Pt. 10

pool member if that pool member participates in a competing offer submitted by the pool.

(b) If a pool member submits an individual offer, independent of the pool, the contracting officer shall consider the pool agreement, along with other factors, in determining whether that pool member is a responsible prospective contractor under subpart 9.1.

PART 10—MARKET RESEARCH

Sec.

10.000 Scope of part.

10.001 Policy.

10.002 Procedures.

AUTHORITY: 40 U.S.C. 121(c); 10 U.S.C. chapter 137; and 42 U.S.C. 2473(c).

SOURCE: 60 FR 48237, Sept. 18, 1995, unless otherwise noted.

10.000 Scope of part.

This part prescribes policies and procedures for conducting market research to arrive at the most suitable approach to acquiring, distributing, and supporting supplies and services. This part implements the requirements of 41 U.S.C. 253a(a)(1), 41 U.S.C. 264b, 10 U.S.C. 2377, and 6 U.S.C. 796.

[60 FR 48237, Sept. 18, 1995, as amended at 74 FR 52849, Oct. 14, 2009]

10.001 Policy.

- (a) Agencies must—
- (1) Ensure that legitimate needs are identified and trade-offs evaluated to acquire items that meet those needs;
- (2) Conduct market research appropriate to the circumstances—
- (i) Before developing new requirements documents for an acquisition by that agency;
- (ii) Before soliciting offers for acquisitions with an estimated value in excess of the simplified acquisition threshold:
- (iii) Before soliciting offers for acquisitions with an estimated value less than the simplified acquisition threshold when adequate information is not available and the circumstances justify its cost:
- (iv) Before soliciting offers for acquisitions that could lead to a bundled contract (15 U.S.C. 644(e)(2)(A));

- (v) Before awarding a task or delivery order under an indefinite-delivery-indefinite-quantity (ID/IQ) contract (e.g., GWACs, MACs) for a noncommercial item in excess of the simplified acquisition threshold (10 U.S.C. 2377(c)); and
- (vi) On an ongoing basis, take advantage (to the maximum extent practicable) of commercially available market research methods in order to effectively identify the capabilities of small businesses and new entrants into Federal contracting that are available in the marketplace for meeting the requirements of the agency in furtherance of—
- (A) A contingency operation or defense against or recovery from nuclear, biological, chemical, or radiological attack: and
- (B) Disaster relief to include debris removal, distribution of supplies, reconstruction, and other disaster or emergency relief activities. (See 26.205).
- (3) Use the results of market research
- (i) Determine if sources capable of satisfying the agency's requirements exist;
- (ii) Determine if commercial items or, to the extent commercial items suitable to meet the agency's needs are not available, nondevelopmental items are available that—
 - (A) Meet the agency's requirements;
- (B) Could be modified to meet the agency's requirements; or
- (C) Could meet the agency's requirements if those requirements were modified to a reasonable extent;
- (iii) Determine the extent to which commercial items or nondevelopmental items could be incorporated at the component level;
- (iv) Determine the practices of firms engaged in producing, distributing, and supporting commercial items, such as type of contract, terms for warranties, buyer financing, maintenance and packaging, and marking;
- (v) Ensure maximum practicable use of recovered materials (see subpart 23.4) and promote energy conservation and efficiency; and
- (vi) Determine whether bundling is necessary and justified (see 7.107) (15 U.S.C. 644(e)(2)(A)).

- (vii) Assess the availability of electronic and information technology that meets all or part of the applicable accessibility standards issued by the Architectural and Transportation Barriers Compliance Board at 36 CFR part 1194 (see Subpart 39.2).
- (b) When conducting market research, agencies should not request potential sources to submit more than the minimum information necessary.
- (c) If an agency contemplates awarding a bundled contract, the agency—
- (1) When performing market research, should consult with the local Small Business Administration procurement center representative (PCR). If a PCR is not assigned, see 19.402 (a); and
- (2) At least 30 days before release of the solicitation or 30 days prior to placing an order without a solicitation—
- (i) Must notify any affected incumbent small business concerns of the Government's intention to bundle the requirement; and
- (ii) Should notify any affected incumbent small business concerns of how the concerns may contact the appropriate Small Business Administration representative.
- (d) See 44.402(a)(2) and 52.244-6 (Alternate I) for the requirement for a prime contractor to perform market research in contracts in excess of \$5 million for the procurement of items other than commercial items.

[60 FR 48237, Sept. 18, 1995, as amended at 64 FR 72443, Dec. 27, 1999; 65 FR 46054, July 26, 2000; 66 FR 20896, Apr. 25, 2001; 68 FR 4049, Jan. 27, 2003; 68 FR 60005, Oct. 20, 2003; 69 FR 8313, Feb. 23, 2003; 71 FR 36925, June 28, 2006; 71 FR 74676, Dec. 12, 2006; 74 FR 52849, Oct. 14, 2009; 75 FR 34278, June 16, 2010]

10.002 Procedures.

- (a) Acquisitions begin with a description of the Government's needs stated in terms sufficient to allow conduct of market research.
- (b) Market research is then conducted to determine if commercial items or nondevelopmental items are available to meet the Government's needs or could be modified to meet the Government's needs.
- (1) The extent of market research will vary, depending on such factors as

- urgency, estimated dollar value, complexity, and past experience. The contracting officer may use market research conducted within 18 months before the award of any task or delivery order if the information is still current, accurate, and relevant. Market research involves obtaining information specific to the item being acquired and should include—
- (i) Whether the Government's needs can be met by—
- (A) Items of a type customarily available in the commercial market-place:
- (B) Items of a type customarily available in the commercial market-place with modifications; or
- (C) Items used exclusively for governmental purposes;
- (ii) Customary practices regarding customizing, modifying or tailoring of items to meet customer needs and associated costs;
- (iii) Customary practices, including warranty, buyer financing, discounts, contract type considering the nature and risk associated with the requirement, etc., under which commercial sales of the products or services are made:
- (iv) The requirements of any laws and regulations unique to the item being acquired:
- (v) The availability of items that contain recovered materials and items that are energy efficient;
- (vi) The distribution and support capabilities of potential suppliers, including alternative arrangements and cost estimates; and
- (vii) Size and status of potential sources (see part 19).
- (2) Techniques for conducting market research may include any or all of the following:
- (i) Contacting knowledgeable individuals in Government and industry regarding market capabilities to meet requirements.
- (ii) Reviewing the results of recent market research undertaken to meet similar or identical requirements.
- (iii) Publishing formal requests for information in appropriate technical or scientific journals or business publications.
