§ 553.202 Limitations.
The application of sections 13(b)(20) and 7(k), by their terms, is limited to public agencies, and does not apply to any private organization engaged in furnishing fire protection or law enforcement services. This is so even if the services are provided under contract with a public agency.

Exemption Requirements

§ 553.210 Fire protection activities.

(a) As used in sections 7(k) and 13(b)(20) of the Act, the term “any employee . . . in fire protection activities” refers to any employee (1) who is employed by an organized fire department or fire protection district; (2) who has been trained to the extent required by State statute or local ordinance; (3) who has the legal authority and responsibility to engage in the prevention, control or extinguishment of a fire of any type; and (4) who performs activities which are required for, and directly concerned with, the prevention, control or extinguishment of fires, including such incidental non- firefighting functions as housekeeping, equipment maintenance, lecturing, attending community fire drills and inspecting homes and schools for fire hazards. The term would include all such employees, regardless of their status as “trainee,” “probationary,” or “permanent,” or of their particular specialty or job title (e.g., firefighter, engineer, hose or ladder operator, fire specialist, fire inspector, lieutenant, captain, inspector, fire marshal, battalion chief, deputy chief, or chief), and regardless of their assignment to support activities of the type described in paragraph (c) of this section, whether or not such assignment is for training or familiarization purposes, or for reasons of illness, injury or infirmity. The term would also include rescue and ambulance service personnel if such personnel form an integral part of the public agency’s fire protection activities. See §553.215.

(b) The term “any employee in fire protection activities” also refers to employees who work for forest conservation agencies or other public agencies charged with forest fire fighting responsibilities, and who direct or engage in (1) fire spotting or lookout activities, or (2) fighting fires on the fireline or from aircraft or (3) operating tank trucks, bulldozers and tractors for the purpose of clearing fire breaks. The term includes all persons so engaged, regardless of their status as full time or part time agency employees or as temporary or casual workers employed for a particular fire or for periods of high fire danger, including those who have had no prior training. It does not include such agency employees as maintenance and office personnel who do not fight fires on a regular basis. It may include such employees during emergency situations when they are called upon to spend substantially all (i.e., 80 percent or more) of their time during the applicable work period in one or more of the activities described in paragraphs (b)(1), (2) and (3) of this section. Additionally, for those persons who actually engage in those fire protection activities, the simultaneous performance of such related functions as housekeeping, equipment maintenance, tower repairs and/or the construction of fire roads, would also be within the section 7(k) or 13(b)(20) exemption.

(c) Not included in the term “employee in fire protection activities” are the so-called “civilian” employees of a
