§ 117.1058 Snake River.

(a) The draw of the Burlington Northern Santa Fe railroad bridge across the Snake River at mile 1.5 between Pasco and Burbank is automated and is normally maintained in the fully open to navigation position.

(b) Lights. All lights required for automated operation shall be visible for a distance of at least 2 miles and shall be displayed at all times, day and night.

(1) When the draw is fully open, a steady green light shall be displayed at the center of the drawspan on both upstream and downstream sides.

(2) When the draw is not fully open, a steady red light shall be displayed at the center of the drawspan on both upstream and downstream sides.

Red lights shall continue to be displayed until the train has crossed and the drawspan is again in the fully open position. At that time, the red lights shall change green.

(d) Vessels equipped with radiotelephones may contact Burlington Northern Santa Fe to obtain information on the status of the bridge. Bridge status information also may be obtained by calling the commercial telephone number posted at the drawspan of the bridge.
