Federal Energy Regulatory Commission

§ 157.212

(2) The location at which temporary compression was installed, operated and removed, including its location relative to existing facilities;
(3) A description of the permanent compression facility which was unavailable, and a statement explaining the reason for the temporary compression;
(4) The dates for which the temporary compression was installed, operated and removed; and
(5) If applicable, the information required in §157.208(e)(4).

Subject to the notice requirements of §§157.205(b) and 157.208(c), the certificate holder is authorized to acquire, construct, modify, replace, and operate natural gas mainline facilities, including compression and looping, that are not eligible facilities under §157.202(b)(2)(i). The cost of a project may not exceed the cost limitation provided in column 2 of Table I of §157.208(d). The certificate holder must not segment projects in order to meet this cost limitation.

[Order 686, 71 FR 63693, Oct. 31, 2006]

§ 157.211 Delivery points.

(a) Construction and operation—(1) Automatic authorization. The certificate holder may acquire, construct, modify, replace, and operate any delivery point, excluding the construction of certain delivery points subject to the prior notice provisions in paragraph (a)(2) of this section if:
(i) The natural gas is being delivered to, or for the account of, a shipper for whom the certificate holder is, or will be, authorized to transport gas; and
(ii) The certificate holder’s tariff does not prohibit the addition of new delivery points.

(b) Prior notice. Subject to the notice procedure in §157.205, the certificate holder may acquire, construct, replace, modify, or operate any delivery point if:
(i) The natural gas is being delivered to, or for the account of, an end-user that is currently being served by a local distribution company; and
(ii) The name of the end-user, the location of the delivery point, and the distribution company currently serving the end-user;
(2) A description of the facility and any appurtenant facilities;
(3) A USGS 7½-minute series (scale 1:24,000 or 1:25,000) topographic map (or map of equivalent or greater detail, as appropriate) showing the location of the proposed facilities;
(4) The quantity of gas to be delivered through the proposed facility;
(5) A description, with supporting data, of the impact of the service rendered through the proposed delivery tap upon the certificate holder’s peak day and annual deliveries.

(c) Reporting requirements. As part of the certificate holder’s annual report of projects authorized under paragraph (a) of this section, the certificate holder must report in the manner prescribed in §§157.6(a) and 385.2011 of this chapter:
(1) A description of the facilities acquired, constructed, replaced, modified or operated pursuant to this section;
(2) The location and maximum quantities delivered at such delivery point;
(3) The actual cost and the completion date of the delivery point; and
(4) The date of each agreement obtained pursuant to §157.206(b)(3) and the date construction began.

§ 157.212 Synthetic and liquefied natural gas facilities.

Subject to the notice requirements of §§157.205(b) and 157.208(c), the certificate holder is authorized to acquire, construct, modify, replace, and operate
