§ 184.702 Pollution prevention equipment and procedures.
A vessel must comply with the applicable design, equipment, personnel, procedures, and record requirements of 33 CFR parts 151, 155, and 156.

§ 184.704 Marine sanitation devices.
A vessel with installed toilet facilities must have a marine sanitation device that complies with 33 CFR part 159.

§ 184.710 First-aid kits.
A vessel must carry either a first-aid kit approved under approval series 160.041 or a kit with equivalent contents and instructions. For equivalent kits, the contents must be stowed in a suitable, watertight container that is marked “First-Aid Kit.” A first-aid kit must be easily visible and readily available to the crew.
