The repayment example assumes that you remain in school for 4 years and have a 6 month grace period before beginning repayment. It is based on the highest starting rate currently charged and associated fees. For loan amounts up to $20,000, repayment will last 20 years, starting once the initial principal payment is made. For loan amounts more than $20,000 repayment will last 20 years, starting once the initial principal payment is made.

You may qualify for Federal education loans. For additional information, contact your school’s financial aid office or the Department of Education at www.federalstudentaid.ed.gov

Next Steps

1. **Find Out About Other Loan Options.**
   Some schools have school-specific student loan benefits and terms not detailed on this form. Contact your school’s financial aid office or visit the Department of Education’s web site at www.federalstudentaid.ed.gov for more information about other loans.

2. **To Apply for this Loan, Complete the Application and the Self-Certification Form.**
   You may get the certification form from your school’s financial aid office. If you are approved for this loan, the loan terms will be available for 30 days (terms will not change during this period, except as permitted by law and the variable interest rate may change based on the market).

REFERENCE NOTES

**Variable Interest Rate**

- This loan has a variable interest rate, that is based on a publicly available index, the London Interbank Offered Rate (LIBOR). Your rate will be calculated each month by adding a margin between 3% and 13% to the LIBOR.
- The rate will not increase more than once a month, but there is no limit on the amount that the rate could increase at one time.

**Eligibility Criteria**

**Borrower**

- Must be enrolled at an eligible school at least half-time.
- Must be 18 years or older at the time you apply.

**Co-signers**

- Rates are typically higher without a co-signer.
- Must be 18 years or older at the time of loan application.

**Bankruptcy Limitations**

- If you file for bankruptcy you may still be required to pay back this loan.

More information about loan eligibility and repayment deferral or forbearance options is available in your loan application and loan agreement.

Initial finance charges (total):
* origination fee ($300)
* Loan Guarantee Fee ($300)
Total Loan Amount = $10,600

ABOUT YOUR INTEREST RATE

Your rate is variable. This means that your actual rate varies with the market and could be lower or higher than the rate on this form. The variable rate is based upon the LIBOR Rate (as published in the Wall Street Journal). For more information on this rate, see reference notes.

Although your rate will vary, it will never exceed 25% (the maximum allowable for this loan).

Your Annual Percentage Rate (APR) is 8.23%. The APR is typically different than the Interest Rate since it considers fees and reflects the cost of your loan as a yearly rate. For more information about the APR, see reference notes.

FEES

* Late Charge: 5% of the amount of the past due payment, or $25, whichever is greater.
* Returned check charge: up to $25.
* Fee when you begin repaying the loan: 3.5% of loan balance.

You may qualify for Federal education loans. For additional information, contact your school's financial aid office or the Department of Education at: www.federalstudentaid.ed.gov

Next Steps & Terms of Acceptance

This offer is good until:

**August 1, 2009**

1. **Find Out About Other Loan Options.**
   Contact your school's financial aid office for more information.

2. **You Have Until August 1, 2009 to Accept this Offer**
   The terms of this offer will not change except as permitted by law and the variable interest rate may change based on the market.

To Accept the Terms of this loan, contact us at

First ABC Bank
12345 1st St.
Anytown, CA 93120
(800) 555 - 5555

REFERENCE NOTES

Variable Interest Rate:
- Your loan has a variable interest rate based on a publicly available index, the London Interbank Offered Rate (LIBOR), which is currently 4.375%. Your rate is calculated each month by adding a margin of 3% to the LIBOR.
- The interest rate may be higher or lower than your Annual Percentage Rate (APR) because the APR considers certain fees you pay to obtain the loan, the interest rate, and whether you defer (postpone) payments while in school.
- The rate will not increase more than once a month, but there is no limit on the amount that the rate could increase at one time. Your rate will never exceed 10%.
- If the interest rate increases your monthly payments will be higher.

Bankruptcy Limitations
- If you file for bankruptcy you may still be required to pay back this loan.

Repayment Options:
- Although you elected to postpone payments, you can still make payments while you are in school. You can also choose to change your deferment choice to Pay Interest Only or Make Full Payments. More information about repayment deferral or forbearance options is available in your loan agreement.

Prepayments:
- If you pay the loan off early, you will not have to pay a penalty. You will not be entitled to a refund of part of the finance charge.

See your loan agreement for any additional information about nonpayment, default, any required repayment in full before the scheduled date, and prepayment refunds and penalties.

H–17(B) Debt Suspension Sample
Please enroll me in the optional [name of program], and bill my account the fee of $200.00. I understand that enrollment is not required to obtain credit. I also understand that depending on the event, the protection may only temporarily suspend my duty to make minimum payments, not reduce the balance I owe. I understand that my balance will actually grow during the suspension period as interest continues to accumulate.
APPENDIX I TO PART 226—FEDERAL ENFORCEMENT AGENCIES

The following list indicates which federal agency enforces Regulation Z for particular classes of businesses. Any questions concerning compliance by a particular business should be directed to the appropriate enforcement agency. Terms that are not defined in the Federal Deposit Insurance Act (12 U.S.C. 1813(s)) shall have the meaning given to them in the International Banking Act of 1978 (12 U.S.C. 3101).

National banks and federal branches and federal agencies of foreign banks
District office of the Office of the Comptroller of the Currency for the district in which the institution is located.
State member banks, branches and agencies of foreign banks (other than federal branches, federal agencies, and insured state branches of foreign banks), commercial lending companies owned or controlled by foreign banks, and organizations operating under section 25 or 25A of the Federal Reserve Act
Federal Reserve Bank serving the district in which the institution is located.
Non-member insured banks and insured state branches of foreign banks
Federal Deposit Insurance Corporation Regional director for the region in which the institution is located.
Savings institutions insured under the Savings Association Insurance Fund of the FDIC and federally chartered savings banks insured under the Bank Insurance Fund of the FDIC (but not including state-chartered savings banks insured under the Bank Insurance Fund).
Office of Thrift Supervision Regional Director for the region in which the institution is located.
Federal Credit Unions
Regional office of the National Credit Union Administration serving the area in which the federal credit union is located.
Air Carriers
Assistant General Counsel for Aviation Enforcement and Proceedings, Department of Transportation, 400 Seventh Street, SW., Washington, DC 20590.
Creditors Subject to Packers and Stockyards Act
Nearest Packers and Stockyards Administration area supervisor.

APPENDIX J TO PART 226—ANNUAL PERCENTAGE RATE COMPUTATIONS FOR CLOSED-END CREDIT TRANSACTIONS

(A) INTRODUCTION

(1) Section 226.22(a) of Regulation Z provides that the annual percentage rate for other than open end credit transactions shall be determined in accordance with either the actuarial method or the United States Rule method. This appendix contains an explanation of the actuarial method as well as equations, instructions and examples of how this method applies to single advance and multiple advance transactions.

(2) Under the actuarial method, at the end of each unit-period (or fractional unit-period) the unpaid balance of the amount financed is increased by the finance charge earned during that period and is decreased by the total payment (if any) made at the end of that period. The determination of unit-periods and fractional unit-periods shall be consistent with the definitions and rules in paragraphs (b)(3), (4), and (5) of this section and the general equation in paragraph (b)(8) of this section.

(3) In contrast, under the United States Rule method, at the end of each unit-period (or fractional unit-period) the unpaid balance of the amount financed is increased by the finance charge earned during that period and is decreased by the total payment (if any) made at the end of that period. The determination of unit-periods and fractional unit-periods shall be consistent with the definitions and rules in paragraphs (b)(3), (4), and (5) of this section and the general equation in paragraph (b)(8) of this section.

(4) Under the actuarial method, at the end of each payment period the unpaid balance of the amount financed is increased by the finance charge earned during that period and is decreased by the total payment (if any) made at the end of that period. If the payment is less than the finance charge earned, the adjustment of the unpaid balance of the amount financed is postponed until the end of the next payment period. If at that time the sum of the two payments is still less than the total earned finance charge for the two payment periods, the adjustment of the unpaid balance of the amount financed is postponed still another payment period, and so forth.
(b) Instructions and Equations for the Actuarial Method

(1) General Rule

The annual percentage rate shall be the nominal annual percentage rate determined by multiplying the unit-period rate by the number of unit-periods in a year.

(2) Term of the Transaction

The term of the transaction begins on the date of its consummation, except that if the finance charge or any portion of it is earned beginning on a later date, the term begins on the later date. The term ends on the date the last payment is due, except that if an advance is scheduled after that date, the term ends on the later date. For computation purposes, the length of the term shall be equal to the time interval between any point in time on the beginning date to the same point in time on the ending date.

(3) Definitions of Time Intervals

(i) A period is the interval of time between advances or between payments and includes the interval of time between the date the finance charge begins to be earned and the date of the first advance thereafter or the date of the first payment thereafter, as applicable.

(ii) A common period is any period that occurs more than once in a transaction.

(iii) A standard interval of time is a day, week, semimonth, month, or a multiple of a week or a month up to, but not exceeding, 1 year.

(iv) All months shall be considered equal. Full months shall be measured from any point in time on a given date of a given month to the same point in time on the same date of another month. If a series of payments (or advances) is scheduled for the last day of each month, months shall be measured from the last day of the given month to the last day of another month. If payments (or advances) are scheduled for the 29th or 30th of each month, the last day of February shall be used when applicable.

(4) Unit-period

(i) In all transactions other than a single advance, single payment transaction, the unit-period shall be that common period, not to exceed 1 year, that occurs most frequently in the transaction, except that

(A) If 2 or more common periods occur with equal frequency, the smaller of such common periods shall be the unit-period; or

(B) If there is no common period in the transaction, the unit-period shall be that period which is the average of all periods rounded to the nearest whole standard interval of time. If the average is equally near 2 standard intervals of time, the lower shall be the unit-period.

(ii) In a single advance, single payment transaction, the unit-period shall be the term of the transaction, but shall not exceed 1 year.

(5) Number of Unit-periods Between 2 Given Dates

(i) The number of days between 2 dates shall be the number of 24-hour intervals between any point in time on the first date to the same point in time on the second date.

(ii) If the unit-period is a month, the number of full unit-periods between 2 dates shall be the number of months measured back from the later date. The remaining fraction of a unit-period shall be the number of days measured forward from the earlier date to the beginning of the first full unit-period, divided by 30. If the unit-period is a month, there are 12 unit-periods per year.

(iii) If the unit-period is a semimonth or a multiple of a month not exceeding 11 months, the number of days between 2 dates shall be 30 times the number of full months measured back from the later date, plus the number of remaining days. The number of full unit-periods and the remaining fraction of a unit-period shall be determined by dividing such number of days by 15 in the case of a semimonthly unit-period or by the appropriate multiple of 30 in the case of a monthly unit-period. If the unit-period is a semimonth, the number of unit-periods per year shall be 24. If the number of unit-periods is a multiple of a month, the number of unit-periods per year shall be 12 divided by the number of months per unit-period.

(iv) If the unit-period is a day, a week, or a multiple of a week, the number of full unit-periods and the remaining fractions of a unit-period shall be determined by dividing the number of days between the 2 given dates by the number of days per unit-period. The number of unit-periods per year shall be 365. If the unit-period is a week or a multiple of a week, the number of unit-periods per year shall be 52 divided by the number of weeks per unit-period.

(v) If the unit-period is a year, the number of full unit-periods between 2 dates shall be the number of full years (each equal to 12 months) measured back from the later date. The remaining fraction of a unit-period shall be

(A) The remaining number of months divided by 12 if the remaining interval is equal to a whole number of months, or

(B) The remaining number of days divided by 365 if the remaining interval is not equal to a whole number of months.

(vi) In a single advance, single payment transaction in which the term is less than a year and is equal to a whole number of months, the number of unit-periods in the
Federal Reserve System

term shall be 1, and the number of unit-periods per year shall be 12 divided by the number of months in the term or 365 divided by the number of days in the term.

(vii) In a single advance, single payment transaction in which the term is less than a year and is not equal to a whole number of months, the number of unit-periods in the term shall be 1, and the number of unit-periods per year shall be 365 divided by the number of days in the term.

(6) Percentage Rate for a Fraction of a Unit-period

The percentage rate of finance charge for a fraction (less than 1) of a unit-period shall be equal to such fraction multiplied by the percentage rate of finance charge per unit-period.

(7) Symbols. The symbols used to express the terms of a transaction in the equation set forth in paragraph (b)(6) of this section are defined as follows:

A = The amount of the kth advance.

q = The number of full unit-periods from the beginning of the term of the transaction to the kth advance.

e = The fraction of a unit-period in the time interval from the beginning of the term of the transaction to the kth advance.

n = The number of advances.

P = The amount of the jth payment.

r = The number of full unit-periods from the beginning of the term of the transaction to the jth payment.

f = The fraction of a unit-period in the time interval from the beginning of the term of the transaction to the jth payment.

m = The number of payments.

I = The percentage rate of finance charge per unit-period, expressed as a decimal equivalent.

Symbols used in the examples shown in this appendix are defined as follows:

s = The present value of 1 per unit-period for x unit-periods, first payment due immediately.

\[ s = \sum_{k=1}^{x} \frac{1}{(1+i)^k} \]

w = The number of unit-periods per year.

I = wi \times 100 - The nominal annual percentage rate.
(8) General equation. The following equation sets forth the relationship among the terms of a transaction:

\[
\frac{A}{1} + \frac{A}{(1 + e_i)(1 + i)} + \cdots + \frac{A}{(1 + e_i)(1 + i)^n} = \frac{P}{1} + \frac{P}{(1 + f_i)(1 + i)} + \cdots + \frac{P}{(1 + f_i)(1 + i)^n}.
\]

(9) Solution of general equation by iteration process. (i) The general equation in paragraph (b)(d) of this section, when applied to a simple transaction in which a loan of $1000 is repaid by 36 monthly payments of $33.61 each, takes the special form:

\[
A = \frac{33.61 \cdot 36}{(1 + i)}
\]

Step 1: Let I = estimated annual percentage rate = 12.50 %

Evaluate expression for A, letting \(1 = \frac{I}{(100w)} = \frac{.010416667}{1}\)

Result (referred to as \(A') = 1004.674391\)

Step 2: Let \(I = 1 + .1 = 12.60\ %\)

Evaluate expression for A, letting \(1 = \frac{I}{(100w)} = \frac{.010500000}{2}\)

Result (referred to as \(A'') = 1003.235366\)

Step 3: Interpolate for I (annual percentage rate):

\[
I = 1 + .1 \left[ A' - A'' \right] \frac{1}{(A'' - A')}
\]

\[= 12.50 + .1 \left[ \frac{1000.000000 - 1004.674391}{1005.235366 - 1004.674391} \right] = 12.82483042 \%
\]

Step 4: First iteration, let \(I = 12.82483042\ %\) and repeat

Steps 1, 2, and 3 obtaining a new I = 12.82557859 %

Second iteration, let \(I = 12.82557859\ %\) and repeat

Steps 1, 2, and 3 obtaining a new I = 12.82557529 %

In this case, no further iterations are required to obtain the annual percentage rate correct to two decimal places, 12.83%.
Federal Reserve System
Pt. 226, App. J

(1) When the iteration approach is used, it is expected that calculators or computers will be programmed to carry all available decimals throughout the calculation and that enough iterations will be performed to make virtually certain that the annual percentage rate obtained, when rounded to 2 decimals, is correct. Annual percentage rates in the examples below were obtained by using a 10 digit programmable calculator and the iteration procedure described above.

(e) Examples for the actuarial method. (1) Simple advance transaction, with or without an odd first period, and otherwise regular. The general equation in paragraph (b)(3) of this section can be put in the following special form for this type of transaction:

\[ A = \frac{1}{t} \left( \frac{P}{a_{m}} \right) \frac{i}{1+i} \]

Example (i): Monthly payments (regular first period)

Amount advanced (A) = $5000. Payment (P) = $230.
Number of payments (n) = 24.
Unit-period = 1 month. Unit-periods per year (w) = 12.
Advance, 1-10-78. First payment, 2-10-78.
From 1-10-78 through 2-10-78 = 1 unit-period. (t = 1; f = 0)
Annual percentage rate (i) = wi = .0969 = 9.69%

Example (ii): Monthly payments (long first period)

Amount advanced (A) = $6000. Payment (P) = $200.
Number of payments (n) = 36.
Unit-period = 1 month. Unit-periods per year (w) = 12.
Advance, 2-10-78. First payment, 4-1-78.
From 3-1-78 through 4-1-78 = 1 unit-period. (t = 1)
From 2-10-78 through 3-1-78 = 19 days. (f = 19/30)
Annual percentage rate (i) = wi = .1182 = 11.82%

Example (iii): Semi-monthly payments (short first period)

Amount advanced (A) = $5000. Payment (P) = $219.17.
Number of payments (n) = 24.
Unit-period = 1/2 month. Unit-periods per year (w) = 24.
Advance, 2-23-78. First payment, 3-1-78. Payments made on 1st and 15th of each month.
From 2-23-78 through 3-1-78 = 6 days. (t = 0; f = 6/15)
Annual percentage rate (i) = wi = .1034 = 10.34%

Example (iv): Quarterly payments (long first period)

Amount advanced (A) = $10,000. Payment (P) = $385.
Number of payments (n) = 40.
Unit-period = 3 months. Unit-periods per year (w) = 4.
Advance, 5-23-78. First payment, 10-1-78.
From 7-1-78 through 10-1-78 = 1 unit-period. (t = 1)
From 6-1-78 through 7-1-78 = 1 month = 30 days. From 5-23-78 through 6-1-78 = 9 days. (f = 39/90)
Annual percentage rate (i) = wi = .0897 = 8.97%
Example (v): Weekly payments (long first period)

Amount advanced (A) = $500. Payment (P) = $17.60.
Number of payments (n) = 30.
Unit-period = 1 week. Unit-periods per year (w) = 52.
Advance, 3-20-78. First payment, 4-21-78.
From 3-24-78 through 4-21-78 = 4 unit-periods. (t = 4)
From 3-20-78 through 3-24-78 = 4 days. (f = 4/7)
Annual percentage rate (r) = wi = .1496 = 14.96%

(2) Single advance transaction, with an odd first payment, with or without an odd first period, and otherwise regular. The general equation in paragraph (b)(3) of this section can be put in the following special form for this type of transaction:

$$A = \frac{1}{(1+f_1)(1+i)} \left[ \frac{P}{n-1} + \frac{P_n}{n-1} \right]$$

Example (v): Monthly payments (regular first period and irregular first payment)

Amount advanced (A) = $5000. First payment (P) = $230.
Regular payment (P) = $230. Number of payments (n) = 24.
Unit-period = 1 month. Unit-periods per year (w) = 12.
Advance, 1-10-78. First payment, 2-10-78.
From 1-10-78 through 2-10-78 = 1 unit-period. (t = 1; f = 0)
Annual percentage rate (r) = wi = .1008 = 10.08%

Example (vi): Payments every 4 weeks (long first period and irregular first payment)

Amount advanced (A) = $500. First payment (P) = $39.50.
Regular payment (P) = $38.31. Number of payments (n) = 12.
Unit-period = 4 weeks. Unit-periods per year (w) = 52/4 = 13.
Advance, 3-18-78. First payment, 4-20-78.
From 3-23-78 through 4-20-78 = 1 unit-period. (t = 1)
From 3-18-78 through 3-23-78 = 5 days. (f = 5/28)
Annual percentage rate (r) = wi = .2850 = 28.50%

(3) Single advance transaction, with an odd final payment, with or without an odd first period, and otherwise regular. The general equation in paragraph (b)(3) of this section can be put in the following special form for this type of transaction:

$$A = \frac{1}{(1+f_1)(1+i)} \left[ \frac{P}{n-1} + \frac{P_n}{n-1} \right]$$
Example (i): Monthly payments (regular first period and irregular final payment)

Amount advanced \( (A) = \$5000 \). Regular payment \( (P) = \$230 \). Final payment \( \left( \frac{P}{n} \right) = \$200 \). Number of payments \( (n) = 24 \).

Unit-period = 1 month. Unit-periods per year \( (w) = 12 \). Advance, 1-10-78. First payment, 2-10-78.
From 1-10-78 through 2-10-78 = 1 unit-period. \( (t = 1; f = 0) \)
Annual percentage rate \((1) = w_1 = .1050 = 10.50\% \)

Example (ii): Payments every 2 weeks (short first period and irregular final payment)

Amount advanced \( (A) = \$200 \). Regular payment \( (P) = \$9.50 \). Final payment \( \left( \frac{P}{n} \right) = \$30 \). Number of payments \( (n) = 20 \).

Unit-period = 2 weeks. Unit-periods per year \( (w) = 52/2 = 26 \). Advance, 4-3-78. First payment, 4-11-78.
From 4-3-78 through 4-11-78 = 8 days. \( (t = 0; f = 8/14) \)
Annual percentage rate \((1) = w_1 = .1222 = 12.22\% \)

(4) Simple advance transaction, with an odd first period, odd final payment, with or without an odd first period, and otherwise regular. The general equation in paragraph (b)(3) of this section can be put in the following special form for this type of transaction:

\[
A = \frac{1}{(1+f)(1+i)} \left[ P \frac{P^2}{1} + \frac{P}{n} \frac{n^2}{(1+i)} \right]
\]

Example (i): Monthly payments (regular first period, irregular first payment, and irregular final payment)

Amount advanced \( (A) = \$5000 \). First payment \( \left( \frac{P}{1} \right) = \$250 \).
Regular payment \( (P) = \$230 \). Final payment \( \left( \frac{P}{n} \right) = \$200 \).

Number of payments \( (n) = 24 \). Unit-period = 1 month. Unit-periods per year \( (w) = 12 \). Advance, 1-10-78. First payment, 2-10-78.
From 1-10-78 through 2-10-78 = 1 unit-period. \( (t = 1; f = 0) \)
Annual percentage rate \((1) = w_1 = .1090 = 10.90\% \)

Example (ii): Payments every two months (short first period, irregular first payment, and irregular final payment)

Amount advanced \( (A) = \$8000 \). First payment \( \left( \frac{P}{1} \right) = \$449.36 \).
Regular payment \( (P) = \$465 \). Final payment \( \left( \frac{P}{n} \right) = \$200 \).

Number of payments \( (n) = 20 \). Unit-period = 2 months. Unit-periods per year \( (w) = 12/2 = 6 \). Advance, 1-10-78. First payment, 3-1-78.
From 2-1-78 through 3-1-78 = 1 month. From 1-10-78 through 2-1-78 = 22 days. \( (t = 0; f = 52/60) \)
Annual percentage rate \((1) = w_1 = .0730 = 7.30\% \)
(5) Single advance, single payment transaction. The general equation in paragraph (b)(8) of this section can be put in the special forms below for single advance, single payment transactions. Forms 1 through 3 are for the direct determination of the annual percentage rate under special conditions. Form 4 requires the use of the iteration procedure of paragraph (b)(9) of this section and can be used for all single advance, single payment transactions regardless of term.

Form 1 - Term less than 1 year:

\[ I = \frac{100w}{\left(\frac{P}{A} - 1\right)} \]

Form 2 - Term more than 1 year but less than 2 years:

\[ I = \frac{50}{T} \left\{ \left[ (1 + f)^{2} + 4t\left(\frac{P}{A} - 1\right)\right]^{1/2} - (1 + f) \right\} \]

Form 3 - Term equal to exactly a year or exact multiple of a year:

\[ I = 100\left(\frac{P}{A} - 1\right)^{1/t} \]

Form 4 - Special form for iteration procedure (no restriction on term):

\[ A = \frac{P}{(1 + f)(1 + 1)} \]

Example (i): Single advance, single payment (term of less than 1 year, measured in days)

Amount advanced (A) = $1000. Payment (P) = $1080. Unit-period = 255 days. Unit-periods per year (w) = 365/255. Advance, 1-3-78. Payment, 9-25-78. From 1-3-78 through 9-25-78 = 255 days. (t = 1; f = 0) Annual percentage rate (I) = wi = .1145 = 11.45%. (Use Form 1 or 4.)

Example (ii): Single advance, single payment (term of less than 1 year, measured in exact calendar months)

Amount advanced (A) = $1000. Payment (P) = $1044. Unit-period = 6 months. Unit-periods per year (w) = 2. Advance, 7-15-78. Payment, 1-15-79. From 7-15-78 through 1-15-79 = 6 months. (t = 1; f = 0) Annual percentage rate (I) = wi = .0880 = 8.80%. (Use Form 1 or 4.)

Example (iii): Single advance, single payment (term of more than 1 year but less than 2 years, fraction measured in exact months)

Amount advanced (A) = $1000. Payment (P) = $1135.19. Unit-period = 1 year. Unit-periods per year (w) = 1. Advance, 7-17-78. Payment, 1-17-80. From 7-17-78 through 1-17-80 = 1 unit-period. (t = 1) From 7-17-78 through 1-17-79 = 6 months. (f = 6/12) Annual percentage rate (I) = wi = .0876 = 8.76%. (Use Form 2 or 4.)
Federal Reserve System

Pt. 226, App. J

Example (iv): Single advance, single payment (term of exactly 2 years)

Amount advanced \( A = \$1000 \). Payment \( P = \$1240 \).
Unit-period = 1 year. Unit-periods per year \( w \) = 1.
Advance, 1-3-78. Payment, 1-3-80.
From 1-3-78 through 1-3-79 = 1 unit-period. \( t = 2; f = 0 \)
Annual percentage rate \( (1) = \frac{wP - A}{A} = 1.1136 = 11.36\% \). (Use Form 3 or 4.)

(6) Complex single advance transaction.

Example (i): Skipped payment loan (payments every 4 weeks)

A loan of \$2135 is advanced on 1-25-78. It is to be repaid by 24 payments of \$100 each. Payments are due every 4 weeks beginning 2-20-78. However, in those months in which 2 payments would be due, only the first of the 2 payments is made and the following payment is delayed by 2 weeks to place it in the next month.
Unit-period = 4 weeks. Unit-periods per year \( w = 52/4 = 13 \).
First series of payments begins 26 days after 1-25-78.
\( t = 0; f = 26/28 \)

Second series of payments begins 9 unit-periods plus 2 weeks after start of first series. \( t = 10; f = 12/28 \)

Third series of payments begins 6 unit-periods plus 2 weeks after start of second series. \( t = 16; f = 26/28 \)

Last series of payments begins 6 unit-periods plus 2 weeks after start of third series. \( t = 23; f = 12/28 \)

The general equation in paragraph (b)(8) of this section can be written in the special form:

\[
2135 = \frac{100 \cdot M}{2} + \frac{100 \cdot P}{6} + \frac{100 \cdot P}{10} \quad (1+(26/28)1) \quad (1+(12/28)1)(1+1)
\]

\[
(1+(26/28)1)(1+1) \quad (1+(12/28)1)(1+1) \quad 23
\]

Annual percentage rate \( (1) = \frac{wP - A}{A} = 1.1200 = 12.00\% \)
Example (ii): Skipped payment loan plus single payments

A loan of $7350 on 3-3-78 is to be repaid by 3 monthly payments of $1000 each beginning 9-15-78, plus a single payment of $2000 on 3-15-79, plus 3 more monthly payments of $750 each beginning 9-15-79, plus a final payment of $1000 on 2-1-80.

Unit-period = 1 month. Unit-periods per year (w) = 12.

First series of payments begins 6 unit-periods plus 12 days after 3-3-78. \( (t = 6; f = 12/30) \)

Second series of payments (single payment) occurs 12 unit-periods plus 12 days after 3-3-78. \( (t = 12; f = 12/30) \)

Third series of payments begins 18 unit-periods plus 12 days after 3-3-78. \( (t = 18; f = 12/30) \)

Final payment occurs 22 unit-periods plus 29 days after 3-3-78. \( (t = 22; f = 29/30) \)

The general equation in paragraph (b)(8) of this section can be written in the special form:

\[
7350 = \frac{1000 \cdot a_{\frac{1}{3}}}{(1+(12/30)i)(1+i)} + \frac{2000}{(1+(12/30)i)(1+i)} \]

\[
= \frac{750 \cdot a_{\frac{11}{3}}}{(1+(12/30)i)(1+i)} + \frac{1000}{(1+(29/30)i)(1+i)}
\]

Annual percentage rate (I) = \( w1 = 0.1022 = 10.22\% \)

Example (iii): Mortgage with varying payments

A loan of $39,688.56 (net) on 4-10-78 is to be repaid by 360 monthly payments beginning 6-1-78. Payments are the same for 12 months at a time as follows:
Federal Reserve System

<td>381.20</td>
<td>30</td>
<td>369.50</td>
</tr>
</tbody>
</table>

Unit-period = 1 month. Unit-periods per year (w) = 12.
From 5-1-78 through 6-1-78 = 1 unit-period. (t = 1)
From 4-10-78 through 5-1-78 = 21 days. (f = 21/30)

The general equation in paragraph (b)(8) of this section can be written in the special form:

$$39,688.56 = \frac{291.81 + 300.18 + \ldots + 384.62 + \ldots + 369.50}{(1+1)(1+2/12)}$$

Annual percentage rate (1) = \(\frac{1}{12} = .0980 = 9.80\%\)

(7) Multiple advance transactions.

Example (1): Construction loan

Three advances of $20,000 each are made on 4-10-79, 6-12-79, and 9-18-79. Repayment is by 240 monthly payments of $612.36 each beginning 12-10-79.

Unit-period = 1 month. Unit-periods per year (w) = 12.
From 4-10-79 through 6-12-79 = (2+2/30) unit-periods.
From 4-10-79 through 9-18-79 = (5+2/30) unit-periods.
From 4-10-79 through 12-10-79 = (8) unit-periods.

The general equation in paragraph (b)(6) of this section is changed to the single advance mode by treating the 2nd and 3rd advances as negative payments:
\[
20,000 = \frac{612.36 \times \frac{240}{240}}{(1+i)} - \frac{20,000}{(1+(2/30))} \frac{1}{(1+i)} - \frac{20,000}{(1+8/30)} \frac{1}{(1+i)}
\]

Annual percentage rate \((1)\) = \(w1 = .1025 = 10.25\%\)

**Example (1): Student loan**

A student loan consists of 8 advances: $1800 on 9-5-78, 9-5-79, 9-5-80, and 9-5-81; plus $1000 on 1-5-79, 1-5-80, 1-5-81, and 1-5-82. The borrower is to make 50 monthly payments of $240 each beginning 7-1-78 (prior to first advance).

Unit-period = 1 month. Unit-periods per year \((w) = 12\).

Zero point is date of first payment since it precedes first advance.

From 7-1-78 to 9-5-78 = \((2 + 4/30)\) unit-periods.

\[
\begin{align*}
\text{9-5-78} & = (14 + 4/30) \\
\text{9-5-79} & = (26 + 4/30) \\
\text{9-5-80} & = (38 + 4/30) \\
\text{1-5-79} & = (6 + 4/30) \\
\text{1-5-80} & = (18 + 4/30) \\
\text{1-5-81} & = (30 + 4/30) \\
\text{1-5-82} & = (42 + 4/30)
\end{align*}
\]

Since the zero point is date of first payment, the general equation in paragraph (b)(8) of this section is written in the single advance form below by treating the first payment as a negative advance and the 8 advances as negative payments:

\[
\begin{align*}
\text{Annual percentage rate } (1) & = w1 = .3204 = 32.04\% \\
[46 \text{ FR } 20892, \text{ Apr. 7, 1981, as amended at 46 FR 29246, June 1, 1981}] \\
\end{align*}
\]
APPENDIX K TO PART 226—TOTAL ANNUAL LOAN COST RATE COMPUTATIONS FOR REVERSE MORTGAGE TRANSACTIONS

(a) Introduction. Creditors are required to disclose a series of total annual loan cost rates for each reverse mortgage transaction. This appendix contains the equations creditors must use in computing the total annual loan cost rate for various transactions, as well as instructions, explanations, and examples for various transactions. This appendix is modeled after appendix J of this part (Annual Percentage Rates Computations for Closed-end Credit Transactions); creditors should consult appendix J of this part for additional guidance in using the formulas for reverse mortgages.

(b) Instructions and equations for the total annual loan cost rate—(1) General rule. The total annual loan cost rate shall be the nominal total annual loan cost rate determined by multiplying the unit-period rate by the number of unit-periods in a year.

(2) Term of the transaction. For purposes of total annual loan cost disclosures, the term of a reverse mortgage transaction is assumed to begin on the first of the month in which consummation is expected to occur. If a loan cost or any portion of a loan cost is initially incurred beginning on a date later than consummation, the term of the transaction is assumed to begin on the first of the month in which that loan cost is incurred. For purposes of total annual loan cost disclosures, the term ends on each of the assumed loan periods specified in §226.33(c)(6).

(3) Definitions of time intervals.

(i) A period is the interval of time between advances.

(ii) A common period is any period that occurs more than once in a transaction.

(iii) A standard interval of time is a day, week, semimonth, month, or a multiple of a week or a multiple of a month, up to and not exceeding, one year.

(iv) All months shall be considered to have an equal number of days.

(4) Unit-period. (i) In all transactions other than single-advance, single-payment transactions, the unit-period shall be that common period, not to exceed one year, that occurs most frequently in the transaction, except that:

(A) If two or more common periods occur with equal frequency, the smaller of such common periods shall be the unit-period; or

(B) If there is no common period in the transaction, the unit-period shall be that period which is the average of all periods rounded to the nearest whole standard interval of time. If the average is equally near two standard intervals of time, the lower shall be the unit-period.

(ii) In a single-advance, single-payment transaction, the unit-period shall be the term of the transaction, but shall not exceed one year.

(5) Number of unit-periods between two given dates. (i) The number of days between two dates shall be the number of 24-hour intervals between any point in time on the first date to the same point in time on the second date.

(ii) If the unit-period is a month, the number of full unit-periods between two dates shall be the number of months. If the unit-period is a month, the number of unit-periods per year shall be 12.

(iii) If the unit-period is a semimonth or a multiple of a month not exceeding 11 months, the number of days between two dates shall be 30 times the number of full months. The number of full unit-periods shall be determined by dividing the number of days by 15 in the case of a semimonthly unit-period or by the appropriate multiple of 30 in the case of a multimonthly unit-period. If the unit-period is a semimonth, the number of unit-periods per year shall be 12 divided by the number of months per unit-period.

(iv) If the unit-period is a day, a week, or a multiple of a week, the number of full unit-periods shall be determined by dividing the number of days by 15 in the case of a semimonthly unit-period or by the appropriate multiple of 30 in the case of a multimonthly unit-period. If the unit-period is a day, the number of unit-periods per year shall be 365. If the unit-period is a week or a multiple of a week, the number of unit-periods per year shall be 52 divided by the number of weeks per unit-period.

(v) If the unit-period is a year, the number of full unit-periods between two dates shall be the number of full years (each equal to 12 months).

(6) Symbols. The symbols used to express the terms of a transaction in the equation set forth in paragraph (b)(8) of this appendix are defined as follows:

A=The amount of each periodic or lump-sum advance to the consumer under the reverse mortgage transaction.

i=Percentage rate of the total annual loan cost per unit-period, expressed as a decimal equivalent.

j=The number of unit-periods until the jth advance.

n=The number of unit-periods between consummation and repayment of the debt.

P=Min (Bal, Val). This is the maximum amount that the creditor can be repaid at the specified loan term.

Bal=Loan balance at time of repayment, including all costs and fees incurred by the consumer (including any shared appreciation or shared equity amount) compounded to time n at the creditor’s contract rate of interest.

Val=Val0(1 + i)n, where Val0 is the property value at consummation, i is the assumed
annual rate of appreciation for the dwelling, and \( y \) is the number of years in the assumed term. \( \text{Val}_x \) must be reduced by the amount of any equity reserved for the consumer by agreement between the parties, or by 7 percent (or the amount or percentage specified in the credit agreement), if the amount required to be repaid is limited to the net proceeds of sale.

\( \sigma \) = The summation operator.

Symbols used in the examples shown in this appendix are defined as follows:

\[
\text{FV}_{n} = \text{The future value of } 1 \text{ per unit period for } n \text{ unit periods, first advance due immediately (at time } t = 0, \text{ which is consumption).}
\]

\[
= \sum_{j=0}^{x-1} (1+i)^{x-j}
\]

\[
= (1+i)^x \times (1+i)^{-1} \times \cdots \times (1+i)\; \text{or}
\]

\[
= \frac{(1+i)^n - 1}{i}
\]

\( w \) = The number of unit-periods per year.

\( l = wi \times 100 = \text{the nominal total annual loan cost rate.} \)

(7) General equation. The total annual loan cost rate for a reverse mortgage transaction must be determined by first solving the following formula, which sets forth the relationship between the advances to the consumer and the amount owed to the creditor under the terms of the reverse mortgage agreement for the loan cost rate per unit-period (the loan cost rate per unit-period is then multiplied by the number of unit-periods per year to obtain the total annual loan cost rate \( I \); that is, \( I = wi \)):

\[
\sum_{j=0}^{n-1} A_j (1+i)^{n-j} = P_n
\]

(8) Solution of general equation by iteration process. (i) The general equation in paragraph (b)(7) of this appendix, when applied to a simple transaction for a reverse mortgage loan of equal monthly advances of $350 each, and with a total amount owed of $34,312.88 at an assumed repayment period of two years, takes the special form:

\[
P_n = 350 \times \text{FV}_{24} \times i, \text{ or}
\]

\[
P_n = 350 \times \left[ \frac{(1+i)^n - 1}{i} \right] \times (1+i)
\]

Using the iteration procedures found in steps 1 through 4 of (b)(9)(i) of appendix J of this part, the total annual loan cost rate, correct to two decimals, is 48.53%.

(ii) In using these iteration procedures, it is expected that calculators or computers will be programmed to carry all available decimals throughout the calculation and that enough iterations will be performed to make virtually certain that the total annual loan cost rate obtained, when rounded to two decimals, is correct. Total annual loan cost rates in the examples below were obtained by using a 10-digit programmable calculator and the iteration procedure described in appendix J of this part.

(9) Assumption for discretionary cash advances. If the consumer controls the timing of advances made after consummation (such as in a credit line arrangement), the creditor must use the general formula in paragraph (b)(7) of this appendix. The total annual loan cost rate shall be based on the assumption that 50 percent of the principal loan amount is advanced at closing, or in the case of an open-end transaction, at the time the consumer becomes obligated under the plan. Creditors shall assume the advances are made at the interest rate then in effect and that no further advances are made to, or repayments made by, the consumer during the term of the transaction or plan.

(10) Assumption for variable-rate reverse mortgage transactions. If the interest rate for a reverse mortgage transaction may increase during the loan term and the amount or timing is not known at consummation, creditors shall base the disclosures on the initial interest rate in effect at the time the disclosures are provided.

(11) Assumption for closing costs. In calculating the total annual loan cost rate, creditors shall assume all closing and other consumer costs are financed by the creditor.

(c) Examples of total annual loan cost rate computations—(1) Lump-sum advance at consummation.

Lump-sum advance to consumer at consummation: $40,000
Total of consumer’s loan costs financed at consummation: $4,500
Contract interest rate: 11.60%
Estimated time of repayment (based on life expectancy of a consumer at age 78): 10 years
Appraised value of dwelling at consummation: $100,000
Assumed annual dwelling appreciation rate: 4%

\[ P_{10} = \text{Min} (103,385.84, 137,662.72) \]
Federal Reserve System

Pt. 226, App. K

\[
30,000(1 + i)^{10-0} + \sum_{j=0}^{9} 0(1 + i)^{10-j} = 103,385.84
\]

\(i = .1317069438\)

\(\text{Total annual loan cost rate } (100(.1317069438 \times 1)) = 13.17\%\)

(2) Monthly advance beginning at consummation.

Monthly advance to consumer, beginning at consummation: $402.51

Total of consumer's loan costs financed at consummation: $4,500

\[P_{120} = \text{Min}(107,053.63, 200,780.02) \]

\[492.51 \times \left(\frac{(1 + i)^{120} - 1}{i}\right) \times (1 + i) = 107,053.63\]

\(i = .009061140\)

\(\text{Total annual loan cost rate } (100(.009061140 \times 12)) = 10.87\%\)

(3) Lump sum advance at consummation and monthly advances thereafter.

Lump sum advance to consumer at consummation: $10,000

Monthly advance to consumer, beginning at consummation: $725

Total of consumer's loan costs financed at consummation: $4,500

\[P_{144} = \text{Min}(221,818.30, 234,189.82) \]

\[10,000(1 + i)^{144-0} + \sum_{j=0}^{143} 725(1 + i)^{144-j} = 221,818.30\]

\(i = .007708844\)

\(\text{Contract rate of interest: } 9.00\%\)

Estimated time of repayment (based on life expectancy of a consumer at age 78): 10 years

Appraised value of dwelling at consummation: $100,000

Assumed annual dwelling appreciation rate: 8%

\(\text{Contract interest rate: } 9.00\%\)

Estimated time of repayment (based on life expectancy of a consumer at age 78): 10 years

Appraised value of dwelling at consummation: $100,000

Assumed annual dwelling appreciation rate: 8%

\(\text{Contract rate of interest: } 8.5\%\)

Estimated time of repayment (based on life expectancy of a consumer at age 75): 12 years

Appraised value of dwelling at consummation: $100,000

Assumed annual dwelling appreciation rate: 8%

Reverse mortgage model form and sample form—(1) Model form.

\(\text{TOTAL ANNUAL LOAN COST RATE}\)

\(\text{Loan Terms}\)

\(\text{Initial Loan Charges}\)

Closing costs:

Mortgage insurance premium:

Annuity cost:

\(\text{Monthly Loan Charges}\)

Servicing fee:

Other Charges:

Mortgage insurance:

Shared Appreciation:

\(\text{Repayment Limits}\)
The cost of any reverse mortgage loan depends on how long you keep the loan and how much your house appreciates in value. Generally, the longer you keep a reverse mortgage, the lower the total annual loan cost rate will be.

This table shows the estimated cost of your reverse mortgage loan, expressed as an annual rate. It illustrates the cost for three (four) loan terms: 2 years, [half of life expectancy for someone your age] that life expectancy, and 1.4 times that life expectancy. The table also shows the cost of the loan, assuming the value of your home appreciates at three different rates: 0%, 4% and 8%.

The total annual loan cost rates in this table are based on the total charges associated with this loan. These charges typically include principal, interest, closing costs, mortgage insurance premiums, annuity costs, and servicing costs (but not costs when you sell the home). The rates in this table are estimates. Your actual cost may differ if, for example, the amount of your loan advances varies or the interest rate on your mortgage changes.

**SIGNING AN APPLICATION OR RECEIVING THESE DISCLOSURES DOES NOT REQUIRE YOU TO COMPLETE THIS LOAN (2) Sample Form.**

(60 FR 15476, Mar. 24, 1995)

**APPENDIX M1 TO PART 226—GENERIC REPAYMENT ESTIMATES**

_Effective Date Note:_ At 74 FR 5441, Jan. 29, 2009, appendix M1 to part 226 was added, effective July 1, 2010.

(a) Calculating generic repayment estimates.

(b) Loan periods. (1) Loan Period 1 is a two-year loan period.

(2) Loan Period 2 is the life expectancy in years of the youngest borrower to become obligated on the reverse mortgage loan, as shown in the U.S. Decennial Life Tables for 1979-1981 for females, rounded to the nearest whole year.

(3) Loan Period 3 is the life expectancy figure in Loan Period 2, multiplied by 1.4 and rounded to the nearest full year (life expectancy figures at .5 have been rounded up to 1).

(4) At the creditor's option, an additional period may be included, which is the life expectancy figure in Loan Period 2, multiplied by .5 and rounded to the nearest full year (life expectancy figures at .5 have been rounded up to 1).
(ii) “General purpose credit card” means a credit card other than a retail credit card.

(2) Minimum payment formula.

(1) Issuer-operated toll-free telephone number.

(A) General purpose credit cards. (1) When calculating the generic repayment estimate for general purpose credit cards, a card issuer must use the minimum payment formula that applies to most of its general purpose consumer credit card accounts. The issuer must use this “most common” formula to calculate the generic repayment estimate for all of its general purpose credit card accounts, regardless of whether this formula applies to a particular account. To calculate which minimum payment formula is most common, card issuers must choose a day in the last six months, consider all general purpose consumer credit card accounts held by the issuer on that day, and determine which formula applies to the most accounts. In considering all general purpose credit card accounts, a creditor may use a statistical sample of its general purpose consumer credit card accounts developed and validated using accepted statistical principles and methodology. In choosing which formula is the “most common,” the issuer may ignore differences among the formulas related to whether past due amounts or over-the-credit-limit amounts are included in the formula for calculating the minimum payment.

(2) If more than one minimum payment formula applies to an account, the card issuer must use the formula applicable to the general-revolving feature that applies to new transactions to determine which formula is most common. In addition, if more than one minimum payment formula applies to an account, when calculating the generic repayment estimate, the issuer must use the “most common” minimum payment formula applicable to the general revolving feature identified above and apply it to the entire balance on the account as described in paragraph (a)(4) of this Appendix, regardless of whether this formula applies to a particular balance on that account. For example, assume for all of its accounts, an issuer uses one minimum payment formula to calculate the minimum payment amount for balances existing before January 1, 2009, and uses a different minimum payment formula to calculate the minimum payment amount for balances incurred on or after January 1, 2009. To calculate the minimum payment amount, this creditor must use the minimum payment formula applicable to balances incurred on or after January 1, 2009, and apply that formula to the entire outstanding balance.

(3) Card issuers must re-evaluate which minimum payment formula is most common at least every 12 months. For example, assume a card issuer is required to comply with the requirements in §226.7(b)(12) and this Appendix by July 5 of a particular year. The issuer may choose any day between January 5 and July 4 of that year to use in deciding the minimum payment formula that is most common. For the following and each subsequent year, the issuer must again choose a day between January 5 and July 4 to determine the minimum payment formula that is most common. The day chosen need not be the same day chosen the previous year. At the issuer’s option, the issuer may re-evaluate which minimum payment formula is most common more often than every 12 months. In the example above, if the issuer changed the minimum formula that applies to most of its credit card accounts on October 1 of a particular year, the issuer could change the minimum payment formula used to calculate the generic repayment estimates on October 1. For the following and each subsequent year, the issuer may either continue to evaluate which minimum payment formula is the most common during the January 5 to July 4 timeframe, or may switch to choosing any day in the six months prior to October 1 of a particular year to evaluate which minimum payment formula is most common.

(B) Retail credit cards. (1) When calculating the generic repayment estimate for retail credit cards, card issuers must use the minimum payment formula that applies to most of their retail consumer credit card accounts. If an issuer offers credit card accounts on behalf of more than one retailer, the card issuer must group credit card accounts for each retailer separately, and determine the minimum payment formula that is most common to each retailer. The issuer must use the “most common” formula for each retailer, regardless of whether this formula applies to a particular account for that retailer. To calculate which minimum payment formula is most common, card issuers must choose a day in the last six months, consider all retail consumer credit card accounts for each retailer held by the issuer on that day, and determine which formula applies to the most accounts for that retailer. In considering all retail purpose credit card accounts, a creditor may use a statistical sample of its retail purpose consumer credit card accounts developed and validated using accepted statistical principles and methodology. In determining which formula is the “most common,” the issuer may ignore differences among the formulas related to whether past due amounts or over-the-credit-limit amounts are included in the formula for calculating the minimum payment.

(2) If more than one minimum payment formula applies to an account, the card issuer must use the formula applicable to the general revolving feature that applies to new transactions to determine which formula is most common. For example, if more than one minimum payment formula...
applies to an account, when calculating the generic repayment estimate, the issuer must use the "most common" minimum payment formula applicable to the general revolving feature that applies to balances incurred on or after January 1, 2009; a minimum payment formula applicable to the general revolving feature that applies to balances incurred on or after January 1, 2009; and a minimum payment formula applicable to special purchases, such as "club plan purchases." To calculate the minimum payment amount, this creditor must use the minimum payment formula applicable to the general revolving feature that applies to balances incurred on or after January 1, 2009, and apply that formula to the entire outstanding balance.

(3) Card issuers must re-evaluate which minimum payment formula is most common for retail credit card accounts with respect to each retailer at least every 12 months. For example, assume a card issuer is required to comply with the requirements in §226.7(b)(12) and this Appendix by July 5 of a particular year. The issuer may choose any day between January 5 and July 4 of that year to determine the minimum payment formula that is most common. For the following year, the issuer may again choose a day between January 5 and July 4 to determine the minimum payment formula that is most common, but the day that is chosen need not be the same day chosen the previous year. At the issuer’s option, the issuer may re-evaluate which minimum payment formula is most common more often than every 12 months. In the example above, if the issuer changed the minimum formula that applies to most of its credit card accounts on October 1 of a particular year, the issuer could change the minimum payment formula used to calculate the generic repayment estimates on October 1. For the following and each subsequent year, the issuer may either continue to evaluate which minimum payment formula is the most common during the January 5 to July 4 timeframe, or may switch to choosing any day in the six months prior to October 1 of a particular year to evaluate which minimum payment formula is most common.

(ii) FTC-operated toll-free telephone number. When calculating the generic repayment estimate, the FTC must use the following minimum payment formula: 5 percent of the outstanding balance, or $25, whichever is greater.

(3) Annual percentage rate. When calculating the generic repayment estimate, credit card issuers and the FTC must use the highest annual percentage rate on which the consumer has outstanding balances. An issuer and the FTC may use an automated system to prompt the consumer to enter the highest annual percentage rate on which the consumer has an outstanding balance, and calculate the generic repayment estimate based on the consumer’s response.

(4) Beginning balance. When calculating the generic repayment estimate, credit card issuers and the FTC must use as the beginning balance the outstanding balance on a consumer’s account as of the closing date of the last billing cycle. An issuer and the FTC may use an automated system to prompt the consumer to enter the outstanding balance included on the last periodic statement received by the consumer, and calculate the generic repayment estimate based on the consumer’s response. When calculating the generic repayment estimate, credit card issuers and the FTC may round the beginning balance as described above to the nearest whole dollar or prompt the consumer to enter that balance rounded to the nearest whole dollar.

(5) Assumptions. When calculating the generic repayment estimate, credit card issuers for each of the terms below, may either make the following assumption about that term, or use the account term that applies to a consumer’s account.

(i) Only minimum monthly payments are made each month. In addition, minimum monthly payments are made each month—for example, a debt cancellation or suspension agreement, or skip payment feature does not apply to the account.

(ii) No additional extensions of credit are obtained, such as new purchases, transactions, fees, charges, or other activity. No refunds or rebates are given.

(iii) The annual percentage rate described in paragraph (a)(3) of this Appendix will not change, through either the operation of a variable rate or the change to a rate. For example, if a penalty annual percentage rate currently applies to a consumer’s account, an issuer may assume that the penalty annual percentage rate will apply to the consumer’s account indefinitely, even if the consumer may potentially return to a non-penalty annual percentage rate in the future under the account agreement.

(iv) There is no grace period.

(v) The final payment pays the account in full (i.e., there is no residual interest after the final month in a series of payments).

(vi) The average daily balance method is used to calculate the balance.

(vii) All months are the same length and leap year is ignored. A monthly or daily periodic rate may be assumed. If a daily periodic
rate is assumed, the issuer may either assume a year is 365 days long, and all months are 30.41667 days long, or a year is 360 days long, and all months are 30 days long.

(3) Paying on or before the due date. Amounts credited or debited on the last day of the month may be rounded to the nearest cent, as shown in Appendix M3 to this part.

(b) Tolerance. A generic repayment estimate shall be considered accurate if it is not more than 2 months above or below the generic repayment estimate determined in accordance with the guidance in this Appendix (prior to rounding described in paragraph (b)(1)(i) of this Appendix). For example, assume the generic repayment estimate calculated using the guidance in this Appendix is 28 months (2 years, 4 months), and the generic repayment estimate calculated by the issuer or the FTC is 30 months (2 years, 6 months). The generic repayment estimate should be disclosed as 2 years, due to the rounding rule set forth in paragraph (b)(1)(i) of this Appendix. Nonetheless, based on the 30 month estimate, the issuer or FTC disclosed 3 years, based on that rounding rule. The issuer and the FTC would be in compliance with this guidance by disclosing 3 years instead of 2 years, because the issuer’s or FTC’s estimate is within the 2 months’ tolerance, prior to rounding. In addition, even if an issuer’s or FTC’s estimate is more than 2 months above or below the generic repayment estimate calculated using the guidance in this Appendix, so long as the issuer or FTC discloses the correct number of years to the consumer based on the rounding rule set forth in paragraph (b)(1)(i) of this Appendix, the issuer or the FTC would be in compliance with this guidance. For example, assume the generic repayment estimate calculated using the guidance in this Appendix is 32 months (2 years, 8 months), and the generic repayment estimate calculated by the issuer or the FTC is 38 months (3 years, 2 months). Under the rounding rule set forth in paragraph (b)(3)(i) of this Appendix, both of these estimates would be rounded and disclosed to the consumer as 3 years. Thus, if the issuer or the FTC disclosed 3 years to the consumer, the issuer or the FTC would be in compliance with this guidance even though the generic repayment estimate calculated by the issuer or the FTC is outside the 2 months’ tolerance amount.

(b) Disclosing the generic repayment estimate to consumers.

(1) Required disclosures. Except as provided in paragraph (b)(3) of this Appendix, when responding to a request for generic repayment estimates through a toll-free telephone number, credit card issuers and the FTC must make the following disclosures:

(i) The generic repayment estimate. If the generic repayment estimate calculated using the guidance in this Appendix is less than 2 years, credit card issuers and the FTC must disclose the estimate in months. Otherwise, the estimate must be disclosed in years. The estimate must be rounded down to the nearest whole year if the estimate contains a fractional year less than 0.5, and rounded up to the nearest whole year if the estimate contains a fractional year equal to or greater than 0.5.

(ii) The beginning balance on which the generic repayment estimate is calculated.

(iii) The annual percentage rate on which the generic repayment estimate is calculated.

(iv) The assumption that only minimum payments are made and no other amounts are added to the balance.

(v) The fact that the repayment period is an estimate, and the actual time it may take to pay off the balance by only making minimum payments will differ based on the consumer’s account terms and future account activity.

(vi) At the issuer’s or the FTC’s option, a description of the minimum payment formula(s) or the minimum payment amounts used to calculate the generic repayment estimate, including a disclosure of the dollar amount of the minimum payment calculated for the first month.

(vii) At the issuer’s or the FTC’s option, the total amount of interest that a consumer would pay if the consumer makes minimum payments for the length of time disclosed in the generic repayment estimate.

(2) Model language. Credit card issuers and the FTC may use the following disclosure to meet the requirements set forth in paragraph (b)(1)(i) of this Appendix as applicable:

It will take approximately ___[months/years] to pay off a balance of $__ with an APR of ___%. If you make only the minimum payment on time each month and no other amounts are added to the balance. This estimate is based on the information you provided and assumptions about your account. The actual time it may take you to pay off this balance by only making minimum payments will differ based on the terms of your account and future account activity.

(3) Zero or negative amortization. If zero or negative amortization occurs when calculating the generic repayment estimate, credit card issuers and the FTC must disclose to the consumer that based on the information provided by the consumer and assumptions used to calculate the generic repayment estimate, the issuer or FTC estimates that consumer will never pay off the balance by paying only the minimum payment. Card issuers and the FTC may use the following disclosure to meet the requirements set forth in
Federal Reserve System

Pt. 226, App. M2

this paragraph, as applicable: “Based on the information you provided and assumptions that we used to calculate the time to repay your balance, we estimate that you will never pay off your credit card balance if you only make the minimum payment because your payment is less than the interest charged each month.”

(4) Permissible disclosures. Credit card issuers and the FTC may provide the following information when responding to a request for the generic repayment estimate through a toll-free telephone number, so long as the following information is provided after the disclosures in paragraph (b)(1) of this Appendix are given:

(i) A description of the assumptions used to calculate the generic repayment estimate as described in paragraph (a)(5) of this Appendix.

(ii) The length of time it would take to repay the beginning balance described in paragraph (b)(3)(ii) of this Appendix if an additional amount was paid each month in addition to the minimum payment amount, allowing the consumer to select the additional amount. In calculating this estimate, card issuers and the FTC must use the same terms described in paragraph (a) of this Appendix, except they must assume the additional amount was paid each month in addition to the minimum payment amount.

(iii) The length of time it would take to repay the beginning balance described in paragraph (b)(3)(ii) of this Appendix if the consumer made a fixed payment amount each month, allowing the consumer to select the amount of the fixed payment. For example, an issuer or the FTC could prompt the consumer to enter in a payment amount in whole dollars (e.g., $50) and disclose to the consumer how long it would take to repay the beginning balance if the consumer made that payment each month. In calculating this estimate, card issuers and the FTC must use the same terms described in paragraph (a) of this Appendix, except they must assume the consumer made a fixed payment amount each month.

(iv) The monthly payment amount that would be required to pay off the beginning balance described in paragraph (b)(3)(ii) of this Appendix within a specific number of months or years, allowing the consumer to select the payoff period. For example, an issuer or the FTC could prompt the consumer to enter in the number of years to repay the beginning balance, and disclose to the consumer the monthly payment amount that the consumer would need to pay each month in order to repay the balance in that number of years. In calculating the monthly payment amount, card issuers and the FTC must use the same terms described in paragraph (a) of this Appendix, as appropriate.

(v) Reference to Web-based calculation tools that permit consumers to obtain additional estimates of repayment periods.

(vi) The total amount of interest that a consumer may pay under the terms described in paragraphs (b)(4)(ii), (iii) or (iv) of this Appendix.

Effective Date Note: At 74 FR 5441, Jan. 29, 2009.

APPENDIX M2 TO PART 226—ACTUAL REPAYMENT DISCLOSURES

(a) Calculating actual repayment disclosures.

(1) Definitions. (i) “Retail credit card” means a credit card that is issued by a retailer that can be used only in transactions with the retailer or a group of retailers that are related by common ownership or control, or a credit card where a retailer arranges for a creditor to offer open-end credit under a plan that allows the consumer to use the credit only in transactions with the retailer or a group of retailers that are related by common ownership or control.

(ii) “General purpose credit card” means a credit card other than a retail credit card.

(iii) “Promotional terms” means terms of a cardholder’s account that will expire in a fixed period of time, as set forth by the card issuer.

(2) Minimum payment formulas. When calculating the actual repayment disclosure, credit card issuers must use the minimum payment formula(s) that apply to a cardholder’s account. If more than one minimum payment formula applies to an account, the issuer must apply each minimum payment formula to the portion of the balance to which the formula applies. If any promotional terms related to payments apply to a cardholder’s account, such as a deferred billing plan where minimum payments are not required for 12 months, credit card issuers may assume no promotional terms apply to the account.

(3) Annual percentage rate. When calculating the actual repayment disclosure, a credit card issuer must use the annual percentage rates that apply to a cardholder’s account, based on the portion of the balance to which the rate applies. If any promotional terms related to annual percentage rates apply to a cardholder’s account, such as introductory rates or deferred interest plans, credit card issuers may assume no promotional terms apply to the account.

(4) Beginning balance. When calculating the actual repayment disclosure, credit card issuers must use the beginning balance the outstanding balance on a consumer’s account as of the closing date of the last billing cycle. When calculating the actual repayment disclosure, credit card issuers may
round the beginning balance as described above to the nearest whole dollar.

(5) Assumptions. When calculating the actual repayment disclosure, credit card issuers are required to make the following assumptions about that term, or use the account term that applies to a consumer’s account:

(i) Only minimum monthly payments are made each month. In addition, minimum monthly payments are made each month—for example, a debt cancellation or suspension agreement, or skip payment feature does not apply to the account.

(ii) No additional extensions of credit are obtained, such as new purchases, transactions, fees, charges or other activity. No refunds or rebates are given.

(iii) The annual percentage rate or rates that apply to a cardholder’s account will not change, through either the operation of a variable rate or the change to a rate. For example, if a penalty annual percentage rate currently applies to a consumer’s account, an issuer may assume that the penalty annual percentage rate will apply to the consumer’s account indefinitely, even if the consumer may potentially return to a non-penalty annual percentage rate in the future under the account agreement.

(iv) There is no grace period.

(v) The final payment pays the account in full (i.e., there is no residual interest after the final month in a series of payments).

(vi) The average daily balance method is used to calculate the balance.

(vii) All months are the same length and leap year is ignored. A monthly or daily periodic rate may be assumed. If a daily periodic rate is assumed, the issuer may either assume a year is 365 days long, and all months are 30 days long, or a year is 360 days long, and all months are 30 days long.

(viii) Payments are credited on the last day of the month.

(ix) Payments are allocated to lower annual percentage rate balances before higher annual percentage rate balances.

(x) The account is not past due and the account balance does not exceed the credit limit.

(xi) When calculating the generic repayment estimate, the assumed payments, current balance and interest charges for each month may be rounded to the nearest cent, as shown in Appendix M3 to this part.

(6) Tolerance. An actual repayment disclosure shall be considered accurate if it is not more than 2 months above or below the actual repayment disclosure determined according to the guidance in this Appendix (prior to rounding described in paragraph (b)(1)(i) of this Appendix). For example, assume the actual repayment estimate calculated using the guidance in this Appendix is 28 months (2 years, 4 months), and the actual repayment estimate calculated by the issuer is 30 months (2 years, 6 months). The actual repayment estimate should be disclosed as 2 years, due to the rounding rule set forth in paragraph (b)(1)(i) of this Appendix. Nonetheless, based on the 30 month estimate, the issuer disclosed 3 years, based on that rounding rule. The issuer would be in compliance with this guidance by disclosing 3 years, instead of 2 years, because the issuer’s estimate is within the 2 months’ tolerance, prior to rounding. In addition, even if an issuer’s estimate is more than 2 months above or below the actual repayment estimate calculated using the guidance in this Appendix, the issuer would be in compliance with this guidance. For example, assume the actual repayment estimate calculated using the guidance in this Appendix is 32 months (2 years, 8 months), and the actual repayment estimate calculated by the issuer is 38 months (3 years, 2 months). Under the rounding rule set forth in paragraph (b)(1)(i) of this Appendix, both of these estimates would be rounded and disclosed to the consumer as 3 years. Thus, if the issuer disclosed 3 years to the consumer, the issuer would be in compliance with this guidance.
amount for special purchases, such as a “club plan purchase.” Also, assume that based on a consumer’s balances in these features and the annual percentage rates that apply to such features, that the repayment period calculated pursuant to this Appendix for the general revolving feature is 5 years, while the repayment period calculated for the special purchase feature is 3 years. This issuer may either disclose 5 years as the repayment period for the entire balance to the consumer, or disclose 5 years as the repayment period for the balance in the general revolving feature and 3 years as the repayment period for the balance in the special purchase feature.

(ii) The beginning balance on which the actual repayment disclosure is calculated.

(iii) The assumption that only minimum payments are made and no other amounts are added to the balance.

(iv) The fact that the repayment period is an estimate, and is based on several assumptions related to the consumer’s account terms and future activity.

(v) At the issuer’s option, a description of the assumptions used to calculate the actual repayment disclosure, including a disclosure of the dollar amount of the minimum payment calculated for the first month.

(vi) At the issuer’s option, the total amount of interest that a consumer would pay if the consumer makes minimum payments for the length of time disclosed in the actual repayment disclosure.

(2) Model language. Credit card issuers may use the following disclosure to meet the requirements set forth in paragraph (b)(1) of this Appendix:

Your outstanding balance as of the last billing statement was $\ldots$. If you make only the minimum payment on time each month and no other amounts are added to your balance, we estimate that it would take approximately [monthly/years] to pay off this balance. This estimate is based on several assumptions about the terms of your account and future account activity.

(3) Zero or negative amortization occurs when calculating the repayment estimate, credit card issuers must disclose to the consumer that based on the current terms applicable to the consumer’s account and on assumptions used to calculate the repayment estimate, the issuer estimates that the consumer will never pay off the balance by paying only the minimum payment. Card issuers may use the following disclosure to meet the requirements set forth in this paragraph, as applicable: “Your outstanding balance as of the last billing statement was $\ldots$. Based on the current terms applicable to your account and on assumptions that we used to calculate the time to repay your balance, we estimate that you will never pay off your credit card balance if you only make the minimum payment because your payment is less than the interest charged each month.”

(4) Permissible disclosures. Credit card issuers may provide the following information when responding to a request for the actual repayment disclosure through a toll-free telephone number, so long as the following information is provided after the disclosures in paragraph (b)(1) of this Appendix are given:

(i) A description of the assumptions used to calculate the actual repayment disclosure as described in paragraph (a)(5) of this Appendix.

(ii) The length of time it would take to repay the beginning balance described in paragraph (b)(1)(ii) of this Appendix if an additional amount was paid each month in addition to the minimum payment amount, allowing the consumer to select the additional amount. In calculating this estimate, credit card issuers must use the same terms described in paragraph (a) of this Appendix used to calculate the actual repayment disclosure, except they must assume the additional amount was paid each month in addition to the minimum payment amount.

(iii) The length of time it would take to repay the beginning balance described in paragraph (b)(1)(iii) of this Appendix if the consumer made a fixed payment amount each month, allowing the consumer to select the amount of the fixed payment. For example, an issuer could prompt the consumer to enter in a payment amount in whole dollars (e.g., $50) and disclose to the consumer how long it would take to repay the beginning balance if the consumer made that payment each month. In calculating this estimate, card issuers must use the same terms described in paragraph (a) of this Appendix to calculate the actual repayment disclosure, except they must assume the consumer made a fixed payment amount each month.

(iv) The monthly payment amount that would be required to pay off the beginning balance described in paragraph (b)(1)(iii) of this Appendix within a specific number of months or years, allowing the consumer to select the payoff period. For example, an issuer could prompt the consumer to enter in the number of years to repay the beginning balance, and disclose to the consumer the monthly payment amount that the consumer would need to pay each month in order to repay the balance in that number of years. In calculating the monthly payment amount, card issuers must use the same terms described in paragraph (a) of this Appendix, as appropriate.

(v) Reference to Web-based calculation tools that permit consumers to obtain additional estimates of repayment periods.

(vi) The total amount of interest that a consumer may pay under repayment options
(c) Disclosing the actual repayment disclosures on periodic statements.

(1) Required disclosures. Except as provided in paragraph (c)(3) of this Appendix, when providing the actual repayment disclosure on the periodic statement, credit card issuers must make the following disclosures:

(i) The actual repayment disclosure. If the actual repayment disclosure is less than 2 years, credit card issuers must disclose the estimate in months. Otherwise, the estimate must be disclosed in years. The estimate must be rounded down to the nearest whole year if the estimate contains a fractional year less than 0.5, and rounded up to the nearest whole year if the estimate contains a fractional year equal to or greater than 0.5.

(ii) The fact that the repayment period is based on the current outstanding balance shown on the periodic statement.

(iii) The assumption that only minimum payments are made and no other amounts are added to the balance.

(iv) At the issuer’s option, a description of the minimum payment formula(s) or the minimum payment amounts used to calculate the actual repayment disclosure, including a disclosure of the dollar amount of the minimum payment calculated for the first month.

(v) At the issuer’s option, the total amount of interest that a consumer would pay if the consumer makes minimum payments for the length of time disclosed in the actual repayment disclosure.

(2) Model form. Credit card issuers may use the disclosure in Sample G–18(C) in Appendix G to this part to meet the requirements set forth in paragraph (c)(1) of this Appendix.

(3) Zero or negative amortization. If zero or negative amortization occurs when calculating the actual repayment disclosure, credit card issuers must disclose to the consumer that the issuer estimates that the consumer will never pay off the balance by making only the minimum payment. Card issuers may use the disclosure in Sample G–18(C) in Appendix G to this part to meet the requirements set forth in this paragraph.

(4) Permissible disclosures. Card issuers may provide the following information on the periodic statement, so long as the following information is provided after the disclosures in paragraph (c)(1) of this Appendix are given:

(i) The fact that the repayment period is an estimate, and is based on several assumptions about the consumer’s account terms and future activity.

(ii) A reference to another location on the statement where the consumer may find additional information about the actual repayment disclosure.

(iii) A description of the assumptions used to calculate the actual repayment disclosure as described in paragraph (a)(5) of this Appendix.

(iv) The length of time it would take to repay the outstanding balance shown on the statement if an additional amount was paid each month in addition to the minimum payment amount. Card issuers may choose the additional amount. In calculating this estimate, card issuers must use the same terms described in paragraph (a) of this Appendix used to calculate the actual repayment disclosure, except they must assume the additional amount was paid each month in addition to the minimum payment amount.

(v) The length of time it would take to repay the outstanding balance shown on the statement if the consumer made a fixed payment amount each month. Card issuers may choose the amount of the fixed payment. In calculating this estimate, card issuers must use the same terms described in paragraph (a) of this Appendix used to calculate the actual repayment disclosure, except they must assume the consumer made a fixed payment amount each month.

(vi) The total amount of interest that would be required to pay off the outstanding balance shown on the statement within a specific number of months or years. Card issuers may choose the specific number of months or years used in the calculation. In calculating the monthly payment amount, card issuers must use the same terms described in paragraph (a) of this Appendix, as appropriate.

(vii) Reference to Web-based calculation tools that permit consumers to obtain additional estimates of repayment periods.

(viii) The total amount of interest that a consumer may pay under repayment options described in paragraphs (c)(4)(iv), (v) or (vi) of this Appendix.

[Reg. Z, 74 FR 5441, Jan. 29, 2009]

Effective Date Note: At 74 FR 5441, Jan. 29, 2009, appendix M2 was added to part 226, effective July 1, 2010.
Federal Reserve System
Pt. 226, App. M3

APPENDIX M3 TO PART 226—SAMPLE CALCULATIONS OF GENERIC REPAYMENT ESTIMATES AND ACTUAL REPAYMENT DISCLOSURES

(a) Generic repayment estimates. The following is an example of how to calculate the generic repayment estimates using the guidance in appendix M1 to this part where the annual percentage rate is 17 percent, the outstanding balance is $1,000, and the minimum payment formula is 2 percent of the outstanding balance or $20, whichever is greater. The following calculation is written in SAS code.

data one;
  * inputs;
  * annual percentage rate; apr=0.17;
  perrate=(apr/12); * calculate monthly periodic rate;
  *perrate = (((1+(apr/365))*30.41667)-1); *this formula would be used if a daily periodic rate is assumed, and a 365 day year is used with 30.41667 days per month;
  * outstanding balance; cbal=1000;
  * dollar minimum payment; dmin=20;
  * percent minimum payment; pmin=0.02;

  * initialize counter for months;
  month=0;

eins:
   month=month+1; * increment month counter;
   pmt=round(pmin*cbal,0.01); * calculate payment as percentage of balance;
   if pmt lt dmin then pmt=dmin; * set dollar minimum payment;
   xxxbal=round(cbal*(1+perrate),0.01);
   if pmt gt xxxbal then
     pmt=xxxbal; * set final payment amount;
  fc=round(cbal*perrate,0.01); * calculate interest charge;
  ppmt=pmt-fc; * calculate principal payment;

  * print month, balance, payment amount, interest charge, and principal payment;
Pt. 226, App. M3

put month= cbal= pmt= fc= prpmt= ;

cbal=round(cbal-prpmt,0.01); * deduct principal payment from balance;

if cbal gt 0 then go to eins; * go to next month if balance is greater than zero;

* print number of months to repay debt, final balance (zero),
  periodic rate;
  put title=' ';  
  put title='number of months to repay debt, final balance, periodic rate';
  put month= cbal= perrate=;
  put title=' ';  
run;

(b) Actual Repayment Disclosures. The following is an example of how to calculate the actual repayment disclosures using the guidance in appendix M2 to this part where three annual percentage rates apply, the total outstanding balance is $1000, and the minimum payment formula is 2 percent of the outstanding balance or $20, whichever is greater. The following calculation is written in SAS code.

data one;

*initialize numbers of APRs, periodic rates, balance and periodic interest charges;
array apr(3);

Federal Reserve System

[Reg. Z, 74 FR 5441, Jan. 29, 2009]

EFFECTIVE DATE NOTE: At 74 FR 5441, Jan. 29, 2009, appendix M3 was added to part 226, effective July 1, 2010.

SUPPLEMENT I TO PART 226—OFFICIAL STAFF INTERPRETATIONS

INTRODUCTION

1. Official status. This commentary is the vehicle by which the staff of the Division of Consumer and Community Affairs of the Federal Reserve Board issues official staff interpretations of Regulation Z, as revised effective April 1, 1981. Good faith compliance with this commentary affords protection from liability under 130(f) of the Truth in Lending Act. Section 130(f) (15 U.S.C. 1640) protects creditors from civil liability for any act done or omitted in good faith in conformity with any interpretation issued by a duly authorized official or employee of the Federal Reserve System.

2. Procedure for requesting interpretations. Under appendix C of the regulation, anyone may request an official staff interpretation. Interpretations that are adopted will be incorporated in this commentary following publication in the Federal Register. No official staff interpretations are expected to be issued other than by means of this commentary.

3. Status of previous interpretations. All statements and opinions issued by the Federal Reserve Board and its staff interpreting previous Regulation Z remain effective until October 1, 1982, only insofar as they interpret that regulation. When compliance with revised Regulation Z becomes mandatory on October 1, 1982, the Board and staff interpretations of the previous regulation will be entirely superseded by the revised regulation and this commentary except with regard to liability under the previous regulation.

4. Rules of construction. (a) Lists that appear in the commentary may be exhaustive or illustrative; the appropriate construction should be clear from the context. In most cases, illustrative lists are introduced by phrases such as “including, but not limited to,” “among other things,” “for example,” or “such as.”

(b) Throughout the commentary and regulation, reference to the regulation should be construed to refer to revised Regulation Z, unless the context indicates that a reference to previous Regulation Z is also intended.

(c) Throughout the commentary, reference to “this section” or “this paragraph” means the section or paragraph in the regulation that is the subject of the comment.

5. Comment designations. Each comment in the commentary is identified by a number and the regulatory section or paragraph which it interprets. The comments are designated with as much specificity as possible according to the particular regulatory provision addressed. For example, some of the comments to §226.18(b) are further divided by paragraph, such as Comment 18(b)(1)-1 and Comment 18(b)(2)-1. In other cases, comments have more general application and are designated, for example, as Comment 18-1 or Comment 18(b)-1. This introduction may be cited as Comments 1-7. Comments to the appendices may be cited, for example, as Comment app. A-1.

6. Cross-references. The following cross-references to related material appear at the end of each section of the commentary:

(a) “Statute”—those sections of the Truth in Lending Act on which the regulatory provision is based (and any other relevant statutes);

(b) “Other sections”—other provisions in the regulation necessary to understand that section;

(c) “Previous regulation”—parallel provisions in previous Regulation Z; and

(d) “1981 changes”—a brief description of the major changes made by the 1981 revisions to Regulation Z.

Where appropriate a fifth category (“Other regulations”) provides cross-references to other regulations.

7. Transition rules. (a) Though compliance with the revised regulation is not mandatory until April 1, 1982, creditors may begin complying as of April 1, 1981. During the intervening year, a creditor may convert its entire operation to the new requirements at one time, or it may convert to the new requirements in stages. In general, however, a creditor may not mix the regulatory requirements when making disclosures for a particular closed-end transaction or open-end account; all the disclosures for a single closed-end transaction (or open-end account) must be made in accordance with the previous regulation, or all the disclosures must be made in accordance with the revised regulation. As an exception to the general rule, the revised rescission rules and the revised advertising rules may be followed even if the disclosures are based on the previous regulation. For purposes of this regulation, the creditor is not required to take any particular action beyond the requirements of the revised regulation to indicate its conversion to the revised regulation.

(b) The revised regulation may be relied on to determine if any disclosures are required for a particular transaction or to determine if a person is a creditor subject to Truth in Lending requirements, whether or not other operations have been converted to the revised regulation. For example, layaway plans are not subject to the revised regulation, nor are oral agreements to lend money if there is no finance charge. These provisions may be relied on even if the creditor is making other disclosures under the previous regulation.
The new rules governing whether or not disclosures must be made for refinancings and assumptions are also available to a creditor that has not yet converted its operations to the revised regulation.

(c) In addition to the above rules, applicable to both open-end and closed-end credit, the following guidelines are relevant to open-end credit:

- The creditor need not remake initial disclosures that were made under the previous regulation, even if the revised periodic statements contain terminology that is inconsistent with those initial disclosures.
- A creditor may add inserts to its old open-end forms in order to convert them to the revised rules until such time as the old forms are used up.
- No change-in-terms notice is required for changes resulting from the conversion to the revised regulation.
- The previous billing rights statements are substantially similar to the revised billing rights statements and may continue to be used, except that, if the creditor has an automatic debit program, it must use the revised automatic debit provision.
- For those creditors wishing to use the annual billing rights statement, the creditor may count from the date on which it sent its last statement under the previous regulation in determining when to give the first statement under the new regulation. For example, if the creditor sent a semi-annual statement in June 1981, and converts to the new regulation in October 1981, the creditor must give the billing rights statement sometime in October 1982, and it must not be fewer than 6 nor more than 18 months after the June statement.
- Section 226.11 of the revised regulation affects only credit balances that are created on or after the date the creditor converts the account to the revised regulation.

Subpart A—General

Section 226.1—Authority, Purpose, Coverage, Organization, Enforcement and Liability

1(c) Coverage.

1. Foreign applicability. Regulation Z applies to all persons (including branches of foreign banks and sellers located in the United States) that extend consumer credit to residents (including resident aliens) of any state as defined in §226.2. If an account is located in the United States and credit is extended to a U.S. resident, the transaction is subject to the regulation. This will be the case whether or not a particular advance or purchase on the account takes place in the United States and whether or not the extender of credit is chartered or based in the United States or a foreign country. Thus, a U.S. resident's use in Europe of a credit card issued by a bank in the consumer's home town is covered by the regulation. The regulation does not apply to a foreign branch of a U.S. bank when the foreign branch extends credit to a U.S. citizen residing or visiting abroad or to a foreign national abroad.

1(d) Organization.

Paragraph 1(d)(1)

1. [Reserved]

Paragraph 1(d)(2)

1. [Reserved]

Paragraph 1(d)(3)

1. Effective date. The Board's amendments to Regulation Z published on May 19, 2009 apply to covered loans (including refinances loans and assumptions considered new transactions under §226.20) for which the creditor receives an application on or after July 30, 2009.

Paragraph 1(d)(4)

1. [Reserved]

Paragraph 1(d)(5)

1. Effective dates. The Board's revisions published on July 30, 2008 (the “final rules”) apply to covered loans (including refinances loans and assumptions considered new transactions under §226.20) for which the creditor receives an application on or after October 1, 2009, except for the final rules on advertising, escrows, and loan servicing. But see comment 1(d)(3). The final rules on escrow in §226.35(b)(3) are effective for covered loans (including refinances and assumptions in §226.20) for which the creditor receives an application on or after April 1, 2010, but for such loans secured by manufactured housing on or after October 1, 2010. The final rules applicable to servicers in §226.36(c) apply to all covered loans serviced on or after October 1, 2009. The final rules on advertising apply to advertisements occurring on or after October 1, 2009. For example, a radio ad occurs on the date it is first broadcast; a solicitation occurs on the date it is mailed to the consumer. The following examples illustrate the application of the effective dates for the final rules.

1. General. A refinancing or assumption as defined in §226.20(a) or (b) is a new transaction and is covered by a provision of the final rules if the creditor receives an application for the transaction on or after that provision's effective date. For example, if a creditor receives an application for a refinancing loan covered by §226.35(a) on or after October 1, 2009, and the refinancing loan is consummated on October 15, 2009, the provision restricting prepayment penalties in §226.35(b)(2) applies. However, if the transaction were a modification of an existing obligation's terms that does not constitute a refinancing loan under §226.20(a), the final
rules, including for example the restriction on prepayment penalties, would not apply.

ii. Escrows. Assume a consumer applies for a refinance loan to be secured by a dwelling (that is not a manufactured home) on March 15, 2010, and the loan is consummated on April 2, 2010. The escrow rule in §226.35(b)(3) does not apply.

iii. Servicing. Assume that a consumer applies for a new loan on August 1, 2009. The loan is consummated on September 1, 2009. The servicing rules in §226.3(c) apply to the servicing of that loan as of October 1, 2009.

Paragraph 1(d)(6)

1. Mandatory compliance dates. Compliance with the loan origination provisions to Regulation Z published on August 14, 2009 is mandatory for private education loans for which the creditor receives an application on or after February 14, 2010. Compliance with the final rules on co-branding in §§226.48(a) and (b) is mandatory for marketing occurring on or after February 14, 2010. Compliance with the final rules is optional for private education loan transactions for which an application was received prior to February 14, 2010, even if consummated after the mandatory compliance date.

2. Optional compliance. A creditor may, at its option, provide the approval and final disclosures required under §§226.47(b) or (c) for private education loans where an application was received prior to the mandatory compliance date. If the creditor opts to provide the disclosures, the creditor must also comply with the applicable timing and other rules in §§226.46 and 226.48 (including providing the consumer with the 30-day acceptance period under §226.48(c), and the right to cancel under §226.48(d)). For example, if the creditor receives an application on January 25, 2010 and approves the consumer’s application on or after February 14, 2010, the creditor may, at its option, provide the approval disclosures under §226.47(b), the final disclosures under §226.47(c) and comply with the applicable requirements §§226.46 and 226.48. The creditor must also obtain the self-certification form as required in §226.48(e), if applicable. Or, for example, if the creditor receives an application on January 25, 2010 and approves the consumer’s application before February 14, 2010, the creditor may, at its option, provide the final disclosure under §226.47(c) and comply with the applicable timing and other requirements of §§226.46 and 226.48, including providing the consumer with the right to cancel under §226.48(d). The creditor must also obtain the self-certification form as required in §226.48(e), if applicable.

Paragraph 1(d)(7)

1. [Reserved]
1. Intervals. In open-end credit plans, the billing cycle determines the intervals for which periodic disclosure statements are required; these intervals are also used as measurement for other duties of the creditor. Typically, billing cycles are monthly, but they may be more frequent or less frequent (but not less frequent than quarterly).

2. Creditors. The term cycle is interchangeable with billing cycle for definitional purposes, since some creditors’ cycles do not involve the sending of bills in the traditional sense but only statements of account activity. This is commonly the case with financial institutions when periodic payments are made through payroll deduction or through automatic debit of the consumer’s asset account.

3. Equal cycles. Although cycles must be equal, there is a permissible variance to account for weekends, holidays, and differences in the number of days in months. If the actual date of each statement does not vary by more than 4 days from a fixed day (for example, the third Thursday of each month) or date (for example, the 15th of each month) that the creditor regularly uses, the intervals between statements are considered equal. The requirement that cycles be equal applies even if the creditor applies a daily periodic rate to determine the finance charge. The requirement that intervals be equal does not apply to the transitional billing cycle that can occur when the creditor occasionally changes its billing cycles so as to establish a new statement day or date. (See the commentary to §226.9(c).)

4. Payment reminder. The sending of a regular payment reminder (rather than a late payment notice) establishes a cycle for which the creditor must send periodic statements.

2(a)(6) Business day.

1. Business function test. Activities that indicate that the creditor is open for substantially all of its business functions include the availability of personnel to make loan disbursements, to open new accounts, and to handle credit transaction inquiries. Activities that indicate that the creditor is not open for substantially all of its business functions include a retailer merely accepting credit cards for purchases or a bank having its customer-service windows open only for limited purposes such as deposits and withdrawals, bill paying, and related services.

2. Rule for rescission, disclosures for certain mortgage transactions, and private education loans. A more precise rule for what is a business day (all calendar days except Sundays and the Federal legal holidays specified in 5 U.S.C. 6103(a)) applies when the right of rescission, the receipt of disclosures for certain dwelling-secured mortgage transactions under §§226.19(a)(1)(i), 226.19(a)(2), 226.33(c), or the receipt of disclosures for private education loans under §226.48(d)(4) is involved.

Four Federal legal holidays are identified in 5 U.S.C. 6103(a) by a specific date: New Year’s Day, January 1; Independence Day, July 4; Veterans Day, November 11; and Christmas Day, December 25. When one of these holidays (July 4, for example) falls on a Saturday, Federal offices and other entities might observe the holiday on the preceding Friday (July 3). In cases where the more precise rule applies, the observed holiday (in the example, July 3) is a business day.

2(a)(7) Cardholder.

1. General rule. A cardholder is a natural person at whose request a card is issued for consumer credit purposes or who is a co-obligor or guarantor for such a card issued to another. The second category does not include an employee who is a co-obligor or guarantor on a card issued to the employer for business purposes, nor does it include a person who is merely the authorized user of a card issued to another.

2. Limited application of regulation. For the limited purposes of the rules on issuance of credit cards and liability for unauthorized use, a cardholder includes any person, including an organization, to whom a card is issued for any purpose—including a business, agricultural, or commercial purpose.

3. Issuance. See the commentary to §226.12(a).

4. Dual-purpose cards and dual-card systems. Some card issuers offer dual-purpose cards that are for business as well as consumer purposes. If a card is issued to an individual for consumer purposes, the fact that an organization has guaranteed to pay the debt does not make it business credit. On the other hand, if a card is issued for business purposes, the fact that an individual sometimes uses it for consumer purchases does not subject the card issuer to the provisions of periodic statements, billing error resolution, and other protections afforded to consumer credit. Some card issuers offer dual-card systems—that is, they issue two cards to the same individual, one intended for business use, the other for consumer or personal use. With such a system, the same person may be a cardholder for general purposes when using
the card issued for consumer use, and a cardholder only for the limited purposes of the restrictions on issuance and liability when using the card issued for business purposes.

1. Components. This amount is a starting point in computing the amount financed and the total sale price under §226.18 for credit sales, any charges imposed equally in cash and credit transactions may be included in the cash price, or they may be treated as other amounts financed under §226.18(b)(2).

2. Service contracts. Service contracts include contracts for the repair or the servicing of goods, such as mechanical breakdown coverage, even if such a contract is characterized as insurance under state law.

3. Rebates. The creditor has complete flexibility in the way it treats rebates for purposes of disclosure and calculation. See the commentary to §226.18(b).

2(a)(10) Closed-end credit.

1. General. The coverage of this term is defined by exclusion. That is, it includes any credit arrangement that does not fall within the definition of open-end credit. Subpart C contains the disclosure rules for closed-end credit when the obligation is subject to a finance charge or is payable by written agreement in more than 4 installments.

2(a)(11) Consumer.

1. Scope. Guarantors, endorsers, and sureties are not generally consumers for purposes of the regulation, but they may be entitled to rescind under certain circumstances and they may have certain rights if they are obligated on credit card plans.

2. Rescission rules. For purposes of rescission under §§226.15 and 226.23, a consumer includes any natural person whose ownership interest in his or her principal dwelling is subject to the risk of loss. Thus, if a security interest is taken in A's ownership interest in a house and that house is A's principal dwelling, A is a consumer for purposes of rescission, even if A is not liable, either primarily or secondarily, on the underlying consumer credit transaction. An ownership interest does not include, for example, leaseholds or inchoate rights, such as dower.

3. Land trusts. Credit extended to land trusts, as described in the commentary to §226.3(a), is considered to be extended to a natural person for purposes of the definition of consumer.

2(a)(12) Consumer credit.

1. Primary purpose. There is no precise test for what constitutes credit offered or extended for personal, family, or household purposes, nor for what constitutes the primary purpose. See, however, the discussion of business purposes in the commentary to §226.3(a).

2(a)(13) Consumer finance companies.

1. State law governs. When a contractual obligation on the consumer's part is created is a matter to be determined under applicable law; Regulation Z does not make this determination. A contractual commitment agreement, for example, that under applicable law binds the consumer to the credit terms, however, does not occur merely because the consumer has made some financial investment in the transaction (for example, by paying a nonrefundable fee) unless, of course, applicable law holds otherwise.

2. Credit v. sale. Consummation does not occur when the consumer becomes contractually committed to a sale transaction, unless the consumer also becomes legally obligated to accept a particular credit arrangement. For example, when a consumer pays a nonrefundable deposit to purchase a automobile, a purchase contact may be created, but consummation for purposes of the regulation does not occur unless the consumer also contracts for financing at that time.

2(a)(14) Credit.

1. Exclusions. The following situations are not considered credit for purposes of the regulation:

• Layaway plans, unless the consumer is contractually obligated to continue making payments. Whether the consumer is so obligated is a matter to be determined under applicable law. The fact that the consumer is not entitled to a refund of any amounts paid towards the cash price of the merchandise does not bring layaways within the definition of credit.

• Tax liens, tax assessments, court judgments, and court approvals of reaffirmation of debts in bankruptcy. However, third-party financing of such obligations (for example, a bank loan obtained to pay off a tax lien) is credit for purposes of the regulation.

• Insurance premium plans that involve payment in installments with each installment representing the payment for insurance coverage for a certain future period of time, unless the consumer is contractually obligated to continue making payments.

• Home improvement transactions that involve progress payments, if the consumer pays, as the work progresses, only for work completed and has no contractual obligation to continue making payments.

• Borrowing against the accrued cash value of an insurance policy or a pension account, if there is no independent obligation to repay.

• Letters of credit.

• The execution of option contracts. However, there may be an extension of credit when the option is exercised, if there is an agreement at that time to defer payment of a debt.

• Investment plans in which the party extending capital to the consumer risks the loss of the capital advanced. This includes, for example, an arrangement with a home purchaser in which the investor pays a portion of the downpayment and of the periodic
mortgage payments in return for an ownership interest in the property, and shares in any gain or loss of property value.

- Mortgage assistance plans administered by a government agency in which a portion of the consumer’s monthly payment amount is paid by the agency. No finance charge is imposed on the subsidy amount and that amount is due in a lump-sum payment on a set date or upon the occurrence of certain events. (If payment is not made when due, a new note imposing a finance charge may be written, which may then be subject to the regulation.)

2. Payday loans; deferred presentment. Credit includes a transaction in which a cash advance is made to a consumer in exchange for the consumer’s personal check, or in exchange for the consumer’s authorization to debit the consumer’s deposit account, and where the parties agree either that the check will not be cashed or deposited, or that the consumer’s deposit account will not be debited, until a designated future date. This type of transaction is often referred to as a “payday loan” or “payday advance” or “deferred presentment loan.” A fee charged in connection with such a transaction may be a finance charge for purposes of §226.4, regardless of how the fee is characterized under state law. Where the fee charged constitutes a finance charge under §226.4 and the person advancing funds regularly extends consumer credit, that person is a creditor and is required to provide disclosures consistent with the requirements of Regulation Z. See §226.2(a)(17).

2(a)(15) Credit card.

1. Usable from time to time. A credit card must be usable from time to time. Since this involves the possibility of repeated use of a single device, checks and similar instruments that can be used only once to obtain a single credit extension are not credit cards.

2. Examples. i. Examples of credit cards include:

A. A card that guarantees checks or similar instruments, if the asset account is also tied to an overdraft line or if the instrument directly accesses a line of credit.

B. A card that accesses both a credit and an asset account (that is, a debit-credit card).

C. An identification card that permits the consumer to defer payment on a purchase.

D. An identification card indicating loan approval that is presented to a merchant or to a lender, whether or not the consumer signs a separate promissory note for each credit extension.

E. A card or device that can be activated upon receipt to access credit, even if the card has a substantive use other than credit, such as a purchase-price discount card. Such a card or device is a credit card notwithstanding the fact that the recipient must first contact the card issuer to access or activate the credit feature.

ii. In contrast, a credit card does not include, for example:

A. A check-guarantee or debit card with no credit feature or agreement, even if the creditor occasionally honors an inadvertent overdraft.

B. Any card, key, plate, or other device that is used in order to obtain petroleum products for business purposes from a wholesale distribution facility or to gain access to that facility, and that is required to be used without regard to payment terms.

3. Charge card. Generally, charge cards are cards used in connection with an account on which outstanding balances cannot be carried from one billing cycle to another and are payable when a periodic statement is received. Under the regulation, a reference to credit cards generally includes charge cards. The term charge card is, however, distinguished from credit card in §§226.5a, 226.9(e), 226.9(f), and 226.28(d), and appendices G–10 through G–13. When the term credit card is used in those provisions, it refers to credit cards other than charge cards.

2(a)(16) Credit sale.

1. Special disclosure. If the seller is a creditor in the transaction, the transaction is a credit sale and the special credit sale disclosures (that is, the disclosures under §226.18(i)) must be given. This applies even if there is more than one creditor in the transaction and the creditor making the disclosures is not the seller. See the commentary to §226.17(d).

2. Sellers who arrange credit. If the seller of the property or services involved arranged for financing but is not a creditor as to that sale, the transaction is not a credit sale. Thus, if a seller assists the consumer in obtaining a direct loan from a financial institution and the consumer’s note is payable to the financial institution, the transaction is a loan and only the financial institution is a creditor.

3. Refinancings. Generally, when a credit sale is refinanced within the meaning of §226.20(a), loan disclosures should be made. However, if a new sale of goods or services is also involved, the transaction is a credit sale.

4. Incidental sales. Some lenders sell a product or service—such as credit, property, or health insurance—as part of a loan transaction. Section 226.4 contains the rules on whether the cost of credit life, disability or property insurance is part of the finance charge. If the insurance is financed, it may be disclosed as a separate credit sale transaction or disclosed as part of the primary transaction; if the latter approach is taken, either loan or credit sale disclosures may be made. See the commentary to §226.17(c)(1) for further discussion of this point.
Federal Reserve System

5. Credit extensions for educational purposes. A credit extension for educational purposes in which an educational institution is the creditor may be treated as either a credit sale or a loan, regardless of whether the funds are given directly to the student, credited to the student’s account, or disbursed to others on the student’s behalf. The discharge of the entire obligation need not be given if the transaction is treated as a loan.

2(a)(17) Creditor.

1. General. The definition contains four independent tests. If any one of the tests is met, the person is a creditor for purposes of that particular test.

Paragraph 2(a)(17)(i).

1. Prerequisites. This test is composed of 2 requirements, both of which must be met in order for a particular credit extension to be subject to the regulation and for the credit extension to count towards satisfaction of the numerical tests mentioned in footnote 3 to §226.2(a)(17). First, there must be either or both of the following:

• A written (rather than oral) agreement to pay in more than 4 installments. A letter that merely confirms an oral agreement does not constitute a written agreement for purposes of the definition.

• A finance charge imposed for the credit.

The obligation to pay the finance charge need not be in writing.

Second, the obligation must be payable to the person in order for that person to be considered a creditor. If an obligation is made payable to bearer, the creditor is the one who initially accepts the obligation.

2. Assignees. If an obligation is initially payable to one person, that person is the creditor even if the obligation by its terms is simultaneously assigned to another person. For example:

• An auto dealer and a bank have a business relationship in which the bank supplies the dealer with credit sales contracts that are initially made payable to the dealer and provided for the immediate assignment of the obligation to the bank. The dealer and purchaser execute the contract only after the bank approves the creditworthiness of the purchaser. Because the obligation is initially payable to its face to the dealer, the dealer is the only creditor in the transaction.

3. Numerical tests. The examples below illustrate how the numerical tests of footnote 3 are applied. The examples assume that consumer credit with a finance charge or written agreement for more than 4 installments was extended in the years in question and that the person did not extend such credit in 1982.

4. Counting transactions. For purposes of closed-end credit, the creditor counts each credit transaction. For open-end credit, transactions means accounts, so that outstanding accounts are counted instead of individual credit extensions. Normally the number of transactions is measured by the preceding calendar year; if the requisite number is met, then the person is a creditor for all transactions in the current year. However, if the person did not meet the test in the preceding year, the number of transactions is measured by the current calendar year. For example, if the person extends consumer credit 26 times in 1983, it is a creditor for purposes of the regulation for the last extension of credit in 1983 and for all extensions of consumer credit in 1984. On the other hand, if a business begins in 1983 and extends consumer credit 20 times, it is not a creditor for purposes of the regulation in 1983. If it extends consumer credit 25 times in 1984, however, it becomes a creditor for purposes of the regulation (and must begin making disclosures) after the 25th extension of credit in that year and is a creditor for all extensions of consumer credit in 1985.

5. Relationship between consumer credit in general and credit secured by a dwelling. Extensions of credit secured by a dwelling are counted towards the 25 extensions test. For example, if in 1983 a person extends unsecured consumer credit 23 times and consumer credit secured by a dwelling twice, it becomes a creditor for the succeeding extensions of credit, whether or not they are secured by a dwelling. On the other hand, extensions of consumer credit not secured by a dwelling are not counted towards the number of credit extensions secured by a dwelling. For example, if in 1983 a person extends credit secured by a dwelling 8 times and credit secured by a dwelling 3 times, it is not a creditor.

6. Effect of satisfying one test. Once one of the numerical tests is satisfied, the person is a creditor for the other type of credit. For example, in 1983 a person extends consumer credit secured by a dwelling 5 times. That person is a creditor for all succeeding credit extensions, whether they involve credit secured by a dwelling or not.

7. Trusts. In the case of credit extended by trusts, each individual trust is considered a separate entity for purposes of applying the criteria. For example:

• A bank is the trustee for 3 trusts: Trust A makes 15 extensions of consumer credit annually; Trust B makes 10 extensions of consumer credit annually; and Trust C makes 30 extensions of consumer credit annually. Only Trust C is a creditor for purposes of the regulation.

8. Loans from employee savings plan. Some employee savings plans permit participants to borrow money up to a certain percentage of their account balances, and use a trust to administer the receipt and disbursement of funds. Unless each participant’s account is an individual plan and trust, the creditor should apply the numerical tests to the plan as a whole rather than to the individual account, even if the loan amount is determined
In a credit sale, the "down payment" may be treated, the total of payments under §226.18(g).

§226.18(h) must equal the sum of the payments disclosed under §226.18(g). It may, but need not, be reflected in the payment schedule under §226.18(g). If the pick-up payment does not meet the deferred portion of the down payment, it is subtracted in arriving at the cash payment, the $2,000 deficit must be reflected as an additional amount financed under §226.18(b)(2).

B. If the consumer provides $1,500 in cash (which does not extinguish the $2,000 deficit), the creditor may disclose a down payment of $1,500 or of $0.

C. If the consumer provides $3,000 in cash, the creditor may disclose a down payment of $3,000 or of $1,000.

2(a)(19) Dwelling. A dwelling need not be the consumer's principal residence to fit the definition and thus a vacation or second home could be a dwelling. However, for purposes of the definition of residential mortgage transaction and the right to rescind, a dwelling must be the principal residence of the consumer. See the commentary to §§226.2(a)(24), 226.15, and 226.23.

2. Use as a residence. Mobile homes, boats, and trailers are dwellings if they are in fact used as residences, just as are condominium units and cooperative units. Recreational vehicles, campers, and the like not used as residences are not dwellings.

3. Relation to exemptions. Any transaction involving a security interest in a consumer's principal dwelling (as well as any real property) remains subject to the regulation despite the general exemption in §226.3(b) for credit extensions over $25,000.

2(a)(20) Open-end credit.

1. General. This definition describes the characteristics of open-end credit (for which the applicable disclosure and other rules are contained in Subpart B), as distinct from closed-end credit. Open-end credit is consumer credit that is extended under a plan and meets all 3 criteria set forth in the definition.

2. Existence of a plan. The definition requires that there be a plan, which connotes a contractual arrangement between the creditor and the consumer. Some creditors offer programs containing a number of different credit features. The consumer has a single account with the institution that can be
Federal Reserve System

accessed repeatedly via a number of sub-accounts established for the different program features and rate structures. Some features of the program might be used repeatedly (for example, a credit card line), while others might be used infrequently (such as the part of the credit line available for secured credit). If the program as a whole is subject to prepayment, whether the program is subject to the definition of open-end credit, such a program would be considered a single, multi-featured plan.

3. Repeated transactions. Under this criterion, the creditor must reasonably contemplate repeated transactions. This means that the credit plan must be usable from time to time and the creditor must legitimately expect that there will be repeat business rather than a one-time credit extension. The creditor must expect repeated dealings with consumers under the credit plan as a whole and need not believe a consumer will reuse a particular feature of the plan. The determination of whether a creditor can reasonably contemplate repeated transactions requires an objective analysis. Information that much of the creditor’s customer base with accounts under the plan make repeated transactions over some period of time is relevant to the determination, particularly when the plan is opened primarily for the financing of infrequently purchased products or services. A standard based on reasonable belief by a creditor necessarily includes some margin for judgmental error. The fact that particular consumers do not return for further credit extensions does not prevent a plan from having been properly characterized as open-end. For example, if much of the customer base of a clothing store makes repeat purchases, the fact that some consumers use the plan only once would not affect the characterization of the store’s plan as open-end credit. The criterion regarding repeated transactions is a question of fact to be decided in the context of the creditor’s type of business and the creditor’s relationship with its customers. For example:

i. It would be more reasonable for a thrift institution chartered for the benefit of its members to contemplate repeated transactions with a member than for a seller of aluminum siding to make the same assumption about its customers.

ii. It would be more reasonable for a financial institution to make advances from a line of credit for the purchase of an automobile than for an automobile dealer to sell a car under an open-end plan.

4. Finance charge on an outstanding balance. The requirement that a finance charge may be computed and imposed from time to time on the outstanding balance means that there is no specific amount financed for the plan for which the finance charge, total of payments, and payment schedule can be calculated. A plan may meet the definition of open-end credit even though a finance charge is not normally imposed, provided the creditor has the right, under the plan, to impose a finance charge from time to time on the outstanding balance. For example, in some plans, such as certain china club plans, a finance charge is not imposed if the consumer pays all or a specified portion of the outstanding balance within a given time period. Such a plan could meet the finance charge criterion, if the creditor has the right to impose a finance charge, even though the consumer actually pays no finance charges during the existence of the plan because the consumer takes advantage of the option to pay the balance (either in full or in installments) within the time necessary to avoid finance charges.

5. Reuseable line. The total amount of credit that may be extended during the existence of an open-end plan is unlimited because available credit is generally replenished as earlier advances are repaid. A line of credit is self-replenishing even though the plan itself has a fixed expiration date, as long as during the plan’s existence the consumer may use the line, repay, and reuse the credit. The creditor may verify credit information such as the consumer’s continued income and employment status or information for security purposes. This criterion of unlimited credit distinguishes open-end credit from a series of advances made pursuant to a close-end credit loan commitment. For example:

• Under a closed-end commitment, the creditor might agree to lend a total of $10,000 in a series of advances as needed by the consumer. When a consumer has borrowed the full $10,000, no more is advanced under that particular agreement, even if there has been repayment of a portion of the debt.

This criterion does not mean that the creditor must establish a specific credit limit for the line of credit or that the line of credit must always be replenished to its original amount. The creditor may reduce a credit limit or refuse to extend new credit in a particular case due to changes in the economy, the creditor’s financial condition, or the consumer’s creditworthiness. (The rules in §226.5b(f), however, limit the ability of a creditor to suspend credit advances for home equity plans.) While consumers should have a reasonable expectation of obtaining credit as long as they remain current and within any preset credit limits, further extensions of credit need not be an absolute right in order for the plan to meet the self-replenishing criterion.

6. Open-end real estate mortgages. Some credit plans call for negotiated advances under so-called open-end real estate mortgages. Each such plan must be independently measured against the definition of open-end credit, regardless of the terminology used in the industry to describe the plan. The fact
that a particular plan is called an open-end real estate mortgage, for example, does not, by itself, mean that it is open-end credit under the regulation.

2(a)(21) Periodic rate.

1. Basis. The periodic rate may be stated as a percentage (for example, 1½% per month) or as a decimal equivalent (for example, .035 monthly). It may be based on any portion of a year the creditor chooses. Some creditors use 1/360 of an annual rate as their periodic rate. These creditors:

   • May disclose a 1/360 rate as a daily periodic rate, without further explanation, if it is in fact only applied 360 days per year. But if the creditor applies that rate for 365 days, the creditor must note that fact and, of course, disclose the true annual percentage rate.

   • Would have to apply the rate to the balance to disclose the annual percentage rate with the degree of accuracy required in the regulation (that is, within 1/8 of 1 percentage point of the rate based on the actual 365 days in the year).

2. Transaction charges. Periodic rate does not include initial one-time transaction charges, even if the charge is computed as a percentage of the transaction amount.

2(a)(22) Person.

1. Joint venture. A joint venture is an organization and is therefore a person.

2. Attorneys. An attorney and his or her client are considered to be the same person for purposes of this regulation when the attorney is acting within the scope of the attorney-client relationship with regard to a particular transaction.

3. Trusts. A trust and its trustee are considered to be the same person for purposes of this regulation when the attorney is acting within the scope of the attorney-client relationship with regard to a particular transaction.

2(a)(23) Prepaid finance charge.

1. General. Prepaid finance charges must be taken into account under §226.18(b) in computing the disclosed amount financed, and must be disclosed if the creditor provides an itemization of the amount financed under §226.18(c).

2. Examples. Common examples of prepaid finance charges include:

   • Buyer’s points.
   • Service fees.
   • Loan fees.
   • Finder’s fees.
   • Loan guarantee insurance.
   • Credit investigation fees.

However, in order for these or any other finance charges to be considered prepaid, they must be either paid separately in cash or check or withheld from the proceeds. Prepaid finance charges include any portion of the finance charge paid prior to or at closing or settlement.

3. Exclusions. Add-on and discount finance charges are not prepaid finance charges for purposes of this regulation. Finance charges are not prepaid merely because they are precomputed, whether or not a portion of the charge will be rebated to the consumer upon prepayment. See the commentary to §226.18(b).

4. Allocation of lump-sum payments. In a credit sale transaction involving a lump-sum payment by the consumer and a discount or other item that is a finance charge under §226.4, the discount or other item is a prepaid finance charge to the extent the lump-sum payment is not applied to the cash price. For example, a seller sells property to a consumer for $30,000, requires the consumer to pay $3,000 at the time of the purchase, and finances the remainder as a closed-end credit transaction. The cash price of the property is $9,000. The seller is the creditor in the transaction and therefore the $3,000 difference between the credit and cash prices (the discount) is a finance charge. (See the commentary to §§226.4(b)(9) and 226.4(c)(5).) If the creditor applies the entire $3,000 to the cash price and adds the $1,000 finance charge to the interest on the $6,000 to arrive at the total finance charge, all of the $3,000 lump-sum payment is a downpayment and the discount is not a prepaid finance charge. However, if the creditor only applies $2,000 of the lump-sum payment to the cash price, then $2,000 of the $3,000 is a downpayment and the $1,000 discount is a prepaid finance charge.

2(a)(24) Residential mortgage transaction.

1. Relation to other sections. This term is important in five provisions in the regulation:

   i. §226.4(c)(7)—exclusions from the finance charge.
   ii. §226.15(f)—exemption from the right of rescission.
   iii. §226.18(q)—whether or not the obligation is assumable.
   iv. §226.20(b)—disclosure requirements for assumptions.
   v. §226.23(f)—exemption from the right of rescission.

2. Lien status. The definition is not limited to first lien transactions. For example, a consumer might assume a paid-down first mortgage (or borrow part of the purchase price) and borrow the balance of the purchase price from a creditor who takes a second mortgage. The second mortgage transaction is a residential mortgage transaction if the dwelling purchased is the consumer’s principal residence.

3. Principal dwelling. A consumer can only have one principal dwelling at a time. Thus, a vacation or other second home would not be a principal dwelling. However, if a consumer buys or builds a new dwelling that will become the consumer’s principal dwelling within a year or upon the completion of construction, the new dwelling is considered
the principal dwelling for purposes of applying this definition to a particular transaction. See the commentary to §§226.15(a) and 226.23(a).

4. Construction financing. If a transaction meets the definition of a residential mortgage transaction and the creditor chooses to disclose it as several transactions under §226.17(c)(6), each one is considered to be a residential mortgage transaction, even if different creditors are involved. For example:
   • One creditor makes a construction loan to finance the initial construction of the consumer’s principal dwelling, and the loan will be disbursed in 5 advances. The creditor gives 6 sets of disclosures (5 for the construction phase and 1 for the permanent phase). Each one is a residential mortgage transaction.
   • One creditor finances the initial construction of the consumer’s principal dwelling and another creditor makes a loan to satisfy the construction loan and provide permanent financing. Both transactions are residential mortgage transactions.

5. Acquisition. i. A residential mortgage transaction finances the acquisition of a consumer’s principal dwelling. The term does not include a transaction involving a consumer’s principal dwelling if the consumer had previously purchased and acquired some interest to the dwelling, even though the consumer had not acquired full legal title.
   ii. Examples of new transactions involving a previously acquired dwelling include the financing of a balloon payment due under a land sale contract and an extension of credit made to a joint owner of property to buy out the other joint owner’s interest. In these instances, disclosures are not required under §226.18(q) (assumability policies). However, the rescission rules of §§226.15 and 226.23 do apply to these new transactions.
   iii. In other cases, the disclosure and rescission rules do not apply. For example, where a buyer enters into a written agreement with the creditor holding the seller’s mortgage, allowing the buyer to assume the mortgage, if the buyer had previously purchased the property and agreed with the seller to make the mortgage payments, §226.20(b) does not apply (assumptions involving residential mortgages).

6. Multiple purpose transactions. A transaction meets the definition of this section if any part of the loan proceeds will be used to finance the acquisition or initial construction of the consumer’s principal dwelling. For example, a transaction to finance the initial construction of the consumer’s principal dwelling is a residential mortgage transaction even if a portion of the funds will be disbursed directly to the consumer or used to satisfy a loan for the purchase of the land on which the dwelling will be built.

7. Construction on previously acquired land. A residential mortgage transaction includes a loan to finance the construction of a consumer’s principal dwelling on a vacant lot previously acquired by the consumer.

1. Threshold test. The threshold test is whether a particular interest in property is recognized as a security interest under applicable law. The regulation does not determine whether a particular interest is a security interest under applicable law. If the creditor is unsure whether a particular interest is a security interest under applicable law (for example, if statutes and case law are either silent or inconclusive on the issue), the creditor may at its option consider such interests as security interests for Truth in Lending purposes.

2. Exclusions. The general definition of security interest excludes three groups of interests: Incidental interests, interests in after-acquired property, and interests that arise solely by operation of law. These interests may not be disclosed as security interests under the regulation. (But see the discussion of exclusions elsewhere in the commentary to §226.2(a)(25).)

3. Incidental interests. Incidental interests in property that are not security interests include, among other things:
   • Assignment of rents.
   • Right to condemnation proceeds.
   • Interests in accessories and replacements.
   • Interests in escrow accounts, such as for taxes and insurance.
   • Waiver of homestead or personal property rights.

The notion of an incidental interest does not encompass an explicit security interest in an insurance policy if that policy is the primary collateral for the transaction—for example, in an insurance premium financing transaction.

4. Operation of law. Interests that arise solely by operation of law are excluded from the general definition. Also excluded are interests arising by operation of law that are merely repeated or referred to in the contract. However, if the creditor has an interest that arises by operation of law, such as a
vendor’s lien, and takes an independent security interest in the same property, such as a UCC security interest, the latter interest is a disclosable security interest unless otherwise provided.

5. Rescission rules. Security interests that arise solely by operation of law are security interests for purposes of rescission. Examples of such interests are mechanics’ and materialmen’s liens.

6. Specificity of disclosure. A creditor need not separately disclose multiple security interests that it may hold in the same collateral. The creditor need only disclose that the transaction is secured by the collateral, even when security interests from prior transactions remain of record and a new security interest is taken in connection with the transaction. In disclosing the fact that the transaction is secured by the collateral, the creditor also need not disclose how the security interest arose. For example, in a closed-end credit transaction, a rescission notice need not specifically state that a new security interest is “acquired” or an existing security interest is “retained” in the transaction.

The acquisition or retention of a security interest in the consumer’s principal dwelling instead may be disclosed in a rescission notice with a general statement such as the following: “Your home is the security for the new transaction.”

2(b) Rules of construction.

1. Footnotes. Footnotes are used extensively in the regulation to provide special exceptions and more detailed explanations and examples. Material that appears in a footnote has the same legal weight as material in the body of the regulation.

2. Amount. The numerical amount must be a dollar amount unless otherwise indicated. For example, in a closed-end transaction (Subpart C), the amount financed and the amount of any payment must be expressed as a dollar amount. In some cases, an amount should be expressed as a percentage. For example, in disclosures provided before the first transaction under an open-end plan (Subpart B), creditors are permitted to explain how the amount of any finance charge will be determined; where a cash advance fee (which is a finance charge) is a percentage of each cash advance, the amount of the finance charge for that fee is expressed as a percentage.

Statute: Section 103.
Other sections: None.
Other regulations: Regulation E (12 CFR 226.2(d)).
Previous regulation: Sections 226.2, 226.8, and 226.9.
1981 changes: Section 226.2 implements amended section 103 of the act. Separate definitions for comparative index of credit cost, discount, organization, period, real property, real property transaction, regular price, and surcharge have been deleted. The definitions relating specifically to consumer leases are now found in the separate consumer leasing regulation, Regulation M (12 CFR Part 213).

Several terms are now defined elsewhere in the regulation or commentary rather than in §226.2. For example, finance charge is described and explained in §226.4, and agricultural purpose is discussed in the commentary to §226.3. Some terms, such as unauthorized use, are now defined as part of the substantive sections to which they apply. Other terms previously defined, such as customer and organization, are merged into new definitions. Section 226.2 contains new definitions for arranger of credit, business day, closed-end credit, consumer, consummation, downpayment, prepaid finance charge, and residential mortgage transaction.

The major changes in the definitions are as follows:

Arranger of credit has a significantly different meaning. It reflects the statutory amendment that limits arrangers to those who regularly arrange credit extensions for persons who are not themselves creditors. This definition was deleted effective October 1, 1982.

Billing cycle largely restates the prior definition, but requires cycles to be regular, and allows the four-day variance to be measured from a regular day as well as date. The definition also incorporates an interpretation that cycles may be no longer than quarterly. Business day is now in the sense that the term previously appeared only in a footnote to the rescission provision, but it is now of general applicability. The general rule that it is a day when the creditor is open for business is new, but the rule for rescission purposes is the same as in the previous regulation.

Cash price now explicitly permits inclusion of various incidental charges imposed equally in cash and credit transactions.

Consumer has a narrower meaning in that guarantors, sureties, and endorsers are excluded from the general definition.

Consumer credit reflects the new statutory exemption for agricultural credit.

Consummation is a significant departure from longstanding interpretations of the previous definition. It now focuses only on the time the consumer becomes contractually obligated, rather than the time the consumer pays a nonrefundable fee or suffers an economic penalty for failing to go forward with the credit transaction.

Credit generally parallels the previous definition, but modifies the previous interpretations of the definition by excluding more transactions.

Creditor reflects the statutory amendments to the act that were intended to eliminate
Federal Reserve System

the problem of multiple creditors in a transaction. The regularly standard is still used, but it is now defined in terms of the frequency of the credit extensions. The new definition also requires that there be a written agreement to pay in more than 4 installments if no finance charge is imposed. Finally, the obligation must be initially payable to a person for that person to be the creditor.

Open-end credit reflects the amended statutory definition requiring that the creditor reasonably contemplate repeated transactions. The new definition no longer requires the consumer to have the privilege of paying either in installments or in full.

Periodic rate combines the previous definitions of period and periodic rate with clarification in the commentary concerning transaction charges and 360-day-year factors. Security interest is much narrower than the previous definition. Reflecting the legislative history of the simplification amendments, incidental interests are expressly excluded from the definition. Except for purposes of rescission, interests that arise solely by operation of law are also excluded.

Section 226.3—Exempt Transactions

3(a) Business, commercial, agricultural, or organizational credit.

1. Primary purposes. A creditor must determine in each case if the transaction is primarily for an exempt purpose. If some question exists as to the primary purpose for a credit extension, the creditor is, of course, free to make the disclosures, and the fact that disclosures are made under such circumstances is not controlling on the question of whether the transaction was exempt.

2. Factors. In determining whether credit to finance an acquisition—such as securities, antiques, or art—is primarily for business or commercial purposes (as opposed to a consumer purpose), the following factors should be considered:

   • The relationship of the borrower’s primary occupation to the acquisition. The more closely related, the more likely it is to be business purpose.
   • The degree to which the borrower will personally manage the acquisition. The more personal involvement there is, the more likely it is to be business purpose.
   • The ratio of income from the acquisition to the total income of the borrower. The higher the ratio, the more likely it is to be business purpose.
   • The size of the transaction. The larger the transaction, the more likely it is to be business purpose.

   Examples of business-purpose credit include:

   • A loan to expand a business, even if it is secured by the borrower’s residence or personal property.
   • A loan to improve a principal residence by putting in a business office.
   • A business account used occasionally for consumer purposes.

     Examples of consumer-purpose credit include:

   • Credit extensions by a company to its employees or agents if the loans are used for personal purposes.
   • A loan secured by a mechanic’s tools to pay a child’s tuition.
   • A personal account used occasionally for business purposes.

3. Non-owner-occupied rental property. Credit extended to acquire, improve, or maintain rental property (regardless of the number of housing units) that is not owner-occupied is deemed to be for business purposes. This includes, for example, the acquisition of a warehouse that will be leased or a single-family house that will be rented to another person to live in. If the owner expects to occupy the property for more than 14 days during the coming year, the property cannot be considered non-owner-occupied and this special rule will not apply. For example, a beach house that the owner will occupy for a month in the coming summer and rent out the rest of the year is owner occupied and is not governed by this special rule. See Comment 3(a)-4, however, for rules relating to owner-occupied rental property.

4. Owner-occupied rental property. If credit is extended to acquire, improve, or maintain rental property that is or will be owner-occupied within the coming year, different rules apply:

   • Credit extended to acquire the rental property is deemed to be for business purposes if it contains more than 2 housing units.
   • Credit extended to improve or maintain the rental property is deemed to be for business purposes if it contains more than 4 housing units. Since the amended statute defines dwelling to include 1 to 4 housing units, this rule preserves the right of rescission for credit extended for purposes other than acquisition.

   Neither of these rules means that an extension of credit for property containing fewer than the requisite number of units is necessarily consumer credit. In such cases, the determination of whether it is business or consumer credit should be made by considering the factors listed in Comment 3(a)-2.
5. Business credit later refinanced. Business-purpose credit that is exempt from the regulation may later be rewritten for consumer purposes. Such a transaction is consumer credit requiring disclosures only if the existing obligation is satisfied and replaced by a new obligation made for consumer purposes undertaken by the same obligor.

6. Agricultural purpose. An agricultural purpose includes the planting, propagating, nurturing, harvesting, catching, storing, exhibiting, marketing, transporting, processing, or manufacturing of food, beverages (including alcoholic beverages), flowers, trees, livestock, poultry, bees, wildife, fish, or shellfish by a natural person engaged in farming, fishing, or growing crops, flowers, trees, livestock, poultry, bees, or wildlife. The exemption also applies to a transaction involving real property that includes a dwelling (for example, the purchase of a farm with a homestead) if the transaction is primarily for agricultural purposes.

7. Organizational credit. The exemption for transactions in which the borrower is not a natural person applies, for example, to loans to corporations, partnerships, associations, churches, unions, and fraternal organizations. The exemption applies regardless of the purpose of the credit extension and regardless of the fact that a natural person may guarantee or provide security for the credit.

8. Land trusts. Credit extended for consumer purposes to a land trust is considered to be credit extended to a natural person rather than credit extended to an organization. In some jurisdictions, a financial institution financing a residential real estate transaction for an individual uses a land trust mechanism. Title to the property is conveyed to the land trust for which the financial institution itself is trustee. The underlying installment note is executed by the financial institution in its capacity as trustee, and payment is secured by a trust deed, reflecting title in the financial institution as trustee. In some instances, the consumer executes a personal guaranty of the indebtedness. The note provides that it is payable only out of the property specifically described in the trust deed and that the trustee has no personal liability on the note. Assuming the transactions are for personal, family, or household purposes, these transactions are subject to the regulation since in substance (if not form) consumer credit is being extended.

3(b) Credit over $25,000.

1. Coverage. Since a mobile home can be a dwelling under §226.2(a)(19), this exemption does not apply to a credit extension secured by a mobile home used or expected to be used as the principal dwelling of the consumer, even if the credit exceeds $25,000. A loan commitment for closed-end credit in excess of $25,000 is exempt even though the amounts actually drawn never actually reach $25,000.

2. Open-end credit. An open-end credit plan is exempt under §226.3(b) (unless secured by real property or personal property used or expected to be used as the consumer’s principal dwelling) if either of the following conditions is met:
   • The creditor makes a firm commitment to lend over $25,000 with no requirement of additional credit information for any advances.
   • The initial extension of credit on the line exceeds $25,000.

If a security interest is taken at a later time in any real property, or in personal property used or expected to be used as the consumer’s principal dwelling, the plan would no longer be exempt. The creditor must comply with all of the requirements of the regulation including, for example, providing the consumer with an initial disclosure statement. If the security interest being added is in the consumer’s principal dwelling, the creditor must also give the consumer the right to rescind the security interest. (See the commentary to §226.15 concerning the right of rescission.)

3. Closed-end credit—subsequent changes. A closed-end loan for over $25,000 may later be rewritten for $25,000 or less, or a security interest in real property or in personal property used or expected to be used as the consumer’s principal dwelling may be added to an extension of credit for over $25,000. Such a transaction is consumer credit requiring disclosures only if the existing obligation is satisfied and replaced by a new obligation made for consumer purposes undertaken by the same obligor. (See the commentary to §226.23(a)(1) regarding the right of rescission when a security interest in a consumer’s principal dwelling is added to a previously exempt transaction.)

3(c) Public utility credit.

1. Examples. Examples of public utility services include:
   • Gas, water, or electrical services.
   • Cable television services.
   • Installation of new sewer lines, water lines, conduits, telephone poles, or metering equipment in an area not already serviced by the utility.

   The exemption does not apply to extensions of credit, for example:
   • To purchase appliances such as gas or electric ranges, grills, or telephones.
   • To finance home improvements such as new heating or air conditioning systems.

3(d) Securities or commodities accounts.

1. Coverage. This exemption does not apply to a transaction with a broker registered solely with the state, or to a separate credit extension in which the proceeds are used to purchase securities.
Federal Reserve System

3(e) Home fuel budget plans.
1. Definition. Under a typical home fuel budget plan, the fuel dealer estimates the total cost of fuel for the season, bills the customer for an average monthly payment, and makes an adjustment in the final payment for any difference between the estimated and the actual cost of the fuel. Fuel is delivered as needed, no finance charge is assessed, and the customer may withdraw from the plan at any time. Under these circumstances, the arrangement is exempt from the regulation, even if a charge to cover the billing costs is imposed.

3(f) Student Loan Programs.
1. Coverage. This exemption applies to the Guaranteed Student Loan program (administered by the Federal government, State, and private non-profit agencies), the Auxiliary Loans to Assist Students (also known as PLUS program), and the National Direct Student Loan program.

References
Statute: Sections 103 (s) and (t) and 104. Other sections: Section 226.12 (a) and (b). Previous regulation: Section 226.3 and Interpretations § 226.301 and 226.302.

1981 Changes: The business credit exemption has been expanded to include credit for agricultural purposes. The rule of Interpretation § 226.302, concerning credit relating to structures containing more than 4 housing units, has been modified and somewhat expanded by providing more exclusions for transactions involving rental property.

The exemption for transactions above $25,000 secured by real estate has been narrowed; all transactions secured by the consumer’s principal dwelling (even if not considered real property) are now subject to the regulation.

The public utility exemption now covers the financing of the extension of a utility into an area not earlier served by the utility, in addition to the financing of services.

The securities credit exemption has been extended to broker-dealers registered with the CFTC as well as the SEC.

A new exemption has been created for home fuel budget plans.

Section 226.4—Finance Charge

4(a) Definition.
1. Charges in comparable cash transactions. Charges imposed uniformly in cash and credit transactions are not finance charges. In determining whether an item is a finance charge, the creditor should compare the credit transaction in question with a similar cash transaction. A creditor financing the sale of property or services may compare charges with those payable in a similar cash transaction by the seller of the property or service.
3. Forfeitures of interest. If the creditor reduces the interest rate it pays or stops paying interest on the consumer’s deposit account or any portion of it for the term of a credit transaction (including, for example, an overdraft on a checking account or a loan secured by a certificate of deposit), the interest lost is a finance charge. (See the commentary to §226.4(c)(6).) For example:

- A consumer borrows $5,000 for 90 days and secures it with a $10,000 certificate of deposit paying 15% interest. The creditor charges the consumer a finance interest rate of 6% on the loan and stops paying interest on $5,000 of the $10,000 certificate for the term of the loan. The interest lost is a finance charge and must be reflected in the annual percentage rate on the loan.

However, the consumer must be entitled to the interest that is not paid in order for the lost interest to be a finance charge. For example:

- A consumer wishes to buy from a financial institution a $10,000 certificate of deposit paying 15% interest but has only $4,000. The financial institution offers to lend the consumer $6,000 at an interest rate of 6%, but will pay the 15% interest only on the amount of the consumer’s deposit, $4,000. The creditor does not pay interest on the $6,000 does not result in an additional finance charge on the extension of credit, provided the consumer is entitled by the deposit agreement with the financial institution to interest only on the amount of the consumer’s deposit.

- A consumer enters into a combined time deposit/credit agreement with a financial institution that establishes a time deposit account and an open-end line of credit. The line of credit may be used to borrow against the funds in the time deposit. The agreement provides for an interest rate on any credit extension that, for example, 1%. In addition, the agreement states that the creditor will pay 0% interest on the amount of the time deposit that corresponds to the amount of the credit extension(s). The interest that is not paid on the time deposit by the financial institution is not a finance charge (and therefore does not affect the annual percentage rate computation).

4. Treatment of fees for use of automated teller machines. Any charge imposed on a cardholder by a card issuer for the use of an automated teller machine (ATM) to obtain a cash advance (whether in a proprietary, shared, interchange, or other system) is not a finance charge to the extent that it does not exceed the charge imposed by the card issuer on its cardholders for using the ATM to withdraw cash from a consumer asset account, such as a checking or savings account. (See the commentary to §226.6(b).)

5. Taxes. Generally, a tax imposed by a state or other governmental body solely on a

creditor is a finance charge if the creditor separately imposes the charge on the consumer.

ii. In contrast, a tax is not a finance charge (even if the tax is collected by the creditor) if applicable law imposes the tax:

A. Solely on the consumer;
B. On the creditor and the consumer jointly;
C. On the credit transaction, without indicating which party is liable for the tax; or
D. On the creditor, if applicable law directs or authorizes the creditor to pass the tax on to the consumer. (For purposes of this section, if applicable law is silent as to passing on the tax, the law is deemed not to authorize passing it on.)

iii. For example, a stamp tax, property tax, intangible tax, or any other state or local tax imposed on the consumer, or on the credit transaction, is not a finance charge even if the tax is collected by the creditor.

iv. In addition, a tax is not a finance charge if it is excluded from the finance charge by an other provision of the regulation or commentary (for example, if the tax is imposed uniformly in cash and credit transactions).

4(a)(3) Charges by third parties.

1. Choosing the provider of a required service. An example of a third-party charge included in the finance charge is the cost of required mortgage insurance, even if the consumer is allowed to choose the insurer.

2. Annuities associated with reverse mortgages. Some creditors offer annuities in connection with a reverse mortgage transaction. The amount of the premium is a finance charge if the creditor requires the purchase of the annuity incident to the credit. Examples include the following:

i. The credit documents reflect the purchase of an annuity from a specific provider or providers.

ii. The creditor assesses an additional charge on consumers who do not purchase an annuity from a specific provider.

iii. The annuity is intended to replace in whole or in part the creditor’s payments to the consumer either immediately or at some future date.

4(a)(2) Special rule; closing agent charges.

1. General. This rule applies to charges by a third party serving as the closing agent for the particular loan. An example of a closing agent charge included in the finance charge is a courier fee where the creditor requires the use of a courier.

2. Required closing agent. If the creditor requires the use of a closing agent, fees charged by the closing agent are included in the finance charge only if the creditor requires the particular service, requires the imposition of the charge, or retains a portion of the charge. Fees charged by a third-party closing agent may be otherwise excluded.
from the finance charge under §226.4. For example, a fee that would be paid in a comparable cash transaction may be excluded under §226.4(a). A charge for conducting or attending a closing is a finance charge and may be excluded only if the charge is included in and is incidental to a lump-sum closing fee excluded under §226.4(c)(7).

4(a)(3) Special rule; mortgage broker fees.

1. General. A fee charged by a mortgage broker is excluded from the finance charge if it is the type of fee that is also excluded when charged by the creditor. For example, to exclude an application fee from the finance charge under §226.4(c)(1), a mortgage broker must charge the fee to all applicants for credit, whether or not credit is extended.

2. Coverage. This rule applies to charges paid by consumers to a mortgage broker in connection with a consumer credit transaction secured by real property or a dwelling.

3. Compensation by lender. The rule requires all mortgage broker fees to be included in the finance charge. Creditors sometimes compensate mortgage brokers under a separate arrangement with those parties. Creditors may draw on amounts paid by the consumer, such as points or closing costs, to fund their payment to the broker. Compensation paid by a creditor to a mortgage broker under an agreement is not included as a separate component of a consumer’s total finance charge (although this compensation may be reflected in the finance charge if it comes from amounts paid by the consumer to the creditor that are finance charges, such as points and interest).

4(b) Examples of finance charges.

1. Relationship to other provisions. Charges or fees shown as examples of finance charges in §226.4(b) may be excludable under §226.4(c), (d), or (e). For example:

• Premiums for credit life insurance, shown as an example of a finance charge under §226.4(b)(7), may be excluded if the requirements of §226.4(d)(1) are met.

• Appraisal fees mentioned in §226.4(b)(4) are excluded for real property or residential mortgage transactions under §226.4(c)(7).

Paragraph 4(b)(2).

1. Checking account charges. A checking or transaction account charge imposed in connection with a credit feature is a finance charge under §226.4(b)(2) to the extent the charge exceeds the charge for a similar account without a credit feature. If a charge for an account with a credit feature does not exceed the charge for an account without a credit feature, the charge is not a finance charge under §226.4(b)(2). To illustrate:

i. A $5 service charge is imposed on an account with an overdraft line of credit (where the institution has agreed in writing to pay an overdraft), while a $2 service charge is imposed on an account without a credit feature; the $2 difference is a finance charge. (If the difference is not related to account activity, however, it may be excludable as a participation fee. See the commentary to §226.4(c)(4).)

ii. A $5 service charge is imposed for each item that results in an overdraft on an account with an overdraft line of credit, while a $25 service charge is imposed for paying or returning each item on a similar account without a credit feature; the $5 charge is not a finance charge.

Paragraph 4(b)(3).

1. Assumption fees. The assumption fees mentioned in §226.4(b)(3) are finance charges only when the assumption occurs and the fee is imposed on the new buyer. The assumption fee is a finance charge in the new buyer’s transaction.

Paragraph 4(b)(5).

1. Credit loss insurance. Common examples of the insurance against credit loss mentioned in §226.4(b)(5) are mortgage guaranty insurance, holder in due course insurance, and repossession insurance. Such premiums must be included in the finance charge only for the period that the creditor requires the insurance to be maintained.

2. Residual value insurance. Where a creditor requires a consumer to maintain residual value insurance or where the creditor is a beneficiary of a residual value insurance policy written in connection with an extension of credit (as is the case in some forms of automobile balloon payment financing, for example), the premiums for the insurance must be included in the finance charge for the period that the insurance is to be maintained. If a creditor pays for residual value insurance and absorbs the payment as a cost of doing business, such costs are not considered finance charges. (See comment 4(a)-2.)

Paragraphs 4(b)(7) and (8).

1. Pre-existing insurance policy. The insurance discussed in §226.4(b)(7) and (8) does not include an insurance policy (such as a life or an automobile collision insurance policy) that is already owned by the consumer, even if the policy is assigned to or otherwise made payable to the creditor to satisfy an insurance requirement. Such a policy is not “written in connection with” the transaction, as long as the insurance was not purchased for use in that credit extension, since it was previously owned by the consumer.

2. Insurance written in connection with a transaction. Insurance sold after consummation in closed-end credit transactions or after the opening of a plan in open-end credit transactions is not “written in connection with” the credit transaction if the insurance is written because of the consumer’s default (for example, by failing to obtain or maintain required property insurance) or because
the consumer requests insurance after consummation or the opening of a plan (although credit sale disclosures may be required for the insurance sold after consummation if it is financed).

3. Substitution of life insurance. The premium for a life insurance policy purchased and assigned to satisfy a credit life insurance requirement must be included in the finance charge, but only to the extent of the cost of the credit life insurance if purchased from the lender or the actual cost of the policy (if that is less than the cost of the insurance available from the creditor). If the creditor does not offer the required insurance, the premium to be included in the finance charge is the cost of a policy of insurance of the type, amount, and term required by the creditor.

4. Other insurance. Fees for required insurance not of the types described in § 226.4(b)(7) and (8) are finance charges and are not excludable. For example:

• The premium for a hospitalization insurance policy, if it is required to be purchased only in a credit transaction, is a finance charge.

1. Paragraph 4(b)(9).

1. Discounts for payment by other than credit. The discounts to induce payment by other than credit mentioned in § 226.4(b)(9) include, for example, the following situations:

• The seller of land offers individual tracts for $10,000 each. If the purchaser pays cash, the price is $9,000, but if the purchaser finances the tract with the seller the price is $10,000. The $1,000 difference is a finance charge.

2. Exception for cash discounts. Discounts offered to induce consumers to pay for property or services by cash, check, or other means not involving the use of either an open-end credit plan or a credit card (whether open-end or closed-end credit is extended on the card) may be excluded from the finance charge under section 167(b) of the Act (as amended by Pub. L. 97-25, July 27, 1981). The discount may be in whatever amount the seller desires, either as a percentage of the regular price (as defined in section 103(z) of the Act, as amended) or a dollar amount. This provision applies only to transactions involving an open-end credit plan or a credit card. The merchant must offer the discount to prospective buyers whether or not they are cardholders or members of the open-end credit plan. The merchant may, however, make other distinctions. For example:

• The merchant may limit the discount to payment by cash, and not offer it for payment by check or by use of a debit card.

• The merchant may establish a discount plan that allows a 15% discount for payment by cash, a 10% discount for payment by check, and a 5% discount for payment by a particular credit card. None of these discounts is a finance charge.

Section 171(c) of the Act excludes section 167(b) discounts from treatment as a finance charge or other charge for credit under any state usury or disclosure laws.

3. Determination of the regular price. The regular price is critical in determining whether the difference between the price charged to cash customers and credit customers is a discount or a surcharge, as these terms are defined in amended section 103 of the Act. The regular price is defined in section 103 of the Act as—

• the tag or posted price charged for the property or service if a single price is tagged or posted, or the price charged for the property or service when payment is made by use of an open-end credit account or a credit card if either (1) no price is tagged or posted, or (2) two prices are tagged or posted. . . .

For example, in the sale of motor vehicle fuel, the tagged or posted price is the price displayed at the pump. As a result, the higher price (the open-end credit or credit card price) must be displayed at the pump, either alone or along with the cash price. Service station operators may designate separate pumps or separate islands as being for either cash or credit purchases and display only the appropriate prices at the various pumps. If a pump is capable of displaying on its meter either a cash or a credit price depending upon the consumer’s means of payment, both the cash price and the credit price must be displayed at the pump. A service station operator may display the cash price of fuel by itself on a curb sign, as long as the sign clearly indicates that the price is limited to cash purchases.

4(b)(10) Debt cancellation fees.

1. Definition. Debt cancellation coverage provides for payment or satisfaction of all or part of a debt when a specified event occurs. The term includes guaranteed automobile protection or "GAP" agreements, which pay or satisfy the remaining debt after property insurance benefits are exhausted.

4(c) Charges excluded from the finance charge.

1. Application fees. An application fee that is excluded from the finance charge is a charge to recover the costs associated with processing applications for credit. The fee may cover the costs of services such as credit reports, credit investigations, and appraisals. The creditor is free to impose the fee in only certain of its loan programs, such as mortgage loans. However, if the fee is to be excluded from the finance charge under § 226.4(c)(1), it must be charged to all applicants, not just to applicants who are approved or who actually receive credit.

Paragraph 4(c)(2).
1. Late payment charges. Late payment charges can be excluded from the finance charge under §226.4(c)(2) whether or not the person imposing the charge continues to extend credit on the account or continues to provide property or services to the consumer. In determining whether a charge is for actual unanticipated late payment on a 30-day account, for example, factors to be considered include:

- The terms of the account. For example, is the consumer required by the account terms to pay the account balance in full each month? If not, the charge may be a finance charge.
- The practices of the creditor in handling the accounts. For example, regardless of the terms of the account, does the creditor allow consumers to pay the accounts over a period of time without demanding payment in full or taking any action to collect? If no effort is made to collect the full amount due, the charge may be a finance charge.

Section 226.4(c)(2) applies to late payment charges imposed for failure to make payments as agreed, as well as failure to pay an account in full when due.

2. Other excluded charges. Charges for “delinquency, default, or a similar occurrence” include, for example, charges for reinstatement of credit privileges or for submitting as payment a check that is later returned unpaid.

Paragraph 4(c)(3).

1. Assessing interest on an overdraft balance. A charge on an overdraft balance computed by applying a rate of interest to the amount of the overdraft is not a finance charge, even though the consumer agrees to the charge in the account agreement, unless the financial institution agrees in writing that it will pay the account in full when due.

Paragraph 4(c)(4).

1. Participation fees—periodic basis. The participation fees mentioned in §226.4(c)(4) do not necessarily have to be formal membership fees, nor are they limited to credit card plans. The provision applies to any credit plan in which payment of a fee is a condition of access to the plan itself, but it does not apply to fees imposed separately on individual closed-end transactions. The fee may be charged on a monthly, annual, or other periodic basis; a one-time, non-recurring fee imposed at the time an account is opened is not a fee that is charged on a periodic basis, and may not be treated as a participation fee.

2. Participation fees—exclusions. Minimum monthly charges, charges for non-use of a credit card, and other charges based on either account activity or the amount of credit available under the plan are not excluded from the finance charge by §226.4(c)(4). Thus, for example, a fee that is charged and then refunded to the consumer based on the extent to which the consumer uses the credit available would be a finance charge. (See the commentary to §226.4(b)(2). Also, see comment 14(c)–7 for treatment of certain types of fees excluded in determining the annual percentage rate for the periodic statement.)

Paragraph 4(c)(5).

1. Seller’s points. The seller’s points mentioned in §226.4(c)(5) include any charges imposed by the creditor upon the non-creditor seller of property for providing credit to the buyer or for providing credit on certain terms. These charges are excluded from the finance charge even if they are passed on to the buyer, for example, in the form of a higher sales price. Seller’s points are frequently involved in real estate transactions guaranteed or insured by governmental agencies. A commitment fee paid by a non-creditor seller (such as a real estate developer) to the creditor should be treated as buyer’s points (that is, points charged to the buyer by the creditor), however, are finance charges.

2. Other seller-paid amounts. Mortgage insurance premiums and other finance charges are sometimes paid at or before consummation or settlement on the borrower’s behalf by a noncreditor seller. The creditor should treat the payment made by the seller as seller’s points and exclude it from the finance charge if, based on the seller’s payment, the consumer is not legally bound to the creditor for the charge. A creditor who gives disclosures before the payment has been made should base them on the best information reasonably available.

Paragraph 4(c)(6).

1. Lost interest. Certain federal and state laws mandate a percentage differential between the interest rate paid on a deposit and the rate charged on a loan secured by that deposit. In some situations because of usury laws the creditor must reduce the interest rate paid on the deposit and, as a result, the consumer loses some of the interest that would otherwise have been earned. Under §226.4(c)(6), such lost interest need not be included in the finance charge. This rule applies only to an interest reduction imposed because a rate differential is required by law and a usury limit precludes compliance by any other means. If the creditor imposes a differential that exceeds that required, only the lost interest attributable to the excess amount is a finance charge. (See the commentary to §226.4(a).)

Paragraph 4(c)(7).

1. Real estate or residential mortgage transaction charges. The list of charges in §226.4(c)(7) applies both to residential mortgage transactions (which may include, for example, the purchase of a mobile home) and to other transactions secured by real estate. The fees are excluded from the finance charge even if the services for which the fees
are imposed are performed by the creditor’s employees rather than by a third party. In addition, the cost of verifying or confirming information connected to the item is also excluded. If a lump sum charged for several services includes a charge that is not excludable, a portion of the total should be allocated to that service and included in the finance charge. However, a lump sum charged for conducting or attending a closing (for example, by a lawyer or a title company) is excluded from the finance charge if the charge is primarily for services related to items listed in §226.4(c)(7) (for example, reviewing or completing documents), even if other incidental services such as explaining various documents or disbursing funds for the parties are performed. The entire charge is excluded even if a fee for the incidental services would be a finance charge if it were imposed separately.

3. Charges assessed during the loan term.

Real estate or residential mortgage transaction charges excluded under §226.4(d) are those charges imposed solely in connection with the initial decision to grant credit. This would include, for example, a fee to search for tax liens on the property or to determine if flood insurance is required. The exclusion does not apply to fees for services to be performed periodically during the loan term, regardless of when the fee is collected. For example, a fee for one or more determinations during the loan term of the current tax lien status or flood insurance requirements is a finance charge, regardless of whether the fee is imposed at closing, or when the service is performed. If a creditor is uncertain about what portion of a fee to be paid at consummation or loan closing is related to the initial decision to grant credit, the entire fee may be treated as a finance charge.

4(d) Insurance and debt cancellation coverage.

1. General. Section 226.4(d) permits insurance premiums and charges and debt-cancellation charges to be excluded from the finance charge. The required disclosures must be made in writing. The rules on location of insurance and debt-cancellation disclosures for closed-end transactions are in §226.17(a). For purposes of §226.4(d), all references to insurance also include debt-cancellation coverage unless the context indicates otherwise.

2. Timing of disclosures. If disclosures are given early, for example under §226.17(f) or §226.19(a), the creditor need not redisclose if the actual premium is different at the time of consummation. If insurance disclosures are not given at the time of early disclosure and insurance is in fact written in connection with the transaction, the disclosures under §226.4(d) must be made in order to exclude the premiums from the finance charge.

3. Premium rate increases. The creditor should disclose the premium amount based on the rates currently in effect and need not designate it as an estimate even if the premium rates may increase. An increase in insurance rates after consummation of a closed-end credit transaction or during the life of an open-end credit plan does not require redisclosure in order to exclude the additional premium from treatment as a finance charge.

4. Unit-cost disclosures. i. Open-end credit. The premium or fee for insurance or debt cancellation for the initial term of coverage may be disclosed on a unit-cost basis in open-end credit transactions. The cost per unit should be based on the initial term of coverage, unless one of the options under comment 4(d)-12 is available.

ii. Closed-end credit. One of the transactions for which unit-cost disclosures (such as 50 cents per year for each $100 of the amount financed) may be used in place of the total insurance premium involves a particular kind of insurance plan. For example, a consumer with a current indebtedness of $8,000 is covered by a plan of credit life insurance coverage with a maximum of $10,000. The consumer requests an additional $4,000 loan to be covered by the same insurance plan. Since the $4,000 loan exceeds, in part, the maximum amount of indebtedness that can be covered by the plan, the creditor may properly give the insurance cost disclosures on the $4,000 loan on a unit-cost basis.

5. Required credit life insurance. Credit life, accident, health, or loss-of-income insurance must be voluntary in order for the premium or charges to be excluded from the finance charge. Whether the insurance is in fact required or optional is a factual question. If the insurance is required, the premiums must be included in the finance charge, whether the insurance is purchased from the creditor or from a third party. If the consumer is required to elect one of several options—such as to purchase credit life insurance, or to assign an existing life insurance policy, or to pledge security instead of requiring any premium is included in the finance charge. If the consumer assigns a preexisting policy or pledges security instead, no premium is included in the finance charge. The security interest would be disclosed under §226.6(c) or §226.18(m). See the commentary to §226.4(b) (7) and (8)."

6. Other types of voluntary insurance. Insurance is not credit life, accident, health, or loss-of-income insurance if the creditor or the credit account of the consumer is not the beneficiary of the insurance coverage. If
Federal Reserve System

such insurance is not required by the creditor as an incident to or a condition of credit, it is not covered by §226.4.

7. Signatures. If the creditor offers a number of insurance options under §226.4(d), the creditor may provide a means for the consumer to sign or initial for each option, or it may provide for a single authorizing signature or check mark. The insurance authorization may be signed or initialed by any consumer, as defined in §226.2(a)(11), or by an authorized user on a credit card account.

8. Property insurance. To exclude property insurance premiums or charges from the finance charge, the creditor must allow the consumer to choose the insurer and disclose that fact. This disclosure must be made whether or not the property insurance is available from or through the creditor. The requirement that an option be given does not require that the insurance be readily available from other sources. The premium or charge must be disclosed only if the consumer elects to purchase the insurance from the creditor; in such a case, the creditor must also disclose the term of the property insurance coverage if it is less than the term of the obligation.

9. Single-interest insurance. Blanket and specific single-interest coverage are treated the same for purposes of the regulation. A charge for either type of single-interest insurance may be excluded from the finance charge if:

• The insurer waives any right of subrogation.
• The other requirements of §226.4(d)(2) are met. This includes, of course, giving the consumer the option of obtaining the insurance from a person of the consumer’s choice. The creditor need not ascertain whether the consumer is able to purchase the insurance from someone else.

10. Single-interest insurance defined. The term single-interest insurance as used in the regulation refers only to the types of coverage traditionally included in the term vendor’s single-interest insurance (or VSI), that is, protection of tangible property against normal property damage, concealment, confiscation, conversion, embezzlement, and skip. Some comprehensive insurance policies may include a variety of additional coverages, such as repossession insurance and holder-in-interest insurance. These types of coverage do not constitute single-interest insurance for purposes of the regulation, and premiums for them do not qualify for exclusion from the finance charge under §226.4(d). If a policy that is primarily VSI also provides coverages that are not VSI or other property insurance, a portion of the premiums must be allocated to the nonexcludable coverages and included in the finance charge. However, such allocation is not required if the total premium in fact attributable to all of the non-VSI coverages included in the policy is $1.00 or less (or $5.00 or less in the case of a multi-year policy).

11. Initial term. i. The initial term of the insurance or debt cancellation coverage determines the period for which a premium amount or fee must be disclosed, unless one of the options discussed under comment 4(d)-12 is available. For purposes of §226.4(d), the initial term is the period for which the insurer or creditor is obligated to provide coverage, even though the consumer may be allowed to cancel the coverage or coverage may end due to nonpayment before that term expires.

ii. For example:

A. The initial term of a property insurance policy on an automobile that is written for one year is one year even though premiums are paid monthly and the term of the credit transaction is four years.

B. The initial term of an insurance policy is the full term of the credit transaction if the consumer pays or finances a single premium in advance.

12. Initial term; alternative. i. General. A creditor has the option of providing cost disclosures on the basis of an assumed initial term of one year of insurance or debt-cancellation coverage instead of a longer initial term (provided the premium or fee is clearly labeled as being for one year) if:

A. The initial term is indefinite or not clear, or

B. The consumer has agreed to pay a premium or fee that is assessed periodically but the consumer is under no obligation to continue the coverage, whether or not the consumer has made an initial payment.

ii. Open-end plans. For open-end plans, a creditor also has the option of providing unit-cost disclosure on the basis of a period that is less than one year if the consumer has agreed to pay a premium or fee that is assessed periodically, for example monthly, but the consumer is under no obligation to continue the coverage.

iii. Examples. To illustrate:

A. A credit life insurance policy providing coverage for a 30-year mortgage loan has an initial term of 30 years, even though premiums are paid monthly and the consumer is not required to continue the coverage. Disclosures may be based on the initial term, but the creditor also has the option of making disclosures on the basis of coverage for an assumed initial term of one year.

B. Loss-of-income insurance. The loss-of-income insurance mentioned in §226.4(d) includes involuntary unemployment insurance, which provides that some or all of the consumer’s payments will be made if the consumer becomes unemployed involuntarily.

4(d)(3) Voluntary debt cancellation fees.

1. General. Fees charged for the specialized form of debt cancellation agreement known
4(e) Certain security interest charges.

1. Excludable charges. Sums must be actually paid to public officials to be excluded from the finance charge under §226.4(e)(1) and (3). Examples are charges or other fees required for filing or recording security agreements, mortgages, continuation statements, termination statements, and similar documents, as well as intangible property or other taxes even when the charges or fees are imposed by the state solely on the creditor and charged to the consumer (if the tax must be paid to record a security interest). (See comment 4(a)–5 regarding the treatment of taxes, generally.)

   ii. Charges not excludable. If the obligation is between the creditor and a third party (an assignee, for example), charges or other fees for filing or recording security agreements, mortgages, continuation statements, termination statements, and similar documents relating to that obligation are not excludable from the finance charge under this section.

2. Itemization. The various charges described in §226.4(e)(1) and (3) may be totaled and disclosed as an aggregate sum, or they may be itemized by the specific fees and taxes imposed. If an aggregate sum is disclosed, a general term such as security interest fees or filing fees may be used.

3. Notary fees. In order for a notary fee to be excluded under §226.4(e)(1), all of the following conditions must be met:
   • The document to be notarized is one used to perfect, release, or continue a security interest.
   • The document is required by law to be notarized.
   • A notary is considered a public official under applicable law.
   • The amount of the fee is set or authorized by law.

4. Non-filing insurance. The exclusion in §226.4(e)(2) is available only if non-filing insurance is purchased. If the creditor collects and simply retains a fee as a sort of self-insurance against non-filing it may not be excluded from the finance charge. If the non-filing insurance premium exceeds the amount of the fees excludable from the finance charge under §226.4(e)(1), only the excess is a finance charge. For example:
   • The fee for perfecting a security interest is $5.00 and the fee for releasing the security interest is $3.00. The creditor charges $10.00 for non-filing insurance. Only $8.00 of the $10.00 is excludable from the finance charge.

4(f) Prohibited offsets.
1. Earnings on deposits or investments. The rule that the creditor shall not deduct any earnings by the consumer or deposits or investments applies whether or not the creditor has a security interest in the property.

Statute: Sections 106, 167, and 171(c).
Other sections: Sections 226.9(d) and 226.12.
Previous regulation: Section 226.4 and Interpretations §§226.401 through 226.407.
1981 changes: While generally continuing the rules under the previous regulation, §226.4 reflects amendments to section 106 of the act and makes certain other changes in the rules for determining the finance charge. For example, §226.4(a) expressly excludes from the finance charge amounts payable in comparable cash transactions. Section 226.8(a) of the previous regulation, dealing with discounts for prompt payment of a credit sale, was deleted in the revised regulation since the general test for a finance charge now focuses on a comparison of cash and credit transactions. With respect to various exclusions from the finance charge: application fees imposed on all applicants are no longer finance charges; continuing to extend credit to a consumer is no longer a controlling test for determining whether a late payment charge is bona fide; seller's points are not to be included in the finance charge; and the special exclusions for real estate transactions apply to all residential mortgage transactions.

The simplified rules for excluding insurance from the finance charge allow unit-cost disclosure in certain closed-end credit transactions; permit initials as well as signatures on the authorization; permit any consumer to authorize insurance for other consumers; and delete the requirement that the authorization be separately dated.

SUBPART B—OPEN-END CREDIT

Section 226.5—General Disclosure Requirements
5(a) Form of disclosures.
Paragraph 5(a)(1).
1. Clear and conspicuous. The clear and conspicuous standard requires that disclosures be in a reasonably understandable form. Except where otherwise provided, the standard does not require that disclosures be segregated from other material or located in any particular place on the disclosure statement, or that numerical amounts or percentages be in any particular type size. (But see comments 5(a)(2)–1 and –2 for special rules concerning §226.3a disclosures for credit card
applications and solicitations.) The standard does not prohibit:

- Pluralizing required terminology (finance charge and annual percentage rate).
- Adding to the required disclosures such items as contractual provisions, explanations of contract terms, state disclosures, and translations.
- Sending promotional material with the required disclosures.
- Using commonly accepted or readily understandable abbreviations (such as mo. for month or TX for Texas) in making any required disclosures.
- Using codes or symbols such as APR (for annual percentage rate), F.C. (for finance charges), Cr. (for credit), so long as a legend or description of the code or symbol is provided on the disclosure statement.

1. Integrated document. The creditor may make both the initial disclosures (§226.6) and the periodic statement disclosures (§226.7) on more than one page, and use both the front and the reverse sides, so long as the pages constitute an integrated document. An integrated document would not include disclosure pages provided to the consumer at different times or disclosures interspersed on the same page with promotional material. An integrated document would include, for example:

- Multiple pages provided in the same envelope that cover related material and are folded together, numbered consecutively, or clearly labelled to show that they relate to one another.
- A brochure that contains disclosures and explanatory material about a range of services the creditor offers, such as credit, checking account, and electronic fund transfer features.

Paragraph 5(a)(2).

1. When disclosures must be more conspicuous. The term “finance charge and annual percentage rate” when required to be used with a number, must be disclosed more conspicuously than other required disclosures, except in the cases provided in footnote 9. At the creditor’s option, finance charge and annual percentage rate may also be disclosed more conspicuously than the other required disclosures even when the regulation does not so require. The following examples illustrate these rules:

- In disclosing the annual percentage rate as required by §226.6(a)(2), the term annual percentage rate is subject to the more conspicuous rule.
- In disclosing the amount of the finance charge, required by §226.7(f), the term “finance charge” is subject to the more conspicuous rule.

Although neither finance charge nor annual percentage rate need be emphasized when used as part of general informational material or in textual descriptions of other terms, emphasis is permissible in such cases. For example, when the terms appear as part of the explanations required under §226.6(a)(3) and (4), they may be equally conspicuous as the disclosures required under §§226.6(a)(2) and 226.7(g).

2. Making disclosures more conspicuous. In disclosing the terms “finance charge and annual percentage rate” requires delivery of the initial disclosures before the consumer becomes obligated on the plan. For example, the initial disclosures must be given before the consumer makes the first purchase (such as when a consumer opens a credit plan and makes purchases contemporaneously at a retail store), receives the first advance, or pays any fees or charges under the plan other than an application fee or refundable membership fee (see below). The prohibition on the payment of fees other than application or refundable membership fees before initial disclosures are provided does not apply to home equity plans subject to §226.5b. See the commentary to §226.5b(h) regarding the collection of fees for home equity plans covered by §226.5b.

- If the consumer pays a membership fee before receiving the Truth in Lending disclosures, or the consumer agrees to the imposition of a membership fee at the time of application and the Truth in Lending disclosure statement is not given at that time, disclosures are timely as long as the consumer, after receiving the disclosures, can reject the plan. The creditor must refund the membership fee if it has been paid, or clear the account if it has been debited to the consumer’s account.
- If the consumer receives a cash advance check at the same time the Truth in Lending disclosures are provided, disclosures are still timely if the consumer can, after receiving
the disclosures, return the cash advance check to the creditor without obligation (for example, without paying finance charges).

- Initial disclosures need not be given before the imposition of an application fee under §226.4(c)(1).

- If, after receiving the disclosures, the consumer uses the account, pays a fee, or negotiates a cash advance check, the creditor may consider the account not rejected for purposes of this section.

2. Reactivation of suspended account. If an account is temporarily suspended (for example, because the consumer has exceeded a credit limit, or because a credit card is reported lost or stolen) and then is reactivated, no new initial disclosures are required.

3. Reopening closed account. If an account has been closed (for example, due to inactivity, cancellation, or expiration) and then is reopened, new initial disclosures are required. No new initial disclosures are required, however, when the account is closed merely to assign it a new number (for example, when a credit card is reported lost or stolen) and the new account then continues on the same terms.

4. Converting closed-end to open-end credit. If a closed-end credit transaction is converted to an open-end credit account under a written agreement with the consumer, the initial disclosures under §226.6 must be given before the consumer becomes obligated on the open-end credit plan. (See the commentary to §226.17 on converting open-end credit to closed-end credit.)

5. Balance transfers. A creditor that solicits the transfer by a consumer of outstanding balances from an existing account to a new open-end plan must comply with §226.6 before the balance transfer occurs. Card issuers that are subject to the requirements of §226.5a may establish procedures that comply with both sections in a single disclosure statement.

§(b)(2) Periodic statements.

Paragraph 5(b)(2)(ii).

1. Periodic statements not required. Periodic statements need not be sent in the following cases:

- If the creditor adjusts an account balance so that at the end of the cycle the balance is less than $1—so long as no finance charge has been imposed on the account for that cycle.

- If a statement was returned as undeliverable. If a new address is provided, however, within a reasonable time before the creditor must send a statement, the creditor must resume sending statements. Receiving the address at least 20 days before the end of a cycle would be a reasonable amount of time to prepare the statement for that cycle. For example, if an address is received 22 days before the end of the June cycle, the creditor must send the periodic statement for the June cycle. (See §226.13(a)(7).)

2. Termination of credit privileges. When an open-end account is terminated without being converted to closed-end credit under a written agreement, the creditor must continue to provide periodic statements to those consumers entitled to receive them under §226.5(b)(2)(ii) (for example, when an open-end credit plan ends and consumers are paying off outstanding balances) and must continue to follow all of the other open-end credit requirements and procedures in subpart B.

Paragraph 5(b)(2)(ii).

1. Reasonable procedures. A creditor is not required to determine the specific date on which periodic statements are mailed or delivered to each individual consumer. A creditor complies with §226.5(b)(2)(ii) if it has adopted reasonable procedures designed to ensure that periodic statements are mailed or delivered to consumers no later than a certain number of days after the closing date of the billing cycle and adds that number of days to the 21-day period required by §226.5(b)(2)(ii) when determining the payment due date and the date on which any grace period expires. For example, if a creditor has adopted reasonable procedures designed to ensure that periodic statements are mailed or delivered to consumers no later than three days after the closing date of the billing cycle, the payment due date and the date on which any grace period expires must be no less than 24 days after the closing date of the billing cycle.

2. Treating a payment as late for any purpose. Treating a payment as late for any purpose includes increasing the annual percentage rate as a penalty, reporting the consumer as delinquent to a credit reporting agency, or assessing a late fee or any other fee based on the consumer's failure to make a payment within a specified amount of time or by a specified date. When an account is not eligible or ceases to be eligible for a grace period, imposing a finance charge due to a periodic interest rate does not constitute treating a payment as late for purposes of §226.5(b)(2)(ii).

3. Payment due date. For purposes of §226.5(b)(2)(ii), "payment due date" means the date by which the creditor requires the consumer to make the required minimum periodic payment in order to avoid being treated as late for any purpose, except as set forth in paragraphs i. and ii. below.

i. Courtesy period following payment due date. Although the terms of the account agreement may require that payment be made by a certain date, some creditors provide an additional period of time after that date during which a late payment fee will not be assessed. In some cases, this period is set forth in the account agreement while in others it is provided as an informal policy or
Federal Reserve System

Practice. Regardless, for purposes of §226.5(b)(2)(i), the payment due date is the due date according to the legal obligation between the parties, not the end of the additional period of time. For example, if an account agreement for a home equity plan subject to the requirements of §226.5b provides that payment is due on the first day of the month, a late payment fee will not be assessed if the payment is received by the nineteenth day of the month but, under the creditor’s informal “courtesy” period, a late payment fee will not be assessed if the payment is received by the twentieth day of the month, the payment due date for purposes of §226.5(b)(2)(ii) is the twentieth day of the month.

II. Laws affecting assessment of late payment and other fees. Some state or other laws require that a certain number of days must elapse following a due date before a late payment or other fee may be imposed. For example, assume that the account agreement provides that payment is due on the fifteenth day of the month but, under state law, the creditor is prohibited from assessing a late payment fee until the twenty-sixth day of the month. For purposes of §226.5(b)(2)(ii), the payment due date is the due date according to the legal obligation between the parties (the fifteenth day of the month), not the date before which state law prohibits the imposition of a late payment fee (the twenty-sixth day of the month).

4. Definition of grace period. For purposes of §226.5(b)(2)(ii), “grace period” means a period within which any credit extended may be repaid without incurring a finance charge due to a periodic interest rate. A deferred interest or similar promotional program under which the consumer is not obligated to pay interest that accrues on a balance if that balance is paid in full prior to the expiration of a specified period of time is not a grace period for purposes of §226.5(b)(2)(ii). Similarly, a courtesy period following the payment due date is not a grace period for purposes of §226.5(b)(2)(ii). See comment 5(b)(2)(iii)-3.i.

5. Consumer request to pick up periodic statements. When a consumer initiates a request, the creditor may permit, but may not require, the consumer to pick up periodic statements. If the consumer wishes to pick up a statement, the statement must be made available in accordance with §226.5b(2)(ii).

6. Deferred-payment transactions. See comment 7-3(iv).

5(c) Basis of disclosures and use of estimates. 1. Legal obligation. The disclosures should reflect the credit terms to which the parties are legally bound at the time of giving the disclosures.

• The legal obligation is determined by applicable state or other law.
• The fact that a term or contract may later be deemed unenforceable by a court on the basis of equity or other grounds does not, by itself, mean that disclosures based on that term or contract did not reflect the legal obligation.
• The legal obligation normally is presumed to be contained in the contract that evidences the agreement. But this may be rebutted if another agreement between the parties legally modifies that contract.

2. Estimates—obtaining information. Disclosures may be estimated if the exact information is unknown at the time disclosures are made. Information is unknown if it is not reasonably available to the creditor at the time disclosures are made. The reasonably available standard requires that the creditor, acting in good faith, exercise due diligence in obtaining information. In using estimates, the creditor is not required to disclose the basis for the estimated figures, but may include such explanations as additional information. The creditor normally may rely on the representations of other parties in obtaining information. For example, the creditor might look to insurance companies for the cost of insurance.

3. Estimates—redisclosure. If the creditor makes estimated disclosures, redisclosure is not required for that consumer, even though more accurate information becomes available before the first transaction. For example, in an open-end plan to be secured by real estate, the creditor may estimate the appraisal fees to be charged; such an estimate might reasonably be based on the prevailing market rates for similar appraisals. If the exact appraisal fee is determinable after the estimate is furnished but before the consumer receives the first advance under the plan, no new disclosure is necessary.

4. Deferred payment transactions. See comment 7-3(iv).

§5(d) Multiple creditors; multiple consumers.

1. Multiple creditors. Under §226.5(d):
• Creditors must choose which of them will make the disclosures.
• A single, complete set of disclosures must be provided, rather than partial disclosures from several creditors.
• All disclosures for the open-end credit plan must be given, even if the disclosing creditor would not otherwise have been obligated to make a particular disclosure.
• In some open-end credit programs involving multiple creditors, the consumer has the option (for example, at the end of a billing cycle) to pay creditor A directly or to transfer to creditor B all or part of the amount owing. If the consumer elects the latter option, the consumer no longer is obligated to
Section 226.5a Credit and Charge Card Applications and Solicitations

1. General. Section 226.5a generally requires that credit disclosures be contained in application forms and preapproved solicitations initiated by a card issuer to open a credit or charge card account. (See the commentary to §226.5a(a)(3) and (e) for exceptions; see also §226.2(a)(15) and accompanying commentary for the definition of charge card.)

2. Combining disclosures. The initial disclosures required by §226.6 do not substitute for the disclosures required by §226.5a; however, a card issuer may establish procedures so that a single disclosure statement meets the requirements of both sections. For example, if a card issuer in complying with §226.5a(e)(2) provides all the applicable disclosures required under §226.6, in a form that the consumer may keep and in accordance with the other format and timing requirements for that section, the issuer satisfies the initial disclosure requirements under §226.6 as well as the disclosure requirements of §226.5a(e)(2). Or if, in complying with §226.5a(c) or §226.5a(d)(2), a card issuer provides an integrated document that the consumer may keep, and provides the §226.5a disclosures (in a tabular format) along with the additional disclosures required under §226.6 (presented outside of the table), the card issuer satisfies the requirements of both §§226.5a and 226.6.

5a General Rules

5a(2) Form of Disclosures

1. Clear and conspicuous standard. For purposes of §226.5a disclosures, clear and conspicuous means in a reasonably understandable form and readily noticeable to the consumer. As to type size, disclosures in 12-point type are deemed to be readily noticeable for purposes of §226.5a. Disclosures printed in less than 12-point type do not automatically violate the standard; however, disclosures in less than 8-point type would likely be too small to satisfy the standard. Dislosures that are transmitted by electronic communication are judged for purposes of the clear and conspicuous standard based on the form in which they are provided even though they may be viewed by the consumer in a different form.

2. Prominent location. Generally. Certain of the required disclosures provided on or with an application or solicitation must be prominently located. Disclosures are deemed to be prominently located, for example, if the disclosures are on the same page as an application or solicitation reply form. If the disclosures appear elsewhere, they are deemed to be prominently located if the application or solicitation reply form contains a clear and conspicuous reference to the location of the disclosures and indicates that they contain rate, fee, and other cost information, as applicable. Disclosures required by §226.5a(b) that are placed outside the table must begin on the same page as the table but need not end on the same page.
Federal Reserve System

Pt. 226, Supp. I

II. Electronic disclosures. Electronic disclosures are deemed to be prominently located if:

A. They are posted on a web site and the application or solicitation reply form is linked to the disclosures in a manner that prevents the consumer from by-passing the disclosures before submitting the application or reply form;

B. They are located on the same page as an application or solicitation reply form, that contains a clear and conspicuous reference to the location of the disclosures and indicates that they contain rate, fee, and other cost information, as applicable.

3. Multiple accounts or varying terms. If a tabular format is required to be used, card issuers offering several types of accounts may disclose the various terms for the accounts in a single table or may provide a separate table for each account. Similarly, if rates or other terms vary from state to state, card issuers may list the states and the various disclosures in a single table or in separate tables.

4. Additional information. The table containing the disclosures required by § 226.5a should contain only the information required or permitted by this section. (See the commentary to § 226.5a(b) for guidance on information permitted in the table.) Other credit information may be presented on or with an application or solicitation, provided such information appears outside the required table.

5. Location of certain disclosures. A card issuer has the option of disclosing any of the fees in § 226.5a(b) (8) through (10) in the required table or outside the table.

6. Terminology. In general, § 226.5a(a)(2)(iv) requires that the terminology used for the disclosures specified in § 226.5a(b) be consistent with that used in the disclosures under §§ 226.6 and 226.7. This standard requires that the § 226.5a(b) disclosures be close in meaning to those under §§ 226.6 and 226.7; however, the terminology used need not be identical. In addition, § 226.5a(a)(2)(ii) requires that the headings, content, and format of the tabular disclosures be substantially similar, but need not be identical, to the tables in appendix G. A special rule applies to the grace period disclosure, however: the term grace period must be used, either in the heading or in the text of the disclosure.

7. Deletion of inapplicable disclosures. Generally, disclosures need only be given as applicable. Card issuers may, therefore, delete inapplicable headings and their corresponding boxes in the table. For example, if no transaction fee is imposed for purchases, the disclosure form may contain the heading Transaction fee for purchases and a box showing none, or the heading and box may be deleted from the table. There is an exception for the grace period disclosure, however: even if no grace period exists, that fact must be stated.

8. Form of electronic disclosures provided on or with electronic applications or solicitations. Card issuers must provide the disclosures required by this section on or with a blank application or reply form that is made available to the consumer in electronic form, such as on a card issuer’s Internet Web site. Card issuers have flexibility in satisfying this requirement. Methods card issuers could use to satisfy the requirement include, but are not limited to, the following examples:

i. The disclosures could automatically appear on the screen when the application or reply form appears;

ii. The disclosures could be located on the same Web page as the application or reply form (whether or not they appear on the initial screen), if the application or reply form contains a clear and conspicuous reference to the location of the disclosures and indicates that the disclosures contain rate, fee, and other cost information, as applicable;

iii. Card issuers could provide a link to the electronic disclosures on or with the application (or reply form) as long as consumers cannot bypass the disclosures before submitting the application or reply form. The link would take the consumer to the disclosures, but the consumer need not be required to scroll completely through the disclosures; or

iv. The disclosures could be located on the same web page as the application or reply form without necessarily appearing on the initial screen, immediately preceding the button that the consumer will click to submit the application or reply.

Whatever method is used, a card issuer need not confirm that the consumer has read the disclosures. For disclosures required to be provided in tabular form, card issuers must satisfy the requirements with respect to electronic disclosures set forth in comment Sa(a)(2)–2(ii).

9. Form of disclosures. Whether disclosures must be in electronic form depends upon the following:

i. If a consumer accesses a credit card application or solicitation electronically (other than as described under ii. below), such as online at a home computer, the card issuer must provide the disclosures in electronic form (such as with the application or solicitation on its Web site) in order to meet the requirement to provide disclosures in a timely manner on or with the application or solicitation. If the issuer instead mailed paper disclosures to the consumer, this requirement would not be met.

ii. In contrast, if a consumer is physically present in the card issuer’s office, and accesses a credit card application or solicitation electronically, such as via a terminal or kiosk (or if the consumer uses a terminal or kiosk located on the premises of an affiliate or third party that has arranged with the
card issuer to provide applications or solicitations to consumers), the issuer may provide disclosures in either electronic or paper form, provided the issuer complies with the timing and delivery ("on or with") requirements of the regulation.

§ 226.5a Exceptions
1. Coverage. Certain exceptions to the coverage of § 226.5a are stated in § 226.5a(a)(3); in addition, the requirements of § 226.5a do not apply to the following:
   • Lines of credit accessed solely by account numbers.
   • Addition of a credit or charge card to an existing open-end plan.
2. Noncoverage of consumer initiated requests. Applications provided to a consumer upon request are not covered by § 226.5a, even if the request is made in response to the card issuer's invitation to apply for a card account. To illustrate, if a card issuer invites consumers to call a toll-free number or to return a response card to obtain an application, the application sent in response to the consumer's request need not contain the disclosures required under § 226.5a. Similarly, if the card issuer invites consumers to call and make an oral application on the telephone, § 226.5a does not apply to the application made by the consumer. If, however, the card issuer calls a consumer or initiates a telephone discussion with a consumer about opening a card account and contemporaneously takes an oral application, such applications are subject to § 226.5a, specifically § 226.5a(d).
3. General purpose applications. The requirements of this section do not apply to general purpose applications unless the application, or material accompanying it, indicates that it can be used to open a credit or charge card account.

§ 226.5a(5) Certain Fees that Vary by State
1. Manner of disclosing range. If the card issuer discloses a range of fees instead of disclosing the amount of the fee imposed in each state, the range may be stated as the highest authorized fee.
2. Variable-rate accounts—definition. For purposes of § 226.5a(d), a variable-rate account exists when rate changes are part of the plan and are tied to an index or formula. (See the commentary to § 226.6(a)(2) for examples of variable-rate plans.)
3. Variable-rate accounts—rates in effect. For variable-rate disclosures in direct mail applications and solicitations subject to § 226.5a(c), and in applications and solicitations made available to the general public, the card issuer must provide an annual percentage rate currently applicable when oral disclosures are provided under § 226.5a(d)(1). For the alternate disclosures under § 226.5a(d)(2), the card issuer must provide the annual percentage rate in effect at the time the disclosures are mailed or delivered. A rate in effect also includes the rate as of a specified date (which rate is then updated from time to time, for example, each calendar month) or an estimated rate provided in accordance with § 226.5(c).
4. Variable-rate accounts—other disclosures. In describing how the applicable rate will be determined, the card issuer must identify the index or formula and disclose any margin or spread added to the index or formula in setting the rate. The card issuer may disclose the margin or spread as a range of the highest and lowest margins that may be applicable to the account. A disclosure of any applicable limitations on rate increases or decreases may also be included in the table.
5. Introductory rates—discounted rates. If the initial rate is temporary and is lower than the rate that will apply after the temporary rate expires, the card issuer must disclose the annual percentage rate that would otherwise apply to the account. In a fixed-rate account, the card issuer must disclose the rate that will apply after the introductory rate expires. In a variable-rate account, the card issuer must disclose a rate based on the index or formula and disclose any margin or spread added to the index or formula in setting the rate. The card issuer may disclose the margin or spread as a range of the highest and lowest margins that may be applicable to the account. A disclosure of any applicable limitations on rate increases or decreases may also be included in the table.
6. Introductory rates—premium rates. If the initial rate is temporary and is higher than the permanently applicable rate, the card issuer must disclose the initial rate in the table. The initial rate must be in at least 18-point type unless the issuer also discloses in the table the permanently applicable rate. The issuer may disclose in the table the permanently applicable rate that would otherwise apply if the issuer also discloses the time period during which the initial rate will remain in effect. In that case, the permanently applicable rate must be in at least 18-point type.
7. Increased penalty rates. If the initial rate may increase upon the occurrence of one or
Federal Reserve System

more specific events, such as a late payment or an extension of credit that exceeds the credit limit, the card issuer must disclose in the table the initial rate and the increased penalty rate that may apply. If the penalty rate is based on an index and an increased margin, the issuer must also disclose in the table the index and the margin as well as the specific event or events that may result in the increased rate, such as “applies to accounts 60 days late.” If the penalty rate cannot be determined at the time disclosures are given, the issuer must provide an explanation of the specific event or events that may result in imposing an increased rate. In describing the specific event or events that may result in an increased rate, issuers need not be as detailed as for the disclosures required under §226.6(a)(2). For issuers using a tabular format, the specific event or events must be placed outside the table and an asterisk or other means shall be used to direct the consumer to the additional information. At its option, the issuer may include in the explanation of the penalty rate the period for which the increased rate will remain in effect, such as “until you make three timely payments.” The issuer need not disclose an increased rate that is imposed when credit privileges are permanently terminated.

5a(b)(2) Fees for Issuance or Availability

1. Membership fees. Membership fees for opening an account must be disclosed under this paragraph. A membership fee to join an organization that provides a credit or charge card as a privilege of membership must be disclosed only if the card is issued automatically upon membership. Such a fee need not be disclosed if membership results merely in eligibility to apply for an account.
2. Enhancements. Fees for optional services in addition to basic membership privileges in a credit or charge card account (for example, travel insurance or card-registration services) should not be disclosed in the table if the basic account may be opened without paying such fees.
3. One-time fees. Disclosure of non-periodic fees is limited to fees related to opening the account, such as one-time membership fees. The following are examples of fees that should not be disclosed in the table:
   • Fees for reissuing a lost or stolen card
   • Statement reproduction fees
   • Application fees described in §226.4(c)(1)
4. Waived or reduced fees. If fees required to be disclosed are waived or reduced for a limited time, the introductory fees or the fact of fee waivers may be provided in the table in addition to the required fees if the card issuer also discloses how long the fees or waivers will remain in effect.
5. Fees stated as annual amount. Fees imposed periodically must be stated as an annual total. For example, if a fee is imposed quarterly, the disclosures would state the total amount of the fees for one year. (See, however, the commentary to §226.9(e) with regard to disclosure of such fees in renewal notices.)

5a(b)(4) Transaction Charges

1. Charges imposed by person other than card issuer. Charges imposed by a third party, such as a seller of goods, would not be disclosed under this section; the third party would be responsible for disclosing the charge under §226.9(d)(1).

5a(b)(5) Grace Period

1. How disclosure is made. The card issuer may, but need not, refer to the beginning or ending point of any grace period and briefly state any conditions on the applicability of the grace period. For example, the grace period disclosure might read “30 days” or “30 days from the date of the periodic statement (provided you have paid your previous balance in full by the due date).”

5a(b)(6) Balance Computation Method

1. Form of disclosure. In cases where the card issuer uses a balance calculation method that is identified by name in the regulation, the card issuer may only disclose the name of the method in the table. In cases where the card issuer uses a balance computation method that is not identified by name in the regulation, the disclosure in the table should clearly explain the method in as much detail as set forth in the descriptions of balance methods in section 226.5a(g). The explanation need not be as detailed as that required for the disclosures under §226.6(a)(3). (See the commentary to §226.5a(g) for guidance on particular methods.)
2. Determining the method. In determining the appropriate balance computation method for purchases for disclosure purposes, the card issuer must assume that a purchase balance will exist at the end of any grace period. Thus, for example, if the average daily balance method will include new purchases or cover two billing cycles only if purchase balances are not paid within the grace period, the card issuer would disclose the name of the average daily balance method that includes new purchases or covers two billing cycles, respectively. The card issuer should not assume the existence of a purchase balance, however, in making other disclosures under §226.5a(b).

5a(b)(7) Statement on Charge Card Payments

1. Applicability and content. The disclosure that charges are payable upon receipt of the periodic statement is applicable only to charge card accounts. In making this disclosure, the card issuer may make such modifications as are necessary to more accurately
Pt. 226, Supp. I

12 CFR Ch. II (1–1–10 Edition)

reflect the circumstances of repayment under the account. For example, the disclosure might read, "Charges are due and payable upon receipt of the periodic statement and must be paid no later than 15 days after receipt of such statement."

§ 226.4(c)(2) for additional guidance on late payments. (See the commentary to section 4(a)-5 for a description of such a fee.)

§ 226.5a(b)(10) Over-the-Limit Fee

1. Applicability. The disclosure of fees for a late payment includes only those fees that will be imposed for actual, unanticipated late payments. (See the commentary to §226.4c(2) for additional guidance on late payment fees.)

§ 226.5a(e) Applications and Solicitations Made Available to General Public

1. Coverage. Applications and solicitations made available to the general public include what are commonly referred to as take-one applications typically found at counters in banks and retail establishments, as well as applications contained in catalogs, magazines and other generally available publications. In the case of credit unions, this paragraph applies to applications and solicitations. In the case of credit unions, this paragraph applies to applications and solicitations. In the case of credit unions, this paragraph applies to applications and solicitations.

2. Cross-selling. If a card issuer invites a consumer to apply for a credit or charge card (for example, where the issuer engages in cross-selling), an application provided to the consumer at the consumer's request is not considered an application made available to the general public and therefore is not subject to §226.5a(e). For example, the following are not covered:

• A consumer applies in person for a credit or charge card account at a financial institution and the loan officer invites the consumer to apply for a credit or charge card account; the consumer accepts the invitation.

• An employee of a retail establishment, in the course of processing a sales transaction using a bank credit card, asks a customer if he or she would like to apply for the retailer's credit or charge card; the customer responds affirmatively.
Federal Reserve System

Pt. 226, Supp. I

3. Toll-free telephone number. If a card issuer, in complying with any of the disclosure options of §226.5a(e), provides a toll-free telephone number for consumers to call to obtain credit information, the number must be toll-free for nonlocal calls made from an area code other than the one used in the card issuer’s dialing area. Alternatively, a card issuer may provide any telephone number that allows a consumer to call for information and reverse the telephone charges.

§226.5a(e)(1) Disclosure of Required Credit Information

1. Date of printing. Disclosure of the month and year fulfills the requirement to disclose the date an application was printed.

2. Form of disclosures. The disclosures specified in §226.5a(e)(1)(ii) and (iii) may appear in or outside the table containing the required credit disclosures.

§226.5a(e)(2) Inclusion of Certain Initial Disclosures

1. Accuracy of disclosures. The disclosures required by §226.5a(e)(2) generally must be current as of the time they are made available to the public. Disclosures are considered to be made available at the time they are placed in public locations (in the case of publications).

2. Accuracy—exception. If a card issuer discloses all the information required by §226.5a(e)(1)(ii) on the application or solicitation, the disclosures under §226.5a(e)(2) need only be current as of the date of printing. (A current variable annual percentage rate would be one in effect within 30 days before printing.)

§226.5a(e)(3) No Disclosure of Credit Information

1. When disclosure option available. A card issuer may use this option only if the issuer does not include on or with the application or solicitation any statement that refers to the credit disclosures required by §226.5a(b).

2. Statements required. Statements such as no annual fee, low interest rate, favorable rates, and low costs are deemed to refer to the required credit disclosures and, therefore, may not be included on or with the solicitation or application, if the card issuer chooses to use this option.

§226.5a(e)(4) Prompt Response to Requests for Information

1. Prompt disclosure. Information is promptly disclosed if it is given within 30 days of a consumer’s request. Information may be provided both in a tabular format and in a form that allows the consumer to call the issuer for the information.

2. Information disclosed. When a consumer requests credit information, card issuers need not provide all the required credit disclosures in all instances. For example, if disclosures have been provided in accordance with §226.5a(e)(1) or (2) and a consumer calls or writes a card issuer to obtain information about changes in the disclosures, the issuer need only provide the items of information that have changed from those previously disclosed on or with the application or solicitation. If a consumer requests information about particular items, the card issuer need only provide the requested information. If, however, the card issuer has made disclosures in accordance with the option in §226.5a(e)(3) and a consumer calls or writes the card issuer requesting information about costs, all the required disclosure information must be given.

3. Manner of response. A card issuer’s response to a consumer’s request for credit information may be provided orally or in writing, regardless of the manner in which the consumer’s request is received by the issuer. Furthermore, the card issuer may provide the information listed in either §226.5a(e)(1) or (2). Information provided in writing need not be in a tabular format.

§226.5a(f) Special Charge Card Rule—Card Issuer and Person Extending Credit Not the Same Person

1. Duties of charge card issuer. Although the charge card issuer is not required to disclose information about the underlying open-end credit plan if the card issuer meets the conditions set forth in §226.5a(f), the card issuer must disclose the information relating to the charge card plan itself.

2. Duties of creditor maintaining open-end plan. Section 226.5a does not impose disclosure requirements on the creditor that maintains the underlying open-end credit plan. This is the case even though the creditor offering the open-end credit plan may be considered an agent of the charge card issuer. (See comment 2(a)(7)-1.)

3. Form of disclosures. The disclosures required by §226.5a(f) may appear either in or outside the table containing the required credit disclosures in circumstances where a tabular format is required.

§226.5a(g) Balance Computation Methods Defined

1. Daily balance method. Card issuers using the daily balance method may disclose it using the name average daily balance (including new purchases or average daily balance excluding new purchases), as appropriate. Alternatively, such card issuers may explain the method. (See comment 7(e)-3 for a discussion of the daily balance method.)

2. Two-cycle average daily balance methods. The two-cycle average daily balance methods described in §226.5a(g)(2) (i) and (ii) include those methods in which the average daily balances for two billing cycles may be added together to compute the finance charge. Such methods also include those in which a periodic rate is applied separately to the balances in each cycle, and the resulting finance
The method is a two-cycle average daily balance even if the finance charge is based on both the current and prior cycle balances only under certain circumstances, such as when purchases during a prior cycle were carried over into the current cycle and no finance charge was assessed during the prior cycle. Furthermore, the method is a two-cycle average daily balance method if the balances for both the current and prior cycles are averaged. For example, the name two-cycle average daily balance (excluding new purchases) should be used to describe a method in which the finance charge for the current cycle, figured on an average daily balance excluding new purchases, will be added to the finance charge for the prior cycle, figured on an average daily balance of only new purchases during that prior cycle.

Section 226.5b Requirements for Home Equity Plans

1. Coverage. This section applies to all open-end credit plans secured by the consumer’s dwelling, as defined in §226.2(a)(19), and is not limited to plans secured by the consumer’s principal dwelling. (See the commentary to §226.3a, which discusses whether transactions are consumer or business-purpose credit, for guidance on whether a home equity plan is subject to Regulation Z.)

2. Changes to home equity plans entered into on or after November 7, 1989. Section 226.9(c) applies if, by written agreement under §226.5b(f)(3)(iii), a creditor changes the terms of a home equity plan—entered into on or after November 7, 1989—at or before its scheduled expiration, for example, by renewing a plan on different terms. A new plan results, however, if the plan is renewed (with or without changes to the terms) after the scheduled expiration. The new plan is subject to all open-end credit rules, including §§226.5b, 226.6, and 226.15.

3. Transition rules and renewals of preexisting plans. The requirements of this section do not apply to home equity plans entered into before November 7, 1989. The requirements of this section also do not apply if the original consumer, on or after November 7, 1989, renew a plan entered into prior to that date (with or without changes to the terms). If, on or after November 7, 1989, a security interest in the consumer’s dwelling is added to a line of credit entered into before that date, the substantive restrictions of this section apply for the remainder of the plan, but no new disclosures are required under this section.

4. Disclosure of repayment phase—applicability of requirements. Some plans provide in the initial agreement for a period during which no further draws may be taken and repayment of the amount borrowed is made. All of the applicable disclosures in this section must be given for the repayment phase. Thus, for example, a creditor must provide payment information about the repayment phase as well as about the draw period, as required by §226.5b(d)(5). If the rate that will apply during the repayment phase is fixed at a known amount, the creditor must provide the information in §226.5b(d)(12), as applicable.

5. Payment terms—applicability of closed-end provisions and substantive rules. All payment terms that are provided for in the initial agreement are subject to the requirements of subpart B and not subpart C of the regulation. Payment terms that are subsequently added to the agreement may be subject to subpart B or to subpart C, depending on the circumstances. The following examples apply these general rules to different situations:

   • If the initial agreement provides for a repayment phase or for other payment terms such as options permitting conversion of part or all of the balance to a fixed rate during the draw period, these terms must be disclosed pursuant to §§226.5b and 226.6, and not under subpart C. Furthermore, the creditor must continue to provide periodic statements under §226.7 and comply with other provisions of subpart B (such as the substantive requirements of §226.5b(f)) throughout the plan, including the repayment phase.

   • If the consumer and the creditor enter into an agreement during the draw period to repay all or part of the principal balance on different terms (for example, with a fixed rate of interest) and the amount of available credit will not be replenished as the principal balance is repaid, the creditor must continue to comply with subpart B. For example, the creditor must continue to provide periodic statements and comply with the substantive requirements of §226.5b(f) throughout the plan.

6. Spreader clause. When a creditor holds a mortgage or deed of trust on the consumer’s dwelling and that mortgage or deed of trust contains a spreader clause (also known as a dragnet or cross-collateralization clause), subsequent occurrences such as the opening of an open-end plan are subject to the rules applicable to home equity plans to the same extent.

Section 226.9(c) applies if, by written agreement under §226.5b(f)(3)(iii), a creditor changes the terms of a home equity plan—entered into on or after November 7, 1989—at or before its scheduled expiration, for example, by renewing a plan on different terms. A new plan results, however, if the plan is renewed (with or without changes to the terms) after the scheduled expiration. The new plan is subject to all open-end credit rules, including §§226.5b, 226.6, and 226.15.
Federal Reserve System

Pt. 226, Supp. I

5b(a) Form of Disclosures

5b(a)(1) General

1. Written disclosures. The disclosures required under this section must be clear and conspicuous and in writing, but need not be in a form the consumer can keep. (See the commentary to §226.6(e) for special rules when disclosures required under §226.5b(d) are given in a retailable form.)

2. Disclosure of annual percentage rate—more conspicuous requirement. As provided in §226.5(a)(2), when the term annual percentage rate is required to be disclosed with a number, it must be more conspicuous than other required disclosures.

3. Segregation of disclosures. While most of the disclosures must be grouped together and segregated from all unrelated information, the creditor is permitted to include information that explains or expands on the required disclosures, including, for example:

   • Any prepayment penalty
   • How a substitute index may be chosen
   • Actions the creditor may take short of terminating and accelerating an outstanding balance
   • Renewal terms
   • Rebate of fees

An example of information that does not explain or expand on the required disclosures and thus cannot be included is the creditor’s underwriting criteria, although the creditor could provide such information separately from the required disclosures.

4. Method of providing disclosures. A creditor may provide a single disclosure form for all of its home equity plans, as long as the disclosure describes all aspects of the plans. For example, if the creditor offers several payment options, all such options must be disclosed. (See, however, the commentary to §226.5b(d)(5)(iii) and (d)(12) (x) and (xi) for disclosure requirements relating to these provisions.) If any aspects of a plan are linked together, the creditor must disclose clearly the relationship of the terms to each other. For example, if the consumer can only obtain a particular payment option in conjunction with a certain variable-rate feature, this fact must be disclosed. A creditor has the option of providing separate disclosure forms for multiple options or variations in features. For example, a creditor that offers different payment options for the two payment options. A creditor using this alternative, however, must include a statement on each disclosure form that the consumer should ask about the creditor’s other home equity programs. (This disclosure is required only for those programs available generally to the public. Thus, if the only other programs available are employee preferred-rate plans, for example, the creditor would not have to provide this statement.) A creditor that receives a request for information about other available programs must provide the additional disclosures as soon as reasonably possible.

5. Form of electronic disclosures provided on or with electronic applications. Creditors must provide the disclosures required by this section (including the brochure) on or with a blank application that is made available to the consumer in electronic form, such as on a creditor’s Internet Web site. Creditors have flexibility in satisfying this requirement. Methods creditors could use to satisfy the requirement include, but are not limited to, the following examples:

   i. The disclosures could automatically appear on the screen when the application appears;
   
   ii. The disclosures could be located on the same web page as the application (whether or not they appear on the initial screen), if the application contains a clear and conspicuous reference to the location of the disclosures and indicates that the disclosures contain rate, fee, and other cost information, as applicable;
   
   iii. Creditors could provide a link to the electronic disclosures on or with the application as long as consumers cannot bypass the disclosures before submitting the application. The link would take the consumer to the disclosures, but the consumer need not be required to scroll completely through the disclosures; or
   
   iv. The disclosures could be located on the same web page as the application without necessarily appearing on the initial screen, immediately preceding the button that the consumer will click to submit the application.

Whatever method is used, a creditor need not confirm that the consumer has read the disclosures.

5b(a)(2) Precedence of Certain Disclosures

1. Precedence rule. The list of conditions provided at the creditor’s option under §226.5(d)(4)(ii) need not precede the other disclosures.

Paragraph 5b(a)(3)

1. Form of disclosures. Whether disclosures must be in electronic form depends upon the following:

   i. If a consumer accesses a home equity credit line application electronically (other than as described under ii. below), such as online at a home computer, the creditor must provide the disclosures in electronic form (such as with the application form on
1. Mail and telephone applications. If the creditor sends applications through the mail, the disclosures and a brochure must accompany the application. If an application is taken over the telephone, the disclosures and brochure may be delivered or mailed within three business days of taking the application. If an application is mailed to the consumer following a telephone request, however, the creditor also must send the disclosures and a brochure along with the application.

2. General purpose applications. The disclosures and a brochure need not be provided when a general purpose application is given to a consumer unless (1) the application or materials accompanying it indicate that it can be used to apply for a home equity plan or (2) the application is provided in response to a consumer’s specific inquiry about a home equity plan. On the other hand, if a general purpose application is provided in response to a consumer’s specific inquiry only about credit other than a home equity plan, the disclosures and brochure need not be provided even if the application indicates it can be used for a home equity plan, unless it is accompanied by promotional information about home equity plans.

3. Publicly-available applications. Some creditors make applications for home equity plans, such as take-ones, available without the need for a consumer to request them. These applications must be accompanied by the disclosures and a brochure, such as by attaching the disclosures and brochure to the application form.

4. Response cards. A creditor may solicit consumers for its home equity plan by mailing a response card which the consumer returns to the creditor to indicate interest in the plan. If the only action taken by the creditor upon receipt of the response card is to send the consumer an application form or to telephone the consumer to discuss the plan, the creditor need not send the disclosures and brochure with the response card.

5. Denial or withdrawal of application. In situations where footnote 10a permits the creditor a three-day delay in providing disclosures and the brochure, if the creditor determines within that period that an application will not be approved, the creditor need not provide the consumer with the disclosures or brochure. Similarly, if the consumer withdraws the application within this three-day period, the creditor need not provide the disclosures or brochure.

6. Intermediary agent or broker. In determining whether or not an application involves an intermediary agent or broker as discussed in footnote 10b, creditors should consult the provisions in comment 19(b)-3.

5b(c) Duties of Third Parties

1. Disclosure requirements. Although third parties who give applications to consumers for home equity plans must provide the brochure required under §226.5b(e) in all cases, such persons need provide the disclosures required under §226.5b(d) only in certain instances. A third party has no duty to obtain disclosures about a creditor’s home equity plan or to create a set of disclosures based on what it knows about a creditor’s plan. If, however, a creditor provides the third party with disclosures along with its application form, the third party must give the disclosures to the consumer with the application form. The duties under this section are those of the third party; the creditor is not responsible for ensuring that a third party complies with those obligations. If an intermediary agent or broker takes an application over the telephone or receives an application contained in a magazine or other publication, footnote 10a permits that person to mail the disclosures and brochure within three business days of receipt of the application. (See the commentary to §226.5b(h) about imposition of nonrefundable fees.)

5b(d) Content of Disclosures

1. Disclosures given as applicable. The disclosures required under this section need be made only as applicable. Thus, for example, if negative amortization cannot occur in a home equity plan, a reference to it need not be made.

2. Duty to respond to requests for information. If the consumer, prior to the opening of a plan, requests information as suggested in the disclosures (such as the current index value or margin), the creditor must provide this information as soon as reasonably possible after the request.

5b(d)(1) Retention of information

1. When disclosure not required. The creditor need not disclose that the consumer should
Federal Reserve System

make or otherwise retain a copy of the disclosures if they are retainable—for example, if the disclosures are not part of an application that must be returned to the creditor to apply for the plan.

5b(d)(2) Conditions for Disclosed Terms

Paragraph 5b(d)(2)(i)

1. Guaranteed terms. The requirement that the creditor disclose the time by which an application must be submitted to obtain the disclosed terms does not require the creditor to guarantee any terms. If a creditor chooses not to guarantee any terms, it must disclose that all of the terms are subject to change prior to opening the plan. The creditor also is permitted to guarantee some terms and not others, but must indicate which terms are subject to change.

2. Date for obtaining disclosed terms. The creditor may disclose either a specific date or a time period for obtaining the disclosed terms. If the creditor discloses a time period, the consumer must be able to determine from the disclosure the specific date by which an application must be submitted to obtain any guaranteed terms. For example, the disclosure might read, ``To obtain the guaranteed terms, you must submit your application within 60 days after the date appearing on this disclosure,'' provided the disclosure form also shows the date.

Paragraph 5b(d)(2)(ii)

1. Relation to other provisions. Creditors should consult the rules in §226.5b(g) regarding refund of fees.

5b(d)(4) Possible Actions by Creditor

Paragraph 5b(d)(4)(i)

1. Fees imposed upon termination. This disclosure applies only to fees (such as penalty or prepayment fees) that the creditor imposes if it terminates the plan prior to normal expiration. The disclosure does not apply to fees that are imposed either when the plan expires in accordance with the agreement or if the consumer terminates the plan prior to its scheduled maturity. In addition, the disclosure does not apply to fees associated with collection of the debt, such as attorneys fees and court costs, or to increases in the annual percentage rate linked to the consumer’s failure to make payments. The actual amount of the fee need not be disclosed.

2. Changes specified in the initial agreement. If changes may occur pursuant to §226.5b(f)(3)(i), a creditor must state that certain changes will be implemented as specified in the initial agreement.

Paragraph 5b(d)(4)(ii)

1. Disclosure of conditions. In making this disclosure, the creditor may provide a highlighted copy of the document that contains such information, such as the contract or security agreement. The relevant items must be distinguished from the other information contained in the document. For example, the creditor may provide a cover sheet that specifically points out which contract provisions contain the information, or may mark the relevant items on the document itself. As an alternative to disclosing the conditions in this manner, the creditor may simply describe the conditions using the language in §§226.5b(f)(2)(i)—(iii), 226.5b(f)(3)(i) (regarding freezing the line when the maximum annual percentage rate is reached), and 226.5b(f)(3)(vi) or language that is substantially similar. The condition contained in §226.5b(f)(2)(iv) need not be stated. In describing specified changes that may be implemented during the plan, the creditor may provide a disclosure such as “Our agreement permits us to make certain changes to the terms of the line at specified times or upon the occurrence of specified events.”

2. Form of disclosure. The list of conditions under §226.5b(d)(4)(iii) may appear with the segregated disclosures or apart from them. If the creditor elects to provide the list of conditions with the segregated disclosures, the list need not comply with the precedence rule in §226.5b(a)(2).

5b(d)(5) Payment Terms

Paragraph 5b(d)(5)(i)

1. Length of the plan. The combined length of the draw period and any repayment period need not be stated. If the length of the repayment phase cannot be determined because, for example, it depends on the balance outstanding at the beginning of the repayment period, the creditor must state that the length is determined by the size of the balance. If the length of the plan is indefinite (for example, because there is no time limit on the period during which the consumer can take advances), the creditor must state that fact.

2. Renewal provisions. If, under the credit agreement, a creditor retains the right to review a line at the end of the specified draw period and determine whether to renew or extend the draw period of the plan, the possibility of renewal or extension—regardless of its likelihood—should be ignored for purposes of the disclosures. For example, if an agreement provides that the draw period is five years and that the creditor may renew the draw period for an additional five years, the possibility of renewal should be ignored and the draw period should be considered five years. (See the commentary accompanying
§226.9(c)(1) dealing with change in terms requirements."

Paragraph 5b(d)(5)(iii)

1. Determination of the minimum periodic payment. This disclosure must reflect how the minimum periodic payment is determined, but need only describe the principal and interest components of the payment. Other charges that may be part of the payment (as well as the balance computation method) may, but need not, be described under this provision.

2. Fixed rate and term payment options during draw period. If the home equity plan permits the consumer to repay all or part of the balance during the draw period at a fixed rate (rather than a variable rate) and over a specified time period, this feature must be disclosed. To illustrate, a variable-rate plan may permit a consumer to elect during a ten-year draw period to repay all or a portion of the balance over a three-year period at a fixed rate. The creditor must disclose the rules relating to this feature including the period during which the option can be selected, the length of time over which repayment can occur, any fees imposed for such a feature, and the specific rate or a description of the index and margin that will apply upon exercise of this choice. For example, the index and margin disclosure might state: "If you choose to convert any portion of your balance to a fixed rate, the rate will be the highest prime rate published in the 'Wall Street Journal' that is in effect at the date of conversion plus a margin." If the fixed rate is determined according to an index, it must be one that is outside the creditor's control and is publicly available in accordance with §226.5b(f)(1). The effect of exercising this option should not be reflected elsewhere in the disclosures, such as in the historical example required in §226.5b(d)(12)(xi). The example should reflect the payment comprised only of principal and interest. Creditors may provide an additional example reflecting other charges that may be included in the payment, such as credit insurance premiums. Creditors may assume that all months have an equal number of days, that payments are collected in whole cents, and that payments will fall on a business day even though they may be due on a non-business day. For variable-rate plans, the example must be based on the last rate in the historical example required in §226.5b(d)(12)(xi), or a more recent rate. In cases where the last rate shown in the historical example is different from the index value and margin (for example, due to a rate cap), creditors should calculate the rate by using the index value and margin. A discounted rate may not be considered a more recent rate in calculating this payment example for either variable- or fixed-rate plans.

2. Representative examples. In plans where multiple payment options within the draw period or within any repayment period, the creditor may provide representative examples as an alternative to providing examples for each payment option. The creditor may elect to provide representative payment examples based on three categories of payment options. The first category consists of plans that permit minimum payment of only accrued finance charges (interest only plans). The second category includes plans in which a fixed percentage or a fixed fraction of the outstanding balance or credit limit (for example, 2% of the balance or 1/36 of the balance) is used to determine the minimum payment. The third category includes all other types of minimum payment options, such as a specified dollar amount plus any accrued finance charges. Creditors may classify their minimum payment arrangements
within one of these three categories even if other features exist, such as varying lengths of a draw or repayment period, required pay-ment of past due amounts, late charges, and minimum payments. Creditors may use a single example within each category to represent the payment options in that category. For example, if a creditor permits advances for a fixed period only, the creditor must assume the full amount will be withdrawn plus accrued interest, although the payment may be made in smaller amounts as required by the terms of the plan. Creditors must provide a full narrative description of all payment options under §226.5b(d)(5) only with respect to the payment example required under paragraph (d)(5)(i). Creditors must provide a representative example for making those disbursements, and the example used to represent a category must use the same example for purposes of the disclosures under §226.5b (d)(5)(iii) and (d)(12) (x) and (xi). Creditors may use representative examples under §226.5b(d)(5) only with respect to the payment example required under paragraph (d)(5)(iii). Creditors must provide a full narrative description of all payment options under §226.5b(d)(5) (i) and (iii).

3. Examples for draw and repayment periods. Separate examples must be given for the draw and repayment periods unless the payments are determined the same way during both periods. In setting forth payment examples for a repayment period under this sec- tion (and the historical example under §226.5b(d)(12)(xi)), creditors should assume a $10,000 advance is taken at the beginning of the draw period and is reduced according to the terms of the plan. Creditors should not assume an additional advance is taken at any time, including at the beginning of any repayment period.

4. Reverse mortgages. Reverse mortgages, also known as reverse annuity or home eq- uity conversion mortgages, in addition to permitting the consumer to obtain advances, may involve the disbursement of monthly advances to the consumer for a fixed period or until the occurrence of an event such as the consumer’s death. Repayment of the re-verse mortgage (generally a single payment of principal and accrued interest) may be re-quired to be made at the end of the disburse-ments or, for example, upon the death of the consumer. In disclosing these plans, credit-ors must apply the following rules, as applic-able:

• If the reverse mortgage has a specified period for advances or disbursements but repayment is due only upon occurrence of a future event such as the death of the con-sumer, the creditor must assume that dis-bursements will be made until they are scheduled to end. The creditor must assume repayment will occur when disbursements end (or within a period following the final disbursement which is not longer than the regular interval between disbursements). This assumption should be used even though repayment may occur before or after the disbursements are scheduled to end. The creditor must assume the full outstanding balance, it may pick one of these four options and provide the example required under §226.5b(d)(5)(ii) for that op-tion alone.

The example used to represent a category must be an option commonly chosen by con-sumers, or a typical or representative exam-ple. (See the commentary to §226.5b(d)(12) (x) and (xi) for a discussion of the use of rep-representative examples for making those dis-closures. Creditors using a representative ex-ample within each category must use the same example for purposes of the disclosures under §226.5b (d)(5)(iii) and (d)(12) (x) and (xi). Creditors may use representative examples under §226.5b(d)(5) only with respect to the payment example required under para-graph (d)(5)(iii). Creditors must provide a full narrative description of all payment options under §226.5b(d)(5) (i) and (iii).

1. Preferred-rate plans. If a creditor offers a preferential fixed-rate plan in which the rate will increase a specified amount upon the oc-currence of a specified event, the creditor...
must disclose the specific amount the rate will increase.

§ 226.5b(d)(7) Fees imposed by Creditor

1. Applicability. The fees referred to in §226.5b(d)(7) include items such as application fees, points, annual fees, transaction fees, fees to obtain checks to access the plan, and fees imposed for converting to a repayment phase that is provided for in the original agreement. This disclosure includes any fees that are imposed by the creditor to use or maintain the plan, whether the fees are kept by the creditor or a third party. For example, if a creditor requires an annual credit report on the consumer and requires the consumer to pay this fee to the creditor or directly to the third party, the fee must be specifically stated. Third party fees to open the plan that are initially paid by the consumer to the creditor may be included in this disclosure or in the disclosure under §226.5b(d)(8).

2. Manner of describing fees. Charges may be stated as an estimated dollar amount for each fee, or as a percentage of a typical or representative amount of credit. The creditor may provide a stepped fee schedule in which a fee will increase a specified amount at a specified date. (See the discussion contained in the commentary to §226.5b(f)(3)(i).)

3. Fees not required to be disclosed. Fees that are not imposed to open, use, or maintain a plan, such as fees for researching an account, photocopying, paying late, stopping payment, having a check returned, exceeding the credit limit, or closing out an account do not have to be disclosed under this section.

Credit report and appraisal fees imposed to investigate whether a condition permitting a release a security interest. Fees to be disclosed under §226.5b(d)(8) for fees imposed by third parties under §226.5b(d)(8).

4. Rebates of closing costs. If closing costs are imposed they must be disclosed, regardless of whether such costs may be rebated later (for example, rebated to the extent of any interest paid during the first year of the plan).

5. Terms used in disclosure. Creditors need not use the terms finance charge or other charge in describing the fees imposed by the creditor under this section or those imposed by third parties under §226.5b(d)(8).

§ 226.5b(d)(8) Fees imposed by Third Parties to Open a Plan

1. Applicability. Section 226.5b(d)(8) applies only to fees imposed by third parties to open the plan. Thus, for example, this section does not require disclosure of a fee imposed by a government agency at the end of a plan to release a security interest. Fees to be disclosed include appraisal, credit report, government agency, and attorneys fees. In cases where property insurance is required by the creditor, the creditor either may disclose the amount of the premium or may state that property insurance is required. For example, the disclosure might state, "You must carry insurance on the property that secures this plan."

2. Itemization of third-party fees. In all cases creditors must state the total of third-party fees as a single dollar amount or a range except that the total need not include costs for property insurance if the creditor discloses that such insurance is required. A creditor has two options with regard to providing the more detailed information about third party fees. Creditors may provide a statement that the consumer may request more specific cost information about third party fees from the creditor. As an alternative to including this statement, creditors may provide an itemization of such fees (by type and amount) with the early disclosures. Any itemization provided upon the consumer’s request need not include a disclosure about property insurance.

3. Manner of describing fees. A good faith estimate of the amount of fees must be provided. Creditors may provide, based on a typical or representative amount of credit, a range for such fees or state the dollar amount of such fees. Fees may be expressed on a unit cost basis, for example, $5 per $1,000 of credit.

4. Rebates of third party fees. Even if fees imposed by third parties may be rebated, they must be disclosed. (See the commentary to §226.5b(d)(7).)

§ 226.5b(d)(9) Negative Amortization

1. Disclosure required. In transactions where the minimum payment will not or may not be sufficient to cover the interest that accrues on the outstanding balance, the creditor must disclose that negative amortization will or may occur. This disclosure is required whether or not the unpaid interest is added to the outstanding balance upon which interest is computed. A disclosure is not required merely because a loan calls for non-amortizing or partially amortizing payments.

§ 226.5b(d)(10) Transaction Requirements

1. Applicability. A limitation on automated teller machine usage need not be disclosed under this paragraph unless that is the only means by which the consumer can obtain funds.

§ 226.5b(d)(12) Disclosures for Variable-Rate Plans

Paragraph 5b(d)(12)(iv)
1. Determination of annual percentage rate. If the creditor adjusts its index through the addition of a margin, the disclosure might read, "Your annual percentage rate is based on the index plus a margin." The creditor is not required to disclose a specific value for the margin.

Paragraph 5b(d)(12)(viii)
1. Preferred-rate provisions. This paragraph requires disclosure of preferred-rate provisions, where the rate will increase upon the occurrence of some event, such as the borrower-employee leaving the creditor’s employ or the consumer closing an existing deposit account with the creditor.

2. Provisions on conversion to fixed rates. The creditor may disclose the rate limitations for options permitting the consumer to convert from a variable rate to a fixed rate.

Paragraph 5b(d)(12)(ix)
1. Periodic limitations on increases in rates. The creditor must disclose any annual limitations on increases in the annual percentage rate. If the creditor bases its rate limitation on 12 monthly billing cycles, such a limitation should be treated as an annual cap. Rate limitations imposed on less than an annual basis must be stated in terms of a specific amount of time. For example, if the creditor imposes rate limitations on only a semiannual basis, this must be expressed as a rate limitation for a six-month time period. If the creditor does not impose periodic limitations (annual or shorter) on rate increases, the fact that there are no annual rate limitations must be stated.

2. Maximum limitations on increases in rates. The maximum annual percentage rate that may be imposed under each payment option over the term of the plan (including the draw period and any repayment period provided for in the initial agreement) must be provided. The creditor may disclose this rate as a specific number (for example, 18%) or as a specific amount above the initial rate. For example, this disclosure might read, "The maximum annual percentage rate that can apply to your line will be 5 percentage points above your initial rate." If the creditor states the maximum rate as a specific amount above the initial rate, the creditor must include a statement that the consumer should inquire about the rate limitations that are currently available. If an initial discount is not taken into account in applying maximum rate limitations, that fact must be disclosed. If separate overall limitations apply to rate increases resulting from events such as the exercise of a fixed-rate conversion option or leaving the creditor’s employ, those limitations also must be stated. Limitations do not include legal limits in the nature of usury or rate ceilings under state or federal statutes or regulations.

3. Form of disclosures. The creditor need not disclose each periodic or maximum rate limitation that is currently available. Instead, the creditor may disclose the range of the lowest and highest periodic and maximum rate limitations that may be applicable to the creditor’s home equity plan. Creditors using this alternative must include a statement that the consumer should inquire about the rate limitations that are currently available.

Paragraph 5b(d)(12)(x)
1. Maximum rate payment example. In calculating the payment creditors should assume the maximum rate is in effect. Any discounted or premium initial rates or periodic rate limitations should be ignored for purposes of this disclosure. If a range is used to disclose the maximum cap under §226.5b(d)(12)(ix), the highest rate in the range must be used for the disclosure under this paragraph. As an alternative to making disclosures based on each payment option, the creditor may choose a representative example within the three categories of payment options upon which to base this disclosure. (See the commentary to §226.5b(d)(5).) However, separate examples must be provided for the draw period and for any repayment period unless the payment is determined the same way in both periods. Creditors should calculate the example for the repayment period based on an assumed $10,000 balance. (See the commentary to §226.5b(d)(5) for a discussion of the circumstances in which a creditor may use a lower outstanding balance.)

2. Time the maximum rate could be reached. In stating the date or time when the maximum rate could be reached, creditors should assume the rate increases as rapidly as possible under the plan. In calculating the date or time, creditors should factor in any discounted or premium initial rates and periodic rate limitations. This disclosure must be provided for the draw period and any repayment phase. Creditors should assume the index and margin shown in the last year of the historical example (or a more recent rate) is in effect at the beginning of each phase.

Paragraph 5b(d)(12)(xi)
1. Index movement. Index values and annual percentage rates must be shown for the entire 15 years of the historical example and must be based on the most recent 15 years. The example must be updated annually to reflect the most recent 15 years of index values as soon as reasonably possible after the new index value becomes available. If the values for an index have not been available for 15 years, a creditor need only go back as far as
the values have been available and may start the historical example at the year for which values are first available.

2. Selection of index values. The historical example must reflect the method of choosing index values for the plan. For example, if an average of index values is used in the plan, averages must be used in the example, but if an index value as of a particular date is used, a single index value must be shown. The creditor is required to assume one date (or one period, if an average is used) within a year on which to base the history of index values. The creditor may choose to use index values as of any date or period as long as the index value as of this date or period is used for each year in the example. Only one index value per year need be shown, even if the plan provides for adjustments to the annual percentage rate or payment more than once in a year. In such cases, the creditor can assume that the index rate remained constant for the full year for the purpose of calculating the annual percentage rate and payment.

3. Selection of margin. A value for the margin must be assumed in order to prepare the example. A creditor may select a representative margin that it has used with the index during the six months preceding preparation of the disclosures and state that the margin is one that it has used recently. The margin selected may be used until the creditor annually updates the disclosure form to reflect the most recent 15 years of index values.

4. Amount of discount or premium. In reflecting any discounted or premium initial rate, the creditor may select a discount or premium that it has used during the six months preceding preparation of the disclosures, and should disclose that the discount or premium is one that the creditor has used recently. The discount or premium should be reflected in the example for as long as it is in effect. The creditor may assume that a discount or premium that would have been in effect for any part of a year was in effect for the full year for purposes of reflecting it in the historical example.

5. Rate limitations. Limitations on both periodic and maximum rates must be reflected in the historical example. If ranges of rate limitations are provided under §226.5b(d)(12)(ix), the highest rates provided in those ranges must be used in the example. Rate limitations that may apply more often than annually should be treated as if they were annual limitations. For example, if a creditor imposes a 3% cap every six months, this should be reflected in the example as if it were a 2% annual cap.

6. Assumed advances. The creditor should assume that the $10,000 balance is an advance taken at the beginning of the first billing cycle and is reduced according to the terms of the plan, and that the consumer takes no subsequent draws. As discussed in the commentary to §226.5b(d)(5), creditors should not assume an additional advance is taken at the beginning of any repayment period. If applicable, the creditor may assume the $10,000 is both the advance and the credit limit. (See the commentary to §226.5b(d)(5) for a discussion of the circumstances in which a creditor may use a lower outstanding balance.)

7. Representative payment options. The creditor need not provide an historical example for all of its various payment options, but may select a representative payment option within each of the three categories of payments upon which to base its disclosure. (See the commentary to §226.5b(d)(5).)

8. Payment information. The payment figures in the historical example must reflect all significant program terms. For example, features such as rate and payment caps, a discounted initial rate, negative amortization, and rate carryover must be taken into account in calculating the payment figures if these would have applied to the plan. The historical example should include payments for as much of the length of the plan as would occur during a 15-year period. For example:

- If the draw period is 10 years and the repayment period is 15 years, the example should illustrate the entire 10-year draw period and the first 5 years of the repayment period.

- If the length of the draw period is 15 years and there is a 15-year repayment phase, the historical example must reflect the payments for the 15-year draw period and would not show any of the repayment period. No additional historical example would be required to reflect payments for the repayment period.

- If the length of the plan is less than 15 years, payments in the historical example need only be shown for the number of years in the term. In such cases, however, the creditor must show the index values, margin and annual percentage rates and continue to reflect all significant plan terms such as rate limitations for the entire 15 years.

A creditor need show only a single payment per year in the example, even though payments may vary during a year. The calculations should be based on the actual payment computation formula, although the creditor may assume that all months have an equal number of days. The creditor may assume that payments are made on the last day of the billing cycle, the billing date or the payment due date, but must be consistent in the manner in which the period used to illustrate payment information is selected. Information about balloon payments and remaining balance may, but need not, be reflected in the example.

9. Disclosures for repayment period. The historical example must reflect all features of
the repayment period, including the appropriate value, margin, rate limitations, length of the repayment period, and payments. For example, if different indices are used during the draw and repayment periods, the index values for that portion of the 15 years that reflect the repayment period must be the values for the appropriate index.

10. Reverse mortgages. The historical example for reverse mortgages should reflect 15 years of value and annual percentage rates, but the payment column should be blank until the year that the single payment will be made, assuming that payment is estimated to occur within 15 years. (See the commentary to §226.5b(d)(5) for a discussion of reverse mortgages.)

5b(e) Brochure

1. Substitutes. A brochure is a suitable substitute for the Board’s home equity brochure if it is, at a minimum, comparable to the Board’s brochure in substance and comprehensiveness. Creditors are permitted to provide more detailed information than is contained in the Board’s brochure.

2. Effect of third party delivery of brochure. If a creditor determines that a third party has provided a consumer with the required brochure pursuant to §226.5b(c), the creditor need not give the consumer a second brochure.

5b(f) Limitations on Home Equity Plans

1. Coverage. Section 226.5b(f) limits both actions that may be taken and language that may be included in contracts, and applies to any assignee or holder as well as to the original creditor. The limitations apply to the draw period and any repayment period, and to any renewal or modification of the original agreement.

   Paragraph 5b(f)(1)

   1. External index. A creditor may change the annual percentage rate for a plan only if the change is based on an index outside the creditor’s control. Thus, a creditor may not make rate changes based on its own prime rate or cost of funds and may not reserve a contractual right to change rates at its discretion. A creditor is permitted, however, to use a published prime rate, such as that in the Wall Street Journal, even if the bank’s own prime rate is one of several rates used to establish the published rate.

   2. Publicly available. The index must be available to the public. A publicly available index need not be published in a newspaper, but it must be one the consumer can independently obtain (by telephone, for example) and use to verify rates imposed under the plan.

   3. Provisions not prohibited. This paragraph does not prohibit rate changes that are specifically set forth in the agreement. For example, stepped-rate plans, in which specified rates are imposed for specified periods, are permissible. In addition, preferred-rate provisions, in which the rate increases by a specified amount upon the occurrence of a specified event, also are permissible.

   Paragraph 5b(f)(2)

   1. Limitations on termination and acceleration. In general, creditors are prohibited from terminating and accelerating payment of the outstanding balance before the scheduled expiration of a plan. However, creditors may take these actions in the four circumstances specified in §226.5b(f)(2). Creditors are not permitted to specify in their contracts any other events that allow termination and acceleration beyond those permitted by the regulation. Thus, for example, an agreement may not provide that the balance is payable on demand nor may it provide that the account will be terminated and the balance accelerated if the rate cap is reached.

   2. Other actions permitted. If an event permitting termination and acceleration occurs, a creditor may instead take actions short of terminating and accelerating. For example, a creditor could temporarily or permanently suspend further advances, reduce the credit limit, change the payment terms, or require the consumer to pay a fee. A creditor also may provide in its agreement that a higher rate or higher fees will apply in circumstances under which it would otherwise be permitted to terminate the plan and accelerate the balance. A creditor that does not immediately terminate an account and accelerate payment or take another permitted action may take such action at a later time, provided one of the conditions permitting termination and acceleration exists at that time.

   Paragraph 5b(f)(2)(i)

   1. Fraud or material misrepresentation. A creditor may terminate a plan and accelerate the balance if there has been fraud or material misrepresentation by the consumer in connection with the plan. This exception includes fraud or misrepresentation at any time, either during the application process or during the draw period and any repayment period. What constitutes fraud or misrepresentation is determined by applicable state law and may include acts of omission as well as overt acts, as long as any necessary intent on the part of the consumer exists.

   Paragraph 5b(f)(2)(ii)

   1. Failure to meet repayment terms. A creditor may terminate a plan and accelerate the balance when the consumer fails to meet the repayment terms provided for in the agreement. However, a creditor may terminate
and accelerate under this provision only if the consumer actually fails to make payments. For example, a creditor may not terminate and accelerate if the consumer, in error, sends a payment to the wrong location, such as a branch rather than the main office of the creditor. If a consumer files for or is placed in bankruptcy, the creditor may terminate and accelerate under this provision if the consumer fails to meet the repayment terms of the agreement. This section does not override any state or other law that requires a right-to-cure notice, or otherwise places a duty on the creditor before it can terminate a plan and accelerate the balance.

Paragraph 5b(f)(2)(iii)

1. Impairment of security. A creditor may terminate a plan and accelerate the balance if the consumer’s action or inaction adversely affects the creditor’s security for the plan, or any right of the creditor in that security. Action or inaction by third parties does not, in itself, permit the creditor to terminate and accelerate.

2. Examples. A creditor may terminate and accelerate, for example, if:
   - The consumer transfers title to the property or sells the property without the permission of the creditor
   - The consumer fails to maintain required insurance on the dwelling
   - The consumer fails to pay taxes on the property
   - The consumer permits the filing of a lien senior to that held by the creditor
   - The sole consumer obligated on the plan dies
   - The property is taken through eminent domain
   - A prior lienholder forecloses

By contrast, the filing of a judgment against the consumer would permit termination and acceleration only if the amount of the judgment and collateral subject to the judgment is such that the creditor’s security is adversely affected. If the consumer commits waste or otherwise destructively uses or fails to maintain the property such that the action adversely affects the security, the plan may be terminated and the balance accelerated. Illegal use of the property by the consumer would permit termination and acceleration if it subjects the property to seizure. If one of two consumers obligated on a plan dies the creditor may terminate the plan and accelerate the balance if the security is adversely affected. If the consumer moves out of the dwelling that secures the plan and that action adversely affects the security, the creditor may terminate a plan and accelerate the balance.

Paragraph 5b(f)(3)

1. Scope of provision. In general, a creditor may not change the terms of a plan after it is opened. For example, a creditor may not increase any fee or impose a new fee once the plan has been opened, even if the fee is charged by a third party, such as a credit reporting agency, for a service. The change of terms prohibition applies to all features of a plan, not only those required to be disclosed under this section. For example, this provision applies to charges imposed for late payment, although this fee is not required to be disclosed under § 226.5b(d)(7).

2. Charges not covered. There are three charges not covered by this provision. A creditor may pass on increases in taxes since such charges are imposed by a governmental body and are beyond the control of the creditor. In addition, a creditor may pass on increases in premiums for property insurance that are excluded from the finance charge under § 226.4(d)(2), since such insurance provides a benefit to the consumer independent of the use of the line and is often maintained notwithstanding the line. A creditor also may pass on increases in premiums for credit insurance that are excluded from the finance charge under § 226.4(d)(1), since the insurance is voluntary and provides a benefit to the consumer.

Paragraph 5b(f)(3)(i)

1. Changes provided for in agreement. A creditor may provide in the initial agreement that further advances will be prohibited or the credit line reduced during any period in which the maximum annual percentage rate is reached. A creditor also may provide for other specific changes to take place upon the occurrence of specific events. Both the triggering event and the resulting modification must be stated with specificity. For example, in home equity plans for employees, the agreement could provide that a specified higher rate or margin will apply if the borrower’s employment with the creditor ends. A contract could contain a stepped-rate or stepped-fee schedule providing for specified changes in the rate or the fees on certain dates or after a specified period of time. A creditor also may provide in the initial agreement that it will be entitled to a share of the appreciation in the value of the property as long as the specific appreciation share and the specific circumstances which require the payment of it are set forth. A contract may permit a consumer to switch among minimum payment options during the plan.

2. Prohibited provisions. A creditor may not include a general provision in its agreement permitting changes to any or all of the terms of the plan. For example, creditors may not include “boilerplate” language in the agreement stating that they reserve the right to change the fees imposed under the plan. In addition, a creditor may not include any “triggering events” or responses that the
regulation expressly addresses in a manner different from that provided in the regulation. For example, an agreement may not provide that the margin in a variable-rate plan will increase if there is a material change in the consumer’s financial circumstances, because the regulation specifies that temporarily freezing the line or lowering the credit limit is the permissible response to a material change in the consumer’s financial circumstances. Similarly a contract cannot contain a provision allowing the creditor to freeze a line due to an insignificant decline in property value since the regulation allows that response only for a significant decline.

Paragraph 5b(f)(3)(iii)

1. Substitution of index. A creditor may change the index and margin used under the plan if the original index becomes unavailable, as long as historical fluctuations in the original and replacement indices were substantially similar, and as long as the replacement index and margin will produce a rate similar to the rate that was in effect at the time the original index became unavailable. If the replacement index is newly established and therefore does not have any rate history, it may be used if it produces a rate substantially similar to the rate in effect when the original index became unavailable.

Paragraph 5b(f)(3)(iii)

1. Changes by written agreement. A creditor may change the terms of a plan if the consumer expressly agrees in writing to the change at the time it is made. For example, a consumer and a creditor could agree in writing to change the repayment terms from interest-only payments to payments that reduce the principal balance. The provisions of any such agreement are governed by the limitations in §226.5b(f). For example, a mutual agreement could not provide for future annual percentage rate changes based on the movement of an index controlled by the creditor or for termination and acceleration under circumstances other than those specified in the regulation. By contrast, a consumer could agree to a new credit limit for the plan, although the agreement could not permit the creditor to later change the credit limit except by a subsequent written agreement or in the circumstances described in §226.5b(f)(3)(vi).

2. Written agreement. The change must be agreed to in writing by the consumer. Creditors are not permitted to assume consent because the consumer uses an account, even if use of an account would otherwise constitute acceptance of a proposed change under state law.

1. Beneficial changes. After a plan is opened, a creditor may make changes that unequivocally benefit the consumer. Under this provision, a creditor may offer more options to consumers, as long as existing options remain. For example, a creditor may offer the consumer the option of making lower monthly payments or could increase the credit limit. Similarly, a creditor wishing to extend the length of the plan on the same terms may do so. Creditors are permitted to temporarily reduce the rate or fees charged during the plan (though a change in terms notice may be required under §226.9(c) when the rate or fees are returned to their original level). Creditors also may offer an additional means of access to the line, even if fees are associated with using the device, provided the consumer retains the ability to use prior access devices on the original terms.

Paragraph 5b(f)(3)(iv)

1. Insignificant changes. A creditor is permitted to make insignificant changes after a plan is opened. This rule accommodates operational and similar problems, such as changing the address of the creditor for purposes of sending payments. It does not permit a creditor to change a term such as a fee charged for late payments.

2. Examples of insignificant changes. Creditors may make minor changes to features such as the billing cycle date, the payment due date (as long as the consumer does not have a diminished grace period if one is provided), and the day of the month on which index values are measured to determine changes to the rate for variable-rate plans. Creditor also may change its rounding practice in accordance with the tolerance rules set forth in §226.14 (for example, stating an exact APR of 14.333 percent as 14.3 percent, even if it had previously been stated as 14.33 percent). A creditor may change the balance computation method it uses only if the change produces an insignificant difference in the finance charge paid by the consumer. For example, a creditor may switch from using the average daily balance method (including new transactions) to the daily balance method (including new transactions).

Paragraph 5b(f)(3)(vi)

1. Suspension of credit privileges or reduction of credit limit. A creditor may prohibit additional extensions of credit or reduce the credit limit in the circumstances specified in this section of the regulation. In addition, as discussed under §226.5b(f)(3)(i), a creditor may contractually reserve the right to take such actions when the maximum annual percentage rate is reached. A creditor may not take these actions under other circumstances, unless the creditor would be
permitted to terminate the line and accelerate the balance as described in §226.5b(f)(2). The creditor’s right to reduce the credit limit does not permit reducing the limit below the amount of the outstanding balance. If this would require the consumer to make a higher payment.

2. Temporary nature of suspension or reduction. Creditors are permitted to prohibit additional extensions of credit or reduce the credit limit only while one of the designated circumstances exists. When the circumstance justifying the creditor’s action ceases to exist, credit privileges must be reinstated, assuming that no other circumstance permitting such action exists at that time.

3. Imposition of fees. If not prohibited by state law, a creditor may collect only bona fide and reasonable appraisal and credit report fees if such fees are actually incurred in investigating whether the condition permitting the freeze continues to exist. A creditor may not, in any circumstances, impose a fee to reinstate a credit line once the condition has been determined not to exist.

4. Reinstatement of credit privileges. Creditors are responsible for ensuring that credit privileges are restored as soon as reasonably possible after the condition that permitted the creditor’s action ceases to exist. One way a creditor can meet this responsibility is to monitor the line on an ongoing basis to determine when the condition ceases to exist. The frequency with which the creditor must investigate to determine whether a condition continues to exist depends upon the specific condition permitting the freeze. As an alternative to such monitoring, the creditor may shift the duty to the consumer to request reinstatement of credit privileges by providing a notice in accordance with §226.9(c)(3). A creditor may require a reinstatement request to be in writing if it notifies the consumer of this requirement on the notice provided under §226.9(c)(3). Once the consumer requests reinstatement, the creditor must promptly investigate to determine whether the condition allowing the freeze continues to exist. Under this alternative, the creditor has a duty to investigate only upon the consumer’s request.

5. Suspension of credit privileges following request by consumer. A creditor may honor a specific request by a consumer to suspend credit privileges. If the consumer later requests that the creditor reinstate credit privileges, the creditor must do so provided no other circumstance justifying a suspension exists at that time. If two or more consumers are obligated under a plan and each has the ability to take advances, the agreement may permit any of the consumers to direct the creditor not to make further advances. A creditor may require that all persons obligated under a plan request reinstatement.

6. Significant decline defined. What constitutes a significant decline for purposes of §226.5b(f)(3)(vi)(A) will vary according to individual circumstances. In any event, if the value of the dwelling declines such that the initial difference between the credit limit and the available equity (based on the property’s appraised value for purposes of the plan) is reduced by fifty percent, this constitutes a significant decline in the value of the dwelling for purposes of §226.5b(f)(3)(vi)(A). For example, assume that a house with a first mortgage of $50,000 is appraised at $100,000 and the credit limit is $30,000. The difference between the credit limit and the available equity is $20,000, half of which is $10,000. The creditor could prohibit further advances or reduce the credit limit if the value of the property declines from $100,000 to $90,000. This provision does not require a creditor to obtain an appraisal before suspending credit privileges although a significant decline must occur before suspension can occur.

7. Material change in financial circumstances. Two conditions must be met for §226.5b(f)(3)(vi)(B) to apply. First, there must be a “material change” in the consumer’s financial circumstances, such as a significant decrease in the consumer’s income. Second, as a result of this change, the creditor must have a reasonable belief that the consumer will be unable to fulfill the payment obligations of the plan. A creditor may, but does not have to, rely on specific evidence (such as the failure to pay other debts) in concluding that the second part of the test has been met. A creditor may prohibit further advances or reduce the credit limit under this section if a consumer files for or is placed in bankruptcy.

8. Default of a material obligation. Creditors may specify events that would qualify as a default of a material obligation under §226.5b(f)(3)(vi)(C). For example, a creditor may provide that default of a material obligation will exist if the consumer moves out of the dwelling or permits an intervening lien to be filed that would take priority over future advances made by the creditor.

9. Government limits on the annual percentage rate. Under §226.5b(f)(3)(vi)(D), a creditor may prohibit further advances or reduce the credit limit if, for example, a state usury law is enacted which prohibits a creditor from imposing the agreed-upon annual percentage rate.

§5b(g) Refund of Fees
1. Refund of fees required. If any disclosed term, including any term provided upon request pursuant to §226.5b(d), changes between the time the early disclosures are provided to the consumer and the time the plan
is opened, and the consumer as a result decides to not enter into the plan, a creditor must refund all fees paid by the consumer in connection with the application. All fees, including credit application fees and appraisal fees, must be refunded whether such fees are paid to the creditor or directly to third parties. A consumer is entitled to a refund of fees under these circumstances whether or not terms are guaranteed by the creditor under §226.5b(d)(2)(i).

2. Variable-rate plans. The right to a refund of fees does not apply to changes in the annual percentage rate resulting from fluctuations in the index value in a variable-rate plan. Also, if the maximum annual percentage rate is expressed as an amount over the initial rate, the right to refund of fees would not apply to changes in the cap resulting from fluctuations in the index value.

3. Changes in terms. If a term, such as the maximum rate, is stated as a range in the early disclosures, and the term ultimately applicable to the plan falls within that range, a change does not occur for purposes of this section. If, however, no range is used and the term is changed (for example, a rate cap of 6 rather than 5 percentage points over the initial rate), the change would permit the consumer to obtain a refund of fees. If a fee imposed by the creditor is stated in the early disclosures as an estimate and the fee changes, the consumer could elect to not enter into the agreement and would be entitled to a refund of fees. On the other hand, if fees imposed by third parties are disclosed as estimates and those fees change, the consumer is not entitled to a refund of fees paid in connection with the application. Creditors must, however, use the best information reasonably available in providing disclosures about such fees.

4. Timing of refunds and relation to other provisions. The refund of fees must be made as soon as reasonably possible after the creditor rescinds under §226.15.)

Section 226.6 Initial Disclosure Statement

1. Consistent terminology. Language on the initial and periodic disclosure statements must be close enough in meaning to enable the consumer to relate the 2 sets of disclosures; however, the language need not be identical. For example, in making the disclosure under §226.6(a)(3), the creditor may refer to the “ending balance” or “outstanding balance at the end of the billing cycle.” While the disclosure for §226.7(i) refers to the “ending balance” or “new balance.”

2. Separate initial disclosures permitted. In a certain open-end credit program involving more than one creditor—a card issuer of travel-and-entertainment cards and a financial institution—the consumer has the option to pay the card issuer directly or to transfer to the financial institution all or part of the amount owing. In this case, the creditors may send separate initial disclosure statements.

6(a) Finance charge.
Paragraph 6(a)(1)

1. When finance charges accrue. Creditors may provide a general explanation about finance charges beginning to run and need not disclose a specific date. For example, a disclosure that the consumer has 30 days from the closing date to pay the new balance before finance charges will accrue on the account would describe when finance charges begin to run.

2. Free-ride periods. In disclosing whether or not a free-ride period exists, the creditor need not use “free period,” “free-ride period,” or any other particular descriptive phrase or term. For example, a statement that “the finance charge begins on the date the transaction is posted to your account” adequately discloses that no free-ride period
exists. In the same fashion, a statement that “finance charges will be imposed on any new purchases only if they are not paid in full within 25 days after the close of the billing cycle” indicates that a free-ride period exists in the interim.

Paragraph 6(a)(2).

1. Range of balances. The range of balances disclosure is inapplicable:
   • If only one periodic rate may be applied to the entire account balance.
   • If only one periodic rate may be applied to the entire balance for a feature (for example, cash advances), even though the balance for another feature (purchases) may be subject to 2 rates (a 1.5% periodic rate on purchases of $0–$500, while balances above $500 are subject to a 1% periodic rate). Of course, the creditor must give a range of balances disclosure for the purchase feature.

2. Variable-rate disclosures—coverage.
   This section covers open-end credit plans under which rate changes are part of the plan and are tied to an index or formula. A creditor would use variable-rate disclosures (and thus be excused from the requirement of giving a change-in-terms notice when rate increases occur as disclosed) for plans involving rate changes such as the following:
   • Rate changes that are tied to the rate the creditor pays on its 6-month money market certificates.
   • Rate changes that are tied to Treasury bill rates.
   • Rate changes that are tied to changes in the creditor’s commercial lending rate.

In contrast, the creditor’s contract reservation to increase the rate without reference to such an index or formula (for example, a plan that simply provides that the creditor reserves the right to raise its rates) would not be considered a variable-rate plan for Truth in Lending disclosure purposes. (See the rule in §226.5b(f)(1) applicable to home equity plans, however, which prohibits “rate reservation” clauses.) Moreover, an open-end credit plan in which the employee receives a lower rate contingent upon employment (that is, with the rate to be increased upon termination of employment) is not a variable-rate plan. (With regard to such employee preferential-rate plans, however, see comment 9(c)-1, which provides that if the specific change that would occur is disclosed on the initial disclosure statement, no notice of a change in terms need be given when the term later changes as disclosed.)

3. Variable-rate plan—rate(s) in effect. In disclosing the rate(s) in effect at the time of the initial disclosures (as is required by §226.6(a)(2)), the creditor may use an insert showing the current rate as of a specified date and then update the disclosure from time to time, for example, each calendar month; or may disclose an estimated rate under §226.5(c).

4. Variable rate plan—additional disclosures required. In addition to disclosing the rates in effect at the time of the initial disclosures, the disclosures under footnote 12 also must be made.

5. Variable rate plan—index. The index to be used must be clearly identified; the creditor need not give, however, an explanation of how the index is determined or provide instructions for obtaining it.

6. Variable rate plan—circumstances for increase. Circumstances under which the rate(s) may increase include, for example:
   • An increase in the Treasury bill rate.
   • An increase in the Federal Reserve discount rate.

The creditor must disclose when the increase will take effect; for example,
   • “An increase will take effect on the day that the Treasury bill rate increases.”
   • “An increase in the Federal Reserve discount rate will take effect on the first day of the creditor’s billing cycle.”

7. Variable-rate plan—limitations on increase.

In disclosing any limitations on rate increases, limitations such as the maximum increase per year or the maximum increase over the duration of the plan must be disclosed. When there are no limitations, the creditor may, but need not, disclose that fact. (A maximum interest rate must be included in dwelling-secured open-end credit plans under which the interest rate may be changed. See §226.30 and the commentary to that section.) Legal limits such as usury or rate ceilings under State or Federal statutes or regulations need not be disclosed. Examples of limitations that must be disclosed include:
   • “The rate on the plan will not exceed 25% annual percentage rate.”
   • “Not more than 1 1⁄2% increase in the annual percentage rate per year will occur.”

8. Variable rate plan—effects of increase. Examples of effects that must be disclosed include:
   • Any requirement for additional collateral if the annual percentage rate increases beyond a specified rate.
   • Any increase in the scheduled minimum periodic payment amount.

9. Variable rate plan—change-in-terms notice not required. No notice of a change in terms is required for a rate increase under a variable-rate plan as defined in Comment 6(a)-(2).

10. Discounted variable-rate plans. In some variable-rate plans, creditors may set an initial interest rate that is not determined by the index or formula used to make later interest rate adjustments. Typically, this initial rate is lower than the rate would be if it were calculated using the index or formula.
   • For example, a creditor may calculate interest rates according to a formula using the six-month Treasury bill rate plus a 2 percent margin. If the current Treasury
rate is 10 percent, the creditor may forego the 2 percent spread and charge only 10 percent for a limited time, instead of setting an initial rate of 12 percent, or the creditor may disregard this or formula and set the initial rate at 9 percent.

- When creditors use an initial rate that is not calculated using the index or formula for later rate adjustments, the initial disclosure statement should reflect: (1) The initial rate (expressed as a periodic rate and a corresponding annual percentage rate), together with a statement of how long it will remain in effect; (2) the current rate that would have been applied using the index or formula (also expressed as a periodic rate and a corresponding annual percentage rate); and (3) the other variable-rate information required by footnote 12 to § 226.6(a)(2).

- In disclosing the current periodic and annual percentage rates that would be applied using the index or formula, the creditor may use any of the disclosure options described in comment 6(a)(2)-3.

- Increased penalty rates. If the initial rate may increase upon the occurrence of one or more specific events, such as a late payment or an extension of credit that exceeds the credit limit, the creditor must disclose the initial rate and the increased penalty rate that may apply. If the penalty rate is based on an index and an increased margin, the issuer must disclose the index and the margin. The creditor must also disclose the specific event or events that may result in the increased rate, such as “2% APR, if 60 days late.” If the penalty rate cannot be determined at the time disclosures are given, the creditor must provide an explanation of the specific event or events that may result in the increased rate. At the creditor’s option, the creditor may disclose the period for which the increased rate will remain in effect, such as “until you make three timely payments.” The creditor need not disclose an increased rate that is imposed when credit privileges are permanently terminated.

Paragraph 6(a)(3).

1. Explanation of balance computation method. A shorthand phrase such as “previous balance method” does not suffice in explaining the balance computation method. (See appendix G–1 for model clauses.)

2. Allocation of payments. Disclosure about the allocation of payments and other credits is not required. For example, the creditor need not disclose that payments are applied to late charges, overdue balances, and finance charges before being applied to the principal balance. If it is included in a multifunctional plan, that payments are applied first to finance charges, then to purchases, and then to cash advances. (See Comment 7-1 for definition of multifunctional plan.)

Paragraph 6(a)(4).

1. Finance charges. In addition to disclosing the periodic rate(s) under § 226.6(a)(2), disclosure is required of any other type of finance charge that may be imposed, such as minimum, fixed, transaction, and activity charges; required insurance; or appraisal or credit report fees (unless excluded from the finance charge under § 226.4(c)(7)).

(b) Other charges.

1. General; examples of other charges. Under § 226.6(b), significant charges related to the plan (that are not finance charges) must also be disclosed. For example:

i. Late payment and over-the-credit-limit charges.

ii. Fees for providing documentary evidence of transactions requested under § 226.13 (billing error resolution).

iii. Charges imposed in connection with real estate transactions such as title, appraisal, and credit report fees (see § 226.4(c)(7)).

iv. A tax imposed on the credit transaction by a state or other governmental body, such as a documentary stamp tax on cash advances (see the commentary to § 226.4(a)).

v. A membership or participation fee for a package of services that includes an open-end credit feature, unless the fee is required whether or not the open-end credit feature is included. For example, a membership fee to join a credit union is not an “other charge” even if membership is required to apply for credit. For the fee to be excluded from disclosure as an “other charge,” however, the package of services must have some substantive purpose other than access to the credit feature. For example, if the primary benefit of membership in an organization is the opportunity to apply for a credit card, and the other benefits offered (such as a newsletter or a member information hotline) are merely incidental to the credit feature, the membership fee would have to be disclosed as an “other charge.”

vi. Automated teller machine (ATM) charges described in comment 4(a)-4 that are not finance charges.

vii. Charges imposed for the termination of an open-end credit plan.

2. Exclusions. The following are examples of charges that are not “other charges”:

i. Fees charged for documentary evidence of transactions for income tax purposes.

ii. Amounts payable by a consumer for collection activity after default; attorney’s fees, whether or not automatically imposed; foreclosure costs; post-judgment interest rates imposed by law; and reinstatement or reissuance fees.

iii. Premiums for voluntary credit life or disability insurance, or for property insurance, that are not part of the finance charge.

iv. Application fees under § 226.4(c)(1).

v. A monthly service charge for a checking account with overdraft protection that is applied to all checking accounts, whether or not a credit feature is attached.
vi. Charges for submitting as payment a check that is later returned unpaid (see commentary to §226.4(c)(2)).

vii. Charges imposed on a cardholder by an institution other than the card issuer for the use of the other institution’s ATM in a shared or interchange system. (See also comment 7(b)(2).)

viii. Taxes and filing or notary fees excluded from the finance charge under §226.4(e).

ix. A fee to expedite delivery of a credit card, either at account opening or during the life of the account, provided delivery of the card is also available by standard mail service (or other means at least as fast) without paying a fee for delivery.

x. A fee charged for arranging a single payment on the credit account, upon the consumer’s request (regardless of how frequently the consumer requests the service), if the credit plan provides that the consumer may make payments on the account by another reasonable means, such as by standard mail service, without paying a fee to the creditor.

6(c) Security interests.

1. General. Disclosure is not required about the type of security interest, or about the creditor’s rights with respect to that collateral. In other words, the creditor need not expand on the term security interest. Also, since no specified terminology is required, the creditor may designate its interest by using, for example, pledge, lien, or mortgage (instead of security interest).

2. Identification of property. Identification of the collateral by type is satisfied by stating, for example, motor vehicle or household appliances. (Creditor should be aware, however, that the federal credit practices rules, as well as some state laws, prohibit certain security interests in household goods.) The creditor may, at its option, provide a more specific identification (for example, a model and serial number).

3. Spreader clause. The fact that collateral for pre-existing credit extensions with the institution is being used to secure the present obligation constitutes a security interest and must be disclosed. (Such security interests may be known as spreader or drag-net clauses, or as cross-collateralization clauses.) A specific identification of that collateral is unnecessary, but a reminder of the interest arising from the prior indebtedness is required. This may be accomplished by using language such as “collateral securing other loans with us may also secure this loan.” At the creditor’s option, a more specific description of the property involved may be given.

4. Additional collateral. If collateral is required when advances reach a certain amount, the creditor should disclose the information available at the time of the initial disclosures. For example, if the creditor knows that a security interest will be taken in household goods if the consumer’s balance exceeds $1,000, the creditor should disclose accordingly. If the creditor knows that security will be required if the consumer’s balance exceeds $1,000, but the creditor does not know what security will be required, the creditor must disclose on the initial disclosure statement that security will be required if the balance exceeds $1,000, and the creditor must provide a change-in-terms notice under §226.9(c) at the time the security is taken. (See comment 6(c)(2)).

5. Collateral from third party. In certain situations, the consumer’s obligation may be secured by collateral belonging to a third party. For example, an open-end credit plan may be secured by an interest in property owned by the consumer’s parents. In such cases, the security interest is taken with the plan and must be disclosed, even though the property encumbered is owned by someone other than the consumer.

6(d) Statement of billing rights. See the commentary to appendix G-3.

6(e) Home Equity Plan Information

1. Additional disclosures required. For home equity plans, creditors must provide several of the disclosures set forth in §226.5(b)(d) along with the disclosures required under §226.6. Creditors also must disclose a list of the conditions that permit the creditor to terminate the plan, freeze or reduce the credit limit, and implement specified modifications to the original terms. (See comment 5(b)(d)(4)(iii–1).)

2. Form of disclosures. The home equity disclosures provided under this section must be in a form the consumer can keep, and are governed by §226.5(a)(3). The segregation of disclosures required by §226.5(a)(3) must be provided in a form the consumer can keep, and are governed by §226.5(a)(3).

3. Disclosure of payment and variable-rate examples. The payment example disclosure in §226.5(b)(d)(5)(iii) and the variable-rate information in §226.5(b)(d)(12) (viii), (x), (xi), and (xii) need not be provided with the disclosures under §226.6 if:

• The disclosures of the payment example under §226.5(b)(d)(5)(iii), the maximum payment example under §226.5(b)(d)(12)(x) and the historical table under §226.5(b)(d)(12)(x) included a representative payment example for the category of payment options the consumer has chosen.

For example, if a creditor offers three payment options (one for each of the categories described in the commentary to §226.5(b)(d)(5)), describes all three options in its early disclosures, and provides all of the disclosures in a retainable form, that creditor need not provide the §226.5(b)(d)(5)(iii) or...
Section 226.7—Periodic Statement

1. Multifeatured plans. Some plans involve a number of different features, such as purchases, cash advances, or overdraft checking. Groups of transactions subject to different finance charge terms because of the dates on which the transactions took place are treated like different features for purposes of disclosures on the periodic statements. The commentary includes some special rules for multifeatured plans.

2. Separate periodic statements permitted. In a certain open-end credit program involving more than one creditor—a card issuer of travel-and-entertainment cards and a financial institution—the consumer has the option to pay the card issuer directly or to transfer the financial institution all or part of the amount owing. In this case, the creditors may send separate periodic statements that reflect the separate obligations owed to each.

3. Deferred payment transactions. Creditors offer a variety of payment plans for purchases that permit consumers to avoid finance charges if the purchase balance is paid in full by a certain date. The following provides guidance for one type of deferred payment plan where, for example, no finance charge is imposed on a $500 purchase made in January if the $500 balance is paid by March 31.

i. Periodic rates. Under §226.7(d), creditors must disclose each periodic rate that may be used to compute the finance charge. Under some plans with a deferred payment feature, if the deferred payment balance is not paid by the payment due date, finance charges attributable to periodic rates applicable to the billing cycles between the date of purchase and the payment due date (January through March in this example) may be imposed. Periodic rates that may apply to the deferred payment balance ($500 in this example) if the balance is not paid in full by the payment due date must appear on periodic statements for the billing cycles between the date of purchase and the payment due date. However, if the consumer does not pay the deferred payment balance by the due date, the creditor is not required to identify, on the periodic statement disclosing the finance charge for the deferred payment balance, periodic rates that have been disclosed in previous billing cycles between the date of purchase and the payment due date.

ii. Balances subject to periodic rates. Under §226.7(e), creditors must disclose the balances subject to periodic rates during a billing cycle. The deferred payment balance ($500 in this example) is not subject to a periodic rate for billing cycles between the date of purchase and the payment due date. Periodic statements sent for those billing cycles should not include the deferred payment balance in the balance disclosed under §226.7(e). At the creditor’s option, this amount may be disclosed on periodic statements provided it is identified by a term other than the term used to identify the balance disclosed under §226.7(e) (such as “deferred payment balance”). During any billing cycle in which a periodic rate finance charge on the deferred payment balance is debited to the account, the balance disclosed under §226.7(e) should...
include the deferred payment balance for that billing cycle.

iii. Amount of finance charge. Under §226.7(f), creditors must disclose finance charges imposed during a billing cycle. For some deferred payment purchases, the creditor may impose a finance charge from the date of purchase if the deferred payment balance ($500 in this example) is not paid in full by the due date, but otherwise will not impose finance charges for billing cycles between the date of purchase and the payment due date. Periodic statements for billing cycles preceding the payment due date should not include in the finance charge disclosed under §226.7(f) the amounts a consumer may owe if the deferred payment balance is not paid in full by the payment due date. In this example, the February periodic statement should not identify as finance charges interest attributable to the $500 January purchase. At the creditor’s option, this amount may be disclosed on periodic statements provided it is identified by a term other than “finance charge” (such as “contingent finance charge” or “deferred finance charge”). The finance charge on a deferred payment balance should be reflected on the periodic statement under §226.7(f) for the billing cycle in which the finance charge is debited to the account.

iv. Free-ride or grace period. Assuming monthly billing cycles ending at month-end and a free-ride or grace period ending on the 25th of the following month, here are four examples illustrating how a creditor may comply with the requirement to disclose the free-ride or grace period applicable to a deferred payment balance ($500 in this example) and with the 21-day rule for mailing or delivering periodic statements (see §226.5):

A. The creditor could include the $500 purchase on the periodic statement reflecting account activity for February and sent on March 1 and identify March 31 as the payment due date for the $500 purchase. (The creditor could also identify March 31 as the payment due date for any other amounts that would normally be due on March 25.)

B. The creditor could include the $500 purchase on the periodic statement reflecting account activity for March and sent on April 1 and identify April 25 as the payment due date for the $500 purchase, permitting the consumer to avoid finance charges if the $500 is paid in full by April 25.

C. The creditor could include the $500 purchase and its due date on each periodic statement sent during the deferred payment period (January, February, and March in this example).

D. If the due date for the deferred payment balance is March 7 (instead of March 31), the creditor could include the $500 purchase and its due date on the periodic statement reflecting activity for January and sent on February 1, the most recent statement sent at least 21 days prior to the due date.

7(a) Previous balance.
1. Credit balances. If the previous balance is a credit balance, it must be disclosed in such a way so as to inform the consumer that it is a credit balance, rather than a debit balance.

2. Multifeatured plans. In a multifeatured plan, the previous balance may be disclosed either as an aggregate balance for the account or as separate balances for each feature (for example, a previous balance for purchases and a previous balance for cash advances). If separate balances are disclosed, a total previous balance is optional.

3. Accrued finance charges allocated from payments. Some open-end credit plans provide that the amount of the finance charge that has accrued since the consumer’s last payment is directly deducted from each new payment, rather than being separately added to each statement and reflected as an increase in the obligation. In such a plan, the previous balance need not reflect finance charges accrued since the last payment.

7(b) Identification of transactions.
1. Multifeatured plans. In identifying transactions under §226.7(b) for multifeatured plans, creditors may, for example, choose to arrange transactions by feature (such as disclosing sale transactions separately from cash advance transactions) or in some other clear manner, such as by arranging the transactions in general chronological order.

2. Automated teller machine (ATM) charges imposed by other institutions in shared or interchange systems. A charge imposed on the cardholder by an institution other than the card issuer for the use of the other institution’s ATM in a shared or interchange system and included by the terminal operating institution in the amount of the transaction need not be separately disclosed on the periodic statement.

7(c) Credits.
1. Identification—sufficiency. The creditor need not describe each credit by type (returned merchandise, rebate of finance charge, etc.)—credit would suffice—except if the creditor is using the periodic statement to satisfy the billing error correction notice requirement. (See the commentary to §226.13(e) and (f).)

2. Format. A creditor may list credits relating to credit extensions (payments, rebates, etc.) together with other types of credits (such as deposits to a checking account), as long as the entries are identified so as to inform the consumer which type of credit each entry represents.

3. Date. If only one date is disclosed (that is, the crediting date as required by the regulation), no further identification of that date is necessary. More than one date may be disclosed for a single entry, as long as it is clear
which date represents the date on which the credit was given.

4. Totals. Where the creditor lists the credits made to the account during the billing cycle, the creditor need not disclose total figures for the amounts credited.

7(d) Periodic rates.
1. Disclosure of periodic rates—whether or not actually applied. Any periodic rate that may be used to compute finance charges (and its corresponding annual percentage rate) must be disclosed whether or not it is applied during the billing cycle. For example:
   - If the consumer’s account has both a purchase feature and a cash advance feature, the creditor must disclose the rate for each, even if the consumer only makes purchases on the account during the billing cycle.
   - If the rate varies (such as when it is tied to a particular index), the creditor must disclose each rate in effect during the cycle for which the statement was issued.

2. Disclosure of periodic rates required only if imposition possible. With regard to the periodic rate disclosure (and its corresponding annual percentage rate), only rates that could have been imposed during the billing cycle reflected on the periodic statement need to be disclosed. For example:
   - If the creditor is changing rates effective during the next billing cycle (either because it is changing terms or because of a variable rate plan), the rates required to be disclosed under § 226.7(d) are only those in effect during the billing cycle reflected on the periodic statement. For example, if the monthly rate applied during May was 1.5 percent, but the creditor will increase the rate to 1.8 percent during June 1, 1.5 percent (and its corresponding annual percentage rate) is the only required disclosure under § 226.7(d) for the periodic statement reflecting the May account activity.
   - If the consumer has an overdraft line that might later be expanded upon the consumer’s request to include secured advances, the rates for the secured advance feature need not be given until such time as the consumer has requested and received access to the additional feature.
   - If rates applicable to a particular type of transaction changed after a certain date, and the old rate is only being applied to transactions that took place prior to that date, the creditor need not continue to disclose the old rate for those consumers that have no outstanding balances to which that rate could be applied.

3. Multiple rates—same transaction. If two or more periodic rates are applied to the same balance for the same type of transaction (for example, if the finance charge consists of a monthly periodic rate of 1.5% applied to the outstanding balance and a required credit life insurance component calculated at .1% per month on the same outstanding balance), the creditor may do either of the following:
   - Disclose each periodic rate, the range of balances to which it is applicable, and the corresponding annual percentage rate for each. (For example, 1.5% monthly, 18% annual percentage rate; .1% monthly, 1.2% annual percentage rate.)
   - Disclose one composite periodic rate (that is, 1.6% per month) along with the applicable range of balances and corresponding annual percentage rate.

4. Corresponding annual percentage rate. In disclosing the annual percentage rate that corresponds to each periodic rate, the creditor may use “corresponding annual percentage rate,” “nominal annual percentage rate,” “corresponding nominal annual percentage rate,” or similar phrases.

5. Rate same as actual annual percentage rate. When the corresponding rate is the same as the actual annual percentage rate (historical rate) required to be disclosed (§ 226.7(g)), the creditor need disclose only one annual percentage rate, but must use the phrase “annual percentage rate.”

7. Deferred payment transactions. See comment 7–3(i).

7(e) Balance on which finance charge computed.
1. Limitation to periodic rates. Section 226.7(e) only requires disclosure of the balance(s) to which a periodic rate was applied and does not apply to balances on which other kinds of finance charges (such as transaction charges) were imposed. For example, if a consumer obtains a $1,500 cash advance subject to both a 1% transaction fee and a 1% monthly periodic rate, the creditor need only disclose the balance subject to the monthly rate (which might include portions of earlier cash advances not paid off in previous cycles).

2. Split rates applied to balance ranges. If split rates were applied to a balance because different portions of the balance fall within two or more balance ranges, the creditor need not separately disclose the portions of the balance subject to such different rates since the range of balances to which the rates apply has been separately disclosed. For example, a creditor could disclose a balance of $100 for purchases even though a monthly periodic rate of 1.5% applied to the first $500, and a monthly periodic rate of 1 percent to the remainder. This option to disclose a combined balance does not apply when the finance charge is computed by applying the split rates to each day’s balance. (In contrast, for example, to applying the rates to the average daily balance). In that case, the balances must be disclosed using any of the options that are available if two
or more daily rates are imposed. (See comment 7(e)-5.)

3. Monthly rate on average daily balance. If a creditor computes a finance charge on the average daily balance by application of a monthly periodic rate or rates, the balance is adequately disclosed if the statement gives the amount of the average daily balance on which the finance charge was computed, and also states how the balance is determined.

4. Multifeatured plans. In a multifeatured plan, the creditor must disclose a separate balance (or balances, as applicable) to which a periodic rate was applied for each feature or group of features subject to different periodic rates or different balance computation methods. Separate balances are not required, however, merely because a “free-ride” period is available for some features but not others. A total balance for the entire plan is optional. This does not affect how many balances the creditor must disclose—or may disclose—within each feature. (See, for example, comment 7(e)-5.)

5. Daily rate on daily balance. If the finance charge is computed on the balance each day by application of one or more daily periodic rates, the balance on which the finance charge was computed may be disclosed in any of the following ways for each feature:
   - If a single daily periodic rate is imposed, the balance to which it is applicable may be stated as:
     - A balance for each day in the billing cycle
     - A balance for each day in the billing cycle on which the balance in the account changes
     - The sum of the daily balances during the billing cycle
     - The average daily balance during the billing cycle, in which case the creditor shall explain that the average daily balance is or can be multiplied by the number of days in the billing cycle and the periodic rate applied to the product to determine the amount of the finance charge.
   - If two or more daily periodic rates may be imposed, the balances to which the rates are applicable may be stated as:
     - A balance for each day in the billing cycle
     - A balance for each day in the billing cycle on which the balance in the account changes
     - Two or more average daily balances, each applicable to the daily periodic rates imposed for the time that those rates were in effect, as long as the creditor explains that the finance charge is or may be determined by (1) multiplying each of the average balances by the number of days in the billing cycle (or if the daily rate varied during the cycle, by multiplying by the number of days the applicable rate was in effect), (2) multiplying each of the results by the applicable daily periodic rate, and (3) adding these products together.

6. Explanation of balance computation method. See the commentary to §226.6(a)(3).

7. Information to compute balance. In connection with disclosing the finance charge balance, the creditor need not give the consumer all of the information necessary to compute the balance if that information is not otherwise required to be disclosed. For example, if current purchases are included from the date they are posted to the account, the posting date need not be disclosed.

8. Non-deduction of credits. The creditor need not specifically identify the total dollar amount of credits not deducted in computing the finance charge balance. Disclosure of the amount of credits not deducted is accomplished by listing the credits (§226.7(c)) and indicating which credits will not be deducted in determining the balance (for example, ‘‘credits after the 15th of the month are not deducted in computing the finance charge.’’)

9. Use of one balance computation method explanation when multiple balances disclosed. Sometimes the creditor will disclose more than one balance to which a periodic rate was applied even though each balance was computed using the same balance computation method. For example, if a plan involves purchases and cash advances that are subject to different rates, more than one balance must be disclosed even though the same computation method is used for determining the balance for each feature. In these cases, one explanation of the balance computation method is sufficient. Sometimes the creditor separately discloses the portions of the balance that are subject to different rates because different portions of the balance fall within two or more balance ranges, even when a combined balance disclosure would be permitted under comment 7(e)-2. In these cases, one explanation of the balance computation method is also sufficient (assuming, of course, that all portions of the balance were computed using the same method).

10. Deferred payment transactions. See comment 7-3(ii).

7(f) Amount of finance charge.
   1. Total. A total finance charge amount for the plan is not required.
   2. Itemization—types of finance charges. Each type of finance charge (such as periodic rates, transaction charges, and minimum charges) imposed during the cycle must be separately itemized; for example, disclosure of only a combined finance charge attributable to both a minimum charge and transaction charges would not be permissible. Finance charges of the same type may be disclosed, however, individually or as a total. For example, 5 transaction charges of $1 may be listed separately or as $5.
3. Itemization—different periodic rates. Whether different periodic rates are applicable to different types of transactions or to different balance ranges, the creditor may give the finance charge attributable to each rate or may give a total finance charge amount. For example, if a creditor charges 1.5% per month on the first $500 of a balance and 1% per month on amounts over $500, the creditor may itemize the two components ($7.50 and $1.00) of the $8.50 charge, or may disclose $8.50.

4. Multifeatured plans. In a multifeatured plan, in disclosing the amount of the finance charge attributable to the application of periodic rates no total periodic rate disclosure for the entire plan need be given.

5. Finance charges not added to account. A finance charge that is not included in the new balance because it is payable to a third party (such as required life insurance) must still be shown on the periodic statement as a finance charge.

6. Finance charges other than periodic rates. See Comment 6(a)(4)-1 for examples.

7. Accrued finance charges allocated from payments. Some plans provide that the amount of the finance charge that has accrued since the consumer’s last payment is directly deducted from each new payment, rather than being separately added to each statement and therefore reflected as an increase in the obligation. In such a plan, no disclosure is required of finance charges that have accrued since the last payment.

8. Start-up fees. Points, loan fees, and similar finance charges relating to the opening of the account that are paid prior to the issuance of the first periodic statement need not be disclosed on the periodic statement. If, however, these charges are financed as part of the plan, including charges that are paid out of the first advance, the charges must be disclosed as part of the finance charge on the first periodic statement. However, they need not be factored into the annual percentage rate. (See footnote 73 in the regulation.)

9. Deferred payment transactions. See comment 7-3(iii).
   7(i) Annual percentage rate.
   1. Rate same as corresponding annual percentage rate. See Comment 7(d)-5.

   2. Multifeatured plans. In a multifeatured plan, the actual annual percentage rate that reflects the finance charge imposed during the cycle may be separately stated for each feature, or may be described as a composite for the whole plan. If separate rates are given, a composite annual percentage rate for the entire plan is optional.

   7(j) Other charges.
   1. Identification. In identifying any “other charges” actually imposed during the billing cycle, the type is adequately described as late charge or membership fee, for example. Similarly, closing costs or settlement costs, for example, may be used to describe charges imposed in connection with real estate transactions that are excluded from the finance charge under §226.4(c)(7), if the same term (such as closing costs) was used in the initial disclosures and if the creditor chose to itemize and individually disclose the costs included in that term. Even though the taxes and filing or notary fees excluded from the finance charge under §226.4(e) are not required to be disclosed as other charges under §226.6(b), these charges may be included in the amount shown as closing costs or settlement costs on the periodic statement, if the charges were itemized and disclosed as part of the closing costs or settlement costs on the initial disclosure statement. (See comment 6(b)-1 for examples of other charges.)

   2. Date. The date of imposing or debiting other charges need not be disclosed.

   3. Total. Disclosure of the total amount of other charges is optional.

   4. Itemization—types of other charges. Each type of other charge (such as late payment charges, over-the-credit-limit charges, ATM fees that are not finance charges, and membership fees) imposed during the cycle must be separately itemized; for example, disclosure of only a total of other charges attributable to both an over-the-credit-limit charge and a late payment charge would not be permissible. Other charges of the same type may be disclosed, however, individually or as a total. For example, three ATM fees of $1 may be listed separately or as $3.

   7(jl) Closing date of billing cycle; new balance.
   1. Credit balances. See Comment 7(a)-1.

   2. Multifeatured plans. In a multifeatured plan, the new balance may be disclosed for each feature or for the plan as a whole. If separate new balances are disclosed, a total new balance is optional.

   3. Accrued finance charges allocated from payments. Some plans provide that the amount of the finance charge that has accrued since the consumer’s last payment is directly deducted from each new payment, rather than being separately added to each statement and therefore reflected as an increase in the obligation. In such a plan, the new balance need not reflect finance charges accrued since the last payment.

   7(jl) Free-ride period.
   1. Wording. Although the creditor is required to indicate any time period the consumer may have to pay the balance outstanding without incurring additional finance charges, no specific wording is required, so long as the language used is consistent with that used on the initial disclosure statement. For example, “To avoid additional finance charges, pay the new balance before...” would suffice.

   2. Deferred payment transactions. See comment 7-3(iv).

   7(k) Address for notice of billing errors.
Section 226.8—Identification of Transactions

1. Application of identification rules. Section 226.8 deals with the requirement (imposed by §226.7(b)) for identification of each credit transaction made during the billing cycle. The rules for identifying transactions on periodic statements vary, depending on whether:

- The transaction involves sale credit (purchases) or nonsale credit (cash advances, for example).
- An actual copy of the credit document reflecting the transaction accompanies the statement (this is the distinction between so-called country club and descriptive billing).
- The creditor and seller are the same or related persons.
- Sale credit. The term sale credit refers to a purchase in which the consumer uses a credit card or otherwise directly accesses an open-end line of credit (see Comment 8–3 if access is by means of a check) to obtain goods or services from a merchant, whether or not the merchant is the card issuer. Sale credit even includes:
  - Premiums for voluntary credit life insurance whether sold by the card issuer or another person.
  - The purchase of funds-transfer services (such as telegrams) from an intermediary.
- Nonsale credit. The term nonsale credit refers to any form of loan credit including, for example:
  - Cash advances.
  - Overdraft checking.
  - The use of a supplemental credit device in the form of a check or draft or the use of the overdraft feature of a debit card, even if such use is in connection with a purchase of goods or services.
  - Miscellaneous debits to remedy mispostings, returned checks, and similar entries.
- Actual copy. An actual copy does not include a recreated document. It includes, for example, a duplicate, carbon, or photographic copy, but does not include a so-called "facsimile draft" in which the required information is typed, printed, or otherwise recreated. If a facsimile draft is used, the creditor must follow the rules that apply when a copy of the credit document is not furnished.
- Same or related persons. For purposes of identifying transactions, the term same or related persons refers to, for example:
  - Franchised or licensed sellers of a creditor’s product or service.
  - Sellers who assign or sell open-end sales accounts to a creditor or arrange for such credit under a plan that allows the consumer to use the credit only in transactions with that seller.

A seller is not related to the creditor merely because the seller and the creditor have an agreement authorizing the seller to honor the creditor’s credit card.

6. Transactions resulting from promotional material. In describing transactions with third-party sellers resulting from promotional material mailed by the creditor, creditors may use the rules either for related or for non-related sellers and creditors.

7. Credit insurance offered through the creditor. When credit insurance that is not part of the finance charge (for example, voluntary credit life insurance) is offered to the consumer through the creditor, but is actually provided by another company, the creditor has the option of identifying the premiums...
in one of two ways on the periodic statement. The creditor may describe the premiums using either the rule in §226.8(a)(2) for related sellers and creditors, or the rule in §226.8(a)(3) for non-related sellers and creditors. This means, therefore, that the creditor may identify the insurance either by providing, under §226.8(a)(2), a brief identification of the services provided (for example, credit life insurance), or by disclosing, under §226.8(a)(3), the name and address of the company providing the insurance (for example, ABC Insurance Company, New York, New York). In either event, the creditor would, of course, also provide the amount and the date of the transaction.

8. Transactions involving creditors and sellers with corporate connections. In a credit card plan established for use primarily with sellers that have no corporate connection with the creditor, the creditor may describe all transactions under the plan by using the rules in §226.8(a)(3)—creditor and seller not same or related persons—including transactions involving a seller that has a corporate connection with the creditor. In other credit card plans, the creditor may describe transactions involving a seller that has a corporate connection with the creditor, such as subsidiary-parent, using the rules in §226.8(a)(3) where it is unlikely that the consumer would know of the corporate connection between the creditor and the seller—for example, where the names of the creditor and the seller are not similar, and the periodic statement is issued in the name of the creditor only.

8(a) Sale credit.

1. Date—disclosure of only one date. If only the required date is disclosed for a transaction, the creditor need not identify it as the “transaction date.” If the creditor discloses more than one date (for example, the transaction date and the posting date), the creditor must identify each.

2. Date—disclosure of month and day only. The month and day are sufficient disclosure of the date on which the transaction took place, unless the posting of the transaction is delayed so long that the year is needed for a clear disclosure to the consumer.

3. When transaction takes place. If the consumer conducts the transaction in person, the date of the transaction is the calendar date on which the consumer made the purchase or order, or secured the advance. For transactions billed to the account on an ongoing basis (other than installments to pay a precomputed amount), the date of the transaction is the date on which the amount is debited to the account. This might include, for example, monthly insurance premiums. For mail or telephone orders, a creditor may disclose as the transaction date either the invoice date, the debiting date, or the date the order was placed by telephone.

4. Transactions not billed in full. If sale transactions are not billed in full on any single statement, but are billed periodically in precomputed installments, the first periodic statement reflecting the transaction must show either the full amount of the transaction together with the date the transaction actually took place; or the amount of the first installment that was debited to the account together with the date of the transaction or the date on which the first installment was debited to the account. In any event, subsequent periodic statements should reflect each installment due, together with either any other identifying information required by §226.8(a) (such as the seller’s name and address in a three-party situation) or other appropriate identifying information relating the transaction to the first billing. The debiting date for the particular installment, or the date the transaction took place, may be used as the date of the transaction on these subsequent statements.

8(a)(1) Copy of credit document provided.

1. Format. The information required by §226.8(a)(1) may appear either on the copy of the credit document reflecting the transaction or on the periodic statement.

8(a)(2) Copy of credit document not provided—creditor and seller same or related persons.

1. Property identification—sufficiency of description. The “brief identification” provision in §226.8(a)(2) requires a designation that will enable the consumer to reconcile the periodic statement with the consumer’s own records. In determining the sufficiency of the description, the following rules apply:

• While item-by-item descriptions are not necessary, reasonable precision is required. For example, merchandise, miscellaneous, second-hand goods, or promotional items would not suffice.

• A reference to a department in a sales establishment that accurately conveys the identification of the types of property or services available in the department is sufficient—for example, jewelry, sporting goods.

2. Property identification—number or symbol. The “brief identification” may be made by disclosing on the periodic statement a number or symbol that is related to an identification list printed elsewhere on the statement.

3. Property identification—additional document. In making the “brief identification” required by §226.8(a)(2), the creditor may identify the property by describing the transaction on a document accompanying the periodic statement (for example, on a facsimile draft). (See also footnote 17.)

4. Small creditors. Under footnote 38, which provides a further identification alternative to a creditor with fewer than 15,000 accounts, the creditor need count only its own accounts and not others serviced by the same
Pt. 226, Supp. I

12 CFR Ch. II (1–1–10 Edition)

data processor or other shared-service provider.

5. Date of transaction—foreign transactions. In a foreign transaction, the debiting date may be considered the transaction date.

8(a)(3) Copy of credit document not provided—creditor and seller not same or related person(s).

1. Seller’s name. The requirement contemplates that the seller’s name will appear on the periodic statement in essentially the same form as it appears on transaction documents provided to the consumer at the time of the sale. The seller’s name may also be disclosed as, for example:

• A more complete spelling of the name that was alphabetically abbreviated on the receipt or other credit document.

• An alphabetical abbreviation of the name on the periodic statement even if the name appears in a more complete spelling on the receipt or other credit document. Terms that merely indicate the form of a business entity, such as Inc., Co., or Ltd., may always be omitted.

2. Location of transaction. The disclosure of the location where the transaction took place generally requires an indication of both the city and the state or foreign country. If the seller has multiple stores or branches within that city, the creditor need not identify the specific branch at which the sale occurred.

3. No fixed location. When no meaningful address is available because the consumer did not make the purchase at any fixed location of the seller, the creditor:

• May omit the address.

• May provide some other identifying designation, such as aboard plane, ABC Airways Flight, customer’s home, telephone order, or mail order.

4. Date of transaction—foreign transactions. See Comment 8(a)(2)–5.

8(b) Nonsale credit.

1. Date of transaction. If only one of the required dates is disclosed for a transaction, the creditor need not identify it. If the creditor discloses more than one date (for example, transaction date and debiting date), the creditor must identify each.

2. Amount of transaction. If credit is extended under an overdraft checking account plan or by means of a debit card with an overdraft feature, the amount to be disclosed is that of the credit extension, not the face amount of the check or the total amount of the debit/credit transaction.

3. Amount—disclosure on cumulative basis. If credit is extended under an overdraft checking account plan or by means of a debit card with an overdraft feature, the creditor may disclose the amount of the credit extensions on a cumulative daily basis, rather than the amount attributable to each check or each use of the debit/credit card.

4. Identification of transaction type. The creditor may identify a transaction by describing the type of advance it represents, such as cash advance, loan, overdraft loan, or any readily understandable trade name for the credit program.

Statute: Section 127(b)(2).

Previous regulation: Section 226.7(k).

Other sections: Section 226.7.

1981 changes: Section 226.8 has been streamlined and reorganized to facilitate its use. Technical detail has been deleted from the Regulation for inclusion in the commentary. The Regulation implements the amended section 127(b)(2) of the Act by providing for protection from civil liability under certain circumstances when required information is not provided and by reducing disclosure responsibilities for certain small creditors. The descriptors of nonsale transactions, the regulation now permits the use of the debiting date in all cases.

Section 226.9—Subsequent Disclosure Requirements

9(a) Furnishing Statement of Billing Rights.

9(a)(1) Annual Statement.

1. General. The creditor may provide the annual billing rights statement:

• By sending it in one billing period per year to each consumer that gets a periodic statement for that period; or

• By sending a copy to all of its account holders sometime during the calendar year but not necessarily all in one billing period (for example, sending the annual notice in connection with renewal cards or when imposing annual membership fees).

2. Substantially similar. See the commentary to appendix G–3.

9(a)(2) Alternative Summary Statement

1. Changing from long-form to short-form statement and vice versa. If the creditor has been sending the long-form annual statement, and subsequently decides to use the alternative summary statement, the first summary statement must be sent no later than 12 months after the last long-form statement was sent. Conversely, if the creditor wants to switch to the long-form, the first long-form statement must be sent no later than 12 months after the last summary statement.

2. Substantially similar. See the commentary to appendix G–4.

9(b) Disclosures for Supplemental Credit Devices and Additional Features.

1. Credit device—examples. Credit device includes, for example, a blank check, payee-designated check, blank draft or order, or authorization form for issuance of a check; it does not include a check issued payable to a consumer representing loan proceeds or the disbursement of a cash advance.
Federal Reserve System

Pt. 226, Supp. I

2. Credit feature—examples. A new credit feature would include, for example:

- The addition of overdraft checking to an existing account (although the regular checks that could trigger the overdraft feature are not themselves devices).
- The option to use an existing credit card to secure cash advances, when previously the card could only be used for purchases. Paragraph 9(b)(1).

1. Same finance charge terms. If the new means of accessing the account is subject to the same finance charge terms as those previously disclosed, the creditor:

- Need only provide a reminder that the new device or feature is covered by the earlier disclosures. (For example, in mailing special checks that directly access the credit line, the creditor might give a disclosure such as “Use this as you would your XYZ card to obtain a cash advance from our bank”); or
- May remake the § 226.6(a) finance charge disclosures.

Paragraph 9(b)(2).

1. Different finance charge terms. If the finance charge terms are different from those previously disclosed, the creditor may satisfy the requirement to give the finance charge terms either by giving a complete set of new initial disclosures reflecting the terms of the added device or feature or by giving only the finance charge disclosures for the added device or feature.

9(c)(1) Rules affecting home-equity plans and open-end plans that are not credit card accounts.

1. Changes initially disclosed. No notice of a change in terms need be given if the specific change is set forth initially, such as: rate increases under a properly disclosed variable-rate plan, a rate increase that occurs when an employee has been under a preferential rate agreement and terminates employment, or an increase that occurs when the consumer has been under an agreement to maintain a certain balance in a savings account in order to keep a particular rate and the account balance falls below the specified minimum. In contrast, notice must be given if the contract allows the creditor to increase the rate at its discretion but does not include specific terms for an increase (for example, when an increase may occur under the creditor’s contract reservation right to increase the periodic rate). The rules in § 226.5b(f) relating to home-equity plans, however, limit the ability of a creditor to change the terms of such plans.

2. State law issues. Examples of issues not addressed by § 226.9(c)(1) because they are controlled by state or other applicable law include:

i. The types of changes a creditor may make. (But see § 226.9(b)(1).)

ii. How changed terms affect existing balances, such as when a periodic rate is changed and the consumer does not pay off the entire existing balance before the new rate takes effect.

3. Change in billing cycle. Whenever the creditor changes the consumer’s billing cycle, it must give a change-in-terms notice if the change either affects any of the terms required to be disclosed under § 226.6 or increases the minimum payment, unless an exception under § 226.9(c)(1)(ii) applies; for example, the creditor must give advance notice if the creditor initially disclosed a 25-day free-ride period on purchases and the consumer will have fewer days during the billing cycle change.

9(c)(1)(i) Written notice required.

1. Affected consumers. Change-in-terms notices need only go to those consumers who may be affected by the change. For example, a change in the periodic rate for check overdraft credit need not be disclosed to consumers who do not have that feature on their accounts.

2. Timing—effective date of change. The rule that the notice of the change in terms be provided at least 15 days before the change takes effect permits mid-cycle changes when there is clearly no retroactive effect, such as the imposition of a transaction fee. Any change in the balance computation method, in contrast, would need to be disclosed at least 15 days prior to the billing cycle in which the change is to be implemented.

3. Timing—advance notice not required. Advance notice of 15 days is not necessary—that is, a notice of change in terms is required, but it may be mailed or delivered as late as the effective date of the change—in two circumstances:

i. If there is an increased periodic rate or any other finance charge attributable to the consumer’s delinquency or default.

ii. If the consumer agrees to the particular change. This provision is intended for use in the unusual instance when a consumer substitutes collateral or when the creditor can advance additional credit only if a change relatively unique to that consumer is made, such as the consumer’s providing additional security or paying an increased minimum payment amount. Therefore, the following are not “agreements” between the consumer and the creditor for purposes of § 226.9(c)(1)(i): The consumer’s general acceptance of the creditor’s contract reservation of the right to change terms; the consumer’s use of the account (which might imply acceptance of its terms under state law); and the consumer’s acceptance of a unilateral term change that is not particular to that consumer, but rather is of general applicability to consumers with that type of account.
4. Form of change-in-terms notice. A complete new set of the initial disclosures containing the changed term complies with §226.9(c)(1)(i) if the change is highlighted in some way on the disclosure statement, or if the disclosure statement is accompanied by a letter or some other insert that indicates or draws attention to the term change.

5. Security interest change—form of notice. A copy of the security agreement that describes the collateral securing the consumer’s account may be used as the notice, when the term change is the addition of a security interest or the addition or substitution of collateral.

6. Changes to home-equity plans entered into on or after November 7, 1989. Section 226.9(c)(1) applies when, by written agreement under §226.5b(f)(3)(iii), a creditor changes the terms of a home-equity plan—entered into on or after November 7, 1989—at or before its scheduled expiration, for example, by renewing a plan on terms different from the original plan. In disclosing the change:
   i. If the index is changed, the maximum annual percentage rate is increased to the limited extent permitted by §226.30, or a variable-rate feature is added to a fixed-rate plan, the creditor must include the disclosures by §226.5b(d)(12)(x) and (d)(12)(xi), unless these disclosures are unchanged from those given earlier.
   ii. If the minimum payment requirement is changed, the creditor must include the disclosures required by §226.5b(d)(5)(ix) and (d)(12)(xi) unless the disclosures given earlier contained representative examples covering the new minimum payment requirement. (See the commentary to §226.5b(d)(5)(ii), (d)(12)(x) and (d)(12)(xi) for a discussion of representative examples.)
   iii. When the terms are changed pursuant to a written agreement as described in §226.5b(f)(3)(iii), the advance-notice requirement does not apply.

9(c)(1)(iii) Notice for home-equity plans. 1. Written request for reinstatement. If a creditor requires the request for reinstatement of credit privileges to be in writing, the notice under §226.9(c)(1)(iii) must state that fact.

2. Notice not required. A creditor need not provide a notice under this paragraph if, pursuant to the commentary to §226.5b(f)(2), a creditor freezes a line or reduces a credit line rather than terminating a plan and accelerating the balance.

9(c)(2) Rules affecting credit card accounts that are not home-secured.

1. Changes initially disclosed. Except as provided in §226.9(g)(1), no notice of a change in terms need be given if the specific change is set forth initially, such as rate increases under a properly disclosed variable-rate plan. In contrast, notice must be given if the contract allows the creditor to increase the rate at its discretion.

2. State law issues. Some issues are not addressed by §226.9(c)(2) because they are controlled by state or other applicable law. These issues include:
   i. The types of changes a creditor may make.
   ii. How changed terms affect existing balances, such as when a periodic rate is changed and the consumer does not pay off the entire existing balance before the new rate takes effect.

3. Change in billing cycle. Whenever the creditor changes the consumer’s billing cycle, it must give a change-in-terms notice if the change affects any of the terms described in §226.9(c)(2)(i) and (c)(2)(ii), unless an exception under §226.9(c)(2)(v) applies; for example, the creditor must give advance notice if the creditor initially disclosed a 28-

616
day grace period on purchases and the consumer will have fewer days during the billing cycle change.

9(c)(2)(i) Changes where written advance notice is required.

1. Affected consumers. Change-in-terms notices need only go to those consumers who may be affected by the change. For example, a change in the periodic rate for check overdraft credit need not be disclosed to consumers who do not have that feature on their accounts. If a single credit account involves multiple consumers that may be affected by the change, the creditor should refer to §226.5(d) to determine the number of notices that must be given.

2. Timing—effective date of change. The rule that the notice of the change in terms be provided at least 45 days before the change takes effect permits mid-cycle changes when there is clearly no retroactive effect, such as the imposition of a transaction fee. Any change in the balance computation method, in contrast, would need to be disclosed at least 45 days prior to the billing cycle in which the change is to be implemented.

3. Timing—advance notice not required. Advance notice of 45 days is not necessary—that is, a notice of change in terms is required, but it may be mailed or delivered as late as the effective date of the change, if the consumer agrees to the particular change. This provision is intended for use in the unusual instance when a consumer substitutes collateral or when the creditor can advance additional credit only if a change relatively unique to that consumer is made, such as the consumer’s providing additional security or paying an increased minimum payment amount. Therefore, the following are not “agreements” between the consumer and the creditor for purposes of §226.9(c)(2)(i): The consumer’s general acceptance of the creditor’s contract reservation of the right to change terms; the consumer’s use of the account (which might imply acceptance of its terms under state law); and the consumer’s acceptance of a unilateral term change that is not particular to that consumer, but rather is of general applicability to consumers with that type of account.

4. Security interest change—form of notice. A copy of the security agreement that describes the collateral securing the consumer’s account may be used as the notice, when the term change is the addition of a security interest or the addition or substitution of collateral.

9(c)(2)(iii) Charges not covered by §226.9(c)(2)(i).

1. Applicability. Generally, if a creditor increases any component of a charge, or introduces a new charge, for a credit card account under an open-end (not home-secured) consumer credit plan that is not subject to the disclosure requirements under §226.9(c)(2)(i), the creditor may either, at its option (i) provide at least 45 days’ written advance notice before the change becomes effective to comply with the requirements of §226.9(c)(2)(i), or (ii) provide notice orally or in writing, or electronically if the consumer requests the service electronically, of the amount of the change to an affected consumer before the consumer agrees to or becomes obligated to pay the charge, at a time and in a manner that a consumer would be likely to notice the disclosure. For example, a fee for expedited delivery of a credit card is a charge on a credit card account under an open-end (not home-secured) consumer credit plan but is not described in §226.9(c)(2)(i). If a creditor charges the amount of that expedited delivery fee, the creditor may provide written advance notice of the change to affected consumers at least 45 days before the change becomes effective. Alternatively, the creditor may provide oral or written notice, or electronic notice if the consumer requests the service electronically, of the amount of the charge to an affected consumer before the consumer agrees to or becomes obligated to pay the charge, at a time and in a manner that a consumer would be likely to notice the disclosure.

9(c)(2)(iv) Disclosure requirements—changes to terms described in paragraph (c)(2)(i).

1. Clear and conspicuous standard. See comment 5(a)(1)-1 for the clear and conspicuous standard applicable to disclosures required under §226.9(c)(2)(i).

2. Form of change-in-terms notice. A complete new set of the initial disclosures containing the changed term complies with §226.9(c)(2)(i) if the change is highlighted on the disclosure statement, or if the disclosure statement is accompanied by a letter or some other insert that indicates or draws attention to the term being changed.

9(c)(2)(v) Notice not required.

1. Changes not requiring notice. The following are examples of changes that do not require a change-in-terms notice:

i. A change in the consumer’s credit limit except as otherwise required by §226.9(c)(2)(vi).

ii. A change in the name of the credit card or credit card plan.

iii. The substitution of one insurer for another.

iv. A termination or suspension of credit privileges.

v. Changes arising merely by operation of law; for example, if the creditor’s security interest in a consumer’s car automatically extends to the proceeds when the consumer sells the car.

2. Skip features. If a credit program allows consumers to skip or reduce one or more payments during the year, or involves temporary reductions in finance charges, no notice of the change in terms is required either prior to the reduction or upon resumption of

...
the higher rates or payments if these features are explained on the account-opening disclosure statement (including an explanation of the terms upon resumption). For example, a merchant may allow consumers to skip the December payment to encourage holiday shopping, or a teacher's credit union may not require payments during summer vacation. Otherwise, the creditor must give notice prior to resuming the original schedule or rate even though no notice is required prior to the reduction, unless the creditor has previously provided notice of an increase in the annual percentage rate upon the expiration of a specified period of time in accordance with §226.9(c)(v)(B).

3. Changing from a variable rate to a non-variable rate. If a creditor is changing a rate applicable to a consumer's account from a variable rate to a non-variable rate, the creditor must provide a notice as otherwise required under §226.9(c) even if the variable rate at the time of the change is higher than the non-variable rate.

4. Changing from a non-variable rate to a variable rate. If a creditor is changing a rate applicable to a consumer's account from a non-variable rate to a variable rate, the creditor must provide a notice as otherwise required under §226.9(c) even if the non-variable rate is higher than the variable rate at the time of the change.

5. Disclosure of annual percentage rates. If a rate disclosed pursuant to §226.9(c)(2)(v)(B) or (c)(2)(v)(D) is a variable rate, the creditor must disclose the fact that the rate may vary and how the rate is determined. For example, a creditor could state "After October 1, 2009, your APR will be 14.99%. This APR will vary with the market based on the Prime Rate."

6. Deferred interest or similar programs. If the applicable conditions are met, the exception in §226.9(c)(2)(v)(B) applies to deferred interest or similar promotional programs under which the consumer is not obligated to pay interest that accrues on a balance if that balance is paid in full prior to the expiration of a specified period of time. For such programs, a creditor must disclose pursuant to §226.9(c)(2)(v)(B)(1) the length of the deferred interest period and the rate that will apply to the balance subject to the deferred interest program if that balance is not paid in full prior to expiration of the deferred interest period. Examples of language that a creditor may use to make the required disclosures under §226.9(c)(2)(v)(B)(1) include:

i. "No interest if paid in full in 6 months. If the balance is not paid in full in 6 months, interest will be imposed from the date of purchase at a rate of 15.99%."

ii. "No interest if paid in full by December 31, 2010. If the balance is not paid in full by that date, interest will be imposed from the transaction date at a rate of 19%."

7. Disclosure of the terms of a workout or temporary hardship arrangement. In order for the exception in §226.9(c)(2)(v)(D) to apply, the disclosure provided to the consumer pursuant to §226.9(c)(2)(v)(D) must set forth:

i. The annual percentage rate that will apply to balances subject to the workout or temporary hardship arrangement;

ii. The annual percentage rate that will apply to such balances if the consumer completes or fails to comply with the terms of the workout or temporary hardship arrangement; and

iii. If applicable, that the consumer must make timely minimum payments in order to remain eligible for the workout or temporary hardship arrangement.

9(d) Finance Charge Imposed at Time of Transaction

1. Disclosure prior to imposition. A person imposing a finance charge at the time of honoring a consumer's credit card must disclose the amount of the charge, or an explanation of how the charge was determined, prior to its imposition. This must be disclosed before the consumer becomes obligated for property or services that may be paid for by use of a credit card. For example, disclosure must be given before the consumer has dinner at a restaurant, stays overnight at a hotel, or makes a deposit guaranteeing the purchase of property or services.

9(e) Disclosures Upon Renewal of Credit or Charge Card

1. Coverage. This paragraph applies to credit and charge card accounts of the type subject to 226.5a. (See §226.5a(a)(3) and the accompanying commentary for discussion of the types of accounts subject to §226.5a.) The disclosure requirements are triggered when a card issuer imposes any annual or other periodic fee on such an account, whether or not the card issuer originally was required to provide the application and solicitation disclosures described in §226.5a.

2. Form. The disclosures under this paragraph must be clear and conspicuous, but need not appear in a tabular format or in a prominent location. The disclosures need not be in a form the cardholder can retain.

3. Terms at renewal. Renewal notices must reflect the terms actually in effect at the time of renewal. For example, a card issuer that offers a preferential annual percentage rate to employees during their employment must send a renewal notice to employees disclosing the lower rate actually charged to employees (although the card issuer also may show the rate charged to the general public).

4. Variable rate. If the card issuer cannot determine the rate that will be in effect if the cardholder chooses to renew a variable-rate account, the card issuer may disclose
the rate in effect at the time of mailing or delivery of the renewal notice. Alternatively, the card issuer may use the rate as of a specified date (and then update the rate from time to time, for example, each calendar month) or use an estimated rate under § 226.5(c).

5. Renewals more frequent than annual. If a renewal fee is billed more often than annually, the renewal notice should be provided each time the fee is billed. In this instance, the fee need not be disclosed as an annualized amount. Alternatively, the card issuer may provide the notice no less than once every twelve months if the notice explains the amount and frequency of the fee that will be billed during the time period covered by the disclosure, and also discloses the fee as an annualized amount. The notice under this alternative also must state the consequences of a cardholder’s decision to terminate the account after the renewal notice period has expired. For example, if a $2 fee is billed monthly but the notice is given annually, the notice must inform the cardholder that the monthly charge is $2, the annualized fee is $24, and $2 will be billed to the account each month for the coming year unless the cardholder notifies the card issuer. If the cardholder is obligated to pay an amount equal to the remaining unpaid monthly charges if the cardholder terminates the account during the coming year but after the first month, the notice must disclose that fact.

6. Terminating credit availability. Card issuers have some flexibility in determining the procedures for how and when an account may be terminated. However, the card issuer must clearly disclose the time by which the cardholder must act to terminate the account to avoid paying a renewal fee. State and other applicable law govern whether the card issuer may impose requirements such as specifying that the cardholder’s response be in writing or that the outstanding balance be repaid in full upon termination.

7. Timing of termination by cardholder. When a card issuer provides notice under §226.9(e)(2), a cardholder must be given at least 30 days or one billing cycle, whichever is less, from the date the notice is mailed or delivered to make a decision whether to terminate an account. When notice is given under §226.9(e)(2), a cardholder has 30 days from mailing or delivery to decide to terminate an account.

8. Timing of notices. A renewal notice is deemed to be provided when mailed or delivered. Similarly, notice of termination is deemed to be given when mailed or delivered.

9. Prompt reversal of renewal fee upon termination. In a situation where a cardholder has provided timely notice of termination and a renewal fee has been billed to a cardholder’s account, the card issuer must reverse or otherwise withdraw the fee promptly. Once a cardholder has terminated an account, no additional action by the cardholder may be required.

9(e)(3) Notification on Periodic Statements

1. Combined disclosures. If a single disclosure is used to comply with both §§226.9(e) and 226.7, the periodic statement must comply with the rules in §§226.5a and 226.7. For example, the words grace period must be used and the name of the balance calculation method must be identified (if listed in §226.5a(g)) to comply with the requirements of §226.5a, even though the use of those terms would not otherwise be required for periodic statements under §226.7. A card issuer may include some of the renewal disclosures on a periodic statement and others on a separate document so long as there is some reference indicating that they relate to one another. All renewal disclosures must be provided to a cardholder at the same time.

2. Preprinted notices on periodic statements. A card issuer may preprint the required information on its periodic statements. A card issuer that does so, however, using the advance notice option under §226.9(e)(1), must make clear on the periodic statement when the preprinted renewal disclosures are applicable. For example, the card issuer could include a special notice (not preprinted) at the appropriate time that the renewal fee will be billed in the following billing cycle, or could show the renewal date as a regular (preprinted) entry on all periodic statements.

9(f) Change in Credit Card Account Insurance Provider

1. Coverage. This paragraph applies to credit card accounts of the type subject to §226.5a if credit insurance (typically life, disability, and unemployment insurance) is offered on the outstanding balance of such an account. (Credit card accounts subject to §226.9(f) are the same as those subject to §226.9(e); see comment 9(e)-1.) Charge card accounts are not covered by this paragraph.

In addition, the disclosure requirements of this paragraph apply only where the card issuer initiates the change in insurance providers. For example, if the card issuer’s current insurance provider is merged into or acquired by another company, these disclosures would not be required. Disclosures also need not be given in cases where card issuers pay for credit insurance themselves and do not separately charge the cardholder.

2. No increase in rate or decrease in coverage. The requirement to provide the disclosure arises when the card issuer changes the provider of insurance, even if there will be no increase in the premium rate charged the consumer and no decrease in coverage under the insurance policy.

3. Form of notice. If a substantial decrease in coverage will result from the change in providers, the card issuer either must explain the decrease or refer to an accompanying copy of the policy or group certificate for details of the new terms of coverage. (See the commentary to appendix G–13)

4. Discontinuation of insurance. In addition to stating that the cardholder may cancel the insurance, the card issuer may explain the effect the cancellation would have on the consumer’s credit card plan.

5. Mailing by third party. Although the card issuer is responsible for the disclosures, the insurance provider or another third party may furnish the disclosures on the card issuer’s behalf.

9(f)(3) Substantial Decrease in Coverage

1. Determination. Whether a substantial decrease in coverage will result from the change in providers is determined by the two-part test in §226.9(f)(3): First, whether the decrease is in a significant term of coverage; and second, whether the decrease might reasonably be expected to affect a cardholder’s decision to continue the insurance. If both conditions are met, the decrease must be disclosed in the notice.

9(g) Increase in rates due to delinquency or default or as a penalty.

1. Affected consumers. If a single credit account involves multiple consumers that may be affected by the change, the creditor should refer to §226.9(f)(1) to determine the number of notices that must be given.

2. Combining a notice described in §226.9(g)(1) with a notice described in §226.9(c)(2)(i). If a creditor is required to provide notices pursuant to both §226.9(c)(2)(i) and (g)(1) to a consumer, the creditor may combine the two notices. This would occur when penalty pricing has been triggered, and other terms are changing on the consumer’s account at the same time.

3. Clear and conspicuous standard. See comment 9(a)(1)–1 for the clear and conspicuous standard applicable to disclosures required under §226.9(g).

9(g)(4) Exceptions.

9(g)(4)(i) Workout or temporary hardship arrangements. See comment 9(c)(1)(2)(v)–6.

9(g)(4)(ii) Decrease in credit limit.

1. The following illustrates the requirements of §226.9(g)(4)(ii). Assume that a creditor decreased the credit limit applicable to a consumer’s account and sent a notice pursuant to §226.9(g)(4)(ii) on January 1, stating among other things that the penalty rate would apply if the consumer’s balance exceeded the new credit limit as of February 16. If the consumer’s balance exceeded the credit limit on February 16, the creditor could impose the penalty rate on that date. However, a creditor could not apply the penalty rate if the consumer’s balance did not exceed the new credit limit on February 16, even if the consumer’s balance had exceeded the new credit limit on several dates between January 1 and February 15. If the consumer’s balance did not exceed the new credit limit on February 16 but the consumer conducted a transaction on February 17 that caused the balance to exceed the new credit limit, the general rule in §226.9(g)(3)(ii) would apply and the creditor would be required to give an additional 45 days’ notice prior to imposition of the penalty rate (but under these circumstances the consumer would have no ability to cure the over-limit balance in order to avoid penalty pricing).

9(h) Consumer rejection of significant change in terms or increase in annual percentage rate.

9(h)(1) Right to reject.

1. Reasonable requirements for submission of rejections. A creditor may establish reasonable requirements for the submission of rejections of a significant change in terms or other increase in an annual percentage rate for a credit card account. For example:

i. It would be reasonable for a creditor to require that rejections be made by the primary account holder and that the consumer identify the account number.

ii. It would be reasonable for a creditor to require that rejections be made only using the toll-free telephone number disclosed pursuant to §226.9(c) or (g). It would also be reasonable for a creditor to designate additional channels for the submission of rejections (such as an address for rejections submitted by mail) so long as the creditor does not require that rejections be submitted through such additional channels.

iii. It would be reasonable for a creditor to require that rejections be received before the effective date disclosed pursuant to §226.9(c) or (g) and to treat the account as not subject to §226.9(h) if a rejection is received on or after that date. It would not, however, be reasonable to require that rejections be submitted earlier than the day before the effective date. If a creditor is unable to process all rejections received before the effective date, the creditor may delay implementation of the change in terms or rate increase until all rejections have been processed. In the alternative, the creditor could implement the change or increase on the effective date and then, on any account for which a timely rejection was received, reverse the change or increase and remove or credit any interest charges or fees imposed as a result of the change or increase. For example, if the effective date for a rate increase is June 15 and the creditor cannot process all rejections received by telephone on June 14 until June 16, the creditor may delay imposition of the rate increase until June 17. Alternatively, the creditor could impose the increased rate on all affected accounts on June 15 and then,
once all rejections have been processed, return any account for which a timely rejection was received to the prior rate and ensure that the account is not assessed any additional fees as a result of the increased rate or that the account is credited for such interest.

2. Use of account following provision of notice. A consumer does not waive or forfeit the right to reject a significant change in terms or a rate increase by using the account for transactions prior to the effective date of the change or increase. Similarly, a consumer does not revoke a rejection by using the account for transactions after the rejection is received. If, however, the account is used for a transaction more than 14 days after provision of the §226.9(c) or (g) notice, §§226.9(h)(3)(ii) permits the creditor to apply the changed term or increased rate to that transaction even if the consumer rejects the change or increase before the effective date. See example in comment 9(h)(3)(ii)-3.

9(h)(2)(ii) Prohibition on applying changed term or increased rate.

1. Application to promotional rates and deferred interest and similar programs. Section 226.9(h)(2)(i) provides that, when a creditor is notified of a rejection of a significant change to an account term or other increase in an annual percentage rate as provided in §226.9(h)(1), the creditor must not apply the change or increase to the account. However, §226.9(h)(2)(i) does not prohibit a creditor from applying the terms of a pre-existing promotional rate or deferred interest or similar program. The following examples illustrate the application of §226.9(h)(2)(i) in these circumstances:

i. Promotional rates. Assume that a credit card account is opened on January 1 of year one and that, on December 31 of year one, the creditor notifies the consumer of the following promotional program: Interest on purchases made during the six-month period are paid in full by December 31 of year two. On January 15 of year two, the consumer uses the account for a $1,000 purchase. The payment due on September 1 of year two is not received by the creditor until September 15. On that same date, the creditor provides a notice pursuant to §226.9(g) informing the consumer that on October 30, consistent with the terms of the promotional program, interest accrued on the $1,000 purchase will accrue at a non-variable annual percentage rate of 15% but the consumer will not be obligated to pay that accrued interest if all required minimum periodic payments are received by the creditor on or before the payment due date and all purchases made during the six-month period are paid in full by December 31 of year two. On January 15 of year three, the consumer calls the toll-free telephone number and exercises the right to reject. Section 226.9(h)(2)(i) prohibits the creditor from adding the accrued interest to the outstanding balance at this time. However, on January 1 of year three, §226.9(h)(2)(i) does not prohibit the creditor from increasing the rate applicable to the $1,000 balance at this time. However, consistent with the terms of the promotional rate offer, §226.9(h)(2)(i) does not prohibit the creditor from beginning the increased rate on any remaining portion of the $1,000 balance at 15% on October 1. Furthermore, pursuant to §226.9(c)(2)(v)(B), the creditor is not required to provide advance notice of this increase.

ii. Deferred interest and similar programs. Assume that a credit card account is opened on January 1 of year one and that, on December 31 of year one, the creditor notifies the consumer of the following promotional program: Interest on purchases made during the six-month period are paid in full by December 31 of year two. On January 1, the creditor provides a notice pursuant to §226.9(g) informing the consumer that on October 30, consistent with the terms of the promotional program, interest accrued on the $1,000 purchase at 15% since January 15 will be added to the outstanding balance account. The notice also states that the consumer may reject the addition of accrued interest to the outstanding balance by calling a specified toll-free telephone number before October 30 but that, if the consumer does so, credit availability for the account will be terminated. On October 1, the consumer calls the toll-free telephone number and exercises the right to reject. Section 226.9(h)(2)(i) prohibits the creditor from adding the accrued interest to the outstanding balance at this time. However, on January 1 of year three, §226.9(h)(2)(i) does not prohibit the creditor from, consistent with the terms of the promotional program, adding interest accrued on the $1,000 purchase at 15% since January 15 of year two to the outstanding balance if the $1,000 purchase is not paid in full by December 31 of year two. Furthermore, pursuant to §226.9(c)(2)(v)(B), the creditor is not required to provide advance notice of this increase.

9(h)(2)(ii) Prohibition on penalties.

1. Solely as a result of rejection. A creditor is prohibited from imposing a fee or charge or treating an account as in default solely as a result of the consumer’s rejection of a significant change in terms or a rate increase. For example, a creditor is prohibited from imposing a monthly maintenance fee that would be charged only if the consumer rejected the change or increase. A creditor is
not, however, prohibited from continuing to charge a fee that was charged before the rejection. For example, a creditor that charged a periodic fee or a fee for late payment before a change or increase was rejected is not prohibited from charging those fees after rejection of the change or increase.

2. Termination of credit availability. Section 226.9(h)(2)(ii) does not prohibit a creditor from terminating or suspending credit availability if the consumer rejects a significant change in terms or a rate increase. If, however, the creditor elects not to terminate or suspend credit availability for consumers who reject a change or increase, § 226.9(h)(2)(ii) permits the creditor to apply the changed term or increased rate to transactions that occur more than 14 days after provision of the § 226.9(c) or (g) notice. See example in comment 9(h)(3)(ii)-(iii).

9(h)(2)(iii) Repayment of outstanding balance.

1. No less beneficial to the consumer. A creditor may provide a method of repaying the balance subject to § 226.9(h)(2)(iii) that is different from the methods listed in § 226.9(h)(2)(iii) so long as the method used is no less beneficial to the consumer than one of the listed methods. A method is no less beneficial to the consumer if the method results in a required minimum periodic payment that is equal to or less than a minimum payment calculated using the method for the account prior to the date on which the creditor received the rejection. Similarly, a method is no less beneficial to the consumer if the method amortizes the balance in five years or longer or if the method results in a required minimum periodic payment that is equal to or less than a minimum payment calculated consistent with § 226.9(h)(2)(iii)(C).

1. If at account opening the cardholder agreement stated that the required minimum periodic payment would be either the total of fees and interest charges plus 1% of the total amount owed or $20 (whichever is greater), the creditor can require the consumer to make a minimum payment of $20 even if doing so would pay off the balance in less than five years or constitute more than 2% of the balance plus fees and interest charges.

2. A creditor could increase the percentage of the balance included in the required minimum periodic payment from 2% to 5% so long as doing so would not result in amortization of the balance in less than five years.

3. A creditor could require the consumer to make a required minimum periodic payment that amortizes the balance in four years so long as doing so would not more than double the percentage of the balance included in the minimum payment prior to the date on which the creditor was notified of the rejection.

9(h)(2)(iii)(B) Five-year amortization period.

1. Amortization period starting from date on which creditor was notified of rejection. Section 226.9(h)(2)(iii)(B) provides for an amortization period for the balance subject to § 226.9(h)(2)(iii) of no less than five years, beginning no earlier than the date on which the creditor was notified of the rejection. A creditor is not required to recalculate the required minimum periodic payment for the balance if, during the amortization period, the balance is reduced as a result of payments by the consumer in excess of that minimum payment.

2. Amortization when applicable rate is variable. If the annual percentage rate that applies to the balance subject to § 226.9(h)(2)(iii) varies with an index, the creditor may adjust the interest charges included in the required minimum periodic payment for that balance accordingly in order to ensure that the balance is amortized in five years. For example, assume that a variable rate that is currently 15% applies to a balance subject to § 226.9(h)(2)(iii) and that, in order to amortize that balance in five years, the required minimum periodic payment must include a specific amount of principal plus all accrued interest charges. If the 15% variable rate increases due to an increase in the index, the creditor may increase the required minimum periodic payment to include the additional interest charges.

9(h)(2)(iii)(C) Doubling repayment rate.

1. Example. Assume that the method used by a creditor to calculate the required minimum periodic payment for a credit card account requires the consumer to pay either the total of fees and accrued interest charges plus 2% of the total amount owed or $50, whichever is greater. Assume also that, on the date at which the creditor notifies the consumer of the rejection, the account has a balance subject to § 226.9(h)(2)(iii) of $2,000. Following rejection, § 226.9(h)(2)(iii)(C) provides that, beginning no earlier than the date on which the creditor was notified of the rejection, the account has a balance subject to § 226.9(h)(2)(iii) of $2,000. Following rejection, § 226.9(h)(2)(iii)(C) permits the creditor to require the consumer to pay fees and interest plus 4% of the $2,000 balance or $50, whichever is greater.

9(h)(3) Exceptions.

1. Additional circumstances in which § 226.9(h) does not apply. As a general matter, § 226.9(h) applies when § 226.9(c)(2)(iv) or (g)(3) require disclosure of the consumer’s right to reject a significant change to an account term or other increase in an annual percentage rate. Accordingly, in addition to the circumstances listed in § 226.9(h)(3), § 226.9(h) does not apply to home equity plans subject to the requirements of § 226.5b that are accessible by a credit or charge card because § 226.9(c)(2) and 226.9(g) do not apply to such plans. Similarly, § 226.9(h) does not apply when the required minimum periodic payment is increased because § 226.9(c)(2)(iv) does not require disclosure of the right to reject in those circumstances.

9(h)(3)(i) Delinquencies of more than 60 days.
Federal Reserve System

§ 226.9(h)(3)(ii) Transactions that occur more than 14 days after provision of notice.

1. Application of § 226.9(h)(3)(ii). Section 226.9(h)(3)(ii) permits a creditor to apply a changed term or increased rate to transactions that occur more than 14 days after provision of the notice required by § 226.9(c) or (g). Section 226.9(h)(3)(ii) does not, however, permit a creditor to reach back to days before the effective date of the change in terms or rate increase when calculating interest charges. See examples in comment 9(h)(3)(ii)-3. Furthermore, because the exception in § 226.9(h)(3)(ii) is limited to changed terms and increased rates that can be applied to transactions, it does not permit a creditor to apply a changed term to the entire account simply because the account was used for a transaction more than 14 days after provision of a § 226.9(c) or (g) notice. For example, if a consumer rejects an increase in a periodic fee or late payment fee, the creditor is prohibited from applying the increased fee to the account even if the account is used for a transaction more than 14 days after provision of the § 226.9(c) notice. In contrast, § 226.9(h)(3)(ii) does permit a creditor to apply an increased rate or a transaction fee to a transaction that occurred more than 14 days after provision of the § 226.9(c) or (g) notice so long as that increased rate or transaction fee is not applied to other transactions. See examples in comment 9(h)(3)(ii)-3.

2. More than 14 days after provision of notice. Whether a transaction occurred prior to provision of a notice or within 14 days after provision of a notice is generally determined by the date of the transaction. However, if a transaction that occurred within 14 days after provision of the notice is not charged to the account prior to the effective date of the change or increase, the creditor may treat the transaction as occurring more than 14 days after provision of the notice for purposes of § 226.9(h)(3)(ii). See example in comment 9(h)(3)(ii)-3. In addition, when a merchant places a "hold" on the available credit on an account for an estimated transaction amount because the actual transaction amount will not be known until a later date, the date of the transaction for purposes of § 226.9(h)(3)(ii) is the date on which the actual transaction amount is charged to the account. See example in comment 9(h)(3)(ii)-3.

3. Examples. The following examples illustrate the application of § 226.9(h)(3)(ii):

i. Use of account after notice provided. Assume that a credit card account is opened on January 1 of year one and that the payment due date for the account is the fifteenth day of the month. On June 20, the consumer calls the toll-free telephone number and rejects the increase. On June 20, the creditor provides a notice pursuant to § 226.9(g) informing the consumer that the rate for the $2,000 balance and for new purchases will increase to a non-variable annual percentage rate of 17% and the creditor will not apply the increased fee to the account so long as that increased rate or transaction fee is not applied to other transactions. See examples in comment 9(h)(3)(ii)-3.

ii. More than 14 days after provision of notice. On May 15, the creditor provides a notice pursuant to § 226.9(c) informing the consumer that the rate for the $2,000 balance and for new purchases will increase to a non-variable annual percentage rate of 15% and the creditor will not apply the increased fee to the account so long as that increased rate or transaction fee is not applied to other transactions. See examples in comment 9(h)(3)(ii)-3.

iii. Transactions that occur more than 14 days after provision of notice. On March 15, the creditor provides a notice pursuant to § 226.9(c) informing the consumer that the rate for the $2,000 balance and for new purchases will increase to a non-variable annual percentage rate of 15% and the creditor will not apply the increased fee to the account so long as that increased rate or transaction fee is not applied to other transactions. See examples in comment 9(h)(3)(ii)-3.

Federal Reserve System
Pt. 226, Supp. I

623
a non-variable rate of 18% on April 30. The notice further states that the consumer may reject the increase by calling a specified toll-free telephone number before April 30 but that, if the consumer does so, credit availability for the account will be terminated. The fourteenth day after provision of the notice is March 29 and, on that date, the consumer makes a $500 purchase. On March 30, the consumer makes a $500 purchase. On April 1, the consumer calls the toll-free telephone number and rejects the increase. On April 5, a $150 automated recurring charge is honored by the creditor. On April 30, §226.9(h)(3)(ii) permits the creditor to begin accruing interest at 18% on the $500 purchase made on March 30 and the $150 transaction made on April 5. The creditor may not, however, apply the 18% rate to the $2,200 purchase balance as of March 29 because that balance reflects transactions that occurred prior to or within 14 days of the provision of the §226.9(c) notice. Similarly, the restrictions in §226.9(h)(2)(ii) and (iii) apply to the $2,200 purchase balance as of March 29 but not the $500 purchase made on March 30 and the $150 charge made on April 5.

ii. Credit availability not terminated after rejection. Same facts as paragraph i. above except that the §226.9(c) notice does not state that the creditor will terminate credit availability if the consumer rejects the increase which the consumer does on April 1. On April 30, §226.9(h)(3)(ii) permits the creditor to begin accruing interest at 18% on the $500 purchase made on March 30 and the $150 transaction made on April 5. The creditor may not, however, apply the 18% rate to the $2,200 purchase balance as of March 29 because that balance reflects transactions that occurred prior to or within 14 days of the provision of the §226.9(c) notice. Similarly, the restrictions in §226.9(h)(2)(ii) and (iii) apply to the $2,200 purchase balance as of March 29 but not the $500 purchase made on March 30 and the $150 charge made on April 5.

iii. Hold on available credit. Assume that a credit card account is opened on January 1 of year one. On September 14 of year two, the account has a purchase balance of $1,000 at a non-variable annual percentage rate of 17%. On September 15, the creditor provides a notice pursuant to §226.9(c) informing the consumer that the rate for the $1,000 balance and for new purchases will increase to a non-variable rate of 20% on October 30. The notice further states that the consumer may reject the increase by calling a specified toll-free telephone number before October 30 but that, if the consumer does so, credit availability for the account will be terminated. The fourteenth day after provision of the notice is September 29. On that date, the consumer uses the credit card to check into a hotel and obtains authorization for a $750 hold on the account to ensure there is adequate available credit to cover the anticipated cost of the stay. On October 1, the consumer calls the toll-free telephone number and rejects the increase. When the consumer checks out of the hotel on October 2, the actual cost of the stay is $850 because of additional incidental costs. On October 2, the $850 transaction is charged to the account by the hotel and honored by the creditor. For purposes of §226.9(h)(3)(iii), the transaction occurred on October 2.

iv. Transaction charged to account after effective date. Same facts as paragraph iii. above except that the $850 transaction is not charged to the account by the hotel until November 1. For purposes of §226.9(h)(3)(i), the creditor may treat the transaction as occurring more than 14 days after provision of the §226.9(c) notice (i.e., after September 29).

Statute: Section 127(a)(7).
Other sections: Sections 226.4 through 226.7 and appendix G.
Previous regulation: Section 226.7 (d) through (f) and (j) and Interpretation §§226.705 and 226.708.

1981 changes: Section 226.9(a) implements the statutory change that the long-form statement of billing rights be provided only once a year. The provision now permits two rather than one means of providing the long-form statement to consumers. The verbatim text of the annual statement is no longer required; creditors may use any version "substantially similar" to the one in appendix G. If the creditor elects to use the alternative summary statement, the new regulation no longer requires that the long-form statement be sent upon receiving a billing error notice and at the consumer's request. The rules in §§226.708 on switching the type of billing rights statement used have been modified.

Under §226.9(b) disclosure requirements have been streamlined when supplemental credit devices or new credit features are added to an existing open-end plan. Section 226.9(c) substantially changes the change-in-terms rules. Change-in-terms disclosures must now be made 15 days before the effective date of the change, rather than 15 days before the billing cycle in which the change will take effect. The kinds of changes that will trigger disclosures have been reduced: change-in-terms notices are no longer required for the types of changes described in §226.9(c)(2). But the provision reverses Interpretation §226.705, which indicated that certain changes in the balance computation method did not require disclosure because they could result in lowered finance charges; now, any change in the balance computation method requires disclosure.

When a finance charge is imposed at the time of a transaction, §226.9(d) only requires disclosure of the finance charge at point of
sale; the amount financed and annual percentage rate figured in accordance with the closed-end credit provisions need no longer be disclosed. Furthermore, the finance charge disclosure now may be made orally by the person honoring the card.

Section 226.10—Prompt Crediting of Payments
10(a) General rule.
1. Crediting date. Section 226.10(a) does not require the creditor to post the payment to the consumer’s account on a particular date; the creditor is only required to credit the payment as of the date of receipt.
2. Date of receipt. The “date of receipt” is the date that the payment instrument or other means of completing the payment reaches the creditor. For example:
   • Payment by check is received when the creditor gets it, not when the funds are collected.
   • In a payroll deduction plan in which funds are deposited to an asset account held by the creditor, and from which payments are made periodically to an open-end credit account, payment is received on the date when it is debited to the asset account (rather than on the date of the deposit), provided the payroll deduction method is voluntary and the consumer retains use of the funds until the contractual payment date.
   • If the consumer elects to have payment made by a third-party payor such as a financial institution, through a preauthorized payment or telephone bill-payment arrangement, payment is received when the creditor gets the third-party payor’s check or other transfer medium, such as an electronic fund transfer, as long as the payment meets the creditor’s requirements as specified under §226.10(b).
10(b) Specific requirements for payments.
1. Payment requirements. The creditor may specify requirements for making payments, such as:
   • Requiring that payments be accompanied by the account number or the payment stub.
   • Setting a cut-off hour for payment to be received, or set different hours for payment by mail and payments made in person.
   • Specifying that only checks or money orders should be sent by mail.
   • Specifying that payment is to be made in U.S. dollars.
   • Specifying one particular address for receiving payments, such as a post office box.
The creditor may be prohibited, however, from specifying payment by preauthorized electronic fund transfer. (See section 913 of the Electronic Fund Transfer Act.)
2. Payment requirements—limitations. Requirements for making payments must be reasonable; it should not be difficult for most consumers to make conforming payments. For example, it would not be reasonable to require that all payments be made in person between 10 a.m. and 11 a.m., since this would require consumers to take time off from their jobs to deliver payments.
3. Acceptance of non-conforming payments. If the creditor accepts a non-conforming payment (for example, payment at a branch office, when it had specified that payment be sent to headquarters), finance charges may accrue for the period between receipt and crediting of payments.
4. Implied guidelines for payments. In the absence of specified requirements for making payments (see §226.10(b)),
   • Payments may be made at any location where the creditor conducts business.
   • Payments may be made any time during the creditor’s normal business hours.
   • Payments may be made by cash, money order, draft, or other similar instrument in properly negotiable form, or by electronic fund transfer if the creditor and consumer have so agreed.

References
Statute: Section 164.
Other sections: Section 226.7.
1981 changes: Much of the explanatory detail of the previous regulation is now in the commentary. The revised regulation gives the creditor 5 days in which to credit non-conforming payments, whereas the previous regulation required the crediting of such payments promptly, with an outside limit of 5 days. The 5 days in which to credit are available whenever the creditor accepts payment that does not conform to the creditor’s disclosed specifications, in contrast to the previous regulation, which only allowed deferred crediting for payments made at the wrong location.

Section 226.11—Treatment of Credit Balances
1. Timing of refund. The creditor may also fulfill its obligations under §226.11 by:
   • Refunding any credit balance to the consumer immediately.
   • Refunding any credit balance prior to receiving a written request (under §226.11(b)) from the consumer.
   • Making a good faith effort to refund any credit balance before 6 months have passed.
If that attempt is unsuccessful, the creditor need not try again to refund the credit balance at the end of the 6-month period.
2. Amount of refund. The phrase any part of the credit balance remaining in the account in §226.11(b) and (c) means the amount of the credit balance at the time the creditor is required to make the refund. The creditor may take into consideration intervening purchases or other debits to the consumer’s account (including those that have not yet been reflected on a periodic statement) that decrease or eliminate the credit balance.

Paragraph 11(b).
Pt. 226, Supp. I

1. Written requests—standing orders. The creditor is not required to honor standing orders requesting refunds of any credit balance that may be created on the consumer's account.

Paragraph 11(c).
1. Good faith effort to refund. The creditor must take positive steps to return any credit balance that has remained in the account for over 6 months. This includes, if necessary, attempts to trace the consumer through the consumer's last known address or telephone number, or both.

2. Good faith effort unsuccessful. Section 226.11 imposes no further duties on the creditor if a good faith effort to return the balance is unsuccessful. The ultimate disposition of the credit balance (or any credit balance of $1 or less) is to be determined under other applicable law.

References
Statute: Section 165.
Previous regulation: Section 226.7(h).

3. 1981 changes: Under the previous regulation, the creditor's duty to refund credit balances applied only to "excess payments"; §226.11 of the revised regulation implements the amendments to section 165 of the statute which impose refunding duties on the creditor whatever the source of the credit balance. The revised regulation permits the creditor, in computing the refund, to take account of intervening debits, not just the difference between the previous balance and the overpayment as is provided in the previous regulation. The revised regulation gives the creditor 7 business days in which to make the refund after receiving the consumer's written request, whereas the previous regulation required the creditor to make the refund promptly, with an outside limit of 5 business days. This provision also implements the amended statute by requiring a good faith effort to refund the credit balance after 6 months.

Section 226.12—Special Credit Card Provisions

1. Scope. Sections 226.12(a) and (b) deal with the issuance and liability rules for credit cards, whether the card is intended for consumer, business, or any other purposes. Sections 226.12(a) and (b) are exceptions to the general rule that the regulation applies only to consumer credit. (See §§ 226.1 and 226.3.)

12(a) Issuance of credit cards.

Paragraph 12(a)(1)
1. Explicit request. A request or application for a card must be explicit. For example, a request for overdraft privileges on a checking account does not constitute an application for a credit card with overdraft checking features.

2. Addition of credit features. If the consumer has a non-credit card, the addition of credit features to the card (for example, the granting of overdraft privileges on a checking account when the consumer already has a check guarantee card) constitutes issuance of a credit card.

3. Variance of card from request. The request or application need not correspond exactly to the card that is issued. For example:

• The name of the card requested may be different when issued.

• The card may have features in addition to those reflected in the request or application.

4. Permissible form of request. The request or application may be oral (in response to a telephone solicitation by a card issuer, for example) or written.

5. Time of issuance. A credit card may be issued in response to a request made before any cards are ready for issuance (for example, if a new program is established), even if there is some delay in issuance.

6. Persons to whom cards may be issued. A card issuer may issue a credit card to the person who requests it, and to anyone else for whom that person requests a card and who will be an authorized user on the requester's account. In other words, cards may be sent to consumer A on A's request, and also (on A's request) to consumers B and C, who will be authorized users on A's account.

In these circumstances, the following rules apply:

• The additional cards may be imprinted in either A's name or in the names of B and C.

• No liability for unauthorized use (by persons other than B and C), not even the $50, may be imposed on B or C since they are merely users and not cardholders as that term is defined in §226.2 and used in §226.12(b); of course, liability of up to $50 for unauthorized use of B's and C's cards may be imposed on A.

• Whether B and C may be held liable for their own use, or on the account generally, is a matter of state or other applicable law.

7. Issuance of non-credit cards. i. General. Under §226.12(a)(1), a credit card cannot be issued except in response to a request or an application. (See comment 2(a)(1)-2 for examples of cards or devices that are and are not credit cards.) A non-credit card may be sent on an unsolicited basis by an issuer that does not propose to connect the card to any credit plan; a credit feature may be added to a previously issued non-credit card only upon the consumer's specific request.

ii. Examples. A purchase-price discount card may be sent on an unsolicited basis by an issuer that does not propose to connect the card to any credit plan. An issuer demonstrates that it proposes to connect the card to a credit plan by, for example, including promotional materials about credit features or account agreements and disclosures required by §226.6. The issuer will violate the
rule against unsolicited issuance if, for example, at the time the card is sent a credit plan can be accessed by the card or the recipient of the unsolicited card has been preapproved for credit that the recipient can access by contacting the issuer and activating the card.

8. Unsolicited issuance of PINs. A card issuer may issue personal identification numbers (PINs) to existing credit cardholders without a specific request from the cardholders, provided the PINs cannot be used alone to obtain credit. For example, the PINs may be necessary if consumers wish to use their existing credit cards at automated teller machines or at merchant locations with point-of-sale terminals that require PINs.

Paragraph 12(a)(2)

1. Renewal. Renewal generally contemplates the regular replacement of existing cards because of, for example, security reasons or new technology or systems. It also includes the re-issuance of cards that have been suspended temporarily, but does not include the opening of a new account after a previous account was closed.

2. Substitution—examples. Substitution encompasses the replacement of one card with another because the underlying account relationship has changed in some way—such as when the card issuer has:
   • Changed its name.
   • Changed the name of the card.
   • Changed the credit or other features available on the account. For example, the original card could be used to make purchases and obtain cash advances at teller windows. The substitute card might be usable, in addition, for obtaining cash advances through automated teller machines. (If the substitute card constitutes an access device, as defined in Regulation E, then the Regulation E issuance rules would have to be followed.) The substitution of one card with another on an unsolicited basis is not permissible, however, where in conjunction with the substitution an additional credit card account is opened and the consumer is able to make new purchases or advances under both the original and the new account with the new card. For example, if a retail card issuer replaces its credit card with a combined retailer/bank card, each of the creditors maintains a separate account, and both accounts can be accessed for new transactions by use of the new credit card, the card cannot be provided to a consumer without solicitation.
   • Substituted a card user’s name on the substitute card for the cardholder’s name appearing on the original card.
   • Changed the merchant base. However, the new card must be honored by at least one of the persons that honored the original card.
3. Substitution—successor card issuer. Substitution also occurs when a successor card issuer replaces the original card issuer (for example, when a new card issuer purchases the accounts of the original issuer and issues its own card to replace the original one). A permissible substitution exists even if the original issuer retains the existing receivables and the new card issuer acquires the right only to future receivables, provided use of the original card is cut off when use of the new card becomes possible.

4. Substitution—non-credit-card plan. A credit card that replaces a retailer’s open-end credit plan not involving a credit card is not considered a substitute for the retailer’s plan—even if the consumer used the retailer’s plan. A credit card cannot be issued in these circumstances without a request or application.

5. One-for-one rule—exceptions. The regulation does not prohibit the card issuer from:
   i. Replacing a debit/credit card with a credit card and another card with only debit functions (or debit functions plus an associated overdraft capability), since the latter card could be issued on an unsolicited basis under Regulation E.
   ii. Replacing an accepted card with more than one renewal or substitute card, provided that:
      A. No replacement card accesses any account not accessed by the accepted card;
      B. For terms and conditions required to be disclosed under §226.6, all replacement cards are issued subject to the same terms and conditions, except that a creditor may vary terms for which no change in terms notice is required under §226.9(c); and
      C. Under the account’s terms the consumer’s total liability for unauthorized use with respect to the account does not increase.
6. Methods of terminating replaced card. The card issuer need not physically retrieve the original card, provided the old card is voided in some way; for example:
   • The issuer includes with the new card a notification that the existing card is no longer valid and should be destroyed immediately.
   • The original card contained an expiration date.
   • The card issuer, in order to preclude use of the card, reprograms computers or issues instructions to authorization centers.

8. Incomplete replacement. If a consumer has duplicate credit cards on the same account
(Card A—one type of bank credit card, for example), the card issuer may not replace the duplicate cards with one Card A and one Card B (Card B—one type of bank credit card). In these circumstances, the consumer requests Card B.

9. Multiple entities. Where multiple entities share responsibilities with respect to a credit card issued by one of them, the entity that issued the card may replace it on an unsolicited basis, if that entity terminates the original card by voiding it in some way, as described in comment 12(a)(2)-7. The other entity or entities may not issue a card on an unsolicited basis in these circumstances.

12(b) Liability of cardholder for unauthorized use.

1. Meaning of cardholder. For purposes of this provision, cardholder includes any person (including organizations) to whom a credit card is issued for any purpose, including business. When a corporation is the cardholder, required disclosures should be provided to the corporation (as opposed to an employee user).

2. Imposing liability. A card issuer is not required to impose liability on a cardholder for the unauthorized use of a credit card; if the card issuer does not seek to impose liability, the issuer need not conduct any investigation of the cardholder’s claim.

3. Reasonable investigation. If a card issuer seeks to impose liability when a claim of unauthorized use is made by a cardholder, the card issuer must conduct a reasonable investigation of the claim. In conducting its investigation, the card issuer may reasonably request the cardholder’s cooperation. The card issuer may not automatically deny a claim based solely on the cardholder’s failure or refusal to comply with a particular request; however, if the card issuer otherwise has no knowledge of facts confirming the unauthorized use, the lack of information resulting from the cardholder’s failure or refusal to comply with a particular request may lead the card issuer reasonably to terminate the investigation. The procedures involved in investigating claims may differ, but actions such as the following represent steps that a card issuer may take, as appropriate, in conducting a reasonable investigation:

   i. Reviewing the types or amounts of purchases made in relation to the cardholder’s previous purchasing pattern.

   ii. Reviewing where the purchases were delivered in relation to the cardholder’s residence or place of business.

   iii. Reviewing where the purchases were made in relation to where the cardholder resides or has normally shopped.

   iv. Comparing any signature on credit slips for the purchases to the signature of the cardholder or an authorized user in the card issuer’s records, including other credit slips.

   v. Requesting documentation to assist in the verification of the claim.

vi. Requesting a written, signed statement from the cardholder or authorized user.

vii. Requesting a copy of a police report, if one was filed.

viii. Requesting information regarding the cardholder’s knowledge of the person who allegedly used the card or of that person’s authority to do so.

12(b)(1) Limitation on amount.

1. Meaning of authority. Footnote 22 defines unauthorized use in terms of whether the user has actual, implied, or apparent authority.

2. Liability limits—dollar amounts. As a general rule, the cardholder’s liability for a series of unauthorized uses cannot exceed either $50 or the value obtained through unauthorized use before the card issuer is notified, whichever is less.

12(b)(2) Conditions of liability.

1. Issuer’s option not to comply. A card issuer that chooses not to impose any liability on cardholders for unauthorized use need not comply with the disclosure and identification requirements discussed below.

Paragraph 12(b)(2)(i).

1. Disclosure of liability and means of notifying issuer. The disclosures referred to in §226.12(b)(2)(ii) may be given, for example, with the initial disclosures under §226.6, on the credit card itself, or on periodic statements. They may be given at any time preceding the unauthorized use of the card.

Paragraph 12(b)(2)(ii).

1. Means of identifying cardholder or user. To fulfill the condition set forth in §226.12(b)(2)(ii), the issuer must provide some method whereby the cardholder or the authorized user can be identified. This could include, for example, signature, photograph, or fingerprint on the card, or electronic or mechanical confirmation.

2. Identification by magnetic strip. Unless a magnetic strip (or similar device not read able without physical aids) must be used in conjunction with a secret code or the like, it would not constitute sufficient means of identification. Sufficient identification also does not exist if a pool or group card, issued to a corporation and signed by a corporate agent who will not be a user of the card, is intended to be used by another employee for whom no means of identification is provided.

3. Transactions not involving card. The cardholder may not be held liable under §226.12(b) when the card itself (or some other sufficient means of identification of the cardholder) is not presented. Since the issuer has not provided a means to identify the user under these circumstances, the issuer has not fulfilled one of the conditions for imposing liability. For example, when merchandise is ordered by telephone by a person without authority to do so, using a credit card account number or other number only (which may be
widely available), no liability may be imposed on the cardholder.

12(b)(3) Notification to card issuer.
1. How notice must be provided. Notice given in a normal manner—for example, by mail, telephone, or personal visit—is effective even though it is not given to, or does not reach, some particular person within the issuer's organization. Notice also may be effective even though it is not given at the address or phone number disclosed by the card issuer under §226.12(b)(2)(ii).
2. Who must provide notice. Notice of loss, theft, or possible unauthorized use need not be initiated by the cardholder. Notice is sufficient so long as it gives the pertinent information which would include the name or card number of the cardholder and an indication that unauthorized use has or may have occurred.
3. Relationship to §226.13. The liability protections afforded to cardholders in §226.12 do not depend upon the cardholder's following the error resolution procedures in §226.13. For example, the written notification and time limit requirements of §226.13 do not affect the section 226.12 protections. 12(b)(5) Business use of credit cards.
1. Agreement for higher liability for business use cards. The card issuer may not rely on §226.12(b)(5) if the business is clearly not in a position to provide 10 or more cards to employees (for example, if the business has only 3 employees). On the other hand, the issuer need not monitor the personnel practices of the business to make sure that it has at least 10 employees at all times.
2. Unauthorized use by employee. The protections afforded to employees against liability for unauthorized use in excess of the limits set in §226.12(b) applies only to unauthorized use by someone other than the employee. If the employee uses the card in an unauthorized manner, the regulation sets no restriction on the employee's potential liability for such use.
12(c) Right of cardholder to assert claims or defenses against card issuer.
1. Relationship to §226.13. The §226.12(c) credit card “holder in due course” provision deals with the consumer's right to assert against the card issuer a claim or defense concerning property or services purchased with a credit card, if the merchant has been unwilling to resolve the dispute. Even though certain merchandise disputes, such as non-delivery of goods, may also constitute “billing errors” under §226.12, that section operates independently of §226.12(c). The cardholder whose asserted billing error involves undelivered goods may institute the error resolution procedures of §226.13, but whether or not the cardholder has done so, the cardholder may assert claims or defenses under §226.12(c). Conversely, the consumer may pay a disputed balance and thus have no further right to assert claims and defenses, but still may assert a billing error if notice of that billing error is given in the proper time and manner. An assertion that a particular transaction resulted from unauthorized use of the card could also be both a “defense” and a billing error.
2. Claims and defenses assertible. Section 226.12(c) merely preserves the consumer's right to assert against the card issuer any claims or defenses that can be asserted against the merchant. It does not determine what claims or defenses are valid as to the merchant; this determination must be made under state or other applicable law.
12(c)(1) General rule.
1. Situations excluded and included. The consumer may assert claims or defenses only when the goods or services are “purchased with the credit card.” This could include:
• Mail or telephone orders, if the purchase is charged to the credit card account.
But it would exclude:
• Use of a credit card to obtain a cash advance, even if the consumer then uses the money to purchase goods or services. Such a transaction would not involve “property or services purchased with the credit card.”
• The purchase of goods or services by use of a check accessing an overdraft account and a credit card used solely for identification of the consumer. (On the other hand, if the credit card is used to make partial payment for the purchase and not merely for identification, the right to assert claims or defenses would apply to credit extended via the credit card, although not to the credit extended on the overdraft line.)
• Purchases made by use of a check guarantee card in conjunction with a cash advance check (or by cash advance checks alone). See footnote 24. A cash advance check is a check that, when written, does not draw on an asset account; instead, it is charged entirely to an open-end credit account.
• Purchases effected by use of either a check guarantee card or a debit card when used to draw on overdraft credit lines (see footnote 24). The debit card exemption applies whether the card accesses an asset account via point-of-sale terminals, automated teller machines, or in any other way, and whether the card qualifies as an “access device” under Regulation E or is only a paper-based debit card. If a card serves both as an ordinary credit card and also as check guarantee or debit card, a transaction will be subject to this rule on asserting claims and defenses when used as an ordinary credit card, but not when used as a check guarantee or debit card.
12(c)(2) Adverse credit reports prohibited.
1. Scope of prohibition. Although an amount in dispute may not be reported as delinquent until the matter is resolved.
§ 226.12(d) Offsets by card issuer prohibited.

1. Security interest—limitations. In order to qualify for the exception stated in § 226.12(d)(2), a security interest must be affirmatively agreed to by the consumer and must be disclosed in the issuer’s initial disclosures under § 226.6. The security interest must not be the functional equivalent of a right of offset; as a result, routinely including in agreements contract language indicating that consumers are giving a security interest in any deposit accounts maintained with the issuer does not result in a security interest that falls within the exception in § 226.12(d)(2). For a security interest to qualify for the exception under § 226.12(d)(2) the following conditions must be met:

- The consumer must be aware that granting a security interest is a condition for the credit card account (or for more favorable account terms) and must specifically intend to grant a security interest in a deposit account. Indicia of the consumer’s awareness and intent could include, for example:
  - Separate signature or initials on the agreement indicating that a security interest is being given.
  - Placement of the security agreement on a separate page, or otherwise separating the security interest provisions from other contract and disclosure provisions.
  - Reference to a specific amount of deposited funds or to a specific deposit account number.

2. Funds intended as deposits. If the consumer tenders funds as a deposit (to a checking account, for example), the card issuer may not apply the funds to repay indebtedness on the consumer’s credit card account.

3. Types of indebtedness; overdraft accounts.
   The offset prohibition applies to any indebtedness arising from transactions under a credit card plan, including accrued finance charges and other charges on the account. The prohibition also applies to balances arising from transactions not using the credit card itself but taking place under plans that involve credit cards. For example, if the consumer writes a check that accesses an overdraft line of credit, the resulting indebtedness is subject to the offset prohibition since it is incurred through a credit card plan, even though the consumer did not use an associated check guarantee or debit card.

4. When prohibition applies in case of termination of account. The offset prohibition applies even after the card issuer terminates the cardholder’s credit card privileges, if the indebtedness was incurred prior to termination. If the indebtedness was incurred after termination, the prohibition does not apply.

Paragraph 12(d)(2).

1. Security interest—limitations. In order to qualify for the exception stated in § 226.12(d)(2), a security interest must be affirmatively agreed to by the consumer and must be disclosed in the issuer’s initial disclosures under § 226.6. The security interest must not be the functional equivalent of a right of offset; as a result, routinely including in agreements contract language indicating that consumers are giving a security interest in any deposit accounts maintained with the issuer does not result in a security interest that falls within the exception in § 226.12(d)(2). For a security interest to qualify for the exception under § 226.12(d)(2) the following conditions must be met:

- The consumer must be aware that granting a security interest is a condition for the credit card account (or for more favorable account terms) and must specifically intend to grant a security interest in a deposit account. Indicia of the consumer’s awareness and intent could include, for example:
  - Separate signature or initials on the agreement indicating that a security interest is being given.
  - Placement of the security agreement on a separate page, or otherwise separating the security interest provisions from other contract and disclosure provisions.
  - Reference to a specific amount of deposited funds or to a specific deposit account number.

12(c)(3) Limitations.
Paragraph 12(c)(3)(ii).

1. Resolution with merchant. The consumer must have tried to resolve the dispute with the merchant. This does not require any special procedures or correspondence between them, and is a matter of factual determination in each case. The consumer is not required to seek satisfaction from the manufacturer of the goods involved. When the merchant is in bankruptcy proceedings, the consumer is not required to file a claim in those proceedings.

Paragraph 12(c)(3)(ii).

1. Geographic limitation. The question of where as transaction occurs (as in the case of mail or telephone orders, for example) is to be determined under state or other applicable law.

2. Merchant honoring card. The exceptions (stated in footnote 26) to the amount and geographic limitations do not apply if the merchant merely honors, or indicates through signs or advertising that it honors, a particular credit card.

12(d) Offsets by card issuer prohibited.

Paragraph 12(d)(1).

1. Holds on accounts. "Freezing" or placing a hold on funds in the cardholder’s deposit account is the functional equivalent of an offset and would contravene the prohibition in § 226.12(d)(1), unless done in the context of one of the exceptions specified in § 226.12(d)(2). For example, if the terms of a security agreement permitted the card issuer to place a hold on the funds, the hold would not violate the offset prohibition. Similarly, if an order of a bankruptcy court required the card issuer to turn over deposit account funds to the trustee in bankruptcy, the issuer would not violate the regulation by placing a hold on the funds in order to comply with the court order.

2. Funds intended as deposits. If the consumer tenders funds as a deposit (to a checking account, for example), the card issuer may not apply the funds to repay indebtedness on the consumer’s credit card account.

3. Types of indebtedness; overdraft accounts.
   The offset prohibition applies to any indebtedness arising from transactions under a credit card plan, including accrued finance charges and other charges on the account. The prohibition also applies to balances arising from transactions not using the credit card itself but taking place under plans that involve credit cards. For example, if the consumer writes a check that accesses an overdraft line of credit, the resulting indebtedness is subject to the offset prohibition since it is incurred through a credit card plan, even though the consumer did not use an associated check guarantee or debit card.

4. When prohibition applies in case of termination of account. The offset prohibition applies even after the card issuer terminates the cardholder’s credit card privileges, if the indebtedness was incurred prior to termination. If the indebtedness was incurred after termination, the prohibition does not apply.

Paragraph 12(d)(2).

1. Security interest—limitations. In order to qualify for the exception stated in § 226.12(d)(2), a security interest must be affirmatively agreed to by the consumer and must be disclosed in the issuer’s initial disclosures under § 226.6. The security interest must not be the functional equivalent of a right of offset; as a result, routinely including in agreements contract language indicating that consumers are giving a security interest in any deposit accounts maintained with the issuer does not result in a security interest that falls within the exception in § 226.12(d)(2). For a security interest to qualify for the exception under § 226.12(d)(2) the following conditions must be met:

- The consumer must be aware that granting a security interest is a condition for the credit card account (or for more favorable account terms) and must specifically intend to grant a security interest in a deposit account. Indicia of the consumer’s awareness and intent could include, for example:
  - Separate signature or initials on the agreement indicating that a security interest is being given.
  - Placement of the security agreement on a separate page, or otherwise separating the security interest provisions from other contract and disclosure provisions.
  - Reference to a specific amount of deposited funds or to a specific deposit account number.

12 CFR Ch. II (1–1–10 Edition)
Federal Reserve System

• The security interest must be obtainable and enforceable by creditors generally. If other creditors could not obtain a security interest in the consumer’s deposit accounts to the same extent as the card issuer, the security interest is prohibited by §226.12(d)(2).

2. Security interest—after-acquired property. As used in §226.12(d), the term security interest does not exclude (as it does for other Regulation Z purposes) interests in after-acquired property. Thus, a consensual security interest in deposit-account funds, including funds deposited after the granting of the security interest, would constitute a permissible exception to the prohibition on offsets.

3. Court order. If the card issuer obtains a judgment against the cardholder, and if State and other applicable law and the terms of the judgment do not so prohibit, the card issuer may offset the indebtedness against the cardholder’s deposit account.

Paragraph 12(e)(3).

1. Automatic payment plans—scope of exception. With regard to automatic debit plans under §226.12(d)(3), the following rules apply:

• The cardholder’s authorization must be in writing and signed or initialed by the cardholder.

• The authorizing language need not appear directly above or next to the cardholder’s signature or initials, provided it appears on the same document and that it clearly spells out the terms of the automatic debit plan.

• If the cardholder has the option to accept or reject the automatic debit feature (such option may be required under section 913 of the Electronic Fund Transfer Act), the fact that the option exists should be clearly indicated.

2. Automatic payment plans—additional exceptions. The following practices are not prohibited by §226.12(d)(1):

• Automatically deducting charges for participation in a program of banking services (one aspect of which may be a credit card plan).

• Debiting the cardholder’s deposit account on the cardholder’s specific request rather than on an automatic periodic basis (for example, a cardholder might check a box on the credit card bill stub, requesting the issuer to debit the cardholder’s account to pay that bill).

12(e) Prompt notification of returns and crediting of refunds.

Paragraph 12(e)(1).

1. Normal channels. The term normal channels refers to any network or interchange system used for the processing of the original charge slips (or equivalent information concerning the transaction).

Paragraph 12(e)(2).

1. Crediting account. The card issuer need not actually post the refund to the consumer’s account within 3 business days after receiving the credit statement, provided that it credits the account as of a date within that time period.

References

Other sections: Section 226.13.

Other regulations: Regulation E (12 CFR 205).

Previous regulation: Section 226.13.

1981 changes: The issuance rules in §226.12(a) make clear that cards may be sent to the person making the request and also to any other person for whom a card is requested, except that no liability for unauthorized use may be imposed on persons who are only authorized users.

The principal differences in §226.12(b) about conditions of liability are as follows: the requirement that the cardholder be given a postage-paid, preaddressed card or envelope for notification of loss or theft has been deleted (corresponding to an amendment to the act); the required disclosure of maximum liability and of means of notification have been simplified; and the required provision of a means of identification has been changed in that the issuer now may provide a means to identify either the cardholder or the authorized user. Finally, anyone may provide the notification to the card issuer, not just the cardholder.

Section 226.12(d) on offsets clarifies that the offset prohibition does not apply to consensual security interests. The separate promptness standard which used to apply in addition to the 7-business-day and 3-business-day standards has been deleted from §226.12(e) on prompt notification of returns.

Section 226.12(f) now clarifies rules on clearing accounts.

Section 226.12(g), dealing with the relationship of the regulation to Regulation E (Electronic Fund Transfers), has been added.

Section 226.13—Billing Error Resolution

1. General prohibitions. Footnote 27 prohibits a creditor from responding to a consumer’s billing error allegation by accelerating the debt or closing the account, and reflects protections authorized by section 161(d) of the Truth in Lending Act and section 701 of the Equal Credit Opportunity Act. The footnote also alerts creditors that failure to comply with the error resolution procedures may result in the forfeiture of disputed amounts as prescribed in section 161(e) of the Act. (Any failure to comply may also be a violation subject to the liability provisions of section 130 of the Act.)

2. Charges for error resolution. If a billing error occurred, whether as alleged or in a different amount or manner, the creditor may not impose a charge related to any aspect of the error resolution process (including
charges for documentation or investigation) and must credit the consumer’s account if such a charge was assessed pending resolution. Since the Act grants the consumer error resolution rights, the creditor should avoid any chilling effect on the good faith assertion of errors that might result if charges are assessed when no billing error has occurred.

13(a) Definition of billing error.
1. Actual, implied, or apparent authority. Whether use of a credit card or open-end credit plan is authorized is determined by state or other applicable law.

Paragraph 13(a)(3).
1. Coverage. Section 226.13(a)(3) covers disputes about goods or services that are "not accepted" or "not delivered . . . as agreed"; for example:
- The appearance on a periodic statement of a purchase, when the consumer refused to take delivery of goods because they did not comply with the contract.
- Delivery of property or services different from that agreed upon.
- Delivery of the wrong quantity.
- Late delivery.
- Delivery to the wrong location.

Section 226.13(a)(3) does not apply to a dispute relating to the quality of property or services that the consumer accepts. Whether acceptance occurred is determined by state or other applicable law.

Paragraph 13(a)(5).
1. Computational errors. In periodic statements that are combined with other information, the error resolution procedures are triggered only if the consumer asserts a computational billing error in the credit-related portion of the periodic statement. For example:
- If a bank combines a periodic statement reflecting the consumer’s credit card transactions with the consumer’s monthly checking statement, a computational error in the checking account portion of the combined statement is not a billing error.

Paragraph 13(a)(6).
1. Documentation requests. A request for documentation such as receipts or sales slips, unaccompanied by an allegation of an error under §226.13(a) or a request for additional clarification under §226.13(a)(6), does not trigger the error resolution procedures. For example, a request for documentation merely for purposes such as tax preparation or recordkeeping does not trigger the error resolution procedures.

13(b) Billing error notice.
1. Withdrawal. The consumer’s withdrawal of a billing error notice may be oral or written.

Paragraph 13(b)(1).
1. Failure to send periodic statement—timing. If the creditor has failed to send a periodic statement, the 60-day period runs from the time the statement should have been sent. Once the statement is provided, the consumer has another 60 days to assert any billing errors reflected on it.

2. Failure to reflect credit—timing. If the periodic statement fails to reflect a credit to the account, the 60-day period runs from transmittal of the statement on which the credit should have appeared.

3. Transmittal. If a consumer has arranged for periodic statements to be held at the financial institution until called for, the statement is “transmitted” when it is first made available to the consumer.

Paragraph 13(b)(2).
1. Identity of the consumer. The billing error notice need not specify both the name and the account number if the information supplied enables the creditor to identify the consumer’s name and account.

13(c) Time for resolution; general procedures.
1. Temporary or provisional corrections. A creditor may temporarily correct the consumer’s account in response to a billing error notice, but is not excused from complying with the remaining error resolution procedures within the time limits for resolution.

2. Correction without investigation. A creditor may correct a billing error in the manner and amount asserted by the consumer without the investigation or the determination normally required. The creditor must comply, however, with all other applicable provisions. If a creditor follows this procedure, no presumption is created that a billing error occurred.

Paragraph 13(c)(2).
1. Time for resolution. The phrase two complete billing cycles means 2 actual billing cycles occurring after receipt of the billing error notice, not a measure of time equal to 2 billing cycles. For example, if a creditor on a monthly billing cycle receives a billing error notice mid-cycle, it has the remainder of that cycle plus the next 2 full billing cycles to resolve the error.

13(d) Rules pending resolution.
1. Disputed amount. Disputed amount is the dollar amount alleged by the consumer to be in error. When the allegation concerns the description or identification of the transaction (such as the date or the seller’s name) rather than a dollar amount, the disputed amount is the amount of the transaction or charge that corresponds to the disputed transaction identification. If the consumer alleges a failure to send a periodic statement under §226.13(a)(7), the disputed amount is the entire balance owing.

13(d)(1) Consumer’s right to withhold disputed amount; collection action prohibited.
1. Prohibited collection actions. During the error resolution period, the creditor is prohibited from trying to collect the disputed
amount from the consumer. Prohibited collection actions include, for example, instituting court action, taking a lien, or instituting attachment proceedings.

2. Right to withhold payment. If the creditor reflects any disputed amount or related finance or other charges on the periodic statement, and is therefore required to make the disclosures under footnote 30, the creditor may comply with that disclosure requirement by indicating that payment of any disputed amount is not required pending resolution. Making a disclosure that only refers to the disputed amount would, of course, in no way affect the consumer’s right under §226.13(d)(1) to withhold related finance and other charges. The disclosure under footnote 30 need not appear in any specific place on the periodic statement, need not state the specific amount that the consumer may withhold, and may be preprinted on the periodic statement.

3. Imposition of additional charges on undisputed amounts. The consumer’s withholding of a disputed amount from the total bill cannot subject undisputed balances (including new purchases or cash advances made during the present or subsequent cycles) to the imposition of finance or other charges. For example, if on an account with a free-ride period (that is, an account in which paying the new balance in full allows the consumer to avoid the imposition of additional finance charges), a consumer disputes a $2 item out of a total bill of $300 and pays $298 within the free-ride period, the consumer would not lose the free-ride as to any undisputed amounts, even if the creditor determines later that no billing error occurred. Furthermore, finance or other charges may not be imposed on any new purchases or advances that, absent the unpaid disputed balance, would not have finance or other charges imposed on them. Finance or other charges that would have been incurred even if the consumer had paid the disputed amount would not be affected.

4. Automatic payment plans—coverage. The coverage of this provision is limited to the card issuer’s intra-institutional payment plans. It does not apply to:

• Inter-institutional payment plans that permit a cardholder to pay automatically any credit card indebtedness from an account not held by the card issuer receiving payment.
• Intra-institutional automatic payment plans offered by financial institutions that are not credit card issuers.

5. Automatic payment plans—time of notice. While the card issuer does not have to re-store or prevent the debiting of a disputed amount if the billing error notice arrives after the 3-business-day cut-off, the card issuer must, however, prevent the automatic debit of any part of the disputed amount that is still outstanding and unresolved at the time of the next scheduled debit date.

13(d)(2) Adverse credit reports prohibited. 1. Report of dispute. Although the creditor must not issue an adverse credit report because the consumer fails to pay the disputed amount or any related charges, the creditor may report that the amount or the account is in dispute. Also, the creditor may report the account as delinquent if undisputed amounts remain unpaid.

2. Person. During the error resolution period, the creditor is prohibited from making an adverse credit report about the disputed amount to any person—including employers, insurance companies, other creditors, and credit bureaus.

3. Creditor’s agent. Whether an agency relationship exists between a creditor and an issuer of an adverse credit report is determined by State or other applicable law.

13(e) Procedures if billing error occurred as asserted.

1. Correction of error. The phrase as applicable means that the necessary corrections vary with the type of billing error that occurred. For example, a misidentified transaction (or a transaction that is identified by one of the alternative methods in §226.8) is cured by properly identifying the transaction and crediting related finance and any other charges imposed. The creditor is not required to cancel the amount of the underlying obligation incurred by the consumer.

2. Form of correction notice. The written correction notice may take a variety of forms. It may be sent separately, or it may be included on or with a periodic statement that is mailed within the time for resolution. If the periodic statement is used, the amount of the billing error must be specifically identified.

If a separate billing error correction notice is provided, the accompanying or subsequent periodic statement reflecting the corrected amount may simply identify it as credit.

13(f) Procedures if different billing error or no billing error occurred.

1. Different billing error. Examples of a different billing error include:

• Differences in the amount of an error (for example, the customer asserts a $55.00 error but the error was only $53.00).
• Differences in other particulars asserted by the consumer (such as when a consumer asserts that a particular transaction never occurred, but the creditor determines that only the seller’s name was disclosed incorrectly).

2. Form of creditor’s explanation. The written explanation (which also may notify the consumer of corrections to the account) may take a variety of forms. It may be sent separately, or it may be included on or with a periodic statement that is mailed within the time for resolution. If the creditor uses the
Paragraph 13(g)(1).
1. Amounts owed by consumer. The creditor need not allow any free-ride period disclosed under §§226.6(a)(1) and 226.7(i) to pay the amount due under §226.13(g)(1) if no error occurred and the consumer was not entitled to a free-ride period at the time the consumer asserted the error.

Paragraph 13(g)(3).
1. Time for payment. The consumer has a minimum of 10 days to pay (measured from the time the consumer could reasonably be expected to have received notice of the amount owed) before the creditor may issue an adverse credit report; if an initially disclosed free-ride period allows the consumer a longer time in which to pay, the consumer has the benefit of that longer period.

Paragraph 13(g)(4).
1. Credit reporting. Under §226.13(g)(4)(i) and (iii) the creditor’s additional credit reporting responsibilities must be accomplished promptly. The creditor need not establish costly procedures to fulfill this requirement. For example, a creditor that reports to a credit bureau on scheduled updates need not transmit corrective information by an unscheduled computer or magnetic tape; it may provide the credit bureau with the correct information by letter or other commercially reasonable means when using the scheduled update would not be “prompt.” The creditor is not responsible for ensuring that the credit bureau corrects its information immediately.

2. Adverse report to credit bureau. If a creditor made an adverse report to a credit bureau that disseminated the information to other creditors, the creditor fulfills its §226.13(g)(4)(ii) obligations by providing the consumer with the name and address of the credit bureau.

13(i) Relation to Electronic Fund Transfer Act and Regulation E.
1. Coverage. Credit extended directly from a non-overdraft credit line is governed solely by Regulation Z, even though a combined credit card/access device is used to obtain the extension.

2. Incidental credit under agreement. Credit extended incident to an electronic fund transfer under an agreement between the consumer and the financial institution is governed by §226.13(i), which provides that certain error resolution procedures in both this regulation and Regulation E apply. Incidental credit that is not extended under an agreement between the consumer and the financial institution is governed solely by the error resolution procedures in Regulation E.

For example:

• Credit inadvertently extended incident to an electronic fund transfer is governed solely by the Regulation E error resolution procedures, if the bank and the consumer do not have an agreement to extend credit when the consumer’s account is overdrawn.

3. Application to debit/credit transactions-examples. If a consumer withdraws money at an automated teller machine and activates an overdraft credit feature on the checking account:

i. An error asserted with respect to the transaction is subject, for error resolution purposes, to the applicable Regulation E provisions (such as timing and notice) for the entire transaction.

ii. The creditor need not provisionally credit the consumer’s account, under §205.11(c)(2)(ii) of Regulation E, for any portion of the unpaid extension of credit.

iii. The creditor must credit the consumer’s account under §205.11(c) with any finance or other charges incurred as a result of the alleged error.

iv. The provisions of §226.13(d) and (g) apply only to the credit portion of the transaction.

Federal Reserve System

1981 changes: Section 226.13 reflects several substantive changes from the previous regulation and a complete restructuring of the error resolution provisions. The new organization and content reflect the responsibilities in chronological sequence.

Section 226.13(a)(7) implements amended §161(b) of the act, and provides that the consumer’s current address is a billing error, unless the creditor received written notice of the address change fewer than 20 days (instead of 10 days) before the end of the billing cycle.

Several provisions regarding the creditor’s duties after a billing error is alleged have been revised. The previous regulation immunized a creditor from liability for inadvertently taking collection action or making an adverse credit report within 2 days after receiving a billing error notice; these provisions are deleted from the revised regulation. The revised regulation no longer requires placement “on the face” of the periodic statement of the disclosure about payment of disputed amounts.

The revised regulation changes the rule in the previous regulation that a card issuer must prevent or restore an automatic debit of a disputed amount if it receives a billing error notice within 16 days after transmitting the periodic statement that reflects the alleged error. Under the revised regulation, the card issuer must prevent an automatic debit if it receives a billing error notice up to 3 days before the scheduled payment date (provided that the notice is received within the 60 days for the consumer to assert the error).

Section 226.14—Determination of Annual Percentage Rate

14(a) General rule

1. Tolerance. The tolerance of \( \frac{1}{3} \) of 1 percentage point above or below the annual percentage rate applies to any required disclosure of the annual percentage rate. The disclosure of the annual percentage rate is required in §§226.6, 226.7, 226.9, 226.15, 226.16, and 226.26.

2. Rounding. The regulation does not require that the annual percentage rate be calculated to any particular number of decimal places; rounding is permissible within the \( \frac{1}{3} \) of 1 percent tolerance. For example, an exact annual percentage rate of 14.3333% may be stated as 14.3% or as 14.3%, or even as 141/2%. But it could not be stated as 14.2% or 14%, since each varies by more than the permitted tolerance.

3. Periodic rates. No explicit tolerance exists for any periodic rate as such; a disclosed periodic rate may vary from precise accuracy (for example, due to rounding) only to the extent that its annualized equivalent is within the tolerance permitted by §226.14(a).

Further, a periodic rate need not be calculated to any particular number of decimal places.

4. Finance charges. The regulation does not prohibit creditors from assessing finance charges on balances that include prior, unpaid finance charges; state or other applicable law may do so, however.

5. Good faith reliance on faulty calculation tools. Footnote 31a absolves the creditor of liability for an error in the annual percentage rate or finance charge that resulted from a corresponding error in a calculation tool used in good faith by the creditor. Whether or not the creditor’s use of the tool was in good faith must be determined on a case-by-case basis, but the creditor must in any event have taken reasonable steps to verify the accuracy of the tool, including any instructions, before using it. Generally, the footnote is available only for errors directly attributable to the calculation tool itself, including software programs; it is not intended to absolve a creditor of liability for its own errors, or for errors arising from improper use of the tool, from incorrect data entry, or from misapplication of the law.

14(b) Annual Percentage Rate for §§226.5a and 226.5b Disclosures, for Initial Disclosures and for Advertising Purposes

1. Corresponding annual percentage rate computation. For purposes of §§226.5a, 226.5b, 226.6 and 226.16, the annual percentage rate is determined by multiplying the periodic rate by the number of periods per year. This computation reflects the fact that, in such disclosures, the rate (known as the corresponding annual percentage rate) is prospective and does not involve any particular finance charge or periodic balance. This computation also is used to determine any annual percentage rate for oral disclosures under §226.26(a).

14(c) Annual percentage rate for periodic statements

1. General rule. Section 226.14(c) requires disclosure of the corresponding annual percentage rate for each periodic rate (under §226.7(d)). It is figured by multiplying each periodic rate by the number of periods per year. This disclosure is like that provided on the initial disclosure statement. The periodic statement also must reflect (under §226.7(g)) the annualized equivalent of the rate actually applied during a particular cycle (the historical rate); this rate may differ from the corresponding annual percentage rate because of the inclusion of fixed, minimum, or transaction charges. Sections 226.14(c)(1) through (c)(4) state the computation rules for the historical rate.

2. Periodic rates. Section 226.14(c)(1) applies if the only finance charge imposed is due to the application of a periodic rate to a balance. The creditor may compute the annual percentage rate either:
• By multiplying each periodic rate by the number of periods in the year; or
• By the “quotient” method. This method refers to a composite annual percentage rate when different periodic rates apply to different balances. For example, a particular plan may involve a periodic rate of 1½% on balances up to $500, and 1% on balances over $500. If, in a given cycle, the consumer has a balance of $800, the finance charge would be $7.50 (500 × 0.015) plus $3.00 (300 × 0.01), for a total finance charge of $10.50. The annual percentage rate for this period may be disclosed either as 18% on $500 and 12% on $300, or as 15.75% on a balance of $800 (the quotient of $10.50 divided by $800, multiplied by 12). A creditor has considerable flexibility in defining features for open-end plans, as opposed to a specific transaction and the application of a daily periodic rate. This section includes the requirement that the creditor follow the rules in appendix F in calculating the annual percentage rate, especially footnote 1 to appendix F which addresses the daily rate transaction charge situation by providing that the “average of daily balances” shall be used instead of the “sum of the balances.”

7. Charges related to opening, renewing, or continuing an account. Footnote 33 is applicable to §226.14(c)(2) and (c)(3). The charges involved here do not relate to a specific transaction or to specific activity on the account, but relate solely to the opening, renewing, or continuing of the account. For example, an annual fee to renew an open-end credit account that is a percentage of the credit limit on the account, or that is charged only to consumers that have not used their credit card for a certain dollar amount in transactions during the preceding year, would not be included in the calculation of the annual percentage rate, even though the fee may not be excluded from the finance charge under §226.4(c)(4). (See comment 4(c)(4)–2.) Inclusion of these charges in the annual percentage rate calculation results in significant distortions of the annual percentage rate and delivery of a possibly misleading disclosure to consumers. The rule in footnote 33 applies even if the loan fee, points, or similar charges are billed on a subsequent periodic statement or withheld from the proceeds of the first advance on the account.

8. Classification of charges. If the finance charge includes a charge not due to the application of a periodic rate, the creditor must determine the proper annual percentage rate computation method according to the type of charge imposed. If the charge is tied to a specific transaction (for example, 3% of the amount of each transaction), then the method in §226.14(c)(3) must be used. If a fixed or minimum charge is applied, that is, one not tied to any specific transaction, then the formula in §226.14(c)(2) is appropriate.

9. Small finance charges. Section 226.14(c)(4) gives the creditor an alternative to §226.14(c)(2) and (c)(3) if small finance charges (50 cents or less) are involved; that is, if the finance charge includes minimum or fixed fees not due to the application of a periodic rate and the total finance charge for the cycle does not exceed 50 cents. For example, while a monthly activity fee of 50 cents on a balance of $20 would produce an annual percentage rate of 30 percent under the rule in §226.14(c)(2), the creditor may disclose an annual percentage rate of 18 percent if the periodic rate generally applicable to all balances is 1½ percent per month. This option is consistent with the provision in footnote 11 to §§226.6 and 226.7 permitting the creditor to disregard the effect of minimum charges in disclosing the ranges of balances to which periodic rates apply.
10. Prior-cycle adjustments. i. The annual percentage rate reflects the finance charges imposed during the billing cycle. However, finance charges imposed during the billing cycle may relate to activity in a prior cycle. Examples of circumstances when this may occur are:

A. A cash advance occurs on the last day of a billing cycle on an account that uses the transaction date to figure finance charges, and it is impracticable to post the transaction until the following cycle.

B. An adjustment to the finance charge is made following the resolution of a billing error dispute.

C. A consumer fails to pay the purchase balance under a deferred payment feature by the payment due date, and finance charges are imposed from the date of purchase.

ii. Finance charges relating to activity in prior cycles should be reflected on the periodic statement as follows:

A. If a finance charge imposed in the current billing cycle is attributable to periodic rates applicable to prior billing cycles (such as when a deferred payment balance was not paid in full by the payment due date and finance charges from the date of purchase are now being debited to the account, or when a cash advance occurs on the last day of a billing cycle on an account that uses the transaction date to figure finance charges and it is impracticable to post the transaction until the following cycle), and the creditor uses the quotient method to calculate the annual percentage rate, the numerator would include the amount of any transaction charges plus any other finance charges posted during the billing cycle. At the creditor’s option, balances relating to the finance charge adjustment may be included in the denominator if permitted by the legal obligation, if it was impracticable to post the transaction in the previous cycle because of timing, or if the adjustment is covered by comment 14(c)(1)(i).B.

B. If a finance charge that is posted to the account relates to activity for which a finance charge was debited or credited to the account in a previous billing cycle (for example, if the finance charge relates to an adjustment such as the resolution of a billing error dispute, or an unintentional posting error, or a payment by check that was later returned unpaid for insufficient funds or other reasons), the creditor shall at its option:

1. Calculate the annual percentage rate in accord with ii.A. of this paragraph, or
2. Disclose the finance charge adjustment on the periodic statement and calculate the annual percentage rate for the current billing cycle without including the finance charge adjustment in the numerator and balances associated with the finance charge adjustment in the denominator.
an account with a $10,000 credit limit, $5,000 of which is initially secured by the consumer’s principal dwelling. The consumer has the right to rescind at that time and (except as noted in §226.15(a)(1)(ii)) with each extension on the account. Later, if the creditor decides that it wants the credit line fully secured, and increases the amount of its interest in the consumer’s dwelling, the consumer has the right to rescind the increase.

2. Exceptions. Although the consumer generally has the right to rescind with each transaction on the account, section 125(e) of the Act provides an exception: the creditor need not provide the notice provided to the consumer under §226.15(b). Where the creditor fails to provide notice, the consumer may rescind without the creditor’s agreement. For example:

- A security interest that is acquired by a contractor who is also extending the credit in the transaction.
- A mechanic’s or materialman’s lien that is retained by a subcontractor or supplier of a contractor-creditor, even when the latter has waived its own security interest in the consumer’s home.
- All security interests that may arise in the transaction. In order for the right of rescission to apply, the security interest must be retained as part of the credit transaction. For example:

  • A mechanic’s or materialman’s lien that is obtained by a subcontractor or supplier of a contractor-creditor, even when the latter has waived its own security interest in the consumer’s home.
  • A security interest arising from transaction. The security interest is not part of the credit transaction, and therefore the transaction is not subject to the right of rescission when, for example:

    - A mechanic’s or materialman’s lien that is obtained by a contractor who is not a party to the credit transaction but merely is paid with the proceeds of the consumer’s cash advance.
    - All security interests that may arise in connection with the credit transaction are validly waived.

- The creditor obtains a lien and completion bond that in effect satisfies all liens against the consumer’s principal dwelling as a result of the credit transaction.

Although liens arising by operation of law are not considered security interests for purposes of disclosure under §226.2, that section specifically includes them in the definition for purposes of the right of rescission. Thus, even though an interest in the consumer’s principal dwelling is not a required disclosure under §226.6(c), it may still give rise to the right of rescission.

4. Consumer’s exercise of right. As a consumer within the meaning of §226.2, that person must at least have an ownership interest in the dwelling that is encumbered by the creditor’s security interest, although that person need not be a signatory to the credit agreement. For example, if only one spouse enters into a secured plan, the other spouse is a consumer if the ownership interest of that spouse is subject to the security interest.

5. Principal dwelling. A consumer can only have one principal dwelling at a time. (But see comment 15(a)(1)-6.) A vacation or other second home would not be a principal dwelling. A transaction secured by a second home (such as a vacation home) that is not currently being used as the consumer’s principal dwelling is not rescindable, even if the consumer intends to reside there in the future. When a consumer buys or builds a new dwelling that will become the consumer’s principal dwelling within one year or upon completion of construction, the new dwelling is considered the principal dwelling if it secures the open-end credit line. In that case, the transaction secured by the new dwelling is a residential mortgage transaction and is not rescindable. For example, if a consumer whose principal dwelling is currently A builds B, to be occupied by the consumer upon completion of construction, an advance on an open-end line to finance B and secured by B is a residential mortgage transaction. Dwelling, as defined in §226.2, includes structures that are classified as personalty under state law. For example, a transaction secured by a mobile home, trailer, or houseboat used as the consumer’s principal dwelling may be rescindable.

6. Special rule for principal dwelling. Notwithstanding the general rule that consumers may have only one principal dwelling, when the consumer is acquiring or constructing a new principal dwelling, a credit plan or extension that is subject to Regulation Z and is secured by the equity in the consumer’s current principal dwelling is subject to the right of rescission regardless of the purpose of that loan (for example, an advance to be used as a bridge loan). For example, if a consumer whose principal dwelling is currently A builds B, to be occupied by the consumer upon completion of construction, a loan to finance B and secured by A is subject to the right of rescission. Moreover, a loan secured by both A and B is, likewise, rescindable.

Paragraph 15(a)(2).

1. Consumer’s exercise of right. The consumer must exercise the right of rescission in writing but not necessarily on the notice supplied under §226.15(b). Whatever the means of sending the notification of rescission—mail, telegram or other written means—the time period for the creditor’s performance under §226.15(d)(2) does not begin to run until the notification has been received. The creditor may designate an agent to receive the notification so long as the agent’s name and address appear on the notice provided to the consumer under §226.15(b). Where the creditor fails to provide
the consumer with a designated address for sending the notification of rescission, delivery of the notification to the person or address to which the consumer has been directed constitutes delivery to the creditor or assignee. State law determines whether delivery of the notification to a third party other than the person to whom payments are made constitutes delivery to the creditor or assignee, in the case where the creditor fails to designate an address for sending the notification of rescission.

Paragraph 15(a)(3):
1. Rescission period. The period within which the consumer may exercise the right to rescind runs for 3 business days from the last of 3 events:
   • The occurrence that gives rise to the right of rescission.
   • Delivery of all material disclosures that are relevant to the plan.
   • Delivery to the consumer of the required rescission notice.

For example, an account is opened on Friday, June 1, and the disclosures and notice of the right to rescind were given on Thursday, May 31; the rescission period will expire at midnight of the third business day after June 1—that is, Tuesday, June 5. In another example, if the disclosures are given and the account is opened on Friday, June 1, and the rescission notice is given on Monday, June 4, the rescission period expires at midnight of the third business day after June 4—that is, Thursday, June 7. The consumer must place the rescission notice in the mail, file it for telegraphic transmission, or deliver it to the creditor's place of business within that period in order to exercise the right.

2. Material disclosures. Footnote 36 sets forth the material disclosures that must be provided before the rescission period can begin to run. The creditor must provide sufficient information to satisfy the requirements of §226.6 for these disclosures. A creditor may satisfy this requirement by giving an initial disclosure statement that complies with the regulation. Failure to give the other required initial disclosures (such as the billing rights statement) or the information required under section 226.5b, does not prevent the running of the rescission period, although that failure may result in civil liability or administrative sanctions. The repayment terms set forth in footnote 36 apply to any repayment phase set forth in the agreement. Thus, the payment terms described in §226.6(a)(2) for any repayment phase as well as for the draw period are “material disclosures.”

3. Material disclosures—variable rate program. For a variable rate program, the material disclosures also include the disclosures listed in footnote 12 to §226.6(a)(2): the circumstances under which the rate may increase, the limitations on the increase; and the effect of an increase. The disclosures listed in footnote 12 to §226.6(a)(2) for any repayment phase also are material disclosures for variable-rate programs.

4. Unexpired right of rescission. When the creditor has failed to take the action necessary to start the three-day rescission period running the right to rescind automatically lapses on the occurrence of the earliest of the following three events:
   • The expiration of three years after the occurrence giving rise to the right of rescission.
   • Transfer of all the consumer’s interest in the property.
   • Sale of the consumer’s interest in the property, including a transaction in which the consumer sells the dwelling and takes back a purchase money note and mortgage or retains legal title through a device such as an installment sale contract.

Transfer of all the consumer’s interest includes such transfers as bequests and gifts. A sale or transfer of the property need not be voluntary to terminate the right to rescind. For example, a foreclosure sale would terminate an unexpired right to rescind. As provided in section 125 of the act, the three-year limit may be extended by an administrative proceeding to enforce the provisions of §226.15. A partial transfer of the consumer’s interest, such as a transfer bestowing co-ownership on a spouse, does not terminate the right of rescission.

Paragraph 15(a)(4):
1. Joint owners. When more than one consumer has the right to rescind a transaction, any one of them may exercise that right and cancel the transaction on behalf of all. For example, if both a husband and wife have the right to rescind a transaction, either spouse acting alone may exercise the right and both are bound by the rescission.

15(b) Notice of right to rescind.
1. Who receives notice. Each consumer entitled to rescind must be given:
   • Two copies of the rescission notice.
   • The material disclosures.

In a transaction involving joint owners, both of whom are entitled to rescind, each must receive two copies of the rescission notice (one copy to each if the notice is provided in electronic form in accordance with the consumer consent and other applicable provisions of the E-Sign Act) and one copy of the disclosures.

2. Format. The rescission notice may be physically separated from the material disclosures or combined with the material disclosures, so long as the information required to be included on the notice is set forth in a clear and conspicuous manner. See the model notices in appendix G.
3. Content. The notice must include all of the information outlined in §226.15(b)(1) through (5). The requirement in §226.15(b) that the transaction or occurrence be identified may be met by providing the date of the transaction or occurrence. The notice may include additional information related to the required information, such as:

- A description of the property subject to the security interest.
- A statement that joint owners may have the right to rescind and that a rescission by one is effective for all.
- The name and address of an agent of the creditor to receive notice of rescission.

4. Time of providing notice. The notice required by §226.15(b) need not be given before the occurrence giving rise to the right of rescission. The creditor may deliver the notice after the occurrence, but the rescission period will not begin to run until the notice is given. For example, if the creditor provides the notice on May 15, but disclosures were given and the credit limit was raised on May 10, the 3-business-day rescission period will run from May 15.

15(c) Delay of creditor's performance.

1. General rule. Until the rescission period has expired and the creditor is reasonably satisfied that the consumer has not rescinded, the creditor must not, either directly or through a third party:

- Disburse advances to the consumer.
- Begin performing services for the consumer.
- Deliver materials to the consumer.

A creditor may, however, continue to allow transactions under an existing open-end credit plan during a rescission period that results solely from the addition of a security interest in the consumer’s principal dwelling. (See comment 15(c)-3 for other actions that may be taken during the delay period.)

2. Escrow. The creditor may disburse advances during the rescission period in a valid escrow arrangement. The creditor may not, however, appoint the consumer as “trustee” or “escrow agent” and distribute funds to the consumer in that capacity during the delay period.

3. Actions during the delay period. Section 226.15(c) does not prevent the creditor from taking other steps during the delay, short of beginning actual performance. Unless otherwise prohibited, such as by state law, the creditor may, for example:

- Prepare the cash advance check.
- Perfect the security interest.
- Accrue finance charges during the delay period.

4. Performance by third party. The creditor is relieved from liability for failure to delay performance if a third party with no knowledge that the rescission right has been activated provides materials or services, as long as any debt incurred for materials or services obtained by the consumer during the rescission period is not secured by the security interest in the consumer’s dwelling. For example, if a consumer uses a bank credit card to purchase materials from a merchant in an amount below the floor limit, the merchant might not contact the card issuer for authorization and therefore would not know that materials should not be provided.

5. Delay beyond rescission period. The creditor must wait until it is reasonably satisfied that the consumer has not rescinded. For example, the creditor may satisfy itself by doing one of the following:

- Waiting a reasonable time after expiration of the rescission period to allow for delivery of a mailed notice.
- Obtaining a written statement from the consumer that the right has not been exercised.

When more than one consumer has the right to rescind, the creditor cannot reasonably rely on the assurance of only one consumer, because other consumers may exercise the right.

15(d) Effects of rescission.

Paragraph 15(d)(1).

1. Termination of security interest. Any security interest giving rise to the right of rescission becomes void when the consumer exercises the right of rescission. The security interest is automatically negated, regardless of its status and whether or not it was recorded or perfected. Under §226.15(d)(2), however, the creditor must take any action necessary to reflect the fact that the security interest no longer exists.

2. Extent of termination. The creditor’s security interest is void to the extent that it is related to the occurrence giving rise to the right of rescission. For example, upon rescission:

- If the consumer’s right to rescind is activated by the opening of a plan, any security interest in the principal dwelling is void.
- If the right arises due to an increase in the credit limit, the security interest is void as to the amount of credit extensions over the prior limit, but the security interest in amounts up to the original credit limit is unaffected.
- If the right arises with each individual credit extension, then the interest is void as to that extension, and other extensions are unaffected.

Paragraph 15(d)(2).

1. Refunds to consumer. The consumer cannot be required to pay any amount in the form of money or property either to the creditor or to a third party as part of the occurrence subject to the right of rescission. Any amounts of this nature already paid by the consumer must be refunded. “Any amount” includes finance charges already accrued, as well as other charges such as broker fees, application and commitment
Federal Reserve System
Pt. 226, Supp. I

1. Property exchange. Once the creditor has fulfilled its obligation under §226.15(d)(2), the consumer must tender to the creditor any property or money the creditor has already delivered to the consumer. At the consumer’s option, property may be tendered at the location of the property. For example, if fixtures or furniture have been delivered to the consumer’s home, the consumer may tender them to the creditor by making them available for pick-up at the home, rather than physically returning them to the creditor’s premises. Money already given to the consumer must be tendered at the creditor’s place of business. For purpose of property exchange, the following additional rules apply:

• A cash advance is considered money for purposes of this section even if the creditor knows what the consumer intends to purchase with the money.
• In a 3-party open-end credit plan (that is, if the creditor and seller are not the same or related persons), extensions by the creditor that are used by the consumer for purchases from third-party sellers are considered to be the same as cash advances for purposes of tendering value to the creditor, even though the transaction is a purchase for other purposes under the regulation. For example, if a consumer exercises the unexpired right to rescind after using a 3-party credit card for one year, the consumer would tender the amount of the purchase price for the items charged to the account, rather than tendering the items themselves to the creditor.

2. Reasonable value. If returning the property would be extremely burdensome to the consumer, the consumer may offer the creditor its reasonable value rather than returning the property itself. For example, if building materials have already been incorporated into the consumer’s dwelling, the consumer may pay its reasonable value.

Paragraph 15(d)(4).

1. Modifications. The procedures outlined in §226.15(d)(2) and (3) may be modified by a court. For example, when a consumer is in bankruptcy proceedings and prohibited from returning anything to the creditor, or when the equities dictate, a modification might be made. The sequence of procedures under §226.15(d)(2) and (3), or a court’s modification of those procedures under §226.15(d)(4), does not affect a consumer’s substantive right to rescind and to have the loan amount adjusted accordingly. Where the consumer’s right to rescind is contested by the creditor, a court would normally determine whether the consumer has a right to rescind and determine the amounts owed before establishing the procedures for the parties to tender any money or property.

15(e) Consumer’s waiver of right to rescind.

1. Need for waiver. To waive the right to rescind, the consumer must have a bona fide personal financial emergency that must be met before the end of the rescission period. The existence of the consumer’s waiver will not, of itself, automatically insulate the creditor from liability for failing to provide the right of rescission.

2. Procedure. To waive or modify the right to rescind, the consumer must give a written statement that specifically waives or modifies the right, and also includes a brief description of the emergency. Each consumer entitled to rescind must sign the waiver statement. In a transaction involving multiple consumers, such as a husband and wife using their home as collateral, the waiver must bear the signatures of both spouses.

15(f) Exempt transactions.

1. Residential mortgage transaction. Although residential mortgage transactions would seldom be made on bona fide open-end
credit plans (under which repeated transactions must be reasonably contemplated), an advance on an open-end plan could be for a downpayment for the purchase of a dwelling that would then secure the remainder of the line. In such a case, only the particular advance for the downpayment would be exempt from the rescission right.

2. State creditors. Cities and other political subdivisions of states acting as creditors are not exempt from §226.15.

3. Spreader clause. When the creditor holds a mortgage or deed of trust on the consumer’s principal dwelling and that mortgage or deed of trust contains a “spreader clause” (also known as a “dragnet” or cross-collateralization clause), subsequent occurrences such as the opening of a plan or individual credit extensions are subject to the right of rescission to the same degree as if the security interest were taken directly to secure the open-end plan, unless the creditor effectively waives its security interest under the spreader clause with respect to the subsequent open-end credit extensions.

References
Other sections: Section 226.2 and appendix G.
Previous regulation: Section 226.9.
1981 Changes: Section 226.15 reflects the statutory amendments of 1980, providing for a limited right of rescission when individual credit extensions are made in accordance with a previously established credit limit for an open-end credit plan. The 1980 amendments provided that this limited rescission right be available for a three-year trial period. However, Pub. L. 98–479 now permanently exempts such individual credit extensions from the right of rescission.

The right to rescind applies not only to real property used as the consumer’s principal dwelling, but to personal property as well. The regulation provides no specific text or format for the rescission notice.

When a consumer exercises the right to rescind, the creditor now has 20 days to return a consumer’s money or property and take the necessary action to terminate the security interest. The creditor has 20 days to take possession of the money or property after the consumer’s tender before the consumer may keep it without further obligation.

Under the revised regulation, the waiver provision has been relaxed. The lien status of the mortgage is irrelevant for purposes of the residential mortgage transaction exemption. The exemption for agricultural loans from the right to rescind has been deleted.

**Section 226.16—Advertising**

1. Clear and conspicuous standard—general. Section 226.16 is subject to the general “clear and conspicuous” standard for subpart B (see §226.5(a)(1)) but prescribes no specific rules for the format of the necessary disclosures, aside from the format requirements related to the disclosure of a promotional rate under §226.16(d)(4). Aside from the terms described in §226.16(d)(4), the credit terms need not be printed in a certain type size nor need they appear in any particular place in the advertisement.

2. Clear and conspicuous standard—promotional rates or payments for home-equity plans. For purposes of §226.16(d)(4), a clear and conspicuous disclosure means that the required information in §226.16(d)(4)(ii)(A)–(C) is disclosed with equal prominence and in close proximity to the promotional rate or payment to which it applies. If the information in §226.16(d)(4)(ii)(A)–(C) is the same type size and is located immediately next to or directly above or below the promotional rate or payment to which it applies, without any intervening text or graphical displays, the disclosures would be deemed to be equally prominent and in close proximity. Notwithstanding the above, for electronic advertisements that disclose promotional rates or payments, compliance with the requirements of §226.16(c) is deemed to satisfy the clear and conspicuous standard.

3. Clear and conspicuous standard—Internet advertisements for home-equity plans. For purposes of this section, a clear and conspicuous disclosure for visual text advertisements on the Internet for home-equity plans subject to the requirements of §226.5b means that the required disclosures are not obscured by techniques such as graphical displays, shading, coloration, or other devices and comply with all other requirements for clear and conspicuous disclosures under §226.16(d). See also comment 16(c)(1)–2.

4. Clear and conspicuous standard—televised advertisements for home-equity plans. For purposes of this section, including alternative disclosures as provided for by §226.16(e), a clear and conspicuous disclosure in the context of visual text advertisements on television for home-equity plans subject to the requirements of §226.5b means that the required disclosures are not obscured by techniques such as graphical displays, shading, coloration, or other devices, are displayed in a manner that allows for a consumer to read the information required to be disclosed, and comply with all other requirements for clear and conspicuous disclosures under §226.16(d). For example, very fine print in a television advertisement would not meet the clear and conspicuous standard if consumers cannot see and read the information required to be disclosed.

Pt. 226, Supp. I

16.(c) Catalogs or Other Multiple-page Advertisements; Electronic Advertisements
1. Definition. The multiple-page advertisements to which §226.16(c) refers are advertisements consisting of a series of sequentially numbered pages—for example, a supplement to a newspaper. A mailing consisting of several separate flyers or pieces of

5. Clear and conspicuous standard—oral advertisements for home-equity plans. For purposes of this section, including alternative disclosures as provided for by §226.16(e), a clear and conspicuous disclosure in the context of an oral advertisement for home-equity plans subject to the requirements of §226.3b, whether by radio, television, the Internet, or other medium, means that the required disclosures are given at a speed and volume sufficient for a consumer to hear and comprehend them. For example, information stated very rapidly at a low volume in a radio or television advertisement would not meet the clear and conspicuous standard if consumers cannot hear and comprehend the information required to be disclosed.

6. Expressing the annual percentage rate in abbreviated form. Whenever the annual percentage rate is used in an advertisement for open-end credit, it may be expressed using a readily understandable abbreviation such as "APR".

7. Effective date. For guidance on the applicability of the Board’s revisions to §226.16 published on July 30, 2008, see comment 1(d)(5)–1.

16(a) Actually available terms.
1. General rule. To the extent that an advertisement mentions specific credit terms, it may state only those terms that the creditor is actually prepared to offer. For example, a creditor may not advertise a very low annual percentage rate that will not in fact be available at any time. Section 226.16(a) is not intended to inhibit the promotion of new credit programs, but to bar the advertising of terms that are not and will not be available. For example, a creditor may advertise terms that will be offered for only a limited period, or terms that will become available at a future date.

2. Specific credit terms. Specific credit terms is not limited to the disclosures required by the regulation but would include any specific components of a credit plan, such as the minimum periodic payment amount or seller's points in a plan secured by real estate. §226.6(b) Advertisement of terms that require additional disclosures.

1. Terms requiring additional disclosures. In §226.16(b) the phrase the terms required to be disclosed under §226.6 refers to the terms in §226.6(a) and §226.6(b).

2. Use of positive terms. An advertisement must state a credit term as a positive number in order to trigger additional disclosures. For example, no annual membership fee would not trigger the additional disclosures required by §226.16(b). (See, however, the rules in §226.16(d) relating to advertisements for home-equity plans.)

3. Implicit terms. Section 226.16(b) applies even if the triggering term is not stated explicitly, but may be readily determined from the advertisement.

4. Membership fees. A membership fee is not a triggering term nor need it be disclosed under §226.16(b)(3) if it is required for participation in the plan whether or not an open-end credit feature is attached. (See Comment 6(b)–1.)

5. Variable-rate plans. In disclosing the annual percentage rate in an advertisement for a variable-rate plan, as required by §226.16(b)(2), the creditor may use an insert showing the current rate; may give the rate as of a specified recent date; or may disclose an estimated rate under §226.5(c). The additional requirement in §226.16(b)(2) to disclose the variable-rate feature may be satisfied by disclosing that the annual percentage rate may vary or a similar statement, but the advertisement need not include the information required by footnote 12 to §226.6(a)(2).

6. Discounted variable-rate plans—disclosure of the annual percentage rates. The advertised annual percentage rates for discounted variable-rate plans must, in accordance with comment 6(a)(2)–10, include both the initial rate (with the statement of how long it will remain in effect) and the current indexed rate (with the statement that this second rate may vary). The options listed in comment 16(b)–5 may be used in disclosing the current indexed rate.

7. Triggering terms. The following are examples of terms that trigger additional disclosures:

• Small monthly service charge on the remaining balance, which describes how the amount of a finance charge will be determined.

• 12 percent Annual Percentage Rate or A $15 annual membership fee buys you $2,000 in credit, which describe required disclosures using positive numbers.

8. Minimum, fixed, transaction, activity, or similar charge. The charges to be disclosed under §226.16(b)(1) are those that are considered finance charges under §226.4.

9. Deferred billing and deferred payment programs. Statements such as “Charge it—you won’t be billed until May” or “You may skip your January payment” are not in themselves triggering terms, since the timing for initial billing or for monthly payments are not terms required to be disclosed under §226.6. However, a statement such as “No finance charge until May” or any other statement regarding when finance charges begin to accrue is a triggering term, whether appearing alone or in conjunction with a description of a deferred billing or deferred payment program such as the examples above.

16(c) Catalogs or Other Multiple-page Advertisements; Electronic Advertisements
1. Definition. The multiple-page advertisements to which §226.16(c) refers are advertisements consisting of a series of sequentially numbered pages—for example, a supplement to a newspaper. A mailing consisting of several separate flyers or pieces of
promotional material in a single envelope does not constitute a single multiple-page advertisement for purposes of §226.16(c).

Paragraph 16(c)(1).

1. General. Paragraph 226.16(c)(1) permits creditors to put credit information together in one place in a catalog or other multiple-page advertisement or an electronic advertisement (such as an advertisement appearing on an Internet Web site). The rule applies only if the advertisement contains one or more of the triggering terms from §226.16(b).

2. Electronic advertisement. If an electronic advertisement (such as an advertisement appearing on an Internet Web site) contains the table or schedule permitted under §226.16(c)(1), any statement of terms set forth in §226.6 appearing anywhere else in the advertisement must clearly direct the consumer to the location where the table or schedule begins. For example, a term triggering additional disclosures may be accompanied by a link that directly takes the consumer to the additional information.

Paragraph 16(c)(2).

1. Table or schedule if credit terms depend on outstanding balance. If the credit terms of a plan vary depending on the amount of the balance outstanding, rather than the amount of any property purchased, a table or schedule complies with §226.16(c)(2) if it includes the required disclosures for representative balances. For example, a creditor would disclose that a periodic rate of 1.5% is applied to balances of $500 or less, and a 1% rate is applied to balances greater than $500.

16(d) Additional Requirements for Home Equity Plans

1. Trigger terms. Negative as well as affirmative references trigger the requirement for additional information. For example, if a creditor states no annual fee, no points, or we waive closing costs in an advertisement, additional information must be provided. (See comment 16(d)-4 regarding the use of a phrase such as no closing costs.) Inclusion of a statement such as low fees, however, would not trigger the need to state additional information. References to payment terms include references to the draw period or any repayment period, to the length of the plan, to how the minimum payments are determined and to the timing of such payments.

2. Fees to open the plan. Section 226.16(d)(1)(i) requires a disclosure of any fees imposed by the creditor or a third party to open the plan. In providing the fee information required under this paragraph, the corresponding rules for disclosure of this information apply. For example, fees to open the plan may be stated as a range. Similarly, if property insurance is required to open the plan, a creditor either may estimate the cost of the insurance or provide a statement that such insurance is required. (See the commentary to §226.5b(d)(7) and (8).)

3. Statements of tax deductibility. An advertisement that refers to deductibility for tax purposes is not misleading if it includes a statement such as "consult a tax advisor regarding the deductibility of interest." An advertisement distributed in paper form or through the Internet (rather than by radio or television) that states that the advertised extension of credit may exceed the market value of the consumer's dwelling is not misleading if it clearly and conspicuously states the required information in §§226.16(d)(4)(i) and (iii).

4. Misleading terms prohibited. Under §§226.16(d)(5), advertisements may not refer to home equity plans as free money or use other misleading terms. For example, an advertisement could not state "no closing costs" or "we waive closing costs" if consumers may be required to pay any closing costs, such as recordation fees. In the case of property insurance, however, a creditor may state, for example, "no closing costs" even if property insurance may be required, as long as the creditor also provides a statement that such insurance may be required. (See the commentary to this section regarding fees to open a plan.)

5. Promotional rates and payments in advertisements for home-equity plans. Section 226.16(d)(6) requires additional disclosures for promotional rates or payments.

i. Variable-rate plans. In advertisements for variable-rate plans, if the advertised annual percentage rate is based on (or the advertised payment is derived from) the index and margin that will be used to make rate (or payment) adjustments over the term of the loan, then there is no promotional rate or promotional payment. If, however, the advertised annual percentage rate is not based on (or the advertised payment is not derived from) the index and margin that will be used to make rate (or payment) adjustments, and a reasonably current application of the index and margin would result in a higher annual percentage rate (or, given an assumed balance, a higher payment) then there is a promotional rate or promotional payment.

ii. Equal prominence, close proximity. Information required to be disclosed in §226.16(d)(6)(ii) that is immediately next to or directly above or below the promotional rate or payment (but not in a footnote) is deemed to be closely proximate to the listing. Information required to be disclosed in §226.16(d)(6)(iii) that is in the same type size as the promotional rate or payment is deemed to be equally prominent.

iii. Amounts and time periods of payments. Section 226.16(d)(6)(ii)(C) requires disclosure of the amount and time periods of any payments that will apply under the plan. This section may require disclosure of several payment amounts, including any balloon payment. For example, if an advertisement for a home-equity plan offers a $100,000 five-
Federal Reserve System

year line of credit and assumes that the entire line is drawn resulting in a minimum payment of $500 per month for the first six months, increasing to $1,000 per month after that. If a payment of $500 results from an assumption of $10,000 draw, and the payment would increase to $1,000 if the consumer made an additional $10,000 draw, the payment is not a promotional payment. For example, if a payment of $500 results from an assumed $10,000 draw, and the payment would increase to $1,000 if the consumer made an additional $10,000 draw, the payment is not a promotional payment.

v. Conversion option. Some home-equity plans permit the consumer to repay all or part of the balance during the draw period at a fixed rate (rather than a variable rate) and over a specified time period. The fixed-rate conversion option does not, by itself, make the rate or payment that would apply if the consumer exercised the fixed-rate conversion option a promotional rate or payment.

vi. Preferred-rate provisions. Some home-equity plans contain a preferred-rate provision, where the rate will increase upon the occurrence of some event, such as the consumer-employee leaving the creditor’s employ, the consumer closing an existing deposit account with the creditor, or the consumer revoking an election to make automated payments. A preferred-rate provision does not, by itself, make the rate or payment under the preferred-rate provision a promotional rate or payment.

Reasonably current index and margin. For the purposes of this section, an index and margin is considered reasonably current if:

i. For direct mail advertisements, it was in effect within 60 days before mailing;

ii. For advertisements in electronic form it was in effect within 30 days before the advertisement is sent to a consumer’s e-mail address, or in the case of an advertisement made on an Internet Web site, when viewed by the public; or

iii. For printed advertisements made available to the general public, including ones contained in a catalog, magazine, or other generally available publication, it was in effect within 30 days before printing.

7. Relation to other sections. Advertisements for home-equity plans must comply with all provisions in §226.16 not solely the rules in §226.16(d). If an advertisement contains information (such as the payment terms) that triggers the duty under §226.16(d) to state the annual percentage rate, the additional disclosures in §226.16(b) must be provided in the advertisement. While §226.16(d) does not require a statement of fees to use or maintain the plan (such as membership fees and transaction charges), such fees must be disclosed under §226.16(b)(1) and (3).

8. Inapplicability of closed-end rules. Advertisements for home equity plans are governed solely by the requirements in §226.16, and not by the closed-end advertising rules in §226.24. Thus, if a creditor states payment information about the repayment phase, this will trigger the duty to provide additional information under §226.16, but not under §226.24.

9. Balloon payment. See comment 5b(d)(5)(ii)–3 for information not required to be stated in advertisements, and on situations in which the balloon payment requirement does not apply.

16(e) Alternative disclosures—television or radio advertisements

1. Multi-purpose telephone number. When an advertised telephone number provides a recording, disclosures should be provided early in the sequence to ensure that the consumer receives the required disclosures. For example, in providing several options—such as providing directions to the advertiser’s place of business—the option allowing the consumer to request disclosures should be provided early in the telephone message to ensure that the option to request disclosures is not obscured by other information.

2. Statement accompanying telephone number. Language must accompany a telephone number indicating that disclosures are available by calling the telephone number, such as “call 1-800-000-0000 for details about credit costs and terms.”

Statute: Sections 141 and 143. Previous regulation: Section 226.10(a) through (c) and Interpretation §226.102. Other sections: Sections 226.2 and 226.6.

1981 changes: Section 226.16 reflects the statutory changes to section 143 of the act which reduce both the number of triggering terms and the additional disclosures required by the use of those terms. Membership or participation fees are included among the additional disclosures required when a triggering term is used. The substance of Interpretation §226.102, requiring disclosure of representative amounts of credit in catalogs and multiple-page advertisements, has been incorporated in simplified form in paragraph (c).
SUBPART C—CLOSED-END CREDIT

Section 226.17—General Disclosure Requirements

17(a) Form of disclosures.
1. Clear and conspicuous. This standard requires that disclosures be in a reasonably understandable form. For example, while the regulation requires no mathematical progression or format, the disclosures must be presented in a way that does not obscure the relationship of the terms to each other. In addition, although no minimum type size is mandated, the disclosures must be legible, whether typewritten, handwritten, or printed by computer.

2. Segregation of disclosures. The disclosures may be grouped together and segregated from other information in a variety of ways. For example, the disclosures may appear on a separate sheet of paper or may be set off from other information on the contract or other documents:
   • By outlining them in a box
   • By bold print dividing lines
   • By a different color background
   • By a different type style
   • By outlining them in a box
   • By bold print dividing lines
   • By a different color background
   • By a different type style
   (The general segregation requirement described in this subparagraph does not apply to the disclosures required under §§226.19(b) and 226.20(c) although the disclosures must be clear and conspicuous.)

3. Location. The regulation imposes no specific location requirements on the segregated disclosures. For example:
   • They may appear on a disclosure statement separate from all other material.
   • They may be placed on the same document with the credit contract or other information, so long as they are segregated from that information.
   • They may be shown on the front or back of a document.
   • They need not begin at the top of a page.
   • They may be continued from one page to another.

4. Content of segregated disclosures. Footnotes 37 and 38 contain exceptions to the requirement that the disclosures under §226.18 be segregated from material that is not directly related to those disclosures. Footnote 37 lists the items that may be added to the segregated disclosures, even though not directly related to those disclosures. Footnote 38 lists the items required under §226.18 that may be deleted from the segregated disclosures and appear elsewhere. Any one or more of these additions or deletions may be combined and appear either together with or separately from the segregated disclosures.

5. Directly related. The segregated disclosures may, at the creditor’s option, include any information that is directly related to those disclosures. The following is directly related information:
   i. A description of a grace period after which a late payment charge will be imposed. For example, the disclosure given under §226.18(i) may state that a late charge will apply to “any payment received more than 15 days after the due date.”
   ii. A statement that the transaction is not secured. For example, the creditor may add a category labelled “unsecured” or “not secured” to the security interest disclosures given under §226.18(m).
   iii. The basis for any estimates used in making disclosures. For example, if the maturity date of a loan depends solely on the occurrence of a future event, the creditor may indicate that the disclosures assume that event will occur at a certain time.
   iv. The conditions under which a demand feature may be exercised. For example, in a loan subject to demand after five years, the disclosures may state that the loan will become payable on demand in five years.
   v. An explanation of the use of pronouns or other references to the parties to the transaction. For example, the disclosures may state, “‘You’ refers to the customer and ‘we’ refers to the creditor.”
   vi. Instructions to the creditor or its employees on the use of a multiple-purpose form. For example, the disclosures may state, “Check box if applicable.”
   vii. A statement that the borrower may pay a minimum finance charge upon prepayment in a simple-interest transaction. For example, when state law prohibits penalties, but would allow a minimum finance charge in the event of prepayment, the creditor may make the §226.18(k)(1) disclosure by stating, “You may be charged a minimum finance charge.”
   viii. A brief reference to negative amortization in variable-rate transactions. For example, in the variable-rate disclosure, the creditor may include a short statement such as “Unpaid interest will be added to principal.” (See the commentary to §226.18(f)(1)(iii).)
   ix. A brief caption identifying the disclosures. For example, the disclosures may bear a general title such as “Federal Truth in Lending Disclosures” or a descriptive title such as “Real Estate Loan Disclosures.”
   x. A statement that a due-on-sale clause or other conditions on assumption are contained in the loan document. For example, the disclosure given under §226.18(q) may state, “Someone buying your home may, subject to conditions in the due-on-sale
clause contained in the loan document, assume the remainder of the mortgage on the original terms.”

x. If a state or Federal law prohibits prepayment penalties and excludes the charging of interest after prepayment from coverage as a penalty, a statement that the borrower may have to pay interest for some period after prepayment in full. The disclosure given under §226.18(k) may state, for example, “If you prepay your loan on other than the regular installment date, you may be assessed interest charges until the end of the month.”

xii. More than one hypothetical example under §226.18(f)(1)(i)–(iv) in transactions with more than one variable-rate feature. For example, in a variable-rate transaction with an option permitting consumers to convert to a fixed-rate transaction, the disclosures may include an example illustrating the effects on the payment terms of an increase resulting from conversion in addition to the example illustrating an increase resulting from changes in the index.

xiii. The disclosures set forth under §226.18(f)(1) for variable-rate transactions subject to §226.18(f)(2).

xiv. A statement whether or not a subsequent purchaser of the property securing an obligation may be permitted to assume the remaining obligation on its original terms.

xv. A late-payment fee disclosure under §226.18(1) on a single payment loan.

xvi. The notice set forth in §226.19(a)(4), in a closed-end transaction subject to §226.18(a)(1)(i). In a mortgage transaction subject to §226.19(a)(1)(i), the creditor must disclose the notice contained in §226.19(a)(4) grouped together with the disclosures made under §226.18. See comment 19(a)(4)–1.

6. Multiple-purpose forms. The creditor may design a disclosure statement that can be used for more than one type of transaction, so long as the required disclosures for individual transactions are clear and conspicuous. (See the Commentary to appendices G and H for a discussion of the treatment of disclosures that do not apply to specific transactions.) Any disclosure listed in §226.18 (except the itemization of the amount financed under §226.18(c) for transactions other than private education loans) may be included on a standard disclosure statement even though not all of the creditor’s transactions include those features. For example, the statement may include:

• The required deposit disclosure under §226.18(r).
• The required deposit disclosure under §226.18(r).

7. Balloon payment financing with leasing characteristics. In certain credit sale or loan transactions, a consumer may reduce the dollar amount of the payments to be made during the course of the transaction by agreeing to make, at the end of the loan term, a large final payment based on the expected residual value of the property. The consumer may have a number of options with respect to the final payment, including, among other things, retaining the property and making the final payment, refinancing the final payment, or transferring the property to the creditor in lieu of the final payment. Such transactions may have some of the characteristics of lease transactions subject to Regulation M, but are considered credit transactions where the consumer assumes the indicia of ownership, including the risks, burdens and benefits of ownership upon consummation. These transactions are governed by the disclosure requirements of this regulation instead of Regulation M. Creditors should not include in the segregated Truth in Lending disclosures additional information. Thus, disclosures should show the large final payment in the payment schedule and should not, for example, reflect the other options available to the consumer at maturity.

Paragraph 17(a)(2)

1. When disclosures must be more conspicuous. The following rules apply to the requirement that the terms “annual percentage rate” (except for private education loan disclosures made in compliance with §226.47) and “finance charge” be shown more conspicuously:

• The terms must be more conspicuous only in relation to the other required disclosures under §226.18. For example, when the disclosures are included on the contract document, those two terms need not be more conspicuous as compared to the heading on the contract document or information required by state law.
• The terms need not be more conspicuous except as part of the finance charge and annual percentage rate disclosures under §226.18(d) and (e), although they may, at the creditor’s option, be highlighted wherever used in the required disclosures. For example, the terms may, but need not, be highlighted when used in disclosing a prepayment penalty under §226.18(k) or a required deposit under §226.18(r).
• The creditor’s identity under §226.18(a) may, but need not, be more prominently displayed than the finance charge and annual percentage rate.
• The terms need not be more conspicuous than figures (including, for example, numbers, percentages, and dollar signs).
12 CFR Ch. II (1–1–10 Edition)
Pt. 226, Supp. I

2. Making disclosures more conspicuous. The terms “finance charge” and (except for private education loan disclosures made in compliance with §226.47) “annual percentage rate” may be made more conspicuous in any way that highlights them in relation to the other required disclosures. For example, they may be:

• Capitalized when other disclosures are printed in capital and lower case.

• Printed in larger type, bold print or different typeface.

• Printed in a contrasting color.

• Underlined.

• Set off with asterisks.

17(b) Time of Disclosures

1. Consummation. As a general rule, disclosures must be made before “consummation” of the transaction. The disclosures need not be given by any particular time before consummation, except in certain mortgage transactions and variable-rate transactions secured by the consumer’s principal dwelling with a term greater than one year under §226.19, and in private education loan transactions disclosed in compliance with §§226.46 and 226.47. (See the commentary to §226.2(a)(13) regarding the definition of consummation.)

2. Converting open-end to closed-end credit. Except for home equity plans subject to §226.3b in which the agreement provides for a repayment phase, if an open-end credit account is converted to a closed-end transaction under a written agreement with the consumer, the creditor must provide a set of closed-end credit disclosures before consummation of the closed-end transaction. (See the commentary to §226.19(b) for the timing rules for additional disclosures required upon the conversion to a variable-rate transaction secured by a consumer’s principal dwelling with a term greater than one year.) If consummation of the closed-end transaction occurs at the same time as the consumer enters into the open-end agreement, the closed-end credit disclosures may be given at the time of conversion. If disclosures are delayed until conversion and the closed-end transaction has a variable-rate feature, disclosures should be based on the rate in effect at the time of conversion. (See the commentary to §226.3 regarding conversion of closed-end to open-end credit.)

3. Disclosures provided on credit contracts. Creditors must give the required disclosures to the consumer in writing, in a form that the consumer may keep, before consummation of the transaction. See §226.17(a)(1) and (b). Sometimes the disclosures are placed on the same document with the credit contract. Creditors are not required to give the consumer two separate copies of the document before consummation, one for the consumer to keep and a second copy for the consumer to execute. The disclosure requirement is satisfied if the creditor gives a copy of the document containing the unexecuted credit contract and disclosures to the consumer to read and sign; and the consumer receives a copy to keep at the time the consumer becomes obligated. It is not sufficient for the creditor merely to show the consumer the document containing the disclosures before the consumer signs and becomes obligated. The consumer must be free to take possession of and review the document in its entirety before signing.

i. Example. To illustrate:

A creditor gives a consumer a multiple-copy form containing a credit agreement and TILA disclosures. The consumer reviews and signs the form and returns it to the creditor, who separates the copies and gives one copy to the consumer to keep. The creditor has satisfied the disclosure requirement.

17(c) Basis of disclosures and use of estimates. Paragraph 17(c)(1).

1. Legal obligation. The disclosures shall reflect the credit terms to which the parties are legally bound as of the outset of the transaction. In the case of disclosures required under §226.20(c), the disclosures shall reflect the credit terms to which the parties are legally bound when the disclosures are provided. The legal obligation is determined by applicable state law or other law. (Certain transactions are specifically addressed in this commentary. See, for example, the discussion of buydown transactions elsewhere in the commentary to §226.17(c).)

• The fact that a term or contract may later be deemed unenforceable by a court on the basis of equity or other grounds does not, by itself, mean that disclosures based on that term or contract did not reflect the legal obligation.

2. Modification of obligation. The legal obligation normally is presumed to be contained in the note or contract that evidences the agreement. But this presumption is rebutted if another agreement between the parties legally modifies that note or contract. If the parties informally agree to a modification of the legal obligation, the modification should not be reflected in the disclosures unless it rises to the level of a change in the terms of the legal obligation.

• If the creditor offers a preferential rate, such as an employee preferred rate, the disclosures should reflect the terms of the legal obligation. (See the commentary to §226.19(b) for an example of a preferred-rate transaction that is a variable-rate transaction.)

• If the contract provides for a certain monthly payment schedule but payments are made on a voluntary payroll deduction plan or an informal principal-reduction agreement, the disclosures should reflect the schedule in the contract.
In the disclosures given for the mortgage, depending upon the buydown plan, the consumer’s prepayment of the obligation may or may be retained by the creditor. The amount paid by the consumer is a prepaid finance charge (even if deposited in an escrow account). A composite annual percentage rate must be calculated, taking into account both interest rates, as well as the effect of the prepaid finance charge.

The payment schedule must reflect the multiple payment levels resulting from the buydown. The rules regarding consumer buydowns do not apply to transactions known as “lender buydowns.” In lender buydowns, a creditor pays an amount (either in cash or by the term. The disclosures for lender buydowns should be based on the terms of the legal obligation between the consumer and the creditor. (See comment 17(c)(1)–3 for the analogous rules concerning third-party buydowns.)

5. Split buydowns. In certain transactions, a third party (such as a seller) and a consumer both pay an amount to the creditor to reduce the interest rate. The creditor must include the portion paid by the consumer in the finance charge and disclose the corresponding multiple payment levels and composite annual percentage rate. The portion paid by the third party and the corresponding reduction in interest rate, however, should not be reflected in the disclosures unless the lower rate is reflected in the credit contract. (See the discussion on third-party and consumer buydown transactions elsewhere in the commentary to §226.17(c).)

6. Wrap-around financing. Wrap-around transactions, usually loans, involve the creditor’s wrapping the outstanding balance on an existing loan and advancing additional funds to the consumer. The pre-existing loan, which is wrapped, may be to the same consumer or to a different consumer. In either case, the consumer makes a single payment to the new creditor, who makes the payments on the pre-existing loan to the original creditor. Wrap-around loans or sales are considered new single-advance transactions, with an amount financed equaling the sum of the new funds advanced by the wrap creditor and the remaining principal owed to the original creditor on the pre-existing loan. In disclosing the itemization of the amount financed, the creditor may use a label such as “the amount that will be paid to creditor X” to describe the remaining principal balance on the pre-existing loan.
This approach to Truth in Lending calculations has no effect on calculations required by other statutes, such as state usury laws.

7. Wrap-around financing with balloon payments. For wrap-around transactions involving a large final payment of the new funds before the maturity of the pre-existing loan, the amount financed is the sum of the new funds and the remaining principal on the pre-existing loan. The disclosures should be based on the shorter term of the wrap loan, with a large final payment of both the new funds and the total remaining principal on the pre-existing loan (although only the wrap loan will actually be paid off at that time).

8. Basis of disclosures in variable-rate transactions. The disclosures for a variable-rate transaction must be given for the full term of the transaction and must be based on the terms in effect at the time of consummation. Creditors should base the disclosures only on the initial rate and should not assume that this rate will increase. For example, in a loan with an initial rate of 12 percent and a 5 percentage points rate cap, creditors should base the disclosures on the initial rate and should not assume that this rate will increase 5 percentage points. However, in a variable-rate transaction with a seller buydown that is reflected in the credit contract, a consumer buydown, or a discounted or premium rate, disclosures should not be based solely on the initial terms. In those transactions, the disclosed annual percentage rate should be a composite rate based on the rate in effect during the initial period and the rate that is the basis of the variable-rate feature for the remainder of the term. (See the commentary to §226.17(c) for a discussion of buydown, discounted, and premium transactions and the commentary to §226.19(a)(2) for a discussion of the redisclosure in certain mortgage transactions with a variable-rate feature.)

9. Use of estimates in variable-rate transactions. The variable-rate feature does not, by itself, make the disclosures estimates.

10. Discounted and premium variable-rate transactions. In some variable-rate transactions, creditors may set an initial interest rate that is not determined by the index or formula used to make later interest rate adjustments. Typically, this initial rate charged to consumers is lower than the rate would be if it were calculated using the index or formula. However, in some cases the initial rate may be higher. In a discounted transaction, for example, a creditor may calculate interest rates according to a formula using the six-month Treasury bill rate plus a 2 percent margin. If the Treasury bill rate at consummation is 10 percent, the creditor may forgo the 2 percent spread and charge only 10 percent for a limited time, instead of setting an initial rate of 12 percent.

i. When creditors use an initial interest rate that is not calculated using the index or formula for later rate adjustments, the disclosures should reflect a composite annual percentage rate based on the initial rate for as long as it is charged and, for the remainder of the term, the rate that would have been applied using the index or formula at the time of consummation. The rate at consummation need not be used if a contract provides for a delay in the implementation of changes in an index value. For example, if the contract specifies that rate changes are based on the index value in effect 45 days before the change date, creditors may use any index value in effect during the 45 day period before consummation in calculating a composite annual percentage rate.

ii. The effect of the multiple rates must also be reflected in the calculation and disclosure of the finance charge, total of payments, and payment schedule.

iii. If a loan contains a rate or payment cap that would prevent the initial rate or payment, at the time of the first adjustment, from changing to the rate determined by the index or formula at consummation, the effect of that rate or payment cap should be reflected in the disclosures.

iv. Because these transactions involve irregular payment amounts, an annual percentage rate tolerance of 1⁄4 of 1 percent applies, in accordance with §226.22(a)(3).

v. Examples of discounted variable-rate transactions include:

A. A 30-year loan for $100,000 with no prepaid finance charges and rates determined by the Treasury bill rate plus 2 percent. Rate and payment adjustments are made annually. Although the Treasury bill rate at the time of consummation is 10 percent, the creditor sets the interest rate for one year at 9 percent, instead of 12 percent according to the formula. The disclosures should reflect a composite annual percentage rate of 11.63 percent based on 9 percent for one year and 12 percent for 29 years. Reflecting those two rate levels, the payment schedule should show 12 payments of $804.62 and 366 payments of $266,463.32 and the total of payments $366,463.32.

B. Same loan as above, except with a 2 percent rate cap on periodic adjustments. The disclosures should reflect a composite annual percentage rate of 11.53 percent based on 9 percent for the first year, 11 percent for the second year, and 12 percent for the remaining 28 years. Reflecting those three rate levels, the payment schedule should show 12 payments of $804.62, 12 payments of $950.09, and 336 payments of $1,025.31. The finance charge should be $265,234.76 and the total of payments $365,234.76.

C. Same loan as above, except with a 7 1⁄2 percent cap on payment adjustments. The
disclosures should reflect a composite annual percentage rate of 11.64 percent, based on 9 percent for one year and 12 percent for 29 years. Because of the payment cap, five levels of payments were required under the assumption that the initial interest rate would remain constant. The payment schedule should show 12 payments of $804.62, 12 payments of $864.97, 12 payments of $929.84, 12 payments of $999.58, and 32 payments of $1,070.04. The total of payments $377,040.60.

vi. A loan in which the initial interest rate is set according to the index or formula used for later adjustments but is not set at the value of the index or formula at consummation is not a discounted variable-rate loan. For example, if a creditor commits to an initial rate based on the formula on a date prior to consummation, but the index has moved during the period between that time and consummation, a creditor should base its disclosures on the initial rate.

11. Examples of variable-rate transactions. Variable-rate transactions include:

• Renewable balloon-payment instruments where the creditor is both unconditionally obligated to renew the balloon-payment loan at the consumer’s option (or is obligated to renew subject to conditions within the consumer’s control) and has the option of increasing the interest rate at the time of renewal. Disclosures must be based on the payment amortization (unless the specified term of the obligation with renewal is shorter) and on the rate in effect at the time of consummation of the transaction. (Examples of conditions within a consumer’s control include requirements that a consumer be current in payments or continue to reside in the mortgaged property. In contrast, setting a limit on the rate at which the creditor would be obligated to renew or the right to change the credit standards at the time of renewal are examples of conditions outside a consumer’s control.) If, however, a creditor is not obligated to renew as described above, disclosures must be based on the term of the balloon-payment loan. Disclosures also must be based on the term of the balloon-payment loan in balloon-payment instruments in which the legal obligation provides that the loan will be renewed by a “refinancing” of the obligation, as that term is defined by §226.2(a). If it cannot be determined from the legal obligation that the loan will be renewed by a “refinancing,” disclosures must be based either on the term of the balloon-payment loan or on the payment amortization, depending on whether the creditor is unconditionally obligated to renew the loan as described above. (This discussion does not apply to construction loans subject to §226.17(c)(6).)

• “Shared-equity” or “shared-appreciation” mortgages that have a fixed rate of interest and an appreciation share based on the consumer’s equity in the mortgaged property. The appreciation share is payable in a lump sum at a specified time. Disclosures must be based on the fixed interest rate. (As discussed in the commentary to §226.2, other types of shared-equitie arrangements are not considered “credit” and are not subject to Regulation Z.)

• Preferred-rate loans where the terms of the legal obligation provide that the initial underlying rate is fixed but will increase upon the occurrence of some event, such as an employee leaving the employ of the creditor, and the note reflects the preferred rate. The disclosures are to be based on the preferred rate.

• Graduated-payment mortgages and step-rate transactions without a variable-rate feature are not considered variable-rate transactions.

• “Price level adjusted mortgages” or other indexed mortgages that have a fixed rate of interest but provide for periodic adjustments to payments and the loan balance to reflect changes in an index measuring prices or inflation. Disclosures are to be based on the fixed interest rate.

12. Graduated payment adjustable rate mortgages. These mortgages involve both a variable interest rate and scheduled variations in payment amounts during the loan term. For example, under these plans, a series of graduated payments may be scheduled before rate adjustments affect payment amounts, or the initial scheduled payment may remain constant for a set period before rate adjustments affect the payment amount. In any case, the initial payment amount may be insufficient to cover the scheduled interest, causing negative amortization from the outset of the transaction. In these transactions, the disclosures should treat these features as follows:

• The finance charge includes the amount of negative amortization based on the assumption that the rate in effect at consummation remains unchanged.

• The amount financed does not include the amount of negative amortization.

• As in any variable-rate transaction, the annual percentage rate is based on the terms in effect at consummation.

• The schedule of payments discloses the amount of any scheduled initial payments followed by an adjusted level of payments based on the initial interest rate. Since some mortgage plans contain limits on the amount of the payment adjustment, the payment schedule may require several different levels of payments, even with the assumption that the original interest rate does not increase.

13. Growth-equity mortgages. Also referred to as payment-escalated mortgages, these mortgage plans involve scheduled payment increases to prematurely amortize the loan. The initial payment amount is determined.
as for a long-term loan with a fixed interest rate. Payment increases are scheduled periodically, based on changes in an index. The larger payments result in accelerated amortization of the loan. In disclosing these mortgage plans, creditors may either:

- Estimate the amount of payment increases, based on the best information reasonably available; or
- Disclose by analogy to the variable-rate disclosures in §226.18(f)(1).

(This discussion does not apply to growth-equity mortgages in which the amount of payment increases can be accurately determined at the time of disclosure. For these mortgages, as for graduated-payment mortgages, disclosures should reflect the scheduled increases in payments.)

14. Reverse mortgages. Reverse mortgages, also known as reverse annuity or home equity conversion mortgages, typically involve the disbursement of monthly advances to the consumer for a fixed period or until the occurrence of an event such as the consumer’s death. Repayment of the loan (generally a single payment of principal and accrued interest) may be required to be made at the end of the disbursements or, for example, upon the death of the consumer. In disclosing these transactions, creditors must apply the following rules, as applicable:

- If the reverse mortgage has a specified period for disbursements but repayment is due only upon the occurrence of a future event such as the death of the consumer, the creditor must assume that disbursements will be made until they are scheduled to end. The creditor must assume repayment will occur when disbursements end (or within a period following the final disbursement which is not longer than the regular interval between disbursements). This assumption should be used even though repayment may occur before or after the disbursements are scheduled to end. In such cases, the creditor may include a statement such as “The disclosures assume that you will repay the loan at the time our payments to you end. As provided in your agreement, your repayment may be required at a different time.”
- If the reverse mortgage has neither a specified period for disbursements nor a specified repayment date and these terms will be determined solely by reference to future events including the consumer’s death, the creditor may assume that the disbursements will end upon the consumer’s death (estimated by using actuarial tables, for example). However, the creditor may base the disclosures upon another future event it estimates will be most likely to occur first. (If terms will be determined by reference to future events which do not include the consumer’s death, the creditor must base the disclosures upon the occurrence of the event estimated to be most likely to occur first.)
- In making the disclosures, the creditor must assume that all disbursements and accrued interest will be paid by the consumer. For example, if the note has a nonrecourse provision providing that the consumer is not obligated for an amount greater than the value of the house, the creditor must nonetheless assume that the full amount to be disbursed will be repaid. In this case, however, the creditor may include a statement such as “The disclosures assume full repayment of the amount advanced plus accrued interest, although the amount you may be required to pay is limited by your agreement.”
- Some reverse mortgages provide that some or all of the appreciation in the value of the property will be shared between the consumer and the creditor. Such loans are considered variable-rate mortgages, as described in comment 17(c)(1)–11, and the appreciation feature must be disclosed in accordance with §226.18(f)(1). If the reverse mortgage has a variable interest rate, is written for a term greater than one year, and is secured by the consumer’s principal dwelling, the shared appreciation feature must be described under §226.19(b)(2)(vii).

15. Morris Plan transactions. When a deposit account is created for the sole purpose of accumulating payments and then is applied to satisfy entirely the consumer’s obligation in the transaction, each deposit made into the account is considered the same as a payment on a loan for purposes of making disclosures.

16. Number of transactions. Creditors have flexibility in handling credit extensions that may be viewed as multiple transactions. For example:

- When a creditor finances the credit sale of a radio and a television on the same day, the creditor may disclose the sales as either 1 or 2 credit sale transactions.
- When a creditor finances a loan along with a credit sale of health insurance, the creditor may disclose in one of several ways: a single credit sale transaction, a single loan transaction, or a loan and a credit sale transaction.
- The separate financing of a downpayment in a credit sale transaction may, but need not, be disclosed as 2 transactions (a credit sale and a separate transaction for the financing of the downpayment).

17. Special rules for tax refund anticipation loans. Tax refund loans, also known as refund anticipation loans (RALs), are transactions in which a creditor will lend up to the amount of a consumer’s expected tax refund. RAL agreements typically require repayment upon demand, but also may provide that repayment is required when the refund
is made. The agreements also typically provide that if the amount of the refund is less than the payment due, the consumer must pay the difference. Repayment often is made by offset to a consumer’s account held with the creditor when the refund has been deposited by electronic transfer. Creditors may charge fees for RALs in addition to fees charged in connection with the loan turnover electronically. In RAL transactions subject to the regulation the following special rules apply:

1. Basis for estimates. Disclosures may be estimated when the exact information is unknown at the time disclosures are made. Information is unknown if it is not reasonably available to the creditor at the time the disclosures are made. The “reasonably available” standard requires that the creditor, acting in good faith, exercise due diligence in obtaining information. For example, the creditor must at a minimum utilize generally accepted calculation tools, but need not invest in the most sophisticated computer program to make a particular type of calculation. The creditor normally may rely on the representations of other parties in obtaining information. For example, the creditor might look to the consumer for the time of consummation, to insurance companies for the cost of insurance, or to realtors for taxes and escrow fees. The creditor may utilize estimates in making disclosures even though the creditor knows that more precise information will be available by the point of consummation. However, new disclosures may be required under §226.17(f) or §226.19.

2. Labelling estimates. Estimates must be designated as such in the segregated disclosures. Even though other disclosures are based on the same assumption on which a specific estimated disclosure was based, the creditor has the option of labelling either "all numerical disclosures except the late payment disclosure are estimates." as a method to label those disclosures as estimates. Generally, only the particular disclosure for which the exact information is unknown is labelled as an estimate. However, when several disclosures are affected because of the unknown information, the creditor may use the option of labelling either every affected disclosure or only the disclosure primarily affected. For example, when the finance charge is unknown because the date of consummation is unknown, the creditor must label the finance charge as an estimate and may also label as estimates the total of payments and the payment schedule. When many disclosures are estimates, the creditor may use a general statement, such as “all numerical disclosures except the late payment disclosure are estimates” as a method to label those disclosures as estimates.

3. Simple-interest transactions. If consumers do not make timely payments in a simple-interest transaction, some of the amounts calculated for Truth in Lending disclosures will differ from amounts that consumers will actually pay over the term of the transaction. Creditors may label disclosures as estimates in these transactions. For example, because the finance charge and total of payments may be larger than disclosed if consumers make late payments, creditors may label the finance charge and total of payments as estimates. On the other hand, creditors may
choose not to label disclosures as estimates and may base all disclosures on the assumption that payments will be made on time, disregarding any possible inaccuracies resulting from consumers’ payment patterns.

Paragraph 17(c)(2)(i). 1. Per-diem interest. This paragraph applies to any numerical amount (such as the finance charge, annual percentage rate, or payment amount) that is affected by the amount of the per-diem interest charge that will be collected at consummation. If the amount of per-diem interest used in preparing the disclosures for consumption is based on the information known to the creditor at the time the disclosure document is prepared, the disclosures are considered accurate under this rule, and affected disclosures are also considered accurate, even if the disclosures are not labeled as estimates. For example, if the amount of per-diem interest used to prepare disclosures is less than the amount of per-diem interest charged at consummation, and as a result the finance charge is understated by $200, the disclosed finance charge is considered accurate even though the understatement is not within the $100 tolerance of §226.18(d)(1), and the finance charge was not labeled as an estimate. In this example, if in addition to the understate related to the per-diem interest, a $90 fee is incorrectly omitted from the finance charge, causing it to be understated by a total of $290, the finance charge is considered accurate because the $90 fee is within the tolerance in §226.18(d)(1).

Paragraph 17(c)(3). 1. Minor variations. Section 226.17(c)(3) allows creditors to disregard certain factors in calculating and making disclosures. For example:

- Creditors may ignore the effects of collecting payments in whole cents. Because payments cannot be collected in fractional cents, it is often difficult to amortize exactly an obligation with equal payments; the amount of the last payment may require adjustment to account for the rounding of the other payments to whole cents.
- Creditors may base their disclosures on calculation tools that assume that all months have an equal number of days, even if their practice is to take account of the variations in months for purposes of collecting interest. For example, a creditor may use a calculation tool based on a 360-day year, when it in fact collects interest by applying a factor of 1/365 of the annual rate to 365 days. This rule does not, however, authorize creditors to ignore, for disclosure purposes, the effects of applying 1/360 of an annual rate to 365 days.

2. Use of special rules. A creditor may utilize the special rules in §226.17(c)(4) for purposes of calculating and making all disclosures for a transaction or may, at its option, use the special rules for some disclosures and not others.

Paragraph 17(c)(4). 1. Payment schedule irregularities. When one or more payments in a transaction differ from the others because of a long or short first period, the variations may be ignored in disclosing the payment schedule, finance charge, annual percentage rate, and other terms. For example:

- A 36-month auto loan might be consummated on June 8 with payments due on July 1 and the first of each succeeding month. The creditor may base its calculations on a payment schedule that assumes 36 equal intervals and 36 equal installment payments, even though a precise computation would produce slightly different amounts because of the shorter first period.

- By contrast, in the same example, if the first payment were not scheduled until August 1, the irregular first period would exceed the limits in §226.17(c)(4); the creditor could not use the special rule and could not ignore the extra days in the first period in calculating its disclosures.

2. Measuring odd periods. In determining whether a transaction may take advantage of the rule in §226.17(c)(4), the creditor must measure the variation against a regular period. For purposes of that rule:

- The first period is the period from the date on which the finance charge begins to be earned to the date of the first payment.
- The term is the period from the date on which the finance charge begins to be earned to the date of the final payment.
- The regular period is the most common interval between payments in the transaction.

In transactions involving regular periods that are monthly, semimonthly or multiples of a month, the length of the irregular and regular periods may be calculated on the basis of either the actual number of days or an assumed 30-day month. In other transactions, the length of the periods is based on the actual number of days.

3. Use of special rules. A creditor may utilize the special rules in §226.17(c)(4) for purposes of calculating and making some disclosures but may elect not to do so for all of the disclosures. For example, the variations may be ignored in calculating and disclosing the annual percentage rate but taken into account in calculating and disclosing the finance charge and payment schedule.

4. Relation to prepaid finance charges. Prepaid finance charges, including “odd-days” or “per-diem” interest, paid prior to or at closing may not be treated as the first payment on a loan. Thus, creditors may not disregard an irregularity in disclosing such finance charges.

Paragraph 17(c)(5).
Federal Reserve System
Pt. 226, Supp. I

1. Demand disclosures. Disclosures for de-
mand obligations are based on an assumed 1-
year term, unless an alternate maturity date
is stated in the legal obligation. Whether an
alternate maturity date is stated in the legal
obligation is determined by applicable law.
An alternate maturity date is not inferred
from an informal principal reduction agree-
ment or a similar understanding between the
parties. However, when the note itself speci-
fies a principal reduction schedule (for exam-
ple, "payable on demand or $2,000 plus inter-
est quarterly"), an alternate maturity is
stated and the disclosures must reflect that
date.

2. Future event as maturity date. An obliga-
tion whose maturity date is determined sole-
lly by a future event, as for example, a loan
payable only on the sale of property, is not a
demand obligation. Because no demand
feature is contained in the obligation, de-
mand disclosures under § 226.18(i) are inappli-
cable. The disclosures should be based on the
creditor’s estimate of the time at which the
specified event will occur, and may indicate
the basis for the creditor’s estimate, as
noted in the commentary to § 226.17(a).

3. Demand after stated period. Most demand
transactions contain a demand feature that
may be exercised at any point during the
term, but certain transactions convert to de-
mand status only after a fixed period. For
example, in States prohibiting due-on-sale
clauses, the Federal National Mortgage As-
sociation (FNMA) requires mortgages that it
purchases to include a call option rider that
may be exercised after 7 years. These mort-
gages are generally written as long-term ob-
ligations, but contain a demand feature that
may be exercised only within a 30-day period
at 7 years. The disclosures for these trans-
actions should be based upon the legally
agreed-upon maturity date. Thus, if a mort-
gage containing the 7-year FNMA call option
is written as a 20-year obligation, the disclo-
sures should be based on the 20-year term,
with the demand feature disclosed under
§226.18(i).

4. Balloon mortgages. Balloon payment
mortgages, with payments based on a long-
term amortization schedule and a large final
payment due after a shorter term, are not
demand obligations unless a demand feature
is specifically contained in the contract. For
example, a mortgage with a term of 5 years
and a payment schedule based on 20 years
would not be treated as a mortgage with a
demand feature, in the absence of any con-
tractual demand provisions. In this type of
mortgage, disclosures should be based on the
5-year term.

Paragraph 17(c)(6).

1. Series of advances. Section 226.17(c)(6)(i)
deals with a series of advances under an
agreement to extend credit up to a certain
amount. A creditor may treat all of the ad-
vances as a single transaction or disclose
each advance as a separate transaction. If
these advances are treated as 1 transaction
and the timing and amounts of advances are
unknown, creditors must make disclosures
based on estimated payments as provided in
§226.17(c)(2). If the advances are disclosed
separately, disclosures must be provided be-
fore each advance occurs, with the disclo-
sures for the first advance provided by con-
summation.

2. Construction loans. Section 226.17(c)(6)(ii)
provides a flexible rule for disclosure of con-
struction loans that may be permanently fi-
nanced. These transactions have 2 distinct
phases, similar to 2 separate transactions.
The construction loan may be for initial con-
struction or subsequent construction, such as
rehabilitation or remodelling. The construc-
tion period usually involves several dis-
bursements of funds at times and in amounts
that are unknown at the beginning of that
period, with the consumer paying only ac-
crued interest until construction is com-
pleted. Unless the obligation is paid at that
time, the loan then converts to permanent
financing in which the loan amount is amor-
tized just as in a standard mortgage trans-
action. Section 226.17(c)(6)(ii) permits the
creditor to give either one combined disclo-
sure for both the construction financing and
the permanent financing, or a separate set of
disclosures for the 2 phases. This rule is
available whether the consumer is initially
obligated to accept construction financing
only or is obligated to accept both construc-
tion and permanent financing from the out-
set. If the consumer is obligated on both
phases and the creditor chooses to give 2 sets
of disclosures, both sets must be given to the
consumer initially, because both trans-
actions would be consummated at that time.
(Appendix D provides a method of calculating
the annual percentage rate and other disclo-
sures for construction loans, which may be
used, at the creditor’s option, in disclosing
construction financing.)

3. Multiple-advance construction loans. Sec-
ction 226.17(c)(6)(i) and (ii) are not mutually
exclusive. For example, in a transaction that
finances the construction of a dwelling that
may be permanently financed by the same
creditor, the construction phase may consist
of a series of advances under an agreement
to extend credit up to a certain amount. In
these cases, the creditor may disclose the
construction phase as either 1 or more than
1 transaction and also disclose the perma-
nent financing as a separate transaction.

4. Residential mortgage transaction. See the
commentary to §226.2(a)(24) for a discussion
of the effect of §226.17(c)(6) on the definition
of a residential mortgage transaction.

5. Allocation of points. When a creditor uti-
lizes the special rule in §226.17(c)(6) to dis-
close credit extensions as multiple trans-
actions, buyers points or similar amounts
imposed on the consumer must be allocated
for purposes of calculating disclosures. While such amounts should not be taken into account more than once in making calculations, they may be allocated between the transactions in any manner the creditor chooses. For example, if a construction-permanent loan is subject to 5 points imposed on the consumer and the creditor chooses to disclose them separately, the 5 points may be allocated entirely to the construction loan, entirely to the permanent loan, or divided in any manner between the two. However, the entire 5 points may not be applied twice, that is, to both the construction and the permanent phases.

17(f) Multiple creditors; multiple consumers.

1. Multiple creditors. If a credit transaction involves more than one creditor:

   a. The creditors must choose which of them will make the disclosures.
   b. A single, complete set of disclosures must be provided, rather than partial disclosures from several creditors.
   c. All disclosures for the transaction must be given even if the disclosing creditor would not otherwise have been obligated to make a particular disclosure. For example, if one of the creditors is the seller, the total sale price disclosure under §226.18(j) must be made, even though the disclosing creditor is not the seller.

2. Multiple consumers. When two consumers are joint obligors with primary liability on an obligation, the disclosures may be given to either one of them. If one consumer is merely a surety or guarantor, the disclosures must be given to the principal debtor. In rescindable transactions, however, separate disclosures must be given to each consumer who has the right to rescind under §226.23, although the disclosures required under §226.18(j) need only be provided to the consumer who expresses an interest in a variable-rate loan program.

17(f) Effect of subsequent events.

1. Events causing inaccuracies. Inaccuracies in disclosures are not violations if attributable to events occurring after the disclosures are made. For example, when the consumer fails to fulfill a prior commitment to keep the collateral insured and the creditor then provides the coverage and charges the consumer for it, such a change does not make the original disclosures inaccurate. The creditor may, however, be required to make new disclosures under §226.17(f) or §226.19 if the events occurred between disclosure and consummation or under §226.20 if the events occurred after consummation.

17(f) Early disclosures.

1. Change in rate or other terms. Redisclosures are required for changes that occur between the time disclosures are made and consummation if the annual percentage rate in the consummated transaction exceeds the limits prescribed in this section, even if the initial disclosures would be considered accurate under the tolerances in §226.18(d) or 226.22(a). To illustrate:

   i. General. A. If disclosures are made in a regular transaction on July 1, the transaction is consummated on July 15, and the actual annual percentage rate varies by more than 1/4 of 1 percentage point from the disclosed annual percentage rate, the creditor must either redisclose the changed terms or furnish a complete set of new disclosures before consummation. Redisclosure is required even if the disclosures made on July 1 are based on estimates and marked as such.

   b. In a regular transaction, if early disclosures are marked as estimates and the disclosed annual percentage rate is within 1/4 of 1 percentage point of the rate at consummation, the creditor need not redisclose the changed terms (including the annual percentage rate).

   ii. Nonmortgage loan. If disclosures are made on July 1, the transaction is consummated on July 15, and the finance charge increased by $35 but the disclosed annual percentage rate is within the permitted tolerance, the creditor must at least redisclose the changed terms that were not marked as estimates. (See §226.18(d)(2) of this part.)

   iii. Mortgage loan. At the time TILA disclosures are prepared in July, the loan closing is scheduled for July 31 and the creditor does not plan to collect per-diem interest at consummation. Consumption actually occurs on August 5, and per-diem interest for the remainder of August is collected as a prepaid finance charge. Assuming there were no other changes requiring redisclosure, the creditor may rely on the disclosures prepared in July that were accurate when they were prepared. However, if the creditor prepares new disclosures in August that will be provided at consummation, the new disclosures must take into account the amount of the per-diem interest known to the creditor at that time.

2. Variable rate. The addition of a variable rate feature to the credit terms, after early disclosures are given, requires new disclosures.

3. Content of new disclosures. If redisclosure is required, the creditor has the option of either providing a complete set of new disclosures, or providing disclosures of only the terms that vary from those originally disclosed. (See the commentary to §226.19(a)(2).)

4. Special rules. In mortgage transactions subject to §226.10, the creditor must redisclose if, between the delivery of the required early disclosures and consummation, the annual percentage rate changes by more than a stated tolerance. When subsequent events occur after consummation, new disclosures are required only if there is a refinancing or an assumption within the meaning of §226.20. Paragraph 17(f)(2).
Federal Reserve System
Pt. 226, Supp. I

1. Irregular transactions. For purposes of this paragraph, a transaction is deemed to be "irregular" according to the definition in footnote 46 of §226.22(a)(3).

17(g) Mail or telephone orders—delay in disclosure.

1. Conditions for use. When the creditor receives a mail or telephone request for credit, the creditor may delay making the disclosures until the first payment is due if the following conditions are met:

• The credit request is initiated without face-to-face contact or direct telephone solicitation. (Creditors may, however, use the special rule when credit requests are solicited by mail.)
• The creditor has supplied the specified credit information about its credit terms either to the individual consumer or to the public generally. That information may be distributed through advertisements, catalogues, brochures, special mailers, or similar means.

2. Insurance. The location requirements for the insurance disclosures under §226.18(n) permit them to appear apart from the other disclosures. Therefore, a creditor may mail an insurance authorization to the consumer and then prepare the other disclosures to reflect whether or not the authorization is completed by the consumer. Creditors may also disclose the insurance cost on a unit-cost basis, if the transaction meets the requirements of §226.17(g).

17(h) Series of sales—delay in disclosures.

1. Applicability. The creditor may delay the disclosures for individual credit sales in a series of such sales until the first payment is due on the current sale, assuming the conditions in this paragraph are met. If those conditions are not met, the general timing rules in §226.17(b) apply.

2. Basis of disclosures. Creditors structuring disclosures for a series of sales under §226.17(h) may compute the total sale price as either:

• The cash price for the sale plus that portion of the finance charge and other charges applicable to that sale; or
• The cash price for the sale, other charges applicable to the sale, and the total finance charge and outstanding principal.

17(i) Interim student credit extensions.

1. Definition. Student credit plans involve extensions of credit for education purposes where the repayment amount and schedule are not known at the time credit is advanced. These plans include loans made under any student credit plan, whether government or private, where the repayment period does not begin immediately. (Certain student credit plans that meet this definition are exempt from Regulation Z. See §226.3(f).)

2. Relation to other sections. For disclosures made before the mandatory compliance date of the disclosures required under §§226.46, 47, and 48, paragraph 17(i) permitted creditors to omit from the disclosures the terms set forth in that paragraph at the time the credit was actually extended. However, creditors were required to make complete disclosures at the time the creditor and consumer agreed upon the repayment schedule for the total obligation. At that time, a new set of disclosures of all applicable items under §226.18 was required. Consequently, for applications for student credit plans received on or after the mandatory compliance date of §§226.46, 47, and 48, the creditor may not omit from the disclosures the terms set forth in paragraph 17(i). Instead, the creditor must comply with §§226.46, 47, and 48, if applicable, or with §§226.17 and 226.18.

3. Basis of disclosures. The disclosures given at the time of execution of the interim note should reflect two annual percentage rates, one for the interim period and one for the repayment period. The use of §226.17(i) in making disclosures does not, by itself, make those disclosures estimates. Any portion of the finance charge, such as statutory interest, that is attributable to the interim period and is paid by the student (either as a prepaid finance charge, periodically during the interim period, in one payment at the end of the interim period, or capitalized at the beginning of the repayment period) must be reflected in the interim annual percentage rate. Interest subsidies, such as payments made by either a state or the Federal government on an interim loan, must be excluded in computing the annual percentage rate on the interim obligation, when the consumer has no contingent liability for payment of those amounts. Any finance charges that are paid separately by the student at the outset or withheld from the proceeds of the loan are prepaid finance charges. An example of this type of charge is the loan guarantee fee. When the prepaid finance charges is deducted from the loan proceeds to determine the amount financed and included in the calculation of the finance charge.

4. Consolidation. Consolidation of the interim student credit extensions through a renewal note with a set repayment schedule is treated as a new transaction with disclosures made as they would be for a refinancing. Any unearned portion of the finance charge must be reflected in the new finance charge and annual percentage rate, and is not added to the new amount financed. In itemizing the amount financed under §226.18(c), the creditor may combine the principal balances remaining on the interim extensions at the time of consolidation and categorize them as the amount paid on the consumer’s account.
Pt. 226, Supp. I
5. Approved student credit forms. See the commentary to appendix H regarding disclosure forms approved for use in certain student credit programs.

References

Other sections: Section 226.2 and appendix H.

Previous regulation: Sections 226.6 and 226.8.

1981 changes: With few exceptions, the disclosures must now appear apart from all other information, and may not be interspersed with that information. The disclosures must be based on the legal obligation between the parties, rather than any side agreement.
The assumed maturity period for demand loans has been increased from 6 months to 1 year. Any alternate maturity date must be stated in the legal obligation rather than inferred from the documents, in order to form a basis for disclosures.

In multiple-advance transactions, a series of advances up to a certain amount and construction loans that may be permanently financed may be disclosed, at the creditor’s option, as either a single transaction or several transactions. Appendix D is applicable only to multiple advances for the construction of a dwelling, whereas its predecessor, Interpretation § 226.813, could be used for all multiple-advance transactions.

If disclosures are made before the date of consummation, the creditor need not provide updated disclosures at consummation unless the annual percentage rate has changed beyond certain limits or a variable rate feature has been added.

Section 226.18—Content of Disclosures
1. As applicable. The disclosures required by this section need be made only as applicable. Any disclosure not relevant to a particular transaction may be eliminated entirely. For example:
• In a loan transaction, the creditor may delete disclosure of the total sale price.
• In a credit sale requiring disclosure of the total sale price under § 226.18(j), the creditor may delete any reference to a downpayment where no downpayment is involved.

Where the amounts of several numerical disclosures are the same, the “as applicable” language also permits creditors to combine the terms, so long as it is done in a clear and conspicuous manner. For example:
• In a transaction in which the amount financed equals the total of payments, the creditor may disclose “amount financed/total of payments,” together with descriptive language, followed by a single amount.

12 CFR Ch. II (1–1–10 Edition)

1. Identification of creditor. The creditor making the disclosures must be identified. This disclosure may, at the creditor’s option, appear apart from the other disclosures. Use of the creditor’s name is sufficient, but the creditor may also include an address and/or telephone number. In transactions with multiple creditors, any one of them may make the disclosures; the one doing so must be identified.

18(a) Creditor.
18(b) Amount financed.
1. Disclosure required. The net amount of credit extended must be disclosed using the term amount financed and a descriptive explanation similar to the phrase in the regulation.

2. Rebates and loan premiums. In a loan transaction, the creditor may offer a premium in the form of cash or merchandise to prospective borrowers. Similarly, in a credit sale transaction, a seller’s or manufacturer’s rebate may be offered to prospective purchasers of the creditor’s goods or services. At the creditor’s option, these amounts may be either reflected in the Truth in Lending disclosures or disregarded in the disclosures. If the creditor chooses to reflect them in the §226.18 disclosures, rather than disregard them, they may be taken into account in any manner as part of those disclosures.

Paragraph 18(b)(1).
1. Downpayments. A downpayment is defined in §226.2(a)(18) to include, at the creditor’s option, certain deferred downpayments or pick-up payments. A deferred downpayment that meets the criteria set forth in the definition may be treated as part of the downpayment, at the creditor’s option.
• Deferred downpayments that are not treated as part of the downpayment (either because they do not meet the definition or because the creditor simply chooses not to treat them as downpayments) are included in the amount financed.

18(b)(2).
1. Adding other amounts. Fees or other charges that are not part of the finance charge and that are financed rather than paid separately at consummation of the transaction are included in the amount financed. Typical examples are real estate settlement charges and premiums for voluntary credit life and disability insurance excluded.
from the finance charge under §226.4. This paragraph does not include any amounts already accounted for under §226.18(b)(1), such as taxes, tag and title fees, or the costs of accessories or service policies that the creditor includes in the cash price.

Paragraph 18(b)(3).

1. Prepaid finance charges. Prepaid finance charges that are paid separately in cash or by check should be deducted under §226.18(b)(3) in calculating the amount financed. To illustrate:

- A consumer applies for a loan of $2,500 with a $40 loan fee. The face amount of the note is $2,500 and the consumer pays the loan fee separately by cash or check at closing. The principal loan amount for purposes of §226.18(b)(1) is $2,500 and $40 should be deducted under §226.18(b)(3), thereby yielding an amount financed of $2,460.

In some instances, as when loan fees are financed by the creditor, finance charges are incorporated in the face amount of the note. Creditors have the option, when the charges are not add-on or discount charges, of determining a principal loan amount under §226.18(b)(1) that either includes or does not include the amount of the finance charges. (Thus the principal loan amount may, but need not, be determined to equal the face amount of the note.) When the finance charges are included in the principal loan amount, they should be deducted as prepaid finance charges under §226.18(b)(3). When the finance charges are not included in the principal loan amount, they should not be deducted under §226.18(b)(3). The following examples illustrate the application of §226.18(b) to these types of transactions. Each example assumes a loan request of $1000 for 1 year, subject to a 6 percent precomputed interest rate, with a $10 loan fee paid separately at consummation.

- The creditor assesses add-on interest of $60 which is added to the $1000 in loan proceeds for an obligation with a face amount of $1060. The principal for purposes of §226.18(b)(1) is $1000, no amounts are added under §226.18(b)(2), and the $10 loan fee is a prepaid finance charge to be deducted under §226.18(b)(3). The amount financed is $990.

- The creditor assesses discount interest of $60 and distributes $940 to the consumer, who is liable for an obligation with a face amount of $1000. The principal under §226.18(b)(1) is $940, which results in an amount financed of $990, after deduction of the $10 prepaid finance charge under §226.18(b)(3).

- The creditor assesses $60 in discount interest by increasing the face amount of the obligation to $1060, with the consumer receiving $1000. The principal under §226.18(b)(1) is thus $1000 and the amount financed is $990, after deducting the $10 prepaid finance charge under §226.18(b)(3).

18(c) Itemization of amount financed.

1. Disclosure required. The creditor has 2 alternatives in complying with §226.18(c):

- The creditor may inform the consumer, on the segregated disclosures, that a written itemization of the amount financed will be provided on request, furnishing the
Itemization only if the customer in fact requests it.

- The creditor may provide an itemization as a matter of course, without notifying the consumer of the right to receive it or waiting for a request.

Whether given as a matter of course or only on request, the itemization must be provided at the same time as the other disclosures required by §226.18, although separate from those disclosures.

2. Additional information. Section 226.18(c) establishes only a minimum standard for the material to be included in the itemization of the amount financed. Creditors have considerable flexibility in revising or supplementing the information listed in §226.18(c) and shown in model form H–3, although no changes are required. The creditor may, for example, do one or more of the following:

i. Include amounts that reflect payments not part of the amount financed. For example, escrow items and certain insurance premiums may be included, as discussed in the commentary to §226.18(g).

ii. Organize the categories in any order. For example, the creditor may rearrange the terms in a mathematical progression that depicts the arithmetic relationship of the terms.

iii. Add categories. For example, in a credit sale, the creditor may include the cash price and the downpayment. If the credit sale involves a trade-in of the consumer’s car and an existing lien on that car exceeds the value of the trade-in amount, the creditor may disclose the consumer’s trade-in value, the creditor’s payoff of the existing lien, and the resulting additional amount financed.

iv. Further itemize each category. For example, the amount paid directly to the consumer such as savings or checking accounts. Whether given as a matter of course or only on request, the itemization may be subdivided into the amount given by check and the amount credited to the consumer’s savings account.

v. Label categories with different language from that shown in §226.18(c). For example, an amount paid on the consumer’s account may be revised to specifically identify the account as “your auto loan with us.”

vi. Delete, leave blank, mark “N/A” or otherwise not inapplicable categories in the itemization. For example, in a credit sale with no prepaid finance charges or amounts paid to others, the amount financed may consist of only the cash price less downpayment. In this case, the itemization may be composed of only a single category and all other categories may be eliminated.

3. Amounts appropriate to more than one category. When an amount may appropriately be placed in any of several categories and the creditor does not wish to revise the categories shown in §226.18(c), the creditor has considerable flexibility in determining where to show the amount. For example:

- In a credit sale, the portion of the purchase price being financed by the creditor may be viewed as either an amount paid to the consumer or an amount paid on the consumer’s account.

4. RESPA transactions. The Real Estate Settlement Procedures Act (RESPA) requires creditors to provide a good faith estimate of closing costs and a settlement statement listing the amounts paid by the consumer. Transactions subject to RESPA are exempt from the requirements of §226.18(c) if the creditor complies with RESPA’s requirements for a good faith estimate and settlement statement. The itemization of the amount financed need not be given, even though the content and timing of the good faith estimate and settlement statement under RESPA differ from the requirements of §§226.18(c) and 226.19(a)(2). If a creditor chooses to substitute RESPA’s settlement statement for the itemization when redisclosure is required under §226.19(a)(2), the statement must be delivered to the consumer at or prior to consummation. The disclosures required by §§226.18(c) and 226.19(a)(2) may appear on the same page or on the same document as the good faith estimate or the settlement statement, so long as the requirements of §226.17(a) are met.

Paragraph 18(c)(1)(i).

1. Amounts paid to consumer. This encompasses funds given to the consumer in the form of cash or a check, including joint proceeds checks, as well as funds placed in an asset account. It may include money in an interest-bearing account even if that amount is considered a required deposit under §226.18(r). For example, in a transaction with total loan proceeds of $500, the consumer receives a check for $300 and $200 is required by the creditor to be put into an interest-bearing account. Whether or not the $200 is a required deposit, it is part of the amount financed. At the creditor’s option, it may be broken out and labeled in the itemization of the amount financed.

Paragraph 18(c)(1)(ii).

1. Amounts credited to consumer’s account. The term consumer’s account refers to an account in the nature of a debt with that creditor. It may include, for example, an unpaid balance on a prior loan, a credit sale balance or other amounts owing to that creditor. It does not include asset accounts of the consumer such as savings or checking accounts.

Paragraph 18(c)(1)(iii).

1. Amounts paid to others. This includes, for example, tag and title fees; amounts paid to insurance companies for insurance premiums; security interest fees, and amounts paid to credit bureaus, appraisers or public officials. When several types of insurance premiums are financed, they may, at the creditor’s option, be combined and listed in one sum, labeled “Insurance” or similar term. This includes, but is not limited to,
Federal Reserve System

18(c) Finance charge.

1. Prepaid finance charge. Prepaid finance charges that are deducted under §226.18(b)(3) must be disclosed under this section. The prepaid finance charges must be shown as a total amount but may, at the creditor’s option, also be further itemized and described. All amounts must be reflected in this total, even if portions of the prepaid finance charge are also reflected elsewhere. For example, if at consummation the creditor collects an interest of $30 and a credit report fee of $10, a total prepaid finance charge of $40 must be shown. At the creditor’s option, the credit report fee paid to a third party may also be shown elsewhere as an amount included in §226.18(c)(1)(iii). The creditor may also further describe the 2 components of the prepaid finance charge, although no itemized disclosure of this element is required by §226.18(c)(1)(iv).

2. Prepaid mortgage insurance premiums. RESPA requires creditors to give consumers a settlement statement disclosing the costs associated with mortgage loan transactions. Included on the settlement statement are mortgage insurance premiums collected at settlement, which are prepaid finance charges. In calculating the total amount of prepaid finance charges, creditors should use the amount for mortgage insurance listed on the line for mortgage insurance on the settlement statement (line 1002 on HUD–1 or HUD 1-A), without adjustment, even if the actual amount collected at settlement may vary because of RESPA’s escrow accounting rules. Figures for mortgage insurance disclosed in conformance with RESPA shall be deemed to be accurate for purposes of Regulation Z.

18(d) Finance charge.

1. Disclosure required. The creditor must disclose the finance charge as a dollar amount, using the term finance charge, and must include a brief description similar to that in §226.18(d). The creditor may, but need not, further modify the descriptor for variable-rate transactions that are subject to change. The finance charge must be shown on the disclosures only as a total amount; the elements of the finance charge must not be itemized in the segregated disclosures, although the regulation does not prohibit their itemization elsewhere.

2. [Reserved]

18(e) Annual percentage rate.

1. Disclosure required. The creditor must disclose the cost of the credit as an annual rate, using the term annual percentage rate, plus a brief descriptive phrase comparable to that used in §226.18(e). For variable-rate transactions, the descriptor may be further modified with a phrase such as which is subject to change. Under §226.19(a), the terms annual percentage rate and finance charge must be more conspicuous than the other required disclosures.

2. Exception. Footnote 42 provides an exception for certain transactions in which no annual percentage rate disclosure is required.

18(f) Variable rate.

1. Coverage. The requirements of §226.18(f) apply to all transactions in which the terms of the legal obligation allow the creditor to increase the rate originally disclosed to the consumer. It includes not only increases in the interest rate but also increases in other components, such as the rate of required credit life insurance. The provisions, however, do not apply to increases resulting from delinquency (including late payment), default, assumption, acceleration or transfer of the collateral. Section 226.18(f)(1) applies to variable-rate transactions that are not secured by the consumer’s principal dwelling and to those that are secured by the principal dwelling but have a term of one year or less. Section 226.18(f)(2) applies to variable-rate transactions that are secured by the consumer’s principal dwelling and have a term greater than one year. Moreover, transactions subject to §226.18(f)(2) are subject to the special early disclosure requirements of §226.19(b). (However, “shared-equity” or “shared-appreciation” mortgages are subject to the disclosure requirements of §226.18(f)(1) and not to the requirements of §§226.18(f)(2) and 226.19(b) regardless of the general coverage of those sections.) Creditors are permitted under footnote 43 to substitute in any
variable-rate transaction the disclosures required under §226.19(b) for those disclosures ordinarily required under §226.18(f)(1). Creditors who provide variable-rate disclosures under §226.19(b) must comply with all of the requirements of that section, including the timing of disclosures, and must also provide the disclosures required under §226.18(f)(2). Creditors utilizing footnote 43 may, but need not, also provide disclosures pursuant to §226.20(c). (Substitution of disclosures under §226.18(f)(1) in transactions subject to §226.19(b) is not permitted under the footnote.)

Paragraph 18(f)(1).
1. Terms used in disclosure. In describing the variable rate feature, the creditor need not use any prescribed terminology. For example, limitations and hypothetical examples may be described in terms of interest rates rather than annual percentage rates. The model forms in appendix H provide examples of ways in which the variable rate disclosures may be made.

2. Conversion feature. In variable-rate transactions with an option permitting consumers to convert to a fixed-rate transaction, the conversion option is a variable-rate feature that must be disclosed. In making disclosures under §226.18(f)(1), creditors should disclose the fact that the rate may increase upon conversion; identify the index or formula used to set the fixed rate; and state any limitations on and effects of an increase resulting from conversion that differ from other variable-rate features. Because §226.18(f)(1)(iv) requires only one hypothetical example (such as an example of the effect on payments resulting from changes in the index), a second hypothetical example need not be given.

Paragraph 18(f)(1)(ii).
1. Circumstances. The circumstances under which the rate may increase include identification of any index to which the rate is tied, as well as any conditions or events on which the increase is contingent.
   a. When no specific index is used, any identifiable factors used to determine whether to increase the rate must be disclosed.
   b. When the increase in the rate is purely discretionary, the fact that any increase is within the creditor’s discretion must be disclosed.
   c. When the index is internally defined (for example, by that creditor’s prime rate), the creditor must comply with this requirement by either a brief description of that index or a statement that any increase is in the discretion of the creditor. An externally defined index, however, must be identified.

Paragraph 18(f)(1)(iii).
1. Limitations. This includes any maximum imposed on the amount of an increase in the rate at any time, as well as any maximum on the total increase over the life of the transaction. Except for private education loans disclosures, when there are no limitations, the creditor may, but need not, disclose that fact, and limitations do not include legal limits in the nature of usury or rate ceilings under State or Federal statutes or regulations. (See §226.30 for the rule requiring that a maximum interest rate be included in certain variable-rate transactions.) For disclosures with respect to private education loan disclosures, see comment 47(b)(1)-2.

Paragraph 18(f)(1)(iv).
1. Hypothetical example. The example may, at the creditor’s option appear apart from the other disclosures. The creditor may provide either a standard example that illustrates the terms and conditions of that type of credit offered by that creditor or an example that directly reflects the terms and conditions of the particular transaction. In transactions with more than one variable-rate feature, only one hypothetical example need be provided. (See the commentary to section 226.17(a)(1) regarding disclosure of more than one hypothetical example as directly related information.)

2. Hypothetical example not required. The creditor need not provide a hypothetical example in the following transactions with a variable-rate feature:
   • Demand obligations with no alternate maturity date.
   • Private education loans as defined in §226.46(b)(5).
   • Multiple-advance construction loans disclosed pursuant to appendix D, Part I.

Paragraph 18(f)(2).
1. Disclosure required. In variable-rate transactions that have a term greater than one year and are secured by the consumer’s principal dwelling, the creditor must give special early disclosures under §226.19(b) in addition to the later disclosures required under §226.18(f)(2). The disclosures under §226.18(f)(2) must state that the transaction has a variable-rate feature and that variable-rate disclosures have been provided earlier. (See the commentary to §226.17(a)(1) regarding the disclosure of certain directly related information in addition to the variable-rate disclosures required under §226.18(f)(2).)
Federal Reserve System
Pt. 226, Supp. I

1. Amounts included in repayment schedule. The repayment schedule should reflect all components of the finance charge, not merely the portion attributable to interest. A prepayment of the downpayment or pick-up payment is not included in the repayment schedule. In addition, if the mortgage insurance is not part of the amount financed, the insurance payments are not included in the repayment schedule.

2. Deferred downpayments. As discussed in the commentary to §126.2a(18), deferred downpayments or pick-up payments that meet the conditions set forth in the definition of downpayment may be treated as part of the downpayment. Even if treated as a downpayment, that amount may nevertheless be disclosed as part of the payment schedule, at the creditor's option.

3. Total number of payments. In disclosing the number of payments for transactions with more than one payment level, creditors may but need not disclose as a single figure the total number of payments for all levels. For example, in a transaction calling for 108 payments of $350, 240 payments of $335, and 12 payments of $330, the creditor need not state that there will be a total of 360 payments.

4. Timing of payments. General rule. Section 226.18(g) requires creditors to disclose the timing of payments. To meet this requirement, creditors must list all of the payment due dates. They also have the option of specifying the "period of payments" scheduled to repay the obligation. As a general rule, creditors that choose this option must disclose the payment intervals or frequency, such as "monthly" or "bi-weekly," and the calendar date that the beginning payment is due. For example, a creditor may disclose that payments are due "monthly, beginning on July 1, 1998." This information, when combined with the number of payments, is necessary to define the repayment period and enable a consumer to determine all of the payment due dates.

ii. Exception. In a limited number of circumstances, the beginning-payment date is unknown and difficult to determine at the time disclosures are made. For example, a consumer may become obligated on a credit contract that contemplates the delayed disbursement of funds based on a contingent event, such as the completion of home repairs. Disclosures may also accompany loan checks that are sent by mail, in which case the initial disbursement and repayment dates are solely within the consumer's control. In such cases, if the beginning-payment date is unknown the creditor may use an estimated date and label the disclosure as an estimated pursuant to §226.17(c). Alternatively, the disclosure may refer to the occurrence of a particular event, for example, by disclosing that the beginning payment is due "30 days after the first loan disbursement." This information also may be included with an estimated date to explain the basis for the creditor's estimate. See Comments Pt. 17a(1)-5(iii).

5. Mortgage insurance. The payment schedule should reflect the consumer's mortgage insurance payments until the date on which the creditor must automatically terminate coverage under applicable law, even though the consumer may have a right to request that the insurance be cancelled earlier. The payment schedule must reflect the legal obligation, as determined by applicable state or other law. For example, assume that under applicable law, mortgage insurance must terminate after the 130th scheduled monthly payment, and the creditor collects at closing and places in escrow two months of premiums. If, under the legal obligation, the creditor will include mortgage insurance premiums in 130 payments and refund the escrowed payments when the insurance is terminated, the payment schedule should reflect 130 premium payments. If, under the legal obligation, the creditor will apply the amount escrowed to the two final insurance payments, the payment schedule should reflect 128 monthly premium payments. (For assumptions in calculating a payment schedule that includes mortgage insurance that must be automatically terminated, see comments 17(c)(1)-8 and 17(c)(1)-10.)

Paragraph 18(g)(1): Demand obligations. In demand obligations with no alternate maturity date, the creditor has the option of disclosing only the due dates or periods of scheduled interest payments in the first year (for example, "interest payable quarterly" or "interest due the first of each month"). The amounts of the interest payments need not be shown.

Paragraph 18(g)(2): Demand obligations. The creditor may disclose an abbreviated payment schedule when the amount of each regularly scheduled payment (other than the first or last payment) includes an equal amount to be applied on principal and a finance charge computed by application of a rate to the decreasing unpaid balance. This option is available when mortgage-guarantee insurance premiums, paid either monthly or annually, cause variations in the amount of the scheduled payments, reflecting the continual decrease or increase in the premium due. In addition, in transactions where payments vary because interest and principal are paid at different intervals, the two series of payments may be disclosed separately and the abbreviated payment schedule may be used for the interest payments. For example, in transactions with fixed quarterly principal...
payments and monthly interest payments based on the outstanding principal balance, the amount of the interest payments will change quarterly as principal declines. In such cases, the creditor may treat the interest and principal payments as two separate series of payments, separately disclosing the number, amount, and due dates of principal payments and the amount, number, and due dates of interest payments. This option may be used when interest and principal are scheduled to be paid on the same date of the month as well as on different dates of the month. The creditor using this alternative must disclose the dollar amount of the highest and lowest payments and make reference to the variation in payments.

2. Combined payment schedule disclosures. Creditors may combine the option in this paragraph with the general payment schedule requirements in transactions where only a portion of the payment schedule meets the conditions of §226.18(g)(2). For example, in a graduated payment mortgage where payments rise sharply for 5 years and then decline over the next 25 years because of decreasing mortgage insurance premiums, the first 5 years would be disclosed under the general rule in §226.18(g) and the next 25 years according to the abbreviated schedule in §226.18(g)(2).

3. Effect on other disclosures. Section 226.18(g)(2) applies only to the payment schedule disclosure. The actual amounts of payments must be taken into account in calculating and disclosing the finance charge and the annual percentage rate.

Paragraph 18(h) Total of payments.

1. Disclosure required. The total of payments must be disclosed using that term, along with a descriptive phrase similar to the one in the regulation. The descriptive explanation may be revised to reflect a variable rate feature with a brief phrase such as "based on the current annual percentage rate which may change."

2. Calculation of total of payments. The total of payments is the sum of the payments disclosed under §226.18(g). For example, if the creditor disclosed a deferred portion of the downpayment as part of the payment schedule, that payment must be reflected in the total disclosed under this paragraph.

3. Exception. Footnote 44 permits creditors to omit disclosure of the total of payments in single-payment transactions. This exception does not apply to a transaction calling for a single payment of principal combined with periodic payments of interest.

4. Demand obligations. In demand obligations with no alternate maturity date, the creditor may omit disclosure of payment amounts under §226.18(g)(1). In those transactions, the creditor need not disclose the total of payments.

Paragraph 18(i) Demand feature.

1. Disclosure required. The disclosure requirements of this provision apply not only to transactions payable on demand from the outset, but also to transactions that are not payable on demand at the time of consummation but convert to a demand status after a stated period. In demand obligations in which the disclosures are based on an assumed maturity of 1 year under §226.17(c)(5), that fact must also be stated. Appendix H contains model clauses that may be used in making this disclosure.

2. Covered demand features. The type of demand feature triggering the disclosures required by §226.18(i) includes only those demand features contemplated by the parties as part of the legal obligation. For example, this provision does not apply to transactions that convert to a demand status as a result of the consumer’s default. A due-on-sale clause is not considered a demand feature. A creditor may, but need not, treat its contractual right to demand payment of a loan made to its executive officers as a demand feature to the extent that the contractual right is required by Regulation O (12 CFR 215.5) or other federal law.

3. Relationship to payment schedule disclosures. As provided in §226.18(g)(1), in demand obligations with no alternate maturity date, the creditor need only disclose the due dates or payment periods of any scheduled interest payments for the first year. If the demand obligation states an alternate maturity, however, the disclosed payment schedule must reflect that stated term; the special rule in §226.18(g)(1) is not available.

Paragraph 18(j) Total sale price.

1. Disclosure required. In a credit sale transaction, the total sale price must be disclosed using that term, along with a descriptive explanation similar to the one in the regulation. For variable rate transactions, the descriptive phrase may, at the creditor’s option, be modified to reflect the variable rate feature. For example, the descriptor may read: “The total cost of your purchase on credit, which is subject to change, including your downpayment of * * *.” The reference to a downpayment may be eliminated in transactions calling for no downpayment.

2. Calculation of total sale price. The figure to be disclosed is the sum of the cash price, other charges added under §226.18(b)(2), and the finance charge disclosed under §226.18(d).

3. Effect of existing liens. When a credit sale transaction involves property that is being used as a trade-in (an automobile, for example) and that has a lien exceeding the value of the trade-in, the total sale price is affected by the amount of any cash provided. (See comment 2(a)(18)-3.) To illustrate, assume a consumer finances the purchase of an automobile with a cash price of $20,000. Another vehicle used as a trade-in has a value of $8,000 but has an existing lien of $10,000.
Federal Reserve System

Pt. 226, Supp. I

leaving a $2,000 deficit that the consumer must finance.

i. If the consumer pays $1,500 in cash, the creditor may apply the cash first to the lien, leaving a $500 deficit, and reflect a downpayment of $0. The total sale price would include the $20,000 cash price, an additional $500 financed under §226.18(b)(2), and the amount of the finance charge. Alternatively, the creditor may reflect a downpayment of $1,500 and finance the $2,000 deficit. In that case, the total sale price would include the sum of the $20,000 cash price, the $2,000 lien payoff amount as an additional amount financed, and the amount of the finance charge.

ii. If the consumer pays $3,000 in cash, the creditor may apply the cash first to extinguish the lien and reflect the remainder as a downpayment of $1,000. The total sale price would reflect the $20,000 cash price and the amount of the finance charge. (The cash payment extinguishes the trade-in deficit and no charges are added under §226.18(b)(2).) Alternatively, the creditor may reflect a downpayment of $3,000 and finance the $2,000 deficit. In that case, the total sale price would include the sum of the $20,000 cash price, the $2,000 lien payoff amount as an additional amount financed, and the amount of the finance charge.

Paragraph 18(k) Prepayment

1. Disclosure required. The creditor must give a definitive statement of whether or not a penalty will be imposed or a rebate will be given:

• The fact that no penalty will be imposed may not simply be inferred from the absence of a penalty disclosure; the creditor must indicate that prepayment will not result in a penalty.

• If a penalty or refund is possible for one type of prepayment, whether voluntary or involuntary as in the case of prepayments resulting from acceleration.

• Any difference in rebate or penalty policy, depending on whether prepayment is voluntary or not, must not be disclosed with the segregated disclosures.

2. Rebate-penalty disclosure. A single transaction may involve both a precomputed finance charge and a finance charge computed by application of a rate to the unpaid balance (for example, mortgages with mortgage-guarantee insurance). In these cases, disclosures about both prepayment rebates and penalties are required. Sample form H-15 in appendix H illustrates a mortgage transaction in which both rebate and penalty disclosures are necessary.

3. Prepaid finance charge. The existence of a prepaid finance charge in a transaction does not, by itself, require a disclosure under §226.18(k). A prepaid finance charge is not considered a penalty under §226.18(k)(1), nor does it require a disclosure under §226.18(k)(2). At its option, however, a creditor may consider a prepaid finance charge to be under §226.18(k)(2). If a disclosure is made under §226.18(k)(2) with respect to a prepaid finance charge or other finance charge, the creditor may further identify that finance charge. For example, the disclosure may state that the borrower “will not be entitled to a refund of the prepaid finance charge” or some other term that describes the finance charge.

Paragraph 18(k)(2).

1. Rebate of finance charge. This applies to any finance charges that do not take account of each reduction in the principal balance of an obligation. This category includes, for example:

• Precomputed finance charges such as add-on charges.

• Charges that take account of some but not all reductions in principal, such as mortgage-guarantee insurance assessed on the basis of an annual declining balance, when the principal is reduced on a monthly basis.

No description of the method of computing earned or unearned finance charges is required or permitted as part of the segregated disclosures under this section.

Paragraph 18(l) Late payment

1. Definition. This paragraph requires a disclosure only if charges are added to individual delinquent installments by a creditor who otherwise considers the transaction ongoing on its original terms. Late payment charges do not include:

• The right of acceleration.

• Fees imposed for actual collection costs, such as repossession charges or attorney’s fees.

• Deferral and extension charges.
• The continued accrual of simple interest at the contract rate after the payment due date. However, an increase in the interest rate is a late payment charge to the extent of the increase.

2. Content of disclosure. Many state laws authorize the calculation of late charges on the basis of either a percentage or a specified dollar amount, and permit imposition of the lesser or greater of the 2 charges. The disclosure made under §226.18(l) may reflect this alternative. For example, stating that the charge in the event of a late payment is 5% of the late amount, not to exceed $5.00, is sufficient. Many creditors also permit a grace period during which no late charge will be assessed; this fact may be disclosed as directly related information. (See the commentary to §226.17(a).) Paragraph 18(m) Security interest.

1. Purchase money transactions. When the collateral is the item purchased as part of, or with the proceeds of, the credit transaction, section 226.18(m) requires only a general identification such as “the property purchased in this transaction.” However, the creditor may identify the property by item or type instead of identifying it more generally with a phrase such as “the property purchased in this transaction.” For example, a creditor may identify collateral as “a motor vehicle,” or as “the property purchased in this transaction.” Any transaction in which the credit is being used to purchase the collateral is considered a purchase money transaction and the abbreviated identification may be used, whether the obligation is treated as a loan or a credit sale.

2. Nonpurchase money transactions. In nonpurchase money transactions, the property subject to the security interest must be identified by item or type. This disclosure is satisfied by a general disclosure of the category of property subject to the security interest, such as “motor vehicles,” “securities,” “certain household items,” or “ household goods.” (Creditors should be aware, however, that the Federal credit practices rules, as well as some state laws, prohibit certain security interests in household goods.) At the creditor’s option, however, a more precise identification of the property or goods may be provided.

3. Mixed collateral. In some transactions in which the credit is used to purchase the collateral, the creditor may also take other property of the consumer as security. In those cases, a combined disclosure must be provided, consisting of an identification of the purchase money collateral consistent with comment 18(m)-1 and a specific identification of the other collateral consistent with comment 18(m)-2.

4. After-acquired property. An after-acquired property clause is not a security interest to be disclosed under §226.18(m).

5. Spreader clause. The fact that collateral for pre-existing credit with the institution is being used to secure the present obligation constitutes a security interest and must be disclosed. (Such security interests may be known as “spreader” or “dragnet” clauses, or as “cross-collateralization” clauses.) A specific identification of that collateral is unnecessary but a reminder of the interest arising from the prior indebtedness is required. The disclosure may be made by using language such as “collateral securing other loans with us may also secure this loan.” At the creditor’s option, a more specific description of the property involved may be given.

6. Terms used in disclosure. No specified terminology is required in disclosing a security interest. Although the disclosure may, at the creditor’s option, use the term security interest, the creditor may designate its interest by using, for example, pledge, lien, or mortgage.

7. Collateral from third party. In certain transactions, the consumer’s obligation may be secured by collateral belonging to a third party. For example, a loan to a student may be secured by an interest in the property of the student’s parents. In such cases, the security interest is taken in connection with the transaction and must be disclosed, even though the property encumbered is owned by someone other than the consumer. Paragraph 18(n) Insurance and debt cancellation.

1. Location. This disclosure may, at the creditor’s option, appear apart from the other disclosures. It may appear with any other information, including the amount financed itemization, any information prescribed by state law, or other supplementary material. When this information is disclosed with the other segregated disclosures, however, no additional explanatory material may be included.

2. Debt cancellation. Creditors may use the model credit insurance disclosures only if the debt cancellation coverage constitutes insurance under state law. Otherwise, they may provide a parallel disclosure that refers to debt cancellation coverage. Paragraph 18(o) Certain security interest charges.

1. Format. No special format is required for these disclosures; under §226.4(e), taxes and fees paid to government officials with respect to a security interest may be aggregated, or may be broken down by individual charge. For example, the disclosure could be labelled “filing fees and taxes” and all funds disbursed for such purposes may be aggregated in a single disclosure. This disclosure may appear, at the creditor’s option, apart from the other required disclosures. The inclusion of this information on a statement required under the Real Estate Settlement Procedures Act is sufficient disclosure for purposes of Truth in Lending. Paragraph 18(p) Contract reference.
Creditors may treat these pledged accounts as required deposits or they may treat them as consumer buydowns in accordance with the commentary to §226.17(c)(1).

3. Escrow accounts. The escrow exception in footnote 45 applies, for example, to accounts for such items as maintenance fees, repairs, or improvements, whether in a realty or a nonrealty transaction. (See the commentary to §226.17(c)(1) regarding the use of escrow accounts in consumer buydown transactions.)

4. Interest-bearing accounts. When a deposit earns at least 5 percent interest per year, no disclosure is required under §226.18(r). This exception applies whether the deposit is held by the creditor or by a third party.

5. Morris Plan transactions. A deposit under a Morris Plan, in which a deposit account is created for the sole purpose of accumulating payments and this is applied to satisfy entirely the consumer’s obligation in the transaction, is not a required deposit.

6. Examples of amounts excluded. The following are among the types of deposits that need not be treated as required deposits:

- Requirement that a borrower be a customer or a member even if that involves a fee or a minimum balance.
- Required property insurance escrow on a mobile home transaction.
- Refund of interest when the obligation is paid in full.
- Funds deposited with the creditor to be disbursed (for example, for construction) before the loan proceeds are advanced.
- Escrow of condominium fees.
- Escrow of loan proceeds to be released when the repairs are completed.

References

Other sections: Sections 226.2, 226.17, and appendix H.

Other regulations: 12 CFR 545.6–2(a) and 12 CFR Part 20.

Previous regulation: Sections 226.4 and 226.8.

1981 changes: Five of the required disclosures must be explained to the consumer in a manner similar to the descriptive phrases shown in the regulation. A written itemization of the amount financed need not be provided unless the consumer requests it. The finance charge must be provided in all transactions, including real estate transactions, but must be shown only as a total amount. The disclosed finance charge is considered accurate if it is within a specified range.

The variable rate hypothetical is required in all variable rate transactions and may be either general or transaction-specific. The
penalty and rebate disclosures in the event of prepayment have been modified and combined. The requirement of an explanation of how the rebates or penalties are computed has been eliminated. The late payment disclosure has also been narrowed to include only charges imposed before maturity for late payments.

The information required in the security interest disclosure has been decreased by the deletion of the type of security interest and a reduction in the property description requirement. The disclosure of the required deposit is limited to a statement that the annual percentage rate does not reflect the required deposit; the presence of a required deposit has no effect on the annual percentage rate.

Two disclosure requirements have been added: A reference to the contract documents for additional information and, in a residential mortgage transaction, a statement of the creditor’s assumption policy.

Section 226.19—Certain Mortgage and Variable-Rate Transactions

19(a)(1)(i) Time of disclosure

1. Coverage. This section requires early disclosure of credit terms in mortgage transactions that are secured by a consumer’s dwelling (other than home equity lines of credit subject to §226.5b or mortgage transactions secured by an interest in a timeshare plan) that are also subject to the Real Estate Settlement Procedures Act (RESPA) and its implementing Regulation X, administered by the Department of Housing and Urban Development (HUD). To be covered by §226.19, a transaction must be a Federally related mortgage loan under RESPA. “Federally related mortgage loan” is defined under RESPA (12 U.S.C. 2602) and Regulation X (24 CFR 3500.2), and is subject to any interpretations (including any interpretations issued by HUD) in deciding whether a “written application” has been received. In general, Regulation X defines “application” to mean the submission of a borrower’s financial information in anticipation of a credit decision relating to a Federally related mortgage loan. See 24 CFR 3500.2(b). An application is received when it reaches the creditor in any of the ways applications are normally transmitted—by mail, hand delivery, or through an intermediary agent or broker. (See comment 19b–3 for guidance in determining whether or not the transaction involves an intermediary agent or broker.) If an application reaches the creditor through an intermediary agent or broker, the application is received when it reaches the creditor, rather than when it reaches the agent or broker.

2. Timing and use of estimates. The disclosures required by §226.19(a)(1)(i) must be delivered or mailed not later than three business days after the creditor receives the consumer’s written application. The general definition of “business day” in §226.2(a)(6)—a day on which the creditor’s offices are open to the public for substantially all of its business functions—is used for purposes of §226.19(a)(1)(i). See comment 2a(6)–1. This general definition is consistent with the definition of “business day” in HUD’s Regulation X—a day on which the creditor’s offices are open to the public for carrying on substantially all of its business functions. See 24 CFR 3500.2. Accordingly, the three-business-day period in §226.19(a)(1)(i) for making early disclosures coincides with the time period within which creditors subject to RESPA must provide good faith estimates of settlement costs. If the creditor does not know the precise credit terms, the creditor must base the disclosures on the best information reasonably available and indicate that the disclosures are estimates under §226.17(c)(2). If many of the disclosures are estimates, the creditor may include a statement to that effect (such as “all numerical disclosures except the late-payment disclosure are estimates”) instead of separately labelling each estimate. In the alternative, the creditor may label as an estimate only the items primarily affected by unknown information. (See the commentary to §226.17(c)(2).) The creditor may provide explanatory material concerning the estimates and the contingencies that may affect the actual terms, in accordance with the commentary to §226.17(a)(1).

3. Written application. Creditors may rely on RESPA and Regulation X (including any interpretations issued by HUD) in deciding whether a “written application” has been received. In general, Regulation X defines “application” to mean the submission of a borrower’s financial information in anticipation of a credit decision relating to a Federally related mortgage loan. See 24 CFR 3500.2(b). An application is received when it reaches the creditor in any of the ways applications are normally transmitted—by mail, hand delivery, or through an intermediary agent or broker. (See comment 19b–3 for guidance in determining whether or not the transaction involves an intermediary agent or broker.) If an application reaches the creditor through an intermediary agent or broker, the application is received when it reaches the creditor, rather than when it reaches the agent or broker.

4. Denied or withdrawn applications. The creditor may determine within the three-business-day period that the application will not or cannot be approved on the terms requested, as, for example, when a consumer applies for a type or amount of credit that the creditor does not offer, or the consumer’s application cannot be approved for some other reason. In that case, or if the consumer withdraws the application within the three-business-day period, the creditor need not make the disclosures under this section. If the creditor fails to provide early disclosures and the transaction is later consummated on the original terms, the creditor will be in violation of this provision. If, however, the consumer amends the application because of the creditor’s unwillingness to approve it on its original terms, no violation occurs for not providing disclosures based on the original terms. But the amended application is a new application subject to §226.19(a)(1)(i).

5. Itemization of amount financed. In many mortgage transactions, the itemization of the amount financed required by §226.19(c) will contain items, such as origination fees or points, that also must be disclosed as part of the good faith estimates of settlement costs required under RESPA. Creditors furnishing the RESPA good faith estimates...
need not give consumers any itemization of the amount financed.

19(a)(1)(i) Imposition of fees.

1. Timing of fees. The consumer must receive the disclosures required by this section before paying or incurring any fee imposed by a creditor or other person in connection with the consumer’s application for a mortgage loan transaction that is subject to §226.19(a)(2), except as provided in §226.19(a)(1)(i). If the creditor delivers the disclosures to the consumer in person, a fee may be imposed anytime after delivery. If the creditor places the disclosures in the mail, the creditor may impose a fee after the consumer receives the disclosures or, in all cases, after midnight on the third business day following mailing of the disclosures. For purposes of §226.19(a)(1)(i), the term “business day” means all calendar days except Sundays and legal public holidays referred to in §226.2(a)(6). See Comment 2(a)(6)–2. For example, assuming that there are no intervening legal public holidays, a creditor that receives the consumer’s written application on Monday, June 1, and mails the early mortgage loan disclosure on Tuesday may impose a fee on the consumer after midnight on Friday, June 5.

2. Fees restricted. A creditor or other person may not impose any fee, such as for an appraisal, underwriting, or broker services, until the consumer has received the disclosures required by §226.19(a)(1)(i). The only exception to the fee restriction allows the creditor or other person to impose a bona fide and reasonable fee for obtaining a consumer’s credit history, such as for a credit report(s).

i. The creditor receives a consumer’s written application directly from the consumer and does not collect any fee, other than a fee for obtaining a consumer’s credit history, until the consumer receives the early mortgage loan disclosure.

ii. A third party submits a consumer’s written application to a creditor and both the creditor and third party do not collect any fee, other than a fee for obtaining a consumer’s credit history, until the consumer receives the early mortgage loan disclosure from the creditor.

iii. A third party submits a consumer’s written application to a second creditor following a prior creditor’s denial of an application made by the same consumer (or following the consumer’s withdrawal), and, if a fee has already been assessed, the new creditor or third party does not collect or impose any additional fee until the consumer receives an early mortgage loan disclosure from the new creditor.

19(a)(1)(iii) Exception to fee restriction.

1. Requirements. A creditor or other person may impose a fee before the consumer receives the required disclosures if it is for obtaining the consumer’s credit history, such as by purchasing a credit report(s) on the consumer. The fee also must be bona fide and reasonable in amount. For example, a creditor may collect a fee for obtaining a credit report(s) if it is in the creditor’s ordinary course of business to obtain a credit report(s). If the criteria in §226.19(a)(1)(iii) are met, the creditor may describe or refer to this fee, for example, as an “application fee.”

19(a)(2) Waiting period(s) required.

2. Consumption after both waiting periods expire. Consumption may not occur until both the seven-business-day waiting period and the three-business-day waiting period have expired. For example, assume a creditor delivers the early disclosures to the consumer in person or places them in the mail on Monday, June 1, and the creditor then delivers corrected disclosures in person to the consumer on Wednesday, June 3. Although Saturday, June 6 is the third business day after the consumer received the corrected disclosures, consumption may not occur before Tuesday, June 9, the seventh business day following delivery or mailing of the early disclosures. For purposes of these waiting periods, consummation may occur on or after Tuesday, June 9, the seventh business day following delivery or mailing of the early disclosures.

19(a)(2)(i) Seven-business-day waiting period.

1. Timing. The disclosures required by §226.19(a)(1)(i) must be delivered or placed in the mail no later than the seventh business day before consummation. The seven-business-day waiting period begins when the creditor delivers the early disclosures or places them in the mail, not when the consumer receives or is deemed to have received the disclosures. For example, if a creditor delivers the early disclosures to the consumer in person or places them in the mail on Monday, June 1, consummation may occur on or after Tuesday, June 9, the seventh business day following delivery or mailing of the early disclosures.

19(a)(2)(ii) Three-business-day waiting period.

1. Conditions for redisclosure. If, at the time of consummation, the annual percentage rate disclosed is accurate under §226.22, the creditor does not have to make corrected disclosures under §226.19(a)(2). If, on the other hand, the annual percentage rate disclosed is not accurate under §226.22, the creditor must make corrected disclosures of all changed terms (including the annual percentage rate) so that the consumer receives them not later than the third business day before consummation. For example, assume consummation is scheduled for Thursday, June 11 and the early disclosures for a regular mortgage transaction disclose an annual percentage rate of 7.00%:
i. On Thursday, June 11, the annual percentage rate will be 7.10%. The creditor is not required to make corrected disclosures under §226.19(a)(2).

ii. On Thursday, June 11, the annual percentage rate will be 7.15%. The creditor must make corrected disclosures so that the consumer receives them on or before Monday, June 18.

2. Content of new disclosures. If redisclosure is required, the creditor may provide a complete set of new disclosures, or may redisclose only the changed terms. If the creditor chooses to provide a complete set of new disclosures, the creditor may but need not highlight the new terms, provided that the disclosures comply with the format requirements of §226.17(a). If the creditor chooses to disclose only the new terms, all the new terms must be disclosed. For example, a different annual percentage rate will almost always produce a different finance charge, and often a new schedule of payments; all of these changes would have to be disclosed. If, in addition, unrelated terms such as the amount financed or prepayment penalty vary from those originally disclosed, the accurate terms must be disclosed. However, no new disclosures are required if the only inaccuracies involve estimates other than the annual percentage rate, and no variable rate feature has been added. For a discussion of the requirement to redisclose when a variable-rate feature is added, see comment 17(f)(2). For a discussion of redisclosures triggered by other events, the creditor must provide corrected disclosures before consummation. See §226.17(f)(1). If the creditor delivers the corrected disclosures to the consumer in person, consumption may occur any time on the third business day following delivery. If the creditor provides the corrected disclosures by mail, the consumer is considered to have received them three business days after they are placed in the mail, for purposes of determining when the three-business-day waiting period required under §226.19(a)(2)(ii) begins. Creditors that use electronic mail or a courier other than the postal service may also follow this approach.

3. Timing. When redisclosures are necessary because the annual percentage rate has become inaccurate, they must be received by the consumer no later than the third business day before consummation. (For redisclosures triggered by other events, the creditor must provide corrected disclosures before consummation. See §226.17(f)(1).) If the creditor delivers the corrected disclosures to the consumer in person, consumption may occur any time on the third business day following delivery. If the creditor provides the corrected disclosures by mail, the consumer is considered to have received them three business days after they are placed in the mail, for purposes of determining when the three-business-day waiting period required under §226.19(a)(2)(ii) begins. Creditors that use electronic mail or a courier other than the postal service may also follow this approach.

4. Basis for annual percentage rate comparison. To determine whether a creditor must make corrected disclosures under §226.22, a creditor compares (a) what the annual percentage rate will be at consummation to (b) the annual percentage rate stated in the most recent disclosures the creditor made to the consumer. For example, assume consummation for a regular mortgage transaction is scheduled for Thursday, June 11, the early disclosures provided in May stated an annual percentage rate of 7.00%, and corrected disclosures received by the consumer on or before Monday, June 8, stated an annual percentage rate of 7.15%.

i. On Thursday, June 11, the annual percentage rate will be 7.25%, which exceeds the most recently disclosed annual percentage rate by less than the applicable tolerance. The creditor is not required to make additional corrected disclosures or wait an additional three business days under §226.19(a)(2).

ii. On Thursday, June 11, the annual percentage rate will be 7.30%, which exceeds the most recently disclosed annual percentage rate by more than the applicable tolerance. The creditor must make corrected disclosures such that the consumer receives them on or before Monday, June 8.

19(a)(3) Consumer’s waiver of waiting period before consummation.

1. Modification or waiver. A consumer may modify or waive the right to a waiting period required by §226.19(a)(2) only after the creditor makes the disclosures required by §226.18. The consumer must have a bona fide personal financial emergency that necessitates consummating the credit transaction before the end of the waiting period. Whether these conditions are met is determined by the facts surrounding individual situations. The imminent sale of the consumer’s home at foreclosure, where the foreclosure sale will proceed unless loan proceeds are made available to the consumer during the waiting period, is one example of a bona fide personal financial emergency. Each consumer who is primarily liable on the legal obligation must sign the written statement for the waiver to be effective.

2. Examples of waivers within the seven-business-day waiting period. Assume the early disclosures are delivered to the consumer in person on Monday, June 1, and at that time the consumer executes a waiver of the seven-business-day waiting period (which would end on Tuesday, June 9) so that the loan can be consummated on Friday, June 5.

i. If the annual percentage rate on the early disclosures is inaccurate under §226.22, the creditor must provide a corrected disclosure to the consumer before consummation, which triggers the three-business-day waiting period in §226.19(a)(2)(ii). After the consumer receives the corrected disclosure, the consumer must execute a waiver of the three-business-day waiting period in order to consummate the transaction on Friday, June 5.

ii. If a change occurs that does not render the annual percentage rate on the early disclosures inaccurate under §226.22, the creditor must disclose the changed terms before consummation, consistent with §226.17(f). Disclosure of the changed terms does not trigger an additional waiting period, and the
transaction may be consummated on June 5 without the consumer giving the creditor an additional modification or waiver.

3. Examples of waivers made after the seven-business-day waiting period. Assume the early disclosures are delivered to the consumer in person on Monday, June 1 and consummation is scheduled for Friday, June 19. On Wednesday, June 17, a change to the annual percentage rate occurs:

i. If the annual percentage rate on the early disclosures is inaccurate under §226.22, the creditor must provide a corrected disclosure to the consumer before consummation, consistent with §226.17(f). Disclosure of the changed terms does not trigger an additional waiting period, and the transaction may be consummated on Friday, June 19 without the consumer giving the creditor an additional modification or waiver.

19(a)(4) Notice.
1. Inclusion in other disclosures. The notice required by §226.19(a)(4) must be grouped together with the disclosures required by §226.19(a)(1)(i) or §226.19(a)(2). See comment 19(a)(1)(i)–5 for a discussion of the rules for segregating disclosures. In other cases, the notice set forth in §226.19(a)(4) may be disclosed together with or separately from the disclosures required under §226.18. See comment 17(a)(1)(i)–5(v). 19(a)(5)(ii) Time of disclosures for timeshare plans.

1. Timing. A mortgage transaction secured by a consumer’s interest in a “timeshare plan,” as defined in 11 U.S.C. 101(53D), that is also a Federally related mortgage loan under RESPA is subject to the requirements of §226.19(a)(5) instead of the requirements of §226.19(a)(1) through §226.19(a)(4). See comment 19(a)(1)(i)–1. Early disclosures for transactions subject to §226.19(a)(5) must be given (a) before consummation or (b) within three business days after the creditor receives the consumer’s written application, whichever is earlier. The general definition of “business day” in §226.2(a)(6)—a day on which the creditor’s offices are open to the public for substantially all of its business functions—applies for purposes of §226.19(a)(5). See comment 2(a)(6)–1. These timing requirements are different from the timing requirements under §226.19(a)(1)(i). Timeshare transactions covered by §226.19(a)(5) may be consummated any time after the disclosures required by §226.19(a)(5)(ii) are provided.

2. Use of estimates. If the creditor does not know the precise credit terms, the creditor must base the disclosures on the best information reasonably available and indicate that the disclosures are estimates under §226.17(c)(2). If many of the disclosures are estimates, the creditor may include a statement to that effect (such as “all numerical disclosures except the late-payment disclosure are estimates”) instead of separately labeling each estimate. In the alternative, the creditor may label as an estimate only the items primarily affected by unknown information. (See the commentary to §226.17(c)(2).) The creditor may provide explanatory material concerning the estimates and the contingencies that may affect the actual terms, in accordance with the commentary to §226.17(a)(1).

3. Written application. For timeshare transactions, creditors may rely on comment 19(a)(1)(i)–3 in determining whether a “written application” has been received.

4. Denied or withdrawn applications. For timeshare transactions, creditors may rely on comment 19(a)(1)(i)–4 in determining that disclosures are not required by §226.19(a)(5)(ii) because the consumer’s application will not or cannot be approved on the terms requested or the consumer has withdrawn the application.

5. Itemization of amount financed. For timeshare transactions, creditors may rely on comment 19(a)(1)(i)–5 in determining whether providing the good faith estimates of settlement costs required by RESPA satisfies the requirement of §226.18(c) to provide an itemization of the amount financed.

19(a)(5)(iii) Redisclosure for timeshare plans.
1. Consummation or settlement. For extensions of credit secured by a consumer’s timeshare plan, when corrected disclosures are required, they must be given no later than “consummation or settlement.” “Consummation” is defined in §226.2(a). “Settlement” is defined in Regulation X (24 CFR 3500.2(b)) and is subject to any interpretations issued by HUD. In some cases, a creditor may delay redisclosure until settlement, which may be at a time later than consummation. If a creditor chooses to redisclose at settlement, disclosures may be based on the terms in effect at settlement, rather than at consummation. For example, in a variable-rate transaction, a creditor may choose to base disclosures on the terms in effect at settlement, despite the general rule in comment 17(c)(1)–8 that variable-rate disclosures should be based on the terms in effect at consummation.

2. Content of new disclosures. Creditors may rely on comment 19(a)(2)(ii)–2 in determining the content of corrected disclosures required under §226.19(a)(5)(iii).

19(b) Certain variable-rate transactions.
1. Coverage. Section 226.19(b) applies to all closed-end variable-rate transactions that are secured by the consumer’s principal dwelling and have a term greater than one year. The requirements of this section apply not only to transactions financing the initial acquisition of the consumer’s principal dwelling, but also to any other closed-end variable-rate transactions that are not secured by the principal dwelling. Closed-end variable-rate transactions that are not secured by the principal dwelling but have a term of one year or less, are subject to the disclosure requirements of §226.18(f)(1) rather than those of §226.19(b). (Furthermore, “shared-equity” or “shared-appreciation” mortgages are subject to the disclosure requirements of §226.18(f)(1) rather than those of §226.19(b) regardless of the general coverage of those sections.) For purposes of this section, the term of a variable-rate demand loan is determined in accordance with the commentary to §226.17(c)(5). In determining whether a construction loan that may be permanently financed by the same creditor is covered under this section, the creditor may treat the construction and the permanent phases as separate transactions with distinct terms to maturity or as a single combined transaction. For purposes of the disclosures required under §226.18, the creditor may nevertheless treat the two phases either as separate transactions or as a single combined transaction in accordance with §226.17(c)(6). Finally, in any assumption of a variable-rate transaction secured by the consumer’s principal dwelling with a term greater than one year, disclosures need not be provided under §§226.18(f)(2)(ii) or 226.19(b).

2. Timing. A creditor must give the disclosures required under this section at the time an application is provided or before the consumer pays a nonrefundable fee, whichever is earlier.

i. Intermediary agent or broker. In cases where a creditor receives a written application through an intermediary agent or broker, however, footnote 45b provides a substitute timing rule requiring the creditor to deliver the disclosures or place them in the mail not later than three business days after the creditor receives the consumer’s written application. (See comment 19(b)-3 for guidance in determining whether or not the transaction involves an intermediary agent or broker.) This three-day rule also applies where the creditor takes an application over the telephone.

ii. Telephone request. In cases where the consumer merely requests an application over the telephone, the creditor must include the early disclosures required under this section with the application that is sent to the consumer.

iii. Mail solicitations. In cases where the creditor solicits applications through the mail, the creditor must also send the disclosures required under this section if an application form is included with the solicitation.

iv. Conversion. In cases where an open-end credit account will convert to a closed-end variable-rate transaction subject to this section under a written agreement with the consumer, disclosures under this section may be given at the time of conversion. (See the commentary to §226.20(a) for information on the timing requirements for §226.19(b)(2) disclosures when a variable-rate feature is later added to a transaction.)

v. Form of electronic disclosures provided on or with electronic applications. Creditors must provide the disclosures required by this section (including the brochure) on or with a blank application that is made available to the consumer in electronic form, such as on a creditor’s Internet Web site. Creditors have flexibility in satisfying this requirement. Methods creditors could use to satisfy the requirement include, but are not limited to, the following examples:

A. The disclosures could automatically appear on the screen when the application appears;

B. The disclosures could be located on the same web page as the application (whether or not they appear on the initial screen), if the application contains a clear and conspicuous reference to the location of the disclosures and indicates that the disclosures contain rate, fee, and other cost information, as applicable;

C. Creditors could provide a link to the electronic disclosures on or with the application as long as consumers cannot bypass the disclosures before submitting the application. The link would take the consumer to the disclosures, but the consumer need not be required to scroll completely through the disclosures; or

D. The disclosures could be located on the same web page as the application without necessarily appearing on the initial screen, immediately preceding the button that the consumer will click to submit the application.

Whatever method is used, a creditor need not confirm that the consumer has read the disclosures.

3. Intermediary agent or broker. In certain transactions involving an “intermediary agent or broker,” a creditor may delay providing disclosures. A creditor may not delay providing disclosures in transactions involving either a legal agent (as determined by applicable law) or any other third party that is not an “intermediary agent or broker.” In determining whether or not a transaction involves an “intermediary agent or broker” the following factors should be considered:

• The number of applications submitted by the broker to the creditor as compared to the total number of applications received by the creditor. The greater the percentage of
Federal Reserve System

Pt. 226, Supp. I

total loan applications submitted by the broker in any given period of time, the less likely it is that the broker would be considered an "intermediary agent or broker" of the creditor during the next period.

- The number of applications submitted by the broker to the creditor as compared to the total number of applications received by the creditor. (This factor is applied only if the creditor has such information.) The greater the percentage of total loan applications received by the broker that is submitted to a creditor in any given period of time, the less likely it is that the broker would be considered an "intermediary agent or broker" of the creditor during the next period.

- The amount of work (such as document preparation) the creditor expects to be done by the broker on an application based on the creditor's prior dealings with the broker and on the creditor's requirements for accepting applications, taking into consideration the customary practice of brokers in a particular area. The more work that the creditor expects the broker to do on an application, in excess of what is usually expected of a broker in that area, the less likely it is that the broker would be considered an "intermediary agent or broker" of the creditor.

An example of an "intermediary agent or broker" is a broker who, customarily within a brief period of time after receiving an application, inquires about the credit terms of several creditors with whom the broker does business and submits the application to one of them. The broker is responsible for only a small percentage of the applications received by that creditor. During the time the broker has the application, it might request a credit report and an appraisal (or even prepare an entire loan package if customary in that particular area).

4. Other variable-rate regulations. Transactions in which the creditor is required to comply with and has complied with the disclosure requirements of the variable-rate regulations of other Federal agencies are exempt from the requirements of §226.19(b), by virtue of footnote 45a, and are exempt from the requirements of §226.20(c), by virtue of footnote 45c. Those variable-rate regulations include the regulations issued by the Federal Home Loan Bank Board and those issued by the Department of Housing and Urban Development. The exception in footnotes 45a and 45c is also available to creditors that are required by state law to comply with the federal variable-rate regulations noted above and to creditors that are authorized by title VIII of the Depository Institutions Act of 1982 (12 U.S.C. 3801 et seq.) to make loans in accordance with those regulations. Creditors using this exception should comply with the timing requirements of those regulations rather than the timing requirements of Regulation Z in making the variable-rate disclosures.

5. Examples of variable-rate disclosures.

(i) The following transactions, if they have a term greater than one year and are secured by the consumer's principal dwelling, constitute variable-rate transactions subject to the disclosure requirements of §226.19(b).

(A) Renewable balloon-payment instruments where the creditor is both unconditionally obligated to renew the balloon-payment loan at the consumer's option (or is obligated to renew subject to conditions within the consumer's control) and has the option of increasing the interest rate at the time of renewal. (See comment 17(c)(1)-11 for a discussion of conditions within a consumer's control in connection with renewable balloon-payment loans.)

(B) Preferred-rate loans where the terms of the legal obligation provide that the initial underlying rate is fixed but will increase upon the occurrence of some event, such as an employee leaving the employ of the creditor, and the note reflects the preferred rate. The disclosures under §§226.19(b)(1) and 226.19(b)(2)(v), (viii), (ix), and (xii) are not applicable to such loans.

(C) "Price-level-adjusted mortgages" or other indexed mortgages that have a fixed rate of interest but provide for periodic adjustments to payments and the loan balance to reflect changes in an index measuring prices or inflation. The disclosures under §226.19(b)(1) are not applicable to such loans, nor are the following provisions to the extent they relate to the determination of the interest rate by the addition of a margin, changes in the interest rate, or interest rate discounts: Section 226.19(b)(2) (i), (iii), (iv), (v), (vi), (vii), (viii), and (ix). (See comments 20(c)-2 and 30-1 regarding the inapplicability of variable-rate adjustment notices and interest rate limitations to price-level-adjusted or similar mortgages.)

(ii) Graduated-payment mortgages and step-rate transactions without a variable-rate feature are not considered variable-rate transactions.

Paragraph 19(b)(1).

1. Substitute. Creditors who wish to use publications other than the Consumer Handbook on Adjustable Rate Mortgages must make a good faith determination that their brochures are suitable substitutes to the Consumer Handbook. A substitute is suitable if it is, at a minimum, comparable to the Consumer Handbook in substance and comprehensiveness. Creditors are permitted to provide more detailed information than is contained in the Consumer Handbook.

2. Applicability. The Consumer Handbook need not be given for variable-rate transactions subject to this section in which the underlying interest rate is fixed. (See comment 19(b)-5 for an example of a variable-
rate transaction where the underlying interest rate is fixed.

Paragraph 19(b)(2).

1. Disclosure for each variable-rate program. A creditor must provide disclosures to the consumer that fully describe each of the creditor’s variable-rate loan programs in which the consumer expresses an interest. If a program is made available only to certain customers of an institution, a creditor need not provide disclosures for that program to other consumers who express a general interest in a creditor’s ARM programs. Disclosures must be given at the time an application form is provided or before the consumer pays a nonrefundable fee, whichever is earlier. If program disclosures cannot be provided because a consumer expresses an interest in individually negotiating loan terms that are not generally offered, disclosures reflecting those terms may be provided as soon as reasonably possible after the terms have been decided upon, but not later than the time a non-refundable fee is paid. If a consumer who has received program disclosures subsequently expresses an interest in other available variable-rate programs subject to § 226.19(b)(2), or the creditor and consumer decide on a program for which the consumer has not received disclosures, the creditor must provide appropriate disclosures as soon as reasonably possible. The creditor, of course, is permitted to give the consumer information about additional programs subject to § 226.19(b) initially.

2. Variable-rate loan program defined. Generally, if the identification, the presence or absence, or the exact value of a loan feature must be disclosed under this section, variable-rate loans that differ as to such features constitute separate loan programs. For example, separate programs would not exist based on differences in the following loan features:

   A. The amount of a discount.
   B. The amount of a margin.
   C. The presence or absence of, and the amount of, rate or payment caps.
   D. The presence of a demand feature.
   E. The possibility of negative amortization.
   F. The possibility of interest rate carryover.
   G. The frequency of interest rate and payment adjustments.
   H. The presence of a discount feature.

   i. In addition, if a loan feature must be taken into account in preparing the disclosures required by § 226.19(b)(2)(vi), variable-rate loans that differ as to that feature constitute separate programs under § 226.19(b)(2).
   ii. If, however, a representative value may be given for a loan feature or the feature need not be disclosed under § 226.19(b)(2), variable-rate loans that differ as to such features do not constitute separate loan programs. For example, separate programs would not exist based on differences in the following loan features:

       A. The amount of a discount.

   3. Form of program disclosures. A creditor may provide separate program disclosure forms for each ARM program it offers or a single disclosure form that describes multiple programs. A disclosure form may consist of more than one page. For example, a creditor may attach a separate page containing the historical payment example for a particular program. A disclosure form describing multiple programs may illustrate more than one loan maturity or payment amortization—such as options permitting conversion to a fixed rate) disclosed separately. The form, however, must state if any program feature that is described is available only in conjunction with certain other program features. Both the separate and multiple program disclosures may illustrate more than one loan maturity or payment amortization—for example, by including multiple payment and loan balance columns in the historical payment example. Disclosures may be inserted or printed in the Consumer Handbook (or a suitable substitute) as long as they are identified as the creditor’s loan program disclosures.

   4. As applicable. The disclosures required by this section need only be made as applicable. Any disclosure not relevant to a particular transaction may be eliminated. For example, if the transaction does not contain a demand feature, the disclosure required under § 226.19(b)(2)(x) need not be given. As used in this section, payment refers only to a payment based on the interest rate, loan balance and loan term, and does not refer to payment of other elements such as mortgage insurance premiums.

   5. Revisions. A creditor must revise the disclosures required under this section once a year as soon as reasonably possible after the new index value becomes available. Revisions to the disclosures also are required when the loan program changes.

Paragraph 19(b)(2)(i).

1. Change in interest rate, payment, or term. A creditor must disclose the fact that the terms of the legal obligation permit the creditor, after consummation of the transaction, to increase (or decrease) the interest rate, payment, or term of the loan initially disclosed to the consumer. For example, the disclosures for a variable-rate program in which the interest rate and payment (but not loan term) can change might read, “Your
interest rate and payment can change yearly." In transactions where the term of the loan may change due to rate fluctuations, the creditor must state that fact.

Paragraph 19(b)(2)(v).

1. Identification of index or formula. If a creditor ties interest rate changes to a particular index, this fact must be disclosed, along with a source of information about the index. For example, if a creditor uses the weekly average yield on U.S. Treasury Securities adjusted to a constant maturity of one year published weekly in the Wall Street Journal. If no particular index is used, the creditor must briefly describe the formula used to calculate interest rate changes.

2. Changes at creditor’s discretion. If interest rate changes are at the creditor’s discretion, this fact must be disclosed. If an index is internally defined, such as by a creditor’s prime rate, the creditor should either briefly describe that index or state that interest rate changes are at the creditor’s discretion.

Paragraph 19(b)(2)(i). 1. Determination of interest rate and payment. This provision requires an explanation of how the creditor will determine the consumer’s interest rate and payment. In cases where a creditor bases its interest rate on a specific index and adjusts the index through the addition of a margin, for example, the disclosure might read, “Your interest rate is based on the index plus a margin, and your payment will be based on the interest rate, loan balance, and remaining loan term.” In transactions where paying the periodic payments will not fully amortize the outstanding balance at the end of the loan term and where the final payment will equal the periodic payment plus the remaining unpaid balance, the creditor must disclose this fact. For example, the disclosure might read, “Your periodic payments will not fully amortize your loan and you will be required to make a single payment of the periodic payment plus the remaining unpaid balance at the end of the loan term.” The creditor, however, need not reflect any irregular final payment in the historical example or in the disclosure of the initial and maximum rates and payments. If applicable, the creditor should also disclose that the rate and payment will be rounded.

Paragraph 19(b)(2)(iv).

1. Current margin value and interest rate. Because the disclosures can be prepared in advance, the interest rate and margin may be several months old when the disclosures are delivered. A statement, therefore, is required alerting consumers to the fact that they should inquire about the current margin value applied to the index and the current interest rate. For example, the disclosure might state, “Ask us for our current interest rate and margin.”

Paragraph 19(b)(2)(v).

1. Discounted and premium interest rate. In some variable-rate transactions, creditors may set an initial interest rate that is not determined by the index or formula used to make later interest rate adjustments. Typically, this initial rate charged to consumers is lower than the rate would be if it were calculated using the index or formula. However, in some cases the initial rate may be higher. If the initial interest rate will be a discount or a premium rate, creditors must alert the consumer to this fact. For example, if a creditor discounted a consumer’s initial rate, the disclosure might state, “Your initial interest rate is not based on the index used to make later adjustments.” (See the commentary to §226.17(c)(1) for a further discussion of discounted and premium variable-rate transactions.) In addition, the disclosure must suggest that consumers inquire about the amount that the program is currently discounted. For example, the disclosure might state, “Ask us for the amount our adjustable rate mortgages are currently discounted.” In a transaction with a consumer buydown or with a third-party buydown that will be incorporated in the legal obligation, the creditor should disclose the program as a discounted variable-rate transaction, but need not disclose additional information regarding the buydown in its program disclosures. (See the commentary to §226.19(b)(2)(viii) for a discussion of how to reflect the discount or premium in the historical example or the maximum rate and payment disclosure.)

Paragraph 19(b)(2)(vii).

1. Frequency. The frequency of interest rate and payment adjustments must be disclosed. If interest rate changes will be imposed more frequently or at different intervals than payment changes, a creditor must disclose the frequency and timing of both types of changes. For example, in a variable-rate transaction where interest rate changes are made monthly, but payment changes occur on an annual basis, this fact must be disclosed. In certain ARM transactions, the interval between loan closing and the initial adjustment is not known and may be different from the regular interval for adjustments. In such cases, the creditor may disclose the initial adjustment period as a range of the minimum and maximum amount of time from consummation or closing. For example, the creditor might state, “The first adjustment to your interest rate and payment will occur no sooner than 6 months and no later than 18 months after closing. Subsequent adjustments may occur once each year after the first adjustment.” (See comments 19(b)(2)(viii)(A)–7 and 19(b)(2)(viii)(B)–4 for guidance on other disclosures when this alternative disclosure rule is used.)
Paragraph 19(b)(2)(viii).

1. Rate and payment caps. The creditor must disclose limits on changes (increases or decreases) in the interest rate or payment. If an initial discount is not taken into account in applying overall or periodic rate limitations, that fact must be disclosed. If separate overall or periodic limitations apply to interest rate increases resulting from other events, such as the exercise of a fixed-rate conversion option or leaving the creditor’s employ, those limitations must also be stated. Limitations do not include legal limits in the nature of usury or rate ceilings under state or Federal statutes or regulations. (See §226.30 for the rule requiring that a maximum interest rate be included in certain variable-rate transactions.) The creditor need not disclose each periodic or overall rate limitation that is currently available. As an alternative, the creditor may disclose the range of the lowest and highest periodic and overall rate limitations that may be applicable to the creditor’s ARM transactions. For example, the creditor might state: “The limitation on increases to your interest rate at each adjustment will be set at an amount in the following range: Between 1 and 2 percentage points at each adjustment. The limitation on increases to your interest rate over the term of the loan will be set at an amount in the following range: Between 4 and 7 percentage points above the initial interest rate.” A creditor using this alternative rule must include a statement in its program disclosures suggesting that the consumer ask about the overall rate limitations currently offered for the creditor’s ARM programs. (See comments 19(b)(2)(viii)(A)–6 and 19(b)(2)(viii)(B)–3 for an explanation of the additional requirements for a creditor using this alternative rule for disclosure of periodic and overall rate limitations.)

2. Negative amortization and interest rate carryover. A creditor must disclose, where applicable, the possibility of negative amortization. For example, the disclosure might state, “If any of your payments is not sufficient to cover the interest due, the difference will be added to your loan amount.” Loans that are more than one way to trigger negative amortization are separate variable-rate programs requiring separate disclosures. (See the commentary to §226.19(b)(2) for a discussion on the definition of a variable-rate loan program and the format for disclosure.) If a consumer is given the option to cap monthly payments that may result in negative amortization, the creditor must fully disclose the rules relating to the option, including the effects of exercising the option (such as negative amortization will occur and the principal loan balance will increase); however, the disclosure in §226.19(b)(2)(viii) need not be provided.

3. Conversion option. If a loan program permits consumers to convert their variable-rate loans to fixed-rate loans, the creditor must disclose that the interest rate may increase if the consumer converts the loan to a fixed-rate loan. The creditor must also disclose the rules relating to the conversion feature, such as the period during which the loan may be converted, that fees may be charged at conversion, and how the fixed rate will be determined. The creditor should identify any index or other measure or formula used to determine the fixed rate and state any margin to be added. In disclosing the period during which the loan may be converted and the margin, the creditor may use information applicable to the conversion feature during the six months preceding preparation of the disclosures and state that the information is representative of conversion features recently offered by the creditor. The information may be used until the program disclosures are otherwise revised. Although the rules relating to the conversion option must be disclosed, the effect of exercising the option should not be reflected elsewhere in the disclosures, such as in the historical example or in the calculation of the initial and maximum interest rate and payments.

4. Preferred-rate loans. Section 226.19(b) applies to preferred-rate loans, where the rate will increase upon the occurrence of some event, such as an employee leaving the creditor’s employ, whether or not the underlying rate is fixed or variable. In these transactions, the creditor must disclose the event that would allow the creditor to increase the rate such as that the rate may increase if the employee leaves the creditor’s employ. The creditor must also disclose the rules relating to termination of the preferred rate, such as that fees may be charged when the rate is changed and how the new rate will be determined.

Paragraph 19(b)(2)(viii).

1. Historical example and initial and maximum interest rates and payments. A creditor may disclose both the historical example and the initial and maximum interest rates and payments.

1. Index movement. This section requires a creditor to provide an historical example, based on a $10,000 loan amount originating in 1977, showing how interest rate changes implemented according to the terms of the loan program would have affected payments and the loan balance at the end of each year during a 15-year period. (In all cases, the creditor need only calculate the payments and loan balance for the five-year term, from 1977 to 1981, with a zero loan balance reflected for 1981.) For the remaining ten years, 1982–1991, the creditor need only show the remaining index values, margin and interest rate and must continue
Federal Reserve System

Pt. 226, Supp. I

to reflect all significant loan program terms such as rate limitations affecting them.) Pursuant to this section, the creditor must provide a history of index values for the preceding 15 years. Initially, the disclosures would give the index values from 1977 to the present. Each year thereafter, the revised program disclosures should include an addition of index values for the previous year. If the values for an index have not been available for 15 years, a creditor need only go back as far as the values are available in giving a history and payment example. In all cases, only one index value per year need be shown. Thus, in transactions where interest rate adjustments are implemented more frequently than once per year, a creditor may assume that the interest rate and payment resulting from the index value chosen will stay in effect for the entire year for purposes of calculating the loan balance as of the end of the year and for reflecting other loan program terms. In cases where interest rate changes are at the creditor’s discretion (see the commentary to §226.19(b)(2)(iii)), the creditor must provide a history of the rates imposed for the preceding 15 years, beginning with the rates in 1977. In giving this history, the creditor need only go back as far as the creditor’s rates can reasonably be determined.

2. Selection of index values. The historical example must reflect the method by which index values are determined under the program. If a creditor uses an average of index values or any other index formula, the history given should reflect those values. The creditor should select one date or, when an average of single values is used as an index, one period and should base the example on index values measured as of that same date or period for each year shown in the history. A date or period at any time during the year may be selected, but the same date or period must be used for each year in the historical example. For example, a creditor could use values for the first business day in July or for the first week ending in July for each of the 15 years shown in the example.

3. Selection of margin. For purposes of the disclosure required under §226.19(b)(2)(viii)(A), a creditor may select a representative margin that has been used during the six months preceding preparation of the disclosures, and should disclose that the margin is one that the creditor has used recently. The margin selected may be used until a creditor revises the disclosure form.

4. Amount of discount or premium. For purposes of the disclosure required under §226.19(b)(2)(viii)(A), a creditor may select a discount or premium (amount and term) that has been used during the six months preceding preparation of the disclosures, and should disclose that the discount or premium is one that the creditor has used recently. The discount or premium should be reflected in the historical example for as long as the discount or premium is in effect. A creditor may assume that a discount that would have been in effect for any part of a year was in effect for the full year for purposes of reflecting it in the historical example. For example, a 3-month discount may be treated as being in effect for the entire first year of the example; a 15-month discount may be treated as being in effect for the first two years of the example. In illustrating the effect of the discount or premium, creditors should adjust the value of the interest rate in the historical example, and should not adjust the margin or index values. For example, if during the six months preceding preparation of the disclosures the fully indexed rate would have been 10% but the first year’s rate under the program was 8%, the creditor would discount the first interest rate in the historical example by 2 percentage points.

5. Term of the loan. In calculating the payments and loan balances in the historical example, a creditor need not base the disclosures on each term to maturity or payment amortization that it offers. Instead, disclosures for ARMs may be based upon terms to maturity or payment amortizations of 5, 15 and 30 years, as follows: ARMs with terms or amortizations over 20 years may be based on a 5-year term or amortization; ARMs with terms or amortizations from over 10 years to 20 years may be based on a 15-year term or amortization; ARMs with terms or amortizations over 20 years may be based on a 30-year term or amortization. Thus, disclosures for ARMs offered with any term from over 1 year to 40 years may be based solely on terms of 5, 15 and 30 years. Of course, a creditor may always base the disclosures on the actual terms or amortizations offered. If the creditor bases the disclosures on 5-, 15- or 30-year terms or payment amortization as provided above, the term or payment amortization used in making the disclosure must be stated.

6. Rate caps. A creditor using the alternative rule described in comment 19(b)(2)(vii)–1 for disclosure of rate limitations must base the historical example upon the highest periodic and overall rate limitations disclosed under section 226.19(b)(2)(vii). In addition, the creditor must state the limitations used in the historical example. (See comment 19(b)(2)(viii)(B)–3 for an explanation of the use of the highest rate limitations in other disclosures.)

7. Frequency of adjustments. In certain transactions, creditors may use the alternative rule described in comment 19(b)(2)(vii)–1 for disclosure of the frequency of rate and payment adjustments. In such cases, the creditor may assume for purposes of the historical example that the first adjustment occurred at the end of the first full year in which the adjustment could occur. For example, in an ARM in which the first
adjustment may occur between 6 and 18 months after closing and annually thereafter, the creditor may assume that the first adjustment occurred at the end of the first year in the historical example. (See comment 19(b)(2)(viii)(A)-4 for an explanation of how to compute the maximum interest rate and payment when the initial adjustment period is not known.)

1. Initial and maximum interest rates and payments. The disclosure form must state the initial and maximum interest rates and payments for a $10,000 loan originated at an initial interest rate (index value plus margin adjusted by the amount of any discount or premium) in effect as of an identified month and year for the loan program disclosure. (See comment 19(b)(2)-5 on revisions to the loan program disclosure.) In calculating the maximum payment under this paragraph, a creditor should assume that the interest rate increases as rapidly as possible under the loan program, and the maximum payment disclosed should reflect the amortization of the loan during this period. Thus, in a loan with 2 percentage point annual (and 5 percentage point overall) interest rate limitations or “caps,” the maximum interest rate would be 5 percentage points higher than the initial interest rate disclosed. Moreover, the loan would not reach the maximum interest rate until the fourth year because of the 2 percentage point annual rate limitations, and the maximum payment disclosed would reflect the amortization of the loan during this period. If the loan program includes a discounted or premium initial interest rate, the initial interest rate should be adjusted by the amount of the discount or premium.

2. Term of the loan. In calculating the initial and maximum payments, the creditor need not base the disclosures on each term to maturity or payment amortization offered under the program. Instead, the creditor may follow the rules set out in comment 19(b)(2)(viii)(A)-5.

If a historical example is provided under §226.19(b)(2)(viii)(A), the terms to maturity or payment amortization used in the historical example must be used in calculating the initial and maximum payment. In addition, creditors must state the term or payment amortization used in making the disclosures under this section.

3. Rate caps. A creditor using the alternative rule for disclosure of interest rate limitations described in comment 19(b)(2)(vii)-1 must calculate the maximum interest rate and payment based upon the highest periodic and overall rate limitations disclosed under §226.19(b)(vii). In addition, the creditor must state the rate limitations used in calculating the maximum interest rate and payment. (See comment 19(b)(2)(vii)(A)-6 for an explanation of the use of the highest rate limitation in other disclosures.)

4. Frequency of adjustments. In certain transactions, a creditor may use the alternative rule for disclosure of rate and payment adjustments described in comment 19(b)(2)(vi)-1. In such cases, the creditor must base the calculations of the initial and maximum rates and payments upon the earliest possible first adjustment disclosed under §226.19(b)(2)(vi). (See comment 19(b)(2)(viii)(A)-7 for an explanation of how to disclose the historical example when the initial adjustment period is not known.)

5. Periodic payment statement. The statement that the periodic payment may increase or decrease substantially may be satisfied by the disclosure in paragraph 19(b)(2)(vi) if it states for example, “your monthly payment can increase or decrease substantially based on annual changes in the interest rate.”

Paragraph 19(b)(2)(ix).

1. Calculation of payments. A creditor is required to include a statement on the disclosure form that explains how a consumer may calculate his or her actual monthly payments for a loan amount other than $10,000. The example should be based upon the most recent payment shown in the historical example or upon the initial interest rate reflected in the maximum rate and payment disclosure. In transactions in which the latest payment shown in the historical example is not for the latest year of index values shown (such as in a five-year loan), a creditor may provide additional examples based on the initial and maximum payments disclosed under §226.19(b)(2)(viii)(B). The creditor, however, is not required to calculate the consumer’s payments. (See the model clauses in appendix H-4(C).)

Paragraph 19(b)(2)(x).

1. Demand feature. If a variable-rate loan subject to §226.19(b) requirements contains a demand feature as discussed in the commentary to §226.18(i), this fact must be disclosed. (Pursuant to §226.18(i), creditors would also disclose the demand feature in the standard disclosures given later.)

Paragraph 19(b)(2)(xi).

1. Adjustment notices. A creditor must disclose to the consumer the type of information that will be contained in subsequent notices of adjustments and when such notices will be provided. (See the commentary to §226.20(c) regarding notices of adjustments.) For example, the disclosure might state, “You will be notified at least 25, but not more than 120, days before the due date of a payment at a new level. This notice will contain information about the index and interest rate, payment amount, and loan balance.” In transactions where there may be interest rate adjustments without accompanying payment adjustments in a year, the disclosure might read, “You will be notified once
Federal Reserve System

Paragraph 20(a) Refinancings.

1. Definition. A refinancing is a new transaction requiring a complete new set of disclosures. Whether a refinancing has occurred is determined by reference to whether the original obligation has been satisfied or extinguished and replaced by a new obligation, based on the parties’ contract and applicable law. The refinancing may involve the consolidation of several existing obligations, disbursement of new money to the consumer or on the consumer’s behalf, or the rescheduling of payments under an existing obligation. In any form, the new obligation must completely replace the prior one.

• Changes in the terms of an existing obligation, such as the deferral of individual installments, will not constitute a refinancing unless accomplished by the cancellation of that obligation and the substitution of a new obligation.

• A substitution of agreements that meets the refinancing definition will require new disclosures, even if the substitution does not substantially alter the prior credit terms.

2. Exceptions. A transaction is subject to §226.20(a) only if it meets the general definition of a refinancing. Section 226.20(a)(1) through (5) lists 5 events that are not treated as refinancings, even if they are accomplished by cancellation of the old obligation and substitution of a new one.

3. Variable-rate.

1. If a variable-rate feature was properly disclosed under the regulation, a rate change in accord with those disclosures is not a refinancing. For example, no new disclosures are required when the variable-rate feature is invoked on a renewable balloon-payment mortgage that was previously disclosed as a variable-rate transaction.

2. Even if it is not accomplished by the cancellation of the old obligation and substitution of a new one, a new transaction subject to new disclosures results if the creditor either:

   A. Increases the rate based on a variable-rate feature that was not previously disclosed; or

   B. Adds a variable-rate feature to the obligation. A creditor does not add a variable-rate feature by changing the index of a variable-rate transaction to a comparable index, whether the change replaces the existing index or substitutes an index for one that no longer exists.

3. If either of the events in paragraph 20(a) i A. or i B. occurs in a transaction secured by a principal dwelling with a term longer than one year, the disclosures required under §226.19(b) also must be given at that time.

4. Unearned finance charge. In a transaction involving precomputed finance charges, the creditor must include in the finance charge on the refinanced obligation any unearned portion of the original finance charge that is
not rebated to the consumer or credited against the underlying obligation. For example, in a transaction with an add-on finance charge, a creditor advances new money to a consumer in a fashion that extinguishes the original obligation and replaces it with a new one. The creditor neither refunds the unearned finance charge on the original obligation to the consumer nor credits it to the remaining balance on the old obligation. Under these circumstances, the unearned finance charge must be included in the finance charge on the new obligation and reflected in the annual percentage rate disclosed on refinancing. Accrued but unpaid finance charges are included in the amount financed in the new obligation.

5. Coverage. Section 226.20(a) applies only to refinancings undertaken by the original creditor or a holder or servicer of the original obligation. A "refinancing" by any other person is a new transaction under the regulation, not a refinancing under this section.

Paragraph 20(a)(1).
1. Renewal. This exception applies both to obligations with a single payment of principal and interest and to obligations with periodic payments of interest and a final payment of principal. In determining whether a new obligation replacing an old one is a renewal of the original terms or a refinancing, the creditor may consider it a renewal even if:
   • Accrued unpaid interest is added to the principal balance.
   • Changes are made in the terms of renewal resulting from the factors listed in §226.17(c)(3).
   • The principal at renewal is reduced by a curtailment of the obligation.

Paragraph 20(a)(2).
1. Annual percentage rate reduction. A reduction in the annual percentage rate with a corresponding change in the payment schedule is not a refinancing. If the annual percentage rate is subsequently increased (even though it remains below its original level) and the increase is effected in such a way that the old obligation is satisfied and replaced, new disclosures must then be made.
2. Corresponding change. A corresponding change in the payment schedule to implement a lower annual percentage rate would be a shortening of the maturity, or a reduction in the payment amount or the number of payments of an obligation. The exception in §226.20(a)(2) does not apply if the maturity is lengthened, or if the payment amount or number of payments is increased beyond that remaining on the existing transaction.

Paragraph 20(a)(3).
1. Court agreements. This exception includes, for example, agreements such as reaffirmations of debts discharged in bankruptcy, settlement agreements, and post-judgment agreements. (See the commentary to §226.2(a)(14) for a discussion of court-approved agreements that are not considered "credit.")

Paragraph 20(a)(4).
1. Workout agreements. A workout agreement is not a refinancing unless the annual percentage rate is increased or additional credit is advanced beyond amounts already accrued plus insurance premiums.

Paragraph 20(a)(5).
1. Insurance renewal. The renewal of optional insurance added to an existing credit transaction is not a refinancing, assuming that appropriate Truth in Lending disclosures were provided for the initial purchase of the insurance.

Paragraph 20(b) Assumptions.
1. General definition. An assumption as defined in §226.20(b) is a new transaction and new disclosures must be made to the subsequent consumer. An assumption under the regulation requires the following three elements:
   • A residential mortgage transaction.
   • An express acceptance of the subsequent consumer by the creditor.
   • A written agreement.

The assumption of a nonexempt consumer credit obligation requires no disclosures unless all three elements are present. For example, an automobile dealer need not provide Truth in Lending disclosures to a customer who assumes an existing obligation secured by an automobile. However, a residential mortgage transaction with the elements described in §226.20(b) is an assumption that calls for new disclosures; the disclosures must be given whether or not the assumption is accompanied by changes in the terms of the obligation. (See comment 2(a)(24)-5 for a discussion of assumptions that are not considered residential mortgage transactions.)

2. Existing residential mortgage transaction. A transaction may be a residential mortgage transaction as to one consumer and not to the other consumer. In that case, the creditor must look to the assuming consumer in determining whether a residential mortgage transaction exists. To illustrate:
   • The original consumer obtained a mortgage to purchase a home for vacation purposes. The loan was not a residential mortgage transaction as to that consumer. The mortgage is assumed by a consumer who will use the home as a principal dwelling. As to that consumer, the loan is a residential mortgage transaction. For purposes of §226.20(b), the assumed loan is an "existing residential mortgage transaction" requiring disclosures, if the other criteria for an assumption are met.
   • Express agreement. Expressly agrees means that the creditor’s agreement must relate specifically to the new debtor and must unequivocally accept that debtor as a primary
for purposes of § 226.20(b).

4. Retention of original consumer. The retention of the original consumer as an obligor in some capacity does not prevent the change from being an assumption, provided the new consumer becomes a primary obligor. But the mere addition of a guarantor to an obligation for which the original consumer remains primarily liable does not give rise to an assumption. However, if neither party is designated as the primary obligor but the creditor accepts payment from the subsequent consumer, an assumption exists for purposes of §226.20(b).

5. Status of parties. Section 226.20(b) applies only if the previous debtor was a consumer and the obligation is assumed by another consumer. It does not apply, for example, when an individual takes over the obligation of a corporation.

6. Disclosures. For transactions that are assumptions within this provision, the creditor must make disclosures based on the “remaining obligation.” For example:

- The amount financed is the remaining principal balance plus any arrearages or other accrued charges from the original transaction.
- If the finance charge is computed from time to time by application of a percentage rate to an unpaid balance, in determining the amount of the finance charge and the annual percentage rate to be disclosed, the creditor should disregard any prepaid finance charges paid by the original obligor, but must include in the finance charge any prepaid finance charge imposed in connection with the assumption.
- If the creditor requires the assuming consumer to pay any charges as a condition of the assumption, these sums are prepaid finance charges as to that consumer, unless exempt from the finance charge under §226.4.
- If a transaction involves add-on or discount finance charges, the creditor may make abbreviated disclosures, as outlined in §226.20(b) (1) through (5). Creditors providing disclosures pursuant to this section for assumptions of variable-rate transactions secured by the consumer’s principal dwelling with a term longer than one year need not provide new disclosures under §226.18(f)(2)(i) or §226.19(b). In such transactions, a creditor may disclose the variable-rate feature solely in accordance with §226.18(f)(1).

7. Abbreviated disclosures. The abbreviated disclosures permitted for assumptions of transactions involving add-on or discount finance charges must be made clearly and conspicuously in writing in a form that the consumer may keep. However, the creditor need not comply with the segregation requirements of §226.17(a)(1). The terms annual percentage rate and total of payments, when disclosed according to §226.20(b) (4) and (5), are not subject to the description requirements of §226.18(e) and (h). The term and annual percentage rate disclosed under §226.20(b)(4) need not be more conspicuous than other disclosures.

Paragraph 20(c) Variable-rate adjustments.

1. Timing of adjustment notices. This section requires a creditor (or a subsequent holder) to provide certain disclosures in cases where an adjustment to the interest rate is made in a variable-rate transaction subject to §226.19(b). There are two timing rules, depending on whether payment changes accompany interest rate changes. A creditor is required to provide at least one notice each year during which interest rate adjustments have occurred without accompanying payment adjustments. For payment adjustments, a creditor must deliver or place in the mail notices to borrowers at least 25, but not more than 120, calendar days before a payment at a new level is due. The timing rules also apply to the notice required to be given in connection with the adjustment to the rate and payment that follows conversion of a transaction subject to §226.19(b) to a fixed-rate transaction. (In cases where an open-end account is converted to a closed-end transaction subject to §226.19(b), the requirements of this section do not apply until adjustments are made following conversion.)

2. Exceptions. Section 226.20(c) does not apply to “shared-equity,” “shared-appreciation,” or “price level adjusted” or similar mortgages.

3. Basis of disclosures. The disclosures required under this section shall reflect the terms of the parties’ legal obligation, as required under §226.17(c)(1).

Paragraph 20(c)(1).

1. Current and prior interest rates. The requirements under this paragraph are satisfied by disclosing the interest rate used to compute the new adjusted payment amount (“current rate”) and the adjusted interest rate that was disclosed in the last adjustment notice, as well as all other interest rates applied to the transaction in the period since the last notice (“prior rates”). (If there has been no prior adjustment notice, the prior rates are the interest rate applicable to the transaction at consummation, as well as all other interest rates applied to the transaction in the period since consummation.) If no payment adjustment has been made in a year, the current rate is the new adjusted interest rate for the transaction, and the prior rates are the adjusted interest rate applicable to the loan at the time of the last adjustment notice, and all other rates applied to
the transaction in the period between the current and last adjustment notices. In disclosing all other rates applied to the transaction during the period between notices, a creditor may disclose a range of the highest and lowest rates applied during that period.

Paragraph 20c(2).
1. Current and prior index values. This section requires disclosure of the index or formula values used to compute the current and prior interest rates disclosed in §226.20(c)(1). The creditor need not disclose the margin used in computing the rates. If the prior interest rate was not based on an index or formula value, the creditor also need not disclose the value of the index that would otherwise have been used to compute the prior interest rate.

Paragraph 20c(3).
1. Unapplied index increases. The requirement that the consumer receive information about the extent to which the creditor has foregone any increase in the interest rate is applicable only to those transactions permitting interest rate carryover. The amount of increase that is foregone at an adjustment is the amount that, subject to rate caps, can be applied to future adjustments independently to increase, or offset decreases in, the rate that is determined according to the index or formula.

Paragraph 20c(4).
1. Contractual effects of the adjustment. The contractual effects of an interest rate adjustment must be disclosed including the payment due after the adjustment is made whether or not the payment has been adjusted. A contractual effect of a rate adjustment would include, for example, disclosure of any change in the term or maturity of the loan if the change resulted from the rate adjustment. In transactions where paying the periodic payments will not fully amortize the outstanding balance at the end of the loan term and where the final payment will equal the periodic payment plus the remaining unpaid balance, the amount of the adjusted payment must be disclosed if such payment has changed as a result of the rate adjustment. A statement of the loan balance also is required. The balance required to be disclosed is the balance on which the new adjusted payment is based. If no payment adjustment is disclosed in the notice, the balance disclosed should be the loan balance on which the payment disclosed under §226.20(c)(5) is based, if applicable, or the balance at the time the disclosure is prepared.

Paragraph 20c(5).
1. Fully-amortizing payment. This paragraph requires a disclosure only when negative amortization occurs as a result of the adjustment. A disclosure is not required simply because a loan calls for non-amortizing or partially amortizing payments. For example, in a transaction with a five-year term and payments based on a longer amortization schedule, and where the final payment will equal the periodic payment plus the remaining unpaid balance, the creditor would not have to disclose the payment necessary to fully amortize the loan in the remainder of the five-year term. A disclosure is required, however, if the payment disclosed under §226.20(c)(4) is not sufficient to prevent negative amortization in the loan. The adjustment notice must state the payment required to prevent negative amortization. (This paragraph does not apply if the payment disclosed in §226.20(c)(4) is sufficient to prevent negative amortization in the loan but the final payment will be a different amount due to rounding.)

Statute: None.
Other sections: Section 226.2. Previous regulation: Section 226.8(j) through (l), and Interpretation Sections 226.807, 226.811, 226.814, and 226.817.
1981 changes: While the previous regulation treated virtually any change in terms as a refinancing requiring new disclosures, this regulation limits refinancings to transactions in which the entire original obligation is extinguished and replaced by a new one. Redisclosure is no longer required for deferrals or extensions.
The assumption provision retains the substance of §226.8(k) and Interpretation §226.807 of the previous regulation, but limits its scope to residential mortgage transactions.
Section 226.21—Treatment of Credit Balances
Paragraph 21(a).
1. Credit balance. A credit balance arises whenever the creditor receives or holds funds in an account in excess of the total balance due from the consumer on that account. A balance might result, for example, from the debtor’s paying off a loan by transmitting funds in excess of the total balance owed on the account, or from the early payoff of a loan entitling the consumer to a rebate of insurance premiums and finance charges. However, §226.21 does not determine whether the creditor in fact owes or holds sums for the consumer. For example, if a creditor has no obligation to rebate any portion of precomputed finance charges on prepayment, the consumer’s early payoff would not create a credit balance with respect to those charges. Similarly, nothing in this provision interferes with any rights the creditor may have under the contract or under state law with respect to set-off, cross collateralization, or similar provisions.
2. Total balance due. The phrase total balance due refers to the total outstanding balance. Thus, this provision does not apply where the consumer has simply paid an amount in excess of the payment due for a given period.
Federal Reserve System
Pt. 226, Supp. I

3. Timing of refund. The creditor may also fulfill its obligation under this section by:
   • Refunding any credit balance to the consumer immediately.
   • Making a good faith effort to refund any credit balance before 6 months have passed.
   • Refunding any credit balance prior to a written request from the consumer.

Paraphrase 21(b).
1. Written requests—standing orders. The creditor is not required to honor standing orders requesting refunds of any credit balance that may be created on the consumer’s account.

Paraphrase 21(c).
1. Good faith effort to refund. The creditor must take positive steps to return any credit balance that has remained in the account for over 6 months. This includes, if necessary, attempts to trace the consumer through the consumer’s last known address or telephone number, or both.

2. Good faith effort unsuccessful. Section 226.21 imposes no further duties on the creditor if a good faith effort to return the balance is unsuccessful. The ultimate disposition of the credit balance (or any credit balance of $1 or less) is to be determined under other applicable law.

Statute: Section 166.
Other sections: None.
Previous regulation: None.
1981 changes: This section implements section 165 of the Act, which was expanded by the 1980 statutory amendments to apply to closed-end as well as open-end credit.

Section 226.22—Determination of the Annual Percentage Rate
22(a) Accuracy of the annual percentage rate.
Paragraph 22(a)(1).
1. Calculation method. The regulation recognizes both the actuarial method and the United States Rule Method (U.S. Rule) as measures of an exact annual percentage rate. Both methods yield the same annual percentage rate when payment intervals are equal. They differ in their treatment of unpaid accrued interest.

2. Actuarial method. When no payment is made, or when the payment is insufficient to pay the accumulated finance charge, the actuarial method requires that the unpaid finance charge be added to the amount financed and thereby capitalized. Interest is computed on interest since in succeeding periods the interest rate is applied to the unpaid balance including the unpaid finance charge. Appendix J provides instructions and examples for calculating the annual percentage rate using the actuarial method.

3. U.S. Rule. The U.S. Rule produces no compounding of interest in that any unpaid accrued interest is accumulated separately and is not added to principal. In addition, under the U.S. Rule, no interest calculation is made until a payment is received.

4. Basis for calculations. When a transaction involves “step rates” or “split rates”—that is, different rates applied at different times or to different portions of the principal balance—a single composite annual percentage rate must be calculated and disclosed for the entire transaction. Assume, for example, a step-rate transaction in which a $10,000 loan is repayable in 5 years at 10 percent interest for the first 2 years, 12 percent for years 3 and 4, and 14 percent for year 5. The monthly payments are $210.71 during the first 2 years, $220.25 for years 3 and 4, and $222.59 for year 5. The composite annual percentage rate, using a calculator with a “discounted cash flow analysis” or “internal rate of return” function, is 10.75 percent.

5. Good faith reliance on faulty calculation tool. Footnote 45d absolves a creditor of liability for an error in the annual percentage rate or finance charge that resulted from a corresponding error in a calculation tool used in good faith by the creditor. Whether or not the creditor’s use of the tool was in good faith must be determined on a case-by-case basis, but the creditor must in any case have taken reasonable steps to verify the accuracy of the tool, including any instructions, before using it. Generally, the footnote is available only for errors directly attributable to the calculation tool itself, including software programs; it is not intended to absolve a creditor of liability for its own errors, or for errors arising from improper use of the tool, from incorrect data entry, or from misapplication of the law.

Paragraph 22(a)(2).
1. Regular transactions. The annual percentage rate for a regular transaction is considered accurate if it varies in either direction by not more than 1⁄4 of 1 percentage point from the actual annual percentage rate. For example, when the exact annual percentage rate is determined to be 10.00%, a disclosed annual percentage rate from 9.75% to 10.25%, or the decimal equivalent, is deemed to comply with the regulation.

Paragraph 22(a)(3).
1. Irregular transactions. The annual percentage rate for an irregular transaction is considered accurate if it varies in either direction by not more than 1⁄4 of 1 percentage point from the actual annual percentage rate. This tolerance is intended for more complex transactions that do not call for a single advance and a regular series of equal payments at equal intervals. The 1⁄4 of 1 percentage point tolerance may be used, for example, in a construction loan where advances are made as construction progresses, or in a transaction where payments vary to
reflect the consumer’s seasonal income. It may also be used in transactions with graduated payment schedules where the contract commits the consumer to several series of payments in different amounts. It does not apply, however, to loans with variable rate features where the initial disclosures are based on a regular amortization schedule over the life of the loan, even though payments may later change because of the variable rate feature.

22(a)(4) Mortgage loans.

1. Example. If a creditor improperly omits a $75 fee from the finance charge on a regular transaction, the understated finance charge is considered accurate under §226.18(d)(1), and the annual percentage rate corresponding to that understated finance charge also is considered accurate even if it falls outside the tolerance of 1⁄8 of 1 percentage point provided under §226.22(a)(2). Because a $75 error was made, an annual percentage rate corresponding to a $100 understatement of the finance charge would not be considered accurate.

22(a)(5) Additional tolerance for mortgage loans.

1. Example. This paragraph contains an additional tolerance for a disclosed annual percentage rate that is incorrect but is closer to the actual annual percentage rate than the rate that would be considered accurate under the tolerance in §226.22(a)(4). To illustrate: in an irregular transaction subject to a 1⁄8 of 1 percentage point tolerance, if the actual annual percentage rate is 9.00 percent and a $75 omission from the finance charge corresponds to a rate of 8.50 percent that is considered accurate under §226.22(a)(4), a disclosed APR of 8.65 percent is within the tolerance in §226.22(a)(5). In this example of an understated finance charge, a disclosed annual percentage rate below 8.50 or above 9.25 percent will not be considered accurate.

22(b) Computation tools.

Paragraph 22(b)(1).

1. Board tables. Volumes I and II of the Board’s Annual Percentage Rate Tables provide a means of calculating annual percentage rates for regular and irregular transactions, respectively. An annual percentage rate computed in accordance with the instructions in the tables is deemed to comply with the regulation, even where use of the tables produces a rate that falls outside the general standard of accuracy. To illustrate:

- Volume I may be used for single advance transactions with completely regular payment schedules or with payment schedules that are regular except for an odd first payment, odd first period or odd final payment. When used for a transaction with a large final balloon payment, Volume I may produce a rate that is considerably higher than the exact rate produced using a computer program based directly on appendix J. However, the Volume I rate—produced using certain adjustments in that volume—is considered to be in compliance.

Paragraph 22(b)(2).

1. Other calculation tools. Creditors need not use the Board tables in calculating the annual percentage rates. Any computation tools may be used, so long as they produce annual percentage rates within 1⁄8 or 1⁄4 of 1 percentage point, as applicable, of the precise actuarial or U.S. Rule annual percentage rate.

22(c) Single add-on rate transactions.

1. General rule. Creditors applying a single add-on rate to all transactions up to 60 months in length may disclose the same annual percentage rate for all those transactions, although the actual annual percentage rate varies according to the length of the transaction. Creditors utilizing this provision must show the highest of those rates. For example:

- An add-on rate of 10 percent converted to an annual percentage rate produce the following actual annual percentage rates at various maturities: at 3 months, 14.94 percent; at 21 months, 18.18 percent; and at 60 months, 17.27 percent. The creditor must disclose an annual percentage rate of 18.18 percent (the highest annual percentage rate) for any transaction up to 5 years, even though that rate is precise only for a transaction of 21 months.

22(d) Certain transactions involving ranges of balances.

1. General rule. Creditors applying a fixed dollar finance charge to all balances within a specified range of balances may understated the annual percentage rate by up to 8 percent of that rate, by disclosing for all those balances the annual percentage rate computed on the median balance within that range. For example:

- If a finance charge of $9 applies to all balances between $91 and $100, an annual percentage rate of 10 percent (the rate on the median balance) may be disclosed as the annual percentage rate for all balances, even though a $9 finance charge applied to the lowest balance ($91) would actually produce an annual percentage rate of 10.7 percent.

Statute: Section 107.

Other sections: Section 226.17(c)(4) and appendix J.

Previous regulation: Section 226.5(b) through (e).

1981 changes: The section now provides a larger tolerance (1⁄4 of 1 percentage point) for irregular transactions.

Section 226.23—Right of Rescission

1. Transactions not covered. Credit extensions that are not subject to the regulation

684
are not covered by §226.23 even if a customer’s principal dwelling is the collateral securing the credit. For example, the right of rescission does not apply to a business purpose loan. In that case, the transaction secured by the consumer’s principal dwelling.

23(a) Consumer’s right to rescind.

Paragraph 23(a)(1).

1. Security interest arising from transaction. In order for the right of rescission to apply, the security interest must be retained as part of the credit transaction. For example:

- A security interest that is acquired by a contractor who is also extending the credit in the transaction.
- A mechanic’s or materialman’s lien that is retained by a subcontractor or supplier of the contractor-creditor, even when the latter has waived its own security interest in the consumer’s home.

The security interest is not part of the credit transaction and therefore the transaction is not subject to the right of rescission when, for example:

- A mechanic’s or materialman’s lien is obtained by a contractor who is not a party to the credit transaction but is merely paid with the proceeds of the consumer’s unsecured bank loan.
- All security interests that may arise in connection with the credit transaction are validly waived.

The creditor obtains a lien and completion bond that in effect satisfies all liens against the consumer’s principal dwelling as a result of the credit transaction.

Although liens arising by operation of law are not considered security interests for purposes of disclosure under §226.2, that section specifically includes them in the definition for purposes of the right of rescission. Thus, even though an interest in the consumer’s principal dwelling is not a required disclosure under §226.18(m), it may still give rise to the right of rescission.

2. Consumer. To be a consumer within the meaning of §226.2, that person must at least have an ownership interest in the dwelling that is encumbered by the creditor’s security interest, although that person need not be a signatory to the credit agreement. For example, if only one spouse signs a credit contract, the other spouse is a consumer if the true owner intends of that spouse is subject to the security interest.

3. Principal dwelling. A consumer can only have one principal dwelling at a time. (But see comment 23(a)(1)(ii–iv)). A vacation or other second home would not be a principal dwelling. A transaction secured by a second home (such as a vacation home) that is not currently being used as the consumer’s principal dwelling is not rescindable, even if the consumer intends to reside there in the future. When a consumer buys or builds a new dwelling that will become the consumer’s principal dwelling within one year or upon completion of construction, the new dwelling is considered the principal dwelling if it secures the acquisition or construction loan. In that case, the transaction secured by the new dwelling is a residential mortgage transaction and is not rescindable. For example, if a consumer whose principal dwelling is currently A builds B, to be occupied by the consumer upon completion of construction, a construction loan to finance B and secured by B is a residential mortgage transaction.

Dwelling, as defined in §226.2, includes structures that are classified as personalty under state law. For example, a transaction secured by a mobile home, trailer, or houseboat used as the consumer’s principal dwelling may be rescindable.

4. Special rule for principal dwelling. Notwithstanding the general rule that consumers may have only one principal dwelling, when the consumer is acquiring or constructing a new principal dwelling, any loan subject to Regulation Z and secured by the equity in the consumer’s current principal dwelling (for example, a bridge loan) is subject to the right of rescission regardless of the purpose of that loan. For example, if a consumer whose principal dwelling is currently A builds B, to be occupied by the consumer upon completion of construction, a construction loan to finance B and secured by A is subject to the right of rescission. A loan secured by both A and B is, likewise, rescindable.

5. Addition of a security interest. Under footnote 47, the addition of a security interest in a consumer’s principal dwelling to an existing obligation is rescindable even if the existing obligation is not satisfied and replaced by a new obligation, and even if the existing obligation was previously exempt (because it was credit over $25,000 not secured by real property or a consumer’s principal dwelling). The right of rescission applies only to the added security interest, however, and not to the original obligation. In those situations, only the §226.23(b) notice need be delivered, not new material disclosures; the rescission period will begin to run from the delivery of the notice.

Paragraph 23(a)(2).

1. Consumer’s exercise of right. The consumer must exercise the right of rescission in writing but not necessarily on the notice supplied under §226.23(b). Whatever the means of sending the notification of rescission—mail, telegram or other written means—the time period for the creditor’s performance under §226.23(d)(2) does not begin to run until the notification has been received. The creditor may designate an agent to receive the notification so long as the agent’s name and address appear on the notice provided to the consumer under §226.23(b). Where the creditor fails to provide the consumer with a designated address for
sending the notification of rescission, delivering notification to the person or address to which the consumer has been directed to send, payments constitutes delivery to the creditor or assignee. State law determines whether delivery of the notification to a third party other than the person to whom payments are made is delivery to the creditor or assignee, in the case where the creditor fails to designate an address for sending the notification of rescission.

Paragraph 23(a)(3).
1. Recession period. The period within which the consumer may exercise the right to rescind runs for 3 business days from the last of 3 events:
   • Consummation of the transaction.
   • Delivery of all material disclosures.
   • Delivery to the consumer of the required rescission notice.

For example, if a transaction is consummated on Friday, June 1, and the disclosures and notice of the right to rescind were given on Thursday, May 31, the recession period will expire at midnight of the third business day after June 1—that is, Tuesday, June 5. In another example, if the disclosures are given and the transaction consummated on Friday, June 1, and the recession notice is given on Monday, June 4, the recession period expires at midnight of the third business day after June 4—that is, Thursday, June 7.

The consumer must place the recession notice in the mail, file it for telegraphic transmission, or deliver it to the creditor's place of business within that period in order to exercise the right.

2. Material disclosures. Footnote 48 sets forth the material disclosures that must be provided before the recession period can begin to run. Failure to provide information regarding the annual percentage rate also includes failure to inform the consumer of the existence of a variable rate feature. Failure to give the other required disclosures does not prevent the running of the recession period, although that failure may result in civil liability or administrative sanctions.

3. Unexpired right of recession. When the creditor has failed to take the action necessary to start the three-business day recession period running, the right to rescind automatically lapses on the occurrence of the earliest of the following three events:
   • The expiration of three years after consummation of the transaction.
   • Transfer of all the consumer’s interest in the property.
   • Sale of the consumer’s interest in the property, including a transaction in which the consumer sells the dwelling and takes back a purchase money note and mortgage or retains legal title through a device such as an installment sale contract.

Transfer of all the consumers’ interest includes such transfers as bequests and gifts. A sale or transfer of the property need not be voluntary to terminate the right to rescind. For example, a foreclosure sale would terminate an unexpired right to rescind. As provided in section 125 of the Act, the three-year limit may be extended by an administrative proceeding to enforce the provisions of this section. A partial transfer of the consumer’s interest, such as transferring co-ownership on a spouse, does not terminate the right of rescission.

Paragraph 23(a)(4).
1. Joint owners. When more than one consumer has the right to rescind a transaction, any of them may exercise that right and cancel the transaction on behalf of all. For example, if both husband and wife have the right to rescind a transaction, either spouse acting alone may exercise the right and both are bound by the rescission.

23(b) Notice of right to rescind.
1. Who receives notice. Each consumer entitled to rescind must be given:
   • Two copies of the rescission notice.
   • The material disclosures.

In a transaction involving joint owners, both of whom are entitled to rescind, both must receive the notice of the right to rescind and disclosures. For example, if both spouses are entitled to rescind a transaction, each must receive two copies of the rescission notice (one copy to each if the notice is provided in electronic form in accordance with the consumer consent and other applicable provisions of the E-Sign Act) and one copy of the disclosures.

2. Format. The notice must be on a separate piece of paper, but may appear with other information such as the itemization of the amount financed. The material must be clear and conspicuous, but no minimum type size or other technical requirements are imposed. The notices in appendix H provide models that creditors may use in giving the notice.

3. Content. The notice must include all of the information outlined in Section 226.23(b)(1)(i) through (v). The requirement in §226.23(b) that the transaction be identified may be met by providing the date of the transaction. The creditor may provide a separate form that the consumer may use to exercise the right of rescission, or that form may be combined with the other rescission disclosures, as illustrated in appendix H. The notice may include additional information related to the required information, such as:
   • A description of the property subject to the security interest.
   • A statement that joint owners may have the right to rescind and that a rescission by one is effective for all.
   • The name and address of an agent of the creditor to receive notice of rescission.

4. Time of providing notice. The notice required by §226.23(b) need not be given before
Federal Reserve System

Paragraph 23(d)(2).
1. Refunds to consumer. The consumer cannot be required to pay any amount in the form of money or property either to the creditor or to a third party as part of the credit transaction. Any amounts of this nature already paid by the consumer must be refunded. “Any amount” includes finance charges already accrued, as well as other charges, such as broker fees, application and commitment fees, or fees for a title search or appraisal, whether paid to the creditor, paid directly to a third party, or passed on from the creditor to the third party. It is irrelevant that these amounts may not represent profit to the creditor.

2. Amounts not refundable to consumer. Creditors need not return any money given by the consumer to a third party outside of the credit transaction, such as costs incurred for a building permit or for a zoning variance. Similarly, the term any amount does not apply to any money or property given by the creditor to the consumer; those amounts must be tendered by the creditor to the consumer or to a third party as part of the credit transaction under § 226.23(d)(3).

3. Reflection of security interest termination. The creditor must take whatever steps are necessary to indicate that the security interest is terminated. Those steps include the cancellation of documents creating the security interest, and the filing of release or termination statements in the public record. In a transaction involving subcontractors or suppliers that also hold security interests related to the credit transaction, the creditor must insure that the termination of their security interests is also reflected. The 20-day period for the creditor’s action refers to the time within which the creditor must begin the process. It does not require all necessary steps to have been completed within that time, but the creditor is responsible for seeing the process through to completion.

Paragraph 23(d)(3).
1. Property exchange. Once the creditor has fulfilled its obligations under §226.23(d)(2), the consumer must tender to the creditor any property or money the creditor has already delivered to the consumer. At the consumer’s option, property may be tendered at the location of the property. For example, if lumber or fixtures have been delivered to the consumer’s home, the consumer may tender them to the creditor by making them available for pick-up at the home, rather than physically returning them to the creditor’s premises. Money already given to the consumer must be tendered at the creditor’s place of business.

2. Reasonable value. If returning the property would be extremely burdensome to the

consummation of the transaction. The creditor may deliver the notice after the transaction is consummated, but the rescission period will not begin to run until the notice is given. For example, if the creditor provides the notice on May 15, but disclosures were given and the transaction was consummated on May 10, the 3-business day rescission period will run from May 15.

23(c) Delay of creditor’s performance.
1. General rule. Until the rescission period has expired and the creditor is reasonably satisfied that the consumer has not rescinded, the creditor must not, either directly or through a third party:
   • Disburse loan proceeds to the consumer.
   • Begin performing services for the consumer.
   • Deliver materials to the consumer.

2. Escrow. The creditor may disburse loan proceeds during the delay period in a valid escrow arrangement. The creditor may not, however, appoint the consumer as “trustee” or “escrow agent” and distribute funds to the consumer in that capacity during the delay period.

3. Actions during the delay period. Section 226.23(c) does not prevent the creditor from taking other steps during the delay, short of beginning actual performance. Unless otherwise prohibited, such as by state law, the creditor may, for example:
   • Prepare the loan check.
   • Perfect the security interest.
   • Prepare to discount or assign the contract to a third party.
   • Accrue finance charges during the delay period.

4. Delay beyond rescission period. The creditor must wait until it is reasonably satisfied that the consumer has not rescinded. For example, the creditor may satisfy itself by doing one of the following:
   • Waiting a reasonable time after expiration of the rescission period to allow for delivery of a mailed notice.
   • Obtaining a written statement from the consumer that the right has not been exercised.

   When more than one consumer has the right to rescind, the creditor cannot reasonably rely on the assurance of only one consumer, because other consumers may exercise the right.

23(d) Effects of rescission.
Paragraph 23(d)(1).
1. Termination of security interest. Any security interest giving rise to the right to rescission becomes void when the consumer exercises the right of rescission. The security interest is automatically negated regardless of its status and whether or not it was recorded or perfected. Under §226.23(d)(2), however, the creditor must take any action necessary to reflect the fact that the security interest no longer exists.
consumer, the consumer may offer the creditor its reasonable value rather than returning the property itself. For example, if building materials have already been incorporated into the consumer’s principal dwelling, the consumer may pay their reasonable value.

Paragraph 23(d)(4).
1. Modifications. The procedures outlined in §226.23(d)(2) and (3) may be modified by a court. For example, when a consumer is in bankruptcy proceedings and prohibited from returning anything to the creditor, or when the equities dictate, a modification might be made. The sequence of procedures under §226.23(d)(2) and (3), or a court’s modification of those procedures under §226.23(d)(4), does not affect a consumer’s substantive right to rescind and to have the loan amount adjusted accordingly. Where the consumer’s right to rescind is contested by the creditor, a court would normally determine whether the consumer has a right to rescind and determine the amounts owed before establishing the procedures for the parties to tender any money or property.

23(e) Consumer’s waiver of right to rescind.
1. Need for waiver. To waive the right to rescind, the consumer must have a bona fide personal financial emergency that must be met before the end of the rescission period. The existence of the consumer’s waiver will not, of itself, automatically insulate the creditor from liability for failing to provide the right of rescission.

2. Procedure. To waive or modify the right to rescind, the consumer must give a written statement that specifically waives or modifies the right, and also includes a brief description of the emergency. Each consumer entitled to rescind must sign the waiver statement. In a transaction involving multiple consumers, such as a husband and wife using their home as collateral, the waiver must bear the signatures of both spouses.

23(f) Exempt transactions.
1. Residential mortgage transaction. Any transaction to construct or acquire a principal dwelling, whether considered real or personal property, is exempt. (See the commentary to §226.23(a).) For example, a credit transaction to acquire a mobile home or houseboat to be used as the consumer’s principal dwelling would not be rescindable.

2. Lien status. The lien status of the mortgage is irrelevant for purposes of the exemption in §226.23(f)(1); the fact that a loan has junior lien status does not by itself preclude application of this exemption. For example, a home buyer may assume the existing first mortgage and create a second mortgage to finance the balance of the purchase price. Such a transaction would not be rescindable.

3. Combined-purpose transaction. A loan to acquire a principal dwelling and make improvements to that dwelling is exempt if treated as one transaction. If, on the other hand, the loan for the acquisition of the principal dwelling and the subsequent advances for improvements are treated as more than one transaction, then only the transaction that finances the acquisition of that dwelling is exempt.

4. New advances. The exemption in §226.23(f)(2) applies only to refinancings (including consolidations) by the original creditor. The original creditor is the creditor to whom the written agreement was initially made payable. In a merger, consolidation or acquisition, the successor institution is considered the original creditor for purposes of the exemption in §226.23(f)(2). If the refinancing involves a new advance of money, the amount of the new advance is rescindable. In determining whether there is a new advance, a creditor may rely on the amount financed, refinancing costs, and other figures stated in the latest Truth in Lending disclosures provided to the consumer and is not required to use, for example, more precise information that may only become available when the loan is closed.

For purposes of the right of rescission, a new advance does not include amounts attributed solely to the costs of the refinancing. These amounts would include §226.4(c)(7) charges (such as attorneys fees and title examination and insurance fees, if bona fide and reasonable in amount), as well as insurance premiums and other charges that are not finance charges. (Finance charges on the new transaction—points, for example—would not be considered in determining whether there is a new advance of money in a refinancing since finance charges are not part of the amount financed.) To illustrate, if the sum of the outstanding principal balance plus the earned unpaid finance charge is $50,000 and the new amount financed is $51,000, then the refinancing would be exempt if the extra $1,000 is attributed solely to costs financed in connection with the refinancing that are not finance charges. Of course, if new advances of money are made (for example, to pay for home improvements) and the consumer exercises the right of rescission, the consumer must be placed in the same position as he or she was in prior to entering into the new credit transaction. Thus, all amounts of money (which would include all the costs of the refinancing) already paid by the consumer to the creditor or to a third party as part of the refinancing would have to be refunded to the consumer. (See the commentary to §226.23(d)(2) for a discussion of refunds to consumers.) A model rescission notice applicable to transactions involving new advances appears in appendix H. The general rescission notice (model form H–8) is the appropriate form for use by creditors not considered original creditors in refinancing transactions.

5. State creditors. Cities and other political subdivisions of states acting as creditors are not exempted from this section.
6. Multiple advances. Just as new disclosures need not be made for subsequent advances when treated as one transaction, no new rescission rights arise so long as the appropriate notice of rescission disclosures are given at the outset of the transaction. For example, the creditor extends credit for home improvements secured by the consumer’s principal dwelling, with advances made as repayments. As permitted by § 226.17(c)(6), the creditor makes a single set of disclosures at the beginning of the construction period, rather than separate disclosures for each advance. The right of rescission does not arise with each advance. However, if the advances are treated as separate transactions, the right of rescission applies to each advance.

7. Spreader clauses. When the creditor holds a mortgage or deed of trust on the consumer’s principal dwelling and that mortgage or deed of trust contains a “spreader clause,” subsequent loans made are separate transactions and are subject to the right of rescission. Those loans are rescindable unless the creditor effectively waives its security interest under the spreader clause with respect to the subsequent transactions.

8. Converting open-end to closed-end credit. Under certain state laws, consummation of a closed-end credit transaction may occur at the time a consumer enters into the initial open-end credit agreement. As provided in the commentary to § 226.17(b), closed-end credit disclosures may be delayed under these circumstances until the conversion of the open-end account to a closed-end transaction. In accounts secured by the consumer’s principal dwelling, no new right of rescission arises at the time of conversion. Rescission rights under § 226.15 are unaffected.

23(g) Tolerances for accuracy. 23(g)(2) One percent tolerance.
1. New advance. The phrase “new advance” has the same meaning as in commentary 23(f)-4.
23(h) Special Rules for Foreclosures.
1. Rescission. Section 226.23(h) applies only to transactions that are subject to rescission under § 226.23(a)(1).
Paragraph 23(h)(1)(i).
1. Mortgage broker fees. A consumer may rescind a loan in foreclosure if a mortgage broker fee that should have been included in the finance charge was omitted, without regard to the dollar amount involved. If the amount of the mortgage broker fee is included but misstated the rule in § 226.23(h)(2) applies.
23(h)(2) Tolerance for disclosures.
1. General. This section is based on the accuracy of the total finance charge rather than its component charges.

References
Statute: Sections 113, 125, and 130.
Other sections: Section 226.2 and appendix H.

Previous regulation: Section 226.9.
1981 changes: The right to rescind applies not only to real property used as the consumer’s principal dwelling, but to personal property as well. The regulation provides no specific text or format for the notice of the right to rescind.

Section 226.24—Advertising
1. Effective date. For guidance on the applicability of the Board’s changes to § 226.24 published on July 30, 2008, see comment 1(d)(5)-(1).
24(a) Actually available terms.
1. General rule. To the extent that an advertisement mentions specific credit terms, it may state only those terms that the creditor is actually prepared to offer. For example, a creditor may not advertise a very low annual percentage rate that will not in fact be available at any time. This provision is not intended to inhibit the promotion of new credit programs, but to bar the advertising of terms that are not and will not be available. For example, a creditor may advertise terms that will be offered for only a limited period, or terms that will become available at a future date.
24(b) Clear and conspicuous standard.
1. Clear and conspicuous standard—general. This section is subject to the general “clear and conspicuous” standard for this subpart, see § 226.17(a)(1), but prescribes no specific rules for the format of the necessary disclosures, other than the format requirements related to the advertisement of rates and payments as described in comment 24(b)-2 below. The credit terms need not be printed in a certain type size nor need they appear in any particular place in the advertisement. For example, a merchandise tag that is an advertisement under the regulation complies with this section if the necessary credit terms are on both sides of the tag, so long as each side is accessible.
2. Clear and conspicuous standard—rates and payments in advertisements for credit secured by a dwelling. For purposes of § 226.24(f), a clear and conspicuous disclosure means that the required information in §§ 226.24(f)(2)(i) and 226.24(f)(3)(i)(A) and (B) is disclosed with equal prominence and in close proximity to the advertised rates or payments triggering the required disclosures, and that the required information in §§ 226.24(f)(3)(i)(C) is disclosed prominently and in close proximity to the advertised rates or payments triggering the required disclosures. If the required information in §§ 226.24(f)(2)(i) and 226.24(f)(3)(i)(A) and (B) is the same type size as the advertised rates or payments triggering the required disclosures, the disclosures are deemed to be equally prominent. The information in §§ 226.24(f)(3)(i)(C) must be disclosed prominently, but need not be disclosed with equal prominence or be the same
type size as the payments triggering the required disclosures. If the required information in \$226.24(f)(2)(i) and \$226.24(f)(3)(i) is located immediately next to or directly above or below the advertised rates or payments triggering the required disclosures, without any intervening text or graphical displays, the disclosures are deemed to be in close proximity. However, for electronic advertisements that disclose rates or payments, compliance with the requirements of \$226.24(e) is deemed to satisfy the clear and conspicuous standard.

3. Clear and conspicuous standard—Internet advertisements for credit secured by a dwelling. For purposes of this section, a clear and conspicuous disclosure for visual text advertisements on the Internet for credit secured by a dwelling means that the required disclosures are not obscured by techniques such as graphical displays, shading, coloration, or other devices and comply with all other requirements for clear and conspicuous disclosures under \$226.24. See also comment 24(e)-4.

4. Clear and conspicuous standard—televised advertisements for credit secured by a dwelling. For purposes of this section, including alternative disclosures as provided for by \$226.24(g), a clear and conspicuous disclosure in the context of visual text advertisements on television for credit secured by a dwelling means that the required disclosures are not obscured by techniques such as graphical displays, shading, coloration, or other devices, and comply with all other requirements for clear and conspicuous disclosures under \$226.24. For example, very fine print in a television advertisement would not meet the clear and conspicuous standard if consumers cannot see and read the information required to be disclosed.

5. Clear and conspicuous standard—oral advertisements for credit secured by a dwelling. For purposes of this section, including alternative disclosures as provided for by \$226.24(g), a clear and conspicuous disclosure in the context of an oral advertisement for credit secured by a dwelling, whether by radio, television, or other medium, means that the required disclosures are given at a speed and volume sufficient for a consumer to hear and comprehend them. For example, information stated very rapidly at a low volume in a radio or television advertisement would not meet the clear and conspicuous standard if consumers cannot hear and comprehend the information required to be disclosed.

24(c) A description of the rate of finance charge.
1. Annual percentage rate. Advertised rates must be stated in terms of an annual percentage rate, as defined in \$226.22. Even though state or local law permits the use of add-on, discount, time-price differential, or other methods of stating rates, advertisements must state them as annual percentage rates. Unlike the transactional disclosure of an annual percentage rate under \$226.18(e), the advertised annual percentage rate need not include a descriptive explanation of the term and may be expressed using the abbreviation APR. The advertisement must state that the rate is subject to increase after consummation if that is the case, but the advertisement need not describe the rate increase, its limits, or how it would affect the payment schedule. As under \$226.18(f), relating to disclosure of a variable rate, the rate increase disclosure requirement in this provision does not apply to any rate increase due to delinquency (including late payment), default, acceleration, assumption, or transfer of collateral.

2. Simple or periodic rates. The advertisement may not simultaneously state any other rate, except that a simple annual rate or periodic rate applicable to an unpaid balance may appear along with (but not more conspicuously than) the annual percentage rate. An advertisement for credit secured by a dwelling may not state a periodic rate, other than a simple annual rate, that is applied to an unpaid balance. For example, in an advertisement for credit secured by a dwelling, a simple annual interest rate may be shown in the same type size as the annual percentage rate for the advertised credit, subject to the requirements of section \$226.24(f). A simple annual rate or periodic rate that is applied to an unpaid balance is the rate at which interest is accruing; those terms do not include a rate lower than the rate at which interest is accruing, such as an effective rate, payment rate, or qualifying rate.

3. Buydowns. When a third party (such as a seller) or a creditor wishes to promote the availability of reduced interest rates (con- sumer or seller buydowns), the advertised annual percentage rate must be determined in accordance with the commentary to \$226.17(c) regarding the basis of trans- actional disclosures for buydowns. The seller or creditor may advertise the reduced simple interest rate, provided the advertisement shows the limited term to which the reduced rate applies and states the simple interest rate applicable to the balance of the term. The advertisement may also show the effect of the buydown agreement on the payment schedule for the buydown period, but this will trigger the additional disclosures under \$226.24(d)(2).

4. Discounted variable-rate transactions. The advertised annual percentage rate for dis- counted variable-rate transactions must be determined in accordance with comment 17(c)(1)-10 regarding the basis of trans- actional disclosures for such financing.

1. A creditor or seller may promote the availability of the initial rate reduction in such transactions by advertising the reduced
simple annual rate, provided the advertise-
ment shows with equal prominence and in
close proximity the limited term to which
the reduced rate applies and the annual per-
centage rate that will apply after the term of
the initial rate reduction expires. See §226.24(f).

1. Limits or caps on periodic rate or pay-
ment adjustments need not be stated. To il-
lustrate using the second example in com-
ment 17(c)(1)–10, the fact that the rate is pre-
sumed to be 11 percent in the second year
and 12 percent for the remaining 28 years
need not be included in the advertisement.

2. Disclosure of repayment terms. The ad-
vertisement may also show the effect of the
discount on the payment sched-
ule for the discount period, but this will trig-
erge the additional disclosures under
§226.24(d).

4(d) Advertisement of terms that require ad-
ditional disclosures.

1. General rule. Under §226.24(d)(1), when-
ever certain triggering terms appear in cred-
it advertisements, the additional credit
terms enumerated in §226.24(d)(2) must also
appear. These provisions apply even if the
triggering term is not stated explicitly but
may be readily determined from the adver-
tisement. For example, an advertisement
may state “80 percent financing available,”
which is in fact indicating that a 20 percent
downpayment is required.

Paragraph 24(d)(1).

1. Downpayment. The dollar amount of a
donpayment or a statement of the down-
payment as a percentage of the price re-
quires further information. By virtue of the
definition of downpayment in §226.2, this trig-
nering term is limited to credit sale trans-
actions. It includes such statements as:
• Only 5% down.
• As low as $100 down.
• Total move-in costs of $800.

This provision applies only if a downpay-
ment is actually required; statements such
as no downpayment or no trade-in required do
not trigger the additional disclosures under
this paragraph.

2. Payment period. The number of payments
required or the total period of repayment in-
cludes such statements as:
• 48-month payment terms.
• 30-year mortgage.
• Repayment in as many as 36 monthly in-
stalments.

But it does not include such statements as
“pay weekly,” “monthly payment terms ar-
ranged,” or “take years to repay,” since
these statements do not indicate a time pe-
riod over which a loan may be financed.

3. Payment amount. The dollar amount of
any payment includes statements such as:
• “$2,000 per month.
• “25 weekly”.
• “$500,000 loan for just $1,450 per month”.

In the last example, the amount of each pay-
ment is readily determinable, even though
not explicitly stated. But statements such as
“monthly payments to suit your needs” or
“regular monthly payments” are not deemed
to be statements of the amount of any pay-
ment.

4. Finance charge. The dollar amount of the
finance charge or any portion of it includes
statements such as:
• “$500 total cost of credit.”
• “$2 monthly carrying charge.”
• “$50,000 mortgages, 2 points to the bor-
rower.”

In the last example, the $1,000 prepaid fi-
ance charge can be readily determined from
the information given. Statements of the an-
ual percentage rate or statements that
there is no particular charge for credit (such as
“no closing costs”) are not triggering
terms under this paragraph.

Paragraph 24(d)(2).

1. Disclosure of downpayment. The total
donpayment as a dollar amount or percent-
age must be shown, but the word “downpay-
ment” need not be used in making this dis-
closure. For example, “10% cash required
from buyer” or “credit terms require min-
imum $100 trade-in” would suffice.

2. Disclosure of repayment terms. The phrase
“terms of repayment” generally has the
same meaning as the “payment schedule” re-
quired to be disclosed under §226.18(g). Sec-
tion 226.24(d)(2)(ii) provides flexibility to
creditors in making this disclosure for ad-
vertising purposes. Repayment terms may be
expressed in a variety of ways in addition to
an exact repayment schedule; this is particu-
larly true for advertisements that do not con-
template a single specific transaction.

Repayment terms, however, must reflect the
consumer’s repayment obligations over the
full term of the loan, including any balloon
payment, see comment 24(d)(2)–3, not just the
repayment terms that will apply for a lim-
ited period of time. For example:

i. A creditor may use a unit-cost approach
in making the required disclosure, such as
“48 monthly payments of $27.83 per $1,000
borrowed.”

ii. In an advertisement for credit secured
by a dwelling, when any series of payments
varies because of the inclusion of mortgage
insurance premiums, a creditor may state
the number and timing of payments, the fact
that payments do not include amounts for
mortgage insurance premiums, and that the
actual payment obligation will be higher.

iii. In an advertisement for credit secured
by a dwelling, when one series of monthly
payments will apply for a limited period of
time followed by a series of higher monthly
payments for the remaining term of the
loan, the advertisement must state the number and time period of each series of payments, and the amounts of each of those payments. For this purpose, the creditor must assume that the consumer makes the lower series of payments for the maximum allowable period of time.

3. Balloon payment; disclosure of repayment terms. In some transactions, a balloon payment will occur when the consumer only makes the minimum payments specified in an advertisement. A balloon payment results if paying the minimum payments does not fully amortize the outstanding balance by a specified date or time, usually the end of the term of the loan, and the consumer must repay the entire outstanding balance at such time. If a balloon payment will occur when the consumer only makes the minimum payments specified in an advertisement, the advertisement must state with equal prominence and in close proximity to the minimum payment statement the amount and timing of the balloon payment that will result if the consumer makes only the minimum payments for the maximum period of time that the consumer is permitted to make such payments.

4. Annual percentage rate. The advertised annual percentage rate may be expressed using the abbreviation “APR.” The advertisement must also state, if applicable, that the annual percentage rate is subject to increase after consummation.

5. Use of examples. A creditor may use illustrative credit transactions to make the necessary disclosures under §226.24(d)(2). That is, where a range of possible combinations of credit terms is offered, the advertisement may use examples of typical transactions, so long as each example contains all of the applicable terms required by §226.24(d). The examples must be labeled as such and must reflect representative credit terms made available by the creditor to present and prospective customers.

24(e) Catalogs or Other Multiple-page Advertisements; Electronic Advertisements

1. Definition. The multiple-page advertisements to which this section refers are advertisements consisting of a series of sequentially numbered pages—for example, a supplement to a newspaper. A mailing consisting of several separate flyers or pieces of promotional material in a single envelope does not constitute a single multiple-page advertisement for purposes of §226.24(e).

2. General. Section 226.24(e) permits creditors to put credit information together in one place in a catalog or other multiple-page advertisement or in an electronic advertisement (such as an advertisement appearing on an Internet Web site). The rule applies only if the advertisement contains one or more of the triggering terms from §226.24(d)(1). A list of different annual percentage rates applicable to different balances, for example, does not trigger further disclosures under §226.24(d)(2) and so is not covered by §226.24(e).

3. Representative examples. The table or schedule must state all the necessary information for a representative sampling of amounts of credit. This must reflect amounts of credit the creditor actually offers, up to and including the higher-priced items. This does not mean that the chart must make the disclosures for the single most expensive item the seller offers, but only that the chart cannot be limited to information about less expensive sales when the seller commonly offers a distinct level of more expensive goods or services. The range of transactions shown in the table or schedule in a particular catalog or multiple-page advertisement need not exceed the range of transactions actually offered in that advertisement.

4. Electronic advertisement. If an electronic advertisement (such as an advertisement appearing on an Internet Web site) contains the table or schedule permitted under §226.24(e)(3), any statement of terms set forth in §226.24(d)(1) appearing anywhere else in the advertisement must clearly direct the consumer to the location where the table or schedule begins. For example, a term triggering additional disclosures may be accompanied by a link that directly takes the consumer to the additional information.

24(f) Disclosure of rates and payments in advertisements for credit secured by a dwelling

1. Applicability. The requirements of §226.24(f)(2) apply to advertisements for loans where more than one simple annual rate of interest will apply. The requirements of §226.24(f)(3)(i)(A) require a clear and conspicuous disclosure of each payment that will apply over the term of the loan. In determining whether a payment will apply when the consumer may choose to make a series of lower monthly payments that will apply for a limited period of time, the creditor must assume that the consumer makes the series of lower payments for the maximum allowable period of time. See comment 24(d)(2)–2(iii). However, for purposes of §226.24(f), the creditor may, but need not, assume that specific events which trigger changes to the simple annual rate of interest or to the applicable payments will occur. For example:

1. Fixed-rate conversion loans. If a loan program permits consumers to convert their variable-rate loans to fixed rate loans, the creditor need not assume that the fixed-rate conversion option, by itself, means that more than one simple annual rate of interest will apply to the loan under §226.24(f)(2) and need not disclose as a separate payment under §226.24(f)(3)(i)(A) the payment that would apply if the consumer exercised the fixed-rate conversion option.
ii. Preferred-rate loans. Some loans contain a preferred-rate provision, where the rate will increase upon the occurrence of some event, such as the consumer-employee leaving the creditor's employ or the consumer closing an existing deposit account with the creditor or the consumer revoking an election to make automated payments. A creditor need not assume that the preferred-rate provision, by itself, means that more than one simple annual rate of interest will apply to the loan under §226.24(f)(2) and need not disclose the payments that would apply upon occurrence of the event that triggers the rate increase need not be disclosed as a separate payments under §226.24(f)(3)(i)(A).

iii. Rate reductions. Some loans contain a provision where the rate will decrease upon the occurrence of some event, such as if the consumer makes a series of payments on time. A creditor need not assume that the rate reduction provision, by itself, means that more than one simple annual rate of interest will apply to the loan under §226.24(f)(2) and need not disclose the payments that would apply upon occurrence of the event that triggers the rate reduction as a separate payments under §226.24(f)(3)(i)(A).

2. Equal prominence, close proximity. Information required to be disclosed under §§226.24(f)(2)(i) and 226.24(f)(3)(i) that is immediately next to or directly above or below the simple annual rate or payment amount (but not in a footnote) is deemed to be close to the list. Information required to be disclosed under §§226.24(f)(2)(i) and 226.24(f)(3)(i) that is in the same type size as the simple annual rate or payment amount is deemed to be equally prominent.

3. Clear and conspicuous standard. For more information about the applicable clear and conspicuous standard, see comment 24(b)-2.

4. Comparisons in advertisements. When making any comparison in an advertisement between actual or hypothetical credit payments or rates and the payments or rates available under the advertised product, the advertisement must state all applicable payments or rates for the advertised product and the time periods for which those payments or rates will apply, as required by this section.

5. Application to variable-rate transactions—disclosure of rates. In advertisements for variable-rate transactions, if a simple annual rate that applies at consumption is not based on the index and margin that will be used to make subsequent rate adjustments over the term of the loan, the requirements of §226.24(f)(2)(i) apply.

6. Reasonably current index and margin. For the purposes of this section, an index and margin is considered reasonably current if:

i. For direct mail advertisements, it was in effect within 60 days before mailing;

ii. For advertisements in electronic form it was in effect within 30 days before the advertisement is sent to a consumer’s e-mail address, or in the case of an advertisement made on an Internet Web site, when viewed by the public; or

iii. For printed advertisements made available to the general public, including ones contained in a catalog, magazine, or other generally available publication, it was in effect within 30 days before printing.

1. Amounts and time periods of payments. Section 226.24(f)(3)(i) requires disclosure of the amounts and time periods of all payments that will apply over the term of the loan. This section may require disclosure of several payment amounts, including any balloon payment. For example, if an advertisement for credit secured by a dwelling offers $300,000 of credit with a 30-year loan term for a payment of $600 per month for the first six months, increasing to $1,500 per month after month six, followed by a balloon payment of $30,000 at the end of the loan term, the advertisement must disclose the amount and timing of the balloon payment, with equal prominence and in close proximity to each other. However, if the final scheduled payment of a fully amortizing loan is not greater than two times the amount of any other regularly scheduled payment, the final payment need not be disclosed.

2. Application to variable-rate transactions—disclosure of payments. In advertisements for variable-rate transactions, if the payment that applies at consummation is not based on the index and margin that will be used to make subsequent payment adjustments over the term of the loan, the requirements of §226.24(f)(3)(i) apply.

24(g) Alternative disclosures—television or radio advertisements.

1. Multi-purpose telephone number. When an advertised telephone number provides a recording, disclosures should be provided early in the sequence to ensure that the consumer receives the required disclosures. For example, in providing several options—such as providing directions to the advertiser’s place of business—the option allowing the consumer to request disclosures should be provided early in the telephone message to ensure that the option to request disclosures is not obscured by other information.

2. Statement accompanying telephone number. Language must accompany a telephone number indicating that disclosures are available by calling the telephone number, such as “call 1-800-000-0000 for details about credit costs and terms.”
1. Comparisons in advertisements. The requirements of §226.24(i)(2) apply to all advertisements for credit secured by a dwelling, including radio and television advertisements. A comparison includes a claim about the amount a consumer may save under the advertised product. For example, a statement such as “save $300 per month on a $300,000 loan” constitutes an implied comparison between the advertised product’s payment and a consumer’s current payment.

2. Misrepresentations about government endorsement. A statement that the federal Community Reinvestment Act entitles the consumer to refinance his or her mortgage at the low rate offered in the advertisement is prohibited because it conveys a misleading impression that the advertised product is endorsed or sponsored by the federal government.

3. Misleading claims of debt elimination. The prohibition against misleading claims of debt elimination or waiver or forgiveness does not apply to legitimate statements that the advertised product may reduce debt payments, consolidate debts, or shorten the term of the debt. For example, misleading claims of debt elimination or waiver or forgiveness of loan terms with, or obligations to, another creditor of debt include: “Wipe-Out Personal Debts!”; “New DEBT-FREE Payment”; “Set yourself free; get out of debt today!”, “Refinance today and wipe your debt clean!”, “Get yourself out of debt *** Forever!”, and “Pre-payment Penalty Waiver.”

Statute: Sections 141, 142, and 144.
Other sections: Sections 226.2, 226.4, and 226.22.

Previous regulation: Section 226.10 (a), (b), and (d).

1981 changes: This section retains the advertising rules in a form very similar to the previous regulation, but with certain changes to reflect the 1981 statutory amendments. For example, if triggering terms appear in any advertisement, the additional disclosures required no longer include the cash price. The special rule for FHA section 235 financing has been eliminated, as well as the rule for advertising credit payable in more than four installments with no identified finance charge. Interpretation §226.1002 requiring disclosure of representative amounts of credit in catalogs and multiple-page advertisements, has been incorporated in simplified form in §226.24(d).

Unlike the previous regulation, if the advertised annual percentage rate is subject to increase, that fact must now be disclosed.

SUBPART D—MISCELLANEOUS
Section 226.25—Record Retention
25(a) General rule.

1. Evidence of required actions. The creditor must retain evidence that it performed the required actions as well as made the required disclosures. This includes, for example, evidence that the creditor properly handled adverse credit reports in connection with amounts subject to a billing dispute under §226.13, and properly handled the refunding of credit balances under §§226.11 and 226.21.

2. Methods of retaining evidence. Adequate evidence of compliance does not necessarily mean actual paper copies of disclosure statements or other business records. The evidence may be retained on microfilm, microfiche, or by any other method that reproduces records accurately (including computer programs). The creditor need retain only enough information to reconstruct the required disclosures or other records. Thus, for example, the creditor need not retain each open-end periodic statement, so long as the specific information on each statement can be retrieved.

3. Certain variable-rate transactions. In variable-rate transactions that are subject to the disclosure requirements of §226.19(b), written procedures for compliance with those requirements as well as a sample disclosure form for each loan program represent adequate evidence of compliance. (See comment 25(a)–2 pertaining to permissible methods of retaining the required disclosures.)

4. Home equity plans. In home equity plans that are subject to the requirements of §226.56, written procedures for compliance with those requirements as well as a sample disclosure form and contract for each home equity program represent adequate evidence of compliance. (See comment 25(a)–2 pertaining to permissible methods of retaining the required disclosures.)

Statute: Sections 105 and 108.
Other sections: Appendix I.
Previous regulation: Section 226.6(i).
1981 changes: Section 226.25 substitutes a uniform 2-year record-retention rule for the previous requirement that certain creditors retain records through at least one compliance examination. It also states more explicitly that the record-retention requirements apply to evidence of required actions.

Section 226.26—Use of Annual Percentage Rate in Oral Disclosures
1. Application of rules. The restrictions of §226.26 apply only if the creditor chooses to respond orally to the consumer’s request for credit cost information. Nothing in the regulation requires the creditor to supply rate information orally. If the creditor volunteers information (including rate information) through oral solicitations directed generally to prospective customers, as through a telephone solicitation, those communications
may be advertisements subject to the rules in §§ 226.16 and 226.24.

26(a) Open-end credit.

1. Information that may be given. The creditor may state periodic rates in addition to the required annual percentage rate, but it need not do so. If the annual percentage rate is unknown because transaction charges, loan fees, or similar finance charges may be imposed, the creditor must give the corresponding annual percentage rate (that is, the periodic rate multiplied by the number of periods in a year, as described in §§ 226.6(a)(2) and 226.7(d)). In such cases, the creditor may, but need not, also give the consumer information about other finance charges and other charges.

26(b) Closed-end credit.

1. Information that may be given. The creditor may state other annual or periodic rates that are applied to an unpaid balance, along with the required annual percentage rate. This rule permits disclosure of a simple interest rate, for example, but not an add-on, discount, or similar rate. If the creditor cannot give a precise annual percentage rate in its oral response because of variables in the transaction, it must give the annual percentage rate for a comparable sample transaction; in this case, other cost information may, but need not, be given. For example, the creditor may be unable to state a precise annual percentage rate for a mortgage loan without knowing the exact amount to be financed, the amount of loan fees or mortgage insurance premiums, or similar factors. In this situation, the creditor should state an annual percentage rate for a sample transaction; it may also provide information about the consumer’s specific case, such as the contract interest rate, points, other finance charges, and other charges.

Statute: Section 146.

Previous regulation: Section 226.6(a), 1981 changes. No substantive change.

28(a) Inconsistent disclosure requirements

1. General. There are 3 sets of preemption criteria: 1 applies to the general disclosure and advertising rules of the regulation, and 2 apply to the credit billing provisions. Section 226.28 also provides for Board determinations of preemption.

2. Rules for chapters 1, 2, and 3. The standard for judging whether State laws that cover the types of requirements in chapters 1 (General provisions), 2 (Credit transactions), and 3 (Credit advertising) of the Act are inconsistent and therefore preempted, is contradiction of the Federal law. Examples of laws that would be preempted include:

• A State law that requires use of the term finance charge, but defines the term to include fees that the Federal law excludes, or to exclude fees the Federal law includes.

• A State law that requires a label such as nominal annual interest rate to be used for what the Federal law calls the annual percentage rate.

3. Laws not contradictory to chapters 1, 2, and 3. Generally, State law requirements that call for the disclosure of items of information not covered by the Federal law, or that require more detailed disclosures, do not contradict the Federal requirements. Examples of laws that are not preempted include:

• A State law that requires disclosure of the minimum periodic payment for open-end credit, even though not required by § 226.7.

• A State law that requires contracts to contain warnings such as: “Read this contract before you sign. Do not sign if any spaces are left blank. You are entitled to a copy of this contract.”

Similarly, a State law that requires itemization of the amount financed does not automatically contradict the permissive itemization under § 226.18(c). However, a State law requirement that the itemization appear with the disclosure of the amount financed in the segregated closed-end credit disclosures is inconsistent, and this location requirement would be preempted.

4. Creditor’s options. Before the Board makes a determination about a specific State law, the creditor has certain options. Since the prohibition against giving the State disclosures does not apply until the Board formally determines that the State law is inconsistent, the creditor may choose to give State disclosures until the Board formally determines that the State law is inconsistent. (The Board will provide sufficient time for creditors to revise forms and procedures as necessary to conform to its determinations.)
• Under this first approach, as in all cases, the Federal disclosures must be clear and conspicuous, and the closed-end disclosures must be properly segregated in accordance with §226.17(a)(1).
• This ability to give State disclosures relieves any uncertainty that the creditor might have prior to Board determinations of inconsistency.

As a second option, the creditor may apply the preemption standards to a State law, conclude that it is inconsistent, and choose not to give the state-required disclosures. However, nothing in §226.28(a) provides the creditor with immunity for violations of State law if the creditor chooses not to make State disclosures and the Board later determines that the State law is not preempted.

5. Rules for correction of billing errors and regulation of credit reports. The preemption criteria for the fair credit billing provisions set forth in §226.28 have 2 parts. With respect to the rules on correction of billing errors and regulation of credit reports (which are in §§226.13, §226.28(a)(2)(i)) provides that a State law is inconsistent and preempted if its requirements are different from the Federal law. An exception is made, however, for State laws that allow the consumer to inquire about an account and require the creditor to respond to such inquiries beyond the time limits in the Federal law. Such a State law is not preempted with respect to the extra time period. For example, §226.13 requires the consumer to submit a written notice of billing error within 60 days after transmittal of the periodic statement showing the alleged error. If a State law allows the consumer 90 days to submit a notice, the State law remains in effect to provide the extra 30 days. Any State law disclosures concerning this extended state time limit must reflect the qualifications and conform to the format specified in §226.28(a)(2)(i). Examples of laws that would be preempted include:
• A State law that has a narrower or broader definition of billing error.
• A State law that requires the creditor to take different steps to resolve errors.
• A State law that provides different timing rules for error resolution (subject to the exception discussed above).

6. Rules for other fair credit billing provisions. The second part of the criteria for fair credit billing relates to the other rules implementing chapter 4 of the Act (addressed in §§226.4(c)(8), 226.5(b)(2)(i), 226.6(d), 226.7(k), 226.8(a), 226.10, 226.11, 226.12 (c) through (f), 226.13, and 226.21). Section 226.28(a)(2)(ii) provides that the test of inconsistency is whether the creditor can comply with State law without violating Federal law. For example:
• A State law that allows the card issuer to offset the consumer’s credit-card indebtedness against funds held by the card issuer would be preempted, since §226.12(d) prohibits such action.
• A State law that requires periodic statements to be sent more than 14 days before the end of a free-ride period would not be preempted.
• A State law that permits consumers to assert claims and defenses against the card issuer without regard to the $50 and 100-mile limitations of §226.12(c)(3)(ii) would not be preempted.

In the last 2 cases, compliance with State law would involve no violation of the Federal law.

7. Who may receive a chapter 4 determination. Only states (through their authorized officials) may request and receive determinations on inconsistency with respect to the fair credit billing provisions.

8. Preemption determination—Arizona. Effective October 1, 1983, the Board has determined that the following provisions in the State law of Arizona are preempted by the Federal law:
• Section 44–287 B.5—Disclosure of final cash price balance. This provision is preempted in those transactions in which the amount of the final cash price balance is the same as the Federal amount financed, since in such transactions the State law requires the use of a term different from the Federal term to represent the same amount.
• Section 44–287 B.6—Disclosure of finance charge. This provision is preempted in those transactions in which the amount of the finance charge is different from the amount of the Federal finance charge, since in such transactions the State law requires the use of the same term as the Federal law to represent a different amount.
• Section 44–287 B.7—Disclosure of the time balance. The time balance disclosure provision is preempted in those transactions in which the amount is the same as the amount of the Federal total of payments, since in such transactions the State law requires the use of a term different from the Federal term to represent the same amount.

9. Preemption determination—Florida. Effective October 1, 1983, the Board has determined that the following provisions in the State law of Florida are preempted by the Federal law:
• Sections 520.07(2)(f) and 520.34(2)(f)—Disclosure of amount financed. This disclosure is preempted in those transactions in which the amount is different from the Federal amount financed, since in such transactions the State law requires the use of the same term as the Federal law to represent a different amount.
• Sections 520.07(2)(g), 520.34(2)(g), and 520.35(2)(d)—Disclosure of finance charge
Federal Reserve System

and a description of its components. The finance charge disclosure is preempted in those transactions in which the amount of the finance charge is different from the Federal amount, since in such transactions the State law requires the use of the same term as the Federal law to represent a different amount. The requirement to describe or itemize the components of the finance charge, which is also included in these provisions, is not preempted.

• Sections 365.070–6(10) and 408.260–5(7)—Disclosure of total of payments. The total of payments disclosure is preempted in those transactions in which the amount differs from the amount of the Federal total of payments, since in such transactions the State law requires the use of the same term as the Federal law to represent a different amount than the Federal law.

• Sections 365.070–6(11) and 408.260–5(8)—Disclosure of deferred payment price. This disclosure is preempted in those transactions in which the amount is the same as the Federal amount, since in such transactions the State law requires the use of a different term than the Federal law to represent the same amount as the Federal law.

10. Preemption determination—Missouri. Effective October 1, 1983, the Board has determined that the following provisions in the State law of Missouri are preempted by the Federal law:

• Sections 365.070–6(9) and 408.260–5(6)—Disclosure of principal balance. This disclosure is preempted in those transactions in which the amount of the principal balance is the same as the Federal amount financed, since in such transactions the State law requires the use of a term different from the Federal term to represent the same amount.

• Sections 365.070–6(10) and 408.260–5(7)—Disclosure of time price differential and time charge, respectively. These disclosures are preempted in those transactions in which the amount is the same as the Federal finance charge, since in such transactions the State law requires the use of a term different from the Federal law to represent the same amount.

• Sections 365.070–2 and 408.260–2—Use of the terms time price differential and time charge in certain notices to the buyer. In those transactions in which the State disclosure of the time price differential or time charge is preempted, the use of the terms in this notice also is preempted. The notice itself is not preempted.

• Sections 365.070–6(11) and 408.260–5(9)—Disclosure of time balances. The time balance disclosure is preempted in those transactions in which the amount is the same as the amount of the Federal total of payments, since in such transactions the State law requires the use of a different term than the Federal law to represent the same amount.

11. Preemption determination—Mississippi. Effective October 1, 1984, the Board has determined that the following provision in the State law of Mississippi is preempted by the Federal law:

• Section 63–19–31(2)(g)—Disclosure of finance charge. This disclosure is preempted in those cases in which the term finance charge would be used under State law to describe a different amount than the finance charge disclosed under Federal law.

12. Preemption determination—South Carolina. Effective October 1, 1986, the Board has determined that the following provision in the State law of South Carolina is preempted by the Federal law:

• Section 37–10–102(c)—Disclosure of due-on-sale clause. This provision is preempted, but only to the extent that the creditor is required to include the disclosure with the segregated Federal disclosures. If the creditor may comply with the State law by placing the due-on-sale notice apart from the Federal disclosures, the State law is not preempted.

13. Preemption determination—Arizona. Effective October 1, 1986, the Board has determined that the following provision in the State law of Arizona is preempted by the Federal law:

• Section 6–621A.2—Use of the term the total sum of $. In certain notices provided to borrowers, this term describes the same item that is disclosed under Federal law as the total of payments. Since the State law requires the use of a different term than Federal law to describe the same item, the State-required term is preempted. The notice itself is not preempted.

NOTE: The State disclosure notice that incorporated the above preempted term was amended on May 4, 1987, to provide that disclosures must now be made pursuant to the Federal disclosure provisions.)

14. Preemption determination—Indiana. Effective October 1, 1986, the Board has determined that the following provision in the State law of Indiana is preempted by the Federal law:

• Section 23–2–5–8—Inclusion of the loan broker’s fees and charges in the calculation of, among other items, the finance charge and annual percentage rate disclosed to potential borrowers. This disclosure is inconsistent with sections 102(a) and 1228.4(a) of...
the Federal statute and regulation, respectively, and is preempted in those instances where the use of the same term would disclose a different amount than that required to be disclosed under Federal law.

15. Preemption determination—Wisconsin. Effective October 1, 1991, the Board has determined that the following provisions in the state law of Wisconsin are preempted by the federal law:

• Section 422.308(1)—the disclosure of the annual percentage rate in cases where the amount of the annual percentage rate disclosed to consumers under the state law differs from the amount that would be disclosed under federal law, since in those cases the state law requires the use of the same term as the federal law to represent a different amount than the federal law.

• Section 765.95(5)—the provision permitting a creditor to include in an open-end home equity agreement authorization to declare the account balance due and payable upon receiving notice of termination from a non-obligor spouse, since such provision is inconsistent with the purpose of the federal law.

28(b) Equivalent disclosure requirements.

1. General. A state disclosure may be substituted for a Federal disclosure only after the Board has made a finding of substantial similarity. Thus, the creditor may not unilaterally choose to make a state disclosure in place of a Federal disclosure, even if it believes that the state disclosure is substantially similar. Since the rule stated in §226.28(b) does not extend to any requirement relating to the finance charge or annual percentage rate, no state provision on computation, description, or disclosure of these terms may be substituted for the Federal provision.

28(d) Special Rule for Credit and Charge Cards

1. General. The standard that applies to preemption of state laws as they affect transactions of the type subject to §§226.5a and 226.9(e) differs from the preemption standards generally applicable under the Truth in Lending Act. The Fair Credit and Charge Card Disclosure Act fully preempts state laws relating to the disclosure of credit information in consumer credit or charge card applications or solicitations. (For purposes of this section, a single credit or charge card application or solicitation that may be used to open either an account for consumer purposes or an account for business purposes is deemed to be a “consumer credit or charge card application or solicitation.”) For example, a state law requiring disclosure of credit terms in direct mail solicitations for consumer credit card accounts is preempted. A state law requiring disclosures in telephone applications for consumer credit card accounts also is preempted, even if it applies to applications initiated by the consumer rather than the issuer, because the state law relates to the disclosure of credit information in applications or solicitations within the general field of preemption, that is, consumer credit and charge cards.

2. Limitations on field of preemption. Preemption under the Fair Credit and Charge Card Disclosure Act does not extend to state laws applying to types of credit other than open-end consumer credit and charge card accounts. Thus, for example, a state law is not preempted as it applies to disclosures in credit and charge card applications and solicitations solely for business-purpose accounts. On the other hand, state credit disclosure laws will not apply to a single application or solicitation to open either an account for consumer purposes or an account for business purposes. Such “dual purpose” applications and solicitations are treated as “consumer credit or charge card applications or solicitations” under this section and state credit disclosure laws applicable to them are preempted. Preemption under this statute does not extend to state laws applicable to home equity plans; preemption determinations in this area are based on the Home Equity Loan Consumer Protection Act, as implemented in §226.5b of the regulation.

3. Laws not preempted. State laws relating to disclosures concerning credit and charge cards other than in applications, solicitations, or renewal notices are not preempted under §226.28(d). In addition, state laws regulating the terms of credit and charge card accounts are not preempted, nor are laws preempted that regulate the form or content of information unrelated to the information required to be disclosed under §§226.5a and 226.9(e). Finally, state laws concerning the enforcement of the requirements of §§226.5a and 226.9(e) and state laws prohibiting unfair or deceptive acts or practices concerning credit and charge card applications, solicitations and renewals are not preempted. Examples of laws that are not preempted include:

• A state law that requires card issuers to offer a grace period or that prohibits certain fees in credit and charge card transactions.

• A state retail installment sales law or a state plain language law, except to the extent that it regulates the disclosure of credit information in applications, solicitations and renewals of accounts of the type subject to §§226.5a and 226.9(e).

• A state law requiring notice of a consumer’s rights under antidiscrimination or similar laws or a state law requiring notice about credit information available from state authorities.

Statute: Sections 111 and 171 (a) and (c). Other sections: Appendix A.

Previous regulation: Section 226.6 (b) and (c), and Interpretation §226.00.
Federal Reserve System

1981 changes: Section 226.28 implements amended section 111 of the Act. The test for preemption of state laws relating to disclosure and advertising is now whether the state law “contradicts” the Federal, rather than whether state requirements are “different.”

The revised regulation contains no counterpart to §226.6(c) of the previous regulation concerning placement of inconsistent disclosures. It also reflects the statutory amendment providing that once the Board determines that a state-required disclosure is inconsistent with Federal law, the creditor may not make the state disclosure.

Section 226.29—State Exemptions

29(a) General rule.
1. Classes eligible. The state determines the classes of transactions for which it will request an exemption, and makes its application for those classes. Classes might be, for example, all open-end credit transactions, all open-end and closed-end transactions, or all transactions in which the creditor is a bank.
2. Substantial similarity. The “substantially similar” standard requires that state statutory or regulatory provisions and state interpretations of those provisions be generally the same as the Federal Act and Regulation Z. This includes the requirement that state provisions for reimbursement to consumers for overcharges be at least equivalent to those required in section 108 of the Act. A State will be eligible for an exemption even if its law covers classes of transactions not covered by the Federal law. For example, if a state’s law covers agricultural credit, this will not prevent the Board from granting an exemption for consumer credit, even though agricultural credit is not covered by the Federal law.
3. Adequate enforcement. The standard requiring adequate provision for enforcement generally means that appropriate state officials must be authorized to enforce the state law through procedures and sanctions comparable to those available to Federal enforcement agencies. Furthermore, state law must make adequate provision for enforcement of the reimbursement rules.
4. Exemptions granted. Effective October 1, 1982, the Board has granted the following exemptions from portions of the revised Truth in Lending Act:
   • Maine. Credit or lease transactions subject to the Maine Consumer Credit Code and its implementing regulations are exempt from chapters 2, 4 and 5 of the Federal Act. (The exemption does not apply to transactions in which a federally chartered institution is a creditor.)
   • Massachusetts. Credit transactions subject to the Massachusetts Truth in Lending Act are exempt from chapters 2 and 4 of the Federal Act. (The exemption does not apply to transactions in which a federally chartered institution is a creditor.)
   • Oklahoma. Credit or lease transactions subject to the Oklahoma Consumer Credit Code are exempt from chapters 2 and 5 of the Federal Act. (The exemption does not apply to transactions in which a federally chartered institution is a creditor or lessor.)
   • Wyoming. Credit transactions subject to the Wyoming Consumer Credit Code are exempt from chapter 2 of the Federal Act. (The exemption does not apply to transactions in which a federally chartered institution is a creditor.)

29(b) Civil liability.
1. Not eligible for exemption. The provision that an exemption may not extend to sections 130 and 131 of the Act ensures that consumers retain access to both Federal and State courts in seeking damages or civil penalties for violations, while creditors retain the defenses specified in those sections.

Statute: Sections 106, 123, and 171(b).
Other sections: Appendix B.
Previous regulation: Section 226.12.
1981 changes: The procedures that states must follow to seek exemptions are now located in an appendix. Exemptions under the previous regulation will be automatically revoked on April 1, 1982, when compliance with the new regulation is mandatory.

Section 226.30—Limitation on Rates
1. Scope of coverage. The requirement of this section applies to consumer credit obligations secured by a dwelling (as dwelling is defined in §226.2(a)(19)) in which the annual percentage rate may increase after consummation (or during the term of the plan, in the case of open-end credit) as a result of an increase in the interest rate component of the finance charge—whether those increases are tied to an index or formula or are within a creditor’s discretion. The section applies to credit sales as well as loans. Examples of credit obligations subject to this section include:
   • Dwelling-secured credit obligations that require variable-rate disclosures under the regulation because the interest rate may increase during the term of the obligation.
   • Dwelling-secured open-end credit plans entered into before November 7, 1989 (the effective date of the home equity rules) that are not considered variable-rate obligations.
for purposes of disclosure under the regulation but where the creditor reserves the contractual right to increase the interest rate—periodic rate and corresponding annual percentage rate—during the term of the plan.

In contrast, credit obligations in which there is no contractual right to increase the interest rate during the term of the obligation are not subject to this section. Examples include:

• "Shared-equity" or "shared-appreciation" mortgage loans that have a fixed rate of interest and a shared-appreciation feature based on the consumer’s equity in the mortgaged property. (The appreciation share is payable in a lump sum at a specified time.)

• Dwelling-secured fixed-rate closed-end balloon-payment mortgage loans and dwelling-secured fixed-rate open-end plans with a stated term that the creditor may renew at maturity. (Contrast with the renewable balloon-payment mortgage instrument described in comment 17(c)(1)-(11).

• Dwelling-secured fixed rate closed-end multiple advance transactions in which each advance is disclosed as a separate transaction.

• "Price level adjusted mortgages" or other indexed mortgages that have a fixed rate of interest but provide for periodic adjustments to payments and the loan balance to reflect changes in an index measuring prices or inflation.

The requirement of this section does not apply to credit obligations entered into prior to December 9, 1987. Consequently, new advances under open-end credit plans existing prior to December 9, 1987, are not subject to this section.

2. Refinanced obligations. On or after December 9, 1987, when a credit obligation is refinanced, as defined in §226.20(a), the new obligation is subject to this section if it is dwelling-secured and allows for increases in the interest rate.

3. Assumptions. On or after December 9, 1987, when a credit obligation is assumed, as defined in §226.20(b), the obligation becomes subject to this section if it is dwelling-secured and allows for increases in the interest rate.

4. Modifications of obligations. The modification of an obligation, regardless of when the obligation was entered into, is generally not covered by this section. For example, increasing the credit limit on a dwelling-secured, open-end plan with a variable interest rate entered into before the effective date of the rule does not make the obligation subject to this section. If, however, a security interest in a dwelling is added on or after December 9, 1987, to a credit obligation that allows for interest rate increases, the obligation becomes subject to this section. Similarly, if a variable interest rate feature is added to a dwelling-secured credit obligation, the obligation becomes subject to this section.

5. Land trusts. In some states, a land trust is used in residential real estate transactions. (See discussion in comment 3(a)-(b).) If a consumer-purpose loan that allows for interest rate increases is secured by an assignment of a beneficial interest in a land trust that holds title to a consumer’s dwelling, that loan is subject to this section.

6. Relationship to other sections. Unless otherwise provided for in the commentary to this section, other provisions of the regulation such as definitions, exemptions, rules and interpretations also apply to this section where appropriate. To illustrate:

• An adjustable interest rate business-purpose loan is not subject to this section even if the loan is secured by a dwelling because such credit extensions are not subject to the regulation. (See generally §226.3(a).)

• Creditors subject to this section are only those that fall within the definition of a creditor in §226.2(a)(17).

7. Consumer credit contract. Creditors are required to specify a lifetime maximum interest rate in their credit contracts—the instrument that creates personal liability and generally contains the terms and conditions of the agreement (for example, a promissory note or home-equity line of credit agreement). In some states, the signing of a commitment letter may create a binding obligation, for example, constituting consummation as defined in §226.2(a)(13). The maximum interest rate must be included in the credit contract, but a creditor may include the rate ceiling in the commitment instrument as well.

8. Manner of stating the maximum interest rate. The maximum interest rate must be stated in the credit contract either as a specific amount or in any other manner that would allow the consumer to easily ascertain, at the time of entering into the obligation, what the rate ceiling will be over the term of the obligation. For example, the following statements would be sufficiently specific:

• The maximum interest rate will not exceed X%.

• The interest rate will never be higher than X percent above the initial rate of Y%.

• The interest rate will not exceed X%, or X percentage points about [a rate to be determined at some future point in time], whichever is less.

• The maximum interest rate will not exceed X%, or the state usury ceiling, whichever is less.

The following statements would not comply with this section:

• The interest rate will never be higher than X percentage points over the prevailing market rate.
• The interest rate will never be higher than X percentage points above [a rate to be determined at some future point in time].
• The interest rate will not exceed the statutory state usury ceiling, which is currently X%.
A creditor may state the maximum rate in terms of a maximum annual percentage rate that may be imposed. Under an open-end credit plan, this normally would be the corresponding annual percentage rate. (See generally §226.6(a)(2).)
9. Multiple interest rate ceilings. Creditors are not prohibited from setting multiple interest rate ceilings. For example, on loans with multiple variable-rate features, creditors may separately set a maximum interest rate for each feature. To illustrate, in a variable-rate loan that has an option to convert to a fixed rate, a creditor may set one maximum interest rate for the initially imposed index-based variable-rate feature and another for the conversion option. Of course, a creditor may establish one maximum interest rate applicable to all features.
10. Interest rate charged after default. State law may allow an interest rate after default higher than the contract rate in effect at the time of default; however, the interest rate after default is subject to a maximum interest rate set forth in a credit obligation that is otherwise subject to this section. This rule applies only in situations in which a post-default agreement is still considered part of the original obligation.
11. Increasing the maximum interest rate—general rule. Generally, a creditor may not increase the maximum interest rate originally set on a credit obligation subject to this section unless the consumer and the creditor enter into a new obligation. Therefore, under an open-end plan, a creditor may not increase the rate ceiling imposed merely because there is an increase in the credit limit. If an open-end plan is closed and another opened, a new rate ceiling may be imposed. Furthermore, where an open-end plan has a fixed maturity and a creditor renews the plan at maturity, or enters into a closed-end credit transaction, a new maximum interest rate may be set at that time. If the open-end plan provides for a repayment phase, the maximum interest rate cannot be increased when the repayment phase begins unless the agreement provided for such an increase. For a closed-end credit transaction, a new maximum interest rate may be set only if the transaction is satisfied and replaced by a new obligation. (The exceptions in §226.20(a)(11–15) which limit what transactions are considered refinancings for purposes of disclosure do not apply with respect to increasing a rate ceiling that has been imposed; if a transaction is satisfied and replaced, the rate ceiling may be increased.)
12. Increasing the maximum interest rate—assumption of an obligation. If an obligation subject to this section is assumed by a new obligor and the original obligor is released from liability, the maximum interest rate set on the obligation may be increased as part of the assumption agreement. (This rule applies whether or not the transaction constitutes an assumption as defined in §226.20(b).)
13. Transition rules. Under footnote 50, if creditors properly include the maximum rate in their credit contracts, creditors need not revise their Truth in Lending disclosure statement forms to add the disclosures about limitations on rate increases as part of the variable-rate disclosures, until October 1, 1988. On or after that date, creditors must have the maximum rate set forth in their credit contracts and, where applicable, as part of their truth in lending disclosures in the manner prescribed in the applicable sections of the regulation.

Other sections: Sections 226.6, 226.18, and 226.19
Previous regulation: None
1987 changes: This section implements section 1204 of the Competitive Equality Banking Act of 1987, Pub. L. No. 100-86, 101 Stat. 552 which provides that, effective December 9, 1987, adjustable-rate mortgages must include a limitation on the interest rate that may apply during the term of the mortgage loan. An adjustable-rate mortgage loan is defined in section 1204 as “any loan secured by a lien on a one-to-four family dwelling unit, including a condominium unit, cooperative housing unit, or mobile home, where the loan is made pursuant to an agreement under which the creditor may, from time to time, adjust the rate of interest.” The rule in this section incorporates section 1204 into Regulation Z and limits the scope of section 1204 to dwelling-secured consumer credit subject to the Truth in Lending Act, in which a creditor has the contractual right to increase the interest rate during the term of the credit obligation.

Subpart E—Special Rules for Certain Home Mortgage Transactions
Section 226.31—General Rules
3(c) Timing of disclosure.
1. Furnishing disclosures. Disclosures are considered furnished when received by the consumer.
Paragraph 3(c)(1) Disclosures for certain closed-end home mortgages.
1. Pre-consumption waiting period. A creditor must furnish §226.32 disclosures at least three business days prior to consummation. Under §226.32, “business day” has the same meaning as the rescission rule in comment 2(a)(6)-2—all calendar days except Sundays and the federal legal holidays listed in 5 USC.
6103(a). However, while the disclosure rule under §§ 226.15 and 226.23 extends to midnight of the third business day, the rule under § 226.32 does not. For example, under § 226.32, if disclosures were provided on a Friday, consummation could occur any time on Tuesday, the third business day following receipt of the disclosures. If the timing of the rescission rule were to be used, consummation could not occur until after midnight on Tuesday.

Paragraph 31(c)(1)(i) Change in terms.

1. Redisclosure required. Creditors must provide new disclosures when a change in terms makes disclosures previously provided under § 226.32(c) inaccurate, including disclosures based on and labeled as an estimate. A change in terms may result from a formal written agreement or otherwise.

2. Sale of optional products at consummation. If the consumer finances the purchase of optional products such as credit insurance and as a result the monthly payment differs from what was previously disclosed under § 226.32, redisclosure is required and a new three-day waiting period applies. (See comment 32(c)(3)–1 on when optional items may be included in the regular payment disclosure.)

Paragraph 31(c)(1)(ii) Telephone disclosures.

1. Telephone disclosures. Disclosures by telephone must be furnished at least three business days prior to consummation, calculated in accord with the timing rules under § 226.31(c)(1).

Paragraph 31(c)(1)(iii) Consumer’s waiver of waiting period before consummation.

1. Modification or waiver. A consumer may modify or waive the right to the three-day waiting period only after receiving the disclosures required by § 226.32 and only if the circumstances meet the criteria for establishing a bona fide personal financial emergency under § 226.23(e). Whether these criteria are met is determined by the facts surrounding individual situations. The imminent sale of the consumer’s home at foreclosure during the three-day period is one example of a bona fide personal financial emergency. Each consumer entitled to the three-day waiting period must sign the handwritten statement for the waiver to be effective.

31(c)(2) Disclosures for reverse mortgages.

1. Business days. For purposes of providing reverse mortgage disclosures, “business day” has the same meaning as in comment 31(c)(1)(i)—all calendar days except Sundays and the Federal legal holidays listed in 5 U.S.C. 6103(a). This means if disclosures are provided on a Friday, consummation could occur any time on Tuesday, the third business day following receipt of the disclosures.

2. Open-end plans. Disclosures for open-end reverse mortgages must be provided at least three business days before the first transaction under the plan (see § 226.5(b)(1)).
the annual percentage rate test, creditors may use the yield on actively traded issues adjusted to constant maturities published in the Board’s “Selected Interest Rates” (statistically adjusted to constant maturities) in calculating any interest cost listed in §226.32(b)(1)(iii). If the yield corresponding to the constant maturity that is closest to the loan’s maturity is not available, the annual percentage rate on the loan should be compared with the yield for Treasury securities having the lower yield. In determining the loan’s maturity, creditors may rely on the rules in §226.17(c)(4) regarding irregular first payment periods. For example:

i. If the consumer finances a $300 fee for a creditor-conducted appraisal and pays $400 in points and fees under §226.32(b)(1)(iii), the amount financed under §226.18(b) is $9,900 ($10,000, plus the $300 appraisal fee that is financed by the creditor, less $400 in prepaid finance charges). If the consumer finances a $300 fee for an appraisal conducted by someone other than the creditor or an affiliate, the $300 fee is not included with other points and fees under §226.32(b)(1)(i). The amount financed under §226.18(b) is $9,900 ($10,000 plus the $300 appraisal fee that is paid to and financed by the creditor, less $400 paid in cash and deducted as prepaid finance charges). If the consumer finances a $300 fee for a creditor-conducted appraisal and pays $500 insurance premium for optional credit life insurance is added to other points and fees under §226.32(b)(1)(iv), the amount financed under §226.18(b) is $10,400 ($10,000, plus the $300 appraisal fee that is paid to and financed by the creditor, less $400 in prepaid finance charges). The $300 appraisal fee paid to and financed by the creditor is added to other points and fees under §226.32(b)(1)(iv), and the $500 insurance premium is added under §226.32(b)(1)(iv). The $300 and $500 costs are deducted from the amount financed ($9,900) to derive a total loan amount of $9,600.

2. Annual adjustment of $400 amount. A mortgage loan is covered by §226.32 if the total points and fees payable by the consumer at or before loan consummation exceed the greater of $400 or 8 percent of the total loan amount. The $400 figure is adjusted annually on January 1 by the annual percentage change in the CPI that was in effect on the preceding June 1. The Board will publish adjustments after the June figures become available each year. The adjustment for the upcoming year will be included in any proposed commentary published in the fall, and incorporated into the commentary the following spring. The adjusted figures are:

i. For 1996, $412, reflecting a 3.00 percent increase in the CPI-U from June 1994 to June 1995, rounded to the nearest whole dollar.

ii. For 1997, $424, reflecting a 2.9 percent increase in the CPI-U from June 1995 to June 1996, rounded to the nearest whole dollar.

iii. For 1998, $435, reflecting a 2.5 percent increase in the CPI-U from June 1997 to June 1998, rounded to the nearest whole dollar.

iv. For 1999, $441, reflecting a 1.4 percent increase in the CPI-U from June 1998 to June 1999, rounded to the nearest whole dollar.
§ 226.32(b)(1)(ii). 

The consumer are not included. Mortgage broker fees already included in the calculation whether or not the consumer has previously agreed to the amount and at such intervals that they are paid in cash or financed, and whether the amount due from the borrower at regular intervals, such as monthly, bimonthly, quarterly, or annually. There must be at least two payments, and the payments must be in an amount and at such intervals that they fully amortize the amount owed. In disclosing the regular payment, creditors may rely on the rules set forth in §226.18(g); however, the amounts for voluntary items, such as credit life insurance, may be included in the regular payment disclosure only if the consumer has previously agreed to the amount.

vi. For 2003, $465, reflecting a 3.1 percent increase in the CPI-U from June 1999 to June 2000, rounded to the nearest whole dollar.

vii. For 2002, $480, reflecting a 3.27 percent increase in the CPI-U from June 2001 to June 2002, rounded to the nearest whole dollar.

viii. For 2001, $488, reflecting a 1.64 percent increase in the CPI-U from June 2000 to June 2001, rounded to the nearest whole dollar.

ix. For 2000, $499, reflecting a 2.22 percent increase in the CPI-U from June 1999 to June 2000, rounded to the nearest whole dollar.

x. For 2004, $512, reflecting a 3.51 percent increase in the CPI-U from June 2003 to June 2004, rounded to the nearest whole dollar.

xi. For 2006, $528, reflecting a 3.55 percent increase in the CPI-U from June 2005 to June 2006, rounded to the nearest whole dollar.

xii. For 2008, $557, reflecting a 2.03 percent increase in the CPI-U from June 2007 to June 2008, rounded to the nearest whole dollar.

xiii. For 2010, $579, reflecting a 0.74 percent increase in the CPI-U from June 2009 to June 2010, rounded to the nearest whole dollar.

Paragraph 32(a)(2).

1. Exemption limited. Section 226.32(a)(2) lists certain transactions exempt from the provisions of §226.32. Nevertheless, those transactions may be subject to the provisions of §226.35, including any provisions of §226.32 to which §226.35 refers. See 12 CFR 226.35(a).

32(b) Definitions

Paragraph 32(b)(1)(i).

1. General. Section 226.32(b)(1)(i) includes in the total “points and fees” items defined as finance charges under §§226.4(a) and 226.4(b). Items excluded from the finance charge under other provisions of §226.4 are not included in the total “points and fees” under paragraph 32(b)(1)(i), but may be included in “points and fees” under paragraphs 32(b)(1)(ii) and 32(b)(1)(iii). Interest, including per-diem interest, is excluded from “points and fees” under §226.32(b)(1).

Paragraph 32(b)(1)(ii).

1. Mortgage broker fees. In determining “points and fees” for purposes of this section, compensation paid by a consumer to a mortgage broker (directly or through the creditor for delivery to the broker) is included in the calculation whether or not the amount is disclosed as a finance charge. Mortgage broker fees that are not paid by the consumer are not included. Mortgage broker fees already included in the calculation as finance charges under §226.32(b)(1)(i) need not be counted again under §226.32(b)(1)(ii).

Example. Section 226.32(b)(1)(ii) defines “points and fees” to include all items listed in §226.4(c)(7), other than amounts held for the future payment of taxes. An item listed in §226.4(c)(7) may be included in the “points and fees” calculation, however, if the charge is reasonable, the creditor receives no direct or indirect compensation from the charge, and the charge is not paid to an affiliate of the creditor. For example, a reasonable fee paid by the consumer for an independent, third-party appraiser may be included in the “points and fees” calculation, even though the fee may be excluded from the finance charge if it is bona fide and reasonable in amount.

Paragraph 32(b)(1)(iv).

1. Premium amount. In determining “points and fees” for purposes of this section, premiums paid at or before closing for credit insurance are included whether they are paid in cash or financed, and whether the amount represents the entire premium for the coverage or an initial payment.

32(c) Disclosures.

1. Format. The disclosures must be clear and conspicuous but need not be in any particular type size or typeface, nor presented in any particular manner. The disclosures need not be a part of the note or mortgage document.

Paragraph 32(c)(1)(3) Regular payment; balloon payment.

1. General. The regular payment is the amount due from the borrower at regular intervals, such as monthly, bimonthly, quarterly, or annually. There must be at least two payments, and the payments must be in an amount and at such intervals that they fully amortize the amount owed. In disclosing the regular payment, creditors may rely on the rules set forth in §226.18(g); however, the amounts for voluntary items, such as credit life insurance, may be included in the regular payment disclosure only if the consumer has previously agreed to the amount.

i. If the loan has more than one payment level, the regular payment for each level must be disclosed. For example:

A. In a 30-year graduated payment mortgage where there will be payments of $300 for the first 120 months, $400 for the next 120 months, and $500 for the last 120 months, each payment amount must be disclosed, along with the length of time that the payment will be in effect.

B. If interest and principal are paid at different times, the regular amount for each must be disclosed.

C. In discounted or premium variable-rate transactions where the creditor sets the initial interest rate and later rate adjustments are determined.
are determined by an index or formula, the creditor must disclose both the initial payment based on the discount or premium and the payment that will be in effect thereafter. Additional explanatory material which does not detract from the required disclosures may accompany the disclosed amounts. For example, if a monthly payment is $250 for the first six months and then increases based on an index and margin, the creditor could use language such as the following: "Your regular monthly payment will be $250 for six months. After six months your regular monthly payment will be based on an index and margin, which currently would make your payment $350. Your actual payment at that time may be higher or lower."

Paragraph 32(c)(4) Variable-rate.
1. Calculating "worst-case" payment example. Creditors may rely on instructions in §226.19(b)(2)(vii)(B) for calculating the maximum possible increases in rates in the shortest possible timeframe, based on the face amount of the note (not the hypothetical loan amount of $10,000 required by §226.19(b)(2)(vii)(B)). The creditor must provide a maximum payment for each payment level, where a payment schedule provides for more than one payment level and more than one maximum payment amount is possible.

Paragraph 32(c)(5) Amount borrowed.
1. Optional insurance: debt-cancellation coverage. This disclosure is required when the amount borrowed in a refinancing includes premiums or other charges for credit life, accident, health, or loss-of-income insurance, or debt-cancellation coverage (whether or not the debt-cancellation coverage is insurance under applicable law) that provides for cancellation of all or part of the consumer's liability in the event of the loss of life, health, or income or in the case of accident. See comment 4(d)(4)–1 and comment app. G and H–2 regarding terminology for debt-cancellation coverage.

32(d) Limitations.
1. Additional prohibitions applicable under other sections. Section 226.34 sets forth certain prohibitions in connection with mortgage credit subject to §226.32. In addition to the limitations in §226.33(d). Further, §226.35(b) prohibits certain practices in connection with transactions that meet the coverage test in §226.35(a). Because the coverage test in §226.35(a) is generally broader than the coverage test in §226.33(a), most §226.32 mortgage loans are also subject to the prohibitions set forth in §226.35(b) (such as escrows), in addition to the limitations in §226.32(d).

2. Effective date. For guidance on the application of the Board's revisions published on July 30, 2008 to §226.32, see comment 1(d)(5)–1.

Paragraph 32(d)(1)(i) Balloon payment.
1. Regular periodic payments. The repayment schedule for a §226.32 mortgage loan with a term of less than five years must fully amortize the outstanding principal balance through "regular periodic payments." A payment is a "regular periodic payment" if it is not more than twice the amount of other payments.

Paragraph 32(d)(2) Negative amortization.
1. Negative amortization. The prohibition against negative amortization in a mortgage covered by §226.32 does not preclude reasonable increases in the principal balance that result from events permitted by the legal obligation unrelated to the payment schedule. For example, when a consumer fails to obtain property insurance and the creditor purchases insurance, the creditor may add a reasonable premium to the consumer's principal balance, to the extent permitted by the legal obligation.

Paragraph 32(d)(4) Increased interest rate.
1. Variable-rate transactions. The limitation on interest rate increases does not apply to rate increases resulting from changes in accordance with the legal obligation in a variable-rate transaction, even if the increase occurs after default by the consumer.

Paragraph 32(d)(5) Rebates.
1. Calculation of refunds. The limitation applies only to refunds of precomputed (such as add-on) interest and not to any other charges that are considered finance charges under §226.4 (for example, points and fees paid at closing). The calculation of the refund of interest includes odd-days interest, whether paid at or after consummation.

Paragraph 32(d)(6) Prepayment penalties.
1. State law. For purposes of computing a refund of unearned interest, if using the actuarial method defined by applicable state law results in a refund that is greater than the refund calculated by using the method described in section 933(d) of the Housing and Community Development Act of 1992, creditors should use the state law definition in determining if a refund is a prepayment penalty.

Paragraph 32(d)(7)(iiii).
1. Calculating debt-to-income ratio. "Debt" does not include amounts paid by the borrower in cash at closing or amounts from the loan proceeds that directly repay an existing debt. Creditors may consider combined debt-to-income ratios for transactions involving joint applicants. For more information about obligations and inflows that may constitute "debt" or "income" for purposes of §226.32(d)(7)(iiii), see comment 3(a)(4)(iv)–6 and comment 3(a)(4)(iiii)(C)–1.

2. Verification. Creditors shall verify income in the manner described in §226.34(a)(4)(iiii) and the related comments.
Creditors may verify debt with a credit report. However, a credit report may not reflect certain obligations undertaken just before or at consummation of the transaction and may not reflect the consumer's total financing by the creditor or its affiliate, and at consummation the consumer's total monthly debts do not exceed 50 percent of the consumer's monthly gross income, as verified.

iv. Initial payments for a step-rate transaction consummated on January 1, 2010 are $1,000 per month. Under the loan agreement, the first possible date that a payment in a different amount may be due is December 31, 2013. A prepayment penalty is prohibited with this mortgage transaction because the payment may change within the four-year period following consummation.

2. Payment changes excluded. Payment changes due to the following circumstances are not considered payment changes for purposes of this section:
   i. A change in the amount of a periodic payment that is allocated to principal or interest that does not change the total amount of the periodic payment.
   ii. The borrower's actual unanticipated late payment, delinquency, or default; and
   iii. The borrower's voluntary payment of additional amounts (for example when a consumer chooses to make a payment of interest and principal on a loan that only requires the consumer to pay interest).

32(d)(8) Due-on-demand clause.

Paragraph 32(d)(8)(i).
1. Failure to meet repayment terms. A creditor may terminate a loan and accelerate the balance when the consumer fails to meet the repayment terms provided for in the agreement; a creditor may do so, however, only if the consumer actually fails to make payments. For example, a creditor may not terminate and accelerate if the consumer, in error, sends a payment to the wrong location, such as a branch rather than the main office of the creditor. If a consumer files for or is placed in bankruptcy, the creditor may terminate and accelerate under this provision if the consumer fails to meet the repayment terms of the agreement. Section 226.32(d)(8)(ii) does not override any state or other law that requires a creditor to notify a borrower of a right to cure, or otherwise places a duty on the creditor before it can terminate a loan and accelerate the balance.

Paragraph 32(d)(8)(iii).
1. Impairment of security. A creditor may terminate a loan and accelerate the balance if the consumer's action or inaction adversely affects the creditor's security for the loan, or any right of the creditor in that security. Action or inaction by third parties does not, in itself, permit the creditor to terminate and accelerate.
2. Examples. i. A creditor may terminate and accelerate, for example, if:
   A. The consumer transfers title to the property or sells the property without the permission of the creditor.
   B. The consumer fails to maintain required insurance on the dwelling.
   C. The consumer fails to pay taxes on the property.
D. The consumer permits the filing of a lien senior to that held by the creditor.

E. The sole consumer obligated on the credit dies.

F. The property is taken through eminent domain.

G. A prior lienholder forecloses.

ii. By contrast, the filing of a judgment against the consumer would permit termination and acceleration only if the amount of the judgment and collateral subject to the judgment is such that the creditor’s security is adversely affected. If the consumer commits waste or otherwise destructively uses or fails to maintain the property such that the action adversely affects the security, the loan may be terminated and the balance accelerated. Illegal use of the property by the consumer would permit termination and acceleration if it subjects the property to seizure. If one of two consumers obligated on a loan dies, the creditor may terminate the loan and accelerate the balance if the security is adversely affected. If the consumer moves out of the dwelling that secures the loan and that action adversely affects the security, the creditor may terminate a loan and accelerate the balance.

Paragraph 32(e)(1) Repayment ability.

1. Determining repayment ability. The information provided to the creditor in connection with §226.32(d)(7) may be used to show that the creditor considered the consumer’s income and obligations before extending the credit. Any expected income can be considered by the creditor, except equity income that the consumer would obtain through the foreclosure of a mortgage covered by §226.32.

For example, a creditor may use information about income other than regular salary or wages such as gifts, expected retirement payments, or income from housecleaning or childcare. The creditor also may use unverified income, as long as the creditor has a reasonable basis for believing that the income exists and will support the loan.

Paragraph 32(e)(2) Home-Improvement Contracts.

Paragraph 32(e)(2)(ii).

1. Joint payees. If a creditor pays a contractor with an instrument jointly payable to the contractor and the consumer, the instrument must name as payee each consumer who is primarily obligated on the note.

Paragraph 32(e)(3) Notice to Assignee.

1. Subsequent sellers or assigns. Any person, whether or not the original creditor, that sells or assigns a mortgage subject to this section must furnish the notice of potential liability to the purchaser or assignee.

2. Format. While the notice of potential liability need not be in any particular format, the notice must be prominent. Placing it on the face of the note, such as with a stamp, is one means of satisfying the prominence requirement.

Section 226.33—Requirements for Reverse Mortgages

33(a) Definition.

1. Nonrecourse transaction. A nonrecourse reverse mortgage transaction limits the homeowner’s liability to the proceeds of the sale of the home (or any lesser amount specified in the credit obligation). If a transaction structured as a closed-end reverse mortgage transaction allows recourse against the consumer, and the annual percentage rate or the points and fees exceed those specified under §226.32(a)(1), the transaction is subject to all the requirements of §226.32, including the limitations concerning balloon payments and negative amortization.

Paragraph 33(a)(2).

1. Default. Default is not defined by the statute or regulation, but rather by the legal obligation between the parties and state or other law.

2. Definite term or maturity date. To meet the definition of a reverse mortgage transaction, a creditor cannot require any principal, interest, or shared appreciation or equity to be due and payable (other than in the case of default) until after the consumer’s death, transfer of the dwelling, or the consumer ceases to occupy the dwelling as a principal dwelling. Some state laws require legal obligations secured by a mortgage to specify a definite maturity date or term of repayment in the instrument. An obligation may state a definite maturity date or term of repayment and still meet the definition of a reverse-mortgage transaction if the maturity date or term of repayment used would not operate to cause maturity prior to the occurrence of any of the maturity events recognized in the regulation. For example, some reverse mortgage programs specify that the final maturity date is the borrower’s 150th birthday; other programs include a shorter term but provide that the term is automatically extended for consecutive periods if none of the other maturity events has yet occurred. These programs would be permissible.

33(c) Projected total cost of credit.

1. Costs to consumer.

Paragraph 33(c)(1). Costs to consumer.

1. Costs and charges to consumer—relation to finance charge. All costs and charges to the consumer that are incurred in a reverse mortgage transaction are included in the projected total cost of credit, and thus in the total annual loan cost rates, whether or not the cost or charge is a finance charge under §226.4.

2. Annuity costs. As part of the credit transaction, some creditors require or permit a consumer to purchase an annuity that immediately—or at some future time—supplements or replaces the creditor’s payments. The amount paid by the consumer for the annuity is a cost to the consumer under this section, regardless of whether the annuity is
Paragraph 33(c)(2) Payments to consumer.
1. Payments upon a specified event. The projected total cost of credit should not reflect contingent payments in which a credit to the outstanding loan balance or a payment to the consumer's estate is made upon the occurrence of an event (for example, a "death benefit" payable if the consumer's death occurs within a certain period of time). Thus, the table of total annual loan cost rates required under §226.33(b)(2) would not reflect such payments. At its option, however, a creditor may put an asterisk, footnote, or similar type of notation in the table next to the applicable total annual loan cost rate, and state in the body of the note, apart from the table, the assumption upon which the total annual loan cost is made and any different rate that would apply if the contingent benefit were paid.

Paragraph 33(c)(3) Additional creditor compensation.
1. Shared appreciation or equity. Any shared appreciation or equity that the creditor is entitled to receive pursuant to the legal obligation must be included in the total cost of a reverse mortgage loan. For example, if a creditor agrees to a reduced interest rate on the transaction in exchange for a portion of the appreciation or equity that may be realized when the dwelling is sold, that portion is included in the projected total cost of credit.

Paragraph 33(c)(4) Limitations on consumer liability.
1. In general. Creditors must include any limitation on the consumer's liability (such as a nonrecourse limit or an equity conservation agreement) in the projected total cost of credit. These limits and agreements protect a portion of the equity in the dwelling for the consumer or the consumer's estate. For example, the following are limitations on the consumer's liability that must be included in the projected total cost of credit:
   i. A limit on the consumer's liability to a certain percentage of the projected value of the home.
   ii. A limit on the consumer's liability to the net proceeds from the sale of the property subject to the reverse mortgage.

2. Uniform assumption for "net proceeds" recourse limitations. If the legal obligation between the parties does not specify a percentage for the "net proceeds" liability of the consumer, for purposes of the disclosures required by §226.33, a creditor must assume that the costs associated with selling the property will equal 7 percent of the projected sale price (see the definition of the Val, symbol under appendix K(b)(6)).

Section 226.34—Prohibited acts or practices in connection with credit subject to §226.32.
34(a) Prohibited acts or practices for loans subject to §226.32.

Paragraph 34(a)(1) Home-improvement contracts.
1. Joint payees. If a creditor pays a contractor with an instrument jointly payable to the contractor and the consumer, the instrument must name as payee each consumer who is primarily obligated on the note.

Paragraph 34(a)(2) Notice to assignee.
1. Subsequent sellers or assignors. Any person, whether or not the original creditor, that sells or assigns a mortgage subject to §226.32 must furnish the notice of potential liability to the purchaser or assignee.

2. Format. While the notice of potential liability need not be in any particular format, the notice must be prominent. Placing it on the face of the note, such as with a stamp, is one means of satisfying the prominence requirement.

3. Assignee liability. Pursuant to section 131(d) of the act, the act's general holder-in-title course protections do not apply to purchasers and assignees of loans covered by §226.32. For such loans, a purchaser's or assignee's liability for all claims and defenses that the consumer could assert against the creditor is not limited to violations of the act.

Paragraph 34(a)(3) Refinancings within one-year period.
1. In the borrower's interest. The determination of whether or not a refinancing covered by §226.34(a)(3) is in the borrower's interest is based on the totality of the circumstances, at the time the credit is extended. A written statement by the borrower that "this loan is in my interest" alone does not meet this standard.

i. A refinancing would be in the borrower's interest if needed to meet the borrower's "bona fide personal financial emergency" (see generally §226.23(e) and §226.33(c)(3)(iii)).

ii. In connection with a refinancing that provides additional funds to the borrower, in determining whether a loan is in the borrower's interest consideration should be given to whether the loan fees and charges are commensurate with the amount of new funds advanced, and whether the real estate-
Federal Reserve System
Pt. 226, Supp. I

related charges are bona fide and reasonable in amount (see generally §226.4(c)(7)).

2. Application of the one-year refinancing prohibition to creditors and assignees. The prohibition applies where an extension of credit subject to §226.32 is refinanced into another loan subject to §226.32. The prohibition is illustrated by the following examples. Assume that Creditor A makes a loan subject to §226.32 on January 15, 2003, secured by a first lien; this loan is assigned to Creditor B on February 15, 2003:

i. Creditor A is prohibited from refinancing the January 2003 loan (or any other loan subject to §226.32 to the same borrower) into a loan subject to §226.32, until January 15, 2004. Creditor B is restricted until January 15, 2004, or such date prior to January 15, 2004 that Creditor B ceases to hold or service the loan. During the prohibition period, Creditor A and B may make a subordinate lien loan that does not refinance a loan subject to §226.32. Assume that on April 1, 2003, Creditor A makes but does not assign a second-lien loan subject to §226.32. In that case, Creditor A would be prohibited from refinancing either the first-lien or second-lien loans (or any other loans to that borrower subject to §226.32) into another loan subject to §226.32 until April 1, 2004.

ii. The loan made by Creditor A on January 15, 2003 (and assigned to Creditor B) may be refinanced by Creditor C at any time. If Creditor C refinances this loan on March 1, 2003 into a new loan subject to §226.32, Creditor A is prohibited from refinancing the loan made by Creditor C (or any other loan subject to §226.32 to the same borrower) into another loan subject to §226.32 until January 15, 2004. Creditor C is similarly prohibited from refinancing any loan subject to §226.32 to that borrower into another until March 1, 2004. (The limitations of §226.34(a)(3) no longer apply to Creditor B after Creditor C refinanced the January 2003 loan and Creditor B ceased to hold or service the loan.)

3. Application of repayment ability rule. The §226.3(a)(4) prohibition against making loans without regard to consumers’ repayment ability applies to mortgage loans described in §226.32(a). In addition, the §226.3(a)(4) prohibition applies to higher-priced mortgage loans described in §226.35(a).

4. Discounted introductory rates and non-amortizing or negatively-amortizing payments. A credit agreement may determine a consumer’s initial payments using a temporarily discounted interest rate or permit the consumer to make initial payments that are non-amortizing or negatively amortizing. (Negative amortization is permissible for loans covered by §226.35(a), but not §226.32.) In such cases the creditor may determine repayment ability using the assumptions provided in §226.34(a)(4)(iv).

5. Repayment ability as of consumption. Section 226.3(a)(4) prohibits a creditor from disregarding repayment ability based on the facts and circumstances known to the consumer as of consumption. In general, a creditor does not violate this provision if a consumer defaults because of a significant reduction in income (for example, a job loss) or a significant obligation (for example, an obligation arising from a major medical expense) that occurs after consumption. However, if a creditor has knowledge as of consumption of reductions in income, for example, if a consumer’s written application states that the consumer plans to retire within twelve months without obtaining new employment, or states that the consumer will transition from full-time to part-time employment, the creditor must consider that information.

6. Income, assets, and employment. Any current or reasonably expected assets or income may be considered by the creditor, except the collateral itself. For example, a creditor may use information about current or expected salary, wages, bonus pay, tips, and commissions. Employment may be full-time, part-time, seasonal, irregular, military, or self-employment. Other sources of income could include interest or dividends; retirement benefits; public assistance; and alimony, child support, or separate maintenance payments. A creditor may also take into account assets such as savings accounts or investments that the consumer can or will be able to use.
7. Interaction with Regulation B. Section 226.34(a)(4) does not require or permit the creditor to make inquiries or verifications that would be prohibited by Regulation B, 12 CFR part 226.

34(a)(4)(i) Mortgage-related obligations.

1. Mortgage-related obligations. A creditor must include in its repayment ability analysis the consumer's expected income or assets from the consumer's employment. For example, if a consumer earns a salary and also states that he or she is paid an annual bonus, but the creditor only relies on the applicant's salary to evaluate repayment ability, the creditor need only verify the salary.

2. Income and assets—co-applicant. If two persons jointly apply for credit and both list income or assets on the application, the creditor must verify repayment ability with respect to both applicants unless the creditor relies only on the income or assets of one of the applicants in determining repayment ability.

3. Expected income. If a creditor relies on the consumer's expected income, the expectation must be reasonable and it must be verified with third-party documents that provide reasonably reliable evidence of the consumer's expected income. For example, if the creditor relies on an expectation that a consumer will receive an annual bonus, the creditor may verify the basis for that expectation with documents that show the consumer's past annual bonuses and the expected bonus must bear a reasonable relationship to past bonuses. Similarly, if the creditor relies on a consumer's expected salary following the consumer's receipt of an educational degree, the creditor may verify that expectation with a written statement from an employer indicating that the consumer will be employed upon graduation at a specified salary.

1. Internal Revenue Service (IRS) Form W–2. A creditor may verify a consumer's income using a consumer's IRS Form W–2 (or any subsequent revisions or similar IRS Forms used for reporting wages and tax withholding). The creditor may also use an electronic retrieval service for obtaining the information. If the consumer requests that the consumer's tax return information (e.g., wages, withholding from employment) be used for credit purposes, the creditor may use the consumer's tax return information if the consumer consents to the use of the consumer's tax return information.

2. Tax returns. A creditor may verify a consumer's income or assets using the consumer's tax return. A creditor may also use IRS Form 4506 “Request for Copy of Tax Return,” Form 4506-T “Request for Transcript of Tax Return,” or Form 8821 “Tax Information Authorization” (or any subsequent revisions or similar IRS Forms appropriate for obtaining tax return information directly from the IRS) to verify the consumer's income or assets. The creditor may also use an electronic retrieval service for obtaining tax return information.

3. Other third-party documents that provide reasonably reliable evidence of consumer's income or assets. Creditors may verify income and assets using documents produced by third parties. Creditors may not rely on information provided orally by third parties, but may rely on correspondence from the third party, such as by letter or e-mail. The creditor may rely on any third-party document that provides reasonably reliable evidence of the consumer's income or assets. For example, creditors may verify the consumer's income using receipts from a cashing or remittance service, or by obtaining a written statement from the consumer's employer that states the consumer's income.

4. Information specific to the individual consumer. Creditors must verify a consumer's income or assets using information that is specific to the individual consumer. Creditors may use third-party databases that contain individual-specific data about a consumer's income or assets, such as a third-party database service used by the consumer's employer for the purpose of centralizing income verification requests, so long as the information is reasonably current and accurate. Information about average incomes for the consumer's occupation in the consumer's geographic location or information about average incomes paid by the consumer's employer, however, would not be specific to the individual consumer.

5. Duplicative collection of documentation. A creditor that has made a loan to a consumer and is refinancing or extending new credit to the same consumer need not collect from the consumer a document the creditor previously obtained if the creditor has no information that would reasonably lead the creditor to believe that document has changed since it was initially collected. For example, if the creditor has obtained the consumer's 2006 tax return to make a home purchase loan in May 2007, the creditor may rely on the 2006 tax return if the creditor makes a home equity loan to the same consumer in August 2007. Similarly, if the creditor has obtained the consumer's bank statement for May 2007 in making the first loan, the creditor may rely on that bank statement for that month in making the subsequent loan in August 2007.

1. No violation if income or assets relied on not materially greater than verifiable amounts. A creditor that does not verify income or assets used to determine repayment ability with reasonably reliable third-party documents does not violate §226.34(a)(4)(ii) if the
Federal Reserve System

Pt. 226, Supp. I

creditor demonstrates that the income or assets relied upon were not materially greater than the amounts that the creditor would have been able to verify pursuant to §226.34(a)(4)(ii). For example, if a creditor determines a consumer’s repayment ability by relying on the consumer’s annual income of $40,000 but fails to obtain documentation of that amount before extending the credit, the creditor will not have violated this section if the creditor later obtains evidence that would satisfy §226.34(a)(4)(ii)(A), such as tax returns or a W-2 form, showing that the creditor could have documented, at the time the loan was consummated, that the consumer had an annual income not materially less than $40,000.

2. Materia
greater than. Amounts of income or assets relied on are not materially greater than amounts that could have been verified at consummation if relying on the verifiable amounts would not have altered a reasonable creditor’s decision to extend credit or the terms of the credit.

Paragraph §226.34(a)(ii)(C).

1. In general. A credit report may be used to verify current obligations. A credit report, however, might not reflect an obligation that a consumer has listed on an application. The creditor is responsible for considering such an obligation, but the creditor is not required to independently verify the obligation. Similarly, a creditor is responsible for considering certain obligations undertaken just before or at consummation of the transaction and secured by the same dwelling that secures the transaction (for example, a “piggy back” loan), of which the creditor knows, even if not reflected on a credit report. See comment §226.34(a)(4).–3.

34(a)(4)(iii) Presumption of compliance.

1. In general. A creditor is presumed to have complied with §226.34(a)(4) if the creditor follows the three underwriting procedures specified in paragraph §226.34(a)(4)(iii) for verifying repayment ability, determining the payment obligation, and measuring the relationship of obligations to income. The procedures for verifying repayment ability are required under paragraph §226.34(a)(4)(ii); the other procedures are not required but, if followed along with the required procedures, create a presumption that the creditor has complied with §226.34(a)(4). The consumer may rebut the presumption with evidence that the creditor nonetheless disregarded repayment ability despite following these procedures. For example, evidence of a very high debt-to-income ratio and a very limited residual income could be sufficient to rebut the presumption, depending on all of the facts and circumstances. If a creditor fails to follow one of the non-required procedures set forth in paragraph §226.34(a)(4)(iii), then the creditor’s compliance is determined based on all of the facts and circumstances without there being a presumption of either compliance or violation.

Paragraph §226.34(a)(4)(iii).–B.

1. Determination of payment schedule. To retain a presumption of compliance under §226.34(a)(4)(iii), a creditor must determine the consumer’s ability to pay the principal and interest obligation based on the maximum scheduled payment in the first seven years following consummation. In general, a creditor should determine a payment schedule for purposes of §226.34(a)(4)(iii)(B) based on the guidance in the staff commentary to §226.17(c)(1). Examples of how to determine the maximum scheduled payment in the first seven years are provided as follows (all payment amounts are rounded):

i. Balloon-payment loan; fixed interest rate. A loan in an amount of $100,000 with a fixed interest rate of 8.0 percent (no points) has a 7-year term but is amortized over 30 years. The monthly payment scheduled for 7 years is $733 with a balloon payment of remaining principal due at the end of 7 years. The creditor will retain the presumption of compliance if it assesses repayment ability based on the payment of $733.

ii. Fixed-rate loan with interest-only payment for five years. A loan in an amount of $100,000 with a fixed interest rate of 8.0 percent (no points) has a 30-year term. The monthly payment of $667 scheduled for the first 5 years would cover only the interest due. After the fifth year, the scheduled payment would increase to $772, an amount that fully amortizes the principal balance over the remaining 25 years. The creditor will retain the presumption of compliance if it assesses repayment ability based on the payment of $772.

iii. Fixed-rate loan with interest-only payment for seven years. A loan in an amount of $100,000 with a fixed interest rate of 8.0 percent (no points) has a 30-year term. The monthly payment of $667 scheduled for the first 7 years would cover only the interest due. After the seventh year, the scheduled payment would increase to $793, an amount that fully amortizes the principal balance over the remaining 23 years. The creditor will retain the presumption of compliance if it assesses repayment ability based on the interest-only payment of $793.

iv. Variable-rate loan with discount for five years. A loan in an amount of $100,000 has a 30-year term. The loan agreement provides for a fixed interest rate of 7.0 percent for an initial period of 5 years. Accordingly, the payment scheduled for the first 5 years is $665. The agreement provides that, at the end of 5 years, the interest rate will adjust each year based on a specified index and margin. As of consummation, the sum of the index value and margin (the fully-indexed rate) is 8.0 percent. Accordingly, the payment scheduled...
for the remaining 25 years is $727. The creditor will retain the presumption of compliance if it assesses repayment ability based on the payment of $727.

V. Variable-rate loan with discount for seven years. A loan in an amount of $100,000 has a 30-year term. The loan agreement provides for a fixed interest rate of 7.125 percent for an initial period of 7 years. Accordingly, the payment scheduled for the first 7 years is $674. After 7 years, the agreement provides that the interest rate will adjust each year based on a specified index and margin. As of consumption, the sum of the index value and margin (the fully-indexed rate) is 8.0 percent. Accordingly, the payment scheduled for the remaining years is $727. The creditor will retain the presumption of compliance if it assesses repayment ability based on the payment of $727.

vi. Step-rate loan. A loan in an amount of $100,000 has a 30-year term. The agreement provides that the interest rate will be 5 percent for two years, 6 percent for three years, and 7 percent thereafter. Accordingly, the payment amounts are $537 for two years, $597 for three years, and $654 thereafter. To retain the presumption of compliance, the creditor must assess repayment ability based on the payment of $654.

Paragraph 34(a)(4)(iii)(C).
1. "Income" and "debt". To determine whether to classify particular inflows or obligations as "income" or "debt," creditors may look to widely accepted governmental and non-governmental underwriting standards, including, for example, those set forth in the Federal Housing Administration's handbook on Mortgage Credit Analysis for Mortgage Insurance on One- to Four-Unit Mortgage Loans.

Paragraph 34(a)(4)(iv).
1. Exclusions from the presumption of compliance.
   i. In general. The exclusions from the presumption of compliance should be interpreted consistent with staff comments 32(d)(1)(i)–1 and 32(d)(2)–1.
   2. Renewable balloon loan. If a creditor is unconditionally obligated to renew a balloon-payment loan at the consumer's option (or is otherwise required to do so) under the terms and conditions within the consumer's control, the full term resulting from such renewal is the relevant term for purposes of the exclusion of certain balloon-payment loans. See comment 17(c)(1)–11 for a discussion of conditions within a consumer's control in connection with renewable balloon-payment loans.

Paragraph 34(b).
1. Prohibited acts or practices for dwelling-secured loans; open-end credit.
   1. Amount of credit extended. Where a loan is documented as open-end credit but the features and terms or other circumstances demonstrate that it does not meet the definition of open-end credit, the loan is subject to the rules for closed-end credit, including §226.32 if the rate or fee trigger is met. In applying the triggers under §226.32, the "amount financed," including the "principal loan amount" must be determined. In making the determination, the amount of credit that would have been extended if the loan had been documented as a closed-end loan is a factual determination to be made in each case. Factors to be considered include the amount of money the consumer originally requested, the amount of the first advance or the highest outstanding balance, or the amount of the credit line. The full amount of the credit line is considered only to the extent that it is reasonable to expect that the consumer might use the full amount of credit.

Section 226.35—Prohibited Acts or Practices in Connection With Higher-priced Mortgage Loans

35(a) Higher-priced mortgage loans.

Paragraph 35(a)(2).
1. Average prime offer rate. Average prime offer rates are annual percentage rates derived from average interest rates, points, and other loan pricing terms currently offered to consumers by a representative sample of creditors for mortgage transactions that have low-risk pricing characteristics. Other pricing terms include commonly used indices, margins, and initial fixed-rate periods for variable-rate transactions. Relevant pricing characteristics include a consumer's credit history and transaction characteristics such as the loan-to-value ratio, owner-occupant status, and purpose of the transaction. To obtain average prime offer rates, the Board uses a survey of creditors that both meets the criteria of §226.35(a)(2) and provides pricing terms for at least two types of variable-rate transactions and at least two types of non-variable-rate transactions. An example of such a survey is the Freddie Mac Primary Mortgage Market Surveys.

2. Comparable transaction. A higher-priced mortgage loan is a consumer credit transaction secured by the consumer's principal dwelling with an annual percentage rate that exceeds the average prime offer rate for a comparable transaction as of the date the interest rate is set by the specified margin. The table of average prime offer rates published by the Board indicates how to identify the comparable transaction.

3. Rate set. A transaction's annual percentage rate is compared to the average prime offer rate as of the date the transaction's interest rate is set (or "locked") before consumption. Sometimes a creditor sets the interest rate initially and then resets it at a different level before consumption. The creditor should use the last date the interest rate is set before consumption.

4. Board table. The Board publishes on the Internet, in table form, average prime offer rates for a wide variety of transaction types. The Board calculates an annual percentage rate, consistent with Regulation Z (see
Federal Reserve System

§226.32(d)(7)(iv–2). For guidance about circumstances in which payment changes are not considered because the payment may change within the four-year period following consummation.

§226.35(b)(2) provides that a loan subject to this section may not have a penalty described by §226.32(d)(6) unless certain conditions are met. Section 226.35(b)(2)(ii)(C) lists as a condition that the amount of the periodic payment of principal or interest or both may not change during the four-year period following consummation. For examples showing whether a prepayment penalty is permitted or prohibited in connection with particular payment changes, see comment 32(d)(7)(iv–1). Those examples, however, include a condition that §226.35(b)(2) does not include: the condition that, at consummation, the consumer’s total monthly debt payments may not exceed 50 percent of the consumer’s monthly gross income. For guidance about circumstances in which payment changes are not considered payment changes for purposes of this section, see comment 32(d)(7)(iv–2).

§226.32(d)(2) provides that a loan described in §226.32(a) may not have a payment schedule with regular periodic payments that cause the principal balance to increase. Therefore, the commentary to §226.32(d)(7)(iv) does not include examples of payment changes in connection with negative amortization. The following examples show whether, under §226.35(b)(2), prepayment penalties are permitted or prohibited in connection with particular payment changes, when a loan agreement permits negative amortization:

i. Initial payments for a variable-rate transaction consummated on January 1, 2010 are $1,000 per month and the loan agreement permits negative amortization to occur. Under the loan agreement, the first date that a scheduled payment in a different amount may be due is January 1, 2014, but the creditor has the right to change scheduled payments prior to that date if negative amortization occurs. A prepayment penalty is prohibited with this mortgage transaction because the payment may change within the four-year period following consummation.

§226.35(b)(3) requires creditors to establish escrows for payment of property taxes and premiums for mortgage-related insurance required by creditor. Section 6 of RESPA, 12 U.S.C. 2605, and Regulation X address how escrow accounts must be administered.

§226.35(b)(3) also applies to higher-priced mortgage loans secured by a first lien on a condominium or a cooperative unit if it is in fact used as principal residence.

§226.35(b)(3) requires creditors to establish escrow accounts for payment of property taxes and premiums for mortgage-related insurance required by creditor. Section 6 of RESPA, 12 U.S.C. 2605, and Regulation X address how escrow accounts must be administered.

§226.35(b)(3) does not require that escrow accounts be established for premiums for mortgage-related insurance that the creditor does not require in connection with the credit transaction, such as an earthquake insurance or debt-protection insurance.

Limited exception. A creditor is required to escrow for payment of property taxes for all first lien loans secured by condominium units regardless of whether the creditors escrows insurance premiums for condominium unit.

Section 226.36—Prohibited Acts or Practices in Connection With Credit Secured by a Consumer’s Principal Dwelling

Effective date. For guidance on the applicability of the rules in §226.36, see comment 1(d)(5–1).

Paragraph 35(b)(3)(i).

Meaning of mortgage broker. Section 226.35(a) provides that a mortgage broker is any person who for compensation or other monetary gain arranges, negotiates, or otherwise obtains an extension of consumer.
credit for another person, but is not an employee of a creditor. In addition, this definition expressly includes any person that satisfies this definition but makes use of “table funding.” Table funding occurs when a transaction is consummated with the debt obligation initially payable by its terms to one person, but another person provides the funds for the transaction and receives an immediate assignment of the note, loan contract, or other evidence of the debt obligation. Although §226.36(a)(1)(B) provides that a person to whom a debt obligation is initially payable on its face generally is a creditor, §226.36(a) provides that, solely for the purposes of §226.36, such a person is considered a mortgage broker. In addition, although consumers themselves often arrange, negotiate, or otherwise obtain extensions of consumer credit on their own behalf, they do not do so for compensation or other monetary gain or for another person and, therefore, are not mortgage brokers under this section.

36(b) Misrepresentation of value of consumer’s principal dwelling.

36(b)(2) When extension of credit prohibited.

1. Reasonable diligence. A creditor will be deemed to have acted with reasonable diligence under §226.36b(2) if the creditor extends credit based on an appraisal ordered by the one subject to the restriction in §226.36(b)(2).

2. Material misstatement or misrepresentation. Section 226.36b(2) prohibits a creditor who knows of a violation of §226.36(b)(1) in connection with an appraisal from extending credit based on such appraisal, unless the creditor documents that it has acted with reasonable diligence to determine that the appraisal does not materially misstate or misrepresent the value of such dwelling. A misstatement or misrepresentation of such dwelling’s value is not material if it does not affect the credit decision or the terms on which credit is extended.

36(c) Servicing practices.

Paragraph 36(c)(1)(ii).

1. Crediting of payments. Under §226.36c(1)(i), a mortgage servicer must credit a payment to a consumer’s loan account as of the date of receipt. This does not require that a mortgage servicer post the payment to the consumer’s loan account on a particular date; the servicer is only required to credit the payment as of the date of receipt. Accordingly, a servicer that receives a payment on or before its due date (or within any grace period), and does not enter the payment on its books or in its system until after the payment’s due date (or expiration of any grace period), does not violate this rule as long as the entry does not result in the imposition of a late charge, additional interest, or similar penalty to the consumer, or in the reporting of negative information to a consumer reporting agency.

2. Payments to be credited. Payments should be credited based on the legal obligation between the creditor and consumer. The legal obligation is determined by applicable state or other law.

3. Date of receipt. The “date of receipt” is the date that the payment instrument or other means of payment reaches the mortgage servicer. For example, payment by check is received when the mortgage servicer receives it, not when the funds are collected. If the consumer elects to have payment made by a third-party payor such as a financial institution, through a preauthorized payment or telephone bill-payment arrangement, payment is received when the mortgage servicer receives the third-party payor’s check or other transfer medium, such as an electronic fund transfer.

Paragraph 36(c)(1)(iii).

1. Reasonable time. The payoff statement must be provided to the consumer, or person acting on behalf of the consumer, within a reasonable time after the request. For example, it would be reasonable under most circumstances to provide the statement within five business days of receipt of a consumer’s request. This time frame might be longer, for example, when the servicer is experiencing an unusually high volume of refinancing requests.

2. Person acting on behalf of the consumer. For purposes of §226.36c(1)(iii), a person acting on behalf of the consumer may include the consumer’s representative, such as an attorney representing the individual, a non-profit consumer counseling or similar organization, or a creditor with which the consumer is refinancing and which requires the payoff statement to complete the refinancing. A servicer may take reasonable measures to verify the identity of any person acting on behalf of the consumer and to obtain the consumer’s authorization to release information to any such person before the “reasonable time” period begins to run.

3. Payment requirements. The servicer may specify reasonable requirements for making payoff requests, such as requiring requests to be in writing and directed to a mailing address, e-mail address or fax number specified by the servicer or orally to a telephone number specified by the servicer, or any other reasonable requirement or method. If the consumer does not follow these requirements, a longer time frame for responding to the request would be reasonable.

4. Accuracy of payoff statements. Payoff statements must be accurate when issued. Paragraph 36(c)(2).
Federal Reserve System

1. Payment requirements. The servicer may specify reasonable requirements for making payments in writing, such as requiring that payments be accompanied by the account number of the person to whom payment is to be made, setting a cut-off hour for payment to be received, or setting different hours for payment by mail and payments made in person; specifying that only checks or money orders should be sent by mail; specifying that payment is to be made in U.S. dollars; or specifying one particular address for receiving payments, such as a post office box. The servicer may be prohibited, however, from requiring payment solely by preauthorized electronic fund transfer.

2. Payment requirements—limitations. Requirements for making payments must be reasonable; it should not be difficult for most consumers to make conforming payments. For example, it would be reasonable to require a cut-off time of 5 p.m. for receipt of a mailed check at the location specified by the servicer for receipt of such check.

3. Implied guidelines for payments. In the absence of specified requirements for making payments, payments may be made at any location where the servicer conducts business; any time during the servicer’s normal business hours; and by cash, money order, draft, or other similar instrument in properly negotiable form, or by electronic fund transfer if the servicer and consumer have so agreed.

Section 226.39—Mortgage transfer disclosures.

39(a) Scope.

Paragraph 39(a)(1).
1. Covered persons. The disclosure requirements of §226.39 apply to any “covered person” that becomes the legal owner of an existing mortgage loan, whether through a purchase, assignment, or other transfer, regardless of whether the person also meets the definition of a “creditor” in Regulation Z. The fact that a person purchases or acquires mortgage-backed securities, pass-through certificates, or participation interests and does not by itself make the person a “creditor” under §226.39 does not by itself make the person a “creditor” within the meaning of §226.39. Thus, an investor that acquires mortgage-backed securities, pass-through certificates, or participation interests and does not by itself make the person a “creditor” under §226.39 does not by itself make the person a “creditor” within the meaning of §226.39.

2. Acquisition of legal title. To become a “covered person” subject to §226.39, a person must become the owner of an existing mortgage loan by acquiring legal title to the debt obligation. The transfer of ownership of a mortgage loan is subject to the disclosure requirements of this section when the acquiring party is a separate legal entity from the transferor, even if the parties are affiliated entities. Section 226.39 does not apply to persons who acquire only a beneficial interest in the loan or a security interest in the loan. Section 226.39 also does not apply to a party that assumes the credit risk without acquiring legal title to the loan. Thus, an investor that acquires mortgage-backed securities, pass-through certificates, or participation interests and does not by itself make the person a “creditor” under §226.39 does not by itself make the person a “creditor” within the meaning of §226.39.

3. Loan servicers. Pursuant to TILA Section 131(f), the servicer of a mortgage loan is not treated as the owner of the obligation for purposes of §226.39 if the servicer holds title to the loan as a result of the assignment of the obligation to the servicer solely for the administrative convenience of the servicer in servicing the obligation.

4. Mergers, corporate acquisitions, or reorganizations. Disclosures are required under §226.39 when, as a result of a merger, corporate acquisition, or reorganization the ownership of a mortgage loan is transferred to a different legal entity.

Paragraph 39(a)(2).
1. Mortgage transactions covered. Section 226.39 applies to any consumer credit transaction secured by the principal dwelling of a consumer, which includes closed-end mortgage loans as well as home equity lines of credit.

39(b) Disclosure required.
1. Generally. A covered person must mail or deliver the disclosures required by §226.39 on or before the 30th calendar day following the date that the covered person acquired the loan, unless the exception in §226.39(c) applies. For example, if a covered person acquires a mortgage loan on March 1, the required disclosure must be mailed or delivered on or before March 31. For purposes of this requirement, the date that the covered person acquires the loan is the acquisition date recognized in its books and records.

2. Disclosure provided on behalf of multiple entities. A mortgage loan may be acquired by a covered person and subsequently transferred to an affiliate or other entity that is also a covered person required to provide disclosures under §226.39. In such cases, a single disclosure may be provided on behalf of both entities instead of providing two separate disclosures, as long as the disclosure satisfies the timing and content requirements applicable to both entities. For example, if a covered person acquires a loan on August 31 with the knowledge that it will assign the loan to another entity on October 15, the covered person could mail a single disclosure on or before September 30 which provides the required information for both entities and indicates when the subsequent transfer is expected to occur. Even though one person delegates responsibility for the disclosures to another covered person, each has a duty to ensure that disclosures related to its acquisition are accurate and provided in a timely manner.

39(c) Exceptions.
Paragraph 39(c)(1).
1. Example. If a mortgage loan is originated on February 22nd and the original creditor sells the loan on March 1 to a covered person, under the exception in §226.39(c) the
covered person would not be required to provide disclosures under §226.39 if the loan is sold or otherwise transferred or assigned to another party on or before March 31.

Paragraph 39(d).

1. Repurchase agreements. The original creditor or owner of the mortgage loan might sell or transfer legal title to the loan to secure short-term business financing under an agreement where the original creditor or owner is also obligated to repurchase the loan within a brief period, typically a month or less. If the original creditor or owner does not recognize such transactions as a sale of the loan on its own books and records for accounting purposes, the transfer of the loan in connection with such a repurchase agreement is not covered by §226.39 and the acquiring party is not required to provide disclosures. However, if the transferor does not repurchase the mortgage loan, the acquiring party must make the disclosures required by §226.39 within 30 days after the date that the transfer is recognized as an acquisition in its books and records.

1. Content of required disclosures.

1. Identifying the loan. The disclosures required by this section should identify the loan that was acquired or transferred. The covered person has flexibility in determining what information to provide for this purpose. For example, the covered person may identify the loan by stating the address of the mortgaged property along with the account number or other identification number previously known to the consumer, which may appear in a truncated format. Alternatively, the covered person might identify the loan by specifying the date on which the credit was extended and the original amount of the loan or credit line.

Paragraph 39(d)(1).

1. Identification of covered person. Section 226.39(d)(1) requires acquiring parties to provide their name, address, and telephone number. The party identified must be the covered person who owns the mortgage loan, regardless of whether another party has been appointed to service the loan or otherwise serve as the covered person’s agent. In addition to providing a postal address and a telephone number, the covered person may, at its option, provide an address for receiving electronic mail or an internet web site address but is not required to do so.

Paragraph 39(d)(3).

1. Identifying agents. Under §226.39(d)(3), the covered person must provide contact information for the agent or other party having authority to act on behalf of the covered person and who is authorized to receive legal notices on behalf of the covered person and resolve issues concerning the consumer’s payments on the loan. Section 226.39(d)(3) does not require that a covered person designate an agent or other party, but if the consumer cannot use the covered person’s contact information for these purposes the disclosure must provide contact information for an agent or other party that can address these matters. If multiple agents are listed on the disclosure, the disclosure shall state the extent to which the authority of each agent differs by indicating if only one of the agents is authorized to receive legal notices, or only one of the agents is authorized to resolve issues concerning payments. For purposes of §226.39(d)(3), it is sufficient to provide a telephone number as the contact information provided that consumers can use the telephone number to obtain the mailing address for the agent or other person identified.

1. Other contact information. The covered person may also provide an agent’s electronic mail address or internet web site address but is not required to do so.

Paragraph 39(d)(4).

1. Recording location. Section 226.39(d)(4) requires disclosure of the location where transfer of ownership of the debt to the covered person is recorded. If the transfer of ownership has not been recorded in public records at the time the disclosure is provided, the covered person complies with §226.39(d)(4) by stating this fact. Whether or not the transfer has been recorded at the time the disclosure is made, the disclosure may state that the transfer “is or may be recorded” at the specified location.

1. Postal address not required. In disclosing the location where the transfer of ownership is recorded, the covered person is not required to provide a postal address for the governmental office where the covered person’s ownership interest is recorded. The covered person also is not required to provide the name of the county or jurisdiction where the property is located. For example, it would be sufficient to disclose that the transaction is or may be recorded in the office of public land records or the recorder of deeds office “for the county or local jurisdiction where the property is located.”

Section 226.39(e) Optional disclosures.

1. Generally. Section 226.39(e) provides that covered persons may, at their option, include additional information about the mortgage transaction that they consider relevant or helpful to consumers. For example, the covered person may choose to inform consumers that the location where they should send mortgage payments has not changed.

Subpart F—Special Rules for Private Education Loans

Section 226.46—Special Disclosure Requirements for Private Education Loans

46(a) Coverage

1. Coverage. This subpart applies to all private education loans as defined in §226.46(b)(3). Coverage under this subpart is
optional for certain extensions of credit that do not meet the definition of "private education loan" because the credit is not extended, in whole or in part, for "postsecondary educational expenses" defined in §226.46(b)(3). If a transaction is not covered and a creditor opts to comply with any section of this subpart, the creditor must comply with all applicable sections of this subpart. If a transaction is not covered and a creditor opts not to comply with this subpart, the creditor must comply with all applicable sections of this subpart. Compliance with this subpart is optional for certain extensions of credit used for postsecondary educational expenses. However, if any part of such loan is incurred after graduation from a law, medical, dental, veterinary, or other graduate school and related to relocation, study for a bar or other examination, participation in an internship or residency program, or similar purposes. However, if any part of such loan is used for postsecondary educational expenses as defined in §226.46(b)(3), then compliance with Subpart F is mandatory not optional.

46(b) Definitions

46(b)(1) Covered Educational Institution
1. General. A covered educational institution includes any educational institution that meets the definition of an institution of higher education in §226.46(b)(2). An institution is also a covered educational institution if it otherwise meets the definition of an institution of higher education, except for its lack of accreditation. Such an institution may include, for example, a university or community college. It may also include an institution, whether accredited or unaccredited, offering instruction to prepare students for gainful employment in a recognized profession, such as flying, culinary arts, or dental assistance. A covered educational institution does not include elementary or secondary schools.

46(b)(2) Institution of higher education
1. General. An institution of higher education includes any institution that meets the definitions contained in sections 101 and 102 of the Higher Education Act of 1965 (20 U.S.C. 1001-1002) and implementing Department of Education regulations (34 CFR 600). Such an institution may include, for example, a university or community college. It may also include an institution offering instruction to prepare students for gainful employment in a recognized profession, such as flying, culinary arts, or dental assistance. An institution of higher education does not include elementary or secondary schools.

46(b)(3) Postsecondary educational expenses
1. General. The examples listed in §226.46(b)(3) are illustrative only. The full list of postsecondary educational expenses is contained in section 472 of the Higher Education Act of 1965 (20 U.S.C. 1087f). The term refers to an arrangement or agreement between a creditor and a covered educational institution (or an institution-affiliated organization as defined by section 151 of the Higher Education Act of 1965 (20 U.S.C. 1019)) under which a creditor provides private education loans to consumers for students attending the covered educational institution and the covered educational institution recommends, promotes, or endorses the private education loan products of the creditor. It does not include arrangements or agreements with respect to Federal Direct Stafford/Ford loans, or Federal PLUS loans made under the Federal PLUS auction pilot program.

46(b)(4) Preferred lender arrangement
1. General. The term "preferred lender arrangement" is defined in section 151 of the Higher Education Act of 1965 (20 U.S.C. 1019) and the term refers to an arrangement or agreement between a creditor and a covered educational institution (or an institution-affiliated organization as defined by section 151 of the Higher Education Act of 1965 (20 U.S.C. 1019)) under which a creditor provides private education loans to consumers for students attending the covered educational institution and the covered educational institution recommends, promotes, or endorses the private education loan products of the creditor. It does not include arrangements or agreements with respect to Federal Direct Stafford/Ford loans, or Federal PLUS loans made under the Federal PLUS auction pilot program.

46(b)(5) Private education loan
1. General. A private education loan is one that is extended expressly for postsecondary educational expenses. The term includes loans extended for postsecondary educational expenses incurred while a student is enrolled in a covered educational institution as well as loans extended to consolidate a consumer's pre-existing private education loans.

2. Multiple-purpose loans
i. Definition. A private education loan may include an extension of credit not excluded under §226.46(b)(5) that the consumer may use for multiple purposes (including, but not limited to, postsecondary educational expenses. If the consumer expressly indicates that the proceeds of the loan will be used to pay for postsecondary educational expenses by indicating the loan's purpose on an application, the loan is a private education loan.

ii. Coverage. A creditor generally will not know before an application is received whether the consumer intends to use the loan for postsecondary educational expenses.
For this reason, the creditor need not provide the disclosures required by §226.47(a) on or with the application or solicitation for a loan that may be used for multiple purposes. See §226.47(d)(1)(i). However, if the consumer expressly indicates that the proceeds of the loan will be used to pay for postsecondary educational expenses, the creditor must comply with §§226.47(b) and (c) and §226.48. For purposes of the required disclosures, the creditor must calculate the disclosures based on the entire amount of the loan, even if only a part of the proceeds is intended for postsecondary educational expenses. The creditor may rely solely on a check-box, or a purpose line, on a loan application to determine whether or not the applicant intends to use loan proceeds for postsecondary educational expenses.

ii. Examples. The creditor must comply only if the extension of credit also meets the other parts of the definition of private education loan. For example, if the creditor uses a single application form for both open-end and closed-end credit, and the consumer applies for open-end credit to be used for postsecondary educational expenses, the extension of credit is not covered. Similarly, if the consumer indicates the extension of credit will be used for educational expenses that are not postsecondary educational expenses, such as elementary or secondary educational expenses, the extension of credit is not covered. These examples are only illustrative, not exhaustive.

iii. They are located on the same Web page as the application or solicitation. Electronic disclosures. If the disclosures required under §226.47(a) are provided electronically, they must be provided on or with the application or solicitation reply form. Electronic disclosures are deemed to be on or with an application or solicitation if they meet one of the following conditions:

i. They automatically appear on the screen when the application or solicitation reply form appears;

ii. They are located on the same Web "page" as the application or solicitation reply form without necessarily appearing on the initial screen, if the application or reply form contains a clear and conspicuous reference to the location of the disclosures and indicates that the disclosures contain rate, fee, and other cost information, as applicable; or

iii. They are posted on a Web site and the application or solicitation reply form is linked to the disclosures in a manner that prevents the consumer from bypassing the disclosures before submitting the application or reply form.

46(d) Timing of Disclosures

1. Receipt of disclosures. Under §226.46(d)(4), if the creditor places the disclosures in the mail, the consumer is considered to have received them three business days after they are mailed. For purposes of §226.46(d)(4), "business day" means all calendar days except Sundays and the legal public holidays referred to in §226.2(a)(6). See comment 2(a)(6)–2. For example, if the creditor places the disclosures in the mail on Thursday, June 4, the disclosures are considered received on Monday, June 8.
Federal Reserve System

Paragraph 46(d)(1)
1. Invitations to apply. A creditor may contact a consumer who has not been pre-selected for a private education loan about taking out a loan (whether by direct mail, telephone, or other means) and invite the consumer to complete an application. Such a contact does not meet the definition of solicitation, nor is it covered by this subpart, unless the contact itself includes the following:
   i. An application form in a direct mailing, electronic communication or a single application form as a "take-one" (in racks in public locations, for example);
   ii. An oral application in a telephone contact; or
   iii. An application in an in-person contact.

Paragraph 46(d)(2)
1. Timing. The creditor must provide the disclosures required by §226.47(b) at the time the creditor provides to the consumer any notice that the loan has been approved. However, nothing in this section prevents the creditor from communicating to the consumer that additional information is required from the consumer before approval may be granted. In such a case, a creditor is not required to provide the disclosures at that time. If the creditor communicates notice of approval by telephone, the creditor must place the disclosures in the mail within three business days of the telephone call. If the creditor communicates notice of approval by electronic communication, the creditor must provide the disclosures solely in electronic form. If the creditor has complied with the consumer consent and other applicable provisions of the Electronic Signatures in Global and National Commerce Act (E-Sign Act) (15 U.S.C. 7001 et seq.), the creditor may provide the disclosures in electronic form; otherwise, the creditor must place the disclosures in the mail within three business days of the communication.

Paragraph 46(d)(3)
1. Effect of subsequent events
   i. Approval disclosures. Inaccuracies in the disclosures required under §226.47(b) are not violations if attributable to events occurring after disclosures are made, although creditors are restricted under §226.48(c)(2) from making certain changes to the loan’s rate or terms after the creditor provides an approval disclosure to a consumer. Since creditors are required to provide the final disclosures under §226.47(c), they need not make new approval disclosures in response to an event that occurs after the creditor delivers the required approval disclosures, except as specified under §226.48(c)(4). For example, at the time the approval disclosures are provided, the creditor may not know the precise disbursement date of the loan funds and must provide estimated disclosures based on the best information reasonably available and labeled as an estimate. If, after the approval disclosures are provided, the creditor learns from the educational institution the precise disbursement date, new approval disclosures would not be required, unless specifically required under §226.48(c)(4) if other changes are made. Similarly, the creditor may not know the precise amounts of each loan to be consolidated in a consolidation loan transaction and information about the precise amounts would not require new approval disclosures, unless specifically required under §226.48(c)(4) if other changes are made.
   ii. Final disclosures. Inaccuracies in the disclosures required under §226.47(c) are not violations if attributable to events occurring after disclosures are made. For example, if the consumer initially chooses to defer payment of principal and interest while enrolled in a covered educational institution, but later chooses to make payments while enrolled, such a change does not make the original disclosures inaccurate.

Section 226.47—Content of Disclosures

1. As applicable. The disclosures required by this subpart need not be made only as applicable, unless specifically required otherwise. The creditor need not provide any disclosure that is not applicable to a particular transaction. For example, in a transaction consolidating private education loans, or in transactions under §226.46(a) for which compliance with this subpart is optional, the creditor need not disclose the information under §226.47(a)(6), and (b)(4), and any other information otherwise required to be disclosed under this subpart that is not applicable to the transaction. Similarly, creditors making loans to consumers where the student is not attending an institution of higher education, as defined in §226.46(b)(2), need not provide the disclosures regarding the self-certification form in §226.47(a)(8).

47(a) Application or Solicitation Disclosures

Paragraph 47(a)(1)(i)
1. Rates actually offered. The disclosure may state only those rates that the creditor is actually prepared to offer. For example, a creditor may not disclose a very low interest rate that will not in fact be offered at any time. For a loan with variable interest rates, the ranges of rates will be considered actually offered if:
   i. For disclosures in applications or solicitations sent by direct mail, the rates were in effect within 60 days before mailing;
   ii. For disclosures in applications or solicitations in electronic form, the rates were in effect within 30 days before the disclosures are sent to a consumer, or for disclosures

719
Pt. 226, Supp. I

made on an Internet Web site, within 30 days before being viewed by the public;

iii. For disclosures in printed applications or solicitations made available to the general public, the rates were in effect within 30 days before printing; or

iv. For disclosures provided orally in telephone applications or solicitations, the rates are current only at the time the disclosures are provided.

2. Creditworthiness and other factors. If the rate will depend, at least in part, on a later determination of the consumer’s creditworthiness or other factors, the disclosure must include a statement that the rate for which the consumer may qualify at approval will depend on the consumer’s creditworthiness and other factors. The creditor may, but is not required to, specify any additional factors that it will use to determine the interest rate. For example, if the creditor will determine the interest rate based on information in the consumer’s or co-signer’s credit report and the type of school the consumer attends, the creditor may state, “Your interest rate will be based on your credit history and other factors (co-signer credit and school type).”

3. Rates applicable to the loan. For a variable-rate private education loan, the disclosure of the interest rate or range of rates must reflect the rate or rates calculated based on the index and margin that will be used to make interest rate adjustments for the loan. The creditor may provide a description of the index and margin or range of margins used to make interest rate adjustments, including a reference to a source, such as a newspaper, where the consumer may look up the index.

Paragraph 47(a)(1)(iii)

1. Coverage. The interest rate is considered variable if the terms of the legal obligation allow the creditor to increase the interest rate originally disclosed to the consumer and the requirements of section 226.47(a)(1)(iii) apply to all such transactions. The provisions do not apply to increases resulting from delinquency (including late payment), default, assumption, or acceleration.

2. Limitations. The creditor must disclose how often the rate may change and any limit on the amount that the rate may increase at any one time. The creditor must also disclose any maximum rate over the life of the transaction. If the legal obligation between the parties does specify a maximum rate, the creditor must disclose any legal limits in the nature of usury or rate ceilings under state or Federal statutes or regulations. However, if the applicable maximum rate is in the form of a legal limit, such as a state’s usury cap (rather than a maximum rate specified in the legal obligation between the parties), the creditor must disclose that the maximum rate is determined by applicable law.

The creditor must also disclose that the consumer’s actual rate may be higher or lower than the initial rates disclosed under §226.47(a)(1)(i), if applicable.

Paragraph 47(a)(1)(iv)

1. Co-signer or guarantor—changes in applicable interest rate. The creditor must state whether the interest rate typically will be higher if the loan is not co-signed or guaranteed by a third party. The creditor is required to provide a statement of the effect on the interest rate and is not required to provide a numerical estimate of the effect on the interest rate. For example, a creditor may state: “Rates are typically higher without a co-signer.”

47(a)(2) Fees and Default or Late Payment Costs

1. Fees or range of fees. The creditor must itemize fees required to obtain the private education loan. The creditor must give a single dollar amount for each fee, unless the fee is based on a percentage, in which case a percentage must be stated. If the exact amount of the fee is not known at the time of disclosure, the creditor may disclose the dollar amount or percentage for each fee as an estimated range.

2. Fees required to obtain the private education loan. The creditor must itemize the fees that the consumer must pay to obtain the private education loan. Fees disclosed include all finance charges under §226.4, such as loan origination fees, credit report fees, and fees charged upon entering repayment, but required to obtain credit, such as application fees that are charged whether or not credit is extended. Fees disclosed include those paid by the consumer directly to the creditor and fees paid to third parties by the creditor on the consumer’s behalf. Creditors are not required to disclose fees that apply if the consumer exercises an option under the loan agreement after consummation, such as fees for deferment, forbearance, or loan modification.

47(a)(3) Repayment Terms

1. Loan term. The term of the loan is the maximum period of time during which regularly scheduled payments of principal and interest will be due on the loan.

2. Payment deferral options—general. The creditor must describe the options that the consumer has under the loan agreement to defer payment on the loan. When there is no deferral option provided for the loan, the creditor must disclose that fact. Payment deferral options required to be disclosed include options for immediate deferment of payments, such as when the student is currently enrolled at a covered educational institution. The description may include of the length of the maximum initial in-school
deferment period, the types of payments that may be deferred, and a description of any payments that are required during the deferment period. The creditor may, but need not, disclose any conditions applicable to the deferment option, such as that deferment is permitted only while the student is continuously enrolled in school. If payment deferral is not an option while the student is enrolled in school, the creditor may disclose that the consumer must begin repayment upon disbursement of the loan and that the consumer may not defer repayment while enrolled in school. If the creditor offers payment deferral options that may apply during the repayment period, such as an option to defer payments if the student returns to school, the creditor must disclose any conditions applicable to the deferment option, such as that deferment is permitted only while the student is continuously enrolled in school. If the creditor offers payment deferral options that may apply during the repayment period, such as an option to defer payments if the student returns to school, the creditor must disclose any conditions applicable to the deferment option, such as that deferment is permitted only while the student is continuously enrolled in school.

4. Combination with cost estimate disclosure. The disclosures of the loan term under § 226.47(a)(3)(i) and of the payment deferral option applicable while the student is enrolled at a covered educational institution the creditor must disclose whether interest will accrue while the student is enrolled at a covered educational institution and, if interest does accrue, whether payment of interest may be deferred and added to the principal balance.

5. Bankruptcy limitations. The creditor may comply with § 226.47(a)(3)(iv) by disclosing the following statement: "If you file for bankruptcy you may still be required to pay back this loan."

Cost Estimates

1. Total cost of the loan. For purposes of § 226.47(a)(4), the creditor must calculate the example of the total cost of the loan in accordance with the rules in § 226.18(h) for calculating the loan’s total of payments.

2. Basis for estimates. i. The creditor must calculate the total cost estimate by determining all finance charges that would be applicable to loans with the highest rate of interest required to be disclosed under § 226.47(a)(1)(i). For example, if a creditor charges a range of origination fees from 0% to 3%, the 3% origination fee would apply to loans with the highest initial rate, the lender must assume the 3% origination fee is charged. The creditor must base the total cost estimate on a total loan amount that includes all prepaid finance charges and results in a $10,000 amount financed. For example, if the prepaid finance charges are $600, the creditor must base the estimate on a $10,000 total loan amount and an amount financed of $10,000. The example must reflect an amount provided of $10,000. If the creditor offers a particular private education loan for less than $10,000, the creditor may assume a loan amount that results in a $5,000 amount financed for that loan.

ii. If a prepaid finance charge is determined as a percentage of the amount financed, for purposes of the example, the creditor should assume that the fee is determined as a percentage of the total loan amount, even if this is not the creditor’s usual practice. For example, suppose the consumer requires a disbursement of $10,000 and the creditor charges a 3% origination fee. In order to calculate the total cost example, the creditor must determine the loan amount that will result in a $10,000 amount financed after the 3% fee is assessed. In this example, the resulting loan amount would be $10,309.28. Assessing the 3% origination fee on the loan amount of $10,309.28 results in an origination fee of $309.28, which is withheld from the loan funds disbursed to the consumer. The principal loan amount of $10,309.28 minus the prepaid finance charge of $309.28 results in an amount financed of $10,000.

3. Calculated for each option to defer interest payments. The example must include an estimate of the total cost of the loan for each in-school deferral option disclosed in § 226.47(a)(3)(iii). For example, if the creditor provides the consumer with the option to defer principal payments but begin making interest-only payments immediately, or to defer all principal and interest payments while in school, the creditor is required to disclose three estimates of the total cost of the loan, one for each deferral option. If the creditor adds accrued interest to the loan balance (i.e., interest is capitalized), the estimate of the total loan cost should be based on the capitalization method that the creditor actually uses for the loan. For instance, for each deferred payment option where the creditor would capitalize interest on a quarterly basis, the total loan cost must be calculated assuming interest capitalizes on a quarterly basis.

4. Deferral period assumptions. Creditors may use either of the following two methods for estimating the duration of in-school deferment periods:

i. For loan programs intended for educational expenses of undergraduate students, the creditor may assume that the consumer defers payments for a four-year matriculation period, plus the loan’s maximum applicable grace period, if any. For all other loan programs the creditor must determine the duration of the in-school deferment period based on the assumptions in paragraph (a)(4)(ii).
loans, the creditor may assume that the consumer defers for a two-year matriculation period, plus the maximum applicable grace period, if any, or the maximum time the consumer may defer payments under the loan program, whichever is shorter.

ii. Alternatively, if the creditor knows that the student will be enrolled in a program with a standard duration, the creditor may assume that the consumer defers payments for the full duration of the program (plus any grace period). For example, if a creditor makes student loans intended for students enrolled in a four-year medical school degree program, the creditor may assume that the consumer defers payments for four years plus the consumer’s maximum applicable grace period, if any. However, the creditor may not modify the disclosure to correspond to a particular student’s situation. For example, even if the creditor knows a student will be a second-year medical school student, the creditor must assume a four-year deferment period.

§ 226.47(b)(3)(viii), and the creditor need not disclose a separate example of the payment terms that would result from an increase under §226.18(f)(3)(iv).

2. Limitations on rate adjustments. The creditor must disclose how often the rate may change and any limit on the amount that the rate may increase at any one time. The creditor must also disclose any maximum rate over the life of the transaction. If the legal obligation between the parties does provide a maximum rate, the creditor must disclose any legal limits in the nature of usury or rate ceilings under state or Federal statutes or regulations. However, if the applicable maximum rate is in the form of a legal limit, such as a State’s usury cap (rather than a maximum rate specified in the legal obligation between the parties), the creditor must disclose that the maximum rate is determined by applicable law. Compliance with §226.18(f)(1)(ii) (requiring disclosure of any limitations on the increase of the interest rate) does not necessarily constitute compliance with this section. Specifically, this section requires that if there are no limitations on interest rate increases, the creditor must disclose that fact. By contrast, comment 18(b)(3)–1 states that if there are no limitations the creditor need not disclose that fact. In addition, under this section, limitations on rate increases include, rather than exclude, legal limits in the nature of usury or rate ceilings under state or Federal statutes or regulations.

3. Rates applicable to the loan. For a variable-rate loan, the disclosure of the interest rate must reflect the index and margin that will be used to make interest rate adjustments for the loan. The creditor may provide a description of the index and margin or range of margins used to make interest rate adjustments, including a reference to a source, such as a newspaper, where the consumer may look up the index.

Paragraph 47(b)(2)

1. Fees and default or late payment costs. Creditors must follow the commentary for §226.47(a)(2) in complying with §226.47(b)(2). Creditors must disclose the late payment fees required to be disclosed under §226.18(l) as part of the disclosure required under §226.47(b)(2)(ii). If the creditor includes the itemization of the amount financed under §226.18(c)(1), any fees disclosed as part of the itemization need not be separately disclosed elsewhere.

§ 226.18(f)(1)(ii) (requiring disclosure of any limitations on the increase of the interest rate) does not necessarily constitute compliance with this section. Specifically, this section requires that if there are no limitations on interest rate increases, the creditor must disclose that fact. By contrast, comment 18(b)(3)–1 states that if there are no limitations the creditor need not disclose that fact. In addition, under this section, limitations on rate increases include, rather than exclude, legal limits in the nature of usury or rate ceilings under state or Federal statutes or regulations.

3. Rates applicable to the loan. For a variable-rate loan, the disclosure of the interest rate must reflect the index and margin that will be used to make interest rate adjustments for the loan. The creditor may provide a description of the index and margin or range of margins used to make interest rate adjustments, including a reference to a source, such as a newspaper, where the consumer may look up the index.

Paragraph 47(b)(2)

1. Fees and default or late payment costs. Creditors must follow the commentary for §226.47(a)(2) in complying with §226.47(b)(2). Creditors must disclose the late payment fees required to be disclosed under §226.18(l) as part of the disclosure required under §226.47(b)(2)(ii). If the creditor includes the itemization of the amount financed under §226.18(c)(1), any fees disclosed as part of the itemization need not be separately disclosed elsewhere.

47(b)(3) Repayment Terms

1. Principal amount. The principal amount must equal what the face amount of the note would be as of the time of approval, and it must be labeled “Total Loan Amount.” See Appendix H–18. This amount may be different from the “principal loan amount” used to calculate the amount financed under comment 18(b)(3)–1, because the creditor has
the option under that comment of using a “principal loan amount” that is different from the face amount of the note. If the creditor elects to provide an itemization of the interest that is financed under §226.18(c)(1) the creditor need not disclose the amount financed elsewhere.

2. Loan term. The term of the loan is the maximum period of time during which regularly scheduled payments of principal and interest are due on the loan.

4. Payments required during enrollment. Required payments that must be disclosed include payments of interest and principal, interest only, or other payments that the consumer must make during the time that the student is enrolled. Compliance with §226.18(g) constitutes compliance with §226.47(b)(3)(iv).

5. Bankruptcy limitations. The creditor may comply with §226.47(b)(3)(vi) by disclosing the following statement: “If you file for bankruptcy you may still be required to pay back this loan.”

6. An estimate of the total amount for repayment. The creditor must disclose an estimate of the total amount for repayment at two interest rates:

i. The interest rate in effect on the date of approval. Compliance with the total of payments disclosure requirement of §226.18(h) constitutes compliance with this requirement.

ii. The maximum possible rate of interest applicable to the loan or, if the maximum rate cannot be determined, a rate of 25%. If the legal obligation between the parties specifies a maximum rate of interest, the creditor must calculate the total amount for repayment based on that rate. If the legal obligation does not specify a maximum rate but a usury or rate ceiling under State or Federal statutes or regulations applies, the creditor must use that rate. If a there is no maximum rate in the legal obligation or under a usury or rate ceiling, the creditor must base the disclosure on a rate of 25% and must disclose that there is no maximum rate and that the total amount for repayment disclosed under §226.47(b)(3)(vii)(B) is an estimate and will be higher if the applicable interest rate increases.

iii. If terms of the legal obligation provide a limitation on the amount that the interest rate may increase at any one time, the creditor may reflect the effect of the interest rate limitation in calculating the total cost example. For example, if the legal obligation provides that the interest rate may not increase by more than three percentage points each year, the creditor may assume that the rate increases by three percentage points each year until it reaches that maximum possible rate, or if a maximum rate cannot be determined, an interest rate of 25%.

7. The maximum monthly payment. The creditor must disclose the maximum payment that the consumer could be required to make under the loan agreement, calculated using the maximum rate of interest applicable to the loan, or if the maximum rate cannot be determined, a rate of 25%. The creditor must determine and disclose the maximum rate of interest in accordance with comments 47(b)(3)-6.ii and 47(b)(3)-6.iii. In addition, if a maximum rate cannot be determined, the creditor must state that there is no maximum rate and that the monthly payment amounts disclosed under §226.47(b)(3)(vii) are estimates and will be higher if the applicable interest rate increases.

47(b)(4) Alternatives to Private Education Loans

47(b)(5) Rights of the Consumer

1. Notice of acceptance period. The disclosure that the consumer may accept the terms of the loan until the acceptance period under §226.48(c)(1) has expired must include the specific date on which the acceptance period expires and state that the consumer may accept the terms of the loan until that date. Under §226.48(c)(1), the date on which the acceptance period expires is based on when the consumer receives the disclosures. If the creditor mails the disclosures, the consumer is considered to have received them three business days after the creditor places the disclosures in the mail. See §226.46(d)(4). If the creditor provides an acceptance period longer than the minimum 30 calendar days, the disclosure must reflect the later date. The disclosure must also specify the method or methods by which the consumer may communicate acceptance.

47(c) Final Disclosures

1. Notice of right to cancel. The disclosure of the right to cancel must include the specific date on which the three-day cancellation period expires and state that the consumer has a right to cancel by that date. See comments 48(d)-1 and 2. For example, if the disclosures were mailed to the consumer on Friday, June 1, and the consumer is deemed to receive them on Tuesday, June 5, the creditor could state: "You have a right to cancel this transaction, without penalty, by midnight on Tuesday, June 5, or to your school until after this time. You may cancel by calling us at 800-XXXX-XXXX." If the creditor permits cancellation by mail, the statement must specify that the consumer’s mailed request will be deemed timely if placed in the mail not later than
the cancellation date specified on the disclosure. The disclosure must also specify the method or methods by which the consumer may cancel.

2. More conspicuous. The statement of the right to cancel must be more conspicuous than any other disclosure required under this section except for the finance charge, the interest rate, and the creditor’s identity. See §226.46(c)(2)(iii). The statement will be deemed to be made more conspicuous if it is segregated from other disclosures, placed near or at the top of the disclosure document, and highlighted in relation to other required disclosures. For example, the statement may be outlined with a prominent, noticeable box; printed in contrasting color; printed in larger type, bold print, or different type face; underlined; or set off with asterisks.

Section 226.48—Limitations on Private Education Loans

1. Co-branding—definition of marketing. The prohibition on co-branding in §§226.48(a) and (b) applies to the marketing of private education loans. The term marketing includes any advertisement under §226.2(a)(2). In addition, the term marketing includes any document provided by the creditor to the consumer related to a specific transaction, such as an application or solicitation, a promissory note or a contract provided to the consumer. For example, prominently displaying the name of the educational institution at the top of the application form or promissory note without mentioning the name of the creditor, such as by naming the loan product the “University of ABC Loan,” would be prohibited.

2. Implied endorsement. A suggestion that a private education loan is offered or made by the covered educational institution instead of by the creditor is included in the prohibition on implying that the covered educational institution endorses the private education loan in §226.48(a)(1). For example, naming the loan the “University of ABC Loan,” suggests that the loan is offered by the educational institution. However, the use of a creditor’s full name, even if that name includes the name of a covered educational institution, does not imply endorsement. For example, a credit union whose name includes the name of a covered educational institution is not prohibited from using its own name. In addition, the authorized use of a state seal by a state or an institution of higher education in the marketing of state education loan products does not imply endorsement.

3. Disclosure. i. A creditor is considered to have complied with §226.48(a)(2) if the creditor’s marketing contains a clear and conspicuous statement, equally prominent and closely proximate to the reference to the covered educational institution, using the name of the creditor and the name of the covered educational institution that the covered educational institution does not endorse the creditor’s loans and that the creditor is not affiliated with the covered educational institution. For example, “[Name of creditor]’s loans are not endorsed by [name of school] and [name of creditor] is not affiliated with [name of school].” The statement is considered to be equally prominent and closely proximate if it is the same type size and is located immediately next to or directly above or below the reference to the educational institution, without any intervening text or graphical displays.

ii. A creditor is considered to have complied with §226.48(b) if the creditor’s marketing contains a clear and conspicuous statement, equally prominent and closely proximate to the reference to the covered educational institution, using the name of the creditor’s loan or loan program, the name of the covered educational institution, and the name of the creditor, that the creditor’s loans are not offered or made by the covered educational institution, but are made by the creditor. For example, “[Name of loan or loan program] is not being offered or made by [name of school], but by [name of creditor].” The statement is considered to be equally prominent and closely proximate if it is the same type size and is located immediately next to or directly above or below the reference to the educational institution, without any intervening text or graphical displays.

Paragraph 48(c)

1. 30 day acceptance period. The creditor must provide the consumer with at least 30 calendar days from the date the consumer receives the disclosures required under §226.47(b) to accept the terms of the loan. The creditor may provide the consumer with a longer period of time. If the creditor places the disclosures in the mail, the consumer is considered to have received them three business days after they are mailed under §226.46(d)(4). For purposes of determining when a consumer receives mailed disclosures, “business day” means all calendar days except Sundays and the legal public holidays referred to in §226.2(a)(6). See comment 46(d)-1. The consumer may accept the loan at any time before the end of the 30 day period.

2. Method of acceptance. The creditor must specify a method or methods by which the consumer can accept the loan at any time within the 30-day acceptance period. The creditor may require the consumer to communicate acceptance orally or in writing. Acceptance may also be communicated electronically, but electronic communication must not be the only means provided for the consumer to communicate acceptance unless
the creditor has provided the approval disclosure electronically in compliance with the consumer consent and other applicable provisions of the Electronic Signatures in Global and National Commerce Act (E-Sign Act) (15 U.S.C. § 7001 et seq.). If acceptance by mail is allowed, the consumer’s communication of acceptance is considered timely if placed in the mail within the 30-day period.

3. Prohibition on changes to rates and terms. The prohibition on changes to the rates and terms of the loan applies to changes that affect those terms that are required to be disclosed under §§226.47(b) and (c). The creditor is permitted to make changes that do not affect any of the terms disclosed to the consumer under those sections.

4. Permissible changes to rates and terms—redisclosure required. Creditors are not required to consummate a loan where the extension of credit would be prohibited by law or where the creditor has reason to believe that the consumer has committed fraud. A creditor may make changes to the rate based on adjustments to the index used for the loan and changes that will unequivocally benefit the consumer. For example, a creditor is permitted to reduce the interest rate or lower the amount of a fee. A creditor may also reduce the loan amount based on a certification or other information received from a covered educational institution or from the consumer indicating that the student’s cost of attendance has decreased or the amount of other financial aid has increased. A creditor may also withdraw the loan approval based on a certification or other information received from a covered educational institution or from the consumer indicating that the student is not enrolled in the institution. For these changes permitted by §226.48(c)(3), the creditor is not required to provide a new set of approval disclosures required under §226.47(b) or provide the consumer with a new 30-day acceptance period under §226.48(c)(1). The creditor must provide the final disclosures under §226.47(c).

5. Permissible changes to rates and terms—school certification. If the creditor reduces the loan amount based on information that the student’s cost of attendance has decreased or the amount of other financial aid has increased, the creditor may make certain corresponding changes to the rate and terms. The creditor may change the rate or terms to those that the consumer would have received if the consumer had applied for the reduced loan amount. For example, assume a consumer applies for, and is approved for, a $10,000 loan at a 7% interest rate. However, after the consumer receives the approval disclosures, the consumer’s school certifies that the consumer’s financial need is only $8,000. The creditor may reduce the loan amount for which the consumer is approved to $8,000. The creditor may also, for example, increase the interest rate on the loan to 7.125%, but only if the consumer would have received a rate of 7.125% if the consumer had originally applied for an $8,000 loan.

5. Permissible changes to rates and terms—redisclosure required. A creditor may make changes to the interest rate or terms to accommodate a request from a consumer. For example, assume a consumer applies for a $10,000 loan and is approved for the $10,000 amount at an interest rate of 6%. After the creditor has provided the approval disclosures, the consumer’s financial need increases, and the consumer requests a loan amount of $15,000. In this situation, the creditor is permitted to offer a $15,000 loan, and to make any other changes such as raising the interest rate to 7%, in response to the consumer’s request. The creditor must provide a new set of disclosures under §226.47(b) and provide the consumer with 30 days to accept the offer under §226.48(c) for the $15,000 loan offered in response to the consumer’s request. However, because the consumer may choose not to accept the offer for the $15,000 loan at the higher interest rate, the creditor may not withdraw or change the rate or terms of the offer for the $10,000 loan, except as permitted under §226.48(c)(3), unless the consumer accepts the $15,000 loan.

Paragraph 48(d)

1. Right to cancel. If the creditor mails the disclosures, the disclosures are considered received by the consumer three business days after the disclosures were mailed. For purposes of determining when the consumer receives the disclosures, the term “business day” is defined as all calendar days except Sunday and the legal public holidays referred to in §226.2(a)(6). See §226.46(d)(4). The consumer has three business days from the date on which the disclosures are deemed received to cancel the loan. For example, if the creditor places the disclosures in the mail on Thursday, June 4, the disclosures are considered received on Monday, June 8. The consumer may cancel any time before midnight Thursday, June 11. The creditor may provide the consumer with more time to cancel the loan than the minimum three business days required under this section. If the creditor provides the consumer with a longer period of time in which to cancel the loan, the creditor may disburse the funds three business days after the consumer has received the disclosures required under this section, but the creditor must honor the consumer’s later timely cancellation request.

2. Method of cancellation. The creditor must specify a method or methods by which the consumer may cancel. For example, the creditor may require the consumer to communicate cancellation orally or in writing. Cancellation may also be communicated electronically, but electronic communication must not be the only means by which...
the consumer may cancel unless the creditor provided the final disclosure electronically in compliance with the consumer consent and other applicable provisions of the Electronic Signatures in Global and National Commerce Act (E-Sign Act) (15 U.S.C. 7001 et seq.). If the creditor allows cancellation by mail, the creditor must specify an address or the name and address of an agent of the creditor to receive notice of cancellation. The creditor must wait to disburse funds until it is reasonably satisfied that the consumer has not canceled. For example, the creditor may satisfy itself by waiting a reasonable time after expiration of the cancellation period to allow for delivery of a mailed notice. The creditor may also satisfy itself by obtaining a written statement from the consumer, which must be provided to and signed by the consumer only at the end of the three-day period that the right has not been exercised.

3. Cancellation without penalty. The creditor may not charge the consumer a fee for exercising the right to cancel under §226.48(d). The prohibition extends only to fees charged specifically for canceling the loan. The creditor is not required to refund fees, such as an application fee, that are charged to all consumers whether or not the consumer cancels the loan.

**Paragraph 48(e)**

1. General. Section 226.48(e) requires that the creditor obtain the self-certification form, signed by the consumer, before consummating the private education loan. The rule applies only to private education loans that will be used for the postsecondary educational expenses of a student while that student is attending an institution of higher education as defined in §226.46(b). It does not apply to all covered educational institutions. The requirement applies even if the student is not currently attending an institution of higher education, but will use the loan proceeds for postsecondary educational expenses while attending such institution. For example, a creditor is required to obtain the form before consummating a private education loan provided to a high school senior for expenses to be incurred during the consumer’s first year of college. This provision does not require that the creditor obtain the self-certification form in instances where the loan is not intended for a student attending an institution of higher education, such as when the consumer is consolidating loans after graduation. Section 155(a)(2) of the Higher Education Act of 1965 provides that the form shall be made available to the consumer by the relevant institution of higher education. However, §226.48(e) provides flexibility to institutions of higher education and creditors as to how the completed self-certification form is provided to the lender. The creditor may receive the form directly from the consumer, or the creditor may receive the form from the consumer through the institution of higher education. In addition, the creditor may provide the form, and the information the consumer will require to complete the form, directly to the consumer.

2. Electronic signature. Under Section 155(a)(2) of the Higher Education Act of 1965, the institution of higher education may provide the self-certification form to the consumer in written or electronic form. Under Section 155(a)(5) of the Higher Education Act of 1965, the form may be signed electronically by the consumer. A creditor may accept the self-certification form from the consumer in electronic form. A consumer’s electronic signature is considered valid if it meets the requirements issued by the Department of Education under Section 155(a)(5) of the Higher Education Act of 1965.

**Paragraph 48(f)**

1. General. Section 226.48(f) does not specify the format in which creditors must provide the required information to the covered educational institution. Creditors may choose to provide only the required information or may provide copies of the form or forms the lender uses to comply with §226.47(a). A creditor is only required to provide the required information if the creditor is aware that it is a party to a preferred lender arrangement. For example, if a creditor is placed on a covered educational institution’s preferred lender list without the creditor’s knowledge, the creditor is not required to comply with §226.48(f).

**APPENDIX A—EFFECT ON STATE LAWS**

1. Who may make requests. Appendix A sets forth the procedures for preemption determinations. As discussed in §226.28, which contains the standards for preemption, a request for a determination of whether a state law is inconsistent with the requirements of chapters 1, 2, or 3 may be made by creditors, states, or any interested party. However, only states may request and receive determinations in connection with the fair credit billing provisions of chapter 4.

**References**

Statute: Sections 111 and 171(a).

Other sections: Section 226.28.

Previous regulation: Sections 226.1(b) and 226.70 (Supplement V, Section II).

1981 changes: The procedures in appendix A were largely adapted from Supplement V, Section II of the previous regulation (§226.70), with changes made to streamline the procedures.

**APPENDIX B—STATE EXEMPTIONS**

1. General. Appendix B sets forth the procedures for exemption applications. The exemption standards are found in §226.29 and
are discussed in the commentary to that section.

References
Statute: Sections 123 and 171(b).
Other sections: Section 226.29.
Previous regulation: Sections 226.12, 226.50
(Supplement II), 226.60 (Supplement IV), and
226.70 (Supplement V, Section I).
1981 changes: The procedures in appendix B
represent a combination and streamlining of
the procedures set forth in the supplements to
the previous regulation.

APPENDIX C—ISSUANCE OF STAFF
INTERPRETATIONS

1. General. This commentary is the vehicle
for providing official staff interpretations.
Individual interpretations generally will not
be issued separately from the commentary.

References
Statute: Sections 105 and 130(f).
Other sections: None.
Previous regulation: Section 226.1(d).
1981 changes: Appendix C reflects the
Board’s intention that this commentary serve as the vehicle for interpreting the regula-
tion, rather than individual interpretive letters.

APPENDIX D—MULTIPLE-ADVANCE
CONSTRUCTION LOANS

1. General rule. Appendix D provides a spe-
cial procedure that creditors may use, at
their option, to estimate and disclose the
terms of multiple-advance construction loans
when the amounts or timing of advances is
unknown at consummation of the transaction.
This appendix reflects the approach taken in §226.17(c)(6)(i), which permits
creditors to provide separate or combined disclosures for the construction period
and for the permanent financing, if any; i.e.,
the construction phase and the permanent
phase may be treated as one transaction or
more than one transaction. Appendix D may
also be used in multiple-advance trans-
actions other than construction loans, when
the amounts or timing of advances is
unknown at consummation.
2. Variable-rate multiple-advance loans. The
hypothetical disclosure required in variable-
rate transactions by §226.18(f)(1)(iv) is not re-
quired for multiple-advance loans disclosed
pursuant to appendix D, part I.
3. Calculation of the total of payments. When
disclosures are made pursuant to appendix D,
the total of payments may reflect either the
sum of the payments or the sum of the
amount financed and the finance charge.
4. Annual percentage rate. Appendix D does
not require the use of Volume I of the
Board’s Annual Percentage Rate Tables for
calculations and disclosures may use other
computation tools to determine the esti-
mated annual percentage rate, based on the
finance charge and payment schedule ob-
tained by use of the appendix.
5. Interest reserves. In a multiple-advance
construction loan, a creditor may establish
an “interest reserve” to ensure that interest
is paid as it accrues by designating a portion
of the loan to be used for paying the interest
that accrues on the loan. An interest reserve
is not treated as a prepaid finance charge,
whether the interest reserve is the same as
or different from the estimated interest fig-
ure calculated under appendix D.
     • If a creditor permits a consumer to make
interest payments as they become due, the
interest reserve should be disregarded in the
disclosures and calculations under appendix D.
     • If a creditor requires the establishment
of an interest reserve and automatically de-
ducts interest payments from the reserve amount
rather than allow the consumer to make interest payments as they become due,
the fact that interest will accrue on those in-
terest payments as well as the other loan
proceeds must be reflected in the calcula-
tions and disclosures. To reflect the effects
of such compounding, a creditor should first
calculate interest on the commitment amount (exclusive of the interest reserve)
and then add the figure obtained by assum-
ing that one-half of that interest is out-
standing at the contract interest rate for the
total construction period. For example,
using the example shown under paragraph A,
part I of appendix D, the estimated interest
would be $1,177.68 ($1093.75 plus an additional
$23.93 calculated by assuming half of $1093.75
is outstanding at the contract interest rate
for the entire construction period), and the
estimated annual percentage rate would be
21.38%.

Statute: None.
Other sections: Sections 226.17 and 226.22.
Previous regulation: Interpretation §226.813.
1981 Changes: Use of appendix D is lim-
ited to multiple-advance loans for construc-
tion purposes or analogous types of trans-
actions.

APPENDIX E—RULES FOR CARD ISSUERS THAT
BILL ON A TRANSACTION-BY-TRANSACTION
BASIS

Statute: None.
Other sections: Sections 226.6 through 226.13,
and 226.15.
1981 changes: The rules in this appendix have
been streamlined and clarified to indica-
tate how certain card issuers that bill on a
transaction basis may comply with the re-
quirements of Subpart B.
APPENDIX F—ANNUAL PERCENTAGE RATE COMPUTATIONS FOR CERTAIN OPEN-END CREDIT PLANS

1. Daily rate with specific transaction charge. If the finance charge results from a charge relating to a specific transaction and the application of a daily periodic rate, see comment 14(c)–6 for guidance on an appropriate calculation method.

References
Statute: Section 107.
Previous regulation: Section 226.5(a)(3)(ii), footnote 5(a).
Other sections: Section 226.14.

1981 changes: This appendix incorporates a sixth example in which the transaction amount exceeds the amount of the balance subject to the periodic rate.

APPENDICES G AND H—OPEN-END AND CLOSED-END MODEL FORMS AND CLAUSES

1. Permissible changes. Although use of the model forms and clauses is not required, creditors using them properly will be deemed to be in compliance with the regulation with regard to those disclosures. Creditors may make certain changes in the format or content of the forms and clauses and may delete any disclosures that are inapplicable to a transaction or a plan without losing the act’s protection from liability, except for formatting changes that may not be made to model forms and samples in H–18, H–19, H–20, H–21, H–22, H–23, G–2(A), G–3(A), G–4(A), G–10(A)–(E), G–17(A)–(D), G–18(A) (except as permitted pursuant to §226.7(b)(2)), G–18(B)–(C), G–19, G–20, and G–21. The rearrangement of the model forms and clauses may not be so extensive as to affect the substance, clarity, or meaningful sequence of the forms and clauses. Creditors making revisions with that effect will lose their protection from civil liability. Except as otherwise specifically required, acceptable changes include, for example:
   i. Using the first person, instead of the second person, in referring to the borrower.
   ii. Using “borrower” and “creditor” instead of pronouns.
   iii. Rearranging the sequences of the disclosures.
   iv. Not using bold type for headings.
   v. Incorporating certain state “plain English” requirements.
   vi. Deleting inapplicable disclosures by whitening out, blocking out, filling in “N/A” (not applicable) or “0,” crossing out, leaving blanks, checking a box for applicable items, or circling applicable items. (This should permit use of multipurpose standard forms.)

2. Debt cancellation coverage. This regulation does not authorize creditors to characterize debt cancellation fees as insurance premiums for purposes of this regulation. Creditors may provide a disclosure that refers to debt cancellation coverage whether or not the coverage is considered insurance. Creditors may use the model credit insurance disclosures only if the debt cancellation coverage constitutes insurance under state law.

APPENDIX G—OPEN-END MODEL FORMS AND CLAUSES

1. Model G–1. The model disclosures in G–1 (different balance computation methods) may be used in both the initial disclosures under §226.6 and the periodic disclosures under §226.7. As is clear from the models given, “short-hand” descriptions of the balance computation methods are not sufficient. The phrase “a portion of” the finance charge should be included if the total finance charge includes other amounts, such as transaction charges, that are not due to the application of a periodic rate. In addition, if unpaid finance charges are subtracted in calculating the balance, that fact must be stated so that the disclosure of the computation method is accurate. Only Model G–1(b) contains a final sentence appearing in brackets which reflects the total dollar amount of payments and credits received during the billing cycle. The other models do not contain this language because they reflect plans in which payments and credits received during the billing cycle are subtracted. If this is not the case, however, the language relating to payments and credits should be changed, and the creditor should add either the disclosure of the dollar amount as in Model G–1(b) or an indication of which credits (disclosed elsewhere on the periodic statement) will not be deducted in determining the balance. (Such an indication may also substitute for the bracketed sentence in Model G–1(b). See the commentary to §226.7(e).

2. Model G–2. This model contains the notice of liability for unauthorized use of a credit card.

3. Models G–3 and G–4. These set out models for the long form billing error rights statement (for use with the initial disclosures and as an annual disclosure or, at the creditor’s option, with each periodic statement) and the alternative billing error rights statement (for use with each periodic statement), respectively. Creditors must provide the billing error rights statements in a form substantially similar to the models in order to comply with the regulation. The model billing rights statements may be modified in any of the ways set forth in the first paragraph to the commentary on appendices G and H. The models may, furthermore, be modified by deleting inapplicable information, such as:

728
The paragraph concerning stopping a debit in relation to a disputed amount, if the creditor does not have the ability to debit automatically the consumer’s saving or checking account.

The rights stated in the special rule for credit card purchases and any limitations on those rights.

The model billing rights statements also contain optional language that creditors may use. For example, the creditor may:

- Include a statement to the effect that notice of a billing error must be submitted on something other than the payment ticket or other material accompanying the periodic disclosures.
- Insert its address or refer to the address that appears elsewhere on the bill.

Additional information may be included on the statements as long as it does not detract from the required disclosures. For instance, information concerning the reporting of errors in connection with a checking account may be included on a combined statement as long as the disclosures required by the regulation remain clear and conspicuous.

Models G–5 through G–9. These models set out notices of the right to rescind that would be used at different times in an open-end plan. The last paragraph of each of the rescission model forms contains a blank for the date by which the consumer’s notice of cancellation must be sent or delivered. A parenthetical is included to address the situation in which the consumer’s right to rescind the transaction exists beyond 3 business days following the date of the transaction, for example, when the notice or material disclosures are delivered late or when the date of the transaction in paragraph 1 of the notice is an estimate. The language of the parenthetical is not optional. See the commentary to section 226.2(a)(25) regarding the specificity of the security interest.

Model G–10(A), Sample G–10(B) and Model G–10(C). i. Model G–10(A) and Sample G–10(B) illustrate, in the tabular format, all of the disclosures required under §226.5a for applications and solicitations for credit cards other than charge cards. Model G–10(B) is a sample disclosure illustrating an account with a lower introductory rate and penalty rate. Model G–10(C) illustrates the tabular format disclosure for charge card applications and solicitations and reflects all of the disclosures in the table.

Except as otherwise permitted, disclosures must be substantially similar in sequence and format to model forms G–10(A) and (C). The disclosures may, however, be arranged vertically or horizontally and need not be highlighted aside from being included in the table. While proper use of the model forms will be deemed to be in compliance with the regulation, card issuers are permitted to use headings and disclosures other than those in the forms (with an exception relating to the use of “grace period”) if they are clear and concise and are substantially similar to the headings and disclosures contained in model forms. For further discussion of requirements relating to form, see the commentary to §226.5a(e)(2).

Models G–11 and G–12. Model G–11 contains clauses that illustrate the general disclosures required under §226.5a(e) in applications and solicitations made available to the general public. Model G–12 is a model clause for the disclosure required under §226.5a(f) when a charge card accesses an open-end plan offered by another creditor.

Models G–13(A) and G–13(B). These model forms illustrate the disclosures required under §226.9(f) when the card issuer changes the entity providing insurance on a credit card account. Model G–13(A) contains the items set forth in §226.9(f)(3) as examples of significant terms of coverage that may be affected by the change in insurance provider. The card issuer may either list all of these potential changes in coverage and place a check mark by the applicable changes, or list only the actual changes in coverage. Under either approach, the card issuer must either explain the changes or refer to an accompanying copy of the policy or group certificate for details of the new terms of coverage. Model G–13(A) also illustrates the permissible combination of the two notices required by §226.9(f)—the notice required for a planned change in provider and the notice required once a change has occurred. This form may be modified for use in providing only the disclosures required before the change if the card issuer chooses to send two separate notices. Thus, for example, the references to the attached policy or certificate would not be required in a separate notice prior to a change in the insurance provider since the policy or certificate need not be provided at that time. Model G–13(B) illustrates the disclosures required under §226.9(f)(2) when the insurance provider is changed.

Appendix H—Closed-End Model Forms and Clauses

Models H–1 and H–2. Creditors may make several types of changes to closed-end model forms H–1 (credit sale) and H–2 (loan) and still be deemed to be in compliance with the regulation, provided that the required disclosures are made clearly and conspicuously. Permissible changes include the addition of the information permitted by footnote 37 to §226.17 and “directly related” information as set forth in the commentary to §226.17(a).

The creditor may also delete or, on multipurpose forms, indicate inapplicable disclosures, such as:

- The itemization of the amount financed option. (See Samples H–12 through H–15.)
forms.
civil liability for proper use of the model
this form without loss of protection from
commentary to § 226.18(c), may be made to
apropriate revisions, such as those set out in the
flexibility in filling out Model H–3
cordance with the commentary to § 226.18(l).
disclosures to reflect joint policies.
estimated disclosures, instead of an ''e.''
financed.
indicate inapplicable disclosures.
sary of terms in a separate section of the
segmented disclosures, by placing the pay-
ment schedule at the top of the form; or by
changing the order of the disclosures in the
boxes, including the annual percentage rate
and finance charge boxes.
indicate inapplicable disclosures.
Using a line for the consumer to initial,
rather than a checkbox, to indicate an elec-
tion to receive an itemization of the amount
financed.
deleting captions for disclosures.
Using a symbol, such as an asterisk, for esti-
imated disclosures, instead of an “e.”
Adding a signature line to the insurance
disclosures to reflect joint policies.
Separately itemizing the filing fees.
Revising the late charge disclosure in ac-
cordance with the commentary to §226.18(l).
2. Model H–3. Creditors have considerable
flexibility in filling out Model H–3
(itemization of the amount financed). Approp-
riate revisions, such as those set out in the
commentary to § 226.18(c), may be made to
this form without loss of protection from
civil liability for proper use of the model
forms.
3. Models H–4 through H–7. The model
clauses are not included in the model forms
although they are mandatory for certain
transactions. Creditors using the model
clauses when applicable to a transaction are
deemed to be in compliance with the regula-
tion with regard to that disclosure.
4. Model H–4(A). This model contains the
variable rate model clauses applicable to
transactions subject to §226.18(f)(2), which would alert con-
sumers to the fact that the transaction con-
tains a variable-rate feature and that disclo-
sures were provided earlier.
5. Model H–4(B). This model clause illus-
trates the variable-rate disclosure required
under §226.18(f)(2), which would alert con-
sumers to the fact that the transaction con-
tains a variable-rate feature and that disclo-
sures were provided earlier.
6. Model H–4(C). This model clause illus-
trates the early disclosures required gen-
erally under §226.19(b). It includes informa-
tion on how the consumer’s interest rate is
determined and how it can change over the
term of the loan, and explains changes that
may occur in the borrower’s monthly pay-
ment. It contains an example of how to dis-
close historical changes in the index or for-
mula values used to compute interest rates
for the preceding 15 years. The model clause
also illustrates the disclosure of the initial
and maximum interest rates and payments
based on an initial interest rate (index value
plus margin, adjusted by the amount of any
discount or premium) in effect as of an iden-
tified month and year for the loan program
disclosure and illustrates how to provide
consumers with a method for calculating the
monthly payment for the loan amount to be
borrowed.
7. Model H–4(D). This model clause illus-
trates the adjustment notice required under
§226.20(c), and provides examples of payment
change notices and annual notices of interest
rate changes.
8. Model H–5. This contains the demand fea-
ture clause.
9. Model H–6. This contains the assumption
clause.
10. Model H–7. This contains the required
deposit clause.
11. Models H–8 and H–9. These models con-
tain the rescission notices for a typical
closed-end transaction and a refinancing, re-
espectively. The last paragraph of each model
form contains a blank for the date by which the
consumer’s notice of cancelation must
be sent or delivered. A parenthetical is in-
cluded to address the situation in which the
consumer's right to rescind the transaction exists beyond 3 business days following the date of the transaction, for example, where the notice or material disclosures are delivered in a manner that complies with the time limits prescribed in section 226.17(b). The specificity of the security interest disclosure for model form H–9. The prior version of model form H–9 is substantially similar to the current version and creditors may continue to use it, as appropriate. Creditors are encouraged, however, to use the current version when reordering or reprinting forms.

12. Sample forms. The sample forms (H–10 through H–15) serve a different purpose than the model forms. The samples illustrate various ways of adapting the model forms to the individual transactions described in the commentary to appendix H. The deletions and rearrangements shown relate only to the specific transactions described. As a result, the samples do not provide the general protection from civil liability provided by the model forms and clauses.

13. Sample H–10. This sample illustrates an automobile credit sale. The cash price is $7,500 with a downpayment of $1,500. There is an 8% add-on interest rate and a term of 3 years, with 36 equal monthly payments. The credit life insurance premium and the filing fees are financed by the creditor. There is a $25 credit report fee paid by the consumer before consummation, which is a prepaid finance charge.

14. Sample H–11. This sample illustrates an installment loan. The amount of the loan is $5,000. There is a 12% simple interest rate and a term of 2 years. The date of the transaction is expected to be April 15, 1981, with the first payment due on June 1, 1981. The first payment amount is labelled as an estimate since the transaction date is uncertain. The odd days' interest ($26.76) is collected with the first payment. The remaining 23 monthly payments are equal.

15. Sample H–12. This sample illustrates a refinancing and consolidation loan. The amount of the loan is $5,000. There is a 12% simple interest rate and a term of 3 years. The date of the transaction is April 1, 1981, with the first payment due on May 1, 1981. The first 35 monthly payments are equal, with an odd final payment. The credit disability insurance premium is financed. In calculating the annual percentage rate, the U.S. Rule has been used. Since an itemization of the amount financed is included with the disclosures, the statement regarding the consumer's option to receive an itemization is deleted.

16. Samples H–13 through H–15. These samples illustrate various mortgage transactions. They assume that the mortgages are subject to the Real Estate Settlement Procedures Act (RESPA). As a result, no option regarding the itemization of the amount financed has been included in the samples, because providing the good faith estimates of settlement costs required by RESPA satisfies Truth in Lending's amount financed itemization requirement. (See footnote 39 to §226.18(c).)

17. Sample H–13. This sample illustrates a mortgage with a demand feature. The loan amount is $44,900, payable in 360 monthly installments at a simple interest rate of 14.75%. The 15 days of interim interest ($294.34) is collected as a prepaid finance charge at the time of consummation of the loan (April 15, 1981). In calculating the disclosure amounts, the minor irregularities provision in §226.17(c)(4) has been used. The property insurance premiums are not included in the payment schedule. This disclosure statement could be used for notes with the 7-year call option required by the Federal National Mortgage Association (FNMA) in states where due-on-sale clauses are prohibited.

18. Sample H–14. This sample disclosure form illustrates the disclosures under §226.19(b) for a variable-rate transaction secured by the consumer's principal dwelling with a term greater than one year. The sample form shows how a creditor can provide either a historical example or the feature of a specific variable-rate mortgage program. The sample disclosure form describes the features of a specific variable-rate mortgage program and alerts the consumer to the fact that information on the creditor's other closed-end variable-rate programs is available upon request. It includes information on how the interest rate is determined and how it can change over time. Section 226.19(b)(2)(viii) permits creditors the option to provide either a historical example or an initial and maximum interest rates and payments disclosure; both are illustrated in the sample disclosure. The historical example explains how the indexed payment can change based on a $10,000 loan amount, payable in 360 monthly installments, based on historical changes in the values for the weekly average yield on U.S. Treasury Securities adjusted to a constant maturity of one year. Index values are measured for 15 years, as of the first week ending in July. This reflects the requirement that the index history be based on values for the same date or period each year in the example. The sample disclosure also illustrates the alternate disclosure under §226.19(b)(2)(viii)(B) that the initial and the maximum interest rates and payments be shown for a $10,000 loan originated at an initial interest rate of 12.41 percent (which was in effect July 1980) and to have 2 percentage point annual (and 5 percentage point overall) interest rate limitations or caps. Thus, the maximum amount that the interest rate could rise under this
program is 5 percentage points higher than the 12.41 percent initial rate to 17.41 percent, and the monthly payment could rise from $106.03 to a maximum of $345.34. The loan would not reach the maximum interest rate until its fourth year because of the 2 percent point annual rate limitations, and the maximum payment disclosed reflects the amortization of the loan during that period. The sample form also illustrates how to provide consumers with a method for calculating their actual monthly payment for a loan amount other than $10,000.

19. Sample H–15. This sample illustrates a graduated payment mortgage with a 5-year graduation period and a 7½ percent yearly increase in payments. The loan amount is $44,900, payable in 360 monthly installments at a simple interest rate of 14.75%. Two points ($9815), as well as an initial mortgage guarantee insurance premium of $225.00, are included in the prepaid finance charge. The mortgage guarantee insurance premiums are calculated on the basis of 14 of 1% of the outstanding principal balance under an annual reduction plan. The abbreviated disclosure permitted under §226.18(g)(2) is used for the payment schedule for years 6 through 30. The prepayment disclosure refers to both penalties and rebates because information about penalties is required for the simple interest portion of the obligation and information about rebates is required for the mortgage insurance portion of the obligation.

20. Sample H–16. This sample illustrates the disclosures required under §226.32(c). The sample illustrates the amount borrowed and the disclosures about optional insurance that are required for mortgage refinancings under §226.32(c)(5). Creditors may, at their option, include these disclosures for all loans subject to §226.32. The sample also includes disclosures required under §226.32(c)(3) when the legal obligation includes a balloon payment.

21. HRSA–500–1 9–82. Pursuant to section 113(a) of the Truth in Lending Act, Form HRSA–500–1 9–82 issued by the U.S. Department of Health and Human Services for certain student loans has been approved for use for loans made prior to the mandatory compliance date of the disclosures required under Subpart F. The form was approved for all HEAL loans with a variable interest rate in which the borrower has reached repayment status and is making payments of both interest and principal.

22. HRSA–500–2 9–82. Pursuant to section 113(a) of the Truth in Lending Act, Form HRSA–500–2 9–82 issued by the U.S. Department of Health and Human Services for certain student loans has been approved for use for loans made prior to the mandatory compliance date of the disclosures required under Subpart F. The form was approved for all HEAL loans with a fixed interest rate that were considered interim student credit extensions as defined in Regulation Z.

23. HRSA–502–1 9–82. Pursuant to section 113(a) of the Truth in Lending Act, Form HRSA–502–1 9–82 issued by the U.S. Department of Health and Human Services for certain student loans has been approved for use for loans made prior to the mandatory compliance date of the disclosures required under Subpart F. The form was approved for all HEAL loans with a variable interest rate in which the borrower has reached repayment status and is making payments of both interest and principal.

24. HRSA–502–2 9–82. Pursuant to section 113(a) of the Truth in Lending Act, Form HRSA–502–2 9–82 issued by the U.S. Department of Health and Human Services for certain student loans has been approved for use for loans made prior to the mandatory compliance date of the disclosures required under Subpart F. The form was approved for all HEAL loans with a fixed interest rate in which the borrower has reached repayment status and is making payments of both interest and principal.

1. These model forms illustrate disclosures required under §226.47 on or with an application or solicitation, at approval, and after acceptance of a private education loan. Although use of the model forms is not required, creditors using them properly will be deemed to be in compliance with the regulation with regard to private education loan disclosures. Creditors may make certain types of changes to private education loan model forms H–18 (application and solicitation), H–19 (approval), and H–20 (final) and still be deemed to be in compliance with the regulation, provided that the required disclosures are made clearly and conspicuously. The model forms aggregate disclosures into groups under specific headings. Changes may not include rearranging the sequence of disclosures, for instance, by rearranging which disclosures are provided under each heading or by rearranging the sequence of the headings and grouping of disclosures. Changes to the model forms may not be so extensive as to affect the substance or clarity of the forms. Creditors making revisions with that effect will lose their protection from civil liability.

The creditor may delete inapplicable disclosures, such as:

• The Federal student financial assistance alternatives disclosures
• The self-certification disclosure

Other permissible changes include, for example:

• Adding the creditor’s address, telephone number, or Web site
• Adding loan identification information, such as a loan identification number
• Adding the date on which the form was printed or produced

732
Federal Reserve System

- Placing the notice of the right to cancel in the top left or top right of the disclosure to accommodate a window envelope
- Combining required terms where several numerical disclosures are the same. For instance, if the itemization of the amount financed is provided, the amount financed need not be separately disclosed.
- Combining the disclosure of loan term and payment deferral options required in §226.47(a)(3) with the disclosure of cost estimates required in §226.47(a)(4) in the same chart or table (See comment 47(a)(3–4).
- Using the first person, instead of the second person, in referring to the borrower.
- Using “borrower” and “creditor” instead of pronouns.
- Incorporating certain state “plain English” requirements.
- Deleting inapplicable disclosures by whitening out, blocking out, filling in “N/A” (not applicable) or “0,” crossing out, leaving blanks, checking a box for applicable items, or circling applicable items.

ii. Although creditors are not required to use a certain paper size in disclosing the §§226.47(a), (b) and (c) disclosures, samples H–21, H–22, and H–23 are designed to be printed on two 8½ x 11 inch sheets of paper. A creditor may use a larger sheet of paper, such as 8½ x 14 inch sheets of paper, or may use multiple pages. If the disclosures are provided on two sides of a single sheet of paper, the creditor must include a reference or references, such as “SEE BACK OF PAGE” at the bottom of each page indicating that the disclosures continue onto the back of the page. If the disclosures are on two or more pages, a creditor may not include any intervening information between portions of the disclosure. In addition, the following formatting techniques were used in presenting the information in the sample tables to ensure that the information is readable:

A. A readable font style and font size (10-point Helvetica font style for body text).
B. Sufficient spacing between lines of the text.
C. Standard spacing between words and characters. In other words, the body text was not compressed to appear smaller than the 10-point type size.
D. Sufficient white space around the text of the information in each row, by providing sufficient margins above, below and to the sides of the text.
E. Sufficient contrast between the text and the background. Generally, black text was used on white paper.

iii. While the Board is not requiring issuers to use the above formatting techniques in presenting information in the disclosure, the Board encourages issuers to consider these techniques when deciding how to disclose information in the disclosure to ensure that the information is presented in a readable format.

iv. Creditors are allowed to use color, shading and similar graphic techniques in the disclosures, so long as the disclosures remain substantially similar to the model and sample forms in appendix H.

26. Sample H–21. This sample illustrates a disclosure required under §226.47(a). The sample assumes a range of interest rates between 7.35% and 17.35%. The sample assumes a variable interest rate that will never exceed 25% over the life of the loan. The term of the sample loan is 20 years for an amount up to $20,000 and 30 years for an amount more than $20,000. The repayment options and sample costs have been combined into a single table, as permitted in the commentary to §226.47(a)(3). It demonstrates the loan amount, interest rate, and total paid when a consumer makes loan payments while in school, pays only interest while in school, and defers all payments while in school.

27. Sample H–22. This sample illustrates a disclosure required under §226.47(b). The sample assumes the consumer financed $10,000 at an 8.23% annual percentage rate. The sample assumes a variable interest rate that will never exceed 25% over the life of the loan. The payment schedule and terms assumes a 20-year loan term and that the consumer elected to defer payments while enrolled in school. This includes a sample disclosure of a total loan amount of $10,000 and prepaid finance charges totaling $600, for a total amount financed of $10,000.

28. Sample H–22. This sample illustrates a disclosure required under §226.47(c). The sample assumes the consumer financed $10,000 at an 8.23% annual percentage rate. The sample assumes a variable annual percentage rate in an instance where there is no maximum interest rate. The sample demonstrates disclosure of an assumed maximum rate, and the statement that the consumer’s actual maximum rate and payment amount could be higher. The payment schedule and terms assumes a 20-year loan term, that the assumed maximum interest rate, and that the consumer elected to defer payments while enrolled in school. This includes a sample disclosure of a total loan amount of $10,000 and prepaid finance charges totaling $600, for a total amount financed of $10,000.

APPENDIX I—FEDERAL ENFORCEMENT AGENCIES

Statute: Section 108.
Other sections: None.
Previous regulation: Section 226.1(b).
1981 changes: None.

APPENDIX J—ANNUAL PERCENTAGE RATE COMPUTATIONS FOR CLOSED-END CREDIT TRANSACTIONS

1. Use of appendix J. Appendix J sets forth the actuarial equations and instructions for
calculating the annual percentage rate in closed-end credit transactions. While the formulas contained in this appendix may be directly applied to calculate the annual percentage rate for an individual transaction, they may also be utilized to program calculators and computers to perform the calculations.

2. Relation to Board tables. The Board's Annual Percentage Rate Tables also provide creditors with a calculation tool that applies the technical information in appendix J. An annual percentage rate computed in accordance with the instructions in the tables is deemed to comply with the regulation. Volume I of the tables may be used for credit transactions involving equal payment amounts and periods, as well as for transactions involving any of the following irregularities: odd first period, odd first payment and odd last payment. Volume II of the tables may be used for transactions that involve any type of irregularities. These tables may be obtained from any Federal Reserve Bank or from the Board in Washington, DC 20551, upon request.

References

Statute: Section 107.

Other sections: Section 226.22.

Previous regulation: Section 226.40 (Supplement I).

1981 changes: Paragraph (b)(2) has been revised to clarify that the term of the transaction never begins earlier than consummation of the transaction. Paragraph (b)(5)(vi) has been revised to permit creditors in single-advance, single-payment transactions in which the term is less than a year and is equal to a whole number of months, to use the 12-month method or the 365-day method to compute the number of unit-periods per year.

APPENDIX K—TOTAL ANNUAL LOAN COST RATE COMPUTATIONS FOR REVERSE MORTGAGE TRANSACTIONS

1. General. The calculation of total annual loan cost rates under appendix K is based on the principles set forth and the estimation or "iteration" procedure used to compute annual percentage rates under appendix J. Rather than restate this iteration process in full, the regulation cross-references the procedures found in appendix J. In other aspects the appendix reflects the special nature of reverse mortgage transactions. Special definitions and instructions are included where appropriate.

(b) Instructions and equations for the total annual loan cost rate.

(b)(5) Number of unit-periods between two given dates.

1. Assumption as to when transaction begins.

The computation of the total annual loan cost rate is based on the assumption that the reverse mortgage transaction begins on the first day of the month in which consummation is estimated to occur. Therefore, fractional unit-periods (used under appendix J for calculating annual percentage rates) are not used.

(b)(9) Assumption for discretionary cash advances.

1. Amount of credit. Creditors should compute the total annual loan cost rates for transactions involving discretionary cash advances by assuming that 50 percent of the initial amount of the credit available under the transaction is advanced at closing or, in an open-end transaction, when the consumer becomes obligated under the plan. (For the purposes of this assumption, the initial amount of the credit is the principal loan amount less any costs to the consumer under section 226.33(c)(1).)

(b)(10) Assumption for variable-rate reverse mortgage transactions.

1. Initial discount or premium rate. Where a variable-rate reverse mortgage transaction includes an initial discount or premium rate, the creditor should apply the same rules for calculating the total annual loan cost rate as are applied when calculating the annual percentage rate for a loan with an initial discount or premium rate (see the commentary to §226.17(c)).

(d) Reverse mortgage model form and sample form.

(d)(2) Sample form.

1. General. The "clear and conspicuous" standard for reverse mortgage disclosures does not require disclosures to be printed in any particular type size. Disclosures may be made on more than one page, and use both the front and the reverse sides, as long as the pages constitute an integrated document and the table disclosing the total annual loan cost rates is on a single page.

APPENDIX L—ASSUMED LOAN PERIODS FOR COMPUTATIONS OF TOTAL ANNUAL LOAN COST RATES

1. General. The life expectancy figures used in appendix L are those found in the U.S. Decennial Life Tables for women, as rounded to the nearest whole year and as published by the U. S. Department of Health and Human Services. The figures contained in appendix L must be used by creditors for all consumers (men and women). Appendix L will be revised periodically by the Board to incorporate revisions to the figures made in the Decennial Tables.

EDITORIAL NOTE: For Federal Register citations affecting supplement I of part 226, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and on GPO Access.
**Supplement I to Part 226—Official Staff Interpretations**

**Introduction**

1. **Official status.** This commentary is the vehicle by which the staff of the Division of Consumer and Community Affairs of the Federal Reserve Board issues official staff interpretations of Regulation Z. Good faith compliance with this commentary affords protection from liability under 130(f) of the Truth in Lending Act. Section 130(f) (15 U.S.C. 1640) protects creditors from civil liability for any act done or omitted in good faith in conformity with any interpretation issued by a duly authorized official or employee of the Federal Reserve System.

2. **Procedure for requesting interpretations.** Under Appendix C of the regulation, anyone may request an official staff interpretation. Interpretations that are adopted will be incorporated in this commentary following publication in the Federal Register. No official staff interpretations are expected to be issued other than by means of this commentary.

3. **Rules of construction.** (a) Lists that appear in the commentary may be exhaustive or illustrative; the appropriate construction should be clear from the context. In most cases, illustrative lists are introduced by phrases such as "including, but not limited to," "among other things," "for example," or "such as."

(b) Throughout the commentary, reference to "this section" or "this paragraph" means the section or paragraph in the regulation that is the subject of the comment.

4. **Comment designations.** Each comment in the commentary is identified by a number and the regulatory section or paragraph which it interprets. The comments are designated with as much specificity as possible according to the particular regulatory provision addressed. For example, some of the comments to §226.18(b) are further divided by subparagraph, such as comment 18(b)(1)–1 and comment 18(b)(2)–1. In other cases, comments have more general designation and are designated, for example, as comment 18–1 or comment 18(b)–1. This introduction may be cited as comments 1–1 through 1–4. Comments to the appendices may be cited, for example, as comment app. A–1.

**Subpart A—General**

Section 226.1—Authority, Purpose, Coverage, Organization, Enforcement and Liability

1(c) Coverage.

1. **Foreign applicability.** Regulation Z applies to all persons (including branches of foreign banks and sellers located in the United States) that extend consumer credit to residents (including resident aliens) of any state as defined in §226.2. If an account is located in the United States and credit is extended to a U.S. resident, the transaction is subject to the regulation. This will be the case whether or not a particular advance or purchase on the account takes place in the United States and whether or not the extender of credit is chartered or based in the United States or a foreign country. For example, if a U.S. resident has a credit card account located in the consumer's state issued by a bank (whether U.S. or foreign-based), the account is covered by the regulation, including extensions of credit under the account that occur outside the United States. In contrast, if a U.S. resident residing or visiting abroad, or a foreign national abroad, opens a credit card account issued by a foreign branch of a U.S. bank, the account is not covered by the regulation.

1(d) Organization.

Paragraph 1(d)(5).

1. **Effective dates.** The Board's revisions to Regulation Z, published on July 30, 2008 (the "final rules"), apply to covered loans (including refinancing loans and assumptions considered new transactions under §226.20), for which the creditor receives an application on or after October 1, 2009, except for the final rules on advertising, escrows, and loan servicing. The final rules on escrows in §226.39(b)(9) are effective for covered loans, (including refinancings and assumptions in...
The servicing rules in §226.36(c) apply to all loans consummated on or after October 1, 2010. The final rules apply to the loan is consummated on September 1, 2009. The application for a new loan on August 1, 2009. April 2, 2010, the escrow rule in §226.35(b)(3) applies for a refinance loan to be secured by a dwelling on March 15, 2010, and the loan is consummated on October 1, 2009, the provision restricting prepayment penalties in §226.35(b)(2) applies. However, if the transaction was a modification of an existing obligation that does not constitute a refinancing loan covered by §226.35(a) on or after October 1, 2009, and the refinancing loan is consummated on October 15, 2009, the provision restricting prepayment penalties in §226.35(b)(2) applies. However, if the transaction was a modification of an existing obligation that does not constitute a refinancing loan under §226.20(a), the final rules, including for example the restriction on prepayment penalties would not apply.

ii. Escrows. Assume a consumer applies for a refinancing loan to be secured by a dwelling (that is not a manufactured home) on March 15, 2010, and the loan is consummated on April 2, 2010, the escrow rule in §226.35(b)(3) does not apply.

iii. Servicing. Assume that a consumer applies for a new loan on August 1, 2009. The loan is consummated on September 1, 2009. The servicing rules in §226.36(c) apply to the servicing of that loan as of October 1, 2009.

Section 226.2—Definitions and Rules of Construction

2(a)(2) Advertisement. Only commercial messages that promote consumer credit transactions requiring disclosures are advertisements. Messages inviting, offering, or otherwise announcing generally to prospective customers the availability of credit transactions, whether in visual, oral, or print media, are covered by Regulation Z (12 CFR part 226).

i. Examples include:

A. Messages in a newspaper, magazine, leaflet, promotional flyer, or catalog.

B. Announcements on radio, television, or public address system.

C. Electronic advertisements, such as on the Internet.

D. Direct mail literature or other printed material on any exterior or interior sign.

E. Point-of-sale displays.

F. Telephone solicitations.

G. Price tags that contain credit information.

H. Letters sent to customers or potential customers as part of an organized solicitation of business.

i. Messages on checking account statements offering auto loans at a stated annual percentage rate.

j. Communications promoting a new open-end plan or closed-end transaction.

ii. The term does not include:

A. Direct personal contacts, such as follow-up letters, cost estimates for individual consumers, or oral or written communication relating to the negotiation of a specific transaction.

B. Informational material, for example, interest-rate and loan-term memos, distributed only to business entities.

C. Notices required by federal or state law, if the law mandates that specific information be displayed and only the information so mandated is included in the notice.

D. News articles the use of which is controlled by the news medium.

E. Market-research or educational materials that do not solicit business.

F. Communications about an existing credit account (for example, a promotion encouraging additional or different uses of an existing credit card account).

2. Persons covered. All persons must comply with the advertising provisions in §§226.16 and 226.24, not just those that meet the definition of creditor in §226.2(a)(17). Thus, home builders, merchants, and others who are not themselves creditors must comply with the advertising provisions of the regulation if they advertise consumer credit transactions. However, under section 145 of the act, the owner and the personnel of the medium in which an advertisement appears, or through which it is disseminated, are not subject to civil liability for violations.

2(a)(3) [Reserved]

2(a)(4) Billing cycle or cycle.

1. Intervals. In open-end credit plans, the billing cycle determines the intervals for which periodic disclosure statements are required; these intervals are also used as measuring points for other duties of the creditor. Typically, billing cycles are monthly, but they may be more frequent or less frequent (but not less frequent than quarterly).

2. Creditors that do not bill. The term cycle is interchangeable with billing cycle for definitional purposes, since some creditors’ cycles do not involve the sending of bills in the traditional sense but only statements of account activity. This is commonly the case with financial institutions when periodic payments are made through payroll deduction or through automatic debit of the consumer’s asset account.

3. Equal cycles. Although cycles must be equal, there is a permissible variance to account for weekends, holidays, and differences in the number of days in months. If the actual date of each statement does not vary by
more than four days from a fixed "day" (for example, the third Thursday of each month) or "date" (for example, the 15th of each month) that the creditor regularly uses, the intervals between statements are considered equal. The requirement that cycles be equal applies even if the creditor applies a daily periodic rate to determine the finance charge. The requirement that intervals be equal does not apply to the first billing cycle on an open-end account (i.e., the time period between account opening and the generation of the first periodic statement) or to a transitional billing cycle that can occur if the creditor occasionally changes its billing cycles so as to establish a new statement day or date. (See comments 9(c)(1)–3 and 9(c)(2)–3.)

4. Payment reminder. The sending of a regular payment reminder (rather than a late payment notice) establishes a cycle for which the creditor must send periodic statements.

2(a)(6) Business day.

1. Business function test. Activities that indicate that the creditor is open for substantially all of its business functions include the availability of personnel to make loan disbursements, to open new accounts, and to handle credit transaction inquiries. Activities that indicate that the creditor is not open for substantially all of its business functions include a retailer’s merely accepting credit cards for purchases or a bank’s having its customer-service windows open only for limited purposes such as deposits and withdrawals, bill paying, and related services.

2. Rescission rule. A more precise rule for what is a business day (all calendar days except Sundays and the federal legal holidays listed in 5 U.S.C. 6103(a)) applies when the right of rescission, the receipt of disclosures for certain mortgage transactions under §226.19(a)(1)(ii), or mortgages subject to §226.32 are involved. (See also comment 3(e)(1)–1.) Four federal legal holidays are identified in 5 U.S.C. 6103(a) by a specific date: New Year’s Day, January 1; Independence Day, July 4; Veterans Day, November 11; and Christmas Day, December 25. When one of these holidays (July 4, for example) falls on a Saturday, federal offices and other entities might observe the holiday on the preceding Friday (July 3). The observed holiday (in the example, July 3) is a business day for purposes of rescission, the receipt of disclosures for certain mortgage transactions under §226.19(a)(1)(ii), or the delivery of disclosures for certain high-cost mortgages covered by §226.32.

2(a)(7) Card issuer.

1. Agent. An agent of a card issuer is considered a card issuer. Because agency relationships are traditionally defined by contract and by state or other applicable law, the regulation does not define agent. Merely providing services relating to the production of credit cards or data processing for others, however, does not make one the agent of the card issuer. In contrast, a financial institution may become the agent of the card issuer if an agreement between the institution and the card issuer provides that the cardholder may use a line of credit with the financial institution to pay obligations incurred by use of the credit card.

2(a)(8) Cardholder.

1. General rule. A cardholder is a natural person at whose request a card is issued for consumer credit purposes or who is a co-obligor or guarantor for such a card issued to another. The second category does not include an employee who is a co-obligor or guarantor on a card issued to the employer for business purposes, nor does it include a person who is merely the authorized user of a card issued to another.

2. Limited application of regulation. For the limited purposes of the rules on issuance of credit cards and liability for unauthorized use, a cardholder includes any person, including an organization, to whom a card is issued for any purpose—including a business, agricultural, or commercial purpose.

3. Issuance. See the commentary to §226.12(a).

4. Dual-purpose cards and dual-card systems. Some card issuers offer dual-purpose cards that are for business as well as consumer purposes. If a card is issued to an individual for consumer purposes, the fact that an organization has guaranteed to pay the debt does not make it business credit. On the other hand, if a card is issued for business purposes, the fact that an individual sometimes uses it for consumer purchases does not subject the card issuer to the provisions on periodic statements, billing-error resolution, and other protections afforded to consumer credit. Some card issuers offer dual-card systems—that is, they issue two cards to the same individual, one intended for business use, the other for consumer or personal use. With such a system, the same person may be a cardholder for general purposes when using the card issued for consumer use, and a cardholder only for the limited purposes of the restrictions on issuance and liability when using the card issued for business purposes.

2(a)(9) Cash price.

1. Components. This amount is a starting point in computing the amount financed and the total sale price under §226.18 for credit sales. Any charges imposed equally in cash and credit transactions may be included in the cash price, or they may be treated as other amounts financed under §226.18(b)(2).

2. Service contracts. Service contracts include contracts for the repair or the servicing of goods, such as mechanical breakdown coverage, even if such a contract is characterized as insurance under state law.
3. Rebates. The creditor has complete flexibility in the way it treats rebates for purposes of disclosure and calculation. (See the commentary to §226.18(b)).

2(a)(10) Closed-end credit.

1. General. The coverage of this term is defined by exclusion. That is, it includes any credit arrangement that does not fall within the definition of open-end credit. Subpart C contains the disclosure rules for closed-end credit when the obligation is subject to a finance charge or is payable by written agreement in more than four installments.

2(a)(11) Consumer.

1. Scope. Guarantors, endorsers, and sureties are not generally consumers for purposes of the regulation, but they may be entitled to rescind under certain circumstances and they may have certain rights if they are obligated on credit card plans.

2. Rescission rules. For purposes of rescission under §§226.15 and 226.23, a consumer includes any natural person whose ownership interest in his or her principal dwelling is subject to the risk of loss. Thus, if a security interest is taken in A’s ownership interest in a house and that house is A’s principal dwelling, A is a consumer for purposes of rescission, even if A is not liable, either primarily or secondarily, on the underlying consumer credit transaction. An ownership interest does not include, for example, leaseholds or inchoate rights, such as dower.

3. Land trusts. Credit extended to land trusts, as described in the commentary to §226.3(a), is considered to be extended to a natural person for purposes of the definition of consumer.

2(a)(12) Consumer credit.

1. Primary purpose. There is no precise test for what constitutes credit offered or extended for personal, family, or household purposes, nor for what constitutes the primary purpose. (See, however, the discussion of business purposes in the commentary to §226.3(a).)

2(a)(13) Consummation.

1. State laws govern. When a contractual obligation on the consumer’s part is created it is a matter to be determined under applicable law. Regulation Z does not make this determination. A contractual commitment agreement, for example, that under applicable law binds the consumer to the credit terms would be consummation. Consummation, however, does not occur merely because the consumer has made some financial investment in the transaction (for example, by paying a nonrefundable fee) unless, of course, applicable law holds otherwise.

2. Credit v. sale. Consummation does not occur when the consumer becomes contractually committed to a sale transaction, unless the consumer also becomes legally obligated to accept a particular credit arrangement. For example, when a consumer pays a nonrefundable deposit to purchase an automobile, a purchase contract may be created, but consummation for purposes of the regulation does not occur unless the consumer also contracts for financing at that time.

2(a)(14) Credit.

1. Exclusions. The following situations are not considered credit for purposes of the regulation:

i. Layaway plans, unless the consumer is contractually obligated to continue making payments. Whether the consumer is so obligated is a matter to be determined under applicable law. The fact that the consumer is not entitled to a refund of any amounts paid towards the cash price of the merchandise does not bring layaways within the definition of credit.

ii. Tax liens, tax assessments, court judgments, and court approvals of reaffirmation of debts in bankruptcy. However, third-party financing of such obligations (for example, a bank loan obtained to pay off a tax lien) is credit for purposes of the regulation.

iii. Insurance premium plans that involve payment in installments with each installment representing the payment for insurance coverage for a certain future period of time, unless the consumer is contractually obligated to continue making payments.

iv. Home improvement transactions that involve progress payments, if the consumer pays, as the work progresses, only for work completed and has no contractual obligation to continue making payments.

v. Borrowing against the accrued cash value of an insurance policy or a pension account, if there is no independent obligation to repay.

vi. Letters of credit.

vii. The execution of option contracts. However, there may be an extension of credit when the option is exercised, if there is an agreement at that time to defer payment of a debt.

viii. Investment plans in which the party extending capital to the consumer risks the loss of the capital advanced. This includes, for example, an arrangement with a home purchaser in which the investor pays a portion of the downpayment and of the periodic mortgage payments in return for an ownership interest in the property, and shares in any gain or loss of property value.

ix. Mortgage assistance plans administered by a government agency in which a portion of the consumer’s monthly payment amount is paid by the agency. No finance charge is imposed on the subsidy amount, and that amount is due in a lump-sum payment on a set date or upon the occurrence of certain events. (If payment is not made when due, a new note imposing a finance charge may be written, which may then be subject to the regulation.)

2. Payday loans; deferred presentment. Credit includes a transaction in which a cash advance is made to a consumer in exchange for
the consumer’s personal check, or in exchange for the consumer’s authorization to debit the consumer’s deposit account, and where the parties agree either that the check will not be deposited, or that the consumer’s deposit account will not be debited, until a designated future date. This type of transaction is often referred to as a “payday loan” or “payday advance” or “deferred-presentment loan.” A fee charged in connection with such a transaction may be a finance charge for purposes of §226.4, regardless of how the fee is characterized under state law. Where the fee charged constitutes a finance charge under §226.4 and the person advancing funds regularly extends consumer credit, that person is a creditor and is required to provide disclosures consistent with the requirements of regulations 2. (See §226.20(a)(17).)

2(a)(15) Credit card.
   1. Usable from time to time. A credit card must be usable from time to time. Since this involves the possibility of repeated use of a single device, checks and similar instruments that can be used only once to obtain a single credit extension are not credit cards. 2. Examples. Examples of credit cards include:
      A. A card that guarantees checks or similar instruments, if the asset account is also tied to an overdraft line or if the instrument directly accesses a line of credit.
      B. A card that accesses both a credit and an asset account (that is, a debit-credit card).
      C. An identification card that permits the consumer to defer payment on a purchase.
      D. An identification card indicating loan approval that is presented to a merchant or to a lender, whether or not the consumer signs a separate promissory note for each credit extension.
      E. A card or device that can be activated upon receipt to access credit, even if the card has a substantive use other than credit, such as a purchase-price discount card. Such a card or device is a credit card notwithstanding the fact that the recipient must first contact the card issuer to access or activate the credit feature.
   ii. In contrast, credit card does not include, for example:
      A. A check-guarantee or debit card with no credit feature or agreement, even if the creditor occasionally honors an inadvertent overdraft.
      B. Any card, key, plate, or other device that is used in order to obtain petroleum products for business purposes from a wholesale distribution facility or to gain access to that facility, and that is required to be used without regard to payment terms.
      C. Charge card. Generally, charge cards are cards used in connection with an account on which outstanding balances cannot be carried from one billing cycle to another and are payable when a periodic statement is received. Under the regulation, a reference to credit cards generally includes charge cards. The term charge card is, however, distinguished from credit card in §226.5a, 226.7(b)(11), 226.7(b)(12), 226.9(e), 226.9(f) and 226.28(d), and appendices G-10 through G-13. When the term credit card is used in those provisions, it refers to credit cards other than charge cards.

2(a)(16) Credit sale.
   1. Special disclosure. If the seller is a creditor in the transaction, the transaction is a credit sale and the special credit sale disclosures (that is, the disclosures under §226.18(j)) must be given. This applies even if there is more than one creditor in the transaction and the creditor making the disclosures is not the seller. (See the commentary to §226.17(d).) 2. Sellers who arrange credit. If the seller of the property or services involved arranged for financing but is not a creditor as to that sale, the transaction is not a credit sale. Thus, if a seller assists the consumer in obtaining a direct loan from a financial institution and the consumer’s note is payable to the financial institution, the transaction is a loan and only the financial institution is a creditor.

3. Refinancings. Generally, when a credit sale is refinanced within the meaning of §226.20(a), loan disclosures should be made. However, if a new sale of goods or services is also involved, the transaction is a credit sale.

4. Incidental sales. Some lenders sell a product or service—such as credit, property, or health insurance—as part of a loan transaction. Section 226.4 contains the rules on whether the cost of credit life, disability or property insurance is part of the finance charge. If the insurance is financed, it may be disclosed as a separate credit-sale transaction or disclosed as part of the primary transaction; if the latter approach is taken, either loan or credit-sale disclosures may be made. (See the commentary to §226.17(c)(1) for further discussion of this point.)

5. Credit extensions for educational purposes. A credit extension for educational purposes in which an educational institution is the creditor may be treated as either a credit sale or a loan, regardless of whether the funds are given directly to the student, credited to the student’s account, or disbursed to other persons on the student’s behalf. The disclosure of the total sale price need not be given if the transaction is treated as a loan. 2(a)(17) Creditor.
   1. General. The definition contains four independent tests. If any one of the tests is met, the person is a creditor for purposes of that particular test.

   Paragraph 2(a)(17)(i).
   1. Prerequisites. This test is composed of two requirements, both of which must be
met in order for a particular credit extension to be subject to the regulation and for the credit extension to count towards satisfaction of the numerical tests mentioned in §226.2(a)(17)(v).

1. First, there must be either or both of the following:
A. A written (rather than oral) agreement to pay in more than four installments. A letter that merely confirms an oral agreement does not constitute a written agreement for purposes of the definition.
B. A finance charge imposed for the credit. The obligation to pay the finance charge need not be in writing.

2. Second, the obligation must be payable to the person in order for that person to be considered a creditor. If an obligation is made payable to the dealer, the creditor is the one who initially accepts the obligation.
3. Assignees. If an obligation is initially payable to one person, that person is the creditor even if the obligation by its terms is simultaneously assigned to another person. For example:
   i. An auto dealer and a bank have a business relationship in which the bank supplies the dealer with credit sale contracts that are initially made payable to the dealer and provide for the immediate assignment of the obligation to the bank. The dealer and purchaser execute the contract only after the bank approves the creditworthiness of the purchaser. Because the obligation is initially payable on its face to the dealer, the dealer is the only creditor in the transaction.
4. Numerical tests. The examples below illustrate how the numerical tests of §226.2(a)(17)(v) are applied. The examples assume that consumer credit with a finance charge or written agreement for more than 4 installments was extended in the years in question and that the person did not extend such credit in 2006.
5. Counting transactions. For purposes of closed-end credit, the creditor counts each credit transaction. For open-end credit, transactions means accounts, so that outstanding accounts are counted instead of individual credit extensions. Normally the number of transactions is measured by the preceding calendar year; if the requisite number is met, then the person is a creditor for all transactions in the current year. However, if the person did not meet the test in the preceding year, the number of transactions is measured by the current calendar year. For example, if the person extends consumer credit 26 times in 2007, it is a creditor for purposes of the regulation for the last extension of credit in 2007 and for all extensions of consumer credit in 2008. On the other hand, if a business begins in 2007 and extends consumer credit 20 times, it is not a creditor for purposes of the regulation in 2007. If it extends consumer credit 75 times in 2008, however, it becomes a creditor for purposes of the regulation (and must begin making disclosures) after the 25th extension of credit in that year and is a creditor for all extensions of consumer credit in 2009.
6. Relationship between consumer credit in general and credit secured by a dwelling. Extensions of credit secured by a dwelling are counted towards the 25-extensions test. For example, if in 2007 a person extends secured consumer credit 23 times and consumer credit secured by a dwelling twice, it becomes a creditor for the succeeding extensions of credit, whether or not they are secured by a dwelling. On the other hand, extensions of consumer credit not secured by a dwelling are not counted towards the number of credit extensions secured by a dwelling. For example, if in 2007 a person extends credit not secured by a dwelling 8 times and credit secured by a dwelling 3 times, it is not a creditor.
7. Trusts. In the case of credit extended by trusts, each individual trust is considered a separate entity for purposes of applying the criteria. For example:
   i. A bank is the trustee for three trusts. Trust A makes 15 extensions of consumer credit annually; Trust B makes 10 extensions of consumer credit annually; and Trust C makes 30 extensions of consumer credit annually. Only Trust C is a creditor for purposes of the regulation.
   ii. The examples of 2(a)(17)(iv) also apply to such card issuers.
2(a)(18) Downpayment.

1. Allocation. If a consumer makes a lump-sum payment, partially to reduce the cash price and partially to pay prepaid finance charges, the interest charge on the attributable portion of the cash price is part of the downpayment. (See the commentary to §226.2(a)(23).)

2. Pick-up payments. If a creditor chooses not to treat the deferred portion of the downpayment, often referred to as pick-up payments, in a number of ways. If the pick-up payment is treated as part of the downpayment:

A. It is subtracted in arriving at the amount financed under §226.18(b).
B. It may, but need not, be reflected in the payment schedule under §226.18(g).

ii. If the pick-up payment does not meet the definition (for example, if it is payable after the second regularly scheduled payment) or if the creditor chooses not to treat it as part of the downpayment:

A. It must be included in the amount financed.
B. It must be shown in the payment schedule.

iii. Whichever way the pick-up payment is treated, the total of payments under §226.18(b) must equal the sum of the payments disclosed under §226.18(g).

3. Effect of existing liens.

i. No cash payment. In a credit sale, the "downpayment" may only be used to reduce the cash price. For example, when a trade-in is used as the downpayment and the existing lien on an automobile to be traded in exceeds the value of the automobile, creditors must disclose a zero on the downpayment line rather than a negative number. To illustrate, assume a consumer owes $10,000 on an existing automobile loan and that the trade-in value of the automobile is only $8,000, leaving a $2,000 deficit. The creditor should disclose a downpayment of $0, not -$2,000.

ii. Cash payment. If the consumer makes a cash payment, creditors may, at their option, disclose the entire cash payment as the downpayment, or apply the cash payment first to any excess lien amount and disclose any remaining cash as the downpayment. In the above example:

A. If the downpayment disclosed is equal to the cash payment, the $2,000 deficit must be reflected as an additional amount financed under §226.18(b)(2).
B. If the consumer provides $1,500 in cash (which does not extinguish the $2,000 deficit), the creditor may disclose a downpayment of $1,500 or of $0.
C. If the consumer provides $3,000 in cash, the creditor may disclose a downpayment of $3,000 or of $1,000.

2(a)(19) Dwelling.

1. Scope. A dwelling need not be the consumer’s principal residence to fit the definition, and thus a vacation or second home could be a dwelling. However, for purposes of the definition of residential mortgage transactions and the right to rescind, a dwelling must be the principal residence of the consumer. (See the commentary to §§226.2(a)(24), 226.15, and 226.23.)

2. Use as a residence. Mobile homes, boats, and trailers are dwellings if they are in fact used as residences, just as are condominiums and cooperative units. Recreational vehicles, campers, and the like are not used as residences and are not dwellings.

3. Relation to exemptions. Any transaction involving a security interest in a consumer’s principal dwelling (as well as in any real property) remains subject to the regulation despite the general exemption in §226.3(b) for credit extensions over $25,000.

2(a)(20) Open-end credit.

1. General. This definition describes the characteristics of open-end credit (for which the applicable disclosure and other rules are contained in Subpart B), as distinct from closed-end credit. Open-end credit is consumer credit that is extended under a plan and meets all 3 criteria set forth in the definition.

2. Existence of a plan. The definition requires that there be a plan, which connotes a contractual arrangement between the creditor and the consumer. Some creditors offer programs containing a number of different credit features. The consumer has a single account with the institution that can be accessed repeatedly via a number of sub-accounts established for the different program features and rate structures. Some features of the program might be used repeatedly (for example, an overdraft line) while others might be used infrequently (such as the part of the credit line available for secured credit). If the program as a whole is subject to prescribed terms and otherwise meets the definition of open-end credit, such a program would be considered a single, multifeatured plan.

3. Repeated transactions. Under this criterion, the creditor must reasonably contemplate repeated transactions. This means that the credit plan must be usable from time to time and the creditor must legitimately expect that there will be repeat business rather than a one-time credit extension. The creditor must expect repeated dealings with consumers under the credit plan as a whole and need not believe a consumer will reuse a particular feature of the plan. The determination of whether a creditor can reasonably contemplate repeated transactions requires an objective analysis. Information that much of the creditor’s customer base with accounts under the plan make repeated transactions over some period of time is relevant to the determination, particularly when the plan is opened primarily for the financing of infrequently purchased products or services. A standard based on reasonable belief by a creditor necessarily includes some margin for judgmental error. The fact...
that particular consumers do not return for further credit extensions does not prevent a plan from being properly characterized as open-end. For example, if much of the customer business is repeat purchases, the fact that some consumers use the plan only once would not affect the characterization of the store’s plan as open-end. The question of whether a plan distinguishes open-end credit from closed-end credit is a question of fact to be decided in the context of the creditor’s type of business and the creditor’s relationship with its customers. For example, it would be more reasonable for a bank or depository institution to contemplate repeated transactions with a customer than for a seller of aluminum siding to make the same assumption about its customers.

4. Finance charge on an outstanding balance. The requirement that a finance charge may be computed and imposed from time to time on the outstanding balance means that there is no specific amount financed for the plan for which the finance charge, total of payments, and payment schedule can be calculated. A plan may meet the definition of open-end credit even though a finance charge is not normally imposed, provided the creditor has the right, under the plan, to impose a finance charge from time to time on the outstanding balance. For example, in some plans, a finance charge is not imposed if the consumer pays all or a specified portion of the outstanding balance within a given time period. Such a plan could meet the finance charge criterion, if the creditor has the right to impose a finance charge, even though the consumer actually pays no finance charges during the existence of the plan because the consumer takes advantage of the option to pay the balance (either in full or in installments) within the time necessary to avoid finance charges.

5. Reusable line. The total amount of credit that may be extended during the existence of an open-end plan is unlimited because available credit is generally replenished as earlier advances are repaid. A line of credit is self-replenishing even though the plan itself has a fixed expiration date, as long as during the plan’s existence the consumer may use the line, repay, and reuse the credit. The creditor may occasionally or routinely verify credit information such as the consumer’s continued income and employment status or information for security purposes but, to meet the definition of open-end credit, such verification of credit information may not be done as a condition of granting the consumer’s request for a particular advance under the plan. In general, a credit line is self-replenishing if the consumer can take further advances as outstanding balances are repaid without being required to separately apply for those additional advances. A credit card account where the plan as a whole replenishes meets the self-replenishing criterion, notwithstanding the fact that a credit card issuer may verify credit information from time to time in connection with specific transactions. This criterion of unlimited credit distinguishes open-end credit from a series of advances made pursuant to a closed-end credit loan commitment. For example:

i. Under a closed-end commitment, the creditor might agree to lend a total of $10,000 in a series of advances as needed by the consumer. When a consumer has borrowed the full $10,000, no more is advanced under that particular agreement, even if there has been repayment of a portion of the debt. (See §226.2(a)(17)(iv) for disclosure requirements when a credit card is used to obtain the advances.)

ii. This criterion does not mean that the creditor must establish a specific credit limit for the line of credit or that the line of credit must always be replenished to its original amount. The creditor may reduce a credit limit or refuse to extend new credit in a particular case due to changes in the creditor’s financial condition or the consumer’s creditworthiness. (The rules in §226.5b(f), however, limit the ability of a creditor to suspend credit advances for home equity plans.) While consumers should have a reasonable expectation of obtaining credit as long as they remain current and within any preset credit limits, further extensions of credit need not be an absolute right in order for the plan to meet the self-replenishing criterion.

6. Verifications of collateral value. Creditors that otherwise meet the requirements of §226.2(a)(20) extend open-end credit notwithstanding the fact that the creditor must verify collateral values to comply with federal, state, or other applicable law or verifies the value of collateral in connection with a particular advance under the plan.

7. Open-end real estate mortgages. Some credit plans call for negotiated advances under so-called open-end real estate mortgages. Each such plan must be independently measured against the definition of open-end credit, regardless of the terminology used in the industry to describe the plan. The fact that a particular plan is called an open-end real estate mortgage, for example, does not, by itself, mean that it is open-end credit under the regulation.

2(a)(21) Periodic rate.

1. Basis. The periodic rate may be stated as a percentage (for example,.15% per month) or as a decimal equivalent (for example, .015 monthly). It may be based on any portion of a year the creditor chooses. Some creditors use 1⁄360 of an annual rate as their periodic rate. These creditors:

i. May disclose a 1⁄360 rate as a daily periodic rate, without further explanation, if it is in fact only applied 360 days per year. But if the creditor applies that rate for 365 days, the creditor must note that fact and, of
course, disclose the true annual percentage rate.

ii. Would have to apply the rate to the balance to disclose the annual percentage rate with the degree of accuracy required in the regulation (that is, within 1/10 of 1 percentage point of the rate based on the actual 365 days in the year).

2. Transaction charges. Periodic rate does not include initial one-time transaction charges, even if the charge is computed as a percentage of the transaction amount.

2(a)(22) Person.

1. Joint ventures. A joint venture is an organization and is therefore a person.

2. Attorneys. An attorney and his or her client are considered to be the same person for purposes of this regulation when the attorney is acting within the scope of the attorney-client relationship with regard to a particular transaction.

3. Trusts. A trust and its trustee are considered to be the same person for purposes of this regulation.

2(a)(23) Prepaid finance charge.

1. General. Prepaid finance charges must be taken into account under §226.18(b) in computing the disclosed amount financed, and must be disclosed if the creditor provides an itemization of the amount financed under §226.18(c).

2. Examples.

i. Common examples of prepaid finance charges include:
   A. Buyer’s points.
   B. Service fees.
   C. Loan fees.
   D. Finder’s fees.
   E. Loan-guarantee insurance.
   F. Credit-investigation fees.

ii. However, in order for these or any other finance charges to be considered prepaid, they must be either paid separately in cash or check or withheld from the proceeds. Prepaid finance charges include any portion of the finance charge paid prior to or at closing or settlement.

3. Exclusions. Add-on and discount finance charges are not prepaid finance charges for purposes of this regulation. Finance charges are not prepaid merely because they are precomputed, whether or not a portion of the charge will be rebated to the consumer upon prepayment. (See the commentary to §226.18(b).)

4. Allocation of lump-sum payments. In a credit sale transaction involving a lump-sum payment by the consumer and a discount or other item that is a finance charge under §226.6, the discount or other item is a prepaid finance charge to the extent the lump-sum payment is not applied to the cash price. For example, a seller sells property to a consumer for $10,000, requires the consumer to pay $3,000 at the time of the purchase, and finances the remainder as a closed-end credit transaction. The cash price of the property is $7,000. The seller is the creditor in the transaction and therefore the $3,000 difference between the credit and cash prices (the discount) is a finance charge. (See the commentary to §226.4(b)(9) and (c)(5).) If the creditor applies the entire $3,000 lump-sum payment as a downpayment and the discount is not a prepaid finance charge. However, if the creditor only applies $2,000 of the lump-sum payment to the cash price, then $2,000 of the $3,000 is a downpayment and the $1,000 discount is a prepaid finance charge.

2(a)(24) Residential mortgage transaction.

1. Relation to other sections. This term is important in five provisions in the regulation:

i. Section 226.4(c)(7)—exclusions from the finance charge.

ii. Section 226.15(f)—exemption from the right of rescission.

iii. Section 226.18(q)—whether or not the obligation is assumable.

iv. Section 226.20(b)—disclosure requirements for assumptions.

v. Section 226.23(f)—exemption from the right of rescission.

2. Lien status. The definition is not limited to first lien transactions. For example, a consumer might assume a paid-down first mortgage (or borrow part of the purchase price) and borrow the balance of the purchase price from a creditor who takes a second mortgage. The second mortgage transaction is a residential mortgage transaction if the dwelling purchased is the consumer’s principal residence.

3. Principal dwelling. A consumer can have only one principal dwelling at a time. Thus, a vacation or other second home would not be a principal dwelling. However, if a consumer buys or builds a new dwelling that will become the consumer’s principal dwelling during a year or upon the completion of construction, the new dwelling is considered the principal dwelling for purposes of applying this definition to a particular transaction. (See the commentary to §§226.15(a) and 226.23(a).)

4. Construction financing. If a transaction meets the definition of a residential mortgage transaction and the creditor chooses to disclose it as several transactions under §226.17(c)(6), each one is considered to be a residential mortgage transaction, even if different creditors are involved. For example:

i. The creditor makes a construction loan to finance the initial construction of the consumer’s principal dwelling, and the loan will be disbursed in five advances. The creditor gives six sets of disclosures (five for the construction phase and one for the permanent phase). Each one is a residential mortgage transaction.

ii. One creditor finances the initial construction of the consumer’s principal dwelling and another creditor makes a loan to
satisfy the construction loan and provide permanent financing. Both transactions are residential mortgage transactions.

5. Acquisition. i. A residential mortgage transaction is the acquisition of a consumer’s principal dwelling. The term does not include a transaction involving a consumer’s principal dwelling if the consumer had previously purchased and acquired some interest to the dwelling, even though the consumer had not acquired full legal title.

ii. Examples of new transactions involving a previously acquired dwelling include the financing of a balloon payment due under a land sale contract and an extension of credit made to a joint owner of property to buy out the other joint owner’s interest. In these instances, disclosures are not required under §226.18(q) (assumability policies). However, the rescission rules of §§226.15 and 226.23 do apply to these new transactions.

iii. In other cases, the disclosure and rescission rules do not apply. For example, where a buyer enters into a written agreement with the creditor holding the seller’s mortgage, allowing the buyer to assume the mortgage, if the buyer had previously purchased the property and agreed with the seller to make the mortgage payments, §226.20(b) does not apply (assumptions involving residential mortgages).

6. Multiple purpose transactions. A transaction meets the definition of this section if any part of the loan proceeds will be used to finance the acquisition or initial construction of the consumer’s principal dwelling. For example, a transaction to finance the initial construction of the consumer’s principal dwelling is a residential mortgage transaction even if a portion of the funds will be disbursed directly to the consumer or used to satisfy a loan for the purchase of the land on which the dwelling will be built.

7. Construction on previously acquired vacant land. A residential mortgage transaction includes a loan to finance the construction of a consumer’s principal dwelling on a vacant lot previously acquired by the consumer.

1. Threshold test. The threshold test is whether a particular interest in property is recognized as a security interest under applicable law. The regulation does not determine whether a particular interest is a security interest under applicable law. If the creditor is unsure whether a particular interest is a security interest under applicable law (for example, if statutes and case law are either silent or inconclusive on the issue), the creditor may at its option consider such interests as security interests for Truth in Lending purposes. However, the regulation and the commentary do exclude specific interests, such as after-acquired property and accessories, from the scope of the definition regardless of their categorization under applicable law, and these named exclusions may not be disclosed as security interests under the regulation. (But see the discussion of exclusions elsewhere in the commentary to §226.2(a)(25).)

2. Exclusions. The general definition of security interest excludes three groups of interests: incidental interests, interests in after-acquired property, and interests that arise solely by operation of law. These interests may not be disclosed with the disclosures required under §226.18, but the creditor is not precluded from preserving these rights elsewhere in the contract documents, or invoking and enforcing such rights, if it is otherwise lawful to do so. If the creditor is unsure whether a particular interest is one of the excluded interests, the creditor may, at its option, consider such interests as security interests for Truth in Lending purposes.

3. Incidental interests. i. Incidental interests in property that are not security interests include, among other things:

A. Assignment of rents.
B. Right to condemnation proceeds.
C. Interests in accessories and replacements.
D. Interests in escrow accounts, such as for taxes and insurance.
E. Waiver of homestead or personal property rights.

ii. The notion of an incidental interest does not encompass an explicit security interest in an insurance policy if that policy is the primary collateral for the transaction—for example, in an insurance premium financing transaction.

4. Operation of law. Interests that arise solely by operation of law are excluded from the general definition. Also excluded are interests arising by operation of law that are merely repeated or referred to in the contract. However, if the creditor has an interest that arises by operation of law, such as a vendor’s lien, and takes an independent security interest in the same property, such as a UCC security interest, the latter interest is a disclosable security interest unless otherwise provided.

5. Rescission rules. Security interests that arise solely by operation of law are security interests for purposes of rescission. Examples of such interests are mechanics’ and materialmen’s liens.

6. Specificity of disclosure. A creditor need not separately disclose multiple security interests that it may hold in the same collateral. The creditor need only disclose that the transaction is secured by the collateral, even when security interests from prior transactions remain of record and a new security interest is taken in connection with the transaction. In disclosing the fact that the transaction is secured by the collateral, the creditor also need not disclose how the security interest arose. For example, in a closed-end credit transaction, a rescission notice.
need not specifically state that a new security interest is “acquired” or an existing security interest is “retained” in the transaction. The acquisition or retention of a security interest in the consumer’s principal dwelling instead may be disclosed in a rescission notice with a general statement such as the following: “Your home is the security for the new transaction.”

2(b) Rules of construction.

1. Footnotes. Footnotes are used extensively in the regulation to provide special exceptions and more detailed explanations and examples. Material that appears in a footnote has the same legal weight as material in the body of the regulation.

2. Amount. The numerical amount must be a dollar amount unless otherwise indicated. For example, in a closed-end transaction (Subpart C), the amount financed and the amount of any payment must be expressed as a dollar amount. In some cases, an amount should be expressed as a percentage. For example, in disclosures provided before the first transaction under an open-end plan (Subpart B), creditors are permitted to explain how the amount of any finance charge will be determined; where a cash-advance fee (which is a finance charge) is a percentage of each cash advance, the amount of the finance charge for that fee is expressed as a percentage.

Section 226.3—Exempt Transactions

1. Relationship to § 226.12. The provisions in § 226.12(a) and (b) governing the issuance of credit cards and the limitations on liability for their unauthorized use apply to all credit cards, even if the credit cards are issued for personal purposes. The provisions do not apply to consumer-purpose extensions of credit using a business-purpose credit card.

i. Business-purpose credit cards—extensions of credit for consumer purposes. If a business-purpose credit card is issued to a person, the provisions of the regulation do not apply, other than as provided in §§ 226.12(a) and 226.12(b), even if extensions of credit for consumer purposes are occasionally made using that business-purpose credit card. For example, the billing error provisions set forth in § 226.13 do not apply to consumer-purpose extensions of credit using a business-purpose credit card.

ii. Consumer-purpose credit cards—extensions of credit for business purposes. If a consumer-purpose credit card is issued to a person, the provisions of the regulation apply, even to occasional extensions of credit for business purposes made using that consumer-purpose credit card. For example, a consumer may assert a billing error with respect to any extension of credit using a consumer-purpose credit card, even if the specific extension of credit on such credit card or open-end credit plan that is the subject of the dispute was made for business purposes.

3. Factors. In determining whether credit to finance an acquisition—such as securities, antiques, or art—is primarily for business or commercial purposes (as opposed to a consumer purpose), the following factors should be considered:

i. General.

A. The relationship of the borrower’s primary occupation to the acquisition. The more closely related, the more likely it is to be business purpose.

B. The degree to which the borrower will personally manage the acquisition. The more personal involvement there is, the more likely it is to be business purpose.

C. The ratio of income from the acquisition to the total income of the borrower. The higher the ratio, the more likely it is to be business purpose.

D. The size of the transaction. The larger the transaction, the more likely it is to be business purpose.

E. The borrower’s statement of purpose for the loan.

ii. Business-purpose examples. Examples of business-purpose credit include:

A. A loan to expand a business, even if it is secured by the borrower’s residence or personal property.

B. A loan to improve a principal residence by putting in a business office.

C. A business account used occasionally for consumer purposes.

iii. Consumer-purpose examples. Examples of consumer-purpose credit include:

A. Credit extensions by a company to its employees or agents if the loans are used for personal purposes.

B. A loan secured by a mechanic’s tools to pay a child’s tuition.

C. A personal account used occasionally for business purposes.

4. Non-owner-occupied rental property. Credit extended to acquire, improve, or maintain rental property (regardless of the number of housing units) that is not owner-occupied is deemed to be for business purposes. This includes, for example, the acquisition of a warehouse that will be leased or a single-family house that will be rented to another...
person to live in. If the owner expects to occupy the property for more than 14 days during the coming year, the property cannot be considered non-owner-occupied and this special rule does not apply. For example, a beach house that the owner will occupy for a month in the coming summer and rent out the rest of the year is owner occupied and is not governed by this special rule. (See comment 3(a)-5, however, for rules relating to owner-occupied rental property.)

5. Owner-occupied rental property. If credit is extended to acquire, improve, or maintain rental property that is or will be owner-occupied within the coming year, different rules apply:
   i. Credit extended to acquire the rental property is deemed to be for business purposes if it contains more than 2 housing units.
   ii. Credit extended to improve or maintain the rental property is deemed to be for business purposes if it contains more than 4 housing units. Since the amended statute defines dwelling to include 1 to 4 housing units, this rule preserves the right of rescission for credit extended for purposes other than acquisition. Neither of these rules means that an extension of credit for property containing fewer than the requisite number of units is necessarily consumer credit. In such cases, the determination of whether it is business or consumer credit should be made by considering the factors listed in comment 3(a)-3.

6. Business credit later refinanced. Business-purpose credit that is exempt from the regulation may later be rewritten for consumer purposes. Such a transaction is consumer credit requiring disclosures only if the existing obligation is satisfied and replaced by a new obligation made for consumer purposes undertaken by the same obligor.

7. Credit card renewal. A consumer-purpose credit card that is subject to the regulation may be converted into a business-purpose credit card at the time of its renewal, and the resulting business-purpose credit card would be exempt from the regulation. Conversely, a business-purpose credit card that is exempt from the regulation may be converted into a consumer-purpose credit card at the time of its renewal, and the resulting consumer-purpose credit card would be subject to the regulation.

8. Agricultural purpose. An agricultural purpose includes the planting, propagating, nurturing, harvesting, catching, storing, exhibiting, marketing, transporting, processing, or manufacturing of food, beverages (including alcoholic beverages), flowers, trees, livestock, poultry, bees, wildlife, fish, or shellfish by a natural person engaged in farming, fishing, or growing crops, flowers, trees, livestock, poultry, bees, or wildlife. The exemption applies to a transaction involving real property that includes a dwelling (for example, the purchase of a farm with a homestead) if the transaction is primarily for agricultural purposes.

9. Organizational credit. The exemption for transactions in which a natural person applies, for example, to loans to corporations, partnerships, associations, churches, unions, and fraternal organizations. The exemption applies regardless of the purpose of the credit extension and regardless of the fact that a natural person may guarantee or provide security for the credit.

10. Land trusts. Credit extended for consumer purposes to a land trust is considered to be credit extended to a natural person rather than credit extended to an organization. In some jurisdictions, a financial institution financing a residential real estate transaction for an individual uses a land trust mechanism. Title to the property is conveyed to the land trust for which the financial institution is trustee. The underlying installment note is executed by the financial institution in its capacity as trustee and payment is secured by a trust deed, reflecting title in the financial institution as trustee. In some instances, the consumer executes a personal guaranty of the indebtedness. The note provides that it is payable only out of the property specifically described in the trust deed and that the trustee has no personal liability on the note. Assuming the transactions are for personal, family, or household purposes, these transactions are subject to the regulation since in substance (if not form) consumer credit is being extended.

3(b) Credit over $25,000 not secured by real property or a dwelling.

1. Coverage. Since a mobile home can be a dwelling under § 226.2(a)(19), this exemption does not apply to a credit extension secured by a mobile home used or expected to be used as the principal dwelling of the consumer, even if the credit exceeds $25,000. A loan commitment for closed-end credit in excess of $25,000 is exempt even though the amounts actually drawn never actually reach $25,000.

2. Open-end credit. i. An open-end credit plan is exempt under §226.3(b) (unless secured by real property or personal property used or expected to be used as the consumer's principal dwelling) if either of the following conditions is met:
   A. The creditor makes a firm commitment to lend over $25,000 with no requirement of additional credit information for any advance (except as permitted from time to time pursuant to §226.2(a)(20)).
   B. The initial extension of credit on the line exceeds $25,000.
   ii. If a security interest is taken at a later time in any real property, or in personal property used or expected to be used as the consumer's principal dwelling, the plan would no longer be exempt. The creditor
must comply with all of the requirements of the regulation including, for example, providing the consumer with an initial disclosure statement. If the security interest being added is in the consumer's principal dwelling, the creditor must also give the consumer the right to rescind the security interest. (See the commentary to §226.15 concerning the right of rescission.)

3. Closed-end credit-subsequent changes. A closed-end loan for over $25,000 may later be rewritten for $25,000 or less, or a security interest in real property or in personal property used or expected to be used as the consumer's principal dwelling may be added to an extension of credit for over $25,000. Such a transaction is consumer credit requiring disclosures only if the existing obligation is satisfied and replaced by a new obligation made for consumer purposes undertaken by the same obligor. (See the commentary to §226.23(a)(1) regarding the right of rescission when a security interest in a consumer's principal dwelling is added to a previously exempt transaction.)

3(c) Public utility credit.
1. Examples. Examples of public utility services include:
   i. General.
      A. Gas, water, or electrical services.
      B. Cable television services.
      C. Installation of new sewer lines, water lines, conduits, telephone poles, or metering equipment in an area not already serviced by the utility.
   ii. Extensions of credit not covered. The exemption does not apply to extensions of credit, for example:
      A. To purchase appliances such as gas or electric ranges, grills, or telephones.
      B. To finance home improvements such as new heating or air conditioning systems.
   3(d) Securities or commodities accounts.
   1. Coverage. This exemption does not apply to a transaction with a broker registered solely with the state, or to a separate credit extension in which the proceeds are used to purchase securities.
   3(e) Home fuel budget plans.
   1. Definition. Under a typical home fuel budget plan, the fuel dealer estimates the total cost of fuel for the season, billing the customer for an average monthly payment, and makes an adjustment in the final payment for any difference between the estimated and the actual cost of the fuel. Fuel is delivered as needed, no finance charge is assessed, and the customer may withdraw from the plan at any time. Under these circumstances, the arrangement is exempt from the regulation, even if a charge to cover the billing costs is imposed.
   3(f) Student loan programs.
   1. Coverage. This exemption applies to the Guaranteed Student Loan program (administered by the Federal government, State, and private non-profit agencies), the Auxiliary Loans to Assist Students (also known as PLUS) program, and the National Direct Student Loan program.

Section 226.4—Finance Charge

4(a) Definition.
1. Charges in comparable cash transactions. Charges imposed uniformly in cash and credit transactions are not finance charges. In determining whether an item is a finance charge, the creditor should compare the credit transaction in question with a similar cash transaction. A credit or financing the sale of property or services may compare charges with those payable in a similar cash transaction by the seller of the property or service.
   i. For example, the following items are not finance charges:
      A. Taxes, license fees, or registration fees paid by both cash and credit customers.
      B. Discounts that are available to cash and credit customers, such as quantity discounts.
      C. Discounts available to a particular group of consumers because they meet certain criteria, such as being members of an organization or having accounts at a particular financial institution. This is the case even if an individual must pay cash to obtain the discount, provided that credit customers who are members of the group and do not qualify for the discount pay no more than the nonmember cash customers.
      D. Charges for a service policy, auto club membership, or policy of insurance against latent defects offered to or required of both cash and credit customers for the same price.
   ii. In contrast, the following items are finance charges:
      A. Inspection and handling fees for the staged disbursement of construction-loan proceeds.
      B. Fees for preparing a Truth in Lending disclosure statement, if permitted by law (for example, the Real Estate Settlement Procedures Act prohibits such charges in certain transactions secured by real property).
      C. Charges for a required maintenance or service contract imposed only in a credit transaction.
   iii. If the charge in a credit transaction exceeds the charge imposed in a comparable cash transaction, only the difference is a finance charge. For example:
      A. If an escrow agent is used in both cash and credit sales of real estate and the agent's charge is $100 in a cash transaction and $350 in a credit transaction, only $250 is a finance charge.
      B. Costs of doing business. Charges absorbed by the creditor as a cost of doing business are not finance charges, even though the creditor may take such costs into consideration in determining the interest rate to be charged or the cash price of the property or
service sold. However, if the creditor separately imposes a charge on the consumer to cover certain costs, the charge is a finance charge if it otherwise meets the definition. For example:

i. A discount imposed on a credit obligation when it is assigned by a seller-creditor to another party is not a finance charge as long as the discount is not separately imposed on the consumer. (See §226.4(b)(6).

ii. A tax imposed by a state or other governmental body on a creditor is not a finance charge if the creditor absorbs the tax as a cost of doing business and does not separately impose the tax on the consumer. (For additional discussion of the treatment of taxes, see other commentary to §226.4(a)).

3. Forfeitures of interest. If the creditor reduces the interest rate it pays or stops paying interest on the consumer's deposit account or any portion of it for the term of a credit transaction (including, for example, an overdraft on a checking account or a loan secured by a certificate of deposit), the interest lost is a finance charge. (See the commentary to §226.4(c)(6)). For example:

i. A consumer borrows $5,000 for 90 days and secures it with a $10,000 certificate of deposit paying 15% interest. The creditor charges the consumer an interest rate of 6% on the loan and stops paying interest on $5,000 of the $10,000 certificate for the term of the loan. The interest lost is a finance charge and must be reflected in the annual percentage rate on the loan.

ii. However, the consumer must be entitled to the interest that is not paid in order for the lost interest to be a finance charge. For example:

A. A consumer wishes to buy from a financial institution a $10,000 certificate of deposit paying 15% interest but has only $4,000. The financial institution offers to lend the consumer $6,000 at an interest rate of 6% but will pay the 15% interest only on the amount of the consumer's deposit, $4,000. The creditor's failure to pay interest on the $6,000 does not result in an additional finance charge on the extension of credit, provided the consumer is entitled by the deposit agreement with the financial institution to interest only on the amount of the consumer's deposit.

B. A consumer enters into a combined time deposit/credit agreement with a financial institution that establishes a time deposit account and an open-end line of credit. The line of credit may be used to borrow against the funds in the time deposit. The agreement provides for an interest rate on any credit extension of, for example, 1%. In addition, the agreement states that the creditor will pay 0% interest on the amount of the time deposit that corresponds to the amount of the credit extension(s). The interest that is not paid on the time deposit by the financial institution is not a finance charge (and therefore does not affect the annual percentage rate computation).

4. Treatment of transaction fees on credit card plans. Any transaction charge imposed on a cardholder by a card issuer is a finance charge, regardless of whether the issuer imposes the same, greater, or lesser charge on withdrawals of funds from an asset account such as a checking or savings account. For example:

i. Any charge imposed on a credit cardholder by a card issuer for the use of an automated teller machine (ATM) to obtain a cash advance (whether in a proprietary, shared, interchange, or other system) is a finance charge regardless of whether the card issuer imposes a charge on its debit cardholders for using the ATM to withdraw cash from a consumer asset account, such as a checking or savings account.

ii. Any charge imposed on a credit cardholder for making a purchase or obtaining a cash advance outside the United States, with a foreign merchant, or in a foreign currency is a finance charge, regardless of whether a charge is imposed on debit cardholders for such transactions. The following principles apply in determining what is a foreign transaction fee and the amount of the fee:

A. Included are fees imposed when transactions are made in a foreign currency and converted to U.S. dollars; fees imposed when transactions are made in U.S. dollars outside the U.S.; and fees imposed when transactions are made (whether in a foreign currency or in U.S. dollars) with a foreign merchant, such as via a merchant’s Web site. For example, a consumer may use a credit card to make a purchase in Bermuda, in U.S. dollars, and the card issuer may impose a fee because the transaction took place outside the United States.

B. Included are fees imposed by the card issuer and fees imposed by a third party that performs the conversion, such as a credit card network or the card issuer’s corporate parent. If, for example, in a transaction processed through a credit card network, the network may impose a 1 percent charge and the card-issuing bank may impose an additional 2 percent charge, for a total of a 3 percentage point foreign transaction fee being imposed on the consumer.

C. Fees imposed by a third party are included only if they are directly passed on to the consumer. For example, if a credit card network imposes a 1 percent fee on the card issuer, but the card issuer absorbs the fee as a cost of doing business (and only passes it on to consumers in the general sense that the interest and fees are imposed on all its customers to recover its costs), then the fee is not a foreign transaction fee and need not be disclosed. In another example, if the credit card network imposes a 1 percent fee for a foreign transaction on the card issuer, and the card issuer imposes this same fee on the
consumer who engaged in the foreign transaction, then the fee is a foreign transaction fee and a finance charge.

D. A card issuer is not required to disclose a fee imposed by a merchant. For example, if the merchant itself performs the currency conversion and adds a fee, this fee need not be disclosed by the card issuer. Under §226.9(d), a card issuer is not obligated to disclose finance charges imposed by a party honoring a credit card, such as a merchant, although the merchant is required to disclose such a finance charge if the merchant is subject to the Truth in Lending Act and Regulation Z.

E. The foreign transaction fee is determined by first calculating the dollar amount of the transaction by using a currency conversion rate outside the card issuer’s and third party’s control. Any amount in excess of that dollar amount is a foreign transaction fee. Conversion rates outside the card issuer’s and third party’s control include, for example, a rate selected from a range of rates available in the wholesale currency exchange markets, an average of the highest and lowest rates available in such markets, or a government-mandated or government-managed exchange rate (or a rate selected from a range of such rates).

F. The rate used for a particular transaction need not be the same rate that the card issuer (or third party) itself obtains in its currency conversion operations. In addition, the rate used for a particular transaction need not be the rate in effect on the date of the transaction (purchase or cash advance).

5. Taxes.
   i. Generally, a tax imposed by a state or other governmental body solely on a creditor is a finance charge if the creditor separately imposes the charge on the consumer.
   ii. In contrast, a tax is not a finance charge (even if it is collected by the creditor) if applicable law imposes the tax:
      A. Solely on the consumer;
      B. On the creditor and the consumer jointly.
   C. On the credit transaction, without indicating which party is liable for the tax; or
   D. On the creditor, if applicable law directs or authorizes the creditor to pass the tax on to the consumer. (For purposes of this section, if applicable law is silent as to passing on the tax, the law is deemed not to authorize passing it on.)
   iii. For example, a stamp tax, property tax, intangible tax, or any other state or local tax imposed on the consumer, or on the credit transaction, is not a finance charge even if the tax is collected by the creditor.
   iv. In addition, a tax is not a finance charge if it is excluded from the finance charge by another provision of the regulation or commentary (for example, if the tax is imposed uniformly in cash and credit transactions).

4(a)(1) Charges by third parties.
1. Choosing the provider of a required service. An example of a third-party charge included in the finance charge is the cost of required mortgage insurance, even if the consumer is allowed to choose the insurer.
2. Annuities associated with reverse mortgages. Some creditors offer annuities in connection with a reverse-mortgage transaction. The amount of the premium is a finance charge if the creditor requires the purchase of the annuity incident to the credit. Examples include the following:
   i. The credit documents reflect the purchase of an annuity from a specific provider or providers.
   ii. The creditor assesses an additional charge on consumers who do not purchase an annuity from a specific provider.
   iii. The annuity is intended to replace in whole or in part the creditor’s payments to the consumer either immediately or at some future date.

4(a)(2) Special rule; closing agent charges.
1. General. This rule applies to charges by a third party serving as the closing agent for the particular loan. An example of a closing agent charge included in the finance charge is a courier fee where the creditor requires the use of a courier.
2. Required closing agent. If the creditor requires the use of a closing agent, fees charged by the closing agent are included in the finance charge only if the creditor requires the particular service, requires the imposition of the charge, or retains a portion of the charge. Fees charged by a third-party closing agent may be otherwise excluded from the finance charge under §226.4. For example, a fee that would be paid in a comparable cash transaction may be excluded under §226.4(a). A charge for conducting or attending a closing is a finance charge and may be excluded only if the charge is included in and is incidental to a lump-sum fee excluded under §226.4(c)(7).

4(a)(3) Special rule; mortgage broker fees.
1. General. A fee charged by a mortgage broker is excluded from the finance charge if it is the type of fee that is also excluded when charged by the creditor. For example, to exclude an application fee from the finance charge under §226.4(c)(1), a mortgage broker must charge the fee to all applicants for credit, whether or not credit is extended.
2. Coverage. This rule applies to charges paid by consumers to a mortgage broker in connection with a consumer credit transaction secured by real property or a dwelling.
3. Compensation by lender. The rule requires all mortgage broker fees to be included in the finance charge. Creditors sometimes
compensate mortgage brokers under a separate arrangement with those parties. Creditors may draw on amounts paid by the consumer, such as points or closing costs, to fund a payment to the broker. Compensation paid by a creditor to a mortgage broker under an agreement is not included as a separate component of a consumer’s total finance charge. However, if compensation is reflected in the finance charge if it comes from amounts paid by the consumer to the creditor that are finance charges, such as points and interest).

4(b) Examples of finance charges.
1. Relationship to other provisions. Charges or fees shown as examples of finance charges in §226.4(b) may be excludable under §226.4(c), (d), or (e). For example:
   i. Premiums for credit life insurance, shown as an example of a finance charge under §226.4(b)(7), may be excluded if the requirements of §226.4(d)(1) are met.
   ii. Appraisal fees mentioned in §226.4(b)(4) are excluded for real property or residential mortgage transactions under §226.4(c)(7).

Paragraph 4(b)(2).
1. Checking account charges. A checking or transaction account charge imposed in connection with a credit feature is a finance charge under §226.4(b)(2) to the extent the charge exceeds the charge for a similar account without a credit feature. If a charge for an account with a credit feature does not exceed the charge for an account without a credit feature, the charge is not a finance charge under §226.4(b)(2). To illustrate:
   i. A $5 service charge is imposed on an account with an overdraft line of credit (where the institution has agreed in writing to pay an overdraft), while a $3 service charge is imposed on an account without a credit feature; the $2 difference is a finance charge. (If the difference is not related to account activity, however, it may be excludable as a participation fee. See the commentary to §226.4(c)(4).)
   ii. A $5 service charge is imposed for each item that results in an overdraft on an account with an overdraft line of credit, while a $25 service charge is imposed for paying or returning each item on a similar account without a credit feature; the $5 charge is not a finance charge.

Paragraph 4(b)(3).
1. Assumption fees. The assumption fees mentioned in §226.4(b)(3) are finance charges only when the assumption occurs and the fee is imposed on the new buyer. The assumption fee is a finance charge in the new buyer's transaction.

Paragraph 4(b)(5).
1. Credit loss insurance. Common examples of the insurance against credit loss mentioned in §226.4(b)(5) are mortgage guaranty insurance, holder in due course insurance, and repossession insurance. Such premiums must be included in the finance charge only for the period that the creditor requires the insurance to be maintained.
2. Residual value insurance. Where a creditor requires a consumer to maintain residual value insurance or where the creditor is a beneficiary of a residual value insurance policy written in connection with an extension of credit (as is the case in some forms of automobile balloon-payment financing, for example), the premiums for the insurance must be included in the finance charge for the period that the insurance is to be maintained. If a creditor pays for residual-value insurance and absorbs the payment as a cost of doing business, such costs are not considered finance charges. (See comment 4(a)–2.)

Paragraphs 4(b)(7) and (b)(8).
1. Pre-existing insurance policy. The insurance discussed in §226.4(b)(7) and (b)(8) does not include an insurance policy (such as a life or an automobile collision insurance policy) that is already owned by the consumer, even if the policy is assigned to or otherwise made payable to the creditor to satisfy an insurance requirement. Such a policy is not "written in connection with" the transaction, as long as the insurance was not purchased for use in that credit extension, since it was previously owned by the consumer.

2. Insurance written in connection with a transaction. Credit insurance sold before or after an open-end (not home-secured) plan is opened is considered "written in connection with a credit transaction." Insurance sold after consummation in closed-end credit transactions or after the opening of a home-equity plan subject to the requirements of §226.5b is not considered "written in connection with" the credit transaction if the insurance is written because of the consumer's default (for example, by failing to obtain or maintain required property insurance) or because the consumer requests insurance after consummation or the opening of a home-equity plan subject to the requirements of §226.5b (although credit-sale disclosures may be required for the insurance sold after consummation if it is financed).

3. Substitution of life insurance. The premium for a life insurance policy purchased and assigned to satisfy a credit life insurance requirement must be included in the finance charge, but only to the extent of the cost of the credit life insurance if purchased from the creditor or the actual cost of the policy (if that is less than the cost of the insurance available from the creditor). If the creditor does not offer the required insurance, the premium to be included in the finance charge is the cost of a policy of insurance of the type, amount, and term required by the creditor.

4. Other insurance. Fees for required insurance not of the types described in §226.4(b)(7) and (b)(8) are finance charges and are not excludable. For example:
i. The premium for a hospitalization insurance policy, if it is required to be purchased only in a credit transaction, is a finance charge.

Paragraph 4(b)(9).

1. Discounts for payment by other than credit. The discounts to induce payment by other than credit mentioned in §226.4(b)(9) include, for example, the following situation:

i. The seller of land offers individual tracts for $10,000 each. If the purchaser pays cash, the price is $9,000, but if the purchaser finances the tract with the seller the price is $10,000. The $1,000 difference is a finance charge for those who buy the tracts on credit.

2. Exception for cash discounts.

i. Creditors may exclude from the finance charge discounts offered to consumers for using cash or another means of payment instead of using a credit card or an open-end plan. The discount may be in whatever amount the seller desires, either as a percentage of the regular price (as defined in section 103(b) of the act, as amended) or a dollar amount. Pursuant to section 167(b) of the act, this provision applies only to transactions involving an open-end credit plan or a credit card (whether open-end or closed-end credit is extended on the card). The merchant must offer the discount to prospective buyers whether or not they are cardholders or members of the open-end credit plan. The merchant may, however, make other distinctions. For example:

A. The merchant may limit the discount to payment by check and not offer it for payment by check or by use of a debit card.

B. The merchant may establish a discount plan that allows a 15% discount for payment by cash, a 10% discount for payment by check, and a 5% discount for payment by a particular credit card. None of these discounts is a finance charge.

ii. Pursuant to section 171(c) of the act, discounts excluded from the finance charge under this paragraph are also excluded from treatment as a finance charge or other charge for credit under any state usury or disclosure laws.

3. Determination of the regular price.

i. The regular price is critical in determining whether the difference between the price charged to cash customers and credit customers is a discount or a surcharge, as these terms are defined in amended section 103 of the act. The regular price is defined in section 103 of the act as "* * * the tag or posted price charged for the property or service if a single price is tagged or posted, or the price charged for the property or service when payment is made by use of an open-end credit plan or a credit card if either (1) no price is tagged or posted, or (2) two prices are tagged or posted * * *.

ii. For example, in the sale of motor vehicle fuel, the tagged or posted price is the price displayed at the pump. As a result, the higher price (the open-end credit or credit card price) must be displayed at the pump, either alone or along with the cash price. Service station operators may designate separate pumps or separate islands as being for either cash or credit purchases and display only the appropriate prices at the various pumps. If a pump is capable of displaying on its meter either a cash or a credit price depending upon the consumer's means of payment, both the cash price and the credit price must be displayed at the pump. A service station operator may display the cash price of fuel by itself on a curb sign, as long as the sign clearly indicates that the price is limited to cash purchases.

4(b)(10) Debt cancellation and debt suspension fees.

1. Definition. Debt cancellation coverage provides for payment or satisfaction of all or part of a debt when a specified event occurs. The term "debt cancellation coverage" includes guaranteed automobile protection, or "GAP," agreements, which pay or satisfy the remaining debt after property insurance benefits are exhausted. Debt suspension coverage provides for suspension of the obligation to make one or more payments on the date(s) otherwise required by the credit agreement, when a specified event occurs. The term "debt suspension" does not include loan payment deferral arrangements in which the triggering event is the bank's unilateral decision to allow a deferral of payment and the borrower's unilateral election to do so, such as by skipping or reducing one or more payments ("skip payments").

2. Coverage written in connection with a transaction. Coverage sold after consummation in closed-end credit transactions or after the opening of a home-equity plan subject to the requirements of §226.5b is not "written in connection with" the credit transaction if the coverage is written because the consumer requests coverage after consummation or the opening of a home-equity plan subject to the requirements of §226.5b (although credit-sale disclosures may be required for the coverage sold after consummation if it is financed). Coverage sold before or after an open-end (not home-secured) plan is opened is considered "written in connection with a credit transaction.

4(c) Charges excluded from the finance charge.

Paragraph 4(c)(1).

1. Application fees. An application fee that is excluded from the finance charge is a charge to recover the costs associated with processing applications for credit. The fee may cover the costs of services such as credit reports, credit investigations, and appraisals. The creditor is free to impose the fee in only certain of its loan programs, such as mortgage loans. However, if the fee is to be excluded from the finance charge under...
§226.4(c)(1), it must be charged to all applicants, not just to applicants who are approved or who actually receive credit.

Paragraph 4(c)(2).

1. Late-payment charges.
   a. Late-payment charges can be excluded from the finance charge under §226.4(c)(2) whether or not the person imposing the charge continues to extend credit on the account or continues to provide property or services to the consumer. In determining whether a charge is for actual unanticipated late payment on a 30-day account, for example, factors to be considered include:
      1. The terms of the account. For example, is the consumer required by the account terms to pay the account balance in full each month? If not, the charge may be a finance charge.
   b. Practices of the creditor in handling the accounts. For example, regardless of the terms of the account, does the creditor allow consumers to pay the accounts over a period of time without demanding payment in full or taking other action to collect? If no effort is made to collect the full amount due, the charge may be a finance charge.
   c. Section 226.4(c)(2) applies to late-payment charges imposed for failure to make payments as agreed, as well as failure to pay an account in full when due.
   d. Other excluded charges. Charges for “delinquency, default, or a similar occurrence” include, for example, charges for reinstatement of credit privileges and for submitting as payment a check that is later returned unpaid.

Paragraph 4(c)(3).

1. Assessing interest on an overdraft balance.
   a. A charge on an overdraft balance computed by applying a rate of interest to the amount of the overdraft is not a finance charge, even though the consumer agrees to the charge in the account agreement, unless the financial institution agrees in writing that it will pay such items.

Paragraph 4(c)(4).

1. Participation fees—periodic basis. The participation fees described in §226.4(c)(4) do not necessarily have to be formal membership fees, nor are they limited to credit card plans. The provision applies to any credit plan in which payment of a fee is a condition of access to the plan itself, but it does not apply to fees imposed separately on individual closed-end transactions. The fee may be charged on a monthly, annual, or other periodic basis; a one-time, non-recurring fee imposed at the time an account is opened is not a fee that is charged on a periodic basis, and may not be treated as a participation fee.

Paragraph 4(c)(5).

2. Participation fees—exclusions. Minimum monthly charges, charges for non-use of a credit card, and other charges based on either account activity or the amount of credit available under the plan are not excluded from the finance charge by §226.4(c)(4). Thus, for example, a fee that is charged and then refunded to the consumer based on the extent to which the consumer uses the credit available would be a finance charge. (See the commentary to §226.4(b)(2). Also, see comment 14(c)-2 for treatment of certain types of fees excluded in determining the annual percentage rate for the periodic statement.)

Paragraph 4(c)(6).

1. Lost interest. Certain federal and state laws mandate a percentage differential between the interest rate paid on a deposit and the rate charged on a loan secured by that deposit. In some situations, because of usury limits the creditor must reduce the interest rate charged on the deposit and, as a result, the consumer loses some of the interest that would otherwise have been earned. Under §226.4(c)(6), such “lost interest” need not be included in the finance charge. This rule applies only to an interest reduction imposed because a rate differential is required by law and a usury limit precludes compliance by any other means. If the creditor imposes a differential that exceeds that required, only the lost interest attributable to the excess amount is a finance charge. (See the commentary to §226.4(a).)

Paragraph 4(c)(7).

1. Real estate or residential mortgage transaction charges. The list of charges in §226.4(c)(7) applies both to residential mortgage transactions (which may include, for example, the purchase of a mobile home) and to other transactions secured by real estate.
The fees are excluded from the finance charge even if the services for which the fees are imposed are performed by the creditor’s employees rather than by a third party. In addition, if the cost of verifying the transaction the information connected to the item is also excluded. For example, credit-report fees cover not only the cost of the report but also the cost of verifying the information connected to the item. In all cases, charges excluded under §226.4(c)(7) must be bona fide and reasonable.

2. Lump-sum charges. If a lump sum charged for several services includes a charge that is not excludable, a portion of the total should be allocated to that service and included in the finance charge. However, a lump sum charged for conducting or attending a closing (for example, by a lawyer or a title company) is excluded from the finance charge if the charge is primarily for services related to items listed in §226.4(c)(7) (for example, reviewing or completing documents), even if other incidental services such as explaining various documents or disbursing funds for the parties are performed. The entire charge is excluded even if a fee for the incidental services would be a finance charge if it were imposed separately.

3. Charges assessed during the loan term. Real estate or residential mortgage transaction charges excluded under §226.4(c)(7) are those charges imposed solely in connection with the initial decision to grant credit. This would include, for example, a fee to search for tax liens on the property or to determine if flood insurance is required. The exclusion does not apply to fees for services to be performed periodically during the loan term, regardless of when the fee is collected. For example, a fee for one or more determinations during the loan term of the current tax-lien status or flood-insurance requirements is a finance charge, regardless of whether the fee is imposed at closing, or when the service is performed. If a creditor is uncertain about what portion of a fee to be paid at consummation or loan closing is related to the initial decision to grant credit, the entire fee may be treated as a finance charge.

4. General. Section 226.4(d) permits insurance premiums and charges and debt cancellation and debt suspension disclosures to be excluded from the finance charge. The required disclosures must be made in writing, except as provided in §226.4(d)(4). The rules on insurance and debt cancellation and debt suspension disclosures for closed-end transactions are in §226.17(a). For purposes of §226.4(d), all references to insurance also include debt cancellation and debt suspension coverage unless the context indicates otherwise.

2. Timing of disclosures. If disclosures are given early, for example under §226.17(f) or §226.17(a), the creditor need not redisclose if the actual premium is different at the time of consummation. If insurance disclosures are not given at the time of early disclosure and insurance is in fact written in connection with the transaction, the cost under §226.4(d) must be made in order to exclude the premiums from the finance charge.

3. Premium rate increases. The creditor should disclose the premium amount based on the rates currently in effect and need not designate it as an estimate even if the premium rates may increase. An increase in insurance rates after consummation of a closed-end credit transaction or during the life of an open-end credit plan does not require redisclosure in order to exclude the additional premium from treatment as a finance charge.

4. Unit-cost disclosures.
   i. Open-end credit. The premium or fee for insurance or debt cancellation or debt suspension for the initial term of coverage may be disclosed on a unit-cost basis in open-end credit transactions. The cost per unit should be based on the initial term of coverage, unless one of the options under comment 4(d)-12 is available.
   ii. Closed-end credit. One of the transactions for which unit-cost disclosures (such as 50 cents per year for each $100 of the amount financed) may be used in place of the total insurance premium involves a particular kind of insurance plan. For example, a consumer with a current indebtedness of $8,000 is covered by a plan of credit life insurance coverage with a maximum of $10,000. The consumer requests an additional $4,000 loan to be covered by the same insurance plan. Since the $4,000 loan exceeds, in part, the maximum amount of indebtedness that can be covered by the plan, the creditor may properly give the insurance-cost disclosures on the $4,000 loan on a unit-cost basis.

5. Required credit life insurance, debt cancellation or suspension coverage. Credit life, accident, health, or loss-of-income insurance, and debt cancellation and suspension coverage described in §226.4(b)(10), must be voluntary in order for the premium or charges to be excluded from the finance charge. Whether the insurance or coverage is in fact required or optional is a factual question. If the insurance or coverage is required, the premiums must be included in the finance charge, whether the insurance or coverage is purchased from the creditor or from a third party. If the consumer is required to elect one of several options—such as to purchase credit life insurance, or to assign an existing life insurance policy, or to pledge security such as a certificate of deposit—and the consumer purchases the credit life insurance policy, the premium must be included in the finance charge. (If the consumer assigns a preexisting policy or pledges security instead, no premium is included in the finance charge. The security interest would be
disclosed under §226.6(a)(4), §226.6(b)(5)(ii), or §226.18(m). See the commentary to §226.4(b)(7) and (b)(8.).

6. Other types of voluntary insurance. Insurance is not credit life, accident, health, or loss-of-income insurance if the creditor or the credit account of the consumer is not the beneficiary of the insurance coverage. If the premiums for such insurance is not imposed by the creditor as an incident to or a condition of credit, it is not covered by §226.4.

7. Signatures. If the creditor offers a number of insurance options under §226.4(d), the creditor may provide a means for the consumer to sign or initial for each option, or it may provide for a single authorizing signature or initial with the options selected designated by some other means, such as a check mark. The insurance authorization may be signed or initialled by any consumer, as defined in §226.2a(11), or by an authorized user on a credit card account.

8. Property insurance. To exclude property insurance premiums or charges from the finance charge, the creditor must allow the consumer to choose the insurer and disclose that fact. This disclosure must be made whether or not the property insurance is available from or through the creditor. The requirement that an option be given does not require that the insurance be readily available from other sources. The premium or charge must be disclosed only if the consumer elects to purchase the insurance from the creditor; in such a case, the creditor must also disclose the term of the property insurance coverage if it is less than the term of the obligation.

9. Single-interest insurance. Blanket and specific single-interest coverage are treated the same for purposes of the regulation. A charge for either type of single-interest insurance may be excluded from the finance charge if:
   i. The insurer waives any right of subrogation.
   ii. The other requirements of §226.4(d)(2) are met. This includes, of course, giving the consumer the option of obtaining the insurance from a person of the consumer’s choice. The creditor need not ascertain whether the consumer is able to purchase the insurance from someone else.

10. Single-interest insurance defined. The term single-interest insurance as used in the regulation refers only to the types of coverage traditionally included in the term single-interest insurance (VSI), that is, protection of tangible property against normal property damage, concealment, confiscation, conversion, embezzlement, and skip. Some comprehensive insurance policies may include a variety of additional coverages, such as repossession insurance and holder-in-participation insurance. These types of coverage do not constitute single-interest insurance for purposes of the regulation, and premiums for them do not qualify for exclusion from the finance charge under §226.4(d). If a policy that is primarily VSI also provides other property insurance, a portion of the premiums must be allocated to the non-excludable coverages and included in the finance charge. However, such allocation is not required if the total premium in fact attributable to all of the non-VSI coverages included in the policy is $1.00 or less (or $5.00 or less in the case of a multiyear policy).

11. Initial term.
   i. The initial term of insurance or debt cancellation or debt suspension coverage determines the period for which a premium amount must be disclosed, unless one of the options discussed under comment 4(d)-12 is available. For purposes of §226.4(d), the initial term is the period for which the insurer or creditor is obligated to provide or continue coverage, even though the consumer may be allowed to cancel the coverage or coverage may end due to nonpayment before that term expires.
   ii. For example:
      A. The initial term of a property insurance policy on an automobile that is written for one year is one year even though premiums are paid monthly and the term of the credit transaction is four years.
      B. The initial term of an insurance policy is the full term of the credit transaction if the consumer pays or finances a single premium in advance.

12. Initial term; alternative.
   i. General. A creditor has the option of providing cost disclosures on the basis of one year of insurance or debt cancellation or debt suspension coverage instead of a longer initial term (provided the premium or fee is clearly labeled as being for one year) if:
      A. The initial term is indefinite or not clear, or
      B. The consumer has agreed to pay a premium or fee that is assessed periodically but the consumer is under no obligation to continue the coverage, whether or not the consumer has made an initial payment.
   ii. Open-end plans. For open-end plans, a creditor also has the option of providing unit-cost disclosure on the basis of a period that is less than one year if the consumer has agreed to pay a premium or fee that is assessed periodically, for example monthly, but the consumer is under no obligation to continue the coverage.
   iii. Examples. To illustrate:
      A. A credit life insurance policy providing coverage for a 30-year mortgage loan has an initial term of 30 years, even though premiums are paid monthly and the consumer is not required to continue the coverage. Disclosures may be based on the initial term, but the creditor also has the option of making disclosures on the basis of coverage for an assumed initial term of one year.
13. Loss-of-income insurance. The loss-of-income insurance mentioned in §226.4(d) includes involuntary unemployment insurance, which provides that some or all of the consumer's payments will be made if the consumer becomes unemployed involuntarily.

4(d)(3) Voluntary debt cancellation or debt suspension fees.

1. General. Fees charged for the specialized form of debt cancellation agreement known as guaranteed automobile protection ("GAP") agreements must be disclosed according to §226.4(d)(3) rather than according to §226.4(d)(2) for property insurance.

2. Disclosures. Creditors can comply with §226.4(d)(3) by providing a disclosure that refers to debt cancellation or debt suspension coverage whether or not the coverage is considered insurance. Creditors may use the model credit insurance disclosures only if the debt cancellation or debt suspension coverage constitutes insurance under state law. (See Model Clauses and Samples at G–16 and H–17 in Appendix G and Appendix H to part 226 for guidance on how to provide the disclosure required by §226.4(d)(3)(iii) for debt suspension products.)

3. Multiple events. If debt cancellation or debt suspension coverage for two or more events is provided at a single charge, the entire charge may be excluded from the finance charge if at least one of the events is accident or loss of life, health, or income and the conditions specified in §226.4(d)(3) or, as applicable, §226.4(d)(4), are satisfied.

4. Disclosures in programs combining debt cancellation and debt suspension features. If the consumer's debt can be cancelled under certain circumstances, the disclosure may be modified to reflect that fact. The disclosure could, for example, state (in addition to the language required by §226.4(d)(3)(iii)) that "In some circumstances, my debt may be cancelled." However, the disclosure would not be permitted to list the specific events that would result in debt cancellation.

4(d)(4) Telephone purchases.

1. Affirmative request. A creditor would not satisfy the requirement to obtain a consumer's affirmative request if the "request" was a response to a script that uses leading questions or negative consent. A question asking whether the consumer wishes to enroll in the credit insurance or debt cancellation or suspension plan and seeking a yes-or-no response (such as "Do you want to enroll in this optional debt cancellation plan?") would not be considered leading.

4(e) Certain security interest charges.

1. Examples.

i. Excludable charges. Sums must be actually paid to public officials to be excluded from the finance charge under §226.4(e)(1) and (e)(3). Examples are charges or other fees required for filing or recording security agreements, mortgages, continuation statements, termination statements, and similar documents, as well as intangible property or other taxes even when the charges or fees are imposed by the state solely on the creditor and charged to the consumer (if the tax must be paid to record a security agreement). (See comment 4(a)–5 regarding the treatment of taxes, generally.)

ii. Charges not excludable. If the obligation is between the creditor and a third party (an assignee, for example), charges or other fees for filing or recording security agreements, mortgages, continuation statements, termination statements, and similar documents relating to that obligation are not excludable from the finance charge under this section.

2. Itemization. The various charges described in §226.4(e)(1) and (e)(3) may be totaled and disclosed as an aggregate sum, or they may be itemized by the specific fees and taxes imposed. If an aggregate sum is disclosed, a general term such as security interest fees or filing fees may be used.

3. Notary fees. In order for a notary fee to be excluded under §226.4(e)(1), all of the following conditions must be met:

i. The document to be notarized is one used to perfect, release, or continue a security interest.

ii. The document is required by law to be notarized.

iii. A notary is considered a public official under applicable law.

iv. The amount of the fee is set or authorized by law.

4. Nonfiling insurance. The exclusion in §226.4(e)(2) is available only if nonfiling insurance is purchased. If the creditor collects and simply retains a fee as a sort of "self-insurance" against nonfiling, it may not be excluded from the finance charge. If the nonfiling insurance premium exceeds the amount of the fees excludable from the finance charge under §226.4(e)(1), only the excess is a finance charge. For example:

i. The fee for perfecting a security interest is $5.00 and the fee for releasing the security interest is $3.00. The creditor charges $10.00 for nonfiling insurance. Only $8.00 of the $10.00 is excludable from the finance charge.

4(f) Prohibited offsets.

1. Earnings on deposits or investments. The rule that the creditor shall not deduct any earnings by the consumer on deposits or investments applies whether or not the creditor has a security interest in the property.

SUBPART B—OPEN-END CREDIT

Section 226.5—General Disclosure Requirements

5(a) Form of disclosures.

5(a)(1) General.

1. Clear and conspicuous standard. The "clear and conspicuous" standard generally requires that disclosures be in a reasonably understandable form. Disclosures for credit card applications and solicitations under
§ 226.5a. Highlighted account-opening disclosures under § 226.6(b)(1), highlighted disclosure on checks that access a credit card account under § 226.9(b)(3); highlighted change-in-interest disclosures under § 226.6(c)(2)(iii)(B), and highlighted disclosures when a rate is increased due to delinquency, default or for a penalty under § 226.9(g)(3)(ii) must also be clear and conspicuous.

1. Clear and conspicuous—reasonably understandable form. Except where otherwise provided, the reasonably understandable form standard does not require that disclosures be segregated from other material or located in any particular place on the disclosure statement, or that numerical amounts or percentages be in any particular type size. For disclosures that are given orally, the standard requires that they be given at a speed and volume sufficient for a consumer to hear and comprehend them. (See comment 5(b)(1)(ii)-1.) Except where otherwise provided, the standard does not prohibit:
   i. Pluralizing required terminology ("finance charge" and "annual percentage rate").
   ii. Adding to the required disclosures such items as contractual provisions, explanations of contract terms, state disclosures, and translations.
   iii. Sending promotional material with the required disclosures.
   iv. Using commonly accepted or readily understandable abbreviations (such as "mo." for "month" or "Tx." for "Texas") in making any required disclosures.
   v. Using codes or symbols such as "APR" (for annual percentage rate), "FC" (for finance charge), or "Cr" (for credit balance), so long as a legend or description of the code or symbol is provided on the disclosure statement.

2. Clear and conspicuous—readily noticeable standard. To meet the readily noticeable standard, disclosures for credit card applications and solicitations under § 226.5a, highlighted account-opening disclosures under § 226.6(b)(1), highlighted disclosures on checks that access a credit card account under § 226.9(b)(3), highlighted change-in-interest disclosures under § 226.6(c)(2)(iii)(B), and highlighted disclosures when a rate is increased due to delinquency, default or penalty pricing under § 226.9(g)(3)(ii) must be given in a minimum of 10-point font. (See special rule for font size requirements for the annual percentage rate for purchases under §§ 226.5a(b)(1) and 226.6(b)(2)(i)).

4. Integrated document. The creditor may make both the account-opening disclosures (§226.6) and the periodic-statement disclosures (§226.7) on more than one page, and use both the front and the reverse sides, except where otherwise indicated, so long as the pages constitute an integrated document. An integrated document would not include disclosure pages provided to the consumer at different times or disclosures interspersed on the same page with promotional material. An integrated document would include, for example:
   i. Multiple pages provided in the same envelope that cover related material and are folded together, numbered consecutively, or clearly labeled to show that they relate to one another;
   ii. A brochure that contains disclosures and explanatory material about a range of services the creditor offers, such as credit, checking account, and electronic fund transfer features.

5. Disclosures covered. Disclosures that must meet the "clear and conspicuous" standard include all required communications under this subpart. Therefore, disclosures made by a person other than the card issuer, such as disclosures of finance charges imposed at the time of honoring a consumer's credit card under § 226.9(d), and notices, such as the correction notice required to be sent to the consumer under § 226.13(e), must also be clear and conspicuous.

1. Electronic disclosures. Disclosures that need not be provided in writing under § 226.5(a)(1)(ii)(A) may be provided in writing, orally, or in electronic form. If the consumer requests the service in electronic form, such as on the creditor's Web site, the specified disclosures may be provided in electronic form without regard to the consumer consent or other provisions of the Electronic Signatures in Global and National Commerce Act (E-Sign Act) (15 U.S.C. 7001 et seq.).

Paragraph 5(a)(1)(iii).

1. Disclosures not subject to E-Sign Act. See the commentary to §226.5(a)(1)(ii)(A) regarding disclosures (in addition to those specified under §226.5(a)(1)(ii)(A)) that may be provided in electronic form without regard to the consumer consent or other provisions of the E-Sign Act.

5(a)(2) Terminology.

1. When disclosures must be more conspicuous. For home-equity plans subject to §226.5b, the terms finance charge and annual percentage rate, when required to be used with a number, must be disclosed more conspicuously than other required disclosures, except in the cases provided in §226.5(a)(2)(i). At the creditor's option, finance charge and annual percentage rate may also be disclosed more conspicuously than the other required disclosures even when the regulation does not so require. The following examples illustrate these rules:
   i. In disclosing the annual percentage rate as required by §226.6(a)(1)(i), the term annual percentage rate is subject to the more conspicuous rule.
   ii. In disclosing the amount of the finance charge, required by §226.7(a)(6)(i), the term...
Federal Reserve System

Pt. 226, Supp. I, NI.

finance charge is subject to the more conspicuous rule.

iii. Although neither finance charge nor annual percentage rate need be emphasized when used as part of general informational material or in textual descriptions of other terms, emphasis is permissible in such cases. For example, when the terms appear as part of the explanations required under §226.6(a)(1)(ii) and (a)(1)(iv), they may be equally conspicuous as the disclosures required under §§226.6(a)(1)(ii) and 226.7(a)(7).

2. Making disclosures more conspicuous. In disclosing the terms finance charge and annual percentage rate more conspicuously for home-equity plans subject to §226.5b, only the words "finance charge" and annual percentage rate should be accentuated. For example, if the term total finance charge is used, only finance charge should be emphasized. The disclosures may be made more conspicuous by, for example:

i. Capitalizing the words when other disclosures are printed in lower case.

ii. Putting them in bold print or a contrasting color.

iii. Underlining them.

iv. Setting them off with asterisks.

v. Printing them in larger type.

3. Disclosure of figures—exception to more conspicuous rule. For home-equity plans subject to §226.5b, the terms annual percentage rate and finance charge need not be more conspicuous than figures (including, for example, numbers, percentages, and dollar signs).

4. Consistent terminology. Language used in disclosures required in this subpart must be close enough in meaning to enable the consumer to relate the different disclosures; however, the language need not be identical.

5(b) Time of disclosures.

5(b)(1) Account-opening disclosures.

5(b)(1)(i) General rule.

1. Disclosure before the first transaction. When disclosures must be furnished "before the first transaction," account-opening disclosures must be delivered before the consumer becomes obligated on the plan. Examples include:

i. Purchases. The consumer makes the first purchase, such as when a consumer opens a credit plan and makes purchases contemporaneously at a retail store, except when the retailer places a telephone call to make the purchase and opens the plan contemporaneously (see commentary to §226.5(b)(1)(ii) below).

ii. Advances. The consumer receives the first advance. If the consumer receives a cash advance check at the same time the account-opening disclosures are provided, disclosures are still timely if the consumer can, after receiving the disclosures, return the cash advance check to the creditor without obligation (for example, without paying finance charges).

2. Reactivation of suspended account. If an account is temporarily suspended (for example, because the consumer has exceeded a credit limit, or because a credit card is reported lost or stolen), and then is reactivated, no new account-opening disclosures are required.

3. Reopening closed account. If an account has been closed (for example, due to inactivity, cancellation, or expiration) and then is reopened, new account-opening disclosures are required. No new account-opening disclosures are required, however, when the account is closed merely to assign it a new number (for example, when a credit card is reported lost or stolen) and the "new" account then continues on the same terms.

4. Converting closed-end to open-end credit. If a closed-end credit transaction is converted to an open-end credit account under a written agreement with the consumer, account-opening disclosures under §226.6 must be given before the consumer becomes obligated on the open-end credit plan. (See the commentary to §226.17 on converting open-end credit to closed-end credit.)

5. Balance transfers. A creditor that solicits the transfer by a consumer of outstanding balances from an existing account to a new open-end plan must furnish the disclosures required by §226.6 so that the consumer has an opportunity, after receiving the disclosures, to contact the creditor before the balance is transferred and decline the transfer. For example, assume a consumer responds to a card issuer’s solicitation for a credit card during a telephone call. The solicitation states that if the consumer agrees to pay the fee or becomes obligated based on the consumer’s creditworthiness. If the creditor opens an account for the consumer, the creditor would comply with the timing rules of this section by providing the consumer with the annual percentage rate (along with the fees and other required disclosures) that would apply to the balance transfer in time for the consumer to contact the creditor and withdraw the request. A creditor that permits consumers to withdraw the request by telephone has met this timing standard if the creditor does not effect the balance transfer until 10 days after the creditor has sent account-opening disclosures to the consumer, assuming the consumer has not contacted the creditor to withdraw the request. Credit cards that are subject to the requirements of §226.5a may establish procedures that comply with both §226.5a and 226.6 in a single disclosure statement.

5(b)(1)(iii) Charges imposed as part of an open-end (not home-secured) plan.

1. Disclosing charges before the fee is imposed. Creditors may disclose charges imposed as part of an open-end (not home-secured) plan orally or in writing at any time before a consumer agrees to pay the fee or becomes obligated for the charge, unless the charge is specified under §226.6(b)(2). (Charges imposed
as part of an open-end (not home-secured plan) that are not specified under §226.6(b)(2) may alternatively be disclosed in electronic form; see the commentary to §226.5(a)(1)(i)(A). Creditors must provide such disclosures at a time and in a manner that a consumer would be likely to notice them. For example, if a creditor telephones a consumer about a particular service, a creditor would meet the standard if the creditor clearly and conspicuously discloses the fee associated with the service that is the topic of the telephone call orally to the consumer. Similarly, a creditor providing marketing materials in writing to a consumer about a particular service would meet the standard if the creditor provided a clear and conspicuous written disclosure of the fee for that service in those same materials. A creditor that provides written materials to a consumer about a particular service but provides a fee disclosure for another service not promoted in such materials would not meet the standard. For example, if a creditor provided marketing materials promoting payment by Internet, but included the fee for a replacement card on such materials with no explanation, the creditor would not be disclosing the fee at a time and in a manner that the consumer would be likely to notice the fee.

§226.13(b)(1)(iii) Telephone purchases.

1. Return policies. In order for creditors to provide disclosures in accordance with the timing requirements of this paragraph, consumers must be permitted to return merchandise purchased at the time the plan was established without paying mailing or return-shipment costs. Creditors may impose costs to return subsequent purchases of merchandise under the plan, or to return merchandise purchased by other means such as a credit card issued by another creditor. A reasonable return policy would be of sufficient duration that the consumer is likely to have received the disclosures and had sufficient time to make a decision about the financing plan before his or her right to return the goods expires. Return policies need not provide a right to return goods if the consumer consumes or damages the goods; or for installed appliances or fixtures, provided there is a reasonable repair or replacement policy to cover defective goods or installations. If the consumer chooses to reject the financing plan, creditors comply with the requirements of this paragraph by permitting the consumer to pay for the goods with another reasonable form of payment acceptable to the merchant and keep the goods although the creditor cannot require the consumer to do so.

§226.13(b)(1)(iv) Membership fees.

1. Membership fees. See §226.5a(b)(2) and related commentary for guidance on fees for issuance or availability of a credit or charge card.

2. Rejecting the plan. If a consumer has paid or promised to pay a membership fee including an application fee excludable from the finance charge under §226.4(c)(1) prior to receiving account-opening disclosures, the consumer may, after receiving the disclosures, reject the plan and not be obligated for the membership fee, application fee, or any other fee or charge. A consumer who has received the disclosures and uses the account, or makes a payment on the account after receiving a billing statement, is deemed not to have rejected the plan.

3. Using the account. A consumer uses an account by obtaining an extension of credit after receiving the account-opening disclosures, such as by making a purchase or obtaining an advance. A consumer does not ‘‘use’’ the account by activating the account. A consumer also does not ‘‘use’’ the account when the creditor assesses fees on the account (such as start-up fees or fees associated with credit insurance or debt cancellation or suspension programs agreed to as part of the application and before the consumer receives account-opening disclosures). For example, the consumer does not ‘‘use’’ the account when a creditor sends a billing statement with start-up fees, there is no other activity on the account, the consumer does not pay the fees, and the creditor subsequently assesses a late fee or interest on the unpaid fee balances. A consumer also does not ‘‘use’’ the account by paying an application fee excludable from the finance charge under §226.4(c)(1) prior to receiving the account-opening disclosures.

4. Home-equity plans. Creditors offering home-equity plans subject to the requirements of §226.5b are subject to the requirements of §226.3b(h) regarding the collection of fees.

§226.13(b)(2) Periodic statements.

Paragraph §226.13(b)(2)(i).

1. Periodic statements not required. Periodic statements need not be sent in the following cases:

i. If the creditor adjusts an account balance so that at the end of the cycle the balance is less than $1—so long as no finance charge has been imposed on the account for that cycle.

ii. If a statement was returned as undeliverable. If a new address is provided, however, within a reasonable time before the creditor must send a statement, the creditor must resume sending statements. Receiving the address at least 20 days before the end of a cycle would be a reasonable amount of time to prepare the statement for that cycle. For example, if an address is received 22 days before the end of the June cycle, the creditor must send the periodic statement for the June cycle. (See §226.3a(1)(7).)

2. Termination of draw privileges. When a consumer’s ability to draw on an open-end
account is terminated without being converted to closed-end credit under a written agreement, the creditor must continue to provide periodic statements to those consumers subject to finance charges when the balance is not paid in full by a specified date.

i. If current debits retroactively become subject to finance charges when the balance is not paid in full by a specified date.

ii. For open-end plans not subject to 12 CFR part 227, subpart C; 12 CFR part 535, subpart C; or 12 CFR part 706, subpart C, if charges other than finance charges will accrue when the consumer does not make timely payments (for example, late payment charges or charges for exceeding a credit limit). (For consumer credit card accounts subject to 12 CFR part 227, subpart C; 12 CFR part 535, subpart C; or 12 CFR part 706, subpart C, see 12 CFR 227.22, 12 CFR 535.22, or 12 CFR 706.22, as applicable.)

2. Deferred interest transactions. See comment 7(b)-1.iv.

Paragraph 5(b)(2)(iii).

1. Computer malfunction. The exceptions identified in §226.5(b)(2)(iii) of this section do not extend to the failure to provide a periodic statement because of computer malfunction.

2. Calling for periodic statements. When the consumer initiates a request, the creditor may permit, but may not require, consumers to pick up their periodic statements. If the consumer wishes to pick up the statement and the plan has a grace period, the statement must be made available in accordance with the 14-day rule.

5(c) Basis of disclosures and use of estimates.

1. Legal obligation. The disclosures should reflect the credit terms to which the parties are legally bound at the time of giving the disclosures.

i. The legal obligation is determined by applicable state or other law.

ii. The fact that a term or contract may later be deemed unenforceable by a court on the basis of equity or other grounds does not, by itself, mean that disclosures based on that term or contract did not reflect the legal obligation.

iii. The legal obligation normally is presumed to be contained in the contract that evidences the agreement. But this may be rebutted if another agreement between the parties legally modifies that contract.

2. Estimates—obtaining information. Disclosures may be estimated when the exact information is unknown at the time disclosures are made. Information is unknown if it is not reasonably available to the creditor at the time disclosures are made. The reasonably available standard requires that the creditor, acting in good faith, exercise due diligence in obtaining information. In using estimates, the creditor is not required to disclose the basis for the estimated figures, but may include such explanations as additional information. The creditor normally may rely on the representations of other parties in obtaining information. For example, the creditor might look to insurance companies for the cost of insurance.

3. Estimates—redisclosure. If the creditor makes estimated disclosures, redisclosure is not required for that consumer, even though more accurate information becomes available before the first transaction. For example, in an open-end plan to be secured by real estate, the creditor may estimate the appraisal fees to be charged; such an estimate might reasonably be based on the prevailing market rates for similar appraisals. If the exact appraisal fee is determinable after the estimate is furnished but before the consumer receives the first advance under the plan, no new disclosure is necessary.

5(d) Multiple creditors; multiple consumers.

1. Multiple creditors. Under §226.5(d):

i. Creditors must choose which of them will make the disclosures.

ii. A single, complete set of disclosures must be provided, rather than partial disclosures from several creditors.

iii. All disclosures for the open-end credit plan must be given, even if the disclosing creditor would not otherwise have been obligated to make a particular disclosure.

2. Multiple consumers. Disclosures may be made to either obligor on a joint account. Disclosure responsibilities are not satisfied by giving disclosures to only a surety or guarantor for a principal obligor or to an authorized user. In rescindable transactions, however, separate disclosures must be given to each consumer who has the right to rescind under §226.15.
3. Card issuer and person extending credit not the same person. See 127(c)(4)(D) of the Truth in Lending Act (15 U.S.C. 1637(c)(4)(D)) contains rules pertaining to charge card issuers with plans that allow access to an open-end credit plan that is maintained by a person other than the charge card issuer. These rules are not implemented in Regulation Z (although they were formerly implemented in § 226.5a(f)). However, the statutory provisions remain in effect and may be used by charge card issuers with plans meeting the specified criteria.

5(e) Effect of subsequent events.
1. Events causing inaccuracies. Inaccuracies in disclosures are not violations if attributable to events occurring after disclosures are made. For example, when the consumer fails to fulfill a prior commitment to keep the collateral insured and the creditor then provides the coverage and charges the consumer for it, such a change does not make the original disclosures inaccurate. The creditor may, however, be required to provide a new disclosure(s) under § 226.9(c).

2. Use of inserts. When changes in a creditor's plan affect required disclosures, the creditor may use inserts with outdated disclosures. Any insert:
   i. Should clearly refer to the disclosure provision it replaces.
   ii. Need not be physically attached or affixed to the basic disclosure statement.
   iii. May be used only until the supply of outdated forms is exhausted.

Section 226.5a—Credit and Charge Card Applications and Solicitations.
1. General. Section 226.5a generally requires that credit disclosures be contained in application forms and solicitations initiated by a card issuer to open a credit or charge card account. (See § 226.5a(a)(5) and (e)(2) for exceptions; see § 226.5a(a)(1) and accompanying commentary for the definition of solicitation; see also § 226.2a(a)(15) and accompanying commentary for the definition of charge card.)

2. Substitution of account-opening summary table for the disclosures required by § 226.5a. In complying with §226.5a(c), (e)(3) or (f), a card issuer may provide the account-opening summary table described in §226.6(b)(1) in lieu of the disclosures required by §226.5a, if the issuer provides the disclosures required by §226.6(b)(1), in lieu of the disclosures required by §226.5a, if the disclosures appear elsewhere, they are deemed to be prominently located if the application or solicitation form contains a clear and conspicuous reference to the location of the disclosures and indicates that they contain rate, fee, and other cost information, as applicable.

ii. Electronic disclosures. If the table is provided electronically, the table must be provided in close proximity to the application or solicitation. Card issuers have flexibility in satisfying this requirement. Methods card issuers could use to satisfy the requirement include, but are not limited to, the following examples:
   A. The disclosures could automatically appear on the screen when the application or reply form appears;
   B. The disclosures could be located on the same Web page as the application or reply form (whether or not they appear on the initial screen), if the application or reply form contains a clear and conspicuous reference to the location of the disclosures and indicates that they contain rate, fee, and other cost information, as applicable;
   C. Card issuers could provide a link to the electronic disclosures on or with the application (or reply form) as long as consumers cannot bypass the disclosures before submitting the application or reply form. The link would take the consumer to the disclosures, but the consumer need not be required to scroll completely through the disclosures; or
   D. The disclosures could be located on the same Web page as the application or reply form without necessarily appearing on the initial screen, immediately preceding the button that the consumer will click to submit the application or reply form.

Whatever method is used, a card issuer need not confirm that the consumer has read the disclosures.

2. Multiple accounts. If a tabular format is required to be used, card issuers offering several types of accounts may disclose the various terms for the accounts in a single table or may provide a separate table for each account.
Federal Reserve System

3. Information permitted in the table. See the commentary to §226.5a(b), (d)(2)(ii) and (e)(1) for guidance on additional information permitted in the table.

4. Deletion of applicable disclosures. Generally, disclosures need only be given as applicable. Card issuers may, therefore, omit applicable headings and their corresponding boxes in the table. For example, if no foreign transaction fee is imposed on the account, the heading Foreign transaction and disclosure may be deleted from the table or the disclosure form may contain the heading Foreign transaction and a disclosure showing none. There is an exception for the grace period disclosure; even if no grace period exists, that fact must be stated.

5. Highlighting of annual percentage rates and fee amounts. i. In general. See Samples G–10(B) and G–10(C) for guidance on providing the disclosures described in §226.5a(a)(2)(iv) in bold text. Other annual percentage rates or fee amounts disclosed in the table may not be in bold text. Samples G–10(B) and G–10(C) also provide guidance to issuers on how to disclose the rates and fees described in §226.5a(a)(2)(iv) in a clear and conspicuous manner, by including these rates and fees generally as the first text in the applicable rows of the table so that the highlighted rates and fees generally are aligned vertically in the table.

ii. Maximum limits on fees. Section 226.5a(a)(2)(iv) provides that any maximum limits on fee amounts unrelated to fees that vary by state may not be disclosed in bold text. For example, assume an issuer will charge a cash advance fee of $5 or 3 percent of the cash advance transaction amount, whichever is greater, but the fee will not exceed $100. The maximum limit of $10 for the cash advance fee must not be highlighted in bold. Nonetheless, assume that the amount of the late fee varies by state, and the range of amount of late fees disclosed is $15—$25. In this case, the maximum limit of $25 on the late fee amounts must be highlighted in bold. In both cases, the minimum fee amount (e.g. $5 or $15) must be disclosed in bold text.

iii. Periodic fees. Section 226.5a(a)(2)(iv) provides that any periodic fee disclosed pursuant to §226.5a(b)(2) that is not an annualized amount must not be disclosed in bold. For example, if an issuer imposes a $10 monthly maintenance fee for a card account, the issuer must disclose in the table that there is a $10 monthly maintenance fee, and that the fee is $120 on an annual basis. In this example, the $10 fee disclosure would not be disclosed in bold, but the $120 annualized amount must be disclosed in bold. In addition, if an issuer must disclose any annual fee in the table, the amount of the annual fee must be disclosed in bold.

6. Form of disclosures. Whether disclosures must be in electronic form depends upon the following:

i. If a consumer accesses a credit card application or solicitation electronically (other than as described under ii. below), such as on-line at a home computer, the card issuer must provide the disclosures in electronic form (such as with the application or solicitation on its Web site) in order to meet the requirement to provide disclosures in a timely manner on or with the application or solicitation. If the issuer instead mailed paper disclosures to the consumer, this requirement would not be met.

ii. In contrast, if a consumer is physically present in the card issuer’s office, and accesses a credit card application or solicitation electronically, such as via a terminal or kiosk (or if the consumer uses a terminal or kiosk located on the premises of an affiliate or third party that has a consumer relationship with the card issuer to provide applications or solicitations to consumers), the issuer may provide disclosures in either electronic or paper form, provided the issuer complies with the timing and delivery ("on or with") requirements of the regulation.

7. Terminology. Section 226.5a(a)(2)(i) generally requires that the headings, content and format of the tabular disclosures be substantially similar, but need not be identical, to the applicable tables in Appendix G–10 to part 226; but see §226.5a(a)(2) for terminology requirements applicable to §226.5a disclosures.

5a(a)(4) Fees that vary by state.

1. Manner of disclosing range. If the card issuer discloses a range of fees instead of disclosing the amount of the specific fee applicable to the consumer’s account, the range may be stated as the lowest authorized fee (zero, if there are one or more states where no fee applies) to the highest authorized fee.

5a(a)(5) Exceptions.

1. Noncoverage of consumer-initiated requests. Applications provided to a consumer upon request are not covered by §226.5a, even if the request is made in response to the card issuer’s invitation to apply for a card account. To illustrate, if a card issuer invites consumers to call a toll-free number or to return a response card to obtain an application, the application sent in response to the consumer’s request need not contain the disclosures required under §226.5a. Similarly, if the card issuer invites consumers to call and make an oral application on the telephone, §226.5a does not apply to the application made by the consumer. If, however, the card issuer calls a consumer or initiates a telephone discussion with a consumer and opening a card account and contemporaneously takes an oral application, such applications are subject to §226.5a, specifically §226.5a(d). Likewise, if the card issuer initiates an in-person discussion with a consumer.

761
§ 226.5a(b)(1) Annual percentage rate.

1. Variable-rate accounts—definition. For purposes of §226.5a(b)(1), a variable-rate account exists when rate changes are part of the plan and are tied to an index or formula. (See the commentary to §226.6(b)(4)(ii) for examples of variable-rate plans.)

2. Variable-rate accounts—fact that rate varies and how the rate will be determined. In describing how the applicable rate will be determined, the card issuer must identify in the table the type of index or formula used, such as the prime rate. In describing the index, the issuer may not include in the table details about the index. For example, if the issuer uses a prime rate, the issuer must disclose the rate as a "prime rate" and may not disclose in the table other details about the prime rate, such as the fact that it is the highest prime rate published in the Wall Street Journal two business days before the closing date of the statement for each billing period. The issuer may not disclose in the table the current value of the index (such as that the prime rate is currently 7.5 percent) or the amount of the margin or spread added to the index or formula in setting the applicable rate. A card issuer may not disclose any applicable limitations on rate increases or decreases in the table, such as describing that the rate will not go below a certain rate or higher than a certain rate. (See Samples G–10(B) and G–10(C) for guidance on how to disclose the fact that the applicable rate varies and how it is determined.)

3. Discounted initial rates. i. Immediate proximity. If the term "introductory" is in the same phrase as the introductory rate, as that term is defined in §226.16(g)(2)(ii), it will be deemed to be in immediate proximity of the listing. For example, an issuer that uses the phrase "introductory balance transfer APR X percent" has used the word "introductory" within the same phrase as the rate. (See Sample G–10(C) for guidance on how to disclose clearly and conspicuously the expiration date of the introductory rate and the rate that will apply after the introductory rate expires, if an introductory rate is disclosed in the table.)

ii. Subsequent changes in terms. The fact that an issuer may reserve the right to change a rate subsequent to account opening, pursuant to the notice requirements of §226.9(c), does not, by itself, make that rate an introductory rate. For example, assume an issuer discloses an annual percentage rate for purchases of 12.99% but does not specify a time period during which that rate will be in effect. Even if that issuer subsequently increases the annual percentage rate for purchases to 15.99%, pursuant to a change-in-terms notice provided under §226.9(c), the 12.99% is not an introductory rate. (However, issuers subject to 12 CFR 227.24 or similar law are subject to certain limitations on such rate increases.)

iii. More than one introductory rate. If more than one introductory rate may apply to a particular balance in succeeding periods, the term "introductory" need only be used to describe the first introductory rate. For example, if an issuer offers a rate of 8.99% on purchases for six months, 10.99% on purchases for the following six months, and 14.99% on purchases after the first year, the term "introductory" need only be used to describe the 8.99% rate.

4. Premium initial rates—subsequent changes in terms. The fact that an issuer may reserve the right to change a rate subsequent to account opening, pursuant to the notice requirements of §226.9(c) (as applicable), does not, by itself, make that rate a premium initial rate. For example, assume an issuer discloses an annual percentage rate for purchases of 18.99% but does not specify a time period during which that rate will be in effect. Even if that issuer subsequently reduces the annual percentage rate for purchases to 15.99%, the 18.99% is not a premium initial rate. If the rate decrease is the result of a change from a non-variable rate to a variable rate or from a variable rate to a non-variable rate, see comments 9(c)(2)(iv)–3 and 9(c)(2)(iv)–4 for guidance on the notice requirements under §226.9(c). (In addition, issuers subject to 12 CFR 227.24 or similar law may be subject to certain limitations on such rate decreases.)

5. Increased penalty rates. i. In general. For rates that are not introductory rates, if a rate may increase as a penalty for one or more events specified in the account agreement, such as a late payment or an extension of credit that exceeds the credit limit, the card issuer must disclose the increased rate that would apply, a brief description of the event or events that may result in the increased rate, and a brief description of how long the increased rate will remain in effect. The description of the specific event or events that may result in an increased rate should be brief. For example, if an issuer
may increase a rate to the penalty rate because the consumer does not make the minimum payment by 5 p.m., Eastern Time, on its payment due date, the issuer should describe this circumstance in the table as "make a late payment." Similarly, if an issuer may increase a rate that applies to a particular balance because the account is more than 30 days late, the issuer should describe this circumstance in the table as "make a late payment." An issuer may not distinguish between the events that may result in an increased rate for existing balances and the events that may result in an increased rate for new transactions. (See Samples G–10(B) and G–10(C) in the row labeled "Penalty APR and When it Applies") for additional guidance on the level of detail in which the specific event or events should be described.) The description of how long the increased rate will remain in effect also should be brief. If a card issuer reserves the right to apply the increased rate indefinitely, that fact should be stated. (See Samples G–10(B) and G–10(C) in the row labeled "Penalty APR and When it Applies") for additional guidance on the level of detail which the issuer should use to describe how long the increased rate will remain in effect.) A card issuer will be deemed to meet the standard to clearly and conspicuously disclose the information required by §226.5a(b)(3)(iv)(A) if the issuer uses the format shown in Samples G–10(B) and G–10(C) (in the row labeled "Penalty APR and When it Applies") to disclose this information.

i. Introductory rates—general. An issuer is only required to disclose directly beneath the table the circumstances under which an introductory rate, as that term is defined in §226.16(g)(2)(ii), may be revoked, and the rate that will apply after the revocation, if the issuer discloses the introductory rate in the table or in any written or electronic promotional materials accompanying applications or solicitations subject to §226.5a(b)(1)(iv)(A), the issuer may refer to the "standard APR" and the introductory rate because the account is more than 30 days late, the issuer should describe this circumstance in the table as "make a late payment." In addition, if the circumstances in which an introductory rate could be revoked are already listed elsewhere in the table, the issuer is not required to repeat the circumstances again, but may refer to those circumstances in a clear and conspicuous manner. For example, if the circumstances in which an introductory rate could be revoked are the same as the event or events that may trigger a "penalty rate" as described in §226.5a(b)(1)(iv)(A), the issuer may refer to the actions listed in the Penalty APR row, in describing the circumstances in which the introductory rate could be revoked. (See Sample G–10(C) in the disclosure labeled "Loss of Introductory APR" directly beneath the table for additional guidance on the level of detail which to describe the circumstances in which an introductory rate could be revoked.) A card issuer will be deemed to meet the standard to clearly and conspicuously disclose the information required by §226.5a(b)(3)(iv)(B) if the issuer uses the format shown in Sample G–10(C) to disclose this information.

ii. Introductory rates—issuers subject to 12 CFR 227.24 or similar law. Issuers that are disclosing an introductory rate subject to 12 CFR 227.24 or similar law are prohibited from increasing or revoking the introductory rate before it expires unless the consumer fails to make a required minimum periodic payment within 30 days after the due date for the payment. In making the required disclosure pursuant to §226.5a(b)(1)(iv)(B), any issuers subject to 12 CFR 227.24 or similar law should describe this circumstance directly beneath the table as "make a late payment."

6. Rates that depend on consumer’s creditworthiness. i. In general. The card issuer, at its option, may disclose the possible rates that may apply as either specific rates, or a range of rates. For example, if there are three possible rates that may apply (9.99, 12.99 or 17.99 percent), an issuer may disclose specific rates (9.99, 12.99 or 17.99 percent) or a range of rates (9.99 to 17.99 percent). The card issuer may not disclose only the lowest, highest or median rate that could apply. (See Samples G–10(B) and G–10(C) for guidance on how to disclose a range of rates.)

Federal Reserve System

Pt. 226, Supp. I, NI.

763
ii. Penalty rates. If the rate is a penalty rate, as described in §226.5a(b)(1)(iv), the card issuer at its option may disclose the highest rate that could apply, instead of disclosing the specific rates or the range of rates that could apply. For example, if the penalty rate could be up to 28.99 percent, but the issuer may impose a penalty rate that is less than that rate depending on factors at the time the penalty rate is imposed, the issuer may disclose the penalty rate as “up to” 28.99 percent. The issuer also must include a statement that the penalty rate for which the consumer may qualify will depend on the consumer’s creditworthiness, and other factors if applicable.

iii. Other factors. Section 226.5a(b)(1)(v) applies even if other factors are used in combination with a consumer’s creditworthiness to determine the rate for which a consumer may qualify at account opening. For example, §226.5a(b)(1)(v) would apply if the issuer considers the type of purchase the consumer is making at the time the consumer opens the account, in combination with the consumer’s creditworthiness, to determine the rate for which the consumer may qualify at account opening. If other factors are considered, the issuer should amend the statement about creditworthiness, to indicate that the rate for which the consumer may qualify at account opening will depend on the consumer’s creditworthiness and other factors. Nonetheless, §226.5a(b)(1)(v) does not apply if a consumer’s creditworthiness is not one of the factors that will determine the rate for which the consumer may qualify at account opening (for example, if the rate is based solely on the type of purchase that the consumer is making at the time the consumer opens the account, or is based solely on whether the consumer has other banking relationships with the card issuer).

7. Rate based on another rate on the account. In some cases, one rate may be based on another rate on the account. For example, assume that a penalty rate as described in §226.5a(b)(1)(iv)(A) is determined by adding 5 percentage points to the current purchase rate, which is 10 percent. In this example, the card issuer in disclosing the penalty rate must disclose 15 percent as the current penalty rate. If the purchase rate is a variable rate, then the penalty rate also is a variable rate. In that case, the card issuer also must disclose the fact that the penalty rate may vary and how the rate is determined, such as “This APR may vary with the market based on the Prime Rate.” In describing the penalty rate, the issuer shall not disclose in the table the amount of the margin or spread added to the current purchase rate to determine the penalty rate, such as describing that the penalty rate is determined by adding 5 percentage points to the purchase rate. (See §226.5a(b)(1)(ii) and comment 5a(b)(1)-2 for further guidance on describing a variable rate.)

8. Rates. The only rates that shall be disclosed in the table are annual percentage rates determined under §226.14(b). Periodic rates shall not be disclosed in the table.

5a(b)(2) Fees for issuance or availability.

1. Membership fees. Membership fees for opening an account must be disclosed under this paragraph. A membership fee to join an organization that provides a credit or charge card as a privilege of membership must be disclosed only if the card is issued automatically upon membership. Such a fee shall not be disclosed in the table if membership results merely in eligibility to apply for an account.

2. Enhancements. Fees for optional services in addition to basic membership privileges in a credit or charge card account (for example, travel insurance or card-registration services) shall not be disclosed in the table if the basic account may be opened without paying such fees. Issuing a card to each primary cardholder (not authorized users) is considered a basic membership privilege and fees for additional cards, beyond the first card on the account, must be disclosed as a fee for issuance or availability. Thus, a fee to obtain an additional card on the account beyond the first card (so that each cardholder would have his or her own card) must be disclosed in the table as a fee for issuance or availability under §226.5a(b)(2). This fee must be disclosed even if the fee is optional; that is, if the fee is charged only if the cardholder requests one or more additional cards. (See the available credit disclosure in §226.5a(b)(14).)

3. One-time fees. Disclosure of non-periodic fees is limited to fees related to opening the account, such as one-time membership or participation fees, or an application fee that is excludable from the finance charge under §226.4(c)(1). The following are examples of fees that shall not be disclosed in the table:

i. Fees for reissuing a lost or stolen card.

ii. Statement reproduction fees.

4. Waived or reduced fees. If fees required to be disclosed are waived or reduced for a limited time, the introductory fees or the fact of fee waivers may be provided in the table in addition to the required fees if the card issuer also discloses how long the reduced fees or waivers will remain in effect.

5. Periodic fees and one-time fees. A card issuer disclosing a periodic fee must disclose the amount of the fee, how frequently it will be imposed, and the annualized amount of the fee. A card issuer disclosing a non-periodic fee must disclose that the fee is a one-time fee. (See Sample G-10(C) for guidance on how to meet these requirements.)

5a(b)(3) Fixed finance charge; minimum interest charge.
Federal Reserve System

1. Example of brief statement. See Samples G–10(B) and G–10(C) for guidance on how to provide a brief description of a minimum interest charge.

2. A adjustment of $1.00 threshold amount. Consistent with §226.5a(b)(3), the Board will publish adjustments to the $1.00 threshold amount, as appropriate.

Sa(b)(4) Transaction charges.

1. Charges imposed by person other than card issuer. Charges imposed by a third party, such as a seller of goods, shall not be disclosed in the table under this section; the third party would be responsible for disclosing the charge under §226.9(d)(1).

2. Foreign transaction fees. A transaction charge imposed by the card issuer for the use of the card for purchases includes any fee imposed by the issuer for purchases in a foreign currency or that take place outside the United States or with a foreign merchant. (See comment 4(a)–4 for guidance on when a foreign transaction fee is considered charged by the card issuer.) If an issuer charges the same foreign transaction fee for purchases and cash advances in a foreign currency, or that take place outside the United States or with a foreign merchant, the issuer may disclose this foreign transaction fee as shown in Samples G–10(B) and G–10(C).

Otherwise, the issuer must revise the foreign transaction fee language shown in Samples G–10(B) and G–10(C). Otherwise, the issuer must revise the foreign transaction fee language shown in Samples G–10(B) and G–10(C) to disclose clearly and conspicuously the amount of the foreign transaction fee that applies to purchases and the amount of the foreign transaction fee that applies to cash advances.

Sb(b)(5) Grace period.

1. How grace period disclosure is made. The card issuer must state any conditions on the applicability of the grace period. An issuer that offers a grace period on all purchases and conditions the grace period on the consumer paying his or her outstanding balance in full by the due date each billing cycle, or on the consumer paying the outstanding balance in full by the due date in the previous and/or the current billing cycle(s) will be deemed to meet these requirements by providing the following disclosure, as applicable: “Your due date is [at least ___ days after the close of each billing cycle. We will not charge you interest on purchases if you pay your entire balance by the due date each month.”

2. No grace period. The issuer may use the following language to describe that no grace period on any purchases is offered, as applicable: “We will begin charging interest on purchases on the transaction date.”

3. Grace period on some purchases. If the issuer provides a grace period in a foome types of purchases but no grace period on others, the issuer may combine and revise the language in comments Sb(b)(5)–1 and –2 as appropriate to describe to which types of purchases a grace period applies and to which types of purchases no grace period is offered.

Sa(b)(6) Balance computation method.

1. Form of disclosure. In cases where the card issuer uses a balance computation method that is identified by name in the regulation, the card issuer must disclose the name of the method. In cases where the card issuer uses a balance computation method that is not identified by name in the regulation, the disclosure must clearly explain the method in as much detail as set forth in the descriptions of balance methods in §226.5a(g).

2. Determining the method. In determining which balance computation method is used, the card issuer must assume that a purchase balance will exist at the end of any grace period. Thus, for example, if the average daily balance method will include new purchases or cover two billing cycles only if purchase balances are not paid within the grace period, the card issuer would disclose the name of the average daily balance method that includes new purchases or covers two billing cycles, respectively. The card issuer must not assume the existence of a purchase balance, however, in making other disclosures under §226.5a(b).

Sb(b)(7) Statement on charge card payments.

1. Applicability and content. The disclosure that charges are payable upon receipt of the periodic statement is applicable only to charge card accounts. In making this disclosure, the card issuer may make such modifications as are necessary to more accurately reflect the circumstances of repayment under the account. For example, the disclosure might read, “Charges are due and payable upon receipt of the periodic statement and must be paid no later than 15 days after receipt of such statement.”

Sa(b)(8) Cash advance fee.

1. Content. See Samples G–10(B) and G–10(C) for guidance on how to disclose clearly and conspicuously the cash advance fee.

2. Foreign cash advances. Cash advance fees required to be disclosed under §226.5a(b)(8) include any charge imposed by the card issuer for cash advances in a foreign currency or that take place outside the United States or with a foreign merchant. (See comment 4(a)–4 for guidance on when a foreign transaction fee is considered charged by the card issuer.) If an issuer charges the same foreign transaction fee for purchases and cash advances in a foreign currency or that take place outside the United States or with a foreign merchant, the issuer may disclose this foreign transaction fee as shown in Samples G–10(B) and G–10(C). Otherwise, the issuer
must revise the foreign transaction fee language in Samples G–10(B) and (C) to disclose clearly and conspicuously the amount of the foreign transaction fee that applies to cash advances.

3. ATM fees. An issuer is not required to disclose pursuant to §226.5a(b)(8) any charges imposed on a cardholder by an institution other than the card issuer for the use of the other institution’s ATM in a shared or interchange system.

§ 226.5a(b)(9) Late-payment fee.
1. Applicability. The disclosure of the fee for a late payment includes only those fees that will be imposed for actual, unanticipated late payments. (See the commentary to §226.4(c)(2) for additional guidance on late-payment fees. See Samples G–10(B) and G–10(C) for guidance on how to disclose clearly and conspicuously the late-payment fee.)

§ 226.5a(b)(10) Over-the-limit fee.
1. Applicability. The disclosure of fees for exceeding a credit limit does not include fees for other types of default or for services related to exceeding the limit. For example, no disclosure is required for fees reinstating credit privileges or fees for the dishonor of checks on an account that, if paid, would cause the credit limit to be exceeded. (See Samples G–10(B) and G–10(C) for guidance on how to disclose clearly and conspicuously the over-the-limit fee.)

§ 226.5a(b)(11) Required insurance, debt cancellation, or debt suspension coverage.
1. Content. See Sample G–10(B) for guidance on how to comply with the requirements in §226.5a(b)(11).

§ 226.5a(b)(12) Available credit.
1. Calculating available credit. If the 15 percent threshold test is met, the issuer must disclose the available credit including optional fees, and the available credit including optional fees is rounded down to the nearest whole dollar. (See §226.5a(b)(14) for guidance on disclosing the amount of the foreign transaction fee that applies to cash advances.)

§ 226.5a(b)(13) Required insurance, debt cancellation, or debt suspension coverage.
1. Content. See Sample G–10(C) for guidance on how to provide the disclosures required by §226.5a(b)(13) clearly and conspicuously.

§ 226.5a(b)(14) Web site reference.
1. Content. See Samples G–10(B) and G–10(C) for guidance on disclosing a reference to the Web site established by the Board and a statement that consumers may obtain on the Web site information about shopping for and using credit card accounts.

§ 226.5a(c) Direct mail and electronic applications and solicitations.
1. Mailed publications. Applications or solicitations contained in generally available publications mailed to consumers (such as subscription magazines) are subject to the requirements applicable to take-ones in §226.5a(e), rather than the direct mail requirements of §226.5a(c). However, if a primary purpose of a card issuer’s mailing is to offer credit or charge card accounts—for example, where a card issuer “prescreens” a list of potential cardholders using credit criteria, and then mails to the targeted group its catalog containing an application or a solicitation for a card account—the direct mail rules apply. In addition, a card issuer may use a single application form as a take-one (in racks in public locations, for example) and for direct mailings, if the card issuer complies with the requirements of §226.5a(c) even when the form is used as a take-one—that is, by presenting the required §226.5a disclosures in a tabular format. When used in a direct mailing, the credit term disclosures must be accurate as of the mailing date, whether or not the §226.5a(e)(1)(ii) and (e)(1)(iii) disclosures are included; when used in a take-one, the disclosures must be accurate for as long as the take-one forms remain available to the public if the §226.5a(e)(1)(ii) and (e)(1)(iii) disclosures are omitted. (If those disclosures are included in the take-one, the credit term disclosures need only be accurate as of the printing date.)

§ 226.5a(d) Telephone applications and solicitations.
1. Coverage. i. This paragraph applies if:
A. A telephone conversation between a card issuer and consumer may result in the issuance of a card as a consequence of an issuer-initiated offer to open an account for which the issuer does not require any application (that is, a prescreened telephone solicitation).
B. The card issuer initiates the contact and at the same time takes application information over the telephone.

ii. This paragraph does not apply to:
A. Telephone applications initiated by the consumer.
B. Situations where no card will be issued—because, for example, the consumer indicates that he or she does not want the
card, or the card issuer decides either during the telephone conversation or later not to issue the card.

2. Right to reject the plan. The right to reject the plan, as discussed in this paragraph, is the same as the right to reject the plan described in §226.5b(3)(v). If an issuer substitutes the account-opening summary table described in §226.6(b)(1) in lieu of the disclosures specified in §226.5a(d)(2)(ii), the disclosure specified in §226.5a(d)(2)(ii)(B) must appear in the table, if the issuer is required to do so pursuant to §226.6(b)(2)(xiii). Otherwise, the disclosure specified in §226.5a(d)(2)(ii)(B) may appear either in or outside the table containing the required credit disclosures.

3. Substituting account-opening table for alternative written disclosures. An issuer may substitute the account-opening summary table described in §226.6(b)(1) in lieu of the disclosures specified in §226.5a(d)(2)(ii).

5a(e) Applications and solicitations made available to general public.

1. Coverage. Applications and solicitations made available to the general public include what are commonly referred to as take-one applications typically found at counters in banks and retail establishments, as well as applications contained in catalogs, magazines, and other generally available publications. In the case of credit unions, this paragraph applies to applications and solicitations to open card accounts made available to those in the general field of membership.

2. In-person applications and solicitations. In-person applications and solicitations initiated by a card issuer subject to §226.5a(f), not §226.5a(e). (See §226.5a(f) and accompanying commentary for rules relating to in-person applications and solicitations.)

3. Toll-free telephone number. If a card issuer, in complying with any of the disclosure options of §226.5a(e), provides a telephone number for consumers to call to obtain credit information, the number must be toll-free for nonlocal calls made from an area code other than the one used in the card issuer’s dialing area. Alternatively, a card issuer may provide any telephone number that allows a consumer to call for information and reverse the telephone charges.

5a(e)(1) Disclosure of required credit information.

1. Date of printing. Disclosure of the month and year fulfills the requirement to disclose the date an application was printed.

2. Form of disclosures. The disclosures specified in §226.5a(e)(3)(i) and (e)(3)(iii) may appear either in or outside the table containing the required credit disclosures.

5a(e)(2) No disclosure of credit information.

1. When disclosure option available. A card issuer may use this option only if the issuer does not include on or with the application or solicitation any statement that refers to the credit disclosures required by §226.5a(b). Statements such as no annual fee, low interest rate, favorable rates, and low costs are deemed to refer to the required credit disclosures and, therefore, may not be included on or with the solicitation or application, if the card issuer chooses to use this option.

5a(e)(3) Prompt response to requests for information.

1. Prompt disclosure. Information is promptly disclosed if it is given within 30 days of a consumer’s request for information but in no event later than delivery of the credit or charge card.

2. Information disclosed. When a consumer requests credit information, card issuers need not provide all the required credit disclosures in all instances. For example, if disclosures have been provided in accordance with §226.5a(e)(1) and a consumer calls or writes a card issuer to obtain information about changes in the disclosures, the issuer need only provide the items of information that have changed from those previously disclosed or with the application or solicitation. If a consumer requests information about particular items, the card issuer need only provide the requested information. If, however, the card issuer has made disclosures in accordance with §226.5a(e)(2) and a consumer calls or writes the card issuer requesting information about costs, all the required disclosure information must be given.

3. Manner of response. A card issuer’s response to a consumer’s request for credit information may be provided orally or in writing, regardless of the manner in which the consumer’s request is received by the issuer. Furthermore, the card issuer must provide the information listed in §226.5a(e)(1). Information provided in writing need not be in a tabular format.

5a(f) In-person applications and solicitations.

1. Coverage. I. This paragraph applies if:

A. An in-person conversation between a card issuer and a consumer may result in the issuance of a card as a consequence of an issuer-initiated offer to open an account for which the issuer does not require any application (that is, a preapproved in-person solicitation).

B. The card issuer initiates the contact and at the same time takes application information in person. For example, the following are covered:

1. A consumer applies in person for a car loan at a financial institution and the loan officer invites the consumer to apply for a credit or charge card account; the consumer accepts the invitation and submits an application.

2. An employee of a retail establishment, in the course of processing a sales transaction using a bank credit card, asks a customer if he or she would like to apply for the retailer’s credit or charge card; the customer
Section 226.5b Requirements for Home-equity Plans

5b(a) Form of Disclosure
5b(a)(1) General
1. Written disclosures. The disclosures required under this section must be clear and conspicuous and in writing, but need not be in a form the consumer can keep. (See the commentary to §226.6(a)(3) for special rules when disclosures required under §226.5b(d) are given in a retainable form.)

5b(f) Limitations on Home-equity Plans

Paragraph 5b(f)(3)(vi).

4. Reinstatement of credit privileges. Creditors are responsible for ensuring that credit privileges are restored as soon as reasonably possible after the condition that permitted the creditor’s action ceases to exist. A creditor must reinstate the consumer’s credit privileges to the extent the condition that permitted the freeze continues to exist. The creditor must reinstate the consumer’s credit privileges if the condition that permitted the freeze continues to exist. The frequency with which the creditor reinstates the consumer’s credit privileges depends upon the specific condition permitting the freeze.

As an alternative to such monitoring, the creditor may shift the duty to the consumer to request reinstatement of credit privileges by providing a notice in accordance with §226.9(c)(1)(iii). A creditor may require a reinstatement request to be in writing if it notifies the consumer of this requirement on the notice provided under §226.9(c)(1)(iii). Once the consumer requests reinstatement, the creditor must reinstate the consumer’s credit privileges as soon as reasonably possible after the condition that permitted the freeze continues to exist. The frequency with which the creditor reinstates the consumer’s credit privileges continues to exist. The frequency with which the creditor reinstates the consumer’s credit privileges depends upon the specific condition permitting the freeze.

Paragraph 6(a)(1)(ii).

Section 226.6 Account-opening Disclosures

6(a) Rules affecting home-equity plans.
6(a)(1) Finance charge.

Paragraph 6(a)(1)(ii).

1. When finance charges accrue. Creditors are not required to disclose a specific date when finance charges will begin to accrue. Creditors may provide a general explanation such as that the consumer has 30 days from the closing date to pay the new balance before finance charges will accrue on the account.

2. Grace periods. In disclosing whether or not a grace period exists, the creditor need not use “free period,” “free-ride period,” “grace period” or any other particular descriptive phrase or term. For example, a statement that “the finance charge begins on the date the transaction is posted to your account” adequately discloses that no grace period exists. In the same fashion, a statement that “finance charges will be imposed on any new purchases only if they are not paid in full within 25 days after the close of the billing cycle” indicates that a grace period exists in the interim.

Paragraph 6(a)(1)(iii).

1. Range of balances. The range of balances disclosure is inapplicable:
Federal Reserve System

1. If only one periodic rate may be applied to the entire account balance.
2. If only one periodic rate may be applied to the entire balance for a feature (for example, cash advances), even though the balance for another feature (purchases) may be subject to two rates (a 1.5% monthly periodic rate on purchase balances of $0–$500, and a 1% monthly periodic rate for balances above $500). In this example, the creditor must give a range of balances disclosure for the purchase feature.

2. Variable-rate disclosures—coverage.

i. Examples. This section covers open-end credit plans under which rate changes are specifically set forth in the account agreement and are tied to an index or formula. A creditor would use variable-rate disclosures for plans involving rate changes such as the following:

A. Rate changes that are tied to the rate the creditor pays on its six-month certificates of deposit.
B. Rate changes that are tied to Treasury bill rates.
C. Rate changes that are tied to changes in the creditor’s commercial lending rate.

ii. The creditor must disclose when the initial rate will remain in effect; for example, each calendar month; or may disclose an estimated rate under §226.5(c).

3. Variable-rate plan—rate(s) in effect. In disclosing the rate(s) in effect at the time of the account-opening disclosures, the disclosures under §226.6(a)(1)(ii) must also be made.

4. Variable-rate plan—additional disclosures required. In addition to disclosing the rates in effect at the time of the account-opening disclosures, the disclosures under §226.6(a)(1)(ii) also must be made.

5. Variable-rate plan—index. The index to be used must be clearly identified; the creditor need not give, however, an explanation of how the index is determined or provide instructions for obtaining it.

6. Variable-rate plan—circumstances for increase.

i. Circumstances under which the rate(s) may increase include, for example:

A. An increase in the Treasury bill rate.
B. An increase in the Federal Reserve discount rate.

ii. The creditor must disclose when the increase will take effect; for example:

A. “An increase will take effect on the day the Treasury bill rate increases,” or
B. “An increase in the Federal Reserve discount rate will take effect on the first day of the creditor’s billing cycle.”

7. Variable-rate plan—limitations on increase. In disclosing any limitations on rate increases, limitations such as the maximum increase per year or the maximum increase over the duration of the plan must be disclosed. When there are no limitations, the creditor may, but need not, disclose that fact. (A maximum interest rate must be included in dwelling-secured open-end credit plans under which the interest rate may be changed; see §226.30 and the commentary to that section.) Legal limits such as usury or rate ceilings under state or federal statutes or regulations need not be disclosed. Examples of limitations that must be disclosed include:

i. “The rate on the plan will not exceed 25% annual percentage rate.”
ii. “Not more than 10% increase in the annual percentage rate per year will occur.”

8. Variable-rate plan—effects of increase. Examples of effects of rate increases that must be disclosed include:

i. Any requirement for additional collateral if the annual percentage rate increases beyond a specified rate.
ii. Any increase in the scheduled minimum periodic payment amount.

9. Variable-rate plan—change-in-terms notice not required. No notice of a change in terms is required for a rate increase under a variable-rate plan as defined in comment 6(a)(3)(i)-2.

10. Discounted variable-rate plans. In some variable-rate plans, creditors may set an initial interest rate that is not determined by the index or formula used to make later interest rate adjustments. Typically, this initial rate is lower than the rate that would be if it were calculated using the index or formula. For example, a creditor may calculate interest rates according to a formula using the six-month Treasury bill rate plus a 2 percent margin. If the current Treasury bill rate is 10 percent, the creditor may forgo the 2 percent spread and charge only 10 percent for a limited time, instead of setting an initial rate of 12 percent, or the creditor may disregard the index or formula and set the initial rate at 9 percent.

i. When creditors use an initial rate that is not calculated using the index or formula for later rate adjustments, the account-opening disclosure statement should reflect:

A. The initial rate (expressed as a periodic rate and a corresponding annual percentage rate), together with a statement of how long the initial rate will remain in effect;
B. The current rate that would have been applied using the index or formula (also expressed as a periodic rate and a corresponding annual percentage rate); and
C. The other variable-rate information required in §226.6(a)(3)(i).

ii. In disclosing the current periodic and annual percentage rates that would be applied using the index or formula, the creditor may use any of the disclosure options described in comment 6(a)(3)(i)-3.
11. Increased penalty rates. If the initial rate may increase upon the occurrence of one or more specific events, such as a late payment or an extension of credit that exceeds the credit limit, the creditor must disclose the initial rate and the increased penalty rate that may apply. If the penalty rate is based on an index and an increased margin, the issuer must disclose the index and the margin. The creditor must also disclose the specific event or events that may result in the increased rate, such as "22% APR, if 60 days late." If the penalty rate cannot be determined at the time disclosures are given, the creditor must provide an explanation of the specific event or events that may result in the increased rate. At the creditor's option, the creditor may disclose the period for which the increased rate will remain in effect, such as "until you make three timely payments." The creditor need not disclose an increased rate that is imposed when credit privileges are permanently terminated.

Paragraph 6(a)(iii).
1. Explanation of balance computation method. A shorthand phrase such as "previous balance method" does not suffice in explaining the balance computation method. (See Model Clauses G–1 and G–1(A) to part 226.)

2. Allocation of payments. Creditors may, but need not, explain how payments and other credits are allocated to outstanding balances. For example, the creditor need not disclose that payments are applied to late charges, overdue balances, and finance charges before being applied to the principal balance; or in a multifaceted plan, that payments are applied first to finance charges, then to purchases, and then to cash advances. (See comment 7–1 for definition of multifaceted plan.)

Paragraph 6(a)(iv).
1. Finance charges. In addition to disclosing the periodic rate(s) under §226.6(a)(1)(ii), creditors must disclose any other type of finance charge that may be imposed, such as minimum, fixed, transaction, and activity charges; required insurance; or appraisal or credit report fees (unless excluded from the finance charge under §226.4(c)(7)). Creditors must disclose that payments are applied first to finance charges, then to purchases, and then to cash advances. (See comment 7–1 for definition of multifaceted plan.)

2. Other charges. The following are examples of charges that are not "other charges":

i. Fees charged for documentary evidence of transactions for income tax purposes.

ii. Amounts payable by a consumer for collection activity after default; attorney's fees, whether or not automatically imposed; foreclosure costs; post-judgment interest rates imposed by law; and reinstatement or reissue fees.

iii. Premiums for voluntary credit life or disability insurance, or for property insurance, that are not part of the finance charge.

iv. Application fees under §226.4(c)(1).

v. A monthly service charge for a checking account with overdraft protection that is applied to all checking accounts, whether or not a credit feature is attached.

vi. Charges for submitting as payment a check, that is later returned unpaid (See commentary to §226.4(c)(2)).

vii. Charges imposed on a cardholder by an institution other than the card issuer for the use of the other institution's ATM in a shared or interchange system. (See also comment 7(a)(2)).

viii. Taxes and filing or notary fees excluded from the finance charge under §226.4(e).

ix. A fee to expedite delivery of a credit card, either at account opening or during the life of the account, provided delivery of the card is also available by standard mail service (or other means at least as fast) without paying a fee for delivery.

x. A fee charged for arranging a single payment on the credit account, upon the consumer's request (regardless of how frequently the consumer requests the service), if the credit plan provides that the consumer may make payments on the account by another reasonable means, such as by standard mail service, without paying a fee to the creditor.
6(a)(3) Home-equity plan information.

1. Additional disclosures required. For home-equity plans, creditors must provide several of the disclosures set forth in §226.5(b)(d) and variable-rate disclosures required under §226.6. Creditors also must disclose a list of the conditions that permit the creditor to terminate the plan, freeze or reduce the credit line, and implement specified modifications to the original terms. (See comment §5b(d)(4)(iii)–1.)

2. Form of disclosures. The home-equity disclosures provided under this section must be in a form the consumer can keep, and are governed by §226.5(a)(1). The segregation standard set forth in §226.5(a)(1) does not apply to home-equity disclosures provided under §226.6.

3. Disclosure of payment and variable-rate examples.
   i. The payment-example disclosure in §§226.5(b)(d)(5)(iii) and the variable-rate information in §§226.5(b)(d)(12)(viii), (d)(12)(x), (d)(12)(xii), and (d)(12)(xii) need not be provided with the disclosures under §226.6 if the disclosures under §226.5(b)(d) were provided in a form the consumer could keep; and the disclosures of the payment example under §226.5(b)(d)(5) and the historical table under §226.5(b)(d)(12)(xi) included a representative payment example for the category of payment options the consumer has chosen.

   ii. For example, if a creditor offers three payment options (one for each of the categories described in the commentary to §226.5(b)(d)(5)), describes all three options in its early disclosures, and provides all of the disclosures in a retainable form, that creditor need not provide the §§226.5(b)(d)(5)(iii) or (d)(12) disclosures again when the account is opened. If the creditor showed only one of the three options in the early disclosures (which would be the case with a separate disclosure form rather than a combined form, as discussed under §226.5(a)(1)), the disclosures under §§226.5(b)(d)(5)(iii), (d)(12)(viii), (d)(12)(x), (d)(12)(xi) and (d)(12)(xii) must be given to any consumer who chooses one of the other two options. If the §§226.5(b)(d)(5)(iii) and (d)(12) disclosures are provided with the second set of disclosures, they need not be transaction-specific, but may be based on a representative example of the category of payment option chosen.

4. Disclosures for the repayment period. The creditor must provide disclosures about both the draw and repayment phases when giving the disclosures under §226.6. Specifically, the creditor must make the disclosures in §226.6(a)(3), state the corresponding annual percentage rate, and provide the variable-rate information required in §226.6(a)(3)(i) for the repayment phase. To the extent the corresponding annual percentage rate, the information in §226.6(a)(3)(i), and any other required disclosures are the same for the draw and repayment phase, the creditor need not repeat such information, as long as it is clear that the information applies to both phases.

6(a)(4) Security interests.

1. General. Creditors are not required to use specific terms to describe a security interest, or to explain the type of security or the creditor’s rights with respect to the collateral.

2. Identification of property. Creditors sufficiently identify collateral by type by stating, for example, motor vehicle or household appliances. (Creditors should be aware, however, that the federal credit practices rules, as well as some state laws, prohibit certain security interests in household goods.) The creditor may, at its option, provide a more specific identification (for example, a model and serial number.)

3. Spreaders clause. If collateral for a pre-existing credit with the creditor will secure the plan being opened, the creditor must disclose that fact. (Such security interests may be known as “spreaders” or “dragnet” clauses, or as “cross-collateralization” clauses.) The creditor need not specifically identify the collateral; a reminder such as “collateral securing other loans with us may also secure this loan” is sufficient. At the creditor’s option, a more specific description of the property involved may be given.

4. Additional collateral. If collateral is required when advances reach a certain amount, the creditor should disclose the information available at the time of the account-opening disclosures. For example, if the creditor knows that a security interest will be taken in household goods if the consumer’s balance exceeds $1,000, the creditor should disclose accordingly. If the creditor knows that security will be required if the consumer’s balance exceeds $1,000, but the creditor does not know what security will be required, the creditor must disclose on the initial disclosure statement that security will be required if the balance exceeds $1,000, and the creditor must provide a change-in-terms notice under §226.5(c) at the time the security is taken. (See comment 6(a)(4)–2.)

5. Collateral from third party. Security interests taken in connection with the plan must be disclosed, whether the collateral is owned by the consumer or a third party.

6(a)(5) Statement of billing rights.

1. See the commentary to Model Forms G–1, G–2, G–3, G–3A, G–4, and G–4A.

6(b) Rules affecting open-end (not home-secured) plans.

1. Relation to tabular summary for applications and solicitations. See commentary to §226.5a(a), (b), and (c) regarding format and content requirements, except for the following:
i. Creditors must use the accuracy standard for annual percentage rates in §226.6(b)(4)(ii)(G).

ii. Generally, creditors must disclose the specific rate for each feature that applies to the account. If the rates on an open-end (not home-secured) plan vary by State and the creditor is providing the account-opening table in person at the time the plan is established in connection with financing the purchase of goods or services the creditor may, at its option, disclose in the account-opening table the rate applicable to the consumer’s account, or the range of rates, if the disclosure includes a statement that the rate varies by State and refers the consumer to the account agreement or other disclosure provided with the account-opening table where the rate applicable to the consumer’s account is disclosed.

iii. Creditors must explain whether or not a grace period exists for all features on the account. The row heading “Paying Interest” must be used if any one feature on the account does not have a grace period.

iv. Creditors must name the balance computation method used for each feature of the account and state that an explanation of the balance computation method(s) is provided in the account-opening disclosures.

v. Creditors must state that consumers’ billing rights are provided in the account-opening disclosures.

vi. If fees on an open-end (not home-secured) plan vary by State and the creditor is providing the account-opening table in person at the time the plan is established in connection with financing the purchase of goods or services the creditor may, at its option, disclose in the account-opening table the specific fee applicable to the consumer’s account, or the range of fees, if the disclosure includes a statement that the amount of the fee varies by State and refers the consumer to the account agreement or other disclosure provided with the account-opening table where the fee applicable to the consumer’s account is disclosed.

vii. Creditors that must disclose the amount of available credit must state the initial credit limit provided on the account.

viii. Creditors must disclose directly beneath the table the circumstances under which an introductory rate may be revoked and the rate that will apply after the introductory rate is revoked only if the introductory rate is disclosed pursuant to §226.6(b)(2)(i)(B) in the account-opening table. Creditors subject to 12 CFR 227.24 or similar law are subject to limitations on the circumstances under which an introductory rate may be revoked. (See comment 5a)(b)(1)-4 for guidance on how a creditor subject to 12 CFR 227.24 or similar law may disclose the circumstances under which an introductory rate may be revoked.)

ix. The applicable forms providing safe harbors for account-opening tables are under Appendix G–17 to part 226.

2. Clear and conspicuous standard. See comment 5a)(1)-3 for the clear and conspicuous standard applicable to §226.6 disclosures.

3. Terminology. Section 226.6(b)(1) generally requires that the headings, content, and format of the tabular disclosures be substantially similar, but need not be identical, to the tables in Appendix G to part 226 but see §226.5(a)(2) for terminology requirements applicable to §226.6.

6(b)(2) Required disclosures for account-opening table for open-end (not home-secured) plans.

6(b)(2)(v) Grace period.

1. Grace period. Creditors must state any conditions on the applicability of the grace period. A creditor that offers a grace period on all types of transactions for the account and conditions the grace period on the consumer paying his or her outstanding balance in full by the due date each billing cycle, or on the consumer paying the outstanding balance in full by the due date in the previous and/or the current billing cycle(s) will be deemed to meet these requirements by providing the following disclosure, as applicable: “Your due date is [at least] _x_days after the close of each billing cycle. We will not charge you interest on your account if you pay your entire balance by the due date each month.”

2. No grace period. Creditors may use the following language to describe that no grace period is offered, as applicable: “We will begin charging interest on [applicable transactions] on the transaction date.”

3. Grace period on some features. See Samples G–17(B) and G–17(C) for guidance on complying with §226.6(b)(2)(v) when a creditor offers a grace period for purchases but no grace period on balance transfers and cash advances.

6(b)(2)(vi) Balance computation method.

1. Content. See Samples G–17(B) and G–17(C) for guidance on how to disclose the balance computation method where the same method is used for all features on the account.

6(b)(2)(xiii) Available credit.

1. Right to reject the plan. Creditors may use the following language to describe consumers’ right to reject a plan after receiving account-opening disclosures: “You may still reject this plan, provided that you have not yet used the account or paid a fee after receiving a billing statement. If you do reject the plan, you are not responsible for any fees or charges.”

6(b)(3) Disclosure of charges imposed as part of open-end (not home-secured) plans.
Federal Reserve System

1. When finance charges accrue. Creditors are not required to disclose a specific date when a cost that is a finance charge under §226.4 will begin to accrue.

2. Grace periods. In disclosing in the account agreement or disclosure statement whether or not a grace period exists, the creditor need not use any particular descriptive phrase or term. However, the descriptive phrase or term must be sufficiently similar to the disclosures provided pursuant to §§226.5(a)(5) and 226.6(b)(2)(v) to satisfy a creditor’s duty to provide consistent terminology under §226.5(a)(2).

3. No finance charge imposed below certain balance. Creditors are not required to disclose the fact that no finance charge is imposed when the outstanding balance is less than a certain amount or the balance below which no finance charge will be imposed.

Paragraph 6(b)(3)(iii).

1. Failure to use the plan as agreed. Late-payment fees, over-the-limit fees, and fees for payments returned unpaid are examples of charges resulting from consumers’ failure to use the plan as agreed.

2. Examples of fees that affect the plan. Examples of charges the payment, or non-payment, of which affects the consumer’s account are:

   i. Access to the plan. Fees for using the card at the creditor’s ATM to obtain a cash advance, fees to obtain additional cards including replacements for lost or stolen cards, fees to expedite delivery of cards or other credit devices, application and membership fees, and annual or other participation fees identified in §226.4c(4).

   ii. Amount of credit extended. Fees for increasing the credit limit on the account, whether at the consumer’s request or unilaterally by the creditor.

   iii. Timing or method of billing or payment. Fees to pay by telephone or via the Internet.

3. Threshold test. If the creditor is unsure whether a particular charge is a cost imposed as part of the plan, the creditor may at its option consider such charges as a cost imposed as part of the plan for purposes of the Truth in Lending Act.

Paragraph 6(b)(3)(i)(B).

1. Fees for package of services. A fee to join a credit union is an example of a fee for a package of services that is not imposed as part of the plan, even if the consumer must join the credit union to apply for credit. In contrast, a membership fee is an example of a fee for a package of services that is considered to be imposed as part of a plan where the primary benefit of membership in the organization is the opportunity to apply for a credit card, and the other benefits offered (such as a newsletter or a member information hotline) are merely incidental to the credit feature.

6(b)(4) Disclosure of rates for open-end (not home-secured) plans.

   i. Description of variable-rate plans. Creditors must provide sufficient description of variable-rate plans so that a consumer can use the description to compare plans and to determine whether a variable rate is tied to a specific index or formula. Creditors are not required to disclose rates by a specific formula.

   ii. If only one periodic interest rate may be applied to the entire account balance.

   a. Rate changes that are tied to the rate the creditor pays on its six-month certificates of deposit.

   b. Rate changes that are tied to the Treasury bill rates.

   c. Rate changes that are tied to changes in the creditor’s commercial lending rate.

   iii. Examples of open-end plans that permit the rate to change and are considered variable-rate plans include:

      a. Rate changes that are invoked under a creditor’s contract reservation to increase the rate without reference to such an index or formula (for example, a plan that simply provides that the creditor reserves the right to raise its rates).

      b. Rate changes that are triggered by a specific event such as an open-end credit plan in which the employee receives a lower rate contingent upon employment, and the rate increases upon termination of employment.

      c. Variable-rate plan—circumstances for increase.

      i. The following are examples that comply with the requirement to disclose circumstances under which the rate(s) may increase:

         a. “The Treasury bill rate increases.”

1. Range of balances. Creditors are not required to disclose the range of balances:

   i. If only one periodic interest rate may be applied to the entire account balance.

   ii. If only one periodic interest rate may be applied to the entire balance for a feature (for example, cash advances), even though the balance for another feature (purchases) may be subject to two rates (a 1.5% monthly periodic interest rate on purchase balances of $0–$500, and a 1% periodic interest rate for balances above $500). In this example, the creditor must give a range of balances disclosure for the purchase feature.

Paragraph 6(b)(4)(i)(D).

1. Explanation of balance computation method. Creditors do not provide a sufficient explanation of a balance computation method by using a shorthand phrase such as “previous balance method” or the name of a balance computation method listed in §226.5a(g). (See Model Clauses G–1(A) in Appendix G to part 226. See §226.6(b)(2)(vi) regarding balance computation descriptions in the account-opening summary.)

2. Allocation of payments. Creditors may, but need not, explain how payments and other credits are allocated to outstanding balances.

6(b)(4)(ii) Variable-rate accounts.

1. Variable-rate disclosures—coverage.

   i. Examples. Examples of open-end plans that permit the rate to change and are considered variable-rate plans include:

      a. Rate changes that are tied to the rate the creditor pays on its six-month certificates of deposit.

      b. Rate changes that are tied to Treasury bill rates.

      c. Rate changes that are tied to changes in the creditor’s commercial lending rate.

   ii. Examples of open-end plans that permit the rate to change and are not considered variable-rate include:

      a. Rate changes that are invoked under a creditor’s contract reservation to increase the rate without reference to such an index or formula (for example, a plan that simply provides that the creditor reserves the right to raise its rates).

      b. Rate changes that are triggered by a specific event such as an open-end credit plan in which the employee receives a lower rate contingent upon employment, and the rate increases upon termination of employment.

      c. Variable-rate plan—circumstances for increase.

      i. The following are examples that comply with the requirement to disclose circumstances under which the rate(s) may increase:

         a. “The Treasury bill rate increases.”

773
ii. Disclosing the frequency with which the rate may increase includes disclosing when the increase will take effect; for example:

A. "An increase will take effect on the day that the Treasury bill rate increases."

B. "An increase in the Federal Reserve discount rate will take effect on the first day of the creditor’s billing cycle.

3. Variable-rate plan—limitations on increase. In disclosing any limitations on rate increases, limitations such as the maximum increase per year or the maximum increase over the duration of the plan must be disclosed. When there are no limitations, the creditor may, but need not, disclose that fact. Legal limits such as usury or rate ceilings under State or Federal statutes or regulations need not be disclosed. Examples of limitations that must be disclosed include:

i. "The rate on the plan will not exceed 25% annual percentage rate."

ii. "Not more than 1⁄2 of 1% increase in the annual percentage rate per year will occur."

4. Variable-rate plan—effects of increase. Examples of effects of rate increases that must be disclosed include:

i. Any requirement for additional collateral if the annual percentage rate increases beyond a specified rate.

ii. Any increase in the scheduled minimum periodic payment amount.

5. Discounted variable-rate plans. In some variable-rate plans, creditors may set an initial interest rate that is not determined by the index or formula used to make later interest rate adjustments. Typically, this initial rate is lower than the rate would be if it were calculated using the index or formula.

i. For example, a creditor may calculate interest rates according to a formula using the six-month Treasury bill rate plus a percentage margin. If the current Treasury bill rate is 10 percent, the creditor may forgo the 2 percent spread and charge only 10 percent for a limited time, instead of setting an initial rate of 12 percent, or the creditor may disregard the index or formula and set the initial rate at 9 percent.

ii. When creditors disclose in the account-opening disclosures an initial rate that is not calculated using the index or formula for later rate adjustments, the disclosure should reflect:

A. The initial rate (expressed as a periodic rate and a corresponding annual percentage rate), together with a statement of how long the initial rate will remain in effect;

B. The current rate that would have been applied using the index or formula (also expressed as a periodic rate and a corresponding annual percentage rate); and

C. The other variable-rate information required by §226.6(b)(4)(ii).

6(b)(4)(iii) Rate changes not due to index or formula.

1. Events that cause the initial rate to change.

i. Changes based on expiration of time period.

If the initial rate will change at the expiration of a time period, creditors that disclose the initial rate in the account-opening disclosure must identify the expiration of the time period and the fact that the initial rate will end at that time.

ii. Changes based on specified contract terms.

If the account agreement provides that the creditor may change the initial rate upon the occurrence of specified event or events, the creditor must identify the event or events. Examples include the consumer not making the required minimum payment when due, or the termination of an employee preferred rate when the employment relationship is terminated.

2. Rate that will apply after initial rate changes.

i. Increased margins. If the initial rate is based on an index and the rate may increase due to a change in the margin applied to the index, the creditor must disclose the increased margin. If more than one margin could apply, the creditor may disclose the highest margin.

ii. Risk-based pricing. In some plans, the amount of the rate change depends on how the creditor weighs the occurrence of events specified in the account agreement that authorize the creditor to change rates, as well as other factors. Creditors must state the increased rate that may apply. At the creditor’s option, the creditor may state the possible rates as a range, or by stating only the highest rate that could be assessed. The creditor must disclose the period for which the increased rate will remain in effect, such as “until you make three timely payments,” or if there is no limitation, the fact that the increased rate may remain indefinitely.

iii. Effect of rate change on balances. Creditors must disclose information to consumers about the balance to which the new rate will apply and the balance to which the current rate at the time of the change will apply. Creditors that are subject to 12 CFR §227.24 or similar law may be subject to certain restrictions on the application of increased rates to certain balances.

6(b)(5) Additional disclosures for open-end (not home-secured) plans.

6(b)(5)(i) Voluntary credit insurance, debt cancellation or debt suspension.

1. Timing. Under §226.4(d), disclosures required to exclude the cost of voluntary credit insurance or debt cancellation or debt suspension coverage from the finance charge must be provided before the consumer agrees to the purchase of the insurance or coverage. Creditors comply with §226.6(b)(5)(i) if they provide those disclosures in accordance with §226.4(d). For example, if the disclosures required by §226.4(d) are provided at application, creditors need not repeat those disclosures at account opening.

6(b)(5)(ii) Security interests.
1. General. Creditors are not required to use specific terms to describe a security interest, or to explain the type of security or the creditor's rights with respect to the collateral.

2. Identification of property. Creditors sufficiently identify collateral by type by stating, for example, motor vehicle or household appliances. (Creditors should be aware, however, that the federal credit practices rules, as well as some state laws, prohibit certain security interests in household goods.) The creditor may, at its option, provide a more specific identification (for example, a model and serial number.)

3. Spreader clause. If collateral for pre-existing credit with the creditor will secure the plan being opened, the creditor must disclose that fact. (Such security interests may be known as "spreader" or "dragnet" clauses, or as "cross-collateralization" clauses.) The creditor need not specifically identify the collateral; a reminder such as "collateral securing other loans with us may also secure this loan" is sufficient. At the creditor's option, a more specific description of the property involved may be given.

4. Additional collateral. If collateral is required when advances reach a certain amount, the creditor should disclose the information available at the time of the account-opening disclosures. For example, if the creditor knows that a security interest will be taken in household goods if the consumer's balance exceeds $1,000, the creditor should disclose accordingly. If the creditor knows that security will be required if the consumer's balance exceeds $1,000, but the creditor does not know what security will be required, the creditor must disclose on the initial disclosure statement that security will be required if the balance exceeds $1,000, and the creditor must provide a change-in-terms notice under §226.9(c) at the time the security is taken. (See comment 6(b)(5)(ii)-2.)

5. Collateral from third party. Security interests taken in connection with the plan must be disclosed, whether the collateral is owned by the consumer or a third party.

6. Statement of billing rights. 6(b)(5)(iii) Statement of billing rights.

1. See the commentary to Model Forms G-3(A) and G-4(A).

Section 226.7—Periodic Statement

1. Multifeatured plans. Some plans involve a number of different features, such as purchases, cash advances, or overdraft checking. Groups of transactions subject to different finance charge terms because of the dates on which the transactions took place are treated like different features for purposes of disclosures on the periodic statements. The commentary includes additional guidance for multifeatured plans.

2. Credit balances. If the previous balance is a credit balance, it must be disclosed in such a way as to inform the consumer that it is a credit balance, rather than a debit balance.

3. Accrued finance charges allocated from payments. Some open-end credit plans provide that the amount of the finance charge that has accrued since the consumer's last payment is directly deducted from each new payment, rather than being separately added to each statement and reflected as an increase in the obligation. In such a plan, the previous balance need not reflect finance charges accrued since the last payment.

4. Totals. A total of amounts credited during the billing cycle is not required.
7(a)(4) Periodic rates.

1. Disclosure of periodic rates—whether or not actually applied. Except as provided in §226.7(a)(4)(ii), any periodic rate that may be used to compute finance charges (and corresponding annual percentage rate) must be disclosed whether or not it is applied during the billing cycle. For example:

i. If the consumer’s account has both a purchase feature and a cash advance feature, the creditor must disclose the rate for each, even if the consumer only makes purchases on the account during the billing cycle.

ii. If the rate varies (such as when it is tied to a particular index), the creditor must disclose each rate in effect during the cycle for which the statement was issued.

2. Disclosure of periodic rates required only if imposition possible. With regard to the periodic rate disclosure (and its corresponding annual percentage rate), only rates that could have been imposed during the billing cycle reflected on the periodic statement need to be disclosed. For example:

i. If the creditor is changing rates effective during the next billing cycle (because of a variable-rate plan), the rates required to be disclosed under §226.7(a)(4) are only those in effect during the billing cycle reflected on the periodic statement. For example, if the monthly rate applied during May was 1.5%, but the creditor will increase the rate to 1.8% effective June 1, 1.5% (and its corresponding annual percentage rate) must be disclosed when reflecting the May account activity.

ii. If rates applicable to a particular type of transaction changed after a certain date and the old rate is only being applied to transactions that took place prior to that date, the creditor need not disclose the old rate for those consumers that have no outstanding balances to which that rate could be applied.

3. Multiple rates—same transaction. If two or more periodic rates are applied to the same balance for the same type of transaction (for example, if the finance charge consists of a monthly periodic rate of 1.5% applied to the outstanding balance and a required credit life insurance component calculated at 0.1% per month on the same outstanding balance), the creditor may disclose either of the following:

i. Disclose each periodic rate, the range of balances to which it is applicable, and the corresponding annual percentage rate for each. (For example, 1.5% monthly, 1.8% annual percentage rate; 0.1% monthly, 1.2% annual percentage rate.)

ii. Disclose one composite periodic rate (that is, 1.6% per month) along with the applicable range of balances and the corresponding annual percentage rate.

4. Corresponding annual percentage rate. In disclosing the annual percentage rate that corresponds to each periodic rate, the creditor may use “corresponding annual percentage rate,” “nominal annual percentage rate,” “corresponding nominal annual percentage rate,” or similar phrases.

5. Rate same as actual annual percentage rate. When the corresponding rate is the same as the annual percentage rate disclosed under §226.7(a)(7), the creditor need disclose only one annual percentage rate, but must use the phrase “annual percentage rate.”

6. Range of balances. See comment 6(a)(7)(ii). A creditor is not required to adjust the range of balances disclosure to reflect the balance below which only a minimum charge applies.

7(a)(5) Balance on which finance charge computed.

1. Limitation to periodic rates. Section 226.7(a)(5) only requires disclosure of the balance(s) to which a periodic rate was applied and does not apply to balances on which other kinds of finance charges (such as transaction charges) were imposed. For example, if a consumer obtains a $1,500 cash advance subject to both a 1% transaction fee and a 1% monthly periodic rate, the creditor need only disclose the balance subject to the monthly rate (which might include portions of earlier cash advances not paid off in previous cycles).

2. Split rates applied to balance ranges. If split rates were applied to a balance because different portions of the balance fall within two or more balance ranges, the creditor need not separately disclose the portions of the balance subject to such different rates since the range of balances to which the rates apply has been separately disclosed. For example, a creditor could disclose a balance of $700 for purchases even though a monthly periodic rate of 1.5% applied to the first $500, and a monthly periodic rate of 1% to the remainder. This option to disclose a combined balance does not apply when the finance charge is computed by applying the split rates to each day’s balance (in contrast, for example, to applying the rates to the average daily balance). In that case, the balances must be disclosed using any of the options that are available if two or more daily rates are imposed. (See comment 7(a)(5).)

3. Monthly rate on average daily balance. Creditors may apply a monthly periodic rate to an average daily balance.

4. Multifeatured plans. In a multifeatured plan, the creditor must disclose a separate balance (or balances, as applicable) to which a periodic rate was applied for each feature or group of features subject to different periodic rates or different balance computation methods. Separate balances are not required, however, merely because a grace period is available for some features but not others. A total balance for the entire plan is optional. This does not affect how many balances the creditor must disclose—or may disclose—
Federal Reserve System

Pt. 226, Supp. I, NI.

within each feature. (See, for example, comment 7(a)(5)–5.)

5. Daily rate on daily balances. i. If the finance charge is computed on the balance each day by application of one or more daily periodic rates, the balance on which the finance charge was computed may be disclosed in any of the following ways for each feature:

   A. Non-deduction of credits. The creditor need not specifically identify the total dollar amount of credits not deducted in computing the finance charge. Disclosure of the amount of credits not deducted is accomplished by listing the credits (§226.7(a)(3)) and indicating which credits will not be deducted in determining the balance (for example, “credits after the 15th of the month are not deducted in computing the finance charge.”).

   B. A balance for each day in the billing cycle.

   C. The sum of the daily balances during the billing cycle.

   D. The average daily balance during the billing cycle, in which case the creditor shall explain that the average daily balance is or can be multiplied by the number of days in the billing cycle and the periodic rate applied to the product to determine the amount of the finance charge.

   iii. If two or more daily periodic rates may be imposed, the balance to which the rates are applicable may be stated as:

      A. A balance for each day in the billing cycle.

      B. A balance for each day in the billing cycle on which the balance in the account changes.

      C. Two or more average daily balances, each applicable to the daily periodic rates imposed for the time that those rates were in effect, as long as the creditor explains that the finance charge is or may be determined by (1) multiplying each of the average balances by the number of days in the billing cycle (or if the daily rate varied during the cycle, by multiplying by the number of days the applicable rate was in effect), (2) multiplying each of the results by the applicable daily periodic rate, and (3) adding these products together.

   7. Information to compute balance. In connection with disclosing the finance charge balance, the creditor need not give the consumer all of the information necessary to compute the balance if that information is not otherwise required to be disclosed. For example, if current purchases are included from the date they are posted to the account, the posting date need not be disclosed.

   8. Non-deduction of credits. The creditor need not specifically identify the total dollar amount of credits not deducted in computing the finance charge. Disclosure of the amount of credits not deducted is accomplished by listing the credits (§226.7(a)(3)) and indicating which credits will not be deducted in determining the balance (for example, “credits after the 15th of the month are not deducted in computing the finance charge.”).

   9. Use of one balance computation method explanation when multiple balances disclosed. Sometimes the creditor will disclose more than one balance to which a periodic rate was applied, even though each balance was computed using the same balance computation method. For example, if a plan imposes charges that are subject to different rates, more than one balance must be disclosed, even though the same computation method is used for determining the balance for each feature. In these cases, one explanation of the balance computation method is sufficient. Sometimes the creditor separately discloses the portions of the balance that are subject to different rates because different portions of the balance fall within two or more balance ranges, even when a combined balance disclosure would be permitted under comment 7(a)(5)–2. In these cases, one explanation of the balance computation method is also sufficient (assuming, of course, that all portions of the balance were computed using the same method).

7(a)(6) Amount of finance charge and other charges.

Paragraph 7(a)(6)(i).

1. Total. A total finance charge amount for the plan is not required.

2. Itemization—types of finance charges. Each type of finance charge (such as periodic rates, transaction charges, and minimum charges) imposed during the cycle must be separately itemized; for example, disclosure of only a combined finance charge attributable to both a minimum charge and transaction charges would not be permissible. Finance charges of the same type may be disclosed, however, individually or as a total. For example, if a creditor charges 1.5% per month on the first $500 of a balance and 2% per month on amounts over $500, the creditor may itemize the two components ($75.00 and $10.00) of the $85.00 charge, or may disclose $85.00.

3. Itemization—different periodic rates. Whether different periodic rates are applicable to different types of transactions or to different balance ranges, the creditor may give the finance charge attributable to each rate or may give a total finance charge amount. For example, if a creditor charges 1.5% per month on the first $500 of a balance and 2% per month on amounts over $500, the creditor may itemize the two components ($75.00 and $10.00) of the $85.00 charge, or may disclose $85.00.

4. Multifeatured plans. In a multifeatured plan, in disclosing the amount of the finance charge attributable to the application of periodic rates no total periodic rate disclosure for the entire plan need be given.

5. Finance charges not added to account. A finance charge that is not included in the New balance because it is payable to a third party (such as required life insurance) must still be shown on the periodic statement as a finance charge.
6. Finance charges other than periodic rates. See comment 6(a)(1)(iv)–1 for examples.

7. Accrued finance charges allocated from payments. Some plans provide that the amount of the finance charge that has accrued since the consumer's last payment is directly deducted from each new payment, rather than being separately added to each statement, and therefore reflected as an increase in the obligation. In such a plan, no disclosure is required of finance charges that have accrued since the last payment.

8. Start-up fees. Points, loan fees, and similar finance charges relating to the opening of a billing cycle, the type is adequately described as start-up fees. Similarly, closing costs or settlement costs, for example, may be used to describe charges imposed in connection with real estate transactions that are excluded from the finance charge under § 226.4(c)(7), if the same term (such as closing costs) was used in the initial disclosures and if the creditor chose to itemize and individually disclose the costs included in that term. Even though the taxes and filing or notary fees excluded from the finance charge under § 226.4(e) are not required to be disclosed as other charges under § 226.6(a)(2), these charges may be included in the amount shown as closing costs or settlement costs on the periodic statement, if the charges were itemized and disclosed as part of the closing costs or settlement costs on the initial disclosure statement. (See comment 6(a)(2)–1 for examples of other charges.)

9. Date. The date of imposing or debiting other charges need not be disclosed.

10. Total. Disclosure of the total amount of other charges is optional.

11. Itemization—types of other charges. Each type of other charge (such as late-payment charges, over-the-credit-limit charges, and membership fees) imposed during the cycle must be separately itemized; for example, disclosure is required of a total of other charges attributable to both an over-the-credit-limit charge and a late-payment charge would not be permissible. Other charges of the same type may be disclosed, however, individually or as a total. For example, three fees of $3 for providing copies related to the resolution of a billing error could be listed separately or as $9.

12. Annual percentage rate.
Deferred interest transactions. Creditors offer a variety of payment plans for purchases that permit consumers to avoid interest charges if the purchase balance is paid in full by a certain date. The following provides guidance for a deferred interest plan where, for example, no interest charge is imposed on a $500 purchase made in January if the $500 balance is paid by March 31. The following guidance does not apply to card issuers that are subject to 12 CFR § 227.24 or similar law guidance does not apply to card issuers that are subject to 12 CFR § 227.24 or similar law guidance for a deferred interest plan where, for example, no interest charge is imposed on a deferred interest balance ($500 in this example) if the deferred interest balance is not paid by a certain date, March 31 in this example. Periodic statements for billing cycles preceding March 31 in this example should not include in the interest charge disclosed under §226.7(b)(6)(ii) the amounts a consumer may owe if the deferred interest balance is not paid in full by March 31. In this example, the February periodic statement should not identify as interest charges interest attributable to the $500 January purchase. At the creditor’s option, this amount may be separately disclosed on periodic statements provided it is identified by a term other than “interest charge” (such as “contingent interest charge” or “deferred interest charge”). The interest charge on a deferred interest balance should be reflected on the periodic statement under §226.7(b)(6)(ii) for the billing cycle in which the interest charge is debited to the account.

Grace period. Assuming monthly billing cycles ending at month-end and a grace period ending on the 29th of the following month, the following are four examples illustrating how a creditor may comply with the requirement to disclose the grace period applicable to a deferred interest balance ($500 in this example) and with the 14-day rule for mailing or delivering periodic statements before imposing finance charges (see §226.5):

A. The creditor could include the $500 purchase on the periodic statement reflecting account activity for February and sent on March 1 and identify March 31 as the payment-due date for the $500 purchase. (The creditor could also identify March 31 as the payment-due date for any other amounts that would normally be due on March 25.)

B. The creditor could include the $500 purchase on the periodic statement reflecting activity for March and sent on April 1 and identify April 25 as the payment-due date for the $500 purchase, permitting the consumer to avoid finance charges if the $500 is paid in full by April 25.

C. The creditor could include the $500 purchase and its due date on each periodic statement sent during the deferred interest period (January, February, and March in this example).

D. If the due date for the deferred interest balance is March 7 (instead of March 31), the creditor could include the $500 purchase and its due date on the periodic statement reflecting activity for January and sent on March 7.

February 1, the most recent statement sent at least 14 days prior to the due date.

7(b)(1) Previous balance.
1. Credit balances. If the previous balance is a credit balance, it must be disclosed in such a way so as to inform the consumer that it is a credit balance, rather than a debit balance.
2. Multifeatured plans. In a multifeatured plan, the previous balance may be disclosed either as an aggregate balance for the account or as separate balances for each feature (for example, a previous balance for purchases and a previous balance for cash advances). If separate balances are disclosed, a total previous balance is optional.
3. Accrued finance charges allocated from payments. Some open-end credit plans provide that the amount of the finance charge that has accrued since the consumer’s last payment is directly deducted from each new payment, rather than being separately added to each statement and reflected as an increase in the obligation. In such a plan, the previous balance need not reflect finance charges accrued since the last payment.

7(b)(2) Identification of transactions.
1. Multifeatured plans. Creditors may, but are not required to, arrange transactions by feature (such as disclosing purchase transactions separately from cash advance transactions). Pursuant to §226.7(b)(6), however, creditors must group all fees and all interest separately from transactions and may not disclose any fees or interest charges with transactions.
2. Automated teller machine (ATM) charges imposed by other institutions in shared or interchange systems. A charge imposed on the cardholder by an institution other than the card issuer for the use of the other institution’s ATM in a shared or interchange system and included by the terminal-operating institution in the amount of the transaction need not be separately disclosed on the periodic statement.

7(b)(3) Credits.
1. Identification—sufficiency. The creditor need not describe each credit by type (returned merchandise, rebate of finance charge, etc.)—“credit” would suffice—except if the creditor is using the periodic statement to satisfy the billing-error correction notice requirement. (See the commentary to §226.13(e) and (f).) Credits may be distinguished from transactions in any way that is clear and conspicuous, for example, by use of debit and credit columns or by use of plus signs and/or minus signs.
2. Date. If only one date is disclosed (that is, the crediting date as required by the regulation), no further identification of that date is necessary. More than one date may be disclosed for a single entry, as long as it is clear which date represents the date on which credit was given.
3. Totals. A total of amounts credited during the billing cycle is not required.

7(b)(4) Periodic rates.
1. Disclosure of periodic interest rates—whether or not actually applied. Except as provided in §226.7(b)(4)(ii), any periodic interest rate that may be used to compute finance charges, expressed as and labeled “Annual Percentage Rate,” must be disclosed whether or not it is applied during the billing cycle. For example:
   i. If the consumer’s account has both a purchase feature and a cash advance feature, the creditor must disclose the annual percentage rate for each, even if the consumer only makes purchases on the account during the billing cycle.
   ii. If the annual percentage rate varies (such as when it is tied to a particular index), the creditor must disclose each annual percentage rate in effect during the cycle for which the statement was issued.
2. Disclosure of periodic interest rates required only if imposition possible. With regard to the periodic interest rate disclosure (and its corresponding annual percentage rate), only rates that could have been imposed during the billing cycle reflected on the periodic statement need to be disclosed. For example:
   i. If the creditor is changing annual percentage rates effective during the next billing cycle (either because it is changing terms or because of a variable-rate plan), the annual percentage rates required to be disclosed under §226.7(b)(4) are only those in effect during the billing cycle reflected on the periodic statement. For example, if the annual percentage rate applied during May was 18%, but the creditor will increase the rate to 21% effective June 1, 18% is the only required disclosure under §226.7(b)(4) for the periodic statement reflecting the May account activity.
   ii. If the consumer has an overdraft line that might later be expanded upon the consumer’s request to include secured advances, the rates for the secured advance feature need not be given until such time as the consumer has requested and received access to the additional feature.
   iii. If annual percentage rates applicable to a particular type of transaction changed after a certain date and the old rate is only being applied to transactions that took place prior to that date, the creditor need not continue to disclose the old rate for those consumers that have no outstanding balances to which that rate could be applied.
3. Multiple rates—same transaction. If two or more periodic rates are applied to the same balance for the same type of transaction (for example, if the interest charge consists of a monthly periodic interest rate of 1.5% applied to the outstanding balance and a required credit life insurance component calculated at 0.1% per month on the same outstanding balance), creditors must disclose
the interest periodic rate, expressed as an 18% annual percentage rate and the range of balances to which it is applicable. Costs attributable to the credit life insurance component must be disclosed as a fee under §226.7(b)(6)(iii).

4. Fees. Creditors that identify fees in accordance with §226.7(b)(6)(iii) need not identify a periodic rate at which a fee would accrue if the fee remains unpaid. For example, assume a fee is imposed for a late payment in the previous cycle and that the fee, unpaid, would be included in the purchases balance and accrue interest at the rate for purchases. The creditor need not separately disclose that the purchase rate applies to the portion of the purchases balance attributable to the unpaid fee.

5. Ranges of balances. See comment 6(b)(4)(i)(B). A creditor is not required to adjust the range of balances disclosure to reflect the balance below which only a minimum charge applies.

6. Deferred interest transactions. See comment 7(b)-1.

7(b)(5) Balance on which finance charge computed.

1. Split rates applied to balance ranges. If split rates were applied to a balance because different portions of the balance fall within two or more balance ranges, the creditor need not separately disclose the portions of the balance subject to such different rates since the range of balances to which the rates apply has been separately disclosed. For example, a creditor could disclose a balance of $700 for purchases even though a monthly periodic rate of 1.5% is applied to the first $500, and a monthly periodic rate of 1% to the remainder. This option to disclose a combined balance does not apply when the interest charge is computed by applying the split rates to each day’s balance (in contrast, for example, to applying the rates to the average daily balance). In that case, the balances must be disclosed using any of the options that are available if two or more daily rates are imposed. (See comment 7(b)(5)-4.)

2. Monthly rate on average daily balance. Creditors may apply a monthly periodic rate to an average daily balance.

3. Multifeatured plans. In a multifeatured plan, the creditor must disclose a separate balance (or balances, as applicable) to which a periodic rate was applied for each feature. Separate balances are not required, however, merely because a grace period is available for some features but not others. A total balance for the entire plan is optional. This does not affect how many balances the creditor must disclose—or may disclose—within each feature. (See, for example, comments 7(b)(5)-4 and 7(b)(4)-5.)

4. Daily rate on daily balance. i. If a finance charge is computed on the balance each day by application of one or more daily periodic interest rates, the balance on which the interest charge was computed may be disclosed in any of the following ways for each feature:

   ii. If a single daily periodic interest rate is imposed, the balance on which the interest charges are computed may be disclosed as:
   A. A balance for each day in the billing cycle.
   B. A balance for each day in the billing cycle on which the balance in the account changes.
   C. The sum of the daily balances during the billing cycle.
   D. The average daily balance during the billing cycle, in which case the creditor may, at its option, explain that the average daily balance is or can be multiplied by the number of days in the billing cycle and the periodic rate applied to the product to determine the amount of interest.

   iii. If two or more daily periodic interest rates may be imposed, the balances to which the rates are applicable may be stated as:
   A. A balance for each day in the billing cycle.
   B. A balance for each day in the billing cycle on which the balance in the account changes.
   C. Two or more average daily balances, each applicable to the daily periodic interest rates imposed for the time that those rates were in effect. The creditor may, at its option, explain that interest is or may be determined by multiplying each of the average balances by the number of days in the billing cycle (or if the daily rate varied during the cycle, by multiplying by the number of days the applicable rate was in effect), multiplying each of the results by the applicable daily periodic rate, and adding these products together.

5. Information to compute balance. In connection with disclosing the interest charge balance, the creditor need not give the consumer all of the information necessary to compute the balance if that information is not otherwise required to be disclosed. For example, if current purchases are included from the date they are posted to the account, the posting date need not be disclosed.

6. Non-deduction of credits. The creditor need not specifically identify the total dollar amount of credits not deducted in computing the finance charge balance. Disclosure of the amount of credits not deducted is accomplished by listing the credits ($226.7(b)(3)) and indicating which credits will not be deducted in determining the balance (for example, “credits after the 15th of the month are not deducted in computing the interest charge.”).

7. Use of one balance computation method explanation when multiple balances disclosed. Sometimes the creditor will disclose more than one balance to which a periodic rate was applied, even though each balance was
computed using the same balance computation method. For example, if a plan involves purchases and cash advances that are subject to different rates, more than one balance must be disclosed if the same computation method is used for determining the balance for each feature. In these cases, one explanation or a single identification of the name of the balance computation method is sufficient. Sometimes the creditor separately discloses the portions of the balance that are subject to different rates because different portions of the balance fall within two or more balance ranges, even when a combined balance disclosure would be permitted under comment 7(b)(5)–1. In these cases, one explanation or a single identification of the name of the balance computation method is also sufficient (assuming, of course, that all portions of the balance were computed using the same method).

8. Deferred interest transactions. See comment 7(b)–1.
7(b)(6) Charges imposed.
1. Examples of charges. See commentary to §226.6(b)(3).
2. Fees. Costs attributable to periodic rates other than interest charges shall be disclosed as a fee. For example, if a consumer obtains credit life insurance that is calculated at 0.1% per month on an outstanding balance and a monthly interest rate of 1.5% applies to the same balance, the creditor must disclose the dollar cost attributable to interest as an “interest charge” and the credit insurance cost as a “fee.”

3. Total fees for calendar year to date.
   i. Monthly statements. Some creditors send monthly statements but the statement periods do not coincide with the calendar month. For creditors sending monthly statements, the following comply with the requirement to provide calendar year-to-date totals.
   A. A creditor may disclose a calendar-year-to-date total at the end of the calendar year by aggregating fees for 12 monthly cycles, starting with the period that begins during January and finishing with the period that begins during December. For example, if statement periods begin on the 10th day of each month, the statement covering December 10, 2011 through January 9, 2012, may disclose the year-to-date total for fees imposed from January 10, 2011, through January 9, 2012. Alternatively, the creditor could provide a statement for the cycle ending January 9, 2012, showing the year-to-date total for fees imposed from January 10, 2011, through December 31, 2011.
   B. A creditor may disclose a calendar-year-to-date total at the end of the calendar year by aggregating fees for 12 monthly cycles, starting with the period that begins during December and finishing with the period that begins during November. For example, if statement periods begin on the 10th day of each month, the statement covering November 10, 2011 through December 9, 2011, may disclose the year-to-date total for fees imposed from December 10, 2010, through December 9, 2011.
   ii. Quarterly statements. Creditors issuing quarterly statements may apply the guidance set forth for monthly statements to comply with the requirement to provide calendar year-to-date totals on quarterly statements.

4. Minimum charge in lieu of interest. A minimum charge imposed if a charge would otherwise have been determined by applying a periodic rate to a balance except for the fact that such charge is smaller than the minimum must be disclosed as a fee. For example, assume a creditor imposes a minimum charge of $1.50 in lieu of interest if the calculated interest for a billing period is less than that minimum charge. If the interest calculated on a consumer’s account for a particular billing period is $0.50 cents, the minimum charge of $1.50 would apply. In this case, the entire $1.50 would be disclosed as a fee; the periodic statement would reflect the $1.50 as a fee, and $0 in interest.

5. Adjustments to year-to-date totals. In some cases, a creditor may provide a statement for the current period reflecting that fees or interest charges imposed during a previous period were waived or reversed and credited to the account. Creditors may, but are not required to, reflect the adjustment in the year-to-date totals, nor, if an adjustment is made, to provide an explanation about the reason for the adjustment. Such adjustments should not affect the total fees or interest charges imposed for the current statement period.
7(b)(7) Change-in-terms and increased penalty rate summary for open-end (not home-secured) plans.
   1. Location of summary tables. If a change-in-terms notice required by §226.9(c)(2) is provided on or with a periodic statement, a tabular summary of key changes must appear on the front of the statement. Similarly, if a notice of a rate increase due to delinquency or default or as a penalty required by §226.9(g)(1) is provided on or with a periodic statement, information required to be provided about the increase, presented in a table, must appear on the front of the statement.
   2. Deferred interest transactions. See comment 7(b)–1.
7(b)(8) Grace period.
   1. Terminology. In describing the grace period, the language used must be consistent with that used on the account-opening disclosure statement. (See §226.5(a)(2)(ii).)
   2. Deferred interest transactions. See comment 7(b)–1.
7(b)(9) Address for notice of billing errors.
   1. Terminology. The periodic statement should indicate the general purpose for the address for billing-error inquiries, although a detailed explanation or particular wording is not required.
Federal Reserve System

Pt. 226, Supp. I, NI.

1. Telephone number. A telephone number, e-mail address, or Web site location may be included, but the mailing address for billing-error inquiries, which is the required disclosure, is required only for telephoning. The address is deemed to be clear and conspicuous if a precautionary instruction is included that telephoning or notifying the creditor by e-mail or Web site will not preserve the consumer’s billing rights, unless the creditor has agreed to treat billing error notices provided by electronic means as written notices, in which case the precautionary instruction is required only for telephoning.

7(b)(10) Closing date of billing cycle; new balance.

1. Credit balances. See comment 7(b)(1)-1.

2. Multifeatured plans. In a multifeatured plan, the new balance may be disclosed for each feature or for the plan as a whole. If separate new balances are disclosed, a total new balance is optional.

3. Accrued finance charges allocated from payments. Some plans provide that the amount of the finance charge that has accrued since the consumer’s last payment is directly deducted from each new payment, rather than being separately added to each statement and therefore reflected as an increase in the obligation. In such a plan, the new balance need not reflect finance charges accrued since the last payment.

7(b)(11) Due date; late payment costs.

1. Informal periods affecting late payments. Although the terms of the account agreement may provide that a creditor may assess a late-payment fee if a payment is not received by a certain date, creditors sometimes have an informal policy or practice that delays the assessment of the late-payment fee for payments received a brief period of time after the date upon which a creditor has the contractual right to impose the fee. Creditors must disclose the due date according to the legal obligation between the parties, and need not consider the end of an informal “courtesy period” as the due date under §226.7(b)(11).

2. Laws affecting assessment of late-payment fees. Some state or other laws require that a certain number of days must elapse following a due date before a late-payment fee may be imposed. For example, assume a payment is due on March 10 and state law provides that a late-payment fee cannot be assessed before March 21. Creditors must disclose the due date under the terms of the legal obligation (March 10 in this example), and not a date different than the due date, such as when creditors are required by state or other law to delay for a specified period following a due date.

7(b)(12) Minimum payment.

1. Third parties. At their option, card issuers and the Federal Trade Commission (FTC) may use a third party to establish and maintain a toll-free telephone number for use by the issuer or the FTC to provide the generic repayment estimates or actual repayment disclosures, as applicable.

2. Automated response systems or devices. At their option, card issuers and the FTC may use toll-free telephone numbers that connect consumers to automated systems, such as an interactive voice response system, through which consumers may obtain the generic repayment estimates or actual repayment disclosures described in Appendix M1 or M2 to part 226, as applicable, by inputting information using a touch-tone telephone or similar device. However, consumers whose telephones are not equipped to use such automated devices must be provided the opportunity to be connected to an individual from whom the information may be obtained.

3. Toll-free telephone number. An issuer may provide a toll-free telephone number that is designed to handle customer service calls generally, so long as the option to select to
receive the generic repayment estimate or actual repayment disclosure, as applicable, through that toll-free telephone number is prominently disclosed to the consumer. For automated systems, the option to select to receive the generic repayment estimate or actual repayment disclosure is prominently disclosed to the consumer if it is listed as one of the options given to the consumer, such as "Press or say '3' if you would like an estimate of how long it will take you to repay your balance if you make only the minimum payment each month." If the automated system permits callers to select the language in which the call is conducted and in which information is provided, the menu to select the language may precede the menu with the option to receive the generic repayment estimate or actual repayment disclosure.

4. Web site address. When making the minimum payment disclosure on the periodic statement pursuant to §226.7(b)(12)(ii) or (b)(12)(iii), an issuer at its option may also include a reference to a Web site address (in addition to the toll-free telephone number) where its customers may obtain generic repayment estimates or actual repayment disclosures, so long as the information provided on the Web site complies with §226.7(b)(12), and Appendix M1 or M2 to part 226 as applicable. The Web site link disclosed must take consumers directly to the Web page where generic repayment estimates or actual repayment disclosures may be obtained.

5. Advertising or marketing information. If a consumer requests the generic repayment estimate or the actual repayment disclosure, as applicable, the card issuer may not provide advertisements or marketing materials to the consumer (except for providing the name of the issuer) prior to providing the information required or permitted by Appendix M1 or M2 to part 226, as applicable. Educational materials that do not solicit business are not considered advertisements or marketing materials for this purpose. Examples:

i. Toll-free telephone number. As described in comment 7(b)(12)–3, an issuer may provide a toll-free telephone number that is designed to handle customer service calls generally, so long as the option to select to receive the generic repayment estimate or actual repayment disclosure, as applicable, through that toll-free telephone number is prominently disclosed to the consumer. Once the consumer selects the option to receive the generic repayment estimate or the actual repayment disclosure, the issuer may not provide advertisements or marketing materials to the consumer (except for providing the name of the issuer) prior to providing the information required or permitted by Appendix M1 or M2 to part 226, as applicable.

ii. Web page. If the issuer discloses a link to a Web site as part of the minimum payment disclosure pursuant to comment 7(b)(12)–4, the issuer may not provide advertisements or marketing materials (except for providing the name of the issuer) on the Web page accessed by the link, including links to automated systems, marketing materials or banner marketing materials, prior to providing the information required or permitted by Appendix M1 or M2 to part 226, as applicable. The Web site link disclosed must take consumers directly to the Web page where its customers may obtain generic repayment estimates or actual repayment disclosure, as applicable, the card issuer may not provide advertisements or marketing materials (except for providing the name of the issuer) on the Web page accessed by the link, including pop-up advertisements or marketing materials or banner marketing materials, prior to providing the information required or permitted by Appendix M1 or M2 to part 226, as applicable. The Web site link disclosed must take consumers directly to the Web page where generic repayment estimates or actual repayment disclosures may be obtained.

1. Exemption for credit card accounts with a fixed repayment period. The exemption in §226.7(b)(12)(v)(E) applies only if the account agreement specifies a fixed repayment period for the entire account, such as requiring a minimum payment that will pay off the entire balance on the account in one year. This exemption would apply, for example, to accounts that have been closed due to delinquency and where the required monthly payment has been reduced or the balance decreased to accommodate a fixed payment for a fixed period of time designed to pay off the outstanding balance. This exemption would not apply where a feature of a credit card may have a fixed repayment period, but the account as a whole does not. For example, assume a retail credit card has several features. One feature is a general revolving feature, where the required minimum payment for this feature does not pay off the balance in a fixed period of time. Another feature allows consumers to make specific types of purchases (such as furniture purchases, or other large purchases), with a required minimum payment that will pay off the purchase within a fixed period of time, such as one year. This exemption would not apply because the retail card account as a whole does not have a fixed repayment period. Nonetheless, these types of retail cards may qualify for the exemption in §226.7(b)(12)(v)(F).

2. Exemption for certain credit card accounts with fixed repayment period feature. The exemption in §226.7(b)(12)(v)(F) applies if the entire outstanding balance for a particular billing cycle falls within a feature with a fixed repayment period that is specified in the account agreement, such as requiring a minimum payment that will pay off the entire balance on that feature in one year. For example, assume a retail card has several features. One feature is a general revolving feature, where the required minimum payment for this feature does not pay off the balance in a fixed period of time. Another
feature allows consumers to make specific types of purchases (such as furniture pur-
chases, or other large purchases), with a re-
quired minimum payment that will pay off 
the purchase within a fixed period of time, 
such as one year. This exemption applies if 
the entire outstanding balance for a par-
ticular billing cycle relates to the feature 
with the fixed repayment period. In that 
case, the issuer would not need to provide 
the minimum payment disclosures for that 
billing cycle. If the consumer used a general 
revolving feature during a billing period, 
this exemption would not apply.

7(b)(13) Format requirements.
1. Combined deposit account and credit ac-
count statements. Some financial institutions 
provide information about deposit account 
and open-end credit account activity on one 
periodic statement. For purposes of pro-
viding disclosures on the front of the first 
page of the periodic statement pursuant to 
§ 226.7(b)(13), the first page of such a com-
bined statement shall be the page on which 
credit transactions first appear.

Section 226.8—Identifying Transactions on 
Periodic Statements
8(a) Sale credit.
1. Sale credit. The term "sale credit" refers 
to a purchase in which the consumer uses a 
credit card or otherwise directly accesses an 
open-end line of credit (see comment 8(b)–1 if 
access is by means of a check) to obtain goods 
or services from a merchant, whether 
or not the merchant is the card issuer or 
creditor. "Sale credit" includes:
   i. The purchase of funds-transfer services 
      (such as a wire transfer) from an inter-
      medary
   ii. The purchase of services from the card 
       issuer or creditor. For the purchase of serv-
       ices that are costs imposed as part of the 
       plan under §226.6(b)(3), card issuers and 
       creditors comply with the requirements for 
       identifying transactions under this section 
       by disclosing the fees in accordance with the 
       requirements of §226.7(b)(6). For the pur-
       chases of services that are not costs imposed 
       as part of the plan, card issuers and creditors 
       may, at their option, identify transactions 
       under this section or in accordance with the 
       requirements of §226.7(b)(6).
2. Amount—transactions not billed in full. If 
sale transactions are not billed in full on any 
single statement, but are billed periodically 
in precomputed installments, the first peri-
odic statement reflecting the transaction 
must show either the full amount of the 
transaction together with the date the trans-
action actually took place; or the amount of 
the first installment that was debited to the 
account together with the date of the trans-
action or the date on which the first install-
ment was debited to the account. In any 
event, subsequent periodic statements 
should reflect each installment due, together 
with either any other identifying informa-
tion required by §226.8(a) (such as the seller's 
name and address in a three-party situation) 
or other appropriate identifying information 
relating the transaction to the first billing. 
The debiting date for the particular install-
ment, or the date the transaction took place, 
may be used as the date of the transaction 
on these subsequent statements.
3. Date—when a transaction takes place.
   i. If the consumer conducts the transaction 
in person, the date of the transaction is the 
calendar date on which the consumer made 
the purchase or order, or secured the ad-
vance.
   ii. For transactions billed to the account 
on an ongoing basis (other than installments 
to pay a precomputed amount), the date of 
the transaction is the date on which the 
amount is debited to the account. This 
might include, for example, monthly insur-
ance premiums.
   iii. For mail, Internet, or telephone orders, 
a creditor may disclose as the transaction 
date either the invoice date, the debiting 
date, or the date the order was placed by 
phone or via the Internet.
   iv. In a foreign transaction, the debiting 
date may be considered the transaction date.
4. Date—sufficiency of description.
   i. If the creditor discloses only the date of 
      the transaction, the creditor need not iden-
      tify it as the "transaction date." If the cred-
      itor discloses more than one date (for exam-
      ple, the transaction date and the posting 
      date), the creditor must identify each.
   ii. The month and day sufficiently identify 
      the transaction date, unless the posting of 
      the transaction is delayed so long that the 
      year is needed for a clear disclosure to the 
      consumer.
5. Same or related persons. i. For purposes of 
identifying transactions, the term same or re-
lated persons refers to, for example:
   A. Franchised or licensed sellers of a credi-
tor's product or service.
   B. Sellers who assign or sell open-end sales 
accounts to a creditor or arrange for such 
credit under a plan that allows the consumer 
to use the credit only in transactions with 
that seller.
   ii. A seller is not related to the creditor 
merely because the seller and the creditor 
have an agreement authorizing the seller to 
honor the creditor's credit card.
6. Brief identification-sufficiency of descrip-
tion. The "brief identification" provision in 
§226.8(a)(1)(i) requires a designation that will 
enable the consumer to reconcile the peri-
odic statement with the consumer's own 
records. In determining the sufficiency of 
the description, the following rules apply:
   i. While item-by-item descriptions are not 
necessary, reasonable precision is required. 
For example, "merchandise," "miscella-
neous," "second-hand goods," or "pro-
motional items" would not suffice.

Federal Reserve System
Pt. 226, Supp. I, NI.
ii. A reference to a department in a sales establishment that accurately conveys the identification of the types of property or services available in the department is sufficient—for example, “jewelry,” or “sporting goods.”

iii. A number or symbol that is related to an identification list printed elsewhere on the statement that reasonably identifies the transaction with the creditor is sufficient.

7. Seller’s name—sufficiency of description. The requirement contemplates that the seller’s name will appear on the periodic statement in essentially the same form as it appears on transaction documents provided to the consumer at the time of the sale. The seller’s name may also be disclosed as, for example:

i. A more complete spelling of the name that was alphabetically abbreviated on the receipt or other credit document.

ii. An alphabetical abbreviation of the name on the periodic statement even if the name appears in a more complete spelling on the receipt or other credit document. Terms that merely indicate the form of a business entity, such as “Inc.”, “Co.,” or “Ltd.,” may always be omitted.

8. Location of transaction.

i. If the seller has multiple stores or branches within a city, the creditor need not identify the specific branch at which the sale occurred.

ii. When no meaningful address is available because the consumer did not make the purchase at any fixed location of the seller, the creditor may omit the address, or may provide some other identifying designation, such as “aboard plane,” “ABC Airways Flight,” “customer’s home,” “telephone order,” “Internet order” or “mail order.”

8(b) Nonsale credit.

1. Nonsale credit. The term “nonsale credit” refers to any form of loan credit including, for example:

i. A cash advance.

ii. An advance on a credit plan that is accessed by overdrafts on a checking account.

iii. The use of a “supplemental credit device” in the form of check or draft or the use of the overdraft credit plan accessed by a debit card, even if such use is in connection with a purchase of goods or services.

iv. Miscellaneous debits to remedy mispostings, returned checks, and similar entries.

2. Amount—overdraft credit plans. If credit is extended under an overdraft credit plan tied to a checking account or by means of a debit card tied to an overdraft credit plan:

i. The amount to be disclosed is that of the credit extension, not the face amount of the check or the total amount of the debit/credit transaction.

ii. The creditor may disclose the amount of the credit extensions on a cumulative daily basis, rather than the amount attributable to each check or each use of the debit card that accesses the credit plan.

3. Date of transaction. See comment 8(a)–4.

4. Nonsale transaction—sufficiency of identification. The creditor sufficiently identifies a nonsale transaction by describing the type of advance it represents, such as cash advance, loan, overdraft loan, or any readily understandable trade name for the credit program.

Section 226.9—Subsequent Disclosure Requirements

9(a) Furnishing statement of billing rights.

9(a)(1) Annual statement.

1. General. The creditor may provide the annual billing rights statement:

i. By sending it in one billing period per year to each consumer that gets a periodic statement for that period; or

ii. By sending a copy to all of its accountholders sometime during the calendar year but not necessarily all in one billing period (for example, sending the annual notice in connection with renewal cards or when imposing annual membership fees).

2. Substantially similar. See the commentary to Model Forms G–3 and G–3(A) in Appendix G to part 226.

9(a)(2) Alternative summary statement.

1. Changing from long-form to short form statement and vice versa. If the creditor has been sending the long-form annual statement, and subsequently decides to use the alternative summary statement, the first summary statement must be sent no later than 12 months after the last long-form statement was sent. Conversely, if the creditor wants to switch to the long-form, the first long-form statement must be sent no later than 12 months after the last summary statement.

2. Substantially similar. See the commentary to Model Forms G–4 and G–4(A) in Appendix G to part 226.

9(b) Disclosures for supplemental credit access devices and additional features.

1. Credit access device—examples. Credit access device includes, for example, a blank check, payee-designated check, blank draft or order, or authorization form for issuance of a check; it does not include a check issued payable to a consumer representing loan proceeds or the disbursement of a cash advance.

2. Credit account feature—examples. A new credit account feature would include, for example:

i. The addition of overdraft checking to an existing account (although the regular checks that could trigger the overdraft feature are not themselves “devices”).

ii. The option to use an existing credit card to secure cash advances, when previously the card could only be used for purchases.

Paragraph 9(b)(2).

1. Different finance charge terms. Except as provided in §226.9(b)(3) for checks that access a credit card account, if the finance charge
terms are different from those previously disclosed, the creditor may satisfy the requirement to give the finance charge terms either by giving a complete set of new account-opening disclosures reflecting the terms of the added device or feature or by giving only the finance charge disclosures for the added device or feature.

9(b)(3) Checks that access a credit card account.

9(b)(3)(i) Disclosures.

1. Front of the page containing the checks. The following would comply with the requirement that the tabular disclosures provided pursuant to §226.9(b)(3) appear on the front of the page containing the checks:
   i. Providing the tabular disclosure on the front of the first page on which checks appear, for an offer where checks are provided on multiple pages;
   ii. Providing the tabular disclosure on the front of a mini-book or accordion booklet containing the checks; or
   iii. Providing the tabular disclosure on the front of the solicitation letter, when the checks are printed on the front of the same page as the solicitation letter even if the checks can be separated by the consumer from the solicitation letter using perforations.

Paragraph 9(b)(3)(i)(D).

1. Grace period. Creditors may use the following language to describe a grace period on check transactions: “Your due date is [at least] ___ days after the close of each billing cycle. We will not charge you interest on check transactions if you pay your entire balance by the due date each month.” Creditors may use the following language to describe that no grace period on check transactions is offered, as applicable: “We will begin charging interest on these checks on the transaction date.”

9(c) Change in terms.

9(c)(1) Rules affecting home-equity plans.

1. Changes initially disclosed. No notice of a change in terms need be given if the specific change is set forth initially, such as: rate increases under a properly disclosed variable-rate plan, a rate increase that occurs when an employee has been under a preferential rate agreement and terminates employment, or an increase that occurs when the consumer has been under an agreement to maintain a certain balance in a savings account in order to keep a particular rate and the account balance falls below the specified minimum. The rules in §226.5(b(f) relating to home-equity plans limit the ability of a creditor to change the terms of such plans.

2. State law issues. Examples of issues not addressed by §226.9(c) because they are controlled by state or other applicable law include:
   i. The types of changes a creditor may make. (But see §226.5b(f))
   ii. How changed terms affect existing balances, such as when a periodic rate is changed and the consumer does not pay off the entire existing balance before the new rate takes effect.

3. Change in billing cycle. Whenever the creditor changes the consumer’s billing cycle, it must give a change-in-terms notice if the change either affects any of the terms required to be disclosed under §226.6(a) or increases the minimum payment, unless an exception under §226.9(c)(1)(ii) applies; for example, the creditor must give advance notice if the creditor initially disclosed a 25-day grace period on purchases and the consumer will have fewer days during the billing cycle change.

9(c)(1)(i) Written notice required.

1. Affected consumers. Change-in-terms notices need only go to those consumers who may be affected by the change. For example, a change in the periodic rate for check overdraft credit need not be disclosed to consumers who do not have that feature on their accounts.

2. Timing—effective date of change. The rule that the notice of the change in terms be provided at least 15 days before the change takes effect permits mid-cycle changes when there is clearly no retroactive effect, such as the imposition of a transaction fee. Any change in the balance computation method, in contrast, would need to be disclosed at least 15 days prior to the billing cycle in which the change is to be implemented.

3. Timing—advance notice not required. Advance notice of 15 days is not necessary—that is, a notice of change in terms is required, but it may be mailed or delivered as late as the effective date of the change—in two circumstances:
   i. If there is an increased periodic rate or any other finance charge attributable to the consumer’s delinquency or default.
   ii. If the consumer agrees to the particular change. This provision is intended for use in the unusual instance when a consumer substitutes collateral or when the creditor can advance additional credit only if a change relatively unique to that consumer is made, such as the consumer’s providing additional security or paying an increased minimum payment amount. Therefore, the following are not “agreements” between the consumer and the creditor for purposes of §226.9(c)(1)(i): The consumer’s general acceptance of the creditor’s contract reservation of the right to change terms; the consumer’s use of the account (which might imply acceptance of its terms under state law); and the consumer’s acceptance of a unilateral term change that is not particular to that consumer, but rather is of general applicability to consumers with that type of account.

Federal Reserve System

Pt. 226, Supp. I, NL.
4. Form of change-in-terms notice. A complete new set of the initial disclosures containing the changed term complies with §226.9(c)(1)(i) if the change is highlighted in some way on the disclosure statement, or if the disclosure statement is accompanied by a letter or some other insert that indicates or draws attention to the term change.

5. Security interest change—form of notice. A copy of the security agreement that describes the collateral securing the consumer’s account may be used as the notice when the term change is the addition of a security interest or the addition or substitution of collateral.

6. Changes to home-equity plans entered into on or after November 7, 1989, Section 226.9(c)(1) applies when, by written agreement under §226.5b(f)(3)(iii), a creditor changes the terms of a home-equity plan—entered into on or after November 7, 1989—at or before its scheduled expiration, for example, by renewing a plan on terms different from those of the original plan. In disclosing the change:

   i. If the index is changed, the maximum annual percentage rate is increased (to the extent permitted by §226.30), or a variable-rate feature is added to a fixed-rate plan, the creditor must include the disclosures required by §226.5b(d)(12)(x) and (d)(12)(xi), unless these disclosures are unchanged from those given earlier.

   ii. If the minimum payment requirement is changed, the creditor must include the disclosures required by §226.5b(d)(5)(iii) and, in variable-rate plans, the disclosures required by §226.5b(d)(12)(x) and (d)(12)(xi) unless the disclosures given earlier contained representative examples covering the new minimum payment requirement. (See the commentary to §226.5b(d)(5)(iii), (d)(12)(x) and (d)(12)(xi) for a discussion of representative examples.)

   iii. When the terms are changed pursuant to a written agreement as described in §226.5b(f)(3)(iii), the advance-notice requirement does not apply.

   iv. Written request for reinstatement. If a creditor requires the request for reinstatement of credit privileges to be in writing, the notice under §226.9(c)(1)(iii) must state that fact.

2. Change in billing cycle. Whenever the creditor changes the consumer’s billing cycle, it must give a change-in-terms notice if the change either affects any of the terms described in §226.9(c)(2)(ii), unless an exception under §226.9(c)(2)(ii) or (c)(2)(iv) applies; for example, the creditor must give advance notice if the creditor initially disclosed a 28-
day grace period on purchases and the consumer will have fewer days during the billing cycle change.

§ 226.5(d) to determine the number of notices the change, the creditor should refer to accounts. If a single credit account involves multiple consumers that may be affected by a change in the periodic rate for check overdraft credit need not be disclosed to con-

1. Affected consumers. Change-in-terms no-

2. Timing—effective date of change. The rule that the notice of the change in terms be provided at least 45 days before the change takes effect permits mid-cycle changes when there is clearly no retroactive effect, such as the imposition of a transaction fee. Any change in the balance computation method, in contrast, would need to be disclosed at least 45 days prior to the billing cycle in which the change is to be implemented.

3. Timing—advance notice not required. Ad-

4. Form of change-in-terms notice. Except if § 226.9(c)(2)(ii) applies, a complete new set of the initial disclosures containing the changed term complies with § 226.9(c)(2)(i) if the change is highlighted on the disclosure statement, or if the disclosure statement is accompanied by a letter or some other insert that indicates or draws attention to the term being changed.

5. Security interest change—form of notice. A copy of the security agreement that de-

6. Examples. See comment § 226.9(c)(1)–1 for examples of how an issuer that is subject to 12 CFR 227.24 or similar law may comply with the timing requirements for notices required by § 226.9(c)(1)(i).

§ 226.5(d) to determine the number of notices that must be given.

Examples

Changing margin for calculating a variable rate. If a creditor is changing a margin used to calculate a variable rate, the creditor must disclose the amount of the new rate (as calculated using the new margin) in the table described in § 226.9(c)(2)(ii), and include a reminder that the rate is a variable rate. For example, if a creditor is changing the margin for a variable rate that uses the prime rate as an index, the creditor must disclose in the table the new rate (as calculated using the new margin) and indicate that the rate varies with the market based on the prime rate.

12 CFR Ch. II (1–1–10 Edition)

to calculate a variable rate, the creditor must disclose the amount of the new rate (as calculated using the new index) and indicate that the rate varies and the how the rate is determined, as explained in §226.6(b)(2)(i)(A). For example, if a creditor is changing from using a prime rate to using the LIBOR in calculating a variable rate, the creditor would disclose in the table the new rate (using the new index) and indicate that the rate varies with the market based on the LIBOR.

3. Changing from a variable rate to a non-variable rate. If a creditor is changing from a variable rate to a non-variable rate, the creditor must disclose the amount of the new rate (that is, the non-variable rate) in the table.

4. Changing from a non-variable rate to a variable rate. If a creditor is changing from a non-variable rate to a variable rate, the creditor must disclose the amount of the new rate (the variable rate using the index and margin), and indicate that the rate varies with the market based on the index used, such as the prime rate or the LIBOR.

5. Changes in the penalty rate, the triggers for the penalty rate, or how long the penalty rate applies. The penalty rate must also redisclose the triggers for the penalty rate and the information about how long the penalty rate applies. If a creditor is changing the amount of the penalty rate, the creditor must also redisclose the triggers for the penalty rate and the information about how long the penalty rate applies. If a creditor is changing the amount of the penalty rate applies, the creditor must also redisclose the trigger for the penalty rate and the information about how long the penalty rate applies. If a creditor is changing the amount of the penalty rate applies, the creditor must also redisclose the triggers for the penalty rate and the information about how long the penalty rate applies.

6. Changes in fees. If a creditor is changing part of a fee that is disclosed in a tabular format under §226.6(b)(1) and (b)(2) is determined, the creditor must redisclose all relevant information related to that fee regardless of whether this other information is changing. For example, if a creditor currently charges a cash advance fee of "Either $5 or 3% of the transaction amount, whichever is greater. (Max: $100)," and the creditor is only changing the minimum dollar amount from $5 to $10, the issuer must redisclose the other information related to how the fee is determined. For example, the creditor in this example would disclose the following: "Either $10 or 3% of the transaction amount, whichever is greater. (Max: $100)."

7. Combining a notice described in §226.9(c)(2)(iii) with a notice described in §226.9(g)(2). If a creditor is required to provide a notice described in §226.9(c)(2)(iii) and a notice described in §226.9(g)(3) to a consumer, the creditor may combine the two notices. This would occur if penalty pricing has been triggered, and other terms are changing on the consumer's account at the same time.

8. Content. Sample G–20 contains an example of how to comply with the requirements in §226.9(c)(2)(iii) when the following terms are being changed: (i) a variable rate is being changed to a non-variable rate; and (ii) the late payment fee is being increased in accordance with a formula that depends on the outstanding balance on the account. The sample explains when the new rate will apply to new transactions and to which balances the current rate will continue to apply.

9. Clear and conspicuous standard. See comment 5(a)(1)–1 for the clear and conspicuous standard applicable to disclosures required under §226.9(c)(2)(iii)(A)(3).

10. Terminology. See §226.5(a)(2) for terminology requirements applicable to disclosures required under §226.9(c)(2)(iii)(A)(1).

§226.9(c)(2)(iv) Notice not required.

1. Changes not requiring notice. The following are examples of changes that do not require a change-in-terms notice:

i. A change in the consumer’s credit limit except as otherwise required by §226.9(c)(2)(v).

ii. A change in the name of the credit card or credit card plan.

iii. The substitution of one insurer for another.

iv. A termination or suspension of credit privileges.

v. Changes arising merely by operation of law; for example, if the creditor’s security interest in a consumer’s car automatically extends to the proceeds when the consumer sells the car.

2. Skip features. If a credit program allows consumers to skip or reduce one or more payments during the year, or involves temporary reductions in finance charges, no notice of the change in terms is required either prior to the reduction or upon resumption of the higher rates or payments if these features are explained on the account-opening disclosure statement (including an explanation of the terms upon resumption). For example, a merchant may allow consumers to skip the December payment to encourage holiday shopping, or a teacher’s credit union may not require payments during summer vacation. Otherwise, the creditor must give notice prior to resuming the original schedule or rate, even though no notice is required prior to the reduction. The change-in-terms notice may be combined with the notice offering the reduction. For example, the periodic statement reflecting the reduction or skip feature may also be used to notify the consumer of the resumption of the original schedule or rate, either by stating explicitly when the higher payment or charges resume or by indicating the duration of the skip option. Language such as "You may skip your October payment," or "We will waive your
Federal Reserve System

interest charges for January" may serve as the change-in-terms notice.

3. Changing from a variable rate to a non-variable rate. If a creditor is changing a rate applicable to a consumer’s account from a variable rate to a non-variable rate, the creditor must provide a notice as otherwise required under §226.9(c) even if the variable rate at the time of the change is higher than the non-variable rate. (See comment 9(c)(2)(iii)(A)-4.)

4. Changing from a non-variable rate to a variable rate. If a creditor is changing a rate applicable to a consumer’s account from a non-variable rate to a variable rate, the creditor must provide a notice as otherwise required under §226.9(c) even if the non-variable rate is higher than the variable rate at the time of the change. (See comment 9(c)(2)(iii)(A)-4.)

5. Rate account, the card issuer may disclose

6. The rate in effect at the time of mailing or delivery of the renewal notice. Alternatively, the card issuer may use the rate as of a specified date within the last 30 days before the disclosure is provided.

7. Renewals more frequent than annual. If a renewal fee is billed more often than annually, the renewal notice should be provided each time the fee is billed. In this instance, the fee need not be disclosed as an annualized amount. Alternatively, the card issuer may provide the notice no less than once every 12 months if the notice explains the amount and frequency of the fee that will be billed during the time period covered by the disclosure, and also discloses the fee as an annualized amount. The notice under this alternative also must state the consequences of a cardholder’s decision to terminate the account after the renewal-notice period has expired. For example, if a $2 fee is billed monthly but the notice is given annually, the notice must inform the cardholder that the monthly charge is $2, the annualized fee is $24, and $2 will be billed to the account each month for the coming year unless the cardholder notifies the card issuer. If the cardholder is obligated to pay an amount equal to the remaining unpaid monthly charges if the cardholder terminates the account during the coming year but after the first month, the notice must disclose the fact.

8. Terminating credit availability. Card issuers have some flexibility in determining the procedures for how and when an account may be terminated. However, the card issuer must clearly disclose the time by which the cardholder must act to terminate the account, and also disclose the fee that will be charged. The notice under §226.9(e)(2), a cardholder has 30 days from mailing or delivery to decide to terminate the account. Alternatively, the card issuer may provide the notice no less than once every 12 months if the notice explains the amount and frequency of the fee that will be billed during the time period covered by the disclosure, and also discloses the fee as an annualized amount. The notice under this alternative also must state the consequences of a cardholder’s decision to terminate the account after the renewal-notice period has expired. For example, if a $2 fee is billed monthly but the notice is given annually, the notice must inform the cardholder that the monthly charge is $2, the annualized fee is $24, and $2 will be billed to the account each month for the coming year unless the cardholder notifies the card issuer. If the cardholder is obligated to pay an amount equal to the remaining unpaid monthly charges if the cardholder terminates the account during the coming year but after the first month, the notice must disclose the fact.

9. Timing of termination by cardholder. When a card issuer provides notice under §226.9(e)(1), a cardholder must be given at least 30 days or one billing cycle, whichever is less, from the date the notice is mailed or delivered to make a decision whether to terminate an account. When notice is given under §226.9(e)(2), a cardholder has 30 days from mailing or delivery to decide to terminate an account.

10. Termination of notice. A renewal notice must be provided when mailed or delivered. Similarly, notice of termination is deemed to be provided when mailed or delivered.

11. Prompt reversal of renewal fee upon termination. In a situation where a cardholder has provided timely notice of termination and a renewal fee has been billed to a cardholder’s account, the card issuer must reverse otherwise withdraw the fee promptly. Once a cardholder has terminated an account, no
additional action by the cardholder may be required.

9(e)(3) Notification on periodic statements.

1. Combined disclosures. If a single disclosure is used to comply with both §§226.9(e) and 226.7, the periodic statement must comply with the rules in §§226.5a and 226.7. For example, a description substantially similar to the grace period required by §226.5a(b)(5) must be used and the name of the balance-calculation method must be identified (if listed in §226.5a(g)) to comply with the requirements of §226.5a. A card issuer may include some of the renewal disclosures on a periodic statement and others on a separate document so long as there is some reference indicating that the disclosures relate to one another. An example of a sufficient reference for creditors using the delayed notice method is: “Your annual fee of [$ amount] is billed on this statement. Please see [other side/inserts] for important information about the terms that apply to the renewal of your account and how to close your account to avoid paying the annual fee.” All renewal disclosures must be provided to a cardholder at the same time.

2. Preprinted notices on periodic statements. A card issuer may preprint the required information on its periodic statements. A card issuer that does so, however, using the advance-notice option under §226.9(e)(1), must make clear on the periodic statement when the preprinted renewal disclosures are applicable. For example, the card issuer could include a special notice (not preprinted) at the appropriate time that the renewal fee will be billed in the following billing cycle, or could show the renewal date as a regular (preprinted) entry on all periodic statements.

9(f) Change in credit card account insurance provider.

1. Coverage. This paragraph applies to credit card accounts of the type subject to §226.5a if credit insurance (typically life, disability, and unemployment insurance) is offered on the outstanding balance of such an account. (Credit card accounts subject to §226.9(f) are the same as those subject to §226.9(e).) Charge card accounts are not covered by this paragraph.

In addition, the disclosure requirements of this paragraph apply only where the card issuer initiates the change in insurance provider. For example, if the card issuer’s current insurance provider is merged into or acquired by another company, these disclosures would not be required. Disclosures also need not be given in cases where card issuers pay for credit insurance themselves and do not separately charge the cardholder.

2. No increase in rate or decrease in coverage. The requirement to provide the disclosure arises when the card issuer changes the provider of insurance, even if there will be no increase in the premium rate charged to the consumer and no decrease in coverage under the insurance policy.

3. Form of notice. If a substantial decrease in coverage will result from the change in provider, the card issuer either must explain the decrease or refer to an accompanying copy of the policy or group certificate for details of the new terms of coverage. (See the commentary to Appendix G–13 to part 226.)

4. Discontinuation of insurance. In addition to stating that the cardholder may cancel the insurance, the card issuer may explain the effect the cancellation would have on the consumer’s credit card plan.

5. Mailing by third party. Although the card issuer is responsible for the disclosures, the insurance provider or another third party may furnish the disclosures on the card issuer’s behalf.

9(f)(3) Substantial decrease in coverage.

1. Determination. Whether a substantial decrease in coverage will result from the change in provider is determined by the two-part test in §226.9(f)(3): First, whether the decrease is in a significant term of coverage; and second, whether the decrease might reasonably be expected to affect a cardholder’s decision to continue the insurance. If both conditions are met, the decrease must be disclosed in the notice.

9(g) Increase in rates due to delinquency or default or as a penalty.

1. Relationship between Regulation Z, 12 CFR 226.9(c) and (g), and Regulation AA, 12 CFR 227.24 or similar law—examples. Issuers subject to 12 CFR 227.24 or similar law are prohibited from increasing the annual percentage rate for a category of transactions on any consumer credit card account unless specifically permitted by one of the exceptions in those rules. The following examples illustrate the relationship between the notice requirements of §226.9(c) and (g) and 12 CFR 227.24 or similar law:

i. Assume that, at account opening on January 1 of year one, an issuer discloses, in accordance with the applicable notice requirements of §226.6, that the annual percentage rate for purchases is a non-variable rate of 15% and will apply for six months. The issuer also discloses that, after six months, the annual percentage rate for purchases will be a variable rate that is currently 18% and will be adjusted quarterly by adding a margin of 8 percentage points to a publicly-available index not under the issuer’s control. Finally, the issuer discloses that the annual percentage rate for cash advances is the same variable rate that will apply to purchases after six months. The payment due date for the account is the twenty-fifth day of the month and the required minimum periodic payments are applied to accrued interest and fees but do not reduce the purchase and cash advance balances.

A. On January 15, the consumer uses the account to make a $2,000 purchase and a $500
cash advance. No other transactions are made on the account. At the start of each quarter, the issuer adjusts the variable rate that applies to the $500 cash advance consistently with changes in the index, as permitted under 12 CFR 227.24 or similar law. All required minimum periodic payments are received on or before the payment due date under 12 CFR 227.24 or similar law. For payments made on or after May 25, the issuer discloses in the applicable notice required under 12 CFR 227.24 or similar law the variable rate that applies to the $2,000 purchase, the $500 cash advance, or future purchases and cash advances. After six months after account opening (July 1), the issuer begins accruing interest on the $2,000 purchase at the previously-disclosed variable rate determined using an 8-point margin as permitted by 12 CFR 227.24 or similar law. Because no other increases in rate were disclosed at account opening, the issuer may not under 12 CFR 227.24 or similar law subsequently increase the variable rate that applies to the $2,000 purchase and the $500 cash advance (except due to increases in the index). On November 16, the issuer provides a notice pursuant to §226.9(c) informing the consumer of a new variable rate that will apply on January 1 of year two (calculated by using the same index and an increased margin of 8 percentage points). On January 15 of year two, the consumer makes a $300 purchase. On May 31, the credit card account has a purchase balance of $1,000. On June 8, the issuer makes a $200 purchase. On May 28, the issuer is prohibited by 12 CFR 226.9(c) disclosing a new variable rate that will apply on January 1 of year two (calculated by using the same index and an increased margin of 8 percentage points). On November 16, the issuer provides a notice pursuant to §226.9(c) informing the consumer of a new variable rate that will apply on January 1 of year two (calculated by using the same index and an increased margin of 8 percentage points). 

B. Same facts as above except that the required minimum periodic payment due on May 25 of year one is not received by the issuer until June 30 of year one. Because the issuer received the required minimum periodic payment more than 30 days after the payment due date under 12 CFR 227.24 or similar law permits the issuer to increase the annual percentage rate applicable to the $2,000 purchase, the $500 cash advance, and future purchases and cash advances. However, the issuer must first comply with the notice requirements in §226.9(g). Thus, if the issuer provided a notice pursuant to §226.9(g) on June 25 stating that all rates on the account would be increased to a non-variable penalty rate of 30%, the issuer could apply that 30% rate beginning on August 9 to all outstanding balances and future transactions.

ii. Assume that, at account opening on January 1 of year one, an issuer discloses in accordance with the applicable notice requirements of §226.6 that the annual percentage rate for purchases will increase as follows: A non-variable rate of 5% for six months; a non-variable rate of 10% for the following six months; and thereafter a variable rate that is currently 15% that will be adjusted monthly by adding a margin of 5 percentage points to a publicly-available index not under the issuer's control. The payment due date for the account is the fifteenth day of the month and the required minimum periodic payments are applied to the outstanding balance as interest due to increases in the index. On January 15, the consumer uses the account to make a $1,500 purchase. Six months after account opening (July 1), the issuer begins accruing interest on the $1,500 purchase at the previously-disclosed 10% non-variable rate (as permitted under 12 CFR 227.24 or similar law). On September 15, the consumer uses the account to make a $700 purchase. On November 16, the issuer provides a notice pursuant to §226.9(c) informing the consumer of a new variable rate that will apply on January 1 of year two (calculated by using the same index and an increased margin of 8 percentage points). One year after account opening (January 1 of year two), the account has an outstanding purchase balance at the previously-disclosed variable rate determined using a 5-point margin. Because the variable rate determined using the 8-point margin was not disclosed at account opening, the issuer may not under 12 CFR 227.24 or similar law apply that rate to the $2,200 purchase balance. Furthermore, because no other increases in rate were disclosed at account opening, the issuer may not under 12 CFR 227.24 or similar law subsequently increase the variable rate that applies to the $2,200 purchase balance (except due to increases in the index). The issuer may, however, under 12 CFR 227.24 or similar law apply the variable rate determined using the 8-point margin to purchases made on or after January 1 of year two.

iii. Assume that, at account opening on January 1 of year one, an issuer discloses in accordance with the applicable notice requirements in §226.6 that the annual percentage rate for purchases is a variable rate determined by adding a margin of 6 percentage points to a publicly-available index outside of the issuer’s control. If the issuer also discloses that a non-variable penalty rate of 28% may apply if the consumer makes a late payment. The due date for the account is the fifteenth of the month. On May 30 of year two, the account has an outstanding purchase balance of $1,000. On May 31, the creditor provides a notice pursuant to §226.9(c) informing the consumer of a new variable rate that will apply effective July 16 for all purchases made on or after June 8 (calculated by using the same index and an increased margin of 8 percentage points). On June 7, the consumer makes a $500 purchase. On June 8, the consumer makes a $200 purchase. On June 25, the issuer has not received the payment due on June 15 and provides the
consumer with a notice pursuant to §226.9(g) stating that the penalty rate of 28% will apply as of August 9 to all transactions made on or after July 3 that includes the content required by §226.9(g)(1)(ii). On July 4, the consumer makes a $300 purchase.

A. The payment due on June 15 of year two is received on June 26. On July 16, 12 CFR 227.24 or similar law permits the issuer to apply the variable rate determined using the 8-point margin to the $200 purchase made on July 4 but does not permit the issuer to apply this rate to the $1,500 purchase balance. On August 9, 12 CFR 227.24 or similar law permits the issuer to apply the 28% penalty rate to all balances on the account and to future transactions because it has not received payment within 30 days after the due date. However, in order to apply the 28% penalty rate to the entire $2,000 purchase balance, the issuer must provide an additional notice pursuant to §226.9(g). This notice must be sent no earlier than October 16, which is the first day the account became more than 30 days delinquent.

B. Same facts as above except the payment due on September 15 of year two is received on October 20. The issuer is permitted under 12 CFR 227.24 or similar law to apply the 28% penalty rate to all balances on the account and to future transactions because it has not received payment within 30 days after the due date. However, in order to apply the 28% penalty rate to the entire $2,000 purchase balance, the issuer must provide an additional notice pursuant to §226.9(g). This notice must be sent no earlier than October 16, which is the first day the account became more than 30 days delinquent.

C. Same facts as paragraph A. above except the payment due on June 15 of year two is received on July 20. The issuer is permitted under 12 CFR 227.24 or similar law to apply the 28% penalty rate to all balances on the account and to future transactions because it has not received payment within 30 days after the due date. However, the issuer provided a notice pursuant to §226.9(g) on July 24 disclosing the 28% penalty rate, the issuer may apply the 28% penalty rate to all balances on the account as well as any future transactions on August 9 without providing an additional notice pursuant to §226.9(g).

A. Affected consumer. If a single credit account involves multiple consumers that may be affected by the change, the creditor should refer to §226.5(d) to determine the number of notices that must be given.

3. Combining a notice described in §226.9(g)(3) with a notice described in §226.9(c)(2)(iii). If a creditor is required to provide notices pursuant to both §226.9(c)(2)(iii) and (g)(3) to a consumer, the creditor may combine the two notices. This would occur when penalty pricing has been triggered, and other terms are changing on the consumer’s account at the same time.

4. Content. Model Clause G–21 contains an example of how to comply with the requirements in §226.9(g)(3)(i) when the rate on a consumer’s account is being increased to a penalty rate as described in §226.9(g)(1)(ii).

5. Clear and conspicuous standard. See comment §5(a)(1)–1 for the clear and conspicuous standard applicable to disclosures required under §226.9(g).

6. Terminology. See §226.9(a)(2) for terminology requirements applicable to disclosures required under §226.9(g).
Federal Reserve System

Pt. 226, Supp. I, NI.

11(a) Credit balances.

1. Timing of refund. The creditor may also fulfill its obligations under §226.11 by:

i. Refunding any credit balance in the consumer immediately.

ii. Refunding any credit balance prior to receiving a written request (under §226.11(a)(2)) from the consumer.

iii. Refunding any credit balance upon the consumer's oral or electronic request.

iv. Making a good faith effort to refund any credit balance before 6 months have passed. If that attempt is unsuccessful, the creditor need not try again to refund the credit balance at the end of the 6-month period.

2. Amount of refund. The phrases any part of the remaining credit balance in §226.11(a)(2) and any part of the credit balance remaining in the account in §226.11(a)(3) mean the amount of the credit balance at the time the creditor is required to make the refund. The creditor may take into consideration intervening purchases or other debits to the consumer’s account (including those that have not yet been reflected on a periodic statement) that increase or eliminate the credit balance.

Paragraph 11(a)(2).

1. Written requests—standing orders. The creditor is not required to honor standing orders requesting refunds of any credit balance that may be created on the consumer's account.

Paragraph 11(a)(3).

1. Good faith effort to refund. The creditor must take positive steps to return any credit balance that has remained in the account for over 6 months. This includes, if necessary, attempts to trace the consumer through the consumer's last known address or telephone number, or both.

2. Good faith effort unsuccessful. Section 226.11 imposes no further duties on the creditor if a good faith effort to return the balance is unsuccessful. The ultimate disposition of the credit balance (or any credit balance of $1 or less) is to be determined under other applicable law.

11(b) Account termination.

Paragraph 11(b)(1).

1. Expiration date. The credit agreement determines whether or not an open-end plan has a stated expiration (maturity) date. Creditors that offer accounts with no stated expiration date are prohibited from terminating those accounts solely because a consumer does not incur a finance charge, even if credit cards or other access devices associated with the account expire after a stated period. Creditors may still terminate such accounts for inactivity consistent with §226.11(b)(2).

Section 226.12—Special Credit Card Provisions

1. Scope. Sections 226.12(a) and (b) deal with the issuance and liability rules for credit
cards, whether the card is intended for consumer, business, or any other purposes. Sections 226.12(a) and (b) are exceptions to the general rule that the regulation applies only to "accepted credit cards." (See §§ 226.1 and 226.3.)

2. Definition of "accepted credit card". For purposes of this section, "accepted credit card" means any credit card that a cardholder has requested or applied for and received, or has signed, used, or authorized another person to use to obtain credit. Any credit card issued as a renewal or substitute in accordance with § 226.12(a) becomes an accepted credit card when received by the cardholder.

12(a) Issuance of credit cards.

Paragraph 12(a)(1).

1. Explicit request. A request or application for a card must be explicit. For example, a request for an overdraft plan tied to a checking account does not constitute an application for a credit card with overdraft checking features.

2. Addition of credit features. If the consumer has a non-credit card, the addition of credit features to the card (for example, the granting of overdraft privileges on a checking account when the consumer already has a check guarantee card) constitutes issuance of a credit card.

3. Variance of card from request. The request or application need not correspond exactly to the card that is issued. For example:

i. The name of the card requested may be different when issued.

ii. The card may have features in addition to those reflected in the request or application.

4. PINs. Permissible form of request. The request or application may be oral (in response to a telephone solicitation by a card issuer, for example) or written.

5. Time of issuance. A credit card may be issued in response to a request made before any cards are ready for issuance (for example, if a new program is established), even if there is some delay in issuance.

6. Persons to whom cards may be issued. A card issuer may issue a credit card to the person who requested it, and to anyone else for whom that person requests a card and who will be an authorized user on the requester's account. In other words, cards may be sent to consumer A on A's request, and also (on A's request) to consumers B and C, who will be authorized users on A's account. In these circumstances, the following rules apply:

i. The additional cards may be imprinted in either A's name or in the names of B and C.

ii. No liability for unauthorized use (by persons other than B and C) is imposed on A.

iii. Whether B and C may be held liable for their own use, or on the account generally, is a matter of state or other applicable law.

7. Issuance of non-credit cards.

1. General. Under § 226.12(a)(1), a credit card cannot be issued except in response to a request or an application. (See comment 2(a)(15)-2 for examples of cards or devices that are and are not credit cards.) A non-credit card may be sent on an unsolicited basis by an issuer that does not propose to connect the card to any credit plan; a credit feature may be added to a previously issued non-credit card only upon the consumer's specific request.

2. Examples. A purchase-price discount card may be sent on an unsolicited basis by an issuer that does not propose to connect the card to any credit plan. An issuer demonstrates that it proposes to connect the card to a credit plan by, for example, including promotional materials about credit features or account agreements and disclosures required by § 226.6. The issuer will violate the rule against unsolicited issuance if, for example, at the time the card is sent a credit plan can be accessed by the card or the recipient of the unsolicited card has been preapproved for credit that the recipient can access by contacting the issuer and activating the card.

8. Unsolicited issuance of PINs. A card issuer may issue personal identification numbers (PINs) to existing credit cardholders without a specific request from the cardholders, provided the PINs cannot be used alone to obtain credit. For example, the PINs may be necessary if consumers wish to use their existing credit cards at automated teller machines or at merchant locations with point-of-sale terminals that require PINs.

Paragraph 12(a)(2).

1. Renewal. Renewal generally contemplates the regular replacement of existing cards because of, for example, security reasons or new technology or systems. It also includes the re-issuance of cards that have been suspended temporarily, but does not include the opening of a new account after a previous account was closed.

2. Substitution—examples. Substitution encompasses the replacement of one card with another because the underlying account relationship has changed in some way—such as when the card issuer has:

i. Changed its name.

ii. Changed the name of the card.

iii. Changed the credit or other features available on the account. For example, the original card could be used to make purchases and obtain cash advances at teller windows. The substitute card might be usable, in addition, for obtaining cash advances through automated teller machines. If the substitute card constitutes an access device,
Federal Reserve System

as defined in Regulation E (12 CFR part 205), then the Regulation E issuance rules would have to be followed.) The substitution of one card with another on an unsolicited basis is not permissible where in conjunction with the substitution an additional credit card account is opened and the consumer is able to make new purchases or advances under both the original and the new account with the new card. For example, if a retail card issuer replaces its credit card with a combined retailer/bank card, each of the creditors maintains a separate account, and both accounts can be accessed for new transactions by use of the new credit card, the card cannot be provided to a consumer without solicitation.

iv. Substituted a card user's name on the substitute card for the cardholder's name appearing on the original card.

v. Changed the merchant base, provided that the new card is honored by at least one of the persons that honored the original card. However, unless the change in the merchant base is the addition of an affiliate of the existing merchant base, the substitution of a new card for another on an unsolicited basis is not permissible where the account is inactive. A credit card cannot be issued in these circumstances without a request or application. For purposes of §226.12(a), an account is inactive if no credit has been extended and if the account has no outstanding balance for the prior 24 months. (See §226.13(b)(2).)

3. Substitution—successor card issuer. Substitution also occurs when a successor card issuer replaces the original card issuer (for example, when a new card issuer purchases the accounts of the original issuer and issues its own card to replace the original one). A permissible substitution exists even if the original issuer retains the existing receivables and the new card issuer acquires the right only to future receivables, provided use of the original card is cut off when use of the new card becomes possible.

4. Substitution—non-credit-card plan. A credit card that replaces a retailer's open-end credit plan not involving a credit card is not considered a substitute for the retailer's plan—even if the consumer used the retailer's plan. A credit card cannot be issued in these circumstances without a request or application.

5. One-for-one rule. An accepted card may be replaced by no more than one renewal or substitute card. For example, the card issuer may not replace a credit card permitting purchases and cash advances with two cards, one for the purchases and another for the cash advances.

6. One-for-one rule—exceptions. The regulation does not prohibit the card issuer from:

i. Replacing a debit/credit card with a credit card and another card with only debit functions (or debit functions plus an associated overdraft capability), since the latter card could be issued on an unsolicited basis under Regulation E.

ii. Replacing an accepted card with more than one renewal or substitute card, provided that:

A. No replacement card accesses any account not accessed by the accepted card;

B. For terms and conditions required to be disclosed under §226.6, all replacement cards are issued subject to the same terms and conditions, except that a creditor may vary terms for which no change in terms notice is required under §226.9(c); and

C. Under the account's terms the consumer's total liability for unauthorized use with respect to the account does not increase.

7. Methods of terminating replaced card. The card issuer need not physically retrieve the original card, provided the old card is voided in some way, for example:

i. The issuer includes with the new card a notification that the existing card is no longer valid and should be destroyed immediately.

ii. The original card contained an expiration date.

iii. The card issuer, in order to preclude use of the card, reprograms computers or issues instructions to authorization centers.

8. Incomplete replacement. If a consumer has duplicate credit cards on the same account (Card A—one type of bank credit card, for example), the card issuer may not replace the duplicate cards with one Card B (Card B—another type of bank credit card) unless the consumer requests Card B.

9. Multiple entities. Where multiple entities share responsibilities with respect to a credit card issued by one of them, the entity that issued the card may replace it on an unsolicited basis, if that entity terminates the original card by voiding it in some way, as described in comment 12(a)(2). The other entity or entities may not issue a card on an unsolicited basis in these circumstances.

12(b) Liability of cardholder for unauthorized use.

1. Meaning of cardholder. For purposes of this provision, cardholder includes any person (including organizations) to whom a credit card is issued for any purpose, including business. When a corporation is the cardholder, required disclosures should be provided to the corporation (as opposed to an employee user).

2. Imposing liability. A card issuer is not required to impose liability on a cardholder for the unauthorized use of a credit card; if the card issuer does not seek to impose liability, the issuer need not conduct any investigation of the cardholder's claim.

3. Reasonable investigation. If a card issuer seeks to impose liability when a claim of unauthorized use is made by a cardholder, the
card issuer must conduct a reasonable investigation of the claim. In conducting its investigation, the card issuer may reasonably request the cardholder’s cooperation. The card issuer may not automatically deny a claim based solely on the cardholder’s failure or refusal to comply with a particular request, including providing an affidavit or filing a police report; however, if the card issuer otherwise has no knowledge of facts confirming the unauthorized use, the lack of information resulting from the cardholder’s failure or refusal to comply with a particular request may lead the card issuer reasonably to terminate the investigation. The procedures involved in investigating claims may differ, but actions such as the following represent steps that a card issuer may take, as appropriate, in conducting a reasonable investigation:

1. Reviewing the types or amounts of purchases made in relation to the cardholder’s previous purchasing pattern.
2. Reviewing where the purchases were delivered in relation to the cardholder’s residence or place of business.
3. Reviewing where the purchases were made in relation to where the cardholder resides or has normally shopped.
4. Comparing any signature on credit slips for the purchases to the signature of the cardholder or an authorized user. For example, the creditor may include a signature line on a billing rights form that the cardholder or an authorized user in the card issuer’s records, including other credit slips.
5. Requesting documentation to assist in the verification of the claim.
6. Requesting a written, signed statement from the cardholder or authorized user. For example, the creditor may include a signature line on a billing rights form that the cardholder may send in to provide notice of the claim. However, a creditor may not require the cardholder to provide an affidavit or signed statement under penalty of perjury as part of a reasonable investigation.
7. Requesting a copy of a police report, if one was filed.
8. Requesting information regarding the cardholder’s knowledge of the person who allegedly used the card or of that person’s authority to do so.
9. Checks that access a credit card account. The liability provisions for unauthorized use under §226.12(b)(1) only apply to transactions involving the use of a credit card, and not if an unauthorized transaction is made using a check accessing the credit card account. However, the billing error provisions in §226.13 apply to both of these types of transactions.

12(b)(1)(i) Limitation on amount.

1. Meaning of authority. Section 226.12(b)(1)(i) defines unauthorized use in terms of whether the user has actual, implied, or apparent authority. Whether such authority exists must be determined under state or other applicable law.

2. Liability limits—dollar amounts. As a general rule, the cardholder’s liability for a series of unauthorized uses cannot exceed either $50 or the value obtained through the unauthorized use before the card issuer is notified, whichever is less.

3. Implied or apparent authority. If a cardholder furnishes a credit card and grants authority to make credit transactions to a person (such as a family member or coworker) who exceeds the authority given, the cardholder is liable for the transaction(s) unless the cardholder has notified the creditor that use of the credit card by that person is no longer authorized.

4. Credit card obtained through robbery or fraud. An unauthorized use includes, but is not limited to, a transaction initiated by a person who has obtained the credit card from the consumer, or otherwise initiated the transaction, through fraud or robbery.

12(b)(2) Conditions of liability.

1. Issuer’s option not to comply. A card issuer that chooses not to impose any liability on cardholders for unauthorized use need not comply with the disclosure and identification requirements discussed in §226.12(b)(2).

Paragraph 12(b)(2)(ii).

1. Disclosure of liability and means of notifying issuer. The disclosures referred to in §226.12(b)(2)(ii) may be given, for example, with the initial disclosures under §226.6, on the credit card itself, or on periodic statements. They may be given at any time preceding the unauthorized use of the card.

2. Meaning of “adequate notice.” For purposes of this provision, “adequate notice” means a printed notice to a cardholder that sets forth clearly the pertinent facts so that the cardholder may reasonably be expected to have noticed it and understood its meaning. The notice may be given by any means reasonably assuring receipt by the cardholder.

Paragraph 12(b)(2)(iii).

1. Means of identifying cardholder or user. To fulfill the condition set forth in §226.12(b)(2)(iii), the issuer must provide some method whereby the cardholder or the authorized user can be identified. This could include, for example, a signature, photograph, or fingerprint on the card or other biometric means, or electronic or mechanical confirmation.

2. Identification by magnetic strip. Unless a magnetic strip (or similar device not readable without physical aids) is used in conjunction with a secret code or the like, it would not constitute sufficient means of identification. Sufficient identification also does not exist if a “pool” or group card, issued to a corporation and signed by a corporate agent who will not be a user of the card, is intended to be used by another employee for whom no means of identification is provided.
3. Transactions not involving card. The cardholder may not be held liable under §226.12(b) when the card itself (or some other sufficient means of identification of the cardholder) is not presented. If the card has been provided a means to identify the user under these circumstances, the issuer has not fulfilled one of the conditions for imposing liability. For example, when merchandise is ordered by telephone or the Internet by a person without authority to do so, using a credit card account number by itself or with other information that appears on the card (for example, the card expiration date and a 3- or 4-digit cardholder identification number), no liability may be imposed on the cardholder.

§ 226.12(b)(3) Notification to card issuer.
1. How notice must be provided. Notice given in a normal business manner—for example, by mail, telephone, or personal visit—is effective even though it is not given to, or does not reach, some particular person within the issuer’s organization. Notice also may be effective even though it is not given at the address or phone number disclosed by the card issuer under §226.12(b)(2)(ii).
2. Who must provide notice. Notice of loss, theft, or possible unauthorized use need not be initiated by the cardholder. Notice is sufficient so long as it gives the “pertinent information” which would include the name or card number of the cardholder and an indication that unauthorized use has or may have occurred.
3. Relationship to §226.13. The liability protections afforded to cardholders in §226.12 do not depend upon the cardholder’s following the error resolution procedures in §226.13. For example, the written notification and time limit requirements of §226.13 do not affect the §226.12 protections. (See also comment 12(b)(1–4).)

§ 226.12(b)(5) Business use of credit cards.
1. Agreement for higher liability for business use cards. The card issuer may not rely on §226.12(b)(5) if the business is clearly not in a position to provide 10 or more cards to employees (for example, if the business has only 3 employees). On the other hand, the issuer need not monitor the personnel practices of the business to make sure that it has at least 10 employees at all times.
2. Unauthorized use by employee. The protection afforded to an employee against liability for unauthorized use in excess of the limits set in §226.12(b) applies only to unauthorized use by someone other than the employee. If the employee uses the card in an unauthorized manner, the regulation sets no restriction on the employee’s potential liability for such use.

§ 226.12(c) Right of cardholder to assert claims or defenses against card issuer.
1. Relationship to §226.13. The §226.12(c) credit card “holder in due course” provision deals with the consumer’s right to assert against the card issuer a claim or defense concerning property or services purchased with a credit card, if the merchant has been unwilling to resolve the dispute. Even though certain merchandise disputes, such as non-delivery of goods, may also constitute “billing errors” under §226.13, that section operates independently of §226.12(c). The cardholder whose asserted billing error involves undelivered goods may institute the error resolution procedures of §226.13 but whether or not the cardholder has done so, the cardholder may assert claims or defenses under §226.12(c). Conversely, the consumer may pay a disputed balance and thus have no further right to assert claims and defenses, but still may assert a billing error if notice of that billing error is given in the proper time and manner. An assertion that a particular transaction resulted from unauthorized use of the card could also be both a “defense” and a billing error.

2. Claims and defenses assertible. Section 226.12(c) merely preserves the consumer’s right to assert against the card issuer any claims or defenses that can be asserted against the merchant. It does not determine what claims or defenses are valid as to the merchant; this determination must be made under state or other applicable law.

3. Transactions excluded. Section 226.12(c) does not apply to the use of a check guarantee card or a debit card in connection with an overdraft credit plan, or to a check guarantee card used in connection with cash-advance checks.

4. Method of calculating the amount of credit outstanding. The amount of the claim or defense that the cardholder may assert shall not exceed the amount of credit outstanding for the disputed transaction at the time the cardholder first notifies the card issuer or the person honoring the credit card of the existence of the claim or defense. To determine the amount of credit outstanding for purposes of this section, payments and other credits shall be applied to: (i) Late charges in the order of entry to the account; then to (ii) finance charges in the order of entry to the account; and then to (iii) any other debits in the order of entry to the account. If more than one item is included in a single extension of credit, credits are to be distributed pro rata according to prices and applicable taxes.

§ 226.12(c)(1) General rule.
1. Situations excluded and included. The consumer may assert claims or defenses only when the goods or services are “purchased with the credit card.” This could include mail, the Internet or telephone orders, if the purchase is charged to the credit card account. But it would exclude:
   i. Use of a credit card to obtain a cash advance, even if the consumer then uses the money to purchase goods or services. Such a
transaction would not involve “property or services purchased with the credit card.”

i. The purchase of goods or services by use of a check accessing an overdraft account and a credit card used solely for identification of the consumer. (On the other hand, if the credit card is used to make partial payment for the purchase and not merely for identification, the right to assert claims or defenses would apply to credit extended via the credit card, although not to the credit extended on the overdraft line.)

ii. Purchases made by use of a check guarantee card in conjunction with a cash advance check (or by cash advance checks alone). (See comment 12(c)-3.) A cash advance check is a check that, when written, does not draw on an asset account; instead, it is charged entirely to an open-end credit account.

iv. Purchases effected by use of either a check guarantee card or a debit card when used to draw on overdraft plans. (See comment 12(c)-3.) The debit card exemption applies whether the card accesses an account via point-of-sale terminals, automated teller machines, or in any other way, and whether the card qualifies as an “access device” under Regulation E or is only a paper-based debit card. If a card serves both as an ordinary credit card and also as a check guarantee or debit card, a transaction will be subject to this rule on asserting claims and defenses when used as an ordinary credit card, but not when used as a check guarantee or debit card.

12(c)(2) Averse credit reports prohibited.

1. Scope of prohibition. Although an amount in dispute may not be reported as delinquent until the matter is resolved:

i. That amount may be reported as disputed.

ii. Nothing in this provision prohibits the card issuer from undertaking its normal collection activities for the delinquent and undisputed portion of the account.

2. Settlement of dispute. A card issuer may not consider a dispute settled and report an amount disputed as delinquent or begin collection of the disputed amount until it has completed a reasonable investigation of the cardholder’s claim. A reasonable investigation requires an independent assessment of the cardholder’s claim based on information obtained from both the cardholder and the merchant, if possible. In conducting an investigation, the card issuer may request the cardholder’s reasonable cooperation. The card issuer may not automatically consider a dispute settled if the cardholder fails or refuses to comply with a particular request. However, if the card issuer otherwise has no means of obtaining information necessary to resolve the dispute, the lack of information resulting from the cardholder’s failure or refusal to comply with a particular request may lead the card issuer reasonably to terminate the investigation.

12(c)(3) Limitations.

1. Resolution with merchant. The consumer must have tried to resolve the dispute with the merchant. This does not require any special procedures or correspondence between them, and is a matter of factual determination in each case. The consumer is not required to seek satisfaction from the manufacturer of the goods involved. When the merchant is in bankruptcy proceedings, the consumer is not required to file a claim in those proceedings, and may instead file a claim for the property or service purchased with the credit card with the card issuer directly.

Paragraph 12(c)(3)(i)(B).

1. Geographic limitation. The question of where a transaction occurs (as in the case of mail, Internet, or telephone orders, for example) is to be determined under state or other applicable law.

Paragraph 12(c)(3)(ii).

1. Merchant honoring card. The exceptions stated in §226.12(c)(3)(ii)) to the amount and geographic limitations in §226.12(c)(3)(i)(B)) do not apply if the merchant merely honors, or indicates through signs or advertising that it honors, a particular credit card.

12(d) Offsets by card issuer prohibited.

Paragraph 12(d)(1).

1. Holds on accounts. “Freezing” or placing a hold on funds in the cardholder’s deposit account is the functional equivalent of an offset and would contravene the prohibition in §226.12(d)(1), unless done in the context of one of the exceptions specified in §226.12(d)(2). For example, if the terms of a security agreement permitted the card issuer to place a hold on the funds, the hold would not violate the offset prohibition. Similarly, if an order of a bankruptcy court required the card issuer to turn over deposit account funds to the trustee in bankruptcy, the issuer would not violate the regulation by placing a hold on the funds in order to comply with the court order.

2. Funds intended as deposits. If the consumer tenders funds as a deposit (to a checking account, for example), the card issuer may not apply the funds to repay indebtedness on the consumer’s credit card account.

3. Types of indebtedness; overdraft accounts. The offset prohibition applies to any indebtedness arising from transactions under a credit card plan, including accrued finance charges and other charges on the account. The prohibition also applies to balances arising from transactions not using the credit card itself but taking place under plans that involve credit cards. For example, if the consumer writes a check that accesses an overdraft line of credit, the resulting indebtedness is subject to the offset prohibition since it is incurred through a credit card plan.
even though the consumer did not use an associated check guarantee or debit card.

4. When prohibition applies in case of termination of account. The offset prohibition applied when the card issuer terminates the cardholder’s credit card privileges, if the indebtedness was incurred prior to termination. If the indebtedness was incurred after termination, the prohibition does not apply.

Paragraph 12(d)(2).

1. Security interest—limitations. In order to qualify for the exception stated in §226.12(d)(2), a security interest must be affirmatively agreed to by the consumer and must be disclosed in the issuer’s account-opening disclosures under §226.6. The security interest must not be the functional equivalent of a right of offset; as a result, routinely including in agreements contract language indicating that consumers are giving a security interest in any deposit accounts maintained with the issuer does not result in a security interest that falls within the exception in §226.12(d)(2). For a security interest to qualify for the exception under §226.12(d)(2) the following conditions must be met:

i. The consumer must be aware that granting a security interest is a condition for the credit card account (or for more favorable account terms) and must specifically intend to grant a security interest in a deposit account. Indicia of the consumer’s awareness and intent include at least one of the following (or a substantially similar procedure that evidences the consumer’s awareness and intent):

A. Separate signature or initials on the agreement indicating that a security interest is being given.

B. Placement of the security agreement on a separate page, or otherwise separating the security interest provisions from other contract and disclosure provisions.

C. Reference to a specific amount of deposited funds or to a specific deposit account number.

ii. The security interest must be obtainable and enforceable by creditors generally. If other creditors could not obtain a security interest in the consumer’s deposit accounts to the same extent as the card issuer, the security interest is prohibited by §226.12(d)(2).

2. Security interest—after-acquired property. As used in §226.12(d), the term “security interest” does not exclude (as it does for other Regulation Z purposes) interests in after-acquired property. Thus, a consensual security interest in deposit-account funds, including funds deposited after the granting of the security interest would constitute a permissible exception to the prohibition on offsets.

3. Court order. If the card issuer obtains a judgment against the cardholder, and if state and other applicable law and the terms of the judgment do not so prohibit, the card issuer may offset the indebtedness against the cardholder’s deposit account.

Paragraph 12(d)(3).

1. Automatic payment plans—scope of exception. With regard to automatic debit plans under §226.12(d)(3), the following rules apply:

i. The cardholder’s authorization must be in writing and signed or initialed by the cardholder.

ii. The authorizing language need not appear directly above or next to the cardholder’s signature or initials, provided it appears on the same document and that it clearly spells out the terms of the automatic debit plan.

iii. If the cardholder has the option to accept or reject the automatic debit feature (such option may be required under section 931 of the Electronic Fund Transfer Act), the fact that the option exists should be clearly indicated.

2. Automatic payment plans—additional exceptions. The following practices are not prohibited by §226.12(d)(3):

i. Automatically deducting charges for participation in a program of banking services (one aspect of which may be a credit card plan).

ii. Debiting the cardholder’s deposit account on the cardholder’s specific request rather than on an automatic periodic basis (for example, a cardholder might check a box on the credit card bill stub, requesting the issuer to debit the cardholder’s account to pay that bill).

12(e) Prompt notification of returns and crediting of refunds.

Paragraph 12(e)(1).

1. Normal channels. The term normal channels refers to any network or interchange system used for the processing of the original charge slips (or equivalent information concerning the transaction).

Paragraph 12(e)(2).

1. Crediting account. The card issuer need not actually post the refund to the consumer’s account within three business days after receiving the credit statement, provided that it credits the account as of a date within that time period.

Section 226.13—Billing Error Resolution

1. Creditor’s failure to comply with billing error provisions. Failure to comply with the error resolution procedures may result in the forfeiture of disputed amounts as prescribed in section 161(e) of the act. (Any failure to comply may also be a violation subject to the liability provisions of section 150 of the act.)

2. Charges for error resolution. If a billing error occurred, whether as alleged or in a different amount or manner, the creditor may not impose a charge related to any aspect of the error resolution process (including charges for documentation or investigation) and must credit the consumer’s account if

such a charge was assessed pending resolution. Since the act grants the consumer error resolution rights, the creditor should avoid any chilling effect on the good faith assumption of errors that might result if charges are assessed when no billing error has occurred.

13(a) Definition of billing error.

Paragraph 13(a)(1).

1. Actual, implied, or apparent authority.

Whether use of a credit card or open-end credit plan is authorized is determined by state or other applicable law. (See comment 12(b)(3)(ii)(1).

Paragraph 13(a)(3).

1. Coverage. i. Section 226.13(a)(3) covers disputes about goods or services that are "not accepted" or "not delivered * * * as agreed"; for example:

A. The appearance on a periodic statement of a purchase, when the consumer refused to take delivery of goods because they did not comply with the contract.

B. Delivery of property or services different from that agreed upon.

C. Delivery of the wrong quantity.

D. Late delivery.

E. Delivery to the wrong location.

ii. Section 226.13(a)(3) does not apply to a dispute relating to the quality of property or services that the consumer accepts. Whether acceptance occurred is determined by state or other applicable law.

2. Application to purchases made using a third-party payment intermediary. Section 226.13(a)(3) generally applies to disputes about goods and services that are purchased using a third-party payment intermediary, such as a person-to-person Internet payment service, funded through use of a consumer's open-end credit plan when the goods or services are not accepted by the consumer or not delivered to the consumer as agreed. However, the extension of credit must be made at the time the consumer purchases the good or service and match the amount of the transaction to purchase the good or service (including ancillary taxes and fees). Under these circumstances, the property or service for which the extension of credit is made is not the payment service, but rather the good or service that the consumer has purchased using the payment service. Thus, for example, §226.13(a)(3) would not apply to purchases using a third-party payment intermediary that is funded through use of an open-end credit plan if:

i. The extension of credit is made to fund the third-party payment intermediary "account," but the consumer does not contemporaneously use those funds to purchase a good or service at that time.

ii. The extension of credit is made to fund only a portion of the purchase amount, and the consumer uses other sources to fund the remaining amount.

3. Notice to merchant not required. A consumer is not required to first notify the merchant or other payee from whom he or she has purchased goods or services and attempt to resolve a dispute regarding the good or service before providing a billing-error notice to the creditor under §226.13(a)(3) asserting that the goods or services were not accepted or delivered as agreed.

Paragraph 13(a)(5).

1. Computational errors. In periodic statements that are combined with other information, the error resolution procedures are triggered only if the consumer asserts a computational billing error in the credit-related portion of the periodic statement. For example, if a bank combines a periodic statement reflecting the consumer's credit card transactions with the consumer's monthly checking statement, a computational error in the checking account portion of the combined statement is not a billing error.

Paragraph 13(a)(6).

1. Documentation requests. A request for documentation such as receipts or sales slips, unaccompanied by an allegation of an error under §226.13(a) or a request for additional clarification under §226.13(a)(6), does not trigger the error resolution procedures. For example, a request for documentation merely for purposes such as tax preparation or recordkeeping does not trigger the error resolution procedures.

13(b) Billing error notice.

1. Withdrawal of billing error notice by consumer. The creditor need not comply with the requirements of §§226.13(c) through (g) of this section if the consumer concludes that no billing error occurred and voluntarily withdraws the billing error notice. The consumer's withdrawal of a billing error notice may be oral, electronic or written.

2. Form of written notice. The creditor may require that the written notice not be made on the payment medium or other material accompanying the periodic statement if the creditor so stipulates in the billing rights statement required by §§226.6(a)(5) or (b)(5)(iii), and 226.9(a). In addition, if the creditor stipulates in the billing rights statement that it accepts billing error notices submitted electronically, and states the means by which a consumer may electronically submit a billing error notice, a notice sent in such manner will be deemed to satisfy the written notice requirement for purposes of §§226.13(b).

Paragraph 13(b)(1).

1. Failure to send periodic statement—timing. If the creditor has failed to send a periodic statement, the 60-day period runs from the time the statement should have been sent. Once the statement is provided, the consumer has another 60 days to assert any billing errors reflected on it.

2. Failure to reflect credit—timing. If the periodic statement fails to reflect a credit to
the account, the 60-day period runs from transmittal of the statement on which the credit should have appeared.

3. Transmittal. If a consumer has arranged for periodic statements to be held at the financial institution until called for, the statement is "transmitted" when it is first made available to the consumer.

Paragraph 13(c)(2).
1. Identity of the consumer. The billing error notice need not specify both the name and the account number if the information supplied enables the creditor to identify the consumer’s name and account.

13(c) Time for resolution; general procedures.
1. Temporary or provisional corrections. A creditor may temporarily correct the consumer’s account in response to a billing error notice, but is not excused from complying with the remaining error resolution procedures within the time limits for resolution.

2. Correction without investigation. A creditor may correct a billing error in the manner and amount asserted by the consumer without the investigation or the determination normally required. The creditor must comply, however, with all other applicable provisions. If a creditor follows this procedure, no presumption is created that a billing error occurred.

3. Relationship with § 226.12. The consumer’s rights under the billing error provisions in § 226.13 are independent of the provisions set forth in § 226.12(b) and (c). (See comments § 226.13 are independent of the provisions set forth in § 226.12(b) and (c).) (See comments § 226.13 are independent of the provisions set forth in § 226.12(b) and (c).) (See comments § 226.13 are independent of the provisions set forth in § 226.12(b) and (c).

Paragraph 13(c)(2).
1. Time for resolution. The phrase two complete billing cycles means two actual billing cycles occurring after receipt of the billing error notice, not a measure of time equal to two billing cycles. For example, if a creditor on a monthly billing cycle receives a billing error notice mid-cycle, it has the remainder of that cycle plus the next two full billing cycles to resolve the error.

2. Finality of error resolution procedure. A creditor must comply with the error resolution procedures and complete its investigation to determine whether an error occurred within two complete billing cycles as set forth in paragraph (c)(2) of this section. Thus, for example, the creditor would be prohibited from reversing amounts previously credited for an alleged billing error even if the creditor obtains evidence after the error resolution time period has passed indicating that the billing error did not occur as asserted by the consumer. Similarly, if a creditor fails to mail or deliver a written explanation setting forth the reason why the billing error did not occur as asserted, or otherwise fails to comply with the error resolution procedures set forth in § 226.13(f), the creditor generally must credit the disputed amount and related finance or other charges, as applicable, to the consumer’s account.

13(d) Rules pending resolution.
1. Disputed amount. Disputed amount is the dollar amount alleged by the consumer to be in error. When the allegation concerns the imposition of finance or other charges, rather than a dollar amount, the disputed amount is the amount of the transaction or charge that corresponds to the disputed transaction identification. If the consumer alleges a failure to send a periodic statement under §226.13(a)(7), the disputed amount is the entire balance owing.

13(d)(1) Consumer’s right to withhold disputed amount; collection action prohibited.
1. Prohibited collection actions. During the error resolution period, the creditor is prohibited from trying to collect the disputed amount from the consumer. Prohibited collection actions include, for example, instituting court action, taking a lien, or instituting attachment proceedings.

2. Right to withhold payment. If the creditor reflects any disputed amount or related finance or other charges on the periodic statement, and is therefore required to make the disclosure under §226.13(d)(4), the creditor may comply with that disclosure requirement by indicating that payment of any disputed amount is not required pending resolution. Making a disclosure that only refers to the disputed amount would, of course, in no way affect the consumer’s right under §226.13(d)(1) to withhold related finance and other charges. The disclosure under §226.13(d)(4) need not appear in any specific place on the periodic statement, need not state the specific amount that the consumer may withhold, and may be preprinted on the periodic statement.

3. Imposition of additional charges on undisputed amounts. The consumer’s withholding of a disputed amount from the total bill cannot subject undisputed balances (including new purchases or cash advances made during the present or subsequent cycles) to the imposition of finance or other charges. For example, if on an account with a grace period (that is, an account in which paying the new balance in full allows the consumer to avoid the imposition of additional finance charges), a consumer disputes a $2 item out of a total bill of $300 and pays $298 within the grace period, the consumer would not lose the grace period as to any undisputed amounts, even if the creditor determines later that no billing error occurred. Furthermore, finance or other charges may not be imposed on any new purchases or advances that, absent the unpaid disputed balance, would not have finance or other charges imposed on them. Finance or other charges that would have been incurred even if the consumer had paid the disputed amount would not be affected.

4. Automatic payment plans-coverage. The coverage of this provision is limited to the
card issuer’s automatic payment plans, whether or not the consumer’s asset account is held by the card issuer or by another financial institution. It does not apply to automatic or bill-payment plans offered by financial institutions other than the credit card issuer.

5. Automatic payment plans—time of notice. While the card issuer does not have to re-store or prevent the debiting of a disputed amount if the billing error notice arrives after the three-business-day cut-off, the card issuer must, however, prevent the automatic debit of any part of the disputed amount that is still outstanding and unresolved at the time of the next scheduled debit date.

13(d)(2) Adverse credit reports prohibited.

1. Report of dispute. Although the creditor must not issue an adverse credit report because the consumer fails to pay the disputed amount or any related charges, the creditor may report that the amount or the account is in dispute. Also, the creditor may report the account as delinquent if undisputed amounts remain unpaid.

2. Person. During the error resolution period, the creditor is prohibited from making an adverse credit report about the disputed amount to any person—including employers, insurance companies, other creditors, and credit bureaus.

3. Creditor’s agent. Whether an agency relationship exists between a creditor and an issuer of an adverse credit report is determined by State or other applicable law.

13(e) Procedures if billing error occurred as asserted.

1. Correction of error. The phrase as applicable means that the necessary corrections vary with the type of billing error that occurred. For example, a misidentified transaction (or a transaction that is identified by one of the alternative methods in §226.8) is cured by properly identifying the transaction and crediting related finance and any other charges imposed. The creditor is not required to cancel the amount of the underlying obligation incurred by the consumer.

2. Form of correction notice. The written correction notice may take a variety of forms. It may be sent separately, or it may be included on or with a periodic statement that is mailed within the time for resolution. If the periodic statement is used, the amount reflecting the corrected amount may simply identify it as a credit. The explanation may be combined with the creditor’s notice to the consumer of amounts still owing, which is required under §226.13(g)(1), provided it is sent within the time limit for resolution. (See commentary to §226.13(e).)

3. Reasonable investigation. A creditor must conduct a reasonable investigation before it determines that no billing error occurred or that a different billing error occurred from that asserted. In conducting its investigation of an allegation of a billing error, the creditor may reasonably request the consumer’s cooperation. The creditor may not automatically deny a claim based solely on the consumer’s failure or refusal to comply with a particular request, including providing an affidavit or filing a police report. However, if the creditor otherwise has no knowledge of facts confirming the billing error, the lack of information resulting from the consumer’s failure or refusal to comply with a particular request may lead the creditor reasonably to terminate the investigation. The procedures involved in investigating alleged billing errors may differ depending on the billing error type.

i. Unauthorized transaction. In conducting an investigation of a notice of billing error alleging an unauthorized transaction under §226.13(a)(1), actions such as the following represent steps that a creditor may take, as appropriate, in conducting a reasonable investigation:

A. Reviewing the types or amounts of purchases made in relation to the consumer’s previous purchasing pattern.

B. Reviewing where the purchases were delivered in relation to the consumer’s residence or place of business.

C. Reviewing where the purchases were made in relation to where the consumer resides or has normally shopped.
D. Comparing any signature on credit slips for the purchases to the signature of the consumer (or an authorized user in the case of a credit card account) in the creditor's records, including other credit slips.

E. Requesting documentation to assist in the verification of the claim.

F. Requesting a written, signed statement from the consumer (or authorized user, in the case of a credit card account). For example, the creditor may include a signature line on a billing rights form that the consumer may sign to provide notice of the claim. However, a creditor may not require the consumer to provide an affidavit or signed statement under penalty of perjury as a part of a reasonable investigation.

G. Requesting a copy of a police report, if one was filed.

H. Requesting information regarding the consumer's knowledge of the person who allegedly obtained an extension of credit on the account or of that person's authority to do so.

i. Nondelivery of property or services. In conducting an investigation of a billing error notice alleging the nondelivery of property or services under §226.13(a)(3), the creditor shall not deny the assertion unless it conducts a reasonable investigation and determines that the property or services were actually delivered, mailed, or sent as agreed.

ii. Incorrect information. In conducting an investigation of a billing error notice alleging that information appearing on a periodic statement is incorrect because a person honoring the consumer's credit card otherwise accepting an access device for an open-end plan has made an incorrect report to the creditor, the creditor shall not deny the assertion unless it conducts a reasonable investigation and determines that the information was correct.

§ 226.13(g) Creditor's rights and duties after resolution.

Paragraph 13(g)(1).

1. Amounts owed by consumer. Amounts the consumer still owes may include both minimum periodic payments and related finance and other charges that accrued during the resolution period. As explained in the commentary to §226.13(d)(1), even if the creditor later determines that no billing error occurred, the creditor may not include finance or other charges that are imposed on undisputed balances solely as a result of a consumer's withholding payment of a disputed amount.

2. Time of notice. The creditor need not send the notice of amount owed within the time period for resolution, although it is under a duty to send the notice promptly after resolution of the alleged error. If the creditor combines the notice of the amount owed with the explanation required under §226.13(f)(1), the combined notice must be provided within the time limit for resolution.

Paragraph 13(g)(2).

1. Grace period if no error occurred. If the creditor determines, after a reasonable investigation, that a billing error did not occur as asserted, and the consumer was entitled to a grace period at the time the consumer provided the billing error notice, the consumer must be given a period of time equal to the grace period disclosed under §226.6(a)(1) or (b)(2) and §226.7(a)(8) or (b)(8) to pay any disputed amounts due without incurring additional finance or other charges. However, the creditor need not allow a grace period disclosed under the above-mentioned sections to pay the amount due under §226.13(g)(1) if no error occurred and the consumer was not entitled to a grace period at the time the consumer asserted the error. For example, assume that a creditor provides a consumer a grace period of 20 days to pay a new balance to avoid finance charges, and that the consumer did not carry an outstanding balance from the prior month. If the consumer subsequently asserts a billing error for the current statement period within the 20-day grace period, and the creditor determines that no billing error in fact occurred, the consumer must be given at least 20 days (i.e., the full disclosed grace period) to pay the amount due without incurring additional finance charges. Conversely, if the consumer was not entitled to a grace period at the time the consumer asserted the billing error, for example, if the consumer did not pay the previous monthly balance of undisputed charges in full, the creditor may assess finance charges on the disputed balance for the entire period the item was in dispute.

Paragraph 13(g)(3).

1. Time for payment. The consumer has a minimum of 10 days to pay (measured from the time the consumer could reasonably be expected to have received notice of the amount owed) before the creditor may issue an adverse credit report; if an initially disclosed grace period was extended, the consumer need not establish reasonable means when using the scheduled update to fulfill this requirement. For example, a creditor that reports to a credit bureau on scheduled updates need not transmit corrective information by an unscheduled computer or magnetic tape; it may provide the credit bureau with the correct information by letter or other commercially reasonable means when using the scheduled update would not be "prompt." The creditor is not responsible for ensuring that the credit bureau corrects its information immediately.
2. Adverse report to credit bureau. If a creditor makes an adverse report to a credit bureau that disseminated the information to other creditors, the creditor fulfills its § 226.13(i) obligations by providing the consumer with the name and address of the credit bureau.

3. Coverage. Credit extended directly from a non-overdraft credit line is governed solely by Regulation Z, even though a combined credit card/access device is used to obtain the extension.

4. Incidental credit under agreement. Credit extended incident to an electronic fund transfer under an agreement between the consumer and the financial institution is governed by § 226.13(i), which provides that certain error resolution procedures in both this regulation and Regulation E apply. Incidental credit that is not extended under an agreement between the consumer and the financial institution is governed solely by the error resolution procedures in Regulation E. For example, credit inadvertently extended incident to an electronic fund transfer, such as under an overdraft service not subject to Regulation Z, is governed solely by the Regulation E error resolution procedures, if the bank and the consumer do not have an agreement to extend credit when the consumer's account is overdrawn.

5. Application to debit/credit transactions—examples. If a consumer withdraws money at an automated teller machine and activates an overdraft credit feature on the checking account:

i. An error asserted with respect to the transaction is subject, for error resolution purposes, to the applicable Regulation E provisions (such as timing and notice) for the entire transaction.

ii. The creditor need not provisionally credit the consumer's account, under § 205.11(c)(2)(i) of Regulation E, for any portion of the unpaid extension of credit.

iii. The creditor must credit the consumer's account under § 205.11(c) with any finance charge or periodic balance.

iv. The creditor must credit the consumer's account under § 205.11(c) with any finance charge or periodic balance in any case, but the creditor must in any case have taken reasonable steps to verify the accuracy of the tool, including software programs; it is not intended to absolve a creditor of liability for its own errors, or for errors arising from improper use of the tool, from incorrect data entry, or from misapplication of the law.

6. Credit extended directly from a non-overdraft credit line is governed solely by the Regulation E error resolution procedures, if the bank and the consumer do not have an agreement to extend credit when the consumer's account is overdrawn.

7. Good faith reliance on faulty calculation tools. The regulation relieves a creditor of liability for an error in the annual percentage rate or finance charge that resulted from a corresponding error in a calculation tool used in good faith by the creditor. Whether or not the creditor's use of the tool was in good faith must be determined on a case-by-case basis, but the creditor must in any case have taken reasonable steps to verify the accuracy of the tool, including any instructions, before using it. Generally, the safe harbor from liability is available only for errors directly attributable to the calculation tool itself, including software programs; it is not intended to absolve a creditor of liability for its own errors, or for errors arising from improper use of the tool, from incorrect data entry, or from misapplication of the law.
Federal Reserve System

2. Charges related to opening, renewing, or continuing an account. Sections 226.14(c)(2) and (c)(3) exclude from the calculation of the effective annual percentage rate finance charges that are imposed during the billing cycle such as a loan fee, points, or similar charge that relates to opening, renewing, or continuing an account. The charges involved here do not relate to a specific transaction or to specific activity on the account, but relate solely to the opening, renewing, or continuing of the account. For example, an annual fee to renew an open-end credit account that is a percentage of the credit limit on the account, or that is charged only to consumers that have not used their credit card for a certain dollar amount in transactions during the preceding year, would not be included in the calculation of the annual percentage rate, even though the fee may not be excluded from the finance charge under §226.4(c)(4). (See comment 4(c)(4)-2.) This rule applies even if the loan fee, points, or similar charges are billed on a subsequent periodic statement or withheld from the proceeds of the first advance on the account.

3. Classification of charges. If the finance charge includes a charge not due to the application of a periodic rate, the creditor must use the annual percentage rate computation method that corresponds to the type of charge imposed. If the charge is tied to a specific transaction (for example, 3 percent of the amount of each transaction), then the method in §226.14(c)(3) must be used. If a fixed or minimum charge is applied, that is, one that is not tied to any specific transaction, then the formula in §226.14(c)(2) is appropriate.

4. Small finance charges. Section 226.14(c)(4) gives the creditor an alternative to §226.14(c)(2) and (c)(3) if small finance charges (50 cents or less) are involved; that is, if the finance charge includes minimum or fixed fees not due to the application of a periodic rate and the total finance charge for the cycle does not exceed 50 cents. For example, while a monthly activity fee of 50 cents on a balance of $20 would produce an annual percentage rate of 30 percent under the rule in §226.14(c)(2), the creditor may disclose an annual percentage rate of 18 percent if the periodic rate generally applicable to all balances is 1½ percent per month.

5. Prior-cycle adjustments. i. The annual percentage rate reflects the finance charges imposed during the billing cycle. However, finance charges imposed during the billing cycle may relate to activity in a prior cycle. Examples of circumstances when this may occur are: A. A cash advance occurs on the last day of a billing cycle on an account that uses the transaction date to figure finance charges, and it is impracticable to post the transaction until the following cycle.

B. An adjustment to the finance charge is made following the resolution of a billing error dispute.

C. A consumer fails to pay the purchase balance under a deferred payment feature by the payment due date, and finance charges are imposed from the date of purchase.

ii. Finance charges relating to activity in prior cycles should be reflected on the periodic statement as follows:

A. If a finance charge imposed in the current billing cycle is attributable to periodic rates applicable to prior billing cycles (such as when a deferred payment balance was not paid in full by the payment due date and finance charges from the date of purchase are now being debited to the account, or when a cash advance occurs on the last day of a billing cycle on an account that uses the transaction date to figure finance charges and it is impracticable to post the transaction until the following cycle), and the creditor uses the quotient method to calculate the annual percentage rate, the numerator would include the amount of any transaction charges plus any other finance charges posted during the billing cycle. At the creditor’s option, balances relating to the finance charge adjustment may be included in the denominator if permitted by the legal obligation, if it was impracticable to post the transaction in the previous cycle because of timing, or if the adjustment is covered by comment 14(c)-5.i.i.B.

B. If a finance charge that is posted to the account relates to activity for which a finance charge was debited or credited to the account in a previous billing cycle (for example, if the finance charge relates to an adjustment such as the resolution of a billing error dispute, or an unintentional posting error, or a payment by check that was later returned unpaid for insufficient funds or other reasons), the creditor shall at its option:

1. Calculate the annual percentage rate in accordance with i.A. of this paragraph, or

2. Disclose the finance charge adjustment on the periodic statement and calculate the annual percentage rate for the current billing cycle without including the finance charge adjustment in the numerator and balances associated with the finance charge adjustment in the denominator.

14(c)(1) Solely periodic rates imposed.

1. Periodic rates. Section 226.14(c)(1) applies if the only finance charge imposed is due to the application of a periodic rate to a balance. The creditor may compute the annual percentage rate either:

i. By multiplying each periodic rate by the number of periods in the year; or

ii. By the "quotient" method. This method refers to a composite annual percentage rate when different periodic rates apply to different balances. For example, a particular
Plan may involve a periodic rate of 1 1⁄2 percent on balances up to $500, and 1 percent on balances over $500. If, in a given cycle, the consumer has a balance of $800, the finance charge would consist of $7.50 (500 × .015) plus $3.00 (300 × .01), for a total finance charge of $10.50. The annual percentage rate for this period may be disclosed either as 18% on $500 and 12 percent on $300, or as 15.75 percent on a balance of $800 (the quotient of $10.50 divided by $800, multiplied by 12).

14(c)(2) Minimum or fixed charge, but not transaction charge, imposed.

1. Certain charges not based on periodic rates. Section 226.14(c)(2) specifies use of the quotient method to determine the annual percentage rate if the finance charge imposed includes a certain charge not due to the application of a periodic rate (other than a charge relating to a specific transaction). For example, if the creditor imposes a minimum $1 finance charge on all balances below $50, and the consumer’s balance was $40 in a particular cycle, the creditor would disclose an annual percentage rate of 30 percent ($40 × 12).

2. No balance. If there is no balance to which the finance charge is applicable, an annual percentage rate cannot be determined under §226.14(c)(2). This could occur not only when minimum charges are imposed on an account with no balance, but also when a periodic rate is applied to advances from the date of the transaction. For example, if on May 19 the consumer pays the new balance in full from a statement dated May 1, and has no further transactions reflected on the June 1 statement, that statement would reflect the finance charge with no account balance.

14(c)(3) Transaction charge imposed.

1. Transaction charges. i. Section 226.14(c)(3) transaction charges include, for example:
   A. A loan fee of $10 imposed on a particular advance.
   B. A charge of 3 percent of the amount of each transaction.
   ii. The reference to avoiding duplication in the computation requires that the amounts of transactions on which transaction charges were imposed not be included both in the amount of total balances and in the “other amounts on which a finance charge was imposed” figure. In a multifeatured plan, creditors may consider each bona fide feature separately in the calculation of the denominator. A creditor has considerable flexibility in defining features for open-end plans, as long as the creditor has a reasonable basis for the distinctions. For further explanation and examples of how to determine the components of this formula, see Appendix F to part 226.

2. Daily rate with specific transaction charge. Section 226.14(c)(3) sets forth an acceptable method for calculating the annual percentage rate if the finance charge results from a charge relating to a specific transaction and the application of a daily periodic rate. This section includes the requirement that the creditor follow the rules in Appendix F to part 226 in calculating the annual percentage rate, especially the provision in the introductory section of Appendix F which addresses the daily rate/transaction charge situation by providing that the “average of daily balances” shall be used instead of the “sum of the balances.”

14(d) Calculations where daily periodic rate applied.

1. Quotient method. Section 226.14(d) addresses use of a daily periodic rate(s) to determine some or all of the finance charge and use of the quotient method to determine the annual percentage rate. Since the quotient formula in §226.14(c)(1)(ii) and (c)(2) cannot be used when a daily rate is being applied to a series of daily balances, §226.14(d) provides two alternative ways to calculate the annual percentage rate—either of which satisfies the provisions of §226.7(a)(7).

2. Daily rate with specific transaction charge. If the finance charge results from a charge relating to a specific transaction and the application of a daily periodic rate, see comment 14(c)(3)–2 for guidance on an appropriate calculation method.

Section 226.16—Advertising

1. Clear and conspicuous standard—general. Section 226.16 is subject to the general “clear and conspicuous” standard for subpart B (see §226.5(a)(1)) but prescribes no specific rules for the format of the necessary disclosures, other than the format requirements related to the disclosure of a promotional rate or payment under §226.16(d)(6) or a promotional rate under §226.16(g). Other than the disclosure of certain terms described in §§226.16(d)(6) or (g), the credit terms need not be printed in a certain type size nor need they appear in any particular place in the advertisement.

2. Clear and conspicuous standard—promotional rates or payments.

1. For purposes of §226.16(d)(6), a clear and conspicuous disclosure means that the required information in §226.16(d)(6)(ii)(A)–(C) is disclosed with equal prominence and in close proximity to the promotional rate or payment to which it applies. If the information in §226.16(d)(6)(ii)(A)–(C) is the same type size and is located immediately next to or directly above or below the promotional rate or payment to which it applies, without any intervening text or graphical displays, the disclosures would be deemed to be equally prominent and in close proximity. Notwithstanding the above, for electronic advertisements that disclose promotional rates or payments, compliance with the requirements of §226.16(c) is deemed to satisfy the clear and conspicuous standard.
Federal Reserve System

For purposes of §226.16(g)(4) as it applies to written or electronic advertisements only, a clear and conspicuous disclosure means the required information in §226.16(g)(4)(i) and (g)(4)(ii) is stated very rapidly at a low volume in a manner that allows for a consumer to read the information required to be disclosed, and comply with all other requirements for clear and conspicuous disclosures under §226.16(d). (See also comment 16(c)(1)–2.)

Clear and conspicuous standard—television advertisements for home-equity plans. For purposes of this section, including alternative disclosures as provided for by §226.16(e), a clear and conspicuous disclosure in the context of visual text advertisements on television for home-equity plans subject to the requirements of §226.5b means that the required disclosures are not obscured by techniques such as graphical displays, shading, coloration, or other devices and comply with all other requirements for clear and conspicuous disclosures under §226.16(d). For example, very fine print in a television advertisement would not meet the clear and conspicuous standard if consumers cannot see and read the information required to be disclosed.

Clear and conspicuous standard—oral advertisements for home-equity plans. For purposes of this section, including alternative disclosures as provided for by §226.16(e), a clear and conspicuous disclosure in the context of an oral advertisement for home-equity plans subject to the requirements of §226.5b, whether by radio, television, the Internet, or other medium, means that the required disclosures are not obscured by techniques such as graphical displays, shading, coloration, or other devices, are displayed in a manner that allows for a consumer to read the information required to be disclosed, and comply with all other requirements for clear and conspicuous disclosures under §226.16(d).

Clear and conspicuous standard—Internet advertisements for home-equity plans. For purposes of this section, including alternative disclosures as provided for by §226.16(e), a clear and conspicuous disclosure for visual text advertisements on the Internet for home-equity plans subject to the requirements of §226.5b means that the required disclosures are not obscured by techniques such as graphical displays, shading, coloration, or other devices, are displayed in a manner that allows for a consumer to read the information required to be disclosed, and comply with all other requirements for clear and conspicuous disclosures under §226.16(d). For example, very fine print in an advertisement would not meet the clear and conspicuous standard if consumers cannot see and read the information required to be disclosed.

Implicit terms. Section 226.16(b) applies even if the triggering term is not stated explicitly, but may be readily determined from the advertisement. For example, if a creditor states no interest or no annual membership fee in an advertisement, additional information must be provided. Other examples of terms that trigger additional disclosures are:

- Small monthly service charge on the remaining balance, which describes how the amount of a finance charge will be determined.
- 12 percent Annual Percentage Rate or A $15 annual membership fee buys you $2,000 in credit, which describe required disclosures under §226.6.

Deferred billing and deferred payment programs. Statements such as “Charge it—you won’t be billed until May” or “You may skip your January payment” are not in themselves triggering terms, since the timing for initial billing or for monthly payments are not terms required to be disclosed under §226.6. However, a statement such as “No interest charges until May” or any other statement regarding when interest or finance charges begin to accrue is a triggering term, whether appearing alone or in conjunction with a description of a deferred billing or deferred payment program such as the examples above.
5. Variable-rate plans. In disclosing the annual percentage rate in an advertisement for a variable-rate plan, as required by §226.16(b)(2), the creditor may use an insert showing the current rate; or may give the rate as of a specified recent date. The additional requirement in §226.16(b)(1)(ii) to disclose the variable-rate feature may be satisfied by disclosing that the annual percentage rate may vary or a similar statement, but the advertisement need not include the information required by §226.5(a)(1)(ii) or (b)(4)(ii).

6. Membership fees for open-end (not home-secured) plans. For purposes of §226.16(b)(1)(iii), membership fees that may be imposed on open-end (not home-secured) plans shall have the same meaning as in §226.5a(b)(2).

Paragraph (b)(2).

1. Assumptions. In stating the total of payments and the time period to repay the obligation, assuming that the consumer pays only the periodic payment amounts advertised, as required under §226.16(b)(2), the following additional assumptions may be made:
   i. Payments are made timely so as not to be considered late by the creditor;
   ii. Payments are made each period, and no debt cancellation or suspension agreement, or skip payment feature applies to the account;
   iii. No interest rate changes will affect the account;
   iv. No other balances are currently carried or will be carried on the account;
   v. No taxes or ancillary charges are or will be added to the obligation;
   vi. Goods or services are delivered on a single date; and
   vii. The consumer is not currently and will not become delinquent on the account.

2. Positive periodic payment amounts. Only positive periodic payment amounts trigger the additional disclosures under §226.16(b)(2). Therefore, if the periodic payment amount advertised is not a positive amount (e.g., “No payments”), the advertisement need not state the total of payments and the time period to repay the obligation.

16(c) Catalogs or other multiple-page advertisements; electronic advertisements.

1. Definition. The multiple-page advertisements to which §226.16(c) refers are advertisements consisting of a series of sequentially numbered pages—for example, a supplement to a newspaper. A mailing consisting of several separate flyers or pieces of promotional material in a single envelope does not constitute a single multiple-page advertisement for purposes of §226.16(c).

Paragraph 16(c)(1).

1. General. Section 226.16(c)(1) permits creditors to put credit information together in one place in a catalog or other multiple-page advertisement or an electronic advertisement (such as an advertisement appearing on an Internet Web site). The rule applies only if the advertisement contains one or more of the triggering terms from §226.16(b).

2. Electronic advertisement. If an electronic advertisement (such as an advertisement appearing on an Internet Web site) contains the table or schedule permitted under §226.16(c)(1), any statement of terms set forth in §226.6 appearing anywhere else in the advertisement must clearly direct the consumer to the location where the table or schedule begins. For example, a term triggering additional disclosures may be accompanied by a link that directly takes the consumer to the additional information.

Paragraph 16(c)(2).

1. Table or schedule if credit terms depend on outstanding balance. If the credit terms of a plan vary depending on the amount of the balance outstanding, rather than the amount of any property purchased, a table or schedule complies with §226.16(c)(2) if it includes the required disclosures for representative balances. For example, a creditor would disclose that a periodic rate of 3.5% is applied to balances of $500 or less, and a 1% rate is applied to balances greater than $500.

16(d) Additional requirements for home-equity plans.

1. Trigger terms. Negative as well as affirmative references trigger the requirement for additional information. For example, if a creditor states no annual fee, no points, or we waive closing costs in an advertisement, additional information must be provided. (See comment 16(d)–4 regarding the use of a phrase such as no closing costs.) Inclusion of a statement such as low fees, however, would not trigger the need to state additional information. References to payment terms include references to the draw period or any repayment period, to the length of the plan, to how the minimum payments are determined and to the timing of such payments.

2. Fees to open the plan. Section 226.16(d)(1)(i) requires a disclosure of any fees imposed by the creditor or a third party to open the plan. In providing the fee information required under this paragraph, the corresponding rules for disclosure of this information apply. For example, fees to open the plan may be stated as a range. Similarly, if property insurance is required to open the plan, a creditor either may estimate the cost of the insurance or provide a statement that such insurance is required. (See the commentary to §226.5b(d)(7) and (d)(8).)

3. Statements of tax deductibility. An advertisement that refers to deductibility for tax purposes is not misleading if it includes a statement such as “consult a tax advisor regarding the deductibility of interest.” An advertisement distributed in paper form or through the Internet (rather than by radio or television) that states that the advertised extension of credit may exceed the fair market value of the consumer’s dwelling is not misleading if it clearly and conspicuously
Federal Reserve System

states the required information in §§ 226.16(d)(4)(i) and (d)(4)(ii).

IV. Plans other than variable-rate plans. For a plan other than a variable-rate plan, if an advertised payment is calculated in the same way as other payments based on an assumed balance, the fact that the minimum payment could increase solely if the consumer made an additional draw does not make the payment a promotional payment. For example, if a payment of $500 results from an assumed $10,000 draw, and the payment would increase to $1,000 if the consumer made an additional $10,000 draw, the payment is not a promotional payment.

Relation to other sections. Advertisements for home-equity plans must comply with all provisions in § 226.16, not solely the rules in § 226.16(d). If an advertisement contains information (such as the payment terms) that triggers the duty under § 226.16(d) to state the annual percentage rate, the additional disclosures in § 226.16(b) must be provided in the advertisement. While § 226.16(d) does not require a statement of fees to use or maintain the plan (such as membership fees and transaction charges), such fees must be disclosed under § 226.16(b)(1)(i) and (b)(1)(iii).
8. Inapplicability of closed-end rules. Advertisements for home-equity plans are governed solely by the requirements in §§226.16, and §226.16(g), except §226.16(g)(1)(i), (g)(1)(ii), (g)(1)(iii), and (g)(1)(iv), and not by the closed-end advertising rules in §§226.16(a)–(d) and §226.24. Thus, if a creditor states payment information about the repayment phase, this will trigger the duty to provide additional information under §§226.16(b)–(d) and §226.24. See §226.16(g) for exceptions.

9. Balloon payment. See comment §226.16(g)(3) for information not required to be stated in advertisements, and on situations in which the balloon payment requirement does not apply.

18(e) Alternative disclosures—television or radio advertisements.

1. Multi-purpose telephone number. When an advertised telephone number provides a recording, disclosures must be provided early in the sequence to ensure that the consumer receives the required disclosures. For example, in providing several options—such as providing directions to the advertiser’s place of business—the option allowing the consumer to request disclosures should be provided early in the telephone message to ensure that the option to request disclosures is not obscured by other information.

2. Statement accompanying toll free number. Language must accompany a telephone number indicating that disclosures are available by calling the telephone number, such as “call 1-800-000-0000 for details about credit costs and terms.”

16(g) Promotional rates.

1. Rate in effect at the end of the promotional period. If the annual percentage rate that will be in effect at the end of the promotional period (i.e., the post-promotional rate) is a variable rate, the post-promotional rate for purposes of §226.16(g)(2)(i) is the rate that would have applied at the time the promotional rate was advertised if the promotional rate was not offered, consistent with the accuracy requirements in §226.5a(c)(2) and (e)(4), as applicable.

2. Immediate proximity. For written or electronic advertisements, including the term “introductory” or “intro” in the same phrase as the listing of the introductory rate is deemed to be in immediate proximity of the listing.

3. Prominent location closely proximate. For written or electronic advertisements, information required to be disclosed in §§226.16(g)(4)(i) and (g)(4)(ii) that is in the same paragraph as the first listing of the promotional rate is deemed to be in a prominent location closely proximate to the listing. Information disclosed in a footnote will not be considered in a prominent location closely proximate to the listing.

4. First listing. For purposes of §§226.16(g)(4) as it applies to written or electronic advertisements, the first listing of the promotional rate is the most prominent listing of the rate on the front side of the first page of the principal promotional document. The principal promotional document is the document designed to be seen first by the consumer in a mailing, such as a cover letter or solicitation letter. If the promotional rate does not appear on the front side of the first page of the principal promotional document, then the first listing of the promotional rate is the most prominent listing of the rate on the subsequent pages of the principal promotional document. If the promotional rate is not listed on the principal promotional document or there is no principal promotional document, the first listing is the most prominent listing of the rate on the front side of the first page of each document listing the promotional rate. If the promotional rate does not appear on the front side of the first page of a document, then the first listing of the promotional rate is the most prominent listing of the rate on the subsequent pages of the document. If the listing of the promotional rate with the largest type size on the front side of the first page (or subsequent pages if the promotional rate is not listed on the front side of the first page) of the principal promotional document (or each document listing the promotional rate if the promotional rate is not listed on the principal promotional document or there is no principal promotional document), is used as the most prominent listing, it will be deemed to be the first listing. Consistent with comment 16(c)–1, a catalog or multipage advertisement is considered one document for purposes of §§226.16(g)(4).

5. Post-promotional rate depends on consumer’s creditworthiness. For purposes of disclosing the rate that may apply after the end of the promotional rate period, at the advertiser’s option, the advertisement may disclose the rates that may apply as either specific rates, or a range of rates. For example, if there are three rates that may apply (9.99%, 12.99% or 17.99%), an issuer may disclose these three rates as specific rates (9.99%, 12.99% or 17.99%) or as a range of rates (9.99%–17.99%).

* * * * *

Section 226.26—Use of Annual Percentage Rate in Oral Disclosures

* * * * *

26(a) Open-end credit

1. Information that may be given. The creditor may state periodic rates in addition to the required annual percentage rate, but it need not do so. If the annual percentage rate is unknown because transaction charges, loan fees, or similar finance charges may be imposed, the creditor must give the corresponding annual percentage rate (that is, the periodic rate multiplied by the number
Federal Reserve System

of periods in a year, as described in §§ 226.6(a)(1)(ii) and (b)(4)(i)(A) and 226.7(a)(4) and (b)(4). In such cases, the creditor may, but need not, also give the consumer information about other finance charges and other charges.

Section 226.27—Language of Disclosures

1. Subsequent disclosures. If a creditor provides account-opening disclosures in a language other than English, subsequent disclosures need not be in that other language. For example, if the creditor gave Spanish-language account-opening disclosures, periodic statements and change-in-terms notices may be made in English.

Section 226.28—Effect on State Laws

28(a) Inconsistent disclosure requirements.

6. Rules for other fair credit billing provisions. The second part of the criteria for fair credit billing relates to the other rules implementing chapter 4 of the act (addressed in §§ 226.4(c)(8), 226.5(b)(2)(ii), 226.6(a)(5) and (b)(5)(iii), 226.7(a)(9) and (b)(9), 226.8a, 226.10, 226.11, 226.12(c) through (f), 226.13, and 226.21). Section 226.28(a)(2)(ii) provides that the test of inconsistency is whether the creditor can comply with state law without violating Federal law. For example:

i. A state law that allows the card issuer to offset the consumer’s credit-card indebtedness against funds held by the card issuer would be preempted, since § 226.12(d) prohibits such action.

ii. A state law that requires periodic statements to be sent more than 14 days before the end of a free-ride period would not be preempted.

iii. A state law that permits consumers to assert claims and defenses against the card issuer without regard to the $50 and 100-mile limitations of § 226.12(c)(3)(ii) would not be preempted.

The following statements would not comply with this section:

A. The interest rate will never be higher than X percentage points above the prevailing market rate.

B. The interest rate will never be higher than X percentage points above [a rate to be determined at some future point in time], whichever is less.

C. The interest rate will not exceed X%, or the state usury ceiling, whichever is less.

D. The interest rate will not exceed X%, or the state usury ceiling, whichever is less.

ii. The following statements would not comply with this section:

A. The interest rate will never be higher than X percentage points above the prevailing market rate.

B. The interest rate will never be higher than X percentage points above [a rate to be determined at some future point in time].

C. The interest rate will not exceed the state usury ceiling which is currently X%.

iii. A creditor may state the maximum rate in terms of a maximum annual percentage rate that may be imposed. Under an open-end credit plan, this normally would be the corresponding annual percentage rate. (See generally § 226.6(a)(1)(ii) and (b)(4)(i)(A)).

APPENDIX F—OPTIONAL ANNUAL PERCENTAGE RATE COMPUTATIONS FOR CREDITORS OFFERING OPEN-END PLANS SUBJECT TO THE REQUIREMENTS OF § 226.5B

1. Daily rate with specific transaction charge. If the finance charge results from a charge relating to a specific transaction and the application of a daily periodic rate, see comment 14(c)(3)–2 for guidance on an appropriate calculation method.

APPENDICES G AND H—OPEN-END AND CLOSED-END MODEL FORMS AND CLAUSES

1. Permissible changes. Although use of the model forms and clauses is not required, creditors using them properly will be deemed to be in compliance with the regulation with regard to those disclosures. Creditors may make certain changes in the format or content of the forms and clauses and may delete any disclosures that are inapplicable to a transaction or a plan without losing the act’s protection from liability, except for formatting changes may not be made to model forms and samples in G–2(A), G–3(A), G–4(A), G–10(A)–(E), G–17(A)–(D), G–18(A) (except as permitted pursuant to §§ 226.7(b)(2)), G–18(B)–(C), G–19, G–20, and G–21. The rearrangement of the model forms and clauses may not be so extensive as to affect the substance, clarity, or meaningful sequence of the forms and clauses.
APPENDIX G—OPEN-END MODEL FORMS AND CLAUSES

1. Models G–1 and G–1(A). The model disclosures in G–1 and G–1(A) (different balance computation methods) may be used in both the account-opening disclosures under §226.6 and the periodic disclosures under §226.7. As is clear from the models given, ‘shorthand’ descriptions of the balance computation methods are not sufficient, except where §226.7(b)(5) applies. For creditors using model G–1, the phrase “a portion of” the finance charge should be included if the total finance charge includes other amounts, such as transaction charges, that are not due to the application of a periodic rate. If unpaid interest or finance charges are subtracted in calculating the balance, that fact must be stated so that the disclosure of the computation method is accurate. Only model G–1(b) contains a final sentence appearing in brackets, which reflects the total dollar amount of payments and credits received during the billing cycle. The other models do not contain this language because they reflect plans in which payments and credits received during the billing cycle are subtracted. If this is not the case, however, the language relating to payments and credits should be changed, and the creditor should add either the disclosure of the dollar amount as in model G–1(b) or an indication of which credits (disclosed elsewhere on the periodic statement) will not be deducted in determining the balance. (Such an indication may also substitute for the bracketed sentence in model G–1(b).) (See the commentary to §226.7(a)(5) and (b)(5).) For open-end plans subject to the requirements of §226.5b, creditors may, at their option, use the clauses in G–1 or G–1(A).

2. Models G–2 and G–2(A). These models contain the notice of liability for unauthorized use of a credit card. For home-equity plans subject to the requirements of §226.5b, at the creditor’s option, a creditor either may use G–2 or G–2(A). For open-end plans not subject to the requirements of §226.5b, creditors properly use G–2(A).

   i. These set out models for the long-form billing-error rights statement (for use with the account-opening disclosures and as an annual disclosure or, at the creditor’s option, with each periodic statement) and the alternative billing-error rights statement (for use with each periodic statement), respectively. For home-equity plans subject to the requirements of §226.5b, at the creditor’s option, a creditor either may use G–3 or G–3(A), and for creditors that use the short form, G–4 or G–4(A). For open-end (not home-secured) plans that are subject to the requirements of §226.5b, creditors properly use G–3(A) and G–4(A). Creditors must provide the billing-error rights statements in a form substantially similar to the models in order to comply with the regulation. The model billing-rights statements may be modified in any of the ways set forth in the first paragraph of the commentary on appendices G and H. The models may, furthermore, be modified by deleting inapplicable information, such as:
   a. The paragraph concerning stopping a debit in relation to a disputed amount. If the creditor does not have the ability to debit automatically the consumer’s savings or checking account for payment.
   b. The rights stated in the special rule for credit card purchases and any limitations on those rights.
   c. The model billing rights statements also contain optional language that creditors may use. For example, the creditor may:
      A. Include a statement to the effect that notice of a billing error must be submitted something other than the payment ticket or other material accompanying the periodic disclosures.
      B. Insert its address or refer to the address that appears elsewhere on the bill.
      C. Include instructions for consumers, at the consumer’s option, to communicate with the creditor electronically or in writing.
   d. Additional information may be included on the statements as long as it does not detract from the required disclosures.
Federal Reserve System

For instance, information concerning the reporting of errors in connection with a checking account may be included on a combined statement as long as the disclosures required by the regulation remain clear and conspicuous.

* * * * *

§ 226.5a. Sample Disclosures for Charge Card Applications and Solicitations, and Disclosures Required Under § 226.6(b)(2) for Account-Opening Disclosures

5. Model G–10(A), samples G–10(B) and G–10(C), model G–10(D), sample G–10(E), model G–17(A), and samples G–17(B), G–17(C) and G–17(D). i. Model G–10(A) and Samples G–10(B) and G–10(C) illustrate, in the tabular format, the disclosures required under §226.5a for applications and solicitations for credit cards other than charge cards. Model G–10(D) and Sample G–10(E) illustrate the tabular format disclosure for charge card applications and solicitations and reflect the disclosures in the table. Model G–17(A) and Samples G–17(B), G–17(C) and G–17(D) illustrate, in the tabular format, the disclosures required under §226.6(b)(2) for account-opening disclosures.

ii. Except as otherwise permitted, disclosures must be substantially similar in sequence and format to Models G–10(A), G–10(D) and G–17(A). While proper use of the model forms will be deemed in compliance with the regulation, card issuers and other creditors offering open-end (not home-secured) plans are permitted to disclose the annual percentage rates for purchases, cash advances, or balance transfers in the same row in the table for any transaction types for which the issuer or creditor charges the same annual percentage rate. Similarly, card issuer and other creditors offering open-end (not home-secured) plans are permitted to disclose fees of the same amount in the same row if the fees are in the same category. Fees in different categories may not be disclosed in the same row. For example, a transaction fee and a penalty fee that are of the same amount may not be disclosed in the same row. Card issuers and other creditors offering open-end (not home-secured) plans are also permitted to use headings other than those in the forms if they are clear and concise and are substantially similar to the headings contained in model forms, with the following exceptions. The heading “penalty APR” must be used when describing rates that may increase due to default or delinquency or as a penalty, and in relation to required insurance, or debt cancellation or suspension coverage, the term “required” and the name of the product must be used. (See also §§ 226.5a(b)(5) and 226.6(b)(2)(v) for guidance on headings that must be used to describe the grace period, or lack of grace period, in the disclosures required under §226.5a for applications and solicitations for credit cards other than charge cards, and the disclosures required under §226.6(b)(2) for account-opening disclosures, respectively.)

iii. Models G–10(A) and G–17(A) contain two alternative headings (“Minimum Interest Charge” and “Minimum Charge”) for disclosing a minimum interest or fixed finance charge under §§226.5a(b)(3) and 226.6(b)(2)(ii). If a creditor imposes a minimum charge in lieu of interest in those months where a consumer would otherwise incur an interest charge but that interest charge is less than the minimum charge, the creditor should disclose this charge under the heading “Minimum Interest Charge” or a substantially similar heading. Other minimum or fixed finance charges should be disclosed under the heading “Minimum Charge” or a substantially similar heading.

iv. Models G–10(A), G–10(D) and G–17(A) contain two alternative headings (“Annual Fees” and “Set-up and Maintenance Fees”) for disclosing fees for issuance or availability of credit under §226.5a(b)(2) or §226.6(b)(2)(ii). If the only fee for issuance or availability of credit disclosed under §226.5a(b)(2) or §226.6(b)(2)(ii) is an annual fee, a creditor should use the heading “Annual Fee” or a substantially similar heading to disclose this fee. If a creditor imposes fees for issuance or availability of credit disclosed under §226.5a(b)(2) or §226.6(b)(2)(ii) other than, or in addition to, an annual fee, the creditor should use the heading “Set-up and Maintenance Fees” or a substantially similar heading to disclose fees for issuance or availability of credit, including the annual fee.

v. Although creditors are not required to use a certain paper size in disclosing the §§226.5a or 226.6(b)(1) and (2) disclosures, samples G–10(B), G–10(C), G–17(B), G–17(C) and G–17(D) are designed to be printed on an 8 1/2 x 11 inch sheet of paper. A creditor may use a smaller sheet of paper, such as 8 1/2 x 5 1/2 inch sheet of paper. If the table is not provided on a single side of a sheet of paper, the creditor must include a reference or references, such as “SEE BACK OF PAGE for more important information about your account,” at the bottom of each page indicating that the table continues onto an additional page or pages. A creditor that splits the table onto two or more pages must disclose the table on consecutive pages and may not include any intervening information between portions of the table. In addition, the following formatting techniques were used in presenting the information in the sample tables to ensure that the information is readable:

A. A readable font style and font size (10-point Arial font style, except for the purchase annual percentage rate which is shown in 16-point type).

B. Sufficient spacing between lines of the text.

C. Adequate spacing between paragraphs when several pieces of information were included in the same row of the table, as appropriate. For example, in the samples in the
row of the tables with the heading “APR for Balance Transfers,” the forms disclose two components: the applicable balance transfer rate and a cross reference to the balance transfer fee if a fee is charged. The two components are disclosed on separate lines with adequate space between each component. On the other hand, in the samples, in the disclosure of the late-payment fee, the forms disclose two components: the late-payment fee, and the cross reference to the penalty rate. Because the disclosure of both these components is short, these components are disclosed on the same line in the tables.

D. Standard spacing between words and characters. Generally, black text was used on white paper.

vi. While the Board is not requiring issuers to use the above formatting techniques in presenting information in the table (except for the 10-point and 16-point font requirement), the Board encourages issuers to consider these techniques when deciding how to disclose information in the table, to ensure that the information is presented in a readable format.

vii. Creditors are allowed to use color, shading and similar graphic techniques with respect to the table, so long as the table remains substantially similar to the model and sample forms in Appendix G. Models G–11 contains clauses that illustrate the general disclosures required under §226.5a(e) in applications and solicitations made available to the general public.

7. Models G–13(A) and G–13(B). These model forms illustrate the disclosures required under §226.5a(f) when the card issuer changes the entity providing insurance on a credit card account. Model G–13(A) contains the items set forth in §226.5a(f)(3) as examples of significant terms of coverage that may be affected by the change in insurance provider. Model G–13(A) also illustrates the permissible combination of the two notices required under §226.9(f)—the notice required for a planned change in provider and the notice required once a change has occurred. This form may be modified for use in providing only the disclosures required before the change if the card issuer chooses to send two separate notices. Thus, for example, the references to the attached policy or certificate would not be required in a separate notice prior to a change in the insurance provider if a separate policy or certificate need not be provided at that time.

Model G–13(B) illustrates the disclosures required under §226.9(f)(2) when the insurance provider is changed.

8. Samples G–18(A)–(E). For home-equity plans subject to the requirements of §226.5b, if a creditor chooses to comply with the requirements in §226.7(b), the creditor may use Samples G–18(A) through G–18(E) to comply with these requirements, as applicable.

9. Samples G–18(D) and (E). Samples G–18(D) and G–18(E) illustrate how creditors may comply with proximity requirements for payment information on periodic statements. Creditors that offer card accounts with a charge card feature and a revolving feature may change the disclosure to make clear to which feature the disclosures apply.

10. Forms G–18(F)–(G). Forms G–18(F) and G–18(G) are intended as a compliance aid to illustrate front sides of a periodic statement, and how a periodic statement for open-end (not home-secured) plans might be designed to comply with the requirements of §226.7. The samples contain information that is not required by Regulation Z. The samples also present information in additional formats that are not required by Regulation Z.

i. Creditors are not required to use a certain paper size in disclosing the §226.7 disclosures. However, Forms G–18(F) and G–18(G) are designed to be printed on an 8 x 14 inch sheet of paper.

ii. The due date for a payment, if a late-payment fee or penalty rate may be imposed, must appear on the front of the first page of the statement. See Samples G–18(D) and G–18(E) that illustrate how a creditor may comply with proximity requirements for other disclosures. The payment information disclosures appear in the upper right-hand corner on Samples G–18(F) and G–18(G), but may be located elsewhere, as long as they appear on the front of the first page of the periodic statement. The summary of account activity presented on Samples G–18(F) and G–18(G) is not itself a required disclosure, although the previous balance and the new balance, presented in the summary, must be disclosed in a clear and conspicuous manner on periodic statements.

iii. Additional information not required by Regulation Z may be presented on the statement. The information need not be located in any particular place or be segregated from disclosures required by Regulation Z, although the effect of proximity requirements for required disclosures, such as the due date, may cause the additional information to be segregated from those disclosures required to be disclosed in close proximity to...
one another. Any additional information must be presented consistent with the creditor's obligation to provide required disclosures in a clear and conspicuous manner.

iv. Model Forms G–18(F) and G–18(G) demonstrate two examples of ways in which transactions could be presented on the periodic statement. Model Form G–18(G) presents transactions grouped by type and Model Form G–18(F) presents transactions in a list in chronological order. Neither of these approaches to presenting transactions is required; a creditor may present transactions differently, such as in a list grouped by authorized user or other means.

1. Model Form G–19 See §226.9(b)(3) regarding the headings required to be disclosed when describing in the tabular disclosure a grace period (or lack of a grace period) offered on check transactions that access a credit card account.

PART 227—UNFAIR OR DECEPTIVE ACTS OR PRACTICES (REGULATION AA)

Subpart A—General Provisions

Sec.

227.1 Definitions.

227.2 Consumer complaint procedure.

Subpart B—Credit Practices Rule

227.11 Authority, purpose, and scope.

227.12 Definitions.

227.13 Unfair credit contract provisions.

227.14 Unfair or deceptive practices involving cosigners.

227.15 Unfair late charges.

227.16 State exemptions.

Subpart C—Consumer Credit Card Account Practices Rule

227.21 Definitions.

227.22 Unfair acts or practices regarding time to make payment.

227.23 Unfair acts or practices regarding allocation of payments.

227.24 Unfair acts or practices regarding increases in annual percentage rates.

227.25 Unfair balance computation method.

227.26 Unfair charging of security deposits and fees for the issuance or availability of credit to consumer credit card accounts.

SUPPLEMENT I TO PART 227—OFFICIAL STAFF COMMENTARY

EFFECTIVE DATE NOTE: At 74 FR 5559, Jan. 29, 2009, an authority citation was added to part 227, effective July 1, 2010.

§ 227.2 Consumer complaint procedure.

(a) Submission of complaints. (1) Any consumer having a complaint regarding a State member bank is invited to submit it to the Federal Reserve System. The complaint should be submitted in writing, if possible, and should include the following information:

(i) A description of the act or practice that is thought to be unfair or deceptive, or in violation of existing law or regulation, including all relevant facts;
§ 227.11

(ii) The name and address of the bank that is the subject of the complaint; and

(iii) The name and address of the complainant.

(2) Consumer complaints should be made to—Federal Reserve Consumer Help Center, P.O. Box 1200, Minneapolis, MN 55480, Toll-free number: (888) 851-1920, Fax number: (877) 888-2520, TDD number: (877) 766-8533.

(b) Response to complaints. Within 15 business days of receipt of a written complaint by the Board or a Federal Reserve Bank, a substantive response or an acknowledgment setting a reasonable time for a substantive response will be sent to the individual making the complaint.

(c) Referrals to other agencies. Complaints received by the Board or a Federal Reserve Bank regarding an act or practice of an institution other than a State member bank will be forwarded to the Federal agency having jurisdiction over that institution.

EFFECTIVE DATE NOTE: At 74 FR 5559, Jan. 29, 2009, § 227.2 was revised, effective July 1, 2010. For the convenience of the user, the revised text is set forth as follows:

§ 227.2 Consumer-complaint procedure.

(a) Definitions. For purposes of this section, unless the context indicates otherwise, the following definitions apply:

(1) “Board” means the Board of Governors of the Federal Reserve System.

(2) “Consumer complaint” means an allegation by or on behalf of an individual, group of individuals, or other entity that a particular act or practice of a State member bank is unfair or deceptive, or in violation of a regulation issued by the Board pursuant to a Federal statute, or in violation of any other act or regulation under which the bank must operate. Unless the context indicates otherwise, “complaint” shall be construed to mean a “consumer complaint” for purposes of this section.

(3) “State member bank” means a bank that is chartered by a State and is a member of the Federal Reserve System.

(b) Submission of complaints. (1) Any consumer having a complaint regarding a State member bank is invited to submit it to the Federal Reserve System. The complaint should be submitted in writing, if possible, and should include the following information:

(i) A description of the act or practice that is thought to be unfair or deceptive, or in violation of existing law or regulation, including all relevant facts;

(ii) The name and address of the State member bank that is the subject of the complaint; and

(iii) The name and address of the complainant.

(2) Consumer complaints should be made to—Federal Reserve Consumer Help Center, P.O. Box 1200, Minneapolis, MN 55480, Toll-free number: (888) 851-1920, Fax number: (877) 888-2520, TDD number: (877) 766-8533, E-mail address: ConsumerHelp@FederalReserve.gov, Web site address: www.federalreserveconsumerhelp.gov.

(c) Response to complaints. Within 15 business days of receipt of a written complaint by the Board or a Federal Reserve Bank, a substantive response or an acknowledgment setting a reasonable time for a substantive response will be sent to the individual making the complaint.

(d) Referrals to other agencies. Complaints received by the Board or a Federal Reserve Bank regarding an act or practice of an institution other than a State member bank will be forwarded to the Federal agency having jurisdiction over that institution.

Subpart B—Credit Practices Rule

EFFECTIVE DATE NOTE: At 74 FR 5559, Jan. 29, 2009, the authority citation to part 227, subpart B was removed, effective July 1, 2010.

Source: Reg. AA, 50 FR 16697, Apr. 29, 1985, unless otherwise noted.

§ 227.11 Authority, purpose, and scope.

(a) Authority. This subpart is issued by the Board under section 18(f) of the Federal Trade Commission Act, 15 U.S.C. 57a(f) (section 202(a) of the Magnuson-Moss Warranty—Federal Trade Commission Improvement Act, Pub. L. 93-637).

(b) Purpose. Unfair or deceptive acts or practices in or affecting commerce are unlawful under section 5(a)(1) of the Federal Trade Commission Act, 15 U.S.C. 45(a)(1). This subpart defines unfair or deceptive acts or practices of banks in connection with extensions of credit to consumers.

(c) Scope. This subpart applies to all banks and their subsidiaries, except savings banks that are members of the Federal Home Loan Bank System. Compliance is to be enforced by:
(1) The Comptroller of the Currency, in the case of national banks, banks operating under the code of laws for the District of Columbia, and federal branches and federal agencies of foreign banks;

(2) The Board of Governors of the Federal Reserve System, in the case of banks that are members of the Federal Reserve System (other than banks referred to in paragraph (c)(1) of this section), branches and agencies of foreign banks (other than federal branches, federal agencies, and insured state branches of foreign banks), commercial lending companies owned or controlled by foreign banks, and organizations operating under section 25 or 25A of the Federal Reserve Act; and

(3) The Federal Deposit Insurance Corporation, in the case of banks insured by the Federal Deposit Insurance Corporation (other than banks referred to in paragraphs (c)(1) and (c)(2) of this section), and insured state branches of foreign banks.

(d) The terms used in paragraph (c) of this section that are not defined in the Federal Trade Commission Act or in section 3(s) of the Federal Deposit Insurance Act (12 U.S.C. 1813(s)) shall have the meaning given to them in section 1(b) of the International Banking Act of 1978 (12 U.S.C. 3101).

EFFECTIVE DATE NOTE: At 74 FR 5559, Jan. 29, 2009, §227.11 was redesignated as §227.1 transferred to subpart A, and revised, and a new §227.11 was added and reserved, effective July 1, 2009. For the convenience of the user, the revised text is set forth as follows:

§227.1 Authority, purpose, and scope.

(a) Authority. This part is issued by the Board under section 18(f) of the Federal Trade Commission Act, 15 U.S.C. 57a(f) (section 203(a) of the Magnuson-Moss Warranty—Federal Trade Commission Improvement Act, Pub. L. 93-637).

(b) Purpose. The purpose of this part is to prohibit unfair or deceptive acts or practices in violation of section 5(a)(1) of the Federal Trade Commission Act, 15 U.S.C. 45(a)(1). Subparts B and C define and contain requirements prescribed for the purpose of preventing specific unfair or deceptive acts or practices of banks. The prohibitions in subparts B and C do not limit the Board’s or any other agency’s authority to enforce the FTC Act with respect to any other unfair or deceptive acts or practices.

(c) Scope. Subparts B and C apply to banks, including subsidiaries of banks and other entities listed in paragraph (c)(2) of this section. Subparts B and C do not apply to savings associations as defined in 12 U.S.C. 1813(b). Compliance is to be enforced by:

(1) The Comptroller of the Currency, in the case of national banks and federal branches and federal agencies of foreign banks;

(2) The Board of Governors of the Federal Reserve System, in the case of banks that are members of the Federal Reserve System (other than banks referred to in paragraph (c)(1) of this section), branches and agencies of foreign banks (other than federal branches, federal agencies, and insured state branches of foreign banks), commercial lending companies owned or controlled by foreign banks, and organizations operating under section 25 or 25A of the Federal Reserve Act; and

(3) The Federal Deposit Insurance Corporation, in the case of banks insured by the Federal Deposit Insurance Corporation (other than banks referred to in paragraphs (c)(1) and (c)(2) of this section), and insured state branches of foreign banks.

(d) Definitions. Unless otherwise noted, the terms used in paragraph (c) of this section that are not defined in the Federal Trade Commission Act or in section 3(s) of the Federal Deposit Insurance Act (12 U.S.C. 1813(s)) shall have the meaning given to them in section 1(b) of the International Banking Act of 1978 (12 U.S.C. 3101).

§227.12 Definitions.

For the purposes of this subpart, the following definitions apply:

(a) Consumer means a natural person who seeks or acquires goods, services, or money for personal, family, or household use other than for the purchase of real property.

(b)(1) Cosigner means a natural person who assumes liability for the obligation of a consumer without receiving goods, services, or money in return for the obligation, or, in the case of an open-end credit obligation, without receiving the contractual right to obtain extensions of credit under the account.

(2) Cosigner includes any person whose signature is requested as a condition to granting credit to a consumer, or as a condition for forbearance on collection of a consumer’s obligation that is in default. The term does not include a spouse whose signature is
§ 227.13 Unfair credit contract provisions.

It is an unfair act or practice for a bank to enter into a consumer credit obligation that contains, or to enforce in a consumer credit obligation purchased by the bank, any of the following provisions:

(a) Confession of judgment. A cognovit or confession of judgment (for purposes other than executory process in the State of Louisiana), warrant of attorney, or other waiver of the right of notice and the opportunity to be heard in the event of suit or process thereon.

(b) Waiver of exemption. An executory waiver or a limitation of exemption from attachment, execution, or other process on real or personal property held, owned by, or due to the consumer, unless the waiver applies solely to property subject to a security interest executed in connection with the obligation.

(c) Assignment of wages. An assignment of wages or other earnings unless:

(1) The assignment by its terms is revocable at the will of the debtor;

(2) The assignment is a payroll deduction plan or preauthorized payment plan, commencing at the time of the transaction, in which the consumer authorizes a series of wage deductions as a method of making each payment; or

(3) The assignment applies only to wages or other earnings already earned at the time of the assignment.

(d) Security interest in household goods. A nonpossessory security interest in household goods other than a purchase money security interest.

§ 227.14 Unfair or deceptive practices involving cosigners.

(a) Prohibited practices. In connection with the extension of credit to consumers, it is:

(1) A deceptive act or practice for a bank to misrepresent the nature or extent of cosigner liability to any person; and

(2) An unfair act or practice for a bank to obligate a cosigner unless the cosigner is informed prior to becoming obligated of the nature of the cosigner's liability.

(b) Disclosure requirement. (1) A clear and conspicuous disclosure statement shall be given in writing to the cosigner prior to becoming obligated. The disclosure statement shall be substantially similar to the following statement and shall either be a separate document or included in the documents evidencing the consumer credit obligation.

NOTICE TO COSIGNER
You are being asked to guarantee this debt. Think carefully before you do. If the borrower doesn't pay the debt, you will have to. Be sure you can afford to pay if you have to, and that you want to accept this responsibility.

You may have to pay up to the full amount of the debt if the borrower does not pay. You may also have to pay late fees or collection costs, which increase this amount. The bank can collect this debt from you without first trying to collect from the borrower. The bank can use the same collection
methods against you that can be used against the borrower, such as suing you, garnishing your wages, etc. If this debt is ever in default, that fact may become a part of your credit record.

This notice is not the contract that makes you liable for the debt.

(2) In the case of open-end credit, the disclosure statement shall be given to the cosigner prior to the time that the cosigner becomes obligated for fees or transactions on the account.

(3) A bank that is in compliance with this paragraph may not be held in violation of paragraph (a)(2) of this section.

§ 227.15 Unfair late charges.

(a) In connection with collecting a debt arising out of an extension of credit to a consumer, it is an unfair act or practice for a bank to levy or collect any delinquency charge on a payment, when the only delinquency is attributable to late fees or delinquency charges assessed on earlier installments, and the payment is otherwise a full payment for the applicable period and is paid on its due date or within an applicable grace period.

(b) For the purposes of this section, collecting a debt means any activity, other than the use of judicial process, that is intended to bring about or does bring about repayment of all or part of money due (or alleged to be due) from a consumer.

§ 227.16 State exemptions.

(a) General rule. (1) An appropriate state agency may apply to the Board for a determination that:

(i) There is a state requirement or prohibition in effect that applies to any transaction to which a provision of this subpart applies; and

(ii) The state requirement or prohibition affords a level of protection to consumers that is substantially equivalent to, or greater than, the protection afforded by this subpart.

(2) If the Board makes such a determination, the provision of this subpart will not be in effect in that state to the extent specified by the Board in its determination, for as long as the state administers and enforces the state requirement or prohibition effectively.

(b) Applications. The procedures under which a state agency may apply for an exemption under this section are the same as those set forth in appendix B to Regulation Z (12 CFR part 226).

Subpart C—Consumer Credit Card Account Practices Rule

SOURCE: Reg. AA, 74 FR 5559, Jan. 29, 2009, unless otherwise noted.

EFFECTIVE DATE NOTE: At 74 FR 5559, Jan. 29, 2009, subpart C to part 227 was added, effective July 1, 2010.

§ 227.21 Definitions.

For purposes of this subpart, the following definitions apply:

(a) “Annual percentage rate” means the product of multiplying each periodic rate for a balance or transaction on a consumer credit card account by the number of periods in a year. The term “periodic rate” has the same meaning as in 12 CFR 226.2.

(b) “Consumer” means a natural person to whom credit is extended under a consumer credit card account or a natural person who is a co-obligor or guarantor of a consumer credit card account.

(c) “Consumer credit card account” means an account provided to a consumer primarily for personal, family, or household purposes under an open-end credit plan that is accessed by a credit card or charge card. The terms “open-end credit,” “credit card,” and “charge card” have the same meanings as in 12 CFR 226.2.

§ 227.22 Unfair acts or practices regarding time to make payment.

(a) General rule. Except as provided in paragraph (c) of this section, a bank
must not treat a payment on a consumer credit card account as late for any purpose unless the consumer has been provided a reasonable amount of time to make the payment.

(b) Compliance with general rule—(1) Establishing compliance. A bank must be able to establish that it has complied with paragraph (a) of this section.

(2) Safe harbor. A bank complies with paragraph (a) of this section if it has adopted reasonable procedures designed to ensure that periodic statements specifying the payment due date are mailed or delivered to consumers at least 21 days before the payment due date.

(c) Exception for grace periods. Paragraph (a) of this section does not apply to any time period provided by the bank within which the consumer may repay any portion of the credit extended without incurring an additional finance charge.

§ 227.23 Unfair acts or practices regarding allocation of payments.

When different annual percentage rates apply to different balances on a consumer credit card account, the bank must allocate any amount paid by the consumer in excess of the required minimum periodic payment among the balances using one of the following methods:

(a) High-to-low method. The amount paid by the consumer in excess of the required minimum periodic payment is allocated first to the balance with the highest annual percentage rate and any remaining portion to the other balances in descending order based on the applicable annual percentage rate.

(b) Pro rata method. The amount paid by the consumer in excess of the required minimum periodic payment is allocated among the balances in the same proportion as each balance bears to the total balance.

§ 227.24 Unfair acts or practices regarding increases in annual percentage rates.

(a) General rule. At account opening, a bank must disclose the annual percentage rates that will apply to each category of transactions on the consumer credit card account. A bank must not increase the annual percentage rate for a category of transactions on any consumer credit card account except as provided in paragraph (b) of this section.

(b) Exceptions. The prohibition in paragraph (a) of this section on increasing annual percentage rates does not apply where an annual percentage rate may be increased pursuant to one of the exceptions in this paragraph.

(1) Account opening disclosure exception. An annual percentage rate for a category of transactions may be increased to a rate disclosed at account opening upon expiration of a period of time disclosed at account opening.

(2) Variable rate exception. An annual percentage rate for a category of transactions that varies according to an index that is not under the bank’s control and is available to the general public may be increased due to an increase in the index.

(3) Advance notice exception. An annual percentage rate for a category of transactions may be increased pursuant to a notice under 12 CFR 226.9(c) or (g) for transactions that occur more than seven days after provision of the notice. This exception does not permit an increase in any annual percentage rate during the first year after the account is opened.

(4) Delinquency exception. An annual percentage rate may be increased due to the bank not receiving the consumer’s required minimum periodic payment within 30 days after the due date for that payment.

(5) Workout arrangement exception. An annual percentage rate may be increased due to the consumer’s failure to comply with the terms of a workout arrangement between the bank and the consumer, provided that the annual percentage rate applicable to a category of transactions following any such increase does not exceed the rate that applied to that category of transactions prior to commencement of the workout arrangement.

(c) Treatment of protected balances. For purposes of this paragraph, “protected balance” means the amount owed for a category of transactions to which an increased annual percentage rate cannot be applied after the rate for that category of transactions has
been increased pursuant to paragraph (b)(3) of this section.

(1) Repayment. The bank must provide the consumer with one of the following methods of repaying a protected balance or a method that is no less beneficial to the consumer than one of the following methods:

(i) An amortization period of no less than five years, starting from the date on which the increased rate becomes effective for the category of transactions; or

(ii) A required minimum periodic payment that includes a percentage of the protected balance that is no more than twice the percentage required before the date on which the increased rate became effective for the category of transactions.

(2) Fees and charges. The bank must not assess any fee or charge based solely on a protected balance.

§ 227.25 Unfair balance computation method.

(a) General rule. Except as provided in paragraph (b) of this section, a bank must not impose finance charges on balances on a consumer credit card account based on balances for days in billing cycles that precede the most recent billing cycle as a result of the loss of any time period provided by the bank within which the consumer may repay any portion of the credit extended without incurring a finance charge.

(b) Exceptions. Paragraph (a) of this section does not apply to:

(1) Adjustments to finance charges as a result of the resolution of a dispute under 12 CFR 226.12 or 12 CFR 226.13; or

(2) Adjustments to finance charges as a result of the return of a payment for insufficient funds.

§ 227.26 Unfair charging of security deposits and fees for the issuance or availability of credit to consumer credit card accounts.

(a) Limitation for first year. During the first year, a bank must not charge to a consumer credit card account security deposits and fees for the issuance or availability of credit that in total constitute a majority of the initial credit limit for the account.

(b) Limitations for first billing cycle and subsequent billing cycles. (1) First billing cycle. During the first billing cycle, the bank must not charge to a consumer credit card account security deposits and fees for the issuance or availability of credit that in total constitute more than 25 percent of the initial credit limit for the account.

(2) Subsequent billing cycles. Any additional security deposits and fees for the issuance or availability of credit permitted by paragraph (a) of this section must be charged to the account in equal portions in no fewer than the five billing cycles immediately following the first billing cycle.

(c) Evasion prohibited. A bank must not evade the requirements of this section by providing the consumer with additional credit to fund the payment of security deposits and fees for the issuance or availability of credit that exceed the total amounts permitted by paragraphs (a) and (b) of this section.

(d) Definitions. For purposes of this section, the following definitions apply:

(1) “Fees for the issuance or availability of credit” means:

(i) Any annual or other periodic fee that may be imposed for the issuance or availability of a consumer credit card account, including any fee based on account activity or inactivity; and

(ii) Any non-periodic fee that relates to opening an account.

(2) “First billing cycle” means the first billing cycle after a consumer credit card account is opened.

(3) “First year” means the period beginning with the date on which a consumer credit card account is opened and ending twelve months from that date.

(4) “Initial credit limit” means the credit limit in effect when a consumer credit card account is opened.

SUPPLEMENT I TO PART 227—OFFICIAL STAFF COMMENTARY

SUBPART A—GENERAL PROVISIONS FOR CONSUMER PROTECTION RULES

Section 227.1—Authority, Purpose, and Scope

1(c) Scope

1. Penalties for noncompliance. Administrative enforcement of the rule for banks may
involves actions under section 8 of the Federal Deposit Insurance Act (12 U.S.C. 1818), including cease-and-desist orders requiring that actions be taken to remedy violations and only accepts payments electronically (consistent with applicable law and regulatory guidance). Under these circumstances, the bank may comply with §227.22(a) even if it does not provide periodic statements 21 days before the payment due date consistent with §227.22(b)(2).

Section 227.23—Unfair Acts or Practices Regarding Allocation of Payments

1. Minimum periodic payment. Section 227.23 addresses the allocation of amounts paid by the consumer in excess of the minimum periodic payment required by the bank. Section 227.23 does not limit or otherwise address the bank’s ability to determine, consistent with applicable law and regulatory guidance, the amount of the required minimum periodic payment or how that payment is allocated. A bank may, but is not required to, allocate the required minimum periodic payment consistent with the requirements in §227.23 to the extent consistent with other applicable law or regulatory guidance.

2. Adjustments of one dollar or less permitted. When allocating payments, the bank may adjust amounts by one dollar or less. For example, if a bank is allocating $100 pursuant to §227.23(b) among balances of $1,000, $2,000, and $4,000, the bank may apply $4 to the $1,000 balance, $29 to the $2,000 balance, and $57 to the $4,000 balance.

3. Applicable balances and annual percentage rates. Section 227.23 permits a bank to allocate an amount paid by the consumer in excess of the required minimum periodic payment based on the balances and annual percentage rates on the date the preceding billing cycle ends, on the date the payment is credited to the account, or on any day in between those two dates. For example, assume that the billing cycles for a consumer credit card account start on the first day of the month and end on the last day of the month. On the date the March billing cycle ends (March 31), the account has a purchase balance of $500 at a variable annual percentage rate of 18% and a cash advance balance of $200 at a variable annual percentage rate of 20%. On April 1, the rate for purchases increases to 16% and the rate for cash advances increases to 20% consistent with §227.24(b)(2). On April 15, the purchase balance increases to $700. On April 25, the bank credits to the account $400 paid by the consumer in excess of the required minimum periodic payment. Under §227.23, the bank may allocate the $400 based on the balances in existence and rates in effect on any day from March 31 through April 25.

4. Use of permissible allocation methods. A bank is not prohibited from changing the allocation method for a consumer credit card account.
account or from using different allocation methods for different consumer credit card accounts, so long as the methods used are consistent with §227.23. For example, a bank may change from allocating to the highest rate balance first pursuant to §227.23(a) to allocating pro rata pursuant to §227.23(b) or vice versa. Similarly, a bank may allocate to the highest rate balance first pursuant to §227.23(a) on some of its accounts and allocate pro rata pursuant to §227.23(b) on other accounts.

5. Claims or defenses under Regulation Z, 12 CFR 226.12(c). When a consumer has asserted a claim or defense against the card issuer pursuant to 12 CFR 226.12(c), the bank must allocate consistent with 12 CFR 226.12 comment 226.12(c)-4.

6. Balances with the same annual percentage rate. When the same annual percentage rate applies to more than one balance on an account and a different annual percentage rate applies to at least one other balance on that account, §227.23 does not require that any particular method be used when allocating among the balances with the same annual percentage rate. Under these circumstances, a bank may treat the balances with the same rate as a single balance or separate balances. See comments 23(a)-1.iv and 23(b)-2.iv.

23a High-to-Low Method

1. Examples. For purposes of the following examples, assume that none of the required minimum periodic payment is allocated to the balances discussed (unless otherwise stated).

i. Assume that a consumer’s account has a cash advance balance of $500 at an annual percentage rate of 20% and a purchase balance of $1,500 at an annual percentage rate of 15% and that the consumer pays $555 in excess of the required minimum periodic payment. A bank using this method would allocate $500 to pay off the cash advance balance and allocate the remaining $300 among the purchase balance and the transferred balance in the manner the bank deems appropriate.

ii. Assume that a consumer’s account has a cash advance balance of $500 at an annual percentage rate of 20% and a purchase balance of $1,500 at an annual percentage rate of 15% and that the consumer pays $800 in excess of the required minimum periodic payment. A bank using this method would allocate $500 to pay off the cash advance balance and allocate the remaining $300 among the purchase balance and the transferred balance in the manner the bank deems appropriate.

iii. Assume that a consumer’s account has a cash advance balance of $500 at an annual percentage rate of 20%, a purchase balance of $1,000 at an annual percentage rate of 15%, and a transferred balance of $2,000 that was previously at a discounted annual percentage rate of 5% but is now at an annual percentage rate of 15%. Assume also that the consumer pays $800 in excess of the required minimum periodic payment. A bank using this method would allocate $500 to pay off the cash advance balance and allocate the remaining $300 among the purchase balance and the transferred balance in the manner the bank deems appropriate.

vi. Assume that a consumer’s account has a cash advance balance of $500 at an annual percentage rate of 20%, a purchase balance of $1,000 at an annual percentage rate of 15%, and a transferred balance of $2,000 that was previously at a discounted annual percentage rate of 5% but is now at an annual percentage rate of 15%. Assume also that the consumer pays $800 in excess of the required minimum periodic payment. A bank using this method would allocate $500 to pay off the cash advance balance and allocate the remaining $300 among the purchase balance and the transferred balance in the manner the bank deems appropriate.

23b Pro Rata Method

1. Total balance. A bank may, but is not required to, deduct amounts to pay off the consumer’s required minimum periodic payment when calculating the total balance for purposes of §227.23(b)(3). See comment 23(b)-2.iii.

2. Examples. For purposes of the following examples, assume that none of the required minimum periodic payment is allocated to the balances discussed (unless otherwise stated) and that the amounts allocated to each balance are rounded to the nearest dollar.

i. Assume that a consumer’s account has a cash advance balance of $500 at an annual percentage rate of 20% and a purchase balance of $1,500 at an annual percentage rate of 15% and that the consumer pays $555 in excess of the required minimum periodic payment. A bank using this method would allocate 25% of the amount ($139) to the cash advance balance and 75% of the amount ($416) to the purchase balance.

ii. Assume that a consumer’s account has a cash advance balance of $100 at an annual percentage rate of 20% and a purchase balance of $500 at an annual percentage rate of 18% and that the consumer pays $200 in excess of the required minimum periodic payment. A bank using this method would allocate 10% of the amount ($13) to the cash advance balance, 30% of the amount ($59) to the purchase balance, and 60% of the amount ($78) to the protected balance.

iii. Assume that a consumer’s account has a cash advance balance of $300 at an annual percentage rate of 20% and a purchase balance of $600 at an annual percentage rate of 15%. Assume also that the required minimum periodic payment is $50 and that the bank allocates this payment first to the balance with the lowest annual percentage rate (the $600 purchase balance). If the consumer pays $300 in excess of the $50 minimum payment, a bank using this method could allocate based on a total balance of $850 (consisting of the $300 cash advance balance plus...
the $500 purchase balance after application of the $50 minimum payment). In this case, the bank would apply 36% of the $300 ($105) to the cash advance balance and 69% of that amount ($195) to the purchase balance. In the alternative, the bank could allocate based on a total balance of $900 (which does not reflect the $50 minimum payment). In that case, the bank would apply one third of the $300 excess payment ($100) to the cash advance balance and two thirds ($200) to the purchase balance.

iv. Assume that a consumer’s account has a cash advance balance of $500 at an annual percentage rate of 20%, a purchase balance of $1,000 at an annual percentage rate of 15%, and a transferred balance of $2,000 that was previously at a discounted annual percentage rate of 5% but is now at an annual percentage rate of 15%. Assume also that the consumer pays $500 in excess of the required minimum periodic payment. A bank using this method would allocate 14% of the excess payment ($112) to the cash advance balance and allocate the remaining 86% ($688) among the purchase balance and the transferred balance in the manner the bank deems appropriate.

Section 227.24—Unfair Acts or Practices Regarding Increases in Annual Percentage Rates

1. Relationship to Regulation Z, 12 CFR part 226. A bank that complies with the applicable disclosure requirements in Regulation Z, 12 CFR part 226, has complied with the disclosure requirements in §227.24. See 12 CFR 226.5a, 226.6, 226.9. For example, a bank may comply with the requirement in §227.24(a) to disclose at account opening the annual percentage rates that will apply to each category of transactions by complying with the disclosure requirements in 12 CFR 226.5a regarding applications and solicitations and the requirements in 12 CFR 226.6 regarding account-opening disclosures. Similarly, in order to increase an annual percentage rate on new transactions pursuant to §227.24(b)(3), a bank must comply with the disclosure requirements in 12 CFR 226.9(c) or (g). However, nothing in §227.24 alters the requirements in 12 CFR 226.9(c) and (g) that creditors provide consumers with written notice at least 45 days prior to the effective date of certain increases in the annual percentage rates on open-end (not home-secured) credit plans.

24(a) General Rule

1. Rates that will apply to each category of transactions. Section 227.24(a) requires banks to disclose, at account opening, the annual percentage rates that will apply to each category of transactions on the account. A bank cannot satisfy this requirement by disclosing at account opening only a range of rates or that a rate will be “up to” a particular amount.

2. Application of prohibition on increasing rates. Section 227.24(a) prohibits banks from increasing the annual percentage rate for a category of transactions on any consumer credit card account unless specifically permitted by one of the exceptions in §227.24(b).

The following examples illustrate the application of the rule:

1. Assume that, at account opening on January 1 of year one, a bank discloses that the annual percentage rate for purchases is a non-variable rate of 15% and will apply for six months. The bank also discloses that, after six months, the annual percentage rate for purchases will be a variable rate that is currently 18% and will be adjusted quarterly by adding a margin of 8 percentage points to a publicly available index not under the bank’s control. Finally, the bank discloses that the annual percentage rate for cash advances is the same variable rate that will apply to purchases after six months. The payment due date for the account is the twenty-fifth day of the month and the required minimum periodic payments are applied to accrued interest and fees but do not reduce the purchase and cash advance balances.

A. On January 15, the consumer uses the account to make a $2,000 purchase and a $500 cash advance. No other transactions are made on the account. At the start of each quarter, the bank adjusts the variable rate that applies to the $500 cash advance consistent with changes in the index (pursuant to §227.24(b)(2)). All required minimum periodic payments are received on or before the payment due date until May of year one, when the payment due on May 25 is received by the bank on May 28. The bank is prohibited by §227.24 from increasing the rates that apply to the $2,000 purchase, the $500 cash advance, or future purchases and cash advances. Six months after account opening (July 1), the bank begins accruing interest on the $2,000 purchase at the previously disclosed variable rate determined using an 8-point margin (pursuant to §227.24(b)(1)). Because no other increases in rate were disclosed at account opening, the bank may not subsequently increase the variable rate that applies to the $2,000 purchase and the $500 cash advance (except due to increases in the index pursuant to §227.24(b)(2)). On November 16, the bank provides a notice pursuant to 12 CFR 226.9(c) informing the consumer of a new variable rate that will apply on January 1 of year two (calculated using the same index and an increased margin of 12 percentage points). On January 1 of year two, the bank increases the margin used to determine the variable rate that applies to new purchases to 12 percentage points (pursuant to §227.24(b)(3)). On January 15 of year two, the consumer makes a $300 purchase. The bank
applies the variable rate determined using the 12-point margin to the $300 purchase but not the $2,000 purchase.

B. Same facts as above except that the required minimum periodic payment, due on May 25 of year one is not received by the bank until June 30 of year one. Because the bank received the required minimum periodic payment more than 30 days after the payment due date, §227.24(b)(4) permits the bank to increase the annual percentage rate applicable to the $2,000 purchase, the $500 cash advance, and future purchases and cash advances. However, the bank must first comply with the notice requirements in 12 CFR 226.9(g). Thus, if the bank provided a 12 CFR 226.9(g) notice on June 25 stating that all rates on the account would be increased to a non-variable penalty rate of 30%, the bank could apply that 30% rate beginning on August 9 to all balances and future transactions.

ii. Assume that, at account opening on January 1 of year one, a bank discloses that the annual percentage rate for purchases will increase as follows: A non-variable rate of 5% for six months; a non-variable rate of 10% for an additional six months; and thereafter a variable rate that is currently 15% and will be adjusted monthly by adding a margin of 5 percentage points to a publicly available index not under the bank’s control. The payment due date for the account is the fifteenth day of the month and the required minimum periodic payments are applied to accrued interest and fees but do not reduce the purchase balance. On January 15, the consumer uses the account to make a $1,500 purchase. Six months after account opening (July 1), the bank begins accruing interest on the $1,500 purchase at the previously disclosed 10% non-variable rate (pursuant to §227.24(b)(1)). On September 15, the consumer uses the account for a $700 purchase. On November 16, the bank provides a notice pursuant to 12 CFR 226.9(c) informing the consumer of a new variable rate that will apply on January 1 of year two (calculated using the same index and an increased margin of 8 percentage points). On June 8 (calculated by using the same index and an increased margin of 8 percentage points), the bank does not permit the bank to apply this rate to the $300 purchase made on June 8 but does not permit the bank to apply this rate to the $1,500 purchase balance. On August 9, §227.24(b)(3) permits the bank to apply the variable rate determined using the 8-point margin to the $200 purchase made on June 8 but does not permit the bank to apply the variable rate determined using the 8-point margin to the $200 purchase made on June 8 (calculated by using the same index and an increased margin of 8 percentage points).

B. Same facts as above except the payment due on September 15 of year two is received on October 20. Section 227.24(b)(4) permits the bank to apply the 28% penalty rate to all balances on the account and to future transactions because it has not received payment within 30 days after the due date. However, in order to apply the 28% penalty rate to the entire $2,000 purchase balance, the bank must provide an additional notice pursuant to 12 CFR 226.9(g). This notice must be sent no earlier than October 16, which is the first day the account became more than 30 days delinquent.

C. Same facts as paragraph A. above except the payment due on June 15 of year two is received on June 20. Section 227.24(b)(4) permits the bank to apply the 28% penalty rate to all balances on the account and to future transactions because it has not received payment within 30 days after the due date.
Pt. 227, Supp. I

12 CFR Ch. II (1–1–10 Edition)

the bank provided a 12 CFR 226.9(g) notice on June 24 stating the 28% penalty rate, the bank may apply the 28% penalty rate to all balances on the account as well as any future transactions on August 9 without providing an additional notice pursuant to 12 CFR 226.9(g).

24(b) Exceptions

24(b)(1) Account Opening Disclosure

Exception

1. Prohibited increases in rate. Section 227.24(b)(1) permits an increase in the annual percentage rate for a category of transactions to a rate disclosed at account opening upon expiration of a period of time that was also disclosed at account opening. Section 227.24(b)(1) does not permit application of increased rates that are disclosed at account opening but are contingent on a particular event or occurrence or may be applied at the bank’s discretion. The following examples illustrate rate increases that are not permitted by §227.24(a):

i. Assume that a bank discloses at account opening on January 1 of year one that a non-variable rate of 15% applies to transferred purchases but that all rates on an account may be increased to a non-variable penalty rate of 30% if a consumer’s required minimum periodic payment is received after the payment due date, which is the fifteenth of the month. On March 1, the account has a $2,000 purchase balance. The payment due on March 15 is not received until March 20. Section 227.24 does not permit the bank to apply the 30% penalty rate to the $2,000 purchase balance. However, pursuant to §227.24(b)(3), the bank could provide a 12 CFR 226.9(c) or (g) notice on November 16 informing the consumer that, on January 1 of year two, the 30% rate will apply on January 1 of year two (pursuant to §227.24(b)(1)).

ii. Assume that a bank discloses at account opening on January 1 of year one that a non-variable rate of 5% applies to transferred balances but that this rate will increase to a non-variable rate of 38% if the consumer does not use the account for at least $500 in purchases each billing cycle. On July 1, the consumer transfers a balance of $4,000 to the account. During the July billing cycle, the consumer uses the account for $500 in purchases. Section 227.24 does not permit the bank to apply the 18% rate to the $4,000 transferred balance. However, pursuant to §227.24(b)(3), the bank could provide a 12 CFR 226.9(c) or (g) notice on November 16 informing the consumer that, on January 1 of year two, the 18% rate (or a different rate) will apply to new transactions.

iii. Assume that a bank discloses at account opening on January 1 of year one that interest on purchases will be deferred for one year, although interest will accrue on purchases during that year at a non-variable rate of 20%. The bank further discloses that, if all purchases made during year one are not paid in full by the end of that year, the bank will begin charging interest on the purchase balance and new purchases at 20% and will retroactively charge interest on the purchase balance at a rate of 20% starting on the date of each purchase made during year one. On January 1 of year one, the consumer makes a purchase of $1,500. No other transactions are made on the account. On January 1 of year two, $500 of the $1,500 purchase remains unpaid. Section 227.24 does not permit the bank to reach back to charge interest on the $1,500 purchase from January 1 through December 31 of year one. However, the bank may apply the previously disclosed 20% rate to the $500 purchase balance beginning on January 1 of year two (pursuant to §227.24(b)(1)).

2. Loss of grace period. Nothing in §227.24 prohibits a bank from assessing interest due to the loss of a grace period to the extent consistent with §227.25.

3. Application of rate that is lower than disclosed rate. Section 227.24(b)(1) permits an increase in the annual percentage rate for a category of transactions to a rate disclosed at account opening upon expiration of a period of time that was also disclosed at account opening. However, if a lower rate is applied to an existing balance, the bank cannot subsequently increase the rate on that balance unless it has provided the consumer with advance notice of the increase pursuant to 12 CFR 226.9(c). Furthermore, the bank cannot increase the rate on that existing balance to a rate that is higher than the increased rate disclosed at account opening. The following example illustrates the application of this rule:

i. Assume that, at account opening on January 1 of year one, a bank discloses that a non-variable annual percentage rate of 15% will apply to purchases for one year and discloses that, after the first year, the bank will apply a variable rate that is currently 20% and is determined by adding a margin of 10 percentage points to a publicly available index not under the bank’s control. On December 31 of year one, the account has a purchase balance of $3,000.

A. On November 16 of year one, the bank provides a notice pursuant to 12 CFR 226.9(c) informing the consumer of a new variable rate that will apply on January 1 of year two (calculated using the same index and a reduced margin of 8 percentage points). The notice further states that, on July 1 of year two, the margin will increase to the margin disclosed at account opening (10 percentage points). On July 1 of year two, the bank increases the margin used to determine the variable rate that applies to new purchases.
Federal Reserve System

Pt. 227, Supp. I

to 10 percentage points and applies that rate to any remaining portion of the $3,000 purchase balance (pursuant to § 227.24(b)(1)).

B. Same facts as above except that the bank does not send a notice on November 16 of year one. Instead, on January 1 of year two, the bank lowers the margin used to determine the variable rate to 8 percentage points and applies that rate to the $3,000 purchase balance and to new purchases. 12 CFR 226.9 does not require advance notice in these circumstances. However, unless the account becomes more than 30 days’ delinquent, the bank may not subsequently increase the rate that applies to the $3,000 purchase balance except due to increases in the index (pursuant to § 227.24(b)(2)).

24(b)(2) Variable Rate Exception

1. Increases due to increase in index. Section 227.24 generally prohibits a bank from changing a non-variable annual percentage rate to a variable rate if the change was disclosed at account opening. A bank may not increase the rate based on its own prime rate or cost of funds. A bank is permitted, however, to use a published prime rate, such as that in the Wall Street Journal, even if the bank’s own prime rate is one of several rates used to establish the published rate.

2. External index. A bank may increase the annual percentage rate if the increase is based on an index or indices outside the bank’s control. A bank may not increase the rate based on an index or indices outside the bank’s control that are settled more than seven days after provision of the 12 CFR 226.9(c) or (g) notice. This prohibition does not apply to accounts opened prior to July 1, 2010.

3. Publicly available. The index or indices must be available to the public. A publicly available index need not be published in a newspaper, but it must be one the consumer can independently obtain (by telephone, for example) and use to verify the rate applied to the outstanding balance.

4. Changing a non-variable rate to a variable rate. Section 227.24 generally prohibits a bank from changing a non-variable annual percentage rate to a variable rate because such a change can result in an increase in rate. However, § 227.24(b)(1) permits a bank to change a non-variable rate to a variable rate if the change was disclosed at account opening. Furthermore, following the first year after the account is opened, § 227.24(b)(3) permits a bank to change a non-variable rate to a variable rate with respect to new transactions (after complying with the notice requirements in 12 CFR 226.9(g)). Finally, § 227.24(b)(4) permits a bank to change a non-variable rate to a variable rate if the required minimum periodic payment is not received within 30 days of the payment due date (after complying with the notice requirements in 12 CFR 226.9(g)).

5. Changing a variable annual percentage rate to a non-variable annual percentage rate. Nothing in § 227.24 prohibits a bank from changing a variable annual percentage rate to an equal or lower non-variable rate. Whether the non-variable rate is equal to or lower than the variable rate is determined at the time the bank provides the notice required by 12 CFR 226.9(c). For example, assume that on March 1 a variable rate that is currently 15% applies to a balance of $2,000 and the bank sends a notice pursuant to 12 CFR 226.9(c) informing the consumer that the variable rate will be converted to a non-variable rate of 14% effective April 17. On April 17, the bank may apply the 14% non-variable rate to the $2,000 balance and to new transactions even if the variable rate on March 2 or a later date was less than 14%.

6. Substitution of index. A bank may change the index and margin used to determine the annual percentage rate under § 227.24(b)(2) if the original index becomes unavailable, as long as historical fluctuations in the original and replacement indices were substantially similar, and as long as the replacement index and margin will produce a rate similar to the rate that was in effect at the time the original index became unavailable. If the replacement index is newly established and therefore does not have any rate history, it may be used if it produces a rate substantially similar to the rate in effect when the original index became unavailable.

24(b)(3) Advance Notice Exception

1. First year after the account is opened. A bank may not increase an annual percentage rate pursuant to § 227.24(b)(3) during the first year after the account is opened. This limitation does not apply to accounts opened prior to July 1, 2010.

2. Transactions that occur more than seven days after notice provided. Section 227.24(b)(3) generally prohibits a bank from applying an increased rate to transactions that occur within seven days after provision of the 12 CFR 226.9(c) or (g) notice. This prohibition does not, however, apply to transactions that are authorized within seven days after provision of the 12 CFR 226.9(c) or (g) notice but are settled more than seven days after the notice was provided.

3. Examples.

i. Assume that a consumer credit card account is opened on January 1 of year one. On March 14 of year two, the account has a purchase balance of $2,000 at a non-variable annual percentage rate of 15%. On March 15, the bank provides a notice pursuant to 12 CFR 226.9(c) informing the consumer that the rate for new purchases will increase to a non-variable rate of 18% on May 1. The notice further states that the 18% rate will apply for six months (until November 1) and
states that thereafter the bank will apply a variable rate that is currently 22% and is determined by adding a margin of 12 percentage points to a publicly-available index that is under the bank's control. The seventh day after provision of the notice is March 22 and, on that date, the consumer makes a $200 purchase. On March 24, the consumer makes a $1,000 purchase. On May 1, §227.24(b)(3) permits the bank to begin accruing interest at 18% on the $1,000 purchase made on March 24. The bank is not permitted to apply the 18% rate to the $2,200 purchase balance as of March 22. After six months (November 2), the bank may begin accruing interest on any remaining portion of the $1,000 purchase at the previously-disclosed variable rate determined using the 12-point margin.

i. Same facts as above except that the $200 purchase is authorized by the bank on March 22 but is not settled until March 23. On May 1, §227.24(b)(3) permits the bank to start charging interest at 18% on both the $200 purchase and the $1,000 purchase. The bank is not permitted to apply the 18% rate to the $2,000 purchase balance as of March 22.

ii. Same facts as above except that the $200 purchase is authorized by the bank on March 22 but is not settled until March 23. On May 1, §227.24(b)(3) permits the bank to start charging interest at 18% on the $2,200 purchase balance as of March 22.

iii. Same facts as in paragraph i. above except that on September 17 of year two (which is 45 days before expiration of the 18% non-variable rate), the bank provides a notice pursuant to 12 CFR 226.9(c) informing the consumer that, on November 2, a new variable rate will apply to new purchases and any remaining portion of the $1,000 balance (calculated by using the same index and a reduced margin of 10 percentage points). The notice further states that, on May 1 of year three, the margin will increase to the margin disclosed at account opening (12 percentage points). On May 1 of year three, §227.24(b)(3) permits the bank to increase the margin used to determine the variable rate that applies to new purchases to 12 percentage points and to apply that rate to any remaining portion of the $1,000 purchase as well as to new purchases. See comment 24(b)(1)-3. The bank is not permitted to apply this rate to any remaining portion of the $2,200 purchase balance as of March 22.

24(b)(5) Workout Arrangement Exception

1. Scope of exception. Nothing in §227.24(b)(5) permits a bank to alter the requirements of §227.24 pursuant to a workout arrangement between a consumer and the bank. For example, a bank cannot increase an annual percentage rate pursuant to a workout arrangement unless otherwise permitted by §227.24. In addition, a bank cannot require the consumer to make payments with respect to a protected balance that exceed the payments permitted under §227.24(c).

2. Variable annual percentage rates. If the annual percentage rate that applied to a category of transactions prior to commencement of the workout arrangement varied with an index consistent with §227.24(b)(2), the rate applied to that category of transactions following an increase pursuant to §227.24(b)(3) must be determined using the same formula (index and margin).

3. Example. Assume that, consistent with §227.24(b)(4), the margin used to determine a variable annual percentage rate that applies to a $5,000 balance is increased from 5 percentage points to 15 percentage points. Assume also that the bank and the consumer subsequently agree to a workout arrangement that reduces the margin back to 5 points on the condition that the consumer pay a specified amount by the payment due date each month. If the consumer does not pay the agreed-upon amount by the payment due date, the bank may increase the margin for the variable rate that applies to the $5,000 balance up to 15 percentage points. 12 CFR 226.9 does not require advance notice of this type of increase.

24(c) Treatment of Protected Balances

1. Protected balances. Because rates cannot be increased pursuant to §227.24(b)(3) during the first year after account opening, §227.24(c) does not apply to balances during the first year. Instead, the requirements in §227.24(c) apply only to "protected balances," which are amounts owed for a category of transactions to which an increased annual percentage rate cannot be applied after the rate for that category of transactions has been increased pursuant to §227.24(b)(3). For example, assume that, on March 15 of year two, an account has a purchase balance of $1,000 at a non-variable rate of 12% and that, on March 16, the bank sends a notice pursuant to 12 CFR 226.9(c) informing the consumer that the rate for new purchases will increase to a non-variable rate of 15% on May 2. On March 20, the consumer makes a $100 purchase. On March 24, the consumer makes a $150 purchase. On May 2, §227.24(b)(3) permits the bank to start charging interest at 15% on the $150 purchase made on March 24 but does not permit the bank to apply that 19% rate to the $1,100 purchase balance as of March 23. Accordingly, §227.24(c) applies to the $1,100 purchase balance as of March 23 but not the $150 purchase made on March 24.

24(c)(1) Repayment

1. No less beneficial to the consumer. A bank may provide a method of repaying the protected balance that is different from the methods listed in §227.24(c)(1) so long as the method used is no less beneficial to the consumer than one of the listed methods. A method is no less beneficial to the consumer if the method amortizes the protected balance in five years or longer or if the method
Federal Reserve System

results in a required minimum periodic payment that is equal to or less than a minimum payment calculated consistent with §227.24(c)(1)(i)(ii). For example, a bank could increase the percentage of the protected balance included in the required minimum periodic payment from 2% to 5% so long as doing so would not result in amortization of the protected balance in less than five years. Alternatively, a bank could require a consumer to make a minimum payment that amortizes the protected balance in less than five years so long as the payment does not include a percentage of the balance that is more than twice the percentage included in the minimum payment before the effective date of the increased rate. For example, a bank could require the consumer to make a minimum payment that amortizes the protected balance in four years so long as doing so would not more than double the percentage of the balance included in the minimum payment prior to the effective date of the increased rate.

2. Lower limit for required minimum periodic payment. If the required minimum periodic payment under §227.24(c)(1)(i) or (c)(1)(ii) is less than the lower dollar limit for minimum payments established in the cardholder agreement before the effective date of the rate increase, the bank may set the minimum payment consistent with that limit. For example, if at account opening the cardholder agreement stated that the required minimum periodic payment would be either the total of fees and interest charges plus 1% of the total amount owed or $20 (whichever is greater), the bank may require the consumer to make a minimum payment of $20 even if doing so would pay off the protected balance in less than five years or constitute more than 2% of the protected balance plus fees and interest charges.

Paragraph 24(c)(1)(i)

1. Amortization period starting from date on which increased rate becomes effective. Section 227.24(c)(1)(i) provides for an amortization period for the protected balance of no less than five years, starting from the date on which the increased annual percentage rate becomes effective. A bank is not required to recalculate the required minimum periodic payment for the protected balance if, during the amortization period, that balance is reduced as a result of the allocation of amounts paid by the consumer in excess of the minimum payment consistent with §227.23 or any other practice permitted by these rules and other applicable law.

2. Amortization when applicable annual percentage rate is variable. If the annual percentage rate that applies to the protected balance varies with an index consistent with §227.24(b)(2), the bank may adjust the interest charges included in the required minimum periodic payment for that balance accordingly in order to ensure that the outstanding balance is amortized in five years. For example, assume that a variable rate that is currently 15% applies to a protected balance and that, in order to amortize that balance in five years, the required minimum periodic payment must include a specific amount of principal plus all accrued interest charges. If the 15% variable rate increases due to an increase in the index, the bank may increase the required minimum periodic payment to include the additional interest charges.

Paragraph 24(c)(1)(ii)

1. Required minimum periodic payment on other balances. Section 227.24(c)(1)(ii) addresses the required minimum periodic payment on the protected balance. Section 227.24(c)(1)(ii) does not limit or otherwise address the bank’s ability to determine the amount of the required minimum periodic payment for other balances.

2. Example. Assume that a bank to calculate the required minimum periodic payment for a consumer credit card account requires the consumer to pay either the total of fees and interest plus 2% of the total amount owed or $20, whichever is greater. Assume also that the account has a purchase balance of $2,000 at an annual percentage rate of 15% and a cash advance balance of $500 at an annual percentage rate of 20% and that the bank increases the rate for purchases to 18% but does not increase the rate for cash advances. Under §227.24(c)(1)(ii), the bank may require the consumer to pay fees and interest plus 2% of the $2,000 purchase balance. Section 227.24(c)(1)(ii) does not prohibit the bank from increasing the required minimum periodic payment for the cash advance balance.

24(c)(2) Fees and Charges

1. Fee or charge based solely on the protected balance. A bank is prohibited from assessing a fee or charge based solely on balances to which §227.24(c) applies. For example, a bank is prohibited from assessing a monthly maintenance fee that would not be charged if the account did not have a protected balance. A bank is not, however, prohibited from assessing fees such as late payment fees or fees for exceeding the credit limit even if such fees are based in part on the protected balance.

Section 227.25—Unfair Balance Computation Method

25(a) General Rule

1. Two-cycle method prohibited. When a consumer ceases to be eligible for a time period provided by the bank within which the consumer may repay any portion of the credit extended without incurring a finance charge
(a grace period), the bank is prohibited from computing the finance charge using the so-called two-cycle average daily balance computation method. This method calculates the finance charge by dividing the sum of the average daily balances for two billing cycles. The first balance is for the current billing cycle, and is calculated by adding the total balance (including or excluding new purchases and deducting payments and credits) for each day in the billing cycle, and then dividing by the number of days in the billing cycle. The second balance is for the preceding billing cycle.

Examples

1. Assume that the billing cycle on a consumer credit card account starts on the first day of the month and ends on the last day of the month. The payment due date for the account is the twenty-fifth day of the month. Under the terms of the account, the consumer will not be charged interest on purchases if the balance at the end of a billing cycle is paid in full by the following payment due date. The consumer uses the credit card to make a $500 purchase on March 15. The consumer pays the balance for the February billing cycle in full on March 25. At the end of the March billing cycle (March 31), the consumer’s balance consists only of the $500 purchase and the consumer will not be charged interest on that balance if it is paid in full by the following due date (April 25). The consumer pays $400 on April 25, leaving a $100 balance. The bank may charge interest on the $500 purchase from the start of the April billing cycle (April 1) through April 24 and interest on the remaining $100 from April 25 through the end of the April billing cycle (April 30). The bank is prohibited, however, from reaching back and charging interest on the $500 purchase from the date of purchase (March 15) to the end of the March billing cycle (March 31).

ii. Assume the same circumstances as in the previous example except that the consumer does not pay the balance for the February billing cycle in full on March 25 and therefore, under the terms of the account, is not eligible for a time period within which to repay the $500 purchase without incurring a finance charge. With respect to the $500 purchase, the bank may charge interest from the date of purchase (March 15) through April 24 and interest on the remaining $100 from April 25 through the end of the April billing cycle (April 30).

Section 227.26—Unfair Charging of Security Deposits and Fees for the Issuance or Availability of Credit to Consumer Credit Card Accounts

26(a) Limitation for First Year

1. Majority of the initial credit limit. The total amount of security deposits and fees for the issuance or availability of credit constitutes a majority of the initial credit limit if that total is greater than half of the limit. For example, assume that a consumer credit card account has an initial credit limit of $500. Under §227.26(a), a bank may charge to the account security deposits and fees for the issuance or availability of credit totaling no more than $250 during the first year (consistent with §227.26(b)).

26(b) Limitations for First Billing Cycle and Subsequent Billing Cycles

1. Adjustments of one dollar or less permitted. When dividing amounts pursuant to §227.26(b)(2), a bank may adjust amounts by one dollar or less. For example, if a bank is dividing $87 over five billing cycles, the bank may charge $18 for two months and $17 for the remaining three months.

2. Examples.

i. Assume that a consumer credit card account opened on January 1 has an initial credit limit of $500. Assume also that the billing cycles for this account begin on the first day of the month and end on the last day of the month. Under §227.26(a), the bank may charge to the account no more than $250 in security deposits and fees for the issuance or availability of credit during the first year after the account is opened. If it charges $250, the bank may charge up to $125 during the first billing cycle. If it charges $125 during the first billing cycle, it may then charge no more than $25 in each of the next five billing cycles. If it chooses, the bank may spread the additional security deposits and fees over a longer period, such as by charging $12.50 in each of the ten billing cycles following the first billing cycle.

ii. Same facts as above except that on July 1 the bank increases the credit limit on the account from $500 to $750. Because the prohibition in §227.26(a) is based on the initial credit limit of $500, the increase in credit limit does not permit the bank to charge to the account additional security deposits and fees for the issuance or availability of credit (such as a fee for increasing the credit limit).

26(c) Evasion Prohibited

1. Evasion. Section 227.26(c) prohibits a bank from evading the requirements of this section by providing the consumer with additional credit to fund the consumer’s payment of security deposits and fees that exceed the total amounts permitted by §227.26(a) and (b). For example, assume that on January 1 a consumer opens a consumer credit card account with an initial credit limit of $400 and the bank charges to that account $100 in fees for the issuance or availability of credit. Assume also that the billing cycles for the account coincide with the days of the month and that the bank will charge $20 in fees for the issuance or availability of credit in the February, March,
April, May, and June billing cycles. The bank violates §227.26(c) if it provides the consumer with a separate credit product to fund additional security deposits or fees for the issuance or availability of credit.

2. Payment with funds not obtained from the bank. A bank does not violate §227.26(c) if it requires the consumer to pay security deposits or fees for the issuance or availability of credit using funds that are not obtained, directly or indirectly, from the bank. For example, a bank does not violate §227.26(c) if a $400 security deposit paid by a consumer to obtain a consumer credit card account with a credit line of $400 is not charged to a credit account provided by the bank or its affiliate.

26(d) Definitions

1. Membership fees. Membership fees for opening an account are fees for the issuance or availability of credit. A membership fee to join an organization that provides a credit or charge card as a privilege of membership is a fee for the issuance or availability of credit only if the card is issued automatically upon membership. If membership results merely in eligibility to apply for an account, then such a fee is not a fee for the issuance or availability of credit.

2. Enhancements. Fees for optional services in addition to basic membership privileges in a credit or charge card account (for example, travel insurance or card-registration services) are not fees for the issuance or availability of credit if the basic account may be opened without paying such fees. Issuing a card to each primary cardholder (not authorized users) is considered a basic membership privilege and fees for additional cards, beyond the first card on the account, are fees for the issuance or availability of credit. Thus, a fee to obtain an additional card on the account beyond the first card (so that each cardholder would have his or her own card) is a fee for the issuance or availability of credit even if the fee is optional; that is, if the charge is only paid if the cardholder requests one or more additional cards.

3. One-time fees. Non-periodic fees related to opening an account (such as application fees or one-time membership or participation fees) are fees for the issuance or availability of credit. Fees for reissuing a lost or stolen card, statement reproduction fees, and fees for late payment or other violations of the account terms are examples of fees that are not fees for the issuance or availability of credit.

AUTHORITY: 12 U.S.C. 321, 325, 1828(c), 1842, 1843, 1844, and 2901 et seq.

SOURCE: 43 FR 47148, Oct. 12, 1978, unless otherwise noted.

§§ 228.1–228.2 [Reserved]

Subpart A—General

SOURCE: Reg. BB, 60 FR 22190, May 4, 1995, unless otherwise noted.

§ 228.11 Authority, purposes, and scope.

(a) Authority. The Board of Governors of the Federal Reserve System (the Board) issues this part to implement the Community Reinvestment Act (12 U.S.C. 2901 et seq.) (CRA). The regulations comprising this part are issued under the authority of the CRA and under the provisions of the United States Code authorizing the Board:

833
§ 228.12 Definitions.

For purposes of this part, the following definitions apply:

(a) Affiliate means any company that controls, is controlled by, or is under common control with another company. The term “control” has the meaning given to that term in 12 U.S.C. 1841(a)(2), and a company is under common control with another company if both companies are directly or indirectly controlled by the same company.

(b) Area median income means:

(1) The median family income for the MSA, if a person or geography is located in an MSA, or for the metropolitan division, if a person or geography is located in an MSA that has been subdivided into metropolitan divisions; or

(2) The statewide nonmetropolitan median family income, if a person or geography is located outside an MSA.

(c) Assessment area means a geographic area delineated in accordance with §228.41.

(d) Automated teller machine (ATM) means an automated, unstaffed banking facility owned or operated by, or operated exclusively for, the bank at which deposits are received, cash dispensed, or money lent.

(e) Bank means a State member bank as that term is defined in section 3(d)(2) of the Federal Deposit Insurance Act (12 U.S.C. 1813(d)(2)), except as provided in §228.11(c)(3), and includes an
Federal Reserve System § 228.12

uninsured State branch (other than a limited branch) of a foreign bank described in §228.11(c)(2).

(f) Branch means a staffed banking facility approved as a branch, whether shared or unshared, including, for example, a mini-branch in a grocery store or a branch operated in conjunction with any other local business or non-profit organization.

(g) Community development means:

(1) Affordable housing (including multifamily rental housing) for low- or moderate-income individuals;

(2) Community services targeted to low- or moderate-income individuals;

(3) Activities that promote economic development by financing businesses or farms that meet the size eligibility standards of the Small Business Administration’s Development Company or Small Business Investment Company programs (13 CFR 121.301) or have gross annual revenues of $1 million or less; or

(4) Activities that revitalize or stabilize—

(i) Low- or moderate-income geographies;

(ii) Designated disaster areas; or

(iii) Distressed or underserved nonmetropolitan middle-income geographies designated by the Board, Federal Deposit Insurance Corporation, and Office of the Comptroller of the Currency, based on—

(A) Rates of poverty, unemployment, and population loss; or

(B) Population size, density, and dispersion. Activities revitalize and stabilize geographies designated based on population size, density, and dispersion if they help to meet essential community needs, including needs of low- and moderate-income individuals.

(h) Community development loan means a loan that:

(1) Has as its primary purpose community development; and

(2) Except in the case of a wholesale or limited purpose bank:

(i) Has not been reported or collected by the bank or an affiliate for consideration in the bank’s assessment as a home mortgage, small business, small farm, or consumer loan, unless it is a multifamily dwelling loan (as described in appendix A to part 203 of this chapter); and

(ii) Benefits the bank’s assessment area(s) or a broader statewide or regional area that includes the bank’s assessment area(s).

(i) Community development service means a service that:

(1) Has as its primary purpose community development;

(2) Is related to the provision of financial services; and

(3) Has not been considered in the evaluation of the bank’s retail banking services under §228.24(d).

(j) Consumer loan means a loan to one or more individuals for household, family, or other personal expenditures. A consumer loan does not include a home mortgage, small business, or small farm loan. Consumer loans include the following categories of loans:

(1) Motor vehicle loan, which is a consumer loan extended for the purchase of and secured by a motor vehicle;

(2) Credit card loan, which is a line of credit for household, family, or other personal expenditures that is accessed by a borrower’s use of a “credit card,” as this term is defined in §226.2 of this chapter;

(3) Home equity loan, which is a consumer loan secured by a residence of the borrower;

(4) Other secured consumer loan, which is a secured consumer loan that is not included in one of the other categories of consumer loans; and

(5) Other unsecured consumer loan, which is an unsecured consumer loan that is not included in one of the other categories of consumer loans.

(k) Geography means a census tract delineated by the United States Bureau of the Census in the most recent decennial census.

(l) Home mortgage loan means a “home improvement loan,” “home purchase loan,” or a “refinancing” as defined in §203.2 of this title.

(m) Income level includes:

(1) Low-income, which means an individual income that is less than 50 percent of the area median income, or a median family income that is less than 50 percent, in the case of a geography.

(2) Moderate-income, which means an individual income that is at least 50 percent and less than 80 percent of the area median income, or a median family income that is at least 50 and less
than 80 percent, in the case of a geography.

(3) Middle-income, which means an individual income that is at least 80 percent and less than 120 percent of the area median income, or a median family income that is at least 80 and less than 120 percent, in the case of a geography.

(4) Upper-income, which means an individual income that is 120 percent or more of the area median income, or a median family income that is 120 percent or more, in the case of a geography.

(n) Limited purpose bank means a bank that offers only a narrow product line (such as credit card or motor vehicle loans) to a regional or broader market and for which a designation as a limited purpose bank is in effect, in accordance with § 228.25(b).

(o) Loan location. A loan is located as follows:

(1) A consumer loan is located in the geography where the borrower resides;
(2) A home mortgage loan is located in the geography where the property to which the loan relates is located; and
(3) A small business or small farm loan is located in the geography where the main business facility or farm is located or where the loan proceeds otherwise will be applied, as indicated by the borrower.

(p) Loan production office means a staffed facility, other than a branch, that is open to the public and that provides lending-related services, such as loan information and applications.

(q) Metropolitan division means a metropolitan division as defined by the Director of the Office of Management and Budget.

(r) MSA means a metropolitan statistical area as defined by the Director of the Office of Management and Budget.

(s) Nonmetropolitan area means any area that is not located in an MSA.

(t) Qualified investment means a lawful investment, deposit, membership share, or grant that has as its primary purpose community development.

(u) Small bank—(1) Definition. Small bank means a bank that, as of December 31 of either of the prior two calendar years, had assets of less than $1,098 billion. Intermediate small bank means a small bank with assets of at least $274 million as of December 31 of both of the prior two calendar years and less than $1,098 billion as of December 31 of either of the prior two calendar years.

(2) Adjustment. The dollar figures in paragraph (u)(1) of this section shall be adjusted annually and published by the Board, based on the year-to-year change in the average of the Consumer Price Index for Urban Wage Earners and Clerical Workers, not seasonally adjusted, for each twelve-month period ending in November, with rounding to the nearest million.

(v) Small business loan means a loan included in “loans to small businesses” as defined in the instructions for preparation of the Consolidated Report of Condition and Income.

(w) Small farm loan means a loan included in “loans to small farms” as defined in the instructions for preparation of the Consolidated Report of Condition and Income.

(x) Wholesale bank means a bank that is not in the business of extending home mortgage, small business, small farm, or consumer loans to retail customers, and for which a designation as a wholesale bank is in effect, in accordance with § 228.25(b).

Subpart B—Standards for Assessing Performance

SOURCE: Reg. BB, 60 FR 22191, May 4, 1995, unless otherwise noted.

§ 228.21 Performance tests, standards, and ratings, in general.

(a) Performance tests and standards. The Board assesses the CRA performance of a bank in an examination as follows:

(1) Lending, investment, and service tests. The Board applies the lending, investment, and service tests, as provided in §§228.22 through 228.24, in evaluating the performance of a bank, except as provided in paragraphs (a)(2), (a)(3), and (a)(4) of this section.
(2) Community development test for wholesale or limited purpose banks. The Board applies the community development test for a wholesale or limited purpose bank, as provided in §228.25, except as provided in paragraph (a)(4) of this section.

(3) Small bank performance standards. The Board applies the small bank performance standards as provided in §228.26 in evaluating the performance of a small bank or a bank that was a small bank during the prior calendar year, unless the bank elects to be assessed as provided in paragraphs (a)(1), (a)(2), or (a)(4) of this section. The bank may elect to be assessed as provided in paragraph (a)(1) of this section only if it collects and reports the data required for other banks under §228.42.

(4) Strategic plan. The Board evaluates the performance of a bank under a strategic plan if the bank submits, and the Board approves, a strategic plan as provided in §228.27.

(b) Performance context. The Board applies the tests and standards in paragraph (a) of this section and also considers whether to approve a proposed strategic plan in the context of:

(1) Demographic data on median income levels, distribution of household income, nature of housing stock, housing costs, and other relevant data pertaining to a bank’s assessment area(s);

(2) Any information about lending, investment, and service opportunities in the bank’s assessment area(s) maintained by the bank or obtained from community organizations, state, local, and tribal governments, economic development agencies, or other sources;

(3) The bank’s product offerings and business strategy as determined from data provided by the bank;

(4) Institutional capacity and constraints, including the size and financial condition of the bank, the economic climate (national, regional, and local), safety and soundness limitations, and any other factors that significantly affect the bank’s ability to provide lending, investments, or services in its assessment area(s);

(5) The bank’s past performance and the performance of similarly situated lenders;

(6) The bank’s public file, as described in §228.43, and any written comments about the bank’s CRA performance submitted to the bank or the Board; and

(7) Any other information deemed relevant by the Board.

(c) Assigned ratings. The Board assigns to a bank one of the following four ratings pursuant to §228.28 and appendix A of this part: “outstanding”; “satisfactory”; “needs to improve”; or “substantial noncompliance” as provided in 12 U.S.C. 2906(b)(2). The rating assigned by the Board reflects the bank’s record of helping to meet the credit needs of its entire community, including low- and moderate-income neighborhoods, consistent with the safe and sound operation of the bank.

(d) Safe and sound operations. This part and the CRA do not require a bank to make loans or investments or to provide services that are inconsistent with safe and sound operations. To the contrary, the Board anticipates banks can meet the standards of this part with safe and sound loans, investments, and services on which the banks expect to make a profit. Banks are permitted and encouraged to develop and apply flexible underwriting standards for loans that benefit low- or moderate-income geographies or individuals, only if consistent with safe and sound operations.

§228.22 Lending test.

(a) Scope of test. (1) The lending test evaluates a bank’s record of helping to meet the credit needs of its assessment area(s) through its lending activities by considering a bank’s home mortgage, small business, small farm, and community development lending. If consumer lending constitutes a substantial majority of a bank’s business, the Board will evaluate the bank’s consumer lending in one or more of the following categories: motor vehicle, credit card, home equity, other secured, and other unsecured loans. In addition, at a bank’s option, the Board will evaluate one or more categories of consumer lending, if the bank has collected and maintained, as required in §228.42(c)(1), the data for each category that the bank elects to have the Board evaluate.

(2) The Board considers originations and purchases of loans. The Board will
also consider any other loan data the bank may choose to provide, including data on loans outstanding, commitments and letters of credit.

(3) A bank may ask the Board to consider loans originated or purchased by consortia in which the bank participates or by third parties in which the bank has invested only if the loans meet the definition of community development loans and only in accordance with paragraph (d) of this section. The Board will not consider these loans under any criterion of the lending test except the community development lending criterion.

(b) Performance criteria. The Board evaluates a bank’s lending performance pursuant to the following criteria:

(1) Lending activity. The number and amount of the bank’s home mortgage, small business, small farm, and consumer loans, if applicable, in the bank’s assessment area(s);

(2) Geographic distribution. The geographic distribution of the bank’s home mortgage, small business, small farm, and consumer loans, if applicable, based on the loan location, including:

(i) The proportion of the bank’s lending in the bank’s assessment area(s);

(ii) The dispersion of lending in the bank’s assessment area(s); and

(iii) The number and amount of loans in low-, moderate-, middle-, and upper-income geographies in the bank’s assessment area(s);

(3) Borrower characteristics. The distribution, particularly in the bank’s assessment area(s), of the bank’s home mortgage, small business, small farm, and consumer loans, if applicable, based on borrower characteristics, including the number and amount of:

(i) Home mortgage loans to low-, moderate-, middle-, and upper-income individuals;

(ii) Small business and small farm loans to businesses and farms with gross annual revenues of $1 million or less;

(iii) Small business and small farm loans by loan amount at origination; and

(iv) Consumer loans, if applicable, to low-, moderate-, middle-, and upper-income individuals;

(4) Community development lending. The bank’s community development lending, including the number and amount of community development loans, and their complexity and innovativeness; and

(5) Innovative or flexible lending practices. The bank’s use of innovative or flexible lending practices in a safe and sound manner to address the credit needs of low- or moderate-income individuals or geographies.

(c) Affiliate lending. (1) At a bank’s option, the Board will consider loans by an affiliate of the bank, if the bank provides data on the affiliate’s loans pursuant to §228.42.

(2) The Board considers affiliate lending subject to the following constraints:

(i) No affiliate may claim a loan origination or loan purchase if another institution claims the same loan origination or purchase; and

(ii) If a bank elects to have the Board consider loans within a particular lending category made by one or more of the bank’s affiliates in a particular assessment area, the bank shall elect to have the Board consider, in accordance with paragraph (c)(1) of this section, all the loans within that lending category in that particular assessment area made by all of the bank’s affiliates.

(3) The Board does not consider affiliate lending in assessing a bank’s performance under paragraph (b)(2)(i) of this section.

(d) Lending by a consortium or a third party. Community development loans originated or purchased by a consortium in which the bank participates or by a third party in which the bank has invested:

(1) Will be considered, at the bank’s option, if the bank reports the data pertaining to these loans under §228.42(b)(2); and

(2) May be allocated among participants or investors, as they choose, for purposes of the lending test, except that no participant or investor:

(i) May claim a loan origination or loan purchase if another participant or investor claims the same loan origination or purchase; or

(ii) May claim loans accounting for more than its percentage share (based
§ 228.24 Service test.
(a) Scope of test. The service test evaluates a bank’s record of helping to meet the credit needs of its assessment area(s) by analyzing both the availability and effectiveness of a bank’s systems for delivering retail banking services and the extent and innovative-ness of its community development services.

(b) Area(s) benefitted. Community development services must benefit a bank’s assessment area(s) or a broader statewide or regional area that includes the bank’s assessment area(s).

(c) Affiliate service. At a bank’s option, the Board will consider, in its assessment of a bank’s service performance, a community development service provided by an affiliate of the bank, if the community development service is not claimed by any other institution.

(d) Performance criteria—retail banking services. The Board evaluates the availability and effectiveness of a bank’s systems for delivering retail banking services, pursuant to the following criteria:

(1) The current distribution of the bank’s branches among low-, moderate-, middle-, and upper-income geographies;

(2) In the context of its current distribution of the bank’s branches, the bank’s record of opening and closing branches, particularly branches located in low- or moderate-income geographies or primarily serving low- or moderate-income individuals;

(3) The availability and effectiveness of alternative systems for delivering retail banking services (e.g., ATMs, ATMs not owned or operated by or exclusively for the bank, banking by telephone or computer, loan production offices, and bank-at-work or bank-by-mail programs) in low- and moderate-income geographies and to low- and moderate-income individuals; and

(4) The range of services provided in low-, moderate-, middle-, and upper-income geographies and the degree to which the services are tailored to meet the needs of those geographies.

(e) Performance criteria—community development services. The Board evaluates community development services pursuant to the following criteria:

(1) The extent to which the bank provides community development services; and
§ 228.25 Community development test for wholesale or limited purpose banks.

(a) Scope of test. The Board assesses a wholesale or limited purpose bank’s record of helping to meet the credit needs of its assessment area(s) under the community development test through its community development lending, qualified investments, or community development services.

(b) Designation as a wholesale or limited purpose bank. In order to receive a designation as a wholesale or limited purpose bank, a bank shall file a request, in writing, with the Board, at least three months prior to the proposed effective date of the designation. If the Board approves the designation, it remains in effect until the bank requests revocation of the designation or until one year after the Board notifies the bank that the Board has revoked the designation on its own initiative.

(c) Performance criteria. The Board evaluates the community development performance of a wholesale or limited purpose bank pursuant to the following criteria:

(1) The number and amount of community development loans (including originations and purchases of loans and other community development loan data provided by the bank, such as data on loans outstanding, commitments, and letters of credit), qualified investments, or community development services;

(2) The use of innovative or complex qualified investments, community development loans, or community development services and the extent to which the investments are not routinely provided by private investors; and

(3) The bank’s responsiveness to credit and community development needs.

(d) Indirect activities. At a bank’s option, the Board will consider in its community development performance assessment:

(1) Qualified investments or community development services provided by an affiliate of the bank, if the investments or services are not claimed by any other institution; and

(2) Community development lending by affiliates, consortia and third parties, subject to the requirements and limitations in §228.22(c) and (d).

(e) Benefit to assessment area(s)—(1) Benefit inside assessment area(s). The Board considers all qualified investments, community development loans, and community development services that benefit areas within the bank’s assessment area(s) or a broader statewide or regional area that includes the bank’s assessment area(s).

(2) Benefit outside assessment area(s). The Board considers the qualified investments, community development loans, and community development services that benefit areas outside the bank’s assessment area(s), if the bank has adequately addressed the needs of its assessment area(s).

(f) Community development performance rating. The Board rates a bank’s community development performance as provided in appendix A of this part.

§ 228.26 Small bank performance standards.

(a) Performance criteria—(1) Small banks that are not intermediate small banks. The Board evaluates the record of a small bank that is not, or that was not during the prior calendar year, an intermediate small bank, of helping to meet the credit needs of its assessment area(s) pursuant to the criteria set forth in paragraph (b) of this section.

(2) Intermediate small banks. The Board evaluates the record of a small bank that is, or that was during the prior calendar year, an intermediate small bank, of helping to meet the credit needs of its assessment area(s) pursuant to the criteria set forth in paragraphs (b) and (c) of this section.

(b) Lending test. A small bank’s lending performance is evaluated pursuant to the following criteria:

(1) The bank’s loan-to-deposit ratio, adjusted for seasonal variation, and, as appropriate, other lending-related activities, such as loan originations for
Federal Reserve System § 228.27

sale to the secondary markets, community development loans, or qualified investments;
(2) The percentage of loans and, as appropriate, other lending-related activities located in the bank’s assessment area(s);
(3) The bank’s record of lending to and, as appropriate, engaging in other lending-related activities for borrowers of different income levels and businesses and farms of different sizes;
(4) The geographic distribution of the bank’s loans; and
(5) The bank’s record of taking action, if warranted, in response to written complaints about its performance in helping to meet credit needs in its assessment area(s).

(c) Community development test. An intermediate small bank’s community development performance also is evaluated pursuant to the following criteria:
(1) The number and amount of community development loans;
(2) The number and amount of qualified investments;
(3) The extent to which the bank provides community development services; and
(4) The bank’s responsiveness through such activities to community development lending, investment, and services needs.

(d) Small bank performance rating. The Board rates the performance of a bank evaluated under this section as provided in appendix A of this part.

VerDate Nov<24>2008 08:32 Mar 04, 2010 Jkt 220037 PO 00000 Frm 00851 Fmt 8010 Sfmt 8010 Q:\12\12V3 ofr150 PsN: PC150

§ 228.27 Strategic plan.

(a) Alternative election. The Board will assess a bank’s record of helping to meet the credit needs of its assessment area(s) under a strategic plan if:
(1) The bank has submitted the plan to the Board as provided for in this section;
(2) The Board has approved the plan;
(3) The plan is in effect; and
(4) The bank has been operating under an approved plan for at least one year.

(b) Data reporting. The Board’s approval of a plan does not affect the bank’s obligation, if any, to report data as required by §228.42.

(c) Plans in general—(1) Term. A plan may have a term of no more than five years, and any multi-year plan must include annual interim measurable goals under which the Board will evaluate the bank’s performance.
(2) Multiple assessment areas. A bank with more than one assessment area may prepare a single plan for all of its assessment areas or one or more plans for one or more of its assessment areas.
(3) Treatment of affiliates. Affiliated institutions may prepare a joint plan if the plan provides measurable goals for each institution. Activities may be allocated among institutions at the institutions’ option, provided that the same activities are not considered for more than one institution.

(d) Public participation in plan development. Before submitting a plan to the Board for approval, a bank shall:
(1) Informally seek suggestions from members of the public in its assessment area(s) covered by the plan while developing the plan;
(2) Once the bank has developed a plan, formally solicit public comment on the plan for at least 30 days by publishing notice in at least one newspaper of general circulation in each assessment area covered by the plan; and
(3) During the period of formal public comment, make copies of the plan available for review by the public at no cost at all offices of the bank in any assessment area covered by the plan and provide copies of the plan upon request for a reasonable fee to cover copying and mailing, if applicable.

(e) Submission of plan. The bank shall submit its plan to the Board at least three months prior to the proposed effective date of the plan. The bank shall also submit with its plan a description of its informal efforts to seek suggestions from members of the public, any written public comment received, and, if the plan was revised in light of the comment received, the initial plan as released for public comment.

(f) Plan content—(1) Measurable goals. (i) A bank shall specify in its plan measurable goals for helping to meet the credit needs of each assessment area covered by the plan, particularly the needs of low- and moderate-income
842

§228.28 Assigned ratings.

(a) Ratings in general. Subject to paragraphs (b) and (c) of this section, the Board assigns to a bank a rating of “outstanding,” “satisfactory,” “needs to improve,” or “substantial noncompliance” based on the bank's performance under the lending, investment and service tests, the community development test, the small bank performance standards, or an approved strategic plan, as applicable.

(b) Lending, investment, and service tests. The Board assigns a rating for a bank assessed under the lending, investment, and service tests in accordance with the following principles:

geographies and low- and moderate-income individuals, through lending, investment, and services, as appropriate.

(ii) A bank shall address in its plan all three performance categories and, unless the bank has been designated as a wholesale or limited purpose bank, shall emphasize lending and lending-related activities. Nevertheless, a different emphasis, including a focus on one or more performance categories, may be appropriate if responsive to the characteristics and credit needs of its assessment area(s), considering public comment and the bank's capacity and constraints, product offerings, and business strategy.

(2) Confidential information. A bank may submit additional information to the Board on a confidential basis, but the goals stated in the plan must be sufficiently specific to enable the public and the Board to judge the merits of the plan.

(3) Satisfactory and outstanding goals. A bank shall specify in its plan measurable goals that constitute “satisfactory” performance. A plan may specify measurable goals that constitute “outstanding” performance. If a bank submits, and the Board approves, both “satisfactory” and “outstanding” performance goals, the Board will consider the bank eligible for an “outstanding” performance rating.

(4) Election if satisfactory goals not substantially met. A bank may elect in its plan that, if the bank fails to meet substantially its plan goals for a satisfactory rating, the Board will evaluate the bank's performance under the lending, investment, and service tests, the community development test, or the small bank performance standards, as appropriate.

(g) Plan approval—(1) Timing. The Board will act upon a plan within 60 calendar days after the Board receives the complete plan and other material required under paragraph (e) of this section. If the Board fails to act within this time period, the plan shall be deemed approved unless the Board extends the review period for good cause.

(2) Public participation. In evaluating the plan's goals, the Board considers the public's involvement in formulating the plan, written public comment on the plan, and any response by the bank to public comment on the plan.

(3) Criteria for evaluating plan. The Board evaluates a plan's measurable goals using the following criteria, as appropriate:

(i) The extent and breadth of lending or lending-related activities, including, as appropriate, the distribution of loans among different geographies, businesses and farms of different sizes, and individuals of different income levels, the extent of community development lending, and the use of innovative or flexible lending practices to address credit needs;

(ii) The amount and innovativeness, complexity, and responsiveness of the bank's systems for delivering retail banking services and the extent and innovativeness of the bank's community development services.

(h) Plan amendment. During the term of a plan, a bank may request the Board to approve an amendment to the plan on grounds that there has been a material change in circumstances. The bank shall develop an amendment to a previously approved plan in accordance with the public participation requirements of paragraph (d) of this section.

(i) Plan assessment. The Board approves the goals and assesses performance under a plan as provided for in appendix A of this part.

§ 228.29 Effect of CRA performance on applications.

(a) CRA performance. Among other factors, the Board takes into account the record of performance under the CRA of:

(1) Each applicant bank for the:

(i) Establishment of a domestic branch by a State member bank; and

(ii) Merger, consolidation, acquisition of assets, or assumption of liabilities requiring approval under the Bank Merger Act (12 U.S.C. 1828(c)) if the acquiring, assuming, or resulting bank is to be a State member bank; and

(2) Each insured depository institution (as defined in 12 U.S.C. 1813) controlled by an applicant and subsidiary bank or savings association proposed to be controlled by an applicant:

(i) To become a bank holding company in a transaction that requires approval under section 3 of the Bank Holding Company Act (12 U.S.C. 1842);

(ii) To acquire ownership or control of shares or all or substantially all of the assets of a bank, to cause a bank to become a subsidiary of a bank holding company, or to merge or consolidate a bank holding company with any other bank holding company in a transaction that requires approval under section 3 of the Bank Holding Company Act (12 U.S.C. 1842); and

(iii) To own, control or operate a savings association in a transaction that requires approval under section 4 of the Bank Holding Company Act (12 U.S.C. 1843).

(b) Interested parties. In considering CRA performance in an application described in paragraph (a) of this section, the Board takes into account any views expressed by interested parties that are submitted in accordance with the Board's Rules of Procedure set forth in part 262 of this chapter.

(c) Denial or conditional approval of application. A bank’s record of performance may be the basis for denying or conditioning approval of an application listed in paragraph (a) of this section.

(d) Definitions. For purposes of paragraph (a)(2) of this section, “bank,” “bank holding company,” “subsidiary,” and “savings association” have the meanings given to those terms in section 3 of the Bank Holding Company Act (12 U.S.C. 1842).

§ 228.41 Assessment area delineation.

(a) In general. A bank shall delineate one or more assessment areas within which the Board evaluates the bank’s record of helping to meet the credit needs of its community. The Board does not evaluate the bank’s delineation of its assessment area(s) as a separate performance criterion, but the Board reviews the delineation for compliance with the requirements of this section.

(b) Geographic area(s) for wholesale or limited purpose banks. The assessment area(s) for a wholesale or limited purpose bank must consist generally of one or more MSAs or metropolitan divisions (using the MSA or metropolitan division boundaries that were in effect as of January 1 of the calendar year in which the delineation is made) or one or more contiguous political subdivisions, such as counties, cities, or towns, in which the bank has its main office, branches, and deposit-taking ATMs.

(c) Geographic area(s) for other banks. The assessment area(s) for a bank other than a wholesale or limited purpose bank must:

1. Consist generally of one or more MSAs or metropolitan divisions (using the MSA or metropolitan division boundaries that were in effect as of January 1 of the calendar year in which the delineation is made) or one or more contiguous political subdivisions, such as counties, cities, or towns; and

2. Include the geographies in which the bank has its main office, its branches, and its deposit-taking ATMs, as well as the surrounding geographies in which the bank has originated or purchased a substantial portion of its loans (including home mortgage loans, small business and small farm loans, and any other loans the bank chooses, such as those consumer loans on which the bank elects to have its performance assessed).

(d) Adjustments to geographic area(s). A bank may adjust the boundaries of its assessment area(s) to include only the portion of a political subdivision that it reasonably can be expected to serve. An adjustment is particularly appropriate in the case of an assessment area that otherwise would be extremely large, of unusual configuration, or divided by significant geographic barriers.

(e) Limitations on the delineation of an assessment area. Each bank’s assessment area(s):

1. Must consist only of whole geographies;
2. May not reflect illegal discrimination;
3. May not arbitrarily exclude low- or moderate-income geographies, taking into account the bank’s size and financial condition; and
4. May not extend substantially beyond an MSA boundary or beyond a state boundary unless the assessment area is located in a multistate MSA. If a bank serves a geographic area that extends substantially beyond a state boundary, the bank shall delineate separate assessment areas for the areas in each state. If a bank serves a geographic area that extends substantially beyond an MSA boundary, the bank shall delineate separate assessment areas for the areas inside and outside the MSA.

(f) Banks serving military personnel. Notwithstanding the requirements of this section, a bank whose business predominantly consists of serving the needs of military personnel or their dependents who are not located within a defined geographic area may delineate its entire deposit customer base as its assessment area.

(g) Use of assessment area(s). The Board uses the assessment area(s) delineated by a bank in its evaluation of the bank’s CRA performance unless the Board determines that the assessment area(s) do not comply with the requirements of this section.

§ 228.42 Data collection, reporting, and disclosure.

(a) Loan information required to be collected and maintained. A bank, except a small bank, shall collect, and maintain in machine readable form (as prescribed by the Board) until the completion of its next CRA examination, the following data for each small business or small farm loan originated or purchased by the bank:

(1) A unique number or alpha-numeric symbol that can be used to identify the relevant loan file;
(2) The loan amount at origination;
(3) The loan location; and
(4) An indicator whether the loan was to a business or farm with gross annual revenues of $1 million or less.

(b) Loan information required to be reported. A bank, except a small bank or a bank that was a small bank during the prior calendar year, shall report annually by March 1 to the Board in machine readable form (as prescribed by the Board) the following data for the prior calendar year:

(1) Small business and small farm loan data. For each geography in which the bank originated or purchased a small business or small farm loan, the aggregate number and amount of loans:
   (i) With an amount at origination of $100,000 or less;
   (ii) With amount at origination of more than $100,000 but less than or equal to $250,000;
   (iii) With an amount at origination of more than $250,000; and
   (iv) To businesses and farms with gross annual revenues of $1 million or less (using the revenues that the bank considered in making its credit decision);
(2) Community development loan data. The aggregate number and aggregate amount of community development loans originated or purchased; and
(3) Home mortgage loans. If the bank is subject to reporting under part 203 of this chapter, the location of each home mortgage loan application, origination, or purchase outside the MSAs in which the bank has a home or branch office (or outside any MSA) in accordance with the requirements of part 203 of this chapter.

(c) Optional data collection and maintenance—(1) Consumer loans. A bank may collect and maintain in machine readable form (as prescribed by the Board) data for consumer loans originated or purchased by the bank for consideration under the lending test. A bank may maintain data for one or more of the following categories of consumer loans: motor vehicle, credit card, home equity, other secured, and other unsecured. If the bank maintains data for loans in a certain category, it shall maintain data for all loans originated or purchased within that category. The bank shall maintain data separately for each category, including for each loan:
   (i) A unique number or alpha-numeric symbol that can be used to identify the relevant loan file;
   (ii) The loan amount at origination or purchase;
   (iii) The loan location; and
   (iv) The gross annual income of the borrower that the bank considered in making its credit decision.
(2) Other loan data. At its option, a bank may provide other information concerning its lending performance, including additional loan distribution data.

(d) Data on affiliate lending. A bank that elects to have the Board consider loans by an affiliate, for purposes of the lending or community development test or an approved strategic plan, shall collect, maintain, and report for those loans the data that the bank would have collected, maintained, and reported pursuant to paragraphs (a), (b), and (c) of this section had the loans been originated or purchased by the bank. For home mortgage loans, the bank shall also be prepared to identify the home mortgage loans reported under part 203 of this chapter by the affiliate.

(e) Data on lending by a consortium or a third party. A bank that elects to have the Board consider community development loans by a consortium or third party, for purposes of the lending or community development tests or an approved strategic plan, shall report for those loans the data that the bank would have reported under paragraph (b)(2) of this section had the loans been originated or purchased by the bank.
tests. A bank that qualifies for evaluation under the small bank performance standards but elects evaluation under the lending, investment, and service tests shall collect, maintain, and report the data required for other banks pursuant to paragraphs (a) and (b) of this section.

(g) Assessment area data. A bank, except a small bank or a bank that was a small bank during the prior calendar year, shall collect and report to the Board by March 1 of each year a list for each assessment area showing the geographies within the area.

(h) CRA Disclosure Statement. The Board prepares annually for each bank that reports data pursuant to this section a CRA Disclosure Statement that contains, on a state-by-state basis:

(1) For each county (and for each assessment area smaller than a county) with a population of 500,000 persons or fewer in which the bank reported a small business or small farm loan:
   (i) The number and amount of small business and small farm loans reported as originated or purchased located in low-, moderate-, middle-, and upper-income geographies;
   (ii) A list grouping each geography according to whether the geography is low-, moderate-, middle-, or upper-income;
   (iii) A list showing each geography in which the bank reported a small business or small farm loan; and
   (iv) The number and amount of small business and small farm loans to businesses and farms with gross annual revenues of $1 million or less;

(2) For each county (and for each assessment area smaller than a county) with a population in excess of 500,000 persons in which the bank reported a small business or small farm loan:
   (i) The number and amount of small business and small farm loans reported as originated or purchased located in geographies with median income relative to the area median income of less than 10 percent, 10 or more but less than 20 percent, 20 or more but less than 30 percent, 30 or more but less than 40 percent, 40 or more but less than 50 percent, 50 or more but less than 60 percent, 60 or more but less than 70 percent, 70 or more but less than 80 percent, 80 or more but less than 90 percent, 90 or more but less than 100 percent, 100 or more but less than 110 percent, 110 or more but less than 120 percent, and 120 percent or more;
   (ii) A list grouping each county or assessment area according to whether the median income in the geography relative to the area median income is less than 10 percent, 10 or more but less than 20 percent, 20 or more but less than 30 percent, 30 or more but less than 40 percent, 40 or more but less than 50 percent, 50 or more but less than 60 percent, 60 or more but less than 70 percent, 70 or more but less than 80 percent, 80 or more but less than 90 percent, 90 or more but less than 100 percent, 100 or more but less than 110 percent, 110 or more but less than 120 percent, and 120 percent or more;
   (iii) A list showing each geography in which the bank reported a small business or small farm loan; and
   (iv) The number and amount of small business and small farm loans to businesses and farms with gross annual revenues of $1 million or less;

(3) The number and amount of small business and small farm loans located inside each assessment area reported by the bank and the number and amount of small business and small farm loans located outside the assessment area(s) reported by the bank; and

(4) The number and amount of community development loans reported as originated or purchased.

(i) Aggregate disclosure statements. The Board, in conjunction with the Office of the Comptroller of the Currency, the Federal Deposit Insurance Corporation, and the Office of Thrift Supervision, prepares annually, for each MSA or metropolitan division (including an MSA or metropolitan division that crosses a state boundary) and the nonmetropolitan portion of each state, an aggregate disclosure statement of small business and small farm lending by all institutions subject to reporting under this part or parts 25, 345, or 563e of this title. These disclosure statements indicate, for each geography, the number and amount of all small business and small farm loans originated or purchased by reporting institutions, except that the Board may adjust the
form of the disclosure if necessary, because of special circumstances, to protect the privacy of a borrower or the competitive position of an institution.

(j) Central data depositories. The Board makes the aggregate disclosure statements, described in paragraph (i) of this section, and the individual bank CRA Disclosure Statements, described in paragraph (h) of this section, available to the public at central data depositories. The Board publishes a list of the depositories at which the statements are available.

§ 228.43 Content and availability of public file.

(a) Information available to the public. A bank shall maintain a public file that includes the following information:

(1) All written comments received from the public for the current year and each of the prior two calendar years that specifically relate to the bank’s performance in helping to meet community credit needs, and any response to the comments by the bank, if neither the comments nor the responses contain statements that reflect adversely on the good name or reputation of any persons other than the bank or publication of which would violate specific provisions of law;

(2) A copy of the public section of the bank’s most recent CRA Performance Evaluation prepared by the Board. The bank shall place this copy in the public file within 30 business days after its receipt from the Board;

(3) A list of the bank’s branches, their street addresses, and geographies;

(4) A list of branches opened or closed by the bank during the current year and each of the prior two calendar years, their street addresses, and geographies;

(5) A list of services (including hours of operation, available loan and deposit products, and transaction fees) generally offered at the bank’s branches and descriptions of material differences in the availability or cost of services at particular branches, if any. At its option, a bank may include information regarding the availability of alternative systems for delivering retail banking services (e.g., ATMs, ATMs not owned or operated by or exclusively for the bank, banking by telephone or computer, loan production offices, and bank-at-work or bank-by-mail programs);

(6) A map of each assessment area showing the boundaries of the area and identifying the geographies contained within the area, either on the map or in a separate list; and

(7) Any other information the bank chooses.

(b) Additional information available to the public—

(1) Banks other than small banks. A bank, except a small bank or a bank that was a small bank during the prior calendar year, shall include in its public file the following information pertaining to the bank and its affiliates, if applicable, for each of the prior two calendar years:

(i) If the bank has elected to have one or more categories of its consumer loans considered under the lending test, for each of these categories, the number and amount of loans:

(A) To low-, moderate-, middle-, and upper-income individuals;

(B) Located in low-, moderate-, middle-, and upper-income census tracts; and

(C) Located inside the bank’s assessment area(s) and outside the bank’s assessment area(s); and

(ii) The bank’s CRA Disclosure Statement. The bank shall place the statement in the public file within three business days of its receipt from the Board.

(2) Banks required to report Home Mortgage Disclosure Act (HMDA) data. A bank required to report home mortgage loan data pursuant to part 203 of this chapter shall include in its public file a copy of the HMDA Disclosure Statement provided by the Federal Financial Institutions Examination Council pertaining to the bank for each of the prior two calendar years. In addition, a bank that elected to have the Board consider the mortgage lending of an affiliate for any of these years shall include in its public file the affiliate’s HMDA Disclosure Statement for those years. The bank shall place the statement(s) in the public file within three business days after its receipt.
§ 228.44 Public notice by banks.

A bank shall provide in the public lobby of its main office and each of its branches the appropriate public notice set forth in appendix B of this part. Only a branch of a bank having more than one assessment area shall include the bracketed material in the notice for branch offices. Only a bank that is an affiliate of a holding company shall include the next to the last sentence of the notices. A bank shall include the last sentence of the notices only if it is an affiliate of a holding company that is not prevented by statute from acquiring additional banks.

§ 228.45 Publication of planned examination schedule.

The Board publishes at least 30 days in advance of the beginning of each calendar quarter a list of banks scheduled for CRA examinations in that quarter.

APPENDIX A TO PART 228—RATINGS

(a) Ratings in general. (1) In assigning a rating, the Board evaluates a bank’s performance under the applicable performance criteria in this part, in accordance with §228.21, and §228.28, which provides for adjustments on the basis of evidence of discriminatory or other illegal credit practices.

(2) A bank’s performance need not fit each aspect of a particular rating profile in order to receive that rating, and exceptionally strong performance with respect to some aspects may compensate for weak performance in others. The bank’s overall performance, however, must be consistent with safe and sound banking practices and generally with the appropriate rating profile as follows.

(b) Banks evaluated under the lending, investment, and service tests—(1) Lending performance rating. The Board assigns each bank’s lending performance one of the five following ratings.

(i) Outstanding. The Board rates a bank’s lending performance “outstanding” if, in general, it demonstrates:

(A) Excellent responsiveness to credit needs in its assessment area(s), taking into account the number and amount of home mortgage, small business, small farm, and consumer loans, if applicable, in its assessment area(s);

(B) A substantial majority of its loans are made in its assessment area(s);

(C) An excellent geographic distribution of loans in its assessment area(s).

(ii) Satisfactory. The Board rates a bank’s lending performance “satisfactory” if, in general, it demonstrates:

(A) Excellent responsiveness to credit needs in its assessment area(s), taking into account the number and amount of home mortgage, small business, small farm, and consumer loans, if applicable, in its assessment area(s);

(B) A substantial majority of its loans are made in its assessment area(s);

(C) An excellent geographic distribution of loans in its assessment area(s).

(iii) Marginal. The Board rates a bank’s lending performance “marginal” if, in general, it demonstrates:

(A) Excellent responsiveness to credit needs in its assessment area(s), taking into account the number and amount of home mortgage, small business, small farm, and consumer loans, if applicable, in its assessment area(s);

(B) A substantial majority of its loans are made in its assessment area(s);

(C) An excellent geographic distribution of loans in its assessment area(s).

(iv) Problem. The Board rates a bank’s lending performance “problem” if, in general, it demonstrates:

(A) Excellent responsiveness to credit needs in its assessment area(s), taking into account the number and amount of home mortgage, small business, small farm, and consumer loans, if applicable, in its assessment area(s);

(B) A substantial majority of its loans are made in its assessment area(s);

(C) An excellent geographic distribution of loans in its assessment area(s).

(v) Substantial noncompliance. The Board rates a bank’s lending performance “substantial noncompliance” if, in general, it demonstrates:

(A) Excellent responsiveness to credit needs in its assessment area(s), taking into account the number and amount of home mortgage, small business, small farm, and consumer loans, if applicable, in its assessment area(s);

(B) A substantial majority of its loans are made in its assessment area(s);

(C) An excellent geographic distribution of loans in its assessment area(s).

(c) Location of public information. A bank shall make available to the public for inspection upon request and at no cost the information required in this section as follows:

(1) At the main office and, if an interstate bank, at one branch office in each state, all information in the public file; and

(2) At each branch:

(i) A copy of the public section of the bank’s most recent CRA Performance Evaluation and a list of services provided by the branch; and

(ii) Within five calendar days of the request, all the information in the public file relating to the assessment area in which the branch is located.

(d) Copies. Upon request, a bank shall provide copies, either on paper or in another form acceptable to the person making the request, of the information in its public file. The bank may charge a reasonable fee not to exceed the cost of copying and mailing (if applicable).

(e) Updating. Except as otherwise provided in this section, a bank shall ensure that the information required by this section is current as of April 1 of each year.
Federal Reserve System

(D) An excellent distribution, particularly in its assessment area(s), of loans among individuals of different income levels and businesses (including farms) of different sizes, given the product lines offered by the bank;

(E) An excellent record of serving the credit needs of highly economically disadvantaged areas in its assessment area(s), low-income individuals, or businesses (including farms) with gross annual revenues of $1 million or less, consistent with safe and sound operations;

(F) Limited use of innovative or flexible lending practices in a safe and sound manner to address the credit needs of low- or moderate-income individuals or geographies; and

(G) It has made an adequate level of community development loans.

(ii) High satisfactory. The Board rates a bank’s lending performance “high satisfactory” if, in general, it demonstrates:

(A) Good responsiveness to credit needs in its assessment area(s), taking into account the number and amount of home mortgage, small business, small farm, and consumer loans, if applicable, in its assessment area(s);

(B) A high percentage of its loans are made in its assessment area(s);

(C) A good geographic distribution of loans in its assessment area(s);

(D) A good distribution, particularly in its assessment area(s), of loans among individuals of different income levels and businesses (including farms) of different sizes, given the product lines offered by the bank;

(E) A good record of serving the credit needs of highly economically disadvantaged areas in its assessment area(s), low-income individuals, or businesses (including farms) with gross annual revenues of $1 million or less, consistent with safe and sound operations;

(F) Use of innovative or flexible lending practices in a safe and sound manner to address the credit needs of low- or moderate-income individuals or geographies; and

(G) It has made an adequate level of community development loans.

(iii) Low satisfactory. The Board rates a bank’s lending performance “low satisfactory” if, in general, it demonstrates:

(A) Adequate responsiveness to credit needs in its assessment area(s), taking into account the number and amount of home mortgage, small business, small farm, and consumer loans, if applicable, in its assessment area(s);

(B) An adequate percentage of its loans are made in its assessment area(s);

(C) An adequate geographic distribution of loans in its assessment area(s);

(D) An adequate geographic distribution, particularly in its assessment area(s), of loans among individuals of different income levels and businesses (including farms) of different sizes, given the product lines offered by the bank;

(E) An adequate record of serving the credit needs of highly economically disadvantaged areas in its assessment area(s), low-income individuals, or businesses (including farms) with gross annual revenues of $1 million or less, consistent with safe and sound operations;

(F) Limited use of innovative or flexible lending practices in a safe and sound manner to address the credit needs of low- or moderate-income individuals or geographies; and

(G) It has made an adequate level of community development loans.

(iv) Needs to improve. The Board rates a bank’s lending performance “needs to improve” if, in general, it demonstrates:

(A) Poor responsiveness to credit needs in its assessment area(s), taking into account the number and amount of home mortgage, small business, small farm, and consumer loans, if applicable, in its assessment area(s);

(B) A small percentage of its loans are made in its assessment area(s);

(C) A poor geographic distribution of loans, particularly to low- or moderate-income geographies, in its assessment area(s);

(D) A poor distribution, particularly in its assessment area(s), of loans among individuals of different income levels and businesses (including farms) of different sizes, given the product lines offered by the bank;

(E) A poor record of serving the credit needs of highly economically disadvantaged areas in its assessment area(s), low-income individuals, or businesses (including farms) with gross annual revenues of $1 million or less, consistent with safe and sound operations;

(F) Little use of innovative or flexible lending practices in a safe and sound manner to address the credit needs of low- or moderate-income individuals or geographies; and

(G) It has made a low level of community development loans.

(v) Substantial noncompliance. The Board rates a bank’s lending performance as being in “substantial noncompliance” if, in general, it demonstrates:

(A) A very poor responsiveness to credit needs in its assessment area(s), taking into account the number and amount of home mortgage, small business, small farm, and consumer loans, if applicable, in its assessment area(s);

(B) A very small percentage of its loans are made in its assessment area(s);

(C) A very poor geographic distribution of loans, particularly to low- or moderate-income geographies, in its assessment area(s);

(D) A very poor distribution, particularly in its assessment area(s), of loans among individuals of different income levels and businesses (including farms) of different sizes, given the product lines offered by the bank;

(E) A very poor record of serving the credit needs of highly economically disadvantaged areas in its assessment area(s), low-income
individuals, or businesses (including farms) with gross annual revenues of $1 million or less, consistent with safe and sound operations;

(f) No use of innovative or flexible lending practices in a safe and sound manner to address the credit needs of low- or moderate-income individuals or geographies; and

g) It has made few, if any, community development loans.

(2) Investment performance rating. The Board assigns each bank’s investment performance one of five following ratings.

(i) Outstanding. The Board rates a bank’s investment performance “outstanding” if, in general, it demonstrates:

(A) An excellent level of qualified investments, particularly those that are not routinely provided by private investors, often in a leadership position;

(B) Extensive use of innovative or complex qualified investments; and

(C) Excellent responsiveness to credit and community development needs.

(ii) High satisfactory. The Board rates a bank’s investment performance “high satisfactory” if, in general, it demonstrates:

(A) A significant level of qualified investments, particularly those that are not routinely provided by private investors, occasionally in a leadership position;

(B) Significant use of innovative or complex qualified investments; and

(C) Good responsiveness to credit and community development needs.

(iii) Low satisfactory. The Board rates a bank’s investment performance “low satisfactory” if, in general, it demonstrates:

(A) An adequate level of qualified investments, particularly those that are not routinely provided by private investors, although rarely in a leadership position;

(B) Occasional use of innovative or complex qualified investments; and

(C) Adequate responsiveness to credit and community development needs.

(iv) Needs to improve. The Board rates a bank’s investment performance “needs to improve” if, in general, it demonstrates:

(A) A poor level of qualified investments, particularly those that are not routinely provided by private investors;

(B) Rare use of innovative or complex qualified investments; and

(C) Poor responsiveness to credit and community development needs.

(v) Substantial noncompliance. The Board rates a bank’s investment performance as being in “substantial noncompliance” if, in general, it demonstrates:

(A) Few, if any, qualified investments, particularly those that are not routinely provided by private investors;

(B) No use of innovative or complex qualified investments; and

(C) Very poor responsiveness to credit and community development needs.

(3) Service performance rating. The Board assigns each bank’s service performance one of the following ratings.

(i) Outstanding. The Board rates a bank’s service performance “outstanding” if, in general, the bank demonstrates:

(A) Its service delivery systems are readily accessible to geographies and individuals of different income levels in its assessment area(s);

(B) To the extent changes have been made, its record of opening and closing branches has improved the accessibility of its delivery systems, particularly in low- or moderate-income geographies or to low- or moderate-income individuals;

(C) Its services (including, where appropriate, business hours) are tailored to the convenience and needs of its assessment area(s), particularly low- or moderate-income geographies or low- or moderate-income individuals; and

(D) It is a leader in providing community development services.

(ii) High satisfactory. The Board rates a bank’s service performance “high satisfactory” if, in general, the bank demonstrates:

(A) Its service delivery systems are accessible to geographies and individuals of different income levels in its assessment area(s);

(B) To the extent changes have been made, its record of opening and closing branches has not adversely affected the accessibility of its delivery systems, particularly in low- and moderate-income geographies and to low- and moderate-income individuals;

(C) Its services (including, where appropriate, business hours) do not vary in a way that inconveniences its assessment area(s), particularly low- and moderate-income geographies and low- and moderate-income individuals; and

(D) It provides a relatively high level of community development services.

(iii) Low satisfactory. The Board rates a bank’s service performance “low satisfactory” if, in general, the bank demonstrates:

(A) Its service delivery systems are reasonably accessible to geographies and individuals of different income levels in its assessment area(s);

(B) To the extent changes have been made, its record of opening and closing branches has generally not adversely affected the accessibility of its delivery systems, particularly in low- and moderate-income geographies and to low- and moderate-income individuals;

(C) Its services (including, where appropriate, business hours) do not vary in a way that inconveniences its assessment area(s), particularly low- and moderate-income geographies and low- and moderate-income individuals; and

(D) It provides an adequate level of community development services.
Federal Reserve System

(iii) Needs to improve. The Board rates a bank’s service performance “needs to improve” if, in general, it demonstrates:

(A) Its service delivery systems are unreasonably inaccessible or inconvenient to significant portions of its assessment area(s), particularly to low- or moderate-income geographies or to low- or moderate-income individuals;

(B) To the extent changes have been made, its record of opening and closing branches has adversely affected the accessibility its delivery systems, particularly in low- or moderate-income geographies or to low- or moderate-income individuals;

(C) Its services (including, where appropriate, business hours) vary in a way that significantly inconveniences its assessment area(s), particularly low- or moderate-income geographies or low- or moderate-income individuals; and

(D) It provides a limited level of community development services.

(iv) Needs to improve. The Board rates a bank’s service performance “needs to improve” if, in general, it demonstrates:

(A) Its service delivery systems are unreasonably inaccessible to significant portions of its assessment area(s), particularly to low- or moderate-income geographies or to low- or moderate-income individuals;

(B) To the extent changes have been made, its record of opening and closing branches has significantly adversely affected the accessibility its delivery systems, particularly in low- or moderate-income geographies or to low- or moderate-income individuals;

(C) Its services (including, where appropriate, business hours) vary in a way that significantly inconveniences its assessment area(s), particularly low- or moderate-income geographies or low- or moderate-income individuals; and

(D) It provides few, if any, community development services.

(c) Wholesale or limited purpose banks. The Board assigns each wholesale or limited purpose bank’s community development performance one of the four following ratings.

(1) Outstanding. The Board rates a wholesale or limited purpose bank’s community development performance “outstanding” if, in general, it demonstrates:

(i) An adequate level of community development loans, community development services, or qualified investments, particularly investments that are not routinely provided by private investors;

(ii) Occasional use of innovative or complex qualified investments, community development loans, or community development services; and

(iii) Adequate responsiveness to credit and community development needs in its assessment area(s).

(2) Satisfactory. The Board rates a wholesale or limited purpose bank’s community development performance “satisfactory” if, in general, it demonstrates:

(i) An adequate level of community development loans, community development services, or qualified investments, particularly investments that are not routinely provided by private investors;

(ii) Occasional use of innovative or complex qualified investments, community development loans, or community development services; and

(iii) Adequate responsiveness to credit and community development needs in its assessment area(s).

(3) Needs to improve. The Board rates a wholesale or limited purpose bank’s community development performance as “needs to improve” if, in general, it demonstrates:

(i) A poor level of community development loans, community development services, or qualified investments, particularly investments that are not routinely provided by private investors;

(ii) Occasional use of innovative or complex qualified investments, community development loans, or community development services; and

(iii) Poor responsiveness to credit and community development needs in its assessment area(s).

(4) Substantial noncompliance. The Board rates a wholesale or limited purpose bank’s community development performance in “substantial noncompliance” if, in general, it demonstrates:

(i) Few, if any, community development loans, community development services, or qualified investments, particularly investments that are not routinely provided by private investors;

(ii) Rare use of innovative or complex qualified investments, community development loans, or community development services; and

(iii) Very poor responsiveness to credit and community development needs in its assessment area(s).

(d) Banks evaluated under the small bank performance standards—(1) Lending test ratings. The Board rates a small bank’s lending performance “satisfactory” if, in general, the bank demonstrates:

(A) A reasonable loan-to-deposit ratio (considering seasonal variations) given the bank’s size, financial condition, the credit needs of its assessment area(s), and taking into account, as appropriate, other lending-related activities such as loan originations for sale to the secondary markets and community development loans and qualified investments;

(B) A majority of its loans and, as appropriate, other lending-related activities, are in its assessment area;

(C) A distribution of loans to and, as appropriate, other lending-related activities for
individuals of different income levels (including low- and moderate-income individuals) and businesses and farms of different sizes that is reasonable given the demographics of the bank’s assessment areas:

(D) A record of taking appropriate action, when warranted, in response to written complaints, if any, about the bank’s performance in helping to meet the credit needs of its assessment area(s); and

(E) A reasonable geographic distribution of loans given the bank’s assessment area(s).

(ii) Eligibility for an “outstanding” lending test rating. A small bank that meets each of the standards for a “satisfactory” rating under this paragraph and exceeds some or all of those standards may warrant consideration for a lending test rating of “outstanding.”

(iii) Needs to improve or substantial noncompliance ratings. A small bank may also receive a lending test rating of “needs to improve” or “substantial noncompliance” depending on the degree to which its performance has failed to meet the standard for a “satisfactory” rating.

(2) Community development test ratings for intermediate small banks—(i) Eligibility for a satisfactory community development test rating. The Board rates an intermediate small bank’s community development performance “satisfactory” if the bank demonstrates adequate responsiveness to the community development needs of its assessment area(s) through community development loans, qualified investments, and community development services. The adequacy of the bank’s response will depend on its capacity for such community development activities, its assessment area’s need for such community development activities, and the availability of such opportunities for community development in the bank’s assessment area(s).

(ii) Eligibility for an outstanding community development test rating. The Board rates an intermediate small bank’s community development performance “outstanding” if the bank demonstrates excellent responsiveness to community development needs in its assessment area(s) through community development loans, qualified investments, and community development services, as appropriate, considering the bank’s capacity and the need and availability of such opportunities for community development in the bank’s assessment area(s).

(iii) Needs to improve or substantial noncompliance ratings. An intermediate small bank may also receive a community development test rating of “needs to improve” or “substantial noncompliance” depending on the degree to which its performance has failed to meet the standards for a “satisfactory” rating.

(3) Overall rating—(i) Eligibility for a satisfactory overall rating. No intermediate small bank may receive an assigned overall rating of “satisfactory” unless it receives a rating of at least “satisfactory” on both the lending and the community development test.

(ii) Eligibility for an outstanding overall rating. (A) An intermediate small bank that receives an “outstanding” rating on one test and at least “satisfactory” on the other test may receive an assigned overall rating of “outstanding.”

(B) A small bank that is not an intermediate small bank that meets each of the standards for a “satisfactory” rating under the lending test and exceeds some or all of those standards may warrant consideration for an overall rating of “outstanding.” In assessing whether a bank’s performance is “outstanding,” the Board considers the extent to which the bank exceeds each of the performance standards for a “satisfactory” rating and its performance in making qualified investments and its performance in providing branches and other services and delivery systems that enhance credit availability in its assessment area(s).

(iii) Needs to improve or substantial noncompliance overall ratings. A small bank may also receive a rating of “needs to improve” or “substantial noncompliance” depending on the degree to which its performance has failed to meet the standards for a “satisfactory” rating.

(e) Strategic plan assessment and rating—(1) Satisfactory goals. The Board approves as “satisfactory” measurable goals that adequately help to meet the credit needs of the bank’s assessment area(s).

(2) Outstanding goals. If the plan identifies a separate group of measurable goals that substantially exceed the levels approved as “satisfactory,” the Board will approve those goals as “outstanding.”

(3) Rating. The Board assesses the performance of a bank operating under an approved plan to determine if the bank has met its plan goals:

(i) If the bank substantially achieves its plan goals for a satisfactory rating, the Board will rate the bank’s performance under the plan as “satisfactory.”

(ii) If the bank exceeds its plan goals for a satisfactory rating and substantially achieves its plan goals for an outstanding rating, the Board will rate the bank’s performance under the plan as “outstanding.”

(iii) If the bank fails to meet substantially its plan goals for a satisfactory rating, the Board will rate the bank as either “needs to improve” or “substantial noncompliance,” depending on the extent to which it fails short of its plan goals, unless the bank elected in its plan to be rated otherwise, as provided in §228.27(f)(4).

APPENDIX B TO PART 228—CRA NOTICE

(a) Notice for main offices and, if an interstate bank, one branch office in each state.

COMMUNITY REINVESTMENT ACT NOTICE

Under the Federal Community Reinvestment Act (CRA), the Federal Reserve Board (Board) evaluates our record of helping to meet the credit needs of this community consistent with safe and sound operations. The Board also takes this record into account when deciding on certain applications submitted by us.

Your involvement is encouraged.

You are entitled to certain information about our operations and our performance under the CRA, including, for example, information about our branches, such as their location and services provided at them; the public section of our most recent CRA Performance Evaluation, prepared by the Federal Reserve Bank of (address); and comments received from the public relating to our performance in helping to meet community credit needs, as well as our responses to those comments. You may review this information today.

At least 30 days before the beginning of each quarter, the Federal Reserve System publishes a list of the banks that are scheduled for CRA examination by the Reserve Bank in that quarter. This list is available from (title of responsible official), Federal Reserve Bank of (address). You may send written comments about our performance in helping to meet community credit needs to (name and address of official at bank) and (title of responsible official), Federal Reserve Bank of (address). Your letter, together with any response by us, will be considered by the Federal Reserve System in evaluating our CRA performance and may be made public.

You may ask to look at any comments received by the Reserve Bank. You may also request from the Reserve Bank an announcement of our applications covered by the CRA filed with the Reserve Bank. We are an affiliate of (name of holding company), a bank holding company. You may request from (title of responsible official), Federal Reserve Bank of (address) an announcement of applications covered by the CRA filed by bank holding companies.

(b) Notice for branch offices.

COMMUNITY REINVESTMENT ACT NOTICE

Under the Federal Community Reinvestment Act (CRA), the Federal Reserve Board (Board) evaluates our record of helping to meet the credit needs of this community consistent with safe and sound operations. The Board also takes this record into account when deciding on certain applications submitted by us.

You are entitled to certain information about our operations and our performance under the CRA. You may review today the public section of our most recent CRA evaluation, prepared by the Federal Reserve Bank of (address), and a list of services provided at this branch. You may also have access to the following additional information, which we will make available to you at this branch within five calendar days after you make a request to us: (1) a map showing the assessment area containing this branch, which is the area in which the Board evaluates our CRA performance in this community; (2) information about our branches in this assessment area; (3) a list of services we provide at those locations; (4) data on our lending performance in this assessment area; and (5) copies of all written comments received by us that specifically relate to our CRA performance in this assessment area, and any responses we have made to those comments. If we are operating under an approved strategic plan, you may also have access to a copy of the plan.

If you would like to review information about our CRA performance in other communities served by us, the public file for our entire bank is available at (name of office located in state), located at (address).

At least 30 days before the beginning of each quarter, the Federal Reserve System publishes a list of the banks that are scheduled for CRA examination by the Reserve Bank in that quarter. This list is available from (title of responsible official), Federal Reserve Bank of (address). You may send written comments about our performance in helping to meet community credit needs to (name and address of official at bank) and (title of responsible official), Federal Reserve Bank of (address). Your letter, together with any response by us, will be considered by the Federal Reserve System in evaluating our CRA performance and may be made public.

You may ask to look at any comments received by the Reserve Bank. You may also request from the Reserve Bank an announcement of our applications covered by the CRA filed with the Reserve Bank. We are an affiliate of (name of holding company), a bank holding company. You may request from (title of responsible official), Federal Reserve Bank of (address) an announcement of applications covered by the CRA filed by bank holding companies.
Subpart A—General

Authority and purpose; organization.

This part is issued by the Board of Governors of the Federal Reserve System (Board) to implement the Expedited Funds Availability Act (12 U.S.C. 4001–4010) (the EFA Act) and the Check 21 Act.

Organization.

This part is divided into subparts and appendices as follows—

Subpart B—Availability of Funds and Disclosure of Funds Availability Policies

Next-day availability.

Availability schedule.

Exceptions.

Payment of interest.

General disclosure requirements.

Specific availability policy disclosure.

Initial disclosures.

Additional disclosure requirements.

Miscellaneous.

Relation to state law.

Civil liability.

Subpart C—Collection of Checks

Paying bank’s responsibility for return of checks.

Returning bank’s responsibility for return of checks.

Depositary bank’s responsibility for returned checks.

Notice of nonpayment.

Warranties.

Indorsements.

Presentment and issuance of checks.

Variation by agreement.

Liability.

Insolvency of bank.

Effect of merger transaction.

Relation to State law.

Exclusions.

Checks payable in Guam, American Samoa, and the Northern Mariana Islands.

Subpart D—Substitute Checks

General provisions governing substitute checks.

Substitute check warranties.

Substitute check indemnity.

Expedited recredit for consumers.

Expedited recredit for banks.

Liability.

Consumer awareness.

Mode of delivery of information.

Relation to other law.

Variation by agreement.

APPENDIX D TO PART 229—INDORSEMENT, RECONVERTING BANK IDENTIFICATION, AND TRUNCATING BANK IDENTIFICATION STANDARDS

APPENDIX E TO PART 229—COMMENTARY

APPENDIX F TO PART 229—OFFICIAL BOARD INTERPRETATIONS; PREEMPTION DETERMINATIONS

Source: 53 FR 19433, May 27, 1988, unless otherwise noted.

Subpart A—General

Authority and purpose; organization.

(a) Authority and purpose. This part is issued by the Board of Governors of the Federal Reserve System (Board) to implement the Expedited Funds Availability Act (12 U.S.C. 4001–4010) (the EFA Act) and the Check 21 Act.

(b) Organization. This part is divided into subparts and appendices as follows—

(1) Subpart B contains general information. It sets forth—

(i) The authority, purpose, and organization;

(ii) Definitions of terms; and

(iii) Authority for administrative enforcement of this part’s provisions.

(2) Subpart B of this part contains rules regarding the duty of banks to make funds deposited into accounts available for withdrawal, including availability schedules. Subpart B of this part also contains rules regarding exceptions to the schedules, disclosure of funds availability policies, payment of interest, liability of banks for failure to comply with Subpart B of this part, and other matters.

(3) Subpart C of this part contains rules to expedite the collection and return of checks by banks. These rules cover the direct return of checks, the manner in which the paying bank and returning banks must return checks to the depositary bank, notification of nonpayment by the paying bank, indorsement and presentment of
§ 229.2 Definitions.

As used in this part, and unless the context requires otherwise, the following terms have the meanings set forth in this section, and the terms not defined in this section have the meanings set forth in the Uniform Commercial Code:

(a) Account. (1) Except as provided in paragraphs (a)(2) and (a)(3) of this section, account means a deposit as defined in 12 CFR 204.2(a)(1)(i) that is a transaction account as described in 12 CFR 204.2(e). As defined in these sections, account generally includes accounts at a bank from which the account holder is permitted to make transfers or withdrawals by negotiable or transferable instrument, payment order of withdrawal, telephone transfer, electronic payment, or other similar means for the purpose of making payments or transfers to third persons or others. Account also includes accounts at a bank from which the account holder may make third party payments at an ATM, remote service unit, or other electronic device, including by debit card, but the term does not include savings deposits or accounts described in 12 CFR 204.2(d)(2) even though such accounts permit third party transfers. An account may be in the form of—

(i) A demand deposit account,
(ii) A negotiable order of withdrawal account,
(iii) A share draft account,
(iv) An automatic transfer account, or
(v) Any other transaction account described in 12 CFR 204.2(e).

(2) For purposes of subpart B of this part and, in connection therewith, this subpart A, account does not include an account where the account holder is a bank, where the account holder is an office of an institution described in paragraphs (e)(1) through (e)(6) of this section or an office of a “foreign bank” as defined in section 1(b) of the International Banking Act (12 U.S.C. 3101) that is located outside the United States, or where the direct or indirect account holder is the Treasury of the United States.

(3) For purposes of subpart D of this part and, in connection therewith, this subpart A, account means any deposit, as defined in 12 CFR 204.2(a)(1)(i), at a bank, including a demand deposit or other transaction account and a savings deposit or other time deposit, as those terms are defined in 12 CFR 204.2.

(b) Automated clearinghouse or ACH means a facility that processes debit and credit transfers under rules established by a Federal Reserve Bank operating circular on automated clearinghouse items or under rules of an automated clearinghouse association.

(c) Automated teller machine or ATM means an electronic device at which a natural person may make deposits to an account by cash or check and perform other account transactions.

(d) Available for withdrawal with respect to funds deposited means available for all uses generally permitted to the customer for actually and finally collected funds under the bank’s account agreement or policies, such as for payment of checks drawn on the account, certification of checks drawn on the account, certification of checks drawn on the account, electronic payments, withdrawals by cash, and transfers between accounts.

(e) Bank means—

(1) An insured bank as defined in section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813) or a bank that is eligible to apply to become an insured bank under section 5 of that Act (12 U.S.C. 1815);

(2) A mutual savings bank as defined in section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813);
(3) A savings bank as defined in section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813);
(4) An insured credit union as defined in section 101 of the Federal Credit Union Act (12 U.S.C. 1752) or a credit union that is eligible to make application to become an insured credit union under section 201 of that Act (12 U.S.C. 1781);
(5) A member as defined in section 2 of the Federal Home Loan Bank Act (12 U.S.C. 1422);
(6) A savings association as defined in section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813) that is an insured depository institution as defined in section 3 of that Act (12 U.S.C. 1813(c)(2)) or that is eligible to apply to become an insured depository institution under section 5 of that Act (12 U.S.C. 1815); or
(7) An agency or a branch of a foreign bank as defined in section l(b) of the International Banking Act (12 U.S.C. 3101).

For purposes of subparts C and D of this part and, in connection therewith, this subpart A, the term bank also includes any person engaged in the business of banking, as well as a Federal Reserve Bank, a Federal Home Loan Bank, and a state or unit of general local government to the extent that the state or unit of general local government acts as a paying bank. Unless otherwise specified, the term bank includes all of a bank's offices in the United States, but not offices located outside the United States.

NOTE: For purposes of subpart D of this part and, in connection therewith, subpart A, bank also includes the Treasury of the United States or the United States Postal Service to the extent that the Treasury or the Postal Service acts as a paying bank.

(f) Banking day means that part of any business day on which an office of a bank is open to the public for carrying on substantially all of its banking functions.

(g) Business day means a calendar day other than a Saturday or a Sunday, January 1, the third Monday in January, the third Monday in February, the last Monday in May, July 4, the first Monday in September, the second Monday in October, November 11, the fourth Thursday in November, or December 25. If January 1, July 4, November 11, or December 25 fall on a Sunday, the next Monday is not a business day.

(h) Cash means United States coins and currency.

(i) Cashier's check means a check that is—
(1) Drawn on a bank;
(2) Signed by an officer or employee of the bank on behalf of the bank as drawer;
(3) A direct obligation of the bank; and
(4) Provided to a customer of the bank or acquired from the bank for remittance purposes.

(j) Certified check means a check with respect to which the drawee bank certifies by signature on the check of an officer or other authorized employee of the bank that—
(1) (i) The signature of the drawer on the check is genuine; and
(ii) The bank has set aside funds that—
(A) Are equal to the amount of the check, and
(B) Will be used to pay the check; or
(2) The bank will pay the check upon presentment.

(k) Check means—
(1) A negotiable demand draft drawn on or payable through or at an office of a bank;
(2) A negotiable demand draft drawn on a Federal Reserve Bank or a Federal Home Loan Bank;
(3) A negotiable demand draft drawn on the Treasury of the United States;
(4) A demand draft drawn on a state government or unit of general local government that is not payable through or at a bank;
(5) A United States Postal Service money order; or
(6) A traveler’s check drawn on or payable through or at a bank.

(7) The term check includes an original check and a substitute check.

NOTE: The term check does not include a noncash item or an item payable in a medium other than United States money. A draft may be a check even though it is described on its face by another term, such as money order. For purposes of subparts C and D, and in connection therewith, subpart A, of this part, the term check also includes a demand draft of the type described above that is nonnegotiable.

(l) [Reserved]
Federal Reserve System

§ 229.2

(m) Check processing region means the geographical area served by an office of a Federal Reserve Bank for purposes of its check processing activities.

(n) Consumer account means any account used primarily for personal, family, or household purposes.

(o) Depository bank means the first bank to which a check is transferred even though it is also the paying bank or the payee. A check deposited in an account is deemed to be transferred to the bank holding the account into which the check is deposited, even though the check is physically received and indorsed first by another bank.

(p) Electronic payment means a wire transfer or an ACH credit transfer.

(q) Forward collection means the process by which a bank sends a check on a cash basis to a collecting bank for settlement or to the paying bank for payment.

(r) Local check means a check payable by or at a local paying bank, or a check payable by a nonbank payor and payable through a local paying bank.

(s) Local paying bank means a paying bank that is located in the same check-processing region as the physical location of the branch, contractual branch, or proprietary ATM of the depositary bank in which that check was deposited.

(t) Merger transaction means—

(1) A merger or consolidation of two or more banks; or

(2) The transfer of substantially all of the assets of one or more banks or branches to another bank in consideration of the assumption by the acquiring bank of substantially all of the liabilities of the transferring banks, including the deposit liabilities.

(u) Noncash item means an item that would otherwise be a check, except that—

(1) A passbook, certificate, or other document is attached;

(2) It is accompanied by special instructions, such as a request for special advice of payment or dishonor;

(3) It consists of more than a single thickness of paper, except a check that qualifies for handling by automated check processing equipment; or

(4) It has not been preprinted or post-encoded in magnetic ink with the routing number of the paying bank.

(v) Nonlocal check means a check payable by, through, or at a nonlocal paying bank.

(w) Nonlocal paying bank means a paying bank that is not a local paying bank with respect to the depositary bank.

(x) Nonproprietary ATM means an ATM that is not a proprietary ATM.

(y) [Reserved]

(z) Paying bank means—

(1) The bank by which a check is payable, unless the check is payable at another bank and is sent to the other bank for payment or collection;

(2) The bank at which a check is payable and to which it is sent for payment or collection;

(3) The Federal Reserve Bank or Federal Home Loan Bank by which a check is payable;

(4) The bank through which a check is payable and to which it is sent for payment or collection, if the check is not payable by a bank; or

(5) The state or unit of general local government on which a check is drawn and to which it is sent for payment or collection.

For purposes of subparts C and D, and in connection therewith, subpart A, paying bank includes the bank through which a check is payable and to which the check is sent for payment or collection, regardless of whether the check is payable by another bank, and the bank whose routing number appears on a check in fractional or magnetic form and to which the check is sent for payment or collection.

NOTE: For purposes of subpart D of this part and, in connection therewith, this subpart A, paying bank also includes the Treasury of the United States or the United States Postal Service for a check that is payable by that entity and that is sent to that entity for payment or collection.

(aa) Proprietary ATM means an ATM that is—

(1) Owned or operated by, or operated exclusively for, the depositary bank;

(2) Located on the premises (including the outside wall) of the depositary bank; or

(3) Located within 50 feet of the premises of the depositary bank, and not identified as being owned or operated by another entity.
§229.2  12 CFR Ch. II (1–1–10 Edition)

If more than one bank meets the owned or operated criterion of paragraph (aa)(1) of this section, the ATM is considered proprietary to the bank that operates it.

(bb) Qualified returned check means a returned check that is prepared for automated return to the depositary bank by placing the check in a carrier envelope or placing a strip on the check and encoding the strip or envelope in magnetic ink. A qualified returned check need not contain other elements of a check drawn on the depositary bank, such as the name of the depositary bank.

(cc) Returning bank means a bank (other than the paying or depositary bank) handling a returned check or notice in lieu of return. A returning bank is also a collecting bank for purposes of UCC 4–202(b).

(dd) Routing number means—

1. The number printed on the face of a check in fractional form or in nine-digit form;

2. The number in a bank's indorsement in fractional or nine-digit form.

(ee) Similarly situated bank means a bank of similar size, located in the same community, and with similar check handling activities as the paying bank or returning bank.

(ff) State means a state, the District of Columbia, Puerto Rico, or the U.S. Virgin Islands. For purposes of subpart D of this part and, in connection therewith, this subpart A, state also means Guam, American Samoa, the Trust Territory of the Pacific Islands, the Northern Mariana Islands, and any other territory of the United States.

(gg) Teller's check means a check provided to a customer of a bank or acquired from a bank for remittance purposes, that is drawn by the bank, and drawn on another bank or payable through or at a bank.

(hh) Traveler's check means an instrument for the payment of money that—

1. Is drawn on or payable through or at a bank;

2. Is designated on its face by the term traveler's check or by any substantially similar term or is commonly known and marketed as a traveler's check by a corporation or bank that is an issuer of traveler's checks;

3. Provides for a specimen signature of the purchaser to be completed at the time of purchase; and

4. Provides for a countersignature of the purchaser to be completed at the time of negotiation.

(ii) Uniform Commercial Code, Code, or U.C.C. means the Uniform Commercial Code as adopted in a state.

(jj) United States means the states, including the District of Columbia, the U.S. Virgin Islands, and Puerto Rico.

(kk) Unit of general local government means any city, county, parish, town, township, village, or other general purpose political subdivision of a state. The term does not include special purpose units of government, such as school districts or water districts.

(ll) Wire transfer means an unconditional order to a bank to pay a fixed or determinable amount of money to a beneficiary upon receipt or on a day stated in the order, that is transmitted by electronic or other means through Fedwire, the Clearing House Interbank Payments System, other similar network, between banks, or on the books of a bank. Wire transfer does not include an electronic fund transfer as defined in section 903(6) of the Electronic Fund Transfer Act (15 U.S.C. 1693a(6)).

(mm) Fedwire has the same meaning as that set forth in §210.26(e) of this chapter.

(nn) Good faith means honesty in fact and observance of reasonable commercial standards of fair dealing.

(oo) Interest compensation means an amount of money calculated at the average of the Federal Funds rates published by the Federal Reserve Bank of New York for each of the days for which interest compensation is payable, divided by 360. The Federal Funds rate for any day on which a published rate is not available is the same as the published rate for the last preceding day for which there is a published rate.

(pp) Contractual branch, with respect to a bank, means a branch of another bank that accepts a deposit on behalf of the first bank.

(qq) Claimant bank means a bank that submits a claim for a recredit for a substitute check to an indemnifying bank under §229.55.
(rr) Collecting bank means any bank handling a check for forward collection, except the paying bank.

(ss) Consumer means a natural person who—

(1) With respect to a check handled for forward collection, draws the check on a consumer account; or

(2) With respect to a check handled for return, deposits the check into or cashes the check against a consumer account.

(tt) Customer means a person having an account with a bank.

(uu) Indemnifying bank means a bank that provides an indemnity under §229.53 with respect to a substitute check.

(vv) Magnetic ink character recognition line and MICR line mean the numbers, which may include the routing number, account number, check number, check amount, and other information, that are printed near the bottom of a check in magnetic ink in accordance with American National Standard Specifications for Placement and Location of MICR Printing, X9.13 (hereinafter ANS X9.13) for an original check and American National Standard Specifications for an Image Replacement Document—IRD, X9.100-140 (hereinafter ANS X9.100-140) for a substitute check (unless the Board by rule or order determines that different standards apply).

(ww) Original check means the first paper check issued with respect to a particular payment transaction.

(xx) Paper or electronic representation of a substitute check means any copy of or information related to a substitute check that a bank handles for forward collection or return, charges to a customer’s account, or provides to a person as a record of a check payment made by the person.

(yy) Person means a natural person, corporation, unincorporated company, partnership, government unit or instrumentality, trust, or any other entity or organization.

(zz) Reconverting bank means—

(1) The bank that creates a substitute check; or

(2) With respect to a substitute check that was created by a person that is not a bank, the first bank that transfers, presents, or returns that substitute check or, in lieu thereof, the first paper or electronic representation of that substitute check.

(aaa) Substitute check means a paper reproduction of an original check that—

(1) Contains an image of the front and back of the original check;

(2) Bears a MICR line that, except as provided under ANS X9.100-140 (unless the Board by rule or order determines that a different standard applies), contains all the information appearing on the MICR line of the original check at the time that the original check was issued and any additional information that was encoded on the original check’s MICR line before an image of the original check was captured;

(3) Conforms in paper stock, dimension, and otherwise with ANS X9.100-140 (unless the Board by rule or order determines that a different standard applies); and

(4) Is suitable for automated processing in the same manner as the original check.

(bbb) Sufficient copy and copy. (1) A sufficient copy is a copy of an original check that accurately represents all of the information on the front and back of the original check as of the time the original check was truncated or is otherwise sufficient to determine whether or not a claim is valid.

(2) A copy of an original check means any paper reproduction of an original check, including a paper printout of an electronic image of the original check, a photocopy of the original check, or a substitute check.

(ccc) Transfer and consideration. The terms transfer and consideration have the meanings set forth in the Uniform Commercial Code and in addition, for purposes of subpart D—

(1) The term transfer with respect to a substitute check or a paper or electronic representation of a substitute check means delivery of the substitute check or other representation of the substitute check by a bank to a person other than a bank; and

(2) A bank that transfers a substitute check or a paper or electronic representation of a substitute check directly to a person other than a bank has received consideration for the substitute check or other paper or electronic representation of the substitute check.
check if it has charged, or has the right to charge, the person's account or otherwise has received value for the original check, a substitute check, or a representation of the original check or substitute check.

(ddd) Truncate means to remove an original check from the forward collection or return process and send to a recipient, in lieu of such original check, a substitute check or, by agreement, information relating to the original check (including data taken from the MICR line of the original check or an electronic image of the original check), whether with or without the subsequent delivery of the original check.

(eee) Truncating bank means—

(1) The bank that truncates the original check; or

(2) If a person other than a bank truncates the original check, the first bank that transfers, presents, or returns, in lieu of such original check, a substitute check or, by agreement with the recipient, information relating to the original check (including data taken from the MICR line of the original check or an electronic image of the original check), whether with or without the subsequent delivery of the original check.

(fff) Remotely created check means a check that is not created by the paying bank and that does not bear a signature applied, or purported to be applied, by the person on whose account the check is drawn. For purposes of this definition, “account” means an account as defined in paragraph (a) of this section as well as a credit or other arrangement that allows a person to draw checks that are payable by, through, or at a bank.

§ 229.3 Administrative enforcement.

(a) Enforcement agencies. Compliance with this part is enforced under—

(1) Section 8 of the Federal Deposit Insurance Act (12 U.S.C. 1818 et seq.) in the case of—

(i) National banks, and Federal branches and Federal agencies of foreign banks, by the Office of the Comptroller of the Currency;

(ii) Member banks of the Federal Reserve System (other than national banks), and offices, branches, and agencies of foreign banks located in the United States (other than Federal branches, Federal agencies, and insured State branches of foreign banks), by the Board; and

(iii) Banks insured by the Federal Deposit Insurance Corporation (other than members of the Federal Reserve System) and insured State branches of foreign banks, by the Board of Directors of the Federal Deposit Insurance Corporation;

(2) Section 8 of the Federal Deposit Insurance Act, by the Director of the Office of Thrift Supervision in the case of savings associations the deposits of which are insured by the Federal Deposit Insurance Corporation; and

(3) The Federal Credit Union Act (12 U.S.C. 1751 et seq.) by the National Credit Union Administration Board with respect to any federal credit union or credit union insured by the National Credit Union Share Insurance Fund.

The terms used in paragraph (a)(1) of this section that are not defined in this part or otherwise defined in section 3(s) of the Federal Deposit Insurance Act (12 U.S.C. 1813(s)) shall have the meaning given to them in section 1(b) of the International Banking Act of 1978 (12 U.S.C. 3101).

(b) Additional powers. (1) For the purposes of the exercise by any agency referred to in paragraph (a) of this section of its powers under any statute referred to in that paragraph, a violation of any requirement imposed under the EFA Act is deemed to be a violation of a requirement imposed under that statute.

(2) In addition to its powers under any provision of law specifically referred to in paragraph (a) of this section, each of the agencies referred to in that paragraph may exercise, for purposes of enforcing compliance with any requirement imposed under this part, any other authority conferred on it by law.
Federal Reserve System § 229.10

(c) Enforcement by the Board. (1) Except to the extent that enforcement of the requirements imposed under this part is specifically committed to some other government agency, the Board shall enforce such requirements.

(2) If the Board determines that—

(i) Any bank that is not a bank described in paragraph (a) of this section; or

(ii) Any other person subject to the authority of the Board under the EFA Act and this part, has failed to comply with any requirement imposed by this part, the Board may issue an order prohibiting any bank, any Federal Reserve Bank, or any other person subject to the authority of the Board from engaging in any activity or transaction that directly or indirectly involves such noncomplying bank or person (including any activity or transaction involving the receipt, payment, collection, and clearing of checks, and any related function of the payment system with respect to checks).

Subpart B—Availability of Funds and Disclosure of Funds Availability Policies

§ 229.10 Next-day availability.

(a) Cash deposits. (1) A bank shall make funds deposited in an account by cash available for withdrawal not later than the business day after the banking day on which the cash is deposited, if the deposit is made in person to an employee of the depositary bank.

(2) A bank shall make funds deposited in an account by cash available for withdrawal not later than the second business day after the banking day on which the cash is deposited, if the deposit is not made in person to an employee of the depositary bank.

(b) Electronic payments—(1) In general. A bank shall make funds deposited in an account by an electronic payment available for withdrawal not later than the business day after the banking day on which the bank received the electronic payment.

(2) When an electronic payment is received. An electronic payment is received when the bank receiving the payment has received both—

(i) Payment in actually and finally collected funds; and

(ii) Information on the account and amount to be credited.

A bank receives an electronic payment only to the extent that the bank has received payment in actually and finally collected funds.

(c) Certain check deposits—(1) General rule. A depositary bank shall make funds deposited in an account by check available for withdrawal not later than the business day after the banking day on which the funds are deposited, in the case of—

(i) A check drawn on the Treasury of the United States and deposited in an account held by a payee of the check;

(ii) A U.S. Postal Service money order deposited—

(A) In an account held by a payee of the money order; and

(B) In person to an employee of the depositary bank.

(iii) A check drawn on a Federal Reserve Bank or Federal Home Loan Bank and deposited—

(A) In an account held by a payee of the check; and

(B) In person to an employee of the depositary bank.

(iv) A check drawn by a state or a unit of general local government and deposited—

(A) In an account held by a payee of the check;

(B) In a depositary bank located in the state that issued the check, or the same state as the unit of general local government that issued the check;

(C) In person to an employee of the depositary bank; and

(D) With a special deposit slip or deposit envelope, if such slip or envelope is required by the depositary bank under paragraph (c)(3) of this section.

(v) A cashier's, certified, or teller's check deposited—

(A) In an account held by a payee of the check;

(B) In person to an employee of the depositary bank; and

(C) With a special deposit slip or deposit envelope, if such slip or envelope...
§ 229.11

is required by the depositary bank under paragraph (c)(3) of this section.

(vi) A check deposited in a branch of the depositary bank and drawn on the same or another branch of the same bank if both branches are located in the same state or the same check processing region; and,

(vii) The lesser of—

(A) $100, or

(B) The aggregate amount deposited on any one banking day to all accounts of the customer by check or checks not subject to next-day availability under paragraphs (c)(1)(i) through (vi) of this section.

(2) Checks not deposited in person. A depositary bank shall make funds deposited in an account by check or checks available for withdrawal not later than the second business day after the banking day on which funds are deposited, in the case of a check deposited described in and that meets the requirements of paragraphs (c)(1)(ii), (iii), (iv), and (v), of this section, except that it is not deposited in person to an employee of the depositary bank.

(3) Special deposit slip. (i) As a condition to making the funds available for withdrawal in accordance with this section, a depositary bank may require that a state or local government check or a cashier's, certified, or teller's check be deposited with a special deposit slip or deposit envelope that identifies the type of check.

(ii) If a depositary bank requires the use of a special deposit slip or deposit envelope, the bank must either provide the special deposit slip or deposit envelope to its customers or inform its customers how the slip or envelope may be prepared or obtained and make the slip or envelope reasonably available.

§ 229.11 [Reserved]

§ 229.12 Availability schedule.

(a) Effective date. The availability schedule contained in this section is effective September 1, 1990.

(b) Local checks and certain other checks. Except as provided in paragraphs (d), (e), and (f) of this section, a depositary bank shall make funds deposited in an account by a check available for withdrawal not later than the second business day following the banking day on which funds are deposited, in the case of—

(1) A local check;

(2) A check drawn on the Treasury of the United States that is not governed by the availability requirements of §229.10(c);

(3) A U.S. Postal Service money order that is not governed by the availability requirements of §229.10(c); and

(4) A check drawn on a Federal Reserve Bank or Federal Home Loan Bank; a check drawn by a state or unit of general local government; or a cashier's, certified, or teller's check; if any check referred to in this paragraph (b)(4) is a local check that is not governed by the availability requirements of §229.10(c).

(c) Nonlocal checks—(1) In general. Except as provided in paragraphs (d), (e), and (f) of this section, a depositary bank shall make funds deposited in an account by a check available for withdrawal not later than the fifth business day following the banking day on which funds are deposited, in the case of—

(i) A nonlocal check; and

(ii) A check drawn on a Federal Reserve Bank or Federal Home Loan Bank; a check drawn by a state or unit of general local government; a cashier's, certified, or teller's check; or a check deposited in a branch of the depositary bank and drawn on the same or another branch of the same bank, if any check referred to in this paragraph (c)(1)(ii) is a nonlocal check that is not governed by the availability requirements of §229.10(c).

(2) Nonlocal checks specified in appendix B–2 to this part must be made available for withdrawal not later than the times prescribed in that appendix.

(d) Time period adjustment for withdrawal by cash or similar means. A depositary bank may extend by one business day the time that funds deposited in an account by one or more checks subject to paragraphs (b), (c), or (f) of this section are available for withdrawal by cash or similar means. Similar means include electronic payment, issuance of a cashier's or teller's check, or certification of a check, or other irrevocable commitment to pay, but do not include the granting of credit to a bank, a Federal Reserve Bank, or a
Federal Home Loan Bank that presents a check to the depositary bank for payment. A depositary bank shall, however, make $400 of these funds available for withdrawal by cash or similar means not later than 5:00 p.m. on the business day on which the funds are available under paragraphs (b), (c), or (f) of this section. This $400 is in addition to the $100 available under §229.10(c)(1)(vii).

(e) Extension of schedule for certain deposits in Alaska, Hawaii, Puerto Rico, and the U.S. Virgin Islands. The depositary bank may extend the time periods set forth in this section by one business day in the case of any deposit, other than a deposit described in §229.10, that is—

(1) Deposited in an account at a branch of a depositary bank if the branch is located in Alaska, Hawaii, Puerto Rico, or the U.S. Virgin Islands; and

(2) Deposited by a check drawn on or payable at or through a paying bank not located in the same state as the depositary bank.

(f) Deposits at nonproprietary ATMs. A depositary bank shall make funds deposited in an account at a nonproprietary ATM by cash or check available for withdrawal not later than the fifth business day following the banking day on which the funds are deposited.

§ 229.13 Exceptions.

(a) New accounts. For purposes of this paragraph, checks subject to §229.10(c)(1)(v) include traveler’s checks.

(1) A deposit in a new account—

(i) Is subject to the requirements of §229.10 (a) and (b) to make funds from deposits by cash or electronic payments available for withdrawal on the business day following the banking day of deposit or receipt;

(ii) Is subject to the requirements of §229.10(c)(1) (i) through (v) and §229.10(c)(2) only with respect to the first $5,000 of funds deposited on any one banking day; but the amount of the deposit in excess of $5,000 shall be available for withdrawal not later than the ninth business day following the banking day on which funds are deposited; and

(iii) Is not subject to the availability requirements of §§229.10(c)(1)(vi) and (vii) and 229.12.

(2) An account is considered a new account during the first 30 calendar days after the account is established. An account is not considered a new account if each customer on the account has had, within 30 calendar days before the account is established, another account at the depositary bank for at least 30 calendar days.

(b) Large deposits. Sections 229.10(c) and 229.12 do not apply to the aggregate amount of deposits by one or more checks to the extent that the aggregate amount is in excess of $5,000 on any one banking day. For customers that have multiple accounts at a depositary bank, the bank may apply this exception to the aggregate deposits to all accounts held by the customer, even if the customer is not the sole holder of the accounts and not all of the holders of the accounts are the same.

(c) Redeposited checks. Sections 229.10(c) and 229.12 do not apply to a check that has been returned unpaid and redeposited by the customer or the depositary bank. This exception does not apply—

(1) To a check that has been returned due to a missing indorsement and redeposited after the missing indorsement has been obtained, if the reason for return indicated on the check states that it was returned due to a missing indorsement; or

(2) To a check that has been returned because it was post dated, if the reason for return indicated on the check states that it was returned because it was post dated, and if the check is no longer post dated when redeposited.

(d) Repeated overdrafts. If any account or combination of accounts of a depositary bank’s customer has been repeatedly overdrawn, then for a period of six months after the last such overdraft, §§229.10(c) and 229.12 do not apply to any of the accounts. A depositary bank may consider a customer’s account to be repeatedly overdrawn if—
§ 229.13 12 CFR Ch. II (1–1–10 Edition)

(1) On six or more banking days within the preceding six months, the account balance is negative, or the account balance would have become negative if checks or other charges to the account had been paid; or

(2) On two or more banking days within the preceding six months, the account balance is negative, or the account balance would have become negative, in the amount of $5,000 or more, if checks or other charges to the account had been paid.

(e) Reasonable cause to doubt collectibility—(1) In general. Sections 229.10(c) and 229.12 do not apply to a check deposited in an account at a depositary bank if the depositary bank has reasonable cause to believe that the check is uncollectible from the paying bank.

Reasonable cause to believe a check is uncollectible requires the existence of facts that would cause a well-grounded belief in the mind of a reasonable person. Such belief shall not be based on the fact that the check is of a particular class or is deposited by a particular class of persons. The reason for the bank’s belief that the check is uncollectible shall be included in the notice required under paragraph (g) of this section.

(2) Overdraft and returned check fees. A depositary bank that extends the time when funds will be available for withdrawal as described in paragraph (e)(1) of this section, and does not furnish the depositor with written notice at the time of deposit shall not assess any fees for any subsequent overdrafts (including use of a line of credit) or return of checks of other debits to the account, if—

(i) The overdraft or return of the check would not have occurred except for the fact that the deposited funds were delayed under paragraph (e)(1) of this section; and

(ii) The deposited check was paid by the paying bank.

Notwithstanding the foregoing, the depositary bank may assess an overdraft or returned check fee if it includes a notice concerning overdraft and returned check fees with the notice of exception required in paragraph (g) of this section and, when required, refunds any such fees upon the request of the customer. The notice must state that the customer may be entitled to a refund of overdraft or returned check fees that are assessed if the check subject to the exception is paid and how to obtain a refund.

(f) Emergency conditions. Sections 229.10(c) and 229.12 do not apply to funds deposited by check in a depositary bank in the case of—

(1) An interruption of communications or computer or other equipment facilities;

(2) A suspension of payments by another bank;

(3) A war; or

(4) An emergency condition beyond the control of the depositary bank, if the depositary bank exercises such diligence as the circumstances require.

(g) Notice of exception—(1) In general. Subject to paragraphs (g)(2) and (g)(3) of this section, when a depositary bank extends the time when funds will be available for withdrawal based on the application of an exception contained in paragraphs (b) through (e) of this section, it must provide the depositor with a written notice.

(i) The notice shall include the following information—

(A) A number or code, which need not exceed four digits, that identifies the customer’s account;

(B) The date of the deposit;

(C) The amount of the deposit that is being delayed;

(D) The time period within which the funds will be available for withdrawal.

(ii) Timing of notice. The notice shall be provided to the depositor at the time of the deposit, unless the deposit is not made in person to an employee of the depositary bank, or, if the facts upon which a determination to invoke one of the exceptions in paragraphs (b) through (e) of this section to delay a deposit only become known to the depositary bank after the time of the deposit, if the notice is not given at the time of the deposit, the depositary bank shall mail or deliver the notice to the customer as soon as practicable, but no later than the first business day following the day the facts become known to the depositary bank, or the deposit is made, whichever is later.
(2) One-time exception notice. In lieu of providing notice pursuant to paragraph (g)(1) of this section, a depositary bank that extends the time when the funds deposited in a nonconsumer account will be available for withdrawal based on an exception contained in paragraph (b) or (c) of this section may provide a single notice to the customer that includes the following information—

(i) The reason(s) the exception may be invoked; and

(ii) The time period within which deposits subject to the exception generally will be available for withdrawal. This one-time notice shall be provided only if each type of exception cited in the notice will be invoked for most check deposits in the account to which the exception could apply. This notice shall be provided at or prior to the time notice must be provided under paragraph (g)(1)(iii) of this section.

(3) Notice of repeated overdrafts exception. In lieu of providing notice pursuant to paragraph (g)(1) of this section, a depositary bank that extends the time when funds deposited in an account will be available for withdrawal based on the exception contained in paragraph (d) of this section may provide a notice to the customer for each time period during which the exception will be in effect. The notice shall include the following information—

(i) The account number of the customer;

(ii) The fact that the availability of funds deposited in the customer’s account will be delayed because the repeated overdrafts exception will be invoked;

(iii) The time period within which deposits subject to the exception generally will be available for withdrawal; and

(iv) The time period during which the exception will apply.

This notice shall be provided at or prior to the time notice must be provided under paragraph (g)(1)(ii) of this section and only if the exception cited in the notice will be invoked for most check deposits in the account.

(4) Emergency conditions exception notice. When a depositary bank extends the time when funds will be available for withdrawal based on the application of the emergency conditions exception contained in paragraph (f) of this section, it must provide the depositor with notice in a reasonable form and within a reasonable time given the circumstances. The notice shall include the reason the exception was invoked and the time period within which funds shall be made available for withdrawal, unless the depositary bank, in good faith, does not know at the time the notice is given the duration of the emergency and, consequently, when the funds must be made available. The depositary bank is not required to provide a notice if the funds subject to the exception become available before the notice must be sent.

(5) Record retention. A depositary bank shall retain a record, in accordance with §229.21(g), of each notice provided pursuant to its application of the reasonable cause exception under paragraph (e) of this section, together with a brief statement of the facts giving rise to the bank’s reason to doubt the collectibility of the check.

(h) Availability of deposits subject to exceptions. (1) If an exception contained in paragraphs (b) through (f) of this section applies, the depositary bank may extend the time periods established under §229.10(c) and 229.12 by a reasonable period of time.

(2) If a depositary bank invokes an exception contained in paragraphs (b) through (e) of this section with respect to a check described in §229.10(c)(1)(i) through (v) or §229.10(c)(2), it shall make the funds available for withdrawal not later than a reasonable period after the day the funds would have been required to be made available had the check been subject to 229.12.

(3) If a depositary bank invokes an exception under paragraph (f) of this section based on an emergency condition, the depositary bank shall make the funds available for withdrawal not later than a reasonable period after the emergency has ceased or the period established in §229.10(c) and 229.12, whichever is later.

(4) For the purposes of this section, a “reasonable period” is an extension of up to one business day for checks described in §229.12(b)(1) through (4), and six business days
§ 229.14 Payment of interest.

(a) In general. A depositary bank shall begin to accrue interest or dividends on funds deposited in an interest-bearing account not later than the business day on which the depositary bank receives credit for the funds. For the purposes of this section, the depositary bank may—

(1) Rely on the availability schedule of its Federal Reserve Bank, Federal Home Loan Bank, or correspondent bank to determine the time credit is actually received; and

(2) Accrue interest or dividends on funds deposited in interest-bearing accounts by checks that the depositary bank sends to paying banks or subsequent collecting banks for payment or collection based on the availability of funds the depositary bank receives from the paying or collecting banks.

(b) Special rule for credit unions. Paragraph (a) of this section does not apply to any account at a bank described in § 229.2(e)(4), if the bank—

(1) Begins the accrual of interest or dividends at a later date than the date described in paragraph (a) of this section with respect to all funds, including cash, deposited in the account; and

(2) Provides notice of its interest or dividend payment policy in the manner required under § 229.16(d).

(c) Exception for checks returned unpaid. This subpart does not require a bank to pay interest or dividends on funds deposited by a check that is returned unpaid.

§ 229.15 General disclosure requirements.

(a) Form of disclosures. A bank shall make the disclosures required by this subpart clearly and conspicuously in writing. Disclosures, other than those posted at locations where employees accept consumer deposits and ATMs and the notice on preprinted deposit slips, must be in a form that the customer may keep. The disclosures shall be grouped together and shall not contain any information not related to the disclosures required by this subpart. If contained in a document that sets forth other account terms, the disclosures shall be highlighted within the document by, for example, use of a separate heading.

(b) Uniform reference to day of availability. In its disclosure, a bank shall describe funds as being available for withdrawal on “the business day after” the day of deposit. In this calculation, the first business day is the business day following the banking day the deposit was received, and the last business day is the day on which the funds are made available.

(c) Multiple accounts and multiple account holders. A bank need not give separate disclosures to each customer on a jointly held account.

(d) Dormant or inactive accounts. A bank need not give availability disclosures to a customer that holds a dormant or inactive account.

§ 229.16 Specific availability policy disclosure.

(a) General. To meet the requirements of a specific availability policy disclosure under §§229.17 and 229.18(d), a bank shall provide a disclosure describing the bank’s policy as to when funds deposited in an account are available for withdrawal. The disclosure must reflect the policy followed by the bank in most cases. A bank may impose longer delays on a case-by-case basis or by invoking one of the exceptions in §229.13, provided this is reflected in the disclosure.

(b) Content of specific availability policy disclosure. The specific availability policy disclosure shall contain the following, as applicable—

(1) A summary of the bank’s availability policy;

(2) A description of any categories of deposits or checks used by the bank when it delays availability (such as
Federal Reserve System § 229.16

local or nonlocal checks); how to determine the category to which a particular deposit or check belongs; and when each category will be available for withdrawal (including a description of the bank’s business days and when a deposit is considered received);

(3) A description of any of the exceptions in §229.13 that may be invoked by the bank, including the time following a deposit that funds generally will be available for withdrawal and a statement that the bank will notify the customer if the bank invokes one of the exceptions;

(4) A description, as specified in paragraph (c)(1) of this section, of any case-by-case policy of delaying availability that may result in deposited funds being available for withdrawal later than the time periods stated in the bank’s availability policy; and

(5) A description of how the customer can differentiate between a proprietary and a nonproprietary ATM, if the bank makes funds from deposits at nonproprietary ATMs available for withdrawal later than funds from deposits at proprietary ATMs.

(c) Longer delays on a case-by-case basis—(1) Notice in specific policy disclosure. A bank that has a policy of making deposited funds available for withdrawal sooner than required by this subpart may extend the time when funds are available up to the time periods allowed under this subpart on a case-by-case basis, provided the bank includes the following in its specific policy disclosure—

(i) A statement that the time when deposited funds are available for withdrawal may be extended in some cases, and the latest time following a deposit that funds will be available for withdrawal;

(ii) A statement that the bank will notify the customer if funds deposited in the customer’s account will not be available for withdrawal until later than the time periods stated in the bank’s availability policy; and

(iii) A statement that customers should ask if they need to be sure about when a particular deposit will be available for withdrawal.

(2) Notice at time of case-by-case delay—(i) In general. When a depository bank extends the time when funds will be available for withdrawal on a case-by-case basis, it must provide the depositor with a written notice. The notice shall include the following information—

(A) A number or code, which need not exceed four digits, that identifies the customer’s account.

(B) The date of the deposit;

(C) The amount of the deposit that is being delayed; and

(D) The day the funds will be available for withdrawal.

(ii) Timing of notice. The notice shall be provided to the depositor at the time of the deposit, unless the deposit is not made in person to an employee of the depository bank or the decision to extend the time when the deposited funds will be available is made after the time of the deposit. If notice is not given at the time of the deposit, the depository bank shall mail or deliver the notice to the customer not later than the first business day following the banking day the deposit is made.

(3) Overdraft and returned check fees. A depository bank that extends the time when funds will be available for withdrawal on a case-by-case basis and does not furnish the depositor with written notice at the time of deposit shall not assess any fees for any subsequent overdrafts (including use of a line of credit) or return of checks or other debits to the account, if—

1A bank that distinguishes in its disclosure between local and nonlocal checks based on the routing number on the check must disclose that certain checks, such as some credit union share drafts that are payable by one bank but payable through another bank, may be treated as local or nonlocal based upon the location of the bank by which they are payable and not on the basis of the location of the bank whose routing number appears on the check. A bank that makes funds from nonlocal checks available for withdrawal within the time periods required for local checks under §§229.12 and 229.13 is not required to provide this disclosure on payable-through checks to its customers. The statement concerning payable-through checks must describe how the customer can determine whether these checks will be treated as local or nonlocal, or state that special rules apply to such checks and that the customer may ask about the availability of these checks.
§ 229.17

(i) The overdraft or return of the check or other debit would not have occurred except for the fact that the deposited funds were delayed under paragraph (c)(1) of this section; and

(ii) The deposited check was paid by the paying bank.

Notwithstanding the foregoing, the depositary bank may assess an overdraft or returned check fee if it includes a notice concerning overdraft and returned check fees with the notice required in paragraph (c)(2) of this section, and, when required, refunds any such fees upon the request of the customer. The notice must state that the customer may be entitled to a refund of overdraft or returned check fees that are assessed if the check subject to the delay is paid and how to obtain a refund.

(d) Credit union notice of interest payment policy. If a bank described in §229.2(e)(4) begins to accrue interest or dividends on all deposits made in an interest-bearing account, including cash deposits, at a later time than the day specified in §229.14(a), the bank’s specific policy disclosures shall contain an explanation of when interest or dividends on deposited funds begin to accrue.

§ 229.18 Additional disclosure requirements.

(a) Deposit slips. A bank shall include on all preprinted deposit slips furnished to its customers a notice that deposits may not be available for immediate withdrawal.

(b) Locations where employees accept consumer deposits. A bank shall post in a conspicuous place in each location where its employees receive deposits to consumer accounts a notice that sets forth the time periods applicable to the availability of funds deposited in a consumer account.

(c) Automated teller machines. (1) A depositary bank shall post or provide a notice at each ATM location that funds deposited in the ATM may not be available for immediate withdrawal.

(2) A depositary bank that operates an off-premises ATM from which deposits are removed not more than two times each week, as described in §229.19(a)(4), shall disclose at or on the ATM the days on which deposits made at the ATM will be considered received.

(d) Upon request. A bank shall provide to any person, upon oral or written request, a notice containing the applicable specific availability policy disclosure described in §229.16.

(e) Changes in policy. A bank shall send a notice to holders of consumer accounts at least 30 days before implementing a change to the bank’s availability policy regarding such accounts, except that a change that expedites the availability of funds may be disclosed not later than 30 days after implementation.

§ 229.19 Miscellaneous.

(a) When funds are considered deposited. For the purposes of this subpart—

(1) Funds deposited at a staffed facility, ATM, or contractual branch are considered deposited when they are received at the staffed facility, ATM, or contractual branch;

(2) Funds mailed to the depositary bank are considered deposited on the day they are received by the depositary bank;

(3) Funds deposited to a night depositary, lock box, or similar facility are considered deposited on the day on which the deposit is removed from such facility and is available for processing by the depositary bank;

(4) Funds deposited at an ATM that is not on, or within 50 feet of, the premises of the depositary bank are considered deposited on the day the funds are removed from the ATM, if funds normally are removed from the ATM not more than two times each week; and

(5) Funds may be considered deposited on the next banking day, in the case of funds that are deposited—
(i) On a day that is not a banking day for the depositary bank; or

(ii) After a cut-off hour set by the depositary bank for the receipt of deposits of 2:00 p.m. or later, or, for the receipt of deposits at ATMs, contractual branches, or off-premise facilities, of 12:00 noon or later. Different cut-off hours later than these times may be established for the receipt of different types of deposits, or receipt of deposits at different locations.

(b) Availability at start of business day. Except as otherwise provided in §229.12(d), if any provision of this subpart requires that funds be made available for withdrawal on any business day, the funds shall be available for withdrawal by the later of:

(1) 9:00 a.m. (local time of the depositary bank); or

(2) The time the depositary bank’s teller facilities (including ATMs) are available for customer account withdrawals.

(c) Effect on policies of depositary bank. This part does not—

(1) Prohibit a depositary bank from making funds available to a customer for withdrawal in a shorter period of time than the time required by this subpart;

(2) Affect a depositary bank’s right—

(i) To accept or reject a check for deposit;

(ii) To revoke any settlement made by the depositary bank with respect to a check accepted by the bank for deposit, to charge back the customer’s account for the amount of a check based on the return of the check or receipt of a notice of nonpayment of the check, or to claim a refund of such credit; and

(iii) To charge back funds made available to its customer for an electronic payment for which the bank has not received payment in actually and finally collected funds;

(3) Require a depositary bank to open or otherwise to make its facilities available for customer transactions on a given business day; or

(4) Supercede any policy of a depositary bank that limits the amount of cash a customer may withdraw from its account on any one day, if that policy—

(i) Is not dependent on the time the funds have been deposited in the account, as long as the funds have been on deposit for the time period specified in §§229.10, 229.12, or 229.13; and

(ii) In the case of withdrawals made in person to an employee of the depositary bank—

(A) Is applied without discrimination to all customers of the bank; and

(B) Is related to security, operating, or bonding requirements of the depositary bank.

(d) Use of calculated availability. A depositary bank may provide availability to its nonconsumer accounts based on a sample of checks that represents the average composition of the customer’s deposits, if the terms for availability based on the sample are equivalent to or more prompt than the availability requirements of this subpart.

(e) Holds on other funds. (1) A depositary bank that receives a check for deposit in an account may not place a hold on any funds of the customer at the bank, where—

(i) The amount of funds that are held exceeds the amount of the check; or

(ii) The funds are not made available for withdrawal within the times specified in §§229.10, 229.12, and 229.13.

(2) A depositary bank that cashes a check for a customer over the counter, other than a check drawn on the depositary bank, may not place a hold on funds in an account of the customer at the bank, if—

(i) The amount of funds that are held exceeds the amount of the check; or

(ii) The funds are not made available for withdrawal within the times specified in §§229.10, 229.12, and 229.13.

(f) Employee training and compliance. Each bank shall establish procedures to ensure that the bank complies with the requirements of this subpart, and shall provide each employee who performs duties subject to the requirements of this subpart with a statement of the procedures applicable to that employee.

(g) Effect of merger transaction—(1) In general. For purposes of this subpart, except for the purposes of the new accounts exception of §229.13(a), and when funds are considered deposited under §229.19(a), two or more banks
§ 229.20 Relation to state law.

(a) In general. Any provision of a law or regulation of any state in effect on or before September 1, 1989, that requires funds deposited in an account at a bank chartered by the state to be made available for withdrawal in a shorter time than the time provided in subpart B, and, in connection therewith, subpart A, shall—

(1) Supersede the provisions of the EFA Act and subpart B, and, in connection therewith, subpart A, to the extent the provisions relate to the time by which funds deposited or received for deposit in an account are available for withdrawal; and

(2) Apply to all federally insured banks located within the state.

No amendment to a state law or regulation governing the availability of funds that becomes effective after September 1, 1989, shall supersede the EFA Act and subpart B, and, in connection therewith, subpart A, but unamended provisions of state law shall remain in effect.

(b) Preemption of inconsistent law. Except as provided in paragraph (a), the EFA Act and subpart B, and, in connection therewith, subpart A, supersedes any provision of inconsistent state law.

(c) Standards for preemption. A provision of a state law in effect on or before September 2, 1989, is not inconsistent with the EFA Act, or subpart B, or in connection therewith, subpart A, if it requires that funds shall be available in a shorter period of time than the time provided in this subpart. Inconsistency with the EFA Act and subpart B, and in connection therewith, subpart A, may exist when state law—

(1) Permits a depository bank to make funds deposited in an account by cash, electronic payment, or check available for withdrawal in a longer period of time than the maximum period of time permitted under subpart B, and, in connection therewith, subpart A; or

(2) Provides for disclosures or notices concerning funds availability relating to accounts.

(d) Preemption determinations. The Board may determine, upon the request of any state, bank, or other interested party, whether the EFA Act and subpart B, and, in connection therewith, subpart A, preempt provisions of state laws relating to the availability of funds.

(e) Procedures for preemption determinations. A request for a preemption determination shall include the following—

(1) A copy of the full text of the state law in question, including any implementing regulations or judicial interpretations of that law; and

(2) A comparison of the provisions of state law with the corresponding provisions in the EFA Act and subparts A and B of this part, together with a discussion of the reasons why specific provisions of state law are either consistent or inconsistent with corresponding sections of the EFA Act and subparts A and B of this part.

A request for a preemption determination shall be addressed to the Secretary, Board of Governors of the Federal Reserve System.

§ 229.21 Civil liability.

(a) Civil liability. A bank that fails to comply with any requirement imposed under subpart B, and in connection therewith, subpart A, of this part or any provision of state law that supersedes any provision of subpart B, and in connection therewith, subpart A, with respect to any person is liable to that person in an amount equal to the sum of—

(1) Any actual damage sustained by that person as a result of the failure;
(2) Such additional amount as the court may allow, except that—
   (i) In the case of an individual action, liability under this paragraph shall not be less than $100 nor greater than $1,000, and
   (ii) In the case of a class action—
      (A) No minimum recovery shall be applicable to each member of the class; and
      (B) The total recovery under this paragraph in any class action or series of class actions arising out of the same failure to comply by the same depositary bank shall not be more than the lesser of $500,000 or 1 percent of the net worth of the bank involved; and
   (3) In the case of a successful action to enforce the foregoing liability, the costs of the action, together with a reasonable attorney’s fee as determined by the court.

(b) Class action awards. In determining the amount of any award in any class action, the court shall consider, among other relevant factors—
   (1) The amount of any damages awarded;
   (2) The frequency and persistence of failures of compliance;
   (3) The resources of the bank;
   (4) The number of persons adversely affected; and
   (5) The extent to which the failure of compliance was intentional.

(c) Bona fide errors—(1) General rule. A bank is not liable in any action brought under this section for a violation of this subpart if the bank demonstrates by a preponderance of the evidence that the violation was not intentional and resulted from a bona fide error, notwithstanding the maintenance of procedures reasonably adapted to avoid any such error.
   (2) Examples. Examples of a bona fide error include clerical, calculation, computer malfunction and programming, and printing errors, except that an error of legal judgment with respect to the bank’s obligation under this subpart is not a bona fide error.

(d) Jurisdiction. Any action under this section may be brought in any United States district court or in any other court of competent jurisdiction, and shall be brought within one year after the date of the occurrence of the violation involved.

(e) Reliance on Board rulings. No provision of this subpart imposing any liability shall apply to any act done or omitted in good faith in conformity with any rule, regulation, or interpretation thereof by the Board, regardless of whether such rule, regulation, or interpretation is amended, rescinded, or determined by judicial or other authority to be invalid for any reason after the act or omission has occurred.

(f) Exclusions. This section does not apply to claims that arise under subpart C of this part or to actions for wrongful dishonor.

(g) Record retention. (1) A bank shall retain evidence of compliance with the requirements imposed by this subpart for not less than two years. Records may be stored by use of microfiche, microfilm, magnetic tape, or other methods capable of accurately retaining and reproducing information.
   (2) If a bank has actual notice that it is being investigated, or is subject to an enforcement proceeding by an agency charged with monitoring that bank’s compliance with the EFA Act and this subpart, or has been served with notice of an action filed under this section, it shall retain the records pertaining to the action or proceeding pending final disposition of the matter, unless an earlier time is allowed by order of the agency or court.

§ 229.30 Paying bank’s responsibility for return of checks

(a) Return of checks. If a paying bank determines not to pay a check, it shall return the check in an expeditious manner as provided in either paragraph (a)(1) or (a)(2) of this section.

(1) Two-day/four-day test. A paying bank returns a check in an expeditious manner if it sends the returned check to the depositary bank not later than 4:00 p.m. (local time of the depositary bank) of—
   (i) The second business day following the banking day on which the check was presented to the paying bank, if the paying bank is located in the same

Subpart C—Collection of Checks
check processing region as the depositary bank; or
(ii) The fourth business day following the banking day on which the check was presented to the paying bank, if the paying bank is not located in the same check processing region as the depositary bank.

If the last business day on which the paying bank may deliver a returned check to the depositary bank is not a banking day for the depositary bank, the paying bank meets the two-day/four-day test if the returned check is received by the depositary bank on or before the depositary bank’s next banking day.

(2) Forward collection test. A paying bank also returns a check in an expeditious manner if it sends the returned check in a manner that a similarly situated bank would normally handle a check—
(i) Of similar amount as the returned check;
(ii) Drawn on the depositary bank; and
(iii) Deposited for forward collection in the similarly situated bank by noon on the banking day following the banking day on which the check was presented to the paying bank.

Subject to the requirement for expeditious return, a paying bank may send a returned check to the depositary bank, or to any other bank agreeing to handle the returned check expeditiously under §229.31(a). A paying bank may convert a check to a qualified returned check. A qualified returned check shall be encoded in magnetic ink with the routing number of the depositary bank, the amount of the returned check, and a “2” in the case of an original check (or a “5” in the case of a substitute check) in position 44 of the qualified return MICR line as a return identifier. A qualified returned original check shall be encoded in accordance with ANSI X9.13, and a qualified returned substitute check shall be encoded in accordance with ANSI X9.100-140. This paragraph does not affect a paying bank’s responsibility to return a check within the deadlines required by the U.C.C., Regulation J (12 CFR part 210), or §229.30(c).

§229.30
12 CFR Ch. II (1–1–10 Edition)

(b) Unidentifiable depositary bank. A paying bank that is unable to identify the depositary bank with respect to a check may send the returned check to any bank that handled the check for forward collection even if that bank does not agree to handle the check expeditiously under §229.31(a). A paying bank sending a returned check under this paragraph to a bank that handled the check for forward collection must advise the bank to which the check is sent that the paying bank is unable to identify the depositary bank. The expeditious return requirements in §229.30(a) do not apply to the paying bank’s return of a check under this paragraph.

(c) Extension of deadline. The deadline for return or notice of nonpayment under the U.C.C. or Regulation J (12 CFR part 210), or §229.36(f)(2) is extended to the time of dispatch of such return or notice of nonpayment where a paying bank uses a means of delivery that would ordinarily result in receipt by the bank to which it is sent—
(1) On or before the receiving bank’s next banking day following the otherwise applicable deadline by the earlier of the close of that banking day or a cutoff hour of 2 p.m. or later set by the receiving bank under U.C.C. 4–108, for all deadlines other than those described in paragraph (c)(2) of this section; this deadline is extended further if a paying bank uses a highly expeditious means of transportation, even if this means of transportation would ordinarily result in delivery after the receiving bank’s next cutoff hour or banking day referred to above; or
(2) Prior to the cut-off hour for the next processing cycle (if sent to a returning bank), or on the next banking day (if sent to the depositary bank), for a deadline falling on a Saturday that is a banking day (as defined in the applicable U.C.C.) for the paying bank.

(d) Identification of returned check. A paying bank returning a check shall clearly indicate on the front of the check that it is a returned check and the reason for return. If the check is a substitute check, the paying bank shall place this information within the image of the original check that appears on the front of the substitute check.

(e) Depositary bank without accounts.

872
paragraph (a) of this section do not apply to checks deposited in a depository bank that does not maintain accounts.

(f) Notice in lieu of return. If a check is unavailable for return, the paying bank may send in its place a copy of the front and back of the returned check, or, if no such copy is available, a written notice of nonpayment containing the information specified in §229.33(b). The copy or notice shall clearly state that it constitutes a notice in lieu of return. A notice in lieu of return is considered a returned check subject to the expedited return requirements of this section and to the other requirements of this subpart.

(g) Reliance on routing number. A paying bank may return a returned check based on any routing number designating the depositary bank appearing on the returned check in the depositary bank's indorsement.

§229.31 Returning bank's responsibility for return of checks.

(a) Return of checks. A returning bank shall return a returned check in an expedited manner as provided in either paragraph (a)(1) or (a)(2) of this section.

(1) Two-day/four-day test. A returning bank returns a check in an expedited manner if it sends the returned check in a manner such that the check would normally be received by the depositary bank not later than 4:00 p.m. (local time) of—

(i) The second business day following the banking day on which the check was presented to the paying bank if the paying bank is located in the same check processing region as the depositary bank; or

(ii) The fourth business day following the banking day on which the check was presented to the paying bank if the paying bank is not located in the same check processing region as the depositary bank.

If the last business day on which the returning bank may deliver a returned check to the depositary bank is not a banking day for the depositary bank, the returning bank meets this requirement if the returned check is received by the depositary bank on or before the depositary bank's next banking day.

(2) Forward collection test. A returning bank also returns a check in an expedited manner if it sends the returned check in a manner that a similarly situated bank would normally handle a check—

(i) Of similar amount as the returned check;

(ii) Drawn on the depositary bank; and

(iii) Received for forward collection by the similarly situated bank at the time the returning bank received the returned check, except that a returning bank may set a cut-off hour for the receipt of returned checks that is earlier than the similarly situated bank's cut-off hour for checks received for forward collection, if the cut-off hour is not earlier than 2:00 p.m.

Subject to the requirement for expedited return, the returning bank may send the returned check to the depositary bank, or to any bank agreeing to handle the returned check expeditiously under §229.31(a). The returning bank may convert the returned check to a qualified returned check. A qualified returned check shall be encoded in magnetic ink with the routing number of the depositary bank, the amount of the returned check, and a "2" in the case of an original check (or a "5" in the case of a substitute check) in position 44 of the qualified return MICR line as a return identifier. A qualified returned original check shall be encoded in accordance with ANS X9.13, and a qualified returned substitute check shall be encoded in accordance with ANS X9.100–140. The time for expedited return under the forward collection test, and the deadline for return under the U.C.C. and Regulation J (12 CFR part 210), are extended by one business day if the returning bank converts a returned check to a qualified returned check. This extension does not apply to the two-day/four-day test specified in paragraph (a)(1) of this section or when a returning bank is returning a check directly to the depositary bank.
§ 229.32 Depositary bank's responsibility for returned checks.

(a) Acceptance of returned checks. A depositary bank shall accept returned checks and written notices of non-payment:

(1) At a location at which presentation of checks for forward collection is requested by the depositary bank; and

(2) (i) At a branch, head office, or other location consistent with the name and address of the bank in its indorsement on the check; (ii) If no address appears in the indorsement, at a branch or head office associated with the routing number of the bank in its indorsement on the check; (iii) If the address in the indorsement is not in the same check processing region as the address associated with the routing number of the bank in its indorsement on the check; or (iv) If no routing number or address appears in its indorsement on the check, at any branch or head office of the bank.

(b) Payment. A depositary bank shall pay the returning or paying bank returning the check to it for the amount of the check prior to the close of business on the banking day on which it received the check ("payment date") by—

(1) At a location at which presentation of checks for forward collection is requested by the depositary bank; and

(2) At a branch, head office, or other location consistent with the name and address of the bank in its indorsement on the check; (i) If no address appears in the indorsement, at a branch or head office associated with the routing number of the bank in its indorsement on the check; (ii) If the address in the indorsement is not in the same check processing region as the address associated with the routing number of the bank in its indorsement on the check; or (iii) If no routing number or address appears in its indorsement on the check, at any branch or head office of the bank.

A depositary bank may require that returned checks be separated from forward collection checks.

(2) A prior collecting bank, if the returning bank was a collecting bank with respect to the returned check; even if that collecting bank does not agree to handle the returned check expeditiously under § 229.31(a).

A returning bank sending a returned check under this paragraph must advise the bank to which the check is sent that the returning bank is unable to identify the depositary bank. The expeditious return requirements in paragraph (a) of this section do not apply to return of a check under this paragraph. A returning bank that receives a returned check from a paying bank under § 229.30(b), or from a returning bank under this paragraph, but that is able to identify the depositary bank, must thereafter return the check expeditiously to the depositary bank.

(c) Settlement. A returning bank shall settle with a bank sending a returned check to it for return by the same means that it settles or would settle with the sending bank for a check received for forward collection drawn on the depositary bank. This settlement is final when made.

(d) Charges. A returning bank may impose a charge on a bank sending a returned check for handling the returned check.

(e) Depositary bank without accounts. The expeditious return requirements of paragraph (a) of this section do not apply to checks deposited with a depositary bank that does not maintain accounts.

(f) Notice in lieu of return. If a check is unavailable for return, the returning bank may send in its place a copy of the front and back of the returned check, or, if no copy is available, a written notice of nonpayment containing the information specified in § 229.33(b). The copy or notice shall clearly state that it constitutes a notice in lieu of return. A notice in lieu of return is considered a returned check subject to the expeditious return requirements of this section and to the other requirements of this subpart.

(g) Reliance on routing number. A returning bank may return a returned check based on any routing number designating the depositary bank appearing on the returned check in the depositary bank's indorsement or in magnetic ink on a qualified returned check.

Federal Reserve System § 229.33

(1) Debit to an account of the depository bank on the books of the returning or paying bank;
(2) Cash;
(3) Wire transfer; or
(4) Any other form of payment acceptable to the returning or paying bank;

provided that the proceeds of the payment are available to the returning or paying bank in cash or by credit to an account of the returning or paying bank on or as of the payment date. If the payment date is not a banking day for the returning or paying bank or the depositary bank is unable to make the payment on the payment date, payment shall be made by the next day that is a banking day for the returning or paying bank. These payments are final when made.

(c) Misrouted returned checks and written notices of nonpayment.

If a bank receives a returned check or written notice of nonpayment on the basis that it is the depositary bank, and the bank determines that it is not the depositary bank with respect to the check or notice, it shall either promptly send the returned check or notice to the depositary bank directly or by means of a returning bank agreeing to handle the returned check expeditiously under § 229.31(a), or send the check or notice back to the bank from which it was received.

(d) Charges. A depositary bank may not impose a charge for accepting and paying checks being returned to it.

§ 229.33 Notice of nonpayment.

(a) Requirement. If a paying bank determines not to pay a check in the amount of $2,500 or more, it shall provide notice of nonpayment to the depositary bank by 4:00 p.m. (local time) on the second business day following the banking day on which the check was presented to the paying bank. If the day the paying bank is required to provide notice is not a banking day for the depositary bank, receipt of notice on the depositary bank’s next banking day constitutes timely notice. Notice may be provided by any reasonable means, including the returned check, a writing (including a copy of the check), telephone, Fedwire, telex, or other form of telegraph.

(b) Content of notice. Notice must include the—
(1) Name and routing number of the paying bank;
(2) Name of the payee(s);
(3) Amount;
(4) Date of the indorsement of the depositary bank;
(5) Account number of the customer(s) of the depositary bank;
(6) Branch name or number of the depositary bank from its indorsement;
(7) Trace number associated with the indorsement of the depositary bank; and
(8) Reason for nonpayment.

The notice may include other information from the check that may be useful in identifying the check being returned and the customer, and, in the case of a written notice, must include the name and routing number of the depositary bank from its indorsement. If the paying bank is not sure of an item of information, it shall include the information required by this paragraph to the extent possible, and identify any item of information for which the bank is not sure of the accuracy.

(c) Acceptance of notice. The depositary bank shall accept notices during its banking day—
(1) Either at the telephone or telegraph number of its return check unit indicated in the indorsement, or, if no such number appears in the indorsement or if the number is illegible, at the general purpose telephone or telegraph number of its head office or the branch indicated in the indorsement; and
(2) At any other number held out by the bank for receipt of notice of nonpayment, and, in the case of written notice, as specified in § 229.32(a).

(d) Notification to customer. If the depositary bank receives a returned check or notice of nonpayment, it shall send or give notice to its customer of the facts by midnight of the banking day following the banking day on which it received the returned check or notice, or within a longer reasonable time.

(e) Depositary bank without accounts. The requirements of this section do not
§ 229.34 Warranties.

(a) Warranties. Each paying bank or returning bank that transfers a returned check and receives a settlement or other consideration for it warrants to the transferee returning bank, to any subsequent returning bank, to the depositary bank, and to the owner of the check, that—

(1) The paying bank, or in the case of a check payable by a bank and payable through another bank, the bank by which the check is payable, returned the check within its deadline under the U.C.C., Regulation J (12 CFR part 210), or §229.30(c) of this part;

(2) It is authorized to return the check;

(3) The check has not been materially altered; and

(4) In the case of a notice in lieu of return, the original check has not and will not be returned.

These warranties are not made with respect to checks drawn on the Treasury of the United States, U.S. Postal Service money orders, or checks drawn on a state or a unit of general local government that are not payable through or at a bank.

(b) Warranty of notice of nonpayment. Each paying bank that gives a notice of nonpayment warrants to the transferee bank, to any subsequent collecting bank, and to the owner of the check that—

(1) The paying bank, or in the case of a check payable by a bank and payable through another bank, the bank by which the check is payable, returned or will return the check within its deadline under the U.C.C., Regulation J (12 CFR part 210), or §229.30(c) of this part;

(2) It is authorized to send the notice; and

(3) The check has not been materially altered.

These warranties are not made with respect to checks drawn on a state or a unit of general local government that are not payable through or at a bank.

(c) Warranty of settlement amount, encoding, and offset. (1) Each bank that presents one or more checks to a paying bank and in return receives a settlement or other consideration warrants to the paying bank that the total amount of the checks presented is equal to the total amount of the settlement demanded by the presenting bank from the paying bank.

(2) Each bank that transfers one or more checks or returned checks to a collecting, returning, or depositary bank and in return receives a settlement or other consideration warrants to the transferee bank that the accompanying information, if any, accurately indicates the total amount of the checks or returned checks transferred.

(3) Each bank that presents or transfers a check or returned check warrants to any bank that subsequently handles it that, at the time of presentation or transfer, the information encoded after issue in magnetic ink on the check or returned check is correct. For purposes of this paragraph, the information encoded after issue on the check or returned check includes any information placed in the MICR line of a substitute check that represents that check or returned check.

(4) If a bank settles with another bank for checks presented, or for returned checks for which it is the depositary bank, in amount exceeding the total amount of the checks, the settling bank may set off the excess settlement amount against subsequent settlements for checks presented, or for returned checks for which it is the depositary bank, that it receives from the other bank.

(d) Transfer and presentment warranties with respect to a remotely created check. (1) A bank that transfers or presents a remotely created check and receives a settlement or other consideration warrants to the transferee bank, any subsequent collecting bank, and the paying bank that the person on whose account the remotely created check is drawn authorized the issuance of the check in the amount stated on the check and to the payee stated on the check. For purposes of this paragraph (d)(1), “account” includes an account as defined in §229.2(a) as well as...
§ 229.36 Presentment and issuance of checks.

(a) Payable through and payable at checks. A check payable at or through a paying bank is considered to be drawn on that bank for purposes of the expeditious return and notice of non-payment requirements of this subpart.
§ 229.36

(b) Receipt at bank office or processing center. A check is considered received by the paying bank when it is received:

(1) At a location to which delivery is requested by the paying bank;

(2) At an address of the bank associated with the routing number on the check, whether in magnetic ink or in fractional form;

(3) At any branch or head office, if the bank is identified on the check by name without address; or

(4) At a branch, head office, or other location consistent with the name and address of the bank on the check if the bank is identified on the check by name and address.

(c) [Reserved]

(d) Liability of bank during forward collection. Settlements between banks for the forward collection of a check are final when made; however, a collecting bank handling a check for forward collection may be liable to a prior collecting bank, including the depositary bank, and the depositary bank’s customer.

(e) Issuance of payable-through checks. (1) A bank that arranges for checks payable by it to be payable through another bank shall require that the following information be printed conspicuously on the face of each check:

(i) The name, location, and first four digits of the nine-digit routing number of the bank by which the check is payable; and

(ii) The words “payable through” followed by the name of the payable-through bank.

(2) A bank is responsible for damages under §229.38 to the extent that a check payable by it and not payable through another bank is labelled as provided in this section.

(f) Same-day settlement. (1) A check is considered presented, and a paying bank must settle for or return the check pursuant to paragraph (f)(2) of this section, if a presenting bank delivers the check in accordance with reasonable delivery requirements established by the paying bank and demands payment under this paragraph (f)—

(i) At a location designated by the paying bank for receipt of checks under this paragraph (f) that is in the check processing region consistent with the routing number encoded in magnetic ink on the check and at which the paying bank would be considered to have received the check under paragraph (b) of this section or, if no location is designated, at any location described in paragraph (b) of this section; and

(ii) By 8 a.m. on a business day (local time of the location described in paragraph (f)(1)(i) of this section).

A paying bank may require that checks presented for settlement pursuant to this paragraph (f)(1) be separated from other forward-collection checks or returned checks.

(2) If presentment of a check meets the requirements of paragraph (f)(1) of this section, the paying bank is accountable to the presenting bank for the amount of the check unless, by the close of Fedwire on the business day it receives the check, it either:

(i) Settles with the presenting bank for the amount of the check by credit to an account at a Federal Reserve Bank designated by the presenting bank; or

(ii) Returns the check.

(3) Notwithstanding paragraph (f)(2) of this section, if a paying bank closes on a business day and receives presentment of a check on that day in accordance with paragraph (f)(1) of this section, the paying bank is accountable to the presenting bank for the amount of the check unless, by the close of Fedwire on its next banking day, it either:

(i) Settles with the presenting bank for the amount of the check by credit to an account at a Federal Reserve Bank designated by the presenting bank; or

(ii) Returns the check.

If the closing is voluntary, unless the paying bank settles for or returns the check in accordance with paragraph (f)(2) of this section, it shall pay interest compensation to the presenting bank for each day after the business day on which the check was presented until the paying bank settles for the check, including the day of settlement.

§ 229.37 Variation by agreement.

The effect of the provisions of subpart C may be varied by agreement, except that no agreement can disclaim the responsibility of a bank for its own lack of good faith or failure to exercise ordinary care, or can limit the measure of damages for such lack or failure; but the parties may determine by agreement the standards by which such responsibility is to be measured if such standards are not manifestly unreasonable.

§ 229.38 Liability.

(a) Standard of care; liability; measure of damages. A bank shall exercise ordinary care and act in good faith in complying with the requirements of this subpart. A bank that fails to exercise ordinary care or act in good faith under this subpart may be liable to the depositary bank, the depositary bank’s customer, the owner of a check, or another party to the check. The measure of damages for failure to exercise ordinary care is the amount of the loss incurred, up to the amount of the check, reduced by the amount of the loss that party would have incurred even if the bank had exercised ordinary care. A bank that fails to act in good faith under this subpart may be liable for other damages, if any, suffered by the party as a proximate consequence. Subject to a bank’s duty to exercise ordinary care or act in good faith in choosing the means of return or notice of nonpayment, the bank is not liable for the insolvency, neglect, misconduct, mistake, or default of another bank or person, or for loss or destruction of a check or notice of nonpayment in transit or in the possession of others. This section does not affect a paying bank’s liability to its customer under the U.C.C. or other law.

(b) Paying bank’s failure to make timely return. If a paying bank fails both to comply with §229.30(a) and to comply with the deadline for return under the U.C.C., Regulation J (12 C.F.R. part 210), or §229.30(c) in connection with a single nonpayment of a check, the paying bank shall be liable under either §229.30(a) or such other provision, but not both.

(c) Comparative negligence. If a person, including a bank, fails to exercise ordinary care or act in good faith under this subpart in indorsing a check (§229.35), accepting a returned check or notice of nonpayment (§§229.32(a) and 229.33(c)), or otherwise, the damages incurred by that person under §229.38(a) shall be diminished in proportion to the amount of negligence or bad faith attributable to that person.

(d) Responsibility for certain aspects of checks—(1) A paying bank, or in the case of a check payable through the paying bank and payable by another bank, the bank by which the check is payable, is responsible for damages under paragraph (a) of this section to the extent that the condition of the check when issued by it or its customer adversely affects the ability of a bank to indorse the check legibly in accordance with §229.35. A depositary bank is responsible for damages under paragraph (a) of this section to the extent that the condition of the back of a check arising after the issuance of the check and prior to acceptance of the check by it adversely affects the ability of a bank to indorse the check legibly in accordance with §229.35. A reconverting bank is responsible for damages under paragraph (a) of this section to the extent that the condition of the back of a substitute check transferred, presented, or returned by it—

(i) Adversely affects the ability of a subsequent bank to indorse the check legibly in accordance with §229.35; or

(ii) Causes an indorsement that previously was applied in accordance with §229.35 to become illegible.

NOTE: Responsibility under this paragraph (d) shall be treated as negligence of the paying bank, depositary bank, or reconverting bank for purposes of paragraph (c) of this section.

(2) Responsibility for payable through checks. In the case of a check that is payable by a bank and payable through a paying bank located in a different check processing region than the bank by which the check is payable, the bank by which the check is payable is responsible for damages under paragraph (a) of this section, to the extent that the check is not returned to the depositary bank through the payable through bank as quickly as the check
§ 229.39 Insolvency of bank.

(a) Duty of receiver. A check or returned check in, or coming into, the possession of a paying, collecting, depositary, or returning bank that suspends payment, and which is not paid, shall be returned by the receiver, trustee, or agent in charge of the closed bank to the bank or customer that transferred the check to the closed bank.

(b) Preference against paying or depositary bank. If a paying bank finally pays a check, or if a depositary bank becomes obligated to pay a returned check, and suspends payment without making a settlement for the check or returned check with the prior bank that is or becomes final, the prior bank has a preferred claim against the paying bank or the depositary bank.

(c) Preference against collecting, paying, or returning bank. If a collecting, paying, or returning bank receives settlement from a subsequent bank for a check or returned check, which settlement is or becomes final, and suspends payments without making a settlement for the check with the prior bank, which is or becomes final, the prior bank has a preferred claim against the collecting or returning bank.

(d) Preference against presenting bank. If a paying bank settles with a presenting bank for one or more checks, and if the presenting bank breaches a warranty specified in §229.34(c)(1) or (3) with respect to those checks and suspends payments before satisfying the paying bank’s warranty claim, the paying bank has a preferred claim against the presenting bank for the amount of the warranty claim.

(e) Finality of settlement. If a paying or depositary bank gives, or a collecting, paying, or returning bank gives or receives, a settlement for a check or returned check and thereafter suspends payment, the suspension does not prevent or interfere with the settlement becoming final if such finality occurs automatically upon the lapse of a certain time or the happening of certain events.

§ 229.40 Effect of merger transaction.

(a) In general. For purposes of this subpart, two or more banks that have engaged in a merger transaction may be considered to be separate banks for a period of one year following the consummation of the merger transaction.
(b) Merger transactions on or after July 1, 1998, and before March 1, 2000. If banks have consummated a merger transaction on or after July 1, 1998, and before March 1, 2000, the merged banks may be considered separate banks until March 1, 2001.

[Reg. CC, 53 FR 14433, May 27, 1988, as amended at 64 FR 14577, Mar. 26, 1999]

§ 229.41 Relation to State law.
The provisions of this subpart supersede any inconsistent provisions of the U.C.C. as adopted in any state, or of any other state law, but only to the extent of the inconsistency.

§ 229.42 Exclusions.
The expeditious-return (§§ 229.30(a) and 229.31(a)), notice-of-nonpayment (§ 229.33), and same-day settlement (§ 229.36(f)) requirements of this subpart do not apply to a check drawn upon the United States Treasury, to a U.S. Postal Service money order, or to a check drawn on a state or a unit of general local government that is not payable through or at a bank.

Subpart D—Substitute Checks

SOURCE: 69 FR 47311, Aug. 4, 2004, unless otherwise noted.

§ 229.51 General provisions governing substitute checks.

(a) Legal equivalence. A substitute check for which a bank has provided the warranties described in §229.52 is the legal equivalent of an original check for all persons and all purposes, including any provision of federal or state law, if the substitute check—

(1) Accurately represents all of the information on the front and back of the original check as of the time the original check was truncated; and

(2) Bears the legend, "This is a legal copy of your check. You can use it the same way you would use the original check."

(b) Reconstituting bank duties. A bank shall ensure that a substitute check for which it is the reconverting bank—

(1) Bears all indorsements applied by parties that previously handled the check in any form (including the original check, a substitute check, or another paper or electronic representation of such original check or substitute check) for forward collection or return;

(2) Identifies the reconverting bank in a manner that preserves any previous reconverting bank identifications, in accordance with ANSI X9.100-140 and appendix D of this part; and

(3) Identifies the bank that truncated the original check, in accordance with ANSI X9.100-140 and appendix D of this part.
§ 229.52 Substitute check warranties.

(a) Content and provision of substitute check warranties. A bank that transfers, presents, or returns a substitute check (or a paper or electronic representation of a substitute check) for which it receives consideration warrants to the parties listed in paragraph (b) of this section that—

(1) The substitute check meets the requirements for legal equivalence described in §229.51(a)(1)–(2); and

(2) No depositary bank, drawer, drawee, or indorser will receive presentment or return of, or otherwise be charged for, the substitute check, the original check, or a paper or electronic representation of the substitute check or original check such that that person will be asked to make a payment based on a check that it already has paid.

(b) Warranty recipients. A bank makes the warranties described in paragraph (a) of this section to the person to which the bank transfers, presents, or returns the substitute check or a paper or electronic representation of such substitute check and to any subsequent recipient, which could include a collecting or returning bank, the depositary bank, the drawer, the drawee, the payee, the depositor, and any indorser. These parties receive the warranties regardless of whether they received the substitute check or a paper or electronic representation of a substitute check.

§ 229.53 Substitute check indemnity.

(a) Scope of indemnity. A bank that transfers, presents, or returns a substitute check or a paper or electronic representation of a substitute check for which it receives consideration shall indemnify the recipient and any subsequent recipient (including a collecting or returning bank, the depositary bank, the drawer, the drawee, the payee, the depositor, and any indorser) for any loss incurred by any recipient of a substitute check if that loss occurred due to the receipt of a substitute check instead of the original check.

(b) Indemnity amount—(1) In general. Unless otherwise indicated by paragraph (b)(2) or (b)(3) of this section, the amount of the indemnity under paragraph (a) of this section is as follows:

(i) If the loss resulted from a breach of a substitute check warranty provided under §229.52, the amount of the indemnity shall be the amount of any loss (including interest, costs, reasonable attorney’s fees, and other expenses of representation) proximately caused by the warranty breach.

(ii) If the loss did not result from a breach of a substitute check warranty provided under §229.52, the amount of the indemnity shall be the sum of—

(A) The amount of the loss, up to the amount of the substitute check; and

(B) Interest and expenses (including costs and reasonable attorney’s fees and other expenses of representation) related to the substitute check.

(2) Comparative negligence. (i) If a loss described in paragraph (a) of this section results in whole or in part from the indemnified person’s negligence or failure to act in good faith, then the indemnity amount described in paragraph (b)(1) of this section shall be reduced in proportion to the amount of negligence or bad faith attributable to the indemnified person.

(ii) Nothing in this paragraph (b)(2) reduces the rights of a consumer or any other person under the U.C.C. or other applicable provision of state or federal law.

(3) Effect of producing the original check or a sufficient copy—

(i) If an indemnifying bank produces the original check or a sufficient copy, the indemnifying bank shall—

(A) Be liable under this section only for losses that are incurred up to the time that the bank provides that original check or sufficient copy to the indemnified person; and

(B) Have a right to the return of any funds it has paid under this section in excess of those losses.
§ 229.54 Expedited recredit for consumers.

(a) Circumstances giving rise to a claim.
A consumer may make a claim under this section for a recredit with respect to a substitute check if the consumer asserts in good faith that—
(1) The bank holding the consumer's account charged that account for a substitute check that was provided to the consumer (although the consumer need not be in possession of that substitute check at the time he or she submits a claim);
(2) The substitute check was not properly charged to the consumer account or the consumer has a warranty claim with respect to the substitute check;
(3) The consumer suffered a resulting loss; and
(4) Production of the original check or a sufficient copy is necessary to determine whether or not the substitute check in fact was improperly charged or whether the consumer's warranty claim is valid.

(b) Procedures for making claims. A consumer shall make his or her claim for a recredit under this section with the bank that holds the consumer's account in accordance with the timing, content, and form requirements of this section.

(1) Timing of claim. (i) The consumer shall submit his or her claim such that the bank receives the claim by the end of the 40th calendar day after the later of the calendar day on which the bank mailed or delivered, by a means agreed to by the consumer—
(A) The periodic account statement that contains information concerning the transaction giving rise to the claim; or
(B) The substitute check giving rise to the claim.
(ii) If the consumer cannot submit his or her claim by the time specified in paragraph (b)(1)(i) of this section because of extenuating circumstances, the bank shall extend the 40-calendar-day period by an additional reasonable amount of time.
(iii) If a consumer makes a claim orally and the bank requires the claim to be in writing, the consumer's claim is timely if the oral claim was received within the time described in paragraphs (b)(1)(i)-(ii) of this section and the written claim was received within the time described in paragraph (b)(3)(ii) of this section.

(2) Content of claim. (i) The consumer's claim shall include the following information:
(A) A description of the consumer's claim, including the reason why the consumer believes his or her account was improperly charged for the substitute check or the nature of his or her warranty claim with respect to such check;
(B) A statement that the consumer suffered a loss and an estimate of the amount of that loss;
(C) The reason why production of the original check or a sufficient copy is necessary to determine whether or not the charge to the consumer's account was proper or the consumer's warranty claim is valid; and
(D) Sufficient information to allow the bank to identify the substitute check and investigate the claim.
(ii) If a consumer attempts to make a claim but fails to provide all the information in paragraph (b)(2)(i) of this section that is required to constitute a claim, the bank shall inform the consumer that the claim is not complete and identify the information that is missing.
§ 229.54 12 CFR Ch. II (1–1–10 Edition)

(3) Form and submission of claim; computation of time for bank action. The bank holding the account that is the subject of the consumer’s claim may, in its discretion, require the consumer to submit the information required by this section in writing. A bank that requires a written submission—

(i) May permit the consumer to submit the written claim electronically;

(ii) Shall inform a consumer who submits a claim orally of the written claim requirement at the time of the oral claim and may require such consumer to submit the written claim such that the bank receives the written claim by the 10th business day after the banking day on which the bank received the oral claim; and

(iii) Shall compute the time periods for acting on the consumer’s claim described in paragraph (c) of this section from the date on which the bank received the written claim.

(c) Action on claims. A bank that receives a claim that meets the requirements of paragraph (b) of this section shall act as follows:

(1) Valid consumer claim. If the bank determines that the consumer’s claim is valid, the bank shall—

(i) Recredit the consumer’s account for the amount of the consumer’s loss, up to the amount of the substitute check, plus interest if the account is an interest-bearing account, no later than the end of the business day on which the bank makes that determination; and

(ii) Send to the consumer the notice required by paragraph (e)(1) of this section.

(2) Invalid consumer claim. If a bank determines that the consumer’s claim is not valid, the bank shall send to the consumer the notice described in paragraph (e)(2) of this section.

(3) Recredit pending investigation. If the bank has not taken an action described in paragraph (c)(1) or (c)(2) of this section before the end of the 10th business day after the banking day on which the bank received the claim, the bank shall—

(i) By the end of that business day—

(A) Recredit the consumer’s account for the amount of the consumer’s loss, up to the lesser of the amount of the substitute check or $2,500, plus interest on that amount if the account is an interest-bearing account; and

(B) Send to the consumer the notice required by paragraph (e)(1) of this section; and

(ii) Recredit the consumer’s account for the remaining amount of the consumer’s loss, if any, up to the amount of the substitute check, plus interest if the account is an interest-bearing account, no later than the end of the 45th calendar day after the banking day on which the bank received the claim and send to the consumer the notice required by paragraph (e)(1) of this section, unless the bank prior to that time has determined that the consumer’s claim is or is not valid in accordance with paragraph (c)(1) or (c)(2) of this section.

(4) Reversal of recredit. A bank may reverse a recredit that it has made to a consumer account under paragraph (c)(1) or (c)(3) of this section, plus interest that the bank has paid, if any, on that amount, if the bank—

(i) Determines that the consumer’s claim was not valid; and

(ii) Notifies the consumer in accordance with paragraph (e)(3) of this section.

(d) Availability of recredit—(1) Next-day availability. Except as provided in paragraph (d)(2) of this section, a bank shall make any amount that it recredits to a consumer account under this section available for withdrawal no later than the start of the business day after the banking day on which the bank provides the recredit.

(2) Safeguard exceptions. A bank may delay availability to a consumer of a recredit provided under paragraph (c)(3) of this section until the start of the earlier of the business day after the banking day on which the bank determines the consumer’s claim is valid or the 45th calendar day after the banking day on which the bank received the oral or written claim, as required by paragraph (b) of this section, if—

(i) The consumer submits the claim during the 30-calendar-day period beginning on the banking day on which the consumer account was established;

(ii) Without regard to the charge that gave rise to the recredit claim—

(A) On six or more business days during the six-month period ending on the
calendar day on which the consumer submitted the claim, the balance in the consumer account was negative or would have become negative if checks or other charges to the account had been paid; or

(B) On two or more business days during such six-month period, the balance in the consumer account was negative or would have become negative in the amount of $5,000 or more if checks or other charges to the account had been paid; or

(iii) The bank has reasonable cause to believe that the claim is fraudulent, based on facts that would cause a well-grounded belief in the mind of a reasonable person that the claim is fraudulent. The fact that the check in question or the consumer is of a particular class may not be the basis for invoking this exception.

(3) Overdraft fees. A bank that delays availability as permitted in paragraph (d)(2) of this section may not impose an overdraft fee with respect to drafts drawn by the consumer on such recredited funds until the fifth calendar day after the calendar day on which the bank sent the notice required by paragraph (e)(1) of this section.

(e) Notices relating to consumer expedited recredit claims—(1) Notice of recredit. A bank that recredits a consumer account under paragraph (c) of this section shall send notice to the consumer of the recredit no later than the business day after the banking day on which the bank recredits the consumer account. This notice shall describe—

(i) The amount of the recredit; and

(ii) The date on which the recredited funds will be available for withdrawal.

(2) Notice that the consumer's claim is not valid. If a bank determines that a substitute check for which a consumer made a claim under this section was in fact properly charged to the consumer account or that the consumer's warranty claim for that substitute check was not valid, the bank shall send notice to the consumer no later than the business day after the banking day on which the bank recredits the consumer account. This notice shall—

(i) Include the original check or a sufficient copy, except as provided in §229.58;

(ii) Demonstrate to the consumer that the substitute check was properly charged or the consumer's warranty claim is not valid; and

(iii) Include the information or documents (in addition to the original check or sufficient copy), if any, on which the bank relied in making its determination or a statement that the consumer may request copies of such information or documents.

(3) Notice of a reversal of recredit. A bank that reverses an amount it previously recredited to a consumer account shall send notice to the consumer no later than the business day after the banking day on which the bank made the reversal. This notice shall include the information listed in paragraph (e)(2) of this section and also describe—

(i) The amount of the reversal, including both the amount of the recredit (including the interest component, if any) and the amount of interest paid on the recredited amount, if any, being reversed; and

(ii) The date on which the bank made the reversal.

(f) Other claims not affected. Providing a recredit in accordance with this section shall not absolve the bank from liability for a claim made under any other provision of law, such as a claim for wrongful dishonor of a check under the U.C.C., or from liability for additional damages, such as damages under §229.53 or §229.56 of this subpart or U.C.C. 4–402.

§229.55 Expedited recredit for banks.

(a) Circumstances giving rise to a claim. A bank that has an indemnity claim under §229.53 with respect to a substitute check may make an expedited recredit claim against an indemnifying bank if—

(1) The claimant bank or a bank that the claimant bank has indemnified—

(i) Has received a claim for expedited recredit from a consumer under §229.54; or

(ii) Would have been subject to such a claim if the consumer account had been charged for the substitute check;

(2) The claimant bank is obligated to provide an expedited recredit with respect to such substitute check under
§ 229.55

(b) Procedures for making claims. A claimant bank shall send its claim to the indemnifying bank, subject to the timing, content, and form requirements of this section.

(1) Timing of claim. The claimant bank shall submit its claim such that the indemnifying bank receives the claim by the end of the 120th calendar day after the date of the transaction that gave rise to the claim.

(2) Content of claim. The claimant bank’s claim shall include the following information—

(i) A description of the consumer’s claim or the warranty claim related to the substitute check, including why the bank believes that the substitute check may not be properly charged to the consumer account;

(ii) A statement that the claimant bank is obligated to recredit a consumer account under § 229.54 or otherwise has suffered a loss and an estimate of the amount of that recredit or loss, including interest if applicable;

(iii) The reason why production of the original check or a sufficient copy is necessary to determine the validity of the charge to the consumer account or the warranty claim; and

(iv) Sufficient information to allow the indemnifying bank to identify the substitute check and investigate the claim.

(3) Requirements relating to copies of substitute checks. If the information submitted by a claimant bank under paragraph (b)(2) of this section includes a copy of any substitute check, the claimant bank shall take reasonable steps to ensure that the copy cannot be mistaken for the legal equivalent of the check under §229.51(a) or sent or handled by any bank, including the indemnifying bank, for forward collection or return.

(4) Form and submission of claim; computation of time. The indemnifying bank may, in its discretion, require the claimant bank to submit the information required by this section in writing, including a copy of the paper or electronic claim submitted by the consumer, if any. An indemnifying bank that requires a written submission—

(i) May permit the claimant bank to submit the written claim electronically;

(ii) Shall inform a claimant bank that submits a claim orally of the written claim requirement at the time of the oral claim; and

(iii) Shall compute the 10-day time period for acting on the claim described in paragraph (c) of this section from the date on which the bank received the written claim.

(c) Action on claims. No later than the 10th business day after the banking day on which the indemnifying bank receives a claim that meets the requirements of paragraph (b) of this section, the indemnifying bank shall—

(1) Recredit the claimant bank for the amount of the claim, up to the amount of the substitute check, plus interest if applicable;

(2) Provide to the claimant bank the original check or a sufficient copy; or

(3) Provide information to the claimant bank regarding why the indemnifying bank is not obligated to comply with paragraph (c)(1) or (c)(2) of this section.

(d) Recredit does not abrogate other liabilities. Providing a recredit to a claimant bank under this section does not absolve the indemnifying bank from liability for claims brought under any other law or from additional damages under §229.53 or §229.56.

(e) Indemnifying bank’s right to a refund. (1) If a claimant bank reverses a recredit it previously made to a consumer account under §229.54 or otherwise receives reimbursement for a substitute check that formed the basis of its claim under this section, the claimant bank shall provide a refund promptly to any indemnifying bank that previously advanced funds to the claimant bank. The amount of the refund to the indemnifying bank shall be the amount of the reversal or reimbursement obtained by the claimant bank, up to the amount previously advanced by the indemnifying bank.

(2) If the indemnifying bank provides the claimant bank with the original
§ 229.54 Liability.

(a) Measure of damages.—(1) In general. Except as provided in paragraph (a)(2) or (a)(3) of this section or § 229.53, any person that breaches a warranty described in § 229.52 or fails to comply with any requirement of this subpart with respect to any other person shall be liable to that person for an amount equal to the sum of—

(i) The amount of the loss suffered by the person as a result of the breach or failure, up to the amount of the substitute check; and

(ii) Interest and expenses (including costs and reasonable attorney’s fees and other expenses of representation) related to the substitute check.

(2) Offset of recredits. The amount of damages a person receives under paragraph (a)(1) of this section shall be reduced by any amount that the person receives and retains as a recredit under § 229.54 or § 229.55.

(3) Comparative negligence. (i) If a person incurs damages that resulted in whole or in part from that person’s negligence or failure to act in good faith, then the amount of any damages due to that person under paragraph (a)(1) of this section shall be reduced in proportion to the amount of negligence or bad faith attributable to that person.

(ii) Nothing in this paragraph (a)(3) reduces the rights of a consumer or any other person under the U.C.C. or other applicable provision of federal or state law.

(b) Timeliness of action. Delay by a bank beyond any time limits prescribed or permitted by this subpart is excused if the delay is caused by interruption of communication or computer facilities, suspension of payments by another bank, war, emergency conditions, failure of equipment, or other circumstances beyond the control of the bank and if the bank uses such diligence as the circumstances require.

§ 229.57 Consumer awareness.

(a) General disclosure requirement and content. Each bank shall provide, in accordance with paragraph (b) of this section, a brief disclosure to each of its consumer customers that describes—

(1) That a substitute check is the legal equivalent of an original check; and

(2) The consumer recredit rights that apply when a consumer in good faith believes that a substitute check was not properly charged to his or her account.

(b) Timeliness of action. Delay by a bank beyond any time limits prescribed or permitted by this subpart is excused if the delay is caused by interruption of communication or computer facilities, suspension of payments by another bank, war, emergency conditions, failure of equipment, or other circumstances beyond the control of the bank and if the bank uses such diligence as the circumstances require.

(c) Jurisdiction. A person may bring an action to enforce a claim under this subpart in any United States district court or in any other court of competent jurisdiction. Such claim shall be brought within one year of the date on which the person’s cause of action accrues. For purposes of this paragraph, a cause of action accrues as of the date on which the injured person first learns, or by which such person reasonably should have learned, of the facts and circumstances giving rise to the cause of action, including the identity of the warranting or indemnifying bank against which the action is brought.

(d) Notice of claims. Except as otherwise provided in this paragraph (d), unless a person gives notice of a claim under this section to the warranting or indemnifying bank within 30 calendar days after the person has reason to know of both the claim and the identity of the warranting or indemnifying bank, the warranting or indemnifying bank is discharged from liability in an action to enforce a claim under this subpart to the extent of any loss caused by the delay in giving notice of the claim. A timely recredit claim by a consumer under § 229.54 constitutes timely notice under this paragraph.
§ 229.58 Mode of delivery of information.

A bank may deliver any notice or other information that it is required to provide under this subpart by United States mail or by any other means through which the recipient has agreed to receive account information. If a bank is required to provide an original check or a sufficient copy, the bank instead may provide an electronic image of the original check or sufficient copy if the recipient has agreed to receive that information electronically.

§ 229.59 Relation to other law.

The Check 21 Act and this subpart supersede any provision of federal or state law, including the Uniform Commercial Code, that is inconsistent with the Check 21 Act or this subpart, but only to the extent of the inconsistency.

§ 229.60 Variation by agreement.

Any provision of § 229.55 may be varied by agreement of the banks involved. No other provision of this subpart may be varied by agreement by any person or persons.

Appendix A to Part 229—Routing Number Guide to Next-Day Availability Checks and Local Checks

A. Each bank is assigned a routing number by an agent of the American Bankers Association. The routing number takes two forms: a fractional form and a nine-digit form. A paying bank generally is identified on the face of a check by its routing number in both the fractional form (which generally appears in the upper right-hand corner of the check) and the nine-digit form (which is printed in magnetic ink along the bottom of the check). Where a check is payable by one bank but payable through another bank, the routing number appearing on the check is that of the payable-through bank, not the payor bank.

B. The first four digits of the nine-digit routing number (and the denominator of the fractional routing number) form the “Federal Reserve routing symbol,” and the first two digits of the routing number identify the Federal Reserve District in which the bank is located. Thus, 01 will be the first two digits of the routing number of a bank in the First Federal Reserve District (Boston), and 12 will be the first two digits of the routing number of a bank in the Twelfth District (San Francisco). Adding 2 to the first digit denotes a thrift institution. Thus, 21 identifies a thrift in the First District, and 32 denotes a thrift in the Twelfth District.

Fourth Federal Reserve District

APPENDIX B TO PART 229 [RESERVED]

APPENDIX C TO PART 229—MODEL AVAILABILITY POLICY DISCLOSURES, CLAUSES, AND NOTICES; MODEL SUBSTITUTE CHECK POLICY DISCLOSURE AND NOTICES

This appendix contains model availability policy and substitute check policy disclosures, clauses, and notices to facilitate compliance with the disclosure and notice requirements of Regulation CC (12 CFR part 229). Although use of these models is not required, banks using them properly (with the exception of models C-22 through C-25) to make disclosures required by Regulation CC are deemed to be in compliance.

Model Availability Policy Disclosures

C-1 Next-day availability
C-2 Next-day availability and §229.13 exceptions
C-3 Next-day availability, case-by-case holds to statutory limits, and §229.13 exceptions
C-4 Holds to statutory limits on all deposits (includes chart)
C-5 Holds to statutory limits on all deposits
C-5A Substitute check policy disclosure

Model Clauses

C-6 Holds on other funds (check cashing)
C-7 Holds on other funds (other account)
C-8 Appendix B availability (nonlocal checks)
C-9 Automated teller machine deposits (extended hold)
C-10 Cash withdrawal limitation
C-11 Credit union interest payment policy
C-11A Availability of Funds Deposited at Other Locations

C-24 Expedited Recredit Claim, Denial Notice
C-25 Expedited Recredit Claim, Reversal Notice

Model Availability Policy Disclosures

C-1—Next-Day Availability

Your Ability To Withdraw Funds

Our policy is to make funds from your cash and check deposits available to you on the first business day after the day the deposit is received. Electronic direct deposits will be available on the day we receive the deposit. Once the funds are available, you can withdraw them in cash and we will use them to pay checks you have written.

For determining the availability of your deposits, every day is a business day, except Saturdays, Sundays, and federal holidays. If you make a deposit before (time of day) on a business day that we are open, we will consider that day to be the day of your deposit. However, if you make a deposit after (time of day) or on a day we are not open, we will consider that the deposit was made on the next business day.

C-2—Next-Day Availability and §229.13 exceptions

Your Ability To Withdraw Funds

Our policy is to make funds from your cash and check deposits available to you on the first business day after the day we receive your deposit. Electronic direct deposits will be available on the day we receive the deposit. Once the funds are available, you can withdraw them in cash and use them to pay checks you have written.

For determining the availability of your deposits, every day is a business day, except Saturdays, Sundays, and federal holidays. If you make a deposit before (time of day) on a business day that we are open, we will consider that day to be the day of your deposit. However, if you make a deposit after (time of day) or on a day we are not open, we will consider that the deposit was made on the next business day.

Longer Delays May Apply

Funds you deposit by check may be delayed for a longer period under the following circumstances:

- There is an emergency, such as failure of computer or communications equipment.
- We will notify you if we delay your ability to withdraw funds for any of these reasons, and we will tell you when the funds will be available. They will generally be available no later than the (number) business day after the day of your deposit.

Special Rules for New Accounts

If you are a new customer, the following special rules will apply during the first 30 days your account is open.

Funds from electronic direct deposits to your account will be available on the day we receive the deposit. Funds from deposits of cash, wire transfers, and the first $5,000 of a day's total deposits of cashier's, certified, teller's, traveler's, and federal, state and local government checks will be available on the first business day after the day of your deposit if the deposit meets certain conditions. For example, the checks must be payable to you (and you may have to use a special deposit slip). The excess over $5,000 will be available on the ninth business day after the day of your deposit. If your deposit of these checks (other than a U.S. Treasury check) is not made in person to one of our employees, the first $5,000 will not be available until the second business day after the day of your deposit.

Funds from all other check deposits will be available on the (number) business day after the day of your deposit.

C-3—Next-Day Availability, Case-by-Case Holds to Statutory Limits, and §229.13 Exceptions

Your Ability To Withdraw Funds

Our policy is to make funds from your cash and check deposits available to you on the first business day after the day we receive your deposit. Electronic direct deposits will be available on the day we receive the deposit. Once they are available, you can withdraw them in cash and we will use them to pay checks you have written.

For determining the availability of your deposits, every day is a business day, except Saturdays, Sundays, and federal holidays. If you make a deposit before (time of day) on a business day that we are open, we will consider that day to be the day of your deposit. However, if you make a deposit after (time of day) or on a day we are not open, we will consider that the deposit was made on the next business day.

Longer Delays May Apply

In some cases, we will not make all of the funds that you deposit by check available to you on the first business day after the day of your deposit. Depending on the type of check that you deposit, funds may not be available...
until the fifth business day after the day of your deposit. The first $100 of your deposits, however, may be available on the first business day.

If we are not going to make all of the funds from your deposit available on the first business day, we will notify you at the time you make your deposit. We will also tell you when the funds will be available. If your deposit is made directly to one of our employees, or if we decide to take this action after you have left the premises, we will mail you the notice by the day after we receive your deposit.

If you will need the funds from a deposit right away, you should ask us when the funds will be available.

In addition, funds you deposit by check may be delayed for a longer period under the following circumstances:

• We believe a check you deposit will not be paid.
• You deposit checks totaling more than $5,000 on any one day.
• You redeposit a check that has been returned unpaid.
• You have overdrawn your account repeatedly in the last six months.
• There is an emergency, such as failure of computer or communications equipment.

We will notify you if we delay your ability to withdraw funds for any of these reasons, and we will tell you when the funds will be available. They will generally be available no later than the (number) business day after the day of your deposit.

Special Rules for New Accounts

If you are a new customer, the following special rules will apply during the first 30 days your account is open.

Funds from electronic direct deposits to your account will be available on the day we receive the deposit. Funds from deposits of cash, wire transfers, and the first $5,000 of a day’s total deposits of cashier’s, certified, teller’s, traveler’s, and federal, state and local government checks will be available on the first business day after the day of your deposit if the deposit meets certain conditions. For example, the checks must be payable to you (and you may have to use a special deposit slip). The excess over $5,000 will be available on the ninth business day after the day of your deposit. If your deposit of these checks (other than a U.S. Treasury check) is not made in person to one of our employees, the first $5,000 will not be available until the second business day after the day of your deposit.

Funds from all other check deposits will be available on the (number) business day after the day of your deposit.

C–4—Holds to Statutory Limits On All Deposits (Includes Chart)

Your Ability To Withdraw Funds

Our policy is to delay the availability of funds from your cash and check deposits. During the delay, you may not withdraw the funds in cash and we will not use the funds to pay checks that you have written.

Determining the Availability of a Deposit

The length of the delay is counted in business days from the day of your deposit. Every day is a business day except Saturdays, Sundays, and federal holidays. If you make a deposit before (time of day) on a business day that we are open, we will consider that day to be the day of your deposit. However, if you make a deposit after (time of day) or on a day we are not open, we will consider that the deposit was made on the next business day we are open.

The length of the delay varies depending on the type of deposit and is explained below.

Same-Day Availability

Funds from electronic direct deposits to your account will be available on the day we receive the deposit.

Next-Day Availability

Funds from the following deposits are available on the first business day after the day of your deposit:

• U.S. Treasury checks that are payable to you.
• Wire transfers.
• Checks drawn on (bank name) (unless (any limitations related to branches in different states or check processing regions)).

If you make the deposit in person to one of our employees, funds from the following deposits are also available on the first business day after the day of your deposit:

• Cash.
• State and local government checks that are payable to you (if you use a special deposit slip available from (where deposit slip may be obtained)).
• Cashier’s, certified, and teller’s checks that are payable to you (if you use a special deposit slip available from (where deposit slip may be obtained)).
• Federal Reserve Bank checks, Federal Home Loan Bank checks, and postal money orders, if these items are payable to you.

If you do not make your deposit in person to one of our employees (for example, if you mail the deposit), funds from these deposits will not be available until the second business day after the day we receive your deposit.

Other Check Deposits

To find out when funds from other check deposits will be available, look at the first
Some checks are marked "payable through" and have a four-or nine-digit number nearby. For these checks, use this four-digit number (or the first four digits of the nine-digit number), not the routing number on the bottom of the check, to determine if these checks are local or nonlocal. Once you have determined the first four digits of the routing number (1234 in the examples above), the following chart will show you when funds from the check will be available:

<table>
<thead>
<tr>
<th>First four digits from routing number</th>
<th>When funds are available</th>
<th>When funds are available if a deposit is made on a Monday</th>
</tr>
</thead>
<tbody>
<tr>
<td>[local numbers] ........................</td>
<td>$100 on the first business day after the day of your deposit. Remaining funds on the second business day after the day of your deposit.</td>
<td>Tuesday. Wednesday.</td>
</tr>
<tr>
<td>All other numbers ......................</td>
<td>$100 on the first business day after the day of your deposit. Remaining funds on the fifth business day after the day of your deposit.</td>
<td>Monday of the following week.</td>
</tr>
</tbody>
</table>

If you deposit both categories of checks, $100 from the checks will be available on the first business day after the day of your deposit, not $100 from each category of check.

Longer Delays May Apply

Funds you deposit by check may be delayed for a longer period under the following circumstances:
Pt. 229, App. C

12 CFR Ch. II (1–1–10 Edition)

Every day is a business day except Saturdays, Sundays, and federal holidays. If you make a deposit before (time of day) on a business day that we are open, we will consider that day to be the day of your deposit. However, if you make a deposit after (time of day) or on a day we are not open, we will consider that the deposit was made on the next business day we are open.

The length of the delay varies depending on the type of deposit and is explained below.

**Same-Day Availability**

Funds from electronic direct deposits to your account will be available on the day we receive the deposit.

**Next-Day Availability**

Funds from the following deposits are available on the first business day after the day of your deposit:

- U.S. Treasury checks that are payable to you.
- Wire transfers.
- Checks drawn on (bank name) [unless (any limitations related to branches in different states or check processing regions)].

If you make the deposit in person to one of our employees, funds from the following deposits are also available on the first business day after the day of your deposit:

- Cash.
- State and local government checks that are payable to you [if you use a special deposit slip available from (where deposit slip may be obtained)].
- Cashier's, certified, and teller's checks that are payable to you [if you use a special deposit slip available from (where deposit slip may be obtained)].
- Federal Reserve Bank checks, Federal Home Loan Bank checks, and postal money orders, if these items are payable to you.

If you do not make your deposit in person to one of our employees (for example, if you mail the deposit), funds from these deposits will be available on the second business day after the day we receive your deposit.

**Other Check Deposits**

The delay for other check deposits depends on whether the check is a local or a nonlocal check. To see whether a check is a local or a nonlocal check, look at the routing number on the check.
If the first four digits of the routing number (1234 in the examples above) are (list of local numbers), then the check is a local check. Otherwise, the check is a nonlocal check. Some checks are marked “payable through” and have a four- or nine-digit number nearby. For these checks, use the four-digit number (or the first four digits of the nine-digit number), not the routing number on the bottom of the check, to determine if these checks are local or nonlocal. Our policy is to make funds from local and nonlocal checks available as follows.

1. Local checks. The first $100 from a deposit of local checks will be available on the first business day after the day of your deposit. The remaining funds will be available on the second business day after the day of your deposit.

   For example, if you deposit a local check of $700 on a Monday, $100 of the deposit is available on Tuesday. The remaining $600 is available on Wednesday.

2. Nonlocal checks. The first $100 from a deposit of nonlocal checks will be available on the first business day after the day of your deposit. The remaining funds will be available on the fifth business day after the day of your deposit.

   For example, if you deposit a $700 nonlocal check on a Monday, $100 of the deposit is available on Tuesday. The remaining $600 is available on Monday of the following week.

3. Local and nonlocal checks. If you deposit both categories of checks, $100 from the
checks will be available on the first business day after the day of your deposit, not $100 from each category of check.

Longer Delays May Apply
Funds you deposit by check may be delayed for a longer period under the following circumstances:
- We believe a check you deposit will not be paid.
- You deposit checks totaling more than $5,000 on any one day.
- You redeposit a check that has been returned unpaid.
- You have overdrawn your account repeatedly in the last six months.
- There is an emergency, such as failure of computer or communications equipment.

We will notify you if we delay your ability to withdraw funds for any of these reasons, and we will tell you when the funds will be available. They will generally be available no later than the (number) business day after the day of your deposit.

Special Rules For New Accounts
If you are a new customer, the following special rules will apply during the first 30 days your account is open.
Funds from electronic direct deposits to your account will be available on the day we receive the deposit. Funds from deposits of cash, wire transfers, and the first $5,000 of a day’s total deposits of cashier’s, certified, teller’s, traveler’s, and federal, state and local government checks will be available on the first business day after the day of your deposit if the deposit meets certain conditions. For example, the checks must be payable to you (and you may have to use a special deposit slip). The excess over $5,000 will be available on the ninth business day after the day of your deposit. If your deposit of these checks (other than a U.S. Treasury check) is not made in person to one of our employees, the first $5,000 will not be available until the second business day after the day of your deposit.
Funds from all other check deposits will be available on the (number) business day after the day of your deposit.

C–5A—Substitute Check Policy Disclosure
Substitute Checks and Your Rights—[Important Information About Your Checking Account]
Substitute Checks and Your Rights

What Is a Substitute Check?
To make check processing faster, federal law permits banks to replace original checks with “substitute checks.” These checks are similar in size to original checks with a slightly reduced image of the front and back of the original check. The front of a substitute check states: “This is a legal copy of your check. You can use it the same way you would use the original check.” You may use a substitute check as proof of payment just like the original check.

Some or all of the checks that you receive back from us may be substitute checks. This notice describes rights you have when you receive substitute checks from us. The rights in this notice do not apply to original checks or to electronic debits to your account. However, you have rights under other law with respect to these transactions.

What Are My Rights Regarding Substitute Checks?
In certain cases, federal law provides a special procedure that allows you to request a refund for losses you suffer if a substitute check is posted to your account (for example, if you think that we withdrew the wrong amount from your account or that we withdrew money from your account more than once for the same check). The losses you may attempt to recover under this procedure may include the amount that was withdrawn from your account and fees that were charged as a result of the withdrawal (for example, bounced check fees).

The amount of your refund under this procedure is limited to the amount of your loss or the amount of the substitute check, whichever is less. You also are entitled to interest on the amount of your refund if your account is an interest-bearing account. If your loss exceeds the amount of the substitute check, you may be able to recover additional amounts under other law.

If you use this procedure, you may receive up to (amount, not lower than $2,500) of your refund (plus interest if your account earns interest) within (number of days, not more than 10) business days after we received your claim and the remainder of your refund (plus interest if your account earns interest) not later than (number of days, not more than 45) calendar days after we received your claim.

We may reverse the refund (including any interest on the refund) if we later are able to demonstrate that the substitute check was correctly posted to your account.

How Do I Make a Claim for a Refund?
If you believe that you have suffered a loss relating to a substitute check that you received and that was posted to your account, please contact us at (contact information, for example phone number, mailing address, e-mail address). You must contact us within (number of days, not less than 10) calendar days of the date that we mailed (or otherwise delivered by a means to which you agreed) the substitute check in question or the account statement showing that the substitute check was posted to your account, whichever is later. We will extend this time period if you
were not able to make a timely claim because of extraordinary circumstances.

Your claim must include—

• A description of why you have suffered a loss (for example, you think the amount withdrawn was incorrect);
• An estimate of the amount of your loss;
• An explanation of why the substitute check you received is insufficient to confirm that you suffered a loss; and
• A copy of the substitute check [and/or] the following information to help us identify the substitute check: (identifying information, for example the check number, the name of the person to whom you wrote the check, the amount of the check).

Model Clauses

C–6—Holds on Other Funds (Check Cashing)

If we cash a check for you that is drawn on another bank, we may withhold the availability of a corresponding amount of funds that are already in your account. Those funds will be available at the time funds from the check we cashed would have been available if you had deposited it.

C–7—Holds on Other Funds (Other Account)

If we accept for deposit a check that is drawn on another bank, we may make funds from the deposit available for withdrawal immediately but delay your availability to withdraw a corresponding amount of funds that you have on deposit in another account with us. The funds in the other account would then not be available for withdrawal until the time periods that are described elsewhere in this disclosure for the type of check that you deposited.

C–8—Appendix B Availability (Nonlocal Checks)

3. Certain other checks. We can process nonlocal checks drawn on financial institutions in certain areas faster than usual. Therefore, funds from deposits of checks drawn on institutions in those areas will be available to you more quickly. Call us if you would like a list of the routing numbers for these institutions.

C–9—Automated Teller Machine Deposits (Extended Hold)

Deposits at Automated Teller Machines

Funds from any deposits (cash or checks) made at automated teller machines (ATMs) we do not own or operate will not be available until the fifth business day after the day of your deposit. This rule does not apply at ATMs that we own or operate.

(A list of our ATMs is enclosed, or A list of ATMs where you can make deposits but that are not owned or operated by us is enclosed. All ATMs that we own or operate are identified as our machines.)

C–10—Cash Withdrawal Limitation

Cash Withdrawal Limitation

We place certain limitations on withdrawals in cash. In general, $200 of a deposit is available for withdrawal in cash on the first business day after the day of deposit. In addition, a total of $400 of other funds becoming available on a given day is available for withdrawal in cash at or after (time no later than 5:00 p.m.) on that day. Any remaining funds will be available for withdrawal in cash on the following business day.

C–11—Credit Union Interest Payment Policy

Interest Payment Policy

If we receive a deposit to your account on or before the tenth of the month, you begin earning interest on the deposit (whether it was a deposit of cash or checks) as of the first day of that month. If we receive the deposit after the tenth of the month, you begin earning interest on the deposit as of the first of the following month. For example, a deposit made on June 7 earns interest from June 1, while a deposit made on June 17 earns interest from July 1.

C–11A—Availability of Funds Deposited at Other Locations

Availability of Funds Deposited at Other Locations

This availability policy only applies to funds deposited at (location). Please inquire for information about the availability of funds deposited at other locations.

Model Notices

C–12—Exception Hold Notice

Notice of Hold

Account number: (number)

Date of deposit: (date)

We are delaying the availability of (amount being held) from this deposit. These funds will be available on the (number) business days after the day of your deposit.

We are taking this action because:

—A check you deposited was previously returned unpaid.
—You have overdrawn your account repeatedly in the last six months.
—The checks you deposited on this day exceed $5,000.
—An emergency, such as failure of computer or communications equipment, has occurred.
—We believe a check you deposited will not be paid for the following reasons [*]:

_——
[If you did not receive this notice at the time you made the deposit and the check you deposited is paid, we will refund to you any fees for overdrafts or returned checks that result solely from the additional delay that we are imposing. To obtain a refund of such fees, (description of procedure for obtaining refund).]

C–13—Reasonable Cause Hold Notice

Notice of Hold
Account number: (number)
Date of deposit: (date)

We are delaying the availability of the funds you deposited by the following check: (description of check, such as amount and drawer.)

These funds will be available on the (number) business day after the day of your deposit. The reason for the delay is explained below:

—We received notice that the check is being returned unpaid.
—We have confidential information that indicates that the check may not be paid.
—The check is drawn on an account with repeated overdrafts.
—We are unable to verify the endorsement of a joint payee.
—Some information on the check is not consistent with other information on the check.
—There are erasures or other apparent alterations on the check.
—The routing number of the paying bank is not a current routing number.
—The check is postdated or has a stale date.
—Information from the paying bank indicates that the check may not be paid.
—We have been notified that the check has been lost or damaged in collection.
—Other.

[If you did not receive this notice at the time you made the deposit and the check you deposited is paid, we will refund to you any fees for overdrafts or returned checks that result solely from the additional delay that we are imposing. To obtain a refund of such fees, (description of procedure for obtaining refund).]

C–14—One-Time Notice for Large Deposit and Redeposited Check Exception Holds

Notice of Hold
If you deposit into your account:

• Checks totaling more than $5,000 on any one day, the first $5,000 deposited on any one banking day will be available to you according to our general policy. The amount in excess of $5,000 will generally be available on the (number) business day after the day of deposit for checks drawn on (bank name), the (number) business day after the day of deposit for local checks and (number) business day after the day of deposit for nonlocal checks. If checks (not drawn on us) that otherwise would receive next-day availability exceed $5,000, the excess will be treated as either local or nonlocal checks depending on the location of the paying bank. If your check deposit, exceeding $5,000 on any one day, is a mix of local checks, nonlocal checks, checks drawn on (bank name), or checks that generally receive next-day availability, the excess will be calculated by first adding together the (type of check), then the (type of check), then the (type of check), then the (type of check).

• A check that has been returned unpaid, the funds will generally be available on the (number) business day after the day of deposit for checks drawn on (bank name), the (number) business day after the day of deposit for local checks and the (number) business day after the day of deposit for nonlocal checks. Checks (not drawn on us) that otherwise would receive next-day availability will be treated as either local or nonlocal checks depending on the location of the paying bank.

C–15—One-Time Notice for Repeated Overdraft Exception Hold

Notice of Hold
Account Number: (number) Date of Notice: (date)

We are delaying the availability of checks deposited into your account due to repeated overdrafts of your account. For the next six months, deposits will generally be available on the (number) business day after the day of your deposit for checks drawn on (bank name), the (number) business day after the day of deposit for local checks, and the (number) business day after the day of deposit for nonlocal checks. Checks (not drawn on us) that otherwise would have received next-day availability will be treated as either local or nonlocal checks depending on the location of the paying bank.

C–16—Case-by-Case Hold Notice

Notice of Hold
Account number: (number) Date of deposit: (date)

We are delaying the availability of (amount being held) from this deposit. These funds will be available on the (number) business day after the day of your deposit ([subject to our cash withdrawal limitation policy]).

[If you did not receive this notice at the time you made the deposit and the check you deposited is paid, we will refund to you any fees for overdrafts or returned checks that result solely from the additional delay]
Federal Reserve System

that we are imposing. To obtain a refund of such fees, (description of procedure for obtaining refund.)

C–18—Notice at locations where employees accept consumer deposits (case-by-case holds)

Funds Availability Policy

Our general policy is to allow you to withdraw funds deposited in your account on the (number) business day after the day we receive your deposit. Funds from electronic direct deposits will be available on the day we receive the deposit. In some cases, we may delay your ability to withdraw funds beyond the (number) business day. Then, the funds will generally be available by the fifth business day after the day of deposit.

C–19—Notice at Automated Teller Machines

Availability of Deposits

Funds from deposits may not be available for immediate withdrawal. Please refer to your institution’s rules governing funds availability for details.

C–20—Notice at Automated Teller Machines (Delayed Receipt)

NOTICE

Deposits at this ATM between (day) and (day) will not be considered received until (day). The availability of funds from the deposit may be delayed as a result.

C–21—Deposit Slip Notice

Deposits may not be available for immediate withdrawal.

C–22—Expedited Recredit Claim, Valid Claim Refund Notice

Notice of Valid Claim and Refund

We have determined that your substitute check claim is valid. We are refunding (amount) [of which [(amount) represents fees] and [(amount) represents accrued interest]] to your account. You may withdraw these funds as of (date). [This refund is the amount in excess of the $2,500 [plus interest] that we credited to your account on (date).]

C–23—Expedited Recredit Claim, Provisional Refund Notice

Notice of Provisional Refund

In response to your substitute check claim, we are refunding (amount) [of which [(amount) represents fees] and [(amount) represents accrued interest]] to your account, while we complete our investigation of your claim. You may withdraw these funds as of (date). [Unless we determine that your claim is not valid, we will credit the remaining amount of your refund to your account no later than the 45th calendar day after we received your claim.]

If, based on our investigation, we determine that your claim is not valid, we will reverse the refund by withdrawing the amount of the refund [plus interest that we have paid you on that amount] from your account. We will notify you within one day of any such reversal.

C–24—Expedited Recredit Claim, Denial Notice

Denial of Claim

Based on our review, we are denying your substitute check claim. As the enclosed (type of document, for example original check or sufficient) shows, (describe reason for denial, for example the check was properly posted, the signature is authentic, there was no warranty breach). [We have also enclosed a copy of the other information we used to make our decision.] [Upon your request, we will send you a copy of the other information that we used to make our decision.]

C–25—Expedited Recredit Claim, Reversal Notice

Reversal of Refund

In response to your substitute check claim, we provided a refund of (amount) by crediting your account on (date(s)). We now have determined that your substitute check claim was not valid. As the enclosed (type of document, for example original check or sufficient copy) shows, (describe reason for reversal, for example the check was properly posted, the signature is authentic, there was no warranty breach). As a result, we have reversed the refund to your

APPENDIX D TO PART 229—INDORSEMENT, RECONVERTING BANK IDENTIFICATION, AND TRUNCATING BANK IDENTIFICATION STANDARDS

1. The depositary bank shall indorse an original check or substitute check according to the following specifications:

   (A) The bank’s nine-digit routing number, set off by an arrow at each end of the number and pointing toward the number, and, if the depositary bank is a reconverting bank with respect to the check, an asterisk outside the arrow at each end of the routing number to identify the bank as a reconverting bank;

   (B) The indorsement date; and

   (C) The bank’s name or location, if the depositary bank applies the indorsement physically.

2. The indorsement also may contain—

   (A) A branch identification;

   (B) A trace or sequence number;

   (C) A telephone number for receipt of notification of large-dollar returned checks; and

   (D) Other information, provided that the inclusion of such information does not interfere with the readability of the indorsement.

3. The indorsement, if applied to an existing paper check, shall be placed on the back of the check so that the routing number is wholly contained in the area 3.0 inches from the leading edge of the check to 1.5 inches from the trailing edge of the check. 31

4. When printing its depositary bank indorsement, for a depositary bank indorsement that previously was applied electronically) onto a substitute check at the time that the substitute check is created, a reconverting bank shall place the indorsement on the back of the check between 1.88 and 2.74 inches from the leading edge of the check. The reconverting bank may omit the depositary bank’s name and location from the indorsement.

5. Each subsequent collecting bank or returning bank indorsement shall protect the identifiability and legibility of the depositary bank indorsement by indorsing an original check or substitute check according to the following specifications:

   (A) The bank’s nine-digit routing number (without arrows) and, if the collecting bank or returning bank is a reconverting bank with respect to the check, an asterisk at each end of the number to identify the bank as a reconverting bank;

   (B) The indorsement date, and

   (C) An optional trace or sequence number.

6. The indorsement, if applied to an existing paper check, shall be placed on the back of the check from 0.0 inches to 3.0 inches from the leading edge of the check.

7. A reconverting bank shall comply with the following specifications when creating a substitute check:

   (A) If it is a depositary bank, collecting bank, or returning bank with respect to the substitute check, the reconverting bank shall place its own indorsement onto the back of the check as specified in this appendix.

   (B) A reconverting bank that also is the paying bank with respect to the substitute check shall so identify itself by placing on the back of the check, between 0.25 and 2.50 inches from the trailing edge of the check, its nine-digit routing number (without arrows) and an asterisk at each end of the number.

   (C) The reconverting bank shall place on the front of the check, outside the image of the original check, its nine-digit routing number (without arrows) and a bracket at each end of the number, in accordance with ANSI X9.100–140.

   (D) The reconverting bank shall place on the front of the check, outside the image of the original check, the truncating bank’s nine-digit routing number (without arrows) and an asterisk at each end of the number, in accordance with ANSI X9.100–140.

8. Any indorsement, reconverting bank identification, or truncating bank identification placed on an original check or substitute check shall be printed in black ink.

[69 FR 47316, Aug. 4, 2004]
1. The EFA Act defines account to mean “a demand deposit account or similar transaction account at a depository institution.” The regulation defines account, for purposes other than subpart D, in terms of the definition of “transaction account” in the Board’s Regulation D (12 CFR part 204). This definition of account, however, excludes certain deposits, such as nondocumentary obligations (see 12 CFR 204.2(a)(1)(viii)), that are covered under the definition of “transaction account” in Regulation D. The definition applies to accounts with general third party payment powers but does not cover time deposits or savings deposits, including money market deposit accounts, even though they may have limited third party payment powers. The Board believes that it is appropriate to exclude these accounts because of the reference to demand deposits in the EFA Act, which suggests that the EFA Act is intended to apply only to accounts that permit unlimited third party transfers.

2. The term account also differs from the definition of transaction account in Regulation D because the term account refers to accounts held at banks. Under subparts A and C, the term bank includes not only any depository institution, as defined in the EFA Act, but also any person engaged in the business of banking, such as a Federal Reserve Bank, a Federal Home Loan Bank, or a private banker that is not subject to Regulation D. Thus, accounts at these institutions benefit from the expeditious return requirements of Subpart C.

3. Interbank deposits, including accounts of offices of domestic banks or foreign banks located outside the United States, and direct and indirect accounts of the United States Treasury (including Treasury General Accounts and Treasury Tax and Loan deposits) are exempt from subpart B and, in connection therewith, subpart A. However, interbank deposits are included as accounts for purposes of subparts C and D and, in connection therewith, subpart A.

4. The Check 21 Act defines account to mean any deposit account at a bank. Therefore, for purposes of subpart D and, in connection therewith, subpart A, account means any deposit, as that term is defined by §204.2(a)(1)(i) of Regulation D, at a bank. Many deposits that are not accounts for purposes of the other subparts of Regulation CC, such as savings deposits, are accounts for purposes of subpart D.

B. 229.2(b) Automated Clearinghouse (ACH)

1. The Board has defined automated clearinghouse as a facility that processes debit and credit transfers under rules established by a Federal Reserve Bank operating circular governing automated clearinghouse items or the rules of an ACH association. ACH credit transfers are included in the definition of electronic payment.

2. The reference to “debit and credit transfers” does not refer to the corresponding debit and credit entries that are part of the same transaction, but to different kinds of ACH payments. In an ACH debit transfer, the originator, with prior authorization, orders another account to be debited and the originator’s account to be credited.

3. A facility that handles only wire transfers (defined elsewhere) is not an ACH.
device at which a natural person may make deposits to an account by cash or check and perform other account transactions. Point-of-sale terminals, machines that only dispense cash, night depositories, and lobby deposit boxes are not ATMs within the meaning of the definition, either because they do not accept deposits of cash or checks (e.g., point-of-sale terminals and cash dispensers) or because they only accept deposits (e.g., night depositories and lobby boxes) and cannot perform other transactions. A lobby deposit box or similar receptacle in which written payment orders or deposits may be placed is not an ATM.

2. A facility may be an ATM within this definition even if it is a branch under state or federal law, although an ATM is not a branch as that term is used in this regulation.

E. 229.2(d) Available for Withdrawal

1. Under this definition, when funds become available for withdrawal, the funds may be put to all uses for which the customer may use actually and finally collected funds in the customer's account under the customer's account agreement with the bank. Examples of such uses include payment of checks drawn on the account, certification of checks, electronic payments, and cash withdrawals. Funds are available for these uses notwithstanding provisions of other law that may restrict the use of uncollected funds (e.g., 18 U.S.C. 1004; 12 U.S.C. 331).

2. If a bank makes funds available to a customer for a specific purpose (such as paying checks that would otherwise overdraw the customer's account and be returned for insufficient funds) before the funds must be made available under the bank's policy or this regulation, it may nevertheless apply a hold consistent with this regulation to those funds for other purposes (such as cash withdrawals). For purposes of this regulation, funds are considered available for withdrawal even though they are being held by the bank to satisfy an obligation of the customer other than the customer's potential liability for the return of the check. For example, a bank does not violate its obligations under this subpart by holding funds to satisfy a garnishment, tax levy, or court order restricting disbursements from the account; or to satisfy the customer's liability arising from the certification of a check, sale of a cashier's or teller's check, guaranty or acceptance of a check, or similar transaction to be debited from the customer's account.

F. 229.2(e) Bank

1. The EFA Act uses the term depository institution, which it defines by reference to section 10(b)(11)(A)(i) through (vi)) of the Federal Reserve Act (12 U.S.C. 461(b)(11)(A)(i) through (vi)). This regulation uses the term bank, a term that conforms to the usage the Board has previously adopted in Regulation J. Bank is also used in subsections 4 and 4A of the Uniform Commercial Code.

2. Bank is defined to include depository institutions, such as commercial banks, savings banks, savings and loan associations, and credit unions as defined in the EFA Act, and U.S. branches and agencies of foreign banks. For purposes of Subpart B, the term does not include corporations organized under section 25A of the Federal Reserve Act, 12 U.S.C. 611-631 (Edge corporations) or corporations having an agreement or undertaking with the Board under section 25 of the Federal Reserve Act, 12 U.S.C. 601-604a (agreement corporations). For purposes of Subparts C and D, and in connection therewith, Subpart A, any Federal Reserve Bank, Federal Home Loan Bank, or any other person engaged in the business of banking is regarded as a bank. The phrase "any other person engaged in the business of banking" is derived from U.C.C. 1-201(4), and is intended to cover entities that handle checks for collection and payment, such as Edge and agreement corporations, commercial lending companies under 12 U.S.C. 3101, certain industrial banks, and private bankers, so that virtually all checks will be covered by the same rules for forward collection and return, even though they may not be covered by the requirements of Subpart B. For the purposes of Subparts C and D, and in connection therewith, Subpart A, the term also may include a state or a unit of general local government to the extent that it pays warrants or other drafts drawn directly on the state or local government itself, and the warrants or other drafts are sent to the state or local government for payment or collection.

3. Unless otherwise specified, the term bank includes all of a bank's offices in the United States. The regulation does not cover foreign offices of U.S. banks.

4. For purposes of subpart D and in connection therewith, subpart A, the term bank includes the Treasury of the United States and the United States Postal Service to the extent that they act as paying banks because the Check 21 Act includes these two entities in the definition of the term bank to the extent that they act as payors.

G. 229.2(f) Banking Day and (g) Business Day

1. The EFA Act defines business day as any day excluding Saturdays, Sundays, and legal holidays. Legal holiday, however, is not defined, and the variety of local holidays, together with the practice of some banks to close midweek, makes the EFA Act's definition difficult to apply. The Board believes that two kinds of business days are relevant. First, when determining the day when funds are deposited or when a bank must perform
certain actions (such as returning a check), the focus should be on a day that the bank is actually open for business. Second, when counting days for purposes of determining when a check must be available under the regulation or when notice of nonpayment must be received by the depositary bank, there would be confusion and uncertainty in trying to follow the schedule of a particular bank, and there is less need to identify a day when a particular bank is open. Most banks that act as intermediaries (large correspondents and Federal Reserve Banks) follow the same holiday schedule. Accordingly, the regulation has two definitions: Business day generally follows the standard Federal Reserve Bank holiday schedule (which is followed by most large banks), and banking day is defined to mean that part of a business day on which a bank is open for substantially all of its banking activities.

2. The definition of banking day corresponds to the definition of banking day in U.C.C. §4–104(a)(3), except that a banking day is defined in terms of a business day. Thus, if a bank is open on Saturday, Saturday might be a banking day for purposes of the U.C.C., but it would not be a banking day for purposes of Regulation CC because Saturday is never a business day under the regulation.

3. The definition of banking day is phrased in terms of when "an office of a bank is open" to indicate that a bank may observe a banking day on a per-branch basis. A deposit made at an ATM or off-premise facility (such as a remote depository or a lock box) is considered made at the branch holding the account into which the deposit is made for the purpose of determining the day of deposit. All other deposits are considered made at the branch at which the deposit is received. For example, under §229.19(a)(1), funds deposited at an ATM are considered deposited at the time they are received at the ATM. On a calendar day that is a banking day for the branch or other location of the depositary bank at which the account is maintained, a deposit received at an ATM before the ATM’s cut-off hour is considered deposited on that banking day, and a deposit received at an ATM after the ATM’s cut-off hour is considered deposited on the next banking day of the branch or other location where the account is maintained. On a calendar day that is not a banking day for the account-holding location, all ATM deposits are considered deposited on that location’s next banking day. This rule for determining the day of deposit also would apply to a deposit to an off-premise facility, such as a night depository or lock box, which is considered deposited when removed from the facility and available for processing under §229.19(a)(3). If an unstaffed facility, such as a night depository or lock box, is on branch premises, the day of deposit is determined by the banking day at the branch at which the deposit is received, whether or not it is the branch at which the account is maintained.

H. 229.2(h) Cash
1. Cash means U.S. coins and currency. The phrase in the EFA Act "including Federal Reserve notes" has been deleted as unnecessary. (See 31 U.S.C. 5103.)

I. 229.2(i) Cashier's Check
1. The regulation adds to the second item in the EFA Act’s definition of cashier’s check the phrase, “on behalf of the bank as drawer,” to clarify that the term cashier’s check is intended to cover only checks that a bank draws on itself. The definition of cashier’s check includes checks provided to a customer of the bank in connection with customer deposit account activity, such as account disbursements and interest payments. The definition also includes checks acquired from a bank by noncustomers for remittance purposes, such as certain loan disbursement checks. Cashier’s checks provided to customers or others are often labeled as “cashier’s check,” “officer’s check,” or “official check.” The definition excludes checks that a bank draws on itself for other purposes, such as to pay employees and vendors, and checks issued by the bank in connection with a payment service, such as a payroll or a bill-paying service. Cashier’s checks generally are sold by banks to substitute the bank’s credit for the customer’s credit and thereby enhance the collectibility of the checks. A check issued in connection with a payment service generally is provided as a convenience to the customer rather than as a guarantee of the check’s collectibility. In addition, such checks are often more difficult to distinguish from other types of checks than are cashier’s checks as defined by this regulation.

J. 229.2(j) Certified Check
1. The EFA Act defines a certified check as one to which a bank has certified that the drawer’s signature is genuine and that the bank has set aside funds to pay the check. Under the Uniform Commercial Code, certification of a check means the bank’s signed agreement that it will honor the check as presented (U.C.C. 3–409). The regulation defines certified check to include both the EFA Act’s and U.C.C.’s definitions.

K. 229.2(k) Check
1. Check is defined in section 602(7) of the EFA Act as a negotiable demand draft drawn on or payable through an office of a depository institution located in the United States, excluding noncash items. The regulation includes six categories of instruments within the definition of check.

2. The first category is negotiable demand drafts drawn on, or payable through or at, an
office of a bank. As the definition of bank includes only offices located in the United States, this category is limited to checks drawn on, or payable through or at, a banking office located in the United States.

3. The EFA Act treats drafts payable through a bank as checks, even though under the U.C.C. the payable-through bank is a collecting bank to make presentment and generally is not authorized to make payment (U.C.C. 4-106(a)). The EFA Act does not expressly address items that are payable at a bank. This regulation treats both payable-through and payable-at demand drafts as checks. The Board believes that treating demand drafts payable at a bank as checks will not have a substantial effect on the operations of payable-at banks—by far the largest proportion of payable-at items are not negotiable demand drafts, but time items, such as commercial paper, bonds, notes, bankers’ acceptances, and securities. These time items are not covered by the requirements of the EFA Act or this regulation. (The treatment of payable-through drafts is discussed in greater detail in connection with the definitions of local check and paying bank.)

4. The second category is checks drawn on Federal Reserve Banks and Federal Home Loan Banks. Principal and interest payments on federal debt instruments often are paid with checks drawn on a Federal Reserve Bank as fiscal agent of the United States, and these fiscal agency checks are indistinguishable from other checks drawn on Federal Reserve Banks. (See 31 CFR Part 355.) Federal Reserve Bank checks also are used by some banks as substitutes for cashier’s or teller’s checks. Similarly, savings and loan associations often use checks drawn on Federal Home Loan Banks as teller’s checks. The definition of check includes checks drawn on Federal Home Loan Banks and Federal Reserve Banks because in many cases they are the functional equivalent of Treasury checks or teller’s checks.

5. The third and fourth categories of instrument included in the definition of check refer to government checks. The EFA Act refers to checks drawn on the U.S. Treasury, even though these instruments are not drawn on or payable through an office of a depository institution, and checks drawn by state and local governments. The EFA Act also gives the Board authority to define functionally equivalent instruments as depository checks. Thus, the EFA Act is intended to apply to instruments other than those that meet the strict definition of check in section 602(7) of the EFA Act. Checks and warrants drawn by states and local governments often are used for the purposes of making unemployment compensation payments and other payments important to the recipients. Consequently, the Board has expressly defined check to include drafts drawn on the U.S. Treasury and drafts or warrants drawn by a state or a unit of general local government on itself.

6. The fifth category of instrument included in the definition of check is U.S. Postal Service money orders. These instruments are defined as checks because they often are used as a substitute for checks by consumers, even though money orders are not negotiable under Postal Service regulations. The Board has not provided specific rules for other types of money orders; these instruments generally are drawn on or payable through or payable at banks and are treated as checks on that basis.

7. The sixth and final category of instrument included in the definition of check is traveler’s checks drawn on or payable through or at a bank. Traveler’s check is defined in paragraph (hh) of this section.

8. Finally, for the purposes of Subparts C and D, and in connection therewith, Subpart A, the definition of check includes nonnegotiable demand drafts because these instruments are often handled as cash items in the forward collection process.

9. A substitute check as defined in §229.2(aa) is a check for purposes of Regulation CC and the U.C.C., even if that substitute check does not meet the requirements for legal equivalence set forth in §229.53(a).

10. The definition of check does not include an instrument payable in a foreign currency (i.e., other than in United States money as defined in 31 U.S.C. 501) or a credit card draft (i.e., a sales draft used by a merchant or a draft generated by a bank as a result of a cash advance), or an ACH debit transfer. The definition of check includes a check that a bank may supply to a customer as a means of accessing a credit line without the use of a credit card.

L. 229.2(l)(Reserved)

M. 229.2(m) Check Processing Region

1. The EFA Act defines this term as “the geographic area served by a Federal Reserve bank check processing center or such larger area as the Board may prescribe by regulations.” The Board has defined check processing region as the territory served by one of the Federal Reserve head offices, branches, or regional check processing centers. Appendix A includes a list of routing numbers arranged by Federal Reserve Bank office. The definition of check processing region is key to determining whether a check is considered local or nonlocal.
Federal Reserve System

Pt. 229, App. E

N. 229.2(n) Consumer Account

1. Consumer account is defined as an account used primarily for personal, family, or household purposes. An account that does not meet the definition of consumer account is a nonconsumer account. A clearing account maintained at a bank directly by a brokerage firm is not a consumer account, even if the account is used to pay checks drawn by consumers using the funds in that account. The bank’s relationship with the brokerage firm, and the account is used by the brokerage firm to facilitate the clearing of its customers’ checks. Because for purposes of Regulation CC the term account includes only deposit accounts, a consumer’s revolving credit relationship or other line of credit with a bank is not a consumer account, even if the consumer draws on such credit lines by using a check. Both consumer and nonconsumer accounts are subject to the requirements of this regulation, including the requirement that funds be made available according to specific schedules and that the bank make specified disclosures of its availability policies. Section 229.18(b) (notices at branch locations) and §229.18(e) (notice of changes in policy) apply only to consumer accounts. Section 229.13(g)(2) (one-time availability notice) and §229.19(d) (use of calculated availability) apply only to nonconsumer accounts.

O. 229.2(o) Depositary Bank

1. The regulation uses the term depositary bank rather than the term receiving depository institution. Receiving depository institution is a term unique to the EFA Act, while depositary bank is the term used in Article 4 of the U.C.C. and Regulation J.

2. A depositary bank includes the bank in which the check is first deposited. If a foreign office of a U.S. or foreign bank sends checks to its U.S. correspondent bank for forward collection, the U.S. correspondent is the depositary bank because foreign offices of banks are not included in the definition of bank.

3. If a customer deposits a check in its account at a bank, the customer’s bank is the depositary bank with respect to the check. For example, if a person deposits a check into an account at a nonproprietary ATM, the bank holding the account into which the check is deposited is the depositary bank even though another bank may service the nonproprietary ATM and send the check for collection. (Under §229.35 the depositary bank may agree with the bank servicing the nonproprietary ATM to have the servicing bank place its own indorsement on the check as the depositary bank. For the purposes of Subpart C, the bank applying its indorsement as the depositary bank indorsement on the check is the depositary bank.)

4. For purposes of Subpart B, a bank may act as both the depositary bank and the paying bank with respect to a check, if the check is payable by the bank in which it was deposited, or if the check is payable by a nonbank payor and payable through or at the bank in which it was deposited. A bank also is considered a depositary bank with respect to checks it receives for loan repayment, even though these checks are not deposited in an account at the bank. Because these checks would not be “deposited to accounts,” they would not be subject to the availability or disclosure requirements of Subpart B.

P. 229.2(p) Electronic Payment

1. Electronic payment is defined to mean a wire transfer as defined in §229.2(11) or an ACH credit transfer. The EFA Act requires that funds deposited by wire transfer be made available for withdrawal on the business day following deposit but expressly leaves the definition of the term wire transfer to the Board. Because ACH credit transfers frequently involve important consumer payments, such as wages, the regulation requires that funds deposited by ACH credit transfers be available for withdrawal on the business day following deposit.

2. ACH debit transfers, even though they may be transmitted electronically, are not defined as electronic payments because the receiver of an ACH debit transfer has the right to return the transfer, which would reverse the credit given to the originator. Thus, ACH debit transfers are more like checks than wire transfers. Further, bank customers that receive funds by originating ACH debit transfers are primarily large corporations, which generally would be able to negotiate with their banks for prompt availability.

3. A point-of-sale transaction would not be considered an electronic payment unless the transaction was effected by means of an ACH credit transfer or wire transfer.

Q. 229.2(q) Forward Collection

1. Forward collection is defined to mean the process by which a bank sends a check to the paying bank for collection, including sending the check to an intermediary collecting bank for settlement, as distinguished from the process by which the check is returned unpaid. Noncash collections are not included in the term forward collection.

R. 229.2(r) Local Check

1. Local check is defined as a check payable by or at a local paying bank, or, in the case of nonbank payors, payable through a local paying bank. A check payable by a local bank but payable through a nonlocal
bank is a local check. Conversely, a check payable through a local bank but payable by a nonlocal bank is a nonlocal check. Where two banks are named on a check and neither is designated as a payable-through bank, the check is considered payable by either bank and may be considered local or nonlocal depending on the bank to which it is sent for payment. Generally, the depositary bank may rely on the routing number to determine whether a check is local or nonlocal. Appendix A includes a list of routing numbers arranged by Federal Reserve Bank Office to assist persons in determining whether or not such a check is local. If, however, a check is payable by one bank but payable through another bank, the routing number appearing on the check will be that of the payable-through bank, not the paying bank. Many credit union share drafts and certain other checks payable by banks are payable through other banks. In such cases, the routing number cannot be relied on to determine whether the check is local or nonlocal. For payable-through checks that meet the labeling requirements of §229.36(e), the depositary bank may rely on the four-digit routing symbol of the paying bank that is printed on the face of the check as required by that section, e.g., in the title plate, but not on the first four digits of the payable-through bank’s routing number printed in magnetic ink in the MICR line or in fractional form, to determine whether the check is local or nonlocal.

S. 229.2(s) Local Paying Bank

1. "Local paying bank" is defined as a paying bank located in the same check-processing region as the branch, contractual branch, or proprietary ATM of the depositary bank. For example, a check deposited at a contractual branch would be deemed local or nonlocal based on the location of the contractual branch with respect to the location of the paying bank.

Examples:

a. If a check that is payable by a bank that is located in the same check processing region as the depositary bank is payable through a bank located in another check processing region, the check is considered local or nonlocal depending on the location of the bank by which it is payable even if the check is sent to the nonlocal bank for collection.

b. The location of the depositary bank is determined by the physical location of the branch or proprietary ATM at which a check is deposited, regardless of whether the deposit is made in person, by mail, or otherwise. For example, if a branch of the depositary bank located in one check-processing region sends a check that was deposited at that branch to the depositary bank’s central facility in another check-processing region, and the central facility is in the same check-processing region as the paying bank, the check is still considered nonlocal. (See the commentary to the definition of "paying bank.")

c. If a person deposits a check to an account by mailing or otherwise sending the check to a facility or office that is not a bank, the check is considered local or nonlocal depending on the location of the depositary bank whose indorsement appears on the check as the depositary bank.

T. 229.2(t) Merger Transaction

1. Merger transaction is a term used in Subparts B and C in connection with transition rules for merged banks. It encompasses mergers, consolidations, and purchase/ assumption transactions of the type that usually must be approved under the Bank Merger Act (12 U.S.C. 1828(c)) or similar statutes; it does not encompass acquisitions of a bank under the Bank Holding Company Act (12 U.S.C. 1842) where an acquired bank maintains its separate corporate existence.

2. Regulation CC adopts a one-year transition period for banks that are party to a merger transaction during which the merged banks will continue to be treated as separate entities. (See §§229.19(g) and 229.40.)

U. 229.2(u) Noncash Item

1. The EFA Act defines the term check to exclude noncash items, and defines noncash items to include checks to which another document is attached, checks accompanied by special instructions, or any similar item classified as a noncash item in the Board’s regulation. To qualify as a noncash item, an item must be handled as such and may not be handled as a cash item by the depositary bank.

2. The regulation’s definition of noncash item also includes checks that consist of more than a single thickness of paper (except checks that qualify for handling by automated check processing equipment, e.g., those placed in carrier envelopes) and checks that have not been preprinted or post-encoded in magnetic ink with the paying bank’s routing number, as well as checks with documents attached or accompanied by special instructions. (In the context of this definition, paying bank refers to the paying bank as defined for purposes of Subpart C.)

3. A check that has been preprinted or post-encoded with a routing number that has been retired (e.g., because of a merger) for at least three years is a noncash item unless the current number is added for processing purposes by placing the check in an encoded carrier envelope or adding a strip to the check.

4. Checks that are accompanied by special instructions are also noncash items. For example, a person concerned about whether a check will be paid may request the depositary bank to send a check for collection as a...
Federal Reserve System

noncash item with an instruction to the pay-
ing bank to notify the depositary bank promptly when the check is paid or dishon-
dored.

5. For purposes of forward collection, a
copy of a check is neither a check nor a
noncash item, but may be treated as either.
For purposes of return, a copy is generally a
notice in lieu of return. (See §§229.30(f) and
229.31(f).)

V. 229.2(v) [Reserved]

W. 229.2(w) [Reserved]

X. 229.2(x) [Reserved]

Y. 229.2(y) [Reserved]

Z. 229.2(z) Paying Bank

1. The regulation uses this term in lieu of
the EFA Act's "originating depository insti-
tution." For purposes of all subparts of Reg-
ulation CC, the term paying bank includes
the bank by which a check is payable, the
payable-at bank to which a check is sent, or,
if the check is payable by a nonbank payor,
the bank through which the check is payable
and to which it is sent for payment or collec-
tion. For purposes of subparts C and D, the
term paying bank also includes the payable-
through bank and the bank whose routing
number appears on the check, regardless of
whether the check is payable by a different
bank, provided that the check is sent for
payment or collection to the payable
through bank or the bank whose routing
number appears on the check.

2. Under §229.30(a) and 229.36(a), a bank des-
ignated as a payable-through bank or pay-
able-at bank and to which the check is sent
for payment or collection is responsible for
the expedited return of checks and notice of
nonpayment requirements of Subpart C. The
payable-through or payable-at bank may
contract with the payor with respect to its
liability in discharging these responsibil-
ities. The Board believes that the EFA Act
makes a clear connection between avail-
ability and the time it takes for checks to be
cleared and returned. Allowing the payable-
through bank additional time to forward
checks to the payor and await return or pay
instructions from the payor would delay the
return of these checks, increasing the risks
to depositary banks. Subpart C places on
payable-through and payable-at banks the
requirements of expedited return based on
the time the payable-through or payable-at
bank received the check for forward collec-
tion.

3. If a check is sent for forward collection
based on the routing number, the bank asso-
ciated with the routing number is a paying
bank for the purposes of Subparts C and D
requirements, including notice of non-
payment, even if the check is not drawn by
a customer of that bank or the check is
fraudulent.

4. The phrase "and to which [the check] is
sent for payment or collection" includes
sending not only the physical check, but in-
formation regarding the check under a trun-
cation arrangement.

5. Federal Reserve Banks and Federal
Home Loan Banks are also paying banks
under all subparts of the regulation with re-
spect to checks payable by them, even
though such banks are not defined as banks
for purposes of Subpart B.

6. In accordance with the Check 21 Act, for
purposes of subpart D and, in connection therewith, subpart A, paying bank includes
the Treasury of the United States or the
United States Postal Service with respect to
a check payable by that entity and sent to
that entity for payment or collection, even
though the Treasury and Postal Service are
not defined as banks for purposes of subparts
B and C. Because the Federal Reserve Banks
act as fiscal agents for the Treasury and the
U.S. Postal Service and in that capacity are
designated as presentment locations for
Treasury checks and U.S. Postal Service
money orders, a Treasury check or U.S.
Postal Service money order presented to a
Federal Reserve Bank is considered to be
presented to the Treasury or U.S. Postal
Service, respectively.

AA. 229.2(aa) Proprietary ATM

1. All deposits at nonproprietary ATMs are
-treated as deposits of nonlocal checks, and
deposits at proprietary ATMs generally are
treated as deposits at banking offices. The
Conference Report on the EFA Act indicates
that the special availability rules for depos-
its received through nonproprietary ATMs are provided because "nonproprietary ATMs
today do not distinguish among check depos-
ts or between check and cash deposits" (H.R. Rep. No. 261, 100th Cong., 1st Sess. at
179 (1987)). Thus, a deposit of any combina-
tion of cash and checks at a nonproprietary
ATM may be treated as if it were a deposit
of nonlocal checks, because the depositary
bank does not know the makeup of the de-
posit and consequently is unable to place dif-
gerent holds on cash, local check, and
nonlocal check deposits made at the ATM.

2. A colloquy between Senators Proxmire
and Dodd during the floor debate on the
Competitive Equality Banking Act (133 Cong.
Rec. S11289 (Aug. 4, 1987)) indicates that
whether a bank operates the ATM is the pri-
mary criterion in determining whether the
ATM is proprietary to that bank. Because a
bank should be capable of ascertaining the
composition of deposits made to an ATM op-
erated by that bank, an exception to the
availability schedules is not warranted for
these deposits. If more than one bank meets
the "owns or operates" criterion, the ATM is

907
considered proprietary to the bank that operates it. For the purpose of this definition, the bank that operates an ATM is the bank that puts checks deposited into the ATM into the forward collection stream. An ATM owned by one or more banks, but operated by a nonbank servicer, is considered proprietary to the bank or banks that own it.

3. The EFA Act also includes location as a factor in determining whether an ATM that is either owned or operated by a bank is proprietary to that bank. The definition of proprietary ATM includes an ATM located on the premises of the bank, either inside the branch or on its outside wall, regardless of whether the ATM is owned or operated by that bank. Because the EFA Act also defines a proprietary ATM as one that is “in close proximity” to the bank, the regulation defines an ATM located within 50 feet of a bank to be proprietary to that bank unless it is identified as being owned or operated by another entity. The Board believes that the statutory proximity test was designed to apply to situations where it would appear to the depositor that the ATM is run by his or her bank, because of the proximity of the ATM to the bank. The Board believes that an ATM located within 50 feet of a banking office would be presumed proprietary to that bank unless it is clearly identified as being owned or operated by another entity.

BB. 229.2(bb) Qualified Returned Check

1. Subpart C requires the paying bank and returning bank(s) to return checks in an expeditious manner. The banks may meet this responsibility by returning a check to the depositary bank by the same general means used for forward collection of a check from the depositary bank to the paying bank. One way to speed the return process is to prepare the returned check for automated processing. Qualified returned checks are identified by placing a “2” in the case of an original check (or a “5” in the case of a substitute check) in position 44 of the qualified return MICR line as a return identifier in accordance with American National Standard Specifications for Placement and Location of MICR Printing, X9.13 (hereinafter “ANS X9.13”) for original checks or American National Standard Specifications for an Image Replacement Document—IRD, X9.100–140 (hereinafter “ANS X9.100–140”) for substitute checks.

2. Generally, under the standard of care imposed by §229.38, a paying or returning bank would be liable for any damages incurred due to misencoding of the routing number, the amount of the check, or return information on a qualified returned check unless the error was due to problems with the depositary bank’s indorsement. (See also discussion of §229.38(c).) A qualified returned check that contains an encoding error would still be a qualified returned check for purposes of the regulation.

3. A qualified returned check need not contain the elements of a check drawn on the depositary bank, such as the name of the depositary bank. Because indorsements and other information on carrier envelopes or strips will not appear on a returned check itself, banks will wish to retain carrier envelopes and/or microfilm or other records of carrier envelopes or strips with their check records.

CC. 229.2(cc) Returning Bank

1. Returning bank is defined to mean any bank (excluding the paying bank and the depositary bank) handling a returned check. A returning bank may or may not be a bank that handled the returned check in the forward collection process. A returning bank includes a bank that agrees to handle a returned check for expeditious return to the depositary bank under §229.31(a). A returning bank is also a collecting bank for the purpose of a collecting bank’s duty to exercise ordinary care under U.C.C. 4–202(b) and is analogous to a collecting bank for purposes of final settlement. (See Commentary to §229.35(b).)

DD. 229.2(dd) Routing Number

1. Each bank is assigned a routing number by an agent of the American Bankers Association. The routing number takes two forms—a fractional form and a nine-digit form. A paying bank is identified by both the fractional form routing number (which normally appears in the upper right hand corner of the check) and the nine-digit form. The nine-digit routing number of the paying bank generally is printed in magnetic ink near the bottom of the check (the MICR strip; see ANSI X9.13–1983). Subpart C requires depositary banks and subsequent collecting banks to place their routing numbers in nine-digit form in their indorsements.

EE. 229.2(ee) [Reserved]

FF. 229.2(ff) [Reserved]

GG. 229.2(gg) Teller’s Check

1. Teller’s check is defined in the EFA Act to mean a check issued by a depository institution and drawn on another depository institution. The definition in the regulation includes not only checks drawn by a bank on another bank, but also checks payable through or at a bank. This would include checks drawn on a nonbank, as long as the check is payable through or at a bank. The definition does not include checks that are drawn by a nonbank on a nonbank even if payable through or at a bank. The definition includes checks provided to a customer of...
the bank in connection with customer deposit account activity, such as account disbursements and interest payments. The definition also includes checks acquired from a bank by a noncustomer for remittance purposes, such as certain loan disbursement checks. The definition excludes checks used by the bank to pay employees or vendors and checks issued by the bank in connection with a payment service, such as a payroll or a bill-paying service. Teller's checks generally are sold by banks to substitute the bank's credit for the customer's credit and thereby enhance the collectibility of the checks. A check issued in connection with a payment service generally is provided as a convenience to the customer rather than as a guarantee of the check's collectibility. In addition, such checks are often more difficult to distinguish from other types of checks than are teller's checks as defined by this regulation.

HH. 229.2(hh) Traveler's Check

1. The EFA Act and regulation require that traveler's checks be treated as cashier's, teller's, or certified checks when a new depositor opens an account. (See §229.13(a); 12 U.S.C. 4003(a)(1)(C).) The EFA Act does not define traveler's check.

2. One element of the definition states that a traveler's check is "drawn on or payable through or at a bank." Sometimes traveler's checks that are not issued by banks do not have any words on them identifying a bank as drawee or paying agent, but instead bear unique routing numbers with an 8000 prefix that identifies a bank as paying agent.

3. Because a traveler's check is payable by, at, or through a bank, it is also a check for purposes of this regulation. When not subject to the next-day availability requirement for new accounts, a traveler's check should be treated as a local or nonlocal check depending on the location of the paying bank. The depositary bank may rely on the designation of the paying bank by the routing number to determine whether local or nonlocal treatment is required.

II. 229.2(ii) Uniform Commercial Code

1. Uniform Commercial Code is defined as the version of the Code adopted by the individual states. For purposes of uniform citation, all citations to the U.C.C. in this part refer to the Official Text as approved by the American Law Institute and the National Conference of Commissioners on Uniform State Laws.

JJ. 229.2(jj) [Reserved]

KK. 229.2(kk) Unit of General Local Government

1. Unit of general local government is defined to include a city, county, parish, town, township, village, or other general purpose political subdivision of a state. The term does not include special purpose units, such as school districts, water districts, or Indian nations.

LL. 229.2(ll) Wire Transfer

1. The EFA Act delegates to the Board the authority to define the term wire transfer. The regulation defines wire transfer as an unconditional order to a bank to pay a fixed or determinable amount of money to a beneficiary, upon receipt or on a day stated in the order, that is transmitted by electronic or other means over certain networks or on the books of banks and that is used primarily to transfer funds between commercial accounts. "Unconditional" means that no condition, such as presentation of documents, must be met before the bank receiving the order is to make payment. A wire transfer may be transmitted by electronic or other means. "Electronic means" include computer-to-computer links, on-line terminals, telegrams (including TWX, TELEX, or similar methods of communication), telephone calls, or other similar methods. Fedwire (the Federal Reserve's wire transfer network), CHIPS (Clearing House Interbank Payments System, operated by the New York Clearing House), and book transfers among banks or within one bank are covered by this definition. Credits for credit and debit card transactions are not wire transfers. The term wire transfer excludes electronic fund transfers as that term is defined by the Electronic Funds Transfer Act.

MM. 229.2(mm) [Reserved]

NN. 229.2(nn) Good Faith

1. This definition of good faith derives from U.C.C. 3–103(a)(4).

OO. 229.2(oo) Interest Compensation

1. This calculation of interest compensation derives from U.C.C. 4A–506(b). (See §§ 229.34(e) and 229.36(f).)

PP. 229.2(pp) Contractual Branch

1. When one bank arranges for another bank to accept deposits on its behalf, the second bank is a contractual branch of the first bank. For further discussion of contractual branch deposits and related disclosures, see §§229.2(s) and 229.19(a) of the regulation and the commentary to §§229.2(s), 229.10(c), 229.14(a), 229.16(a), 229.18(b), and 229.19(a).
check collection and return process.

That original check at various points in the substitute checks could be created to represent a payment transaction. However, multiple sub-

stitute checks could be created to represent a particular payment transaction from a substitute check. There is only one original check for any particular pay-

ament check or substitute check. There is only one representation that is derived from an origi-

nate check or other paper or electronic representation of a substitute check or, in lieu thereof, the first paper or electronic representation of such substitute check.

Examples.

a. A bank receives electronic presentment of a substitute check that has been con-

verted to electronic form and charges the customer’s account for that electronic item. The periodic account statement that the bank provides to the customer includes in-

formation about the electronically-presented substitute check in a line-item list describ-

ing all the checks the bank charged to the customer’s account during the previous month. The electronic file that the bank re-

ceived for presentment and charged to the customer’s account would be an electronic representation of a substitute check, and the line-item appearing on the customer’s account statement would be a paper representation of a substitute check.

b. A paying bank receives and settles for a substitute check and then realizes that its settle-

ment was for the wrong amount. The paying bank sends an adjustment request to the presenting bank to correct the error. The adjustment request is not a paper or elec-

tronic representation of a substitute check under the definition because it is not being handled for collection or return as a check. Rather, it is a separate request that is re-

lated to a check. As a result, no substitute check warranty, indemnity, or expedited re-

credit rights attach to the adjustment.

Examples.

a. Bank A, by agreement, sends an elec-

tronic check file for collection to Bank B. Bank B chooses to use that file to print a substitute check that meets the require-

ments of §229.2aaa. Bank B is the recon-

verting bank as of the time it prints the substitute check.

d. A depositary bank’s customer, which is a nonbank business, receives a check for pay-

ment, truncates that original check, and cre-

ates a substitute check to deposit with its bank. The depositary bank receives that sub-

stitute check from its customer and it is the first bank to handle the substitute check. The depositary bank becomes the recon-

verting bank as of the time that it transfers or presents the substitute check (or in lieu thereof the first paper or electronic rep-

resentation of the substitute check) for for-

ward collection.

d. A bank is the payable-through bank for checks that are drawn on a nonbank payor, which is the bank’s customer. When the cus-

tomer decides not to pay a check that is pay-

able through the bank, the customer creates
a substitute check for purposes of return. The payable-through bank becomes the reconverting bank when it returns the substitute check (or in lieu thereof the first paper or electronic representation of the substitute check) to a returning bank or the depository bank.

e. A paying bank returns a substitute check to the depository bank, which in turn gives that substitute check back to its nonbank customer. That customer then redeposits the substitute check for collection at a different bank. Because the substitute check was already transferred by a bank, the second depository bank does not become a reconverting bank when it transfers or presents that substitute check for collection.

In some cases there will be one or more banks between the truncating bank and the reconverting bank.

Example.

A depository bank truncates the original check and sends an electronic representation of the original check for collection to an intermediary bank. The intermediary bank sends the electronic representation of the original check to the presenting bank, which creates a substitute check to present to the paying bank. The presenting bank is the reconverting bank.

A check could move from electronic form to substitute check form several times during the collection and return process. It therefore is possible that there could be multiple substitute checks, and thus multiple reconverting banks, with respect to the same underlying payment.

AAA. 229.2(aaa) Substitute Check

1. "A paper reproduction of an original check" could include a reproduction created directly from the original check or a reproduction of the original check that is created from some other source that contains an image of the original check, such as an electronic representation of an original check or substitute check, or a previous substitute check.

2. Because a substitute check must be a piece of paper, an electronic file or electronic check image that has not yet been printed in accordance with the substitute check definition is not a substitute check.

3. Because a substitute check must be a representation of a check, a paper reproduction of something that is not a check cannot be a substitute check. For example, a savings bond or a check drawn on a non-U.S. branch of a foreign bank cannot be reconverted to a substitute check.

4. As described in §229.51(b) and the commentary thereto, a reconverting bank is required to ensure that a substitute check contains all indorsements applied by previous parties that handled the check in any form.

Therefore, the image of the original check that appears on the back of a substitute check would include indorsements that were physically applied to the original check before an image of the original check was captured. An indorsement that was applied physically to the original check after an image of the original check was captured would be conveyed as an electronic indorsement (see paragraph 3 of the commentary to §229.35(a)). The back of the substitute check would contain a physical representation of any indorsements that were applied electronically to the check after an image of the check was captured but before creation of the substitute check.

Example.

Bank A, which is the depository bank, captures an image of an original check, indorses it electronically and, by agreement, transmits to Bank B an electronic image of the check accompanied by the electronic indorsement. Bank B then creates a substitute check to send to Bank C. The back of the substitute check created by Bank B must contain a representation of the indorsement previously applied electronically by Bank A and Bank B’s own indorsement. (For more information on indorsement requirements, see §229.35, appendix D, and the commentary thereto.)

Some substitute checks will not be created directly from the original check, but rather will be created from a previous substitute check. The back of a subsequent substitute check will contain an image of the full length of the back of the previous substitute check. ANS X9.100-140 requires preservation of the full length of the back of the previous substitute check in order to preserve previous indorsements and reconverting bank identifications. By contrast, the front of a subsequent substitute check will not contain an image of the entire previous substitute check. Rather, the image field of the subsequent substitute check will contain the image of the front of the original check that appeared on the previous substitute check at the time the previous substitute check was converted to electronic form. The portions of the front of the subsequent substitute check other than the image field will contain information applied by the subsequent reconverting bank, such as its reconverting bank identification, the MICR line, the legal equivalence legend, and optional security information.

Examples.

a. The back of a subsequent substitute check would contain the following indorsements, all of which were preserved through the image of the back of the previous substitute check: (1) The indorsements that were applied physically to
the original check at the time it attempts to create a substitute check. A bank that receives a properly-encoded substitute check may further encode that item but does so subject to the encoding warranties in Regulation CC and the U.C.C.

8. A substitute check’s MICR line could contain information in addition to the information required at the time the substitute check is created. For example, if the amount field of the original check was not encoded and the substitute check therefore did not, when created, have an encoded amount field, the MICR line of the substitute check later could be amount-encoded.

9. A bank may receive a substitute check that contains a MICR-line variation but nonetheless meets the MICR-line replication requirements of §229.2(aa)(2) because that variation is permitted by ANS X9.100-140. If such a substitute check contains a MICR-line error, a bank that receives it may, but is not required to, repair that error. Such a repair must be made in accordance with ANS X9.100-140 for repairing a MICR line, which generally allows a bank to correct an error by applying a strip that may or may not contain information in all fields encoded on the check’s MICR line. A bank’s repair of a MICR-line error on a substitute check is subject to the encoding warranties in Regulation CC and the U.C.C.

10. A substitute check must conform to all the generally applicable industry standards for substitute checks set forth in ANS X9.100-140, which incorporates other industry standards by reference. Thus, multiple substitute check images contained on the same page of an account statement are not substitute checks.

BBB. 229.2(bbb) Sufficient Copy and Copy

1. A copy must be a paper reproduction of a check. An electronic image therefore is not a copy or a sufficient copy. However, if a customer has agreed to receive such information electronically, a bank that is required to provide an original check or sufficient copy may satisfy that requirement by providing an electronic image in accordance with §229.58 and the commentary thereto.

2. A bank under §229.53(b)(3) may limit its liability for an indemnity claim and under §§229.54(e)(2) and 229.55(c)(2) may respond to an expedited recredit claim by providing the claimant with a copy of a check that accurately represents all of the information on the front and back of the original check as of the time the original check was truncated or that otherwise is sufficient to determine the validity of the claim against the bank.
Examples.

a. A copy of an original check that accurately represents all the information on the front and back of the original check as of the time of truncation would constitute a sufficient copy if that copy resolved the claim. For example, if resolution of the claim required accurate payment and indorsement information, an accurate copy of the front and back of the original check (including but not limited to a substitute check) would be a sufficient copy.

b. A copy of the original check that does not accurately represent all the information on both the front and back of the original check also could be a sufficient copy if such copy contained all the information necessary to determine the validity of the relevant claim. For instance, if a consumer received a substitute check that contained a blurry image of a legible original check, the consumer might seek an expedited recredit because his or her account was charged for $1,000, but he or she believed that the check was written for only $100. If the amount that appeared on the front of the original check was legible, an accurate copy of only the front of the original check that showed the amount of the check would be sufficient to determine whether or not the consumer’s claim regarding the amount of the check was valid.

ccc. 229.2(ccc) Transfer and Consideration

1. Under §§ 229.52 and 229.53, a bank is responsible for the warranties and indemnity when it transfers, presents, or returns a substitute check (or a paper or electronic representation thereof) for consideration. Drawers and other nonbank persons that receive checks from a bank are not transferees as those terms are defined in the U.C.C. However, the Check 21 Act clearly contemplates that such nonbank persons that receive substitute checks (or representations thereof) from a bank will receive the warranties and indemnity from all previous banks that handled the check. To ensure that these parties are covered by the substitute check warranties and indemnity in the manner contemplated by the Check 21 Act, §229.2(ccc) incorporates the U.C.C. definitions of the term transfer and consideration by reference and expands those definitions to cover a broader range of situations. Delivering a check to a nonbank that is acting on behalf of a bank (such as a third-party check processor or presentment point) is a transfer of the check to that bank.

Examples.

a. A paying bank pays a substitute check and then provides that paid substitute check (or a representation thereof) to a drawer with a periodic statement. Under the expanded definitions, the paying bank thereby transfers the substitute check (or representation thereof) to the drawer for consideration and makes the substitute check warranties described in §229.52. A drawer that suffers a loss due to receipt of a substitute check may have warranty, indemnity, and, if the drawer is a consumer, expedited recredit rights under the Check 21 Act and subpart D. A drawer that suffers a loss due to receipt of a paper or electronic representation of a substitute check would receive the substitute check warranties but would not have indemnity or expedited recredit rights.

b. The expanded definitions also operate such that a paying bank that pays an original check (or a representation thereof) and then creates a substitute check for presentation to the drawer with a periodic statement transfers the substitute check for consideration and thereby provides the warranties and indemnity.

c. The expanded definitions ensure that a bank that receives a returned check in any form and then provides a substitute check to the depositor gives the substitute check warranties and indemnity to the depositor.

d. The expanded definitions apply to substitute checks representing original checks that are not drawn on deposit accounts, such as checks used to access a credit card or a home equity line of credit.
Pt. 229, App. E

2. A truncating bank does not make the subpart D warranties and indemnity unless it also is the reconverting bank. Therefore, a bank that truncates the original check and sends an electronic file to a collecting bank does not provide subpart D protections to the recipient of that electronic item. However, a recipient of an electronic item may protect itself against losses associated with that item by agreement with the truncating bank.

F.F.F. 229.2(fff) Remotely Created Check

1. A check authorized by a consumer over the telephone that is not created by the paying bank and bears a legend on the signature line, such as “Authorized by Drawer,” is an example of a remotely created check. A check that bears the signature applied, or purported to be applied, by the person on whose account the check is drawn is not a remotely created check. A typical forged check, such as a stolen personal check fraudulently signed by a person other than the drawer, is not covered by the definition of a remotely created check.

2. The term signature as used in this definition has the meaning set forth at U.C.C. 3–401. The term “applied by” refers to the physical act of placing the signature on the check.

3. The definition of a “remotely created check” differs from the definition of a “remotely created consumer item” under the U.C.C. A “remotely created check” may be drawn on an account held by a consumer, corporation, unincorporated company, partnership, government unit or instrumentality, trust, or any other entity or organization. A “remotely created consumer item” under the U.C.C., however, must be drawn on a consumer account.

4. Under Regulation CC (12 CFR part 229), the term “check” includes a negotiable demand draft drawn on or payable through or at an office of a bank. In the case of a “payable at” check, the signature of the person on whose account the check is drawn would include the signature of the payor institution or the signatures of the customers who are authorized to draw checks on that account, depending on the arrangements between the “payable through” or “payable at” bank, the payor institution, and the customers.

5. The definition of a remotely created check includes a remotely created check that has been reconverted to a substitute check.

12 CFR Ch. II (1–1–10 Edition)

III. Section 229.3 Administrative Enforcement

[Reserved]

IV. Section 229.10 Next-Day Availability

A. Business Days and Banking Days

1. This section, as well as other provisions of this subpart governing the availability of funds, provides that funds must be made available for withdrawal not later than a specified number of business days following the banking day on which the funds are deposited. Thus, a deposit is considered made only on a banking day, i.e., a day that the bank is open to the public for carrying on substantially all of its banking functions. For example, if a deposit is made at an ATM on a Saturday, Sunday, or other day on which the bank is closed to the public, the deposit is considered received on that bank’s next banking day.

2. Nevertheless, business days are used to determine the number of days following the banking day of deposit that funds must be available for withdrawal. For example, if a deposit of a local check were made on a Monday, the availability schedule requires that funds be available for withdrawal on the second business day after deposit. Therefore, funds must be made available on Wednesday regardless of whether the bank was closed on Tuesday for other than a standard legal holiday as specified in the definition of business day.

B. 229.10(a) Cash Deposits

1. This paragraph implements the EFA Act’s requirement for next-day availability for cash deposits to accounts at a depositary bank “staffed by individuals employed by such institution.”2 Under this paragraph, cash deposited in an account at a staffed teller station on a Monday must become available for withdrawal by the start of business on Tuesday. It must become available for withdrawal by the start of business on Wednesday if it is deposited by mail, at a proprietary ATM, or by other means other than at a staffed teller station.

C. 229.10(b) Electronic Payments

1. The EFA Act provides next-day availability for funds received for deposit by wire transfer. The regulation uses the term electronic payment, rather than wire transfer, to include both wire transfers and ACH credit transfers under the next-day availability requirement. (See discussion of definitions of automated clearinghouse, electronic payment, and wire transfer in §229.2.)

2 Nothing in the EFA Act or this regulation affects terms of account arrangements, such as negotiable order of withdrawal accounts, which may require prior notice of withdrawal. (See 12 CFR 204.2(a)(2).)
2. The EFA Act requires that funds received by wire transfer be available for withdrawal not later than the business day following the day a wire transfer is received. For the purposes of this paragraph, a bank receives an electronic payment when the bank receives both payment in finally collected funds and the payment instructions indicating the customer accounts to be credited and the amount to be credited to each account. For example, in the case of Fedwire, the bank receives finally collected funds at the time the payment is made. (See 12 CFR 210.31.) Finally collected funds generally are received for an ACH credit transfer when they are posted to the receiving bank’s account on the settlement day. In certain cases, the bank receiving ACH credit payments will not receive the specific payment instructions indicating which accounts to credit until after settlement day. In these cases, the payments are not considered received until the information on the account and amount to be credited is received.

3. This paragraph also establishes the extent to which an electronic payment is considered made. Thus, if a participant on a private network fails to settle and the receiving bank receives finally settled funds representing only a partial amount of the payment, it must make only the amount that it actually received available for withdrawal.

4. The availability requirements of this regulation do not preempt or invalidate other rules, regulations, or agreements which require funds to be made available on a more prompt basis. For example, the next-day availability requirement for ACH credits in this section does not preempt ACH association rules and Treasury regulations (31 CFR part 210), which provide that the proceeds of these credit payments be available to the recipient for withdrawal on the day the bank receives the funds.

D. 229.10(c) Certain Check Deposits

1. The EFA Act generally requires that funds be made available on the business day following the banking day of deposit for Treasury checks, state and local government checks, cashier’s checks, certified checks, teller’s checks, and “on us” checks, under specified conditions. (Treasury checks are checks drawn on the Treasury of the United States and have a routing number beginning with the digits “0000.”) This section also requires next-day availability for additional types of checks not addressed in the EFA Act. Checks drawn on a Federal Reserve Bank or a Federal Home Loan Bank and U.S. Postal Service money orders also must be made available on the first business day following the day of deposit under specified conditions. For the purposes of this section, all checks drawn on a Federal Reserve Bank or a Federal Home Loan Bank that contain in the MICR line a routing number that is listed in appendix A are subject to the next-day availability requirements. For checks deposited in an account held by a payee of the check and in person to an employee of the depository bank, regardless of the purposes for which the checks were issued. For new accounts, even if the new account exception is not invoked, traveler’s checks must be included in the $5,000 aggregation of checks deposited on any one banking day that are subject to the next-day availability requirement. (See §229.13(a).)

2. Deposit in Account of Payee. One statutory condition to receipt of next-day availability of Treasury checks, state and local government checks, cashier’s checks, certified checks, and teller’s checks is that the check must be “endorsed only by the person to whom it was issued.” The EFA Act could be interpreted to include a check that has been indorsed in blank and deposited into an account of a third party that is not named as payee. The Board believes that such a check presents greater risks than a check deposited by the payee and that Congress did not intend to require next-day availability for such checks. The regulation, therefore, provides that funds must be available on the business day following deposit only if the check is deposited in an account held by a payee of the check. For the purposes of this section, payee does not include transferees other than named payees. The regulation also applies this condition to Postal Service money orders and checks drawn on Federal Reserve Banks and Federal Home Loan Banks.

3. Deposits Made to an Employee of the Depository Bank.

a. In most cases, next-day availability of the proceeds of checks subject to this section is conditioned on the deposit of these checks in person to an employee of the depository bank. If the deposit is not made to an employee of the depository bank on the premises of such bank, the proceeds of the deposit must be made available for withdrawal by the start of business on the second business day after deposit, under paragraph (c)(2) of this section. For example, second-day availability also may be allowed for deposits picked up by an employee of the depository bank at the customer’s premises; such deposits would be considered made upon receipt at the branch or other location of the depository bank. Employees of a contractual branch would not be considered employees of the depository bank for the purposes of this regulation.
and deposits at contractual branches would be treated the same as deposits to a proprietary ATM for the purposes of this regulation. (See also, Commentary to §229.19(a).)

b. In the case of Treasury checks, the EFA Act and regulation do not condition the receipt of next-day availability to deposits at staffed teller stations. Therefore, Treasury checks deposited at a proprietary ATM must be accorded next-day availability, if the check is deposited to an account of a payee of the check.

c. A depositary bank may aggregate all local and nonlocal check deposits made by the customer on a given banking day for the purposes of the $100 next-day availability rule. Thus, if a customer has two accounts at the depositary bank, and on a particular banking day makes deposits to each account, $100 of the total deposited to the two accounts must be made available on the business day after deposit. Banks may aggregate deposits to individual and joint accounts for the purposes of this provision.

d. If the customer deposits a $500 local check, and gets $100 cash back at the time of deposit, the bank need not make an additional $100 available for withdrawal on the following day. Similarly, if the customer depositing the local check has a negative book balance, or negative available balance in its account at the time of deposit, the $100 that must be available on the next business day may be made available by applying the $100 to the negative balance, rather than making the $100 available for withdrawal by cash or check on the following day.

5. First $100.

a. The EFA Act and regulation also require that up to $100 of the aggregate deposit by check or checks not subject to next-day availability on any one banking day be made available on the next business day. For example, if $70 were deposited in an account by check(s) on a Monday, the entire $70 must be available for withdrawal at the start of business on Tuesday. If $200 were deposited by check(s) on a Monday, this section requires that $100 of the funds be available for withdrawal at the start of business on Tuesday. The portion of the customer’s deposit to which the $100 must be applied is at the discretion of the depositary bank, as long as it is not applied to any checks subject to next-day availability. The $100 next-day availability rule does not apply to deposits at nonproprietary ATMs.

b. The $100 that must be made available under this rule is in addition to the amount that must be made available for withdrawal on the business day after deposit under other provisions of this section. For example, if a customer deposits a $1,000 Treasury check, and a $1,000 local check in its account on Monday, $1,100 must be made available for withdrawal on Tuesday—the proceeds of the $1,000 Treasury check, as well as the first $100 of the local check.

c. A depositary bank may aggregate all local and nonlocal check deposits made by the customer on a given banking day for the purposes of the $100 next-day availability.

d. A bank may meet this requirement by providing customers with an order form for providing customers with an order form for
the special deposit slips and allowing sufficient time for the customer to order and receive the slips before this condition is imposed. If a bank provides deposit slips in its branches for use by its customers, it also must provide the special deposit slips in the branches. If special deposit envelopes are required for deposits at an ATM, the bank must provide such envelopes at the ATM.

e. Generally, a teller is not required to advise depositors of the availability of special deposit slips merely because checks requiring special deposit slips for next-day availability are deposited without such slips. If a bank provides the special deposit slips only upon the request of a depositor, however, the teller must advise the depositor of the availability of the special deposit slips, or the bank must post a notice advising customers that the slips are available upon request. Such notice need not be posted at each teller window, but the notice must be posted in a place where consumers seeking to make deposits are likely to see it before making their deposits. For example, the notice might be posted at the point where the line forms for teller service in the lobby. The notice is not required at any drive-through teller windows nor is it required at night depository locations, or at locations where consumer deposits are not accepted. If a bank prepares a deposit for a depositor, it must use a special deposit slip where appropriate. A bank may require the customer to segregate the checks subject to next-day availability for which special deposit slips could be required, and to indicate on a regular deposit slip that such checks are being deposited, if the bank so instructs its customers in its initial disclosure.

VI. Section 229.11 [Reserved]

VII. Section 229.12 Availability Schedule

A. 229.12(a) Effective Date

1. The availability schedule set forth in this section supersedes the temporary schedule that was effective September 1, 1989, through August 31, 1990.

B. 229.12(b) Local Checks and Certain Other Checks

1. Local checks must be made available for withdrawal not later than the second business day following the banking day on which the checks were deposited.

2. In addition, the proceeds of Treasury checks and U.S. Postal Service money orders not subject to next-day (or second-day) availability under §229.10(c), checks drawn on Federal Reserve Banks and Federal Home Loan Banks, checks drawn by a state or unit of general local government, cashier’s checks, certified checks, and teller’s checks not subject to next-day (or second-day) availability under §229.10(c) and payable in the same check processing region as the depository bank, must be made available for withdrawal by the second business day following deposit.

3. Exceptions are made for withdrawals by cash or similar means and for deposits in banks located outside the 48 contiguous states. Thus, the proceeds of a local check deposited on a Monday generally must be made available for withdrawal on Wednesday.

C. 229.12(c) Nonlocal Checks

1. Nonlocal checks must be made available for withdrawal not later than the fifth business day following deposit, i.e., proceeds of a nonlocal check deposited on a Monday must be made available for withdrawal on the following Monday. In addition, a check described in §229.10(c) that does not meet the conditions for next-day availability (or second-day availability) is treated as a nonlocal check, if the check is drawn on or payable through or at a nonlocal paying bank. Adjustments are made to the schedule for withdrawals by cash or similar means and deposits in banks located outside the 48 contiguous states.

2. Reduction in Schedules.

a. Section 603(d)(1) of the EFA Act (12 U.S.C. 4002(d)(1)) requires the Board to reduce the statutory schedules for any category of checks where most of those checks would be returned in a shorter period of time than provided in the schedules. The conferees indicated that “if the new system makes it possible for two-thirds of the items of a category of checks to meet this test in a shorter period of time, then the Federal Reserve must shorten the schedules accordingly.” H.R. Rep. No. 261, 101st Cong., 1st Sess. at 179 (1987).

b. Reduced schedules are provided for certain nonlocal checks where significant improvements can be made to the EFA Act’s schedules due to transportation arrangements or proximity between the check processing regions of the depository bank and the paying bank, allowing for faster collection and return. Appendix B sets forth the specific reduction of schedules applicable to banks located in certain check processing regions.

c. A reduction in schedules may apply even in those cases where the determination that the check is nonlocal cannot be made based on the routing number on the check. For example, a nonlocal credit union payable-through share draft may be subject to a reduction in schedules if the routing number of the payable-through bank that appears on the draft is included in appendix B, even though the determination that the payable-through share draft is nonlocal is based on the location of the credit union and not the routing number on the draft.
1. The EFA Act provides an adjustment to the availability rules for cash withdrawals. Funds from local and nonlocal checks need not be available for cash withdrawal until 5:00 p.m. on the day specified in the schedule. At 5:00 p.m., $400 of the deposit must be made available for cash withdrawal. This $400 is in addition to the first $100 of a day’s deposit, which must be made available for withdrawal at the start of business on the first business day following the deposit. If the proceeds of local and nonlocal checks become available for withdrawal on the same business day, the $400 withdrawal limitation applies to the aggregate amount of the funds that became available for withdrawal on that day. The remainder of the funds must be available for cash withdrawal at the start of business on the business day following the business day specified in the schedule.

2. The EFA Act recognizes that the $400 that must be provided on the day specified in the schedule may exceed a bank’s daily ATM cash withdrawal limit, and explicitly provides that the EFA Act does not supersede the bank’s policy in this regard. The Board believes that the rationale for accommodating a bank’s ATM withdrawal limit also applies to other cash withdrawal limits established by that bank. Section 229.19(c)(4) of the regulation addresses the relation between a bank’s cash withdrawal limit (for over-the-counter cash withdrawals as well as ATM cash withdrawals) and the requirements of this subpart.

3. The Board believes that the Congress included this special cash withdrawal rule to provide a depositary bank with additional time to learn of the nonpayment of a check before it must make funds available to its customer. If a customer deposits a local check on a Monday, and that check is returned by the paying bank, the depositary bank may not receive the returned check until Thursday, the day after funds for a local check ordinarily must be made available for withdrawal. The intent of the special cash withdrawal rule is to minimize this risk to the depositary bank. For this rule to minimize the depositary bank’s risk, it must apply not only to cash withdrawals, but also to withdrawals by other means that result in an irrevocable debit to the customer’s account or commitment to pay by the bank on the customer’s behalf during the day. Thus, the cash withdrawal rule also includes withdrawals by electronic payment, issuance of a cashier’s or teller’s check, certification of a check, or other irrevocable commitment to pay, such as authorization of an on-line point-of-sale debit. The rule would also apply to checks presented over the counter for payment on the day of presentment by the depositor or another person. Such checks could not be dishonored for insufficient funds if an amount sufficient to cover the check had become available for cash withdrawal under this rule; however, payment of such checks would be subject to the bank’s cut-off hour established under U.C.C. 4-108. The cash withdrawal rule does not apply to checks and other provisional debits presented to the bank for payment that the bank has the right to return.

E. 229.12(e) Extension of Schedule for Certain Deposits in Alaska, Hawaii, Puerto Rico, and the U.S. Virgin Islands

1. The EFA Act and regulation provide an extension of the availability schedules for check deposits at a branch of a bank if the branch is located in Alaska, Hawaii, Puerto Rico, or the U.S. Virgin Islands. The schedules for local checks, nonlocal checks (including nonlocal checks subject to the reduced schedules of appendix E), and deposits at nonproprietary ATMs are extended by one business day for checks deposited to accounts in banks located in these jurisdictions that are drawn on or payable at or through a paying bank not located in the same jurisdiction as the depositary bank. For example, a check deposited in a bank in Hawaii and drawn on a San Francisco paying bank must be made available for withdrawal not later than the third business day following deposit. This extension does not apply to deposits that must be made available for withdrawal on the next business day.

2. The Congress did not provide this extension of the schedules to checks drawn on a paying bank located in Alaska, Hawaii, Puerto Rico, or the U.S. Virgin Islands and deposited in an account at a depositary bank in the 48 contiguous states. Therefore, a check deposited in a San Francisco bank drawn on a Hawaii paying bank must be made available for withdrawal not later than the second rather than the third business day following deposit.

F. 229.12(f) Deposits at Nonproprietary ATMs

1. The EFA Act and regulation provide a special rule for deposits made at nonproprietary ATMs. This paragraph does not apply to deposits made at proprietary ATMs. All deposits at a nonproprietary ATM must be made available for withdrawal by the fifth business day following the banking day of deposit. For example, a deposit made at a nonproprietary ATM on a Monday, including any deposit by cash or checks that would otherwise be subject to next-day (or second-day) availability, must be made available for withdrawal not later than Monday of the following week. The provisions of §229.10(c)(iii)(vii) requiring a depositary bank...
Federal Reserve System
Pt. 229, App. E

VII. Section 229.13 Exceptions

A. Introduction

1. While certain safeguard exceptions (such as those for new accounts and checks the bank has reasonable cause to believe are un crédible) are established in the EFA Act, the Congress gave the Board the discretion to determine whether certain other exceptions should be included in its regulations. Specifically, the EFA Act gives the Board the authority to establish exceptions to the schedules for large or redeposited checks and for accounts that have been repeatedly overdrawn. These exceptions apply to local and nonlocal checks as well as to checks that must otherwise be accorded next-day (or second-day) availability under §229.10(c).

2. Many checks will not be returned to the depository bank by the time funds must be made available for withdrawal under the next-day (or second-day), local, and nonlocal schedules. In order to reduce risk to depository banks, the Board has exercised its statutory authority to adopt these exceptions to the schedules in the regulation to allow the depository bank to extend the time within which it is required to make funds available.

3. The EFA Act also gives the Board the authority to suspend the schedules for any classification of checks, if the schedules result in an unacceptable level of fraud losses. The Board will adopt regulations or issue orders to implement this statutory authority if and when circumstances requiring its implementation arise.

B. 229.13(a) New Accounts

1. Definition of New Account.

a. The EFA Act provides an exception to the availability schedule for new accounts. An account is defined as a new account during the first 30 calendar days after the account is opened. An account is opened when the first deposit is made to the account. An account is not considered a new account, however, if each customer on the account has a transaction account relationship with the depository bank, including a dormant account, that is at least 30 calendar days old or if each customer has had an established transaction account with the depository bank within the 30 calendar days prior to opening the second account.

b. The following are examples of what constitutes, and does not constitute, a new account:

i. If the customer has an established account with a bank and opens a second account with the bank, the second account is not subject to the new account exception.

ii. If a customer’s account were closed and another account opened as a successor to the original account (due, for example, to the theft of checks or a debit card used to access the original account), the successor account is not subject to the new account exception, assuming the previous account relationship is at least 30 days old. Similarly, if a customer closes an established account and opens a separate account within 30 days, the new account is not subject to the new account exception.

iii. If a customer has a savings deposit or other deposit that is not an account (as that term is defined in §229.2(a)) at the bank, and opens an account, the account is subject to the new account exception.

iv. If a person that is authorized to sign on a corporate account (but has no other relationship with the bank) opens a personal account, the personal account is subject to the new account exception.

v. If a customer has an established joint account at a bank, and subsequently opens an individual account with that bank, the individual account is not subject to the new account exception.

vi. If two customers that each have an established individual account with the bank open a joint account, the joint account is not subject to the new account exception. If one of the customers on the account has no current or recent established account relationship with the bank, however, the joint account is subject to the new account exception, even if the other individual on the account has an established account relationship with the bank.

2. Rules Applicable to New Accounts.

a. During the new account exception period, the schedules for local and nonlocal checks do not apply, and, unlike the other exceptions provided in this section, the regulation provides no maximum time frames within which the proceeds of these deposits must be made available for withdrawal. Maximum times within which funds must be available for withdrawal during the new account period are provided, however, for certain other deposits. Deposits received by cash and electronic payments must be made available for withdrawal in accordance with §229.10.

b. Special rules also apply to deposits of Treasury checks, U.S. Postal Service money orders, checks drawn on Federal Reserve Banks and Federal Home Loan Banks, state and local government checks, cashier’s checks, certified checks, teller’s checks, and, for the purposes of the new account exception only, traveler’s checks. The first $5,000 of funds deposited to a new account on any one banking day by these check deposits must be made available for withdrawal in accordance with §229.10(c). Thus, the first $5,000...
of the proceeds of these check deposits must be made available on the first business day following deposit, if the deposit is made in person to an employee of the depositary bank and the other conditions of next-day availability are met. Funds must be made available on the second business day after deposit for deposits that are not made over the counter, in accordance with §229.10(c)(2).

(Proceeds of Treasury check deposits must be made available on the first business day after deposit, even if the check is not deposited in person to an employee of the depositary bank.) Funds in excess of the first $5,000 deposited by these types of checks on a banking day must be available for withdrawal not later than the ninth business day following the banking day of deposit. The requirements of §229.10(c)(1)(vi) and (vii) that "on us" checks and the first $100 of a day's deposits be made available for withdrawal on the next business day do not apply during the new account period.

3. Representation by Customer. The depositary bank may rely on the representation of the customer that the customer has no established account relationship with the bank, and has not had any such account relationship within the past 30 days, to determine whether an account is subject to the new account exception.

C. 229.13(b) Large Deposits

1. Under the large deposit exception, a depositary bank may extend the hold placed on check deposits to the extent that the amount of the aggregate deposit on any banking day exceeds $5,000. This exception applies to local and nonlocal checks, as well as to checks that otherwise would be made available on the next (or second) business day after the day of deposit under §229.10(c). Although the first $5,000 of a day's deposit is subject to the availability otherwise provided for checks, the amount in excess of $5,000 may be held for an additional period of time as provided in §229.13(h). When the large deposit exception is applied to deposits composed of a mix of checks that would otherwise be subject to differing availability schedules, the depositary bank has the discretion to choose the portion of the deposit to which it applies the exception. Deposits by cash or electronic payment are not subject to this exception for large deposits.

2. The following example illustrates the operation of the large deposit exception. If a customer deposits $2,000 in cash and a $9,000 local check on a Monday, $2,100 (the proceeds of the cash deposit and $100 from the local check deposit) must be made available for withdrawal on Tuesday. An additional $4,900 of the proceeds of the local check must be available for withdrawal on Wednesday in accordance with the local schedule, and the remaining $4,000 may be held for an additional period of time under the large deposit exception.

3. Where a customer has multiple accounts with a depositary bank, the bank may apply the large deposit exception to the aggregate deposits to all of the customer's accounts, even if the customer is not the sole holder of the accounts and not all of the holders of the customer's accounts are the same. Thus, a depositary bank may aggregate the deposits made to two individual accounts in the same name, to an individual and a joint account with one common name, or to two joint accounts with at least one common name for the purpose of applying the large deposit exception. Aggregation of deposits to multiple accounts is permitted because the Board believes that the risk to the depositary bank associated with large deposits is similar regardless of how the deposits are allocated among the customer's accounts.

D. 229.13(c) Redeemed Checks

1. The EFA Act gives the Board the authority to promulgate an exception to the schedule for checks that have been returned unpaid and redeposited. Section 229.13(c) provides such an exception for checks that have been returned unpaid and redeposited by the customer or the depositary bank. This exception applies to local and nonlocal checks, as well as to checks that would otherwise be made available on the next (or second) business day after the day of deposit under §229.10(c).

2. This exception addresses the increased risk to the depositary bank that checks that have been returned once will be uncollectible when they are presented to the paying bank a second time. The Board, however, does not believe that this increased risk is present for checks that have been returned due to a missing indorsement. Thus, the exception does not apply to checks returned unpaid due to missing indorsements and redeposited after the missing indorsement has been obtained, if the reason for return indicated on the check (see §229.30(d)) states that it was returned due to a missing indorsement. For the same reason, this exception does not apply to a check returned because it was postdated (future dated), if the reason for return indicated on the check states that it was returned because it was postdated, and if it is no longer postdated when redeposited.

3. To determine when funds must be made available for withdrawal, the banking day on which the check is redeposited is considered to be the day of deposit. A depositary bank that made $100 of a check available for withdrawal under §229.10(c)(1)(vii) can charge back the full amount of the check, including the $100, if the check is returned unpaid, and the $100 need not be made available again if the check is redeposited.
Federal Reserve System

E. 229.13(d) Repeated Overdrafts

1. The EFA Act gives the Board the authority to establish an exception for "deposit accounts which have been overdrawn repeatedly." This paragraph provides two tests to determine what constitutes repeated overdrafts. Under the first test, a customer's accounts are considered repeatedly overdrawn if, on six banking days within the preceding six months, the available balance in any account, held by the customer is negative, or the balance would have become negative if checks or other charges to the account had been paid, rather than returned. This test can be met based on separate occurrences (e.g., checks that are returned for insufficient funds on six different days), or based on one occurrence (e.g., a negative balance that remains on the customer's account for six banking days). If the bank dishonors a check that otherwise would have created a negative balance, however, the incident is considered an overdraft only on that day.

2. The second test addresses substantial overdrafts. Such overdrafts increase the risk to the depositary bank of dealing with the repeated overdrafter. Under this test, a customer incurs repeated overdrafts if, on two banking days within the preceding six months, the available balance in any account held by the customer is negative in an amount of $5,000 or more, or would have become negative in an amount of $5,000 or more if checks or other charges to the account had been paid.

3. The exception relates not only to overdrafts caused by checks drawn on the account, but also overdrafts caused by other debit charges (e.g., ACH debits, point-of-sale transactions, returned checks, account fees, etc.). If the potential debit is in excess of available funds, the exception applies regardless of whether the items were paid or returned unpaid. An overdraft resulting from an error on the part of the depositary bank, or from the imposition of overdraft charges for which the customer is entitled to a refund under §§229.13(e) or 229.16(c), cannot be considered in determining whether the customer is a repeated overdrafter. The exception excludes accounts with overdraft lines of credit, unless the credit line has been exceeded or would have been exceeded if the checks or other charges to the account had been paid.

4. This exception applies to local and nonlocal checks, as well as to checks that otherwise would be made available on the next (or second) business day after the day of deposit under §229.10(c). When a bank places or extends a hold under this exception, it need not make the first $100 of a deposit available for withdrawal on the next business day, as otherwise would be required by §229.10(c)(1)(vii).

F. 229.13(e) Reasonable Cause To Doubt Collectibility

1. In the case of certain check deposits, if the bank has reasonable cause to believe the check is uncollectible, it may extend the time funds must be made available for withdrawal. This exception applies to local and nonlocal checks, as well as to checks that would otherwise be made available on the next (or second) business day after the day of deposit under §229.10(c). When a bank places or extends a hold under this exception, it need not make the first $100 of a deposit available for withdrawal on the next business day, as otherwise would be required by §229.10(c)(1)(vii). If the reasonable cause exception is invoked, the bank must include in the notice to its customer, required by §229.13(g), the reason that the bank believes that the check is uncollectible.

2. The following are several examples of circumstances under which the reasonable cause exception may be invoked:

a. If a bank received a notice from the paying bank that a check was not paid and is being returned to the depositary bank, the depositary bank could place a hold on the check or extend a hold previously placed on that check, and notify the customer that the bank had received notice that the check is being returned. The exception could be invoked even if the notice were incomplete, if the bank had reasonable cause to believe that the notice applied to that particular check.

b. The depositary bank may have received information from the paying bank, prior to the presentment of the check, that gives the bank reasonable cause to believe that the check is uncollectible. For example, the paying bank may have indicated that payment has been stopped on the check, or that the drawer’s account does not currently have sufficient funds to honor the check. Such information may provide sufficient basis to invoke this exception. In these cases, the depositary bank could invoke the exception and disclose as the reason the exception is being invoked the fact that information from the paying bank indicates that the check may not be paid.

c. The fact that a check is deposited more than six months after the date on the check (i.e., a stale check) is a reasonable indication that the check may be uncollectible. For example, under U.C.C. 4-401 a bank has no duty to its customer to pay a check that is more than six months old. Similarly, if a check being deposited is postdated (future dated), the bank may have a reasonable cause to believe the check is uncollectible, because the check may not be properly payable under U.C.C. 4-401. The bank, in its notice, should specify that the check is stale-dated or postdated.

d. There are reasons that may cause a bank to believe that a check is uncollectible that...
are based on confidential information. For example, a bank could conclude that a check being deposited is uncollectible based on its reasonable belief that the depositor is engaging in kiting activity. Reasonable belief as to the insolvency or pending insolvency of the drawer of the check or the drawee bank and that the checks will not be paid also may be invoked in this exception. In these cases, the bank may indicate, as the reason it is invoking the exception, that the bank has confidential information that indicates that the check might not be paid.

3. The Board has included a reasonable cause exception notice as a model notice in appendix C (C–13). The model notice includes several reasons for which this exception may be invoked. The Board does not intend to provide a comprehensive list of reasons for which this exception may be invoked; another reason that does not appear on the model notice may be used as the basis for extending a hold, if the reason satisfies the conditions for invoking this exception. A depository bank may invoke the reasonable cause exception based on a combination of factors that give rise to a reasonable cause to doubt the collectibility of a check. In these cases, the bank should disclose the primary reasons for which the exception was invoked in accordance with paragraph (g) of this section.

4. The regulation provides that the determination that a check is uncollectible shall not be based on a class of checks or persons. For example, a depository bank cannot invoke this exception simply because the check is drawn on a paying bank in a rural area and the depository bank knows it will not have the opportunity to learn of non-payment of that check before funds must be made available under the availability schedules. Similarly, a depository bank cannot invoke the reasonable cause exception based on the race or national origin of the depositor.

5. If a depository bank invokes this exception with respect to a particular check and does not provide a written notice to the depositor at the time of deposit, the depository bank may not assess any overdraft fee (such as an “NSF” charge) or charge interest for use of overdraft credit, if the check is paid by the paying bank and these charges would not have occurred had the exception not been invoked. A bank may assess an overdraft fee under these circumstances, however, if it provides notice to the customer, in the notice of exception required by paragraph (g) of this section, that the fee may be subject to refund, and refunds the charges upon the request of the customer. The notice must state that the customer may be entitled to a refund of any overdraft fees that are assessed if the check being held is paid, and indicate where such requests for a refund of overdraft fees should be directed.

G. 229.13(f) Emergency Conditions

1. Certain emergency conditions may arise that delay the collection or return of checks, or delay the processing and updating of customer accounts. In the circumstances specified in this paragraph, the depository bank may extend the holds that are placed on deposits of checks that are affected by such delays, if the bank exercises such diligence as the circumstances require. For example, if a bank learns that a check has been delayed in the process of collection due to severe weather conditions or other causes beyond its control, an emergency condition covered by this section may exist, and the bank may place a hold on the check to reflect the delay. This exception applies to local and nonlocal checks, as well as checks that would otherwise be made available on the next (or second) business day after the day of deposit under §229.10(c). When a bank places or extends a hold under this exception, it need not make the first $100 of a deposit available for withdrawal on the next business day, as otherwise would be required by §229.10(c)(1)(vii). In cases where the emergency conditions exception does not apply, as in the case of deposits of cash or electronic payments under §229.10 (a) and (b), the depository bank may not be liable for a delay in making funds available for withdrawal if the delay is due to a bona fide error such as an unavoidable computer malfunction.

H. 229.13(g) Notice of Exception

1. In general.

a. If a depository bank invokes any of the safeguard exceptions to the schedules listed above, other than the new account or emergency conditions exception, and extends the hold on a deposit beyond the time periods permitted in §§229.10(c) and 229.12, it must provide a notice to its customer. Except in the cases described in paragraphs (g)(2) and (g)(3) of this section, notices must be given each time an exception hold is invoked and must state the customer’s account number, the date of deposit, the reason the exception was invoked, and the time period within which funds will be available for withdrawal. For a customer that is not a consumer, a depository bank satisfies the written-notice requirement by sending an electronic notice that displays the text and is in a form that the customer may keep, if the customer agrees to such means of notice. Information is in a form that the customer may keep if, for example, it can be downloaded or printed. For a customer who is a consumer, a depository bank satisfies the written-notice requirement by sending an electronic notice in compliance with the requirements of the Electronic Signatures in Global and National Commerce Act (12 U.S.C. 7001 et seq.), which...
Federal Reserve System

Pt. 229, App. E

include obtaining the consumer’s affirmative consent to such means of notice.

b. With respect to paragraph (g)(1), the requirement that the notice state the time period within which deposits subject to the exception will be made available may be satisfied if the notice identifies the date the deposit is received and information sufficient to indicate when funds will be made available, and the amounts that will be available at those times. For example, for a deposit involving more than one check, the bank need not provide a notice that discloses when funds from each individual check in the deposit will be available for withdrawal; instead, the bank may provide a total dollar amount for each of the time periods when funds will be available, or provide the customer with an explanation of how to determine the amount of the deposit that will be held and when the funds will be available for deposit. Appendix C (C–12) contains a model notice.

c. For deposits made in person to an employee of the depositary bank, the notice generally must be given to the person making the deposit, i.e., the “depositor”, at the time of deposit. The depositor need not be the customer holding the account. For other deposits, such as deposits received at an ATM, lobby deposit box, night depository, or through the mail, notice must be mailed to the customer no later than the close of the business day following the banking day on which the deposit was made.

d. Notice to the customer also may be provided at a later time, if the facts upon which the determination to invoke the exception do not become known to the depositary bank until after notice would otherwise have to be given. In these cases, the bank must mail the notice to the customer as soon as practicable, but not later than the business day following the day the facts become known. A bank is deemed to have knowledge when the facts are brought to the attention of the person or persons in the bank responsible for making the determination, or when the facts would have been brought to their attention if the bank had exercised due diligence.

e. In those cases described in paragraphs (g)(2) and (g)(3), the depositary bank need not provide a notice every time an exception hold is applied to a deposit. When paragraph (g)(2) or (g)(3) requires disclosure of the time period within which deposits subject to the exception generally will be available for withdrawal, the requirement may be satisfied if the one-time notice states when “on us,” local, and nonlocal checks will be available for withdrawal if an exception is invoked.

2. One-time exception notice.

a. Under paragraph (g)(2), if a nonconsumer account (see Commentary to §229.2(n)) is subject to the large deposit or redeposited check exception, the depositary bank may give its customer a single notice at or prior to the time notice must be provided under paragraph (g)(1). Notices provided under paragraph (g)(2) must contain the reason the exception may be invoked and the time period within which deposits subject to the exception will be available for withdrawal (see Model Notice C–14). A depositary bank may provide a one-time notice to a nonconsumer account holder or persons in the bank responsible for making the determination, or when the facts are brought to the attention of the person or persons in the bank responsible for making the determination, or when the facts would have been brought to their attention if the bank had exercised due diligence.

b. With respect to paragraph (g)(1), the requirement that the notice state the time period within which deposits subject to the exception will be made available may be satisfied if the notice identifies the date the deposit is received and information sufficient to indicate when funds will be made available, and the amounts that will be available at those times. For example, for a deposit involving more than one check, the bank need not provide a notice that discloses when funds from each individual check in the deposit will be available for withdrawal; instead, the bank may provide a total dollar amount for each of the time periods when funds will be available, or provide the customer with an explanation of how to determine the amount of the deposit that will be held and when the funds will be available for deposit. Appendix C (C–12) contains a model notice.

c. For deposits made in person to an employee of the depositary bank, the notice generally must be given to the person making the deposit, i.e., the “depositor”, at the time of deposit. The depositor need not be the customer holding the account. For other deposits, such as deposits received at an ATM, lobby deposit box, night depository, or through the mail, notice must be mailed to the customer no later than the close of the business day following the banking day on which the deposit was made.

d. Notice to the customer also may be provided at a later time, if the facts upon which the determination to invoke the exception do not become known to the depositary bank until after notice would otherwise have to be given. In these cases, the bank must mail the notice to the customer as soon as practicable, but not later than the business day following the day the facts become known. A bank is deemed to have knowledge when the facts are brought to the attention of the person or persons in the bank responsible for making the determination, or when the facts would have been brought to their attention if the bank had exercised due diligence.

e. In those cases described in paragraphs (g)(2) and (g)(3), the depositary bank need not provide a notice every time an exception hold is applied to a deposit. When paragraph (g)(2) or (g)(3) requires disclosure of the time period within which deposits subject to the exception generally will be available for withdrawal, the requirement may be satisfied if the one-time notice states when “on us,” local, and nonlocal checks will be available for withdrawal if an exception is invoked.

2. One-time exception notice.

a. Under paragraph (g)(2), if a nonconsumer account (see Commentary to §229.2(n)) is subject to the large deposit or redeposited check exception, the depositary bank may give its customer a single notice at or prior to the time notice must be provided under paragraph (g)(1). Notices provided under paragraph (g)(2) must contain the reason the exception may be invoked and the time period within which deposits subject to the exception will be available for withdrawal (see Model Notice C–14). A depositary bank may provide a one-time notice to a nonconsumer account holder or persons in the bank responsible for making the determination, or when the facts are brought to the attention of the person or persons in the bank responsible for making the determination, or when the facts would have been brought to their attention if the bank had exercised due diligence.
apply (see Model Notice C-15). A depositary bank may provide a one-time notice to a customer under paragraph (g)(3) only if the repeated overdraft exception will be invoked for the same check deposited to the customer's account.

4. Emergency conditions exception notice.
   a. If an account is subject to the emergency conditions exception under §229.13(f), the depositary bank must provide notice in a reasonable form within a reasonable time, depending on the circumstances. For example, a depositary bank may learn of a weather emergency or a power outage that affects the paying bank's operations. Under these circumstances, it likely would be reasonable for the depositary bank to provide an emergency conditions exception notice in the same manner and within the same time as required for other exception notices. On the other hand, if a depositary bank experiences a weather or power outage emergency that affects its own operations, it may be reasonable for the depositary bank to provide a general notice to all depositors via postings at branches and ATMs, or through newspaper, television, or radio notices.

   b. If the depositary bank extends the hold placed on a deposit due to an emergency condition, the bank need not provide a notice if the funds would be available for withdrawal before the notice must be sent. For example, if on the last day of a hold period the depositary bank experiences a computer failure and customer accounts cannot be updated in a timely fashion to reflect the funds as available balances, notices are not required if the funds are made available before the notices must be sent.

5. Record retention. A depositary bank must retain a record of each notice of a reasonable cause exception for a period of two years, or such longer time as provided in the record retention requirements of §229.21. This record must contain a brief description of the facts on which the depositary bank based its judgment that there was reasonable cause to doubt the collectibility of a check. In many cases, such as where the exception was invoked on the basis of a notice of nonpayment received, the record requirement may be met by retaining a copy of the notice sent to the customer. In other cases, such as whether the exception was invoked on the basis of confidential information, a further description to the facts, such as insolvency of drawer, should be included in the record.

I. 229.13(h) Availability of Deposits Subject to Exceptions

1. If a depositary bank invokes any exception other than the new account exception, the bank may extend the time within which funds must be made available under the schedule by a reasonable period of time. This provision establishes that an extension of up to one business day for “on us” checks, five business days for local checks, and six business days for nonlocal checks and checks deposited in a nonproprietary ATM is reasonable. Under certain circumstances, however, a longer extension of the schedule may be reasonable. In these cases, the burden is placed on the depositary bank to establish that a longer period is reasonable.

2. For example, assume a bank extended the hold on a local check deposit by five business days based on its reasonable cause to believe that the check is uncollectible. If, on the day before the extended hold is scheduled to expire, the bank receives a notification from the paying bank that the check is being returned unpaid, the bank may determine that a longer hold is warranted, if it decides not to charge back the customer's account based on the notification. If the bank decides to extend the hold, the bank must send a second notice, in accordance with paragraph (g) of this section, indicating the new date that the funds will be available for withdrawal.

3. With respect to Treasury checks, U.S. Postal Service money orders, checks drawn on Federal Reserve Banks or Federal Home Loan Banks, state and local government checks, cashier's checks, certified checks, and teller's checks subject to the next-day (or second-day) availability requirement, the depositary bank may extend the time funds must be made available for withdrawal under the large deposit, redeposited check, repeated overdraft, or reasonable cause exception by a reasonable period beyond the delay that would have been permitted under the regulation had the checks not been subject to the next-day (or second-day) availability requirement. The additional hold is added to the local or nonlocal schedule that would apply based on the location of the paying bank.

4. One business day for “on us” checks, five business days for local checks, and six business days for nonlocal checks or checks deposited in a nonproprietary ATM, in addition to the time period provided in the schedule, should provide adequate time for the depositary bank to learn of the nonpayment of virtually all checks that are returned. For example, if a customer deposits a $7,000 cashier's check drawn on a nonlocal bank, and the depositary bank applies the large deposit exception to that check, $5,000 must be available for withdrawal on the first business day after the day of deposit and the remaining $2,000 must be available for withdrawal on the eleventh business day following the day of deposit (six business days added to the five-day schedule for nonlocal checks), unless the depositary bank establishes that a longer hold is reasonable.

5. In the case of the application of the emergency conditions exception, the depositary bank may extend the hold placed on a check by not more than a reasonable period.
which may be different from the day the con-
ceives credit for the amount of the deposit, receiv-
ed on the day the depositary bank re-
(TM credit the depositary bank for the
proprietary ATM, credit generally is re-
received. In the case of a deposit at a non-
day the cash, electronic payment, or check is
drawn on the depositary bank itself on the
payment, and the deposit of a check that is
cieves credit on a cash deposit, an electronic
or two days following deposit. A bank re-
erally receives credit on checks within one
day following deposit, and 10 percent on the
second business day following deposit, the
check is returned unpaid; once the check is
finally paid, the right to charge back ex-
pires and the provisional credit becomes
final. Under Subpart C, a paying bank no
longer has an automatic right to charge
back credits given in settlement of a check,
and the concept of provisional settlement is
no longer useful and has been eliminated by
the regulation. Accordingly, this section
uses the term credit rather than provisional
credit, and this section applies regardless of
whether a credit would be provisional or
final under the U.C.C. Credit does not in-
clude a bookkeeping entry (sometimes re-
ferred to as deferred credit) that does not
represent funds actually available for the
bank’s use.

This section implements section 606 of the
the requirement to pay interest at the time
the depositary bank receives provisional
credit for a check. Provisional credit is a
term used in the U.C.C. that is derived from
the Code’s concept of provisional settlement.
(See U.C.C. 4-214 and 4-215.) Provisional cred-
it is credit that is subject to charge-back if
the check is returned unpaid; once the check is
finally paid, the right to charge back ex-
pires and the provisional credit becomes
final. Under Subpart C, a paying bank no
longer has an automatic right to charge
back credits given in settlement of a check,
and the concept of provisional settlement is
no longer useful and has been eliminated by
the regulation. Accordingly, this section
uses the term credit rather than provisional
credit, and this section applies regardless of
whether a credit would be provisional or
final under the U.C.C. Credit does not in-
clude a bookkeeping entry (sometimes re-
ferred to as deferred credit) that does not
represent funds actually available for the
bank’s use.

2. Because account includes only trans-
action accounts, other interest-bearing ac-
counts of the depositary bank, such as
money market deposit accounts, savings de-
posits, and time deposits, are not subject to
this requirement; however, a bank may ac-
crue interest on such deposits in the same
way that it accrues interest under this para-
graph for simplicity of operation. The Board
intends the term interest to refer to pay-
ments to or for the account of any customer
as compensation for the use of funds, but to
exclude the absorption of expenses incident
to providing a normal banking function or a
bank’s forbearance from charging a fee in
connection with such a service. (See 12 CFR
217.2(d).) Thus, earnings credits often applied
to corporate accounts are not interest pay-
ments for the purposes of this section.
3. It may be difficult for a depositary bank
to track which day the depositary bank re-
ceives credit for specific checks in order to
accrue interest properly on the account to
which the check is deposited. This difficulty
may be pronounced if the bank uses different
means of collecting checks based on the time
of day the check is received, the dollar
amount of the check, and/or the paying bank
to which it must be sent. Thus, for the pur-
pose of the interest accrual requirement, a
bank may rely on an availability schedule
from its Federal Reserve Bank, Federal
Home Loan Bank, or correspondent to deter-
mine when the depositary bank receives
credit. If availability is delayed beyond that
specified in the availability schedule, a bank
may charge back interest erroneously ac-
crued or paid on the basis of that schedule.
4. This paragraph also permits a depositary
bank to accrue interest on checks deposited
to all of its interest-bearing accounts based
on when the bank receives credit on all
checks sent for payment or collection. For
example, if a bank receives credit on 20 per-
cent of the funds deposited in the bank by
check as of the business day of deposit (e.g.,
“on us” checks), 70 percent as of the business
day following deposit, and 10 percent on the
second business day following deposit, the
bank can apply these percentages to deter-
mine the day interest must begin to accrue
on check deposits to all interest-bearing ac-
counts, regardless of when the bank received
credit on the funds deposited in any par-
ticular account. Thus, a bank may begin ac-
crueing interest on a uniform basis for all in-
terest-bearing accounts, without the need to
track the type of check deposited to each ac-
count.
5. This section is not intended to limit a
policy of a depositary bank that provides
that interest accrues only on balances that
exceed a specified amount, or on the min-
imum balance maintained in the account.
Pt. 229, App. E

12 CFR Ch. II (1–1–10 Edition)

during a given period, provided that the balance is determined based on the date that the depositary bank receives credit for the funds. This section also is not intended to limit any policy providing that interest accrues sooner than required by this paragraph.

B. 229.14(b) Special Rule for Credit Unions

1. This provision implements a requirement in section 606(b) of the EFA Act, and provides an exemption from the payment-of-interest requirements for credit unions that do not begin to accrue interest or dividends on their customer accounts until a later date than the day the credit union receives credit for those deposits, including cash deposits. These credit unions are exempt from the payment-of-interest requirements, as long as they provide notice of their interest accrual policies in accordance with §229.16(d). For example, if a credit union has a policy of computing interest on all deposits received by the 10th of the month from the first of that month, and on all deposits received after the 10th of the month from the first of the next month, that policy is not superseded by this regulation, if the credit union provides proper disclosure of this policy to its customers.

2. The EFA Act limits this exemption to credit unions; other types of banks must comply with the payment-of-interest requirements. In addition, credit unions that compute interest from the day of deposit, or substantially similar language, must disclose when deposited funds are ready made funds available for withdrawal, the customer is responsible for any problem with the deposit, such as the return of a deposited check.

C. 229.14(c) Exception for Checks Returned Unpaid

1. This provision is based on section 606(c) of the EFA Act (12 U.S.C. 4005(c)) and provides that interest need not be paid on funds deposited in an interest-bearing account by check that has been returned unpaid, regardless of the reason for return.

IX. Section 229.15 General Disclosure Requirements

A. 229.15(a) Form of Disclosures

1. This paragraph sets forth the general requirements for the disclosures required under Subpart B. All of the disclosures must be given in a clear and conspicuous manner, must be in writing, and, in most cases, must be in a form the customer may keep. A disclosure is in a form that the customer may keep, for example, it can be downloaded or printed. For a customer that is not a consumer, a depository bank satisfies the written-disclosure requirement by sending an electronic disclosure that displays the text and is in a form that the customer may keep, if the customer agrees to such means of disclosure. For a customer who is a consumer, a depositary bank satisfies the written-notice requirement by sending an electronic notice in compliance with the requirements of the Electronic Signatures in Global and National Commerce Act (12 U.S.C. 7001 et seq.), which include obtaining the consumer’s affirmative consent to such means of notice. Disclosures posted at locations where employees accept consumer deposits, at ATMs, and on preprinted deposit slips need not be in a form that the customer may keep. Appendix C of the regulation contains model forms, clauses, and notices to assist banks in preparing disclosures.

2. Disclosures concerning availability must be grouped together and may not contain any information that is not related to the disclosures required by this subpart. Therefore, banks may not intersperse the required disclosures with other account disclosures, and may not include other account information that is not related to their availability policy within the text of the required disclosures. Banks may, however, include information that is related to their availability policies. For example, a bank may inform its customers that, even when the bank has already made funds available for withdrawal, the customer is responsible for any problem with the deposit, such as the return of a deposited check.

3. The regulation does not require that the disclosures be segregated from other account terms and conditions. For example, banks may include the disclosure of their specific availability policy in a booklet or pamphlet that sets out all of the terms and conditions of the bank’s accounts. The required disclosures must, however, be grouped together and highlighted or identified in some manner, for example, by use of a separate heading for the disclosures, such as “When Deposits are Available for Withdrawal.”

4. A bank may, by agreement or at the consumer’s request, provide any disclosure or notice required by subpart B in a language other than English, provided that the bank makes a complete disclosure available in English at the customer’s request.

B. 229.15(b) Uniform Reference to Day of Availability

1. This paragraph requires banks to disclose in a uniform manner when deposited funds will be available for withdrawal. Banks must disclose when deposited funds are available for withdrawal by stating the business day on which the customer may begin to withdraw funds. The business day funds will be available must be disclosed as “the business day after” the day of deposit, or substantially similar language. The business day of availability is determined by counting the number of business
days starting with the business day following the banking day on which the deposit is received, as determined under §229.19(a), and ending with the business day on which the deposit is considered received. These banks must disclose the types of deposits that will be subject to delays, how the deposits are considered received, and when deposits are considered received. A bank may disclose that its availability policy is to make funds available from deposits that will be subject to delays, how the deposits are considered received, and when deposits are considered received.

C. 229.15(c) Multiple Accounts and Multiple Account Holders
1. This paragraph clarifies that banks need not provide multiple disclosures under the regulation. A single disclosure to a customer that holds multiple accounts, or a single disclosure to one of the account holders of a jointly held account, satisfies the disclosure requirements of the regulation.

D. 229.15(d) Dormant or Inactive Accounts
1. This paragraph makes clear that banks need not provide disclosure of their specific availability policies to customers that hold accounts that are dormant or inactive. The determination that certain accounts are dormant or inactive must be made by the bank. If a bank considers an account dormant or inactive for purposes other than this regulation and no longer provides statements and other mailings to an account for this reason, such an account is considered dormant or inactive for purposes of this regulation.

X. Section 229.16 Specific Availability Policy Disclosure
A. 229.16(a) General
1. This section describes the information that must be disclosed by banks to comply with §§229.17 and 229.18(d), which require that banks furnish notices of their specific policy regarding availability of deposited funds. The disclosure provided by a bank must reflect the availability policy followed by the bank in most cases, even though a bank may in some cases make funds available sooner or impose a longer delay.
2. The disclosure must reflect the policy and practice of the bank regarding availability as to most accounts and most deposits into those accounts. In disclosing the availability policy that it follows in most cases, a bank may provide a single disclosure that reflects one policy to all its transaction account customers, even though some of its customers may receive faster availability than that reflected in the policy disclosure. Thus, a bank need not disclose to some customers that they receive faster availability than indicated in the disclosure. If, however, a bank has a policy of imposing delays in availability on any customers longer than those specified in its disclosure, those customers must receive disclosures that reflect the longer applicable availability periods. A bank may establish different availability policies for different groups of customers, such as customers in a particular geographic area or customers of a particular branch. For purposes of providing a specific availability policy, the bank may allocate customers among groups through good faith use of a reasonable method. A bank may also establish different availability policies for deposits at different locations, such as deposits at a contractual branch.
3. A bank may disclose that funds are available for withdrawal on a given day notwithstanding the fact that the bank uses the funds to pay checks received before that day. For example, a bank may disclose that its policy is to make funds available from deposits of local checks on the second business day following the day of deposit, even though it may use the deposited funds to pay checks prior to the second business day; the funds used to pay checks in this example are not available for withdrawal until the second business day after deposit because the funds are not available for all uses until the second business day. (See the definition of available for withdrawal in §229.2(d).)

B. 229.16(b) Content of Specific Policy Disclosure
1. This paragraph sets forth the items that must be included, as applicable, in a bank's specific availability policy disclosure. The information that must be disclosed by a particular bank will vary considerably depending upon the bank's availability policy. For example, a bank that makes deposited funds available for withdrawal on the business day following the day of deposit need simply disclose that deposited funds will be available for withdrawal on the first business day after the day of deposit, the bank's business days, and when deposits are considered received.
2. On the other hand, a bank that has a policy of routinely delaying on a blanket basis the time when deposited funds are available for withdrawal would have a more detailed disclosure. Such blanket hold policies might be for the maximum time allowed under federal law or might be for shorter periods. These banks must disclose the types of deposits that will be subject to delays, how the customer can determine the type of deposit being made, and the day that funds from each type of deposit will be available for withdrawal.
3. Some banks may have a combination of next-day availability and blanket delays. For example, a bank may provide next-day availability for all deposits except for one or two categories, such as deposits at non-proprietary ATMs and nonlocal personal checks over a specified dollar amount. The bank would describe the categories that are subject to delays in availability and tell the
customer when each category would be available for withdrawal, and state that other deposits will be available for withdrawal on the first business day after the day of deposit. Similarly, a bank that provides availability on the second business day for most of its deposits would need to identify the categories of deposits which, under the regulation, are subject to availability and state that all other deposits will be available on the second business day.

4. Because many banks’ availability policies may be complex, a bank must give a brief summary of its policy at the beginning of the disclosure. In addition, the bank must describe any circumstances when actual availability may be longer than the schedules disclosed. Such circumstances would arise, for example, when the bank invokes one of the exceptions set forth in §229.13 of the regulation, or when the bank delays or extends the time when deposited funds are available for withdrawal up to the time periods allowed by the regulation on a case-by-case basis. Also, a bank that must make certain checks available faster under appendix B (reduction of schedules for certain nonlocal checks) must state that some check deposits will be available for withdrawal sooner because of special rules and that a list of the pertinent routing numbers is available upon request.

5. Generally, a bank that distinguishes in its disclosure between local and nonlocal checks based on the routing number on the check must disclose to its customers that certain checks, such as some credit union payable-through drafts, will be treated as local or nonlocal based on the location of the bank by which they are payable (e.g., the credit union), and not on the basis of the location of the bank whose routing number appears on the check. A bank is not required to provide this disclosure, however, if it makes the proceeds of both local and nonlocal checks available for withdrawal within the time periods required for local checks in §§229.12 and 229.13.

6. The business day cut-off time used by the bank must be disclosed and if some locations have different cut-off times the bank must note this in the disclosure and state the earliest time that might apply. A bank need not list all of the different cut-off times that might apply. If a bank does not have a cut-off time prior to its closing time, the bank need not disclose a cut-off time.

7. A bank taking advantage of the extended time periods for making deposits at nonproprietary ATMs available for withdrawal under §229.12(f) must explain this in the initial disclosure. In addition, the bank must provide a list (on or with the initial disclosure) of either the bank’s proprietary ATMs or those ATMs that are nonproprietary at which customers may make deposits. As an alternative to providing such a list, the bank may label all of its proprietary ATMs with the bank’s name and state in the initial disclosure that this has been done. Similarly, a bank taking advantage of the cash withdrawal limitations of §229.18(e) allowing holds to be placed on other deposits when a deposit is made or a check is cashed, must explain this in the initial disclosure.

8. A bank that provides availability based on when the bank generally receives credit for deposited checks need not disclose the time when a check drawn on a specific bank will be available for withdrawal. Instead, the bank may disclose the categories of deposits that must be available on the first business day after the day of deposit (deposits subject to §229.10) and state the other categories of deposits and the time periods that will be applicable to those deposits. For example, a bank might disclose the four-digit Federal Reserve routing symbol for local checks and indicate that such checks as well as certain nonlocal checks will be available for withdrawal on the first or second business day following the day of deposit, depending on the location of the particular bank on which the check is drawn, and disclose that funds from all other checks will be available on the second or third business day. The bank must also disclose that the customer may request a copy of the bank’s detailed schedule that would enable the customer to determine the availability of any check and must provide such schedule upon request. A change in the bank’s detailed schedule would not trigger the change in policy disclosure requirement of §229.18(e).

C. 229.16(c) Longer Delays on a Case-by-Case Basis

1. Notice in specific policy disclosure.
   a. Banks that make deposited funds available for withdrawal sooner than required by the regulation—for example, providing their customers with immediate or next-day availability for deposited funds—and delay the time when funds are available for withdrawal only from time to time determined on a case-by-case basis, must provide notice of this in their specific availability policy disclosure. This paragraph outlines the requirements for that notice.
   b. In addition to stating what their specific availability policy is in most cases, banks that may delay or extend the time when deposits are available on a case-by-case basis must: state that from time to time funds may be available for withdrawal later than the time periods in their specific policy disclosure; disclose the latest time that a customer may have to wait for deposited funds to be available for withdrawal when a case-by-case hold is placed; state that customers will be notified when availability of a deposit is delayed on a case-by-case basis; and advise customers to ask if they need to be
Federal Reserve System

sure of the availability of a particular deposit.

A bank that imposes delays on a case-by-case basis is subject to the availability requirements of this regulation. If the bank imposes a delay on a particular deposit that is not longer than the availability required by §229.12 for local and nonlocal checks, the reason for the delay need not be based on the exceptions provided in §229.13. If the delay exceeds the time periods permitted under §229.12, however, then it must be based on an exception provided in §229.13, and the bank must comply with the §229.13 notice requirements. A bank that imposes delays on a case-by-case basis may avail itself of the one-time notice provisions in §229.13(g)(2) and (3) for deposits to which those provisions apply.

Notice at time of case-by-case delay.

1. In addition to including the disclosures required by paragraph (c)(1) of this section in their specific availability policy disclosure, banks that delay or extend the time period when funds are available for withdrawal on a case-by-case basis must give customers a notice when availability of funds from a particular deposit will be delayed or extended beyond the time when deposited funds are generally available for withdrawal. The notice must state that a delay is being imposed and indicate when the funds will be available. In addition, the notice must include the account number, the date of the deposit, and the amount of the deposit being delayed.

2. Notice at the time of a deposit. The case-by-case hold notice must be given at the time of the deposit. The notice at the time of the deposit must be given to the person making the deposit, that is, the "depositor." The depositor need not be the customer holding the account. For other deposits, such as deposits received at an ATM, lobby deposit box, night depositary, through the mail, or by armored car, notice must be mailed to the customer not later than the close of the business day following the banking day on which the deposit was made. Notice to the customer also may be provided not later than the close of the business day following the banking day on which the deposit was made if the decision to delay availability is made after the time of the deposit.

3. Overdraft and returned check fees. If a depository bank delays or extends the time when funds from a deposited check are available for withdrawal on a case-by-case basis and does not provide a written notice to its depositor at the time of deposit, the depository bank may not assess any overdraft or returned check fees (such as an insufficient funds charge) or charge interest for use of an overdraft line of credit, if the deposited check is paid by the paying bank and these fees would not have occurred had the additional case-by-case delay not been imposed. A bank may assess an overdraft or returned check fee under these circumstances, however, if it provides notice to the customer in the notice required by paragraph (c)(2) of this section that the fee may be subject to refund, and refunds the fee upon the request of the customer when required to do so. The notice must state that the customer may be entitled to a refund of any overdraft or returned check fees that result from the deposited funds not being available if the check that was deposited was in fact paid by the payor bank, and explain how to request a refund of any fees. (See §229.16(c)(3).)

The requirement that the case-by-case hold notice state the day that funds will be made available for withdrawal may be met by stating the date or the number of business days after deposit that the funds will be made available. This requirement is satisfied if the notice provides information sufficient to indicate when funds will be available and the amount that will be available at those times. For example, for a deposit involving more than one check, the bank need not provide a notice that discloses when funds from each individual item in the deposit will be available for withdrawal. Instead, the bank may provide a total dollar amount for each of the time periods when funds will be available, or provide the customer with an explanation of how to determine the amount of the deposit that will be held and when the held funds will be available for withdrawal.

d. For deposits made in person to an employee of the depository bank, the notice generally must be given at the time of the deposit. The notice at the time of the deposit must be given to the person making the deposit, that is, the "depositor." The depositor need not be the customer holding the account. For other deposits, such as deposits received at an ATM, lobby deposit box, night depository, through the mail, or by armored car, notice must be mailed to the customer not later than the close of the business day following the banking day on which the deposit was made. Notice to the customer also may be provided not later than the close of the business day following the banking day on which the deposit was made if the decision to delay availability is made after the time of the deposit.

D. 229.16(d) Credit Union Notice of Interest Payment Policy

1. This paragraph sets forth the special disclosure requirement for credit unions that delay accrual of interest on deposits to all cash and check deposits beyond the date of receiving provisional credit for checks being deposited. (The interest payment requirement is set forth in §229.14(a).) Such credit unions are required to describe their policy with respect to accrual of interest or dividends on deposits in their specific availability policy disclosure.
XI. Section 229.17 Initial Disclosures

A. This paragraph requires banks to provide a notice of their availability policy to all potential customers prior to opening an account. The requirement of a notice prior to opening an account requires banks to provide disclosures prior to accepting a deposit to open an account. Disclosures must be given at the time the bank accepts an initial deposit regardless of whether the bank has opened the account yet for the customer. If a bank, however, receives a written request by mail from a person asking that an account be opened and the request includes an initial deposit, the bank may open the account with the deposit, provided the bank mails the required disclosures to the customer not later than the business day following the banking day on which the bank receives the deposit. Similarly, if a bank receives a telephone request from a customer asking that an account be opened with a transfer from a separate account of the customer not later than the business day following the banking day on which the bank receives the deposit. The requirement of a notice prior to opening an account requires banks to provide disclosures prior to accepting a deposit regardless of whether the bank has given at the time the bank accepts an initial deposit, the bank may open the account with the deposit, provided the bank mails the required disclosures to the customer not later than the business day following the banking day on which the bank receives the deposit. Similarly, if a bank receives a telephone request from a customer asking that an account be opened with a transfer from a separate account of the customer’s at the bank, the disclosure may be mailed not later than the business day following the banking day of the request.

XII. Section 229.18 Additional Disclosure Requirements

A. 229.18(a) Deposit Slips

1. This paragraph requires banks to include a notice on all preprinted deposit slips. The deposit slip notice need only state, somewhere on the front of the deposit slip, that deposits may not be available for immediate withdrawal. The notice is required only on preprinted deposit slips—those printed with the customer’s account number and name and furnished by the bank in response to a customer’s order to the bank. A bank need not include the notice on deposit slips that are not preprinted and supplied to the customer—such as counter deposit slips—or on those special deposit slips provided to the customer under §229.10(c). A bank is not responsible for ensuring that the notice appear on deposit slips that the customer does not obtain from or through the bank. This paragraph applies to preprinted deposit slips furnished to customers on or after September 1, 1988.

B. 229.18(b) Locations Where Employees Accept Consumer Deposits

1. This paragraph describes the statutory requirement that a bank post in each location where its employees accept consumer deposits a notice of its availability policy pertaining to consumer accounts. The notice that is required must specifically state the availability periods for the various deposits that may be made to consumer accounts. The notice need not be posted at each teller window, but the notice must be posted in a place where consumers seeking to make deposits are likely to see it before making their deposits. For example, the notice might be posted at the point where the line forms for teller service in the lobby. The notice is not required at any drive-through teller windows nor is it required at night depository locations, or at locations where consumer deposits are not accepted. A bank that acts as a contractual branch at a particular location must include the availability policy that applies to its own customers but need not include the policy that applies to the customers of the bank for which it is acting as a contractual branch.

C. 229.18(c) Automated Teller Machines

1. This paragraph sets forth the required notices for ATMs. Paragraph (c)(1) provides that the depositary bank is responsible for posting a notice on all ATMs at which deposits can be made to accounts at the depositary bank. The depositary bank may arrange for a third party, such as the owner or operator of the ATM, to post the notice and indemnify the depositary bank from liability if the depositary bank is liable under §229.21 for the owner or operator failing to provide the required notice.

2. The notice may be posted on a sign, shown on the screen, or included on deposit envelopes provided at the ATM. This disclosure must be given before the customer has made the deposit. Therefore, a notice provided on the customer’s deposit receipt or appearing on the ATM’s screen after the customer has made the deposit would not satisfy this requirement.

3. Paragraph (c)(2) requires a depositary bank that operates an off-premise ATM from which deposits are removed not more than two times a week to make a disclosure of this fact on the off-premise ATM. The notice must disclose to the customer the days on which deposits made at the ATM will be considered received.

D. 229.18(d) Upon Request

1. This paragraph requires banks to provide written notice of their specific availability policy to any person upon that person’s oral or written request. The notice must be sent within a reasonable period of time following receipt of the request.

E. 229.18(e) Changes in Policy

1. This paragraph requires banks to send notices to their customers when the banks change their availability policies with regard to consumer accounts. A notice may be given in any form as long as it is clear and conspicuous. If the bank gives notice of a change by sending the customer a complete new availability disclosure, the bank must direct the customer to the changed terms in the disclosure by use of a letter or insert, or
by highlighting the changed terms in the disclosure.

2. Generally, a bank must send a notice at least 30 calendar days before implementing any change in the availability of checks. If the change results in faster availability of deposits—for example, if the bank changes its availability for nonlocal checks from the fifth business day after deposit to the fourth business day after deposit—the bank need not send advance notice. The bank must, however, send notice of the change no later than 30 calendar days after the change is implemented. A bank is not required to give a notice when there is a change in appendix B (reduction of schedules for certain nonlocal checks).

3. A bank that has provided its customers with a list of ATMs under §229.16(b)(5) shall provide its customers with an updated list of ATMs once a year if there are changes in the list of ATMs previously disclosed to the customers.

XIII. Section 229.19 Miscellaneous

A. 229.19(a) When Funds Are Considered Deposited

1. The time funds must be made available for withdrawal under this subpart is determined by the day the deposit is made. This paragraph provides rules to determine the day funds are considered deposited in various circumstances.

2. Staffed facilities and ATMs. Funds received at a staffed teller station or ATM are considered deposited when received by the teller or placed in the ATM. Funds received at a contractual branch are considered deposited when received by a teller at the contractual branch or deposited into a proprietary ATM of the contractual branch. (See also, Commentary to §229.10(c) on deposits made to an employee of the depositary bank.) Funds deposited to a deposit box in a bank lobby that is accessible to customers only during regular business hours generally are considered deposited when placed in the lobby box; a bank may, however, treat deposits to lobby boxes the same as deposits to night depositories (as provided in §229.19(a)(3)), provided a notice appears on the lobby box informing the customer when such funds will be considered deposited.

3. Mail. Funds mailed to the depositary bank are considered deposited on the banking day they are received by the depositary bank. The funds are received by the depositary bank at the time the mail is delivered to the bank, even if it is initially delivered to a mail room, rather than the check processing area.

4. Other facilities.

a. In addition to deposits at staffed facilities, at ATMs, and by mail, funds may be deposited at a facility such as a night depository or a lock box. A night depository is a receptacle for receipt of deposits, typically used by corporate depositors when the branch is closed. Funds deposited at a night depository are considered deposited on the banking day the deposit is removed, and the contents of the deposit are accessible to the depositary bank for processing. For example, some businesses deposit their funds in a locked bag at the bank in the evening, and return to the bank the following day to open the bag. Other depositors may have an agreement with their bank that the deposit bag must be opened under the dual control of the bank and the depositor. In these cases, the funds are considered deposited when the customer returns to the bank and opens the deposit bag.

b. A lock box is a post office box used by a corporation for the collection of bill payments or other check receipts. The depositary bank generally assumes the responsibility for collecting the mail from the lock box, processing the checks, and crediting the corporation for the amount of the deposit. Funds deposited through a lock box arrangement are considered deposited on the day the deposit is removed from the lock box and are accessible to the depositary bank for processing.

5. Certain off-premise ATMs. A special provision is made for certain off-premise ATMs that are not serviced daily. Funds deposited at such an ATM are considered deposited on the day they are removed from the ATM, if the ATM is not serviced more than two times each week. This provision is intended to address the practices of some banks of servicing certain remote ATMs infrequently. If a depositary bank applies this provision with respect to an ATM, a notice must be posted at the ATM informing depositors that funds deposited at the ATM may not be considered deposited until a future day, in accordance with §229.18.

6. Banking day of deposit.

a. This paragraph also provides that a deposit received on a day that the depositary bank is closed, or after the bank’s cut-off hour, may be considered made on the next banking day. Generally, for purposes of the availability schedules of this subpart, a bank may establish a cut-off hour of 2 p.m. or later for receipt of deposits at its head office or branch offices. For receipt of deposits at ATMs, contractual branches, or other off-premise facilities, such as night depositories or lock boxes, the depositary bank may establish a cut-off hour of 12:00 noon or later (either local time of the branch or other location of the depositary bank at which the account is maintained or local time of the ATM, contractual branch, or other off-premise facility). The depositary bank must use the same timing method for establishing the cut-off hour for all ATMs, contractual branches, and other off-premise facilities used by its customers. The choice of cut-off
hour must be reflected in the bank's internal procedures, and the bank must inform its customers of the cut-off hour upon request. This earlier cut-off for ATM, contractual branch, or other off-premise deposits is intended to provide greater flexibility in the servicing of these facilities.

b. Different cut-off hours may be established for different types of deposits. For example, a bank may establish a 2 p.m. cut-off for the receipt of check deposits, but a later cut-off for the receipt of wire transfers. Different cut-off hours also may be established for deposits received at different locations. For example, a different cut-off may be established for ATM deposits than for over-the-counter deposits, or for different teller stations at the same branch. With the exception of the 12 noon cut-off for deposits at ATMs and off-premise facilities, no cut-off hours for the receipt of deposits for purposes of this subpart can be established earlier than 2 p.m.

c. A bank is not required to remain open until 2 p.m. If a bank closes before 2 p.m., deposits received after the closing may be considered deposited on the next banking day. Further, as §229.2(f) defines the term banking day as the portion of a business day on which a bank is open to the public for substantially all of its banking functions, a day, or a portion of a day, is not necessarily a banking day merely because the bank is open for only limited functions, such as keeping drive-in or walk-up teller windows open, when the rest of the bank is closed to the public. For example, a banking office that usually provides a full range of banking services may close at 12 noon but leave a drive-in or walk-up teller window open for the limited purpose of receiving deposits and making cash withdrawals. Under those circumstances, the bank is considered closed and may consider deposits received after 12 noon as having been received on the next banking day. The fact that a bank may reopen for substantially all of its banking functions after 2 p.m., or that it continues its back office operations throughout the day, would not affect this result. A bank may not, however, close individual teller stations and reopen them for next-day’s business before 2 p.m. during a banking day.

B. 229.19(b) Availability at Start of Business Day

1. If funds must be made available for withdrawal on a business day, the funds must be available for withdrawal by the later of 9 a.m. or the time the depositary bank’s teller facilities, including ATMs, are available for customer transactions. (See §229.12(d), except under the special rule for cash withdrawals set forth in §229.12(d). Thus, if a bank has no ATMs and its branch facilities are available for customer transactions beginning at 10 a.m., funds must be available for customer withdrawal beginning at 10 a.m. If the bank has ATMs that are available 24 hours a day, rather than establishing 12:01 a.m. as the start of the business day, this paragraph sets 9 a.m. as the start of the day with respect to ATM withdrawals. The Board believes that this rule provides banks with sufficient time to update their accounting systems to reflect the available funds in customer accounts for that day.

2. The start of business is determined by the local time of the branch or other location of the depositary bank at which the account is maintained. For example, if funds in a customer’s account at a west coast bank are first made available for withdrawal at the start of business on a given day, and the customer attempts to withdraw the funds at an east coast ATM, the depositary bank is not required to make the funds available until 9 a.m. west coast time (12 noon east coast time).

C. 229.19(c) Effect on Policies of Depositary Bank

1. This subpart establishes the maximum hold that may be placed on customer deposits. A depositary bank may provide availability to its customers in a shorter time than prescribed in this subpart. A depositary bank also may adopt different funds availability policies for different segments of its customer base, as long as each policy meets the schedules in the regulation. For example, a bank may differentiate between its corporate and consumer customers, or may adopt different policies for its consumer customers based on whether a customer has an overdraft line of credit associated with the account.

2. This regulation does not affect a depositary bank’s right to accept or reject a check for deposit, to charge back the customer’s account based on a returned check or notice of nonpayment, or to claim a refund for any credit provided to the customer. For example, even if a check is returned or a notice of nonpayment is received after the time by which funds must be made available for withdrawal in accordance with this regulation, the depositary bank may charge back the customer’s account for the full amount of the check. (See §229.33(d) and Comment.)

3. Nothing in the regulation requires a depositary bank to have facilities open for customers to make withdrawals at specified times or on specified days. For example, even though the special cash withdrawal rule set forth in §229.12(d) states that a bank must make up to $400 available for cash withdrawals no later than 5 p.m. on specific business days, if a bank does not participate in an ATMS system and does not have any teller windows open at or after 5 p.m., the bank need not join an ATMS system or keep
operating, or bonding requirements, and is based on security, and if that policy is applied equally to all customers of the bank, is based on security. 

The amount of cash that may be withdrawn, prohibits a bank from limiting the amount of cash needed to be maintained on hand at any time. 

Withdrawals in order to limit the amount of cash that may be withdrawn, is based on security, operating, or bonding requirements, and is not dependent on the length of time the funds have been in the customer's account (as long as the permissible hold has expired). The regulation, however, does not authorize such policies if they are otherwise prohibited by statutory, regulatory, or common law.

4. The special cash withdrawal rule in the EFA Act recognizes that the $400 that must be made available for cash withdrawal by 5 p.m. on the day specified in the schedule may exceed a bank's daily ATM cash withdrawal limit and explicitly provides that the EFA Act does not supersede a bank's policy in this regard. As a result, if a bank has a policy of limiting cash withdrawals from automated teller machines to $250 per day, the regulation would not require that the bank dispense $400 of the proceeds of the customer's deposit that must be made available for cash withdrawal on that day.

5. Even though the EFA Act clearly provides that the bank's ATM withdrawal limit is not superseded by the federal availability rules on the day funds must first be made available, the EFA Act does not specifically permit banks to limit cash withdrawals at ATMs on subsequent days when the entire amount of the deposit must be made available for withdrawal. The Board believes that the rationale behind the EFA Act's provision that a bank's ATM withdrawal limit is not superseded by the requirement that funds be made available for cash withdrawal applies on subsequent days. Nothing in the regulation prohibits a depositary bank from establishing ATM cash withdrawal limits that vary among customers of the bank, as long as the limit is not dependent on the length of time funds have been in the customer's account (provided that the permissible hold has expired).

6. Some small banks, particularly credit unions, due to lack of secure facilities, keep no cash on their premises and hence offer no cash withdrawal capability to their customers. Other banks limit the amount of cash on their premises due to bonding requirements or cost factors, and consequently reserve the right to limit the amount of cash each customer can withdraw over-the-counter on a given day. For example, some banks require advance notice for large cash withdrawals in order to limit the amount of cash needed to be maintained on hand at any time.

7. Nothing in the regulation is intended to prohibit a bank from limiting the amount of cash that may be withdrawn at a staffed teller station if the bank has a policy limiting the amount of cash that may be withdrawn, and if that policy is applied equally to all customers of the bank, is based on security, operating, or bonding requirements, and is not superseded by the federal availability rules on the day funds must first be made available.

---

D. 229.19(d) Use of Calculated Availability

1. A depositary bank may provide availability to its nonconsumer accounts on a calculated availability basis. Under calculated availability, a specified percentage of funds from check deposits may be made available to the customer on the next business day, with the remaining percentage deferred until subsequent days. The determination of the percentage of deposited funds that will be made available each day is based on the customer's typical deposit mix as determined by a sample of the customer's deposits. Use of calculated availability is permitted only if, on average, the availability terms that result from the sample are equivalent to or more prompt than the requirements of this subpart.

E. 229.19(e) Holds on Other Funds

1. Section 607(d) of the EFA Act (12 U.S.C. 4006(d)) provides that once funds are available for withdrawal under the EFA Act, such funds shall not be frozen solely due to the subsequent deposit of additional checks that are not yet available for withdrawal. This provision of the EFA Act is designed to prevent evasion of the EFA Act's availability requirements.

2. This paragraph clarifies that if a customer deposits a check in an account (as defined in §229.2(a)), the bank may not place a hold on any of the customer's funds so that the funds that are held exceed the amount of the check deposited or the total amount of funds held are not made available for withdrawal within the times required in this subpart. For example, if a bank places a hold on funds in a customer's non transaction account, rather than a transaction account, for deposits made to the customer's transaction account, the bank may place such a hold only to the extent that the funds held do not exceed the amount of the deposit and the length of the hold does not exceed the time periods permitted by this regulation.

3. These restrictions also apply to holds placed on funds in a customer's account (as defined in §229.2(a)) if a customer cashes a check at a bank (other than a check drawn on that bank) over the counter. The regulation does not prohibit holds that may be placed on other funds of the customer for checks cashed over the counter, to the extent that the transaction does not involve a deposit to an account. A bank may not, however, place a hold on any account when an "on us" check is cashed over the counter. "On us" checks are considered finally paid.
when cashed (see U.C.C. 4-215(a)(1)). When a customer cashes a check over the counter and the bank places a hold on an account of the customer, the bank must give whatever notice would be required under §§229.13 or 229.16 had the check been deposited in the account.

F. 229.19(f) Employee Training and Compliance

1. The EFA Act requires banks to take such actions as may be necessary to inform fully each employee that performs duties subject to the EFA Act of the requirements of the EFA Act, and to establish and maintain procedures reasonably designed to assure and monitor employee compliance with such requirements.

2. This paragraph requires a bank to establish procedures to ensure compliance with these requirements and provides these procedures to the employees responsible for carrying them out.

G. 229.19(g) Effect of Merger Transaction

1. After banks merge, there is often a period of adjustment before their operations are consolidated. This paragraph accommodates this adjustment period by allowing merged banks to be treated as separate banks for purposes of this subpart for a period of up to one year after consummation of the merger transaction, except that a customer of any bank that is a party to the transaction that has an established account with that bank may not be treated as a new account holder for any other party to the transaction for purposes of the new account exception of §229.13(a), and a deposit in any branch of the merged bank is considered deposited in the bank for purposes of the availability schedules in accordance with §229.19(a).

2. This rule affects the status of the combined entity in several areas. For example, this rule would affect when an ATM is a proprietary ATM (§229.2(aa) and §229.12(b)) and when a check is considered drawn on a branch of the depositary bank (§229.10(c)(1)(vi)).

3. Merger transaction is defined in §229.2(t).

XIV. Section 229.20 Relation to State Law

A. 229.20(a) In General

1. Several states have enacted laws that govern when banks in those states must make funds available to their customers. The EFA Act provides that any state law in effect on September 1, 1989, that provides that funds be made available in a shorter period of time than provided in this regulation, will supersede the time periods in the EFA Act and the regulation. The Conference Report on the EFA Act clarifies this provision by stating that any state law enacted on or before September 1, 1989, may supersede federal law to the extent that the law relates to the time funds must be made available for withdrawal. H.R. Rep. No. 261, 100th Cong. 1st Sess. at 182 (1987).

2. Thus, if a state had wished to adopt a law governing funds availability, it had to have made that law effective on or before September 1, 1989. Laws adopted after that date do not supersede federal law, even if they provide for shorter availability periods than are provided under federal law. If a state that had a law governing funds availability in effect before September 1, 1989, amended its law after that date, the amendment would not supersede federal law. A provision an amendment deleting a state requirement would be effective.

3. If a state provides for a shorter hold for a certain category of checks than is provided for under federal law, that state requirement will supersede the federal provision. For example, most state laws base some hold periods on whether the check being deposited is drawn on an in-state or out-of-state bank. If a state contains more than one check processing region, the state’s hold period for in-state checks may be shorter than the federal maximum hold period for nonlocal checks. Thus, the state schedule would supersede the federal schedule to the extent that it applies to in-state, nonlocal checks.

4. The EFA Act also provides that any state law that provides for availability in a shorter period of time than required by federal law is applicable to all federally insured institutions in that state, including federally chartered institutions. If a state law provides shorter availability only for deposits in accounts in certain categories of banks, such as commercial banks, the superseding state law continues to apply only to those categories of banks, rather than to all federally insured banks in the state.

B. 229.20(b) Preemption of Inconsistent Law

1. This paragraph reflects the statutory provision that other provisions of state law that are inconsistent with federal law are preempted. Preemption does not require a determination by the Board to be effective.

C. 229.20(c) Standards for Preemption

1. This section describes the standards the Board uses in making determinations on whether federal law will preempt state laws governing funds availability. A provision of state law is considered inconsistent with federal law if it permits a depositary bank to make funds available to a customer in a longer period of time than the maximum period permitted by the EFA Act and this regulation. For example, a state law that permits a hold of four business days or longer for local checks permits a hold that is longer.
Federal Reserve System
Pt. 229, App. E

than that permitted under the EFA Act and this regulation, and therefore is inconsistent and preempted. State availability schedules that provide for availability in a shorter period of time than required under Regulation CC supersede the federal schedule.

2. Under a state law, some categories of deposits could be available for withdrawal sooner or later than the time required by this subpart, depending on the composition of the deposit. For example, the EFA Act and this regulation ($229.13(c)(3)(vii)) require next-day availability for the first $100 of the aggregate deposit of local or nonlocal checks on any day, and a state law could require next-day availability for any check of $100 or less that is deposited. Under the EFA Act and this regulation, if either one $150 check or three $50 checks are deposited on a given day, $100 must be made available for withdrawal on the next business day, and $50 must be made available in accordance with the local or nonlocal schedule. Under the state law, however, the two deposits would be subject to different availability rules. In the first case, none of the proceeds of the deposit would be subject to next-day availability; in the second case, the entire proceeds of the deposit would be subject to next-day availability. In this example, because the state law would, in some situations, permit a hold longer than the maximum permitted by the EFA Act, this provision of state law is inconsistent and preempted in its entirety.

3. In addition to the differences between state and federal availability schedules, a number of state laws contain exceptions to the state availability schedules that are different from those provided under the EFA Act and this regulation. The state exceptions continue to apply only in those cases where the state schedule is shorter than or equal to the federal schedule, and then only up to the limit permitted by the Regulation CC schedule. Where a deposit is subject to a state exception under a state schedule that is not preempted by Regulation CC and is also subject to a federal exception, the hold on the deposit cannot exceed the hold permissible under the federal exception in accordance with Regulation CC. In such cases, only one exception notice is required, in accordance with §229.13(g). This notice need only include the applicable federal exception as the reason the exception was invoked. For those categories of checks for which the state schedule is preempted by the federal schedule, only the federal exceptions may be used.

4. State laws that provide maximum availability periods for categories of deposits that are not covered by the EFA Act would not be preempted. Thus, state funds availability laws that apply to funds in time and savings deposits are not affected by the EFA Act or this regulation. In addition, the availability schedules of several states apply to "items" deposited to an account. The term items may encompass deposits, such as nonnegotiable instruments, that are not subject to the Regulation CC availability schedules. Deposits that are not covered by Regulation CC continue to be subject to the state availability schedules. State laws that provide maximum availability periods for categories of institutions that are not covered by the EFA Act also would not be preempted. For example, a state law that governs money market mutual funds would not be affected by the EFA Act or this regulation.

5. Generally, state rules governing the disclosure or notice of availability policies applicable to accounts also are preempted, if they are different from the federal rules. Nevertheless, a state law requiring disclosure of funds availability policies that apply to deposits other than "accounts," such as savings or time deposits, are not inconsistent with the EFA Act and this subpart. Banks in these states would have to follow the state disclosure rules for these deposits.

D. 229.20(d) Preemption Determinations

1. The Board may issue preemption determinations upon the request of an interested party in a state. The determinations will relate only to the provisions of Subparts A and B; generally the Board will not issue individual preemption determinations regarding the relation of state U.C.C. provisions to the requirements of Subpart C.

E. 229.20(e) Procedures for Preemption Determinations

1. This provision sets forth the information that must be included in a request by an interested party for a preemption determination by the Board.

XV. Section 229.21 Civil Liability

A. 229.21(a) Civil Liability

1. This paragraph sets forth the statutory penalties for failure to comply with the requirements of this subpart. These penalties apply to provisions of state law that supersede provisions of this regulation, such as requirements that funds deposited in accounts at banks be made available more promptly than required by this regulation, but they do not apply to other provisions of state law. (See Commentary to §229.20.)

B. 229.21(b) Class Action Awards

1. This paragraph sets forth the provision in the EFA Act concerning the factors that should be considered by the court in establishing the amount of a class action award.

C. 229.21(c) Bona Fide Errors

1. A bank is shielded from liability under this section for a violation of a requirement of this subpart if it can demonstrate, by a
Pt. 229, App. E

12 CFR Ch. II (1–1–10 Edition)

preponderance of the evidence, that the violation resulted from a bona fide error and that it maintains procedures designed to avoid such errors. For example, a bank may make a bona fide error if it fails to give next-day availability on a check drawn on the Treasury because the bank’s computer system malfunctions in a way that prevents the bank from updating its customer’s account; or if it fails to identify whether a payable-through check is a local or nonlocal check despite procedures designed to make this determination accurately.

D. 229.21(d) Jurisdiction

1. The EFA Act confers subject matter jurisdiction on courts of competent jurisdiction and provides a time limit for civil actions for violations of this subpart.

E. 229.21(e) Reliance on Board Rulings

1. This provision shields banks from civil liability if they act in good faith in reliance on any rule, regulation, model form, notice, or clause (if the disclosure actually corresponds to the bank’s availability policy), or interpretation of the Board, even if it were subsequently determined to be invalid. Banks may rely on this Commentary, which is issued as an official Board interpretation, as well as on the regulation itself.

F. 229.21(f) Exclusions

1. This provision clarifies that liability under this section does not apply to violations of the requirements of Subpart C of this regulation, or to actions for wrongful dishonor of a check by a paying bank’s customer.

G. 229.21(g) Record Retention

1. Banks must keep records to show compliance with the requirements of this subpart for at least two years. This record retention period is extended in the case of civil actions and enforcement proceedings. Generally, a bank is not required to retain records showing that it actually has given disclosures or notices required by this subpart to each customer, but it must retain evidence demonstrating that its procedures reasonably ensure the customers’ receipt of the required disclosures and notices. A bank must, however, retain a copy of each notice provided pursuant to its use of the reasonable cause exception under §229.13(g) as well as a brief description of the facts giving rise to the availability of that exception.

XVI. Section 229.30 Paying Bank’s Responsibility for Return of Checks

A. 229.30(a) Return of Checks

1. This section requires a paying bank (which, for purposes of Subpart C, may include a payable-through and payable-at bank; see §229.22(i)) that determines not to pay a check to return the check expeditiously. Generally, a check is returned expeditiously if the return process is as fast as the forward collection process. This paragraph provides two standards for expeditious return, the “two-day/four-day” test, and the “forward collection” test.

2. Under the “two-day/four-day” test, if a check is returned such that it would normally be received by the depositary bank two business days after presentment where both the paying and depositary banks are located in the same check processing region or four business days after presentment where the paying and depositary banks are not located in the same check processing region, the check is considered returned expeditiously. In certain limited cases, however, these times are shorter than the time it would normally take for a forward collection check deposited in the paying bank and payable by the depositary bank to be collected. Therefore, the Board has included a “forward collection” test, whereby a check is nonetheless considered to be returned expeditiously if the paying bank uses transportation methods and banks for return comparable to those used for forward collection checks, even if the check is not received by the depositary banks within the two-day or four-day period.

3. Two-day/four-day test.

a. Under the first test, a paying bank must return the check so that the check would normally be received by the depositary bank within specified times, depending on whether or not the paying and depositary banks are located in the same check processing region.

b. Where both banks are located in the same check processing region, a check is returned expeditiously if it is returned to the depositary bank by 4:00 p.m. (local time of the depositary bank) of the second business day after the banking day on which the check was presented to the paying bank. For example, a check presented on Monday to a paying bank that is located in a different check processing region than the depositary bank, the deadline to complete return is 4 p.m. (local time of the depositary bank) of the fourth business day after the banking day on which the check was presented to the paying bank. For example, a check presented to such a paying bank on Monday must be returned to the depositary bank by 4:00 p.m. on Friday.

c. This two-day/four-day test does not necessarily require actual receipt of the check by the depositary bank within these times. Rather, the paying bank must send the check so that the check would normally be received by the depositary bank within the specified time. Thus, the paying bank is not
responsible for unforeseeable delays in the return of the check, such as transportation delays.

d. Often, returned checks will be delivered to the depositary bank together with forward collection checks. Where the last day on which a check could be delivered to a depositary bank under this two-day/four-day test is not a banking day for the depositary bank, a returning bank might not schedule delivery of forward collection checks to the depositary bank on that day. Further, the depositary bank may not process checks on that day. Consequently, if the last day of the required time under this two-day/four-day test is not a banking day for the depositary bank, the check may be delivered to the depositary bank before the close of the depositary bank’s next banking day and the return will still be considered expeditious. Ordinarily, this extension of time will allow the returned checks to be delivered with the next shipment of forward collection checks destined for the depositary bank.

e. The times specified in this two-day/four-day test are based on estimated forward collection times, but take into account the particular difficulties that may be encountered in handling returned checks. It is anticipated that the normal process for forward collection of a check coupled with these return requirements will frequently result in the return of checks before the proceeds of nonlocal checks, other than those covered by §229.10(c), must be made available for withdrawal.

f. Under this two-day/four-day test, no particular means of returning checks is required, thus providing flexibility to paying banks in selecting means of return. The Board anticipates that paying banks will often use returning banks (see §229.31) as their agents to return checks to depositary banks. A paying bank may rely on the availability schedule of the returning bank it uses in determining whether the returned check would “normally” be returned within the required time under this two-day/four-day test, unless the paying bank has reason to believe that these schedules do not reflect the actual time for return of a check.

a. Under the second, “forward collection,” test, a paying bank returns a check expeditiously if it returns a check by means as swift as the means similarly situated banks would use for the forward collection of a check drawn on the depositary bank.

b. Generally, the paying bank would satisfy the “forward collection” test if it uses a transportation method and collection path for return comparable to that used for forward collection, provided that the returning bank selected to process the return agrees to handle the returned check under the standards for expeditious return for returning banks under §229.31(a). This test allows many paying banks a simple means of expeditious return of checks and takes into account the longer time for return that will be required by banks that do not have ready access to direct courier transportation.

c. The paying bank’s normal method of sending a check for forward collection would not be expeditious, however, if it is materially slower than that of other banks of similar size and with similar check handling activity in its community.

d. Under the “forward collection” test, a paying bank must handle, route, and transport a returned check in a manner designed to be at least as fast as a similarly situated bank would collect a forward collection check (3) of similar amount, (2) drawn on the depositary bank, and (3) received for deposit by a branch of the paying bank or a similarly situated bank by noon on the banking day following the banking day of presentment of the returned check.

f. Under the forward collection test, banks that use means of handling returned checks that are less efficient than the means used by similarly situated banks must improve their procedures. On the other hand, a bank with highly efficient means of collecting checks drawn on a particular bank, such as a direct presentment of checks to a bank in a remote community, is not required to use means that are less efficient than those used for forward collection, i.e., direct return, if similarly situated banks do not present checks directly to that depositary bank.

5. Examples.

a. If a check is presented to a paying bank on Monday and the depositary bank and the paying bank are participants in the same clearinghouse, the paying bank should arrange to have the returned check received by the depositary bank by Wednesday. This would be the same day the paying bank would deliver a forward collection check to the depositary bank if the paying bank received the deposit by noon on Tuesday.

b. If a check is presented to a paying bank on Monday and the paying bank would normally collect checks drawn on the depositary bank by sending them to a correspondent or a Federal Reserve Bank by courier, the paying bank could send the returned check to its correspondent or Federal Reserve Bank, provided that the correspondent has agreed to handle returned checks expeditiously under §229.31(a). (All
Federal Reserve Banks agree to handle returned checks expeditiously.

ii. The paying bank must deliver the returned check to the correspondent or Federal Reserve Bank by the correspondent's or Federal Reserve Bank's appropriate cut-off hour. The appropriate cut-off hour is the cut-off hour for returned checks that corresponds to the cut-off hour for forward collection checks drawn on the depositary bank that would normally be used by the paying bank or a similarly situated bank. A returned check cut-off hour corresponds to a forward collection cut-off hour if it provides for the same or faster availability for checks destined for the same depositary banks.

iii. In this example, delivery to the correspondent or a Federal Reserve Bank by the appropriate cut-off hour satisfies the paying bank's duty, even if use of the correspondent or Federal Reserve Bank is not the most expeditious means of returning the check. Thus, a paying bank may send a local returned check to a correspondent instead of a Federal Reserve Bank, even if the correspondent then sends the returned check to a Federal Reserve Bank the following day as a qualified returned check. Where the paying bank delivers forward collection checks by courier to the correspondent or the Federal Reserve Bank, mailing returned checks to the correspondent or Federal Reserve Bank would not satisfy the forward collection test.

iv. If a paying bank ordinarily mails its forward collection checks to its correspondent or Federal Reserve Bank in order to avoid the costs of a courier delivery, but similarly situated banks use a courier to deliver forward collection checks to their correspondent or Federal Reserve Bank, the paying bank must send its returned checks by courier to meet the forward collection test.

c. If a paying bank normally sends its forward collection checks directly to the depositary bank, which is located in another community, but similarly situated banks send forward collection checks drawn on the depositary bank to a correspondent or a Federal Reserve Bank, the paying bank would not have to send returned checks directly to the depositary bank, but could send them to a correspondent or a Federal Reserve Bank.

d. The dollar amount of the returned check has a bearing on how it must be returned. If the paying bank and similarly situated banks present large-dollar checks drawn on the depositary bank directly to the depositary bank, but use a Federal Reserve Bank or a correspondent to collect small-dollar checks, generally the paying bank would be required to send its large-dollar returns directly to the depositary bank (or through a returning bank, if the checks are returned as quickly), but could use a Federal Reserve Bank or a correspondent for its small-dollar returns.

6. Choice of returning bank. In meeting the requirements of the forward collection test, the paying bank is responsible for its own actions, but not for those of the depositary bank or returning banks. (This is analogous to the responsibility of collecting banks under U.C.C. 4-202(c).) For example, if the paying bank starts the return of the check in a timely manner but return is delayed by a returning bank (including delay to create a qualified returned check), generally the paying bank has met its requirements. (See §229.38) If, however, the paying bank selects a returning bank that the paying bank should know is not capable of meeting its return requirements, the paying bank will not have met its obligation of exercising ordinary care in selecting intermediaries to return the check. The paying bank is free to use a method of return, other than its method of forward collection, as long as the alternate method results in delivery of the returned check to the depositary bank as quickly as the forward collection of a check drawn on the depositary bank or, where the returning bank takes a day to create a qualified returned check under §229.31(a), one day later than the forward collection time. If a paying bank returns a check on its banking day of receipt without settling for the check, as permitted under U.C.C. 4-302(a), and receives settlement for the returned check from a returning bank, it must promptly pay the amount of the check to the collecting bank from which it received the check.

7. Qualified returned checks. Although paying banks may wish to prepare qualified returned checks because they will be handled at a lower cost by returning banks, the one business day extension provided to returning banks is not available to paying banks because of the longer time that a paying bank must dispatch the check. Normally, paying banks will be able to convert a check to a qualified returned check at any time after the determination is made to return the check until late in the day following presentation, while a returning bank may receive returned checks late on one day and be expected to dispatch them early the next morning. A check that is converted to a qualified returned check must be encoded in accordance with ANSI X9.13 for original checks or ANSI X9.100-140 for substitute checks.

8. Routing of returned checks:

a. In effect, under either test, the paying bank acts as an agent or subagent of the depositary bank in selecting a means of return. Under §229.30(a), a paying bank is authorized to route the returned check in a variety of ways:

i. It may send the returned check directly to the depositary bank by courier or other means of delivery, bypassing returning banks; or
ii. It may send the returned check to any returning bank agreeing to handle the returned check for expeditious return to the depositary bank under §229.31(a), regardless of whether or not the returning bank handled the check for forward collection.

b. If the paying bank elects to return the check directly to the depositary bank, it is not necessarily required to return the check to the branch of first deposit. The check may be returned to the depositary bank at any location permitted under §229.32(a).

9. Midnight deadline.

a. Except for the extension permitted by §229.30(c), discussed below, this section does not relieve a paying bank from the requirement for timely return (i.e., midnight deadline) under U.C.C. 4–301 and 4–302, which continue to apply. Under U.C.C. 4–302, a paying bank is “accountable” for the amount of a demand item, other than a documentary draft, if it does not pay or return the item or send notice of dishonor by its midnight deadline. Under U.C.C. 3–418(c) and 4–215(a), late return constitutes payment and would be final in favor of a holder in due course or a person who has in good faith changed his position in reliance on the payment. Thus, retaining this requirement gives the paying bank an additional incentive to make a prompt return.

b. The expeditious return requirement applies to a paying bank that determines not to pay a check. This requirement applies to a payable-through or a payable-at bank that is defined as a paying bank (see §229.22) and that returns a check. This requirement begins when the payable-through or payable-at bank receives the check during forward collection, not when the payor returns the check to the payable-through or payable-at bank. Nevertheless, a check sent for payment or collection to a payable-through or payable-at bank is not considered to be drawn on that bank for purposes of the midnight deadline provision of U.C.C. 4–301. (See discussion of §229.36(a).)

c. The liability section of this subpart (§229.38) provides that a paying bank is not subject to both “accountability” for missing the midnight deadline under the U.C.C. and liability for missing the timeliness requirements of this regulation. Also, a paying bank is not responsible for failure to make expeditious return to a party that has breached a presentment warranty under U.C.C. 4–208, notwithstanding that the paying bank has returned the check. (See Commentary to §229.33(a).)

10. U.C.C. provisions affected. This paragraph directly affects the following provisions of the U.C.C., and may affect other sections or provisions:

a. Section 4–301(d), in that instead of returning a check through a clearinghouse or to the presenting bank, a paying bank may send a returned check to the depositary bank or to a returning bank.

b. Section 4–301(a), in that time limits specified in that section may be affected by the additional requirement to make an expeditious return and in that settlement for returned checks is made under §229.31(c), not by revocation of settlement.

B. 229.30(b) Unidentifiable Depositary Bank

1. In some cases, a paying bank will be unable to identify the depositary bank through the use of ordinary care and good faith. The Board expects that these cases will be unusual as skilled return clerks will readily identify the depositary bank from the depositary bank indorsement required under §229.35 and appendix D. In cases where the paying bank is unable to identify the depositary bank, the paying bank may, in accordance with §229.30(a), send the returned check to a returning bank that agrees to handle the returned check for expeditious return to the depositary bank under §229.31(a). The returning bank may be better able to identify the depositary bank.

2. In the alternative, the paying bank may send the check back up the path used for forward collection of the check. The presenting bank and prior collecting banks normally will be able to trace the collection path of the check through the use of their internal records in conjunction with the indorsements on the returned check. In these limited cases, the paying bank may send such a returned check to any bank that handled the check for forward collection, even if that bank does not agree to handle the returned check for expeditious return to the depositary bank under §229.31(a). A paying bank returning a check under this paragraph to a bank that has not agreed to handle the check expeditiously must advise that bank that it is unable to identify the depositary bank. This advice must be conspicuous, such as a stamp on each check for which the depositary bank is unknown if such checks are commingled with other returned checks, or, if such checks are sent in a separate cash letter, by one notice on the cash letter. This information will warn the bank that this check will require special research and handling in accordance with §229.31(b). The returned check may not be prepared for automated return. The return of a check to a bank that handled the check for forward collection is consistent with §229.35(b), which requires a bank handling a check to take up the check it is has not been paid.

2. The sending of a check to a bank that handled the check for forward collection under this paragraph is not subject to the requirements for expeditious return by the paying bank. Often, the paying bank will not have courier or other expeditious means of
transportation to the collecting or presenting bank. Although the lack of a requirement of expeditious return will create risks for the depositary bank, in many cases the inability to identify the depositary bank will be due to the depositary bank’s, or a collecting bank’s, failure to use the indorsement required by §229.35(a) and appendix D. If the depositary bank failed to use the proper indorsement, it should bear the risks of less than expeditious return. Similarly, where the inability to identify the depositary bank is due to indorsements or other information placed on the back of the check by the depositary bank’s customer or other prior indorser, the depositary bank should bear the risk that it cannot charge a returned check back to that customer. Where the inability to identify the depositary bank is due to subsequent indorsements of collecting banks, these collecting banks may be liable for a loss incurred by the depositary bank due to less than expeditious return of a check; those banks therefore have an incentive to return checks sent to them under this paragraph quickly.

4. This paragraph does not relieve a paying bank from the liability for the lack of expeditious return in cases where the paying bank is itself responsible for the inability to identify the depositary bank, such as when the paying bank’s customer has used a check with printing or other material on the back in the area reserved for the depositary bank’s making the indorsement unreadable. (See §229.38(d).)

5. A paying bank’s return under this paragraph is also subject to its midnight deadline under U.C.C. 4–301, Regulation J (if the check is returned through a Federal Reserve Bank), and the exception provided in §229.30(c). A paying bank also may send a check to a prior collecting bank to make a claim against that bank under §229.35(b) where the depositary bank is insolvent or in other cases as provided in §229.35(b). Finally, a paying bank may make a claim against a prior collecting bank based on a breach of warranty under U.C.C. 4–208.

C. 229.30(c) Extension of Deadline

1. This paragraph permits extension of the deadlines for returning a check for which the paying bank previously has settled (generally midnight of the banking day following the banking day on which the check is received by the paying bank) and for returning a check without settling for it (generally midnight of the banking day on which the check is received by the paying bank, or such other time provided by §210.9 of Regulation J (12 CFR 210.9 and 210.12)) and §229.36(f)(2) of this part, but not of the duty of expeditious return, in two circumstances:

a. A paying bank may have a courier that leaves after midnight (or after any other applicable deadline) to deliver its forward-collected checks. This paragraph removes the constraint of the midnight deadline for returning checks if the returned check reaches the receiving bank on or before the receiving bank’s next banking day following the otherwise applicable deadline by the earlier of the close of that banking day or a cutoff hour of 2 p.m. or later set by the receiving bank under U.C.C. 4–108. The extension also applies if the check reaches the bank to which it is sent later than the time described in the previous sentence if highly expeditious means of transportation are used. For example, a West Coast paying bank may use this further extension to ship a returned check by air courier directly to an East Coast returning bank even if the check arrives after the returning bank’s cutoff hour. This paragraph applies to the extension of all midnight deadlines except Saturday midnight deadlines (see paragraph XVI.C.1.b of this appendix).

b. A paying bank may observe a banking day, as defined in the applicable U.C.C., on a Saturday, which is not a business day and therefore not a banking day under Regulation CC. In such a case, the U.C.C. deadline for returning checks received and settled for on Friday, or for returning checks received on Saturday without settling for them, might require the bank to return the checks by midnight Saturday. However, the bank may not have couriers leaving on Saturday to carry returned checks, and even if it did, the returning or depositary bank to which the returned checks were sent might not be open until Sunday night or Monday morning to receive and process the checks. This paragraph extends the midnight deadline if the returned checks reach the returning bank by a cut-off hour (usually Sunday night or Monday morning) that permits processing during its next processing cycle or reach the depositary bank by the cut-off hour on its next banking day following the Saturday midnight deadline. This paragraph applies exclusively to the extension of Saturday midnight deadlines.

2. The time limits that are extended in each case are the paying bank’s midnight deadline for returning a check for which it has already settled and the paying bank’s deadline for returning a check without settling for it in U.C.C. 4–301 and 4–302, §§210.9 and 210.12 of Regulation J (12 CFR 210.9 and 210.12), and §229.36(f)(2) of this part. As these extensions are designed to speed (§229.30(c)(1)), or at least not slow (§229.30(c)(2)), the overall return of checks, no modification or extension of the expeditious return requirements in §229.30(a) is required.

3. The paying bank satisfies its midnight or other return deadline by dispatching returned checks to another bank by courier, including a courier under contract with the
Federal Reserve System

4. This paragraph directly affects U.C.C. 4-301 and 4-302 and §§210.9 and 210.12 of Regulation J (12 CFR 210.9 and 210.12) to the extent that this paragraph applies by its terms, and may affect other provisions.

D. 229.30(d) Identification of Returned Check

1. The reason for the return must be clearly indicated. A check is identified as a returned check if the front of that check indicates the reason for return, even though it does not specifically state that the check is a returned check. A reason such as “Refer to Maker” is permissible in appropriate cases. If the returned check is a substitute check, the reason for return must be placed within the image of the original check that appears on the front of the substitute check so that the information is retained on any subsequent substitute check. If the paying bank places the returned check in a carrier envelope, the carrier envelope should indicate that it is a returned check but need not repeat the reason for return stated on the check if in fact appears on the check.

E. 229.30(e) Depositary Bank Without Accounts

1. Subpart B of this regulation applies only to “checks” deposited in transaction-type “accounts.” Thus, a depositary bank with only time or savings accounts need not comply with the availability requirements of Subpart B. Collecting banks will not have couriers delivering checks to these banks as paying banks, because no checks are drawn on them. Consequently, the costs of using a courier or other expedited means to deliver returned checks directly to such a depositary bank may not be justified. Thus, the expedited return requirement of §229.30(d) and the notice of nonpayment requirement of §229.33 do not apply to checks being returned to banks that do not hold accounts. The paying bank’s midnight deadline in U.C.C. 4-301 and 4-302 and §210.12 of Regulation J (12 CFR 210.12) would continue to apply to these checks. Returning banks also would be required to act on such checks within their midnight deadline. Further, in order to avoid complicating the process of returning checks, generally, banks without accounts are required to use the standard indorsement, and their checks are returned by returning banks and paid for by the depositary bank under the same rules as checks deposited in other banks, with the exception of the expedient return and notice of nonpayment requirements of §§229.30(a), 229.30(a), and 229.33.

2. The expedient return requirements also apply to a check deposited in a bank that is not a depository institution. Federal Reserve Banks, Federal Home Loan Banks, private bankers, and possibly certain industrial banks are not depository institutions within the meaning of the EFA Act, and therefore are not subject to the expedited availability and disclosure requirements of Subpart B. These banks do, however, maintain accounts as defined in §229.2(a), and a paying bank returning a check to one of these banks would be required to return the check to the depositary bank, in accordance with the requirements of this section.

F. 229.30(f) Notice in Lieu of Return

1. A check that is lost or otherwise unavailable for return may be returned by sending a legible copy of both sides of the check or, if such a copy is not available to the paying bank, a written notice of non-payment containing the information specified in §229.33(b). The copy or written notice must clearly indicate that it is a substitute for the original check and must be handled in the same manner as other returned checks. Notice by telephone, telegraph, or other electronic transmission, other than a legible facsimile or similar image transmission of both sides of the check, does not satisfy the requirements for a notice in lieu of return. The requirement for a writing and the indication that the notice is a substitute for the returned check is necessary so that the returning and depositary banks are informed that the notice carries value. Notice in lieu of return is permitted only when a bank does not have and cannot obtain possession of the check or must retain possession of the check for protest. A check is not unavailable for return if it is merely difficult to retrieve from a filing system or from storage by a keeper of checks in a truncation system. A notice in lieu of return may be used by a bank handling a returned check that has been lost or destroyed, including when the original returned check has been charged back as lost or destroyed as provided in §229.33(b). A bank using a notice in lieu of return gives a warranty under §229.34(a)(4) that the original check has not been and will not be returned.

2. The requirement of this paragraph supersedes the requirement of U.C.C. 4-301(a) as to the form and information required of a notice of dishonor or nonpayment. Reference in the regulation and this commentary to a returned check includes a notice in lieu of return unless the context indicates otherwise.

3. The notice in lieu of return is subject to the provisions of §229.30 and is treated like a returned check for settlement purposes. If the original check is over $2,500, the notice of nonpayment under §229.33 is still required, but may be satisfied by the notice in lieu of return if the notice in lieu meets the time and information requirements of §§229.33 and 229.33.

4. If not all of the information required by §229.33(b) is available, the paying bank may make a claim against any prior bank handling the check as provided in §229.33(b).
G. 229.30(g) Reliance on Routing Number

1. Although §229.35 and appendix D require that the depositary bank indorsement contain its nine-digit routing number, it is possible that a returned check will bear the routing number of the depositary bank in fractional, nine-digit, or other form. This paragraph permits a paying bank to rely on the routing number of the depositary bank as it appears on the check (in the depositary bank's indorsement) when it is received by the paying bank.

2. If there are inconsistent routing numbers, the paying bank may rely on any routing number designating the depositary bank. The paying bank is not required to resolve the inconsistency prior to processing the check. The paying bank remains subject to the requirement to act in good faith and use ordinary care under §229.38(a).

X VII. Section 229.31 Returning Bank's Responsibility for Return of Checks

A. 229.31(a) Return of Checks

1. The standards for return of checks established by this section are similar to those for paying banks in §229.30(a). This section requires a returning bank to return a returned check expeditiously if it agrees to handle the returned check for expeditious return under this paragraph. In effect, the returning bank is an agent or subagent of the paying bank and a subagent of the depositary bank for the purposes of returning the check.

2. A returning bank agrees to handle a returned check for expeditious return to the depositary bank if:
   a. Publishes or distributes availability schedules for the return of returned checks and accepts the returned check for return;
   b. Handles a returned check for return that it did not handle for forward collection; or
   c. Otherwise agrees to handle a returned check for expeditious return.

3. Two-day/four-day test. As in the case of a paying bank, a returning bank's return of a returned check is expedient if it meets either of two tests. Under the "two-day/four-day" test, the check must be returned so that it would normally be received by the depositary bank by 4:00 p.m. either two or four business days after the check was presented to the paying bank, depending on whether or not the paying bank is located in the same check processing region as the depositary bank. This is the same test as the two-day/four-day test applicable to paying banks. (See Commentary to §229.30(a).) While a returning bank will not have first hand knowledge of the day on which a check was presented to the paying bank, returning banks may, by agreement, allocate with paying banks liability for late return based on the delays caused by each. In effect, the two-day/four day test protects all paying and returning banks that return checks from claims that they failed to return a check expeditiously, where the check is returned within the specified time following presentment to the paying bank, or a later time as would result from unforeseen delays.

   a. The "forward collection" test is similar to the forward collection test for paying banks. Under this test, a returning bank must handle a returned check in the same manner that a similarly situated collecting bank would handle a check of similar size drawn on the depositary bank for forward collection. A similarly situated bank is a bank (other than a Federal Reserve Bank) that is of similar asset size and check handling activity in the same community. A bank has similar check handling activity if it handles a similar volume of checks for forward collection as the forward collection volume of the returning bank.
   b. Under the forward collection test, a returning bank must accept returned checks, including both qualified and other returned checks ("raw returns"), at approximately the same times and process them according to the same general schedules as checks handled for forward collection. Thus, a returning bank generally must process even raw returns on an overnight basis, unless its time limit is extended by one day to convert a raw return to a qualified returned check.

5. Cut-off hours. A returning bank may establish earlier cut-off hours for receipt of returned checks than for forward collection checks, but the cut-off hour for returned checks may not be earlier than 2:00 p.m. The returning bank also may set different sorting requirements for returned checks than those applicable to other checks. Thus, a returning bank may allow itself more processing time for returns than for forward collection checks. All returned checks received by a cut-off hour for returned checks must be processed and dispatched by the returning bank by the time that it would dispatch forward collection checks received at a corresponding forward collection cut-off hour that provides for the same or faster availability for checks destined for the same depositary banks.

   a. If a returning bank receives a returned check by its cut-off hour for returned checks on Monday and the depositary bank and the returning bank are participants in the same clearinghouse, the returning bank should arrange to have the returned check received by the depositary bank by Tuesday. This would be the same day that it would deliver a forward collection check drawn on the depositary bank and received by the returning bank at a corresponding forward collection cut-off hour on Monday.
   b. i. If a returning bank receives a returned check, and the returning bank normally
would collect a forward collection check drawn on the depositary bank by sending the forward collection check to a correspondent or a Federal Reserve Bank by courier, the returning bank must return the check in the same manner if the correspondent has agreed to handle returned checks expeditiously under §229.31(a). The returning bank would have a day to qualify the check by the correspondent’s or Federal Reserve Bank’s cut-off hour for returned checks that correspond to its cut-off hour for forward collection checks drawn on the depositary bank. A returning bank may take a day to convert a check to a qualified returned check. Where the forward collection checks are delivered by courier, mailing the returned checks would not meet the duty established by this section for returning banks.

ii. A returning bank must return a check to the depositary bank by courier or other means as fast as a courier, if similarly situated returning banks use couriers to deliver their forward collection checks to the depositary bank.

iii. For some depositary banks, no community practice exists as to delivery of checks. For example, a credit union whose customers use payable-through drafts normally does not have checks presented to it because the drafts are normally sent to the payable-through bank for collection. In these circumstances, the community standard is established by taking into account the dollar volume of the checks being sent to the depositary bank and the location of the depositary bank, and determining whether similarly situated banks normally would deliver forward collection checks to the depositary bank, taking into account the particular risks associated with returned checks. Where the community standard does not require courier delivery, other means of delivery, including mail, are acceptable.

7. Qualified returned checks.

a. The expeditious return requirement for a returning bank in this regulation is more stringent in many cases than the duty of a collecting bank to exercise ordinary care under U.C.C. 4-202 in returning a check. A returning bank is under a duty to act as expeditiously in returning a check as it would in the forward collection of a check. Notwithstanding its duty of expeditious return, its midnight deadline under U.C.C. 4-202 and §210.12(a) of Regulation J (12 CFR 210.12(a)), under the forward collection test, a returning bank may take an extra day to qualify a returned check. A qualified returned check will be handled by subsequent returning banks more efficiently than a raw return. This paragraph gives a returning bank an extra business day beyond the time that would otherwise be required to return the returned check to convert a returned check to a qualified returned check. The qualified returned check must include the routing number of the depositary bank, the amount of the check, and a return identifier encoded on the check in magnetic ink. A check that is converted to a qualified returned check must be encoded in accordance with ANS X9.13 for original checks or ANS X9.100-140 for substitute checks.

3. Returned checks.

a. Under §229.31(a), the returning bank is authorized to route the returned check in a variety of ways:

i. It may send the returned check directly to the depositary bank by courier or other expeditious means of delivery; or

ii. It may send the returned check to any returning bank agreeing to handle the returned check for expeditious return to the depositary bank under this section regardless of whether or not the returning bank handled the check for forward collection.

b. If the returning bank elects to send the returned check directly to the depositary bank, it is not required to send the check to the branch of the depositary bank that first handled the check. The returned check may be sent to the depositary bank at any location permitted under §229.32(a).

9. Responsibilities of returning bank. In meeting the requirements of this section, the returning bank is responsible for its own actions, but not those of the paying bank, other returning banks, or the depositary bank. (See U.C.C. 4-202(c) regarding the responsibility of collecting banks.) For example, if the paying bank has delayed the start of the return process, but the returning bank acts in a timely manner, the returning bank may satisfy the requirements of this section even if the delayed return results in a loss to the depositary bank. (See §229.33(a).) A returning bank must handle a notice in lieu of return as expeditiously as a returned check.

10. U.C.C. sections affected. This paragraph directly affects the following provisions of the U.C.C., and may affect other sections or provisions:

a. Section 4-202(b), in that time limits required by that section may be affected by the additional requirement to make an expeditious return.

b. Section 4-214(a), in that settlement for returned checks is made under §229.33(c) and not by charge-back of provisional credit, and
in that the time limits may be affected by the additional requirement to make an expeditious return.

B. 229.31(b) Unidentifiable Depositary Bank

1. This section is similar to §229.30(b), but applies to returning banks instead of paying banks. In some cases a returning bank will be unable to identify the depositary bank with respect to a check. Returning banks agreeing to handle checks for return to depositary banks under §229.3(a) are expected to cooperate in identifying depositary bank indorsements. In the limited cases where the returning bank cannot identify the depositary bank, the returning bank may send the returned check to a returning bank that agrees to handle the returned check for expeditious return under §229.31(a), or it may send the returned check to a bank that handled the check for forward collection, even if that bank does not agree to handle the returned check expeditiously under §229.31(a).

2. If the returning bank itself handled the check for forward collection, it may send the returned check to a collecting bank that was prior to it in the forward collection process, which will be better able to identify the depositary bank. If there are no prior collecting banks, the returning bank must re-search the collection of the check and identify the depositary bank. As in the case of paying banks under §229.30(b), a returning bank's sending of a check to a bank that handled the check for forward collection under §229.31(b) is not subject to the expeditious return requirements of §229.31(a).

3. The returning bank's return of a check under this paragraph is subject to the midnight deadline under U.C.C. 4–202(b). (See definition of returning bank in §229.2(cc).)

4. Where a returning bank receives a check that it does not agree to handle expeditiously under §229.31(a), such as a check sent to it under §229.30(b), but the returning bank is able to identify the depositary bank, the returning bank must thereafter return the check expeditiously to the depositary bank. The returning bank returns a check expeditiously under this paragraph if it returns the check by the same means it would use to return a check drawn on it to the depositary bank or by other reasonably prompt means.

5. As in the case of a paying bank returning a check under §229.30(b), a returning bank returning a check under this paragraph to a bank that has not agreed to handle the check expeditiously must advise that bank that it is unable to identify the depositary bank. This advice must be conspicuous, such as a stamp on each check for which the depositary bank is unknown if such checks are commingled with other returned checks, or, if such checks are sent in a separate cash letter, by one notice on the cash letter. The returned check may not be prepared for automated return.

C. 229.31(c) Settlement

1. Under the U.C.C., a collecting bank receives settlement for a check when it is presented to the paying bank. The paying bank may recover the settlement when the paying bank returns the check to the presenting bank. Under this regulation, however, the paying bank may return the check directly to the depositary bank or through returning banks that did not handle the check for forward collection. On these more efficient return paths, the paying bank does not recover the settlement made to the presenting bank. This paragraph requires the returning bank to settle for a returned check (either with the paying bank or another returning bank) in the same way that it would settle for a similar check for forward collection. To achieve uniformity, this paragraph applies even if the returning bank handled the check for forward collection.

2. Any returning bank, including one that handled the check for forward collection, may provide availability for returned checks pursuant to an availability schedule as it does for forward collection checks. These settlements by returning banks, as well as settlements between banks made during the forward collection of a check, are considered final when made subject to any deferment of availability. (See §229.36(d) and Commentary to §229.35(b).)

3. A returning bank may vary the settlement method it uses by agreement with paying banks or other returning banks. Special rules apply in the case of insolvency of banks. (See §229.39.) If payment cannot be obtained from a depositary or returning bank because of its insolvency or otherwise, recovery can be had by returning, paying, and collecting banks from prior banks on this basis of the liability of prior banks under §229.35(b).

D. 229.31(d) Charges

1. This paragraph permits any returning bank, even one that handled the check for forward collection, to impose a fee on the paying bank or other returning bank for its service in handling a returned check. Where a claim is made under §229.36(b), the bank on which the claim is made is not authorized by this paragraph to impose a charge for taking up a check. This paragraph preempts state laws to the extent that these laws prevent
returning banks from charging fees for handling returned checks.

E. 229.31(e) Depositary Bank Without Accounts

1. This paragraph is similar to §229.30(e) and relieves a returning bank of its obligation to make expeditious return to a depositary bank that does not maintain any accounts. (See the Commentary to §229.30(e).)

F. 229.33(f) Notice in Lieu of Return

1. This paragraph is similar to §229.30(f) and permits a returning bank to rely on routing numbers appearing on a returned check such as routing numbers in the depositary bank’s indorsement or on qualified returned checks. (See the Commentary to §229.30(f)).

G. 229.31(g) Reliance on Routing Number

1. This paragraph is similar to §229.30(g) and authorizes a returning bank to originate a notice in lieu of return if the returned check is unavailable for return. Notice in lieu of return is permitted only when a bank does not have and cannot obtain possession of the check or must retain possession of the check for protest. A check is not unavailable for return if it is merely difficult to retrieve from a filing system or from storage by a keeper of checks in a truncation system. (See the Commentary to §229.30(g)).

XVIII. Section 229.32 Depositary Bank’s Responsibility for Returned Checks

A. 229.32(a) Acceptance of Returned Checks

1. This regulation seeks to encourage direct returns by paying and returning banks and may result in a number of banks sending checks to depositary banks with no pre-existing arrangements as to where the returned checks should be delivered. This paragraph states where the depositary bank is required to accept returned checks and written notices of nonpayment under §229.33. (These locations differ from locations at which a depositary bank must accept electronic notices. It is derived from U.C.C. 3–111, which specifies that presentment for payment may be made at the place specified in the instrument or, if there is none, at the place of business of the party to pay. In the case of returned checks, the depositary bank does not print the check and can only specify the place of “payment” of the returned check in its indorsement.

2. The paragraph specifies four locations at which the depositary bank must accept returned checks:

a. The depositary bank must accept returned checks at any location at which it requests presentment of forward collection checks such as a processing center. A depositary bank does not request presentment of forward collection checks at a branch of the bank merely by paying checks presented over the counter.

b. i. If the depositary bank indorsement states the name and address of the depositary bank, it must accept returned checks at the branch, head office, or other location, such as a processing center, indicated by the address. If the address is too general to identify a particular location, then the depositary bank must accept returned checks at any branch or head office consistent with the address. If, for example, the address is “New York, New York,” each branch in New York City must accept returned checks.

ii. If no address appears in the depositary bank’s indorsement, the depositary bank must accept returned checks at any branch or head office associated with the depositary bank’s routing number. The offices associated with the routing number of a bank are found in American Bankers Association Key to Routing Numbers, published by an agent of the American Bankers Association, which lists a city and state address for each routing number.

iii. The depositary bank must accept returned checks at the address in its indorsement and at an address associated with its routing number in the indorsement if the written address in the indorsement and the address associated with the routing number in the indorsement are not in the same check processing region. Under §§229.30(g) and 229.31(g), a paying or returning bank may rely on the depositary bank’s routing number in its indorsement in handling returned checks and is not required to send returned checks to an address in the depositary bank’s indorsement that is not in the same check processing region as the address associated with the routing number in the indorsement.

iv. If no routing number or address appears in its indorsement, the depositary bank must accept a returned check at any branch or head office of the bank. The indorsement requirement of §229.35 and appendix D requires that the indorsement contain a routing number, a name, and a location. Consequently, this provision, as well as paragraph (a)(2)(ii) of this section, only applies where the depositary bank has failed to comply with the indorsement requirement.

3. For ease of processing, a depositary bank may require that returning or paying banks returning checks to it separate returned checks from forward collection checks being presented.

4. Under §229.33(d), a depositary bank receiving a returned check or notice of non-payment must send notice to its customer by its midnight deadline or within a longer reasonable time.
settles the day after the returned check is through an ACH credit or debit transfer that the bank may agree to accept payment the same-day payment. Thus, a returning or paying bank is warranted the costs of the depositary bank does not believe that the amount of the returned check or checks warrants the costs of the depositary bank. Also, certain means of payment, such as remittance drafts, may be used only with the agreement of the returning bank.

The depositary bank must pay for a returned check by the close of the banking day on which it received the returned check. The day on which a returned check is received is determined pursuant to U.C.C. 4-108, which permits the bank to establish a cut-off hour, generally not earlier than 2:00 p.m., and treat checks received after that hour as being received on the next banking day. If the depositary bank is unable to make payment to a returning or paying bank on the banking day that it receives the returned check, because the returning or paying bank is closed for a holiday or because the time when the depositary bank received the check is after the close of Fedwire, e.g., west coast banks with late cut-off hours, payment may be made on the next banking day of the bank receiving payment.

Payment must be made so that the funds are available for use by the bank returning the check to the depositary bank on the day the check is received by the depositary bank. For example, a depositary bank meets this requirement if it sends a wire transfer of funds to the returning or paying bank on the day it receives the returned check, even if the returning or paying bank has closed for the day. A wire transfer should indicate the purpose of the payment.

The depositary bank may use a net settlement arrangement to settle for a returned check. Banks with net settlement agreements could net the appropriate credits and debits for returned checks with the accounting entries for forward collection checks if they so desired. If, for purposes of establishing additional controls or for other reasons, the banks involved desired a separate settlement for returned checks, a separate net settlement agreement could be established.

The bank sending the returned check to the depositary bank may agree to accept payment at a later date if, for example, it does not believe that the amount of the returned check or checks warrants the costs of the same-day payment. Thus, a returning or paying bank may agree to accept payment through an ACH credit or debit transfer that settles the day after the returned check is received instead of a wire transfer that settles on the same day.

This paragraph and this subpart do not affect the depositary bank's right to recover a provisional settlement with its nonbank customer for a check that is returned. (See also §§229.19(c)(2)(ii), 229.33(d) and 229.35(b).)

C. 229.32(c) Misrouted Returned Checks

This paragraph permits a bank receiving a check on the basis that it is the depositary bank to send the misrouted returned check to the correct depositary bank, if it can identify the correct depositary bank, either directly or through a returning bank agreeing to handle the check expeditiously under §229.30(a). In these cases, the bank receiving the check is acting as a returning bank. Alternatively, the bank receiving the misrouted returned check must send the check back to the bank from which it was received. In either case the bank to which the returned check was misrouted could receive settlement for the check. The depositary bank would be required to pay for the returned check under §229.32(b), and any other bank to which the check is sent under this paragraph would be required to settle for the check as a returning bank under §229.31(c). If the check was originally received "free," that is, without a charge for the check, the bank incorrectly receiving the check would have to return the check, without a charge, to the bank from which it came. The bank to which the returned check was misrouted is required to act promptly but is not required to meet the expedient return requirements of §229.31(a); however, it must act within its midnight deadline. This paragraph does not affect a bank's duties under §229.35(b).

D. 229.32(d) Charges

This paragraph prohibits a depositary bank from charging the equivalent of a presentation fee for returned checks. A returning bank, however, may charge a fee for handling returned checks. If the returning bank receives a mixed cash letter of returned checks, which includes some checks for which the returning bank also is the depositary bank, the fee may be applied to all the returned checks in the cash letter. In the case of a sorted cash letter containing only returned checks for which the returning bank is the depositary bank, however, no fee may be charged.

XIX. Section 229.33 Notice of Nonpayment

A. 229.33(a) Requirement

Notice of nonpayment as required by this section and written notice in lieu of return as provided in §§229.30(f) and 229.33(f) serve different functions. The two kinds of notice, however, must meet the content requirements of this section. The paying bank...
Federal Reserve System

must send a notice of nonpayment if it decides not to pay a check of $2,500 or more. A paying bank may rely on an amount encoded on the check in magnetic ink to determine whether the check is in the amount of $2,500 or more. The notice of nonpayment carries no value, and the check itself (or the notice in lieu of return) must be returned. The paying bank must ensure that the notice of nonpayment is received by the depositary bank by 4:00 p.m. local time on the second business day following presentment. A bank identified by routing number as the paying bank is considered the paying bank under this regulation and would be required to create a notice of nonpayment even though the paying bank determined that the check was not drawn by a customer of that bank. (See Commentary to the definition of paying bank in §229.2(z).

2. The paying bank should not send a notice of nonpayment until it has finally determined not to pay the check. Under §229.34(b), by sending the notice the paying bank warrants that it has returned or will return the check. If a paying bank sends a notice and subsequently decides to pay the check, the paying bank may mitigate its liability on this warranty by notifying the depositary bank that the check has been paid.

3. Because the return of the check itself may serve as the required notice of nonpayment, in many cases no notice other than the return of the check will be necessary. For example, in many cases the return of a check through a clearinghouse to another participant of the clearinghouse will be made in time to meet the time requirements of this section. If the check normally will not be received by the depositary bank within the time limits for notice, the return of the check will not satisfy the notice requirement. In determining whether the returned check will satisfy the notice requirement, the paying bank may rely on the availability schedules of returning banks as the time that the returned check is expected to be delivered to the depositary bank, unless the paying bank has reason to know the availability schedules are inaccurate.

4. Unless the returned check is used to satisfy the notice requirement, the requirement for notice is independent of and does not affect the requirements for timely and expeditious return under §229.30 and the U.C.C. (See §229.30(a)). If a paying bank fails both to comply with this section and to comply with the requirements for timely and expeditious return under §229.30 and the U.C.C. and Regulation J (12 CFR part 210), the paying bank shall be liable under either this section or such other requirements, but not both. (See §229.38(b).) A paying bank is not responsible for failure to give notice of nonpayment to a party that has breached a presentment warranty under U.C.C. 4-208, notwithstanding that the paying bank may have returned the check. (See U.C.C. 4-208 and 4-302.)

B. 229.33(b) Content of Notices

1. This paragraph provides that the notice must at a minimum contain eight elements which are specifically enumerated. In the case of written notices, the name and routing number of the depositary bank also are required.

2. If the paying bank cannot identify the depositary bank from the check itself, it may wish to send the notice to the earliest collecting bank it can identify and indicate that the notice is not being sent to the depositary bank. The collecting bank may be able to identify the depositary bank and forward the notice, but is under no duty to do so. In addition, the collecting bank may actually be the depositary bank.

3. A bank must identify an item of information if the bank is uncertain as to that item’s accuracy. A bank may make this identification by setting the item off with question marks, asterisks, or other symbols designated for this purpose by generally applicable industry standards.

C. 229.33(c) Acceptance of Notice

1. In the case of a written notice, the depositary bank is required to accept notices at the locations specified in §229.30(a). In the case of telephone notices, the bank may not refuse to accept notices at the telephone numbers identified in this section, but may transfer calls or use a recording device. Banks may vary by agreement the location and manner in which notices are received.

D. 229.33(d) Notification to Customer

1. This paragraph requires a depositary bank to notify its customer of nonpayment upon receipt of a returned check or notice of nonpayment, regardless of the amount of the check or notice. This requirement is similar to the requirement under the U.C.C. as interpreted in Appliance Buyers Credit Corp. v. Prospect National Bank, 708 F.2d 290 (7th Cir. 1983), that a depositary bank may be liable for damages incurred by its customer for its failure to give its customer timely advice that it has received a notice of nonpayment. Notice also must be given if a depositary bank receives a notice of recovery under §229.35(b). A bank that chooses to provide the notice required by §229.33(d) in writing may send the notice by e-mail or facsimile if the bank sends the notice to the e-mail address or facsimile number specified by the customer for that purpose. The notice to the customer required under this paragraph also may satisfy the notice requirement of §229.13(g) if the depositary bank invokes the reasonable-cause exception of §229.13(e) due to the receipt of a notice of nonpayment.
X.X. Section 229.34 Warranties
A. 229.34(a) Warranty of Returned Check
1. This paragraph includes warranties that a returned check, including a notice in lieu of return, was returned by the paying bank, or in the case of a check payable by a bank and payable through another bank, the bank by which the check is payable, within the time required under the U.C.C. (subject to any claims or defenses under the U.C.C., such as breach of a presentment warranty). Regulation (12 CFR part 230), or §229.30(c); that the paying or returning bank is authorized to return the check; that the returned check has not been materially altered; and that, in the case of a notice in lieu of return, the original check has not been and will not be returned for payment. (See the Commentary to §229.30(f).) The warranty does not include a warranty that the bank complied with the expedited return requirements of §§229.30(a) and 229.31(a). These warranties do not apply to checks drawn on the United States Treasury, to U.S. Postal Service money orders, or to checks drawn on a state or a unit of general local government that are not payable through or at a bank. (See §229.42.)

B. 229.34(b) Warranty of Notice of Nonpayment
1. This paragraph provides for warranties for notices of nonpayment. This warranty does not include a warranty that the notice is accurate and timely under §229.33. The requirements of §229.33 that are not covered by the warranty are subject to the liability provisions of §229.38. These warranties are designed to give the depositary bank more confidence in relying on notices of nonpayment. This paragraph imposes liability on a paying bank that gives notice of nonpayment and then subsequently returns the check. (See Commentary on §229.33(a).)

C. 229.34(c) Warranty of Settlement Amount, Encoding, and Offset
1. Paragraph (c)(1) provides that a bank that presents and receives settlement for checks warrants to the paying bank that the settlement it demands (e.g., as noted on the cash letter) equals the total amount of the checks it presents. This paragraph gives the paying bank a warranty claim against the presenting bank for the amount of any excess settlement made on the basis of the amount demanded, plus expenses. If the amount demanded is understated; the pre-
are given only by banks and only to subsequent banks in the collection chain. The warranties ultimately shift liability for the loss created by an unauthorized remotely created check to the depositary bank. The depositary bank cannot assert the transfer and presentment warranties against a depositor. However, a depositary bank may, by agreement, allocate liability for such an item to the depositor and also may have a claim under other laws against that person.

2. The transfer and presentment warranties for remotely created checks supplement the Federal Trade Commission’s Telemarketing Sales Rule, which requires telemarketers that submit checks for payment to obtain the customer’s “express verifiable authorization” (the authorization may be either in writing or tape recorded and must be made available upon request to the customer’s bank). 16 CFR 310.3(a)(3). The transfer and presentment warranties shift liability to the depositary bank only when the remotely created check is unauthorized, and would not apply when the customer initially authorizes a check but then experiences “buyer’s remorse” and subsequently tries to revoke the authorization by asserting a claim against the paying bank under U.C.C. 4–401. If the depositary bank suspects “buyer’s remorse,” it may obtain from its customer the express verifiable authorization of the check by the paying bank’s customer, required under the Federal Trade Commission’s Telemarketing Sales Rule, and use that authorization as a defense to the warranty claim.

3. The scope of the transfer and presentment warranties for remotely created checks differs from that of the corresponding U.C.C. warranty provisions in two respects. The U.C.C. warranties differ from the §229.34(d) warranties in that they are given by any person, including a nonbank depositor, that transfers a remotely created check and not just to a bank, as is the case under §229.34(d). In addition, the U.C.C. warranties state that the person on whose account the item is drawn authorized the issuance of the item in the amount for which the item is drawn. The §229.34(d) warranties specifically cover the amount as well as the payee stated on the check. Neither the U.C.C. warranties, nor the §229.34(d) warranties apply to the date stated on the remotely created check.

4. A bank making the §229.34(d) warranties may defend a claim asserting violation of the warranties by proving that the customer of the paying bank is precluded by U.C.C. 4–406 from making a claim against the paying bank. This may be the case, for example, if the customer failed to discover the unauthorized remotely created check in a timely manner.

5. The transfer and presentment warranties for a remotely created check apply to a remotely created check that has been reconverted to a substitute check.

E. 229.34(d) Damages

1. This paragraph adopts for the warranties in §229.34 (a), (b), and (c) the damages provided in U.C.C. 4–207(c) and 4A–506(b). (See definition of interest compensation in §229.2(o).

F. 229.34(e) Tender of Defense

1. This paragraph adopts for this regulation the vouching-in provisions of U.C.C. 3–119.

G. 229.34(f) Notice of Claim

1. This paragraph adopts the notice provisions of U.C.C. sections 4–207(d) and 4–208(e). The time limit set forth in this paragraph applies to notices of claims for warranty breaches only. As provided in §229.38(g), all actions under this section must be brought within one year after the date of the occurrence of the violation involved.

XXI. Section 229.35 Indorsements

A. 229.35(a) Indorsement Standards

1. This section and appendix D require banks to use a standard form of indorsement when indorsing checks during the forward collection and return process. The standard provides for indorsements by all collecting and returning banks, plus a unique standard for depositary bank indorsements. It is designed to facilitate the identification of the depositary bank and the prompt return of checks. The regulation places a duty on banks to ensure that their indorsements can be interpreted by any person. The indorsement standard specifies the information each indorsement must contain and its location and ink color.

2. Banks generally apply indorsements to a paper check in one of two ways: (1) banks print or “spray” indorsements onto a check when the check is processed through the banks’ automated check sorters (regardless of whether the checks are original checks or substitute checks), and (2) reconvert banks print or “overlay” previously applied electronic indorsements and their own indorsements and identifications onto a substitute check at the time that the substitute check is created. If a subsequent substitute check is created in the course of collection or return, that substitute check will contain, in its image of the back of the previous substitute check, reproductions of indorsements that were sprayed or overlaid onto the previous item. For purposes of the indorsement standard set forth in appendix D, a reproduction of a previously applied sprayed or overlaid indorsement contained within an image of a check does not constitute “an indorsement that previously was applied electronically.” To accommodate these two indorsement scenarios, the appendix includes two indorsement location specifications: one
standard applies to banks spray- ing indorsements onto existing paper original checks and substitute checks, and another applies to reconverting banks overlaying indorsements previously applied electronically and their own indorsements onto substitute checks at the time the substitute checks are created.

3. A check processing equipment that captures an image of a check prior to spraying an indorsement onto that item. If the bank truncates that item, it should ensure that it also applies an indorsement to the item electronically. A reconverting bank satisfies its obligation to destroy all previously applied indorsements by overlaying a bank’s indorsement that previously was applied electronically onto a substitute check that the reconverting bank creates.

4. The location of an indorsement applied to an original paper check in accordance with appendix D may shift if that check is truncated and later reconverted to a substitute check. If an indorsement applied to the original check in accordance with appendix D is overwritten by a subsequent indorsement applied to the substitute check in accordance with appendix D, then one or both of those indorsements could be rendered illegible. As explained in §229.38(e) and the commentary thereto, a reconverting bank is liable for losses associated with indorsements that are rendered illegible as a result of check substitution.

5. To ensure that indorsements can be easily read and would remain legible after an image of a check is captured, the standard requires all indorsements applied to original checks and substitute checks to be printed in black ink as of January 1, 2006.

6. The standard requires the depositary bank’s indorsement to include (1) its nine-digit routing number set off by an arrow at each end of the routing number and, if the depositary bank is a reconverting bank with respect to the check, an asterisk outside the arrow at each end of the routing number to identify the bank as a reconverting bank; (2) the indorsement date; and (3) if the indorsement is applied physically, name or location information. The standard also permits but does not require the indorsement to include other identifying information. The standard requires a collecting bank’s or returning bank’s indorsement to include only (1) the bank’s nine-digit routing number (without arrows) and, if the collecting bank or returning bank is a reconverting bank with respect to the check, an asterisk at each end of the number to identify the bank as a reconverting bank, (2) the indorsement date, and (3) an optional trace or sequence number.

7. Depositary banks should not include information that can be confused with required information. For example, a nine-digit zip code could be confused with the nine-digit routing number.

8. A depositary bank may want to include an address in its indorsement in order to limit the number of locations at which it must receive returned checks. In instances where this address is not consistent with the routing number in the indorsement, the depositary bank is required to receive returned checks at a branch or head office consistent with the routing number. Banks should note, however, that §229.32 requires a depositary bank to receive returned checks at the location(s) at which it receives forward-collection checks.

9. In addition to indorsing a substitute check in accordance with appendix D, a reconverting bank must identify itself and the truncating bank by applying its routing number and the routing number of the truncating bank to the front of the check in accordance with appendix D and ANS X9.100-140. Further, if the reconverting bank is the paying bank, it also must identify itself by applying its routing number to the back of the check in accordance with appendix D. In these instances, the reconverting bank and truncating bank routing numbers are for identification purposes only and are not indorsements or acceptances.

10. Under the U.C.C., a specific guarantee of prior indorsement is not necessary. (See U.C.C. 4-207(a) and 4-208(a).) Use of guarantee language in indorsements, such as “P.E.G.” (“prior endorsements guaranteed”), may result in reducing the type size used in bank indorsements, thereby making them more difficult to read. Use of this language may make it more difficult for other banks to identify the depositary bank. Subsequent collecting bank indorsements may not include this language.

11. If the bank maintaining the account into which a check is deposited agrees with another bank (a correspondent, ATM operator, or lock box operator) to have the other bank accept returns and notices of non-payment for the bank of account, the indorsement placed on the check as the depositary bank indorsement may be the indorsement of the bank that acts as correspondent, ATM operator, or lock box operator as provided in paragraph (d) of this section.

12. The backs of many checks bear pre-printed information or blacked out areas for various reasons. For example, some checks are printed with a carbon band across the back that allows the transfer of information from the check to a ledger with one writing. Also, contracts or loan agreements are printed on certain checks. Other checks that are mailed to recipients may contain areas on the back that are blacked out so that they may not be read through the mailer. On the deposit side, the payee of the check may
Federal Reserve System

Pt. 229, App. E

place its indorsement or information identifying the drawer of the check in the area specified for the depositary bank indorsement, thus making the depositary bank indorsement unreadable.

13. The indorsement standard does not prohibit the use of a carbon band or other printed or written matter on the backs of checks and does not require banks to avoid placing their indorsements in these areas. Nevertheless, checks will be handled more efficiently if depositary banks design indorsement stamps so that the nine-digit routing number avoids the carbon band area. Indorsing parties other than banks, e.g., corporations, will benefit from the faster return of checks if they protect the identifiability and legibility of the depositary bank indorsement by staying clear of the area reserved for the depositary bank indorsement.

14. Section 229.38(d) allocates responsibility for loss resulting from a delay in return of a check due to indorsements that are unreadable because of material on the back of the check. The depositary bank is responsible for a loss resulting from a delay in return caused by the condition of the check arising after its issuance until its acceptance by the depositary bank that made the depositary bank's indorsement illegible. The paying bank is responsible for loss resulting from a delay in return caused by indorsements that are not readable because of other material on the back of the check at the time that it was issued. Depositary and paying banks may shift these risks to their customers by agreement.

15. The standard does not require the paying bank to indorse the check; however, if a paying bank does indorse a check that is returned, it should follow the indorsement standard for collecting banks and returning banks. The standard requires collecting and returning banks to indorse the check for tracing purposes. With respect to the identification of a paying bank that is also a re-

B. 229.35(b) Liability of Bank Handling Check

1. When a check is sent for forward collection, the collection process results in a chain of indorsements extending from the depositary bank through any subsequent collecting banks to the paying bank. This section extends the indorsement chain through the paying bank to the returning banks, and would permit each bank to recover from any prior indorser if the claimant bank does not receive payment for the check from a subsequent bank in the collection or return chain. For example, if a returning bank returned a check to an insolvent depositary bank, and did not receive the full amount of the check from the failed bank, the returning bank could obtain the unrecovered amount of the check from any bank prior to it in the collection and return chain including the paying bank. Because each bank in the collection and return chain could recover from a prior bank, any loss would fall on the bank that received the failed bank's check. Under the U.C.C., the first collecting bank might ultimately recover from the depositary bank's customer or from the other parties on the check.

2. Where a check is returned through the same banks used for the forward collection of the check, priority during the forward collection process controls over priority in the return process for the purpose of determining prior and subsequent banks under this regulation.

3. Where a returning bank is insolvent and fails to pay the paying bank or a prior returning bank for a returned check, §229.39(a) requires the receiver of the failed bank to return the check to the bank that transferred the check to the failed bank. That bank then either could continue the return to the depositary bank or recover based on this paragraph. Where the paying bank is insolvent, and fails to pay the collecting bank, the collecting bank also could recover from a prior collecting bank under this paragraph, and the bank from which it recovered could in turn recover from its prior collecting bank until the loss settled on the depositary bank (which could recover from its customer).

4. A bank is not required to make a claim against an insolvent bank before exercising its right to recovery under this paragraph. Recovery may be made by charge-back or by other means. This right of recovery also is permitted even where nonpayment of the check is the result of the claiming bank's negligence such as failure to make expeditious return, but the claiming bank remains liable for its negligence under §229.30.

5. This liability is imposed on a bank handling a check for collection or return regardless of whether the bank's indorsement appears on the check. Notice must be sent under this paragraph to a prior bank from which recovery is sought reasonably promptly after a bank learns that it did not receive payment from another bank, and learns the identity of the prior bank. Written notice reasonably identifying the check and the basis for recovery is sufficient if the check is not available. Receipt of notice by the bank against which the claim is made is not a precondition to recovery by charge-back or other means; however, a bank may be liable for negligence for failure to provide timely notice. A paying or returning bank also may recover from a prior collecting bank as provided in §§229.30(b) and 229.31(b). This provision is not a substitute for a paying or returning bank making expeditious return
under §§229.30(a) or 229.31(b). This paragraph does not affect a paying bank’s accountability for a check under U.C.C. 4-213(a) and 4-302. Nor does this paragraph affect a collecting bank’s accountability under U.C.C. 4-213 and 4-215(d). A collecting bank becomes accountable upon receipt of final settlement as provided in the foregoing U.C.C. sections. The term final settlement in §§229.31(c), 229.32(b), and 229.36(d) is intended to be consistent with the use of the term final settlement in the U.C.C. (e.g., U.C.C. 4-213, 4-214, and 4-215). (See also §229.2(cc) and Commentary.)

6. This paragraph also provides that a bank may have the rights of a holder based on the handling of the check for collection or return. A bank may become a holder or a holder in due course regardless of whether prior banks have complied with the indorsement standard in §229.35(a) and appendix D.

7. This paragraph affects the following provisions of the U.C.C., and may affect other provisions:
   a. Section 4-214(a), in that the right to recovery is not based on provisional settlement, and recovery may be had from any prior bank. Section 4-214(a) would continue to permit a depositary bank to recover a provisional settlement from its customer. (See §229.33(d).)
   b. Section 3-415 and related provisions (such as section 3-503), in that such provisions would not apply as between banks, or as between the depositary bank and its customer.
   C. 229.35(c) Indorsement by Bank
      1. This section protects the rights of a customer depositing a check in a bank without requiring the words “pay any bank,” as required by the U.C.C. (See U.C.C. 4-201(b).) Use of this language in a depositary bank’s indorsement will make it more difficult for other banks to identify the depositary bank. The indorsement standard in appendix D prohibits such material in subsequent collecting bank indorsements. The existence of a bank indorsement provides notice of the restrictive indorsement without any additional words.
   D. 229.35(d) Indorsement for Depositary Bank
      1. This section permits a depositary bank to arrange with another bank to indorse checks. This practice may occur when a correspondent indorses for a respondent, or when the bank servicing an ATM or lock box indorses for the bank maintaining the account in which the check is deposited—i.e., the correspondent bank, if the indorsing bank applies the depositary bank’s indorsement, checks will be returned to the depositary bank. If the indorsing bank does not apply the depositary bank’s indorsement, by agreement with the depositary bank it may apply its own indorsement as the depositary bank indorsement. In that case, the depositary bank’s own indorsement on the check (if any) should avoid the location reserved for the depositary bank. The actual depositary bank remains responsible for the availability and other requirements of Subpart B, but the bank indorsing as depositary bank is considered the depositary bank for purposes of Subpart C. The check will be returned, and notice of nonpayment will be given, to the bank indorsing as depositary bank.

2. Because the depositary bank for Subpart B purposes will desire prompt notice of nonpayment, its arrangement with the indorsing bank should provide for prompt notice of nonpayment. The bank indorsing as depositary bank may require the depositary bank to agree to take up the check if the check is not paid even if the depositary bank’s indorsement does not appear on the check and it did not handle the check. The arrangement between the banks may constitute an agreement varying the effect of provisions of Subpart C under §229.37.

XXII. Section 229.36 Presentment and Issuance of Checks

A. 229.36(a) Payable Through and Payable at Checks
   1. For purposes of Subpart C, the regulation defines a payable-through or payable-at bank (which could be designated the collectible-through or collectible-at bank) as a paying bank. The requirements of §229.30(a) and the notice of nonpayment requirements of §229.33 are imposed on a payable-through or payable-at bank and are based on the time of receipt of the forward collection check by the payable-through or payable-at bank. This provision is intended to speed the return of checks that are payable through or at a bank to the depositary bank.

   B. 229.36(b) Receipt at Bank Office or Processing Center
      1. This paragraph seeks to facilitate efficient presentment of checks to promote early return or notice of nonpayment to the depositary bank and clarifies the law as to the effect of presentment by routing number. This paragraph differs from §229.32(a) because presentment of checks differs from delivery of returned checks.

      2. The paragraph specifies four locations at which the paying bank must accept presentment of checks. Where the check is payable through a bank and the check is sent to that bank, the payable-through bank is the paying bank for purposes of this subpart, regardless of whether the paying bank must present the check to another bank or to a nonbank payor for payment.
Federal Reserve System

Pt. 229, App. E

a. Delivery of checks may be made, and presentment is considered to occur, at a location (including a processing center) requested by the paying bank. This is the way most checks are presented by banks today. This provision adopts the common law rule of a number of legal decisions that the processing center acts as the agent of the paying bank to accept presentment of forward collection checks bearing different routing numbers, for purposes of this paragraph it requests presentment of checks bearing a particular routing number only at the location designated for receipt of forward collection checks bearing that routing number.

b. Delivery may be made at an office of the bank associated with the routing number on the check. The office associated with the routing number of a bank is found in American Bankers Association Key to Routing Numbers, published by an agent of the American Bankers Association, which lists a city and state address for each routing number. Check generally is in the control of the paying bank. The office associated with the routing number, just as it does the use of its name. The definition of a paying bank generally may control the use of its routing number on the check. A bank generally may control the use of its routing number and address on the check. As the payor bank, it is proper to treat the payable-through bank as the point through which presentment is to be made, it is proper to treat the payable-through bank as the paying bank for purposes of this section.

c. If the check specifies the name of the paying bank but no address, the bank may accept delivery at any office. Where delivery is made by a person other than a bank, or where the routing number is not readable, delivery will be made based on the name and address of the paying bank on the check. If there is no address, delivery may be made at any office of the paying bank. This provision is consistent with U.C.C. 3–111, which states that presentment for payment may be made at the place specified in the instrument, or if there is none, at the place of business of the party to pay. Thus, there is a trade-off for a paying bank between specifying a particular address on a check to limit locations of delivery, and simply stating the name of the bank to encourage wider currency for the check.

d. If the check specifies the name and address of a branch or head office, or other location (such as a processing center), the check may be delivered by delivery to that office or other location. If the address is too general to identify a particular office, delivery may be made at any office consistent with the address. For example, if the address is “San Francisco, California,” each office in San Francisco must accept presentment. The designation of an address on the check generally is in the control of the paying bank.

This paragraph may affect U.C.C. 3–111 to the extent that the U.C.C. requires presentment to occur at a place specified in the instrument.

C. [Reserved]

D. 229.36(d) Liability of Bank During Forward Collection

1. This paragraph makes settlement between banks during forward collection final when made, subject to any deferment of credit, just as settlements between banks during the return of checks are final. In addition, this paragraph clarifies that this change does not affect the liability scheme under U.C.C. 4–201 during forward collection of a check. That U.C.C. section provides that, unless a contrary intent clearly appears, a bank is an agent or subagent of the owner of a check, but that Article 4 of the U.C.C applies even though a bank may have purchased an item and is the owner of it. This paragraph preserves the liability of a collecting bank to prior collecting banks and the depositary bank’s customer for negligence during the forward collection of a check under the U.C.C., even though this paragraph provides that settlement between banks during forward collection is final rather than provisional. Settlement by a paying bank is not considered to be final payment for the purposes of U.C.C. 4–215(a)(2) or (3), among branches should permit the paying bank to determine quickly whether to pay the check.

because a paying bank has the right to recover settlement from a returning or depositary bank to which it returns a check under this subpart. Other provisions of the U.C.C. not superseded by this subpart, such as section 4-202, also continue to apply to the forward collection of a check and may apply to the return of a check. (See definition of returning bank in §229.2(cc).)

E. 229.36(e) Issuance of Payable Through Checks

1. If a bank arranges for checks payable by it to be payable through another bank, it must require its customers to use checks that contain conspicuously on their face the name, location, and first four digits of the nine-digit routing number of the bank by which the check is payable and the legend “payable through” followed by the name of the payable-through bank. The first four digits of the nine-digit routing number and the location of the bank by which the check is payable must be associated with the same check processing region. (This section does not affect §229.38.) The required information is deemed conspicuous if it is printed in a type size not smaller than six-point type and if it is contained in the title plate, which is located in the lower left quadrant of the check. The required information may be conspicuous if it is located elsewhere on the check.

2. If a payable-through check does not meet the requirements of this paragraph, the bank by which the check is payable may be liable to the depositary bank or others as provided in §229.38. For example, a bank by which a payable-through check is payable could be liable to a depositary bank that suffers a loss, such as lost interest or liability under Subpart B, that would not have occurred had the check met the requirements of this paragraph. Similarly, a bank may be liable under §229.36 if a check payable by it that is not payable through another bank is labeled as provided in this section. For example, a bank that holds checking accounts and processes checks at a central location but has widely-dispersed branches may be liable under this section if it labels all of its checks as “payable through” a single branch and includes the name, address, and four-digit routing symbol of another branch. These checks would not be payable through another bank and should not be labeled as payable-through checks. (All of a bank’s offices within the United States are considered part of the same bank; see §229.2(e).) In this example, the bank by which the checks are payable could be liable to a depositary bank that suffers a loss, such as lost interest or liability under Subpart B, due to the mislabeled check. The bank by which the check is payable may be liable for additional damages if it fails to act in good faith.

12 CFR Ch. II (1–1–10 Edition)

F. 229.36(f) Same-Day Settlement

1. This paragraph provides that, under certain conditions, a paying bank must settle with a presenting bank for a check on the day the check is presented in order to avail itself of the ability to return the check on its next banking day under U.C.C. 4-301 and 4-302. This paragraph does not apply to checks presented for immediate payment over the counter. Settlement for a check under this paragraph does not constitute final payment of the check under the U.C.C. This paragraph does not supersede or limit the rules governing collection and return of checks through Federal Reserve Banks that are contained in Subpart A of Regulation J (12 CFR part 210).

2. Presentment requirements.

a. Location and time.

i. For presented checks to qualify for mandatory same-day settlement, information accompanying the checks must indicate that presentment is being made under this paragraph—e.g., "these checks are being presented for same-day settlement"—and must include a demand for payment of the total amount of the checks together with appropriate payment instructions in order to enable the paying bank to discharge its settlement responsibilities under this paragraph. In addition, the check or checks must be presented at a location designated by the paying bank for receipt of checks for same-day settlement by 8:00 a.m. local time of that location. The designated presentment location must be a location at which the paying bank would be considered to have received a check under §229.36(b). The paying bank may not designate a location solely for presentment of checks subject to settlement under this paragraph; by designating a location for the purposes of §229.36(f), the paying bank agrees to accept checks at that location for the purposes of §229.36(b).

ii. The designated presentment location also must be within the check processing region consistent with the nine-digit routing number encoded in magnetic ink on the check. A paying bank that uses more than one routing number associated with a single check processing region may designate, for purposes of this paragraph, one or more locations in that check processing region at which checks will be accepted, but the paying bank must accept any checks with a routing number associated with that check processing region at each designated location. A paying bank may designate a presentment location for traveler’s checks with an 8000-series routing number anywhere in the country because these traveler’s checks are not associated with any check processing region. The paying bank, however, must accept at that presentment location any other checks for which it is paying bank that have
Federal Reserve System
Pt. 229, App. E

a routing number consistent with the check processing region of that location.

iii. If the paying bank does not designate a presentment location, it must accept presentment of checks it receives as a routing number for the paying bank's account in accordance with §229.36(b), i.e., at an address of the bank associated with the routing number on the check, at any branch or head office if the bank is identified on the check by name without address, or at a branch, head office, or any other location consistent with the name and address of the bank on the check if the bank is identified on the check by name and address. A paying bank and a presenting bank may agree that checks will be accepted for same-day settlement at an alternative location (e.g., at an intercept processor located in a different check processing region) or that the cut-off time for same-day settlement be earlier or later than 8:00 a.m. local time.

iv. In the case of a check payable through a bank but payable by another bank, this paragraph does not authorize direct presentment to the bank by which the check is payable. The requirements of same-day settlement under this paragraph would apply to a payable-through or payable-at bank to which the check is sent for payment or collection.

b. Reasonable delivery requirements. A check is considered presented when it is delivered to and payment is demanded at a location specified in paragraph (f)(1). Ordinarily, a presenting bank will find it necessary to contact the paying bank to determine the appropriate presentment location and any delivery instructions. Further, because presentment might not take place during the paying bank's banking day, a paying bank may establish reasonable delivery requirements to safeguard the checks presented, such as use of a night depository. If a presenting bank fails to follow reasonable delivery requirements established by the paying bank, it runs the risk that it will not have presented the checks. However, if no reasonable delivery requirements are established or if the paying bank does not make provisions for accepting delivery of checks during its non-business hours, leaving the checks at the presentment location constitutes effective presentment.

c. Sorting of checks. A paying bank may require that checks presented to it for same-day settlement be sorted separately from other forward collection checks it receives as a collecting bank or returned checks it receives as a returning or depositary bank. For example, if a bank provides correspondent check collection services and receives unsorted checks from a respondent bank that include checks for which it is the paying bank and that would otherwise meet the requirements for same-day settlement under this section, the collecting bank need not make settlement in accordance with paragraph (f)(2). If the collecting bank receives sorted checks from its respondent bank, consisting only of checks for which the collecting bank is the paying bank and that meet the requirements for same-day settlement under this paragraph, the collecting bank need not make settlement in accordance with this paragraph.

3. Settlement

a. If a bank presents a check in accordance with the time and location requirements for presentment under paragraph (f)(1), the paying bank may establish reasonable delivery requirements to safeguard the checks presented, such as use of a night depository. If a presenting bank fails to follow reasonable delivery requirements, the paying bank may not charge a fee for handling those checks and must make settlement in accordance with this paragraph.

b. Checks that are presented after the 8 a.m. (local time) presentment deadline for same-day settlement and before the paying bank's cut-off hour are treated as if they were presented under other applicable law and settled for or returned accordingly. However, for purposes of settlement only, the presenting bank may require the paying bank to treat such checks as presented for same-day settlement on the next business day in lieu of accepting settlement by cash or other means on the business day the checks are presented to the paying bank. Checks presented after the paying bank's cut-off hour or on non-business days, but otherwise in accordance with this paragraph, are considered presented for same-day settlement on the next business day.

4. Closed Paying Bank

a. There may be certain business days that are not banking days for the paying bank. Some paying banks may continue to settle for checks presented on these days (e.g., by opening their back office operations or by using an intercept processor). In other cases, a paying bank may be unable to settle for checks presented on a day it is closed.

If the paying bank closes on a business day and checks are presented to the paying bank in accordance with paragraph (f)(1), the paying bank is accountable for the checks unless it settles for or returns the checks by the close of Fedwire on its next banking day. In addition, checks presented on a business day...
on which the paying bank is closed are considered received on the paying bank’s next banking day for purposes of the U.C.C. midnight deadline (U.C.C. 4–301 and 4–302) and this regulation’s expeditious return and notice of nonpayment provisions.

b. If the paying bank is closed on a business day voluntarily, the paying bank must pay interest compensation, as defined in §229.2(oo), to the presenting bank for the value of the float associated with the check from the day of the voluntary closing until the day of settlement. Interest compensation is not required in the case of an involuntary closing on a business day, such as a closing required by state law. In addition, if the paying bank is closed on a business day due to emergency conditions, settlement delays and interest compensation may be excused under §229.38(d) or U.C.C. 4–108(b).

5. Good faith. Under §229.38(a), both presenting banks and paying banks are held to a standard of good faith, defined in §229.2(2nn) to mean honesty in fact and the observance of reasonable commercial standards of fair dealing. For example, designating a presentment location or changing presentment locations for the primary purpose of discouraging banks from presenting checks for same-day settlement might not be considered good faith on the part of the paying bank. Similarly, presenting a large volume of checks without prior notice could be viewed as not meeting reasonable commercial standards of fair dealing and therefore may not constitute presentment in good faith. In addition, if banks, in the general course of business, regularly agree to certain practices related to same-day settlement, it might not be considered consistent with reasonable commercial standards of fair dealing, and therefore might not be considered good faith, for a bank to refuse to agree to those practices if agreeing would not cause it harm.

6. U.C.C. sections affected. This paragraph affects the following provisions of the U.C.C. and may affect other sections or provisions:

a. Section 4–204(b)(1), in that a presenting bank may not send a check for same-day settlement directly to the paying bank, if the paying bank designates a different location in accordance with paragraph (f)(1).

b. Section 4–218(a), in that the medium of settlement for checks presented under this paragraph is limited to a credit to an account at the Federal Reserve Bank and that, for checks presented after the deadline for same-day settlement and before the paying bank’s cut-off hour, the presenting bank may require settlement on the next business day in accordance with this paragraph rather than accept settlement on the business day of presentment by cash.

c. Section 4–302(a), in that to preserve the ability to exercise deferred posting, the time limit specified in that section for settlement or return by a paying bank on the banking day a check is received is superseded by the requirement to settle for checks presented under this paragraph by the close of Fedwire.

d. Section 4–302(a), in that, to avoid accountability, the time limit specified in that section for settlement or return by a paying bank on the banking day a check is received is superseded by the requirement to settle for checks presented under this paragraph by the close of Fedwire.

XXIII. Section 229.37 Variations by Agreement

A. This section is similar to U.C.C. 4–103, and permits consistent treatment of agreements varying Article 4 or Subpart C, given the substantial interrelationship of the two documents. To achieve consistency, the official comment to U.C.C. 4–103(a) (which in turn follows U.C.C. 1–201(3)) should be followed in construing this section. For example, as stated in Official Comment 2 to section 4–103, owners of items and other interested parties are not affected by agreements under this section unless they are parties to the agreement or are bound by adoption, ratification, estoppel, or the like. In particular, agreements varying this subpart that delay the return of a check beyond the times required by this subpart may result in liability under §229.38 to entities not party to the agreement.

B. The Board has not followed U.C.C. 4–103(b), which permits Federal Reserve regulations and operating letters, clearinghouse rules, and the like to apply to parties that have not specifically assented. Nevertheless, this section does not affect the status of such agreements under the U.C.C.

C. The following are examples of situations where variation by agreement is permissible, subject to the limitations of this section:

1. A depositary bank may authorize another bank to apply the other bank’s indorsement to a check as the depositary bank. (See §229.35(d).)

2. A depositary bank may authorize returning banks to commingle qualified returned checks with forward collection checks. (See §229.32(a).)

3. A depositary bank may limit its liability to its customer in connection with the late return of a deposited check where the lateness is caused by markings on the check by the depositary bank’s customer or prior indorser in the area of the depositary bank indorsement. (See §229.38(d).)

4. A paying bank may require its customer to assume the paying bank’s liability for delayed or missent checks where the delay or missending is caused by markings placed on the check by the paying bank’s customer that obscured a properly placed indorsement of the depositary bank. (See §229.38(d).)

5. A collecting or paying bank may agree to accept forward collection checks without
the indorsement of a prior collecting bank. (See §229.35(a).)
6. A bank may agree to accept returned checks without the indorsement of a prior bank. (See §229.35(b).)
7. A presenting bank may agree with a paying bank to present checks for same-day settlement at a location that is not in the check-processing region consistent with the routing number on the checks. (See §229.36(f)(1)(i)).
8. A presenting bank may agree with a paying bank to present checks for same-day settlement by a deadline earlier or later than 8:00 a.m. (See §229.36(f)(1)(ii)).
9. A presenting bank and a paying bank may agree that presentment takes place when the paying bank receives an electronic transmission of information describing the check rather than upon delivery of the physical check. (See §229.36(b)).
10. A depositary bank may agree with a paying or returning bank to accept an electronic image of a returned check even when the check is available for return under this part. Except to the extent that other parties interested in the check assert to or are bound by the variation of the notice-in-lieu provisions of this part, banks entering into such an agreement may be responsible under this part or other applicable law to other interested parties for any losses caused by the handling of a returned check under the agreement. (See §§229.30(f), 229.31(f), 229.38(a)).
D. The Board expects to review the types of variation by agreement that develop under this section and will consider whether it is necessary to limit certain variations.

XXIV. Section 229.38 Liability
A. 229.38(a) Standard of care; liability; measure of damages
1. The standard of care established by this section applies to any bank covered by the requirements of Subpart C of the regulation. Thus, the standard of care applies to a paying bank under §§229.30 and 229.33, to a returning bank under §§229.30 to 229.33, to a depositary bank under §§229.32 and 229.33, to a bank erroneously receiving a returned check or written notice of nonpayment as depositary bank under §§229.32(d), to a bank indorsing a check under §229.33. The standard of care is similar to the standard imposed by U.C.C. 1–203 and 4–103(a) and includes a duty to act in good faith, as defined in §229.2(nn) of this regulation.
2. A bank not meeting this standard of care is liable to the depositary bank, the depositary bank’s customer, the owner of the check, or another party to the check. The depositary bank’s customer is usually a depository of a check in the depositary bank (but see §229.36(c)). The measure of damages provided in this section (loss incurred up to amount of check, less amount of loss party would have incurred even if bank had exercised ordinary care) is based on U.C.C. 4–103(e) (amount of the item reduced by an amount that could not have been realized by the exercise of ordinary care), as limited by 4–202(c) (bank is liable only for its own negligence and not for actions of subsequent banks in chain of collection). This subpart does not absolve a collecting bank of liability to prior collecting banks under U.C.C. 4–201.
3. Under this measure of damages, a depositary bank or other person must show that the damage incurred results from the negligence proved. For example, the depositary bank may not simply claim that its customer will not accept a charge-back of a returned check, but must prove that it could not prevent the charge-back. To the extent the paying bank could have charged back if no negligence had occurred, and must first attempt to collect from its customer. (See Marcoux v. Van Wyk, 572 F.2d 651 (8th Cir. 1978); Appliance Buyers Credit Corp. v. Prospect Nat’l Bank, 708 F.2d 290 (7th Cir. 1983)). Generally, a paying or returning bank’s liability would not be reduced because the depositary bank did not place a hold on its customer’s deposit before it learned of nonpayment of the check.
4. This paragraph also states that it does not affect a paying bank’s liability to its customer. Under U.C.C. 4–402, for example, a paying bank is liable to its customer for wrongful dishonor, which is different from failure to exercise ordinary care and has a different measure of damages.
B. 229.38(b) Paying Bank’s Failure To Make Timely Return
1. Section 229.30(a) imposes requirements on the paying bank for expedient return of a check and leaves in place the U.C.C. deadlines (as they may be modified by §229.30(c)), which may allow return at a different time. This paragraph clarifies that the paying bank could be liable for failure to meet either standard, but not for failure to meet both. This regulation intends to preserve the paying bank’s accountability for missing its midnight or other deadline under the U.C.C., (e.g., sections 4–215 and 4–302), provisions that are not incorporated in this regulation, but may be useful in establishing the time of final payment by the paying bank.
C. 229.38(c) Comparative negligence
1. This paragraph establishes a “pure” comparative negligence standard for liability under Subpart C of this regulation. This comparative negligence standard may have particular application where a paying or returning bank delays in returning a check because of difficulty in identifying the depositary bank. Some examples will illustrate liability
in such cases. In each example, it is assumed that the returned check is received by the depositary bank after it has made funds available to its customer, that it may no longer be consistent with the appendix’s location requirements, then the reconverting bank bears the liability for any loss that results from the shift in the placement of the indorsement. Such a loss could result either because of the original indorsement applied in accordance with appendix D, or because the subsequent bank cannot apply its indorsement to the substitute check legibly in accordance with appendix D as a result of the shift in the previous indorsement.

Example.

In accordance with appendix D’s specifications, a depositary bank sprays its indorsement onto a business-sized original check between 3.0 inches from the leading edge of the check and 1.5 inches from the trailing edge of the check. The check’s conversion to electronic form and subsequent reconstruction to paper form causes the location of the depositary bank indorsement, now contained within the image of the original check, to change such that it is less than 3.0 inches from the leading edge of the substitute check. In accordance with appendix D’s specifications, a subsequent collecting bank sprays its indorsement onto the substitute check between the leading edge of the check and 3.0 inches from the leading edge of the check and the indorsement happens to be on top of the shifted depositary bank indorsement. If the check is returned unpaid and the return is not expeditious because of the illegibility of the depositary bank indorsement, and the depositary bank incurs a loss that it would not have incurred had the return been expeditious, the reconverting bank bears the liability for that loss.

3. Responsibility for payable-through checks.
a. This paragraph provides that the bank by which a payable-through check is payable is liable for damages under paragraph (a) of this section to the extent that the check is not returned through the payable-through bank as quickly as would have been necessary to meet the requirements of §229.30(a)(1) (the 2-day/4-day test) had the bank by which it is payable received the check as paying bank on the day the payable-through bank received it. The location of the bank by which a check is payable for purposes of the 2-day/4-day test may be determined from the location or the first four digits of the routing number of the bank by which the check is payable. This information should be stated on the check. (See §229.36(e) and accompanying Commentary.) Responsibility under paragraph (d)(2) does not include responsibility for the time required for the forward collection of a check to the payable-through bank.
b. Generally, liability under paragraph (d)(2) will be limited in amount. Under §229.30(b), a paying bank that returns a check in the amount of $2,500 or more must provide notice of nonpayment to the depositary bank by 4:00 p.m. on the second business day following the banking day on which the check is presented to the paying bank. Even if a payable-through check in the amount of $2,500 or more is not returned through the payable-through bank as quickly as would have been required had the check been received by the bank by which it is payable, the depositary bank should not suffer damages unless it has not received timely notice of nonpayment. Thus, ordinarily the bank by which a payable-through check is payable would be liable under paragraph (a) only for checks in amounts up to $2,500, and the paying bank would be responsible for notice of nonpayment for checks in the amount of $2,500 or more.

4. Responsibility under paragraphs (d)(1) and (d)(2) is treated as negligence for comparative negligence purposes, and the contribution to damages under paragraphs (d)(1) and (d)(2) is treated in the same way as the degree of negligence under paragraph (c) of this section.

E. 229.38(e) Timeliness of Action

1. This paragraph excuses certain delays. It adopts the standard of U.C.C. 4-109(b).

F. 229.38(f) Exclusion

1. This paragraph provides that the civil liability and class action provisions, particularly the punitive damage provisions of sections 611(a) and (b), and the bona fide error provision of 611(c) of the EFA Act (12 U.S.C. 4010(a), (b), and (c)) do not apply to regulatory provisions adopted to improve the efficiency of the payments mechanism. Allowing punitive damages for delays in the return of checks where no actual damages are incurred would only encourage litigation and provide little or no benefit to the check collection system. In view of the provisions of paragraph (a), which incorporate traditional bank collection standards based on negligence, the provision on bona fide error is not included in Subpart C.

G. 229.38(g) Jurisdiction

1. The EFA Act confers subject matter jurisdiction on courts of competent jurisdiction and provides a time limit for civil actions for violations of this subpart.

H. 229.38(h) Reliance on Board Rulings

1. This provision shields banks from civil liability if they act in good faith in reliance on any rule, regulation, or interpretation of the Board, even if it were subsequently determined to be invalid. Banks may rely on the Commentary to this regulation, which is issued as an official Board interpretation, as well as on the regulation itself.

XXV. Section 229.39 Insolvency of Bank

A. Introduction

1. These provisions cover situations where a bank becomes insolvent during collection or return and are derived from U.C.C. 4-216. They are intended to apply to all banks.

B. 229.39(a) Duty of Receiver

1. This paragraph requires a receiver of a closed bank to return a check to the prior bank if it does not pay for the check. This permits the prior bank, as holder, to pursue its claims against the closed bank or prior indorsers on the check.

C. 229.39(b) Preference Against Paying or Depositary Bank

1. This paragraph gives a bank a preferred claim against a closed paying bank that finally pays a check without settling for it or a closed depositary bank that becomes obligated to pay a returned check without settling for it. If the bank with a preferred claim under this paragraph recovers from a prior bank or other party to the check, the prior bank or other party to the check is subrogated to the preferred claim.

D. 229.39(c) Preference Against Paying, Collecting, or Depositary Bank

1. This paragraph gives a bank a preferred claim against a closed collecting, paying, or returning bank that receives settlement but does not settle for a check. (See Commentary to §229.35(b) for discussion of prior and subsequent banks.) As in the case of §229.39(b), if the bank with a preferred claim under this paragraph recovers from a prior bank or other party to the check, the prior
bank or other party to the check is subrogated to the preferred claim.

E. 229.39(d) Preference Against Presenting Bank

1. This paragraph gives a paying bank a preferred claim against a closed presenting bank in the event that the presenting bank breaches an amount or encoding warranty as provided in §229.34(c)(1) or (3) and does not reimburse the paying bank for adjustments for a settlement made by the paying bank in excess of the value of the check presented. This preference is intended to have the effect of a perfected security interest and is intended to put the paying bank in the position of a secured creditor for purposes of the receiver's provisions of the Federal Deposit Insurance Act and similar provisions of state law.

F. 229.39(e) Finality of Settlement

1. This paragraph provides that insolvency does not interfere with the finality of a settlement, such as a settlement by a paying bank that becomes final by expiration of the midnight deadline.

XXVII. Section 229.41 Relation to State Law

A. This section specifies that state law relating to the collection of checks is pre-empted only to the extent that it is inconsistent with this regulation. Thus, this regulation is not a complete replacement for state laws relating to the collection or return of checks.

XXVIII. Section 229.42 Exclusions

A. Checks drawn on the United States Treasury, U.S. Postal Service money orders, and checks drawn on states and units of general local government that are presented directly to the state or unit of general local government and that are not payable through or at a bank are excluded from the coverage of the expedient-return, notice-of-nonpayment, and same-day settlement requirements of subpart C of this part. Other provisions of this subpart continue to apply to the checks. This exclusion does not apply to checks drawn by the U.S. government on banks.

XXIX. Section 229.43 Checks Payable in Guam, American Samoa, and the Northern Mariana Islands

A. 229.43(a) Definitions

1. Bank offices in Guam, American Samoa, and the Northern Mariana Islands (which Regulation CC defines as Pacific island banks) do not meet the definition of bank in §229.2(e) because they are not located in the United States. Some checks drawn on Pacific island banks (defined as Pacific island checks) bear U.S. routing numbers and are collected and returned by banks in the same manner as checks payable in the U.S.

B. 229.43(b) Rules Applicable to Pacific Island Checks

1. When a bank handles a Pacific island check as if it were a check as defined in §229.2(k), the bank is subject to certain provisions of Regulation CC, as provided in this section. Because the Pacific island bank is not a bank as defined in §229.2(e), it is not a paying bank as defined in §229.2(d) (unless otherwise noted in this section). Pacific island banks are not subject to the provisions of Regulation CC.

2. A bank may agree to handle a Pacific island check as a returned check under §229.31 and may convert the returned Pacific island check to a qualified returned check. The returning bank is not, however, subject to the expedient-return requirements of §229.31. The returning bank may receive the Pacific island check directly from a Pacific island bank or from another returning bank. As a Pacific island bank is not a paying bank under Regulation CC, §229.31(c) does not apply to a returning bank settling with the Pacific island bank.

3. A depositary bank that handles a Pacific island check is not subject to the provisions of subpart B of Regulation CC, including the availability, notice, and interest accrual requirements, with respect to that check. If, however, a bank accepts a Pacific island check for deposit (or otherwise accepts the check as transferee) and collects the Pacific island check in the same manner as other
checks, the bank is subject to the provisions of §229.32, including the provisions regarding time and manner of settlement for returned checks in §229.32(b), in the event the Pacific island bank is returned by a returning bank.

If the depositary bank receives the returned Pacific island check directly from the Pacific island bank, however, the provisions of §229.32(b) do not apply, because the Pacific island bank is not a paying bank under Regulation CC. The depositary bank is not subject to the notice of nonpayment provisions in §229.33 for Pacific island checks.

4. Banks that handle Pacific island checks in the same manner as other checks are subject to the indorsement provisions of §229.35. Section 229.35(c) eliminates the need for the restrictive indorsement “pay any bank.” For purposes of §229.35(c), the Pacific island bank is deemed to be a bank.

5. Pacific island checks will often be intermixed with other checks in a single cash letter. Therefore, a bank that handles Pacific island checks in the same manner as other checks is subject to the transfer warranty provision in §229.34(c)(2) regarding accurate cash letter totals and the encoding warranty in §229.34(c)(3). A bank that acts as a returning bank for a Pacific island check is not subject to the warranties in §229.34(a).

Similarly, because the Pacific island bank is not a “bank” or a “paying bank” under Regulation CC, §§229.34(b), (c)(1), and (c)(4) do not apply. For the same reason, the provisions of §229.36 governing paying bank responsibilities such as place of receipt and same-day settlement do not apply to checks presented to a Pacific island bank, and the liability provisions applicable to paying banks in §229.38 do not apply to Pacific island banks.
