

information in the record and determine whether you have demonstrated that the requisite property rights exist under paragraph (a), (c)(1), or (c)(2) of the definition of valid existing rights in §761.5, as appropriate. The agency must then proceed with the decision process under paragraph (e)(2) of this section.

(4) The agency must issue a determination that you have not demonstrated valid existing rights if you do not submit information that the agency requests under paragraph (c)(2) or (e)(1) of this section within the time specified or as subsequently extended. The agency will make this determination without prejudice, meaning that you may refile a revised request at any time.

(5) After making a determination, the agency must:

(i) Provide a copy of the determination, together with an explanation of appeal rights and procedures, to you, to the owner or owners of the land to which the determination applies, to the owner of the feature causing the land to come under the protection of §761.11, and, when applicable, to the agency with primary jurisdiction over the feature with respect to the values that caused the land to come under the protection of §761.11.

(ii) Publish notice of the determination in a newspaper of general circulation in the county in which the land is located. Alternatively, the agency may require that you publish this notice and provide a copy of the published notice to the agency. We will publish the determination, together with an explanation of appeal rights and procedures, in the FEDERAL REGISTER if your request includes Federal lands within an area listed in §761.11(a) or (b).

(f) *Administrative and judicial review.* A determination that you have or do not have valid existing rights is subject to administrative and judicial review under §§775.11 and 775.13 of this chapter.

(g) *Availability of records.* The agency responsible for processing a request subject to notice and comment under paragraph (d) of this section must make a copy of that request available to the public in the same manner as the agency, when acting as the regu-

latory authority, must make permit applications available to the public under §773.13(d) of this chapter. In addition, the agency must make records associated with that request, and any subsequent determination under paragraph (e) of this section, available to the public in accordance with the requirements and procedures of §840.14 or §842.16 of this chapter.

[64 FR 70833, Dec. 17, 1999]

**§761.17 Regulatory authority obligations at time of permit application review.**

(a) Upon receipt of an administratively complete application for a permit for a surface coal mining operation, or an administratively complete application for revision of the boundaries of a surface coal mining operation permit, the regulatory authority must review the application to determine whether the proposed surface coal mining operation would be located on any lands protected under §761.11.

(b) The regulatory authority must reject any portion of the application that would locate surface coal mining operations on land protected under §761.11 unless:

(1) The site qualifies for the exception for existing operations under §761.12;

(2) A person has valid existing rights for the land, as determined under §761.16;

(3) The applicant obtains a waiver or exception from the prohibitions of §761.11 in accordance with §§761.13 through 761.15; or

(4) For lands protected by §761.11(c), both the regulatory authority and the agency with jurisdiction over the park or place jointly approve the proposed operation in accordance with paragraph (d) of this section.

(c) *Location verification.* If the regulatory authority has difficulty determining whether an application includes land within an area specified in §761.11(a) or within the specified distance from a structure or feature listed in §761.11(f) or (g), the regulatory authority must request that the Federal, State, or local governmental agency with jurisdiction over the protected land, structure, or feature verify the location.

## § 761.200

(1) The request for location verification must:

(i) Include relevant portions of the permit application.

(ii) Provide the agency with 30 days after receipt to respond, with a notice that another 30 days is available upon request.

(iii) Specify that the regulatory authority will not necessarily consider a response received after the comment period provided under paragraph (c)(1)(ii) of this section.

(2) If the agency does not respond in a timely manner, the regulatory authority may make the necessary determination based on available information.

(d) *Procedures for joint approval of surface coal mining operations that will adversely affect publicly owned parks or historic places.* (1) If the regulatory authority determines that the proposed surface coal mining operation will adversely affect any publicly owned park or any place included in the National Register of Historic Places, the regulatory authority must request that the Federal, State, or local agency with jurisdiction over the park or place either approve or object to the proposed operation. The request must:

(i) Include a copy of applicable parts of the permit application.

(ii) Provide the agency with 30 days after receipt to respond, with a notice that another 30 days is available upon request.

(iii) State that failure to interpose an objection within the time specified under paragraph (d)(1)(ii) of this section will constitute approval of the proposed operation.

(2) The regulatory authority may not issue a permit for a proposed operation subject to paragraph (d)(1) of this section unless all affected agencies jointly approve.

(3) Paragraphs (d)(1) and (d)(2) of this section do not apply to:

(i) Lands for which a person has valid existing rights, as determined under § 761.16.

(ii) Lands within the scope of the exception for existing operations in § 761.12.

## 30 CFR Ch. VII (7–1–10 Edition)

### § 761.200 Interpretative rule related to subsidence due to underground coal mining in areas designated by Act of Congress.

OSM has adopted the following interpretation of rules promulgated in part 761.

(a) *Interpretation of § 761.11—Areas where mining is prohibited or limited.* Subsidence due to underground coal mining is not included in the definition of surface coal mining operations under section 701(28) of the Act and § 700.5 of this chapter and therefore is not prohibited in areas protected under section 522(e) of the Act.

(b) [Reserved]

[64 FR 70866, Dec. 17, 1999]

## PART 762—CRITERIA FOR DESIGNATING AREAS AS UNSUITABLE FOR SURFACE COAL MINING OPERATIONS

Sec.

762.1 Scope.

762.4 Responsibility.

762.5 Definitions.

762.11 Criteria for designating lands as unsuitable.

762.12 Additional criteria.

762.13 Land exempt from designation as unsuitable for surface coal mining operations.

762.14 Applicability to lands designated as unsuitable by Congress.

762.15 Exploration on land designated as unsuitable for surface coal mining operations.

AUTHORITY: 30 U.S.C. 1201 *et seq.*

SOURCE: 48 FR 41350, Sept. 14, 1983, unless otherwise noted.

### § 762.1 Scope.

This part establishes the minimum criteria to be used in determining whether lands should be designated as unsuitable for all or certain types of surface coal mining operations.

### § 762.4 Responsibility.

The regulatory authority or OSM shall use the criteria in this part for the evaluation of each petition for the designation of areas as unsuitable for surface coal mining operations.

### § 762.5 Definitions.

For purposes of this part:
