Centers for Medicare & Medicaid Services, HHS

§ 488.7 Validation survey.

(a) Basis for survey. CMS may require a survey of an accredited provider or supplier under paragraph (c)(1) of this section if CMS determines that a provider or supplier meets the Medicare conditions of participation. In such a case, CMS may deem the provider or supplier to be in compliance with the appropriate Medicare conditions. These providers and suppliers are subject to validation surveys under §488.7 of this subpart. CMS will publish notices in the Federal Register in accordance with §488.8(b) identifying the programs and deeming authority of any national accreditation program and the providers or suppliers it accredits. The notice will describe how the accreditation organization’s accreditation program provides reasonable assurance that entities accredited by the organization meet Medicare requirements. (See §488.5 for requirements concerning hospitals accredited by JCAHO or AOA.)

(b) Eligibility for Medicaid participation can be established through Medicare deemed status for providers and suppliers that are not required under Medicaid regulations to comply with any requirements other than Medicare participation requirements for that provider or supplier type.

(c)(1) A provider or supplier deemed to meet program requirements under paragraph (a) of this section must authorize its accreditation organization to release to CMS and the State survey agency a copy of its most current accreditation survey together with any other information related to the survey that CMS may require (including corrective action plans).

(2) CMS may determine that a provider or supplier does not meet the Medicare conditions on the basis of its own investigation of the accreditation survey or any other information related to the survey.

(3) Upon written request, CMS may disclose the survey and information related to the survey—

(i) Of any HHA; or

(ii) Of any other provider or supplier specified at paragraph (a) of this section if the accreditation survey and related survey information relate to an enforcement action taken by CMS.
