§ 1101.22 Timing: request for time extensions.

(a) Time for comment. (1) Generally firms will receive ten (10) calendar days from the date of the letter in which the Commission transmits the notice to furnish comments to the Commission. Firms that receive requests for comments by mail will receive an additional three (3) days to comment to account for time in the mail.

(2) Upon his or her own initiative or upon request, the Freedom of Information Officer may provide a different amount of time for comment, particularly for firms that receive voluminous or complex material. In addition, the Commission may publish a finding that the public health and safety requires a lesser period of notice and may require a response in a shorter period of time (see § 1101.23).

(b) No response submitted. (1) If the Commission has not received a response within the time specified and if it has received no request for extension of time, the Commission will analyze the information as provided in subpart D. If no comments are submitted the Commission will not give the further notice provided in section 6(b)(2).

(2) Unless the Commission publishes a finding that the public health and safety requires a lesser period of notice (see § 1101.23), the Commission will not disclose the information in fewer than 15 days after providing a manufacturer or private labeler notice and opportunity to comment.

(c) Requests for time extension. (1) Requests for extension of time to comment on information to be disclosed...
must be made to the person who provided the Commission’s notice and opportunity to comment. The request for time extension may be either oral or written. An oral request for a time extension must be promptly confirmed in writing.

(2) Requests for extension of time must explain with specificity why the extension is needed and how much additional time is required.

(3) The Commission will promptly respond to requests for extension of time.

§ 1101.23 Providing less than 15 days notice before disclosing information.

There are two circumstances in which the Commission may disclose to the public information subject to section 6(b)(1) in a time less than 15 days after providing notice to the manufacturer or private labeler.

(a) Firm agrees to lesser period or does not object to disclosure. The Commission may disclose to the public information subject to section 6(b)(1) before the 15-day period expires when, after receiving the Commission’s notice and opportunity to comment, the firm involved agrees to the earlier disclosure; notifies the Commission that it has no comment; or notifies the Commission that it does not object to disclosure.

(b) Commission finding a lesser period is required. Section 6(b)(1) provides that the Commission may publish a finding that the public health and safety requires a lesser period of notice than the 15 days advance notice that section 6(b)(1) generally requires. The Commission may find that the public health and safety requires less than 15 days advance notice, for example, to warn the public quickly because individuals may be in danger from a product hazard or a potential hazard, or to correct product safety information released by third persons, which mischaracterizes statements made by the Commission about the product or which attributes to the Commission statements about the product which the Commission did not make.

(c) Notice of finding. The Commission will inform a manufacturer or private labeler of a product which is the subject of a public health and safety finding that the public health and safety requires less than 15 days advance notice either orally or in writing, depending on the immediacy of the need for quick action. Where applicable, before releasing information, the Commission will comply with the requirements of section 6(b) (1) and (2) by giving the firm the opportunity to comment on the information, either orally or in writing depending on the immediacy of the need for quick action, and by giving the firm advance notice before disclosing information claimed by a manufacturer or private labeler to be inaccurate (see §1101.25).

§ 1101.24 Scope of comments Commission seeks.

(a) Comment in regard to the information. The section 6(b) opportunity to comment on information is intended to permit firms to furnish information and data to the Commission to assist the agency in its evaluation of the accuracy of the information. A firm’s submission, therefore, must be specific and should be accompanied by documentation, where available, if the comments are to assist the Commission in its evaluation of the information. Comments of a general nature, such as general suggestions or allegations that a document is inaccurate or that the Commission has not taken reasonable steps to assure accuracy, are not sufficient to assist the Commission in its evaluation of the information or to justify a claim of inaccuracy. The weight accorded a firm’s comments on the accuracy of information and the degree of scrutiny which the Commission will exercise in evaluating the information will depend on the specificity and completeness of the firm’s comments and of the accompanying documentation. In general, specific comments which are accompanied by documentation will be given more weight than those which are undocumented and general in nature.

(b) Claims of confidentiality. If the manufacturer or private labeler believes the information involved cannot be disclosed because of section 6(a)(2) of the CPSA (15 U.S.C. 2055(a)(2)),
