(f) Calculation of rates—(1) Calculation of LTCH prospective payment system amount. CMS calculates an amount payable under subpart O equivalent to an amount that would otherwise be paid under the hospital inpatient prospective payment system based on the sum of the applicable hospital inpatient prospective payment system operating standardized amount and capital Federal rate in effect at the time of the LTCH discharge.

(2) Operating inpatient prospective payment system standardized amount. The hospital inpatient prospective payment
system operating standardized amount—

(i) Is adjusted for the applicable hospital inpatient prospective payment system DRG weighting factors;

(ii) Is adjusted for different area wage levels based on the geographic classifications set forth at §412.503 and the applicable hospital inpatient prospective payment system labor-related share, using the applicable hospital inpatient prospective payment system wage index value for non-reclassified hospitals. For LTCHs located in Alaska and Hawaii, this amount is also adjusted by the applicable hospital inpatient prospective payment system cost of living adjustment factors;

(iii) Includes, where applicable, adjustments for indirect medical education costs and the costs of serving a disproportionate share of low-income patients.

(3) Hospital inpatient prospective payment system capital Federal rate. The hospital inpatient prospective payment system capital Federal rate—

(i) Is adjusted for the applicable hospital inpatient prospective payment system DRG weighting factors;

(ii) Is adjusted by the applicable geographic adjustment factors, including local cost variation based on the applicable geographic classifications set forth at §412.503 and the applicable full hospital inpatient prospective payment system wage index value for non-reclassified hospitals, applicable large urban location and cost of living adjustment factors for LTCHs for Alaska and Hawaii, if applicable;

(iii) Includes, where applicable, capital inpatient prospective payment system adjustments for indirect medical education costs and the costs of serving a disproportionate share of low-income patients.

(4) High cost outlier. An additional payment for high cost outlier cases is based on the fixed loss amount established for the hospital inpatient prospective payment system.

Except as specified in paragraph (h)(2), in the case of a long-term care hospital or a satellite facility that is paid under the provisions of this subpart on October 1, 2004 or of a hospital that is paid under the provisions of this subpart and whose qualifying period under §412.23(e) began on or before October 1, 2004, the amount paid is calculated as specified below:

(1) For each discharge during the first cost reporting period beginning on or after October 1, 2004, and before October 1, 2005, the amount paid is the amount payable under this subpart with no adjustment under this section but the hospital may not exceed the percentage of patients admitted from the host during its FY 2004 cost reporting period.

(2) For each discharge during the cost reporting period beginning on or after October 1, 2005, and before October 1, 2006, the percentage that may be admitted from the host with no payment adjustment may not exceed the lesser of the percentage of patients admitted from the host during its FY 2004 cost reporting period or 75 percent.

(3) For each discharge during the cost reporting period beginning on or after October 1, 2006, and before October 1, 2007, the percentage that may be admitted from the host with no payment adjustment may not exceed the lesser of the percentage of patients admitted from the host during its FY 2004 cost reporting period or 50 percent.

(4) For each discharge during cost reporting periods beginning on or after October 1, 2007, the percentage that may be admitted from the host with no payment adjustment may not exceed 25 percent or the applicable percentage determined under paragraph (d) or (e) of this section.

(h) Effective date of policies in this section for certain co-located LTCH hospitals and satellites of LTCHs. The policies set forth in this section apply to Medicare patient discharges that were admitted from a hospital located in the same building or on the same campus as a long-term care hospital described in §412.23(e)(2)(i) that meets the criteria in §412.22(f) and a satellite facility of a long-term care hospital as described under §412.22(h)(3)(i) for discharges occurring in cost reporting periods beginning on or after July 1, 2007.
