what constitutes a tract will be based on ownership of the surface. However, in unusual cases where such a contiguous area is composed of several parcels derived through separate chains of title and requiring separate searches of each chain of title down to a comparatively recent date or where such contiguous area lies in more than one section, the Contracting Officer may contract to pay a specified reasonable additional charge for each such additional chain or section if such additional charge is customary in the locality where the land lies.

(c) *Type of Title Evidence.* The order will set forth the type of evidence to be furnished. When abstracts are contracted for, the following rules will be observed:

§ 644.66 Payment for title services.

(a) *Approval.* The Contracting Officer will approve payment for all title evidence obtained in connection with the acquisition of land from funds available to the Division or District Engineer for that purpose, whether the land is acquired by purchase or condemnation.

(b) *Review.* When abstracts are furnished on a per-item or per-page basis, the contents must be carefully reviewed by a qualified representative of the Division or District Engineer, to insure that bills are not excessive and that abstracts do not include superfluous material. Where erroneous or superfluous material is included in abstract, the bills involved will be corrected so that payment for such material is not made. All title evidence will be examined to determine that there has been full compliance with the specifications.

(c) *Payment for title evidence.* Payments for title evidence will be made by the Contracting Officer from available funds for the project to which the
