§ 644.409 Procedures for Interchange of National Forest Lands.

(a) General. The interchange of national forest lands is accomplished in three steps: first, agreement must be reached between the two departments involved as to which lands will be interchanged; second, the two departments will jointly notify the Speaker of the House of Representatives and the President of the Senate, by letter, of the intention of the two departments to make the interchange agreed upon; third, upon the expiration of 45 days from the date of submission of the notice of intention (counting only days occurring during any regular or special session of the Congress) the two secretaries will execute jointly and cause to be published in the FEDERAL REGISTER an order transferring the respective lands of each department to the other.

(b) Initiation of requests for interchange. Requests for interchange of lands may be originated by either the military department involved or the Department of Agriculture. Those originated by the Department of the Army may result from land requirements generated by newly authorized civil works or military construction projects or from authorized expansion of existing projects or as a result of property utilization surveys. Department of the Air Force requirements may develop similarly. When a request originates with the Department of the Air Force requirements may develop similarly. When a request originates with the Department of Agriculture pertaining to a civil works project or a military installation, it will be analyzed and coordinated with local representatives of the Department of Agriculture and the using service, as appropriate, to determine the feasibility of and need for the acquisition of any forest land to improve administration of the Army project or installation and the availability of Army lands for transfer to the Department of Agriculture. When coordinated analysis indicates the propriety of an interchange, an interchange planning report will be developed by the DE, in coordination with interested local elements of the two departments and submitted to HQDA (DAEN-FRIM) WASH DC 20314, with appropriate recommendations.

(c) Contents of interchange planning report. The planning report should include the following information:

1. Location of the areas proposed for interchange, including the county or municipality, names of the forest, project or installation, and number of acres to be interchanged by each department.

2. If the areas involved include public domain lands, the number and date of the Executive Order or Public Land Order by which withdrawn or established.

3. If the areas include acquired lands:
   (i) Approximate dates, methods and cost of acquisition of Department of the Army lands proposed for interchange.
   (ii) Interest, restrictions and reservations currently outstanding, to which the lands were subject when acquired, together with such rights subsequently granted by the Government and presently in force.

4. Any additional reservations, conditions or restrictions under which the interchange is to be made.

5. A map, in triplicate, indicating by appropriate color scheme the lands of each department which are to be transferred to the other.

6. An informal estimate of the current values of the areas to be interchanged.

7. Information upon which to base a determination by the two Secretaries that the interchange will facilitate land management and provide maximum use thereof for authorized purposes.

8. Any other information or data that might be helpful to representatives of the Department of the Army in answering pertinent questions that may be raised by the committees of Congress.

9. A draft of order of interchange prepared, in sextuplicate, in coordination with representatives of the Forest Service for execution jointly by the two Secretaries.

10. Recommendations of the District and Division Engineers.
(d) Relinquishment and assumption of possession. Upon notification by the Chief of Engineers that an order of interchange has been published, the DE will coordinate with local representatives of the Forest Service, and the using service if appropriate, the exchange of custody and accountability of the respective areas.

§ 644.410 Procedure for other transfers.

(a) Applicability—Exceptions. Sections 644.410 through 644.412 are applicable to all transfers of real and related personal property to other Federal agencies by the Army and Air Force except as provided above.

(b) Authority to execute—(1) Secretaries of the Army and Air Force. Instruments effecting the transfer of fee-owned land (except fee-owned land that has been reported to GSA and is transferred at the direction of GSA) will be executed at Secretarial level. The Secretary of the Army, or his designee, will execute instruments transferring Air Force land to other Federal agencies.

(2) Division and District Engineers will execute instruments transferring real property and related personal property to other Federal agencies: (i) Which has been reported to GSA and which is transferred at the direction of GSA; (ii) leaseholds, easements, and other lesser interests in lands; and (iii) buildings, fixtures, and other improvements.

§ 644.411 Form of inter-agency transfer instrument.

(a) Inter-agency transfer instruments will be prepared by the Chief of Engineers in either memorandum or letter form. The instruments will be prepared for signature of the Secretary of the transferring department and will be addressed to the Secretary of head of the receiving department or agency. The instrument will provide, as a minimum, the following: citation of statutory authority for the transfer; statement as to whether the transfer is made with or without reimbursement; statement of the reimbursement amount, if applicable; statement as to whether the requirements of 10 U.S.C. 2662 have been met or that the transfer is not subject thereto; statement as to the acreage of land involved; and, by means of an inclosure, a description of the property being transferred. Based on the circumstances and nature of the property, other appropriate data outlined below will be included in the instrument.

(1) Effective date of transfer (where right-of-entry has been granted or custody transferred, this date will be used.)

(2) Restrictions, conditions, reservations and exceptions, as necessary.

(3) When, where, how and by whom transfer of physical possession and accountability for the property will be accomplished.

(4) Location and proposed disposition of title papers pertaining to the property.

(5) Description of the land and copy of map depicting the property and reflecting its relation to retained property, if any, and to encumbrances such as rights-of-way, easements, and leaseholds.

(6) Instructions concerning payment of rent where a lease is involved. The transfer will be conditioned upon assumption of all obligations incurred in connection with the leasehold, including obligations to restore the premises.

(7) Instructions concerning removal and site restoration where buildings or timber, or sand and gravel, or other separable property is involved.

(8) Statement of source of title and cost of acquisition where land is involved. Reservations and exceptions in and to the Government’s title and easements and other rights in the property granted by the Government will be stated with particularity.

(9) List and description of buildings and improvements and cost of buildings and improvements not acquired with the land.

(10) A reference to excess or other directive making the property available for transfer when instrument is executed by District Engineer.

(11) Statement of responsibility and reimbursement for utility services.

(12) Reference to Report of Excess, Standard Form 118, where property has been reported to GSA.

(13) Other appropriate information.

(b) The DE will provide the data outlined in paragraph (a) of this section to HQDA (DAEN–REM) WASH DC 20314 for
