission levels, size and weight limitations, etc.

Metric system means the International System of Units (Le System International d’Unites (SI)) of the International Bureau of Weights and Measures.

Metrication means any act that increases metric system use, including metric training and initiation or conversion of measurement sensitive processes and systems to the metric system.

Soft metric means the result of mathematical conversion of inch-pound measurements to metric equivalents. The physical dimensions, however, are not changed.

Traditional system of weights and measurements means the predominant weight and measurement system currently used in the United States, also referred to as the “inch-pound system.” The traditional system includes such commonly used units as inch, foot, yard, mile, pint, quart, gallon, bushel, ounce (fluid and avoirdupois), pound, degree Fahrenheit, ampere, candela, and second.

(d) Procedures. (1) DOS contracting activities shall implement the metric system in a manner consistent with 15 U.S.C. 205a, et seq.

(2) All DOS contracting activities shall use the metric system in acquisition consistent with security, operations, economic, technical, logistical, training and safety requirements.

(3) The Department shall encourage industry to adopt the metric system by acquiring commercially available metric products and services that meet the Department’s needs whenever practical. Toward this end, solicitations for DOS acquisitions shall:

(i) State all measurement sensitive requirements in metric terms whenever possible. Alternatives to hard metric are soft, dual and hybrid metric terms. The Metric Handbook for Federal Officials regarding the selection of proper metric units and symbols is available from the National Technical Information Service; and

(ii) For contracts expected to exceed $500,000 contracting officers shall return to the requirements office all specifications and statements of work that are not expressed in some form of metric terms unless the requirements office has prepared a justification, for the approval of the contracting officer, for the use of non-metric specifications or statements of work. The justification shall be in a format as prescribed by the head of the contracting activity. Option year prices shall be considered when computing the $500,000 threshold.

(4) Waivers are not required when ordering from Federal Supply Schedules.

(5) Valid justifications for non-metric specifications or statements of work include, but are not limited to:

(i) Existing specifications or standards are in inch-pound units, unless conversion of the existing specifications or standards is necessary or advantageous to the Government. Unnecessary retrofit of existing systems with new metric components should be avoided if the total cost of the retrofit, including redesign costs, exceeds $50,000.

(ii) Metric is not the accepted industry system with respect to a business-related activity; however, soft, hybrid, or dual systems may be used during the transition to hard metric;

(iii) The use of metric is impractical or is likely to cause significant inefficiencies or loss of markets to U.S. firms.

(6) The contracting officer shall review and, if acceptable, approve the waiver prior to the release of the solicitation. The waiver shall be placed in the contract file. If the waiver is not approved, the contracting officer shall return it to the requirements office with an explanation for the disapproval.

(7) The in-house operating metric costs shall be identified. Identification includes, but is not limited to, the cost of metric aids, tools, equipment, training and increased cost to develop metric specifications. All contracting activities and requirements offices shall maintain a record of any costs and/or savings brought about by metric conversion.
(8) Bulk (loose, unpacked) materials shall be specified and purchased in metric or dual units.

(9) Measuring devices, shop and laboratory equipment shall be purchased in metric or dual units.

(10) Shipping allowances, bills of lading and other shipping documents shall be expressed in metric or dual units.

Subpart 611.6—Priorities and Allocations

SOURCE: 69 FR 19332, Apr. 13, 2004, unless otherwise noted.

611.600 Scope of subpart.

On September 18, 2001, the Department of Commerce (DOC) authorized the Department of State to use the Defense Priorities and Allocations System (DPAS). This authority expires on October 1, 2006. The Department of Defense has approved the Department’s Embassy Security Protection Program (DOSESPP) as a national defense program eligible for the priorities support under the DPAS.

611.602 General.

(c)(1) Authority to use the DPAS is limited to the following circumstances:

(i) The contract or order must be placed with a U.S. firm; and,

(ii) The contract or order must be in support of the DOSESPP, which consists of work involving the security of overseas posts. The DOSESPP includes a wide range of elements of both physical and technical security, such as:

(A) New Embassy/Consulate Compound (NEC/NCC) Program. This program involves the construction of new secure Embassies, Consulates, and related facilities, as well as renovations of newly acquired buildings when used as alternatives to the construction of new secure buildings.

(B) Physical security upgrade. This includes installation of forced entry/ballistic resistant (FE/BR) windows and doors, walls/fences, active anti-ram barriers, bollards (concrete and steel barriers), and related items.

(C) Forced entry/ballistic resistant (FE/BR) components. This includes doors, windows, and related facilities and items that can provide the necessary time to protect Government personnel from attack.

(D) Armored vehicles. This includes passenger vehicles with appropriate armoring.

(E) Entry control and building surveillance equipment. This includes walk-through metal detectors, X-ray equipment, surveillance cameras, explosive detection equipment, and other features to enhance the protection of Government personnel and facilities.

(2) DOC has assigned the following priority rating to DOSESPP contracts or orders: DO-H8.

611.603 Procedures.

(f) Department of State contracting officers are authorized to sign DO-H8 rated contracts or orders. It is the responsibility of the requirements office to determine which contracts or orders should be rated. All contracts with U.S. firms under the DOSESPP will not necessarily need to be assigned a priority rating.

(g) The contracting officer should place a DO-H8 rating on any contract or order if there is any doubt as to whether a contractor doing work for Embassy security protection will be able to deliver on time. If an unrated contract or order is not completed on time, the contracting officer may modify the contract or order to add the rating; however, the rating shall only be effective for the newly established delivery date, not the original delivery date.
Pt. 612

(1) DOC can provide special assistance to implement the DPAS program in specific cases. For example, the Department may request a higher priority rating, or request that DOC issue a written directive to a contractor that is not complying with the DPAS regulations. In addition, although the DPAS program normally applies only to U.S. firms, if the Department has a prime contract with a foreign firm that will be awarding subcontracts with U.S. firms, the Department may request from DOC authorization to place a rating on the prime contract.

(2) Contracting officers or requirements offices who wish to request special assistance from DOC must complete DOC Form BXA–999, Request for Special Priorities Assistance, and submit it to A/OPE, which will arrange for submission of the request to DOC.

619.202 Specific policies.

619.202–70 The Department of State Mentor-Protégé Program.

(a) Purpose. The Mentor-Protégé Program is designed to motivate and encourage firms to assist small businesses with business development, including small disadvantaged businesses, women-owned small businesses, HUBZone small businesses, veteran-owned small businesses and service-disabled veteran-owned small businesses. The program is also designed to improve the performance of DOS contracts and subcontracts, foster the establishment of long-term business relationships between small businesses and prime contractors, and increase the overall number of small businesses that receive DOS contract and subcontract awards. The program is limited to non-commercial item acquisitions.

(b) Definitions. The definitions of small business (SB), HUBZone small business concern (HUBZone), small disadvantaged business (SDB), women-owned small business (WOSB), veteran-owned small business (VOSB), and service-disabled veteran-owned small business (SDVOSB) are the same as found in FAR 2.101.

Mentor means a prime contractor that elects to promote and develop small business subcontractors by providing developmental assistance designed to enhance the business success of the protégé.

Protégé means a small business, HUBZone small business, small disadvantaged business, women-owned small business, veteran-owned small business, or service-disabled veteran-owned small business that is the recipient of developmental assistance pursuant to a mentor-protégé program.

(c) Non-affiliation. For purposes of the Small Business Act, a protégé firm is not considered an affiliate of a mentor firm solely because the protégé firm is receiving developmental assistance from the mentor firm under the program.

(d) General policy. (1) Eligible business prime contractors not included on the “List of Parties Excluded from Federal Procurement and Nonprocurement Programs” that are approved as mentor firms may enter into agreements with eligible protégés.

(2) A firm’s status as a protégé under a DOS contract shall not have an effect on the firm’s ability to seek other prime contracts or subcontracts.

(e) Incentives for prime contractor participation. (1) Under the Small Business Act (15 U.S.C. 637(d)(4)(E)), DOS is authorized to provide appropriate incentives to encourage subcontracting opportunities for small businesses consistent with the efficient and economical performance of the contract. This authority is limited to negotiated acquisitions.

(2) Before awarding a contract that requires a subcontracting plan, the existence of a mentor-protégé arrangement, and performance, if any, under an existing arrangement, may be considered by the contracting officer in:
(i) Evaluating the quality of a proposed subcontracting plan under FAR 19.704–5; and,
(ii) Assessing the prime contractor’s compliance with the subcontracting plans submitted in previous contracts as a factor in determining contractor responsibility under FAR 19.705–5(a)(1).
(3) A non-monetary award may be presented annually (or as often as appropriate) to the mentoring firm providing the most effective developmental support of a protégé. The Mentor-Protégé Program Manager will recommend an award winner to the Operations Director, A/SDBU.

(f) Measurement of program success. The success of the DOS Mentor-Protégé Program will be measured by:
(1) The increase in the number and dollar value of contracts awarded to protégé firms under DOS contracts from the date the protégé enters the program;
(2) The increase in the number and dollar value of contracts and subcontracts awarded to the protégé under other Federal agencies and commercial contracts; and,
(3) The developmental assistance provided by the mentor firm and the resulting increase in the technical, managerial, financial or other capabilities of the protégé firm, as reported by the protégé.

(g) Eligibility of mentor firms. A mentor firm:
(1) May be either a large or small business;
(2) Must be eligible for award of U.S. Government contracts;
(3) Must be able to provide developmental assistance that will enhance the ability of protégé to perform as subcontractor; and,
(4) Will be encouraged to enter into arrangements with protégé and firms with whom they have established business relationships.

(h) Eligibility of protégé firms. (1) A protégé firm must be:
(i) A SB, HUBZone, SDB, WOSB, VOSB, or SDVOSB as those terms are defined in FAR 2.101;
(ii) Small in the NAICS code for the services or supplies to be provided by the protégé to the mentor; and,
(iii) Eligible for award of U.S. Government contracts.

(2) Except for SDB and HUBZone firms, a protégé firm may self-certify to a mentor firm that it meets the requirements set forth in paragraph (h)(1) of this subsection. Mentors may rely in good faith on written representations by potential protégé that they meet the specified eligibility requirements. SDB status eligibility and documentation requirements are determined by FAR 19.304. HUBZone status eligibility and documentation requirements are determined by FAR 19.1303.
(3) Protégé may have multiple mentors, protégé participating in mentor-protégé programs in addition to DOS’s program should maintain a system for preparing separate reports of mentoring activity for each agency’s program.

(i) Selection of protégé firms. (1) Mentor firms are solely responsible for selecting protégé firms. The mentor is encouraged to identify and select a broad base of protégé firms whose core competencies support DOS’s mission.
(2) Mentors may have multiple protégé.

(j) The selection of protégé firms by mentor firms may not be protested, except that any protest regarding the size or eligibility status of an entity selected by a mentor shall be handled in accordance with FAR and SBA regulations.

(k) Application and agreement process for mentor-protégé teams to participate in the program. (1) Firms interested in becoming a mentor firm shall apply in writing to A/SDBU. The application (Form DS–4053, Department of State Mentor-Protégé Program Application), shall be evaluated by the nature and extent of technical and managerial support proposed as well as the extent of financial assistance in the form of equity investment, loans, joint-venture support, and traditional subcontracting support proposed.
(2) A proposed mentor shall submit the application form and associated information to A/SDBU.

(k) A/SDBU review of application. (1) A/SDBU shall review the information to ensure the mentor and protégé are eligible and the information provided is complete. A/SDBU shall consult with the contracting officer on the adequacy
of the proposed mentor-protégé arrangement, and its review shall be complete no later than 30 calendar days after receipt of the application by A/SDBU.

(2) Upon completion of the review, A/SDBU will advise the mentor if its application is acceptable. The mentor may then implement the developmental assistance program in accordance with the approved agreement.

(3) The agreement defines the relationship between the mentor and protégé firms only. The agreement itself does not create any privity of contract between the mentor or protégé and the DOS.

(l) Developmental assistance. The forms of developmental assistance a mentor can provide to a protégé include:

(1) Management guidance relating to:

(i) Financial management;
(ii) Organizational management;
(iii) Overall business management/planning;
(iv) Business development; and,
(v) Technical assistance.
(2) Loans;
(3) Rent-free use of facilities and/or equipment;
(4) Property;
(5) Temporary assignment of personnel to protégé for purpose of training; and,
(6) Any other types of permissible, mutually beneficial assistance.

(m) Obligation. (1) A mentor or protégé firm may voluntarily withdraw from the program. However, in no event shall such withdrawal impact the program mission and contractual requirements under the prime contract.

(2) Mentor and protégé firms shall submit to A/SDBU annual reports on program progress of the mentor-protégé agreements. Large business mentors may submit these reports as part of their SB, HUBZone, SDB, WOSB, VOSB, and SDVOSB plan submission in accordance with the due date on the SF–295. DOS shall consider the following in evaluating these reports:

(i) Specific actions taken by the contractor, during the evaluation period, to increase the participation of protégés as suppliers to the U.S. Government and to commercial entities;
(ii) Specific actions taken by the mentor, during the evaluation period, to develop the technical and corporate administrative expertise of a protégé as defined in the agreement;
(iii) To what extent the protégé has met the developmental objectives in the agreement; and,
(iv) To what extent the mentor firm’s participation in the Mentor-Protégé Program resulted in the protégé receiving contract(s) and subcontract(s) from private firms and agencies other than the DOS.

(3) The DOS A/SDBU shall submit the annual reports to the cognizant contracting officer regarding participating prime contractor(s) performance in the program.

(4) Mentor and protégé firms shall submit an evaluation to the A/SDBU at the conclusion of the mutually agreed upon program period, the conclusion of the contract, or the voluntary withdrawal by either party from the program, whichever comes first.

(n) Internal controls. (1) A/SDBU shall oversee the program and shall work with the cognizant contracting officer to achieve program objectives.

(2) DOS may rescind approval of an existing Mentor-Protégé agreement if it determines that such an action is in the Department’s best interest. The rescission shall be in writing and sent to the mentor and protégé firms after approval by the A/SDBU Operations Director. Recission of an agreement does not change the terms of the subcontract between the mentor and the protégé or the prime contractor’s obligations under its subcontracting plan.

(o) Solicitation provision and contract clause. (1) The contracting officer shall insert the provision at 652.219–72, Department of State Mentor-Protégé Program, in all unrestricted solicitations exceeding $500,000 ($1,000,000 for construction) that offer subcontracting opportunities.

(2) The contracting officer shall insert the clause at DOSAR 652.219–73, Mentor Requirements and Evaluation, in all contracts where the prime contractor has signed a Mentor-Protégé Agreement with the Department of State.

619.705–1 General support of the program.
It is the Department’s policy to incorporate its current fiscal year goals as negotiated with the SBA into all pertinent Department solicitations, in addition to the standard subcontract clauses. Incorporation of the goals does not require that large prime contractors must subcontract, but does require that to the extent they plan to subcontract, specific goals be established for doing business with small, small disadvantaged, women-owned small, HUBZone small, veteran-owned small, and service-disabled veteran-owned small business firms. Where funds are available, an incentive clause such as that found in FAR 52.219–10, Incentive Subcontracting Program, is encouraged.

Subpart 628.3—Insurance

SOURCE: 71 FR 34840, June 16, 2006, unless otherwise noted.

628.305 Overseas workers' compensation and war-hazard insurance.

(b)(1) Acquisitions for services, including construction but excluding personal services contracts, requiring contractor personnel to perform work outside of the United States, shall include the contractual obligation for coverage under the Defense Base Act (42 U.S.C. Sections 1651–1654, as amended), for covered contractor employees. For the purposes of this section, “covered contractor employees” includes the following individuals:

(i) United States citizens or residents;

(ii) Individuals hired in the United States or its possessions, regardless of citizenship; and,

(iii) Local nationals and third country nationals where contract performance takes place in a country where there are no local workers’ compensation laws.

(2) Individuals who are self-employed (i.e., they have not incorporated) do not meet the definition of an employee. No Defense Base Act insurance is required when contracting with these individuals.

(c) The Department of State has entered into a contract with an insurance broker and carrier to provide Defense Base Act insurance (at a fixed rate for services and construction) to cover DOS contracts that require performance overseas by covered contractor employees. Upon award of a contract that requires Defense Base Act insurance, the contracting officer shall provide the contractor with the name of the insurance broker from which the contractor must acquire the Defense Base Act insurance.

(d) The authority to recommend a waiver from the Defense Base Act, as set forth in FAR 28.305(d), is reserved to the Secretary of State.

(e)(1) The Secretary of Labor has waived the applicability of the Defense Base Act to all DOS service contracts, including construction, for contractor employees who are local nationals or third country nationals. This waiver is conditioned on the requirement for the contractor to provide workers’ compensation benefits against the risk of work injury or death and assume liability toward the employees and their beneficiaries for war-hazard injury, death, capture, or detention as prescribed by the local workers’ compensation laws.

(2) In cases where a contract is performed in a country where there are no local workers’ compensation laws, local and third country national contractor employees are considered to be “covered contractor employees”, and the contractor shall acquire Defense Base Act insurance for those employees pursuant to the contract between the Department of State and the Defense Base Act insurance broker.

(f)(1) Section 16 of the State Department Basic Authorities Act (22 U.S.C. 2680a), as amended, provides that the Defense Base Act shall not apply with respect to such contracts as the Secretary of State determines are contracts with persons employed to perform work for the Department of State on an intermittent basis for not more than 90 days in a calendar year. The Department of State has established that “persons” includes employees hired by companies under contract with the Department. The Procurement Executive has the authority to
issue the waivers for employees who work on an intermittent or short-term basis. Waivers may be issued only for employees who are U.S. citizens and residents, and only where the contractor provides evidence of alternative workers' compensation coverage for those employees. Waivers may not be issued for local or third country nationals.

(2) The contractor shall submit waiver requests to the contracting officer. The request shall contain the following information:
   (i) Contract number;
   (ii) Name of contractor;
   (iii) Brief description of the services to be provided under the contract and country of performance;
   (iv) Name and position title of individual(s);
   (v) Nationality of individual(s) (must be U.S. citizen or resident);
   (vi) Dates (or timeframe) of performance at the overseas location; and
   (vii) Evidence of alternative workers' compensation coverage for these employees (e.g., evidence that the State workers' compensation program covers workers on short-term foreign assignments).

(3) The contracting officer shall review the request for completeness and accuracy. If the request is complete and accurate, the contracting officer shall forward the request to the Procurement Executive. If the contractor does not provide complete and accurate information, the contracting officer shall return the request to the contractor with an explanation as to what additional information is required.

(4) The Procurement Executive shall review requests for waiver forwarded by the contracting officer and either approve or disapprove the request. The Procurement Executive shall return the request indicating his/her approval or disapproval to the contracting officer. Any request that is not approved shall describe the reason(s) why the request was not approved. The contracting officer shall provide the contractor with the original of the approved or disapproved document and maintain a copy in the contract file.

628.309 Contract clauses for workers' compensation insurance.

628.309-70 DOSAR provisions and clauses.

(a) The contracting officer shall insert the provision at 652.228–70, Defense Base Act—Covered Contractor Employees, in all solicitations for services and construction to be performed outside of the United States.

(b) The contracting officer shall insert the clause at 652.228–71, Workers' Compensation Insurance (Defense Base Act)—Services, in solicitations and contracts for services to be performed outside of the United States when there is a reasonable expectation that offers will include covered contractor employees, as defined in 628.305(b). If the contracting officer is unsure as to whether offers will include covered contractor employees, the contracting officer shall insert the clause. If the contract is for construction, the contracting officer shall insert the clause with its Alternate I.

(c) The contracting officer shall insert the provision at 652.228–74, Defense Base Act Insurance Rates—Limitation, in solicitations for services or construction to be performed outside of the United States when there is a reasonable expectation that offers will include covered contractor employees, as defined in 628.305(b). If the contracting officer is unsure as to whether offers will include covered contractor employees, the contracting officer shall insert the provision.

(vii) The outcome could significantly involve persons who are not parties to the contract;
(viii) The costs of pursuing an ADR procedure (in time and money) exceed the cost of litigation;
(ix) The nature of the case may cause ADR to be used merely for delay or discovery; or,
(x) The case involves criminal violations.

(3) Initial action. Immediately upon receipt of a claim, the contracting officer shall send a letter acknowledging receipt of the claim and soliciting the contractor’s views on submitting this claim for ADR. In every dispute, the first step toward resolution shall be unassisted negotiations, in which the parties try to work out the disagreement among themselves. If this fails, before issuing a final decision, the contracting officer shall consult first with the head of the contracting activity, and contact the Office of the Legal Adviser and A/OPE to determine whether the disagreement appears susceptible to resolution by ADR. Consideration shall be given to pursuing additional fact-finding or designating a neutral expert in the disputed issue to provide an advisory opinion.

(c) Methods of ADR. If the initial action to resolve the dispute fails, and the contracting officer issues a final decision which is appealed, ADR may still be feasible. The GSBCA issues a notice regarding ADR to all contractors who file appeals under the Contract Disputes Act. This notice describes the following ADR techniques, which contracting officers are urged to discuss with contractors at any time:

(1) Settlement judge. A settlement judge is either an administrative judge or hearing examiner who is appointed by the parties in dispute for the purpose of facilitating settlement. The agenda is flexible and based on the specifics of the individual dispute. By holding a frank, in-depth discussion of the strengths and weaknesses of each party’s position, the settlement judge may be able to foster a settlement of the dispute. The settlement judge may meet with the parties jointly or individually, and the settlement judge’s recommendations are not binding. Typically, the settlement judge’s opinions, based on his or her experience in handling prior disputes, will help the parties realize whether their arguments have merit or not.

(2) Minitrial. A minitrial is not an actual trial but rather a flexible, expedited, but structured procedure in which each party presents an abbreviated version of its position both to a neutral advisor (who may be appointed by the GSBCA) and to principals of the parties who have full contractual authority to conclude a settlement. The parties mutually decide on the form of presentation without regard to traditional judicial proceedings or rules of evidence. An advance agreement by the parties specifies the procedure to be followed in making presentations, as well as the role of the neutral advisor. Upon conclusion of the presentations, settlement negotiations are conducted. The neutral advisor may assist the parties in negotiating settlement, including making non-binding recommendations.

(3) Summary trial with binding decision. A summary trial with binding decision is a procedure in which the scheduling of an appeal is expedited and the parties try their appeal informally before an administrative judge or panel of judges. The length of the trial and the time for presentation and decision are tailored to the needs of the particular case. Trial procedures and rules applicable to appeals are modified or eliminated to expedite resolution of the appeal. The parties must agree, however, that all decisions, rulings, and orders by the judge(s) are final, conclusive, and not appealable, and may not be set aside, except for fraud. A summary “bench” decision is issued at the conclusion of the trial or a summary written decision will be issued within ten (10) days of either the trial’s conclusion or receipt of a trial transcript.

(4) Mediation. Mediation is a process in which a neutral and impartial third party assists the Government and the contractor in conflict to negotiate an acceptable settlement of contested issues. The mediator is jointly selected and is asked by the disputing parties to assist them to reach a voluntary agreement. The mediator has no decision-making authority and cannot impose a decision. Mediation assistance involves
working with the parties to improve
their communications, clarify or inter-
pret data, identify key issues to be dis-
cussed, design an effective negotiation
process, generate settlement options,
or help to identify or formulate areas
of agreement. Additional information
on alternative dispute resolution and
mediation resources is available at the
following address on the Internet:
http://www.adrr.com

(5) Arbitration. Non-binding arbitra-
tion is a process in which a dispute is
jointly submitted by the Government
and a contractor to an impartial and
neutral person or panel who provides a
written, non-binding opinion used as a
guide for negotiations toward a settle-
ment. Although the Administrative
Dispute Resolution Act of 1990 (Pub. L.
101–552) allows agencies to use binding
arbitration, the law provides that the
agency head may vacate any arbitra-
tion award within 30 days after it is
served on all parties. For this reason,
non-binding arbitration is preferable.
Additional information on alternative
dispute resolution and mediation re-
sources is available at the following
address on the Internet: http://
www.adrr.com

(6) Partnering. Partnering involves an
agreement in principle to share the
risks involved in completing a project,
and to establish and promote a part-
nership environment. Partnering itself
is not a contractual agreement and it
does not create any legally enforceable
rights, but instead partnering seeks to
create a new cooperative attitude in
completing Government contracts. The
three basic steps in partnering are:
(i) Establish the new relationship
through personal contact among the
principals for the Government and the
contractor before the work begins;
(ii) Prepare a joint statement of
goals establishing common objectives
in specific detail for reaching the
goals; and,
(iii) Identify specific dispute prevention
processes designed to head off
problems, evaluate performance, and
promote cooperation. Additional infor-
mation on alternative dispute resolu-
tion and mediation resources is avail-
able at the following address on the
Internet: http://www.adrr.com

(d) ADR procedures. The ADR method
shall be selected voluntarily by both
the Government and the contractor.
Both parties shall agree on the proce-
dures to be followed, including the
agenda and amount of time allowed for
each party to present its case. The par-
ties may choose not to have a written
transcript or hearing on the record, as
this might inhibit settlement. Also,
the decision rendered, if any, should
not be considered to establish any
precedent for future litigation unless
the parties agree otherwise. In cases
where the parties agree to pay jointly
for a third-party neutral advisor, it is
recommended that the parties and the
advisor agree on a fair and reasonable
price. The Government would then
issue a simplified acquisition (if the
dollar amount does not exceed the sim-
plified acquisition limitation) for 50%
of the agreed price, and the advisor
would submit separate invoices (each
for 50% of the price) to the Government
and the contractor.

As prescribed in 606.570, insert the following provision:

COMPETITION ADVOCATE/OMBUDSMAN (AUG 1999)

(a) The Department of State's Competition Advocate is responsible for assisting industry in removing restrictive requirements from Department of State solicitations and removing barriers to full and open competition and use of commercial items. If such a solicitation is considered competitively restrictive or does not appear properly conducive to competition and commercial practices, potential offerors are encouraged to first contact the contracting officer for the respective solicitation. If concerns remain unresolved, contact the Department of State Competition Advocate on (703) 516-1680, by fax at (703) 875-6155, or write to: Department of State, Competition Advocate, Office of the Procurement Executive (A/OPE), Suite 603, SA-6, Washington, DC 20522-0602.

The role of the ombudsman is not to diminish the authority of the contracting officer, the Technical Evaluation Panel or Source Evaluation Board, or the selection official. The purpose of the ombudsman is to facilitate the communication of concerns, issues, disagreements, and recommendations of interested parties to the appropriate Government personnel, and work to resolve them. When requested and appropriate, the ombudsman will maintain strict confidentiality as to the source of the concern. The ombudsman does not participate in the evaluation of proposals, the source selection process, or the adjudication of formal contract disputes. Interested parties are invited to contact the contracting activity ombudsman. [insert name], at [insert telephone and fax numbers]. For an American Embassy or overseas post, refer to the numbers below for the Department Acquisition Ombudsman. ORDERING—I NDEFINITE-DELIVERY CONTRACTS (APR 2004)
The Government shall use one of the following forms to issue orders under this contract:

(a) The Optional Form 347, Order for Supplies or Services, and Optional Form 348, Order for Supplies or Services Schedule—Continuation; or,

(b) The DS–2076, Purchase Order, Receiving Report and Voucher, and DS–2077, Continuation Sheet.

(End of clause)

652.216–71 Price Adjustment.
As prescribed in 616.203–4, insert a clause substantially the same as follows:

PRICE ADJUSTMENT (AUG 1999)

(a) The contract price may be increased or decreased in actual costs of direct service labor which result directly from laws enacted and effective during the term of this contract by the [insert name of country] Government. Direct service labor costs include only the costs of wages and direct benefits (such as social security, health insurance, unemployment compensation insurance) paid to or incurred for the direct benefit of personnel performing services under one of the categories listed in Section [identify section number] of this contract. Price adjustments will include only changes in direct service labor costs incurred in order to comply with the requirements of the law. No adjustment will be made under this clause with respect to labor costs of personnel not performing direct service labor under the categories of Section [identify section], nor for overhead, profit, general and administrative (G&A) costs, taxes or any other costs whatsoever.
(b) For the contracting officer to consider any request for adjustment, the contractor shall demonstrate in writing:

(1) That the change in the law occurred during the term of this contract and subsequent to the award date of this contract; and,

(2) That the change in the law could not have been reasonably anticipated prior to contract award; and,

(3) How the change in the law directly affects the contractor’s costs under this contract.

(c) The contractor shall present data that clearly supports any request for adjustment. This data shall be submitted no later than 30 calendar days after the changes in the law have been made public. This data shall include, but not be limited to, the following:

(1) The calculation of the amount of adjustment requested; and,

(2) Documentation which identifies and provides the appropriate portions of the text of the particular law from which the request is derived.

(d) In order to establish the change between the requested adjusted rate and the original rate, the contractor shall support the appropriate data and composition of the original rate and the requested adjusted rate. This shall include details regarding specific hourly rates paid to individual employees. For contracts paid in U.S. dollars, the contractor’s request for price adjustment shall present data reflecting:

(1) The exchange rate in effect on the date of the contractor’s proposal that was accepted for the basic contract; and

(2) The current exchange rate and its effect on payment of workers in local currency. The allowable adjustment shall be limited to the extent to which increases in direct service labor costs due to host country law changes are not offset by exchange rate gains.

(e) Only direct cost changes mandated by enacted laws shall be considered for adjustment under this contract. Changes for purposes of maintaining parity of pay between employees at the minimum mandated levels and employees already paid at levels above the newly mandated minimums shall not be considered. Therefore, if the contractor elects to increase payments to employees who are already being paid at or above the mandated amounts, such increased costs shall be borne solely by the contractor and shall not be justification for an increase in the hourly and monthly rates under this contract.

(f) Any request for adjustment shall be presented by signature of an officer or general partner of the contractor having overall responsibility for the conduct of the contractor’s affairs.

(g) No adjustment shall be made to the contract price that relates to any indirect, overhead, or fixed costs, profit or fee. Only the changes in direct service labor wages (and any benefits based directly on wages) shall be considered by the U.S. Government as basis for contract price changes.

(h) No request by the contractor for an adjustment under this clause shall be allowed if asserted after final payment has been made under this contract.

(i) This clause shall only apply to laws enacted by the [insert name of country] Government meeting the criterion set forth above in paragraph (b). No adjustments shall be made due to currency fluctuations in exchange rates.

5. Furnishing information about whether any person is a member of, has made contributions to, or is otherwise associated with or involved in the activities of any charitable or fraternal organization which supports the State of Israel; and,

6. Paying, honoring, confirming, or otherwise implementing a letter of credit which contains any condition or requirement against doing business with the State of Israel.

   iii. Complying or agreeing to comply with import and shipping document requirements with respect to the country of origin, the name of the carrier and route of shipment, the name of the supplier of the shipment or the name of the provider of other services, except that no information knowingly furnished or conveyed in response to such requirements may be stated in negative, blacklisting, or similar exclusionary terms, other than with respect to carriers or route of shipments as may be permitted by such regulations in order to comply with precautionary requirements protecting against war risks and confiscation;

2. Complying or agreeing to comply in the normal course of business with the unilateral and specific selection by a boycotting country, or national or resident thereof, of carriers, insurance, suppliers of services to be performed within the boycotting country or specific goods which, in the normal course of business, are identifiable by source when imported into the boycotting country;

3. Complying or agreeing to comply with the export requirements of the boycotting country relating to shipments or transshipments of exports to Israel, to any business concern of or organized under the laws of Israel, or to any national or resident of Israel;

4. Compliance by an individual or agreement by an individual to comply with the
immigration or passport requirements of any country with respect to such individual or any member of such individual’s family or with requests for information regarding requirements of employment of such individual within the boycotting country; and,

(6) Compliance by a U.S. person resident in a foreign country or agreement by such person to comply with the laws of that country with respect to his or her activities exclusively therein, and such regulations may contain exceptions for such resident complying with the laws or regulations of that foreign country governing imports into such country of trademarked, trade named, or similarly specifically identifiable products, or components of products for his or her own use, including the performance of contractual services within that country, as may be defined by such regulations.

The notice shall state the estimated amount of additional funds required to continue performance through the date specified in paragraph (c)(1) of this clause or another date agreed to by the parties.

(d) If, after notification is provided pursuant to paragraph (c)(2) of this clause, additional funds are not obligated, or an earlier date than the date in paragraph (c)(1) of this clause is not agreed to, the contractor shall not be obligated to continue performance under this contract (including actions under the termination clause of this contract) beyond the funds obligated for contract performance.

(e) When additional funds are obligated from time to time for continued performance of this contract, the contract shall be modified to increase the funds obligated and to indicate the period of performance for which funds are applicable. The contractor may notify the contracting officer as provided in paragraph (c)(2) of this clause regarding any additional funds obligated.

(f) If the contractor incurs additional costs or is delayed in the performance of work under this contract, solely by reason of the Government’s failure to obligate additional funds in amounts sufficient for the timely performance of this contract, an equitable adjustment may be made to the price, or time of delivery, or both.

(g) This clause shall become inoperative upon obligation of funds sufficient to cover the full price stated in the contract, except for rights and obligations then existing under this clause.

As prescribed in 636.570(b), insert the following provision:

STATEMENT OF QUALIFICATIONS FOR THE OMNIBUS DIPLOMATIC SECURITY AND ANTITERRORISM ACT (APR 2004)

(a) This solicitation is subject to Section 402 and Section 406(c) of the Omnibus Diplomatic Security and Antiterrorism Act of 1996 (P.L. 99–399; 22 U.S.C. 4852). The Act limits certain construction projects abroad to United States persons or United States joint venture persons, and excludes organizations that have business arrangements with Libya. This Statement of Qualifications shall be used to determine if a bidder/offeror meets the definition of a “United States person” or a “United States joint venture person” and whether they have any business arrangements with Libya that may disqualify them from participating in this solicitation.

(b) Definition. As used in this provision—

United States person means a company, partnership, or joint venture that the Government determines, after consideration of all available information, including but not limited to that provided by the bidder/offeror in response to this solicitation, to be qualified pursuant to Section 402.

(c) Representation. The bidder/offeror represents as part of its bid/offer that it does not meet the qualifications as a U.S. person as set forth in Section 402 of the Act. [Complete a Statement of Qualifications for Purposes of Determining Status as a U.S. Person if the offeror represents that it is eligible. See paragraph (d) of this provision.]

Warning: Any material misrepresentation made in the Statement of Qualifications may be the basis for disqualification of a bidder/offeror and reference for consideration of suspension or debarment or for prosecution under Federal law (cf. 18 U.S.C. 1001). Bidder/offeror qualifications will be determined primarily on the basis of information submitted in the Statement of Qualifications, including attachments thereto, but the Government may, at its discretion, rely on information contained elsewhere in the bidder/offeror’s bid/proposal or obtained from other sources.

(d) Statement of Qualifications for Purposes of Determining Status as a U.S. Person (22 U.S.C. 4852). A bidder/offeror that represents that it is a U.S. person must provide the following information.

Statement of Qualifications for Purposes of Determining Status as a U.S. Person (22 U.S.C. 4852)

Name and address of U.S. person organization providing this information:

Introduction. Section 402 of the Omnibus Diplomatic Security and Antiterrorism Act (Public Law 99–399) provides that a “United States person” or a “qualified United States joint venture” must meet certain requirements, listed in sections 402(c)(2) and (3) of the Act, to be eligible to compete. To assist business entities to determine whether they qualify as a U.S. person or U.S. joint venture person, guidance is hereby provided. For ease of reference, the statutory language is quoted immediately before the definitions that apply to it. Space for the required information is provided immediately following each definition.

Note: The Statement of Qualifications shall provide information correctly applicable to the U.S. person whose qualifications are being certified, and shall not include information pertaining to corporate affiliates or subsidiaries. Organizations that wish to use the experience or financial resources of any other legally dependent organization or individual, including parent companies, subsidiaries, or other related organizations, must do so by way of a joint venture. A prospective bidder/offeror may be an individual organization or firm, a formal joint venture in which the co-venturers have reduced their arrangement to writing, or a de facto joint venture where no formal agreement has been reached, but the offering entity relies upon the experience of a related U.S. firm that
guarantees performance. To be considered a “qualified United States joint venture person,” the joint venture must have at least one firm or organization that itself meets all the requirements of a U.S. person listed in Section 402. By signing this bid/proposal, the U.S. person co-venturer agrees to be individually responsible for performance of the contract, notwithstanding the terms of any joint venture agreement.

1. Section 402(c)(2)(A): “The term ‘United States person’ means a person which—(A) is incorporated or legally organized under the laws of the United States, including the District of Columbia, and local laws.”

Definitions for purposes of Section 402 determinations of eligibility—

Incorporated means the successful de jure incorporation of a business organization pursuant to the laws of any United States jurisdiction or component thereof.

Legally organized means the legally recognized existence of an organization other than a de jure corporation (e.g., a partnership) under the laws of any United States jurisdiction or component thereof. Only organizations that have a legal status, including the right to bring suit, to sign contracts, and to hold property under the law of the jurisdiction where they are doing business will qualify as legally organized. A natural person who is a United States citizen acting in his or her entrepreneurial capacity will be deemed to be a “person legally organized” within the scope of this definition, provided that the prospective bidder/offeror holds all required licenses to do business in the jurisdiction where he or she is located.

United States means any jurisdiction that is one of the fifty States, the District of Columbia, a United States territory, a United States possession, or the Commonwealths of Puerto Rico and the Northern Mariana Islands.

Question 1. The organization seeking eligibility under Section 402 is incorporated or is legally organized under the laws of what jurisdiction?

United States means any jurisdiction that is one of the fifty States, the District of Columbia, a United States territory, a United States possession, or the Commonwealths of Puerto Rico and the Northern Mariana Islands.

Question 2(a). The organization seeking eligibility has its principal place of business in what city and state?

United States means any jurisdiction that is one of the fifty States, the District of Columbia, a United States territory, a United States possession, or the Commonwealths of Puerto Rico and the Northern Mariana Islands.

Question 2(b). What kind of tax return was or will be filed, and in what jurisdiction, during the current calendar year?

(i) Jurisdiction:

(b) Local laws.

(ii) Type of return (e.g., income tax, franchise tax, etc.). Include all that apply:

(iii) Jurisdiction:

(b) Federal laws.

2. Section 402(c)(2)(B): “The term ‘United States person’ means a person which—(B) has its principal place of business in the United States.”

Definitions for purposes of Section 402 determinations of eligibility—

Principal place of business means the main location of the prospective bidder/offeror. For purposes of this section, a prospective bidder/offeror shall identify only one principal place of business, and such location shall include at least the offices of the chief operating officer and headquarters staff. The named location must be a United States jurisdiction from which a tax return has been filed or will be filed during the calendar year in which the prospective bidder/offeror submits this bid/offer.

United States means any jurisdiction that is one of the fifty States, the District of Columbia, a United States territory, a United States possession, or the Commonwealths of Puerto Rico and the Northern Mariana Islands.

Question 2(a). The organization seeking eligibility has its principal place of business in what city and state?

United States means any jurisdiction that is one of the fifty States, the District of Columbia, a United States territory, a United States possession, or the Commonwealths of Puerto Rico and the Northern Mariana Islands.

Question 2(b). What kind of tax return was or will be filed, and in what jurisdiction, during the current calendar year?

3. Section 402(c)(2)(C): “The term ‘United States person’ means a person which has been incorporated or legally organized in the United States—

(i) for more than 5 (five) years before the issuance date of the invitation for bids or request for proposals with respect to a construction project under subsection (a)(1); and,

(ii) for more than 2 (two) years before the issuance date of the invitation for bids or request for proposals with respect to a construction or design project abroad that involves technical security under subsection (a)(2).”

Definitions for purposes of Section 402 determinations of eligibility—

Has been incorporated or legally organized means that the organization can show continuity as an ongoing business. Organizations that have changed only their names meet the continuity requirement of this subsection. Organizations that have been bought, sold, merged, or otherwise substantially altered or enlarged their principal business activities will have the burden of proving that there have been ongoing operations by the same business entity for the required period of time. If the successor entity has acquired all of the assets and liabilities of the predecessor business and the predecessor business has no further existence, the successor may claim the incorporation date of the predecessor. In any other circumstance, the prospective bidder/offeror must show that the law of the jurisdiction in which it operates regards the prospective bidder/offeror as the complete successor in interest of the predecessor business for purposes of contractual obligations.

Issuance date means the date in Block 3 of the Standard Form 1442 accompanying this solicitation.

Years means calendar years measured from day of the month to day of the month. For example, January 1, 2002 through December
Within the United States means a United States jurisdiction that is the place where the subject matter of the contract or other arrangement was in fact completed. It does not mean the place where the contract or other arrangement was negotiated or signed. The term “United States” means any jurisdiction that is one of the 50 states, the District of Columbia, a United States territory, a United States possession, or the Commonwealth of Puerto Rico and the Northern Mariana Islands.

Definitions of purposes of Section 402 determination of eligibility—

3 years of the 5-year period before the date specified in subparagraph (C)(i) means the three to five calendar year period immediately preceding the issuance date of this solicitation.

Total business volume means the U.S. dollar value of the gross income or receipts reported by the prospective bidder/offeror on its annual federal income tax returns.

Year means the business year of the prospective bidder/offeror, as reflected on its annual federal income tax returns.

Question 5: Please complete the information below for at least three of the five listed years.

4. Section 402(c)(2)(D): “The term ‘United States person’ means a person which has performed within the United States or at a United States diplomatic or consular establishment abroad administrative and technical, professional, or construction services similar in complexity, type of construction, and value to the contract being bid.”

Definitions for purposes of Section 402 determination of eligibility—

Administrative and technical, professional, or construction services means the kind of work in which the prospective bidder/offeror is interested. If the proposed contract is for construction management services, the prospective bidder/offeror will be expected to demonstrate construction management expertise. In general, “administrative” means the capacity or ability to manage; “technical” means the specific skills peculiar to the type of work required; “professional” means expert services resulting from advanced training in the type of work required; and “construction” experience if it has not directly performed all of the actual construction activities. Thus, an entity whose only construction work experience was performed by its legally distinct subsidiary or parent will not be considered to have construction experience.

Complexity means the physical size and technical size and demands of the project. “Perform” means projects that have been fully completed by the prospective bidder/offeror and accepted by the owner or other party to the transaction. Projects still in progress have not yet been performed for purposes of this definition.

Type of construction means the overall nature of the facilities to be built, including the kinds of materials to be used. Thus, if the contract will require the construction of a multi-story office building, the prospective bidder/offeror will be expected to demonstrate experience with facilities of this type.

Value means the total contract price of the project, not to the profit or loss to the bidder/offeror.
Department of State

The gross receipts for the business year: (list year and amount).

6. Section 402(c)(2)(F): “The term ‘United States person’ means a person which—(i) employs United States citizens in at least 80 percent of its principal management positions in the United States; (ii) employs United States citizens in more than half of its permanent, full-time positions in the United States; and (iii) will employ United States citizens in at least 80 percent of the supervisory positions on the foreign buildings office project site.”

Definitions for purposes of Section 402 determinations of eligibility—

In the United States refers to those positions that the prospective bidder/offeror maintains within all jurisdictions which are one of the 50 states, the District of Columbia, a United States territory, a United States possession, or the Commonwealths of Puerto Rico and the Northern Mariana Islands.

Permanent, full-time positions means positions with the prospective bidder/offeror that are intended to be indefinite, as opposed to limited, seasonal, or project-duration periods. The term ‘full-time’ refers to positions in which the occupants are expected to and ordinarily work 40 hours a week. The term ‘permanent, full-time positions’ covers the portion of the prospective bidder/offeror’s workforce that continues to be employed without regard to the fluctuating requirements of production or projects.

Principal management positions refers to chief operating officer and those management officials reporting directly to him or her. In the case of a partnership, the term refers to every general partner. In the case of a corporation, the term refers to those officers of the corporation who are active in running its day-to-day operations. Members of corporation boards of directors who do not have operational responsibilities do not occupy “principal management positions” simply by virtue of their service on the board. In all cases, the term “principal management positions” also includes the position or positions held by the individual or individuals who will have primary corporate management oversight responsibility for this contract if the prospective bidder/offeror is awarded the contract. Each prospective bidder/offeror is responsible for listing all of its principal management positions and identifying their current occupants by name and citizenship.

Supervisory positions means all positions with significant authority to direct the work of others as well as those for which access to classified or controlled documents is required. Such positions will be identified in each contract.

United States citizen means natural persons with United States citizenship by virtue either of birth or of naturalization.

Question 6(a): The bidder/offeror has the following staff:

(i) Principal management positions in the United States:

Chief Operating Officer:

(name)

(citizenship)

(ii) For each individual reporting directly to the above-named Chief Operating Officer, list position, name, and citizenship:

7. Section 402(c)(2)(G): “The term ‘United States person’ means a person which has the existing technical and financial resources in the United States to perform this contract.”

Definitions for purposes of Section 402 determinations of eligibility—

Existing technical and financial resources means the capability of the prospective bidder/offeror to mobilize adequate staffing and monetary arrangements from within the United States sufficient to perform the contract. Adequate staffing levels may be demonstrated by presenting the resumes of current United States citizens and resident aliens with skills and expertise necessary for the work in which the prospective bidder/offeror is interested or some other indication of available United States citizen or permanent legal resident human resources. Demonstration of adequate financial resources must be issued by entities that are subject to the jurisdiction of United States courts and have agents located within the United States for acceptance of service of process.
Question 7: Submit, as an Attachment to this Statement, materials demonstrating existing technical and financial resources in the United States.

8. Section 402(c)(3): “The term ‘qualified United States joint venture person’ means a joint venture in which a United States person or persons owns at least 51 percent of the assets of the joint venture.”

Definitions for purposes of Section 402 determinations of eligibility—

Assets means tangible and intangible things of value conveyed or made available to the joint venture by the co-venturers.

Joint venture means a formal or de facto arrangement by and through which two or more persons or entities associate for the purpose of carrying out the prospective contract. Prospective bidders/offerors are advised that a joint venture may not be acceptable to projects requiring a Department of Defense facility security clearance because each co-venturer may post particular problems in obtaining security clearances. To be acceptable, all members of a joint venture must be individually and severally liable for the full performance of and resolution of any and all matters arising out of the contract, notwithstanding any provision of the joint venture agreement of law of the jurisdiction under which the joint venture was created.

Question 8(a): The bidder/offeror is not a joint venture.

Question 8(b): If the bidder/offeror is a joint venture, the U.S. person participant is:

9. Libya. Section 406(c) states “No person doing business with Libya may be eligible for any contract awarded pursuant to this Act.”

Definitions for purposes of Section 406 eligibility—

Contract awarded establishes a time frame for the bar on doing business with Libya. The time during which a relationship with Libya is prohibited begins on the date the Section 406 information is submitted. For bidders/offerors not selected for contract award, the prohibition ceases on the date of award. For the bidder/offeror that is awarded the contract, the bar continues through the life of the contract, ending on the date of final acceptance of the work.

Doing business means all transactions of any kind agreed to or performed after the earlier of the date on which a bid/proposal is submitted to the Department of State under this solicitation or on which the contract, subcontract, program, or other arrangement with the Department of State is awarded or becomes effective. Any transaction commenced prior to the date of submittal or award and not yet completed must be reported. Transactions that call for continued or future performance shall be disqualifying. Transactions that have been completely performed but for which payment has not yet been made must be reported, but shall not be disqualifying unless any event other than payment of a previously-agreed upon sum occurs. Examples of disqualifying actions include any pending litigation arising out of business transactions with Libya, renegotiation of the terms of a loan, and refinancing an amount owed or owing.

Person means any individual or legal entity, whether U.S. or foreign. Subcontractors and others who do not have a direct contractual relationship with the United States are not covered by this section. With Libya means transactions between any person and the Government of Libya, government entities of Libya, or any other organization wholly owned or effectively controlled by the Government of Libya. It is the responsibility of the entity submitting Section 406 information to disclose existing relationships with the entities that it has reasonable grounds to believe are or may be Libyan. In case of doubt or dispute, the Department of State shall determine, at its sole discretion, whether any organization is a governmental entity of Libya, wholly owned by the Government of Libya, or effectively controlled by the Government of Libya.

Certification

Based on the foregoing, I hereby certify on behalf of this organization that it is not doing business with Libya as those terms are used in Section 406(c) of the Omnibus Diplomatic Security and Antiterrorism Act of 1986.

(End of clause)

As prescribed in 637.110(d), insert the following provision:

STATEMENT OF QUALIFICATIONS FOR PREFERENCE AS A U.S. PERSON (APR 2004)

(a) This solicitation is subject to Section 136 of the Foreign Relations Authorization Act, Fiscal Years 1990 and 1991 (22 U.S.C. 4864). The Act encourages the participation of United States persons and qualified United States joint venture persons in the provision of local guard services overseas, and provides for a preference for eligible offers.

(b) Definitions. As used in this provision—

Eligible offer means an offer that (1) is otherwise responsive to the solicitation; and (2) contains a fully prepared Statement of Qualifications (see paragraph (d) of this provision), which upon review is determined by the Government to meet the requirements of Section 136 for assignment of preference as a U.S. person.

Preference means subtraction by the Government of ten percent (10%) from the total evaluated price of an offer.

U.S. person means a company, partnership, or joint venture that the Government determines, after consideration of all available information, including but not limited to that provided by the offeror in response to the solicitation, to be qualified for assignment of preference pursuant to Section 136.

(c) Representation. The offeror represents as part of its offer that it is, is not eligible for preference as a U.S. person. [Complete a Statement of Qualifications for Purposes of Obtaining Preference as a U.S. Person if the offeror represents that it is eligible. See paragraph (d) of this provision.]

Warning: Any material misrepresentation made in the Statement of Qualifications may be the basis for disqualification of an offeror and reference for consideration of suspension or debarment or for prosecution under Federal law (cf. 18 U.S.C. 1001). The Government will determine offeror qualifications primarily on the basis of information submitted in the Statement of Qualifications, including Attachments thereto, but the Government may, at its discretion, rely on information contained elsewhere in the offeror’s proposal or obtained from other sources.

(d) Statement of Qualifications for Purposes of Obtaining Preference as a U.S. Person (22 U.S.C. 4864). An offeror that represents that it is eligible for preference as a U.S. person must provide the following information. This Statement of Qualifications must be a complete and certified document, and submitted as a separate Volume 5, with all necessary attachments, as defined in Section L of this solicitation.

Statement of Qualifications for Purposes of Obtaining Preference as a U.S. Person (22 U.S.C. 4864)

Name and address of U.S. person or organization providing this information:

Introduction. Section 136 of the Foreign Relations Authorization Act for Fiscal Years 1990 and 1991, Public Law 101–246 (22 U.S.C. 4864), as amended, provides that a “United States person” or a “qualified United States joint venture” must meet certain requirements, listed in the Act, to be eligible for the statutory preference. To assist business entities to determine whether they qualify as a
U.S. person or U.S. joint venture person entitled to preference under Section 136, guidance is hereby provided. Only those prospective offerors submitting a properly completed Statement of Qualifications Volume 5 with their initial proposals will be considered in the determination of eligibility for assignment of preference as a U.S. person or U.S. joint venture. The contract resulting from this solicitation shall not allow subcontracting. A prospective offeror may be a sole proprietorship, a formal joint venture in which the co-venturers have reduced their arrangement to writing, or a de facto joint venture with no written agreement. To be considered a "qualified joint venture person," the joint venture must have at least one firm or organization that itself meets all the requirements of a U.S. joint venture person listed in Section 136. By signing this proposal, the U.S. person co-venturer agrees to be individually responsible for performance of the contract, notwithstanding the terms of any joint venture agreement.

1. Section 136(d)(1): "The term 'United States person' means a person which—(A) is incorporated or legally organized under the laws of any United States jurisdiction or component thereof. "

Definitions for purposes of Section 136 determinations of eligibility—

Incorporated means the state of legal recognition as an artificial person that may be afforded to a business entity pursuant to the laws of any United States jurisdiction or component thereof.

Legally organized means the state of legal recognition that may be afforded to a business entity that is other than a corporation pursuant to the laws of any United States jurisdiction or component thereof. This is the least form of legal recognition that will qualify an offeror for this preference. Only those prospective offerors that have legal status, including the right to bring suit, to sign contracts, and to hold property under the law of the jurisdiction under which they are doing business will qualify as legally organized. A natural person who is a United States citizen acting in his or her entrepreneurial capacity will be deemed to be a "person legally organized" within the scope of this definition, provided that the prospective offeror holds all required licenses to do business in the jurisdiction where he or she is located.

United States means any jurisdiction that is one of the fifty States, the District of Columbia, a United States territory, a United States possession, or the Commonwealth of Puerto Rico and the Northern Mariana Islands.

Question 1. The organization seeking eligibility under Section 136 is incorporated or is legally organized under the laws of what jurisdiction?

2. Section 136(d)(1): "The term 'United States person' means a person that—(B) has its principal place of business in the United States."

Definitions for purposes of Section 136 determinations of eligibility—

Principal place of business means the geographic location of the main office or seat of management of the prospective offeror. For purposes of this Statement, a prospective offeror shall identify only one principal place of business, and such location shall include at least the offices of the chief operating officer and headquarters staff. The named location must be a United States jurisdiction in which the prospective offeror may bring suit and be sued and in which service of process shall be accepted.

Question 2(a). The organization seeking eligibility has its principal office in what city and state?

Question 2(b). What kind of tax return was or will be filed, and in what jurisdiction, during the current calendar year? The jurisdiction identified herein need not be the same jurisdiction identified in Question 2(a).

(i) Jurisdiction:

(ii) Type of return (e.g., income tax, franchise tax, etc.). Include all that apply:

3. Section 136(d)(1): "The term 'United States person' means a person which—(C) has been incorporated or legally organized in the United States—(i) for more than 2 (two) years before the issuance date of the invitation for bids or request for proposals with respect to the contract under subsection (e) of this section."

Definitions for purposes of Section 136 determinations of eligibility—

Has been incorporated or legally organized means that the organization can show continuity as an ongoing business. Organizations that have changed only their names meet the continuity requirement of this subsection. Organizations that have been
bought, sold, merged, or otherwise substantially altered or enlarged their principal business activities will have the burden of proving that there have been ongoing operations by the same business entity for the required period of time. If the successor entity has acquired all of the assets and liabilities of the predecessor entity and the predecessor entity has no further existence, the successor may claim the incorporation or legal organization date of the predecessor. In any other circumstance, the prospective offeror must show that the law of the jurisdiction in which it operates regards the prospective offeror as the complete successor in interest of the predecessor entity for purpose of contractual obligations.

**Issue date** means the date in Block 5 of the Standard Form 33 accompanying this solicitation.

**Years** means calendar years measured from day of the month to day of the month. For example, January 1, 2002 through December 31, 2002 is one calendar year, as is July 1, 2002 through July 1, 2003.

**Question 3:**
(i) On what date was the organization seeking eligibility incorporated or legally organized?

(ii) If this date is less than two years before the issuance date, on the basis of what documentation does the organization seeking eligibility claim that it has been in business for the requisite period of time?

4. **Section 136(d)(1):** "The term 'United States person' means a person which—(D) has performed within the United States or overseas security services similar in complexity to the contract being bid.''

Definitions for purposes of Section 136 determination of eligibility—

**Complexity** means the physical size or extent of the effort, as described in Section B and Exhibit A of this solicitation; combined with the required quality of the effort as described in Sections C and H of this solicitation.

**Overseas** means within any jurisdiction that is not a part of the United States as defined below.

**Performed** means contracts that have been fully completed by the prospective offeror and accepted by the other party to the transaction. Contracts still in progress have been performed for purposes of this definition if performance in complexity to the contract being bid has been ongoing for at least one year. Contracts need not have been with the U.S. Government.

**Security services** means work of a kind as to fall within or compare closely with those described in the Statement of Work in Section C of this solicitation. An entity whose only security services experience was performed by its legally distinct parent or subsidiary organization will not be considered to have security services experience.

Within the United States means within the legal geographic boundaries of a United States jurisdiction that is the place where the subject matter (e.g., services) of the contract or other arrangement was in fact completed. The place where the contract or other arrangement was negotiated or signed is not relevant to this definition.

**Question 4:** Describe in an Attachment to this Statement (see L.1.3.5), the qualifying similar contracts or other arrangements performed by the prospective offeror. Provide required information on a sufficient number of arrangements to show that similar services have been performed overseas or in the United States. The description must consist of the following information on each arrangement, which shall be submitted as an Attachment to this Statement:

**Location:** (city and state or country)

**Type of service:** (for example, stationary guards, roving patrol, quick-reaction force, etc.).

**Complexity:** (type of facilities guarded, and number or extent of facilities, number of guards, etc.).

**Total business volume** means the U.S. dollar value of the gross income or receipts reported by the prospective offeror on its annual federal income tax returns.

**Years** means calendar years.

**Question 5:** Describe in an Attachment to this Statement (see L.1.3.5), for at least three of the five twelve-month income tax periods (fiscal years) defined below, the gross receipts of the organization seeking eligibility.

(i) The fiscal year ending during the calendar year that includes the date of this solicitation.

(ii) The fiscal year ending in the calendar year immediately prior to the calendar year that includes the date of this solicitation.

(iii) The fiscal year ending in the calendar year two years before the calendar year that includes the date of this solicitation.

(iv) The fiscal year ending in the calendar year three years before the calendar year that includes the date of this solicitation.
(v) The fiscal year ending in the calendar year four years before the calendar year that includes the date of this solicitation.

An entity will be deemed to have met this requirement if the total cumulative business volume for the three years presented exceeds the contract price at time of award under this solicitation for the full term for which prices are solicited, including any option periods.

6. Section 136(d)(1): “The term ‘United States person’ means a person which—(F)(i) employs United States citizens in at least 80 percent of its principal management positions in the United States; and (F)(ii) employs United States citizens in more than half of its permanent full-time positions in the United States.”

Definitions for purposes of Section 136 determinations of eligibility—

Full-time (positions) means those personnel positions in which the occupants are expected to and ordinarily work for 40 or more hours per week.

In the United States refers to those personnel positions that are encumbered as of the date of this solicitation and that the prospective offeror maintains in geographic locations within the jurisdictions defined above as constituting the United States.

Permanent (positions) means personnel positions that are intended to be indefinite as to length of employment, as opposed to limited, seasonal, or project-length personnel appointments.

Permanent, full-time positions means that portion of the prospective offeror’s workforce that continues to be employed without regard to the ordinary fluctuations of production or projects.

Principal management positions means those personnel positions including at least the chief executive officer (if any) and the chief operating officer (whether by title or by function) of the organization seeking eligibility, together with all those management officials who constitute the highest levels of management authority within the organization. In the case of a corporation, those officers of the corporation who are principally responsible for the day-to-day operation of the corporation. Members of corporation boards of directors do not occupy “principal management positions” simply by virtue of their service on the board. In all cases, the term “principal management positions” also includes the position or positions held by the individual or individuals in the United States who will have primary corporate management oversight responsibility for this contract if the prospective contractor is awarded the contract.

United States citizen means natural persons with United States citizenship by virtue either of birth or of naturalization.

Question 6(a): The organization seeking eligibility shall list all of its principal management positions and identify the current occupant of each listed position by name and citizenship. Provide the information as an Attachment to this Statement in the following format:

7. Section 136(d)(1): “The term ‘United States person’ means a person which—(G) has the existing technical and financial resources in the United States to perform the contract.”

Definitions for purposes of Section 136 determinations of eligibility—

Existing technical and financial resources means technical and financial capability within the United States to mobilize adequate staffing, equipment and organizational arrangements to perform the contract. Adequate technical resources may be demonstrated by presenting an organization chart, and résumés of current officers and employees in the United States who possess skills and expertise necessary to provide management and oversight of the work. Other indicia will be considered if offered to demonstrate that the prospective offeror has
available resources in the United States adequate to provide home office management and oversight of the work. Adequate financial resources may be demonstrated by proof of possession of a combination of net worth, bank lines of credit, or bank guarantees. If lines of credit or bank guarantees are used to demonstrate adequate financial resources, they must be from entities within the United States.

Question 7: Submit, as an Attachment to this Statement, materials demonstrating existing technical and financial resources in the United States (see L.1.3.5).

8. Section 136(d)(2): “The term ‘qualified United States joint venture person’ means a joint venture in which a United States person or persons owns at least 51 percent of the assets of the joint venture.”

Definitions for purposes of Section 136 determinations of eligibility—

Assets means tangible and intangible things of value conveyed or made available to the joint venture by the co-venturers. To be qualified for U.S. preference, 51 percent of the assets of the joint venture must be owned by the U.S. person co-venturer(s).

Joint venture means a formal or de facto association of two or more persons or entities to carry out a single business enterprise for profit, for which purpose they combine their property, money, effects, skills, and knowledge. As prescribed in 642.1406–2–70(b), insert the following clause:

**SHIPPING INSTRUCTIONS (DEC 1994)**

(a) Each packing box shall be of solid construction in accordance with best commercial practices and sufficiently strong in direct ratio to the weight of the contents to withstand excessively rough handling while in transit overseas. It shall be constructed of lumber that is well seasoned, reasonably
sound, free from bad cross grain and from knots or knotholes that interfere with nailing or that occupy more than 1/2 of the width of the piece of lumber. Box shall be constructed with three-way corners and diagonal bracing. All nails shall be cement-coated, of correct size and properly spaced to avoid splitting or warping, and shall be driven into the grain of the wood. Dimension of lumber shall be in accordance with the following table, dependent upon the weight of the contents:

<table>
<thead>
<tr>
<th>Weight of box and contents</th>
<th>Minimum dimensions of lumber for struts, frame members, and single diagonal braces</th>
</tr>
</thead>
<tbody>
<tr>
<td>Up to 45 kg</td>
<td>19.05 × 57.15 mm</td>

</tr>
<tr>

Each skid shall consist of two end sections of 50.8 × 152.4mm lumber placed flat and a center section of 50.8 × 161.6mm lumber placed flat and then arranged in line to provide 254mm fork-lift spaces between center and end sections. When goods are ready for shipment, the Contractor shall prepare four (4) copies of a packing list, indicating the contract and, if applicable, order numbers; case number; itemized list of contents; net and gross weights in kilograms; and outside dimensions, including all clears, of each shipping container. The Contractor shall provide three (3) copies of the packing list to the U.S. Despatch Agent as specified in the contract or order. The Contractor shall place the fourth copy of the packing list in packing case number one, which shall be marked as such so that it is easily identified by the consignee. Upon receipt of the packing list, the Despatch Agent will furnish export marks and instructions regarding shipment to the port specified, depending upon steamer services available at the time.

(d) The export marks shall be stenciled on one side of each box reserved for that purpose, and the appropriate case number stenciled in the lower-left-hand corner of the same side. The contract and, as necessary, order numbers, net and gross weights in kilograms shall be stenciled on the same side. However, if the size of the box is too small to accommodate all stenciling on one side, the contract and order numbers and weights may be stenciled on the side opposite that used for the export marks and case number.
