§ 45.5 Seasonal application of load lines.

For the purposes of the law and regulations prohibiting submergence of load lines (46 U.S.C. 88c; 46 CFR 42.07–10) the fresh water and salt water load lines marked under this part apply during the following seasons:

(a) Summer load lines apply April 16 through April 30 and September 16 through September 30.

(b) Except for hopper dredges operating at working freeboards in accordance with subpart C of part 44 of this chapter, the Assigning Authority may not allow for lesser freeboards.

(c) Intermediate load lines apply October 1 through October 31 and April 1 through April 15.

(d) Winter load lines apply November 1 through March 31.

§ 45.9 Seasonal application of load lines for vessels not marked under this part.

(a) For the purposes of the law and regulations prohibiting submergence of load lines (46 U.S.C. 88c; 46 CFR 42.07–10) the marks assigned to vessels holding international load line certificates apply during the following seasons:

(1) Vessels assigned freeboards as new vessels under the International Load Line Convention, 1966—
   (i) Winter—November 1 through March 31.
   (ii) Summer—April 1 through April 30 and October 1 through October 31.
   (iii) Tropical—May 1 through September 30;

(2) Vessels assigned freeboards as existing vessels under the International Load Line Convention, 1966—
   (i) Winter—November 1 through March 31;
   (ii) Summer—April 1 through April 30 and October 1 through October 31;
   (iii) Tropical—September 16 through September 30;
   (iv) Tropical Fresh—May 1 through September 15.

(b) Except for hopper dredges operating at working freeboards in accordance with subpart C of part 44 of this chapter, the Assigning Authority may not allow for lesser freeboards.

§ 45.11 Issue of load line certificate.

(a) A vessel 79 feet in length and more, and 150 gross tons or over, the keel of which is laid or which has reached a similar stage of construction
after April 14, 1973, must meet the require-
ments of this part.

(b) Except as prescribed in paragraph (a) of this section, any vessel that meets the requirements in subparts C and D of this part and the survey require-
ments in §§ 42.09–15 through 42.09–50 of this subchapter is entitled to as-
signment of freeboards and issue of a load line certificate under this part by the Commandant or his authorized repre-
sentative.

(c) A vessel, the keel of which was laid or was at a similar stage of con-
struction before April 14, 1973, that meets the requirements of this part that were in effect before April 14, 1973, and the survey requirements in §§ 42.09–15 through 42.09–50 of this subchapter is entitled to the assignment of freeboards calculated under the provi-
sions of this part in effect before April 14, 1973, and to a load line certificate issued under this part by the Com-
mandant or his authorized representa-
tive.

§ 45.13 Form of certificate.
The form of a load line certificate issued under this part is specified in appendix A to this part.

§ 45.15 Exemptions.
(a) The Commandant may exempt a ship from any of the requirements in this part if the chairman of the board of Steamship Inspections, Department of Transport, Canada, and the Com-
mandant agree that the sheltered na-
ture or the condition of that voyage make it unreasonable or impracticable to apply requirements of this part.

(b) The Commandant may exempt a vessel that embodies features of a novel kind from any of the require-
ments of this part if those require-
ments might seriously impede research into the development of such features and their incorporation in ships. Any such vessel must comply with the safety requirements that, in the opinion of the Commandant, are adequate for the service for which the vessel is intended and will insure the overall safety of the vessel. If the Commandant grants an exemption pursuant to this paragraph he communicates the details of the ex-
emption and the reasons therefor to the chairman of the board of Steam-
ship Inspections.

(c) A vessel that is not normally en-
gaged on voyages to which this part ap-
plies but that, in exceptional cir-
cumstances, is required to undertake a single such voyage between two spe-
cific ports may be exempted by the Com-
mandant from any of the require-
ments of this part, if the ship complies with safety requirements that, in the opinion of the Commandant are ade-
quate for the voyage that is to be un-
dertaken by the vessel.

(d) Unmanned dry cargo river barges carrying non-hazardous cargoes on cer-
tain routes on Lake Michigan may be exempted from load line requirements in accordance with the conditions spec-
ified in subpart E of this part.

Subpart B—Load Line Marks
§ 45.31 Deck line.
(a) Each vessel must be marked with a deck line on the outer surface of the shell on each side of the vessel with the upper edge of the line passing through the point where the upper surface of the freeboard deck intersects the outer surface of the shell or if the summer freeboard is correspondingly adjusted under § 45.57, the deck line may be placed above or below the freeboard deck. Figure 1 illustrates the deck line markings.

(b) Each deck line must be at least 12-inches long and 1-inch wide.
