
(a) It shall be the policy to procure commercially available motor vehicles, unless other vehicles are specifically required.

(b) New sedans, station wagons, and light trucks (other than those to be used for law enforcement or where other than standard vehicles are required) shall be procured as follows: Sedans, class IIB-subcompact or II-compact; station wagons, class I-subcompact or class II compact vehicles, as described in Federal standard No. 122; and light trucks as defined in Federal standard Nos. 292 and 307. (Federal standard Nos. 122, 292, and 307 as used in this section mean the latest editions.)

Requisitions submitted to GSA for motor vehicles shall be in conformance with the requirements of subsection 101–38.1.

(1) Standard passenger vehicles as defined in Federal standard No. 122 are considered to be completely equipped for ordinary operation and are subject to the maximum statutory price limitation.

(2) Items (vehicles) included in Federal standard No. 122 other than those listed as standard (basic units) are considered to be equipped with additional systems and equipment for passenger vehicles.

(c) Requisitions submitted to GSA for the acquisition of new passenger vehicles and light trucks under 8500 GVWR (gross vehicle weight rating) shall be in conformance with Pub. L. 94–163 and Executive Order 12375.

(d) New trucks and buses shall be requisitioned in accordance with the provisions of this §101–26.501 and the following:

(1) Light trucks shall be in accordance with Federal standard Nos. 292 and 307; and

(2) Medium and heavy trucks and buses, when not procured from standardized buying programs, shall be in accordance with the latest editions of Federal standard No. 794, Federal specification Nos. KKK-T-2107, 2108, 2109, 2110, 2111, and Federal specification No. KKK-B-1579. Standardized buying programs shall be based on these specifications as appropriate.

(e) Selection of additional systems or equipment in new vehicles shall be made by the requiring agency and shall be based on the need to provide for overall safety, efficiency, economy, and suitability of the vehicle for the purposes intended pursuant to §101–38.104–2.

(1) The essentiality of such systems or equipment shall be weighed against the economic factors involved, the potential benefits to be derived therefrom, and the impact on the fuel consumption characteristics of the vehicle.

(2) Additional systems or equipment requested to be purchased by GSA will be construed to have been determined

Except as provided for the Department of Defense (DOD) in paragraph (a) of this section, each executive agency shall submit to GSA for procurement its orders for purchase in the United States of all new passenger motor vehicles (FSC 2310), trucks or truck tractors (FSC 2320), trailers (FSC 2330), vans (with payload of not less than 5,000 nor more than 50,000 pounds), and firetrucks and firefighting trailers (FSC 4210). Specifically included are sedans, station wagons, carryalls, ambulances, buses, and trucks, including trucks with specialized mounted equipment, bulk tanker trailers with special purpose bodies, and all van-type trailers (with payload of not less than 5,000 nor more than 50,000 pounds).

(a) DOD shall submit to GSA for procurement its orders for purchase in the United States for all non-tactical vehicles including, but not limited to, commercial-type passenger motor vehicles (FSC 2310), including buses, and trucks and truck tractors (FSC 2320).

(b) When it is determined by the ordering activity that requirements for passenger motor vehicles and trucks indicate the need for procurement by buying activities other than GSA, a request for waiver justifying the procurement shall be submitted in writing to the General Services Administration (FCA), Washington, DC 20406. GSA will notify agencies in writing whether a waiver has been granted. Justification may be based on the urgency of need or the fact that the vehicle has unique characteristics, such as special purpose body or equipment, requiring the agency personnel to closely supervise installation of the equipment by the contractor; e.g., when a medical van is to be equipped with government- or contractor-supplied equipment. Requests for procurement through sources other than GSA will be handled on an individual basis provided full justification is submitted therefore.

(c) When it is determined by GSA that procurement of an individual agency requirement by GSA would offer no advantage over local purchase of the item, GSA may grant the ordering activity authority for local purchase. When such a determination is made, the order will be returned to the ordering agency with written authority for local purchase.

Wherever practical, requirements for motor vehicles will be satisfied under existing standardized buying programs (Indefinite Quantity, Requirements, Federal Supply Schedule contracts). Agencies not familiar with these programs, or seeking additional information about them, are encouraged to contact the GSA Automotive Commodity Center prior to submitting their orders.

(a) Requirements contracts are in place or anticipated to be in place for the following types of standard motor vehicles:

   (1) Medium and heavy trucks:
      (i) 4×2 and 6×4 cab-chassis, stake, van, dump, and truck-tractor; 19,000 to 60,000 pounds GVWR.
      (ii) 4×4 and 6×4 cab-chassis, stake, dump, and truck-tractor; 26,000 to 52,000 pounds GVWR.
      (iii) 1,200 and 2,000 gallon fuel servicing vehicles; and 2,000 gallon aircraft refueler.

   (2) Ambulances (in accordance with Federal Specification No. KKK-A-1822):
      Type I, modular body on cab-chassis; Type II, van body with raised roof; Type III, modular body on van cutaway chassis.

   (3) Buses and mini-buses, including school buses:
      (i) 32 to 44 adult passenger; 48 to 66 school age passenger.
      (ii) 12 to 28 adult passenger; 24 to 42 school age passenger.

   (4) Sedans and station wagons (based on standardized, consolidated requirements).
