Department of Veterans Affairs

§4.88c Ratings for inactive nonpulmonary tuberculosis initially entitled after August 19, 1968.

	Rat- ing
For 1 year after date of inactivity, following active tu- berculosis	100
Thereafter: Rate residuals under the specific body system or systems affected	
system or systems affected. Following the total rating for the 1 year period after date of inactivity, the schedular evaluation for re- siduals of nonpulmonary tuberculosis, <i>i.e.</i> , anky- losis, surgical removal of a part, etc., will be as- signed under the appropriate diagnostic code for tuberculosis of the body part affected. For exam- ple, tuberculosis of the hip joint with residual anky- losis would be coded 5001–5250. Where there are existing residuals of pulmonary and nonpulmonary conditions, the evaluations for residual separate functional impairment may be combined. Where there are existing pulmonary and nonpul- monary conditions, the total rating for the 1 year, after attainment of inactivity, may not be applied to both conditions during the same period. However, the total rating during the 1-year period for the pul- monary or for the nonpulmonary condition will be utilized, combined with evaluation for residuals of the part of the nonpulmonary condition will be	
the condition not covered by the 1-year total eval- uation, so as to allow any additional benefit pro- vided during such period.	

 $[34\ {\rm FR}\ 5062,\ {\rm Mar.}\ 11,\ 1969.\ {\rm Redesignated}\ at\ 59\ {\rm FR}\ 60902,\ {\rm Nov.}\ 29,\ 1994]$

§4.89 Ratings for inactive nonpulmonary tuberculosis in effect on August 19, 1968.

Public Law 90-493 repealed section 356 of title 38, United States Code which provided graduated ratings for inactive tuberculosis. The repealed section, however, still applies to the case of any veteran who on August 19, 1968, was receiving or entitled to receive compensation for tuberculosis. The use of the protective provisions of Pub. L. 90-493 should be mentioned in the discussion portion of all ratings in which these provisions are applied. For use in rating cases in which the protective provisions of Pub. L. 90-493 apply, the former evaluations are retained in this section.

	Rat- ing
For 2 years after date of inactivity, following active tuberculosis, which was clinically identified during	
service or subsequently	100
Thereafter, for 4 years, or in any event, to 6 years	
after date of inactivity	50
Thereafter, for 5 years, or to 11 years after date of	
inactivity	30
Thereafter, in the absence of a schedular compen-	
sable permanent residual	0

3	-	.,	υ.

	Rat- ing
Following the total rating for the 2-year period after date of inactivity, the schedular evaluation for re- siduals of nonpulmonary tuberculosis, <i>i.e.</i> , anky- losis, surgical removal of a part, etc., if in excess of 50 percent or 30 percent will be assigned under the appropriate diagnostic code for the specific re- sidual preceded by the diagnostic code for tuber- culosis of the body part affected. For example, tu- berculosis of the hipjoint with residual ankylosis would be coded 5001–5250. The graduated ratings for nonpulmonary tuberculosis will not be combined with residuals of nonpul- monary tuberculosis unless the graduated rating and the rating for residual disability cover separate functional losses, e.g., graduated ratings for tuber- culosis of the kidney and residuals of tuberculosis of the spine. Where there are existing pulmonary and nonpulmonary conditions, the graduated eval- uation for the pulmonary, or for the nonpulmonary, condition will be utilized, combined with evalua- tions for residuals of the condition not covered by the graduated evaluation utilized, so as to provide the higher evaluation over such period. The ending dates of all graduated ratings of nonpul- monary tuberculosis will be controlled by the date of attainment of inactivity. These ratings are applicable only to veterans with nonpulmonary tuberculosis active on or after Octo-	
ber 10, 1949.	

[29 FR 6718, May 22, 1964, as amended at 34 FR 5062, Mar. 11, 1969; 43 FR 45361, Oct. 2, 1978]

THE RESPIRATORY SYSTEM

§ 4.96 Special provisions regarding evaluation of respiratory conditions.

(a) Rating coexisting respiratory conditions. Ratings under diagnostic codes 6600 through 6817 and 6822 through 6847 will not be combined with each other. Where there is lung or pleural involvement, ratings under diagnostic codes 6819 and 6820 will not be combined with each other or with diagnostic codes 6600 through 6817 or 6822 through 6847. A single rating will be assigned under the diagnostic code which reflects the predominant disability with elevation to the next higher evaluation where the severity of the overall disability warrants such elevation. However, in cases protected by the provisions of Pub. L. 90-493, the graduated ratings of 50 and 30 percent for inactive tuberculosis will not be elevated.

(b) Rating "protected" tuberculosis cases. Public Law 90-493 repealed section 356 of title 38, United States Code which had provided graduated ratings for inactive tuberculosis. The repealed
