

§ 303.343

34 CFR Ch. III (7-1-10 Edition)

(c) *Annual meeting to evaluate the IFSP.* A meeting must be conducted on at least an annual basis to evaluate the IFSP for a child and the child's family, and, as appropriate, to revise its provisions. The results of any current evaluations conducted under §303.322(c), and other information available from the ongoing assessment of the child and family, must be used in determining what services are needed and will be provided.

(d) *Accessibility and convenience of meetings.* (1) IFSP meetings must be conducted—

(i) In settings and at times that are convenient to families; and

(ii) In the native language of the family or other mode of communication used by the family, unless it is clearly not feasible to do so.

(2) Meeting arrangements must be made with, and written notice provided to, the family and other participants early enough before the meeting date to ensure that they will be able to attend.

(e) *Parental consent.* The contents of the IFSP must be fully explained to the parents and informed written consent from the parents must be obtained prior to the provision of early intervention services described in the plan. If the parents do not provide consent with respect to a particular early intervention service or withdraw consent after first providing it, that service may not be provided. The early intervention services to which parental consent is obtained must be provided.

(Approved by the Office of Management and Budget under control number 1820-0550)

(Authority: 20 U.S.C. 1436)

NOTE: The requirement for the annual evaluation incorporates the periodic review process. Therefore, it is necessary to have only one separate periodic review each year (i.e., six months after the initial and subsequent annual IFSP meetings), unless conditions warrant otherwise.

Because the needs of infants and toddlers change so rapidly during the course of a year, certain evaluation procedures may need to be repeated before conducting the periodic reviews and annual evaluation meetings in paragraphs (b) and (c) of this section.

§ 303.343 Participants in IFSP meetings and periodic reviews.

(a) *Initial and annual IFSP meetings.*

(1) Each initial meeting and each annual meeting to evaluate the IFSP must include the following participants:

(i) The parent or parents of the child.

(ii) Other family members, as requested by the parent, if feasible to do so;

(iii) An advocate or person outside of the family, if the parent requests that the person participate.

(iv) The service coordinator who has been working with the family since the initial referral of the child for evaluation, or who has been designated by the public agency to be responsible for implementation of the IFSP.

(v) A person or persons directly involved in conducting the evaluations and assessments in §303.322.

(vi) As appropriate, persons who will be providing services to the child or family.

(2) If a person listed in paragraph (a)(1)(v) of this section is unable to attend a meeting, arrangements must be made for the person's involvement through other means, including—

(i) Participating in a telephone conference call;

(ii) Having a knowledgeable authorized representative attend the meeting; or

(iii) Making pertinent records available at the meeting.

(b) *Periodic review.* Each periodic review must provide for the participation of persons in paragraphs (a)(1)(i) through (a)(1)(iv) of this section. If conditions warrant, provisions must be made for the participation of other representatives identified in paragraph (a) of this section.

(Approved by the Office of Management and Budget under control number 1820-0550)

(Authority: 20 U.S.C. 1436(b))

§ 303.344 Content of an IFSP.

(a) *Information about the child's status.*

(1) The IFSP must include a statement of the child's present levels of physical development (including vision, hearing,

and health status), cognitive development, communication development, social or emotional development, and adaptive development.

(2) The statement in paragraph (a)(1) of this section must be based on professionally acceptable objective criteria.

(b) *Family information.* With the concurrence of the family, the IFS must include a statement of the family's resources, priorities, and concerns related to enhancing the development of the child.

(c) *Outcomes.* The IFSP must include a statement of the major outcomes expected to be achieved for the child and family, and the criteria, procedures, and timeliness used to determine—

(1) The degree to which progress toward achieving the outcomes is being made; and

(2) Whether modifications or revisions of the outcomes or services are necessary.

(d) *Early intervention services.* (1) The IFSP must include a statement of the specific early intervention services necessary to meet the unique needs of the child and the family to achieve the outcomes identified in paragraph (c) of this section, including—

(i) The frequency, intensity, and method of delivering the services;

(ii) The natural environments, as described in §303.12(b), and §303.18 in which early intervention services will be provided, and a justification of the extent, if any, to which the services will not be provided in a natural environment;

(iii) The location of the services; and

(iv) The payment arrangements, if any.

(2) As used in paragraph (d)(1)(i) of this section—

(i) *Frequency* and *intensity* mean the number of days or sessions that a service will be provided, the length of time the service is provided during each session, and whether the service is provided on an individual or group basis; and

(ii) *Method* means how a service is provided.

(3) As used in paragraph (d)(1)(iii) of this section, *location* means the actual place or places where a service will be provided.

(e) *Other services.* (1) To the extent appropriate, the IFSP must include—

(i) Medical and other services that the child needs, but that are not required under this part; and

(ii) The funding sources to be used in paying for those services or the steps that will be taken to secure those services through public or private sources.

(2) The requirement in paragraph (e)(1) of this section does not apply to routine medical services (e.g., immunizations and “well-baby” care), unless a child needs those services and the services are not otherwise available or being provided.

(f) *Dates; duration of services.* The IFSP must include—

(1) The projected dates for initiation of the services in paragraph (d)(1) of this section as soon as possible after the IFSP meetings described in §303.342; and

(2) The anticipated duration of those services.

(g) *Service coordinator.* (1) The IFSP must include the name of the service coordinator from the profession most immediately relevant to the child's or family's needs (or who is otherwise qualified to carry out all applicable responsibilities under this part), who will be responsible for the implementation of the IFSP and coordination with other agencies and persons.

(2) In meeting the requirements in paragraph (g)(1) of this section, the public agency may—

(i) Assign the same service coordinator who was appointed at the time that the child was initially referred for evaluation to be responsible for implementing a child's and family's IFSP; or

(ii) Appoint a new service coordinator.

(3) As used in paragraph (g)(1) of this section, the term *profession* includes “service coordination.”

(h) *Transition from Part C services.* (1) The IFSP must include the steps to be taken to support the transition of the child, in accordance with §303.148, to—

(i) Preschool services under Part B of the Act, to the extent that those services are appropriate; or

(ii) Other services that may be available, if appropriate.

(2) The steps required in paragraph (h)(1) of this section include—

(i) Discussions with, and training of, parents regarding future placements and other matters related to the child’s transition;

(ii) Procedures to prepare the child for changes in service delivery, including steps to help the child adjust to, and function in, a new setting; and

(iii) With parental consent, the transmission of information about the child to the local educational agency, to ensure continuity of services, including evaluation and assessment information required in § 303.322, and copies of IFSPs that have been developed and implemented in accordance with §§ 303.340 through 303.346.

(Approved by the Office of Management and Budget under control number 1820–0550)

(Authority: 20 U.S.C. 1436(d))

NOTE 1: With respect to the requirements in paragraph (d) of this section, the appropriate location of services for some infants and toddlers might be a hospital setting—during the period in which they require extensive medical intervention. However, for these and other eligible children, early intervention services must be provided in natural environments (e.g., the home, child care centers, or other community settings) to the maximum extent appropriate to the needs of the child.

NOTE 2: Throughout the process of developing and implementing IFSPs for an eligible child and the child’s family, it is important for agencies to recognize the variety of roles that family members play in enhancing the child’s development. It also is important that the degree to which the needs of the family are addressed in the IFSP process is determined in a collaborative manner with the full agreement and participation of the parents of the child. Parents retain the ultimate decision in determining whether they, their child, or other family members will accept or decline services under this part.

NOTE 3: The early intervention services in paragraph (d) of this section are those services that a State is required to provide to a child in accordance with § 303.12.

The “other services” in paragraph (e) of this section are services that a child or family needs, but that are neither required nor covered under this part. While listing the non-required services in the IFSP does not mean that those services must be provided, their identification can be helpful to both the child’s family and the service coordinator, for the following reasons: First, the IFSP would provide a comprehensive picture of the child’s total service needs (including the need for medical and health services, as well as early intervention services). Second, it is appropriate for the service coordinator

to assist the family in securing the non-required services (e.g., by (1) determining if there is a public agency that could provide financial assistance, if needed, (2) assisting in the preparation of eligibility claims or insurance claims, if needed, and (3) assisting the family in seeking out and arranging for the child to receive the needed medical-health services).

Thus, to the extent appropriate, it is important for a State’s procedures under this part to provide for ensuring that other needs of the child, and of the family related to enhancing the development of the child, such as medical and health needs, are considered and addressed, including determining (1) who will provide each service, and when, where, and how it will be provided, and (2) how the service will be paid for (e.g., through private insurance, an existing Federal-State funding source, such as Medicaid or EPSDT, or some other funding arrangement).

NOTE 4: Although the IFSP must include information about each of the items in paragraphs (b) through (h) of this section, this does not mean that the IFSP must be a detailed, lengthy document. It might be a brief outline, with appropriate attachments that address each of the points in the paragraphs under this section. It is important for the IFSP itself to be clear about (a) what services are to be provided, (b) the actions that are to be taken by the service coordinator in initiating those services, and (c) what actions will be taken by the parents.

[58 FR 40959, July 30, 1993, as amended at 63 FR 18295, Apr. 14, 1998; 64 FR 12536, Mar. 12, 1999]

§ 303.345 Provision of services before evaluation and assessment are completed.

Early intervention services for an eligible child and the child’s family may commence before the completion of the evaluation and assessment in § 303.322, if the following conditions are met:

- (a) Parental consent is obtained.
- (b) An interim IFSP is developed that includes—

(1) The name of the service coordinator who will be responsible, consistent with § 303.344(g), for implementation of the interim IFSP and coordination with other agencies and persons; and

(2) The early intervention services that have been determined to be needed immediately by the child and the child’s family.
