Internal Revenue Service, Treasury

§ 25.2523(e)–1

Marital deduction; life estate with power of appointment in donee spouse.

(a) In general. Section 2523(e) provides that if an interest in property is transferred by a donor to his spouse (whether or not in trust) and the spouse is entitled for life to all the income from a specific portion of the entire interest, with a power in her to appoint the entire interest of all the income from interest or the specific portion, the interest transferred to her is a deductible interest, to the extent that it satisfies all five of the conditions set forth below (see paragraph (b) of this section if one or more of the conditions is satisfied as to only a portion of the interest):

(1) The donee spouse must be entitled for life to all of the income from the entire interest or a specific portion of the entire interest, or to a specific portion of all the income from the entire interest.

(2) The income payable to the donee spouse must be payable annually or at more frequent intervals.

(3) The donee spouse must have the power to appoint the entire interest of the specific portion to either herself or her estate.

(4) The power in the donee spouse must be exercisable by her alone and (whether exercisable by will or during life) must be exercisable in all events.

(5) The entire interest or the specific portion must not be subject to a power in any other person to appoint any part to any person other than the donee spouse.

(b) Specific portion; deductible amount. If either the right to income or the power of appointment given to the donee spouse pertains only to a specific portion of a property interest, the portion of the interest which qualifies as a deductible interest is limited to the extent that the rights in the donee spouse meet all of the five conditions described in paragraph (a) of this section. While the rights over the income and the power must coexist as to the same interest in property, it is not necessary that the rights over the income or the power as to such interest be in the same proportion. However, if the
