may require the use of generic equivalents where they are available.

§ 10.311 What are the special rules for the services of chiropractors?

(a) The services of chiropractors that may be reimbursed are limited by the FECA to treatment to correct a spinal subluxation. The costs of physical and related laboratory tests performed by or required by a chiropractor to diagnose such a subluxation are also payable.

(b) In accordance with 5 U.S.C. 8101(3), a diagnosis of spinal “subluxation as demonstrated by X-ray to exist” must appear in the chiropractor’s report before OWCP can consider payment of a chiropractor’s bill.

(c) A chiropractor may interpret his or her x-rays to the same extent as any other physician. To be given any weight, the medical report must state that x-rays support the finding of spinal subluxation. OWCP will not necessarily require submittal of the x-ray, but the report must be available for submittal on request.

(d) A chiropractor may also provide services in the nature of physical therapy under the direction of a qualified physician.

§ 10.312 What are the special rules for the services of clinical psychologists?

A clinical psychologist may serve as a physician only within the scope of his or her practice as defined by State law. Therefore, a clinical psychologist may not serve as a physician for conditions that include a physical component unless the applicable State law allows clinical psychologists to treat physical conditions. A clinical psychologist may also perform testing, evaluation and other services under the direction of a qualified physician.

§ 10.313 Will OWCP pay for preventive treatment?

The FECA does not authorize payment for preventive measures such as vaccines and inoculations, and in general, preventive treatment may be a responsibility of the employing agency under the provisions of 5 U.S.C. 7901 (see §10.303). However, OWCP can authorize treatment for the following conditions, even though such treatment is designed, in part, to prevent further injury:

(a) Complications of preventive measures which are provided or sponsored by the agency, such as an adverse reaction to prophylactic immunization.

(b) Actual or probable exposure to a known contaminant due to an injury, thereby requiring disease-specific measures against infection. Examples include the provision of tetanus antitoxin or booster toxoid injections for puncture wounds; administration of rabies vaccine for a bite from a rabid or potentially rabid animal; or appropriate measures where exposure to human immunodeficiency virus (HIV) has occurred.

(c) Conversion of tuberculin reaction from negative to positive following exposure to tuberculosis in the performance of duty. In this situation, the appropriate therapy may be authorized.

(d) Where injury to one eye has resulted in loss of vision, periodic examination of the uninjured eye to detect possible sympathetic involvement of the uninjured eye at an early stage.

§ 10.314 Will OWCP pay for the services of an attendant?

Yes, OWCP will pay for the services of an attendant up to a maximum of $1,500 per month, where the need for such services has been medically documented. In the exercise of the discretion afforded by 5 U.S.C. 8111(a), the Director has determined that, except where payments were being made prior to January 4, 1999, direct payments to the claimant to cover such services will no longer be made. Rather, the cost of providing attendant services will be paid under section 8103 of the Act, and medical bills for these services will be considered under §10.801. This decision is based on the following factors:

(a) The additional payments authorized under section 8111(a) should not be necessary since OWCP will authorize payment for personal care services under 5 U.S.C. 8103, whether or not such care includes medical services, so long as the personal care services have
been determined to be medically necessary and are provided by a home health aide, licensed practical nurse, or similarly trained individual.

(b) A home health aide, licensed practical nurse, or similarly trained individual is better able to provide quality personal care services, including assistance in feeding, bathing, and using the toilet. In the past, provision of supplemental compensation directly to injured employees may have encouraged family members to take on these responsibilities even though they may not have been trained to provide such services. By paying for the services under section 8103, OWCP can better determine whether the services provided are necessary and/or adequate to meet the needs of the injured employee. In addition, a system requiring the personal care provider to submit a bill to OWCP, where the amount billed will be subject to OWCP’s fee schedule, will result in greater fiscal accountability.

§ 10.315 Will OWCP pay for transportation to obtain medical treatment?

The employee is entitled to reimbursement of reasonable and necessary expenses, including transportation needed to obtain authorized medical services, appliances or supplies. To determine what is a reasonable distance to travel, OWCP will consider the availability of services, the employee’s condition, and the means of transportation. Generally, 25 miles from the place of injury, the work site, or the employee’s home, is considered a reasonable distance to travel. The standard form designated for Federal employees to claim travel expenses should be used to seek reimbursement under this section.

§ 10.316 After selecting a treating physician, may an employee choose to be treated by another physician instead?

(a) When the physician originally selected to provide treatment for a work-related injury refers the employee to a specialist for further medical care, the employee need not consult OWCP for approval. In all other instances, however, the employee must submit a written request to OWCP with his or her reasons for desiring a change of physician.

(b) OWCP will approve the request if it determines that the reasons submitted are sufficient. Requests that are often approved include those for transfer of care from a general practitioner to a physician who specializes in treating conditions like the work-related one, or the need for a new physician when an employee has moved. The employer may not authorize a change of physicians.

DIRECTED MEDICAL EXAMINATIONS

§ 10.320 Can OWCP require an employee to be examined by another physician?

OWCP sometimes needs a second opinion from a medical specialist. The employee must submit to examination by a qualified physician as often and at such times and places as OWCP considers reasonably necessary. The employee may have a qualified physician, paid by him or her, present at such examination. However, the employee is not entitled to have anyone else present at the examination unless OWCP decides that exceptional circumstances exist. For example, where a hearing-impaired employee needs an interpreter, the presence of an interpreter would be allowed. Also, OWCP may send a case file for second opinion review where actual examination is not needed, or where the employee is deceased.

§ 10.321 What happens if the opinion of the physician selected by OWCP differs from the opinion of the physician selected by the employee?

(a) If one medical opinion holds more probative value, OWCP will base its determination of entitlement on that medical conclusion (see §10.502). A difference in medical opinion sufficient to be considered a conflict occurs when two reports of virtually equal weight and rationale reach opposing conclusions (see James P. Roberts, 31 ECAB 1010 (1980)).

(b) If a conflict exists between the medical opinion of the employee’s physician and the medical opinion of either a second opinion physician or an OWCP medical adviser or consultant, OWCP shall appoint a third physician.
