

recurring and nonrecurring costs, and the effect of labor learning.

(3) The contracting officer shall establish cancellation dates for each program year's requirements regarding production lead time and the date by which funding for these requirements can reasonably be established. The contracting officer shall include these dates in the schedule, as appropriate.

(d) *Cancellation ceilings.* Cancellation ceilings and dates may be revised after issuing the solicitation if necessary. In sealed bidding, the contracting officer shall change the ceiling by amending the solicitation before bid opening. In two-step sealed bidding, discussions conducted during the first step may indicate the need for revised ceilings and dates which may be incorporated in step two. In a negotiated acquisition, negotiations with offerors may provide information requiring a change in cancellation ceilings and dates before final negotiation and contract award.

(e) *Payment of cancellation charges.* If cancellation occurs, the Government's liability will be determined by the terms of the applicable contract.

(f) *Presolicitation or pre-bid conferences.* To ensure that all interested sources of supply are thoroughly aware of how multiyear contracting is accomplished, use of presolicitation or pre-bid conferences may be advisable.

(g) *Payment limit.* The contracting officer shall limit the Government's payment obligation to an amount available for contract performance. The contracting officer shall insert the amount for the first program year in the contract upon award and modify it for successive program years upon availability of funds.

(h) *Termination payment.* If the contract is terminated for the convenience of the Government in whole, including requirements subject to cancellation, the Government's obligation shall not exceed the amount specified in the Schedule as available for contract performance, plus the cancellation ceiling.

[61 FR 39204, July 26, 1996, as amended at 62 FR 51270, Sept. 30, 1997]

17.106-2 Solicitations.

Solicitations for multiyear contracts shall reflect all the factors to be con-

sidered for evaluation, specifically including the following:

(a) The requirements, by item of supply or service, for the—

(1) First program year; and

(2) Multiyear contract including the requirements for each program year.

(b) Criteria for comparing the lowest evaluated submission on the first program year requirements to the lowest evaluated submission on the multiyear requirements.

(c) A provision that, if the Government determines before award that only the first program year requirements are needed, the Government's evaluation of the price or estimated cost and fee shall consider only the first year.

(d) A provision specifying a separate cancellation ceiling (on a percentage or dollar basis) and dates applicable to each program year subject to a cancellation (see 17.106-1 (c) and (d)).

(e) A statement that award will not be made on less than the first program year requirements.

(f) The Government's administrative costs of annual contracting may be used as a factor in the evaluation only if they can be reasonably established and are stated in the solicitation.

(g) The cancellation ceiling shall not be an evaluation factor.

17.106-3 Special procedures applicable to DoD, NASA, and the Coast Guard.

(a) *Participation by subcontractors, suppliers, and vendors.* In order to broaden the defense industrial base, to the maximum extent practicable—

(1) Multiyear contracting shall be used in such a manner as to seek, retain, and promote the use under such contracts of companies that are subcontractors, suppliers, and vendors; and

(2) Upon accrual of any payment or other benefit under such a multiyear contract to any subcontractor, supplier, or vendor company participating in such contract, such payment or benefit shall be delivered to such company in the most expeditious manner practicable.

(b) *Protection of existing authority.* To the extent practicable, multiyear contracting shall not be carried out in a

manner to preclude or curtail the existing ability of the Department or agency to provide for termination of a prime contract, the performance of which is deficient with respect to cost, quality, or schedule.

(c) *Cancellation or termination for insufficient funding.* In the event funds are not made available for the continuation of a multiyear contract awarded using the procedures in this section, the contract shall be canceled or terminated.

(d) Contracts awarded under the multiyear procedure shall be firm-fixed-price, fixed-price with economic price adjustment, or fixed-price incentive.

(e) *Recurring costs in cancellation ceiling.* The inclusion of recurring costs in cancellation ceilings is an exception to normal contract financing arrangements and requires approval by the agency head.

(f) *Annual and multiyear proposals.* Obtaining both annual and multiyear offers provides reduced lead time for making an annual award in the event that the multiyear award is not in the Government's interest. Obtaining both also provides a basis for the computation of savings and other benefits. However, the preparation and evaluation of dual offers may increase administrative costs and workload for both offerors and the Government, especially for large or complex acquisitions. The head of a contracting activity may authorize the use of a solicitation requesting only multiyear prices, *provided* it is found that such a solicitation is in the Government's interest, and that dual proposals are not necessary to meet the objectives in 17.105-2.

(g) *Level unit prices.* Multiyear contract procedures provide for the amortization of certain costs over the entire contract quantity resulting in identical (level) unit prices (except when the economic price adjustment terms apply) for all items or services under the multiyear contract. If level unit pricing is not in the Government's interest, the head of a contracting activity may approve the use of variable unit prices, provided that for competitive proposals there is a valid method of evaluation.

17.107 Options.

Benefits may accrue by including options in a multiyear contract. In that event, contracting officers must follow the requirements of subpart 17.2. Options should not include charges for plant and equipment already amortized, or other nonrecurring charges which were included in the basic contract.

17.108 Congressional notification.

(a) Except for DoD, NASA, and the Coast Guard, a multiyear contract which includes a cancellation ceiling in excess of \$12.5 million may not be awarded until the head of the agency gives written notification of the proposed contract and of the proposed cancellation ceiling for that contract to the committees on appropriations of the House of Representatives and Senate and the appropriate oversight committees of the House and Senate for the agency in question. Information on such committees may not be readily available to contracting officers. Accordingly, agencies should provide such information through its internal regulations. The contract may not be awarded until the thirty-first day after the date of notification.

(b) For DoD, NASA, and the Coast Guard, a multiyear contract which includes a cancellation ceiling in excess of \$125 million may not be awarded until the head of the agency gives written notification of the proposed contract and of the proposed cancellation ceiling for that contract to the committees on armed services and on appropriations of the House of Representative and Senate. The contract may not be awarded until the thirty-first day after the date of notification.

[61 FR 39204, July 26, 1996, as amended at 71 FR 57367, Sept. 28, 2006; 75 FR 53133, Aug. 30, 2010]

17.109 Contract clauses.

(a) The contracting officer shall insert the clause at 52.217-2, Cancellation Under Multiyear Contracts, in solicitations and contracts when a multiyear contract is contemplated.

(b) *Economic price adjustment clauses.* Economic price adjustment clauses are adaptable to multiyear contracting
