

§ 3.384

(5) Permanent service-connected disability of one lung, rated 50 percent or more disabling, in combination with a nonservice-connected disability of the other lung.

(b) *Effect of judgment or settlement.* (1) If a veteran receives any money or property of value pursuant to an award in a judicial proceeding based upon, or a settlement or compromise of, any cause of action for damages for the nonservice-connected disability which established entitlement under this section, the increased compensation payable by reason of this section shall not be paid for any month following the month in which any such money or property is received until such time as the total amount of such increased compensation that would otherwise have been payable equals the total of the amount of any such money received and the fair market value of any such property received. The provisions of this paragraph do not apply, however, to any portion of such increased compensation payable for any period preceding the end of the month in which such money or property of value was received.

(2) With respect to the disability combinations specified in paragraphs (a)(1), (a)(2), (a)(3) and (a)(5) of this section, the provisions of this paragraph apply only to awards of increased compensation made on or after October 28, 1986.

(c) *Social security and workers' compensation.* Benefits received under social security or workers' compensation are not subject to recoupment under paragraph (b) of this section even though such benefits may have been awarded pursuant to a judicial proceeding.

(d) *Veteran's duty to report.* Any person entitled to increased compensation under this section shall promptly report to VA the receipt of any money or property received pursuant to a judicial proceeding based upon, or a settlement or compromise of, any cause of action or other right of recovery for damages for the nonservice-connected loss or loss of use of the impaired extremity upon which entitlement under this section is based. The amount to be reported is the total of the amount of money received and the fair market
