APPENDIX A TO SUBPART B OF PART 1046—MEDICAL AND PHYSICAL FITNESS QUALIFICATION STANDARDS

A. Applicability. This appendix A to subpart B of part 1046 provides the minimum, medical and physical fitness qualifications, criteria and guides to be used by designated physicians and management supervisory officials in advising responsible DOE officials whether the medical and physical condition of protective force personnel to be employed by DOE contractors reasonably assures that they can effectively perform their normal and emergency duties without undue hazard to themselves, fellow employees, the plant site and the general public.

B. *Training and Qualifications.*

(1) DOE contractors responsible for protective force personnel will establish formal qualification requirements to ensure the competencies needed by protective force members to perform the tasks required to fulfill their assigned responsibilities. The qualification requirements will be supported

by a formal training program which develops and maintains, in an effective and efficient manner, the knowledge, skills and abilities required to perform assigned tasks. The qualification and training programs will be based upon criteria established by the National Training Center and approved by the Chief Health, Safety and Security Officer, in coordination with program offices. The formal qualification and training program shall:

(a) Be based on a valid and complete set of job tasks, with identified levels of skills and knowledge needed to perform the tasks;

(b) Be aimed at achieving a well-defined, minimum level of competency required to perform each task acceptably;

(c) Employ standardized lesson plans with clear performance objectives as a basis for instruction;

(d) Include valid performance-based testing to determine and certify job readiness (i.e. qualification);

(e) Be documented so that individual and overall training status is easily accessible. Individual training records shall be retained until 1 year after termination of the employee as a member of the protective force, unless a longer retention period is specified by other requirements.

(2) DOE contractors responsible for training protective force personnel shall prepare and review annually a task analysis detailing all of the required actions for a specific job assignment. The task analysis shall be used to prepare a job description and as a basic input document for local training requirements and be approved by the Head of the Field Element.

(3) *Security Officers.*

(a) *Training requirements.* Prior to initial assignment to duty, each security officer shall successfully complete a basic training course designed to provide the minimum level of skills and knowledge needed to competently perform all tasks associated with security officer job responsibilities. The required tasks and minimum levels of competency shall be determined by a site-specific job analysis, but will include task areas found in paragraph (3)(c) of this appendix as appropriate. The training program will be approved by the Head of the Field Organization and where applicable will include, but not necessarily be limited to, the following types of instruction:

1. Orientation/standards of conduct;
2. Security education/operations and material control and accountability;
3. Safety training;
4. Legal requirements and responsibilities;
5. Weaponless self-defense;
6. Intermediate force weapons;
7. Communications;
8. Vehicle operations; and
9. Post and patrol operations.
