

Department of the Army, DoD

§ 644.473

Government is liable. The Government will restore the property to the condition existing at the time of first entry by the Government, except for reasonable and ordinary wear and tear, damage due to acts of God, or circumstances over which the Government has no control. The cost of restoration or settlement in lieu thereof will be limited as outlined in this subpart.

§ 644.466 Release and record of physical restoration.

The responsible DE, upon completion of restoration, will make every effort to obtain a release of further claims for damages. A complete record of all items of restoration and the cost will be kept for use at the final hearing in condemnation or in any collateral proceedings, in the event a release is not obtained. Where litigation is anticipated, photographic evidence of work performed will be obtained.

§ 644.467 Condition reports.

Survey and inspection reports covering the real estate, and inventory and condition reports covering the personal property located therein, made prior to first entry by the Government under condemnation proceeding, will be compared with the condition shown by similar reports made when the using service vacates the property.

§ 644.468 Settlement of claims.

Claims for damages or restoration filed in condemnation cases, when practicable, will be settled in the condemnation proceeding to avoid separate suit by the owner to recover compensation to which he may be entitled. In such cases request will be made of DAEN-REA-C to have the proceeding amended to enlarge the issues to include restoration.

§§ 644.469–644.471 [Reserved]

DISPOSAL OF BUILDINGS AND OTHER IMPROVEMENTS (WITHOUT THE RELATED LAND)

§ 644.472 Authority.

Under authority vested in the GSA by the Federal Property Act, and the delegation of such authority made by

GSA in FPMR 101–47.302–2, the Department of the Army is designated as the disposal agency for the following property:

(a) Leases, permits, licenses, easements, and similar real estate interests held by the government in non-Government-owned property (including Government-owned improvements located on the premises), except when it is determined by either the holding agency or GSA that the Government's interest will be best served by the disposal of such real estate interests together with other property owned or controlled by the Government, that has been or is being reported to GSA as excess; and

(b) Fixtures, structures, and improvements of any kind to be disposed of without the underlying land.

§ 644.473 Methods of disposal.

Excess buildings and other improvements may be disposed of by the following methods:

(a) By demolition for utilization of salvage materials in the overall Army or Air Force construction or maintenance program. Screening with other military departments is not necessary for this purpose.

(b) By transfer to another Federal agency.

(c) By assignment to the Department of HEW for disposal for health or educational purposes pursuant to section 203k(1) of the Federal Property Act (FPMR 101–47.308–4).

(d) By sale intact for removal from site to the most appropriate of the following, according to the circumstances:

(1) Eligible public agencies (§§ 644.400 through 644.443 and §§ 644.540 through 644.557).

(2) Boy Scouts of America (§§ 644.540 through 644.557).

(3) Military chapel buildings and chapel equipment to nonprofit organizations for use, first as a shrine or memorial and, second as a denominational house of worship.

(4) Owner of the underlying land as a part of restoration settlement where disposal of a leasehold is involved.

(5) An emergency plant facilities contractor.

(6) The general public, through competitive bidding, unless special circumstances warrant a negotiated sale for a specific purpose.

(e) By donation, abandonment or destruction.

§ 644.474 Determining method of disposal.

DE's are designees of the Chief of Engineers under AR 405-90 to determine the method of disposal authorized by law or regulations which is most advantageous to the Government. Where alternatives are presented, there will be an affirmative finding that the method of disposal approved is most advantageous. In the exercise of this authority, due consideration will be given to the effect of particular methods of disposal on safety and sanitation in the area, the proposed or probable future utilization of Government-owned sites by the Government, or in the case of leased lands, the restoration obligations of the Government under the lease. In order to assure consideration of these factors, disposals by transfer to other Government agencies or by sale intact will be brought to the attention of the installation commander or his representative prior to initiation of disposal action. Reasonable requirements for site clearance consistent with the foregoing criteria should be favorably considered and disposal conditioned accordingly, notwithstanding the fact that such action may result in a greater burden to transferee agencies or, in the case of disposal by sale intact, may result in a reduction in the monetary return which might be reasonably expected in a sale involving less stringent site clearance requirements. DAEN-REM will be informed of any instances of excessive or unreasonable requirements with respect to site clearance. The DE will determine by inspection and survey the method to be used in disposal of buildings and improvements.

§ 644.475 Excessing Army military and Air Force property.

The procedures for placing buildings and improvements in excess status are set forth in AR 405-90 and AFR 87-4. In instances of land acquisition where buildings and improvements were ac-

quired incident thereto, DEs are designated by the Chief of Engineers under AR 405-90 to make disposition of this property. Coordination with the installation commander concerned is required. When, under AFR 87-4, the responsible DE is called upon by the Air Force Command to furnish an estimate of the value of buildings and improvements for the purpose of determining the approval authority for excessing the property, no formal appraisal will be made. If, in his opinion, the total property exceeds a value of \$50,000, he will furnish only a rough estimate of its value in round figures. If the property is, in his opinion, of a value of \$50,000 or less, he will limit his statement to this fact and will not specify an estimated valuation.

§ 644.476 Excessing civil works property.

The DE are authorized to approve the disposal of buildings and improvements acquired incidental to the acquisition of land in reservoir areas, regardless of the original cost thereof, when they are in the way of authorized construction or when the land upon which they are located is to be permanently or frequently inundated. DEs may authorize the disposal of buildings and other improvements in any one or more of the following categories, which are located on lands which are not excess and which are not expected to become excess, and the sale is to be made after advertising:

(a) Buildings or improvements on land acquired by the Government determined to be available for disposal pursuant to ER 735-2-1 (Property Accounting Procedures-Civil).

(b) Buildings or improvements which cannot be kept in repair at a reasonable cost.

(c) Buildings or improvements which are dangerous to life or likely to damage adjoining structures or have become hazardous or nuisances.

(d) Buildings or improvements which are damaged or unsuitable for public service.

(e) Buildings or improvements constructed by the Federal Government which occupy or interfere with sites for new construction or for other civil works purposes.
