Indian landowners for the purpose of requesting the consent documents listed under paragraph (c) of this section or of seeking the consultation and consent required under paragraph (d) of this section may be obtained from the BIA office to which the permit application is submitted. (f) Contractual agreements with the BIA or Indian tribes and permits issued by Indian tribes may be accepted as support documents for permit applications. They may also double as permit documents, if they demonstrate that the provisions for permit issuance in this part and at 43 CFR part 7 have been met and they are attached to a Department of the Interior permit form. This form must be signed by the Area Director, but need only contain the following or similar statement: “This permit is issued to the person(s) named, and in accordance with the terms and conditions in the attached (contractual agreement/tribal permit).” (g) Area Directors shall respond to permit applications within 15 working days of receipt. § 262.6 Landowner consent by the Secretary. The Secretary of the Interior, or delegate thereof, may, on behalf of the owner(s) of lands of Indian individuals, grant consent for the purposes in §262.5(c)(1) and (3) when the Secretary or his or her delegate finds that such consent will not result in any injury to the land or owner(s) and when one or more of the following conditions exist: (a) The owner is a minor or a person non compos mentis; (b) The heirs or devisees of a deceased owner have not been determined; (c) The whereabouts of the owner are unknown; (d) Multiple owners are so numerous that the Secretary or his or her delegate finds, after documenting his or her efforts to do so, that it would be impractical to obtain their consent, as prescribed in §262.5(c)(1)(iv) and provided the Secretary or his or her delegate also notifies, in writing, the tribe, if any, having jurisdiction over the land and allows 15 working days from the date of mailing date for response; or (e) The owner has given the Secretary or his or her delegate written authority to grant such consent on his or her behalf. § 262.7 Notice to Indian tribes of possible harm to cultural or religious sites. When consent by an Indian tribe to proposed excavation or removal of archaeological resources from Indian lands it owns or over which it has jurisdiction contains all of the information written as prescribed and advised in §262.5(c)(1), it may be taken to mean that subject to such terms and conditions as the tribe might specify, issuance of a permit for the proposed work will not result in harm to, or destruction of, any site of religious or cultural importance. No further notification is necessary, unless the Area Director has reason to believe that the proposed work might harm or destroy a site of religious or cultural importance to another tribe or Native American group. He or she shall then follow the notification procedures at 43 CFR 7.7. Those procedures must also be followed when proposed work might affect lands of Indian individuals over which there is no tribal jurisdiction or public lands owned or administered by the BIA. § 262.8 Custody of archaeological resources. (a) Archaeological resources excavated or removed from Indian lands, except for human remains of Indians, funerary objects, sacred objects and objects of cultural patrimony, remain the property of the Indian tribe or individual(s) having rights of ownership over such lands. Ownership and right of control over the disposition of the excepted items shall be in accordance with the order of priority provided in the Native American Graves Protection and Repatriation Act (Pub. L. 101–601), adapted for the purpose of this rule as follows: (1) In the case of human remains of Indians and funerary objects, in the lineal descendants of the Indian; or (2) In any case in which such lineal descendants cannot be ascertained, and in the case of sacred objects and objects of cultural patrimony:
