

§ 2400.10

the Director of the Information Security Oversight Office.

(b) Foreign government information need not fall within any other classification category listed in paragraph (a) of this section to be classified.

(c) Certain information which would otherwise be unclassified may require classification when combined or associated with other unclassified or classified information. Classification on this basis shall be fully supported by a written explanation that, at a minimum, shall be maintained with the file or referenced on the record copy of the information.

(d) Information classified in accordance with this section shall not be declassified automatically as a result of any unofficial publication or inadvertent or unauthorized disclosure in the United States or abroad of identical or similar information. Following an inadvertent or unauthorized publication or disclosure of information identical or similar to information that has been classified in accordance with Executive Order 12356 or predecessor orders, OSTP, if the agency of primary interest, shall determine the degree of damage to the national security, the need for continued classification, and in coordination with the agency in which the disclosure occurred, what action must be taken to prevent similar occurrences. If the agency of primary interest is other than OSTP, the matter shall be referred to that agency.

§ 2400.10 Presumption of damage.

Unauthorized disclosure of foreign government information, the identity of a confidential foreign source, or intelligence sources or methods, is presumed to cause damage to the national security.

§ 2400.11 Duration of classification.

(a) Information shall be classified as long as required by national security considerations. When it can be determined, a specific date or event for declassification shall be set by the original classification authority at the time the information is originally classified.

(b) Automatic declassification determinations under predecessor Executive Orders shall remain valid unless the

32 CFR Ch. XXIV (7-1-10 Edition)

classification is extended by an authorized official of the originating agency. These extensions may be by individual documents or categories of information. The originating agency shall be responsible for notifying holders of the information of such extensions.

(c) Information classified under predecessor Executive Orders and marked for declassification review shall remain classified until reviewed for declassification under the provisions of Executive Order 12356.

(d) Information classified under predecessor Executive Orders that does not bear a specific date or event for declassification shall remain classified until reviewed for declassification. The authority to extend the classification of information subject to automatic declassification under predecessor Orders is limited to those officials who have classification authority over the information and are designated in writing to have original classification authority at the level of the information to remain classified. Any decision to extend this classification on other than a document-by-document basis shall be reported to the Director of the Information Security Oversight Office.

§ 2400.12 Identification and markings.

(a) At the time of original classification, the following information shall be shown on the face of all classified documents, or clearly associated with other forms of classified information in a manner appropriate to the medium involved, unless this information itself would reveal a confidential source or relationship not otherwise evident in the document or information:

(1) One of the three classification levels defined in § 2400.6 of this part;

(2) The identity of the original classification authority if other than the person whose name appears as the approving or signing official;

(3) The agency and office of origin; and

(4) The date or event for declassification, or the notation "Originating Agency's Determination Required."

(b) Each classified document shall, by marking or other means, indicate which portions are classified, with the applicable classification level, and which portions are not classified. The

Director OSTP may, for good cause, grant and revoke waivers of this requirement for specified classes of documents or information. The Director of the Information Security Oversight Office shall be notified of any waivers.

(c) Marking designations implementing the provisions of Executive Order 12356, including abbreviations, shall conform to the standards prescribed in Directive No. 1 issued by the Information Security Oversight Office.

(d) Foreign government information shall either retain its original classification or be assigned a United States classification that shall ensure a degree of protection at least equivalent to that required by the entity that furnished the information.

(e) Information assigned a level of classification under predecessor Executive Orders shall be considered as classified at that level of classification despite the omission of other required markings. Omitted markings may be inserted on a document by the officials specified in § 2400.18 of this part.

§ 2400.13 Limitations on classification.

(a) In no case shall information be classified in order to conceal violations of law, inefficiency, or administrative error; to prevent embarrassment to a person, organization, or agency; to restrain competition; or to prevent or delay the release of information that does not require protection in the interest of national security.

(b) Basic scientific research information not clearly related to the national security may not be classified.

(c) The Director may reclassify information previously declassified and disclosed if it is determined in writing that (1) the information requires protection in the interest of national security; and (2) the information may reasonably be recovered. These reclassification actions shall be reported promptly to the Director of the Information Security Oversight Office. Before reclassifying any information, the Director shall consider the factors listed in § 2001.6 of Directive No. 1, which shall be addressed in the report to the Director of the Information Security Oversight Office.

(d) Information may be classified or reclassified after OSTP has received a

request for it under the Freedom of Information Act (5 U.S.C. 552a) or the Privacy Act of 1974 (5 U.S.C. 552), or the mandatory review provisions of Executive Order 12356 (section 3.4) if such classification meets the requirements of this Order and is accomplished personally and on a document-by-document basis by the Director.

Subpart C—Derivative Classification

§ 2400.14 Use of derivative classification.

(a) Derivative classification is (1) the determination that information is in substance the same as information currently classified, and (2) the application of the same classification markings. Persons who only reproduce, extract, or summarize classified information, or who only apply classification markings derived from source material or as directed by a classification guide, need not possess original classification authority. If a person who applies derivative classification markings believes that the paraphrasing, restating, or summarizing of classified information has changed the level of or removed the basis for classification, that person must consult an appropriate official of the originating agency or office of origin who has the authority to declassify, downgrade or upgrade the information.

(b) Persons who apply derivative classification markings shall:

(1) Observe and respect original classification decisions; and

(2) Carry forward to any newly created documents any assigned authorized markings. The declassification date or event that provides the longest period of classification shall be used for documents classified on the basis of multiple sources.

§ 2400.15 Classification guides.

(a) OSTP shall issue and maintain classification guides to facilitate the proper and uniform derivative classification of information. These guides shall be used to direct derivative classification.

(b) The classification guides shall be approved, in writing, by the Director or by officials having Top Secret original
