print or accept vouchers, then any standards that govern vouchers do not apply.

(c) Fairness. No Class II gaming system shall cheat or mislead users. All prizes advertised shall be available to win. No progressive prize shall have a probability of winning less than 1 in 100,000,000. No other prize shall have a probability of winning less than 1 in 50,000,000.

(d) Approved equipment and software only. All gaming equipment and software used with Class II gaming systems shall be identical in all respects to a prototype reviewed and tested by a testing laboratory and approved for use by the tribal gaming regulatory authority pursuant to §547.4(a) through (c). Unapproved software shall not be loaded onto or stored on any program storage medium used in a Class II gaming system, except as provided in §547.4(d).

(e) Proper functioning. All gaming equipment and software used with Class II gaming systems shall perform according to the manufacturer's design and operating specifications.

(f) No Limitation of Technology. This part should not be interpreted to limit the use of technology or to preclude the use of technology not specifically referenced.

(g) Severability. If any provision of this part is declared invalid by a court of competent jurisdiction, such decision shall not affect the remainder of this part.

§547.6 What are the minimum technical standards for enrolling and enabling Class II gaming system components?

(a) General requirements. Class II gaming systems shall provide a method to:

1. Enroll and unenroll system components;
2. Enable and disable specific system components.

(b) Specific requirements. Class II gaming systems shall:

1. Ensure that only enrolled and enabled system components participate in gaming; and
2. Ensure that the default condition for components shall be unenrolled and disabled.

§547.7 What are the minimum technical hardware standards applicable to Class II gaming systems?

(a) General requirements. (1) The Class II gaming system shall operate in compliance with applicable regulations of the Federal Communications Commission.

(2) Prior to approval by the tribal gaming regulatory authority pursuant to §547.4(c), the Class II gaming system shall have obtained from Underwriters' Laboratories, or its equivalent, relevant certification(s) required for equipment of its type, including but not limited to certifications for liquid spills, electromagnetic interference, etc.

(b) Printed circuit boards. (1) Printed circuit boards that have the potential to affect the outcome or integrity of the game, and are specially manufactured or proprietary and not off-the-shelf, shall display a unique identifier such as a part number and/or revision number, which shall be updated to reflect new revisions or modifications of the board.

(2) Switches or jumpers on all circuit boards that have the potential to affect the outcome or integrity of any game, progressive award, financial instrument, cashless transaction, voucher transaction, or accounting records shall be capable of being sealed.

(c) Electrostatic discharge. Class II gaming system components accessible to the public shall be constructed so that they exhibit immunity to human body electrostatic discharges on areas exposed to contact. Static discharges of ±15 kV for air discharges and ±7.5 kV for contact discharges may not cause damage, or inhibit operation or integrity of the Class II gaming system.

(d) Physical enclosures. Physical enclosures shall be of a robust construction designed to resist determined illegal entry. All protuberances and attachments such as buttons, identification plates, and labels shall be sufficiently robust to avoid unauthorized removal.

(e) Player interface. The player interface shall include a method or means to:

1. Display information to a player; and
