can be accomplished, both practically and legally, but also whether offset is best suited to further and protect all of the Government’s interests. In appropriate circumstances, the Board may give due consideration to the debtor’s financial condition, and is not required to use offset in every instance in which there is an available source of funds. The Board may also consider whether offset would substantially interfere with or defeat the purposes of the program authorizing the payments against which offset is contemplated.

(d) Before advising the debtor that the delinquent debt will be subject to administrative offset, the agency official responsible for administering the program under which the debt arose shall review the claim and determine that the debt is valid and overdue.

(e) Administrative offset shall be considered by the Board only after attempting to collect a claim under the statutes administered by the Board except that no claim under this Act that has been outstanding for more than 10 years after the Government’s right to collect the debt first accrued may be collected by means of administrative offset, unless facts material to the right to collect the debt were not known and could not reasonably have been known by the official of the agency who was charged with the responsibility to discover and collect such debts.

§ 367.4 Notification to another agency.

When the Board refers a debt under this part to another agency for collection by means of administrative offset, the Board shall provide a written certification to the other agency stating that the debtor owes the debt (including the amount) and that the provisions of this part have been fully complied with.

§ 367.5 Notification to debtor.

The notification provided by the Board to the debtor will inform the debtor how he or she may present evidence to the Board that all or part of the debt is not past due or legally enforceable.
