records of the participant agencies in order to monitor compliance with the agreement.

(2) *Approval.* Before the Postal Service may participate in a computer matching program or other computer matching activity that involves both USPS and non-USPS records, the Data Integrity Board must have evaluated the proposed match and approved the terms of the matching agreement. To be effective, the matching agreement must receive approval by each member of the Board. Votes are collected by the Postal Service Manager Records Office. Agreements are signed on behalf of the Board by the Chairman. If a matching agreement is disapproved by the Board, any party may appeal the disapproval in writing to the Director, Office of Management and Budget, Washington, DC 20503-0001, within 30 days following the Board's written disapproval.

(3) *Effective dates.* No matching agreement is effective until 40 days after the date on which a copy is sent to Congress. The agreement remains in effect only as long as necessary to accomplish the specific matching purpose, but no longer than 18 months, at which time the agreement expires unless extended. The Data Integrity Board may extend an agreement for one additional year, without further review, if within 3 months prior to expiration of the 18-month period it finds that the matching program is to be conducted without change, and each party to the agreement certifies that the program has been conducted in compliance with the matching agreement. Renewal of a continuing matching program that has run for the full 30-month period requires a new agreement that has received Data Integrity Board approval.
