However, Medicare pays only the appropriate portion (after deduction of applicable deductible and coinsurance amounts) of the first \$500 of services furnished by such a practitioner in a year. This limitation on payment may not be a basis for finding that the needed care can only be provided in a SNF.

(b) *Examples of circumstances that meet practical matter criteria*—(1) *Beneficiary's condition*. Inpatient care would be required “as a practical matter” if transporting the beneficiary to and from the nearest facility that furnishes the required daily skilled services would be an excessive physical hardship.

(2) *Economy and efficiency*. Even if the beneficiary's condition does not preclude transportation, inpatient care might be more efficient and less costly if, for instance, the only alternative is daily transportation by ambulance.
