

Mine Safety and Health Admin., Labor

§ 7.2

Subpart E—Diesel Engines Intended for Use in Underground Coal Mines

- 7.81 Purpose and effective date.
- 7.82 Definitions.
- 7.83 Application requirements.
- 7.84 Technical requirements.
- 7.85 Critical characteristics.
- 7.86 Test equipment and specifications.
- 7.87 Test to determine the maximum fuel-air ratio.
- 7.88 Test to determine the gaseous ventilation rate.
- 7.89 Test to determine the particulate index.
- 7.90 Approval marking.
- 7.91 Post-approval product audit.
- 7.92 New technology.

Subpart F—Diesel Power Packages Intended for Use in Areas of Underground Coal Mines Where Permissible Electric Equipment Is Required

- 7.95 Purpose and effective date.
- 7.96 Definitions.
- 7.97 Application requirements.
- 7.98 Technical requirements.
- 7.99 Critical characteristics.
- 7.100 Explosion tests.
- 7.101 Surface temperature tests.
- 7.102 Exhaust gas cooling efficiency test.
- 7.103 Safety system control test.
- 7.104 Internal static pressure test.
- 7.105 Approval marking.
- 7.106 Post-approval product audit.
- 7.107 New technology.
- 7.108 Power package checklist.

Subpart J—Electric Motor Assemblies

- 7.301 Purpose and effective date.
- 7.302 Definitions.
- 7.303 Application requirements.
- 7.304 Technical requirements.
- 7.305 Critical characteristics.
- 7.306 Explosion tests.
- 7.307 Static pressure test.
- 7.308 Lockwasher equivalency test.
- 7.309 Approval marking.
- 7.310 Post-approval product audit.
- 7.311 Approval checklist.

APPENDIX I TO SUBPART J OF PART 7

Subpart K—Electric Cables, Signaling Cables, and Cable Splice Kits

- 7.401 Purpose and effective date.
- 7.402 Definitions.
- 7.403 Application requirements.
- 7.404 Technical requirements.
- 7.405 Critical characteristics.
- 7.406 Flame test apparatus.
- 7.407 Test for flame resistance of electric cables and cable splices.
- 7.408 Test for flame resistance of signaling cables.

- 7.409 Approval markings.
- 7.410 Post-approval product audit.
- 7.411 New technology.

Subpart L—Refuge Alternatives

- 7.501 Purpose and scope.
- 7.502 Definitions.
- 7.503 Application requirements.
- 7.504 Refuge alternatives and components; general requirements.
- 7.505 Structural components.
- 7.506 Breathable air components.
- 7.507 Air-monitoring components.
- 7.508 Harmful gas removal components.
- 7.509 Approval markings.
- 7.510 New technology.

AUTHORITY: 30 U.S.C. 957.

SOURCE: 53 FR 23500, June 22, 1988, unless otherwise noted.

Subpart A—General

§ 7.1 Purpose and scope.

This part sets out requirements for MSHA approval of certain equipment and materials for use in underground mines whose product testing and evaluation does not involve subjective analysis. These requirements apply to products listed in the subparts following this Subpart A. After the dates specified in the following subparts, requests for approval of products shall be made in accordance with this Subpart A and the applicable subpart.

§ 7.2 Definitions.

The following definitions apply in this part.

Applicant. An individual or organization that manufactures or controls the assembly of a product and that applies to MSHA for approval of that product.

Approval. A document issued by MSHA which states that a product has met the requirements of this part and which authorizes an approval marking identifying the product as approved.

Authorized company official. An individual designated by applicant who has the authority to bind the company.

Critical characteristic. A feature of a product that, if not manufactured as approved, could have a direct adverse effect on safety and for which testing or inspection is required prior to shipment to ensure conformity with the technical requirements under which the approval was issued.

§7.3

30 CFR Ch. I (7-1-10 Edition)

Equivalent non-MSHA product safety standards. A non-MSHA product safety standard, or group of standards, that is determined by MSHA to provide at least the same degree of protection as the applicable MSHA product technical requirements in the subparts of this part, or can be modified to provide at least the same degree of protection as those MSHA requirements.

Extension of approval. A document issued by MSHA which states that the change to a product previously approved by MSHA under this part meets the requirements of this part and which authorizes the continued use of the approval marking after the appropriate extension number has been added.

Post-approval product audit. Examination, testing, or both, by MSHA of approved products selected by MSHA to determine whether those products meet the applicable technical requirements and have been manufactured as approved.

Technical requirements. The design and performance requirements for a product, as specified in a subpart of this part.

Test procedures. The methods specified in a subpart of this part used to determine whether a product meet the performance portion of the technical requirements.

[53 FR 23500, June 22, 1988; 53 FR 25569, July 7, 1988, as amended at 68 FR 36418, June 17, 2003]

§7.3 Application procedures and requirements.

(a) *Application.* Requests for an approval or extension of approval shall be sent to: U.S. Department of Labor, Mine Safety and Health Administration, Approval and Certification Center, 765 Technology Drive, Triadelphia, WV 26059.

(b) *Fees.* Fees calculated in accordance with part 5 of this title shall be submitted in accordance with §5.40.

(c) *Original approval.* Each application for approval of a product shall include—

- (1) A brief description of the product;
- (2) The documentation specified in the appropriate subpart of this part;
- (3) The name, address, and telephone number of the applicant's representa-

tive responsible for answering any questions regarding the application;

(4) If appropriate, a statement indicating whether, in the applicant's opinion, testing is required. If testing is not proposed, the applicant shall explain the reasons for not testing; and

(5) If appropriate, the place and date for product testing.

(d) *Subsequent approval of a similar product.* Each application for a product similar to one for which the applicant already holds an approval shall include—

(1) The approval number for the product which most closely resembles the new one;

(2) The information specified in paragraph (c) of this section for the new product, except that any document which is the same as one listed by MSHA in prior approvals need not be submitted, but shall be noted in the application;

(3) An explanation of any change from the existing approval; and

(4) A statement as to whether, in the applicant's opinion, the change requires product testing. If testing is not proposed, the applicant shall explain the reasons for not testing.

(e) *Extension of an approval.* Any change in the approved product from the documentation on file at MSHA that affects the technical requirements of this part shall be submitted to MSHA for approval prior to implementing the change. Each application for an extension of approval shall include—

(1) The MSHA-assigned approval number for the product for which the extension is sought;

(2) A brief description of the proposed change to the previously approved product;

(3) Drawings and specifications which show the change in detail;

(4) A statement as to whether, in the applicant's opinion, the change requires product testing. If testing is not proposed, the applicant shall explain the reasons for not testing;

(5) The place and date for product testing, if testing will be conducted; and
