§ 136a.14 Reconsideration and appeals.

(a) Any person who has applied for and been denied health services or eligibility by the IndianHealth Service or by any contractor contracting to administer an Indian Health Service program or portion of a program, including tribes and tribal organizations contracting under the Indian Self-Determination Act, shall be notified of the denial in writing together with a statement of all the reasons for the denial. The notice shall advise the applicant that within 30 days from the receipt of the notice the applicant.

(b) If the original decision is affirmed on reconsideration, the applicant shall be so notified in writing and advised that an appeal may be taken to the area or program director within 30 days of receipt of the notice of the reconsidered decision. The appeal shall be in writing and shall set forth the grounds supporting the appeal.

(c) If the original or reconsidered decision is affirmed on appeal by the area or program director, the applicant shall be so notified in writing and advised that a further appeal may be taken to the Director, Indian Health Service, within 30 days of receipt of the notice. The appeal shall be in writing and shall set forth the grounds supporting the appeal. The decision of the Director, Indian Health Service, shall constitute final administrative action.

(Amended by the Office of Management and Budget under control number 0915–0107)

§ 136a.15 Health Service Delivery Areas.

(a) The Indian Health Service will designate and publish as a notice in the FEDERAL REGISTER specific geographic areas within the United States including Federal Indian reservations and areas surrounding those reservations as Health Service Delivery Areas.

(b) The Indian Health Service may, after consultation with all the Indian tribes affected, redesignate the boundaries of any Health Service Delivery Area followed by publication of a notice in the FEDERAL REGISTER. Any redesignation of a Health Service Delivery area will include the reservation, and those areas close to the reservation boundaries which can reasonably be considered part of the reservation service area based on consideration of the following factors:

1. The number of persons residing in the off-reservation area who would be eligible under §36a.12(a) (1) and (3).

2. The number of persons residing in the off-reservation area who have traditionally received health services from the Indian Health Service and whose eligibility for services would be affected;

3. The geographic proximity of the off-reservation area to the reservation; and

4. Whether the Indians residing in the off-reservation area can be expected to need and to use health services provided by the Indian Health Service given the alternate resources (health facilities and payment sources) available and accessible to them.

(c) Notwithstanding paragraphs (a) and (b) of this section, the Indian Health Service may designate States, subdivisions of States such as counties or towns, or other identifiable geographic areas such as census divisions or zip code areas, as Health Service Delivery Areas where reservations are nonexistent, or so small and scattered and the eligible Indian population so widely dispersed that it is inappropriate to use reservations as the basis for defining the Health Service Delivery Area.

(d) Any Indian tribal government may request a change in the boundaries of the Health Service Delivery
§ 136a.16 Beneficiary Identification Cards and verification of tribal membership.

(a) The Indian Health Service will issue Beneficiary Identification Cards as evidence of beneficiary status to persons who are currently eligible for services under §36a.12(a). Persons requesting Beneficiary Identification Cards must submit or have on file evidence satisfactory to the Indian Health Service of tribal membership and residence within a Health Service Delivery Area. The absence of a Beneficiary Identification Card will not preclude an otherwise eligible Indian from obtaining services though it may delay the administrative determination that an individual is eligible for services on a no charge basis.

(b) For establishing eligibility or obtaining a Beneficiary Identification Card, applicants must demonstrate that they are members of a federally recognized tribe. Membership in a federally recognized tribe is to be determined by the individual tribe or the Bureau of Indian Affairs. Therefore, the Indian Health Service will recognize two methods of demonstrating tribal membership:

(1) Documentation that the applicant meets the requirements of tribal membership as prescribed by the charter, articles of incorporation, or other legal instruments or traditional processes of the tribe and has been officially designated a tribal member by an authorized tribal official or body; or

(2) Certification of tribal enrollment or membership by the Secretary of the Interior acting through the Bureau of Indian Affairs.

(c) Demonstrating membership in a federally recognized tribe is the responsibility of the applicant. However, the Indian Health Service may consult with the appropriate tribe or the Bureau of Indian Affairs on outstanding questions regarding an applicant’s tribal membership if the Indian Health Service has some documentation that believes it may be helpful to the tribe or the Bureau of Indian Affairs in making their determination.
