(1) Any material, compound, mixture, or preparation containing any of the following narcotic drugs, or their salts calculated as the free anhydrous base or alkaloid, in limited quantities as set forth below:
   (i) Not more than 1.8 grams of codeine per 100 milliliters or not more than 90 milligrams per dosage unit, with one or more active, nonnarcotic ingredients in recognized therapeutic amounts ....... 9803
   (ii) Not more than 1.8 grams of codeine per 100 milliliters or not more than 90 milligrams per dosage unit, with a fourfold or greater quantity of an isoquinoline alkaloid of opium ........................................... 9804
   (iii) Not more than 300 milligrams of anabolic steroids (see § 1300.01 of this chapter)—4000
   (iv) Not more than 25 milligrams of atropine sulfate per dosage unit ........................................... 9167
   (v) Not more than 1 milligram of difenoxin and not less than 1,2-diphenyl-3-methyl-2-propionoxybutane) .................. 9278
   (vi) Not more than 1.8 grams of dihydrocodeine (hydrocodone) per 100 milliliters or not more than 15 milligrams per dosage unit, with one or more active, nonnarcotic ingredients in recognized therapeutic amounts ... 9805
   (vii) Not more than 500 milligrams of opium per 100 milliliters or per 100 grams or not more than 15 milligrams per dosage unit, with one or more active, nonnarcotic ingredients in recognized therapeutic amounts ... 9806
   (viii) Not more than 1 milligram of difenoxin and not less than 1,2-diphenyl-3-methyl-2-propionoxybutane) .................. 9278
   (2) [Reserved]

§ 1308.14 Schedule IV.

(a) Schedule IV shall consist of the

(b) Narcotic drugs. Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation containing any of the following narcotic drugs, or their salts calculated as the free anhydrous base or alkaloid, in limited quantities as set forth below:
   (1) Not more than 1 milligram of difenoxin and not less than 1,2-diphenyl-3-methyl-2-propionoxybutane) .................. 9278
   (2) Dextrorphan (alpha(+)-4-dimethylamino-1,2-diphenyl-3-methyl-2-propionoxybutane) 9278

(c) Depressants. Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation which contains any quantity of the following substances, including its salts, isomers, and salts of isomers whenever the existence of such salts, isomers, and salts of isomers is possible within the specific chemical designation:
   (1) Alprazolam .................................................. 2882
   (2) Barbitals ................................................................ 2145
   (3) Bromazepam .................................................. 2748
   (4) Camazepam .................................................. 2749
   (5) Chloral hydrate .................................................. 2465
   (6) Chloral hydrate .................................................. 2465
   (7) Chloral hydrate .................................................. 2465
   (8) Clopazam .................................................. 2751
   (9) Clozazepam .................................................. 2737
   (10) Clonazepam .................................................. 2768
   (11) Clonazepam .................................................. 2768
   (12) Cloxazolam .................................................. 2765
   (13) Delozepam .................................................. 2754
   (14) Dizazepam .................................................. 2765
   (15) Dichloroamphetamine ........................................... 2467
   (16) Estazolam .................................................. 2756
   (17) Ethchlorvynol .................................................. 2540
   (18) Ethchlorvynol .................................................. 2540
   (19) Ethyl tolazepate .................................................. 2758
   (20) Fludiazepam .................................................. 2759

[Some other names for dronabinol: (6aR,8-trans)-6a,7,8,10a-tetrahydro-6,6,9-trimethyl-3-pentyl-4H-dibenzo[b,d]pyran-1-ol] or {(-)-delta-9(-trans)-tetrahydrocannabinol]
§ 1308.15 Schedule V

21 CFR Ch. II (4–1–10 Edition)

(21) Flunitrazepam ................................................. 2763
(22) Flurazepam ..................................................... 2767
(23) Fospropofol .................................................... 2138
(24) Halazepam ...................................................... 2762
(25) Haloxazolam .................................................... 2771
(26) Ketazolam ....................................................... 2772
(27) Loprazolam ...................................................... 2773
(28) Lorazepam ....................................................... 2885
(29) Lormetazepam ................................................ 2774
(30) Metbutalamate ................................................ 2800
(31) Medazepam ..................................................... 2836
(32) Meprobamate ................................................... 2820
(33) Methohexital ................................................... 2264
(34) Methylphenobarbital (mephobarbital) ............... 2250
(35) Midazolam ....................................................... 2864
(36) Nimetrazepam ................................................ 2837
(37) Nitrazepam ...................................................... 2834
(38) Nnoroxazepam ................................................ 2838
(39) Oxazepam ....................................................... 2835
(40) Oxazolam ....................................................... 2839
(41) Paraldehyde .................................................... 2585
(42) Petichloral ...................................................... 2591
(43) Phenobarbital ................................................ 2285
(44) Pinazepam ...................................................... 2883
(45) Prazepam ....................................................... 2764
(46) Quazepam ....................................................... 2881
(47) Temazepam ..................................................... 2925
(48) Tetrazepam ..................................................... 2886
(49) Triazolam ....................................................... 2887
(50) Zaleplon ......................................................... 2781
(51) Zolpidem ....................................................... 2783
(52) Zopiclone ...................................................... 2784

(d) Fenfluramine. Any material, compound, mixture, or preparation which contains any quantity of the following substances, including its salts, isomers, and salts of isomers whenever the existence of such salts, isomers, and salts of isomers is possible:

(1) Fenfluramine .................................................... 1670

(e) Stimulants. Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation which contains any quantity of the following substances having a stimulant effect on the central nervous system, including its salts, isomers and salts of isomers:

(1) Cathine ((+)-norpseudoephedrine) ....................... 1230
(2) Diethylpropion ............................................... 1610
(3) Fencamfamin .................................................. 1760
(4) Fenproporex .................................................. 1575
(5) Mazindol ....................................................... 1605
(6) Mefenorex ..................................................... 1580
(7) Meldonifil ...................................................... 1680
(8) Pemoline (including organometallic complexes and chelates thereof) ........................................ 1530
(9) Phenetermine .................................................. 1640
(10) Pidralol ........................................................ 1750
(11) Sibutramine ................................................... 1675
(12) SPA ((-)-1-dimethylamino-1,2-diphenylethane) .... 1635

(f) Other substances. Unless specifically excepted or unless listed in another schedule, any material, compound, mixture or preparation which contains any quantity of the following substances, including its salts:

(1) Pentazoxide ..................................................... 9709
(2) Butorphanol (including its optical isomers) ........... 9720

[39 FR 22143, June 20, 1974]

EDITORIAL NOTE: For Federal Register citations affecting §1308.15, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and on GPO Access.

§ 1308.15 Schedule V.

(a) Schedule V shall consist of the drugs and other substances, by whatever official name, common or usual name, chemical name, or brand name designated, listed in this section.

(b) Narcotic drugs. Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation containing any of the following narcotic drugs and their salts, as set forth below:

(1) [Reserved]

(c) Narcotic drugs containing non-narcotic active medicinal ingredients. Any compound, mixture, or preparation containing any of the following narcotic drugs, or their salts calculated as the free anhydrous base or alkaloid, in limited quantities as set forth below, which shall include one or more nonnarcotic active medicinal ingredients in sufficient proportion to confer upon the compound, mixture, or preparation valuable medicinal qualities other than those possessed by narcotic drugs alone:

(1) Not more than 200 milligrams of codeine per 100 milliliters or per 100 grams.
(2) Not more than 100 milligrams of dihydrocodeine per 100 milliliters or per 100 grams.
(3) Not more than 100 milligrams of ethylmorphine per 100 milliliters or per 100 grams.
(4) Not more than 2.5 milligrams of diphenoxylate and not less than 25 micrograms of atropine sulfate per dosage unit.
(5) Not more than 100 milligrams of opium per 100 milliliters or per 100 grams.
(6) Not more than 0.5 milligram of difenoxin and not less than 25 micrograms of atropine sulfate per dosage unit.
