§ 52.2422 [Reserved]

§ 52.2423 Approval status.

(a) With the exceptions set forth in this subpart, the Administrator approves Virginia's plan for the attainment and maintenance of the national standards. The State included a provision dealing with open burning in its submittal of August 10, 1973. This provision was included for information purposes only and was not to be considered a part of the plan to implement national standards. Accordingly, this additional provision is not considered a part of the applicable plan.

(b)-(c) [Reserved]

(d) The portion of the January 11, 1979 SIP submittal pertaining to Smyth County is not approved, pending a possible redesignation of the area to attainment status.

(e) The requirements of § 51.22 are not met with respect to section 4.55(b) of the Virginia regulations, because the regulation is not adequately enforceable. Therefore, section 4.55(b) is disapproved.

(f) Section 9 VAC 5-40-20.A.3. of the Virginia Regulations for the Control and Abatement of Air Pollution is not considered part of the applicable plan because it contradicts a previously approved section of the SIP.

(g) Section 4.31(d)(3) of Part IV of the Virginia Regulations for the Control and Abatement of Air Pollution is not considered part of the applicable plan because the substitute criteria, listed in section 4.31(d)(3), contain inherent variations in quality control which do not present an accurate representation of collection efficiency.

(h) In an April 19, 1991 request submitted by the Virginia Department of Air Pollution Control, the source-specific emission limitation for James River Paper which EPA had approved on August 18, 1983 is deleted. James River Paper Co. (now known as Custom Papers Group—Richmond, Inc.) located in Richmond, Virginia is now required to comply with the applicable Virginia SIP paper coating regulation.

(i) Pursuant to an October 31, 1991 request submitted by the Virginia Department of Air Pollution Control, the source-specific Alternate Control Program (bubble) for J.W. Fergusson & Sons, Inc. which EPA had approved on March 4, 1983, is removed from the plan. J.W. Fergusson & Sons, Inc. located in Richmond, Virginia is required to comply with the Virginia SIP graphic arts RACT regulation approved by EPA on January 25, 1984 (see 40 CFR 52.2420 (c)(48) and (c)(74)).

(j) Letter of January 25, 1993, from the Commonwealth of Virginia transmitting a commitment to adopt either the Federal clean fuel fleet program or an alternative substitute program by May 15, 1994.

(k) The maintenance plan SIP revision, and request to redesignate the Richmond moderate ozone nonattainment area to attainment were submitted on November 12, 1992, by the Department of Environmental Quality. These requests are disapproved because review of the 1993 ambient air quality data monitored during the 1993 ozone season indicated that a violation of the ozone NAAQS occurred at the Charles City monitor in the Richmond nonattainment area. Because of the registered violation during the 1993 ozone
