

The participant's full annuity would then be reduced by \$780 in accordance with the above formula for this survivor benefit, and the reduced annuity would be \$14,000-780: \$13,220.

If the former spouse qualifies for a pension as described in §19.9 based on a pro rata share of 75 percent, the pension would equal 50 percent of the participant's reduced annuity times 75 percent ( $50\% \times \$13,220 \times 75\%$ ): 4,957.50.

The participant's reduced annuity would then be further reduced by this pension (\$13,220-\$4,957.50) to provide an annuity to the former participant of \$8,262.50.

If this annuitant later remarried, the maximum base for the regular survivor annuity for the new spouse would be the amount designated at retirement, \$12,600, less the amount committed to the former spouse, \$10,500: \$12,600-10,500 or \$2,100.

The survivor annuity for this spouse: 55 percent of \$2,100 or \$1,555.

The election of this benefit for the new spouse would be made individually by the annuitant since a marriage after retirement does not give a spouse a right to participate in the election.

If the election is made to provide a regular survivor annuity to the new spouse, all of the above calculations would be recomputed effective the first day of the month beginning one year after the date of the remarriage, as follows:

Base for survivor annuity for former spouse: 75% of \$14,000 or \$10,500.

Survivor annuity for former spouse: 55% of \$10,500 or \$5,775.

Base for survivor annuity for spouse: 15% of \$14,000 or \$2,100.

Survivor annuity for spouse: 55% of \$2,100 or \$1,555.

The combined base for the survivor benefits is \$10,500 plus \$2,100 or \$12,600. The annuity reduction on this combined base as computed above is \$990.

The participant's annuity after reduction for survivor benefit would be \$14,000-\$990 or \$13,010.

The pension for the former spouse would be  $50\% \times \$13,010 \times 75\%$  or \$4,878.75.

The participant's annuity would be further reduced by this amount: \$13,010-\$4,878.75 to provide an annuity after this recalculation of \$8,131.25.

(b) The maximum regular survivor annuity or combination of regular survivor annuities that may be provided under this section is limited to 55% of the principal's full annuity computed at retirement. If an annuitant is recalled to active duty in the Foreign Service, he/she may provide additional regular survivor annuities under §19.10-6. The maximum regular sur-

vivor annuity or combination of regular survivor annuities that an annuitant who was married at retirement may elect or provide, pursuant to a court order or otherwise, after retirement in the event of his/her divorce or remarriage, is limited to the amount provided at the time of initial retirement or reversion to retired status following recall service.

#### § 19.10-3 Marriage after retirement.

If an annuitant who was unmarried at the time of retirement, marries, he/she may within one year after such marriage irrevocably elect to receive a reduced annuity and to provide, subject to any obligation to provide a survivor annuity for a former spouse, a survivor annuity for the new spouse. If such an election is made, the principal's annuity shall be reduced in accordance with §19.10-2 effective on the first day of the first month which begins at least one year after the date of the marriage. The reduction is computed on the commencing rate of the principal's annuity.

#### § 19.10-4 Death or divorce of a spouse and remarriage after retirement.

(a) If the marriage of an annuitant who received a reduced annuity at retirement under §19.10-2 to provide a survivor annuity for a spouse is dissolved by divorce or by death of the spouse, the retiree's annuity shall be recomputed, if necessary, as of the first of the month following the death or divorce. If the marriage was dissolved by death, the annuity shall be recomputed and paid at its full amount. If the marriage is dissolved by divorce, procedures in §19.11-2(b) shall be followed.

(b) In the event an annuitant affected by this paragraph remarries, the annuitant may elect within one year of remarriage to provide a survivor annuity for the new spouse equal in amount to the survivor benefit formerly in effect for the previous spouse less any amount committed for a former spouse. The annuity of a retiree making such an election shall be reduced effective on the first day of the first month which begins at least one year after the remarriage to the amount that would have been payable had there been no
