

§ 323.6

32 CFR Ch. I (7–1–10 Edition)

of a census record permitted by 13 U.S.C. 8.

(v) Investigatory material compiled solely for the purpose of determining suitability, eligibility, or qualifications for Federal civilian employment, Military Service, Federal contracts, or access to classified information, but only to the extent that the disclosure of such material would reveal the identity of a source who furnished information to the Government under an express promise that the source would be held in confidence, or prior to September 27 1975, under an implied promise that the identity of the source would be held in confidence.

(vi) Testing or examination material used solely to determine individual qualifications for appointment or promotion in the Federal service, the disclosure of which would compromise the objectivity or fairness of the testing or elimination process.

(vii) Evaluation material used to determine potential for promotion in the Military Services, but only the extent that the disclosure of such material would reveal the identity of a source who furnished information to the Government under an express promise that the identity of the source would be held in confidence or prior to September 27, 1975, under an implied promise that the identity of the source would be held in confidence. System managers will specify those categories of individuals for whom pledges of confidentiality may be made when obtaining information on an individual's suitability for promotion.

(viii) Exemption rules for DLA systems of records are published in appendix H of this part.

(1) *Matching Program Procedures.* The OMB has issued special guidelines to be followed in programs that match the personal records in the computerized data bases of two or more Federal agencies by computer (see appendix E). These guidelines are intended to strike a balance between the interest of the Government in maintaining the integrity of Federal programs and the need to protect individual privacy expectations. They do not authorize matching programs as such and each matching program must be justified individually in accordance with the OMB guidelines.

(1) Forward all requests for matching programs to include necessary routine use amendments and analysis and proposed matching program reports to DLA Support Services. Changes to existing matching programs shall be processed in the same manner as a new matching program report.

(2) No time limits are set by the OMB guidelines. However, in order to establish a new routine use for a matching program, the amended system notice must have been published in the FEDERAL REGISTER at least 30 days before implementation. Submit the documentation required above to DLA Support Services (DSS-CA) at least 60 days before the proposed initiation date of the matching program. Waivers to the 60 days' deadline may be granted for good cause shown. Requests for waivers will be in writing a fully justified.

(3) For the purpose of the OMB guidelines, DoD and all DoD Components are considered a single agency. Before initiating a matching program using only the records of two or more DoD activities, notify DLA Support Services (DSS-CA) that the match is to occur. Further information may be requested from the activity proposing the match.

(4) System managers shall review annually each system of records to determine if records from the system are being used in matching programs and whether the OMB Guidelines have been complied with.
