Office of the Secretary, DOT

§ 399.41 Zones of limited suspension for international cargo rates.

(b) Applicability. This section states the Board’s policy for suspending rate changes for the transportation of property in foreign air transportation. It does not affect the Board’s authority to suspend any rate as unjustly discriminatory, unduly preferential, or unduly prejudicial. This section applies to rate changes by all direct air carriers and direct foreign air carriers.

§ 399.39 Equipment purchase deposits.

Equipment purchase deposits are advance payments made by air carriers to manufacturers for the purchase of equipment to be delivered in the future, or funds segregated by air carriers for this purpose. It is the policy of the Board not to recognize equipment purchase deposits in an air carrier’s investment base for ratemaking purposes. When equipment is acquired by an air carrier and placed in air-transport service, the Board will recognize in the air carrier’s investment base interest on purchase deposits on such equipment capitalized and amortized in accordance with the Uniform System of Accounts and Reports for Certified Air Carriers (part 241 of this chapter).

§ 399.37 Joint fares.

There should be joint fares in all markets over all routings within the contiguous 48 states and the District of Columbia as follows:

(a) Level. The level shall not exceed the sum of the maximum local fares permitted by this subpart minus one tax-rounded coach ceiling terminal charge for each interline connection, and in any event shall not exceed the sum of the actual local fares.

(b) Division. Joint fares shall be divided according to the relative costs of the mileage flown by each carrier participating in the interline movement. However, where a joint fare is equal to the sum of the actual local fares, each carrier shall get the local fare as its share.
