

§ 49.4263-1

hours or less is increased to exceed six hours, the transportation will continue to be uninterrupted international air transportation if the increase in time is attributable to delays in the arrival or departure of the scheduled air transportation. In such case the transportation shall continue to be uninterrupted international air transportation if the passenger continues his transportation no later than on the first available flight offered by the continuing carrier which affords the passenger substantially the same accommodations as originally purchased. However, if for any other reason such interval at any stopover is increased to more than 6 hours, the transportation will lose its classification of uninterrupted international air transportation. The tax applicable in such case shall be paid as provided in paragraph (a) (2) of § 49.4264(c)-1. The transportation from the point of origin in the United States to a port or station outside the United States and the 225-mile zone, with a stopover in the United States, must be scheduled before the time the initial transportation commences in order for the United States portion of such transportation to qualify as uninterrupted international air transportation. For example, where transportation by air from Chicago to New York only is scheduled in Chicago and transportation by air from New York to London, England, is scheduled by the passenger after his arrival in New York, the Chicago to New York trip does not qualify as uninterrupted international air transportation even though the passenger may depart on the London flight within six hours after arrival in New York.

§ 49.4263-2 Charges not exceeding 60 cents.

(a) *In general.* The tax imposed by section 4261 does not apply to transportation payments of 60 cents or less.

(b) *Round trips.* The exemption is determined by the amount paid for a single one-way trip. Thus, an amount of more than 60 cents paid for round-trip transportation is exempt from the tax, if the regular one-way single fare of like class between the terminal points of the round trip does not exceed 60 cents.

(c) *Charters.* An amount paid for the charter of a car, train, motor vehicle, aircraft, or boat with respect to transportation beginning before November 16, 1962, or of an aircraft with respect to transportation beginning after November 15, 1962, is exempt from the tax, if the payment represents a per capita charge of sixty cents or less for each person actually transported.

(d) *Seating or sleeping accommodations.* Any amount paid for seating or sleeping accommodations is not subject to tax under section 4261(c) where the amount of the related payment for transportation is 60 cents or less. However, where the payment for transportation exceeds 60 cents, a payment for seating or sleeping accommodations in connection with such transportation is subject to the tax regardless of the amount thereof.

§ 49.4263-3 Transportation furnished to certain organizations.

(a) *The American National Red Cross.* The tax imposed by section 4261 does not apply to amounts paid for transportation or facilities furnished to any corporation created by act of Congress to act in matters of relief under the treaty of Geneva of August 22, 1864 (The American National Red Cross).

(b) *International organizations.* The tax imposed by section 4261 does not apply to amounts paid for transportation or facilities furnished to an international organization. See section 7701(a) (18) for the definition of "international organization". An international organization is designated as such by the President through an Executive order or orders. When an organization has been designated by the President as entitled to enjoy the privileges, exemptions and immunities conferred by the International Organizations Immunities Act, or part thereof, including exemption from the tax, the exemption applies to amounts so paid unless the President otherwise provides. The exemption is subject to withdrawal or revocation by the President. In case of withdrawal or revocation, unless otherwise provided by the President, the exemption is inapplicable to payments on or after the date of issuance of the order of withdrawal or the date of revocation.

(c) *Evidence of right to exemption.* The right to exemption under section 4263(b) (and under former section 4263(d)) shall be established by the use of exemption certificate, Form 731. See section 4292 and the regulations thereunder for the rules applicable when the right to exemption is evidenced by exemption certificates.

§ 49.4263-4 Members of the armed forces.

The tax imposed by section 4261 does not apply to amounts paid for transportation or for seating or sleeping accommodations furnished under special tariffs providing for fares of not more than 2.5 cents per mile applicable to round-trip tickets sold to personnel of the United States Army, Air Force, Navy, Marine Corps, and Coast Guard, including authorized cadets and midshipmen, traveling in uniform of the United States at their own expense when on official leave, furlough, or pass. A person claiming exemption under this section will be required to exhibit to the agent of the carrier a properly executed certificate to show that he is traveling on official leave, furlough, or pass, but the submission of

an exemption certificate on Form 731 is not necessary in such case.

§ 49.4263-5 Small aircraft on nonestablished lines.

(a) *In general.* Amounts paid for the transportation of persons on a small aircraft of the type sometimes referred to as "air taxis" shall be exempt from the tax imposed under section 4261 provided the aircraft (1) has a gross take-off weight of less than 12,500 pounds determined as provided in paragraph (b) of this section and (2) has a passenger seating capacity of less than 10 adult passengers, including the pilot. The exemption does not apply, however, if the aircraft is operated on an established line.

(b) *Determination of gross take-off weight.* The term "gross take-off weight of less than 12,500 pounds" means a maximum certificated take-off weight of less than 12,500 pounds. This shall be based on the maximum certificated take-off weight shown in the aircraft operating record or aircraft flight manual which is part of the airworthiness certificate issued by the Federal Aviation Administration.

(c) *Established line.* The term "operated on an established line" means operated with some degree of regularity between definite points. It does not necessarily mean that strict regularity of schedule is maintained; that the full run is always made; that a particular route is followed; or that intermediate stops are restricted. The term implies that the person rendering the service maintains and exercises control over the direction, route, time, number of passengers carried, etc.
