

§ 416.941

(5) Avoidance of criminal activity.

[60 FR 8151, Feb. 10, 1995]

§ 416.941 Establishment and use of referral and monitoring agencies.

We will contract with one or more agencies in each of the States and the District of Columbia to provide services to individuals whose disabilities are based on a determination that drug addiction or alcoholism is a contributing factor material to the determination of disability (as described in § 416.935) and to submit information to us which we will use to make decisions about these individuals' benefits. These agencies will be known as referral and monitoring agencies. Their duties and responsibilities include (but are not limited to)—

(a) Identifying appropriate treatment placements for individuals we refer to them;

(b) Referring these individuals for treatment;

(c) Monitoring the compliance and progress with the appropriate treatment of these individuals; and

(d) Promptly reporting to us any individual's failure to comply with treatment requirements as well as failure to achieve progress through the treatment.

[60 FR 8152, Feb. 10, 1995]

RESIDUAL FUNCTIONAL CAPACITY

§ 416.945 Your residual functional capacity.

(a) *General*—(1) *Residual functional capacity assessment.* Your impairment(s), and any related symptoms, such as pain, may cause physical and mental limitations that affect what you can do in a work setting. Your residual functional capacity is the most you can still do despite your limitations. We will assess your residual functional capacity based on all the relevant evidence in your case record. (See § 416.946.)

(2) *If you have more than one impairment.* We will consider all of your medically determinable impairments of which we are aware, including your medically determinable impairments that are not "severe," as explained in §§ 416.920(c), 416.921, and 416.923, when we assess your residual functional ca-

20 CFR Ch. III (4-1-10 Edition)

capacity. (See paragraph (e) of this section.)

(3) *Evidence we use to assess your residual functional capacity.* We will assess your residual functional capacity based on all of the relevant medical and other evidence. In general, you are responsible for providing the evidence we will use to make a finding about your residual functional capacity. (See § 416.912(c).) However, before we make a determination that you are not disabled, we are responsible for developing your complete medical history, including arranging for a consultative examination(s) if necessary, and making every reasonable effort to help you get medical reports from your own medical sources. (See §§ 416.912(d) through (f).) We will consider any statements about what you can still do that have been provided by medical sources, whether or not they are based on formal medical examinations. (See § 416.913.) We will also consider descriptions and observations of your limitations from your impairment(s), including limitations that result from your symptoms, such as pain, provided by you, your family, neighbors, friends, or other persons. (See paragraph (e) of this section and § 416.929.)

(4) *What we will consider in assessing residual functional capacity.* When we assess your residual functional capacity, we will consider your ability to meet the physical, mental, sensory, and other requirements of work, as described in paragraphs (b), (c), and (d) of this section.

(5) *How we will use our residual functional capacity assessment.* (i) We will first use our residual functional capacity assessment at step four of the sequential evaluation process to decide if you can do your past relevant work. (See §§ 416.920(f) and 416.960(b).)

(ii) If we find that you cannot do your past relevant work (or you do not have any past relevant work), we will use the same assessment of your residual functional capacity at step five of the sequential evaluation process to decide if you can make an adjustment to any other work that exists in the national economy. (See §§ 416.920(g) and 416.966.) At this step, we will not use our assessment of your residual functional capacity alone to decide if you
