§ 1001.150 Method of calculating State basic grant awards.

(a) In determining the amount of funds available to each State, the ratio of the number of veterans seeking employment in the State to the number of veterans seeking employment in all States will be used.

(b) The number of veterans seeking employment will be determined based on the number of veterans in the civilian labor force and the number of unemployed persons. The civilian labor force data will be obtained from the Current Population Survey (CPS) and the unemployment data will be obtained from the Local Area Unemployment Statistics (LAUS), both of which are compiled by the Department of Labor’s Bureau of Labor Statistics.

(c) Each State’s basic grant allocation will be determined by dividing the number of unemployed persons in each State by the number of unemployed persons across all States (LAUS for the individual States / LAUS for all States) and by dividing the number of veterans in the civilian labor force in each State.
