

transferred to the minimum required to meet a State's actual and immediate cash needs.

(c) A State must not draw down funds from its account in the Unemployment Trust Fund (UTF) or from a Federal account in the UTF in advance of actual immediate cash needs for any purpose including maintaining a compensating balance.

(d) A Federal Program Agency must allow a State to submit requests for funds daily. This requirement should not be construed as a change to Federal Program Agency guidelines defining a properly completed request for funds.

(e) In accordance with the electronic funds transfer provisions of the Debt Collection Improvement Act of 1996 (31 U.S.C. 3332), a Federal Program Agency must use electronic funds transfer methods to transfer funds to States unless a waiver is available.

**§ 205.12 What funding techniques may be used?**

(a) We and a State may negotiate the use of mutually agreed upon funding techniques. We may deny interest liability if a State does not use a mutually agreed upon funding technique. Funding techniques should be efficient and minimize the exchange of interest between States and Federal agencies.

(b) We and a State may base our agreement on the sample funding techniques listed in paragraphs (b)(1) through (b)(5) of this section, or any other technique upon which both parties agree.

(1) Zero balance accounting means that a Federal Program Agency transfers the actual amount of Federal funds to a State that are paid out by the State each day.

(2) Projected clearance means that a Federal Program Agency transfers to a State the projected amount of funds that the State pays out each day. The projected amount paid out each day is determined by applying a clearance pattern to the total amount the State will disburse.

(3) Average clearance means that a Federal Program Agency, on the dollar-weighted average day of clearance of a disbursement, transfers to a State a lump sum equal to the actual amount

of funds that the State is paying out. The dollar-weighted average day of clearance is the day when, on a cumulative basis, 50 percent of the funds have been paid out. The dollar-weighted average day of clearance is calculated from a clearance pattern, consistent with § 205.20.

(4) Cash advance (pre-issuance or post-issuance) funding means that a Federal Program Agency transfers the actual amount of Federal funds to a State that will be paid out by the State, in a lump sum, not more than three business days prior to the day the State issues checks or initiates EFT payments.

(5) Reimbursable funding means that a Federal Program Agency transfers Federal funds to a State after that State has already paid out the funds for Federal assistance program purposes.

**§ 205.13 How do you determine when State or Federal interest liability accrues?**

(a) State or Federal interest liability may or may not accrue when mutually agreed to funding techniques are applied, depending on the terms of the Treasury-State agreement.

(b) We and a State may agree in a Treasury-State agreement that no State or Federal interest liability will accrue for indirect costs or indirect allocated costs based on an indirect cost rate. This indirect cost must be consistent with OMB Circular A-87 (For availability, see 5 CFR 1310.3.) and be in accordance with this subpart A. The indirect cost rate may be a Statewide indirect cost rate or a public assistance cost rate, where appropriate.

**§ 205.14 When does Federal interest liability accrue?**

(a) Federal interest liabilities may accrue in accordance with the following provisions:

(1) The Federal Program Agency incurs interest liability if a State pays out its own funds for Federal assistance program purposes with valid obligational authority under Federal law, Federal regulation, or Federal-State agreement. A Federal interest liability will accrue from the day a
