including a description of market research performed and which standards cannot be met, and provide documentation to the contracting officer for inclusion in the contract file.

39.204 Exceptions.

The requirements in 39.203 do not apply to EIT that—

(a) Is purchased in accordance with Subpart 13.2 (micro-purchases) prior to April 1, 2005. However, for micro-purchases, contracting officers and other individuals designated in accordance with 1.603-3 are strongly encouraged to comply with the applicable accessibility standards to the maximum extent practicable;

(b) Is for a national security system;

(c) Is acquired by a contractor incidental to a contract;

(d) Is located in spaces frequented only by service personnel for maintenance, repair or occasional monitoring of equipment; or

(e) Would impose an undue burden on the agency.

(1) *Basis.* In determining whether compliance with all or part of the applicable accessibility standards in 36 CFR part 1194 would be an undue burden, an agency must consider—

(i) The difficulty or expense of compliance; and

(ii) Agency resources available to its program or component for which the supply or service is being acquired.

(2) *Documentation.* (i) The requiring official must document in writing the basis for an undue burden decision and provide the documentation to the contracting officer for inclusion in the contract file.

(ii) When acquiring commercial items, an undue burden determination is not required to address individual standards that cannot be met with supplies or service available in the commercial marketplace in time to meet the agency delivery requirements (see 39.203(c)(2) regarding documentation of nonavailability).

Subpart 41.1—General

41.100 Scope of part.

This part prescribes policies, procedures, and contract format for the acquisition of utility services. (See 41.102(b) for services that are excluded from this part.)

41.101 Definitions.

As used in this part,

Areawide contract means a contract entered into between the General Services Administration (GSA) and a utility service supplier to cover utility service needs of Federal agencies within the franchise territory of the supplier. Each areawide contract includes an "Authorization" form for requesting service, connection, disconnection, or change in service.

Authorization means the document executed by the ordering agency and the utility supplier to order service under an areawide contract.

Connection charge means all non-recurring costs, whether refundable or nonrefundable, to be paid by the Government to the utility supplier for the required connecting facilities, which are installed, owned, operated, and maintained by the utility supplier (see Termination liability).

Delegated agency means an agency that has received a written delegation of authority from GSA to contract for utility services for periods not exceeding ten years (see 41.103(b)).

Federal Power and Water Marketing Agency means a Government entity that produces, manages, transports, controls, and sells electrical and water supply service to customers.

Franchise territory means a geographical area that a utility supplier has a right to serve based upon a franchise, a certificate of public convenience and necessity, or other legal means.

Intervention means action by GSA or a delegated agency to formally participate in a utility regulatory proceeding on behalf of all Federal executive agencies.

Multiple service locations means the various locations or delivery points in the utility supplier's service area to which it provides service under a single contract.

Rates may include rate schedules, riders, rules, terms and conditions of service, and other tariff and service charges, e.g., facilities use charges.

Separate contract means a utility services contract (other than a GSA areawide contract, an Authorization under an areawide contract, or an interagency agreement) to cover the acquisition of utility services.

Termination liability means a contingent Government obligation to pay a utility supplier the unamortized portion of a connection charge and any other applicable nonrefundable service charge as defined in the contract in the event the Government terminates the contract before the cost of connection facilities has been recovered by the utility supplier (see "Connection charge").

Utility service means a service such as furnishing electricity, natural or manufactured gas, water, sewerage, thermal energy, chilled water, steam, hot water, or high temperature hot water. The application of part 41 to other services (e.g., rubbish removal, snow removal) may be appropriate when the acquisition is not subject to the Service Contract Act of 1965 (see 37.107).

41.102 Applicability.

(a) Except as provided in paragraph (b) of this section, this part applies to the acquisition of utility services for the Government, including connection charges and termination liabilities.

(b) This part does not apply to—

(1) Utility services produced, distributed, or sold by another Federal agency. In those cases, agencies shall use interagency agreements (see 41.206);

(2) Utility services obtained by purchase, exchange, or otherwise by a Federal power or water marketing agency incident to that agency's marketing or distribution program;

(3) Cable television (CATV) and telecommunications services;

(4) Acquisition of natural or manufactured gas when purchased as a commodity;

(5) Acquisition of utilities services in foreign countries;

(6) Acquisition of rights in real property, acquisition of public utility facilities, and on-site equipment needed for the facility's own distribution system, or construction/maintenance of Government-owned equipment and real property; or

(7) Third party financed shared-savings projects authorized by 42 U.S.C. 8287. However, agencies may utilize part 41 for any energy savings or purchased utility service directly resulting from implementation of a third party financed shared-savings project
