(2) User fees collected from states should be based on the states' pro rata share of the total number of titled motor vehicles based on the Highway Statistics Program of the Federal Highway Administration, U.S. Department of Transportation, except in cases where states did not report to that program, in which case the states shall make available the most recent statistics for motor vehicle title registrations.

(3) All states, regardless of their level of participation, shall be charged user fees by the operator.

(4) No fees shall be charged for inquiries from law enforcement agencies.

(g) The operator will establish procedures and practices to facilitate reporting to NMVTIS in the least burdensome and costly fashion. If the operator is not the Department of Justice, the operator must provide an annual report to the Department of Justice detailing the fees it collected and how it expended such fees and other funds to operate NMVTIS. This report must also include a status report on the implementation of the system, compliance with reporting and other requirements, and sufficient detail and scope regarding financial information so that reasonable determinations can be made regarding budgeting and performance. The operator shall procure an independent financial audit of NMVTIS revenues and expenses on an annual basis. The Department of Justice will make these reports available for public inspection.

§ 25.54 Responsibilities of the States.

(a) Each state must maintain at least the level of participation in NMVTIS that it had achieved as of January 1, 2009. By no later than January 1, 2010, each state must have completed implementation of all requirements of participation and provide, or cause to be provided by an agent or third party, to the designated operator and in an electronic format acceptable to the operator, at a frequency of once every 24 hours, titling information for all automobiles maintained by the state. The titling information provided to NMVTIS must include the following:

(1) VIN;

(2) Any description of the automobile included on the certificate of title (including any and all brands associated with such vehicle);

(3) The name of the individual or entity to whom the certificate was issued;

(4) Information from junk or salvage yard operators or insurance carriers regarding the acquisition of junk automobiles or salvage automobiles, if this information is being collected by the state; and

(5) For an automobile known to be titled in a particular state, the odometer mileage disclosure required under 49 U.S.C. 32705 for that automobile on the date the certificate of title for that automobile was issued and any later mileage information, if noted by the state.

(b) With the approval of the operator and the state, the titling information provided to NMVTIS may include any other information included on the certificates of title and any other information the state maintains in relation to these titles.

(c) By no later than January 1, 2010, each state shall establish a practice of performing a title verification check through NMVTIS before issuing a certificate of title to an individual or entity claiming to have purchased an automobile from an individual or entity in another state or in cases of title transfers. The check will consist of—

(1) Communicating to the operator the VIN of the automobile for which the certificate of title is sought;

(2) Giving the operator an opportunity to communicate to the participating state the results of a search of the information and using the results to determine the validity and status of a document purporting to be a certification of title, to determine whether the automobile has been a junk or salvage vehicle or has been reported as such, to compare and verify the odometer information presented with that reported in the system, and to determine the validity of other information presented (*e.g.*, lien-holder status, etc.).

(d) By January 1, 2010, those states not currently paying user fees will be responsible for paying user fees as established by the operator to support NMVTIS.
