§ 1815.105

(e) Monitor processes to ensure that the Fund's procedures regarding consideration of environmental quality are achieving their intended purposes;

(f) Advise the officers and employees of the Fund of technical and management requirements of environmental analysis, of appropriate expertise available, and, with the assistance of the Department of the Treasury's Office of the General Counsel, of relevant legal developments;

(g) Monitor the consideration and documentation of the environmental aspects of Fund planning and decision-making processes by appropriate officers and employees of the Fund;

(h) Ensure that all environmental assessments and, where required, all EISs are prepared in accordance with the appropriate regulations adopted by the Council on Environmental Quality and the Fund;

(i) Ensure that, as required, a legislative EIS is submitted with all proposed legislation;

(j) Consolidate and transmit to appropriate parties the Fund's comments on EISs and other environmental reports prepared by other agencies;

(k) Acquire information and prepare appropriate reports on environmental matters required of the Fund; and

(l) Coordinate the Fund's efforts to make available to other parties information and advice on the Fund's policies for protecting and enhancing the quality of the environment.

§ 1815.105 Major decision points.

(a) The possible environmental effects of an Application, including any Comprehensive Business Plan, must be considered along with technical, economic, and other factors throughout the decisionmaking process. For most Fund actions there are two distinct stages in the decisionmaking process:

(1) Preliminary approval stage, at which point applications are selected for funding; and

(2) Final approval and funding stage.

(b) Environmental review shall be integrated into the decisionmaking process of the Fund as follows:

(1) During the preliminary approval stage, the designated Fund official shall determine whether the Application proposes actions which are categorically excluded, or normally require an environmental assessment or an EIS;

(2) If the designated Fund official determines that the Application proposes actions which normally require an environmental assessment or an EIS, the applicant shall be informed that the final approval and funding, in addition to any other conditions, is contingent upon:

(i) The applicant supplying to the Fund all information necessary for the Fund to perform or have performed any environmental review required by this part;

(ii) The applicant not using any Fund financial assistance to perform any of such proposed actions in the Application that affect the physical environment until Fund approval is received; and

(iii) The outcome of the environmental review required by this part;

(3) The Fund will perform or have performed the environmental reviews required by this part;

(4) A preliminary approval of an Application may be withdrawn or further conditions may be imposed based upon the outcome of an environmental review required by this part; and

(5) If the designated Fund official determines that the Application proposes actions that require an environmental assessment or an EIS, the environmental assessment and/or EIS must be completed and circulated prior to the use of Federal funds for any activity that triggers the need for an environmental assessment and/or EIS.

§ 1815.106 Supplemental environmental review.

(a) The designated Fund official shall determine whether the proposed actions in the Application are sufficiently definite to perform a meaningful environmental review during the preliminary approval stage.

(b) If the designated Fund official determines that the Application is sufficiently definite to perform a meaningful environmental review during the preliminary approval stage, no conditions for supplemental environmental review shall be imposed.

(c) If the designated Fund official determines that the Application, or any
part of the Application, is not sufficiently definite to complete a meaningful environmental review during the preliminary approval stage, the Fund shall require a supplemental environmental review prior to the taking of any action directly using Fund financial assistance that is not categorically excluded from environmental review or for which an environmental assessment or EIS has not been approved by the Fund. The applicant shall notify the designated Fund official when proposing any action requiring a supplemental environmental review and shall supply to the Fund all information necessary for the Fund to perform the supplemental environmental review. The Fund shall perform or have performed such a supplemental environmental review. The applicant shall not use any Fund financial assistance to perform any of the proposed actions requiring a supplemental environmental review that affect the physical environment until Fund approval for such action is received.

§ 1815.107 Determination of review requirement.

In deciding whether to prepare an EIS, the designated Fund official shall determine whether the proposal is one that normally:

(a) Requires an EIS;

(b) Requires an environmental assessment, but not necessarily an EIS; or

(c) Does not require either an EIS or an environmental assessment (categorical exclusion).

§ 1815.108 Actions that normally require an EIS.

(a) If necessary, the Fund shall perform or have performed an environmental assessment to determine whether the proposal is one that normally:

(1) Remove, demolish, convert, or substantially rehabilitate 2,500 or more existing housing units, or would result in the construction or installation of 2,500 or more new housing units, or which would provide sites for 2,500 or more new housing units; or

(2) Remove, demolish, convert, or substantially rehabilitate 1,500,000 square feet or more of commercial space, or would result in the construction or installation of 1,500,000 square feet or more of new commercial space, or which would provide sites for 1,500,000 square feet or more of new commercial space.

§ 1815.109 Preparation of an EIS.

(a) If the Fund determines that an EIS should be prepared, it shall publish a notice of intent in the Federal Register in accordance with 40 CFR 1501.7 and 1508.22 of the CEQ regulations. After publishing the notice of intent, the Fund shall begin to prepare or have prepared the EIS. Procedures for preparing the EIS are set forth in 40 CFR part 1502 of the CEQ regulations.

(b) The Fund may supplement a draft or final EIS at any time. The Fund shall prepare or have prepared a supplement to either the draft or final EIS when:

(1) Substantial changes are proposed to an action contained in the draft or final EIS that are relevant to environmental concerns or there are significant new circumstances or information relevant to environmental concerns and bearing on the proposed action or its impacts; or

(2) Actions are proposed which relate or are similar to other action(s) taken or proposed and that together have a cumulatively significant impact on the environment.

§ 1815.110 Categorical exclusion.

The CEQ regulations provide for the categorical exclusion of actions that do not individually or cumulatively have a significant effect on the human environment (40 CFR 1508.4). Therefore, neither an environmental assessment nor an EIS is required for such actions. An action which falls into one of the categories below may still require the preparation of an EIS or environmental
