

§ 1170.6

(a) Participate, as appropriate, in the Interagency Council on Metric Policy (ICMP), and/or its working committee, the Metrication Operating Committee (MOC), in coordinating and providing policy guidance for the U.S. Government's transition to use of the metric system.

(b) Designate a senior policy official to be responsible for agency metric policy and to represent the agency on the ICMP.

(c) Designate an appropriate official to represent the agency on the Metrication Operating Committee (MOC), an interagency committee reporting to the ICMP.

(d) Maintain liaison with private sector groups (such as the American National Metric Council and the U.S. Metric Association) that are involved in planning for or coordinating National transition to the metric system.

(e) Provide for internal guidelines, training and documentation to assure employee awareness and understanding of agency metric policies and programs.

§ 1170.6 Reporting requirement.

Each Federal agency shall, as part of its annual budget submission each fiscal year, report to the Congress on the metric implementation actions it has taken during the previous fiscal year. The report will include the agency's implementation plans, with a current timetable for the agency's transition to the metric system, as well as actions planned for the budget year involved to implement fully the metric system, in accordance with this policy. Reporting shall cease for an agency in the fiscal year after it has fully implemented metric usage, as prescribed by the Metric Conversion Act (15 U.S.C. 205b(2).)

§§ 1170.7–1170.199 [Reserved]

PART 1180—TRANSFER BY FEDERAL AGENCIES OF SCIENTIFIC, TECHNICAL AND ENGINEERING INFORMATION TO THE NATIONAL TECHNICAL INFORMATION SERVICE

Sec.
1180.1 Purpose and scope.

15 CFR Ch. XI (1–1–10 Edition)

- 1180.2 Definitions.
- 1180.3 General rule.
- 1180.4 Preparing a product for transfer.

APPENDIX TO PART 1180—SAMPLE FUNDING AGREEMENT CLAUSE FOR DIRECT SUBMISSION OF PRODUCTS

AUTHORITY: Sec. 108 of Pub. L. 102-245, 106 Stat. 7 (15 U.S.C. 3704b-2).

SOURCE: 59 FR 10, Jan. 3, 1994, unless otherwise noted.

§ 1180.1 Purpose and scope.

(a) The purpose of this regulation is to facilitate public access to the vast amount of scientific, technical and engineering information (STEI) that is produced by and for federal agencies.

(b) This regulation provides a variety of methods for federal agencies to adopt to ensure the timely transfer to the National Technical Information Service (NTIS) of all unclassified STEI that is available for public dissemination and that results from federal funding. It is issued pursuant to the authority contained in Section 108 of the American Technology Preeminence Act (Pub. L. 102-245).

§ 1180.2 Definitions.

Agency means a federal agency as that term is defined in Section 4 of the Stevenson-Wydler Technology Innovation Act of 1980, as amended (15 U.S.C. 3703(8));

Director means the Director of the National Technical Information Service.

Federally funded refers to STEI which results from federal research and development activities funded in whole or in part with federal funds, whether performed by the agency itself or by contractors, grantees, cooperative research partners, joint venture partners, or under any similar arrangement involving federal funds.

Final when used to describe an STEI product means a product that the originating agency or contractor/grantee

Technology Administration, Commerce

§ 1180.5

thereof intends for public dissemination and may exclude interim status reports routinely furnished to agencies by contractors and grantees for monitoring and other internal purposes and which are not intended for public dissemination.

Product includes, but is not limited to, any report, manual, standard, specification, book, paper, chart, map, graph, data collection, data file, data compilation, software, audio/video production, technology application assessment generated pursuant to Section 11(c) of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3710(c)), as well as materials pertaining to training technology and other federally owned or originated technologies, and applies to items produced in-house or outside the agency through the Government Printing Office, its contractors, Federal Prison Industries or any other producer, provided that such material is intended by the agency for public dissemination.

Scientific, technical and engineering information means—

(1) Basic and applied research that results from the efforts of scientists and engineers in any medium (including new theory and information obtained from experimentation, observation, instrumentation or computation in the form of text, numeric data or images), and

(2) Information that bears on business and industry generally, such as economic information, market information and related information, if the agency determines such information would be of value to consumers of the information described in paragraph (1) of this definition.

Summary means information relating to an ongoing research project likely to result in a final product.

§ 1180.3 General rule.

Unless an exception applies under section 1180.7, each federal agency shall, within the time period specified in this regulation, transfer to NTIS—

(a) At least one copy of every final STEI product resulting from the agency's federally funded research and development activities, and

(b) A summary of the agency's new and on-going research that is likely to result in a final STEI product

if such final product or summary is unclassified and is intended by the agency for public dissemination.

§ 1180.4 Preparing a product for transfer.

(a) Every final STEI product or summary shall, to the extent practicable, be prepared in a format that is consistent with one of the various formats found in NTIS guidelines. In addition, every such product shall—

(1) Be accompanied by a report documentation page (SF 298) or its electronic equivalent;

(2) Be in a form capable of high quality reproduction appropriate to the medium;

(3) In the case of software, be accompanied by relevant documentation, such as operating manuals, but not including printed source code; and

(4) In the case of a product not printed by the Government Printing Office, be accompanied by a statement as to whether the product has been made available for depository distribution by the Government Printing Office.

(b) Each federal agency shall transfer or have transferred to NTIS those STEI products funded by it that are protected by copyright only if there is a license reserved to the Government. In such cases, the agency shall inform NTIS of the terms of the license. Suggested language for inclusion in agency funding instruments is contained in the Appendix to this part.

(c) If an agency has generated or funded an STEI product which should be available for public dissemination but has embedded within it any copyrighted material, the designated liaison appointed pursuant to §1180.8 should work with NTIS to determine if it would be appropriate to seek a license from the copyright holder in order to make the STEI product available.

§ 1180.5 Timeliness.

A single copy of a final product or summary described in §1180.3 must be transferred to NTIS within fifteen days of the date it is first made available for
